For the quarterly period ended March 31, 2010

or

.. TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number 001-15713

ASIAINFO HOLDINGS, INC.

(Exact name of registrant as specified in its charter)

Edgar Filing: ASIAINFO HOLDINGS INC - Form 10-Q

DELAWARE **752506390**
(State or other jurisdiction of (I.R.S. Employer
incorporation or organization) Identification No.)
4TH FLOOR, ZHONGDIAN INFORMATION TOWER

6 ZHONGGUANCUN SOUTH STREET, HAIDIAN DISTRICT

BELJING 100086, CHINA

(Address of principal executive offices, including zip code)

+8610 8216 6688

(Registrant's telephone number, including area code)

N/A

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The number of shares outstanding of the registrant's common stock as of May 5, 2010 was 47,328,316.

ASIAINFO HOLDINGS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited)

(In thousands, except share and per share amounts)

1. BASIS OF PREPARATION

(a) The accompanying unaudited condensed consolidated financial statements include the accounts of AsiaInfo Holdings, Inc., its subsidiaries, and its variable interest entities (the "VIEs") (collectively, the "Company"). All significant intercompany balances and transactions have been eliminated in consolidation.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("US GAAP") for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X, as promulgated by the Securities and Exchange Commission (the "SEC"). Accordingly, they do not include all of the information and notes required by US GAAP for completing annual financial statements. However, management believes that the disclosures are adequate to ensure the information presented is not misleading. US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, contingencies and results of operations. While management has based its assumptions and estimates on the facts and circumstances existing as of March 31, 2010, final amounts may differ from these estimates.

In the opinion of the management of the Company, the accompanying unaudited condensed consolidated financial statements reflect all adjustments, consisting only of normal recurring adjustments, which are necessary for a fair presentation of the results for the interim periods presented. These financial statements should be read in conjunction with the audited financial statements and notes thereto included in the Company's audited financial statements on Form 10-K for the fiscal year ended December 31, 2009, as amended. The results of operations for the interim periods presented are not indicative of the operating results to be expected for any subsequent interim period or for the Company's fiscal year ending December 31, 2010.

AsiaInfo Holdings, Inc. uses the United States ("U.S.") dollar as its reporting currency and functional currency. The financial records of the Company's People's Republic of China ("PRC") subsidiaries and VIEs are maintained in Renminbi ("RMB"), their functional currency and the currency of the PRC. Their balance sheets are translated into U.S. dollars based on the exchange rate quoted by the People's Bank of China as of the balance sheet date. Their statements of operations are translated using a weighted average exchange rate for the period. Translation adjustments are reflected in accumulated other comprehensive income in stockholders' equity.

The RMB is not freely convertible into U.S. dollars or other currencies. All foreign exchange transactions involving RMB must take place through the People's Bank of China or other institutions authorized to buy and sell foreign currencies. The exchange rates adopted for the foreign exchange transactions are the rates of exchange quoted by the People's Bank of China.

(b) The accompanying unaudited condensed consolidated financial statements have been prepared using the same accounting policies as used in the preparation of the Company's consolidated financial statements on Form 10-K for the fiscal year ended December 31, 2009, as amended except for the following additional accounting policies:

(1) Newly Adopted Accounting Pronouncements

In June 2009, the Financial Accounting Standards Board (the "FASB") issued an authoritative pronouncement that changes how a company determines whether an entity should be consolidated when such entity is insufficiently capitalized or is not controlled by the company through voting (or similar rights). The determination of whether a company is required to consolidate an entity is based on, among other things, the entity's purpose and design and the company's ability to direct the activities of the entity that most significantly impact the entity's economic performance. The pronouncement retains the scope of previously issued pronouncements but added entities previously considered qualifying special purpose entities, since the concept of these entities was eliminated by FASB. The pronouncement is effective as of the beginning of the first fiscal year that begins after November 15, 2009. The adoption of this pronouncement did not have a significant impact on its financial condition or results of operations.

In January 2010, the FASB issued authoritative guidance to improve disclosures about fair value measurements. This guidance amends previous guidance on fair value measurements to add new requirements for disclosures about transfers into and out of Levels 1 and 2 and separate disclosures about purchases, sales, issuances, and settlements relating to Level 3 measurement on a gross basis rather than on a net basis as currently required. This guidance also clarifies existing fair value disclosures about the level of disaggregation and about inputs and valuation

Edgar Filing: ASIAINFO HOLDINGS INC - Form 10-Q

techniques used to measure fair value. This guidance is effective for annual and interim periods beginning after December 15, 2009, except for the requirement to provide the Level 3 activities of purchases, sales, issuances, and settlements on a gross basis, which will be effective for annual and interim periods beginning after December 15, 2010. Early application is permitted and, in the period of initial adoption, entities are not required to provide the amended disclosures for any previous periods presented for comparative purposes. The adoption of this pronouncement did not have a significant impact on its financial condition or results of operations.

Table of Contents**ASIAINFO HOLDINGS, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited) (Continued)****(In thousands, except share and per share amounts)*****(2) Recently Issued Accounting Pronouncements Not Yet Adopted***

In September 2009, the FASB issued an authoritative pronouncement regarding revenue arrangements with multiple deliverables. This pronouncement was issued in response to practice concerns related to accounting for revenue arrangements with multiple deliverables under the existing pronouncement. Although the new pronouncement retains the criteria from the existing pronouncement for when delivered items in a multiple-deliverable arrangement should be considered separate units of accounting, it removes the separation criterion under the existing pronouncement that objective and reliable evidence of the fair value of any undelivered items must exist for the delivered items to be considered a separate unit or separate units of accounting. The new pronouncement is effective for fiscal years beginning on or after June 15, 2010. Entities can elect to apply this pronouncement prospectively to new or materially modified arrangements after the pronouncement's effective date or retrospectively for all periods presented. Early application is permitted; however, if the entity elects prospective application and early adopts this pronouncement after its first interim reporting period, it must also retrospectively apply this pronouncement as of the beginning of that fiscal year and disclose the effect of the retrospective adjustments on the prior interim periods' revenue, income before taxes, net income, and earnings per share. The Company is in the process of evaluating the effect of adoption of this pronouncement.

In September 2009, the FASB issued an authoritative pronouncement regarding software revenue recognition for arrangements with multiple deliverables. The pronouncement addresses how consideration should be allocated to different units of accounting and removes the previous criterion that entities must use objective and reliable evidence of fair value in separately accounting for deliverables. The pronouncement provides that products containing both software and non-software components that function together to deliver the product's essential functionality are excluded from the scope of current revenue recognition guidance for software products. The pronouncement includes factors that entities should consider when determining whether the software and non-software components function together to deliver the product's essential functionality. The pronouncement is effective for fiscal years beginning on or after June 15, 2010. Entities can elect to apply this pronouncement prospectively to new or materially modified arrangements after the pronouncement's effective date, or retrospectively for all periods presented. Early application is permitted. However, if the entity elects prospective application and early adopts this pronouncement after its first interim reporting period, it must also retrospectively apply this pronouncement as of the beginning of that fiscal year and disclose the effect of the retrospective adjustments on the prior interim periods' revenue, income before taxes, net income, and earnings per share. The Company is in the process of evaluating the effect of adoption of this pronouncement.

In April 2010, the FASB issued an authoritative pronouncement regarding the milestone method of revenue recognition. The scope of this pronouncement is limited to arrangements that include milestones relating to research or development deliverables. The pronouncement specifies criteria that must be met for a vendor to recognize consideration that is contingent upon achievement of a substantive milestone in its entirety in the period in which the milestone is achieved. The criteria apply to milestones in arrangements within the scope of this pronouncement regardless of whether the arrangement is determined to have single or multiple deliverables or units of accounting. The pronouncement will be effective for fiscal years, and interim periods within those years, beginning on or after June 15, 2010. Early application is permitted. Companies can apply this guidance prospectively to milestones achieved after adoption. However, retrospective application to all prior periods is also permitted. The Company is in the process of evaluating the effect of adoption of this pronouncement.

In March 2010, FASB issued an authoritative pronouncement regarding the effect of denominating the exercise price of a share-based payment awards in the currency of the market in which the underlying equity securities trades and that currency is different from (1) entity's functional currency, (2) functional currency of the foreign operation for which the employee provides services, and (3) payroll currency of the employee. The guidance clarifies that an employee share-based payment award with an exercise price denominated in the currency of a market in which a substantial portion of the entity's equity securities trades should be considered an equity award assuming all other criteria for equity classification are met. The pronouncement will be effective for interim and annual periods beginning on or after December 15, 2010, and will be applied prospectively. Affected entities will be required to record a cumulative catch-up adjustment for all awards outstanding as of the beginning of the annual period in which the guidance is adopted. The Company is in the process of evaluating the effect of adoption of this pronouncement.

2. FINANCIAL INSTRUMENTS

Edgar Filing: ASIAINFO HOLDINGS INC - Form 10-Q

Financial instruments consist of cash and cash equivalents, restricted cash, short-term investments, accounts receivable, other receivables, accounts payable, accrued expenses, other payables, income taxes payable, other taxes payable and long-term investments in equity securities of unquoted companies.

Table of Contents**ASIAINFO HOLDINGS, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited) (Continued)****(In thousands, except share and per share amounts)**

Short-term investments are classified as available-for-sale securities, held-to-maturity securities and trading securities, as discussed in Note 4.

The fair values of long-term investments, which are carried at cost, are not readily determinable.

The carrying values of other financial instruments approximate their fair values due to the short-term nature of these instruments. The Company does not use derivative instruments to manage risks.

3. CASH AND CASH EQUIVALENTS

Cash and cash equivalents consist of cash on hand, demand deposits and highly liquid investments, which are unrestricted as to withdrawal or use, and which have remaining maturities of three months or less when purchased.

4. SHORT-TERM INVESTMENTS

Short-term investments are classified as held-to-maturity securities, available-for-sale securities and trading securities.

As of March 31, 2010 and December 31, 2009, the Company's held-to-maturity securities consist of term deposits carried at cost of \$11,719 and \$13,716, respectively. The term deposits are either not allowed to be redeemed early or are subject to penalty for early redemption before their maturity. The carrying amounts of the held-to-maturity securities approximate their fair values due to their short-term nature. As of March 31, 2010 and December 31, 2009, the Company did not hold trading securities.

The following table provides additional information concerning the Company's available-for-sale securities, which consist principally of bond funds, balance funds, stock funds and corporate stocks issued by major financial institutions.

	March 31, 2010			December 31, 2009				
	Cost	Gross unrealized gains	Gross unrealized losses	Fair value	Cost	Gross unrealized gains	Gross unrealized losses	Fair value
Bond funds	\$ 16,817	\$ 2,081	\$	\$ 18,898	\$ 16,812	\$ 1,334	\$	\$ 18,146
Balance funds	2,930	115		3,045	1,465	118		1,583
Stock funds	5,816	1,953		7,769	5,815	1,895		7,710
Corporate stocks	215	20		235	215	20		235
Total	\$ 25,778	\$ 4,169	\$	\$ 29,947	\$ 24,307	\$ 3,367	\$	\$ 27,674

Where applicable, the Company uses quoted prices in active markets for identical assets (Level 1 investments) to determine the fair value of trading and available-for-sale securities. If quoted prices in active markets for identical assets are not available to determine fair value, then the Company uses quoted prices for similar assets or inputs other than the quoted prices that are observable either directly or indirectly, which are included in Level 2 investments. The Company did not have Level 2 investments as of March 31, 2010. The Company's Level 3 investments other than derivatives primarily include investments in certain mutual funds without quoted prices as of the date of reporting. The Company values its Level 3 investments using the quoted market price as of the most recent priced day prior to the date of reporting because the Company believes the fair value of the investments would not have materially changed between the pricing date and the date of reporting.

