Summary of 2008 First Quarter Business Report

On May 15, 2008, Kookmin Bank filed its business report for the first quarter of 2008 (the Business Report) with the Financial Services Commission of Korea and the Korea Exchange. This is a summary of the Business Report translated into English.

The Korea Accounting Standard Board (KASB) under the Korea Accounting Institute (KAI) issued the Statements of Korea Accounting Standards (SKAS) for achieving a set of Korean accounting standards that should be internationally acceptable and comparable based on SKAS Act 92. The Bank adopted SKAS No. 1 (Accounting Changes and Error Corrections) through SKAS No. 25 (Consolidated Financial Statements) (excluding SKAS No. 14) as of or before December 31, 2007.

In addition, according to the amended SKAS No. 15 (Investments in Associates), the Bank applied the equity method making current earnings and net assets reported in the non-consolidated financial statements of the Bank coincide with its share of current earnings and net assets of an associate included in the consolidated financial statements. However the Bank ceases to apply the equity method when the balance of the investment in the associate has become zero. The financial statements for the prior period were restated for comparative purposes due to the application of SKAS No.15 (revision).

Financial information contained in this summary (and in the attached review report) have been prepared in accordance with generally accepted accounting principles in Korea, which differ in certain important respects from generally accepted accounting principles in the United States.

All references to Kookmin Bank mean Kookmin Bank on a non-consolidated basis, and all references to we , us or the Bank mean Kookmin Bank and, as the context may require, its subsidiaries. In addition, all references to Won in this document are to the currency of the Republic of Korea.

Table of Contents

1. Introduction to the Bank

1.1. Business Purposes

The business purpose of the Bank is to engage in the following business activities:

- n The banking business as prescribed by the Banking Act,

Application for preliminary authorization to establish a financial holding company

Table of Contents**1.3 Capital Structure****1.3.1. Common Shares**

Kookmin Bank has the authority to issue a total of 1,000,000,000 shares of capital stock according to its Articles of Incorporation. Kookmin Bank's Articles of Incorporation also provide that Kookmin Bank is authorized to issue shares of preferred stock up to one-half of all of Kookmin Bank's issued and outstanding shares of common stock. Upon completion of the merger between the former Kookmin Bank and H&CB, Kookmin Bank issued 299,697,462 common shares.

Upon the resolution of a shareholders' meeting held on March 22, 2002, Kookmin Bank issued an additional 17,979,954 common shares in connection with a stock dividend of 6%.

On November 25, 2002 Goldman Sachs Capital Koryo, L.P. converted all of its convertible bonds into common shares. According to this conversion on November 30, 2002, Kookmin Bank issued 10,581,269 common shares and distributed them to Goldman Sachs Capital Koryo, L.P.

With respect to the merger between Kookmin Bank and Kookmin Credit Card on September 30, 2003, Kookmin Bank issued an additional 8,120,431 common shares on October 1, 2003. Accordingly, as of March 31, 2008, a total of 336,379,116 common shares were issued.

Number of Shares

(Unit: shares) as of March 31, 2008

	Type	
	Common Stock	Total
Share Issued (A)	336,379,116	336,379,116
Treasury Stock (B)		
Share Outstanding (A-B)	336,379,116	336,379,116

Capital Increase

(Unit: Won, shares)

Issue Date	Type	Number	Face Value	Issue Price	Remarks
2001.10.31	Common Stock	299,697,462	5,000		M&A into a new entity
2002.3.22	Common Stock	17,979,954	5,000	5,000	Stock dividend
2002.11.30	Common Stock	10,581,269	5,000	22,124	CB conversion
2003.10.01	Common Stock	8,120,431	5,000	38,100	M&A with KCC

1.3.2. Treasury Stock

(Unit: shares)

Date	Details	Number of shares
December 31, 2005	Outstanding Treasury Shares	217,935
January 13, 2006	Disposition due to exercise of stock option by grantees	(217,935)
As of March 31, 2008	Outstanding Treasury Shares	0

Table of Contents**1.3.3. Employee Stock Ownership Association**

(Unit: shares)

Type	Beginning Balance (January 1, 2008)	Increase	Decrease	Ending Balance (March 31, 2008)	Remarks
Registered common stock	2,729,756		145,408	2,584,348	
Total	2,729,756		145,408	2,584,348	

1.4. Dividend

The following table shows our dividend related information for the last three years. The Board of Directors of Kookmin Bank passed a resolution to pay a dividend for fiscal year of 2007, and shareholders of Kookmin Bank approved of the dividend payout for fiscal year 2007 at the general meeting of shareholders held on March 20, 2008.

(Unit: in millions of Won unless indicated otherwise)

	March 2008	2007	2006
Net (loss) income for the period		2,773,843	2,472,111
Diluted (loss) earnings per share (Won)		8,246 ₁	7,349
Total dividend amount		824,129	1,227,784
Dividend payout ratio (%)		29.71 ₂	49.67
Cash dividend per common share (Won)		2,450	3,650
Stock dividend per common share (%)			
Dividend per preferred share (Won)			
Dividend yield ratio (%)		3.48 ₃	4.90

¹ Earnings per share = net income (Won 2,773,843,133,424) / weighted average number of shares (336,379,116 shares).

² Dividend payout ratio = total dividend amount for common shares (Won 824,128,834,200) / net income (Won 2,773,843,133,424).

³ Dividend yield ratio = dividend per share (Won 2,450) / average closing price for a week based on business day prior to market closing date of December 31, 2007 (Won 70,475).

2.3. Branch Networks

As of March 31, 2008, we had 1,119 branches (including the head office) and 89 sub-branches in Korea; 479 of our branches and sub-branches are located in Seoul.

We also have four overseas branches and three overseas representative offices. The overseas branches are located in Tokyo, Japan; New York, U.S.A.; Auckland, New Zealand; and Guangzhou, People's Republic of China. The overseas representative offices located are in Almaty, Kazakhstan; Ho Chi Minh City, Vietnam; and Kyiv, Ukraine.

We plan to open a total of 56 new domestic branches and sub-branches during 2008 (including 7 branches and sub-branches opened during the first quarter of 2008). These plans are subject to change depending on market conditions and other factors.

