Also, one or more shareholders in Holdco may, if they individually or jointly represent at least 10% of the capital and/or are entitled to shares or depositary receipts with a nominal value of at least 225,000, start so-called *inquiry proceedings* before the Enterprise Chamber of the Amsterdam Court of Appeals. In these proceedings, the shareholder(s) may request that the Enterprise Chamber will appoint one or more persons to conduct an inquiry into the policy of Holdco. If the Enterprise Chamber finds there are reasons to question the policy of Holdco, it may order such enquiry. Depending on the outcome of the enquiry, the Enterprise Chamber may declare that there has been mismanagement at Holdco. Further

Table of Contents**Deutsche Börse Shareholders**

not to pursue such claims, then such claims of Deutsche Börse for compensatory damages must nevertheless be asserted against members of the management board or the supervisory board if the general shareholders meeting passes

a resolution to this effect by a simple majority vote. Any damage claims should be brought within six months from the date of the shareholders meeting. The shareholders meeting may appoint special representatives to assert a claim for damages. The court will, upon petition by shareholders whose aggregate holdings amount to at least 10% of the share capital or a portion of the share capital of 1,000,000, appoint persons other than those appointed to represent Deutsche Börse to assert the claim for damages, if in the opinion of the court such appointment is appropriate for the proper assertion of such claim.

Additionally, shareholders whose aggregate holdings amount to at least 1% of the share capital or 100,000 are entitled to request admission to file a claim for damages on behalf of Deutsche Börse. The court will admit the claim if:

the shareholders exercising the right to file a claim for damages establish that (1) they have acquired the shares prior to the alleged breach of duty; and (2) they have demanded, to no avail, that Deutsche Börse file the claim within a reasonable period of time;

facts have been presented that justify a suspicion that Deutsche Börse has been damaged by improprieties or serious breaches of the law or the articles of association; and

NYSE Euronext Shareholders**Holdco Shareholders**

to that declaration, the Enterprise Court may take certain permanent measures, such as the suspension or dismissal of one or more members of the board of directors, and/or suspension or annulment of

one or more decisions of a body of Holdco. In addition, pending the enquiry, the Enterprise Chamber may take certain immediate measures, also including the suspension of one or more members of the board of directors and/or suspension or annulment of one or more decisions of a body of Holdco or voting rights. The declaration of the Enterprise Chamber that there has been mismanagement at a company may be a stepping stone for the establishment (in separate proceedings) of director's liability vis-à-vis the company and/or third parties.

With regard to damages actions, in the event a third party is liable to Holdco for damage it suffered, only Holdco itself can bring a civil action against that party. Individual shareholders do not have the right to bring an

action on behalf of Holdco. Only in the event that the cause for the liability of a third party to Holdco also constitutes a tortious act directly against a shareholder does that shareholder have an individual right of action against such third party in its own name.

It should be noted, that Dutch law provides for the possibility to initiate actions against a third party collectively. A foundation or an association whose objective is to protect the rights of a group of persons having similar interests can institute a collective action. The collective action itself cannot result in an order for payment of monetary damages but may only result in a declaratory judgment (*verklaring voor recht*). In order to obtain compensation for damages, the foundation or association and

Table of Contents**Deutsche Börse Shareholders**

no overriding interests of Deutsche Börse prevent the enforcement of the compensation claim.

German law does not permit shareholders to inspect corporate books and records. However, Section 131 of the German Stock Corporation Act provides each shareholder with a right to information at the general meeting of the shareholders, to the extent that such information is necessary to permit a proper evaluation of the relevant item on the agenda.

The right to information is a right only to oral information at a general meeting of the shareholders. Information may be given in writing to shareholders, but they are neither entitled to receive written information nor to inspect any documents of Deutsche Börse. As a practical matter, shareholders may receive certain written information about Deutsche Börse through its public filings with the commercial register (*Handelsregister*), the company register (*Unternehmensregister*) and the electronic German Federal Gazette and other places where documents of Deutsche Börse are made publicly available.

NYSE Euronext Shareholders**Rights of Inspection**

Under the Delaware General Corporation Law, any shareholder may inspect for any proper purpose the corporation's stock ledger, a list of its shareholders and its other books and records during the corporation's usual hours for business.

Holdco Shareholders

the defendant may reach often on the basis of such declaratory judgment a settlement. A Dutch court may declare the settlement agreement binding upon all the injured parties with an opt-out choice for an individual injured party. An individual injured party or group of injured parties may also itself institute a civil claim for damages independent from the collective action and mass settlement initiative by a foundation or association, provided that it has opted out of the mass settlement in time.

Upon request, a shareholder will be provided with written evidence of the contents of the register of shareholders with regard to the shares registered in the shareholder's name free of charge, and the statement so issued may be validly signed on behalf of Holdco by a person to be designated for that purpose by the Holdco board of directors. In order to comply with applicable foreign statutory provisions or rules of the New York Stock Exchange, the Frankfurt Stock Exchange, Euronext Paris and any other stock exchange where shares or depositary receipts of shares are listed, Holdco may allow inspection of the register of shareholders by, or provide information included in the register of shareholders to, any applicable supervisory authority.

Table of Contents**Deutsche Börse Shareholders****NYSE Euronext Shareholders****Holdco Shareholders****Conflict of Interest Transactions**

Under German law, the members of the Deutsche Börse management board are subject to a statutory non-compete provision. If this duty is breached, the member of the Deutsche Börse management board is liable for damages or Deutsche Börse can demand to receive any profits or compensation the individual has received or will receive from the competing transaction. Other conflicts of interest may have to be disclosed to the Deutsche Börse supervisory board if the member of

the management board is unable to perform his fiduciary duties correctly.

Any contract according to which a member of the Deutsche Börse supervisory board is to provide services to Deutsche Börse beyond his or her statutory duties as a Deutsche Börse supervisory board member requires approval of the Deutsche Börse supervisory board to be valid. Any compensation received for such services must be repaid to Deutsche Börse if the Deutsche Börse supervisory board did not approve the underlying contract. In all other cases of conflicts of interests a Deutsche Börse supervisory board member is obligated to act according to his or her duties of care and loyalty. Beyond this there is no clear rule under German law for the treatment of such conflicts, but the German Corporate Governance Code stipulates that the conflicts of interest are to be disclosed to the supervisory board and that permanent conflicts of interest will result in the termination of the conflicted board member's service agreement.

The Delaware General Corporation Law generally permits transactions involving a Delaware corporation and an interested director of that corporation if: (1) the material facts as to his or her relationship or interest are disclosed and a majority of disinterested directors consents; (2) the material facts are disclosed as to his or her relationship or interest and a majority of shares entitled to vote thereon consents; or (3) the transaction is fair to the corporation at the time it is authorized by the board of directors, a committee of the board of directors or the shareholders.

Without limitation to the relevant principles and best practice rules under the Dutch Corporate Governance Code, under the Rules for the Board of Directors, a member of the Holdco board of directors will not participate in the discussions and the decision-making process on a subject or transaction in relation to which he has a conflict of interest with Holdco.

A member of the Holdco board of directors has in any event a conflict of interest if:

he or she has a material personal financial interest in an entity that Holdco or a Holdco group company intends to enter into a transaction with;

he or she is a family member of a member of the management of an entity that Holdco or a Holdco group company intends to enter into a transaction with;

he or she holds a management or supervisory position in an entity that Holdco or a Holdco group company intends to enter into a transaction with; or

the Holdco board of directors has ruled at its sole discretion that a conflict of interest exists.

In the event of a conflict of interest between Holdco and one or more directors, the Holdco articles of association, which provide that Holdco will be represented by the Holdco board of directors while the executive director is also

Table of Contents**Deutsche Börse Shareholders****NYSE Euronext Shareholders****Holdco Shareholders**

authorized to represent Holdco, will continue to apply unimpaired, unless the general meeting of shareholders has designated one or more other persons to represent Holdco in the case at hand in the event of such a conflict.

Under Dutch law, the general meeting of shareholders is always authorized to appoint one or more persons to represent Holdco in matters in which a member of the Holdco board of directors has a conflict of interest with Holdco.

Action by Written Consent of Shareholders

The German Stock Corporation Act does not permit shareholders to act by written consent outside a general meeting of shareholders.

The NYSE Euronext certificate of incorporation provides that any action required or permitted to be taken by shareholders must be effected at a duly called annual or special meeting and may not be effected by written consent.

Shareholders of Holdco cannot adopt resolutions outside a general meeting of shareholders.

Limitation of Directors Liability/Indemnification of Officers and Directors

Under the German Stock Corporation Act, a stock corporation is not allowed to limit or eliminate the personal liability of the members of either the Deutsche Börse management board or the Deutsche Börse supervisory board for damages due to breach of duty in their official capacity.

Deutsche Börse may, however, waive its claims for damages due to a breach of duty or reach a settlement with regard to such claims if more than three years have passed after such claims have arisen, but only with the approval of the general meeting of the shareholders, provided that such waiver may not be granted and such settlement may not be reached if shareholders holding, in the aggregate, at least 10% of the issued shares file an objection to the protocol of the shareholders meeting.

The Delaware General Corporation Law permits a corporation to include in its certificate of incorporation a provision eliminating or limiting a director's personal liability to the corporation or its shareholders for monetary damages for breaches of fiduciary duty. However, the Delaware General Corporation Law expressly provides that the liability of a director may not be eliminated or limited for: (1) breaches of his or her duty of loyalty to the corporation or its shareholders; (2) acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law; (3) the unlawful purchase or redemption of stock or unlawful payment of dividends; or (4) any transaction from which the director derived an improper personal benefit. The Delaware General Corporation Law further provides

Pursuant to Dutch law, members of the board of directors may be liable to Holdco for damages in the event of improper or negligent performance of their duties. They may also be liable for damages toward third parties in the event of bankruptcy or default on tax and social security payments as a consequence of improper performance of duties, or tort. In certain circumstances, members of the board of directors may also incur criminal liabilities.

Holdco's articles of association provide that each current and former director be indemnified by Holdco against all costs and expenses reasonably incurred by the director or former director and all damages or fines payable by the director or former director based on acts or failures to act in the exercise of his or her duties or any

Table of Contents**Deutsche Börse Shareholders**

Under German law, Deutsche Börse may indemnify its officers (*Leitende Angestellte*), and, under certain circumstances, German labor law requires a stock corporation to provide such indemnification. However, Deutsche Börse may not, as a general matter, indemnify members of the Deutsche Börse management board or the Deutsche Börse supervisory board where such members are liable towards Deutsche Börse based on a breach of their fiduciary duties or other obligations

towards Deutsche Börse. A German stock corporation (*Aktiengesellschaft*) may, however, purchase directors and officers insurance. In the case of directors and officers insurance for members of the management board, such insurance is subject to mandatory restrictions imposed by German law, including a deductible of at least 10% of the damages to be borne by the respective member of the management board capped at a maximum of 1.5 times the respective board member's fixed annual salary. In addition, German law may permit a corporation to indemnify a member of the Deutsche Börse management board or the Deutsche Börse supervisory board for attorneys' fees incurred if such member is the successful party in a suit in a country, such as the United States, where winning parties are required to bear their own costs, if German law would have required the losing party to pay such member's attorneys' fees had the suit been brought in Germany.

NYSE Euronext Shareholders

that no such provision will eliminate or limit the liability of a director for any act or omission occurring prior to the date when such provision becomes effective.

NYSE Euronext's organizational documents provide for the indemnification of directors and executive officers to the fullest extent permitted by the Delaware General Corporation Law; provided, however, that, except with respect to claims based on

this right to indemnification, NYSE Euronext will indemnify any such person seeking indemnification in connection with a proceeding (or part thereof) initiated by such person only if such proceeding (or part thereof) was authorized by the board of directors. The right to indemnification includes the right to have expenses advanced provided, however, that, if the Delaware General Corporation Law requires, the payment of such expenses incurred by a director or officer in his or her capacity as a director or officer (and not in any other capacity in which service was or is rendered by such person while a director or officer, including, without limitation, service to an employee benefit plan) in advance of the final disposition of a proceeding, will be made only upon delivery to NYSE Euronext of an undertaking, by or on behalf of such director or officer, to repay all amounts so advanced if it is ultimately determined that such director or officer is not entitled to be indemnified under this law or otherwise.

Holdco Shareholders

other duties currently or previously performed by him or her at Holdco's request.

Holdco's articles of association limit the right to indemnification to the effect that there will be no entitlement to indemnity thereunder if and to the extent (1) the laws of the Netherlands would not permit such indemnification or (2) a competent court has established in a final and conclusive decision that the act or failure to act of the (former) director may be characterized as willful (*opzettelijk*), intentionally reckless (*bewust roekeloos*) or seriously culpable (*ernstig verwijtbaar*) unless the laws of the Netherlands provide otherwise or this would, in view of the circumstances of the case, be unacceptable according to standards of reasonableness and fairness.

Indemnification also does not apply if and to the extent the costs, damages or fines are covered by any liability insurance and the insurer has paid out the costs, damages or fines.

Table of Contents**Deutsche Börse Shareholders****NYSE Euronext Shareholders****Holdco Shareholders**

Generally, the Delaware General Corporation Law permits a corporation to indemnify certain persons made a party to any action, suit or proceeding by reason of the fact that such person is or was a director, officer, employee or agent of the corporation or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation or enterprise, provided that such person acted in good faith and in a manner he or she reasonably believed to be in or not opposed to the best interests of the corporation. To the extent that person has been successful in any such matter, that person will be indemnified against expenses actually and reasonably incurred by him or her. In the case of an action by or in the right of the corporation, no indemnification may be made in respect of any matter as to which that person was adjudged liable to the corporation unless and only to the extent that the Delaware Court of Chancery or the court in which the action was brought determines that, despite the adjudication of liability, that person is fairly and reasonably entitled to indemnity for proper expenses.

(Anti-)Takeover Legislation

On December 20, 2001, the German Takeover Act came into effect. The German Takeover Act, as amended, regulates all public offers to acquire certain market traded equity securities of German-based stock corporations, whose stock is admitted to trading on a regulated market in Germany or anywhere within the European Economic Area, whether for stock, cash or a combination thereof and irrespective of the size or purpose of the acquisition.

Section 203 of the Delaware General Corporation Law generally provides that a Delaware corporation that has not opted out of coverage by this section in the prescribed manner may not engage in any business combination with an interested shareholder for a period of three years following the date that the shareholder became an interested shareholder unless:

Neither Dutch law nor Holdco's articles of association specifically prevent business combinations with interested shareholders. Under Dutch law various protective measures are as such possible and admissible, including the issuance of preference shares with voting rights, within the boundaries set by Dutch case law and Dutch law, in particular the Dutch Corporate Governance Code.

of prior to that time the corporation's board

Table of Contents**Deutsche Börse Shareholders**

The German Takeover Act addresses public offers (*öffentliche Angebote*), which are defined as publicly announced offers to acquire a target company's stock (or equity-backed securities, *i.e.*, convertible stock) through purchase or exchange from individual shareholders. Once a party decides to submit a public offer, it is obliged to publicly announce its intention promptly. Prior to the announcement, the offeror must notify the Federal Financial Supervisory Authority (*BaFin*) and the relevant stock markets. Typically within four weeks, and in complicated cross-border offers within eight weeks, of such public announcement, the offeror is required to submit a detailed offer document (*Angebotsunterlage*) to BaFin. The offering document may be publicly distributed only after its approval by the BaFin. Once approved, the offer document must be posted on the Internet and either broadly distributed free of charge or published in the electronic German Federal Gazette. The offer must remain open for no less than four weeks and no more than 10 weeks. Such period will be extended automatically if the offer is modified within the last two weeks of the offer period or if during the offer period a third party makes a competing offer.

The German Takeover Act distinguishes between two kinds of public offers: takeover offers (*Übernahmeangebote*) and mandatory offers (*Pflichtangebote*).

Takeover offers are offers directed at gaining control of the target. Pursuant to the German Takeover Act, control is deemed to be gained if at least 30% of the voting rights of a company are held. In addition to the provisions

NYSE Euronext Shareholders

directors approved either the business combination or the transaction that resulted in the shareholder becoming an interested shareholder;

upon completion of the transaction that resulted in the shareholder becoming an interested shareholder, the interested shareholder owned at least 85% of the voting stock of the corporation outstanding at the time the transaction commenced, excluding for purposes of determining the voting stock outstanding (but not the outstanding voting stock owned by the interested shareholder) those shares owned by individuals who are directors and also officers and shares owned by employee stock ownership plans in which employee participants do not have the right to determine confidentially whether the shares held subject to the stock ownership plan will be tendered in a tender offer or exchange offer; or

at or subsequent to that time, the business combination is approved by the corporation's board of directors and authorized at an annual or special meeting of shareholders by the affirmative vote of holder of at least 66²/₃% of the outstanding voting stock that is not owned by the interested shareholder.

The three-year prohibition on business combinations with an

Holdco Shareholders

Pursuant to Chapter 5.5 of the Dutch Financial Supervision Act, a shareholder who has acquired 30% of the voting rights attached to the shares of Holdco will be obliged to launch a public offer for all of Holdco's remaining shares. Shareholders acting in concert, who have a combined interest of at least 30% of a company's voting rights, are also obliged to make a public offer. The same applies when one or more shareholders have agreed with the target company to frustrate a public offer.

As Holdco is organized under the laws of the Netherlands, it is subject to Dutch law. However, as the Holdco shares are not admitted to trading on a regulated market in the Netherlands, but will be admitted to trading on the regulated markets of the Frankfurt Stock Exchange and Euronext Paris, the Dutch public offer rules contained in the Dutch Financial Supervision Act and the related Decree on public offers (*Besluit openbare biedingen Wft*) will only apply in relation to matters concerning information to be provided to trade unions and employees and company law matters, including the convening of a shareholders meeting in the event of a public offer. Holdco may elect that German takeover law as set forth in the German Takeover Act to apply in respect of consideration and procedural matters for any public offer made for its shares listed on the Frankfurt Stock Exchange and Euronext Paris and must on the first day of trading of its shares notify BaFin, the Frankfurt Stock Exchange, the AMF and Euronext of its choice.

squeeze-out the remaining minority shareholders for a settlement in cash. Upon entry of such shareholder's resolution in the Commercial Register, the shares of the minority shareholders are transferred to the majority shareholder. The majority shareholder determines the amount of the cash settlement to be paid to the minority shareholders. However, if such amount is not adequate, an adequate amount will be determined by the competent court at the request of any minority shareholder.

If a shareholder owns more than 95% of the share capital immediately following a takeover offer, a court

will, upon the request of a shareholder filing within three months after the expiration of the offer period, decide to squeeze-out the remaining minority shareholders for a settlement in cash. In such a case, but only if the majority shareholder received at least 90% of the share capital through the takeover offer itself, the offer price is considered adequate compensation for the squeezed-out minority shareholders.

NYSE Euronext Shareholders

subsidiary without advance notice or consent of the minority shareholders upon approval by the parent's board of directors.

Holdco Shareholders

Holdco may institute proceedings against that company's other shareholders (*gezamenlijke minderheidsaandeelhouders*) for the transfer of their shares to the claimant. The proceedings are held before the enterprise chamber of the Amsterdam Court of Appeal (*Ondernemingskamer van het Gerechtshof te Amsterdam*) and must be instituted by means of a writ of summons served upon the minority shareholders in accordance with the provisions of the Dutch Code of Civil Procedure (*Wetboek van Burgerlijke Rechtsvordering*). The enterprise chamber may only grant the claim

for a squeeze-out in relation to all minority shareholders and will determine the price to be paid for the shares, if necessary after appointment of one or three experts who will give an opinion to the enterprise chamber on the value to be paid for the shares of the minority shareholders. Once the order to transfer of the enterprise chamber becomes final, the person acquiring the shares will give written notice of the date and place of payment and the price to the holders of the shares to be acquired whose addresses are known to such person. Unless the addresses of all of them are known to such person, such person will also publish the same in a daily newspaper with a national circulation. A person or company that holds less than 95% of the shares in the company's issued share capital, but that in practice controls the company's general meeting of shareholders, could attempt to obtain full ownership of the business of the company through a legal merger of the company with another company controlled by such person or

Table of Contents

Deutsche Börse Shareholders

NYSE Euronext Shareholders

Holdco Shareholders

company, by subscribing to additional shares in the first company (for example, in exchange for a contribution of part of its own business), through another form of reorganization aimed at raising its interest to 95% or through other means.

Pursuant to Section 2:359c of the Dutch Civil Code, the offeror under a public offer is also entitled to start a squeeze-out procedure if it holds 95% of the issued share capital. If a mandatory offer has been made, the price in the public offer, in principle, also has to be accepted by minority shareholders in a squeeze-out. The price offered in the public offer will in principle be deemed a reasonable price for squeeze-out purposes if the offer was a mandatory offer or if at least 90% of the shares were received by way of a voluntary offer. The enterprise chamber may, nevertheless, appoint one or three experts who will give an opinion to the enterprise chamber on the value to be paid for the shares of the minority shareholders. The claim of a squeeze-out needs to be filed with the enterprise chamber within three months after the end of the period for tendering shares in the public offer. Conversely, in such a case, pursuant to Section 2:359d of the Dutch Civil Code each minority shareholder has the right to require the holder of at least 95% of the outstanding shares and voting rights to purchase its shares. The minority shareholders must file such claim with the enterprise chamber within three months after the end of the acceptance period of the public offer.

Table of Contents**Deutsche Börse Shareholders****NYSE Euronext Shareholders****Holdco Shareholders****Disclosure of Significant Ownership of Shares**

The German Securities Trading Act provides that any person whose voting interest in an issuer (country of origin of which is the Federal Republic of Germany) reaches, exceeds or falls below the thresholds of 3%, 5%, 10%, 15%, 20%, 25%, 30%, 50% or 75% through acquisition, sale or other means must give written notification to the issuer and to BaFin in writing without undue delay, but in any event within four trading days.

The German Securities Trading Act also contains several provisions designed to ensure that shareholdings in listed companies are attributed to those persons who in fact control the voting rights associated with such shares. For example, if a party subject to the notification requirement controls a third party that owns shares, such shares are attributed to the party subject to the notification requirement. If the third party holds shares on behalf of the party subject to the notification requirement or a company controlled by it, the shares are attributed to the party subject to the notification requirement.

Further, anyone holding, directly or indirectly, financial instruments that result in a right to acquire, on the holder's initiative alone and under a legally binding agreement, shares in an issuer (whose country of origin is the Federal Republic of Germany) that carry voting rights and have already been issued, must, without undue delay, but in any event within

four trading days, simultaneously notify the issuer and BaFin if the thresholds of 5%, 10%, 15%, 20%, 25%, 30%, 50% or 75% have been reached, exceeded or fallen below.

Holders of NYSE Euronext shares are subject to certain U.S. reporting requirements under the Exchange Act for shareholders owning more than 5% of any class of equity securities registered pursuant to Section 12 of the Exchange Act. Among the reporting requirements are disclosure obligations intended to keep investors aware of significant accumulations of shares that may lead to a change of control of an issuer. In addition, for shareholders owning more than 10% of any class of equity securities registered pursuant to Section 12 of the Exchange Act, reporting

requirements include disclosure of any equity trading in the company.

Pursuant to the Dutch Financial Supervision Act and the Decree regarding disclosure of holdings in issuing institutions, any person who, directly or indirectly, acquires or disposes of an interest in the capital and/or the voting rights of Holdco, must give written notice of such acquisition or disposal if, as a result of such acquisition or disposal, the percentage of capital interest and/or voting rights held by such person meets, exceeds or falls below one of the following thresholds: 5%, 10%, 15%, 20%, 25%, 30%, 40%, 50%, 60%, 75% and 95% of Holdco's issued share

capital. Rights to acquire shares and/or voting rights must also be taken into account when calculating the percentage of capital interest and/or voting rights held.

Notification must be given to the AFM without delay after becoming aware or after such person should have been aware that the percentage of capital interest and/or voting rights held meets, exceeds or falls below one of the thresholds. A person is considered to have become aware that the percentage of capital interest and/or voting rights held meets, exceeds or falls below one of the thresholds two trading days after the acquisition or disposal.

A notification must also be made if, due to a change in the issued share capital or the number of voting rights relating to the issued share capital of Holdco, the percentage of capital interest and/or voting rights held by a person meets, exceeds or falls below one

Table of Contents

Deutsche Börse Shareholders

An issuer in Germany must publish these notifications without undue delay, but in any event within three trading days of receiving them. The issuer must also, without undue delay but not before publication, register the notification with the commercial register and simultaneously report the publication to BaFin.

Additionally, the German Takeover Act provides that any person whose voting interest in Deutsche Börse reaches or exceeds 30% of the voting rights must, no later than the seventh calendar day following when the 30% threshold is reached or exceeded, publish this fact, including the new percentage of such person's voting rights. Unless granted an exemption, such person must make a public mandatory offer to all shareholders of Deutsche Börse.

NYSE Euronext Shareholders

Holdco Shareholders

of the above-mentioned thresholds. This notification must be made within four trading days after the change in Holdco's issued share capital and/or the number of voting rights relating to the issued share capital Holdco has been registered in the public register of the Netherlands AFM.

Because Holdco shares will be registered under Section 12(b) of the Exchange Act, U.S. disclosure requirements also apply.

Table of Contents**MATERIAL TAX CONSIDERATIONS**

Subject to the limitations and qualifications set forth in this section, the following discussion represents the opinion of Linklaters LLP, special counsel to Deutsche Börse. The following section contains a summary of material Dutch, German, United States, French, Luxembourg, and United Kingdom tax consequences of the exchange offer, and the ownership and disposition of Holdco shares received in the exchange offer, that may be or may become relevant to holders of Deutsche Börse shares and/or Holdco shares. This summary is of a general nature only and is not and does not purport to be a comprehensive or exhaustive description of all tax considerations that may be relevant to holders of Deutsche Börse shares or Holdco shares. In particular, this summary does not address tax considerations that may apply to a shareholder that is a tax resident of a jurisdiction other than the Netherlands (including foreign residents with a permanent establishment in the Netherlands), Germany, the United States, France, Luxembourg, or the United Kingdom.

Where reference is made to the tax residence of a shareholder, it is assumed that the tax residence for the purposes of the respective domestic tax law and for the purposes of any applicable income tax treaty is the same. However, exceptions may apply in certain cases.

Holdco expects to be solely tax resident in the Netherlands. This summary therefore assumes that Holdco is and remains exclusively resident in the Netherlands for tax purposes, including for the purposes of applicable tax treaties. For the considerations regarding the tax residency of Holdco and any adverse tax consequences should Holdco be or become a tax resident of a jurisdiction other than the Netherlands and/or be or become a dual resident company for tax purposes, reference is made to the risk factor *Holdco may be or become taxable in a jurisdiction other than the Netherlands and/or may be or become a dual resident company for tax purposes. This may increase the aggregate tax burden on Holdco and/or its shareholders. The combination of the businesses of Deutsche Börse Group and NYSE Euronext may result in an increase of the overall tax burden of the combined group.*

THIS SUMMARY IS NOT INTENDED TO BE, NOR SHOULD IT BE CONSTRUED AS LEGAL OR TAX ADVICE. SHAREHOLDERS OF NYSE EURONEXT AND/OR DEUTSCHE BÖRSE AND/OR PROSPECTIVE SHAREHOLDERS OF HOLDCO SHARES ARE THEREFORE STRONGLY ADVISED TO CONSULT THEIR TAX ADVISORS REGARDING THE TAX CONSEQUENCES OF THE RECEIPT, OWNERSHIP OR DISPOSITION OF THE HOLDCO SHARES ACQUIRED IN THE EXCHANGE OFFER. THE SPECIFIC TAX SITUATION OF EACH SHAREHOLDER CAN ONLY BE ADEQUATELY ADDRESSED BY INDIVIDUAL TAX ADVICE.

Material Dutch Tax Considerations***General***

The summary below is based upon the tax laws of the Netherlands as in effect on the date of the publication of this document, including official regulations, rulings and decisions of the Netherlands and its taxing and other authorities available in printed form on or before such date and now in effect, and as applied and interpreted by Dutch tax courts, without prejudice to any amendments introduced at a later date and implemented with or without retroactive effect. These tax laws are subject to change, which could apply retroactively and could affect the continuing validity of this summary.

Regardless of whether or not a holder is (or is treated as) a resident of the Netherlands and with the exception of the description mentioned under the heading *Dividend Tax* below, this summary does not address the Dutch tax consequences of a holder:

that has a substantial interest (*aanmerkelijk belang*) in Deutsche Börse or Holdco (such a substantial interest is generally present if the relevant holder owns at least 5% of the Deutsche Börse shares or the Holdco shares, or has a right to acquire at least 5% of the Deutsche Börse shares or the Holdco shares);

Table of Contents

who is a private individual and for whom the income and/or capital gains derived from the Deutsche Börse shares or the Holdco shares, as the case may be, are attributable to employed work, the income from which is taxable in the Netherlands;

that is an entity for which the income and/or capital gains derived in respect of Deutsche Börse shares or Holdco shares, as the case may be, are exempt under the participation exemption (*deelnemingsvrijstelling*) as set out in the Dutch Corporate Income Tax Act 1969 (*Wet op de vennootschapsbelasting 1969*); or

that is an entity and a fiscal investment institution (*fiscale beleggingsinstelling*) or an exempt investment institution (*vrijgestelde beleggingsinstelling*) as defined in the Dutch Corporate Income Tax Act 1969 (*Wet op de vennootschapsbelasting 1969*), or is otherwise not subject to or exempt, in whole or in part, from Dutch corporate income tax.

Taxation of Exchange of Deutsche Börse Shares for Holdco shares

A holder will not be subject to Dutch taxation in respect of the exchange of Deutsche Börse shares for Holdco shares pursuant to the exchange offer unless the relevant holder is (1) a Dutch Resident Individual or a Dutch Resident Entity or (2) subject to Dutch income tax or corporate income tax in respect of Dutch Source Income, of which the Deutsche Börse shares form part (capitalized terms have the meaning ascribed to them below).

A holder who is a Dutch Resident Individual or a Dutch Resident Entity may be subject to Dutch tax in respect of the exchange of Deutsche Börse shares for Holdco shares pursuant to the exchange offer, depending on the tax regime applicable to such holder.

Taxation of Ownership and Transfer of Holdco Shares

Dividend Tax

General Withholding Requirement

Dividends paid on Holdco shares to a holder of such Holdco shares are in principle subject to withholding tax of 15% imposed by the Netherlands. Generally, the dividend withholding tax will not be borne by Holdco, but will be withheld from the gross dividends paid on the Holdco shares. The term *dividends* for this purpose includes, but is not limited to:

- (1) dividends and other distributions in cash or in kind, including deemed and constructive distributions and repayments of paid-in capital not recognized for Dutch dividend withholding tax purposes;
- (2) liquidating distributions, proceeds on redemption of the Holdco shares and, as a rule, consideration for the repurchase of Holdco shares by Holdco in excess of its average paid-in capital (*gestort kapitaal*) as recognized for Dutch dividend tax purposes, unless a particular statutory exemption applies;
- (3) the par value of Holdco shares issued to a holder of Holdco shares, or an increase in the par value of Holdco shares, as the case may be, to the extent that it does not appear that a contribution to the capital recognized for Dutch dividend withholding tax purposes was made or will be made; and
- (4) partial repayments of paid-in capital, if and to the extent there are qualifying profits (*zuivere winst*), unless the general meeting of holders of the Holdco shares has resolved in advance to make such repayment and provided that the nominal value of the Holdco shares concerned has been reduced by an equal amount by way of an amendment of the articles of association and the capital concerned is recognized as paid-in capital for Dutch dividend tax purposes.

Table of Contents

Resident Holders

A holder of Holdco shares who is, or who is deemed to be, a resident of the Netherlands can generally credit the Dutch dividend withholding tax against his Dutch income tax or Dutch corporate income tax liability and is generally entitled to a refund of dividend withholding taxes exceeding his aggregate Dutch income tax or Dutch corporate income tax liability, provided certain conditions are met, unless such holder of Holdco shares is not considered to be the beneficial owner of the dividends.

A holder of Holdco shares who is the recipient of dividends (the Recipient), will not be considered the beneficial owner of the dividends for this purpose if:

as a consequence of a combination of transactions, a person other than the Recipient wholly or partly benefits from the dividends;

whereby such other person retains, directly or indirectly, an interest corresponding to that in the Holdco shares on which the dividends were paid; and

that other person is entitled to a credit, reduction or refund of dividend withholding tax that is less than that of the Recipient (Dividend Stripping).

Non-resident Holders

With respect to a holder of Holdco shares, who is not and is not deemed to be a resident of the Netherlands for purposes of Dutch taxation and who is considered to be a resident of Aruba, Curaçao or St. Maarten under the provisions of the Tax Arrangement for the Kingdom of the Netherlands (*Belastingregeling voor het Koninkrijk*), or who is considered to be a resident of a country other than the Netherlands under the provisions of a double taxation convention the Netherlands has concluded with such country, the following may apply: Such holder of Holdco shares may, depending on the terms of and subject to compliance with the procedures for claiming benefits under the Tax Arrangement for the Kingdom of the Netherlands or such double taxation convention, be eligible for a full or partial exemption from or a reduction or refund of Dutch dividend withholding tax.

In addition, an exemption from Dutch dividend withholding tax will generally apply to dividends distributed to certain qualifying entities, provided that the following conditions are satisfied:

the entity is a resident of another EU member state or of a designated state that is a party to the Agreement on the European Economic Area (currently Iceland and Norway), according to the tax laws of such state;

the entity at the time of the distribution has an interest in Holdco to which the participation exemption as meant in article 13 of the Dutch Corporate Income Tax Act 1969 or to which the participation credit as meant in article 13aa of the Dutch Corporate Income Tax Act 1969 would have been applicable, had such entity been a tax resident of the Netherlands;

the entity does not perform a similar function as an exempt investment institution (*vrijgestelde beleggingsinstelling*) or fiscal investment institution (*fiscale beleggingsinstelling*), as defined in the Dutch Corporate Income Tax Act 1969; and

the entity is, in its state of residence, not considered to be resident outside the Member States of the European Union or the designated states that are party to the Agreement on the European Economic Area under the terms of a double taxation convention concluded with a third State.

The exemption from Dutch dividend withholding tax is not available if pursuant to a provision for the prevention of fraud or abuse included in a double taxation convention between the Netherlands and the country of residence of the non-resident holder of Holdco shares, such holder

Edgar Filing: NYSE Euronext - Form 425

would not be entitled to the reduction of tax on dividends provided for by such convention. In addition, the exemption from Dutch dividend withholding tax will only be available to the beneficial owner of the dividend.

A-453

Table of Contents

Furthermore, certain entities that are resident in another EU member state or in a designated state that is a party to the Agreement on the European Economic Area (currently Iceland and Norway) and that are not subject to taxation levied by reference to profits in their state of residence, may be entitled to a refund of Dutch dividend withholding tax, provided:

such entity, had it been a resident in the Netherlands, would not be subject to corporate income tax in the Netherlands;

such entity can be considered to be the beneficial owner of the dividends;

such entity does not perform a similar function to that of a fiscal investment institution (*fiscale beleggingsinstelling*) or an exempt investment institution (*vrijgestelde beleggingsinstelling*) as defined in the Dutch Corporate Income Tax Act 1969; and

certain administrative conditions are met.

Dividend distributions to a U.S. holder of Holdco shares (with an interest of less than 10% of the voting rights in Holdco) are subject to 15% dividend withholding tax, which is equal to the rate such U.S. holder may be entitled to under the Convention Between the Kingdom of the Netherlands and the United States for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion with Respect to Taxes on Income, executed in Washington on December 18, 1992, as amended from time to time (the Netherlands-U.S. Convention).

On the basis of article 35 of the Netherlands-U.S. Convention, qualifying U.S. pension trusts are under certain conditions entitled to a full exemption from Dutch dividend withholding tax. Such qualifying exempt U.S. pension trusts must provide Holdco with form IB 96 USA, along with a valid certificate, for the application of relief at source from dividend withholding tax. If Holdco receives the required documentation prior to the relevant dividend payment date, then Holdco may apply such relief at source. If a qualifying exempt U.S. pension trust fails to satisfy these requirements prior to the payment of a dividend, then such qualifying exempt pension trust may claim a refund of Dutch withholding tax by filing form IB 96 USA with the Dutch tax authorities. On the basis of article 36 of the Netherlands-U.S. Convention, qualifying exempt U.S. organizations are under certain conditions entitled to a full exemption from Dutch dividend withholding tax. Such qualifying exempt U.S. organizations are not entitled to claim relief at source, and instead must claim a refund of Dutch withholding tax by filing form IB 95 USA with the Dutch tax authorities.

The concept of Dividend Stripping, described above, may also be applied to determine whether a holder of Holdco shares may be eligible for a full or partial exemption from, reduction or refund of Dutch dividend withholding tax, as described in the preceding paragraphs.

Taxes on income and capital gains

Resident Holders

Individuals

A holder who is a private individual and who is a resident (or is treated as a resident) of the Netherlands or who opts to be taxed as a resident of the Netherlands for the purposes of Dutch taxation (a Dutch Resident Individual) is subject to Dutch income tax on income or capital gains derived from the Holdco shares at the progressive rate (up to 52% rate for 2011) if:

(1) the holder derives profits from an enterprise or deemed enterprise, whether as an entrepreneur (*ondernemer*) or pursuant to a co-entitlement to the net worth of such enterprise (other than as an entrepreneur or a shareholder), to which enterprise the Holdco shares, are attributable; or

(2) the holder derives income or capital gains from the Holdco shares that are taxable as benefits from miscellaneous activities (*resultaat uit overige werkzaamheden*, as defined in the Dutch Income Tax Act 2001; *Wet inkomstenbelasting 2001*), which include the performance of activities with respect to the Holdco shares that exceed regular, active portfolio management (*normaal, actief vermogensbeheer*).

Table of Contents

If conditions (1) and (2) mentioned above do not apply, any holder of Holdco shares will be subject to Dutch income tax in respect of the Holdco shares by reference to a deemed return rather than on the basis of income actually received or gains actually realized. This deemed return is fixed at a rate of currently 4% of the holder's yield basis (*rendementsgrondslag*) at the beginning of the calendar year, to the extent that the yield basis exceeds a certain threshold. Such yield basis is determined as the fair market value of certain qualifying assets held by the holder of the Holdco shares at the beginning of the calendar year, less the fair market value of certain qualifying liabilities. The fair market value of the Holdco shares will be included as an asset in the holder's yield basis. The deemed return on income from savings and investments is taxed currently at a rate of 30%.

Entities

A holder that is an entity and a resident (or treated as a resident) of the Netherlands (a Dutch Resident Entity), will be subject to Dutch corporate income tax in respect of income and capital gains derived from the Holdco shares at a rate of 25%, provided that for the first EUR 200,000 of taxable income, the Dutch corporate income tax rate is 20% (rates applicable for 2011).

Non-Resident Holders

A holder who is not a Dutch Resident Individual or Dutch Resident Entity (a Non-Dutch Resident) is generally not subject to Dutch income or corporate income tax (other than dividend withholding tax described above) on the income and capital gains derived from the Holdco shares, provided that:

(1) such Non-Dutch Resident does not derive profits from an enterprise or deemed enterprise, whether as an entrepreneur (*ondernemer*) or pursuant to a co-entitlement to the net worth of such enterprise (other than as an entrepreneur or a shareholder) which enterprise is, in whole or in part, carried on through a permanent establishment or a permanent representative in the Netherlands and to which enterprise or part of an enterprise, as the case may be, the Holdco shares are attributable or deemed attributable;

(2) in the case of a Non-Dutch Resident who is an individual, such individual does not derive income or capital gains from the Holdco shares that are taxable as benefits from miscellaneous activities in the Netherlands (*resultaat uit overige werkzaamheden*, as defined in the Dutch Income Tax Act 2001), which include the performance of activities with respect to the Holdco shares that exceed regular, active portfolio management (*normaal, actief vermogensbeheer*); and

(3) such Non-Dutch Resident is neither entitled to a share in the profits of an enterprise nor co-entitled to the net worth of such enterprise effectively managed in the Netherlands, other than by way of the holding of securities or, in the case of an individual, through an employment contract, to which enterprise the Holdco shares or payments in respect of the Holdco shares are attributable (the exceptions under (1), (2) and (3) above are for the purposes of this summary designated as Dutch Source Income).

Inheritance and Gifts Tax

Resident Holders

Dutch gift tax or inheritance tax (*schenk- of erfbelasting*) will arise in respect of an acquisition (or deemed acquisition) of Holdco shares by way of a gift by, or on the death of, a holder of Holdco shares who is (or is treated as) a resident of the Netherlands.

For the purposes of Dutch gift and inheritance tax, an individual who is of Dutch nationality will be deemed to be a resident of the Netherlands if he has been a resident in the Netherlands at any time during the ten years preceding the date of the gift or his death. For the purposes of Dutch gift tax, an individual will, irrespective of his nationality, be deemed to be a resident of the Netherlands if he has been a resident in the Netherlands at any time during the 12 months preceding the date of the gift.

Table of Contents

Non-Resident Holders

No Dutch gift tax or inheritance tax will arise in respect of an acquisition (or deemed acquisition) of Holdco shares by way of a gift by, or on the death of, a holder of Holdco shares who is a resident of a country other than the Netherlands, unless:

(1) the transfer is construed as an inheritance or bequest or as a gift made by or on behalf of a person who, at the time of the gift or death, is or is deemed to be a resident of the Netherlands for the purpose of the relevant provisions; or

(2) such holder dies while being a resident or deemed resident of the Netherlands within 180 days after the date of a gift of the Holdco shares.

Indirect Taxes

No Dutch turnover tax (*omzetbelasting*) will arise in respect of any payment in consideration for the issue of Holdco shares, in connection with a distribution with respect to Holdco shares, or with respect to a transfer of Holdco shares (other than turnover tax payable in respect of services not exempt from Dutch turnover tax).

Other Taxes and Duties

No Dutch registration tax, capital tax, customs duty, stamp duty or any other similar tax or duty will be payable in the Netherlands by a holder of Holdco shares in connection with the ownership and disposition of Holdco shares.

Residence

A holder of Holdco shares will not become or be deemed to become a resident of the Netherlands solely by reason of holding these Holdco shares.

Material German Tax Considerations

General

Shareholders may be taxed in Germany in particular in connection with the exchange of Deutsche Börse shares for Holdco shares (see *Taxation of the Exchange of Deutsche Börse Shares for Holdco Shares*), the receipt of dividend payments from Holdco (see *Taxation of Dividends Paid by Holdco*), the sale of Holdco shares (see *Taxation of Capital Gains in Relation to Holdco Shares*) and the gratuitous transfer of Holdco shares (see *Inheritance and Gift Tax*). Value added tax (VAT) may also be due in certain circumstances (see *Other Taxes*). Under the applicable German tax law, dividends and capital gains may be subject to withholding tax (*Abgeltungsteuer*).

The considerations in this section do not include tax issues related to church tax and any possible right or option of a shareholder to apply for individual tax treatment of the income from or related to Holdco shares.

Notwithstanding the description of certain aspects of taxation in Germany, shareholders may be liable to tax in other jurisdictions. In particular, but not limited to, German-resident shareholders may be subject to a limited tax liability in other jurisdictions, *e.g.*, the Netherlands, and shareholders that are subject to a limited tax liability in Germany may be liable to tax in the jurisdiction in which they are resident.

Any reference in this section to a tax, duty, levy or other charge or withholding of a similar nature refers to German tax law and/or concepts only. This summary is based on the domestic tax laws of the Federal Republic of Germany in effect as on the date of the publication of this document and therefore does not take into account any amendments introduced at a later date and implemented with or without retroactive effect. The relevant rules as well as their interpretation by the German tax courts or tax authorities may change, possibly with retroactive effect.

Table of Contents***Taxation of the Exchange of Deutsche Börse Shares for Holdco Shares******Deutsche Börse Shareholders Tax Resident in Germany*****Deutsche Börse Shares Held As Private Assets**

For German tax resident holders of Deutsche Börse shares who hold their shares as private assets (*Privatvermögen*), the exchange of Deutsche Börse shares for Holdco shares pursuant to the exchange offer will, in general, be tax neutral if the requirements of the simplification rule of Sec. 20 para. 4a sentence 1 of the German Income Tax Act (*Einkommensteuergesetz*) are satisfied. Based on a circular letter issued by the German Federal Ministry of Finance, the requirements for a tax neutral exchange will be satisfied with respect to a holder of Deutsche Börse shares if (1) the shares of Deutsche Börse are held as private assets, (2) the shareholder's participation amounted to less than 1% throughout at least a five year period preceding the exchange of Deutsche Börse shares for Holdco shares and (3) the Holdco shares issued in exchange for the Deutsche Börse shares are new shares, i.e. shares resulting from a capital increase at the level of Holdco. This condition (3) will be satisfied as the Holdco shares issued in exchange for the Deutsche Börse shares are shares of a new issue (the shares resulting from the establishment of Holdco will be redeemed after the exchange offer). To the extent that Sec. 20 para. 4a sentence 1 of the German Income Tax Act applies, the Holdco shares received in exchange for Deutsche Börse shares take the place of such Deutsche Börse shares and principally have the same tax status.

Even if Section 20 para. 4a sentence 1 of the German Income Tax Act did not apply, the share exchange would not be taxable to Deutsche Börse shareholders if (1) the shares of Deutsche Börse are held as private assets, (2) the shareholder's participation amounted to less than 1% throughout at least a five year period preceding the exchange of Deutsche Börse shares for Holdco shares and (3) the shares of Deutsche Börse have been acquired prior to January 1, 2009.

Expenses related to the exchange of shares, if any, are not deductible for tax purposes.

If a shareholder, or in the case of a gratuitous transfer, the shareholder's legal predecessor, directly or indirectly has held at least 1% of the share capital of Deutsche Börse at any time during the five years preceding the exchange of Deutsche Börse shares for Holdco shares pursuant to the exchange offer, such exchange will not qualify for the simplification rule of Sec. 20 para. 4a sentence 1 of the German Income Tax Act. In such case, the rules applicable to the income taxation of the exchange of Deutsche Börse shares that are held as business assets will apply correspondingly (see *Deutsche Börse Shares Held As Business Assets by Individual Shareholders (Sole Proprietors)* below).

To the extent that the share exchange is tax neutral pursuant to Sec. 20 para. 4a sentence 1 of the German Income Tax Act, no German withholding tax will be withheld. To the extent that the share exchange is not tax neutral as described above, the general rules of German withholding tax, as described in *German Withholding Tax on Dividends Paid by Holdco or on Capital Gains in relation to Holdco Shares* below, will apply.

Deutsche Börse Shares Held As Business Assets by Individual Shareholders (Sole Proprietors)

For German tax resident individual shareholders that hold Deutsche Börse shares as business assets, the exchange of Deutsche Börse shares for Holdco shares pursuant to the exchange offer will generally be a taxable event. Generally, 60% of capital gains derived from the exchange of Deutsche Börse shares are taxable at the personal income tax rate (plus solidarity surcharge of 5.5% thereon). Correspondingly, only 60% of the business expenses related to such a gain (subject to general restrictions on deductions, if any) and only 60% of any capital loss are tax deductible. If the Deutsche Börse shares are attributable to a commercial permanent establishment maintained in Germany, 60% of the capital gains are also subject to trade tax (*Gewerbesteuer*). However, all or part of the trade tax is credited as a lump sum against the shareholder's personal income tax liability.

Notwithstanding the foregoing general taxation principles, for German tax resident Deutsche Börse shareholders the exchange of Deutsche Börse shares may be effected tax neutrally at book values or at an intermediate value (between book value and fair market value) according to Sec. 21 of the German

Table of Contents

Reorganization Tax Act (*Umwandlungssteuergesetz*). This rule only applies if the fair market value of the Deutsche Börse shares exceeds their book value. The key requirement of this non-recognition privilege (i.e. roll-over privilege) is that, subsequent to the exchange of shares, Holdco must hold the majority of Deutsche Börse shares (so-called *qualifizierter Anteilstausch*). This requirement will be satisfied as, pursuant to the terms and conditions of the exchange offer, the exchange of Deutsche Börse shares will only be valid and effective if, subject to certain other conditions, at the end of the Offering Period, Holdco holds more than 75% of Deutsche Börse shares. In addition, each individual Deutsche Börse shareholder must file an application for this non-recognition privilege with his/her competent tax office no later than with the filing of the respective tax return. If the book value of the Deutsche Börse shares exceeds their fair market value, the fair market value applies mandatorily and the resulting capital loss will be non tax deductible or deductible only within certain limits.

In the view of authors of German tax experts' literature, the non-recognition privilege (roll-over privilege) for shareholders is independent of the value at which the Deutsche Börse shares are shown in the accounts of Holdco, provided that Holdco is treated as a Dutch resident company. Based on this view, Deutsche Börse shareholders could apply for a tax neutral share exchange even if the Deutsche Börse shares were shown at their fair market value in Holdco's accounts, which may be the case. However, German tax authorities have not issued a circular letter on this point. Therefore, in order to obtain legal certainty, Deutsche Börse shareholders would need to apply for a binding ruling from their tax office.

The non-recognition privilege (roll-over privilege) will become inapplicable to the extent that, during a seven-year-period following the exchange offer, Deutsche Börse shares are (1) sold by Holdco or (2) transferred by Holdco to another legal entity (unless certain exemption rules apply). In such cases, the capital gain resulting from the exchange will be taxed retroactively (so-called *Einbringungsgewinn II*) which, however, will be reduced by 1/7 for each full calendar year that will have lapsed after the exchange.

It is possible that Holdco will transfer Deutsche Börse shares received in the exchange offer to a newly established, wholly owned subsidiary. As a general matter, such a transfer may trigger the taxation of an *Einbringungsgewinn II*. However, the transfer of Deutsche Börse shares is intended to be carried out at book values which, according to authors in the German tax experts' literature, should qualify for an exemption rule, i.e. the transfer should, according to that view, not adversely affect the tax position of former Deutsche Börse shareholders.

In the seven years following the exchange of Deutsche Börse shares, in each year no later than May 31, the respective Holdco shareholder is required to identify the beneficial owner of Deutsche Börse shares that were transferred by the respective shareholder. If the respective shareholder fails to furnish proof to the competent tax authorities, the respective Deutsche Börse shares will be deemed to have been sold. Additional requirements will apply if Deutsche Börse shares are transferred by Holdco to another entity without triggering the taxation of an *Einbringungsgewinn II* due to an exemption rule (see above). It is recommended that Deutsche Börse shareholders contact their tax advisors in that respect. To the extent that they are legally required to provide information on the subsequent owner of Deutsche Börse shares to the competent tax authority they may wish to contact Holdco in that respect.

The rules discussed in this section also apply if a shareholder, or in the case of a gratuitous acquisition the shareholder's legal predecessor, directly or indirectly has held at least 1% of the share capital of Deutsche Börse at any time during the five years preceding the exchange of Deutsche Börse shares for Holdco shares. Special rules (i.e. limitation of tax deductibility) apply with regard to capital losses.

The general rules of German withholding tax as described in *German Withholding Tax on Dividends Paid by Holdco or on Capital Gains in relation to Holdco Shares* below apply.

Table of Contents

Deutsche Börse Shares Held by Corporations

Generally, capital gains recognized on the exchange of Deutsche Börse shares for Holdco shares pursuant to the exchange offer by corporations are exempt from corporate income tax and trade tax if the Deutsche Börse shares are held as business assets of a commercial permanent establishment located in Germany (Sec. 8b para. 2 of the German Corporate Income Tax Act). However, 5% of such capital gain is treated as non-deductible business expenses and, as such, subject to corporate income tax (plus solidarity surcharge of 5.5% thereon) and trade tax. Losses from the exchange of Deutsche Börse shares and any other profit reductions related to the exchange are generally not tax deductible.

Special rules apply to shareholding companies that are active in the financial and insurance sectors and to so-called financial enterprises (*Finanzunternehmen*). See Special Treatment of Companies in the Financial and Insurance Sectors, Financial Enterprises and Pension Funds below.

Corporate shareholders may also apply for a carry-over of book values pursuant to Sec. 21 of the German Reorganization Tax Act (see Deutsche Börse Shares Held As Business Assets by Individual Shareholders (Sole Proprietors) above). The retroactive taxation of capital gain (so-called *Einbringungsgewinn II*) will not apply provided that the general tax exemption of Sec. 8b para. 2 of the Corporate Income Tax Act is applicable.

The general rules of German withholding tax as described under German Withholding Tax on Dividends Paid by Holdco or on Capital Gains in relation to Holdco Shares below apply accordingly.

Deutsche Börse Shares Held by Partnerships

If the shareholder is a partnership engaged or deemed to be engaged in a trade or business (co-entrepreneurship (*Mitunternehmerschaft*)), personal income tax or corporate income tax, as the case may be, is assessed at the level of each partner rather than at the level of the partnership. The taxation of each partner depends on whether the partner is subject to personal income tax or corporate income tax. If the partner is subject to corporate income tax, capital gains from the exchange of Deutsche Börse shares are in general effectively 95% tax exempt (see section Deutsche Börse Shares Held by Corporations above). If the partner is subject to personal income tax, 60% of the capital gains from the exchange of the Deutsche Börse shares are taxable (see Deutsche Börse Shares Held As Business Assets by Individual Shareholders (Sole Proprietors) above). In addition, if the Deutsche Börse shares are attributable to a commercial permanent establishment in Germany, any capital gain from their exchange is subject to trade tax at the level of the partnership, with 60% of the gain being subject to trade tax to the extent that the partners are individuals and 5% to the extent that the partners are corporations. In the case of partners who are individuals, all or part of the trade tax is generally credited as a lump sum against their personal income tax liability. With respect to the deductibility of business expenses related to the capital gains and the deductibility of capital losses for individual or corporate income tax purposes, as the case may be, the rules outlined above apply to the partners accordingly. If the shareholder is a partnership which is neither engaged nor deemed to be engaged in a trade or business, each partner is taxed as though he held his share directly (see section Deutsche Börse Shares Held As Private Asset, Deutsche Börse Shares Held As Business Assets by Individual Shareholders (Sole Proprietors) and Deutsche Börse Shares Held By Corporations).

Deutsche Börse Shareholders Non-Resident in Germany

Capital gains realized on the exchange of Deutsche Börse shares pursuant to the exchange offer are subject to a limited tax liability in Germany to the extent that the shares are held by a non-resident shareholder (1) through a permanent establishment or fixed base in Germany or as part of business assets for which a permanent representative in Germany has been appointed or (2) to the extent that the non-resident shareholder, or in the case of a gratuitous acquisition the non-resident shareholder's legal predecessor, directly or indirectly held at least 1% of the share capital in Deutsche Börse at any time during the five years preceding the exchange of Deutsche Börse shares.

Table of Contents

In such cases, the rules discussed above relating to Deutsche Börse shares held as business assets will generally apply. However, in cases described in clause (2), most of the relevant German tax treaties provide for an exemption from German capital gains taxation.

The fiscal authorities take the position that there is no obligation to deduct withholding tax in cases described in clause (2).

German Withholding Tax on Dividends Paid by Holdco or on Capital Gains in relation to Holdco Shares

Dividend payments on Holdco shares and capital gains derived from the sale of Holdco shares are generally subject to withholding tax at a rate of 25% plus a solidarity surcharge thereon at a rate of 5.5% (i.e., a total of 26.375%), if the shareholder is subject to tax in Germany and a German-resident paying agent (German financial institution, German financial services provider, German branch of a foreign financial institution or foreign financial services provider, German securities trading enterprise or a German securities trading bank) has custody of or administers the Holdco shares or conducts the sale of the Holdco shares and disburses or credits the dividends or, as the case may be, the proceeds of the sale. If capital gain realized on the sale of Holdco shares held as private assets is fully tax exempt, the capital gain should also be exempt from German withholding tax.

The base for determining withholding tax on dividends is the amount of the dividend approved for distribution by Holdco's general shareholders meeting. The amount of tax withheld on capital gains is generally based on the difference between the proceeds from the sale, after deducting expenses that are directly related to the sale, and the acquisition costs of the Holdco shares.

Withholding tax is not withheld by a German-resident paying agent with respect to dividend payments and capital gains from Holdco shares if the Holdco shares are either beneficially owned by a German financial institution, a German financial services provider, a German branch of a foreign financial institution or foreign financial services provider or by a German investment company, or are business assets of a corporation subject to unlimited German tax liability. The same rule also applies under certain circumstances to Holdco shares held as business assets by individuals or partnerships.

Shareholders who have submitted a valid non-assessment certificate (*Nichtveranlagungs-Bescheinigung*) from the competent tax office to their custodian bank will receive dividends or proceeds from a sale of shares without deduction of withholding tax. The same applies to individual shareholders who have submitted a saver's allowance instruction (*Freistellungsbescheinigung*) to their custodian bank, to the extent the amount shown on the instruction has not already been utilized by other private investment income of the shareholder.

The Dutch withholding tax, if any, that is withheld from dividend payments and is not refundable under the tax treaty between Germany and the Netherlands may be credited against the German withholding tax on the dividend payments if the Holdco shares are held by a German tax resident as private assets.

In the event that withholding tax is required to be withheld on amounts paid other than in cash or cash equivalents, the German resident disbursing agent has to demand from the shareholder the amount of cash necessary to pay the withholding tax. If the shareholder does not provide the paying agent with the necessary amount, the German-resident paying agent is required to notify the competent tax office which may assess the taxes due.

Taxation of Dividends Paid by Holdco

Holdco Shareholders Tax Resident in Germany

Holdco Shares Held As Private Assets

Dividend payments in respect of Holdco shares held as private assets are subject to personal income tax (plus solidarity surcharge of 5.5% thereon) as income derived from a capital investment. However, provided that

Table of Contents

the German withholding tax on dividends is withheld by a German-resident paying agent, the respective tax liability of the shareholder will generally be deemed to be satisfied and the dividend will not be required to be reported on the shareholder's annual tax return (final flat tax (*Abgeltungsteuer*)).

If no German tax has been withheld due to reasons other than the submission of a correct non-assessment certificate or saver's allowance instruction (*e.g.* if the Holdco shares are held in custody by a foreign bank), the dividend income must be reported on the shareholder's annual tax return. In this case, the income tax will be assessed on such dividends at the flat tax rate of 25% (plus 5.5% solidarity surcharge thereon). For the purpose of determining the amount of tax due, dividends generally can be reduced only by losses from private investment income (excluding losses from the sales of shares in stock corporations). A shareholder is entitled to an annual saver's allowance (*Sparer-Pauschbetrag*) of 801 (1,602 for married couples filing jointly) for overall private investment income. However, the actual expenses related to private investment income (*Werbungskosten*) are generally not deductible. Dutch tax withheld on dividend payments which is not refundable under the tax treaty between Germany and the Netherlands may be credited against German income tax up to the actual amount of German income tax due on such dividend payments.

If tax is withheld on dividend income by a German-resident paying agent, the shareholder may under certain circumstances apply for an assessment for such dividend income at the flat tax rate as described above (*e.g.*, if the German-resident disbursing agent has not considered the saver's allowance or has not credited Dutch tax withheld). German tax withheld on the dividends may be credited against the amount of personal income tax assessed against the shareholder or, if in excess of such liability, may be refunded.

Furthermore, a shareholder may request that his overall private investment income (including the dividends) be assessed together with his overall other income at his individual progressive tax rate if this would result in a lower tax burden (*Günstigerprüfung*). For the purpose of such an assessment, losses from private investment income can in general be applied to reduce only private investment income (including dividends). Additional restrictions apply to losses from sales of shares in stock corporations which can only be applied to reduce capital gains from sales of such shares. Only the saver's allowance instead of actual expenses will be considered as expenses (see above). German and Dutch withholding tax will be credited against the tax due.

Holdco Shares Held As Business Assets

If Holdco shares form part of a shareholder's business assets, taxation with respect to income from those shares will depend on whether the shareholder is a corporation, sole proprietor or partnership (co-entrepreneurship (*Mitunternehmerschaft*)):

Corporations: For corporations, dividends are generally exempt from corporate income tax. However, 5% of this tax-exempt income is considered an expense that may not be deducted as business expense and is thus effectively subject to corporate income tax (plus solidarity surcharge of 5.5% thereon). Business expenses actually incurred in connection with the dividends may be deducted in full (subject to general restrictions on deduction, if any). Dividends are, however, fully subject to trade tax (after deduction of business expenses related to the dividend) if the shares are held as business assets of a commercial permanent establishment (*Betriebsstätte*) located in Germany, unless the shareholder held at least 10% of the registered share capital of Holdco at the beginning of the relevant tax assessment period. In the latter case, the 95% corporate income tax exemption for dividends applies to trade tax in the same manner. If certain requirements under the tax treaty between Germany and the Netherlands are met (in particular, the Holdco shares are attributable to a permanent establishment in the Netherlands), dividends may be exempt from German taxation.

Sole Proprietors (Individuals): 60% of any dividend received by a sole proprietor will be subject to tax (partial income method (*Teileinkünfteverfahren*)) at the personal income tax rate (plus solidarity surcharge of 5.5% thereon). Correspondingly, only 60% of business expenses related to the dividends will be tax-deductible (subject to general restrictions on deduction, if any). If the shares are held as business assets of a commercial permanent establishment located in Germany, dividends will be fully

Table of Contents

subject to trade tax, unless the shareholder held at least 10% of the Holdco's registered share capital at the beginning of the tax assessment period. However, all or part of the trade tax will generally be credited as a lump sum against the shareholder's personal income tax liability.

Partnerships (Mitunternehmerschaften): If Holdco shares are held by a partnership engaged or deemed to be engaged in a trade or business, personal income or corporate income tax will be levied only at the level of the partners. The taxation of each partner depends upon whether the partner is a corporation or an individual. If the partner is a corporation, 95% of the dividend income will generally be tax-exempt (see Corporations above). If the partner is an individual, only 60% of the dividend income is subject to income tax plus solidarity surcharge of 5.5% thereon (see Sole Proprietors (Individuals) above). In general, if the Holdco shares are held as business assets of a commercial permanent establishment located in Germany, dividends will be fully subject to trade tax at the level of the partnership. In the case of partners who are individuals, all or part of the trade tax the partnership pays in proportion to the partner's interest in the partnership's income will generally be credited as a lump sum against the individual partner's personal income tax liability. If the partnership held at least 10% of the Holdco's registered share capital at the beginning of the relevant tax assessment period, the dividends will not be subject to trade tax. However, to the extent that corporations have a participation in the partnership, 5% of the dividend income will be considered to be non-deductible business expenses and subject to trade tax. If the shareholder is a sole proprietor, all or part of the Dutch withholding tax withheld from the dividends that is not refundable under the tax treaty between Germany and the Netherlands may be credited against the respective shareholder's personal income tax liability. Alternatively, a sole proprietor may, under certain circumstances, elect to deduct 60% of the non-refundable Dutch withholding tax in determining his or her taxable income. If a corporate shareholder is tax resident in Germany (and not subject to the special rules described below), the Dutch withholding tax withheld from the dividends that is not refundable under the tax treaty between Germany and the Netherlands cannot be credited against the respective shareholder's corporate income tax. If the shares are held through another partnership, the same rules described above will apply depending on whether the partners are individuals or corporations.

Special Rules apply to shareholding companies active in the financial and insurance sectors and to so-called financial enterprises (*Finanzunternehmen*) as well as to pension funds. See Special Treatment of Companies in the Financial and Insurance Sectors, Financial Enterprises and Pension Funds below.

Holdco Shareholders Nonresident in Germany

For dividend payments on Holdco shares that are held through a permanent establishment or fixed base in Germany or as part of business assets for which a permanent representative in Germany has been appointed, the provisions discussed above under Holdco Shares Held As Business Assets apply correspondingly.

Dividend payments on Holdco shares to non-resident shareholders will in general also be subject to the 25% withholding tax (plus 5.5% solidarity surcharge thereon) if the payment is made by a German paying agent. The tax will not be withheld if the non-resident shareholder is not subject to tax in Germany on such dividend payments pursuant to Germany's domestic tax laws (that is, not due only to the application of a double taxation treaty).

Holdco Shares Held by a Partnership Neither Engaged nor Deemed to be Engaged in a Trade or Business

If Holdco shares are held by a partnership that is neither engaged nor deemed to be engaged in a trade or business, the partners of the partnership are taxed as if they held their shares in Holdco directly (see sections Holdco Shares Held As Private Assets, Holdco Shares Held As Business Assets and Non German Resident Shareholders).

Table of Contents***Taxation of Capital Gains in Relation to Holdco Shares***

Shareholders Resident in Germany for Tax Purposes and for the Application of the Tax Treaty between Germany and the Netherlands

Shares Held as Private Assets

Capital gains realized by the sale of shares that were acquired prior to January 1, 2009 and are held as private assets are generally exempt from tax. We believe there are good reasons for concluding that the sale of Holdco shares is tax exempt to the extent that such Holdco shares were acquired in exchange for Deutsche Börse shares that themselves had been eligible for this tax exemption, and provided that the exchange of the Deutsche Börse shares qualified for application of the simplification rule of Sec. 20 para. 4a sentence 1 of the German Income Tax Act (see *Taxation of the Exchange of Deutsche Börse Shares for Holdco Shares – Deutsche Börse Shares Held As Private Assets* above). Correspondingly, a capital loss, if any, on the sale of such Holdco shares will not be tax deductible.

Otherwise, capital gains realized on the sale of Holdco shares by an individual who held the Holdco shares as private assets will generally be subject to tax, irrespective of the length of time the Holdco shares are held. The tax liability is generally satisfied by the final flat tax (*Abgeltungsteuer*) which, generally, is withheld by a German-resident paying agent (withholding tax of 25% plus solidarity surcharge of 5.5% thereon). See the rules described in *German Withholding Tax on Dividends Paid by Holdco or on Capital Gains in relation to Holdco Shares* which apply.

With respect to the obligations to report capital gains on a tax return, the options to apply for an assessment for private investment income, and the consequences of such an assessment, the description above of the taxation of dividends will apply correspondingly (see *Taxation of Dividends Paid by Holdco – Holdco Shareholders Resident in Germany*). Capital losses from the sale of Holdco shares in general can only be applied against capital gains from the sale of shares in stock corporations.

Notwithstanding the foregoing, in the case of a sale of Holdco shares, if a shareholder, or the shareholder's legal predecessor in the case of a gratuitous acquisition, directly or indirectly has held at least 1% of the share capital of Holdco at any time during the five years preceding the sale, 60% of any capital gain resulting from the sale will be taxable (at the applicable income tax rate, plus the solidarity surcharge of 5.5% thereon). Likewise, no more than 60% of any capital loss can be claimed for tax purposes (subject to general restrictions on tax deductions, if applicable). Special rules (*i.e.*, limitation of tax deductibility) apply with regard to capital losses in case of a staggered acquisition of at least 1% of the share capital of Holdco during the five years preceding the sale and in case the Holdco shares were acquired in exchange for Deutsche Börse shares which met the at least 1% threshold on a tax neutral or tax preferential basis.

Shares Held as Business Assets

If Holdco shares form part of a shareholder's business assets, taxation of the capital gains realized with respect to a sale of those Holdco shares will depend on whether the shareholder is a corporation, sole proprietor or partnership:

Corporations: Generally, capital gains realized on the sale of Holdco shares by corporations are exempt from corporate income tax and, if the shares are held as business assets of a commercial permanent establishment located in Germany, trade tax. However, 5% of such capital gains are considered non-deductible business expenses and, as such, are subject to corporate income tax (plus solidarity surcharge of 5.5% thereon) and trade tax. Losses from the sale of Holdco shares and any other profit reductions related to such shares are not tax deductible as business expenses. Special rules apply to capital gains realized by companies active in the financial and insurance sectors and by so-called financial enterprises (*Finanzunternehmen*), as well as by pension funds. See below *Special Treatment of Companies in the Financial and Insurance Sectors, Financial Enterprises and Pension Funds*.

Table of Contents

Sole Proprietors (individuals): If Holdco shares are held by sole proprietors, 60% of the capital gains from the sale of Holdco shares are taxable with the personal income tax rate (plus solidarity surcharge of 5.5% thereon). However, only 60% of the business expenses related to such a gain (subject to general restrictions on deductions, if any) and only 60% of any capital loss are tax deductible. If Holdco shares are attributable to a commercial permanent establishment maintained in Germany, 60% of the capital gains are also subject to trade tax. All or part of the trade tax is credited as a lump sum against the shareholder's personal income tax liability.

Partnerships: If the shareholder is a partnership engaged or deemed to be engaged in a trade or business, personal income tax or corporate income tax, as the case may be, is assessed at the level of each partner rather than at the level of the partnership. The taxation of each partner depends on whether the partner is a corporation or an individual. If the partner is a corporation, capital gains from the sale of shares are in general effectively 95% tax exempt (see **Corporations** above). If the partner is an individual, 60% of the capital gains from the sale of shares are taxable (see **Sole Proprietors** above). In addition, if the Holdco shares are attributable to a commercial permanent establishment in Germany, any capital gain from their sale is subject to trade tax at the level of the partnership, with 60% of the gain being subject to trade tax to the extent that the partners are individuals and 5% to the extent that the partners are corporations. Losses from the sale of Holdco shares are deductible for trade tax purposes only to the extent that the partners are individuals, with the deduction capped at 60% of the loss. In the case of partners who are individuals, all or part of the trade tax is generally credited as a lump sum against their personal income tax liability. With respect to the deductibility of business expenses related to the capital gains and the deductibility of capital losses for individual or corporate income tax purposes, as the case may be, the rules outlined under **Corporations** apply to partners subject to corporate income tax, and those outlined under **Sole Proprietors** apply to partners subject to individual income tax.

Non-German Resident Shareholders

For capital gains realized on the sale of Holdco shares that are held through a permanent establishment or fixed base in Germany or as part of business assets for which a permanent representative in Germany has been appointed, the provisions discussed above under **Shareholders Resident in Germany for Tax Purposes** and for the **Application of the Tax Treaty between Germany and the Netherlands - Shares Held as Business Assets** apply accordingly.

Capital gains realized on the sale of Holdco shares by non-resident shareholders will in general also be subject to the 25% withholding tax (plus 5.5% solidarity surcharge thereon) if payment is made through a German paying agent. The tax will not be withheld if the non-resident shareholder is not subject to tax in Germany on such capital gains pursuant to Germany's domestic tax laws (that is, not only due to the application of a double taxation treaty).

Holdco Shares Held by a Partnership Neither Engaged nor Deemed to be Engaged in a Trade or Business

If Holdco shares are held by a partnership that is neither engaged nor deemed to be engaged in a trade or business, the partners of the partnership are taxed as if they held their shares in Holdco directly (see sections **Holdco Shares Held as Private Assets**, **Holdco Shares Held as Business Assets** and **Non German Resident Shareholders**).

Special Treatment of Companies in the Financial and Insurance Sectors, Financial Enterprises and Pension Funds

If financial institutions (*Kreditinstitute*) or financial services providers (*Finanzdienstleistungsinstitute*) hold or sell Holdco shares that are allocable to their trading book (*Handelsbuch*) pursuant to Section 1a of the German Banking Act (*Gesetz über das Kreditwesen*), they will neither benefit from the 40% exemption under the partial-

Table of Contents

income method nor enjoy the 95% exemption from corporate income tax plus solidarity surcharge of 5.5% thereon and from any applicable trade tax. Thus, dividend income and capital gains are fully taxable. The tax deductibility of certain business expenses may be subject to general restrictions. Dividends (less attributable business expenses, *i.e.*, net dividends) are fully exempt from trade tax if the corporation held at least 10% of Holdco's registered share capital at the beginning of the relevant tax assessment period.

The same rules apply to Holdco shares that are acquired by a financial enterprise (*Finanzunternehmen*) within the meaning of the German Banking Act for purposes of realizing short-term gains from proprietary trading, and to Holdco shares held through a permanent establishment in Germany by financial institutions, financial services providers and financial enterprises with their registered office in another member state of the European Union or another contracting state to the EEA Agreement. Likewise, the tax exemption described earlier afforded to corporations for dividend income and capital gains from the sale of Holdco shares does not apply to Holdco shares that qualify as a capital investment of life insurance and health insurance companies or that are held by pension funds. Moreover, no reduction in trade tax is provided for these shareholders. Special taxation rules apply to these companies in respect of this type of income.

However, under certain circumstances shareholders subject to corporate income tax may benefit from certain exceptions for dividend payments if the Parent-Subsidiary Directive (EC Directive 90/435/EEC of the Council dated 23 July 1990, as amended) applies to them.

Inheritance and Gift Tax

The transfer of Holdco shares to another person by inheritance or gift is generally subject to German inheritance and gift tax only if the decedent, donor, heir, beneficiary or other transferee maintained his or her residence or a habitual abode in Germany or in case of corporations and similar incorporated entities such as *e.g.* foundations (*Personenvereinigungen und Vermögensmassen*) had its place of management or registered office in Germany at the time of the transfer, or is a German citizen who has not spent more than five consecutive years outside Germany without maintaining a residence in Germany (special rules apply to certain former German citizens who neither maintain a residence nor have their habitual abode in Germany) or the Holdco shares were held by the decedent or donor as part of business assets for which a permanent establishment was maintained in Germany or for which a permanent representative in Germany had been appointed.

The few German treaties for the avoidance of double taxation regarding inheritance and gift tax currently in force may (1) modify the aforementioned principles in respect of the liability to German inheritance and gift tax and (2) provide that foreign inheritance or gift tax paid can be credited against the German inheritance or gift tax.

Other Taxes

Generally, no German transfer tax, value-added tax, stamp duty or similar taxes are assessed on the purchase, sale or other transfer of Holdco shares at shareholder level. Provided that certain requirements are met, business owners may, however, opt for the payment of value-added tax on transactions that are otherwise tax-exempt. Net wealth tax is currently not charged in Germany and thus does not become due.

Material U.S. Federal Income Tax Consequences

General

The following section contains a discussion of (1) the material U.S. federal income tax consequences to U.S. holders (as defined below) of Deutsche Börse shares who participate in the exchange offer, and (2) the material U.S. federal income tax considerations related to the ownership and disposition of Holdco shares received in the exchange offer.

Table of Contents***General Matters Relating to United States Federal Income Tax Discussions***

The following discussion of U.S. federal income tax consequences is based upon the U.S. Internal Revenue Code of 1986, U.S. Treasury regulations promulgated thereunder and administrative rulings and court decisions, all as in effect on the date of the publication of this document. These laws may change, possibly retroactively, and any such change could affect the accuracy of the statements and conclusions set forth in this discussion.

For purposes of this discussion, the term "U.S. holder" means a beneficial owner of Deutsche Börse shares or, after completion of the exchange offer, Holdco shares, that is for U.S. federal income tax purposes (1) an individual citizen or resident of the United States; (2) a corporation (or other entity treated as a corporation) organized under the laws of the United States or any state thereof or the District of Columbia; (3) a trust if (a) it is subject to the primary supervision of a court within the United States and one or more U.S. persons have the authority to control all substantial decisions of the trust, or (b) it has in effect a valid election under applicable U.S. Treasury regulations to be treated as a U.S. person; or (4) an estate, the income of which is includible in gross income for U.S. federal income tax purposes regardless of its source.

For purposes of this discussion, the term "non-U.S. holder" means a beneficial owner of Holdco shares that is not a U.S. holder (other than an entity or arrangement treated as a partnership for U.S. federal income tax purposes).

If an entity or arrangement treated as a partnership for U.S. federal income tax purposes is a beneficial owner of Deutsche Börse shares or, after completion of the exchange offer, Holdco shares, the tax treatment of a partner in that partnership generally will depend on the status of the partner and the activities of the partnership. Holders of Deutsche Börse shares or Holdco shares that are partnerships or partners in such partnerships should consult their tax advisors regarding the U.S. federal income tax consequences to them of the exchange offer and the ownership and disposition of Holdco shares.

This discussion only addresses holders of Deutsche Börse shares and Holdco shares that hold their Deutsche Börse shares and Holdco shares, as applicable, as a capital asset within the meaning of Section 1221 of the Internal Revenue Code (generally, property held for investment). Further, this discussion does not address all aspects of U.S. federal income taxation that may be relevant to a holder in light of such holder's particular circumstances or that may be applicable to holders subject to special treatment under U.S. federal income tax law (including, for example, financial institutions, insurance companies, tax-exempt organizations, dealers in securities or traders in securities that elect mark-to-market treatment, holders who acquired Deutsche Börse shares or Holdco shares, as applicable, pursuant to the exercise of employee stock options or otherwise as compensation, entities or arrangements treated as partnerships for U.S. federal income tax purposes, holders liable for the alternative minimum tax, holders who hold their Deutsche Börse shares or Holdco shares, as applicable, as part of a hedge, straddle, constructive sale or conversion transaction, U.S. holders whose functional currency is not the U.S. dollar, U.S. expatriates, controlled foreign corporations, and passive foreign investment companies, which we refer to as PFICs, and, except to the extent expressly set forth below, non-U.S. holders). This discussion does not address, except to the extent expressly set forth below, any holder of Holdco shares who, immediately after the exchange offer and merger, owns, actually or constructively, at least 5% of either the total voting power or the total value of the stock of Holdco. This discussion assumes that Deutsche Börse has not been a PFIC at any time during which a U.S. holder has held Deutsche Börse shares. This discussion also does not address any tax consequences arising under the laws of any state, local or foreign jurisdiction, or under any U.S. federal laws other than those pertaining to the federal income tax. In addition, this discussion does not address the tax consequences of the ownership and disposition of Holdco shares arising under the unearned income Medicare contribution tax pursuant to the Health Care and Education Reconciliation Act of 2010.

ALL HOLDERS OF DEUTSCHE BÖRSE SHARES SHOULD CONSULT THEIR TAX ADVISOR REGARDING THE PARTICULAR FEDERAL, STATE, LOCAL AND NON-U.S. TAX CONSEQUENCES TO THEM OF THE EXCHANGE OFFER. ALL HOLDERS OF HOLDCO SHARES

Table of Contents

ACQUIRED PURSUANT TO THE EXCHANGE OFFER SHOULD CONSULT THEIR TAX ADVISOR REGARDING THE PARTICULAR FEDERAL, STATE, LOCAL AND NON-U.S. TAX CONSEQUENCES TO THEM OF THE OWNERSHIP AND DISPOSITION OF HOLDCO SHARES.

Material U.S. Federal Income Tax Consequences of the Exchange Offer

Conditions to Closing

It is intended that, for U.S. federal income tax purposes, the exchange offer will qualify as a transaction described in Section 351(a) of the Internal Revenue Code and/or the exchange offer and the merger, taken together, will qualify as a transaction described in Section 351(a) of the Internal Revenue Code.

It is a condition to Holdco's obligation to complete the exchange offer that Deutsche Börse receive, on or prior to the expiration of the offer acceptance period, a private letter ruling from the Internal Revenue Service substantially to the effect that the exchange offer will qualify as a transaction described in Section 351(a) of the Internal Revenue Code and/or the merger and the exchange offer, taken together, will qualify as a transaction described in Section 351(a) of the Internal Revenue Code (we refer to this condition as the "Deutsche Börse tax condition"). Under the Business Combination Agreement, Deutsche Börse is required to waive the Deutsche Börse tax condition if Deutsche Börse receives a written opinion of counsel, in form and substance reasonably satisfactory to Deutsche Börse, dated as of the Waiver Limitation Date, to the effect that the exchange offer will qualify as a transaction described in Section 351(a) of the Internal Revenue Code and/or the merger and the exchange offer, taken together, will qualify as a transaction described in Section 351(a) of the Internal Revenue Code. Deutsche Börse expects that it will receive the opinion of counsel described in the immediately preceding sentence and, therefore, that it will waive the Deutsche Börse tax condition.

Any opinion of counsel will be based on representations and assumptions set forth or referred to in such opinion. If any such representation or assumption is inaccurate, the tax consequences of the exchange offer to holders of Deutsche Börse shares could differ materially from those described below. An opinion of counsel represents counsel's best legal judgment and is not binding on the Internal Revenue Service. Accordingly, there can be no assurance that the Internal Revenue Service will not disagree with or challenge any of the conclusions expressed in such opinion. In addition, because any opinion of counsel will be dated as of a date prior to the consummation of the exchange offer, there can be no assurance that the conclusions set forth in such opinion will continue to be valid at the effective time of the exchange offer. The remainder of this discussion assumes that the conclusions set forth in such opinion will continue to be valid at the effective time of the exchange offer.

U.S. Federal Income Tax Consequences of the Exchange Offer

The material U.S. federal income tax consequences to U.S. holders of Deutsche Börse shares participating in the exchange offer generally are as follows:

In general, a U.S. holder will not recognize gain or loss upon the exchange of Deutsche Börse shares for Holdco shares in the exchange offer. The basis of the Holdco shares received in exchange for Deutsche Börse shares in the exchange offer will be equal to the basis of the Deutsche Börse shares exchanged. The holding period of the Holdco shares received in exchange for Deutsche Börse shares in the exchange offer will include the holding period of the Deutsche Börse shares exchanged. U.S. holders that acquired different blocks of Deutsche Börse shares at different times or different prices, should consult their tax advisors as to the determination of the bases and holding periods of the Holdco shares received in the exchange offer.

A U.S. holder who is a five percent transferee shareholder of Holdco, as defined in Treasury regulations promulgated under Section 367(a) of the Internal Revenue Code (i.e., a U.S. holder who owns, actually or constructively, at least 5% of the total voting power or the total value of the stock of Holdco immediately after the exchange offer and the merger), will qualify for non-recognition of gain, as described

Table of Contents

above, only if the U.S. holder files with the IRS a gain recognition agreement, as defined in such Treasury regulations. Other considerations not here described may apply to such a holder. Any such U.S. holder should consult his tax advisor concerning the decision to file a gain recognition agreement, the procedures to be followed in connection with that filing, and other applicable considerations.

Material United States Federal Income Tax Considerations Relating to the Ownership and Disposition of Holdco Shares Received in the Exchange Offer

The following is a discussion of the material U.S. federal income tax consequences of the ownership and disposition by U.S. holders and non-U.S. holders of Holdco shares received in the exchange offer.

U.S. Holders

Distributions

Subject to the discussion below relating to the potential application of the passive foreign investment company, or PFIC, rules, distributions, if any, made with respect to Holdco shares will constitute dividends for U.S. federal income tax purposes to the extent of Holdco's current or accumulated earnings and profits as determined for U.S. federal income tax purposes. The gross amount of dividends that a U.S. holder receives, including amounts withheld in respect of Dutch dividend withholding tax, generally will be subject to U.S. federal income taxation as foreign source dividend income and will not be eligible for the dividends-received deduction generally allowed to U.S. corporations. Subject to exceptions for short-term or hedged positions and certain other exceptions, dividends received before January 1, 2013 by certain non-corporate U.S. holders, including individuals, generally will be subject to U.S. federal income taxation at a maximum rate of 15% if the dividends are qualified dividends. Dividends paid on Holdco shares will be treated as qualified dividends as long as Holdco shares is listed on the New York Stock Exchange and Holdco was not, at any relevant time prior to the year in which the dividend is paid, and is not in the year in which the dividend is paid, a PFIC. U.S. holders of Holdco shares should consult their own tax advisors regarding the availability to them of the reduced dividend tax rate in light of their particular circumstances.

To the extent that a distribution exceeds Holdco's current or accumulated earnings and profits as determined for U.S. federal income tax purposes, such distribution will be treated as a nontaxable return of capital to the extent of the U.S. holder's tax basis in the shares (with a corresponding reduction in such tax basis), and thereafter will be treated as capital gain. Such capital gain will be long-term capital gain if the U.S. holder's holding period for the Holdco shares exceeds one year. Shareholders who hold Holdco shares with differing bases or holding periods should consult their tax advisors as to the application of these rules.

A U.S. holder who pays (whether directly or through withholding) Dutch income tax with respect to dividends paid on Holdco shares generally will be entitled, subject to generally applicable limitations under U.S. federal income tax laws, to a credit against such holder's U.S. federal income tax liability or, at the holder's election, to receive a deduction in computing such holder's taxable income. For foreign tax credit purposes, dividends paid by Holdco generally will constitute foreign source passive category income or, in the case of certain holders, general category income. However, if Holdco is a U.S.-owned foreign corporation, for foreign tax credit limitation purposes, dividends it pays in any year will be U.S. source income in proportion to the percentage of Holdco's earnings and profits in that year that are attributable to U.S. sources (provided at least 10% of Holdco's earnings and profits are so attributable). For this purpose, Holdco will be treated as a U.S.-owned foreign corporation if 50% or more of the voting power or value of its shares is owned, directly or indirectly, by U.S. persons. Foreign tax credits will not be allowed for Dutch dividend withholding taxes imposed in respect of certain short-term or hedged positions in Holdco shares. U.S. holders should consult their own tax advisors concerning the implications of these rules in light of their particular circumstances.

Dividends paid in non-U.S. currency will be included in the income of a U.S. holder in a U.S. dollar amount calculated by reference to the exchange rate in effect on the date of receipt by the U.S. holder, regardless of

Table of Contents

whether the payment is in fact converted into U.S. dollars. Any gain or loss realized on a conversion or other disposition of currency other than the U.S. dollar generally will be treated as U.S. source ordinary income or loss.

Sale or Other Disposition of Holdco Shares

Subject to the discussion below relating to the potential application of the PFIC rules, upon a sale or other disposition of Holdco shares, U.S. holders generally will recognize capital gain or loss in an amount equal to the difference, if any, between the amount realized on the disposition and the U.S. holder's tax basis. Such capital gain or loss will be long-term capital gain or loss if the U.S. holder's holding period for the Holdco shares exceeds one year. Long-term capital gain recognized by certain non-corporate U.S. holders, including individuals, generally are eligible for reduced rates of U.S. federal income taxation. There are limitations on the deductibility of capital losses.

Further tax consideration

In general, a foreign corporation, such as Holdco, will be classified as a PFIC for any taxable year in which either (1) 75% or more of its gross income is passive income (such as, for example, dividends interest, rents, royalties or gains from the disposition of investment assets) or (2) at least 50% of the average value of its assets consists of assets that produce or are held for the production of, passive income. For purposes of applying the tests in the preceding sentence, the foreign corporation is deemed to own its proportionate share of the assets of and to receive directly its proportionate share of the income of any other corporation in which the foreign corporation owns, directly or indirectly, at least 25% by value of the stock.

Classification of a foreign corporation as a PFIC can have various adverse consequences to U.S. holders. These include taxation of gain on a sale or other disposition of the stock of the corporation and taxation of distributions (including distributions that would otherwise be treated as qualified dividends) at the maximum ordinary income tax rates and the imposition of a punitive interest charge on such gain and distributions.

Deutsche Börse reports, for financial accounting purposes, holding assets in its Eurex business that are of a type that would be treated as giving rise to passive income for purposes of the PFIC rules. Holdco does not believe that these assets should be treated as beneficially owned by Deutsche Börse or any of its subsidiaries for U.S. federal income tax purposes because these entities do not possess the benefits and burdens of ownership of those assets. Accordingly, Holdco does not currently expect to be treated as a PFIC. If the IRS were to successfully challenge this determination, it is possible that Holdco would be treated as a PFIC. In addition, because the tests for determining PFIC status are applied annually, and it is difficult to accurately predict future income and assets relevant to this determination, there can be no assurance that Holdco will not become a PFIC. U.S. holders of Holdco shares should consult their own tax advisors regarding the PFIC rules, including the availability of certain shareholder elections.

Non-U.S. Holders

In general, a non-U.S. holder of Holdco shares will not be subject to U.S. federal income tax or, subject to the discussion below under the heading *Information Reporting and Backup Withholding*, withholding tax on any dividends received on Holdco shares or any gain recognized on a sale or other disposition of Holdco shares (including, any distribution to the extent it exceeds the adjusted basis in the non-U.S. holder's Holdco shares) unless: (1) such dividend or gain is effectively connected with the conduct by the holder of a trade or business within the United States (and, if an income tax treaty applies, is attributable to a U.S. permanent establishment of such non-U.S. holder), or (2) in the case of gain only, the non-U.S. holder is present in the United States for 183 days or more in the taxable year of disposition and certain other conditions are satisfied.

A non-U.S. holder that is a corporation may be subject to an additional *branch profits tax* at a rate of 30% (or such lower rate as may be specified by an applicable income tax treaty) on the repatriation from the United States of its *effectively connected earnings and profits*, subject to certain adjustments.

Table of Contents

Information Reporting and Backup Withholding

Dividends paid with respect to Holdco shares and proceeds from a sale or other disposition of Holdco shares received in the United States or through certain U.S.-related financial intermediaries may be subject to information reporting and backup withholding (currently, at a rate of 28%) unless such holder provides proof of an applicable exemption or furnishes its taxpayer identification number, and otherwise complies with applicable requirements of the backup withholding rules. Any amounts withheld under the backup withholding rules are not additional tax and may be allowed as a refund or a credit against the holder's U.S. federal income tax liability, provided the required information is furnished to the IRS in a timely manner.

Non-U.S. holders generally are exempt from these information reporting requirements and backup withholding tax, but may be required to comply with certain certification and identification procedures in order to establish their eligibility for exemption.

French Tax Considerations

General

This summary is based on the laws, regulations, practice and applicable tax treaties in force in France as at the date of the publication of this document, all of which are subject to change, possibly with retroactive effect.

This summary does not take into account the specific circumstances of particular investors some of which may be subject to special tax rules. French holders of Deutsche Börse and Holdco shares should consult their own tax advisors as to the particular French tax consequences of the exchange offer and/or of the holding or disposal of the Holdco shares.

As used herein, a French individual is an individual who is a resident of France for tax purposes, is subject to personal income tax (*impôt sur le revenu*) and owns (other than through a fixed base outside France) the Deutsche Börse and/or the Holdco shares as part of the individual's private portfolio (namely, such individual does not hold the shares through an enterprise that carries out an industrial, commercial, farming or other professional activity) and the individual does not carry out stock market transactions under conditions akin to business transactions; a French legal entity is a legal entity that is a French tax resident subject to corporate income tax (*impôt sur les sociétés*) that does not own its interests in Deutsche Börse or Holdco through a permanent establishment outside France, and that does not hold an interest in Deutsche Börse or Holdco that would qualify as participation shares (*titres de participation*) or other interest representing more than 5% of Deutsche Börse's or Holdco's share capital and benefit from a taxation at a reduced rate. French holders shall mean all these holders collectively.

Taxation of Exchange of Deutsche Börse Shares for Holdco Shares

French Individuals

Pursuant to Article 150-0 B of the French General Tax Code, capital gain or loss realized upon the exchange of Deutsche Börse shares for Holdco shares pursuant to the exchange offer will not be taken into account for the purpose of determining income tax of the year in which the exchange occurs (tax deferral regime).

This results in the following:

as no cash payments will be made to Deutsche Börse shareholders pursuant to the exchange offer, taxpayers will not be required to declare the capital gain or loss realized upon the exchange on their tax return for the relevant year and are entitled to defer for tax purposes any capital gain arising from the exchange. This deferral applies automatically and a shareholder is not required to request this treatment;

any capital loss arising from the exchange cannot be used to offset capital gains realized during the year of the exchange offer or during the ten following years and cannot therefore be carried forward.

Table of Contents

The tax deferral will cease on disposal, buy-back, redemption or cancellation of the Holdco shares received pursuant to the exchange offer. The net capital gain or loss realized at the time of a subsequent sale or other disposition of Holdco shares will be computed based on the shareholder's tax basis in the Deutsche Börse shares tendered pursuant to the exchange offer and will be subject to income tax and social related contributions under the tax regime applicable at the time of the subsequent sale to sales of securities.

For purposes of computing the holding period in respect of the partial income tax exemption provided for by Article 150-0 D *bis* of the French General Tax Code (see *Taxation of Ownership and Transfer of Holdco Shares* *Taxation of Capital Gains* *French Individuals* below), the Holdco shares will be deemed to have the same acquisition date as the Deutsche Börse shares that are tendered pursuant to the exchange offer.

Deutsche Börse Shares Held in a Share Savings Plan (Plan d'Épargne en Actions – PEA)

Holdco shares are eligible to be held in a PEA.

Shareholders whose Deutsche Börse shares are held in a PEA will benefit from an exemption from personal income tax on the capital gain realized upon the exchange offer provided that they register the Holdco shares received pursuant to the exchange offer in their PEA and that all other requirements for the application of the PEA regime, including the requisite holding periods, are met (see *Taxation of Ownership and Transfer of Holdco Shares* *Taxation of Dividends* *French Individuals*).

Upon closure of the PEA (if it occurs more than five years after the opening of the PEA) or upon a partial withdrawal (if it occurs more than eight years after the opening of the PEA), the net gain realized since the opening of the PEA will benefit from an exemption from personal income tax but will be subject to social security contributions (currently at a combined rate of 12.3% but the effective rate of such contributions will depend on the date when the related gain is realized).

French Legal Entities

Pursuant to Article 38-7 of the French General Tax Code, capital gain or loss realized upon the exchange of Deutsche Börse shares for Holdco shares pursuant to the exchange offer will be included in the relevant shareholder's taxable income for the fiscal year in which the Holdco shares received in exchange are later sold (tax deferral treatment).

Any capital gain or loss resulting from the subsequent disposal of Holdco shares received pursuant to the exchange offer will be determined by reference to the shareholder's tax basis in the Deutsche Börse shares at the time of the exchange offer.

This gain or loss will be included in taxable income for the fiscal year in which the subsequent disposal occurs in accordance with the tax treatment applicable to Holdco shares as of that date.

Under the terms of Article 54 *septies* of the French General Tax Code, legal entities will be subject to special reporting requirements on an annual basis. Failure to report or to file accurate and complete documents required by the abovementioned Article may result in a penalty of 5% of the amount not properly reported.

Table of Contents***Taxation of Ownership and Transfer of Holdco Shares******Taxation of Dividends***

Pursuant to Article 24-B-b of the tax treaty dated March 16, 1973 between France and the Netherlands (the France-Netherlands Treaty), France grants a tax credit for withholding tax levied by the Netherlands on dividends. The amount of such tax credit is equal to the withholding tax as reduced by the France-Netherlands Treaty, that is, generally, 15/85 of the net amount of the dividends, to the extent such amount does not exceed the amount of French tax due with respect to such dividends.

French Individuals

Dividends received by French individuals are generally included in their taxable income for the relevant calendar year and subject to personal income tax either:

at a progressive rate (with a marginal rate of 41%), under the following regime:

If the conditions set out in Article 158-3-2 of the French General Tax Code are satisfied with respect to such dividends, and provided that no election has been made for application of the 19% flat-rate tax on other distributions received during the same calendar year (see below), an allowance of 40% (the 40% Allowance) is first applied to the gross amount of the dividends, including the amount of any tax credit determined with respect to the Dutch withholding tax.

Subject to the same condition and on the aggregate amount of dividends received during the same calendar year after deduction of the 40% Allowance and of deductible expenses, an additional allowance is applied for an amount of (1) 3,050 for married couples subject to joint taxation as well as for signatories of a civil solidarity pact (*pacte civil de solidarité*) as defined under Article 515-1 of the Code Civil (PACS) who are subject to joint taxation or (2) 1,525 for single people, widows and widowers, divorcees or married people who file their tax returns separately. If the amount of the additional allowance is higher than the amount of taxable income, any excess may neither be refunded nor carried forward.

upon election by the taxpayer, at a 19% flat-rate if the conditions set out in Article 117 *quater* of the French General Tax Code are satisfied in respect of such dividends.

If dividends are paid by a French paying agent, the election for the 19% flat-rate tax must be made by the taxpayer with the paying agent prior to the receipt of the dividends. Upon payment of the dividend, the 19% tax will be withheld by the French paying agent who then will report and pay, on behalf of the French taxpayer, the 19% tax withheld to the French tax authorities. The 19% flat-rate is applied to the gross amount of the dividends, including the amount of any tax credit determined with respect to the Dutch withholding tax.

If dividends are paid by a foreign paying agent, the 19% tax is either (1) paid to the French tax authorities by the French taxpayer within the first fifteen days of the month following the month of payment or (2) withheld at the time of payment by the paying agent who will report and pay on behalf of the French taxpayer the 19% flat-rate tax to the French tax authorities, provided that the paying agent is established in a Member State of the European Union or in a country within the EEA that has entered into a tax treaty with France that contains a clause of administrative assistance with view to prevent tax fraud and evasion, and the French taxpayer has authorized such withholding in writing.

Dividends are further subject to the following social security contributions: the general social contribution (*contribution sociale généralisée CSG*) at the rate of 8.2% (of which 5.8% is deductible from the aggregate taxable income of the taxpayer, unless the taxpayer has elected for the application of the 19% flat-rate on the relevant dividends), the social levy (*prélèvement social*) at the rate of 2.2%, the contribution for the repayment of the social debt (*contribution au remboursement de la dette sociale CRDS*) at the rate of 0.5% and the contributions payable in addition to the social levy at the respective rates of 0.3% and 1.1%, giving a combined rate of 12.3% of social security contributions. These social security contributions are withheld under similar rules as those applicable to the 19% flat-rate tax when the dividend is paid by a French paying agent.

Table of Contents

The tax credit granted by France in respect of the Dutch withholding tax can be credited against the personal income tax due and thereafter against the social security contributions due in respect of the relevant dividends. Any excess may neither be refunded nor carried forward.

Holdco Shares Held in a Share Savings Plan (*Plan d'Épargne en Actions* - PEA)

Holdco shares are eligible to be held in a PEA.

Under certain conditions, a PEA confers the right (1) during the duration of the PEA, to an exemption from income tax and social related contributions on the net income and net capital gains on investments made through a PEA, provided that this income and capital gains are reinvested in the PEA and (2) upon closure of the PEA (if it occurs more than five years after the opening of the PEA) or after a partial withdrawal (if it occurs more than eight years after the opening of the PEA), to an income tax exemption on the net gain realized since the opening of the PEA. This income and capital gains are nevertheless subject to social related contributions (currently at a combined rate of 12.3% but the effective rate of such contributions depends on the date when such gain is realized). Specific rules apply to the use of capital losses realized within a PEA. Investors are advised to consult their tax advisor with respect to this issue.

A withdrawal from a PEA in the form of a life annuity is subject to a specific tax regime not described herein.

Individuals owning Holdco shares in a PEA will not be able to use the tax credit granted by France in respect of the Dutch withholding tax.

French Legal Entities

Gross dividends (including the amount of any tax credit determined with respect to the Dutch withholding tax) received by French legal entities will be subject to corporate income tax at the current standard rate of 33 1/3% (or, subject to limitations, at the reduced rate of 15% for companies that meet the conditions of Article 219 I-b of the French General Tax Code, that is, which have a yearly turnover net of tax of less than 7,630,000 and satisfy other ownership requirements), increased, as the case may be, by the social related contribution of 3.3% assessed on the corporate income tax due, after deduction of an allowance that may not exceed 763,000 per twelve-month period (Article 235 *ter* ZC of the French General Tax Code).

The tax credit granted by France in respect of the Dutch withholding tax is generally creditable against the corporate income tax and the social related contribution. Any excess may neither be refunded nor carried forward.

Taxation of Capital Gains

Capital gains, if any, realized by French holders on the disposal of their Holdco shares may be subject to tax in France but not in the Netherlands in accordance with Article 13.4 of the France-Netherlands Treaty.

French Individuals

Pursuant to Article 150-0 A of the French General Tax Code, capital gains realized by French individuals on the sale of Holdco shares will be subject to personal income tax at the flat rate of 19%, irrespective of the total amount of securities disposed of by their household. Capital gains are also subject to social related contributions at the current total rate of 12.3%, irrespective of the total amount of securities disposed of during the calendar year.

Under Article 150-0 D 11 of the French General Tax Code, capital losses incurred during a calendar year may offset capital gains of the same nature realized in the same calendar year or the ten following calendar years.

Table of Contents

It should be noted that Article 150-0 D *bis* of the French General Tax Code provides for a total or partial income tax exemption on capital gains realized on the transfer of shares that were held for at least six years. French holders are urged to consult their own tax advisors to determine whether they may be entitled to these provisions.

Holdco Shares Held in a PEA

See above Taxation of Ownership and Transfer of Holdco Shares Taxation of Dividends Holdco Shares Held in a Share Savings Plan (*Plan d'Épargne en Actions* PEA) .

French Legal Entities

Capital gains realized upon the transfer of Holdco shares will generally be subject to corporate income tax under the same conditions as dividends. (See above Taxation of Ownership and Transfer of Holdco Shares Taxation of Dividends French Legal Entities .)

Capital losses incurred as a result of a transfer of Holdco shares will in general be deductible from taxable income subject to corporate income tax.

Wealth Tax

Holdco shares held by French individuals among their private assets will be included in their taxable estate and subject to, if applicable, French wealth tax (*Impôt de solidarité sur la fortune*).

Inheritance and Gift Tax

Holdco shares acquired by French individuals through inheritance or as a gift will be subject to inheritance tax or gift tax.

Transfer Tax

Disposals of Holdco shares are generally not subject to registration taxes in France, provided that they are not recorded in connection with an agreement entered into in France.

Luxembourg Tax Considerations

General

The following summary is of general nature only and does not purport to be a comprehensive description of all the Luxembourg tax considerations that may be relevant to a decision to exchange Deutsche Börse shares pursuant to the exchange offer and to acquire, own or dispose of Holdco shares. It is not intended to be, nor should it be construed as being legal or tax advice. It is based on the laws in force in Luxembourg as at the date of the publication of this document and subject to any change in law that might take effect after such date. Each beneficial owner of Deutsche Börse shares should consult its tax advisor as to the Luxembourg tax consequences of the exchange of Deutsche Börse shares and subsequent ownership and transfer of Holdco shares.

Shareholders should be aware that the concept of residence as used below applies for Luxembourg income tax assessment purposes only. Any reference in this section to a tax, duty, levy or other charge or withholding of a similar nature refers to Luxembourg tax law and/or concepts only. Moreover, any reference to Luxembourg income tax encompasses corporate income tax (*impôt sur le revenu des collectivités*), municipal business tax (*impôt commercial communal*), a solidarity surcharge (*contribution au fonds pour l'emploi*), as well as personal income tax (*impôt sur le revenu*) generally. Corporate shareholders may further be subject to net wealth tax (*impôt sur la fortune*) as well as other duties, levies or taxes. Corporate income tax, municipal business tax as well as the solidarity surcharge invariably apply to most corporate taxpayers resident of Luxembourg for tax purposes.

Table of Contents

The standard rate of corporate taxation in Luxembourg for companies having their registered office in the municipality of Luxembourg is in the aggregate 28.8% in 2011 (21% corporate income tax, plus a 5% solidarity surcharge thereon, and 6.75% municipal business tax).

Individual taxpayers are generally subject to personal income tax and the solidarity surcharge. Under certain circumstances, where an individual taxpayer acts in the course of a professional or business undertaking, municipal business tax may apply as well.

Taxation of Exchange of Deutsche Börse Shares for Holdco Shares

Luxembourg resident (individual and corporate) shareholders of Deutsche Börse shares will not realize any capital gains (or losses) upon the receipt of Holdco shares pursuant to the exchange offer pursuant to the non-recognition treatment provided for in article 22bis (2) 4. of the Luxembourg Income Tax Law (ITL), as shareholders will receive the Holdco shares in exchange for their Deutsche Börse shares as part of a global share-for-share exchange transaction conferring to Holdco a majority of the voting rights in Deutsche Börse.

As a consequence of the non-recognition treatment, the Holdco shares received by Luxembourg resident shareholders pursuant to the exchange offer will retain the same acquisition value and acquisition date as the Deutsche Börse shares tendered in the exchange offer.

Notwithstanding the foregoing, Luxembourg resident (individual and corporate) shareholders of Deutsche Börse may elect to recognize any capital gains arising from the receipt of the Holdco shares in exchange for their Deutsche Börse shares pursuant to the exchange offer. If such an election is made, an electing Luxembourg resident shareholder will be fully subject to Luxembourg income tax on the capital gains realized on the Deutsche Börse shares tendered, unless an exemption provided in the Luxembourg ITL (see paragraph **Capital Gains Taxation** below) is available.

Taxation of Ownership and Transfer of Holdco Shares

Dividends Taxation

Luxembourg Resident Individual Shareholders

Dividends received by a Luxembourg resident individual shareholder will generally be subject to Luxembourg income tax (including the solidarity surcharge) at the ordinary progressive rate. However, half of the amount of dividend income received from Holdco will be excluded from the taxable base of the Luxembourg resident individual shareholder.

Luxembourg Resident Corporate Shareholders

Pursuant to the Luxembourg participation exemption regime, dividends and liquidation proceeds received from Holdco by (1) a joint-stock company that is a fully taxable Luxembourg resident company, (2) a permanent establishment located in Luxembourg of a company resident in a Member State of the European Union as defined in article 2 of the EU Directive 90/435/EEC of 23 July 1990 as amended, (3) a permanent establishment located in Luxembourg of a company resident in a country that has concluded a double taxation treaty with Luxembourg, or (4) a permanent establishment located in Luxembourg of a joint-stock company or of a cooperative company resident in a Member State of the EEA, will be exempt from income tax in Luxembourg provided that, at the date of the distribution, the shareholder holds or commits to hold, directly or through a tax transparent vehicle, during an uninterrupted period of at least 12 months, a participation of at least 10% of the share capital of Holdco or a participation with an acquisition price of at least 1.2 million. Shares held through a tax transparent entity are considered to be held directly by a shareholder in proportion to the shareholder's percentage interest in the net assets of the transparent entity.

Table of Contents

Dividends received from Holdco by a Luxembourg resident company, or by a permanent establishment of a non-resident company located in Luxembourg, that are outside the scope of the Luxembourg participation exemption regime will be subject to Luxembourg corporate income tax (including the solidarity surcharge) and municipal business tax at the ordinary rate. However, half of the amount of dividend income received from Holdco will be excluded from the taxable base of the Luxembourg resident corporate shareholder.

Luxembourg Resident Companies Benefitting from a Special Tax Regime

Luxembourg companies that benefit from a special tax regime under (1) the laws of December 17, 2010 and February 13, 2007 on undertakings for collective investment or (2) the law of May 11, 2007 on family estate management companies will not be subject to income tax on dividends received from Holdco.

Tax Credit for Foreign Withholding Tax

Resident (individual and corporate) shareholders and non-resident (individual and corporate) shareholders holding Holdco shares through a permanent establishment (including a permanent representative) or fixed base in Luxembourg, may credit (part or all of) the dividend withholding tax levied by Holdco, if any, against their final income tax liability in Luxembourg. However, Luxembourg resident companies benefitting from a special tax regime (as referred to in the above paragraph) should not be entitled to a refund of the dividend withholding tax levied by Holdco, if any.

Capital Gains Taxation

Luxembourg Resident Individual Shareholders

Capital gains realized on the disposal of Holdco shares (including a sale, exchange, contribution or any other kind of disposal) by resident individuals other than shareholders acting in the course of professional or business activity are not subject to income tax, unless these capital gains qualify either as speculative gains or as gains on a substantial participation.

Capital gains are deemed to be speculative and are subject to income tax at ordinary rates if the Holdco shares are disposed of within 6 months of their acquisition (or deemed acquisition in case of transfer subject to non-recognition treatment regime) or if the disposal precedes the acquisition (or deemed acquisition) of the Holdco shares.

A participation is considered substantial where a resident individual has held, alone or together with his/her close relatives, directly or indirectly, at any time within the five years preceding the disposal, more than 10% of the share capital of Holdco. A shareholder is also deemed to dispose of a substantial participation if, within the five years preceding the transfer, he/she acquired by way of a gratuitous transfer, a participation constituting a substantial participation in the hands of the transferor (or the transferors in case of several successive gratuitous transfers within the same five-year period). Capital gains realized on a disposal of a substantial participation more than six months after the acquisition are subject to income tax according to the half-global rate method (i.e. the average rate applicable to the shareholder's total income is calculated at progressive income tax rates, and half of the average rate is applied to the capital gains realized on the disposal).

Capital gains realized on the disposal of Holdco shares by resident individual shareholders, acting in the course of their professional/business activity, are subject to income tax at ordinary rates.

Luxembourg Resident Corporate Shareholders

Capital gains realized upon the disposal of the Holdco shares by a Luxembourg resident company, or by a permanent establishment of a non-resident company located in Luxembourg, will be fully subject to corporate income tax (including the solidarity surcharge) and municipal business tax in Luxembourg, except if the Luxembourg participation regime is applicable.

Table of Contents

Pursuant to the Luxembourg participation exemption regime, capital gains realized upon the disposal of Holdco shares by (1) a joint-stock company that is a fully taxable Luxembourg resident company, (2) a permanent establishment located in Luxembourg of a company resident in a Member State of the European Union as defined in article 2 of the EU Directive 90/435/EEC of 23 July 1990 as amended, (3) a permanent establishment located in Luxembourg of a company resident in a country that has concluded a double taxation treaty with Luxembourg, or (4) a permanent establishment located in Luxembourg of a joint-stock company or of a cooperative company resident in a Member State of the EEA, will be exempt from income tax in Luxembourg provided that, at the date of the distribution, the shareholder holds or commits to hold, directly or through a tax transparent vehicle, during an uninterrupted period of at least 12 months, a participation of at least 10% in the share capital of Holdco or a participation with an acquisition price of at least EUR 6 million shares held through a tax transparent entity are considered to be held directly by a shareholder in proportion to the shareholder's percentage interest in the net assets of the transparent entity.

The amount of taxable gains (or losses) will generally be the difference between the price for which the Holdco shares are disposed of and the lower of their cost or book value.

Luxembourg Resident Companies Benefitting from a Special Tax Regime

Luxembourg companies that benefit from a special tax regime under (1) the laws of December 17, 2010 and February 13, 2007 on undertakings for collective investment or (2) the law of May 11, 2007 on family estate management companies will not be subject to tax on capital gains realized on the disposal of the Holdco shares.

Net Wealth Tax

Luxembourg resident companies, that do not benefit from a special tax regime under (1) the laws of December 17, 2010 and February 13, 2007 on undertakings for collective investment, (2) the law of March 22, 2004 on securitization, (3) the law of June 15, 2004 on venture capital vehicles, or (4) the law of May 11, 2007 on family estate management companies and Luxembourg non-resident companies owning assets attributable to an enterprise or part thereof which is carried on in Luxembourg through a permanent establishment, are subject to net wealth tax on their net assets.

However, Holdco shares held by fully taxable Luxembourg resident companies and by Luxembourg non-resident companies whose Holdco shares are attributable to a permanent establishment in Luxembourg will be excluded from the taxable base for net wealth tax purposes, provided the conditions of the participation exemption regime are met (generally as described above under Dividends Taxation Luxembourg resident corporate shareholders, but without regard to the 12-month holding period requirement).

Individuals are not subject to net wealth tax in Luxembourg.

Inheritance and Gifts Tax

No Luxembourg estate or inheritance taxes will be levied on the transfer of Holdco shares upon the death of a shareholder in cases where the deceased was not a resident of Luxembourg for inheritance tax purposes.

No Luxembourg gift tax will be levied on the transfer of Holdco shares by way of a gift, unless the gift is recorded in a Luxembourg notarized deed or otherwise registered in Luxembourg.

Indirect Taxes (VAT, Stamp Duties)

No Luxembourg value added tax will be payable with respect to payments made in consideration for the issuance of Holdco shares or with respect to the payment of dividends or other proceeds with respect to Holdco shares or the transfer of Holdco shares.

Table of Contents

No Luxembourg registration tax, stamp duty or any other similar tax or duty will be due by the shareholders as a consequence of the issuance of Holdco shares, nor will any of these taxes become payable as a consequence of a subsequent transfer, exchange or redemption of Holdco shares.

United Kingdom Tax Considerations

The following paragraphs, which are intended as a general guide only, are based on current UK tax legislation and the published practice of HM Revenue & Customs (HMRC) as at the date of the publication of this document, both of which are subject to change, possibly with retrospective effect. They summarize certain limited aspects of the UK tax treatment of acceptance of the exchange offer and they relate only to the position of Deutsche Börse shareholders who are beneficial owners of their Deutsche Börse shares, who hold their Deutsche Börse shares as an investment (other than under a personal equity plan or an individual savings account) and who are resident in the UK for taxation purposes, and if an individual, domiciled and ordinarily resident, in the UK. Certain categories of shareholders, such as traders, brokers, dealers, banks, financial institutions, insurance companies, investment companies, collective investment schemes, tax-exempt organizations, persons connected with NYSE Euronext, Deutsche Börse or the group and persons holding the shares as part of hedging or conversion transactions, may be subject to special rules and this summary does not apply to such shareholders. They do not apply to Deutsche Börse shareholders who have (or are deemed to have) acquired their shares by virtue of an office or employment, or Deutsche Börse shareholders who are or will be officers or employees of NYSE Euronext, Deutsche Börse or Holdco or a company forming part of the Group. Shareholders who are in any doubt as to their taxation position should consult an appropriate professional advisor immediately.

Taxation of Exchange of Deutsche Börse Shares for Holdco Shares

To the extent that a Deutsche Börse shareholder receives Holdco shares in exchange for his Deutsche Börse shares and does not hold (either alone or together with persons connected with him) more than 5% of, or of any class of, shares in or debentures of Deutsche Börse, he will not be treated as having made a disposal of his Deutsche Börse shares. Instead, the Holdco shares will be treated as the same asset as those Deutsche Börse shares acquired at the same time and for the same consideration as those shares.

Taxation of Ownership and Transfer of Holdco Shares***Dividends on Holdco Shares***

A UK resident individual Deutsche Börse shareholder who is issued Holdco shares and who receives a dividend of an income nature from the Holdco shares will be entitled to a tax credit which may be set off against the shareholder's total income tax liability. The tax credit will be equal to 10% of the aggregate of the dividend (before deduction of any Dutch or other foreign withholding tax) and the tax credit (the Gross Dividend). Such an individual shareholder who is liable to income tax at the basic rate will be subject to tax on the dividend at the rate of 10% of the Gross Dividend, so that the tax credit will satisfy in full such shareholder's liability to income tax on the dividend. In the case of such an individual shareholder who is liable to income tax at the higher rate, the tax credit will be set against but not fully match the shareholder's tax liability on the Gross Dividend and such shareholder will have to account for additional income tax equal to 22.5% of the Gross Dividend (which is also equal to 25% of the cash dividend (before deduction of any Dutch or other foreign withholding tax)) to the extent that the Gross Dividend when treated as the top slice of the shareholder's income falls above the threshold for higher rate income tax. In the case of such an individual shareholder who is subject to income tax at the additional rate, the tax credit will also be set against but not fully match the shareholder's liability on the Gross Dividend and such shareholder will have to account for additional income tax equal to 32.5% of the Gross Dividend (which is also equal to approximately 36% of the cash dividend received (before deduction of any Dutch or other foreign withholding tax)) to the extent that the Gross Dividend when treated as the top slice of the shareholder's income falls above the threshold for additional rate income tax.

Dutch or other foreign withholding tax withheld from the payment of a dividend will generally be available as a credit against the income tax payable by an individual shareholder in respect of the dividend.

Table of Contents

A UK resident individual shareholder who is not liable to income tax in respect of the Gross Dividend and other UK resident taxpayers who are not liable to UK tax on dividends, including pension funds and charities, will not be entitled to claim repayment of the tax credit attaching to dividends paid by Holdco.

Deutsche Börse shareholders who are issued Holdco shares and who will be within the charge to corporation tax in respect of such Holdco shares will be subject to corporation tax on the gross amount of any dividends paid by Holdco, subject to any applicable credit for Dutch or other foreign withholding tax, unless (subject to special rules for such shareholders that are small companies) the dividends fall within an exempt class and certain other conditions are met.

Capital Gains Taxation

A subsequent disposal of Holdco shares may, depending on individual circumstances (including the availability of exemptions, reliefs and allowable losses), give rise to a liability to UK tax on capital gains.

Any chargeable gain or allowable loss on a disposal of the Holdco shares should be calculated taking into account the allowable cost to the holder of acquiring his Deutsche Börse shares.

UK Stamp Duty and Stamp Duty Reserve Tax (SDRT)

No UK stamp duty will be payable on the exchange of Deutsche Börse shares for Holdco shares and no UK stamp duty should be payable on the future transfer of Holdco shares provided that any instrument of transfer is not executed in the UK, and does not relate to any property situated or to any matter or thing done or to be done, in the UK. No UK SDRT will be payable on the exchange of Deutsche Börse shares for Holdco shares or any future transfer of Holdco shares provided that the shares are not registered in any register kept in the UK.

Table of Contents

LIMITATIONS ON ENFORCEMENT

Because Holdco is a Dutch company with dual headquarters to be in Frankfurt and New York, many of their respective directors and executive officers, and certain experts named in this document, reside outside Germany and the United States. As a result, it may be difficult to serve legal process on Holdco or their respective directors and executive officers or have any of them appear in a court in Germany or the United States. In addition, U.S. investors may find it difficult in a lawsuit based on the civil liability provisions of the U.S. federal securities laws to enforce in U.S. courts or outside the U.S. judgments obtained against those persons in U.S. courts, to enforce in U.S. courts judgments obtained against those persons in courts in jurisdictions outside the United States, or to enforce against those persons in Germany or the Netherlands, as applicable, whether in original actions or in actions for the enforcement of judgments of U.S. courts, civil liabilities based solely upon the U.S. federal securities laws.

LEGAL MATTERS

Each of Linklaters LLP and Stibbe N.V., counsel to Holdco, has provided a legal opinion for Holdco regarding the validity of the Holdco shares offered by this document. Linklaters LLP, counsel to Holdco, has provided an opinion to Holdco regarding the certain tax matters set forth in the exchange offer prospectus which forms a part of this document.

EXPERTS

The balance sheet of Holdco as of February 10, 2011, has been included herein in reliance upon the report of KPMG Accountants N.V., Laan van Langerhuize 1, 1186 DS, Amstelveen, Netherlands, independent registered public accountants, appearing elsewhere herein, and upon the authority of said firm as auditor. KPMG Accountants N.V. is a member firm of KPMG International, is a member of the *Koninklijk Nederlands Instituut van Registeraccountants* (NIVRA) and is registered with the Public Company Accounting Oversight Board.

The audited consolidated financial statements of Deutsche Börse as at December 31, 2010, 2009 and 2008, and for each of the three years in the period ended December 31, 2010, have been included herein in reliance upon the report of KPMG AG Wirtschaftsprüfungsgesellschaft, Klingelhofstraße 18, 10785 Berlin, Germany, independent registered public accountants, appearing elsewhere herein, and upon the authority of said firm as auditor. KPMG AG Wirtschaftsprüfungsgesellschaft is a member firm of KPMG International, is member of the German Chamber of Public Accountants (*Wirtschaftsprüferkammer*), Berlin and is registered with the Public Company Accounting Oversight Board.

The consolidated financial statements of NYSE Euronext as of December 31, 2010, 2009 and 2008, and for each of the three years in the period ended December 31, 2010, and management's assessment of the effectiveness of internal control over financial reporting (which is included in Management's Report on Internal Control over Financial Reporting) as of December 31, 2010 included in this document have been so included in reliance on the report of PricewaterhouseCoopers LLP, 300 Madison Avenue, New York, New York 10017, United States of America, an independent registered public accounting firm, given on the authority of said firm as experts in auditing and accounting. PricewaterhouseCoopers LLP is a member firm of the worldwide PricewaterhouseCoopers global organization and is a member of the American Institute of Certified Public Accountants and is registered with the Public Company Accounting Oversight Board.

WHERE YOU CAN FIND MORE INFORMATION

Deutsche Börse makes its annual and interim reports and other information on its website *www.deutsche-boerse.com*. Information contained in or otherwise accessible through this websites is not a part of this document.

NYSE Euronext files annual, quarterly and current reports, proxy statements and other information with the SEC. You may read and copy any document that it files at the SEC's public reference room at 100 F Street, N.E., Room 1580, Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for further information about its public reference room. SEC filings are also available to the public at the SEC's website at *www.sec.gov*. Copies of documents filed by NYSE Euronext with the SEC are also available at the offices of NYSE Euronext at 11 Wall Street, New York, New York 10005, United States.

Holdco has filed a Registration Statement on Form F-4 under the Securities Act with the SEC with respect to the Holdco shares to be issued in the merger and exchange offer. This document constitutes the prospectus that is both filed on behalf of Holdco as part of their Registration Statement and attached as an annex to the exchange offer document. The document also constitutes the NYSE Euronext proxy statement. This document does not contain all of the information set forth in the Registration Statement because certain parts of the Registration Statement are omitted in accordance with the rules and regulations of the SEC. The Registration Statement and its exhibits are available for inspection and copying as set forth above.

A-481

Table of Contents**RECENT DEVELOPMENTS AND OUTLOOK****Recent Developments**

Holdco was formed on February 10, 2011, and on February 14, 2011, Holdco formed Pomme Merger Corporation, a Delaware corporation, as a wholly owned U.S. subsidiary of Holdco. If the merger is completed, Pomme Merger Corporation will merge with and into NYSE Euronext. No material activities have been carried out by Holdco or Pomme Merger Corporation since their formation on February 10, 2011 and on February 14, 2011, respectively, other than in connection with the transactions contemplated by the combination. Therefore there have been no significant changes in the financial or business position (i.e., the financial condition, results of operations or general course of business) of Holdco and its subsidiaries since February 10, 2011, the date of Holdco's incorporation.

On May 2, 2011, Holdco's general meeting of shareholders resolved to amend Holdco's articles of association and to increase its authorized share capital from 225,000 to 1,000,000,000 consisting of 500,000,000 ordinary shares with a nominal value of 1.00 per share (referred to as Holdco shares in this document) and 500,000,000 preference shares with a nominal value of 1.00 per share.

Business Combination Agreement

On February 15, 2011, Holdco, Deutsche Börse, NYSE Euronext and Pomme Merger Corporation entered into a business combination agreement pursuant to which Deutsche Börse will become a subsidiary of Holdco through the exchange offer and NYSE Euronext will become a subsidiary of Holdco through the merger. In connection therewith, on February 15, 2011, Holdco announced its intention to launch a voluntary takeover bid in the form of an exchange offer for the Deutsche Börse shares. On May 2, 2011, Holdco, Deutsche Börse, NYSE Euronext and Pomme Merger Corporation entered into an amendment to the business combination agreement to amend the conditions to the completion of the exchange offer and make other modifications to the business combination agreement. Each reference to "business combination agreement" in this document refers to the business combination agreement executed as of February 15, 2011, as amended by the amendment executed as of May 2, 2011. See "The Business Combination Agreement" for more information regarding the business combination agreement.

Litigation Concerning the Combination

Following the announcement of the combination on February 15, 2011, several complaints were filed in the Delaware Court of Chancery (which is referred to in this document as the "Delaware Court"); the Supreme Court of the State of New York, County of New York (which is referred to in this document as the "New York Court"); and the U.S. District Court for the Southern District of New York (which is referred to in this document as the "SDNY"), challenging the proposed combination. Four of the actions were filed in the Delaware Court and have been consolidated as *In re NYSE Euronext Shareholders Litigation*, Consol. C.A. No. 6220-VCS. Five actions were filed in the New York Court and are being coordinated under a single master file, NYSE Euronext Shareholder Litigation Master File, Index No. 773,000/11. One action, *Jones v. Niederauer, et al.*, C.N. 11-CV-01502, is pending in the SDNY. Following the filing of the registration statement on April 7, 2011, a consolidated amended complaint was filed in the Delaware Court and an amended master complaint was filed in the New York Court.

All of the complaints raise substantially the same claims. All are purported class actions filed on behalf of all NYSE Euronext public shareholders and variously name as defendants NYSE Euronext, its directors, Deutsche Börse, Pomme Merger Corporation and Holdco (certain defendants are not named in all of the actions). The complaints generally allege that the individual defendants breached their fiduciary duties in connection with their consideration and approval of the proposed combination and that the entity defendants aided and abetted those breaches. The amended complaints filed in the New York Court and the Delaware Court also allege that the individual defendants have not fully informed themselves about whether greater value can be achieved through

Table of Contents

the sale of NYSE Euronext to a third party, including pursuant to the proposal by NASDAQ OMX Group, Inc. and IntercontinentalExchange, Inc. The amended complaints further allege that the registration statement filed on April 7, 2011 contains material misstatements and omissions. The complaints seek, among other relief, injunctive relief against the consummation of the combination, an order that the individual defendants fully inform themselves with respect to the proposal by NASDAQ OMX Group, Inc. and IntercontinentalExchange, Inc. and alternatives to maximize shareholder value, an order enjoining material transactions or changes to NYSE Euronext's business and assets pending additional review of NYSE Euronext's strategic alternatives, unspecified monetary damages and plaintiffs' costs and attorney's fees.

Predicting the outcome of these lawsuits is difficult. An adverse judgment for monetary damages could have a material adverse effect on the operations of the Holdco group following completion of the combination. A preliminary injunction could delay or jeopardize the completion of the combination, and an adverse judgment granting permanent injunctive relief could indefinitely enjoin completion of the combination. The defendants believe that the claims asserted against them in these lawsuits are without merit, and intend to defend themselves vigorously against the claims.

Deutsche Börse Group

On March 31, 2011 Eurex Zürich AG announced that its shareholding in EEX will increase from 35.23% to 56.14%. Now that the transaction has been approved by the relevant supervisory bodies, including the EEX supervisory board, all of the conditions for the immediate execution of the transaction have been fulfilled. The transaction was closed on April 12, 2011. Since the end of the last financial year on December 31, 2010, there were no significant changes in the financial or trading position (i.e., the financial condition, results of operations or general course of business) of Deutsche Börse Group.

In principle, the drivers of Deutsche Börse's business activities developed positively in the first quarter of 2011. In addition, the natural disaster in Japan and political unrest in Northern Africa and the Middle East led to a higher volatility of the markets and caused market participants to hedge against risks by restructuring their portfolios on short notice. As a result, sales revenue grew in the Xetra and Eurex trading segments in the first quarter of 2011. Business development in the other segments was also positive. The steady growth of post-trade services in the Clearstream segment continued the trend of the previous year, and the Market Data & Analytics segment further increased its sales of data products in the market data and information business. Overall, Deutsche Börse Group's sales revenue rose by 8 percent year-on-year to 558.6 million (Q1/2010: 519.2 million). Net interest income from banking business generated in the Clearstream segment recovered significantly, growing by 46 percent to 16.1 million (Q1/2010: 11.0 million).

Net income for the first quarter of 2011 rose by 36 percent to 212.8 million (Q1/2010: 156.9 million). Basic earnings per share, based on a weighted average of 186.0 million shares outstanding, rose to 1.14 in the first quarter of 2011 (Q1/2010: 0.84 for 185.9 million shares outstanding).

NYSE Euronext

In 2010, NYSE Euronext announced the sale of a significant equity interest in NYSE Amex Options, one of its two U.S. options exchanges, to seven external investors, BofA Merrill Lynch, Barclays Capital, Citadel Securities, Citi, Goldman Sachs, TD AMERITRADE and UBS. Under the framework, NYSE Euronext will remain the largest shareholder in NYSE Amex Options and manage its day-to-day operations. NYSE Amex options will operate under the supervision of a separate board of directors, of which NYSE Euronext has a majority of the seats, and a dedicated chief executive officer. NYSE Euronext consolidates NYSE Amex Options for financial reporting purposes. NYSE Euronext expects to complete the sale in 2011 following receipt of regulatory approvals.

On February 18, 2011, the formation of the NYSE Blue joint venture was consummated. NYSE Blue is a new global company that is majority owned by NYSE Euronext. NYSE Blue consists of the businesses of APX (headquartered in the New York City region) and Bluenext (headquartered in Paris). In its environmental unit,

Table of Contents

NYSE Blue provides infrastructure and services to environmental sponsors and market participants, through its environmental management account for asset and risk management as well as its registry services for renewable energy in the United States and voluntary carbon worldwide. Additionally, NYSE Blue operates, through Bluenext, a leading spot exchange for the European Emissions Trading System, a multi-country, multi-sector Greenhouse Gas emission trading scheme. In its power unit, NYSE Blue is a leading provider of hosted power scheduling and settlement services for wholesale power market participants.

On April 1, 2011, NYSE Euronext received a letter from NASDAQ OMX Group, Inc. and IntercontinentalExchange, Inc. setting forth a non-binding proposal to acquire all of the outstanding shares of NYSE Euronext common stock, where NYSE Euronext stockholders would receive \$14.24 in cash, 0.4069 of a share of NASDAQ OMX common stock and 0.1436 of a share of IntercontinentalExchange common stock, for each share of NYSE Euronext common stock. The letter indicated that NASDAQ OMX Group and IntercontinentalExchange agreed between themselves that, in connection with the closing of such transaction, IntercontinentalExchange would acquire NYSE Euronext's European derivatives businesses, including Liffe, as well as Liffe US and NYPC, and NASDAQ OMX would retain NYSE Euronext's other businesses, including the NYSE Euronext stock exchanges in New York, London, Paris, Amsterdam, Brussels and Lisbon, the U.S. equity options business and the information services and technology solutions businesses. The letter further indicated that the proposal was based on publicly available information and was not an offer capable of acceptance, but rather a non-binding indication of interest to serve as a basis for moving toward a mutually agreed transaction. On April 1, 2011, NYSE Euronext issued a press release requesting its shareholders not to take any action with respect to the proposal and indicating that the NYSE Euronext board of directors would carefully review the proposal in consultation with its independent financial and legal advisors. The NYSE Euronext board of directors held a meeting by telephone call that same day to receive an initial briefing on receipt of the proposal, but no determination was made with respect to the proposal.

On April 8, 2011, Deutsche Börse sent a letter to Duncan Niederauer and Jan-Michiel Hessels, the chief executive officer and chairman of NYSE Euronext, respectively, stating that Deutsche Börse remains fully committed to the agreed business combination with NYSE Euronext and describing certain aspects of the proposal by NASDAQ OMX and IntercontinentalExchange that Deutsche Börse viewed as being less favorable to NYSE Euronext than the proposed combination with the Deutsche Börse.

On April 11, 2011, the NYSE Euronext board of directors met to review the unsolicited proposal with NYSE Euronext's outside legal and financial advisors. At the meeting, the board of directors unanimously rejected the proposal by NASDAQ OMX and InternationalExchange and reaffirmed the business combination agreement with Deutsche Börse. NYSE Euronext issued a press release that same day announcing the board's decision. The board's decision was based on its analysis of various aspects of the proposal, including the transaction structure, consideration to be paid, the anticipated value of such consideration following the transaction, the financing required for the transaction, the required financial and legal due diligence that would need to be performed, and the competition approval process and the exchange regulatory approval process. The board also discussed the proposal in light of the company's corporate strategy. After discussing the proposal, the NYSE Euronext board of directors unanimously concluded that the proposal did not align with NYSE Euronext's strategic vision, involved unacceptable execution risk and was not in the best interests of NYSE Euronext and its shareholders.

On April 19, 2011, NYSE Euronext received a letter from NASDAQ OMX and IntercontinentalExchange that provided additional details of their proposal, including a draft merger agreement. That same day, NYSE Euronext issued a press release acknowledging its receipt of the proposed merger agreement and indicating that the NYSE Euronext board of directors would review it in due course, consistent with its fiduciary duties and its obligations under the business combination agreement.

On April 21, 2011, the NYSE Euronext board of directors met to review the additional information with NYSE Euronext's outside legal and financial advisors. At the meeting, NYSE Euronext board of directors unanimously rejected the proposal and reaffirmed the business combination agreement with Deutsche Börse. NYSE Euronext issued a press release that same day announcing the board's decision.

Table of Contents

Since the end of the financial year ended December 31, 2010, there have been no significant changes in the financial or business position (i.e., the financial condition, results of operations or general course of business) of NYSE Euronext and its subsidiaries.

On April 28, 2011, NYSE Euronext reported the results for its first quarter of fiscal 2011. Set forth below are NYSE Euronext's preliminary unaudited consolidated statements of income for the three months ended March 31, 2011 and 2010, and consolidated balance sheets as of March 31, 2011 and December 31, 2010. This financial information is preliminary and has been prepared by, and is the responsibility of, NYSE Euronext's management. PricewaterhouseCoopers LLP has not audited, reviewed, compiled or performed any procedures with respect to the accompanying preliminary financial data. Accordingly, PricewaterhouseCoopers LLP does not express an opinion or any other form of assurance with respect thereto. The unaudited financial information reflects all adjustments (consisting of normal recurring adjustments) that are, in the opinion of management, necessary for a fair presentation of such information. The results of operations for the three-month period ended March 31, 2011 are not necessarily indicative of the results to be expected for the entire fiscal year.

Equity	7,277	6,844
Total liabilities and equity	\$ 13,793	\$ 13,378

For the three months ended March 31, 2011, NYSE Euronext reported total revenues, less transaction-based expenses and operating income of \$679 million and \$243 million. This compares to revenues, less transaction-based expenses and operating income of \$645 million and \$205, respectively, for the three months ended March 31, 2010.

The \$34 million increase in total revenues, less transaction-based expenses and \$38 million increase in operating income for the period reflect the following principal factors:

Increased total revenues, less transaction-based expenses – Total revenues, less transaction-based expenses increased primarily due to increased volumes in NYSE Euronext's U.S. derivatives business, European cash markets and growth in information services and technology solutions, partially offset by decreased volumes in certain of its U.S. cash trading venues.

Edgar Filing: NYSE Euronext - Form 425

Increased operating income The period-over-period increase in operating income was primarily due to increased total revenues, less transaction-based expenses and lower operating expenses as a result of cost containment initiatives.

Report of Independent Registered Public Accounting Firm

The Management Board

Alpha Beta Netherlands Holding N.V.:

We have audited the accompanying balance sheet of Alpha Beta Netherlands Holding N.V. as of February 10, 2011. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the balance sheet is free of material misstatement. An audit of a balance sheet also includes examining, on a test basis, evidence supporting the amounts and disclosures in that balance sheet, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall balance sheet presentation. We believe that our audit of the balance sheet provides a reasonable basis for our opinion.

In our opinion, the balance sheet referred to above presents fairly, in all material respects, the financial position of Alpha Beta Netherlands Holding N.V. as of February 10, 2011, in conformity with both International Financial Reporting Standards as issued by the International Accounting Standards Board and International Financial Reporting Standards as adopted by the European Union.

Independent Auditors Report

The Management Board

Alpha Beta Netherlands Holding N.V.

Report on the balance sheet

We have audited the accompanying balance sheet of Alpha Beta Netherlands Holding N.V. (the Company) as of February 10, 2011, and notes, comprising a summary of significant accounting policies and other explanatory information.

Management s Responsibility for the balance sheet

The Company s management is responsible for the preparation and fair presentation of these balance sheet and notes in accordance with both International Financial Reporting Standards as issued by the International Accounting Standards Board and International Financial Reporting Standards as adopted by the European Union, and for such internal control as management determines is necessary to enable the preparation of the balance sheet and notes that are free from material misstatement, whether due to fraud or error.

Auditors Responsibility

Our responsibility is to express an opinion on the balance sheet and notes based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the balance sheet and notes are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts in the balance sheet and notes. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the balance sheet and notes, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the Company s preparation and fair presentation of the balance sheet and notes in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company s internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the balance sheet and notes.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the balance sheet and notes give a true and fair view of the financial position of the Company as at February 10, 2011 in accordance with both International Financial Reporting Standards as issued by the International Accounting Standards Board and International Financial Reporting Standards as adopted by the European Union.

NOTES TO THE BALANCE SHEET

1. Organization, basis of presentation and general principles

Alpha Beta Netherlands Holding N.V. (the Company) is domiciled in the Netherlands with its registered office in Amsterdam. The Company was formed on February 10, 2011; accordingly, the financial statements as of that date only comprise the balance sheet. The Company has omitted the statement of comprehensive income, statement of cash flows and statement of changes in equity and the notes thereto as required under both International Financial Reporting Standards (IFRSs) as issued by the International Accounting Standards Board (IASB) and IFRS as adopted by the European Union, as the Company had no operations as of February 10, 2011.

The Company was formed in connection with the pursued business combination agreement, dated as of February 15, 2011, by and among NYSE Euronext, Deutsche Börse AG, the Company and Pomme Merger Corporation (see Note 4 Events after the balance sheet date). Upon the completion of the transactions contemplated by the business combination agreement, the Company will become the parent company of NYSE Euronext and Deutsche Börse AG.

To date, the Company has not conducted any material activities other than those incident to its formation and the matters contemplated by the business combination agreement.

The Company's objects are mainly to incorporate, to participate in any way whatsoever in, to manage, to supervise businesses and companies, to finance those and to borrow, to lend and to raise funds, including as the issuer of bonds, debt instruments or other securities as well as to enter into agreements in connection with the aforementioned activities.

The opening balance sheet as of February 10, 2011 has been prepared in compliance with both IFRSs and the related interpretations as issued by the IASB and IFRSs as adopted by the European Union. As of February 10, 2011, there were no new IFRS accounting standards and interpretations not yet adopted by the European Union that would have had an impact on the opening balance sheet. Accordingly, the opening balance sheet also complies with IFRS as endorsed by the European Union.

Effects of new accounting standards implemented in the opening balance sheet

The following standards and interpretations issued by the IASB became effective as at January 1, 2011 and were applied for the opening balance sheet of the Company as far as applicable and adopted by the European Union before that date.

Changes resulting from the Annual Improvements Project (May 2010)

The amendments relate to six standards and one interpretation. Most of the amendments are effective for financial years beginning on or after January 1, 2011.

Revised IAS 24 Related Party Disclosures (November 2009)

The revised version of the standard partially exempts state-controlled entities from disclosure requirements and defines related parties more precisely. The standard must be applied for periods beginning on or after January 1, 2011.

Amendments to IAS 32 Classification of Rights Issues (October 2009)

The changes relate to the accounting treatment of rights issues (rights, options or warrants), denominated in a currency other than the functional currency of the issuer. In future, these rights must be classified as equity provided that certain criteria are met. The amendments are effective for periods beginning on or after February 1, 2010.

Table of Contents

New accounting standards not yet implemented

The following standards and interpretations, which the Company did not adopt in 2011 prior to the effective date, have been published by the IASB prior to the publication of this Opening balance sheet. The disclosures in parentheses relate to the date of issue by the IASB.

IFRS 9 Financial Instruments (November 2009)

IFRS 9 introduces new requirements for the classification and measurement of financial assets. These stipulate that all financial assets that have to date fallen within the scope of IAS 39 are recognised either at amortised cost or at fair value. The standard is effective for financial years beginning on or after January 1, 2013; earlier application is permitted.

Amendments to IFRS 7 Financial Instruments: Disclosures Transfers of Financial Assets (October 2010)

The amendments require enhanced disclosures on transactions that lead to the transfer of financial assets. They aim to create greater transparency with regard to risks that are retained by the transferor. The amendments are effective for financial years beginning on or after July 1, 2011; earlier application is permitted.

Amendments to IFRS 9 Financial Instruments (October 2010)

The amendments extend IFRS 9 Financial Instruments to include rules on accounting for financial liabilities. If the fair value option is applied to financial liabilities, revisions to the recognition of changes in an entity's own credit risk must be taken into account: a change in credit risk must now be recognised in other comprehensive income rather than in profit or loss. The amendments are effective for financial years beginning on or after January 1, 2013. Earlier application is permitted if the rules on accounting for financial assets are also applied.

Amendments to IAS 12 Deferred Tax: Recovery of Underlying Assets (December 2010)

The general principle for assets measured using the fair value model of IAS 40 is that the measurement of deferred taxes should reflect the tax consequences that would follow from the manner in which the entity expects to recover the carrying amount of an asset. These amendments provide an exception to this general principle and are applicable for financial years beginning on or after January 1, 2012.

IFRIC 19 Extinguishing Financial Liabilities with Equity Instruments (November 2009)

IFRIC 19 provides guidelines on accounting for equity instruments issued by a debtor to fully or partially extinguish a financial liability after renegotiating the terms of the financial liability. The interpretation is effective at the latest for financial years beginning after June 30, 2010.

Amendments to IFRIC 14 Prepayments of a Minimum Funding Requirement (November 2009)

The amendments are designed to remove unintended consequences of IFRIC 14. If there is a minimum funding requirement for a defined benefit plan, this prepayment must be recognised as an asset in accordance with the amendments. The interpretation is effective at the latest for financial years beginning after December 31, 2010.

The Company does not expect the application of the new IFRSs, the revised IASs/IFRSs and the new interpretations (with the exception of IFRS 9) to have any material impact on its opening balance sheet.

2. Accounting policies

Currency

The functional and reporting currency of the Company is the euro. The amounts presented in the opening balance sheet are in euro.

Table of Contents

Cash

Cash comprises bank balances on demand and is recognised at amortised cost. There are no restrictions regarding this item.

Other provisions

Provisions are recognised if the Company has a present obligation from a past event, an outflow of resources with economic benefit to settle the obligation is probable and it is possible to reliably estimate the amount of this obligation. The amount of the obligation corresponds to the best possible estimate of the expense which is necessary to settle the obligation at the balance sheet date. Contingent liabilities are not recognised, but disclosed unless the possibility of an outflow of resources embodying economic benefits is remote.

Share capital

According to article 4 of the articles of association, the Company has an authorised share capital of EUR 225,000 divided into 225,000 shares of EUR 1 each, and consisting of 180,000 ordinary shares and 45,000 D-shares. As of the opening balance sheet date, 45,000 D-shares had been issued and fully paid up in cash and all shares were held by Stichting Alpha Beta Netherlands, the Company's single shareholder.

As at February 10, 2011, the Company was not subject to any capital requirements.

In accordance with clause 20.1 of the articles of association, EUR 0.01 out of the profits earned in a financial year is paid primarily and insofar possible on the D-shares. The allocation of profits remaining after application of clause 20.1 shall be determined by the General Meeting of shareholders, provided that no further distributions shall be made on D-shares.

3. Related parties

Related parties as defined by IAS 24 are the members of the executive bodies of Alpha Beta Netherlands Holdings N.V. and those companies classified as its other investors.

As the financial statements only comprise the balance sheet as of February 10, 2011, there were no transactions with related parties as of this date.

4. Events after the balance sheet date

On February 14, 2011, the Company formed Pomme Merger Corporation, a Delaware corporation and wholly-owned U.S. subsidiary, which, upon completion of the transaction described below, will merge with and into NYSE Euronext.

On February 15, 2011, NYSE Euronext, Deutsche Börse AG, the Company and Pomme Merger Corporation signed a business combination agreement which provides for a combination of the businesses of Deutsche Börse Group and NYSE Euronext under the Company. Deutsche Börse's business will be brought under the Company through an exchange offer, and NYSE Euronext's business will be brought under the Company through a merger.

The Company's shares are expected to be listed in Frankfurt, New York and Paris.

The transaction is subject to approval by holders of a majority of the outstanding NYSE Euronext shares and to a 75 percent acceptance level of the exchange offer to Deutsche Börse AG shareholders as well as approval by the relevant competition and financial, securities and other regulatory authorities in the US and Europe, and other customary closing conditions. The transaction is expected to close at the end of 2011.

Table of Contents

Following the announcement of the combination on February 15, 2011, several complaints were filed in the Delaware Court of Chancery (the Delaware Court); the Supreme Court of the State of New York, County of New York (the New York Court); and the U.S. District Court for the Southern District of New York (the SDNY), challenging the combination. All of the complaints raise substantially the same claims. All are purported class actions filed on behalf of all NYSE Euronext public shareholders and variously name as defendants NYSE Euronext and its directors and certain officers, Deutsche Börse, Pomme Merger Corporation and the Company (certain defendants are not named in all of the actions). The complaints generally allege that the individual defendants breached their fiduciary duties in connection with their consideration and approval of the proposed transaction and that the entity defendants aided and abetted those breaches. The complaints seek, among other relief, injunctive relief against the consummation of the combination, rescission of any portion of the combination already consummated, unspecified monetary damages and/or plaintiffs' costs and attorney's fees. The defendants (including the Company) believe that the claims asserted against them in these lawsuits are without merit, and intend to defend themselves vigorously against the claims.

MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Management of NYSE Euronext is responsible for establishing and maintaining adequate internal control over financial reporting. NYSE Euronext's internal control over financial reporting is a process designed under the supervision of its Chief Executive Officer and Chief Financial Officer to provide reasonable assurance regarding the reliability of financial reporting and the preparation of its financial statements for external purposes in accordance with U.S. generally accepted accounting principles.

As of December 31, 2010, management conducted an assessment of the effectiveness of NYSE Euronext's internal control over financial reporting based on the framework established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on this assessment, management has concluded that NYSE Euronext's internal control over financial reporting as of December 31, 2010 was effective.

The effectiveness of NYSE Euronext's internal control over financial reporting as of December 31, 2010 has been audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm, as stated in their report which is included herein.

Table of Contents

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of NYSE Euronext:

In our opinion, the consolidated financial statements listed in the accompanying index present fairly, in all material respects, the financial position of NYSE Euronext and its subsidiaries at December 31, 2010, 2009 and 2008, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2010 in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2010, based on criteria established in *Internal Control-Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for these financial statements, for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express opinions on these financial statements and on the Company's internal control over financial reporting based on our integrated audits. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Table of Contents**NYSE EURONEXT****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****Note 1 Description of Business**

NYSE Euronext is a holding company that, through its subsidiaries, operates the following securities exchanges: the New York Stock Exchange (NYSE), NYSE Arca, Inc. (NYSE Arca) and NYSE Amex LLC (NYSE Amex) in the United States and the five European-based exchanges that comprise Euronext N.V. (Euronext) the Paris, Amsterdam, Brussels and Lisbon stock exchanges, as well as the NYSE Liffe derivatives markets in London, Paris, Amsterdam, Brussels and Lisbon. NYSE Euronext is a global provider of securities listing, trading, market data products, and software and technology solutions. NYSE Euronext was formed in connection with the April 4, 2007 combination of NYSE Group (which was formed in connection with the March 7, 2006 merger of the NYSE and Archipelago) and Euronext. NYSE Euronext common stock is dually listed on the NYSE and Euronext Paris under the symbol NYX.

Note 2 Significant Accounting Policies***Basis of Presentation***

The accompanying consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States of America and include the accounts of NYSE Euronext and all other entities in which NYSE Euronext has a controlling financial interest. When NYSE Euronext does not have a controlling financial interest in an entity but exercises significant influence over the entity's operating and financial policies, such investment is accounted for using the equity method.

Intercompany transactions and balances have been eliminated. NYSE Euronext made certain reclassifications to its prior year consolidated financial statements to conform to its 2010 presentation. The operations of GL Trade are reflected as discontinued operations. See Note 5 Discontinued Operations.

Use of Estimates

The preparation of the consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of these consolidated financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could be materially different from these estimates.

Cash and Cash Equivalents

Cash and cash equivalents are composed of cash and highly liquid investments with an original maturity of three months or less.

Revenue Recognition

Cash trading fees are paid by organizations based on their trading activity. Fees are assessed on a per share basis for trading in equity securities. The fees are applicable to all transactions that take place on any of the NYSE Euronext trading venues, and the fees vary, based on the size, type of trade that is consummated and trading venue. NYSE Euronext's U.S. securities exchanges earn transaction fees for customer orders of equity securities matched internally, as well as for customer orders routed to other exchanges. Euronext earns transaction fees for customer orders of equity, debt securities and other cash instruments on Euronext's cash markets. Cash trading fees are recognized as earned.