Table of Contents**ASIAINFO HOLDINGS, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited) (Continued)**

(In thousands, except share and per share amounts)

The available-for-sale securities measured and recorded at fair value as of March 31, 2010 and December 31, 2009 were as follows:

	As of March 31, 2010			Total Balance
	Fair Value Measurements at the Reporting Date Using			
	Quoted Prices in Active Markets for Identical Instruments (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Bond funds	\$ 18,898	\$	\$	\$ 18,898
Balance funds			3,045	3,045
Stock funds			7,769	7,769
Corporate stocks	235			235
Total	\$ 19,133	\$	\$ 10,814	\$ 29,947

	As of December 31, 2009			Total Balance
	Fair Value Measurements at the Reporting Date Using			
	Quoted Prices in Active Markets for Identical Instruments (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Bond funds	\$ 18,146	\$	\$	\$ 18,146
Balanced funds			1,583	1,583
Stock funds			7,710	7,710
Corporate stocks	235			235
Total	\$ 18,381	\$	\$ 9,293	\$ 27,674

The following table presents changes in Level 3 stock funds measured on a recurring basis for the three-month period ended March 31, 2010:

	As of March 31, 2010
Beginning balance	\$ 9,293
Purchases	1,465
Unrealized gain	53
Exchange difference	3

Ending balance	\$	10,814
----------------	----	--------

The Company did not realize any gain during the three months ended March 31, 2010 and 2009, respectively. For purposes of determining gross realized gains, the cost of securities sold is based on specific identification.

The Company reported no impairment losses for its short-term investments for the three months ended March 31, 2010 and 2009, respectively.

5. ACCOUNTS RECEIVABLE

Accounts receivable balances included both billed and unbilled amounts. Revenue recognized in excess of billings is recorded as unbilled receivables. All billed and unbilled amounts are expected to be collected within one year. Accounts receivable balances included bank acceptance drafts receivable and commercial acceptance drafts receivable. These bank acceptance drafts and commercial acceptance drafts were non-interest bearing and were due within six months of issuance.

Table of Contents**ASIAINFO HOLDINGS, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited) (Continued)****(In thousands, except share and per share amounts)**

The components of accounts receivable as of March 31, 2010 and December 31, 2009 were as follows:

	March 31, 2010	December 31, 2009
Billed accounts receivable	\$ 45,074	\$ 58,049
Unbilled accounts receivable	76,699	72,912
Bank acceptance drafts	262	15
Commercial acceptance drafts	367	1,289
Less: accounts receivable allowance	(4,533)	(2,619)
 Total accounts receivable, net	 \$ 117,869	 \$ 129,646

6. INVENTORIES, NET

The components of inventories as of March 31, 2010 and December 31, 2009 were as follows:

	March 31, 2010	December 31, 2009
Raw materials	\$ 1,073	\$ 806
Finished goods	8,688	8,729
 Total	 \$ 9,761	 \$ 9,535

7. LONG-TERM INVESTMENTS

On September 12, 2008, the Company acquired 2,170,000 redeemable convertible Series B Preferred Shares of C-Platform Corporation (C-Platform), for a total cash consideration of \$4,696, including \$52 in transaction costs. The total consideration had been paid as of March 31, 2009. Following the transaction, the Company owned approximately 19.9% of C-Platform's issued and outstanding share capital, or 17% of C-Platform's share capital on a fully-diluted basis. Since the Company does not have the ability to exercise significant influence over the operating and financial policies of C-Platform, the Company uses the cost method of accounting to record its investment in C-Platform. C-Platform is a Cayman Islands company, which, through its subsidiaries in China, provides data operating services, a form of value-added telecommunications services, to telecommunications operators in China.

No impairment losses were recognized in 2009 or in the three months ended March 31, 2010.

8. GOODWILL

The changes in the carrying amount of goodwill by reporting segments during the three months ended March 31, 2010 were as follows:

As of March 31, 2010

The future amortization expenses for the net carrying amount of intangible assets with definite lives as of March 31, 2010 are expected to be as follows:

2010	\$ 1,173
2011	1,034
2012	699
2013	399
2014	110
	\$ 3,415

10. COMPREHENSIVE INCOME

The components of comprehensive income during the three months ended March 31, 2010 and 2009 were as follows:

	Three Months Ended March 31,	
	2010	2009
Net income	\$ 9,922	\$ 5,785
Net unrealized gain on available-for-sale investments, net of tax effects of \$(194) and \$(578) for the three and three months ended March 31, 2010 and 2009, respectively	607	1,180
Change in cumulative foreign currency translation adjustment	51	(97)

Edgar Filing: ASIAINFO HOLDINGS INC - Form 10-Q

Comprehensive income	10,580	6,868
Comprehensive loss attributable to noncontrolling interest	(423)	(5)
Comprehensive income attributable to AsiaInfo Holdings, Inc.	\$ 11,003	\$ 6,873

11. CREDIT FACILITIES

As of March 31, 2010, the Company had short-term credit facilities for working capital purposes totaling \$31,974 expiring in March 2011. As of March 31, 2010, the credit facilities were secured by bank deposits of \$5,001 and credit facilities of \$4,605 were pledged as security for issuing standby letters of credit and accounts payable to hardware suppliers and customers. As of March 31, 2010, unused short-term credit facilities were \$27,369. In addition, the Company had standby letters of credit and bank acceptance drafts as of March 31, 2010, which were collateralized by bank deposits of \$704. Total bank deposits pledged as security for credit facilities, standby letters of credit, and bank acceptance drafts totaled \$5,705 as of March 31, 2010 and were presented as restricted cash in the consolidated balance sheets. As of December 31, 2009, the Company had total short-term credit facilities totaling \$31,968, which will expire in December 2010 and were secured by bank deposits of \$5,000.

Table of Contents**ASIAINFO HOLDINGS, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited) (Continued)****(In thousands, except share and per share amounts)****12. ACCOUNTS PAYABLE**

Accounts payable included bank acceptance drafts payable of \$2,724 and \$1,932 and commercial acceptances payable of \$366 and \$426 as of March 31, 2010 and December 31, 2009, respectively. These bank acceptance drafts and commercial acceptances were non-interest bearing and were due within six months of issuance.

As of March 31, 2010 and December 31, 2009, the Company's accounts payable balance related to its sales agency arrangement with IBM was approximately \$50,344 and \$62,121 respectively, under which the Company is contractually obligated to pay its vendor only when the customer, China Mobile, pays the Company.

13. VALUE-ADDED TAXES REBATE

Revenue from software products and solutions included the benefit of the rebate of value-added taxes on sales of software and services received from the Chinese tax authorities as part of the PRC government's policy of encouraging software development in the PRC. The rebate totaled \$2,643 and \$1,671 for the three months ended March 31, 2010 and 2009, respectively.

14. INCOME TAXES

The Company is subject to U.S. federal and state income taxes and the Company's subsidiaries and VIEs incorporated in the PRC are subject to PRC income taxes.

Reconciliation between the provision for income taxes computed by applying the U.S. federal tax rate to income before income taxes and the actual provision for income taxes is as follows:

	Three months Ended March 31,	
	2010	2009
U.S. federal rate	35%	35%
Difference between statutory rate and foreign effective tax rate	(28)	(25)
Subpart F income inclusion and other dividend income	5	2
Share-based compensation	2	5
Other Permanent Differences	1	
	15%	17%

Aggregate undistributed earnings of approximately \$61,231 at March 31, 2010 of the Company's PRC subsidiaries and VIEs that are available for distribution to the Company are considered to be indefinitely reinvested under US GAAP and, accordingly, no provision has been made for the Chinese dividend withholding taxes that would be payable upon the distribution of those amounts to AsiaInfo Holdings, Inc. Additionally, the Chinese tax authorities have clarified that distributions made out of pre-January 1, 2008 retained earnings would not be subject to the withholding tax. The Company has not quantified the deferred income tax liability that would arise if earnings in the three months ended March 31, 2010 were to be distributed or were determined to be no longer permanently reinvested.

The Company is subject to taxation in the U.S. and various states and foreign jurisdictions. There is one ongoing examination by the Hong Kong taxing authority at this time. The Company believes that it has not taken any aggressive filing positions in its Hong Kong tax filings and expects that it will not be subject to additional tax liabilities or penalties. There are no ongoing examinations by other taxing authorities at this time. The Company's various tax years from 2000 to 2009 remain open in these taxing jurisdictions.

15. SHARE-BASED COMPENSATION

2002 Stock Option Plan and the Prior Plans

Under the Company's 2002 Stock Option Plan (the "2002 Plan"), the Company was authorized to grant options for the purchase of up to 4,500,000 shares of common stock to employees, directors and consultants at prices not less than the fair market value on the date of grant for incentive stock options and nonqualified options. Shares as to which an option is granted under the 2002 Plan but remains unexercised at the expiration, forfeiture or other termination of such option may be the subject of the grant of further options. Prior to adopting the 2002 Stock Option Plan, the Company adopted annual stock option plans for each of 1995, 1996, 1997, 1998, 1999 and 2000 (such plans, together with the 2002 Stock Option Plan, are referred to hereinafter as the "Option Plans").

Table of Contents**ASIAINFO HOLDINGS, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited) (Continued)****(In thousands, except share and per share amounts)**

The vesting periods of the options under the Option Plans are determined based on the individual stock option agreements. Options granted prior to 1998 generally vest and become exercisable over three years at an equal annual rate. Exercise terms of options granted in 1998, 1999, 2000 and 2002 are substantially similar to those of options granted prior to 1998 except that the vesting and exercise periods are generally over four one-year cliffs at an annual rate of 20%, 20%, 30% and 30% for the 1999 plan, generally over four years at an annual rate of 25% for the 2000 plan, and are generally no more than four years at an annual rate of 25% for the 2002 Plan.

Activities for the Option Plans are summarized as follows:

	Number of shares	Weighted average exercise price per share	Aggregate Intrinsic Value
Outstanding, January 1, 2010	1,064,605	\$ 11.51	
Granted			
Forfeited	(39,900)	25.57	
Exercised	(262,971)	20.82	
Outstanding, March 31, 2010	761,734	7.56	\$ 14,516
Vested and expected to vest, March 31, 2010	761,734	7.56	14,516
Exercisable, March 31, 2010	761,734	\$ 7.56	\$ 14,516

The aggregate intrinsic value is calculated as the difference between the exercise price of the underlying awards and the closing stock price of \$26.48 of the Company's common stock on the last trading day on March 31, 2010.

The total intrinsic value of options exercised for each of the three months ended March 31, 2010 and 2009 was \$1,099 and \$1,429, respectively.

As of March 31, 2010, there was no unrecognized share-based compensation cost relating to share options.

2005 Stock Incentive Plan restricted stock units (RSUs)

Under the Company's 2005 Stock Incentive Plan (the 2005 Plan), the Company may grant participants restricted stock awards, stock options, or other types of equity incentives. The number of shares authorized for issuance is (a) 600,000 shares plus (b) any authorized shares of Common Stock that, as of April 21, 2005, were available for issuance under the 2002 Plan, or that thereafter become available for issuance under the 2002 Plan in accordance with its terms.

A restricted stock unit (RSU) is an agreement to issue stock at the time when the award vests. These units are vested on an annual basis equally over four years, 25% on each anniversary of the grant date. The fair value of each RSU is measured on the grant date based on the market price of the stock on the grant date. The Company also has the right, in its sole discretion, to pay cash in lieu of the issuance of vested shares of common stock. No such cash payment right was exercised by the Company.

RSUs as of March 31, 2010 and changes during the three months ended March 31, 2010 were as follows:

Number of shares

Edgar Filing: ASIAINFO HOLDINGS INC - Form 10-Q

		Weighted average grant date fair value
Restricted stock units unvested at January 1, 2010	101,800	\$ 11.26
Granted	86,600	25.43
Vested	(17,622)	9.59
Forfeited		
Restricted stock units unvested at March 31, 2010	170,778	\$ 18.62

Total intrinsic value of RSUs exercised for each of the three months ended March 31, 2010 and 2009 was \$500 and nil, respectively.

Table of Contents**ASIAINFO HOLDINGS, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited) (Continued)****(In thousands, except share and per share amounts)**

As of March 31, 2010, there was \$2,946 unrecognized share-based compensation cost related to RSUs. That unrecognized cost is expected to be recognized over a weighted-average vesting period of 1.90 years. To the extent the actual forfeiture rate is different from the original estimate; the actual share-based compensation related to these awards may be different from the expectation.

2008 Stock Incentive Plan

On February 25, 2008, the Board of Directors of the Company authorized the 2008 Stock Incentive Plan, as amended (the 2008 Plan). The 2008 Plan was subsequently approved by the Company's stockholders at the 2008 annual meeting of stockholders. Under the Plan, the Company may grant participants restricted stock awards, stock options, or other types of equity incentives. The number of shares authorized for issuance is (a) 2,000,000 shares plus (b) any authorized shares of the Company's common stock that, as of February 25, 2008, were available for issuance under the 2005 Plan, or that thereafter become available for issuance under the 2005 Plan in accordance with its terms.

