OF 1934

For the fiscal year ended December 31, 2010

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15 (d) OF THE SECURITIES EXCHANGE
ACT OF 1934

For the transition period from to

Commission file number 001-13619

BROWN & BROWN, INC.

(Exact name of registrant as specified in its charter)

Florida
(State or other jurisdiction of
incorporation or organization)

59-0864469
(I.R.S. Employer
Identification Number)

220 South Ridgewood Avenue, Daytona

Beach, FL
(Address of principal executive offices)

32114
(Zip Code)

Registrant's telephone number, including area code: (386) 252-9601

Registrant's Website: www.bbinsurance.com

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Name of each exchange on which registered
COMMON STOCK, \$0.10 PAR VALUE	NEW YORK STOCK EXCHANGE

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

NOTE: Checking the box above will not relieve any registrant required to file reports pursuant to Section 13 or 15(d) of the Exchange Act from their obligations under those Sections.

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of the registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Edgar Filing: BROWN & BROWN INC - Form 10-K

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer, and smaller reporting company in Rule 12b-2 of the Exchange Act:

Large accelerated filer Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act.): Yes No

The aggregate market value of the voting Common Stock, \$0.10 par value, held by non-affiliates of the registrant, computed by reference to the last reported price at which the stock was last sold on June 30, 2010 (the last business day of the registrant's most recently completed second fiscal quarter) was \$2,221,154,930.

The number of outstanding shares of the registrant's Common Stock, \$0.10 par value, outstanding as of February 22, 2011 was 142,557,243

DOCUMENTS INCORPORATED BY REFERENCE

Portions of Brown & Brown, Inc.'s Proxy Statement for the 2011 Annual Meeting of Shareholders are incorporated by reference into Part III of this Report.

Disclosure Regarding Forward-Looking Statements

Brown & Brown, Inc., together with its subsidiaries (collectively, we, Brown & Brown or the Company), make forward-looking statements within the safe harbor provision of the Private Securities Litigation Reform Act of 1995, as amended, throughout this report and in the documents we incorporate by reference into this report. You can identify these statements by forward-looking words such as may, will, should, expect, anticipate, believe, intend, estimate, plan and continue or similar words. We have based these statements on our current expectations about future events. Although we believe the expectations expressed in the forward-looking statements included in this Form 10-K and the reports, statements, information and announcements incorporated by reference into this report are based on reasonable assumptions within the bounds of our knowledge of our business, a number of factors could cause actual results to differ materially from those expressed in any forward-looking statements, whether oral or written, made by us or on our behalf. Many of these factors have previously been identified in filings or statements made by us or on our behalf. Important factors which could cause our actual results to differ materially from the forward-looking statements in this report include the following items, in addition to those matters described in Item 1A Risk Factors and Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations :

Projections of revenue, income, losses, cash flows, capital expenditures;

Future prospects;

Plans for future operations;

Expectations of the economic environment;

Material adverse changes in economic conditions in the markets we serve and in the general economy;

Future regulatory actions and conditions in the states in which we conduct our business;

Competition from others in the insurance agency, wholesale brokerage, insurance programs and service business;

The occurrence of adverse economic conditions, an adverse regulatory climate, or a disaster in California, Florida, Georgia, Indiana, Louisiana, Michigan, New Jersey, New York, Pennsylvania, Texas and Washington, because a significant portion of business written by Brown & Brown is for customers located in these states;

Premium rates and exposure units set by insurance companies which have traditionally varied and are difficult to predict;

Our ability to forecast liquidity needs through at least the end of 2011;

Our ability to renew or replace expiring leases;

Outcome of legal proceedings and governmental investigations;

Policy cancellations which can be unpredictable;

Potential changes to the tax rate that would affect the value of deferred tax assets and liabilities;

The inherent uncertainty in making estimates, judgments, and assumptions in the preparation of financial statements in accordance with generally accepted accounting principles in the United States of America (GAAP);

The performance of acquired businesses and its effect on estimated acquisition earn-out payable;

The integration of our operations with those of businesses or assets we have acquired or may acquire in the future and the failure to realize the expected benefits of such integration;

Other risks and uncertainties as may be detailed from time to time in our public announcements and Securities and Exchange Commission (SEC) filings; and

Assumptions as to any of the foregoing and all statements that are not based on historical fact but rather reflect our current expectations concerning future results and events.

Forward-looking statements that we make or that are made by others on our behalf are based on a knowledge of our business and the environment in which we operate, but because of the factors listed above, among others, actual results may differ from those in the forward-looking statements. Consequently, these cautionary statements qualify all of the forward-looking statements we make herein. We cannot assure you that the results or developments anticipated by us will be realized or, even if substantially realized, that those results or developments will result in the expected consequences for us or affect us, our business or our operations in the way we expect. We caution readers not to place undue reliance on these forward-looking statements, which speak only as of their dates. We assume no obligation to update any of the forward-looking statements.

Table of Contents**PART I****ITEM 1. Business.
General**

We are a diversified insurance agency, wholesale brokerage, insurance programs and service organization with origins dating from 1939, headquartered in Daytona Beach and Tampa, Florida. We market and sell to our customers insurance products and services, primarily in the property, casualty and employee benefits areas. As an agent and broker, we do not assume underwriting risks. Instead, we provide our customers with quality, non-investment insurance contracts, as well as other targeted, customized risk management products and services.

We are compensated for our services primarily by commissions paid by insurance companies and by fees paid by customers for certain services. Commissions are usually a percentage of the premium paid by the insured. Commission rates generally depend upon the type of insurance, the particular insurance company and the nature of the services provided by us. In some cases, we share commissions with other agents or brokers who have acted jointly with us in a transaction. We may also receive from an insurance company a profit-sharing contingent commission, which is a profit-sharing commission based primarily on underwriting results, but may also contain considerations for volume, growth and/or retention. Fee revenues are generated primarily by: (1) our Services Division, which provides insurance-related services, including third-party claims administration and comprehensive medical utilization management services in both the workers compensation and all-lines liability arenas, as well as Medicare set-aside services and Social Security disability and Medicare benefits advocacy services, and (2) our National Programs and Wholesale Brokerage Divisions, which earn fees primarily for the issuing of insurance policies on behalf of insurance carriers. The amount of our revenue from commissions and fees is a function of, among other factors, continued new business production, retention of existing customers, acquisitions and fluctuations in insurance premium rates and insurable exposure units, which are units that insurance companies use to measure or express insurance exposed to risk (such as property values, sales and payroll levels).

As of December 31, 2010, our activities were conducted in 205 locations in 37 states as follows and one office in London, England:

Florida	39	Kentucky	5	New Hampshire	2
New York	15	New Mexico	5	Oregon	2
New Jersey	13	Oklahoma	5	Tennessee	2
Texas	13	Virginia	5	Wisconsin	2
California	11	Arkansas	3	Delaware	1
Georgia	8	Michigan	3	Hawaii	1
Indiana	8	Minnesota	3	Kansas	1

Colorado	6	Massachusetts	2	West Virginia	1
Illinois	6	Montana	2		
Connecticut	5	Nevada	2		

Industry Overview

Premium pricing within the property and casualty insurance underwriting (risk-bearing) industry has historically been cyclical, displaying a high degree of volatility based on prevailing economic and competitive conditions. From the mid-1980s through 1999, the property and casualty insurance industry experienced a soft market during which the underwriting capacity of insurance companies expanded, stimulating an increase in competition and a decrease in premium rates and related commissions. The dampening effect of this softness in rates on our revenues was somewhat offset by our acquisitions and new business production. As a result of increasing loss ratios (the comparison of incurred losses plus adjustment expenses against earned premiums) of insurance companies through 1999, premium rates generally increased beginning in the first quarter of 2000 and continuing into 2003. During 2003, increases in premium rates began to moderate and, in certain lines of insurance, premium rates decreased. In 2004, as general premium rates continued to moderate, the insurance industry experienced the worst hurricane season since 1992 (when Hurricane Andrew hit south Florida). The insured losses from the 2004 hurricane season were absorbed relatively easily by the insurance industry and the general insurance premium rates continued to soften during 2005.

Edgar Filing: BROWN & BROWN INC - Form 10-K

During the third quarter of 2005, the insurance industry experienced the worst hurricane season ever recorded. As a result of the significant losses incurred by insurance companies from these hurricanes, insurance premium rates in 2006 increased on coastal property, primarily in the southeastern region of the United States. In the other regions of the United States, insurance premium rates generally declined during 2006.

Table of Contents

In addition to significant insurance pricing declines in Florida (as discussed below) insurance premium rates continued to decline from 2007 through 2010 in most of the other U.S. regions. During 2007 and 2008, the home-building industry in southern California and to a lesser extent in Nevada, Arizona and Florida, was hit especially hard. We have a wholesale brokerage operation that focuses on placing property and casualty insurance products for that home-building segment. The revenues from this operation were significantly and negatively impacted during 2007 through 2009 by these national economic trends, and by 2010 these revenues were insignificant.

Although insurance premium rates declined from 2008 through 2010 in most lines of coverage, the rates of decline appeared to be slowing. However, during the second half of 2008 and all of 2009, insurable exposure units, such as sales and payroll expenditures, declined significantly due to the weakening economy, primarily in the southeastern and western parts of the United States. During 2010, declining exposure units continued to have a greater adverse impact on our commissions and fees revenue than did declining insurance premium rates. For 2011, insurance premium rates are expected to remain soft, with the exception of some workers' compensation rates in some states, such as Florida. However, exposure units do not seem to be declining at the same pace as they were in the beginning of 2010. As a result, it is not unreasonable to believe that insurable exposure units in 2011 could be relatively flat as compared with 2010.

SEGMENT INFORMATION

Our business is divided into four reportable operating segments: (1) the Retail Division; (2) the National Programs Division; (3) the Wholesale Brokerage Division; and (4) the Services Division. The Retail Division provides a broad range of insurance products and services to commercial, public entity, professional and individual customers. The National Programs Division contains two units: Professional Programs, which provides professional liability and related package products for certain professionals; and Special Programs, which markets targeted products and services to specific industries, trade groups, public entities, and market niches. The Wholesale Brokerage Division markets and sells excess and surplus commercial and personal insurance, and reinsurance, primarily through independent agents and brokers. The Services Division provides customers with third-party claims administration, consulting for the workers' compensation insurance market, comprehensive medical utilization management services in both workers' compensation and all-lines liability arenas, Medicare Secondary Payer statute compliance-related services, and Social Security disability and Medicare benefits advocacy services.

The following table summarizes (1) the commissions and fees revenue generated by each of our reportable operating segments for 2010, 2009 and, 2008, and (2) the percentage of our total commissions and fees revenue represented by each segment for each such period:

<i>(in thousands, except percentages)</i>	2010	%	2009	%	2008	%
Retail Division	\$ 573,809	59.3%	\$ 582,472	60.4%	\$ 586,195	60.7%
National Programs Division	188,944	19.6%	190,572	19.8%	177,930	18.4%
Wholesale Brokerage Division	157,044	16.2%	157,658	16.3%	168,586	17.5%
Services Division	46,336	4.8%	32,689	3.4%	32,137	3.3%
Other	784	0.1%	1,472	0.1%	1,135	0.1%
Total	\$ 966,917	100.0%	\$ 964,863	100.0%	\$ 965,983	100.0%

We conduct all of our operations within the United States of America, except for one wholesale brokerage operation based in London, England that commenced business in March 2008. This operation earned \$9.9 million, \$6.6 million and \$2.6 million of revenue for the years ended December 31, 2010, 2009 and 2008, respectively. We do not have any material foreign long-lived assets. See Note 15 to the Consolidated Financial Statements and Management's Discussion and Analysis of Financial Condition and Results of Operations for additional segment financial data relating to our business.

Retail Division

As of December 31, 2010, our Retail Division employed 3,068 persons. Our retail insurance agency business provides a broad range of insurance products and services to commercial, public and quasi-public entity, professional and individual customers. The categories of insurance we principally sell include: property insurance relating to physical damage to property and resultant interruption of business or extra expense caused by fire, windstorm or other perils; casualty insurance relating to legal liabilities, workers' compensation, commercial and private passenger automobile coverages; and fidelity and surety bonds. We also sell and service group and individual life, accident, disability, health, hospitalization, medical and dental insurance.

Edgar Filing: BROWN & BROWN INC - Form 10-K

No material part of our retail business is attributable to a single customer or a few customers. During 2010, commissions and fees from our largest single Retail Division customer represented less than one half of one percent (0.50%) of the Retail Division's total commissions and fees revenue.

Table of Contents

In connection with the selling and marketing of insurance coverages, we provide a broad range of related services to our customers, such as risk management and loss control surveys and analysis, consultation in connection with placing insurance coverages and claims processing. We believe these services are important factors in securing and retaining customers.

National Programs Division

As of December 31, 2010, our National Programs Division employed 748 persons. Our National Programs Division consists of two units: Professional Programs and Special Programs.

Professional Programs. Professional Programs provides professional liability and related package insurance products for certain professionals. Professional Programs tailors insurance products to the needs of a particular professional group; negotiates policy forms, coverages and commission rates with an insurance company; and, in certain cases, secures the formal or informal endorsement of the product by a professional association or sponsoring company. Professional groups that Professional Programs service include dentists, lawyers, accountants, optometrists, opticians, insurance agents, financial service representatives, benefit administrators, real estate brokers, real estate title agents and escrow agents. The Professional Protector Plan[®] for Dentists and the Lawyer's Protector Plan[®] are marketed and sold primarily through a national network of independent agencies including certain of our retail offices; however, certain professional liability programs, CalSurance[®] and TitlePac[®], are principally marketed and sold directly to our insured customers. Under our agency agreements with the insurance companies that underwrite these programs, we often have authority to bind coverages (subject to established guidelines), to bill and collect premiums and, in some cases, to adjust claims. For the programs that we market through independent agencies, we receive a wholesale commission or override, which is then shared with these independent agencies.

Below are brief descriptions of the programs offered to professional groups by the Professional Programs unit of the National Programs Division.

Dentists: The Professional Protector Plan[®] for Dentists offers comprehensive coverage for dentists, oral surgeons, dental schools and dental students, including practice protection and professional liability. This program, initiated in 1969, is endorsed by a number of state and local dental societies and is offered in 50 states, the District of Columbia, the U.S. Virgin Islands and Puerto Rico.

Lawyers: The Lawyer's Protector Plan[®] (LPP[®]) was introduced in 1983, 10 years after we began marketing lawyers' professional liability insurance. We presently offer this program in 44 states and the District of Columbia.

Optometrists and Opticians: The Optometric Protector Plan[®] (OPP[®]) and the Optical Services Protector Plan[®] (OSPP[®]) were created in 1973 and 1987, respectively, to provide professional liability, package and workers' compensation coverages exclusively for optometrists and opticians. These programs insure optometrists and opticians nationwide.

Wedding Protector Plan[®]: Wedding Protector Plan[®] provides wedding cancellation and liability insurance and is offered in 49 states and the District of Columbia.

Financial Professionals: CalSurance[®] has specialized in this niche since 1980 and offers professional liability programs designed for insurance agents, financial advisors, registered representatives, securities broker-dealers, benefit administrators, real estate brokers and real estate title agents. An important aspect of CalSurance[®] is Lancer Claims Services, which provides specialty claims administration for insurance companies underwriting CalSurance[®] product lines.

Real Estate Professionals: TitlePac[®] provides professional liability products and services designed for real estate title agents and escrow agents in 47 states and the District of Columbia.

Edgar Filing: BROWN & BROWN INC - Form 10-K

Certified Public Accountants: The CPA Protector Plan® offers professional liability coverage for certified public accountant practitioners and firms throughout the United States.

Special Programs. Special Programs markets targeted products and services to specific industries, trade groups, public and quasi-public entities, and market niches. Most of these products and services are marketed and sold primarily through independent agents, including certain of our retail offices. However, a number of these products and services are also marketed and sold directly to insured customers. Under agency agreements with the insurance companies that underwrite these programs, we often have authority to bind coverages (subject to established guidelines), to bill and collect premiums and, in some cases, to adjust claims.

Below are brief descriptions of the Special Programs:

Florida Intracoastal Underwriters, Limited Company (FIU) is a managing general agency that specializes in providing insurance coverage for coastal and inland high-value condominiums and apartments. FIU has developed a specialty reinsurance facility to support the underwriting activities associated with these risks.

Public Risk Underwriters®, along with our similar offices in Florida and other states, are program administrators offering tailored property and casualty insurance products, risk management consulting, third-party administration and related services designed for municipalities, schools, fire districts, and other public entities.

Table of Contents

Proctor Financial, Inc. (Proctor) provides insurance programs and compliance solutions for financial institutions that service mortgage loans. Proctor's products include lender-placed fire and flood insurance, full insurance outsourcing, mortgage impairment, and blanket equity insurance. Proctor acts as a wholesaler and writes surplus lines property business for its financial institution customers.

American Specialty Insurance & Risk Services, Inc. provides insurance and risk management services for customers in professional sports, motor sports, amateur sports, and the entertainment industry.

Fabricare: Irving Weber Associates, Inc. (IWA) has specialized in this niche since 1946, providing package insurance including workers compensation to dry cleaners, linen supply and uniform rental operations. They also offer insurance programs for independent grocery stores and restaurants.

Parcel Insurance Plan[®] (PIP[®]) is a specialty insurance agency providing insurance coverage to commercial and private shippers for small packages and parcels with insured values of less than \$25,000 each.

Professional Risk Specialty Group is a specialty insurance agency providing liability insurance products to various professional groups.

AFC Insurance, Inc. (AFC) is a managing general underwriter, specializing in insurance products tailored to the health and human services industry. AFC works with retail agents in all states and targets home healthcare, group homes for the mentally and physically challenged, independent pizza restaurants, drug and alcohol facilities and programs for the developmentally disabled.

Acumen Re Management Corporation is a reinsurance underwriting management organization, primarily acting as an outsourced specific excess workers' compensation, directors and officers' liability, and errors and omissions liability facultative reinsurance underwriting facility.

Commercial Programs serves the insurance needs of certain specialty trade/industry groups. Programs offered include:

Railroad Protector Plan[®] (RRPP[®]). Introduced in 1997, this program provides insurance products for contractors, manufacturers and other entities servicing the railroad industry.

Environmental Protector Plan[®]. Introduced in 1998, this program provides a variety of specialized coverages, primarily to municipal mosquito control districts.

Towing Operators Protector Plan[®] (TOPP[®]). Introduced in 2009, this program provides property and casualty insurance for businesses involved in light class towing operations.

Wholesale Brokerage Division

At December 31, 2010, our Wholesale Brokerage Division employed 869 persons. Our Wholesale Brokerage Division markets and sells excess and surplus commercial insurance products and services to retail insurance agencies (including our retail offices), and reinsurance products and services to insurance companies throughout the United States. The Wholesale Brokerage Division offices represent various U.S. and U.K. surplus lines insurance companies. Additionally, certain offices are also Lloyd's of London correspondents. The Wholesale Brokerage Division also represents admitted insurance companies for purposes of affording access to such companies for smaller agencies that otherwise do not have access to large insurance company representation. Excess and surplus insurance products encompass many insurance coverages, including personal lines homeowners, yachts, jewelry, commercial property and casualty, commercial automobile, garage, restaurant, builder's risk and inland marine lines. Difficult-to-insure general liability and products liability coverages are a specialty, as is excess workers' compensation

Edgar Filing: BROWN & BROWN INC - Form 10-K

coverage. Wholesale brokers solicit business through mailings and direct contact with retail agency representatives. During 2010, commissions and fees from our largest Wholesale Brokerage Division customer represented approximately 1.1% of the Wholesale Brokerage Division's total commissions and fees revenue.

Services Division

At December 31, 2010, our Services Division employed 443 persons and provided the following services: (1) insurance-related services, including comprehensive risk management and third-party administration (TPA) services for insurance entities and self-funded or fully-insured workers' compensation and liability plans; (2) comprehensive medical utilization management services for both workers' compensation and all-lines liability insurance plans; (3) Medicare set-aside allocation services and related administrative services associated with the Medicare Secondary Payer statute; and (4) Social Security disability and Medicare benefits advocacy services.

The Services Division's TPA services for workers' compensation and liability plans include claims administration, access to major reinsurance markets, cost containment consulting, services for secondary disability, and subrogation recoveries and risk management services such as loss control. In 2010, our three largest workers' compensation contracts represented approximately 20.4% of our Services Division's fees revenue, or approximately 1.0% of our total consolidated commissions and fees revenue. In addition, the Services Division provides managed care services, including medical networks, case management and utilization review services, certified by the American Accreditation Health Care Commission.

Table of Contents

Our newest acquisition in the Services Division is The Advocate Group (a/k/a Crowe Paradis) which assists individuals throughout the United States who are seeking to establish eligibility for coverage under the U.S. Government's Social Security Disability program, as well as providing health plan selection and enrollment assistance for Medicare beneficiaries. The Advocate Group works closely with employer-sponsored group life, disability and health plan participants to assist disabled employees in receiving the education, advocacy and benefit coordination assistance necessary to achieve the fastest possible benefit approvals. In addition, The Advocate Group also provides second injury fund recovery services to the workers compensation insurance market.

For 2011, The Advocate Group's revenues are expected to exceed \$27.4 million and could represent as much as 41.7% of the Services Division's total revenues.

Employees

At December 31, 2010, we had 5,286 full-time equivalent employees. We have agreements with our sales employees and certain other employees that include provisions restricting their ability to solicit business from our customers or to hire our employees for a period of time after separation from employment with us. The enforceability of such agreements varies from state to state depending upon state statutes, judicial decisions and factual circumstances. The majority of these agreements are at-will and terminable by either party; however, the covenants not to solicit our customers and employees generally extend for a period of two years after cessation of employment.

None of our employees is represented by a labor union, and we consider our relations with our employees to be satisfactory.

Competition

The insurance intermediary business is highly competitive, and numerous firms actively compete with us for customers and insurance markets. Competition in the insurance business is largely based on innovation, quality of service and price. A number of firms and banks with substantially greater resources and market presence compete with us in the southeastern United States and elsewhere, particularly outside of Florida.

A number of insurance companies directly sell insurance, primarily to individuals, and do not pay commissions to third-party agents and brokers. In addition, the Internet continues to be a source for direct placement of personal lines business. To date, such direct sales efforts have had little effect on our operations, primarily because our Retail Division is commercially rather than individually oriented.