We also plan to establish overseas branches in Harbin and Suzhou, People's Republic of China, during 2008. These plans are subject to change depending on regulatory approvals and other factors.

¹ Includes lump-sum and installment purchases, cash advances, and check card and purchasing card transactions.

3.3. Other Financial Information

See Exhibit 99.1 Kookmin Bank Review Report by our independent auditors for our full financial statements and relevant notes, which have been prepared in accordance with generally accepted accounting principles in Korea. The Review Report will also be available on our website, www.kbstar.com.

Table of Contents**4. Independent Public Accountants****4.1. Audit & Audit related Fees**

Deloitte Anjin LLC has reviewed our financial statements for the first quarter of 2008. The aggregate contracted amount of such firm's audit and review fees for the year 2008 is Won 1,490 million.

4.2. Non-Audit Services

The following is a description of non-audit services rendered by our independent auditor for the recent three years.

(Unit: in millions of Won unless indicated otherwise)

Year	Service description	Amount of payment
1Q 2008	-	
	- Issuance of comfort letter	90
2007	- Issuance of comfort letter	70
	- Agreement for issuance of comfort letter ¹	50
	- Issuance of comfort letter	40
2006	- Confirmation of BIS ratio and confirmation affirming that Kookmin Bank is not a Non-Financial Operator	10

¹ The Agreement for issuance of comfort letter has been terminated.

Table of Contents

5. Corporate Governance and Affiliated Companies

5.1. Board of Directors & Committees under the Board

The board of directors, currently consisting of executive directors and non-executive directors, holds regular meetings quarterly. Additional extraordinary meetings may also be convened at the request of any director or any committee that serves under the board of directors.

The board of directors resolves following matters:

- n Matters relating to general meeting of shareholders
- n Matters relating to general management
- n Matters relating to organization and directors of the company
- n Matters relating to funding and capital
- n Other related matters

The following committees currently serve under our board of directors:

- n The Board Steering Committee
- n The Management Strategy Committee
- n The Risk Management Committee
- n The Evaluation & Compensation Committee
- n The Audit Committee
- n The Non-Executive Director Nominating Committee

For the list of our directors, see 6. Directors, Senior Management and Employees, 6.1. Executive Directors and 6.2. Non-Executive Directors.

5.2. Audit Committee

The audit committee oversees our financial reporting and approves the appointment of and interaction among our independent auditors, compliance officers, management personnel and other committee advisors. The committee also reviews our financial information, auditor s examinations, key financial statement issues and the administration of our financial affairs by the board of directors. The committee also examines the agenda for, and financial statements and other reports to be submitted by, the board of directors to each general meeting of

shareholders. The committee holds regular meetings every quarter and on an as-needed basis.

Table of Contents**5.3. Compensation to Directors****5.3.1. Compensation to Directors**

The following table shows information regarding the remuneration paid to the Directors in the first quarter of 2008.

(Unit: in millions of Won)

	The aggregate remuneration paid (From January to March 2008)	Limit for the remuneration resolved by shareholders meeting (For the year 2008)	Average amount of the payment per person (From January to March 2008)	Total fair value of stock option ¹	Weight (%)
1) Executive Directors (Except Chief Audit Executive and Non-executive Directors)	2,297		747		
2) Non-executive Directors (Except members of Audit Committee)	93	8,000	18₂		
3) Members of Audit Committee (Including Chief Audit Executive)	601		120₂		
Total	2,991	8,000	223		

¹ For those portions of stock options granted on or before December 31, 2006, we used the intrinsic value model to calculate the total fair value of stock option. For those portions of stock options granted on or after January 1, 2007, we adopted the Black-Scholes option pricing model to calculate the total fair value of stock option.

The following negative values, resulting from calculation according to the intrinsic value method, are excluded from this table: (-9,018) million Won (Executive Directors (except Chief Audit Executive and Non-executive Directors)), (-434) million Won (Non-executive Directors (except members of Audit Committee)), (-226) million Won (Members of Audit Committee (including Chief Audit Executive)).

² Reflects the changes made to the number of non-executive directors in March of 2008.

² Exercise price = (Base Price) Won × (1 + TRS of the three major competitors × 0.4)

(Base Price) Won is the arithmetic mean of the following three numbers: the sum of the daily closing price multiplied by the daily trading volume divided by the daily trading volume for the common shares during each of the following periods: (i) two months prior to, but excluding, the grant date; (ii) one month prior to, but excluding, the grant date; and (iii) one week prior to, but excluding, the grant date.

TRS of the three major competitors shall mean (the sum of each of the three major competitor's Total Market Cap at the expected exercise price confirmation date less the sum of each of the three major competitor's Total Market Cap at the grant date) divided by the sum of each of the three major competitor's Total Market Cap at the grant date.

Our current non-executive directors and the number of shares of Kookmin Bank's common stock they own as of March 31, 2008 are as follows.

Name	Date of Birth	Position	Common Shares Owned
Kee Young Chung	09/07/1948	Non-Executive Director	
Jacques P.M. Kemp	05/15/1949	Non-Executive Director	
Dam Cho	08/01/1952	Non-Executive Director	
Suk Sig Lim	07/17/1953	Non-Executive Director	
Bo Kyung Byun	08/09/1953	Non-Executive Director	860
Sang Moon Hahm	02/02/1954	Non-Executive Director	
Han Kim	02/17/1954	Non-Executive Director	
Chee Joong Kim	12/11/1955	Non-Executive Director	
Baek In Cha	07/23/1958	Non-Executive Director	
Chan Soo Kang	11/23/1961	Non-Executive Director	

Table of Contents**6.3. Senior Management**

In addition to the executive directors who are also our executive officers, we had the following 11 executive officers as of March 31, 2008.