As of March 31, 2010, 1,669,400 PSUs were granted under the 2008 Plan. These awards will vest based on certain performance-based criteria, such as the Company's operating margin annual growth rate, provided the award holder continues to be an employee of the Company at the time the performance goals are met. Each PSU represents a contingent right of the participant to receive a payment in respect of a share of the Company's common stock, whether in shares, cash, or a combination thereof, subject to the terms and conditions of the participant's PSU agreement. The Company also has the right, in its sole discretion, to pay cash in lieu of the issuance of vested shares of common stock. No such cash payment right was exercised by the Company.

PSUs as of March 31, 2010 and changes during the three months ended March 31, 2010 were as follows:

	Number of shares	Weighted average grant date fair value
Performance-based restricted stock units unvested at January 1, 2010	1,081,413	\$ 13.17
Granted		
Vested		
Forfeited	(2,835)	13.10
Performance-based restricted stock units unvested at March 31, 2010	1,078,578	\$ 13.17

Total intrinsic value of the PSUs granted under the 2008 Plan and vested for the three months ended March 31, 2010 and 2009 was nil and nil, respectively.

As of March 31, 2010, there was \$3,550 unrecognized share-based compensation cost related to the PSUs, which is expected to be recognized in the Company's consolidated statements of operations over a weighted-average vesting period of 0.50 year. To the extent the actual forfeiture rate is different from the original estimate, the actual share-based compensation related to these awards may be different from the expectation.

The amount of share-based compensation attributable to cost of revenues, sales and marketing, general and administrative expenses, and research and development is included in those line items on the face of the Company's consolidated statements of operations. For the three months ended March 31, 2010 and 2009, share-based compensation expenses related to the stock options, the RSUs and the PSUs under US GAAP were allocated as follows:

Edgar Filing: ASIAINFO HOLDINGS INC - Form 10-Q

	Three Months Ended	
	March 31,	
	2010	2009
Cost of revenues	\$ 520	\$ 293
Sales and marketing	546	351
General and administrative	619	360
Research and development	286	178
Total share-based compensation expense	\$ 1,971	\$ 1,182

Table of Contents**ASIAINFO HOLDINGS, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited) (Continued)****(In thousands, except share and per share amounts)****16. EARNINGS PER SHARE**

The following is a reconciliation of the numerators and denominators of the basic and diluted net income per share computations:

	Three Months Ended	
	March 31,	
	2010	2009
Amounts attributable to AsiaInfo Holdings, Inc. common stockholders (numerator)	\$ 10,345	\$ 5,790
Shares (denominator)		
Weighted average common stock outstanding		
Basic	47,227,325	43,503,560
Dilutive effect of share-based compensation	974,960	1,682,498
Diluted	48,202,285	45,186,058
Earnings per share		
Net income attributable to AsiaInfo Holdings, Inc. common stockholders		
Basic	\$ 0.22	\$ 0.13
Diluted	\$ 0.21	\$ 0.13

As of March 31, 2010 and 2009, the Company had 5,000 and 661,215 common stock options outstanding, respectively, that were excluded from the computation of diluted earnings per share (EPS), as their exercise prices exceeded the average market values in those periods. These options could potentially have a dilutive effect on the Company's EPS in the future.

17. SEGMENT INFORMATION

Since October 2004, the Company has been organized as two business units, AsiaInfo Technologies, encompassing the Company's traditional telecommunications business, and Lenovo-AsiaInfo, providing IT services, including security products and services, IT consulting, software customization, and business process outsourcing services, to the enterprise market in China. After disposing of certain non-core business lines during 2005 and 2006, Lenovo-AsiaInfo now focuses on IT security solutions for the small and medium-sized enterprise market in China. In accordance with the FASB guidance, the Company determined that each of these two business units represents an operating segment, of which discrete financial information is available and is evaluated regularly by the chief operating decision maker, or decision making group, in deciding how to allocate resources and in assessing performance. Each operating segment has three product lines: (1) software products and solutions, (2) services, and (3) third-party hardware.

The Company's chief operating decision making group is the Company's Business Committee, comprising the Company's Chief Executive Officer, Chief Financial Officer and senior management team, who allocate resources and evaluate performance of segments based on the following table of condensed consolidated financial statements of operations and total assets. Accordingly, other items such as inter-segment sales, interest income (expense), income tax expenses (benefit), depreciation and amortization are not disclosed by segment, since such information is not used by the Company's chief operating decision making group to assess the operating performance of individual segments.

Table of Contents**ASIAINFO HOLDINGS, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited) (Continued)**

(In thousands, except share and per share amounts)

The following sets forth the condensed statements of operations and total assets for the Company's operating segments based on the Company's three major product lines:

	Three Months Ended March 31,					
	2010			2009		
	AsiaInfo Technologies	Lenovo- AsiaInfo	Total	AsiaInfo Technologies	Lenovo- AsiaInfo	Total
Revenue:

	As of March 31, 2010			As of December 31, 2009		
	AsiaInfo Technologies	Lenovo- AsiaInfo	Total	AsiaInfo Technologies	Lenovo- AsiaInfo	Total
Total assets ⁽²⁾	\$ 421,077	\$ 57,985	\$ 479,062	\$ 423,237	\$ 58,540	\$ 481,777

(1) General and administrative expenses reported reflect only the direct controllable expenses of each business unit and do not include allocation of corporate general and administrative expenses.

(2)

Edgar Filing: ASIAINFO HOLDINGS INC - Form 10-Q

Included in total assets are net accounts receivable of \$114,774 and \$3,095 for AsiaInfo Technologies and Lenovo-AsiaInfo, respectively, at March 31, 2010 and \$125,445 and \$4,201 for AsiaInfo Technologies and Lenovo-AsiaInfo, respectively, at December 31, 2009. The following is a reconciliation of operating segment contribution profit to income before provision for income taxes:

	Three Months Ended	
	March 31,	
	2010	2009
Total contribution profit for reportable segments	\$ 17,438	\$ 8,916
Corporate general and administrative expenses	(6,392)	(2,718)
Interest income	661	624
Dividend	4	171
Other expenses, net		(23)
Income before provision for income taxes	\$ 11,711	\$ 6,970

Table of Contents**ASIAINFO HOLDINGS, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited) (Continued)**

(In thousands, except share and per share amounts)

Since revenues net of cost of third-party hardware sales were reported to the chief operating decision maker, the Company also provides the following table, which reconciles revenues net of cost of third-party hardware sales to total revenues as presented in the Company's consolidated statements of operations:

	Three Months Ended March 31,					
	2010			2009		
	AsiaInfo Technologies	Lenovo- AsiaInfo	Total	AsiaInfo Technologies	Lenovo- AsiaInfo	Total
Revenues, net of cost of third-party hardware sales	\$ 57,672	\$ 4,067	\$ 61,739	\$ 44,375	\$ 3,285	\$ 47,660
Third-party hardware cost	1,571	155	1,726	2,778	538	3,316
Total revenues	\$ 59,243	\$ 4,222	\$ 63,465	\$ 47,153	\$ 3,823	\$ 50,976

18. RELATED PARTY TRANSACTIONS

The Company entered into a series of contractual agreements with Lenovo in connection with the acquisition of Lenovo's non-telecommunications IT services business in October 2004. In conjunction with that acquisition, the Company delivered 5,472,414 shares of its common stock to Lenovo. Among them, 648,769 shares were returned to the Company from an escrow account in February 2007. As of March 31, 2010, Lenovo owned approximately 7 percent of the Company's outstanding common stock.

The following table provides a summary of the Company's transactions with Lenovo during the three months and three months ended March 31, 2010 and 2009, respectively:

	Three Months Ended March 31,	
	2010	2009
Sales and marketing	\$ 15	\$ 14
Total operating expenses	\$ 15	\$ 14

	As of March 31, 2010	As of December 31, 2009
Balances with related parties:		
Other receivables	\$ 8	\$

The Company entered into consulting agreements with Tom Manning, one of its directors, in January 2009 and February 2009, pursuant to which Mr. Manning agreed to provide certain management and consulting services to the Company. As of the end of the first quarter, the Company has paid approximately \$443 to Mr. Manning pursuant to the agreements.

19. COMMITMENTS AND CONTINGENCIES

Product warranty The Company's product warranty accrual reflected management's best estimate of probable liability under its product warranties. Management determines the warranty accrual based on historical experience and other currently available evidence. Product warranty accrual was recorded as a component of accrued expenses in the accompanying balance sheets.

Edgar Filing: ASIAINFO HOLDINGS INC - Form 10-Q

Changes in the product warranty accrual for the three months ended March 31, 2010 were as follows:

	Three Months Ended March 31, 2010	
Beginning balance at January 1, 2010	\$	266
Current period provision		12
Expired warranty		(16)
Ending balance at March 31, 2010	\$	262

Table of Contents**ASIAINFO HOLDINGS, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited) (Continued)****(In thousands, except share and per share amounts)**

Litigation In December 2001, a securities class action case was filed in New York City against the Company, certain of its officers and directors and the underwriters of the Company's initial public offering (IPO). The lawsuit alleged violations of the U.S. federal securities laws and was docketed in the U.S. District Court for the Southern District of New York as *Hassan v. AsiaInfo Holdings, Inc., et al.* The lawsuit alleged, among other things, that the underwriters of the Company's IPO improperly required their customers to pay the underwriters excessive commissions and to agree to buy additional shares of the Company's common stock in the aftermarket as conditions of their purchasing shares in the Company's IPO. The lawsuit further claimed that the alleged practices of the underwriters should have been disclosed in the Company's IPO prospectus and registration statement. The suit seeks rescission of the plaintiffs' alleged purchases of the Company's common stock as well as unspecified damages. In addition to the case against the Company, various other plaintiffs had filed approximately 1,000 other, substantially similar class action cases (collectively, the IPO Allocation Cases) against approximately 300 other publicly traded companies and their IPO underwriters in New York City, which along with the case against the Company, had all been transferred to a single federal district judge for purposes of case management.

In April 2009, the Company and most of the other issuer defendants in the IPO Allocation Cases reached a definitive agreement with the plaintiffs and the underwriter defendants to settle the IPO Allocation Cases. The definitive agreement was filed with the court on April 2, 2009 and a final approval was granted by the court on October 6, 2009. The final approval is subject to appeal until November 5, 2009. Several objectors filed timely appeals and those appeals remain pending. If the settlement is approved, the Company expects any damages payable to the plaintiffs to be fully funded by its directors' and officers' liability insurance policies. If the litigation proceeds, the Company intends to continue to defend the litigation vigorously. Moreover, if the litigation proceeds, the Company believes that the underwriters may have an obligation to indemnify the Company for the legal fees and other costs of defending this suit and that its directors' and officers' liability insurance policies would also cover the defense and potential exposure in the suit.

In addition, the Company received a letter dated July 30, 2007 from a putative stockholder demanding that the Company investigate and prosecute a claim for alleged short-swing trading in violation of Section 16(b) of the Securities Exchange Act of 1934, as amended (the Exchange Act), by the underwriters of the Company's IPO and certain of the Company's unidentified directors, officers and stockholders. On October 9, 2007, the putative stockholder commenced a civil lawsuit in the U.S. District Court for the Western District of Washington against Morgan Stanley and Deutsche Bank, two of the lead underwriters of the Company's IPO, alleging violations of Section 16(b) of the Exchange Act. The complaint alleges that the combined number of shares of the Company's common stock beneficially owned by the lead underwriters and certain unnamed officers, directors and principal stockholders exceeded ten percent of the Company's outstanding common stock from the date of the Company's IPO on March 3, 2000, through at least March 2, 2001. It further alleges that those entities and individuals were thus subject to the reporting requirements of Section 16(a) and the short-swing trading prohibition of Section 16(b), and failed to comply with those provisions. The complaint seeks to recover from the lead underwriters any short-swing profits obtained by them in violation of Section 16(b). None of the Company's directors, officers or stockholders is named as defendants in this action, although the Company is named as a nominal defendant. On July 25, 2008, the Company filed a joint motion to dismiss, with several other issuers who are also named as nominal defendants in the action. On March 12, 2009, the court granted the issuer defendants' joint motion to dismiss without prejudice on the grounds that the plaintiff failed to make an adequate demand to the Company prior to filing her complaint. The plaintiff subsequently appealed the judgment to the Court of Appeals for the Ninth Circuit, and the underwriter defendants have filed certain cross-appeals. Briefing with respect to these appeals concluded in November 2009 and the appeals remain pending.

