Notes to **Financial Statements** | **April 30, 2005** (unaudited)

Note 1 **Organization:**

Advent Claymore Convertible Securities and Income Fund (the Fund) was organized as a Delaware statutory trust on February 19, 2003. The Fund is registered as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended.

Note 2 **Accounting Policies:**

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from these estimates.

The following is a summary of significant accounting policies followed by the Fund.

(a) Valuation of Investments

Equity securities listed on an exchange are valued at the last reported sale price on the primary exchange on which they are traded. Equity securities traded on an exchange for which there are no transactions on a given day are valued at the mean of the closing bid and asked prices. Securities traded on NASDAQ are valued at the NASDAQ Official Closing Price. Equity securities not listed on a securities exchange or NASDAQ are valued at the mean of the closing bid and asked prices. Preferred equity securities are valued at the mean of the closing bid and asked prices. Debt securities are valued by independent pricing services or dealers using the mean of the closing bid and asked prices for such securities or, if such prices are not available, at prices for securities of comparable maturity, quality and type. For those securities where quotations or prices are not available, valuations are determined in accordance with procedures established in good faith by the Board of Trustees. Futures contracts are valued using the settlement price established each day on the exchange on which they are traded. Short-term securities with remaining maturities of 60 days or less are valued at amortized cost, which approximates market value.

(b) Investment Transactions and Investment Income

Investment transactions are accounted for on the trade date. Realized gains and losses on investments are determined on the identified cost basis. Dividend income is recorded on the ex-dividend date and interest income is recorded on an accrual basis. Discounts or premiums on debt securities purchased are accreted or amortized to interest income over the lives of the respective securities using the effective interest method.

(c) Currency Translation

Assets and liabilities denominated in foreign currencies are translated into U.S. dollars at the mean of the bid and asked price of respective exchange rates on the last day of the period. Purchases and sales of investments denominated in foreign currencies are translated at the exchange rate on the date of the transaction.

Foreign exchange gain or loss resulting from the sale of an investment, holding of a foreign currency, expiration of a currency exchange contract, difference in exchange rates between the trade date and settlement date of an investment purchased or sold, and the difference between dividends actually received compared to the amount shown in a Fund's accounting records on the date of receipt are shown as net realized gains or losses on foreign currency translations in the respective Fund's statement of operations.

Foreign exchange gain or loss on assets and liabilities, other than investments, are shown as unrealized appreciation (depreciation) on foreign currency translations.

(d) Swaps

The Fund may enter into swap agreements to manage its exposure to interest rates and/or credit risk. A swap is an agreement to exchange the return generated by one instrument for the return generated by another instrument. Interest rate swap agreements involve the exchange by the Fund with another party of their respective commitments to pay or receive interest. The swaps are valued weekly at current market value and any unrealized gain or loss is included in the Statement of Assets and Liabilities. Gain or loss is realized on the termination date of the swap and is equal to the difference between the Fund's basis in the swap and the proceeds of the closing transaction, including any fees. During the period that the swap agreement is open, the Fund may be subject to risk from the potential inability of the counterparty to meet the terms of the agreement. The swaps involve elements of both market and credit risk in excess of the amounts reflected on the Statements of Assets and Liabilities.

Realized gain (loss) upon termination of swap contracts is recorded on the Statement of Operations. Fluctuations in the value of swap contracts are recorded as a component of net change in unrealized appreciation (depreciation) of swap contracts. Net periodic payments received by the Fund are included as part of realized gains (losses) and/or unrealized appreciation (depreciation) on the Statement of Operations.

(e) Securities Lending

The Fund may lend its securities to broker-dealers and financial institutions. The loans are collateralized by cash or securities at least equal at all times to the market value of the securities loaned. The Fund may bear the risk of delay in recovery of, or loss of rights in, the securities loaned should the borrower of the securities experience financial difficulty. The Fund receives compensation for lending its securities in the form of fees or it retains a portion of interest on the investment of any cash received as collateral. The Fund also continues to receive interest and dividends on the securities loaned, and any gain or loss in the market price of the securities loaned that may occur during term of the loan will be for the account of the Fund. During the period ended April 30, 2005 the Fund maintained a securities lending agreement with Lehman Brothers acting as the counterparty. As of April 30, 2005, the Fund loaned securities with a fair value of approximately \$80,617,000 and received as collateral securities with a fair value of approximately \$80,947,000.

