Notes to the interim financial statements

1 Basis of preparation

The financial information set out in this press release does not constitute statutory financial statements for the half years ended 31 December 2006 or 2005, for the purpose of the Companies Act 1985. Statutory financial statements for the year ended 30 June 2006 have been filed with the Registrar of Companies. The Group's auditors have reported on those accounts; their reports were unqualified and did not contain statements under s. 237(2) or (3) Companies Act 1985.

Whilst the financial information included in this press release has been prepared in accordance with International Financial Reporting Standards ("IFRS"), this announcement does not itself contain sufficient information to comply with IFRS.

To provide a more relevant presentation, management has chosen to re-analyse the revenue categories from those previously reported. Other revenue now principally includes income from Easynet Enterprise, Sky Active and technical platform service revenue.

Administration	208	154	348
	1,825	1,602	3,271

Included within programming for the half year ended 31 December 2006 is a GBP65 million credit due to the Group arising from certain contractual rights under one of the Group's channel distribution agreements. This item was previously disclosed as a contingent asset in the Group's June 2006 financial statements.

Included within administration for the half year ended 31 December 2006 is GBP6 million of expense relating to the legal costs of the Group's claim against EDS (an information and technology solutions provider (see note 8b)).

Dilutive ordinary shares from share options 1 2 5
Diluted shares 1,763 1,847 1,832

The calculation of diluted earnings per share excludes 21 million share options (2005/06: half year 34 million; full year 37 million), which could potentially dilute earnings per share in the future. These options do not currently have a dilutive effect as the exercise price of the options exceeds the average market price of ordinary shares during the period.

Basic and diluted earnings per share is calculated by dividing profit for the period into the weighted average number of shares for the period. In order to provide a measure of underlying performance, management have chosen to present an adjusted profit for the year which excludes items that may distort comparability. Such items arise from events or transactions that fall within the ordinary activities of the Group but which management believes should be separately identified to help explain underlying performance.

8 Other matters

a) Contingent liabilities

The Group has contingent liabilities by virtue of its investments in joint ventures and associates that are unlimited companies, or partnerships, which include The History Channel (U.K.), Paramount U.K. and NGC-U.K.. The Group's share of contingent liabilities of its joint ventures and associates incurred jointly with the other investors is nil (2005/06: half year nil; full year nil).

The Directors do not expect any material loss to arise from the above contingent liabilities.

b) Contingent assets

The Group has served a claim for a material amount against EDS (an information and technology solutions provider) which provided services to the Group as part of the Group's investment in customer management systems software and infrastructure. The amount which may be recovered by the Group will not be finally determined until resolution of the claim.

c) Changes in estimates

There have been no material changes in estimates of amounts reported in the six months ended 31 December 2006 or in the year ended 30 June 2006.