In addition, the Gramm-Leach-Bliley Financial Services Modernization Act of 1999 and regulations enacted thereunder permit banks, securities firms and insurance companies to affiliate. As a result, the financial services industry has experienced and may continue to experience consolidation, which in turn has resulted and could continue to result in increased competition from diversified financial institutions, including competition for acquisition prospects.

Regulation, Licensing and Agency Contracts

We and/or our designated employees must be licensed to act as agents, brokers, intermediaries or third-party administrators by state regulatory authorities in the states in which we conduct business. Regulations and licensing laws vary by individual state and are often complex.

The applicable licensing laws and regulations in all states are subject to amendment or reinterpretation by state regulatory authorities, and such authorities are vested in most cases with relatively broad discretion as to the granting, revocation, suspension and renewal of licenses. The possibility exists that we and/or our employees could be excluded or temporarily suspended from carrying on some or all of our activities in, or could otherwise be subjected to penalties by, a particular state.

Available Information

We are subject to the reporting requirements of the Securities Exchange Act of 1934, as amended (the Exchange Act), and its rules and regulations. The Exchange Act requires us to file reports, proxy statements and other information with the Securities and Exchange Commission (SEC). We make available free of charge on our website, at www.bbinsurance.com, our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Exchange Act and the rules promulgated thereunder, as soon as reasonably practicable after electronically filing or furnishing such material to the SEC. These documents are posted on our website at www.bbinsurance.com select the Investor Relations link and then the Publications & Filings link.

Table of Contents

Copies of these reports, proxy statements and other information can be read and copied at:

SEC Public Reference Room

100 F Street NE

Washington, D.C. 20549

Information on the operation of the Public Reference Room may be obtained by calling the SEC at 1-800-SEC-0330. Also, the SEC maintains a website that contains reports, proxy statements and other information regarding issuers that file electronically with the SEC. These materials may be obtained electronically by accessing the SEC's website at www.sec.gov.

The charters of the Audit, Compensation and Nominating/Governance Committees of our Board of Directors as well as our Corporate Governance Principles, Code of Business Conduct and Ethics and Code of Ethics – CEO and Senior Financial Officers (including any amendments to, or waivers of any provision of any of these charters, principles or codes) are also available on our website or upon request. Requests for copies of any of these documents should be directed in writing to Corporate Secretary, Brown & Brown, Inc., 3101 West Martin Luther King Jr. Blvd., Suite 400, Tampa, Florida 33607, or by telephone to (813) 222-4277.

ITEM 1A. Risk Factors

WE CANNOT ACCURATELY FORECAST OUR COMMISSION REVENUES BECAUSE OUR COMMISSIONS DEPEND ON PREMIUM RATES CHARGED BY INSURANCE COMPANIES, WHICH HISTORICALLY HAVE VARIED AND, AS A RESULT, HAVE BEEN DIFFICULT TO PREDICT.

We are primarily engaged in the insurance agency, wholesale brokerage, and insurance programs business, and derive revenues principally from commissions paid by insurance companies. Commissions are based upon a percentage of premiums paid by customers for insurance products. The amount of such commissions is therefore highly dependent on premium rates charged by insurance companies. We do not determine insurance premiums. Premium rates are determined by insurance companies based on a fluctuating market. Historically, property and casualty premiums have been cyclical in nature and have varied widely based on market conditions.

As traditional risk-bearing insurance companies continue to outsource the production of premium revenue to non-affiliated brokers or agents such as us, those insurance companies may seek to further reduce their expenses by reducing the commission rates payable to those insurance agents or brokers. The reduction of these commission rates, along with general volatility and/or declines in premiums, may significantly affect our profitability. Because we do not determine the timing or extent of premium pricing changes, we cannot accurately forecast our commission revenues, including whether they will significantly decline. As a result, we may have to adjust our budgets for future acquisitions, capital expenditures, dividend payments, loan repayments and other expenditures to account for unexpected changes in revenues, and any decreases in premium rates may adversely affect the results of our operations.

CURRENT U.S. ECONOMIC CONDITIONS AND THE SHIFT AWAY FROM TRADITIONAL INSURANCE MARKETS MAY CONTINUE TO ADVERSELY AFFECT OUR BUSINESS.

Since late 2007, global consumer confidence has eroded amidst concerns over declining asset values, potential inflation, volatility in energy costs, geopolitical issues, the availability and cost of credit, high unemployment, and the stability and solvency of financial institutions, financial markets, businesses, and sovereign nations. These concerns have slowed economic growth and resulted in a recession in the United States. Economic conditions have had a negative impact on our results of operations during the years since 2008 due to reduced customer demand. If these economic conditions continue or worsen, a number of negative effects on our business could result, including further declines in values of insurable exposure units, further declines in insurance premium rates, and the financial insolvency, or reduced ability to pay, of certain of our customers. Any of these effects could decrease our net revenue and profitability.

In addition, there has been an increase in alternative insurance markets, such as self-insurance, captives, risk retention groups and non-insurance capital markets. While we compete in these segments on a fee-for-service basis, we cannot be certain that such alternative markets will provide the same level of profitability as traditional insurance markets.

WE COULD INCUR SUBSTANTIAL LOSSES FROM OUR CASH AND INVESTMENT ACCOUNTS IF ONE OF THE FINANCIAL INSTITUTIONS THAT WE USE FAILS OR IS TAKEN OVER BY THE U.S. FEDERAL DEPOSIT INSURANCE CORPORATION (FDIC).

Traditionally, we have maintained cash and investment balances, including restricted cash held in premium trust accounts, at various depository institutions in amounts that are significantly in excess of the limits insured by the FDIC. While we began in the Fall of 2008 re-focusing our investment and cash management strategy by moving more of our cash into non-interest bearing accounts (which are FDIC-insured until December 31, 2012, but not subject to any limits) and money market accounts (a portion of which became FDIC insured in the Fall of 2008), we still maintain cash and investment balances in excess of the limits insured by FDIC. As the credit crisis persists, the financial strength of some depository institutions has diminished and this trend may continue. If one or more of the depository institutions with which we maintain significant cash balances were to fail, our ability to access these funds might be temporarily or permanently limited, and we could face material liquidity problems and potential material financial losses.

Table of Contents

OUR BUSINESS, AND THEREFORE OUR RESULTS OF OPERATIONS AND FINANCIAL CONDITION, MAY BE ADVERSELY AFFECTED BY THE FURTHER DISRUPTION IN THE U.S.-BASED CREDIT MARKETS AND BY FURTHER INSTABILITY OF FINANCIAL SYSTEMS.

The disruption in the U.S.-based credit markets, the repricing of credit risk and the deterioration of the financial and real estate markets over the past few years have created increasingly difficult conditions for financial institutions and certain insurance companies. These conditions include significant losses, greater volatility, significantly less liquidity, widening of credit spreads and a lack of price transparency in certain markets. While these conditions have somewhat abated since the Fall of 2008, it is difficult to predict when these conditions will completely end and the extent to which our markets, products and business will be adversely affected.

The unprecedented disruptions in the credit and financial markets had a significant material adverse impact on a number of financial institutions and limited access to capital and credit for many companies. Although we are not currently experiencing any limitation of access to our revolving credit facility (which matures in 2013) and are not aware of any issues impacting the ability or willingness of our lenders under such facility to honor their commitments to extend us credit, the failure of a lender could adversely affect our ability to borrow on that facility, which over time could negatively impact our ability to consummate significant acquisitions or make other significant capital expenditures. Continued adverse conditions in the credit markets in future years could adversely affect the availability and terms of future borrowings or renewals or refinancings.

We also have a significant amount of trade accounts receivable from some insurance companies with which we place insurance. If those insurance companies were to experience liquidity problems or other financial difficulties, we could encounter delays or defaults in payments owed to us, which could have a significant adverse impact on our financial condition and results of operations.

OUR BUSINESS, AND THEREFORE OUR RESULTS OF OPERATIONS AND FINANCIAL CONDITION, MAY BE ADVERSELY AFFECTED BY ECONOMIC CONDITIONS THAT RESULT IN REDUCED INSURER CAPACITY.

Our results of operations depend on the continued capacity of insurance carriers to underwrite risk and provide coverage, which depends in turn on insurance companies' ability to procure reinsurance. We have no control over these matters. To the extent that reinsurance becomes less widely available, we may not be able to procure the amount or types of coverage that our customers desire and the coverage we are able to procure may be more expensive or limited.

INFLATION MAY ADVERSELY AFFECT OUR BUSINESS OPERATIONS IN THE FUTURE.

Given the current macroeconomic environment, it is possible that U.S. government actions, in the form of a monetary stimulus, a fiscal stimulus, or both, to the U.S. economy, could lead to inflationary conditions that would adversely affect our cost base, resulting in an increase in our employee compensation and benefits and our other operating expenses. This could harm our margins and profitability if we are unable to increase prices or cut costs enough to offset the effects of inflation on our cost base.

WE ARE EXPOSED TO INTANGIBLE ASSET RISK; SPECIFICALLY, OUR GOODWILL MAY BECOME IMPAIRED IN THE FUTURE.

As of the date of the filing of our Annual Report on Form 10-K for the 2010 fiscal year, we have \$1,194,827,000 of goodwill recorded on our Consolidated Balance Sheet. We perform a goodwill impairment test on an annual basis and whenever events or changes in circumstances indicate that the carrying value of our goodwill may not be recoverable from estimated future cash flows. We completed our most recent evaluation of impairment for goodwill as of November 30, 2010 and identified no impairment as a result of the evaluation. A further significant and sustained decline in our stock price and market capitalization, a significant decline in our expected future cash flows, a significant adverse change in the business climate or slower growth rates could result in the need to perform an additional impairment analysis prior to the next annual goodwill impairment test. If we were to conclude that a future write-down of our goodwill is necessary, we would then record the appropriate charge, which could result in material charges that are adverse to our operating results and financial position. See Notes 1 Summary of Significant Accounting Policies and Note 3 Goodwill to the Consolidated Financial Statements and Management's Report on Internal Control Over Financial Reporting.

Table of Contents

OUR BUSINESS PRACTICES AND COMPENSATION ARRANGEMENTS ARE SUBJECT TO UNCERTAINTY DUE TO INVESTIGATIONS BY GOVERNMENTAL AUTHORITIES AND POTENTIAL RELATED PRIVATE LITIGATION.

The business practices and compensation arrangements of the insurance intermediary industry, including our practices and arrangements, are subject to uncertainty due to investigations by various governmental authorities. As disclosed in prior years, certain of our offices are parties to profit-sharing contingent commission agreements with certain insurance companies, including agreements providing for potential payment of revenue-sharing commissions by insurance companies based primarily on the overall profitability of the aggregate business written with those insurance companies and/or additional factors such as retention ratios and the overall volume of business that an office or offices place with those insurance companies. Additionally, to a lesser extent, some of our offices are parties to override commission agreements with certain insurance companies, which provide for commission rates in excess of standard commission rates to be applied to specific lines of business, such as group health business, and which are based primarily on the overall volume of business that such office or offices placed with those insurance companies. The Company has not chosen to discontinue receiving profit-sharing contingent commissions or override commissions. The legislatures of various states may adopt new laws addressing contingent commission arrangements, including laws prohibiting such arrangements, and addressing disclosure of such arrangements to insureds. Various state departments of insurance may also adopt new regulations addressing these matters. While we cannot predict the outcome of the governmental inquiries and investigations into the insurance industry's commission payment practices or the responses by the market and government regulators, any unfavorable resolution of these matters could adversely affect our results of operations. Further, if such resolution included a material decrease in our profit-sharing contingent commissions and override commissions, it would likely adversely affect our results of operations.

OUR BUSINESS, RESULTS OF OPERATIONS, FINANCIAL CONDITION OR LIQUIDITY MAY BE MATERIALLY ADVERSELY AFFECTED BY ERRORS AND OMISSIONS AND THE OUTCOME OF CERTAIN ACTUAL AND POTENTIAL CLAIMS, LAWSUITS AND PROCEEDINGS.

We are subject to various actual and potential claims, lawsuits and other proceedings relating principally to alleged errors and omissions in connection with the placement or servicing of insurance and/or the provision of services in the ordinary course of business. Because we often assist customers with matters involving substantial amounts of money, including the placement of insurance and the handling of related claims that customers may assert, errors and omissions claims against us may arise alleging potential liability for all or part of the amounts in question. Claimants may seek large damage awards, and these claims may involve potentially significant legal costs. Such claims, lawsuits and other proceedings could, for example, include claims for damages based on allegations that our employees or sub-agents improperly failed to procure coverage, report claims on behalf of customers, provide insurance companies with complete and accurate information relating to the risks being insured or appropriately apply funds that we hold for our customers on a fiduciary basis. We have established provisions against these potential matters that we believe to be adequate in the light of current information and legal advice, and we adjust such provisions from time to time according to developments.

While most of the errors and omissions claims made against us (subject to our self-insured deductibles) have been covered by our professional indemnity insurance, our business results of operations, financial condition and liquidity may be adversely affected if, in the future, our insurance coverage proves to be inadequate or unavailable, or if there is an increase in liabilities for which we self-insure. Our ability to obtain professional indemnity insurance in the amounts and with the deductibles we desire in the future may be adversely impacted by general developments in the market for such insurance or our own claims experience. In addition, claims, lawsuits and other proceedings may harm our reputation or divert management resources away from operating our business.

Table of Contents

WE DERIVE A SIGNIFICANT PORTION OF OUR COMMISSION REVENUES FROM A LIMITED NUMBER OF INSURANCE COMPANIES, THE LOSS OF WHICH COULD RESULT IN ADDITIONAL EXPENSE AND LOSS OF MARKET SHARE.

For the year ended December 31, 2010, approximately 5.0% of our total commissions and fees revenue was derived from insurance policies underwritten by one insurance company. For the year ended December 31, 2009, approximately 5.0% and 5.0%, respectively, of our total commissions and fees were derived from insurance policies underwritten by two separate insurance companies. For the year ended December 31, 2008, 5.2% of our total commissions and fees were derived from insurance policies underwritten by one insurance company. Should either of these insurance companies seek to terminate their arrangements with us, we believe that other insurance companies are available to underwrite the business, although some additional expense and loss of market share could possibly result. No other insurance company accounts for 5.0% or more of our total commissions and fees.

BECAUSE OUR BUSINESS IS HIGHLY CONCENTRATED IN CALIFORNIA, FLORIDA, INDIANA, MICHIGAN, NEW JERSEY, NEW YORK, PENNSYLVANIA, TEXAS AND WASHINGTON, ADVERSE ECONOMIC CONDITIONS OR REGULATORY CHANGES IN THESE STATES COULD ADVERSELY AFFECT OUR FINANCIAL CONDITION.

A significant portion of our business is concentrated in California, Florida, Indiana, Michigan, New Jersey, New York, Pennsylvania, Texas and Washington. For the years ended December 31, 2010, 2009 and 2008, we derived \$709.4 million or 73.4%, \$716.6 million or 74.3% and \$721.1 million, or 74.6%, of our commissions and fees, respectively, from our operations located in these states. We believe that these revenues are attributable predominately to customers in these states. We believe the current regulatory environment for insurance intermediaries in these states is no more restrictive than in other states. The insurance business is primarily a state-regulated industry, and therefore, state legislatures may enact laws that adversely affect the insurance industry. Because our business is concentrated in the states identified above, we face greater exposure to unfavorable changes in regulatory conditions in those states than insurance intermediaries whose operations are more diversified through a greater number of states. In addition, the occurrence of adverse economic conditions, natural or other disasters, or other circumstances specific to or otherwise significantly impacting these states could adversely affect our financial condition, results of operations and cash flows.

OUR GROWTH STRATEGY DEPENDS IN PART ON THE ACQUISITION OF OTHER INSURANCE INTERMEDIARIES, WHICH MAY NOT BE AVAILABLE ON ACCEPTABLE TERMS IN THE FUTURE AND WHICH, IF CONSUMMATED, MAY NOT BE ADVANTAGEOUS TO US.

Our growth strategy includes the acquisition of other insurance intermediaries. Our ability to successfully identify suitable acquisition candidates, complete acquisitions, integrate acquired businesses into our operations, and expand into new markets requires us to implement and improve our operations and our financial and management information systems. Integrated, acquired businesses may not achieve levels of revenue, profitability, or productivity comparable to our existing operations, or otherwise perform as expected. In addition, we compete for acquisition and expansion opportunities with firms and banks that have substantially greater resources than we do. Acquisitions also involve a number of special risks, such as: diversion of management's attention; difficulties in the integration of acquired operations and retention of personnel; entry into unfamiliar markets; unanticipated problems or legal liabilities; estimation of the acquisition earn-out payable; and tax and accounting issues, some or all of which could have a material adverse effect on the results of our operations, financial condition and cash flows.

Table of Contents

WE HAVE EXPANDED OUR OPERATIONS INTERNATIONALLY, WHICH MAY RESULT IN A NUMBER OF ADDITIONAL RISKS AND REQUIRE MORE MANAGEMENT TIME AND EXPENSE THAN OUR DOMESTIC OPERATIONS TO ACHIEVE OR MAINTAIN PROFITABILITY.

In 2008, we expanded our operations to the United Kingdom. This was the first time we have opened an office outside the United States. In the future, we intend to continue to consider additional international expansion opportunities. Our international operations may be subject to a number of risks, including:

Difficulties in staffing and managing foreign operations;

Less flexible employee relationships, which may make it difficult and expensive to terminate employees and which limits our ability to prohibit employees from competing with us after their employment ceases;

Political and economic instability (including acts of terrorism and outbreaks of war);

Coordinating our communications and logistics across geographic distances and multiple time zones;

Unexpected changes in regulatory requirements and laws;

Adverse trade policies, and adverse changes to any of the policies of either the U.S. or any of the foreign jurisdictions in which we operate;

Adverse changes in tax rates;

Legal or political constraints on our ability to maintain or increase prices;

Governmental restrictions on the transfer of funds to us from our operations outside the United States; and

Burdens of complying with a wide variety of labor practices and foreign laws, including those relating to export and import duties, environmental policies and privacy issues.

OUR CURRENT MARKET SHARE MAY DECREASE AS A RESULT OF INCREASED COMPETITION FROM INSURANCE COMPANIES AND THE FINANCIAL SERVICES INDUSTRY.

The insurance intermediary business is highly competitive and we actively compete with numerous firms for customers and insurance companies, many of which have relationships with insurance companies or have a significant presence in niche insurance markets that may give them an advantage over us. Because relationships between insurance intermediaries and insurance companies or customers are often local or regional in nature, this potential competitive disadvantage is particularly pronounced outside of Florida. A number of insurance companies are engaged in the direct sale of insurance, primarily to individuals, and do not pay commissions to agents and brokers. In addition, as and to the extent that banks, securities firms and insurance companies affiliate, the financial services industry may experience further consolidation, and we therefore may experience increased competition from insurance companies and the financial services industry, as a growing number of larger financial institutions increasingly, and aggressively, offer a wider variety of financial services, including insurance, than we currently offer.

PROPOSED TORT REFORM LEGISLATION, IF ENACTED, COULD DECREASE DEMAND FOR LIABILITY INSURANCE, THEREBY REDUCING OUR COMMISSION REVENUES.

Legislation concerning tort reform has been considered, from time to time, in the United States Congress and in several state legislatures. Among the provisions considered in such legislation have been limitations on damage awards, including punitive damages, and various restrictions applicable to class action lawsuits. Enactment of these or similar provisions by Congress, or by states in which we sell insurance, could reduce the demand for liability insurance policies or lead to a decrease in policy limits of such policies sold, thereby reducing our commission revenues.

WE COMPETE IN A HIGHLY-REGULATED INDUSTRY, WHICH MAY RESULT IN INCREASED EXPENSES OR RESTRICTIONS ON OUR OPERATIONS.

We conduct business in most states and are subject to comprehensive regulation and supervision by government agencies in the states in which we do business. The primary purpose of such regulation and supervision is to provide safeguards for policyholders rather than to protect the interests of our stockholders. The laws of the various state jurisdictions establish supervisory agencies with broad administrative powers with respect to, among other things, licensing of entities to transact business, licensing of agents, admittance of assets, regulating premium rates, approving policy forms, regulating unfair trade and claims practices, establishing reserve requirements and solvency standards, requiring participation in guarantee funds and shared market mechanisms, and restricting payment of dividends. Also, in response to perceived excessive cost or inadequacy of available insurance, states have from time to time created state insurance funds and assigned risk pools, which compete directly, on a subsidized basis, with private insurance providers. We act as agents and brokers for such state insurance funds and assigned risk pools in California and certain other states. These state funds and pools could choose to reduce the sales or brokerage commissions we receive. Any such reductions, in a state in which we have substantial operations, such as Florida, California or New York, could substantially affect the profitability of our operations in such state, or cause us to change our marketing focus. Further, state insurance regulators and the National Association of Insurance Commissioners continually re-examine existing laws and regulations, and such re-examination may result in the enactment of insurance-related laws and regulations, or the issuance of interpretations thereof, that adversely affect our business. Although we believe that we are in compliance in all material respects with applicable local, state and federal laws, rules and regulations, there can be no assurance that more restrictive laws, rules or regulations will not be adopted in the future that could make compliance more difficult or expensive. Specifically, recently adopted federal financial services modernization legislation could lead to additional federal regulation of the insurance industry in the coming years, which could result in increased expenses or restrictions on our operations.

PROFIT-SHARING CONTINGENT COMMISSIONS AND OVERRIDE COMMISSIONS PAID BY INSURANCE COMPANIES ARE LESS PREDICTABLE THAN USUAL, WHICH IMPAIRS OUR ABILITY TO PREDICT THE AMOUNT OF SUCH COMMISSIONS THAT WE WILL RECEIVE.