Derivative trading and clearing fees are paid by organizations based on their trading activity. Fees are assessed on a fixed per-contract basis for the (1) execution of trades of derivative contracts on Euronext's

Table of Contents

derivatives markets in London, Paris, Amsterdam, Brussels and Lisbon, and (2) execution of options contracts traded on NYSE Arca and LIFFE Administration and Management. In some cases, these fees are subjected to caps. Derivative trading and clearing fees are recognized as earned.

Listing fees consist of original listing fees paid by issuers to list securities on the various cash markets, annual fees paid by companies whose financial instruments are listed on the cash markets, and fees related to other corporate actions (including stock splits, sales of additional securities and merger and acquisitions). Original listing fees are assessed primarily based on the number of shares that the issuer initially lists. Original listing fees are recognized on a straight-line basis over estimated service periods ranging from 5 to 10 years. Annual listing fees are recognized on a pro rata basis over the calendar year. Unamortized balances are recorded as deferred revenue on the consolidated statements of financial condition.

In the U.S., NYSE Euronext collects market data revenues principally for consortium-based data products and, to a lesser extent, for NYSE proprietary data products. Consortium-based data fees are determined by securities industry plans. Consortium-based data revenues that coordinated market data distribution generates (net of administration costs) are distributed to participating markets on the basis of the Regulation NMS formula. In Europe, Euronext charges a variety of users, primarily end-users, for the use of Euronext's real-time and proprietary market services. Euronext also collects annual license fees from vendors for the right to distribute Euronext data to third parties and a service fee from vendors for direct connection to market data. These fees are recognized as services are rendered.

Software and technology services revenues are generated primarily from connectivity services related to the SFTI network, software licenses and maintenance fees, and strategic consulting services. Colocation revenue is recognized monthly over the life of the contract. Software license revenue other than customer-specific is recorded at the time of sale, and maintenance contracts are recognized monthly over the life of the maintenance term. Expert consulting services are offered for customization or installation of the software and for general advisory services. Consulting revenue is generally billed in arrears on a time and materials basis, although customers sometimes prepay for blocks of consulting services in bulk. Customer specific software license revenue is recognized at the time of client acceptance. NYSE Euronext records revenues from subscription agreements on a pro rata basis over the life of the subscription agreements. The unrealized portions of invoiced subscription fees, maintenance fees and prepaid consulting fees are recorded as deferred revenue on the consolidated statements of financial condition.

Other revenues consist of regulatory fees charged to member organizations of NYSE Euronext's U.S. markets, trading license fees, facility and other fees provided to specialists, brokers and clerks physically located on the U.S. markets that enable them to engage in the purchase and sale of securities on the trading floor, and clearance and settlement activities derived from certain European venues. License fees are recognized on a pro-rata basis over the calendar year. All other fees are recognized when services are rendered.

Currency Translation

NYSE Euronext's functional currency is the U.S. dollar. Assets and liabilities denominated in non-U.S. currencies are translated at rates of exchange prevailing on the date of the consolidated statement of financial condition, and revenues and expenses are translated at average rates of exchange throughout the year. NYSE Euronext seeks to reduce its net investment exposure to fluctuations in foreign exchange rates through the use of foreign currency-denominated debt.

Hedging Activity

NYSE Euronext uses derivative instruments to limit exposure to changes in foreign currency exchange rates and interest rates. NYSE Euronext accounts for derivatives pursuant to the Derivatives and Hedging Topic of the FASB Accounting Standards Codifications. The Derivatives and Hedging Topic establishes accounting and

Table of Contents

reporting standards for derivative instruments and requires that all derivatives be recorded at fair value on the consolidated statement of financial condition. Changes in the fair value of derivative financial instruments are either recognized in other comprehensive income or net income depending on whether the derivative is being used to hedge changes in cash flows or changes in fair value. Cash flows from hedging activities are included in the same category as the items being hedged. Cash flows from instruments designated as net investment hedges are classified as financing activities.

Financial Investments

NYSE Euronext's financial investments generally are classified as available-for-sale securities and are carried at fair value as of trade date with the unrealized gains and losses, net of tax, reported as a component of other comprehensive income. Interest income on debt securities, bank deposits and other interest rate investments, including amortization of premiums and accretion of discounts, is accrued and recognized over the life of the investment. The specific identification method is used to determine realized gains and losses on sales of investments, which are reported in interest and investment income in the consolidated statements of operations.

NYSE Euronext regularly reviews its investments to determine whether a decline in fair value below the cost basis is other-than-temporary. If events and circumstances indicate that a decline in the value of the assets has occurred and is deemed to be other-than-temporary, the carrying value of the security is reduced to its fair value and a corresponding impairment is charged to earnings.

Fair Value Measurements

NYSE Euronext accounts for certain financial instruments at fair value, including available-for-sale instruments, derivative instruments and certain debt instruments pursuant to the Fair Value Measurements and Disclosures Topic in the Codification. The Fair Value Measurements and Disclosures Topic defines fair value, establishes a fair value hierarchy on the quality of inputs used to measure fair value, and enhances disclosure requirements for fair value measurements. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial instruments is determined using various techniques that involve some level of estimation and judgment, the degree of which is dependent on the price transparency and the complexity of the instruments.

Allowance for Doubtful Accounts

The allowance for doubtful accounts is maintained at a level that management believes to be sufficient to absorb probable losses in NYSE Euronext's accounts receivable portfolio. The allowance is based on several factors, including a continuous assessment of the collectability of each account. In circumstances where a specific customer's inability to meet its financial obligations is known, NYSE Euronext records a specific provision for bad debts against amounts due to reduce the receivable to the amount it reasonably believes will be collected.

Table of Contents

The concentration of risk on accounts receivable is mitigated by the large number of entities comprising NYSE Euronext's customer base. The following is a summary of the allowance for doubtful accounts, utilization and additional provisions (in millions):

	Year Ended December 31,		
	2010	2009	2008
Beginning balance	\$ 25	\$ 26	\$ 15
Additions			
Charges to income	6	11	8
Business combinations		1	12
Write-offs	(7)	(14)	(7)
Currency translation and other		1	(2)
Ending balance	\$ 24	\$ 25	\$ 26

Property and Equipment

Property and equipment is stated at cost less accumulated depreciation and amortization. Depreciation of assets is provided using the straight-line method of depreciation over the estimated useful lives of the assets, which generally range from 3 to 20 years. Interest associated with long-term construction projects is capitalized and amortized over the same method and useful life as the underlying asset. Leasehold improvements are amortized using the straight-line method over the term of the lease or the estimated useful lives of the assets, whichever is shorter.

NYSE Euronext accounts for software development costs pursuant to Subtopic 10 of the Intangibles-Goodwill and Other in the Codification. NYSE Euronext expenses software development costs incurred during the preliminary project stage, while it capitalizes costs incurred during the application development stage, which includes design, coding, installation and testing activities. Costs that are related to the development of licenses marketed to external customers are capitalized after technological feasibility has been established. Amortization of capitalized software development costs is computed on a straight-line basis over the software's estimated useful life, which is applied over periods ranging from 3 to 5 years.

Expenditures for repairs and maintenance are charged to operations in the period incurred.

Goodwill and Other Intangible Assets

Goodwill represents the excess of purchase price and related costs over the value assigned to the net tangible and identifiable intangible assets of a business acquired. NYSE Euronext reviews the carrying value of goodwill for impairment at least annually based upon the estimated fair value of NYSE Euronext's reporting units. An impairment loss is triggered if the estimated fair value of a reporting unit, which is a component one level below NYSE Euronext's three reportable segments, is less than its estimated net book value. Such loss is calculated as the difference between the estimated fair value of goodwill and its carrying value. Should the review indicate that goodwill is impaired, NYSE Euronext's goodwill would be reduced by the impairment loss.

Intangible assets are amortized on a straight-line basis over their estimated useful lives. When certain events or changes in operating conditions occur, an impairment assessment would be performed and lives of intangible assets with determinable lives would be adjusted. Intangible assets deemed to have indefinite lives are not amortized but are subject to annual impairment tests. An impairment loss, calculated as the difference between the estimated fair value and the carrying value of an asset or asset group, is recognized if the sum of the estimated discounted cash flows relating to the asset or asset group is less than the corresponding carrying value.

For purposes of performing the impairment test, fair values are determined using discounted cash flow methodology. This requires significant judgment including estimation of future cash flows, which, among other

Table of Contents

factors, is dependent on internal forecasts, estimation of the long-term rate of growth for businesses, and determination of weighted average cost of capital. Changes in these estimates and assumptions could materially affect the determination of fair value and/or goodwill and other intangible impairment for each reporting unit.

Activity Assessment Fees and Section 31 Fees

NYSE Euronext pays the Securities Exchange Commission (the SEC) fees pursuant to Section 31 of the Exchange Act for transactions executed on the U.S. exchanges. These Section 31 fees are designed to recover the costs to the government of supervision and regulation of securities markets and securities professionals. NYSE Euronext, in turn, collects activity assessment fees, which are included in transaction and clearing fees in its consolidated statements of operations, from member organizations clearing or settling trades on the NYSE, NYSE Amex and NYSE Arca and recognizes these amounts when invoiced. Fees received are included in cash at the time of receipt and, as required by law, the amount due to the SEC is remitted semiannually and recorded as an accrued liability until paid. The activity assessment fees are designed so that they are equal to the Section 31 fees. As a result, neither the size of Section 31 fees nor the size of activity assessment fees has an impact on NYSE Euronext's net income.

Accrued Employee Benefits

NYSE Euronext accounts for defined benefit pension and other postretirement benefit plans (collectively benefit plans) in accordance with the Compensation-Retirement Benefits Topic of the Codification. The Compensation-Retirement Benefits Topic requires plan sponsors of benefit plans to recognize the funded status of their benefit plans in the consolidated statement of financial condition, measure the fair value of plan assets and benefit obligations as of the date of the fiscal year-end consolidated statement of financial position, and provide additional disclosures.

Benefit plan costs and liabilities are dependent on assumptions used in calculating such amounts. These assumptions include discount rates, health care cost trend rates, benefits earned, interest cost, expected return on assets, mortality rates and other factors. Actual results that differ from the assumptions are accumulated and amortized over the future periods and, therefore, generally affect recognized expense and the recorded obligation in future periods. While management believes that the assumptions used are appropriate, differences in actual experience or changes in assumptions may affect NYSE Euronext's pension and other postretirement obligations and future expense.

Stock-Based Compensation

NYSE Euronext accounts for stock-based compensation in accordance with the Compensation-Stock Compensation Topic of the Codification, which requires that the cost of employee services received in exchange for a share-based award be generally measured based on the grant-date fair value of the award. NYSE Euronext estimates an expected forfeiture rate while recognizing the expense associated with these awards and amortizes such expense on a graded basis.

Comprehensive Income

Other comprehensive income includes changes in unrealized gains and losses on financial instruments classified as available-for-sale, foreign currency translation adjustments and amortization of the difference in the projected benefit obligation and the accumulated benefit obligation associated with benefit plan liabilities, net of tax.

Income Taxes

NYSE Euronext records income taxes using the asset and liability method, under which current and deferred tax liabilities and assets are recorded in accordance with enacted tax laws and rates. Under this method, the

Table of Contents

amounts of deferred tax liabilities and assets at the end of each period are determined using the tax rate expected to be in effect when the taxes are actually paid or recovered. Future tax benefits are recognized to the extent that realization of such benefits is more likely than not.

Deferred income taxes are provided for the estimated income tax effect of temporary differences between financial and tax bases in assets and liabilities. Deferred tax assets are also provided for certain tax carryforwards. A valuation allowance to reduce deferred tax assets is established when it is more likely than not that some portion or all of the deferred tax assets will not be realized.

NYSE Euronext is subject to numerous domestic and foreign jurisdictions primarily based on its operations in these jurisdictions. Significant judgment is required in assessing the future tax consequences of events that have been recognized in NYSE Euronext's financial statements or tax returns. Fluctuations in the actual outcome of these future tax consequences could have material impact on NYSE Euronext's financial position or results of operations.

NYSE Euronext determines whether a tax position is more likely than not to be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the position. Once it is determined that a position meets this recognition criteria, the position is measured to determine the amount of benefit to be recognized in the financial statements.

Recently Issued Accounting Guidance

The FASB issued Accounting Standards Update (ASU) 2009-13, *Multiple-Deliverable Revenue Arrangements*, which supersedes certain provisions in Subtopic 25 in the Revenue Recognition Topic of the Codification. ASU 2009-13 requires an entity to allocate arrangement consideration at the inception of an arrangement to all of its deliverables based on their relative selling prices. It also eliminates the use of the residual method of allocation which was allowed under previous guidance and requires the use of the relative-selling-price method in all circumstances in which an entity recognizes revenue for an arrangement with multiple deliverable subject to the Subtopic 25 in the Revenue Recognition Topic. ASU 2009-13 also requires both ongoing disclosures regarding an entity's multiple-element revenue arrangements as well as certain transitional disclosures during periods after adoption. This new guidance is effective for fiscal years beginning on or after June 15, 2010. NYSE Euronext does not believe that this will have a significant impact on its financial statements.

The FASB issued ASU 2009-14, *Certain Revenue Arrangements That Include Software Elements*, which amends certain provisions in Subtopic 605 in the Software Topic of the Codification. The amendments in ASU 2009-14 change revenue recognition for tangible products containing software elements and non-software elements as follows: (1) the tangible element of the product is always outside the scope of Subtopic 605 in the Software Topic; (2) the software elements of tangible products are outside of the scope of Subtopic 605 in the Software Topic when the software elements and non-software elements function together to deliver the product's essential functionality and (3) undelivered elements in the arrangement related to the non-software components also are excluded from the software revenue recognition guidance. ASU 2009-14 applies to transactions which contain both software and non-software elements. For these transactions, companies will have to go through a two-step process for the software elements. First, a company has to allocate the total consideration to separate units of account for the non-software elements and software elements as a group, using relative selling-price method. Second, the amount allocated to the software elements as a group will then be accounted for in accordance with the requirements in Subtopic 605 in the Software Topic of the Codification. This may require the use of Residual Method of allocation if VSOE (vendor specific objective evidence) or TPE (third party evidence) does not exist for the undelivered elements. This new guidance is effective for fiscal years beginning on or after June 15, 2010, and it is also applicable to existing arrangements that are materially modified after the effective date. NYSE Euronext does not believe that this will have a significant impact on its financial statements.

Table of Contents**Note 3 Acquisitions and Divestitures*****NYFIX, Inc.***

On November 30, 2009, NYSE Euronext acquired NYFIX, Inc. (NYFIX) which is a leading provider of innovative solutions that optimize trading efficiency. The total value of this acquisition was approximately \$144 million. NYFIX's FIX business and FIX Software business were added to the Information Services and Technology Solutions segment. The NYFIX Transaction Services U.S. electronic agency execution business, comprised of its direct market access and algorithmic products, and the Millennium Alternative Trading System was sold to BNY ConvergeX subsequent to the NYFIX acquisition.

NYSE Liffe US

During the fourth quarter of 2009, NYSE Euronext sold a significant equity interest in NYSE Liffe US to Citadel Securities, Getco, Goldman Sachs, Morgan Stanley and UBS. NYSE Euronext consolidates the results of NYSE Liffe US and manages the day-to-day operations of the entity, which operates under the supervision of a separate board of directors. On March 9, 2010, NYSE Euronext sold an additional 6% of NYSE Liffe US equity interest to DRW Ventures LLC.

NYSE Amex

On October 1, 2008, NYSE Euronext completed its acquisition of The Amex Membership Corporation (including its subsidiary the American Stock Exchange now known as NYSE Amex). A total of approximately 6.8 million shares of NYSE Euronext common stock were issued in the merger for \$260 million. In addition, each former holder of a regular or options principal membership of the Amex Membership Corporation is entitled to receive additional consideration calculated by reference to the net proceeds, if any, from the sale of the Amex headquarters in lower Manhattan, if such sale occurs within a specified period of time and certain conditions are satisfied. The results of operation and financial condition of NYSE Amex have been included in our consolidated financial statements since October 1, 2008.

AEMS

On August 5, 2008, NYSE Euronext completed the acquisition of the 50% stake in Atos Euronext Market Solutions (AEMS) previously owned by Atos Origin. The purchase price in the transaction was approximately 162 million (\$255 million), net of approximately 120 million (\$189 million) of cash acquired. The results of operations and financial condition of AEMS have been consolidated within our consolidated financial statements since August 5, 2008.

Wombat

On March 7, 2008, NYSE Euronext completed the acquisition of Wombat Financial Software, Inc. (Wombat). NYSE Euronext acquired Wombat for \$200 million in cash consideration, and created a retention pool for Wombat employees consisting of restricted stock unit grants in an amount equal to \$25 million. The results of operations and financial condition of Wombat have been included in our consolidated financial statements since March 7, 2008.

Other transactions***NYSE Blue™***

On September 7, 2010, NYSE Euronext announced plans to create NYSE Blue™ (NYSE Blue), a joint venture that will focus exclusively on environmental and sustainable energy markets. NYSE Blue will include NYSE Euronext's existing investment in BlueNext, the spot market in carbon credits, and APX, Inc. (APX), a

Table of Contents

provider of regulatory infrastructure and services for the environmental and sustainable energy markets. NYSE Euronext will be a majority owner of NYSE Blue. Shareholders of APX, which include Goldman Sachs, MissionPoint Capital Partners, and ONSET Ventures, will take a minority equity interest in NYSE Blue in return for their shares in APX. The NYSE Blue joint venture formation closed on February 18, 2011.

National Stock Exchange of India

On May 3, 2010, NYSE Euronext completed the sale of its 5% equity interest in the National Stock Exchange of India for gross proceeds of \$175 million. A \$56 million gain was included in Other income in NYSE Euronext's consolidated statement of operations as a result of this transaction.

Qatar

On June 19, 2009, NYSE Euronext entered into a strategic partnership with the State of Qatar to establish the Qatar Exchange, the successor to the Doha Securities Market. Under the terms of the partnership, the Qatar Exchange will adopt the latest NYSE Euronext trading and network technologies for both the existing cash equities market and the new derivatives market. NYSE Euronext will provide certain management services to the Qatar Exchange at negotiated rates.

NYSE Euronext agreed to contribute \$200 million in cash to acquire a 20% ownership interest in the Qatar Exchange, \$40 million of which was paid upon closing on June 19, 2009 and generally, the remaining \$160 million is to be paid annually in four equal installments. NYSE Euronext's investment in the Qatar Exchange is treated as an equity method investment. The \$115 million present value of this liability is included in Related party payable in the consolidated statements of financial condition as of December 31, 2010.

New York Portfolio Clearing (NYPC)

On June 18, 2009, NYSE Euronext and The Depository Trust and Clearing Corporation (DTCC) entered into an arrangement to pursue a joint venture, an innovative derivatives clearinghouse that will deliver single-pot margin efficiency between fixed income securities and interest rate futures. NYPC was granted registration as a U.S. Derivatives Clearing Organization pursuant to the Commodity Exchange Act by the Commodity Futures Trading Commission on January 31, 2011. Pending regulatory approvals, NYPC is expected to be operational in the first half of 2011. NYSE Euronext initially plans to contribute \$15 million in working capital and commit a \$50 million financial guarantee as an additional contribution to the NYPC default fund. NYPC initially will clear interest rate products traded on NYSE Liffe US, with the ability to add other exchanges and Derivatives Clearing Organizations in the future. NYPC uses NYSE Euronext's clearing technology. DTCC's Fixed Income Clearing Corporation provides capabilities in risk management, settlement, banking and reference data systems. NYSE Euronext's investment in NYPC is treated as an equity method investment.

Table of Contents**Note 4 Restructuring****Severance Costs**

As a result of streamlining certain of its business processes, NYSE Euronext has launched various voluntary and involuntary staff reduction initiatives in the U.S. and Europe.

The following is a summary of the severance charges recognized in connection with these initiatives and utilization of the accruals (in millions):

	Derivatives	Cash Trading and Listings	Information Services and Technology Solutions	Corporate/ Eliminations	Total
Balance as of January 1, 2008	\$ 1	\$ 12	\$ 1	\$	\$ 14
Employee severance charges and related benefits	9	154	16	5	184
Severance and benefit payments	(3)	(46)	(5)	(1)	(55)
Currency translation and other		(2)			(2)
Balance as of December 31, 2008	\$ 7	\$ 118	\$ 12	\$ 4	\$ 141
Employee severance charges and related benefits	5	90	10	3	108
Severance and benefit payments	(4)	(69)	(7)	(2)	(82)
Currency translation and other	(1)	(17)	(2)	(1)	(21)
Balance as of December 31, 2009	\$ 7	\$ 122	\$ 13	\$ 4	\$ 146
Employee severance charges and related benefits	3	19	7	2	31
Severance and benefit payments	(8)	(105)	(15)	(4)	(132)
Currency translation and other	(1)	(6)			(7)
Balance as of December 31, 2010	\$ 1	\$ 30	\$ 5	\$ 2	\$ 38

The severance charges are included in merger expenses and exit costs in the consolidated statements of operations. Based on current severance dates and the accrued severance at December 31, 2010, NYSE Euronext expects to pay these amounts throughout 2011.

Contract Termination**LCH.Clearnet Contract Termination/NYSE Liffe Clearing**

Through July 30, 2009, NYSE Euronext used the services of LCH.Clearnet Group Limited for clearing transactions executed on its European cash and derivatives markets.

On October 31, 2008, NYSE Euronext announced that NYSE Liffe's London Market (for the purposes of this section, NYSE Liffe) entered into binding agreements with LCH.Clearnet Ltd. (LCH.Clearnet) to terminate its clearing arrangements and to establish new arrangements known as NYSE Liffe Clearing, whereby NYSE Liffe assumed full responsibility for clearing activities for the U.K. derivatives market. To achieve this, NYSE Liffe became a self-clearing Recognised Investment Exchange and outsourced the existing clearing guarantee arrangements and related risk functions to LCH.Clearnet.

In connection with this arrangement, NYSE Euronext agreed to make a one-time 260 million (\$355 million) payment to compensate LCH.Clearnet for economic losses arising as a result of the early termination of its current clearing arrangements with LCH.Clearnet (the NYSE Liffe Clearing Payment). This payment was tax deductible.

Edgar Filing: NYSE Euronext - Form 425

On May 27, 2009, NYSE Liffe received regulatory approval from the Financial Services Authority (FSA) to launch NYSE Liffe Clearing. Following such approval, NYSE Euronext recorded a \$355 million expense which is included in merger expenses and exit costs in NYSE Euronext 's consolidated statement of operations for the year ended December 31, 2009.

F-26

Table of Contents

On July 30, 2009, NYSE Liffe Clearing launched operations and NYSE Euronext made the \$355 million payment to LCH.Clearnet.

On May 12, 2010, NYSE Euronext announced that, subject to regulatory approval, it will commence clearing its European securities and derivatives business through two new, purpose-built, clearing houses based in London and Paris in late 2012. LCH.Clearnet Ltd in London and LCH.Clearnet SA in Paris have been informed that NYSE Euronext's current contractual arrangements for clearing with them will terminate accordingly at that time. However, NYSE Liffe's London Market has only indicated its intention to serve a termination notice on its contract with LCH.Clearnet Ltd and has not served a formal termination notice. No termination fees or penalties will be payable.

As of December 31, 2010, NYSE Euronext retained a 9.1% stake in LCH.Clearnet Group Limited's outstanding share capital and the right to appoint one director to its board of directors.

Note 5 Discontinued Operations

On August 1, 2008, SunGard and GL Trade announced SunGard's intention to acquire a majority stake in GL Trade. Under the terms of the offer, SunGard acquired approximately 64.5% of GL Trade from Euronext Paris S.A., a wholly owned subsidiary of NYSE Euronext, and other significant shareholders at a price of \$41.70 per share. As a result, the operations of GL Trade are reflected as discontinued.

In October 2008, NYSE Euronext received \$161.6 million (\$227.5 million) from the sale of its 40% ownership stake in GL Trade to SunGard.

GL Trade earned revenue mainly from annual subscriptions to its software and technology offerings. Operating results of GL Trade are summarized as follows (in millions):

	Year Ended December 31, 2008
Revenues	\$ 248
Income before income tax provision and noncontrolling interest	31
Income tax provision	(10)
Noncontrolling interest	(16)
Income from discontinued operations	5
Gain on sale of discontinued operations, net of tax	2
Discontinued operations, net of tax	\$ 7

Note 6 Segment Reporting

NYSE Euronext revised its reportable business segments effective in the first quarter of 2010. The new segments are Derivatives, Cash Trading and Listings, and Information Services and Technology Solutions. Historical financial results have been revised to reflect this change. NYSE Euronext revised its segments to reflect changes in management's resource allocation and performance assessment in making decisions regarding NYSE Euronext. These changes reflect NYSE Euronext's current operating focus. NYSE Euronext evaluates the performance of its operating segments based on revenue and operating income. NYSE Euronext has aggregated all of its corporate costs, including costs to operate as a public company, within Corporate/Eliminations.

The following is a description of NYSE Euronext's reportable segments:

Derivatives consist of the following in NYSE Euronext's global businesses:

providing access to trade execution in derivatives products, options and futures;

providing certain clearing services for derivative products; and

F-27

Table of Contents

selling and distributing market data and related information.

Cash Trading and Listings consist of the following in NYSE Euronext's global businesses:

providing access to trade execution in cash trading and settlement of transactions in certain European markets;

obtaining new listings and servicing existing listings;

selling and distributing market data and related information; and

providing regulatory services.

Information Services and Technology Solutions consist of the following in NYSE Euronext's global businesses:

operating sellside and buy-side connectivity networks for its markets and for other major market centers and market participants in the United States, Europe and Asia;

providing trading and information technology software and solutions;

selling and distributing market data and related information to data subscribers for proprietary data products; and

providing multi-asset managed services and expert consultancy to exchanges and liquidity centers.

Summarized financial data of NYSE Euronext's reportable segments was as follows (in millions):

	Derivatives	Cash Trading and Listings	Information Services and Technology Solutions	Corporate/ Eliminations	Total
2010					
Revenues	\$ 1,088	\$ 2,893	\$ 444	\$	\$ 4,425
Operating income (loss) from continuing operations	439	376	72	(142)	745
Total assets	5,831	5,273	1,214	1,060	13,378
Purchases of property and equipment	67	191	47		305
2009					
Revenues	\$ 918	\$ 3,397	\$ 363	\$ 6	\$ 4,684
Operating income (loss) from continuing operations	(40)	415	27	(116)	286
Total assets	6,066	5,603	1,476	1,237	14,382
Purchases of property and equipment	102	369	26		497
2008					
Revenues	\$ 1,002	\$ 3,427	\$ 266	\$ 7	\$ 4,702
Operating income (loss) from continuing operations	338	(780)	(22)	(124)	(588)

Edgar Filing: NYSE Euronext - Form 425

Total assets	5,565	5,605	1,140	1,638	13,948
Purchases of property and equipment	98	249	29		376

For the year ended December 31, 2009, the operating income (loss) of the Derivatives segment included a \$355 million charge recorded in connection with the LCH.Clearnet contract termination/NYSE Liffe Clearing payment (see Note 4). For the year ended December 31, 2008, the operating income (loss) of Cash Trading and Listings included a \$1,585 million impairment charge.

Revenues are generated primarily in the Derivatives, Cash Trading and Listings, and Information Services and Technology Solutions segments. Corporate and eliminations include unallocated costs primarily related to corporate governance, public company expenses, duplicate costs associated with migrating NYSE Euronext s

Table of Contents

data centers and costs associated with NYSE Euronext's pension, SERP and postretirement benefit plans as well as intercompany eliminations of revenues and expenses. For the years ended December 31 2010, 2009 and 2008, no individual customer accounted for 10% or more of NYSE Euronext's revenues.

Summarized financial data of NYSE Euronext's geographic information was as follows:

	Year Ended December 31,		
	2010	2009	2008
	(in millions)

F-29

Table of Contents

As of December 31, 2010, 2009 and 2008, 3.3 million, 2.6 million and 3.3 million restricted stock units, respectively, and stock options to purchase 0.4 million, 0.6 million and 0.7 million shares of common stock, respectively, were outstanding. For the years ended December 31, 2010 and 2009, 0.2 million and 0.7 million awards, respectively, were excluded from the diluted earnings per share computation because their effect would have been anti-dilutive. For the year ended December 31, 2008, diluted net loss per common share is the same as basic net loss per common share since the assumed conversion of stock options and restricted stock units would have been anti-dilutive due to the loss position.

Note 8 Pension and Other Benefit Programs**Defined Benefit Pension Plans**

NYSE Euronext maintains pension plans covering its U.S. and European operations. Effective December 31, 2008, the NYSE Amex benefit plans were merged with benefit plans in the U.S. The benefit accrual for all U.S. operations pension plans are frozen.

Retirement benefits are derived from a formula, which is based on length of service and compensation. Based on the calculation, NYSE Euronext may contribute to its pension plans to the extent such contributions may be deducted for income tax purposes. In 2010, 2009 and 2008, NYSE Euronext contributed \$5 million, \$9 million and \$5 million to its European operations, respectively. NYSE Euronext anticipates contributing approximately \$5 million in 2011 to its European operations and \$37 million to its U.S. operations. There were no contributions to the U.S. pension plans in 2010, 2009 and 2008.

NYSE Euronext bases its investment policy and objectives on a review of the actuarial and funding characteristics of the retirement plan, the demographic profile of plan participants, and the business and financial characteristics of NYSE Euronext. Capital market risk/return opportunities and tradeoffs also are considered as part of the determination. The primary investment objective of the NYSE Euronext plan is to achieve a long-term rate of return that meets the actuarial funding requirements of the plan and maintains an asset level sufficient to meet all benefit obligations of the plan. The target allocations for its U.S. plan assets are 65 percent equity securities and 35 percent U.S. fixed income securities. Equity securities primarily include investments in large-cap and small-cap companies primarily located in the United States. U.S. Fixed income securities include corporate bonds of companies from diversified industries and U.S. treasuries. The target allocations for NYSE Euronext's European plan assets vary across plans, with a primary focus on fixed income securities.

The fair values of NYSE Euronext's pension plan assets at December 31, 2010, by asset category are as follows (in millions):

Asset Category	Fair Value Measurements			Total
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Cash	\$ 4	\$	\$	\$ 4
Equity securities:

Next 5 years	234	39	273

Supplemental Executive Retirement Plan

The U.S. operations also maintain a nonqualified supplemental executive retirement plan, which provides supplemental retirement benefits for certain employees. The future benefit accrual of all SERP plans is frozen. To provide for the future payments of these benefits, the U.S. operations has purchased insurance on the lives of the participants through company-owned policies. At December 31, 2010, 2009 and 2008, the cash surrender value of such policies was \$40 million, \$38 million and \$36 million, respectively, and is included in other non-current assets in the consolidated statements of financial condition. Additionally certain subsidiaries of the U.S. operations maintain equity and fixed income mutual funds for the purpose of providing for future payments of SERP. At December 31, 2010, 2009 and 2008, the fair value of these assets was \$42 million, \$46 million and \$36 million, respectively. Such balance is included in financial investments in the consolidated statements of financial condition.

The following table provides a summary of the changes in the U.S. operations SERP benefit obligations for December 31, 2010, 2009 and 2008 (in millions):

	2010	2009	2008
Change in benefit obligations:			
Benefit obligation at beginning of year	\$ 89	\$ 83	\$ 79
Service cost		1	1
Interest cost	4	5	4
Business combination			10
Actuarial loss (gain)	3	10	
Curtailements			1

Edgar Filing: NYSE Euronext - Form 425

Accumulated benefit obligation	\$ 87	\$ 89	\$ 83
Funded status	\$ (87)	\$ (89)	\$ (83)
Amounts recognized in the balance sheet			
Current liabilities	\$ (9)	\$ (10)	\$ (8)
Non-current liabilities	(78)	(79)	(75)

F-32

Table of Contents

The components of U.S. operations SERP expense/(benefit) are set forth below (in millions):

	2010	2009	2008
Service cost	\$	\$ 1	\$ 1
Interest cost	4	5	4
Recognized actuarial (gain) loss	2		1
Aggregate SERP expense	\$ 6	\$ 6	\$ 6

The following table shows the projected payments for the U.S. operations based on the actuarial assumptions (in millions):

SERP Plan Payment Projections	
2011	\$ 9
2012	10
2013	10
2014	10
2015	10
Next 5 years	37

Pension and SERP Plan Assumptions

The weighted average assumptions used to develop the actuarial present value of the projected benefit obligation and net periodic pension/SERP cost are set forth below:

	2010		2009		2008	
	U.S.	Europe	U.S.	Europe	U.S.	Europe
Discount rate (pension/SERP)	5.3%/4.6%	4.8%/N/A	5.8%/5.2%	4.9%/N/A	6.1%/6.3%	6.2%/N/A
Expected long-term rate of return on plan assets (pension/SERP)	8.0%/N/A	5.1%/N/A	8.0%/N/A	5.5%/N/A	8.0%/N/A	5.2%/N/A
Rate of compensation increase	N/A	3.5%	N/A	3.8%	N/A	3.7%

To develop the expected long-term rate of return on assets assumption, both the U.S. and European operations considered the historical returns and the future expectations for returns for each asset class as well as the target asset allocation of the pension portfolio. The assumed discount rate reflects the market rates for high-quality corporate bonds currently available. The discount rate was determined by considering the average of pension yield curves constructed on a large population of high quality corporate bonds. The resulting discount rates reflect the matching of plan liability cash flows to yield curves.

Postretirement Benefit Plans

In addition, the U.S. operations maintain defined benefit plans to provide certain health care and life insurance benefits (the Plans) for eligible retired employees. These Plans, which may be modified in accordance with their terms, cover substantially all employees. These Plans are measured on December 31 annually. These Plans were fully frozen in 2009.

The net periodic postretirement benefit cost for the U.S. operations was \$10 million, \$4 million and \$19 million for the years ended December 31, 2010, 2009 and 2008, respectively. The defined benefit plans are unfunded. Currently, management does not expect to fund the Plans.

Table of Contents

The following table shows actuarial determined benefit obligation, benefits paid during the year and the accrued benefit cost for the year (in millions):

	2010	2009	2008
Benefit obligation at the end of year ⁽¹⁾	\$ 208	\$ 220	\$ 218
Benefits paid	13	13	14
Accrued benefit cost	208	220	218
Additional (gain) or loss recognized due to:			
Curtailement	\$	\$ (9)	7
Discount rate as of December 31	5.2%	5.6%	6.1%

(1) Benefit obligation at the end of 2008 included a \$13 million related to the NYSE Amex merger on October 1, 2008.

The following table shows the payments projected (net of expected Medicare subsidy receipts of \$13 million over the next ten fiscal years) based on actuarial assumptions (in millions):

Payment Projections	U.S.
2011	\$ 13
2012	14
2013	14
2014	14
2015	14
Next 5 years	67

For measurement purposes, the U.S. operations assumed a 9.3% annual rate of increase in the per capita cost of covered health care benefits in 2010 which will decrease on a graduated basis to 4.5% in the year 2029 and thereafter.

The following table shows the effect of a one-percentage-point increase and decrease in assumed health care cost trend rates (in millions):

Assumed Health Care Cost Trend Rate	1% Increase	1% Decrease
Effect of postretirement benefit obligation	\$ 1	\$ (1)
Effect on total of service and interest cost components	23	(19)

Curtailements to the Plans

In 2010, NYSE Euronext recorded a \$4 million curtailement gain as a result of employee actions in Europe. In 2009, NYSE Euronext recorded a \$9 million curtailement gain associated with changes to its U.S. retiree medical plan and \$3 million curtailement gain in Europe. In 2008, NYSE Euronext recorded a \$7 million curtailement loss as a result of various employee actions, including the voluntary staff reduction initiatives, on its U.S. benefit plans.

Accumulated Other Comprehensive Income

Accumulated other comprehensive income, before tax, as of December 31, 2010 consisted of the following amounts that have not yet been recognized in net periodic benefit cost (in millions):

	Pension Plans	SERP Plans	Postretirement Benefit Plans	Total
Unrecognized net actuarial loss	\$ (261)	\$ (24)	\$ (58)	\$ (343)

Edgar Filing: NYSE Euronext - Form 425

Unrecognized prior service credit			19	19
Total amounts included in accumulated other comprehensive loss	\$ (261)	\$ (24)	\$ (39)	\$ (324)

F-34

Table of Contents

The amount of prior service credit and actuarial loss included in accumulated other comprehensive income related to the pension, SERP and postretirement plans, which are expected to be recognized in net periodic benefit cost in the coming year is estimated to be (in millions):

	Pension Plans	SERP Plans	Postretirement Benefit Plans	Total
Loss recognition	\$ 14	\$ 2	\$ 2	\$ 18
Prior service cost recognition			(1)	(1)
Amount to be recognized in net periodic benefit cost	\$ 14	\$ 2	\$ 1	\$ 17

Defined Contribution Plans

The U.S. operations maintain savings plans for which most employees are eligible to contribute a part of their salary within legal limits. The U.S. operations matches an amount equal to 100% of the first 6% of eligible contributions. The U.S. operations also provides benefits under a Supplemental Executive Savings Plan to which eligible employees may contribute. Savings plans expense was \$11 million, \$12 million and \$12 million for the years ended December 31, 2010, 2009 and 2008, respectively. Included in accrued employee benefits payable was \$24 million at both December 31, 2010 and 2009 and \$29 million at December 31, 2008 related to these plans.

Note 9 Goodwill and Other Intangible Assets

The change in the carrying amount of goodwill by reportable segments was as follows (in millions):

	Derivatives	Cash Trading and Listings	Information Services and Technology Solutions	Total
Balance as of January 1, 2008	\$ 2,308	\$ 2,189	\$ 190	\$ 4,687
Acquisitions	485	369	201	1,055
Impairment charge		(1,003)		(1,003)
Currency translation and other	(624)	(99)	(31)	(754)
Balance as of December 31, 2008	\$ 2,169	\$ 1,456	\$ 360	\$ 3,985
Acquisitions			39	39
Divestitures		(96)		(96)
Currency translation and other	163	111	8	282
Balance as of December 31, 2009	\$ 2,332	\$ 1,471	\$ 407	\$ 4,210
Purchase accounting adjustments		5	(5)	
Currency translation and other	(80)	(37)	(43)	(160)
Balance as of December 31, 2010	\$ 2,252	\$ 1,439	\$ 359	\$ 4,050

The following table presents the details of the intangible assets by reportable segments as of December 31, 2010, 2009 and 2008 (in millions):

Carrying Value	Accumulated Amortization	Useful Life (in years)
-------------------	-----------------------------	---------------------------

Edgar Filing: NYSE Euronext - Form 425

Balance as of December 31, 2010			
National securities exchange registrations	\$ 5,003	\$	Indefinite
Customer relationships	852	166	7 to 20
Trade names and other	187	39	2 to 20
Other intangible assets	\$ 6,042	\$ 205	

F-35

Table of Contents

	Carrying Value	Accumulated Amortization	Useful Life (in years)
Balance as of December 31, 2009			
National securities exchange registrations	\$ 5,255	\$	Indefinite
Customer relationships	886	122	7 to 20
Trade names and other	195	30	2 to 20
Other intangible assets	\$ 6,336	\$ 152	

	Carrying Value	Accumulated Amortization	Useful Life (in years)
Balance as of December 31, 2008			
National securities exchange registrations	\$ 4,962	\$	Indefinite
Customer relationships	806	71	7 to 20
Trade names and other	223	54	2 to 20
Other intangible assets	\$ 5,991	\$ 125	

In the U.S., the national securities exchange registrations allow NYSE Arca and NYSE Amex to (i) generate revenues from market data fees (both from equity and option trading activities) and listing fees, and (ii) reduce its costs because clearing charges are not incurred for trades matched internally on its trading systems. As an operator of five European-based registered national securities exchanges, Euronext is eligible to earn market data fees (both from equity and option trading activities), listing fees and certain trading fees. The national securities exchange registrations were valued using the excess earnings income approach.

For the years ended December 31, 2010, 2009 and 2008, amortization expense for the intangible assets was approximately \$58 million, \$58 million and \$57 million, respectively.

The estimated future amortization expense of acquired purchased intangible assets is as follows (in millions):

Year Ending December 31,	
2011	\$ 58
2012	58
2013	58
2014	58
2015	58
Thereafter	544
Total	\$ 834

Note 10 Stock-Based Compensation

Under the Stock Incentive Plan, NYSE Euronext may grant stock options and other equity awards to employees. NYSE Euronext's approach to the incentive compensation awards contemplates awards of stock options and restricted stock units (RSUs).

Stock options are granted at an exercise price equal to the market price at the date of grant. Stock options granted generally vest and become exercisable over a period of three to four years, and generally expire after ten years. NYSE Euronext has not granted stock options in 2010, 2009 or 2008. As of December 31, 2010, 2009 and 2008, the total aggregate intrinsic value of stock options outstanding was \$5 million, \$5 million and \$12 million, respectively. As of December 31, 2010, 2009 and 2008, the total aggregate intrinsic value of stock options exercisable was \$5 million, \$4 million and \$10 million, respectively.

Edgar Filing: NYSE Euronext - Form 425

For the year ended December 31, 2010, 2009 and 2008, NYSE Euronext recorded \$38 million, \$43 million and \$48 million, respectively, of stock-based compensation. As of December 31, 2010, there was approximately

F-36

Table of Contents

\$31 million of total unrecognized compensation cost related to restricted stock units. This cost is expected to be recognized over approximately three years. Cash received from employee stock option exercises for the years ended December 31, 2010, 2009 and 2008 was \$1 million, \$1 million and \$10 million, respectively. NYSE Euronext satisfies stock option exercises with newly issued shares.

The following table summarizes information about the stock option activity (number of stock options in thousands):

	2010		2009		2008	
	Shares	Weighted Average Exercise Price	Shares	Weighted Average Exercise Price	Shares	Weighted Average Exercise Price
Outstanding at beginning of year	563	\$ 17.57	737	\$ 20.62	871	\$ 21.36

BlueNext

BlueNext is the European carbon exchange business launched by NYSE Euronext in 2008. BlueNext is established in France and is 60% owned by NYSE Euronext and 40% owned by Caisse des Dépôts et Consignation (CDC). NYSE Euronext consolidates the results of operations and the financial condition of BlueNext. In the regular course of business, through June 2009, BlueNext paid recoverable Value Added Tax (VAT) to certain customers on a daily basis and recovered such VAT from the French Tax Authorities on a one-month lag. CDC provided BlueNext with an overdraft to fund the VAT receivable. Under this arrangement, BlueNext had \$249 million overdraft balances outstanding with CDC as of December 31, 2008, reflected as Related party payable on our consolidated statement of financial condition. Effective in July 2009, the carbon traded on the BlueNext exchange was VAT exempt.

Note 12 Fair Value of Financial Instruments

NYSE Euronext accounts for certain financial instruments at fair value in accordance with the Fair Value Measurements and Disclosures Topic of the FASB Accounting Standards Codification. The Fair Value Measurements and Disclosures Topic defines fair value, establishes a fair value hierarchy on the quality of inputs used to measure fair value, and enhances disclosure requirements for fair value measurements. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial instruments is determined using various techniques that involve some level of estimation and judgment, the degree of which is dependent on the price transparency and the complexity of the instruments.

In accordance with the Fair Value Measurements and Disclosures Topic, NYSE Euronext has categorized its financial instruments measured at fair value into the following three-level fair value hierarchy based upon the level of judgment associated with the inputs used to measure the fair value:

Level 1: Inputs are unadjusted quoted prices for identical assets or liabilities in an active market that NYSE Euronext has the ability to access. Generally, equity and other securities listed in active markets and investments in publicly traded mutual funds with quoted market prices are reported in this category.

Level 2: Inputs are either directly or indirectly observable for substantially the full term of the assets or liabilities. Generally, municipal bonds, certificates of deposits, corporate bonds, mortgage securities, asset backed securities and certain derivatives are reported in this category. The valuation of these instruments is based on quoted prices or broker quotes for similar instruments in active markets.

Level 3: Some inputs are both unobservable and significant to the overall fair value measurement and reflect management's best estimate of what market participants would use in pricing the asset or

Table of Contents

liability. Generally, assets and liabilities carried at fair value and included in this category are certain structured investments, derivatives, commitments and guarantees that are neither eligible for Level 1 or Level 2 due to the valuation techniques used to measure their fair value. The inputs used to value these instruments are both observable and unobservable and may include NYSE Euronext's own projections.

If the inputs used to measure the financial instruments fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument. A review of the fair value hierarchy classifications is conducted on a quarterly basis. Changes in the valuation inputs may result in a reclassification for certain financial assets or liabilities.

The following table presents NYSE Euronext's fair value hierarchy of those assets and liabilities measured at fair value on a recurring basis as of December 31, 2010, 2009 and 2008 (in millions):

	As of December 31, 2010			Total
	Level 1	Level 2	Level 3

Table of Contents

(1) Equity and fixed income mutual funds held for the purpose of providing future payments of Supplemental Executive Retirement Plan (SERP) and Supplemental Executive Savings Plan (SESP).

(2) The money market fund is reflected in level 2 of the fair value hierarchy as the trading in these shares has been frozen.

The difference between the total financial assets and liabilities as of December 31, 2010, 2009 and 2008 presented in the table above and the related amounts in the consolidated statement of financial condition is primarily due to investments recorded at cost or adjusted cost such as non-quoted equity securities, bank deposits and other interest rate investments, and to debt instruments recorded at amortized cost. The fair value of NYSE Euronext's long-term debt instruments was approximately \$2.2 billion as of December 31, 2010. The carrying value of all other financial assets and liabilities approximates fair value. As of December 31, 2010, 2009 and 2008, NYSE Euronext has \$7 million, \$8 million and \$14 million, respectively, of Level 3 securities consisting of auction rate securities purchased by NYSE Amex prior to its acquisition by NYSE Euronext on October 1, 2008. Since February 2008, these auction rate securities have failed at auction and are not currently valued at par. The decrease in the amount of auction rate securities from \$14 million at December 31, 2008 to \$8 million at December 31, 2009 and from \$8 million at December 31, 2009 to \$7 million at December 31, 2010 are attributable to the disposal of \$6 million and \$1 million of these securities, respectively. As of December 31, 2010, the weighted average price of the outstanding \$7 million auction rate securities was 92 cents to a dollar and NYSE Euronext had recorded in other comprehensive income of \$0.3 million unrealized gain on these securities.

Note 13 Derivatives and Hedges

NYSE Euronext may use derivative instruments to hedge financial risks related to its financial position or risks that are otherwise incurred in the normal course of its operations. NYSE Euronext does not use derivative instruments for speculative purposes and enters into derivative instruments only with counterparties that meet high creditworthiness and rating standards. NYSE Euronext adopted Subtopic 65 in the Derivatives and Hedging Topic of the Codification on January 1, 2009.

NYSE Euronext records all derivative instruments at fair value on the consolidated statement of financial condition. Certain derivative instruments are designated as hedging instruments under fair value hedging relationships, cash flow hedging relationships or net investment hedging relationships. Other derivative instruments remain undesignated. The details of each designated hedging relationship are formally documented at the inception of the relationship, including the risk management objective, hedging strategy, hedged item, specific risks being hedged, derivative instrument, how effectiveness is being assessed and how ineffectiveness, if any, will be measured. The hedging instrument must be highly effective in offsetting the changes in cash flows or fair value of the hedged item and the effectiveness is evaluated quarterly on a retrospective and prospective basis.

The following table presents the aggregated notional amount and the fair value of NYSE Euronext's derivative instruments reported on the consolidated statement of financial condition as of December 31, 2010 (in millions):

	Notional Amount	Fair Value of Derivative Instruments	
		Asset ⁽¹⁾	Liability ⁽²⁾
Derivatives not designated as hedging instruments			
Foreign exchange contracts	\$ 425	\$ 6	\$
Total derivatives	\$ 425	\$ 6	\$

(1) Included in Financial investments in the consolidated statements of financial condition.

(2) Included in Short term debt in the consolidated statements of financial condition.

Table of Contents

Pre-tax gains and losses on derivative instruments designated as hedged items under net investment hedging relationship for the year ended December 31, 2010 were as follows (in millions):

Derivatives in Net Investment Hedging Relationship	Gain/(Loss) Recognized in Other Comprehensive Income (Effective Portion) Year Ended	Gain/(Loss) Recognized in Income (Ineffective Portion) Year Ended
December 31, 2010		
Foreign exchange contracts	\$ (11)	\$ 0

Pre-tax gains and losses on derivative instruments not designated in hedging relationship for the year ended December 31, 2010 were as follows (in millions):

Derivatives Not Designated as Hedging Instruments	Gain/(Loss) Recognized in Income Year Ended
December 31, 2010	
Foreign exchange contracts	\$ 16

For the year ended December 31, 2010, NYSE Euronext also entered into euro/U.S. dollar, sterling/U.S. dollar and sterling/euro foreign exchange contracts in place with tenors less than 4 months in order to hedge various financial positions. As of December 31, 2010, NYSE Euronext had a £82 million (\$125 million) sterling/U.S. dollar foreign exchange swap outstanding with a positive fair value of \$1 million and a 228 million (\$300 million) euro/U.S. dollar foreign exchange swaps outstanding with a positive fair value of \$5 million. These instruments matured during January 2011. For the year ended December 31, 2010, the cumulative net gain recognized under foreign exchange contracts not designated as hedging instruments in Other income in the consolidated statements of operations amounted to \$16 million, and the cumulative net loss recognized under foreign exchange contracts designated as hedging instruments in Other comprehensive income amounted to \$11 million.

For the year ended December 31, 2010, NYSE Euronext had no derivative instruments in cash flow hedging relationships and net investment hedging relationships.

- (1) Equity and fixed income mutual funds held for the purpose of providing future payments of Supplemental Executive Retirement Plan (SERP) and Supplemental Executive Savings Plan (SESP).
- (2) As of December 31, 2010 and 2009, all unrealized losses have been reported for less than 12 months.
- (3) As of December 31, 2008, all unrealized losses have been reported for less than 12 months, except for \$0.6 million of unrealized losses which have been reported for more than 12 months and less than 24 months.

NYSE Euronext received gross proceeds from the sale of available-for-sale current investments of \$487 million, \$905 million and \$2,389 million with gross realized gains amounting to \$1 million, \$2 million and \$17 million and gross realized losses of \$1 million, zero and \$9 million for the years ended December 31, 2010, 2009 and 2008, respectively.

During 2010, NYSE Euronext has not recorded any impairment loss on available-for-sale securities.

The following table summarizes the adjusted cost and fair value of available-for-sale fixed income securities and other interest rate investments, by contractual maturity (in millions):

	2010		December 31, 2009		2008	
	Adjusted Cost	Fair Value	Adjusted Cost	Fair Value	Adjusted Cost	Fair Value
Due in 1 year or less	\$	\$	\$ 3	\$ 3	\$ 6	\$ 6

Financial Investments	\$ 7	\$ 8	\$ 12	\$ 12	\$ 35	\$ 33

- (1) Includes asset-backed securities, collateralized mortgage obligations and auction rate securities.

Table of Contents**Note 15 Debt**

Short term and long term debt consisted of the following (in millions):

	2010	December 31, 2009	2008
Commercial paper program	\$ 330	\$ 576	\$ 692
5.125% GBP 250 million unsecured bond due June 2009 (amortized cost)			371
Accrued interest on long-term debt and other	36	40	38
Short term debt	366	616	1,101
4.8% USD 750 million unsecured bond due June 2013 (amortized cost)	749	749	748
5.375% EUR 1 billion unsecured bond due June 2015 (amortized cost)	1,325	1,417	1,039
Long term debt	2,074	2,166	1,787
Total debt	\$ 2,440	\$ 2,782	\$ 2,888

In 2007, NYSE Euronext entered into a U.S. dollar and euro-denominated global commercial paper program of \$3.0 billion in order to refinance the acquisition of the Euronext shares. As of December 31, 2010, 2009 and 2008, NYSE Euronext had \$0.3 billion, \$0.6 billion and \$0.7 billion of debt outstanding at an average interest rate of 0.8%, 0.4% and 2.9% under this commercial paper program, respectively. The effective interest rate of commercial paper issuances does not materially differ from short term interest rates (Libor U.S. for commercial paper issued in U.S. dollar and Euribor for commercial paper issued in euro). The fluctuation of these rates due to market conditions may therefore impact the interest expense incurred by NYSE Euronext.

The commercial paper program is backed by a \$2.0 billion 5-year syndicated revolving bank facility maturing on April 4, 2012. This bank facility is also available for general corporate purposes and was not drawn as of December 31, 2010. On September 15, 2008, the amount of commitments readily available to NYSE Euronext under the \$2.0 billion April 2012 facility decreased from \$2.0 billion to \$1,833 million as a result of the bankruptcy filing of Lehman Brothers Holdings Inc., which had provided a \$167 million commitment under this facility.

In 2006, prior to the combination with NYSE Group, Euronext entered into a 300 million (\$401 million at December 31, 2010) revolving credit facility available for general corporate purposes, which matures on August 4, 2011. On a combined basis, as of December 31, 2010, NYSE Euronext had three committed bank credit facilities totaling \$2.2 billion, with no amount outstanding under any of these facilities. The commercial paper program and the credit facilities include terms and conditions customary for agreements of this type, which may restrict NYSE Euronext's ability to engage in additional transactions or incur additional indebtedness.

In 2008, NYSE Euronext issued \$750 million of 4.8% fixed rate bonds due in June 2013 and 750 million of 5.375% fixed rate bonds due in June 2015 in order to, among other things, refinance outstanding commercial paper and lengthen the maturity profile of its debt. In 2009, NYSE Euronext increased the 750 million 5.375% notes due in June 2015 to 1 billion as a result of an incremental offering of 250 million. The terms of the bonds do not contain any financial covenants. The bonds may be redeemed by NYSE Euronext or the bond holders under certain customary circumstances, including a change in control accompanied by a downgrade of the bonds below an investment grade rating. The terms of the bonds also provide for customary events of default and a negative pledge covenant.

Table of Contents

As of December 31, 2010, the debt repayment schedule was as follows (in millions):

Due in 2011	\$ 366
Due in 2012	
Due in 2013	749
Due in 2014	
Due in 2015 or later	1,325
Total debt	\$ 2,440

Note 16 Income Taxes

The income (loss) from continuing operations before income taxes consisted of the following (in millions):

	Year Ended December 31,		
	2010	2009	2008
Domestic	\$ 166	\$ 52	\$ 181
International	520	153	(826)
Total	\$ 686	\$ 205	\$ (645)

The income tax provision (benefit) consisted of the following (in millions):

	Year Ended December 31,		
	2010	2009	2008
Current:			
Federal	\$ 18	\$ (31)	\$ 73
State and local	17	(15)	20
International	56	26	221
Deferred:			
Federal	60	63	3
State and local	(10)	20	(2)
International	(13)	(70)	(220)
Total	\$ 128	\$ (7)	\$ 95

Table of Contents

Deferred tax asset and liability balances consisted of the following (in millions):

	2010	December 31, 2009	2008
Current deferred tax arising from:			
Deferred revenue	\$ 34	\$ 37	\$ 34
Deferred compensation	18	22	19
Depreciation	39		
Other	29	41	60
Current deferred assets	\$ 120	\$ 100	\$ 113
Depreciation and other	\$ 2	\$ 18	\$ 38
Current deferred liabilities	\$ 2	\$ 18	\$ 38
Non-current deferred tax arising from:			
Deferred revenue	\$ 146	\$ 155	\$ 146
Depreciation	46	90	86
Stock-based compensation	25	19	41
Deferred compensation	135	142	151
Pension	93	85	112
Net operating loss	153	112	49
Valuation allowance	(24)	(19)	(13)
Other	59	96	99
Non-current deferred assets	\$ 633	\$ 680	\$ 671
Intangible assets	\$ 1,800	\$ 1,947	\$ 1,844
Software capitalization	67	56	33
Pension	13	13	29
Depreciation and other	127	74	96
Non-current deferred liabilities	\$ 2,007	\$ 2,090	\$ 2,002

Deferred tax liabilities have not been recognized for the portion of the outside basis differences (including undistributed earnings) relating to foreign subsidiaries because the investment in these subsidiaries is considered to be permanent in duration. Quantification of the deferred tax liability associated with these outside basis differences is not practicable.

As of December 31, 2010, NYSE Euronext had approximately \$297 million of net operating losses (NOL) for tax purposes, which will begin to expire in 2021. A valuation allowance was recorded against approximately \$24 million, \$19 million and \$13 million of certain NOL as of December 31, 2010, 2009 and 2008, respectively, as it appears more likely than not that the corresponding asset will not be realized due to certain tax limitations. There is no valuation allowance recorded against any of the remaining deferred tax assets based on management's belief that it is more likely than not that such assets will be realized.

For the years ended December 31, 2010 and 2009, the exercise of stock options and vesting of restricted stock units did not result in any tax benefit. For the year ended December 31, 2008, tax benefits of \$1 million associated with the exercise of stock options and vesting of restricted stock units was recorded as an increase to additional paid-in capital.

Table of Contents

The reconciliation between the statutory and effective tax rates is as follows:

	Year Ended December 31,		
	2010	2009	2008
Federal statutory rate	35.0%	35.0%	35.0%
State and local taxes (net of federal benefit)	0.6	3.2	(2.6)
Foreign operations	(14.1)	(38.6)	8.0
Tax rate changes	(3.4)		
Goodwill impairment			(53.5)
Other	0.6	(3.2)	(1.6)
Effective tax rate	18.7%	(3.6)%	(14.7)%

For the year ended December 31, 2010, NYSE Euronext's effective tax rate was lower than the statutory rate primarily due to (i) higher earnings generated from NYSE Euronext's foreign operations where the applicable tax rate is lower than the statutory rate, (ii) the lapse of applicable statute of limitation in various jurisdictions, and (iii) a discrete deferred tax benefit related to an enacted reduction in corporate tax rate in both the United Kingdom and the Netherlands.

For the year ended December 31, 2009, NYSE Euronext's effective tax rate was lower than the statutory rate primarily due to lower tax rates on foreign operations and the lapse of applicable statute of limitation in certain foreign jurisdictions. In addition, the \$355 million termination payment to LCH.Clearnet in connection with our NYSE Liffe Clearing arrangements significantly reduced NYSE Euronext's pre-tax income, which in turn impacted our effective tax rate.

For the year ended December 31, 2008, NYSE Euronext's effective tax rate was lower than the statutory rate primarily due to the \$1.0 billion goodwill impairment charge and \$0.5 billion impairment charge related to the national securities exchange registration of our European Cash Trading and Listings reporting unit. A portion of such impairment charges was not deductible for tax purposes.

In connection with the assessment of certain positions in various U.S. and European tax jurisdictions, a reconciliation of the gross unrecognized tax benefits for the years ended December 31, 2010, 2009 and 2008 is as follows (in millions):

	Year Ended December 31,		
	2010	2009	2008
Balance at beginning of the year	\$ 89	\$ 80	\$ 67
(Decreases) increases based on tax positions taken during a prior period		(3)	2
Increases based on tax positions taken during the current period	20	22	16
Decreases related to a lapse of applicable statute of limitation	(27)	(11)	(6)
Currency translation	(3)	1	
Settlements	(4)		1
Balance at end of the year	\$ 75	\$ 89	\$ 80

Included in the ending balance at December 31, 2010, 2009 and 2008 are \$74 million, \$46 million and \$33 million, respectively, of tax positions which, if recognized, would affect the effective tax rate, and there were no tax positions for which there is uncertainty about the timing of tax benefit in 2010, 2009 and 2008.

NYSE Euronext accounts for interest and penalties related to the underpayment or overpayment of income taxes as a component of income tax provision in the consolidated statements of operations. For the years ended December 31, 2010, 2009 and 2008, NYSE Euronext recorded \$1 million, \$4 million and \$3 million,

Table of Contents

respectively, for interest and penalties in its consolidated statements of operations. For the years ended December 31, 2010, 2009 and 2008, the accrued net interest payable related to the above net tax benefit was \$3 million, \$7 million and \$1 million, respectively.

In many cases, uncertain tax positions are related to tax years that remain subject to examination by the relevant tax authorities. The following table summarizes these open tax years by major jurisdiction:

Jurisdiction	Examination in Progress	Open Tax Years
U.S.	2000-2008	2009-2010
Netherlands	None	2009-2010
France	None	2009-2010
United Kingdom	None	2009-2010
Belgium	None	2009-2010
Portugal	None	2009-2010

NYSE Euronext does not anticipate that the total unrecognized tax benefits will change significantly in the next twelve months.

Note 17 Commitments and Contingencies***Legal Matters***

The following is a summary of significant legal matters as of December 31, 2010:

IRS Notice

In November 2009, the Internal Revenue Service (IRS) issued a notice of proposed adjustment seeking to disallow approximately \$161 million in deductions taken by the NYSE for compensation paid to its former Chairman and Chief Executive Officer in the tax years 2001, 2002 and 2003. In February 2010, the NYSE filed a protest of the proposed disallowance and is awaiting a conference with the IRS Appeals Office.

Shareholder Lawsuits

Following the announcement of NYSE Euronext's business combination agreement with Deutsche Börse on February 15, 2011, various lawsuits were filed by purported NYSE Euronext shareholders in at least two state courts. The plaintiffs are seeking to litigate on behalf of a proposed class of all NYSE Euronext shareholders. The named defendants include the members of NYSE Euronext's Board of Directors, certain officers, as well as NYSE Euronext, Deutsche Börse and related corporate entities. Each lawsuit asserts a claim for breach of fiduciary duty against the individual defendants, and a claim for aiding and abetting that alleged breach against one or more of the entity defendants. In general, the lawsuits critique the terms of the proposed transaction and seek, among other things, an injunction against its completion. NYSE Euronext is reviewing the complaints and intends to contest them.

In addition to the matters described above, NYSE Euronext is from time to time involved in various legal and regulatory proceedings that arise in the ordinary course of its business. NYSE Euronext does not believe, based on currently available information, that the results of any of these various proceedings will have a material adverse effect on its financial statements as a whole.

Table of Contents**Commitments**

NYSE Euronext leases office space under non-cancelable operating leases and equipment that expire at various dates through 2029. Rental expense under these leases, included in the consolidated statements of operations in both occupancy and systems and communications, totaled \$97 million, \$123 million and \$85 million for the years ended December 31, 2010, 2009 and 2008, respectively.

Future payments under these obligations as of December 31, 2010 were as follows (in millions):

Year	Operating leases		Other	Total
	Office Space	Equipment	Commitments(1)	
2011	\$ 66	\$ 4	\$ 41	\$ 111
2012	62	1	41	104
2013	54		35	89
2014	49			49
2015	42			42
2016-Thereafter	144			144
	\$ 417	\$ 5	\$ 117	\$ 539

(1) Primarily reflects the outstanding commitment for NYSE Euronext's investment in the Qatar Exchange. NYSE Euronext's U.K. regulated derivatives subsidiary, the London Market of NYSE Liffe (for the purposes of this paragraph, NYSE Liffe), took full responsibility for clearing activities in NYSE Euronext's U.K. derivatives market on July 30, 2009. As a result, NYSE Liffe became the central counterparty for contracts entered into by its clearing members on the NYSE Liffe market and outsources certain services to LCH.Clearnet through the NYSE Liffe Clearing arrangement. NYSE Liffe has credit exposure to those clearing members. NYSE Liffe's clearing members may encounter economic difficulties as a result of the market turmoil and tightening credit markets, which could result in bankruptcy and failure. NYSE Liffe offsets its credit exposure through arrangements with LCH.Clearnet in which LCH.Clearnet provides clearing guarantee backing and related risk functions to NYSE Liffe, and under which LCH.Clearnet is responsible for any defaulting member positions and for applying its resources to the resolution of such a default. In addition, NYSE Liffe maintains policies and procedures to help ensure that its clearing members can satisfy their obligations, including by requiring members to meet minimum capital and net worth requirements and to deposit collateral for their trading activity. Nevertheless, NYSE Euronext cannot be sure that in extreme circumstances, LCH.Clearnet might not itself suffer difficulties, in which case these measures might not prove sufficient to protect NYSE Liffe from a default, or might fail to ensure that NYSE Liffe is not materially and adversely affected in the event of a significant default.

In the normal course of business, NYSE Euronext may enter into contracts that require it to make certain representations and warranties and which provide for general indemnifications. Based upon past experience, NYSE Euronext expects the risk of loss under these indemnification provisions to be remote. However, given that these would involve future claims against NYSE Euronext that have not yet been made, NYSE Euronext's potential exposure under these arrangements is unknown. NYSE Euronext also has obligations related to unrecognized tax positions, deferred compensation and other postretirement benefits. The date of the payment under these obligations cannot be determined.

Table of Contents**Note 18 Detail of Certain Balance Sheet Accounts**

Property and equipment Components of property and equipment were as follows (in millions):

	2010	December 31, 2009	2008
Land, buildings and building improvements	\$ 544	\$ 524	\$ 477
Leasehold improvements	407	209	216
Computers and equipment, including capital leases of \$13, \$13 and \$40 for 2010, 2009 and 2008, respectively	737	807	700
Software, including software development costs	945	901	749
Furniture and fixtures	23	26	25
	2,656	2,467	2,167
Less: accumulated depreciation and amortization, including \$13, \$13 and \$39 for 2010, 2009 and 2008, respectively for capital leases	(1,635)	(1,481)	(1,472)
	\$ 1,021	\$ 986	\$ 695

NYSE Euronext capitalized software development costs of approximately \$68 million, \$111 million and \$67 million in 2010, 2009 and 2008, respectively. For the years ended December 31, 2010, 2009 and 2008, NYSE Euronext recognized \$79 million, \$84 million and \$91 million, respectively, of amortization related to capitalized software. Unamortized capitalized software development costs of \$146 million, \$157 million and \$128 million as of December 31, 2010, 2009 and 2008, respectively, were included in the net book value of property and equipment.

Accounts payable and accrued expenses Components of accounts payable and accrued expenses were as follows (in millions):

	2010	December 31, 2009	2008
Trade payables	\$ 258	\$ 466	\$ 365
Income tax payable (including uncertain tax positions)	86	104	109
Accrued compensation (including severance)	255	355	355
Other accrued expenses	173	237	168
	\$ 772	\$ 1,162	\$ 997

Equity method investments	178	178	
Investments at fair value			26
Asset held-for sale	46	46	86
Deposits, debt issuance costs and other	64	63	81
	\$ 663	\$ 802	\$ 705

Note 19 Subsequent Events

Edgar Filing: NYSE Euronext - Form 425

On February 15, 2011, NYSE Euronext announced that it entered into a business combination agreement with Deutsche Börse AG. Under the agreement, the companies will combine to create the world's premier global

F-49

Table of Contents

exchange group. Each of the group's national exchanges will keep its name in its local market and all exchanges will continue to operate under local regulatory frameworks and supervision. Following full completion of the contemplated transactions, the former Deutsche Börse shareholders will own approximately 60% of the combined group and the former NYSE Euronext shareholders will own approximately 40% of the combined group on a fully diluted basis and assuming that all Deutsche Börse shares are tendered in the contemplated exchange offer. The transaction is subject to approval by holders of a majority of the outstanding NYSE Euronext shares and to a 75% acceptance level of the exchange offer to Deutsche Börse shareholders as well as approval by the relevant competition and financial, securities and other regulatory authorities in the United States and Europe, and other customary closing conditions. The transaction is expected to close at the end of 2011.

Following the announcement of the proposed transaction, various lawsuits were filed by purported NYSE Euronext shareholders in at least two state courts. The plaintiffs are seeking to litigate on behalf of a proposed class of all NYSE Euronext shareholders. The named defendants include the members of NYSE Euronext's Board of Directors, certain officers, as well as NYSE Euronext, Deutsche Börse and related corporate entities. Each lawsuit asserts a claim for breach of fiduciary duty against the individual defendants, and a claim for aiding and abetting that alleged breach against one or more of the entity defendants. In general, the lawsuits critique the terms of the proposed transaction and seek, among other things, an injunction against its completion. NYSE Euronext is reviewing the complaints and intends to contest them.

Quarterly Financial Data (unaudited)

The following represents NYSE Euronext's unaudited quarterly results for the years ended December 31, 2010 and 2009. These quarterly results were prepared in accordance with generally accepted accounting principles and reflect all adjustments that are, in the opinion of management, necessary for a fair statement of the results. These adjustments are of a normal recurring nature.

	1st Quarter	2nd Quarter	3rd Quarter	4th Quarter

Report of Independent Registered Public Accounting Firm

To the Executive Board and

Shareholders of Deutsche Börse AG:

We have audited the accompanying consolidated balance sheets of Deutsche Börse AG and subsidiaries as at December 31, 2010, 2009 and 2008, and the related consolidated income statements, statements of comprehensive income, cash flow statements, and statements of changes in equity for each of the years in the three-year period ended December 31, 2010. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Deutsche Börse AG and subsidiaries as at December 31, 2010, 2009 and 2008, and the results of their operations and their cash flows for each of the years in the three-year period ended December 31, 2010, in conformity with International Financial Reporting Standards (IFRSs) as issued by the International Accounting Standards Board and IFRSs as adopted by the European Union.

Independent Auditor's Report

To Deutsche Börse AG:

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of Deutsche Börse AG and its subsidiaries, which comprise the consolidated balance sheets as at December 31, 2010, 2009 and 2008, and the related consolidated statements of comprehensive income, statements of changes in equity and statements of cash flows for the three-year period then ended December 31, 2010 and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with International Financial Accounting Standards as issued by the International Accounting Standard Board and the International Financial Reporting Standards as adopted by the European Union, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit.

Opinion

In our opinion, the consolidated financial statements give a true and fair view, in all material respects, of the financial position of Deutsche Börse AG and its subsidiaries as at December 31, 2010, 2009 and 2008, and of their financial performance and cash flow for the year then ended in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board and International Financial Reporting Standards as adopted by the European Union.

Notes to the consolidated financial statements

Basis of preparation

1. General principles

Deutsche Börse AG (the Company) is incorporated as a German public limited company (Aktiengesellschaft) and is domiciled in Germany. The Company's registered office is in Frankfurt/Main.

The consolidated financial statements for the three years ended 31 December 2010, 2009 and 2008 have been prepared in compliance with the International Financial Reporting Standards (IFRSs) and the related interpretations issued by the International Accounting Standards Board (IASB), as adopted by the European Union in accordance with Regulation No. 1606/2002 of the European Parliament and of the Council on the application of International Accounting Standard. As of 31 December 2010, 2009 and 2008 there were no effective standards and interpretations not yet adopted by the European Union impacting the consolidated financial statements. Accordingly, the financial statements also comply with the IFRSs as issued by the IASB.

Effects of new accounting standards implemented in 2010

The following standards and interpretations issued by the IASB became effective as at 1 January 2010 and were applied for the first time in the 2010 reporting period.

Changes resulting from the Annual Improvement Project (April 2009)

This collection of amendments to various IFRSs gives rise to accounting changes for presentation, recognition, or measurement as well as terminology or editorial changes with a minimal effect on accounting. Most of the amendments are effective for financial years beginning on or after 1 January 2010.

Amendments to IFRS 2 Group Cash-settled Share-based Payment Transactions (June 2009)

The amendments serve to clarify the scope of IFRS 2 and its interaction with other standards. The amendments are effective retrospectively for financial years beginning on or after 1 January 2010.

Revised IFRS 3 Business Combinations and amendments to IAS 27 Consolidated and Separate Financial Statements (January 2008)

The amendments relate primarily to the measurement of shares held by non-controlling shareholders in connection with a business acquisition. In the case of future acquisitions of less than 100 percent, goodwill can be reported in full, including the share attributable to non-controlling interests (full goodwill method). Other significant changes relate to step acquisitions. If an entity's ownership interest in a subsidiary changes without the entity losing control of the subsidiary, the entity must recognise such changes in comprehensive income. Acquisition-related costs must be fully expensed. The new standard and the amendments are to be applied to financial years beginning on or after 1 July 2009.

IFRIC 17 Distributions of Non-cash Assets to Owners (November 2008)

This interpretation governs the accounting treatment of non-cash assets distributed to owners of an entity; the amendments are effective at the latest for financial years beginning on or after 1 July 2009.

New accounting standards not yet implemented

The following standards and interpretations, which Deutsche Börse AG and its subsidiaries (called Deutsche Börse Group or the Group in the following) did not adopt in 2010 prior to the effective date, have been published by the IASB prior to the publication of these consolidated financial statements. The disclosures in parentheses relate to the date of issue by the IASB.

Table of Contents

IFRS 9 Financial Instruments (November 2009)

IFRS 9 introduces new requirements for the classification and measurement of financial assets. These stipulate that all financial assets that have to date fallen within the scope of IAS 39 are recognised either at amortised cost or at fair value. The standard is effective for financial years beginning on or after 1 January 2013; earlier application is permitted.

Revised IAS 24 Related Party Disclosures (November 2009)

The revised version of the standard partially exempts state-controlled entities from disclosure requirements and defines related parties more precisely. The standard must be applied for periods beginning on or after 1 January 2011.

Amendments to IAS 32 Classification of Rights Issues (October 2009)

The changes relate to the accounting treatment of rights issues (rights, options or warrants), denominated in a currency other than the functional currency of the issuer. In future, these rights must be classified as equity provided that certain criteria are met. The amendments are effective for periods beginning on or after 1 February 2010.

Changes resulting from the Annual Improvements Project (May 2010)

The amendments relate to six standards and one interpretation. Most of the amendments are effective for financial years beginning on or after 1 January 2011.

Amendments to IFRS 7 Financial Instruments: Disclosures Transfers of Financial Assets (October 2010)

The amendments require enhanced disclosures on transactions that lead to the transfer of financial assets. They aim to create greater transparency with regard to risks that are retained by the transferor. The amendments are effective for financial years beginning on or after 1 July 2011; earlier application is permitted.

Amendments to IFRS 9 Financial Instruments (October 2010)

The amendments extend IFRS 9 Financial Instruments to include rules on accounting for financial liabilities. If the fair value option is applied to financial liabilities, revisions to the recognition of changes in an entity's own credit risk must be taken into account: a change in credit risk must now be recognised in other comprehensive income rather than in profit or loss. The amendments are effective for financial years beginning on or after 1 January 2013. Earlier application is permitted if the rules on accounting for financial assets are also applied.

Amendments to IAS 12 Deferred Tax: Recovery of Underlying Assets (December 2010)

The general principle for assets measured using the fair value model of IAS 40 is that the measurement of deferred taxes should reflect the tax consequences that would follow from the manner in which the entity expects to recover the carrying amount of an asset. These amendments provide an exception to this general principle and are applicable for financial years beginning on or after 1 January 2012.

IFRIC 19 Extinguishing Financial Liabilities with Equity Instruments (November 2009)

IFRIC 19 provides guidelines on accounting for equity instruments issued by a debtor to fully or partially extinguish a financial liability after renegotiating the terms of the financial liability. The interpretation is effective at the latest for financial years beginning after 30 June 2010.

Amendments to IFRIC 14 Prepayments of a Minimum Funding Requirement (November 2009)

The amendments are designed to remove unintended consequences of IFRIC 14. If there is a minimum funding requirement for a defined benefit plan, this prepayment must be recognised as an asset in accordance with the amendments. The interpretation is effective at the latest for financial years beginning after 31 December 2010.

Table of Contents

Deutsche Börse Group does not expect the application of the new IFRSs, the revised IASs/IFRSs and the new interpretations (with the exception of IFRS 9) to have any material impact on its consolidated financial statements.

2. Basis of consolidation

Deutsche Börse AG's equity interests in subsidiaries, associates and joint ventures as at 31 December 2010 included in the consolidated financial statements are presented in the following tables.

Fully consolidated subsidiaries

1) Beneficial interest in profit or loss: 85 percent

2) Beneficial interest in profit or loss: 67.52 percent

Table of Contents

Deutsche Börse AG holds 50 percent of the voting rights in Infobolsa S.A. The main decision-making body of Infobolsa S.A. is the board of directors. Deutsche Börse AG holds the majority of the board of directors due to the chairman's voting rights.

In addition, Deutsche Börse AG holds 50 percent of the voting rights in Eurex Zürich AG. The main decision-making body of Eurex Zürich AG is the supervisory board (Verwaltungsrat). The majority of the board's members are appointed by Deutsche Börse AG, giving Deutsche Börse AG controlling influence over Eurex Zürich AG's financial and business policy.

Deutsche Börse AG indirectly holds 39.7 percent of the voting rights in Eurex Bonds GmbH. Through its controlled subsidiary Eurex Zürich AG, which holds 79.4 percent of the voting rights, Deutsche Börse AG has the power to govern the financial and operating policies of the entity.

Changes to consolidated subsidiaries

	Germany	Foreign	Total
As at 1 January 2010	12	21	33
Additions	1	2	3
Disposals	1	1	2
As at 31 December 2010	12	22	34

With effect from 8 January 2010, Deutsche Börse acquired a 75.0 percent interest in Tradegate Exchange GmbH, Berlin, Germany, for a purchase price of 0.4 million. Purchase price allocation, which had been completed as of the reporting date, did not result in any goodwill. The company was fully included in the consolidated financial statements for the first time in the first quarter of 2010.

The previously fully consolidated subsidiary Avox Ltd., Wrexham, United Kingdom, in which Deutsche Börse held a 76.82 percent interest, was sold with effect from 1 July 2010. The sale price amounted to 11.3 million.

On 21 July 2010, Clearstream International S.A., Luxembourg, and Banque centrale du Luxembourg formed LuxCSD S.A., Luxembourg, in which Clearstream International S.A. holds a 50.0 percent stake. Since Clearstream International S.A. has the right to appoint the Chairman of the Supervisory Board, who also has a casting vote, there is a presumption of control. Since the fourth quarter the subsidiary has been included in full in the consolidated financial statements.

Effective 9 December 2010, Clearstream Banking S.A., Luxembourg, and Sociedad de Gestión de los Sistemas de Registro, Compensación y Liquidación de Valores S.A.U., Madrid, Spain, formed REGIS-TR S.A., Luxembourg, in which Clearstream Banking S.A. holds a 50.0 percent interest. Since Clearstream Banking S.A. has the right to appoint the Chairman of the Supervisory Board, who also has a casting vote, there is a presumption of control. The subsidiary has been included in full in the consolidated financial statements since the fourth quarter of 2010.

On 31 January 2011, Infobolsa S.A., Madrid, Spain, acquired a 62 percent interest in Open Finance S.L., Valencia, Spain, for a purchase price of 3.5 million. The company is fully included in the consolidated financial statements as at 31 January 2011. The purchase price allocation had not been concluded when these consolidated financial statements were approved for publication.

For 2009, the following changes to consolidated subsidiaries had a material impact:

On 26 January 2009, Deutsche Börse acquired Market News International Inc. (MNI), New York, USA, for a purchase price of US\$10.8 million (of which acquisition-related costs: US\$0.9 million) net of cash acquired (US\$2.3 million). The purchase price includes goodwill of US\$7.8 million, which relates to access to global, trade-related information by MNI, such as news from authorities and supranational organisations. MNI was included in the consolidated financial statements for the first time as a wholly owned subsidiary in the first quarter of 2009.

Table of Contents

With effect from 20 November 2009, MNI acquired an interest of 100 percent in Need to Know News, LLC, Chicago, USA. The purchase price is made up of a cash component in the amount of US\$2.3 million (including acquisition-related costs of US\$0.6 million), and an earnout component representing 20 percent of sales revenue of Need to Know News, LLC, which is payable over the next three financial years. Goodwill amounting to US\$3.9 million arose from the acquisition. The company was included in the consolidated financial statements for the first time as at 31 December 2009.

Deutsche Börse's share in STOXX Ltd., Zurich, Switzerland, which was previously recognised as an associate, was increased from 33.33 percent to 50.1 percent on 29 December 2009. For the acquisition of the 16.77 percent stake, a purchase price of 86.6 million was agreed (including acquisition-related costs of 1.7 million). It comprised an immediately payable cash component (68.5 million), the waiving of dividend rights for the acquirer's interest (4.9 million) and an earnout component. The earnout component was recognised at a fair value of 11.5 million. As part of the acquisition, 22.0 million was paid to the capital reserves of STOXX Ltd. on 29 December 2009. There were no changes in the course of 2010 in the purchase price allocation of STOXX Ltd., which had included preliminary information as at 31 December 2009.

Associates and joint ventures accounted for using the equity method as at 31 December 2010 in accordance with IAS 28 or IAS 31 are indicated in the following table:

Associates and joint ventures as at 31 December 2010

- 1) For associates and joint ventures allocated to the Eurex segment, the figures reported reflect 50 percent of the Eurex subgroup's equity interest. The beneficial interest in profit or loss amounts to 85 percent of the Eurex subgroup's equity interest.
- 2) Preliminary figures
- 3) Consolidated figures
- 4) The participation agreement concerning Scoach Holding S.A. (Scoach) between Deutsche Börse AG and SIX Swiss Exchange AG (SIX) was amended in December 2009 to require unanimous decisions by the parties in regards to the operating budget and investment decisions of Scoach. Accordingly, Scoach was deconsolidated effective December 31, 2009 and accounted for as an associate because Deutsche Börse AG no longer controlled the company. As of January 1, 2010, Scoach has been recognized as a joint venture as defined by IAS 31 by Deutsche Börse AG and accounted for using the equity method.
- 5) At the balance sheet date the fair value of the listed company amounted to 6.7 million.

By virtue of the Deutsche Börse Group's supervisory board or board of directors representation and related governance structure Deutsche Börse is able to exert significant influence in accordance with IAS 28.7 (a) over the following investees in which Deutsche Börse holds an interest of less than 20 percent: Deutsche Börse Commodities GmbH, European Energy Exchange AG, The Options Clearing Corporation, ID's SAS, Direct Edge Holdings LLC, Link-Up Capital Markets S.L. and Tradegate AG and U.S. Futures Exchange LLC.

Effective 8 January 2010, Deutsche Börse AG acquired a 5.0 percent interest in Tradegate AG Wertpapierhandelsbank, Berlin, Germany which holds 25.0 percent of the fully consolidated company Tradegate Exchange GmbH, Berlin, Germany for a purchase price of 2.5 million. As Deutsche Börse AG exercises significant influence within the meaning of IAS 28, Tradegate AG Wertpapierhandelsbank is classified as an associate and accounted for using the equity method.

Eurex Frankfurt AG, sold its 66.0 percent interest in BSP Regional Energy Exchange LLC, Ljubljana, Slovenia, on 19 August 2010.

Deutsche Börse AG acquired a 9.5 percent interest in ID's SAS, Paris, France, for a purchase price of 1.9 million on 4 November 2010. As Deutsche Börse AG exercises significant influence according to IAS 28, the company has been classified as an associate and accounted for using the equity method since that date.

U.S. Futures Exchange LLC, Chicago, USA, which was previously included in the consolidated financial statements using the equity method and in which U.S. Exchange Holdings, Inc., held an interest of 27.71 percent, was liquidated effective 31 December 2010.

Edgar Filing: NYSE Euronext - Form 425

For 2009, the following changes in associates and joint-ventures occurred:

The Clearing Corporation Inc. was merged with ICE U.S. Trust Holding Company LP with effect from 6 March 2009. Since then U.S. Exchange Holdings, Inc. has an interest of 6.3 percent in ICE U.S. Trust Holding Company LP. Since the date of the merger, the company is accounted for at cost.

F-66

Table of Contents

Scoach Holding S.A., which had previously been included in full in the consolidated financial statements, was deconsolidated effective 31 December 2009 and accounted for as an associate because Deutsche Börse AG no longer controls the company. Since then, Scoach Holding S.A. has been recognised as a joint venture as defined by IAS 31 by Deutsche Börse AG and SIX Swiss Exchange AG and accounted for using the equity method.

With effect from 29 December 2009, Deutsche Börse AG and SIX Swiss Exchange AG established Indexium AG, Zurich, Switzerland, in which Deutsche Börse AG holds a 49.9 percent share. The company is classified as an associate and accounted for using the equity method.

Deutsche Börse AG's 50.0 percent interest in FDS Finanz-Daten-Systeme GmbH & Co. KG, which had previously been recognised as an associate, was sold for 1.2 million effective 31 December 2009.

3. Accounting policies

Deutsche Börse AG's consolidated financial statements have been prepared in euros. Unless stated otherwise, all amounts are shown in millions of euros (m). The annual financial statements of subsidiaries included in the consolidated financial statements have been prepared on the basis of the Group-wide accounting principles based on IFRSs as adopted by the European Union in accordance with Regulation No. 1606/2002 of the European Parliament and of the Council on the application of International Accounting Standards. These principles are described in the following. EU endorsed IFRSs may differ from IFRSs as issued by the IASB if, at any point in time, new or amended IFRSs have not been endorsed by the EU. As at December 31, 2010, 2009 and 2008, there were no effective standards or interpretations having any influence on the consolidated financial statements that had not been endorsed by the European Union. Accordingly, the accounting principles comply with IFRS as issued by the IASB. For reasons of materiality, the single-entity financial statements of associates were not adjusted to comply with uniform Group accounting policies.

Recognition of revenue and expenses

Trading, clearing and settlement fees are recognised on the trade day and billed on a monthly basis. Custody revenue and revenue for systems development and systems operation are generally recognised ratably and billed on a monthly basis. Sales of price information are billed on a monthly basis. Fees charged to trading participants in connection with International Securities Exchange, LLC's expenses for supervision by the U.S. Securities and Exchange Commission (SEC) are recognised at the settlement date.

International Securities Exchange, LLC earns market data revenue from the sale of trade and quote information on options through the Options Price Reporting Authority, LLC (OPRA, the regulatory authority responsible for distributing market data revenues among the US options exchanges). Pursuant to SEC regulations, US exchanges are required to report trade and quote information to OPRA. International Securities Exchange, LLC earns a portion of the income of the US option exchange association based on its share of eligible trades for option securities. Revenue is recorded as transactions occur on a trade date basis and is collected quarterly.

As a rule, rebates are deducted from sales revenue. They are recognised as an expense under volume-related costs to the extent that they exceed the associated sales revenue. The item also comprises expenses that depend on the number of certain trade or settlement transactions, the custody volume, or the Global Securities Financing volume, or that result from revenue sharing agreements.

Risk Transfer Re S.A.'s premium income and acquisition costs from reinsurance contracts are recognised over the life of the contracts. The activities of this company are immaterial in the context of the consolidated financial statements of Deutsche Börse AG.

Interest income and expenses are recognised using the effective interest method over the respective financial instrument's term to maturity. Interest income is recognised when it is probable that the economic benefits

Table of Contents

associated with the transaction will flow to the entity and the income can be measured reliably. Interest expenses are recognised as an expense in the period in which they are incurred. Interest income and expenses from banking business are netted in the consolidated income statement and disclosed separately in note 5. Dividends are recognised in the result from equity investments if the right to receive payment is based on legally assertable claims.

Government grants

A government grant is not recognised until there is reasonable assurance that the entity will comply with the conditions attaching to it, and that the grant will be received. Government grants related to assets are presented as deferred income in the consolidated balance sheet and are recognised as income over the life of the depreciable asset. Grants related to income are deducted in reporting the expense which they are intended to compensate over the periods in which the latter occur. If the payment date for government grants falls after the expenses to be compensated have been incurred and it is probable that the conditions for receiving the grants will be met, they are recognised in profit or loss when the corresponding expenses are incurred.

Research and development costs

Research costs are expensed in the period in which they are incurred. Development costs are capitalised, provided that they satisfy the recognition criteria set out in IAS 38. These development costs include direct labour costs, costs of purchased services and workplace costs, including proportionate overheads that can be directly attributed to the preparation of the respective asset for use, such as costs for the software development environment. Own expenses capitalised have no longer been reported separately as income in the consolidated income statement since 1 January 2010. Expenses incurred in connection with internal development activities comprise only the non-capitalised amounts since then. Prior-year figures have been adjusted accordingly. Development costs that do not meet the requirements for capitalisation in accordance with IAS 38 are recognised in the consolidated income statement. Interest expense that cannot be allocated directly to one of the developments is recognised in profit or loss in 2010 and not included in capitalised development cost. If research and development costs cannot be separated, the expenditures are recognised as expenses in the period in which they are incurred.

All development costs are booked on projects (primary and secondary costs). For deciding which cost elements are to be capitalized and which elements are not to be capitalized, the projects are divided into the following phases in order to reflect the distinction between research and development phase in IAS 38:

(a) Non-capitalized phases:

Concept: definition of the product concept and specification of the anticipated economic utility

First cost and revenue estimate

As it is not possible, to demonstrate that an intangible asset will generate probable future economic benefits at this stage, the expenditures are expensed when incurred in accordance with IAS 38.54.

(b) Capitalized phases:

Detailed Specification

compilation and review of detailed specification

issue resolution process.

Build & Test

programming of software

product testing.

F-68

Table of Contents

In this phase, Deutsche Börse is in compliance with the requirements for the development phase in accordance with IAS 38.57 as it can demonstrate the technical feasibility, the intention to complete as well as its ability to use the intangible asset based on the detailed specifications. The generation of probable future economic benefits is demonstrated through business cases. Necessary resources are assigned to the projects and the reliable measurement of the attributable expenditures is performed within Deutsche Börse's controlling environment on an individual project basis.

(c) Non-capitalized phases:

acceptance

planning and implementation of acceptance tests

Simulation

simulation preparation and implementation

compilation and testing of simulation software kits

compilation and review of documents.

Rollout

planning of product implementation

compilation and dispatch of the production kits

compilation and review of documents.

In accordance with IAS 38, only the expenditures occurring in the phases Detailed Specification and Build & Test are being capitalized. All other preceding and subsequent phases of the original software development projects are recognized as expenses.

Intangible assets

Capitalised development costs are amortised from the date of first use of a software over its expected useful life. The useful life of internally developed software is generally assumed to be five years.

Purchased software is carried at cost and reduced by systematic amortisation and, where necessary, impairment losses. Amortisation is charged using the straight-line method over the expected useful life or at most until the right of use has expired.

Edgar Filing: NYSE Euronext - Form 425

Useful life of software

Asset	Amortisation method	Amortisation period
Standard software	straight-line	3 to 10 years
Purchased custom software	straight-line	3 to 6 years
Internally developed custom software	straight-line	3 to 5 years

Intangible assets are derecognised on disposal or when no further economic benefits are expected to flow from them.

The amortisation period for intangible assets with finite useful lives is reviewed at least at the end of each financial year. If the expected useful life of an asset differs from previous estimates, the amortisation period is adjusted accordingly.

Goodwill is recognised at cost and tested at least once a year for impairment.

F-69

Table of Contents

The cost of the other intangible assets acquired in the course of business combinations corresponds to the fair value as at the acquisition date. Assets with a finite useful life are amortised using the straight-line method over the expected useful life.

Useful life of other intangible assets arising out of business combinations

Asset	Amortisation method	Amortisation period
ISE's exchange licence	n.a.	n.a.
Member relationships	straight-line	30 years
Customer relationships	straight-line	12, 30 years
ISE trade name	straight-line	10 years
STOXX trade name	n.a.	n.a.
Historical data	straight-line	5 years
Restrictions on competition	straight-line	1 to 3 years

As the exchange licence of ISE does not have a finite term and ISE expects to retain the licence as part of its overall business strategy, the useful life of this asset is estimated as indefinite. A review is performed in each reporting period to determine whether the events and circumstances still justify estimating the useful life of the licence as indefinite.

The STOXX trade name includes the trade name itself, the index methodologies and the Internet domains because these can generally not be transferred separately. There are no indications that time limitations exist with regard to the useful life of the STOXX trade name.

Property, plant and equipment

Property, plant and equipment is carried at cost and reduced by depreciation for wear and tear. The cost of an item of property, plant and equipment comprises all costs directly attributable to the production process, as well as an appropriate proportion of production overheads. Financing costs were not recognised in the years under review, as they could not be directly allocated to any particular development.

Useful life of property, plant and equipment

Asset	Depreciation method	Depreciation period
Computer hardware	straight-line	3 to 5 years
Office equipment	straight-line	5 to 25 years
Leasehold improvements	straight-line	based on lease term

Repair and maintenance costs are expensed as incurred.

If it is probable that the future economic benefits associated with an item of property, plant and equipment will flow to the Group and the cost of the respective asset can be reliably determined, expenditure subsequent to acquisition is added to the carrying amount of the asset as incurred. The carrying amounts of the parts of the asset that have been replaced are derecognised.

Financial assets

Financial assets comprise investments in associates and financial assets as described in the [Financial instruments](#) section.

Investments in associates consist of investments in joint ventures and other associates. They are generally measured at cost on initial recognition and accounted for using the equity method upon subsequent measurement.

If final financial information for associates and joint ventures as of the balance sheet date is not available when the consolidated financial statements of Deutsche Börse Group are prepared, preliminary financial information is used. Should the final financial information of an associate or joint venture become available before the authorization of the consolidated financial statements and material differences between the preliminary and final

Table of Contents

financial information exists, the consolidated financial statements are adjusted accordingly. Otherwise the differences are reflected in the next reporting period. For the years ended December 31, 2008, 2009 and 2010, there were no material differences, either individually or in the aggregate, between preliminary and final financial information of associates or joint ventures.

Deutsche Börse Group reviews all financial reporting of its associates and joint ventures. Most of Deutsche Börse's associates' and joint ventures' financial reports are based on IFRS. However, certain associates provide Deutsche Börse Group with their financial information in accordance with other local accounting standards. Deutsche Börse Group performs a review of the financial information received; part of this review is to determine if there are any material differences between the local GAAP and IFRS as issued by the IASB. Deutsche Börse Group has not identified any material differences between local GAAP and IFRS as established by the IASB for these associates. Joint ventures or other associates that are insignificant for the presentation of a true and fair view in the consolidated financial statements are not accounted for using the equity method, but are carried at cost.

Impairment testing

In accordance with IAS 36, noncurrent non-financial assets are tested for impairment. At each balance sheet date, the Group assesses whether there is any indication that an asset may be impaired. In this case, the carrying amount is compared with the recoverable amount (the higher of value in use and fair value less costs to sell) to determine the amount of any potential impairment. The value in use is estimated on the basis of the discounted estimated future cash flows from continuing use of the asset and from its ultimate disposal, before taxes. For this purpose, discount rates are estimated based on the prevailing pre-tax weighted average cost of capital. If no recoverable amount can be determined for an asset, it is allocated to a cash-generating unit, for which the recoverable amount is calculated.

Irrespective of any indications of impairment, intangible assets with indefinite useful lives and intangible assets not yet available for use must be tested for impairment annually. If the estimated recoverable amount is lower than the carrying amount, an impairment loss is recognised, and the net book value of the asset is reduced to its estimated recoverable amount.

Goodwill is allocated to identifiable groups of assets (cash-generating units) or groups of cash-generating units that create synergies from the respective acquisition. This corresponds to the lowest level at which Deutsche Börse Group monitors goodwill. An impairment loss is recognised if the carrying amount of the cash-generating unit to which goodwill is allocated (including the carrying amount of this goodwill) is higher than the recoverable amount of this group of assets. The impairment loss is first allocated to the goodwill, then to the other assets in proportion to their carrying amounts.

A review is conducted at every balance sheet date to see whether there is any indication that an impairment loss recognised on noncurrent assets (excluding goodwill) in the previous period no longer applies. If this is the case, the carrying amount of the asset is increased and the difference is recognised in profit or loss. The maximum amount of this reversal is limited to the carrying amount that would have resulted if no impairment loss had been recognised in previous periods. In accordance with IAS 36, impairment losses on goodwill are not reversed.

Financial instruments

Financial instruments comprise financial assets and liabilities. For Deutsche Börse, financial assets are, in particular, other equity investments, receivables and securities from banking business, other financial instruments and other loans, receivables and other assets as well as bank balances. Financial liabilities relate primarily to interest-bearing liabilities, other noncurrent liabilities, liabilities from banking business, financial instruments of Eurex Clearing AG, cash deposits by market participants as well as trade payables.

Table of Contents

Recognition of financial assets and liabilities

Financial assets and liabilities are recognised when a Group company becomes a party to the contractual provisions of the instrument.

Financial assets and liabilities are generally recognised at the trade date. Loans and receivables from banking business, available-for-sale financial assets from banking business as well as purchases and sales of equities via the central counter-party (i.e. Eurex Clearing AG) are recognised at the settlement date.

Financial assets are initially measured at fair value; in the case of a financial asset that is not measured at fair value through profit or loss in subsequent periods, this includes transaction costs.

Subsequent measurement of financial assets and liabilities

Subsequent measurement of financial instruments follows the categories to which they are allocated in accordance with IAS 39 and which are described below. As in previous years, Deutsche Börse Group did not take advantage of the option to allocate financial assets to the held-to-maturity investments category in 2010. In addition, the Group waived the possibility to designate financial assets or liabilities at fair value through profit and loss (fair value option).

Assets held for trading

Derivatives that are not designated as hedging instruments as well as financial instruments of Eurex Clearing AG (see details below) are measured at fair value through profit or loss. Apart from financial instruments of Eurex Clearing AG this category includes in particular interest rate swaps, currency swaps and forward foreign exchange transactions.

Fair value of these derivatives is calculated based on observable current market rates. If resulting from banking business, realised and unrealised gains and losses are immediately recognised in the consolidated income statement as other operating income and other operating expenses or, if incurred outside the banking business, as financial income and financial expenses .

Available-for-sale financial assets

Non-derivative financial assets are classified as available-for-sale financial assets , if they cannot be allocated to the loans and receivables and assets held for trading categories. These assets comprise debt and equity investments recognised in the other equity investments and other financial instruments items as well as debt instruments recognised in the current and noncurrent receivables and securities from banking business items.

Available-for-sale financial assets are generally measured at the fair value observable in an active market. Unrealised gains and losses are recognised directly in equity in the revaluation surplus. Impairment and effects of exchange rates on monetary items are excluded from this general rule; they are recognised in profit or loss.

Equity instruments for which no active market exists are measured on the basis of current comparable market transactions, if these are available. If an equity instrument is not traded in an active market and alternative valuation methods cannot be applied to that equity instrument, it is measured at cost, subject to an impairment test.

Realised gains and losses are generally recognised under financial income or financial expense. Interest income is recognised in the consolidated income statement in net interest income from banking business based on the effective interest rate method. Other realised gains and losses are recognised in the consolidated income statement in other operating income and other operating expenses .

If debt instruments of banking business are hedged instruments under fair value hedges, hedge accounting is applied for fair value adjustments corresponding to the hedged item (see Fair value hedges below).

Table of Contents

Loans and receivables

Loans and receivables comprise in particular current and noncurrent receivables from banking business, trade receivables as well as other current receivables. They are recognised at amortised cost, taking into account any potential impairment losses, if applicable. Premiums and discounts are included in the amortised cost of the instrument concerned and are amortised using the effective interest method; they are contained in net interest income from banking business if they relate to banking business, or in financial income and financial expense.

Derecognition of financial assets and liabilities

Financial assets are derecognised when the contractual rights to the cash flows expire or when substantially all the risks and rewards of ownership of the financial assets are transferred. Financial liabilities are derecognised when the obligations specified in the contracts are discharged or cancelled.

Clearstream Banking S.A. acts as principal in securities borrowing and lending transactions in the context of the ASLplus securities lending system. Legally, it operates between the lender and the borrower without being an economic contracting partner (transitory items). In these transactions, the securities borrowed and lent match each other. Consequently, these transactions are not recognised in the consolidated balance sheet.

Netting of financial assets and liabilities

Financial assets and liabilities are offset and only the net amount is presented in the consolidated balance sheet when a Group company currently has a legally enforceable right to set off the recognised amounts and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Impairment of financial assets

Financial assets that are not measured at fair value through profit or loss are reviewed at each balance sheet date to establish whether there is any indication of impairment.

The criteria used by the Group to determine that there is objective evidence of an impairment loss include the following:

- (a) material financial difficulty of the issuer or obligor
- (b) a breach of contract
- (c) the lender, for economic or legal reasons relating to the borrower's financial difficulty, granting to the borrower a concession that the lender would not otherwise consider
- (d) it becomes probable that the borrower will enter bankruptcy or other financial reorganisation
- (e) the disappearance of an active market for that financial asset because of financial difficulties
- (f) observable data indicating that there is a measurable decrease in future cash flows, e.g. adverse changes in the payment status of borrowers in the portfolio

(g) downgrading by rating agencies

The amount of an impairment loss for a financial asset measured at amortised cost is the difference between the carrying amount and the present value of the estimated future cash flows, discounted at the original effective interest rate. A subsequent reversal is recognised at a maximum at the carrying amount that would have resulted if no impairment loss had been recognised.

The amount of an impairment loss for a financial asset (non-listed equity instrument) measured at cost is the difference between the carrying amount and the present value of the estimated future cash flows, discounted at a current market interest rate. Subsequent reversal is not permitted.

Table of Contents

In the case of available-for-sale financial assets, the impairment loss is calculated as the difference between cost and fair value. Any reduction in fair value already recognised in equity is reclassified to profit or loss upon determination of the impairment loss. A subsequent reversal may only be recognised for debt instruments if the reason for the original impairment loss no longer applies.

Financial liabilities not measured at fair value through profit and loss

Financial liabilities not held for trading are carried at amortised cost. These liabilities comprise issued bonds and private placements. The borrowing costs associated with the placement of financial liabilities are included in the carrying amount if they are directly attributable. Discounts reduce the carrying amount of liabilities and are amortised over the term of the liabilities.

Financial liabilities measured at fair value through profit and loss

According to IAS 32.18 (b), financial instruments that give the holder the right to put them back to the issuer for cash or other financial assets (puttable instruments) are financial liabilities and measured at fair value. Deutsche Börse Group does not report any puttable instruments at the reporting date; in the previous years, the non-controlling interests in Avox Ltd. were classified as puttable instruments. They had been reported under other current liabilities in 2009 and under other noncurrent liabilities in 2008.

Derivatives and hedges

Derivatives are used to hedge interest rate risk or foreign exchange risk associated with the activities of Deutsche Börse Group. All derivatives are carried at their fair values. The fair value of interest rate swaps is determined on the basis of current observable market interest rates. The fair value of forward foreign exchange transactions is determined on the basis of forward foreign exchange rates at the balance sheet date for the remaining period to maturity. Hedge accounting is applied for derivatives that are part of a hedging relationship determined to be highly effective under IAS 39 and for which the conditions of IAS 39.88 are met, as follows.

Cash flow hedges

The portion of the gain or loss on the hedging instrument determined to be highly effective is recognised directly in equity. This gain or loss ultimately adjusts the value of the hedged cash flow, i.e. the gain or loss from the hedging instrument is recognised in profit or loss when the hedged item is recognised in the balance sheet or in profit or loss. The ineffective portion of the gain or loss is recognised immediately in the consolidated income statement.

Fair value hedges

The gain or loss on the hedging instrument, together with the gain or loss on the hedged item (underlying) attributable to the hedged risk, is recognised immediately in the consolidated income statement. Any gain or loss on the hedged item adjusts its carrying amount.

Hedges of a net investment in a foreign operation

The effective portion of the gain or loss from a hedging transaction that is designated as a highly effective hedge is recognised directly in equity. It is recognised in profit or loss when the foreign operation is sold. The ineffective portion of the gain or loss is recognised immediately in the consolidated income statement.

Derivatives that are not part of a hedging relationship

Gains or losses on derivative instruments that are not part of a highly effective hedging relationship are recognised immediately in the consolidated income statement.

Table of Contents

Financial instruments of Eurex Clearing AG (central counterparty)

Eurex Clearing AG acts as the central counterparty and guarantees the settlement of all transactions involving futures and options on the Eurex exchanges (Eurex Deutschland and Eurex Zürich AG). As the central counterparty, it also guarantees the settlement of all transactions for Eurex Bonds (bond trading platform) and Eurex Repo (repo trading platform), certain exchange transactions in equities on Frankfurter Wertpapierbörse (FWB, the Frankfurt Stock Exchange) and certain cash market transactions on the Irish Stock Exchange. In addition, Eurex Clearing AG guarantees the settlement of all OTC (over-the-counter, i.e. off-exchange) transactions entered in the trading system of the Eurex exchanges, Eurex Bonds, Eurex Repo, the Frankfurt Stock Exchange and the Irish Stock Exchange. These transactions are only executed between Eurex Clearing AG and a clearing member.

In accordance with IAS 39.38, purchases and sales of equities via the central counterparty are recognised and simultaneously derecognised at the settlement date.

For products that are marked to market (futures and options on futures), Eurex Clearing AG recognises gains and losses on open positions of clearing members on each exchange day. By means of the variation margin, profits and losses on open futures positions resulting from market price fluctuations are settled on a daily basis. The difference between this and other margin types is that the variation margin does not comprise collateral, but is a daily offsetting of profits and losses in cash. In accordance with IAS 39.17 (a) and IAS 39.39, futures are therefore not reported in the consolidated balance sheet. For options on futures (future-style options), the option premium is not required to be paid in full until the end of the term or upon exercise. Option premiums are carried in the consolidated balance sheet as receivables and liabilities at their fair value on the trade date.

Traditional options, for which the buyer must pay the option premium in full upon purchase, are carried in the consolidated balance sheet at fair value. Correspondingly, credit default swaps are also carried at fair value. Fixed-income bond forwards are recognised as derivatives and carried at fair value until the settlement date. Receivables and liabilities from repo transactions are classified as held for trading and carried at fair value. Receivables and liabilities from variation margins and cash collateral that is determined on the reporting date and only paid on the following day are carried at their nominal amount.

The fair values recognised in the consolidated balance sheet are based on daily settlement prices. These are calculated and published by Eurex Clearing AG in accordance with the rules set out in the contract specifications (see also the Clearing Conditions of Eurex Clearing AG).

Cash or securities collateral of Eurex Clearing AG

As Eurex Clearing AG guarantees the settlement of all traded contracts, it has established a multi-level collateral system. The central pillar of the collateral system is the determination of the overall risk per clearing member (margin) to be covered by cash or securities collateral. Losses calculated on the basis of current prices and potential future price risks are covered up to the date of the next collateral payment.

In addition to these daily collateral payments, each clearing member must make contributions to the clearing fund. Cash collateral is reported in the consolidated balance sheet under cash deposits by market participants and the corresponding amounts under restricted bank balances. In accordance with IAS 39.20 (b) in conjunction with IAS 39.37, securities collateral is not derecognised by the clearing member providing the collateral, as the transfer of securities does not meet the conditions for derecognition.

Treasury shares

The treasury shares held by Deutsche Börse AG at the reporting date are deducted directly from shareholders' equity. In accordance with IAS 32.33, gains or losses on treasury shares are taken directly to equity. The transaction costs directly attributable to the acquisition of treasury shares are accounted for as a deduction from shareholders' equity (net of any related income tax benefit).

Table of Contents

Other current assets

Receivables, other assets, and cash and cash equivalents are carried at their nominal amount. Adequate valuation allowances take account of identifiable risks.

Restricted bank balances include cash deposits by market participants which are invested largely overnight, mainly in the form of reverse repurchase agreements with banks. Cash funds attributable to the Clearstream subgroup arising from minimum reserve requirements at central banks are also included in this item.

Provisions for pensions and other employee benefits

Provisions for pension obligations are measured using the projected unit credit method on the basis of actuarial reports in accordance with IAS 19. The obligations are measured at the balance sheet date each year using actuarial methods that conservatively estimate the relevant parameters. The pension benefits expected on the basis of projected salary growth are spread over the remaining length of service of the employees. The calculations are based on generally accepted industry mortality tables.

In Germany, the 2005 G mortality tables (generation tables) developed by Prof Dr Klaus Heubeck are used, modified by statistical information gathered by the German Federal Statistical Office and Deutsche Rentenversicherung (the German statutory pension insurance scheme) in the years 2006 to 2008 (for 2009: the mortality tables were modified by information from the life tables 2005 to 2007 published by the German Federal Statistical Office; for 2008: the 2005 G mortality tables were applied).

In accordance with IAS 19.92, Deutsche Börse Group recognises a portion of its actuarial gains and losses as income or expense if the net cumulative unrecognised actuarial gains or losses of each company and plan at the end of the previous reporting period have exceeded the greater of 10 percent of the present value of the defined benefit obligation before deduction of plan assets and 10 percent of the fair value of plan assets. The portion of actuarial gains and losses recognised is the excess determined above, divided by the expected average remaining working lives of the employees participating in the retirement benefit plans.

Retirement provision for Group employees is ensured by a variety of retirement benefit plans, the use of which varies from country to country.

There has been a deferred compensation plan for employees of Deutsche Börse Group in Germany since 1 July 1999. Since its introduction, new commitments have been entered into on the basis of this deferred compensation plan; the existing pension plans were closed for new staff as at 30 June 1999. Employees with pension commitments under the old retirement benefit arrangements were given an option to participate in the deferred compensation plan by converting their existing pension rights. Individual commitment plans exist for members of the executive boards of Group companies.

In the period from 1 January 2004 to 30 June 2006, senior executives in Germany were offered the opportunity to participate in the following pension system based on capital components : the benefit is based on annual income received, composed of fixed annual salary and the variable remuneration paid. Every year, participating Group companies provide for an amount that corresponds to a certain percentage of the pensionable income. This amount is multiplied by a capitalisation factor depending on age, resulting in the annual capital component . The benefit assets equal the total of the acquired capital components of the individual years and are converted into a lifelong pension once the benefits fall due.

The employees of the Clearstream subgroup in Luxembourg participate in separate defined benefit pension plans. The defined benefit pension plan in favour of Luxembourg employees of the Clearstream subgroup is funded by means of cash contributions to an association d'épargne pension (ASSEP) organised in accordance with Luxembourg law. Contributions may or may not cover the entire provisions calculated as per IAS 19, but they must cover pension provisions as determined under Luxembourg law.

Table of Contents

Deutsche Börse Group uses external funds to cover some of its pension obligations. The amount of the annual net pension expense is reduced by the expected return on the plan assets of the funds. The defined benefit obligations are offset against the fair value of the plan assets taking into account unrecognised actuarial gains and losses as well as past service cost as yet unrecognised. In addition, the pension obligations of Deutsche Börse Group are secured in part by reinsurance policies. The capitalised surrender value of these reinsurance policies is carried under other noncurrent assets .

Employees of STOXX Ltd. and Eurex Zürich AG participate in separate defined benefit pension plans. The employees are insured by a pension fund from SIX Swiss Exchange AG at PREVAS Sammelstiftung, Zurich. Assets from this pension fund attributable to the employees of STOXX Ltd. and Eurex Zürich AG are recognised as plan assets in accordance with IAS 19.

There are defined contribution pension plans for employees working in Germany, Luxembourg, Switzerland, the Czech Republic, the UK or the USA. The employer pays contributions to these employees' private pension funds.

Other long-term benefits for employees and members of executive boards (total disability pension, transitional payments and surviving dependents' pensions) are also measured using the projected unit credit method. In accordance with IAS 19.127, actuarial gains and losses and past service cost are recognised immediately and in full.

Other provisions

Provisions are recognised if the Group has a present obligation from an event in the past, an outflow of resources with economic benefit to settle the obligation is probable and it is possible to reliably estimate the amount of this obligation. The amount of the obligation corresponds to the best possible estimate of the expense which is necessary to settle the obligation at the balance sheet date. A provision for restructuring is only recognised when an entity has a detailed formal plan for the restructuring and has raised a valid expectation in those affected that the restructuring measures will be implemented, for example by starting to implement that plan or announcing its main features to those affected by it. Contingent liabilities are not recognised, but disclosed unless the possibility of an outflow of resources embodying economic benefits is remote.

Group Share Plan, phantom stock option plan and Stock Bonus Plan (SBP)

Accounting for the Group Share Plan, the phantom stock option plan and the Stock Bonus Plan follows IFRS 2 Share-based payment .

Group Share Plan

Under the Group Share Plan, shares are granted at a discount to the market price. The expense of this discount is recognised in the income statement at the grant date. Options granted follow the accounting principles for share-based payments with a choice of settlement in cash or equity instruments. In 2010, the Company resolved to settle the 2004 to 2006 GSP tranches in cash. Accordingly, Deutsche Börse Group has measured the GSP shares as cash-settled share-based payment transactions since the above decision. The expenses for the options are determined using an option pricing model (fair value measurement) and recognised in staff costs. The 2003 tranche, which had been recognised as cash-settled share-based payment in 2009 and 2008, expired on 30 June 2009.

The cost of the GSP shares offered to the employees of the US subsidiary International Securities Exchange Holdings, Inc. at a discount is recognised in the income statement at the grant date. GSP share grants are accounted for as equity-settled share-based payments. The GSP shares are measured at their fair value at the grant date and recognised in the income statement over a three-year vesting period (2009 and 2008: over the one-to-three-year-vesting period), with a corresponding increase in shareholders' equity.

Table of Contents

Phantom stock option plan

Options granted follow the accounting principles for cash-settled share-based payments. The cost of the options is estimated using an option pricing model and recognized in staff costs in the income statement over a three-year vesting period with a corresponding entry to liabilities.

Stock Bonus Plan (SBP)

The SBP shares are generally accounted for as share-based payments for which Deutsche Börse AG has a choice of settlement in cash or equity instruments. In 2009, the Company resolved to settle the SBP tranche due in 2010 in cash for the first time. In 2010, the Company also resolved to settle the tranche due in 2011 in cash. Under these circumstances, there is at present a presumption in accordance with IFRS 2 that all SBP shares will be settled in cash. Accordingly, Deutsche Börse Group has measured the SBP shares as cash-settled share-based payment transactions. The costs under this stock bonus program are recognized over a three-year service period in the income statement with a corresponding entry to liabilities.

A separate variable share-based payment has been agreed for Deutsche Börse AG's Executive Board since financial year 2010. Starting with the 100 percent stock bonus target defined at the beginning of the financial year, the corresponding number of virtual shares is calculated for each Executive Board member on the basis of Deutsche Börse AG's average share price in the preceding two months. The calculation of the subsequent payout amount of the stock bonus depends on the change in relative shareholder return and Deutsche Börse AG's share price performance. Claims under this stock bonus programme are settled in cash after the expiration of the three-year performance period.

Deferred tax assets and liabilities

Deferred tax assets and liabilities are computed using the balance sheet approach in accordance with IAS 12. The deferred tax calculation is based on temporary differences between the carrying amounts in the tax accounts and the carrying amounts in the IFRS financial statements that lead to a future tax liability or benefit when assets are used or sold or liabilities are settled. Deferred taxes are only recognised on differences resulting from the recognition of goodwill, if the goodwill in question was acquired externally.

The deferred tax assets or liabilities are measured using the tax rates that are currently expected to apply when the temporary differences reverse, based on tax rates that have been enacted or substantively enacted by the reporting date. Deferred tax assets are recognised for the carryforward of unused tax losses only to the extent that it is probable that future taxable profit will be available. Deferred tax assets and deferred tax liabilities are offset where a legally enforceable right to set off current tax assets against current tax liabilities exists and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority.

Leases

Leases are classified as operating leases or finance leases. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of the asset from the lessor to the lessee. All other leases are classified as operating leases.

Leased assets and the associated liabilities are recognised at the lower of fair value and the present value of the minimum lease payments if the criteria for classification as a finance lease are met. The leased asset is depreciated or amortised using the straight-line method over its useful life or the lease term, if shorter. In subsequent periods, the liability is measured using the effective interest method.

Expenses incurred in connection with operating leases are recognised as an expense on a straight-line basis over the lease term.

Table of Contents

Currency translation

In accordance with IAS 21, foreign currency transactions are translated at the exchange rate prevailing at the transaction date.

At the balance sheet date, monetary balance sheet items in foreign currency are measured at the exchange rate at the balance sheet date, while non-monetary balance sheet items recognised at historical cost are measured at the exchange rate on the transaction day. Non-monetary balance sheet items measured at fair value are translated at the closing rate on the valuation date. Exchange rate differences are recorded as other operating income or expense in the period in which they arise unless the underlying transactions are hedged. Gains and losses from a monetary item that forms part of a net investment in a foreign operation are recognised directly in accumulated profit.

Consolidation

All subsidiaries directly or indirectly controlled by Deutsche Börse AG are included in Deutsche Börse AG's consolidated financial statements. This condition is generally met if Deutsche Börse AG directly or indirectly holds more than half of the voting rights or is otherwise able to govern the financial and operating policies of the other entity.

Initial consolidation of subsidiaries in the course of business combinations uses the purchase method. The acquirer's identifiable assets, liabilities and contingent liabilities are recognised at their fair values at the acquisition date. Any excess of cost over the acquirer's interest in the net fair value of the subsidiary's net identifiable assets is recognised as goodwill. Goodwill is measured in subsequent periods at cost less accumulated impairment losses.

Intragroup assets and liabilities are eliminated. Income arising from intragroup transactions is eliminated against the corresponding expenses. Profits or losses arising from deliveries of intragroup goods and services, as well as dividends distributed within the Group, are eliminated. Deferred tax assets or liabilities are recognised for consolidation adjustments where these are expected to reverse in subsequent years.

Interests in equity attributable to non-controlling interest shareholders are carried under non-controlling interests within equity. Where these are classified as puttable instruments, they are reported under liabilities.

Deutsche Börse AG's functional currency is the euro. Investments in subsidiaries outside the euro area, as well as investee equity items, are translated at historical exchange rates. Assets and liabilities of companies whose functional currency is not the euro are translated into euros at the closing rate. In accordance with IAS 21, income statement items are translated using average exchange rates. Resulting exchange differences are recognised directly in accumulated profit. When a subsidiary is disposed of, the cumulative exchange rate differences that relate to this subsidiary and that were recognised in accumulated profit are recognised in consolidated profit in the period in which the deconsolidation gain or loss is recognised.

The following euro exchange rates of consequence to Deutsche Börse Group were applied:

Exchange rates

		Average rate 2010	Average rate 2009	Average rate 2008	Closing rate as at 31 Dec. 2010	Closing rate as at 31 Dec. 2009	Closing rate as at 31 Dec. 2008
Swiss francs	CHF	1.3338	1.5094	1.5602	1.2499	1.4858	1.4888
US dollars	USD (US\$)	1.3153	1.4092	1.5012	1.3342	1.4413	1.4062
Czech koruny	CZK	25.2213	26.2347	25.1561	25.0554	26.4224	26.6629
Pounds sterling	GBP (£)	0.8557	0.8946	0.8395	0.8614	0.8934	0.9744

Any goodwill arising on the acquisition of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising from initial consolidation are presented in the functional currency of the foreign operation and translated at the closing rate.

Table of Contents

Key sources of estimation uncertainty and management judgements

The application of accounting policies, presentation of assets and liabilities and recognition of income and expenses requires the Executive Board to make certain judgements and estimates. Adjustments in this context are taken into account in the period the change was made as well as in subsequent periods, where necessary.

Note 14 contains information on the assumptions applied in performing annual impairment tests on goodwill and intangible assets with an indefinite useful life. In each case, the respective business plans serve as the basis for determining any impairment. These plans contain projections of the future financial performance of the cash-generating units. If their actual financial performance fails to meet these expectations, corresponding adjustments may be necessary.

Accounting for provisions for pensions and similar obligations requires the application of certain actuarial assumptions (e.g. discount rate, staff turnover rate) so as to estimate their carrying amounts (see above). Note 25 shows the present value of the obligations at each balance sheet date. These assumptions may fluctuate considerably, for example because of changes in the macroeconomic environment, and may thus materially affect provisions already recognised. However, this effect is mitigated by application of the corridor method.

Deutsche Börse AG or its group companies are subject to litigation. Such litigation may lead to orders to pay against the entities of the group. If it is more likely than not that an outflow of resources will occur, a provision will be recognised based on an estimate of the most probable amount necessary to settle the obligation. Management judgement includes the determination whether there is a possible obligation from past events, the evaluation of the probability that an outflow will occur and the estimation of the potential amount. As the outcome of litigation is usually uncertain, the judgement is reviewed continuously.

Note 45 contains disclosures on the valuation model used for the stock options. Where the estimates of the valuation parameters originally applied differ from the actual values available when the options are exercised, adjustments are necessary; such adjustments are recognised in the consolidated income statement for the period if they relate to cash-settled share-based payment transactions.

In addition, the probable utilisation applied when establishing provisions for expected losses from rental agreements is estimated (see note 27). In the creation of personnel-related restructuring provisions, certain assumptions were made with regard to, for example, fluctuation rate, discount rate and salary trends. Should the actual values deviate from these assumptions, adjustments may be necessary.

Total	2,106.3	2,061.7	2,455.1

Xetra and Eurex sales revenue is composed principally of trading and clearing revenue. Xetra charges a fee per executed order and depending on order value, Eurex charges a fee per contract. The Eurex trading and clearing fees represent the contractual 85 percent of transaction fees invoiced by Eurex Clearing AG. The remaining 15 percent are transferred to SIX Swiss Exchange AG and are not included in Deutsche Börse Group's consolidated financial statements.

2010 compared to 2009

Sales revenue in the Xetra segment amounted to 262.3 million (2009: 292.1 million); this corresponds to an increase of 7 percent, adjusted for the effect of the deconsolidation of Scoach Holding S.A. This positive development was caused by a 17 percent rise in trading volumes on Xetra and on the floor of the Frankfurt Stock Exchange, the impact of which on revenue was partially offset by price reductions implemented in 2009 and 2010.

The 2 percent rise in sales revenue to 858.7 million (2009: 838.4 million) in the Eurex segment is due to a 21 percent increase in revenue from interest rate products to 182.0 million (2009: 149.9 million) and a 6 percent increase in revenue from index products to 378.9 million

(2009: 358.9 million). Together, these

F-81

Table of Contents

offset the negative development of revenue from ISE's options trading business (27 percent to 112.9 million; 2009: 153.7 million). The increase in interest rate products is attributable to a 23 percent rise in the number of traded contracts to 574.8 million (2009: 465.7 million traded contracts). The increase in index products is the result of a shift from equity index options (lower average price) to equity index futures (higher average price) as well as a strong rise in index dividend products (by 77 percent compared to 2009).

At 760.7 million, sales revenue in the Clearstream segment was up 2 percent on the previous year's level (2009: 742.7 million). Custody revenue rose by 2 percent to 451.8 million (2009: 441.1 million), driven by a 5 percent increase in average custody volumes to 10,897.4 billion (2009: 10,345.7 billion). Transaction revenue rose by only 4 percent to 118.4 million (2009: 114.2 million) whereas the number of transactions increased by 14 percent to 116.4 million (2009: 102.0 million). This was attributable on the one hand to price reductions for the settlement of German securities as from 1 July 2009 and on the other hand to the lower percentage of transactions on higher priced external connections.

Sales revenue in the Market Data & Analytics segment rose by 19 percent to 224.6 million (2009: 188.5 million). The rise is mainly due to STOXX Ltd. (30.9 million), which has been fully consolidated since 1 January 2010.

2009 compared to 2008

The 35 percent decline in sales revenue in the Xetra segment to 292.1 million (2008: 448.7 million) was largely due to the fall in revenue from Xetra trading fees and clearing and settlement fees. This in turn was attributable to the 51 percent decrease in the Xetra trading volume to 1,060.6 billion (2008: 2,149.0 billion). Floor trading revenue on the Frankfurt Stock Exchange was also down 34 percent due to the drop in the trading volume. Furthermore, the Automated Trading Program (ATP) rebate model, which had been launched by the Xetra segment in 2004, was replaced by a pricing model with reduced transaction fees for all speed-optimised orders as of 2 November 2009. Speed-optimised orders are those placed as non-persistent orders (i.e. not stored additionally in the Xetra system) via the new Enhanced Transaction Solution high-speed interface. The modified pricing model was estimated to reduce transaction fees for Xetra trading participants by an average of 13 percent. In addition, the ATP rebate model was extended to all Xetra orders in clearing. In this context, the fixed clearing fee was also lowered in two steps, on 1 July and 2 November 2009, from an initial 0.18 to 0.06 per executed order. Transaction fees for clearing customers were thus reduced by an average of 28 percent.

The 19 percent decline in sales revenue in the Eurex segment to 838.4 million (2008: 1,035.3 million) was largely due to the 17 percent fall in the number of traded contracts (including US options of ISE) and the merger of ISE Stock Exchange, LLC (sales revenue in 2008: 25.7 million) and Direct Edge Holdings, LLC, which had been accounted for as an associate since 29 December 2008.

At 742.7 million, sales revenue in the Clearstream segment was down 6 percent year-on-year (2008: 790.5 million). Transaction revenue recorded the sharpest decline, falling 19 percent year-on-year to 114.2 million. This was mainly due to the 11 percent fall in the number of transactions to 102.0 million. Moreover, revenue from Global Securities Financing (GSF) was down 18 percent year-on-year, while the average GSF volume rose 21 percent to 483.6 billion. This was caused by the increase in the percentage attributable to Xemac from 53 percent to 69 percent.

Sales revenue in the Market Data & Analytics segment rose by 4 percent to 188.5 million (2008: 180.6 million). This was due entirely to Market News International Inc. (10.0 million), which had been fully consolidated since 26 January 2009.

Table of Contents

5. Net interest income from banking business

Composition of net interest income from banking business

	2010	2009	2008
	m	m	m
Loans and receivables	101.8	133.9	396.3
Financial liabilities measured at amortised cost	66.0	86.4	199.9
Available-for-sale financial assets	27.4	44.7	25.0
Financial assets or liabilities measured at fair value through profit or loss:			
Interest income	7.1	8.4	17.0
Interest expense	7.1	13.1	19.3
Interest income interest rate swaps cash flow hedges	0	16.9	45.0
Interest income interest rate swaps fair value hedges	0.9	2.3	8.6
Interest expense interest rate swaps cash flow hedges	0	3.8	28.9
Interest expense interest rate swaps fair value hedges	4.7	5.5	7.0
Total	59.4	97.4	236.8

Net interest income from banking business decreased by 39 percent to 59.4 million in 2010 (in 2009: decrease of 59 percent to 97.4 million compared to 2008).

Net interest income on financial assets or liabilities measured at fair value through profit or loss results from derivatives held for trading.

6. Other operating income

Composition of other operating income

	2010	2009	2008
	m	m	m
Income from agency agreements	23.7	27.7	33.2
Gains on the disposal of equity investments and subsidiaries	10.7	7.0	9.4
Income from exchange rate differences	6.6	10.1	9.2
Gains on the disposal of bonds	6.0	0	0
Rental income from sublease contracts	4.1	5.3	8.1
Termination of financial loss liability insurance	0	66.7	0
Miscellaneous	9.9	13.8	6.8
Total	61.0	130.6	66.7

Income from agency agreements results largely from the operational management of the Eurex Zürich AG derivatives market for SIX Swiss Exchange AG.

Gains on the disposal of equity investments and subsidiaries amounting to 10.7 million resulted from the disposal of the 77 percent interest in Avox Ltd. at the beginning of July 2010. In 2009, gains on disposal of equity instruments amounting to 7.0 million included mainly gains on the merger of The Clearing Corporation Inc. with ICE U.S. Trust Holding Company LP and gains on the sale of the interest in London Stock Exchange plc. In 2008, gains on disposal of equity investments amounting to 9.4 million related to the termination of a joint venture between ISE Ventures, LLC and the Canadian TSX Group Inc.

For details of rental income from sublease contracts see note 44.

Miscellaneous other operating income includes income from cooperation agreements and from training, employee contributions to company cars and valuation adjustments.

7. Staff costs

Composition of staff costs

	2010	2009	2008
	m	m	m
Wages and salaries	403.6	328.0	352.3
Social security contributions, retirement and other benefits	98.4	66.3	57.5
Total	502.0	394.3	409.8

2010 compared to 2009

In 2010, wages and salaries expense rose by 23 percent to 403.6 million (2009: 328.0 million).

This item includes the costs of efficiency programmes amounting to 77.6 million (2009: 16.2 million). Adjusted for these costs, wages and salaries expense fell by 5 percent. The decline is primarily the result of the severance payment of 5.8 million to the former Chief Financial Officer in 2009, which included compensation for performance-related remuneration no longer granted for financial year 2008 as well as for the period to 30 April 2009. Further reasons for the lower wages and salaries expense are a decline of 6.2 million in share-based payments, increased capitalisation and savings because of efficiency programmes. This is partially offset by the initial inclusion of wages and salaries for employees of STOXX Ltd. amounting to 5.6 million in financial year 2010.

Social security contributions, retirement and other benefit costs increased by 48 percent to 98.4 million (2009: 66.3 million). This item includes costs of efficiency programmes amounting to 23.9 million (2009: nil). Adjusted for these costs, social security contributions, retirement and other benefit costs increased by 12 percent, of which 24.2 million (2009: 24.1 million) related to contributions to defined contribution pension plans. Pension expenses for defined benefit plans rose to 23.9 million (2009: 17.8 million).

2009 compared to 2008

In 2009, wages and salaries expense fell by 7 percent to 328.0 million (2008: 352.3 million). This was due to several effects: bonus expenses fell to 46.8 million (2008: 65.2 million). This was offset by the wages and salaries of employees of Market News International Inc. amounting to 4.8 million included for the first time in financial year 2009 and the above-mentioned severance payment of 5.8 million.

Social security contributions, retirement and other benefit costs increased by 15 percent to 66.3 million in 2009 (2008: 57.5 million). Thereof, 24.1 million (2008: 24.0 million) related to contributions to defined contribution pension plans. The first-time inclusion of Market News International Inc. accounted for 1.2 million of this amount. Pension expenses for defined benefit plans rose to 17.8 million (2008: 15.7 million).

For details on defined benefit pension plans, see note 25.

8. Depreciation, amortisation and impairment losses

Depreciation, amortisation and impairment losses

	2010	2009	2008
	m	m	m
Intangible assets	544.0	522.7	93.6
Property, plant and equipment	39.5	46.4	43.5
Total	583.5	569.1	137.1

Table of Contents

9. Other operating expenses

Composition of other operating expenses

	2010	2009	2008
	m	m	m
Costs for IT services providers and other consulting services	124.6	114.2	115.7
IT costs	81.4	91.9	82.7
Premises expenses	72.6	93.8	70.9
Non-recoverable input tax	34.3	33.6	45.1
Advertising and marketing costs	16.6	19.2	23.8
Travel, entertainment and corporate hospitality expenses	15.5	15.6	19.3
Cost of agency agreements	14.9	22.2	22.6
Insurance premiums, contributions and fees	11.6	12.1	14.2
Cost of exchange rate differences	8.8	5.8	6.5
Non-wage labour costs and voluntary social benefits	8.6	10.0	12.0
Supervisory Board remuneration	4.5	5.1	4.1
Miscellaneous	21.3	9.9	22.1
Total	414.7	433.4	439.0

Costs for IT services providers and other consulting services relate mainly to expenses in conjunction with software development. An analysis of development costs is presented in note 10. These costs also contain costs of strategic and legal consulting services as well as of audit activities.

The total fees for the auditor consist of the following items:

Composition of fees for the auditor

	2010	2009	2008
	m	m	m
Statutory audit	1.8	2.2	1.3
Tax advisory services	1.2	0.5	0.5
Other assurance or valuation services	0.2	0.2	0.1
Other services	0.8	1.2	0.5
Total	4.0	4.1	2.4

2010 compared to 2009

IT operating costs contain the costs for rental, leasing and maintenance of hardware and software as well as communication costs (network costs). The 11 percent decline in 2010 is based on additional expenses for system changeovers in office communications, the operation of the ISE system and a provision for expected losses for the Eurex Credit Clear system in the previous year.

Premises expenses relate primarily to the cost of providing office space. They include rent, maintenance, security, energy, cleaning and miscellaneous premises expenses. The decline is primarily the result of provisions for expected losses and the restoration of the Neue Börse building complex at the Frankfurt/Main location (2010: 5.1 million; 2009: 18.9 million).

Non-recoverable input tax results mainly from the VAT-free trading and clearing fees charged in the Eurex segment, and from tax-free service fees from payment services.

The cost of agency agreements relates to the costs of SIX Swiss Exchange AG, which renders services for the Eurex subgroup and Scoach Schweiz AG. The year-on-year decline results from the deconsolidation of Scoach Schweiz AG.

Table of Contents

Miscellaneous other operating expenses include licence fees, donations, cash transaction and processing error costs, maintenance fees, external labour and losses from the disposal of noncurrent assets.

2009 compared to 2008

The 11 percent increase in IT costs in 2009 is based on additional expenses for the system changeovers in office communications and the operation of the ISE system, as well as a provision for anticipated losses for the Eurex Credit Clear system.

The rise in premises expenses was mainly the result of provisions for anticipated losses and restorations, which rose by 15.2 million year-on-year.

The decline in non-recoverable input tax was mainly the result of changes in service relationships with Eurex companies.

The increase in total fees for the auditor was the result of a change in disclosure requirements since 2009. In the previous year, only the fee for the auditor of the consolidated financial statements, KPMG AG Wirtschaftsprüfungsgesellschaft, Berlin, Germany, was required to be reported.

10. Research and development costs

Own expenses capitalised relate solely to development costs of internally developed software, involving the following systems and projects in the individual segments:

Research and development costs

Income from exchange rate differences	0	0	18.2
Other interest and similar income	3.5	2.9	0.7
Total	24.0	51.0	237.6

Table of Contents

Due to persistently low interest rates and declining average volumes of deposited funds, interest income from reverse repurchase agreements fell by 59 percent year-on-year (2009: decline of 76 percent; 2008: increase of 77 percent). In addition to Deutsche Börse Group's continuing conservative investment strategy, these factors also led to a decline in interest on bank balances classified as loans and receivables.

Composition of financial expense

	2010	2009	2008
	m	m	m
Interest on noncurrent loans ¹⁾	95.8	93.4	60.8
Interest on taxes	22.5	0	0

Transaction costs of noncurrent liabilities ¹⁾	1.9	1.6	0.9
Interest-like expenses for exchange rate differences on liabilities ¹⁾	0.8	0	3.0
Interest-like expenses for derivatives held as hedging instruments	0	0.6	5.6
Other costs	2.5	1.9	1.9
Total	132.2	130.7	277.1

1) Measured at amortised cost
2010 compared to 2009

For the aforementioned reasons, the interest paid on Eurex participants' cash deposits also fell significantly year-on-year. The interest on taxes relates to expected interest expense in connection with back payments of taxes and external tax audits. Other costs relate to commitment fees for credit facilities.

2009 compared to 2008

Interest paid on Eurex participants' cash deposits also fell significantly year-on-year 2009 to 2008. Interest on noncurrent loans increased due to the issue of euro and US dollar senior bonds and a hybrid bond in June and July 2008. Interest on current liabilities included 3.3 million (2008: 6.8 million) for the commercial paper program. In 2008, it had also contained interest expenses of 29.6 million for the interim financing of the acquisition of ISE. Other costs relate to commitment fees for credit facilities.

13. Income tax expense

Composition of income tax expense (main components)

	2010	2009	2008
	m	m	m
Current income taxes:			
of the year under review	249.3	288.2	450.3
from previous years	18.9	18.6	2.2
Deferred tax income on temporary differences	205.9	219.9	29.5
Total	24.5	86.9	418.6

Tax rates of 26 to 31 percent were used in 2010 to calculate deferred taxes for the German companies (2009 and 2008: 26 to 32 percent). These reflect trade income tax at multipliers of 280 and 460 percent (2009 and 2008: 280 and 460 percent) on the tax base value of 3.5 percent (2009 and 2008: 3.5 percent), corporation tax of 15 percent (2009 and 2008: 15 percent) and the 5.5 percent solidarity surcharge (2009 and 2008: 5.5 percent) on the corporation tax.

Table of Contents

A tax rate of 28.59 percent (2009 and 2008: 28.59 percent) was used for the Luxembourg companies, reflecting trade income tax at a rate of 6.75 percent (2009 and 2008: 6.75 percent) and corporation tax at 22 percent (2009 and 2008: 22 percent).

Tax rates of 17 to 45 percent were applied to the companies in the UK, Portugal, Singapore, Switzerland, Spain, the Czech Republic and the USA (2009: 20 to 45 percent; 2008: 21 to 45 percent).

The following table shows the carrying amounts of deferred tax assets and liabilities as well as the related tax expenses recognised in income or directly in equity.

Composition of deferred taxes

	Deferred tax assets			Deferred tax liabilities			Exchange rate differences	Deferred tax expense/ (income)			Tax expense/ (income) recognised directly in equity

1) Thereof 83.1 million from changes in the basis of consolidation that results from the acquisition of the shares in Need to Know News, LLC and STOXX Ltd.

2) Thereof 190.4 million (2009: 175.5 million) from impairments of other intangible assets of ISE

3) Separate disclosure in the consolidated statement of changes in equity under revaluation surplus

4) Separate disclosure in the consolidated statement of changes in equity under accumulated profit

Changes taken directly to equity relate to deferred taxes on changes in the measurement of noncurrent financial assets carried at fair value (see also note 24).

15.4 million (2009: 12.3 million; 2008: 9.3 million) of deferred tax assets and 278.4 million (2009: 450.7 million; 2008: 570.7 million) of deferred tax liabilities have an expected remaining maturity of more than one year.

Table of Contents

Deferred tax liabilities have not been recognised in respect of the tax on future dividends that may be paid from retained earnings by subsidiaries and associated companies. In accordance with section 8b (5) of the Körperschaftsteuergesetz (KStG, the German Corporation Tax Act), 5 percent of dividends and similar income received by German companies is treated as non-deductible expenses for tax purposes.

Reconciliation between the expected and the reported tax expense

	2010	2009	2008
	m	m	m
Expected income taxes derived from earnings before tax	117.4	161.8	470.0
Change of non-recognised losses carried forward	14.7	14.2	2.8
Tax increases due to other non-tax-deductible expenses	5.3	3.9	6.0
Effects resulting from different tax rates	22.7	23.3	20.2
Tax decreases due to dividends and income from the disposal of equity investments	42.1	49.8	30.1
Exchange rate differences	28.8	9.6	4.6
Other	0.4	0.5	2.5
Income tax expense arising from current year	43.4	68.3	420.8
Prior-period income taxes	18.9	18.6	2.2
Income tax expense	24.5	86.9	418.6

To determine the expected tax expense, earnings before tax have been multiplied by the combined tax rate of 28 percent assumed for 2010 (2009: 29 percent; 2008: 32 percent).

At the end of the financial year, accumulated unused tax losses amounted to 54.7 million (2009: 16.6 million; 2008: 144.2 million), for which no deferred tax assets were recognised. Tax losses of 0.7 million were utilised in 2010 (2009: 37.4 million; 2008: 8.8 million).

The losses can be carried forward in Germany subject to the minimum taxation rules, and in Luxembourg indefinitely, as the law now stands. Losses in other countries can be carried forward for periods of up to 20 years.

Table of Contents

Software, payments on account and construction in progress

Additions to and reclassifications of software relate primarily to the development of software products for the Clearstream segment and to the expansion of the Xetra and Eurex electronic trading systems. The changes in the basis of consolidation (see note 2) result from the disposal of Avox Ltd (2009: purchase of Need to Know News, LLC).

Purchased software includes leased assets of which, in accordance with IAS 17, the Group is the beneficial owner. The net carrying amount of the leased assets amounted to 0.2 million as at 31 December 2010 (2009: 0.8 million; 2008: 1.4 million).

6.6 million of the impairment losses on internally developed software relates to releases 9.0 to 12.0 of the Eurex trading system and 0.2 million relates to the Longitude system in the Eurex segment, while 0.7 million relates to the Reference Data Factory and X-List systems in the Clearstream segment (2009: Converter system in the Clearstream segment and Longitude system in the Eurex segment, 2008: ISE's Eurex Longitude and Eurex Option Trading systems as well as the Self-Collateralisation system in the Clearstream segment).

Derivatives trading is due to be transferred in 2013 from the Eurex trading system to a newly developed trading platform, which will lead to a decline in the expected future cash flows for the Eurex releases; as a result, an impairment loss was charged in financial year 2010 on Eurex releases 9.0 to 12.0 (6.6 million). The remaining useful life of Eurex releases 11.0 and 12.0, which was previously estimated to 2013 and 2014 respectively, was reduced so that it now ends with the expected migration to the new system.

The impairment loss charged in 2010 in the Clearstream segment is largely due to an adjustment of expected cash inflows. An impairment loss was also charged for the Reference Data Factory system in financial year 2010, because it was no longer possible to achieve the originally planned network cost savings.

The impairment losses in the Eurex and Clearstream segments were determined on the basis of the value in use of the assets concerned, using discount rates ranging from 6.0 to 12.9 percent (2009: 10.0 to 14.5 percent) in the Eurex segment and from 10.5 to 14.3 percent (2009: 10.4 to 14.0 percent) in the Clearstream segment. Amortisation of and impairment losses on software and other intangible assets are reported in the income statement under depreciation, amortisation and impairment losses.

Payments on account and construction in progress relate to software.

- 1) Including the disposal of the goodwill of Scoach Holding S.A. as well as additions through the acquisition of Market News International Inc. and Need to Know News, LLC

Goodwill, the stock exchange licence acquired as part of the acquisition of ISE as well as the acquired trade name of STOXX Ltd. are intangible assets with an indefinite useful life. The recoverable amounts of the cash-generating units to which goodwill is allocated are generally based on their values in use. Realisable value less costs to sell is only used as the basis for the recoverable amount in cases in which value in use does not exceed the carrying amount. Since there is no active market for goodwill, a discounted cash flow method was used to calculate both value in use and realisable value.

The key assumptions made to determine the recoverable amounts vary depending on the cash-generating unit concerned. Pricing or market share assumptions are based on past experience or market research. Other key assumptions are mainly based on external factors. Significant macroeconomic indicators include, for instance, equity index levels, volatility of equity indices, as well as interest rates, exchange rates, GDP growth, unemployment levels and government debt. The discount rate is based on a risk-free interest-rate of 3.0 percent and a market risk premium of 5.0 percent. It is used to calculate individual discount rates for each cash-generating unit that reflect the beta factors, tax rate and capital structure of the peer groups concerned.

Eurex

The goodwill resulting from the acquisition of ISE is allocated to a group of cash-generating units in the Eurex segment.

Since the ISE goodwill had been calculated in US dollars, an exchange rate difference of 70.7 million occurred in 2010 (2009: 22.0 million; 2008: 39.9 million).

Assumptions on volumes of index and interest rate derivatives and volumes in the US equity options market, which were derived from external sources, were the key criteria applied to determine the value in use with the discounted cash flow method.

Cash flows were projected over a five-year period (2010: 2011 to 2015) for European as well as US activities. Cash flow projections beyond this period were extrapolated assuming a 1.0 percent growth rate (2009: 4.0 percent for the European activities, 5.0 percent for the US activities; 2008: 4.0 percent growth rate for European as well as for US activities). The pre-tax discount rate used was 13.1 percent (2009: 12.0 percent; 2008: 10.4 percent).

Table of Contents

Clearstream

The Clearstream goodwill is allocated to the Clearstream cash-generating unit. The recoverable amount is determined on the basis of the value in use using the discounted cash flow method. Assumptions on assets held in custody, transaction volumes and market interest rates were the key criteria used to determine value in use.

Cash flows were projected over a three-year period (2010: 2011 to 2013). Cash flow projections beyond 2013 were extrapolated assuming a 2.5 percent (2009: 4.0 percent; 2008: 4.0 percent) perpetual annuity. The pre-tax discount rate used was calculated on the basis of the cost of equity and amounted to 14.9 percent (2009: weighted average cost of capital of 11.6 percent; 2008: weighted average cost of capital of 13.4 percent).

Market Data & Analytics

The goodwill arising from the acquisition of STOXX Ltd. in 2009 was allocated to a group of cash-generating units in the Market Data & Analytics segment. It results primarily from the strong position of STOXX Ltd. in European indices as well as from growth prospects in the production and sale of tick data for indices, the development, maintenance and enhancements of index formulas and from the customising of indices.

The goodwill of US\$7.9 million that arose in the course of the acquisition of Market News International Inc. (MNI), New York, USA, by Deutsche Börse AG in 2009 was allocated to the Market Data & Analytics segment and relates to access to global, trade-related information such as news from public authorities and supranational organisations.

The goodwill of US\$3.9 million that arose in the course of the acquisition by MNI of 100 percent of the shares in Need to Know News, LLC, Chicago, USA, was also allocated to the Market Data & Analytics segment.

The fair value less costs to sell of the Market Data & Analytics segment was determined as at the balance sheet date. The key assumptions made related to the expected development of future data and licence income as well as of the customer base; these are based both on external sources of information and on internal expectations, that correspond to the budget values for financial year 2011. Cash flows were planned over a five-year period, with projections for periods beyond this assuming a perpetual annuity of 2.5 percent (2009: 4.0 percent). The pre-tax discount rate used was 10.8 percent (2009: 12.7 percent).

Table of Contents

Other intangible assets: ISE

ISE's other intangible assets were tested for impairment at the end of the year. The recoverable amount of these assets was calculated on the basis of the value in use of the ISE cash-generating unit, which is attributable to the Eurex segment. The cash-generating unit of the ISE subgroup is the US options exchange International Securities Exchange, LLC.

The key assumptions made, which are based on analysts' estimates, relate to expected volumes and transaction prices on the US options market. Cash flows were projected over a five-year period (2010: 2011 to 2015). A 2.5 percent growth rate was assumed beyond 2015 (2009: 5.0 percent; 2008: 5.0 percent). The pre-tax discount rate used is 15.7 percent (2009: 10.4 percent; 2008: 11.0 percent).

The entry of new competitors onto the US options market in 2010 and the ongoing uncertainty on the financial markets caused by the global economic crisis have led to a considerable decline in liquidity and trading volumes at the ISE. Linked to this is a decline in expected future trading volumes compared with the previous year. In addition, the Dodd-Frank Act, which was passed by the US House of Representatives and the Senate in July 2010, restricts the ability of banks and financial services providers to trade options on the financial markets by allowing them merely to make limited investments in hedge funds and private equity. The restrictions introduced by this new Act will also negatively impact the number of transactions on the US options exchange.

Since the effects described above result in a more negative assessment of the fair value of the cash-generating unit for the ISE subgroup in the 2011 to 2015 planning period, an impairment loss was charged on the ISE's other intangible assets in financial year 2010 (2010: 453.1 million; 2009: 415.6 million; 2008: nil).

Exchange license of ISE

In the course of the purchase price allocation carried out in December 2007, the fair value of the exchange licence was determined. The exchange licence, granted in 2000 by the U.S. Securities and Exchange Commission, permits the ISE subgroup to operate as a regulated securities exchange in the United States.

The exchange licence held by the ISE subgroup is estimated to have an indefinite useful life, because the licence itself does not have a finite term and Eurex management expects to maintain the licence as part of its overall business strategy.

The exchange licence does not generate cash flows largely independent from those generated by the ISE subgroup as a whole. Consequently, the exchange licence is allocated to the ISE subgroup as the cash-generating unit.

