**PUBLIX SUPER MARKETS, INC.**

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

1. The accompanying unaudited condensed consolidated financial statements of Publix Super Markets, Inc. and subsidiaries (the Company) have been prepared in accordance with U.S. generally accepted accounting principles (GAAP) and the rules and regulations of the Securities and Exchange Commission (SEC) for interim financial reporting. Accordingly, the accompanying statements do not include all of the information and notes required by GAAP for complete financial statements. In the opinion of management, these statements include all adjustments that are of a normal and recurring nature necessary to present fairly the Company's financial position, results of operations and cash flows. Due to the seasonal nature of the Company's business, the results of operations for the three and six months ended June 28, 2008 are not necessarily indicative of the results for the entire 2008 fiscal year. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and accompanying notes included in the Company's Annual Report on Form 10-K for the year ended December 29, 2007.
2. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.
3. Certain 2007 amounts have been reclassified to conform with the 2008 presentation. Additionally, the Company reclassified auction rate securities previously classified as cash and cash equivalents to short-term investments in the amounts of \$131,675,000 and \$182,975,000 as of June 30, 2007 and December 30, 2006, respectively. This reclassification also impacted net cash used in investing activities. There was no impact on net earnings or net cash provided by operating activities as a result of the reclassification.
4. In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standard (SFAS) 157, Fair Value Measurement, effective for fiscal years beginning after November 15, 2007. SFAS 157 defines fair value, establishes a framework for measuring fair value in GAAP and expands disclosures about fair value measurements. SFAS 157 does not require any new fair value measurements. In February 2008, the FASB issued FASB Staff Position No. 157-2, Effective Dates of FASB Statement No. 157, which defers the effective date of SFAS 157 for all nonrecurring fair value measurements of nonfinancial assets and liabilities until fiscal years beginning after November 15, 2008. The partial adoption of SFAS 157 had no effect on the Company's financial condition, results of operations or cash flows.  
As of December 30, 2007, the Company adopted SFAS 157 for its available-for-sale (AFS) securities. Following are descriptions of the SFAS 157 measurement categories used as of the reporting date.  
  
Level 1 Fair value is determined by using quoted prices in active markets for identical investments. AFS securities that are included in this category are primarily equity securities.  
  
Level 2 Fair value is determined by using other than quoted prices. By using observable inputs (for example, interest rates) the fair value is determined through the use of models or other valuation methodologies. AFS securities that are included in this category are primarily tax exempt and taxable bonds.  
  
Level 3 Fair value is determined by using other than observable inputs. Fair value is determined by using the best information available in the circumstances and requires significant management judgment or estimation. No AFS securities are currently included in this category.

## PUBLIX SUPER MARKETS, INC.

## NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Following is a summary of fair value measurements for AFS securities as of June 28, 2008:

	Fair Value	Level 1	Level 2	Level 3
	(Amounts are in thousands)			
AFS securities	\$ 2,335,225	198,440	2,136,785	

There are no other major categories of assets and liabilities that are recognized at fair value for which SFAS 157 has not been applied.

