ITEM 8.01 OTHER EVENTS.

On August 27, 2008, we announced financial results for our second quarter ended July 31, 2008. Net service revenues were \$48.2 million in the second quarter of fiscal year 2009, a decrease from the \$53.4 million in the same prior year period. Net technology revenues were \$5.4 million, which included recognition of Comcast development revenues of \$3.8 million. This was an increase of 74%, compared with \$3.1 million in the second quarter of fiscal year 2008. The net income for the quarter was \$2.9 million or \$0.03 per basic and diluted share, compared to a net loss of \$(17.7) million or \$(0.18) per share, for the three months ended July 31, 2007. Last year's second quarter net loss results were impacted by an \$11.2 million inventory reserve related to standard definition product, and this quarter we benefited from the utilization of \$1.4 million of that inventory reserve.

As of July 31, 2008 our total subscriptions were approximately 3.6 million. TiVo-Owned subscription gross additions were 36,000 for the quarter, compared to 41,000 in the second quarter fiscal year 2008. TiVo-Owned net subscription losses were 42,000 compared to losses of 19,000 in the second quarter of fiscal year 2008. Our monthly churn rate increased to 1.5% for the quarter ended July 31, 2008 as compared to 1.2% in the year ago period. The installed base of MSOs/Broadcasters' TiVo subscriptions has declined to approximately 1.9 million from 2.5 million a year ago.

Included in the 1,686,000 TiVo-Owned subscriptions are approximately 194,000 lifetime subscriptions that have reached the end of the period TiVo uses to recognize lifetime subscription revenue. These lifetime subscriptions no longer generate subscription revenue.

Subscriptions. Management reviews this metric, and believes it may be useful to investors, in order to evaluate our relative position in the marketplace and to forecast future potential service revenues. The TiVo-Owned lines refer to subscriptions sold directly or indirectly by TiVo to consumers who have TiVo-enabled DVRs and for which TiVo incurs acquisition costs. The MSOs/Broadcasters lines refer to subscriptions sold to consumers by MSOs/Broadcasters such as DIRECTV, Cablevision Mexico, Seven(Australia), and Comcast for which TiVo expects to incur little or no acquisition costs. Additionally, we provide a breakdown of the percent of TiVo-Owned subscriptions for which consumers pay recurring fees, including on a monthly and a prepaid one, two, or three year basis, as opposed to a one-time prepaid product lifetime fee.

We define a subscription as a contract referencing a TiVo-enabled DVR for which (i) a consumer has committed to pay for the TiVo service and (ii) service is not canceled. We count product lifetime subscriptions, until both of the following conditions are met: (i) the period we use to recognize product lifetime subscription revenues ends; and (ii) the related DVR has not made contact to the TiVo service within the prior six-month period. Product lifetime subscriptions past this period which have not called into the TiVo service for six months are not counted in this total. During the quarter ended April 30, 2006, we discontinued general sale of the product lifetime service option. During the quarter ended January 31, 2008, we began offering product lifetime service subscriptions only to existing customers and in May 2008 we began offering product lifetime subscriptions to all customers. Effective November 1, 2007, we have extended the period we use to recognize product lifetime subscription revenues from 48 months to 54 months for product lifetime subscriptions acquired on or before October 31, 2007. Additionally, we also increased the amortization period to 60 months for new product lifetime subscriptions acquired on or after November 1, 2007. We are not aware of any uniform standards for defining subscriptions and caution that our presentation may not be consistent with that of other companies. Additionally, the subscription fees that some of our MSOs/Broadcasters pay us may be based upon a specific contractual definition of a subscriber or subscription which may not be consistent with how we define a subscription for our reporting purposes.

OTHER DATA - KEY BUSINESS METRICS

TiVo-Owned Churn Rate	Three Months Ended July 31,	
	2008	2007
Average TiVo-Owned subscriptions	1,712	1,719
TiVo-Owned subscription cancellations	(78)	(60)
TiVo-Owned Churn Rate per month	-1.5%	-1.2%

TiVo-Owned Churn Rate per Month. Management reviews this metric, and believes it may be useful to investors, in order to evaluate our ability to retain existing TiVo-Owned subscriptions (including both monthly and product lifetime subscriptions) by providing services that are competitive in the market. Management believes factors such as service enhancements, service commitments, higher customer satisfaction, and improved customer support may improve this metric. Conversely, management believes factors such as increased competition, lack of competitive service features such as high definition television recording capabilities for our low cost product offerings, and increased price sensitivity may cause our TiVo-Owned Churn Rate per month to increase.

