PROXY STATEMENT

FOR ANNUAL MEETING OF STOCKHOLDERS

To Be Held August 2, 2010

INFORMATION CONCERNING SOLICITATION AND VOTING

General

The enclosed proxy is solicited on behalf of the Board of Directors (the Board of Directors or the Board) of Cogent, Inc., a Delaware corporation (the Company), for use at the Annual Meeting of Stockholders to be held on August 2, 2010, at 9:00 a.m. Eastern Time (the Annual Meeting), or at any adjournment or postponement thereof, for the purposes set forth herein and in the accompanying Notice of Annual Meeting of Stockholders. The Annual Meeting will be held at the Company's office at 1881 Campus Commons Drive, Suite 250, Reston, Virginia 20191. Directions to attend the meeting may be found on our website at <http://investor.cogentsystems.com>. The Company intends to mail this proxy statement and accompanying proxy card on or about June 28, 2010 to all stockholders entitled to vote at the Annual Meeting.

Solicitation

The Company will bear the entire cost of solicitation of proxies, including preparation, assembly, printing and mailing of this proxy statement, the proxy card and any additional information furnished to stockholders. Copies of solicitation materials will be furnished to banks, brokerage houses, fiduciaries and custodians holding in their names shares of the Company's stock beneficially owned by others to forward to such beneficial owners. The Company may reimburse persons representing beneficial owners of the Company's stock for their costs of forwarding solicitation materials to such beneficial owners. Solicitation of proxies by mail may be supplemented by telephone or personal solicitation by directors, officers or other regular employees of the Company. No additional compensation will be paid to directors, officers or other regular employees for such services.

Voting Rights and Outstanding Shares

Only holders of record of shares of our common stock at the close of business on June 21, 2010 (the official record date) will be entitled to notice of and to vote at the Annual Meeting and any adjournment thereof. At the close of business on June 21, 2010 the Company had outstanding and entitled to vote 89,605,159 shares of common stock.

Each holder of record of shares of our common stock on the record date will be entitled to one vote for each share held on all matters to be voted upon at the Annual Meeting.

A quorum of stockholders is necessary to hold a valid meeting. A quorum will be present if at least a majority of the Company's outstanding shares entitled to vote are represented at the meeting, either in person or by proxy. All votes will be tabulated by the inspector of elections appointed for the meeting by the Company's Board of Directors, who will tabulate affirmative and negative votes, abstentions and broker non-votes. Votes for and against, abstentions and broker non-votes will each be counted for determining the presence of a quorum.

Abstentions and Broker Non-Votes

Abstentions and broker non-votes will not be considered in determining whether director nominees have received the requisite number of affirmative votes. With respect to the proposal to ratify the appointment of Deloitte & Touche LLP as our independent registered public accounting firm for the year 2010, abstentions and broker non-votes will have the effect of a vote neither for nor against such proposals.

Voting and Revocability of Proxies

All valid proxies received before the Annual Meeting will be exercised. All shares represented by a proxy will be voted, and where a proxy specifies a stockholder's choice with respect to any matter to be acted upon, the shares will be voted in accordance with that specification. If no choice is indicated on the proxy, the shares will be voted in favor of the proposal.

Any person giving a proxy pursuant to this solicitation has the power to revoke it at any time before it is voted. It may be revoked by filing with the Chief Financial Officer of the Company at the Company's principal executive offices located at 639 North Rosemead Blvd., Pasadena, CA 91107, a written notice of revocation or a duly executed proxy bearing a later date, or it may be revoked by attending the meeting and voting in person. Attendance at the meeting will not, by itself, revoke a proxy.

IMPORTANT NOTICE REGARDING THE AVAILABILITY OF PROXY MATERIALS FOR THE 2010 ANNUAL MEETING OF STOCKHOLDERS TO BE HELD ON AUGUST 2, 2010

Copies of this proxy statement and our 2009 Annual Report to stockholders are also available online at <http://investor.cogentsystems.com>.

PROPOSAL 1

ELECTION OF DIRECTORS

Our Board of Directors currently consists of four members. The directors are elected at each annual meeting of stockholders and serve until the next annual meeting of stockholders and until their successors have been duly elected and qualified. The nominees for election by the stockholders are Ming Hsieh, John C. Bolger, John P. Stenbit and Kenneth R. Thornton, who are each members of our present Board of Directors.

A plurality of the votes of the shares present in person or represented by proxy at the Annual Meeting and entitled to vote on the election of directors is required to elect directors. If no contrary indication is made, proxies in the accompanying form are to be voted for our Board of Directors nominees or, in the event any of such nominees is not a candidate or is unable to serve as a director at the time of the election (which is not currently expected), for any nominee who shall be designated by our Board of Directors to fill such vacancy. Because directors are elected by a plurality of the votes cast, abstentions and broker non-votes will not be counted in determining which nominees receive the largest number of votes cast.

Board Committees and Meetings

During the fiscal year ended December 31, 2009, the Board of Directors held four meetings and acted by unanimous written consent one time. The Board of Directors has established three standing committees: an Audit Committee; a Compensation Committee; and a Nominating and Corporate Governance Committee.