(f) Concentration of Risk

It is the Fund's policy to invest a significant portion of its assets in convertible securities. Although convertible securities do derive part of their value from that of the securities into which they are convertible, they are not considered derivative financial instruments. However, certain of the Fund's investments include features which render them more sensitive to price changes in their underlying securities. Consequently, this exposes the Fund to greater downside risk than traditional convertible securities, but still less than that of the underlying common stock.

Note 3 Investment Management Agreement, Servicing Agreement and Other Agreements:

Pursuant to the Investment Management Agreement (the "Agreement") between the Fund and Advent Capital Management, LLC, the Fund's investment advisor (the "Advisor"), the Advisor is responsible for the daily management of the Fund's portfolio of investments, which includes buying and selling securities for the Fund, as well as investment research. The Advisor will receive an annual fee from the Fund based on the average value of the Fund's Managed Assets which includes the amount from the issuance of the Preferred Shares. In addition, subject to the approval of the Fund's Board of Trustees, a pro rata portion of the salaries, bonuses, health insurance, retirement benefits and similar employment costs for the time spent on Fund operations (other than the provision of services required under the Agreement) of all personnel employed by the Advisor who devote substantial time to Fund operations may be reimbursed by the Fund to the Advisor. For the six months ended April 30, 2005, no one has been reimbursed by the Fund. The annual fee will be determined as follows:

- (a) If the average value of the Fund's Managed Assets (calculated monthly) is greater than \$250 million, the fee will be a maximum amount equal to 0.54% of the average value of the Fund's Managed Assets. In addition, the Advisor has voluntarily agreed to waive receipt of a portion of the management fee or other expenses of the Fund in the amount of 0.115% of the average value of the Managed Assets for the first five years of the Fund's operations and for a declining amount for an additional three years.
- (b) If the average value of the Fund's Managed Assets (calculated monthly) is \$250 million or less, the fee will be a maximum amount equal to 0.55% of the average value of the Fund's Managed Assets. In addition, the Advisor has voluntarily agreed to waive receipt of a portion of the management fee or other expenses of the Fund in the amount of 0.025% of the average value of the Managed Assets for the first five years of the Fund's operations, after which the Advisor anticipates that it will not waive any portion of the management fee.

Pursuant to a Servicing Agreement between the Fund and Claymore Securities, Inc., the Fund's servicing agent (the "Servicing Agent"), the Servicing Agent will act as servicing agent to the Fund. The Servicing Agent will receive an annual fee from the Fund, which will be based on

Edgar Filing: ADVENT CLAYMORE CONVERTIBLE SECURITIES & INCOME FUND - Form N-CSRS

the average value of the Fund's Managed Assets. The fee will be determined as follows:

- (a) If the average value of the Fund's Managed Assets (calculated monthly) is greater than \$250 million, the fee will be a maximum amount equal to 0.21% of the average value of the Fund's Managed Assets. In addition, the Servicing Agent has voluntarily agreed to waive receipt of a portion of the servicing fee of the Fund in the amount of 0.085% of the average value of the Managed Assets for the first five years of the Fund's operations and for a declining amount for an additional three years.
- (b) If the average value of the Fund's Managed Assets (calculated monthly) is \$250 million or less, the fee will be a maximum amount equal to 0.20% of the average value of the Fund's Managed Assets. In addition, the Servicing Agent has voluntarily agreed to waive receipt of a portion of the servicing fee of the Fund in the amount of 0.175% of the average value of the Managed Assets for the first five years of the Fund's operations and for a declining amount for an additional three years.

The fee waivers of the Advisor and the Servicing Agent are contractual commitments of more than one year.

The Bank of New York (BNY) acts as the Fund s custodian, administrator and transfer agent. As custodian, BNY is responsible for the custody of the Fund s assets. As administrator, BNY is responsible for maintaining the books and records of the Fund s securities and cash. As transfer agent, BNY is responsible for performing transfer agency services for the Fund.

Note 4 Federal Income Taxes:

The Fund intends to comply with the requirements of Subchapter M of the Internal Revenue Code of 1986, as amended, applicable to regulated investment companies. Accordingly, no provision for U.S. federal income taxes is required. In addition, by distributing substantially all of its ordinary income and long-term capital gains, if any, during each calendar year, the Fund intends not to be subject to U.S. federal excise tax.