The Company intends to continue to defend vigorously the two litigation matters described above. While the Company cannot guarantee the outcome of these proceedings, the Company does not believe that the final results of these lawsuits will have a material effect on the Company's consolidated financial condition, results of operations or cash flows.

20. STOCK REPURCHASE PROGRAM

On September 11, 2007, the Company announced the authorization of a stock repurchase program under which the Company was entitled, from time to time for a period of four months, depending on market conditions, share price and other factors, to make one or more purchases, on the open market or in privately negotiated transactions, subject to availability, of up to 3,000,000 shares of its outstanding common stock. As of December 31, 2007, the Company repurchased 244,300 shares of its common stock at a total cost of \$1,953 pursuant to this repurchase program.

Table of Contents

ASIAINFO HOLDINGS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited) (Continued)

(In thousands, except share and per share amounts)

On February 27, 2008, the Company's Board of Directors authorized an extension to the 2007 share repurchase program through July 10, 2008. Under the extended program, the Company was authorized from time to time, depending on market conditions, share price and other factors, make one or more purchases on the open market or in privately negotiated transactions, subject to availability, of up to 2,755,700 shares of its outstanding common stock. Any common stock repurchased by the Company became part of its treasury stock and may be retired or used by the Company to finance or execute acquisitions or other arrangements. As of July 10, 2008, the Company had repurchased 166,400 shares of its common stock at a total cost of \$1,664 pursuant to this repurchase program.

On September 17, 2008, the Company announced a new stock repurchase program under which the Company was authorized to repurchase up to 3,000,000 shares of its outstanding common stock. As of December 31, 2008, the Company had repurchased 2,589,300 shares of its common stock at a total cost of \$24,132.

No repurchases occurred in 2009 and in the three months ended March 31, 2010.

21. SUBSEQUENT EVENTS

The Company evaluated events occurring after March 31, 2010 until the date the financial statements were issued.

On May 1, 2010, the Company through Asia Technologies (Chengdu), Inc., a subsidiary of the Company, purchased 80% of the outstanding share capital of Hangzhou Zhongbo Software Technology Co., Ltd (Hangzhou Zhongbo) for an aggregate purchase price of approximately US\$7 million in cash. Hangzhou Zhongbo provides IT solutions to broadcasting operators in China.

22. NONCONTROLLING INTEREST

(a) In September 2008, the Company established a new subsidiary, Shanghai Xinjia Science & Technology Co., Ltd (AISH) in Shanghai, with a total capital contribution of \$732. The Company and Mr. Yao Yuan, the other shareholder of AISH, hold 90% and 10% of AISH's share capital, respectively. AISH mainly provides software and services to telecommunication carriers in Shanghai.

(b) In October 2009, the Company acquired 60% of the share capital of SmartCall Holding Limited and the remaining 40% of the share capital was recorded as noncontrolling interest.

23. REDEEMABLE NONCONTROLLING INTEREST

In September 2009, the Company formed AsiaInfo International Pte Ltd (AIP) with Alpha Growth International Pte Ltd, a company incorporated under the laws of Singapore (AGI), in Singapore. AIP has total issued and paid-up share capital of \$4,000. The Company contributed \$2,800 to AIP in cash, which represents 70% of AIP's share capital. AGI contributed \$1,200 to the AIP in cash, which represents 30% of AIP's share capital. AIP serves as an exclusive agent to market and distribute the Company's telecommunications software and service solutions in certain regions in Southeast Asia until December 2014 or such other date as the Company and AGI may mutually agree. The Company has consolidated AIP since its incorporation.

Pursuant to the agreement with AGI, the Company granted a put option to AGI to sell, while the Company received a call option from AGI to purchase, the 30% equity interest held by AGI. The options are exercisable within a 30 day-period from the date of issuing the audit report of AIP's 2013 financial statements. The exercise prices for the call and the put options of the 30% equity interest held by AGI are the same and are determined by a formula based on the performance of AIP for years 2012 and 2013.

The 30% noncontrolling interest was recorded outside of the permanent equity on the balance sheet in an initial amount of \$1,200. Subsequently, the noncontrolling interest was carried at the higher of (1) the initial carrying amount, increased or decreased for the noncontrolling interest's share of net income or loss or (2) the accreted amount to the expected redemption value. The change of the carrying amounts of the redeemable

Edgar Filing: ASIAINFO HOLDINGS INC - Form 10-Q

noncontrolling interest is recognized as net income attributable to noncontrolling interest in the consolidated statements of operations. For the first quarter of year 2010, the amount charged to the net income attributable to noncontrolling interest was \$93, which represents the noncontrolling interest's share of net loss of AIP.

24. PREPAID LAND USE RIGHT AND OTHER LONG-TERM PREPAYMENT

The Company has commenced the process to obtain land use rights for a piece of land in Beijing, on which the Company plans to construct a building for use as its new corporate headquarters. In October 2009, the Company entered into an agreement with Zhongguancun Software Park Development Co., Ltd. (ZSPD), pursuant to which ZSPD agreed to develop the land in preparation for construction of the building, for an aggregate consideration of approximately \$10,777. In connection with the agreement, the Company will be eligible to enter into a land transfer agreement with relevant PRC government authorities in order to obtain land use rights with respect to such land. As of March 31, 2010, the Company had paid approximately \$9,699 pursuant to the agreement with ZSPD, with the remaining amount payable in the remainder of 2010. The Company has recorded the \$9,699 as prepaid land use right and other long-term prepayment on its consolidated balance sheets as of March 31, 2010. The Company expects to report land use rights and other long-term prepayments at cost less accumulated amortization and to amortize the cost of the land use rights and other long-term prepayments on a straight-line basis over the term of the land use rights and other long-term prepayments to be amortized, which is expected to be 50 years.

Table of Contents**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

Except for historical information, the statements contained in this quarterly report on Form 10-Q are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, or the Securities Act, and Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act. The Private Securities Litigation Reform Act of 1995, or the Reform Act, contains certain safe harbors regarding forward-looking statements. Certain of the forward-looking statements include management's expectations, intentions and beliefs with respect to our growth, our operating results, the nature of the industry in which we are engaged, our business strategies and plans for future operations, our needs for capital expenditures, capital resources and liquidity, and similar expressions concerning matters that are not historical facts. Such forward-looking statements are subject to risks and uncertainties that could cause actual results to differ materially from those expressed in the statements. All forward-looking statements included in this report are based on information available to us on the date hereof, and we assume no obligation to update any such forward-looking statements. These cautionary statements are being made pursuant to the provisions of the Reform Act with the intention of obtaining the benefits of the safe harbor provisions of the Reform Act. The factors that could cause actual results to differ materially include, but are not limited to, the factors discussed under the heading "Risk Factors" in Part II Other Information below and in the reports we file with the U.S. Securities and Exchange Commission, or the SEC, from time to time.

In this report, AsiaInfo, the Company, we, us and our refer to AsiaInfo Holdings, Inc., its subsidiaries and consolidated variable interest entities or VIEs.

Overview

We are a leading provider of high-quality telecommunications software solutions and IT security products and services in China. In the telecommunications market, our software and services enable our customers to build, maintain, operate, manage and continuously improve their communications infrastructure. Our largest customers are the major telecommunications carriers in China and their provincial subsidiaries. In addition to providing customized software solutions to China's telecommunications carriers, we also offer sophisticated IT security products and services to many small- and medium-sized companies and government agencies in China.

We commenced our operations in the United States, or the U.S., in 1993 and moved our major operations from the U.S. to China in 1995. We began generating significant network solutions revenues in 1996 and significant software revenues in 1998. We conduct the bulk of our business through our operating subsidiaries, most of which are Chinese companies.

We have derived, and believe that we will continue to derive, a significant portion of our revenues from a limited number of large telecommunications customers, such as China Mobile, China Unicom and China Telecom. The following table shows our revenues and percentage of total revenues derived from those three customers for the three months ended March 31, 2010 and 2009.

	Three Months Ended March 31,			
	2010		2009	
	Revenues (in thousands)	Percentage of Total Revenues	Revenues (in thousands)	Percentage of Total Revenues
China Mobile	\$ 44,504	70%	\$ 33,565	66%
China Telecom	4,200	7%	4,742	9%
China Unicom	10,420	16%	8,749	17%
Total	\$ 59,124	93%	\$ 47,056	92%

As a result of our reliance on our key customers in the telecommunications industry, our operating results are influenced by governmental spending policies in that sector. Historically, a number of state-mandated restructurings in China's telecommunications sector have led to cancellation or delays in telecommunications-related capital expenditures, and have negatively impacted our operating results in certain periods. However, certain state-mandated restructurings in China's telecommunications sector have caused our revenues to increase as carriers have increased spending on software and IT infrastructure designed to increase their competitiveness. Any future restructurings affecting our major telecommunications customers may result in delays or cancellation of telecommunications-related spending, which could have an adverse impact on our business.

Since our acquisition of the non-telecommunications-related IT services business of Lenovo in October 2004, we have been organized as two business segments: AsiaInfo Technologies, encompassing our traditional telecommunications business, and Lenovo-AsiaInfo, providing IT

Edgar Filing: ASIAINFO HOLDINGS INC - Form 10-Q

security products and services to China's enterprise market. For financial reporting purposes, each of the two business segments is further organized into three product lines:

software products and solutions;

Table of Contents

services; and

third-party hardware.

Recent Developments

On December 4, 2009, we executed a definitive Business Combination Agreement, or the Combination Agreement, to combine our business with the business of Linkage Technologies International Holdings Limited, or Linkage Cayman, through our acquisition of 100% of the outstanding share capital of Linkage Cayman's wholly-owned subsidiary, Linkage Technologies Investment Limited, or Linkage Technologies. We refer to this transaction in this report as the Combination. Like AsiaInfo, Linkage Technologies is a leading provider of software solutions and IT services for the telecommunications industry in China, developing and implementing core operating systems for all three telecommunications operators in China. In consideration for our acquisition of Linkage Technologies, we agreed to pay to Linkage Cayman \$60 million in cash and to issue to Linkage Cayman 26,832,731 shares of our common stock. The consideration will be distributed by Linkage Cayman to existing shareholders of Linkage Cayman. The Combination Agreement contains representations, warranties, covenants and indemnities. Completion of the Combination is conditioned upon, among other things, the receipt of any required regulatory approvals and certain approvals by our stockholders.

At our special meeting of stockholders on April 29, 2010, our stockholders approved the consideration we would pay in the Combination and a change in our name following the completion of the Combination to AsiaInfo-Linkage, Inc.

We expect to complete the Combination as soon as possible after all conditions to the Combination are satisfied or waived, which we currently expect to be in May 2010. If we complete the Combination, we expect to integrate our business with the business of Linkage Technologies following completion of the Combination.

It is possible that any of a number of factors, some of which are outside of our control, could delay or prevent us from completing the Combination on a timely basis, if at all, or from achieving the anticipated benefits of the Combination. For more information on the risks associated with the Combination, please see the discussion in Item 1A of this report, Risk Factors.

Revenues

We report our revenues on the basis of the three principal types of revenues derived from our business: software products and solutions revenue, service revenue and third-party hardware revenue. Please refer to Note 17 to the condensed consolidated financial statements included in this report for detailed financial information regarding segment reporting.

Software products and solutions revenue. We typically sell our software as part of a total solutions package for our customers, which includes proprietary software licenses, professional services related to the design and implementation of the solutions (such as consulting, training, technical support and maintenance) and, in cases where the customer requests a turn-key solution, related hardware. Software products and solutions revenue includes two types of revenues: software license revenue and software services revenue. Software license revenue consists of fees received from customers for licenses or sublicenses to use our software products or third-party software products in perpetuity, typically up to a specified maximum number of users. In most cases where a customer is required to purchase additional licenses from us because the number of users exceeds the number of licensed users, we enter into an extension agreement with the customer to expand and upgrade the customer's system. These extension contracts will usually include a license for the additional users, updated versions of our software and, if required, additional services and hardware for the customer's network. Our software license revenue also includes the benefit of value-added tax rebates on software license sales, which reflect the Chinese government's policy of encouraging the development of China's software industry. Software services revenue consists of revenue from software installation, customization, training and other services. We also record reductions from revenue for our estimates of expected software sales returns from distributors based on current sales and historical sales returns.

