The following statements are made pursuant to the safe harbor for forward-looking statements described in the Private Securities Litigation Reform Act of 1995.

In these presentations, we may make certain statements that are forward-looking, such as statements regarding Full House's future results and plans and anticipated trends in the industries and economies in which Full House operates.

These forward-looking statements are the Company's current expectations and the Company will make no effort to update these expectations based on subsequent events or knowledge.

These forward-looking statements are subject to a number of risks, uncertainties, and assumptions, including that our revenues may differ from that projected, that governmental and court approvals may not be forthcoming or may be delayed:

- Our growth strategies may not be realized;

- Our development and potential acquisition of new facilities may not occur;

- Trends in the gaming industries may be negative;

- We may not have access to capital, including the ability to finance future business requirements;

- There may be adverse changes in federal, state and local laws and regulations, including environmental and gaming license legislation and regulations; and

- Other risks detailed in our documents filed with the SEC.

Should one or more of these risks or uncertainties materialize, or should our underlying assumptions prove incorrect, actual results may differ significantly from results expressed or implied in any forward-looking statements made by the Company in these communications

Business Model

Business Model

Two areas of development:

Development and Management Services: Indian and Other Gaming

Opportunity: Revenue and Earnings Growth

Challenge: Development Projects have long lead time

Acquisition and Operation: Commercial Casinos

Opportunity:

Quickly accretive to earnings

Operations benefit from our experience

Challenge:

Competition for good properties

The mix of limited term management contracts and direct ownership spreads risk and allows continuing operations to fund development.

Situation Overview

Situation Overview

Close Proximity to Chicago and Detroit in addition to other major Michigan metropolitan markets

Closest casino for over a million Michigan Residents

Diverse and strong local economy

Numerous attractions and strong visitation trends

Proposed site is irreplaceable, and provides the Tribe with a competitive advantage vis-à-vis existing operators and possible new entrants

Assembling a comparable site in such a location likely to be extraordinarily challenging & time consuming

Size of site provides Tribe with significant development/growth pipeline

Excellent road access to all major highways, especially I-94 and I-69

The Tribe's casino will be a major competitor to the existing Native American casino operators

Most other Native American casinos are located in the Northern part of the state

Generally dated facilities offering less than 2,000 gaming positions

Given the superior location of the Project, the developmental potential of the site and the superior relative position of the Project, we believe the Company can develop a world class property.