Name	Date of Birth	Position	Common Shares Owned
Hyung Goo Sim	10/24/1953	Senior Executive Vice President	
Dal Soo Lee	02/15/1952	Senior Executive Vice President	192
Jeung Ho Lee	08/15/1952	Senior Executive Vice President	78
Yong Kook Oh	09/30/1949	Senior Executive Vice President	
Hyo Sung Won	07/29/1960	Senior Executive Vice President	
Kyung Woo Nam	04/01/1951	Senior Executive Vice President	
Young Han Choi	09/24/1958	Senior Executive Vice President	
Byung Kun Oh	01/06/1953	Senior Executive Vice President	155
Sai Yoon Hong	04/11/1954	Senior Executive Vice President	78
Heung Woon Kim	07/20/1957	Senior Executive Vice President	1,600
Kwang Chun Shon	07/21/1956	Senior Executive Vice President	41

Table of Contents**6.4. Employees**

The following table shows the breakdown of our employees as of March 31, 2008.

(Unit: in millions of Won)

	Number of Employees ¹			Average Tenure of the Full-time Employees (years) ²	Total Payment for the first quarter of 2008 ³	Average Payment per Person
	Full-time	Contractual	Total			
Male	13,030	1,474	14,504	18 years and 1 month	246,742	17.0
Female	4,971	6,970	11,941	13 years and 10 months	140,257	11.7
Total	18,001	8,444	26,445	16 years and 11 months	386,999	14.6

¹ Number of employees is calculated as the arithmetic mean of the number of employees as of the end of each month from January 31, 2008 to March 31, 2008, and does not include executive vice presidents, local employees in overseas branches and persons engaged in outsourced services.

² Based on only full-time employees as of March 31, 2008

³ Based on labor expense and employee benefit / welfare costs paid as of March 31, 2008

8. Other Important Information for Investors

8.1. Progress Relating to Regulatory Filing

1. On July 13, 2007, we submitted a current report on Form 6-K relating to a second notice of additional tax assessment from the Seoul Regional Tax Office in respect of the periodic tax audit for the years 2002 to 2005. This second assessment was in the amount of KRW 268,791,041,795, and in addition to an earlier assessment in the amount of KRW 173,189,962,460. The amount payable in respect of the second assessment was subsequently reduced by KRW 3,006,280,175, in part due to early payment of the assessed amounts. We paid such reduced amount on August 13, 2007.
2. On August 6, 2007 and August 13, 2007, we appealed the tax assessments in two separate proceedings, distinguished in part by type of tax. The amount of assessment being appealed is KRW 438,862,802,150.
3. On September 12, 2007, we disclosed that we were reviewing the establishment of a new securities company and/or the acquisition of an existing securities company in pursuit of a possible entry into the securities business. In connection therewith, on March 11, 2008, we acquired 95.8% of Hannuri Investment & Securities Co., Ltd, which was added as a new affiliate of Kookmin Bank and changed its name to KB Investment & Securities Co., Ltd.
4. On November 6, 2007, we disclosed that we were reviewing internally a possible entry into Central Asian markets (including Kazakhstan) and South East Asian markets through potential acquisitions as part of our overseas expansion strategy. On March 14, 2008, we entered into an agreement to acquire 29.99% of the outstanding shares of Joint Stock Company Bank CenterCredit (CenterCredit). We plan to increase our equity stake in CenterCredit to 50.1% or more within 30 months from the closing date of this acquisition.

Table of Contents

Independent Accountants' Review Report

English Translation of a Report Originally Issued in Korean

To the Shareholders and Board of Directors of

Kookmin Bank:

We have reviewed the accompanying non-consolidated balance sheet of the Bank accounts of Kookmin Bank (the "Bank") as of March 31, 2008, and the related non-consolidated statements of income, changes in shareholders' equity and cash flows for the three months ended March 31, 2008 and 2007, all expressed in Korean Won. These financial statements are the responsibility of the Bank's management. Our responsibility is to issue a report on these financial statements based on our reviews.

We conducted our review in accordance with standards for review of interim financial statements in the Republic of Korea. Those standards require that we plan and perform the review to obtain moderate assurance as to whether the financial statements are free of material misstatement. A review is limited primarily to inquiries of the Bank's personnel and analytical procedures applied to financial data, and this provides less assurance than an audit. We have not performed an audit and, accordingly, we do not express an audit opinion.

Based on our review, nothing has come to our attention that causes us to believe that the accompanying financial statements are not presented fairly, in all material respects, in accordance with accounting principles generally accepted in the Republic of Korea.

We have previously audited, in accordance with auditing standards generally accepted in the Republic of Korea, the non-consolidated balance sheet of the Bank as of December 31, 2007, and the related non-consolidated statements of income, appropriations of retained earnings and cash flows for the year then ended (not presented herein) and in our report dated March 3, 2008, we expressed an unqualified opinion on those non-consolidated financial statements. The accompanying non-consolidated balance sheet as of December 31, 2007, which is comparatively presented, does not differ in material respects from such audited non-consolidated balance sheet.

Table of Contents

Accounting principles and review standards and their application in practice vary among countries. The accompanying financial statements are not intended to present the financial position, results of operations, changes in shareholders' equity and cash flows in accordance with accounting principles and practices generally accepted in countries other than the Republic of Korea. In addition, the procedures and practices utilized in the Republic of Korea to review such financial statements may differ from those generally accepted and applied in other countries. Accordingly, this report and the accompanying financial statements are for use by those knowledgeable about Korean accounting procedures and review standards and their application in practice.

May 2, 2008

Notice to Readers

This report is effective as of May 2, 2008, the accountants' review report date. Certain subsequent events or circumstances may have occurred between the accountants' review report date and the time the accountants' review report is read. Such events or circumstances could significantly affect the accompanying financial statements and may result in modifications to the accountants' review report.

KOOKMIN BANK

NOTES TO NON-CONSOLIDATED FINANCIAL STATEMENTS

FOR THE THREE MONTHS ENDED MARCH 31, 2008 AND 2007

1. **GENERAL:**

Kookmin Bank (the "Bank") was established in 1963 under the Citizens National Bank Act to provide and administer funds for financing to the general public and small businesses. Pursuant to the repeal of the Citizens National Bank Act, effective January 5, 1995, the Bank has conducted its operations in accordance with the provisions of the General Banking Act.

