The Unitil Corporation Tax Deferred

Savings and Investment Plan

We have audited the accompanying statements of assets available for benefits of The Unitil Corporation Tax Deferred Savings and Investment Plan (the Plan ) as of December 31, 2004 and 2003, and the related statements of changes in assets available for benefits for each of the three years in the period ended December 31, 2004. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the assets available for benefits of The Unitil Corporation Tax Deferred Savings and Investment Plan as of December 31, 2004 and 2003, and the changes in assets available for benefits for each of the three years in the period ended December 31, 2004, in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets held for investment purposes as of December 31, 2004 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan s management. Such supplemental schedule has been subjected to the auditing procedures applied in our audits of the basic financial statements and, in our opinion, is fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

NOTE A - DESCRIPTION OF PLAN - Continued

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100 percent vested after three years of credited service. If a participant terminates employment for any reason other than disability or retirement, he will be entitled to the full amount of contributions he has deposited, plus a percentage of his account balance derived from employer contributions based upon the following schedule:

| <u>Years of Service</u> | <u>% Vested</u> |
|-------------------------|-----------------|
| 0-1                     | 0%              |
| 1-2                     | 33%             |
| 2-3                     | 67%             |
| 3+                      | 100%            |

A member will become 100% vested in his account as a result of disability, death or retirement.

Participant Loans Receivable

Participants may borrow from their account balances a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from 1-5 years or up to 15 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate that is fixed at the origination of the loan at the then prime rate plus one percent (1%). Principal and interest is paid ratably through monthly payroll deductions. As of December 31, 2004, there are 101 loans to participants, maturing from 2005 to 2019 with interest rates ranging between 5.00% and 10.50%.

Payment of Benefits

## Edgar Filing: UNITIL CORP - Form 11-K

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a fixed number of calendar quarters or years. Payments are generally received in cash. Participants can elect to receive in-kind distributions of employer securities.

### Forfeitures

A member who terminates his employment prior to becoming eligible for benefits and does not have a 100% vested right to Company contributions, forfeits the amounts not vested. Such forfeited amounts are used to reduce future Company contributions. Forfeited amounts used to reduce future Company contributions were \$11,875, \$28,058 and \$1,390 in 2004, 2003 and 2002, respectively.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Effective Date

The Plan's effective date is July 1, 1987, as amended and restated effective July 30, 2004 to comply with the current Federal regulations.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis in accordance with accounting principles generally accepted in the United States of America.

Management Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and income and expenses during the reporting period. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan is administered by a trustee. The Plan's investments (including investments bought, sold and held during the year) are carried at current quoted fair value. The difference between current fair value and the cost of investments are included in net appreciation or (depreciation) in fair value of investments.

## Edgar Filing: UNITIL CORP - Form 11-K

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Loans to participants are valued at principal plus accrued interest, which approximates fair value.

### Payment of Benefits

Benefit payments to participants are recorded when paid.

### Risks and Uncertainties

The plan provides for various investment options in any combination of stocks, bonds, fixed income securities, mutual funds and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the statement of net assets available for plan benefits.
