**Acquisitions of Carso Global Telecom and Telmex Internacional**

On June 16, 2010, we completed two separate but concurrent acquisitions (together, the Acquisitions):

We acquired 99.44% of the outstanding shares of Carso Global Telecom, S.A.B. de C.V. (CGT) and the related acquisition, the CGT Acquisition) in exchange for América Móvil Series L Shares (AMX L Shares). The CGT Acquisition was made by means of a public exchange offer.

We acquired 93.56% of the outstanding Series L Shares (TII L Shares) and Series A Shares (TII A Shares) of Telmex Internacional, S.A.B. de C.V. (Telmex Internacional), directly, in exchange for cash and AMX L Shares (the TII Acquisition) and, indirectly, through the CGT Acquisition. The TII Acquisition was made by means of a public tender offer and exchange offer, in which holders of TII L Shares and TII A Shares elected whether to receive cash or AMX L Shares.

Telmex Internacional provides a wide range of telecommunications services in Brazil, Colombia and other countries in Latin America. CGT is a holding company with controlling interests in Telmex Internacional and Teléfonos de México, S.A.B. de C.V. (Telmex), a leading Mexican telecommunications provider. We believe that the Acquisitions will enable us to achieve synergies between our business and that of Telmex Internacional.

Of the TII A Shares and TII L Shares (including shares represented by American Depositary Shares, or ADSs) tendered, cash elections were made with respect to approximately 2,297 million shares. On June 16, 2010, we paid approximately Ps.26,784 million (equivalent to approximately U.S.\$2,126 million, based on the June 16, 2010 exchange rate of Ps.12.5974 to U.S.\$1.00) to tendering shareholders of Telmex Internacional who elected to receive cash, and we issued approximately 1,349 million AMX L Shares (including AMX L Shares represented by ADSs) to tendering shareholders of Telmex Internacional who elected to receive shares. Tendering holders of Telmex Internacional ADSs are expected to receive cash or AMX L Shares in the form of ADSs on June 18, 2010. We also issued approximately 7,089 million AMX L Shares (including AMX L Shares represented by ADSs) to tendering shareholders of CGT.

As a result of the Acquisitions, América Móvil had 40,546,724,182 shares of capital stock outstanding as of June 16, 2010.

**RISK FACTORS**

*The following risk factors should be read together with the risk factors discussed under **Risk Factors** in the accompanying prospectus and **Item 3 Risk Factors** in the América Móvil 2009 Form 20-F incorporated by reference herein. You should carefully consider these risk factors as well as the other information included or incorporated by reference in this prospectus supplement and the accompanying prospectus before investing in the notes.*

**Risk Factors Relating to the Notes**

***Creditors of our subsidiaries will have priority over the holders of the notes in claims to assets of our subsidiaries other than Telcel (including Telmex Internacional, CGT, Telmex and their respective subsidiaries)***

The notes will be our obligations and will be guaranteed by Telcel. We conduct substantially all of our business and hold substantially all of our assets through our subsidiaries. Creditors of our subsidiaries other than Telcel, including trade creditors and bank and other lenders, will have priority over the holders of the notes in claims to assets of our subsidiaries other than Telcel. As of March 31, 2010 our operating subsidiaries other than Telcel had indebtedness of Ps.16,297 million (U.S.\$1,308 million) under IFRS. Telmex Internacional, CGT and Telmex, and their respective subsidiaries, which became our consolidated subsidiaries upon completion of the Acquisitions, also have substantial indebtedness. However, our creditors, including holders of the notes, will not have any claim against the assets of our subsidiaries other than Telcel (including Telmex Internacional, CGT, Telmex and their respective subsidiaries). Our ability to meet our obligations, including under the notes, will depend, in significant part, on our receipt of cash dividends, advances and other payments from our subsidiaries.