We derive a portion of our revenues from profit-sharing contingent commissions and override commissions paid by insurance companies. Profit-sharing contingent commissions are special revenue-sharing commissions paid by insurance companies based upon the profitability, volume and/or growth of the business placed with such companies during the prior year. We primarily receive these commissions in the first and second quarters of each year. These commissions generally have accounted for 4.9% to 5.9% of our previous year's total annual revenues over the last three years. Due to the inherent uncertainty of loss in our industry and changes in underwriting criteria due in part to the high loss ratios experienced by insurance companies, we cannot predict the payment of these profit-sharing contingent commissions. Further, we have no control over the ability of insurance companies to estimate loss reserves, which affects our ability to make profit-sharing calculations. Override commissions are paid by insurance companies based on the volume of business that we place with them and are generally paid over the course of the year. Because profit-sharing contingent commissions and override commissions materially affect our revenues, any decrease in their payment to us could adversely affect the results of our operations and our financial condition.

WE HAVE NOT DETERMINED THE AMOUNT OF RESOURCES AND THE TIME THAT WILL BE NECESSARY TO ADEQUATELY RESPOND TO RAPID TECHNOLOGICAL CHANGE IN OUR INDUSTRY, WHICH MAY ADVERSELY AFFECT OUR BUSINESS AND OPERATING RESULTS.

Frequent technological changes, new products and services and evolving industry standards are influencing the insurance business. The Internet, for example, is increasingly used to securely transmit benefits and related information to customers and to facilitate business-to-business information exchange and transactions. We believe that the development and implementation of new technologies will require additional investment of our capital resources in the future. We have not determined, however, the amount of resources and the time that this development and implementation may require, which may result in short-term, unexpected interruptions to our business, or may result in a competitive disadvantage in price and/or efficiency, as we develop or implement new technologies.

QUARTERLY AND ANNUAL VARIATIONS IN OUR COMMISSIONS THAT RESULT FROM THE TIMING OF POLICY RENEWALS AND THE NET EFFECT OF NEW AND LOST BUSINESS PRODUCTION MAY HAVE UNEXPECTED EFFECTS ON OUR RESULTS OF OPERATIONS.

Edgar Filing: BROWN & BROWN INC - Form 10-K

Our commission income (including profit-sharing contingent commissions and override commissions but excluding fees) can vary quarterly or annually due to the timing of policy renewals and the net effect of new and lost business production. We do not control the factors that cause these variations. Specifically, customers' demand for insurance products can influence the timing of renewals, new business and lost business (which includes policies that are not renewed), and cancellations. In addition, as discussed, we rely on insurance companies for the payment of certain commissions. Because these payments are processed internally by these insurance companies, we may not receive a payment that is otherwise expected from a particular insurance company in a particular quarter or year until after the end of that period, which can adversely affect our ability to budget for significant future expenditures. Quarterly and annual fluctuations in revenues based on increases and decreases associated with the timing of policy renewals may adversely affect our financial condition, results of operations and cash flows.

Table of Contents

WE MAY EXPERIENCE VOLATILITY IN OUR STOCK PRICE THAT COULD AFFECT YOUR INVESTMENT.

The market price of our common stock may be subject to significant fluctuations in response to various factors, including: quarterly fluctuations in our operating results; changes in securities analysts' estimates of our future earnings; changes in securities analysts' predictions regarding the short-term and long-term future of our industry; and our loss of significant customers or significant business developments relating to us or our competitors. Our common stock's market price also may be affected by our ability to meet stock analysts' earnings and other expectations. Any failure to meet such expectations, even if minor, could cause the market price of our common stock to decline. In addition, stock markets have generally experienced a high level of price and volume volatility, and the market prices of equity securities of many listed companies have experienced wide price fluctuations not necessarily related to the operating performance of such companies. These broad market fluctuations may adversely affect our common stock's market price. In the past, securities class action lawsuits frequently have been instituted against companies following periods of volatility in the market price of such companies' securities. If any such litigation is initiated against us, it could result in substantial costs and a diversion of management's attention and resources, which could have a material adverse effect on our business, results of operations, financial condition and cash flows.

OUR ABILITY TO CONDUCT BUSINESS WOULD BE NEGATIVELY IMPACTED IN THE EVENT OF AN INTERRUPTION IN INFORMATION TECHNOLOGY AND/OR DATA SECURITY AND/OR OUTSOURCING RELATIONSHIPS.

Our business relies on information systems to provide effective and efficient service to our customers, process claims, and timely and accurately report results to carriers. An interruption of our access to, or an inability to access our information technology, telecommunications or other systems could significantly impair our ability to perform such functions on a timely basis. If sustained or repeated, such a business interruption, system failure or service denial could result in a deterioration of our ability to write and process new and renewal business, provide customer service, pay claims in a timely manner or perform other necessary business functions.

Computer viruses, hackers and other external hazards could expose our data systems to security breaches. These increased risks, and expanding regulatory requirements regarding data security, could expose us to data loss, monetary and reputational damages and significant increases in compliance costs.

We are taking steps to upgrade and expand our information systems capabilities. Maintaining, protecting and enhancing these capabilities to keep pace with evolving industry and regulatory standards, and changing customer preferences, requires an ongoing commitment of significant resources. If the information we rely upon to run our businesses was found to be inaccurate or unreliable or if we fail to maintain effectively our information systems and data integrity, we could experience operational disruptions, regulatory or other legal problems, increases in operating expenses, loss of existing customers, difficulty in attracting new customers, or suffer other adverse consequences.

Our technological development projects may not deliver the benefits we expect once they are completed, or may be replaced or become obsolete more quickly than expected, which could result in the accelerated recognition of expenses. If we do not effectively and efficiently manage and upgrade our technology portfolio, or if the costs of doing so are higher than we expect, our ability to provide competitive services to new and existing customers in a cost-effective manner and our ability to implement our strategic initiatives could be adversely impacted.

IMPROPER DISCLOSURE OF CONFIDENTIAL INFORMATION COULD NEGATIVELY IMPACT OUR BUSINESS.

We are responsible for maintaining the security and privacy of our customers' confidential and proprietary information and the personal data of their employees. We have put in place policies, procedures and technological safeguards designed to protect the security and privacy of this information, however, we cannot guarantee that this information will not be improperly disclosed or accessed. Disclosure of this information could harm our reputation and subject us to liability under our contracts and laws that protect personal data, resulting in increased costs or loss of revenue.

Further, privacy laws and regulations are continuously changing and often are inconsistent among the states in which we operate. Our failure to adhere to or successfully implement procedures to respond to these requirements could result in legal liability or impairment to our reputation.

WE ARE SUBJECT TO LITIGATION WHICH, IF DETERMINED UNFAVORABLY TO US, COULD HAVE A MATERIAL ADVERSE EFFECT ON OUR BUSINESS, RESULTS OF OPERATIONS OR FINANCIAL CONDITION.

We are and may be subject to a number of claims, regulatory actions and other proceedings that arise in the ordinary course of business. We cannot, and likely will not be able to, predict the outcome of these claims, actions and proceedings with certainty.

Edgar Filing: BROWN & BROWN INC - Form 10-K

An adverse outcome in connection with one or more of these matters could have a material adverse effect on our business, results of operations or financial condition in any given quarterly or annual period. In addition, regardless of monetary costs, these matters could have a material adverse effect on our reputation and cause harm to our carrier, customer or employee relationships, or divert personnel and management resources.

Table of Contents

While we currently have insurance coverage for some of these potential liabilities, other potential liabilities may not be covered by insurance, insurers may dispute coverage or the amount of our insurance may not be enough to cover the damages awarded. In addition, some types of damages, like punitive damages, may not be covered by insurance. Insurance coverage for all or some forms of liability may become unavailable or prohibitively expensive in the future.

See Item 3 Legal Proceedings for further discussion.

OUR INABILITY TO RETAIN OR HIRE QUALIFIED EMPLOYEES, AS WELL AS THE LOSS OF ANY OF OUR EXECUTIVE OFFICERS, COULD NEGATIVELY IMPACT OUR ABILITY TO RETAIN EXISTING BUSINESS AND GENERATE NEW BUSINESS.

Our success depends on our ability to attract and retain skilled and experienced personnel. There is significant competition from within the insurance industry and from businesses outside the industry for exceptional employees, especially in key positions. If we are not able to successfully attract, retain and motivate our employees, our business, financial results and reputation could be materially and adversely affected.

Losing employees who manage or support substantial customer relationships or possess substantial experience or expertise could adversely affect our ability to secure and complete customer engagements, which would adversely affect our results of operations. Also, if any of our key professionals were to join an existing competitor or form a competing company, some of our customers could choose to use the services of that competitor instead of our services. As previously disclosed, certain of our former executive officers ceased employment with us during the past year. While they are prohibited from soliciting our employees and customers, they are not prohibited from competing with us. On March 1, 2011, a press release was issued by a private equity firm announcing that it had entered into a partnership with two of our former executive officers (Jim W. Henderson, former Vice Chairman and Chief Operating Officer who retired from the Company in August 2010, and Thomas E. Riley, former Regional President and Chief Acquisitions Officer whose employment with the Company ceased in January 2011) to form a company that would focus on building a middle market insurance brokerage firm and that it planned to invest up to \$250 million of equity capital to support the company's strategy through acquisitions and organic growth.

In addition, we could be adversely affected if we fail to adequately plan for the succession of our Senior Leaders and key executives. While we have succession plans in place and we have employment arrangements with certain key executives, these do not guarantee that the services of these executives will continue to be available to us. Although we operate with a decentralized management system, the loss of our senior managers or other key personnel, or our inability to identify, recruit and retain such personnel, could materially and adversely affect our business, operating results and financial condition.

CONSOLIDATION IN THE INDUSTRIES THAT WE SERVE COULD ADVERSELY AFFECT OUR BUSINESS.

Companies that we serve may seek to achieve economies of scale and other synergies by combining with or acquiring other companies. If two or more of our current customers merge or consolidate and combine their operations, it may decrease the overall amount of work that we perform for these customers. If one of our current customers merges or consolidates with a company that relies on another provider for its services, we may lose work from that customer or lose the opportunity to gain additional work. The increased market power of larger companies could also increase pricing and competitive pressures on us. Any of these possible results of industry consolidation could adversely affect our business.

HEALTHCARE REFORM AND INCREASED COSTS OF CURRENT EMPLOYEES' MEDICAL AND OTHER BENEFITS COULD HAVE A MATERIALLY ADVERSE AFFECT ON OUR BUSINESS.

Our profitability is affected by the cost of current employees' medical and other benefits. In recent years, we have experienced significant increases in these costs as a result of economic factors beyond our control. Although we have actively sought to contain increases in these costs, there can be no assurance we will succeed in limiting future cost increases, and continued upward pressure in these costs could reduce our profitability.

In addition, we believe that increased health care costs resulting from the 2010 health care reform bill could have a material adverse impact on our business, cash flows, financial condition or results of operations.

WE ARE SUBJECT TO RISKS ASSOCIATED WITH NATURAL DISASTERS AND GLOBAL EVENTS.

Our operations may be subject to natural disasters or other business disruptions, which could seriously harm our results of operation and increase our costs and expenses. We are susceptible to losses and interruptions caused by hurricanes (including in Florida, where our headquarters are located), earthquakes, power shortages, telecommunications failures, water shortages, floods, fire, extreme weather conditions, geopolitical

Edgar Filing: BROWN & BROWN INC - Form 10-K

events such as terrorist acts and other natural or manmade disasters. Our insurance coverage with respect to natural disasters is limited and is subject to deductibles and coverage limits. Such coverage may not be adequate, or may not continue to be available at commercially reasonable rates and terms.

Table of Contents

CERTAIN OF OUR EXISTING STOCKHOLDERS HAVE SIGNIFICANT CONTROL OF THE COMPANY.

At December 31, 2010, our executive officers, directors and certain of their family members collectively beneficially owned approximately 18.7% of our outstanding common stock, of which J. Hyatt Brown, our Chairman, and his family members, which include his son Powell Brown, our President and Chief Executive Officer, beneficially owned approximately 16.9%. As a result, our executive officers, directors and certain of their family members have significant influence over (1) the election of our Board of Directors, (2) the approval or disapproval of any other matters requiring stockholder approval, and (3) our affairs and policies.

CHANGES IN LAWS AND REGULATIONS MAY INCREASE OUR COSTS.

The Sarbanes-Oxley Act of 2002, as amended (Sarbanes-Oxley) and the Dodd-Frank Act enacted in 2010 have required changes in some of our corporate governance, securities disclosure and compliance practices. In response to the requirements of these Acts, the SEC and the New York Stock Exchange have promulgated and will continue to promulgate new rules on a variety of subjects. Compliance with these new rules has increased our legal and financial and accounting costs. While these costs are no longer increasing, they may in fact increase in the future. These developments may make it more difficult and more expensive for us to obtain director and officer liability insurance, and we may be forced to accept reduced coverage or incur substantially higher costs to obtain coverage. Likewise, these developments may make it more difficult for us to attract and retain qualified members of our Board of Directors or qualified executive officers.

From time to time new regulations are enacted, or existing requirements are changed, and it is difficult to anticipate how such regulations and changes will be implemented and enforced. We continue to evaluate the necessary steps for compliance with regulations as they are enacted. For example, as global warming issues become more prevalent, the U.S. and foreign governments are beginning to respond to these issues. This increasing governmental focus on global warming may result in new environmental regulations that may negatively affect us and our customers. This could cause us to incur additional direct costs in complying with any new environmental regulations, as well as increased indirect costs resulting from our customers incurring additional compliance costs that get passed on to us. These costs may adversely impact our operations and financial condition.

Table of Contents

DUE TO INHERENT LIMITATIONS, THERE CAN BE NO ASSURANCE THAT OUR SYSTEM OF DISCLOSURE AND INTERNAL CONTROLS AND PROCEDURES WILL BE SUCCESSFUL IN PREVENTING ALL ERRORS OR FRAUD, OR IN INFORMING MANAGEMENT OF ALL MATERIAL INFORMATION IN A TIMELY MANNER.

Our management, including our Chief Executive Officer and Chief Financial Officer, does not expect that our disclosure controls and internal controls and procedures will prevent all error and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system reflects that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur simply because of error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of a control.

The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, a control may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and may not be detected.

IF WE RECEIVE OTHER THAN AN UNQUALIFIED OPINION ON THE ADEQUACY OF OUR INTERNAL CONTROL OVER FINANCIAL REPORTING AS OF DECEMBER 31, 2011 AND FUTURE YEAR-ENDS AS REQUIRED BY SECTION 404 OF SARBANES-OXLEY, INVESTORS COULD LOSE CONFIDENCE IN THE RELIABILITY OF OUR FINANCIAL STATEMENTS, WHICH COULD RESULT IN A DECREASE IN THE VALUE OF YOUR SHARES.

As directed by Section 404 of Sarbanes-Oxley, the SEC adopted rules requiring public companies to include an annual report on internal control over financial reporting on Form 10-K that contains an assessment by management of the effectiveness of our internal control over financial reporting. We continuously conduct a rigorous review of our internal control over financial reporting in order to assure compliance with the Section 404 requirements. However, if our independent auditors interpret the Section 404 requirements and the related rules and regulations differently than we do, or if our independent auditors are not satisfied with our internal control over financial reporting or with the level at which it is documented, operated or reviewed, they may issue a report other than an unqualified opinion. A report other than an unqualified opinion could result in an adverse reaction in the financial markets due to a loss of confidence in the reliability of our financial statements.

THERE ARE INHERENT UNCERTAINTIES INVOLVED IN ESTIMATES, JUDGMENTS AND ASSUMPTIONS USED IN THE PREPARATION OF FINANCIAL STATEMENTS IN ACCORDANCE WITH GENERALLY ACCEPTED ACCOUNTING PRINCIPLES IN THE UNITED STATES OF AMERICA (GAAP). ANY CHANGES IN ESTIMATES, JUDGMENTS AND ASSUMPTIONS COULD HAVE A MATERIAL ADVERSE EFFECT ON OUR BUSINESS, FINANCIAL POSITION AND RESULTS OF OPERATIONS.

The consolidated and condensed Consolidated Financial Statements included in the periodic reports we file with the SEC are prepared in accordance with GAAP. The preparation of financial statements in accordance with GAAP involves making estimates, judgments and assumptions that affect reported amounts of assets (including intangible assets), liabilities and related reserves, revenues, expenses and income. Estimates, judgments and assumptions are inherently subject to change in the future, and any such changes could result in corresponding changes to the amounts of assets, liabilities, revenues, expenses and income, and could have a material adverse effect on our financial position, results of operations and cash flows.

None.

ITEM 2. Properties.

We lease our executive offices, which are located at 220 South Ridgewood Avenue, Daytona Beach, Florida 32114, and 3101 West Martin Luther King Jr. Boulevard, Suite 400, Tampa, Florida 33607. We lease offices at each of our 205 locations, with the exception of Dansville and Jamestown, New York, where we own the buildings in which our offices are located. There are no outstanding mortgages on our owned properties. Our operating leases expire on various dates. These leases generally contain renewal options and rent escalation clauses based on increases in the lessors' operating expenses and other charges. We expect that most leases will be renewed or replaced upon expiration. We believe that our facilities are suitable and adequate for present purposes, and that the productive capacity in such facilities is substantially being utilized. From time to time, we may have unused space and seek to sublet such space to third parties, depending on the demand for office space in the locations involved. In the future, we may need to purchase, build or lease additional facilities to meet the requirements projected in our long-term business plan. See Note 13 to the Consolidated Financial Statements for additional information on our lease commitments.

ITEM 3. Legal Proceedings.

See Note 13 to the Consolidated Financial Statements for information regarding our legal proceedings.

ITEM 4. Removed and Reserved.**PART II****ITEM 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities.**

Our common stock is listed on the New York Stock Exchange (NYSE) under the symbol BRO. The table below sets forth, for the quarterly periods indicated, the intra-day high and low sales prices for our common stock as reported on the NYSE Composite Tape, and the cash dividends declared on our common stock.

	High	Low	Cash Dividends Per Common Share
2009			
First Quarter	\$ 21.50	\$ 14.95	\$ 0.075
Second Quarter	\$ 20.30	\$ 17.57	\$ 0.075
Third Quarter	\$ 20.00	\$ 18.33	\$ 0.075
Fourth Quarter	\$ 19.81	\$ 17.10	\$ 0.0775
2010			
First Quarter	\$ 18.10	\$ 16.32	\$ 0.0775
Second Quarter	\$ 20.45	\$ 17.65 ⁽¹⁾	\$ 0.0775
Third Quarter	\$ 20.53	\$ 18.85	\$ 0.0775
Fourth Quarter	\$ 24.39	\$ 19.88	\$ 0.08

(1) Excluding the official closing stock price of \$8.04 on May 6, 2010, the date of the NYSE Flash Crash.

Edgar Filing: BROWN & BROWN INC - Form 10-K

On February 22, 2011, there were 142,557,243 shares of our common stock outstanding, held by approximately 1,314 shareholders of record.

We intend to continue to pay quarterly dividends, subject to continued capital availability and determination by our Board of Directors that cash dividends continue to be in the best interests of our stockholders. Our dividend policy may be affected by, among other items, our views on potential future capital requirements, including those relating to the creation and expansion of sales distribution channels and investments and acquisitions, legal risks, stock repurchase programs and challenges to our business model.

Table of Contents**Equity Compensation Plan Information**

The following table sets forth information as of December 31, 2010, with respect to compensation plans under which the Company's equity securities are authorized for issuance:

Plan Category	Number of securities to be issued upon exercise of outstanding options, warrants and rights (a)(1)	Weighted-average exercise price of outstanding options, warrants and rights (b)(2)	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a)) (c)(3)
Equity compensation plans approved by shareholders:			
Brown & Brown, Inc. 2000 Incentive Stock Option Plan	1,875,170	\$ 17.53	
Brown & Brown, Inc. 2010 Stock Incentive Plan	N/A	N/A	6,340,384
Brown & Brown, Inc. 1990 Employee Stock Purchase Plan	N/A	N/A	2,785,310
Brown & Brown, Inc. Performance Stock Plan	N/A	N/A	
Total	1,875,170	\$ 17.53	9,125,694
Equity compensation plans not approved by shareholders			

- (1) In addition to the number of securities listed in this column, 3,429,968 shares are issuable upon the vesting of restricted stock granted under the Brown & Brown, Inc. Stock Performance Plan and the Brown & Brown, Inc. 2010 Stock Incentive Plan, which represents the maximum number of shares that can vest based on the achievement of certain performance criteria.
- (2) The weighted-average exercise price excludes outstanding restricted stock as there is no exercise price associated with these equity awards.
- (3) All of the shares available for future issuance under the Brown & Brown, Inc. 2000 Incentive Stock Option Plan, the Brown & Brown, Inc. Stock Performance Plan, and the Brown & Brown, Inc. 2010 Stock Incentive Plan may be issued in connection with options, warrants, rights, restricted stock, or other stock-based awards.

Sales of Unregistered Securities

We did not sell any unregistered securities during 2010.

Issuer Purchases of Equity Securities

The following table presents information with respect to our purchases of our common stock during the three months ended December 31, 2010.

Period	Total Number of Shares Purchased(1)	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs
October 1, 2010 to October 31, 2010	25,804	\$ 22.16		\$
November 1, 2010 to November 30, 2010		\$		\$

Edgar Filing: BROWN & BROWN INC - Form 10-K

December 1, 2010 to December 31, 2010	381,626	\$	24.12	\$
Total	407,430	\$	24.00	\$

- (1) All of the shares reported above as purchased are attributable to shares withheld for employees payroll taxes and withholding taxes pertaining to the vesting of restricted shares awarded under our Performance Stock Plan.

Table of Contents**PERFORMANCE GRAPH**

The following graph is a comparison of five-year cumulative total stockholder returns for our common stock as compared with the cumulative total stockholder return for the NYSE Composite Index, and a group of peer insurance broker and agency companies (Aon Corporation, Arthur J. Gallagher & Co, Marsh & McLennan Companies, Inc., and Willis Group Holdings, Ltd.). The returns of each company have been weighted according to such companies' respective stock market capitalizations as of December 31, 2005 for the purposes of arriving at a peer group average. The total return calculations are based upon an assumed \$100 investment on December 31, 2005, with all dividends reinvested.

COMPANY/INDEX/MARKET	FISCAL YEAR ENDING					
	12/31/2005	12/31/2006	12/30/2007	12/29/2008	12/31/2009	12/31/2010
Brown & Brown, Inc.	100.00	93.02	78.23	70.56	61.64	83.42
NYSE Market Index	100.00	120.47	131.15	79.67	102.20	115.88
Peer Group	100.00	101.01	105.33	97.52	90.16	115.05

We caution that the stock price performance shown in the graph should not be considered indicative of potential future stock price performance.