Service revenue. Service revenue consists of revenue from professional services, including IT services, management consulting, and revenues for network planning, design, systems integration and training services.

In addition, in recent periods we have begun to generate service revenues by acting as a sales agent for International Business Machines Corporation, or IBM, or its distributors, for certain products sold to China Mobile, or the IBM Arrangement. The service fee under the IBM Arrangement is determined as a percentage of the gross contract amount. We have evaluated the criteria outlined in guidance issued by the Financial Accounting Standards Board, or the FASB, regarding reporting revenue gross as principal versus net as an agent, in determining whether to record as revenues the gross amount billed to China Mobile and related costs or the net amount earned after deducting hardware costs paid to the vendor, even though we bear inventory risks after the vendor ships the products to us and we bill gross amounts to China Mobile. We

Edgar Filing: ASIAINFO HOLDINGS INC - Form 10-Q

record the net amount earned after deducting hardware costs as agency service revenue because (1) the vendor is the primary obligor in these transactions, (2) we have no latitude in establishing the prices, (3) we are not involved in the determination of the product specifications, (4) we do not bear credit risk because we are contractually obligated to pay the vendor only when China Mobile pays us, and (5) we do not have the right to select suppliers.

Table of Contents

Third-party hardware revenue. Other than the IBM Arrangement, we sometimes procure for, and sell hardware to, our customers as part of certain turn-key solutions. We typically minimize our exposure to hardware inventory risks by sourcing equipment from hardware vendors against letters of credit from our customers. For these hardware transactions, we have also evaluated the criteria outlined in FASB guidance. As a result of the evaluation, we record the gross amounts billed to our customers as revenues because (1) we are the primary obligor in these transactions, (2) we bear the inventory risk, (3) we have latitude in establishing prices, (4) we are involved in the determination of the product specifications, (5) we bear credit risk, and (6) we have the right to select suppliers. As the telecommunications-related IT services market in China develops, our customers are increasingly purchasing hardware directly from hardware vendors and retaining us for our software and professional services.

Net revenue (non-GAAP). Although we report our revenue on a gross basis, inclusive of hardware acquisition costs, we manage our business internally based on revenues net of hardware costs, or net revenues (non-GAAP), which is consistent with our strategy of providing our customers with high-value IT professional services and, where efficient, outsourcing lower-end services such as hardware acquisition and installation. This strategy may result in lower growth rates for total revenue as against prior periods, but will not adversely impact revenue net of hardware costs. The following table shows our revenue breakdown on this basis and reconciles our net revenues (non-GAAP) to total revenues:

	Reconciliation of Net Revenues (non-GAAP) to Total Revenues Three Months Ended March 31,					
	2010			2009		
	AsiaInfo Technologies	Lenovo- AsiaInfo	Total	AsiaInfo Technologies	Lenovo- AsiaInfo	Total
Revenues net of hardware costs:						
Software products and solutions revenue	\$ 53,755	\$ 3,996	\$ 57,751	\$ 39,382	\$ 3,055	\$ 42,437
Service revenue	3,834	70	3,904	4,847	152	4,999
Third-party hardware revenue	83	1	84	146	78	224
Total revenues net of hardware costs	57,672	4,067	61,739	44,375	3,285	47,660
Total hardware costs	1,571	155	1,726	2,778	538	3,316
Total revenues	\$ 59,243	\$ 4,222	\$ 63,465	\$ 47,153	\$ 3,823	\$ 50,976

We believe total revenues net of hardware costs in each of the segments of our business more accurately reflect our core business, which is the provision of software solutions and services. We also believe this measure provides transparency to our investors because it is the measure used by our management to evaluate the competitiveness and performance of our business in each of the segments. In addition, third-party hardware revenue tends to fluctuate from period to period depending on the requirements of our customers. As a result, a presentation that excludes hardware costs allows investors to better evaluate the performance of our core business and we report this presentation to our chief operating decision maker.

Cost of Revenues

Software products and solutions costs. Software products and solutions costs consist primarily of three components:

packaging and written manual expenses for our proprietary software products and solutions;

compensation and travel expenses for the professionals involved in modifying, customizing or installing our software products and solutions and in providing consultation, training and support services; and

software license fees paid to third-party software providers for the right to sublicense their products to our customers as part of our solutions offerings.

Edgar Filing: ASIAINFO HOLDINGS INC - Form 10-Q

The costs associated with designing and further developing our proprietary software are classified as research and development expenses as incurred.

Service costs. Service costs consist primarily of compensation and travel expenses for the professionals involved in designing and implementing IT services, management consulting and network solutions projects.

Third-party hardware costs. We recognize hardware costs in full upon delivery of the hardware to our customers. In order to minimize our working capital requirements, we generally obtain from our hardware vendors payment terms that are timed to permit us to receive payment from our customers for the hardware before our payments to hardware vendors are due. However, in large projects we sometimes obtain less favorable payment terms from our customers, thereby increasing our working capital requirements.

Amortization of intangible assets, depreciation of properties and equipment, and rental expenses are also included in cost of revenue.

Table of Contents

Operating Expenses

Operating expenses are comprised of sales and marketing expenses, general and administrative expenses, and research and development expenses. Compensation expenses consistently comprise a significant portion of our total operating expenses.

Sales and marketing expenses include compensation expenses for employees in our sales and marketing departments, third-party advertising expenses, sales commissions and sales consulting fees, as well as the depreciation and amortization expenses allocated to our sales and marketing departments.

Research and development expenses relate to the development of new software and the modification of existing software. We expense such costs as they are incurred.

Taxes

Except for certain hardware procurement and resale transactions, we conduct substantially all of our business through our Chinese subsidiaries and VIEs. Prior to the enactment of China's new Chinese Enterprise Income Tax Law, or the EIT Law, which became effective on January 1, 2008, foreign-invested enterprises, or FIEs, were generally subject to a 30% state enterprise income tax plus a 3% local income tax. However, most of our operating subsidiaries in China, as FIEs, were entitled to tax holidays or certain preferential tax treatments, which thus reduced their effective rate of income tax to 15% or lower in some cases. Since the EIT Law became effective, all resident enterprises are subject to a flat 25% income tax rate, unless they are otherwise eligible for certain preferential tax treatments under the new rules.

Pursuant to the implementation rules to the EIT Law issued in December 2007, and the several subsequent transition rules, certain of our subsidiaries in China can continue to enjoy preferential tax rates, as long as they are qualified as high and new technology enterprises, or HNTEs. Some of our subsidiaries and VIEs in China became subject to a normal 25% income tax rate, while certain of our subsidiaries and VIEs in China remain eligible for the lower rates under the transition rules. The HNTE status allows qualifying entities to be eligible for a 15% tax rate for three years. At the conclusion of the three year period, the qualifying enterprise has the option to renew its HNTE status for an additional three years through a simplified application process if such enterprise's business operations continue to qualify for HNTE status. After the first six years, the enterprise would have to go through a new application process in order to renew its HNTE status. As of December 2009, we had received certification of HNTE status for AsiaInfo Technologies, AsiaInfo Technologies (Chengdu), or AICD, and Lenovo Security, which allows for a reduced 15% tax rate starting January 1, 2009. Accordingly, we have used the reduced rate of 15% in the calculations of current and deferred tax balances for AICD. AsiaInfo Technologies was approved as a key software enterprise, and it is eligible for the preferential tax rate of 10% for 2008 and 2009 and 15% for 2010. Lenovo Security was subject to an applicable tax rate of 0% from 2005 to 2007 and 7.5% from 2008 to 2009. If Lenovo Security continues to maintain its HNTE status in 2010, then it will remain subject to an applicable tax rate of 7.5% in 2010.

Sales of hardware procured in China are subject to a 17% value-added tax. Most of our sales of hardware procured outside of China are made through our U.S. parent company, AsiaInfo Holdings, Inc., and thus are not subject to the value-added tax. We effectively pass value-added tax on hardware sales through to our customers and do not include them in revenues reported in our financial statements. Companies that develop their own software and register the software with the relevant authorities in China are generally entitled to a value-added tax refund. If the net amount of the value-added tax payable exceeds 3% of software sales and software-related services, the excess portion of the value-added tax is refundable immediately. This policy is effective until the end of 2010. The benefit of the rebate of value-added tax is included in software revenue. Historically, the value-added tax refund is not taxable for income tax purposes as long as the refund is used for research and development activities. However, according to a new tax circular which was issued by the PRC State Administration of Taxation in January 2009, although the value-added tax refund would remain nontaxable when the refund is used for expenses or purchase of or expenses associated with fixed assets, the expenses and depreciation associated with such fixed assets are not tax deductible for income tax purposes. This circular also stipulates that any VAT refund not spent after five years since being received shall be treated as taxable income. It is unclear how this new rule will be implemented and in the absence of specific guidance we are treating the value-added tax refund received as a non-taxable item for income tax purposes till the five year period ends.

Our PRC subsidiaries and VIEs are subject to business tax at the rate of 3% and 5%, respectively, on certain types of service revenues, which are presented in our income statement net of business tax incurred. Business taxes deducted from revenues during the three-month periods ended March 31, 2010 and 2009 were \$1.9 million and \$1.5 million, respectively.

We are also subject to U.S. income taxes on revenues generated in the U.S., including revenues from our limited hardware procurement activities through our U.S. parent company, AsiaInfo Holdings, Inc., and interest income earned in the U.S.

Table of Contents**Foreign Exchange**

A majority of our revenues and expenses relating to the hardware, software and service components of our business are denominated in Renminbi, or RMB. The value of our shares will be affected by the foreign exchange rate between U.S. dollars and RMB because the value of our business is effectively denominated in RMB, while our shares are traded in U.S. dollars. Furthermore, an increase in the value of the RMB may require us to exchange more U.S. dollars into RMB in order to meet the working capital requirements of our subsidiaries in China. Depreciation of the value of the U.S. dollar will also reduce the value of the cash we hold in U.S. dollars, which we may use for purposes of future acquisitions or other business expansion. We actively monitor our exposure to these risks and adjust our cash position in the RMB and the U.S. dollar when we believe such adjustments will reduce our foreign exchange risks. For example, in February 2004 we exchanged approximately \$28.0 million cash from U.S. dollars to RMB in order to address concerns regarding a possible increase in the relative value of the RMB. We did not engage in any significant foreign exchange transactions in the three-month period ended March 31, 2010.

As of March 31, 2010, approximately 61.9%, or \$155.9 million of our cash, cash equivalents and restricted cash were RMB-denominated and approximately 38.1%, or \$96.0 million, were U.S. dollar-denominated. Pursuant to the rate of exchange quoted by People's Bank of China as of March 31, 2010, the exchange rate between the U.S. dollar and the RMB was US\$1.00 = RMB6.8263, compared to the rate of US\$1.00=RMB6.8359 as of March 31, 2009.

Critical Accounting Policies

We prepare our consolidated financial statements in accordance with US GAAP. The preparation of these financial statements requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, as well as the reported amount of revenues and expenses during the reporting period. On an ongoing basis, we evaluate our estimates and judgments, including those related to revenues and cost of revenues under customer contracts, warranty obligations, bad debts, inventories, short-term investments, long-term investments, long-lived assets, income taxes, goodwill and other intangible assets, stock options, and litigation. We base our estimates and judgments on historical experience and on various other factors that we believe are reasonable. Actual results may differ from these estimates under different assumptions or conditions. We believe the following critical accounting policies affect the more significant judgments and estimates used in the preparation of our consolidated financial statements.

Revenue recognition. Our revenue is derived from three primary sources: (i) software license and related services, including assistance in implementation, customization and integration, post-contract customer support, or PCS, training and consulting; (ii) professional services for systems design, planning, consulting, and system integration; and (iii) the procurement of hardware on behalf of our customers.

Revenues from customer orders requiring significant production, modifications, or customization of the software are recognized over the service period based on the percentage of completion method as prescribed by US GAAP. Software arrangements with significant production, modifications, or customization are sold with bundled PCS services. Because PCS services have never been sold separately in these arrangements, they do not have stand-alone fair value or vendor specific objective evidence of fair value. The percentage of completion method of revenue recognition is therefore applied to the period from the start of the significant production, modifications, or customization through the last element delivered, which is typically the end of the bundled PCS service period. Revisions in estimated contract costs are made in the period in which the circumstances requiring the revision become known. Provisions, if any, are made currently for anticipated losses on uncompleted contracts.