The members of our Audit Committee are John C. Bolger, John P. Stenbit and Kenneth R. Thornton. Mr. Bolger is the chair of our Audit Committee, and the Board of Directors has determined that Mr. Bolger is an Audit Committee financial expert, as defined in the rules of the Securities and Exchange Commission (SEC). The Audit Committee oversees, reviews and evaluates our financial statements, accounting and financial reporting processes, internal control functions and the audits of our financial statements. The Audit Committee is responsible for the appointment, compensation, retention and oversight of our independent registered public accounting firm. The Audit Committee held six meetings during the fiscal year ended December 31, 2009. The Board of Directors has determined that all members of the Audit Committee are independent (as independence is defined in the NASDAQ Stock Market qualitative listing standards). The Audit Committee acts pursuant to a written charter.

The members of our Compensation Committee are John C. Bolger, John P. Stenbit and Kenneth R. Thornton. Mr. Thornton is the chair of our Compensation Committee. The Compensation Committee reviews and makes recommendations to our Board of Directors concerning the compensation and benefits of our executive officers, including the Chief Executive Officer, and directors, oversees the administration of our stock option and employee benefits plans, and reviews general policy relating to compensation and benefits. The Compensation Committee may from time to time delegate duties or responsibilities to subcommittees or to one member of the Compensation Committee. The Compensation Committee held four meetings during the fiscal year ended December 31, 2009. The Board of Directors has determined that all members of the Compensation Committee are independent (as independence is defined in the NASDAQ Stock Market qualitative listing standards). The Compensation Committee acts pursuant to a written charter.

The members of our Nominating and Corporate Governance Committee, referred to as the Nominating Committee, are John C. Bolger, John P. Stenbit and Kenneth R. Thornton. Mr. Stenbit is the chair of our

Nominating Committee. The Nominating Committee identifies prospective candidates to serve on the Board of Directors, recommends nominees for election to the Board of Directors, develops and recommends Board member selection criteria, considers committee member qualification, recommends corporate governance principles to the Board of Directors, and provides oversight in the evaluation of the Board of Directors and each committee. The Nominating Committee held one meeting during the fiscal year ended December 31, 2009. The Board of Directors has determined that all members of the Nominating Committee are independent (as independence is defined in the NASDAQ Stock Market qualitative listing standards). The Nominating Committee acts pursuant to a written charter.

During the fiscal year ended December 31, 2009, each member of the Board of Directors attended 75% or more of the aggregate number of the meetings of the Board of Directors and of the committees on which he or she served, held during the period for which he was a director or committee member, respectively. Each member of the Board of Directors attended our 2009 Annual Meeting of Stockholders.

Director Nominations

The Nominating Committee evaluates and recommends to the Board of Directors director nominees for each election of directors.

In fulfilling its responsibilities, the Nominating Committee considers the following factors: (i) the appropriate size of the Board of Directors and its committees; (ii) the needs of the Company with respect to the particular talents and experience of its directors; (iii) the knowledge, skills and experience of nominees, including experience in the biometrics industry, business, finance, administration or public service, in light of prevailing business conditions and the knowledge, skills and experience already possessed by other members of the Board of Directors; (iv) experience with accounting rules and practices; (v) applicable regulatory and securities exchange/association requirements (including the NASDAQ Stock Market qualitative listing standards); and (vi) a balance between the benefit of continuity and the desire for a fresh perspective provided by new members.

Other than the foregoing factors, there are no stated minimum criteria for director nominees. However, the Nominating Committee may also consider such other factors as it may deem are in the best interests of the Company and its stockholders. The Nominating Committee does, however, recognize that under applicable regulatory requirements at least one member of the Board of Directors must, and believes that it is preferable that more than one member of the Board of Directors should, meet the criteria for an audit committee financial expert as defined by SEC rules. The Nominating Committee also believes it appropriate for the Company's Chief Executive Officer to participate as a member of the Board of Directors.

We do not have a written policy with respect to Board diversity; however, the Nominating Committee's goal is to assemble a Board of Directors that brings to the Company a diversity of knowledge, skills and expertise derived from high quality business and professional experience. We believe a Board with these attributes leads to improved company performance by encouraging new ideas and perspectives and expanding the knowledge base available to management.

The Nominating Committee identifies nominees by first evaluating the current members of the Board of Directors willing to continue in service. Current members of the Board of Directors with skills and experience that are relevant to the Company's business and who are willing to continue in service are considered for re-nomination, balancing the value of continuity of service by existing members of the Board of Directors with that of obtaining a new perspective. If any member of the Board of Directors up for re-election at an upcoming annual meeting of stockholders does not wish to continue in service, the Nominating Committee identifies the desired skills and experience of a new nominee in light of the criteria above. Current members of the Nominating Committee and Board of Directors will be polled for suggestions as to individuals meeting the criteria of the Nominating Committee. Research may also be performed to identify qualified individuals. If the Nominating

Committee believes that the Board of Directors requires additional candidates for nomination, the Nominating Committee may explore alternative sources for identifying additional candidates. This may include engaging, as appropriate, a third party search firm to assist in identifying qualified candidates.

