3. Content of the report: The company spends NT\$4 billion to cooperate with the government driving the stock market

4. Summary of the information provided by investors: None

5. Company's explanation of the reportage or provided information: The company's share price has been relatively low owing to the impact of sub-prime mortgage crisis and the continuing sold out by QFII in the last two months. So as the company decided to conduct a share repurchase program in order to maintain its credit and shareholders' interest. In addition, the company is expected to still hold large cash position after its returning cash to shareholders by conducting capital reduction and share repurchase programs. Therefore, the company decided to invest in domestic private placement on Balanced Fund to diversify the allocation of the assets. This is of management's efforts to maximize shareholders return rather than that as reported.