Table of Contents**ITEM 6. Selected Financial Data.**

The following selected Consolidated Financial Data for each of the five fiscal years in the period ended December 31, 2010 have been derived from our Consolidated Financial Statements. Such data should be read in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations in Item 7 of Part II of this Annual Report and with our Consolidated Financial Statements and related Notes thereto in Item 8 of Part II of this Annual Report.

Edgar Filing: BROWN & BROWN INC - Form 10-K

Shareholders' equity as of December 31, 2010, 2009, 2008, 2007, and 2006 included \$7, \$5, \$13, \$13, and \$9,144, respectively, as a result of the Company's accounting for certain equity securities and interest rate swap agreement.

Table of Contents

ITEM 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.
General

The following discussion should be read in conjunction with our Consolidated Financial Statements and the related Notes to those Consolidated Financial Statements included elsewhere in this Annual Report.

We are a diversified insurance agency, wholesale brokerage, insurance programs and services organization headquartered in Daytona Beach and Tampa, Florida. As an insurance intermediary, our principal sources of revenue are commissions paid by insurance companies and, to a lesser extent, fees paid directly by customers. Commission revenues generally represent a percentage of the premium paid by an insured and are materially affected by fluctuations in both premium rate levels charged by insurance companies and the insureds' underlying insurable exposure units, which are units that insurance companies use to measure or express insurance exposed to risk (such as property values, sales and payroll levels) to determine what premium to charge the insured. Insurance companies establish these premium rates based upon many factors, including reinsurance rates paid by such insurance companies, none of which we control.

The volume of business from new and existing customers, fluctuations in insurable exposure units and changes in general economic and competitive conditions all affect our revenues. For example, level rates of inflation or a continuing general decline in economic activity could limit increases in the values of insurable exposure units. Conversely, the increasing costs of litigation settlements and awards have caused some customers to seek higher levels of insurance coverage. Historically, our revenues have typically grown as a result of an intense focus on net new business growth and acquisitions.

We foster a strong, decentralized sales culture with a goal of consistent, sustained growth over the long term. As of January 2011, our senior leadership group included eight executive officers with regional responsibility for oversight of designated operations within the Company. In July 2010, J. Scott Penny was promoted to the position of Regional President, and in January 2011, he was named Chief Acquisitions Officer. Also in January, 2011, Linda S. Downs and Charles H. Lydecker were promoted to be Regional Presidents. As previously announced, Jim W. Henderson, Vice Chairman and Chief Operating Officer, retired from the Company in August 2010, and Kenneth D. Kirk, Regional President, and Thomas E. Riley, Regional President and Chief Acquisitions Officer, ceased employment with the Company in January 2011.

We increased revenues every year from 1993 to 2008. In 2009, our revenue dropped to \$967.9 million, then increased 0.6% to \$973.5 million in 2010. Our revenues grew from \$95.6 million in 1993 to \$973.5 million in 2010, reflecting a compound annual growth rate of 14.6%. In the same period, we increased net income from \$8.0 million to \$161.8 million in 2010, a compound annual growth rate of 19.3%.

The past four years have posed significant challenges for us and for our industry in the form of a prevailing decline in insurance premium rates, commonly referred to as a soft market; increased significant governmental involvement in the Florida insurance marketplace since 2007, resulting in a substantial loss of revenue for us; and, beginning in the second half of 2008 and throughout 2010, increased pressure on the values of insurable exposure units as the consequence of the general weakening of the economy in the United States.

Beginning in the first quarter of 2007 through the fourth quarter of 2010 we experienced negative internal revenue growth each quarter. This was due primarily to the soft market, and, beginning in the second half of 2008 and throughout 2010, the decline in insurable exposure units, which further reduced our commissions and fees revenue. Part of the decline in 2007 was the result of the increased governmental involvement in the Florida insurance marketplace, as described below in *The Florida Insurance Overview*. One industry segment that was hit especially hard during these years was the home-building industry in southern California and, to a lesser extent in Nevada, Arizona and Florida. We have a wholesale brokerage operation that focuses on placing property and casualty insurance products for that home-building segment. The revenues from this operation were significantly adversely impacted during 2007 through 2009 by these national economic trends, and by 2010 these revenues were insignificant.

While insurance premium rates continued to decline for most lines of coverage during 2010, the rate of decline appeared to be slowing. In 2009 and 2010, continued declining exposure units had a greater negative impact on our commissions and fees revenue than declining insurance premium rates. Although we do not anticipate any significant changes to the insurance premium rates during 2011, there appears to be a very gradual improvement in the rate of decline of exposure units which we expect will continue into 2011.

Table of Contents

We also earn profit-sharing contingent commissions, which are profit-sharing commissions based primarily on underwriting results, but may also reflect considerations for volume, growth and/or retention. These commissions are primarily received in the first and second quarters of each year, based on the aforementioned considerations for the prior year(s). Over the last three years, profit-sharing contingent commissions have averaged approximately 5.6% of the previous year's total commissions and fees revenue. Profit-sharing contingent commissions are typically included in our total commissions and fees in the Consolidated Statements of Income in the year received. The term "core commissions and fees" excludes profit-sharing contingent commissions and therefore represents the revenues earned directly from specific insurance policies sold, and specific fee-based services rendered. In recent years, five national insurance companies have replaced the loss-ratio based profit-sharing contingent commission calculation with a guaranteed fixed-base methodology, referred to as "Guaranteed Supplemental Commissions" (GSCs). Since these GSCs are not subject to the uncertainty of loss ratios, they are accrued throughout the year based on actual premiums written. As of December 31, 2010, we earned \$13.4 million from GSCs during 2010. Most of this total will not be collected until the first quarter of 2011. For the twelve-month periods ended December 31, 2009 and 2008, we earned \$15.9 million and \$13.4 million, respectively, from GSCs.

Fee revenues relate to fees negotiated in lieu of commissions, which are recognized as services are rendered. Fee revenues are generated primarily by: (1) our Services Division, which provides insurance-related services, including third-party claims administration and comprehensive medical utilization management services in both the workers' compensation and all-lines liability arenas, as well as Medicare set-aside services, and Social Security disability and Medicare benefits advocacy services, and (2) our National Programs and Wholesale Brokerage Divisions, which earn fees primarily for the issuance of insurance policies on behalf of insurance companies. These services are provided over a period of time, typically one year. Fee revenues, as a percentage of our total commissions and fees, represented 14.6% in 2010, 13.3% in 2009 and 13.7% in 2008.

Historically, investment income has consisted primarily of interest earnings on premiums and advance premiums collected and held in a fiduciary capacity before being remitted to insurance companies. Our policy is to invest available funds in high-quality, short-term fixed income investment securities. As a result of the bank liquidity and solvency issues in the United States in the last quarter of 2008, we moved substantial amounts of our cash into non-interest bearing checking accounts so that they would be fully insured by the Federal Depository Insurance Corporation (FDIC) or into money-market investment funds (a portion of which is FDIC insured) of SunTrust and Wells Fargo, two large national banks. Investment income also includes gains and losses realized from the sale of investments.

Florida Insurance Overview

Many states have established "Residual Markets," which are governmental or quasi-governmental insurance facilities that provide coverage to individuals and/or businesses that cannot buy insurance in the private marketplace, i.e., "insurers of last resort." These facilities can be designed to cover any type of risk or exposure; however, the exposures most commonly subject to such facilities are automobile or high-risk property exposures. Residual Markets can also be referred to as FAIR Plans, Windstorm Pools, Joint Underwriting Associations, or may even be given names styled after the private sector like "Citizens Property Insurance Corporation" in Florida.

In August 2002, the Florida Legislature created "Citizens Property Insurance Corporation" ("Citizens"), to be the "insurer of last resort" in Florida. Initially, Citizens charged insurance rates that were higher than those generally prevailing in the private insurance marketplace. In each of 2004 and 2005, four major hurricanes made landfall in Florida. As a result of the ensuing significant insurance property losses, Florida property insurance rates increased in 2006. To counter the higher property insurance rates, the State of Florida instructed Citizens to significantly reduce its property insurance rates beginning in January 2007. By state law, Citizens guaranteed these rates through January 1, 2010. As a result, Citizens became one of the most, if not the most, competitive risk-bearers for a large percentage of Florida's commercial habitational coastal property exposures, such as condominiums, apartments, and certain assisted living facilities. Additionally, Citizens became the only insurance market for certain homeowner policies throughout Florida. Today, Citizens is one of the largest underwriters of coastal property exposures in Florida. Effective January 1, 2010, Citizens raised its insurance rates, on average, 10% for properties with values of less than \$10 million, and more than 10% for properties with values in excess of \$10 million. It is expected that Citizens will continue to increase its insurance rates during 2011 and, as a result, the impact of Citizens should continue to lessen in 2011.

In 2007, Citizens became the principal direct competitor of the insurance companies that underwrite the condominium program administered by one of our indirect subsidiaries, Florida Intracoastal Underwriters, Limited Company ("FIU"), and the excess and surplus lines insurers represented by our wholesale brokers such as Hull & Company, Inc., another of our subsidiaries. Consequently, these operations lost significant amounts of revenue to Citizens. From 2008 through 2010, Citizens' impact was not as dramatic as it had been in 2007; FIU's core revenues decreased 9.2% in this period. Citizens continued to be competitive against the excess and surplus lines insurers, and therefore Citizens negatively affected the revenues of our Florida-based wholesale brokerage operations, such as Hull & Company, Inc., from 2007 through 2010, although the impact is decreasing from year to year.

Table of Contents

Citizens' impact on our Florida Retail Division was less severe than on our National Programs and Wholesale Brokerage Divisions, because our retail offices have the ability to place business with Citizens, although at slightly lower commission rates and with greater difficulty than is the case with other insurance companies.

Current Year Company Overview

For the fourth consecutive year, we experienced negative internal growth of our commissions and fees revenue as a direct result of the general weakness of the economy since the second half of 2008 and the continuing soft market. Our total commissions and fees revenue excluding the effect of recent acquisitions, profit-sharing contingencies and sales of books of business over the last twelve months reflected a negative internal growth rate of (4.7)%. However, including the revenues from new acquisitions, increased profit-sharing contingencies, and the increase in other income, total revenues in 2010 increased 0.6% over 2009.

Income before income taxes in 2010 increased over 2009 by 4.5%, or \$11.3 million, to \$266.1 million. Of the \$11.3 million increase, \$5.6 million related to increased revenues with the remaining increase attributable to improved cost efficiencies, primarily in the area of rent expense and legal costs.

Acquisitions

Approximately 37,500 independent insurance agencies are estimated to be operating currently in the United States. Part of our continuing business strategy is to attract high-quality insurance intermediaries to join our operations. From 1993 through 2010, we acquired 367 insurance intermediary operations, including acquired books of business (customer accounts). Acquisition activity slowed in 2009 in part because potential sellers were unhappy with reduced agency valuations that were the consequence of lower revenues and operating profits due to the continuing soft market and decreasing exposure units, and therefore opted to defer the sales of their insurance agencies. The economic outlook in 2010 improved slightly over 2009 and as a result, certain sellers viewed 2010 as a better time in which to join our organization, and consequently, we were able to close a greater number of acquisitions.

A summary of our acquisitions over the last three years is as follows (in millions, except for number of acquisitions):

	Number of Acquisitions		Estimated Annual Revenues	Net Cash Paid	Notes Issued	Liabilities Assumed	Recorded Earn-out Payable	Aggregate Purchase Price
	Asset	Stock						
2010	33		\$ 70.6	\$ 158.6	\$ 0.8	\$ 2.3	\$ 25.1	\$ 186.8
2009	11		\$ 26.5	\$ 40.4	\$ 6.9	\$ 1.8	\$ 7.2	\$ 56.3
2008	43	2	\$ 120.2	\$ 255.8	\$ 8.3	\$ 14.6	\$	\$ 278.7

Table of Contents**RESULTS OF OPERATIONS FOR THE YEARS ENDED DECEMBER 31, 2010, 2009 AND 2008**

The following discussion and analysis regarding results of operations and liquidity and capital resources should be considered in conjunction with the accompanying Consolidated Financial Statements and related Notes.

Financial information relating to our Consolidated Financial Results is as follows (in thousands, except percentages):

Capital expenditures	\$ 10,454		\$ 11,310		\$ 14,115
Total assets at December 31	\$ 2,400,814		\$ 2,224,226		\$ 2,119,580

Commissions and Fees

Commissions and fees revenue, including profit-sharing contingent commissions, increased 0.2% in 2010, but decreased 0.1% in 2009 after a 5.6% increase in 2008. Profit-sharing contingent commissions increased \$7.1 million to \$54.7 million in 2010, with the increase primarily due to the performance of our National Programs Division. Profit-sharing contingent commissions decreased \$8.8 million to \$47.6 million in 2009 primarily due to higher loss ratios, and therefore, lower profitability for insurance carriers. Core commissions and fees are our commissions and fees, less (i) profit-sharing contingent commissions and (ii) divested business (commissions and fees generated from offices, books of business or niches sold or terminated). Core commissions and fees revenue decreased 4.7% in 2010, 5.1% in 2009 and 5.5% in 2008. The 2010 decrease of (4.7)% represents \$42.7 million of net lost core commissions and fees revenue, of which \$7.6 million was attributable to our retail, wholesale brokerage and services operations based in Florida, while \$21.8 million related to our non-Florida retail, wholesale brokerage and services operations. The remaining \$13.3 million of net lost core commissions and fees revenue related to our National Programs Division, of which \$10.7 million represented net lost business at Proctor Financial, Inc., our subsidiary which provides lender-placed insurance (Proctor).

The 2009 decrease of (5.1)% represented \$46.5 million of net lost core commissions and fees revenue, of which \$22.4 million was attributable to our retail, wholesale brokerage and services operations based in Florida. The decrease in our non-Florida retail and wholesale brokerage operations in 2009 was \$35.1 million, but that was substantially offset by Proctor's strong revenue growth of \$13.4 million.

Investment Income

Edgar Filing: BROWN & BROWN INC - Form 10-K

Investment income increased slightly to \$1.3 million in 2010, compared with \$1.2 million in 2009 and \$6.1 million in 2008. The \$4.9 million decrease in 2009 from 2008 was primarily due to substantially lower investment yields in 2009, even though the average daily invested balance was higher in 2009 than in 2008.

Table of Contents**Other Income, Net**

Other income for 2010 reflected income of \$5.2 million, compared with \$1.9 million in 2009 and \$5.5 million in 2008. Other income consists primarily of gains and losses from the sale and disposition of assets. However, for 2010, other income also included \$1.5 million paid to us in accordance with judgments rendered in our favor in litigation against former employees for violation of restrictive covenants contained in their employment agreements with us. Also in 2010, we recognized gains of \$1.2 million from sales of books of business (customer accounts). Although we are not in the business of selling books of business, we periodically will sell an office or a book of business because it does not produce reasonable margins or demonstrate a potential for growth, or for other reasons related to the particular assets in question.

Employee Compensation and Benefits

Employee compensation and benefits expense increased, on a net basis, approximately 0.6% or \$3.1 million in 2010. However, that net increase included \$10.6 million of new compensation costs related to new acquisitions that were stand-alone offices, and therefore, employee compensation and benefits from those offices that existed in same time periods of 2010 and 2009 (including the new acquisitions that folded in to those offices) decreased by \$7.4 million. The employee compensation and benefit reductions from these offices were primarily related to reductions in staff and management salaries and bonuses of \$12.6 million, off-set by an increase in compensation of new producers of \$3.2 million for new salaried producers and \$0.8 million for new commissioned producers, and an increase of \$1.1 million in group health insurance costs.

Employee compensation and benefits decreased, on a net basis, approximately (0.2)% or \$1.1 million in 2009. However, that net decrease included \$17.3 million of new compensation costs related to new acquisitions that were stand-alone offices, and therefore, employee compensation and benefits from those offices that existed in same time periods of 2009 and 2008 (including the new acquisitions that folded in to those offices) decreased by \$18.4 million. The employee compensation and benefit reductions from these offices were primarily related to reductions in producer commissions, staff salaries and bonuses of \$15.9 million, off-set by an increase in compensation of new salaried producers of \$1.1 million.

Employee compensation and benefits expense as a percentage of total revenues remained flat at 50.1% for both 2010 and 2009, but was 49.7% in 2008. The increase in the percentage in 2009 from 2008 was the result of the continued reduction of compensation expense due to headcount reductions. We had 5,286 full-time equivalent employees at December 31, 2010, compared with 5,206 at December 31, 2009 and 5,398 at December 31, 2008. Of the net increase of 80 full-time equivalent employees at December 31, 2010 over the prior year-end, an increase of 226 was attributable to acquisitions that continued as stand-alone offices, thus reflecting a net reduction of 146 employees in the offices existing at both year-ends.

Non-Cash Stock-Based Compensation

The Company has an employee stock purchase plan, and grants stock options and non-vested stock awards to its employees. Compensation expense for all share-based awards is recognized in the financial statements based upon the grant-date fair value of those awards.

For 2010, 2009 and 2008, the non-cash stock-based compensation expense incorporates the costs related to each of our four stock-based plans as explained in Note 11 of the Notes to the Consolidated Financial Statements.

Non-cash stock-based compensation decreased 7.0% or \$0.5 million in 2010 as a result of headcount reductions. Effective January 2011, we issued new grants under our Stock Incentive Plan (SIP) that will vest in six to ten years, subject to the achievement of certain performance criteria by grantees, and the achievement of consolidated EPS growth at certain levels by the Company, over a five-year measurement period ending December 31, 2015. We estimate that the incremental cost of these new SIP grants in 2011 will be approximately \$5.1 million.

Other Operating Expenses

As a percentage of total revenues, other operating expenses represented 14.0% in 2010, 14.8% in 2009 and 14.1% in 2008. Other operating expenses in 2010 decreased \$7.5 million from 2009, of which \$2.4 million was related to acquisitions that joined as stand-alone offices. Therefore, other operating expenses from those offices that existed in the same periods in both 2010 and 2009 (including the new acquisitions that folded in to those offices) decreased by \$9.9 million. Of the \$9.9 million decrease, \$3.2 million related to reduced net legal fees, \$2.5 million related to reductions in office rent expense, and the remaining \$4.2 million related to broad-based reductions relating to travel and entertainment expenses, bad debt expenses, supplies, and postage and delivery expenses. Of the \$3.2 million reduction in net legal fees, \$3.8 million related to a reimbursement by an insurance carrier of previously incurred legal costs.

Edgar Filing: BROWN & BROWN INC - Form 10-K

Other operating expenses in 2009 increased \$6.0 million over 2008, of which \$4.6 million was related to acquisitions that joined as stand-alone offices. Therefore, other operating expenses from those offices that existed in the same periods in both 2009 and 2008 (including the new acquisitions that folded in to those offices) increased by \$1.4 million. Of the \$1.4 million increase, \$3.0 million resulted from additional legal fees, but those costs were partially offset by broad-based reductions relating to travel and entertainment expenses, supplies, and postage and delivery expenses.

Table of Contents

Amortization

Amortization expense increased \$1.6 million, or 3.2%, in 2010, \$3.2 million, or 6.9%, in 2009, and \$6.2 million, or 15.3%, in 2008. The increases in 2010 and 2009 were due to the amortization of additional intangible assets as a result of acquisitions completed in those years.

Depreciation

Depreciation decreased (4.5)% in 2010 and (0.3)% in 2009 but increased 4.1% in 2008. The decreases in 2010 and 2009 were primarily due to reduced acquisition activity. The increase in 2008 was primarily due to the purchase of new computers, related equipment and software, corporate aircraft and the depreciation of fixed assets associated with acquisitions completed that year.

Interest Expense

Interest expense decreased \$0.1 million, or (0.9)%, in 2010 and \$0.1 million, or (0.6)%, in 2009 primarily as a result of principal payments during those years. Interest expense increased \$0.9 million, or 6.4%, in 2008 over 2007 primarily as a result of the additional \$25.0 million that was borrowed in February 2008.

Change in estimated acquisition earn-out payables

For acquisitions consummated after January 1, 2009, \$32.3 million was initially recorded as estimated acquisition earn-out payables. During 2010, the fair value of the estimated acquisition earn-out payables was re-evaluated on a quarterly basis and reduced, in aggregate, by \$1.7 million, which resulted in a credit to the Consolidated Statement of Income. Additionally, the interest expense accretion to the Consolidated Statement of Income for 2010 and 2009 was \$0.9 million and \$0.1 million, respectively.

Income Taxes

The effective tax rate on income from operations was 39.2% in 2010, 39.8% in 2009 and 39.0% in 2008. The lower effective annual tax rate in 2010 compared with 2009 was primarily the result of lower average effective state income tax rates. The higher effective annual tax rate in 2009 compared with 2008 was primarily the result of reduced benefits from tax-exempt interest income, and increased amounts of business conducted in states having higher state tax rates.

Table of Contents**RESULTS OF OPERATIONS SEGMENT INFORMATION**

As discussed in Note 15 of the Notes to Consolidated Financial Statements, we operate four reportable segments or divisions: the Retail, National Programs, Wholesale Brokerage, and Services Divisions. On a divisional basis, increases in amortization, depreciation and interest expenses result from completed acquisitions within a given division in a particular year. Likewise, other income in each division primarily reflects net gains on sales of customer accounts and fixed assets. As such, in evaluating the operational efficiency of a division, management emphasizes the net internal growth rate of core commissions and fees revenue, the gradual improvement of the ratio of total employee compensation and benefits to total revenues, and the gradual improvement of the ratio of other operating expenses to total revenues.

Total core commissions and fees are our total commissions and fees less (i) profit-sharing contingent commissions (revenue derived from special revenue-sharing commissions from insurance companies based upon the volume and the growth and/or profitability of the business placed with such companies during the prior year), and (ii) divested business (commissions and fees generated from offices, books of business or niches sold by the Company or terminated).

The internal growth rates for our core commissions and fees for the three years ended December 31, 2010, 2009 and 2008, by divisional units are as follows (in thousands, except percentages):

2010	For the years ended December 31,		Total Net Change	Total Net Growth %	Less Acquisition Revenues	Internal Net Growth \$	Internal Net Growth %
	2010	2009					
Florida Retail	\$ 151,113	\$ 155,928	\$ (4,815)	(3.1)%	\$ 1,509	\$ (6,324)	(4.1)%

- (1) The Retail Division includes commissions and fees reported in the Other column of the Segment Information in Note 15 of the Notes to the Consolidated Financial Statements, which includes corporate and consolidation items.