The Nominating Committee will evaluate any recommendation for director nominee proposed by a stockholder who (i) has continuously held at least 1% of the outstanding shares of the Company's common stock entitled to vote at the annual meeting of stockholders for at least one year by the date the stockholder makes the recommendation and (ii) undertakes to continue to hold the common stock through the date of the meeting. In order to be evaluated in connection with the Company's established procedures for evaluating potential director nominees, any recommendation for director nominee submitted by a qualifying stockholder must be received by the Company no later than 120 days prior to the anniversary of the date a proxy statement was mailed to stockholders in connection with the prior year's annual meeting of stockholders. Any stockholder recommendation for director nominee must be submitted to the Company's Chief Financial Officer in writing at 639 North Rosemead Blvd., Pasadena, CA 91107 and must contain the following information:

a statement by the stockholder that he/she/it is the holder of at least 1% of the outstanding shares of the Company's common stock and that the stock has been held for at least a year prior to the date of the submission and that the stockholder will continue to hold the shares through the date of the annual meeting of stockholders;

the candidate's name, age, contact information and current principal occupation or employment;

a description of the candidate's qualifications and business experience during, at a minimum, the last five years, including his/her principal occupation and employment and the name and principal business of any corporation or other organization in which the candidate was employed;

the candidate's resume; and

three (3) references.

The Nominating Committee will evaluate recommendations for director nominees submitted by directors, management or qualifying stockholders in the same manner, using the criteria stated above.

All directors and director nominees will submit a completed form of directors' and officers' questionnaire as part of the nominating process. The process may also include interviews and additional background and reference checks for non-incumbent nominees, at the discretion of the Nominating Committee.

Code of Ethics

The Board of Directors has adopted a Code of Ethics that applies to all of our employees, officers and directors. The Code of Ethics contains general guidelines for conducting the business of our company consistent

with the highest standards of business ethics, and is intended to qualify as a code of ethics within the meaning of Section 406 of the Sarbanes-Oxley Act of 2002 and Item 406 of Regulation S-K. Any amendments to or waivers of the Code of Ethics will be promptly posted on our website or disclosed in a report on Form 8-K.

We will also provide copies of these documents, free of charge, to any stockholder upon written request to Investor Relations, Cogent, Inc., 639 North Rosemead Blvd., Pasadena, California 91107.

Board Member Independence

The Board of Directors has determined that, except for Mr. Hsieh, all of the members of the Board of Directors are independent as independence is defined in the NASDAQ Stock Market qualification standards. Mr. Hsieh is not considered independent because he is currently employed by the Company.

Board Leadership Structure

Both the Chairman of the Board and the Chief Executive Officer positions are currently held by Mr. Hsieh. We do not have a lead independent director. However, all Board committee members are independent directors.

The Board has determined that its current structure, with a combined Chairman and Chief Executive Officer and independent directors as members of each committee, is in the best interests of our company and our stockholders. The Board believes that combining the Chairman and Chief Executive Officer positions is currently the most effective leadership structure for our company given Mr. Hsieh's in-depth knowledge of our technology, business and industry, his ability to formulate and implement strategic initiatives, and his extensive contact with and knowledge of customers. Further, Mr. Hsieh is intimately involved in the day-to-day operations of our company and is thus in a position to elevate the most critical business issues for consideration by the independent directors of the Board.

We believe the independent nature of the Board committees, as well as the practice of our independent directors regularly meeting in executive session without Mr. Hsieh and the other members of our management present, ensures that our Board maintains a level of independent oversight of management that is appropriate for our company.

Board Risk Oversight

Our Board of Directors oversees an enterprise-wide approach to risk management that is designed to support the achievement of organizational objectives to improve long-term company performance and enhance stockholder value. A fundamental part of risk management is not only understanding the risks a company faces and what steps management is taking to manage those risks, but also understanding what level of risk is appropriate for us. In setting our business strategy, our Board of Directors assesses the various risks being mitigated by management and determines what constitutes an appropriate level of risk for us.

While our Board of Directors has the ultimate oversight responsibility for the risk management process, various committees of our Board also have responsibility for risk management. In particular, the Audit Committee focuses on financial risk, including internal controls, and receives financial risk assessment reports from management. Risks related to our compensation programs are reviewed by the Compensation Committee. Our Board of Directors is advised by the committees of significant risks and management's response via periodic updates.

Report of the Audit Committee

The audit committee oversees our financial reporting process on behalf of our board of directors. Management has the primary responsibility for the financial statements and the reporting process, including the systems of internal controls. In fulfilling its oversight responsibilities, the audit committee reviewed the audited financial statements in our annual report with management, including a discussion of any significant changes in the selection or application of accounting principles, the reasonableness of significant judgments, the clarity of disclosures in the financial statements and the effect of any new accounting initiatives.

The audit committee reviewed with Deloitte & Touche LLP, who are responsible for expressing an opinion on the conformity of these audited financial statements with generally accepted accounting principles, their judgments as to the quality, not just the acceptability, of our accounting principles and such other matters as are required to be discussed with the audit committee under generally accepted auditing standards, including the matters required to be discussed by Statement on Auditing Standards No. 61, as amended, (AICPA, *Professional Standards*, Vol. 1. AU section 380), as adopted by the Public Company Accounting Oversight Board in Rule 3200T. In addition, the audit committee has discussed with Deloitte & Touche LLP their independence from management and our company, has received from Deloitte & Touche LLP the written disclosures and the letter required by applicable requirements of the Public Company Accounting Oversight Board regarding the independent accountant's communications with the audit committee concerning independence, and has considered the compatibility of non-audit services with the auditors' independence.

The audit committee met with Deloitte & Touche LLP to discuss the overall scope of their audit. The meetings with Deloitte & Touche LLP were held, with and without management present, to discuss the results of their examination, their evaluation of our internal controls and the overall quality of our financial reporting.