At April 30, 2005, the cost and related gross unrealized appreciation and depreciation on investments excluding swap agreements are as follows:

<u>Cost of Investments</u>	<u>Gross Unrealized Appreciation</u>	<u>Gross Unrealized Depreciation</u>	<u>Net Unrealized Appreciation On Investments</u>
\$ 835,676,219	\$ 34,164,578	\$ (25,304,662)	\$ 8,859,916

For federal income tax purposes as of October 31, 2004, the Fund has a capital loss carryforward of \$3,095,426, which expires October 31, 2012. Capital loss carryforwards are available to offset future capital gains, if any.

Note 5 Investments in Securities:

For the six months ended April 30, 2005, purchases and sales of investments, other than short-term securities, were \$250,627,039 and \$250,138,920, respectively.

The Fund entered into interest rate swap agreements during the six months ended April 30, 2005 as a hedge against rising short-term interest rates which impact the rates the Fund pays on its Auction Preferred Shares. As of April 30, 2005, the Fund has a total swap notional value of \$220,000,000 outstanding which represents 80% of the preferred shares. Details of the swap agreements outstanding as of April 30, 2005 were as follows:

<u>Counterparty</u>	<u>Termination Date</u>	<u>Notional Amount (000)</u>	<u>Fixed Rate</u>	<u>Floating Rate</u>	<u>Unrealized Appreciation (Depreciation)</u>

Note 6 **Capital:**

Common Shares

The Fund has an unlimited amount of common shares, \$0.001 par value, authorized and 23,352,574 issued and outstanding. In connection with the Fund's dividend reinvestment plan, the Fund did not issue any shares during the six months ended April 30, 2005.

Preferred Shares

On June 19, 2003, the Fund's Board of Trustees authorized the issuance of preferred shares, as part of the Fund's leverage strategy. Preferred shares issued by the Fund have seniority over the common shares.

On July 24, 2003, the Fund issued 2,150 shares of Preferred Shares Series M7, 2,150 shares of Preferred Shares Series T28, 2,150 shares of Preferred Shares Series W7 and 2,150 shares of Preferred Shares Series TH28, each with a liquidation value of \$25,000 per share plus accrued dividends. In addition, on March 16, 2004, the Fund issued 1,200 shares of Preferred Shares Series F7 and 1,200 shares of Preferred Shares Series W28 each with a liquidation value of \$25,000 per share plus accrued dividends.

AVK | Advent Claymore Convertible Securities and Income Fund | **Notes to Financial Statements** continued (unaudited)

Dividends are accumulated daily at a rate set through an auction process.

For the six months ended April 30, 2005, the annualized dividend rates range from:

	<u>High</u>	<u>Low</u>	<u>At April 30, 2005</u>
Series M7	3.30%	1.85%	3.05%
Series T28	3.19%	1.95%	3.19%
Series W7	3.41%	1.87%	2.95%
Series W28	3.41%	1.90%	3.18%
Series TH28	3.41%	1.95%	3.29%
Series F7	3.25%	1.85%	3.08%

The Fund is subject to certain limitations and restrictions while Preferred Shares are outstanding. Failure to comply with these limitations and restrictions could preclude the Fund from declaring any dividends or distributions to common shareholders or repurchasing common shares and/or could trigger the mandatory redemption of Preferred Shares at their liquidation value.

Preferred Shares, which are entitled to one vote per share, generally vote with the common stock but vote separately as a class to elect two Trustees and on any matters affecting the rights of the Preferred Shares.

Note 7 Indemnifications:

In the normal course of business, the Fund enters into contracts that contain a variety of representations, which provide general indemnifications. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. However, the Fund expects the risk of loss to be remote.

Note 8 Subsequent Event:

Subsequent to April 30, 2005, the Fund declared on May 2 and June 1, monthly dividends of \$0.1718 per common share. These dividends are payable on May 31 and June 30 to shareholders of record on May 13 and June 17, respectively.

Note 9 Investment Management Agreement Contract Re-approval:

Section 15(c) of the Investment Company Act of 1940, as amended (the 1940 Act) contemplates that the Board of Trustees (the Board) of the Fund, including a majority of the Trustees who have no direct or indirect interest in the investment management agreement and are not interested persons of the Fund, as defined in the 1940 Act (the Independent Trustees), are required to annually review and re-approve the terms of the Fund's existing investment advisory agreement and approve any newly proposed terms therein. In this regard, the Board reviewed and

re-approved, during the most recent six month period covered by this report, the investment management agreement (the Management Agreement) with the Advisor for the Fund.