An impairment loss amounting to 111.2 million (2009: 99.1 million, 2008: nil) was recognised on the exchange licence of ISE as at the balance sheet date.

Member relationships and market data customer relationships of ISE

In the context of the purchase price allocation, the fair values of member and customer relationships were calculated. Both assets will be amortised over a period of 30 years using the straight-line method. Cash flows do not result from either the member or the customer relationships which would be independent of the entire ISE subgroup. Consequently, both items are allocated to the ISE subgroup as the cash-generating unit. Impairment losses of 318.4 million and 18.2 million respectively were recognised on ISE member and customer relationships as at the balance sheet date (2009: 294.3 million and 16.8 million respectively, 2008: nil).

ISE trade name

The ISE trade name is registered as a trade name and therefore meets the IFRS criterion for recognition separately from goodwill. In accordance with the purchase price allocation of December 2007, the asset is amortised over a period of ten years using the straight-line method. As there are no cash inflows that are

Table of Contents

generated independently from the ISE subgroup, the trade name is also allocated to the ISE subgroup as the cash-generating unit. An impairment loss amounting to 5.3 million (2009: 5.4 million, 2008: nil) was recognised on the ISE trade name as at the balance sheet date.

Other intangible assets: STOXX

The STOXX trade name, the company's customer relationships, non-compete agreements and other intangible assets were identified as part of the acquisition of STOXX Ltd. and were allocated to the STOXX Ltd. cash-generating unit, as they do not generate cash inflows independently. The STOXX Ltd. cash-generating unit was allocated to the Market Data & Analytics segment.

The impairment test was based on realisable value less costs to sell, taking into account expected developments in the licence and sales fees for indices and data.

STOXX trade name

The STOXX trade name includes the trade name itself, the index methodologies and the Internet domains because these can generally not be transferred separately. As the trade name is registered, it meets the IFRS criterion for recognition separately from goodwill. An unlimited useful life is assumed for the STOXX brand name given its history and the fact that it is well known on the market.

Customer relationships of STOXX

STOXX Ltd. has relationships with customers, which are based on signed contracts and thus meet the identifiability criterion for recognition separately from goodwill.

Non-compete agreements of STOXX

Non-compete agreements were entered into with the seller for a certain period of time as part of the acquisition of STOXX Ltd. These agreements give STOXX a competitive advantage as they allow the acquirer to operate for a certain period of time without competition resulting from the prohibition of the duplication of indices by the seller. The intangible assets generated in this way, which are reported under other intangible assets, are amortised depending on the agreed period of time.

Table of Contents

For details on revaluations and market price changes recognised directly in equity, see also note 24. Other equity investments include available-for-sale shares.

In 2010, impairment losses amounting to 3.0 million (2009: 30.8 million; 2008: 10.0 million) were recognised in the income statement, of which 0.9 million (2009: 3.3 million; 2008: 5.6 million) relate to listed equity instruments and 2.1 million (2009: nil; 2008: 4.4 million) to unlisted equity instruments. In 2010 no impairment losses related to investments in associates (2009: 27.4 million; 2008: nil).

As in the previous two years, no impairment losses on securities from banking business and other securities were recognised in 2010.

Private placements denominated in US dollars that were designated as currency risk hedges of the net investment in ISE are presented under interest-bearing liabilities. Please refer to Hedges of a net investment further below for details.

Fair value hedges

Interest rate swaps, under which a fixed interest rate is paid and a variable rate is received, have been used to hedge the value of certain fixed-rate available-for-sale financial instruments (fair value hedges).

The following table gives an overview of the notional amount of the positions covered by fair value hedges at 31 December 2010, 31 December 2009 and at 31 December 2008 and the corresponding weighted average interest rates:

Outstanding positions fair value hedges

		31 Dec. 2010	31 Dec. 2009	31 Dec. 2008
Notional amount of pay-fixed interest rate swaps	m	112.3	112.3	165.7
Fair value of pay-fixed interest rate swaps	m	5.0	5.9	-4.3
Average pay rate in the reporting period	%	4.12	4.09	3.97
Average receive rate in the reporting period	%	0.77	1.78	4.88

The gains and losses resulting from the hedged risk on the positions covered by fair value hedges and the hedging instruments are indicated in the following table:

Gains/losses by fair value hedges

	31 Dec. 2010	31 Dec. 2009	31 Dec. 2008
Losses/gains on hedged items	m	m	m
	0.5	2.1	6.5
Gains/losses on hedging instruments	0.5	2.1	6.4
Net hedging ineffectiveness	0	0	0.1

Table of Contents

Cash flow hedges

Interest rate swaps, under which a variable rate of interest is paid and a fixed rate is received, were used to hedge part of the expected cash flows from the investment of cash balances from the settlement business (cash flow hedges). On 30 September 2009, the Clearstream subgroup had revoked the designation of the hedging relationship. These interest rate swaps had therefore been reclassified from hedging to trading. Interest rate swaps entered into in 2007 to hedge 2008 interest rate risk had ceased to be highly effective on 1 October 2008. Average pay rates and average receive rates until 30 September 2009 and 30 September 2008 respectively are included in the following table:

Outstanding positions interest rate swaps

		31 Dec. 2010	31 Dec. 2009	31 Dec. 2008
Notional amount of pay-variable interest rate swaps	m	0	0	500.0

	500.0	0	0	500.0	17 Oct. 2008	27 Dec. 2009	3.2400

Deutsche Börse AG hedged a portion of the US dollar cash flows expected in 2010 (2009, 2008) by using forward foreign exchange transactions against a devaluation of the US dollar. Two forward foreign exchange transactions in the amount of US\$20.0 million (2009: US\$40.0 million; 2008: US\$17.0 million) each, previously classified as held for trading, were designated against receipt of euros.

Until the deconsolidation of Avox Ltd. took place in July 2010, foreign exchange transactions (2009: notional amount US\$7.8 million; 2008: notional amount US\$11.7 million) were concluded to hedge its pound sterling functional currency against a devaluation compared to the US dollar. As the underlying hedged item no longer exists, the foreign exchange transactions did not qualify for hedge accounting since that date, but are classified as held for trading.

F-102

Table of Contents

In 2013 some of the bonds issued by Deutsche Börse AG will mature. To partially hedge potential refinancing transactions in the future, a forward interest rate payer swap and a payer swaption were used to (conditionally) lock in prevailing (forward) interest rate levels which are judged to be attractive.

Outstanding positions interest rate swaps

Swaption ¹⁾	150	1 Apr. 2013	1 Apr. 2018	3.000

1) Contract data of the underlying interest rate swap; the swaption will expire on 27 March 2013.

In October 2010, the Clearstream subgroup entered into twelve forward foreign exchange transactions amounting to US\$2.6 million (September 2009: US\$2.2 million; October 2008: US\$3.0 million) each, maturing at the end of each month in the period from January 2011 to December 2011 (2009: January 2010 to December 2010; 2008: January 2009 to December 2009) to hedge part of the expected US dollar sales revenues by converting them into euro mitigating the risk of a devaluation of the US dollar. The contracts had a negative fair value of 0.7 million as at 31 December 2010 (2009: negative fair value of 0.4 million; 2008: positive fair value of 1.0 million) and as in 2009 were included in the liabilities from banking business item, see note 31 (2008: current receivables and securities from banking business).

1) Disclosed under net interest income from banking business (2010: nil; 2009: 3.6 million; 2008: 2.1 million) as well as under financial result (2010: nil; 2009: nil; 2008: 0.2 million)

Hedges of a net investment

In connection with the private placements in the USA, the bonds of the series A to C were designated as hedges against currency risk arising from the translation of the foreign functional currency US dollar into euro in order to hedge the net investment in the ISE subgroup.

F-103

Table of ContentsComposition of private placements¹⁾

Type	Issue volume	Equivalent			as at emission	Term	
		31 Dec. 2010	31 Dec. 2009	31 Dec. 2008		from	until
	US\$m	m	m	m	m		
Series A	170.0	127.4	117.9	120.9	110.2	12 June 2008	10 June 2015
Series B	220.0	164.9	152.6	156.4	142.7	12 June 2008	10 June 2018
Series C	70.0	52.5	48.6	49.8	45.4	12 June 2008	10 June 2020
Total	460.0	344.8	319.1	327.1	298.3		

1) Presented under interest-bearing liabilities .

Effective exchange rate differences from the private placements are reported in the balance sheet item accumulated profit , as are exchange rate differences from the translation of foreign subsidiaries. 46.2 million (2009: 20.6 million; 2008: 28.6 million) was recognised in this item directly in equity. There was no ineffective portion of the net investment hedges in financial years 2008 to 2010.

Derivatives held for trading

Foreign exchange swaps as at 31 December 2010 expiring in less than three months with a notional value of 3,131.7 million (2009: 2,241.1 million; 2008: 2,004.7 million) had a positive fair value of 2.2 million and a negative fair value of 15.1 million (2009: positive fair value of 18.5 million; 2008: negative fair value of 92.9 million). These swaps were entered into to convert foreign currencies received through the issue of commercial paper from the banking business into euros, and to hedge short-term foreign currency receivables and liabilities in euros economically. These are reported under current receivables and securities from banking business and liabilities from banking business in the balance sheet (2009: under current receivables and securities from banking business ; 2008: under liabilities from banking business), see also notes 20 and 31.

Interest rate swaps had been classified as cash flow hedges until 30 September 2009 and 1 October 2008, respectively, at which date this designation was revoked. The transactions ceased to qualify as highly effective hedges under IAS 39 and therefore were reclassified under held for trading. Average pay rates and average receive rates correspond to the period during which they were classified as trading instruments in 2009 and 2008.

Outstanding positions interest rate swaps

		31 Dec. 2010	31 Dec. 2009	31 Dec. 2008
Notional amount of pay-fixed interest rate swaps	m	0	0	726.7
Fair value of pay-fixed interest rate swaps at 31 Dec.	m	0	0	0.3
Average pay rate in the period	%	0	0.50	3.79
Average receive rate in the period	%	0	3.31	5.36

As at 31 December 2010, there were two forward foreign exchange transactions in US dollars that were classified as held for trading, since they did not meet the requirements for hedge accounting at the balance sheet date. These transactions are intended to economically hedge a future foreign currency receivable within the Group that have not yet arisen at the balance sheet date. The transactions outstanding as at 31 December 2009 had been designated as cash flow hedges since 1 January 2010 and settled during 2010.

Outstanding positions of forward foreign exchange transactions in US\$ against

US\$	40.0			16 Oct. 2008	30 Dec. 2009	1.3439

In July 2010 Deutsche Börse AG sold its subsidiary Avox Ltd. The outstanding foreign exchange transactions to hedge the former subsidiary's pound sterling functional currency remain in place as two derivative transactions, now classified as held for trading since no hedging relationship exists. The contracts with reverse effects had a notional amount of US\$3.9 million each and a positive fair value of 0.5 million and a negative fair value of 0.5 million as at 31 December 2010. The amounts are included in other current assets and other current liabilities.

19. Financial instruments of Eurex Clearing AG

Composition of financial instruments of Eurex Clearing AG

	31 Dec. 2010 m	31 Dec. 2009 m	31 Dec. 2008 m
Options	19,099.8	23,816.7	37,724.9

Table of Contents

Overdrafts from settlement business represent short-term loans of up to two days' duration that are usually secured by collateral. Potential concentrations of credit risk are monitored against counterparty credit limits (see note 42).

Remaining maturity of loans to banks and customers

	31 Dec. 2010 m	31 Dec. 2009 m	31 Dec. 2008 m
Not more than 3 months	6,998.3	6,436.1	7,859.1
Total	6,998.3	6,436.1	7,859.1

All money market instruments held as at 31 December 2009 and 2008 were issued by sovereign or sovereign-guaranteed issuers. All of the securities held as at 31 December 2010 and 2009 were listed and issued by sovereign or sovereign-guaranteed issuers whereas those held as at 31 December 2008 were not listed. As at 31 December 2009, the remaining maturity of the money market instruments was not more than three months (31 December 2008: more than three months but not more than one year).

Remaining maturity of available-for-sale debt instruments

Total	141.4	167.1	60.5

For details on derivatives reported under other current assets, see note 18.

Miscellaneous other current assets include a certificate of deposit of 1.9 million used as collateral for two letters of credit.

23. Restricted bank balances

Amounts reported separately under liabilities as cash deposits by market participants are restricted.

Such amounts totalling 6,064.2 million (2009: 4,741.5 million; 2008: 10,220.7 million) are mainly invested via bilateral or triparty reverse repurchase agreements and in the form of overnight deposits at banks (restricted bank balances). Government or government-guaranteed bonds, mortgage bonds and bank bonds with an external rating of at least AA are accepted as collateral for the reverse repurchase agreements.

Cash funds amounting to 121.6 million (2009: 4.1 million; 2008: 144.0 million) attributable to the Clearstream subgroup are restricted due to minimum reserve requirements.

24. Equity

Changes in equity are presented in the consolidated statement of changes in equity. As at 31 December 2010, the number of no-par value registered shares of Deutsche Börse AG issued was 195,000,000 (31 December 2009: 195,000,000; 31 December 2008: 195,000,000).

Table of Contents

Subject to the agreement of the Supervisory Board, the Executive Board is authorised to increase the subscribed share capital by the following amounts:

Composition of authorised share capital

	Amount in	Date of authorisation by the shareholders	Expiry date	Existing shareholders pre-emptive rights may be disapplied for fractioning and/or may be disapplied if the share issue is:
Authorised share capital I	5,200,000	24 May 2006	23 May 2011	<ul style="list-style-type: none"> • against non-cash contributions for the purpose of acquiring companies, parts of companies, or interests in companies, or other assets
Authorised share capital II	27,800,000	27 May 2010	26 May 2015	<ul style="list-style-type: none"> • for cash at an issue price not significantly lower than the stock exchange price up to a maximum amount of 10 percent of the nominal capital to issue new shares • to employees of the Company or affiliated companies with the meaning of sections 15ff of the Aktiengesetz (AktG, German Stock Corporation Act), with the pro rata amount of the share capital not allowed to exceed 3 million • against non-cash contributions for the purpose of acquiring companies, parts of companies, interests in companies, or other assets
Authorised share capital III	19,500,000	27 May 2010	26 May 2015	n.a.
Authorised share capital IV	6,000,000	11 May 2007	10 May 2012	<ul style="list-style-type: none"> • for the issuance of up to 900,000 new shares per year to Executive Board members and employees of the Company as well as to the management and employees of affiliated companies within the meaning of sections 15 ff. of the AktG

In addition to authorised share capital I, II, III and IV, the Company has contingent capital I that was created to issue up to 6,000,000 shares to settle stock options under the Group Share Plan (see note 45).

There were no further subscription rights for shares as at 31 December 2010, 31 December 2009 or 31 December 2008.

Table of Contents**Revaluation surplus**

The revaluation surplus results from the revaluation of securities and other current and noncurrent financial instruments at their fair value less deferred taxes, as well as the value of the stock options under the Group Share Plan for which no cash settlement was provided at the balance sheet date (see note 45). This item also contains reserves from an existing investment in an associate, which were recognised in connection with the acquisition of further shares, as the company was fully consolidated as of this date:

Revaluation surplus

Overall, deferred taxes amounting to 2.7 million (2009: 5.0 million; 2008: 5.6 million) are recognised in the revaluation surplus.

Accumulated profit

The accumulated profit item includes exchange rate differences amounting to 57.6 million (2009: 26.1 million; 2008: 5.5 million). 109.3 million was added due to currency translation for foreign subsidiaries in 2010 (2009: 39.6 million; 2008: 70.3 million) and 25.6 million was withdrawn relating to a net investment hedge that was used to hedge the net investment in ISE against currency risk (2009: 8.0 million; 2008: 28.6 million).

Regulatory capital requirements and regulatory capital ratios

Clearstream Banking S.A., Clearstream Banking AG and Eurex Clearing AG as well as the regulatory Clearstream group are subject to solvency supervision by the German or Luxembourg banking supervisory

Table of Contents

authorities (Bundesanstalt für Finanzdienstleistungsaufsicht, BaFin, and Commission de Surveillance du Secteur Financier, CSSF, respectively). All companies that are subject to this supervision are non-trading-book institutions. Market risk positions consist only of a relatively small open foreign currency position. As a result of these companies' specific businesses, their risk-weighted assets are subject to sharp fluctuations and their solvency ratios are correspondingly volatile.

The minimum capital requirements are subject to the individual companies' national regulations. These are based on EU Banking and Capital Requirements Directives and Basel II regulations. The companies concerned homogeneously apply the standardised approach for credit risk. Eurex Clearing AG uses the basic indicator approach for operational risk, while the Clearstream companies apply the AMA (advanced measurement approach).

The companies subject to solvency supervision have only a very limited amount of Tier 2 regulatory capital. A minimum of 8 percent applies to the solvency ratio. The individual companies' capital resources sufficiently reflect the fluctuation in risk-weighted assets. Stress testing is used to determine the capital required for expected peaks and additional reserves for unexpected events are added. The capital requirements determined in this way are met through the capital resources. As the actual capital requirements are below the expected peaks' significantly so under normal circumstances' this may lead to a very high solvency ratio, especially at the reporting date.

Due to intragroup restructuring, Deutsche Börse AG contributed 51 percent of shares in Clearstream International S.A. to Clearstream Holding AG on 9 July 2009 by means of a capital increase against non-cash contributions. As a result, Clearstream Holding AG has since then been classified as a financial holding company as defined in the Kreditwesengesetz (KWG, German Banking Act) and together with the other Clearstream companies forms a financial holding group under German law. This Clearstream Holding group has since then been subject to solvency supervision by the BaFin on a consolidated basis. In turn, the CSSF is no longer responsible for solvency supervision of the former Clearstream group. Since Clearstream Holding AG acts as a pure holding company for the shareholding in Clearstream International S.A. and therefore does not have material additional risk positions, the two supervisory authorities involved approved maintaining the existing reporting channels for 2009 and implementing the new reporting requirements during 2010. Calculation of the solvency ratios was therefore changed as at 31 December 2010. The table showing the regulatory capital ratios therefore compares the figures for the Clearstream Holding group under German law as at 31 December 2010 with the figures of the Clearstream International group under Luxembourg law as at 31 December 2009. The German rules are generally based on the accounting regulations of the Handelsgesetzbuch (HGB, German Commercial Code), while the Luxembourgian rules are based on carrying amounts under IFRSs. Other differences relate to details: for example, disclosures under Luxembourg law are based on figures consolidated in accordance with IFRSs; by contrast, the figures for the Clearstream Holding group follow consolidation provisions set out in section 10a (6) KWG. This consolidation also results in minor differences regarding the companies included. REGIS-TR S.A., for example, is not included in the consolidation under the KWG. Additionally, the German rules do not permit the inclusion of accumulated profits brought forward in the definition of equity, while this is not at all unusual outside Germany. As a result, the figures of the Clearstream Holding group are only comparable with the previous year to a limited extent.

On 20 December 2010, Deutsche Börse AG contributed the remaining 49 percent of shares in Clearstream International S.A. to Clearstream Holding AG by means of a capital increase against non-cash contributions. This makes Clearstream Holding AG the sole shareholder of Clearstream International S.A.

Additionally, modified provisions under the Capital Requirements Directive (CRD) II' primarily from EU Directive 2009/111/EU were transposed into national law effective 31 December 2010. However, CRD II does not have any material impact on the solvency ratios of the companies. Nevertheless, the large exposure rules modified by these provisions have extensive material consequences, although these did not fundamentally lead to any violation of the permitted maximum limit or will do so in the foreseeable future because of exemptions for monetary receivables in the core business of Clearstream and Eurex Clearing AG.

Table of Contents

The capital requirements of the Clearstream companies have declined sharply, on the one hand because of significantly lower capital requirements for operational risk and on the other hand due to changed collateral requirements for securities lending as principal at Clearstream Banking S.A. as well as due to the optimisation of eligible regulatory collateral. The changes in equity at Clearstream Banking AG are attributable to minor amounts of profit retention in the context of the Gesetz zur Modernisierung des Bilanzrechts (BilMoG, German Accounting Law Modernisation Act) transition. The increase in equity at Clearstream Banking S.A. was primarily driven by the effects of intercompany profits and interim dividends as well as the retention of profits amounting to around 25 million from the 2009 financial year.

Owing to the increased volatility and the situation on the money markets as a result of the global financial crisis, the clearing members of Eurex Clearing AG had deposited considerably more collateral in the fourth quarter of 2008 than had previously been the rule. As a result, Eurex Clearing AG increased equity by a total of 60 million. The deposited cash collateral fell significantly back again in 2009 (see also note 42). In addition, Eurex Clearing AG successfully implemented several measures to optimise the cash deposit strategy, which led to a reduction not only in credit and counterparty risks, but also in capital requirements. As a result, Eurex Clearing AG's solvency ratio is currently well above the required minimum.

Regulatory capital ratios

Eurex Clearing AG	13.7	15.3	16.0	110.1	97.1	110.8	64.2	50.6	55.4

Eurex Clearing AG has been accredited by the Financial Services Authority (FSA) in the UK as a Recognised Overseas Clearing House (ROCH). The FSA expects regulatory capital equivalent to at least half the operating expenses of the previous year to be maintained; the resulting regulatory minimum capital required by the FSA amounted to 18.5 million as at 31 December 2010 (2009: 22.5 million; 2008: 40.6 million).

The regulatory minimum requirements were complied with at all times by all companies during 2010 and in the period up to the preparation of the financial statements. This statement takes into consideration the transitional arrangements agreed with the supervisory authorities for the Clearstream group.

25. Provisions for pensions and other employee benefits

Provisions for pensions and other employee benefits are measured annually at the balance sheet date using actuarial methods. The following assumptions were applied to the calculation of the actuarial obligations for the pension plans:

Actuarial assumptions

	31 Dec. 2010			31 Dec. 2009			31 Dec. 2008	
	Germany	Luxembourg	Switzerland	Germany	Luxembourg	Switzerland	Germany	Luxembourg
	%	%	%	%	%	%	%	%

1) Industrie- und Handelskammer (Chamber of Commerce)

Provisions for restructuring include provisions amounting to 11.2 million (2009: 16.4 million; 2008: 27.4 million) for the restructuring and efficiency programme resolved in September 2007 as well as 40.8 million for the programme resolved in 2010 to increase operational performance.

F-114

Table of Contents

Provisions for pension obligations to the Industrie- und Handelskammer (IHK, Chamber of Commerce) are recognised on the basis of the number of eligible employees. Provisions for early retirement benefits are calculated on the basis of the active and former employees involved.

For details on the Stock Bonus Plan, see note 45.

As at 31 December 2010, the provisions for anticipated losses contained provisions for anticipated losses from rental expenses amounting to 14.8 million (2009: 29.8 million; 2008: 16.4 million), of which 10.1 million (2009: 6.3 million; 2008: 4.4 million) were allocated to current provisions. The provisions classified as noncurrent are not expected to be utilised before 2012. The level of provisions was calculated on the basis of existing rental agreements for each building. Depending on the remaining maturity of the respective provisions, a discount rate of 1.01 percent or 1.85 percent was applied (2009: 2.40 percent; 2008: 2.70 percent). The position includes interest rate effects amounting to 0.1 million (2009: 0.3 million; 2008: 0.4 million) mainly from the discount rate change (2009: 0.2 million; 2008: 0.2 million).

28. Liabilities

The euro and US dollar bonds reported under interest-bearing liabilities and a hybrid bond denominated in euros have a carrying amount of 1,444.0 million (2009: 1,503.7 million; 2008: 1,512.4 million) and a fair value of 1,537.3 million (2009: 1,596.5 million; 2008: 1,488.1 million).

Interest-bearing liabilities include a loan of 11.2 million (2009: 11.2 million; 2008: nil) granted to STOXX Ltd. by SIX Group AG.

The liabilities recognised in the balance sheet were not secured by liens or similar rights, neither as at 31 December 2010 nor as at 31 December 2009 nor as at 31 December 2008.

As at 31 December 2010 the following debt instruments were outstanding:

Debt instruments of Deutsche Börse AG

Type	Issue volume	Term	Maturity	Coupon p.a.
Fixed-rate bearer bond	650 m	5 years	April 2013	5.00%
Series A bond	US\$ 170 m	7 years	June 2015	5.52%
Series B bond	US\$ 220 m	10 years	June 2018	5.86%
Series C bond	US\$ 70 m	12 years	June 2020	5.96%
Hybrid bond ³⁾	550 m	30 years ¹⁾	June 2038	7.50% ²⁾

- 1) Early termination right after 5 and 10 years and in each year thereafter
- 2) Until June 2013: fixed-rate 7.50 percent p.a.; from June 2013 to June 2018: fixed-rate mid swap + 285 basis points; from June 2018: variable interest rate (Euro interbank offered rate for 12-month Euro deposits (EURIBOR), plus an annual margin of 3.85 percent)
- 3) In financial year 2009, 4 million (nominal amount) was repurchased; in financial year 2010, a further 89 million was repurchased.

29. Tax provisions**Composition of tax provisions**

	31 Dec. 2010 m	31 Dec. 2009 m	31 Dec. 2008 m

		Puttable instruments ³⁾	Fair value	0	2.2	0
		Derivatives held for trading	Fair value	0.9	0.9	0

1) Available-for-sale (AFS) financial assets

2) This relates to the private placements designated as hedging instruments of a net investment hedge (see note 18). The hedge is measured at amortised cost in US dollar, the translation of the US dollar private placements into euro is based on the closing rate.

3) These were puttable equity instruments in accordance with IAS 32.18b that were attributable to the non-controlling shareholder and were required to be measured at fair value at the respective balance sheet date.

The carrying amount of other loans, current receivables and other assets as well as current and noncurrent receivables from banking business measured at amortised cost, restricted bank balances, and other cash and bank balances corresponds to their fair value.

The other equity investments item, which is carried at historical cost less any impairment losses, comprises non-listed equity instruments whose fair value generally cannot be reliably determined on a continuous basis. Their fair value is estimated to be close to their carrying amount.

The bonds reported under interest-bearing liabilities have a fair value of 1,174.2 million (2009: 1,258.0 million; 2008: 1,128.8 million). The fair values are the quoted prices of the bonds. The fair value of the private placements is 363.1 million (2009: 327.3 million; 2008: 359.3 million). This figure was calculated as the present value of the cash flows relating to the private placements on the basis of market parameters.

Table of Contents

The carrying amount of current liabilities and cash deposits by market participants represents a reasonable approximation of fair value.

The financial assets and liabilities that are measured at fair value are to be allocated to the following three hierarchy levels: financial assets and liabilities are to be allocated to level 1 if there is a quoted price for identical assets and liabilities in an active market. They are allocated to level 2 if the inputs on which the fair value measurement is based are observable either directly (as prices) or indirectly (derived from prices). Financial assets and liabilities are allocated to level 3 if the fair value is determined on the basis of unobservable inputs.

As at 31 December 2010, the financial assets and liabilities that are measured at fair value were allocated to the following hierarchy levels:

Fair value hierarchy

Total liabilities	143,181.5	143,178.4	0.9	2.2

Only puttable equity instruments were allocated to hierarchy level 3 in the previous year. As a result of measuring these instruments at fair value, an amount of 0.8 million was recognised in other operating expenses in the previous year.

Table of Contents**Consolidated cashflow statement disclosures****36. Cash flows from operating activities**

After adjustments to net profit for the year for non-cash items, cash flows from operating activities amount to 943.9 million (2009: 801.5 million; 2008: 1,278.9 million). Cash flows from the net financial result (net interest income and result from equity investments) have been allocated to operating activities.

Noncurrent provisions decreased by 2.9 million in the year under review (2009: increase by 19.3 million; 2008: decrease by 47.5 million). This is primarily due to the decrease of 8.8 million in provisions for pensions and other employee benefits (see note 25). This was partially offset by an increase in other noncurrent provisions by 5.9 million.

The increase in depreciation, amortisation and impairment losses of 14.4 million (2009: increase of 432.0 million; 2008: increase of 11.1 million) is primarily due to significant impairment losses recognised on intangible assets of ISE amounting to 453.3 million (2009: 415.6 million; 2008: nil). This increase is offset by a decline in other impairment losses of 8.4 million and in planned depreciation and amortisation of 14.9 million.

The reduction in deferred tax income of 14.1 million (2009: increase of 190.4 million; 2008: increase of 14.4 million) is primarily due to a year-on-year rise in deferred tax expense at ISE.

The other non-cash income/expense consists of the following items:

Composition of other non-cash income/expense

	2010	2009	2008
	m	m	m
Fair value measurement of forward foreign exchange transactions Clearstream	18.5	18.2	0
Equity method measurement	6.3	10.9	5.0
Gains on the disposal of subsidiaries and equity investments	0	16.5	9.4
Exchange rate differences relating to the short-term financing of the acquisition of ISE	0	0	18.5
Miscellaneous	13.2	29.7	36.2
Total	1.0	5.9	3.3

The decrease of 50.4 million in current receivables and other assets is primarily the result of a decline of 37.6 million in current assets and a decline of 27.0 million in tax receivables due to tax refunds. This was offset by an increase in other noncurrent assets by 11.5 million. In the previous year, current assets had been impacted mainly by the receivable from the termination of the financial loss liability insurance policy; the receivable was settled in 2010.

The increase of 152.7 million in current liabilities is primarily due to a rise of 63.0 million in other current liabilities, of 66.3 million in current provisions and of 27.8 million in tax provisions. The increase in current liabilities was caused in particular by higher CCP positions at the reporting date, while provisions rose mainly as a result of the restructuring and efficiency programme implemented in 2010 and additions to provisions for interest and taxes.

Table of Contents

37. Cash flows from investing activities

Composition of payments to acquire noncurrent assets (excluding other noncurrent assets)

	2010	2009	2008

Gains on the disposal of equity investments	10.4	0	0

Table of Contents

The net cash proceeds from the sale of available-for-sale noncurrent financial instruments amounted to 393.5 million (2009: 88.7 million; 2008: 19.9 million). The cash inflows for 2010 were mainly the result of maturing securities, the sale of securities and the settlement of interest-bearing collateralised receivables. In previous years, the proceeds largely corresponded to the repayment at maturity of fixed-income securities.

38. Cash flows from financing activities

Net cash received from non-controlling shareholders relates to the establishment of the companies REGIS-TR S.A. and LuxCSD S.A. Net cash received from non-controlling shareholders in the previous year related to the acquisition of STOXX Ltd.; 20.4 million was paid into the company's reserves in connection with this transaction. As part of the transaction, STOXX Ltd. took out long-term loans amounting to 11.1 million and short-term funds amounting to 3.7 million from non-controlling shareholders. The short-term funds were repaid in 2010.

Repayment of long-term financing of 94.3 million (2009: 3.9 million) relates to the repurchase of the hybrid bond issued in 2008. In 2008, the senior bond issued in 2003 in the amount of 500.0 million was repaid.

Proceeds from long-term financing of 1,481.6 million reported in the year 2008 relate to the acquisition of ISE in financial year 2007. Cash outflow from repayments of short-term financing in the amount of 1,341.7 million in 2008 are also related to ISE; the bridge loan was replaced by long-term debt.

In addition, Deutsche Börse AG utilises a commercial paper programme to ensure appropriate liquidity. No commercial paper was outstanding as at 31 December 2010 (31 December 2009: nominal value 100.0 million; 31 December 2008: 202.0 million).

In 2010, a dividend of 390.5 million was distributed for 2009 (in 2009 for 2008: 390.2 million; in 2008 for 2007: 403.0 million). In addition, Deutsche Börse AG purchased treasury shares for a total of 380.5 million in 2008 and none in 2010 or 2009.

39. Reconciliation to cash and cash equivalents

Reconciliation to cash and cash equivalents

	31 Dec. 2010 m	31 Dec. 2009 m	31 Dec. 2008 m

	7,408.3	5,590.7	10,399.3
Cash and cash equivalents	445.5	285.4	448.2

Cash and cash equivalents include in particular cash and bank balances, except for amounts related to the investment of restricted funds deposited by market participants. Receivables and liabilities from banking business

Table of Contents

with an original maturity of more than three months are included in cash flows from investing activities, while items with an original maturity of three months or less are contained in cash and cash equivalents.

In accordance with IAS 7 Cash Flow Statements, cash flows arising from transactions in a foreign currency are recorded in the entity's functional currency. To this end, the foreign currency amount is translated into the functional currency at the exchange rate between the entity's functional currency and the foreign currency at the date of the cash flow.

Cash flows of a subsidiary in a different functional currency than that of the parent are adjusted by non-cash exchange rate differences arising from the translation into the functional currency, the euro.

The effect of exchange rate differences on cash and cash equivalents held in a foreign currency is reported separately in the cash flow statement in order to reconcile cash and cash equivalents at the beginning and the end of the period. The effect of exchange rate differences on cash and cash equivalents in financial year 2010 amounted to 4.0 million (2009: 2.5 million; 2008: 11.7 million).

Cash and bank balances as at 31 December 2010 included restricted bank balances amounting to 6,185.8 million (2009: 4,745.6 million; 2008: 10,364.7 million); for details see note 23.

Other disclosures

40. Earnings per share

Under IAS 33, earnings per share are calculated by dividing the net profit for the year attributable to shareholders of the parent company (net income) by the weighted average number of shares outstanding.

In order to determine the average number of shares, the shares repurchased and reissued under the Group Share Plan (GSP) were included ratably in the calculation. In order to determine diluted earnings per share, the number of potentially dilutive ordinary shares that may be acquired under the Stock Bonus Plan (SBP) or the ISE Group Share Plan, respectively (see also note 45), was added to the average number of shares. In order to calculate the number of potentially dilutive ordinary shares, the exercise prices were adjusted by the fair value of the services still to be provided.

In contrast to the previous year, the 2008 tranche of SBP shares and the tranches of the GSP were no longer classified as potentially dilutive in 2010, because the Company resolved to settle in cash the entitlements of these tranches. The calculation of the number of potentially dilutive ordinary shares for 2009 and 2008 was adjusted accordingly. In order to determine diluted earnings per share, all SBP tranches for which cash settlement has not been resolved are assumed to be settled with equity instruments regardless of actual accounting in accordance with IFRS 2.

There were the following potentially dilutive rights to purchase shares as at 31 December 2010:

Calculation of the number of potentially dilutive ordinary shares

Tranche	Exercise price	Adjusted exercise price in accordance with IAS 33	Average number of outstanding options 2010	Average price for the period ¹⁾	Number of potentially dilutive ordinary shares as at 31 Dec. 2010
2008 ²⁾	0	0.97	105,994	51.59	104,001
2009 ³⁾	0	14.95	181,479	51.59	128,890
2010 ⁴⁾	0	32.54	179,103	51.59	66,135
Total					299,026

1) Volume-weighted average price of Deutsche Börse AG shares on Xetra for the period 1 January to 31 December 2010

Table of Contents

- 2) This relates to rights to Group Share Plan (GSP) of ISE.
- 3) This relates to rights to shares under the Stock Bonus Plan (SBP) for Executive Board members and senior executives as well as rights to GSP shares of ISE. The options on SBP shares of ISE (69,357 options) are not dilutive as at 31 December 2010.
- 4) This relates to rights to SBP shares for senior executives of Deutsche Börse Group and of ISE.

As the volume-weighted average share price was higher than the adjusted exercise prices for the 2008 to 2010 tranches, these stock options are considered dilutive under IAS 33.

Calculation of earnings per share (basic and diluted)

	2010 ¹⁾	2009 ²⁾	2008 ²⁾
Number of shares outstanding as at beginning of period	185,922,690	185,790,599	191,888,548
Number of shares outstanding as at end of period	185,942,801	185,922,690	185,790,599
Weighted average number of shares outstanding	185,937,908	185,859,470	190,529,299
Number of potentially dilutive ordinary shares	299,026	219,700	62,636
Weighted average number of shares used to compute diluted earnings per share	186,236,934	186,079,170	190,591,935
Net income (m)	417.8	496.1	1,033.3
Earnings per share (basic) ()	2.25	2.67	5.42
Earnings per share (diluted) ()	2.24	2.67	5.42

- 1) Due to the switch to cash settlement, the GSP tranches as well as the 2007 and 2008 SBP tranches were no longer included in the calculation of the potentially dilutive ordinary shares.
- 2) The number of dilutive ordinary shares was adjusted accordingly in order to enhance comparability with disclosures for the reporting year. In the financial year as at 31 December 2009, diluted earnings per share remained unaffected whereas in the financial year as at 31 December 2008, diluted earnings per share had increased from 5.41 to 5.42 due to this adjustment.

Table of Contents

41. Segment reporting

Segment reporting is governed by the internal organisational and reporting structure, which is broken down by markets into the following four segments:

Internal organisational and reporting structure

Segment

Segment	Business areas
Xetra	Cash market using the Xetra electronic trading system and floor trading Central counterparty for equities Admission of securities to listing
Eurex	Electronic derivatives market trading platform Eurex Electronic equity options trading platform ISE Over-the-counter (OTC) trading platforms Eurex Bonds and Eurex Repo Central counterparty for bonds, derivatives and repo transactions (Eurex Clearing)
Clearstream	Custody, administration and settlement services for domestic and foreign securities Global securities financing services Investment funds services
Market Data & Analytics	Sales of price information and information distribution Index development and sales

In accordance with IFRS 8, information on the segments is presented on the basis of internal reporting (management approach). To increase cost transparency, the internal reporting structure was changed to four market segments in 2010: the external costs of the service segments Information Technology and Corporate Services were allocated to the market segments on the basis of the relevant usage volume (*e.g.* hours billed) or through allocation keys (*e.g.* building costs on the basis of used space) as primary costs i.e. excluding mark-ups. To ensure comparability, figures for the prior years have also been reconciled to the four-market segment structure.

The adjustment of the segment structure had two main impacts on the adjusted 2008 and 2009 figures. First, the former cost recharge including margins, only shown in other operating expense as one sum, was replaced by the allocation of primary costs (excluding markups). Information Technology and Corporate Services costs were allocated to the market segments in their respective cost lines, *e.g.* IT staff costs were partly shown in Xetra as staff costs in the 2010 consolidated financial statements. Consequently, the cost line items staff costs and depreciation and amortisation increase whereas the other operating expenses cost position decreased.

1) The reconciliation column shows the elimination of intragroup sales revenue and profits.

2) Excluding investments in intangible assets relating to the acquisition of STOXX Ltd. (74.0 million)

Table of Contents

Sales revenue is presented separately by external sales revenue and internal (inter-segment) sales revenue. Inter-segment services are charged on the basis of measured quantities or at fixed prices (e.g. the provision of data by Eurex to Market Data & Analytics).

Due to their insignificance to segment reporting, the financial income and financial expense items have been combined to produce the net financial result.

In the Eurex segment, an impairment charge amounting to 453.3 million (2009: 415.6 million; 2008: nil) was recognised on intangible assets of ISE. In addition, there was an impairment charge of 6.6 million for Eurex releases (2009: 15.3 million for Eurex Credit Clear and ISE software; 2008: 5.0 million on ISE software) in the Eurex segment as well as of 1.4 million for Business Process Optimisation and 0.3 million for X-List in the Clearstream segment (2009: 4.6 million for the Converter system; 2008: 2.0 million for Reference Data Factory and Self-Collateralisation).

Non-cash valuation allowances and bad debt losses resulted from the following segments:

Breakdown of non-cash valuation allowances and bad debt losses

	2010	2009	2008
	m	m	m
Xetra	0	0.6	2.1
Eurex	0.2	0.4	3.0
Clearstream	0	0	0
Market Data & Analytics	0.9	0	0.8
Total	1.1	1.0	5.9

Deutsche Börse Group's business model and that of its segments is focused on an internationally operating participant base and pricing does not differ depending on the customer's location. From a price, margin and risk perspective, this means that it is unimportant whether sales revenue is generated from German or non-German participants.

The risks and returns from the activities of the subsidiaries operating within the economic environment of the European Monetary Union (EMU) do not differ significantly from each other on the basis of the factors to be considered in identifying information on geographical regions under IFRS 8. As a result, Deutsche Börse Group has identified the following information on geographical regions: the euro zone, the rest of Europe, America and Asia-Pacific.

Sales revenue is allocated to the individual regions according to the customer's domicile, while investments and noncurrent assets are allocated according to the company's domicile and employees according to their location.

Information on geographical regions

	Sales revenue			Investments			Noncurrent assets			Number of employees		
	2010	2009	2008	2010	2009	2008	2010	2009	2008	2010	2009	2008

- 3) Excluding investments in intangible assets relating to the acquisition of STOXX Ltd. (74.0 million)

42. Financial risk management

Qualitative information

Risk management is an integral component of management and control within Deutsche Börse Group. Effective and efficient risk management safeguards the Group's continued existence and enables it to achieve its corporate goals. To this end, the Group has established a Group-wide risk management system, which defines the roles, processes and responsibilities and is applicable to all staff and organisational entities within Deutsche Börse Group.

The Group's risk management system ensures that all management committees within Deutsche Börse Group are able to control the risk profile of the entire Group or of single legal entities, as well as significant individual risks, in a timely manner. The aim is to identify developments that could threaten the Group's interests and to take appropriate countermeasures promptly.

This section about expected developments was prepared for Deutsche Börse Group and does not take into account the proposed business combination of Deutsche Börse AG and NYSE Euronext announced on 15 February 2011.

Risk strategy

Deutsche Börse Group's risk strategy is based on its business strategy and sets limits specifying the maximum risk permitted for operational risks, financial risks, business risks and overall risk of the Group. This is done by laying down respective requirements for risk management, risk control and risk limitation. The Group ensures that appropriate measures are taken to avoid, reduce and transfer, or intentionally accept, risk.

The risk strategy enables risks to be controlled in a timely and adequate manner. Information needed for risk management is captured and assessed on the basis of structured, consistent procedures. The results of the assessment are collated in a reporting system, which is used to systematically analyse and control the risks. Risk reports are prepared on both a regular and an ad-hoc basis, and cover existing as well as potential risks.

Deutsche Börse Group uses a standardised approach – value at risk (VaR) – for measuring and reporting all risks across the Group, including those entities that are not subject to regulation by supervisory authorities. VaR is a comprehensive way of presenting and controlling the general risk profile; it also makes it easier to prioritise risk management measures. It quantifies existing and potential risks and lays down, for the confidence level specified, the maximum cumulative loss Deutsche Börse Group could face if certain loss events materialised over a specific period. In addition to calculating VaR, the Group performs regular stress test calculations for all material risks.

As of this year, Deutsche Börse Group has calculated economic capital as its main risk management tool. This is used in addition to other performance indicators to determine the capital needed for business operations so that even extreme and unexpected losses can be covered.

Economic capital is calculated using a VaR method for a period of one year and a confidence level of 99.98 percent. Deutsche Börse Group uses the shareholders' equity recognised under IFRSs as the risk bearing capacity for its economic capital, adjusted by an amount to reflect the risk that intangible assets cannot be liquidated at their carrying amounts in a stress situation. As at 31 December 2010, the basis is the shareholders

Table of Contents

equity recognised under IFRSs as at 31 December 2009 amounting to 3,338.8 million. To assess the sales proceeds of intangible assets in a stress situation, the economic view of the intangible assets are stressed by a factor between 33% to 100%. The book value Deutsche Börse Group could not realize by selling all intangible assets in this stressed situation would be 799.0 million. Therefore the adjustment item for intangible assets in an amount of 799.0 million will be deducted from total equity of 3,338.8 million, which lead to a risk bearing capacity for economic capital of 2,539.8 million. Clearstream Holding Group uses its regulatory capital as the risk bearing capacity for its economic capital (for details see note 24).

Deutsche Börse Group also calculates economic capital at the level of individual risks, compares it against a limit that represents a percentage of the risk bearing capacity defined for each individual risk and reports the result to the Executive Board each month. This procedure guarantees that the risk limits laid down by the Executive Board in its risk strategy are monitored and complied with on a sustainable basis.

Risk management: organisation and methodology

The Executive Board of Deutsche Börse AG is responsible for Group-wide risk management. The business areas identify risks and report these promptly to Group Risk Management (GRM), a central function with Group-wide responsibilities. The business areas also perform risk control, inform their respective management about developments in risk indicators and continuously improve the quality of the risk management processes.

GRM ensures that the comprehensive risk management system described above is applied and that it complies with the same standards in all companies belonging to Deutsche Börse Group. GRM assesses all new and existing risks and reports on a monthly and, if necessary, on an ad hoc basis to the Executive Board. In addition, GRM regularly reports to the Finance and Audit Committee of Deutsche Börse AG's Supervisory Board. The full Supervisory Board is informed in writing of the content of these reports.

Independent audits by the Internal Auditing function ensure that the risk control and risk management functions are adequately organised and that they perform their duties.

The organisational structure described above and the procedures and responsibilities associated with it enable Deutsche Börse Group to ensure that there is a strong awareness of risk throughout the entire Group.

Risk management system

Deutsche Börse Group's risk management system is used to implement the risk strategy for which the Executive Board is responsible. To this end, all potential losses must be identified in good time, captured centrally, assessed (i.e. quantified in financial terms as far as possible), reported to the Executive Board, together with recommendations, and monitored. Deutsche Börse Group's risk management process therefore comprises five stages (see also the diagram below):

Five-level risk management system with central and decentralised responsibilities

Table of Contents

1. Risk identification

In this initial step, all threats and causes of losses or malfunctions are detected. Risks can arise as a result of internal activities or because of external factors. All incidents that could have a material impact on Deutsche Börse Group's business or that might change the risk profile have to be found as early as possible. It is the responsibility of all business areas and their employees to identify these potential risks.

2. Risk notification

All business areas must inform GRM of the risks they have identified and quantified on a regular basis and in acute cases, on an ad-hoc basis. This procedure guarantees that all potential risks and threats are captured centrally.

3. Risk assessment

GRM then performs a qualitative and quantitative assessment of the potential threat based on available information. The value at risk (VaR) method is used for quantitative assessment of potential risks.

4. Risk control

All business areas and their employees are responsible for risk control and for implementing measures to limit loss. The alternatives for action are: risk mitigation, deliberate risk acceptance, external risk transfer, or risk avoidance. The business areas decide on and implement the most appropriate alternative in each case.

5. Risk reporting

The responsible Executive Board members and committees are informed of any material risks, their assessment and possible immediate countermeasures; if appropriate, they receive further recommendations so that they can set suitable steps in motion.

Risk structure

Deutsche Börse Group distinguishes between operational, financial, business and project risk. In the operational risk category, a distinction is made between availability risk, service deficiencies, damage to physical assets, legal offences and business practices.

Deutsche Börse Group breaks financial risk down into credit, market price and liquidity risk as well as the risk of not meeting regulatory parameters.

Business and project risk is not broken down any further.

Risk structure of Deutsche Börse Group

Table of Contents

Risk control instruments

The Group determines the VaR in three stages:

1. Determining the loss distribution for every individual risk identified

This is performed for each individual risk on the basis of historical data (such as market data, default, claim, or outage history) or risk scenarios. This distribution may be, for example, a lognormal distribution (often used for risks arising from service deficiencies) or a Bernoulli distribution (used to simulate counterparty default in credit risk).

2. Simulating losses using the Monte Carlo method

A Monte Carlo simulation is used to achieve a stable VaR calculation by simulating as many loss events as possible in line with the distribution assumptions made. This produces a spread of possible total losses.

3. Calculating VaR on the basis of the Monte Carlo simulation

To do this, the losses calculated by the Monte Carlo simulation are arranged in descending order by size and the corresponding losses are determined for the specified confidence levels.

In addition to its main tool, economic capital, Deutsche Börse Group calculates the VaR at other confidence levels.

The Group supplements the VaR calculations by performing stress test calculations for operational, liquidity and credit risk.

To determine credit risk concentrations, the Group performs VaR analyses for the organisational entities concerned. This is done to detect any credit risk clusters relating to individual counterparties.

Regulatory requirements

Having received regulatory approval from the Luxembourg supervisory authority CSSF (Commission de Surveillance du Secteur Financier), Clearstream Banking S.A. and Clearstream Banking AG have been applying the Advanced Measurement Approach (AMA) to calculate their capital requirements for operational risk under the Solvabilitätsverordnung (SolvV, German Solvency Regulation) based on the Basel II directives since 1 January 2008, while Clearstream Holding AG has been using this approach on Group level since it received BaFin approval on 7 October 2010. Eurex Clearing AG uses the Basic Indicator Approach to calculate its capital requirements in relation to operational risk. For credit and market risks, the standardised approach is used throughout the Group.

Clearstream Holding Group, Clearstream Banking AG and Eurex Clearing AG meet the minimum requirements for risk management (MaRisk). Key conditions of the revised MaRisk, which have to be fully implemented by 31 December 2011, are already being met. These relate in particular to the requirements for the risk inventory, the risk-bearing capacity concept, the business and risk strategies and risk concentration.

Deutsche Börse Group closely monitors developments in the regulatory environment with regard to risk management, in particular the revisions of the EU's Capital Requirements Directive (CRD) and the regulatory framework developed by the Basel Committee on Banking Supervision (Basel III regulation), and continues to strive towards implementing regulatory requirements in this regard at an early stage.

Risk description and assessment – operational risk

The most substantial operational risks Deutsche Börse Group faces relate to the non-availability of its trading, clearing and settlement systems (availability risk) and to the incorrect processing of customer instructions in the custody business (service deficiencies).

Table of Contents

Availability risk

Availability risk results from the fact that operating resources essential to Deutsche Börse Group's services offering could fail, thereby making it impossible to deliver services on time or at all. This risk constitutes the greatest operational risk for Deutsche Börse Group. It can arise, for example, from hardware and software failures, operator and security errors, or physical damage to the data centres.

Service deficiencies

This category includes risks that could materialise if a service for customers of Deutsche Börse Group is performed inadequately, for example, due to product and process deficits, processes being performed incorrectly, or errors in manual processing. Manual work continues to be necessary, despite all the automated systems and efforts aimed at delivering straight-through processing. As a result, in certain business segments, *e.g.* in the custody business, Deutsche Börse Group remains exposed to the risk of customer instructions being processed incorrectly. In addition, manual intervention in market and system management is necessary in special cases.

Damage to physical assets

This category includes risks due to accidents and natural disasters, as well as terrorism and sabotage.

Legal offences and business practices

Risk associated with legal offences includes losses that could arise as a result of non- or inappropriate compliance with new or existing laws, losses from insufficient contract terms or from court decisions not adequately taken into account during normal business operations, as well as risk from fraud. Business practice risk includes losses resulting from money laundering, violations of competition regulations, or breaches of banking secrecy.

Following a class action against the Islamic Republic of Iran (Iran), plaintiffs obtained a default judgement against Iran in September 2007 in the US courts. In June 2008, plaintiffs commenced enforcement proceedings to satisfy that judgement by restraining certain client positions held in Clearstream Banking S.A. s (Clearstream) securities omnibus account with its US depository bank. Clearstream defended against the restraints and filed a motion to vacate the restraints on various grounds. That motion remains pending before the Court. In October 2010, plaintiffs commenced a lawsuit which seeks to have the restrained positions turned over to plaintiffs. A plaintiff's amended complaint was received by Clearstream in Luxembourg on 7 January 2011. The amended complaint includes a cause of action directly against Clearstream alleging US\$250 million in connection with purportedly fraudulent conveyances related to the restrained positions. Should the case proceed to turnover, Clearstream intends to defend itself vigorously to the fullest extent.

No material losses from operational risk were incurred in 2010.

Measures to reduce operational risk

Deutsche Börse Group devotes considerable attention to mitigating the different types of operational risk mentioned above with the aim to reduce the frequency and amount of potential financial losses arising from the corresponding risk events. To this end, various quality and control measures are taken to protect the Group's business from all kinds of fraud and operational business losses. In addition to compliance with international quality standards, these measures include careful analysis of operational risk events that have occurred so that steps can be defined to reduce the probability of them recurring. In addition, Deutsche Börse Group has defined a large number of business continuity measures to be taken when or after an emergency occurs. Furthermore, Deutsche Börse Group has entered into insurance contracts to reduce the financial consequences of the occurrence of loss.

Table of Contents

Another risk prevention tool is the internal control system (ICS) that the Executive Board has set up for Deutsche Börse Group. The ICS is designed to ensure the effectiveness and efficiency of the Group's business operations, avert or uncover financial loss and thus protect all Deutsche Börse's business assets. It comprises both integrated and independent control and safety measures. The ICS is an integral part of the risk management system and is continuously being enhanced and adjusted to reflect changing conditions.

Moreover, the Group complies with international quality standards (such as certification according to ISO 9001/TickIT and ISO/IEC 20000) to reduce operational risk – in particular the Group's availability risk.

Deutsche Börse Group endeavours to deliver its products and services as reliably as possible. For this reason, it attaches the greatest importance to maintaining its business operations and protecting them from emergencies and disasters. Since the non-availability of its core processes and resources poses a substantial risk to Deutsche Börse Group and is a potential systematic risk for the financial markets in general, Deutsche Börse Group has established a Group-wide business continuity management (BCM) system.

The BCM system encompasses all the precautionary processes that ensure business continues as normal if a crisis occurs and therefore substantially reduces availability risk. It covers arrangements for all key resources (systems, rooms, staff, suppliers/service providers), including the redundant design of all critical IT systems and the technical infrastructure, as well as backup workspaces in each of the main operational centres for employees in critical functions. Examples of these provisions can be found in the Business continuity measures diagram.

An emergency and crisis management process has been implemented within the Group to ensure a prompt response and a coordinated approach to any emergencies. The process is designed to minimise the impact on business processes and the market and to facilitate a swift return to business as usual. Emergency managers have been appointed as central points of contact in all business areas to assume responsibility in cases of emergency or crisis. The emergency managers inform and/or alert the Executive Board (depending on the severity of the incident). In cases of crisis, the Executive Board member responsible for the area concerned acts as the crisis manager.

The business continuity measures are tested regularly by simulating emergency situations realistically. These tests are normally carried out unannounced. GRM reports all problems encountered as well as its test results and recommendations to the Executive Board. The test results are assessed according to the following criteria:

Functional effectiveness – the measures must work from a technical point of view.

Executability – employees must be familiar with the emergency procedures and be able to execute them.

Recovery time – the emergency measures must ensure that operations are restored within the scheduled time.

Moreover, Deutsche Börse Group has established a Group Compliance function to protect the Group against any loss or damage resulting from failure to comply with applicable laws, regulations and good corporate governance standards, with a particular focus on the following topics:

Prevention of money laundering and terrorist financing

Compliance with professional and banking secrecy

Prevention of insider dealing

Prevention of market manipulation

Prevention of fraud

Prevention of conflicts of interest and corruption

Data protection

F-140

Table of Contents

Business continuity measures

Any residual operational risk that Deutsche Börse Group does not wish to retain and that can be insured at a reasonable price is transferred by taking out insurance policies. All insurance policies are coordinated centrally, thereby ensuring that uniform insurance cover is available at all times for the entire Group at an attractive cost-benefit ratio. The insurance portfolio policies that are relevant from a risk perspective are individually reviewed and approved by the Chief Financial Officer of Deutsche Börse AG.

In addition, Deutsche Börse Group performs stress test calculations for operational risk in the Clearstream Holding Group and at Eurex Clearing AG. These stress tests simulate the occurrence of extreme operational losses or an accumulation of major operational losses in one year. Since the Group has not incurred any major operational losses to date, potential risk scenarios are defined for this purpose. These risk scenarios describe possible operational loss events and their probability as well as the potential amount of loss, which is estimated by internal experts from the respective business areas. The following extreme loss situations are simulated for the stress test on the basis of these risk scenarios and compared with the risk bearing capacity for operational risk:

the risk scenario with the largest estimated maximum loss, irrespective of its expected probability

the combination of the two largest maximum losses, each with a probability estimated at one event per hundred years or less

the combination of the three largest maximum losses, each with a probability estimated at one event per twenty years or less

The stress tests for operational risk conducted in the financial year did not identify any need to increase the risk bearing capacity for the Clearstream Holding Group or Eurex Clearing AG.

Financial risk

The various categories of financial risk are mitigated using effective control measures.

Credit risk

Credit risk describes the risk that a counterparty will default and cannot meet its liabilities toward Deutsche Börse Group in full or at all.

Credit risk at Deutsche Börse Group mainly relates to the companies in the Clearstream Holding Group and to Eurex Clearing AG. In addition, Deutsche Börse Group's cash investments and receivables are subject to credit risk.

Table of Contents

Clearstream Holding Group: Clearstream Banking S.A. and Clearstream Banking AG extend credit to their customers or arrange securities lending transactions. This type of credit business is, however, fundamentally different from the classic credit business. Firstly, credit is extended solely on a very short-term basis. Secondly, it is extended only for the purpose of increasing the efficiency of securities transaction settlement and is largely collateralised and granted to customers with good credit ratings. Furthermore, credit lines granted can be revoked at any time.

Clearstream Banking S.A. is also exposed to credit risk arising from its strategic securities lending transactions (ASLplus). Only selected banks operate as borrowers. All lending transactions are fully collateralised and only selected bonds are permitted as collateral. The minimum rating for these issues is an A+ from Standard & Poor's or a comparable rating from other agencies. A minimum rating of A-1 applies for issuers of short-term bonds without an issue rating.

The creditworthiness of potential customers is assessed before entering into a business relationship with them. Clearstream Banking S.A. and Clearstream Banking AG establish customer-specific credit lines on the basis of both regular reviews of the customer's credit and ad hoc analyses as required. Clearstream Banking S.A. and Clearstream Banking AG define safety margins for securities collateral to ensure that this is sufficient to cover risk exposure and test their adequacy on an ongoing basis. An additional haircut is applied to issuers from the PIIGS countries (Portugal, Italy, Ireland, Greece and Spain) that have been classified as too high-risk; alternatively, they are excluded from the permissible collateral.

Eurex Clearing AG: In accordance with its clearing conditions, Eurex Clearing AG conducts transactions with its clearing members only. Clearing relates to securities, rights, derivatives and emission allowances that are traded on Eurex Deutschland and Eurex Zürich (Eurex exchanges), Eurex Bonds, Eurex Repo, Frankfurter Wertpapierbörse (FWB, the Frankfurt Stock Exchange), the Irish Stock Exchange as well as the European Energy Exchange and for which Eurex Clearing AG as a central counterparty enters into initiated or executed transactions. In addition, Eurex Clearing AG may act as the central counterparty for OTC derivatives transactions if these transactions correspond in substance to the derivatives transactions in the aforementioned markets and if the clearing members decide to use the clearing system for their OTC transactions. In this context, Eurex Clearing AG also provides clearing services for its clearing members for transactions executed on the individual markets or OTC transactions. In some cases, this is done in cooperation with another clearing house (link clearing house) and on the basis of a special agreement (clearing link agreement).

Each clearing member must prove that it has liable capital equal to at least the amount stipulated by Eurex Clearing AG for its clearing activities in the various markets. The amount of capital depends on the risk involved.

In order to protect Eurex Clearing AG against the risk of default by a clearing member before it has settled its outstanding transactions, clearing members are required, under the terms of the applicable version of the clearing conditions, to provide daily collateral in the form of cash or securities (margins) plus additional intra-day security margins if required in an amount stipulated by Eurex Clearing AG. Margin calculations are performed separately for clearing members' own accounts and the accounts of their customers.

The intra-day profit or loss arising from the price movement of the financial instruments is either settled between the counterparties in cash (variation margin) or deposited by the seller with Eurex Clearing AG as collateral due to the change in value of the position (premium margin). In the case of bonds, repo, and equities transactions, the margin is collected either at the buyer or the seller (current liquidating margin), depending on the relationship between the purchase price and the current value of the financial instruments. In addition to offsetting profits and losses, these measures are intended to protect against the risk of the cost of closing out an account over the expected liquidation period, assuming the most unfavourable price movement possible for the positions held in the account (additional margin). The method of calculating the additional margin is known as risk-based margining and is essentially a VaR approach. First of all, the maximum cost of closure is calculated for each product individually. Opposite positions with the same risk profile are then offset against each other provided

Table of Contents

that they have been highly correlated over a significant period of time. The target confidence level for the additional margin is at least 99.0 percent. Regular checks ensure that the margins correspond to the required confidence level.

The approach taken by Eurex Clearing AG to hedge against risks also guarantees that bilaterally negotiated transactions between two parties are fulfilled, particularly OTC derivatives transactions such as credit default swaps. For this so-called credit clearing, the collateral mechanisms take into consideration the specific risks of credit default swaps with specific margin components for buyers and sellers of collateral. A separate clearing license is required for participation in credit clearing.

Eurex Clearing AG only admits selected collateral with a high credit rating to cover margin requirements. Eurex Clearing AG continually monitors the permitted collateral and sets safety margins to cover the market risks of the collateral at a confidence level of at least 99.9 percent. Here, too, an additional haircut is applied to issuers from the PIIGS countries that have been classified as too high-risk; alternatively, they are excluded from the permissible collateral. The risk parameters used to set the safety margins are regularly reviewed and the safety margins recalculated on a daily basis for each security.

In addition to providing margins for current transactions, each clearing member must contribute to a clearing fund depending on its individual risk. The fund provides collective protection against the financial consequences of any default or loss of a clearing member that is not covered by the individual margins of the clearing member concerned. Eurex Clearing AG has established a separate clearing fund for credit clearing. Eurex Clearing AG performs stress tests to establish whether the clearing fund is sufficient to cover the risk exposure. This involves subjecting all current transactions by the clearing members and their collateral to market price fluctuations at a confidence level of at least 99.9 percent. To facilitate the calculation of potential losses that exceed the individual margins of a clearing member, the impact of a potential default on the clearing fund is simulated. If the limits defined by Eurex Clearing AG are exceeded, it can take immediate action to adjust the volume of the clearing fund.

If a clearing member does not meet its obligations to Eurex Clearing AG, the latter has the following lines of defence:

1. First, the outstanding positions and transactions of the clearing member concerned can be netted and/or closed from a risk perspective by entering into appropriate back-to-back transactions, or they can be settled in cash.
2. Any potential shortfall that might be incurred in connection with such a closing or cash settlement, as well as associated costs, would be covered in the first instance by the collateral provided by the clearing member concerned. As at 31 December 2010, collateral amounting to 32.1 billion had been provided for the benefit of Eurex Clearing AG.
3. Subsequently, the relevant clearing member's contribution to the clearing fund would be used to cover the shortfall.
4. Any remaining shortfall would initially be covered by the retained earnings of Eurex Clearing AG. These retained earnings amounted to 6.4 million prior to allocation as at 31 December 2010.
5. After this, a proportionate claim would be made on the contributions paid into the clearing fund by all other clearing members (including possible future contributions). As at 31 December 2010, the volume of Eurex Clearing AG's clearing fund stood at 1,480.7 million. Upon full utilisation, Eurex Clearing AG may call in additional collateral from clearing participants.

Table of Contents

Cash investments: Further credit risks can arise in relation to cash investments made by Deutsche Börse AG and its subsidiaries. Deutsche Börse Group reduces this risk by spreading such investments across a number of counterparties with exclusively good credit ratings, defining investment limits for each counterparty, and making mostly short-term investments which are collateralised if possible. The Group establishes maximum investment limits on the basis of regular assessments of creditworthiness and ad hoc analyses as required.

Stress test calculation: The Group has implemented three different scenarios in its credit risk stress test calculation. These simulate a mild recession, a global economic depression and the default of the largest counterparty. They are quantified for each business day. The values determined in the stress tests are compared with the limits defined as part of the risk bearing capacity. Credit risk stress tests are calculated for Deutsche Börse Group, Clearstream Holding Group and Eurex Clearing AG. The credit risk stress test calculations did not identify any material risks in the years under review.

In addition, the Group determines credit risk concentrations by performing VaR analyses at the level of Deutsche Börse Group, the Clearstream Holding Group and Eurex Clearing AG, so as to detect any risk clusters relating to individual counterparties. To this end, credit risk VaRs are calculated at individual counterparty level and compared with the overall credit risk VaRs. Because of the Group's business model, the companies in the Group are almost exclusively focused on financial sector customers. However, no material credit risk concentrations were found for individual counterparties.

Market price risk

Market price risk can arise in the form of interest rate or currency risk in the operating business as a result of collecting net revenues denominated in foreign currency, in connection with cash investments or borrowing as a result of fluctuations in interest rates and foreign exchange rates.

The Group avoids outstanding currency positions wherever possible. Customer deposits in foreign currencies are covered by nostro items in the same currency. Revenue in foreign currencies is partly matched by costs in foreign currencies. Any residual currency risks in Deutsche Börse Group were largely hedged in 2010 using forward foreign exchange transactions. This entailed selling planned currency positions at a price fixed in advance for delivery on the date of the expected cash inflows. Regular reviews ensure the effectiveness of these hedges.

Deutsche Börse AG, the Clearstream Holding Group and Eurex Clearing AG are exposed to interest rate risk in connection with cash investments. Interest rate risk is mitigated using a limit system that only permits maturity transformation to a small extent. In addition, Deutsche Börse AG may be exposed to interest rate risk from refinancing outstanding debt. In 2010, Deutsche Börse AG used swap and option transactions to secure a fixed interest rate or the right to a fixed interest rate for some of the amounts that may need to be refinanced.

Further market price risks may arise in connection with contractual trust arrangements (insolvency-proof fund assets related to Deutsche Börse Group's existing pension plans).

Liquidity risk

Liquidity risk arises if there is insufficient liquidity to meet daily payment obligations or when increased refinancing costs are incurred in the event of liquidity bottlenecks.

Group Treasury monitors the daily and intra-day liquidity for the Group and its subsidiaries (with the exception of the Clearstream Holding Group, for which Clearstream Treasury is responsible) and manages it with the help of a limit system. Extensive credit lines are available to provide cover in extreme situations. The Group also performs operational and strategic liquidity management. Operational liquidity management ensures that payments to be made in the subsequent three months are covered while strategic liquidity management is geared towards longer-term planning and securing of liquidity as well as the financing of projects and investments.

Table of Contents

Strict internal liquidity requirements apply to Eurex Clearing AG due to its role as central counterparty. Its investment policy is therefore conservative. Regular analyses ensure the appropriateness of these liquidity requirements.

Clearstream Treasury guarantees the liquidity of the companies in the Clearstream Holding Group. Its investment strategy is designed to ensure that customer deposits can be repaid at any time. The limits used to manage liquidity go beyond the regulatory requirements. Further extensive forms of finance are available to provide additional security.

Deutsche Börse Group, the Clearstream Holding Group and all subsidiaries had sufficient liquidity at all times in the years under review.

Stress test calculation: Stress test calculations are performed on liquidity risk in the Clearstream Holding Group and at Eurex Clearing AG. To this end, the Clearstream Holding Group and Eurex Clearing AG have each implemented three scenarios that are calculated quarterly. In these scenarios, both the sources and the uses of liquidity are subjected to a stress test, using historical as well as hypothetical scenarios. All in all, both the Clearstream Holding Group and Eurex Clearing AG have a comfortable liquidity situation.

Risk associated with regulatory parameters

Risk associated with regulatory parameters comprises losses that could arise if specified ratios are not met.

Clearstream Holding Group, Clearstream Banking S.A., Clearstream Banking AG and Eurex Clearing AG meet the Basel II regulatory capital requirements. Clearstream Banking S.A., Clearstream Banking AG and Eurex Clearing AG meet the regulatory liquidity requirements specified by the national supervisory authorities.

Business risk

Business risk reflects the sensitivity of the Group to macroeconomic developments and its vulnerability to event risk, such as regulatory adjustments or changes in the competitive environment. This risk is expressed in relation to EBIT. Business risk can impact sales revenue and cost trends, for example causing a decline in actual sales revenue compared to target figures, or a rise in costs. In addition, external factors such as the performance and volatility of the stock markets or a lack of investor confidence in the financial markets may impact financial performance.

Regulatory measures represent a material business risk. They can adversely affect Deutsche Börse Group's competitive position on the one hand; or impact the business models of Deutsche Börse Group's customers and reduce demand for the Group's products and services on the other.

With respect to the risk of a changed competitive environment, the possibility that Deutsche Börse Group's financial performance might deteriorate due to fierce competition for market share in individual business areas cannot be ruled out. This could lead to intangible assets being partially or fully written down following an impairment test.

Scenarios are established and quantitatively assessed for each of the Group's business areas based on the most significant risk events. Deutsche Börse Group closely monitors these developments in order to take mitigating actions at an early stage.

Project risk

Project risk can arise as a result of implementing projects (launching new products, processes, or systems), which may have a significant impact on one of the three other risk categories (operational, financial and business risk). Project risk is assessed by Group Risk Management and addressed in the early stages of major projects. None of the projects planned and implemented in 2010 caused a significant change in the overall risk profile of Deutsche Börse Group. Risks connected with project implementation, such as budget risk, quality/scope risk or deadline risk, are monitored locally and reported to the corresponding supervisory committee.

Table of Contents

Summary

In the past financial year, Deutsche Börse Group identified all new risks that arose at an early stage and took appropriate measures to counter them. As a result of these measures, the risk profile of Deutsche Börse Group did not change significantly. In the years under review, the risks of Deutsche Börse Group were at all times matched by adequate risk bearing capacities. As at 31 December 2010, Deutsche Börse Group's economic capital amounted to 486 million and its risk bearing capacity to 2,540 million (see section Risk strategy for further information). The Executive Board of Deutsche Börse AG firmly believes in the effectiveness of its risk management system.

Outlook

The Group evaluates its risk situation on an ongoing basis. From today's perspective, the Executive Board sees no significant change in the risk situation and hence no threat to the continued existence of the Group. This section about expected developments was prepared for Deutsche Börse Group and does not take into account the proposed business combination of Deutsche Börse AG and NYSE Euronext announced on 15 February 2011. Further enhancements to the risk management systems are scheduled for 2011. These include the extension of Group-wide stress tests on economic capital and further improvements in the IT infrastructure for risk management.

Quantitative information

Financial risks arise at Deutsche Börse Group mainly in the form of credit risk. To a very small extent the Group is exposed to market price risk. Financial risks are quantified using the economic capital concept. Economic capital is assessed on a 99.98 percent confidence level for a one year holding period. The economic capital is compared with the Group's liable equity capital adjusted by intangible assets so as to test the Group's ability to absorb extreme and unexpected losses. The economic capital for financial risk is calculated at the end of each month and amounts to 136 million as at 31 December 2010. It is largely determined by credit risk. The economic capital for credit risk is calculated for each business day.

The Group evaluates its risk situation on an ongoing basis. In the view of the Executive Board, no significant change in the risk situation and, thus, no threat to the continued existence of the Group can be identified at this time.

- 1) Presented in the items restricted bank balances and other cash and bank balances
- 2) Total of fair value of cash (41.1 million; 2009: 30.9 million; 2008: nil) and securities collateral (4,480.4 million; 2009: 2,914.6 million; 2008: 2,937.0 million) received under reverse repurchase agreements
- 3) The portfolio of deposited collateral is not directly attributed to any utilisation, but is determined by the scope of the entire business relationship and the limits granted.
- 4) Off-balance-sheet items
- 5) Net value of all margin requirements resulting from executed trades as of the balance sheet date. This figure represents the risk-orientated view of Eurex Clearing AG while the carrying amount of the position financial instruments of Eurex Clearing AG in the balance sheet shows the gross amount of the open trades according to IAS 32.
- 6) Fair value of cash and securities collateral deposited for margins covering net value of all margin requirements.

Cash investments

Deutsche Börse Group is exposed to credit risk in connection with the investment of cash funds. The Group mitigates such risks by investing short-term funds to the extent possible on a collateralised basis, e.g. via reverse repurchase agreements.

According to the treasury policy, only bonds with a minimum rating of AA issued by governments, supranational institutions and banks are eligible as collateral. In the course of the financial crisis, eligibility criteria have been tightened to allow only government-issued or government-backed securities.

The fair value of securities received under reverse repurchase agreements (Clearstream subgroup, Eurex Clearing AG and Deutsche Börse AG) was 7,180.4 million (2009: 7,708.2 million; 2008: 13,078.2 million). The Clearstream subgroup is allowed to repledge the securities received to central banks.

The fair value of securities received under reverse repurchase agreements repledged to central banks amounted to 1,337.6 million as at 31 December 2010 (2009: 2,914.6 million; 2008: 2,937.0 million). The contract terms are based on recognised bilateral master agreements.

Uncollateralised cash investments are permitted only for counterparties with sound creditworthiness within the framework of defined counterparty credit limits or in the form of investments in money market funds as well as US treasuries and municipal bonds with maturities of less than two years. The Clearstream subgroup assesses

Table of Contents

counterparty credit risk on the basis of an internal rating system. The remaining Group companies use external ratings available to them. Within the framework of previously defined counterparty credit limits, Group companies that do not have bank status can also invest cash with counterparties that are not externally rated, but instead are members of a deposit protection scheme. The corresponding counterparty limits are always well below the liability limits of the relevant protection scheme.

Part of the available-for-sale fixed-income securities and floating rate notes held by Clearstream are pledged to central banks to collateralise the settlement facility obtained. The fair value of pledged securities was 2,879.6 million as at 31 December 2010 (2009: 1,748.7 million; 2008: 754.1 million).

Loans for settling securities transactions

Clearstream grants customers technical overdraft facilities to maximise settlement efficiency. These settlement facilities are subject to internal credit review procedures. They are revocable at the option of the Clearstream subgroup and are largely collateralised. Technical overdraft facilities amounted to 101.2 billion as at 31 December 2010 (2009: 93.7 billion; 2008: 83.6 billion). Of this amount, 3.0 billion (2009: 2.8 billion; 2008: 3.0 billion) is unsecured, whereby a large proportion relates to credit lines granted to central banks and other state-guaranteed institutions. Actual outstandings at the end of each business day generally represent a small fraction of the facilities and amounted to 248.6 million as at 31 December 2010 (2009: 405.7 million; 2008: 722.3 million); see note 20.

Clearstream also guarantees the risk resulting from the Automated Securities Fails Financing programme it offers to its customers. However, this only applies when the risk is collateralised. In the absence of collateral, this risk is covered by third parties. Guarantees given under this programme amounted to 642.3 million as at 31 December 2010 (2009: 750.7 million; 2008: 538.4 million).

Under the ASLplus securities lending programme, Clearstream Banking S.A. had securities borrowings from various counterparties totalling 20,510.2 million as at 31 December 2010 (2009: 17,595.5 million; 2008: 6,179.1 million). These securities were fully lent to other counterparties. Collateral received by Clearstream Banking S.A. in connection with these loans amounted to 21,279.6 million (2009: 18,452.6 million; 2008: 6,908.7 million).

During 2009, Clearstream Banking AG discontinued a service where, as part of the national securities settlement process, it provided credit facilities to customers without an own TARGET2 account against collateral security. During 2008, 2009 and 2010 no losses from the credit business occurred on any of the types of transaction described.

Other receivables

Trading, settlement and custody fees are generally collected without delay by direct debit. Fees for other services, such as the provision of data and information, are settled mainly by transfer. As a result of default by customers, receivables of 2.5 million (2009: 1.5 million; 2008: 7.6 million) relating to fees for trading and provision of data and IT services are not expected to be collectable.

Financial instruments of Eurex Clearing AG (central counterparty)

To safeguard Eurex Clearing AG against the risk of default by a clearing member, the clearing conditions require the clearing members to deposit margins in the form of cash or securities on a daily basis or an intraday basis in the amount stipulated by Eurex Clearing AG.

The aggregate margin calls (after haircuts) based on the executed transactions was 33,013.0 million at the reporting date (2009: 36,240.1 million; 2008: 54,054.5 million). In fact, collateral totalling 42,325.5 million (2009: 47,987.7 million; 2008: 64,794.4 million) was deposited.

Table of Contents

Composition of Eurex Clearing AG's collateral

	Collateral value as at 31 Dec. 2010 m	Collateral value as at 31 Dec. 2009 m	Collateral value as at 31 Dec. 2008 m	Fair value as at 31 Dec. 2010 m	Fair value as at 31 Dec. 2009 m	Fair value as at 31 Dec. 2008 m
Cash collateral (cash deposits)	6,060.1	4,737.0	10,216.2	6,060.1	4,737.0	10,216.2
Securities and book-entry securities collateral	36,265.4	43,250.7	54,578.2	40,988.9	48,702.8	62,974.5
Total	42,325.5	47,987.7	64,794.4	47,049.0	53,439.8	73,190.7

There were also third-party bank guarantees for clearing members of Eurex Clearing AG amounting to 79.0 million and CHF15.3 million as at the year-end (2009: 122.5 million and CHF15.3 million; 2008: 182.4 million and CHF15.3 million).

In contrast to the risk-oriented net analysis of the transactions via the central counterparty, the gross amounts are reported in the balance sheet, as the offsetting rules defined in IAS 32 cannot be met. For a detailed explanation of this balance sheet item, see section financial instruments of Eurex Clearing AG (central counterparty) in note 3 or note 19 for an analysis of the carrying amount of 128,823.7 million as at 31 December 2010 (2009: 143,178.4 million; 2008: 121,684.3 million).

Credit risk concentrations

Deutsche Börse Group's business model and the resulting business relationships with a large part of the financial sector mean that, as a rule, credit risk is concentrated on the financial sector. Potential concentrations of credit risk on individual counterparties are avoided by application of counterparty credit limits.

The regulatory requirements, such as those arising under the Großkredit- und Millionenkreditverordnung (GroMiKV, ordinance governing large exposures and loans of 1.5 million or more) in Germany and the corresponding rules in Luxembourg arising under the revised CSSF circular 06/273, are complied with. The German and Luxembourgian rules are based on the EU directives 2006/48/EC and 2006/49/EC (commonly known as CRD). The large exposures rules as laid down by the CRD have been revised by three directives in 2009 (commonly known as CRD II) and have been effective since 31 December 2010. The new rules are more prudent and have taken away in principle the preferred treatment of banks compared to other corporations and have tightened the rules on collateral (*e.g.* introduced the same haircut rules as for solvency purposes). See note 24 for an explanation of regulatory capital requirements.

Deutsche Börse Group carries out VaR calculations in order to detect credit concentration risks. In 2010, no significant credit concentrations were assessed.

The economic capital for credit risk is calculated for each business day and amounts to 135 million as of 31 December 2010.

Market price risk

As part of the annual planning, the treasury policy of Deutsche Börse Group is implemented in such a way that any net earnings exposure from currencies must be hedged through foreign exchange transactions, if the unhedged exposure exceeds 10 percent of consolidated EBIT. Foreign exchange exposures below 10 percent of consolidated EBIT may also be hedged.

During the year, actual foreign exchange exposure is monitored against the latest EBIT forecast. In case of an overstepping of the 10 percent threshold, the exceeding amount must be hedged.

In addition, the policy stipulates that intraperiod open foreign exchange positions are closed when they exceed 15.0 million. This policy was complied with as in the previous year; as at 31 December 2010, there were no significant net foreign exchange positions.

Table of Contents

Currency risks in the Group arise mainly from the operating results and balance sheet of ISE, which are denominated in US dollars, plus that part of Clearstream's sales revenue and interest income less expenses which is directly or indirectly generated in US dollars. As at 31 December 2010, ISE accounted for 19 percent of the Eurex segment's sales revenue (2009: 25 percent; 2008: 24 percent). In addition, the Clearstream segment generated sales revenue and interest income (2010: 9 percent; 2009: 9 percent; 2008: 12 percent) directly or indirectly in US dollars.

Eurex receives interest on intraday margin calls paid in US dollars. These exposures are partially offset by operating costs incurred in US dollars.

Acquisitions where payment of the purchase price results in currency risk are generally hedged.

The Group has partially hedged its investment in ISE against foreign currency risks by issuing fixed-income US dollar debt securities. The investment in ISE (hedged item) constitutes a net investment in a foreign operation. The US dollar securities designated as hedging instruments for the net investment hedge were issued in a nominal amount of US\$460.0 million.

Interest rate risks arise further from debt financing of acquisitions. The acquisition of ISE was financed through senior and hybrid debt. Senior debt was issued in euros and US dollars with tenors of five to twelve years and fixed coupons for the life of the instruments. The hybrid debt issue has a fixed coupon for the first five years to be refixed in case the instrument is not called.

Equity price risks arise to a limited extent from contractual trust arrangements (CTAs). In addition, there are equity price risks arising from strategic equity investments in other exchange operators.

Economic capital is calculated at the end of each month for market price risks that can arise in connection with cash investments or borrowing as a result of fluctuations in interest rates and foreign exchange rates as well as through hedging corporate transactions. On 31 December 2010, the economic capital for market price risk was 1 million.

In financial year 2010, impairment losses amounting to 3.2 million (2009: 3.3 million; 2008: 10.0 million) were recognised in income for strategic investments that are not included in the VaR for market price risk.

Liquidity risk

Liquidity risk may arise from potential difficulties in renewing maturing financing, such as commercial paper and bilateral and syndicated credit facilities. In addition, required financing for unexpected events may cause liquidity risk. Most of the Group's cash investments are short-term to ensure availability of liquidity, should the need arise.

Liquidity risk arises from potential difficulties to meet current and future cash flows and collateral needs in support of the settlement activities of Clearstream's customers. Liquidity risk is managed by matching the duration of investments and liabilities, restricting investments in potentially illiquid or volatile asset classes, authorising the Clearstream subgroup to repledge securities received with central banks and maintaining sufficient financing facilities to overcome unexpected demands for liquidity. Most of the Group's cash investments are short-term.

Eurex Clearing AG remains almost perfectly matched with respect to the durations of received customer cash margins and investments while the Clearstream subgroup may invest customer balances up to a maximum of six months (see note 34 for an overview of the maturity structure). Eurex Clearing AG may place limited amounts with tenors of up to one month.

Table of Contents

Contractually agreed credit lines

Company	Purpose of credit line	Currency	Amount as at 31 Dec. 2010 m	Amount as at 31 Dec. 2009 m	Amount as at 31 Dec. 2008 m
Deutsche Börse AG	working capital ¹⁾	interday	605.0	605.0	405.0
Eurex Clearing AG	settlement	interday	670.0	370.0	370.0
	settlement	intraday	700.0	700.0	700.0
	settlement	interday	CHF 200.0	200.0	200.0
Clearstream Banking S.A.	working capital ¹⁾	interday	US\$ 1,000.0	1,000.0	1,000.0

1) 400.0 million of Deutsche Börse AG's working capital credit line is a sub-credit line of Clearstream Banking S.A.'s US\$1.0 billion working capital credit line.

Clearstream Banking S.A. has a bank guarantee (letter of credit) in favour of Euroclear Bank S.A./N.V. issued by an international consortium to secure daily deliveries of securities between Euroclear and Clearstream. This guarantee amounted to US\$3.0 billion as at 31 December 2010 (2009: US\$3.0 billion; 2008: US\$5.6 billion). Euroclear Bank S.A./N.V. has also issued a corresponding guarantee in favour of Clearstream Banking S.A.

Furthermore, Eurex Clearing AG holds a credit facility of US\$2.1 billion granted by Euroclear Bank S.A./N.V. in order to increase the settlement efficiency.

A commercial paper programme offers Deutsche Börse AG an opportunity for flexible, short-term financing, involving a total facility of 2.5 billion in various currencies. As at year-end, there was no outstanding commercial paper (2009: 100.0 million; 2008: 202.0 million).

Clearstream Banking S.A. also has a commercial paper programme with a programme limit of 1.0 billion, which is used to provide additional short-term liquidity. As at 31 December 2010, commercial paper with a nominal value of 202.4 million had been issued (2009: 180.0 million; 2008: 35.0 million).

As in the previous year, Standard & Poor's assessed Deutsche Börse AG's long-term credit rating at AA as at 31 December 2010. Deutsche Börse AG's commercial paper programme was again awarded the best possible short-term rating of A-1+.

The long-term credit ratings by Fitch and Standard & Poor's for Clearstream Banking S.A. also remained unchanged over the previous year at AA. As in the previous year, Clearstream Banking S.A.'s commercial paper programme was rated F1+ by Fitch and A-1+ by Standard & Poor's.

43. Other financial obligations

For the coming years, Group expenses in connection with long-term contracts relating to maintenance contracts and other contracts amount to 138.0 million (2009: 127.2 million; 2008: 175.9 million).

Breakdown of future financial obligations

	31 Dec. 2010 m	31 Dec. 2009 m	31 Dec. 2008 m
Up to 1 year	79.5	80.9	112.2
1 to 5 years	49.8	37.4	53.6
More than 5 years	8.7	8.9	10.1
Total	138.0	127.2	175.9

Obligations resulting from insurance policies amount to 5.1 million in 2011 (2010: 5.0 million; 2009: 5.6 million).

Deutsche Börse AG completed an investment protection agreement with SIX Group AG. If SIX Group AG reduces its indirect share in the profit of Eurex companies, the agreement obligates Deutsche Börse AG to make a compensatory payment to SIX Group AG for the reduction of the indirect share in International Securities Exchange Holdings, Inc.

Table of Contents

In connection with the cooperation agreement between SIX Swiss Exchange AG and Deutsche Börse AG with regard to both parties participation in Scoach Holding S.A., Deutsche Börse AG has the right and the obligation, at the end of the cooperation after expiration of the term or termination of the agreement, to retain the holding company as sole shareholder. This obligation results in a contingent liability for Deutsche Börse AG to SIX Swiss Exchange AG to acquire the shares SIX Swiss Exchange AG holds in the holding company without fair value being measured. In addition, Deutsche Börse AG has to make a compensation payment if the net financial liabilities and assets surplus to business requirements of Scoach Schweiz AG, which is allocated to SIX Group, and of Scoach Europa AG, which is allocated to Deutsche Börse Group, are not of equal value.

Eurex Zürich AG and Landesbank Baden-Württemberg (LBBW) entered into an agreement on 23 December 2010 for the acquisition by Eurex Zürich AG of the shares held to date by LBBW in European Energy Exchange AG. The shares are to be transferred to Eurex Zürich AG at a price of 7.15 per share plus a premium of 0.60, if this results in a majority shareholding by Eurex Zürich AG. If Eurex were to acquire all the shares of LBBW, the maximum purchase price of the shares would be 71.3 million. However, according to the pre-emptive rights specified in the consortium agreement, LBBW is obliged to offer its shares to other shareholders of European Energy Exchange AG on a pro-rata basis. Eurex Zürich AG's current interest in EEX will rise from 35.23 percent to 56.14 percent (plus 20.91 percentage points). Eurex will pay a purchase price of around 65 million to LBBW. For further details see note 48.

44. Leases

Finance leases

Finance leases were related to IT hardware components that had been used operationally within Deutsche Börse Group and had not been subleased.

Minimum lease payments from finance leases

	31 Dec. 2010	31 Dec. 2009	31 Dec. 2008
	m	m	m
Up to 1 year	0	0.6	0.2
1 to 5 years	0	0	0.6
Total	0	0.6	0.8
Discount	0	0.1	0.1
Present value of minimum lease payments	0	0.5	0.7

No contingent rent was provided for under the terms of the leases. The corresponding agreements did not contain any escalation clauses.

Operating leases (as lessee)

In addition to finance leases, the Group has also entered into leases that must be classified as operating leases on the basis of their economic substance; this means that the leased asset is allocated to the lessor. These leases relate mainly to buildings, IT hardware and software.

Minimum lease payments from operating leases

	31 Dec. 2010	31 Dec. 2009	31 Dec. 2008
	m	m	m
Up to 1 year	75.4	72.1	73.3

Total	2.7	3.8	7.7

45. Phantom Stock Option Plan, Stock Bonus Plan and Group Share Plan

Phantom Stock Option Plan

Following its IPO on 5 February 2001, Deutsche Börse AG established a phantom stock option programme for Executive Board members and senior executives of Deutsche Börse AG and its subsidiaries, which was applied for the last time in 2006.

In accordance with IFRS 2, an adapted exchange options model (spread option model) was used to calculate the value of the stock options.

The same valuation model was applied to all options granted under the phantom stock option plan. The value calculated best reflects the value of the services received. The phantom stock options have a maximum term of five years and a vesting period of three years. The options can be exercised in each quarter of the subsequent two years in 14-day exercise windows. If options have not been exercised by the last day of the exercise period, the holder is treated as if he had exercised the options. The amount of the cash payout depends on the relative performance of Deutsche Börse AG shares (adjusted for dividend payments) against the STOXX Europe 600 Technology index as the benchmark index (1.00 per 1 percent outperformance).

Valuation parameters for stock options

		as at 31 Dec. 2010	as at 31 Dec. 2009 ¹⁾	as at 31 Dec. 2008 ²⁾

1) As at 31 December 2010, the 2006 tranche was exercisable.

F-154

Table of Contents

At the reporting date of 31 December 2010, current provisions of 0.6 million (2009: 4.5 million; 2008: 33.6 million) were reported, of which none were attributable to members of the Executive Board (2009: nil; 2008: 6.3 million) and none to members of the Supervisory Board (2009: nil; 2008: 0.4 million). As a result of the reduced outperformance, income in the financial year was 0.5 million (2009: 2.6 million, 2008: 6.0 million).

Change in number of stock options allocated

	Balance as at 31 Dec. 2009	Options allocated	Options exercised	Options forfeited	Balance as at 31 Dec. 2010
To other senior executives	52,594	0	39,765	0	12,829
Total stock options allocated	52,594	0	39,765	0	12,829

The average exercise price of the 39,765 (2009: 353,758; 2008: 345,999) stock options paid out during 2010 amounted to 85.35 (2009: 75.47; 2008: 428.40).

Stock Bonus Plan (SBP)

The Company had introduced a Stock Bonus Plan for the members of the Executive Board and senior executives as a long-term incentive component in 2007, replacing the phantom stock option plan of previous years. In 2010, the Company established an additional tranche of the SBP.

In addition, the Stock Bonus Plan was also introduced for the US subsidiary International Securities Exchange Holdings, Inc. in the year 2007 in accordance with the resolution of ISE's Compensation Committee.

In order to participate in the SBP, a beneficiary must have earned a bonus. The number of stock options for senior executives is determined by the amount of the individual and performance-based SBP bonus for the financial year, divided by the average market price of the Company (closing auction price of Deutsche Börse shares in electronic trading on the Frankfurt Stock Exchange) in the fourth quarter of the financial year in question. Neither the converted SBP bonus nor the stock options will be paid at the time the bonus is determined. Rather, the entitlements are generally received two years after having been granted (waiting period). Within this period, beneficiaries cannot assert shareholder rights (in particular, the right to receive dividends and attend the Annual General Meeting). The beneficiaries' claims resulting from the SBP are calculated on the first trading day following the last day of the waiting period. The current market price at that date (closing auction price of Deutsche Börse shares in electronic trading on the Frankfurt Stock Exchange) is multiplied by the number of SBP shares.

For the 2008 and 2009 SBP tranches, the stock options for both senior executives and Executive Board members are calculated using the method described above; solely for the 2010 SBP tranche newly issued in the financial year 2010, a different method is applied to calculate the number of stock options for Executive Board members retrospectively since 1 January 2010. This is described in the following.

To calculate the number of stock options for Executive Board members under the 2010 SBP tranche, the Supervisory Board defines the 100 percent stock bonus target in euros for each Executive Board member at the beginning of each financial year. Based on the 100 percent stock bonus target defined by the Supervisory Board at the beginning of each financial year, the corresponding number of virtual shares for each Executive Board member is calculated by dividing the stock bonus target by the average price (Xetra closing price) of Deutsche Börse AG's shares in the two calendar months preceding the month in which the Supervisory Board adopts the resolution on the stock bonus target. Any right to payment of a stock bonus vests only after a performance period of three years. The year in which the 100 percent stock bonus target is defined is taken to be the first performance year.

The calculation of the subsequent payout amount of the stock bonus for the Executive Board depends on the development of the two performance factors during the performance period: firstly, on the relative performance of the total shareholder return on Deutsche Börse AG's shares compared with the total shareholder

Table of Contents

return of the STOXX Europe 600 Financials Index as the peer group, and secondly, on the performance of Deutsche Börse AG's share price. This is multiplied by the number of virtual shares at the end of the performance period to determine the stock bonus. The share price used to calculate the cash payment claims of Executive Board members from the stock bonus is calculated as the average price of Deutsche Börse AG's shares (Xetra closing price) in the two full calendar months preceding the end of the performance period.

For the stock bonus of senior executives under the 2008 to 2010 tranches and for the Executive Board's stock bonus under the 2008 and 2009 tranches, the Company has a general option whether to settle a beneficiary's claim in cash or shares. The Company decided in 2010 to settle the 2008 tranche claims due in 2011 in cash. The Company is obliged to settle the stock bonus of the Executive Board under the newly issued 2010 SBP tranche as well as all future stock bonuses issued for the Executive Board in cash.

In accordance with IFRS 2, the Company uses an adjusted Black-Scholes model (Merton model) to calculate the fair value of the stock options.

Valuation parameters for SBP shares

		Tranche 2010	Tranche 2009	Tranche 2008
		31 Jan. 2013	31 Jan. 2012	31 Jan. 2011

Volatility of Deutsche Börse AG shares	%	37.36	25.96	15.42
Dividend yield	%	4.92	4.46	4.05
Exercise price		0	0	0

The valuation model does not take exercise hurdles into account. The volatilities applied correspond to the market volatilities of comparable options with matching maturities.

Valuation of SBP shares

	Deutsche Börse AG share					Provision as at
	Balance as at 31 Dec. 2010 ¹⁾	price as at 31 Dec. 2010	Intrinsic value/option ²⁾	Fair value/option ²⁾	Settlement obligation ²⁾	31 Dec. 2010
	Number				m	m
Tranche 2008	409,781	51.80	51.80	51.62	21.2	20.6
Tranche 2009	175,767	51.80	51.80	49.40	8.7	5.5
Tranche 2010	199,237 ³⁾	51.80	51.80	46.86	9.3	2.9
Total	784,785				39.2	29.0

1) There was no portfolio of exercisable SBP shares as at 31 December 2010.

2) As at the balance sheet date

3) As the grant date for the 2010 tranche is not until the 2011 financial year, the number indicated for the balance sheet date may change subsequently.

Exercise of the stock options under the stock bonus plan was possible for the first time in 2010. The average exercise price for the 2007 tranche was 48.74. Shares of the SBP tranches 2008 to 2010 were paid to former employees as part of severance payments in the reporting year. The average exercise price amounted to 52.95 for the 2008 tranche, 51.96 for the 2009 tranche and 48.65 for the 2010 tranche.

The amount of provisions for the SBP results from the measurement of the number of SBP shares with the fair value of the closing auction price of Deutsche Börse shares in electronic trading on the Frankfurt Stock Exchange as at the balance sheet date and its proportionate recognition over the vesting period.

Provisions amounting to 29.0 million were recognised as at the balance sheet date of 31 December 2010 (31 December 2009: provisions in the amount of 24.9 million; 2008: reserves in the amount of 13.2 million). Thereof, 8.4 million are noncurrent; 5.8 million were attributable to members of the Executive Board (2009: provisions in the amount of 4.9 million; 2008: reserves amounting to 3.3 million). The total cost of the number

Table of Contents

of SBP shares in 2010 was 10.6 million (2009: 16.1 million; 2008: 9.0 million). Of that amount, an expense of 2.7 million was attributable to active members of the Executive Board as at the balance sheet date (2009: expense of 3.1 million and an income of 1.4 million that was appropriated to retained earnings resulting from the decision made in 2009 to settle in cash; 2008: expense of 2.3 million).

Change in number of SBP shares allocated

	Balance as at 31 Dec. 2009	Disposals Tranche 2008	Additions Tranche 2009	Additions Tranche 2010	Options exercised	Options forfeited	Balance as at 31 Dec. 2010

To other senior executives	581,550	15,127	8,301	132,973	100,335	0	607,362
Total	719,663	15,127	12,434	199,237¹⁾	131,422	0	784,785

1) As the grant date for the 2010 tranche is not until the 2011 financial year, the number indicated for the balance sheet date may change subsequently.

Group Share Plan (GSP)

In the past, employees of Deutsche Börse Group who are not members of the Executive Board or senior executives had the opportunity to subscribe for shares of Deutsche Börse AG at a discount of 30 or 40 percent to the issue price under the Group Share Plan (GSP). This discount is based on the employee's performance assessment and length of service. Under the 2009 GSP tranche, eligible employees were able to buy up to 200 shares of the Company. The purchased shares must be held for at least two years. In line with the resolution by the Annual General Meeting on 27 May 2010, the Company did not issue a further tranche of the GSP in the current financial year.

In 2004 to 2006, employees participating in the GSP received an additional stock option for each share acquired through the GSP, which they can exercise after two years at a fixed premium to the issue price. The exercise price of these additional options consists of the basic price, which corresponds to the volume-weighted average price of the shares in the closing auctions in Xetra trading on the ten trading days preceding the stock options' grant date, but at a minimum to the closing price on the grant date of the stock options, and a premium of 20 percent of the basic price. Options could not be exercised in the first two years, and expire without compensation if not exercised within six years. The options of the 2004 tranche expired in the current financial year. Following the capital increase from retained earnings in 2007, each individual option entitles the holder to subscribe for two Deutsche Börse shares unless Deutsche Börse AG exercises its right to settle in cash.

As a result of the decision made in 2010 to settle all GSP tranches in cash, a total of 1.8 million for the number of options from all tranches was reclassified to provisions in accordance with IFRS 2. As all tranches of the GSP have already vested, the amount of the provision results from the measurement of the number of options at the full fair value of the closing auction price of Deutsche Börse shares in electronic trading on the Frankfurt Stock Exchange at the balance sheet date which reflects the intrinsic value of the option. The fair value of the GSP tranche 2005 was 11.60 as at 31 December 2010; the GSP tranche 2006 was measured at a fair value of 0 as at 31 December 2010, because the exercise price of the option exceeded the closing auction price of Deutsche Börse shares. The difference between the fair value of the share price on the grant date and the fair value of the share price at the time the obligation to settle in cash arose was appropriated directly to retained earnings for those tranches for which there was a reversal and was recognised as staff costs for those tranches for which there was an addition.

Table of Contents

In 2010, expense in the total amount of 1.0 million (2009: net income of 0.2 million, 2008: net income of 1.5 million) was recognised in staff costs for all GSP options.

Change in number of GSP options allocated

	Balance as at 31 Dec. 2009	Options exercised	Options forfeited	Balance as at 31 Dec. 2010
Tranche 2004	13,872	12,972	900	0
Tranche 2005	33,365	1,555	200	31,610
Tranche 2006	50,792	0	1,280	49,512
Total¹⁾	98,029	14,527	2,380	81,122

1) As at 31 December 2010 a total of 81,122 options from the 2005 and 2006 tranches was exercisable (2009: 98,029 from the 2004 to 2006 tranches).

The weighted average share price for the options exercised in 2010 amounted to 49.87 (2009: 53.58; 2008: 88.33).

ISE Group Share Plan

As a component of remuneration with a long-term incentive effect, the Company also issued an annual new tranche of the Group Share Plan for employees of the US ISE subgroup in the past. Under these newly issued tranches of the ISE Group Share Plan, eligible employees had the opportunity to acquire a number of shares in Deutsche Börse AG based on their earned bonus plus an additional personal contribution. The purchase price for the shares, which is reduced by 90 percent, was paid from the granted GSP bonus and an additional contribution by the employee. For the 2008 and 2009 tranches of the stock options, a three year vesting period has been agreed. Neither the GSP bonus nor the number of GSP shares are paid at the time the bonus is determined. Rather, the payments are made two years after the grant date for the 2008 and 2009 tranches. Within this period, beneficiaries cannot assert shareholder rights (in particular, the right to receive dividends and attend the Annual General Meeting).

The Company did not issue any further tranche for the ISE Group Share Plan in financial year 2010.

The shares under the Group Share Plan are delivered no later than 45 days after the vesting period has expired. The shares are all purchased in the market. The difference between the average purchase price and the reduced subscription price is charged to staff costs.

In accordance with IFRS 2, the Company uses an adjusted Black-Scholes model (Merton model) to calculate the fair value of the GSP shares.

Valuation parameters for ISE GSP shares

	Tranche 2008 31 Jan. 2011	Tranche 2009 31 Jan. 2012

Total	174,583				5.9	4.6

1) No ISE GSP shares were exercisable as at 31 December 2010.

2) As at the grant date

3) As at the maturity date

In accordance with IFRS 2, the total amount for the number of ISE GSP shares is measured at the fair value on the grant date or the reporting date, and recognised in the income statement over the vesting periods of three years. Shareholders' equity is increased accordingly.

Reserves amounting to 4.6 million (2009: 4.1 million; 2008: 1.9 million) were recognised as at the balance sheet date of 31 December 2010. Of this amount, 1.6 million (2009: 2.9 million; 2008: 1.3 million) are noncurrent reserves. The total cost of the number of ISE GSP stock options in 2010 was 1.9 million (2009: 3.5 million, 2008: 1.9 million), all of which was attributable to equity-settled share-based payments.

Change in number of ISE GSP shares allocated

	Balance as at 31 Dec. 2009	Additions	Options exercised	Options forfeited	Balance as at 31 Dec. 2010
Tranche 2007	19,727	0	19,727	0	0

Total	183,323	29,132	19,727	18,145	174,583

The share price of the 19,727 options exercised in 2010 from the 2007 tranche was 48.95.

46. Related party disclosures

Related parties as defined by IAS 24 are the members of the executive bodies of Deutsche Börse AG, those companies classified as its associates and other investors, and companies that are controlled or significantly influenced by members of its executive bodies.

Executive Board

In 2010, the fixed and variable remuneration of the members of the Executive Board, including non-cash benefits, amounted to a total of 15.2 million (2009: 9.4 million; 2008: 13.0 million).

In 2010, no expenses for non-recurring termination benefits for Executive Board members (2009: 5.8 million; 2008: nil) were recognised in the consolidated income statement.

The actuarial present value of the pension obligations to Executive Board members was 26.2 million at 31 December 2010 (2009: 19.3 million; 2008: 15.6 million). Expenses of 2.5 million (2009: 1.4 million; 2008: 3.5 million) were recognised as additions to pension provisions.

Table of Contents**Former members of the Executive Board or their surviving dependents**

The remuneration paid to former members of the Executive Board or their surviving dependents amounted to 1.3 million in 2010 (2009: 1.3 million; 2008: 1.2 million). The actuarial present value of the pension obligations was 32.6 million at 31 December 2010 (2009: 28.7 million; 2008: 27.2 million).

Supervisory Board

The aggregate remuneration paid to members of the Supervisory Board in financial year 2010 was 1.8 million (2009: 1.9 million; 2008: 2.3 million).

- 1) STOXX Ltd. was fully consolidated effective 29 December 2009. Hence, no values are shown for 2009 and 2008 in the column Amount of the transactions .
- 2) Scoach Schweiz AG and Scoach Europa AG were deconsolidated effective 31 December 2009 and accounted for as associated companies. Hence, no values are shown for 2010 in the columns Amount of the transactions and Outstanding balances , respectively.
- 3) Since STOXX Ltd. has been fully consolidated since 29 December 2009, services to and from SIX Group AG are reported as of the balance sheet date.

47. Employees

Employees

	2010	2009	2008
Average number of employees during the year	3,539	3,549	3,339
Employed as at the balance sheet date	3,490	3,600	3,395
Of the average number of employees during the year, 9 (2009: 9; 2008: 10) were classified as Managing Directors (excluding Executive Board members), 422 (2009: 437; 2008: 411) as senior executives and 3,108 (2009: 3,103; 2008: 2,918) as employees.			

There was an average of 3,300 full-time equivalent (FTE) employees during the year (2009: 3,333; 2008: 3,115).

Table of Contents

48. Events after the balance sheet date

On 15 February 2011, Deutsche Börse AG and NYSE Euronext announced that they have entered into a business combination agreement following approval from both companies' Boards. The new company will be the world leader in derivatives trading and risk management as well as the largest venue for capital raising and equities trading. The group will have two main locations, one near Frankfurt and one in New York.

The transaction is structured as a combination of Deutsche Börse AG and NYSE Euronext under a newly created Dutch holding company, which is expected to be listed in Frankfurt, New York and Paris. On the NYSE Euronext side, this will be effected through a merger of NYSE Euronext and a US subsidiary of the new holding company in which each NYSE Euronext share will be converted into 0.47 of a share of the new holding company. On the Deutsche Börse AG side, the new holding company will launch a public exchange offer, in which shareholders of Deutsche Börse AG may tender their shares of Deutsche Börse AG for an equal number of shares of the new holding company.

Following full completion of the contemplated transactions, the former Deutsche Börse AG shareholders would own 60 percent of the combined group and the former NYSE Euronext shareholders would own 40 percent of the combined group on a fully diluted basis and assuming that all Deutsche Börse AG shares are tendered in the exchange offer.

The transaction is subject to approval by holders of a majority of the outstanding NYSE Euronext shares and to a 75 percent acceptance level of the exchange offer to Deutsche Börse AG shareholders as well as approval by the relevant competition and financial, securities and other regulatory authorities in the US and Europe, and other customary closing conditions. The transaction is expected to close at the end of 2011.

On 23 February 2011, Deutsche Börse Group announced that Eurex Zürich AG, Zurich, Switzerland, will become the new majority shareholder in European Energy Exchange AG (EEX), Leipzig, Germany. After the closing of an agreement in December 2010 between Eurex Zürich AG and Landesbank Baden-Württemberg (LBBW) about the acquisition of the full LBBW share amounting 22.96 percent, LBBW offered its share on a pro-rata basis first to the other EEX shareholders, subject to the pre-emption rights laid out in the consortium agreement. After conclusion of the tender process, 31 of the 40 eligible shareholders declared to forgo a proportional increase in their stake.

Eurex's current shareholding of 35.23 percent in EEX will therefore rise to 56.14 percent (an increase of 20.91 percentage points). Eurex will pay approximately 65 million to LBBW for the shares acquired.

The transaction has been approved by the relevant supervisory bodies, including the Exchange Supervisory Authority in Saxony, the Federal Financial Supervisory Authority (BaFin) and the German Federal Cartel Office. The necessary approval has also been granted by the bodies of the seller (LBBW) and the buyer (Eurex Zürich AG). Together with the approval of the EEX supervisory board, this means that all of the conditions for the immediate execution of the transaction have now been fulfilled.

Notes to the condensed consolidated interim financial statements (unaudited)

1. Accounting policies

The condensed consolidated interim financial statements have been prepared in compliance with the International Financial Reporting Standards (IFRSs) and the related interpretations issued by the International Accounting Standards Board (IASB), as adopted by the European Union in accordance with Regulation No. 1606/2002 of the European Parliament and of the Council on the application of International Accounting Standards.

In the opinion of management, the accompanying condensed consolidated interim financial statements of Deutsche Börse Group (the Group or the Company) have been prepared to reflect all adjustments necessary to present fairly the financial position and results of operations as of the dates and for the periods shown. All significant intercompany transactions and balances are eliminated in consolidation.

As at 31 March 2011, there were no effective standards or interpretations not yet adopted by the European Union impacting the interim financial statements. Accordingly, the financial statements also comply with the IFRSs as issued by the IASB. The significant accounting policies applied by the Company to the consolidated financial statements for the year ended 31 December 2010 were also applied to the condensed consolidated interim financial statements.

In addition to the standards and interpretations applied as of 31 December 2010, the following standards and interpretations were applied for the first time:

Revised IAS 24 Related Party Disclosures

Amendments to IAS 32 Classification of Rights Issues

Amendments to IFRIC 14 Repayments of a Minimum Funding Requirement

Changes resulting from the Annual Improvements Project

The application of these standards and interpretations did not have any material or any impact on Deutsche Börse Group's financial reporting.

In addition, IAS 34 (Interim Financial Reporting) was applied.

In accordance with the provisions of Wertpapierhandelsgesetz (WpHG, German Securities Trading Act), these interim financial statements are supplemented by a Group interim management report.

2. Group structure

On 31 January 2011, Infobolsa S.A., Madrid, Spain, acquired an interest of 62 percent in Open Finance S.L., Valencia, Spain, for a purchase price of 3.5 million. The company has been fully included in the consolidated financial statements since 31 January 2011. Goodwill amounting to 3.1 million results from the transaction.

On 23 December 2010, Eurex Zürich AG and Landesbank Baden-Württemberg (LBBW) reached an agreement regarding the acquisition of the shares in European Energy Exchange AG (EEX) previously held by LBBW through Eurex Zürich AG. After the closing of the tender process set out in the consortium agreement, 31 out of 40 EEX shareholders had waived a pro rata acquisition. The purchase price paid by Eurex Zürich AG on 12 April 2011 amounted to 64.9 million. The interest of Eurex Zürich AG in EEX rose from 35.23 percent to 56.14 percent. As Deutsche Börse Group does not hold the majority in EEX's supervisory board, the Group has no control. Thus, the company will continue to be accounted

for as associate in Deutsche Börse Group's consolidated financial statements.

3. Seasonal influences

The Group's revenues are influenced more by the volatility and the transaction volume on the capital markets than by seasonal factors. Owing to a concentration of costs for projects only coming to completion in the fourth quarter, costs in the fourth quarter tend to be higher than in the first three quarters of the business year.

F-170

Table of Contents

4. Total assets

The increase in consolidated total assets by 23.1 billion to 172.0 billion as at 31 March 2011 (31 December 2010: 148.9 billion) depends to a significant extent on financial instruments of Eurex Clearing AG. Receivables and liabilities from banking business remained almost unchanged. This contrasts with the slight decline in cash deposits by market participants and restricted bank balances. The level of these items can vary widely on a daily basis according to customers' needs and actions.

F-171

Table of Contents**6. Other financial obligations**

On 15 February 2011, Deutsche Börse AG and NYSE Euronext signed an agreement on a business combination. The transaction is structured as a combination of NYSE Euronext and Deutsche Börse AG under the newly created Dutch Alpha Beta Netherlands Holding N.V. (Holding), which is expected to be listed in Frankfurt, New York and Paris. For NYSE Euronext, this will be implemented by merging NYSE Euronext with a US subsidiary of the new holding company. Each NYSE Euronext share will be exchanged for 0.47 shares of the new holding company. On the Deutsche Börse AG side, the new holding company will launch a public takeover offer under which shareholders of Deutsche Börse AG can tender their shares in exchange for an equal number of newly issued shares of the holding company. The transaction is still subject to the approval of a majority of the shareholders of NYSE Euronext and to a 75 percent acceptance ratio for the takeover bid on the part of Deutsche Börse AG's shareholders. In addition, the relevant antitrust authorities, financial and exchange supervisory authorities and other regulators in the USA and Europe must approve the deal, and additional customary market conditions must be met.

The agreement on the business combination provides that Deutsche Börse AG may have to pay NYSE Euronext the sum of 250.0 million under certain circumstances. This payment obligation presupposes that a takeover bid or an expression of interest in the acquisition of shares or assets of Deutsche Börse AG or one of its subsidiaries to a certain size is announced or otherwise made public by a third party (alternative bid), and

- (1) the agreement on the business combination with NYSE Euronext is then terminated by NYSE Euro-next because the Executive Board or Supervisory Board of Deutsche Börse AG no longer recommend that their shareholders accept the exchange offer due to the alternative bid, or
- (2) the Executive Board or Supervisory Board of Deutsche Börse AG no longer recommend that their shareholders accept the exchange offer due to the alternative bid, the 75 percent acceptance ratio for the exchange offer is not reached, and either party then terminates the agreement on the business combination with NYSE Euronext, or
- (3) Deutsche Börse AG or NYSE Euronext terminates the agreement on the business combination with NYSE Euronext because the 75 percent acceptance ratio for the exchange offer was not reached even though the Executive Board or Supervisory Board did not change their recommendation that shareholders should accept the exchange offer, but Deutsche Börse enters into another transaction above a defined size within nine months of such termination.

Furthermore, Deutsche Börse AG has entered into additional contingent commitments in relation to the planned business combination with NYSE Euronext that could lead to payment obligations in the total amount of approximately 41 million when the transaction closes.

Litigation concerning the combination

Following the announcement of the combination on 15 February 2011, several complaints were filed in the Delaware Court of Chancery (Delaware Court); the Supreme Court of the State of New York, County of New York (New York Court); and the U.S. District Court for the Southern District of New York (SDNY), challenging the proposed combination. Four of the actions were filed in the Delaware Court and have been consolidated as In re NYSE Euronext Shareholders Litigation, Consol. C.A. No. 6220-VCS. Five actions were filed in the New York Court and are being coordinated under a single master file, NYSE Euronext Shareholder Litigation Master File, Index No. 773,000/11. One action, Jones v. Niederauer, et al., C.N. 11-CV-01502, is pending in the SDNY.

All of the complaints raise substantially the same claims. All are purported class actions filed on behalf of all NYSE Euronext public shareholders and variously name as defendants NYSE Euronext, its directors, Pomme Merger Corporation and Holding (certain defendants are not named in all of the actions). Deutsche Börse AG is

Table of Contents

named as defendant in eight cases. The complaints generally allege that the individual defendants breached their fiduciary duties in connection with their consideration and approval of the proposed combination and that the entity defendants aided and abetted those breaches. The complaints seek, among other relief, injunctive relief against the consummation of the combination, unspecified monetary damages and plaintiffs' costs and attorney's fees.

Predicting the outcome of these lawsuits is difficult. An adverse judgement for monetary damages could have a material adverse effect on the operations of the Holding group following completion of the combination. A preliminary injunction could delay or jeopardise the completion of the combination, and an adverse judgement granting permanent injunctive relief could indefinitely enjoin completion of the combination. The defendants believe that the claims asserted against them in these lawsuits are without merit, and intend to defend themselves vigorously against the claims.

7. Earnings per share

Under IAS 33, earnings per share are calculated by dividing the net profit for the period attributable to shareholders of the parent company (net income for the period) by the weighted average number of shares outstanding.

Diluted earnings per share are determined by adding the number of potentially dilutive ordinary shares that may be acquired under the Stock Bonus Plan (SBP) or the ISE Group Share Plan to the average number of shares. In order to calculate the number of potentially dilutive ordinary shares, the exercise prices were adjusted to reflect the fair value of the services still to be provided.

The calculation of the number of potentially dilutive ordinary shares for 2010 was adjusted accordingly: in contrast to Q1/2010, the 2008 tranche of SBP shares as well as the 2008 tranche of SBP shares of ISE were no longer classified as potentially dilutive in the first quarter of 2011, because the Company resolved to settle the relevant entitlements in cash. The contractual agreement on the SBP shares for Executive Board members under the 2010 tranche and all subsequent tranches specifies cash settlement. Consequently, the SBP shares for Executive Board members are not included in the number of potentially dilutive shares. When determining diluted earnings per share, all SBP tranches for which cash settlement has not been resolved are assumed to be equity-settled regardless of the actual accounting in accordance with IFRS 2. The calculation of the number of potentially dilutive ordinary shares for the first quarter of 2010 was adjusted accordingly.

There were the following potentially dilutive rights to purchase shares as at 31 March 2011:

Calculation of the number of potentially dilutive ordinary shares

Tranche	Exercise price	Adjusted exercise price in accordance with IAS 33	Average number of outstanding options 31 March 2011	Average price for the period¹⁾	Number of potentially dilutive ordinary shares 31 March 2010
2009 ²⁾	0	14.05	73,731	56.43	55,373
2010 ³⁾	0	32.34	127,954	56.43	54,623
2011 ³⁾	0	44.32	66,944	56.43	14,366

1) Volume-weighted average price of Deutsche Börse AG shares on Xetra for the period 1 January to 31 March 2011

2) This relates to rights to GSP shares under the ISE Group Share Plan. The options on SBP shares of the 2009 tranche (175,276 options) are not dilutive as at 31 March 2011.

3) This relates to rights to shares under the Share Bonus Plan for senior executives.

As the volume-weighted average share price was higher than the adjusted exercise prices for the 2009 to 2011 tranches, these options are considered dilutive under IAS 33.

Table of Contents

Calculation of earnings per share (basic and diluted)

	Quarter ended	
	31 March 2011	31 March 2010 ¹⁾
Number of shares outstanding as at beginning of period	185,942,801	185,922,690
Number of shares outstanding as at 31 March	186,043,003	185,943,021
Weighted average number of shares outstanding	186,008,489	185,922,916
Number of potentially dilutive ordinary shares	124,362	229,528
Weighted average number of shares used to compute diluted earnings per share	186,132,851	186,152,444
Net income for the period (m)	212.8	156.9
Earnings per share (basic and diluted) ()	1.14	0.84

1) The number of dilutive ordinary shares was adjusted accordingly in order to enhance comparability with disclosures for the reporting period. In the first quarter of 2010, diluted earnings per share remained unaffected by this adjustment.

Transactions with key management personnel

Key management personnel are persons who directly or indirectly have authority and responsibility for planning, directing and controlling the activities of Deutsche Börse Group. The Group defines the members of the Executive Board and the Supervisory Board as key management personnel for the purposes of IAS 24.

As part of the proposed transaction between Deutsche Börse Group and NYSE Euronext, Deutsche Börse AG has entered into contracts for the provision of advisory services with Deutsche Bank AG, Frankfurt/ Main, Mayer Brown LLP, Washington, and J.P. Morgan Securities Inc., New York. In the period under review, three members of the Supervisory Board of Deutsche Börse AG also held key management positions in these companies. In the first quarter of 2011, Deutsche Börse Group paid Deutsche Bank AG a total of 0.2 million for advisory services in connection with this transaction.

BUSINESS COMBINATION AGREEMENT

This BUSINESS COMBINATION AGREEMENT (this *Agreement*), dated as of February 15, 2011, is by and among NYSE Euronext, a Delaware corporation (*NYSE Euronext*), Deutsche Börse AG, an *Aktiengesellschaft* organized under the laws of the Federal Republic of Germany (*Deutsche Börse*), Alpha Beta Netherlands Holding N.V., a *naamloze vennootschap* organized under the laws of the Netherlands (*Holdco*), and Pomme Merger Corporation, a Delaware corporation and a newly formed, wholly owned subsidiary of Holdco (*Merger Sub*).

RECITALS

WHEREAS, NYSE Euronext and Deutsche Börse desire to effect a strategic combination of their businesses;

WHEREAS, in furtherance thereof, the parties hereto propose that, upon the terms and subject to the conditions set forth in this Agreement:

(a) Holdco shall make a public tender offer following the legal provisions of the German Securities Acquisition and Takeover Act (*Wertpapiererwerbs- und Übernahmegesetz*) (as amended from time to time, the *Takeover Act*) and the U.S. Securities Exchange Act of 1934, as amended (including the rules and regulations promulgated thereunder, the *Exchange Act*), to acquire all of the issued and outstanding shares of Deutsche Börse (the *Deutsche Börse Shares*), pursuant to which each Deutsche Börse Share tendered and not withdrawn and accepted for exchange shall be exchanged for one (the *Deutsche Börse Exchange Ratio*) ordinary share, nominal value 1.00 per share, of Holdco (*Holdco Share*) (such offer, as it may be amended from time to time in accordance with this Agreement, the *Offer*); and (b) immediately following the acquisition of Deutsche Börse Shares pursuant to the Offer, Merger Sub shall merge with and into NYSE Euronext (the *Merger*), with NYSE Euronext surviving the Merger as a wholly owned subsidiary of Holdco, pursuant to which each share of NYSE Euronext common stock, par value \$0.01 per share (the *NYSE Euronext Shares*), shall be converted into the right to receive 0.47 (the *NYSE Euronext Exchange Ratio*) of a Holdco Share;

WHEREAS, the Board of Directors of NYSE Euronext has determined that the Merger and the other transactions contemplated by this Agreement are consistent with, and will further, the business strategies and goals of NYSE Euronext, and are in the best interests of the NYSE Euronext stockholders, as well as its employees and other stakeholders, and (a) has approved and declared advisable this Agreement and the transactions contemplated by this Agreement, including the Merger and (b) has determined, subject to applicable Law, to recommend that the NYSE Euronext stockholders adopt this Agreement and the transactions contemplated by this Agreement (such recommendation, the *NYSE Euronext Recommendation*);

WHEREAS, each of the Supervisory Board of Deutsche Börse and the Management Board of Deutsche Börse (together, the *Deutsche Börse Boards*) has determined that the Offer and the other transactions contemplated by this Agreement are consistent with, and will further, the business strategies and goals of Deutsche Börse, and are in the best interests of Deutsche Börse, its shareholders, employees and other stakeholders and (a) has approved the transactions contemplated by this Agreement, including the Offer, and (b) has determined that, subject to its duties under applicable Law, it will recommend, in its statement on the Offer under Section 27 of the Takeover Act, that the Deutsche Börse shareholders accept the Offer and tender their Deutsche Börse Shares in the Offer (such recommendations of each of the Deutsche Börse Boards collectively, the *Deutsche Börse Recommendation*);

WHEREAS, the sole shareholder of Holdco and the Board of Directors of Holdco (the *Holdco Board*) has determined that the Merger and the Offer and the other transactions contemplated by this Agreement are consistent with, and will further, the business strategies and goals of Holdco, and are in the best interests of

Table of Contents

Holdco and its shareholders and has approved this Agreement and the transactions contemplated by this Agreement, including the Offer, the Merger and the Holdco Capital Increase;

WHEREAS, each of Holdco, as the sole shareholder of Merger Sub, and the Board of Directors of Merger Sub has determined that the Merger and the other transactions contemplated by this Agreement are consistent with, and will further, the business strategies and goals of Merger Sub, and are in the best interests of Merger Sub and its stockholder and has approved this Agreement and the transactions contemplated by this Agreement, including the Merger;

WHEREAS, it is intended that, for U.S. federal income tax purposes, (i) the Merger shall qualify as a reorganization within the meaning of Section 368(a) of the U.S. Internal Revenue Code of 1986, as amended (the *Code*), and the rules and regulations promulgated thereunder, and/or the Merger and the Offer, taken together, shall qualify as a transaction described in Section 351(a) of the Code, (ii) the Merger shall qualify for an exception to the general rule of Section 367(a)(1) of the Code, (iii) the Offer, and/or the Merger and the Offer, taken together, shall qualify as a transaction described in Section 351(a) of the Code, and (iv) this Agreement shall be, and is hereby, adopted as a plan of reorganization;

WHEREAS, it is intended that, for German tax purposes, the Offer is intended not to result in the recognition of any taxable gain or loss by the shareholders of Deutsche Börse; and

WHEREAS, each of the parties hereto desires to make certain representations, warranties, covenants and agreements in connection with this Agreement.

NOW, THEREFORE, in consideration of the premises, and of the representations, warranties, covenants and agreements contained herein, the parties hereto agree as follows:

ARTICLE I

THE OFFER

Section 1.1. *The Offer.*

(a) *Announcement of the Offer.* On the date of this Agreement, Holdco will (i) notify the relevant stock exchanges and the German Federal Agency for Financial Services Supervision (*Bundesanstalt für Finanzdienstleistungsaufsicht*) (*BaFin*) of its intention to make the Offer, and (ii) publish its decision to launch the Offer (the *Offer Announcement*) in accordance with Section 10 para. 1 sentence 1, para. 3 of the Takeover Act, which Offer Announcement shall include a description of the Offer Consideration and such further information about the Offer as deemed to be necessary or beneficial by the parties for further communication with shareholders until the Offer has been cleared by BaFin. On the date hereof, Deutsche Börse and NYSE Euronext shall also issue an initial press release pursuant to Section 7.7, and Deutsche Börse shall issue an ad-hoc release in accordance with Section 15 of the German Securities Dealing Act (*Wertpapierhandelsgesetz*) to the effect that, in the opinion of each of the Deutsche Börse Boards, a strategic business combination between NYSE Euronext and Deutsche Börse is in the best interest of Deutsche Börse and its shareholders, and that therefore each of the Deutsche Börse Boards has determined that, subject to its duties under applicable Law, it will recommend, in its statement on the Offer under Section 27 of the Takeover Act, that the Deutsche Börse shareholders accept the Offer and tender their Deutsche Börse Shares in the Offer. The wording of the Offer Announcement required by this Section 1.1(a) shall be, to the extent reasonably practicable, agreed between NYSE Euronext and Deutsche Börse in advance.

(b) *Submission of Offer Documents to Regulators.* As promptly as practicable after the date of this Agreement, NYSE Euronext, Deutsche Börse and Holdco shall prepare, and Holdco shall file with the U.S.

Table of Contents

Securities and Exchange Commission (the *SEC*) one or more registration statements on Form F-4 (together with any supplements or amendments thereto, the *Registration Statement*) to register the offer and sale of Holdco Shares to be issued pursuant to the Offer and the Merger. The Registration Statement will include (1) a proxy statement/prospectus (the *Proxy Statement/Prospectus*) to be used for the NYSE Euronext Stockholders Meeting to adopt this Agreement and to approve certain aspects of the Holdco articles of association that will be in effect after the Merger and (2) a prospectus to be used as a prospectus sent to U.S. holders of Deutsche Börse Shares (and, if NYSE Euronext and Deutsche Börse mutually agree, the holders of American Depositary Shares representing the right to receive Deutsche Börse Shares) for the Offer (the *U.S. Tender Offer Prospectus* and together with the Proxy Statement/Prospectus, the *F-4 Prospectuses*). If Holdco shall file the Registration Statement with the SEC prior to the date on which BaFin approves the Tender Offer Prospectus (or, if earlier, the expiration of the review period required under the Takeover Act), then Holdco shall file such Registration Statement with the SEC on a confidential basis to the extent a confidential filing is permitted by the SEC. Timely prior to the Acceptance Time, NYSE Euronext, Deutsche Börse and Holdco shall prepare, and Holdco shall submit to the Netherlands Authority for the Financial Markets (*Autoriteit Financiële Markten*) (the *AFM*) for the purpose of admission of the Holdco Shares to trading on the regulated markets of the Frankfurt Stock Exchange and Euronext Paris, (i) a listing prospectus (the *Admission Prospectus*), in accordance with applicable Dutch Law (which shall be identical with the Offer Documents in terms of content relating to NYSE Euronext, Deutsche Börse, and Holdco and their respective businesses to the greatest extent practicable) and (ii) applications for notification of the admission prospectus to the relevant authorities in Germany and France. On the date that is eight weeks following the Offer Announcement or such earlier time as may be required by applicable Law, Holdco shall submit to BaFin a tender offer document (*Angebotsunterlage*) in accordance with the Takeover Act, including as an annex the listing and offering disclosure information as required by Section 7 German Securities Prospectus Act (*Wertpapierprospektgesetz*) in combination with Commission regulation (EC) No. 809/2004 of 29 April 2004 and any further disclosure information as deemed necessary or beneficial by the parties (the *Tender Offer Prospectus* and, together with the F-4 Prospectuses, the *Offer Documents*) and the related letter of transmittal form and other ancillary documents with respect to the Offer; *provided* that, if the parties agree, Holdco may, in lieu of submitting the Tender Offer Prospectus to BaFin, (x) submit to BaFin a tender offer document containing the information pursuant to Section 11 of the Takeover Act and, in addition, (y) submit to the AFM a securities prospectus containing the listing and offering disclosure information required by applicable Dutch Law in combination with Commission regulation (EC) No. 809/2004 of 29 April 2004 and any further disclosure information as deemed necessary or beneficial by the parties (in which case, such tender offer document and securities prospectus together shall constitute the *Tender Offer Prospectus* for purposes of this Agreement), for the purpose of passporting such securities prospectus that is compliant with the relevant prospectus regulations for the offer of Holdco Shares as consideration in the Offer and the Merger. Subject to applicable Law, NYSE Euronext, Deutsche Börse and Holdco agree that the information relating to NYSE Euronext, Deutsche Börse and Holdco and their respective businesses included in the Offer Documents shall be identical in terms of content to the greatest extent practicable. The parties agree to correct promptly any information provided by it for use in the Offer Documents if and to the extent that such information shall have become false or misleading in any material respect or as otherwise required by applicable Law. The disclosure in the Proxy Statement/Prospectus of material U.S. federal income tax consequences of the Merger to holders of NYSE Euronext common stock shall include a description of material U.S. federal income tax consequences of the Merger to holders of NYSE Euronext common stock in the event of a waiver of the condition set forth in paragraph II.(b)(ii) of Annex II. Subject to Section 7.4(c), the parties further agree to take all steps necessary to cause the Offer Documents, as so corrected, to be filed with the SEC, BaFin and, if applicable, the AFM, and to be disseminated to holders of NYSE Euronext Shares and Deutsche Börse Shares, as applicable, in each case as and to the extent required by applicable Law. As soon as practicable prior to the consummation of the Offer and the Merger, Holdco shall apply for admission of its entire issued share capital to trading on the regulated markets of the Frankfurt Stock Exchange and Euronext Paris on the basis of the Admission Prospectus.

(c) *Commencement of the Offer*. Following approval by BaFin (or the expiration of the review period required under the Takeover Act) of the terms of the Offer and the Tender Offer Prospectus filed by

Table of Contents

Holdco as set forth in Section 1.1(b), Holdco shall (i) publish the Tender Offer Prospectus without undue delay (*ohne schuldhaftes Zögern*) in accordance with Section 14 para. 2 of the Takeover Act and, thereby, commence the Offer, and (ii) on the date of such publication, file with the SEC the U.S. Tender Offer Prospectus, together with the related letter of transmittal form and other ancillary documents with respect to the Offer, pursuant to Rule 424 under the U.S. Securities Act of 1933, as amended (the *Securities Act*) and disseminate the U.S. Tender Offer Prospectus and such documents to the Deutsche Börse shareholders in accordance with Rule 14d-4 promulgated under the Exchange Act. If permitted by applicable Law, NYSE Euronext and Deutsche Börse may mutually agree that Holdco shall split the Offer into two or more separate exchange offers, including a separate U.S. offer and a non-U.S. offer. If the Offer shall be split into multiple exchange offers, each reference to the Offer set forth in this Agreement and the Annexes hereto shall refer to each of these separate offers unless the context otherwise requires.

(d) *Offer Consideration.* Each Deutsche Börse Share accepted by Holdco pursuant to the Offer (including during the subsequent offering period (*weitere Annahmefrist*)) shall be exchanged for one Holdco Share (the *Offer Consideration*). Notwithstanding the foregoing, if between the date of this Agreement and the time that any particular Deutsche Börse Share is accepted for exchange pursuant to the Offer, the outstanding NYSE Euronext Shares or Deutsche Börse Shares shall have been changed into a different number of shares or a different class by reason of any stock dividend, subdivision, reclassification, recapitalization, split, combination or exchange of shares, or any similar event shall have occurred, then the Offer Consideration will be appropriately and proportionately adjusted to provide to the holder of such Deutsche Börse Share the same economic effect as contemplated by this Agreement prior to such event.

(e) *Acceptance Period of the Offer.* The Offer shall have an acceptance period that ends at a time (such time, as it may be extended in accordance with this Agreement and applicable Laws, the *Expiration Time*) on a date that is the earlier of (i) 10 weeks after the commencement of the Offer pursuant to Section 1.1(c) and (ii) the Termination Date; *provided* that (A) in no event shall the Expiration Time occur on a date that is earlier than 20 business days (as defined in Rule 14d-1(g)(3) under the Exchange Act) after (and including the day of) the date of commencement of the Offer; and (B) Holdco shall be permitted to extend the Expiration Time if such extension is permitted by applicable Law and NYSE Euronext and Deutsche Börse mutually agree to such extension.

(f) *Conditions to the Offer.* Holdco's obligation to accept for exchange, and to exchange, any Deutsche Börse Shares validly tendered and not withdrawn prior to the expiration of the Offer shall be solely (*ausschließlich*) subject to the satisfaction or waiver of the conditions (*aufschiebende Bedingungen*) set forth in Annex II (the *Offer Conditions*), including the condition that there shall be validly tendered in accordance with the terms of the Offer prior to the Expiration Time and not withdrawn, in each case in accordance with applicable Laws, a number of Deutsche Börse Shares that represents at least 75% of the Deutsche Börse Shares outstanding on a Fully Diluted Basis as of the Expiration Time (the *Minimum Condition*). As used in this Agreement, *Fully Diluted Basis* means, as of any particular time, the number of Deutsche Börse Shares issued and outstanding at such time after taking into account all Deutsche Börse Shares issuable upon the conversion of Deutsche Börse's convertible securities or upon the exercise of any options, warrants or rights to purchase or subscribe for shares of the capital stock of Deutsche Börse.

(g) *Other Terms of the Offer.* Prior to the date of commencement of the Offer, Deutsche Börse will reasonably determine the percentage of its share capital held by U.S. holders in accordance with Instruction 2 to subsections (c) and (d) of Exchange Act Rule 14d-1. If the conditions set forth for a Tier II offer, as set forth in Rule 14d-1(d) under the Exchange Act, are satisfied for the Offer, Holdco will conduct the Offer in reliance on the exemptions for Tier II offers pursuant to Rule 14d-1(d) under the Exchange Act. Subject to its duties under applicable Law, Deutsche Börse will provide such information as NYSE Euronext and Holdco reasonably request to allow NYSE Euronext and Holdco to make a determination that U.S. holders do not hold more than 40% of the outstanding Deutsche Börse Shares and will otherwise cooperate with their reasonable inquiries. The parties agree to comply with, and agree that the terms and conditions of the Offer shall be conducted so as to

Table of Contents

comply with, Regulation 14E of the Exchange Act, as modified by any applicable exemptions pursuant to Rule 14d-1(d)(2) under the Exchange Act.

(h) *Amendments and Waivers to Offer Terms and Conditions.* If BaFin permits the publication of the Tender Offer Prospectus only in a form that is not in accordance with the provisions of this Agreement, the parties hereto shall in good faith cooperate to make changes to the Tender Offer Prospectus so as to be consistent with the changes required by BaFin and to be consistent with the original intent of the parties. Notwithstanding anything to the contrary in this Agreement, nothing shall require the parties to agree to amend or waive any of the terms or conditions of the Offer contemplated by this Agreement without the prior written consent of both Deutsche Börse and NYSE Euronext, including any changes as to the form or amount of the Offer Consideration, the number of Deutsche Börse Shares sought to be purchased in the Offer, any changes to the conditions to the Offer or reduce the time period during which the Offer shall remain open, or any changes to modify or amend any term of the Offer in any manner that is adverse to either the holders of NYSE Euronext Shares or the holders of Deutsche Börse Shares. The parties understand and agree that, pursuant to Section 21 of the Takeover Act, a waiver or amendment of any of the Offer Conditions generally is only permitted until the end of the working day prior to the expiration date as published in the Tender Offer Prospectus.

(i) *Closing of the Offer.* Provided that this Agreement shall not have been earlier terminated in accordance with Article IX, and subject to the prior satisfaction or waiver of the Offer Conditions, Holdco shall promptly consummate the Offer in accordance with its terms and applicable Law, and accept for exchange, and exchange, all Deutsche Börse Shares validly tendered and not withdrawn pursuant to the Offer (the time that Holdco accepts for exchange, and exchanges, all of the Deutsche Börse Shares validly tendered and not withdrawn, the *Acceptance Time*).

(j) *Subsequent Offering Period.* Following the Expiration Time and the satisfaction or waiver by Holdco of the Offer Conditions, with the exception of the Offer Conditions set forth in paragraphs I.(b), I.(c), I.(e), I.(f), I.(g), II.(b) and/or III.(b) of Annex II, Holdco shall conduct a subsequent offering period (*weitere Annahmefrist*) for the Offer in accordance with the Takeover Law, during which Holdco shall offer to acquire all remaining outstanding Deutsche Börse Shares.

(k) *Withholding.* Holdco, Deutsche Börse and the Escrow Agent shall be entitled to deduct and withhold from the Offer Consideration otherwise required to be delivered to any tendering holder of Deutsche Börse Shares such amounts as it is required to deduct and withhold with respect to the making of such payment under the Code and the rules and regulations promulgated thereunder, or any provision of state, local or non-U.S. tax law. To the extent that amounts are so deducted and withheld by or on behalf of Holdco, Deutsche Börse or the Escrow Agent, as the case may be, and paid over to the applicable Governmental Entity, such deducted and withheld amounts shall be treated for all purposes of this Agreement as having been paid to the holder of the Deutsche Börse Shares in respect of which such deduction and withholding was made.

Section 1.2. *Effect of the Offer on Deutsche Börse Stock Options.* Unless NYSE Euronext and Deutsche Börse agree otherwise, and subject to applicable Law, the Offer shall not include any offer to acquire any outstanding option to purchase Deutsche Börse Shares, but, in accordance with the Takeover Act, shall include an offer to purchase any Deutsche Börse Share that is purchased or subscribed for as a result of the exercise of any such option prior to the Expiration Time.

Section 1.3. *Cooperation to Transmit the Offer.* In connection with the Offer, Deutsche Börse shall, to the extent consistent with applicable Law, promptly furnish Holdco with such information and assistance as Holdco or its agent(s) may reasonably request for the purpose of communicating the Offer to the record and beneficial holders of Deutsche Börse Shares.

Table of Contents

ARTICLE II

THE MERGER

Section 2.1. *Appointment of Escrow Agent.* As promptly as possible following the date hereof, Holdco shall appoint a United States bank or trust company or other independent financial institution in the United States reasonably satisfactory to Deutsche Börse and NYSE Euronext (the *Escrow Agent*) to act, among other things, as escrow agent and exchange agent for the Merger and to deliver the Merger Consideration to former stockholders of NYSE Euronext. NYSE Euronext and Holdco shall enter into an Escrow Agency Agreement with the Escrow Agent (the *Escrow Agency Agreement*), which agreement shall set forth the duties, responsibilities and obligations of the Escrow Agent consistent with the terms of this Agreement.

Section 2.2. *Shares of Merger Sub.* Merger Sub is a corporation incorporated under the laws of Delaware and is a constituent company in the Merger. Except as provided in or contemplated by the immediately following sentence, Holdco owns 100% of the outstanding capital stock of Merger Sub. Solely to accommodate the transactions described in this Article II and subject to the terms and conditions of the Escrow Agency Agreement, at least one day prior to the Effective Time, Holdco shall cause the Escrow Agent to be registered as Holdco's fiduciary (for the period prior to the Effective Time) as the record holder of all of the issued and outstanding shares of common stock, par value \$0.01 per share, of Merger Sub (the *Merger Sub Shares*).

Section 2.3. *The Merger.* Upon the terms and subject to the conditions set forth in this Agreement and in accordance with the Delaware General Corporation Law, as amended (the *DGCL*), at the Effective Time, the Merger shall occur pursuant to which Merger Sub shall merge with and into NYSE Euronext, with NYSE Euronext surviving the Merger (the *Surviving Corporation*) and the separate corporate existence of Merger Sub shall thereupon cease. The Surviving Corporation shall continue to exist under the laws of the State of Delaware, with all its rights, privileges, immunities, powers and franchises, unaffected by the Merger except as set forth in this Article II. After the Merger, but subject to Section 2.6, the Surviving Corporation shall be a wholly owned subsidiary of Holdco. The Merger shall have the effects specified in the DGCL.

Section 2.4. *Closing.* The closing of the Merger (the *Closing*) shall take place at the offices of Wachtell, Lipton, Rosen & Katz, 51 West 52 Street, New York, New York 10019, on the date on which the Acceptance Time shall occur, unless a later date or place is agreed to by NYSE Euronext and Deutsche Börse (the *Closing Date*).

Section 2.5. *Effective Time.*

(a) On the Closing Date, NYSE Euronext shall file a certificate of merger relating to the Merger (the *Certificate of Merger*) with the Secretary of State of Delaware, in such form as is required by and executed and acknowledged in accordance with the relevant provisions of the DGCL, and shall make all other filings or recordings required under the DGCL.

(b) The Merger shall become effective at (i) the date and time on which the Certificate of Merger is duly filed with the Secretary of State of Delaware as required to effect the Merger, or (ii) such subsequent date and time as NYSE Euronext and Deutsche Börse shall agree and as shall be specified in the Certificate of Merger (such time that the Merger shall become effective being the *Effective Time*). The parties agree to cause the Effective Time to occur immediately after the Acceptance Time.

Section 2.6. *Merger Exchange.* Upon the terms and subject to the conditions of this Agreement and the Escrow Agency Agreement, and in accordance with provisions of Section 2:94b of the Dutch Civil Code, as soon as possible after the Effective Time, on the Closing Date:

(a) The Escrow Agent, acting as exchange agent and solely for the account of the former stockholders of NYSE Euronext, shall contribute, for the account of the former stockholders of NYSE Euronext, all of the issued and outstanding shares of common stock, par value \$0.01 per share, of the Surviving Corporation

Table of Contents

(*Surviving Corporation Shares*), that were issued to the Escrow Agent solely for the account and benefit of the former stockholders of NYSE Euronext pursuant to Section 2.7(b) to Holdco as a contribution in kind (*inbreng op aandelen anders dan in geld*).

(b) In consideration of the contribution pursuant to Section 2.6(a), Holdco shall issue and deliver to the Escrow Agent solely for the account and benefit of the former stockholders of NYSE Euronext, the maximum number of Holdco Shares that has become issuable pursuant to Section 2.7(a)(i) for delivery to the Merger Consideration recipients entitled thereto (such Holdco Shares being the *Exchange Fund*). At the Effective Time, the obligations of Holdco and the Escrow Agent under Section 2.6 shall be unconditional.

Section 2.7. *Effect of the Merger on Shares.*

(a) As a result of the Merger and without any action on the part of the holder of any capital stock of NYSE Euronext, Holdco, Deutsche Börse or Merger Sub, at the Effective Time:

(i) each NYSE Euronext Share issued and outstanding immediately prior to the Effective Time (other than any NYSE Euronext Share owned directly by NYSE Euronext or Merger Sub and in each case not held on behalf of third parties (each, an *Excluded Share*)) shall automatically be converted into the right to receive 0.47 of a fully paid and non-assessable Holdco Share (such number of a Holdco Share, the *Merger Consideration*). Notwithstanding the foregoing, if between the date of this Agreement and the Effective Time, the outstanding NYSE Euronext Shares or Deutsche Börse Shares shall have been changed into a different number of shares or a different class, by reason of any stock dividend, subdivision, reclassification, recapitalization, split, combination or exchange of shares, or any similar event shall have occurred, then the Merger Consideration will be appropriately and proportionately adjusted to provide to the holder of such NYSE Euronext Share the same economic effect as contemplated by this Agreement prior to such event;

(ii) each Excluded Share shall cease to be outstanding, shall be cancelled and retired without payment of any consideration therefor and shall cease to exist; and

(iii) each Merger Sub Share issued and outstanding immediately prior to the Effective Time shall no longer be outstanding, be canceled and retired.

(b) Immediately following the Effective Time, the Surviving Corporation shall issue to the Escrow Agent, solely for the account and benefit of the former stockholders of NYSE Euronext, a number of Surviving Corporation Shares equal to the total number of NYSE Euronext Shares outstanding immediately prior to the Merger.

(c) From and after the Effective Time, no NYSE Euronext Shares shall remain outstanding and all NYSE Euronext Shares shall be cancelled and retired and shall cease to exist. Each entry in the records of NYSE Euronext or its transfer agent formerly representing NYSE Euronext Shares (the *Book-Entry Interests*) shall thereafter represent only the right to receive the Merger Consideration and any distribution or dividend pursuant to Section 2.9(c). From and after the Effective Time, there shall be no further registration of transfers on the stock transfer books of the Surviving Corporation of NYSE Euronext Shares that were outstanding immediately prior to the Effective Time. If, after the Effective Time, any Book-Entry Interests formerly representing NYSE Euronext Shares are presented to the Surviving Corporation or the Escrow Agent for any reason, they shall be canceled and exchanged as provided in this Article II.

(d) In accordance with Section 262 of the DGCL, no appraisal rights shall be available to holders of NYSE Euronext Shares in connection with the Merger.

Section 2.8. *Effect of the Merger on NYSE Euronext Stock Options and Awards.*

(a) Each option to purchase NYSE Euronext Shares (a *NYSE Euronext Stock Option*) granted under the employee and director stock plans of NYSE Euronext (the *NYSE Euronext Stock Plans*), whether

Table of Contents

vested or unvested, that is outstanding immediately prior to the Effective Time shall cease to represent a right to acquire NYSE Euronext Shares and shall be converted, at the Effective Time, into a stock option to acquire Holdco Shares (a *Holdco Stock Option*) on substantially the same terms and conditions as were applicable under such NYSE Euronext Stock Option. The number of Holdco Shares subject to each such Holdco Stock Option (rounded down to the nearest whole share) shall be equal to the number of NYSE Euronext Shares subject to each such NYSE Euronext Stock Option immediately prior to the Effective Time multiplied by the Merger Consideration (as adjusted pursuant to Section 2.7(a)(i)), and such Holdco Stock Option shall have an exercise price per share (rounded up to the nearest penny) equal to the per-share exercise price applicable to such NYSE Euronext Stock Option immediately prior to the Effective Time divided by the Merger Consideration (as adjusted pursuant to Section 2.7(a)(i)).

(b) At the Effective Time, subject to the last sentence of this Section 2.8(b), each restricted stock unit or deferred stock unit measured in NYSE Euronext Shares (each, an *NYSE Euronext Stock-Based Award*), whether vested or unvested, which is outstanding immediately prior to the Effective Time shall cease to represent a restricted stock unit or deferred stock unit with respect to NYSE Euronext Shares and shall be converted, at the Effective Time, into a restricted stock unit or deferred stock unit denominated in Holdco Shares (a *Holdco Stock-Based Award*) on substantially the same terms and conditions as were applicable under the NYSE Euronext Stock-Based Awards. The number of Holdco Shares subject to each such Holdco Stock-Based Award (rounded down to the nearest whole share) shall be equal to the number of NYSE Euronext Shares subject to the NYSE Euronext Stock-Based Award immediately prior to the Effective Time multiplied by the Merger Consideration (as adjusted pursuant to Section 2.7(a)(i)). All restricted stock units granted under NYSE Euronext's Omnibus Incentive Plan or under NYSE Euronext's 2006 Stock Incentive Plan that are outstanding immediately prior to the Effective Time shall (i) to the extent unvested, vest as of the Effective Time, and (ii) be distributed as of the Effective Time; *provided that*, with respect to any such units that constitute deferred compensation within the meaning of Section 409A of the Code, such distribution shall occur on the date that it would occur under the applicable award agreement absent the application of this Section 2.8(b)(ii).

(c) As soon as practicable after the Effective Time, Holdco shall deliver to the holders of NYSE Euronext Stock Options and NYSE Euronext Stock-Based Awards appropriate notices setting forth such holders' rights pursuant to the respective NYSE Euronext Stock Plans and agreements evidencing the grants of such NYSE Euronext Stock Options and NYSE Euronext Stock-Based Awards and stating that such NYSE Euronext Stock Options and NYSE Euronext Stock-Based Awards and agreements have been assumed by Holdco and shall continue in effect on substantially the same terms and conditions (but subject to the adjustments required by this Section 2.8 after giving effect to the Merger and the terms of the NYSE Euronext Stock Plans and the Escrow Agency Agreement).

(d) Prior to the Effective Time, NYSE Euronext shall take all necessary action for the adjustment of NYSE Euronext Stock Options and NYSE Euronext Stock-Based Awards under this Section 2.8. Holdco shall reserve for issuance a number of Holdco Shares at least equal to the number of Holdco Shares that will be subject to Holdco Stock Options and Holdco Stock-Based Awards as a result of the actions contemplated by this Section 2.8.

