Commission File No.: 001-09910

Date: October 17, 2005

This filing may contain certain forward-looking statements with respect to each of Wachovia Corporation ( Wachovia ), Westcorp, WFS Financial Inc ( WFS Financial ) and the combined companies following the proposed merger between Wachovia and Westcorp (the Westcorp Merger ) and Wachovia s acquisition, by merger, of the 16% interest in WFS Financial held by the public (the WFS Financial Merger and, together with the Westcorp Merger, the Mergers ), as well as the goals, plans, objectives, intentions, expectations, financial condition, results of operations, future performance and business of Wachovia, including, without limitation, (i) statements relating to the benefits of the Mergers, including future financial and operating results, cost savings, enhanced revenues and the accretion to reported earnings that may be realized from the Mergers, (ii) statements regarding certain of Wachovia s, Westcorp s and/or WFS Financial s goals and expectations with respect to earnings, earnings per share, revenue, expenses and the growth rate in such items, as well as other measures of economic performance, including statements relating to estimates of credit quality trends, and (iii) statements preceded by, followed by or that include the words may , could , should , would , believe , anticipate , estimate , expect , intend , plan , projects , outlook or similar expressions. These statements are based on current beliefs and expectations of Wachovia s management and are subject to significant risks and uncertainties. Actual results may differ from those set forth in the forward-looking statements. These forward-looking statements involve certain risks and uncertainties that are subject to change based on various factors (many of which are beyond Wachovia s control).

The following factors, among others, could cause Wachovia s financial performance to differ materially from that expressed in such forward-looking statements: (1) the risk that the businesses of Wachovia, Westcorp and WFS Financial in connection with the Mergers will not be integrated successfully or such integration may be more difficult, time-consuming or costly than expected; (2) expected revenue synergies and cost savings from the Mergers may not be fully realized or realized within the expected

time frame; (3) revenues following the Mergers may be lower than expected; (4) deposit attrition, operating costs, customer loss and business disruption following the Mergers, including, without limitation, difficulties in maintaining relationships with employees, may be greater than expected; (5) the ability to obtain governmental approvals of the Mergers on the proposed terms and schedule; (6) the failure of Westcorp's and WFS Financial's shareholders to approve the Westcorp Merger and the WFS Financial Merger, respectively; (7) the strength of the United States economy in general and the strength of the local economies in which Wachovia, Westcorp and/or WFS Financial conducts operations may be different than expected resulting in, among other things, a deterioration in credit quality or a reduced demand for credit, including the resultant effect on Wachovia's, Westcorp's and/or WFS Financial's loan portfolio and allowance for loan losses; (8) the effects of, and changes in, trade, monetary and fiscal policies and laws, including interest rate policies of the Board of Governors of the Federal Reserve System; (9) potential or actual litigation; (10) inflation, interest rate, market and monetary fluctuations; and (11) adverse conditions in the stock market, the public debt market and other capital markets (including changes in interest rate conditions) and the impact of such conditions on Wachovia's capital markets and capital management activities, including, without limitation, Wachovia's mergers and acquisition advisory business, equity and debt underwriting activities, private equity investment activities, derivative securities activities, investment and wealth management advisory businesses, and brokerage activities. Additional factors that could cause Wachovia's, Westcorp's and WFS Financial's results to differ materially from those described in the forward-looking statements can be found in Wachovia's, Westcorp's and WFS Financial's Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K filed with the SEC. All subsequent written and oral forward-looking statements concerning Wachovia or the proposed Mergers or other matters and attributable to Wachovia or any person acting on its behalf are expressly qualified in their entirety by the cautionary statements above. Wachovia, Westcorp and WFS Financial do not undertake any obligation to update any forward-looking statement, whether written or oral, relating to the matters discussed in this filing.

The proposed Mergers will be submitted to Westcorp's and WFS Financial's shareholders for their consideration. Wachovia will file a registration statement, which will include a proxy statement/prospectus, Westcorp and WFS Financial will file a proxy statement, and each of Wachovia, Westcorp and WFS Financial may file other relevant documents concerning the proposed Mergers with the SEC. Shareholders are urged to read the registration statement and the proxy statement/prospectus regarding the proposed Mergers when they become available and any other relevant documents filed with the SEC, as well as any amendments or supplements to those documents, because they will contain important information. You will be able to obtain a free copy of the proxy statement/prospectus, as well as other filings containing information about Wachovia, Westcorp and WFS Financial, at the SEC's website (<http://www.sec.gov>). You will also be able to obtain these documents, free of charge, at Wachovia's website (<http://www.wachovia.com>) under the tab "Inside Wachovia - Investor Relations" and then under the heading "Financial Reports - SEC Filings". CHARLOTTE, N.C. Wachovia Corp. (NYSE:WB) today reported record net income of \$1.67 billion, or a record \$1.06 per share, in the third quarter of 2005 compared with \$1.26 billion, or 96 cents per share, in the third quarter of 2004.

Excluding after-tax net merger-related expenses of 3 cents per share in the third quarter of 2005 and 4 cents in the third quarter of 2004, third quarter 2005 earnings were \$1.72 billion, or a record \$1.09 per share, compared with \$1.32 billion, or \$1.00 per share, in the third quarter of 2004.

Our record results reflect solid execution on our revenue strategies and merger integration savings, as well as improving efficiency, said Ken Thompson, Wachovia chairman and chief executive officer. With 10 percent earnings growth, our diversified business model and unwavering customer focus are clearly serving us well even as our industry faces pressure on profit margins and rising funding costs. We're extremely proud of the way our employees have maintained their focus on our No. 1 priority: serving our customers which is crucial as we complete the integration of the former SouthTrust branches this quarter. And we've all been inspired and heartened by our employees' efforts to help their customers and their colleagues in the wake of the recent hurricanes from making sure each employee was located and safe, to giving up vacation time to volunteer for relief work, to stepping up with cash donations. Their spirit and dedication give me great confidence in our ability to achieve Wachovia's goals for continued strong growth.

In the third quarter of 2005 compared with the third quarter of 2004, Wachovia:

Increased revenue 19 percent. Revenue growth reflected strong sales production as well as a larger balance sheet. These results include the impact of the acquisitions of SouthTrust Corporation on November 1, 2004, and the Palmer & Cay, Inc., insurance brokerage firm on May 6, 2005.

Grew net interest income 14 percent, reflecting higher loans and deposits, largely related to SouthTrust. Middle-market lending led commercial loan growth while consumer loans were led by real estate-secured lending. The deposit mix continued to shift, with core deposit growth driven by certificates of deposit and money market deposits.