***Telcel's guarantees of the notes may not be enforceable in the event of a bankruptcy of Telcel***

Telcel's guarantees of the notes provide a basis for a direct claim against Telcel; however, it is possible that the guarantees may not be enforceable. While Mexican law does not prohibit the giving of a guarantee and, as a result, does not prevent Telcel's guarantees from being valid, binding and enforceable against Telcel, in the event Telcel is declared bankrupt or becomes subject to *concurso mercantil* (bankruptcy reorganization), the guarantees may be deemed to have been a fraudulent transfer and declared void, if it is determined that Telcel did not receive adequate consideration in exchange for the guarantees. If the guarantees become unenforceable, the notes will effectively be subordinated to all liabilities, including trade payables, of Telcel. As of March 31, 2010, Telcel had, on an unconsolidated basis, unsecured and unsubordinated indebtedness and guarantees of parent company and subsidiary indebtedness of approximately Ps.164,116 million (U.S.\$13,167 million) under IFRS.

**Risk Factors Relating to the Acquisitions**

***Our consolidated indebtedness has increased substantially as a result of the Acquisitions***

Our consolidated indebtedness has increased as a result of the Acquisitions. As of March 31, 2010, we had, on an unconsolidated basis (parent company only), unsecured and unsubordinated indebtedness and guarantees of subsidiary indebtedness of approximately Ps.169,107 million (U.S.\$13,569 million) under IFRS. In addition, as of March 31, 2010, CGT's indebtedness was approximately Ps.28,171 million (U.S.\$2,260 million) (excluding the indebtedness of CGT's consolidated subsidiaries Telmex Internacional and Telmex), Telmex Internacional's indebtedness was approximately Ps.31,970 million (U.S.\$2,565 million) and Telmex's indebtedness was approximately Ps.83,893 million (U.S.\$6,731 million), in each case under Mexican FRS. The indebtedness of CGT, Telmex Internacional and Telmex will be consolidated in our financial statements for future periods with our consolidated indebtedness. See **Acquisitions of Telmex Internacional and Carso Global Telecom** in this prospectus supplement.

**Table of Contents**

***Our ability to complete any post-Acquisitions reorganization of the combined company will be constrained by the continuing minority share ownership in Telmex Internacional, which could reduce or delay the cost savings or revenue benefits to the combined company***

Following the completion of the Acquisitions, we directly and indirectly own 93.56% of the shares of Telmex Internacional. Under Mexican law, we will not be in a position to cause the delisting of the shares of Telmex Internacional from the Mexican Stock Exchange and deregistration of such shares from the National Securities Registry (*Registro Nacional de Valores*) maintained by the CNBV until, among other things, we hold at least 95% of the issued and outstanding shares of Telmex Internacional (the level of shareholder approval required for delisting and deregistration under Mexican law).

The presence of minority shareholders at Telmex Internacional, and the continuing listing and registration of Telmex Internacional in Mexico, will generate additional expenses and may result in administrative inefficiencies. We will also be required to maintain separate audit and corporate practices committees at the boards of directors of América Móvil and Telmex Internacional, and we will be subject to separate reporting requirements with the Mexican Stock Exchange and the CNBV. In addition, transactions between Telmex Internacional and us may be subject to additional requirements under Mexican law, which may limit our ability to achieve certain savings and to conduct the joint operations as a single business unit in order to achieve our strategic objectives, such as effecting certain changes in the corporate structure of Telmex Internacional and its subsidiaries that could result in significant benefits to the combined company. As a result, it may be more difficult to effect any post-closing changes in corporate structure or to realize desired cost synergies and revenue benefits for the combined company from the Acquisitions.

***We may fail to realize the business growth opportunities, revenue benefits, cost savings and other benefits anticipated from, or may incur unanticipated costs associated with, the Acquisitions, and our results of operations and financial condition may suffer***

Our acquisition of Telmex Internacional may not achieve the business growth opportunities, revenue benefits, cost savings and other benefits that we anticipated from the TII Acquisition. We believe the TII Acquisition consideration is justified by these benefits we expect to achieve by combining our operations with those of Telmex Internacional. However, these benefits may not be realized and other assumptions upon which the TII Acquisition consideration was determined may prove to be incorrect.