The Bank merged with Korea Long Term Credit Bank on December 31, 1998 and with Daegu, Busan, Jeonnam Kookmin Mutual Savings & Finance Co., Ltd. on August 22, 1999. Also, under the decision of the Financial Supervisory Commission in accordance with the Structural Improvement of the Financial Industry Act, the Bank purchased certain assets, including loans classified as normal or precautionary, and assumed most of the liabilities of Daedong Bank on June 29, 1998. Also, the Bank completed the legal consolidation with Housing and Commercial Bank ("H&CB") on October 31, 2001 and merged with Kookmin Credit Card Co., Ltd., a majority-owned subsidiary, on September 30, 2003.

The Bank's shares have been listed on the Korea Stock Exchange since September 1994. As a result of the business combination with H&CB, the former shareholders of the Bank and H&CB received new common shares of the Bank on the basis of a pre-determined ratio. The new common shares of the Bank were listed on the Korea Stock Exchange on November 9, 2001. In addition, the Bank listed its American Depository Shares ("ADS") on the New York Stock Exchange ("NYSE") as of November 1, 2001 following the consolidation with H&CB. H&CB listed its ADS on the NYSE as of October 3, 2000 prior to the business combination. As of March 31, 2008, the Bank's paid-in capital is (Won)1,681,896 million.

The Bank is engaged in the banking, trust, credit card and other relevant businesses according to the provisions of the General Banking Act, Trust Business Act, and Specialized Credit Financial Business Act, respectively. The Bank operates through 1,207 domestic branches and offices (excluding 267 automated teller machine stations) and four overseas branches (excluding two subsidiaries and three offices) as of March 31, 2008.

2. **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:**

Basis of Non-consolidated Financial Statement Presentation

The Bank maintains its official accounting records in Korean Won and prepares statutory non-consolidated financial statements in the Korean language (Hangul) in conformity with the accounting principles and banking accounting standards generally accepted in the Republic of Korea. Certain accounting principles and banking accounting standards applied by the Bank that conform with financial accounting standards and accounting principles in the Republic of Korea may not conform with generally accepted accounting principles and banking accounting practices in other countries. Accordingly, these financial statements are intended for use by those who are informed about Korean accounting principles and practices. The accompanying financial statements have been condensed, restructured and translated into English (with certain expanded descriptions) from the Korean language financial statements. Certain information included in the Korean language financial statements, but not required for a fair presentation of the Bank's financial position, results of operations or cash flows, is not presented in the accompanying financial statements.

The significant accounting policies followed by the Bank in preparing the accompanying non-consolidated financial statements are summarized below.

Table of Contents

Interest Income Recognition

The Bank applies the accrual basis in recognizing interest income related to deposits, loans and securities, except for non-secured uncollectible receivables. Interest on loans, whose principal or interest is past due at the balance sheet date, is generally not accrued, with the exception of interest on certain loans secured by guarantee of governments or government agencies, or collateralized by bank deposits. When a loan is placed on non-accrual status, previously accrued interest is generally reversed and deducted from current interest income; and future interest income is recognized on the cash basis in accordance with the banking industry accounting standards. As of March 31, 2008 and December 31, 2007, the principal amount of loans and securities of which the accrued interest income was not recorded in the accompanying financial statements based on the above criteria amounted to (Won)5,664,786 million and (Won)4,917,003 million, respectively, and the related accrued interest income not recognized amounted to (Won)646,269 million and (Won)602,835 million, respectively.

Classification of Securities

At acquisition, the Bank classifies securities into one of the following categories: trading, available-for-sale, held-to-maturity and securities accounted for using the equity method, depending on marketability, purpose of acquisition and ability to hold. Debt and equity securities that are bought and held for the purpose of selling them in the near term and actively traded are classified as trading securities. Debt securities with fixed and determinable payments and fixed maturity that the Bank has the positive intent and ability to hold to maturity are classified as held-to-maturity securities. Securities that should be accounted for under the equity method are classified as securities accounted for using the equity method. Debt and equity securities not classified as above are categorized as available-for-sale securities.

If the objective and ability to hold securities of the Bank change, available-for-sale securities can be reclassified to held-to-maturity securities and held-to-maturity securities can be reclassified to available-for-sale securities. Whereas, if the Bank sells held-to-maturity securities or exercises early redemption right of securities to issuer in the current year or the proceeding two years, and if it reclassifies held-to-maturity securities to available-for-sale securities, all debt securities that are owned or purchased cannot be classified as held-to-maturity securities. On the other hand, trading securities cannot be recategorized to available-for-sale securities or held-to-maturity securities and vice versa. Nevertheless, trading securities are reclassified to available-for-sale securities only when the trading securities lose their marketability.

Valuation of Securities

(1) Valuation of Trading Securities

Trading equity and debt securities are initially recognized at acquisition cost plus incidental expenses determined by the individual moving average method (the specified identification method for debt securities). When the face value of trading debt securities differs from their acquisition cost, the effective interest method is applied to amortize the difference over the remaining term of the securities. After initial recognition, if the fair value of trading securities differs from the book value, trading securities are stated at fair value and the resulting valuation gain or loss is included in current operations.

(2) Valuation of Available-for-sale Securities

Available-for-sale securities are initially recognized at acquisition cost plus incidental expenses, determined by the individual moving average method (the specified identification method for debt securities). The effective interest method is applied to amortize the difference between the face value and the acquisition cost over the remaining term of the debt security. After initial recognition, available-for-sale securities are stated at fair value, with the net unrealized gain or loss presented as gain or loss on valuation of available-for-sale securities in accumulated other comprehensive income. Accumulated other comprehensive income of securities are charged to current operations in a lump sum at the time of disposal or impairment recognition. Non-marketable equity securities are stated at acquisition cost on the financial statements if the fair value of the securities is not reliably determinable.

Table of Contents

If the fair value of equity securities (net asset fair value in case of non-marketable equity securities stated at acquisition cost) is below the acquisition cost and the pervasive evidence of impairment exists, the carrying value is adjusted to fair value and the resulting valuation loss is charged to current operations. If the collectible value of debt securities is below the amortized cost and the pervasive evidence of impairment exists, the carrying value is adjusted to collectible value and the resulting valuation loss is charged to current operations. With respect to impaired securities, any unrealized valuation gain or loss of securities previously included in the accumulated other comprehensive income is reversed.