Generated 25 percent fee and other income growth, generally across the board, with improved service charges and banking fees, higher brokerage and insurance commissions, and solid investment banking fees. Trading

rebounded and principal investing results were strong, although down from a stronger third quarter a year ago. Securities gains were modest.

Achieved merger and other expense efficiencies, limiting noninterest expense growth to 9 percent.

Recorded a higher provision for credit losses of \$82 million. Net charge-offs were \$59 million, or an annualized 0.10 percent of average net loans. Total nonperforming assets including loans held for sale were \$955 million, or 0.37 percent of loans, foreclosed properties and loans held for sale at September 30, 2005.

**Lines of Business**

The following discussion covers the results for Wachovia's four core business segments and is on a segment earnings basis, which excludes net merger-related and restructuring expenses and other intangible amortization. Segment earnings are the basis on which Wachovia manages and allocates capital to its business segments. Pages 13 and 14 include a reconciliation of segment results to Wachovia's consolidated results of operations in accordance with GAAP.

**General Bank**

The General Bank includes retail, small business and commercial customers. Results include the impact of the fourth quarter 2004 acquisition of SouthTrust. The third quarter of 2005 compared with the third quarter of 2004 included:

## Edgar Filing: WESTCORP /CA/ - Form 425

24 percent revenue growth driven by higher net interest income and fee and other income, largely due to SouthTrust. Growth also reflected increased debit card interchange fees, mortgage banking income and origination fees.

Strength in low-cost core deposits and higher commercial and consumer loans drove the increase in net interest income. Net new retail checking accounts increased by 150,000 in the third quarter of 2005, compared with an increase of 126,000 in the prior year third quarter.

26 percent growth in fee and other income generated by higher volume largely reflecting the addition of SouthTrust. In addition, strong debit card interchange income and retail service charges offset continued weakness in commercial service charges related to higher earnings credit rates on commercial customer balances.

**Capital Management**

Capital Management includes retail brokerage services and asset management. The third quarter of 2005 compared with the third quarter of 2004 included:

7 percent revenue growth on 32 percent growth in brokerage managed account assets to a record \$99.7 billion, generating solid growth in recurring income, and improved retail brokerage transaction activity.

Net interest income growth of 10 percent largely due to improved deposit pricing.

Expense growth of 2 percent on higher brokerage commissions partially offset by efficiencies gained from the completed brokerage integration led to a 453 basis point improvement in the overhead efficiency ratio to 81.86 percent.

Total assets under management of \$256.5 billion at September 30, 2005, grew modestly from December 31, 2004. Equity assets reached a record \$82.7 billion, led by positive equity mutual fund sales and improved equity markets. Total brokerage client assets grew 5 percent from year-end 2004 to a record \$683.1 billion at September 30, 2005.

the impact of the May 6, 2005, acquisition of Palmer & Cay, Inc., an insurance brokerage firm. The third quarter of 2005 compared with the third quarter of 2004 included:

Record revenue driven by 34 percent growth in fee and other income and a 14 percent increase in net interest income.

Net interest income growth fueled by a 27 percent increase in average loans and a 9 percent increase in average core deposits.

Fee and other income included the full quarter impact of the Palmer & Cay acquisition, as well as improved trust and investment management fees due to higher assets under administration in improving markets.

Higher provision expense of \$6 million. In addition, noninterest expense growth reflected the impact of the Palmer & Cay acquisition and higher incentives related to revenue growth.

**Corporate and Investment Bank**

The Corporate and Investment Bank includes corporate lending, investment banking, and treasury and international trade finance. Third quarter 2005 results compared with the third quarter of 2004 included:

13 percent revenue growth reflecting a 29 percent increase in fee and other income offsetting a 6 percent decline in net interest income.

## Edgar Filing: WESTCORP /CA/ - Form 425

Net interest income declined due primarily to a change in the mix of trading assets, which lowered the overall spread in the trading portfolio, and to runoff in a leasing portfolio, partially offset by the addition of SouthTrust.

Fee income rose 29 percent with record results in advisory and underwriting, driven by strong merger and acquisition advisory activity, structured products and high yield originations. A recovery in trading profits from third quarter 2004 trading losses also drove the increase.

A 19 percent increase in noninterest expense due primarily to higher variable compensation and increased strategic hiring in key positions resulted in a higher overhead efficiency ratio.

**WACHOVIA EARNS \$1.06 PER SHARE IN 3<sup>rd</sup> QUARTER 2005, UP 10%/page 6**

Strong core deposit growth primarily from higher commercial mortgage servicing and international correspondent banking, and increased loans primarily reflecting higher large corporate loans and the addition of SouthTrust.

Economic capital usage increased due to higher loan balances and an increased expense base.

Wachovia Corporation (NYSE:WB) is one of the largest providers of financial services to retail, brokerage and corporate customers, with banking operations from Connecticut to Florida and west to Texas, and retail brokerage operations nationwide. Wachovia had assets of \$532.4 billion, market capitalization of \$73.9 billion and stockholders' equity of \$46.8 billion at September 30, 2005. Its four core businesses, the General Bank, Capital Management, Wealth Management, and the Corporate and Investment Bank, serve 13 million household and business relationships primarily through 3,138 offices in 15 states and Washington, D.C. Its full-service retail brokerage firm, Wachovia Securities, LLC, also serves clients through 702 offices in 49 states and five Latin American countries. The Corporate and Investment Bank serves clients in selected industries nationwide. Global services are offered through 40 offices around the world. Online banking and brokerage products and services also are available through Wachovia.com.

**Forward-Looking Statements**

This news release contains various forward-looking statements. A discussion of various factors that could cause Wachovia Corporation's actual results to differ materially from those expressed in such forward-looking statements is included in Wachovia's filings with the Securities and Exchange Commission, including its Current Report on Form 8-K dated October 17, 2005.

**Explanation of Wachovia's Use of Certain Non-GAAP Financial Measures**

In addition to results presented in accordance with GAAP, this news release includes certain non-GAAP financial measures, including those presented on page 1 and on page 10 under the captions "Earnings Excluding Merger-Related and Restructuring Expenses" and "Earnings Excluding Merger-Related and Restructuring Expenses, and Other Intangible Amortization", and which are reconciled to GAAP financial measures on pages 21 and 22. In addition, in this news release certain designated net interest income amounts are presented on a tax-equivalent basis, including the calculation of the overhead efficiency ratio.