We may be unable to implement fully our business plans and strategies for the combined company due to regulatory limitations. Each of América Móvil and Telmex Internacional is subject to extensive government regulation, and we may face regulatory restrictions in our provision of combined services in some countries in which we operate. For example, in Brazil, América Móvil's and Telmex Internacional's businesses are regulated by the Brazilian National Telecommunications Agency, or Anatel. Pending regulations by Anatel, which focus on economic groups with significant market powers, will impose new cost-based methodologies for determining interconnection fees charged by operators in Brazil. We cannot predict whether Anatel would impose specific regulations that would affect our combined operations more adversely than they would affect the prior individual operations. In Mexico, América Móvil is part of an industry-wide investigation by the Federal Economic Competition Commission (*Comisión Federal de Competencia Económica*, or Cofeco) to determine whether any operators possess substantial market power or engage in certain monopolistic practices in certain segments of the Mexican telecommunications market. CGT is the direct holder of approximately 59.4% of the outstanding capital stock of Telmex, and we acquired a controlling interest in Telmex through the CGT Acquisition. As a result of those investigations, Telmex and América Móvil have previously been found to have substantial power in certain markets in Mexico. We cannot predict whether Cofeco or other governmental entities would renew or revise its investigations to take into account the combined businesses.

Under any of these circumstances, the business growth opportunities, revenue benefits, cost savings and other benefits anticipated by us to result from the Acquisitions may not be achieved as expected, or at all, or may be delayed. To the extent that we incur higher integration costs or achieve lower revenue benefits or fewer cost savings than expected, our results of operations and financial condition may be materially and adversely affected.

**Risk Factors Relating to the Transition to IFRS**

***Our financial information prepared under IFRS is preliminary and subject to change***

We will be reporting under IFRS for the year ended December 31, 2010, with an official IFRS adoption date as of December 31, 2010. Our first quarter 2010 unaudited condensed consolidated financial information incorporated by reference and presented in this prospectus supplement has been prepared in accordance with IFRS that are currently in effect, which might be different from those that will be in effect as of the December 31, 2010 adoption date. Accordingly, our first quarter 2010 unaudited condensed consolidated financial information is preliminary and subject to change.

***Our financial information prepared under IFRS is not comparable to our financial information prepared under Mexican FRS***

Our first quarter 2010 unaudited condensed consolidated financial information incorporated by reference and presented in this prospectus supplement has been prepared in accordance with IFRS. IFRS differs in certain significant respects from Mexican FRS and U.S. GAAP. An analysis of the main adjustments and reclassifications made by us in order to restate in accordance with IFRS our financial information previously reported under Mexican FRS as of March 31, 2009 and December 31, 2009 and for the three-month period ended March 31, 2009 and the year ended December 31, 2009 is set forth in Note 2(c) to our unaudited interim condensed consolidated financial statements incorporated by reference in this prospectus supplement. As a result, our first quarter 2010 unaudited condensed consolidated financial information is not comparable to our financial information as of and for the year ended December 31, 2009 prepared under Mexican FRS.

**ACQUISITIONS OF CARSO GLOBAL TELECOM AND TELMEX INTERNACIONAL**

On June 16, 2010, we completed the Acquisitions as follows:

*The CGT Acquisition.* We acquired 99.44% of the outstanding shares of CGT in exchange for AMX L Shares. The CGT Acquisition was made by means of a public exchange offer.

*The TII Acquisition.* We acquired 93.56% of the outstanding TII L Shares and TII A Shares directly, in exchange for cash and AMX L Shares and, indirectly, through the CGT Acquisition. The TII Acquisition was made by means of a public tender offer and exchange offer, in which holders of TII L Shares and TII A Shares elected whether to receive cash or AMX L Shares.

Telmex Internacional provides a wide range of telecommunications services in Brazil, Colombia and other countries in Latin America. CGT is a holding company with controlling interests in Telmex Internacional and Telmex, a leading Mexican telecommunications provider. We believe that the Acquisitions will enable us to achieve synergies between our business and that of Telmex Internacional.