(3) Valuation of Held-to-maturity Securities

Held-to-maturity securities are stated at acquisition cost plus incidental expenses, determined by the specific identification method. When the face value of held-to-maturity securities differs from its acquisition cost, the effective interest method is applied to amortize the difference over the remaining term of the securities. If collectible value is below the amortized cost and the pervasive evidence of impairment exists, the carrying value is adjusted to collectible value and the resulting valuation loss is charged to current operations.

(4) Valuation of Securities Accounted for using the Equity Method

Equity securities held for investment in companies in which the Bank is able to exercise significant influence over the investees (in accordance with the Banking Act, if the Bank holds more than 15 percent of the total issued shares, the Bank is considered being able to exercise significant influence) are accounted for using the equity method. The Bank's share in net income or net loss of investees is included in current operations. Changes in the retained earnings of investee are reflected in the retained earnings. Changes in the capital surplus, capital adjustments or accumulated other comprehensive income of investee are reflected as gain or loss on valuation of securities accounted for using the equity method in accumulated other comprehensive income.

When the book value of equity securities accounted for using the equity method is less than zero due to the cumulative losses of the investees, the Bank discontinues applying the equity method and does not provide for additional losses. If the investee subsequently reports net income, the Bank resumes applying the equity method only after its share of that net income equals the share of net losses not recognized during the period that the equity method was suspended.

In addition, the Bank applies the equity method making current earnings and net assets reported in the non-consolidated financial statements of the Bank coincide with its share of current earnings and net assets of an associate included in the consolidated financial statements. However the Bank ceases to apply the equity method when the balance of the investment in the associate has become zero.

(5) Reversal of Impairment Loss on Available-for-sale Securities and Held-to-maturity Securities

If the reasons for impairment losses on available-for-sale securities no longer exist, the recovery is recorded in current operations under non-operating income up to amount of the previously recognized impairment loss as reversal of impairment loss on available-for-sale securities and any excess is included in accumulated other comprehensive income as gain on valuation of available-for-sale securities. However, if the increases in the fair value of the impaired securities are not regarded as the recovery of the impairment, the increases in the fair value are recorded as gain on valuation of available-for-sale securities in accumulated other comprehensive income. For non-marketable equity securities, which were impaired based on the net asset fair value, the recovery is recorded up to their acquisition cost.

For held-to-maturity securities, the recovery is recorded in current operations under non-operating income within the amount of amortized cost that would have been recorded according to the original schedule if the impairment losses had not been recognized as reversal of impairment loss on held-to-maturity securities.

Table of Contents**(6) Reclassification of Securities**

When held-to-maturity securities are reclassified to available-for-sale securities, those securities are accounted for at fair value on the reclassification date and the difference between the fair value and book value is reported in accumulated other comprehensive income as gain or loss on valuation of available-for-sale securities. When available-for-sale securities are reclassified to held-to-maturity securities, gain or loss on valuation of available-for-sale securities, which had been recorded until the reclassification date, continue to be included in accumulated other comprehensive income and be amortized using the effective interest rate method and the amortized amount is charged to interest income until maturity. The difference between the fair value at the reclassification date and face value of the reclassified securities to held-to-maturity securities is amortized using effective interest rate method and the amortized amount is charged to interest income. In addition, when certain trading securities lose their marketability, such securities are reclassified as available-for-sale securities at fair market value as of reclassification date.

Transfer of Securities

When the realization, expiration or sale of the right to obtain the economic benefits arises and the control of securities is lost from the sale of the securities, the unrealized valuation gain or loss of securities included in the accumulated other comprehensive income is added to or deducted from the gain or loss on disposal of securities. The gain or loss is the difference between the net proceeds receivable or received and its carrying value. When securities are transferred without losing control of the securities, the transaction is recorded as secured borrowing transaction.

Allowance for Possible Losses on Credits

The Supervisory Regulation of Banking Business (the Supervisory Regulation) legislated by the Financial Supervisory Commission (FSC) requires the Bank to classify all credits into five categories as normal, precautionary, substandard, doubtful, or estimated loss based on borrowers repayment capability and historical financial transaction records. The Supervisory Regulation also requires the Bank to provide the minimum rate of loss provision for each category balance using the prescribed minimum percentages as described below.

As required by the Supervisory Regulation, the Bank classifies corporate credits (loans, confirmed acceptances and guarantees) based on borrowers capability to repay in consideration of borrowers business operation, financial position and future cash flows (Forward Looking Criteria) as well as past due period and status of any bankruptcy proceedings (Historical Repayment Criteria). However, credits to small companies and to households are classified not by evaluating the debt repayment capability of a borrower or customer but by past due period and status of bankruptcy proceedings. The Bank generally classifies all credits to a single borrower in the same category of classification but credits guaranteed or collateralized by bank deposits, real estate or other assets may be classified differently based on the guarantor s capability to service such guarantee or based on the value of collateral securing such credits.

Based on the Bank s corporate credit evaluation model, credits to a borrower are classified into 17 grades from AAA to D (AAA, AA+, AA, A, BBB+, BBB, BBB , BB+, BB, BB , B+, B, B , CCC, CC, C and D). Credits of grades of AAA to B are classified as normal, credits of grade B to CCC as precautionary, credits of grade CC as substandard, credits of grade C as doubtful and credits of grade D as estimated loss. Credits are finally classified reflecting past due period and bankruptcy considerations. An allowance is then calculated on the category balances using the prescribed percentages of 0.85 (0.9 percent for loans to economy-sensitive industries) ~ 6.9 percent for normal, 7.0 ~ 19.9 percent for precautionary, 20 ~ 49.9 percent for substandard, 50 ~ 99.9 percent for doubtful and 100 percent for estimated loss. However, the Bank does not provide allowances for call loans, bonds bought under resale agreements and inter-bank loans that are classified as normal, as it is not required by the Accounting Standards for the Banking Industry.