Based on the reviews and discussions referred to above, the audit committee has recommended to our board of directors that the audited financial statements be included in our annual report for the year ended December 31, 2009. The audit committee and our board of directors also have recommended the ratification of the appointment of Deloitte & Touche LLP as our independent registered public accounting firm for 2010.

This Audit Committee Report is not soliciting material, is not deemed to be filed with the SEC, and is not incorporated by reference in any of our filings under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, whether made by us before or after the date hereof, regardless of any general incorporation language in any such filing, except to the extent we specifically incorporate this material by reference into any such filing.

The foregoing report has been furnished by the Audit Committee.

EXECUTIVE COMPENSATION*Compensation Discussion and Analysis***Overview**

This compensation discussion and analysis discusses the material elements of the compensation awarded to, earned by, or paid to each of Ming Hsieh, our President and Chief Executive Officer, Paul Kim, our Chief Financial Officer, Michael Hollowich, our Executive Vice President, Operations, and James Jasinski, our Executive Vice President, Federal and State Systems. These individuals are also referred to herein as our named executive officers.

Compensation Program Objectives and Philosophy

The compensation committee of our board of directors currently oversees the design and administration of our executive compensation program. The primary objectives of our executive officer compensation program are to:

1. Provide compensation that is fair in relation to the executive's experience, responsibilities, performance and tenure with our company, as well as in relation to the compensation provided to other employees;
2. Attract, motivate and retain talented and dedicated executive officers;
3. Reward achievement of personal performance objectives and key corporate performance objectives by tying incentive compensation to the achievement of such objectives;
4. Reward superior individual performance by paying one-time cash and equity bonuses; and
5. Reinforce business strategies and objectives for enhanced stockholder value.

In order to achieve these objectives, we maintain an executive compensation program with the following elements: base salary, annual cash bonus awards, long-term equity incentives in the form of stock options and restricted stock units, other benefits and perquisites (consisting of life and health insurance benefits and a qualified 401(k) savings plan), post-termination severance and acceleration of stock option and restricted stock unit vesting for certain named executive officers upon termination and/or a change in control.

We generally view the components of our compensation program as related but distinct. Although our compensation committee does review total compensation, we do not believe that significant compensation derived from one component of compensation should negate or offset compensation from other components.

Our compensation committee performs at least annually a review of our compensation program to determine whether we are achieving our objectives. During these reviews our compensation committee takes into account our goal of maintaining internal pay equity, third party compensation surveys and other considerations we deem relevant, such as rewarding extraordinary performance. Also, in February 2009 we retained a compensation consulting firm to assist our compensation committee in evaluating our compensation practices.

Unique Ownership

When determining compensation for our Chief Executive Officer, our compensation committee gives significant consideration to the distinct nature of our ownership, which has existed since prior to our initial public offering in 2004 (the "IPO") and continues today. Specifically, Mr. Hsieh, our Chief Executive Officer, was our sole stockholder prior to our IPO, continues to hold a significant amount of our common stock and has received substantial liquidity through sales of shares of our common stock since our IPO.

Internal Pay Equity

We have a goal of maintaining internal pay equity, and our compensation committee seeks to make compensation-related decisions that are consistent with this goal. Maintaining internal pay equity means that we seek a reasonable numerical ratio between (i) Mr. Hsieh's base salary and bonus plan pay-out and that of Mr. Kim, (ii) Mr. Kim's base salary, bonus plan pay-out and equity incentives and that of Messrs. Hollowich and Jasinski, (iii) Mr. Hollowich's base salary, bonus plan pay-out and equity incentives and that of Mr. Jasinski, and (iv) Mr. Hollowich's and Mr. Jasinski's base salary, bonus plan pay-outs and equity incentives and that of our next tier of employees. We believe adhering to principles of internal pay equity promotes fairness, is economical, motivates our executives and other employees, mitigates market biases and leads to better employee relations and a stronger company. Each year, with the assistance of our Chief Executive Officer, the compensation committee reviews the relationship (and disparity, if any) in compensation to monitor and avoid any unjustified widening of compensation ratios while at the same time distinguishing relative performance levels with appropriate incentives.

Role of Executive Officers in Compensation Decisions

Our compensation committee reviews and approves the compensation paid to our Chief Executive Officer. With regard to the compensation paid to each executive officer other than the Chief Executive Officer, the Chief Executive Officer reviews, on an annual basis, the compensation paid to each such executive officer during the past year and submits to the compensation committee his recommendations regarding the compensation to be paid to such persons during the next year. Our Chief Executive Officer gives heavy weight to internal pay equity and relative contributions to corporate financial performance when making his compensation recommendations to our compensation committee. Following a review of such recommendations, the committee will take any action regarding compensation as it deems appropriate, including approving compensation in an amount the compensation committee deems reasonable.

Management plays a significant role in the compensation-setting process for executive officers, other than the Chief Executive Officer, by:

evaluating employee performance;

recommending business performance targets and establishing objectives; and

recommending salary levels, bonuses and equity-based awards.

Management also prepares meeting information for most compensation committee meetings, and the Chief Executive Officer participates in committee meetings at the compensation committee's request to provide:

background information regarding our strategic objectives;

his evaluation of the performance of the executive officers; and

compensation recommendations as to executive officers (other than himself).