Wachovia believes these non-GAAP financial measures provide information useful to investors in understanding the underlying operational performance of the company, its business and performance trends and facilitates comparisons with the performance of others in the financial services industry. Specifically, Wachovia believes the exclusion of merger-related and restructuring expenses and the cumulative effect of a change in accounting principle permits evaluation and a comparison of results for on-going business operations, and it is on this basis that Wachovia's management internally assesses the company's performance. Those non-operating items are excluded from Wachovia's segment measures used internally to evaluate segment performance in accordance with GAAP because management does not consider them particularly relevant or useful in evaluating the operating performance of our business segments. In addition, because of the significant amount of deposit base intangible amortization, Wachovia believes the exclusion of this expense provides investors with consistent and meaningful comparisons to

other financial services firms. Wachovia's management makes recommendations to its board of directors about dividend payments based on reported earnings excluding merger-related and restructuring expenses, other intangible amortization and the cumulative effect of a change in accounting principle, and has communicated certain dividend payout ratio goals to investors on this basis. Management believes this payout ratio is useful to investors because it provides investors with a better understanding of and permits investors to monitor Wachovia's dividend payout policy. Wachovia also believes the presentation of net interest income on a tax-equivalent basis ensures comparability of net interest income arising from both taxable and tax-exempt sources and is consistent with industry standards. Wachovia operates one of the largest retail brokerage businesses in our industry, and we have presented an overhead efficiency ratio excluding these brokerage services, which management believes is useful to investors in comparing the performance of our banking business with other banking companies.

Although Wachovia believes the above non-GAAP financial measures enhance investors' understanding of its business and performance, these non-GAAP financial measures should not be considered an alternative to GAAP basis financial measures.

Wachovia 3Q05 Quarterly Earnings Report

**Explanation of Combined Results**

Certain tables and narrative comparisons in this supplemental earnings package include references to Combined results for third quarter 2004. Combined results for the third quarter of 2004 represent Wachovia's actual third quarter 2004 results plus the actual results of SouthTrust. The Combined results are for illustrative purposes only and the presentation of results on this Combined basis is not a presentation that conforms with generally accepted accounting principles. The third quarter 2004 Combined results include purchase accounting and other closing adjustments as of the actual closing date of November 1, 2004; no attempt was made to estimate these purchase accounting and other closing adjustments on the Combined results for prior periods as if the merger had occurred on prior dates. Readers are encouraged to refer to Wachovia's results presented in accordance with generally accepted accounting principles which may be found in exhibit (99)(c) to Wachovia's current report on form 8-K, filed on October 17, 2005. All narrative comparisons are to wachovia-only results for prior periods unless otherwise noted. See also Supplemental Illustrative Combined Information beginning on page 43 for a further discussion regarding the Combined presentation.

All narrative comparisons of Combined results pertain to 3Q05 reported results versus Combined third quarter 2004 results unless otherwise noted.

For ease of use, comments herein pertaining to As Reported or Actual results are presented in bold type.

**Combined Summary**

3Q04: **Reported results plus SouthTrust's results plus three months of DBI amortization**

Prior period results do not include the effect of accretion and amortization of fair market value adjustments made to SouthTrust's balance sheet on 11/1/04.

**Key Points**

Revenues grew 5% driven by strength in fee and other income; up 19% from 3Q04 driven by the addition of SouthTrust

Up 8% from Combined 3Q04 on strong growth in fees

**Net interest income rose 1%, or \$45 million, reflecting loan and deposit growth and improved deposit spreads**

Flat vs. Combined 3Q04, reflecting margin compression related to the flattening yield curve, offset by growth in loans and core deposits

**Fee and other income increased 9%**

**Solid growth in all categories except securities gains/losses**

Results up 17% from Combined 3Q04 reflecting solid fee growth in all business segments

**Other noninterest expense increased 6%**

**Reflects higher revenue-based incentives, corporate contributions of \$25 million and efficiency initiative costs of \$26 million**

### Key Points

**Cash overhead efficiency ratio rose 87 bps to 57.06% primarily due to corporate contributions and higher efficiency initiative costs**

**Net interest margin decreased 3 bps to 3.20%, reflecting strong structured products pipelines funded with wholesale liabilities**

**Tangible capital declined to 4.69% on strong period-end balance sheet growth and higher share repurchases driven by beneficial settlement of equity collar transactions**

**Capital ratios expected to return to targeted levels by year end 2005 (leverage: 6%; tangible: 4.75%)**

**Average diluted shares down 16 million due to the effect of 3Q05 open market purchases of 18.4 million shares (average cost \$50.36) and the repurchase of 7.5 million shares relating to equity collar settlements (average cost \$48.61)**

Wachovia 3Q05 Quarterly Earnings Report

**Summary Operating Results**

Business segment results are presented excluding (i) merger-related and restructuring expenses, (ii) deposit base intangible and other intangible amortization expense, and (iii) the cumulative effect of a change in accounting principle. This is the basis on which we manage and allocate capital to our business segments. We continuously assess assumptions, methodologies and reporting classifications to better reflect the true economics of our business segments.

We continuously update segment information for changes that occur in the management of our businesses. In 1Q05, we transferred certain insurance brokerage business lines to Wealth Management from Capital Management and have updated information for 2004 to reflect this change. The impact to segment earnings for full year 2004 as a result of this and other changes was a \$7 million decrease in the General Bank, a \$5 million decrease in Capital Management, a \$7 million increase in Wealth Management, a \$42 million decrease in the Corporate and Investment Bank and a \$47 million increase in the Parent. Additionally, in 1Q05 we updated the presentation for all periods of sub-segment results for the Corporate and Investment Bank to be more consistent with the management of these business lines. Specifically, Loan Syndications was moved from Corporate Lending to Investment Banking and the formerly separate Principal Investing sub-segment was combined with Investment Banking. The impact to previously reported sub-segment earnings for full year 2004 was a reduction of \$99 million for Corporate Lending and a net increase of \$73 million for Investment Banking, including a \$133 million loss from the Principal Investing sub-segment which was combined with the Investment Banking sub-segment.

In a rising rate environment, Wachovia benefits from a widening spread between deposit costs and wholesale funding costs. However, our funds transfer pricing ( FTP ) system, described below, credits this benefit to a deposit-providing business on a lagged basis. The effect of the FTP system results in rising charges to business units for funding to support predominantly floating rate assets. This benefit of higher rates earned on floating-rate assets and lagging rates on longer duration deposits is captured in the central money book in the Parent segment.

In order to remove interest rate risk from each core business segment, the management reporting model employs a FTP system. The FTP system matches the duration of the funding used by each segment to the duration of the assets and liabilities contained in each segment. Matching the duration, or the effective term until an instrument can be repriced, allocates interest income and/or interest expense to each segment so its resulting net interest income is insulated from interest rate risk.