Of the TII A Shares and TII L Shares (including shares represented by ADSs) tendered, cash elections were made with respect to approximately 2,297 million shares. On June 16, 2010, we paid approximately Ps.26,784 million (equivalent to approximately U.S.\$2,126 million, based on the June 16, 2010 exchange rate of Ps.12.5974 to U.S.\$1.00) to tendering shareholders of Telmex Internacional who elected to receive cash, and we issued approximately 1,349 million AMX L Shares (including AMX L Shares represented by ADSs) to tendering shareholders of Telmex Internacional who elected to receive shares. Tendering holders of Telmex Internacional ADSs are expected to receive cash or AMX L Shares in the form of ADSs on June 18, 2010. We also issued approximately 7,089 million AMX L Shares (including AMX L Shares represented by ADSs) to tendering shareholders of CGT.

As a result of the Acquisitions, América Móvil had 40,546,724,182 shares of capital stock outstanding as of June 16, 2010.

**Carso Global Telecom**

CGT is a holding company the principal assets of which consist of shares of Telmex Internacional and shares of Telmex. Based on beneficial ownership reports filed with the SEC, CGT holds, directly or indirectly, 48.7% of the outstanding Telmex Series L Shares ( TMX L Shares ), 23.3% of the outstanding Telmex Series A Shares ( TMX A Shares ) and 73.9% of the outstanding Telmex Series AA Shares ( TMX AA Shares ) (in the aggregate, 59.4% of all outstanding shares of Telmex). As of February 28, 2010, CGT owned 50.9% of the outstanding TII L Shares, 23.3% of the outstanding TII A Shares and 73.9% of Telmex Internacional 's outstanding series AA shares (in the aggregate, 60.7% of all outstanding shares of Telmex Internacional). These figures take into account certain forward share purchase transactions between CGT and certain financial institutions pursuant to which CGT is obligated to purchase and the financial institutions are obligated to sell TII L Shares or TMX L Shares at fixed prices. Without taking into account the TII L Shares subject to the forward share purchase transactions, CGT owned 32.0% of the outstanding Series L shares of Telmex (in the aggregate, 50.5% of all outstanding shares of Telmex) and 33.3% of the outstanding TII L Shares (in the aggregate, 51.4% of all outstanding shares of Telmex Internacional).

As of March 31, 2010, CGT 's indebtedness was Ps.28,171 million (U.S.\$2,260 million), excluding the indebtedness of its consolidated subsidiaries Telmex and Telmex Internacional.

**Telmex Internacional**

Telmex Internacional is a Mexican holding company, providing through its subsidiaries in Brazil, Colombia, Argentina, Chile, Peru and Ecuador, a wide range of telecommunications services. These services include voice, data and video transmission, Internet access and integrated telecommunications solutions; pay cable and satellite television; and print and Internet-based yellow pages directories in Mexico, the United States, Argentina, Peru and Colombia.

## Table of Contents

Telmex Internacional's principal business is in Brazil, which accounts for nearly 80% of its total revenues. Telmex Internacional operates in Brazil through Embratel Participações S.A. and its subsidiaries. We refer to Embratel Participações S.A. and, where the context requires, its consolidated subsidiaries as Embratel.

The following is a summary of Telmex Internacional's business by geographic market:

*Brazil.* Through Embratel, Telmex Internacional is one of the leading providers of telecommunications services in Brazil. Its principal service offerings in Brazil include domestic and international long-distance, local telephone service, data transmission, direct-to-home (DTH) satellite television services and other communications services, though Embratel is evolving from being a long-distance revenue-based company to being an integrated telecommunications provider. Through Embratel's high-speed data network, Telmex Internacional offers a broad array of products and services to a substantial number of Brazil's 500 largest corporations. In addition, through Embratel's partnership in Net Serviços de Comunicação S.A., the largest cable television operator in Brazil with a network that passes approximately 10.8 million homes, Telmex Internacional offers triple play services in Brazil.