Base Compensation

We provide our named executive officers and other executives with base salaries that we believe enable us to reward individual performance and contribution to our overall business goals and to hire and retain individuals in a competitive environment. We review base salaries for our named executive officers annually, and changes are generally based on our performance, individual performance and our view of internal pay equity.

We also take into account publicly available information about the base compensation that is payable by companies that we believe to be our competitors and by other public companies with whom we believe we generally compete for executives. The base salary of our Chief Executive Officer, Mr. Hsieh, is reviewed and recommended by our compensation committee, whose members are all of our independent directors.

In February 2009 the compensation committee reviewed the salaries of our named executive officers and made the following determinations:

Mr. Hsieh. In reviewing Mr. Hsieh's base salary for 2009, the committee focused on our results of operations for 2008, Mr. Hsieh's continued significant ownership of our company, the liquidity Mr. Hsieh has received through sales of our common stock since our IPO and our view of internal pay equity. Based on these factors, our compensation committee determined that only a modest increase in Mr. Hsieh's base salary was appropriate at that time.

Mr. Kim. In reviewing Mr. Kim's base salary for 2009, the compensation committee focused on the recommendation of our Chief Executive Officer and our goal of maintaining internal pay equity. Based on these factors, as well as the compensation committee's view that Mr. Kim's base salary was at a level consistent with that of chief financial officers of the companies with whom we compete for executives, our compensation committee determined that only a modest increase in Mr. Kim's base salary was appropriate at that time.

Messrs. Hollowich and Jasinski. In reviewing the base salaries of Messrs. Hollowich and Jasinski for 2009, the committee focused on the recommendations of our Chief Executive Officer, our goal of maintaining internal pay equity and the liquidity these executive officers had received through sales of shares of our common stock since our IPO. Based on these factors, our compensation committee determined that only modest increases in the base salaries of Messrs. Hollowich and Jasinski were appropriate at that time.

Annual Cash Bonus Awards

We believe a cash-based incentive compensation program is important in order to focus our management on, and reward our executives for, achieving key company and personal objectives. In February 2009, our compensation committee adopted a formal annual cash bonus plan. Under the terms of the bonus plan, the compensation committee establishes performance objectives and annual target bonus amounts for each executive officer. In determining the appropriate level of bonus for each officer the compensation committee considers the recommendation of our Chief Executive Officer (for all named executive officers other than himself), information provided through independent, third-party surveys and other information collected from public sources for similar positions at peer companies, our goal of maintaining internal pay equity, and relative base salary and bonus amounts for each individual.

2009 Bonus Plan

In the first quarter of 2009, the compensation committee worked with senior management to establish the bonus amounts and performance objectives under the bonus plan. For fiscal 2009, each executive officer was eligible to receive a bonus that ranged from 2% to 70% of the individual's base salary. As described in greater detail below, the performance objectives consisted of company objectives and individual objectives. For each performance objective the committee assigned a relative weighting to provide guidelines for setting actual cash payouts for each executive officer based on a percentage of the individual's base salary.

The compensation committee retained wide discretion to interpret the terms of the bonus plan, including interpreting and determining whether the performance objectives had been met and the amount of cash bonus that may be paid pursuant to the bonus plan.

For the 2009 bonus plan, our company objectives consisted of achieving \$130.0 million in revenue and \$42.6 million in adjusted operating income for 2009, expanding our customer base and winning contracts with large customers. Importantly, the compensation committee determined that we had to achieve at least 80% of the revenue and adjusted operating income targets in order for our named executive officers to receive any pay-outs under the 2009 bonus plan. Adjusted operating income is a non-GAAP financial measure we calculated for 2009 by excluding from operating expenses any stock based compensation expense. For 2009 we achieved \$129.6 million in revenue and \$45.7 million in adjusted operating income, or 99.7% of our revenue target and 107.3% of our adjusted operating income target.

The following is a discussion of the personal objectives under the 2009 bonus plan for each of our named executive officers, as well as a discussion of the determinations our compensation committee made with respect to pay-outs to our named executive officers under the 2009 bonus plan.

Mr. Hsieh. For the 2009 bonus plan, Mr. Hsieh's personal performance objectives were closely tied to our company objectives. Specifically, his personal objectives consisted of (i) growing our business to at least \$130 million in revenue, and (ii) advancing strategic alternatives that fuel our growth or bring value to our company. These objectives received equal weighting. After considering our performance against the company objectives and Mr. Hsieh's performance against his personal objectives, our compensation committee determined that Mr. Hsieh should receive a bonus under the 2009 bonus plan of \$100,000.

Mr. Kim. For the 2009 bonus plan, Mr. Kim's personal performance objectives consisted of (i) continuing to build a public infrastructure for the company, including Sarbanes-Oxley compliance, (ii) successfully managing

our investor relations program, (iii) supporting our vice presidents, (iv) controlling corporate costs, (v) assisting our Chief Executive Officer in evaluating strategic alternatives that fuel our growth or bring value to our company, and (vi) helping manage the risks associated with being a public company. The committee assigned the greatest weight to objective (v), followed by objectives (i) and (ii), which were assigned equal weighting, and objectives (iii), (iv) and (vi). After considering our performance against the company objectives and Mr. Kim's performance against his personal objectives, our compensation committee determined that Mr. Kim should receive a bonus under the 2009 bonus plan of \$60,000.

