The financial information below for the year ended 30 June 2008 is derived from our audited financial statements. ## 5

**Impairment of available-for-sale investment**

The Group's investment in ITV is carried at fair value. The fair value of ITV is determined with reference to its equity share price at the balance sheet date. An impairment was first recorded following a review of the carrying value of the investment in ITV at 31

December 2007, due to the significant and prolonged decline in the equity share price. In accordance with IFRS, the Group has continued to review that carrying value throughout fiscal 2008 and fiscal 2009 and during the period has recognised an impairment loss of £59 million (2008: half year £343 million; full year £616 million). The impairment loss was determined with reference to ITV's closing equity share price of 39 pence at 24 December 2008, the last trading day of the Group's fiscal half year.

In accordance with IAS 39, the effect of any further decline in the value of the equity share price of ITV will be recognised in the income statement at the relevant future balance sheet date. On 26th January 2009, the closing equity share price of ITV was 30 pence.

**10****Other matters****a)****Contingent assets**

The Group has served a claim for a material amount against EDS (an information and technology solutions provider) which provided services to the Group as part of the Group's investment in customer management systems software and infrastructure. The amount which may be recovered by the Group will not be finally determined until resolution of the claim.

**b)****Contingent liabilities**

On 7 May 2008 the Nomenclature Committee of the European Commission issued an Explanatory Note "EN" (0590/2007) to the Combined Nomenclature setting out their view that set-top boxes with a hard drive should be classified under Customs Tariff heading 8521 90 00 and so subject to a 13.9% ad valorem duty on importation to the European Union. As a consequence the Group is exposed to potential retrospective Customs Duty liability in respect of such set-top boxes imported by Amstrad Plc (acquired in September 2007) and for the reimbursement of certain suppliers in line with the terms of contractual supply agreements.

Management's opinion is that the retrospective application of the Explanatory Note would be wrong as a matter of law. In addition management considers that the adoption of the EN puts the EU in breach of the Information Technology Agreement of 1996, a view which is shared by the

US

and

Japan

who have instigated WTO proceedings against the EU on this matter. The Group therefore is, in common with other affected importers, defending its position on this matter and consequently has lodged an appeal to the VAT & Duties Tribunal regarding classification of these products.

As a result of the potential remedies available under the Community Customs Code, the Group considers that in the event that an assessment is made for import duty relating to imports prior to 7 May 2008, it is probable that no outflow of economic benefit would be required to discharge this obligation, and that as such at 31 December 2008 any liability should be considered contingent.