- In September 2006, the FASB issued SFAS 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans* an amendment of FASB Statements No. 87, 88, 106 and 132(R). SFAS 158 requires financial statement recognition of the overfunded or underfunded status of a defined benefit postretirement plan or other postretirement plan as an asset or liability and recognition of changes in the funded status in comprehensive earnings in the year in which the changes occur, effective for fiscal years ending after December 15, 2006. SFAS 158 also requires that the measurement date for the calculation of plan assets and obligations coincide with a company's fiscal year end date, effective for fiscal years ending after December 15, 2008. On December 30, 2007, the Company adopted the measurement date provision. As of June 28, 2008, retained earnings includes a measurement date adjustment for the net periodic benefit cost of \$801,000, net of tax effect of \$505,000. In addition, accumulated other comprehensive earnings includes a measurement date adjustment to reduce the projected benefit obligation by \$1,315,000, net of tax effect of \$828,000. The adoption of the recognition and measurement provisions of SFAS 158 did not have a material effect on the Company's financial condition, results of operations or cash flows.
- In February 2007, the FASB issued SFAS 159, *The Fair Value Option for Financial Assets and Financial Liabilities*, effective for fiscal years beginning after November 15, 2007. SFAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value. Unrealized gains and losses on items for which the fair value option has been elected will be recognized in earnings at each subsequent reporting date. The Company has not elected the fair value option.
- In December 2007, the FASB issued SFAS 141(R), *Business Combinations*, effective for fiscal years beginning after December 15, 2008. SFAS 141(R) will change the accounting treatment for business combinations on a prospective basis. SFAS 141(R) requires that all assets, liabilities, contingent considerations and contingencies of an acquired business be recorded at fair value at the acquisition date. SFAS 141(R) also requires that acquisition costs be expensed as incurred and restructuring costs be expensed in periods after the acquisition date. SFAS 141(R) will only affect the Company's financial condition or results of operations to the extent it has business combinations after the effective date.
- In December 2007, the FASB issued SFAS 160, *Noncontrolling Interests in Consolidated Financial Statements* an amendment of ARB No. 51, effective for fiscal years beginning after December 15, 2008. SFAS 160 requires the noncontrolling interest in a subsidiary be reported as a separate component of stockholders' equity in the consolidated financial statements. SFAS 160 also requires net income attributable to the noncontrolling interest in a subsidiary be reported separately on the face of the consolidated statement of earnings. Changes in ownership interest are to be accounted for as equity transactions and when a subsidiary is deconsolidated, any retained noncontrolling equity investment in the former subsidiary is to be measured at fair value with any gain or loss recognized in earnings. The adoption of SFAS 160 is not expected to have a material effect on the Company's financial condition, results of operations or cash flows.

**PUBLIX SUPER MARKETS, INC.**

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

9. In March 2008, the FASB issued SFAS 161, Disclosures about Derivative Instruments and Hedging Activities an amendment of FASB Statement No. 133, effective for fiscal years beginning after November 15, 2008. SFAS 161 requires enhanced disclosures about an entity's derivative and hedging activities under SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities. The Company does not currently have derivatives or enter into hedging activities as defined by SFAS 133; therefore, the adoption of SFAS 161 is not expected to have an effect on the Company's financial condition, results of operations or cash flows.

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**  
**Overview**

The Company is primarily engaged in the retail food industry, operating stores in Florida, Georgia, South Carolina, Alabama and Tennessee. As of June 28, 2008, the Company operated 937 supermarkets, five convenience stores, 41 liquor stores and 41 Crispers restaurants.

**Liquidity and Capital Resources**

Cash and cash equivalents, short-term investments and long-term investments totaled \$2,845.8 million as of June 28, 2008 as compared with \$2,932.3 million as of December 29, 2007. The Company had auction rate securities (ARS) totaling \$31.1 million as of June 28, 2008 as compared with \$132.5 million as of December 29, 2007.

Beginning in February 2008, as a result of the recent liquidity issues experienced in the global credit and capital markets, auctions for ARS held by the Company failed. An auction fails when secondary market makers withdraw from the auction process that provides rate resets and liquidity. However, a failed auction does not represent a default by the issuer. The underlying issuers of the ARS held by the Company have high credit ratings and continue to pay interest in accordance with the terms of the underlying security. Liquidity will be limited, however, until there is a successful auction or the issuers call the securities. Because of the current absence of a liquid market, the Company has reclassified ARS from short-term to long-term investments in the Company's condensed consolidated balance sheets. Due to the quality of the ARS held and the Company's ability to maintain the securities, the Company does not expect the valuation of these securities to be impacted by the secondary market issues. In addition, all of the Company's sales of ARS have been at cost. Therefore, no impairment charges have been recorded as of June 28, 2008.

***Net cash provided by operating activities***

Net cash provided by operating activities was \$1,073.2 million for the six months ended June 28, 2008 as compared with \$1,040.2 million for the six months ended June 30, 2007. Any net cash in excess of the amount needed for current operations is invested in short-term and long-term investments.