(e) As soon as practicable following the Effective Time, Holdco shall file a registration statement on Form S-8 (or any successor form, or if Form S-8 is not available, other appropriate forms) with respect to the Holdco Shares subject to such Holdco Stock Options and Holdco Stock-Based Awards and shall maintain the effectiveness of such registration statement or registration statements (and maintain the current status of the prospectus or prospectuses contained therein) for so long as such Holdco Stock Options and Holdco Stock-Based Awards remain outstanding.

Section 2.9. Delivery of Merger Consideration.

(a) *Merger Transmittal Letter.* NYSE Euronext and Holdco shall cause appropriate transmittal materials (the *Merger Transmittal Letter*) to be provided by the Escrow Agent to holders of record of NYSE

Table of Contents

Euronext Shares (other than holders of Excluded Shares) as soon as practicable after the Effective Time advising such holders of the effectiveness of the Merger and the procedure for providing instructions to the Escrow Agent to effect the transfer and cancellation of Book-Entry Interests in exchange for the Merger Consideration. The Merger Transmittal Letter shall contain such other terms and conditions as NYSE Euronext and Holdco may reasonably specify.

(b) *Merger Consideration.* After the Effective Time, and upon delivery to the Escrow Agent of instructions authorizing transfer and cancellation of Book-Entry Interests in accordance with the terms of the Merger Transmittal Letter and such other documents as may reasonably be required by the Escrow Agent, the holder of such Book-Entry Interests shall be entitled to receive in exchange therefor, and the Escrow Agent shall be required to deliver to each such holder (subject to Section 2.9(f)), (i) the number of Holdco Shares in respect of the aggregate Merger Consideration that such holder is entitled to receive pursuant to Section 2.7 (after taking into account all NYSE Euronext Shares then held by such holder), and (ii) any cash in lieu of fractional shares which the holder has the right to receive pursuant to Section 2.9(d) and in respect of any dividends or other distributions which the holder has the right to receive pursuant to Section 2.9(c). The Book-Entry Interests that are the subject of such authorization shall forthwith be cancelled. No interest will be paid or accrued on any amount payable upon such transfer and cancellation of any Book-Entry Interests. The Holdco Shares issued and paid in accordance with the terms of this Section 2.9(b) upon conversion of any NYSE Euronext Shares (including any cash paid in lieu of fractional shares pursuant to Section 2.09(d)) shall be deemed to have been issued and paid in full satisfaction of all rights pertaining to such NYSE Euronext Shares. In the event of a transfer of ownership of any NYSE Euronext Shares that is not registered in the transfer records of NYSE Euronext, the proper number of Holdco Shares may be transferred by the Escrow Agent to such a transferee if written instructions authorizing the transfer of the Book-Entry Interests are presented to the Escrow Agent, in any case, accompanied by all documents required to evidence and effect such transfer and to evidence that any applicable stock transfer Taxes have been paid. If any Holdco Shares are to be delivered to a Person other than the holder in whose name any Book-Entry Interests are registered, it shall be a condition of such exchange that the Person requesting such delivery shall pay any transfer or other similar Taxes required by reason of the transfer of Holdco Shares to a Person other than the registered holder of any Book-Entry Interests, or shall establish to the satisfaction of Holdco or the Escrow Agent that such Tax has been paid or is not applicable. For the purposes of this Agreement, the term *Person* means any individual, corporation (including not-for-profit), general or limited partnership, limited liability company, joint venture, estate, trust, association, organization, Governmental Entity or Self-Regulatory Organization or other entity of any kind or nature.

Self-Regulatory Organization means any U.S. or non-U.S. commission, board, agency or body that is not a Governmental Entity but is charged with the supervision or regulation of brokers, dealers, securities underwriting or trading, stock exchanges, commodities exchanges, electronic communication networks, insurance companies or agents, investment companies or investment advisers.

(c) *Distributions with Respect to Unexchanged Shares; Voting.* All Holdco Shares to be transferred to the Escrow Agent pursuant to Section 2.6(b) shall be deemed issued and outstanding as of the Effective Time and whenever a dividend or other distribution is declared by Holdco in respect of Holdco Shares, the record date for which is at or after the Effective Time, that declaration shall include dividends or other distributions in respect of all Holdco Shares issuable pursuant to this Agreement. No dividends or other distributions in respect of the Holdco Shares shall be paid to any holder of any Book-Entry Interests until the instructions for transfer and cancellation provided in this Article II and in accordance with the terms of the Merger Transmittal Letter, and such other documents as may reasonably be required by the Escrow Agent pursuant to Section 2.9(b), have been delivered to the Escrow Agent. Subject to the effect of applicable Laws, following delivery to the Escrow Agent of such instructions with respect to Book-Entry Interests, there shall be issued to the holder of Holdco Shares issued in exchange therefor, without interest, (A) at the time of such surrender or delivery of such instructions, the dividends or other distributions with a record date after the Effective Time theretofore payable with respect to such Holdco Shares and not paid and (B) at the appropriate payment date, the dividends or other distributions payable with respect to such Holdco Shares with a record date after the Effective Time but with a payment date subsequent to surrender.

Table of Contents

(d) *Fractional Shares*. No fractional Holdco Shares will be issued in the Merger to any holder of NYSE Euronext Shares. Notwithstanding any other provision of this Agreement, each holder of NYSE Euronext Shares converted pursuant to Section 2.7(a) who would otherwise have been entitled to receive a fraction of a share of Holdco Shares shall receive from the Escrow Agent, in lieu thereof, cash (without interest) in an amount representing such holder's proportionate interest in the net proceeds from the sale by the Escrow Agent on behalf of all such holders of Holdco Shares which would otherwise be issued (the *Excess Merger Shares*). The sale of the Excess Merger Shares by the Escrow Agent shall be executed on the New York Stock Exchange and the Frankfurt Stock Exchange, through one or more member firms of the New York Stock Exchange and the Frankfurt Stock Exchange, as the case may be, and shall be executed in round lots to the extent practicable. Until the net proceeds of such sale or sales have been distributed to such holders of NYSE Euronext Shares, the Escrow Agent shall hold such proceeds in trust for such holders (the *Fractional Interests Trust*). Holdco shall pay all commissions, transfer taxes and other out-of-pocket transaction costs incurred in connection with such sale of the Excess Merger Shares. The Escrow Agent shall determine the portion of the Fractional Interests Trust to which each holder of NYSE Euronext Shares shall be entitled, if any, by multiplying the amount of the aggregate net proceeds comprising the Fractional Interests Trust by a fraction, the numerator of which is the amount of fractional interests to which such holder of NYSE Euronext Shares is entitled and the denominator of which is the aggregate amount of fractional interests to which all holders of NYSE Euronext Shares are entitled. As soon as practicable after the determination of the amount of cash, if any, to be paid to holders of NYSE Euronext Shares in lieu of fractional interests, the Escrow Agent shall make available such amounts to such holders of NYSE Euronext Shares. Any such sale shall be made within ten business days or such shorter period as may be required by applicable Law after the Effective Time.

(e) *Withholding Rights*. Each of Holdco, the Surviving Corporation and the Escrow Agent shall be entitled to deduct and withhold from any amounts payable pursuant to this Article II to any Person who was a holder of NYSE Euronext Shares, NYSE Euronext Stock Options or NYSE Euronext Stock-Based Awards immediately prior to the Effective Time, such amounts as it is required to deduct and withhold with respect to the making of such payment under the Code, or any provision of state, local or non-U.S. tax law. To the extent that amounts are so deducted and withheld by or on behalf of Holdco, the Surviving Corporation or the Escrow Agent, as the case may be, and paid over to the relevant Governmental Entity, such deducted and withheld amounts shall be treated for all purposes of this Agreement as having been paid to the holder of the NYSE Euronext Shares, NYSE Euronext Stock Options or NYSE Euronext Stock-Based Awards, as the case may be, in respect of which such deduction and withholding was made.

(f) *Termination of Exchange Fund and Fractional Interests Trust*. Any portion of the Exchange Fund and Fractional Interests Trust that remains unclaimed by the former stockholders of NYSE Euronext for 180 days after the Effective Time shall be delivered to Holdco. Any former stockholders of NYSE Euronext who have not theretofore complied with this Article II shall thereafter look only to Holdco for delivery of any Holdco Shares or Fractional Interests Trust of such stockholders and payment of any dividends and other distributions in respect of Holdco Shares of such stockholders payable and/or issuable pursuant to this Article II upon delivery to the Escrow Agent of written instructions for the transfer and cancellation of any Book-Entry Interests, in each case, without any interest thereon. Notwithstanding the foregoing, none of Holdco, NYSE Euronext, Deutsche Börse, Merger Sub, the Escrow Agent or any other Person shall be liable to any former holder of NYSE Euronext Shares for any amount properly delivered to a public official pursuant to applicable abandoned property, escheat or similar Laws.

Section 2.10. *Restructuring of the Merger*. The parties hereby agree and acknowledge that, with the prior consent of Deutsche Börse, NYSE Euronext may restructure the Merger; *provided* that such restructuring shall not (i) reduce or change the form of the Merger Consideration, (ii) materially delay or prevent consummation of the transactions contemplated by this Agreement, (iii) prevent or materially impede the qualification of the Merger as a reorganization within the meaning of Section 368(a) of the Code and/or the qualification of the Merger and the Offer, taken together, as a transaction described in Section 351(a) of the

Table of Contents

Code, or (iv) prevent or materially impede the qualification of the Offer and/or the Merger and the Offer, taken together, as a transaction described in Section 351(a) of the Code.

ARTICLE III

POST-CLOSING REORGANIZATION

Section 3.1. *Post-Closing Reorganization.*

(a) Holdco intends, simultaneously with or as soon as practicable after the Closing, to effectuate one or more corporate reorganization transactions (the *Post-Closing Reorganization*) intended to achieve legal and operational integration of Deutsche Börse with Holdco and its Subsidiaries to the greatest extent permitted by applicable Laws.

(b) The Post-Closing Reorganization may include any of the following, each of which has been or will be, to the extent required, approved in principle by the Deutsche Börse Boards:

(i) if 95% or more of the outstanding Deutsche Börse Shares shall have been acquired by Holdco, Holdco may (A) commence a mandatory buy-out of the Deutsche Börse Shares from any remaining holders thereof by way of a squeeze-out transaction pursuant to Section 327a *et seq.* of the German Stock Corporation Act (*Aktiengesetz*) (the *Stock Corporation Act*) or by applying for a court order in accordance with Sections 39a *et seq.* of the Takeover Act and (B) enter into a domination agreement (*Beherrschungsvertrag*) and/or, at the election of Holdco, a combination of a domination agreement (*Beherrschungsvertrag*) and a profit transfer agreement (*Gewinnabführungsvertrag*), in each case pursuant to Sections 291 *et seq.* of the Stock Corporation Act with Deutsche Börse as the controlled company and with Holdco Shares offered to the outside Deutsche Börse shareholders as consideration (*Abfindung*) pursuant to Section 305 para. 2 of the Stock Corporation Act; and

(ii) if less than 95% of the outstanding Deutsche Börse Shares shall have been acquired by Holdco, Holdco may enter into a domination agreement (*Beherrschungsvertrag*) and/or, at the election of Holdco, a combination of a domination agreement (*Beherrschungsvertrag*) and a profit transfer agreement (*Gewinnabführungsvertrag*), in each case pursuant to Sections 291 *et seq.* of the Stock Corporation Act with Deutsche Börse as the controlled company and with Holdco Shares offered to the outside Deutsche Börse shareholders as consideration (*Abfindung*) pursuant to Section 305 para. 2 of the Stock Corporation Act;

provided that, in each case, the Post-Closing Reorganization shall be structured with the goal of providing holders of Deutsche Börse Shares who do not exchange their Deutsche Börse Shares in the Offer with the same number of Holdco Share(s) per Deutsche Börse Share or consideration having the same value (without taking into account the different tax treatment or withholding requirements that may apply) that such holders would have received in the Offer had such holder tendered its Deutsche Börse Shares in the Offer (it being understood that, in the Post-Closing Reorganization, holders of Deutsche Börse Shares may under certain circumstances receive a different amount or form of consideration than they would have received in the Offer). If Holdco shall determine to enter into a domination agreement and/or into a combination of a domination agreement and a profit transfer agreement pursuant to the foregoing sentence, Deutsche Börse agrees that it shall enter into such domination agreement and/or, subject to tax, legal, regulatory and operational consideration, enter into such combination of a domination agreement and a profit transfer agreement, in each case in accordance with Sections 291 *et seq.* of the Stock Corporation Act.

(c) Holdco shall have the right to change the structure of the Post-Closing Reorganization (including to determine whether the domination agreement and/or the profit transfer agreement shall be entered into with Deutsche Börse as the controlled company by a direct or indirect wholly owned subsidiary of Holdco in the legal form of a German stock corporation or a German *societas europaea* (SE) instead of by Holdco);

Table of Contents

provided, however, that it shall be effectuated in accordance with applicable Law and, if the domination agreement is entered into with Deutsche Börse as the controlled company by a direct or indirect wholly owned subsidiary of Holdco in the legal form of a German stock corporation or a German *societas europaea* (SE) instead of by Holdco, an additional domination agreement shall be entered into with such German stock corporation or German *societas europaea* (SE) as controlled company by Holdco. Holdco, NYSE Euronext and Deutsche Börse shall cooperate with each other in identifying and obtaining any tax or other governmental clearances necessary or desirable in connection with the Post-Closing Reorganization.

Section 3.2. *Cooperation of NYSE Euronext and Deutsche Börse*. Except to the extent prohibited by applicable Law or contrary to the requirements of any Regulatory Authority or other Governmental Entity, NYSE Euronext and Deutsche Börse shall take, on or after the date of this Agreement, all actions reasonably necessary or desirable to accomplish the Post-Closing Reorganization, including if requested by Holdco such actions as may be required for Holdco and Deutsche Börse to enter into a domination agreement and/or a combination of a domination agreement and a profit transfer agreement; *provided* that the Post-Closing Reorganization shall not be required to be effective prior to the Effective Time.

ARTICLE IV

GOVERNING DOCUMENTS AND FUTURE STRUCTURE AND BUSINESS MODEL

OF HOLDCO GROUP

Section 4.1. *Articles of Association, Rules for the Board of Directors and Rules for the Global Executive Committee; Organizational Documents of Subsidiaries of Holdco*.

(a) *Articles of Association, Rules for the Board of Directors and Rules for the Global Executive Committee*. Subject to any required approval of the SEC and any Regulatory Authority, prior to the Effective Time, the sole stockholder(s) of Holdco shall (i) adopt the Articles of Association of Holdco by notarial deed, substantially in the form attached hereto as *Exhibit A* (the *Holdco Articles of Association*), and (ii) cause the Holdco Board to adopt the Rules for the Board of Directors of Holdco, substantially in the form attached hereto as *Exhibit B* (the *Holdco Rules for the Board of Directors*) and the Rules for the Global Executive Committee of Holdco, substantially in the form attached hereto as *Exhibit C* (the *Rules for the Global Executive Committee*), in each case to be in effect as of the Effective Time, or prior to the Effective Time if mutually agreed by NYSE Euronext and Deutsche Börse. If, in connection with providing approval of the transactions contemplated by this Agreement, the SEC, any Regulatory Authority or other Governmental Entity with jurisdiction in connection with obtaining any required approval for the transactions contemplated by this Agreement or otherwise requires an amendment or modification to (1) the form of Holdco Articles of Association, (2) the form of Holdco Rules for the Board of Directors, (3) the form of Rules for the Global Executive Committee, (4) the form of Governance Resolutions or (5) the governance structure of the Holdco and its Subsidiaries (together, the *Holdco Group*) contemplated by this Agreement to be in effect as of the Effective Time ((1) through (5), taken together, the *Corporate Governance Structure*), then NYSE Euronext, Deutsche Börse and Holdco agree to amend or modify such forms or governance structure in a way that comes as close as possible to the balance of the Corporate Governance Structure contemplated by this Agreement as of the date hereof, including the balance of powers and responsibilities between the Chairman of the Holdco Group and the Chief Executive Officer of the Holdco Group; *provided* that neither NYSE Euronext nor Deutsche Börse shall be obligated to agree to any such amendment or modification (and, in such case, Holdco shall not implement any amendment) if such amendment or modification would significantly change the balance of the Corporate Governance Structure contemplated by this Agreement as of the date hereof, including the balance of powers and responsibilities between the Chairman of the Holdco Group and the Chief Executive Officer of the Holdco Group. The parties acknowledge and agree that neither of the following (either alone or together) shall be considered to significantly change the balance of the Corporate Governance Structure (a) any requirement to adopt the restrictions, resolutions or provisions in the governing documents of Holdco or its Subsidiaries similar

Table of Contents

to those described in the proposed rule change (Release No. 34-56733; File No. SR-ISE-2007-101) filed by the International Securities Exchange, LLC in connection with its acquisition by Eurex Frankfurt AG (including provisions relating to ownership and voting restrictions, jurisdiction, books and records, notification, cooperation, compliance with U.S. federal securities laws, confidentiality, preservation of independence of self-regulatory functions, directors' considerations of effect of actions on ability of exchange to carry out responsibilities under the Exchange Act and the implementation of a Delaware trust); and (b) any requirement to preserve the Delaware trust and the Dutch foundation that currently exists for NYSE Euronext. The parties are in agreement and have been advised by their respective Dutch legal advisors that the powers and responsibilities of the Chairman of the Holdco Group and the Chief Executive Officer of the Holdco Group contemplated by the Holdco Articles of Association and the Holdco Rules for the Board of Directors comply, as of the date hereof, with applicable Dutch Law in effect as of the date hereof (it being acknowledged that certain of such powers and responsibilities do not conform to the Dutch Corporate Governance Code and therefore the deviations must be disclosed and explained in Holdco's annual accounts) and the rules in the current draft legislation set forth in Bill 31 763 (*Bestuur en toezicht*), presently before the First Chamber of Dutch Parliament. *Regulatory Authorities* means any of the SEC, BaFin, the German Stock Exchange Supervisory Authorities, the Luxembourg Supervisory Authority for the Financial Sector (*Commission de Surveillance du Secteur Financier*) and the Luxembourg Supervisory Authority for the Insurance Sector (*Commissariat aux Assurances*), the Swiss Financial Market Supervisory Authority (*Eidgenössische Finanzmarktaufsicht, FINMA*), the Dutch Minister of Finance, the French Minister of the Economy, the French Prudential Supervisory Authority (*Autorité de Contrôle Prudentiel*), Belgian Banking, Finance and Insurance Commission (*De Commissie voor het Bank-, Financie- en Assurantiewezen*) (the *CBFA*), the AFM, the Portuguese Securities Market Commission (*Comissão do Mercado de Valores Mobiliários*), the U.K. Financial Services Authority, the Monetary Authority of Singapore, and the College of Regulators, and any other regulatory authority (as mutually determined by the parties), in each case only to the extent that it has authority and jurisdiction in the particular context. *College of Regulators* means the Committee of Chairmen of the AMF, the AFM, the CBFA, the Portuguese Securities Market Commission (*Comissão do Mercado de Valores Mobiliários*), and the U.K. Financial Services Authority, pursuant to the Memorandum of Understanding, dated June 24, 2010. *German Stock Exchange Supervisory Authorities* means the Exchange Supervisory authority of the State of Hesse (*Hessische Börsenaufsichtsbehörde*), the Saxonian Exchange Supervisory Authority (*Sächsische Börsenaufsichtsbehörde*) and the Berlin Exchange Supervisory Authority (*Berliner Börsenaufsichtsbehörde*).

(b) *Listing Rule Amendment and Availability of FPI-Status for Holdco after the Effective Time*. In order to secure the implementation of the Corporate Governance structure as agreed between NYSE Euronext and Deutsche Börse, in particular the Chairmanship of the Group Chairman in the Nomination Committee of Holdco and his membership in the Compensation Committee of Holdco, the parties agree to proceed as follows: Simultaneously and in parallel and with equal priority, NYSE Euronext will use reasonable best efforts to amend Rules 303A.04 and 303A.05 of the New York Stock Exchange Rules, so that such rules would permit the Chairman of the Holdco Group to become Chairman of the Nomination Committee of Holdco and member of the Compensation Committee of Holdco for a period of five years after the Effective Time (the *Listing Rule Amendment*) and, without any modification to the Corporate Governance Structure, including, in particular, that, after the Effective Time, the office of the Chief Executive Officer shall be in New York, NYSE Euronext will use reasonable best efforts to secure the availability and maintaining of FPI-Status after the Effective Time. If the parties are not able to confirm prior to the date that the Proxy Statement/Prospectus is mailed to the NYSE Euronext stockholders that the Listing Rule Amendment will be approved or that Holdco shall continue to have FPI-Status after the Effective Time, then NYSE Euronext and Deutsche Börse agree to amend the Corporate Governance Structure in accordance with applicable Law so that a director designated by Deutsche Börse prior to the Effective Time will be nominated by the Group Chairman to become the Chairman of the Nomination Committee and a member of the Compensation Committee after the Effective Time, it being understood that the Group Chairman shall have a permanent right of attendance at the meetings of the Nomination Committee and the Compensation Committee without having the right to vote. NYSE Euronext and Deutsche Börse will further secure, in accordance with applicable Law, that such director designated by Deutsche Börse will be re-appointed as a member of the Holdco Board and as Chairman of the Nomination Committee and as member of the

Table of Contents

Compensation Committee of the Holdco Board after the Initial Board Term (as defined in the Articles of Association of Holdco) for a second term of three years, it being understood that the Group Chairman has a permanent attendance right without having the right to vote also during the second Board term of such director designated by Deutsche Börse until the end of his initial term.

(c) *Organizational Documents of Subsidiaries of Holdco.* Subject to any required approval of the SEC and any Regulatory Authority, the parties shall take all requisite action to cause the organizational documents of those entities that will be Subsidiaries of Holdco as of the Effective Time to be substantially in such form as agreed to by NYSE Euronext and Deutsche Börse.

Section 4.2. *Future Structure and Business Model of the Holdco Group.* Subject to the legal power of the Holdco Board, the Executive Committee of Holdco or the shareholders of Holdco to determine otherwise, Holdco and Holdco Group shall have the following characteristics as of and after the Effective Time:

(a) *Legal Structure of Holdco Group.* Holdco, having its legal seat in Amsterdam, the Netherlands, shall, following the consummation of the Offer and the Merger, serve as a holding company for the combined businesses of Deutsche Börse and NYSE Euronext. In order to comply with regulatory requirements and other applicable Laws and to ensure close proximity to customers, there shall continue to be a separate operational subsidiary legal entity in each of the different countries where Deutsche Börse and NYSE Euronext operate securities exchanges (*i.e.*, the United States, Germany, Belgium, France, the Netherlands, the United Kingdom and Portugal). NYSE Euronext and Deutsche Börse will review the organizational structure of the Holdco Group with a view to organizing it in such a way that, in the medium term, all European businesses and assets of the Holdco Group are held directly or indirectly by a European legal entity and all U.S. businesses and assets are held directly or indirectly by a U.S. legal entity, taking into account and subject to tax, regulatory and operational considerations. NYSE Euronext and Deutsche Börse intend to appoint two regional coordinators for the European and the U.S. businesses of Holdco Group, with a view to regional coordination in relation to regulatory matters. The divisional structure of Holdco Group and the responsibilities of the divisional heads for their respective divisions shall not be affected thereby.

(b) *Trading Platforms.* NYSE Euronext and Deutsche Börse shall decide, after the Effective Time and in accordance with any regulatory requirements, to harmonize the trading platforms of NYSE Euronext and Deutsche Börse. Subject to further review by the parties, the parties intend to migrate:

(i) to two platforms, one for the combined cash business and one for the combined derivatives business of the Holdco Group. In the case of a migration to two platforms, it is the intention of NYSE Euronext and Deutsche Börse that, subject to further review of the parties, one of those platforms will be a platform currently used by NYSE Euronext, and the other will be a platform currently used by Deutsche Börse; and/or

(ii) to one single platform for both cash and derivatives businesses of the Holdco Group in the medium term;

provided that any such migration shall be consistent with the primary goals of maximizing synergies and creating an efficient market place for customers.

(c) *Divisional Structure of Holdco Group.* The Holdco Group shall have five global divisions with the following locations:

(i) Global Cash Trading and Listings with a Global Hub in New York and key locations in the following locations (in alphabetical order): Amsterdam, Brussels, Frankfurt, Lisbon and Paris;

(ii) Global Derivatives with a Global Hub in Frankfurt and key locations in the following locations (in alphabetical order): Amsterdam, Chicago, London, New York and Zurich;

Table of Contents

(iii) Global Settlement and Custody with a Global Hub in Frankfurt and key locations in the following locations (in alphabetical order): Luxembourg, New York, Porto, Prague and Singapore, and with the office of the divisional head for this division located in Luxembourg;

(iv) Technology Services/IT with a Global Hub in New York and a key location in the following locations (in alphabetical order): Belfast, Frankfurt, London, Luxembourg, Paris and Prague, and with the office of the divisional head for this division located in Paris; and

(v) Market Data and Analytics with a Global Hub in Frankfurt and key locations in the following locations (in alphabetical order): London, New York, Paris and Zurich.

The *Global Hub* of a global division of the Holdco Group shall mean the location from where such global division is managed. Prior to the Effective Time, the Holdco Board and the sole shareholder of Holdco shall approve and adopt resolutions substantially in the form attached hereto as *Schedule I*, which, among other things, contemplate the locations of the global divisions of the Holdco Group as set out in this Section 4.2(c). For the divisions, the best existing names and brands by product or market shall be used.

(d) *European Equities Businesses of Holdco Group*. The European equities businesses of Holdco Group expects to run its five markets (Amsterdam, Brussels, Frankfurt, Lisbon and Paris) on the same trading technology platform. This business will be led by the current Head of the European Cash Markets of NYSE Euronext, and the deputy of this business will be a person designated by Deutsche Börse. As has been the case, all five stock exchanges will remain independently operated as listing venues/market undertakings, but will share the same technology platform. Subsequent leaders of this business will run the European equities business from the domicile of the cash market which they operate.

(e) *Inclusion of Holdco Shares in Indices*. Prior to the Effective Time, NYSE Euronext and Deutsche Börse shall use their respective reasonable best efforts to seek the continued inclusion after the Effective Time of the Holdco Shares in the DAX30, EuroStoxx50 and S&P500 indices.

(f) *Rating for Holdco*. Prior to the Effective Time, NYSE Euronext and Deutsche Börse shall use their respective reasonable best efforts so that, after the Effective Time, Holdco shall receive an AA rating from the rating agencies of S&P or Fitch or an equivalent rating at one or several other rating agencies.

Section 4.3. *Availability of FPI-Status for Holdco*. It is the parties' understanding that the status of a foreign private issuer (*FPI-Status*) as defined by Rule 3b-4 under the Exchange Act should be available to Holdco until the Effective Time and that the parties will make use of this availability until such time and shall use their reasonable best efforts to cooperate and agree on any necessary measures in order to ensure that the structure of Holdco allows it all times prior to the Effective Time to maintain FPI-Status.

ARTICLE V

BOARD AND MANAGEMENT COMMITTEE AT THE EFFECTIVE TIME

Section 5.1. *Board of Directors and Board Committees of Holdco; Management of the Holdco Group*.

(a) Unless otherwise agreed by NYSE Euronext and Deutsche Börse, the parties hereto shall cause the Holdco Board to consist, within one month after the Expiration Time, of seventeen members. Such Board of Directors shall be comprised of: (i) the Chief Executive Officer of Deutsche Börse as of immediately prior to the Effective Time; (ii) the Chief Executive Officer of NYSE Euronext as of immediately prior to the Effective Time; (iii) six individuals designated by NYSE Euronext; and (iv) nine individuals designated by Deutsche Börse. As of immediately prior to or concurrently with the Effective Time, each of the members of the Holdco Board, other than the Chief Executive Officer of the Holdco Group and the Chairman of the Holdco Group, shall

Table of Contents

satisfy Holdco's director independence policy, as determined by the Holdco Board and subject to approval by the SEC and the Regulatory Authorities, and each member of the Holdco Board shall meet all applicable legal and regulatory qualification requirements.

(b) At the Effective Time, the Holdco Board shall constitute the following committees of the Holdco Board, each of which shall consist of three members of the Holdco Board designated by Deutsche Börse and two members of the Holdco Board designated by NYSE Euronext, in each case subject to applicable legal and regulatory requirements (including listing standards of applicable Self-Regulatory Organizations): (i) the Audit, Finance and Risk Committee, (ii) the Nomination, Governance and Corporate Responsibility Committee, (iii) the Human Resources and Compensation Committee, (iv) the Strategy Committee, (v) the Integration Committee and (vi) the Technology Committee.

Section 5.2. *Management of the Holdco Group.* Prior to the Effective Time, the parties shall cause the sole shareholder of Holdco and the Holdco Board to adopt a resolution substantially in the form of *Schedule I* attached hereto, which shall contain resolutions that contemplate (a) the appointments to the Holdco Board and the Holdco Board committees, and (b) the appointments of the management of the Holdco Group and of the member of the Global Executive Committee ((a) and (b) together, the *Governance Resolutions*), in each case, with such changes as may be agreed to in writing by NYSE Euronext and Deutsche Börse prior to the Effective Time and subject to any amendments that may be required in view of resignations, removals and other changes determined by NYSE Euronext, in the case of the individuals designated by or employees of NYSE Euronext or A directors, or by Deutsche Börse, in the case of the individuals designated by or employees of Deutsche Börse or B directors.

ARTICLE VI

REPRESENTATIONS AND WARRANTIES

Section 6.1. *Representations and Warranties of NYSE Euronext and Deutsche Börse.* Except as set forth (1) in the case of any representation and warranty made by NYSE Euronext, in the disclosure letter dated as of the date hereof, delivered to Deutsche Börse by NYSE Euronext on or prior to entering into this Agreement (the *NYSE Euronext Disclosure Letter*) and except as disclosed in any report, schedule, form, statement or other document of NYSE Euronext filed with or furnished to the SEC prior to the date hereof and on or after December 31, 2007 and publicly available on the date hereof on the SEC's Electronic Data Gathering, Analysis and Retrieval System (EDGAR) (collectively, the *NYSE Euronext Reports*) (other than disclosures in the *Risk Factors* or *Forward Looking Statements* sections of any NYSE Euronext Reports or any other disclosure in any NYSE Euronext Report to the extent that such disclosure is predictive or forward-looking in nature), and (2) in the case of any representation and warranty made by Deutsche Börse, in the disclosure letter dated as of the date hereof, delivered to NYSE Euronext by Deutsche Börse on or prior to entering into this Agreement (the *Deutsche Börse Disclosure Letter*) and except as disclosed in (x) any annual report of Deutsche Börse prior to the date hereof and on or after December 31, 2007, (y) ad hoc announcement of Deutsche Börse prior to the date hereof and on or after December 31, 2007 or (z) any report, schedule, form, statement or other document filed with BaFin or the German Company Register (*Unternehmensregister*) prior to the date hereof and on or after December 31, 2007 and, in each of cases (x), (y) and (z), only if such annual report, ad hoc announcement or other report, schedule, form, statement or document is publicly available on the website of Deutsche Börse on the date hereof ((x), (y) and (z), collectively, the *Deutsche Börse Reports*) (other than, in the case of the annual report or other report, schedule, form, statement or document filed with BaFin or the Germany Company Register, disclosures in the *Risk Factors*,

Forward Looking Statements or *Risk Report* sections of any Deutsche Börse Report or any other disclosure in any Deutsche Börse Report to the extent that such disclosure is predictive or forward-looking in nature), each of NYSE Euronext and Deutsche Börse hereby represents and warrants to the other as set forth in this Section 6.1; *provided* that any representation or warranty in this Section 6.1 that relates (i) specifically to NYSE Euronext or its Subsidiaries shall be deemed to be a

Table of Contents

representation or warranty made only by NYSE Euronext to Deutsche Börse or (ii) specifically to Deutsche Börse or its Subsidiaries shall be deemed to be a representation or warranty made only by Deutsche Börse to NYSE Euronext.

(a) *Organization, Good Standing and Qualification.* Such party is an entity duly organized, validly existing and in good standing (where such concept is recognized under applicable Law) under the laws of its jurisdiction of organization. Each of such party's Subsidiaries is an entity duly organized, validly existing and in good standing (where such concept is recognized under applicable Law) under the laws of its respective jurisdiction of organization, except where the failure to be so organized, existing and in good standing when taken together with all other such failures, individually or in the aggregate, has not had and is not reasonably expected to have a Material Adverse Effect on such party. Each of such party and its Subsidiaries has all requisite corporate, company or similar power and authority to own and operate its properties and assets and to carry on its business as presently conducted, except where the failure to have such power or authority when taken together with all other such failures, individually or in the aggregate, has not had and is not reasonably expected to have a Material Adverse Effect on such party.

Material Adverse Effect on NYSE Euronext or Deutsche Börse, as applicable, means a material adverse effect on the business, results of operations or financial condition of the NYSE Euronext Group or the Deutsche Börse Group, respectively; *provided, however*, that the following shall not be considered in determining whether a Material Adverse Effect has occurred: (A) any change or development in economic, business or securities markets conditions generally (including any such change or development resulting from acts of war or terrorism) to the extent that such change or development does not affect NYSE Euronext Group or Deutsche Börse Group, respectively, in a materially disproportionate manner relative to other securities exchanges or trading markets; (B) any change or development to the extent resulting from the execution or announcement of this Agreement or the transactions contemplated hereby; or (C) any change or development to the extent resulting from any action or omission by any member of the NYSE Euronext Group or the Deutsche Börse Group, respectively, that is required by this Agreement.

NYSE Euronext Group means NYSE Euronext and its Subsidiaries, taken as a whole.

Deutsche Börse Group means Deutsche Börse and its Subsidiaries, taken as a whole.

Subsidiary means, with respect to any Person, any entity (including a subsidiary (*dochtermaatschappij*) within the meaning of Section 2:24a of the Dutch Civil Code), whether incorporated or unincorporated, of which at least a majority of the securities or ownership interests having by their terms voting power to elect a majority of the board of directors or other persons performing similar functions is directly or indirectly owned or controlled by such Person or by one or more of its respective Subsidiaries and, with respect to Deutsche Börse for purposes of Article VII, shall include the Swiss Subsidiaries; *provided* that any obligation of Deutsche Börse in this Agreement to cause the Swiss Subsidiaries to take an action or not to take an action shall be limited to the extent that Deutsche Börse does not have the right to cause such action or non-action by the Swiss Subsidiaries.

Swiss Subsidiaries means Eurex Zurich AG and STOXX Ltd and their respective Subsidiaries.

(b) *Capitalization.*

(i) The authorized capital stock of NYSE Euronext consists of 800,000,000 NYSE Euronext Shares, of which 261,292,924 NYSE Euronext Shares were outstanding at the close of business on February 10, 2011 (not including 1,645,415 NYSE Euronext Shares held by NYSE Arca, Inc., an indirect wholly owned Subsidiary of NYSE Euronext, and not including 13,363,661 NYSE Euronext Shares held directly by NYSE Euronext in treasury), and 400,000,000 shares of Preferred Stock, par value \$0.01 per share (the *NYSE Euronext Preferred Stock*), of which none are outstanding as of the date hereof. All of the outstanding NYSE Euronext Shares have been duly authorized and are validly issued, fully paid and non-assessable. Except as set forth above, at the close of business on February 10, 2011, no shares of capital stock or other equity interests in NYSE Euronext were

Table of Contents

issued or outstanding. NYSE Euronext has no NYSE Euronext Shares or NYSE Euronext Preferred Stock reserved for issuance, except that, at the close of business on February 10, 2011, there were 430,884 NYSE Euronext Shares underlying NYSE Euronext Stock Options, 4,348,614 NYSE Euronext Shares underlying NYSE Euronext Stock-Based Awards and 3,507,510 NYSE Euronext Shares reserved for issuance for NYSE Euronext employees and directors under NYSE Euronext's 2006 Stock Incentive Plan, Omnibus Incentive Plan, as amended and restated effective as of May 15, 2008, and non-U.S. stock incentive plans. Each of the outstanding shares of capital stock or other equity interests in each of NYSE Euronext's Subsidiaries is duly authorized, validly issued, fully paid and non-assessable and, except as otherwise set forth in the NYSE Euronext Group structure chart set forth in the NYSE Euronext Disclosure Letter, owned by NYSE Euronext or by a direct or indirect wholly owned subsidiary of NYSE Euronext. All shares of capital stock or other equity interests in each of NYSE Euronext's Subsidiaries owned by NYSE Euronext or by a direct or indirect wholly owned subsidiary of NYSE Euronext are free and clear of any lien, pledge, security interest, claim or other encumbrance (*Lien*). Except as set forth above, there are no preemptive or other outstanding rights, options, warrants, conversion rights, stock appreciation rights, redemption rights, repurchase rights, agreements, arrangements, calls, commitments or rights of any kind that obligate NYSE Euronext or any of its Subsidiaries to issue or sell any shares of capital stock or other securities of NYSE Euronext or any of its Subsidiaries or any securities or obligations convertible or exchangeable into or exercisable for, or giving any Person a right to subscribe for or acquire, any shares of capital stock or other securities of NYSE Euronext or any of its Subsidiaries, and no securities or obligations evidencing such rights are authorized, issued or outstanding. NYSE Euronext does not have outstanding any bonds, debentures, notes or other obligations the holders of which have the right to vote (or convertible or exchangeable into or exercisable for securities having the right to vote) with the stockholders of NYSE Euronext on any matter.

(ii) The authorized capital stock (*Grundkapital*) of Deutsche Börse amounts to EUR 195,000,000 and consists of 195,000,000 Deutsche Börse Shares, of which 195,000,000 Deutsche Börse Shares were outstanding at the close of business on February 10, 2011 (including 8,956,997 Deutsche Börse Shares held in treasury by Deutsche Börse (*Deutsche Börse Treasury Shares*)). All of the outstanding Deutsche Börse Shares have been duly authorized and are validly issued, fully paid and non-assessable. Except as set forth above, at the close of business on February 10, 2011, no shares of capital stock or other equity interests in Deutsche Börse were issued or outstanding. Deutsche Börse has no Deutsche Börse Shares reserved for issuance, except that, at the close of business on February 10, 2011, there were 174,583 Deutsche Börse Shares reserved for issuance to Deutsche Börse employees and directors under Deutsche Börse's group share plan. Each of the outstanding shares of capital stock or other equity interests of each of Deutsche Börse's Subsidiaries and each Joint Venture is duly authorized, validly issued, fully paid and non-assessable and, except as otherwise set forth in the Deutsche Börse Group structure chart set forth in the Deutsche Börse Disclosure Letter, owned by Deutsche Börse or by a direct or indirect wholly owned Subsidiary of Deutsche Börse. All shares of capital stock or other equity interests in each of Deutsche Börse's Subsidiaries owned by Deutsche Börse or by a direct or indirect wholly owned subsidiary of Deutsche Börse are free and clear of any Lien. Except as set forth above, there are no preemptive or other outstanding rights, options, warrants, conversion rights, stock appreciation rights, redemption rights, repurchase rights, agreements, arrangements, calls, commitments or rights of any kind that obligate Deutsche Börse or any of its Subsidiaries to issue or sell any shares of capital stock or other securities of Deutsche Börse or any of its Subsidiaries or any securities or obligations convertible or exchangeable into or exercisable for, or giving any Person a right to subscribe for or acquire, any shares of capital stock or other securities of Deutsche Börse or any of its Subsidiaries, and no securities or obligations evidencing such rights are authorized, issued or outstanding. Deutsche Börse does not have outstanding any bonds, debentures, notes or other obligations the holders of which have the right to vote (or convertible or exchangeable into or exercisable for securities having the right to vote) with the stockholders of Deutsche Börse on any matter.

(c) *Corporate Authority.*

(i) NYSE Euronext has all requisite corporate power and authority and has taken all corporate action necessary in order to authorize, execute, deliver and perform its obligations under this Agreement, and to

Table of Contents

consummate the Merger and the other transactions contemplated hereby, subject only (A) in the case of the Merger, to the approval and adoption of this Agreement and the Merger by a vote of the holders of a majority of the outstanding NYSE Euronext Shares entitled to vote thereon, (B) to the approval of certain aspects of the articles of association of Holdco that will be in effect after the Merger by a vote of the holders of a majority of the outstanding NYSE Euronext Shares present at the NYSE Euronext Stockholders Meeting ((A) and (B) collectively, the *NYSE Euronext Requisite Vote*) and (C) to the extent required, approval of the SEC or a Regulatory Authority. This Agreement is a valid and binding agreement of NYSE Euronext enforceable against NYSE Euronext in accordance with its terms, subject, as to enforcement, to bankruptcy, insolvency, fraudulent transfer, reorganization, moratorium and similar laws of general applicability relating to or affecting creditors' rights and to general equity principles (the *Bankruptcy and Equity Exception*). The Board of Directors of NYSE Euronext: (A) has approved and declared advisable this Agreement and the transactions contemplated by this Agreement, including the Merger; (B) has determined, subject to applicable Law, to recommend that the NYSE Euronext stockholders adopt this Agreement and the transactions contemplated by this Agreement; and (C) has received the opinion of its financial advisor, Perella Weinberg Partners LP, to the effect that, as of the date of such opinion and based upon and subject to the assumptions, qualifications and limitations set forth therein, the NYSE Euronext Exchange Ratio is fair, from a financial point of view, to the holders of NYSE Euronext Shares (other than Deutsche Börse or any affiliate of Deutsche Börse), a copy of which opinion has been delivered to Deutsche Börse. It is agreed and understood that such opinion is for the benefit of NYSE Euronext's Board of Directors and may not be relied on by Deutsche Börse.

(ii) Deutsche Börse has all requisite company power and authority and has taken all company action necessary in order to authorize, execute, deliver and perform its obligations under this Agreement, and to consummate the Offer and the other transactions contemplated hereby, subject only, to the extent required, to approval of the SEC or a Regulatory Authority. This Agreement is a valid and binding agreement of Deutsche Börse, enforceable against Deutsche Börse in accordance with its terms, subject, as to enforcement, to the Bankruptcy and Equity Exception. Each Deutsche Börse Board: (A) has approved the transactions contemplated by this Agreement, including the Offer; (B) has determined that, subject to its duties under applicable Law, it will recommend, in its statement on the Offer under Section 27 of the Takeover Act, that the Deutsche Börse shareholders accept the Offer and tender their Deutsche Börse Shares in the Offer; and (C) has received the opinion of each of its financial advisors, Deutsche Bank AG and J.P. Morgan Securities LLC, in each case to the effect that, as of the date of such opinions and based upon and subject to the assumptions, qualifications and limitations set forth therein, the Deutsche Börse Exchange Ratio is fair, from a financial point of view, to the holders of Deutsche Börse Shares (other than Deutsche Börse), a copy of which opinions have been delivered to NYSE Euronext. It is agreed and understood that such opinion is for the benefit of the Deutsche Börse Boards and may not be relied on by NYSE Euronext.

(d) *No Conflicts.*

(i) (A) Neither the execution and delivery by such party of this Agreement, the compliance by it with all of the provisions of and the performance by it of its obligations under this Agreement, nor the consummation of the Offer, the Merger and the other transactions herein contemplated will conflict with, or result in a breach or violation of, or result in any acceleration of any rights or obligations or the payment of any penalty under or the creation of a Lien on the assets of such party or any of its Subsidiaries (with or without the giving of notice or the lapse of time) pursuant to, or permit any other party any improvement in rights with respect to or permit it to exercise, or otherwise constitute a default under, any provision of any Contract, or result in any change in the rights or obligations of any party under any Contract, in each case to which such party or any of its Subsidiaries is a party or by which such party or any of its Subsidiaries or any of their respective assets is bound, (B) nor, subject, in the case of NYSE Euronext, to any required approval of the Holdco Articles of Association by the SEC or any Regulatory Authority, will such execution and delivery, compliance, performance or consummation result in any breach or violation of, or a default under, the provisions of the Organizational Documents of such party or any of its Subsidiaries, or any Law applicable to it, except (in each of clauses (A) and (B), as applicable) for such conflicts, breaches, violations, defaults, payments, accelerations, creations or changes that, individually

Table of Contents

or in the aggregate, have not had and are not reasonably expected to have, a Material Adverse Effect on such party.

(ii) Neither NYSE Euronext nor Deutsche Börse nor any of their Subsidiaries is a party to or bound by any non-competition Contracts or other Contract that purports to limit in any material respect either the type of business in which NYSE Euronext, Deutsche Börse or any of their Subsidiaries (or, after giving effect to the Merger and the Offer, Holdco or its Subsidiaries) may engage or the manner or locations in which any of them may so engage in any business.

Contract means, with respect to any Person, any agreement, indenture, loan agreement, undertaking, note or other debt instrument, contract, lease, mortgage, deed of trust, permit, license, understanding, arrangement, commitment or other obligation to which such Person or any of its subsidiaries is a party or by which any of them may be bound or to which any of their properties may be subject.

Organizational Documents means, with respect to any Person, the certificate of incorporation, articles of association, limited liability company agreement, bylaws or similar organizational documents of such Person.

(e) *Governmental Approvals and Consents*. Other than (i) the filings and/or notices under the Hart-Scott-Rodino Antitrust Improvement Act of 1976, as amended (the *HSR Act*), Council Regulation (EC) 139/2004 of the European Community (the (*EMCR*)), and (ii) other merger control or competition law filings and/or notices (as mutually determined necessary or advisable by the parties) (subsections (i) and (ii) collectively, the *Competition Approvals*), (iii) the approval from the Committee on Foreign Investment in the United States (*CFIUS*) under the Exon-Florio Amendment, (iv) the approvals and consents to be obtained from the SEC or any Regulatory Authority, including with respect to the Offer Documents, (v) the filing of the Certificate of Merger, and (vi) as required in order to comply with state securities, takeover and blue sky laws, no authorizations, consents, approvals, orders, permits, notices, reports, filings, registrations, qualifications and exemptions of, with or from, or other actions are required to be made by such party or any of its Subsidiaries with, or obtained by such party or any of its Subsidiaries from, any governmental or regulatory authority, agency, commission, body or other governmental or regulatory entity, U.S. or non-U.S., including the SEC and the Regulatory Authorities (*Governmental Entity*) or any Self-Regulatory Organization, in connection with the execution and delivery by such party of this Agreement, the performance by such party of its obligations hereunder and the consummation of the transactions contemplated hereby.

(f) *Reports; Financial Statements*.

(i) Each of the NYSE Euronext Reports and Deutsche Börse Reports were filed in a timely manner and in material compliance with all applicable Laws and other requirements applicable thereto. As of their respective dates (or if amended prior to the date hereof, as of the date of such amendment), the NYSE Euronext Reports and the Deutsche Börse Reports complied in all material respects with requirements under applicable Law regarding the accuracy and completeness of the disclosures contained therein.

(ii) The consolidated balance sheet (including the related notes and schedules) included in the audited consolidated financial statements of NYSE Euronext for the fiscal year ended December 31, 2009 (the *NYSE Euronext Financial Statements*) fairly presents the consolidated financial position of NYSE Euronext and its Subsidiaries as of its date, and the consolidated statements of income, equity, and cash flows and of changes in financial position included in the NYSE Euronext Financial Statements (including any related notes and schedules) fairly present the results of operations, equity, cash flows and changes in financial position, as the case may be, of NYSE Euronext and its Subsidiaries for the periods set forth therein, in each case in conformity with U.S. generally accepted accounting principles (*GAAP*) consistently applied during the periods involved, except as may be noted therein.

(iii) The consolidated balance sheet (including the related notes and schedules) included in the audited consolidated financial statements of Deutsche Börse for the fiscal year ended December 31, 2009 (the

Table of Contents

Deutsche Börse Financial Statements) fairly presents the consolidated financial position of Deutsche Börse and its Subsidiaries as of its date, and the consolidated statements of income, equity and cash flows and of other changes in financial position included in the Deutsche Börse Financial Statements (including any related notes and schedules) fairly present the results of operations, retained earnings, stockholders' equity, cash flows and changes in financial position, as the case may be, of Deutsche Börse and its Subsidiaries for the periods set forth therein, in each case in conformity with International Financial Reporting Standards issued by the International Accounting Standards Board (*IFRS*) consistently applied during the periods involved, except as may be noted therein.

(g) *Absence of Certain Changes.* Except as disclosed in the NYSE Euronext Financial Statements (in the case of NYSE Euronext) or the Deutsche Börse Financial Statements (in the case of Deutsche Börse), since December 31, 2009, such party and its Subsidiaries have conducted their respective businesses only in, and have not engaged in any material transaction other than according to, the ordinary and usual course of such businesses and there has not been any change or development that, individually or in the aggregate, has had or is reasonably expected to have, a Material Adverse Effect on such party.

(h) *Compliance.* Neither such party nor any of its Subsidiaries is in conflict with, or in default or violation of, (i) any federal, state, local law, statute, ordinance, rule, regulation, judgment, order, injunction, decree, arbitration award, agency requirement, writ, franchise, variance, exemption, approval, license or permit in the United States, Germany or elsewhere (each, a *Law* and collectively *Laws*) of any Governmental Entity or Self-Regulatory Organization or (ii) any Contract to which such party or any of its Subsidiaries is a party or by which such party or any of its Subsidiaries or its or any of their respective properties is bound or affected, except in each of clauses (i) and (ii), for any such conflicts, defaults or violations that, individually or in the aggregate, have not had and are not reasonably expected to have a Material Adverse Effect on such party. Each of such party and its Subsidiaries has all permits, licenses, franchises, variances, exemptions, orders and other authorizations, consents and approvals (together, *Permits*) of all Governmental Entities necessary to conduct its business as presently conducted, except where the failure to have such Permits, individually or in the aggregate, has not had and is not reasonably expected to have a Material Adverse Effect on such party.

(i) *Litigation and Liabilities.* There are no (i) civil, criminal or administrative actions, suits, claims, hearings, investigations or proceedings pending or, to the knowledge of such party, threatened against such party, any of its Subsidiaries or any of their respective directors or officers in their capacity as such or (ii) except as disclosed in the NYSE Euronext Financial Statements (in the case of NYSE Euronext) or the Deutsche Börse Financial Statements (in the case of Deutsche Börse), obligations or liabilities, whether or not accrued, contingent or otherwise and whether or not required to be disclosed, including those relating to, or any other facts or circumstances of which, to the knowledge of such party, could result in any claims against, or obligations or liabilities of, such party or any of its affiliates, except, in case of either clause (i) or (ii), for those that, individually or in the aggregate, have not had and are not reasonably expected to have a Material Adverse Effect on such party.

(j) *Employee Benefits.*

(i) All material benefit and compensation plans, contracts, policies or arrangements covering current or former employees of such party and its Subsidiaries and current or former directors of such party and its Subsidiaries, including deferred compensation, Pension Commitments, equity option, equity purchase, equity appreciation rights, equity based incentive and bonus plans (the *Benefit Plans*) are listed in Section 6.1(j) of the NYSE Euronext Disclosure Letter (in the case of NYSE Euronext) or Section 6.1(j) of the Deutsche Börse Disclosure Letter (in the case of Deutsche Börse). True and complete copies of all material Benefit Plans listed in Section 6.1(j) of the NYSE Euronext Disclosure Letter (in the case of NYSE Euronext) or Section 6.1(j) of the Deutsche Börse Disclosure Letter (in the case of Deutsche Börse), including any trust instruments, insurance contracts and all amendments thereto, have been made available to the other party.

Table of Contents

Pension Commitments means any agreement or other commitment of individual or collective nature, including commitments based on works custom (*betriebliche Übung*), to the extent known to such party, or collective grant (*Gesamtzusage*) regarding pensions (*betriebliche Altersversorgung*) under which a company or its subsidiaries has any obligations.

(ii) All Benefit Plans are operated and established in substantial compliance with their terms and all applicable Laws. All Benefit Plans intended to qualify for special tax treatment meet all requirements for such treatment, and all Benefit Plans required to be funded and/or book-reserved are funded and/or book reserved, as appropriate, based upon reasonable actuarial assumptions.

(iii) Other than as required by applicable Law, neither NYSE Euronext nor any of its Subsidiaries has any material obligations for retiree health and life benefits to any current or former employees of such party or any of its Subsidiaries. Other than as prohibited by applicable Law, such party or its Subsidiaries may amend or terminate any such plan at any time without incurring any liability thereunder other than in respect of claims incurred prior to such amendment or termination.

(iv) There has been no amendment to, announcement by such party or any of its Subsidiaries relating to, or change in employee participation or coverage under, any Benefit Plan which would increase the expense of maintaining such plan above the level of the expense incurred therefor for the most recent fiscal year. Neither the execution of this Agreement nor the consummation of the transactions contemplated hereby will (A) entitle any employees or other service providers of such party and its Subsidiaries to additional compensation or to severance pay or any increase in severance pay upon any termination of employment after the date hereof, (B) accelerate the time of payment or vesting or result in any payment or funding (through a grantor trust or otherwise) of compensation or benefits under, increase the amount payable or result in any other material obligation pursuant to, any of the Benefit Plans or accelerate options or restricted stock units, (C) accelerate the time of payment or vesting of the NYSE Euronext Stock Options or the NYSE Euronext Stock-Based Awards (in the case of NYSE Euronext) or the Deutsche Börse Stock Options or the Deutsche Börse Stock-Based Awards (in the case of Deutsche Börse), or (D) limit or restrict the right of such or, after the consummation of the Merger or any other transactions contemplated hereby, Holdco to merge, amend or terminate any of the Benefit Plans.

(k) *Tax Matters.*

(i) Neither such party nor any of its Subsidiaries has taken or agreed to take any action, nor, to the knowledge of such party, does there exist any fact or circumstance, that would prevent or impede, or would be reasonably likely to prevent or impede, (i) the Merger from qualifying as a reorganization within the meaning of Section 368(a) of the Code and/or the Merger and the Offer, taken together, from qualifying as an exchange within the meaning of Section 351(a) of the Code, (ii) the Offer and/or the Merger and the Offer, taken together, from qualifying as a transaction described in Section 351(a) of the Code, or (iii) the receipt by NYSE Euronext or Deutsche Börse of the IRS private letter ruling or rulings contemplated by paragraph II.(b) and paragraph III.(b) of *Annex II*.

(ii) Except as would not, individually or in the aggregate, reasonably be expected to have a Material Adverse Effect on such party: (A) all Tax Returns that are required to be filed by or with respect to such party or any of its Subsidiaries have been timely filed (taking into account any extension of time within which to file), and all such Tax Returns are true and complete; (B) such party and its Subsidiaries have paid all Taxes required to be paid by any of them, including any Taxes required to be withheld from amounts owing to any employee, creditor or third party, except with respect to matters for which adequate reserves have been established in accordance with GAAP in the most recent NYSE Euronext annual financial statement (in the case of NYSE Euronext and its Subsidiaries) or IFRS in the most recent Deutsche Börse annual financial statement (in the case of Deutsche Börse and its Subsidiaries), in each case, as adjusted for operations in the ordinary course of business since the last date which is covered by such statements; (C) there is no audit, examination, deficiency, refund litigation, proposed adjustment or matter in controversy with respect to any Taxes or Tax Return of such party or any of its Subsidiaries; (D) the Tax

Table of Contents

Returns of such party and each of its Subsidiaries have been examined by the applicable Tax Authority (or the applicable statutes of limitations for the assessment of income Taxes for such periods have expired) for all periods through and including December 31, 2007, and no deficiencies were asserted as a result of such examinations which have not been resolved and fully paid or accrued as a liability on the financial statements contained in the most recent NYSE Euronext Reports or Deutsche Börse Reports, as applicable; (E) neither such party nor any of its Subsidiaries have waived any statute of limitations with respect to Taxes or agreed to any extension of time with respect to a Tax assessment or deficiency; (F) neither NYSE Euronext nor any of its Subsidiaries has constituted a distributing corporation or a controlled corporation (within the meaning of Section 355(a)(1)(A) of the Code) in a distribution of stock intended to qualify for tax-free treatment under Section 355 of the Code (or any similar provision of state, local or non-U.S. law) in the two years prior to the date of this Agreement; (G) none of NYSE Euronext, Deutsche Börse or any of their respective Subsidiaries has any liability for Taxes of any Person (other than such party or any of its Subsidiaries) under Treasury Regulation §1.1502-6 (or any similar provision of state, local or non-U.S. law, including Section 73 *et seq.* of the German General Tax Code), as transferee or successor, by contract or otherwise; (H) there are no liens for Taxes upon any property or assets of NYSE Euronext, Deutsche Börse or any of their respective Subsidiaries, except for liens for Taxes not yet due and payable or for which adequate reserves have been provided in accordance with GAAP in the most recent NYSE Euronext annual financial statement (in the case of NYSE Euronext and its Subsidiaries) or IFRS in the most recent Deutsche Börse annual financial statement (in the case of Deutsche Börse and its subsidiaries), (I) no private letter rulings, technical advice memoranda or similar agreements or rulings have been entered into or issued by any Tax Authority with respect to NYSE Euronext, Deutsche Börse or any of their respective Subsidiaries for any taxable year for which the statute of limitations has not expired.

(iii) As used in this Agreement, (A) the term *Tax* (including the plural form *Taxes* and, with correlative meaning, the terms *Taxable* and *Taxation*) includes all U.S. federal, state, local and non-U.S. income, gain, profits, windfall profits, franchise, gross receipts, environmental, customs duty, capital stock, severances, stamp, payroll, sales, employment, unemployment, disability, use, property, withholding, excise, production, value added, occupancy and other taxes, duties or assessments of any nature whatsoever, together with all interest, penalties and additions imposed with respect to such amounts and any interest in respect of such penalties and additions, (B) the term *Tax Return* includes all returns and reports (including elections, declarations, disclosures, schedules, estimates and information returns) filed or required to be filed with a Tax Authority relating to Taxes, and (C) the term *Tax Authority* includes any Governmental Entity responsible for the assessment, collection or enforcement of Laws relating to Taxes (including the IRS and any similar state, local or non-U.S. revenue agency).

(l) *Labor Matters.* Neither such party nor any of its Subsidiaries is a party to or otherwise bound by any material collective bargaining agreement, Contract or other agreement or understanding with a labor union or labor organization, nor is such party or any of its Subsidiaries the subject of any material proceeding asserting that such party or any of its Subsidiaries has committed an unfair labor practice or is seeking to compel it to bargain with any labor union or labor organization nor is there pending or, to the knowledge of such party, threatened, nor has there been for the past three years, any material labor strike, dispute, walk-out, work stoppage, slow-down or lockout (*Strikes*) involving such party or any of its Subsidiaries, except for any general Strikes that are not directed exclusively at such party or any of its Subsidiaries.

(m) *Material Contracts.* Except as has not had or is not reasonably expected to have a Material Adverse Effect on NYSE Euronext or Deutsche Börse, as applicable, neither NYSE Euronext nor Deutsche Börse, as applicable, nor any of its Subsidiaries is in breach of or default under the terms of any Material Contract, and no event has occurred that (with or without notice or lapse of time or both) could reasonably be expected to result in a breach or default under any Material Contract. To the knowledge of NYSE Euronext or Deutsche Börse, as applicable, no other party to any Material Contract is in breach of or default under the terms of any Material Contract where such breach or default has had, or could reasonably be expected to have, individually or in the aggregate, a Material Adverse Effect on NYSE Euronext or Deutsche Börse, as applicable.

Table of Contents

Except as has not had and is not reasonably expected to have a Material Adverse Effect on NYSE Euronext or Deutsche Börse, as applicable, each Material Contract is a valid and binding obligation of NYSE Euronext or Deutsche Börse, as applicable, or any of its Subsidiaries which is party thereto and, to the knowledge of NYSE Euronext or Deutsche Börse, as applicable, of each other party thereto, and is in full force and effect, except that such enforcement may be subject to the Bankruptcy and Equity Exception. *Material Contract* shall mean any contract to which NYSE Euronext or Deutsche Börse, as applicable, or any of its respective Subsidiaries, is a party or bound as of the date hereof that:

(A) is a material contract (as such term is defined in Item 601(b)(10) of Regulation S-K of the SEC);

(B) (1) purports to limit in any material respect either the type of business or the manner or geographic area in which any of them may so engage in any business, (2) would require the disposition of any material assets or line of business of NYSE Euronext or Deutsche Börse, as applicable, or its Subsidiaries (or, after the Effective Time, Holdco or its Subsidiaries) or any of their respective affiliates as a result of the consummation of the transactions contemplated by this Agreement, (3) is a material Contract that grants most favored nation status that, following the Effective Time, would impose obligations upon Holdco or its Subsidiaries, or (4) prohibits or limits, in any material respect, the right of NYSE Euronext or Deutsche Börse, as applicable, or any of its Subsidiaries (or, after the Effective Time, Holdco or its Subsidiaries) to make, sell or distribute any products or services or use, transfer, license or enforce any of their respective intellectual property rights; or

(C) that (1) has an aggregate principal amount, or provides for an aggregate obligation, in excess of 170,000,000 evidencing indebtedness for borrowed money, guaranteeing any such indebtedness of a third party or containing a covenant restricting the payment of dividends, or (2) has the economic effect of any of the items set forth in the foregoing clause (1).

(n) *Intellectual Property*.

(i) For the purposes of this Agreement, *Intellectual Property* means all inventions, discoveries, patents, patent applications, registered and unregistered trademarks and service marks and all goodwill associated therewith and symbolized thereby, trademark applications and service mark applications, Internet domain names, registered and unregistered copyrights (including databases and other compilations of information), confidential information, trade secrets and know-how, including processes, schematics, business methods, formulae, drawings, prototypes, models, designs, customer lists and supplier lists, computer software programs, and all other intellectual property and proprietary rights.

(ii) Except as has not had or is not reasonably expected to have a Material Adverse Effect on such party, (A) such party and/or at least one of its Subsidiaries exclusively owns, is licensed to use or otherwise possesses sufficient and legally enforceable rights to use all Intellectual Property which is owned by or necessary to the operation of the business of such party and its Subsidiaries as currently conducted (the *Material Intellectual Property*) and (B) the consummation of the transactions contemplated by this Agreement will not alter or impair such rights.

(iii) Except as has not had or is not reasonably expected to have a Material Adverse Effect on such party, to the knowledge of such party, the conduct of the business of such party as currently conducted does not infringe upon any Intellectual Property rights or any other proprietary right of any Person. To the knowledge of such party, there is no unauthorized use, infringement or misappropriation and other violation of Material Intellectual Property by any Person, including any employee of such party or any of its Subsidiaries, except as would not reasonably be likely to have a Material Adverse Effect on such party.

(iv) To the knowledge of such party and except as has not had or is not reasonably expected to have a Material Adverse Effect on such party, the IT Assets of such party operate and perform in all material respects in accordance with their documentation and functional specifications, to the extent available, or as otherwise required by such party and its Subsidiaries in connection with the business of such party and its Subsidiaries as currently conducted.

Table of Contents

(v) *IT Assets* means, with respect to Deutsche Börse or NYSE Euronext, computers, computer software, firmware, middleware, servers, workstations, routers, hubs, switches, data communications lines, and all other information technology equipment and elements, and all associated documentation, used in the business of Deutsche Börse or NYSE Euronext, as applicable, and its Subsidiaries as currently conducted.

Section 6.2. *Representations and Warranties of Holdco and Merger Sub.* Each of Holdco and Merger Sub hereby represents and warrants to NYSE Euronext and to Deutsche Börse as set forth in this Section 6.2.

(a) *Organization, Good Standing and Qualification.* Each of Holdco and Merger Sub is an entity duly organized, validly existing and in good standing (where such concept is recognized under applicable Law) under the laws of its jurisdiction of organization. Neither Holdco nor Merger Sub has conducted any business other than activities incidental to its organization and the consummation of the transactions contemplated by this Agreement.

(b) *Capitalization.* The authorized capital stock of Holdco consists of (i) 180,000 ordinary shares, nominal value 1 per share, and (ii) 45,000 D shares, nominal value 1 per share, of which 45,000 D shares are outstanding as of February 10, 2011 and no ordinary shares are outstanding as of the date hereof. All of the outstanding Holdco Shares have been duly authorized and are validly issued, fully paid and non-assessable. The authorized capital stock of Merger Sub consists of 500 shares of common stock, par value \$0.01 per share, of which 100 are outstanding as of the date hereof. All of the outstanding shares of Merger Sub common stock have been duly authorized and are validly issued, fully paid and non-assessable.

(c) *Corporate Authority.* Each of Holdco and Merger Sub has all requisite corporate power and authority and has taken all corporate action necessary in order to authorize, execute, deliver and perform its obligations under this Agreement, and to consummate the Merger, the Offer and the other transactions contemplated hereby. This Agreement is a valid and binding agreement of each of Holdco and Merger Sub enforceable against it in accordance with its terms, subject, as to enforcement, to the Bankruptcy and Equity Exception. Each of the sole shareholder of Holdco and the Holdco Board has approved and authorized this Agreement, the Offer and the Merger and the other transactions contemplated hereby. The board of directors of Merger Sub has approved and authorized this Agreement, the Merger and the other transactions contemplated hereby.

(d) *No Conflicts.* The execution and delivery, compliance, performance or consummation shall not result in any breach or violation of, or a default under, the provisions of the Holdco's articles of association, Merger Subs certificate of incorporation or bylaws, except for such breaches, violations or defaults that, individually or in the aggregate, have not had and are not reasonably expected to have, a Material Adverse Effect on NYSE Euronext or Deutsche Börse.

ARTICLE VII

COVENANTS

Section 7.1. *Interim Operations.* NYSE Euronext and Deutsche Börse each covenants and agrees as to itself and its Subsidiaries that, after the date hereof and until the earlier of the Effective Time or the termination of this Agreement in accordance with its terms, unless NYSE Euronext (in the case of Deutsche Börse) or Deutsche Börse (in the case of NYSE Euronext) shall otherwise approve in writing, and except as otherwise expressly contemplated by this Agreement or, in the case of Deutsche Börse, except as otherwise set forth in Schedule 7.1 of the Deutsche Börse Disclosure Letter or, in the case of NYSE Euronext, except as otherwise set forth in Schedule 7.1 of the NYSE Euronext Disclosure Letter:

(a) the business of it and its Subsidiaries shall be conducted in the ordinary and usual course consistent with past practice, and each of NYSE Euronext and Deutsche Börse shall take such actions as are

Table of Contents

necessary so that (1) if the number of any restricted stock units issued after January 1, 2011 by NYSE Euronext or its Subsidiaries (*NYSE Euronext RSUs*) or issued by Deutsche Börse or its Subsidiaries (*Deutsche Börse RSUs*), as the case may be, exceeds the number of any NYSE Euronext RSUs or Deutsche Börse RSUs, respectively, forfeited after January 1, 2011 (any such excess for such party, the *Excess Number*), then NYSE Euronext and Deutsche Börse, as the case may be, shall cause a number of NYSE Euronext RSUs and Deutsche Börse RSUs, respectively, equal to the Excess Number for such party to be settled in cash instead of NYSE Euronext Shares or Deutsche Börse Shares, respectively, and (2) any stock options issued after January 1, 2011 by NYSE Euronext or Deutsche Börse, as the case may be, shall be settled in cash instead of NYSE Euronext Shares or Deutsche Börse Shares, respectively;

(b) (i) it shall not issue, sell, pledge, dispose of or encumber any capital stock owned by it in any of its Subsidiaries; (ii) except as set forth in Article IV of this Agreement, it shall not amend its certificate of incorporation, articles of association or bylaws; (iii) it shall not split, combine or reclassify its outstanding shares of capital stock; (iv) it shall not declare, set aside or pay any type of dividend, whether payable in cash, stock or property, in respect of any capital stock other than the quarterly dividends payable by NYSE Euronext or the annual dividend payable by Deutsche Börse (in each case in an amount per share not to exceed its most recent quarterly or annual per share dividend, as the case may be, and with the timing of such dividend to be consistent with past practice) or dividends payable by its direct or indirect wholly owned Subsidiaries to it or another of its direct or indirectly wholly owned Subsidiaries; or (v) it shall not repurchase, redeem or otherwise acquire, or permit any of its Subsidiaries to purchase or otherwise acquire, any interests or shares of its capital stock, as applicable, or any securities convertible into or exchangeable or exercisable for any shares of its capital stock;

(c) neither it nor any of its Subsidiaries shall (i) issue, sell, pledge, dispose of or encumber (v) any shares of, or (w) securities convertible into or exchangeable or exercisable for, or (x) options, warrants, calls, commitments or rights of any kind to acquire, capital stock of any class, as appropriate, or (y) any bonds, debentures, notes or other obligations the holders of which have the right to vote (or convertible into or exercisable for securities having the right to vote) with its shareholders on any matter or any other property or assets other than NYSE Euronext Shares or Deutsche Börse Shares issuable pursuant to stock-based awards outstanding on or awarded prior to the date hereof under the NYSE Euronext Stock Plans or Deutsche Börse Stock Plans; (ii) other than in the ordinary and usual course of business and consistent with past practice and other than any incurrence of indebtedness that is less than 170,000,000 in the aggregate, incur any long-term indebtedness for borrowed money (including any guarantee of such indebtedness); or (iii) make or authorize or commit for any capital expenditures, except for in accordance with the 2011 capital expenditure target for each of NYSE Euronext and Deutsche Börse, respectively, that has been provided to the other prior to the date of this Agreement or such other capital expenditures targets as may be mutually agreed by NYSE Euronext and Deutsche Börse (provided that (1) each of NYSE Euronext and Deutsche Börse shall be permitted to make or authorize or commit for any capital expenditures in an amount that is between 75% and 110% of such party's capital expenditure target and (2) if the Effective Time shall not have occurred on or prior to December 31, 2011, then, for purposes of this Section 7.1(c), each party's capital expenditure target will be adjusted upwards to take into account the number of days between December 31, 2011 and the Effective Time and assuming that the 2012 capital expenditure target shall be equal to the 2011 capital expenditure target);

(d) neither it nor any of its Subsidiaries shall (i) terminate, establish, adopt, enter into, make any new grants or awards under, amend or otherwise modify, any Benefit Plan, as the case may be, or any other arrangement that would be a NYSE Euronext Benefit Plan or a Deutsche Börse Benefit Plan if in effect on the date hereof other than offer letters provided to newly hired or promoted employees (but excluding offer letters to executive officers of it and its Subsidiaries or to employees whose target compensation is in excess of the average compensation of executive officers of it or its Subsidiaries or of the employees, as the case may be), or (ii) except for increases occurring in the ordinary and usual course of business consistent with past practice, increase the salary, wage, bonus or other compensation of any employees or fringe benefits of any director, officer or employee or enter into any contract, agreement, commitment or arrangement to do any of the foregoing;

Table of Contents

(e) neither it nor any of its Subsidiaries shall lease, license, transfer, exchange or swap, mortgage (including securitizations), or otherwise dispose (whether by way of merger, consolidation, sale of stock or assets, or otherwise) of any material portion of its assets, including the capital stock of Subsidiaries (it being understood that the foregoing shall not prohibit the sale of inventory in the ordinary course of business), except for (i) dispositions of assets that in total have an aggregate fair market value of less than 100,000,000, or (ii) transactions between it and any Subsidiary or transactions between Subsidiaries;

(f) neither it nor any of its Subsidiaries shall acquire or agree to acquire (whether by merger, consolidation, purchase or otherwise) any Person or assets, in which the expected gross expenditures and commitments (including the amount of any indebtedness assumed) (i) for all such acquisitions exceeds, in the aggregate, 200,000,000 (it being understood that if a party intends to make one or more acquisition that would exceed such amount, then the parties will discuss in good faith as to whether to permit such acquisitions based on the best interests of the Holdco Group after the Effective Time), or (ii) is reasonably likely, individually or in the aggregate, to materially delay the satisfaction of the conditions set forth in Article VIII or Annex II hereof or prevent the satisfaction of such conditions;

(g) except in the ordinary and usual course of business consistent with past practice, neither it nor any of its Subsidiaries shall (i) settle or compromise any material claims or litigation if such settlement or compromise would involve, individually or together with all such other settlements or compromises, the payment of money by such party or its Subsidiaries of 50,000,000 or more or would involve any admission of material wrongdoing or any material conduct requirement or restriction by such party or its Subsidiaries or (ii) modify, amend or terminate in any material respect any of its Material Contracts or waive, release or assign any material rights or claims thereunder in excess of 50,000,000 individually or in the aggregate;

(h) except to the extent otherwise required by Law, neither it nor any of its Subsidiaries shall make or change any Tax election, change any method of Tax accounting, file any amended Tax Return, or settle or compromise any audit or proceeding relating to Taxes, in each case, if such action would reasonably be expected to have an adverse effect on NYSE Euronext or Deutsche Börse, as applicable, that is material; or permit any material insurance policy naming it as a beneficiary or loss-payable payee to be cancelled or terminated except in the ordinary and usual course of business;

(i) neither it nor any of its Subsidiaries shall permit any change in its financial accounting principles, policies or practice (including any of its practices with respect to accounts receivable or accounts payable), except to the extent that any such changes in financial accounting principles, policies or practices shall be required by changes in GAAP (in the case of NYSE Euronext) or IFRS (in the case of Deutsche Börse);

(j) neither it nor any of its Subsidiaries shall enter into any non-compete or similar Contract that would materially restrict the business of Holdco group following the Effective Time;

(k) except as permitted pursuant to Section 7.1(d), neither it nor any of its Major Subsidiaries shall enter into any Contract between itself, on the one hand, and any of its employees, officers or directors, on the other hand, if such Contract is not entered into on an arm's length basis; and

(l) neither it nor any of its Subsidiaries will authorize or enter into an agreement to do any of the foregoing set forth in Sections 7.1(a) through (k) if NYSE Euronext or Deutsche Börse, as applicable, would be prohibited by the terms of Sections 7.1(a) through (k) from doing the foregoing.

Section 7.2. Acquisition Proposals.

(a) Without limiting any of such party's other obligations under this Agreement, each of NYSE Euronext and Deutsche Börse agrees that, from and after the date hereof until the earlier of the Closing and the termination of this Agreement in accordance with its terms, neither it nor any of its Subsidiaries nor any of the

Table of Contents

officers or directors of it or its Subsidiaries (including any member of the Board of Directors of NYSE Euronext or the Deutsche Börse Boards) shall, and that it shall use its reasonable best efforts to cause its and its Subsidiaries' employees, agents and representatives (including any investment banker, attorney or accountant retained by it or any of its Subsidiaries) not to, directly or indirectly, (i) initiate, solicit, knowingly encourage (including by way of furnishing information), facilitate, or induce any inquiries or the making, submission or announcement of, any proposal or offer that constitutes, or could reasonably be expected to result in, an Acquisition Proposal, (ii) subject to Section 7.2(c), have any discussion with any Person relating to an Acquisition Proposal, or engage in any negotiations concerning an Acquisition Proposal, or knowingly facilitate any effort or attempt to make or implement an Acquisition Proposal, (iii) subject to Section 7.2(c), provide any confidential information or data to any Person in relation to an Acquisition Proposal, (iv) subject to Section 7.2(c), approve or recommend, or propose publicly to approve or recommend, any Acquisition Proposal or (v) subject to Section 7.2(c), approve or recommend, or propose to approve or recommend, or execute or enter into, any letter of intent, agreement in principle, merger agreement, acquisition agreement, business combination agreement, option agreement or other similar agreement (any of the preceding in this (v), an *Alternative Acquisition Agreement*) or propose publicly or agree to do any of the foregoing related to any Acquisition Proposal.

An *Acquisition Proposal* for NYSE Euronext or Deutsche Börse means any offer or proposal for, or any indication of interest in, (i) any direct or indirect acquisition or purchase of NYSE Euronext or Deutsche Börse, as applicable, or any of its Subsidiaries that constitutes 15% or more of the consolidated gross revenue or consolidated gross assets of NYSE Euronext or Deutsche Börse, as applicable, and its Subsidiaries, taken as a whole (such Subsidiary, a *Major Subsidiary*); (ii) any direct or indirect acquisition or purchase of (A) 15% or more of any class of equity securities or voting power or 15% or more of the consolidated gross assets of NYSE Euronext or Deutsche Börse, as applicable, or (B) 15% or more of any class of equity securities or voting power of any of its Major Subsidiaries; (iii) any tender offer that, if consummated, would result in any Person beneficially owning 15% or more of any class of equity securities or voting power of NYSE Euronext or Deutsche Börse, as applicable; or (iv) any merger, reorganization, share exchange, consolidation, business combination, recapitalization, liquidation, dissolution or similar transaction involving NYSE Euronext or Deutsche Börse, as applicable, or any Major Subsidiary of NYSE Euronext or Deutsche Börse, as applicable, but with the exception of intra-group reorganizations.

(b) Within two business days after receipt of an Acquisition Proposal or any request for nonpublic information or inquiry that NYSE Euronext reasonably believes could lead to an Acquisition Proposal for NYSE Euronext or that Deutsche Börse reasonably believes could lead to an Acquisition Proposal for Deutsche Börse, NYSE Euronext or Deutsche Börse, as applicable, shall provide the other party hereto with written notice of the material terms and conditions of such Acquisition Proposal, request or inquiry, and the identity of the Person making any such Acquisition Proposal, request or inquiry. Thereafter, NYSE Euronext or Deutsche Börse, as applicable, shall provide the other party hereto, as promptly as practicable, with oral and written notice setting forth all such information as is reasonably necessary to keep such other party informed in all material respects of the status and details (including material amendments or proposed material amendments) of any such Acquisition Proposal, request or inquiry.

(c) Notwithstanding anything in this Agreement to the contrary, each of NYSE Euronext and Deutsche Börse or their respective Boards shall be permitted to (A) in the case of NYSE Euronext, comply with Rule 14d-9 and Rule 14e-2 under the Exchange Act and, in the case of Deutsche Börse, comply with the Takeover Act, (B) after complying with Section 7.2(d), effect a Change in NYSE Euronext Recommendation or Change in Deutsche Börse Recommendation, or (C) (x) in the case of NYSE Euronext, prior to the receipt by NYSE Euronext of the NYSE Euronext Requisite Vote and (y) in the case of Deutsche Börse, prior to the Expiration Time, engage in any discussions or negotiations with, or provide any information or data to, any Person in response to an unsolicited bona fide written Acquisition Proposal by any such Person, if and only to the extent that, (i) in the case of clause (B) above, (x) if such Change in NYSE Euronext Recommendation or

Table of Contents

Change in Deutsche Börse Recommendation is made in response to an Acquisition Proposal for NYSE Euronext or Deutsche Börse, respectively, then such Acquisition Proposal shall have been an unsolicited bona fide written Acquisition Proposal from a third party that the Board of Directors of NYSE Euronext or the Deutsche Börse Boards, respectively, concludes in good faith (after consultation with its outside legal counsel and financial advisors) constitutes a Superior Proposal or (y) if such Change in NYSE Euronext Recommendation or Change in Deutsche Börse Recommendation is not made in response to an Acquisition Proposal for NYSE Euronext or Deutsche Börse, then the Board of Directors of NYSE Euronext or the Deutsche Börse Boards, as the case may be, after consultation with its outside legal counsel, determines in good faith that the failure to make such Change in NYSE Euronext Recommendation or Change in Deutsche Börse Recommendation, as the case may be, would be inconsistent with its fiduciary duties under applicable Law, (ii) in the case of clause (C) above, (1) its Board concludes in good faith (after consultation with its outside legal counsel and financial advisors) that there is a reasonable likelihood that such Acquisition Proposal could constitute a Superior Proposal, and that the failure to take such action would be inconsistent with its fiduciary duties under applicable Law, (2) prior to providing any information or data to any Person in connection with an Acquisition Proposal by any such Person, its Board receives from such Person an executed confidentiality agreement with confidentiality terms no less restrictive, in the aggregate, than those contained in the Confidentiality Agreement, and (3) such party is not then in material breach of its obligations under this Section 7.2 related to such Acquisition Proposal. For purposes of this Section 7.2(c), references to *Board* means, in relation to NYSE Euronext, the Board of Directors of NYSE Euronext and, in relation to Deutsche Börse, the Deutsche Börse Boards.

(d) Prior to any Change in NYSE Euronext Recommendation, NYSE Euronext shall provide Deutsche Börse with a written notice (the *NYSE Euronext Change in Recommendation Notice*) of NYSE Euronext's intention to make a Change in NYSE Euronext Recommendation at least five business days prior to making a Change in NYSE Euronext Recommendation, and, in the case of any Change in NYSE Euronext Recommendation in connection with an Acquisition Proposal for NYSE Euronext, NYSE Euronext and Deutsche Börse shall negotiate in good faith during such five Business Day period with respect to any modifications to the terms of the transaction contemplated by this Agreement that are proposed by Deutsche Börse, and NYSE Euronext shall consider any such modifications agreed by Deutsche Börse in determining whether such Acquisition Proposal still constitutes a Superior Proposal for NYSE Euronext after such five-Business Day period. Prior to any Change in Deutsche Börse Recommendation, Deutsche Börse shall provide NYSE Euronext written notice (the *Deutsche Börse Change in Recommendation Notice*) of Deutsche Börse's intention to make a Change in Deutsche Börse Recommendation at least five business days prior to making a Change in Deutsche Börse Recommendation, and, in the case of any Change in Deutsche Börse Recommendation in connection with an Acquisition Proposal for Deutsche Börse, NYSE Euronext and Deutsche Börse shall negotiate in good faith during such five Business Day period with respect to any modifications to the terms of the transaction contemplated by this Agreement that are proposed by NYSE Euronext, and Deutsche Börse shall consider any such modifications agreed by NYSE Euronext in determining whether such Acquisition Proposal still constitutes a Superior Proposal for Deutsche Börse after such five-Business Day period.

(e) In the event that a third party who has previously made an Acquisition Proposal that the Board of Directors of NYSE Euronext or either of the Deutsche Börse Boards, as the case may be, has or have determined in accordance with this Section 7.2 is a Superior Proposal subsequently modifies or amends in an adverse manner any material term of such Superior Proposal such that the Acquisition Proposal is no longer a Superior Proposal, then such Board's prior determination shall be null and void and such Board shall be subject to the provisions of Section 7.2(c) and (d) in all respects (including the obligation to deliver a new NYSE Euronext Change in Recommendation Notice or Deutsche Börse Change in Recommendation Notice, as applicable, and negotiate in good faith with Deutsche Börse or NYSE Euronext, as applicable; *provided* that references to five business days or five-business day period shall thereafter be references to three business days or three-business day period).

(f) Except as ordered by a court of competent jurisdiction or by shareholder action, each of NYSE Euronext and Deutsche Börse agrees that it will, and will cause its senior officers, directors and representatives

Table of Contents

and its Subsidiaries and such Subsidiaries' senior officers, directors and representatives to, immediately cease and cause to be terminated any activities, discussions or negotiations existing as of the date of this Agreement with any parties conducted heretofore with respect to any Acquisition Proposal. Each of NYSE Euronext and Deutsche Börse agrees that it will use reasonable best efforts to promptly inform its directors, officers, agents and representatives of the obligations undertaken in this Section 7.2. Nothing in this Section 7.2 shall (x) permit Deutsche Börse or NYSE Euronext to terminate this Agreement (except as specifically provided in Article IX hereof) or (y) affect any other obligation of Deutsche Börse or NYSE Euronext under this Agreement, except as otherwise expressly set forth in this Agreement. Unless this Agreement shall have been earlier terminated and except as ordered by a court of competent jurisdiction or by shareholder action, neither Deutsche Börse nor NYSE Euronext shall submit to the vote of its stockholders any Acquisition Proposal (other than the Offer or the Merger).

Superior Proposal means, with respect to NYSE Euronext or Deutsche Börse, a bona fide written Acquisition Proposal obtained not in breach of this Section 7.2 for or in respect of 50% or more of the outstanding NYSE Euronext Shares or Deutsche Börse Shares (as applicable) or 50% or more of the assets of NYSE Euronext and its Subsidiaries, on a consolidated basis, or Deutsche Börse and its Subsidiaries, on a consolidated basis, as applicable, in each case on terms that the Board of Directors of NYSE Euronext or the Deutsche Börse Boards, as applicable, in good faith concludes (following receipt of the advice of its financial advisors and outside legal counsel), taking into account, among other things, all legal, financial, regulatory, timing and other aspects of the Acquisition Proposal or offer and this Agreement, and taking into account any improved terms that Deutsche Börse (in the case of an Acquisition Proposal for NYSE Euronext) or NYSE Euronext (in the case of an Acquisition Proposal for Deutsche Börse) may have offered pursuant to this Section 7.2 deemed relevant by such Board or Boards (including conditions to and expected timing and risks of consummation and the ability of the party making such proposal to obtain financing for such Acquisition Proposal) are more favorable to the stockholders of NYSE Euronext or Deutsche Börse, as applicable, than the transactions contemplated by this Agreement (after taking into account any such improved terms).

Section 7.3. *Stockholders Meeting; Offer Recommendation.*

(a) NYSE Euronext will take, in accordance with applicable Law and the NYSE Euronext Organizational Documents, all action necessary to convene a meeting of its stockholders (the *NYSE Euronext Stockholders Meeting*) the day prior to the date of the scheduled Expiration Time (the *NYSE Euronext Meeting Date*), which date shall be after the Registration Statement is declared effective; *provided* that NYSE Euronext may adjourn or postpone the NYSE Euronext Stockholders Meeting for up to two weeks in the event that the acceptance period for the Offer is extended by two weeks. The Board of Directors of NYSE Euronext shall make the NYSE Euronext Recommendation and include the NYSE Euronext Recommendation in the Proxy Statement/Prospectus. In the event that on or subsequent to the date hereof and prior to the NYSE Euronext Stockholders Meeting (including any adjournment thereof), the Board of Directors of NYSE Euronext determines either to make no recommendation for the Merger, or to withdraw, modify or qualify its recommendation for the Merger in a manner that is adverse to Deutsche Börse or Holdco (such determination not to make a recommendation or any such withdrawal, modification or qualification, a *Change in NYSE Euronext Recommendation*), which Change in NYSE Euronext Recommendation shall be made only in accordance with Section 7.2(c), then Deutsche Börse shall have a right to terminate this Agreement in accordance with 9.4(a). Any Change in NYSE Euronext Recommendation shall not limit or modify the obligation of NYSE Euronext to present this Agreement for adoption at the NYSE Euronext Stockholders Meeting prior to the date of the scheduled Expiration Time, and, if this Agreement is not otherwise terminated by either NYSE Euronext or Deutsche Börse in accordance with the terms hereof, this Agreement shall be submitted to the stockholders of NYSE Euronext at the NYSE Euronext Stockholders Meeting for the purpose of voting on adopting this Agreement.

(b) Each of the Deutsche Börse Boards has determined that, subject to its duties under applicable Law, it will recommend, in its statement on the Offer under Section 27 of the Takeover Act, that the Deutsche Börse shareholders accept the Offer and tender their Deutsche Börse Shares in the Offer. In the event that on or

Table of Contents

after the date hereof and prior to the Expiration Time, either of the Deutsche Börse Boards fails to recommend, in its statement on the Offer under Section 27 of the Takeover Act, that the Deutsche Börse shareholders accept the Offer and tender their Deutsche Börse Shares in the Offer, or, after such recommendation, withdraws, modifies or qualifies such recommendation in a manner that is adverse to NYSE Euronext or Holdco (such failure to make such recommendation or any such withdrawal, modification or qualification, a *Change in Deutsche Börse Recommendation*), which Change in Deutsche Börse Recommendation shall be made only in accordance with Section 7.2(c), then NYSE Euronext shall have a right to terminate this Agreement in accordance with 9.3(a). Any Change in Deutsche Börse Recommendation shall not limit or modify the obligation of Deutsche Börse's representative to Holdco Board to consent, to Holdco's commencement, continuation and completion of the Offer in accordance with the terms of this Agreement and, if this Agreement is not otherwise terminated by either NYSE Euronext or Deutsche Börse in accordance with the terms hereof, Holdco shall be obligated to commence, continue and complete the Offer in accordance with the terms of this Agreement (and Deutsche Börse agrees to consent to such actions by Holdco).

Section 7.4. *Reasonable Best Efforts; Regulatory Filings and Other Actions.*

(a) *Reasonable Best Efforts; Regulatory Filings.* Holdco, NYSE Euronext and Deutsche Börse shall cooperate with each other and use (and shall cause their respective Subsidiaries to use) their respective reasonable best efforts to take or cause to be taken all actions, and do or cause to be done all things, necessary, proper or advisable on its part under this Agreement and applicable Laws to consummate and make effective the Offer, the Merger and the other transactions contemplated by this Agreement (including the Holdco Articles of Association or alternative changes to the market or regulatory structure as may be required to consummate and make effective the Offer and the Merger) as soon as practicable, including preparing and filing as promptly as practicable all documentation to effect all necessary notices, reports and other filings and to obtain as promptly as practicable all consents, registrations, approvals, authorizations and other Permits (including all approvals and consents to be obtained under the Competition Approvals, CFIUS under the Exon-Florio Amendment, and from the SEC and the Regulatory Authorities) (collectively, *Consents*) necessary or advisable to be obtained from any third party and/or any Governmental Entity or Self-Regulatory Organization (if any) in order to consummate the transactions contemplated by this Agreement; it being understood that, to the extent legally by applicable Law, neither of the Deutsche Börse Boards nor the NYSE Euronext Board shall take any action that could prevent the consummation of the Offer or the Merger, except as otherwise permitted under this Agreement. Nothing in this Section 7.4 shall require, or be construed to require, Holdco, NYSE Euronext or Deutsche Börse to (A) proffer to, or agree to, sell or hold separate and agree to sell, or take any other action with respect to, before or after the Effective Time, any assets, businesses, or interests in any assets or businesses of Holdco, NYSE Euronext, Deutsche Börse or any of their respective Subsidiaries or affiliates (or to consent to any sale, or agreement to sell, by Holdco, NYSE Euronext or Deutsche Börse or any of their respective Subsidiaries or affiliates, as the case may be, of any of its assets or businesses), if such action would, individually or in the aggregate, reasonably be expected to result in a Substantial Detriment to NYSE Euronext, Deutsche Börse or Holdco or (B) agree to any changes or restriction in the market or regulatory structure of Holdco, NYSE Euronext or Deutsche Börse or any of their respective Subsidiaries or affiliates or in any of their respective operations of any such assets or businesses, if such changes or restrictions would, individually or in the aggregate, reasonably be expected to result in a Substantial Detriment to NYSE Euronext, Deutsche Börse or Holdco. Subject to applicable Law and the instructions of any Governmental Entity, Holdco, NYSE Euronext and Deutsche Börse shall keep each other apprised of the status of matters relating to the completion of the transactions contemplated by this Agreement, including promptly furnishing the other with copies of notices or other communications received or provided by Holdco, NYSE Euronext or Deutsche Börse, as the case may be, or any of their respective Subsidiaries, from or to any Governmental Entity with respect to such transactions.

Substantial Detriment means, with respect to any Person, a material adverse effect on (A) the business, continuing results of operations or financial condition of such Person and its Subsidiaries, taken as a whole or (B) the authority or ability of the regulated securities exchanges of Holdco, NYSE Euronext and Deutsche Börse (and their respective Subsidiaries), taken as a whole, to operate

Table of Contents

consistently with past practice or as reasonably expected to be operated after the Effective Time, including with respect to operating the markets that they currently operate and the amounts and types of products listed, traded or otherwise made available in such markets. It is understood that a Substantial Detriment shall be deemed to exist with respect to any action requiring Holdco, NYSE Euronext or Deutsche Börse, before or after the Effective Time, (i) to sell, hold separate or otherwise dispose of, or to agree to sell, hold separate or otherwise dispose of, assets, businesses or subsidiaries, or (ii) to take or refrain from taking, or to agree to take or to refrain from taking, any actions that, in each of cases (i) and (ii), would reasonably be expected, individually or in the aggregate, to materially impair the value of the combined businesses of NYSE Euronext and Deutsche Börse after the Effective Time (taking into account the parties' contemplated plans for combining such businesses after the Effective Time and any value which is reasonably expected to be realized in connection with such combination or integration) such that either of the parties would not reasonably have decided to enter into the transaction in light of the anticipated economics of the transaction.

(b) *Market and Regulatory Structure Matters.* Unless otherwise required by fiduciary obligations under applicable Law, the Board of Directors of NYSE Euronext and the Deutsche Börse Boards shall each consider and make such determination with respect to the other party, its Related Persons (as defined in the Certificate of Incorporation of NYSE Euronext) and the Persons of which Deutsche Börse and NYSE Euronext are Related Persons, as required by any Governmental Entity and, in the case of NYSE Euronext, any Self-Regulatory Organization whose consent is required for the consummation of the Merger. NYSE Euronext and its Board of Directors and Deutsche Börse and the Deutsche Börse Boards shall use their respective reasonable best efforts to provide such information to the SEC, the Regulatory Authorities and any other Governmental Entity as is required with respect to the consideration by the SEC, the Regulatory Authorities and any other Governmental Entity of the amendments to the articles of incorporation of Holdco, NYSE Euronext and/or Deutsche Börse or alternative changes to market or regulatory structure as may be required to consummate and make effective the Merger and the completion of the Offer and the other transactions contemplated by this Agreement.

(c) *Prior Review of Certain Information.* Subject to applicable Laws relating to the sharing of information, NYSE Euronext and Deutsche Börse shall have the right to review in advance, and to the extent practicable, each will consult the other on any filing made with, or written materials submitted to, any third party and/or any Governmental Entity and Self-Regulatory Organization (if applicable), in connection with the Merger and the Offer and the other transactions contemplated by this Agreement (including the Offer Documents). NYSE Euronext and Deutsche Börse shall provide the other party with the opportunity to participate in any material meeting with any Governmental Entity in respect of any filings, investigation or other inquiry in connection with the transactions contemplated hereby. NYSE Euronext and Deutsche Börse shall keep each other apprised of all material discussions with any Governmental Entity in respect of any filings, investigation or other inquiry in connection with the transactions contemplated hereby.

(d) *Furnishing of Information.* NYSE Euronext and Deutsche Börse each shall, upon request by the other and subject to applicable Laws relating to the sharing of information, furnish the other with all information concerning itself, its Subsidiaries, affiliates, directors, officers and stockholders and such other matters as may be reasonably necessary or advisable in connection with the Offer Documents or any other statement, filing, notice or application made by or on behalf of Holdco, NYSE Euronext, Deutsche Börse or any of their respective Subsidiaries to any third party and/or any Governmental Entity in connection with the Merger and the completion of the Offer and the other transactions contemplated by this Agreement.

(e) *Status Updates and Notice.* Subject to applicable Law and the instructions of any Governmental Entity or any Self-Regulatory Organization (if applicable), NYSE Euronext and Deutsche Börse each shall keep the other apprised of the status of matters relating to completion of the transactions contemplated hereby, including promptly furnishing the other with copies of notices or other communications received by NYSE Euronext or Deutsche Börse, as the case may be, or any of their respective Subsidiaries, from any third party and/or any Governmental Entity and Self-Regulatory Organization (if applicable), with respect to such

Table of Contents

transactions. NYSE Euronext and Deutsche Börse each shall give prompt notice to the other of any change that is reasonably expected to have a Material Adverse Effect on NYSE Euronext or a Material Adverse Effect on Deutsche Börse, respectively, or to result in a Substantial Detriment to NYSE Euronext or Deutsche Börse.

Section 7.5. *Access.* Subject to applicable Law relating to the sharing of information, upon reasonable notice, and except as may otherwise be required by applicable Law, NYSE Euronext and Deutsche Börse each shall (and shall cause its Subsidiaries to) afford the other's officers, employees, counsel, accountants, consultants and other authorized representatives (*Representatives*) reasonable access, during normal business hours throughout the period prior to the Effective Time, to its properties, books, contracts and records and, during such period, each shall (and shall cause its Subsidiaries to) furnish promptly to the other all information concerning its business, properties and personnel as may reasonably be requested; *provided* that no investigation pursuant to this Section 7.5 shall affect or be deemed to modify any representation or warranty made by NYSE Euronext or Deutsche Börse; *provided, further*, that the foregoing shall not require NYSE Euronext or Deutsche Börse (i) to permit any inspection, or to disclose any information, that in the reasonable judgment of NYSE Euronext or Deutsche Börse, as the case may be, would result in the disclosure of any trade secrets of third parties or violate any of its obligations with respect to confidentiality if NYSE Euronext or Deutsche Börse, as the case may be, shall have used reasonable best efforts to obtain the consent of such third party to such inspection or disclosure, (ii) to disclose any privileged information of NYSE Euronext or Deutsche Börse, as the case may be, or any of its Subsidiaries, (iii) in the case of NYSE Euronext, (x) to permit any inspection, or to disclose any information relating to any regulatory enforcement, investigations or inquiries conducted by NYSE Euronext or any of its Subsidiaries or any other regulatory activities conducted by NYSE Euronext or any of its Subsidiaries that the Chief Executive Officer of NYSE Euronext Regulation, Inc. determines, in his or her sole discretion, is confidential and inappropriate to disclose to Deutsche Börse, or (y) to permit any inspection, or to disclose any information relating to any regulatory enforcement, investigations or inquiries conducted by NYSE Euronext Stock Exchange LLC or NYSE Euronext Arca, Inc. or any other regulatory activities that the Chief Executive Officer of NYSE Euronext Regulation, Inc. determines, in his or her sole discretion, is confidential and inappropriate to disclose to Deutsche Börse. (iv) in the case of Deutsche Börse, (x) to permit any inspection, or to disclose any information relating to any regulatory enforcement, investigations or inquiries or any other regulatory activities conducted by Frankfurt Stock Exchange or any entity which is a Self-Regulatory Organization and the direct or indirect shareholder of which is Deutsche Börse (together the *Self-Regulated Deutsche Börse Entities*), if the competent body of the relevant Self-Regulated Deutsche Börse Entity determines, in his or her sole discretion, that such information is confidential and inappropriate to disclose to NYSE Euronext, or (y) to permit any inspection, or to disclose any information relating to any regulatory enforcement, investigations or inquiries conducted by the BaFin or the Hessian Ministry for the Economy (*Hessisches Ministerium für Wirtschaft*) or any other competent public regulatory body relating to Frankfurt Stock Exchange or any entity the direct or indirect shareholder of which is Deutsche Börse, if the competent body of the relevant entity determines, in his or her sole discretion, that such information is confidential and inappropriate to disclose to NYSE Euronext. All requests for information made pursuant to this Section 7.5 shall be directed to an executive officer of NYSE Euronext or Deutsche Börse, as the case may be, or such Person as may be designated by either of their executive officers, as the case may be, with a copy to the General Counsel of such party. All such information shall be governed by the terms of the Confidentiality Agreement.

Section 7.6. *Exchange Listing.* NYSE Euronext and Deutsche Börse shall use their respective reasonable best efforts to cause the Holdco Shares to be issued in the Offer and the Merger pursuant to this Agreement and the Holdco Shares to be reserved for issuance upon exercise of the Holdco Stock Options to be approved for listing on the New York Stock Exchange, the Frankfurt Stock Exchange and Euronext Paris, subject to official notice of issuance, prior to the Closing Date.

Section 7.7. *Publicity.* The initial press release regarding this Agreement and the Offer and the Merger shall be a joint press release, and NYSE Euronext and Deutsche Börse shall use reasonable best efforts to develop a joint communications plan and each party shall use reasonable best efforts to ensure that all press releases and other public statements with respect to the transactions contemplated hereby, to the extent they have

Table of Contents

not been previously issued or disclosed, shall be consistent with such joint communications plan. Unless otherwise required by applicable Law or by obligations pursuant to any listing agreement with or rules of any securities exchange, each party shall consult with each other before issuing any press release or public statement with respect to the transactions contemplated by this Agreement and shall not issue any such press release or public statement prior to such consultation. In addition to the foregoing, except to the extent disclosed in or consistent with the Offer Documents, neither NYSE Euronext nor Deutsche Börse shall issue any press release or otherwise make any public statement or disclosure concerning the other party or the other party's business, financial condition or results of operations, to the extent not previously disclosed, without the consent of the other party, which consent shall not be unreasonably withheld or delayed.

Section 7.8. *Certain Tax Matters.* Neither Holdco, Deutsche Börse, NYSE Euronext nor Merger Sub shall take any action or knowingly fail to take any action, which action or failure to act would prevent or impede, or would be reasonably likely to prevent or impede, (i) the Merger from qualifying as a reorganization within the meaning of Section 368(a) of the Code and/or the Merger and the Offer, taken together, from qualifying as an exchange within the meaning of Section 351(a) of the Code, (ii) the Offer and/or the Merger and the Offer, taken together, from qualifying as a transaction described in Section 351(a) of the Code, or (iii) the receipt by NYSE Euronext or Deutsche Börse of the IRS private letter ruling or rulings contemplated by paragraph II.(b) and paragraph III.(b) of *Annex II*.

Section 7.9. *Expenses.* Subject to Sections 7.2 and 9.5, whether or not the Offer or the Merger is consummated, all Expenses incurred in connection with this Agreement and the transactions contemplated hereby shall be paid by the party incurring such Expenses; *provided* that (i) the registration and filing fees and the printing and mailing costs of the F-4 Prospectuses, Registration Statement, the Offer Documents and the Admission Prospectuses and the tombstone advertisement for the Offer, (ii) any required filing fees with any Governmental Entity or Self-Regulatory Organization in connection with the transactions contemplated by this Agreement, in each of cases (i) and (ii), shall be shared equally by NYSE Euronext and Deutsche Börse unless prohibited by applicable Law. In case of a termination of this Agreement by either party, any Expenses incurred by Holdco and/or its affiliates, shall be borne equally by NYSE Euronext and Deutsche Börse as joint and several debtors and Holdco and/or its affiliates shall be indemnified by NYSE Euronext and Deutsche Börse; *provided* that NYSE Euronext and Deutsche Börse shall not be obligated to make such indemnification if any designee of Deutsche Börse or NYSE Euronext, respectively, to the board or management of Holdco and/or its affiliates shall have caused Holdco to have breached its obligations under this Agreement. As used in this Agreement, *Expenses* includes all out-of-pocket expenses (including all fees and expenses of counsel, accountants, investment bankers, experts and consultants to a party hereto and its affiliates) incurred by a party or on its behalf in connection with or related to the authorization, preparation, negotiation, execution and performance of this Agreement and the transactions contemplated hereby, including the preparation, printing, filing and mailing of the Offer Documents and the solicitation of stockholder approvals and tenders and all other matters related to the transactions contemplated hereby and thereby, including in the case of Holdco any Expenses incurred by it and/or its affiliates in connection with the incorporation and financing of Holdco prior to the signing hereof.

Section 7.10. *Indemnification; Directors and Officers Insurance.*

(a) From and after the Effective Time, Holdco shall (i) indemnify and hold harmless, and provide advancement of expenses to, all past and present directors, officers and employees of NYSE Euronext and its Subsidiaries (in all of their capacities) (A) to the same extent such persons are indemnified or have the right to advancement of expenses as of the date of this Agreement by NYSE Euronext pursuant to the NYSE Euronext Organizational Documents, NYSE Euronext Subsidiary Organizational Documents and indemnification agreements, if any, in existence on the date hereof with any directors, officers and employees of NYSE Euronext and its Subsidiaries and (B) without limitation to clause (A), to the fullest extent permitted by law, in each case for acts or omissions occurring at or prior to the Effective Time (including for acts or omissions occurring in connection with the approval of this Agreement and the consummation of the transactions contemplated hereby), (ii) include and cause to be maintained in effect in Holdco's (or any successor's) certificate of incorporation and

Table of Contents

bylaws after the Effective Time, provisions regarding elimination of liability of directors, indemnification of officers, directors and employees and advancement of expenses which are, in the aggregate, no less advantageous to the intended beneficiaries than the corresponding provisions contained in the current certificate of incorporation and constitution of NYSE Euronext and (iii) cause to be maintained for a period of six years after the Effective Time the current policies of directors and officers liability insurance and fiduciary liability insurance maintained by NYSE Euronext (provided that Holdco (or any successor) may substitute therefor one or more policies of at least the same coverage and amounts containing terms and conditions which are, in the aggregate, no less advantageous to the insured) with respect to claims arising from facts or events that occurred on or before the Effective Time; *provided, however*, that in no event shall Holdco be required to expend in any one year an amount in excess of 250% of the annual premiums (such 250% amount, the *Maximum NYSE Euronext Insurance Amount*) currently paid by NYSE Euronext for such insurance; and, *provided, further*, that if the annual premiums of such insurance coverage exceed such amount, Holdco shall be obligated to obtain a policy with the greatest coverage available for a cost not exceeding such amount. Holdco may, in lieu of maintaining the insurance described in clause (iii) of this Section 7.10(a), purchase a six-year tail prepaid policy on terms and conditions no less advantageous to the insured than the current directors and officers liability insurance and fiduciary liability insurance maintained by NYSE Euronext; *provided* that the amount paid by Holdco shall not exceed six times the Maximum NYSE Euronext Insurance Amount. The obligations of Holdco under this Section 7.10(a) shall not be terminated or modified in such a manner as to adversely affect any indemnitee to whom this Section 7.10(a) applies without the consent of such affected indemnitee (it being expressly agreed that the indemnitees to whom this Section 7.10(a) applies shall be third-party beneficiaries of this Section 7.10(a)).

(b) From and after the Effective Time, Holdco shall (i) indemnify and hold harmless, and provide advancement of expenses to, all past and present directors, officers and employees of Deutsche Börse and its Subsidiaries (in all of their capacities) (A) to the same extent such persons are indemnified or have the right to advancement of expenses as of the date of this Agreement by Deutsche Börse pursuant to the Deutsche Börse Organizational Documents, Deutsche Börse Subsidiary Organizational Documents and indemnification agreements, if any, in existence on the date hereof with any directors, officers and employees of Deutsche Börse and its Subsidiaries and (B) without limitation to clause (A), to the fullest extent permitted by law, in each case for acts or omissions occurring at or prior to the Effective Time (including for acts or omissions occurring in connection with the approval of this Agreement and the consummation of the transactions contemplated hereby), (ii) include and cause to be maintained in effect in Holdco's (or any successor's) certificate of incorporation and bylaws after the Effective Time, provisions regarding elimination of liability of directors, indemnification of officers, directors and employees and advancement of expenses which are, in the aggregate, no less advantageous to the intended beneficiaries than the corresponding provisions contained in the current certificate of incorporation and bylaws of Deutsche Börse and (iii) cause to be maintained for a period of six years after the Effective Time the current policies of directors and officers liability insurance and fiduciary liability insurance maintained by Deutsche Börse (provided that Holdco (or any successor) may substitute therefor one or more policies of at least the same coverage and amounts containing terms and conditions which are, in the aggregate, no less advantageous to the insured) with respect to claims arising from facts or events that occurred on or before the Effective Time; *provided, however*, that in no event shall Holdco be required to expend in any one year an amount in excess of 250% of the annual premiums (such 250% amount, the *Maximum Deutsche Börse Insurance Amount*) currently paid by Deutsche Börse for such insurance (which annual premiums are set forth in Section 7.10(b) of the Deutsche Börse Disclosure Letter); and, *provided, further*, that if the annual premiums of such insurance coverage exceed such amount, Holdco shall be obligated to obtain a policy with the greatest coverage available for a cost not exceeding such amount. Holdco may, in lieu of maintaining the insurance described in clause (iii) of Section 7.10(b), purchase a six-year tail prepaid policy on terms and conditions no less advantageous to the insured than the current directors and officers liability insurance and fiduciary liability insurance maintained by Deutsche Börse; *provided* that the amount paid by Holdco shall not exceed six times the Maximum Deutsche Börse Insurance Amount. The obligations of Holdco under this Section 7.10(b) shall not be terminated or modified in such a manner as to adversely affect any indemnitee to whom this Section 7.10(b)

Table of Contents

applies without the consent of such affected indemnitee (it being expressly agreed that the indemnitees to whom this Section 7.10(b) applies shall be third party beneficiaries of this Section 7.10(b)).

Section 7.11. *Other Actions by NYSE Euronext and Deutsche Börse.*

(a) *Section 16 Matters.* Prior to the Effective Time, NYSE Euronext and Deutsche Börse shall take all such steps as may be required to cause any dispositions of NYSE Euronext Shares (including derivative securities with respect to NYSE Euronext Shares) or acquisitions of Holdco Shares (including derivative securities with respect to Holdco Shares) resulting from the transactions contemplated by this Agreement by each individual who is subject to the reporting requirements of Section 16(a) of the Exchange Act with respect to NYSE Euronext to be exempt under Rule 16b-3 promulgated under the Exchange Act.

(b) *Advice of Changes.* Until the earlier of the Effective Time and the termination of this Agreement in accordance with its terms, (i) NYSE Euronext shall promptly advise Deutsche Börse of any change or event that it believes would or would reasonably be likely to cause or constitute a Material Adverse Effect on NYSE Euronext; and (ii) Deutsche Börse shall promptly advise NYSE Euronext of any change or event that it believes would or would reasonably be likely to cause or constitute a Material Adverse Effect on Deutsche Börse; *provided* that failure to so promptly advise shall itself not constitute a material breach or failure of a condition unless the underlying change or event shall also constitute a material breach or failure.

(c) *Agreement to Tender.* Deutsche Börse agrees that as promptly as practicable after the commencement of the Offer, and in any event no later than 10 business days following the recommendation of the Offer by either of the Deutsche Börse Boards, it shall tender into the Offer all of the Deutsche Börse Treasury Shares (and any Deutsche Börse Shares acquired after the date hereof) in accordance with the terms of the Tender Offer Prospectus, free and clear of all liens and encumbrances. Deutsche Börse agrees that once the Deutsche Börse Treasury Shares are tendered into the Offer, it shall not withdraw the tender of such Deutsche Börse Treasury Shares unless the Offer shall have been terminated or shall have expired, in each case, in accordance with the terms of the Tender Offer Prospectus or in the case of a Change in Recommendation.

Section 7.12. *Holdco Capital Increase.* Prior to the Effective Time, Holdco shall take or cause to be taken all such steps as may be required for Holdco to issue the Holdco Shares, Holdco Stock Options (and Holdco Shares underlying such options) and the Holdco Stock-Based Awards (and Holdco Shares underlying such awards) in respect of the Merger and the Offer (the *Holdco Capital Increase*), including the due preparation of (i) shareholders resolutions, (ii) instruments of issuance and (iii) descriptions of contribution and receipt of accountants' statements pursuant to section 2:94b of the Dutch Civil Code confirming the valuation of the in-kind capital raise.

Section 7.13. *Employee Matters*

(a) For the one-year period beginning on the Effective Time (the *Benefit Continuation Period*), Holdco shall provide or cause to be provided to each individual who is employed as of the Effective Time by NYSE Euronext and its Subsidiaries or by Deutsche Börse and its Subsidiaries and who remains employed by NYSE Euronext and its Subsidiaries or by Deutsche Börse and its Subsidiaries (such employees collectively, the *Affected Employees*) (i) base salary in an amount no less than the base salary provided to the Affected Employee immediately prior to the Effective Time, (ii) an annual bonus opportunity that is no less favorable than the annual bonus opportunity provided to the Affected Employee immediately prior to the Effective Time, and (iii) other compensation opportunities and employee benefits that are no less favorable in the aggregate than those provided to the Affected Employee immediately prior to the Effective Time. Without limiting the generality of the foregoing, during the Benefit Continuation Period, (x) Holdco shall provide to each Affected Employee who suffers a termination of employment by Holdco and its Subsidiaries severance benefits in amounts and on terms and conditions no less favorable in the aggregate to such Affected Employee than such Affected Employee would have received under the severance plans, programs, policies and arrangements applicable to such Affected Employee as of the date hereof, and (y) defined contribution retirement plan benefits provided to Affected Employees no less favorable to Affected Employees than such benefits on the date hereof.

Table of Contents

Notwithstanding the foregoing, the provisions of this Section 7.13(a) shall not apply with respect to Affected Employees whose employment is governed by a collective bargaining or similar agreement.

(b) Prior to the end of the Benefit Continuation Period, Holdco shall review, evaluate and analyze NYSE Euronext Benefit Plans and Deutsche Börse Benefit Plans with a view towards developing appropriate new Benefit Plans for Affected Employees. It is the intention of Deutsche Börse and NYSE Euronext, to the extent permitted by applicable Laws, to develop new Benefit Plans, as soon as reasonably practicable after the Effective Time, which, among other things, (A) treat similarly situated Affected Employees on a substantially equivalent basis, taking into account all relevant factors, including duties, geographic location, tenure, qualifications, and abilities, and (B) do not discriminate between Affected Employees who were covered by NYSE Euronext Benefit Plans, on the one hand, and those covered by Deutsche Börse Benefit Plans, on the other, at the Effective Time.

(c) With respect to any Benefit Plans in which any Affected Employees first become eligible to participate on or after the Effective Time, and in which such Affected Employees did not participate prior to the Effective Time (the *New Plans*), Holdco shall, or shall cause its Subsidiaries (subject to applicable Law and applicable tax qualification requirements) to: (i) waive all pre-existing conditions, exclusions and waiting periods with respect to participation and coverage requirements applicable to the Affected Employees and their eligible dependents under any New Plans in which such Affected Employees may be eligible to participate after the Effective Time, except to the extent such pre-existing conditions, exclusions or waiting periods would apply under the analogous NYSE Euronext Benefit Plan or Deutsche Börse Benefit Plan, as the case may be; (ii) provide each Affected Employee and his or her eligible dependents with credit for any co-payments and deductibles paid prior to the Effective Time under an NYSE Euronext Benefit Plan or Deutsche Börse Benefit Plan (to the same extent that such credit was given under the analogous NYSE Euronext Benefit Plan or Deutsche Börse Benefit Plan, as applicable, prior to the Effective Time) in satisfying any applicable deductible or out-of-pocket requirements under any New Plans in which such Affected Employee may be eligible to participate after the Effective Time for the same plan year; and (iii) recognize all service of the Affected Employees with NYSE Euronext and Deutsche Börse and their respective affiliates for all purposes (including, purposes of eligibility to participate, vesting credit, entitlement to benefits) in any New Plan in which such employees may be eligible to participate after the Effective Time, including any severance plan, to the extent such service is taken into account under the applicable New Plan (to the extent recognized under the corresponding NYSE Euronext Benefit Plan or Deutsche Börse Benefit Plan); provided that the foregoing shall not apply for purposes of benefit accrual under final average pay defined benefit plans or to the extent it would result in duplication of benefits.

(d) Subject to Section 7.13(a), no provision of this Section 7.13 shall be construed as a limitation on the right of Holdco and its Subsidiaries to amend or terminate any specific NYSE Euronext Benefit Plan or Deutsche Börse Benefit Plan that NYSE Euronext or Deutsche Börse would otherwise have under the terms of such NYSE Euronext Benefit Plan or Deutsche Börse Benefit Plan, or shall any provision of this Section 7.13 be construed to require the continuation of the employment of any particular Affected Employee. The provisions of this Section 7.13 are solely for the benefit of the parties to this Agreement, and no current or former director, officer, employee or independent contractor or any other person shall be a third-party beneficiary of this Section 7.13 of this Agreement, and nothing herein shall be construed as an amendment to any Deutsche Börse Benefit Plan, NYSE Euronext Benefit Plan or other compensation or benefit plan or arrangement for any purpose.

(e) NYSE Euronext and Deutsche Börse shall consult with each other in a good faith and in a reasonably timely manner in advance of any material communications with Affected Employees regarding the impact of the transactions contemplated under this Agreement on the NYSE Euronext Benefit Plans, Deutsche Börse Benefit Plans or the New Plans, as the case may be.

Table of Contents

ARTICLE VIII

CONDITIONS TO THE MERGER

Section 8.1. *Condition to NYSE Euronext's Obligation to Effect the Merger.* The obligation of NYSE Euronext to consummate the Merger is subject to the prior occurrence of the Acceptance Time.

ARTICLE IX

TERMINATION

Section 9.1. *Termination by Mutual Consent.* This Agreement may be terminated by mutual written consent of NYSE Euronext and Deutsche Börse at any time prior to the Effective Time.

Section 9.2. *Termination by Either NYSE Euronext or Deutsche Börse.* This Agreement may be terminated by either NYSE Euronext or Deutsche Börse at any time prior to the Effective Time:

- (a) if the Effective Time shall not have occurred by December 31, 2011 (such date, as it may be extended under the proviso below, the *Termination Date*), whether such date is before or after the date of the receipt of the NYSE Euronext Requisite Vote; *provided, however*, that each of NYSE Euronext and Deutsche Börse shall have the right, in its sole discretion, to extend the Termination Date to March 31, 2012, if the only conditions set forth in *Annex II* that have not been satisfied (other than those conditions that NYSE Euronext and Deutsche Börse have mutually agreed to waive, if and to the extent that such waiver is permitted by applicable Law) are the conditions set forth in paragraphs I.(b), I.(c), I.(e), I.(f) and/or I.(g) of *Annex II*; *provided, further*, that neither (x) the right to extend the Termination Date nor (y) the right to terminate this Agreement pursuant to this clause 9.2(a) may be exercised by any party whose failure or whose Subsidiary's failure to perform any material covenant or obligation under this Agreement has been the cause of, or resulted in, the failure of any such closing condition to be satisfied on or before the Termination Date;
- (b) if the NYSE Euronext Requisite Vote shall not have been obtained after a vote of the NYSE Euronext stockholders has been taken and completed at the NYSE Euronext Stockholders Meeting or at any adjournment or postponement thereof;
- (c) if the acceptance period for the Offer shall have expired in accordance with the terms of this Agreement, and the Minimum Condition shall have been neither satisfied nor waived; or
- (d) if any Governmental Entity or Self-Regulatory Organization (if applicable), which must grant a regulatory approval required under paragraph I.(c) or I.(g) of Annex II, has denied such grant in writing and such denial has become final, binding and non-appealable, or any Order permanently restraining, enjoining or otherwise prohibiting consummation of the Offer or the Merger shall become final and non-appealable; *provided* that the party seeking to terminate this Agreement pursuant to this Section 9.2(d) shall have used its reasonable best efforts to (x) prevent the denial of such grant and/or (y) prevent the entry of and to remove such Order, as applicable.

Section 9.3. *Termination by NYSE Euronext.* This Agreement may be terminated by NYSE Euronext at any time prior to the Effective Time:

- (a) if either Deutsche Börse Board shall have effected a Change in Deutsche Börse Recommendation;
- (b) if (i) any representation or warranty of Deutsche Börse set forth in Sections 6.2(b) (Capitalization) or 6.2(c) (Corporate Authority) of this Agreement shall fail to be accurate in all material respects as of the date of this Agreement or as of any subsequent date as if made as of such subsequent date (unless such

Table of Contents

representation or warranty expressly speaks as of an earlier date, in which case as of such earlier date) or (ii) any of the other representations or warranties of Deutsche Börse set forth in the Agreement (reading such representations and warranties without regard to any materiality or Material Adverse Effect qualifications contained therein) shall fail to be accurate in all material respects as of the date of this Agreement or as of any subsequent date as if made as of such subsequent date (unless such representation or warranty expressly speaks as of an earlier date, in which case as of such earlier date), except, in the case of this clause (ii), where the failure to be so true and correct, individually or in the aggregate, has not had and would not reasonably be expected to have a Material Adverse Effect on Deutsche Börse; *provided* that, in each of the cases set forth in clauses (i) and (ii), NYSE Euronext shall have the right to terminate this Agreement pursuant thereto only if failure to be true (i) is not curable or (ii) if curable, is not cured prior to the earlier of (A) the business day prior to the Termination Date or (B) the date that is 60 days after the date that written notice thereof is given by NYSE Euronext to Deutsche Börse; or

(c) if Deutsche Börse shall have failed to perform in any material respect any of its covenants or agreements contained in this Agreement required to be performed by Deutsche Börse, and such breach (i) is not curable or (ii) if curable, is not cured prior to the earlier of (A) the business day prior to the Termination Date or (B) the date that is 60 days after the date that written notice thereof is given by NYSE Euronext to Deutsche Börse.

Section 9.4. *Termination by Deutsche Börse.* This Agreement may be terminated by Deutsche Börse at any time prior to the Effective Time:

(a) if the Board of Directors of NYSE Euronext shall have effected a Change in NYSE Euronext Recommendation;

(b) if (i) any representation or warranty of NYSE Euronext set forth in Sections 6.1(b) (Capitalization) or 6.1(c) (Corporate Authority) of this Agreement shall fail to be accurate in all material respects as of the date of this Agreement or as of any subsequent date as if made as of such subsequent date (unless such representation or warranty expressly speaks as of an earlier date, in which case as of such earlier date) or (ii) any of the other representations or warranties of NYSE Euronext set forth in the Agreement (reading such representations and warranties without regard to any materiality or Material Adverse Effect qualifications contained therein) shall fail to be accurate in all material respects as of the date of this Agreement or as of any subsequent date as if made as of such subsequent date (unless such representation or warranty expressly speaks as of an earlier date, in which case as of such earlier date), except, in the case of this clause (ii), where the failure to be so true and correct, individually or in the aggregate, has not had and would not reasonably be expected to have a Material Adverse Effect on NYSE Euronext; *provided* that, in each of the cases set forth in clauses (i) and (ii), Deutsche Börse shall have the right to terminate this Agreement pursuant thereto only if failure to be true (i) is not curable or (ii) if curable, is not cured prior to the earlier of (A) the business day prior to the Termination Date or (B) the date that is 60 days after the date that written notice thereof is given by Deutsche Börse to NYSE Euronext; or

(c) if NYSE Euronext shall have failed to perform in any material respect any of its covenants or agreements contained in this Agreement required to be performed by NYSE Euronext, and such breach (i) is not curable or (ii) if curable, is not cured prior to the earlier of (A) the business day prior to the Termination Date or (B) the date that is 60 days after the date that written notice thereof is given by Deutsche Börse to NYSE Euronext.

Section 9.5. *Effect of Termination and Abandonment.*

(a) *Effect of Termination and Abandonment.* In the event of termination of this Agreement pursuant to this Article IX, this Agreement (other than as set forth in this Section 9.5 and Section 10.1) shall become void and of no effect with no liability on the part of any party hereto (or of any of its directors, officers,

Table of Contents

employees, agents, legal and financial advisors or other representatives); *provided, however*, that, except as otherwise provided herein, no such termination shall relieve any party hereto of any liability or damages resulting from any fraud or willful and material breach of this Agreement; *provided, further*, that the parties shall cooperate with each other in connection with the withdrawal of any applications to or termination of proceedings before any Governmental Entity or Self-Regulatory Organization (if applicable) in connection with the transactions contemplated by this Agreement. For purposes of this Agreement, *willful and material breach* shall mean a material breach that is a consequence of an act undertaken by the breaching party with the knowledge that the taking of such act would, or would reasonably be expected to, cause a breach of this Agreement.

(b) Termination Fee Payable by NYSE Euronext

(i) In the event that (A) an Acquisition Proposal for NYSE Euronext shall have been publicly announced or made publicly known or otherwise communicated or made known to management or the Board of Directors of NYSE Euronext (or any third party shall have publicly announced, communicated or made known a bona fide intention, whether or not conditional, to make a proposal with respect to an Acquisition Proposal) at any time after the date of this Agreement and prior to the date of the NYSE Euronext Stockholders Meeting and (B) this Agreement is terminated by Deutsche Börse pursuant to Section 9.4(a) or is terminated by either NYSE Euronext or Deutsche Börse pursuant to Section 9.2(b) (and, at the time of such termination pursuant to Section 9.2(b), Deutsche Börse had a right to terminate this Agreement pursuant to Section 9.4(a)), then NYSE Euronext shall, prior to such termination, pay or cause to be paid to Deutsche Börse an amount equal to 250,000,000 (the *NYSE Euronext Termination Payment*) by wire transfer of same day funds.

(ii) In the event that (A) an Acquisition Proposal for NYSE Euronext shall have been publicly announced or made publicly known, (B) thereafter, this Agreement is terminated by NYSE Euronext or Deutsche Börse pursuant to Section 9.2(b), and (C) within 9 months of such termination pursuant to Section 9.2(b), NYSE Euronext or any of its Subsidiaries executes any Alternative Acquisition Agreement with respect to, or consummates, or approves or recommends to the NYSE Euronext stockholders to accept, any Acquisition Proposal for NYSE Euronext (it being understood that, for purposes of this clause (C), the term *Acquisition Proposal* shall have the meaning assigned to such term in Section 7.2(a) except that each reference to 15% or more in the definition of *Acquisition Proposal* and *Major Subsidiary* shall be deemed to be a reference to 40% or more), then NYSE Euronext shall, prior to the completion of such acquisition or transaction (or, if earlier, the entry into such Contract), pay or cause to be paid to Deutsche Börse, by wire transfer of same day funds, the NYSE Euronext Termination Payment.

(c) Termination Fee Payable by Deutsche Börse

(i) In the event that (A) a proposal with respect to an Acquisition Proposal for Deutsche Börse shall have been publicly announced or made publicly known or otherwise communicated or made known to management or the Deutsche Börse Boards (or any third party shall have publicly announced, communicated or made known a bona fide intention, whether or not conditional, to make a proposal with respect to an Acquisition Proposal) at any time after the date of this Agreement and prior to the Expiration Time, and (B) this Agreement is terminated by NYSE Euronext pursuant to Section 9.3(a) or is terminated by either party pursuant to Section 9.2(c) (and, at the time of such termination pursuant to Section 9.2(c), NYSE Euronext had a right to terminate this Agreement pursuant to Section 9.3(a)), then Deutsche Börse shall, prior to such termination, pay or cause to be paid to NYSE Euronext an amount equal to 250,000,000 (the *Deutsche Börse Termination Payment*) by wire transfer of same day funds.

(ii) In the event that (A) an Acquisition Proposal for Deutsche Börse shall have been publicly announced or made publicly known, (B) thereafter, this Agreement is terminated by NYSE Euronext or Deutsche Börse pursuant to Section 9.2(c), and (C) within 9 months of such termination pursuant to Section 9.2(c), Deutsche Börse or any of its Subsidiaries executes any Alternative Acquisition Agreement with respect to, or consummates, or approves or recommends to Deutsche Börse shareholders to accept, any

Table of Contents

Acquisition Proposal for Deutsche Börse (it being understood that, for purposes of this clause (C), the term "Acquisition Proposal" shall have the meaning assigned to such term in Section 7.2(a) except each that reference to "15% or more" in the definition of "Acquisition Proposal" and "Major Subsidiary" shall be deemed to be a reference to "40% or more"), then Deutsche Börse shall, prior to the completion of such acquisition or transaction (or, if earlier, the entry into such Contract), pay or cause to be paid to NYSE Euronext, by wire transfer of same day funds, the Deutsche Börse Termination Payment.

(d) *Interest.* Each of NYSE Euronext and Deutsche Börse acknowledges that the agreements contained in this Section 9.5 are an integral part of the transactions contemplated by this Agreement, and that, without these agreements, the other party would not enter into this Agreement; accordingly, if either party fails to promptly pay or cause to be paid the amount due pursuant to this Section 9.5, and, in order to obtain such payment, the other party commences a suit that results in a judgment against such party for the payment set forth in this Section 9.5 or any portion of such payment, such party shall pay the other party its costs and expenses (including attorneys' fees) in connection with such suit, together with interest on the amount of the payment at the prime rate of Citibank, N.A., in effect on the date such payment was required to be paid, from the date on which such payment was required through the date of actual payment. In no event shall NYSE Euronext or Deutsche Börse be obligated pursuant to this Section 9.5 to pay more than one NYSE Euronext Termination Payment or Deutsche Börse Termination Payment, respectively.

ARTICLE X

MISCELLANEOUS AND GENERAL

Section 10.1. *Survival.* This Article X and the agreements of NYSE Euronext and Deutsche Börse contained in Section 7.6 (Exchange Listing) and Section 7.10 (Indemnification; Directors' and Officers' Insurance) shall survive the consummation of the Merger and the Offer. This Article X, the agreements of NYSE Euronext and Deutsche Börse contained in Section 7.9 (Expenses), Section 9.5 (Effect of Termination and Abandonment; Expense Reimbursement) and the Confidentiality Agreement shall survive the termination of this Agreement. No other representations, warranties, covenants and agreements in this Agreement shall survive the consummation of the Merger and the Offer or the termination of this Agreement.

Section 10.2. *Modification or Amendment.* Subject to the provisions of applicable Law, and except as otherwise provided in this Agreement, this Agreement may be amended, modified or supplemented only by a written instrument executed and delivered by all of the parties hereto, whether before or after approval of the matters presented in connection with the Offer and the Merger by NYSE Euronext stockholders; provided that, after any such approval, no amendment shall be made for which applicable Law or the rules of any relevant stock exchange requires further approval by such stockholders without such further approval.

Section 10.3. *Waiver of Conditions.*

(a) The conditions to each of the parties' obligations to consummate the Merger and the Offer are for the sole benefit of such party and may be waived by such party in whole or in part to the extent permitted by applicable Law.

(b) NYSE Euronext shall waive the condition described in clause (i) of the first sentence of paragraph II.(b) of Annex II in the event NYSE Euronext shall have received an opinion of counsel, in form and substance reasonably satisfactory to NYSE Euronext, on the basis of representations and warranties set forth or referred to in such opinion, dated as of the date referred to in Section 10.3(d) hereof, to the effect that the Merger will qualify as a "reorganization" within the meaning of Section 368(a) of the Code and/or the Merger and the Offer, taken together, will qualify as an exchange within the meaning of Section 351(a) of the Code. NYSE Euronext shall waive the condition described in clause (ii) of the first sentence of paragraph II.(b) of Annex II in

Table of Contents

the event NYSE Euronext shall have received an opinion of counsel, in form and substance reasonably satisfactory to NYSE Euronext, on the basis of representations and warranties set forth or referred to in such opinion, dated as of the date referred to in Section 10.3(d) hereof, to the effect that each transfer of NYSE Euronext stock to Holdco by a stockholder of NYSE Euronext (other than a stockholder that is a five percent transferee shareholder with respect to Holdco within the meaning of Treasury Regulation Section 1.367(a)-3(c)(5)(ii)) pursuant to the Merger will not be subject to Section 367(a)(1) of the Code. In rendering such opinions, such counsel may require and shall be entitled to rely upon representations of NYSE Euronext, Deutsche Börse and Holdco.

(c) Deutsche Börse shall waive the condition described in paragraph III.(b) of Annex II in the event Deutsche Börse shall have received an opinion of counsel, in form and substance reasonably satisfactory to Deutsche Börse, on the basis of representations and warranties set forth or referred to in such opinion, dated as of the date referred to in Section 10.3(d) hereof, to the effect that the Offer will qualify as a transaction described in Section 351 of the Code and/or the Offer and the Merger, taken together, will qualify as transaction described in Section 351(a) of the Code. In rendering such opinion, such counsel may require and shall be entitled to rely upon representations of NYSE Euronext, Deutsche Börse and Holdco.

(d) To the extent the conditions described in paragraph II.(b) and paragraph III.(b) of Annex II shall not have been satisfied or waived pursuant to Section 10.3(b) or Section 10.3(c), as applicable, on or prior to the fourth day prior to the date on which the Expiration Time is scheduled to occur (or such later date as permitted by the BaFin), the parties shall discuss in good faith whether such conditions shall be waived (it being agreed that there shall not be any obligation to waive any of such conditions pursuant to this paragraph (d)). Any waiver, in whole or in part, of the conditions described in paragraph II.(b) or paragraph III.(b) of Annex II shall be made no later than four days prior to the date on which the Expiration Time is scheduled to occur (or such later date as permitted by the BaFin).

(e) If either NYSE Euronext or Deutsche Börse requests a waiver of the condition described in paragraph I.(h) of Annex II, the timing of any such waiver shall be subject to mutual agreement of NYSE Euronext and Deutsche Börse; *provided that*, if no agreement is reached on the timing of any such waiver, and either NYSE Euronext or Deutsche Börse requests a waiver of such condition, then Holdco shall waive such condition at the latest time during the Offer permitted by applicable Law.

Section 10.4. *Counterparts*. This Agreement may be executed in any number of separate counterparts, each such counterpart being deemed to be an original instrument, and all such counterparts shall together constitute the same agreement.

Section 10.5. *GOVERNING LAW AND VENUE*.

(a) EXCEPT FOR (i) PROVISIONS RELATING TO MATERIAL ADVERSE EFFECT, AS DEFINED IN SECTION 6.1(a) OF THIS AGREEMENT, WHICH SHALL BE INTERPRETED, CONSTRUED AND GOVERNED BY AND IN ACCORDANCE WITH THE LAWS OF DELAWARE WITHOUT REGARD TO THE CONFLICT OF LAW PRINCIPLES THEREOF, (ii) THE FIDUCIARY DUTIES OF THE NYSE EURONEXT BOARD OF DIRECTORS AND THE VALIDITY OF ANY CORPORATE ACTION ON THE PART OF NYSE EURONEXT AND MERGER SUB, WHICH SHALL BE INTERPRETED, CONSTRUED AND GOVERNED BY AND IN ACCORDANCE WITH THE LAWS OF DELAWARE WITHOUT REGARD TO THE CONFLICT OF LAW PRINCIPLES THEREOF AND (iii) THE FIDUCIARY DUTIES OF THE DEUTSCHE BÖRSE BOARDS AND THE VALIDITY OF ANY CORPORATE ACTION ON THE PART OF DEUTSCHE BÖRSE, WHICH SHALL BE INTERPRETED, CONSTRUED AND GOVERNED BY AND IN ACCORDANCE WITH THE LAWS OF GERMANY WITHOUT REGARD TO THE CONFLICT OF LAW PRINCIPLES THEREOF. THIS AGREEMENT SHALL BE DEEMED TO BE MADE IN, AND IN ALL RESPECTS SHALL BE INTERPRETED, CONSTRUED AND GOVERNED BY AND IN ACCORDANCE WITH THE LAW OF, THE NETHERLANDS WITHOUT REGARD TO THE CONFLICT OF LAW PRINCIPLES THEREOF.

Table of Contents

(b) The parties hereby irrevocably submit to the exclusive jurisdiction of the District Court (*Rechtbank*) of Amsterdam, the Netherlands in first instance, subject to appeal to the appropriate Court of Appeal and the Dutch Supreme Court, if applicable (the *Dutch Courts*) in respect of any claim, dispute or controversy relating to or arising out of the negotiation, interpretation or enforcement of this Agreement or any of the documents referred to in this Agreement or the transactions contemplated hereby or thereby (any such claim being a *Covered Claim*). Notwithstanding the foregoing, nothing in this Agreement shall limit the right of NYSE Euronext, Deutsche Börse, Holdco or any of their respective Subsidiaries or affiliates to commence or prosecute any legal action against another party or any of its Subsidiaries or affiliates in any court of competent jurisdiction in the United States, France, Germany, or elsewhere to enforce the judgments and orders of the Dutch Courts.

(c) NYSE Euronext hereby irrevocably designates Euronext N.V. (in such capacity, the *NYSE Euronext Process Agent*), with an office at Beursplein 5, 1012 JW Amsterdam, the Netherlands, as its designee, appointee and agent to receive, for and on its behalf service of process in such jurisdiction in any legal action or proceedings with respect to this Agreement or any other agreement executed in connection with this Agreement, and such service shall be deemed complete upon delivery thereof to the NYSE Euronext Process Agent; *provided* that, in the case of any such service upon the NYSE Euronext Process Agent, the party effecting such service shall also deliver a copy thereof to NYSE Euronext. NYSE Euronext shall take all such action as may be necessary to continue said appointment in full force and effect or to appoint another agent so that NYSE Euronext will at all times have an agent for service of process for the above purposes in the Netherlands. In the event of the transfer of all or substantially all of the assets and business of the NYSE Euronext Process Agent to any other person or entity by consolidation, merger, sale of assets or otherwise, such other person or entity shall be substituted hereunder for the NYSE Euronext Process Agent with the same effect as if named herein in place of such NYSE Euronext Process Agent. NYSE Euronext further irrevocably consents to the service of process out of any of the aforementioned courts in any such action or proceeding by the mailing of copies thereof by registered airmail, postage prepaid, to such party at its address set forth in this Agreement, such service of process to be effective upon acknowledgment of receipt of such registered mail. Nothing herein shall affect the right of any party to serve process in any other manner permitted by applicable law. NYSE Euronext expressly acknowledges that the foregoing waiver is intended to be irrevocable under the laws of the Netherlands.

(d) Deutsche Börse hereby irrevocably designates Deutsche International Trust Company N.V. (in such capacity the *Deutsche Börse Process Agent*), with an office at Herengracht 450, 1017 CA Amsterdam, the Netherlands, as its designee, appointee and agent to receive, for and on its behalf service of process in such jurisdiction in any legal action or proceedings with respect to this Agreement or any other agreement executed in connection with this Agreement, and such service shall be deemed complete upon delivery thereof to the Deutsche Börse Process Agent; *provided* that, in the case of any such service upon the Deutsche Börse Process Agent, the party effecting such service shall also deliver a copy thereof to Deutsche Börse. Deutsche Börse shall take all such action as may be necessary to continue said appointment in full force and effect or to appoint another agent so that Deutsche Börse will at all times have an agent for service of process for the above purposes in the Netherlands. In the event of the transfer of all or substantially all of the assets and business of the Deutsche Börse Process Agent to any other person or entity by consolidation, merger, sale of assets or otherwise, such other person or entity shall be substituted hereunder for the Deutsche Börse Process Agent with the same effect as if named herein in place of such Deutsche Börse Process Agent. Deutsche Börse further irrevocably consents to the service of process out of any of the aforementioned courts in any such action or proceeding by the mailing of copies thereof by registered airmail, postage prepaid, to such party at its address set forth in this Agreement, such service of process to be effective upon acknowledgment of receipt of such registered mail. Nothing herein shall affect the right of any party to serve process in any other manner permitted by applicable law. Deutsche Börse expressly acknowledges that the foregoing waiver is intended to be irrevocable under the laws of the Netherlands.

Table of Contents

Section 10.6. *Disclosure Letters.* Any disclosure contained in the NYSE Euronext Disclosure Letter or the Deutsche Börse Disclosure Letter shall apply to any other section or subsection of the NYSE Euronext Disclosure Letter or Deutsche Börse Disclosure Letter, respectively, where the applicability of such disclosure is reasonably apparent. The mere inclusion of any item in the NYSE Euronext Disclosure Letter as an exception to a representation or warranty of NYSE Euronext or the Deutsche Börse Disclosure Letter as an exception to a representation or warranty of Deutsche Börse in this Agreement shall not be deemed to be an admission that such item is a material exception, fact, event or circumstance, or that such item, individually or in the aggregate, has had or is reasonably expected to have, a Material Adverse Effect on NYSE Euronext or Deutsche Börse, as applicable, or trigger any other materiality qualification.

Section 10.7. *Notices.* Any notice, request, instruction or other document to be given hereunder by any party to the others shall be in writing and delivered personally or sent by registered or certified mail, postage prepaid or by prepaid overnight courier (providing written proof of delivery), or by confirmed facsimile transmission or electronic mail, addressed as follows:

or to such other persons or addresses as may be designated in writing by the party to receive such notice as provided above.

Section 10.8. *Entire Agreement.* This Agreement (including any exhibits hereto), the NYSE Euronext Disclosure Letter, the Deutsche Börse Disclosure Letter and the Confidentiality Agreement, dated September 22, 2008, between NYSE Euronext and Deutsche Börse (the *Confidentiality Agreement*) constitute the entire agreement, and supersede all other prior agreements, understandings, representations and warranties both written and oral, among the parties, with respect to the subject matter hereof.

Section 10.9. *No Third-Party Beneficiaries.* Except as provided in Section 7.10 (Indemnification; Directors and Officers Insurance), this Agreement is not intended to, and does not, confer upon any Person other than the parties who are signatories hereto any rights or remedies hereunder. The parties hereto further agree that the rights of third-party beneficiaries under Section 7.10 shall not arise unless and until the Effective Time occurs.

Section 10.10. *Obligations of Deutsche Börse and of NYSE Euronext.* Whenever this Agreement requires a Subsidiary of Holdco, NYSE Euronext or Deutsche Börse to take any action, such requirement shall be deemed to include an undertaking on the part of Holdco, NYSE Euronext or Deutsche Börse, as appropriate, to cause such Subsidiary to take such action.

Edgar Filing: NYSE Euronext - Form 425

Section 10.11. *Transfer Taxes*. All transfer, documentary, sales, use, stamp, registration and other such Taxes and fees (including penalties and interest) incurred in connection with the Offer or the Merger shall be paid by the party upon which such Taxes are imposed; *provided* that any transfer taxes with respect to interests in real property owned, directly or indirectly, by NYSE Euronext, Deutsche Börse or any of their respective subsidiaries shall be borne by Holdco and expressly shall not be a liability of the stockholders of NYSE Euronext or Deutsche Börse.

Section 10.12. *Definitions*. Each of the terms set forth in *Annex I* is defined on the page of this Agreement set forth opposite such term.

G-51

Table of Contents

Section 10.13. *Severability.* The provisions of this Agreement shall be deemed severable and the invalidity or unenforceability of any provision shall not affect the validity or enforceability or the other provisions hereof. If any provision of this Agreement, or the application thereof to any Person or any circumstance, is invalid or unenforceable, (a) a suitable and equitable provision shall be substituted therefor in order to carry out, so far as may be valid and enforceable, the intent and purpose of such invalid or unenforceable provision and (b) the remainder of this Agreement and the application of such provision to other Persons or circumstances shall not be affected by such invalidity or unenforceability, nor shall such invalidity or unenforceability affect the validity or enforceability of such provision, or the application thereof, in any other jurisdiction.

Section 10.14. *Interpretation; Construction.*

(a) The table of contents and headings herein are for convenience of reference only, do not constitute part of this Agreement and shall not be deemed to limit or otherwise affect any of the provisions hereof. Where a reference in this Agreement is made to a Section, Schedule or Exhibit, such reference shall be to a Section of, Schedule to or Exhibit to this Agreement unless otherwise indicated. Whenever the words "include," "includes" or "including" are used in this Agreement, they shall be deemed to be followed by the words "without limitation." The term "knowledge of NYSE Euronext" shall be deemed to mean the actual knowledge of the individuals set forth on *Schedule II*. The term "knowledge of Deutsche Börse" shall be deemed to mean the actual knowledge of the individuals set forth on *Schedule III*.

(b) For purposes of the representations and warranties set forth in Article VI, the covenants set forth in Section 7.1 and any Offer Condition, all references to Euros (€) shall be deemed to include U.S. dollars (\$) on the basis of an exchange rate of 1.35 Euros (€) to 1 U.S. dollar (\$), and vice versa.

(c) The parties have participated jointly in negotiating and drafting this Agreement. In the event that an ambiguity or a question of intent or interpretation arises, this Agreement shall be construed as if drafted jointly by the parties, and no presumption or burden of proof shall arise favoring or disfavoring any party by virtue of the authorship of any provision of this Agreement.

Section 10.15. *Assignment.* Neither this Agreement nor any of the rights, interests or obligations under this Agreement shall be assigned, in whole or in part, by any of the parties hereto without the prior written consent of the other party. Any attempted or purported assignment in violation of the preceding sentence shall be null and void and of no effect whatsoever. Subject to the preceding two sentences, this Agreement shall be binding upon, inure to the benefit of, and be enforceable by, the parties and their respective successors and assigns.

ANNEX II:

Conditions to the Completion of the Offer

Notwithstanding any other provisions of the Offer or this Agreement, and in addition to (and not in limitation of) Holdco's rights to extend and amend the Offer at any time in its sole discretion (subject to the provisions of the Agreement and to applicable Laws, including for the avoidance of doubt Rule 14e-1(c) under the Exchange Act (relating to Holdco's obligation to pay for or return tendered Deutsche Börse Shares promptly after termination or withdrawal of the Offer)), Holdco shall not be required to accept for payment or pay for, and may delay the acceptance for payment of or the payment for, any validly tendered Deutsche Börse Shares unless each of the following conditions shall be satisfied (or waived as set forth below).

I. *Mutual Conditions.* Conditions which may be waived by both NYSE Euronext and Deutsche Börse, acting together (or, in the case of paragraph (h), may be waived by either NYSE Euronext and Deutsche Börse), in each case, if and to the extent that such waiver is permitted by the Takeover Act:

(a) *Minimum Condition.* Prior to the Expiration Time (or, if the parties agree, such later date as permitted by the BaFin), the Minimum Condition shall have been satisfied.

(b) *Competition Approvals.* Any waiting period (and any extension thereof) applicable to the Offer and the Merger under the Competition Approvals shall have expired or been terminated.

(c) *Registration Statement.* Prior to the Expiration Time, the Registration Statement shall have become effective under the Securities Act and, prior to the Acceptance Time, shall not be the subject of any stop order or proceeding seeking a stop order.

(d) *NYSE Euronext Requisite Vote.* Prior to the Expiration Time, the NYSE Euronext Requisite Vote shall have been obtained at the NYSE Euronext Stockholders Meeting.

(e) *Exchange Listing.* The Holdco Shares to be issued in the Offer and the Merger and such other Holdco Shares to be reserved for issuance in connection with the Offer and the Merger pursuant to this Agreement shall have been authorized for listing on the New York Stock Exchange, the Frankfurt Stock Exchange and Euronext Paris, upon official notice of issuance.

(f) *Governmental Proceeding.* There shall not be pending any suit, action or proceeding by any Governmental Entity (i) challenging the acquisition by Holdco of any of the Deutsche Börse Shares or the NYSE Euronext Shares, seeking to restrain or prohibit the consummation of the Offer or the Merger, or seeking to place limitations on the ownership of the Deutsche Börse Shares or shares of common stock of the Surviving Corporation by Holdco or seeking to obtain from Deutsche Börse, NYSE Euronext or Holdco any damages that are material in relation to Deutsche Börse or to NYSE Euronext, (ii) seeking to prohibit or materially limit the ownership or operation by Deutsche Börse or any of its Subsidiaries, or by NYSE Euronext or any of its Subsidiaries, of any material portion of any business or of any assets of Deutsche Börse, NYSE Euronext or any of their respective Subsidiaries, or to compel Deutsche Börse, NYSE Euronext or any of their respective Subsidiaries to divest or hold separate any material portion of any business or of any assets of Deutsche Börse, NYSE Euronext or any of their respective Subsidiaries, as a result of the Offer or the Merger or (iii) seeking to prohibit Holdco or any of its Subsidiaries from effectively controlling in any material respect the business or operations of Deutsche Börse or its Subsidiaries or NYSE Euronext or its Subsidiaries except to the extent that NYSE Euronext is currently limited in its control of its Regulated Subsidiaries (as defined in the NYSE Euronext Organizational Documents).