Table of Contents**Retail Division**

The Retail Division provides a broad range of insurance products and services to commercial, public and quasi-public, professional and individual insured customers. Approximately 96.2% of the Retail Division's commissions and fees revenue is commission-based. Because most of our other operating expenses do not change as premiums fluctuate, we believe that most of any fluctuation in the commissions, net of related compensation, which we receive will be reflected in our pre-tax income.

Financial information relating to Brown & Brown's Retail Division is as follows (in thousands, except percentages):

	2010	Percent Change	2009	Percent Change	2008
REVENUES

Net internal growth rate - core commissions and fees	(4.8)%		(8.7)%		(6.9)%
Employee compensation and benefits ratio	50.2%		50.0%		49.4%
Other operating expenses ratio	16.2%		16.7%		15.8%
Capital expenditures	\$ 4,852		\$ 3,459		\$ 4,152
Total assets at December 31	\$ 1,914,587		\$ 1,764,249		\$ 1,687,137

The Retail Division's total revenues in 2010 decreased (1.4)%, or \$8.3 million, from the same period in 2009, to \$575.1 million. Profit-sharing contingent commissions in 2010 decreased \$4.6 million, or (23.1)%, from 2009, primarily due to increased loss ratios resulting in lower profitability for insurance companies in 2009. The \$4.1 million net decrease in commissions and fees revenue resulted from the following factors: (i) an increase of approximately \$23.6 million related to the core commissions and fees revenue from acquisitions that had no comparable revenues in 2009, (ii) a decrease of \$1.5 million related to commissions and fees revenue recorded in 2009 from business divested during 2010, and (iii) the remaining net decrease of \$26.9 million was primarily attributable to net lost business. The Retail Division's negative internal growth rate for core commissions and fees revenue was (4.8)% for 2010, and was driven by lower property insurance rates and reduced insurable exposure units in most areas of the United States.

Income before income taxes for 2010 increased 5.1%, or \$6.3 million, over the same period in 2009, to \$128.0 million. Even though total revenues were down \$8.3 million, total expenses were reduced by \$14.6 million. Employee compensation and benefits expense was reduced \$2.7 million primarily due to lower salaries and bonuses, non-cash stock-based compensation was reduced by \$1.2 million as a result of lower participation in the employee stock purchase plan and certain forfeitures of performance stock plan shares, other operating expenses were reduced by \$4.5 million due to broad-based expense reductions, a lower inter-company interest allocation of \$4.5 million resulting from reduced acquisition activity and a \$1.7 million credit resulted from changes in the estimated acquisition earn-out payables. Additionally, interest expenses of this Division for prior acquisitions decreased by \$4.6 million, primarily due to the 1.0% annual reduction in the cost of capital interest rate charged against the total purchase price of the Division's prior acquisitions.

Table of Contents

The Retail Division's total revenues in 2009 decreased \$6.9 million to \$583.4 million, a (1.2)% decrease from 2008. Profit-sharing contingent commissions in 2009 decreased \$6.0 million from 2008, primarily due to increased loss ratios resulting in lower profitability for insurance companies in 2008. Approximately \$2.3 million of the change in the Retail Division's total revenues was due to net growth in core commissions and fees; however, \$55.2 million was from acquisitions for which there were no comparable revenues in 2008. Therefore, excluding revenues from acquisitions, \$48.5 million was lost on a same-store sales basis, resulting in a negative internal growth rate of (8.7)%. Most of the negative internal growth resulted from continued reductions in insurable exposure units caused by the significant slowdown in the middle-market economy during 2009. Additionally, insurance pricing continued to be competitive, primarily in Florida and in the western United States.

Income before income taxes in 2009 decreased \$16.8 million from 2008, of which \$6.0 million was due to reduced profit-sharing contingent commissions and \$3.1 million was due to reduced investment and other income. The remaining decrease of \$7.7 million was due to reduced earnings from core commissions and fees, offset by earnings from acquisitions.

Table of Contents**National Programs Division**

The National Programs Division is comprised of two units: Professional Programs, which provides professional liability and related package products for certain professionals delivered through nationwide networks of independent agents; and Special Programs, which markets targeted products and services designated for specific industries, trade groups, public and quasi-public entities and market niches. Like the Retail Division and the Wholesale Brokerage Division, the National Programs Division's revenues are primarily commission-based.

Financial information relating to our National Programs Division is as follows (in thousands, except percentages):

	2010	Percent Change	2009	Percent Change	2008

Table of Contents

The National Programs Division's total revenues in 2010 decreased \$1.4 million to \$189.2 million, a (0.7)% decrease from 2009. Profit-sharing contingent commissions in 2010 increased \$11.0 million over 2009, of which \$5.8 million of that increase related to our condominium program at FIU, and \$3.8 million related to Proctor Financial, Inc., our subsidiary that provides lender-placed insurance (Proctor). FIU's increased profit-sharing contingent commissions were principally attributable to the lack of hurricane activity in Florida during 2010 and 2009. Proctor's increased profit-sharing contingent commissions were the direct result of the substantial premium growth generated by Proctor in 2009. Of the \$12.6 million net decrease in commissions and fees for National Programs: (i) an increase of approximately \$0.7 million related to the core commissions and fees revenue from acquisitions that had no comparable revenues in the same period of 2009; and (ii) the remaining net decrease of \$13.3 million was primarily related to net lost business. Therefore, the National Programs Division's negative internal growth rate for core commissions and fees revenue was (7.4)% for 2010. Of the \$13.3 million of net lost business, \$10.7 million related to Proctor, and was primarily the result of its loss of two large customers, \$1.9 million related to the Lawyer's Protector Plan and \$0.9 million related to FIU.

Income before income taxes for 2010 increased 6.4%, or \$4.5 million, over the same period in 2009, to \$74.9 million. Even though total revenues decreased \$1.4 million, total expenses were reduced by \$5.9 million. Employee compensation and benefits expense was reduced \$0.6 million primarily due to lower salaries and producer commission expense, other operating expenses were reduced by \$3.4 million due to broad-based expense reductions, and inter-company interest allocation was reduced by \$2.1 million as a result of reduced acquisition activity. Additionally, interest expenses to this Division for prior acquisitions decreased by \$2.1 million, primarily due to the 1.0% annual reduction in the cost of capital interest rate charged against the total purchase price of the Division's prior acquisitions.

The National Programs Division's total revenues in 2009 increased \$12.3 million to \$190.6 million, a 6.9% increase over 2008. Profit-sharing contingent commissions in 2009 increased \$0.2 million over 2008, primarily due to the improved profitability of the insurance carriers during calendar year 2008. Of the \$12.4 million increase in core commissions and fees revenues, only approximately \$1.7 million related to core commissions and fees revenue from acquisitions for which there were no comparable revenues in 2008. The National Programs Division's net internal growth rate for core commissions and fees revenue was 6.6%, excluding core commissions and fees revenues recognized in 2009 from new acquisitions. The majority of the internally generated growth in core commissions and fees revenues was primarily related to \$13.4 million of net new business written by Proctor. Additionally, our professional liability programs generated net new business of approximately \$0.9 million, our condominium program at FIU was down slightly by \$0.3 million, and our public entity business lost approximately \$0.9 million of core commissions and fees revenue, mainly due to premium rate reductions.

Income before income taxes in 2009 increased \$7.1 million to \$70.4 million, an 11.3% increase over 2008. Most of this increase resulted from net new business generated by Proctor.

Table of Contents**Wholesale Brokerage Division**

The Wholesale Brokerage Division markets and sells excess and surplus commercial and personal lines insurance and reinsurance, primarily through independent agents and brokers. Like the Retail and National Programs Divisions, the Wholesale Brokerage Division's revenues are primarily commission-based.

Financial information relating to our Wholesale Brokerage Division is as follows (in thousands, except percentages):

	2010	Percent Change	2009	Percent Change	2008

Other operating expenses ratio	19.2%		20.4%		19.8%
Capital expenditures	\$ 1,838		\$ 3,201		\$ 4,794
Total assets at December 31	\$ 631,344		\$ 618,704		\$ 618,662

The Wholesale Brokerage Division's total revenues in 2010 increased \$0.4 million over 2009, of which \$0.7 million was attributable to higher profit-sharing contingent commissions, and \$1.0 million was attributable to an increase in other income and this increase was partially offset by a \$1.3 million reduction in core commissions and fees revenue. Of the \$1.3 million net decrease in commissions and fees revenue: (i) an increase of approximately \$1.1 million related to core commissions and fees revenue from acquisitions that had no comparable revenues in the same period of 2009; and (ii) the remaining net decrease of \$2.4 million was primarily due to net lost business. As such, the Wholesale Brokerage Division's negative internal growth rate for core commissions and fees revenue for 2010 was (1.7)%. Even though the internal growth rate in 2010 remained negative, the substantial reduction in the negative growth rates as compared to 2009 and 2008 reflects gradual continuation of the stabilization of coastal property insurance rates and the fact that excess and surplus lines insurance products continue to be more competitive against the standard lines carriers, including, especially, Citizens Property Insurance Corporation in Florida.

Income before income taxes for 2010 increased 48.2%, or \$8.2 million, over the same period in 2009, to \$25.2 million. Even though total revenues increased by only \$0.4 million, total expenses were reduced by \$7.8 million. Employee compensation and benefits expense was reduced \$1.6 million primarily due to lower management and staff salaries and bonuses, and other operating expenses were reduced by \$1.9 million, primarily in the areas of postage, supplies, telephone, and office rent costs. Additionally, interest expenses for this Division for prior acquisitions decreased by \$3.5 million, primarily due to the 1.0% annual reduction in the cost of capital interest rate charged against the total purchase price of the Division's prior acquisitions.

Table of Contents

The Wholesale Brokerage Division's total revenues in 2009 decreased \$12.3 million from 2008, of which \$8.0 million was attributable to the reduction in core commissions and fees revenue, \$3.0 million was the result of lower profit-sharing contingent commissions, and \$1.4 million was due to a reduction in investment income. Of the \$8.0 million net decrease in core commissions and fees, only \$1.6 million related to core commissions and fees revenue from acquisitions for which there were no comparable revenues in 2008. The net internal growth rate for core commissions and fees revenue in 2009 was (6.3)%, or \$9.4 million less in revenues than in 2008, excluding core commissions and fees revenue recognized in 2009 from new acquisitions. The 2009 internal growth rate of (6.3)% was an improvement over the 2008 internal growth rate of (14.6)% and represented \$13.5 million less of lost revenues. This improvement was reflective of the stabilization of coastal property insurance rates and the fact that excess and surplus lines insurance products have become more competitive against the standard lines carriers, including, especially, Citizens.

Income before income taxes in 2009 decreased by only \$0.6 million to \$17.0 million, a 3.2% decrease from 2008, even though total revenues decreased \$12.3 million from 2008. This improvement in pre-tax margin was primarily the result of specific headcount reductions at several of our wholesale brokerage operations, which also resulted in a \$6.7 million reduction in employee compensation and benefits. Additionally we reduced other operating expenses by \$1.5 million, primarily in the areas of travel and entertainment expenses, bad debt expense and occupancy costs. Interest expenses for this Division for prior acquisitions decreased by \$3.7 million, primarily due to the 1.0% annual reduction in the cost of capital interest rate charged against the total purchase price of the Division's prior acquisitions.

Services Division

The Services Division provides insurance-related services, including third-party claims administration (TPA) and comprehensive medical utilization management services in both the workers' compensation and all-lines liability arenas, as well as Medicare set-aside services and, effective in 2010, Social Security disability and Medicare benefits advocacy services.

Unlike our other segments, approximately 99.8% of the Services Division's 2010 commissions and fees revenue is generated from fees, which are not significantly affected by fluctuations in general insurance premiums.

Financial information relating to our Services Division is as follows (in thousands, except percentages):

	2010	Percent Change	2009	Percent Change	2008

Table of Contents

The Services Division's total revenues in 2010 increased \$13.7 million over 2009, almost exclusively due to acquired revenues attributable to our Medicare Secondary Payer statute (MSP) compliance-related services and our new Social Security disability and Medicare benefits advocacy services.

Income before income taxes in 2010 increased \$0.7 million over 2009 due to the operations acquired in 2010. Additionally, interest expenses for this Division for the current year acquisitions increased by \$1.9 million, primarily due to the interest rate charged against the total purchase price of the Division's acquisitions.

The Services Division's total revenues in 2009 increased \$0.6 million from 2008, primarily due to net new business growth generated by our MSP compliance-related services and our workers' compensation claims business. This net new business growth was offset by a \$0.9 million reduction in commissions and fees at our public entity claims services, due to the continued drop in the Florida workers' compensation rates.

Income before income taxes in 2009 decreased \$0.2 million from 2008. Even though total revenues increased slightly in 2009, employee compensation and benefits increased \$0.8 million, due to increased staffing associated with our MSP compliance-related services and our workers' compensation claims business.

Other

As discussed in Note 15 of the Notes to Consolidated Financial Statements, the Other column in the Segment Information table includes any income and expenses not allocated to reportable segments, and corporate-related items, including the inter-company interest expense charges to reporting segments.

LIQUIDITY AND CAPITAL RESOURCES

Our cash and cash equivalents of \$273.0 million at December 31, 2010 reflected an increase of \$75.9 million from the \$197.1 million balance at December 31, 2009. During 2010, \$296.1 million of cash was provided from operating activities. Also during this period, \$157.6 million of cash was used for acquisitions, \$10.4 million was used for additions to fixed assets, \$19.4 million was used for payments on long-term debt and \$44.5 million was used for payment of dividends.

Our cash and cash equivalents of \$197.1 million at December 31, 2009 reflected an increase of \$118.6 million from the \$78.6 million balance at December 31, 2008. During 2009, \$221.6 million of cash was provided from operating activities. Also during this period, \$44.7 million of cash was used for acquisitions, \$11.3 million was used for additions to fixed assets, \$15.1 million was used for payments on long-term debt and \$42.9 million was used for payment of dividends.

Our cash and cash equivalents of \$78.6 million at December 31, 2008 reflected an increase of \$40.3 million from the \$38.2 million balance at December 31, 2007. During 2008, \$341.8 million of cash was provided from operating activities. Also during this period, \$263.4 million of cash was used for acquisitions, \$14.1 million was used for additions to fixed assets, \$20.3 million was used for payments on long-term debt and \$40.2 million was used for payment of dividends.

Our ratio of current assets to current liabilities (the current ratio) was 1.39 and 1.28 at December 31, 2010 and 2009, respectively.

Contractual Cash Obligations

As of December 31, 2010, our contractual cash obligations were as follows:

(in thousands)	Total	Less Than 1 Year	1-3 Years	4-5 Years	After 5 Years
Long-term debt	\$ 251,729	\$ 1,662	\$ 67	\$ 125,000	\$ 125,000
Other liabilities	11,516	6,380	3,723	380	1,033
Operating leases	95,142	24,491	35,149	21,519	13,983
Interest obligations	39,368	12,790	17,675	7,522	1,381
Unrecognized tax benefits	656		656		
Maximum future acquisition contingency payments	144,383	81,067	60,120	3,196	

Edgar Filing: BROWN & BROWN INC - Form 10-K

Total contractual cash obligations	\$ 542,794	\$ 126,390	\$ 117,390	\$ 157,617	\$ 141,397
------------------------------------	------------	------------	------------	------------	------------

Table of Contents

Debt

In July 2004, we completed a private placement of \$200.0 million of unsecured senior notes (the Notes). The \$200.0 million is divided into two series: Series A, for \$100.0 million due in 2011 and bearing interest at 5.57% per year; and Series B, for \$100.0 million due in 2014 and bearing interest at 6.08% per year. The closing on the Series B Notes occurred on July 15, 2004. The closing on the Series A Notes occurred on September 15, 2004. We have used the proceeds from the Notes for general corporate purposes, including acquisitions and repayment of existing debt. As of December 31, 2010 and 2009, there was an outstanding balance of \$200.0 million on the Notes.

On December 22, 2006, we entered into a Master Shelf and Note Purchase Agreement (the Master Agreement) with a national insurance company (the Purchaser). The Purchaser also purchased Notes issued by us in 2004. The Master Agreement provides for a \$200.0 million private uncommitted shelf facility for the issuance of senior unsecured notes over a three-year period, with interest rates that may be fixed or floating and with such maturity dates, not to exceed ten years, as the parties may determine. The Master Agreement includes various covenants, limitations and events of default similar to the Notes issued in 2004. The initial issuance of notes under the Master Agreement occurred on December 22, 2006, through the issuance of \$25.0 million in Series C Senior Notes due December 22, 2016, with a fixed interest rate of 5.66% per annum. On February 1, 2008, \$25.0 million in Series D Senior Notes due January 15, 2015, with a fixed interest rate of 5.37% per annum were issued. As of December 31, 2010 and 2009, there was an outstanding balance of \$50.0 million under the Master Agreement.

On January 21, 2011, we entered into a Confirmation of Acceptance (the Confirmation) in connection with the Master Agreement in which we agreed to issue to the Purchaser and certain of the Purchaser's affiliates an aggregate of \$100.0 million principal amount of unsecured Series E Senior Notes due September 15, 2018, with a fixed interest rate of 4.5% per year. The closing and funding date for the unsecured Series E Senior Notes is identified as September 15, 2011 in order to correspond with maturity date of the Series A Notes. In accordance with ASC Topic 470 Debt, the Company has classified the related principal balance as long-term debt as of December 31, 2010, as the Company has both the intent and ability to refinance the obligation on a long-term basis, as evidenced by the Confirmation.

On June 12, 2008, we entered into an Amended and Restated Revolving Loan Agreement (the Loan Agreement), dated as of June 3, 2008, with a national banking institution, amending and restating the existing Revolving Loan Agreement dated September 29, 2003, as amended (the Revolving Agreement), in order to increase the lending commitment to \$50.0 million (subject to potential increases up to \$100.0 million) and to extend the maturity date from December 20, 2011 to June 3, 2013. The Revolving Agreement initially provided for a revolving credit facility in the maximum principal amount of \$75.0 million. After a series of amendments that provided covenant exceptions for the notes issued or to be issued under the Master Agreement and relaxed or deleted certain other covenants, the maximum principal amount was reduced to \$20.0 million. The calculation of interest and fees is generally based on our quarterly ratio of funded debt to earnings before interest, taxes, depreciation, amortization, and non-cash stock-based compensation. Interest is charged at a rate equal to 0.50% to 1.00% above the London Interbank Offering Rate (LIBOR) or 1.00% below the base rate, each as more fully defined in the Loan Agreement. Fees include an upfront fee, an availability fee of 0.10% to 0.20%, and a letter of credit usage fee of 0.50% to 1.00%. The Loan Agreement contains various covenants, limitations, and events of default customary for similar facilities for similar borrowers. The 90-day LIBOR was 0.300% and 0.251% as of December 31, 2010 and 2009, respectively. There were no borrowings against this facility at December 31, 2010 or 2009.

All three of these credit agreements require that we maintain certain financial ratios and comply with certain other covenants. We were in compliance with all such covenants as of December 31, 2010 and 2009.

Neither we nor our subsidiaries has ever incurred off-balance sheet obligations through the use of, or investment in, off-balance sheet derivative financial instruments or structured finance or special purpose entities organized as corporations, partnerships or limited liability companies or trusts.

We believe that our existing cash, cash equivalents, short-term investment portfolio and funds generated from operations, together with our Master Agreement and the Loan Agreement described above, will be sufficient to satisfy our normal liquidity needs through at least the end of 2011. Additionally, we believe that funds generated from future operations will be sufficient to satisfy our normal liquidity needs, including the required annual principal payments on our long-term debt.

Historically, much of our cash has been used for acquisitions. If additional acquisition opportunities should become available that exceed our current cash flow, we believe that given our relatively low debt-to-total-capitalization ratio, we would be able to raise additional capital through either the private or public debt markets.

For further discussion of our cash management and risk management policies, see Quantitative and Qualitative Disclosures About Market Risk.

Table of Contents

In addition, we currently have a shelf registration statement with the SEC registering the potential sale of an indeterminate amount of debt and equity securities in the future, from time to time, to augment our liquidity and capital resources.

Critical Accounting Policies

Our Consolidated Financial Statements are prepared in accordance GAAP. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. We continually evaluate our estimates, which are based on historical experience and on assumptions that we believe to be reasonable under the circumstances. These estimates form the basis for our judgments about the carrying values of our assets and liabilities, which values are not readily apparent from other sources. Actual results may differ from these estimates.

We believe that, of our significant accounting policies (see Note 1 Summary of Significant Accounting Policies of the Notes to Consolidated Financial Statements), the following critical accounting policies may involve a higher degree of judgment and complexity.

Revenue Recognition

Commission revenues are recognized as of the effective date of the insurance policy or the date on which the policy premium is billed to the customer, whichever is later. At that date, the earnings process has been completed, and we can reliably estimate the impact of policy cancellations for refunds and establish reserves accordingly. Management determines the policy cancellation reserve based upon historical cancellation experience adjusted in accordance with known circumstances. Subsequent commission adjustments are recognized upon our receipt of notification concerning matters necessitating such adjustments from the insurance companies. Profit-sharing contingent commissions are recognized when determinable, which is when such commissions are received from insurance companies, or when we receive formal notification of the amount of such payments. Fee revenues are recognized as services are rendered.

Business Combinations and Purchase Price Allocations

We have acquired significant intangible assets through business acquisitions. These assets consist of purchased customer accounts, non-compete agreements, and the excess of purchase prices over the fair value of identifiable net assets acquired (Goodwill). The determination of estimated useful lives and the allocation of the purchase price to the intangible assets requires significant judgment and affects the amount of future amortization and possible impairment charges.

