**ITEM 2.02. Results of Operations and Financial Condition**

On July 6, 2010, FTI Consulting, Inc. ( FTI ) issued its press release (the Press Release ) reporting preliminary financial results for the three months ended June 30, 2010 and updating guidance for the year ending December 31, 2010. The full text of the Press Release is set forth in Exhibit 99.1 and is incorporated by reference herein.

**ITEM 7.01. Regulation FD Disclosure**

FTI defines Adjusted EPS as earnings per fully diluted share ( EPS ) minus the per share impact of the special charges. Although Adjusted EPS is not a measure of financial condition or performance determined in accordance with generally accepted accounting principles ( GAAP ), we believe that this measure can be a useful operating performance measure for evaluating our results of operations as compared from period-to-period and as compared to our competitors. Adjusted EPS is not defined in the same manner by all companies and may not be comparable to other similarly titled measures of other companies unless the definition is the same. This non-GAAP measure should be considered in addition to, but not as a substitute for or superior to, the information contained in our statements of income. A reconciliation of 2010 guidance regarding Adjusted EPS to EPS for the year ending December 31, 2010 is included in the financial table, which is part of the Press Release furnished as Exhibit 99.1.

The information included herein, including Exhibit 99.1 furnished herewith, shall not be deemed to be filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the Exchange Act ), or otherwise subject to the liabilities of that section, nor shall it be incorporated by reference into any filing pursuant to the Securities Act of 1933, as amended, or the Exchange Act, regardless of any incorporation by reference language in any such filing, except as expressly set forth by specific reference in such filing.