(g) *Other Approvals.* (i) The SEC shall have approved the applications under Rule 19b-4 of the Exchange Act submitted by NYSE Euronext and/or its applicable Subsidiaries and by Deutsche Börse and/or its applicable Subsidiaries in connection with the transactions contemplated by the Agreement; (ii) the Dutch Minister of Finance shall have issued a declaration of no objection to Holdco, (iii) the Dutch Minister of Finance or the AFM, as applicable, shall have confirmed, reissued, renewed or amended the existing

Table of Contents

declarations of no objection issued to NYSE Euronext, NYSE Euronext (International) B.V., NYSE Euronext (Holding) N.V. and Euronext N.V. pursuant to Sections 5:32d or 3:95(1)(c) of the Dutch Financial Supervision Act, in each case allowing the relevant entity to acquire or hold, indirectly or directly, as the case may be, the shares of Euronext Amsterdam N.V.; (iv) the Dutch Minister of Finance and the AFM shall have reviewed and approved the proposed transaction pursuant to, and confirmed, reissued, renewed or amended, the existing exchange license granted to Euronext Amsterdam N.V. as well as NYSE Euronext, NYSE Euronext (International) B.V., NYSE Euronext (Holding) N.V. and Euronext N.V. pursuant to Sections 5:26 and 2:96 of the Dutch Financial Supervision Act; (v) the College of Regulators and, to the extent required, any other Regulatory Authority shall have granted the requisite non-objection to the Offer, the Merger and the other transactions contemplated by this Agreement; (vi) to the extent required, CFIUS shall have granted approval under the Exon-Florio Amendment; and (vii) there shall have been obtained or made all other consents, approvals and actions of, filings with and notices to any Governmental Entity required of NYSE Euronext, Deutsche Börse or any of their Subsidiaries to consummate the Offer and the Merger, the issuance of Holdco Shares in the Offer and the Merger and the other transactions contemplated by the Agreement (including any necessary amendments to existing exchange licenses and recognitions), the failure of which to be obtained, made or taken, individually or in the aggregate, would reasonably be expected to have a Substantial Detriment to Holdco, NYSE Euronext and Deutsche Börse, and such consents, approvals and actions shall have been obtained on terms that, individually or in the aggregate, would not reasonably be expected to have a Substantial Detriment to Holdco, NYSE Euronext and Deutsche Börse and their respective Subsidiaries.

(h) *Material Adverse Market Change.* Prior to the Expiration Time, there shall not have occurred a suspension of the currency trading or debt markets in (a) Frankfurt am Main, Federal Republic of Germany and London, England, or (b) New York, New York, U.S.A. for more than two trading days.

II. *Conditions Waivable by NYSE Euronext.* Conditions which may be waived solely by NYSE Euronext:

(a) *No Offer Material Adverse Effect on Deutsche Börse.* Prior to the Expiration Time, there shall not have been an Offer Material Adverse Effect on Deutsche Börse.

(b) *IRS Ruling or Rulings.* NYSE Euronext shall have received one or more private letter rulings from the IRS substantially to the effect that (i) the Merger will qualify as a reorganization within the meaning of Section 368(a) of the Code and/or the Merger and the Offer, taken together, will qualify as an exchange within the meaning of Section 351(a) of the Code, and (ii) (A) the transfer of NYSE Euronext Shares by U.S. persons for shares of Holdco will qualify for an exception to Section 367(a)(1) of the Code under Treasury Regulation Sections 1.367(a)-3(c)(1) and 1.367(a)-3(c)(9), and (B) any U.S. person transferring NYSE Euronext Shares who is a 5% transferee shareholder (within the meaning of Treasury Regulation Section 1.367(a)-3(c)(5)(ii)) will qualify for the exception to Section 367(a)(1) of the Code only upon entering a five-year gain recognition agreement pursuant to Treasury Regulation Section 1.367(a)-8.

III. *Conditions Waivable by Deutsche Börse.* Conditions which may be waived solely by Deutsche Börse:

(a) *No Offer Material Adverse Effect on NYSE Euronext.* Prior to the Expiration Time, there shall not have been an Offer Material Adverse Effect on NYSE Euronext.

(b) *IRS Ruling or Rulings.* Deutsche Börse shall have received a private letter ruling from the IRS substantially to the effect that the Offer will qualify as a transaction described in Section 351 of the Code and/or the Offer and the Merger, taken together, will qualify as transaction described in Section 351(a) of the Code.

For purposes of this Annex II, an *Offer Material Adverse Effect* on NYSE Euronext or Deutsche Börse, as applicable, means any circumstance or circumstances relating to NYSE Euronext or Deutsche Börse,

Table of Contents

respectively, that, according to the assessment of the Independent Expert, has or have resulted in, or would reasonably be expected to result in, individually or in the aggregate, a decrease in the consolidated net revenues of NYSE Euronext or Deutsche Börse, respectively, of at least \$300,000,000 in the 2011 financial year and/or 2012 financial year of NYSE Euronext or Deutsche Börse, respectively, to the extent the decrease is recurrent.

An Offer Material Adverse Effect will only be deemed to have occurred if, on or before the day before the publication of the results of the Exchange Offer pursuant to Section 23 para. 1 sentence 1 no. 2 of the Takeover Law, an independent expert from Deloitte or another expert mutually selected by NYSE Euronext and Deutsche Börse (the *Independent Expert*), using the due and careful consideration of a diligent professional has delivered an opinion that an Offer Material Adverse Effect has occurred. Either NYSE Euronext or Deutsche Börse may request that the Independent Expert undertake an evaluation of whether an Offer Material Adverse Effect has occurred with respect to the other party. The Independent Expert shall further render his opinion without undue delay and shall publish the result of his opinion without undue delay in the *Frankfurter Allgemeine Zeitung* and the *Wall Street Journal* with reference to the Offer. The opinion of the Independent Expert shall be binding upon and non-appealable and shall be promptly disclosed publicly by NYSE Euronext and Deutsche Börse.

AMENDMENT NO. 1

TO

BUSINESS COMBINATION AGREEMENT

This AMENDMENT NO. 1, dated as of May 2, 2011 (this *Amendment*), to the Business Combination Agreement, dated as of February 15, 2011 (the *Business Combination Agreement*), is by and among NYSE Euronext, a Delaware corporation (*NYSE Euronext*), Deutsche Börse AG, an *Aktiengesellschaft* organized under the laws of the Federal Republic of Germany (*Deutsche Börse*), Alpha Beta Netherlands Holding N.V., a *naamloze vennootschap* organized under the laws of the Netherlands (*Holdco*), and Pomme Merger Corporation, a Delaware corporation and a newly formed, wholly owned subsidiary of Holdco (*Merger Sub*).

RECITALS

WHEREAS, the parties to the Business Combination Agreement desire to amend and supplement certain terms of the Business Combination Agreement as described herein; and

WHEREAS, all capitalized terms not defined herein shall have the meaning ascribed to such terms in the Business Combination Agreement.

NOW, THEREFORE, in consideration of the premises, and of the representations, warranties, covenants and agreements contained herein, the parties hereto agree as follows:

1. *Effect of the Merger on NYSE Euronext Stock-Based Awards Held by Certain Persons.* The last sentence of Section 2.8(b) of the Business Combination Agreement shall be amended and restated to read as follows:

All restricted stock units granted under NYSE Euronext's Omnibus Incentive Plan or under NYSE Euronext's 2006 Stock Incentive Plan that are outstanding immediately prior to the Effective Time shall (i) to the extent unvested, vest as of the Effective Time, and (ii) be distributed as of the Effective Time; *provided* that (A) with respect to any such units that constitute deferred compensation within the meaning of Section 409A of the Code, such distribution shall occur on the date that it would occur under the applicable award agreement absent the application of this Section 2.8(b)(ii); and (B) with respect to any such units that are intended to constitute tax-qualified awards pursuant to Article 80 quaterdecies of the French tax code, NYSE Euronext shall have the right to determine whether such distribution shall occur as of the Effective Time or on the date that it would occur under the applicable award agreement absent the application of this Section 2.8(b)(ii).

2. *Date of NYSE Euronext Stockholders Meeting.* The first sentence of Section 7.3(a) of the Business Combination Agreement shall be amended and restated to read as follows:

NYSE Euronext will take, in accordance with applicable Law and the NYSE Euronext Organizational Documents, all action necessary to convene a meeting of its stockholders (the *NYSE Euronext Stockholders Meeting*), with such date selected by NYSE Euronext but in no event to be later than the day prior the scheduled Expiration Time (the *NYSE Euronext Meeting Date*), which date shall be after the Registration Statement is declared effective (it being agreed that, in the event that the scheduled Expiration Time shall be postponed as a result of an extension of the Offer, NYSE Euronext may adjourn or postpone the NYSE Euronext Stockholders Meeting so that the NYSE Euronext Meeting Date is no later than the day prior to such newly scheduled Expiration Time). The current intention is for the NYSE Euronext Meeting Date to be July 7, 2011.

Table of Contents

3. *Conditions to Completion of the Offer.*

(a) Section 1.1(f) of the Business Combination Agreement is amended and restated to read as follows:

Conditions to the Offer. Holdco's obligation to accept for exchange, and to exchange, any Deutsche Börse Shares validly tendered and not withdrawn prior to the expiration of the Offer shall be solely (*ausschließlich*) subject to the satisfaction or waiver of the conditions set forth in Annex II (the *Offer Conditions*), including the Minimum Condition.

(b) Annex II to the Business Combination Agreement is amended and restated to read in the form attached as Annex II to this Amendment.

4. *Post-Closing Reorganization.* The proviso in Section 3.1(b) of the Business Combination Agreement is amended and restated to read as follows:

; *provided* that, in each case, and subject to the legal obligations of the boards of Holdco and Deutsche Börse, the Post-Closing Reorganization shall be structured with the goal of providing holders of Deutsche Börse Shares who do not exchange their Deutsche Börse Shares in the Offer with, at a maximum, the same number of Holdco Share(s) per Deutsche Börse Share or consideration having the same value (without taking into account the different tax treatment or withholding requirements that may apply) that such holders would have received in the Offer had such holder tendered its Deutsche Börse Shares in the Offer, unless otherwise required by applicable Law (it being understood that, in the Post-Closing Reorganization, holders of Deutsche Börse Shares may under certain circumstances receive a different and, to the extent permitted by applicable Law, a lower amount or different form of consideration than they would have received in the Offer).

5. *Waiver of Conditions.* The last sentence of Section 10.3(d) of the Business Combination Agreement is amended and restated to read as follows:

Any waiver, in whole or in part, of the conditions described in paragraph II.(b) or paragraph III.(b) of Annex II shall be made, in accordance with Section 21 para. (1) Takeover Law, no later than one business day prior to (or such later date as permitted by the BaFin) the date on which the Expiration Time is scheduled to occur (not taking into account any extension of the Expiration Date as a result of any waiver of an Offer Condition).

6. *Form of Holdco Articles of Association.* Pursuant to Section 4.1(a) of the Business Combination Agreement, the parties acknowledge that, in connection with the regulatory approval process for the transactions contemplated by the Business Combination Agreement, a form of Holdco articles of association in the form attached as Exhibit A to this Amendment has been submitted with the SEC and is currently under review and may be subject to further modifications pursuant to Section 4.1(a) of the Business Combination Agreement.

7. *Definitions Set Forth in Annex I.* Annex I of the Business Combination Agreement shall be amended to (a) delete the defined terms Fully Diluted Basis; (b) change the reference to page reference for Minimum Condition to Annex II; and (c) add the following defined terms in alphabetical order: Belgian Law of August 2, 2002, CMVM, EMCR, Euronext Lisbon and Further Deutsche Börse Shares, each with a page reference to Annex II.

8. *Modification or Amendment.* Subject to the provisions of applicable Law, and except as otherwise provided in this Business Combination Agreement, this Amendment may be amended, modified or supplemented only by a written instrument executed and delivered by all of the parties hereto, whether before or after approval of the matters presented in connection with the Offer and the Merger by NYSE Euronext stockholders; *provided* that, after any such approval, no amendment shall be made for which applicable Law or the rules of any relevant stock exchange requires further approval by such stockholders without such further approval.

Table of Contents

9. *Counterparts*. This Amendment may be executed in any number of separate counterparts, each such counterpart being deemed to be an original instrument, and all such counterparts shall together constitute the same agreement.

10. *GOVERNING LAW AND VENUE*. For purposes of the governing law and venue applicable to this Amendment, Section 10.5 of the Business Combination Agreement is restated herein in full, except that reference to this Agreement shall be references to this Amendment.

11. *No Third-Party Beneficiaries*. This Amendment is not intended to, and does not, confer upon any Person other than the parties who are signatories hereto any rights or remedies hereunder.

12. *Severability*. The provisions of this Amendment shall be deemed severable and the invalidity or unenforceability of any provision shall not affect the validity or enforceability or the other provisions hereof. If any provision of this Amendment, or the application thereof to any Person or any circumstance, is invalid or unenforceable, (a) a suitable and equitable provision shall be substituted therefor in order to carry out, so far as may be valid and enforceable, the intent and purpose of such invalid or unenforceable provision and (b) the remainder of this Amendment and the application of such provision to other Persons or circumstances shall not be affected by such invalidity or unenforceability, nor shall such invalidity or unenforceability affect the validity or enforceability of such provision, or the application thereof, in any other jurisdiction.

13. *Interpretation; Construction*.

(a) The headings herein are for convenience of reference only, do not constitute part of this Amendment and shall not be deemed to limit or otherwise affect any of the provisions hereof.

(b) The parties have participated jointly in negotiating and drafting this Amendment. In the event that an ambiguity or a question of intent or interpretation arises, this Amendment shall be construed as if drafted jointly by the parties, and no presumption or burden of proof shall arise favoring or disfavoring any party by virtue of the authorship of any provision of this Amendment.

(c) Neither this Amendment nor any of the rights, interests or obligations under this Amendment shall be assigned, in whole or in part, by any of the parties hereto without the prior written consent of the other party. Any attempted or purported assignment in violation of the preceding sentence shall be null and void and of no effect whatsoever. Subject to the preceding two sentences, this Amendment shall be binding upon, inure to the benefit of, and be enforceable by, the parties and their respective successors and assigns.

14. *Remainder of Business Combination Agreement*. Except as expressly set forth herein, this Amendment shall not by implication or otherwise alter, modify, amend or in any way affect any of the terms, conditions, obligations, covenants or agreements contained in the Business Combination Agreement, all of which shall continue to be in full force and effect.

[Remainder of page left intentionally blank]

ANNEX II:

Conditions to the Completion of the Offer

Notwithstanding any other provisions of the Offer or this Agreement, and in addition to (and not in limitation of) Holdco's rights to extend and amend the Offer at any time in its sole discretion (subject to the provisions of the Agreement and to applicable Laws, including for the avoidance of doubt Rule 14e-1(c) under the Exchange Act (relating to Holdco's obligation to pay for or return tendered Deutsche Börse Shares promptly after termination or withdrawal of the Offer)), Holdco shall not be required to accept for payment or pay for, and may delay the acceptance for payment of or the payment for, any validly tendered Deutsche Börse Shares unless each of the following conditions shall be satisfied (or waived as set forth below).

I. *Mutual Conditions.* Conditions that shall be waived by Holdco only following approval by both NYSE Euronext and Deutsche Börse, acting together (except for the condition in paragraph (d) of this Section I, which may not be waived, and for the condition in paragraph (g) of this Section I, which shall be waived by Holdco following approval by either NYSE Euronext or Deutsche Börse), in each case, if and to the extent that such waiver is permitted by the Takeover Act:

(a) *Minimum Condition.* At the Expiration Time, the sum of (i) the number of Deutsche Börse Shares validly tendered in the Offer and withdrawn prior to the Expiration Time and (ii) the number of Deutsche Börse Shares, if any, held by Holdco as of the Expiration Time shall be equal to or greater than 75% of the sum of (x) the number of Deutsche Börse Shares issued and outstanding as of the Expiration Time and (y) the number of Further Deutsche Börse Shares (such condition, the *Minimum Condition*).

(b) *Competition Approvals.* On or prior to March 31, 2012, (i) any waiting period (and any extension thereof) applicable to the Offer and the Merger under the Hart-Scott-Rodino Antitrust Improvement Act of 1976, as amended, shall have expired or been terminated, and (ii) the EU Commission shall have, or shall be deemed to have, cleared the Offer and the Merger pursuant to the Council Regulation (EC) 139/2004 of the European Community (the *EMCR*).

(c) *Registration Statement.* (i) The Registration Statement shall have become effective under the Securities Act prior to the Expiration Time; and (ii) as of the Expiration Time, the Registration Statement shall not be the subject of any stop order issued by the SEC pursuant to Section 8(d) of the Securities Act or any proceeding initiated by the SEC seeking such a stop order.

(d) *NYSE Euronext Requisite Vote.* Prior to the Expiration Time, the NYSE Euronext Requisite Vote shall have been obtained at the NYSE Euronext Stockholders Meeting.

(e) *No Injunction or Illegality.* There shall not be any law, regulation, administrative act or injunction in effect as of the Expiration Time issued by any Governmental Entity in the United States, Germany, the Netherlands, France, the United Kingdom, Portugal, Belgium, Switzerland or Luxembourg that shall prohibit or make illegal the consummation of the Offer or the Merger or the acquisition or ownership of the Deutsche Börse Shares or the NYSE Euronext Shares by Holdco.

(f) *Other Approvals.* On or prior to March 31, 2012, the following approvals shall have been obtained:

(i) The SEC shall have approved the applications under Rule 19b-4 of the Exchange Act submitted by NYSE Euronext and/or its applicable Subsidiaries and by Deutsche Börse and/or its applicable Subsidiaries in connection with the transactions contemplated by the Offer and the Merger;

(ii) the Dutch Minister of Finance (with the advice of the AFM) shall have issued a declaration of non-objection to Holdco pursuant to Section 5:32d of the Dutch Financial Supervision Act (*Wet op het financieel toezicht*) allowing Holdco to indirectly acquire the shares in Euronext Amsterdam N.V., NYSE Euronext (International) B.V., NYSE Euronext (Holding) N.V. and Euronext N.V.;

(iii) the Dutch Minister of Finance (with the advice of the AFM) or the AFM on behalf of the Dutch Minister of Finance, as applicable, shall have confirmed, reissued, renewed or amended, if so

Table of Contents

required by the Minister of Finance or the AFM, the existing declarations of non-objection issued to NYSE Euronext, NYSE Euronext (International) B.V., NYSE Euronext (Holding) N.V. and Euronext N.V. pursuant to Sections 5:32d of the Dutch Financial Supervision Act (*Wet op het financieel toezicht*), in each case allowing the relevant entity to acquire or hold, indirectly or directly, as the case may be, the shares of Euronext Amsterdam N.V., or the Dutch Minister of Finance and the AFM shall not have indicated that any such confirmation, reissuance, renewal or amendment is required;

(iv) the Dutch Minister of Finance and the AFM shall have reviewed and approved the Offer and the Merger and confirmed, reissued, renewed or amended, if so required by the Minister of Finance or the AFM, the existing exchange license granted to Euronext Amsterdam N.V., NYSE Euronext (International) B.V., NYSE Euronext (Holding) N.V. and Euronext N.V., pursuant to Sections 5:26 and 2:96 of the Dutch Financial Supervision Act (*Wet op het financieel toezicht*), or the Dutch Minister of Finance and the AFM shall not have indicated that any such confirmation, reissuance, renewal, or amendment is required;

(v) the Dutch Central Bank (*De Nederlandsche Bank*) shall have issued a declaration of non-objection to Holdco pursuant to Section 3:95(1)(c) of the Dutch Financial Supervision Act (*Wet op het financieel toezicht*) allowing Holdco to indirectly acquire the shares in Euronext Amsterdam N.V. as well as NYSE Euronext (International) B.V., NYSE Euronext (Holding) N.V. and Euronext N.V. in their capacity as licensed operators of a multilateral trading facility, or the Dutch Central Bank (*De Nederlandsche Bank*) shall have indicated that such declaration of non-objection is not required;

(vi) the College of Regulators shall have issued a declaration of non-objection to the Offer and the Merger as required pursuant to the Memorandum of Understanding dated June 24, 2010;

(vii) the Exchange Supervisory authority of the State of Hesse (*Hessische Börsenaufsichtsbehörde*) shall not have prohibited the intended indirect acquisition of a significant participation in Deutsche Börse, Scoach Europa AG and Eurex Frankfurt AG within the period available to it pursuant to Section 6 paras. 1, 2 of the German Stock Exchange Act (*Börsengesetz*), or it shall have issued a corresponding declaration of non-objection with regard to the specifically intended acquisition within this period;

(viii) the Saxonian Exchange Supervisory Authority (*Börsenaufsichtsbehörde des Freistaates Sachsen*) shall not have prohibited the intended indirect acquisition of a significant participation in European Energy Exchange AG and EEX Power Derivatives GmbH within the period available to it pursuant to Section 6 paras. 1, 2 of the German Stock Exchange Act (*Börsengesetz*), or it shall have issued a corresponding declaration of non-objection with regard to the specifically intended acquisition within this period;

(ix) the Berlin Exchange Supervisory Authority (*Berliner Börsenaufsichtsbehörde*) shall not have prohibited the intended indirect acquisition of a significant participation in Tradegate Exchange GmbH within the period available to it pursuant to Section 6 paras. 1, 2 of the German Stock Exchange Act (*Börsengesetz*), or it shall have issued a corresponding declaration of non-objection with regard to the specifically intended acquisition within this period;

(x) the BaFin shall not have prohibited the intended indirect acquisition of a significant participation in European Commodity Clearing AG, Eurex Clearing AG, Eurex Repo GmbH, Eurex Bonds GmbH and Clearstream Banking AG within the period available to it pursuant to Section 2c of the German Banking Act (*Kreditwesengesetz*), or it shall have issued a corresponding declaration of non-objection with regard to the specifically intended acquisition within this period;

(xi) the French Banking Regulatory Authority (*ACP*) shall have granted the approval required pursuant to French Regulation 96-16 of the *Comité de la Réglementation Bancaire et Financière (CRBF)* relating to the change of ownership and control of Euronext Paris S.A. in its capacity as a credit institution;

Table of Contents

(xii) the French Minister of the Economy shall have granted, upon the advice of the AMF, the approval required pursuant to Article L. 421-9 II of the French Monetary and Financial Code (*Code monétaire et financier*) relating to the change of ownership and control of Euronext Paris S.A. and BlueNext S.A. in their capacity as market operators;

(xiii) the U.K. Financial Services Authority (*FSA*) shall have granted its approval in respect of the change of ownership and control of LIFFE Administration and Management pursuant to Chapter 1A of Part XVIII of the U.K. Financial Services and Markets Act 2000;

(xiv) the U.K. Financial Services Authority (*FSA*) shall have granted its approval in respect of the change of ownership and control of LIFFE Services Limited, Secfinex Limited, Smartpool Trading Limited and Fix City Limited pursuant to Part XII of the Financial Services and Markets Act 2000 and Section SUP 11.3.4 R of the Regulatory Processes Supervision Manual of the FSA Handbook;

(xv) the Belgian Financial Services and Markets Authority (*Autoriteit voor Financiële Diensten en Markten/Autorité des services et marchés financiers FSMA*) shall not have prohibited the intended change of ownership and control of Euronext Brussels SA/NV within the 30-day period available to it pursuant to Article 19 of the Belgian Law of August 2, 2002 on the Supervision of the Financial Sector and on Financial Services (*Belgian Law of August 2, 2002*), or it shall have issued a corresponding declaration of non-objection in respect of such intended change of ownership and control of Euronext Brussels SA/NV within this period;

(xvi) Euronext Brussels SA/NV shall have received a confirmation by the Belgian Ministry of Finance regarding the preservation of its status as regulated market and as licensed market operator pursuant to Articles 3, 17 and 18 of the Belgian Law of August 2, 2002, or in the absence of such confirmation, Euronext Brussels SA/NV shall not have received any written notification from the Belgian Ministry of Finance to the contrary;

(xvii) the Portuguese Minister of Finance shall have explicitly approved of the change of ownership and control of Euronext Lisbon Sociedade Gestora de Mercados Regulamentados, S.A. (Euronext Lisbon) upon a positive legal opinion of the Portuguese *Comissão do Mercado de Valores Mobiliários* (*CMVM*) pursuant to Decree-law n° 357-C/2007 of October 31, 2007, as amended;

(xviii) the CMVM shall be notified of the change of ownership and control of Euronext Lisbon and has either not prohibited such change of control within the period available to it or has issued a declaration of non-objection to such change of control each pursuant to Decree-law n° 357-C/2007 of October 31, 2007, as amended;

(xix) the CMVM shall be notified of the change of ownership and control of Interbolsa SA and has either not prohibited such change of control within the period available to it or has issued a declaration of non-objection to such change of control each pursuant to Decree-law n° 357-C/2007 of October 31, 2007, as amended;

(xx) CFIUS shall have granted written notice that the review under Section 721 of the U.S. Defense Protection Act of 1950 of the Offer and the Merger has been concluded and shall have determined that there are no unresolved national security concerns sufficient to warrant a recommendation that the U.S. President block the Offer and/or the Merger under such Section 721 of the U.S. Defense Protection Act of 1950 and advised that action under such Section 721 has been concluded with respect to the Offer and the Merger;

(xxi) the Luxembourg Supervisory Authority for the Financial Sector (*Commission de Surveillance du Secteur Financier*) (*CSSF*) shall not have prohibited the intended indirect acquisition of Clearstream Banking S.A., Clearstream International S.A. and Clearstream Services S.A. within the statutory period available to it pursuant to Articles 6 (5), 6 (16), 18 (5) and 18 (17) of the Luxembourg Financial Sector Act of April 5, 1993, or it shall have issued corresponding declarations of non-objection with regard to the acquisition within this period; and

Table of Contents

(xxii) the Luxembourg Supervisory Authority for the Insurance Sector (*Commissariat aux Assurances (CAA)*) shall not have prohibited the intended indirect acquisition of Risk Transfer Re S.A. within the statutory period available to it pursuant to Articles 94 I (4) and 94 I (15) of the Luxembourg Insurance Act of December 6, 1991, or it shall have issued a corresponding declaration of non-objection with regard to the acquisition within this period.

(g) *Material Adverse Market Change*. During the time between the publication of the Tender Offer Prospectus in accordance with Section 14 para. 2 of the Takeover Act and the Expiration Time, there shall not have occurred a suspension of the currency trading or debt markets in (a) Frankfurt am Main, Federal Republic of Germany and London, England, or (b) New York, New York, U.S.A. for more than three consecutive trading days.

II. *Conditions Waivable by NYSE Euronext*. Conditions that shall be waived by Holdco following approval by NYSE Euronext, in each case, if and to the extent that such waiver is permitted by the Takeover Act:

(a) *No Offer Material Adverse Effect on Deutsche Börse*. During the time between the publication of the Tender Offer Prospectus in accordance with Section 14 para. 2 of the Takeover Act and the Expiration Time, there shall not have been an Offer Material Adverse Effect on Deutsche Börse.

(b) *IRS Ruling or Rulings*. On or prior to Expiration Time, NYSE Euronext shall have received one or more private letter rulings from the IRS substantially to the effect that (i) the Merger will qualify as a reorganization within the meaning of Section 368(a) of the Code and/or the Merger and the Offer, taken together, will qualify as an exchange within the meaning of Section 351(a) of the Code, and (ii) (A) the transfer of NYSE Euronext Shares by U.S. persons for shares of Holdco will qualify for an exception to Section 367(a)(1) of the Code under Treasury Regulation Sections 1.367(a)-3(c)(1) and 1.367(a)-3(c)(9), and (B) any U.S. person transferring NYSE Euronext Shares who is a 5% transferee shareholder (within the meaning of Treasury Regulation Section 1.367(a)-3(c)(5)(ii)) will qualify for the exception to Section 367(a)(1) of the Code only upon entering a five-year gain recognition agreement pursuant to Treasury Regulation Section 1.367(a)-8.

III. *Conditions Waivable by Deutsche Börse*. Conditions that shall be waived by Holdco following approval by Deutsche Börse, if and to the extent that such waiver is permitted by the Takeover Act:

(a) *No Offer Material Adverse Effect on NYSE Euronext*. During the time between the publication of the Tender Offer Prospectus in accordance with Section 14 para. 2 of the Takeover Act and the Expiration Time, there shall not have been an Offer Material Adverse Effect on NYSE Euronext.

(b) *IRS Ruling or Rulings*. On or prior to the Expiration Time, Deutsche Börse shall have received a private letter ruling from the IRS substantially to the effect that the Offer will qualify as a transaction described in Section 351(a) of the Code and/or the Offer and the Merger, taken together, will qualify as transaction described in Section 351(a) of the Code.

For purposes of this *Annex II*:

1. *Further Deutsche Börse Shares* shall mean the number of Deutsche Börse Shares that Deutsche Börse may issue after the time of publication of the Tender Offer Prospectus in accordance with Section 14 para. 2 of the Takeover Act pursuant to obligations in effect as of the date of such publication, such as outstanding options.

2. *Offer Material Adverse Effect* on NYSE Euronext or Deutsche Börse, as applicable, means any circumstance or circumstances relating to NYSE Euronext or Deutsche Börse, respectively, that, according to the assessment of the Independent Expert, has or have resulted in, or would reasonably be expected to result in, individually or in the aggregate, a decrease in the consolidated net revenues of NYSE Euronext or Deutsche Börse, respectively, of at least \$300,000,000 in the 2011 financial year and/or 2012 financial year of NYSE Euronext or Deutsche Börse, respectively, to the extent the decrease is recurrent. For purposes of Offer Material

Table of Contents

Adverse Effect, the consolidated net revenues of NYSE Euronext shall mean the total revenues, less transaction-based expenses of NYSE Euronext and its consolidated subsidiaries, and the consolidated net revenues of Deutsche Börse shall mean the total revenues, less volume-related costs of Deutsche Börse and its consolidated subsidiaries. An Offer Material Adverse Effect will only be deemed to have occurred if, on or before the day before the publication of the results of the Exchange Offer pursuant to Section 23 para. 1 sentence 1 no. 2 of the Takeover Law, an independent expert from Deloitte & Touche GmbH Wirtschaftsprüfungsgesellschaft (the *Independent Expert*), using the due and careful consideration of a diligent professional has delivered an opinion that an Offer Material Adverse Effect has occurred. Either NYSE Euronext or Deutsche Börse may request that the Independent Expert undertake an evaluation of whether an Offer Material Adverse Effect has occurred with respect to the other party. The Independent Expert shall further render his opinion without undue delay. Holdco shall publish the result of the opinion of the Independent Expert without undue delay in the electronic German Federal Gazette (*elektronischer Bundesanzeiger*), *Frankfurter Allgemeine Zeitung* and the *Wall Street Journal* with reference to the Offer. The opinion of the Independent Expert shall be binding upon and non-appealable.

NOTE ABOUT TRANSLATION:

This document is an English translation of a document prepared in Dutch. In preparing this document, an attempt has been made to translate as literally as possible without jeopardising the overall continuity of the text. Inevitably, however, differences may occur in translation and if they do, the Dutch text will govern by law. The definitions in article 1.1 of this document are listed in the English alphabetical order which may differ from the Dutch alphabetical order.

In this translation, Dutch legal concepts are expressed in English terms and not in their original Dutch terms. The concepts concerned may not be identical to concepts described by the English terms as such terms may be understood under the laws of other jurisdictions.

U.S. Regulated Subsidiary s Confidential Information has the meaning attributed thereto in article 3.2(g).

Voting Limitation has the meaning attributed thereto in article 34.1.

1.2 References to articles refer to articles that are part of these articles of association, except where expressly indicated otherwise.

CHAPTER II

NAME, OFFICIAL SEAT AND OBJECTS

2 Name, official seat and headquarters

2.1 The Company's name is:
[TopCo] N.V.

2.2 The Company has its official seat in Amsterdam, the Netherlands.

2.3 The [Topco] Group shall have dual headquarters which shall be located in Frankfurt am Main, Germany, and New York, State of New York, United States of America.

3 **Objects**

3.1 The objects of the Company are:

- (a) to incorporate, to participate in any way whatsoever in, to manage, to supervise businesses and companies, including without limitation businesses and companies of which the objects are to set up, develop, hold and operate, directly or indirectly, one or more exchanges or markets or other facilities with regard to the listing of, the trade in, the clearing and settlement of transactions in, and the custody of, securities and derivatives;

- (b) to finance and/or acquire businesses and companies;

G-76

Table of Contents

- (c) to borrow, to lend and to raise funds, including through the issue of bonds, debt instruments or other securities or evidence of indebtedness as well as to enter into agreements in connection with aforementioned activities;
- (d) to render advice and services to businesses and companies with which the Company forms a group and to third parties;
- (e) to grant guarantees, to bind the Company and to pledge its assets for obligations of businesses and companies with which it forms a group and on behalf of third parties;

(f) to perform any and all activities of an industrial, financial or commercial nature; and to do all that is connected therewith or may be conducive thereto, all to be interpreted in the broadest sense.

3.2

- (a) The Company shall comply with the U.S. federal securities laws and the rules and regulations thereunder and cooperate with the SEC and the U.S. Regulated Subsidiaries pursuant to and to the extent of their respective regulatory authority, and take reasonable steps necessary to cause its agents to cooperate with the SEC and, where applicable, the U.S. Regulated Subsidiaries pursuant to their regulatory authority.
- (b) The Company shall comply with the European Exchange Regulations and the rules and regulations thereunder and cooperate with the European Regulators pursuant to and to the extent of their respective regulatory authority, and take reasonable steps necessary to cause its agents to cooperate with the European Regulators pursuant to their regulatory authority.
- (c) The Company and its Directors, and to the extent they are involved in the activities of the U.S. Regulated Subsidiaries, the Company's officers, and those of its employees whose principal place of business and residence is outside of the United States, shall be deemed to irrevocably submit to the jurisdiction of the U.S. federal courts and the SEC for the purposes of any suit, action or proceeding pursuant to the U.S. federal securities laws and the rules and regulations thereunder, commenced or initiated by the SEC arising out of, or relating to, the activities of the U.S. Regulated Subsidiaries (and be deemed to agree that NYSE Group may serve as the U.S. agent for purposes of service of process in such suit, action or proceeding relating to NYSE Group or any of its subsidiaries and ISE Holdings may serve as the U.S. agent for purposes of service of process in such suit, action or proceeding relating to ISE Holdings or any of its subsidiaries), and the Company and each such Director, officer or employee, in the case of any such Director, officer or employee by virtue of his or her acceptance of any such position, shall be deemed to waive, and agree not to assert by way of motion, as a defense or otherwise in any such suit, action or proceeding, any claims that it or they are not personally subject to the jurisdiction of the SEC, that such suit, action or proceeding is an inconvenient forum or that the venue of such suit, action or proceeding is improper, or that the subject matter thereof may not be enforced in or by such courts or agency.
- (d) To Company and its Directors, and to the extent they are involved in the activities of any European Market Subsidiary, the Company's officers and employees, shall be deemed to irrevocably submit to the jurisdiction of the European Regulators and to courts in the capital city of the country of each such regulator for the purposes of any suit, action or proceeding pursuant to the European Exchange Regulations and the rules and regulations thereunder, commenced or initiated by the European Regulators arising out of, or relating to, the activities of the European Market Subsidiaries, and the Company and each such Director, officer or employee, in the case of any such Director, officer or employee by virtue of his or her acceptance of any such position, shall be deemed to waive, and agree not to assert by way of motion, as a defense or otherwise in any such suit, action or proceeding, any claims that it

Table of Contents

or they are not personally subject to the jurisdiction of the European Regulators, that such suit, action or proceeding is an inconvenient forum or that the venue of such suit, action or proceeding is improper, or that the subject matter thereof may not be enforced in or by such courts or regulator.

- (e) The Company's books and records shall at all times be subject to inspection and copying by (i) the SEC; (ii) each of the European Regulators; (iii) any U.S. Regulated Subsidiary, to the extent that such books and records are related to the activities of such U.S. Regulated Subsidiary or any other U.S. Regulated Subsidiary over which such U.S. Regulated Subsidiary has regulatory authority or oversight; and (iv) any European Market Subsidiary, to the extent that such books and records are related to the activities of such European Market Subsidiary or any European Regulated Market over which such European Market Subsidiary has regulatory authority or oversight;
- (f) (i) For so long as the Company directly or indirectly controls any U.S. Regulated Subsidiary, the books, records, premises officers, Directors and employees of the Company shall be deemed to be the books, records, premises officers, Directors and employees of such U.S. Regulated Subsidiaries for purposes of and subject to oversight pursuant to the Exchange Act; and (ii) for so long as the Company directly or indirectly controls any European Market Subsidiary, the books, records, premises officers, Directors and employees of the Company shall be deemed to be the books, records, premises officers, Directors and employees of such European Market Subsidiaries for purposes of and subject to oversight pursuant to the European Exchange Regulations.
- (g) The Company's books and records related to U.S. Regulated Subsidiaries shall be maintained within the United States, and the Company's books and records related to European Market Subsidiaries shall be maintained within the home jurisdiction of one or more European Market Subsidiaries. If and to the extent that any of the Company's books and records may relate to both European Market Subsidiaries and U.S. Regulated Subsidiaries, the Company shall be entitled to maintain such books and records either in the home jurisdiction of one or more European Market Subsidiaries or in the United States.
- (h) All confidential information that shall come into the possession of the Company pertaining to:
 - (i) the self-regulatory function of any U.S. Regulated Subsidiary, in each case to the extent that such entity continues to be controlled, directly or indirectly, by the Company (including but not limited to disciplinary matters, trading data, trading practices and audit information) contained in the books and records of such U.S. Regulated Subsidiary (the U.S. Regulated Subsidiary's Confidential Information); or
 - (ii) the self-regulatory function of any European Market Subsidiary under the European Exchange Regulations as operator of a European Regulated Market (including but not limited to disciplinary matters, trading data, trading practices and audit information) contained in the books and records of such European Market Subsidiary (the European Market Subsidiary's Confidential Information),

in each case, shall (x) not be made available to any Person (other than as provided in this article 3.2(h)) other than to those officers, Directors, employees and agents of the Company that have a reasonable need to know the contents thereof, (y) be retained in confidence by the Company and the officers, Directors, employees and agents of the Company, and (z) not be used for any commercial purposes.

Notwithstanding the foregoing provisions of this article 3.2, nothing in these articles shall limit or impede (x) the rights of the SEC or any U.S. Regulated Subsidiary to have access to

Table of Contents

and examine such U.S. Regulated Subsidiary's Confidential Information pursuant to the U.S. federal securities laws and the rules and regulations thereunder, (y) the rights of the European Regulators or any European Market Subsidiary to have access to and examine such European Market Subsidiary's Confidential Information pursuant to the European Exchange Regulations, or (z) the ability of any officers, Directors, employees or agents of the Company to disclose (1) the U.S. Regulated Subsidiary's Confidential Information to the SEC or the U.S. Regulated Subsidiary or (2) the European Market Subsidiary's Confidential Information to the European Regulators or the European Market Subsidiary.

- (i) For so long as the Company directly or indirectly controls any U.S. Regulated Subsidiary, the Company, its Directors, officers and employees shall give due regard to the preservation of the independence of the self-regulatory function of such U.S. Regulated Subsidiary (to the extent of such U.S. Regulated Subsidiary's self-regulatory function) and to its obligations to investors and the general public, and shall not take any actions that would interfere with the effectuation of any decisions by the board of directors or managers of such U.S. Regulated Subsidiary relating to its regulatory responsibilities (including enforcement and disciplinary matters) or that would interfere with the ability of the U.S. Regulated Subsidiary to carry out its responsibilities under the Exchange Act.

- (j) For so long as the Company directly or indirectly controls any European Market Subsidiary, the Company, its Directors, officers and employees shall give due regard to the preservation of the independence of the self-regulatory function of such European Market Subsidiary (to the extent of such European Market Subsidiary's self-regulatory function) and to its obligations to investors and the general public, and shall not take any actions that would interfere with the effectuation of any decisions by the board of directors or managers of such European Market Subsidiary relating to its regulatory responsibilities (including enforcement and disciplinary matters) or that would interfere with the ability of the European Market Subsidiary to carry out its regulatory responsibilities under the European Exchange Regulations.

- (k) In discharging his or her responsibilities as a member of the Board of Directors, each Director must, to the fullest extent permitted by applicable law, take into consideration the effect that the Company's actions would have on the ability of: (i) any European Market Subsidiary to carry out its responsibilities under the European Exchange Regulations as operators of European Regulated Markets, (ii) the U.S. Regulated Subsidiaries to carry out their responsibilities under the Exchange Act, (iii) the U.S. Regulated Subsidiaries, NYSE Group (if and to the extent that NYSE Group continues to exist as a separate entity), ISE Holdings (if and to the extent that ISE Holdings continues to exist as a separate entity) and the Company (1) to engage in conduct that fosters and does not interfere with the ability of the U.S. Regulated Subsidiaries, NYSE Group (if and to the extent that NYSE Group continues to exist as a separate entity), ISE Holdings (if and to the extent that ISE Holdings continues to exist as a separate entity) and the Company to prevent fraudulent and manipulative acts and practices in the securities markets; (2) to promote just and equitable principles of trade in the securities markets; (3) to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, (iv) to remove impediments to and perfect the mechanisms of a free and open market in securities and a U.S. national securities market system, and (v) in general, to protect investors and the public interest; provided that nothing in this article 3.2(k) shall create any duty owed by any Director, officer or employee of the Company to any Person to consider, or afford any particular weight to, any of the foregoing matters in this article 3.2(k) or to limit his or her consideration to such matters.

- (l) In discharging his or her responsibilities as a member of the Board or as an officer or employee of the Company, each such Director, officer or employee shall (i) comply with the

Table of Contents

U.S. federal securities laws and the rules and regulations thereunder, (ii) comply with the European Exchange Regulations and the rules and regulations promulgated thereunder, (iii) cooperate with the SEC, (iv) cooperate with the European Regulators, (v) cooperate with the U.S. Regulated Subsidiaries pursuant to and to the extent of their regulatory authority and (vi) cooperate with the European Market Subsidiaries pursuant to, and to the extent of, their regulatory authority; provided that nothing in this article 3.2(l) shall create any duty owed by any Director, officer or employee of the Company to any Person to consider, or afford any particular weight to, any of the foregoing matters in this article 3.2(l) or to limit his or her consideration to such matters.

- (m) The Company shall take reasonable steps necessary to cause the Company's officers, Directors and employees, prior to accepting a position as an officer, Director or employee, as applicable, of the Company to agree and consent in writing to the applicability to him or her of the requirements in the preceding paragraphs of this article 3.2 with respect to their activities related to any U.S. Regulated Subsidiary or European Market Subsidiary, as applicable.

CHAPTER III

AUTHORISED CAPITAL; SHARES; REGISTER OF SHAREHOLDERS

4 Authorised capital

4.1 The authorised capital of the Company is one billion euro (EUR 1,000,000,000).

4.2 The authorised capital of the Company is divided into five hundred million (500,000,000) Ordinary Shares with a nominal value of one euro (EUR 1) each, numbered 1 through 500,000,000 and five hundred million (500,000,000) Preference Shares, with a nominal value of one euro (EUR 1) each, numbered P1 through P500,000,000.

5 Shares; register of Shareholders

5.1 All Shares shall be registered and shall be available in the form of an entry in the register of Shareholders. No share certificates shall be issued.

5.2 With due observance of the applicable provisions of the laws of the Netherlands in respect of Shares, a register of Shareholders shall be kept by or on behalf of the Company, which register shall be regularly updated and, at the discretion of the Board, may, in whole or in part, be kept in more than one copy and at more than one address. Part of the register of Shareholders may be kept abroad in order to comply with applicable foreign statutory provisions or rules of the New York Stock Exchange, the Frankfurt Stock Exchange and any other stock exchange where Shares or depositary receipts of Shares are listed.

5.3 The form and contents of the register of Shareholders shall be determined by the Board with due observance of the provisions of articles 5.2 and 5.5.

5.4 All entries and notes in the register shall be signed by one or more persons authorised to represent the Company.

5.5 Each Shareholder's name, address and such further information as required by the laws of the Netherlands or considered appropriate by the Board, shall be recorded in the register of Shareholders.

Edgar Filing: NYSE Euronext - Form 425

- 5.6** Upon his request, a Shareholder shall be provided with written evidence of the contents of the register of Shareholders with regard to the Shares registered in his name free of charge, and the statement so issued may be validly signed on behalf of the Company by a person to be designated for that purpose by the Board. In order to comply with applicable foreign statutory provisions or rules of the New York Stock Exchange, the Frankfurt Stock Exchange and any other stock exchange where Shares or depositary receipts of Shares are listed, the Company may allow inspection of the register of

G-80

Table of Contents

Shareholders by, or provide information included in the register of Shareholders to, any applicable supervisory authority.

5.7 The provisions of articles 5.5 and 5.6 shall equally apply to persons who hold a pledge on or usufruct in a Share.

CHAPTER IV

ISSUANCE OF SHARES

6 Resolution to issue; conditions

6.1 Shares may be issued pursuant to a resolution of the General Meeting, or of another body of the Company designated for that purpose by a resolution of the General Meeting for a fixed period that may not exceed five (5) years. On such designation, the number and class of Shares which may be issued must be specified. The designation may be extended, from time to time, for a period not exceeding five (5) years. Unless the designation provides otherwise, it may not be withdrawn. A resolution of the General Meeting to issue Shares or to designate another body of the Company as the competent body to issue Shares can only be adopted at the proposal of the Board.

6.2 Within eight (8) days after each resolution of the General Meeting to issue Shares or to designate another body of the Company as the competent body to issue Shares, the full wording of the resolution involved shall be deposited at the office of the Dutch Trade Register.

6.3 Within eight (8) days after the end of each calendar quarter, each issue of Shares in such calendar quarter shall be notified to the office of the Dutch Trade Register, stating the number of Shares issued.

6.4 A resolution to issue Shares shall stipulate the issue price and the other conditions of issue. The issue price shall not be less than par, without prejudice to the provisions laid down in Section 2:80, subsection 2, of the Dutch Civil Code.

6.5 If Preference Shares are issued a General Meeting will be convened to be held not later than twenty-four (24) months after the day on which Preference Shares were first issued. At that General Meeting, the repurchase or cancellation of the Preference Shares will be considered. If the General Meeting does not resolve to repurchase or to cancel the Preference Shares, then each twelve (12) months after the latter General Meeting, a General Meeting will be convened and held to consider the repurchase or cancellation of the Preference Shares, until no Preference Shares will be outstanding.

The provisions above in this article 6.5 will not apply to Preference Shares issued pursuant to a resolution of the General Meeting.

6.6 The provisions of articles 6.1 through 6.3 shall apply by analogy to the granting of rights to subscribe for Shares, but shall not be applicable to the issue of Shares to persons exercising a right to subscribe for Shares previously granted.

7 Rights of pre-emption

7.1 Upon issuance of Ordinary Shares, each holder of Ordinary Shares shall have a right of pre-emption in proportion to the aggregate nominal value of his Ordinary Shares, subject to the provisions of articles 7.2, 7.3 and 7.6. Holders of Ordinary Shares shall have a similar right of pre-emption if rights are granted to subscribe for Ordinary Shares.

- 7.2** Holders of Ordinary Shares shall have no right of pre-emption on Ordinary Shares which are issued against non-cash contributions nor on Ordinary Shares which are issued to employees of the Company or of a group company as defined in Section 2:24b of the Dutch Civil Code, nor on Preference Shares which are issued. Holders of Preference Shares shall have no right of pre-emption on Ordinary Shares or Preference Shares which are issued.
- 7.3** Prior to each single issuance of Ordinary Shares, the right of pre-emption may be limited or excluded by a resolution of the General Meeting. The right of pre-emption may also be limited or excluded by

G-81

Table of Contents

the body of the Company designated pursuant to article 6.1 hereof, if, by a resolution of the General Meeting, it was designated and authorised for a fixed period, not exceeding five (5) years, to limit or exclude such right of pre-emption. The designation may be extended, from time to time, for a period not exceeding five years. Unless the designation provides otherwise, it may not be withdrawn. If less than one-half of the Company's issued capital is present or represented at the meeting, a majority of at least two-thirds of the votes cast shall be required for a resolution of the General Meeting to limit or exclude such right of pre-emption or to make such designation. A resolution of the General Meeting to limit or exclude the right of pre-emption or to designate another body of the Company as the competent body to limit or exclude the right of pre-emption can only be adopted at the proposal of the Board.

7.4 Within eight (8) days after each resolution of the General Meeting to designate another body of the Company as the competent body to limit or exclude the right of pre-emption, the full wording of the resolution involved shall be deposited at the office of the Dutch Trade Register.

7.5 The Company shall announce any issuance of Ordinary Shares with rights of pre-emption and the period of time within which such rights of pre-emption may be exercised in the Dutch Government Gazette (*Staatscourant*) and in a nationally distributed newspaper, unless the announcement is made to all holders of Ordinary Shares in writing to the address provided by each of them, and furthermore in such other manner as may be required to comply with the rules of the New York Stock Exchange, the Frankfurt Stock Exchange and any other stock exchange where Ordinary Shares or depositary receipts of Ordinary Shares are listed. Such rights of pre-emption can be exercised during at least two weeks after the day of notice in the Dutch Government Gazette (*Staatscourant*) or after the dispatch of the announcement to the Shareholders.

7.6 Holders of Ordinary Shares shall have no right of pre-emption in respect of Ordinary Shares which are issued to a person exercising a right to subscribe for Ordinary Shares previously granted.

8 Payment for Shares

8.1 The full nominal value of each ordinary share must be paid upon subscription, and, in addition, if the ordinary share is issued at a higher amount, the difference between such amounts. Preference Shares may be issued against partial payment, provided that at least one-fourth of the nominal value must be paid upon the issuance.

8.2 Payment for a Share must be made in cash insofar as no non-cash contribution has been agreed upon. Payment in a currency other than euros may only be made with the consent of the Company and with due observance of the provisions of Section 2:93a of the Dutch Civil Code.

8.3 Non-cash contributions on Shares are subject to the provisions of Section 2:94b of the Dutch Civil Code.

8.4 The Board may at any desired time determine the day on which further payments on non-fully paid-up Preference Shares must be made, and in what amount. The Board shall give the holders of the Preference Shares immediate notice of such resolution; there must be at least thirty (30) days between that notification and the day on which the payment must have occurred.

8.5 The Board shall be authorised to perform legal acts relating to non-cash contributions on Shares and other legal acts as referred to in Section 2:94 of the Dutch Civil Code, without prior approval of the General Meeting.

CHAPTER V

OWN SHARES; REDUCTION OF THE ISSUED CAPITAL

9 Own Shares

G-82

Table of Contents

- 9.1** When issuing Shares, the Company may not subscribe for its own Shares.
- 9.2** The Company may acquire fully paid-up Shares or depositary receipts thereof, provided either no valuable consideration is given, or:
- (a) the Distributable Equity is at least equal to the purchase price; and
 - (b) the aggregate nominal value of the Shares or depositary receipts thereof to be acquired, and of the Shares or depositary receipts thereof already held, by the Company and its Subsidiaries, and of the Shares and depositary receipts thereof held in pledge by the Company, does not exceed one-half of the Company's issued capital; and
 - (c) the Board has been authorised by the General Meeting thereto. Such authorisation shall be valid for not more than eighteen (18) months. The General Meeting must specify in the authorisation the number of Shares which may be acquired, the manner in which they may be acquired and the limits within which the price must be set.
- 9.3** The validity of the acquisition shall be decided on the basis of the amount of equity appearing from the last adopted balance sheet, less the aggregate of the acquisition price for Shares or depositary receipts thereof, the amount of loans as referred to in article 10.3 and any distributions of profits or at the expense of reserves to others which have become due by the Company and its Subsidiaries after the balance sheet date. An acquisition in accordance with article 9.2 shall not be permitted, if more than six (6) months have elapsed after the end of a financial year without the annual accounts having been adopted.
- 9.4** The authorisation referred to in article 9.2(c) is not required to the extent the Company acquires its own Shares which are quoted in the listing of any stock exchange in order to transfer them to employees of the Company or of a group company of the Company pursuant to a plan applicable to such employees.
- 9.5** The foregoing provisions of this article 9 shall not apply to Shares or depositary receipts thereof which the Company acquires by universal succession of title.
- 9.6** The acquisition of Shares or depositary receipts thereof by a Subsidiary shall be subject to the provisions of Section 2:98d of the Dutch Civil Code.
- 9.7** Shares or depositary receipts thereof held by the Company may be transferred pursuant to a resolution of the Board.
- 9.8** In the General Meeting, no voting rights may be exercised for any Share held by the Company or a Subsidiary, or for any Share for which the Company or a Subsidiary holds the depositary receipts. However, pledgees and usufructuaries of Shares owned by the Company or a Subsidiary are not excluded from exercising voting rights if the right of pledge or the usufruct was created before the Share was owned by the Company or such Subsidiary. The Company or a Subsidiary may not exercise voting rights for a Share in which it holds a right of pledge or a usufruct.

10 Financial assistance

10.1

Edgar Filing: NYSE Euronext - Form 425

The Company may not give security, guarantee the price, or in any other way answer to or bind itself, either severally or jointly, for or on behalf of third parties, with a view to a subscription for or an acquisition of Shares or depositary receipts thereof by others. This prohibition also applies to Subsidiaries.

- 10.2** The prohibition of article 10.1 shall not apply to Shares or depositary receipts thereof subscribed or acquired by or for employees of the Company or of a group company as defined in Section 2:24b of the Dutch Civil Code.

G-83

Table of Contents

10.3 The Company and its Subsidiaries may provide loans with a view to the subscription or acquisition by others of Shares or depositary receipts thereof in the Company, but only to the extent permitted under and in compliance with Section 2:98c of the Dutch Civil Code.

11 Reduction of the issued capital

11.1 The General Meeting may resolve to reduce the Company's issued capital in accordance with the relevant provisions prescribed by the laws of the Netherlands, provided that such resolution can only be adopted at the proposal of the Board. Such resolution must designate the Shares to which the resolution pertains and must provide for the implementation of the resolution.

11.2 A reduction of the Company's issued capital may be effected:

- (a) by cancellation of Shares held by the Company or for which the Company holds the depositary receipts; or
- (b) by reducing the nominal value of Shares, to be effected by an amendment of these articles of association; or
- (c) by cancellation of Preference Shares.

11.3 If all issued Preference Shares are cancelled, the following shall be paid on each Preference Share:

- (a) as repayment: an amount equal to the nominal amount paid on that Preference Share; and
- (b) as a distribution at the expense of the Distributable Equity, subject to the provisions of article 24.9:
 - (i) any missing Preferred Dividend in relation to financial years prior to the financial year in which cancellation occurs;
 - (ii) any Preferred Dividend accrued during the financial year in which cancellation occurs but unpaid, to be calculated for this purpose over the period ending on the day of cancellation of the Preference Share.

11.4 If less than one-half of the Company's issued capital is present or represented at the meeting, a majority of at least two-thirds of the votes cast shall be required for a resolution of the General Meeting to reduce the Company's issued capital.

11.5 A reduction of the nominal value of Shares without repayment must be effected in proportion to all Shares. This principle may be deviated from with the consent of all Shareholders.

11.6 The notice convening a General Meeting of Shareholders, at which a proposal to reduce the Company's issued capital will be made, shall state the purpose of the capital reduction and the manner in which it is to be achieved.

11.7 A reduction of the Company's issued capital shall furthermore be subject to the provisions of Sections 2:99 and 2:100 of the Dutch Civil Code.

CHAPTER VI

TRANSFER OF SHARES

12 Transfer of Shares

12.1 For as long as Shares or depositary receipts thereof are admitted to the official listing on a regulated stock exchange as referred to in Section 2:86c of the Dutch Civil Code, the transfer of a Share and the creation or transfer of a limited right thereon shall require a private deed to that effect and, except in the event the Company is party to that legal act, an acknowledgement in writing by the Company of the transfer. The acknowledgement shall be given in the private deed, or by a dated statement embodying

G-84

Table of Contents

such acknowledgement on the private deed or on a true copy or extract thereof duly authenticated by a civil law notary or by the transferor. Serving of such private deed, true copy or extract on the Company shall be deemed to be equal to acknowledgement.

12.2 If the Shares or the depositary receipts thereof are no longer admitted to an official listing of a regulated stock exchange as referred to in Section 2:86c of the Dutch Civil Code, Section 2:86 of the Dutch Civil Code will apply, as a result of which a transfer of a Share and the creation or transfer of a limited right shall, inter alia, require a notarial deed to that effect.

12.3 The acknowledgement of transfer by the Company shall be signed by one or more persons authorised to represent the Company.

12.4 The provisions of articles 12.1 and 12.2 shall apply correspondingly to the allotment of Shares by distribution of any community.

CHAPTER VII

PLEDGING OF SHARES AND USUFRUCT ON SHARES

13 Pledging of Shares and usufruct on Shares

13.1 The provisions of article 12 shall apply by analogy to the pledging of Shares and to the creation or transfer of a usufruct on Shares.

13.2 Upon the creation of a right of pledge or usufruct on a Share, the voting rights attached to such Share may be assigned to the pledgee or usufructuary, with due observance of the relevant provisions of the laws of the Netherlands. Both the Shareholder without voting rights and the pledgee or usufructuary with voting rights shall have the rights conferred by the laws of the Netherlands upon holders of depositary receipts issued with a company's cooperation for shares in its capital. The pledgee or usufructuary without voting rights shall not have the rights referred to in the preceding sentence.

CHAPTER VIII

THE BOARD

14 Composition; remuneration; eligibility

14.1 Until the end of the annual General Meeting of Shareholders occurring in 2015 (the **Initial Board Term**), the Board shall consist of seventeen (17) members, constituted as follows: one (1) Executive Director A, being the Group CEO; one (1) Director B, being the Group Chairman; and fifteen (15) Non-Executive Directors, consisting of six (6) Non-Executive Directors A and nine (9) Non-Executive Directors B. Immediately following the expiry of the Initial Board Term, the number of Directors will be decreased and the Board shall consist of twelve (12) members (without designations as either Directors A or Directors B), constituted as follows: one (1) Executive Director, being the Group CEO; one (1) Director, being the Group Chairman; and ten (10) Non-Executive Directors. Only natural persons can be Directors. To the extent permitted under the laws of the Netherlands and subject to the terms of the articles and the Board Rules, and to the extent a Director is not appointed prior to the Closing Date as either an Executive Director or a Non-Executive Director, the Board shall determine whether a Director shall be designated as an Executive Director or as a Non-Executive Director.

14.2 Each of the Directors shall be appointed by the General Meeting for a term that will expire at the end of the next annual General Meeting of Shareholders or until his or her successor is elected or, if earlier, upon such Director's resignation, removal or death. During the Initial Board Term, each of the Directors (or his or her replacement pursuant to article 14.5) shall be nominated by the

Edgar Filing: NYSE Euronext - Form 425

Board for re-election to the Board pursuant to a binding nomination at each of the annual General Meetings of

G-85

Table of Contents

Shareholders occurring in 2012, 2013 and 2014; provided, however, that the Group Chairman and the Group CEO shall each be nominated by the Board pursuant to a binding nomination for re-election to the Board at the annual General Meetings of Shareholders occurring in 2012, 2013, 2014 and 2015 in accordance with articles 15.1 and 16.1. Notwithstanding the foregoing provisions of this article 14.2, in the event that the Board determines prior to the Closing Date that (i) the Company will qualify as a foreign private issuer as defined in Rule 3b-4(c) promulgated under the U.S. Securities Exchange Act (such status, **FPI Status**) and will maintain FPI Status on an ongoing basis following the Closing Date through the end of the Initial Chairman Term, and (ii) the Directors may be appointed by the General Meeting for a term that expires in 2015 (or in 2016 in the case of the Group Chairman and the Group CEO) and Directors are not otherwise required by applicable law, regulation or stock exchange listing standards to be elected at each annual General Meeting, then the Directors shall be appointed on or prior to the Closing Date by the General Meeting for a term ending at the end of the annual General Meeting of Shareholders occurring in 2015, except that the Group Chairman and the Group CEO shall each initially be appointed on or prior to the Closing Date for a term ending at the end of the annual General Meeting of Shareholders occurring in 2016.

- 14.3** Directors shall be appointed by the General Meeting by the vote in favour of at least two-thirds majority of the votes cast, representing more than one-half of the Company's issued share capital or, in the case of any person nominated by the Board for appointment as a Director, by the vote in favour of at least a majority of the votes cast. Notwithstanding the foregoing, the Board may submit a binding nomination in accordance with Section 2:133 of the Dutch Civil Code to nominate persons for appointment as Directors at the General Meeting of Shareholders and, in the event of any such binding nomination, the General Meeting shall appoint Directors solely from such binding nominations; provided, however, that the General Meeting may, by a resolution passed with at least a two-thirds majority of the votes cast, representing more than one-half of the Company's issued capital, resolve that the candidates proposed pursuant to any binding nomination shall not be appointed as Directors, in which case the Board shall have the right to submit a new binding nomination with respect to any Board seats which are to be filled for the appointment of Director(s) at a further General Meeting of Shareholders. A Director may be reappointed with due observance of the previous sentences.
- 14.4** A Director may be suspended or removed by the General Meeting at any time by a resolution passed with at least a two-thirds majority of the votes cast, representing more than one-half of the Company's issued capital. If permitted under the laws of the Netherlands, a Director may also be suspended by the Board. Any suspension may not last longer than three (3) months in the aggregate. If, at the end of that period, no decision has been taken on termination of the suspension, the suspension shall end.
- 14.5** In the event of a Director's resignation, removal or death prior to the end of the Initial Board Term, the Directors A shall make a recommendation to the Nominations, Governance and Corporate Responsibility Committee of a replacement candidate if the vacancy occurs in a Board seat previously held by a Director A, and the Directors B shall make a recommendation to the Nominations, Governance and Corporate Responsibility Committee of a replacement candidate if the vacancy occurs in a Board seat previously held by a Director B. Any person who is elected to the Board to fill a Board seat during the Initial Board Term that was previously held by a Director A or a Director B shall be designated as a Director A or a Director B, respectively, for purposes of article 14.1, but such person shall not constitute a Director A or a Director B (and shall instead have undesignated status) for purposes of article 17.8 unless such person is the Group Chairman or the Group CEO or is recommended by the Directors A (in the case of a vacancy in a Director A seat) or by the Directors B (in the case of a vacancy in a Director B seat) to fill the vacancy on the relevant Board Committee.
- In the event of the resignation, removal or death of the Group Chairman or the Group CEO prior to the end of their respective Initial Chairman Term or Initial CEO Term, the procedure under this article 14.5 shall apply mutatis mutandis, except that the recommendation of the Directors A or the Directors B, as applicable, shall be binding on the Nominations Governance and Corporate Responsibility Committee and on the Board, who shall nominate such nominee for appointment to the Board and shall appoint

Table of Contents

such nominee as the Group Chairman or the Group CEO, as applicable, concurrently with his or her appointment by the General Meeting until the expiration of the Initial Chairman Term or the Initial CEO Term, as applicable. The particular rights, authorities and responsibilities of the Group Chairman and the Group CEO under these articles and the Board Rules will be granted to their respective successors during the Initial Chairman Term or the Initial CEO Term, as applicable.

- 14.6** The Board may appoint a company secretary (the **Company Secretary**) who shall assist the Board. If a Company Secretary is appointed during the Initial Board Term, the individual with the position of General Corporate Counsel shall be appointed as the Company Secretary. The Company Secretary shall have such powers as are assigned to him, subject to the provisions of these articles of association, by the Board on or after his appointment.
- 14.7** The Company has a policy on the remuneration of the Board. The policy shall be adopted by the General Meeting, upon a proposal of the Human Resources and Compensation Committee of the Board. The policy on remuneration shall, in any case, include the subjects referred to in Sections 2:383c up to and including 2:383e of the Dutch Civil Code, insofar as these relate to the Board.
- 14.8** The Board shall determine, with due observance of the policy referred to in article 14.7, the remuneration and further conditions of employment for each member of the Board.
- 14.9** Proposals concerning plans or arrangements for share awards or share options to Directors shall be submitted by the Board to the General Meeting for its approval. Such proposals must, at a minimum, state the number of shares or share options that may be granted to the Board and the criteria that apply to the granting of such shares or share options or the alteration of such arrangements.
- 14.10** No person that is a U.S. Disqualified Person or a European Disqualified Person, may be a Director of the Company.
- 14.11** No person may be a Director of the Company unless he or she has agreed and consented in writing, in form and substance acceptable to the Company, to the applicability to him or her of the requirements set forth in article 3.2 with respect to his or her activities related to any U.S. Regulated Subsidiary or European Market Subsidiary, as applicable.
- 15** **Chairman of the Board**
- 15.1** The Board shall appoint one of the Directors to be the Chairman of the Board (the **Group Chairman**) for such period as the Board may decide, except that the person who was the Group Chairman as of the Closing Date shall have a term expiring at the end of the next annual General Meeting of Shareholders and shall be re-appointed as Group Chairman by the Board at the annual General Meetings occurring in 2012, 2013, 2014 and 2015 (the total term ending at the end of the annual General Meeting of Shareholders occurring in 2016 to be referred to as the **Initial Chairman Term**) concurrently with his re-election as a Director at such meetings, subject however to his earlier resignation, removal or death. Notwithstanding the foregoing provisions of this article 15.1, in the event that the Board determines prior to the Closing Date that (i) the Company will have and maintain FPI Status on an ongoing basis following the Closing Date through the end of the Initial Chairman Term, and (ii) the Directors may be appointed by the General Meeting for a term that expires in 2015 (or in 2016 in the case of the Group Chairman and the Group CEO) and Directors are not otherwise required by applicable law, regulation or stock exchange listing standards to be elected at each annual General Meeting, then the person who was the Group Chairman as of the Closing Date shall be appointed for a period ending at the end of the annual General Meeting of Shareholders occurring in 2016. During the Initial Chairman Term, the Board shall also appoint one of its Directors A as Vice Chairman of the Board (a **Group Vice Chairman**). The Group Vice Chairman shall only fulfil the duties of the Group Chairman under article 15.2.1 in case of his absence pursuant to article 15.4 and as specified in article 29.1, but shall have none of the other of the particular powers conferred upon the Group Chairman during the Initial Chairman Term.

Table of Contents

- 15.2** During the Initial Chairman Term, the responsibilities and authorities of the Group Chairman shall include:
- 15.2.1** leading the meetings of the Board, calling Board meetings and setting the agenda;
 - 15.2.2** initiating and developing overall [TopCo] Group strategy (i.e. strategic measures impacting the overall [TopCo] Group and measures requiring decisions on significant investment prioritizations);
 - 15.2.3** global relationship management and representation and global political and regulatory representation of the [TopCo] Group; and
 - 15.2.4** consultation rights in relation to appointments and removals of members of the Global Executive Committee selected by the Group CEO.
- 15.3** After the Initial Chairman Term, the Group Chairman shall be a Non-Executive Director and the responsibilities and authorities of the Group Chairman shall consist of the responsibilities and authorities provided for at such time in the Board Rules. The particular responsibilities and authorities granted to the Group Chairman in accordance with article 15.2 will terminate at the end of the Initial Chairman Term.
- 15.4** If no Group Chairman has been appointed or if the Group Chairman is absent or unable to take the chair, a meeting of the Board shall be presided over by the Group Vice-Chairman or, in the event of his absence or inability to take the chair, by a member of the Board designated for such purpose by the meeting to be entrusted with the duties of the Group Chairman at such meeting.
- 15.5** Until the first annual General Meeting of Shareholders occurring after the sixth anniversary of the Closing Date, the Group Chairman shall have his primary office in and perform his [TopCo] Group management tasks primarily out of Frankfurt, Germany, with his secondary office in New York, State of New York, United States of America, and the Group CEO shall have his primary office in and perform his [TopCo] Group management tasks primarily out of New York State of New York, United States of America, with his secondary office in Frankfurt, Germany, or vice-versa with the primary office locations of the Group Chairman and the Group CEO being located in New York, State of New York, United States of America and Frankfurt, Germany, respectively, and their secondary office locations in Frankfurt, Germany and New York, State of New York, United States of America, respectively.
- 16 Group CEO**
- 16.1** The Board shall appoint the Executive Director to be the chief executive officer of the [TopCo] Group (the **Group CEO**) for such period as the Board may decide, except that the person who was the Group CEO as of the Closing Date shall have a term expiring at the end of the next annual General Meeting of Shareholders and shall be reappointed as Group CEO by the Board at the annual General Meetings of Shareholders occurring in 2012, 2013, 2014 and 2015 (the total term ending at the end of the annual General Meeting of Shareholders occurring in 2016 to be referred to as the **Initial CEO Term**), concurrently with his re-election as a Director at such meetings, subject however to his earlier resignation, removal or death. Notwithstanding the foregoing provisions of this article 16.1, in the event that the Board determines prior to the Closing Date that (i) the Company will have and maintain FPI Status on an ongoing basis following the Closing Date through the end of the Initial CEO Term, and (ii) the Directors may be appointed by the General Meeting for a term that expires in 2015 (or in 2016 in the case of the Group Chairman and the Group CEO) and Directors are not otherwise required by applicable law, regulation or stock exchange listing standards to be elected at each annual General Meeting, then the person who was the Group CEO as of the Closing Date shall be appointed for a period ending at the end of the annual General Meeting of Shareholders occurring in 2016.

Table of Contents

- 16.2** During the Initial CEO Term, the Group CEO shall assume the typical roles of a CEO, including the following responsibilities and authorities:
- 16.2.1** the management and performance of the [TopCo] Group (including annual budget and business plan);
 - 16.2.2** initiating and developing business strategy of the [TopCo] Group for the global divisions and regions;
 - 16.2.3** developing integration policy and parameters to shape the [TopCo] Group, including systems, staffings and locations, for consideration of the Integration Committee, and having responsibility for execution of integration;
 - 16.2.4** serving as a member of the Strategy Committee; and
 - 16.2.5** chairing the Global Executive Committee and having the right of selection, appointment and removal of Global Executive Committee members, provided that the Group CEO shall closely consult with the Group Chairman (during the Initial Chairman Term) and the entire Board on any proposed appointments or removals of Global Executive Committee members.
- 17 Duties, decision-making process and allocation of duties; committees**
- 17.1** Subject to the restrictions imposed by these articles of association, the business and affairs of the Company and [TopCo] Group shall be managed by or under the direction of the Board.
- 17.2** The Non-Executive Directors shall supervise the policy and the fulfilment of duties of the Executive Director and the general affairs of the Company, and they shall be further entrusted with such duties as are and shall be determined by or pursuant to these articles of association or as set out in the Board Rules.
- 17.3** When making Board resolutions, each Director may cast one vote.
- 17.4** To the extent that the law, these articles of association or the Board Rules do not provide otherwise, all resolutions of the Board shall be adopted by a simple majority of the votes cast. The Board can only validly adopt resolutions in a meeting at which at least the majority of its members are present or represented. A member of the Board may authorise another member of the Board to represent him at the Board meeting and vote on his behalf.
- 17.5** Resolutions of the Board providing for:
- 17.5.1** appointment and removal of the Group Chairman and of the Group CEO in accordance with articles 14.5, 15.1 and 16.1, respectively;
 - 17.5.2** proposals to change the articles of association;

- 17.5.3** transformational M&A deals, which for purposes of this article 17.5.3 shall mean transactions (i) which require approval by the General Meeting pursuant to Section 2:107a of the Dutch Civil Code or (ii) which in view of their size and significance very materially change the business of the [Topco] Group, either in size or direction or geographic presence; and
- 17.5.4** major structural changes, which for purposes of this article 17.5.4 shall mean (i) any amendments to articles 2.3, 14.1, 15.5 or 17.7, (ii) changes or enhancements to the responsibilities and authorities of the Group Chairman during the Initial Chairman Term as provided in article 15.2, or changes or enhancements to the responsibilities of the Group Chairman after the Initial Chairman Term as provided in article 15.3 or (iii) changes or enhancements to the responsibilities and authorities of the Group CEO during the Initial CEO Term as provided in article 16.2,

Table of Contents

may only be adopted by a resolution passed with the vote in favour of more than sixty-six percent (66%) of the total number of Directors that would be in office if none of the Board seats would be vacant and all of the Directors would be able to perform their duties.

17.6 With due observance of these articles of association, the Board may establish further rules regarding its decision-making process and working methods, its internal organisation, the composition, duties and organisation of committees and any other matters, including matters concerning the Board, the Executive Director, the Non-Executive Directors, the committees established by the Board, the Group Chairman and the Group CEO (the **Board Rules**). During the Initial Chairman Term and the Initial CEO Term, the Board Rules may be amended and supplemented by the Board from time to time by a resolution adopted by more than sixty-six percent (66%) of the total number of Directors that would be in office if none of the Board seats would be vacant and all of the Directors would be able to perform their duties, and thereafter they may be amended and supplemented by the Board in accordance with the terms of the Board Rules. In case a change of the Board Rules at the same time would constitute a change to these articles of association, or would conflict with any provision of these articles of association, the change shall become effective only upon a change of these articles of association.

17.7 The Board may establish such committees as it may deem necessary, which committees may consist of one or more members of the Board. The Board appoints the members of each committee and determines the tasks of each committee. The Board may, at any time, change the duties and the composition of each committee, provided that during the Initial Board Term, any such changes shall require a resolution passed with the vote in favour of more than sixty-six percent (66%) of the total number of Directors that would be in office if none of the Board seats would be vacant and all of the Directors would be able to perform their duties.

During the Initial Chairman Term and the Initial CEO Term, the Board shall constitute the following committees (the **Board Committees**):

17.7.1 Audit, Finance and Risk Committee;

17.7.2 Nomination, Governance and Corporate Responsibility Committee;

17.7.3 Human Resources and Compensation Committee;

17.7.4 Strategy Committee;

17.7.5 Integration Committee; and

17.7.6 Technology Committee.

17.8 Each of the aforementioned Board Committees shall, during the Initial Board Term, consist of three Directors B and two Directors A. In the event of a vacancy on any Board Committee during the Initial Board Term, the Directors A shall make a recommendation to the Nominations, Governance and Corporate Responsibility Committee of a replacement candidate if the vacancy occurs in a Board seat previously held by a Director A, and the Directors B shall make a recommendation to the Nominations, Governance and Corporate Responsibility Committee of a replacement candidate if the vacancy occurs in a Board seat previously held by a Director B. A replacement member shall not constitute a Director A or a Director B (and shall instead have undesignated status) for purposes of this article 17.8 unless such person is the Group Chairman or the Group CEO or is recommended by the Directors A (in the case of a vacancy in a Director A seat) or by the Directors B (in the case of a vacancy in a Director B seat) to fill the vacancy on the relevant Board Committee.

Edgar Filing: NYSE Euronext - Form 425

17.9 During the Initial Chairman Term, the Group Chairman shall chair the Nomination, Governance and Corporate Responsibility Committee and the Strategy Committee and shall be a member of the Human Resources and Compensation Committee and the Integration Committee.

For the Initial CEO Term, the Group CEO shall chair the Integration Committee and shall be a member of the Strategy Committee.

G-90

Table of Contents

For the Initial Board Term, the Human Resources and Compensation Committee and the Audit, Finance and Risk Committee shall each be chaired by a Non-Executive Director A, and the Technology Committee shall be chaired by a Non-Executive Director B.

17.10 Meetings of the Board or any Board committees may be held by means of an assembly of the Directors in person at a formal meeting or by conference call, video conference or by any other means of communication, provided that all Directors participating in such meeting are able to communicate with each other simultaneously. Participation in a meeting held in any of the above ways shall constitute presence at such meeting.

17.11 Board resolutions and Board committee resolutions may also be adopted outside a formal meeting, in writing, provided that the proposal concerned is submitted in writing to all Directors or members of such Board committee, as applicable, then in office and none of them objects to the proposed manner of adopting resolutions. Adoption of resolutions in writing shall be effected by written statements from all Directors or Board committee members, as applicable, which are then in office.

18 Representation; conflict of interest

18.1 The Company shall be represented by the Board. The Executive Director shall also be authorised to represent the Company.

18.2 The Board may appoint persons with general or limited power to represent the Company. Each such person shall be competent to represent the Company, subject to the restrictions imposed on him. The Board shall determine each such person's title.

18.3 In the event of a conflict of interest between the Company and one or more Directors, the provisions of article 18.1 shall continue to apply unimpaired, unless the General Meeting has designated one or more other persons to represent the Company in the case at hand in the event of such a conflict.

19 Approval of Board resolutions

19.1 Resolutions of the Board entailing a significant change in the identity or character of the Company or its business are subject to the approval of the General Meeting, including in any case:

- (a) the transfer of all or nearly all of the business of the Company to a third party;
- (b) entering into or termination of long-term co-operations of the Company or a Subsidiary with any other legal entity or company or as fully liable partner in a limited partnership or general partnership, if this co-operation or termination is of major significance for the Company; and
- (c) acquiring or disposing of participating interests in the capital of a company of at least one-third of the sum of the assets of the Company as shown on its balance sheet plus explanatory notes or, if the Company prepares a consolidated balance sheet, its consolidated balance sheet plus explanatory notes according to the last adopted annual accounts of the Company, by the Company or a Subsidiary.

19.2 The absence of approval by the General Meeting of a resolution as referred to in article 19.1 shall not affect the authority of the Board or an Executive Director to represent the Company.

20 Vacancy or inability to act

If a seat on the Board is vacant or a Director is unable to perform his duties, the remaining Directors or Director's duties, rights and abilities shall be unchanged from that which existed prior to such vacancy or inability of a Director to perform duties, provided that if the seat for the Group CEO is vacant or the Group CEO is unable to perform his duties, the Group CEO's duties and responsibilities shall be temporarily fulfilled by the Non-Executive Directors or by a person to be designated for that

Table of Contents

purpose by the Non-Executive Directors. If all seats on the Board are vacant or all Directors or the sole Director, as the case may be, are unable to perform their duties, the management of the business and affairs of the Company shall be temporarily entrusted to one or more persons designated for that purpose by the General Meeting.

21 Indemnity

21.1 Subject to the provisions of article 21.3, the Company shall indemnify each current and former Director who is conducting a defense against (threatening) claims or who is subject to (threatening) investigations based on acts or failures to act in the exercise of his or her duties or any other duties currently or previously performed by him or her at the Company's request, or who is appearing in other legal proceedings in which he or she is involved as a current or former Director or based on any other duties currently or previously performed by him or her at the Company's request, with the exception of proceedings primarily aimed at pursuing a claim on his or her own behalf (not including any claim for recourse in relation to claims or investigations referred to above in this article 21.1) against all costs and expenses reasonably incurred by him or her and shall pay any damages or fines payable by the (former) Director as a result of an act or failure to act as referred to above in this article 21.1. This indemnification shall also apply to any claims by the Company or by a shareholder of the Company.

21.2 Costs, damages and fines incurred by the (former) Director as referred to under article 21.1 shall be paid by the Company upon having received a specification of those costs, damages and fines subject to an undertaking in writing by the (former) Director that he or she shall repay any reimbursed amount to the Company if it shall ultimately be determined that he or she is not entitled to indemnification under the provisions of this article 21 or if and to the extent an insurer subsequently also pays out the costs, damages and/ or fines to the (former) Director.

21.3 There shall be no entitlement to indemnity under this article 21:

- (a) if and to the extent the laws of the Netherlands would not permit such indemnification;
- (b) if and to the extent a competent court has established in a final and conclusive decision that the act or failure to act of the (former) Director may be characterized as wilful (*opzettelijk*), intentionally reckless (*bewust roekeloos*) or seriously culpable (*ernstig verwijtbaar*), unless the laws of the Netherlands provide otherwise or this would, in view of the circumstances of the case, be unacceptable according to standards of reasonableness and fairness; or
- (c) if and to the extent the costs, damages or fines payable by the (former) Director are covered by any liability insurance and the insurer has paid out the costs, damages or fines.

21.4 An amendment of this article 21 shall not prejudice any rights of a (former) Director if acquired under this article 21 before such amendment, unless the (former) Director specifically agrees with such amendment. If there is no specific agreement, the obligations of the Company under this article 21 shall apply as if the amendment was not implemented but only insofar as such amendment is a deterioration of the rights of such (former) Director. The indemnity shall also be for the benefit of any heirs of the (former) Director.

21.5 The relevant (former) Director shall follow the Company's instructions relating to the manner of his or her defense and consult with the Company in advance about the manner of such defense. The person concerned shall not: (i) acknowledge any personal liability, (ii) waive any defense, or (iii) agree on a settlement, without the Company's prior written consent.

Edgar Filing: NYSE Euronext - Form 425

- 21.6** The Company may take out liability insurance for the benefit of the (former) Directors. In case the Company has taken out liability insurance for the benefit of the (former) Director, the (former) Director shall, to the extent reasonable, act in accordance with the provisions of the insurance policy.
- 21.7** Any rights and obligations under this article 21 shall be governed by the laws of the Netherlands. Disputes between the Company and a (former) Director arising in relation to this indemnity shall be

G-92

Table of Contents

finally settled in accordance with the Arbitration Rules of the Netherlands Arbitration Institute. The arbitral tribunal shall be composed of three arbitrators. The place of arbitration shall be Amsterdam. The procedure shall be conducted in the English language. The arbitral tribunal shall decide in accordance with the rules of law (*naar de regelen des rechts*).

21.8 The Board may, by agreement or otherwise, give further implementation to the indemnity.

CHAPTER IX

FINANCIAL YEAR AND ANNUAL ACCOUNTS; PROFITS AND DISTRIBUTIONS

22 Financial year and annual accounts

22.1 The Company's financial year shall be the calendar year.

22.2 Annually, not later than four (4) months after the end of the financial year, the Board shall prepare annual accounts, and shall deposit the same for inspection by the Shareholders at the Company's office.

22.3 Within the same period, the Board shall also deposit the annual report for inspection by the Shareholders.

22.4 The annual accounts shall consist of a balance sheet, a profit and loss account and explanatory notes.

22.5 The annual accounts shall be signed by the Directors. If the signature of one or more of them is missing, this shall be stated and reasons for this omission shall be given.

22.6 The Company shall appoint an accountant to audit the annual accounts. Such appointment shall be made by the General Meeting. If it does not proceed thereto, then the Board shall be authorised to make such appointment. The appointment may be revoked by the General Meeting as well as, in case the appointment was made by the Board, by the Board. The appointment may be revoked for sound reasons only; such reasons shall not include a difference in opinion with regard to reporting methods or audit activities.

22.7 The Company shall ensure that the annual accounts and, insofar as required, the annual report and the information to be added by virtue of the laws of the Netherlands are kept at its office as from the day on which notice of the annual General Meeting of Shareholders is given in which the annual accounts and the annual report shall be discussed and in which the adoption of the annual accounts shall be resolved upon. Shareholders may inspect the documents at that place and obtain a copy free of charge.

22.8 The annual accounts, the annual report, the information to be added by virtue of the laws of the Netherlands and the audit by an accountant, as well as deposition of documents at the Dutch Trade Register, shall furthermore be subject to the provisions of Book 2, Title 9, of the Dutch Civil Code.

23 Adoption of the annual accounts and release from liability

23.1 The General Meeting shall adopt the annual accounts.

23.2 At the General Meeting of Shareholders at which it is resolved to adopt the annual accounts, any proposals concerning release of the Executive Directors from liability for the management of the Company or the [Topco] Group or concerning the release of the Non-Executive Directors for their supervision thereof, insofar as the exercise of their duties is reflected in the annual accounts or otherwise disclosed to the General Meeting prior to the adoption of the annual accounts, shall be brought up separately for discussion at such General Meeting of Shareholders or at a subsequent General Meeting of Shareholders.

24 **Profits and distributions**

24.1 Out of the profits earned in a financial year, primarily and insofar as possible, a preferred dividend (the **Preferred Dividend**) is paid on each Preference Share in an amount equal to (i) twelve (12) months

G-93

Table of Contents

EURIBOR, increased by (ii) a premium to be determined by the Board in line with market conditions per the date of the first issue of the Preference Shares with a maximum of five hundred basis points (500 bps), per annum, calculated over:

(c) the nominal amount paid on a Preference Share; and

(d) any missing Preferred Dividend, to be calculated for this purpose over the period ending on the day this amount is made payable.

If, in a financial year, no profit is made or the profits are insufficient to allow the distribution provided for in the preceding sentence, the deficit shall be paid at the expense of the profits earned in following financial years or, if possible, at the expense of any freely distributable reserve of the Company.

24.2 The Board shall, in its sole discretion, determine which part of the profits remaining after application of article 24.1 shall be reserved.

24.3 The allocation of profits remaining after application of articles 24.1 and 24.2 shall be determined by the General Meeting, provided that no further distributions shall be made on the Preference Shares.

24.4 Distribution of profits shall be made after adoption of the annual accounts if permissible under the laws of the Netherlands given the contents of the annual accounts.

24.5 The Board may resolve to make interim dividend distributions only to the extent that the requirements set forth in article 24.1 are satisfied as apparent from the interim statement of assets and liabilities referred to in article 24.9.

24.6 The General Meeting may resolve to make distributions at the expense of any reserve of the Company, provided that such resolution can only be adopted at the proposal of the Board.

24.7 Distributions on Shares payable in cash shall be paid in euro, unless the Board determines that payment shall be made in another currency.

24.8 Any distribution on Shares may be paid in kind in the form of Shares instead of in cash, provided that this will at all times require the approval of the Board and, if and to the extent the Board is not authorised to issue Shares and to limit or exclude the rights of pre-emption, a resolution of the body of the Company authorised to issue Shares and to limit or exclude the rights of pre-emption.

24.9 Distributions on Shares may be made only up to an amount which does not exceed the amount of the Distributable Equity and, if it concerns an interim dividend distribution or distribution at the expense of any reserve of the Company, compliance with this requirement will be evidenced by an interim statement of assets and liabilities as referred to in Section 2:105, subsection 4, of the Dutch Civil Code. The Company shall deposit the statement of assets and liabilities at the office of the Dutch Trade Register within eight (8) days after the day on which the resolution to make the distribution is published.

24.10 The date of payment of a distribution on Shares shall be determined by the body of the Company authorised to resolve on such distribution on Shares. A claim of a Shareholder for payment of a distribution on Shares shall be barred after five (5) years have

elapsed from the date such payment became due.

- 24.11** No distributions shall be made on Shares held by the Company in its own capital, unless these Shares have been pledged or a usufruct has been created in these Shares and the authority to collect distributions or the right to receive distributions, respectively, accrues to the pledgee or the usufructuary, respectively. For the computation of distributions, the Shares, on which no distributions shall be made pursuant to this article 24.11, shall not be taken into account.

G-94

Table of Contents

CHAPTER X

THE GENERAL MEETING

25 Annual General Meeting of Shareholders

25.1 The annual General Meeting of Shareholders shall be held within six (6) months after the end of the financial year.

25.2 The agenda for this annual General Meeting of Shareholders shall in any case contain the following business to be discussed:

- (a) discussion of the annual report;
- (b) discussion and adoption of the annual accounts;
- (c) release from liability of the Executive Director for his or her management during the financial year concerned and of the Non-Executive Directors for their supervision thereon;
- (d) appointments for any vacancies on the Board; and
- (e) allocation of profits.

The agenda shall furthermore contain other business presented for discussion by the Board or by Shareholders taking into account the provisions of these articles of association and announced with due observance of the provisions of article 27.

26 Other General Meetings of Shareholders

26.1 Other General Meetings of Shareholders shall be held as often as the Board or the Group CEO deems necessary, without prejudice to the provisions of this article 26.

26.2 Shareholders representing in the aggregate at least one-tenth of the Company's issued capital may request the Board to convene a General Meeting of Shareholders, stating specifically the business to be discussed.

26.3 Within three (3) months of it becoming apparent to the Board that the equity of the Company has decreased to an amount equal to or lower than one-half of the paid-up part of the capital, a General Meeting shall be held to discuss any requisite measures.

27 Notice, agenda and venue of meetings

Edgar Filing: NYSE Euronext - Form 425

- 27.1** Notice of General Meetings of Shareholders shall be given by the Board.
- 27.2** Notice of the meeting shall be given upon a term of at least forty-two (42) days prior to the day of the meeting.
- 27.3** The notice of the meeting shall always contain or be accompanied by the agenda for the meeting or shall mention where such agenda can be obtained, which shall, in any event, be at the offices of the Company in the Netherlands, without prejudice to the statutory provisions regarding reduction of the issued capital and amendment of the articles of association.
- 27.4** Items for which a written request has been filed to discuss at the General Meeting of Shareholders, by one or more holders of Shares, alone or jointly representing at least one-hundredth part of the Company's issued share capital or, according to the applicable official price list of the New York Stock Exchange, the Frankfurt Stock Exchange or any other stock exchange where Shares or depositary receipts of Shares are listed, a value of at least fifty million euro (EUR 50,000,000), or such other part of the Company's issued capital as may be required in this respect by the laws of the Netherlands from time to time, shall be included in the notice or announced in the same manner, provided that the

G-95

Table of Contents

Company received the substantiated request or a proposal for a resolution no later than on the sixtieth (60th) day before the date of the meeting.

- 27.5 A General Meeting of Shareholders shall be convened by electronic means of communication which is directly and permanently accessible until the meeting and furthermore in such other manner as may be required to comply with any applicable rules of the New York Stock Exchange, the Frankfurt Stock Exchange and any other stock exchange where Shares or depositary receipts of Shares are listed.
- 27.6 In addition to the provisions of article 27.5, the notice convening the meeting shall be sent to the addresses of the Shareholders shown in the register of Shareholders. With the consent of a Shareholder or the pledgee or usufructuary with voting rights, the notice of the meeting may also be given by a legible and reproducible message sent through electronic means of communication to the address provided for the purposes hereof by that Shareholder, pledgee or usufructuary to the Company.
- 27.7 General Meetings of Shareholders shall be conducted in the English language and are held in the municipality in which, according to these articles of association, the Company has its official seat, at Schiphol airport (municipality of Haarlemmermeer, the Netherlands), in any of the other territories of the municipality of Haarlemmermeer, the Netherlands or in any other municipality in the Netherlands. General Meetings of Shareholders may also be held elsewhere, in which case valid resolutions of the General Meeting may only be adopted if all of the Company's issued capital is present or represented.
- 28 **Admittance and rights at meetings**
- 28.1 Each Shareholder shall be entitled to attend the General Meetings of Shareholders, to address the meeting and, if the voting rights accrue to him, to exercise his voting rights, provided that the Board has been notified in writing of the intention to attend the meeting. Such notice must be received by the Board not later than on the date specified in the notice of the meeting.
- 28.2 The right to participate in the meeting in accordance with the provisions of article 28.1 may be exercised by a proxy authorised in writing, provided that the power of attorney has been received by the Board not later than on the date specified in the notice of the meeting. The requirement that the proxy must be in writing is complied with if the proxy is recorded electronically. The power of attorney may be provided to the Board by electronic means of communication.
- 28.3 If the voting rights attributable to a Share accrue to the usufructuary or the holder of a right of pledge on Shares, instead of to the holder of Shares, the holder of Shares shall likewise be authorised to attend the General Meeting of Shareholders and to address such meeting, provided that the Board has been notified of the intention to attend the meeting in accordance with the provisions of article 28.1. The provisions of article 28.2 shall apply correspondingly.
- 28.4 The persons who, on the twenty-eighth (28th) day before the day of the relevant General Meeting of Shareholders (the **record date**), are entitled to participate in and exercise voting rights at a General Meeting of Shareholders and have their names recorded as such in a register designated by the Board for that purpose, will be considered entitled to participate in and exercise voting rights at the relevant General Meeting of Shareholders in respect of those Shares, irrespective of who is entitled to the underlying Shares or depositary receipts of Shares at the actual time of the relevant General Meeting of Shareholders.
- 28.5 The Board may determine that the rights in respect of attending meetings referred to in article 28.1 may be exercised by electronic means of communication, either in person or by a proxy authorised in writing. In order to do so, a person entitled to attend the meeting must, through the electronic means of communication, be identifiable, be able to directly observe the proceedings at the meeting, be able to participate in the discussions and, if the voting rights accrue to him, be able to exercise his voting rights. The

Edgar Filing: NYSE Euronext - Form 425

Board may attach conditions to the use of the electronic means of communication, which conditions shall be announced with the notice of the meeting.

G-96

Table of Contents

- 28.6** At a meeting, each person present with voting rights, or his proxy authorised in writing, must sign the attendance list. The chairman of the meeting may decide that the attendance list must also be signed by other persons present at the meeting. The names of the persons who participate in the meeting pursuant to article 28.5 shall be added to the attendance list.
- 28.7** The Directors shall, as such, have the right to give advice in the General Meetings of Shareholders.
- 28.8** The chairman of the meeting shall decide on the admittance of other persons to the meeting.
- 29** **Chairman and secretary of the meeting**
- 29.1** General Meetings of Shareholders shall be presided over by the Group Chairman or, in the event of his absence, the Group Vice-Chairman or such other Director as may be appointed by the Group Chairman or, failing such appointment, by majority vote of the Directors present at the meeting.
- 29.2** If the chairman of the meeting has not been appointed in accordance with the provisions of article 29.1, the General Meeting itself shall appoint a chairman of the meeting. Until that moment, a member of the Board appointed for that purpose by the Board shall act as chairman of the meeting.
- 29.3** The chairman of the meeting shall appoint a secretary for the meeting.
- 30** **Minutes; recording of Shareholders resolutions**
- 30.1** The secretary of a General Meeting of Shareholders shall keep minutes of the proceedings at the meeting. The minutes shall be adopted by the chairman and the secretary of the meeting and as evidence thereof shall be signed by them.
- 30.2** The chairman of the meeting or those who convened the meeting may determine that a notarial record must be prepared of the proceedings at the meeting. The notarial record shall be co-signed by the chairman of the meeting.
- 30.3** The Board shall keep record of all resolutions adopted by the General Meeting. If the Board is not present or represented at a meeting, the chairman of the meeting shall ensure that the Board is provided with a transcript of the resolutions adopted, as soon as possible after the meeting. The records shall be deposited at the Company's office for inspection by the Shareholders. On application, each of them shall be provided with a copy of or an extract from the records at not more than cost price.
- 31** **Adoption of resolutions in a meeting**
- 31.1** Each Share confers the right to cast one vote.
- 31.2** To the extent that the laws of the Netherlands or these articles of association do not provide otherwise, all resolutions of the General Meeting shall be adopted by a simple majority of the votes cast, without a quorum being required. In the event that a quorum is required pursuant to the laws of the Netherlands or these articles of association, Shares held in excess of the Voting Limitation shall

Edgar Filing: NYSE Euronext - Form 425

not be counted as present at the General Meeting of Shareholders and shall not be counted as outstanding Shares of the Company for purposes of determining whether there is a quorum, unless and only to the extent that the Voting Limitation has ceased to apply pursuant to article 34.2.

- 31.3** If there is a tie in voting, the proposal shall be deemed to have been rejected, without prejudice to the provisions of article 32.3.
- 31.4** If the formalities for convening and holding of General Meetings of Shareholders, as prescribed by the laws of the Netherlands or these articles of association, have not been complied with, valid resolutions of the General Meeting may only be adopted in a meeting, if in such meeting all of the Company's issued capital is present or represented and such resolutions are carried by unanimous vote.
- 31.5** When determining how many votes are cast by Shareholders, how many Shareholders are present or represented, or what portion of the Company's issued capital is present or represented, no account shall

G-97

Table of Contents

be taken of Shares for which no vote can be cast pursuant to the laws of the Netherlands or these articles of association.

32 Voting

32.1 All voting shall take place orally. The chairman is, however, entitled to decide that votes be cast by a secret ballot. Any vote on a person at a General Meeting of Shareholders can only be made if the name of that person has been placed on the agenda for that meeting at the time the notice for that meeting is given. If it concerns the holding of a vote on persons, anyone present at the meeting with voting rights may demand a vote by a secret ballot. Votes by secret ballot shall be cast by means of secret, unsigned ballot papers.

32.2 Blank and invalid votes shall not be counted as votes.

32.3 If a majority of the votes cast is not obtained in an election of persons, a second free vote shall be taken. If a majority is not obtained again, further votes shall be taken until either one person obtains a majority of the votes cast or the election is between two persons only, both of whom receive an equal number of votes. In the event of such further elections (not including the second free vote), each election shall be between the candidates in the preceding election, with the exclusion of the person who received the smallest number of votes in such preceding election. If in the preceding election more than one person has received the smallest number of votes, it shall be decided which candidate should not participate in the new election by randomly choosing a name. If votes are equal in an election between two persons, it shall be decided who is elected by randomly choosing a name.

32.4 Resolutions may be adopted by acclamation if none of the persons with voting rights present or represented at the meeting objects.

32.5 The Board may decide that each person entitled to vote is authorised to vote by electronic means of communication, either in person or by proxy. In such case, it shall be required that the person entitled to vote can be identified through the electronic means of communication and can take knowledge of the discussions at the meeting directly. The Board may attach conditions to the use of the electronic means of communication, which conditions will be announced when convening the meeting and will be published on the Company's website.

32.6 The chairman's decision at the meeting on the result of a vote shall be final and conclusive. However, if the correctness of such decision is challenged immediately after it is pronounced, a new vote shall be taken if either the majority of the persons with voting rights present or represented at the meeting or, where the original vote was not taken by roll call or in writing, any person with voting rights present or represented at the meeting, so demands. The legal consequences of the original vote shall be made null and void by the new vote.

33 Meetings of holders of Preference Shares

33.1 Meetings of holders of Preference Shares are held as frequently as a resolution is required by the meeting in question and as frequently as is deemed desirable by the Board, or by one or more holder(s) of Preference Shares.

33.2 The provisions of articles 25 through 32 apply mutatis mutandis, provided that (i) the convocation shall be made no later than on the eighth (8th) day preceding the meeting, (ii) in deviation from the provisions of article 29, the meeting of holders of Preference Shares shall appoint its own chairman and (iii) the convocation will be made by means of a notice of the meeting at the addresses of the holders of Preference Shares listed in the shareholders' register or to the extent the holder of Preference Shares consents thereto, he/she may be notified by a legible message sent electronically to the address that he/she has given to the Company for this purpose.

G-98

Table of Contents**CHAPTER XI****LIMITATIONS ON VOTING AND OWNERSHIP****34** Voting limitation

34.1 Notwithstanding any other provision of these articles of association and unless and until such Person has complied in full with all Shareholder Voting Obligations, (1) no Person, either alone or together with its Related Persons, as of any record date for the determination of Shareholders entitled to vote on any matter, shall be entitled to vote or cause the voting of Shares beneficially owned by such Person or its Related Persons, in person or by proxy or through any voting agreement or other arrangement, to the extent such Shares entitle the holder(s) thereof to cast more than twenty percent (20%) of all votes that may be cast on such matter, without giving effect to this article 34 (such threshold being hereinafter referred to as the **Voting Limitation**) and the Company shall disregard any such votes purported to be cast in excess of the Voting Limitation and (2) if any Person, either alone or together with its Related Persons, is a party to any agreement, plan or other arrangement relating to Shares entitling the holder thereof to vote on any matter with any other Person, either alone or together with its Related Persons, under circumstances that would result in Shares that would be subject to such agreement, plan or other arrangement not being voted on any matter, or the withholding of any proxy relating thereto, where the effect of such agreement, plan or other arrangement would be to enable any Person, but for this article 34, either alone or together with its Related Persons, to vote, possess the right to vote or cause the voting of Shares entitling the holder(s) thereof to cast votes that would exceed twenty percent (20%) of all votes that may be cast on any matter (assuming that all Shares that are subject to such agreement, plan or other arrangement will not entitle the holder(s) thereof to cast votes on such matter) (the **Recalculated Voting Limitation**), then the Person, either alone or together with its Related Persons, shall not be entitled to vote or cause the voting of Shares beneficially owned by such Person, either alone or together with its Related Persons, in person or by proxy or through any voting agreement or other arrangement, to the extent that such Shares represent in the aggregate more than the Recalculated Voting Limitation, and the Company shall disregard any such votes purported to be cast in excess of the Recalculated Voting Limitation.

34.2 The Voting Limitation and the Recalculated Voting Limitation, as applicable, shall apply to each Person unless and until it has complied in full with each of the following obligations (jointly the **Shareholder Voting Obligations**):

- (a) such Person shall have delivered to the Board a notice in writing, not less than forty-five (45) days (or such shorter period as the Board shall expressly consent to) prior to any vote, of such Person's intention, either alone or together with its Related Persons, to vote or cause the voting of Shares beneficially owned by such Person or its Related Persons, in person or by proxy or through any voting agreement or other arrangement, in excess of the Voting Limitation or the Recalculated Voting Limitation, as applicable; and
- (b) such Person shall have obtained a written confirmation from the Board that (i) the Board has resolved to expressly permit such voting, (ii) such resolution has been filed with, and approved by, the SEC under Section 19(b) of the Exchange Act, and has become effective thereunder and (iii) such resolution has been filed with, and to the extent required, approved by, each European Regulator having appropriate jurisdiction and authority.

34.3 Subject to its fiduciary obligations under applicable law, the Board shall not adopt any resolution pursuant to article 34.2 unless the Board shall have determined that:

- (a) the exercise of such voting rights or the entering into of such agreement, plan or other arrangement, as applicable, by such Person, either alone or together with its Related Persons, (i) will not impair the ability of any U.S. Regulated Subsidiary, the Company, NYSE Group (if and to the extent that NYSE Group continues to exist as a separate entity) or ISE Holdings (if and to the extent that ISE Holdings continues to exist as a separate entity) to discharge

G-99

Table of Contents

their respective responsibilities under the Exchange Act and the rules and regulations thereunder, (ii) will not impair the ability of any European Market Subsidiary, the Company or Euronext (if and to the extent that Euronext continues to exist as a separate entity) to discharge their respective responsibilities under the European Exchange Regulations and (iii) is otherwise in the best interests of (w) the Company, (x) its Shareholders, (y) the U.S. Regulated Subsidiaries and (z) the European Market Subsidiaries;

- (b) the exercise of such voting rights or the entering into of such agreement, plan or other arrangement, as applicable, by such Person, either alone or together with its Related Persons, will not impair (i) the SEC's ability to enforce the Exchange Act or (ii) the European Regulators' ability to enforce the European Exchange Regulations;
- (c) in the case of a resolution to approve the exercise of voting rights in excess of twenty percent (20%) of all votes that may be cast on such matter, (i) neither such Person nor any of its Related Persons (x) is subject to any statutory disqualification (as defined in Section 3(a)(39) of the Exchange Act) (any such person subject to statutory disqualification being referred to in these articles of association as a U.S. Disqualified Person) or (y) has been determined by a European Regulator to be in violation of laws or regulations adopted in accordance with the European Directive on Markets in Financial Instruments applicable to any European Market Subsidiary requiring such person to act fairly, honestly and professionally (any such person, failing to meet such standard being referred to in these articles of association as a European Disqualified Person), (ii) for so long as the Company directly or indirectly controls NYSE Arca or NYSE Arca Equities or any facility of NYSE Arca, neither such Person nor any of its Related Persons is an ETP Holder (as defined in the NYSE Arca Equities rules of NYSE Arca, as such rules may be in effect from time to time) of NYSE Arca Equities (any such Person that is a Related Person of an ETP Holder shall hereinafter also be deemed to be an ETP Holder for purposes of these articles of association, as the context may require) or an OTP Holder or OTP Firm (each as defined in the rules of NYSE Arca, as such rules may be in effect from time to time) of NYSE Arca (any such Person that is a Related Person of an OTP Holder or OTP Firm shall hereinafter also be deemed to be an OTP Holder or OTP Firm , as appropriate, for purposes of these articles of association, as the context may require), (iii) for so long as the Company directly or indirectly controls New York Stock Exchange LLC or NYSE Market, Inc., neither such Person nor any of its Related Persons is a member or member organization (as defined in the rules of New York Stock Exchange LLC, as such rules may be in effect from time to time) (any such Person that is a Related Person of such member or member organization shall hereinafter also be deemed to be a NYSE Member for purposes of these articles of association, as the context may require), (iv) for so long as the Company directly or indirectly controls NYSE Amex LLC (or its successor), neither such Person nor any of its Related Persons is a member, as defined in Sections 3(a)(3)(A)(i), 3(a)(3)(A)(ii), 3(a)(3)(A)(iii) and 3(a)(3)(A)(iv) of the Exchange Act, of NYSE Amex LLC (or its successor) (an Amex Member), (v) for so long as the Company directly or indirectly controls ISE, neither such Person nor any of its Related Persons is a Member (as such term is defined in Section 3(a)(3)(A) of the Exchange Act) of ISE (an ISE Member), (vi) for so long as the Company directly or indirectly controls EDGA, neither such Person nor any of its Related Persons is an Member of EDGA (as such term is defined in the rules of EDGA) (an EDGA Member), and (vi) for so long as the Company directly or indirectly controls EDGX, neither such Person nor any of its Related Persons is a Member of EDGX (as such term is defined in the rules of EDGX) (an EDGX Member) (any Person that is a Related Person of a NYSE Member, Amex Member, ISE Member, EDGA Member or EDGX Member shall hereinafter also be deemed to be a NYSE Member, Amex Member, ISE Member, EDGA Member or EDGX Member, as applicable, for purposes of these articles of association, as the context may require); and

Table of Contents

(d) in the case of a resolution to approve the entering into of an agreement, plan or other arrangement under circumstances that would result in Shares that would be subject to such agreement, plan or other arrangement not being voted on any matter, or the withholding of any proxy relating thereto, where the effect of such agreement, plan or other arrangement would be to enable any Person, but for this article 34, either alone or together with its Related Persons, to vote, possess the right to vote or cause the voting of Shares entitling the holder(s) thereof to cast votes that would exceed twenty percent (20%) of all votes that may be cast on such matter (assuming that all Shares that are subject to such agreement, plan or other arrangement will not entitle the holder(s) thereof to cast votes on such matter), (i) neither such Person nor any of its Related Persons is (x) a U.S. Disqualified Person or (y) a European Disqualified Person, (ii) for so long as the Company directly or indirectly controls NYSE Arca or NYSE Arca Equities or any facility of NYSE Arca, neither such Person nor any of its Related Persons is an ETP Holder, OTP Holder or an OTP Firm, (iii) for so long as the Company directly or indirectly controls New York Stock Exchange LLC or NYSE Market, Inc., neither such Person nor any of its Related Persons is a NYSE Member, (iv) for so long as the Company directly or indirectly controls NYSE Amex LLC, neither such Person nor any of its Related Persons is, with respect to NYSE Amex LLC, an Amex Member, (v) for so long as the Company directly or indirectly controls ISE, neither such Person nor any of its Related Persons is an ISE Exchange Member, (vi) for so long as the Company directly or indirectly controls EDGA, neither such Person nor any of its Related Persons is an EDGA Member, and (vi) for so long as the Company directly or indirectly controls EDGX, neither such Person nor any of its Related Persons is an EDGX Member.

34.4 In making such determinations, the Board may impose such conditions and restrictions on such Person and its Related Persons owning any Shares entitling the holder(s) thereof to cast votes on any matter as the Board may in its sole discretion deem necessary, appropriate or desirable in furtherance of the objectives of (i) the Exchange Act, (ii) the European Exchange Regulations and (iii) the governance of the Company.

34.5 If and to the extent that Shares beneficially owned by any Person or its Related Persons are held of record by any other Person, this article 34 shall likewise be enforced against such record holder by limiting the votes entitled to be cast by such record holder in a manner that will accomplish the Voting Limitation and the Recalculated Voting Limitation applicable to such Person and its Related Persons.

34.6 This article 34 shall not apply to (i) any solicitation of any revocable proxy from any Shareholder by or on behalf of the Company or by any officer or Director of the Company acting on behalf of the Company or (ii) any solicitation of any revocable proxy from any Shareholder by any other Shareholder that is conducted pursuant to, and in accordance with, Regulation 14A promulgated pursuant to the Exchange Act (other than a solicitation pursuant to Rule 14a-2(b)(2) promulgated under the Exchange Act, with respect to which this article 34 shall apply).

34.7 For purposes of this article 34, no Person shall be deemed to have any agreement, arrangement or understanding to act together with respect to Shares solely because such Person or any of such Person's Related Persons has or shares the power to vote or direct the voting of such Shares as a result of (i) any solicitation of any revocable proxy from any Shareholder by or on behalf of the Company or by any officer or Director of the Company acting on behalf of the Company or (ii) any solicitation of any revocable proxy from any Shareholder by any other Shareholder that is conducted pursuant to, and in accordance with, Regulation 14A promulgated pursuant to the Exchange Act (other than a solicitation pursuant to Rule 14a-2(b)(2) promulgated under the Exchange Act, with respect to which this article 34 shall apply), except if such power (or the arrangements relating thereto) is then reportable under Item 6 of Schedule 13D under the Exchange Act (or any similar provision of a comparable or successor report).

34.8 In these articles of association, the term "Related Persons" shall mean with respect to any Person:

Table of Contents

- (a) any affiliate of such Person (as such term is defined in Rule 12b-2 under the Exchange Act);
- (b) any other Person(s) with which such first Person has any agreement, arrangement or understanding (whether or not in writing) to act together for the purpose of acquiring, voting, holding or disposing of Shares;
- (c) in the case of a Person that is a company, corporation or similar entity, any executive officer (as defined under Rule 3b-7 under the Exchange Act) or Director of such Person and, in the case of a Person that is a partnership or a limited liability company, any general partner, managing member or manager of such Person, as applicable;
- (d) in the case of a Person that is a member organization (as defined in the rules of New York Stock Exchange LLC, as such rules may be in effect from time to time), any NYSE Member that is associated with such Person (as determined using the definition of person associated with a member as defined under Section 3(a)(21) of the Exchange Act);
- (e) in the case of a Person that is an OTP Firm, any OTP Holder that is associated with such Person (as determined using the definition of person associated with a member as defined under Section 3(a)(21) of the Exchange Act);
- (f) in the case of a Person that is a natural person, any relative or spouse of such natural Person, or any relative of such spouse who has the same home as such natural Person or who is a Director or officer of the Company or any of its parents or subsidiaries;
- (g) in the case of a Person that is an executive officer (as defined under Rule 3b-7 under the Exchange Act), or a Director of a company, corporation or similar entity, such company, corporation or entity, as applicable;
- (h) in the case of a Person that is a general partner, managing member or manager of a partnership or limited liability company, such partnership or limited liability company, as applicable;
- (i) in the case of a Person that is a NYSE Member, the member organization (as defined in the rules of New York Stock Exchange LLC, as such rules may be in effect from time to time) with which such Person is associated (as determined using the definition of person associated with a member as defined under Section 3(a)(21) of the Exchange Act);
- (j) in the case of a Person that is an OTP Holder, the OTP Firm with which such Person is associated (as determined using the definition of person associated with a member as defined under Section 3(a)(21) of the Exchange Act);
- (k) in the case of any Person that is an ISE Member, any broker or dealer with which such Person is associated;
- (l) in the case of any Person that is an EDGA Member, the person associated with a Member or associated person of a Member (as defined in the rules of EDGA Exchange, Inc.); and
- (m) in the case of any Person that is an EDGX Member, the person associated with a Member or associated person of a Member (as defined in the rules of EDGX Exchange, Inc).

Edgar Filing: NYSE Euronext - Form 425

34.9 In these articles of association, the term **beneficially owned** , including all derivative or similar words, shall have the meaning set forth in Rules 13d-3 and 13d-5 under the Exchange Act.

35 Ownership Concentration Limitation

35.1 Except as otherwise provided in this article 35, any Person who, either alone or together with its Related Persons, shall at any time beneficially own Shares entitling the holder(s) thereof to cast votes representing in the aggregate more than forty percent (40%) of all votes that may be cast on any matter

G-102

Table of Contents

(or, if such Person, either alone or together with its Related Persons, is a NYSE Member, an Amex Member, an ETP Holder of NYSE Arca Equities or an OTP Holder or OTP Firm of NYSE Arca, an ISE Member, an EDGA Member or an EDGX Member, twenty percent (20%) of all votes that may be cast on any matter) (the **Concentration Limitation**), shall be obligated to offer for sale and to transfer Shares in accordance with this article 35.

35.2 The Concentration Limitation shall apply to each Person unless and until it has complied in full with each of the following obligations (jointly the **Shareholder Concentration Obligations**):

- (a) such Person shall have delivered to the Board a notice in writing, not less than forty-five (45) days (or such shorter period as the Board shall expressly consent to) prior to the acquisition of any Shares that would cause such Person (either alone or together with its Related Persons) to exceed the Concentration Limitation, of such Person's intention to acquire such ownership; and
- (b) such Person shall have obtained a written confirmation from the Board that (i) the Board has resolved to expressly permit such ownership, (ii) such resolution has been filed with, and approved by, the SEC under Section 19(b) of the Exchange Act and has become effective thereunder and (iii) such resolution has been filed with, and to the extent required, approved by, each European Regulator having appropriate jurisdiction and authority.

35.3 Subject to its fiduciary obligations under applicable law, the Board shall not adopt any resolution pursuant to article 35.2(b) unless the Board shall have determined that:

- (a) such acquisition of beneficial ownership by such Person, either alone or together with its Related Persons, (i) will not impair the ability of any U.S. Regulated Subsidiary, the Company, NYSE Group (if and to the extent that NYSE Group continues to exist as a separate entity) or ISE Holdings (if and to the extent that ISE Holdings continues to exist as a separate entity) to discharge their respective responsibilities under the Exchange Act and the rules and regulations thereunder, (ii) will not impair the ability of any European Market Subsidiary, the Company or Euronext (if and to the extent that Euronext continues to exist as a separate entity) to discharge their respective responsibilities under the European Exchange Regulations and (iii) is otherwise in the best interests of (w) the Company, (x) its Shareholders, (y) the U.S. Regulated Subsidiaries and (z) the European Market Subsidiaries;
- (b) such acquisition of beneficial ownership by such Person, either alone or together with its Related Persons, will not impair (i) the SEC's ability to enforce the Exchange Act or (ii) the European Regulators' ability to enforce the European Exchange Regulations. In making such determinations, the Board may impose such conditions and restrictions on such Person and its Related Persons owning any Shares entitling the holder(s) thereof to vote on any matter as the Board may in its sole discretion deem necessary, appropriate or desirable in furtherance of the objectives of (x) the Exchange Act, (y) the European Exchange Regulations and (z) the governance of the Company;
- (c) neither such Person nor any of its Related Persons is (i) a U.S. Disqualified Person or (ii) a European Disqualified Person;
- (d) for so long as the Company directly or indirectly controls NYSE Arca or NYSE Arca Equities or any facility of NYSE Arca, neither such Person nor any of its Related Persons is an ETP Holder or an OTP Holder or OTP Firm;
- (e) for so long as the Company directly or indirectly controls New York Stock Exchange LLC or NYSE Market, Inc., neither such Person nor any of its Related Persons is a NYSE Member;

- (f) for so long as the Company directly or indirectly controls NYSE Amex LLC, neither such Person nor any of its Related Persons is an AMEX Member;

G-103

Table of Contents

- (g) for so long as the Company directly or indirectly controls ISE, neither such Person nor any of its Related Persons is an ISE Member;
- (h) for so long as the Company directly or indirectly controls EDGA, neither such Person nor any of its Related Persons is an EDGA Member; and
- (i) for so long as the Company directly or indirectly controls EDGX, neither such Person nor any of its Related Persons is an EDGX Member.

35.4 Unless the conditions specified in article 35.2 are met, if any Person, either alone or together with its Related Persons, at any time beneficially owns Shares entitling the holder(s) thereof to cast votes on any matter in excess of the Concentration Limitation, such Person and its Related Persons who are Shareholders shall be obligated to offer for sale and to transfer that number of Shares necessary so that such Person, together with its Related Persons, shall beneficially own a number of Shares entitling the holder(s) thereof to cast votes on any matter which is in the aggregate no more than the Concentration Limitation. Such Person may sell and transfer the relevant Shares on any stock exchange where Shares are listed or in any other manner as such Person may elect.

35.5 If any Person who is obligated to offer for sale and to transfer Shares pursuant to article 35.4 requests within two weeks after having become so obligated, that the value of the relevant Shares be determined by an independent expert, (i) such Person will be obligated to sell the relevant Shares on any stock exchange where Shares are listed, and (ii) the value of such shares shall be determined by an independent expert to be appointed by such Person and the Company jointly. If such Person and the Company should fail to reach agreement within five (5) Business Days after the request of such Person to appoint an independent expert, either party may institute proceedings requesting the cantonal sector of the Court (sector kanton van de rechtbank) in Amsterdam to appoint an independent expert. For the purposes of this provision, it shall be sufficient if the independent expert determines that the value of the Shares offered for sale and (to be) transferred by such Person shall be equal to the price (to be) received for such Shares by such Person on any stock exchange where Shares are listed. The expenses incurred in connection with the appointment and/or remuneration of the independent expert shall be for the account of the Person obligated to offer for sale and to transfer Shares pursuant to article 35.4.

35.6 To the extent that a Person, either alone or together with its Related Persons, shall at any time beneficially own Shares entitling the holder(s) thereof to cast votes on any matter in excess of the Concentration Limitation, unless and until a Person has complied in full with all Shareholder Concentration Obligations, such Person shall not be entitled to exercise the rights to vote, to attend General Meetings of Shareholders and to receive dividends or other distributions attached to such Shares which are owned beneficially in excess of the Concentration Limitation and such rights shall be suspended for so long as the Concentration Limitation is so exceeded.

35.7 If and to the extent that any Person fails to comply within two weeks with its obligations pursuant to article 35.4 after having become so obligated, the Company shall be irrevocably authorized to comply on his behalf with such obligations.

35.8 Nothing in this article 35 shall preclude the settlement of transactions entered into through the facilities of New York Stock Exchange LLC or Deutsche Börse; provided, however, that, if any transfer or other transaction shall cause any Person, either alone or together with its Related Persons, at any time to beneficially own Shares entitling the holder(s) thereof to cast votes on any matter in a General Meeting of Shareholders in excess of the Concentration Limitation, such Person and its Related Persons who are Shareholders shall be obligated to offer for sale and to transfer Shares as specified in article 35.4.

35.9 The Board shall have the right to require any Person and its Related Persons that the Board reasonably believes (i) to be subject to the Voting Limitation or the Recalculated Voting Limitation, (ii) to beneficially own Shares entitling the holder(s) thereof to cast votes on any matter in excess of the Concentration Limitation, or (iii) to beneficially own an aggregate of five percent (5%) or more of the then issued and outstanding Shares of the Company entitling the holder(s) thereof to cast votes on any

Table of Contents

matter, which ownership such Person, either alone or together with its Related Persons, has not reported to the Company, to provide to the Company, upon the Board's request, complete information as to all Shares of the Company beneficially owned by such Person and its Related Persons and any other factual matter relating to the applicability or effect of articles 34 and 35 as may reasonably be requested of such Person and its Related Persons. Any constructions, applications or determinations made by the Board pursuant to articles 34 and 35 in good faith and on the basis of such information and assistance as was then reasonably available for such purpose shall be conclusive and binding upon the Company and its Directors, officers and Shareholders.

CHAPTER XII**AMENDMENT OF THE ARTICLES OF ASSOCIATION; CHANGE OF CORPORATE FORM; STATUTORY MERGER AND STATUTORY DEMERGER; DISSOLUTION AND LIQUIDATION****36 Amendment of the articles of association; change of corporate form**

- 36.1** The General Meeting may resolve to amend these articles of association by a resolution passed with at least a two-thirds majority of the votes cast, without a quorum being required, provided that such resolution can only be adopted at the proposal of the Board. When a proposal to amend these articles of association is to be made to the General Meeting, the notice convening the General Meeting of Shareholders must state so and a copy of the proposal, including the verbatim text thereof, shall be deposited and kept available at the Company's office for inspection by the Shareholders, until the conclusion of the meeting. From the day of deposit until the day of the meeting, a Shareholder shall, on application, be provided with a copy of the proposal free of charge. An amendment of these articles of association shall be laid down in a notarial deed.
- 36.2** For so long as the Company shall control, directly or indirectly, any U.S. Regulated Subsidiary, before any amendment of any provision of these articles of association whether or not as part of a statutory merger or statutory demerger shall be effectuated by execution of a notarial deed of amendment of the articles of association, such amendment shall be submitted to the board of directors of such U.S. Regulated Subsidiaries and if any or all of such boards of directors shall determine that such amendment must be filed with or filed with and approved by the SEC under Section 19 of the Exchange Act and the rules promulgated thereunder before such amendment may be effectuated, then such amendment shall not be effectuated until filed with or filed with and approved by the SEC.
- 36.3** For so long as the Company shall control, directly or indirectly, any European Market Subsidiary, before any amendment of any provision of these articles of association whether or not as part of a statutory merger or statutory demerger shall be effectuated by execution of a notarial deed of amendment of the articles of association, such amendment shall be submitted to the board of directors of such European Market Subsidiaries and if any or all of such boards of directors shall determine that such amendment must be filed with or filed with and approved by a European Regulator under European Exchange Regulations before such amendment may be effectuated, then such amendment shall not be effectuated until filed with or filed with and approved by the relevant European Regulators.
- 36.4** The Company may change its corporate form into a different legal form. A change of the corporate form shall require a resolution to change the corporate form adopted by the General Meeting by a resolution passed with at least a nine-tenths majority of the votes cast, without a quorum being required, and a resolution to amend these articles of association, subject to the provisions of articles 36.1 and 36.2, provided that such resolutions can only be adopted at the proposal of the Board. A change of the corporate form shall furthermore be subject to the relevant provisions of Book 2 of the Dutch Civil Code. A change of the corporate form shall not terminate the existence of the legal entity.

37 Statutory merger and statutory demerger

- 37.1** The Company may enter into a statutory merger with one or more other legal entities. A resolution to effect a merger may only be adopted on the basis of a merger proposal prepared by the (management)

G-105

Table of Contents

boards of the merging legal entities. Within the Company, the resolution to effect a merger shall be adopted by the General Meeting by a resolution passed with at least a two-thirds majority of the votes cast, without a quorum being required, provided that such resolution can only be adopted at the proposal of the Board. However, in the cases referred to in Section 2:331 of the Dutch Civil Code, the resolution to effect a merger may be adopted by the Board.

37.2 The Company may be a party to a statutory demerger. The term demerger shall include both split-up and spin-off. A resolution to effect a demerger may only be adopted on the basis of a demerger proposal to be prepared by the management boards of the parties to the demerger. Within the Company, the resolution to effect a demerger shall be adopted by the General Meeting by a resolution passed with at least a two-thirds majority of the votes cast, without a quorum being required, provided that such resolution can only be adopted at the proposal of the Board. However, in the cases referred to in Section 2:334ff of the Dutch Civil Code, the resolution to effect a demerger may be adopted by the Board.

37.3 Statutory mergers and statutory demergers shall furthermore be subject to the relevant provisions of Book 2, Title 7, of the Dutch Civil Code.

38 Dissolution and liquidation

38.1 The Company may be dissolved pursuant to a resolution to that effect by the General Meeting by a resolution passed with at least a two-thirds majority of the votes cast, without a quorum being required, provided that such resolution can only be adopted at the proposal of the Board. When a proposal to dissolve the Company is to be made to the General Meeting, this must be stated in the notice convening the General Meeting of Shareholders.

38.2 If the Company is dissolved pursuant to a resolution of the General Meeting, the Group CEO shall become the liquidator of the dissolved Company's assets, unless the General Meeting resolves to appoint one or more other persons as liquidator(s), and the Non-Executive Directors shall be charged with the supervision thereof.

38.3 During liquidation, the provisions of these articles of association shall remain in force to the extent possible.

38.4 From the balance remaining after payment of the debts of the dissolved Company shall first, insofar as possible, be paid on each Preference Share:

- (a) an amount equal to the nominal value of a Preference Share;
- (b) any missing Preferred Dividend in relation to financial years prior to the financial year in which such payment is made payable; and
- (c) any Preferred Dividend accrued during the financial year in which cancellation occurs but unpaid, to be calculated for this purpose over the period ending on the day on which such payment is made payable.

38.5 The balance remaining after application of article 38.4 shall be transferred to the holders of Ordinary Shares in proportion to the aggregate nominal value of the Ordinary Shares held by each.

38.6

Edgar Filing: NYSE Euronext - Form 425

After the end of the liquidation, the books, records and other data carriers of the dissolved Company shall remain in the custody of the person designated for that purpose by the General Meeting, and in the absence thereof the person designated for that purpose by the liquidators, for a period as prescribed by the laws of the Netherlands.

38.7 In addition, the liquidation shall be subject to the relevant provisions of Book 2, Title 1, of the Dutch Civil Code.

Table of Contents**1 Introduction**

- 1.1** These Board Rules are established pursuant to Article 17.6 of the Articles and are complementary to, and subject to, the provisions regarding the Board and each of its members contained in applicable law, regulation and the Articles. The Board and each of its members shall observe and comply, and shall procure observance and compliance, with the Board Rules.
- 1.2** These Board Rules are posted on the Company's website.
- 1.3** The meaning of certain capitalised terms used in these Board Rules are set forth in the List of Definitions attached as **Appendix 1**.

2 Composition of the Board, Appointment and Resignation

- 2.1** Each of the Directors shall be appointed by the annual General Meeting for a term that will expire at the end of the next annual General Meeting or until his or her successor is elected or, if earlier, upon such Director's resignation, removal or death. During the Initial Board Term, each of the Directors (or his or her replacement pursuant to article 14.5 of the Articles) shall be nominated by the Board for re-election to the Board pursuant to a binding nomination at each of the annual General Meetings occurring in 2012, 2013 and 2014; provided, however, that the Group Chairman and the Group CEO shall each be nominated by the Board pursuant to a binding nomination for re-election to the Board at the annual General Meetings occurring in 2012, 2013, 2014 and 2015 in accordance with articles 15.1 and 16.1 of the Articles. Notwithstanding the foregoing provisions of this clause 2.1, in the event that the Board determines prior to the Closing Date that (i) the Company will qualify as a foreign private issuer as defined in Rule 3b-4(c) promulgated under the U.S. Securities Exchange Act (such status, **FPI Status**) and will maintain FPI Status on an ongoing basis following the Closing Date through the end of the Initial Chairman Term, and (ii) the Directors may be appointed by the General Meeting for a term that expires at the end of the annual General Meeting of Shareholders occurring in 2015 (or in 2016 in the case of the Group Chairman and the Group CEO) and Directors are not otherwise required by applicable law, regulation or stock exchange listing standards to be elected at each annual General Meeting, then the Directors shall be appointed on or prior to the Closing Date by the General Meeting for a term ending at the end of the annual General Meeting of Shareholders occurring in 2015, except that the Group Chairman and the Group CEO shall each initially be appointed on or prior to the Closing Date for a term ending at the end of the annual General Meeting of Shareholders occurring in 2016.
- 2.2** Until the end of the annual General Meeting occurring in 2015 (the **Initial Board Term**), the Board shall consist of 17 (seventeen) members, constituted as follows:
- 2.2.1** 1 (one) Executive Director A, who shall be the Group CEO;
- 2.2.2** 1 (one) Director B, who shall be the Group Chairman; and
- 2.2.3** 15 (fifteen) Non-Executive Directors, consisting of six (6) Non-Executive Directors A and nine (9) Non-Executive Directors B.

2.3

Edgar Filing: NYSE Euronext - Form 425

Immediately following the expiry of the Initial Board Term, the number of Directors will be decreased and the Board shall consist of 12 (twelve) members (without designations as either Directors A or Directors B), constituted as follows:

2.3.1 1 (one) Executive Director, being the Group CEO;

2.3.2 1 (one) Director shall be the Group Chairman; and

2.3.3 10 (ten) Non-Executive Directors.

G-110

Table of Contents

- 2.4** Only natural persons can be Directors. To the extent permitted under the laws of the Netherlands and subject to the terms of the Articles and these Board Rules, and to the extent a Director is not appointed prior to the Closing Date as either an Executive Director or a Non-Executive Director, the Board shall determine which Directors shall be designated as Executive Director and which Directors shall be designated as Non-Executive Directors.
- 2.5** After expiry of the Initial Board Term, the Board shall be constituted with members without having regard to a specific ratio of members who were recommended by or initially appointed as Directors A or Directors B, and shall be constituted so as to provide for an international character of the Board. Any restrictions in relation to a specific ratio of nationality of Board members shall be avoided in the interest of having the Board be composed of the best candidates without regard to nationality.
- 2.6** Directors shall be appointed by the General Meeting by the vote in favour of at least two-thirds majority of the votes cast, representing more than one-half of the Company's issued share capital or, in the case of any person nominated by the Board for appointment as a Director, by the vote in favour of at least a majority of the votes cast. Notwithstanding the foregoing, the Board may submit a binding nomination in accordance with section 2:133 of the Dutch Civil Code to nominate persons for appointment as Directors at the General Meeting and, in the event of any such binding nomination, the General Meeting shall appoint Directors solely from such binding nominations; provided, however, that the General Meeting may, by a resolution passed with at least a two-thirds majority of the votes cast, representing more than one-half of the Company's issued capital, resolve that the candidates proposed pursuant to any binding nomination shall not be appointed as Directors, in which case the Board shall have the right to submit a new binding nomination with respect to any Board seats which are to be filled for the appointment of Director(s) at a further General Meeting. A Director may be reappointed with due observance of the previous sentences.
- 2.7** A Director may be suspended or removed by the General Meeting at any time by a resolution passed with at least a two-thirds majority of the votes cast, representing more than one-half of the Company's issued capital. If permitted under the laws of the Netherlands, a Director may also be suspended by the Board. Any suspension may not last longer than three (3) months in the aggregate. If, at the end of that period, no decision has been taken on termination of the suspension, the suspension shall end.
- 2.8** In the event of a Director's resignation, removal or death prior to the end of the Initial Board Term, the Directors A shall make a recommendation to the Nominations, Governance and Corporate Responsibility Committee of a replacement candidate if the vacancy occurs in a Board seat previously held by a Director A, and the Directors B shall make a recommendation to the Nominations, Governance and Corporate Responsibility Committee of a replacement candidate if the vacancy occurs in a Board seat previously held by a Director B. Any person who is elected to the Board to fill a Board seat during the Initial Board Term that was previously held by a Director A or a Director B shall be designated as a Director A or a Director B, respectively, for purposes of clause 2.2, but such person shall not constitute a Director A or a Director B (and shall instead have undesignated status) for purposes of clause 12.5 unless such person is the Group Chairman or Group CEO or is recommended by the Directors A (in the case of a vacancy in a Director A seat) or by the Directors B (in the case of a vacancy in a Director B seat) to fill the vacancy on the relevant Board Committee.
- 2.9** In the event of the resignation, removal or death of the Group Chairman or the Group CEO prior to the end of their respective Initial Group Chairman or Group CEO Term, the procedure under this clause 2.9 shall apply mutatis mutandis, except that the recommendation of the Directors A or the Directors B, as applicable, shall be binding on the Nominations, Governance and Corporate Responsibility Committee and on the Board, who shall nominate

Table of Contents

such nominee for appointment to the Board and shall appoint such nominee as the Group Chairman or the Group CEO, as applicable, concurrently with his or her appointment by the General Meeting until the expiration of the Initial Chairman Term or the Initial CEO Term, as applicable. The particular rights, authorities and responsibilities of the Group Chairman and the Group CEO under the Articles and these Board Rules will be granted to their respective successors during the Initial Chairman Term or the Initial CEO Term, as applicable.

3 Tasks and Responsibilities of the Board

- 3.1** The Board is responsible for the overall conduct of the Company and the [TopCo] Group and has the powers, authorities and duties vested in it by and pursuant to the relevant laws of the Netherlands and the Articles. In all its dealings, the Board shall be guided by the interests of the [TopCo] Group as a whole, including but not limited to the Shareholders. The Board has the final responsibility for the management, direction and performance of the Company and the [TopCo] Group.
- 3.2** The Board assumes the typical role of a Board of Directors and without limiting the scope of the Board's role, the ongoing items to be considered and decided upon by the Board, subject to any requirements and provisions set out in the Articles and in these Board Rules, include:
- 3.2.1** overall Group, business group and corporate center strategy of the [TopCo] Group, subject to the responsibilities and authorities of the Group Chairman during the Initial Chairman Term pursuant to clause 4.4.3 and 4.4.4, the responsibilities and authorities of the Group CEO during the Initial CEO Term pursuant to clause 5.3.3 and the role of the Strategy Committee pursuant to clause 12.3.4;
 - 3.2.2** proposals to the general meeting for appointments and removals of Board members;
 - 3.2.3** appointments, removals and title ratification of Board members and of the Group CEO (in his capacity as member of the Global Executive Committee);
 - 3.2.4** appointment and removal of the Group CEO and the Group Chairman in accordance with articles 15.1 and 16.1 of the Articles, respectively;
 - 3.2.5** final approval of the proposals of the Human Resources and Compensation Committee for the compensation of the Board members;
 - 3.2.6** the business plan and the annual budget of the Company and financing measures;
 - 3.2.7** major structural changes, consisting of the matters set out in article 17.5.4 of the Articles; and
 - 3.2.8** transformational M&A deals, consisting of the matters set out in article 17.5.3 of the Articles.
- 3.3** At least once a year, the Board shall discuss:

- 3.3.1** the functioning of the Board, the Group Chairman and of the Group CEO and the other individual members of the Board, and the conclusions to be drawn on the basis thereof; and
 - 3.3.2** the risks of the business and the evaluation by the Board of the structure and operation of the internal risk management and control systems and any significant changes thereto.
- 3.4** Without limiting the scope of the Board's role, the Board may delegate its powers, authorities and discretions (including the power to sub-delegate): (i) to the Group Chairman and/or the

G-112

Table of Contents

Group CEO, as the case may be; and (ii) to the Board Committees, where applicable, provided that until the expiration of the Initial Board Term, the Initial Chairman Term and the Initial CEO Term, any such delegation shall require a resolution passed with the vote in favour of more than sixty-six percent (66%) of the total number of Directors with the exception of such delegations to the Group Chairman, the Group CEO and the Board Committees which are conferred upon them pursuant to the Articles and these Board Rules. The Board shall then supervise the execution of its responsibilities by the Group Chairman and/or Group CEO and the Board Committees and is ultimately responsible for the fulfilment of its duties by them. The delegation by the Board of any of its powers, authorities and discretions shall not include the authority to adopt resolutions on behalf of the Board in respect of matters relating to such powers, authorities and discretions, and the Board shall be required to adopt the relevant resolutions in respect of such matters.

4 The Group Chairman

- 4.1** The Board shall appoint one of the Directors to be the chairman of the Board (the **Group Chairman**) for such period as the Board may decide; provided, however, that Reto Francioni, who was appointed by the Board prior to the Closing Date as the Group Chairman, shall have a term expiring at the end of the next annual General Meeting of Shareholders and shall be re-appointed as Group Chairman by the Board at the annual General Meetings occurring in 2012, 2013, 2014 and 2015 (the total term ending at the end of the annual General Meeting occurring in 2016 to be referred to as the **Initial Chairman Term**) concurrently with his re-election as a Director at such meetings, subject however to his earlier resignation, removal or death. Notwithstanding the foregoing provisions of this clause 4.1, in the event that the Board determines prior to the Closing Date that (i) the Company will have and maintain FPI Status on an ongoing basis following the Closing Date through the end of the Initial Chairman Term, and (ii) the Directors may be appointed by the General Meeting for a term that expires at the end of the annual General Meeting of Shareholders occurring in 2015 (or in 2016 in the case of the Group Chairman and the Group CEO) and Directors are not otherwise required by applicable law, regulation or stock exchange listing standards to be elected at each annual General Meeting, then the person who was the Group Chairman as of the Closing Date shall be appointed for a period ending at the end of the annual General Meeting of Shareholders occurring in 2016. During the Initial Chairman Term, the Board shall also appoint one of its Directors A as Vice Chairman of the Board (a **Group Vice Chairman**). The Group Vice Chairman shall only fulfill the duties of the Group Chairman under clause 4.4.2 in case of his absence pursuant to clause 4.2 and as specified in article 29.1 of the Articles, but shall have none of the other particular powers conferred upon the Group Chairman during the Initial Chairman Term.
- 4.2** If no Group Chairman has been appointed, or if the Group Chairman is absent or unable to take the chair, a meeting of the Board shall be presided over by the Group Vice-Chairman, or in the event of his absence or inability to take the chair, by a member of the Board designated for such purpose by the Board to be entrusted with such duties of the Group Chairman at such meeting.
- 4.3** The Group Chairman shall seek to ensure that:
- 4.3.1** such information as necessary for the proper fulfilment of their duties is submitted to the members of the Board in a timely and adequate manner;
 - 4.3.2** there is sufficient time for consultation, consideration and decision-making by the Board;
 - 4.3.3** the Board Committees are functioning adequately;

Table of Contents

- 4.3.4** the performance of the members of the Board is assessed;
- 4.3.5** reported potential conflicts of interests are received and decided on; and
- 4.3.6** reported alleged irregularities relating to the functioning of the Board are received and decided upon.
- 4.4** In addition to the functions set out in clause 4.3, during the Initial Chairman Term, the responsibilities and authorities of the Group Chairman shall also include:

 - 4.4.1** working closely together with the Group CEO and regularly communicating and interacting with the Group CEO in the spirit of a permanent and constructive dialogue;
 - 4.4.2** leading the meetings of the Board, calling Board meetings and setting the agenda;
 - 4.4.3** initiating and developing the overall strategy of the [TopCo] Group (i.e., strategic measures impacting the overall [TopCo] Group and measures requiring decisions on significant investment prioritisations);
 - 4.4.4** global relationship management and representation and global political and regulatory representation of the [TopCo] Group;
 - 4.4.5** chairing the Nomination, Governance and Corporate Responsibility Committee and the Strategy Committee and in his capacity as chairman of such Committees, the Group Chairman has proposal rights for the nomination or appointment of:

 - (i) the members of the Board; and
 - (ii) the Group CEO;
 - 4.4.6** consultation right in relation to appointments and removal of members of the Global Executive Committee selected by the Group CEO; and
 - 4.4.7** being a member of the Integration Committee and the Human Resources and Compensation Committee.
- 4.5** The Group Chairman will be supported by an Office of the Group Chairman in fulfilling his responsibilities. Until the first annual General Meeting of Shareholders occurring after the sixth anniversary of the Closing Date, the Office of the Group Chairman will have its primary office location in Frankfurt and its secondary office location in New York, or vice versa depending on the primary and secondary locations of the Group CEO. Until the end of the annual General Meeting occurring in 2016, the Office of the Group Chairman shall comprise the following functions:

Edgar Filing: NYSE Euronext - Form 425

- 4.5.1** overall [Topco] Group Strategy;
- 4.5.2** global relationship management and representation of [TopCo] Group; and
- 4.5.3** General Corporate Counsel of [TopCo] Group.

The Group Chairman will spend adequate time in secondary offices and facilitate close interaction and coordination through overlapping presence.

- 4.6** During the Initial Chairman Term, the Office of the Chairman shall have reasonable resources (including approximately 20 (twenty) staff members with sufficient expertise), and a relevant budget (including budget for external advisers) as required for the fulfilment of the responsibilities allocated to the Group Chairman.
- 4.7** Until the end of the annual General Meeting occurring in 2016, the Office of the Group Chairman will be headed by the General Corporate Counsel. Roger Müller will be appointed as the General Corporate Counsel for such term, subject to his earlier resignation, removal or

G-114

Table of Contents

death. The General Corporate Counsel shall advise the Board in all relevant matters. The General Corporate Counsel will be reporting to the Group Chairman and the Group CEO and shall closely cooperate with the Group General Counsel. He has a permanent attendance right at meetings of the Board and the Global Executive Committee.

In case the Board decides to appoint a Company Secretary in accordance with section 14.6 of the Articles, the individual with the position of General Corporate Counsel will become the Company Secretary.

5 The Group CEO

- 5.1** The Board shall appoint one of the Directors to be the chief executive officer of the [TopCo] Group (the **Group CEO**) for such period as the Board may decide; provided, however, that Duncan Niederauer, the person who was appointed by the Board prior to the Closing Date as the Group CEO, shall have a term ending at the end of the next annual General Meeting of Shareholders and shall be re-appointed as Group CEO by the Board at the annual General Meetings occurring in 2012, 2013, 2014 and 2015 (the total term ending at the end of the annual meeting occurring in 2016 to be referred to as the **Initial CEO Term**) concurrently with his re-election as a Director at such meetings, subject however to his earlier resignation, removal or death. Notwithstanding the foregoing provisions of this clause 5.1, in the event that the Board determines prior to the Closing Date that (i) the Company will have and maintain FPI Status on an ongoing basis following the Closing Date through the end of the Initial CEO Term, and (ii) the Directors may be appointed by the General Meeting for a term that expires at the end of the annual General Meeting of Shareholders occurring in 2015 (or in 2016 in the case of the Group CEO and the Group CEO) and Directors are not otherwise required by applicable law, regulation or stock exchange listing standards to be elected at each annual General Meeting, then the person who was the Group CEO as of the Closing Date shall be appointed for a period ending at the end of the annual General Meeting of Shareholders occurring in 2016.
- 5.2** The Group CEO shall be the sole Executive Director of the Company, subject to the control of the Board, and as such shall be responsible for the daily affairs of the Company and [TopCo] Group and shall sign or countersign or authorise another officer to sign all certificates, contracts and other instruments of the Company as authorised by the Board.
- 5.3** During the Initial CEO Term, the Group CEO assumes the typical roles of a CEO including the following responsibilities and authorities:
- 5.3.1** during the Initial Chairman Term, working closely together with the Group Chairman and regularly communicating and interacting with the Group Chairman in the spirit of a permanent and constructive dialogue. In accordance therewith, the Group CEO shall keep the Group Chairman and the Board reasonably informed regarding the activities of the [Topco] Group and the Global Executive Committee;
 - 5.3.2** responsibility for the management and performance of the [TopCo] Group, including the annual budget and business plan;
 - 5.3.3** initiating and developing business strategy of [TopCo] Group for the global divisions and regions;
 - 5.3.4** developing integration policy and parameters to shape the new [TopCo] Group, including systems, staffings and locations for consideration of the Integration Committee, and responsibility for execution of integration;

5.3.5 chairing the Integration Committee and being a member of the Strategy Committee; and

G-115

Table of Contents

5.3.6 chairing the Global Executive Committee and having the right of selection, appointment and removal of Global Executive Committee members; provided that the Group CEO shall closely consult with the Group Chairman (during the Initial Chairman Term) and the entire Board on any proposed appointments or removals of members of the Global Executive Committee.

5.4 Until the first annual General Meeting of Shareholders occurring after the sixth anniversary of the Closing Date, the Group CEO will have his primary office in and perform his [TopCo] Group management task primarily out of New York with his secondary office in Frankfurt, or *vice versa*, depending on the primary and secondary locations of the Group Chairman. Until the end of the annual General Meeting occurring in 2016, the corporate and group functions allocated to the direct responsibility of the Group CEO are as follows:

5.4.1 corporate development/M&A;

5.4.2 human resources;

5.4.3 public relations; and

5.4.4 branding.

During the Initial CEO Term, corporate development/M&A, human resources, public relations and branding shall have their primary location in New York (it being understood that **primary location** for purposes of these Board Rules shall mean where a predominant majority of workforce of the department and heads of the department will be located) and their secondary location in Frankfurt (it being understood that **secondary location** for purposes of these Board Rules shall mean where a material presence of corporate functions will be located to provide for adequate overlap phases and global presence).

The Group CEO will spend adequate time in secondary offices and facilitate close interaction and coordination through overlapping presence.

5.5 The Group CEO will install the Global Executive Committee. The Global Executive Committee will be governed by the Rules for the Global Executive Committee which will be adopted by the Group CEO with the approval of the Board. Any amendment to the Rules for the Global Executive Committee will require the approval of the Board and the Group CEO.

6 The Deputy Group CEO

6.1 The Deputy Group CEO shall initially be Andreas Preuss, who shall not be a Director, and shall be appointed for an initial period of four (4) years following the Closing Date or until his earlier resignation, removal or death. He will also be appointed President for such period.

6.2 The Deputy Group CEO will spend adequate time in secondary offices and facilitate close interaction and coordination through overlapping presence.

7 The Group CFO and Group General Counsel

Edgar Filing: NYSE Euronext - Form 425

- 7.1** The Group CFO shall initially be Gregor Pottmeyer, who shall not be a Director, and shall be appointed for an initial period of four (4) years following the Closing Date or until his earlier resignation, removal or death.
- 7.2** The Group CFO will have his primary office location in Frankfurt and his secondary office location in New York, and the corporate and [TopCo] Group functions allocated to the direct responsibility of the Group CFO are as follows:
- 7.2.1** Finance/Treasury/Credit;
- 7.2.2** Financial Accounting and Reporting/MIS;

G-116

Table of Contents

- 7.2.3 Tax;
- 7.2.4 Controlling/Budget;
- 7.2.5 Investments/Joint Ventures (consisting of administration and responsibility for financial matters regarding ongoing investments and joint ventures);
- 7.2.6 Risk Management;
- 7.2.7 Investor Relations; and
- 7.2.8 Group Purchasing (Administration, Organisation).

7.3 During the initial four (4) year term of the Group CFO, the Finance/Treasury/Credit, Financial Accounting and Reporting/MIS, Tax, Investments/Joint Ventures, Risk Management, Group Purchasing (Administration, Organisation) shall have their primary location in Frankfurt, their secondary location in New York and another key location in Luxembourg (it being understood that another **key location** shall mean for purposes of this clause 7.3 where a material presence of corporate functions will be located to provide for adequate overlap phases and global presence), and Investor Relations and Controlling/Budget shall have their primary location in New York and their secondary location in Frankfurt.

The Group CFO will spend adequate time in secondary offices and facilitate close interaction and coordination through overlapping presence.

7.4 The Group General Counsel shall initially be John Halvey, who shall not be a Director, and shall be appointed for an initial period of four (4) years following the Closing Date or until his earlier resignation, removal or death. The Group General Counsel will have his primary office location in New York.

8 Meetings of the Board

8.1 Subject to clause 8.2, the Board shall meet as often as it deems necessary or appropriate or at the request of the Group Chairman or the Group CEO.

8.2 Meetings of the Board shall be held at least four (4) times a year at alternating locations: twice a year in Frankfurt and once a year in New York (and vice versa for every other year) and once a year at the corporate seat of the Company or elsewhere in the Netherlands in connection with the annual General Meeting of Shareholders; and any additional meetings (as the case may be) shall be held either in Frankfurt or New York or at another place as the Board may decide from time to time at its free discretion. In addition, meetings of the Board may be held by means of an assembly of the Directors in person at a formal meeting or by conference call, video conference or by any other means of communication, provided that all Directors participating in such meeting are able to communicate with each other simultaneously. Participation in a meeting held in any of the above ways shall constitute presence at such meeting.

8.3

Edgar Filing: NYSE Euronext - Form 425

The meetings of the Board shall be led by the Group Chairman. The Group Chairman also calls the Board meetings and sets the agenda. To the extent practically possible, notices convening a meeting and the agenda of items to be discussed during the meeting shall be provided at least 5 (five) working days prior to the meeting to each member of the Board.

- 8.4** The minutes of the Board meetings shall generally be adopted at the next Board meeting. If all members of the Board agree on the contents of the minutes, they may be adopted earlier. The minutes may be signed for adoption by the Group Chairman or such other Director as may be designated to chair the meeting in the absence of the Group Chairman, and shall be made available to all members of the Board as soon as practically possible.