All of our business combinations initiated after June 30, 2001 have been accounted for using the purchase method. In connection with these acquisitions, we record the estimated value of the net tangible assets purchased and the value of the identifiable intangible assets purchased, which typically consist of purchased customer accounts and non-compete agreements. Purchased customer accounts include the physical records and files obtained from acquired businesses that contain information about insurance policies, customers and other matters essential to policy renewals. However, they primarily represent the present value of the underlying cash flows expected to be received over the estimated future renewal periods of the insurance policies comprising those purchased customer accounts. The valuation of purchased customer accounts involves significant estimates and assumptions concerning matters such as cancellation frequency, expenses and discount rates. Any change in these assumptions could affect the carrying value of purchased customer accounts. Non-compete agreements are valued based on their duration and any unique features of particular agreements. Purchased customer accounts and non-compete agreements are amortized on a straight-line basis over the related estimated lives and contract periods, which range from five to 15 years. The excess of the purchase price of an acquisition over the fair value of the identifiable tangible and intangible assets is assigned to goodwill and is no longer amortized.

Acquisition purchase prices are typically based on a multiple of average annual operating profit earned over a one- to three-year period within a minimum and maximum price range. The recorded purchase price for all acquisitions consummated after January 1, 2009 included an estimation of the fair value of liabilities associated with any potential earn-out provisions. Subsequent changes in the fair value of earn-out obligations will be recorded in the consolidated statement of income when incurred.

The fair value of earn-out obligations is based on the present value of the expected future payments to be made to the sellers of the acquired businesses in accordance with the provisions outlined in the respective purchase agreements. In determining fair value, the acquired business's future performance is estimated using financial projections developed by management for the acquired business and reflects market participant assumptions regarding revenue growth and/or profitability. The expected future payments are estimated on the basis of the earn-out formula and performance targets specified in each purchase agreement compared to the associated financial projections. These payments are then discounted to present value using a risk-adjusted rate that takes into consideration the likelihood that the forecasted earn-out payments will be made.

Table of Contents

Intangible Assets Impairment

Goodwill is subject to at least an annual assessment for impairment by applying a fair-value-based test. Amortizable intangible assets are amortized over their useful lives and are subject to an impairment review based on an estimate of the undiscounted future cash flows resulting from the use of the asset. To determine if there is potential impairment of goodwill, we compare the fair value of each reporting unit with its carrying value. If the fair value of the reporting unit is less than its carrying value, an impairment loss would be recorded to the extent that the fair value of the goodwill within the reporting unit is less than its carrying value. Fair value is estimated based on multiples of earnings before interest, income taxes, depreciation and amortization (EBITDA).

Management assesses the recoverability of our goodwill on an annual basis, and assesses the recoverability of our amortizable intangibles and other long-lived assets whenever events or changes in circumstances indicate that the carrying value of such assets may not be recoverable. The following factors, if present, may trigger an impairment review: (i) significant underperformance relative to historical or projected future operating results; (ii) significant negative industry or economic trends; (iii) significant decline in our stock price for a sustained period; and (iv) significant decline in our market capitalization. If the recoverability of these assets is unlikely because of the existence of one or more of the above-referenced factors, an impairment analysis is performed. Management must make assumptions regarding estimated future cash flows and other factors to determine the fair value of these assets. If these estimates or related assumptions change in the future, we may be required to revise the assessment and, if appropriate, record an impairment charge. We completed our most recent evaluation of impairment for goodwill as of November 30, 2010 and identified no impairment as a result of the evaluation.

Non-Cash Stock-Based Compensation

The Company grants stock options and non-vested stock awards to its employees, which requires that the related compensation expense be recognized in the financial statements based upon the grant-date fair value of those awards.

Litigation Claims

We are subject to numerous litigation claims that arise in the ordinary course of business. If it is probable that an asset has been impaired or a liability has been incurred at the date of the financial statements and the amount of the loss is estimable, an accrual for the costs to resolve these claims is recorded in accrued expenses in the accompanying Consolidated Balance Sheets. Professional fees related to these claims are included in other operating expenses in the accompanying Consolidated Statements of Income. Management, with the assistance of in-house and outside counsel, determines whether it is probable that a liability has been incurred and estimates the amount of loss based upon analysis of individual issues. New developments or changes in settlement strategy in dealing with these matters may significantly affect the required reserves and affect our net income.

New Accounting Pronouncements

See Note 1 of the Notes to Consolidated Financial Statements for a discussion of the effects of the adoption of new accounting standards.

ITEM 7A. Quantitative and Qualitative Disclosures About Market Risk.

Market risk is the potential loss arising from adverse changes in market rates and prices, such as interest rates and equity prices. We are exposed to market risk through our investments, revolving credit line and term loan agreements.

Our invested assets are held as cash and cash equivalents, restricted cash and investments, available-for-sale marketable equity securities, non-marketable equity securities and certificates of deposit. These investments are subject to interest rate risk and equity price risk. The fair values of our cash and cash equivalents, restricted cash and investments, and certificates of deposit at December 31, 2010 and 2009 approximated their respective carrying values due to their short-term duration and, therefore, such market risk is not considered to be material.

We do not actively invest or trade in equity securities. In addition, we generally dispose of any significant equity securities received in conjunction with an acquisition shortly after the acquisition date.

Notes to Consolidated Financial Statements

NOTE 1 Summary of Significant Accounting Policies

Nature of Operations

Brown & Brown, Inc., a Florida corporation, and its subsidiaries (collectively, Brown & Brown or the Company) is a diversified insurance agency, wholesale brokerage, insurance programs and services organization that markets and sells to its customers insurance products and services, primarily in the property and casualty area. Brown & Brown's business is divided into four reportable segments: the Retail Division, which provides a broad range of insurance products and services to commercial, public entity, professional and individual customers; the Wholesale Brokerage Division, which markets and sells excess and surplus commercial insurance and reinsurance, primarily through independent agents and brokers; the National Programs Division, which is composed of two units Professional Programs, which provides professional liability and related package products for certain professionals delivered through nationwide networks of independent agents, and Special Programs, which markets targeted products and services designated for specific industries, trade groups, governmental entities and market niches; and the Services Division, which provides insurance-related services, including third-party claims administration and comprehensive medical utilization management services in both the workers' compensation and all-lines liability arenas, as well as Medicare set-aside services.

Principles of Consolidation

The accompanying Consolidated Financial Statements include the accounts of Brown & Brown, Inc. and its subsidiaries. All significant intercompany account balances and transactions have been eliminated in the Consolidated Financial Statements.

Revenue Recognition

Commission revenue is recognized as of the effective date of the insurance policy or the date on which the policy premium is billed to the customer, whichever is later. At that date, the earnings process has been completed, and Brown & Brown can reliably estimate the impact of policy cancellations for refunds and establish reserves accordingly. The reserve for policy cancellations is based upon historical cancellation experience adjusted based on known circumstances. The policy cancellation reserve was \$5,559,000 and \$7,796,000 at December 31, 2010 and 2009, respectively, and it is periodically evaluated and adjusted as necessary. Subsequent commission adjustments are recognized upon receipt of notification from the insurance companies. Commission revenues are reported net of commissions paid to sub-brokers or co-brokers. Profit-sharing contingent commissions from insurance companies are recognized when determinable, which is when such commissions are received, or when officially notified of the amount of such commissions. Fee income is recognized as services are rendered.

Use of Estimates

The preparation of Consolidated Financial Statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, as well as disclosures of contingent assets and liabilities, at the date of the Consolidated Financial Statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents principally consist of demand deposits with financial institutions and highly liquid investments with quoted market prices having maturities of three months or less when purchased.

Restricted Cash and Investments, and Premiums, Commissions and Fees Receivable

In its capacity as an insurance agent or broker, Brown & Brown typically collects premiums from insureds and, after deducting its authorized commissions, remits the net premiums to the appropriate insurance company or companies. Accordingly, as reported in the Consolidated Balance Sheets, premiums are receivable from insureds. Unremitted net insurance premiums are held in a fiduciary capacity until Brown & Brown disburses them. Brown & Brown invests these unremitted funds only in cash, money market accounts, tax-free variable-rate demand bonds and commercial paper held for a short term. In certain states in which Brown & Brown operates, the use and investment alternatives for these funds are regulated and restricted by various state laws and agencies. These restricted funds are reported as restricted cash and investments

Edgar Filing: BROWN & BROWN INC - Form 10-K

on the Consolidated Balance Sheets. The interest income earned on these unremitted funds is reported as investment income in the Consolidated Statements of Income.

In other circumstances, the insurance companies collect the premiums directly from the insureds and remit the applicable commissions to Brown & Brown. Accordingly, as reported in the Consolidated Balance Sheets, commissions are receivables from insurance companies. Fees are primarily receivables due from customers.

Table of Contents

Investments

Marketable equity securities held by Brown & Brown have been classified as available-for-sale and are reported at estimated fair value, with the accumulated other comprehensive income (unrealized gains and losses), net of related income tax effect, reported as a separate component of shareholders' equity. Realized gains and losses and declines in value below cost that are judged to be other-than-temporary on available-for-sale securities are reflected in investment income. The cost of securities sold is based on the specific identification method. Interest and dividends on securities classified as available-for-sale are included in investment income in the Consolidated Statements of Income.

Non-marketable equity securities and certificates of deposit having maturities of more than three months when purchased are reported at cost and are adjusted for other-than-temporary market value declines.

Net unrealized holding gains on available-for-sale securities included in accumulated other comprehensive income reported in shareholders' equity were \$7,000 and \$5,000 at December 31, 2010 and 2009, net of deferred income taxes of \$4,000 and \$3,000, respectively.

Fixed Assets

Fixed assets, including leasehold improvements are carried at cost, less accumulated depreciation and amortization. Expenditures for improvements are capitalized, and expenditures for maintenance and repairs are expensed to operations as incurred. Upon sale or retirement, the cost and related accumulated depreciation and amortization are removed from the accounts and the resulting gain or loss, if any, is reflected in other income. Depreciation has been determined using the straight-line method over the estimated useful lives of the related assets, which range from three to 15 years. Leasehold improvements are amortized on the straight-line method over the shorter of the useful life of the improvement or the term of the related lease.

Goodwill and Amortizable Intangible Assets

The excess of the purchase price of an acquisition over the fair value of the identifiable tangible and amortizable intangible assets is assigned to goodwill. While goodwill is not amortizable, it is subject to at least an annual assessment, and more frequently in the presence of certain circumstances, for impairment by applying a fair value-based test. Amortizable intangible assets are amortized over their useful lives and are subject to an impairment review based on an estimate of the undiscounted future cash flows resulting from the use of the asset. The Company compares the fair value of each reporting unit with its carrying amount to determine if there is potential impairment of goodwill. If the fair value of the reporting unit is less than its carrying value, an impairment loss is recorded to the extent that the fair value of the goodwill within the reporting unit is less than its carrying value. Fair value is estimated based on multiples of earnings before interest, income taxes, depreciation and amortization (EBITDA). Brown & Brown completed its most recent annual assessment as of November 30, 2010 and identified no impairment as a result of the evaluation. In addition, as of December 31, 2010, there are no accumulated impairment losses.

Amortizable intangible assets are stated at cost, less accumulated amortization, and consist of purchased customer accounts and non-compete agreements. Purchased customer accounts and noncompete agreements are amortized on a straight-line basis over the related estimated lives and contract periods, which range from five to 15 years. Purchased customer accounts primarily consist of records and files that contain information about insurance policies and the related insured parties that are essential to policy renewals.

The carrying value of intangibles attributable to each business region comprising Brown & Brown is periodically reviewed by management to determine if the facts and circumstances suggest they may be impaired. In the insurance agency and wholesale brokerage industry, it is common for agencies or customer accounts to be acquired at a price determined as a multiple of either their corresponding revenues or EBITDA. Accordingly, Brown & Brown assesses the carrying value of its intangible assets by considering the estimated future cash flows generated by the corresponding region. Any impairment identified through this assessment may require that the carrying value of related intangible assets be adjusted; however, no impairments have been recorded for the years ended December 31, 2010, 2009 and 2008.

Income Taxes

Brown & Brown records income tax expense using the asset and liability method of accounting for deferred income taxes. Under this method, deferred tax assets and liabilities are recognized for the expected future tax consequences of temporary differences between the financial statement carrying values and the income tax bases of Brown & Brown's assets and liabilities.

Brown & Brown files a consolidated federal income tax return and has elected to file consolidated returns in certain states. Deferred income taxes are provided for in the Consolidated Financial Statements and relate principally to expenses charged to income for financial reporting purposes in one period and deducted for income tax purposes in other periods.

Table of Contents**Net Income Per Share**

Effective in 2009, the Company adopted new Financial Accounting Standards Board (FASB) authoritative guidance that states that unvested share-based payment awards that contain non-forfeitable rights to dividends or dividend equivalents are participating securities and, therefore, are included in computing earnings per share (EPS) pursuant to the two-class method. The two-class method determines EPS for each class of common stock and participating securities according to dividends or dividend equivalents and their respective participation rights in undistributed earnings. Performance stock shares granted to employees under the Company's Performance Stock Plan are considered participating securities as they receive non-forfeitable dividend equivalents at the same rate as common stock. This new guidance was adopted via retroactive application for the years ended December 31, 2008 and 2007, resulting in no change in either basic or diluted EPS for periods presented.

Basic EPS is computed based on the weighted average number of common shares issued and outstanding during the period. Diluted EPS is computed based on the weighted average common shares issued and outstanding plus equivalent shares assuming exercise of stock options. The dilutive effect of stock options is computed by application of the treasury stock method. The following is a reconciliation between basic and diluted weighted average shares outstanding for the years ended December 31:

(in thousands, except per share data)	2010	2009	2008
Net income	\$ 161,752	\$ 153,294	\$ 166,124
Net income attributable to unvested awarded performance stock	(5,097)	(4,937)	(5,506)
Net income attributable to common shares	\$ 156,655	\$ 148,357	\$ 160,618
Weighted average basic number of common shares outstanding	142,412	141,738	140,992
Less unvested awarded performance stock included in weighted average basic share outstanding	(4,488)	(4,565)	(4,673)
Weighted average number of common shares outstanding for basic earnings per common share	137,924	137,173	136,319
Dilutive effect of stock options	1,394	334	565
Weighted average number of shares outstanding	139,318	137,507	136,884
Net income per share:			
Basic	\$ 1.14	\$ 1.08	\$ 1.18
Diluted	\$ 1.12	\$ 1.08	\$ 1.17

Fair Value of Financial Instruments

The carrying amounts of Brown & Brown's financial assets and liabilities, including cash and cash equivalents, restricted cash and investments, investments, premiums, commissions and fees receivable, premiums payable to insurance companies, premium deposits and credits due customers and accounts payable, at December 31, 2010 and 2009, approximate fair value because of the short-term maturity of these instruments. The carrying amount of Brown & Brown's long-term debt approximates fair value at December 31, 2010 and 2009 since the related coupon rate approximates the current market rate.

Stock-Based Compensation

The Company grants stock options and non-vested stock awards to its employees, officers and directors. The Company uses the modified-prospective method to account for share-based payments. Under the modified-prospective method, compensation cost is recognized for all share-based payments granted on or after January 1, 2006 and for all awards granted to employees prior to January 1, 2006 that remained unvested on that date. The Company uses the alternative transition method to determine the accounting of the income tax effects of payments made related to stock-based compensation.

Edgar Filing: BROWN & BROWN INC - Form 10-K

The Company uses the Black-Scholes valuation model for valuing all stock options and shares purchased under the Employee Stock Purchase Plan (the ESPP). Compensation for non-vested stock awards is measured at fair value on the grant-date based upon the number of shares expected to vest. Compensation cost for all awards is recognized in earnings, net of estimated forfeitures, on a straight-line basis over the requisite service period.

Recent Accounting Pronouncements

In June 2009, the FASB issued authoritative guidance establishing two levels of GAAP authoritative and nonauthoritative and making the Accounting Standards Codification (ASC) the source of authoritative, nongovernmental GAAP, except for rules and interpretive releases of the U.S. Securities and Exchange Commission (the SEC). This guidance, which was incorporated into ASC Topic 105 Generally Accepted Accounting Principles, was effective for financial statements issued for interim and annual periods ending after September 15, 2009. The adoption changed certain disclosure references to U.S. GAAP, but did not have any other impact on the Company's Consolidated Financial Statements.

Table of Contents

Business Combinations In December 2007, the FASB issued authoritative guidance requiring an acquirer to recognize 100% of the fair values of acquired assets, including goodwill, and assumed liabilities (with only limited exceptions) upon initially obtaining control of an acquired entity even if the acquirer has not acquired 100% of its target. Additionally, the fair value of contingent consideration arrangements (such as earn-out purchase arrangements) at the acquisition date must be included in the purchase price consideration. Transaction costs are expensed as incurred. This guidance also modifies the recognition of pre-acquisition contingencies, such as environmental or legal issues, restructuring plans and acquired research and development value in purchase accounting. This guidance also amends ASC Topic 740 - Income Taxes, to require the acquirer to recognize changes in the amount of its deferred tax benefits that are recognizable because of a business combination, either in income from continuing operations in the period of the combination or directly in contributed capital, depending on the circumstances. This guidance, which was incorporated into ASC Topic 805 - Business Combinations, is effective for fiscal years beginning after December 15, 2008. Effective January 1, 2009, the Company adopted this guidance on a prospective basis. As a result, the recorded purchase price for all acquisitions consummated after January 1, 2009 will include an estimation of the fair value of liabilities associated with any potential earn-out provisions. Subsequent changes in these earn-out obligations will be recorded in the consolidated statement of income when incurred. Potential earn-out obligations are typically based upon future earnings of the acquired entities, usually between one and three years.

In April 2008, the FASB issued authoritative guidance that amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under ASC Topic 350 - Intangibles-Goodwill and Other. This guidance requires enhanced disclosures concerning a company's treatment of costs incurred to renew or extend the term of a recognized intangible asset. This guidance, which is incorporated into ASC Topic 350 - Intangibles-Goodwill and Other, is effective for financial statements issued for fiscal years beginning after December 15, 2008. The adoption of this guidance did not have any material impact on our consolidated financial statements.

In November 2008, the FASB ratified authoritative guidance that applies to defensive intangible assets, which are acquired intangible assets that the acquirer does not intend to actively use but intends to hold to prevent its competitors from obtaining access to them. As these assets are separately identifiable, this guidance requires an acquiring entity to account for defensive intangible assets as a separate unit of accounting which should be amortized to expense over the period the asset is expected to diminish in value. Defensive intangible assets must be recognized at fair value in accordance with ASC Topic 805 - Business Combinations, and ASC Topic 820 - Fair Value Measurements and Disclosures. This guidance, which was incorporated into ASC Topic 350 - Intangibles-Goodwill and Other, was effective for financial statements issued for fiscal years beginning after December 15, 2008. The adoption of guidance did not have any material impact on our consolidated financial statements.

Subsequent Events In May 2009, the FASB issued authoritative guidance establishing general standards of accounting for, and disclosures of, events that occur after the balance sheet date but before the financial statements are issued or are available to be issued. This guidance, which was incorporated into ASC Topic 855 - Subsequent Events, was effective on a prospective basis for interim or annual periods ending after June 15, 2009, and was adopted on June 1, 2009.

International Accounting Standards International Financial Reporting Standards (IFRS) are a set of standards and interpretations adopted by the International Accounting Standards Board. The SEC is currently considering a potential IFRS adoption process in the United States, which could, in the near term, provide domestic issuers with an alternative accounting method and which could ultimately replace U.S. GAAP reporting requirements with IFRS reporting requirements. We are currently investigating the implications should we be required to adopt IFRS in the future.

NOTE 2 Business Combinations Acquisitions in 2010

During 2010, Brown & Brown acquired the assets and assumed certain liabilities of 33 insurance intermediaries and several books of business (customer accounts). The aggregate purchase price of these acquisitions was \$186,783,000, including \$158,636,000 of cash payments, the issuance of \$759,000 in notes payable, the assumption of \$2,298,000 of liabilities and \$25,090,000 of recorded earn-out payables. All of these acquisitions were acquired primarily to expand Brown & Brown's core businesses and to attract and hire high-quality individuals. Acquisition purchase prices are typically based on a multiple of average annual operating profit earned over a one- to three-year period within a minimum and maximum price range. The recorded purchase price for all acquisitions consummated after January 1, 2009 included an estimation of the fair value of liabilities associated with any potential earn-out provisions. Subsequent changes in the fair value of earn-out obligations will be recorded in the consolidated statement of income when incurred.

Table of Contents

The fair value of earn-out obligations is based on the present value of the expected future payments to be made to the sellers of the acquired businesses in accordance with the provisions outlined in the respective purchase agreements. In determining fair value, the acquired business's future performance is estimated using financial projections developed by management for the acquired business and reflects market participant assumptions regarding revenue growth and/or profitability. The expected future payments are estimated on the basis of the earn-out formula and performance targets specified in each purchase agreement compared to the associated financial projections. These payments are then discounted to present value using a risk-adjusted rate that takes into consideration the likelihood that the forecasted earn-out payments will be made.

Based on acquisition date and the complexity of the underlying valuation work, certain amounts included in the Company's consolidated financial statements may be provisional and thus subject to further adjustments within the permitted measurement period, as defined in ASC Topic 805-Business Combinations.

These acquisitions have been accounted for as business combinations and are as follows:

(in thousands)

Name	Business Segment	2010 Date of Acquisition	Cash Paid	Note Payable	Recorded Earn-out Payable	Recorded Purchase Price	Maximum Potential Earn-out Payable

The weighted average useful lives for the above acquired amortizable intangible assets are as follows: purchased customer accounts are 15.0 years, and noncompete agreements are 5.0 years.

Goodwill of \$116,393,000, was assigned to the Retail and Services Divisions in the amounts of \$57,423,000 and \$58,970,000, respectively. Of the total goodwill of \$116,393,000, \$91,303,000 is currently deductible for income tax purposes. The remaining \$25,090,000 relates to the

earn-out payables and will not be deductible until it is earned and paid.

Table of Contents

The results of operations for the acquisitions completed during 2010 have been combined with those of the Company since their respective acquisition dates. The total revenues and income before income taxes from the acquisitions completed through December 31, 2010 included in the Consolidated Statement of Income for the twelve months ended December 31, 2010 were \$30,172,000 and \$3,255,000, respectively. If the acquisitions had occurred as of the beginning of the comparable prior annual reporting period, the Company's results of operations would be as shown in the following table. These unaudited pro forma results are not necessarily indicative of the actual results of operations that would have occurred had the acquisitions actually been made at the beginning of the respective periods.