Mr. Hollowich. For the 2009 bonus plan, Mr. Hollowich's personal performance objectives consisted of (i) supervising our efforts to win contracts with large customers, (ii) supervising our efforts to win contracts with state and local governments, and (iii) helping us expand into foreign jurisdictions. The committee assigned the greatest weight to objective (i), followed by objectives (ii) and (iii). After considering our performance against the company objectives and Mr. Hollowich's performance against his personal objectives, our compensation committee determined that Mr. Hollowich should receive a bonus under the 2009 bonus plan of \$100,000.

Mr. Jasinski. For the 2009 bonus plan, Mr. Jasinski's personal performance objective consisted of supervising our efforts to win contracts with large customers. After considering our performance against the company objectives and Mr. Jasinski's performance against his personal objective, our compensation committee determined that Mr. Jasinski should receive a bonus under the 2009 bonus plan of \$80,000.

2009 Discretionary Bonuses

The compensation committee may also award discretionary bonuses based on our achievements and the individual's contributions to those achievements. Based on the contributions Mr. Hollowich made in advancing our projects in the United Kingdom in 2009, the compensation committee awarded him a discretionary bonus of \$40,000 in April 2009.

Equity Compensation

We believe that equity ownership by our executive officers provides important incentives to build stockholder value and align the interests of executive officers with those of our stockholders. The compensation committee develops its equity award determinations based on its judgments as to whether the complete compensation packages provided to our executives, including prior equity awards, are sufficient to retain, motivate and adequately award the executives. This judgment is based in part on information provided by reviewing the equity compensation practices of companies we believe to be our competitors and by other public companies with whom we believe we generally compete for executives, as well as on our view of internal pay equity. We do not have any stock ownership guidelines for our executive officers.

We grant equity compensation to our executive officers and other employees under our Amended and Restated 2004 Equity Incentive Plan, or the 2004 Plan. On January 1, 2006, we began accounting for stock-based payments in accordance with the requirements of FASB ASC Topic 718.

Prior Equity Grants

We granted substantial equity awards, in the form of stock options, to our named executive officers (other than our Chief Executive Officer) prior to our IPO, and these awards fully vested in 2008. In 2007 we issued restricted stock units to our named executive officers (other than our Chief Executive Officer) in order to reward them for their performance and to further incentivize them to stay with us for longer periods of time. In addition, in 2008 the compensation committee awarded Mr. Jasinski a one-time grant of restricted stock units as a bonus for his contributions to our business. Generally, 25% of the units subject to these grants vest on each anniversary of the grant date, with the result that 100% of the units subject to these grants will be fully vested on the fourth anniversary of the grant date. If the employment of a named executive officer terminates prior to the vesting of some or all of the units, then the unvested units will be forfeited back to us; provided that Mr. Kim is entitled to acceleration of vesting in the event of a change in control of our company.

The compensation committee determined that the objectives of our compensation program were met without granting additional equity awards to our named executive officers in 2009. This determination was largely based on the liquidity resulting from the sale of shares obtained by exercising the pre-IPO stock options and the continued vesting of the 2007 restricted stock unit awards. Further, as previously discussed, our Chief Executive Officer was our sole stockholder prior to our IPO and continues to control a significant amount of our outstanding capital stock. In light of these circumstances, our compensation committee determined that it was not necessary to grant equity awards to Mr. Hsieh in order to fulfill the objectives of our executive compensation program.

Executive Benefits and Perquisites

We provide the opportunity for our named executive officers and other executives to receive certain perquisites and general health and welfare benefits. We also offer participation in our defined contribution 401(k) plan. After one year of service we match employee contributions under our 401(k) plan, up to an amount equal to 3% of an individual's annual base salary. We provide these benefits to create additional incentives for our executives and to remain competitive in the general marketplace for executive talent.

Change in Control and Severance Benefits

Pursuant to the employment agreement entered in connection with his hiring in January 2004, as well as the agreement governing restricted stock units issued in 2007, we provide the opportunity for our Chief Financial Officer to receive additional compensation and benefits in the event of severance or change in control. Our severance and change in control provisions for our Chief Financial Officer are summarized below in Employment Agreements and Potential Payments Upon Termination or Change in Control. Our compensation committee believes that Mr. Kim's interests are best aligned with the interests of our stockholders, and we will be better able to retain his services, if he has the benefit of severance and change in control arrangements.

Code Section 162(m)

It is our policy generally to qualify compensation paid to executive officers for deductibility under Section 162(m) of the Internal Revenue Code. Section 162(m) generally prohibits us from deducting the compensation of officers that exceeds \$1,000,000 unless that compensation is based on the achievement of objective performance goals. We believe our 2004 Plan is structured to qualify stock options, restricted share and stock unit awards under such plan as performance-based compensation and to maximize the tax deductibility of such awards. However, we reserve the discretion to pay compensation to our officers that may not be deductible.

2010 Compensation Decisions

In February 2010, our compensation committee approved the following annual base salaries for our named executive officers: (i) \$306,000 for Mr. Hsieh, (ii) \$274,000 for Mr. Kim, and (iii) \$216,000 for each of Messrs. Hollowich and Jasinski. The committee also approved a 2010 cash-based incentive bonus program, pursuant to which each named executive may, based upon the achievement of company and individual performance objectives, receive a bonus that ranges from 2% to 70% of an individual's base salary.

In addition, in February 2010 our Compensation Committee approved grants of 40,000 restricted stock units to Mr. Kim, 16,000 restricted stock units to Mr. Hollowich and 16,000 restricted stock units to Mr. Jasinski. Such grants were made effective as of May 15, 2010.