G-117

Table of Contents

9 Resolutions of the Board

9.1 The Board can only validly adopt resolutions in a meeting at which at least the majority of its members are present or represented. A member of the Board may authorise another member of the Board to represent him/her at the Board meeting and vote on his/her behalf.

9.2 Save as set out in clause 9.3, resolutions of the Board shall be adopted by simple majority and each member shall have one vote (provided that, for the avoidance of doubt, a member representing one or more absent members of the Board by written power of attorney shall be entitled to cast the vote on its own behalf and on behalf of each such absent member).

9.3 Resolutions of the Board providing for:

9.3.1 appointment and removal of the Group Chairman and of the Group CEO;

9.3.2 changes to the Articles;

9.3.3 transformational M&A deals, consisting of the matters set out in article 17.5.3 of the Articles; and

9.3.4 major structural changes, consisting of the matters set out in article 17.5.4 of the Articles, may only be adopted by a resolution passed with the vote in favour of more than sixty-six percent (66%) of the total Board seats.

9.4 The Board may also adopt resolutions outside a formal meeting, in writing, provided that the proposal concerned is submitted in writing to all Directors then in office and none of them objects to the proposed manner of adopting resolutions. Adoption of resolutions in writing shall be effected by written statements from all Directors then in office.

9.5 A resolution adopted by the Board may be evidenced outside the Company through a statement from the Group Chairman or the Group CEO or such other persons as he may designate.

10 Conflicts of interests

10.1 A member of the Board shall not participate in the discussions and the decision-making process on a subject or transaction in relation to which he has a conflict of interest with the Company within the meaning of clause 10.2 or in relation to which he has a direct or indirect personal interest that conflicts with the interests of the Company (a **Conflict of Interest**). A transaction as referred to above must be concluded on terms at least customary in the sector concerned. Resolutions to enter into such transactions must be approved by the Board.

10.2 A member of the Board shall in any event have a Conflict of Interest if:

Edgar Filing: NYSE Euronext - Form 425

- 10.2.1** he has a material personal financial interest in an entity that the Company or a [TopCo] Group company intends to enter into a transaction with;
- 10.2.2** he is a Family Member of a member of the management of an entity that the Company or a [TopCo] Group company intends to enter into a transaction with;
- 10.2.3** he holds a management or supervisory position in an entity that the Company or a [TopCo] Group company intends to enter into a transaction with; or
- 10.2.4** the Board has ruled at its sole discretion that a conflict of interest exists.
- 10.3** Each member of the Board (other than the Group Chairman) shall immediately report any potential Conflict of Interest concerning such Board member to the Group Chairman. The Board member with such (potential) Conflict of Interest must provide the Group Chairman with all information relevant to the Conflict of Interest. In all circumstances other than those listed in clause 10.2.4, the Group Chairman shall determine whether a reported (potential) conflict of interest qualifies as a Conflict of Interest to which clause 10.1 applies.

G-118

Table of Contents

10.4 In the event that the Group Chairman has a (potential) Conflict of Interest, he shall immediately report such potential conflict to the Chairman of the Audit/Finance/Risk Committee. The Group Chairman must provide the Chairman of the Audit/Finance/Risk Committee with all information relevant to the Conflict of Interest. In all circumstances other than those listed in clause 10.2.4, the Board shall determine whether a reported (potential) conflict of interest qualifies as a Conflict of Interest to which clause 10.1 applies.

11 Information

11.1 The Group CEO and the Group Chairman shall timely provide all the members of the Board with all information on facts and developments concerning the Company and the [TopCo] Group which the Board may need to function as required and to properly carry out its duties as set out in the law, the Articles and these Board Rules. The information provided shall include information regarding the [TopCo] Group's long-term plans, the main features of the strategic policy, the general and financial risks, the management and control systems of the [TopCo] Group and material compliance with all relevant laws and regulations.

11.2 Notwithstanding clause 11.1, the Group CEO and the Group Chairman as far as his responsibilities are concerned shall at the end of each quarter (or at such more frequent intervals as may be determined by the Board) provide the other members of the Board with a report prepared in a format as agreed from time to time by the Board setting out detailed information on subjects including, but not limited to, strategy, finance, marketing, operations, investments and staff of the [TopCo] Group. The Group CEO and the Group Chairman shall provide an explanation of, and comments on, the above and the aforementioned as well as information concerning the [TopCo] Group's policies.

12 Board Committees

12.1 The Board, though remaining responsible, may assign certain tasks to one or more permanent and/or ad hoc Board Committees from among its members. The Board Committees, on a regular basis, report on their actions, reviews, proposals and findings to the Board.

12.2 The composition of any Board Committee shall be determined by the Board, subject to the requirements set out in the Articles and in these Board Rules. The Board shall appoint the members of each Board Committee and shall determine the tasks of each Board Committee. The Board may, at any time, change the duties and the composition of each Board Committee, provided that during the Initial Board Term, any such changes shall require a resolution passed with the vote in favour of more than sixty-six percent (66%) of the total number of Board seats.

12.3 During the Initial Chairman Term and the Initial CEO Term, the Board shall constitute the following Board Committees, which Committees shall be governed by the following Board Rules in clauses 12.3 to 12.10:

12.3.1 Audit, Finance and Risk Committee

12.3.2 Nomination, Governance and Corporate Responsibility Committee

12.3.3 Human Resources and Compensation Committee

The Human Resources and Compensation Committee shall, in particular, be responsible to submit proposals to the Board as regards the compensation of the members of the Board (with the exception of the Group CEO) for ultimate decision by the Board in line with the policy set

Edgar Filing: NYSE Euronext - Form 425

by the General Meeting. As regards the compensation of the Group CEO, the Human Resources and Compensation Committee submits a proposal to the Board upon which the Board decides.

G-119

Table of Contents

As regards the compensation of the members of the Global Executive Committee who are not members of the Board, the Group CEO following consultation with the Group Chairman, shall be responsible to make proposals to the Human Resources and Compensation Committee for its decisions on the relevant compensations.

12.3.4 Strategy Committee

The Strategy Committee is competent to submit proposals to the Board as regards principal Group/long-term strategy (including transformational M&A/M&A strategy) and the strategic business plan.

12.3.5 Integration Committee

The Integration Committee considers the integration policy and parameters developed by the Group CEO and where necessary is competent to submit proposals to the Board. Certain members of the Global Executive Committee have an attendance right at the meetings of the Integration Committee, without having the right to vote.

12.3.6 Technology Committee

- 12.4** The rules for the meetings and resolutions of the Board shall apply *mutatis mutandis* to the meetings and resolutions of the Board Committees.
- 12.5** Each of the aforementioned Board Committees shall, during the Initial Board Term, consist of three Directors B and two Directors A.
- 12.6** During the Initial Chairman Term, the Group Chairman shall chair the Nomination, Governance and Corporate Responsibility Committee and the Strategy Committee and shall be a member of the Human Resources and Compensation Committee and the Integration Committee.
- 12.7** During the Initial CEO Term, the Group CEO shall chair the Integration Committee and shall be a member of the Strategy Committee.
- 12.8** The Human Resources and Compensation Committee shall for the Initial Board Term be chaired by a Non-Executive Director A.
- 12.9** The Audit, Finance and Risk Committee shall for the Initial Board Term be chaired by a Non-Executive Director A.
- 12.10** The Technology Committee shall for the Initial Board Term be chaired by a Director B.

13 **Interest and Transactions in Securities**

Each Director must at all times comply with the [TopCo] Group policies and procedures and all applicable statutory provisions and regulations with respect to the ownership of and transactions in securities other than securities issued by the Company.

14 Confidentiality

- 14.1** Members of the Board shall at all times treat all information and documentation obtained in their capacity as members of the Board with due discretion and, in the case of confidential information or documentation, with utmost confidentiality.
- 14.2** Confidential information and documentation shall not be disclosed outside the circle of the Board, unless adequate confidentiality agreements have been entered into.

G-120

Table of Contents

15 Status of the Board Rules

- 15.1** In its unanimous resolution adopted on the date hereof and pursuant to Article 17.6 of the Articles, the Board has adopted these Board Rules, which are complementary to, and subject to, the rules and regulations (from time to time) applicable to the Board under the laws of the Netherlands and the Articles.
- 15.2** If and to the extent that these Board Rules are at any time inconsistent with the laws of the Netherlands or the Articles, the latter shall prevail. If and to the extent that these Board Rules conform to the Articles but are at any time inconsistent with the laws of the Netherlands, the latter shall prevail. If one or more provisions of these Board Rules are or shall become invalid, this shall not affect the validity of the remaining provisions. The Board shall replace the invalid provisions by those which are valid and the effect of which, given the contents and purpose of these Board Rules, is, to the greatest extent possible, similar to that of the invalid provisions.
- 15.3** In its unanimous resolution adopted on the date hereof, the Board has declared that it will comply with, and be bound by the obligations arising from, these Board Rules to the extent that they apply to it and its members currently in office and its future members.
- 15.4** The Board shall use its best endeavours to ensure that each member of the Board currently in office and its future members shall be bound or undertake to be bound (as the case may be) by these Board Rules.

16 Amendments

During the Initial Chairman Term and the Initial CEO Term these Board Rules may be amended and supplemented by the Board from time to time by a resolution adopted with a majority of 66% (sixty-six percent) of the total Board seats. Thereafter, these Board Rules may be amended and supplemented by the Board from time to time by a resolution adopted with a simple majority of the total Board seats. In case a change of the Board Rules at the same time would constitute a change of the Articles, or would conflict with the Articles, the change shall become effective only upon a change of the Articles.

Table of Contents

Appendix 1

List of Definitions

1 In these Board Rules, the following terms have the following meanings:

Articles means the articles of association of the Company, as amended and restated from time to time;

Board means the full Board of Directors of the Company;

Board Committees means each committee of the Board as referred to in clause 12 of these Board Rules which may consist of, among others, the Audit, Finance and Risk Committee, the Nomination, Governance and Corporate Responsibility Committee, the Human Resources and Compensation Committee, the Strategy Committee, the Integration Committee and the Technology Committee;

Board Rules means these rules, as they may be amended from time to time;

Closing Date means *[insert date]*;

Company means [TopCo] N.V.;

Conflict of Interest has the meaning attributed thereto in clause 10.1;

Director means each member of the Board (unless the contrary is apparent, this shall include each Executive Director and each Non-Executive Director); **Executive Director** means a member of the Board who holds an executive office with the Company and who is particularly responsible for the daily affairs of the Company, as referred to in the Articles;

Family Member means a person's spouse, parents, children and siblings, whether by blood, marriage or adoption, or anyone residing in such person's home;

FPI Status has the meaning attributed thereto in clause 2.1;

General Meeting means the general meeting of shareholders of the Company;

Global Executive Committee means the global executive committee installed by the Group CEO;

Group CEO means the Executive Director appointed as group chief executive officer by the Board in accordance with Article 16.1 of the Articles and as further referred to in these Board Rules;

Group Chairman means the Director appointed as chairman by the Board in accordance with Article 15.1 of the Articles and as further referred to in these Board Rules;

Group Vice-Chairman means a Non-Executive Director appointed as vice-chairman by the Board in accordance with Article 15.1 of the Articles and as further referred to in these Board Rules;

Initial Board Term has the meaning attributed thereto in clause 2.2;

Initial CEO Term has the meaning attributed thereto in clause 5.1;

Initial Chairman Term has the meaning attributed thereto in clause 4.1;

key location has the meaning attributed thereto in clause 7.3;

Edgar Filing: NYSE Euronext - Form 425

Non-Executive Director means a member of the Board who does not hold executive office with the Company and who is particularly responsible for the supervision on the policy of the Executive Director and the general affairs of the Company and who provides general advice to the Executive Director, as referred to in the Articles;

primary location has the meaning attributed thereto in clause 5.4;

Rules for the Global Executive Committee means the rules for the Global Executive Committee as amended and restated from time to time;

G-122

Table of Contents

secondary location has the meaning attributed thereto in clause 5.4;

Shareholders means any of the shareholders of the Company; and

[TopCo] Group means the Company and its direct and indirect subsidiaries.

2 Save where the context dictates otherwise, in these Board Rules:

- (a) the words hereof , herein , hereunder and hereby and words of similar import, when used in these Board Rules, shall refer to these Board Rules as a whole and not to any particular provision of these Board Rules;
- (b) words and expressions expressed in the singular form also include the plural form and *vice versa*;
- (c) words and expressions expressed in the masculine form also include the feminine form;
- (d) wherever the word include, includes or including is used in these Board Rules, it shall be deemed to be followed by the words without limitation ; and
- (e) a reference to a statutory provision counts as a reference to this statutory provision, including all amendments, additions and replacing legislation that may apply from time to time.

3 Headings of clauses and other headings in these Board Rules are inserted for ease of reference and do not form part of these Board Rules concerned for the purpose of interpretation.

G-126

Table of Contents

1 Composition of the Global Executive Committee

1.1 The Global Executive Committee of the [Topco] Group shall consist of eight (8) members. It shall include the Group CEO, and seven (7) other members. Each of the members of the Global Executive Committee shall be appointed for an initial term expiring on the fourth (4th) anniversary of the Closing Date (the **Initial Term**) or, if earlier, such member s resignation, removal or death.

1.2 The Global Executive Committee will be led by the Group CEO, who shall be the Chairman of the Global Executive Committee. The Group CEO will preside at the meetings of the Global Executive Committee.

1.3 In addition to the Group CEO, the members of the Global Executive Committee who shall be appointed for their Initial Terms are as follows (but, for the avoidance of doubt, without prejudice to the possibility of any future appointments to positions at the Company and/or its subsidiaries):

Andreas Preuss in his capacity as the Head of Global Derivatives, President and Deputy Group Chief Executive Officer;

Gregor Pottmeyer in his capacity as the Group Chief Financial Officer;

Lawrence Leibowitz in his capacity as the Head of Global Cash Tradings and Listings and Chief Operating Officer;

Jeffrey Tessler in his capacity as the Head of Global Settlement and Custody;

Dominique Cerutti in his capacity as the Head of Technology Services/ IT and President;

Frank Gerstenschläger in his capacity as the Head of Market Data and Analytics; and

John Halvey in his capacity as the Group General Counsel/ Head of Legal.

The Group General Counsel will report to the Group CEO and the Board. He shall closely cooperate with the General Corporate Counsel.

1.4 The Group CEO shall select, appoint and remove members of the Global Executive Committee, provided that he shall closely consult with the Group Chairman and the Board on any proposed appointments or removals of Global Executive Committee members.

2 Tasks and Responsibilities of the Global Executive Committee

To the extent it does not fall into the competencies of the Board, the Group Chairman and/or the Group CEO, the Global Executive Committee has, in particular, the following competencies and responsibilities:

Edgar Filing: NYSE Euronext - Form 425

management of the day-to-day business of [TopCo] Group and preparation of proposals for approval by the Board;

reporting to the Board on a regular basis and supporting the Board in the Board's decision-making process in particular with respect to:

business plan and annual budget of the [TopCo] Group;

changes in the legal structure and organisation;

business group and corporate center strategy; and

[Topco] Group compensation and benefits principles.

G-127

Table of Contents

3 Responsibilities of Divisional Heads

Each Divisional Head is responsible for the specific day-to-day business of his/her division and, in particular, the relevant divisional budgets, profit-and-loss statements, resources and business plans.

4 Meetings of the Global Executive Committee

- 4.1** Meetings of the Global Executive Committee shall be held alternately in Frankfurt and New York. From time to time, meetings of the Global Executive Committee can be held in other locations of the [TopCo] Group.
- 4.2** Meetings of the Global Executive Committee are convened by the Group CEO.
- 4.3** Meetings of the Global Executive Committee may be held by means of an assembly of the members in person at a formal meeting or by conference call, video conference or by any other means of communication, provided that all members participating in such meeting are able to communicate with each other simultaneously. Participation in a meeting held in any of the above ways shall constitute presence at such meeting.

5 Deliberations and Decisions of the Global Executive Committee

The members of the Global Executive Committee will in the process of their deliberations and decisions strive to take their decisions unanimously. In case such unanimity cannot be reached among the members of the Global Executive Committee, the Group CEO shall decide the matter in which unanimity could not be reached among the members of the Global Executive Committee. Any member of the Global Executive Committee whose responsibility *e.g.* in his function as a head of a global division or in his function as Chief Financial Officer or General Counsel is affected by such decision of the Group CEO, has the right to bring the matter to the attention of the Board for further discussion or decision as the Board may deem necessary.

6 Expiration of Rules

These Rules for the Global Executive Committee shall expire on the date that is four (4) years after [*the Closing Date*] or, if earlier, on the date when all of the Initial Terms of the Global Executive Committee members have expired. Prior to or upon expiration of these Rules, the Board shall consider whether it is appropriate to adopt rules to be in effect from and after expiration of the Initial Term, and the contents thereof.

7 Definitions

The meaning of certain capitalised terms used in these Rules for the Global Executive Committee are set forth below:

- 7.1** **Articles** means the articles of association of the Company, as amended and restated from time to time;
- 7.2** **Board** means the Board of Directors of the Company;
- 7.3** **Company** means [Topco];

- 7.4 **Closing Date** means [];
- 7.5 **Divisional Head** means the head of a division of the [Topco] Group;
- 7.6 **Group CEO** has the meaning given to it in the Articles;
- 7.7 **Group Chairman** has the meaning given to it in the Articles;
- 7.8 **Initial Term** has the meaning given to it in clause 1.1; and
- 7.9 **[Topco] Group** means the Company together with its subsidiaries.

FAX: 212-287-3201

February 15, 2011

The Board of Directors

NYSE Euronext

11 Wall Street

New York, NY 10005

Members of the Board of Directors:

We understand that NYSE Euronext, a Delaware corporation (the Company), is considering a transaction whereby the Company will enter into a business combination transaction with Deutsche Börse AG, an *Aktiengesellschaft* organized under the laws of Federal Republic of Germany (Deutsche Börse), as a result of which the Company and Deutsche Börse will become subsidiaries of Alpha Beta Netherlands Holding N.V., a *naamloze vennootschap* organized under the laws of the Netherlands formed solely for purposes of the transaction (Holdco). Pursuant to the terms of a Business Combination Agreement, dated February 15, 2011 (the Combination Agreement), by and among the Company, Deutsche Börse, Holdco and Pomme Merger Corporation, a Delaware corporation and a newly formed, wholly owned subsidiary of Holdco (Merger Sub), (i) Holdco will conduct an exchange offer (the Offer) to acquire all of the issued and outstanding shares of Deutsche Börse (the Deutsche Börse Shares), each in exchange for one ordinary share, nominal value 1.00 per share, of Holdco (a Holdco Share) and (ii) immediately following the purchase by Holdco of Deutsche Börse Shares pursuant to the Offer, Merger Sub will merge with and into the Company, with the Company surviving the merger as a wholly owned subsidiary of Holdco (the Merger and, together with the Offer, the Transactions), and all the issued and outstanding shares of the common stock, par value \$0.01 per share, of the Company (the Company Common Stock), other than any shares of Company Common Stock owned directly by the Company or Merger Sub and not held on behalf of third parties, will be converted into the right to receive 0.47 of a Holdco Share (the Company Exchange Ratio). The terms and conditions of the Transactions are more fully set forth in the Combination Agreement.

You have requested our opinion as to the fairness, from a financial point of view, to the holders of Company Common Stock, other than Deutsche Börse or any affiliate of Deutsche Börse (such holders, other than Deutsche Börse or any affiliate of Deutsche Börse, the Holders), of the Company Exchange Ratio provided for in the Transactions.

Partners have limited liability status

Table of Contents

For purposes of the opinion set forth herein, we have, among other things:

1. reviewed certain publicly available financial statements and other business and financial information with respect to the Company and Deutsche Börse, including research analyst reports;
2. reviewed certain internal financial information, analyses, and other financial and operating data relating to the business of the Company, in each case, prepared by management of the Company;
3. reviewed certain internal financial information, analyses, and other financial and operating data relating to the business of Deutsche Börse, in each case, prepared by management of Deutsche Börse;
4. reviewed certain publicly available financial forecasts relating to the Company;
5. reviewed certain publicly available financial forecasts relating to Deutsche Börse;
6. reviewed estimates of synergies anticipated from the Transactions (collectively, the Anticipated Synergies), prepared by management of the Company;
7. discussed the past and current business, operations, financial condition and prospects of the Company, including the Anticipated Synergies, with senior executives of the Company and Deutsche Börse, and discussed the past and current business, operations, financial condition and prospects of Deutsche Börse with senior executives of the Company and Deutsche Börse;
8. reviewed the relative financial contributions of the Company and Deutsche Börse to the future financial performance of Holdco on a pro forma basis;
9. compared the financial performance of the Company and Deutsche Börse with that of certain publicly-traded companies which we believe to be generally relevant;
10. compared the financial terms of the Transactions with the publicly available financial terms of certain transactions which we believe to be generally relevant;
11. reviewed the historical trading prices and trading activity for the Company Common Stock and the Deutsche Börse Shares, and compared such price and trading activity of the shares of Company Common Stock and Deutsche Börse Shares with each other and with that of securities of certain publicly-traded companies which we believe to be generally relevant;
12. reviewed the Combination Agreement; and
- 13.

Edgar Filing: NYSE Euronext - Form 425

conducted such other financial studies, analyses and investigations, and considered such other factors, as we have deemed appropriate.

In arriving at our opinion, we have assumed and relied upon, without independent verification, the accuracy and completeness of the financial and other information supplied or otherwise made available to us (including information that is available from generally recognized public sources) for purposes of this opinion and have further relied upon the assurances of the managements of the Company and of Deutsche Börse that, to their knowledge, the information furnished by them for purposes of our analysis does not contain any material omissions or misstatements of material fact. We have assumed with your consent that there are no material undisclosed liabilities of the Company and Deutsche Börse for which adequate reserves or other provisions have not been made. We have assumed, with your consent, that the Anticipated Synergies and potential strategic implications and operational benefits (including the amount, timing and achievability thereof) anticipated by the management of the Company to result from the Transactions will be realized in the amounts and at the times projected by the management of the Company, and we express no view as to the assumptions on which they are based. We have relied without independent verification upon the assessment by the managements of the Company and of Deutsche Börse of the timing and risks associated with the integration of the Company and Deutsche Börse. At the direction of the Company, we have relied upon the published estimates of third party research analysts with respect to the Company and Deutsche Börse and have assumed that such estimates are a reasonable basis upon which to evaluate the future financial performance of the Company and Deutsche Börse and we express no view as to the assumptions on which they are based. In arriving at our opinion, we have not

G-131

Table of Contents

made any independent valuation or appraisal of the assets or liabilities (including any contingent, derivative or off-balance-sheet assets and liabilities) of the Company or Deutsche Börse, nor have we been furnished with any such valuations or appraisals, nor have we assumed any obligation to conduct, nor have we conducted, any physical inspection of the properties or facilities of the Company or Deutsche Börse. In addition, we have not evaluated the solvency of any party to the Combination Agreement under any state, federal or foreign laws relating to bankruptcy, insolvency or similar matters. We have assumed that the Transactions will be consummated in accordance with the terms set forth in the Combination Agreement, without material modification, waiver or delay, including that each Deutsche Börse Share is exchanged for one Holdco Share in the Offer. In addition, we have assumed that in connection with the receipt of all the necessary approvals of the proposed Transactions, no delays, limitations, conditions or restrictions will be imposed that could have an adverse effect on Holdco, the Company, Deutsche Börse or the contemplated benefits expected to be derived in the proposed Transactions. Our analysis further assumes that 100% of the outstanding Deutsche Börse Shares are acquired by Holdco in the Offer. We have relied as to all legal matters relevant to rendering our opinion upon the advice of our counsel.

This opinion addresses only the fairness from a financial point of view, as of the date hereof, of the Company Exchange Ratio to the Holders pursuant to the Combination Agreement. We have not been asked to, nor do we, offer any opinion as to any other term of the Combination Agreement (or any related document or agreement) or the form of the Transactions or the likely timeframe in which the Transactions will be consummated. In addition, we express no opinion as to the fairness of the amount or nature of any compensation to be received by any officers, directors or employees of any parties to the Combination Agreement, or any class of such persons, relative to the Company Exchange Ratio. We do not express any opinion as to any tax or other consequences that may result from the transactions contemplated by the Combination Agreement, nor does our opinion address any legal, tax, regulatory or accounting matters, as to which we understand the Company has received such advice as it deems necessary from qualified professionals. Our opinion does not address the underlying business decision of the Company to enter into the Transactions or the relative merits of the Transactions as compared with any other strategic alternative which may be available to the Company. We have not been authorized to solicit, and have not solicited, indications of interest in a transaction with the Company from any party. We note that on February 9, 2011, the Company and Deutsche Börse publicly confirmed that they were engaged in advanced discussions regarding a potential business combination.

We have acted as financial advisor to the Company in connection with the Transactions and will receive a fee for our services, a portion of which is payable upon the public announcement of the execution of a binding agreement for the Transactions and a significant portion of which is contingent upon consummation of the Transactions. In addition, the Company has agreed to indemnify us for certain liabilities and other items arising out of our engagement. During the two year period prior to the date hereof, no material relationship existed between Perella Weinberg Partners LP and its affiliates and the Company or Deutsche Börse or any of their respective affiliates pursuant to which compensation was received by Perella Weinberg Partners LP or its affiliates; however, Perella Weinberg Partners LP and its affiliates may in the future provide investment banking and other financial services to the Company, Deutsche Börse or Holdco and their respective affiliates for which Perella Weinberg Partners LP and its affiliates would expect to receive compensation. In the ordinary course of our business activities, Perella Weinberg Partners LP or its affiliates may at any time hold long or short positions, and may trade or otherwise effect transactions, for their own account or the accounts of customers or clients, in debt or equity or other securities (or related derivative securities) or financial instruments (including bank loans or other obligations) of the Company, Deutsche Börse or Holdco or any of their respective affiliates. The issuance of this opinion was approved by a fairness committee of Perella Weinberg Partners LP.

It is understood that this opinion is for the information and assistance of the Board of Directors of the Company in connection with, and for the purposes of its evaluation of, the Transactions. This opinion is not intended to be and does not constitute a recommendation to any Holder or holder of Deutsche Börse Shares as to how such holders should vote or otherwise act with respect to the proposed Transactions or any other matter and does not in any manner address the prices at which shares of the Company Common Stock, Holdco Shares or the

Table of Contents

Deutsche Börse Shares will trade at any time. In addition, we express no opinion as to the fairness of the Transactions to, or any consideration received in connection with the Transactions by, the holders of any other class of securities, creditors or other constituencies of the Company. Our opinion is necessarily based on financial, economic, market and other conditions as in effect on, and the information made available to us as of, the date hereof. It should be understood that subsequent developments may affect this opinion and the assumptions used in preparing it, and we do not have any obligation to update, revise, or reaffirm this opinion.

Based upon and subject to the foregoing, including the various assumptions and limitations set forth herein, we are of the opinion that, on the date hereof, the Company Exchange Ratio provided for in the Combination Agreement is fair, from a financial point of view, to the Holders.

Very truly yours,

/s/ PERELLA WEINBERG PARTNERS LP

Supervisory Board and Management Board

Deutsche Börse AG

Mergenthalerallee 61

65760 Eschborn

Germany

Lady and Gentlemen:

Deutsche Bank Securities Inc. (Deutsche Bank) has acted as financial advisor to Deutsche Börse AG (DBAG) in connection with the Business Combination Agreement, dated as of February 15, 2011 (the Business Combination Agreement), by and among NYSE Euronext (NYSE Euronext), DBAG, Alpha Beta Netherlands Holding N.V. (Holdco), and Pomme Merger Corporation, a newly formed, wholly owned subsidiary of Holdco (Merger Sub), which provides, among other things, (i) for Holdco to make a public exchange offer (the Offer) to acquire all of the issued and outstanding shares of DBAG (the DBAG Shares), including a condition that at least 75% of the DBAG Shares have been validly tendered in accordance with the terms of the Offer prior to the expiration time and not withdrawn, and (ii) upon closing of the Offer, for the merger of Merger Sub with and into NYSE Euronext (the Merger), as a result of which NYSE Euronext will become a wholly owned subsidiary of Holdco (collectively, the Transactions). As set forth more fully in the Business Combination Agreement, (i) pursuant to the terms and conditions of the Offer, tendering DBAG shareholders will receive, in exchange for each outstanding DBAG Share tendered, one (the DBAG Exchange Ratio) ordinary share of Holdco (each such share, a Holdco Share and, collectively, the Holdco Shares), and (ii) pursuant to the terms and conditions of the Merger, each share of NYSE Euronext common stock, par value \$0.01 per share (the NYSE Euronext Shares), other than any NYSE Euronext Shares owned by NYSE Euronext or Merger Sub, will be converted into the right to receive 0.47 of a Holdco Share.

You have requested our opinion as to the fairness of the DBAG Exchange Ratio, from a financial point of view, to the holders of the DBAG Shares.

In connection with our role as financial advisor to DBAG, and in arriving at our opinion, we reviewed certain publicly available financial and other information concerning NYSE Euronext and DBAG, projections based on certain publicly available research analysts' financial forecasts endorsed by the respective managements of DBAG and NYSE Euronext and extrapolations from such forecasts as directed by the respective managements of DBAG and NYSE Euronext (collectively, the Broker Projections), and certain internal analyses and other information relating to NYSE Euronext and DBAG prepared by management of NYSE Euronext and DBAG, respectively. We have not reviewed in preparing our opinion any financial forecasts or projections prepared by the management of NYSE Euronext or DBAG and, with your permission, have relied on the Broker Projections. We have also held discussions with certain senior officers and other representatives and advisors of NYSE Euronext and DBAG regarding the businesses and prospects of NYSE Euronext and DBAG, respectively, and of Holdco, NYSE Euronext and DBAG after giving effect to the Transactions, including certain cost savings, revenue effects and operating synergies jointly projected by the managements of NYSE Euronext and DBAG to result from the Transactions. In addition, Deutsche Bank has reviewed the reported prices and trading activity for the DBAG Shares and the NYSE Euronext Shares, and, (i) to the extent publicly available, compared certain financial and stock market information for NYSE Euronext and DBAG with similar information for certain other companies we considered relevant whose securities are publicly traded, (ii) to the extent publicly available, reviewed the terms and governance arrangements of certain recent business combinations which we deemed relevant, (iii) reviewed a draft dated February 13, 2011 of the Business Combination Agreement, and (iv) performed such other studies and analyses and considered such other factors as we deemed appropriate.

Table of Contents

Deutsche Bank has not assumed responsibility for independent verification of, and has not independently verified, any information, whether publicly available or furnished to it, concerning Holdco, NYSE Euronext or DBAG, including, without limitation, any financial information considered in connection with the rendering of its opinion. Accordingly, for purposes of its opinion, Deutsche Bank has, with your permission, assumed and relied upon the accuracy and completeness of all such information. Deutsche Bank has not conducted a physical inspection of any of the properties or assets, and has not prepared or obtained any independent evaluation or appraisal of any of the assets or liabilities (including any contingent, derivative or off-balance-sheet assets and liabilities), of Holdco, NYSE Euronext, DBAG or any of their respective subsidiaries, nor have we evaluated the solvency or fair value of Holdco, NYSE Euronext or DBAG under any applicable law relating to bankruptcy, insolvency or similar matters. With respect to the Broker Projections, and the analyses and forecasts of the amount and timing of certain cost savings, operating efficiencies, revenue effects, financial synergies and other strategic benefits projected by Holdco, NYSE Euronext or DBAG to be achieved as a result of the Transactions (collectively, the Synergies) as well as potential incremental expenses arising out of the Transactions, and the pro forma combined Holdco financial and operating information, in each case made available to Deutsche Bank or used in its analyses, Deutsche Bank has assumed with your permission that they have been reasonably prepared and reflect the best currently available estimates and judgments of the management of NYSE Euronext and DBAG as to the matters covered thereby and with respect to the Broker Projections and other information relating to NYSE Euronext, Deutsche Bank has relied on such Broker Projections and other information at the direction of DBAG. In rendering its opinion, Deutsche Bank expresses no view as to the reasonableness of such forecasts and projections, including, without limitation, the Synergies, or the assumptions on which they are based.

For purposes of rendering its opinion, Deutsche Bank has assumed with your permission that, in all respects material to its analysis, the representations and warranties of Holdco, NYSE Euronext and DBAG contained in the Business Combination Agreement are true and correct. Additionally, Deutsche Bank has assumed with your permission that, in all respects material to its analysis, the Transactions will be consummated in accordance with their terms, without any material waiver, modification or amendment of any term, condition or agreement and that Holdco, NYSE Euronext, DBAG and Merger Sub will each perform all of the covenants and agreements to be performed by it under the Business Combination Agreement and that the announcement and consummation of the Transactions will not result in the loss by either NYSE Euronext or DBAG of any of their material relationships with their respective clients, customers or suppliers. In addition, Deutsche Bank has assumed that all of the DBAG Shares will be acquired by Holdco pursuant to the Offer or otherwise on a timely basis at the DBAG Exchange Ratio without any adverse costs or other adverse impact on Holdco or the Holdco Shares, including any adverse impact on the timing or amount of the Synergies to be realized by Holdco, NYSE Euronext or DBAG as a result of the Transactions. Deutsche Bank has also assumed that all material governmental, regulatory or other approvals and consents required in connection with the consummation of the Transactions will be obtained and that in connection with obtaining any necessary governmental, regulatory or other approvals and consents, no material restrictions will be imposed. In addition, you have informed Deutsche Bank, and accordingly for purposes of rendering its opinion Deutsche Bank has assumed, that the Transactions will be tax free to Holdco, NYSE Euronext, DBAG, the holders of the DBAG Shares and the holders of NYSE Euronext Shares. We are not legal, regulatory, tax or accounting experts and have relied on the assessments made by DBAG and its advisors with respect to such issues. Representatives of DBAG have informed us, and we have further assumed, that the final terms of the Business Combination Agreement will not differ materially from the terms set forth in the draft we have reviewed.

This opinion has been approved and authorized for issuance by a fairness opinion review committee, is addressed to, and for the use and benefit of, the Supervisory Board and Management Board of DBAG and is not a recommendation to the holders of the DBAG Shares to tender any DBAG Shares in connection with the Offer. This opinion is limited to the fairness, from a financial point of view of the DBAG Exchange Ratio to the holders of the DBAG Shares, is subject to the assumptions, limitations, qualifications and other conditions contained herein and is necessarily based on the economic, market and other conditions, and information made available to us, as of the date hereof. You have not asked us to, and this opinion does not, address the fairness of the Transactions, or any consideration received in connection therewith, to the holders of any class of securities,

Table of Contents

creditors or other constituencies of NYSE Euronext or DBAG (other than the fairness, from a financial point of view of the DBAG Exchange Ratio to the holders of the DBAG Shares), nor does it address the fairness of the contemplated benefits of the Transactions. We expressly disclaim any undertaking or obligation to advise any person of any change in any fact or matter affecting our opinion of which we become aware after the date hereof. Deutsche Bank expresses no opinion as to the merits of the underlying decision by DBAG to engage in the Transactions. In addition, we do not express any view or opinion as to the fairness, financial or otherwise, of the amount or nature of any compensation payable to or to be received by any of the officers, directors, or employees of any parties to the Transactions, or any class of such persons, relative to the DBAG Exchange Ratio. This opinion does not in any manner address the prices at which the Holdco Shares or other Holdco securities or the DBAG Shares or other DBAG securities will trade following the announcement or consummation of the Transactions.

Deutsche Bank will be paid a fee for its services as financial advisor to DBAG in connection with the Transactions, a substantial portion of which is contingent upon consummation of the Transactions. DBAG has also agreed to reimburse Deutsche Bank for its expenses, and to indemnify Deutsche Bank and its affiliates against certain liabilities, in connection with its engagement. We are an affiliate of Deutsche Bank AG (together with its affiliates, the DB Group). One or more members of the DB Group have, from time to time, provided investment banking, commercial banking (including extension of credit) and other financial services to NYSE Euronext and DBAG or their respective affiliates for which it has received compensation, including (i) a member of the DB Group served as the financial advisor to DBAG in connection with its agreement with SIX Group to increase its holding in STOXX Ltd to a controlling stake, (ii) a member of the DB Group served as a lead arranger and bookrunner in connection with the extension of the \$1.0 billion credit facility of DBAG and Clearstream Banking S.A., an affiliate of DBAG, and (iii) a member of the DB Group served as a participant in connection with the \$3.0 billion credit facility of Clearstream Banking S.A. DB Group may also provide investment and commercial banking services to Holdco, NYSE Euronext and DBAG in the future, for which we would expect the DB Group to receive compensation. In the ordinary course of business, members of the DB Group may actively trade in the securities and other instruments and obligations of Holdco, NYSE Euronext and DBAG for their own accounts and for the accounts of their customers. Accordingly, the DB Group may at any time hold a long or short position in such securities, instruments and obligations.

Based upon and subject to the foregoing, it is Deutsche Bank's opinion as investment bankers that, as of the date hereof, the DBAG Exchange Ratio is fair, from a financial point of view, to the holders of the DBAG Shares.

This letter is provided to the Supervisory Board and the Management Board of DBAG in connection with and for the purposes of their evaluation of the Transactions. This opinion may not be disclosed, summarized, referred to, or communicated (in whole or in part) to any other person for any purpose whatsoever except with our prior written approval, provided that this opinion may be reproduced in full in any exchange offer prospectus mailed by Holdco and DBAG to the holders of the DBAG Shares in connection with the Transactions.

Very truly yours,

Annex G

February 15, 2011

Deutsche Börse AG

Attention of the *Vorstand* (Management Board) and

the *Aufsichtsrat* (Supervisory Board)

Mergenthalerallee 61

65760 Frankfurt

Germany

Members of the *Vorstand* (Management Board), Members of the *Aufsichtsrat* (Supervisory Board):

You have requested our opinion as to the fairness, from a financial point of view, to the holders (other than the Company (as defined below)) of the ordinary shares with a par value (*anteiliger Betrag des Grundkapitals*) of 1.00 per share (including any such shares underlying outstanding American depository receipts, the Company Shares) of Deutsche Börse AG, an *Aktiengesellschaft* organized under the laws of the Federal Republic of Germany (the Company), of the Exchange Ratio (as defined below) in the proposed Exchange Offer (as defined below) pursuant to the Business Combination Agreement, to be dated as of February 15, 2011 (the Agreement), among the Company, NYSE Euronext, a Delaware corporation (NYSE Euronext), Alpha Beta Netherlands Holding N.V., a *naamloze vennootschap* organized under the laws of the Netherlands (Holdco), and Pomme Merger Corporation, a Delaware corporation and a newly formed, wholly-owned subsidiary of Holdco (Merger Sub). You have advised us that, pursuant to the Agreement, among other things:

(i) Holdco will commence an exchange offer, conditioned on, among other things, a minimum tender condition of 75% of the Company Shares, pursuant to the German Securities Acquisition and Takeover Act (*Wertpapiererwerbs- und Übernahmegesetz*), as amended (the Takeover Act) and the U.S. Securities Exchange Act of 1934, as amended, to acquire all of the Company Shares (the Exchange Offer) at an exchange ratio entitling the exchanging holder to receive one (the Exchange Ratio) ordinary share, nominal value 1.00 per share, of Holdco (the Holdco Shares) for each Company Share so exchanged;

(ii) immediately following the acquisition by Holdco of the Company Shares pursuant to the Exchange Offer, Merger Sub will be merged with and into NYSE Euronext (the Merger) and, together with the Exchange Offer and the transactions contemplated by the Agreement, the Transaction), NYSE Euronext will thereby become a wholly-owned subsidiary of Holdco, and each outstanding share of NYSE Euronext common stock, par value \$0.01 per share (the NYSE Euronext Shares), other than NYSE Euronext Shares held directly by NYSE Euronext or Merger Sub, and in each such case not held on behalf of third parties, will be converted into the right to receive 0.4700 of a Holdco Share; and

(iii) simultaneously with, or as soon as practicable following, the completion of the Merger, Holdco intends to effectuate one or more corporate reorganization transactions (collectively, the Post-Closing Reorganization) intended to achieve legal and operational integration of the Company with Holdco to the greatest extent permitted by applicable law, which reorganization transaction may include (A) under certain circumstances, a commencement by Holdco of a mandatory buy-out of the Company Shares from any remaining holders thereof by way of a squeeze-out transaction pursuant to the German Stock Corporation Act (*Aktiengesetz*) (the Stock Corporation Act) or by applying for a court order in accordance with the Takeover Act and/or (B) entering into a domination agreement (*Beherrschungsvertrag*) and/or, at the

383 Madison Avenue, New York, New York 10179

J.P. Morgan Securities Inc.

Table of Contents

election of Holdco, a combination of a domination agreement (*Beherrschungsvertrag*) and a profit transfer agreement (*Gewinnabführungsvertrag*), in each case, pursuant to the Stock Corporation Act, with the Company as the controlled company and with Holdco Shares offered to the outside Company shareholders as consideration (*Abfindung*) pursuant to the Stock Corporation Act; *provided*, that Holdco intends to structure the Post-Closing Reorganization with the goal of providing the holders of Company Shares who do not exchange such shares in the Exchange Offer with Holdco Shares based on the Exchange Ratio or consideration having equivalent value (*provided*, that some or all of such holders may under certain circumstances receive a different amount or form of consideration).

In connection with preparing our opinion, we have (i) reviewed a draft dated February 14, 2011 of the Agreement; (ii) reviewed certain publicly available business and financial information concerning the Company and NYSE Euronext and the industries in which they operate; (iii) compared the financial and operating performance of the Company and NYSE Euronext with publicly available information concerning certain other companies we deemed relevant and reviewed the current and historical market prices of the Company Shares and the NYSE Euronext Shares and certain publicly traded securities of such other companies; (iv) at the direction of the management of the Company, reviewed certain financial analyses and forecasts relating to the Company's and NYSE Euronext's respective businesses provided to us by or on behalf of the management of the Company, which were prepared at the direction of the managements of the Company and NYSE Euronext and which were derived from certain publicly available research analyst estimates and guidance, and extrapolated therefrom, as directed and endorsed by such managements, as well as the estimated amount and timing of the cost savings and the related expense and revenue and other synergies expected to result from the Transaction (collectively, the Synergies); and (v) performed such other financial studies and analyses and considered such other information as we deemed appropriate for the purposes of this opinion.

In addition, we have held discussions with certain members of the management of the Company and NYSE Euronext with respect to certain aspects of the Transaction, and the past and current business operations of the Company and NYSE Euronext, the financial condition and future prospects and operations of the Company and NYSE Euronext, the effects of the Transaction on the financial condition and future prospects of the Company and NYSE Euronext, and certain other matters we believed necessary or appropriate to our inquiry.

In giving our opinion, we have relied upon and assumed the accuracy and completeness of all information that was publicly available or was furnished to or discussed with us by the Company and NYSE Euronext or otherwise reviewed by or for us, and we have not independently verified (nor have we assumed responsibility or liability for independently verifying) any such information or its accuracy or completeness. We have not conducted or been provided with any valuation or appraisal of any assets or liabilities, nor have we evaluated the solvency of the Company or NYSE Euronext under any state, federal or foreign laws relating to bankruptcy, insolvency or similar matters. In connection with our analysis, we were directed by the management of the Company to utilize the financial analyses and forecasts relating to the Company's and NYSE Euronext's respective businesses derived and extrapolated from certain publicly available research analyst estimates and guidance as referred to above, and we did not receive any internal management forecasts from either the Company or NYSE Euronext other than with respect to the Synergies. Also in connection with our analysis, we were directed by the management of the Company to utilize the Synergies provided to us by the management of the Company. In relying on such financial analyses and forecasts, including the Synergies, we were advised by the management of the Company and we have assumed, at your direction, that they reflect the best currently available estimates as to the expected future results of operations and financial condition of the Company and NYSE Euronext to which such analyses or forecasts relate and are a reasonable basis on which to evaluate the expected future results of operations and financial condition of the Company and NYSE Euronext to which such forecasts and estimates relate. We express no view as to such analyses or forecasts (including the Synergies) or the assumptions on which they were based, and we have assumed, with your approval, that the Synergies will be achieved at the times and in the amounts projected in all respects material to our analysis.

Table of Contents

We have also assumed in all respects material to our analysis that (i) all of the Company Shares will be acquired by Holdco pursuant to the Exchange Offer or otherwise on a timely basis at the Exchange Ratio and that the Post-Closing Reorganization will be successfully completed on a timely basis without any adverse cost or other adverse impact on Holdco or the holders of Holdco Shares, including any adverse impact on the timing or amount of the Synergies to be realized by Holdco and/or its subsidiaries as a result of the Transaction, (ii) the Transaction will be consummated as described in the Agreement and without any waiver of any of the conditions thereof, and (iii) the definitive Agreement will not differ in any material respects from the draft thereof furnished to us. We have also assumed that the Transaction will qualify as a tax-free reorganization to the Company and the holders of Company Shares for United States federal and German tax purposes, in each case, as contemplated by the Agreement. We have also assumed that the representations and warranties made by the Company, NYSE Euronext, Holdco and Merger Sub in the Agreement and the related agreements are and will be true and correct in all respects material to our analysis. We are not legal, regulatory or tax experts and have relied on the assessments made by the Company and its advisors with respect to such issues. We have further assumed that all material governmental, regulatory or other consents and approvals necessary for the consummation of the Transaction will be obtained without any adverse effect on the Company, NYSE Euronext or Holdco or on the contemplated benefits of the Transaction.

Our opinion is necessarily based on economic, market and other conditions as in effect on, and the information made available to us as of, the date hereof. It should be understood that subsequent developments may affect this opinion and that we do not have any obligation to update, revise, or reaffirm this opinion. Our opinion is limited to the fairness, from a financial point of view, to the holders of the Company Shares (other than the Company) of the Exchange Ratio in the proposed Exchange Offer and we express no opinion as to the fairness of the Transaction (including the Exchange Offer or the Merger) to any person or entity, or of any consideration to be received by, the holders of any other class of securities, creditors or other constituencies of the Company or the holders of any class of securities, creditors or other constituencies of NYSE Euronext, or as to the underlying decision by the Company to engage in the Transaction. Furthermore, we express no opinion with respect to the amount or nature of any compensation to any officers, directors, or employees of any party to the Transaction, or any class of such persons relative to the Exchange Ratio applicable to the holders of the Company Shares in the Exchange Offer or with respect to the fairness of any such compensation. We are expressing no opinion herein as to the price at which the Company Shares, the NYSE Euronext Shares or the Holdco Shares will trade at any future time.

We note that we were not authorized to and did not solicit any expressions of interest from any other parties with respect to any other merger, sale or other business combination involving all or any part of the Company.

We have acted as financial advisor to the Company with respect to the proposed Transaction and will receive a fee from the Company for our services, a substantial portion of which will become payable only if the proposed Exchange Offer and Merger is consummated. In addition, the Company has agreed to indemnify us for certain liabilities arising out of our engagement. During the two years preceding the date of this letter, we and our affiliates have had commercial or investment banking relationships with the Company and NYSE Euronext, for which we and such affiliates have received customary compensation. Our commercial banking affiliate is a lender under outstanding credit facilities of the Company and an agent bank and a lender under outstanding credit facilities of NYSE Euronext and also provides certain treasury and cash management services to the Company and NYSE Euronext, in each case for which it receives customary compensation or other financial benefits. In addition, we and/or our affiliates are members of, and conduct securities trading through, the exchanges of certain of the Company's and NYSE Euronext's affiliates, and may also hold equity positions in certain of these exchanges in connection with their respective membership in such exchanges. In the ordinary course of our businesses, we and our affiliates may actively trade the debt and equity securities of the Company or NYSE Euronext for our own account or for the accounts of customers and, accordingly, we may at any time hold long or short positions in such securities.

Table of Contents

On the basis of and subject to the foregoing, it is our opinion as of the date hereof that the Exchange Ratio in the proposed Exchange Offer is fair, from a financial point of view, to the holders of Company Shares (other than the Company).

The issuance of this opinion has been approved by a fairness opinion committee of J.P. Morgan Securities LLC. This letter is provided to the *Vorstand* (Management Board) and the *Aufsichtsrat* (Supervisory Board) of the Company (in their respective capacities as such) in connection with and for the purposes of their evaluation of the Transaction. This opinion does not constitute a recommendation to any shareholder of the Company as to whether such shareholder should tender its shares into the Exchange Offer or how such shareholder should vote with respect to the Transaction or any other matter. In addition, this opinion and any such advice provided by J.P. Morgan Securities LLC is not and should not be considered a value opinion as is customarily rendered by qualified auditors based on the requirements of German corporate law (*e.g.*, in connection with a mandatory buy-out of Company Shares or entering into a domination agreement and/or a profit transfer agreement), nor are we expressing any opinion herein as to the compensation which may be payable to holders of Company Shares in connection with such a mandatory buy-out of their Company Shares or in connection with entering into a domination agreement and/or a profit transfer agreement. This opinion may not be disclosed, referred to, or communicated (in whole or in part) to any third party for any purpose whatsoever except with our prior written approval. This opinion may be reproduced in full in any proxy, information statement or Exchange Offer shareholder recommendation statement under applicable German or U.S. law, in each case, mailed to shareholders of the Company, but may not otherwise be disclosed publicly in any manner without our prior written approval.

Very truly yours,

U.S. EXCHANGE OFFER PROSPECTUS

This document has neither been reviewed nor approved by *Bundesanstalt für Finanzdienstleistungsaufsicht*, the German Federal Financial Supervisory Authority (**BaFin**). In connection with the offer to acquire all shares in Deutsche Börse Aktiengesellschaft (the **exchange offer**), Alpha Beta Netherlands Holding N.V. (**Holdco**) filed a German language exchange offer document with BaFin which has been reviewed by BaFin pursuant to the German Securities Acquisitions and Takeover Act (the **German Takeover Act**) and the publication of which was permitted by BaFin on May 2, 2011 (the **BaFin-approved offer document**). The BaFin-approved offer document, and an English translation thereof that was not reviewed by BaFin, were published by Holdco on May 4, 2011 on the internet at <http://www.global-exchange-operator.com>. The English translation of the BaFin-approved offer document was also filed by Holdco with the U.S. Securities and Exchange Commission (**SEC**) on May 4, 2011. This document contains the same offer terms and conditions as, and substantially corresponds to the English translation of, the BaFin-approved offer document, except for certain modifications and updates to the disclosures made by Holdco in connection with its filing on May 3, 2011 of a Registration Statement on Form F-4 with the SEC that includes an exchange offer document/prospectus relating to the exchange offer. These modifications and updates do not affect the BaFin-approved offer document. Where this document makes reference to its publication pursuant to the German Takeover Act or the fact that it has been reviewed by BaFin or that its publication has been permitted by BaFin, such reference shall be deemed to relate to the BaFin-approved offer document only.

Shareholders of Deutsche Börse Aktiengesellschaft, in particular those who have their place of residence, seat or place of habitual abode outside The Federal Republic of Germany should pay particular attention to the information contained in section 1 of this exchange offer document.

Table of Contents**1 General information and notes for shareholders****1.1 Implementation of the exchange offer pursuant to the German Securities Acquisition and Takeover Act**

This offer document (the **exchange offer document**) describes the voluntary public takeover offer (the **exchange offer**) of Alpha Beta Netherlands Holding N.V., a public limited liability company (*naamloze vennootschap*) incorporated and existing under the laws of the Netherlands, having its official seat (*statutaire zetel*) in Amsterdam, the Netherlands, and registered with the Dutch Trade Register of the Chamber of Commerce (*Kamer van Koophandel*) under number 52019756, having its registered office at Beursplein 5, 1012 JW Amsterdam, the Netherlands (**Holdco** or the **Bidder**) in accordance with the German Securities Acquisition and Takeover Act (*Wertpapiererwerbs- und Übernahmegesetz*, the **German Takeover Act**), to the shareholders of Deutsche Börse Aktiengesellschaft, Frankfurt am Main, Germany, registered in the commercial register (*Handelsregister*) of the Local Court (*Amtsgericht*) of Frankfurt am Main under HRB 32232 (**Deutsche Börse**) and, together with its affiliated companies, the **Deutsche Börse group**) and with its business address at Mergenthaler Allee 61, 65760 Eschborn, Germany (Deutsche Börse's shareholders being the **shareholders of Deutsche Börse**), except for the shareholders of Deutsche Börse excluded from the exchange offer as set forth in section 1.2.

Shareholders of Deutsche Börse whose place of residence, seat or habitual abode is in Japan (**Japanese shareholders of Deutsche Börse**) are requested to note in particular the details in section 1.2 and section 1.5.

The exchange offer is made exclusively in accordance with the laws of the Federal Republic of Germany (**Germany**), in particular pursuant to the German Takeover Act in conjunction with the Regulation on the Content of the Offer Document, the Consideration for Takeover Offers and Mandatory Offers and the Release from the Obligation to publish and to make a Tender Offer (*Verordnung über den Inhalt der Angebotsunterlage, die Gegenleistung bei Übernahmeangeboten und Pflichtangeboten und die Befreiung von der Verpflichtung zur Veröffentlichung und zur Abgabe eines Angebots* WpÜG-Angebotsverordnung, the **German Takeover Act Offer Regulation**) and in accordance with applicable U.S. securities laws, including Regulation 14E under the U.S. Securities Exchange Act of 1934, as amended (**Exchange Act**).

With respect to the Holdco shares to be issued in this exchange offer and the merger (as described in section 6.1), in the United States of America (herein referred to as the **United States**), a registration statement on Form F-4 (the **Registration Statement**) is required pursuant to applicable U.S. securities laws, including Section 5 of the U.S. Securities Act of 1933, as amended (the **Securities Act**), and Rule 145 thereunder, that has to become effective. However, there is the alternative of a so-called Early Commencement which means that the exchange offer may begin before the Registration Statement has become effective (see section 13.3.3). Immediately upon filing with the SEC, registration statements become public. The SEC reviews a company's registration statement after it is filed. Once the company has satisfactorily addressed all SEC comments in an amended registration statement, the registration statement will be declared effective by the SEC.

Annex 2 contains information pursuant to Section 2 no. 2 German Takeover Act Offer Regulation in conjunction with Section 7 German Securities Prospectus Act (*Wertpapierprospektgesetz*, the **German Securities Prospectus Act**) and Commission Regulation (EC) No 809/2004 (April 29, 2004), as amended, implementing Directive 2003/71/EC of the European Parliament and of the Council as regards information contained in prospectuses as well as the format, incorporation by reference and publication of such prospectuses and the dissemination of advertisements (**Prospectus Regulation**). Annex 2 forms part of this exchange offer document and should be read together with this exchange offer document.

There are no further documents other than Annex 1 (Persons acting jointly with Deutsche Börse Aktiengesellschaft) and Annex 2 (Information pursuant to Section 2 no. 2 German Takeover Act Offer Regulation in conjunction with Section 7 German Securities Prospectus Act and the Prospectus Regulation), which form part of this exchange offer document.

Table of Contents

This exchange offer document has been reviewed and its publication has been permitted by the German Federal Financial Supervisory Authority (*Bundesanstalt für Finanzdienstleistungsaufsicht*, **BaFin**), it has not been approved by any other authority. BaFin has reviewed the exchange offer document pursuant to the German Takeover Act and has approved its publication⁽¹⁾. The English translation of the exchange offer document has not been reviewed by BaFin.

In this exchange offer document, the registered no-par-value shares (*auf den Namen lautende Stückaktien*) of Deutsche Börse (ISIN DE0005810055), are referred to as the **Deutsche Börse shares**. The ordinary voting shares of the Bidder with a nominal value of 1.00 as described in section 6.3 are referred to as **Holdco shares**. Holdco will increase its authorized capital as described under section 6.3.2(i) in order to allow Holdco to issue the necessary shares for the exchange offer. The newly issued ordinary Holdco shares that will be used as consideration under this exchange offer are referred to as the **Holdco offer shares** (see section 4.1).

With this exchange offer, the Bidder is not making any public offer pursuant to any laws other than the laws of Germany, the laws of the United Kingdom of Great Britain and Northern Ireland (**United Kingdom**) and to some extent the laws of the United States. Consequently, unless required by mandatory law, no other announcements have been made, and no other registrations, approvals, admissions or authorizations have been applied for or granted, in respect of this exchange offer document and/or the exchange offer outside Germany (with respect to the publication and dissemination please refer to section 1.4). As a result, the shareholders of Deutsche Börse cannot rely upon the application of foreign laws for investor protection.

Shareholders of Deutsche Börse who have their place of residence, seat or place of habitual abode in the United States (**U.S. shareholders of Deutsche Börse**) are informed that the exchange offer is subject to specific publication and procedural regulations under German law, which may differ from those that would be applicable to a company with shares listed in the United States or otherwise registered under the Exchange Act. For instance, the exchange offer differs from the process of a tender offer for a company with shares listed in the United States or otherwise registered under the Exchange Act with regard to the right of withdrawal, time allowed for acceptance and settlement.

1.2 Shareholders excluded from the exchange offer

On April 20, 2011, BaFin permitted pursuant to Section 24 German Takeover Act to exclude Japanese shareholders of Deutsche Börse from the exchange offer. The exchange offer therefore cannot be accepted by them.

This does not apply to qualified institutional investors (*tekikaku kikan toshika*) (as defined in Article 2 para. 3 (i) of the Financial Instruments and Exchange Act of Japan (Law No. 25 of 1948, as amended) (**FIEA**)) (the **Japanese institutional investors** or the **admitted shareholders in Japan**).

The Japanese shareholders of Deutsche Börse (except for the admitted shareholders in Japan) are referred to as the **excluded Japanese shareholders**. For more information on the acceptance of the exchange offer outside of Germany, the United States and the United Kingdom, see also section 1.5.

1.3 Publication of the decision to make the exchange offer

On February 15, 2011, the Bidder published its decision to make the exchange offer in accordance with Section 10 para. 1 sentence 1 German Takeover Act. The publication is available on the internet at <http://www.global-exchange-operator.com>. The English translation of the exchange offer document will be filed by the Bidder with the SEC immediately after approval of the German exchange offer document by BaFin and, subsequently, will be available electronically through the SEC's Electronic Data Gathering, Analysis and Retrieval (**EDGAR**) system. The English translation of the exchange offer document can be located on EDGAR at <http://www.sec.gov/edgar/searchedgar/companysearch.html>. From this website, search Alpha Beta Netherlands Holding N.V. under the tab company name. Alternatively, the publication can be accessed from the same website by entering the registration number, which is 333-173347, under the tab file number.

⁽¹⁾ The review and permission/approval by BaFin referred to in this paragraph relates exclusively to the German language offer document as published by Holdco on May 4, 2011 (see disclaimer on the cover page).

Table of Contents**1.4 Publication and dissemination of this exchange offer document**

In accordance with Section 14 para. 3 German Takeover Act, the Bidder will publish this exchange offer document in German (as well as an English translation which has neither been reviewed nor approved by BaFin) on the internet at <http://www.global-exchange-operator.com> on May 4, 2011. The Bidder will make available copies of the exchange offer document for distribution in Germany free of charge at Deutsche Bank AG, Taunusanlage 12, 60262 Frankfurt am Main, Germany (fax no.: +49 (69) 910 3 87 94; e-mail: DCT.Tender-Offers@db.com). The announcement regarding (i) the availability of copies of this exchange offer document in Germany for distribution free of charge and (ii) the internet address at which this exchange offer document is being published will be published in the electronic Federal Gazette (*elektronischer Bundesanzeiger*) on May 4, 2011. In the United States, the Bidder has filed a Registration Statement, and will also file the English translation of this exchange offer document by May 4, 2011, at the latest, with the SEC. The Bidder will send the English translation to the U.S. shareholders of Deutsche Börse known to it. In addition, the U.S. shareholders of Deutsche Börse can request, free of charge, the delivery of the English translation of the exchange offer document to the United States either through the aforementioned internet address or by making use of the aforementioned contact details at Deutsche Bank AG. The Bidder will also publish in *The Wall Street Journal* (U.S. edition) where copies of this exchange offer document free of charge will be available and at which internet address this exchange offer document is published. The aforementioned publications serve the purpose of complying with the mandatory provisions of the German Takeover Act and of complying with the Exchange Act.⁽¹⁾

This exchange offer document has been prepared without taking into account any particular person's objectives, financial situation or needs. Shareholders of Deutsche Börse should, before acting on the information contained in this exchange offer document, consider the appropriateness of the information having regard to their personal objectives, financial situation or needs.

With respect to this exchange offer being made to shareholders of Deutsche Börse whose place of residence, seat or habitual abode is in Australia, the Bidder relies on the class order exemptions CO 09/68, CO 04/671, CO 05/850 and CO 03/606 to the Australian securities law requirements granted by the Australian Securities and Investments Commission (ASIC). This exchange offer document does not constitute a disclosure document under Chapter 6D of the Australian Corporations Act 2001 (Cwlth), was not and will not be lodged with ASIC nor approved by it, and is not, and under no circumstances is to be construed as, an advertisement or a public offering of shares in Australia. No representation is made that this exchange offer document includes those details about Holdco offer shares which are required under Chapter 6D of the Australian Corporations Act 2001 (Cwlth). Please note that as this exchange offer document has not been prepared exclusively for an Australian audience, it may contain references to dollar amounts which are not Australian dollars, may contain financial information which is not prepared in accordance with Australian law or practices, may not address risks associated with investment in foreign currency denominated investments, and does not address Australian tax issues.

Shareholders of Deutsche Börse whose last address is to the Bidder's knowledge in Canada will be sent the same materials as those sent to U.S. shareholders of Deutsche Börse under the exchange offer. In addition, a brief non-binding summary of the key terms of the exchange offer in French will be sent to shareholders of Deutsche Börse whose last address is to the Bidder's knowledge in the Province of Québec.

No publications of the exchange offer document are planned beyond the aforementioned.

This exchange offer and this exchange offer document shall not constitute an issuance, publication or public advertising of an offer pursuant to laws and regulations of jurisdictions other than those of Germany, United Kingdom and the United States. In particular, this exchange offer document, or any summary or excerpt thereof, shall not be directly or indirectly distributed, disseminated or circulated outside Germany or the United States other than as described in this section 1.4 (and the Bidder has not authorized any third party accordingly, except for the publications and disseminations described in this

⁽¹⁾ To the extent the publications described in this paragraph serve the purpose of complying with provisions of the German Takeover Act, they relate to the German language offer document and its English translation, respectively, as published by Holdco on May 4, 2011 (see disclaimer on the cover page).

Table of Contents

section 1.4) if and to the extent this is not in compliance with applicable foreign regulations, or depends on the issuance of authorizations, compliance with official procedures or any other legal requirements, and such conditions are not satisfied. The Bidder is not responsible for ensuring that the publication, distribution, dissemination or circulation of the exchange offer document outside Germany, the United Kingdom and the United States is consistent with the provisions of legal systems other than those of Germany, the United Kingdom and the United States.

The Bidder will make this exchange offer document available upon request to the respective Custodian Banks (as defined in section 12.2) for distribution to shareholders of Deutsche Börse residing in Germany, the United Kingdom and the United States only. Beyond this, the Custodian Banks may not dispatch, distribute, disseminate or circulate this exchange offer document to shareholders of Deutsche Börse not residing in Germany, in the United Kingdom or in the United States, unless this is done in compliance with the securities laws of the relevant applicable jurisdiction.

1.5 Acceptance of the exchange offer outside Germany, the United Kingdom and the United States

DUE TO THE JAPANESE INSTITUTIONAL INVESTORS EXEMPTION (ARTICLE 2 PARAGRAPH 3 LIT. II A OF THE FIEA) THE HOLDCO OFFER SHARES HAVE NOT BEEN AND WILL NOT BE REGISTERED UNDER ARTICLE 4 PARAGRAPH 1 OF THE FIEA. ACCORDINGLY, SUBJECT TO THE JAPANESE INSTITUTIONAL INVESTORS EXEMPTION, THE HOLDCO OFFER SHARES MAY NOT BE OFFERED OR SOLD WITHIN JAPAN OR TO OR FOR THE ACCOUNT OR BENEFIT OF ANY PERSON IN JAPAN OR TO OTHERS FOR RE-OFFERING OR RESALE WITHIN JAPAN OR TO OR FOR THE ACCOUNT OR BENEFIT OF ANY PERSON IN JAPAN, EXCEPT SUCH RE-OFFER OR RE-SALE IS MADE TO A JAPANESE INSTITUTIONAL INVESTOR. THIS OFFER DOCUMENT DOES NOT CONSTITUTE A PUBLIC OFFER TO JAPANESE SHAREHOLDERS OF DEUTSCHE BÖRSE (EXCEPT WITH RESPECT TO THE ADMITTED SHAREHOLDERS IN JAPAN).

Acceptance of the exchange offer outside Germany, the United States and the United Kingdom may be subject to legal restrictions. With the exception of the admitted shareholders in Japan, the exchange offer may not be accepted by Japanese shareholders of Deutsche Börse.

This exchange offer is made by way of a single global offering. Shareholders of Deutsche Börse who are not admitted shareholders in Japan and come into possession of this exchange offer document outside Germany, the United States or the United Kingdom and/or who wish to accept the exchange offer outside Germany or the United States are advised to inform themselves of the relevant applicable legal provisions and to comply with them. The Bidder assumes no responsibility for the acceptance of the exchange offer outside Germany, the United Kingdom or the United States (in particular Japan except with respect to the admitted shareholders in Japan) being permissible under the relevant applicable legal provisions. The Bidder will treat as invalid any declaration of acceptance that appears to have been executed in or dispatched or sent from Japan (except with respect to admitted shareholders in Japan). Irrespective of the above, the exchange offer may be accepted by the admitted shareholders in Japan. Such admitted shareholders in Japan will be entitled to participate in the exchange offer on a private placement basis.

Shareholders of Deutsche Börse who wish to accept the exchange offer with the exception of the admitted shareholders in Japan must not use either postal services in Japan or other means or instruments (for example transmission by fax, telex or telephone) or use the international or foreign trading facilities or the facilities of a national securities exchange in Japan for a purpose that is either directly or indirectly linked to the acceptance of the exchange offer. Declarations of acceptance or other documents referring to the exchange offer with the exception of declarations of acceptance by the admitted shareholders in Japan may not be executed or stamped in Japan or dispatched in any other way from Japan. All shareholders of Deutsche Börse accepting the exchange offer with the exception of the admitted shareholders in Japan must provide addresses outside Japan for receipt of the Holdco offer shares and the delivery of any offer-related documents.

Table of Contents

The Holdco offer shares will be freely transferable except for certain restrictions as set forth in this exchange offer document. Any resale of Holdco offer shares acquired pursuant to the exchange offer by:

- (a) Shareholders of Deutsche Börse resident in Australia must be made in accordance with Australian law. The resale of Holdco offer shares made through an exchange or a market outside of Australia or to a person outside of Australia or to Australian Sophisticated and Professional Investors (as defined in Section 708 paras. 8 and 11 of the Australian Corporations Act 2001 (Cwlth)) will not be restricted under Australian law;
- (b) Shareholders of Deutsche Börse resident in Canada must be made through (i) an exchange or a market outside of Canada, to a person or company outside of Canada or pursuant to an exemption from the prospectus requirements of applicable Canadian securities laws; and (ii) an appropriately registered dealer or pursuant to an exemption from the dealer registration requirements of applicable Canadian securities laws;

- (c) Japanese institutional investors must be made to Japanese institutional investors or to non-residents within the meaning set forth in Article 6 para. 1 (vi) of the Foreign Exchange and Foreign Trade Act of Japan (Law No. 228 of 1949) as amended, only.

Unless required by mandatory law, no action has been or will be taken in any jurisdiction other than Germany, the United Kingdom or the United States that would permit a public offering of the Holdco offer shares, or permit possession or distribution of this exchange offer document or any advertising material relating to the Holdco offer shares, except as described in section 1.4.

2 Information regarding statements contained in this exchange offer document

2.1 General

Except as otherwise stated, references to time in this exchange offer document are references to Central European Daylight Savings Time.

To the extent that expressions such as *currently*, *at the present time*, *at the moment*, *now*, *at present* or *today* are used in this exchange offer document, they refer to the point in time of publication of this exchange offer document, except as otherwise expressly stated. Despite this, in each case the information is based on the Bidder's level of information at the time of signing of this exchange offer document. To the extent that the information relates to circumstances that are not in the sphere of influence of the Bidder, persons acting jointly with the Bidder or their respective subsidiaries, there may have been changes since the signing of this exchange offer document which have not been reflected in this exchange offer document.

References in this exchange offer document to a *banking day* relate to a day on which the banks in Frankfurt am Main, Germany, as well as in the City of New York, New York, United States, are open for general business. References in this exchange offer document to a *trading day* refer to a day on which the stock exchanges in Frankfurt am Main, Germany, as well as in the City of New York, New York, United States, are open for trading. References to *€*, *EUR* or *euro* refer to the legal currency of Germany, the Netherlands and certain other member states of the European Union as from January 1, 1999; references to *\$*, *USD* or *U.S. dollar* refer to the legal currency of the United States.

The Bidder has not authorized any third party to make statements about the exchange offer or this exchange offer document. If unauthorized third parties nevertheless make such statements, these shall neither be attributable to the Bidder, nor to persons acting jointly with the Bidder.

2.2 Status and source of information in the offer document

The information about Deutsche Börse group, NYSE Euronext, a Delaware corporation (**NYSE Euronext**), and the affiliated companies of NYSE Euronext contained in this exchange offer document is based, among other things, on information made available in a due diligence exercise with regard to

Table of Contents

Deutsche Börse group, NYSE Euronext and the affiliated companies of NYSE Euronext of limited duration and scope which was carried out prior to the conclusion of the business combination agreement (as defined in section 4.2). After initial discussions regarding a possible business combination of Deutsche Börse and NYSE Euronext had been stopped in early December 2008 after unauthorized news stories regarding the existence of such discussions, new discussions were held starting August 2010 regarding the possibility of reinitiating the contemplation of a potential transaction. In the course of the discussions over the following months, individual items of financial information of Deutsche Börse and NYSE Euronext were exchanged. On January 28, 2011, NYSE Euronext and Deutsche Börse each provided one another with access to an electronic dataroom containing, among other things, financial and legal due diligence materials. The results of this due diligence were discussed in Amsterdam, the Netherlands, from January 31 to February 2, 2011 as well as in subsequent follow-up meetings (see section THE COMBINATION on pages 73 et seq. of Annex 2 regarding these discussions.).

Additional information was provided to the Bidder by Deutsche Börse group and NYSE Euronext in the course of the preparation of this exchange offer document, including oral information. In addition, the Bidder made use of information which is publicly available for the preparation of the exchange offer document. This included, in particular, in relation to Deutsche Börse group, information published on the internet at <http://www.deutsche-boerse.com>, the financial reports of Deutsche Börse, the articles of association of Deutsche Börse and information derived from the commercial register, and, in relation to NYSE Euronext and the affiliated companies of NYSE Euronext, information published on the internet at <http://www.nyse.com> and the financial reports of NYSE Euronext. The Bidder cannot rule out that the information about Deutsche Börse group, NYSE Euronext or the affiliated companies of NYSE Euronext described in this exchange offer document has changed since its publication.

In addition, the Bidder points to the fact that current members of the management board of the Bidder are also employed by Deutsche Börse (Marcus Thompson) and NYSE Euronext (Stéphane Biehler) (see section 6.4.1) and are also the sole members of the board of directors of the current sole shareholder of the Bidder (see section 6.5).

2.3 Forward-looking statements, intentions of the Bidder

This exchange offer document and the documents referred to in it contain certain forward-looking statements. Such statements are, in particular, indicated by terms such as expects, believes, attempts, estimates, intends, assumes and endeavors. Such statements express intentions, current expectations of the Bidder with regard to possible future events. Descriptions, views, intentions and forward-looking statements are, except as otherwise expressly stated, based on certain information available to the Bidder at the time of publication of this exchange offer document and on certain assumptions, intentions and assessments made by the Bidder at that time. They are subject to risks and uncertainties because they relate to events and depend on circumstances that may or may not occur in the future. The Bidder cautions you that forward-looking statements are not guarantees of the occurrence of such future events or of future performance and that in particular the actual results of operations, financial condition and liquidity, and the development of the industry in which Deutsche Börse group NYSE Euronext and the affiliated companies of NYSE Euronext operate may differ materially from those made in or suggested by the forward-looking statements contained in this exchange offer document.

2.4 Updates

The Bidder will update this exchange offer document to the extent permissible and required under the German Takeover Act, and will comply with its obligations under U.S. law in accordance with the Exchange Act to inform security holders of any material change in the information published, sent or given to security holders. The Bidder will also, as applicable, publish additional accompanying information regarding the exchange offer, which will be made available on the Bidder's website at <http://www.global-exchange-operator.com>, and will file such information in English on the SEC's website under the link to the EDGAR system described in section 1.3.

Table of Contents**3 Summary of the exchange offer**

The following summary contains an overview of selected matters set out in this exchange offer document. It is supplemented by, and should be read in conjunction with, the information and matters set out elsewhere in this exchange offer document. Therefore, this summary does not contain all information that may be relevant for the shareholders of Deutsche Börse. For this reason, the shareholders of Deutsche Börse should carefully read the entire exchange offer document including the Annexes.

Bidder:	Alpha Beta Netherlands Holding N.V., Beursplein 5, 1012 JW Amsterdam, the Netherlands
Target Company:	Deutsche Börse Aktiengesellschaft, 60485 Frankfurt am Main, Germany, with its business address at Mergenthalerallee 61, 65760 Eschborn, Germany
Subject matter of the exchange offer:	Acquisition of all registered no-par-value shares (<i>auf den Namen lautende Stückaktien</i>) of Deutsche Börse (ISIN DE0005810055), each representing a pro rata amount of 1.00 per share of the registered share capital (<i>Grundkapital</i>), in each case with all ancillary rights existing at the time of completion of this exchange offer (including dividend entitlements in respect of which no resolution has been passed by the general shareholders meeting (<i>Hauptversammlung</i>) of Deutsche Börse at the time of completion of the exchange offer).
Offer Consideration:	1 Holdco offer share in exchange for 1 Deutsche Börse share as set forth in section 4.1 in more detail.
Conditions:	<p>The exchange offer and the agreements which come into existence as a result of accepting the exchange offer will only be consummated if the following conditions are satisfied (see also section 14.3):</p> <p>(a) Minimum Condition</p> <p>The sum of the total number of Deutsche Börse shares in relation to which the exchange offer has been accepted and withdrawal has not been validly declared and the total number of Deutsche Börse shares that the Bidder already holds or has acquired, equals at least 75% of the sum of Deutsche Börse shares issued as of the end of the offer acceptance period and the number of total future Deutsche Börse option shares (as defined in section 7.3).</p> <p>(b) Competition Approvals</p> <p>(i) On or prior to March 31, 2012, the EU Commission has, or is deemed to have, cleared the combination (as defined in section 6.1) pursuant to the EC Merger Regulation.</p> <p>(ii) On or prior to March 31, 2012, any waiting period including any extension thereof, applicable to the combination pursuant to the Hart-Scott-Rodino Act of 1976 shall have expired or been terminated with the consequence that the combination may be consummated.</p>

(c) Effectiveness of the registration statement

7

Table of Contents

The registration statement (see section 13.3) regarding the Holdco shares to be issued to the Bidder in the context of the exchange offer and the merger

(i) shall have been declared effective by the SEC prior to the end of the offer acceptance period and

(ii) at the time of the expiration of the offer acceptance period shall not be subject of any stop order (see section 13.3.2) by the SEC pursuant to Section 8(d) of the Securities Act (as defined in section 1.1) or any proceeding initiated by the SEC seeking such a stop order.

(d) NYSE Euronext requisite vote

Prior to the end of the offer acceptance period, the NYSE Euronext requisite vote (as defined in section 9.2) shall have been obtained.

(e) Governmental and Judicial Proceedings

At the time of the expiration of the acceptance period neither any governmental entity nor legislative body nor court in

(i) the United States,

(ii) Germany,

(iii) the Netherlands,

(iv) France,

Edgar Filing: NYSE Euronext - Form 425

(v) the United Kingdom,

(vi) Portugal,

(vii) Belgium,

(viii) Switzerland or

(ix) Luxembourg,

shall have enacted any legislation, regulation, administrative act or injunction which is in force at the aforementioned time and would prohibit or make illegal the combination or the acquisition or ownership of the Deutsche Börse shares or of the NYSE Euronext shares by the Bidder.

(f) Other Approvals

On or prior to March 31, 2012, the following approvals will have been obtained:

(i) The SEC shall have approved the application under Rule 19b-4 Exchange Act (as defined in section 1.1) submitted by NYSE Euronext and/or its subsidiaries and by Deutsche Börse and/or its subsidiaries with respect to the combination;

(ii) the Dutch Minister of Finance shall have (upon recommendation of the Dutch Authority for the Financial Markets) issued a declaration of non-objection to the Bidder in connection with the combination pursuant to Section 5:32d of the Dutch Financial Supervision Act allowing Holdco to indirectly acquire the shares

Table of Contents

in Euronext Amsterdam N.V. as well as NYSE Euronext (International) B.V., NYSE Euronext (Holding) N.V. and Euronext N.V.;

(iii) the Dutch Minister of Finance (with advice from the Dutch Authority for the Financial Markets) or the Dutch Authority for the Financial Markets on behalf of the Dutch Minister of Finance, as applicable, shall have confirmed, reissued, renewed or amended, if so required by the Dutch Minister of Finance respectively the Dutch Authority for the Financial Markets, the existing declaration of non-objection issued to NYSE Euronext, NYSE Euronext (International) B.V., NYSE Euronext (Holding) N.V. and Euronext N.V. pursuant to Section 5:32d of the Dutch Financial Supervision Act, in each case allowing the relevant entity to acquire or hold, indirectly or directly, as the case may be, the shares of Euronext Amsterdam N.V., or the Minister of Finance and the Dutch Authority for the Financial Markets shall not have indicated that any such confirmation, reissuance, renewal or amendment is required;

(iv) the Dutch Minister of Finance and the Dutch Authority for the Financial Markets shall have reviewed and approved the combination and confirmed, reissued, renewed or amended, if so required by the Dutch Minister of Finance or the Dutch Authority for the Financial Markets, the existing exchange license granted to Euronext Amsterdam N.V., NYSE Euronext (International) B.V., NYSE Euronext (Holding) N.V. and Euronext N.V. pursuant to Sections 5:26 and 2:96 of the Dutch Financial Supervision Act, or the Dutch Minister of Finance and the Dutch Authority for the Financial Markets shall not have indicated that any such confirmation, reissuance, renewal or amendment is required;

(v) the Dutch Central Bank shall have issued a declaration of non-objection to Holdco pursuant to Section 3:95(1)(c) of the Dutch Financial Supervision Act allowing Holdco to indirectly acquire the shares in Euronext Amsterdam N.V. as well as NYSE Euronext (International) B.V., NYSE Euronext (Holding) N.V. and Euronext N.V. in their capacity as licensed operators of multilateral trading facilities, or it shall have indicated that such declaration of non-objection is not required;

(vi) the College of Euronext Regulators (see section 13.2.2 (ii)) shall have issued a declaration of non-objection to the combination pursuant to the memorandum of understanding as of June 24, 2010;

(vii) the Hessian Exchange Supervisory Authority did not prohibit the intended indirect acquisition of a significant participation in Deutsche Börse, Scoach Europa AG and Eurex Frankfurt AG within the period available to it pursuant to Section 6 paras. 1, 2 of the German Stock Exchange Act (*Börsengesetz*), or it issued a corresponding declaration of non-objection with regard to the specifically intended acquisition within this period;

Table of Contents

(viii) the Saxonian Exchange Supervisory Authority did not prohibit the intended indirect acquisition of a significant participation in European Energy Exchange AG and EEX Power Derivatives GmbH within the period available to it pursuant to Section 6 paras. 1, 2 of the German Stock Exchange Act, or it issued a corresponding declaration of non-objection with regard to the specifically intended acquisition within this period;

(ix) the Berlin Exchange Supervisory Authority did not prohibit the intended indirect acquisition of a significant participation in Tradegate Exchange GmbH within the period available to it pursuant to Section 6 paras. 1, 2 of the German Stock Exchange Act, or it issued a corresponding declaration of non-objection with regard to the specifically intended acquisition within this period;

(x) the BaFin did not prohibit the intended indirect acquisition of a significant participation in European Commodity Clearing AG, Eurex Clearing AG, Eurex Repo GmbH, Eurex Bonds GmbH and Clearstream Banking AG within the period available to it pursuant to Section 2c of the German Banking Act, or it issued a corresponding declaration of non-objection with regard to the specifically intended acquisition within this period;

(xi) the French Banking Regulatory Authority shall have granted the approval required pursuant to French Regulation 96-16 of the French Committee for the Regulation of Banking and Finance relating to the change of ownership and control of Euronext Paris S.A. in its capacity as credit institution;

(xii) the French Minister of the Economy shall have granted, upon advice of the French Financial Markets Authority, the approval required pursuant to Article L. 421-9 II of the French Monetary and Financial Code relating to the change of ownership and control of Euronext Paris S.A. and BlueNext S.A. in their capacity as regulated market operators;

(xiii) the U.K. Financial Services Authority shall have granted its approval in respect of the change of ownership and control of LIFFE Administration and Management pursuant to Chapter 1A of Part XVIII of the Financial Services and Markets Act 2000;

(xiv) the U.K. Financial Services Authority shall have granted its approval in respect of the change of ownership and control of LIFFE Services Limited, Secfinex Limited, Smartpool Trading Limited and Fix City Limited pursuant to Part XII of the Financial Services and Markets Act 2000 and Section SUP 11.3.4 R of the Regulatory Processes Supervision Manual of the FSA Handbook;

Edgar Filing: NYSE Euronext - Form 425

(xv) the Financial Services and Markets Authority of Belgium shall not have prohibited the intended change of ownership and control of Euronext Brussels S.A./N.V. within the period available to it pursuant to Article 19 of the Belgian Law of

Table of Contents

August 2, 2002, or it shall have issued a corresponding declaration of non-objection in respect of such intended change of ownership and control of Euronext Brussels SA/NV within this period;

(xvi) Euronext Brussels S.A./N.V. shall have received a confirmation by the Belgian Ministry of Finance regarding the preservation of its status as regulated market and as licensed market pursuant to Articles 3, 17 and 18 of the Belgian Law of August 2, 2002, or in the absence of such confirmation, Euronext Brussels S.A./N.V. shall not have received any notification by the Belgian Ministry of Finance to the contrary;

(xvii) the Portuguese Minister of Finance shall have explicitly approved of the change of ownership and control of Euronext Lisbon S.A. upon a positive legal opinion of the Portuguese Financial Supervisory Authority pursuant to Decree-law n° 357-C/2007 of October 31, 2007, as amended;

(xviii) the Portuguese Financial Supervisory Authority shall be notified of the change of ownership and control of Euronext Lisbon and has either not prohibited such change of control within the period available to it or has issued a declaration of non-objection to such change of control each pursuant to Decree-law n° 357-C/2007 of October 31, 2007, as amended;

(xix) the Portuguese Financial Supervisory Authority shall be notified of the change of ownership and control of Interbolsa and has either not prohibited such change of control within the period available to it or has issued a declaration of non-objection to such change of control each pursuant to Decree-law n° 357-C/2007 of October 31, 2007, as amended;

(xx) the Committee on Foreign Investments in the United States shall have granted written notice that the review of the combination under Section 721 of the U.S. Defense Protection Act of 1950 has been concluded and the Committee on Foreign Investments in the United States shall have determined that there are no unresolved national security concerns sufficient to warrant a recommendation that the U.S. President block the exchange offer and/or the merger under such Section 721 of the U.S. Defense Protection Act of 1950 and advised that action under such Section 721 has been concluded with respect to the combination;

(xxi) the Luxembourg Supervisory Authority for the Financial Sector did not prohibit the intended indirect acquisition of Clearstream Banking S.A., Clearstream International S.A. and Clearstream Services S.A. within the statutory period available to it pursuant to Articles 6 (5), 6 (16), 18 (5) and 18 (17) of the Luxembourg Financial Sector Act of April 5, 1993, or it issued corresponding declarations of non-objection with regard to the acquisition within this period;

(xxii) the Luxembourg Supervisory Authority for the Insurance Sector did not prohibit the intended indirect acquisition of Risk

Table of Contents

Transfer Re S.A. within the statutory period available to it pursuant to Articles 94 1 (4) and 94 1 (15) of the Luxembourg Insurance Act of December 6, 1991, or it issued a corresponding declaration of non-objection with regard to the acquisition within this period.

(g) No Material Adverse Market Change

During the time between the publication of the exchange offer document and the end of the offer acceptance period, there shall not have occurred a suspension of the currency trading or debt markets in

(i) Frankfurt am Main, Federal Republic of Germany, and London, Great Britain, or

(ii) the City of New York, New York, USA

for more than three consecutive trading days.

(h) No offer material adverse effect relating to NYSE Euronext

During the time between the publication of the exchange offer document and the end of the offer acceptance period, there shall not have occurred an offer material adverse effect relating to NYSE Euronext (**the offer material adverse effect in relation to NYSE Euronext**).

An offer material adverse effect relating to NYSE Euronext is the occurrence of a circumstance or circumstances relating to NYSE Euronext, that, according to the assessment of an independent expert, has or have resulted in, or would reasonably be expected to result in, individually or in the aggregate, a decrease in the consolidated net revenues of NYSE Euronext of at least US\$ 300,000,000 in the 2011 financial year and/or 2012 financial year of NYSE Euronext, to the extent the decrease is recurrent. Consolidated net revenues of NYSE Euronext are the total revenues less transaction-based expenses pursuant to the consolidated financial statement 2010.

An offer material adverse effect relating to NYSE Euronext will only be deemed to have occurred if, on or before the day before the publication of the results of the exchange offer pursuant to

Edgar Filing: NYSE Euronext - Form 425

Section 23 para. 1 sentence 1 no. 2 German Takeover Act, an independent expert from Deloitte & Touche GmbH Wirtschaftsprüfungsgesellschaft (**independent expert**), using the due and careful consideration of a diligent professional, has delivered an opinion that an offer material adverse effect has occurred. Upon request of the Bidder, the independent expert will undertake an evaluation of whether an offer material adverse effect relating to NYSE Euronext has occurred. The independent expert shall further carry out his evaluation without undue delay. The opinion of the independent expert is binding on and non-appealable by the Bidder and Deutsche Börse shareholders and will be published by the Bidder without undue delay in the electronic Federal Gazette (*elektronischer Bundesanzeiger*), the *Frankfurter Allgemeine Zeitung* and *The Wall Street Journal* (US edition) with reference to the exchange offer.

Table of Contents

- (i) No offer material adverse effect relating to Deutsche Börse

During the time between the publication of the exchange offer document and the end of the offer acceptance period, there shall not have occurred an offer material adverse effect relating to Deutsche Börse (**the offer material adverse effect relating to Deutsche Börse**).

An offer material adverse effect relating to Deutsche Börse is the occurrence of a circumstance or circumstances relating to Deutsche Börse, that, according to the assessment of the independent expert, has or have resulted in, or would reasonably be expected to result in, individually or in the aggregate, a decrease in the consolidated net revenues of Deutsche Börse, of at least US\$ 300,000,000 in the 2011 financial year and/or 2012 financial year of Deutsche Börse, to the extent the decrease is recurrent. Consolidated net revenues of Deutsche Börse are the total revenues less volume-related costs pursuant to the consolidated financial statement 2010.

An offer material adverse effect relating to Deutsche Börse will only be deemed to have occurred if, on or before the day before the publication of the results of the exchange offer pursuant to Section 23 para. 1 sentence 1 no. 2 German Takeover Act, the independent expert, using the due and careful consideration of a diligent professional, has delivered an opinion that an offer material adverse effect relating to Deutsche Börse has occurred. Upon request of the Bidder the independent expert will undertake an evaluation of whether an offer material adverse effect relating to Deutsche Börse has occurred. The independent expert shall further carry out his evaluation without undue delay. The opinion of the independent expert is binding on and non-appealable by the Bidder and Deutsche Börse shareholders and will be published by the Bidder without undue delay in the electronic Federal Gazette (*elektronischer Bundesanzeiger*), the *Frankfurter Allgemeine Zeitung* and *The Wall Street Journal* (US edition) with reference to the exchange offer.

- (j) IRS Ruling or Rulings vis-à-vis NYSE Euronext

On or prior to the end of the offer acceptance period, NYSE Euronext shall have received one or more private letter rulings from the U.S. Internal Revenue Service (**IRS**) substantially to the effect that

- (i) the merger will qualify as a reorganization within the meaning of Section 368(a) of the U.S. Internal Revenue Code and/or the merger and the exchange offer, taken together, will qualify as an exchange within the meaning of Section 351(a) of the U.S. Internal Revenue Code; and

Edgar Filing: NYSE Euronext - Form 425

(ii) (A) the transfer of NYSE Euronext shares by U.S. persons for shares of the bidder will qualify for an exception to Section 367(a)(1) of the U.S. Internal Revenue Code under U.S. Treasury Regulation Sections 1.367(a)-3(c)(1) and 1.367(a)-3(c)(9), and (B) any U.S. person transferring NYSE Euronext shares to the Bidder who is a 5% transferee shareholder of NYSE Euronext (within the meaning of U.S. Treasury Regulation Section 1.367(a)-3(c)(5)(ii)) will qualify for the exception to Section 367(a)(1) of the U.S. Internal Revenue Code only upon entering a five-year

Table of Contents

gain recognition agreement pursuant to U.S. Treasury Regulation Section 1.367(a)-8.

(k) IRS-Ruling vis-à-vis Deutsche Börse

On or prior to the end of the offer acceptance period, Deutsche Börse shall have received a private letter ruling from the IRS substantially to the effect that the exchange offer will qualify as a transaction described in Section 351 (a) of the U.S. Internal Revenue Code and/or the exchange offer and the merger, taken together, will qualify as transaction described in Section 351(a) of the U.S. Internal Revenue Code.

Offer Acceptance Period:

May 4, 2011 to midnight, at the end of July 13, 2011 (Central European Daylight Savings Time)

Additional Offer Acceptance Period:

Provided that the offer acceptance period (as defined in section 5.2) is not extended, the additional offer acceptance period (as defined in section 5.3) is expected to begin on July 20, 2011 and to expire on August 2, 2011.

Acceptance:

Acceptance of the exchange offer must be declared in writing by the relevant shareholder of Deutsche Börse to the Custodian Bank (as defined in section 12.2) during the offer acceptance period or the additional offer acceptance period. Until settlement of the exchange offer pursuant to the terms and conditions of this exchange offer document, the Deutsche Börse shares, for which the declaration of acceptance (as defined in section 12.2) has become effective, remain in the accepting shareholder's securities account; they are, however, each re-booked under a different International Securities Identification Number (**ISIN**) and identified as tendered Deutsche Börse shares .

The declaration of acceptance will only become effective, as described in more detail in sections 12.2 and 12.5, upon the Deutsche Börse shares in respect of which the exchange offer has been accepted being re-booked, in a timely manner, at Clearstream Banking AG, Frankfurt am Main (**Clearstream**), under ISIN DE00A1KRND6 (tendered Deutsche Börse shares).

Withdrawal

Until the end of the offer acceptance period, the shareholders of Deutsche Börse may, at any time, withdraw from the agreements concluded as a result of the acceptance of the exchange offer.

Costs of Acceptance:

The acceptance of the exchange offer is free of costs and expenses for the accepting shareholders of Deutsche Börse holding their Deutsche Börse shares in collective safe custody with a Custodian Bank which, in turn,

holds these shares in custody in its securities account at Clearstream. Costs resulting from the transmission of the declaration of acceptance to the custodian bank will, however, not be reimbursed.

Costs and expenses charged by any other custodian banks or foreign intermediate custodians outside Germany shall be borne by each accepting shareholder of Deutsche Börse.

Edgar Filing: NYSE Euronext - Form 425

Further, any taxes related to the transfer of the tendered Deutsche Börse shares in exchange for Holdco offer shares must be borne by the relevant shareholder of Deutsche Börse. The same is true for any foreign stock exchange trading taxes or stamp duties as well as other taxes or fees which fall due when accepting the exchange offer.

Table of Contents

ISINs:	Deutsche Börse shares:	ISIN DE0005810055
	tendered Deutsche Börse shares:	ISIN DE00A1KRND6
	Holdco offer shares:	ISIN NL0009766997

Listing of Holdco offer shares:

The Bidder will apply prior to the time of delivery of the Holdco offer shares to the shareholders of Deutsche Börse under the exchange offer for admission of its shares, including the Holdco offer shares, to trading on the regulated market segment (*regulierter Markt*) of the Frankfurt Stock Exchange (*Frankfurter Wertpapierbörse*) and, simultaneously, in the sub-segment thereof with additional post-admission obligations (Prime Standard), as well as on the regulated market of Euronext Paris (*marché réglementé de Euronext Paris*) and on the New York Stock Exchange.

The Bidder will take all necessary actions that the Holdco offer shares which the accepting shareholders of Deutsche Börse will receive upon settlement of the exchange offer will have been admitted to trading (listed) at the time of delivery to the shareholders of Deutsche Börse who have accepted the exchange offer.

Commencement of trading on the Frankfurt Stock Exchange, Euronext Paris and the New York Stock Exchange is expected to occur immediately after delivery of the Holdco offer shares to the shareholders of Deutsche Börse having accepted the exchange offer.

Stock Exchange Trading of tendered Deutsche Börse shares:

It is intended to apply for the admission of the tendered Deutsche Börse shares (see section 12.2) to stock market trading on the regulated market of the Frankfurt Stock Exchange and, simultaneously, in the sub-segment thereof with additional post-admission obligations (Prime Standard), under ISIN DE00A1KRND6. It is intended, that the Deutsche Börse will assign a designated sponsor in order to provide for sufficient liquidity of the exchange trading in tendered Deutsche Börse shares. Trading in the tendered Deutsche Börse shares on the regulated market of the Frankfurt Stock Exchange is expected to begin on the second trading day after commencement of the offer acceptance period and to end no later than (i) after regular trading hours on the last trading day of the Frankfurt Stock Exchange within the additional offer acceptance period or (ii) after regular trading hours on the day the satisfaction of all completion conditions (unless been waived) is published (see section 14.4), whichever is the later date.

Publications:

The exchange offer document whose publication has been permitted by BaFin on May 2, 2011⁽¹⁾ and will be published on May 4, 2011 by way of announcement on the internet (together with an English translation) at [http:// www.global-exchange-operator.com](http://www.global-exchange-operator.com). The Bidder will make available copies of the exchange offer document for distribution in Germany free of charge at Deutsche Bank AG, Taunusanlage 12, 60262 Frankfurt am Main; Germany (fax no.: +49 (69) 9 10-3 87 94; e-mail: DCT.Tender-Offers@db.com). The announcement regarding (i) the availability of copies

(1)The review and permission of BaFin relates exclusively to the German language offer document as published by Holdco on May 4, 2011 (see disclaimer on the cover page).

Table of Contents

of this exchange offer document for distribution in Germany free of charge and (ii) the internet address at which this exchange offer document has been published will be published in the electronic Federal Gazette (*elektronischer Bundesanzeiger*) on May 4, 2011.

In the United States, the Bidder has filed a Registration Statement, and will also file the English translation of this exchange offer document by May 4, 2011, at the latest, with the SEC. The Bidder will send the English translation to the U.S. shareholders of Deutsche Börse known to it. In addition, the U.S. shareholders of Deutsche Börse can request, free of charge, the delivery of the English translation of this exchange offer document to the United States either through the aforementioned internet address or by making use of the aforementioned contact details at Deutsche Bank AG. The Bidder will also publish where copies of this exchange offer document free of charge will be available and at which internet address this exchange offer document is published in *The Wall Street Journal* (U.S. edition).¹

Shareholders of Deutsche Börse whose last address is to the Bidder's knowledge in Canada will be sent the same materials as those sent to U.S. shareholders of Deutsche Börse under the exchange offer.

In addition, a brief non-binding summary of the key terms of the exchange offer in French will be sent to shareholders of Deutsche Börse whose last address is to the Bidder's knowledge in the Province of Québec.

All notifications and announcements required pursuant to the German Takeover Act will also be published on the internet at <http://www.global-exchange-operator.com> (in German as well as in English) and in German in the electronic Federal Gazette. The Bidder will also file such notifications and announcements in English with the SEC and otherwise comply with its obligation under U.S. law with respect to informing security holders of any material change in the information published, sent or given to security holders.

¹ To the extent the publications described in this and the foregoing paragraph serve the purpose of complying with provisions of the German Takeover Act, they relate to the German language offer document and its English translation, respectively, as published by Holdco on May 4, 2011 (see disclaimer on the cover page).

Table of Contents
4 The exchange offer**4.1 Subject of the exchange offer**

Subject to the terms and conditions set forth in this exchange offer document, the Bidder hereby offers to all shareholders of Deutsche Börse, except for the excluded Japanese shareholders (as defined in section 1.2), to acquire all outstanding registered no-par-value shares of Deutsche Börse (ISIN DE0005810055), each representing a pro rata amount of 1.00 per share of the registered share capital (*Grundkapital*), in each case together with all ancillary rights existing at the time of completion of the exchange offer (including dividend entitlements in respect of which no resolution has been passed by the general shareholders meeting (*Hauptversammlung*) of Deutsche Börse at the time of completion of this exchange offer).

The Bidder offers

1 Holdco offer share in exchange for 1 Deutsche Börse share

as consideration, each such Holdco offer share with a nominal value of 1.00 (the **offer consideration**).

American Depositary Receipts for Deutsche Börse shares (**ADRs**) may not be tendered into the exchange offer. Holders of ADRs may participate in the exchange offer after exchange of their ADRs into Deutsche Börse shares (please see section 12.9 for more details). This does not apply for Holders of ADR who are excluded Japanese shareholders who must not participate in the exchange offer as described under section 1.2.

This exchange offer is aimed at the acquisition of control over Deutsche Börse within the meaning of Section 29 para. 2 German Takeover Act and thus constitutes a takeover offer pursuant to Chapter (*Abschnitt*) 4 of the German Takeover Act. It also relates to the Deutsche Börse treasury shares as well as any new Deutsche Börse shares coming into existence as a result of stock options referred to in section 15.1 being exercised prior to the expiration of the offer acceptance period or the additional offer acceptance period.

4.2 Reasoned statement / recommendation by Deutsche Börse's management board and supervisory board

Pursuant to Section 27 para. 1 German Takeover Act the management board of Deutsche Börse (the **Deutsche Börse management board**) and the supervisory board of Deutsche Börse (the **Deutsche Börse supervisory board**; Deutsche Börse management board and Deutsche Börse supervisory board together the **Deutsche Börse boards**) are required to give a reasoned statement in respect of the exchange offer and any amendments, as the case may be, and are required to publish such statement in accordance with Sections 34, 27 para. 3, 14 para. 3 sentence 1 German Takeover Act without undue delay after transmission of the exchange offer by the Bidder.

On February 15, 2011 Deutsche Börse announced in an ad-hoc announcement pursuant to Section 15 German Securities Trade Act (*WpHG*) that following the approval from the Deutsche Börse boards and the NYSE Euronext board of directors an agreement regarding the combination of Deutsche Börse and NYSE Euronext had been reached that day. The parties to such agreement are NYSE Euronext, Deutsche Börse, Holdco and Pomme Merger Corporation, a Delaware corporation (**Pomme Merger Corporation**).

It was also announced on February 15, 2011 in the ad-hoc announcement that in the opinion of the Deutsche Börse boards, a strategic business combination between Deutsche Börse and NYSE Euronext is in the interest of Deutsche Börse and the interest of its shareholders, and that therefore the Deutsche Börse boards have determined that they will, subject to fulfilling all of their legal duties in connection with the review of the exchange offer after its publication, recommend in accordance with Section 27 German Takeover Act that the shareholders of Deutsche Börse accept the exchange offer and tender their shares in the exchange offer.

Table of Contents

The agreement as signed on February 15, 2011, was amended by the parties to the agreement by an amendment dated May 2, 2011. The agreement as signed on February 15, 2011, including the amendment dated May 2, 2011, is hereinafter referred to as **business combination agreement** .

The material terms of the business combination agreement are summarized and described in the section **Business Combination Agreement** in Annex 2 to which reference is made. Pages G-2 et seq. of Annex 2 contain the agreement as of February 15, 2011, and the amendment dated May 2, 2011.

5 ACCEPTANCE PERIOD

5.1 Duration of the offer acceptance period

The period for acceptance of the exchange offer begins upon publication of this exchange offer document on May 4, 2011. It expires on **midnight, at the end of July 13, 2011 (Central European Daylight Savings Time)**.

5.2 Extensions of the offer acceptance period

In the circumstances set out below, the offer acceptance period will in each case be extended automatically as follows:

In the event of an amendment of the exchange offer pursuant to Section 21 German Takeover Act within the last two weeks prior to the expiration of the offer acceptance period, the offer acceptance period will be extended by two weeks (Section 21 para. 5 German Takeover Act) and, consequently, would be expected to end at midnight, at the end of July 27, 2011 (Central European Daylight Savings Time). This shall apply even if the amended exchange offer violates legal provisions.

If, during the offer acceptance period of this exchange offer, a competing offer is made by a third party for the Deutsche Börse shares (**competing offer**) and if the offer acceptance period for the present exchange offer expires prior to expiration of the acceptance period for the competing offer, the expiration of the offer acceptance period for the present exchange offer shall be determined by reference to the expiration of the acceptance period for the competing offer (Section 22 para. 2 German Takeover Act). This shall apply even if the competing offer is amended or prohibited or violates legal provisions.

The period for acceptance of the exchange offer, including all extensions of such period resulting from provisions of the German Takeover Act (but excluding the additional offer acceptance period described in section 5.3), is referred to as the **offer acceptance period** in this exchange offer document.

With regard to the right of withdrawal (*Rücktrittsrecht*) in the event of an amendment of the exchange offer or the launching of a competing offer, reference is made to the statements contained in section 17.

5.3 Additional offer acceptance period pursuant to Section 16 para. 2 German Takeover Act

Shareholders of Deutsche Börse who have not accepted the exchange offer within the offer acceptance period, may still accept the exchange offer within two weeks after publication of the results of the exchange offer by the Bidder pursuant to Section 23 para. 1 sentence 1 no. 2 German Takeover Act (the **additional offer acceptance period**), unless one of the completion conditions set out in section 14.1, which has not been validly waived before, has not been satisfied by the end of the offer acceptance period. In such case the agreements concluded through the acceptance of the exchange offer will not be executed (see section 14.3 of this exchange offer document).

The results of this exchange offer are expected to be published pursuant to Section 23 para. 1 sentence 1 no. 2 German Takeover Act within four banking days after expiration of the offer acceptance period, i.e. the expected date of publication is July 19, 2011. The additional offer

Edgar Filing: NYSE Euronext - Form 425

acceptance period is therefore expected to commence on July 20, 2011 and to end at midnight, at the end of August 2, 2011 (Central

Table of Contents

European Daylight Savings Time). The exchange offer can no longer be accepted following expiration of the additional offer acceptance period (please see, however, section 18(iv) in respect of a sell-out right for the shareholders of Deutsche Börse under certain circumstances).

6 Information on the Bidder

Shareholders are requested to read the following information regarding the Bidder in this section 6 in connection with the information provided on pages A-157 et seq. of Annex 2.

6.1 General

To date, Holdco has not conducted any material activities other than those incident to its formation and the matters contemplated by the business combination agreement, such as the formation of Pomme Merger Corporation (a wholly owned subsidiary of Holdco), the making of certain required securities law filings and the preparation of this exchange offer document (including the retention of a valuation expert to determine the value of Holdco shares to be offered as consideration under this exchange offer, see section 11.3).

As agreed in the business combination agreement, Deutsche Börse will become a subsidiary of Holdco through this exchange offer. NYSE Euronext will become a 100% subsidiary of Holdco by way of Pomme Merger Corporation being merged with and into NYSE Euronext against issuance of Holdco shares to the shareholders of NYSE Euronext (the **NYSE Euronext stockholders**) (the **merger**), which, together with the exchange offer, is referred to as the **combination**). Holdco and its subsidiaries after completion of the combination are referred to as the **Holdco group**.

6.2 Legal basis

Holdco was incorporated as a public limited liability company (*naamloze vennootschap*) under the laws of the Netherlands on February 10, 2011 and is registered with the Dutch Trade Register of the Chamber of Commerce (*Kamer van Koophandel*) under the registration number 52019756 under the legal name Alpha Beta Netherlands Holding N.V. Holdco currently does not use a commercial name different from its legal name.

Holdco has been formed for an unlimited duration. Its fiscal year is the calendar year.

Holdco's statutory seat (*statutaire zetel*) is in Amsterdam, the Netherlands, and its business address is Beursplein 5, 1012 JW Amsterdam, the Netherlands. As a company having its statutory seat in the Netherlands, Holdco is governed by Dutch law.

Following the completion of the combination, Holdco will serve as the holding company for Deutsche Börse Group, NYSE Euronext and the affiliated companies of NYSE Euronext. In the business combination agreement the parties to it agreed on the content and wording of the future articles of association of Holdco as well as the future rules of procedure of the Holdco board of directors that are supposed to be effective upon completion of the combination, in order to provide for the governance arrangements agreed between the parties as well as to comply with the relevant rules and requirements applicable to a listed company. Drafts of both documents are attached as annexes to the business combination agreement. They are set forth in Annex 2 as Exhibits B and C. As Holdco is also a party to the business combination agreement and was established prior to the date of the business combination agreement, its articles of association effective at the time of publication of this exchange offer document do not yet reflect the agreed upon provisions. Therefore, the parties to the business combination agreement have agreed that the amendment of the articles of association of Holdco and the implementation of the rules of procedure of the Holdco board of directors will become effective prior to the completion of the combination.

Prior to the completion of the combination, Holdco's general meeting of shareholders will therefore resolve to completely revise Holdco's current articles of association. The amendment of Holdco's articles of association will take effect through the execution of a notarial deed of amendment of Holdco's articles

Table of Contents

of association prior to the completion of the combination. Except for the summary, all references to Holdco's articles of association in this section 6 therefore refer to the form of Holdco's articles of association that will be in effect following execution of the notarial deed of amendment.

Following completion of the combination, Holdco's objects pursuant to article 3 of its articles of association will be: to incorporate, to participate in any way whatsoever in, to manage, to supervise businesses and companies, including without limitation businesses and companies of which the objects are to set up, develop, hold and operate, directly or indirectly, one or more exchanges or markets or other facilities with regard to the listing of, the trade in, the clearing and settlement of transactions in, and the custody of, securities and derivatives; to finance and/or acquire businesses and companies; to borrow, to lend and to raise funds, including through the issue of bonds, debt instruments or other securities or evidence of indebtedness as well as to enter into agreements in connection with aforementioned activities; to render advice and services to businesses and companies which belong to Holdco group and to third parties; to grant guarantees, to bind Holdco and to pledge its assets for obligations of businesses and companies which belong to Holdco group and on behalf of third parties; to perform any and all activities of an industrial, financial or commercial nature and to do all that is connected therewith or may be conducive thereto, all to be interpreted in the broadest sense.

6.3 Holdco share capital

Under Dutch law, the authorized share capital (*maatschappelijk kapitaal*) is the maximum amount of capital for which shares in a Dutch public limited liability company (*naamloze vennootschap*) can be validly issued. A Dutch public limited liability company may therefore only issue shares up to the aggregate amount of its authorized share capital as stipulated in its articles of association. Conceptually authorized share capital under Dutch law differs from the share capital (*Grundkapital*) of a German public limited liability company (*Aktiengesellschaft*), which consists of the issued shares. Furthermore, the authorized share capital of a Dutch public limited liability company is not to be mistaken for the term authorized capital (*Genehmigtes Kapital*) for a German public limited liability company and does not entail an authorization for the management board to issue new shares.

The authority to issue new shares in a Dutch public limited liability company is vested in the general meeting of shareholders. However, Dutch law provides that the general meeting of shareholders may delegate the authority to issue new shares to the management board.

Dutch law provides that at all times at least 20% of the authorized share capital must be issued (*geplaatst*) and that shares must be paid up (*worden volgestort*) immediately upon issuance.

Any increase of a Dutch public limited liability company's issued share capital (*geplaatst kapitaal*) exceeding its authorized share capital, requires a prior increase of the authorized share capital by way of an amendment of the articles of association to be adopted by the general meeting of shareholders. Such amendment of the articles of association is effected by the subsequent execution of a notarial deed of amendment before a Dutch civil law notary. Typically, the general meeting of shareholders will in its resolution authorize a Dutch civil law notary, a deputy or notarial assistant of the Dutch civil law notary to execute such deed of amendment.

If shares are to be issued by a Dutch public limited liability company in a number that would cause the existing authorized share capital to be exceeded, the following legal actions may be taken:

First, the general meeting of shareholders shall adopt a resolution to amend the articles of association to increase the authorized share capital.

Furthermore, the general meeting of shareholders shall resolve to issue new shares subject to the condition precedent of the amendment of the articles of association becoming effective, or will delegate the authority to issue new shares to the management board. The latter option may be useful if at the time of the resolution of the general meeting of shareholders, the exact number of shares to be issued is yet to be determined, which in the case at hand is, among others, dependent on the number of

Table of Contents

Deutsche Börse shares that have been tendered in the exchange offer. If the latter option is used, the issuance of new shares will be decided by the management board, such resolution again being subject to the condition precedent of the amendment of the articles of association increasing the authorized share capital becoming effective.

Pursuant to the resolution of the general meeting of the shareholders or the management board, as the case may be, to issue new shares, the company and the respective subscriber of the new shares will execute a deed of issuance of shares, which will also be subject to the condition precedent of the amendment of the articles of association increasing the authorized capital becoming effective.

As a final step, the deed of amendment of the articles of association of the company regarding the increase of the authorized share capital will be executed, thus giving effect to amendment of the articles of association, the resolution of the general meeting of shareholders, or the management board resolution, as the case may be, to issue new shares as well as the deed of issuance and thereby the issuance of the new shares.

As described below in section 6.3.2 (i), the Holdco shares which are required as consideration for the exchange offer and in the context of the merger respectively will be issued in accordance with this procedure. Because of the legal requirement that at least 20% of the authorized share capital must be issued and paid up immediately, and taking into account the number of Holdco shares to be issued, the increase of the authorized share capital required for the issuance of shares will have to become effective only immediately before the issuance of the shares itself.

6.3.1 Authorized and issued share capital at the time of publication of the exchange offer document

Currently, Holdco's authorized share capital (*maatschappelijk kapitaal*) amounts to 225,000, consisting of 180,000 ordinary shares with a nominal value of 1.00 and 45,000 shares belonging to the class of shares class D with a nominal value of 1.00 (the **class D shares**). Ordinary shares and class D shares can only be issued in registered form. Of such authorized capital, Holdco has issued all class D shares only at this point in time. All of Holdco's issued shares are fully paid up.

It is intended that on the same date of issuance of the Holdco shares as described under section 6.3.2(i) below or immediately hereafter, after the issuance of such shares, the class D shares will be cancelled or repurchased and subsequently cancelled by Holdco.

Unlike the Holdco shares, the class D shares can be cancelled against repayment of their nominal value and any mathematical reserves. Further, the class D shares have a limited right to dividends.

6.3.2 Development of authorized and issued share capital

(i) Increase of authorized share capital and issuance of Holdco-shares for the settlement of the exchange offer and the merger

On May 2, 2011, Holdco's general meeting of shareholders resolved to amend Holdco's articles of association and to increase its authorized share capital from 225,000 to 1,000,000,000 consisting of 500,000,000 ordinary shares with a nominal value of 1.00 per share (referred to as Holdco shares in this exchange offer document) and 500,000,000 preference shares with a nominal value of 1.00 per share (the **increase of the authorized share capital** or the **resolution to increase the authorized share capital**). In the resolution to increase the authorized share capital each (deputy) civil law notary or notarial assistant of Linklaters LLP in Amsterdam was authorized to execute the amendment of the articles of association. The notarial deed of amendment is to be executed upon request of Holdco as soon as the prerequisites for the completion of the exchange offer are fulfilled.

Holdco's general meeting of shareholders of May 2, 2011, has further resolved to authorize the Holdco board of directors to issue, or grant rights to subscribe for, Holdco shares for a period of five years from the date such resolution has been adopted or to exclude or limit subscription rights for the Holdco shares

Table of Contents

issued on this basis. The authority for the Holdco board of directors to issue, or grant rights to subscribe for, ordinary shares is limited to in the aggregate of:

such number of Holdco shares as is required to fulfil its obligations under the exchange offer, the merger and several other measures in connection with the combination; and

100,000,000 Holdco shares,

The aforementioned resolution also entails the authority to issue preference shares as described in detail below in section 6.3.2 (ii).

The current sole shareholder of Holdco, the Stichting Alpha Beta Netherlands (see section 6.5), has agreed in the context of the above resolutions of the general meeting not to withdraw these resolutions without consent of Holdco.

On the basis of the above resolutions of the general meeting Holdco is enabled to fulfill its obligations to deliver Holdco shares, including the Holdco offer shares, under the exchange offer and the merger without further action being required from Holdco's general meeting of shareholders.

The issuance of these Holdco shares in accordance with the actions set forth in section 6.3.1 above will be effected as follows:

after satisfaction of all prerequisites for the completion of the exchange offer, the Holdco board of directors will, pursuant to its delegated authority to issue shares, resolve to issue such number of Holdco shares as is required to fulfill the obligations to deliver Holdco shares under the exchange offer and the merger. This resolution will be subject to the condition precedent that Holdco's authorized share capital is increased by way of the amendment of its articles of association becoming effective.

Holdco will then in combination with the subscriber(s), i.e. Deutsche Bank AG as central settlement agent and exchange escrow agent with respect to the exchange offer (see section 12.1), enter into one or more deeds of issuance regarding the issuance of the respective Holdco shares which will also be subject to the condition precedent that Holdco's authorized share capital is increased by way of the amendment of its articles of association becoming effective.

Finally, Holdco will, in accordance with the requirements of the resolution of the general meeting to increase the authorized share capital, instruct a (deputy) civil law notary or notarial assistant to execute the notarial deed of amendment of the Holdco articles of association, thereby giving effect to the amendment of the articles of association regarding the increase of the authorized capital and, at the same time, to the board resolution to issue the Holdco shares as well as the deed or deeds of issuance of Holdco shares.

Ordinary shares and preference shares can only be issued in registered form. The ordinary shares will be embodied in one or more global share certificates, deposited with the relevant securities depository. A securities depository is not determined yet. Possibly, there will be two securities depositories for purposes of the settlement of Holdco shares. Thus, it is possible that there will be one central securities depository in respect of the global share certificate for the Holdco shares to be admitted to trading on the Frankfurt Stock Exchange and Euronext in Paris and another central securities depository in respect of the Holdco shares admitted to trading on the New York Stock Exchange. No share certificates will be issued in respect of preference shares.

The Holdco offer shares as well as the Holdco shares required for the merger will be issued for onward delivery through the custody banks system, in accordance with their regular settlement procedures for equity securities, to the Custodian Banks and any other intermediary custodian for credit to securities accounts of the shareholders of Deutsche Börse who validly tendered and did not effectively withdraw their Deutsche Börse shares in the exchange offer and the securities accounts of the NYSE Euronext stockholders. These newly issued Holdco shares are issued against contribution in kind consisting of tendered Deutsche Börse shares and NYSE Euronext shares.

Table of Contents

The Holdco shares, including the Holdco offer shares, will be freely transferable and capable of being encumbered with a right of pledge or usufruct. The Holdco offer shares will have full dividend rights since the incorporation of Holdco on February 10, 2011.

(ii) Preference shares

Pursuant to the resolution of the general meeting of Holdco's shareholders which was adopted on May 2, 2011, the Holdco board of directors is also authorized to issue preference shares with a nominal value of 1.00 per share. The authority for the Holdco board of directors to issue preference shares and related subscription rights is limited to such number as will not exceed the lower of (1) the maximum number of unissued preference shares forming part of the authorized share capital of Holdco at the time of issue and (2) the number of preference shares with an aggregate nominal amount equal to the aggregate nominal amount of the outstanding Holdco shares at the time of issue. At the time of publication of this exchange offer document, the Holdco board has not made use of such power and does not intend to make use of it.

The Holdco preference shares may in the future be issued to an independent entity, which would most likely be a Dutch foundation (*stichting*), with the objective of safeguarding the interests of Holdco, its businesses and the interests of shareholders and other stakeholders involved, from acquisitions of Holdco shares which could jeopardise Holdco's independence, continuity or (corporate) identity, including in particular an unsolicited attempt to effect a change of control regarding Holdco or a change in the management. An issue of preference shares, or the ability of Holdco to issue preference shares in the future, may have the effect of preventing, discouraging or delaying an unsolicited attempt to effect a change of control regarding Holdco or a change in the management and may enhance the ability of the Holdco board of directors to review and consider any proposals or actions of a bidder and/or any alternative courses of action. Holdco's articles of association will provide that within 24 months following the day of issuance of preference shares, a general meeting of shareholders will be held to consider the repurchase or cancellation of the Holdco preference shares. If the general meeting of shareholders does not resolve to repurchase or cancel the preference shares, then each 12 months after the last general meeting of shareholders at which such resolution was on the agenda, a general meeting of shareholders will be held to consider the repurchase or cancellation of the preference shares, until no preference shares remain outstanding.

6.3.3 Shareholder's register

Following the completion of the combination, a register of shareholders will be maintained by or on behalf of Holdco, which will be regularly updated. The register may, in whole or in part, be kept in more than one copy and at more than one address. Part of the register of shareholders may be kept outside of the Netherlands in order to comply with applicable foreign statutory provisions or rules of the New York Stock Exchange, the Frankfurt Stock Exchange and Euronext Paris and any other stock exchange where Holdco shares or depositary receipts of Holdco shares are listed.

6.3.4 Comparison of shareholder rights

After completion of the combination, Deutsche Börse shareholders who accept the exchange offer and acquire Holdco shares in exchange for their Deutsche Börse shares will be governed by Dutch law with respect to their shareholder rights, which may differ from German stock corporation law. An overview regarding the material differences between the rights of holders of Deutsche Börse shares before the completion of the combination, and the rights of holders of the Holdco shares after the combination is set forth on pages 402 et seq. of Annex 2. In the following, some of these differences shall be summarized:

- (i) Other than by the management, a general meeting of shareholders of Deutsche Börse may also be called if shareholders, whose holding in the aggregate equals or exceeds 5% of the share capital, demand such meeting in writing, stating the purpose of and reasons for such meeting. In the case of Holdco, shareholders representing in the aggregate at least 10% of the issued capital may also request the Holdco board of directors to convene a general meeting of shareholders, stating specifically the business to be discussed.

Table of Contents

- (ii) A qualified minority of shareholders of Deutsche Börse and of shareholders of Holdco, respectively, is entitled to demand that a matter be placed on the agenda of the general shareholders' meeting for resolution. In the case of Deutsche Börse, this requires the application of shareholders holding Deutsche Börse shares representing an aggregate of at least 5% of the issued share capital or in an aggregate nominal amount of at least 500,000. In the case of Holdco, the shareholder or shareholders making the request must represent at least one-hundredth part of Holdco's issued share capital or, according to the applicable official stock exchange price of the New York Stock Exchange, the Frankfurt Stock Exchange, Euronext Paris or any other stock exchange where shares or depository receipts of shares are listed, a value of at least 50,000,000, or such other part of Holdco's issued capital as may be required in this respect by the laws of the Netherlands.

- (iii) Unless statutory law provides for the contrary, e.g. in the case of the conclusion of a domination and profit and loss transfer agreement which requires a majority of at least 75% of the votes cast, resolutions of the shareholders' meeting of Deutsche Börse will be adopted with a simple majority of the votes cast. To the extent that the laws of the Netherlands or Holdco's articles of association do not provide otherwise, all resolutions of the general meeting of shareholders will be adopted by a simple majority of the votes cast. However, for certain resolutions like amendments of the articles of association, mergers, or demergers, a majority of two-thirds of the votes cast at the relevant meeting of shareholders is required. In some cases, the two-thirds majority must represent more than one-half of Holdco's issued share capital.

- (iv) Under German as well as under Dutch stock corporation law, an existing shareholder of a stock corporation has a preferential right to subscribe for new shares in proportion to the number of shares such shareholder already holds in the corporation's existing share capital (preemptive rights or subscription rights; *Bezugsrechte*). However, under Dutch law this does not apply for the issuance of shares against consideration in kind, the issuance of preference shares or in other legally defined cases.

The subscription rights of shareholders of Deutsche Börse may only be excluded if so provided for in the same shareholders' resolution that authorizes the respective capital increase or share issuance. The resolution must be adopted with a majority of at least 75% of the share capital represented at the meeting. When exercising the authorized capital, the Deutsche Börse management board, with the approval of the Deutsche Börse supervisory board, may increase the share capital excluding subscription rights.

Holdco's general meeting of shareholders, or Holdco's board of directors if so authorized by the general meeting of shareholders for a period not exceeding five years, may restrict or exclude subscription rights. A resolution by the general meeting of shareholders to authorize Holdco's board of directors to exclude or restrict subscription rights requires a majority of at least two-thirds of the valid votes cast at the general meeting of shareholders if less than half of Holdco's issued share capital is present or represented. A simple majority is sufficient if more than half of Holdco's issued share capital is present or represented.

The Holdco articles of association will—in contrast to the articles of association of Deutsche Börse—presumably provide that no person, either alone or together with its related persons, may be beneficial owner of Holdco shares entitling to cast votes representing in the aggregate more than 40% of all voting rights. In certain cases the respective threshold may not exceed 20% of the voting rights. Further, the Holdco articles of association will—also in contrast to the articles of association of Deutsche Börse—possibly provide that no person, either alone or together with its related persons, may hold more than 20% of all voting rights. In both cases, the Holdco board of directors may grant exemptions from the aforementioned restrictions under certain conditions and with the approval of the SEC. Additionally, any such exemptions from the aforementioned restrictions must be approved by European regulators having appropriate jurisdiction and authority. With regard to further explanations of these limitations, reference

Table of Contents

is made to pages 385 et seq. of Annex 2 as well as to the articles of association of Holdco which are enclosed in attachment B of Annex 2.

Pursuant to Section 1 para. 3 sentence 1 and 2 German Takeover Act as well as the respective provisions of the Dutch Financial Supervision Act (*Wet op het financieel toezicht*), the Bidder has a (restricted) right of choice regarding the applicable national takeover law. The Bidder may choose between the applicability of German or French takeover law as long as the Dutch (takeover) law does not provide for mandatory provisions that apply to Holdco in respect to certain aspects (mandatory provisions of Dutch law can for example be found in relation to information of trade unions or employees in the context of takeovers). Currently, the Bidder has not decided whether it will be governed by German or French takeover law in the future. The Bidder will decide in due time prior to the beginning of the trading of its shares.

6.4 Directors and management

6.4.1 Current Holdco board of directors

Holdco is led by a one-tier board. Currently, Holdco is managed by a board of directors with two managing directors: Marcus Thompson, who is also head of financial accounting and controlling of Deutsche Börse, and Stéphane Biehler, who is also executive vice president, chief accounting officer and corporate controller of NYSE Euronext. The current managing directors were appointed by way of resolutions of the shareholders' meeting of the Bidder immediately after the formation of the Bidder while Deutsche International Trust Company N.V., with its statutory seat in Amsterdam, the Netherlands, had initially been appointed as managing director for the purposes of foundation of the Bidder. Messrs. Thompson and Biehler are also sole members of the board of the sole shareholder of the Bidder (see section 6.5). Decisions of the management board of Holdco prior to the completion of the combination may only be made by both managing directors acting jointly.

Messrs. Biehler and Thompson will resign from their office at Holdco upon appointment of the members of the Holdco board of directors as described in section 6.4.2.

6.4.2 Holdco board of directors following the combination

In the context of the amendment of Holdco's articles of association and the implementation of the rules for the Holdco board of directors as described above in section 6.2, the board of directors will be newly appointed. Unless otherwise agreed by NYSE Euronext and Deutsche Börse, the Holdco board of directors, that will be composed of 17 members, will be established on the basis of a respective resolution of the general meeting of the Holdco shareholders within one month after the expiration of the offer acceptance period. In accordance with the provisions of the business combination agreement (see section 9.1), the board of directors will be composed of Dr. Reto Francioni, the current chief executive officer of Deutsche Börse, who is agreed to assume the position of the chairman of Holdco group (the **Holdco group chairman**); Duncan L. Niederauer, the current chief executive officer of NYSE Euronext, who is agreed to assume the position of the Holdco group chief executive officer (the **Holdco group CEO**), and 15 non-executive directors, consisting of nine non-executive directors designated for appointment upon nomination by Deutsche Börse and six non-executive directors designated for appointment upon nomination by NYSE Euronext.

The articles of association of Holdco to be in effect as of completion of the combination provide that directors are appointed by the general meeting of shareholders by resolution adopted by a two-thirds majority of the votes cast representing more than one-half of Holdco's issued share capital, or by a majority of the votes cast in case of persons nominated by Holdco's board of directors. Holdco's articles of association further provide that the board of directors has the power to submit a nomination for the appointment of directors with restricted binding effect (so called binding nomination pursuant to Section 2:133 Dutch Civil Code (**nomination with binding effect**)) to the general meeting of shareholders (also in the case of vacancies to be filled), in which case the persons nominated by the board of directors are

Table of Contents

appointed unless the nomination is overruled by a two-thirds majority of the votes cast representing more than one-half of Holdco's issued share capital.

The Holdco articles of association provide that each of the directors will be appointed at the annual general meeting of shareholders for a term that will expire at the end of the next annual general meeting of shareholders. Each of the Holdco directors will be nominated by the board of directors for re-election to the board of directors pursuant to a nomination with binding effect at each of the annual general meetings of shareholders occurring in 2012, 2013 and 2014. In addition, the Holdco group chairman and the Holdco group chief executive officer will each also be nominated by the board of directors pursuant to a nomination with binding effect for re-election to the board of directors at the annual general meetings of shareholders occurring in 2015.

In the event that the Holdco board of directors determines that (1) Holdco will qualify as a "foreign private issuer" as defined in Rule 3b-4(c) promulgated under the Exchange Act (such status is referred to as "**FPI status**") and will maintain FPI status on an ongoing basis through the end of the annual general meeting of shareholders occurring in 2016 and (2) the directors may be appointed by the general meeting of shareholders for a term that expires in 2015 (or in 2016 in the case of the Holdco group chairman and the Holdco group chief executive officer) and directors are not otherwise required by applicable law, regulation or stock exchange listing standards to be elected at each annual general meeting of shareholders, then the Holdco directors will be appointed by the general meeting of shareholders for a term ending at the end of the annual general meeting of shareholders occurring in 2015, except that the Holdco group chairman and the Holdco group chief executive officer will each initially be appointed for a term ending at the end of the annual general meeting of shareholders occurring in 2016.

After the annual general meeting of shareholders occurring in 2015, the number of directors will be decreased and the Holdco board of directors will consist of 12 members (without distinguishing between Deutsche Börse-directors and NYSE Euronext-directors) constituted as follows: one director being the Holdco group chairman, one executive director, being the Holdco group CEO, and 10 non-executive directors.

Prior to the annual general meeting of shareholders occurring in 2015 (or 2016 in the case of the Holdco group chairman and Holdco group CEO), in the event of a vacancy in a board seat previously occupied by a Deutsche Börse director or NYSE Euronext director, the remaining Deutsche Börse directors or NYSE Euronext directors, respectively, will recommend a replacement candidate to Holdco's Nomination, Governance and Corporate Responsibility Committee. Such recommendation to the Nominations, Governance and Corporate Responsibility Committee is binding if the vacant seat is that of the Holdco group chairman or the Holdco group CEO.

Holdco's general meeting of shareholders will at all times have the power to suspend or dismiss a member of the Holdco board of directors by a resolution adopted by a two-thirds majority of the votes cast, as far as this represents more than half of Holdco's issued capital. To the extent permitted under Dutch law, a director may also be suspended by the Holdco board of directors. A suspension may be extended several times but the total term of the suspension may not exceed three months, and the suspension will expire at the end of this period if no resolution has been adopted to either release the suspension or to dismiss the relevant director. For further information see pages A-161 et seq. of Annex 2.

The business and affairs of Holdco will, subject to the restrictions imposed by Holdco's articles of association, be managed by the Holdco board of directors. The Holdco board of directors may perform all acts necessary or useful for achieving Holdco's corporate purpose, subject to applicable law and Holdco's articles of association. Certain decisions of the Holdco board of directors must be submitted to the general meeting of shareholders for approval.

The Holdco board of directors is authorized to represent Holdco, as is the Holdco group CEO. In the event of a conflict of interest between Holdco and one of the members of the Holdco board of directors, the Holdco board of directors or the Holdco group CEO, as the case may be, will nonetheless be authorized to represent Holdco, unless the general meeting of shareholders has designated one or more

Table of Contents

persons to represent Holdco in such case. In the event of such a conflict of interest, the general meeting of shareholders will at all times be authorized to appoint another representative. Pursuant to the rules for the board of directors adopted pursuant to Holdco's articles of association, a member of the Holdco board of directors who has a conflict of interest with Holdco may not participate in the discussions and decision-making process regarding the subject or transaction to which such conflict of interest relates.

The Holdco board of directors will meet as often as it deems necessary, or at the request of the Holdco group chairman or the Holdco group CEO. In a meeting of the Holdco board of directors, each director will have the right to cast one vote. Resolutions of the Holdco board of directors on the following subjects will among other things require a majority of 66% of the total number of seats on the Holdco board of directors:

appointment and removal of the Holdco group chairman and of the Holdco group CEO pursuant to article 14.5, 15.1 and 16.1 of the articles of association of Holdco;

proposals for changes to Holdco's articles of association;

transformational M&A deals, which are defined to include transactions that, in view of their size and significance, very materially change the business of the Holdco group, either in size or direction or geographic presence, as well as certain transactions which require a shareholder vote under Dutch law;

major structural changes, which are defined as (1) any amendments to certain provisions of Holdco's articles of association; (2) changes or enhancements to the responsibilities and authorities of the Holdco group chairman until the end of the annual general meeting of shareholders held in 2016; or (3) changes or enhancements to the responsibilities and authorities of the Holdco group CEO until the end of the annual general meeting of shareholders held in 2016;

amendments to Holdco's rules for the board of directors until the end of the annual general meeting of shareholders held in 2016; and

changes to the duties and the composition of the board committees until the end of the annual general meeting of shareholders occurring in 2015.

All other resolutions of the Holdco board of directors will be adopted with a simple majority of the votes cast where a quorum (i.e., a majority of members of the board of directors) is present.

Pursuant to the Dutch Civil Code (*Burgerlijk Wetboek*) and Holdco's articles of association, resolutions of the Holdco board of directors concerning an important change in Holdco's identity or character of Holdco's business will be subject to the approval of the general meeting of shareholders. Such resolutions include: (1) the transfer of Holdco's business or nearly all of Holdco's business to a third party; (2) the entry into or termination of a long-term co-operation by Holdco or any of Holdco's subsidiaries with another legal entity or as a fully liable partner in a limited or general partnership if such co-operation or termination is of major significance to Holdco; and (3) the acquisition or disposal by Holdco or by any of Holdco's subsidiaries of a participation in another company, the value of which equals at least one-third of Holdco's assets as reflected on the consolidated balance sheet included in Holdco's most recently adopted consolidated annual accounts.

6.4.3 Global executive committee

Immediately following completion of the combination, the Holdco group CEO will appoint executive managers, together forming the members of the global executive committee of the Holdco group.

The composition of the global executive committee, its tasks and responsibilities and the decision making process will be set forth in the rules for the global executive committee which are enacted by the Holdco group CEO with the approval of the Holdco board of directors.

Edgar Filing: NYSE Euronext - Form 425

Amendments to the rules for the global executive committee will require the approval of both the Holdco group CEO and the Holdco board of directors and can therefore not be made by the Holdco group CEO acting unilaterally. The members of

Table of Contents

the global executive committee will execute Holdco's day-to-day business. Any appointment of members of the global executive committee will be made by the Holdco group CEO in close consultation with the Holdco group chairman and the Holdco board of directors. The global executive committee will consist of eight members, including the Holdco group CEO and seven other members. The only member of the global executive committee who will also serve as a director of Holdco will be Duncan L. Niederauer, the Holdco group CEO.

The following table sets forth information as to those who are agreed to be appointed as members of the global executive committee of the Holdco group and to be member of the global executive committee upon completion of the combination.

Name	Position
Duncan L. Niederauer	Holdco Group Chief Executive Officer
Andreas Preuß	Head of Global Derivatives, President and Deputy Group Chief Executive Officer
Gregor Pottmeyer	Holdco Group Chief Financial Officer
Lawrence E. Leibowitz	Head of Global Cash Trading and Listings and Chief Operating Officer of Holdco group
Jeffrey Tessler	Head of Global Settlement and Custody
Dominique Cerutti	Head of Technology Services/IT and President
Frank Gerstenschläger	Head of Market Data and Analytics
John K. Halvey	Holdco Group General Counsel/Head of Legal

Pages G-125 et seq. of Annex 2 contain the future rules of the global executive committee.

6.4.4 Further information on Holdco governance after completion of the combination

For further information on Holdco's governance after completion of the combination, please refer to the section entitled BUSINESS OF HOLDCO AND CERTAIN INFORMATION ABOUT HOLDCO on pages A-157 et seq. of Annex 2 hereto.

6.5 Shareholders

Stichting Alpha Beta Netherlands, a foundation (*stichting*) incorporated and existing under the laws of the Netherlands, having its official seat (*statutaire zetel*) in Amsterdam, the Netherlands, and registered with the Dutch Trade Register of the Chamber of Commerce (*Kamer van Koophandel*) under number 52008169, having its registered office at Herengracht 450, 1017 CA Amsterdam, the Netherlands, (**Stichting**) is currently the sole shareholder of Holdco. Stichting was founded on February 8, 2011. The objects of Stichting pursuant to section 3.1 of its articles of association are to acquire and hold shares in its own name in the capital of the Bidder and to exercise the rights attached to such shares, including the voting rights and collecting the dividends and other distributions due on these shares, to borrow funds and to acquire any form of financing in view of the acquisition of such shares, to lend funds to the Bidder through granting loans (including but not limited to non-recourse loans) or an issuance of notes or otherwise, to have the Bidder borrow funds, to have the Bidder issue notes, to alienate, sell or pledge shares in the capital of the Bidder, to have the Bidder provide a guarantee, as necessary, and to do all that is connected and conducive to the above in the broadest sense of the word. Due to its legal form as a Dutch foundation, Stichting does not have shareholders or unitholders. Stichting rather is an independent legal entity, controlled by its board of directors. Members of the board of directors are appointed by the board of directors itself. No third parties are authorized to give binding instructions to the board of directors of Stichting.

At the time of publication of the exchange offer document, the board of directors of Stichting consists of two directors: Messrs. Marcus Thompson and Stéphane Biehler, the current members of the management board of the Bidder (see section 6.4.1). Messrs. Thompson and Biehler were appointed as members of the

Table of Contents

management board shortly after Stichting's incorporation, while initially Deutsche International Trust Company N.V. had been the director of Stichting.

Immediately after the issue of the new ordinary shares of Holdco as described under section 6.3.2(i), it is intended that the class D shares will be cancelled or repurchased and subsequently cancelled. Hereafter, Stichting will cease to be a shareholder of Holdco.

6.6 Subsidiaries; (future) subsidiaries Deutsche Börse and NYSE Euronext

As at the time of publication of the exchange offer document, Holdco does not hold any equity interest in any other legal entity, except for a 100% stake in Pomme Merger Corporation.

As part of the combination, Pomme Merger Corporation will be merged with and into NYSE Euronext thus becoming a wholly owned subsidiary of the Bidder. In addition, Deutsche Börse will become a subsidiary of the Bidder after completion of the exchange offer. Regarding a more detailed description of Deutsche Börse reference is made to section 7. Regarding a more detailed description of NYSE Euronext reference is made to section 8. Further information regarding both companies can be found in Annex 2 in the sections Business of Deutsche Börse Group certain information about Deutsche Börse Group as well as Business of NYSE Euronext Group and certain information about NYSE Euronext (see pages A-183 *et seq.* and A-273 *et seq.* of Annex 2).

6.7 Persons acting jointly with the Bidder

As parties to the business combination agreement, NYSE Euronext, Deutsche Börse and Pomme Merger Corporation are persons acting jointly with the Bidder pursuant to Section 2 para. 5 sentence 1 German Takeover Act.

Pursuant to Section 2 para. 5 sentence 1 German Takeover Act in conjunction with Section 2 para. 5 sentence 3 German Takeover Act, subsidiaries are presumed to be persons acting jointly with the Bidder and with each other. At the time of publication of this exchange offer document, Pomme Merger Corporation is the only subsidiary of Holdco. Pomme Merger Corporation thus is also a person acting jointly with the Bidder pursuant to Section 2 para. 5 sentence 1 German Takeover Act in conjunction with Section 2 para. 5 sentence 3 German Takeover Act. The same applies to the sole shareholder of Holdco, Stichting.

Except for the aforementioned, there are no persons acting jointly with the Bidder within the meaning of Section 2 para. 5 German Takeover Act at the time of publication of this exchange offer document.

6.8 Deutsche Börse shares currently held by the Bidder and persons acting jointly with the Bidder and their subsidiaries, attribution of voting rights

Except for the Deutsche Börse treasury shares (see section 7.2) neither the Bidder nor any persons acting jointly with the Bidder within the meaning of Section 2 para. 5 German Takeover Act nor one of their subsidiaries hold any shares or voting rights in Deutsche Börse at the date of the publication of this exchange offer document and there are no voting rights attached to Deutsche Börse shares attributable to the Bidder, persons acting jointly with the Bidder or their subsidiaries pursuant to Section 30 German Takeover Act. Deutsche Börse is not entitled to any voting rights regarding the Deutsche Börse treasury shares pursuant to Section 71b German Stock Corporation Act (*Aktiengesetz, AktG*).

6.9 Particulars of securities transactions

In the period commencing six months prior to the publication of the decision to make the exchange offer on February 15, 2011 and ending with the publication of this exchange offer document on May 4, 2011, neither the Bidder nor persons acting jointly with the Bidder within the meaning of Section 2 para. 5 German Takeover Act nor their subsidiaries acquired Deutsche Börse-shares or concluded agreements as a result of which the transfer of ownership in Deutsche Börse shares may be demanded.

Table of Contents

6.10 Possible parallel acquisitions

The Bidder reserves the right, to the extent legally permissible, to directly or indirectly acquire additional Deutsche Börse shares outside the exchange offer on or off the stock exchange. To the extent that such acquisitions take place, this will be published without undue delay in accordance with applicable legal provisions, including without limitation in accordance with Section 23 para. 2 German Takeover Act in conjunction with Section 14 para. 3 sentence 1 German Takeover Act, on the internet at <http://www.global-exchange-operator.com>, in the electronic Federal Gazette and by way of an English press release via an electronically operated information distribution system in the United States stating the number and consideration paid or agreed to be paid for the Deutsche Börse shares so acquired or agreed to acquire.

6.11 Irrevocable undertakings

Under the business combination agreement, the Bidder and Deutsche Börse agreed that as promptly as practicable after the commencement of the exchange offer, and in any event no later than ten banking days following the recommendation pursuant to Section 27 German Takeover Act of the exchange offer by either of the Deutsche Börse boards, it shall tender into the exchange offer all of the Deutsche Börse treasury shares (see section 7.2) in accordance with the terms of this exchange offer document. Otherwise, the Bidder has currently not concluded agreements with third parties under which those third parties are obliged to accept the exchange offer in respect of the Deutsche Börse shares held by them (irrevocable undertakings).

If the Bidder should enter into irrevocable undertakings in the future, the Bidder reserves the right to exclude the right of withdrawal in each case.

7 Description of Deutsche Börse

7.1 Overview

Deutsche Börse is a German stock corporation (*Aktiengesellschaft*) with its statutory seat in Frankfurt am Main, Germany. It is registered with the commercial register of the Local Court Frankfurt am Main under HRB 32232. Deutsche Börse is headquartered in Eschborn near Frankfurt am Main.

The business objectives of Deutsche Börse are a) the operation of exchanges, including but not limited to stock exchanges, subject to applicable laws and regulations; b) services for the design, development and implementation of electronic data processing in areas including but not limited to stock exchange transactions, the securities business of financial institutions and the settlement thereof and, furthermore, the collection, processing and sale of financial information; c) the provision of support services to undertakings engaged in the stock exchange and securities business which shall include, but not be limited to, the provision of central services to such undertakings in relation to all activities thereof.

Deutsche Börse may acquire, dispose of, develop, lease, rent out or employ for third parties any hardware and software and all facilities related thereto. Deutsche Börse may transact any business, take any action and perform any other acts, which appear to be directly or indirectly necessary, suitable or useful to achieve the corporate objectives. Deutsche Börse may acquire and dispose of real estate, establish branches within and outside Germany and participate in, establish or acquire any undertakings of the same or a similar kind or, by way of exception, of a different kind. Furthermore, Deutsche Börse may enter into intra group agreements and joint ventures. Deutsche Börse shall be subject to confidentiality requirements as are customary in the banking industry.

Deutsche Börse has been established for an undefined period of time. The fiscal year of Deutsche Börse is the calendar year.

As of December 31, 2010, Deutsche Börse group employed 3,490 people in 19 locations in 15 countries. In 2010, Deutsche Börse group generated total revenues on a consolidated basis of 2,226.7 million (2009: 2,289.7 million; 2008: 2,758.6 million).

Table of Contents**7.2 Share capital**

The current share capital of Deutsche Börse is 195,000,000 and is divided into 195,000,000 registered shares with no-par value. There are no other classes of shares besides the ordinary shares.

Based on respective authorizations of the general shareholders' meeting, Deutsche Börse carried out share repurchases in the past. The last repurchases were executed in 2008. No shares were repurchased during 2009, 2010 and until the publication of this exchange offer document in 2011. Deutsche Börse currently holds 8,956,997 Deutsche Börse shares as a result of the past share buybacks (such shares referred to as **Deutsche Börse treasury shares**).

The Deutsche Börse shares are admitted to trading on the regulated market of the Frankfurt Stock Exchange and, simultaneously, in the sub-segment thereof with additional post-admission obligations (Prime Standard).

7.2.1 Authorized Capital I

The Deutsche Börse management board, with the consent of the Deutsche Börse supervisory board, is authorized to increase the share capital on one or more occasions on or before May 23, 2011, by up to a total of 5,200,000, by issuing new registered no-par value shares against cash and/or contributions in kind (authorized capital I). The shareholders of Deutsche Börse must be granted subscription rights unless the Deutsche Börse management board, with the approval of the Deutsche Börse supervisory board, uses its authorization to exclude shareholder subscription rights. The Deutsche Börse management board, with the consent of the Deutsche Börse supervisory board, is authorized to exclude subscription rights if the share capital is increased against in-kind contributions in kind for the purpose of acquiring companies, parts of companies or interests in companies or other assets. The Deutsche Börse management board, with the consent of the Deutsche Börse supervisory board, is also authorized to exclude fractional amounts from subscription rights of shareholders of Deutsche Börse. The content of the rights attached to the shares and the terms and conditions relating to their issue, including the issue price, will be determined by the Deutsche Börse management board with the consent of the Deutsche Börse supervisory board.

7.2.2 Authorized Capital II

The Deutsche Börse management board, subject to the consent of the Deutsche Börse supervisory board, is authorized to increase the share capital on one or more occasions until May 26, 2015, by up to a total of 27,800,000, by issuing new registered no-par value shares against cash and/or contributions in kind (authorized capital II). The shareholders of Deutsche Börse must be granted subscription rights. However, the Deutsche Börse management board, with the consent of the Deutsche Börse supervisory board, is authorized to exclude shareholder subscription rights in the case of a capital increase against cash contribution if the issue price of the new shares does not fall substantially below the quoted price of the shares and the shares issued under the exclusion of subscription rights in accordance with Section 186 (3) sentence 4 AktG may not exceed a total of 10% of the share capital of Deutsche Börse either when the authorization becomes effective by virtue of the amendment to the articles of incorporation being recorded in the commercial register or when the authorization is exercised. All shares issued or sold in accordance with Section 186 (3) sentence 4 AktG (directly or analogously) during the period of validity of the authorization until it is exercised, are included in the calculation of the 10% limit.

The Deutsche Börse management board, subject to the consent of the Deutsche Börse supervisory board, is also authorized to exclude subscription rights of shareholders for a pro rata amount of the share capital of up to a total of 3,000,000 in order to issue the new shares to employees of Deutsche Börse or affiliated companies (within the meaning of Sections 15 *et seq.* AktG), excluding members of the Deutsche Börse management board and the management of affiliated companies. These shares may be issued either directly or indirectly following subscription by a credit institution and repurchase by Deutsche Börse.

Table of Contents

The Deutsche Börse management board, subject to the consent of the Deutsche Börse supervisory board, is also authorized to exclude subscription rights of shareholders if the share capital is increased against contributions in kind for the purpose of acquiring companies, parts of companies or interests in companies or other assets.

The Deutsche Börse management board, with the consent of the Deutsche Börse supervisory board, is also authorized to exclude fractional amounts from subscription rights of shareholders.

The new shares may also be acquired by certain credit institutions or companies to be specified by the Deutsche Börse management board operating in accordance with section 53 (1) sentence 1 or section 53b (1) sentence 1 or (7) of the German Banking Act (*Gesetz über das Kreditwesen*) subject to the obligation that they offer such shares to shareholders of Deutsche Börse (indirect subscription right).

The Deutsche Börse management board, subject to the consent of the Deutsche Börse supervisory board, determines the additional terms and conditions relating to the issuance of the shares, including the issue price.

7.2.3 Authorized Capital III

The Deutsche Börse management board, subject to the consent of the Deutsche Börse supervisory board, is authorized to increase the share capital on one or more occasions until May 26, 2015, by up to a total of 19,500,000, by issuing new registered no-par value shares against cash contributions (authorized capital III). The shareholders of Deutsche Börse shall be granted subscription rights. However, the Deutsche Börse management board, subject to the consent of the Deutsche Börse supervisory board, is authorized to exclude fractional amounts from subscription rights of shareholders.

The new shares may also be acquired by certain credit institutions or companies to be specified by the Deutsche Börse management board operating in accordance with Section 53 (1) sentence 1 or Section 53b (1) sentence 1 or (7) of the German Banking Act, subject to the obligation that they offer such shares to shareholders of Deutsche Börse (indirect subscription right).

The Deutsche Börse management board, subject to the consent of the Deutsche Börse supervisory board, determines the additional terms and conditions relating to the issuance of the shares, including the issue price.