(UNAUDITED) (in thousands, except per share data)	For the Year Ended December 31,

Acquisitions in 2009

During 2009, Brown & Brown acquired the assets and assumed certain liabilities of 11 insurance intermediaries and several books of business (customer accounts). The aggregate purchase price of these acquisitions was \$56,289,000, including \$40,386,000 of net cash payments, the issuance of \$6,889,000 in notes payable, the assumption of \$1,788,000 of liabilities and \$7,226,000 of recorded earn-out payables. All of these acquisitions were acquired primarily to expand Brown & Brown's core businesses and to attract and hire high-quality individuals. Acquisition purchase prices are typically based on a multiple of average annual operating profit earned over a one- to three-year period within a minimum and maximum price range. The recorded purchase price for all acquisitions consummated after January 1, 2009 included an estimation of the fair value of liabilities associated with any potential earn-out provisions. Subsequent changes in the fair value of earn-out obligations will be recorded in the Consolidated Statement of Income when incurred.

The fair value of earn-out obligations is based on the present value of the expected future payments to be made to the sellers of the acquired businesses in accordance with the provisions outlined in the respective purchase agreements. In determining fair value, the acquired business's future performance is estimated using financial projections developed by management for the acquired business and reflects market participant assumptions regarding revenue growth and/or profitability. The expected future payments are estimated on the basis of the earn-out formula and performance targets specified in each purchase agreement compared to the associated financial projections. These payments are then discounted to present value using a risk-adjusted rate that takes into consideration the likelihood that the forecasted earn-out payments will be made. The change to the fair value of earn-out obligations recorded in net income for the year ended December 31, 2009 was not material.

Table of Contents

These acquisitions have been accounted for as business combinations and are as follows:

(in thousands)

Name	Business Segment	2009 Date of Acquisition	Net Cash Paid	Note Payable	Recorded Earn-out Payable	Recorded Purchase Price	Maximum Potential Earn-out Payable

Net assets acquired	\$ 22,748	\$ 7,463	\$ 8,016	\$ 16,274	\$ 54,501

The weighted average useful lives for the above acquired amortizable intangible assets are as follows: purchased customer accounts are 14.9 years, and non-compete agreements are 5.0 years.

Goodwill of \$31,107,000 was assigned to the Retail, National Programs, Wholesale Brokerage and Services Divisions in the amounts of \$25,610,000, \$3,781,000, \$1,716,000 and zero, respectively. Of the total goodwill of \$31,107,000, \$24,639,000 is currently deductible for income tax purposes. The remaining \$6,468,000 relates to the earn-out payables and will not be deductible until it is earned and paid.

Table of Contents

The results of operations for the acquisitions completed during 2009 have been combined with those of the Company since their respective acquisition dates. The total revenues and net pre-tax income from the acquisitions completed during 2009 included in the Consolidated Statement of Income for the twelve months ended December 31, 2009 were \$13,879,000 and \$981,000, respectively. If the acquisitions had occurred as of the beginning of the comparable prior annual reporting period, the Company's results of operations would be as shown in the following table. These unaudited pro forma results are not necessarily indicative of the actual results of operations that would have occurred had the acquisitions actually been made at the beginning of the respective periods.

(UNAUDITED) (in thousands, except per share data)	For the Year Ended December 31,	
	2009	2008
Total revenues	\$ 977,749	\$ 1,003,441
Income before income taxes	\$ 258,111	\$ 281,203
Net income	\$ 155,314	\$ 171,430
Net income per share:		
Basic	\$ 1.10	\$ 1.22

Weighted average number of shares outstanding:		
Basic	137,173	136,319
Diluted	137,507	136,884

For acquisitions consummated prior to January 1, 2009, additional consideration paid to sellers as a result of purchase price earn-out provisions are recorded as adjustments to intangible assets when the contingencies are settled. The net additional consideration paid by the Company in 2010 as a result of these adjustments totaled \$4,037,000, all of which was allocated to goodwill. Of the \$4,037,000 net additional consideration paid, \$975,000 was paid in cash and \$3,062,000 was issued in notes payable. The net additional consideration paid by the Company in 2009 as a result of these adjustments totaled \$20,052,000, of which \$19,918,000 was allocated to goodwill, \$109,000 to noncompete agreements and \$25,000 to purchased customer accounts. Of the \$20,052,000 net additional consideration paid, \$4,296,000 was paid in cash and \$15,756,000 was issued in notes payable.

As of December 31, 2010, the maximum future contingency payments related to all acquisitions totaled \$144,383,000, of which \$77,588,000 relates to acquisitions consummated prior to January 1, 2009 and \$66,795,000 relates to acquisitions consummated subsequent to January 1, 2009.

For acquisitions consummated after January 1, 2009, \$32,316,000 was initially recorded as the estimated earn-out payables. As of December 31, 2010, the fair value of the estimated earn-out payables was re-evaluated and reduced by \$2,606,000, which resulted in a credit to the Condensed Consolidated Statement of Income. Additionally, the interest expense accretion to the Condensed Consolidated Statement of Income for the twelve months ended December 31, 2010 and 2009 was \$932,000 and \$129,000, respectively. As of December 31, 2010, the estimated earn-out payables were \$29,609,000, of which \$7,651,000 was recorded as current liabilities and \$21,958,000 was recorded as non-current liabilities. As of December 31, 2009, the estimated earn-out payables were \$7,226,000, all of which were recorded as non-current liabilities.

Table of Contents**NOTE 3 Goodwill**

The changes in goodwill for the years ended December 31, are as follows:

(in thousands)	Retail	National Programs	Wholesale Brokerage	Service	Total
Balance as of January 1, 2009	\$ 620,588	\$ 147,298	\$ 246,216	\$ 9,270	\$ 1,023,372

Goodwill disposed of relating to sales of businesses					
Balance as of December 31, 2010	\$ 716,626	\$ 152,601	\$ 257,360	\$ 68,240	\$ 1,194,827

NOTE 4 Amortizable Intangible Assets

Amortizable intangible assets at December 31 consisted of the following:

(in thousands)	2010				2009			
	Gross		Net	Weighted	Gross		Net	Weighted
	Carrying Value	Accumulated Amortization	Carrying Value	Average Life (years)	Carrying Value	Accumulated Amortization	Carrying Value	Average Life (years)
Purchased customer accounts	\$ 811,143	\$ (330,627)	\$ 480,516	14.9	\$ 747,717	\$ (280,473)	\$ 467,244	14.9
Non-compete agreements	25,181	(23,797)	1,384	7.3	24,721	(23,103)	1,618	7.3
Total	\$ 836,324	\$ (354,424)	\$ 481,900		\$ 772,438	\$ (303,576)	\$ 468,862	

Amortization expense recorded for other amortizable intangible assets for the years ended December 31, 2010, 2009 and 2008 was \$51,442,000, \$49,857,000 and \$46,631,000, respectively.

Amortization expense for other amortizable intangible assets for the years ending December 31, 2011, 2012, 2013, 2014 and 2015 is estimated to be \$52,524,000, \$51,882,000, \$50,982,000, \$49,796,000, and \$48,449,000, respectively.

NOTE 5 Investments

Investments at December 31 consisted of the following:

(in thousands)	2010		2009	
	Carrying Value		Carrying Value	
	Current	Non-Current	Current	Non-Current
Available-for-sale marketable equity securities	\$ 36	\$	\$ 33	\$
Non-marketable certificates of deposit and other securities	7,642	517	8,180	15

Edgar Filing: BROWN & BROWN INC - Form 10-K

Total investments	\$ 7,678	\$ 517	\$ 8,213	\$ 15
-------------------	----------	--------	----------	-------

The following table summarizes available-for-sale securities at December 31:

(in thousands)	Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
Marketable equity securities:				
2010	\$ 25	\$ 11		\$ 36
2009	\$ 25	\$ 8		\$ 33

The following table summarizes the proceeds and realized gains/(losses) on non-marketable equity securities and certificates of deposit for the years ended December 31:

(in thousands)	Proceeds	Gross Realized Gains	Gross Realized Losses
2010	\$ 9,327	\$ 6	\$
2009	\$ 10,828	\$	\$ (299)
2008	\$ 9,652	\$ 542	\$ (9)

Table of Contents**NOTE 6 Fixed Assets**

Fixed assets at December 31 consisted of the following:

(in thousands)	2010	2009
Furniture, fixtures and equipment	\$ 125,963	\$ 123,824
Leasehold improvements	16,151	15,555
Land, buildings and improvements	438	428
Total cost	142,552	139,807
Less accumulated depreciation and amortization	(82,839)	(78,340)
Total	\$ 59,713	\$ 61,467

Depreciation and amortization expense amounted to \$12,639,000 in 2010, \$13,240,000 in 2009, and \$13,286,000 in 2008.

NOTE 7 Accrued Expenses and Other Liabilities

Accrued expenses and other liabilities at December 31 consisted of the following:

(in thousands)	2010	2009
Accrued bonuses	\$ 43,896	\$ 41,770
Accrued compensation and benefits	16,040	15,204
Accrued rent and vendor expenses	10,445	9,524
Reserve for policy cancellations	5,559	7,796
Accrued interest	4,727	4,747
Other	14,280	17,346
Total	\$ 94,947	\$ 96,387

NOTE 8 Long-Term Debt

Long-term debt at December 31 consisted of the following:

(in thousands)	2010	2009
Unsecured Senior Notes	\$ 250,000	\$ 250,000
Acquisition notes payable	1,729	17,289
Revolving credit facility		
Other notes payable		44
Total debt	251,729	267,333
Less current portion	(1,662)	(17,124)
Long-term debt	\$ 250,067	\$ 250,209

In July 2004, the Company completed a private placement of \$200.0 million of unsecured senior notes (the "Notes"). The \$200.0 million is divided into two series: (1) Series A, which closed on September 15, 2004, for \$100.0 million due in 2011 and bearing interest at 5.57% per year; and

Edgar Filing: BROWN & BROWN INC - Form 10-K

(2) Series B, which closed on July 15, 2004, for \$100.0 million due in 2014 and bearing interest at 6.08% per year. The closing on the Series B Notes occurred on July 15, 2004. The closing on the Series A Notes occurred on September 15, 2004. Brown & Brown has used the proceeds from the Notes for general corporate purposes, including acquisitions and repayment of existing debt. As of December 31, 2010 and 2009, there was an outstanding balance of \$200.0 million on the Notes.

Table of Contents

On December 22, 2006, the Company entered into a Master Shelf and Note Purchase Agreement (the "Master Agreement") with a national insurance company (the "Purchaser"). The Purchaser also purchased Notes issued by the Company in 2004. The Master Agreement provides for a \$200.0 million private uncommitted shelf facility for the issuance of senior unsecured notes over a three-year period, with interest rates that may be fixed or floating and with such maturity dates, not to exceed 10 years, as the parties may determine. The Master Agreement includes various covenants, limitations and events of default similar to the Notes issued in 2004. The initial issuance of notes under the Master Agreement occurred on December 22, 2006, through the issuance of \$25.0 million in Series C Senior Notes due December 22, 2016, with a fixed interest rate of 5.66% per year. On February 1, 2008, \$25.0 million in Series D Senior Notes due January 15, 2015, with a fixed interest rate of 5.37% per year were issued. As of December 31, 2010 and 2009 there was an outstanding balance of \$50.0 million under the Master Agreement.

On January 21, 2011, the Company entered into a Confirmation of Acceptance (the "Confirmation") in connection with the Master Agreement in which the Company agreed to issue to the Purchaser and certain of the Purchaser's affiliates an aggregate of \$100.0 million principal amount of unsecured Series E Senior Notes due September 15, 2018, with a fixed interest rate of 4.5% per year. The closing and funding date for the unsecured Series E Senior Notes is identified as September 15, 2011 in order to correspond with maturity date of the Series A Notes. In accordance with ASC Topic 470 Debt, the Company has classified the related principal balance as long-term debt as of December 31, 2010, as the Company has both the intent and ability to refinance the obligation on a long-term basis, as evidenced by the Confirmation.

On June 12, 2008, the Company entered into an Amended and Restated Revolving Loan Agreement (the "Loan Agreement") with a national banking institution that was dated as of June 3, 2008, amending and restating the existing Revolving Loan Agreement dated September 29, 2003, as amended (the "Revolving Agreement"), in order to increase the lending commitment to \$50.0 million (subject to potential increases up to \$100.0 million) and to extend the maturity date from December 20, 2011 to June 3, 2013. The Revolving Agreement initially provided for a revolving credit facility in the maximum principal amount of \$75.0 million. After a series of amendments that provided covenant exceptions for the notes issued or to be issued under the Master Agreement and relaxed or deleted certain other covenants, the maximum principal amount was reduced to \$20.0 million. The calculation of interest and fees is generally based on the Company's quarterly ratio of funded debt to earnings before interest, taxes, depreciation, amortization, and non-cash stock-based compensation. Interest is charged at a rate equal to 0.50% to 1.00% above the London Interbank Offering Rate ("LIBOR") or 1.00% below the base rate, each as more fully defined in the Loan Agreement. Fees include an upfront fee, an availability fee of 0.10% to 0.20%, and a letter of credit usage fee of 0.50% to 1.00%. The Loan Agreement contains various covenants, limitations, and events of default customary for similar facilities for similar borrowers. The 90-day LIBOR was 0.300% and 0.251% as of December 31, 2010 and 2009, respectively. There were no borrowings against this facility at December 31, 2010 or 2009.

All three of these credit agreements require Brown & Brown to maintain certain financial ratios and comply with certain other covenants. Brown & Brown was in compliance with all such covenants as of December 31, 2010 and 2009.

Acquisition notes payable represent debt incurred to former owners of certain insurance operations acquired by Brown & Brown. These notes and future contingent payments are payable in monthly, quarterly and annual installments through July 2013, including interest in the range from 0.0% to 6.0%.

Interest paid in 2010, 2009 and 2008 was \$14,491,000, \$14,636,000 and \$14,394,000, respectively.

At December 31, 2010, maturities of long-term debt were \$1,662,000 in 2011, \$33,000 in 2012, \$33,000 in 2013, \$100,000,000 in 2014, \$25,000,000 in 2015 and \$125,000,000 in 2016 and beyond.

Table of Contents**NOTE 9 Income Taxes**

Significant components of the provision (benefit) for income taxes for the years ended December 31 are as follows:

(in thousands)	2010	2009	2008
Current:			
Federal	\$ 70,715	\$ 62,547	\$ 70,634
State	10,236	10,730	10,056
Foreign	860	286	56
Total current provision	81,811	73,563	80,746
Deferred:			
Federal	19,890	24,913	21,508
State	2,645	2,984	4,120
Total deferred provision	22,535	27,897	25,628
Total tax provision	\$ 104,346	\$ 101,460	\$ 106,374

A reconciliation of the differences between the effective tax rate and the federal statutory tax rate for the years ended December 31 is as follows:

	2010	2009	2008
Federal statutory tax rate	35.0%	35.0%	35.0%
State income taxes, net of federal income tax benefit	3.5	4.0	3.4
Non-deductible employee stock purchase plan expense	0.3	0.4	0.4
Non-deductible meals and entertainment	0.3	0.3	0.3
Interest exempt from taxation and dividend exclusion		(0.1)	(0.2)
Other, net	0.1	0.2	0.1
Effective tax rate	39.2%	39.8%	39.0%

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for income tax reporting purposes.

Significant components of Brown & Brown's current deferred tax assets as of December 31 are as follows:

(in thousands)	2010	2009
Current deferred tax assets:		
Deferred profit-sharing contingent commissions	\$ 12,274	\$ 11,791
Accruals and reserves	7,802	
Total current deferred tax assets	\$ 20,076	\$ 11,791

Significant components of Brown & Brown's non-current deferred tax liabilities and assets as of December 31 are as follows:

Edgar Filing: BROWN & BROWN INC - Form 10-K

(in thousands)	2010	2009
Non-current deferred tax liabilities:		
Fixed assets	\$ 9,263	\$ 7,875
Net unrealized holding gain of available-for-sale securities	4	3
Prepaid insurance and pension	28	3,555
Intangible assets	146,815	120,887
Total non-current deferred tax liabilities	156,110	132,320
 Non-current deferred tax assets:		
Deferred compensation	8,232	8,031
Accruals and reserves		7,422
Net operating loss carryforwards	1,721	1,536
Valuation allowance for deferred tax assets	(325)	(278)
Total non-current deferred tax assets	9,628	16,711
Net non-current deferred tax liability	\$ 146,482	\$ 115,609

Income taxes paid in 2010, 2009 and 2008 were \$69,828,000, \$76,373,000, and \$79,339,000, respectively.

At December 31, 2010, Brown & Brown had net operating loss carryforwards of \$323,000 and \$34,713,000 for federal and state income tax reporting purposes, respectively, portions of which expire in the years 2011 through 2030. The federal carryforward is derived from insurance operations acquired by Brown & Brown in 2001. The state carryforward is derived from the operating results of certain subsidiaries.

Table of Contents

A reconciliation of the beginning and ending amount of unrecognized tax benefits is as follows:

(in thousands)	2010	2009	2008
Unrecognized tax benefits balance at January 1	\$ 635	\$ 611	\$ 507

Gross decreases for tax positions of prior years		(274)	
Settlements	(208)	(182)	
Lapse of statute of limitations		(9)	(93)
Unrecognized tax benefits balance at January 1	\$ 656	\$ 635	\$ 611

We recognize interest and penalties related to uncertain tax positions in income tax expense. As of December 31, 2010 and 2009, we had approximately \$140,000 and \$140,000 of accrued interest related to uncertain tax positions, respectively.

Total amount of unrecognized tax benefits that would affect our effective tax rate if recognized is \$656,000 as of December 31, 2010 and \$635,000 as of December 31, 2009. We do not expect our unrecognized tax benefits to change significantly over the next 12 months.

As a result of a 2006 Internal Revenue Service (IRS) audit, we agreed to accrue at each December 31, for tax purposes only, a known amount of profit-sharing contingent commissions represented by the actual amount of profit-sharing contingent commissions received in the first quarter of the related year, with a true-up adjustment to the actual amount received by the end of the following March 31. Since this method for tax purposes differs from the method used for book purposes, it will result in a current deferred tax asset as of December 31 each year with that balance reversing by the following March 31 when the related profit-sharing contingent commissions are recognized for financial accounting purposes.

The Company is subject to taxation in the United States and various state jurisdictions. The Company is also subject to taxation in the United Kingdom. In the United States, federal returns for fiscal years 2007 through 2010 remain open and subject to examination by the Internal Revenue Service. The Company files and remits state income taxes in various states where the Company has determined it is required to file state income taxes. The Company's filings with those states remain open for audit for the fiscal years 2006 through 2010. In the United Kingdom, the Company's filings remain open for audit for the fiscal years 2008 through 2010. The Company currently has no ongoing federal, state or foreign income tax audits.

NOTE 10 Employee Savings Plan

Brown & Brown has an Employee Savings Plan (401(k)) under which substantially all employees with more than 30 days of service are eligible to participate. Under this plan, Brown & Brown makes matching contributions, subject to a maximum of 2.5% of each participant's salary. Further, Brown & Brown provides for a discretionary profit-sharing contribution of 1.5% of the employee's salary for all eligible employees. Brown & Brown's contributions to the plan totaled \$11,376,000 in 2010, \$11,750,000 in 2009, and \$11,061,000 in 2008.

**NOTE 11 Stock-Based Compensation
Stock Incentive Plan**

On April 28, 2010, the shareholders of Brown & Brown, Inc. approved the 2010 Stock Incentive Plan (the SIP) that provides for the granting of stock options, stock and/or stock appreciation rights to employees and Board members contingent on criteria established by the Compensation Committee of the Board of Directors of Brown & Brown, Inc. The principal purpose of the SIP is to attract, incentivize and retain key employees by offering those persons an opportunity to acquire or increase a direct proprietary interest in the Company's operations and future success. The SIP includes a sub-plan applicable to Decus Insurance Brokers Limited (Decus) which, together with its parent company, Decus Holdings (U.K.) Limited, are the Company's only foreign subsidiaries. The shares of stock reserved for issuance under the Plan are any shares that are authorized to be issued under the Performance Stock Plan (PSP) that are not already subject to grants under the PSP, and that were outstanding as of April 28, 2010, the date of suspension of the PSP, together with PSP shares and SIP shares that are forfeited after that date. As of April 28, 2010, 6,046,768 shares were available for issuance under the PSP.

Table of Contents

In 2010, a grant of 187,040 shares was made under the SIP. This grant was conditioned upon the surrender of 187,040 shares previously granted under the PSP in 2009, which were accordingly treated as forfeited PSP shares. The vesting conditions of this grant were identical to those provided for in connection with the 2009 PSP grant; thus the target stock prices and the periods associated with satisfaction of the first and second conditions of vesting were unchanged. Additionally, grants totaling 5,205 shares were made in 2010 to Decus employees under the SIP sub-plan applicable to Decus. As of December 31, 2010, 38,449 shares met the first condition for vesting and had been awarded. At December 31, 2010, 6,340,384 shares are available for future grants, of which 1,507,755 of these shares are reserved for grants with PSP-type vesting conditions.

Performance Stock Plan

Brown & Brown has adopted and the shareholders have approved a performance stock plan, under which up to 14,400,000 PSP shares may be granted to key employees contingent on the employees' future years of service with Brown & Brown and other criteria established by the Compensation Committee of Brown & Brown's Board of Directors. Before participants may take full title to Performance Stock, two vesting conditions must be met. Of the grants currently outstanding, specified portions will satisfy the first condition for vesting based on 20% incremental increases in the 20-trading-day average stock price of Brown & Brown's common stock from the initial grant price specified by Brown & Brown. Performance Stock that has satisfied the first vesting condition is considered awarded shares. Awarded shares are included as issued and outstanding common stock shares and are included in the calculation of basic and diluted EPS. Dividends are paid on awarded shares and participants may exercise voting privileges on such shares. Awarded shares satisfy the second condition for vesting on the earlier of a participant's: (i) 15 years of continuous employment with Brown & Brown from the date shares are granted to the participants (or, in the case of the July 2009 grant to Powell Brown, 20 years); (ii) attainment of age 64; or (iii) death or disability. At December 31, 2010, 7,867,371 shares had been granted under the plan at initial stock prices ranging from \$1.90 to \$30.55. As of December 31, 2010, 3,391,519 shares met the first condition for vesting and had been awarded, and 2,075,517 shares satisfied both conditions for vesting and had been distributed to the participants. On April 28, 2010, the PSP was suspended and any remaining authorized but unissued shares, as well as any shares forfeited in the future, will be reserved for issuance under the SIP.