As previously disclosed, the FASB has been discussing several matters relating to leveraged lease accounting and uncertain tax positions. On July 14, 2005, the FASB issued a proposed FASB Staff Position (FSP) that would amend SFAS 13 to provide that changes affecting the timing of cash flows but not the total net income under a leveraged lease will trigger a recalculation of the lease. The FASB has also issued a proposed FASB Interpretation, Uncertain Tax Positions, to clarify the criteria for recognition of income tax benefits in accordance with SFAS No. 109, Accounting for Income Taxes. Please see pages 24-25 of Exhibit 19 to Wachovia's 2005 Second Quarter Report on Form 10-Q for a discussion of these FASB proposals.

Net interest income of \$3.5 billion increased \$45 million on average earning asset growth and improved deposit spreads; rose \$428 million from 3Q04 reflecting the addition of SouthTrust. Results were flat from Combined 3Q04 as deposit and loan growth was offset by margin compression resulting from a flatter yield curve.

Net interest margin declined 3 bps to 3.20%. The margin continued to benefit from deposit spread widening, which offset lower derivatives income and compressed spreads on securities. Unusually strong growth in our securitization pipelines produced warehouse growth funded with wholesale liabilities, accounting for the 3 bps reduction to the margin. Net interest margin declined 16 bps from 3Q04, driven by growth in structured products and mortgage warehouses, increased low-yielding trading assets, and lower income on derivatives, partially offset by wider deposit spreads.

In order to maintain our targeted interest rate risk profile, derivative positions are used to hedge the repricing risk inherent in balance sheet positions. The contribution of hedge-related derivatives, primarily on fixed rate liabilities and floating rate loans, offset effects on income from balance sheet positions. In 3Q05, net hedge-related derivative income contributed 8 bps to the net interest margin vs. 12 bps in 2Q05 and 30 bps in 3Q04.

**Average trading assets increased 6% and 5% from 3Q04, primarily the result of increased structured products activity.**

**Average securities were flat linked quarter and grew \$13.4 billion from 3Q04 reflecting the addition of SouthTrust.** Average securities increased 2%, or \$1.9 billion, from Combined 3Q04.

**Average loans rose 2% and 36% from 3Q04.** On a Combined basis, average loans rose 12%, or 4% excluding loan sales, purchases, and transfers. **Average commercial loans were up 1%, with growth in large corporate and middle market commercial, and grew 37% from 3Q04.** On a Combined basis, average commercial loans were up 8% on large corporate and middle-market commercial growth. **Average consumer loans increased 4%, and grew 3% excluding net loan sales and activity in the investment mortgage portfolio. Additionally, net mortgage purchases of an average \$2.6 billion replaced runoff of an average \$1.6 billion in the investment mortgage portfolio.** **Consumer loans grew 34% from 3Q04.** On a Combined basis, average consumer loans rose \$14.3 billion driven by the 4Q04 transfer of \$9.2 billion in prime equity lines from loans held for sale. **Average loans held for sale increased \$2.5 billion, reflecting growth in securitization warehouses and the 3Q05 transfer of \$562 million of loans into the portfolio from held for sale. Additionally, we originated \$7.5 billion of mortgages and delivered \$4.1 billion to agencies in 3Q05.**

**Average other earning assets declined 1% on lower interest-bearing bank balances and federal funds sold. Total average earning assets grew \$71.4 billion from 3Q04, primarily driven by the SouthTrust merger.** Total average earning assets grew \$22.4 million, or 5%, from Combined 3Q04, driven by a \$23.7 billion increase in loans and \$1.9 billion in securities.

**Average core deposits increased \$5.4 billion, or 2%, on \$2.9 billion growth in consumer CDs as well as growth in money market and interest checking. Core deposits rose 20% from 3Q04. On a Combined basis, core deposits rose \$20.1 billion driven by growth in low-cost core deposits. Average short-term borrowings were flat linked quarter and rose \$7.1 billion from 3Q04 reflecting the SouthTrust merger; and on a Combined basis increased \$3.0 billion. Average long-term debt declined 1%, or \$326 million, and grew 20% from 3Q04. On a Combined basis increased \$1.0 billion reflecting previous debt issuances.**

**Fee and Other Income**

(See Table on Page 7)

**Fee and other income of \$3.2 billion increased \$265 million, or 9%, from 2Q05, and increased 25% from 3Q04. Fees grew in all fee categories except securities gains (losses). Fees represented 48% of total revenue in 3Q05 and 47% in 2Q05. Fees increased 17% vs. Combined 3Q04.**

**Service charges increased 5% to \$555 million on 9% growth in consumer DDA charges and 3% growth in commercial service charges. Service charges rose 11% from 3Q04 driven by the addition of SouthTrust. Service charges declined 2% from Combined 3Q04, largely reflecting higher earnings credit rates paid on commercial compensating DDA balances related to rising short-term rates. Consumer service charges grew 4% from Combined 3Q04.**

**Other banking fees of \$385 million were up 8%, primarily related to higher mortgage banking income, increased interchange income and higher international trade finance income. Growth of 23% from 3Q04 was partially due to the addition of SouthTrust. Compared with Combined 3Q04 results, other banking fees increased 8% on higher interchange income and stronger mortgage banking income.**

**Commissions of \$615 million were up 2% on slight improvement in retail brokerage activity and a full quarter of the Palmer & Cay acquisition, which closed on May 6, 2005. Commissions increased 8% from 3Q04. Compared with Combined 3Q04 results, commissions grew 7%, primarily due to the addition of Palmer & Cay as well as modest improvement in retail brokerage activity.**

**Fiduciary and asset management fees of \$732 million increased 1% and were up 10% vs. 3Q04. On a Combined basis, fiduciary and asset management fees grew 8% vs. 3Q04 as strong growth in brokerage managed accounts was partially offset by the effect of lower money market mutual fund assets.**

**Advisory, underwriting and other investment banking fees of \$294 million increased 14% from a strong 2Q05, on strong results in structured products, high yield, investment grade and record M&A activity, partially offset by lower fees in loan syndications versus a record 2Q05. Results were up 24% from 3Q04 largely on strength in structured products and M&A.**

**Trading account profits of \$146 million increased \$129 million from a very weak 2Q05, on stronger results in interest rate products as well as gains on economic hedges against non-trading assets (2Q05 included losses on such hedges). Trading account profits were up \$206 million from 3Q04 losses, which reflected losses in interest rate products and on economic hedges.**

Principal investing recorded net gains of \$166 million, up \$125 million from 2Q05, due to stronger gains in the direct portfolio as well as strong fund results. Results were down \$35 million vs. 3Q04, which reflected strong direct gains.

