**Item 7.01 Regulation FD Disclosure**

This amendment to the Current Report on Form 8-K of Fifth Third Bancorp filed with the SEC on April 21, 2011 in connection with its earnings release and conference call for the first quarter of 2011 is being filed solely for the purpose of modifying information contained on slide 20 titled "Second Quarter 2011 Outlook" in Exhibit 99.2.

Slide 20 summarized our expectations for certain results in the second quarter of 2011 and for certain results in the second half of the 2011, as noted in management's prepared remarks regarding earnings. We are amending slide 20 to provide the following clarifications as outlined below.

On the original slide, comments regarding expectations for the second half were specifically noted as such. The slide has been modified to provide further clarity regarding which comments related to expectations for the second quarter of 2011 only and which comments related to expectations for the second half of 2011 only.

Additionally, as part of its outlook provided for future expectations, management noted in its prepared comments regarding pre-provision net revenue\* that we currently expect growth in the second half driven in part by stronger net interest income results. We did not discuss during our remarks whether that expectation incorporated an assumption regarding the potential impact of proposed legislation to cap debit interchange fees. To clarify, that expectation did incorporate an assumption that debit interchange fees will be negatively affected by the potential for a cap on those fees. The slide has been modified to include our expectation regarding pre-provision net revenue noted in our prepared remarks, and a footnote has been added to the slide with respect to pre-provision net revenue to provide clarification regarding our underlying assumption regarding debit interchange legislation.

In management's prepared remarks regarding its expectation for trends in average loans and leases, we noted overall, portfolio loans are currently expected to be up modestly in the second quarter with stronger results in the second half. Slide 20 summarizing our expectations for average loans and leases had a notation that average loans and leases included loans held for sale. Our outlook for average loans and leases noted in management's remarks was for average loans and leases excluding loans held for sale, and included references to both the second quarter and second half of 2011, and therefore the slide has been modified to conform to management's prepared comments on this topic.

The slide, as corrected, is included in the information regarding Fifth Third Bancorp's first quarter earnings conference call from April 21, 2011. This information, including the corrected slide, is furnished as Exhibit 99.1 hereto.

The information in this Form 8-K/A and Exhibit 99.1 attached hereto shall not be deemed filed for purposes of Section 18 of the Securities Act of 1934, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933, except as shall be expressly set forth by specific reference.
