-

**Item 2.02. Results of Operations and Financial Condition**

On February 8, 2006, David A. Bloss, Sr., Chairman, President and Chief Executive Officer of CIRCOR International, Inc. (the Company), and Kenneth W. Smith, Senior Vice President and Chief Financial Officer of the Company, gave a presentation to investors at the Gabelli & Company 16th Annual Pump, Valve & Motor Symposium in New York, New York. The presentation, which was simultaneously webcast pursuant to advance public notification made by the Company in a press release issued January 31, 2006, was accompanied by a slide presentation in both hard copy and electronic format. Certain of these slides contained estimates of financial information relative to the Company's recently completed quarter and fiscal year ended December 31, 2005 which had not previously been released. A copy of these specific slides is furnished with this report as Exhibit 99.1.

The information in this form 8-K and the Exhibit 99.1 attached hereto shall not be deemed filed for purposes of Section 18 of the Securities and Exchange Act of 1934 (the Exchange Act) or otherwise subject to the liability of that section, nor shall it be deemed incorporated by reference into any registration statement or other document filed under the Securities Act of 1933 or the Exchange Act, except as expressly set forth by special reference in such filing.

In the slides furnished herewith, the Company uses the following non-GAAP financial measures: free cash flow, debt to total capitalization and working capital. Management of the Company believes that free cash flow (defined as net cash flow from operating activities, less capital expenditures and dividends paid) is an important measure of its liquidity as well as its ability to service long-term debt, fund future growth and to provide a return to shareholders. Working capital (defined as current assets less cash and current liabilities) and debt to total capitalization (defined as total debt divided by total capital) are provided because management believes these measurements are commonly used by investors and financial institutions to analyze and compare companies on the basis of operating efficiency and financial leverage. Free cash flow, debt to total capitalization and working capital are not measurements for financial performance under GAAP and should not be construed as a substitute for cash flows, shareholders equity and current assets. Free cash flow, debt to total capitalization and working capital, as we have calculated here, may not necessarily be comparable to similarly titled measures used by other companies. A reconciliation of free cash flow, debt to total capitalization and working capital to the most directly comparable GAAP financial measure is provided in the supplemental information table titled Reconciliation of Key Performance Measures to Commonly Used Generally Accepted Accounting Principle Terms which is included in Exhibit 99.1 hereto.

**Item 9.01. Financial Statements and Exhibits**

<u>Exhibit No.</u>	<u>Description</u>
99.1	Slides describing certain financial performance including estimated performance for fiscal year ended December 31, 2005.

**SIGNATURE**

Pursuant to the requirements of the Securities Exchange Act of 1934, as amended, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

Date: February 8, 2006