For software contracts that do not involve significant implementation or customization, license fees are recorded when there is persuasive evidence of an arrangement, the fee is fixed or determinable, collection is probable, and the related products or services are delivered as prescribed by US GAAP.

The information security products sold by our Lenovo-AsiaInfo division are accounted for under US GAAP because the related software is considered to be more than incidental and is essential to the functionality of the related equipment. These information security products are sold bundled with PCS services over a term of one, two or three years.

For contracts entered into before December 31, 2008, we recognized the total arrangement fees for the information security products as revenue upon delivery assuming all other revenue recognition criteria were met regardless of whether the PCS services terms are one, two or three years because (a) PCS services primarily included telephone and online support, (b) PCS services were substantially provided within the first year of the arrangement term, (c) the costs of providing PCS services had historically been insignificant and were expected to be insignificant in the future, and (d) PCS services did not include upgrades or enhancements. PCS services provided beyond the first year of the service term had historically been negligible. We accrued the estimated costs of providing PCS services upon delivery of our Lenovo-AsiaInfo information security software products.

Table of Contents

For contracts entered into after January 1, 2009, we extended PCS services terms to include unspecified upgrades. In addition, we have established vendor-specific objective evidence of fair value of the PCS services. Therefore, the security products revenue is now recognized upon delivery and the PCS services revenue is deferred and recognized ratably over the PCS services period.

Consulting and other professional services revenues are recognized when the services are performed. Sales of third-party hardware, if not bundled with other arrangements, are recognized when delivered if all other revenue recognition criteria are met. Costs associated with revenues are recognized when incurred.

Revenue recognized in excess of billings is recorded as unbilled receivables and is included in trade accounts receivable. Amounts billed but not yet collected are recorded as billed receivables and are included in trade accounts receivable. All billed and unbilled amounts are expected to be collected within one year. Billings for installation and customization services are rendered based on agreed upon milestones specified in customer contracts. Billings in excess of revenues recognized are recorded as deferred revenue.

Income taxes. Deferred income taxes are recognized for temporary differences between the tax basis of assets and liabilities and their reported amounts in the financial statements, net operating loss carry forwards and credits, by applying statutory tax rates applicable to future years. According to the new EIT Law, the transitional rules and relevant regulations, the eligible tax rate for AsiaInfo Technologies is 10% for 2009 and 15% for 2010 and 2011; the eligible tax rate for AICD is 15% for 2009 to 2011; and the eligible rate for Lenovo Security is 7.5% for 2009 to 2010, 15% for 2011. Unless otherwise specified, our other Chinese subsidiaries and VIEs are subject to the statutory tax rate of 25%.

Under the EIT Law, a resident enterprise which may include an enterprise established outside of the PRC with management located in the PRC, will be subject to PRC income tax. We believe we and our subsidiaries registered outside the PRC are not resident enterprises under the EIT law.

We record a valuation allowance to reduce our deferred tax assets to the amount that we believe is more likely than not to be realized. In the event we were to determine that we would be able to realize our deferred tax assets in the future in excess of their recorded amount, an adjustment to the deferred tax asset would increase income in the period such determination was made. Likewise, should we determine that we would not be able to realize all or part of our net deferred tax assets in the future, an adjustment to the valuation allowance would be charged to income in the period such change occurred.

Interest and penalties on income taxes will be classified as a component of the provisions for income taxes.

Goodwill. The excess of the purchase price over the fair value of net assets acquired is recorded on the consolidated balance sheets as goodwill. Goodwill is not amortized but is tested for impairment annually or more frequently if events or changes in circumstances indicate that it might be impaired. We perform our annual goodwill impairment test on October 1 of each fiscal year for all reporting units. Goodwill is tested following a two-step process. The first step compares the fair value of each reporting unit to its carrying amount, including goodwill. If the fair value of each reporting unit exceeds its carrying amount, goodwill is not considered to be impaired and the second step will not be required. If the carrying amount of a reporting unit exceeds its fair value, the second step compares the implied fair value of goodwill to the carrying value of a reporting unit's goodwill. The implied fair value of goodwill is determined in a manner similar to accounting for a business combination with the allocation of the assessed fair value determined in the first step to the assets and liabilities of the reporting unit. The excess of the fair value of the reporting unit over the amounts assigned to the assets and liabilities is the implied fair value of goodwill. An impairment loss is recognized for any excess in the carrying value of goodwill over the implied fair value of goodwill. We recognized no impairment loss on goodwill in the first quarter of 2010 and 2009.

Impairment of long-term and short-term investments. We review our long-term and short-term investments for other-than-temporary impairment in accordance with relevant accounting literature, based on the specific identification method. We consider available quantitative and qualitative evidence in evaluating potential impairment of our investments. If the cost of an investment exceeds the investment's fair value, we consider, among other factors, general market conditions, government economic plans, the duration and the extent to which the fair value of the investment is less than the cost, and our intent and ability to hold the investment. We recognized no impairment loss on long-term or short-term investments in the first quarter of 2010 and 2009.

Consolidated Results of Operations

Revenues. Total revenues were \$63.5 million for the three-month period ended March 31, 2010, representing a 24.5% increase over the year ago period and a 16.8% decrease sequentially. The year-over-year increase was primarily driven by improved profitability through recurring service revenues in our core telecom solutions business. The sequential decrease was mainly due to the seasonality of our Lenovo-AsiaInfo business.

Table of Contents

Software products and solutions revenue was \$57.8 million for the three-month period ended March 31, 2010, representing an increase of 36.1% over the comparable period in 2009 and a 13.4% sequential decrease. The year-over-year increase was mainly due to growth in both our telecommunications software business and our IT security business. The sequential decrease was mainly due to the seasonality of our IT security business. Telecommunications software products and solutions revenue for the three-month period ended March 31, 2010 was \$53.8 million, representing a year-over-year increase of 36.5% and a sequential increase of 2.7%. Those increases were due to strong uptake for our software and service solutions among our top three telecommunications customers with an increasing number of contracts we have entered into to upgrade and maintain their existing systems. Software products and solutions revenue from our IT security business in the three-month period ended March 31, 2010 was \$4.0 million, representing a 30.8% year-over-year increase and a 72.1% sequential decrease. The year-over-year increase was attributed to several major high-margin contracts signed with government agencies. The sequential increase was partially due to seasonality, as sales in our Lenovo-AsiaInfo business unit are typically weakest in the first half of each year.

Service revenue was \$3.9 million in the three-month period ended March 31, 2010, representing a decrease of 21.9% over the comparable period in 2009 and a 27.5% sequential decrease. The decreases were primarily due to the fluctuation in revenue related to our IBM Arrangement related revenue in which we act as a sales agent in connection with sales of IBM equipment to certain of our telecommunications customers. Third-party hardware revenue for the three-month period ended March 31, 2010 was \$1.8 million, representing a year-over-year decrease of 48.9% and a sequential decrease of 56.9%. Third-party hardware revenue has been generally decreasing for many years as we have gradually shifted our focus to our software product solutions business. However, from time to time we offer third-party hardware for certain projects in response to customer requests.

Our Lenovo-AsiaInfo business unit contributed \$4.2 million, approximately 6.7% of our total revenue in the three-month period ended March 31, 2010, including a 6.9% contribution to software products and solutions revenue and a 1.8% contribution to service revenue. Overall, total revenue for our Lenovo-AsiaInfo business unit increased 10.4% over the year-ago period and decrease 71.7% sequentially. Our AsiaInfo Technologies business unit contributed \$59.2 million, approximately 93.3% of our total revenue in the three-month period ended March 31, 2010. Overall, total revenue for the AsiaInfo Technologies business unit increased by 25.6% over the year-ago period and decreased 3.4% sequentially.

During the first quarter, sales to our top three customers, China Mobile, China Unicom and China Telecom, accounted for approximately 93.2% of our total revenue.

Cost of revenues. Our cost of revenues was \$24.5 million in the three-month period ended March 31, 2010, representing an increase of 4.2% over the comparable period in 2009. Cost of revenues in the first quarter decreased 24.2% compared to the preceding quarter. These changes in cost of revenues were in line with the changes in total revenues for the same periods.

Gross profit. Our gross profit margin in the three-month period ended March 31, 2010 was 61.5%, compared to 54.0% in the same period in 2009 and 57.7% in the preceding quarter. The year-over-year increase in gross margin reflected an increase in revenues from higher-margin software solutions and services and a decrease in revenue from lower-margin, third-party hardware sales.

Operating expenses. Our operating expenses in the first quarter of 2010 were \$28.0 million, representing an increase of 31.2% over the comparable period in 2009 and 5.7% sequential decrease.

Sales and marketing expenses were \$10.3 million for the first quarter of 2010, representing a decrease of 2.1% over the comparable period in 2009 and a 17.4% sequential decrease. The year-over-year decreases were mainly due to operational efficiency.

General and administrative expenses were \$8.7 million for the first quarter of 2010, representing an increase of 142.8% over the comparable period in 2009 and an 88.4% sequential increase. The year-over-year and sequential increases were largely the result of non-recurring merger related expenses of \$3.5 million.

Research and development expenses were \$9.0 million for the first quarter of 2010, representing an increase of 24.7% over the comparable period in 2009 and a 28.6% sequential decrease. The research and development expenses are in line with our strategy of continuing to invest in the research and development of world-class products.

Total other income, net. Total other income, including interest income, dividend income, and other income, net, in the first quarter of 2010 was \$0.7 million, representing a decrease of 13.9% over the comparable period in 2009 and a increase of 29.9% over the preceding quarter.

Net income from continuing operations. Net income from continuing operations was \$9.9 million for the first quarter of 2010, representing an increase of 71.5% over the comparable period in 2009 and a decrease of 25.8% sequentially.

Table of Contents

Net income attributable to AsiaInfo Holdings, Inc. Net income attributable to AsiaInfo Holdings, Inc. for the first quarter of 2010 was \$10.3 million, or \$0.22 per basic share, compared to \$5.8 million, or \$0.13 per basic share, for the year-ago period, and \$13.8 million, or \$0.29 per basic share, for the previous quarter.

Liquidity and Capital Resources

Our capital requirements are primarily working capital requirements related to hardware sales and costs associated with the expansion of our business, such as research and development and sales and marketing expenses. We recognize hardware costs in full upon delivery of the hardware to our customers. In order to minimize our working capital requirements, we generally obtain from our hardware vendors payment terms that are timed to permit us to receive payment from our customers for the hardware before our payments to hardware vendors are due. With respect to our billing cycle, we generally require our customers to pay 80% to 90% of the invoice value of the hardware upon delivery. We typically place orders for hardware against back-to-back orders from customers and seek favorable payment terms from hardware vendors. However, we sometimes obtain less favorable payment terms from our customers, thereby increasing our working capital requirements. In addition to this careful management of our billing cycle, we have also historically financed working capital and other capital requirements through private placements of equity securities, our initial public offering in 2000 and, to a limited extent, bank loans.

Our net cash provided by operating activities for the three-month period ended March 31, 2010 was \$3.9 million. This was primarily attributable to our net income of \$9.9 million, adjusted by a net non-cash related expenses of \$4.7 million and a net increase in the components of our working capital of \$10.7 million.

Our accounts receivable balance as of March 31, 2010 was \$117.9 million, consisting of \$45.1 million in billed receivables and \$76.7 million in unbilled receivables. Our billed receivables are recorded based on agreed-upon milestones included in our customer contracts. Our unbilled receivables are based on the revenues that we have booked through the percentage completion method, but for which we have not yet billed the customer. The IBM Arrangement related accounts receivable balance as of March 31, 2010 was approximately \$46.7 million. Our days sales outstanding as of March 31, 2010 was 104 days, as compared to last quarter's 90 days. When calculating our days sales outstanding, we use the net accounts receivable balance for the IBM Arrangement where we act as a sales agent and record revenue on a net basis.

Our inventory position at the end of the first quarter of 2010 was approximately \$9.8 million, as compared to \$9.5 million as of December 31, 2009.

Our accounts payable balance as of March 31, 2010 was approximately \$63.2 million, compared to \$76.0 million as of December 31, 2009. As of March 31, 2010, our accounts payable balance related to the IBM Arrangement was approximately \$50.3 million under which we are contractually obligated to pay our vendor only when China Mobile pays us.

Our net cash used for investing activities for the three-month period ended March 31, 2010 was \$0.2 million. This was primarily due to increase of restricted cash of \$0.2 million.

