**PERFECT WORLD RAISES GUIDANCE FOR THE SECOND
QUARTER OF 2009**

Beijing China (June 19, 2009) - Perfect World Co., Ltd. (NASDAQ: PWRD) (Perfect World or the Company), a leading online game developer and operator based in China, today announced that it has updated its revenue guidance for the second quarter of 2009.

Due to stronger than expected ramp-up and traction of the newly launched Battle of the Immortals, especially in the past month, and better than anticipated results from recently launched expansion packs on some of the existing games during the second half of the quarter, the Company now raises its revenue guidance to be between RMB489 million and RMB510 million, which represents a sequential increase of 15% to 20%. This compares to the previously announced sequential guidance of a 2% decline to a 2% increase in revenue.

Mr. Michael Chi, Chairman and Chief Executive Officer of Perfect World, commented, The visibility on our second quarter performance is increasing and we believe our results will come in ahead of our previous expectations. We are now beginning to benefit from our fine-tuned strategy of devoting more resources to longer-term projects. A good example is Battle of the Immortals, our newly launched 2.5D mysterious adventure MMORPG, which has been very well-received as we devoted more resources to further developing the game prior to its debut. This successful launch also allows us to demonstrate our ability to leverage our leading technology and rich R&D and operating experience in the 3D market in penetrating into 2.5D and 2D markets more competitively.

We are also seeing an encouraging outcome from our diversification strategy as we expand our game portfolio to benefit from multiple growth drivers. We are constantly enhancing our leading technology, which enables us to be more flexible in terms of game development and rolling out the newest expansion packs, so as to conform to customers changing preferences more efficiently. Going forward, we will continue to allocate more resources to longer-term projects and larger expansion packs to lengthen the growth cycle of our games. In addition, we will further deepen and diversify our pipeline targeting different market segments, and build up a variety of franchises with multiple flagship titles. We remain committed to executing these strategies to drive the strong growth and sustainability of our Company.