*Colombia.* Telmex Internacional operates in Colombia through Telmex Colombia S.A. and several cable television subsidiaries that Telmex Internacional has acquired beginning in October 2006, with a network that passes 4.9 million homes. Telmex Internacional offers pay television, data solutions, access to the Internet and voice services. Telmex Internacional also bundles these services through double and triple play offerings.

*Argentina.* In Argentina, Telmex Internacional provides data transmission, Internet access and local and long-distance voice services to corporate and residential customers, data administration and hosting through two data centers and a yellow pages directory in print and on the Internet. Modular Internet and telephone access through WiMax in the 3.5 GHz frequency and GPON technologies is in the process of being deployed to service small- to medium-sized businesses.

*Chile.* In Chile, Telmex Internacional provides to small- and medium-sized businesses, as well as to larger corporate customers, data transmission, long-distance and local telephony, private telephony, virtual private and long-distance networks, dedicated Internet access and high capacity media services, along with other advanced services. Telmex Internacional also services the residential market with long-distance telephone services, broadband, local telephony and pay cable and digital satellite television. Telmex Internacional's nationwide wireless network in the 3.4-3.6 GHz frequency employs WiMax technology.

*Peru.* In Peru, Telmex Internacional provides data transmission, Internet access, fixed-line telephony including domestic and international long-distance, public telephony, application-managed services for residential and corporate clients, virtual private networks, pay television as well as a yellow pages directory in print and on the Internet. Through its acquisition of cable television capabilities in Peru, Telmex Internacional has a network that passes approximately 300,000 homes. Telmex Internacional recently began offering wireless telephony using CDMA 450 MHz technology in the interior provinces of the country. Telmex Internacional also employs a WiMax platform in the 3.5 GHz frequency.

*Yellow pages.* Telmex Internacional's yellow pages business operates in five countries and it publishes a total of 179 directories. 124 of these directories are published in Mexico with presence in all of the states and Mexico City, 36 directories are published in 23 states of the United States with particular focus on Hispanic markets, two directories are published in Peru in the city of Lima, and two directories are published in Argentina in the city of Buenos Aires. In Colombia, operations began in 2009 with two directories published in the city of Cali.

*Ecuador.* Telmex Internacional entered the telecommunications market in Ecuador in March 2007 as a competitive alternative to local incumbents in the residential and business segments, and it offers a wide array of voice, data, and Internet services, as well as pay television.

Edgar Filing: AMERICA MOVIL SAB DE CV/ - Form 424B2

*Uruguay.* In Uruguay, Telmex Internacional provides data solutions, Internet access, international long-distance, data center services and international managed voice, data and video services to corporate and residential customers.

## **Table of Contents**

Telmex Internacional is a *sociedad anónima bursátil de capital variable* organized under the laws of Mexico, with its principal executive offices at Avenida de los Insurgentes 3500, Colonia Peña Pobre, Delegación Tlalpan, 14060 México, D.F., México. The telephone number of Telmex Internacional at this location is 52 (55) 5223-3200.

### **Telmex**

Telmex is a *sociedad anónima bursátil de capital variable* organized under the laws of Mexico. Substantially all of Telmex's operations are conducted in Mexico. Telmex owns and operates a fixed-line telecommunications system in Mexico, where it is the only nationwide provider of fixed-line telephone services. Telmex also provides other telecommunications and telecommunications-related services such as corporate networks, Internet access services, information network management, telephone and computer equipment sales and interconnection services to other carriers.

In September 2000, Telmex transferred its Mexican wireless business and foreign operations at the time to América Móvil in an *escisión*, or split-up. Beginning in 2004, Telmex expanded its operations outside Mexico through a series of acquisitions in Brazil, Argentina, Chile, Colombia, Peru, Ecuador and the United States. In December 2007, Telmex transferred its Latin American and yellow pages directory businesses to Telmex Internacional in a second *escisión*.

