Section 1 Registrant's Business and Operations

Item 1.01 Entry into a Material Definitive Agreement

On April 19, 2006, Gilead Sciences, Inc. (the "Company") entered into a purchase agreement (the "Purchase Agreement") under which it agreed to sell \$600 million aggregate principal amount of its 0.50% Convertible Senior Notes due 2011 (the "2011 Notes") and \$600 million aggregate principal amount of its 0.625% Convertible Senior Notes due 2013 (the "2013 Notes" and, together with the 2011 Notes, the "Notes") to Merrill Lynch, Pierce, Fenner & Smith Incorporated, Morgan Stanley & Co. Incorporated, Banc of America Securities LLC and Goldman, Sachs & Co. Inc. (collectively, the "Initial Purchasers"). The Purchase Agreement also gave the Initial Purchasers an option to purchase up to an additional \$50 million aggregate principal amount of the 2011 Notes and up to an additional \$50 million aggregate principal amount of the 2013 Notes to cover overallocments. On April 21, 2006 the Initial Purchasers exercised the aforementioned option in whole. The net proceeds from the offering, after deducting the Initial Purchasers' discount and the estimated offering expenses payable by the Company, are expected to be approximately \$1.28 billion.

The closing of the sale of the Notes occurred on April 25, 2006. The Notes and the shares of the Company's common stock, par value \$0.001 per share (the "Common Stock"), issuable in certain circumstances upon conversion of the Notes have not been registered under the Securities Act of 1933, as amended (the "Securities Act"). The Company offered and sold the Notes to the Initial Purchasers in reliance on the exemption from registration provided by Section 4(2) of the Securities Act. The Initial Purchasers then sold the Notes to qualified institutional buyers pursuant to the exemption from registration provided by Rule 144A under the Securities Act. The Company relied on these exemptions from registration based in part on representations made by the Initial Purchasers in the Purchase Agreement.

The 2011 Notes are governed by an indenture, dated as of April 25, 2006 (the "2011 Indenture"), between the Company and Wells Fargo Bank, National Association, as trustee (the "Trustee"). A copy of the 2011 Indenture is attached hereto as Exhibit 4.1, is incorporated herein by reference, and is hereby filed; the descriptions of the 2011 Indenture and the 2011 Notes in this report are summaries and are qualified in their entirety by the terms of the 2011 Indenture and 2011 Notes, respectively. The 2013 Notes are governed by an indenture, dated as of April 25, 2006 (the "2013 Indenture" and, together with the 2011 Indenture, the "Indentures"), between the Company and the Trustee. A copy of the 2013 Indenture is attached hereto as Exhibit 4.2, is incorporated herein by reference, and is hereby filed; the descriptions of the 2013 Indenture and the 2013 Notes in this report are summaries and are qualified in their entirety by the terms of the 2013 Indenture and the 2013 Notes, respectively.

The 2011 Notes will be convertible into cash and, if applicable, shares of Common Stock based on a conversion rate of 12.9024 shares of Common Stock per \$1,000 principal amount of 2011 Notes (which is equal to an initial conversion price of approximately \$77.50 per share) and the 2013 Notes will be convertible into cash and, if applicable, shares of Common Stock based on a conversion rate of 13.1230 shares of Common Stock per \$1,000 principal amount of 2013 Notes (which is equal to an initial conversion price of approximately \$76.20 per share), in each case subject to adjustment, only under the following circumstances: (1) during any calendar quarter beginning after September 30, 2006 (and only during such calendar quarter), if the closing price of the Common Stock for at least 20 trading days in the 30 consecutive trading days ending on the last trading day of the immediately preceding calendar quarter is more than 130% of the applicable conversion price per share, which is \$1,000 divided by the then applicable conversion rate; (2) if specified distributions to holders of the Common Stock are made or specified corporate transactions occur, in each case as set forth in the Indentures; and (3) during the last month prior to maturity of the applicable Notes. Upon conversion, a holder will receive an amount in cash equal to the lesser of (i) the principal amount of the Note or (ii) the conversion value, determined in the manner set forth in the Indentures. If the conversion value exceeds \$1,000, the Company will also deliver, at its election, cash or Common Stock or a combination of cash and Common Stock for the conversion value in excess of \$1,000.

The 2011 Notes will bear interest at a rate of 0.50% per year and the 2013 Notes will bear interest at a rate of 0.625% per year, in each case payable semiannually in arrears in cash on May 1 and November 1 of each year, beginning on November 1, 2006. The 2011 Notes and the 2013 Notes will mature on May 1, 2011 and May 1, 2013, respectively.

The holders of the Notes who convert their Notes in connection with a change in control, as defined in the applicable Indenture, may be entitled to a make-whole premium in the form of an increase in the conversion rate. Additionally, in the event of a change in control, the holders of the Notes may require the Company to purchase all or a portion of their Notes at a purchase price equal to 100% of the principal amount of Notes, plus accrued and unpaid interest, if any.

The Notes will rank equal in right of payment to all of the Company's other existing and future senior unsecured indebtedness, including indebtedness under the Company's senior credit facility, senior in right of payment to all of the Company's existing and future subordinated indebtedness and effectively subordinated in right of payment to all of its subsidiaries' obligations (including

secured and unsecured obligations) and effectively subordinated in right of payment to its secured obligations to the extent of the assets securing such obligation.