Mr. Kim's employment may be terminated at any time, with or without cause, by Mr. Kim or by us. If Mr. Kim terminates his employment as the result of a Status Event, we will provide payment of salary for the three months following the termination of employment. In addition, Mr. Kim is eligible for severance pay of up to one year of his annual salary if he terminates his employment following a Change in Control. For purposes of Mr. Kim's employment agreement, (i) Status Event means our failure to elect and maintain Mr. Kim as our Chief Financial Officer, and (ii) Change in Control has the definition set forth below under Potential Payments Upon Termination or Change in Control.

For 2009, Mr. Kim's base salary constituted 77.6% of his total compensation.

Potential Payments Upon Termination or Change in Control

Assuming a change in control occurred on December 31, 2009 and Mr. Kim's employment was terminated, he would have been entitled to change in control benefits totaling an aggregate of \$787,500. These benefits are detailed below. The compensation committee believes it is important to provide these benefits in order to retain the services of Mr. Kim.

Pursuant to the employment agreement of Mr. Kim, if he terminates his employment following a Control Event we are required to provide continued payment of Mr. Kim's base salary for the twelve months following the termination of employment. Assuming Mr. Kim terminated his employment as of December 31, 2009 following a Control Event, Mr. Kim would be entitled to be paid \$268,000 over the twelve month period following such termination in accordance with our regular payroll practices.

Mr. Kim holds restricted stock units that would immediately vest in the event of a Change in Control. Assuming a Change in Control occurred on December 31, 2009, Mr. Kim would be entitled to accelerated vesting of 50,000 restricted stock units with a value of \$519,500, based on the \$10.39 closing price of our common stock on the NASDAQ Global Select Market on December 31, 2009.

For purposes of Mr. Kim's employment agreement, a Control Event is (a) a sale of substantially all of our assets to a natural person not currently affiliated, directly or indirectly, with us or to an entity in which at least 50% of the voting power is held by a person or persons who are not shareholders of us immediately prior to the consummation of such transaction (such natural person or entity, a Non-Affiliate), (b) a sale or transfer, by us or any of our shareholders, to a Non-Affiliate of shares of capital stock or other securities having at least 50% of our voting power following such sale, or (c) a consolidation, merger or other reorganization involving us in which the surviving corporation, whether or not us, is a Non-Affiliate, in each case in a single transaction or a series of related transactions, other than a public offering of such capital stock pursuant to a registration statement declared effective by the Securities and Exchange Commission.

For purposes of Mr. Kim's restricted stock unit agreement, Change in Control means the occurrence of any of the following: (i) any person (as such term is used in Sections 13(d) and 14(d) of the Exchange Act) becomes the beneficial owner (as defined in Rule 13d-3 promulgated under the Exchange Act), directly or indirectly, of stock of the Company representing more than fifty percent (50%) of the total combined voting power of our then-outstanding voting stock; or (ii) a transaction or series of related transactions in which the stockholders of the Company immediately before the transaction(s) do not retain immediately after the transaction(s) direct or indirect beneficial ownership of more than fifty percent (50%) of the total combined voting power of our outstanding voting securities or the entity to which our assets were transferred, as the case may be; or (iii) our liquidation or dissolution.

Compensation Committee Interlocks and Insider Participation

In fiscal 2009, the members of our compensation committee were Messrs. Bolger, Stenbit and Thornton, who are all non-employee directors. None of such committee members (i) was, during fiscal 2009, an officer or employee of us or any of our subsidiaries, or (ii) is formerly an officer of us or any of our subsidiaries. No executive officer of Cogent has served as a member of the board of directors or compensation committee of any entity that has or has had one or more executive officers who served as a member of Cogent's board of directors or compensation committee during the 2009 fiscal year.

Report of the Compensation Committee

The compensation committee establishes and oversees the design and functioning of our executive compensation program. We have reviewed and discussed the foregoing Compensation Discussion and Analysis with the management of the Company. Based on this review and discussion, we recommended to the Board of Directors that the Compensation Discussion and Analysis be included in our Proxy Statement for the 2010 Annual Meeting.

Certain Relationships and Related Transactions

Since January 1, 2009, there has not been, nor is there currently proposed, any transaction or series of similar transactions to which we were or are a party in which the amount involved exceeds \$120,000 and in which any director, executive officer or beneficial holder of more than 5% of any class of our voting securities or members of such person's immediate family had or will have a direct or indirect material interest.

Procedures for Approval of Related Party Transactions

Pursuant to the charter of our audit committee, all transactions between us and any of our directors, executive officers or related parties are subject to review by our audit committee. We maintain entity level controls and procedures that are designed to ensure that all transactions required to be disclosed under paragraph (a) of Item 404 of Regulation S-K are brought to the attention of the audit committee. No such transactions occurred and, as a result, the audit committee did not review any such transactions during fiscal year 2009 to determine whether they were within the scope of paragraph (a) of Item 404.

Risks Related to Compensation Policies and Practices

The compensation committee has considered whether our overall compensation program for employees in 2010 creates incentives for employees to take excessive or unreasonable risks that could materially harm our company. We believe that several features of our compensation policies for management employees appropriately mitigate such risks, including a mix of long- and short-term compensation incentives that we believe is properly weighted, the uniformity of compensation practices across our company and the use of our 2010 business plan, which the compensation committee regards as setting an appropriate level of risk taking for our company, as a baseline for bonus plan targets for our management. We also believe our internal legal and financial controls appropriately mitigate the probability and potential impact of an individual employee committing our company to a harmful long-term business transaction in exchange for short-term compensation benefits.