### **The Acquisitions**

The purpose of the Acquisitions is to permit us to combine our wireless communications services with Telmex Internacional's voice, data and video transmission, Internet access and other telecommunications services in Brazil, Colombia and the Latin American countries other than Mexico where both companies conduct operations. We also acquired a controlling interest in Telmex.

We believe that the telecommunications industry has evolved in recent years, resulting in integrated technological platforms that provide combined voice, data and video services. Also, recent developments in software applications, functionality and equipment are paving the way for a significant increase in demand for data services throughout Latin America. We believe that we would be in a position to offer integrated telecommunications services to our customers in those countries in Latin America in which both we and Telmex Internacional operate, regardless of the technological platform that generates the demand at any given time.

We expect to be able to achieve synergies and pursue growth opportunities throughout Latin America and particularly in Brazil, Chile, Argentina, Colombia, Peru, Ecuador and Uruguay. The combination will permit a more efficient use of the networks, information systems, management and personnel of the operating companies, and will enable us to offer more integrated and universal services to our customers. We also expect the combined businesses will be in a stronger position in negotiations with major suppliers and will be better able to implement new technologies.

We cannot provide any assurances that any synergies will result from the Acquisitions. The creditors of us and Telcel, including the holders of the notes, will not have any claim against the assets or cash flows of CGT, Telmex, Telmex Internacional or any of their subsidiaries.

**SELECTED HISTORICAL AND PRO FORMA FINANCIAL DATA**

**América Móvil Selected Historical Audited Consolidated Financial Data**

This prospectus supplement incorporates by reference our audited consolidated financial statements as of December 31, 2008 and 2009 and for each of the three years ended December 31, 2007, 2008 and 2009. Our consolidated financial statements have been prepared in accordance with Mexican FRS and are presented in Mexican pesos. The financial statements of our non-Mexican subsidiaries have been adjusted to conform to Mexican FRS and translated to Mexican pesos. See Note 2(a)(ii) to our audited consolidated financial statements.

Mexican FRS differs in certain respects from U.S. GAAP. Note 21 to the audited consolidated financial statements provides a description of the principal differences between Mexican FRS and U.S. GAAP, as they relate to us, a reconciliation to U.S. GAAP of net income and total shareholder s equity and a cash flow statement for the year ended December 31, 2007 under U.S. GAAP.

Under Mexican FRS, our financial statements for periods ending prior to January 1, 2008 recognized the effects of inflation on financial information. Inflation accounting under Mexican FRS had extensive effects on the presentation of our financial statements through 2007. See Note 2f to our audited consolidated financial statements.

Beginning with the year ended December 31, 2012, Mexican issuers with securities listed on a Mexican securities exchange will be required to prepare financial statements in accordance with IFRS as adopted by the IASB. Issuers may voluntarily report using IFRS before the change in the reporting standards becomes mandatory. We have begun presenting financial statements in accordance with IFRS for the year ended December 31, 2010, with an official IFRS adoption date as of December 31, 2010 and a transition date to IFRS of January 1, 2009. The first quarter 2010 unaudited condensed consolidated financial information incorporated by reference herein is presented based on the IFRS that are currently in effect, which might be different from those that are actually in effect at the December 31, 2010 adoption date. Accordingly, our first quarter 2010 unaudited condensed consolidated financial information is preliminary and subject to change.

On December 13, 2006, our shareholders approved the merger of América Telecom, S.A.B. de C.V., or Amtel, our then controlling shareholder, and its subsidiary Corporativo Empresarial de Comunicaciones, S.A. de C.V., or Corporativo, with us. As a result of the merger, we assumed assets and liabilities based on Amtel s unaudited financial statements as of October 31, 2006. In accordance with Mexican FRS, the merger with Amtel has been accounted for on a historical basis similar to a pooling of interest basis and we have adjusted our financial information and selected financial information presented in this prospectus supplement to include the consolidated assets, liabilities and results of operations of Amtel for periods presented up to December 31, 2006.