We define the TiVo-Owned Churn Rate per month as the total TiVo-Owned subscription cancellations in the period divided by the Average TiVo-Owned subscriptions for the period (including both monthly and product lifetime subscriptions), which then is divided by the number of months in the period. We calculate Average TiVo-Owned subscriptions for the period by adding the average TiVo-Owned subscriptions for each month and dividing by the number of months in the period. We calculate the average TiVo-Owned subscriptions for each month by adding the beginning and ending subscriptions for the month and dividing by two. We are not aware of any uniform standards for calculating churn and caution that our presentation may not be consistent with that of other companies.

Subscription Acquisition Cost or SAC. Management reviews this metric, and believes it may be useful to investors, in order to evaluate trends in the efficiency of our marketing programs and subscription acquisition strategies. We define SAC as our total acquisition costs for a given period divided by TiVo-Owned subscription gross additions for the same period. In the first fiscal quarter of 2008, we revised our definition of total acquisition costs. We now define total acquisition costs as sales and marketing, subscription acquisition costs less net TiVo-Owned related hardware revenues (defined as TiVo-Owned related gross hardware revenues less rebates, revenue share and market development funds paid to retailers) plus TiVo-Owned related cost of hardware revenues. The sales and marketing, subscription acquisition costs line item includes advertising expenses and promotion-related expenses directly related to subscription acquisition activities, but does

not include expenses related to advertising sales. We do not include third parties subscription gross additions, such as MSOs/Broadcasters gross additions with TiVo subscriptions, in our calculation of SAC because we incur limited or no acquisition costs for these new subscriptions. We are not aware of any uniform standards for calculating total acquisition costs or SAC and caution that our presentation may not be consistent with that of other companies.

Average MSOs/Broadcasters per month subscriptions	2,009	2,554
MSOs/Broadcasters ARPU per month	\$ 0.96	\$ 0.86

Average Revenue Per Subscription or ARPU. Management reviews this metric, and believes it may be useful to investors, in order to evaluate the potential of our subscription base to generate revenues from a variety of sources, including subscription fees, advertising, and audience research measurement. ARPU does not include rebates, revenue share and other payments to channel that reduce our GAAP revenues. As a result, you should not use ARPU as a substitute for measures of financial performance calculated in accordance with GAAP. Management believes it is useful to consider this metric excluding the costs associated with rebates, revenue share and other payments to channel because of the discretionary and varying nature of these expenses and because management believes these expenses, which are included in hardware revenues, net, are more appropriately monitored as part of SAC. We are not aware of any uniform standards for calculating ARPU and caution that our presentation may not be consistent with that of other companies.

We calculate ARPU per month for TiVo-Owned subscriptions by subtracting MSOs/Broadcaster-related service revenues (which includes MSOs/Broadcasters subscription service revenues and MSOs/Broadcasters -related advertising revenues) from our total reported net service revenues and dividing the result by the number of months in the period. We then divide by Average TiVo-Owned subscriptions for the period, calculated as described above for churn rate. The above table shows this calculation.

We calculate ARPU per month for MSOs/Broadcasters subscriptions by first subtracting TiVo-Owned-related service revenues (which includes TiVo-Owned subscription service revenues and TiVo-Owned related advertising revenues) from our total reported service revenues. Then we divide average revenues per month for MSOs/Broadcasters -related service revenues by the average MSOs/Broadcasters subscriptions for the period.

Beginning in February 2006, pursuant to the most recent amendment of our agreement with DIRECTV, TiVo began deferring a portion of the DIRECTV subscription fees equal to the fair value of the undelivered development services. Additionally, beginning in February 2007, DIRECTV began paying us a monthly fee for all DIRECTV households with DIRECTV receivers with TiVo service similar to the lower amount paid by DIRECTV for households with DIRECTV receivers with TiVo service deployed since March 15, 2002, subject to a monthly minimum payment by DIRECTV.

Forward-Looking Statements

This release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements relate to, among other things, TiVo's future business and growth strategies including TiVo's mass distribution strategy and bundling efforts, profitability and financial guidance, distribution of the TiVo service domestically with Comcast and Cox and internationally with Seven in Australia, growth and innovation in TiVo's advertising and audience research measurement business and the licensing thereof, the timing and availability of broadband content, TiVo's software development for the cable industry, the results of TiVo's litigation with EchoStar, TiVo's future marketing spending and related activities, and financial performance.