Net securities gains were \$29 million in 3Q05, including \$65 million in impairment losses, versus 2Q05 net gains of \$136 million, including \$49 million in impairment losses. Results reflect \$22 million of net gains in the investment portfolio and \$7 million in net gains in the Corporate and Investment Bank. In 2Q05, we recorded \$93 million of net gains in the investment portfolio and \$42 million of net gains in the Corporate and Investment Bank. Net securities losses in 3Q04 were \$71 million and included \$18 million in impairment losses.

Other income of \$320 million increased \$8 million. Mortgage and home equity sale and securitization income of \$64 million was up from \$54 million in 2Q05. Affordable housing write-downs were \$15 million in 3Q05 vs. \$37 million in 2Q05. These positive variances were largely offset by the effect of a 2Q05 gain of \$41 million on a structured products consumer loan transaction.

Other income increased \$74 million vs. 3Q04 driven in part by the impact of the SouthTrust merger. Compared with Combined 3Q04, other income increased \$40 million, largely reflecting a \$25 million increase in securitization income and \$11 million increase related to corporate investments.

**Noninterest Expense**

(See Table on Page 8)

**Total noninterest expense increased 6% on higher salaries and employee benefits expense and sundry expense, and increased 9% vs. 3Q04 driven by the merger with SouthTrust. 3Q05 included \$26 million in identified costs associated with our efficiency initiatives, vs. \$16 million in 2Q05. Excluding the effect of merger-related and restructuring expenses and other intangible amortization, expenses were up 6%. Compared with Combined 3Q04 results, expenses were down 5%, and excluding the effect of merger-related and restructuring expenses and other intangible amortization, expenses were up 3% vs. 3Q04.**

**Salaries and employee benefits expense increased 7% vs. 2Q05 and 17% vs. 3Q04, reflecting higher revenue-based incentives expense and a full quarter's effect of higher salaries related to annual merit increases. The year-over-year comparison also reflects the addition of SouthTrust. Sundry expense increased \$67 million, reflecting \$25 million in corporate contributions and the effect of a 2Q05 franchise tax settlement. Other intangible amortization of \$101 million included \$81 million in deposit base intangible amortization and \$20 million in other intangible amortization.**

**Net interest income was up 1% linked quarter on 2% growth in average core deposits primarily driven by growth in interest checking and consumer CDs. Average loans outstanding increased 1% on strength in mortgage and home equity as well as student loans. Net interest income rose 21% from 3Q04, and loans and deposits grew 18% and 27%, respectively, largely reflecting the addition of SouthTrust.** Compared with Combined 3Q04 results, net interest income increased 5%, driven by 8% growth in core deposits and 6% growth in loans in all categories except mortgage and installment.

**Fee and other income grew 12% linked quarter driven by stronger consumer service charges, mortgage banking fees and interchange fees. Fee and other income rose 32% from 3Q04, largely reflecting the addition of SouthTrust.** When compared with Combined 3Q04 results, fee and other income grew 8% on improvements across the board. Additionally, small business commercial service charges were lower due to customers compensating balances covering more fees due to higher earnings credit rates.

**Mortgage-related fee and other income of \$81 million increased 73% linked quarter and 138% from 3Q04. 3Q05 results included \$29 million in net gains on mortgage deliveries and servicing sales compared with \$6 million in 2Q05 and \$8 million in 3Q04. 3Q05 results also included \$6 million in impairment and increased amortization of mortgage services rights vs. \$12 million in 2Q05.** Compared with Combined results, mortgage-related income was up 48% from 3Q04, which included \$13 million in net gains on mortgage deliveries and servicing sales.

**Noninterest expense increased 4% linked quarter due to higher revenue based incentives, corporate contributions, efficiency initiative costs and de novo branching costs. Expenses rose 18% from 3Q04 largely reflecting the addition of SouthTrust.** Compared with Combined 3Q04 results, expenses declined 1% largely reflecting merger-related efficiencies.

Net interest income was up 1% linked quarter on loan growth of 1% and growth in deposits driven by interest checking. Core deposits remained stable as the shift of money market balances to off-balance sheet alternatives stabilized. Net interest income rose 27% from 3Q04, and loans and deposits rose 49% and 8%, respectively, largely reflecting the addition of SouthTrust. Compared with Combined 3Q04 results, net interest income remained stable as loan growth of 5% was offset by decreasing loan spreads.

**Fee and other income grew 2% linked quarter driven by seasonally higher service charges. Fee and other income increased 1% from 3Q04 and reflects the addition of SouthTrust offset somewhat by higher earnings credit rates applied to compensating balances.** Compared with Combined 3Q04 results, fee and other income declined 11%, reflecting higher earnings credit rates.

**Noninterest expense rose 8% vs. 2Q05 driven largely by higher legal costs, loan costs, efficiency initiative costs and corporate contributions. Noninterest expense rose 9% vs. 3Q04, largely reflecting the addition of SouthTrust.** Compared with Combined 3Q04 results, noninterest expense declined 5%, largely the result of expense efficiencies related to the SouthTrust merger.

Net interest income of \$157 million increased 9% as improved deposit pricing more than offset a 3% decline in average core deposits. Net interest income grew 9% from 3Q04, with the year-over-year increase driven by improved deposit spreads and a 1% increase in average core deposits associated with the movement of money market fund balances to the FDIC-insured sweep product.

Fee and other income increased 2% linked quarter on higher commissions from retail transaction activity and higher recurring fees, including managed account fees. Fees grew 8% from 3Q04 on higher managed account fees, driven by managed account asset growth of 32% and higher commissions from retail transaction activity.

Noninterest expense increased 1% linked quarter on higher volume-based incentives and was up 1% year-over-year as higher volume-based incentives were partially offset by efficiencies achieved from the now-completed retail brokerage integration.

#### Retail Brokerage Transaction

The Retail Brokerage Services sub-segment results shown in the above table include 100% of the results of the Wachovia Securities retail brokerage transaction, which is the combination of Wachovia's and Prudential Financial's retail brokerage operations. The entity is a consolidated subsidiary of Wachovia Corporation for GAAP purposes. Wachovia Corporation owns 62% of Wachovia Securities retail brokerage and Prudential Financial, Inc. owns 38%. Prudential Financial's minority interest is included in minority interest reported in the Parent (see page 30) and in Wachovia Corporation's consolidated statements of income on a GAAP basis, which differs from our segment reporting as noted on pages 4 and 16. For the three months ended September 30, 2005, Prudential Financial's pre-tax minority interest on a GAAP basis was \$65 million.

The Retail Brokerage Services sub-segment results reported in the above table also include our Insurance Services business, as well as additional corporate allocations that are not included in the Wachovia Securities Financial Holdings results.