In addition, as required by the Supervisory Regulation, based on the classification of household loans and credit card receivables by past due period and status of bankruptcy proceedings, allowance for household loans and credit card receivables are calculated on the category balances using the prescribed percentages of 1.0 ~ 9.9 percent and 1.5 ~ 14.9 percent for normal, 10 ~19.9 percent and 15 ~ 19.9 percent for precautionary, 20 ~ 54.9 and 20 ~ 59.9 percent for substandard, 55 ~ 99.9 percent and 60 ~ 99.9 percent for doubtful, and 100 percent for estimated loss.

Table of Contents

Pursuant to the Supervisory Regulation of Banking Business, the Bank provides allowance for possible losses on confirmed acceptances and guarantees, unconfirmed acceptances and guarantees, and notes endorsed based on the credit classification, minimum rate of loss provision prescribed by the Financial Supervisory Service and the cash conversion factor. In addition, the Bank provides other allowances for the unused credit limit of credit card and unused credit line of consumer and corporate loans based on the cash conversion factor and minimum rate of loss provision prescribed by the Financial Supervisory Service.

In addition, when an allowance for possible loan losses required by the Supervisory Regulation is less than the amount calculated based on the historical loss rate, which is estimated through objective and reasonable method in accordance with the accounting principle in the Republic of Korea, historical loss rate is reflected in the provision for possible loan losses.

The method and data used for determining the allowances for loan losses based on historical loss rate by the Bank's lending portfolios are determined as follows:

Lending portfolios	Methodology	Period of historical loss rate	Period of recovery ratio
Impaired corporate loans	DCF & Migration	N/A	N/A
Non-impaired corporate loans	Migration analysis	1 year	5 years
Consumer loans	Migration analysis	1 year	5 years
Credit card loans	Roll-rate analysis	1 year	5 years

Based on the loan portfolios' nature, lending period, recovery period and other economic factors, the Bank determines the appropriate data period to be used in assessing its historical loss rate and recovery ratio.

Restructuring of Loans

The equity interest in the debtors, net of real estates and/or other assets received as full or partial satisfaction of the Bank's loans, collected through reorganization proceedings, court mediation or debt restructuring agreements of parties concerned, is recorded at fair value at the time of the restructuring. In cases where the fair value of the assets received are less than the book value of the loan (book value before allowances), the Bank offsets first the book value against allowances for loan losses and then recognizes provisions for loan losses. Impairment losses for loans that were restructured in a troubled debt restructuring involving a modification of terms are computed by the difference between the present value of future cash flows under debt restructuring agreements discounted at effective interest rates at the time when loans are originated and the book value before allowances for loan losses. If the amount of allowances already established is less than the impairment losses, the Bank establishes additional allowances for the difference. Otherwise, the Bank reverses the allowances for loan losses.

Deferred Loan Origination Fees and Costs

The Bank defers loan origination fees associated with originating loans and loan origination costs that have future economic benefits. Loan balances are reported net of these loan origination fees and costs. The deferred loan origination fees and costs are amortized using the effective interest method with the amortization recognized as adjustments to other interest income.

Valuation of Receivables and Payables at Present Value

Receivables and payables incurred through long-term installment transactions, long-term borrowing and lending transactions, and other similar transactions are stated at the present value of expected future cash flows, and the gain or loss on valuation of related receivables and payables is reflected in current operations, unless the difference between nominal value and present value is immaterial. Present value discount or premium is amortized using the effective interest rate method and credited or charged to interest income or interest expense.

Bonds under Resale or Repurchase Agreements

Bonds purchased under resale agreements are recorded as loans and bonds sold under repurchase agreements are recorded as borrowings when the Bank purchases or sells securities under such agreements.

Table of Contents

Tangible Assets and Related Depreciation

Tangible assets are recorded at cost or production cost including incidental expenses. Routine maintenance and repairs are expensed as incurred. Expenditures that result in the enhancement of the value or the extension of the useful lives of the facilities involved are capitalized as additions to tangible assets.

Depreciation is computed by using the declining-balance method (straight-line method for building and structures) based on the estimated useful lives of the assets as follows:

Tangible assets	Depreciation method	Estimated useful life
Buildings and structures	Straight-line	40 years
Leasehold improvements	Declining balance	4-5 years
Equipment and vehicles	Declining balance	4-5 years

Intangible Assets and Related Amortization

Intangible assets included in other assets are recorded at the production costs or purchase costs plus incidental expenses less accumulated amortization. Intangible assets are amortized using the straight-line method over the estimated economic useful lives of the related assets or the activity method as follows:

Intangible assets	Depreciation method	Estimated useful life
Goodwill	Straight-line	9 years
Trademarks	Straight-line	5-20 years
Others	Straight-line	3-30 years

The Bank recorded goodwill as a result of the merger with H&CB, as the cost of the merger exceeded the fair value of the net assets acquired. Expenditures incurred in conjunction with the development of new products or technology and others, in which the elements of costs can be individually identified and future economic benefits are probably exerted, are capitalized as development costs. The Bank estimates the useful lives of endowment assets that are beneficial upon usage based on the term of the contract and are classified under other intangible assets.

Valuation Allowance for Non-Business Use Property

Non-business use property included in other assets is recorded when the Bank acquires collateral by foreclosure on the mortgage for loans. If the latest auction price is lower than book value, the difference is provided as a valuation allowance and the valuation loss is charged to current operations. In addition, the difference between the selling price and book value is recorded as a disposition gain or loss.

Recognition of Impairment of Assets

When the book value of assets (other than securities and assets valued at present value) exceeds the collective value of the assets due to obsolescence, physical damage or a sharp decrease in market value and the difference is material, the book value are adjusted to collective value in the balance sheet and the resulting impairment loss is charged to current operations. If the collective value of the assets increases in subsequent years, the increase in value is credited to operations as gain until the collective value equals the book value of assets that would have been determined had no impairment loss been recognized. The Bank assessed the collective value based on expected selling price or appraisal value.

Amortization of Discounts (Premiums) on Debentures

Discounts or premiums on debentures issued are amortized over the period from issuance to maturity using the effective interest rate method. Amortization of discounts or premiums is recognized as interest expense on the debentures.