Our net cash generated from financing activities for the three-month period ended March 31, 2010 was \$3.5 million. This was primarily due to proceeds we received from the exercise of stock options.

As of March 31, 2010, we had cash and cash equivalents and restricted cash totaling \$251.9 million and short-term investments totaling \$41.7 million.

As of March 31, 2010, we had total short-term credit facilities of \$32.0 million for working capital purposes, expiring in March 2011, which were secured by bank deposits of \$5.0 million. As of March 31, 2010, unused short-term credit facilities were \$27.4 million and used facilities totaled \$4.6 million. The used facilities were pledged as security for issuing standby letters of credit and trade notes payable to hardware suppliers and customers. Additional bank deposits of \$0.7 million were used for issuing standby letters of credit and bank acceptance drafts as of March 31, 2010. Total bank deposits pledged as security for these credit facilities totaled \$5.7 million as of March 31, 2010 and are presented as restricted cash in our consolidated balance sheets.

We anticipate that our available funds and cash flows generated from operations will be sufficient to meet our anticipated needs for working capital, capital expenditures and business expansion through 2010. We may need to raise additional funds in the future, however, in order to fund acquisitions, develop new or enhanced services or products, respond to competitive pressures to compete successfully for larger projects involving higher levels of hardware purchases, or if our business otherwise grows more rapidly than we currently predict. We anticipate that we would raise additional funds, if necessary, through new issuances of shares of our equity securities in one or more public offerings or private placements, or through credit facilities extended by lending institutions.

Table of Contents

In the event that we decide to pay dividends to our stockholders, our ability to pay dividends will depend in part on our ability to receive dividends from our operating subsidiaries in China. Foreign exchange and other regulations in China may restrict our ability to distribute retained earnings from our operating subsidiaries in China or convert those payments from RMB into foreign currencies.

Off-Balance Sheet Arrangements

We have not entered into any transactions, agreements or other contractual arrangements to which an entity unconsolidated with us is a party and under which we have (i) any obligation under a guarantee, (ii) any retained or contingent interest in assets transferred to an unconsolidated entity that serves as credit, liquidity or market risk support to such entity, (iii) any obligation under derivative instruments that are indexed to our shares and classified as stockholders' equity in our consolidated balance sheets, or (iv) any obligation arising out of a variable interest in any unconsolidated entity that provides financing, liquidity, market risk or credit support to us or engages in leasing, hedging or research and development services with us.

As of March 31, 2010, we had short-term credit facilities for working capital purposes totaling \$32.0 million, expiring in March 2011, of which \$4.6 million had been used for issuing standby letters of credit and trade notes payable to hardware suppliers and customers. Unused short-term credit facilities were \$27.4 million.

Accounting Pronouncements

(1) Newly Adopted Accounting Pronouncements

In June 2009, the FASB issued an authoritative pronouncement that changes how a company determines whether an entity should be consolidated when such entity is insufficiently capitalized or is not controlled by the company through voting (or similar rights) should be consolidated. The determination of whether a company is required to consolidate an entity is based on, among other things, the entity's purpose and design and the company's ability to direct the activities of the entity that most significantly impact the entity's economic performance. The pronouncement retains the scope of previously issued pronouncement but added entities previously considered qualifying special purpose entities, since the concept of these entities was eliminated by FASB. The pronouncement is effective as of the beginning of the first fiscal year that begins after November 15, 2009. The adoption of this pronouncement did not have a significant impact on our consolidated financial condition or results of operations.

In January 2010, the FASB issued authoritative guidance to improve disclosures about fair value measurements. This guidance amends previous guidance on fair value measurements to add new requirements for disclosures about transfers into and out of Levels 1 and 2 and separate disclosures about purchases, sales, issuances, and settlements relating to Level 3 measurement on a gross basis rather than on a net basis as currently required. This guidance also clarifies existing fair value disclosures about the level of disaggregation and about inputs and valuation techniques used to measure fair value. This guidance is effective for annual and interim periods beginning after December 15, 2009, except for the requirement to provide the Level 3 activities of purchases, sales, issuances, and settlements on a gross basis, which will be effective for annual and interim periods beginning after December 15, 2010. Early application is permitted and, in the period of initial adoption, entities are not required to provide the amended disclosures for any previous periods presented for comparative purposes. The adoption of this pronouncement did not have a significant impact on our financial condition or results of operations.

(2) Recently Issued Accounting Pronouncements Not Yet Adopted

In September 2009, the FASB issued an authoritative pronouncement regarding revenue arrangements with multiple deliverables. This pronouncement was issued in response to practice concerns related to accounting for revenue arrangements with multiple deliverables under the existing pronouncement. Although the new pronouncement retains the criteria from the existing pronouncement for when delivered items in a multiple-deliverable arrangement should be considered separate units of accounting, it removes the separation criterion under the existing pronouncement that objective and reliable evidence of the fair value of any undelivered items must exist for the delivered items to be considered a separate unit or separate units of accounting. The new pronouncement is effective for fiscal years beginning on or after June 15, 2010. Entities can elect to apply this pronouncement prospectively to new or materially modified arrangements after the pronouncement's effective date or retrospectively for all periods presented. Early application is permitted; however, if the entity elects prospective application and early adopts this pronouncement after its first interim reporting period, it must retrospectively apply this pronouncement as of the beginning of that fiscal year and disclose the effect of the retrospective adjustments on the prior interim periods' revenue, income before taxes, net income, and earnings per share. We are in the process of evaluating the effect of adoption of this pronouncement.

Table of Contents

In September 2009, the FASB issued an authoritative pronouncement regarding software revenue recognition for arrangements with multiple deliverables. This pronouncement addresses how consideration should be allocated to different units of accounting and removes the previous criterion that entities must use objective and reliable evidence of fair value in separately accounting for deliverables. The pronouncement provides that products containing both software and non-software components that function together to deliver the product's essential functionality are excluded from the scope of current revenue recognition guidance for software products. The pronouncement includes factors that entities should consider when determining whether the software and non-software components function together to deliver the product's essential functionality. The pronouncement is effective for fiscal years beginning on or after June 15, 2010. Entities can elect to apply this pronouncement prospectively to new or materially modified arrangements after the pronouncement's effective date or retrospectively for all periods presented. Early application is permitted. However, if the entity elects prospective application and early adopts this pronouncement after its first interim reporting period, it must also retrospectively apply this pronouncement as of the beginning of that fiscal year and disclose the effect of the retrospective adjustments on the prior interim periods' revenue, income before taxes, net income, and earnings per share. We are in the process of evaluating the effect of adoption of this pronouncement.

In April 2010, the FASB issued an authoritative pronouncement regarding the milestone method of revenue recognition. The scope of this pronouncement is limited to arrangements that include milestones relating to research or development deliverables. The pronouncement specifies criteria that must be met for a vendor to recognize consideration that is contingent upon achievement of a substantive milestone in its entirety in the period in which the milestone is achieved. The criteria apply to milestones in arrangements within the scope of this pronouncement regardless of whether the arrangement is determined to have single or multiple deliverables or units of accounting. The pronouncement will be effective for fiscal years, and interim periods within those years, beginning on or after June 15, 2010. Early application is permitted. Companies can apply this guidance prospectively to milestones achieved after adoption. However, retrospective application to all prior periods is also permitted. We are in the process of evaluating the effect of adoption of this pronouncement.

In March 2010, FASB issued an authoritative pronouncement regarding the effect of denominating the exercise price of a share-based payment awards in the currency of the market in which the underlying equity securities trades and that currency is different from (1) entity's functional currency, (2) functional currency of the foreign operation for which the employee provides services, and (3) payroll currency of the employee. The guidance clarifies that an employee share-based payment award with an exercise price denominated in the currency of a market in which a substantial portion of the entity's equity securities trades should be considered an equity award assuming all other criteria for equity classification are met. The pronouncement will be effective for interim and annual periods beginning on or after December 15, 2010, and will be applied prospectively. Affected entities will be required to record a cumulative catch-up adjustment for all awards outstanding as of the beginning of the annual period in which the guidance is adopted. We are in the process of evaluating the effect of adoption of this pronouncement.

For information concerning certain risks that may affect our operating results and the value of our common stock, please see the factors discussed under the heading of "Risk Factors" in Part II, Other Information below and in the other reports we file with the SEC from time to time.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to interest rate risk primarily associated with our cash and short-term investments. To date, we have not entered into any types of derivatives to hedge against interest-rate changes. There have been no significant changes in our exposure to changes in interest rates for the quarter ended March 31, 2010. Our exposure to interest rate changes is limited as we do not have any material borrowings.

We are exposed to exchange rate risk in connection with the relative value of the U.S. dollar and the RMB. Substantially all of our revenues and expenses relating to the service and software components of our business are denominated in RMB. As of March 31, 2010, approximately 61.9%, or \$155.9 million of our cash, cash equivalent and restricted cash were RMB-denominated and approximately 38.1%, or \$96.0 million, were U.S. dollar-denominated. As of that date, the rate of exchange quoted by the People's Bank of China was US\$1.00 = RMB6.8263. If the exchange rate were to increase by 10% to US\$1.00 = RMB7.5089, our net assets would potentially decrease by \$20.0 million. If the exchange rate were to decrease by 10% to US\$1.00 = RMB6.1437, our net assets would potentially increase by \$24.4 million.

Table of Contents

The value of our shares may be affected by the foreign exchange rate between U.S. dollars and RMB because the value of our business is effectively denominated in RMB, while our shares are traded in U.S. dollars. Furthermore, an increase in the value of the RMB may require us to exchange more U.S. dollars into RMB to meet the working capital requirements of our subsidiaries and VIEs in China. Depreciation of the value of the U.S. dollar will also reduce the value of the cash we hold in U.S. dollars, which we may use for purposes of future acquisitions or business expansion. We actively monitor our exposure to these risks and adjust our cash position in the RMB and the U.S. dollar when we believe such adjustments will reduce our foreign exchange risk. For example, in February 2004 we exchanged approximately \$28 million cash in U.S. dollars into RMB in anticipation of increases in the value of the RMB. We did not engage in any significant foreign exchange transactions during the three-month period ended March 31, 2010.

As in any other business, we are subject to the risk of macroeconomic changes such as recessions and inflation.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rule 13a-15 under the Exchange Act, as of the end of the period covered by this report. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures are effective.

Changes in Internal Control over Financial Reporting

There have not been any changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the quarter ended March 31, 2010, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

In December 2001, a securities class action case was filed in New York City against us, certain of our officers and directors and the underwriters of our initial public offering, or our IPO. The lawsuit alleged violations of the U.S. federal securities laws and was docketed in the U.S. District Court for the Southern District of New York as *Hassan v. AsiaInfo Holdings, Inc., et al.* The lawsuit alleged, among other things, that the underwriters of our IPO improperly required their customers to pay the underwriters excessive commissions and to agree to buy additional shares of our common stock in the aftermarket as conditions of their purchasing shares in our IPO. The lawsuit further claimed that the alleged practices of the underwriters should have been disclosed in our IPO prospectus and registration statement. The suit seeks rescission of the plaintiffs' alleged purchases of our common stock as well as unspecified damages. In addition to the case against us, various other plaintiffs have filed approximately 1,000 other, substantially similar class action cases, or the IPO Allocation Cases, against approximately 300 other publicly traded companies and their IPO underwriters in New York City, which along with the case against us have all been transferred to a single federal district judge for purposes of case management.

In April 2009, we and most of the other issuer defendants in the IPO Allocation Cases reached a definitive agreement with the plaintiffs and the underwriter defendants to settle the IPO Allocation Cases. The agreement was filed with the court in April 2009 and a final approval was granted by the court in October 2009. The final approval was subject to appeal until November 2009. Several objectors filed timely appeals and those appeals remain pending. If the settlement is approved, we expect any damages payable to the plaintiffs to be fully funded by our directors' and officers' liability insurance policies. If the litigation proceeds, we intend to continue to defend the litigation vigorously. Moreover, if the litigation proceeds, we believe that the underwriters may have an obligation to indemnify us for the legal fees and other costs of defending this suit and that our directors' and officers' liability insurance policies would also cover the defense and potential exposure in the suit.

