Re: Application of Wisconsin Energy Corporation and W.E. Power, LLC on Form U-1 Under the Public Utility Holding Company Act of 1935 (File No. 70-10276)

Ladies and Gentlemen:

We are furnishing this opinion to the Securities and Exchange Commission (the Commission) at the request of Wisconsin Energy Corporation, a Wisconsin corporation (Wisconsin Energy), and W.E. Power, LLC, a Wisconsin limited liability company (W.E. Power), in connection with their Application/Declaration on Form U-1, as amended (File No. 70-10276) (the Application), under the Public Utility Holding Company Act of 1935, as amended (the Act). The Application requests that the Commission authorize a proposed transaction, as further described in the Application (the Transaction), in which W.E. Power will directly own, and Wisconsin Energy will indirectly own through W.E. Power, Port Washington Generating Station, LLC, a Wisconsin limited liability company (Project Company), which, once its generating and interconnection facilities become operational, will be an electric utility company under the Act. Additionally, W.E. Power requests an order from the Commission establishing its Section 3(a)(1) exemption from registration under the Act following the Transaction and WEC requests an order from the Commission affirming its continued Section 3(a)(1) exemption from registration under the Act following the Transaction. Capitalized terms that are used but not defined herein have the meanings assigned to them in the Application.

In connection with this opinion, we have examined such corporate records, certificates and other documents, and such questions of fact and matters of law, as we have deemed necessary for purposes of this opinion.

The opinions expressed below with respect to the Transaction are subject to and rely upon the following assumptions and conditions:

Page 2

- (a) All required approvals, authorizations, consents, certificates, rulings and orders of, and all filings and registrations with, all applicable federal and state commissions and regulatory authorities with respect to the Transaction shall have been obtained or made, as the case may be (including the approval and authorization of the Commission under the Act), and the Transaction shall have been accomplished in accordance with all such approvals, authorizations, consents, certificates, orders, filings and registrations.
- (b) All corporate formalities required by state law for the consummation of the Transaction shall have been taken.
- (c) The parties shall have obtained all consents, waivers and releases, if any, required for the Transaction under all applicable governing corporate documents, contracts, agreements, debt instruments, indentures, franchises, licenses and permits.
- (d) The representations and warranties of the parties to the Transaction in the documents providing for the Transaction are true and correct in all material respects.
- (e) Project Company shall have become an electric utility company under the Act on account of its generating and interconnection facilities becoming operational.

Based upon the foregoing, and subject to the assumptions and conditions set forth herein, it is our opinion that:

1. Wisconsin Energy is a corporation validly existing under the laws of the State of Wisconsin. Each of W.E. Power and Project Company is a limited liability company validly existing under the laws of the State of Wisconsin.
2. Upon the Transaction being consummated as contemplated by the Application:
  - (a) All State laws applicable to the Transaction will have been complied with;
  - (b) The member units representing membership interests in Project Company will be validly issued, and W.E. Power will be entitled to the rights and privileges appertaining thereto set forth in the articles of organization and operating agreement of Project Company;
  - (c) W.E. Power will have legally acquired all the membership interests in Project Company; and

- (d) The consummation of the Transaction will not violate the legal rights of the holders of any securities issued by Wisconsin Energy, W.E. Power or any associate company thereof.

Very truly yours,