Table of Contents

Contingent Liabilities

A possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Bank is recognized as contingent liabilities when it is probable that an outflow of resources embodying economic benefits required and the amount of the obligation can be measured with sufficient reliability. Where the effect of the time value of money is material, the amount of the liabilities is the present value of the expenditures expected to be required to settle the obligation. In addition, as some or all expenditures required to settle a provision is expected to be reimbursed by another party, the reimbursement is recognized as separate assets in the balance sheet and related income may be offset against expense in the income statement.

Accrued Severance Benefits

Employees and directors and temporary employees with at least one year of service as of March 31, 2008 are entitled to receive a lump-sum payment upon termination of their employment with the Bank, based on their length of service and rate of pay at the time of termination. The accrued severance benefits that would be payable assuming all eligible employees and directors were to resign are included in other liabilities.

The Bank has purchased severance benefits insurance, which meets the funding requirement for tax purposes, and made deposits with Kyobo Life Insurance Co., Ltd and others. Withdrawal of these deposits is restricted to the payment of severance benefits. These are presented as a deduction from the accrued severance benefits.

Accounting for Derivative Instruments

The Bank accounts for derivative instruments pursuant to the Interpretations on Financial Accounting Standards 53-70 on accounting for derivative instruments. Derivative instruments are classified as used for trading activities or for hedging activities according to their transaction purpose. All derivative instruments are accounted for at fair value with the valuation gain or loss recorded as an asset or liability. If the derivative instrument is not part of a transaction qualifying as a hedge, the adjustment to fair value is reflected in current operations.

The accounting for derivative transactions that are part of a qualified hedge based both on the purpose of the transaction and on meeting the specified criteria for hedge accounting differs depending on whether the transaction is a fair value hedge or a cash flow hedge. Fair value hedge accounting is applied to a derivative instrument designated as hedging the exposure to changes in the fair value of an asset or a liability or a firm commitment (hedged item) that is attributable to a particular risk. The gain or loss both on the hedging derivative instruments and on the hedged item attributable to the hedged risk is reflected in current operations. Cash flow hedge accounting is applied to a derivative instrument designated as hedging the exposure to variability in expected future cash flows of an asset or a liability or a forecasted transaction that is attributable to a particular risk. The effective portion of gain or loss on a derivative instrument designated as a cash flow hedge is recorded as accumulated other comprehensive income and the ineffective portion is recorded in current operations. The effective portion of gain or loss recorded as accumulated other comprehensive income is reclassified to current earnings in the same period during which the hedged forecasted transaction affects earnings. If the hedged transaction results in the acquisition of an asset or the incurrence of a liability, the gain or loss in accumulated other comprehensive income is added to or deducted from the asset or the liability.

Accounting for Share-based Payment

The terms of the arrangement for share-based payment transactions provide the Bank with a choice of whether the transaction is settled in cash or by issuing equity instruments. In accordance with the resolution of the Board of Directors on August 23, 2005 to settle the transaction in cash, the compensation cost is recorded in other liabilities (accrued expense). The compensation cost of stock options granted before and after the effective date of the Statements of Korea Accounting Standards No. 22 (Share-based Payment) was measured using the intrinsic value method in accordance with the Interpretations on Financial Accounting Standards 39-35 Accounting for Stock Options, and the fair value method, respectively.

Table of Contents

National Housing Fund

The Bank, as designated by the Korean government under the Housing Law (former Housing Construction Promotion Law), manages the sources and uses of funds of the National Housing Fund (the NHF) and records the related NHF account in other liabilities. In addition, the Bank pays interest to the NHF, which is computed by multiplying the average balance of the NHF account by the passbook deposit interest rate. With the termination of the NHF designation as of March 31, 2008, the Bank is not expected to manage the new operations related to the NHF except for the operations for the existing funds.

Accounting for Trust Accounts

The Bank separately maintains the books of accounts and financial statements in connection with the trust operations (the trust accounts) from those of the bank accounts in accordance with the Trust Business Act. When surplus funds are generated through the management of trust assets, such funds are deposited with the Bank and are recorded as due to trust accounts of the bank accounts. Also, the borrowings from the bank account are recorded as due from trust accounts of the bank accounts. The Bank receives fees for operation and management of the trust business and accounts for them as fees and commissions from trust accounts.

With respect to certain trust account products, the Bank guarantees the repayment of the principal of the trust accounts and, in certain cases, a fixed rate of return. If income from such trust accounts is insufficient to pay the guaranteed amount, such a deficiency is satisfied by using special reserves maintained in the trust accounts, offsetting trust fee payable to the bank accounts and receiving compensation contributions from the bank accounts of the Bank. If the Bank pays compensating contributions to the guaranteed return trusts to cover such deficiencies, these contributions are reflected as operating expense of the bank accounts and as other income of the trust accounts.

Income Tax Expense

Income tax expense is the amount currently payable for the period added to or deducted from the changes in deferred income taxes. However, deferred income tax assets are recognized only if the future tax benefits from accumulated temporary differences and any tax loss carryforwards are realizable. The difference between the amount currently payable for the period and income tax expense is accounted for as deferred income tax assets or liabilities, which will be charged or credited to income tax expense in the period the related temporary difference reverses in the future. Deferred income tax assets or liabilities are calculated based on the expected tax rate to be applied at the reversal period of the related assets or liabilities. Tax payable and deferred income tax assets or liabilities regarding to certain items are charged or credited directly to related components of shareholders' equity.

Accounting for Foreign Currency Transactions and Translation

The Bank maintains its accounts in Korean Won. Transactions in foreign currencies are recorded in Korean Won based on the basic rate of exchange on the transaction date. The Korean Won equivalent of assets and liabilities denominated in foreign currencies are translated in these financial statements based on the basic rate ((Won)991.70 and (Won)938.20 to US\$ 1.00 at March 31, 2008 and December 31, 2007, respectively) announced by Seoul Money Brokerage Service, Ltd. or cross rates for other currencies other than U.S. Dollars at the balance sheet dates. Translation gains and losses are credited or charged to operations. Financial statements of overseas branches are translated based on the basic rate at balance sheet dates.