PROPOSAL 2**RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

The Audit Committee has appointed Deloitte & Touche LLP as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2010 and has further directed that the appointment of the independent registered public accounting firm be submitted for ratification by the stockholders at the Annual Meeting. Representatives of Deloitte & Touche LLP are expected to be present at the Annual Meeting, will have an opportunity to make a statement if they so desire and will be available to respond to appropriate questions.

Stockholder ratification of the appointment of Deloitte & Touche LLP as the Company's independent registered public accounting firm is not required by the Company's Bylaws or otherwise. However, the Board of Directors is submitting the appointment of Deloitte & Touche LLP to the stockholders for ratification as a matter of good corporate practice. If the stockholders fail to ratify the appointment, the Audit Committee will reconsider whether or not to retain that firm. Even if the appointment is ratified, the Audit Committee in its discretion may direct the appointment of a different independent registered public accounting firm at any time during the year if it determines that such a change would be in the best interests of the Company and its stockholders.

The affirmative vote of a majority of the votes cast at the meeting, at which a quorum is present, either in person or by proxy, is required to ratify the appointment of Deloitte & Touche LLP.

The following table sets forth the aggregate fees billed to us for the fiscal years ended December 31, 2008 and 2009 by Deloitte & Touche LLP:

	2008	2009
Audit Fees(1)	\$ 1,150,922	\$ 1,060,697
Audit-Related Fees(2)	279,197	10,120
Tax Fees(3)	563,683	414,529

- (1) Audit Fees consist of fees billed for professional services rendered in connection with the audit of our consolidated annual financial statements and review of the interim consolidated financial statements included in quarterly reports.
- (2) Audit-Related Fees consist of fees billed for assurance and related services that are reasonably related to the performance of the audit of our consolidated annual financial statements and review of the interim consolidated financial statements in quarterly reports and are not reported under Audit Fees.
- (3) Tax Fees consist of fees billed for professional services rendered for tax compliance, tax advice and tax planning.

Our audit committee's policy is to pre-approve all audit and permissible non-audit services provided by our independent registered public accounting firm. These services may include audit services, audit-related services, tax services and other services. Pre-approval is generally provided for up to one year and any pre-approval is detailed as to the particular service or category of services. The independent registered public accounting firm and management are required to periodically report to the audit committee regarding the extent of services provided by the independent registered public accounting firm in accordance with this pre-approval. All Audit-Related Fees and Tax Fees listed in the table above were approved by the audit committee pursuant to its pre-approval policies and procedures.

Our board of directors recommends a vote FOR the ratification of the appointment of Deloitte & Touche LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2010.

SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934 requires our executive officers, directors and persons who beneficially own more than 10% of our common stock to file initial reports of ownership and reports of changes in ownership with the SEC. Such persons are required by SEC regulations to furnish us with copies of all Section 16(a) forms filed by such person.

Based solely on our review of such forms furnished to us and written representations from such reporting persons, we believe that all filing requirements applicable to our executive officers, directors and more than 10% stockholders were met in a timely manner.

HOUSEHOLDING OF PROXY MATERIALS

The SEC has adopted rules that permit companies and intermediaries (e.g., brokers) to satisfy the delivery requirements for proxy statements and annual reports with respect to two or more stockholders sharing the same address by delivering a single proxy statement addressed to those stockholders. This process, which is commonly referred to as householding, potentially means extra convenience for stockholders and cost savings for companies.

This year, a number of brokers with account holders who are the Company's stockholders will be householding our proxy materials. A single proxy statement will be delivered to multiple stockholders sharing an address unless contrary instructions have been received from the affected stockholders. Once you have received notice from your broker that they will be householding communications to your address, householding will continue until you are notified otherwise or until you revoke your consent. If, at any time, you no longer wish to participate in householding and would prefer to receive a separate proxy statement and annual report, please notify your broker, direct your written request to Cogent, Inc., c/o Corporate Secretary, 639 North Rosemead Blvd., Pasadena, CA 91107 or call Investor Relations at (626) 325-9600. Stockholders who currently receive multiple copies of the proxy statement at their address and would like to request householding of their communications should contact their brokers.

STOCKHOLDER PROPOSALS

Proposals of stockholders intended to be presented at our Annual Meeting of Stockholders to be held in 2011 must be received by us no later than March 1, 2011 which is 120 days prior to the first anniversary of the mailing date of this proxy statement, in order to be included in our proxy statement and form of proxy relating to that meeting. These proposals must comply with the requirements as to form and substance established by the SEC for such proposals in order to be included in the proxy statement. Under our Bylaws, a stockholder who wishes to make a proposal at the 2011 Annual Meeting of Stockholders without including the proposal in our proxy statement and form of proxy relating to that meeting must notify us no later than March 1, 2011 unless the date of the 2011 Annual Meeting of Stockholders is more than 30 days before or after the one-year anniversary of the 2010 Annual Meeting of Stockholders. If the stockholder fails to give notice by this date, then the persons named as proxies in the proxies solicited by the Board of Directors for the 2011 Annual Meeting may exercise discretionary voting power regarding any such proposal.
