- “ Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

## Section 8 Other Events

### Item 8.01 Other Events.

On December 11, 2007, Exelon Generation Company, LLC (Generation) issued a press release announcing that it had entered into an agreement with EnergySolutions, LLC (EnergySolutions), for decommissioning of Generation's Zion nuclear facility located in Zion, Illinois (Zion Station), which ceased operation in 1998. EnergySolutions is a wholly-owned subsidiary of EnergySolutions, Inc. (ES Inc.) A copy of the Generation press release is attached to this report as Exhibit 99.1.

On December 11, 2007, Generation entered into an Asset Sale Agreement with EnergySolutions, ES Inc., and ZionSolutions, LLC (ZionSolutions). ZionSolutions is a wholly-owned subsidiary of EnergySolutions. EnergySolutions also executed a Performance Guaranty relating to specified present and future obligations of ZionSolutions, and ES Inc. entered into a Guaranty relating to specified present and future obligations of EnergySolutions and ZionSolutions.

Completion of the transactions contemplated by the Asset Sale Agreement is subject to the satisfaction of a number of closing conditions, including the accuracy of the parties' representations and warranties, the performance of covenants, the receipt of regulatory approvals, and the receipt of a private letter ruling from the Internal Revenue Service. Generation does not expect that conditions to the closing of the transaction will be satisfied before the second half of 2008.

If the various closing conditions under the Asset Sale Agreement are satisfied and the transaction is completed, Generation will transfer to ZionSolutions substantially all of the assets (other than land) associated with the Zion Station, including assets (approximately \$900 million) held in nuclear decommissioning trusts. In consideration for Generation's transfer of those assets, ZionSolutions will assume decommissioning and other liabilities associated with the Zion Station. ZionSolutions will take possession and control of the land associated with the Zion Station pursuant to a Lease Agreement with Generation, to be executed at the closing. Under the Lease Agreement, ZionSolutions will commit to complete the required decommissioning work according to an established schedule and will construct a dry cask storage facility on the land for spent nuclear fuel currently held in spent fuel pools at Zion Station. Rent payable under the Lease Agreement will be \$1.00 per year, although the Lease Agreement requires ZionSolutions to pay property taxes associated with the Zion Station and penalty rents may accrue if there are unexcused delays in the progress of decommissioning work at ZionStation or the construction of the dry cask spent fuel storage facility. If the transaction is completed in 2008, Generation expects the required decommissioning work and the construction of the dry cask spent fuel storage facility would be completed by 2018.

In connection with the lease of the land and the transfer of the Zion Station assets to ZionSolutions at the closing of the transaction, the parties will enter into various other agreements to assure the performance of the obligations of ZionSolutions under its contracts to complete the required decommissioning and other work. Those arrangements will include the following:

EnergySolutions and ES Inc. will execute a Credit Support Agreement pursuant to which they will deliver a letter of credit in the face amount of \$200 million, which will be held by Generation. Upon the occurrence of specified events of default, Generation will be allowed to draw upon the letter of credit. The proceeds of draws on the letter of credit will be payable into a special nuclear decommissioning trust created by ZionSolutions (the Backup NDT), which will be segregated from other nuclear decommissioning trusts established by ZionSolutions to hold nuclear decommissioning trust assets transferred from the nuclear decommissioning trusts currently maintained by Generation for the Zion Station.

EnergySolutions will also execute an Irrevocable Easement for Disposal Capacity in order to dedicate sufficient space in its low-level radioactive waste disposal facility in Clive, Utah for disposal of specified low-level radioactive waste originating from Zion Station. Following specified events of default, the dedicated space in the Clive, Utah disposal facility will be made available for disposal of specified low level radioactive waste originating from the Zion Station at

no cost. The rights under the Irrevocable Easement for Disposal Capacity will be held by the Backup NDT.

EnergySolutions will also execute a Disposal Agreement that will become effective following specified events of default. Under the Disposal Agreement, EnergySolutions will treat and handle specified low-level radioactive waste originating from the Zion Station under a pricing structure intended to compensate EnergySolutions for its direct costs plus a specified markup. The rights under the Disposal Agreement will be held by the Backup NDT.

EnergySolutions will execute a Pledge Agreement pursuant to which it will pledge all of its equity interest in ZionSolutions as security for the payment and performance of the obligations of EnergySolutions under its Performance Guaranty. Upon the occurrence of specified events of default, Generation will have rights to take control of or title to the pledged equity interests in ZionSolutions.

ZionSolutions and Generation will also enter into a Put Option Agreement pursuant to which ZionSolutions will have the option to transfer the remaining Zion Station assets and any associated liabilities back to Generation upon completion of all required decommissioning and other work at Zion Station. The purchase price payable under the Put Option Agreement is \$1.00 plus the assumption of associated liabilities.

As noted, completion of the transaction is subject to satisfaction of a number of conditions, and no assurances can be given that those conditions will be satisfied or that the transaction will be completed.

## Section 9 Financial Statements and Exhibits

### Item 9.01. Financial Statements and Exhibits.

(d) *Exhibits.*

Exhibit No.	Description
99.1	Press release