### Capital Management Eliminations

## Edgar Filing: WESTCORP /CA/ - Form 425

In addition to the above sub-segments, Capital Management results include eliminations among business units. Certain brokerage commissions earned on mutual fund sales by our brokerage sales force are eliminated and deferred in the consolidation of Capital Management reported results. In 3Q05, brokerage revenue and expense eliminations were a reduction of \$3 million and \$4 million, respectively.

Net interest income of \$147 million rose 3%, driven by loan growth of 4% (commercial up 2% and consumer up 8%), and 14% vs. 3Q04 on strong loan growth of 27% and core deposit growth of 9%. Net interest income was up 8% from Combined 3Q04. Average loans

grew 21% year-over-year on consumer and commercial loan growth, and average core deposits rose 6%.

**Fee and other income of \$191 million increased \$8 million linked quarter, or 4%. This was largely due to improved insurance commissions reflecting a full quarter impact of the Palmer & Cay acquisition, and an increase in fiduciary and trust management fees of 3%. Fee and other income rose \$48 million, or 34%, vs. 3Q04, largely due to the impact of the Palmer & Cay acquisition. When compared with Combined 3Q04 results, fee and other income was up 29% primarily due to the Palmer & Cay acquisition.**

**Noninterest expense was up 7%, or \$15 million, and up 23% vs. 3Q04. Linked quarter increases were largely due to an additional month of Palmer & Cay personnel expenses. Segment overhead efficiency ratio increased 165 bps linked quarter and improved 94 bps year-over-year to 68.99%. When compared with Combined 3Q04 results, noninterest expense was up 19%, as the addition of Palmer & Cay expenses was partially offset by efficiencies.**

**AUM were up 1% linked quarter and 12% year-over-year. The linked quarter comparison was in line with improved market performance, while year-over-year growth reflected sales momentum, stronger equity markets and the impact of acquisitions. Client relationships declined 10% linked quarter to 45,381 due to the continued transfer of certain client relationships to the General Bank offsetting growth in core wealth relationships.**

Net interest income remained flat as the benefit of deposit and loan growth was offset by decreases in the leasing portfolio. Average loans and leases were up 2% from 2Q05; increased 17% from 3Q04 driven by growth in large corporate and the addition of SouthTrust. Average core deposits increased 4% from 2Q05 largely relating to activity associated with one large relationship.

Fee and other income increased \$26 million, or 27%, driven by improvement in economic hedge-related income from 2Q05 which reflected losses. Compared with 3Q04, fee and other income increased \$25 million, driven by improvement in leasing revenue as well as economic hedge-related income. There were \$3 million in gains on sales of loans and loans held for sale in 3Q05 vs. \$9 million in 2Q05 and \$3 million in 3Q04.

Noninterest expense increased 8% reflecting higher corporate contributions and a write-off on foreclosed property. Expenses increased 5% vs. 3Q04 reflecting higher personnel costs.

Net interest income increased 13%, or \$28 million, driven by growth in trading assets, and higher mortgage servicing deposits; declined 13% from 3Q04 due to reduced spreads on trading assets driven by a change in the mix of assets.

Fee and other income increased \$188 million, or 37%, due to strong principal investing and improved trading results as well as strength in structured products, high yield, investment grade and record M&A results. Principal investing net gains were \$166 million vs. \$41

million in 2Q05 and \$201 million in 3Q04. Trading profits of \$118 million increased \$89 million from 2Q05 results, which included losses in credit, global rate and structured products. Investment Banking total trading revenue was \$308 million for the quarter, up \$112 million from 2Q05. Net securities gains were \$7 million in 3Q05 vs. \$41 million in 2Q05 and \$6 million in 3Q04. 2Q05 also included a structured products consumer loan transaction gain of \$41 million. Fee and other income increased \$197 million, or 39%, from 3Q04 driven by \$161 million improvement in trading profits and strength in M&A, structured products and equities somewhat offset by lower loan syndications and principal investing results.

Noninterest expense increased 21% on higher revenue-based incentives and rose 33% from 3Q04 on higher personnel costs largely due to higher revenue-based incentives and increased strategic hiring in key positions.

Net interest income declined \$25 million from 2Q05 and \$17 million from 3Q04. Results reflect the liability sensitive positioning of our investment portfolio and wholesale funding operations, which serve to hedge our asset sensitive core business activities. The benefits to the Parent of wider funds transfer pricing spreads (see page 16 for description) was offset by compression of spreads in the funding of the investment portfolio as well as lower contribution from hedge-related derivatives. Compared with Combined 3Q04, net interest income

decreased \$54 million.

**Fee and other income decreased \$51 million from 2Q05 and increased \$132 million vs. 3Q04. Compared with 2Q05, net securities gains were \$21 million vs. gains of \$93 million. Securitization income was a net \$17 million of gains down from a net \$33 million of gains in 2Q05, reflecting lower deal volume. Income from corporate investments declined \$6 million. These negative variances were partially offset by improved trading, with gains of \$5 million vs. \$11 million in losses in 2Q05. We recorded a \$6 million gain associated with equity collars on our stock versus a \$5 million loss in 2Q05. Additionally, affordable housing tax credit eliminations were down \$22 million. (Affordable housing results are recorded in Corporate and Investment Bank fee and other income net of the related tax benefit; this tax benefit is eliminated for consolidated reporting purposes in Parent fee and other income.)**

**The primary reasons for the improvement in fee income from 3Q04 were a \$99 million increase in net securities gains and a \$34 million increase in trading profits, as each category had losses in 3Q04. On a Combined basis, fee and other income increased \$117 million from 3Q04.**

**Noninterest expense increased \$18 million primarily due to higher loan costs, and decreased \$33 million vs. 3Q04 due to lower legal costs and the addition of SouthTrust. On a Combined basis, noninterest expense declined \$68 million from Combined 3Q04, primarily related to lower legal expense.**

**Asset Quality**

(See Table on Page 14)

Net charge-offs in the loan portfolio of \$59 million increased \$8 million from 2Q05 and declined \$6 million from 3Q04. As a percentage of average net loans, annualized net charge-offs were 0.10% in 3Q05 compared with 0.09% in 2Q05 and 0.15% in 3Q04. Gross charge-offs of \$123 million represented 0.21% of average loans, offset by \$64 million in recoveries.

Provision for credit losses totaled \$82 million, and included provision for loan losses of \$74 million and provision related to loans sold of \$12 million, partially offset by a benefit in credit losses on unfunded lending commitments of \$4 million.

