This platform is set to become the leading player in employee savings account administration in France, with more than four million accounts under management and over 300 employees. This joint venture will allow the four partners to take advantage of excellent growth opportunities offered by the employee savings market. The aim is to provide a growing number of companies and employees with a comprehensive range of high quality services, to support the expansion of employee savings and to provide a centralised account management service in association with several fund management companies.

The platform will allow the pooling of administration resources while at the same time allowing the partners to continue to distribute own-branded products to their own clients. Partners will be charged for the administration services received.

The Chairman and Chief Executive Officer of the joint venture will be Nicole Roosz-Longobardi, with Xavier Colomer appointed as Deputy Chief Executive Officer and Veronique Raby-Lemoine as Chief Operating Officer (HSBC).