More specifically, at a meeting held on March 8, 2005, the Board, including the Independent Trustees advised by their independent legal counsel, considered the factors and reached the conclusions described below relating to the selection of the Advisor and the re-approval of the Advisory Agreement.

Nature, Extent and Quality of Services

The Board received and considered various data and information regarding the nature, extent and quality of services provided to the Fund by the Advisor under the Management Agreement. Responses of the Advisor to a detailed series of requests submitted by the Independent Trustees independent legal counsel on behalf of such Trustees were provided to the Board. The Board reviewed and analyzed these materials which included, among other things, information about the background and experience of the senior management and the expertise of, and amount of attention devoted to the Fund by, investment personnel of the Advisor. In this regard, the Board specifically reviewed the qualifications, background and responsibilities of the investment officers primarily responsible for day-to-day portfolio management services for the Fund.

The Board evaluated the ability of the Advisor, including its resources, reputation and other attributes, to attract and retain highly qualified investment professionals, including research, advisory and supervisory personnel. In this connection, the Board considered information regarding the Advisor's compensation structure for its personnel involved in the management of the Fund.

Based on the above factors, together with those referenced below, the Board concluded that it was generally satisfied with the nature, extent and quality of the investment management services provided to the Fund by the Advisor.

Fund Performance and Expenses

The Board considered the most recent one year, three-month and year-to-date performance results for the Fund. It also considered these results in comparison to the performance results of a group of seven other closed-end funds that were determined to be the most similar to the Fund (the Peer Group). The Board noted that the Fund's total returns for the one-year and three-month periods based on net asset value were well in excess of the Peer Group average, as was the one-year total return based on market value.

The Board received and considered statistical information regarding the Fund's total expense ratio (based on net assets applicable to common shares) and its various components. It also considered comparisons of these expenses to the expense information for the Fund's Peer Group. The Board noted that the overall expense ratio of the Fund was lower than the Peer Group's median overall ratio.

Based on the above-referenced considerations and other factors, the Board concluded that the overall performance and expense results supported the re-approval of the Management Agreement.

Investment Management Fee Rates

The Board reviewed and considered the contractual investment management fee rate (the Management Agreement Rate) payable by the Fund to the Advisor for investment management services. In addition, the Board reviewed and considered the fee waiver arrangements applicable to the Management Agreement Rate and considered the Management Agreement Rate after taking the waivers into account (the Net Management Rate).

Additionally, the Board received and considered information comparing the Management Agreement Rate (on a stand-alone basis exclusive of service fee/administrative fee rates) with those of the other funds in its Peer Group. The Board concluded that the Management Agreement Rate and the Net Management Rate for the Fund in each case was the lowest among funds in its Peer Group. (The Board noted that the Fund's administrator is not affiliated with the Advisor and that the Fund's agreement with that entity and corresponding fees were negotiated at arms-length. The Board considered separately the continuation of the servicing agreement with Claymore Securities, Inc. and the fees payable thereunder and approved the same). The Board concluded that these and other factors supported the Management Agreement Rate and the Net Management Rate.

Profitability

The Board received and considered an estimated profitability analysis of the Advisor based on the Net Management Rate. The Board concluded that, in light of the costs of providing investment management and other services to the Fund, the profits and other ancillary benefits that the Advisor received with regard to providing these services to the Fund were not unreasonable.

Economies of Scale

The Board received and considered information regarding whether there have been economies of scale with respect to the management of the Fund, whether the Fund has appropriately benefited from any economies of scale, and whether there is potential for realization of any further economies of scale.

The Board observed that the Management Agreement included a .01% reduction in the Management Agreement Rate with respect to the Fund's managed assets in excess of \$250 million. The Board also considered the diminished impact of economies of scale in the context of a closed-end fund as well as the Management Agreement Rate and concluded that the fees were fair and equitable based on relevant factors, including the Fund's performance results and total expenses ranking relative to its Peer Group.

Information about Services to Other Clients

The Board also received and considered information about the nature, extent and quality of services and fee rates offered by the Advisor to its other clients, which include both a management fee and a performance fee. The Board concluded that the Management Agreement Rate was more favorable to the Fund than the fee rates offered to such clients.

Other Factors and Broader Review

As discussed above, the Board reviewed detailed materials received from the Advisor as part of the re-approval process under Section 15(c) of the 1940 Act. The Board also regularly reviews and assesses the quality of the services that the Fund receives throughout the year. In this regard, the Board reviews reports of the Advisor at least in each of its quarterly meetings, which include, among other things, a portfolio review and Fund performance reports.