Allowance for credit losses was \$2.9 billion, down \$3 million from 2Q05, reflecting continued strong credit quality and the sale of \$215 million of commercial loans which included \$14 million of associated allowance. Allowance for loan losses as a percentage of loans of 1.13% and allowance for credit losses of 1.20% each decreased 5 bps. The reserve for unfunded lending commitments, which includes unfunded loans and standby letters of credit, was \$154 million. The unallocated portion of the allowance increased to \$135 million from \$90 million in 2Q05 and \$115 million in 3Q04 partially due to the impact of recent hurricanes, the full effect of which is currently under review.

The allowance for loan losses to nonperforming loans ratio of 347% was up from 332% in 2Q05 and from 291% in 3Q04. Allowance for loan losses to nonperforming assets (excluding NPAs in loans held for sale) increased to 303% vs. 284% in 2Q05 and 258% in 3Q04.

**Nonperforming loans in the loan portfolio of \$784 million decreased \$35 million or 4% vs. 2Q05, reflecting \$93 million in sales and continued strong credit quality, and decreased 2% from 3Q04 despite the addition of SouthTrust. Total nonperforming assets, including loans held for sale of \$955 million, decreased \$113 million, or 11%, from 2Q05 and were consistent with 3Q04, reflecting the merger with SouthTrust offset by improving credit quality.**

**New commercial nonaccrual inflows were \$229 million, up \$34 million from 2Q05. Commercial nonaccruals were \$565 million, down 3% from 2Q05 and down 2% from 3Q04 despite the addition of SouthTrust. In 3Q05, \$93 million in nonperforming commercial loans were sold directly out of the loan portfolio. Consumer nonaccruals were \$219 million, down 6% from 2Q05 and 1% vs. 3Q04, driven by improving credit quality, particularly in consumer real estate-secured.**

**Merger Integration Update****Estimated Merger Expenses**

In connection with the SouthTrust merger, which closed on November 1, 2004, we began recording certain merger-related and restructuring expenses in our income statement, as well as preliminary purchase accounting adjustments to record SouthTrust's assets and liabilities at their respective fair values as of November 1, 2004, and certain exit costs related to SouthTrust's businesses. As of September 30, 2005, net merger-related and restructuring expenses were \$211 million, and exit cost purchase accounting adjustments were \$199 million.

The following table indicates our progress compared with the estimated merger expenses for the SouthTrust merger transaction.

- (a) These adjustments represent incremental costs related to combining the two companies and are specifically attributable to SouthTrust's contributed business. Examples include employee termination costs, employee relocation costs, contract cancellations including leases and closing redundant SouthTrust acquired facilities. These adjustments are reflected in goodwill and are not charges against income. Depending upon the timing of integration actions, certain items projected to be recorded as exit cost purchase accounting adjustments may be recorded as net merger-related and restructuring expenses.

**The total one-time costs for this transaction is the sum of total merger-related and restructuring expenses as reported in the following *Merger-Related and Restructuring Expenses* table and Total pre-tax exit cost purchase accounting adjustments (one-time costs) as detailed in the *Goodwill and Other Intangibles* table on the following pages.**

### Merger-Related And Restructuring Expenses

In 3Q05, we recorded \$82 million in net merger-related and restructuring expenses related to the SouthTrust integration. This was largely composed of occupancy and equipment charges associated with the closing of certain SouthTrust branches and offices.

### Goodwill and Other Intangibles

Under purchase accounting, the assets and liabilities of SouthTrust are recorded at their respective fair values as of November 1, 2004, as if they had been purchased in the open market. The purchase accounting adjustments associated with SouthTrust's assets and liabilities are preliminary in nature and are subject to further refinement. The premiums and discounts that resulted from the purchase accounting adjustments to financial instruments are accreted/amortized into income/expense over the estimated term of the respective assets and liabilities, similar to the purchase of a bond at a premium or discount. This results in a market yield in the income statement for those assets and liabilities. Assuming a stable market environment from the date of purchase, we would expect that as these assets and liabilities mature, they could generally be replaced with instruments of similar yields.

Wachovia 3Q05 Quarterly Earnings Report

**Explanation of Our Use of Certain Non-GAAP Financial Measures**

In addition to results presented in accordance with GAAP, this quarterly earnings report includes certain non-GAAP financial measures, including those presented on pages 3 and 5 under the captions **Earnings Reconciliation**, and **Other Financial Measures**, each with the sub-headings **Earnings excluding merger-related and restructuring expenses** and **Earnings excluding merger-related and restructuring expenses, and other intangible amortization**, and which are reconciled to GAAP financial measures on pages 38-41. In addition, in this quarterly earnings report certain designated net interest income amounts are presented on a tax-equivalent basis, including the calculation of the overhead efficiency ratio.

Wachovia believes these non-GAAP financial measures provide information useful to investors in understanding the underlying operational performance of the company, its business and performance trends and facilitates comparisons with the performance of others in the financial services industry. Specifically, Wachovia believes the exclusion of merger-related and restructuring expenses permits evaluation and a comparison of results for on-going business operations, and it is on this basis that Wachovia's management internally assesses the company's performance. Those non-operating items are excluded from Wachovia's segment measures used internally to evaluate segment performance in accordance with GAAP because management does not consider them particularly relevant or useful in evaluating the operating performance of our business segments. In addition, because of the significant amount of deposit base intangible amortization, Wachovia believes the exclusion of this expense provides investors with consistent and meaningful comparisons to other financial services firms. Wachovia's management makes recommendations to its board of directors about dividend payments based on reported earnings excluding merger-related and restructuring expenses, other intangible amortization and the cumulative effect of a change in accounting principle, and has communicated certain dividend payout ratio goals to investors on this basis. Management believes this payout ratio is useful to investors because it provides investors with a better understanding of and permits investors to monitor Wachovia's dividend payout policy. Wachovia also believes the presentation of net interest income on a tax-equivalent basis ensures comparability of net interest income arising from both taxable and tax-exempt sources and is consistent with industry standards. Wachovia operates one of the largest retail brokerage businesses in our industry, and we have presented an overhead efficiency ratio excluding these brokerage services, which management believes is useful to investors in comparing the performance of our banking business with other banking companies.

Although Wachovia believes the above non-GAAP financial measures enhance investors' understanding of our business and performance, these non-GAAP financial measures should not be considered an alternative to GAAP basis financial measures.