7.2.4 Authorized Capital IV

The Deutsche Börse management board, subject to the consent of the Deutsche Börse supervisory board, is authorized to increase the share capital on one or more occasions until May 10, 2012, by up to a total of 6,000,000, by issuing new registered no-par value shares against cash and/or contributions in kind (authorized capital IV). The shareholders of Deutsche Börse shall be granted subscription rights unless the Deutsche Börse management board, with the approval of the Deutsche Börse supervisory board, uses its authorization to exclude shareholder subscription rights. The Deutsche Börse management board, with the consent of the Deutsche Börse supervisory board, is authorized to exclude fractional amounts from subscription rights of shareholders. The Deutsche Börse management board, subject to the consent of the Deutsche Börse supervisory board, is authorized to exclude subscription rights of shareholders in order to issue up to 900,000 new shares per fiscal year to members of the Deutsche Börse management board and employees of Deutsche Börse, as well as to members of the executive boards and management and employees of related companies (within the meaning of section 15 *et seq.* AktG). The content of the rights attached to the shares and the terms and conditions relating to their issuance, including the amount to be issued, will be determined by the Deutsche Börse management board with the consent of the Deutsche Börse supervisory board. Shares issued to members of the Deutsche Börse management board and employees of Deutsche Börse, as well as to members of the executive boards/management and employees of related companies within the meaning of Section 15 *et seq.* AktG, carry full dividend rights for the fiscal year in which they are issued.

Table of Contents**7.2.5 Conditional Capital I**

The share capital is conditionally increased by up to 6,000,000 through the issuance of up to 6,000,000 registered no-par value shares (conditional capital I). The conditional capital increase is intended solely to fulfill subscription rights granted on or before May 13, 2008 on the basis of the authorization by the General Shareholders Meeting on May 14, 2003, under item 7 of the agenda. The conditional capital increase will only be carried out to the extent that the holders of the subscription rights issued make use of their subscription rights and Deutsche Börse does not fulfill the subscription rights by transferring own shares or by making a cash payment. The new shares are entitled to receive dividends as of the beginning of the financial year in which they arise by exercise of subscription rights.

7.3 Outstanding stock options

Deutsche Börse has established several stock option plans. Based on some of these programs holders of stock options could potentially be entitled to obtain Deutsche Börse shares before or after the expiration of the offer acceptance period or the additional acceptance period. The following programs are in place:

- (i) Deutsche Börse has established a group share plan based on which employees of Deutsche Börse group, who are not members of the Deutsche Börse management board or senior executives, have the opportunity to purchase Deutsche Börse shares at discounted rates. At the time of publication of this exchange offer document a total of 73,432 options were exercisable, of which 23,920 were granted under tranche 2005 and 49,512 under tranche 2006. The options granted under tranche 2005 are exercisable until June 30, 2011, and the options granted under tranche 2006 are exercisable until June 30, 2012. Each individual option entitles the holder to subscribe for two Deutsche Börse shares unless Deutsche Börse exercises its right to settle in cash. In accordance with the terms and conditions of the group share plan, Deutsche Börse has generally decided to settle Deutsche Börse stock options in cash.
- (ii) Deutsche Börse has established a group share plan for the employees of International Securities Exchange Holdings Inc., an indirect subsidiary of Deutsche Börse group. As the stock options granted under tranche 2008 of the ISE group share plan were settled in the first quarter of 2011 (**ISE Group Share Plan**), there is only a remaining number of up to 72,983 options under tranche 2009 of this program. This tranche will become exercisable in February 2012 and entitle the holder to acquire one share per option. However, in accordance with the terms and conditions of the ISE group share plan, at Deutsche Börse's option, stock options granted under this program may be settled either in shares or in cash. Deutsche Börse currently intends to settle the stock options in cash.
- (iii) Deutsche Börse also introduced a stock bonus plan for members of the Deutsche Börse management board and senior executives of Deutsche Börse group as a long-term incentive component resulting in a total of 308,740 outstanding stock options from tranche 2009 (175,767) and tranche 2010 (132,973) at the time of publication of this exchange offer document. However, since the end of the vesting period for the stock options under tranche 2010 will be in February 2013 and therefore after completion of the exchange offer which triggers a change of control according to the terms and provisions of the stock bonus plan, settlement will be in cash only. No Deutsche Börse shares would be issued in this case. With regard to the number of stock options outstanding under tranche 2009, such stock options become mature in February 2012 and will entitle the holder to subscribe for one Deutsche Börse share per option. However, Deutsche Börse also intends in this case to settle these options in cash.
- (iv) The stock bonus plan mentioned in the preceding paragraph expired in 2009 and was replaced with a phantom stock option program for members of the Deutsche Börse management board and senior executives of Deutsche Börse group. The program was extended to members of the Deutsche Börse supervisory board for a certain period of time in the past. Stock options granted under the phantom stock option program, however, are settled in cash according to the terms and conditions of the

Table of Contents

program. No additional Deutsche Börse shares will therefore come into existence due to this phantom stock option program.

- (v) The following chart gives an overview regarding the number of options that were granted in the stock option plans previously mentioned and that are outstanding at the time of publication of this exchange offer document. Moreover, the chart describes the point in time and the number of Deutsche Börse shares that could come into existence based on these options:

	Number of issued options	Number of the shares which could come into existence	Exercise period
Group share plan DB			
Tranche 2005	23,920	47,840	Until June 30, 2011
Tranche 2006	49,512	99,024	Until June 30, 2012
Total (GSP DB)	73,432	146,864	
Group share plan ISE			
(Tranche 2009)	72,983	72,983	From February 2012
Stock bonus plan			
Tranche 2009	175,767	175,767	From February 2012
Tranche 2010	132,973	132,973	From February 2013
Total (SBP)	308,740	308,740	
Total	455,155	528,587	

As described, the exercise of the previously mentioned stock options will likely not result in a delivery of Deutsche Börse shares to the holders of Deutsche Börse share options, because Deutsche Börse, in each case, intends to make use of its right to settle in cash. However, in case Deutsche Börse would decide otherwise at the time of maturity of the stock options, as a consequence of a settlement in kind a maximum of 528,587 Deutsche Börse shares could come into existence in the future (the total number of all Deutsche Börse shares that may still come into existence as a result of the stock option programs described in this section the **total future Deutsche Börse option shares**). Of this number of total future Deutsche Börse option shares, only the options granted under tranche 2005 and tranche 2006 of the group share plan described in paragraph (ii) up to 146,864 new Deutsche Börse shares may come into existence as a result of the exercise of such stock options prior to the expiration of the additional offer acceptance period (the **additional Deutsche Börse shares**). Each holder of additional Deutsche Börse shares then would be entitled to accept the exchange offer once he or she holds additional Deutsche Börse shares prior to the expiration of the offer acceptance period or the additional offer acceptance period.

Table of Contents**7.4 Shareholders**

As of March 31, 2011, 4.59% of the current share capital of Deutsche Börse of 195,000,000 were held by Deutsche Börse as Deutsche Börse treasury shares. The remaining outstanding Deutsche Börse shares were predominantly held by institutional investors (approximately 95% of the remaining outstanding Deutsche Börse shares) and only approximately 5% of the remaining outstanding Deutsche Börse shares were held by private investors. The following table of Deutsche Börse's shareholders sets forth those shareholders who have notified the percentage of their voting rights in Deutsche Börse's share capital in accordance with Section 21 of the German Securities Trading Act:

Shareholder	Publication date ⁽¹⁾	Voting rights (directly held or attributed /total)	
		%	amount
BlackRock, Inc., New York, NY, USA	February 25, 2011	4.99	9,724,997
BlackRock Financial Management, Inc. New York, NY, USA	May 21, 2010	4.83	9,410,599
BlackRock HoldCo 2, Inc. Wilmington, DE, USA	May 21, 2010	4.83	9,410,599
BlackRock Advisors Holdings, Inc., New York, NY, USA	December 10, 2009	3.35	6,526,163
Sun Life Financial, Inc., Toronto, ON, Canada	September 15, 2009	3.34	6,518,717
Sun Life Global Investments, Inc., Toronto, ON, Canada	September 15, 2009	3.34	6,518,717
Massachusetts Financial Services Company (MFS), Boston, MA, USA	September 15, 2009	3.07	5,990,617

Sun Life of Canada (U.S.) Financial Services Holdings, Inc., Boston, MA, USA	September 15, 2009	3.07	5,990,617
Deutsche Börse, Frankfurt / Eschborn, Germany	September 30, 2008	3.05 ⁽²⁾	5,950,653 ⁽²⁾
Franklin Mutual Advisers, LLC, Short Hills, New Jersey, USA	June 30, 2009	3.01	5,871,225

Notes:

- (1) According to Section 26 para. 1 German Securities Trading Act.
(2) Presently, 4.59% of the issued share capital or 8,956,997 Deutsche Börse shares.

More detailed information on the allocation of voting rights of the above mentioned shareholders is included in page A-211 of Annex 2.

7.5 Business activities and business development

As one of the largest exchange organizations worldwide, Deutsche Börse group offers its customers a broad range of products and services. These cover the entire value chain of financial market transactions, from trading and clearing of securities, including derivatives, through transaction settlement, custody and collateral management and providing of market information, to the development and operation of electronic trade and clearing systems.

Deutsche Börse group realigned its segment structure effective as of January 1, 2010. Its group's business activities are currently divided into four segments: Xetra, Eurex, Clearstream and Market Data & Analytics.

Xetra supports the trading and listing of cash market securities on the Frankfurt Stock Exchange as well as other European and international markets. Eurex, the derivatives market, provides for the trading of futures and options and Eurex Clearing house performs central counterparty clearing and risk

Table of Contents

management for derivatives, equities, repo, energy and fixed income transactions. Clearstream is responsible for the settlement, safekeeping and administration of securities. The Market Data & Analytics segment collects and distributes financial market data and indices. Deutsche Börse group's business has no significant seasonality.

Deutsche Börse itself operates the cash market of Frankfurt Stock Exchange. Through its equity investment in Scoach Holding S.A., with its corporate seat in Luxembourg, Luxembourg, Deutsche Börse also offers trading in structured products (e.g. certificates and warrants). Furthermore, Deutsche Börse owns a 75% plus one share holding in Tradegate Exchange GmbH, with its corporate seat in Berlin, Germany, which operates Tradegate Exchange, a Berlin-based stock exchange specially tailored to the requirements of private investors.

Through Eurex Zürich AG, with its corporate seat in Zürich, Switzerland, and its subsidiaries, Deutsche Börse group also operates derivatives markets in Europe (Eurex Deutschland and Eurex Zürich) and the United States (International Securities Exchange, ISE) and offers clearing services (Eurex Clearing AG with its corporate seat in Frankfurt am Main, Germany) as well a fixed-income securities trading (Eurex Bonds GmbH with its corporate seat in Frankfurt am Main, Germany) and a market place for repo transactions (Eurex Repo GmbH with its corporate seat in Frankfurt am Main, Germany).

Post-trade services such as banking, settlement and custody services are handled by subsidiaries of Clearstream Holding AG, with its corporate seat in Frankfurt am Main, Germany. These services include transaction settlement, administration and custody of services as well as global securities financing.

In addition, Deutsche Börse sells price and reference data as well as other information relevant for capital markets and develops indices through its subsidiary STOXX Ltd., with its corporate seat in Zürich, Switzerland.

Deutsche Börse and Clearstream Services S.A. with its corporate seat in Zürich, Switzerland, develop and operate Deutsche Börse group's technological infrastructure.

7.5.1 Xetra

Xetra is the electronic multi asset class trading system for the cash market of the Frankfurt Stock Exchange as well as other European exchanges. Deutsche Börse group's cash market provides one of the most comprehensive ranges of tradable securities from a single source. With over 11,000 shares from both German and international issuers, more than 24,000 fixed-income securities, around 800 index funds, approximately 3,000 actively managed retail funds, and more than 500,000 certificates and warrants, investors from all over Europe can buy and sell financial products in many important asset classes in a clearly regulated and transparent marketplace. Integrated clearing by the central counterparty of Eurex Clearing AG and settlement by Clearstream Banking AG, with its corporate seat in Frankfurt am Main, Germany, help to ensure that all trades are fulfilled.

7.5.2 Eurex

Eurex Frankfurt AG and Eurex Zürich AG operate the Eurex exchanges in Germany and in Switzerland. Furthermore, Eurex consists of Eurex Clearing AG, International Securities Exchange and a multi-lateral trading facilities (MTF) Eurex Bonds GmbH and Eurex Repo GmbH. BaFin and Deutsche Bundesbank have agreed to qualify Eurex Clearing AG as system critical (*systemrelevant*) institution which is subject to a more intensive supervision by the regulators BaFin and Deutsche Bundesbank. Institutions qualify as system critical if a threat to their existence (*Bestandsgefährdung*) could have material adverse consequential effects on other credit institutions or could destabilize the financial system due to such institution's size, the intensity of its interbank relationships and its close links with other countries. Eurex Zürich AG is a company jointly owned by Deutsche Börse and SIX Swiss Exchange with its corporate seat in Zürich, Switzerland with an economic interest of 85% and 15% respectively, and the holding company of Eurex Frankfurt AG. Eurex Zürich AG is the new majority shareholder of the European Energy Exchange AG (EEX) with its corporate seat in Leipzig, Germany. Eurex Frankfurt AG with its

Table of Contents

corporate seat in Frankfurt am Main, Germany, is the operator of the exchange Eurex Deutschland and, among others, the intermediary holding company of Eurex Clearing AG, U.S. Exchange Holdings Inc., with its corporate seat in Wilmington, Delaware, United States, Eurex Repo GmbH and Eurex Bonds GmbH.

Eurex is one of the world's leading derivatives marketplaces. The exchanges Eurex Deutschland and Eurex Zürich are operated on a single trading platform with a product suite comprising the world's most actively traded and liquid markets. Eurex offers some 1,600 derivatives products with more than 145,000 variations (Series). Eurex offers interest rate and equity index derivatives and as well as broad offerings in single equity products and non-financial asset classes, including commodities. Besides euro (EUR)-denominated products, Eurex also offers derivatives denominated in Swiss francs (CHF), U.S. dollars (USD) and pounds sterling (GBP). Owing to their joint trading platform, uniform exchange rules and a joint central counterparty (Eurex Clearing AG), Deutsche Börse believes that Eurex Exchanges are perceived by market participants as essentially a single marketplace. In 2010, Eurex served more than 410 member firms located in 28 countries worldwide.

Eurex Clearing AG is the clearinghouse within Deutsche Börse group. It offers fully automated and straight-through post trade services for derivatives, equities, repo, energy and fixed income transactions. In its role as a central counterparty, Eurex Clearing AG acts as a buyer to all sellers and as a seller to all buyers, thereby seeking to minimize counterparty risk and maximize operational efficiency. Eurex Clearing AG offers trade management functions, risk management and collateral and delivery management services with a focus to increase market safety and integrity. Eurex Clearing AG provides leading risk management services such as comprehensive pre-trade risk limits and it was the first leading central counterparty worldwide to offer risk management and margining data in real-time to its trading and clearing members.

Eurex Bonds GmbH operates a MTF and provides participants with an electronic platform for off-exchange, wholesale trading in European fixed-income securities. Also, the Eurex Bonds GmbH trading platform has been linked into Eurex futures market and Eurex Clearing AG with the result that a direct link between spot and futures markets is available that enables electronic basis trading of fixed-income securities via a central order book. The necessary liquidity in the fixed-income securities and basis trading markets is provided by market makers. In addition to Eurex Frankfurt AG, several financial institutions are shareholders of Eurex Bonds GmbH.

The repo business is operated by Eurex Repo GmbH. It offers an integrated marketplace for electronic trading, clearing, collateral management and settlement for secured funding and financing. It is one of the leading European marketplaces with more than 300 participants since 1999.

7.5.3 Clearstream

Clearstream Holding AG is the post-trade services arm of Deutsche Börse group except for clearing which is provided by Eurex Clearing AG. Clearstream Holding AG is a wholly owned subsidiary of Deutsche Börse and functions as a German financial holding, owning 100% of Clearstream International S.A., with its corporate seat in Luxembourg, Luxembourg. BaFin and Deutsche Bundesbank have agreed to qualify Clearstream Banking AG as system critical institution which is subject to a more intensive supervision by the regulators BaFin and Deutsche Bundesbank (with respect to the term "system critical" see section 7.5.2). Its core businesses include the settlement of market transactions and the custody of securities.

In terms of settlement services, Clearstream seeks to ensure that cash and securities are delivered in a timely manner between trading parties. With respect to the custody of securities, it is responsible for the management, safe-keeping and administration of securities deposited with it. In addition, the segment offers added-value services such as global securities financing and investment funds services. Customers profit from individual services, efficient processing and reduced transaction costs. The Clearstream segment is one of Europe's leading suppliers of this post-trading infrastructure for shares and fixed-

Table of Contents

income securities in national and international trading. It is among the largest providers of securities services worldwide.

The Clearstream segment is both an international central securities depository (**ICSD**) serving the international capital markets and a central securities depository (**CSD**) for German and Luxembourgian domestic securities. As an international central securities depository, the Clearstream segment handles the settlement and safekeeping of Eurobonds and other internationally traded fixed-income securities and equities across 50 markets. As a central securities depository, it provides the post-trade infrastructure for German and Luxembourgian securities. In the custody business, the average value of securities held in custody at Clearstream in 2010 was 10.9 trillion. In Clearstream's settlement business, the number of settlement transactions in 2010 was 116.4 million.

7.5.4 Market Data & Analytics

The products offered by this segment's business areas are aimed at three customer groups: Firstly, issuers, who mainly use indices of Market Data & Analytics as underlying values for financial products (futures, options, ETFs, structured products); secondly, front offices of investors, brokers, trading desks, algo traders, and investment advisors, who use real time price- and orderbook information or other market moving signals to make their buy- or sell-decisions and recommendations; and thirdly, such functions of securities trading houses, which require accurate instrument reference data for risk management activities and error-free settlement.

7.6 Deutsche Börse boards

The Deutsche Börse management board currently consists of the following six members:

Name	Current Position
Dr. Reto Francioni	Chief Executive Officer
Andreas Preuß	Deputy Chief Executive Officer, responsible for Derivatives & Market Data Division
Gregor Pottmeyer	Chief Financial Officer
Frank Gerstenschläger	Responsible for Xetra Division
Dr.-Ing. Michael Kuhn	Chief Information Officer
Jeffrey Tessler	Responsible for Clearstream Division

Regarding the position of Dr. Reto Francioni within the Holdco board of directors please see section 6.4.2. With respect to Messrs. Andreas Preuß, Gregor Pottmeyer, Frank Gerstenschläger and Jeffrey Tessler assuming positions in the global executive committee, see section 6.4.3.

The Deutsche Börse supervisory board is subject to co-determination under the German One Third Participation Act (*Drittelbeteiligungsgesetz*) and is composed of 12 shareholder representatives who are elected by the general shareholders' meeting of Deutsche Börse and 6 employee representatives who are elected by the employees of Deutsche Börse group. Currently the Deutsche Börse supervisory board consists of the following 18 members (employee representatives are marked with*): Dr. Manfred Gentz (Chairman), Gerhard Roggemann (Deputy Chairman), Herbert Bayer*, Richard Berliand, Birgit Bokel*, Dr. Joachim Faber, Hans-Peter Gabe*, Richard M. Hayden, Craig Heimark, Dr. Konrad Hummler, David Krell, Hermann-Josef Lamberti, Friedrich Merz, Thomas Neiß, Roland Prantl*, Dr. Erhard Schipporeit, Norfried Stumpf* and Johannes Witt*.

7.7 Employees

Deutsche Börse group operates worldwide and had as at December 31, 2010 a total of 3,490 employees (December 31, 2009: 3,600, December 31, 2008: 3,395) from 66 nations working in 19 locations across

Table of Contents

three continents. This decrease compared with the previous year is primarily a result of Deutsche Börse group's operating efficiency program. In the first quarter of 2010, the Deutsche Börse management board adopted measures to optimize processes and cost structures. These included streamlining the management structure and reallocating operating functions at Deutsche Börse group's various locations. To avoid redundancies resulting from the relocation of functions as far as possible, the management of Deutsche Börse group and the German works council agreed on a controlled voluntary leaver program. Thus, employees may, on their own initiative, reduce their working hours, retire early or terminate their contract in return for a severance payment. The controlled voluntary leaver program features additional cash incentives with respect to contracts of employees who expressed interest for the voluntary leaver program before December 31, 2010. It will initially remain in force until end of May 2011 with the option to extend. Additionally, the management of Deutsche Börse group and the German works council of Deutsche Börse group agreed on a reconciliation of interest agreement. This includes a so called job exchange to simplify internal transfers and steps towards adopting a social plan should this become necessary.

7.8 Persons acting jointly with Deutsche Börse

The entities listed in **Annex 1** of this exchange offer document are currently direct or indirect subsidiaries of Deutsche Börse and therefore constitute persons acting jointly with each other and with Deutsche Börse pursuant to Section 2 para. 5 sentence 2 German Takeover Act in conjunction with Section 2 para. 5 sentence 3 German Takeover Act.

Apart from these, there are no other persons acting jointly with Deutsche Börse pursuant to Section 2 para. 5 sentence 2 Germany Takeover Act.

8 Description of NYSE Euronext

8.1 Legal basis and overview

NYSE Euronext, a Delaware corporation, was organized on May 22, 2006 in anticipation of the combination of the businesses of NYSE Group, Inc., a Delaware corporation, and Euronext N.V., a company organized under the laws of the Netherlands. The combination of these businesses was consummated on April 4, 2007. NYSE Group, Inc. was formed in connection with the merger between New York Stock Exchange, Inc., a New York Type A not-for-profit corporation, and Archipelago Holdings, Inc., a Delaware corporation on March 7, 2006. Euronext was the first cross-border exchange group, created through the merger of the Paris, Amsterdam and Brussels stock exchanges in 2000.

NYSE Euronext's headquarters are located in 11 Wall Street, New York, United States and in 39 rue Cambon, Paris, France. Euronext N.V. has its corporate seat in Beursplein 5, 1012 JW Amsterdam, the Netherlands.

8.2 Share capital

NYSE Euronext is authorized to issue up to 800,000,000 NYSE Euronext shares (the **NYSE Euronext shares**). As of February 15, 2011, 276,216,610 of these NYSE Euronext shares were issued, including 15,009,076 shares held in treasury. Holders of NYSE Euronext shares are entitled to receive dividends if, in the form and to the extent declared by the NYSE Euronext board of directors out of funds legally available for payment, subject to the rights of holders, if any, of NYSE Euronext preferred stock.

Furthermore, NYSE Euronext is authorized to issue up to 400,000,000 shares of preferred stock, with a par value of \$0.01 per share. Currently, no shares of NYSE Euronext preferred stock are outstanding.

Subject to possible restrictions on voting rights, each outstanding NYSE Euronext share entitles its holder to one vote. Subject to the rights, if any, of the holders of any series of preferred stock outstanding and subject to applicable law, all voting rights are vested in the holders of NYSE Euronext shares.

Table of Contents

All of the outstanding NYSE Euronext shares of common stock are fully paid and non-assessable. Holders of NYSE Euronext shares of common stock are not granted subscription rights. NYSE Euronext shares may not be converted into shares of other classes of stock.

8.3 Options

Under the stock incentive plan, NYSE Euronext may grant stock options and other equity awards to employees. NYSE Euronext's approach to the incentive compensation awards includes awards of stock options and restricted stock units.

8.4 Shareholders

As of March 1, 2011, 69% of all outstanding NYSE Euronext shares were held by institutional investors. The remaining NYSE Euronext shares were held by private investors, including those NYSE Euronext shares held by members of the management of NYSE Euronext (please refer also to the section "Security Ownership of Certain NYSE Euronext Beneficial Owners and Management" in Annex 2). The largest beneficial owner of NYSE Euronext shares known to NYSE Euronext as of March 1, 2011 was T. Rowe Price Associates, Inc., Baltimore, Maryland, United States, which beneficially owned 7.3% of the NYSE Euronext shares.

8.5 Business

NYSE Euronext is a leading global operator of financial markets and provider of innovative trading strategies. NYSE Euronext offers a broad and growing range of products and services in cash equities, futures, options, swaps, exchange-traded products, bonds, carbon trading, clearing operations, market data and commercial technology solutions, all designed to meet the evolving needs of issuers, investors, financial institutions and market participants. None of NYSE Euronext's business is seasonal in nature. NYSE Euronext revised its reportable business segments effective in the first quarter of 2010. The new segments are Derivatives, Cash Trading and Listings, and Information Services and Technology Solutions.

8.5.1 NYSE Euronext's Derivatives segment is comprised of its derivatives trading and its clearing businesses and includes NYSE Liffe, NYSE Liffe Clearing, NYSE Liffe US, NYSE Amex Options, NYSE Arca Options, NYPC and related derivatives market data.

8.5.2 NYSE Euronext's Cash Trading and Listings segment consists of its cash trading and listings businesses and includes the New York Stock Exchange, Euronext, NYSE Amex, NYSE Arca, NYSE Alternext, NYSE Arca Europe and SmartPool, as well as BlueNext and Interbolsa, and related cash trading market data.

8.5.3 NYSE Euronext's Information Services and Technology Solutions segment refers to its commercial technology transactions, data and infrastructure businesses. NYSE Euronext operates a commercial technology business, NYSE Technologies, and also owns NYFIX, Inc., a leading provider of innovative solutions that optimize trading efficiency. NYSE Technologies provides comprehensive transaction, data and infrastructure services and managed solutions for buy-side, sell-side and exchange communities that require next-generation performance and expertise for mission-critical and value-added client services. NYSE Technologies' advanced integrated solutions power the trading operations of global financial institutions and exchanges, including non-NYSE Euronext markets in addition to all the exchanges in NYSE Euronext. NYSE Technologies operates five businesses: Global Market Data, which offers a broad range of global market information products covering multiple asset classes; Trading Solutions, which creates and implements high performance, end-to-end messaging software and real-time market data distribution and integration products; Exchange Solutions, which provides multi-asset exchange platform services, managed services and expert consultancy; Global Connectivity, offering one of the world's largest, most reliable financial transaction networks connecting firms and exchanges worldwide; and Transactions, which primarily comprises the former NYFIX, Inc. FIX business, and which incorporates the NYFIX Marketplace and the industry-leading FIX Software business.

Table of Contents**8.6** Boards of NYSE Euronext**8.6.1** Board of directors

The NYSE Euronext board of directors is composed of following members:

André Bergen, Ellyn L. Brown, Marshall N. Carter, Dominique Cerutti, Patricia M. Cloherty, Sir George Cox, Sylvain Hefes, Jan-Michiel Hessels, Duncan M. McFarland, James J. McNulty, Duncan L. Niederauer, Ricardo Salgado, Robert G. Scott, Jackson P. Tai, Rijnhard van Tets and Sir Brian Williamson.

8.6.2 Executive Officers

The table below sets forth information regarding NYSE Euronext's executive officers. All of NYSE Euronext's executive officers have been appointed by and have to follow the instructions of NYSE Euronext board of directors.

Name	Position
Duncan L. Niederauer	Chief Executive Officer and Director
Dominique Cerutti	President und Deputy Chief Executive Officer
Lawrence E. Leibowitz	Chief Operating Officer
Michael S. Geltzeiler	Group Executive Vice President and Chief Financial Officer
Roland Gaston-Bellegarde	Group Executive Vice President and Head of European Execution
Philippe Duranton	Group Executive Vice President and Global Head of Human Resources
Garry P. Jones	Group Executive Vice President and Head of Global Derivatives
John K. Halvey	Group Executive Vice President and General Counsel
Claudia O. Crowley	Chief Executive Officer of NYSE Regulation, Inc.

8.7 Employees

As of December 31, 2010, NYSE Euronext employed 2,968 full-time equivalent employees.

9 Background to the merger and the exchange offer**9.1** The business combination agreement

The NYSE Euronext board of directors and the Deutsche Börse boards continually review their respective companies' results of operations and competitive positions in the industries in which they operate, as well as their strategic alternatives. In connection with these reviews, each of NYSE Euronext and Deutsche Börse from time to time evaluate potential transactions that would be beneficial to achieving its strategic objectives. Against this background the discussions between Deutsche Börse and NYSE Euronext that had already taken place in 2008 were reinitiated in fall of 2010 and finally led to the conclusion of the agreement between NYSE Euronext, Deutsche Börse, Holdco and Pomme Merger Corporation on February 15, 2011. The agreement provides for a combination of the businesses of NYSE Euronext and Deutsche Börse under a new Dutch holding company Holdco and especially contains provisions regarding the transaction structure and corporate governance of Holdco after completion of the combination.

Prior to the entering into the business combination agreement, the necessary board resolutions of NYSE Euronext and Deutsche Börse were passed.

Table of Contents

On February 15, 2011, the NYSE Euronext board of directors determined that the business combination agreement and the transactions contemplated therein were fair to and in the best interests of the NYSE Euronext stockholders. In consequence, the NYSE Euronext Board of Directors approved the business combination agreement and the transactions contemplated thereby.

On February 14, 2011, the Deutsche Börse management board determined that the combination was in the best interest of the shareholders of Deutsche Börse, and approved the business combination agreement and the transactions contemplated thereby. On February 15, 2011, the Deutsche Börse supervisory board also determined that the combination was in the best interest of the shareholders of Deutsche Börse, and approved the combination.

On May 2, 2011, the original parties to the agreement agreed upon an amendment. Such amendment was preceded by respective resolutions of the management board of Deutsche Börse as well as the board of directors of NYSE Euronext.

9.2 Illustrative notes regarding the combination

Upon completion of the combination, NYSE Euronext and Deutsche Börse will become subsidiaries of Holdco.

9.2.1 The merger

The business of NYSE Euronext will be transferred by way of merging Pomme Merger Corporation with and into NYSE Euronext against the issuance of Holdco shares to the shareholders of NYSE Euronext. The merger will occur immediately after the completion of the exchange offer. In the merger, each NYSE Euronext share will be converted into the right to receive 0.47 Holdco shares.

The merger requires that (a) a majority of the NYSE Euronext shares outstanding at the record date and entitled to vote at the NYSE Euronext special meeting adopts the business combination agreement and approves the merger and (b) a majority of the shares represented and entitled to vote at the NYSE Euronext special meeting approves certain provisions of the Holdco articles of association that shall apply after the completion of the combination (such approvals collectively the **NYSE Euronext requisite vote**) (see page A-3 et seq. of Annex 2. It is currently envisaged that the day of the special meeting will be July 7, 2011. In any case, it will be held prior to the expiration of the offer acceptance period. In case of an extension of the offer acceptance period required by law (see section 5.3), the date of the special meeting may be postponed.

After the NYSE Euronext requisite vote has been passed, the completion of the merger will only be subject to the completion of the exchange offer and will therefore become effective immediately after the completion of the exchange offer.

9.2.2 The exchange offer

Deutsche Börse has currently issued 195 million Deutsche Börse shares. These include the approximately 9 million Deutsche Börse treasury shares. At the time of the merger, NYSE Euronext (disregarding approximately 13.6 million treasury shares that are held in treasury by NYSE Euronext and will not be exchanged in Holdco shares in connection with the merger, but including approximately 2.8 million NYSE Euronext shares that will presumably be issued in connection with Restricted Stock Units) will have issued a total of approximately 266 million NYSE Euronext shares. Thereof, approximately 1.6 million NYSE Euronext shares are held by NYSE Arca Inc., an indirect 100% subsidiary of NYSE Euronext; the latter NYSE Euronext shares will be exchanged in Holdco shares in connection with the merger.

Taking into account the exchange ratio of the merger of 0.47 Holdco shares for each NYSE Euronext share and the exchange ratio of the exchange offer of one Holdco share for each Deutsche Börse share, the issued share capital of the Bidder after completion of the combination would comprise approximately 320 million Holdco shares, in case the exchange offer is accepted regarding 100% of the Deutsche Börse

Table of Contents

shares (irrespective of the class D shares). Disregarding the Holdco shares held within the Holdco group after completion of the combination, former shareholders of Deutsche Börse would in this case hold approximately 60% and former NYSE Euronext shareholders would hold approximately 40% of the Holdco shares issued after completion of the combination.

In case that only the minimum condition described in section 14.1(a) is reached and, therefore, only the lowest number of Deutsche Börse shares which have to be tendered in order for the exchange offer to be completed is reached, and approximately 266 million NYSE Euronext shares are still exchanged for Holdco shares in the merger, the issued share capital of the Bidder after completion of the combination would comprise a total of approximately 271.3 million Holdco shares (irrespective of the class D shares). Disregarding the Holdco shares held within the Holdco group after completion of the combination, former Deutsche Börse shareholders would in this case hold approximately 52.5% and former NYSE Euronext shareholders would hold approximately 47.5% of the Holdco shares issued after completion of the combination.

9.2.3 Overview of the combination

The content of the business combination agreement is shown in detail in the section **Business Combination Agreement** on pages A-120 et seq. of Annex 2.

Following exchange rates are material in the context of the combination:

Each Deutsche Börse share will be exchanged into one Holdco share;

Each NYSE Euronext share will be exchanged into 0.47 Holdco share.

Deutsche Börse and NYSE Euronext each reserve the right to consider measures to be adopted jointly in the course of their combination which are expedient to enhance the financial position of their respective shareholders. Deutsche Börse, NYSE Euronext and the Bidder hereby clarify that any such jointly adopted measures will not include a change of the numerical exchange ratio for the Deutsche Börse shareholders (1 HoldCo share against 1 Deutsche Börse share) or for the NYSE Euronext shareholders (0.47 HoldCo shares for each share of NYSE Euronext). Deutsche Börse, NYSE Euronext and the bidder have made no determination as to whether to adopt any such measures.

Table of Contents

The following charts provides an overview of the structure of the combination:

(i) The combination

(ii) After the combination

9.3 Strategy and goals

The board of directors of NYSE Euronext (the **NYSE Euronext board of directors**) and the Deutsche Börse management board when evaluating the strategic reasons for the combination, that were decisive for their decision to sign the business combination agreement, considered a number of factors, including the following material factors:

9.3.1 Strategic Considerations

Overall, the business combination would provide a number of significant strategic opportunities to the bidder and its subsidiaries as well as its shareholders. The combined group would be a leader in a diverse set of large and growing businesses as described in more detail in section 10.1. As a pacesetter across the spectrum of capital markets services, the combined company would offer clients global scale, product innovation, operational and capital efficiencies, and an enhanced range of technology and market information solutions. Furthermore, the combination would create substantial strategic growth opportunities in Asia and Latin America. The expected substantial incremental efficiency and future

Table of Contents

appreciations would offer further growth opportunities to the combined group and its shareholders. The agreed well-balanced corporate governance structure would ensure continuity of management of Deutsche Börse and NYSE Euronext and thereby would facilitate an effective and timely integration of the two companies' operations. Deutsche Börse and NYSE Euronext expect the strategic opportunities (which are described in more detail on pages A-79 et seq. of Annex 2), among other things, to be as follows:

the combined company would be a leader in a diverse set of large and growing businesses, including derivatives, listings, cash equities, post-trade settlement and asset servicing, market data business as well as technology servicing;

the combined company would have a portfolio of leading brands, including NYSE Euronext, New York Stock Exchange, Euronext, Deutsche Börse, Eurex, NYSE Liffe, Clearstream and Stoxx;

the combined company's complementary products would allow the combined company to provide customers with a global derivatives platform, that it would be an industry-leading provider of technology services and information content and the world's largest venue for capital raising as well as a global pioneer in international post-trade infrastructure and settlement with significant revenues being drawn from outside of North America and Europe in those business areas; and

the business combination will over time create substantial incremental efficiency and growth opportunities.

9.3.2 Synergies

The NYSE Euronext board of directors and the Deutsche Börse management board further believe that the business combination will create significant cost savings and revenue synergies. As to the cost savings, it is expected that the combination will generate savings of approximately 400 million (\$532 million). The savings will come throughout the new organization. Examples are the development of one common IT Trading and Clearing Infrastructure, establishment of a globalized IT operating organization, creation of a central European Market Operations hub for the Trading and Clearing of the Cash and Derivatives business in Europe, combination of business organizations in the United States as well as leveraging global sourcing opportunities and refining support functions in accordance with the new combined organization. Furthermore, it is intended to consolidate the networks, and data centers in the United States, the sales and product development in Europe and the United States and the global real estate portfolio and locations. The synergy values are based on an exchange rate of \$1.33 per euro. The cost savings are expected to be realized at an annual run rate that will reach 100% by the end of the third year following completion of the combination.

In addition, it is expected that the combination will lead to at least 100 million (\$133 million) of annual revenue synergies, with the full run-rate being achieved at the end of the third year after completion of the combination through cross-selling and distribution opportunities, increased turnover from liquidity pool consolidation and new products, a progressive introduction of Deutsche Börse group's clearing capabilities and expanded scope for technology services and market data offerings.

With respect to further information on the synergies reference is made to the tables on pages A-88 et seq. of Annex 2.

9.3.3 Participation in Future Appreciation

The NYSE Euronext board of directors and the Deutsche Börse management board also considered the fact that the consideration under the exchange offer to which the shareholders of Deutsche Börse are entitled will be Holdco shares and, therefore, will allow NYSE Euronext stockholders and shareholders of Deutsche Börse to participate in potential further appreciation of the combined company after the combination.

Table of Contents

9.3.4 Governance

Furthermore, the NYSE Euronext board of directors and the Deutsche Börse management board considered that the governance arrangements provided by the business combination agreement would enable continuity of management and an effective and timely integration of the two companies' operations and reflect the fact that the transaction was structured as a business combination rather than an acquisition of NYSE Euronext by Deutsche Börse or vice versa.

The NYSE Euronext board of directors and the Deutsche Börse management board also considered a variety of risks and other potentially negative factors concerning the business combination agreement. They, each, concluded that potentially negative factors associated with the business combination were outweighed by the potential benefits that they expected NYSE Euronext and NYSE Euronext stockholders as well as Deutsche Börse and the shareholders of Deutsche Börse to achieve as a result of the business combination. Accordingly, they determined that the business combination agreement and the transactions contemplated thereby are in the best interest of the respective corporation and its shareholders.

9.4 Forthcoming acquisition of control over Deutsche Börse by the Bidder

If, as a result of this exchange offer, the Bidder acquires control over Deutsche Börse within the meaning of Section 29 para. 1 German Takeover Act, the Bidder will not be obliged to make a mandatory offer to the shareholders of Deutsche Börse pursuant to Section 35 para. 3 German Takeover Act.

10 Intentions of the Bidder

10.1 Future business activities of the Bidder and Deutsche Börse

Through the combination, Holdco will become the holding company of Deutsche Börse and NYSE Euronext. However, Deutsche Börse, NYSE Euronext and their respective subsidiaries will continue to conduct their respective businesses. It is not envisaged that after completion of the exchange offer, Holdco engages in activities other than activities typically conducted by a management holding company. However, it can not be excluded, that the combined group will be restructured in the future and Holdco will assume certain central functions within the combined group. For the time being, Holdco will, following the completion of the combination, be financed by dividend distributions from its participations in Deutsche Börse and NYSE Euronext. The expected effects on the assets and obligations of the Bidder are set forth in section 16. The future business activities of the Bidder are insofar interdependent with the intended future business activities with respect to Deutsche Börse and the combined group existing after the completion of the combination.

The integration planning is currently under discussion between the parties of the business combination agreement, the material results thereof are described in this section 10.

The combination will create a global derivatives platform, bringing together complementary products of Deutsche Börse group, NYSE Euronext and the affiliated companies of NYSE Euronext. The derivatives businesses of Eurex and NYSE Liffe complement each other with respect to interest rate products, with Eurex specializing in the long end of the interest rate curve and NYSE Liffe in the short end and equity index products where Eurex has products across the European Union and NYSE Liffe has country-specific ones. The intended combination of both derivatives businesses is expected to create a group which is an industry leader with a competitive size and scale compared with other major exchanges. The Bidder believes that combining these complementary venues will deliver innovative product and capital efficiency opportunities to its clients.

The combined cash trading and listings businesses are expected to create an exchange group with leading liquidity pools for European and U.S. equities. The combination of NYSE Euronext and the Frankfurt Stock Exchange will deliver a pan-European regulated and transparent equities market, while preserving the national role of the five exchanges in Europe: Amsterdam, Brussels, Frankfurt, Lisbon and Paris. In

Table of Contents

addition, the Bidder believes that NYSE Euronext's listings franchise, already home to some of the world's leading global brands, will be further strengthened by the increased global profile of the new group, strengthening its status as one of the most attractive capital raising venues for companies from around the world.

Based upon Deutsche Börse's risk management and clearing expertise and its suite of leading securities financing, settlement and custody services the Bidder intends to accelerate growth based on the combined group's broader coverage of asset classes and regions. The Bidder intends to extend cash and derivatives clearing and particularly risk management services beyond the initial asset class coverage of the combined group in order to provide customers with significantly improved cost and capital efficiency opportunities. In addition, it is to be expected that Holdco will benefit from Clearstream's strong and growing presence in Asia.

Both Deutsche Börse and NYSE Euronext are providers of technology solutions that power the trading operations of all the Deutsche Börse and NYSE Euronext markets, as well as other exchanges around the world. In addition, through its NYSE Technologies subsidiary, NYSE Euronext provides comprehensive transaction, data and infrastructure services and managed solutions for buy-side, sell-side as well as exchange communities. The Bidder intends to capitalize on the combined technology and service expertise as well as expanded potential client base to deliver an ever wider range of innovative solutions that optimize trading efficiency for clients.

The combination will also bring together market data & analytics services and the index portfolio. The Bidder expects to establish itself as the leading vendor for low latency price information, value-adding indices and benchmarks and trading-related content and analytics. The Bidder intends to further strengthen this position, for example, by rolling out new products across the combined group based on the range of existing and newly developed indices.

The Bidder expects the combination to release additional product innovation potential and intends to combine complementary product lines to provide a global and extensive breadth of product offerings based on a strong portfolio of brands. The Bidder intends to utilize the additional innovation potential.

10.2 Use of assets and future obligations of Deutsche Börse

The Bidder expects to realize cost savings from the combination, principally from economies of scale in information technology, clearing operations, market operations and corporate center functions. In addition, the Bidder expects further product innovation and cross-selling opportunities between the global cash and derivatives businesses of Deutsche Börse group, NYSE Euronext and the affiliated companies of NYSE Euronext.

The combination is expected to generate annual cost savings of 400 million (or \$ 532 million), principally in information technology systems, clearing and market operations as well as in corporate administration and support functions of the company. In addition, annual revenue synergies of at least 100 million (or \$133 million) are expected through cross selling and distribution opportunities, increased turnover from liquidity pool consolidation and new products, a progressive introduction of Deutsche Börse's clearing capabilities and expanded scope for technology services and market data offerings (see also the information in section 9.3.2). The information regarding synergy values is based on an exchange rate of \$1.33 per euro. The Bidder may contemplate further actions in respect of the business activities of Deutsche Börse in order to achieve this.

There are no intentions to divest any of Deutsche Börse group's businesses or assets, nor any measures intended that would lead to a significant increase in Deutsche Börse group's liabilities beyond the normal course of business, except for any measures described in this section 10.

Table of Contents

10.3 Registered office of Deutsche Börse, location of material parts of the business of Deutsche Börse

The Bidder has no operating history. The markets and geographical presence of the combined group will be those of Deutsche Börse group, NYSE Euronext and the affiliated companies of NYSE Euronext. The geographical presence of Deutsche Börse group will therefore remain unchanged.

The combined group will have dual headquarters in Frankfurt and New York. The seat of Deutsche Börse will remain unchanged.

Pursuant to the business combination agreement, Holdco, after completion of the combination, will have the following five globally operating divisions (the global hub of a global division of Holdco means the location from where such global division is managed):

Global Cash Trading and Listings with a global hub in New York and key locations in (in alphabetical order) Amsterdam, Brussels, Frankfurt, Lisbon and Paris;

Global Derivatives with a global hub in Frankfurt and key locations in (in alphabetical order) Amsterdam, Chicago, London, New York and Zurich;

Global Settlement and Custody with a global hub in Frankfurt and with key locations in (in alphabetical order) Luxembourg, New York, Porto, Prague and Singapore. The office of the divisional head will be located in Luxembourg;

Technology Services/IT with a global hub in New York and with key locations in (in alphabetical order) Belfast, Frankfurt, London, Luxembourg, Paris and Prague. The office of the divisional head will be located in Paris; and

Market Data and Analytics with a global hub in Frankfurt and with key locations in (in alphabetical order) London, New York, Paris and Zurich.

As far as it is necessary to implement such structure, the bidder intends to relocate certain business sites of NYSE Euronext and Deutsche Börse group; however, the key locations of Deutsche Börse group will be maintained.

All national exchanges are operated in accordance with the applicable regulatory frameworks, the key business lines will remain in the present locations and the self-reliance of the national exchanges and brand names will be maintained.

10.4 Deutsche Börse management board and Deutsche Börse supervisory board

At the time of publication of this exchange offer document, there are no intentions of the Bidder on the future composition of the Deutsche Börse management board and the Deutsche Börse supervisory board.

10.5 Employees, terms and conditions of employment and employee representations of Deutsche Börse

The success of a combination of the activities of Deutsche Börse group, NYSE Euronext and the affiliated companies of NYSE Euronext depends to a large extent on the knowledge, experience, commitment and creativity of the employees of both groups. The Bidder will seek to promote the integration of employees of Deutsche Börse group, NYSE Euronext and the affiliated companies of NYSE Euronext. However, as a result of the combination and the envisaged creation of synergies there will be staff reductions, which shall be carried out fairly and adequately in an appropriate process. However, at this stage no considerations exist with respect to particular functions or locations affected within the combined group. The Bidder intends that the staff reductions will be carried out in a socially acceptable manner.

The business combination agreement provides that for the one-year period following completion of the combination, Holdco will provide to each individual who is employed as of the effective time of the combination by Deutsche Börse or its subsidiaries, and who remains employed by

Deutsche Börse or its

Table of Contents

subsidiaries, with the following (except in the case of employees whose employment is governed by a collective bargaining or similar agreement):

base salary in an amount no less than the base salary provided to the employee immediately prior to the combination;

an annual bonus opportunity that is no less favorable than the annual bonus opportunity provided to the employee immediately prior to the combination;

other compensation opportunities and employee benefits that are no less favorable in the aggregate than those provided to the employee immediately prior to the combination;

severance benefits in the event of employment termination in amounts and on terms and conditions no less favorable in the aggregate to such employee than he or she would have received under the severance plans, programs, policies and arrangements applicable as of the date of the business combination agreement; and

defined contribution retirement plan benefits no less favorable than those provided as of the date of the business combination agreement.

With respect to employees who remain employed after the completion of the combination, Holdco has agreed to (1) waive all pre-existing conditions, exclusions and waiting periods regarding participation and coverage requirements, (2) provide each employee and the employee's eligible dependents with credit for any co-payments and deductibles paid prior to the effective time under the applicable NYSE Euronext or Deutsche Börse plan in satisfying deductible or out-of-pocket requirements under the new Holdco plans for the year in which the combination occurs and (3) recognize service of employees with Deutsche Börse, including severance plans (including for purposes of eligibility to participate, vesting credit, and entitlement to benefits, but excluding for purposes of benefit accrual under final average pay defined benefit plans or to the extent a duplication of benefits would result), in each case to the same extent waived, credited, or recognized under the applicable Deutsche Börse plans prior to the completion of the combination.

Holdco to the extent legally permitted will undertake a review of Deutsche Börse and NYSE Euronext's benefits plans within the one-year period after the completion of the combination with the intent to develop new plans for employees that will not discriminate between NYSE Euronext employees, on one hand, and Deutsche Börse employees, on the other hand, and treat similarly situated employees of NYSE Euronext and Deutsche Börse on a substantially equivalent basis, taking into account factors such as the employees' duties, geographic location, tenure, qualifications and abilities.

Other changes in the employment terms and conditions as well as in the employment representations of Deutsche Börse are not intended.

10.6 Intended structural measures

The Bidder intends, as soon as possible after the completion of the exchange offer, to effectuate one or more corporate reorganization measures regarding Deutsche Börse. This will create the legal requirements to integrate Deutsche Börse as far as possible into the Holdco group formed by the combination. It is the intention of the restructuring to put the Bidder in the position, within the legal limits and irrespective of minority shareholders, who may still hold shares after completion of the exchange offer, to dominate Deutsche Börse as far as possible and/or, as the case may be, to eliminate such minority shareholding.

The intended restructuring measures include entering into a domination agreement (*Beherrschungsvertrag*) or a combination of a domination agreement and a profit and loss transfer agreement (*Gewinnabführungsvertrag*) pursuant to Sections 291 *et seq.* AktG with Deutsche Börse as the controlled company and, as part of such affiliation agreements, with Holdco ordinary shares being offered to the outside shareholders of Deutsche Börse as consideration (*Abfindung*) pursuant to Section 305 para.

Table of Contents

2 AktG. In addition, or alternatively, the Bidder intends the mandatory squeeze-out of the remaining minority shareholders of Deutsche Börse in return for payment of adequate compensation (**squeeze-out**) if, after completion of the exchange offer or any time thereafter, the Bidder holds, directly or indirectly, at least the required participation of 95% in the registered share capital of Deutsche Börse. Such squeeze-out may be carried out based on a resolution by the general shareholders' meeting pursuant to Sections 327a *et seq.* AktG or a petition before a court seeking a court order on the transfer of the shares in accordance with Sections 39a *et seq.* German Takeover Act. The aforementioned restructuring measures are herein referred to as the **restructuring after completion** .

In the course of the restructuring after completion, Deutsche Börse shareholders who do not exchange their shares in the exchange offer, will receive, or will be offered, consideration in accordance with the applicable laws. Due to the statutory legal framework applicable to the restructuring after completion, which is described below in more detail in sections 10.6.1 to 10.6.3, such consideration may have a different amount or form than the consideration that those shareholders would have received had they exchanged their shares in the exchange offer.

Thereby, it is intended to structure the restructuring after completion in a way that the remaining holders of Deutsche Börse shares to the extent legally permissible each receive at a maximum the same number of Holdco shares per Deutsche Börse share(s) that they would have received in the exchange offer had they tendered their Deutsche Börse shares, and at a maximum a consideration having the same value (without taking into account possible different tax treatment or applicable withholding tax regulations), respectively. Due to the reasons described below in more detail, the amount or the form of the consideration may be different, in particular be less in value. Furthermore, in the event that the shares of Holdco lose value after the completion of the combination, there may be no obligation of the Bidder, in the course of the restructuring after completion, to grant to the Deutsche Börse shareholders who did not tender their shares in the exchange offer the higher consideration received by the Deutsche Börse shareholders who exchanged their shares in the exchange offer into ordinary shares of Holdco. U.S. holders of Deutsche Börse shares will be included in any such restructuring after completion and will be treated the same as other Deutsche Börse shareholders in such restructuring.

The Bidder reserves the right to amend the structure of the restructuring after completion, if appropriate. This includes, among others, the determination whether the domination agreement and/or the profit and loss transfer agreement with Deutsche Börse as the controlled company will be entered into by the Bidder itself or, instead of the Bidder, by a direct or indirect wholly owned subsidiary of the Bidder in the legal form of a German stock corporation or a German *societas europaea* (SE), as well as the right to contribute or otherwise transfer all or some of its Deutsche Börse shares to the latter or another wholly owned subsidiary.

In the context of the business combination agreement, the Deutsche Börse boards have agreed in principle to the conclusion of a domination agreement or a combination of a domination agreement and profit and loss transfer agreement with Deutsche Börse following the completion of the combination as described above. Furthermore, if the Bidder holds 95% or more of the issued share capital of Deutsche Börse after completion of the exchange offer or any time thereafter, the Deutsche Börse boards also agreed to the implementation of a squeeze-out.

10.6.1 Domination agreement or combination of domination agreement and profit and loss transfer agreement

Entering into a domination agreement or a combination of a domination agreement and profit and loss transfer agreement requires, among others, the consent of at least 75% of the share capital represented in the respective resolution at a general shareholders' meeting of Deutsche Börse; the dominating entity is entitled to vote at such resolution also with respect to Deutsche Börse shares held by it. Such agreement would become effective upon registration in the commercial register of Deutsche Börse. Under a domination agreement, the controlled company submits itself to the direction of the controlling company.

Table of Contents

The controlling company would be authorized to issue binding orders to the Deutsche Börse management board. Under a profit and loss transfer agreement, the controlled company undertakes to transfer its entire profits to the controlling company. In both cases, the controlling company is obliged to make up for any annual net loss incurred by the controlled company during the term of the agreement (Section 302 AktG). A domination agreement and a profit and loss transfer agreement must provide for a recurrent annual cash payment as compensation for the minority shareholders (Section 304 AktG). Such compensation will represent a variable or fixed minimum dividend (*Garantiedividende*) in the case of a domination agreement and a variable or fixed annual compensation payment (*Ausgleichszahlung*) in the case of a profit and loss transfer agreement or a combination of a domination agreement and profit and loss transfer agreement. The variable minimum dividend or the variable annual compensation payment would be calculated on the basis of the actual dividends distributed by the Bidder in the future.

The amount of the recurrent cash payment is determined by the respective parties to the agreement in due consideration of the specifications as set out in Section 304 para. 2 AktG and reviewed by a court-appointed auditor. It could deviate from the average of the past dividends paid by Deutsche Börse and it could also be higher or lower. During the term of the agreement, the recurrent cash payment would be payable annually if, at that time, Deutsche Börse shares are still held by minority shareholders; in the case of a domination agreement which is not combined with a profit and loss transfer agreement, the recurrent cash payment is a minimum dividend which is only payable to the extent the actual dividend paid by Deutsche Börse to its minority shareholders falls short of the amount of such minimum dividend.

In addition, in case of entering into a domination agreement or a combination of a domination agreement and profit and loss transfer agreement the controlling company would be obliged to offer to all minority shareholders of Deutsche Börse to acquire all Deutsche Börse shares held by them in exchange for an adequate compensation (Section 305 AktG). Such an offer must have a duration of at least two months following the day of publication of the registration of the domination agreement and/or profit and loss transfer agreement in the commercial register of Deutsche Börse by the registry court. Such an offer would constitute a tender offer under U.S. law that would need to comply with certain rules under Regulation 14E under the Exchange Act, but such tender offer would not be subject to Section 14(d) of the Exchange Act or the rules or regulations of the SEC thereunder. In accordance with Section 305 para. 2 no. 1 AktG, the Bidder will compensate the shareholders of Deutsche Börse selling their Deutsche Börse shares under a domination agreement or a combination of a domination agreement and profit and loss transfer agreement entered into by Deutsche Börse by granting Holdco ordinary shares, except for fractional amounts which may be settled in cash.

Likewise, in case the domination agreement and/or the profit and loss transfer agreement is entered into between Deutsche Börse as the controlled company and a direct or indirect wholly owned subsidiary of the Bidder in the legal form of a German stock corporation or a German *societas europaea* (SE) as the controlling company instead of by the Bidder, in accordance with Section 305 para. 2 no. 2 AktG, the shareholders of Deutsche Börse selling their Deutsche Börse shares under such agreement shall be granted Holdco ordinary shares as compensation, again except for fractional amounts which may be settled in cash.

Pursuant to Section 305 para. 3 AktG, the exchange ratio for which Deutsche Börse shareholders would be offered to exchange their Deutsche Börse shares into Holdco ordinary shares under a domination agreement or a combination of a domination agreement and a profit transfer agreement is deemed adequate if it is equal to the exchange ratio that would apply in connection with a statutory merger of the two companies. For purposes of determining such exchange ratio, which has to be reviewed by a court-appointed auditor, an expert company valuation of each of Deutsche Börse and the Bidder would need to be performed for which the circumstances at the date of the resolution of Deutsche Börse's shareholders' meeting adopting the domination agreement or combination of a domination agreement and a profit transfer agreement will be decisive. While there are no compulsory statutory requirements for the method of such company valuation, a valuation on the basis of discounted future earnings (*Ertragswertverfahren*) in accordance with the Principles for the Preparation of Business Valuations under IDW Standard S 1

Table of Contents

of the Institute of Public Auditors in Germany e.V. (*Institut der Wirtschaftsprüfer in Deutschland e.V.*) is generally accepted for such purpose. In addition, according to case law, the consideration to be offered under such agreement may generally not be less than the volume weighted average stock price of Deutsche Börse shares for the three months period prior to the announcement of such domination agreement or combination of a domination agreement and a profit and loss transfer agreement. The exchange ratio so determined may therefore deviate from the exchange ratio underlying the exchange offer. The adequacy of the amount of the recurrent cash payment pursuant to Section 304 AktG and the compensation pursuant to Section 305 AktG may, upon request by shareholders of Deutsche Börse, be reviewed in a judicial award procedure (*Spruchverfahren*).

10.6.2 Corporate squeeze-out

If, after completion of the exchange offer or any time thereafter, at least 95% of the registered share capital of Deutsche Börse belong (within the meaning of Section 327a AktG) to the Bidder or, as the case may be, a subsidiary of the Bidder, the general shareholders meeting of Deutsche Börse may upon request of the Bidder or its subsidiary pursuant to Sections 327a et seq. AktG, resolve upon the transfer of the Deutsche Börse shares of the other shareholders (minority shareholders) of Deutsche Börse to the Bidder or such subsidiary in return for payment of adequate cash compensation (*angemessene Barabfindung*) (the **corporate squeeze-out**). The resolution may be adopted by a simple majority of the votes cast; also the bidder and, as the case may be, the respective subsidiary of the bidder, are entitled to vote at this resolution with respect to Deutsche Börse shares held by them. The corporate squeeze-out would not constitute a tender offer under U.S. law, and therefore would not be subject to Section 14(d) or 14(e) of the Exchange Act or the rules or regulations of the SEC thereunder.

In case of a corporate squeeze-out, such compensation must be paid in cash and would therefore be different from the form of consideration offered in the exchange offer. The amount of the cash compensation which the remaining Deutsche Börse shareholders would receive in connection with a corporate squeeze-out would have to be determined on the basis of an expert company valuation of Deutsche Börse for which the circumstances at the date of the resolution of Deutsche Börse's shareholders meeting adopting the corporate squeeze-out would be decisive, and would be reviewed by a court-appointed auditor. Also for purposes of such business valuation a valuation based on the discounted future earnings (*Ertragswertverfahren*) in accordance with the Principles for the Preparation of Business Valuations under IDW Standard S 1 of the Institute of Public Auditors in Germany e.V. (*Institut der Wirtschaftsprüfer in Deutschland e.V.*) is generally accepted for such company valuation with the amount of the adequate compensation to be generally not less than the volume weighted average stock price of Deutsche Börse shares for the three months period prior to the announcement of the squeeze-out. Therefore, such consideration could deviate from the amount of the consideration offered in the exchange offer and may also be higher or lower. The adequacy of the amount of the cash compensation may upon request by former shareholders of Deutsche Börse, whose shares were transferred in the squeeze-out, be reviewed in a judicial award procedure (*Spruchverfahren*). Execution of the corporate squeeze-out would end the listing of the Deutsche Börse shares.

In the context of the corporate squeeze-out described above, the following should be noted:

The German legislator is currently preparing a new legislation called Third Amendment of the Act on Corporate Reorganisations (*Drittes Gesetz zur Änderung des Umwandlungsgesetzes*) which is expected to come into force still in 2011. The draft of such new legislation presented by the German federal government and dated October 1, 2010 (BT-Drucks 17/3122) provides, among other things, for the possibility to perform, under certain circumstances, a special form of a corporate squeeze-out upon request of a principal shareholder holding at least 90% of the share capital of a German stock corporation (instead of 95% as required under the standard form of a corporate squeeze-out).

The Bidder reserves the right to assess whether it (or alternatively, as the case may be, a subsidiary) will make use of such special form of a corporate squeeze-out in relation to Deutsche Börse following a

Table of Contents

completion of the exchange offer, if such new legislation is implemented and the prerequisites for such special form of a corporate squeeze-out are met after completion of the exchange offer or any time thereafter.

10.6.3 Takeover squeeze-out

If, after completion of the exchange offer, at least 95% of the registered share capital of Deutsche Börse belong (within the meaning of Section 39a German Takeover Act) to the Bidder, the Bidder may petition in accordance with Section 39a German Takeover Act the relevant District Court (*Landgericht*) in Frankfurt am Main until three months from the expiration of the offer acceptance period that the remaining Deutsche Börse shares shall be transferred to the Bidder by way of a court order, provided that such application provides for an adequate compensation (*Abfindung*) (the **takeover squeeze-out**). Such petition may also be made prior to the completion of the exchange offer if, based on the number of Deutsche Börse shares for which the exchange offer has been accepted, at least 95% of the registered share capital of Deutsche Börse which is entitled to voting rights will belong (within the meaning of Section 39a German Takeover Act) to the Bidder upon the subsequent completion of the exchange offer. The takeover squeeze-out would not constitute a tender offer under U.S. law, and therefore would not be subject to Section 14(d) or 14(e) of the Exchange Act or the rules or regulations of the SEC thereunder.

The takeover squeeze-out provides the Bidder with an alternative to the corporate squeeze-out. As opposed to the corporate squeeze-out, pursuant to Section 39a para. 3 German Takeover Act, the compensation that the remaining Deutsche Börse shareholders would receive in connection with a takeover squeeze-out in exchange for their Deutsche Börse shares would be, at the election of each individual Deutsche Börse shareholder, either Holdco ordinary shares (because Holdco ordinary shares are offered as consideration under the exchange offer) or cash. The consideration offered to the shareholders of Deutsche Börse under the exchange offer will be deemed to constitute adequate compensation also for the purposes of the takeover squeeze-out if the exchange offer resulted in the acquisition of at least 90% of Deutsche Börse's share capital which was subject to the exchange offer.

The implementation of the takeover squeeze-out would also end the listing of the Deutsche Börse shares.

10.7 Use of assets and future obligations of the bidder, seat and location of material parts of the business of the bidder, the employees of the bidder and their representations, the members of the management bodies of the bidder and changes to employment terms and conditions of the bidder.

The intended changes regarding the board of directors and the global executive committee of the Bidder are described in section 6.4.2 and section 6.4.3. The intended restructuring measures are described in section 10.6. With respect to the impact of the completion of combination on the assets, financial and earnings positions of the bidder reference is made to the information contained in section 16.

Except for the aforementioned changes, the bidder does not intend changes with respect to seat and location of material parts of the business of the bidder, use of assets of the bidder, future obligations of the bidder, employees of the bidder and their representation, the members of the management bodies of the bidder and changes to employment terms and conditions of the bidder.

11 Explanation of determination of the offer consideration

Pursuant to Section 31 para. 1 sentence 1 German Takeover Act, the Bidder has to offer the shareholders of Deutsche Börse adequate consideration for their shares.

11.1 Admittance to trading on organized market and liquidity of Holdco offer shares

The Bidder will, prior to the time of delivery of the Holdco offer shares to the shareholders of Deutsche Börse under the exchange offer and to the shareholders of NYSE Euronext, in the context of the merger, apply for admission of its ordinary shares, including the Holdco offer shares, to trading on the regulated market segment (*regulierter Markt*) of the Frankfurt Stock Exchange (*Frankfurter Wertpapierbörse*) and, simultaneously, in the sub-segment thereof with additional post-admission obligations (Prime Standard), as well as on the regulated market of Euronext Paris (*marché réglementé de Euronext à Paris*) and on the New York Stock Exchange.

Table of Contents

According to the rules of the Frankfurt Stock Exchange (*Frankfurter Wertpapierbörse*) the admission of the ordinary shares of the Bidder to trading on the regulated market segment of the Frankfurt Stock Exchange and, simultaneously, in the sub-segment thereof with additional post-admission obligations (Prime Standard) can principally take place only after issuance of such shares; the Bidder will submit a corresponding application for admission without undue delay following the issuance of the Holdco offer shares. In contrast, the admission of the ordinary shares of the Bidder to trading on the regulated market segment of Euronext Paris and on the New York Stock Exchange can take place before issuance of the shares that are supposed to be admitted with the proviso that the admission will become effective upon the subsequent official notice of the issuance of the shares. The Bidder will submit an application for admission both with Euronext Paris and the New York Stock Exchange prior to the completion of the exchange offer.

The Bidder will take all necessary actions on his side in order to ensure that the Holdco offer shares, which the accepting shareholders of Deutsche Börse will receive upon settlement of the exchange offer, will have been admitted to trading (listed) on a regulated market within the meaning of Section 2 para. 7 German Takeover Act at the time of delivery to the shareholders of Deutsche Börse having accepted the exchange offer. Therefore, the prerequisite pursuant to Section 31 para. 2 sentence 1 WpÜG with respect to the admittance to trading on organized market is met.

Commencement of trading on the Frankfurt Stock Exchange, Euronext Paris and the New York Stock Exchange is expected to occur immediately after delivery of the Holdco offer shares to the shareholders of Deutsche Börse having accepted the exchange offer.

The completion of the exchange offer is subject, among others, to the condition that the minimum acceptance threshold described in section 14.1(a) is reached or exceeded. After adoption of the NYSE Euronext requisite vote, the completion of the merger will only be subject to the completion of the exchange offer and will take place immediately after the completion of the exchange offer. In addition, the completion of the exchange offer is subject to the adoption of the NYSE Euronext requisite vote. Hence, it is expected that, upon completion of the exchange offer, the completion of the merger will occur and the NYSE Euronext shareholders will become Holdco shareholders.

Both Deutsche Börse and NYSE Euronext have a significant free float. For example, Deutsche Börse is member of the DAX-index which measures the development of the thirty companies on the German equities market with highest liquidity and the largest free float capitalisations. In view of the above statements, Holdco shares and especially the Holdco offer shares offered under this exchange offer will be liquid shares within the meaning of Section 31 para. 2 German Takeover Act.

11.2 Minimum consideration

Pursuant to the relevant provisions of the German Takeover Act Offer Regulation, the minimum consideration is the higher of the following prices:

- (i) Pursuant to Section 5 German Takeover Act Offer Regulation, the consideration must be at least equal to the weighted average domestic stock exchange price of Deutsche Börse shares during the last three months prior to the publication of the decision to make the exchange offer as of February 15, 2011 (the **3-month average price**).
- (ii) Pursuant to Section 4 German Takeover Act Offer Regulation (in conjunction with Section 31 para. 6 German Takeover Act), the consideration must be at least equal to the highest consideration paid or agreed to be paid by the Bidder, persons acting jointly with the Bidder or their subsidiaries for the acquisition of Deutsche Börse shares (or the entry into agreements which entitle them to acquire Deutsche Börse shares) within the last six months prior to the publication of this exchange offer document.

The 3-month average price as calculated by BaFin as of the record date February 14, 2011, and notified to the Bidder is 54.16 per Deutsche Börse share.

In the relevant period neither the Bidder, nor persons acting jointly with it, nor their subsidiaries acquired Deutsche Börse shares or entered into agreements which entitled them to acquire Deutsche Börse shares for consideration.

Table of Contents

Therefore, the minimum consideration payable pursuant to Sections 4 and 5 of the German Takeover Act Offer Regulations is 54.16 per Deutsche Börse share.

11.3 Non-existence of reference stock exchange price of Holdco / IDW S 1 2008 valuation of Holdco

Pursuant to Section 7 German Takeover Act Offer Regulation in connection with Sections 5 and 6 German Takeover Act Offer Regulation, the value of the consideration granted under an offer is generally to be determined by reference to the average stock exchange price of the offered shares during the last three months prior to the publication of the decision to make a takeover offer.

However, Holdco shares have not been listed or traded on a stock exchange in the past. Therefore, the minimum consideration in the exchange offer cannot be determined on the basis of stock exchange prices of Holdco's shares pursuant to Sections 5 para. 1, para. 2, 6 para. 1, para. 2 German Takeover Act Offer Regulation. Instead, in corresponding application of Section 5 para. 4 German Takeover Act Offer Regulation, such determination has to be made on the basis of a formal valuation of Holdco. Such a valuation has been prepared on the basis of a business plan of Holdco assuming that the combination will be completed as proposed, on a *as if* basis.

The Bidder has retained Warth & Klein Grant Thornton AG, Wirtschaftsprüfungsgesellschaft, Düsseldorf (**Warth & Klein**), to prepare a formal valuation of Holdco on a *as if* basis and to determine whether the value of one Holdco offer share offered under the exchange offer in exchange for one Deutsche Börse share is equal to or exceeds the relevant 3-month average price.

Warth & Klein has duly prepared a formal valuation of Holdco in accordance with the accepted professional Principles for the Preparation of Business Valuations under IDW Standard S 1, as amended in 2008, of the Institute of Public Auditors in Germany e.V. (*Institut der Wirtschaftsprüfer in Deutschland e. V.*) (**IDW S 1 2008**). On the basis of IDW S 1 2008, Warth & Klein has rendered its valuation in the capacity of a neutral expert. The valuation of Holdco therefore constitutes an objectified value.

Based on this valuation, Warth & Klein has confirmed that the value of one Holdco offer share offered under the exchange offer in exchange for one Deutsche Börse share exceeds the 3-month average price.

The intrinsic value was derived on the basis of discounted future earnings (*Ertragswertverfahren*) and is based on the earnings expectations of the managements of Deutsche Börse and NYSE Euronext. As explained above, the valuation solely served the purpose of complying with the minimum pricing rules of the German Takeover Act and to document such compliance. This assessment gives neither a prediction about the future share price of Holdco as of the listing of its shares for trading on the stock exchange or their delivery to the shareholders of Deutsche Börse who have accepted the exchange offer, nor about the development of the share price at any other time thereafter. Any share price development depends on many external circumstances, especially on the change of expectations about the future over time, which cannot be predicted at all by the valuation expert. Instead, it is in the nature of expectations regarding future developments that these are uncertain and based solely on currently available insights and assessments.

The valuation is not a recommendation for shareholders and their decision-making process in regard to the exchange offer. Warth & Klein does not assume any responsibility that the information, any assessments and any of the conclusions presented in this section 11.3 of this exchange offer document are sufficient or complete for the purposes of the reader, in particular regarding the decision to acquire or to sell shares of Deutsche Börse, NYSE Euronext or Holdco.

As background for its analysis, Warth & Klein in particular (1) reviewed business plans for Holdco for the years 2011-2013; (2) reviewed business plannings for NYSE Euronext and Deutsche Börse which take into account certain publicly available research analysts' financial forecasts endorsed by the respective management and extrapolations from such forecasts as directed by the respective management until 2015; (3) discussed with key members of Deutsche Börse's and NYSE Euronext's management the

Table of Contents

respective business plans; (4) reviewed and analyzed information relating to the historical and current operations of each Deutsche Börse and NYSE Euronext; (5) reviewed various documents related to the organization, corporate proceedings, assets and liabilities of Deutsche Börse and NYSE Euronext and (6) reviewed other publicly available economic, industry and company information.

11.3.1 Valuation fundamentals

The value of the equity capital of a commercial enterprise is derived from the future, uncertain cash flows which the provider of equity capital can anticipate. Such a value, therefore, can be calculated as the present value of future surpluses of revenues over expenses of the enterprise.

This requires a forecast of the expected surpluses of the enterprise. The basis for valuing the earnings, therefore, is normally the business planning which covers at least a period of three to five planned years, as well as an estimate of sustained earnings which can be considered to be achievable on a permanent basis for the period of time after the planned years. The basis for such a forecast of future earnings and expenditures consists of the adjusted results generated in the past. The forecasts can be checked with regard to plausibility by a comparison with the past, developments of other enterprises as well as the development in the industry, the market and the overall economy.

However, any forecast involves uncertainty. When determining a present value of forecast cash flows, it is, therefore, necessary to take into account that providers of equity capital normally prefer a certain, positive cash flow to an equally high, uncertain cash flow. This risk aversion can be reflected by increasing the risk free interest rate used to calculate the present value by a risk premium.

The principles about how such forward looking enterprise valuations are to be carried out are set forth in the IDW S 1 2008. In order to value Holdco, Warth & Klein conducted a discounted earnings valuation pursuant to IDW S 1 2008.

As an alternative to the applications of the discounted earnings method, it is also generally possible to conduct valuations using the discounted cash flow (**DCF**) method under IDW S 1 2008. The discounted earnings method and the DCF method are based on the calculation of the value of capital and, thus, on the same conceptual basis. When applying the same premises, especially with logical planning, consisting of planned income statements, planned balance sheets and planned cash flow statements, both methods come to the same result. Therefore, Warth & Klein has not provided a presentation of the discounted cash flow.

Since neither a liquidation of the enterprise is contemplated, nor is it apparent that the liquidation value could be relevant as a possible minimum value, Warth & Klein has not determined the liquidation value.

The valuation of the substance under procurement aspects leads to the so-called reconstruction value of the enterprise which is only a partial reconstruction value due to the general lack of intangible assets. This substance value has no independent informative value when determining the total value of an enterprise as a going concern. Therefore, Warth & Klein also did not determine a substance value.

It is common practice in mergers and acquisitions to determine indicative enterprise values or ranges of values by means of multipliers which are considered to be common in the industry. When carefully conducting such valuations, in the first place, an analysis of the past and also the expected earnings situation of the subject of the valuation are required. Secondly, the multipliers must be derived from an analysis of the valuations of comparable enterprises. Such multiplier valuations represent only simplified, generalized discounted earnings valuations. Therefore, a comprehensive, analytical valuation using the discounted earnings method, as in the present case, is preferable.

To the extent that stock exchange prices for shares in the enterprise are available, these prices must be referred to under IDW S 1 2008 when valuing an enterprise in order to assess the plausibility of the enterprise value determined under the above principles. The shares in Holdco themselves are not (yet) listed on a stock exchange, but both the shares in Deutsche Börse as well as the shares in NYSE Euronext are traded on stock exchanges. Therefore, a deemed market capitalization of Holdco can generally be

Table of Contents

derived from the stock exchange prices of Deutsche Börse and NYSE Euronext. It is for this reason that Warth & Klein verified the equity value of Holdco determined with the discounted earnings method on the basis of the market capitalization of NYSE Euronext and Deutsche Börse, taking into account the synergies and costs of implementation expected from the combination.

Peculiar difficulties during the valuation work did not arise.

11.3.2 Valuation approach

The valuation of Holdco, including the synergies, was determined by Warth & Klein on the basis of the planned earnings for Deutsche Börse and for NYSE Euronext using the discounted earnings method in accordance with IDW S 1 2008. The valuation of Holdco consists of the discounted earnings value plus special values for participations, specific assets held for sale and the corporate tax credit of Deutsche Börse. Due to the international nature of the entire combination, Warth & Klein has not included an explicit illustration of German personal income taxes typified tax circumstances of the shareholders have been taken into account indirectly; see, IDW S 1 2008, no. 30).

The basis for the valuation is a consolidated business plan of Holdco for the years 2011 through 2013, including the expected synergies and costs of implementation. This plan has been derived from the provided stand-alone business plans for NYSE Euronext and Deutsche Börse. Those stand-alone business-plans, which take into account certain publicly available research analysts financial forecasts endorsed, by the respective management and extrapolations from such forecasts as directed by the respective management until 2015. Warth & Klein has assumed that 100% of Deutsche Börse shares and NYSE Euronext shares will be exchanged for Holdco shares in accordance with the agreements reached in the business combination agreement. In the case of a lower acceptance quota by the shareholders of Deutsche Börse, Holdco would own less than 100% of Deutsche Börse and Holdco also would issue a lower number of Holdco shares. Because the value per share which is contributed to Holdco by a NYSE Euronext shareholder is lower than the value per share contributed by a Deutsche Börse shareholder (in the business combination agreement NYSE Euronext is valued with a premium, see pages A-80 et seq. of Annex 2) a lower value per share of Holdco would be the result. For this reason, Warth & Klein has also examined a scenario with a 75% acceptance quota which is the lowest possible quota under the offer conditions.

The consolidated business plan of Holdco represents generally the total of the stand-alone planning for Deutsche Börse, for NYSE Euronext and the synergies and costs of implementation expected from the combination including the costs of implementation. The synergies expected by the parties of the combination resulting from the business combination including the costs for implementation were first determined at an early stage based on first estimates. The valuation is based on synergies and costs for implementation, which have been identified and calculated in a second phase of the project of joint project teams.

With regard to the planning assumptions for the development of the operational business, the responsibility lies exclusively with both partners to the combination. Warth & Klein has only checked the plausibility of the operational planning in discussions with the respective management. Since the planning of the synergies is expected and communicated generally by both combination partners and, therefore, is understandable, although not confirmed by specific individual measures in the early phase of the combination, they have taken into account the low degree of specification by considering two scenarios with regard to the synergies. They have assumed that the synergies are achieved either at 75% or 100%. Independent of the possible realization of the synergies, Warth & Klein assumed that Holdco will be able to enforce (for example via a domination agreement) the measures which are necessary therefore.

Warth & Klein has independently determined the currency exchange rates used for converting the planned accounts into EUR as well as the long-term financial result and the long-term tax expense. They considered both the assumptions and planning as well as market data for this purpose. Also the determination of the long-term results (perpetuity) as an extrapolation of the figures of 2013 was conducted by Warth & Klein.

Table of Contents

The individual steps in the valuation, namely, the determination of the surpluses to be discounted, the determination of the discount rate, the capitalization itself and the determination of the special values, are explained below.

11.3.3 Basis of valuation/Validation of projections and synergies

The starting point for checking the plausibility is the analysis of the results in the past because they serve as an initial orientation for analyzing planned numbers. Holdco was only recently established, however, and is not yet itself active. In order to be able to check the plausibility of the consolidated business plan of Holdco consisting of the stand-alone plans for Deutsche Börse and NYSE Euronext plus the planned synergies (less costs of implementation) in light of the past, Warth & Klein has prepared as if income statements for the years 2008 through 2010 (neither according exclusively to International Financial Reporting Standards (**IFRS**) nor to generally accounting principles accepted in the United States (**US GAAP**). This covers the actual numbers for Deutsche Börse in accordance with the annual reports for the years 2008 through 2010 (according to IFRS). For purposes of simplification they converted the actual numbers for NYSE Euronext in the years 2008 through 2010 according to the annual reports (according to US GAAP) with the respective currency exchange rate for U.S. dollar to on December 31 of the respective year (see below).

The as if numbers for the years 2008 through 2010 shown in the following section only serve to check the plausibility of the planned accounts.

To the extent that the results shown in the consolidated financial statements were influenced by extraordinary business events (for example unique or exceptional other operating income and expenses) which have distorted the as if series of results for the past for Holdco and influence the comparison of the results of the planning period with the as if numbers for the years 2008 through 2010, the effects resulting from these special circumstances have been adjusted. These adjustments primarily relate to impairment depreciations, restructuring and transaction costs as well as to consulting fees. The impairment depreciations relate mostly to impairment of intangible assets of the ISE in 2009 and 2010 at the Deutsche Börse and goodwill amortization and impairment writedowns of intangible assets of the European Cash Reporting Unit in 2008 of NYSE Euronext.

The basis for the valuation is the consolidated business plan of Holdco described below for the years 2011 through 2013, including the synergies (less costs of implementation) expected from the combination. The consolidated business plan of Holdco represents generally the total of the stand-alone planning for Deutsche Börse, for NYSE Euronext and the synergies, including the costs of implementation. Technically, initially the planned accounts for NYSE Euronext provided to Warth & Klein in U.S. dollar were converted into based on the expected currency splits (U.S. dollar, Euro, Great Britain Pound) using the following forward exchange rates:

	31.12.2008	31.12.2009	31.12.2010	31.12.2011	31.12.2012	31.12.2013	Perpetuity
Exchange Rates	Historical	Historical	Historical	Forward	Forward	Forward	Forward
EUR / USD	1.3953	1.4331	1.3369	1.3304	1.3237	1.3204	1.5375
EUR / GBP				0.8461	0.8427	0.8379	0.8668

Source: Bloomberg; FED; Deutsche Bundesbank (German central bank); calculation Warth & Klein

In a second step, the planned accounts of Deutsche Börse and NYSE Euronext as well as the planned synergies for turnover and costs were added and the implementation costs subtracted. Holdco covers 100% of each of Deutsche Börse and NYSE Euronext.

Table of Contents

The earnings from participations contained in the planning of Deutsche Börse and NYSE Euronext were eliminated and applied as special values in the amount of the book values. Furthermore personal expenses resulting from the stock based compensation programs of NYSE Euronext have been adjusted by Warth & Klein.

	2008	2009	2010	2011	2012	2013	2014 et

- 1) The revenues can be divided mainly into the segments Cash Trading & Listings, Derivatives, IT/MD&A and Clearstream. Revenues from the segment Clearstream are generated solely by Deutsche Börse. With regard to the segments Cash Trading & Listings as well as Derivatives, the revenue shares of NYSE Euronext are disclosed net of section 31 fees, liquidity payments and routing and clearing fees as these costs show a direct reference to the corresponding gross revenues. The respective costs of sales or deductions do not exist at Deutsche Börse AG, so that the comparability and thus the predictive power is restricted to that extent.
- 2) The position other operating income shows primarily the net interest result on customer deposits of the banking business of Clearstream.

(i) Planned EBIT of Holdco

On the basis of the planned overall performance as well as the planned operating expenses and depreciation, an increase in the EBIT results in the planning period from 1,759.1 million in the fiscal year 2010 to 2,291.7 million in the planning year 2013, which corresponds to an compound annual growth rate of 9.2% annually. The planned growth of a total of 532.6 million is allocated in an amount of 490.0 million primarily to an increase in the EBIT from 2012 to 2013 (+ 27.2%). This development is influenced decisively by the planned synergies as well as the incurred costs for implementation (in the amount of approximately 700 million) under the combination of Deutsche Börse with NYSE Euronext. The companies expect to realize the revenue synergies rates of 25% at the end of 2012 and 50% at the end of 2013. The cost synergies are expected to be realized that to 30% at the end of 2012 and to 65% at the end of 2013. Warth & Klein has derived from this average values for the realization rates for the synergies in the respective planning year. Therefore the revenue synergies are planned to display 12.5 % of their effects in 2012 and 37.5 % in 2013 and the respective cost synergies are planned to display 15.0 % of their effect in 2012 and 47.5 % in 2013. The EBIT is influenced by the planned synergies as well as the costs for implementation incurred in 2012 on balance with about 328 million and on balance with about 73 million in 2013. When adjusted for these effects, rates of growth for EBIT at Holdco result in the amount of 15.6% between 2011 and 2012 as well as in the amount of 11.0% between 2012 and 2013. The rates of growth are primarily supported by the planned growth in sales.

(ii) Planning of the financial results and taxes

Table of Contents

Financial result

The planned accounts of Holdco contain a financial result which was determined on the basis of an integrated planning of the financial requirements. Warth & Klein based their valuation on this planning of financial requirements. Warth & Klein calculated anew the financial results for the detailed planning period on the basis of the balances sheet planning which Warth & Klein extrapolated and the enterprise specific interest rates. Warth & Klein assume a normalized interest level over the long-term and apply a rate for the cost of debt in the amount of the base interest rate plus a spread.

Determination of enterprise taxes

The planned accounts of Holdco take into account a weighted group tax rate, which has been derived on the basis of average consolidated tax rates for Deutsche Börse and NYSE Euronext. The corporate taxes were determined by Warth & Klein anew, taking into account this weighted group tax rate. The burden with withholding tax in an expected amount of 5% on half of the results of NYSE Euronext (assumption) was taken into account as a negative synergy.

(iii) Determination of the long-term results

The long-term operational results of Holdco for the fiscal years 2014 et seq. was derived by extrapolating the sales and expenses in the year 2013, taken into account a weighted growth of 1.68%. The planned accounts for NYSE Euronext in USD were converted by Warth & Klein into Euro based on the expected currency splits (U.S. dollar, Euro, Great Britain Pound) using the following long-term expected forward exchange rates: 1.54 EUR/USD; 0.87 EUR/GBP.

Furthermore, the synergies in sales and costs expected from the combination of the companies, which are anticipated to come into play 100% starting in the year 2015, were taken into account.

Warth & Klein has applied a long-term reinvestment rate in the amount of the average depreciation in the detailed planning period.

In order to take into account the fact that the growth in the balance sheet accompanying the long-term expected growth in the line items in the profit and loss statement as well as the surpluses must be financed, Warth & Klein has applied retained earnings in the amount of the rate of growth relating to the net assets (without taking into account goodwill) in the long-term result as of the end of the detailed planning phase. This retention of earnings required to finance the growth in future earnings reduces the amount which is available for distributions.

11.3.4 Determination of discount rate

The discounted earnings value is determined by discounting the future financial surpluses to the effective date of the valuation. The discount rate reflects the return on investment of an alternative investment for which the cash flow must be considered comparable with the cash flow generated by the shares in the enterprise being valued with regard to timing, risk and taxation.

The starting point for determining the discount rate is the return on investment of a risk free investment in the capital market (base interest rate). This base interest rate must be increased by a risk premium which is supposed to cover the uncertainty about the amount of the financial surpluses in an investment in shares in the enterprise being valued compared to an investment in a risk free interest bearing security. In order to determine effects of growth in the form of continuously growing financial surpluses after the end of the detailed planning phase, the discount rate is reduced by a growth factor (deduction for growth).

Warth & Klein has determined the discount rate in detail as follows:

(i) Base interest rate

The base interest rate represents a risk free alternative investment with equivalent timing to an investment in the enterprise being valued. In order to maintain the required equivalency between the variables used as

Table of Contents

numerators and denominators, care must be taken that the financial surpluses to be discounted to present value are denominated in the same currency as the securities used as the basis for determining the interest rate. Since the planning at Holdco was derived in part operationally in EUR or converted in EUR by means of forward exchange rates, the base interest rate was determined on the basis of government bonds in Germany. In light of its virtually safe nature, such bonds comply to the greatest extent possible with the requirement for having no risk in light of their virtually secure nature.

When valuing an enterprise with a perpetual life, the base interest rate would generally have to be the return on investment which could be achieved as of the effective date of the valuation from a bond issued by the government which also has no time limit (equivalents of term). Since such perpetual bonds do not exist or are not traded, however, the theoretical return on investment for bonds with a perpetual term can be approximated using the observed yield curve.

The German Federal Bank (*Deutsche Bundesbank*) publishes regular estimates about yield curves on the basis of the prices for German government securities having a remaining term of up to around 30 years which are listed on the exchange by applying the Svensson method. In order to determine the base interest rate, an average yield curve for the years 2010 et seq. over a period of up to 30 years was determined on the basis of the daily estimates of the German Federal Bank for the months November 2010 through January 2011 and an extrapolation of the average 30 year zero bond interest rate. The term specific interest rates for the yield curve gained in this manner were converted to a uniform base interest rate for all planned years before personal income taxes of around 3.5% as a present value equivalent.

(ii) Risk premium

The risk premium serves to compensate the risk taken by investing in shares of the enterprise being valued. It must be assumed that participants in the market are risk averse. This means that certain income will always be preferred compared to the same amount of expected values of uncertain income. This risk aversion can be taken into account by way of a deduction from the expected surpluses or by a risk premium on the discount rate. Both methods are interchangeable, but in practice risk aversion is almost exclusively taken into account by a premium on the interest rate.

In the context of objective valuations, capital market models such as the capital asset pricing model (CAPM) are especially appropriate for determining the risk premium because these capital market models indirectly derive risk premiums from observable prices in the capital market. The prices established in the capital market are the results of action by the investors. Prices for securities reflect also the risk preferences of the investors to the extent that the investors knowingly and freely decide to purchase or sell certain securities. This market valuation of the risks of shares by rational and risk averse investors is reflected in the theoretical CAPM. The CAPM, thus, supplies a verifiable, objective context for quantifying a reasonable risk premium.

The two parameters in the model required under CAPM for calculating the amount of the risk premium are the market risk premium and the beta factor.

The market risk premium is the average higher return on investment for investments in capital shares required by investors compared to returns from risk free securities. The market risk premium can be estimated using historical data from the capital markets. It is assumed when doing so that excess returns on investment for shares compared to risk free securities such as government bonds observable over the long term represent an estimated value for the risk premium which participants in the capital markets can be expected to demand in the future for investments in stocks. The stock market can be reflected using a broad stock index.

Based on corresponding empirical studies, the Special Committee for Enterprise Valuation considers it appropriate to apply a market risk premium before taxes of 5.0% in calculations based on the CAPM (see Online Report on the 95th meeting of the FAUB, November 29, 2007, p. 4).

Table of Contents

The amount of the beta factor reflects the degree of systematic risk in a share under the calculation pursuant to the CAPM which cannot be diversified by means of transactions in the capital market. The higher the beta factor, the higher the risk premium for investors demanded by participants in the capital market. The beta factor is calculated using the relationship between fluctuations in returns on investment for the specific shares and the fluctuations in returns on investment in the market.

Since the discount rate reflects the return on investment for an equivalent, alternative investment, it makes sense to determine the beta factor in general on the basis of the average beta factor for a group of comparable enterprises (peer group). For this purpose, Warth & Klein has compiled a group of comparable enterprises using exchange operators which are listed on the exchange.

Five determinations of the beta factor were performed for the group of peer group enterprises for the period 2005 through 2011 compared to a worldwide index (MSCI World All Country Index), which in each case cover a period of two years and are based on weekly returns on investment. So-called adjusted beta factors were determined using this analysis. The unlevered beta factors for the peer group, adjusted for the capital structure risk, have an average value of around 1.2, including the inherent beta factors for Deutsche Börse and NYSE Euronext.

Calculation beta factor - HoldCo

	beta factor (unlevered)
Peer Group	
Deutsche Börse AG	1.1
NYSE Euronext	1.3
ASX Ltd	1.4
Bursa Malaysia Bhd	1.0
CME Group Inc	1.0
Dubai Financial Market	1.1
Hong Kong Exchanges and Clearing Ltd	1.3
IntercontinentalExchange Inc	1.3
London Stock Exchange Group PLC	1.2
NASDAQ OMX Group Inc/The	1.3
Singapore Exchange Ltd	1.3
TMX Group Inc	1.2
Mean	1.2

The capital structure risk for Holdco was taken into account by means of a period-specific adjustment of the unlevered (debt free) beta factor in the amount of 1.2 by the effect of the leverage (varying level of debt) at Holdco (see table below discount rate). The applied risk premium results from multiplying the market risk premium with the periodic, varying beta factor reflecting the capital structure risk (levered beta factors).

(iii) Deduction for growth

The growth of the anticipated future results for the enterprise must also be taken into account when valuing the enterprise. The growth of the results of the enterprise for the individual periods is specifically reflected in the detailed planning phase for 2011 through 2013. The contribution to value from the corporate surplus cash flows which are incurred in time after the detailed planning phase starting in the year 2014 and the subsequent years is reflected for purposes of simplification in the valuation by means of the present value of a terminal value. The expected, long-term results which can be generated are initially applied in the terminal value under the discounted earnings formula. If it can be assumed that the enterprise being valued is capable of growing its results in a sustained manner during the time after the detailed planning phase, the corresponding growth in results can be taken into account mathematically by means of a deduction from the discount rate.

Table of Contents

Warth & Klein has applied long-term growth at 1.68%. Warth & Klein has determined this value on the basis of the following considerations:

The starting point for a long-term development of the results is the determination that, over the long-term, nominal planned values can be subject to real changes and changes resulting from inflation. With regard to the change resulting from inflation, implied expectations for inflation can be determined for some countries using the differences in returns on investment between nominal fixed interest and inflation protected government bonds. On this basis as well as on the basis of fundamental forecasts, a long-term expectation for inflation for the countries in which Holdco will be active results in a range of around 1.5% to around 2.0%.

It is also necessary to estimate whether it can be assumed that the inflation based increases in costs can be completely passed on and how real developments influence the growth of the results. Based on increasing competitive pressure for exchanges, as is also expressed in the current concentration process as well as the increasing presence of alternative trading platforms, and in light of the continuing globalization and networking of the capital markets, Warth & Klein does not believe that the results of Holdco can grow in a sustained manner beyond increases resulting from inflation.

On the basis of the above considerations, Warth & Klein determined the following discount rate for Holdco.

Discount rate	2011	2012	2013	2014 et
Holdco	Plan	Plan	Plan	seq. Plan
Risk free rate	3.50%	3.50%	3.50%	3.50%
Market risk premium	5.00%	5.00%	5.00%	5.00%
Beta unlevered	1.20	1.20	1.20	1.20
Leverage	12.05%	11.25%	10.21%	9.31%
Beta relevered	1.32	1.31	1.30	1.29
Risk premium	6.58%	6.54%	6.49%	6.45%
Sustainable growth rate				(1.68)%
Discount rate	10.08%	10.04%	9.99%	8.27%

11.3.5 Discounted earnings value

The discounted earnings value in the amount of around 20.5 billion resulting from the discounting as of the determinative effective date of the valuation of February 15, 2011 from the results of Holdco to be capitalized, including the expected synergies, is determined as follows. 100% achievement of the planned synergies (for example via a domination agreement) was assumed.

Discounted earnings value	2011	2012	2013	2014 et
Holdco	Plan	Plan	Plan	seq. Plan
	EUR mil.	EUR mil.	EUR mil.	EUR mil.
Net distribution	1,198.3	1,157.9	1,520.9	1,875.7
Discount rate	10.08%	10.04%	9.99%	8.27%
Present value factor	0.9084	0.8255	0.7505	9.0760
Present value per year	1,088.5	955.9	1,141.4	17,024.2
Discounted earnings value as of	01.01.2011	20,210.0		
Compounding factor		1.0119		
Discounted earnings value as of	02.15.2011	20,450.8		

11.3.6 Special values

Only those factors contributing to value have been fully reflected in the present value of the discounted earnings which can be accurately reflected in value on the basis of ongoing cash flows. Factors contributing to value which cannot be reflected in this matter at all or only very incompletely must be separately valued.

Edgar Filing: NYSE Euronext - Form 425

Warth & Klein took a separate value into account for the corporate income tax credit for Deutsche Börse pursuant to § 37 German Corporate Income Tax Act (*Körperschaftsteuergesetz*, **KStG**). For purposes

Table of Contents

of the valuation, Warth & Klein has increased the remaining credit as of December 31, 2010 as determined by the company by interest from January 1, 2011 until and including the effective date of the valuation and applied an amount of around 14.3 million.

Furthermore Warth & Klein took into account special values for the participations and specific assets held for sale of Deutsche Börse and NYSE Euronext respectively. Therefore the different book values as of December 31, 2010 have been increased by interest to the effective date of the valuation on February 15, 2011 (the U.S. dollar book values have been converted into first as of December 31, 2010). The special value for the participations and specific assets held for sale of Deutsche Börse and NYSE Euronext adds up to 636.1 million.

11.3.7 Range of equity value and value per Holdco offer share

Warth & Klein has determined an equity value in the amount of around 21.1 billion as of the effective date of the valuation on February 15, 2011.

As of February 15, 2011, there are outstanding stock options and restricted stock units under equity compensation plans at Deutsche Börse and NYSE Euronext. The future exercise of these options by the holders or the allocation of the restricted stock units to the beneficiaries represents an effect that reduces value. The expenses of Deutsche Börse in this respect are included in the planning of personal expenses. For the NYSE Euronext, this is the case only partly. For this reason, the personnel expenditures have been adjusted for expenses resulting from stock based compensation programs of NYSE Euronext.

The Holdco shares to be exchanged for treasury shares of Deutsche Börse in the exchange offer were not explicitly included in the calculation of the number of Holdco shares because, as a consequence of treasury shares of Deutsche Börse being tendered in the exchange offer, Holdco itself will indirectly hold treasury shares and an explicit inclusion would be value-neutral because it is irrelevant for the value per share whether the company's value including its own shares is divided by the number of all shares, or whether the value exclusive of treasury shares is divided by the number of outstanding shares only.

If one assumes that 100 % of all shares in Deutsche Börse and NYSE Euronext are exchanged for shares in Holdco in accordance with the agreements reached in the business combination agreement, this value is distributed to 308.8 million Holdco shares. Thereby it has been taken into account that the already existing 45,000 Holdco shares (class D shares) will be reimbursed at their nominal value. The value per Holdco share is accordingly 68.33.

Valuation Summary

Holdco		EUR mil.
Discounted earnings value	as of 02.15.2011	20,450.8
Special value for non-consolidated participation	as of 02.15.2011	636.1
Special value for corporate income tax credit § 37 KStG	as of 02.15.2011	14.3
Equity Value A	as of 02.15.2011	21,101.2
Total stocks - Holdco		308.8
Value of Holdco shares (in EUR)	as of 02.15.2011	68.33

As the planning of the synergies generally is expected and communicated by both partners to a co-operation, and as it is then again, however, also understandable that the synergies cannot be confirmed with specific individual measures in the early phase of the combination, Warth & Klein has taken the lower degree of specification into account by analyzing two scenarios with regard to the synergies. They have assumed that the synergies are achieved at a level of 75% or 100%, while the costs for implementation in each case are incurred at 100%. These scenarios lead to a range in the value for the Holdco shares of 65.48 to 68.33.

The lower bound of 65.48 for the value per share of Holdco leads to an equity value of 20.2 billion. To meet the minimum price requirements for the value of Holdco an amount of 16.7 billion would be sufficient. Thus the lower bound for the equity value of Holdco exceeds the required minimum value by an amount of about 3.5 billion.

Table of Contents

The assumption has been made for purposes of the valuation as of February 15, 2011 that the dividend planned for Deutsche Börse for 2010 in the amount of around 390.5 million which will likely be disbursed in May 2011 after a resolution by the general shareholders meeting is still contained in the value of Holdco. The dividends planned for Q1 and Q2 2011 by NYSE Euronext in the amount of around US dollar 156.8 million which are then distributed following the respective quarter, are contained in Holdco. If the value for each Holdco share is determined after disbursement of the planned dividends for Deutsche Börse and NYSE Euronext is calculated, this results in a slightly lower value per share in Holdco which, however, remains well above the 3-month average price.

In case not all Deutsche Börse shares are exchanged in Holdco offer shares, the value per Holdco share would be lower. For example, if 75% Deutsche Börse shares are changed in Holdco offer shares the value of the Holdco offer shares would range between an amount of 64.65 to 67.58, depending on the realization of the synergies of 75% or 100%.

Based on the lower bound of 64.65 for the value per share of Holdco the equity value of Holdco exceeds the required minimum value imposed by the minimum price requirements in this conservative scenario by an amount of about 2.8 billion.

11.3.8 Plausibility check of the equity value and value per share

In order to check the plausibility of the range of the equity value of Holdco derived using the discounted earnings method, Warth & Klein have analyzed the current market capitalization of NYSE Euronext and Deutsche Börse plus the present value of the expected synergies and costs of implementation. In order to reduce potentially distorting influences of the announcement of the transaction on the stock exchange prices for two companies, Warth & Klein has used three months average analysis of the market values in the period November 9, 2010 – February 8, 2011 as a basis.

The resulting value per Holdco offer share is above the 3-month average price, independent of the amount of the synergies assumed to be achieved (75% to 100%), including the cost for implementation.

11.3.9 Conclusion

Based on this valuation Warth & Klein has confirmed that the value of one Holdco offer share offered under the exchange offer in exchange for one Deutsche Börse share exceeds the 3-month average price.

11.4 Adequacy of valuation method and offer consideration

Due to the non-existence of a reference stock exchange price of Holdco the Bidder has made use of a formal valuation of Holdco as of February 15, 2011 pursuant to the IDW S 1 2008 as described under 11.3. IDW S 1 2008 as well as the valuation methodology used for the valuation constitute an adequate and generally accepted method for enterprise valuations. As described above, Warth&Klein has come to the conclusion that the value for the Holdco shares as of the effective date February 15, 2011, is

in a range of 65.48 to 68.33 in the case that the exchange offer is accepted for 100% of the Deutsche Börse shares; and

in the range of 64.65 to 67.58, in the case that the exchange offer is accepted for 75% of the Deutsche Börse shares only.

Based on the aforementioned valuation and especially the fact that the value of 1 Holdco offer share offered under the exchange offer exceeds the relevant 3-month average price of Deutsche Börse shares which is 54.16, the Bidder considers the offer consideration of 1 Holdco offer share per 1 Deutsche Börse share to be adequate within the meaning of Section 31 para. 1 sentence 1 German Takeover Act.

11.5 Non-applicability of section 33b German Takeover Act

Edgar Filing: NYSE Euronext - Form 425

The articles of association of Deutsche Börse do not provide for the application of Section 33b para. 2 German Takeover Act. Therefore, the Bidder is not obliged to pay any compensation pursuant to Section 33b para. 5 German Takeover Act.

Table of Contents

12 Acceptance and settlement of the exchange offer

12.1 Central settlement agent

The Bidder has appointed Deutsche Bank AG, Frankfurt am Main (the **central settlement agent**) to act as agent for the central settlement as well as exchange escrow agent in connection with the exchange offer.

12.2 Acceptance of the exchange offer

Shareholders of Deutsche Börse who wish to accept the exchange offer should contact their Custodian Bank (as defined below) with any questions about the technical aspects of the acceptance of the exchange offer and its settlement (Abwicklung). The Custodian Banks will be informed separately about the procedures for the acceptance and settlement of the exchange offer.

The shareholders of Deutsche Börse may only accept the exchange offer by declaring acceptance of the exchange offer in writing (the **declaration of acceptance**) vis-à-vis the investment services enterprise maintaining the relevant shareholder's securities account (the **Custodian Bank**).

Until the Deutsche Börse shares in relation to which the exchange offer has been accepted within the offer acceptance period or within the additional offer acceptance period (the **tendered Deutsche Börse shares**) are transferred to the securities account of the central settlement agent with Clearstream, the Deutsche Börse shares specified in the declaration of acceptance will remain credited to the securities account of the accepting shareholders of Deutsche Börse, but will be re-booked to the different ISIN DE00A1KRND6 at Clearstream and in the securities account of the accepting shareholder of Deutsche Börse.

The declaration of acceptance will only become effective upon the tendered Deutsche Börse shares having been re-booked to the relevant ISIN in time. As a prerequisite, the declaration of acceptance must be delivered to the applicable Custodian Bank within the offer acceptance period. If a declaration of acceptance has been delivered to the Custodian Bank within the offer acceptance period, the re-booking of the Deutsche Börse shares will be considered to have been performed in time if the re-booking at Clearstream has occurred no later than 6 p.m. (Central European Daylight Savings Time) on the second banking day following expiration of the offer acceptance period. Such re-bookings are to be arranged for by the Custodian Bank after receipt of the declaration of acceptance without undue delay.

The subscription of the Holdco offer shares and the contribution of the Deutsche Börse shares for which the exchange offer has been accepted to Holdco will be carried out by the central settlement agent as exchange escrow agent on a trust basis for the shareholders in Deutsche Börse accepting the exchange offer.

12.3 Further declarations by shareholders of Deutsche Börse accepting the exchange offer

The following declarations are partly explained in more detail in sections 12.4 and 12.6.

By accepting the exchange offer pursuant to section 12.2 above, each shareholder of Deutsche Börse irrevocably declares at the same time that:

- (a) it accepts, on the terms and conditions set out in this exchange offer document, the offer of the Bidder to conclude an agreement for the exchange of the Deutsche Börse shares specified in the declaration of acceptance into the Holdco offer shares, it approves the transfer of title to the Holdco offer shares to the central settlement agent as exchange escrow agent and, with respect to the transfer of title to the Holdco offer shares from the central settlement agent as exchange escrow agent to the shareholders of Deutsche Börse, it declares its acceptance;
- (b) it instructs and authorizes its Custodian Bank to effect the re-booking for the Deutsche Börse shares specified in the declaration of acceptance to ISIN DE00A1KRND6 (tendered Deutsche Börse shares) at Clearstream without undue delay, but to leave all tendered Deutsche Börse shares in its securities account for the time being;

Table of Contents

- (c) it instructs and authorizes its Custodian Bank to instruct and authorize Clearstream to transmit to the Bidder via the central settlement agent on each trading day information with regard to the number of tendered Deutsche Börse shares for which re-bookings have been made to ISIN DE00A1KRND6 in the Custodian Bank's securities account with Clearstream;
- (d) it instructs and authorizes its Custodian Bank to deliver the Declarations of Acceptance as well as the declarations of withdrawal pursuant to section 17.2 (including the name and address) to the Bidder upon request;
- (e) it instructs and authorizes its Custodian Bank to instruct and authorize Clearstream to make the tendered Deutsche Börse shares available to the central settlement agent without undue delay after expiry of the additional offer acceptance period and satisfaction or waiver of all completion conditions set out in section 14.1 on the central settlement agent's securities account with Clearstream for the purpose of transferring title to the relevant tendered Deutsche Börse shares to the central settlement agent for the further purpose of contributing the tendered Deutsche Börse shares into the Bidder as a contribution in kind in exchange for the corresponding number of Holdco offer shares;
- (f) it instructs and authorizes its Custodian Bank and the central settlement agent, each having been released, as a matter of precaution, of the prohibition from contracting with itself as agent for a third party (*Selbstkontrahieren*) pursuant to Section 181 of the German Civil Code (*Bürgerliches Gesetzbuch*) and corresponding foreign provisions, to take all necessary or appropriate measures and to make and receive all necessary or appropriate declarations for the completion of the exchange offer on the terms and conditions set out in this exchange offer document;
- (g) it acknowledges that, during the period commencing on the date of delivery of the relevant tendered Deutsche Börse shares to the central settlement agent's securities account with Clearstream and ending on the date of receipt of the Holdco offer shares, it will no longer be able to dispose of the relevant tendered Deutsche Börse shares and will not yet be able to dispose of the Holdco offer shares, but will only hold a claim for delivery of such number of Holdco offer shares as determined according to the terms and conditions of this exchange offer document;
- (h) its relevant tendered Deutsche Börse shares will at the time of the transfer of title to the central settlement agent be solely owned by it and will be free and clear of any third party rights;
- (i) it transfers title to the tendered Deutsche Börse shares to the central settlement agent subject to the satisfaction and/or valid waiver of the completion conditions as set forth in section 14.1 at the time of the book-entry transfer of the tendered Deutsche Börse shares to the securities account of the central settlement agent with Clearstream for the purpose of contributing the tendered Deutsche Börse shares into the Bidder as a contribution in kind in exchange for the corresponding number of Holdco offer shares;
- (j) it acknowledges and confirms that it has complied with the procedures and restrictions set out in sections 1.2 and 1.5. Shareholders who do not make this declaration and do not give this guarantee will be treated as if they had not accepted the exchange offer.

The declarations, instructions, orders and authorizations referred to in paragraphs (a) to (j) of this section 12.3 are issued irrevocably in the interest of a smooth and expeditious completion of the exchange offer. They shall only lapse (i) in the case of a final non-satisfaction of a completion condition (see section 14.3), or (ii) in the event that the agreements which have come into existence as a result of the acceptance of the exchange offer are validly rescinded in accordance with section 17.

12.4 Legal consequences of acceptance

Upon acceptance of the exchange offer, an agreement for the exchange of the Deutsche Börse shares specified in the declaration of acceptance into the corresponding number of Holdco offer shares will come into existence between each accepting shareholder of Deutsche Börse and the Bidder on the terms and

Table of Contents

conditions set forth in this exchange offer document, whereas the clearing of the exchange will be conducted by the central settlement agent as exchange escrow agent. Transfer of title of the tendered Deutsche Börse shares to the central settlement agent as exchange escrow agent and issue and delivery of the Holdco offer shares shall only occur after satisfaction and/or valid waiver of the completion conditions as set forth in section 14.1.

By accepting the exchange offer, the accepting shareholder of Deutsche Börse and the Bidder each agree subject to the satisfaction and/or the waiver of all completion conditions to the transfer of title to the tendered Deutsche Börse shares to the central settlement agent. The central settlement agent as exchange escrow agent will then subscribe to the issue of the Holdco offer shares and, for the period of time between the issue of the Holdco offer shares and the delivery of the Holdco offer shares to the shareholders of Deutsche Börse accepting the exchange offer, hold such shares. The Holdco offer shares will, without undue delay, be issued and embodied in one or more global share certificates which will be deposited with the relevant central securities depository, for onward delivery through the custody banks system, in accordance with the regular settlement procedures for equity securities. The Holdco offer shares will then be delivered to the Custodian Bank for credit to the securities accounts of the accepting shareholders of Deutsche Börse in accordance with the terms and conditions set forth in this exchange offer document.

Following transfer of the applicable tendered Deutsche Börse shares and until delivery of the respective number of Holdco offer shares, the accepting shareholders of Deutsche Börse may no longer dispose of the tendered Deutsche Börse shares and may not yet dispose of their Holdco offer shares, but will only have a claim for delivery of the number of Holdco offer shares as determined pursuant to the terms and conditions of this exchange offer document.

The central settlement agent will acquire title to the tendered Deutsche Börse shares and to the Holdco offer shares which are granted as consideration in the course of the settlement of the exchange offer only in its capacity as central settlement agent.

Upon transfer of title to the tendered Deutsche Börse shares to the central settlement agent, all rights associated with these shares shall pass to the central settlement agent and shall be transferred onwards to the Bidder in the contribution of tendered Deutsche Börse shares. Upon delivery of the respective Holdco offer shares to the respective shareholders of Deutsche Börse they shall become the owner of the respective Holdco offer shares and the holder of all rights associated with these.

The completion (*Vollzug*) of the agreement for exchange of the Deutsche Börse shares into the corresponding number of Holdco offer shares will only take place after the completion conditions set out in section 14.1 have been satisfied or validly waived by the Bidder pursuant to Section 21 para. 1 no. 3 or no. 4 German Takeover Act. If one or more of the completion conditions set out in section 14.1 have not been satisfied by the final date specified for the respective completion condition to be satisfied and if the Bidder has not validly waived the relevant completion condition pursuant to Section 21 para. 1 no. 3 and/or no. 4 German Takeover Act, the exchange offer will lapse. In this case, the agreements which came into existence as a result of accepting the exchange offer will not be completed and will cease to exist (see section 14.3).

Furthermore, by accepting the exchange offer, the accepting shareholder of Deutsche Börse irrevocably makes the declarations, instructions, orders and authorizations set out in section 12.3.

12.5 Acceptance of the exchange offer during the additional offer acceptance period

Except as set forth in this section 12.5, sections 12.1 through 12.4 shall also apply to the acceptance of the exchange offer during the additional offer acceptance period. Shareholders of Deutsche Börse intending to accept the exchange offer during the additional offer acceptance period should contact their Custodian Bank with any queries they may have about the technical aspects of the exchange offer and its settlement. The re-booking of the Deutsche Börse shares in relation to which the exchange offer has been accepted within the additional offer acceptance period to ISIN DE00A1KRND6 (tendered Deutsche Börse shares)

Table of Contents

will be considered to have been performed in time if effected no later than 6 p.m. (Central European Daylight Savings Time) on the second banking day following expiration of the additional offer acceptance period.

12.6 Settlement of the exchange offer and receipt of offer consideration

Settlement of the exchange offer will take place through the issue and delivery to the central settlement agent and the onward transfer of the Holdco offer shares, in the manner as set out in section 12.4 as consideration for the tendered Deutsche Börse shares. Upon crediting of the Holdco offer shares to the applicable Custodian Bank's securities account with Clearstream, the Bidder will have fulfilled its obligation to deliver Holdco offer shares. It is the Custodian Bank's responsibility to credit the Holdco offer shares to the securities account of each accepting shareholder of Deutsche Börse. The crediting of the Holdco offer shares to the securities accounts of the Custodian Banks shall occur without undue delay but in no event later than seven banking days (i) following the publication of the results of the exchange offer pursuant to section 23 para. 1 sentence 1 no. 3 German Takeover Act or (ii) following the day the satisfaction and/or waiver of all completion conditions is published (see section 14.4), whichever date is later. A banking day in terms of this exchange offer document relates to a day on which the banks in Frankfurt am Main, Germany, as well as in New York, New York, United States are open for general business (see section 2.1).

If one or more of the completion conditions (see section 14.1) are still not satisfied, and have not been waived, by the end of the additional offer acceptance period, the settlement of the exchange offer and the crediting of the Holdco offer shares will therefore be delayed, irrespective of a potential extension of the offer acceptance period.

The Bidder expects that the settlement of the exchange offer for the tendered Deutsche Börse shares will occur prior to March 31, 2012.

In the event that all completion conditions are satisfied on March 31, 2012 only, the last possible date, the settlement of the exchange offer and the crediting of the Holdco offer shares would be delayed until April 13, 2012 at the latest.

Prior to the time of delivery of the Holdco offer shares to the shareholders of Deutsche Börse under the exchange offer, the bidder will apply for admission of its ordinary shares, including the Holdco offer shares, to trading on the regulated market segment (*regulierter Markt*) of the Frankfurt Stock Exchange and, simultaneously, in the sub-segment thereof with additional post-admission obligations (Prime Standard), as well as on the regulated market of Euronext Paris and on the New York Stock Exchange.

The Bidder expects that the Holdco offer shares which the accepting shareholders of Deutsche Börse will receive upon settlement of the exchange offer will have been admitted to trading (listed) at the time of delivery to the shareholders of Deutsche Börse having accepted the exchange offer.

Commencement of trading on the Frankfurt Stock Exchange, Euronext Paris and the New York Stock Exchange is expected to occur immediately after delivery of the Holdco offer shares to the shareholders of Deutsche Börse having accepted the exchange offer.

12.7 Costs

The acceptance of the exchange offer is free of costs and expenses for those shareholders of Deutsche Börse who hold their Deutsche Börse shares in collective safe custody with a Custodian Bank provided that the Custodian Bank in turn holds these Deutsche Börse shares in custody on a securities account at Clearstream. Costs incurred for the submission of the declaration of acceptance to the Custodian Bank will not be reimbursed.

Costs imposed by other Custodian Banks or foreign intermediate custodians, shall be borne by each accepting shareholder of Deutsche Börse.

Table of Contents

Furthermore, any taxes related to the transfer of the tendered Deutsche Börse shares in exchange for Holdco offer shares must be borne by the relevant shareholder of Deutsche Börse. The same applies to any stock exchange trading taxes or stamp duties or any other taxes or duties related to the acceptance of the exchange offer.

12.8 Stock exchange trading in tendered Deutsche Börse shares

The Bidder intends to apply for the tendered Deutsche Börse shares inclusion into stock market trading on the regulated market of the Frankfurt Stock Exchange under ISIN DE00A1KRND6 as of the second trading day of the Frankfurt Stock Exchange and simultaneously in its segment with additional admission duties (Prime Standard) following the commencement of the offer acceptance period. The trading of the tendered Deutsche Börse shares allows Deutsche Börse shareholders who have agreed to tender their shares to sell their shares on the Frankfurt Stock Exchange. The sale of a share that has been agreed to be tendered does not affect its status as such and will be exchanged in the exchange offer unless it is validly withdrawn in accordance with the terms of the offer or applicable law. It is intended that Deutsche Börse will mandate a Designated Sponsor in order to provide for sufficient liquidity of the stock exchange trading with tendered Deutsche Börse shares.

Trading in the tendered Deutsche Börse shares on the regulated market of the Frankfurt Stock Exchange and simultaneously in its segment with additional admission duties (Prime Standard) is expected to end no later than (i) after regular stock exchange trading hours on the last trading day of the Frankfurt Stock Exchange within the additional offer acceptance period or (ii) after regular stock exchange trading hours on the day the satisfaction of all completion conditions (insofar as they have not been waived) is published (see section 14.4), whichever is the later date. The date as of which trading ceases shall be published by the Bidder without undue delay via an electronically operated information dissemination system as described in Section 10 para. 3 sentence 1 no. 2 German Takeover Act or in the electronic Federal Gazette and by way of an English language press release via an electronically operated information distribution system in the United States. Any person acquiring tendered Deutsche Börse shares will assume all rights and obligations arising as a result of the acceptance of the exchange offer, including the irrevocable declarations, instructions, orders and authorizations set out in section 12.3.

Although Deutsche Börse will appoint a designated sponsor to offer binding bid and ask quotes for the tendered Deutsche Börse shares, there can be no assurance as to how liquid a market for the tendered Deutsche Börse shares will develop or be sustained. If an active market for tendered Deutsche Börse shares fails to develop or be sustained, the trading price and the liquidity of the tendered Deutsche Börse shares could be materially adversely affected.

Deutsche Börse shares not tendered will continue to be traded under ISIN DE0005810055.

12.9 Note to holders of American depositary receipts

The exchange offer is not addressed to holders of ADRs which have been issued in relation to Deutsche Börse shares. Each ADR evidences one American Depositary Share (**ADS**), which represents the beneficial interest in one tenth of a Deutsche Börse share deposited with Citibank, National Association, The Bank of New York Mellon Corporation or JPMorgan Chase Bank, National Association (each, a **depository**). The ADS are deposited with a depository pursuant to the deposit agreement between such Depository and the respective owners and holders of ADRs.

ADRs may not be tendered into the exchange offer. However, holders of ADRs who are not excluded Japanese shareholders and want to participate in the exchange offer may do so by following the normal ADR cancellation process in order to obtain the underlying Deutsche Börse shares, which may then be tendered into the exchange offer. The process may take several days, and ADR holders who are not excluded Japanese shareholders should take this additional time requirement into account when making their decision whether to participate in the exchange offer or not. Holders of ADRs should contact the applicable Depository in case they have questions in relation to the exchange of ADRs in Deutsche Börse shares.

Table of Contents

Costs and fees incurred in the course of the cancellation of ADRs will not be reimbursed. The same applies to fees and costs incurred for a re-deposition of Deutsche Börse shares in an ADR facility in the event the exchange offer should fail.

12.10 Lapse in case of non-satisfaction of completion conditions

The exchange offer will lapse and the agreements which have come into existence as a result of the acceptance of the exchange offer will not be completed and will cease to exist (conditions subsequent, *auflösende Bedingungen*) if one or more of the completion conditions (as defined in section 14.1) set forth in this exchange offer document have not been satisfied and, to the extent possible, its satisfaction has not been waived (see section 14.3).

In this case, the tendered Deutsche Börse shares will be re-booked (*Rückbuchung*) from the ISIN DE00A1KRND6 into the original ISIN DE0005810055 without undue delay.

Precautions will be taken to arrange for re-booking at the latest within five banking days after the publication pursuant to section 14.4 that not all completion conditions have been satisfied and have not been validly waived. After completion of such re-booking, the respective Deutsche Börse shares will be tradable again under the original ISIN DE0005810055.

The re-booking and re-transfer is free of costs and expenses for those shareholders of Deutsche Börse who hold Deutsche Börse shares in collective safe custody with a Custodian Bank provided that the Custodian Bank itself holds these shares in custody in a securities account at Clearstream.

Any foreign stock exchange trading taxes or stamp duties or other foreign taxes or expenses which may be incurred, as well as any costs imposed by intermediate custodians shall be borne by each accepting shareholder of Deutsche Börse. Any taxes related to the re-booking and re-transfer of Deutsche Börse shares must be borne by the relevant shareholder of Deutsche Börse as well.

13 Official approvals and proceedings

In the following, the regulatory approvals and proceedings required for the combination and the status of such proceedings are described. The Bidder endeavors to initiate and complete the proceedings and to file notices and documents and to handle information requests and other inquiries as quickly as possible and will take all necessary actions in order to ensure an expedite termination of each of the proceedings listed below.

13.1 Merger control clearance proceedings

The combination is subject to merger control clearance proceedings in the United States and the European Union, which also require clearance or the expiration of certain waiting periods in accordance with the applicable merger control laws, as described below:

13.1.1 U.S. Antitrust Clearance

Under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended (the **HSR Act**), and the rules promulgated thereunder by the Federal Trade Commission (the **FTC**), the combination may not be completed until notification and report forms have been filed with the FTC and the Antitrust Division of the Department of Justice (the **DOJ**) and the applicable waiting periods have expired or been terminated.

NYSE Euronext and Deutsche Börse are each required to file a notification and report with both the DOJ and the FTC in respect of the combination. On March 8, 2011, Deutsche Börse and NYSE Euronext each filed such notification and report form under the HSR Act with the FTC and the DOJ. Although under the HSR Act filings must be made by each party with both the DOJ and FTC, transactions are typically reviewed by one of the two agencies in a single review that involves the relevant parties. The combination of Deutsche Börse and NYSE Euronext is being reviewed by the DOJ.

Table of Contents

On April 7, 2011, Deutsche Börse and NYSE Euronext each received a request for additional information and documentary material (**Second Request**). The effect of the Second Request is to extend the formal assessment period until thirty days after the parties have substantially complied with the Second Request, unless the waiting period is terminated earlier.

The parties have been cooperating and continue to be in close contact with the DOJ in its review of the combination to obtain HSR clearance as promptly as possible. The parties have been and are continuing to prepare and submit data and documents to the DOJ in order to assist the DOJ with its review of the combination. There has not yet been determined a date for completing the submission of these data and documents in replying to the Second Request.

Responding to the second request from the DOJ will take between three and eight months, including the related 30-day waiting period and potential further substantive discussions with the DOJ. The parties therefore do not presently expect the waiting period to expire or be terminated before the third quarter of 2011. Coordination between the European and the DOJ, including potentially regarding timing, further complicates any prediction of when the DOJ will conclude its investigation.

At the end of its review, if the DOJ still has substantive concerns about the combination, it must initiate injunctive proceedings in a United States federal district court to block the combination or resolve its concerns by entering into a consent agreement with the parties.

13.1.2 European Competition Authorities

The combination is subject to the merger and control clearance by the European Commission (the **Commission**) pursuant to the European Community Council Regulation (EC) No. 139/2004 as of January 20, 2004 on the control of concentrations between undertakings, as amended (the **EC Merger Regulation** or **FKVO**).

The merger control proceeding under the FKVO is structured in three stages: Pre-notification Contacts, Phase I and Phase II.

(i) Pre-notification contacts

Pre-notification contacts are particularly important for notifications with the Commission. In the course of pre-notification contacts, a draft of the notification (**Form CO**) is submitted to the case team of the Commission to ensure that the notification is considered complete by the Commission. After reviewing the draft Form CO, the case team can request additional data and information to be included in the notification. The Form CO describes the notifying parties' activities and the combination, and provides information on each of the affected markets (market definition, market shares, demand and supply structure, etc.).

(ii) Notification

Once the notification is considered complete by the case team of the Commission, the notifying parties can notify the combination formally which triggers the FKVO's timetable. Deutsche Börse and NYSE Euronext intend to file the formal notification in June 2011. It should be noted, however, that the notifying parties have only very limited influence on the duration of the pre-notification contacts with the Commission and that these contacts in many cases have lasted for several months. In consequence, the date for filing the notification might be delayed. This would inevitably cause respective delays of the formal time periods of the following procedure as outlined below.

(iii) Phase I

Following formal notification, the Commission has 25 working days to approve the combination or start a Phase II investigation. Assuming filing of the formal notification on June 17, 2011, Phase I would expire on July 25, 2011. Phase I is extended to 35 working days if the notifying parties propose remedies in order for the combination to be cleared in Phase I. Phase I would then expire on August 8, 2011.

Table of Contents**(iv) Phase II**

In a Phase II investigation, the Commission has a further 90 working days which would expire on December 1, 2011. Phase II would be automatically extended by 15 working days if remedies are offered by the parties 55 working days or more after the start of the Phase II proceedings. Including these additional 15 working days, the deadline for a decision of the Commission would be December 22, 2011.

The Commission could extend Phase II by up to 20 further working days if the notifying parties give their consent. Phase II would then expire at the end of January 2012 (January 30, 2012). However, the Commission can also stop the clock running at any time if information is not provided by the notifying parties within the time period required by the EU Commission. The clock only starts running again once the Commission considers that all requested information has been provided.

Shortly after the publication of the intention to launch the exchange offer, the parties have submitted a first briefing paper to the Commission. Since then, the parties are in regular contact, most of the times several times a week, with the case team of the Commission. With waiver declaration dated March 14, 2011, the parties have authorized the Commission to discuss and exchange information and documents with the DOJ. On March 23, 2011, the parties have filed a statement in which they explain more closely why the transaction lies within the scope of the FKVO. On the following day, the Commission has confirmed its competence. On April 5, 2011, the parties have organized a whole-day meeting with the Commission in the bourse of Brussels. At this meeting, the parties have presented the transaction, the affected markets and their own assessment to the Commission. Furthermore, the parties have elucidated their idea of the timing of the proceedings (filing of the draft of the Form CO in April, answering of questions and providing of all data in May, formal filing of the notification no later than mid-June). Immediately after, the case team has confirmed that it is willing to support the parties with this timing. The parties have submitted the first part of the first draft of the notification on April 15, 2011 and the second part of the first draft of the notification on April 21, 2011. The draft consisted of separate chapters (*sections 1-5, cash listing, cash trading and post-trade services, derivatives trading and clearing, IT services as well as market data and indices*). A further meeting with the case team is planned to be held in the first week of May.

As already mentioned, the formal notification is intended to be submitted in mid-June 2011. The timing of the proceedings cannot be predicted exactly. The parties assume that the proceedings with the Commission will be terminated still in 2011. However, in exhaustion of all terms and prolongations of such terms, it cannot be excluded that the proceedings will only be terminated in the first quarter of 2012.

It is again pointed out that the dates mentioned before are estimates as the exact date of the formal proceedings is dependent on the date of the notification which might be delayed as a result of time-consuming pre-notification contacts. As the EU Commission and the DOJ generally coordinate their assessment and proceedings in complex cases, it cannot be excluded that both authorities will also coordinate their proceedings also in respect of the timing.

13.1.3 CFIUS Review

The combination is subject to review under the Exon-Florio Amendment to the Defense Production Act of 1950 (**Exon-Florio**) by the Committee on Foreign Investment in the United States (**CFIUS**). Under Exon-Florio, the President of the United States is authorized to prohibit or suspend acquisitions, mergers or takeovers by foreign persons of (legal) persons engaged in interstate commerce in the United States if the President determines, after investigation, that such foreign persons in exercising control of such acquired (legal) persons might take action that threatens to impair the national security of the United States and that other provisions of existing law do not provide adequate authority to protect national security.

The parties are already in contact with CFIUS. The notice is intended to be filed with CFIUS in May 2011. The parties assume that the proceedings will be terminated in the second quarter of 2011. However, it cannot be excluded that the proceedings will only be terminated at a later time.

Table of Contents
13.1.4 Waiting Periods

As of the date of signing of this exchange offer document, the applicable waiting periods under the HSR Act, EC Merger Regulation and Exon-Florio have not expired or been terminated. The parties involved believe that the combination can be effected in compliance with all applicable antitrust laws and review provisions under Exon-Florio. However, there can be no assurance that the governmental reviewing authorities will terminate or permit any applicable waiting periods to expire, or approve or clear the combination at all or without restrictions or conditions. There also can be no assurance that a challenge to the completion of the combination on antitrust grounds will not be made or that, if such a challenge were made, the parties would prevail or would not be required to accept certain conditions, possibly including certain divestitures, in order to complete the combination.

13.2 Capital Market Regulatory Authorities

Because of reciprocations of the following regulatory proceedings, it is expected that the supervisory authorities also coordinate the timing of their proceedings. This applies to the coordination of European supervisory authorities with each other as well as to the coordination of their proceedings with the SEC. Therefore, disregarding the timing requirements in respect of notifications, filings and decisions for each of the proceedings, it cannot be predicted when the respective proceedings will be terminated. Also, it cannot be excluded with certainty that certain proceedings will only be terminated at the end of 2011 or in the first quarter of 2012. However, the Bidder will take all necessary actions in order to ensure an expedite termination of each of the proceedings listed below.

13.2.1 SEC Approvals

Deutsche Börse's subsidiary International Securities Exchange, LLC and NYSE Euronext's subsidiaries New York Stock Exchange, LLC, NYSE Arca, Inc. and NYSE Amex LLC are self-regulatory organizations (**SROs**) registered as national securities exchanges pursuant to Section 6 Exchange Act and, as such, they must comply with certain obligations under the Exchange Act. Pursuant to Section 19 under the Exchange Act and the related rules of the SEC, all changes in the rules of SROs must be submitted to the SEC for approval, and this can include certain proposed amendments to their and, in the case of International Securities Exchange, LLC and EDGA Exchange, Inc. and EDGX Exchange, Inc., their direct parent company's certificate of incorporation, bylaws or related documents or those of NYSE Euronext as well as any proposed modifications to listing rules. No proposed rule change can take effect unless approved by the SEC or otherwise permitted by Section 19.

Under Section 19 under the Exchange Act, the text of the proposed rule change, together with a concise general statement of the statutory basis, and the purpose of the change, must be submitted to the SEC, which then gives interested parties the opportunity to comment by publishing the proposal in the Federal Register. Comment letters typically are forwarded to the SRO for response. Within a period of 45 days of the publication of the proposed rule change (or a longer period of up to 90 days, if the SEC considers it appropriate), the SEC must either approve the proposal, or institute proceedings to determine whether the proposed rule change should be disapproved. Such proceedings should be concluded within 180 days of the date of the publication of the proposed rule change, although the SEC may extend the deadline by another 60 days if necessary. The SEC will approve a proposed rule change if it finds that the change is consistent with the requirements of the Exchange Act and the rules and regulations of the Exchange Act. SROs may consent to extensions of any of these periods and, as a practical matter, will generally do so while addressing any concerns raised by the SEC.

The Bidder has filed a draft of the intended rule change with the Markets and Trading department of the SEC pursuant to Rule 19b-4 of the Exchange Act on April 15, 2011, and expects to receive their comments shortly. After the realization of respective comments, the SEC will publish the draft of the intended rule change in the Federal Register for 21 days pursuant to Rule 19b-4 of the Exchange Act for public comments. The parties will review respective comments and possibly take them into account and then will submit the draft of the intended rule change with the SEC for final approval.

Table of Contents**13.2.2 European Regulators**

In connection with the combination, a number of European regulatory approvals must be solicited and a number of filings must be made in connection with the combination. To the extent any legal decision periods apply to such approval proceedings, such periods will be started only through the filing of complete documents as a rule. The assessment of whether the documents filed are complete is regularly at the discretion of the relevant authority granting the approval in this context. Against this background, it is currently impossible to predict the duration of the approval proceedings. The abovementioned approvals and notifications include, *inter alia*, the following (in alphabetical order by the German name of the country):

(i) Belgium

- (a) The Financial Services and Markets Authority of Belgium (*Autoriteit voor Financiële Diensten en Markten/Autorité des services et marchés financiers* **FSMA**) shall not have prohibited the intended change in ownership and control of Euronext Brussels S.A./N.V. as Belgian market operator (*marktonderneming/entreprise de marché*) within the thirty days period available to it pursuant to Article 19 of the Belgian Law of August 2, 2002 on the Supervision of the Financial Sector and on Financial Services (**Belgian Law of August 2, 2002**), or it shall have issued a corresponding declaration of non-objection in respect of such intended change of ownership and control of Euronext Brussels S.A./N.V. within this period;

Any natural or legal person intending to acquire securities of a Belgian market operator, which would thereby, directly or indirectly, give him, her or it at least 10% of that market operator's capital or voting rights, shall give prior notification of that intention to the FSMA according to Article 19 of the Belgian Law of August 2, 2002.

The FSMA may, within a period of thirty days after the receipt of the notification, object to the realization of the acquisition. Where the acquisition has taken place without notification to the FSMA or before the FSMA has given its opinion, FSMA may, unless the situation is legally regulated, suspend the exercise of the voting rights attaching to the securities.

If the acquisition has taken place even though the FSMA has prohibited it, the FSMA may suspend the exercise of the voting rights attaching to the securities and/or summon the transfer of the respective securities.

On April 13, 2011, Holdco submitted its application for a declaration on non-objection to the FSMA (with a copy to the Belgian Minister of Finance date April 14, 2011). As of the time of the publication of this offer document, the FSMA has not yet responded.

- (b) Euronext Brussels S.A./N.V. shall have received a confirmation by the Belgian Minister of Finance regarding the preservation of its status as regulated market and as licensed market operator, or, in the absence of such confirmation, shall not have received any notification to the contrary;

Euronext Brussels S.A./N.V. shall need to obtain confirmation of the Belgian Minister of Finance regarding preservation of its status as regulated market and licensed market operator pursuant to Articles 3, 17 and 18 of the Law of 2 August 2002 in order to continue to be able to act as regulated market and licensed market operator. The Belgian Minister of Finance, acting upon the recommendation of the FSMA, has recognised Euronext Brussels S.A./N.V. as market operator pursuant to Article 16 of the Law of August 2, 2002 and has recognised as Belgian regulated markets the market(s) which it organises pursuant to article 3 of the Law of 2 August 2002. Euronext Brussels S.A./N.V. is as a result thereof subject to certain ongoing legal requirements. The Belgian Minister of Finance may, upon advice of the FSMA, withdraw these licenses if such legal requirements are no longer satisfied on an ongoing basis. Although the Belgian Law of August 2, 2002 does not provide for a formal approval or non-objection procedure in this respect, in practice the FSMA at the request of Euronext Brussels S.A./N.V.

Table of Contents

verifies if the business combination allows for such ongoing legal requirements to be met and its letter of confirmation is then forwarded to the Minister of Finance. Hence, FSMA shall need to confirm that the conditions for maintaining the license of Euronext Brussels SA/NV as Belgian market operator and the license as Belgian regulated market for the markets which it organizes continue to be met notwithstanding the change in control. In the absence of any action by the Minister of Finance or the FSMA to the contrary, the status of Euronext Brussels S.A./N.V. as regulated market and as licensed operator is deemed to be preserved.

The notification by Euronext Brussels S.A./N.V. to the Belgian Minister of Finance asking for a confirmation regarding the preservation of its status as regulated market and as licensed market operator is expected to be made shortly. A meeting with the Belgian Minister of Finance was held on April 27, 2011, in order to discuss the proposed combination.

(ii) College of Regulators

The committee of the members of the competent regulatory authorities (the Belgian FSMA, the French Financial Markets Authority (*Autorité des Marchés Financiers*; **AMF**), the Netherlands Authority for the Financial Markets (Autoriteit Financiële Markten, **AFM**), the Portuguese Financial Supervisory Authority (Comissão do Mercado de Valores Mobiliários, **CMVM**) and the U.K. Financial Services Authority (**FSA**) (together the **Euronext Regulators**) of the European jurisdictions in which NYSE Euronext operates (the **College of Euronext-Regulators**) has issued a declaration of non-objection relating to the combination pursuant to the Memorandum of Understanding dated June 24, 2010;

According to the Memorandum of Understanding entered into on June 24, 2010 (**MOU**) by the Euronext Regulators, the Euronext Regulators shall consult each other with respect to decisions by entities that operate or manage a regulated market, or persons with a controlling interest, which may affect the operation of these regulated markets. This includes, *inter alia*, alliances, mergers, major acquisitions, opening or closing of a regulated market, significant changes in respect of a regulated market, or any other significant decision taken either at the level of the markets or at the level of NYSE Euronext that may have a regulatory or material impact on one of the regulated markets (*e.g.* concerning the continued operation of any of the regulated markets).

Changes to ownership, corporate structure, corporate governance and other integration or restructuring steps, for example significant amendments to the organizational structure of the markets, are also covered by the MOU and require a declaration of non-objection of the Chairmen's Committee of the College of Euronext-Regulators as described in Section 5 of the MOU. No specific procedural requirements or time periods apply pursuant to the MOU or any relevant national laws.

The request for non-objection has not been filed yet. Several meetings have taken place in the ordinary course of the meetings pursuant to the MOU with the Steering Committee and one with the Chairmen's Committee of the College of Euronext-Regulators at which the combination was explained and discussed. In the course of these meetings, the College of Euronext-Regulators has indicated that it expects to reach a final decision on the application at its meeting to be held on December 12, 2011.

(iii) Germany

The direct and indirect acquisition of various companies regulated in Germany within the context of the combination requires that the respective competent supervisory authority has not prohibited the combination within the statutory period available to it or has issued a declaration of non-objection (*Nichtbeanstandungserklärung*):

(a) Exchange supervisory authorities

For the combination it is in particular required

- that the Hessian Exchange Supervisory Authority will not prohibit the intended (indirect) acquisition of a significant participation (*bedeutende Beteiligung*) in Deutsche Börse AG,

Table of Contents

Scoach Europa AG and Eurex Frankfurt AG within one month after receipt of a full notification of the intended acquisition or will issue a corresponding declaration of non-objection within such time period;

- that the Saxonian Exchange Supervisory Authority will not prohibit the intended acquisition of a significant indirect participation in European Energy Exchange and EEX Power Derivatives GmbH within one month after receipt of a full notification of the intended acquisition or will issue a corresponding declaration of non-objection within such time period; and
- that the Berlin Exchange Supervisory Authority will not prohibit the intended acquisition of a significant indirect participation in Tradegate Exchange GmbH within one month after receipt of a full notification of the intended acquisition or will issue a corresponding declaration of non-objection within such time period.

The intended acquisition of a significant (indirect) participation in Deutsche Börse AG, Scoach Europa AG, Eurex Frankfurt AG, European Energy Exchange AG, EEX Power Derivatives GmbH and Tradegate Exchange GmbH must not have been prohibited by the relevant competent exchange supervisory authority pursuant to Section 6 of the German Stock Exchange Act (*Börsengesetz* - *BörsG*). However, no explicit approval is required. The competent authorities for supervising the securities exchanges operated by Deutsche Börse group in Germany are the Hessian Exchange Supervisory Authority for FWB and Eurex Deutschland, the Saxonian Exchange Supervisory Authority for the European Energy Exchange and the Berlin Exchange Supervisory Authority for Tradegate Exchange.

Pursuant to Section 6 para. 2 of the German Stock Exchange Act, the competent exchange supervisory authority may prohibit the intended acquisition of significant (indirect) participation within one month following receipt of a full notification of an intended acquisition if there are facts justifying the assumption that any of the reasons justifying a prohibition pursuant to Section 6 para. 2 of the German Stock Exchange Act exists (e.g. any lack of reliability of the acquirer's managing director or any impairment of the reasonable further development of the exchange's operation).

On February 15, 2011, the Bidder informed the competent exchange supervisory authorities of the intention to acquire significant (indirect) participations in Deutsche Börse AG, Scoach Europa AG, Eurex Frankfurt AG, European Energy Exchange AG, EEX Power Derivatives GmbH and Tradegate Exchange GmbH. The relevant documents required for a full notification are currently being compiled in coordination with the relevant exchange supervisory authorities. In connection therewith, on March 4 and on March 22, 2011, respectively, discussions have taken place with the Hessian Exchange Supervisory Authority. Also, questions of the Hessian Exchange Supervisory Authority with regard to certain aspects of the combination are currently being answered. Since the one-month period indicated in Section 6 of the German Stock Exchange Act starts only if the relevant competent exchange supervisory authority has received a notification that is deemed to be complete by such authority, it may currently not be predicted if the period available to the competent exchange supervisory authority for any issuance of a prohibition will expire before the expiration of the offer period or if the competent exchange supervisory authorities will issue corresponding declarations of non-objection.

(b) BaFin

In addition, the intended acquisition of significant (indirect) participation in Clearstream Banking AG, Eurex Bonds GmbH, Eurex Clearing AG, Eurex Repo GmbH, and European Commodity Clearing AG must not have been prohibited by BaFin pursuant to Section 2c of the German Banking Act (*Kreditwesengesetz* - *KWG*). However, no explicit approval is required. Pursuant to Section 2c para. 1a of the German Banking Act, BaFin may prohibit an intended

Table of Contents

acquisition of a significant participation in the abovementioned companies within 60 working days after receipt of a full notification of such acquisition, if any of the reasons justifying a prohibition mentioned in Section 2c para. 1b of the German Banking Act exists (e.g. any lack of reliability of the acquirer's managing director).

The notification to the German Central Bank (*Deutsche Bundesbank*) that is also required pursuant to Section 2c of the German Banking Act implies no additional approval requirement. Instead, the notification to the German Central Bank rather serves the purpose to ensure that the latter is offered the opportunity to provide its comments in examination proceedings conducted by BaFin pursuant to Section 2c of the German Banking Act.

On February 15 and 17, 2011, the Bidder informed BaFin and the German Central Bank of its intention to acquire a significant (indirect) participation in Clearstream Banking AG, Eurex Bonds GmbH, Eurex Clearing AG, Eurex Repo GmbH, as well as European Commodity Clearing AG. The documents required for a full notification are currently being compiled in coordination with BaFin and the German Central Bank. In connection therewith, since February 15, 2011, several telephone conferences have been held with BaFin and the German Central Bank with regard to certain aspects of the documents that will have to be filed.

Since the period of 60 working days pursuant to Section 2c of the German Banking Act starts only if BaFin has received a notification that is deemed to be complete by BaFin, it may currently not be predicted if the period available to BaFin for any prohibition will expire prior to the expiration of the offer period or if BaFin will issue a corresponding declaration of non-objection.

(iv) France

- (a) Approval by the French Banking Regulatory Authority (*Autorité de Contrôle Prudentiel*, **ACP**) of the change of ownership and control of Euronext Paris S.A. in its capacity as credit institution;

Pursuant to the French Regulation 96-16 of the *Comité de la Réglementation Bancaire et Financière* (**CRBF**) approval is necessary for the change of ownership and control of Euronext Paris S.A. in its capacity as credit institution.

The notice of the change of ownership and control of Euronext Paris S.A. has to be submitted 90 days before the closing date. The ACP has 60 business days at most as of the written acknowledgement of receipt of the notice of the change of ownership and control of Euronext Paris S.A. within which to evaluate the transaction.

As of the date hereof, several preparatory meetings have been held with ACP in order to discuss the intended combination. Holdco and Euronext Paris S.A. will shortly submit their application for the requisite approval to ACP.

- (b) Approval by the French Minister of the Economy, upon advice of the French Financial Markets Authority AMF of the acquisition of indirect control of Euronext Paris S.A. and Bluenext S.A. in their capacity as market operators;

According to Article L.421-9-11 of the French Monetary and Financial Code (*Code Monétaire et Financier*), approval by the French Minister of the Economy, upon advice by the AMF, is required for a change of control of Euronext Paris S.A. and Bluenext S.A. in their capacity as market operators.

The French Minister of the Economy will verify the absence of reasons to fear that the contemplated change of control could compromise the management of the regulated financial market.

Table of Contents

If the AMF estimates that the foreseen change of control may affect the conditions based on which the financial market was recognized as a regulated market, it shall determine the measures to be taken and in particular whether or not to propose to the French Minister of the Economy the withdrawal of the regulated market status.

In the absence of any specific timing requirements, the French Minister of the Economy's approval should be obtained within the same timeframe as applies for the approval to be obtained from the ACP.

Several meetings have already been held with representatives of the AMF and the French Minister of the Economy to discuss the proposed combination. On April 13, 2011, the Bidder submitted an application for an approval by the Minister of the Economy to the AMF, complemented by a letter to the Minister of the Economy on April 20, 2011. The AMF will analyse the combination proposal and advise the French Minister of the Economy. The AMF and the French Minister of the Economy will examine whether the contemplated change of control will not compromise the management of the regulated financial market organized by Euronext Paris S.A. and Bluenext S.A.

(v) Luxembourg

In connection with the combination, the acquisition of a substantial (indirect) interest in Clearstream Banking S.A., Clearstream International S.A. and Clearstream Services S.A. must not have been prohibited by the Luxembourg Supervisory Authority for the Financial Sector (*Commission de Surveillance du Secteur Financier*, **CSSF**) within the statutory period available to it, or the CSSF must have issued a corresponding declaration of non-objection within such period. In addition, the acquisition of a substantial (indirect) interest in Risk Transfer Re S.A. must not have been prohibited by the Luxembourg Supervisory Authority for the Insurance Sector (*Commissariat aux Assurances*, **CAA**) within the statutory period available to it, or the CAA must have issued a corresponding declaration of non-objection within such period.

(a) CSSF

Pursuant to Section 6 of the Luxembourg Financial Sector Act (*Loi du 5 avril 1993 relative au secteur financier (telle que modifiée)*), the intended acquisition of a substantial (indirect) interest in Clearstream S.A. must not have been prohibited by CSSF. Upon receipt of the full notification of the intended acquisition, CSSF shall appraise the suitability of the acquirer (here: the Bidder) and the financial soundness of the proposed acquisition against criteria provided by law. The normal 60-business day maximum assessment period may be extended up to 92 business days in certain circumstances. CSSF may refuse the proposed acquisition only if any of the reasons justifying a prohibition provided for by law, such as any unreliability of the acquirer's managing directors, exists.

In addition, the acquisition of a substantial interest in Clearstream International S.A. and Clearstream Services S.A. must not have been prohibited by CSSF either. In such case, CSSF may refuse the proposed acquisition pursuant to Section 18 of the Luxembourg Financial Sector Act within three months after receipt of the notification if any of the legal reasons justifying a prohibition exists.

On February 15, 2011, the Bidder transmitted to CSSF a preliminary notification of the intended acquisition of a substantial (indirect) interest in Clearstream Banking S.A., Clearstream International S.A. and Clearstream Services S.A. The relevant documents to be submitted for a full notification are currently being compiled in coordination with the CSSF. In connection therewith, since February 15, 2011, several telephone conferences have been held with CSSF with respect to certain aspects of the documents to be submitted. Since the assessment period will not start before all required documents have been filed and it is up to

Table of Contents

CSSF to decide when such notification will be deemed to be complete, it is currently not possible to predict if the assessment period will expire prior to the end of the offer period or if CSSF will issue a corresponding declaration of non-objection within such period.

(b) CAA

According to Section 94-1 of the Luxembourg Insurance Act (*Loi modifiée du 6 décembre 1991 sur le secteur des assurances*), the intended acquisition of a substantial (indirect) interest in Risk Transfer Re S.A. must not have been prohibited by CAA. Upon receipt of the full notification, CAA shall appraise the suitability of the acquirer (here: the Bidder) and the financial soundness of the proposed acquisition against criteria provided by law. The normal 60-business day maximum assessment period may be extended up to 92 business days in certain circumstances. CAA may refuse the proposed acquisition only if any of the reasons justifying a prohibition provided for by law, such as any unreliability of the acquirer's managing directors, exists.

On February 15, 2011, the Bidder transmitted to CAA a preliminary notification of the intended acquisition of a substantial (indirect) interest in Risk Transfer Re S.A. The relevant documents to be submitted for a full notification are currently being compiled in coordination with the CAA. Since the assessment period will not start before all required documents have been filed and it is up to CAA to decide when such notification will be deemed to be complete, it is currently not possible to predict if the assessment period will expire prior to the end of the offer period or if CAA will issue a corresponding declaration of non-objection within such period.

(vi) The Netherlands

(a) Declaration of non-objection from the Dutch Minister of Finance (with the advice from the AFM) to Holdco allowing Holdco to indirectly acquire the shares in Euronext Amsterdam N.V. as well as NYSE Euronext (International) B.V., NYSE Euronext (Holding) N.V. and Euronext N.V.;

According to Section 5:32d of the Dutch Financial Supervision Act (*Wet op het financieel toezicht*) no party may, except after first obtaining a declaration of non-objection from the Dutch Minister of Finance, own, acquire or increase a qualifying holding or exercise any control attached to a qualifying participation in an entity that operates or manages a regulated market licensed pursuant to the Dutch Financial Supervision Act. For purposes of this provision, a qualifying participation shall mean a direct or indirect participation which represents 10 % or more of the capital or of the voting rights or which makes it possible to exercise a similar influence over the management of the relevant company.