After considering the above-described factors and based on the deliberations and its evaluation of the information provided to it, the Board concluded that re-approval of the Management Agreement was in the best interest of the Fund and its shareholders. Accordingly, the Board unanimously re-approved the Management Agreement.

Dividend Reinvestment **Plan** | (unaudited)

Unless the registered owner of common shares elects to receive cash by contacting the Plan Administrator, all dividends declared on common shares of the Fund will be automatically reinvested by the Bank of New York (the Plan Administrator), Administrator for shareholders in the Fund's Dividend Reinvestment Plan (the Plan), in additional common shares of the Fund. Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by notice if received and processed by the Plan Administrator prior to the dividend record date; otherwise such termination or resumption will be effective with respect to any subsequently declared dividend or other distribution. Some brokers may automatically elect to receive cash on your behalf and may re-invest that cash in additional common shares of the Fund for you. If you wish for all dividends declared on your common shares of the Fund to be automatically reinvested pursuant to the Plan, please contact your broker.

The Plan Administrator will open an account for each common shareholder under the Plan in the same name in which such common shareholder's common shares are registered. Whenever the Fund declares a dividend or other distribution (together, a Dividend) payable in cash, non-participants in the Plan will receive cash and participants in the Plan will receive the equivalent in common shares. The common shares will be acquired by the Plan Administrator for the participants' accounts, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized common shares from the Fund (Newly Issued Common Shares) or (ii) by purchase of outstanding common shares on the open market (Open-Market Purchases) on the New York Stock Exchange or elsewhere. If, on the payment date for any Dividend, the closing market price plus estimated brokerage commission per common share is equal to or greater than the net asset value per common share, the Plan Administrator will invest the Dividend amount in Newly Issued Common Shares on behalf of the participants. The number of Newly Issued Common Shares to be credited to each participant's account will be determined by dividing the dollar amount of the Dividend by the net asset value per common share on the payment date; provided that, if the net asset value is less than or equal to 95% of the closing market value on the payment date, the dollar amount of the Dividend will be divided by 95% of the closing market price per common share on the payment date. If, on the payment date for any Dividend, the net asset value per common share is greater than the closing market value plus estimated brokerage commission, the Plan Administrator will invest the Dividend amount in common shares acquired on behalf of the participants in Open-Market Purchases.

If, before the Plan Administrator has completed its Open-Market Purchases, the market price per common share exceeds the net asset value per common share, the average per common share purchase price paid by the Plan Administrator may exceed the net asset value of the common shares, resulting in the acquisition of fewer common shares than if the Dividend had been paid in Newly Issued Common Shares on the Dividend payment date. Because of the foregoing difficulty with respect to Open-Market Purchases, the Plan provides that if the Plan Administrator is unable to invest the full Dividend amount in Open-Market Purchases during the purchase period or if the market discount shifts to a market premium during the purchase period, the Plan Administrator may cease making Open-Market Purchases and may invest the uninvested portion of the Dividend amount in Newly Issued Common Shares at net asset value per common share at the close of business on the Last Purchase Date provided that, if the net asset value is less than or equal to 95% of the then current market price per common share; the dollar amount of the Dividend will be divided by 95% of the market price on the payment date.

The Plan Administrator maintains all shareholders' accounts in the Plan and furnishes written confirmation of all transactions in the accounts, including information needed by shareholders for tax records. Common shares in the account of each Plan participant will be held by the Plan Administrator on behalf of the Plan participant, and each shareholder proxy will include those shares purchased or received pursuant to the Plan. The Plan Administrator will forward all proxy solicitation materials to participants and vote proxies for shares held under the Plan in accordance with the instruction of the participants.

There will be no brokerage charges with respect to common shares issued directly by the Fund. However, each participant will pay a pro rata share of brokerage commission incurred in connection with Open-Market Purchases. The automatic reinvestment of Dividends will not relieve participants of any Federal, state or local income tax that may be payable (or required to be withheld) on such Dividends.

The Fund reserves the right to amend or terminate the Plan. There is no direct service charge to participants with regard to purchases in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants.

All correspondence or questions concerning the Plan should be directed to the Plan Administrator, The Bank of New York, Two Hanson Place, Brooklyn, New York 11217, Attention: Irina Krylov, Phone Number: (718) 315-4818.