***Net cash used in investing activities***

Net cash used in investing activities was \$3.8 million for the six months ended June 28, 2008 as compared with \$417.9 million for the six months ended June 30, 2007. For the six months ended June 28, 2008, the primary use of net cash in investing activities was funding capital expenditures. Capital expenditures totaled \$348.3 million. These expenditures were incurred in connection with the opening of 11 net new supermarkets (17 new supermarkets opened and six supermarkets closed) and remodeling 39 supermarkets. Net new supermarkets added an additional 0.5 million square feet in the six months ended June 28, 2008, a 1.2% increase. Expenditures were also incurred for new or enhanced information technology hardware and applications and emergency backup generators. For the same period, the proceeds from the sale and maturity of investments, net of the payment for such investments, was \$342.9 million.

For the six months ended June 30, 2007, the primary use of net cash in investing activities was funding capital expenditures and net increases in investments. Capital expenditures totaled \$297.5 million. These expenditures were incurred in connection with the opening of 14 net new supermarkets (21 new supermarkets opened and seven supermarkets closed) and remodeling 37 supermarkets. Net new supermarkets added an additional 0.6 million square feet in the six months ended June 30, 2007, a 1.6% increase. Expenditures were also incurred for new or enhanced information technology hardware and applications and emergency backup generators. For the same period, the payment for investments, net of the proceeds from the sale and maturity of such investments, was \$122.2 million.

***Capital expenditure projection***

Capital expenditures for the remainder of 2008 include the Company's normal capital expenditure program plus an additional pending 49 store acquisition. The capital expenditures for the remainder of 2008 representing the normal capital program, primarily consisting of new supermarkets, remodeling certain existing supermarkets, constructing a second data center, adding new or enhanced information technology hardware and applications and installing emergency backup generators, are expected to be approximately \$352 million. This normal capital program is subject to continuing change and review. Also, in the normal course of operations, the Company replaces supermarkets and closes supermarkets that are not meeting performance expectations. The impact of future supermarket closings is not expected to be material.

In addition to this capital program, the Company has entered into an agreement to acquire the assets of 49 store locations in Florida from Albertson's LLC (Albertson's) for approximately \$500 million. The primary assets to be acquired include stores owned by Albertson's and stores subject to ground leases and traditional leases. The transaction is expected to be finalized in September 2008. All acquired stores will be closed for some period of time based on the extent of the planned improvements. It is anticipated that substantially all stores will open in one to eighteen months from the date of closing.

***Net cash used in financing activities***

Net cash used in financing activities was \$802.7 million for the six months ended June 28, 2008 as compared with \$574.2 million for the six months ended June 30, 2007. The primary use of net cash in financing activities was funding net common stock repurchases and payment of the annual cash dividend. The Company currently repurchases common stock at the stockholders' request in accordance with the terms of the Company's Employee Stock Purchase Plan (ESPP), 401(k) Plan, Employee Stock Ownership Plan (ESOP) and Non-Employee Directors Stock Purchase Plan (Directors Plan). Net common stock repurchases totaled \$442.9 million for the six months ended June 28, 2008 as compared with \$235.5 million for the six months ended June 30, 2007. The amount of common stock offered to the Company for repurchase is not within the control of the Company, but is at the discretion of the stockholders. The Company expects to continue to repurchase its common stock, as offered by its stockholders from time to time, at its then currently appraised value for amounts similar to those in prior years. However, such purchases are not required and the Company retains the right to discontinue them at any time.

***Dividends***

The Company paid an annual cash dividend on its common stock of \$0.44 per share or \$364.6 million on June 2, 2008 to stockholders of record as of the close of business on April 25, 2008. In 2007, the Company paid an annual cash dividend on its common stock of \$0.40 per share or \$338.6 million.

***Cash requirements***

In 2008, the cash requirements for current operations, capital expenditures, acquisition of the Albertson's store locations, common stock repurchases and payment of the annual cash dividend are expected to be financed by internally generated funds or liquid assets. Based on the Company's financial position, it is expected that short-term and long-term borrowings would be readily available to support the Company's liquidity requirements if needed.