Table of Contents

In addition, in June 2007 we received a letter from a putative stockholder demanding that we investigate and prosecute a claim for alleged short-swing trading in violation of Section 16(b) of the Exchange Act by the underwriters of our IPO and certain of our unidentified directors, officers and stockholders. In October 2007, the putative stockholder commenced a civil lawsuit in the U.S. District Court for the Western District of Washington against Morgan Stanley and Deutsche Bank, two of the lead underwriters of our IPO, alleging violations of Section 16(b) of the Exchange Act. The complaint alleges that the combined number of shares of our common stock beneficially owned by the lead underwriters and certain unnamed officers, directors and principal stockholders exceeded ten percent of our outstanding common stock from the date of our IPO in March 2000, for at least one year. It further alleges that those entities and individuals were thus subject to the reporting requirements of Section 16(a) and the short-swing trading prohibition of Section 16(b), and failed to comply with those provisions. The complaint seeks to recover from the lead underwriters any short-swing profits obtained by them in violation of Section 16(b). None of our directors, officers or stockholders is named as defendants in this action, although we are named as a nominal defendant. In July 2008, we, together with several other issuers who are also named as nominal defendants in the action, filed a joint motion to dismiss the action. In March 2009, the court granted our motion, dismissing the complaint without prejudice on the ground that the plaintiff failed to make an adequate demand to us prior to filing the complaint. The plaintiff subsequently appealed the judgment to the Court of Appeals for the Ninth Circuit, and the underwriter defendants have filed certain cross-appeals. Briefing with respect to these appeals concluded in November 2009 and the appeals remain pending.

We intend to continue to defend vigorously the two litigation matters described above. While we cannot guarantee the outcome of these proceedings, we believe that the final results of these lawsuits will have no material effect on our consolidated financial condition, results of operations, or cash flows.

During the fiscal quarter ended December 31, 2009, we did not have any other material legal proceedings brought against us. No further material developments occurred in connection with any previously reported legal proceedings against us during the last fiscal quarter.

ITEM 1A. RISK FACTORS

Set forth below are the risk factors we have revised from those appearing in Part I, Item 1A of our Annual Report on Form 10-K for the fiscal year ended December 31, 2009, filed with the SEC on March 16, 2010 and amended on April 30, 2010. In addition to the other information set forth in this Form 10-Q, you should carefully consider the factors discussed under the heading **Risk Factors** in our 2009 Form 10-K for the fiscal year ended December 31, 2009 as amended, as well as information in our other reports filed with the SEC from time to time. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.

Regulations relating to acquisitions of Chinese companies by foreign entities may limit our ability to acquire Chinese companies and adversely affect the implementation of our acquisition strategy and any failure by our stockholders who are Chinese residents to make or obtain any required registrations pursuant to such regulations may subject us to legal sanctions.

In October 2005, the PRC State Administration of Foreign Exchange, or SAFE, issued a notice, known as **Circular 75**, which sets forth a regulatory framework for acquisitions of PRC businesses involving offshore companies owned by PRC residents or passport holders, known as **round-trip** investments or acquisitions. Among other things, **Circular 75** provides that if a round-trip investment in a PRC company by an offshore company controlled by PRC residents occurred prior to the issuance of **Circular 75**, certain PRC residents were required to submit a registration form to the local SAFE branch to register their ownership interests in the offshore company prior to March 31, 2006. **Circular 75** also provides that, prior to establishing or assuming control of an offshore company for the purpose of obtaining financing for that offshore company using the assets or equity interests in an onshore enterprise in the PRC, each PRC resident or passport holder who is an ultimate controller of such offshore company, whether an individual or a legal entity, must complete the overseas investment foreign exchange registration procedures with the relevant local SAFE branch. Such PRC residents must also amend the registration form if there is a material event affecting the offshore company, such as, among other things, a change in share capital, a transfer of shares, or if such company is involved in a merger, acquisition or spin-off transaction or uses its assets in China to guarantee offshore obligations. In May 2007, SAFE issued guidance to its local branches with respect to the operational process for SAFE registration, known as **Circular 106**, which standardized registration under **Circular 75**. In the past, we have acquired a number of assets from, or equity interests in, PRC companies. However, there is substantial uncertainty as to whether we would be considered an **offshore company** for purposes of **Circular 75**, and, at present, it is unclear whether **Circular 75** requires a company such as ours to register. We have in any event requested our stockholders who are PRC residents to make the necessary applications, filings and amendments as required under **Circular 75** and other related regulations. We will attempt to comply, and attempt to ensure that all of our stockholders subject to these rules comply, with the relevant requirements. However, all of our PRC-resident stockholders may not comply with such requirements. Any failure to comply with the relevant requirements could subject us to fines or sanctions imposed by the PRC government, including restrictions on certain of our subsidiaries' ability to pay dividends to us and our ability to increase our investment in those subsidiaries.

Table of Contents

Circular 75, Circular 106 and related regulations are relatively new and it is uncertain how these regulations will be interpreted, implemented or enforced. We cannot predict how these regulations will affect our future acquisition strategies and business operations. For example, if we decide to acquire additional PRC companies, we or the owners of such companies may not be able to complete the filings and registrations, if any, required by Circular 75, Circular 106 and related regulations. Under Circular 75, failure to comply with the registration procedures set forth thereunder may result in the imposition of restrictions on the foreign exchange activities of the relevant onshore company, including the payment of dividends and other distributions to its offshore parent or affiliate and the capital inflow from the offshore entity, and may also subject relevant PRC residents to penalties under PRC foreign exchange administration regulations. Any such restrictions or penalties may restrict our ability to implement an acquisition strategy and could adversely affect our business and prospects.

In August 2006, six PRC regulatory authorities, including the PRC Ministry of Commerce, or MOFCOM and the China Securities Regulatory Commission, or CSRC, jointly promulgated the Regulations on Mergers and Acquisitions of Domestic Enterprises by Foreign Investors, or the M&A Rules, which became effective in September 2006 and were subsequently amended in June 2009 by MOFCOM. The M&A Rules established additional procedures and requirements that make merger and acquisition activities by foreign investors more time-consuming and complex, including, in some circumstances, advance notice to MOFCOM of any change-of-control transaction in which a foreign investor takes control of a PRC domestic enterprise. Compliance with the M&A Rules, and any related approval processes, including obtaining approval from MOFCOM, may delay or inhibit our ability to complete acquisitions of domestic PRC companies, which could affect our ability to expand our business or maintain our market share.

Furthermore, in August 2008, SAFE issued a notice, known as Circular 142, regulating the conversion by a foreign-invested company of foreign currency into RMB by restricting the uses for the converted RMB. Circular 142 requires that the registered capital of a foreign-invested company denominated in RMB but converted from a foreign currency may only be used pursuant to the purposes set forth in the foreign-invested company's business scope as approved by the applicable governmental authority. Such registered capital may not be used for equity investments within the PRC. In addition, SAFE strengthened its oversight of the flow and use of the registered capital of a foreign-invested company that was denominated in RMB but converted from foreign currency. The use of such registered capital may not be changed without SAFE's approval, and may not in any case be used to repay RMB loans if the proceeds of such loans have not been used. Violations of Circular 142 may result in severe penalties, including significant fines. As a result, Circular 142 may significantly limit our ability to invest in or acquire other PRC companies using the RMB-denominated capital of our PRC subsidiaries.

In December 2009, the PRC State Administration for Taxation issued a notice, known as Circular 698, addressing PRC income tax issues in connection with transfers of equity by a non-PRC resident enterprise that directly or indirectly holds an interest in a PRC resident enterprise. Circular 698 requires certain tax filings with, and the submission of comprehensive information to, the applicable tax authorities regarding the transfer, which must be made by the seller within 30 days of entering into the agreement or receiving consideration in connection with the sale. The filings and submissions are designed to assist the taxing authorities in evaluating whether the transfer has a reasonable business purpose. If the transfer does not have a reasonable business purpose, Circular 698 provides that the seller is subject to PRC income tax on the gains received from the transfer of PRC resident enterprise. Although the tax obligations generally apply to the seller, the PRC resident enterprise that is transferred is also subject to certain requirements to assist the PRC tax authorities in collecting the taxes. Circular 698 is new, has no implementing regulations, and it is uncertain how it will be interpreted, implemented or enforced. For example, there is no clear guidance regarding what constitutes a reasonable business purpose or the assistance obligation applicable to the transferred PRC resident enterprise. We cannot predict how Circular 698 will affect our future acquisition strategies and business operations. For example, if we acquire a PRC resident enterprise through the acquisition of an offshore holding company, the PRC resident enterprise we acquire may have broad and uncertain obligations to assist the PRC tax authorities in collecting tax from the seller. Similarly, if we sell one of our PRC resident enterprises owned through an offshore holding company, we may face comprehensive filing obligations that could delay the transaction, significant taxes, potential sanctions or other enforcement action, or other adverse considerations, which could have an adverse impact on our ability to consummate such a transaction or expand our business and market share.

We are subject to potential liabilities and anticipate recurring costs in complying with the Sarbanes-Oxley Act.

We are subject to the Sarbanes-Oxley Act of 2002, or the Act. Among other things, the Act imposes corporate governance, reporting, and disclosure requirements; introduces stricter independence and financial expertise standards for audit committees; and sets stiff penalties for securities fraud. The Act and the related rules and regulations have increased the scope, complexity and costs of our corporate governance, reporting, and disclosure practices, and may increase the risk of personal liability for our directors, chief executive officer, and chief financial officer. Any such liabilities may adversely affect our reputation, our business, or our ability to meet listing criteria.

Table of Contents

Section 404 of the Act requires our management and our independent registered public accounting firm to assess our internal controls over financial reporting on an annual basis. During the course of this evaluation, documentation and attestation, we may identify deficiencies that we may not be able to remedy. If we fail to maintain the adequacy of our internal controls, we may not be able to conclude that we have effective internal controls, on an ongoing basis, over financial reporting in accordance with the Act. Moreover, effective internal controls over financial reporting, particularly those related to revenue recognition, are necessary for us to produce reliable financial reports and are important to help prevent or detect fraud. Any failure to maintain effective internal controls over financial reporting could result in the loss of investor confidence in the reliability of our financial statements, which in turn could harm our business and negatively impact the trading price of our common stock.

Uncertainty about the completion of the Combination with Linkage Technologies and diversion of management attention before the completion of the Combination could harm us, whether or not the Combination is completed.

On December 4, 2009, we executed the Combination Agreement to combine our business with the business of Linkage Cayman through our acquisition of 100% of the outstanding share capital of Linkage Technologies. In response to the announcement of the Combination, our existing or prospective customers may delay or defer their purchasing or other decisions concerning us, or they may seek to change their existing business relationship. In addition, as a result of the announcement, current and prospective employees could experience uncertainty about their future with the combined company, and we could lose key employees as a result. In addition to retention, these uncertainties may also impair our ability to recruit or motivate key personnel. Completing the Combination will also require a significant amount of time and attention from management. The diversion of management attention away from ongoing operations could adversely affect ongoing operations and business relationships.

Any delay in completion of the Combination with Linkage Technologies may significantly reduce the benefits expected to be obtained from the Combination.

In addition to any required regulatory approvals, the Combination is subject to a number of other conditions beyond the control of us and Linkage Cayman that may prevent delay or otherwise materially adversely affect completion of the Combination. These conditions may not be satisfied on a timely basis, if at all. Further, obtaining any required clearances or approvals could delay the completion of the Combination for a significant period of time or prevent it from occurring. Any delay in completing the Combination may significantly reduce the benefits that we expect to achieve if we successfully complete the Combination with Linkage Technologies within the expected timeframe and integrate the business of Linkage Technologies with our business.

Integrating the combined company will divert management's attention and resources, and the anticipated benefits of the Combination with Linkage Technologies, including anticipated cost savings, may not be realized fully or at all or may take longer to realize than expected.

The Combination involves the integration of two companies that have previously operated independently with principal offices in two distinct locations. We will be required to devote significant management attention and resources to integrating the two companies. In the process of integration, the combined company may face difficulties in retaining customers and personnel. If we fail to successfully integrate Linkage Technologies, its revenues growth and business could be negatively affected.

Moreover, even if we are able to integrate Linkage Technologies' business operations successfully, this integration may not result in the realization of the full benefits of synergies, cost savings, innovation and operational efficiencies that may be possible from this integration. Moreover, these benefits may not be achieved within a reasonable period of time, if at all.

Additionally, as a condition to their approval of the Combination, regulatory agencies may impose requirements, limitations or costs or require divestitures or place restrictions on the conduct of the combined company's business. If we and Linkage Cayman were to agree to these requirements, limitations, costs, divestitures or restrictions, the ability to realize the anticipated benefits of the Combination may be impaired.
