**Item 7.01 Regulation FD**

Clean Coal Technologies, Inc. (the Company) and Jindal Steel and Power Ltd. (Jindal) have signed a 25-year Technology License Agreement (TLA). Under the TLA, the Company will receive an on-going royalty fee of one dollar (\$1.00) per metric ton on all coal processed from Jindal majority-owned mines in the ASEAN region, up to four million tons or four million dollars (\$4,000,000) per annum with a waiver of additional royalty fees on further processed coal up to a total of eight million tons per year. If coal processing increases above eight million tons per year, the royalty will be reinstated and the parties have agreed to review the rate.

In addition to the royalty fee, Jindal will pay the Company a one-time license fee of seven-hundred and fifty million dollars (\$750,000). The license fee will be paid in two installments as follows: a) three-hundred and seventy-five thousand dollars (\$375,000) upon signing of a pilot plant construction contract and b) three-hundred and seventy-five thousand dollars (\$375,000) upon the successful testing of Jindal's Indonesian coal at the pilot plant. Construction of the pilot plant in Oklahoma will commence immediately upon execution of the construction contract which is expected to be signed during April. Plant construction is scheduled to be completed within 16 to 24 weeks and the testing of the Jindal coal is expected to take place before the end of 2012.

A press release announcing this TLA agreement is attached to this report as an exhibit.