Wachovia 3Q05 Quarterly Earnings Report

**Cautionary Statement**

The foregoing materials and management's discussion of them may contain, among other things, certain forward-looking statements with respect to Wachovia, as well as the goals, plans, objectives, intentions, expectations, financial condition, results of operations, future performance and business of Wachovia, including, without limitation, (i) statements relating to certain of Wachovia's goals and expectations with respect to earnings, earnings per share, revenue, expenses, and the growth rate in such items, as well as other measures of economic performance, including statements relating to estimates of credit quality trends, (ii) statements relating to the benefits of the merger between Wachovia Corporation and SouthTrust Corporation, completed November 1, 2004, (the SouthTrust Merger), (iii) statements relating to the benefits of the acquisition by Wachovia of Westcorp and WFS Financial Inc. (the Westcorp Merger) and together with the SouthTrust Merger, the Mergers), (iv) statements with respect to Wachovia's plans, objectives, expectations and intentions and other statements that are not historical facts, and (v) statements preceded by, followed by or that include the words may, could, would, should, believes, expects, anticipates, estimates, intends, plans, targets, probably, potentially, projects, outlook or similar expressions. These forward-looking statements involve certain risks and uncertainties that are subject to change based on various factors (many of which are beyond Wachovia's control). The following factors, among others, could cause Wachovia's financial performance to differ materially from the goals, plans, objectives, intentions and expectations expressed in such forward-looking statements: (1) the risk that the businesses involved in the Mergers will not be integrated successfully or such integrations may be more difficult, time-consuming or costly than expected; (2) expected revenue synergies and cost savings from the Mergers may not be fully realized or realized within the expected time frame; (3) revenues following the Mergers may be lower than expected; (4) deposit attrition, customer attrition, operating costs, and business disruption following the Mergers, including, without limitation, difficulties in maintaining relationships with employees, may be greater than expected; (5) enforcement actions by governmental agencies that are not currently anticipated; (6) the strength of the United States economy in general and the strength of the local economies in which Wachovia conducts operations may be different than expected resulting in, among other things, a deterioration in credit quality or a reduced demand for credit, including the resultant effect on Wachovia's loan portfolio and allowance for loan losses; (7) the effects of, and changes in, trade, monetary and fiscal policies and laws, including interest rate policies of the Board of Governors of the Federal Reserve System; (8) inflation, interest rate, market and monetary fluctuations; (9) adverse conditions in the stock market, the public debt market and other capital markets (including changes in interest rate conditions) and the impact of such conditions on Wachovia's capital markets and capital management activities, including, without limitation, its mergers and acquisition advisory business, equity and debt underwriting activities, private equity investment activities, derivative securities activities, investment and wealth management advisory businesses, and brokerage activities; (10) adverse changes in the financial performance and/or condition of Wachovia's borrowers which could impact the repayment of such borrowers' outstanding loans; (11) the impact of changes in accounting principles; and (12) the impact on Wachovia's businesses, as well as on the risks set forth above, of various domestic or international military or terrorist activities or conflicts. Additional information with respect to factors that may cause actual results to differ materially from those contemplated by such forward-looking statements is included in the reports filed by Wachovia with the Securities and Exchange Commission, including its Current Report on Form 8-K dated October 17, 2005.

Wachovia cautions that the foregoing list of factors is not exclusive. All subsequent written and oral forward-looking statements concerning the Mergers or other matters and attributable to Wachovia or any person acting on its behalf are expressly qualified in their entirety by the cautionary statements above. Wachovia does not undertake any obligation to update any forward-looking statement, whether written or oral.

Wachovia 3Q05 Quarterly Earnings Report

**Supplemental Illustrative Combined Information**

This Quarterly Earnings Report contains certain financial information labeled **Combined** results. The **Combined** information contained in this Quarterly Earnings Report shows certain historical financial data for each of Wachovia and SouthTrust and also shows similar combined illustrative information reflecting the merger of SouthTrust with and into Wachovia. The historical financial data show the financial results actually achieved by Wachovia and SouthTrust for the periods indicated. The **Combined** illustrative information shows the illustrative effect of the merger under the purchase method of accounting assuming the merger was consummated as of the applicable prior period, instead of November 1, 2004, the actual merger consummation date. In the case of the **Combined** illustrative information for the three months ended December 31, 2004, the standalone SouthTrust information represents the period from October 1, 2004 to October 31, 2004. In the case of the **Combined** illustrative information for the full year ended December 31, 2004, the standalone SouthTrust information represents the period from January 1, 2004 to October 31, 2004.

The **Combined** illustrative information is not prepared in accordance with generally accepted accounting principles ( **GAAP** ), although both the historical Wachovia and historical SouthTrust financial information presented were respectively prepared in accordance with GAAP. Wachovia believes the **Combined** illustrative information is useful to investors in understanding how the financial information of Wachovia and SouthTrust may have appeared on a combined basis had the two companies actually been merged as of the dates indicated and how the financial information of the business segments and certain sub-segments of the new combined company may have appeared had the two companies actually been merged as of the dates indicated.

The **Combined** illustrative information includes estimated adjustments to record certain assets and liabilities of SouthTrust at their respective fair values and to record certain exit costs related to SouthTrust. The estimated adjustments are subject to updates as additional information becomes available and as additional analyses are performed. Certain other assets and liabilities of SouthTrust will also be subject to adjustment to their respective fair values, including additional intangible assets which may be identified. Pending more detailed analyses, no estimated adjustments are included for these assets and liabilities. Any change in the fair value of the net assets of SouthTrust will change the amount of the purchase price allocable to goodwill. In addition, the final adjustments may be materially different from the unaudited estimated adjustments presented. The **Combined** illustrative information cannot be reconciled to GAAP because many of the purchase accounting adjustments resulting from the merger are based upon valuations of assets as of the merger date and therefore cannot be ascertained for prior periods.

We anticipate that the merger will provide Wachovia with financial benefits that include increased revenue and reduced operating expenses, but these financial benefits are not reflected in the **Combined** illustrative information. Accordingly, the **Combined** illustrative information does not attempt to predict or suggest future results. It also does not necessarily reflect what the historical results of the combined company would have been had our companies been combined during the periods presented.

The costs associated with merger integration activities that impact certain SouthTrust systems, facilities and equipment, personnel and contractual arrangements will be recorded as purchase accounting adjustments when the appropriate plans are in place with potential refinements up to one year after completion of the merger as additional information becomes available. We currently estimate that exit cost purchase accounting adjustments will amount to \$447 million pre-tax (\$275 million after-tax). The costs associated with integrating systems and operations will be recorded as merger-related expenses based on the nature and timing of the related expenses, but generally will be recorded as the expenses are incurred. Restructuring charges will be recorded based on the nature and timing of the expenses and generally will include merger integration activities that impact Wachovia systems, facilities and equipment, personnel and contractual arrangements. We currently expect merger-related and restructuring expenses will amount to \$253 million pre-tax (\$156

million after-tax) and will be incurred and reported through 2006.

The information herein is based on historical financial information and related notes that Wachovia and SouthTrust have respectively presented in prior filings with the Securities and Exchange Commission. Shareholders are encouraged to review that historical financial information and related notes in connection with the Combined illustrative information.