The Company uses a path-dependent lattice model to estimate the fair value of PSP grants on the grant date. A summary of PSP activity for the years ended December 31, 2010, 2009 and 2008 is as follows:

	Weighted- Average Grant Date Fair Value	Granted Shares	Awarded Shares	Shares Not Yet Awarded
Outstanding at January 1, 2008	\$ 6.38	5,574,956	4,686,732	888,224
Granted	\$ 9.41	2,607,885		2,607,885
Awarded	\$ 8.22		17,023	(17,023)
Vested	\$ 6.41	(38,004)	(38,004)	
Forfeited	\$ 11.78	(322,761)	(36,530)	(286,231)
Outstanding at December 31, 2008	\$ 7.21	7,822,076	4,629,221	3,192,855
Granted	\$ 11.80	389,580		389,580
Awarded	\$			
Vested	\$ 6.05	(73,860)	(73,860)	
Forfeited	\$ 10.42	(379,249)	(131,925)	(247,324)
Outstanding at December 31, 2009	\$ 7.39	7,758,547	4,423,436	3,335,111
Granted	\$ 9.67	384,420		384,420
Awarded	\$ 9.49		474,113	(474,113)
Vested	\$ 2.02	(1,388,789)	(1,388,789)	
Forfeited	\$ 7.91	(962,324)	(117,241)	(845,083)

Edgar Filing: BROWN & BROWN INC - Form 10-K

Outstanding at December 31, 2010	\$	7.32	5,791,854	3,391,519	2,400,335
----------------------------------	----	------	-----------	-----------	-----------

The weighted average grant-date fair value of PSP grants for years ended December 31, 2010, 2009 and 2008 was \$9.67, \$11.80, and \$9.41, respectively. The total fair market value of PSP grants that vested during each of the years ended December 31, 2010, 2009 and 2008 was \$31,965,000, \$1,412,000, and \$685,000, respectively.

Table of Contents

Employee Stock Purchase Plan

The Company has a shareholder-approved Employee Stock Purchase Plan (ESPP) with a total of 12,000,000 authorized shares and 2,785,310 available for future subscriptions. Employees of the Company who regularly work more than 20 hours per week are eligible to participate in the ESPP. Participants, through payroll deductions, may allot up to 10% of their compensation, to a maximum of \$25,000, to purchase Company stock between August 1 of each year to the following July 31st (the Subscription Period) at a cost of 85% of the lower of the stock price as of the beginning or ending of the Subscription Period.

The Company estimates the fair value of an ESPP share option as of the beginning of the Subscription Period as the sum of: (1) 15% of the quoted market price of the Company's stock on the day prior to the beginning of the Subscription Period, and (2) 85% of the value of a one-year stock option on the Company stock using the Black-Scholes option-pricing model. The estimated fair value of an ESPP share option as of the Subscription Period beginning in August 2010 was \$4.01. The fair value of an ESPP share option as of the Subscription Periods beginning in August 2009 and 2008, was \$5.78 and \$4.41, respectively.

For the plan years ended July 31, 2010, 2009 and 2008, the Company issued 500,334, 579,104 and 672,222 shares of common stock in August 2010, 2009 and 2008, respectively. These shares were issued at an aggregate purchase price of \$8,325,548 or \$16.64 per share in 2010, \$9,358,000 or \$16.16 per share in 2009 and \$10,036,000 or \$14.93 per share in 2008.

For the five months ended December 31, 2010, 2009 and 2008 of the 2010-2011, 2009-2010 and 2008-2009 plan years, 206,201, 250,414 and 257,643 shares of common stock (from authorized but unissued shares), respectively, were subscribed to by participants for proceeds of approximately \$3,400,000, \$3,826,000 and \$4,164,000, respectively.

Incentive Stock Option Plan

On April 21, 2000, Brown & Brown adopted, and the shareholders approved, a qualified incentive stock option plan (the ISOP) that provides for the granting of stock options to certain key employees for up to 4,800,000 shares of common stock. On December 31, 2008, the ISOP expired. The objective of the ISOP was to provide additional performance incentives to grow Brown & Brown's pre-tax income in excess of 15% annually. The options were granted at the most recent trading day's closing market price and vest over a one-to-10-year period, with a potential acceleration of the vesting period to three to six years based upon achievement of certain performance goals. All of the options expire 10 years after the grant date.

The Company uses the Black-Scholes option-pricing model to estimate the fair value of stock options on the grant date. The Company granted 1,445,000 option shares during the year ended December 31, 2008 under the ISOP but did not grant any options during the year ended December 31, 2007. The weighted average fair value of the incentive stock options granted during 2008 estimated on the date of grant, using the Black-Scholes option-pricing model, was \$4.92 per share. The fair value of these options granted was estimated on the date of grant using the following assumptions: dividend yield of 1.41%; expected volatility of 26.0%; risk-free interest rate of 3.14%; and an expected term of six years.

The risk-free interest rate is based upon the U.S. Treasury yield curve on the date of grant with a remaining term approximating the expected term of the option granted. The expected term of the options granted is derived from historical data; grantees are divided into two groups based upon expected exercise behavior and are considered separately for valuation purposes. The expected volatility is based upon the historical volatility of the Company's common stock over the period of time equivalent to the expected term of the options granted. The dividend yield is based upon the Company's best estimate of future dividend yield.

A summary of stock option activity for the years ended December 31, 2010, 2009 and 2008 is as follows:

	Shares	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value (in thousands)

Table of Contents

The following table summarizes information about stock options outstanding at December 31, 2010:

Exercise Price	Options Outstanding			Options Exercisable	
	Number Outstanding	Weighted Average Remaining Contractual Life (years)	Weighted Average Exercise Price	Number Exercisable	Weighted Average Exercise Price
\$15.78	673,636	2.2	\$ 15.78	58,972	\$ 15.78
\$22.06	12,000	4.0	\$ 22.06	4,534	\$ 22.06
\$18.48	1,189,534	7.2	\$ 18.48	193,534	\$ 18.48
Totals	1,875,170	5.4	\$ 17.53	257,040	\$ 17.92

The weighted average grant-date fair value of stock options granted during the years ended December 31, 2010, 2009 and 2008 was \$0.00, \$0.00 and \$4.92, respectively. The total intrinsic value of options exercised, determined as of the date of exercise, during the years ended December 31, 2010, 2009 and 2008 was \$2,344,000, \$948,000, and \$3,298,000, respectively. The total intrinsic value is calculated as the difference between the exercise price of all underlying awards and the quoted market price of the Company's stock for all in-the-money stock options at December 31, 2010, 2009 and 2008, respectively.

There are no option shares available for future grant under the ISOP since this plan expired as of December 31, 2008.

Summary of Non-Cash Stock-Based Compensation Expense

The non-cash stock-based compensation expense for the years ended December 31 is as follows:

(in thousands)	2010	2009	2008
Performance Stock Plan	\$ 2,836	\$ 2,878	\$ 2,761
Employee Stock Purchase Plan	2,511	2,878	2,951
Incentive Stock Option Plan	1,438	1,602	1,602
Stock Incentive Plan	60		
Total	\$ 6,845	\$ 7,358	\$ 7,314

Summary of Unrecognized Compensation Expense

As of December 31, 2010, there was approximately \$26.7 million of unrecognized compensation expense related to all non-vested share-based compensation arrangements granted under the Company's stock-based compensation plans. That expense is expected to be recognized over a weighted-average period of 9.3 years.

NOTE 12 Supplemental Disclosures of Cash Flow Information

Brown & Brown's significant non-cash investing and financing activities for the years ended December 31 are summarized as follows:

(in thousands)	2010	2009	2008
----------------	------	------	------

Edgar Filing: BROWN & BROWN INC - Form 10-K

Unrealized holding gain (loss) on available-for-sale securities, net of tax effect of \$1 for 2010, net of tax benefit of \$5 for 2009 and net of tax benefit of \$0 for 2008	2	(8)	
Notes payable issued or assumed for purchased customer accounts	\$ 3,821	\$ 22,645	\$ 15,987
Estimated acquisition earn-out payables and related charges	\$ 25,090	\$ 7,226	\$
Notes received on the sale of fixed assets and customer accounts	\$ 1,825	\$ (958)	\$ 3,610

Table of Contents**NOTE 13 Commitments and Contingencies
Operating Leases**

Brown & Brown leases facilities and certain items of office equipment under non-cancelable operating lease arrangements expiring on various dates through 2020. The facility leases generally contain renewal options and escalation clauses based upon increases in the lessors' operating expenses and other charges. Brown & Brown anticipates that most of these leases will be renewed or replaced upon expiration. At December 31, 2010, the aggregate future minimum lease payments under all non-cancelable lease agreements were as follows:

(in thousands)	
2011	\$ 24,491
2012	19,804
2013	15,345
2014	12,345
2015	9,174
Thereafter	13,983
Total minimum future lease payments	\$ 95,142

Rental expense in 2010, 2009 and 2008 for operating leases totaled \$35,216,000, \$37,598,000, and \$36,032,000, respectively.

Legal Proceedings

The Company is involved in numerous pending or threatened proceedings by or against Brown & Brown, Inc. or one or more of its subsidiaries that arise in the ordinary course of business. The damages that may be claimed against the Company in these various proceedings are in some cases substantial, including in many instances claims for punitive or extraordinary damages. Some of these claims and lawsuits have been resolved, others are in the process of being resolved and others are still in the investigation or discovery phase. The Company will continue to respond appropriately to these claims and lawsuits and to vigorously protect its interests.

Although the ultimate outcome of such matters cannot be ascertained and liabilities in indeterminate amounts may be imposed on Brown & Brown, Inc. or its subsidiaries. On the basis of present information, availability of insurance and legal advice, it is the opinion of management that the disposition or ultimate determination of such claims will not have a material adverse effect on the Company's consolidated financial position. However, as (i) one or more of the Company's insurance carriers could take the position that portions of these claims are not covered by the Company's insurance, (ii) to the extent that payments are made to resolve claims and lawsuits, applicable insurance policy limits are eroded and (iii) the claims and lawsuits relating to these matters are continuing to develop, it is possible that future results of operations or cash flows for any particular quarterly or annual period could be materially affected by unfavorable resolutions of these matters.

NOTE 14 Quarterly Operating Results (Unaudited)

Quarterly operating results for 2010 and 2009 were as follows:

(in thousands, except per share data)	First Quarter	Second Quarter	Third Quarter	Fourth Quarter
2010				
Total revenues	\$ 252,273	\$ 243,665	\$ 247,616	\$ 229,938
Total expenses	\$ 179,189	\$ 175,652	\$ 174,582	\$ 177,971
Income before income taxes	\$ 73,084	\$ 68,013	\$ 73,034	\$ 51,967
Net income	\$ 44,128	\$ 41,185	\$ 44,293	\$ 32,146

Edgar Filing: BROWN & BROWN INC - Form 10-K

2009				
Total revenues	\$ 263,580	\$ 246,369	\$ 243,766	\$ 214,162
Total expenses	\$ 184,373	\$ 179,390	\$ 176,275	\$ 173,085
Income before income taxes	\$ 79,207	\$ 66,979	\$ 67,491	\$ 41,077
Net income	\$ 48,012	\$ 40,668	\$ 40,961	\$ 23,653
Net income per share:				
Basic	\$ 0.34	\$ 0.29	\$ 0.29	\$ 0.17
Diluted	\$ 0.34	\$ 0.29	\$ 0.29	\$ 0.17

Quarterly financial information is affected by seasonal variations. The timing of profit-sharing contingent commissions, policy renewals and acquisitions may cause revenues, expenses and net income to vary significantly between quarters.

Table of Contents**NOTE 15 Segment Information**

Brown & Brown's business is divided into four reportable segments: the Retail Division, which provides a broad range of insurance products and services to commercial, public and quasi-public entities, and to professional and individual customers; the National Programs Division, which is comprised of two units Professional Programs, which provides professional liability and related package products for certain professionals delivered through nationwide networks of independent agents, and Special Programs, which markets targeted products and services designed for specific industries, trade groups, public and quasi-public entities, and market niches; the Wholesale Brokerage Division, which markets and sells excess and surplus commercial and personal lines insurance, and reinsurance, primarily through independent agents and brokers; and the Services Division, which provides insurance-related services, including third-party claims administration and comprehensive medical utilization management services in both the workers' compensation and all-lines liability arenas, as well as Medicare set-aside services and Social Security disability and Medicare benefits advocacy services. Brown & Brown conducts all of its operations within the United States of America, except for one wholesale brokerage operation based in London, England which commenced business in March 2008. This operation earned \$9.9 million, \$6.6 million and \$2.6 million of total revenues for the years ended December 31, 2010, 2009 and 2008, respectively.

The accounting policies of the reportable segments are the same as those described in Note 1. Brown & Brown evaluates the performance of its segments based upon revenues and income before income taxes. Inter-segment revenues are eliminated.

Summarized financial information concerning Brown & Brown's reportable segments is shown in the following table. The Other column includes any income and expenses not allocated to reportable segments and corporate-related items, including the inter-company interest expense charge to the reporting segment.

(in thousands)	Year Ended December 31, 2010

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of

Brown & Brown, Inc.

Daytona Beach, Florida

We have audited the accompanying consolidated balance sheets of Brown & Brown, Inc. and subsidiaries (the Company) as of December 31, 2010 and 2009, and the related consolidated statements of income, shareholders' equity, and cash flows for each of the three years in the period ended December 31, 2010. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of Brown & Brown, Inc. and subsidiaries as of December 31, 2010 and 2009, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2010, in conformity with accounting principles generally accepted in the United States of America.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of December 31, 2010, based on the criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated March 1, 2011 expressed an unqualified opinion on the Company's internal control over financial reporting.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of

Brown & Brown, Inc.

Daytona Beach, Florida

We have audited the internal control over financial reporting of Brown & Brown, Inc. and subsidiaries (the Company) as of December 31, 2010, based on criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. As described in Management's Report on Internal Control over Financial Reporting, management excluded from its assessment the internal control over financial reporting at Medical Settlement Protocols; DiMartino Associates, Inc; Crowe Paradis Holding Company, et al.; Thomas R Jones, Inc. and Martin Benefits Consulting, LLC (collectively the 2010 Excluded Acquisitions), which were acquired during 2010 and whose financial statements constitute 7.3 % and 5.5% of net and total assets, respectively, 2.0% of revenues, and 2.1% of net income of the consolidated financial statement amounts as of and for the year ended December 31, 2010. Accordingly, our audit did not include the internal control over financial reporting of the 2010 Excluded Acquisitions. The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2010, based on the criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements as of and for the year ended December 31, 2010 of the Company and our report dated March 1, 2011 expressed an unqualified opinion on those financial statements.

Management's Report on Internal Control Over Financial Reporting

The management of Brown & Brown, Inc. and its subsidiaries ("Brown & Brown") is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Securities Exchange Act Rule 13a-15(f). Under the supervision and with the participation of management, including Brown & Brown's principal executive officer and principal financial officer, Brown & Brown conducted an evaluation of the effectiveness of internal control over financial reporting based on the framework in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

In conducting Brown & Brown's evaluation of the effectiveness of its internal control over financial reporting, Brown & Brown has excluded the following acquisitions completed by Brown & Brown during 2010: Medical Settlement Protocols; DiMartino Associates, Inc; Crowe Paradis Holding Company, et al.; Thomas R Jones, Inc. and Martin Benefits Consulting, LLC (collectively the "2010 Excluded Acquisitions"), which were acquired during 2010 and whose financial statements constitute 7.3 % and 5.5% of net and total assets, respectively, 2.0% of revenues, and 2.1% of net income of the consolidated financial statement amounts as of and for the year ended December 31, 2010. Refer to Note 2 to the Consolidated Financial Statements for further discussion of these acquisitions and their impact on Brown & Brown's Consolidated Financial Statements.

Based on Brown & Brown's evaluation under the framework in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission, management concluded that internal control over financial reporting was effective as of December 31, 2010. Management's internal control over financial reporting as of December 31, 2010 has been audited by Deloitte & Touche LLP, an independent registered public accounting firm, as stated in their report which is included herein.

ITEM 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure.

There were no changes in or disagreements with accountants on accounting and financial disclosure in 2010.

ITEM 9A. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

We carried out an evaluation required by Rules 13a-15 and 15d-15 under the Exchange Act (the "Evaluation"), under the supervision and with the participation of our Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), of the effectiveness of our disclosure controls and procedures as defined in Rule 13a-15 and 15d-15 under the Exchange Act ("Disclosure Controls") as of December 31, 2010. Based on the Evaluation, our CEO and CFO concluded that the design and operation of our Disclosure Controls were effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in SEC rules and forms and (ii) accumulated and communicated to our senior management, including our CEO and CFO, to allow timely decisions regarding required disclosure.

In conducting Brown & Brown's evaluation of the effectiveness of its internal controls over financial reporting, Brown & Brown has excluded the following acquisitions completed by Brown & Brown during 2010: Medical Settlement Protocols; DiMartino Associates, Inc; Crowe Paradis Holding Company et.al.; Thomas R Jones, Inc. and Martin Benefits Consulting, LLC (collectively the "2010 Excluded Acquisitions"), which were acquired during 2010 and whose financial statements constitute 7.3 % and 5.5% of net and total assets, respectively, 2.0% of revenues, and 2.1% of net income of the consolidated financial statement amounts as of and for the year ended December 31, 2010. Refer to Note 2 to the Consolidated Financial Statements for further discussion of these acquisitions and their impact on Brown & Brown's Consolidated Financial Statements.

Changes in Internal Controls

There has not been any change in our internal control over financial reporting identified in connection with the Evaluation that occurred during the quarter ended December 31, 2010 that has materially affected, or is reasonably likely to materially affect, those controls.

Inherent Limitations of Internal Control Over Financial Reporting

Our management, including our principal executive officer and principal financial officer, does not expect that our Disclosure Controls and internal controls will prevent all error and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the control.

The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, a control may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

CEO and CFO Certifications

Exhibits 31.1 and 31.2 are the Certifications of the CEO and the CFO, respectively. The Certifications are required in accordance with Section 302 of Sarbanes-Oxley (the "Section 302 Certifications"). This Item 9A is the information concerning the Evaluation referred to in the Section 302 Certifications and this information should be read in conjunction with the Section 302 Certifications for a more complete understanding of the topics presented.

Management's Report on Internal Control Over Financial Reporting

Edgar Filing: BROWN & BROWN INC - Form 10-K

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rule 13a-15(f). Our internal control system was designed to provide reasonable assurance to our management and board of directors regarding the preparation and fair presentation of published financial statements. All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

Table of Contents

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in *Internal Control Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on our evaluation under the framework in *Internal Control Integrated Framework*, our management concluded that our internal control over financial reporting was effective as of December 31, 2010. Management's Report on Internal Control Over Financial Reporting and the Report of Independent Registered Public Accounting Firm on internal control over financial reporting are set forth in Part II, Item 8 of this Annual Report on Form 10-K and are included herein by reference.

ITEM 9B. Other Information.

On January 19, 2011, we granted restricted stock shares under our 2010 Stock Incentive Plan (SIP) to Powell Brown and Cory Walker, each of whom is one of our Named Executive Officers. Full ownership of these shares will not vest until the satisfaction of several conditions of vesting. The first condition is a performance condition based on the compounded annual growth rate (CAGR) of our earnings per share (EPS) over a five-year performance measurement period ending December 31, 2015. If the CAGR of our EPS during the performance measurement period equals or exceeds seven and one-half percent (7.5%), the first condition of vesting is met with respect to the shares. Alternatively, if the CAGR of our EPS during the performance measurement period does not equal at least seven and one-half percent (7.5%), all of the shares will be forfeited. The restricted stock grants contain an additional provision that would apply in the event of extraordinary performance. If the CAGR of our EPS during the performance measurement period equals or exceeds ten percent (10%), the number of shares awarded to Powell Brown and Cory Walker and treated as having met the EPS performance condition would be increased by fifty percent (50%). Once the first condition of vesting is met with respect to any portion of the shares, the grantee is entitled to receive dividends and to vote that portion of the shares. For purposes of the additional vesting conditions, the restricted stock grants are divided into two equal portions described as Vesting Category 1 and Vesting Category 2. If additional shares are awarded as a result of extraordinary performance as described above, the additional shares are governed by the same second condition of vesting that applies to Vesting Category 2. For Vesting Category 1, the second condition of vesting provides for vesting in three (3) equal installments, on January 1 of 2017, 2018 and 2019, respectively, if the grantee remains continuously employed by the Company from the date of grant until December 31 of the calendar year ending immediately prior to each such date, or, if earlier, until the attainment of age 64, or disability or death, in which case a pro rata portion of the shares that have met the performance conditions described above would vest. For Vesting Category 2, the second condition of vesting is continued employment with us for a period of ten (10) years following the date of grant or, if earlier, until the attainment of age 64, or disability or death, in which case a pro rata portion of the shares that have met the performance conditions described above would vest. If and when such second conditions of vesting are met, the vested shares in Vesting Category 1 and Vesting Category 2 (including any additional shares awarded as a result of extraordinary performance) will be delivered, and the market value of such shares as of the vesting date will be taxed as ordinary income to the recipients.

PART III**ITEM 10. Directors, Executive Officers and Corporate Governance.**

The information required by this item regarding directors and executive officers is incorporated herein by reference to our definitive Proxy Statement to be filed with the SEC in connection with the Annual Meeting of Shareholders to be held in 2011 (the 2011 Proxy Statement) under the headings Management and Section 16(a) Beneficial Ownership Reporting. We have adopted a code of ethics that applies to our principal executive officer, principal financial officer, and controller. A copy of our Code of Ethics for our Chief Executive Officer and our Senior Financial Officers and a copy of our Code of Business Conduct and Ethics applicable to all employees are posted on our Internet website, at www.bbinsurance.com, and are also available upon written request directed to Corporate Secretary, Brown & Brown, Inc., 3101 West Martin Luther King Jr. Blvd., Suite 400, Tampa, Florida 33607, or by telephone request to (813) 222-4277.