In connection with the sale of the Notes, the Company entered into a registration rights agreement, dated as of April 25, 2006, with the representatives of the Initial Purchasers (the "Registration Rights Agreement"). Under the Registration Rights Agreement, the Company has agreed to use its reasonable efforts to cause to become effective within 270 days after the closing of the offering of the Notes, a shelf registration statement with respect to the resale of the Notes and the shares of Common Stock issuable upon conversion of the Notes. The Company will use its reasonable efforts to keep the shelf registration statement effective for a period of two years after the closing of the offering of the Notes or until the earlier of (i) the sale or transfer pursuant to a shelf registration statement of all of the Notes and Common Stock issuable upon conversion of the Notes, and (ii) the date when holders (other than holders that are the Company's affiliates) of the Notes and Common Stock issuable upon conversion of the Notes are able to sell all such securities immediately without restriction. The Company will be required to pay additional interest, subject to some limitations, to the holders of the Notes if it fails to comply with its obligations to register the Notes and the Common Stock issuable upon conversion of the Notes. A copy of the Registration Rights Agreement is attached hereto as Exhibit 4.3, is incorporated herein by reference, and is hereby filed; the description of the Registration Rights Agreement in this report is a summary and is qualified in its entirety by the terms of the Registration Rights Agreement.

In connection with the sale of the Notes, the Company entered into convertible note hedge transactions with respect to its Common Stock (the "Purchased Call Options") with Banc of America Securities, N.A. (the "Dealer"). The Purchased Call Options cover, subject to customary anti-dilution adjustments, approximately 16.9 million shares of Common Stock at strike prices which correspond to the initial conversion prices of the Notes. The Company paid an aggregate amount of approximately \$379.1 million of the proceeds from the sale of the Notes for the Purchased Call Options.

The Company also entered into separate warrant transactions whereby the Company has sold to the Dealer warrants to acquire, subject to customary anti-dilution adjustments, approximately 16.9 million shares of Common Stock (the "Sold Warrants"). Sold Warrants covering approximately 8.4 million shares of Common Stock will be exercisable and expire in August 2011 and have a strike price of \$101.60. Sold Warrants covering approximately 8.5 million shares of Common Stock will be exercisable and expire in July 2013 and have a strike price of \$107.79. The Company received aggregate proceeds of approximately \$235.5 million from the sale of the Sold Warrants.

The Purchased Call Options and Sold Warrants are separate contracts entered into by the Company with the Dealer, are not part of the terms of the Notes and will not affect the holders' rights under the Notes. The Purchased Call Options are expected to offset the potential dilution upon conversion of the Notes in the event that the market value per share of the Common Stock at the time of exercise is greater than the strike prices of the Purchased Call Options, which correspond to the initial conversion prices of the Notes and are simultaneously subject to certain customary adjustments.

If the market value per share of the Common Stock at the time of conversion of the Notes is above the strike price of the applicable Purchased Call Options, the Purchased Call Options entitle the Company to receive from the Dealers net shares of Common Stock, cash or a combination of shares of Common Stock and cash, depending on the consideration paid on the underlying Notes, based on the excess of the then current market price of the Common Stock over the strike price of the Purchased Call Options. Additionally, if the market price of the Common Stock at the time of exercise of the applicable Sold Warrants exceeds the strike price of the Sold Warrants, the Company will owe the Dealers net shares of Common Stock or cash, not offset by the Purchased Call Options, in an amount based on the excess of the then current market price of the Common Stock over the strike price of the applicable Sold Warrants.

These transactions will generally have the effect of increasing the conversion price of the 2011 Notes to \$101.60 per share of Common Stock, representing an approximate 56 percent premium based on the last reported bid price of \$65.13 per share on April 19, 2006 and increasing the conversion price of the 2013 Notes to \$107.79 per share of Common Stock, representing an approximate 65.5 percent premium to such last reported bid price.

The Sold Warrants and the underlying Common Stock issuable upon exercise of the Sold Warrants have not been registered under the Securities Act, and may not be offered or sold in the United States absent registration or an applicable exemption from registration requirements. This report on Form 8-K does not constitute an offer to sell, or a solicitation of an offer to buy, any security and shall not constitute an offer, solicitation or sale in any jurisdiction in which such offering would be unlawful.

The 2011 Notes will bear interest at a rate of 0.50% per year and the 2013 Notes will bear interest at a rate of 0.625% per year, in each case payable semiannually in arrears in cash on May 1 and November 1 of each year, beginning on November 1, 2006. The holders of the Notes who convert their Notes in connection with a change in control, as defined in the applicable Indenture, may be entitled to a make-whole premium in the form of an increase in the conversion rate. Additionally, in the event of a change in control, the holders of the Notes may require the Company to purchase all or a portion of their Notes at a purchase price equal to 100% of the principal amount of Notes, plus accrued and unpaid interest, if any.

The Notes and the underlying Common Stock issuable upon conversion of the Notes have not been registered under the Securities Act and may not be offered or sold in the United States absent registration or an applicable exemption from registration requirements.

This report on Form 8-K does not constitute an offer to sell, or a solicitation of an offer to buy, any security and shall not constitute an offer, solicitation or sale in any jurisdiction in which such offering would be unlawful.

The Company received aggregate proceeds of approximately \$235.5 million from the sale of the Sold Warrants.

Additional information pertaining to the Notes and the Sold Warrants is contained in Item 1.01 and is incorporated herein by reference.

Neither the Sold Warrants nor the underlying Common Stock issuable upon conversion of the Sold Warrants have been registered under the Securities Act and may not be offered or sold in the United States absent registration or an applicable exemption from registration requirements.