Discontinued Operation

A discontinued operation refers to a component of the Bank that is capable of being distinguished operationally for financial reporting purposes and is capable of being identified as a major line of business or geographical area of operations, and that the Bank, pursuant to a single plan of discontinuance, substantially disposes in its entirety, such as by selling it in a single transaction; sells off its assets and settles its liabilities individually or in small groups; or terminates it through abandonment. The income (loss) from continuing operation and discontinued operation was not distinguished and separately presented as there was no discontinued operation in the prior year and current period.

Table of ContentsApplication of the Statement of Korea Accounting Standards

The Korea Accounting Standard Board (KASB) under the Korea Accounting Institute (KAI) issued the Statements of Korea Accounting Standards (SKAS) for achieving a set of Korean accounting standards that should be internationally acceptable and comparable based on SKAS Act 92. The Bank adopted SKAS No.1 (Accounting Changes and Error Corrections) through SKAS No. 25 (Consolidated Financial Statements) (excluding SKAS No. 14) as of or before December 31, 2007

In addition, according to the amended SKAS No. 15 (Investments in Associates), the Bank applied the equity method making current earnings and net assets reported in the non-consolidated financial statements of the Bank coincide with its share of current earnings and net assets of an associate included in the consolidated financial statements. However the Bank ceases to apply the equity method when the balance of the investment in the associate has become zero. The financial statements for the prior period were restated for comparative purposes due to the application of SKAS No.15 (revision).

3. CASH AND DUE FROM BANKS:

(1) Cash and due from banks as of March 31, 2008 and December 31, 2007 consisted of (Unit: In millions):

(*) The book value before valuation has been recognized for equity securities classified as available-for-sale.

The fair values of trading and available-for sale debt securities in Won were assessed by applying the average of base prices as of balance sheet dates, provided by the bond pricing service institutions.

The fair value of the available-for-sale non-marketable equity securities such as Korea Housing Guarantee Co., Ltd. and 22 others, and the restricted available-for-sale marketable equity securities such as Hyundai Engineering and Construction Co. and 1 other were reliably measured by an independent appraisal institute using reasonable judgment. The fair value was determined based on more than one valuation models such as Discounted Cash Flow (DCF) Model, Imputed Market Value (IMV) Model, Discounted Free Cash Flow to Equity (FCFE) Model, Dividend Discount (DD) Model and Risk Adjusted Discounted Cash Flow (RADCF) Model depending on the equity securities.

Table of Contents

(*1) The significant unrealized income eliminated for the three months ended March 31, 2008 and for the year ended December 31, 2007 were as follows (Unit: In millions):

	Related accounts	2008	2007
KB Data System Co., Ltd.	Tangible assets (sales)	(Won) 310	(Won) 1,390
KB Life Insurance Co., Ltd.	Commissions (deferred acquisition cost)		20,855
		(Won) 310	(Won) 22,245

(*2) The difference between the cost of the investment and the amount of the underlying equity in KB Investment & Securities Co., Ltd. s net assets amounts to (Won)113,943 million. This difference resulted from the purchase of shares in 2008 is amortized over 5 years using the straight-line method and charged to the loss on valuation of securities accounted for using the equity method. As a result, (Won)3,798 million were charged to current operations for the three months ended March 31, 2008, and the unamortized balance amounts to (Won)110,145 million as of March 31, 2008.

(*3) The equity method is no longer applied to securities of KLB Securities Co., Ltd. and Jooeun Industrial Co., Ltd. due to accumulated deficit, and to securities of KB Life Insurance Co., Ltd. due to unrealized income elimination, which led to a decrease in the book value below zero.

The unrecognized accumulated deficit and change due to the equity method as of March 31, 2008 was as follows (Unit: In millions):

	Deficit	Change due to equity method	Total
KLB Securities Co., Ltd.	(Won) 4,148	(Won)	(Won) 4,148
Jooeun Industrial Co., Ltd.	63,703		63,703
KB Life Insurance Co., Ltd.	29,192	8,280	37,472
	(Won) 97,043	(Won) 8,280	(Won) 105,323

The unrecognized accumulated deficit and change due to the equity method as of December 31, 2007 was as follows (Unit: In millions):

	Deficit	Change due to equity method	Total
KLB Securities Co., Ltd.	(Won) 4,148	(Won)	(Won) 4,148
Jooeun Industrial Co., Ltd.	64,001		64,001
KB Life Insurance Co., Ltd.	23,157	14,583	37,740
	(Won) 91,306	(Won) 14,583	(Won) 105,889

As the book value of KB Life Insurance Co., Ltd. became zero, the Bank discontinued applying the equity method and did not provide for additional losses. Certain trust accounts whose principal or fixed rate of return is guaranteed by the Bank are included in the consolidated financial statements in accordance with the accounting guidelines of the Financial Supervisory Commission in the Republic of Korea. As a result, the current earnings and net assets reported in the non-consolidated financial statements do not coincide with the share of those of the consolidated financial statements. The difference between the share of net income of consolidated financial statements and net income of non-consolidated financial statements for the three months ended March 31, 2008 and 2007 was (Won) 6,036 million and (Won) 3,389 million, respectively, and the difference between the share of shareholders' equity of the consolidated financial statements and the shareholders' equity of the non-consolidated financial statements as of March 31, 2008 and December 31, 2007 was (Won) (-)26,081 million and (Won) (-) 24,831 million, respectively.

If the loans are restructured by means of reduction of interest rates, cash flows of fixed rate loans are discounted by effective interest rates originally agreed upon and cash flows of floating rate loans are discounted by interest rates determined by adding a credit risk premium, which is calculated at the restructuring date, assuming that debtors' credit at the origination date is effective to the restructuring date, to a benchmark interest rate. The difference between the book value and the present value is presented as an allowance for possible loan losses.

Table of Contents7. ALLOWANCE FOR POSSIBLE LOAN LOSSES:

(1) The allowance for possible loan losses as of March 31, 2008 was summarized as follows (Unit: In millions):

	Normal	Precautionary	Substandard	Doubtful	Estimated loss	Total
Domestic import usance bill	(Won) 19,053	(Won) 1,516	(Won) 651	(Won) 1,715	(Won) 1,363	(Won) 24,298
