PART III — NARRATIVE

State below in reasonable detail why Forms 10-K, 20-F, 11-K, 10-Q, 10-D, N-SAR, N-CSR, or the transition report or portion thereof, could not be filed within the prescribed time period.

AeroGrow International, Inc. (the "Company") was not able to timely file its Quarterly Report on Form 10-Q (the "Form 10-Q") for the three months ended September 30, 2009, by November 16, 2009, the prescribed due date, because of recent developments related to the matter discussed below that the Company is in the process of addressing and which have diverted necessary resources from the completion of the Form 10-Q.

As of September 30, 2009, the Company was not in compliance with a financial covenant prescribed by its revolving credit facility from FCC, LLC d/b/a First Capital ("FCC"). The Company has been in discussions with FCC regarding an amendment to the terms and conditions of the revolving credit facility, and expects to finalize an amendment with FCC shortly. The discussions with FCC, subsequent negotiations, and documentation of the amendment have diverted necessary resources from the completion of the Company's Form 10-Q.

The Company expects that its Form 10-Q will be filed within five calendar days following the prescribed due date.

If answer is no, identify report(s). Yes No

(3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof? Yes No

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

For the three months ended September 30, 2009, the Company's sales totaled \$3,285,949, a 76.3% decrease from the same period in the prior year. The decline in sales reflected an 84.1% reduction in sales to retailers, caused in part by the decline in economic activity associated with the global recession, which adversely affected the levels of consumer spending and retailer procurement relative to the prior year period. In addition, sales to retailers relative to the prior year period declined because of a comparison to the 2008 period during which retailers took large stocking orders in anticipation of the holiday shopping season. In 2009, retailers are delaying orders until later in the year, and ordering inventories on a just-in-time, replenishment basis, rather than placing large stocking orders. In addition, the Company experienced a decline in the number of retail storefronts carrying its products, from approximately 9,000 at September 30, 2008 to approximately 3,600 at September 30, 2009, reflecting a shift in stocking strategy by many retail chains to focus inventory investment on more traditional consumer product categories. The Company's direct-to-consumer sales were up slightly from the prior year, despite a 25.9% reduction in the amount of revenue-generating media spending during the period. The increase in sales was driven by strong direct-to-consumer sales of seed kits and accessories, reflecting continued strength in the recurring revenue portion of the Company's direct-to-consumer business as the cumulative number of AeroGardens sold continued to increase, to 852,092 as of September 30, 2009. As a percent of total revenue, seed kits and accessories represented 28.7% for the three months ended September 30, 2009, up from 18.6% in the prior year period.

The gross margin for the three months ended September 30, 2009 was 30.9% as compared to 42.1% for the year earlier period. The decline reflected changes in channel, customer, and product mix, as well as the impact of fixed facility costs in the Company's Indianapolis, Indiana manufacturing and distribution facility that became fully operational in September 2008, on a lower revenue base in the current year period. Operating expenses other than cost of revenue were reduced \$2,419,382, or 46.6%, from the prior year reflecting cost saving initiatives and staffing reductions.

The loss from operations totaled \$1,759,845 for the three months ended September 30, 2009, as compared to an operating profit of \$633,985 in the prior year period. The increased loss principally reflected the impact of the decline in revenue and the lower gross margin, which, in combination, more than offset the significant decrease in operating expenses other than cost of revenue.

The net loss for the three months ended September 30, 2009 was \$1,765,254 as compared to a net profit of \$418,370 in the same period a year earlier.