The intended indirect acquisition by Holdco of the shares in Euronext Amsterdam N.V. and NYSE Euronext (International) B.V., NYSE Euronext (Holding) N.V. and Euronext N.V. requires such a declaration of non-objection from the Dutch Minister of Finance. Obtaining a declaration of non-objection could take up to 13 weeks (from the time the application is deemed complete). Section 5:32d of the Dutch Financial Supervision Act contains the grounds for refusal of such a declaration of non-objection.

In addition, the Policy of the Minister of Finance with respect to applications and issuance of declarations of non-objection for qualifying participations in an entity that operates or manages a regulated market (*Beleidslijn verklaringen van geen bezwaar gereguleerde markten*) elaborates upon the procedure for obtaining such a declaration of non-objection and also contains certain elements that could be considered during an application process. The Policy referred to in the preceding sentence contains a separate paragraph Euronext which provides that the joint policy of the College of Euronext Regulators with respect to the shareholder structure included in the Memorandum of Understanding dated June 24, 2010 shall be developed and adhered to.

Table of Contents

On April 13, 2011, the Bidder submitted its application for the requisite declaration of non-objection to the Dutch Minister of Finance, with a copy to the AFM. Prior to that, two meetings have been held with the representatives of the Ministry of Finance and the AFM in order to discuss the proposed combination. As of the date hereof, the Minister of Finance has given a preliminary response requesting additional information for the purpose of reviewing the application.

- (b) Notification of the Combination and confirmation, reissuance, renewal or amendment of the existing declarations of non-objection issued to NYSE Euronext, NYSE Euronext (International) B.V., NYSE Euronext (Holding) N.V. and Euronext N.V. by the Dutch Minister of Finance (with advice from the AFM) or by the AFM on behalf of the Dutch Minister of Finance, as applicable, if so required by the Minister or the AFM, in each case allowing the relevant entity to acquire or hold, indirectly or directly, as the case may be, the shares in Euronext Amsterdam N.V.;

Under the existing declarations of non-objection issued to NYSE Euronext and NYSE Euronext (International) B.V., NYSE Euronext (Holding) N.V. and Euronext N.V. pursuant to Sections 5:32d or 3:95(1)(c) of the Dutch Financial Supervision Act, in each case allowing the relevant entity to, directly or indirectly, acquire or hold the shares of Euronext Amsterdam N.V., the proposed combination shall be notified to the Dutch Minister of Finance and the AFM and the Dutch Minister of Finance and the AFM have to confirm, reissue, renew or amend such declarations of non-objection, if so required by the Minister or the AFM. No specific waiting periods apply.

In the absence of any action by the Minister of Finance or the AFM to the contrary following notification, the existing declarations of non-objection shall remain in force.

The respective notification is intended to be made before long. As of the date hereof, two meetings have been held with representatives of the Ministry of Finance and the AFM in order to discuss the proposed combination.

- (c) Notification to and review and approval by the Dutch Minister of Finance and the AFM of the proposed combination and confirmation, renewal, reissuance or amendment of the existing exchange license granted to Euronext Amsterdam N.V., NYSE Euronext (International) B.V., NYSE Euronext (Holding) N.V. and Euronext N.V. pursuant to Sections 5:26 and 2:96 of the Dutch Financial Supervision Act, if so required by the Minister of Finance or the AFM;

The AFM will have to decide within six weeks, but this is a non-fatal term and can be extended.

In the absence of any action by the Minister of Finance or the AFM to the contrary following notification, the existing exchange license shall remain in force.

The respective notification will be made before long. As of the date hereof, two meetings have been held with representatives of the Ministry of Finance and the AFM in order to discuss the proposed combination.

- (d) Declaration of non-objection from the Dutch Central Bank (*De Nederlandsche Bank*, **DNB**) for Holdco allowing Holdco to indirectly acquire the shares in Euronext Amsterdam N.V., NYSE Euronext (International) B.V., NYSE Euronext (Holding) N.V. and Euronext N.V. or notification by the DNB that such declaration of non-objection is not required.

According to Section 3:95(1)(c) of the Dutch Financial Supervision Act no party may, except after first obtaining a declaration of non-objection from DNB, own, acquire or increase a qualifying holding or exercise any control attached to a qualifying holding in an investment firm (beleggingsonderneming). As a matter of Dutch law, a regulated market operating a multilateral trading facility (**MTF**) qualifies and is regulated as an investment firm. For the

Table of Contents

purposes of Section 3:95(1)(c) of the Dutch Financial Supervision Act, a qualifying holding shall mean a direct or indirect participation which represents 10% or more of the capital or of the voting rights or which makes it possible to exercise a similar influence over the management of the relevant company.

Euronext Amsterdam operates two MTFs, and Euronext Amsterdam N.V. as well as NYSE Euronext (International) B.V., NYSE Euronext (Holding) N.V. and Euronext N.V. are licensed to operate an MTF. The intended indirect acquisition by Holdco of the shares in Euronext Amsterdam N.V. and NYSE Euronext (International) B.V., NYSE Euronext (Holding) N.V. and Euronext N.V. requires a declaration of non-objection from DNB. Obtaining a declaration of non-objection could take up to 13 weeks (from the time the application is deemed complete). Section 3:100 of the Dutch Financial Supervision Act contains the grounds for refusal of such a declaration of non-objection.

The application for a declaration of non-objection is expected to be submitted shortly. Prior to the date hereof, a meeting has been held with representatives of the DNB to discuss the proposed Combination.

(vii) Portugal

(a) Explicit approval by the Portuguese Minister of Finance of the change of ownership and control of Euronext Lisbon Sociedade Gestora de Mercados Regulamentados, S.A. (**Euronext Lisbon**) upon favourable opinion by the CMVM; Pursuant to Decree-law n°375-C/2007 of October 31, 2007, every acquisition of more than 50% of the voting rights of Euronext Lisbon must be authorized by the Portuguese Minister of Finance, upon receiving an opinion from the CMVM. The authorization must be provided prior to the consummation of the change of ownership and control.

The Portuguese Minister of Finance shall render a decision within the two months following receipt of the request for authorization and the CMVM shall provide an opinion within one month following receipt of the request. However, if the Portuguese Minister of Finance or the CMVM request additional information said deadline periods shall commence on the day the required information is received.

Explicit approval is required and therefore, failure to obtain the requisite approval within the statutory waiting period shall constitute a refusal of the Portuguese Minister of Finance to approve the change of ownership and control of Euronext Lisbon.

On April 4 and 6, 2011, meetings were held with the CMVM in order to discuss the combination. On April 13, 2011, Holdco filed a letter of notice with the Portuguese Minister of Finance. Subsequently, Holdco has not received any letter requesting information. The timing of the further process is yet unknown.

(b) The CMVM shall be notified of the of change of ownership and control in Euronext Lisbon and has either not prohibited such change of control within the time period available to it or has issued a declaration of non-objection to such change of control, each pursuant to Decree-law n°357-C/2007 of October 31, 2007; Pursuant to Decree-law n° 357-C/2007 of October 31, 2007 (as amended by Decree-law n° 52/2010 of May 26, 2010, entities wishing to acquire a relevant shareholding (*i.e.*, a direct or indirect shareholding of more than 10% or otherwise implying the chance to exercise a significant influence in the relevant company's management) in Euronext Lisbon shall previously notify the intended acquisition to the CMVM and the CMVM shall have declared that it does not oppose to such shareholding. The relevant notifications need to be provided

Table of Contents

prior to the consummation of the change of ownership and control. The CMVM shall issue its decision within 30 business days (which period may be extended in the event that any additional information is requested).

However, if the CMVM has not prohibited the change of ownership and control within the statutory appraisal period, this shall be deemed a non-objection by the CMVM to the change of ownership and control of Euronext Lisbon and no explicit approval shall be required.

On April 4 and 6, 2011, meetings were held with the CMVM in order to discuss the combination. On April 13, 2011, Holdco filed a letter of notice with the CMVM. Subsequently, Holdco has not received any letter requesting information. The timing of the further process is yet unknown.

- (c) The CMVM shall be notified of the change of ownership and control in Interbolsa Sociedade Gestora de Sistemas de Liquidação e de Sistemas Centralizados de Valores Mobiliários S.A. (**Interbolsa**) and has either not prohibited such change of control within the time period available to it or has issued a declaration of non-objection to such change of control, each pursuant to Decree-law n°357-C/2007 of October 31, 2007;

Pursuant to Decree-law n° 357-C/2007 of October 31, 2007 (as amended by Decree-law n° 52/2010 of May 26, 2010, entities wishing to acquire a relevant shareholding (*i.e.*, a direct or indirect shareholding of more than 10% or otherwise implying the chance to exercise a significant influence in the relevant company's management) in Interbolsa shall previously notify the intended acquisition to the CMVM and the CMVM shall have declared that it does not oppose to such shareholding. The relevant notifications need to be provided prior to the consummation of the change of ownership and control. The CMVM shall issue its decision within 30 business days (which period may be extended in the event that any additional information is requested).

However, if the CMVM has not prohibited the change of ownership and control within the statutory appraisal period, this shall be deemed a non-objection by the CMVM to the change of ownership and control of Interbolsa and no explicit approval shall be required.

On April 4 and 6, 2011, meetings were held with the CMVM in order to discuss the combination. On April 13, 2011, Holdco filed a letter of notice with the CMVM. Subsequently, Holdco has not received any letter requesting information. The timing of the further process is yet unknown.

(viii) Spain

In connection with the combination, no regulatory approval proceedings are required in Spain. The change of control at Infobolsa S.A., Link-Up Capital Markets S.L. and Open Finance S.L. will only require a notification to the General Directorate of Commercial Policy and Foreign Investment. Such notification must be effected following completion of the exchange offer.

(ix) Switzerland

In connection with the combination, no regulatory approval proceedings are required in Switzerland. The change of control at Eurex Zürich AG and Scoach Schweiz AG will only require a notification to the Swiss Financial Market Supervisory Authority (**FINMA**). Such notification must be effected following completion of the exchange offer.

(x) United Kingdom

- (a) Approval by the FSA in respect of the change of ownership and control of LIFFE Administration and Management (a private unlimited company);

Table of Contents

Pursuant to Chapter 1A of Part XVIII of the Financial Services and Markets Act 2000, notification must be made to the FSA by any person intending to acquire control over LIFFE Administration and Management (the exchange itself is also under a duty to notify pursuant to Sections REC 2.4.1 and 2.4.4 of the Recognised Investment Exchange and Recognised Clearing House Sourcebook (**REC**) of the FSA Handbook). The FSA must decide within three months from the receipt of the application whether to approve or object to the change of control.

On April 13, 2011, Holdco has filed a respective notification with the FSA. The Exchange itself notified the FSA of Holdco's proposed acquisition on April 14, 2011. The FSA has not yet responded to the application.

- (b) Approval by the FSA in respect of the change of ownership and control of LIFFE Services Limited, Secfinex Limited, Smartpool Trading Limited and Fix City Limited;

Pursuant to Part XII of the Financial Services and Markets Act 2000 and Section SUP 11.3.4 R of the Regulatory Processes – Supervision Manual (**SUP**) of the FSA Handbook, any intended change of control in respect of LIFFE Services Limited, Secfinex Limited, Smartpool Trading Limited and Fix City Limited must be filed with the FSA. The firms themselves are also under a duty to notify pursuant to SUP 11.4.7 R. to the FSA. has 60 days to approve or object to the change of control.

On April 15, 2011, the Bidder has filed the respective notification with the FSA. The firms themselves jointly notified the FSA on April 14, 2011. The FSA has not yet responded to the application.

13.2.3 Other Countries

In addition, it is expected that a number of regulatory approvals in other countries will be solicited and a number of regulatory notifications will be made in connection with the combination. To the extent any legal decision periods apply to such approval proceedings, such periods will be started only through the filing of complete documents as a rule. The assessment of whether the documents filed are complete is regularly at the discretion of the relevant authority granting the approval in this context. Against this background, it is currently impossible to predict the duration of the approval proceedings. The abovementioned approvals and notifications include, inter alia, the following:

- (i) India

In connection with the combination, no regulatory approval proceedings are required in India. The change of control at Bombay Stock Exchange will only require a notification to the Foreign Investment Promotion Board (**FIPB**). Such notification must be effected following completion of the exchange offer.

- (ii) Singapore

In connection with the combination, no regulatory approval proceedings are required in Singapore. The change of control at Clearstream Banking S.A. and Eurex Frankfurt AG will only require a notification to the Monetary Authority. Such notification must be effected following completion of the exchange offer.

13.3 Registration Statement

13.3.1 Status of Proceedings

The Registration Statement is necessary with regard to the shares to be issued in the exchange offer and the merger. It is requisite, inter alia, for the issuance of shares in the exchange offer and the merger, that the Registration Statement has been declared effective by the SEC.

Table of Contents

A draft of the Registration Statement was confidentially filed with the SEC on March 15, 2011 on Form F-4 and a revised version of the Registration Statement was publicly filed with the SEC of April 7, 2011. On April 8, 2011, the Bidder has received first comments from the SEC. On April 25, 2011, the Bidder has submitted a revised version to the SEC. The Bidder expects that SEC will have further comments. As soon as the SEC is convinced that the Bidder has taken account of all its comments, it will declare the Registration Statement effective.

The Bidder currently expects that the proceedings will be terminated in May 2011. The exchange offer may begin prior to the termination of this proceedings as a so-called Early Commencement (see section 13.3.3).

13.3.2 Stop order

If, according to the opinion of the SEC, the registration statement which has been declared effective, contains untrue information or omits to state essential information, the SEC may, upon respective hearing of the Bidder, issue a so-called stop order in respect of the registration statement pursuant to Section 8(d) of the Securities Act which would inhibit the validity of the registration statement. In this case, the Bidder would not be authorized to issue the shares to be issued in the exchange offer and the merger. However, if the Bidder revises the registration statement according to the requirements of the stop order, the SEC will override the stop order if it takes the view that the reasons for the issuance of the stop order do not exist anymore. In practice, stop orders are relatively rare as the SEC expresses potential objections against the registration statement within its review process and therefore, the Bidder can take these into account beforehand.

13.3.3 Early Commencement

In the United States, the exchange offer may continue before the registration statement has been declared valid in a so-called early commencement .

In this case, it is generally sufficient pursuant to Rule 14(d)-4(b) of the U.S. Securities Act of 1933 if the Registration Statement has been declared effective prior to the consummation of the exchange offer. However, in the case at hand, the registration statement must have been declared effective at the latest 30 days prior to the extraordinary shareholder meeting of NYSE Euronext which decides about the merger as a result of interfering regulations within the law of the United States. Currently, this extraordinary shareholder meeting is intended to take place on July 7, 2011. In each case, it will take place prior to the expiration of the acceptance period. In the case of an extension of the acceptance period pursuant to statutory law (see section 5.3), the date may also be at a later time.

According to Rule 162(a) of the Securities Act, the shareholders must be granted withdrawal rights until the end of the acceptance period in the case of an early commencement. Furthermore, pursuant to Rule 14-4(d) of the Securities Act, it is necessary that (i) if a material change occurs in the information given to the shareholders, this changed is noticed to the shareholders, and (ii) at least five business days lie between this notice and the end of the acceptance period or the day on which existing withdrawal rights cease to exist. In case that the material change occurs in respect of price-relevant information, the extent of the consideration, costs related to the acceptance of the exchange offer or if an amendment to the prospectus as part of an amendment of the F-4 is sent to the shareholders, this time period will be extended to ten business days. If the former prospectus has been materially deficient, the requisite time period between the notice to the shareholders and the end of the acceptance period or the day on which existing withdrawal rights cease to exist is 20 business days.

The Bidder intends to file the English translation of this exchange offer document with the SEC by May 4, 2011 at the latest.

13.4 IRS Ruling

The consummation of the exchange offer is also subject to NYSE Euronext receiving one or more so-called private letter rulings of the U.S. Internal Revenue Service (**IRS**) to the effect that the exchange of NYSE

Table of Contents

Euronext shares for Holdco shares in the course of the merger by U.S. persons will be treated tax-neutral pursuant to U.S. income tax law. As approximately 40% of the Deutsche Börse shares are held by U.S. shareholders, it is furthermore a condition to the consummation of the exchange offer that Deutsche Börse has received a private letter ruling of the IRS to the effect that the exchange of Deutsche Börse shares for Holdco shares within the exchange offer will be treated tax-neutral pursuant to U.S. income tax law.

A private letter ruling is a written declaration provided by an IRS Associate Chief Counsel as competent division in the U.S. tax authority as answer to the written request of a tax payer, e.g. regarding the tax consequences of his behaviour or of business transactions he has made.

The first step of the proceedings of a private letter ruling is that the tax payer prepares a memorandum with respect to the technical aspects that are affected by the transaction and the private letter ruling that the tax payer intends to apply for. This is followed by a meeting with representatives of the IRS in order to discuss these aspects as well as the question whether the issuance of a private letter ruling is possible in the respective case. NYSE Euronext and Deutsche Börse have filed such a memorandum with the IRS on February 19, 2011. First discussions with the IRS were held in the week of February 21, 2011. If the IRS is willing to issue the requested private letter ruling, the tax payer has to file a formal written application. In the case at hand, a respective application was filed on April 12, 2011.

As soon as an application is received by the IRS, the IRS will contact the tax payer and his representatives, respectively, within 21 calendar days. However, this contact is generally limited to questions of the procedure. If the IRS deems the application not complete regarding the requisite information, it will inform the tax payer that the application will be rejected if the IRS will not receive the requested information within 21 calendar days from the request or a prolongation of the time period.

At the end of the proceedings, the IRS may, for purposes of expediting the procedure, request that the tax payer files a draft of the private letter ruling. Typically, such a draft is subject to a further coordination between the IRS and the tax payer before the private letter ruling is finally issued. In the light of this, in the case at hand, it is difficult to predict the exact time period that is required in order to receive a private letter ruling.

13.5 Permission to publish this exchange offer document

On May 2, 2011, BaFin permitted the publication of this exchange offer document by the Bidder⁽¹⁾.

14 Prerequisites for completion of the exchange offer

14.1 Completion conditions

This exchange offer and the agreements which come into existence as a result of accepting the exchange offer will only be completed if the following conditions (the **completion conditions**) are satisfied, see also section 13.3):

(a) Minimum Condition

The sum of the total number of Deutsche Börse shares in relation to which the exchange offer has been accepted and withdrawal has not been validly declared and the total number of Deutsche Börse shares that the Bidder already holds or has acquired, equals at least 75% of the sum of Deutsche Börse shares issued as of the end of the offer acceptance period and the number of total future Deutsche Börse option shares.

(b) Competition Approvals

- (i)** On or prior to March 31, 2012, the EU Commission has, or is deemed to have, cleared the combination pursuant to the EC Merger Regulation.

Edgar Filing: NYSE Euronext - Form 425

- (ii) On or prior to March 31, 2012, any waiting period including any extension thereof, applicable to the combination pursuant to the HSR Act shall have expired or been terminated with the consequence that the combination may be consummated.

⁽¹⁾ The review and permission of BaFin relates exclusively to the German language offer document as published by Holdco on May 4, 2011 (see disclaimer on the cover page).

Table of Contents

(c) Effectiveness of the registration statement

The registration statement regarding the Holdco shares to be issued to the Bidder in the context of the exchange offer and the merger

- (i) shall have been declared effective by the SEC prior to the end of the offer acceptance period and
- (ii) at the time of the expiration of the acceptance period shall not be subject of any stop order by the SEC pursuant to Section 8(d) of the Securities Act or any proceeding initiated by the SEC seeking such a stop order.

(d) NYSE Euronext requisite vote

Prior to the end of the offer acceptance period, the NYSE Euronext requisite vote shall have been obtained.

(e) Governmental and Judicial Proceedings

At the time of the expiration of the acceptance period, neither any governmental entity nor legislative body nor court in

- (i) the United States,
- (ii) Germany,
- (iii) the Netherlands,
- (iv) France,
- (v) the United Kingdom,
- (vi) Portugal,
- (vii) Belgium,
- (viii) Switzerland or

- (ix) Luxembourg,

shall have enacted any legislation, regulation, administrative act or injunction which is in force at the aforementioned time and would prohibit or make illegal the combination or the acquisition or ownership of the Deutsche Börse shares or of the NYSE Euronext shares by the Bidder.

Edgar Filing: NYSE Euronext - Form 425

(f) Other Approvals

On or prior to March 31, 2012, the following approvals have been obtained:

- (i) The SEC shall have approved the application under Rule 19b-4 of the Exchange Act submitted by NYSE Euronext and/or its subsidiaries and by Deutsche Börse and/or its subsidiaries with respect to the combination;
- (ii) the Dutch Minister of Finance shall have (upon recommendation of the AFM) issued a declaration of non-objection to the Bidder in connection with the combination pursuant to Section 5:32d of the Dutch Financial Supervision Act allowing Holdco to indirectly acquire the shares in Euronext Amsterdam N.V. as well as NYSE Euronext (International) B.V., NYSE Euronext (Holding) N.V. and Euronext N.V.;
- (iii) the Dutch Minister of Finance (with advice from the AFM) or the AFM on behalf of the Dutch Minister of Finance, as applicable, shall have confirmed, reissued, renewed or amended, if so required by the Minister of Finance or the AFM, the existing declaration of non-objection issued to NYSE Euronext, NYSE Euronext (International) B.V., NYSE Euronext (Holding) N.V. and Euronext N.V. pursuant to Section 5:32d of the Dutch Financial Supervision Act, in each case allowing the relevant entity to acquire or hold,

Table of Contents

indirectly or directly, as the case may be, the shares of Euronext Amsterdam N.V., or the Dutch Minister of Finance and the AFM shall not have indicated that any such confirmation, reissuance, renewal or amendment is required;

- (iv) the Dutch Minister of Finance and the AFM shall have reviewed and approved the combination, and confirmed, reissued, renewed or amended, if so required by the Dutch Minister of Finance or the AFM, the existing exchange license granted to Euronext Amsterdam N.V., NYSE Euronext (International) B.V., NYSE Euronext (Holding) N.V. and Euronext N.V. pursuant to Sections 5:26 and 2:96 of the Dutch Financial Supervision Act, or the Dutch Minister of Finance and the AFM shall not have indicated that any such confirmation, reissuance, renewal or amendment is required;
- (v) the DNB shall have issued a declaration of non-objection to Holdco pursuant to Section 3:95(1)(c) of the Dutch Financial Supervision Act allowing Holdco to indirectly acquire the shares in Euronext Amsterdam N.V. as well as NYSE Euronext (International) B.V., NYSE Euronext (Holding) N.V. and Euronext N.V. in their capacity as licensed operators of multilateral trading facilities, or the DNB shall have indicated that such declaration of non-objection is not required;
- (vi) the College of Euronext Regulators shall have issued a declaration of non-objection to the combination facilities, pursuant to the memorandum of understanding as of June 24, 2010;
- (vii) the Hessian Exchange Supervisory Authority did not prohibit the intended indirect acquisition of a significant participation in Deutsche Börse, Scoach Europa AG and Eurex Frankfurt AG within the period available to it pursuant to Section 6 paras. 1, 2 of the German Stock Exchange Act, (*Börsengesetz*) or it issued a corresponding declaration of non-objection with regard to the specifically intended acquisition within this period;
- (viii) the Saxonian Exchange Supervisory Authority did not prohibit the intended indirect acquisition of a significant participation in European Energy Exchange AG and EEX Power Derivatives GmbH within the period available to it pursuant to Section 6 paras. 1, 2 of the German Stock Exchange Act, or it issued a corresponding declaration of non-objection with regard to the specifically intended acquisition within this period;
- (ix) the Berlin Exchange Supervisory Authority did not prohibit the intended indirect acquisition of a significant participation in Tradegate Exchange GmbH within the period available to it pursuant to Section 6 paras. 1, 2 of the German Stock Exchange Act, or it issued a corresponding declaration of non-objection with regard to the specifically intended acquisition within this period;
- (x) the BaFin did not prohibit the intended indirect acquisition of a significant participation in European Commodity Clearing AG, Eurex Clearing AG, Eurex Repo GmbH, Eurex Bonds GmbH and Clearstream Banking AG within the period available to it pursuant to Section 2c of the German Banking Act, or it issued a corresponding declaration of non-objection with regard to the specifically intended acquisition within this period;
- (xi) the ACP shall have granted the approval required pursuant to French Regulation 96-16 of the CRBF relating to the change of ownership and control of Euronext Paris S.A. in its capacity as credit institution;
- (xii) the French Minister of the Economy shall have granted, upon advice of the AMF, the approval required pursuant to Article L. 421-9 II of the French Monetary and Financial Code relating to the change of ownership and control of Euronext Paris SA and BlueNext SA in their capacity as regulated market operators;

- (xiii) the FSA shall have granted its approval in respect of the change of ownership and control of LIFFE Administration and Management pursuant to Chapter 1A of Part XVIII of the Financial Services and Markets Act 2000;

Table of Contents

- (xiv) the FSA shall have granted its approval in respect of the change of ownership and control of LIFFE Services Limited, Secfinex Limited, Smartpool Trading Limited and Fix City Limited pursuant to Part XII of the Financial Services and Markets Act 2000 and Section SUP 11.3.4 R of the Regulatory Processes Supervision Manual of the FSA Handbook;
- (xv) the FSMA shall not have prohibited the intended change of ownership and control of Euronext Brussels S.A./N.V. within the thirty days period available to it pursuant to Article 19 of the Belgian Law of August 2, 2002, or it shall have issued a corresponding declaration of non-objection in respect of such intended change of ownership and control of Euronext Brussels SA/NV within this period;
- (xvi) Euronext Brussels S.A./N.V. shall have received a confirmation by the Belgian Ministry of Finance regarding the preservation of its status as regulated market and as licensed market pursuant to Articles 3, 17 and 18 of the Belgian Law of August 2, 2002, or in the absence of such confirmation, Euronext Brussels S.A./N.V. shall not have received any notification by the Belgian Ministry of Finance to the contrary;
- (xvii) the Portuguese Minister of Finance shall have explicitly approved of the change of ownership and control of Euronext Lisbon S.A. upon a positive legal opinion of the CMVM pursuant to Decree-law n° 357-C/2007 of October 31, 2007, as amended;
- (xviii) the CMVM shall be notified of the change of ownership and control of Euronext Lisbon and has either not prohibited such change of control within the period available to it or has issued a declaration of non-objection to such change of control each pursuant to Decree-law n° 357-C/2007 of October 31, 2007, as amended;
- (xix) The CMVM shall be notified of the change of ownership and control of Interbolsa and has either not prohibited such change of control within the period available to it or has issued a declaration of non-objection to such change of control each pursuant to Decree-law n° 357-C/2007 of October 31, 2007, as amended;
- (xx) CFIUS shall have granted written notice that the review of the combination under Section 721 of the U.S. Defense Protection Act of 1950 has been concluded and CFIUS shall have determined that there are no unresolved national security concerns sufficient to warrant a recommendation that the U.S. President block the exchange offer and/or the merger under such Section 721 of the U.S. Defense Protection Act of 1950 and advised that action under such Section 721 has been concluded with respect to the combination.
- (xxi) the CSSF did not prohibit the intended indirect acquisition of Clearstream Banking S.A., Clearstream International S.A. and Clearstream Services S.A. within the statutory period available to it pursuant to Articles 6 (5), 6 (16), 18 (5) and 18 (17) of the Luxembourg Financial Sector Act of April 5, 1993, or it issued corresponding declarations of non-objection with regard to the acquisition within this period;
- (xxii) the CAA did not prohibit the intended indirect acquisition of Risk Transfer Re S.A. within the statutory period available to it pursuant to Articles 94 I (4) and 94 I (15) of the Luxembourg Insurance Act of December 6, 1991, or it issued a corresponding declaration of non-objection with regard to the acquisition within this period.

(g) No Material Adverse Market Change

During the time between the publication of the exchange offer document and the end of the offer acceptance period, there shall not have occurred a suspension of the currency trading or debt markets in

(i) Frankfurt am Main, Federal Republic of Germany, and London, Great Britain, or

(ii) the City of New York, New York, USA
for more than three consecutive trading days.

Table of Contents

(h) No offer material adverse effect relating to NYSE Euronext

During the time between the publication of the exchange offer document and the end of the offer acceptance period, there shall not have occurred an offer material adverse effect relating to NYSE Euronext (**the offer material adverse effect in relation to NYSE Euronext**).

An offer material adverse effect relating to NYSE Euronext is the occurrence of a circumstance or circumstances relating to NYSE Euronext, that, according to the assessment of an independent expert, has or have resulted in, or would reasonably be expected to result in, individually or in the aggregate, a decrease in the consolidated net revenues of NYSE Euronext of at least US\$ 300,000,000 in the 2011 financial year and/or 2012 financial year of NYSE Euronext, to the extent the decrease is recurrent. Consolidated net revenues of NYSE Euronext are the total revenues less transaction-based expenses pursuant to the consolidated financial statement 2010.

An offer material adverse effect relating to NYSE Euronext will only be deemed to have occurred if, on or before the day before the publication of the results of the exchange offer pursuant to Section 23 para. 1 sentence 1 no. 2 German Takeover Act, an independent expert from Deloitte & Touche GmbH Wirtschaftsprüfungsgesellschaft (the **independent expert**), using the due and careful consideration of a diligent professional, has delivered an opinion that an offer material adverse effect has occurred. Upon request of the Bidder the independent expert will undertake an evaluation of whether an offer material adverse effect relating to NYSE Euronext has occurred . The independent expert shall further carry out his evaluation without undue delay. The opinion of the independent expert is binding on and non-appealable by the Bidder and Deutsche Börse shareholders and will be published by the Bidder without undue delay in the electronic Federal Gazette (*elektronischer Bundesanzeiger*), the *Frankfurter Allgemeine Zeitung* and *The Wall Street Journal* (US edition) with reference to the exchange offer.

(i) No offer material adverse effect relating to Deutsche Börse

During the time between the publication of the exchange offer document and the end of the offer acceptance period, there shall not have occurred an offer material adverse effect relating to Deutsche Börse (**the offer material adverse effect relating to Deutsche Börse**).

An offer material adverse effect relating to Deutsche Börse is the occurrence of a circumstance or circumstances relating to Deutsche Börse, that, according to the assessment of the independent expert, has or have resulted in, or would reasonably be expected to result in, individually or in the aggregate, a decrease in the consolidated net revenues of Deutsche Börse, of at least US\$ 300,000,000 in the 2011 financial year and/or 2012 financial year of Deutsche Börse, to the extent the decrease is recurrent. Consolidated net revenues of Deutsche Börse are the total revenues less volume-related costs pursuant to the consolidated financial statement 2010.

An offer material adverse relating to Deutsche Börse effect will only be deemed to have occurred if, on or before the day before the publication of the results of the exchange offer pursuant to Section 23 para. 1 sentence 1 no. 2 German Takeover Act, the independent expert, using the due and careful consideration of a diligent professional, has delivered an opinion that an offer material adverse effect relating to Deutsche Börse has occurred. Upon request of the Bidder the independent expert will undertake an evaluation of whether an offer material adverse effect relating to Deutsche Börse has occurred. The independent expert shall further carry out his evaluation without undue delay. The opinion of the independent expert is binding on and non-appealable by the Bidder and Deutsche Börse shareholders and will be published by the Bidder without undue delay in the electronic Federal Gazette (*elektronischer Bundesanzeiger*), the *Frankfurter Allgemeine Zeitung* and *The Wall Street Journal* (US edition) with reference to the exchange offer.

Table of Contents

(j) **IRS Ruling or Rulings vis-à-vis NYSE Euronext**

On or prior to the end of the offer acceptance period, NYSE Euronext shall have received one or more private letter rulings from the U.S. Internal Revenue Service (**IRS**) substantially to the effect that

- (i) the merger will qualify as a reorganization within the meaning of Section 368(a) of the U.S. Internal Revenue Code and/or the merger and the exchange offer, taken together, will qualify as an exchange within the meaning of Section 351(a) of the U.S. Internal Revenue Code; and
- (ii) (A) the transfer of NYSE Euronext shares by U.S. persons for shares of the Bidder will qualify for an exception to Section 367(a)(1) of the U.S. Internal Revenue Code under U.S. Treasury Regulation Sections 1.367(a)-3(c)(1) and 1.367(a)-3(c)(9), and (B) any U.S. person transferring NYSE Euronext shares to the Bidder who is a 5% transferee shareholder of NYSE Euronext (within the meaning of U.S. Treasury Regulation Section 1.367(a)-3(c)(5)(ii)) will qualify for the exception to Section 367(a)(1) of the U.S. Internal Revenue Code only upon entering a five-year gain recognition agreement pursuant to U.S. Treasury Regulation Section 1.367(a)-8.

(k) **IRS-Ruling vis-à-vis Deutsche Börse**

On or prior to the end of the offer acceptance period, Deutsche Börse shall have received a private letter ruling from the IRS substantially to the effect that the exchange offer will qualify as a transaction described in Section 351 (a) of the U.S. Internal Revenue Code and/or the exchange offer and the merger, taken together, will qualify as transaction described in Section 351(a) of the U.S. Internal Revenue Code.

14.2 Waiver of completion conditions

With the exception of the completion condition under lit. (d) which cannot be waived, the Bidder reserves the right to waive in whole or in part one, several or all of the completion conditions up to one working day prior to the end of the offer acceptance period. Completion conditions which the Bidder has validly waived shall be deemed to have been satisfied for the purpose of this exchange offer. For the purposes of Section 21 para. 1 no. 3 and no. 4 German Takeover Act, the publication of the amendment of the exchange offer pursuant to Section 21 para. 2 German Takeover Act in conjunction with Section 14 para. 3 German Takeover Act shall be decisive. In the event of a waiver of completion conditions within the last two weeks prior to the end of the offer acceptance period specified in section 5.1, the offer acceptance period will be extended by two weeks pursuant to Section 21 para. 5 German Takeover Act (presumably until July 27, 2011).

A waiver of a completion condition after the end of the offer acceptance period is not possible.

14.3 Non-satisfaction of completion conditions

If one or more of the completion conditions set out in section 14.1 have not been fulfilled at the latest time possible or the timely fulfillment of one or more completion conditions has become impossible and if, prior to this date, the Bidder has not validly waived the relevant completion conditions pursuant to Section 21 para. 1 sentence 1 no. 4 German Takeover Act, the exchange offer will lapse. In this case, the agreements which came into existence as a result of accepting the exchange offer will not be completed and will cease to exist (condition subsequent). Deutsche Börse shares already tendered shall be re-transferred. Accordingly, the Custodian Banks will have to arrange for the tendered Deutsche Börse shares to be re-booked into ISIN DE0005810055 without undue delay, but in any event within five banking days after the publication of the lapse of the exchange offer. The unwinding (*Rückabwicklung*) is free of costs and expenses of Custodian Banks (please see, however, section 12.7 of the exchange offer document for details).

Table of Contents

14.4 Publications

If (a) a completion condition has been satisfied, (b) a completion condition has been waived, (c) all completion conditions have been satisfied, or (d) the exchange offer will not be completed, the Bidder will publish this fact without undue delay (i) on the internet at <http://www.global-exchange-operator.com> (in German as well as in English language) and (ii) in German language in the electronic Federal Gazette as well as (iii) in English language in the United States via an electronically operated information distribution system.

15 Financing of the exchange offer

15.1 Financing requirements

Currently, 195,000,000 Deutsche Börse shares have been issued. If the exchange offer were accepted by all shareholders of Deutsche Börse, the Bidder would have to deliver 195,000,000 Holdco offer shares in exchange for 195,000,000 Deutsche Börse shares to be acquired on the basis of the exchange ratio of 1 Holdco offer share for 1 Deutsche Börse share.

The Bidder will also have to deliver Holdco offer shares in exchange for any shares which Deutsche Börse may issue at any time after the publication of the exchange offer document until the end of the additional offer acceptance period (for example in case of shares issued in connection with the exercise of stock options).

Assuming that except for the additional Deutsche Börse shares, no further shares will be issued by Deutsche Börse until the end of the additional offer acceptance period, the sum of existing and additional Deutsche Börse shares would therefore result in a maximum of 195,146,864 Holdco offer shares required in the context of the exchange offer (the **maximum consideration amount**).

With respect to the merger, Holdco will in addition issue up to 125,020,000 Holdco shares (see section 6.3.2(i)). Together with the maximum consideration amount this sums up to a total of up to 320,166,864 Holdco shares.

In addition, costs to be paid by the Bidder for the preparation and execution of the exchange offer and the merger will amount to no more than 4 million (the **transaction costs**).

15.2 Financing measures

The Bidder has taken all necessary actions to ensure that the Holdco offer shares necessary for the complete satisfaction of the exchange offer will be available at the time the rights to the offer consideration will become mature. With respect to the capital measures carried out at the bidder, reference is made to section 6.3.2(i) above.

Through these measures the Bidder will be in the position to issue the necessary amount of Holdco offer shares to satisfy both the maximum consideration amount as well as the amount of Holdco shares necessary for the merger.

The Bidder will, prior to the time of delivery of the Holdco offer shares to the shareholders of Deutsche Börse under the exchange offer, apply for admission of its shares, including the Holdco offer shares, to trading on the regulated market segment of the Frankfurt Stock Exchange (*regulierter Markt*) and, simultaneously, in the sub-segment thereof with additional post-admission obligations (Prime Standard), as well as on the regulated market of Euronext Paris and on the New York Stock Exchange.

The Bidder expects that the Holdco offer shares which the accepting shareholders of Deutsche Börse will receive upon settlement of the exchange offer will have been admitted to trading (listed) at the time of delivery to the shareholders of Deutsche Börse having accepted the exchange offer.

Commencement of trading on the Frankfurt Stock Exchange, Euronext Paris and the New York Stock Exchange is expected to occur immediately after delivery of the Holdco offer shares to the shareholders of Deutsche Börse having accepted the exchange offer.

Table of Contents

In order to finance the transaction costs, Stichting was granted a loan in an amount of 4,000,000 by Deutsche Bank Luxembourg S.A. on March 11, 2011. The proceeds of such loan amount will be on-lent to the bidder by Stichting in accordance with an agreement dated April 29, 2011 by way of a shareholder loan.

16 Expected effects of the completion of the combination on the assets, financial and earnings positions of Holdco

16.1 Basis and assumptions

The financial information contained in sections 16.2 and 16.3 is in particular based on the following current position:

- (i) Holdco has not conducted any material activities other than those incident to its formation and the preparation of the exchange offer and has therefore not generated any revenues or achieved any earnings since its formation until publication of this exchange offer document. Hence, neither audited balance sheets nor profit and loss statements of Holdco are available. For the purposes of showing the effects of the combination on the individual financial statements of Holdco, apart from its audited opening balance sheet, unaudited financial information of Holdco is used;
- (ii) the consideration of the exchange offer consists of 1 Holdco offer share for 1 Deutsche Börse share;
- (iii) currently, there is a total of 195,000,000 Deutsche Börse shares issued; and
- (iv) every shareholder of NYSE Euronext shall receive 0.47 Holdco offer shares for every NYSE Euronext share in the context of the merger.

In addition, the financial information contained in these sections 16.2 and 16.3 is in particular based on the following assumptions:

- (i) The combination has been completed;
- (ii) the exchange offer is accepted by all shareholders of Deutsche Börse;
- (iii) the maximum number of NYSE Euronext shares to be exchanged into Holdco shares upon consummation of the merger is estimated to be approximately 266 million NYSE Euronext shares. This number includes approximately 261.2 million NYSE Euronext shares of common stock issued and outstanding as of February 10, 2011, plus approximately 2.8 million NYSE Euronext shares to be delivered upon vesting of restricted stock units at the time of the merger (but excluding approximately 1.6 million restricted stock units which will vest upon the merger but will be settled in cash rather than shares), plus approximately 1.6 million treasury shares of NYSE Euronext owned by an indirect subsidiary of NYSE Euronext, NYSE Arca Inc., in each case which will be exchanged for Holdco shares in the merger.
- (iv) during the offer acceptance period, in respect of the Deutsche Börse Group share plan 146,864 additional Deutsche Börse shares have been issued and the exchange offer has been accepted with regard to these additional Deutsche Börse shares;
- (v) each Holdco offer share as well as every Holdco share issued with regard to the merger has a nominal value of 1.00 each; and

(vi) the Bidder will incur transaction costs of 4 million which will be provided to Holdco by Stichting by way of a shareholder loan. With respect to the further financial information contained in Section 16.4.2 reference is made to the notes in Section 16.4.2.

Table of Contents**16.2 Expected effects on the balance sheet of Holdco**

The following information describes the expected effects of the completion of the combination on Holdco's opening balance sheet as of February 10, 2011, the day of its formation.

Except for the intended acquisition of Deutsche Börse shares under this exchange offer and NYSE Euronext shares under the merger as well as the loan of Stichting, no other effects on the assets, financial and earnings positions of Holdco, which have occurred since February 10, 2011 or may occur in the future were considered in this section 16.2.

The following table shows the audited opening balance sheet of Holdco as of February 10, 2011. The notes to the opening balance sheet displayed in Annex 2 of the exchange offer document as part of the financial information are an integral part of the balance sheet. Reference is made to such notes.

	EUR
ASSETS	
CURRENT ASSETS	
Cash at bank	
Deutsche Bank AG, Amsterdam, Current account	45,000
	45,000
SHAREHOLDER'S EQUITY AND LIABILITIES	
CAPITAL AND RESERVES	
Issued and paid-up share capital	45,000
Share premium	
Retained earnings	
	45,000

The only effect on assets of the balance sheet of Holdco resulting from the combination is an increase in non-current assets from 0.00 by 17,965 million to 17,965 million while for the assessment of the contributed shares the closing price of the stock of Deutsche Börse of April 29, 2011 at the Frankfurt Stock Exchange (Xetra) of 56.10 per share was adopted. In addition, the transaction costs of 4 million were capitalized as acquisition costs.

On the liabilities and shareholders' equity side, the implementation of the combination leads to an increase of the shareholders' equity from 0.045 million to about 17,961 million. The liabilities are expected to increase from 0.00 to 4 million as a result of the shareholder loan granted by Stichting to Holdco in the amount of 4 million. Since the transaction costs will be capitalized as incidental acquisition costs, they will not have an impact on the results of Holdco.

Table of Contents

The expected implications of the completion of the combination are set forth in following table.

	Holdco opening balance sheet as of February 10, 2011	Expected changes due to the completion of the combination * in Euro	Holdco, adjusted after completion of the combination

Current Liabilities			
		4,000,000	4,000,000
Total Liabilities	45,000	17,965,316,070	17,965,361,070

* Given the connection between the exchange offer and the merger, the expected changes after the completion of the combination have been summarized together.

¹⁾ In connection with the completion of the merger and the exchange offer, a total of approximately 320,166,864 new shares are expected to be issued pursuant to the assumptions set forth in section 16.1, and the 45,000 Class D shares of Holdco that were issued at the time of the incorporation will be cancelled.

²⁾ Taking into account the cancelled 45,000 Class D shares of Holdco.

If the loan made by Stichting to Holdco in the amount of 4 million by way of a shareholder loan reaches maturity due to the cancellation of Class D shares and therefore due to the cessation of the Stichting as a shareholder of Holdco, the shareholder loan will be replaced by third-party bank financing on customary terms.

16.3 Expected effects on the result position of Holdco

From the day of its incorporation until the date of publication of this exchange offer document, Holdco has not generated any income. The Bidder expects that the future results of Holdco will in particular derive from the earnings of Deutsche Börse and NYSE Euronext. The amount of such future income is uncertain. For the financial year 2010, NYSE Euronext generated an annual profit of 425 million and Deutsche Börse generated an annual profit of 395 million (as shown in the illustrative Holdco unaudited condensed consolidated income statements in section 16.4.1 below). The Bidder expects that the future results will be in the same range.

For the financial year 2010, NYSE Euronext and Deutsche Börse distributed dividends in the amount of \$313 million and 390.5 million respectively. Based on the expectation that the amounts will also be generated in future business years, it is also expected that the dividend policy of the two corporations remains unchanged after the completion of the combination (at least until effectiveness of a possible

Table of Contents

profit and loss transfer agreement, see section 10.6.1). Taking into account such assumptions and the further circumstance, that 100 % of the shares in Deutsche Börse are held by Holdco, the future income of Holdco would amount to 628 million per year (considering an exchange rate of \$ 1.32 = 1.00 regarding the dividend of NYSE Euronext).

The bidder expects for 2011 that the necessary costs for financing the interest costs will be around 40,000.

16.4 Further illustrative financial information

16.4.1 Illustrative Holdco unaudited condensed consolidated financial information

The following illustrative unaudited condensed consolidated financial information of Holdco are intended to illustrate the effect of the proposed combination of Deutsche Börse group and NYSE Euronext. Under the terms of the business combination agreement, the participation in Deutsche Börse's business will be brought under Holdco by way of the exchange offer, and the interest in NYSE Euronext's business will be brought under Holdco by way of the merger. The combination will be accounted for as an acquisition of NYSE Euronext by Deutsche Börse under IFRS No. 3 (revised), Business Combinations.

Presented below are the illustrative unaudited condensed consolidated balance sheet of Holdco as of December 31, 2010 and the illustrative unaudited condensed consolidated income statement of Holdco for the year ended December 31, 2010. The illustrative unaudited condensed consolidated income statements of Holdco for the year ended December 31, 2010 has been prepared as though the combination occurred as of January 1, 2010.

Additional assumptions underlying the adjustments for illustrative purposes in this section 16.4 are described in the accompanying notes under section 16.4.2. The illustrative unaudited condensed consolidated financial information of Holdco has been prepared based upon information derived from the following:

- (i) the audited consolidated financial statements of Deutsche Börse Group as of and for the financial year ended December 31, 2010, which have been prepared in accordance with IFRS as adopted by the International Accounting Standards Board (IASB) and included in the financial information in Annex 2; and
- (ii) the audited consolidated financial statements of NYSE Euronext as of and for the year ended December 31, 2010, which have been prepared in accordance with US GAAP and are included in pages F-10 et seq. of Annex 2. These consolidated financial statements have been adjusted to IFRS and translated into euros for purposes of presentation in the illustrative Holdco unaudited condensed consolidated financial information.

The estimated purchase price for the acquisition of NYSE Euronext is approximately 7,000 million based on the per share merger consideration of 0.47 Holdco shares for each NYSE Euronext share outstanding at the time of the completion of the combination, with each Holdco share deemed to have the same value as a Deutsche Börse share (corresponding to the closing share price of Deutsche Börse on the Frankfurt Stock Exchange on April 29, 2011). The actual purchase price will be determined at the completion date based on the Deutsche Börse share price and the U.S. dollar/euro exchange rate at that date and accordingly will vary from that used in the preparation of the Holdco illustrative financial information. A 5% increase or decrease in the Deutsche Börse share price from the price of 56.10 per share, which is the price used in preparing the illustrative financial information, would result in an increase or decrease, respectively, in the purchase price of approximately 350 million.

The combination will be accounted for by Holdco using the acquisition method pursuant to IFRS 3 (revised), Business Combinations, with Deutsche Börse as the successor and accounting acquirer. Under the acquisition method, assets and liabilities are recorded at their fair value on the date of purchase and the total purchase price is allocated to the tangible and intangible assets acquired and liabilities assumed. As of the date of the publication of this exchange offer document, the valuation studies necessary to

Table of Contents

finalize the fair values of the assets acquired and liabilities assumed and the related allocation of the purchase price have not been completed. Accordingly, Holdco has allocated the total estimated purchase price, calculated as described in the notes under section 16.4.2. A final determination of these fair values will reflect, among other things, Holdco's consideration of a final valuation based on the actual net tangible and intangible assets, such as customer relationships, developed and core technologies and trade names that exist as of the completion date of the combination. Any final adjustment will change the allocation of the purchase price, which will affect the fair value assigned to the assets and liabilities and could result in a material change to the illustrative unaudited condensed consolidated financial information of Holdco.

The unaudited adjustments for illustrative purposes give effect to events that are directly attributable to the combination and are factually supportable. The illustrative unaudited condensed consolidated financial information of Holdco is presented for information purposes and reflects estimates and assumptions made by the Bidder based on estimates and assumptions of NYSE Euronext's and Deutsche Börse's management that it considers reasonable. It serves the purposes to represent with regard to the described assumptions and the described initial situation what Holdco's actual results of operations or financial condition would have been had the combination occurred on the dates indicated. It is only indicative with regard to Holdco's future results of operations or financial condition. Holdco's illustrative unaudited condensed consolidated financial information does not reflect the effect of anticipated synergies and efficiencies associated with combining Deutsche Börse and NYSE Euronext.

Significant items primarily related to impairment and exit costs deemed significant by virtue of their size or incidence have been separately disclosed to enable a full understanding of the illustrative unaudited condensed consolidated financial performance of Holdco. For a discussion of such items, see Note 6 under section 16.4.2.

In connection with the combination, the plan to integrate the operations of Deutsche Börse and NYSE Euronext is still being developed. The bidder, Deutsche Börse and NYSE Euronext expect to incur approximately 600 million to 800 million (or 1.5 to 2.0 times the anticipated full run-rate cost savings) of pre-tax implementation and restructuring costs associated with combining the operations of Deutsche Börse and NYSE Euronext. In addition, the combined group may incur additional expenses in connection with change-in control provisions included in certain employment agreements or other contracts. However, based on current assumptions, the bidder cannot predict which contracts may be subject to such triggers and the bidder is unable to quantify the related charges, if any. Material non-recurring profits and losses that result directly from the combination have not been included in the unaudited pro forma condensed consolidated statement of income.

The illustrative unaudited condensed consolidated financial information of Holdco should be read in conjunction with the information contained in the sections "Selected Historical Financial Information of NYSE Euronext", "Selected Historical Financial Information of Deutsche Börse Group", "Management's Discussion and Analysis of Financial Condition and Results of Operations of NYSE Euronext" and "Management's Discussion and Analysis of Financial Condition and Results of Operations of Deutsche Börse Group" of Annex 2 and the consolidated financial statements of Deutsche Börse and NYSE Euronext also contained in Annex 2.

* Includes the impact of adjustments to NYSE Euronext to conform to Holdco's accounting and evaluation policies. See note 2 under section 16.4.2.

The accompanying notes under section 16.4.2 are an integral part of the illustrative unaudited condensed consolidated balance sheet.

Table of Contents

16.4.2 Notes to the illustrative unaudited condensed financial information set out under section 16.4.1

(i) Note 1 Basis of presentation

The illustrative Holdco unaudited financial information presents the condensed consolidated financial statements giving effect to the combination of Deutsche Börse Group and NYSE Euronext under Holdco in a transaction to be accounted for as a purchase business combination, with Deutsche Börse Group treated as the legal and accounting acquirer and as if the combination was completed on January 1, 2010.

The Holdco illustrative unaudited condensed consolidated financial statements have been prepared on a basis consistent in all material respects with the accounting policies of Holdco in accordance with IFRS as issued by the IASB.

The NYSE Euronext pre-acquisition income statement and balance sheet used in the preparation of the illustrative unaudited financial information differ from the NYSE Euronext historical financial statements included on pages F-10 et seq. of Annex 2 of this document because the pre-acquisition income statement and balance sheet used in the preparation of the illustrative unaudited group financial information have been prepared on a basis consistent in all material respects with the accounting policies of Holdco in accordance with IFRS. The NYSE Euronext historical financial statements included on pages F-10 et seq. of Annex 2 of this document have been prepared in accordance with US GAAP.

The balance sheet of NYSE Euronext has been translated using an exchange rate of \$ 1.33 = 1.0 corresponding to the spot rate as of December 31, 2010. The income statement of NYSE Euronext has been translated using an average exchange rate of \$ 1.32 = 1.0 which represents the average exchange rate applied within Deutsche Börse Group in the financial year 2010. This average exchange rate was computed using the average of prevailing exchange rates as of each quarter end during fiscal year 2010.

The purchase price for NYSE Euronext has been allocated to the assets acquired and the liabilities assumed based on NYSE Euronext management's preliminary estimate of their respective fair values as of the date of combination. Definitive allocations will be performed when estimates are finalized. Accordingly, the purchase price allocation adjustments for illustrative purposes are preliminary, have been made solely for the purpose of providing illustrative unaudited condensed consolidated financial information and are subject to revision based on a final determination of fair value after the closing of the business combination.

The accompanying illustrative unaudited condensed consolidated financial information do not include any anticipated cost savings or other effects of the planned integration of the combined companies. The illustrative unaudited condensed consolidated financial information assume that all shareholders of Deutsche Börse tender all their shares to Holdco shares as part of the exchange offer. Accordingly, the amounts shown in Holdco's illustrative unaudited condensed consolidated income statement are not necessarily indicative of the results of operations that would have resulted if the combination had occurred on January 1, 2010 or that may result in the future.

The illustrative unaudited condensed consolidated financial information is presented for illustrative purposes only. Because of its nature, it addresses a hypothetical situation and it can only represent under the described assumptions and the described initial situation how the consolidated results of operations would have been reported had the combination been completed as of the dates described. It is only indicative of the future results, that may actually develop differently than expected. The adjustments for explanatory purposes are based on available information and specific assumptions that the management of Deutsche Börse and NYSE Euronext consider appropriate for the purposes of this exchange offer document.

(ii) Note 2 Presentation of NYSE Euronext financial information

For illustrative purposes, IFRS adjustments were made to the historical information of NYSE Euronext prepared under US GAAP to align with the IFRS accounting policies of Holdco. Such adjustments relate

Table of Contents

primarily to original listing fees and employee benefits. In addition, certain reclassifications have been made to conform the income statement and balance sheet to an IFRS presentation.

The following table illustrates the impact of these adjustments in arriving at NYSE Euronext's income statement for the year ended December 31, 2010, as presented in the Illustrative Holdco Unaudited Condensed Consolidated Income Statement (in millions of euros):

	NYSE Euronext Historical US GAAP {d}	IFRS Adjustment	NYSE Euronext Historical IFRS
Sales revenue	3,336	6{a}	3,342
Net interest income from banking business			
Other operating income	43		43
Total revenues	3,379	6	3,385
Volume related costs	(1,445)		(1,445)
Total revenues less volume-related costs	1,934	6	1,940
Staff costs	(462)	4{b}	(458)
Depreciation, amortization and impairment losses	(233)		(233)
Other operating expenses	(636)		(636)
Operating costs	(1,331)	4	(1,327)
Result from equity investments	(5)		(5)
Earnings before interest and tax (EBIT)	598	10	608
Financial income	2		2
Financial expense	(84)		(84)
Earnings before tax (EBT)	516	10	526
Income tax expense	(97)	(4){c}	(101)
Net profit for the year	419	6	425

{a} To recognize original listing fees and corporate actions revenue in accordance with IFRS. Under IFRS, this revenue is recognized upon listing of an applicant or upon subsequent capital raising or other corporate action. In accordance with US GAAP, NYSE Euronext recognized these revenues over an estimated service period of 5 to 10 years.

{b} To account for the NYSE Euronext defined benefit plans in accordance with IFRS. Upon consummation of the combination, Holdco will account for the NYSE Euronext defined benefit plans following the corridor method described in IAS 19.

{c} To adjust the income tax provision for the effect of the IFRS adjustments based upon a blended statutory tax rate of 35%.

{d} The historical US GAAP results of operations of NYSE Euronext have been translated from US dollars to Euros using the average exchange rate of 1.32 US\$=1.00 which was derived from the prevalent exchange rates as of the end of each quarter in the financial year 2010.

Table of Contents

The following table illustrates the impact of these adjustments in arriving at NYSE Euronext's balance sheet as of December 31, 2010, as presented in the Illustrative Holdco Unaudited Condensed Consolidated Balance Sheet (in millions of euros):

Edgar Filing: NYSE Euronext - Form 425

- {a}** To reclass the net book value of purchased and internally developed software to intangible assets.

- {b}** To reverse historical deferred revenue balances of NYSE Euronext and related deferred tax assets because Holdco would not have assumed a legal performance obligation. Such balances correspond to original listing fees which had been deferred over the estimated service period of the listings under US GAAP.

Table of Contents

- {c} To reclass all deferred tax balances to non-current in accordance with the IFRS balance sheet presentation.
- {d} To account for the NYSE Euronext defined benefit plans in accordance with IFRS. Upon consummation of the combination, Holdco will account for the NYSE Euronext defined benefit plans following the corridor method described in IAS 19.
- {e} To record the net impact of the above adjustments to equity.
- {f} The historical US GAAP financial condition of NYSE Euronext has been translated from U.S. dollars to Euros using the spot rate as of December 31, 2010 (1.33US\$=1.00).

(iii) Note 3 Purchase Price of NYSE Euronext

For the purpose of preparing the accompanying illustrative unaudited condensed consolidated financial information, the following assumptions were made:

There were approximately 264.5 million shares of NYSE Euronext outstanding on a fully diluted basis, and

the Deutsche Börse per share price was 56.10 for measurement purposes, and

each share of NYSE Euronext will be converted to 0.47 Holdco shares.

Based on the above assumptions, the total approximate purchase consideration was computed as follows:

Deutsche Börse share price	56.10{a}
Times	264.5 million shares
Times	0.47
Combination consideration	7,000 million

- {a} Corresponding to the closing stock price of Deutsche Börse shares on April 29, 2011. A movement of 5% of Deutsche Börse's share price would have an impact of approximately 350 million, in either direction, on the purchase consideration.

The following is a summary of the preliminary allocation of the total approximate purchase price in the NYSE Euronext acquisition as reflected in the illustrative unaudited condensed consolidated balance sheet (in millions of euros):

Historical equity of NYSE Euronext	5,330
Elimination of NYSE Euronext's historical goodwill and intangible assets	(7,536)
Fair value of identifiable intangible assets:	
National securities exchange registrations	4,800
Customer relationships	930
Trade names	875
Software	140

Edgar Filing: NYSE Euronext - Form 425

Fair value adjustment of fixed assets	75
Fair value adjustment of long-term debt	(100)
Deferred tax impact of purchase accounting adjustments	(925)
Residual goodwill created from the combination	3,411

Total purchase price 7,000

The carrying value of all other assets and liabilities was deemed to approximate their estimated fair value. The impact of deferred taxes on the purchase accounting adjustments was calculated based on the statutory rate in effect in the jurisdiction of underlying assets.

Table of Contents

(iv) Note 4 Illustrative adjustments

[4.1] To adjust the book value of NYSE Euronext's intangible and tangible assets to their estimated fair value.

(in millions of euros)	Estimated fair value	Estimated remaining useful life (in years)	Estimated annual amortization expense
Intangible asset class:			
National securities exchange registrations	4,800	Indefinite	Not applicable
Customer relationships	930	20	49
Trade names	875	20 to Indefinite	2
Software	140	3 to 5	35
Property, plant and equipment	75	40	2
Total	6,820		88
Annual amortization expense based on historical book value			79
Incremental amortization expense from fair valuing NYSE Euronext in its entirety			9

The fair values of the intangible assets are based on NYSE Euronext management's preliminary estimates and definitive allocations will be performed when estimates are finalized. As part of these preliminary estimates, the national securities exchange registrations and customer-related intangibles were valued using the excess earnings income approach, and the trade names were valued using the relief-from-royalty method under the income approach.

The comparison of previously fair valued intangible assets of NYSE Euronext and the estimated fair values of intangible assets prepared for this illustrative financial information is as follows:

(in millions of euros)	Previously fair valued*	Newly fair valued	Total estimated fair value
National securities exchange registrations	3,731	1,069	4,800
Customer relationships	636	294	930
Trade names	140	735	875
Software		140	140
Total	4,507	2,238	6,745

* Includes primarily the estimated fair values assigned to intangible assets in the 2006 acquisition of Archipelago Holdings, Inc., the 2007 merger with Euronext N.V. and the 2008 acquisition of American Stock Exchange LLC.

[4.2] To adjust the long-term debt of NYSE Euronext to its estimated fair value, including the estimated annual amortization of the related adjustment to financial expense. The estimated future amortization is as follows (in millions of euros):

Year ending December 31,	
2011	27
2012	27
2013	21
2014	15
2015	10

Table of Contents

[4.3] To adjust the weighted average number of shares outstanding used to determine basic and diluted illustrative earnings per share based upon the exchange of each outstanding NYSE Euronext share for 0.47 of a share of Holdco common stock, as follows:

(in millions of euros, except per share data in euros)	Basic computation	Diluted computation	
Historical weighted average shares of Deutsche Börse	185.9	186.3	[a]
Historical weighted average shares of NYSE Euronext	260.8	264.5	
Times: exchange ratio	0.47	0.47	
	122.6	124.3	[b]
Illustrative combined weighted average shares	308.5	310.6	[a]+[b]
Net profit attributable to shareholders of Holdco	869	869	
Earnings per share pro forma combined	2.82	2.80	

[4.4] To adjust deferred tax liabilities based on the estimated fair value of tangible and intangible assets.

(v) Note 5 Shareholders' equity

As of December 31, 2010, the pro forma shareholders' equity of Holdco consisted of the following (in millions of euros):

Historical equity of Deutsche Börse	2,951
Estimated fair value of NYSE Euronext	7,000
Estimated acquisition costs	(100)
	9,851

(vi) Note 6 Impairment, merger and exit costs

Certain significant items are separately disclosed by virtue of their size or incidence to enable a full understanding of the illustrative unaudited condensed consolidated financial performance. In particular, for the year ended December 31, 2010, Deutsche Börse recorded an impairment charge in connection with intangible assets of International Securities Exchange (**ISE**) as well as an expense associated with organizational restructuring. For the same period, NYSE Euronext recorded merger expenses and exit costs as well as a gain on the sale of an equity investment in the National Stock Exchange of India (**NSE**). The following table illustrates the impact of these items on the illustrative unaudited condensed consolidated income statement for the year ended December 31, 2010 and provides a computation of the illustrative earnings per share excluding such impact:

(in millions of euros, except per share data in euros)	Deutsche Börse	NYSE Euronext	Adjustments for Illustrative Purposes	Holdco Combined
Net profit attributable to shareholders of parent company	418	439	12	869
Impairment charge on ISE intangible assets	224			224
Restructuring charge	80			80
Merger expenses and exit costs		49		49

Edgar Filing: NYSE Euronext - Form 425

Net gain from disposal of NSE		(30)		(30)
Adjusted net profit attributable to shareholders of parent company	722	458	12	1,192
Adjusted earnings per share (basic)	3.88			3.86
Adjusted earnings per share (diluted)	3.88			3.84
Basic weighted average shares outstanding	185.9			308.5
Diluted weighted average shares outstanding	186.3			310.6

Table of Contents**16.5 Comparative historical and illustrative per share data**

Set forth below are historical and illustrative amounts, per Deutsche Börse share and per NYSE Euronext share, of income from continuing operations, cash dividends and book value. The exchange ratio for the illustrative computations is one Holdco share for each Deutsche Börse share, and 0.47 Holdco share for each NYSE Euronext share.

The illustrative unaudited consolidated information below is for illustrative purposes only. The financial results may have been different had the companies always been combined. This information does not allow a reliable conclusion on the future results of Holdco or the historical results which would have been achieved had the companies always been combined.

In addition, the market price of NYSE Euronext shares or Deutsche Börse shares could change significantly and may not be indicative of the value of Holdco shares once they start trading. Because the exchange ratios will not be adjusted for changes in the market price of NYSE Euronext shares or Deutsche Börse shares, the value of the Holdco shares that NYSE Euronext shareholders will receive in the merger and that Deutsche Börse shareholders receive if they tender their shares in the exchange offer may vary significantly from the market value of the Holdco shares that they would have received if the combination were consummated on the date of the business combination agreement or on the date of this exchange offer document. Shareholder of Deutsche Börse are urged to obtain current market quotations for Deutsche Börse and NYSE Euronext shares before making their decision with respect to tendering their Deutsche Börse shares in the exchange offer.

The following tables provide information for Deutsche Börse shares, NYSE Euronext shares and, after giving effect to the combination as if it had occurred as of January 1, 2010 and assuming that all of the Deutsche Börse shares are exchanged in the exchange offer, Holdco shares, including book value per share, cash dividends per share and earnings per share.

	Year Ended December 31, 2010 (in euros)
Deutsche Börse Historical Per Share Data	
Basic earnings per share	2.25
Diluted earnings per share	2.24
Cash dividends declared per share	2.10
Book value per share at end of period	15.13
NYSE Euronext Historical Per Share Data⁽¹⁾	
Basic earnings per share	1.67
Diluted earnings per share	1.67
Cash dividends declared per share	0.91
Book value per share at end of period	20.42
NYSE Euronext Equivalent Illustrative Per Share Data⁽²⁾	
Basic earnings per share	1.33
Diluted earnings per share	1.32
Cash dividends declared per share	0.76
Book value per share at end of period	14.46
Holdco Illustrative Consolidated Per Share Data⁽³⁾	
Basic earnings per share	2.82
Diluted earnings per share	2.80
Cash dividends declared per share	1.62
Book value per share at end of period	30.77

(1) The income statement data of NYSE Euronext has been translated using an average exchange rate of \$1.32 to 1.0. This average exchange rate was computed using the average of prevailing exchange rates as of each

Table of Contents

- quarter end during the 2010 fiscal year. The NYSE Euronext balance sheet data has been translated using an exchange rate of \$1.33 to 1.0 corresponding to the spot rate as of December 31, 2010.
- (2) Determined using the related Holdco illustrative per share data multiplied by 0.47 (the proposed exchange ratio of a NYSE Euronext share for a Holdco share).
 - (3) Certain significant items related to impairment and exit costs deemed significant by virtue of their size or incidence have been separately disclosed to enable a full understanding of the illustrative unaudited condensed consolidated financial performance. For a discussion of such items, see Note 6 under section 16.4.2.

16.6 Further information

In order to be able to correctly interpret the financial information and the accompanying explanatory notes thereto given in this section 16 they should be read in conjunction with the additional financial information set out on pages F-1 et seq. of Annex 2 of this exchange offer document.

17 Right of withdrawal

17.1 Prerequisites

Shareholders of Deutsche Börse who have accepted the exchange offer have the following rights of withdrawal (*Rücktrittsrechte*):

- (i) In the event of an amendment of the exchange offer pursuant to Section 21 para. 1 German Takeover Act, shareholders of Deutsche Börse may, at any time until the expiration of the offer acceptance period, withdraw from the agreements concluded as a result of acceptance of the exchange offer if and to the extent that they have accepted the exchange offer prior to the publication of the amendment of the exchange offer (Section 21 para. 4 German Takeover Act).
- (ii) In the event of a competing offer by a third party for the Deutsche Börse shares pursuant to Section 22 para. 1 German Takeover Act, shareholders of Deutsche Börse may, at any time until the expiration of the offer acceptance period, withdraw from the agreements concluded as a result of acceptance of the exchange offer if and to the extent that they have accepted the exchange offer prior to the publication of the offer document for the competing offer (Section 22 para. 3 German Takeover Act).
- (iii) In addition and without limitation to the mandatory withdrawal rights (please see above (ii) and (iii)), the shareholders of Deutsche Börse may, at any time until the expiration of the offer acceptance period, withdraw from the agreements concluded as a result of the acceptance of the exchange offer. This also corresponds to the requirements of the laws of the United States in the event of a so called early commencement, see section 13.3.3.

17.2 Exercise of the right of withdrawal

The shareholders of Deutsche Börse may exercise their right of withdrawal pursuant to section 17.1 only by taking the following steps prior to expiration of the offer acceptance period:

- (i) declaring their withdrawal to their Custodian Bank in writing for a specified number of tendered Deutsche Börse shares, and
- (ii) instructing their Custodian Bank to arrange for a number of tendered Deutsche Börse shares held in their securities deposit account as is equivalent to the number of tendered Deutsche Börse shares in respect of which they have declared their withdrawal to be re-booked under the ISIN DE0005810055 at Clearstream.

Edgar Filing: NYSE Euronext - Form 425

The declaration of withdrawal has to be made until the expiration of the acceptance period (see with respect to the expiration of the acceptance period also sections 5.1 and 5.2). However, the declaration of withdrawal will only become effective if the tendered Deutsche Börse shares, for which the withdrawal has been declared, have been rebooked to the ISIN DE0005810055 no later than 6 p.m. (Central European

Table of Contents

Daylight Savings Time) on the second banking day following expiration of the offer acceptance period. Such re-bookings are to be arranged for by the Custodian Bank after receipt of the declaration of withdrawal without undue delay.

18 Information for shareholders of Deutsche Börse not accepting the exchange offer

Shareholders of Deutsche Börse who do not intend to accept the exchange offer should consider the following:

- (i) Deutsche Börse shares in respect of which this exchange offer is not accepted will continue to be traded. However, the present stock exchange price of Deutsche Börse shares is likely influenced by the fact that on February 15, 2011 the Bidder announced its intention to make this exchange offer. It is uncertain whether, following completion of the exchange offer, the stock exchange price of Deutsche Börse shares will remain at its present level or rise above it or fall below it.
- (ii) The completion of the exchange offer may result in a reduction of the free float of Deutsche Börse shares. A lower liquidity in the trading in Deutsche Börse shares could result in greater price fluctuations of Deutsche Börse shares than in the past. Moreover, membership in certain stock exchange indices in particular in the DAX or the EUROSTOXX50 might change as a result of a potentially lower free float.
- (iii) As agreed in the business combination agreement, Deutsche Börse is supposed to tender the Deutsche Börse treasury shares in the exchange offer. The Deutsche Börse treasury shares currently are not entitled to dividends as they are held in treasury. Once they are tendered to Holdco, they will again be entitled to dividends which will increase the number of Deutsche Börse shares entitled to dividends and thus may reduce the dividend distributed for each Deutsche Börse share.
- (iv) If the Bidder, after settlement of the exchange offer, holds 95% or more of Deutsche Börse shares, shareholders of Deutsche Börse who did not accept the exchange offer would still be entitled to accept the exchange offer within a period of three months from the end of the offer acceptance period (Section 39c in conjunction with Section 39a German Takeover Act). Such subsequent acceptance of the exchange offer within three months after expiration of the offer acceptance period is also possible before completion of the exchange offer, if the Bidder, based on the number of Deutsche Börse shares for which the exchange offer has already been validly accepted, will reach or exceed the threshold of 95% of Deutsche Börse shares in the course of the subsequent completion of the exchange offer (Section 39c in conjunction with Section 39a para. 4 sentence 2 German Takeover Act).
If the Bidder reaches or exceeds a shareholding of 95% in Deutsche Börse shares, the Bidder will be required to publish this fact on the internet at <http://www.global-exchange-operator.com> and in the electronic Federal Gazette pursuant to Section 23 para. 1 sentence 1 no. 4 German Takeover Act. If the Bidder does not comply with this obligation, the three-month period for the acceptance of this exchange offer pursuant to Section 39c German Takeover Act will only commence upon satisfaction of this publication obligation.
- (v) As described in detail under section 10.6.3, the Bidder is entitled to carry out a takeover squeeze-out if after completion of the exchange offer, at least 95% of the registered share capital of Deutsche Börse belong (within the meaning of Section 39a Takeover Act) to the Bidder. The consideration offered to the shareholders of Deutsche Börse under the exchange offer will be deemed to constitute adequate compensation for the purposes of the takeover squeeze-out if the exchange offer resulted in the acquisition of at least 90% of Deutsche Börse's share capital which was subject to the exchange offer. Adequate cash compensation must be offered alternatively to the shareholders of Deutsche Börse because shares have been offered as compensation under the exchange offer.
- (vi) As described in detail under section 10.6.1, after completion of the exchange offer, the Bidder intends to enter into a domination agreement or a combination of a domination agreement and a

Table of Contents

profit and loss transfer agreement, in each case pursuant to Sections 291 et seq. AktG with Deutsche Börse as the controlled company and the Bidder or a direct or indirect wholly owned subsidiary of the Bidder in the legal form of a German stock corporation or German *societas europaea* (SE) as controlling company (see section 10.6.1 for further information).

A domination and/or profit and loss transfer agreement must provide for a recurrent annual cash payment as compensation for the minority shareholders (Section 304 AktG). Such compensation will represent a variable (which may be calculated on the basis of the actual future dividends of Holdco) or fixed minimum dividend (*Garantiedividende*) in the case of a domination agreement and a variable or fixed annual compensation payment (*Ausgleichszahlung*) in the case of a profit and loss transfer agreement or a combined domination and profit and loss transfer agreement. In the case of a domination agreement which is not combined with a profit and loss transfer agreement, the recurring cash payment would be a minimum dividend which is only payable to the extent the actual dividend paid by Deutsche Börse to its minority shareholders falls short of the amount of such minimum dividend.

In addition, entering into a domination agreement or a combination of a domination agreement and profit and loss transfer agreement would oblige the respective controlling company to offer to acquire all outstanding Deutsche Börse shares held by minority shareholders of Deutsche Börse within a certain period of time in exchange for an adequate compensation (Section 305 AktG).

For a more detailed description on the recurrent cash payment and adequate compensation please see the description under section 10.6.1.

- (vii) As described in detail under section 10.6.2, if, after completion of the exchange offer or any time thereafter, at least 95% of the registered share capital of Deutsche Börse belongs (within the meaning of Section 327a AktG) to the Bidder or, as the case may be, a subsidiary of the Bidder, the Bidder or such subsidiary is entitled to carry out a corporate squeeze-out pursuant to Sections 327a et seq. AktG under which Deutsche Börse shares of the other shareholders (minority shareholders) of Deutsche Börse would be transferred to the Bidder or, as the case may be, to the respective subsidiary, in return for payment of an adequate cash compensation.

For a more detailed description of the corporate squeeze-out and the adequate cash compensation please see the description under section 10.6.2.

Please also refer to section 10.6.2 for a special form of a corporate squeeze-out which may be introduced by a new legislation which is currently under way and may allow, under certain circumstances, a corporate squeeze-out as described above also by a principal shareholder holding only 90% of the share capital and for the respective intentions of the Bidder.

19 Cash payments and valuable benefits for members of the Deutsche Börse management board or the Deutsche Börse supervisory board

Neither members of the Deutsche Börse management board nor members of the Deutsche Börse supervisory board were granted, or given the prospect of, cash payments or other valuable benefits in connection with this exchange offer. As agreed in the business combination agreement and described under section 6.4.2 and section 6.4.3, unless otherwise agreed by NYSE Euronext and Deutsche Börse, within one month after the expiration of the offer acceptance period the Holdco board of directors, to be composed of 17 members, will be established. In accordance with the business combination agreement. Dr. Reto Francioni, current chief executive officer of Deutsche Börse, as chairman of the Holdco group, Duncan L. Niederauer, current chief executive officer of NYSE Euronext, as CEO of the Holdco group, as well as 15 non-executive directors, nine of them designated by Deutsche Börse as members of the Holdco board of directors, and six of them designated by NYSE Euronext, will become member of the Holdco board of directors.

Table of Contents

The following four persons who are currently members of the Deutsche Börse management board are expected to be appointed as members of Holdco's global executive committee: Andreas Preuß as head of derivatives, Jeffrey Tessler as head of settlement & custody, Frank Gerstenschläger as head of market data & analytics and Gregor Pottmeyer as chief financial officer. Andreas Preuß will also take the role of deputy chief executive officer and president of Holdco group.

20 Advising bank and central settlement agent

Deutsche Bank AG is advising the Bidder in connection with the exchange offer and is coordinating the technical implementation and settlement of the exchange offer.

21 Information pursuant to Section 2 no. 2 German Takeover Act Offer Regulation in conjunction with Section 7 German Securities Prospectus Act and the Prospectus Regulation

Information pursuant to Section 2 no. 2 German Takeover Act Offer Regulation in conjunction with Section 7 German Securities Prospectus Act and the Prospectus Regulation is contained in Annex 2 of this exchange offer document. Attention is drawn in particular to the details in the following sections which the shareholders of Deutsche Börse should take into account when deciding whether to accept the exchange offer:

Risk Factors;

The Combination;

Business of Deutsche Börse group and certain information about Deutsche Börse;

Business of NYSE Euronext and companies affiliated with NYSE Euronext and certain information about NYSE Euronext; and

Description of the Holdco shares.

22 Taxes

The basis of taxation (*Grundlagen der Besteuerung*) is specified in section Certain material tax considerations on pages A-451 *et seq.* of Annex 2 of this exchange offer document. The Bidder however recommends the shareholders of Deutsche Börse to seek tax advice before accepting the exchange offer, taking into account their personal circumstances, with regard to the tax consequences of an acceptance of this exchange offer.

23 Publications

23.1 Exchange offer document

With respect to the publication of the exchange offer document please see section 1.4.

23.2 Results of the exchange offer

Edgar Filing: NYSE Euronext - Form 425

The level of declarations of acceptance received will be published weekly during the offer acceptance period pursuant to Section 23 para. 1 sentence 1 no. 1 German Takeover Act (i) on the internet at <http://www.global-exchange-operator.com> (in German as well as in English language) and (ii) in German language also in the electronic Federal Gazette and (iii) in English language via an electronically operated information distribution system in the United States. During the last week of the offer acceptance period those publications will take place daily.

The results of this exchange offer are expected to be published pursuant to Section 23 para. 1 sentence 1 no. 2 German Takeover Act within four banking days after expiration of the offer acceptance period and pursuant to Section 23 para. 1 sentence 1 no. 3 German Takeover Act within three banking days after expiration of the additional offer acceptance period.

Table of Contents

23.3 Other publications

Other declarations and announcements by the Bidder in connection with this exchange offer, in particular the publications pursuant to sections 6.10, 12.8 and 14.4 will be published on the internet at <http://www.global-exchange-operator.com> (in German as well as in English) and, to the extent necessary pursuant to the German Takeover Act, in German in the electronic Federal Gazette. The announcement described in sections 6.10, 12.8 and 14.4 will also be published in English in the United States via an electronically operated information distribution system.

24 Governing law and place of jurisdiction

This exchange offer and the agreements concluded with the Bidder as a result of the acceptance of this exchange offer shall be governed by German law; all corporate actions of the Bidder (including the amendment of its articles of association, the increase of its authorized share capital and the issue of ordinary shares in connection with the exchange offer (the Holdco offer shares) and the merger) will be governed by Dutch law. The exclusive place of jurisdiction for all legal disputes arising out of, or in connection with, this exchange offer (and any agreement which comes into existence as a result of acceptance of this exchange offer) shall, to the extent legally permissible, be Frankfurt am Main, Germany.

25 Declaration of assumption of responsibility

Alpha Beta Netherlands Holding N.V., having its registered seat in Amsterdam, the Netherlands, assumes responsibility for the contents of this exchange offer document in accordance with Section 11 para. 3 German Takeover Act and declares that, to the best of its knowledge, the information contained in this exchange offer document is correct and no material facts have been omitted.

Table of Contents**SUMMARY**

This summary should be read as an introduction to this Annex 2 of the Offer Document. Any decision to invest in Holdco shares should be based on consideration of all the information contained in this Annex 2 of the Offer Document as a whole by you. In this document one ordinary share of Alpha Beta Netherlands Holding N.V. (herein referred to as Holdco) with a nominal value of 1.00 is referred to as Holdco share. You should carefully read this Annex 2 of the Offer Document in its entirety. The following summary is deemed to be an introduction only and does not claim to contain all detailed information that may be material to investors. Investors should therefore read the entire Annex 2 of the Offer Document carefully.

Under laws in effect in the states within the EEA civil liability is attached to those persons who have assumed liability for the summary including any translation thereof or who have prepared this summary, but only if the summary is misleading, inaccurate or inconsistent when read together with the other parts of this Annex 2 of the Offer Document. Where a claim relating to information contained in this document is brought before a court in a state within the EEA, the plaintiff investor may, under the national legislation of the state where the claim is brought, be required to bear the costs of translating this Annex 2 of the Offer Document before the legal proceedings are initiated.

The Companies***Holdco***

Alpha Beta Netherlands Holding N.V. (which is referred to in this document as Holdco) is a newly incorporated public limited liability company (*naamloze vennootschap*) formed under the laws of the Netherlands that will become the parent company of Deutsche Börse and NYSE Euronext upon the completion of the combination. To date, Holdco has not conducted any material activities other than those incident to its formation and the matters contemplated by the business combination agreement. Holdco's business address is Beursplein 5, 1012 JW Amsterdam, the Netherlands. Its telephone number is +31 (0) 20 550-4444. It is expected that, prior to the completion of the combination, the name of Holdco will be changed to a name to be agreed between NYSE Euronext and Deutsche Börse.

Deutsche Börse Group

Deutsche Börse was originally formed on August 1, 1990 under the name Frankfurter Wertpapierbörse AG. In December 1992, it changed its name to Deutsche Börse Aktiengesellschaft. In 1993, a system for electronically consolidating order routing, price determination and processing, was implemented across Germany, thereby giving full electronic support, for the first time, to floor trading on the Frankfurt Stock Exchange (*Frankfurter*

Wertpapierbörse). Its electronic trading platform Xetra was subsequently launched in November 1997. In June 1998, the derivatives exchange Eurex was established as a joint venture between Deutsche Börse and the Swiss Stock Exchange SWX by combining their derivatives exchanges, Deutsche Terminbörse and SOFFEX Swiss Options and Financial Forwards Exchange. Subsequently, in January 2000, Deutsche Börse Clearing AG and Cedel International S.A. merged to form Clearstream International S.A., a company incorporated under the laws of Luxembourg, which, together with its subsidiaries, handles Deutsche Börse Group's securities post-trade services except for clearing. In connection with the initial public offering of Deutsche Börse shares in February 2001, Deutsche Börse shares were admitted to trading on the Frankfurt Stock Exchange. Following its capital increase in June 2002, Deutsche Börse acquired all shares of Clearstream International S.A., which has since then been integrated into Deutsche Börse Group. Deutsche Börse shares were included in the DAX index as of December 2002. In March 2003, Deutsche Börse Group introduced the central counterparty for cash equities for share trading on Xetra and on the trading floor of the Frankfurt Stock Exchange. In 2007, Eurex completed the acquisition of the U.S. options exchange International Securities Exchange Holdings, Inc. (which is referred to in this document as ISE) creating the largest transatlantic

marketplace for derivatives. In order to strengthen its

position in the international index business Deutsche

Table of Contents

Börse increased its equity investment in index provider STOXX Ltd. from 33% to 50% in December 2009.

As one of the largest exchange organizations worldwide, Deutsche Börse Group offers its customers a broad portfolio of products and services. These cover the entire process chain of financial market transactions, including trading and clearing of securities, including derivatives, through transaction settlement, custody and collateral management of securities and providing market information, down to the development and operation of electronic systems.

Deutsche Börse Group's business activities are currently divided into four segments: Xetra, Eurex, Clearstream and Market Data & Analytics.

As of December 31, 2010, Deutsche Börse Group employed 3,490 people in 19 locations in 15 countries. As of March 31, 2011, Deutsche Börse Group employed 3,507 people. Since March 31, 2011, the total number of employees has not changed significantly. In 2010, based on financial statements prepared in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board (which is referred to in this document as IFRS), and IFRS as applied in the European Union, Deutsche Börse generated revenues on a consolidated basis of 2,226.7 million and earnings before interest and tax of 527.8 million.

The address of Deutsche Börse's principal office is Mergenthalerallee 61, 65760 Eschborn, Germany, and its telephone number is +49 (0) 69 2 11 0. Its website is www.deutsche-boerse.com. Information contained on Deutsche Börse Group's website does not constitute part of this document. This website address is an inactive text reference and is not intended to be an actual link to the website.

NYSE Euronext

NYSE Euronext, a Delaware corporation, was organized on May 22, 2006 in anticipation of the combination of the businesses of NYSE Group, Inc., a Delaware corporation, and Euronext N.V., a company organized under the laws of the Netherlands. The combination was consummated on April 4, 2007. NYSE Group, Inc. was formed in connection with the March 7, 2006 merger between New York Stock Exchange, Inc., a New York Type

A not-for-profit corporation, and Archipelago Holdings, Inc., a Delaware corporation. Euronext was the first cross-border exchange group, created with the 2000 merger of the Paris, Amsterdam and Brussels stock exchanges. The New York Stock Exchange traces its origins to the Buttonwood Agreement, signed in 1792 by a group of 24 traders gathered under a buttonwood tree in lower Manhattan. In 1817, the traders formed the New York Stock & Exchange Board, which in 1863 was renamed the New York Stock Exchange. The Amsterdam Stock Exchange, Euronext's oldest constituent and the world's first stock exchange, originated in 1602 in conjunction with a stock issuance by the Dutch East India Company.

NYSE Euronext is a leading global operator of financial markets and provider of innovative trading strategies. NYSE Euronext offers a broad and growing array of products and services in cash equities, futures, options, swaps, exchange-traded products, bonds, carbon trading, clearing operations, market data and commercial technology solutions, all designed to meet the evolving needs of issuers, investors, financial institutions and market participants. NYSE Euronext has three reportable business segments: Derivatives, Cash Trading & Listings, and Information Services and Technology Solutions.

As of December 31, 2010, NYSE Euronext employed 2,968 full-time equivalent employees. Since December 31, 2010 the total number of employees has not changed significantly. For the year ended December 31, 2010, based on financial statements prepared in accordance with U.S. generally accepted accounting principles (which is referred to in this document as U.S. GAAP), NYSE Euronext generated \$4,425 million in revenues and \$745 million in operating income from continuing operations.

NYSE Euronext's principal executive office is located at 11 Wall Street, New York, New York 10005. Its telephone number is +1 (212) 656-3000. Its European headquarters are located at 39 rue Cambon, 75039 Paris, France, and its telephone

number is +33 1 49 27 10 00. Its website is www.nyse.com. Information contained on NYSE Euronext's website does not constitute a part of this document. This website address is an inactive text

reference and is not intended to be an actual link to the website.

The Combination

Pursuant to the business combination agreement, Deutsche Börse and NYSE Euronext have agreed to combine their businesses under a new Dutch holding company. The effect of the combination will be that Deutsche Börse and NYSE Euronext will become subsidiaries of Holdco. NYSE Euronext will become a subsidiary of Holdco through a merger of a wholly owned subsidiary of Holdco with and into NYSE Euronext, and Deutsche Börse will become a subsidiary of Holdco through an exchange offer of Holdco shares for Deutsche Börse shares.

Following the exchange offer, and depending on the percentage of Deutsche Börse shares acquired by Holdco in the exchange offer, Deutsche Börse and Holdco intend to complete a post-completion reorganization. Holdco will enter into (1) either a domination agreement or a combination of a domination agreement and a profit and loss transfer agreement (either directly or through a wholly owned subsidiary), pursuant to which the remaining shareholders of Deutsche Börse will have limited rights, including a limited ability to participate in the profits of Deutsche Börse Group and/or (2) a mandatory buy-out of the Deutsche Börse shares from any remaining holders thereof by way of a squeeze-out transaction pursuant to Section 327a *et seq.* of the German Stock Corporation Act (*Aktiengesetz*) or by applying for a court order in accordance with Sections 39a *et seq.* of the German Takeover Act.

The Merger

The parties to the business combination agreement have agreed that, immediately after the time that Holdco accepts for exchange, and exchanges, the Deutsche Börse shares that are validly tendered and not withdrawn in the exchange offer, Pomme Merger Corporation, a wholly owned subsidiary of Holdco, will merge with and into NYSE Euronext, as a result of which NYSE Euronext will become a wholly owned subsidiary of Holdco.

In the merger, each outstanding NYSE Euronext share will be converted into the right to receive 0.47

of a fully paid and non-assessable Holdco share. Upon completion of the merger, the surviving corporation will be NYSE Euronext, which will be a wholly owned subsidiary of Holdco. This 0.47 exchange ratio for the merger is fixed and will not be adjusted to reflect stock price changes prior to the completion of the merger.

NYSE Euronext Special Meeting

To effect the merger, a special meeting of NYSE Euronext shareholders will be held at 11 Wall Street, New York, New York 10005, on July 7, 2011, starting at 8:00 a.m. New York City time. At this special meeting, NYSE Euronext shareholders will be asked to consider and to vote on:

a proposal to adopt the business combination agreement and approve the transactions contemplated by the business combination agreement; and

three proposals relating to the Holdco articles of association that will be in effect after completion of the combination; and

any proposal that may be made by the chairman of the NYSE Euronext board of directors to adjourn or postpone the special meeting in order to (1) solicit additional proxies with respect to the above-mentioned proposals and/or (2) hold the special meeting on a date that is on or about the date of the expiration of the offer acceptance period for the exchange offer, in the event that such date of expiration is extended.

The affirmative vote of the holders of a majority of the NYSE Euronext shares outstanding and entitled to vote at the NYSE Euronext special meeting as of the record date is required for the adoption of the business combination agreement and approval of the transactions contemplated by the business combination agreement. The affirmative vote of the holders of a majority of the NYSE Euronext shares represented and entitled to vote at the NYSE Euronext special meeting is required for the approval of the three proposals relating to the Holdco articles of association and any proposal to postpone or adjourn the NYSE Euronext special meeting.

A-3

Table of Contents

Exchange Offer

- Bidder:** Alpha Beta Netherlands Holding N.V., Beursplein 5, 1012 JW Amsterdam, The Netherlands (which is referred to in this document as Holdco).
- Target:** Deutsche Börse Aktiengesellschaft, 60485 Frankfurt am Main, Germany, with its business address at Mergenthalerallee 61, 65760 Eschborn.
- Subject matter of the exchange offer:** Acquisition of all registered no-par-value shares (*auf den Namen lautende Stückaktien*) of Deutsche Börse (ISIN DE0005810055) each representing a pro rata amount of 1.00 per share of the registered share capital (*Grundkapital*), in each case with all ancillary rights.
- Offer Consideration:** 195,146,864 ordinary share of Holdco with a nominal value of 1.00 and full dividend rights since formation of Holdco on February 10, 2011 in exchange for Deutsche Börse shares and in an exchange ratio of one Holdco share for one Deutsche Börse share
- Offer Conditions:** The exchange offer and the agreements which come into existence as a result of accepting the exchange offer are subject to the satisfaction of numerous completion conditions and will thus only be consummated if the following conditions are satisfied:
- (a) At the end of the offer acceptance period, the sum of (i) the number of Deutsche Börse shares that have been validly tendered and not withdrawn under the exchange offer and (ii) Deutsche Börse shares that Holdco already holds or has acquired equals at least 75% of the sum of Deutsche Börse shares issued as of the end of the offer acceptance period and the number of Deutsche Börse shares that Deutsche Börse may issue after publication of the exchange offer prospectus in accordance with the German Takeover Act pursuant to obligations in effect as of the time of such publication, such as outstanding options;
 - (b) On or prior to March 31, 2012, (i) any waiting period (and any extension thereof) applicable to the exchange offer and the merger under the Hart-Scott-Rodino Antitrust Improvement Act of 1976, as amended, must have expired or been terminated with the consequence that the exchange offer and the merger may be consummated, and (ii) the EU Commission must have, or must be deemed to have, cleared the exchange offer and the merger pursuant to the Council Regulation (EC) 139/2004 of the European Community;
 - (c) Effectiveness of the Registration Statement regarding the Holdco shares to be issued in the context of the exchange offer and the merger pursuant to the U.S. Securities Act of 1933 prior to the end of the offer acceptance period and no stop order by the SEC or any proceeding initiated by the SEC seeking such a stop order;

Table of Contents

- (d) Prior to the end of the offer acceptance period, the NYSE Euronext stockholders shall have granted the required consent to the merger at the NYSE Euronext special meeting; and
- (e) No law, regulation, administrative act or injunction of a governmental entity, court or legislative body in certain specified countries is in effect as of the expiration of the offer acceptance period, which would restrain or prohibit the combination or the acquisition or ownership of Deutsche Börse shares or NYSE Euronext shares by Holdco;
- (f) Receipt of other approvals (or, where applicable, absence of disapproval) of numerous specified public entities in certain specified countries (or, where applicable, continued absence of disapproval) on or prior to March 31, 2012;
- (g) No material adverse market change, i.e. suspension of the currency trading or debt markets for more than three consecutive trading days in Frankfurt am Main, London or New York during the time between the publication of the exchange offer document and the expiration of the offer acceptance period;
- (h) No material adverse effect on NYSE Euronext prior to the expiration of the offer acceptance period;
- (i) No material adverse effect on Deutsche Börse prior to the expiration of the offer acceptance period;
- (j) Receipt of one or more private letter rulings from the U.S. Internal Revenue Service by each of NYSE Euronext and Deutsche Börse on or prior to the date of the expiration of the offer acceptance period confirming that the exchange offer and the merger qualify as particular transactions under U.S. Internal Revenue Code.

Offer Acceptance Period: May 4, 2011 to midnight, at the end of July 13, 2011 (Central European Daylight Savings Time)

Subsequent Offering Period: Provided that the offer acceptance period is not automatically extended under certain conditions, the subsequent offering period is expected to begin on July 20, 2011 and to expire on August 2, 2011.

Withdrawal Until the end of the offer acceptance period, the shareholders of Deutsche Börse may, at any time, withdraw from the agreements concluded as a result of the acceptance of the exchange offer.

Settlement of the exchange offer: The delivery of the Holdco offer shares will occur in due course but in no event later than seven banking days (i) following the end of the additional offer acceptance period or (ii) following the day the satisfaction and/or waiver of all completion conditions is published

Edgar Filing: NYSE Euronext - Form 425

by Holdco, whichever is the later date. A banking day relates to a day on which the banks in Frankfurt am Main, Germany, as well as in New York, New York, United States are open for general business.

A-5

Table of Contents

Information on the Holdco Offer Shares: International Securities Identification Number (ISIN): NL0009766997

German Securities Code (*Wertpapierkennnummer*) (WKN): A1H81K

Common Code: 062269324

Ticker Symbol: AL4

Admission to and Commencement of Trading: Holdco (1) intends to list its shares on the New York Stock Exchange subject to the notice of issuance and (2) will apply prior to the time of delivery of the Holdco shares pursuant to the exchange offer and the merger, for admission of its shares to trading on the regulated market (*regulierter Markt*) of the Frankfurt Stock Exchange and simultaneously on the regulated market of NYSE Euronext Paris (*marché réglementé de NYSE Euronext à Paris*).

Holdco expects that the Holdco shares will have been admitted to trading and listed at the time of delivery to the shareholders of Deutsche Börse having accepted the exchange offer.

Commencement of trading on the Frankfurt Stock Exchange, Euronext Paris and the New York Stock Exchange is expected to occur immediately after delivery of the Holdco shares to the Deutsche Börse shareholders who have accepted the exchange offer.

Settlement Agent: Deutsche Bank AG as central settlement agent and exchange escrow agent in connection with the exchange offer

Reasons for the Exchange Offer and Use of Proceeds: The exchange offer forms part of the transaction that has been agreed by Deutsche Börse and NYSE Euronext to implement the combination, by which the businesses of Deutsche Börse Group and NYSE Euronext will be combined under Holdco as a holding company.

Holdco expects the total costs that it will incur in connection with the exchange offer to be paid by Holdco at approximately up to 4.0 million.

Holdco will not receive any proceeds from such exchange offer.

Table of Contents

Material Transaction Fees

Deutsche Börse and NYSE Euronext currently estimate that they will incur approximately 100 million of legal, banking and other professional fees and costs related to the combination, of which approximately 45 million will be payable regardless of whether the combination is completed.

Structure of the Combination

In the combination, Deutsche Börse Group's business will be brought under Holdco through the exchange offer, and NYSE Euronext's business will be brought under Holdco through the merger. As soon as possible after the completion of the exchange offer and the merger, Holdco intends to effectuate the post-completion reorganization. Holdco intends to

effectuate one or more corporate reorganization transactions, which may include entering (directly and/or through a wholly owned subsidiary) into a domination agreement or a combination of a domination agreement and a profit and loss transfer agreement. In the event that Holdco holds, directly or indirectly, 95% or more of the issued Deutsche Börse shares after the completion of the exchange offer or any time thereafter, Holdco may also effectuate the post-completion reorganization by commencing a mandatory buy-out of the Deutsche Börse shares from any remaining shareholders thereof.

If a new German legislation, which is currently being prepared, permits a mandatory buy-out at a lower ownership threshold, Holdco may perform a mandatory buy-out if, after completion of the exchange offer or any time thereafter, it meets this lower ownership threshold.

Table of Contents

The following diagram illustrates the structure of the combination and assumes that Holdco effects the post-completion reorganization by way of a domination agreement:

The Combination

After the Combination and the Post-Completion Reorganization

Table of Contents

Deutsche Börse's Reasons for the Combination

The Deutsche Börse management board and the Deutsche Börse supervisory board approved the business combination agreement and will recommend, subject to their duties under applicable law, that the Deutsche Börse shareholders tender their Deutsche Börse shares in the exchange offer. In reaching its decision to approve the combination, the Deutsche Börse management board consulted with its financial and legal advisors and considered a variety of factors, including the following factors:

that the combination presented significant strategic opportunities;

that the combination would be expected to create significant cost savings and revenue synergies;

that former Deutsche Börse shareholders and former NYSE Euronext shareholders would hold approximately 60% and 40%, respectively, of the outstanding Holdco shares, assuming that all Deutsche Börse shareholders tendered in the exchange offer;

the financial analyses presented to it by Deutsche Bank Securities, Inc. and J.P. Morgan Securities, LLC and the opinion of each that, as of February 15, 2011 and based upon and subject to the various factors, assumptions and limitations set forth in their respective opinions, the exchange ratio in the proposed exchange offer was fair, from a financial point of view, to holders of Deutsche Börse shares (other than Deutsche Börse);

that the consideration payable to Deutsche Börse shareholders in the exchange offer would be Holdco shares and, therefore, would allow Deutsche Börse shareholders to participate in potential further appreciation of the combined company after the combination;

that the governance arrangements provided by the business combination agreement would enable continuity of management and an effective and timely integration of the two companies' operations and reflected that the transaction was structured as a balanced business combination rather than an acquisition of either company;

its knowledge of Deutsche Börse Group's and NYSE Euronext's businesses, historical financial performance and condition, operations, properties, assets, regulatory issues, competitive positions, prospects and management; and

the risks and uncertainties associated with other potential strategic alternatives that might be available to Deutsche Börse.

NYSE Euronext's Reasons for the Combination

The NYSE Euronext board of directors approved the business combination agreement and have recommended that the NYSE Euronext shareholders vote FOR the adoption of the business combination agreement and the approval of the transactions contemplated by the business combination agreement. In reaching its decision to approve the combination and recommend to the NYSE Euronext shareholders that they adopt the business combination agreement, the NYSE Euronext board of directors consulted with NYSE Euronext management and its financial and legal advisors and considered a variety of factors, including the factors:

that the combination with Deutsche Börse would enable NYSE Euronext to accelerate the benefits of its existing strategy;

that the combination presented significant strategic opportunities;

that the consideration payable to NYSE Euronext shareholders in the merger would be Holdco shares and, therefore, would allow NYSE Euronext shareholders to participate in potential further appreciation of the combined company after the combination;

that the combination would be expected to create significant cost savings and revenue synergies;

Table of Contents

that the exchange ratio of 0.47 of a Holdco share for each NYSE Euronext share in the merger and one Holdco share for each Deutsche Börse share in the exchange offer implied as of the date of the announcement of the business combination agreement that a premium would be received by NYSE Euronext shareholders in the merger;

that former Deutsche Börse shareholders and former NYSE Euronext shareholders would hold approximately 60% and 40%, respectively, of the outstanding Holdco shares, assuming that all Deutsche Börse shareholders tendered in the exchange offer;

the financial analyses presented to the NYSE Euronext board of directors by Perella Weinberg and the opinion of Perella Weinberg that, as of February 15, 2011 and based upon and subject to the various assumptions made, procedures followed, matters considered and qualifications and limitations set forth therein, the exchange ratio in the merger of 0.47 is fair, from a financial point of view, to NYSE Euronext shareholders;

that the governance arrangements provided by the business combination agreement would enable continuity of management and an effective and timely integration of the two companies' operations and reflected that the transaction was structured as a business combination rather than an acquisition of either company;

its knowledge of NYSE Euronext's and Deutsche Börse Group's businesses, historical financial performance and condition, operations, properties, assets, regulatory issues, competitive positions, prospects and management; and

the risks and uncertainties associated with other potential strategic alternatives that might be available to NYSE Euronext.

Interests of Directors, Board Members, and Executive Officers in the Combination

Shareholders of Deutsche Börse and shareholders

of NYSE Euronext should be aware that some of the Deutsche Börse management board members, Deutsche Börse supervisory board members and directors and executive officers of NYSE Euronext may have interests in the combination that are different from, or in addition to, the interests of the Deutsche Börse shareholders and NYSE Euronext shareholders. These interests may include, but are not limited to, the continued employment of certain Deutsche Börse management board members and executive officers of NYSE Euronext, the continued positions of certain Deutsche Börse supervisory board members and certain directors of NYSE Euronext as directors of Holdco and the indemnification of former Deutsche Börse management and supervisory board members and directors and executive officers of NYSE Euronext by Holdco. These interests also include the treatment in the combination of restricted stock units, stock options and other rights held by these directors, board members and executive officers. As of March 14, 2011, members of the Deutsche Börse management board and the Deutsche Börse supervisory board owned 50,780 Deutsche Börse shares in the aggregate.

Shareholders of Deutsche Börse and shareholders of NYSE Euronext should be aware that, as of March 1, 2011, NYSE Euronext directors and executive officers and their affiliates owned and were entitled to vote approximately 0.3% of the outstanding NYSE Euronext shares entitled to vote at the NYSE Euronext special meeting.

Opinion of the Financial Advisor to the NYSE Euronext Board of Directors

Perella Weinberg Partners LP (which is referred to in this document as "Perella Weinberg") rendered its oral opinion, subsequently confirmed in writing, to the NYSE Euronext Board of Directors that, on February 15, 2011, and based upon and subject to the various assumptions made, procedures followed, matters considered and qualifications and limitations set forth in the opinion, the merger exchange ratio in the combination was fair, from a financial point of view, to holders of NYSE Euronext shares (other than Deutsche Börse or any affiliate of Deutsche Börse).

Table of Contents

The opinion does not address NYSE Euronext's underlying business decision to enter into the combination or the relative merits of the combination as compared with any other strategic alternative that may have been available to NYSE Euronext. The opinion does not constitute a recommendation to any holder of NYSE Euronext shares or Deutsche Börse shares as to how such holders should vote or otherwise act with respect to the combination or any other matter and does not in any manner address the prices at which NYSE Euronext shares, Holdco shares or Deutsche Börse shares will trade at any time. In addition, Perella Weinberg expressed no opinion as to the fairness of the combination to, or any consideration to, the holders of any other class of securities, creditors or other constituencies of NYSE Euronext. Perella Weinberg provided its opinion for the information and assistance of the NYSE Euronext board of directors in connection with, and for the purposes of its evaluation of, the combination.

Opinions of the Financial Advisors to Deutsche Börse

Opinion of Deutsche Bank Securities Inc. as Deutsche Börse's Financial Advisor

On February 15, 2011, Deutsche Bank Securities Inc. (which is referred to in this document as DBSI), delivered its opinion at a meeting of the Deutsche Börse supervisory board, at which all members of the Deutsche Börse management board were present, that as of the date of the opinion and based upon and subject to the various assumptions made, procedures followed, matters considered and limitations described in the opinion, the exchange ratio of one Holdco share for each Deutsche Börse share tendered by Deutsche Börse shareholders (which is referred to in this document as the Deutsche Börse exchange ratio) pursuant to the exchange offer was fair, from a financial point of view, to the holders of Deutsche Börse shares.

The DBSI opinion does not express an opinion or recommendation as to whether any holder of Deutsche Börse shares should tender any Deutsche Börse shares in connection with the exchange offer. The DBSI opinion also does not address the fairness

of the combination, or any consideration received in connection therewith, to the holders of any class of securities, creditors or other constituencies of Deutsche Börse or NYSE Euronext (other than the fairness, from a financial point of view of the Deutsche Börse exchange ratio to the holders of Deutsche Börse shares), nor does it address the fairness of the contemplated benefits of the combination. DBSI's opinion and its financial analyses set forth in this document were prepared for use by the management and supervisory boards of Deutsche Börse. They were not prepared for the use of any holders of NYSE Euronext shares and do not constitute a recommendation as to how any holder of NYSE Euronext shares should vote with respect to the merger, the other aspects of the combination or any other matter.

Opinion of J.P. Morgan as Deutsche Börse's Financial Advisor

J.P. Morgan Securities LLC., which is referred to as J.P. Morgan, delivered its opinion to the management board and the supervisory board of Deutsche Börse that, as of the date of the fairness opinion and based upon and subject to the various factors, assumptions and limitations set forth therein, the exchange ratio in the proposed exchange offer was fair, from a financial point of view, to the holders of Deutsche Börse shares (other than Deutsche Börse).

J.P. Morgan provided its opinion for the information and assistance of the management board and the supervisory board of Deutsche Börse in connection with their consideration of the proposed combination. The J.P. Morgan opinion is addressed to the management board and the supervisory board of Deutsche Börse and does not constitute a recommendation to any holder of Deutsche Börse shares as to whether such holder should tender its Deutsche Börse shares in the exchange offer or how such holder should vote with respect to the combination or any other matter if such vote is required. The opinion and advice provided by J.P. Morgan is not and should not be considered a value opinion as is customarily rendered by qualified auditors based on the requirements of German corporate law (e.g., in connection with a mandatory buy-out of Deutsche Börse shares or entering into a

Table of Contents

domination agreement and/or a profit and loss transfer agreement), nor has J.P. Morgan expressed any opinion as to the compensation which may be payable to holders of Deutsche Börse shares in connection with such a mandatory buy-out of their Deutsche Börse shares or in connection with entering into a domination agreement and/or a profit and loss transfer agreement. J.P. Morgan's opinion and its financial analyses set forth in this document were prepared for use by the management and supervisory boards of Deutsche Börse. They were not prepared for the use of any holders of NYSE Euronext shares and do not constitute a recommendation as to how any holder of NYSE Euronext shares should vote with respect to the merger, the other aspects of the combination or any other matter.

Conditions to Completion of the Combination

The completion of the combination is subject to the satisfaction of a number of conditions. Pursuant to the business combination agreement, NYSE Euronext's obligation to complete the merger is subject to the completion of the exchange offer and acquisition by Holdco of all of the Deutsche Börse shares validly tendered and not withdrawn in the exchange offer. In turn, the completion of the exchange offer is subject to the satisfaction (or waiver by Holdco with NYSE Euronext's and/or Deutsche Börse's approval, to the extent waiver is permitted under the business combination agreement, by the German Takeover Act and other applicable laws) of the conditions set forth in the business combination agreement.

Appraisal Rights

Deutsche Börse

Under German law, Deutsche Börse shareholders will generally not be entitled to appraisal rights in connection with the exchange offer. However, if Holdco (directly and/or through a subsidiary) effects the post-completion reorganization by way of a domination agreement or a combination of a domination agreement and a profit and loss transfer agreement and/or by way of a squeeze-out transaction pursuant to Section 327a *et seq.* of the German Stock Corporation Act under German law, an appraisal proceeding (*Spruchverfahren*) is available under the German

Appraisal Proceedings Act (*Spruchverfahrensgesetz*), pursuant to which a court can be asked to determine the adequacy of consideration or compensation paid to the Deutsche Börse shareholders under the domination agreement or the combination of a domination agreement and a profit transfer agreement and in connection with the squeeze-out transaction pursuant to Section 327a *et seq.* of the German Stock Corporation Act, respectively.

Such appraisal proceeding will, however, not be available in connection with a squeeze-out transaction which is performed by Holdco by applying for a court order in accordance with Sections 39a *et seq.* of the German Takeover Act.

NYSE Euronext

Under the Delaware general corporation law, which governs the merger, as well as under the NYSE Euronext certificate of incorporation and bylaws, NYSE Euronext shareholders are not entitled to any appraisal rights in connection with the merger.

Directors and Management of Holdco Prior to the Combination

To date, Holdco has not conducted any material activities other than those incident to its formation and the matters contemplated by the business combination agreement. Holdco is currently managed by a management board with two managing directors, one designated by Deutsche Börse and one designated by NYSE Euronext. Decisions of the management board may only be made by both managing directors acting jointly.

Directors and Management of Holdco Following the Combination

Holdco Board of Directors

Following the combination, the Holdco board of directors will consist of 17 members, including Dr. Reto Francioni, the current chief executive officer of Deutsche Börse, who will serve as the chairman of the Holdco group and Duncan L. Niederauer, the current chief executive officer of NYSE Euronext, who will serve as the Holdco group chief executive officer. In addition, 15 non-executive directors, consisting of nine non-executive directors designated by Deutsche Börse and six non-executive directors designated by NYSE Euronext will serve on the Holdco board of directors.

Table of Contents

The directors will be appointed for a term (or several consecutive terms) that expires at the Holdco annual general meeting of shareholders occurring in 2015 (or in 2016 in the case of the Holdco group chairman and the Holdco group chief executive officer).

Holdco Group Chairman

The business combination agreement provides that Dr. Reto Francioni, the current chief executive officer of Deutsche Börse, will be the Holdco group chairman for an initial term (or several consecutive terms) expiring at the end of the annual general meeting of shareholders of Holdco occurring in 2016. During this term, the Holdco group chairman will have customary duties of a chairman, such as leading meetings of Holdco's board of directors and setting meeting agendas, as well as certain additional agreed responsibilities and authorities.

Until the sixth annual general meeting of shareholders after completion of the combination, the Holdco group chairman will have a primary office in Frankfurt and a secondary office in New York, and the Holdco group chief executive officer will have a primary office in New York and a secondary office in Frankfurt. Alternatively, the Holdco group chairman and the Holdco group chief executive officer may decide to switch their office locations in a reciprocal manner, with the Holdco group chairman having his or her primary office in New York if the Holdco group chief executive officer has his or her primary office in Frankfurt.

Holdco Group Chief Executive Officer

The business combination agreement provides that Duncan L. Niederauer, the current chief executive officer and a director of NYSE Euronext, will be the Holdco group chief executive officer for an initial term (or several consecutive terms) expiring at the end of the annual general meeting of shareholders occurring in 2016. During this term, the Holdco group chief executive officer will have the typical roles of a chief executive officer.

Board Committees

Upon completion of the combination, the Holdco board of directors will initially have the following six committees:

Audit, Finance and Risk Committee;

Nomination, Governance and Corporate Responsibility Committee;

Human Resources and Compensation Committee;

Strategy Committee;

Integration Committee; and

Technology Committee.

Each of the committees mentioned above will consist of three directors nominated for appointment upon designation by Deutsche Börse and two directors nominated for appointment upon designation by NYSE Euronext until the end of the annual general meeting of shareholders occurring in 2015.

Global Executive Committee of Holdco

The Global Executive Committee of the Holdco group will consist of four individuals who are currently executives of NYSE Euronext, including the chief executive officer of NYSE Euronext, and four individuals who are currently executives of Deutsche Börse. The Global Executive Committee will be responsible for the management of the day-to-day business of the Holdco group. The members of the Global

Edgar Filing: NYSE Euronext - Form 425

Executive Committee will strive to reach decisions on a unanimous basis, and the Holdco group chief executive officer will decide any matters which are not unanimous. Any appointment of members of the Global Executive Committee will be made by the Holdco group chief executive officer in close consultation with the Holdco group chairman and the Holdco board of directors.

Dual Headquarters

The Holdco articles of association to be effective upon completion of the combination will provide that the Holdco group will have dual headquarters in Frankfurt and New York.

A-13

Table of Contents

Third-Party Acquisition Proposals

Subject to certain exceptions, the business combination agreement generally restricts the ability of Deutsche Börse and NYSE Euronext to solicit or engage in discussions or negotiations with a third-party regarding a proposal to acquire a significant interest in either entity.

Under certain circumstances, the Deutsche Börse management board, the Deutsche Börse supervisory board and the NYSE Euronext board of directors may engage in discussions or negotiations in response to a bona fide unsolicited written acquisition proposal if they conclude that there is a reasonable likelihood that such proposal could constitute a superior proposal and due compliance with their respective fiduciary duties so requires. A superior proposal within the meaning of the business combination agreement means, with respect to either NYSE Euronext or Deutsche Börse, a bona fide written acquisition proposal obtained not in breach of the non-solicitation provisions of the business combination agreement for or in respect of 50% or more of the outstanding NYSE Euronext shares or Deutsche Börse shares (as applicable) or 50% or more of the assets of NYSE Euronext and its subsidiaries, on a consolidated basis, or Deutsche Börse and its subsidiaries, on a consolidated basis, as applicable, on terms that the NYSE Euronext board of directors or the Deutsche Börse boards, as applicable, under certain conditions concludes are more favorable to its shareholders than the transactions contemplated by the business combination agreement.

If, prior to the consummation of the exchange offer or NYSE Euronext shareholder approval, the Deutsche Börse management board, the Deutsche Börse supervisory board or the NYSE Euronext board of directors, respectively, in good faith conclude (following receipt of the advice of their financial advisors and outside legal counsel), taking into account, among other things, all legal, financial, regulatory, timing and other aspects of the acquisition proposal or offer, and taking into account any improved terms that either Deutsche Börse or NYSE Euronext may have offered, that the acquisition proposal constitutes a superior proposal, then, in the case of Deutsche Börse, the Deutsche Börse

management board and the Deutsche Börse supervisory board may change their recommendation that the Deutsche Börse shareholders tender their Deutsche Börse shares in the exchange offer, and, in the case of NYSE Euronext, the NYSE Euronext board of directors may change its recommendation that the NYSE Euronext shareholders vote in favor of the business combination agreement and the transactions contemplated by the business combination agreement.

Termination of the Business Combination Agreement

Deutsche Börse and NYSE Euronext may jointly agree to terminate the business combination agreement at any time. Either Deutsche Börse or NYSE Euronext may also terminate the business combination agreement in various circumstances, including, but not limited to, failure to receive the necessary NYSE Euronext shareholder approval, failure to obtain a necessary governmental approval, failure to achieve the minimum tender condition, failure to complete the combination by December 31, 2011 (subject to extension to March 31, 2012 by either party in certain circumstances) or upon the breach by the other party of certain of its obligations under the business combination agreement.

Termination Fees

Under the business combination agreement, NYSE Euronext will be required to pay Deutsche Börse a termination fee of 250 million if:

an alternative acquisition proposal is made for NYSE Euronext, the NYSE Euronext board of directors has changed its recommendation and either (1) NYSE Euronext or Deutsche Börse terminates the business combination agreement because the NYSE Euronext shareholders fail to adopt the business combination agreement or (2) Deutsche Börse terminates the business combination agreement because of the change in recommendation by the NYSE Euronext board; or

an alternative acquisition proposal is made for NYSE Euronext, the NYSE Euronext shareholders do not adopt the business

Table of Contents

combination agreement and, within 9 months of termination of the business combination agreement, NYSE Euronext engages in an alternative transaction with a third party involving 40% or more of NYSE Euronext's equity or assets. Deutsche Börse will be required to pay NYSE Euronext a termination fee of \$250 million if:

an alternative acquisition proposal is made for Deutsche Börse, either the Deutsche Börse supervisory board or management board has changed its recommendation and either (1) NYSE Euronext or Deutsche Börse terminates the business combination agreement because the minimum tender condition has not been satisfied prior to expiration of the offer acceptance period; or (2) NYSE Euronext terminates the business combination agreement because of a change in recommendation by the Deutsche Börse supervisory board or management board; or

an alternative acquisition proposal is made for Deutsche Börse, the minimum tender condition has not been satisfied prior to expiration of the offer acceptance period and, within 9 months of termination of the business combination agreement, Deutsche Börse engages in an alternative transaction with a third party involving 40% or more of Deutsche Börse's equity or assets.

Stock Exchange Listing

Deutsche Börse shares are listed on the Frankfurt Stock Exchange under the symbol DB1. NYSE Euronext shares, which are listed on the New York Stock Exchange and Euronext Paris under the symbol NYX, will be delisted from the New York Stock Exchange and Euronext Paris as soon as practicable after the completion of the combination, as permitted by applicable law.

Holdco intends to list its shares on the New York Stock Exchange subject to the notice of issuance, and will apply prior to the time of delivery of the Holdco shares pursuant to the exchange offer and the merger to admit its shares to trading on the regulated market (*regulierter Markt*) of the Frankfurt

Stock Exchange and the sub-segment thereof with additional post-admission obligations (Prime Standard) and the regulated market segment of Euronext Paris.

Certain Differences in Shareholder Rights Before and After the Combination

Until the completion of the combination (and in the case of Deutsche Börse shareholders that do not tender their Deutsche Börse shares in the exchange offer, until the completion of the post-completion reorganization), Delaware law and the NYSE Euronext certificate of incorporation and bylaws will continue to govern the rights of NYSE Euronext shareholders, and German law and the Deutsche Börse articles of incorporation will continue to govern the rights of Deutsche Börse shareholders. After completion of the combination (or, as applicable, the post-completion reorganization), Dutch law and the Holdco articles of association will govern the rights of Holdco shareholders.

Material differences in the rights of NYSE Euronext shareholders prior to the combination and the rights of Holdco shareholders after the combination, on the other hand, will include, among others, the following:

Amendments to Holdco's articles of association and certain extraordinary actions will require the approval of at least a two-thirds majority of the votes cast in a general meeting of shareholders in order to be effective.

The election of directors (other than those nominated by the Holdco board of directors) and the removal of directors will require a two-thirds majority of the votes cast, and such votes must represent more than one-half of Holdco's issued capital on the resolution proposed for such an action.

Each of the Holdco directors initially designated by NYSE Euronext and Deutsche Börse will be nominated by the Holdco board of directors for re-election pursuant to a binding nomination (within the meaning of Section 2:133 of the Dutch Civil Code) at each of the annual general meetings of shareholders in 2012, 2013 and 2014, except that the Holdco group

Table of Contents

chairman and the Holdco group chief executive officer will each also be nominated pursuant to a binding nomination for re-election to the Holdco board of directors at the annual general meeting of shareholders occurring in 2015. Under Dutch law and Holdco's articles of association, binding nominations may only be overridden by a shareholders resolution passed by a two-thirds majority of the votes cast, with such votes representing more than one-half of Holdco's issued capital. Alternatively, if Holdco determines that it is a foreign private issuer and is not otherwise required by applicable law, regulation or stock exchange listing standards to hold annual director elections, then the initial members of the Holdco board of directors will be appointed to serve on the board for a term that expires at the Holdco annual general shareholders meeting in 2015 (or in 2016 in the case of the Holdco group chairman and the Holdco group chief executive officer).

Summary of Risk Factors

Risks Relating to the Combination

Because the exchange ratios in the exchange offer and the merger are fixed, the market value of the Holdco shares received by Deutsche Börse shareholders in the exchange offer or the Holdco shares received by NYSE Euronext shareholders in the merger may be less than the market value of the Deutsche Börse shares or NYSE Euronext shares that such holder held prior to the completion of the combination.

Obtaining required regulatory approvals may prevent or delay completion of the combination or reduce the anticipated benefits of the combination or may require changes to the structure or terms of the combination or to the governance structure of Holdco.

The implementation of the post-closing reorganization may be delayed or the agreements necessary to such implementation may not take effect. As a result, the anticipated benefits from the combination may not be realized in full or at all.

Holdco may not be able to successfully integrate the businesses and operations of Deutsche Börse Group and/or NYSE Euronext in a timely fashion or at all. This could have material adverse effects on Deutsche Börse Group's and NYSE Euronext's operations and their relationships with market participants, employees, regulatory authorities and other bodies as well as on their businesses, cash flows, assets, financial condition and results of operations.

Holdco may fail to realize the anticipated cost savings, growth opportunities and synergies and other benefits anticipated from the combination, which could have a material adverse effect on Holdco's business, cash flows, assets, financial condition and results of operations.

Holdco, Deutsche Börse Group and NYSE Euronext will incur significant transaction and combination-related costs in connection with the combination, some of which are payable regardless of whether the combination is completed.

Upon completion of the combination certain change-of-control rights under material agreements may be triggered.

Uncertainties associated with the combination may cause a loss of management personnel and other key employees, which could materially adversely affect the business and results of operations of Holdco.

Failure to complete the combination could negatively affect the prices of the Deutsche Börse shares and the NYSE Euronext shares and the future businesses and financial results of Deutsche Börse Group and NYSE Euronext.

The rights and responsibilities of the shareholders of Holdco will be governed by Dutch law and Holdco's articles of

A-16

Table of Contents

association, which will differ in some respects from the rights and responsibilities of shareholders under German or Delaware law and the current organizational documents of Deutsche Börse and NYSE Euronext.

U.S. civil liabilities may not be enforceable.

Deutsche Börse shareholders and NYSE Euronext shareholders will have a reduced ownership and voting interest after the combination and will exercise less influence over management.

If Deutsche Börse shareholders do not tender their Deutsche Börse shares in the exchange offer, the consideration that Deutsche Börse shareholders may receive at a later point in time may substantially differ in form and/or value from the consideration that they would have received had they tendered their Deutsche Börse shares in the exchange offer, and they may also be subject to additional taxes.

Shareholders of Deutsche Börse not participating in the exchange offer will be diluted due to the obligation of Deutsche Börse to tender its treasury shares in the exchange offer.

Following the completion of the exchange offer, fewer Deutsche Börse shares will remain outstanding and, as a result, the free float of Deutsche Börse shares will be significantly lower than before the completion of the combination, which could materially adversely affect the liquidity and market value of those shares.

Risks Relating to the Businesses of Holdco, Deutsche Börse Group and NYSE Euronext

Insufficient systems capacity and systems failures could adversely affect Deutsche Börse Group's and NYSE Euronext's businesses.

Deutsche Börse Group and NYSE Euronext operate in a business environment that continues to experience significant and rapid technological change.

Service deficiency in Deutsche Börse Group's and NYSE Euronext's manual data processing could result in losses.

A failure to protect Deutsche Börse Group's and NYSE Euronext's intellectual property rights, or allegations that Deutsche Börse Group and/or NYSE Euronext have infringed intellectual property rights of others, could adversely affect Holdco's business.

Deutsche Börse Group and NYSE Euronext face significant competition and compete globally with a broad range of market participants for listings, trading, clearing and settlement volumes. Increasing competition could result in a decrease of their trading volumes and revenues.

Holdco's business may be adversely affected by intense price competition.

A change in the policy of the administrative bodies of the exchanges in Germany could reduce Deutsche Börse Group's revenue.

Edgar Filing: NYSE Euronext - Form 425

Adverse economic conditions could negatively affect Holdco's business and cash flows, financial condition and results of operations.

Broad market trends and other factors beyond the control of Deutsche Börse Group and NYSE Euronext could significantly reduce demand for their services.

Deutsche Börse Group and NYSE Euronext may be at greater risk from terrorism than other companies.

Deutsche Börse Group and NYSE Euronext are exposed to fluctuations in foreign exchange rates and interest rates.

Deutsche Börse Group and NYSE Euronext are exposed to liquidity risk and may lack sufficient liquidity to meet their daily payment obligations or may incur increased refinancing costs which could adversely affect Holdco's business and cash flows, financial and results of operation.

A-17

Table of Contents

Deutsche Börse Group's and NYSE Euronext's businesses may be adversely affected by risks associated with clearing and settlement activities.

Deutsche Börse Group's share of trading in Deutsche Börse Group listed securities and NYSE Euronext's share of trading in NYSE Euronext listed securities has declined and may continue to decline.

Deutsche Börse Group depends on its large customers.

If Deutsche Börse Group's or NYSE Euronext's goodwill or intangible assets become impaired, Deutsche Börse Group, NYSE Euronext and, after the combination, Holdco may be required to record a significant charge to earnings.

Deutsche Börse Group and NYSE Euronext are subject to significant litigation risks and other liabilities.

Deutsche Börse Group's and NYSE Euronext's networks and those of their third-party service providers may be vulnerable to security risks.

If the indices and other products of Deutsche Börse Group and NYSE Euronext contain undetected errors or fail to perform properly, this could have a material adverse effect on their business, financial condition or results of operation.

Deutsche Börse Group's and NYSE Euronext's reliance on third parties could adversely affect their businesses if these third parties cease to perform the functions that they currently perform.

Holdco will face risks when entering into or increasing its presence in markets where Deutsche Börse Group and NYSE Euronext do not currently compete or when entering into new business lines.

Damage to Holdco's, Deutsche Börse Group's and/or NYSE Euronext's reputation could materially adversely affect Holdco's business.

Deutsche Börse Group and NYSE Euronext may complete acquisitions and dispositions prior to completion of the combination that may affect their respective businesses and/or the value of the consideration to be received by Deutsche Börse shareholders and NYSE Euronext shareholders in the combination.

Future business combinations, acquisitions, partnerships and joint ventures may require significant resources and/or result in significant unanticipated costs or liabilities.

Risks Relating to Regulatory Environment and Legal Risks

Further uncertainties in connection with the resolution on and implementation of new regulations may reduce the level of activities of Deutsche Börse Group and/or NYSE Euronext.

Edgar Filing: NYSE Euronext - Form 425

Regulatory changes or court rulings may have an adverse impact on Deutsche Börse Group's and NYSE Euronext's ability to derive revenue from market data fees.

The legal and regulatory environment in the United States may make it difficult for NYSE Euronext's U.S. exchanges to compete with non-U.S. exchanges for the listings of non-U.S. companies and adversely affect its competitive position.

Deutsche Börse Group and NYSE Euronext operate in a highly regulated industry and may be subject to censures, fines and other legal proceedings if they fail to comply with their legal and regulatory obligations.

Holdco may face competitive disadvantages, or may lose or impede its business opportunities, if it does not receive necessary or timely regulatory approvals for new business initiatives.

The U.S. exchanges of NYSE Euronext and Deutsche Börse Group rely on the Financial Industry Regulatory Authority, Inc. (which is referred to in this document as "FINRA") to perform certain regulatory functions, and Holdco's business could be adversely affected if FINRA ceases to perform these functions.

Table of Contents

Deutsche Börse Group's obligations in connection with its regulatory functions may limit its funding resources.

Regulatory changes requiring exchange operators to allow additional central counterparties to clear trades on their exchanges may adversely affect Deutsche Börse Group's and NYSE Euronext's clearing operations.

Conflicts of interest between Deutsche Börse Group's and NYSE Euronext's for-profit status and their regulatory responsibilities may adversely affect their businesses.

Risks Relating to Tax Matters

There can be no assurances that holders of NYSE Euronext shares will not be required to recognize gain for U.S. federal income tax purposes upon the exchange of NYSE Euronext shares for Holdco shares in the merger.

Holdco, Deutsche Börse, NYSE Euronext and their respective subsidiaries are subject to tax audits and could incur significant tax liabilities as a result of such audits.

Holdco may be or become taxable in a jurisdiction other than the Netherlands and/or may be or become a dual resident company for tax purposes. This may increase the aggregate tax burden on Holdco and its shareholders. The combination of the businesses of Deutsche Börse Group and NYSE Euronext may result in an increase in the overall tax burden of the combined group.

Risks Relating to Holdco Shares

There has been no prior public market for Holdco shares, and the market price of Holdco shares may be volatile.

Following the completion of the combination, Holdco may cease to be a foreign private issuer, which could result in significant additional costs and expenses.

If Holdco continues to be a foreign private issuer, its shareholders may not receive the information about Holdco that its shareholders would typically receive from a publicly traded U.S. domestic company.

The level of any dividend paid in respect of Holdco shares is subject to a number of factors, including the financial condition and results of operations of Deutsche Börse Group and NYSE Euronext, as well as the distributions of operating earnings to Holdco by Deutsche Börse Group and NYSE Euronext and the freely distributable reserves of Holdco.

Shareholders of Holdco could be diluted in the future.

Selected Financial Information of Holdco

Holdco was formed on February 10, 2011; accordingly, the financial statements as of the date of this document only consist of the opening balance sheet and the notes thereto. As Holdco had no operations as of February 10, 2011, Holdco omitted the statement of comprehensive income, statement of cash flows and statement of changes in equity.

The opening balance sheet of Holdco included assets in the amount of \$45,000 as well as corresponding issued and paid-up share capital in the amount of \$45,000.

Selected Historical Financial Information of NYSE Euronext

The following selected consolidated financial data has been taken from the audited historical consolidated financial statements and related notes for the years ended December 31, 2006 through December 31, 2010, which have been prepared in accordance with U.S. GAAP. As a result of a change in NYSE Euronext's reportable business segments effective in the first quarter of 2010, historical financial data has been revised to conform to this change. The information set forth below is not necessarily indicative of NYSE Euronext's results of future operations.

Table of Contents**Statement of Operations Data**

Notes:

- (1) The results of operations of Euronext have been included since April 4, 2007.
- (2) Effective July 30, 2007, the member firm regulatory functions of NYSE Regulation, including related enforcement activities, risk assessment and the arbitration service, were transferred to FINRA. Regulatory revenues, a component of other revenues, decreased as a result of this transfer and in connection with pricing changes.
- (3) The operations of GL Trade, which were sold on October 1, 2008, are reflected as discontinued.
- (4) Represents liabilities due after one year, including accrued employee benefits, deferred revenue, and deferred income taxes.
- (5) Adjusted to reflect the March 7, 2006 merger between the New York Stock Exchange, Inc. and Archipelago Holdings, Inc., giving retroactive effect to the issuance of shares to former New York Stock Exchange, Inc. members.

Table of Contents**Selected Historical Financial Information of Deutsche Börse Group**

The following financial information has been taken from the audited consolidated financial statements of Deutsche Börse Group and related notes as at and for the years ended December 31, 2010, 2009, 2008, 2007 and 2006 and from the unaudited condensed consolidated financial statements and related notes as at and for the three-month period ended March 31, 2011, respectively, all of which have been prepared in accordance with IFRS. As a result of a change in Deutsche Börse Group's reportable business segments effective in the first quarter 2010, historical financial information has been revised to conform to this change. The information set forth below is not necessarily indicative of Deutsche Börse Group's future operations.

	Income Statement Data

Table of Contents**Comparative Per Share Market Information and Exchange Rates**

The following table sets forth the closing market price per share of Deutsche Börse shares and NYSE Euronext shares in euro or U.S. dollar, as the case may be, as reported on the Frankfurt Stock Exchange for Deutsche Börse shares or the New York Stock Exchange and Euronext Paris for NYSE Euronext shares. In each case, the prices are given:

as of February 8, 2011 (the last trading day prior to the date on which Deutsche Börse and NYSE Euronext publicly confirmed their engagement in advanced discussions regarding a potential business combination);

as of February 14, 2011 (the last trading day prior to the date of public announcement of the execution of the business combination agreement); and

as of April 29, 2011 (the latest practicable trading date prior to the date of this document).

You are urged to obtain current market quotations for Deutsche Börse shares and NYSE Euronext shares before making your decision with respect to the adoption of the business combination agreement and approval of the transactions contemplated by the business combination agreement. Deutsche Börse shares are listed on the Frankfurt Stock Exchange under the symbol `DB1`. NYSE Euronext shares are listed on the New York Stock Exchange and Euronext Paris under the symbol `NYX`.

The market price per share of Deutsche Börse shares and NYSE Euronext shares could change significantly and may not be indicative of the value of Holdco shares once they start trading. Because the exchange ratios will not be adjusted for changes in the market price of Deutsche Börse shares and NYSE Euronext shares, the value of Holdco shares that you will receive at the time of completion of the combination may vary significantly from the market value of the Holdco shares that you would have received if the combination were consummated on the date of the business combination agreement or on the date of this document.

Comparative Market Share Information

Notes:

(1) The average of the rates on the last business day of each month during the applicable period.

(2) The average of the daily rates on each business day during the applicable period.

Source: Bloomberg.

The rates presented above may differ from the actual rates used in the preparation of Holdco's financial statements and other financial information appearing in this document. Holdco's inclusion of such rates is not meant to suggest that the U.S. dollar amounts actually represent euro amounts or that such amounts could have been converted to U.S. dollars at any particular rate, if at all.

Table of Contents**RISK FACTORS**

Before deciding to tender your shares in the exchange offer (if you are a Deutsche Börse shareholder) or vote in favor of the merger (if you are a NYSE Euronext shareholder), you should carefully review and consider the following risk factors and the other information contained in this document. The occurrence of one or more of the events or circumstances described in these risk factors alone or in combination with other events or circumstances may have a material adverse effect on Deutsche Börse Group's and NYSE Euronext's business and cash flows, financial condition and results of operations and, upon completion of the combination, on Holdco's business and cash flows, financial condition and results of operations. The risks discussed below may not prove to be exhaustive and are based on certain assumptions made by Holdco, Deutsche Börse Group and NYSE Euronext which later may prove to be incorrect or incomplete. The risks discussed below may not be the only risks to which Holdco or, upon completion of the combination, through its subsidiaries, Deutsche Börse and NYSE Euronext, is exposed. The order in which the risk factors are presented does not reflect the likelihood of their occurrence or the magnitude or significance of the individual risks. Additional risks and uncertainties of which Holdco, Deutsche Börse Group and NYSE Euronext are not currently aware or which Holdco, Deutsche Börse Group and NYSE Euronext do not consider significant at present could likewise have a material adverse effect on Holdco's business and cash flows, financial condition and results of operations. The market price of the Holdco shares could fall if any of these risks were to materialize, in which case investors could lose all or part of their investment.

Risks Relating to the Combination

Because the exchange ratios in the exchange offer and the merger are fixed, the market value of the Holdco shares received by Deutsche Börse shareholders in the exchange offer or the Holdco shares received by NYSE Euronext shareholders in the merger may be less than the market value of the Deutsche Börse shares or NYSE Euronext shares that such holder held prior to the completion of the combination.

Deutsche Börse shareholders who tender their Deutsche Börse shares in the exchange offer will receive one Holdco share for each tendered Deutsche Börse share, and NYSE Euronext shareholders will receive 0.47 of a Holdco share for each of their NYSE Euronext shares in the merger. These exchange ratios are fixed and will not vary even if the market price of Deutsche Börse shares or NYSE Euronext shares varies. The market value of Deutsche Börse shares and NYSE Euronext shares at the time of the completion of the combination may vary significantly from their prices on the date of the business combination agreement, the date of publication of this document, the date on which Deutsche Börse shareholders tender their shares in the exchange offer or the date on which NYSE Euronext shareholders vote on the merger. Because the exchange ratios will not be adjusted to reflect any changes in the market price of the Deutsche Börse shares or NYSE Euronext shares, the value of the consideration paid to the Deutsche Börse shareholders who tender their shares in the exchange offer and to the NYSE Euronext shareholders in the merger may be higher or lower than the market value of their shares on earlier dates.

Changes in share price may result from a variety of factors that are beyond the control of Holdco, Deutsche Börse Group and NYSE Euronext, including their respective business prospects, market conditions, regulatory considerations, governmental actions, legal proceedings and other developments. Market assessments of the benefits of the combination and of the likelihood that the combination will be completed as well as general and industry specific market and economic conditions may also have an adverse effect on share prices.

In addition, it is possible that the combination may not be completed until a significant period of time has passed after the expiration of the offer acceptance period and the NYSE Euronext special meeting. As a result, the market values of the Deutsche Börse shares and NYSE Euronext shares may vary significantly from the date of the expiration of the offer acceptance period and/or NYSE Euronext special meeting to the date of the completion of the combination. In calendar year 2010, the price of Deutsche Börse shares ranged from 45.45 to 59.00, as reported on the Frankfurt Stock Exchange, and the price of NYSE Euronext shares ranged from \$22.30 to \$34.82, as reported on the New York Stock Exchange, and from 16.23 to 25.81, as reported on

Table of Contents

Euronext Paris. Investors are urged to obtain up-to-date prices for Deutsche Börse shares, which are listed on the Frankfurt Stock Exchange under the symbol DB1, and NYSE Euronext shares, which are listed on the New York Stock Exchange and Euronext Paris under the symbol NYX.

Obtaining required regulatory approvals may prevent or delay completion of the combination or reduce the anticipated benefits of the combination or may require changes to the structure or terms of the combination or to the governance structure of Holdco.

Completion of the combination is conditioned upon, among other things, the receipt of material governmental authorizations, consents, orders and approvals, including the approval of competition and antitrust authorities (*e.g.*, the European Commission, the FTC and the DOJ) and securities and other financial regulatory authorities (*e.g.*, BaFin, the SEC, the College of Euronext Regulators and certain European regulators, including the Hessian Exchange Supervisory Authority (*Hessisches Ministerium für Wirtschaft, Verkehr und Landesentwicklung*), the AMF, the Dutch Minister of Finance and the FSA. These regulatory conditions may not be satisfied until months after the expiration of the offer acceptance period for Deutsche Börse shares. Under German law, the only conditions to an exchange offer that can remain outstanding after the acceptance period of such offer are regulatory conditions, and, under German law, no offer conditions, including regulatory conditions, may be waived following the expiration of the acceptance period of an offer. The parties have agreed that, in the exchange offer, any regulatory conditions that remain outstanding after the offer acceptance period must be satisfied by no later than March 31, 2012. If any such regulatory condition is not satisfied by March 31, 2012, by operation of German law, the exchange offer will terminate, and the parties do not have the ability to waive such regulatory condition. It is therefore possible that the NYSE Euronext stockholders and Deutsche Börse shareholders would have to wait up until March 31, 2012 before it is determined that the exchange offer will be completed and the merger consummated (or otherwise terminated because a required regulatory approval has not been obtained). During this period, Deutsche Börse and NYSE Euronext may continue to divert management focus and resources from other strategic opportunities and from operational matters and incur additional costs and expenses related to the combination. In addition, Deutsche Börse shareholders who tender their Deutsche Börse shares will not be permitted to withdraw their tendered shares during this period, and will be able to trade their shares only in the as-tendered trading market on the Frankfurt Stock Exchange, which may be less liquid than the current trading market for Deutsche Börse shares.

In addition, in connection with granting these regulatory approvals, the respective governmental or other authorities may impose burdensome conditions on, or require significant divestitures or other changes relating to, the divisions, operations or assets of Deutsche Börse Group or NYSE Euronext. For example, BaFin, the SEC, the FTC, the DOJ and the European Commission and financial regulatory authorities may require changes to the structure of the combination, changes to the governance structure of Holdco and its subsidiaries or the Holdco articles of association including voting rights limitations and limitations on shareholding in Holdco, as a precondition to their approval of the combination. They may also seek to impose pricing controls that limit the amount that Holdco and its subsidiaries can charge for its products and services. These restrictions may limit the potential to participate in further market consolidation, undertake future acquisitions and could also negatively affect the results of operations and financial condition of Holdco and its subsidiaries. None of Holdco, Deutsche Börse or NYSE Euronext can predict what, if any, changes may be required. Certain changes may require NYSE Euronext to obtain the approval of its shareholders and, therefore, to re-solicit proxies, which may result in significant additional expenses and costs. More generally, these and other conditions, divestitures or other changes may prevent or delay completion of the combination or may reduce the anticipated benefits of the combination, which could also have a material adverse effect on Holdco's business and cash flows, financial condition and results of operations.

Table of Contents

The implementation of the post-closing reorganization may be delayed or the agreements necessary for the implementation may not take effect. As a result, the anticipated benefits from the combination may not be realized in full or at all.

Holdco intends as soon as practicable after completion of the exchange offer and the merger to effectuate one or more corporate reorganization transactions, which may include entering (directly or through a wholly owned subsidiary) into a domination agreement or a combination of a domination agreement and a profit and loss transfer agreement and/or a squeeze-out transaction. The effectiveness of these agreements and/or the squeeze-out transaction may be delayed for an uncertain time, including, for example, due to shareholder litigation or may not be achievable at all. Accordingly, Holdco may not be able to achieve the anticipated benefits of the combination in full or at all, or may take longer than expected to realize such benefits, which could have a material adverse effect on Holdco's business and cash flows, financial condition and results of operations.

Holdco may not be able to successfully integrate the businesses and operations of Deutsche Börse Group and/or NYSE Euronext in a timely fashion or at all. This could have material adverse effects on Deutsche Börse Group's and NYSE Euronext's operations and their relationships with market participants, employees, regulatory authorities and other bodies as well as on their businesses, cash flows, assets, financial condition and results of operations.

Deutsche Börse and NYSE Euronext currently operate as independent companies, and will continue to do so until the completion of the combination. Following the combination, Holdco's management may face significant challenges in integrating the two companies' businesses, technologies, organizations, procedures, policies and operations, as well as in addressing differences in the business cultures of the two companies, and retaining key Deutsche Börse Group and NYSE Euronext personnel. The integration process may prove to be more complex and time consuming and require more substantial resources and effort than anticipated, which could have a material adverse effect on Deutsche Börse Group's and NYSE Euronext's ongoing businesses and relationships with market participants, employees, regulators and others and could also have a material adverse effect on the business and cash flows, financial condition and results of operations of Holdco. In addition, if the integration of Deutsche Börse Group and NYSE Euronext businesses is partially unsuccessful or Holdco does not achieve the expected benefits of the combination as fast or to the extent anticipated by financial analysts or investors, or Holdco's financial results are not consistent with the expectations of financial analysts or investors, the market price of Holdco shares may decline.

Holdco may fail to realize the anticipated cost savings, growth opportunities and synergies and other benefits anticipated from the combination.

The success of the combination will depend, in part, on Holdco's ability to realize anticipated cost savings, revenue synergies and growth opportunities from combining the businesses of Deutsche Börse Group and NYSE Euronext. Holdco expects to benefit from operational synergies resulting from the consolidation of capabilities and elimination of redundancies as well as greater efficiencies from increased scale, market integration and automation. Specifically, Deutsche Börse and NYSE Euronext expect that the combined company will achieve annualized cost savings of approximately 400 million (or \$532 million) within three years after the combination, principally from the consolidation of information technology, clearing and market operations as well as from the consolidation of corporate administration and support functions. The cost savings are expected to be realized at an annual run rate of 30% by the end of the first year, 65% by the end of the second year and 100% by the end of the third year following the completion of the combination.

Deutsche Börse and NYSE Euronext also expect that the combination will create at least 100 million (or \$133 million) in revenue synergies annually after the combination through cross-selling and distribution opportunities, increased turnover from liquidity pool consolidation and new products, a progressive introduction of Deutsche Börse Group's clearing capabilities and expanded scope for technology services and market data offerings.

Table of Contents

There is a risk, however, that the businesses of Deutsche Börse Group and NYSE Euronext may not be combined in a manner that permits these costs savings and revenue synergies to be realized in the time currently expected, or at all. For example, the completion of the combination may be delayed, challenged by parties opposing the completion of the combination or may not be possible at all, or necessary approvals might require certain commitments or undertakings regarding operations or employees. This may limit or delay the ability of Holdco's management to integrate the two companies' technologies, organizations, procedures, policies and operations. In addition, a variety of factors, including but not limited to wage inflation, currency fluctuations and difficulty integrating technology platforms, may adversely affect Holdco's anticipated cost savings and revenues. Also, the combined company must achieve its anticipated cost savings without adversely affecting its revenues. If Holdco is not able to successfully achieve these objectives, the anticipated benefits of the combination may not be realized fully, or at all, or may take longer to realize than expected, which could have a material adverse effect on Holdco's business and cash flows, financial condition and results of operations.

Holdco, Deutsche Börse Group and NYSE Euronext will incur significant transaction and combination-related costs in connection with the combination, some of which are payable regardless of whether the combination is completed.

Holdco, Deutsche Börse and NYSE Euronext expect to incur a number of non-recurring costs in connection with the transaction, including implementation and restructuring costs associated with combining the operations of the two companies. Deutsche Börse and NYSE Euronext estimate that they will incur approximately 100 million of legal, banking and other professional fees and costs related to the combination, of which approximately 55 million will be contingent upon approval and consummation of the combination and approximately 45 million of which will be payable regardless of whether the combination is completed. In addition, Holdco, Deutsche Börse and NYSE Euronext expect to incur approximately 600 million to 800 million (or 1.5 to 2.0 times the anticipated full run-rate cost synergies) of pre-tax implementation and restructuring costs associated with combining the operations of Deutsche Börse and NYSE Euronext. Additional costs substantially in excess of currently anticipated costs may also be incurred in the integration of the businesses of Deutsche Börse Group and NYSE Euronext.

Although Holdco expects that the cost savings, as well as the realization of other efficiencies related to the integration of the businesses, will offset these transaction- and combination-related costs over time, this net benefit may not be achieved in the near term, or at all. In addition, the timeline in which cost savings should be reached is lengthy. Failure of Holdco to realize these efficiencies in a timely manner or at all could have a material adverse effect on Holdco's business and cash flows, financial condition and results of operations.

Upon completion of the combination, certain change-of-control rights under material agreements may be triggered.

Deutsche Börse and NYSE Euronext are parties to agreements that contain change-of-control provisions that may be triggered upon completion of the combination. Upon the triggering of these change-of-control provisions, the counterparties to the agreement may be able to exercise certain rights that have a negative effect on Deutsche Börse, NYSE Euronext or, after the combination, Holdco and their respective subsidiaries. For example, there are change-of-control provisions contained in Deutsche Börse's cooperation agreement with SIX Group AG regarding Scoach Holding S.A. and the shareholders' agreement with SIX Swiss Exchange AG regarding Eurex. If the change-of-control provision in the agreement regarding Eurex were triggered as a result of the combination, and the shareholders' agreement was terminated as a result, Deutsche Börse would, following such termination, obtain all shares in Eurex Frankfurt AG and its subsidiaries (including the shares in ISE), and SIX Swiss Exchange would obtain all shares in Eurex Zürich AG. Deutsche Börse would be obliged to refund SIX Swiss Exchange its indirect 15% investment in ISE, with the amount of such refund determined by reference to, among other things, ISE's value on the date of termination. Moreover, the shares in European Energy Exchange AG (which is referred to in this document as "EEX") would be transferred from Eurex Zürich AG to Deutsche Börse, subject to the provisions of the consortium agreement between the shareholders of EEX. If the Scoach

Table of Contents

cooperation between SIX Swiss Exchange and Deutsche Börse were terminated, Deutsche Börse may be entitled to compensation not to exceed 10 million euros. It is not clear to Deutsche Börse whether any payments would be due following a valid termination based on a change of control. However, if such payments were required to be made, they would primarily affect Deutsche Börse's liquidity because Deutsche Börse would obtain all of the share capital and right to profits from Eurex Frankfurt AG and its subsidiaries, including ISE, and the 56.14% shareholding in EEX. There are also change-of-control provisions contained in NYSE Euronext's credit agreements and the indentures governing its outstanding notes, which could require NYSE Euronext to repurchase approximately \$2.1 billion worth of its outstanding bonds if it were to undergo a change of control as contemplated by those agreements and subsequently suffer a ratings downgrade below an investment grade rating. If a counterparty to these agreements were to exercise its rights as a result of these change-of-control or other provisions, Holdco could face detrimental consequences, depending on the particular change-of-control right, which could have a material adverse effect on Holdco's business and cash flows, financial condition and results of operations.

Uncertainties associated with the combination may cause a loss of management personnel and other key employees, which could materially adversely affect the business and results of operations of Holdco.

Deutsche Börse Group and NYSE Euronext are dependent on the experience and industry knowledge of their respective management personnel and other key employees to operate their businesses and execute their business plans, particularly in the area of information technology. There is a shortage in the employment market for specialists in the information technology field, and Deutsche Börse Group and NYSE Euronext compete for employees with a large number of other enterprises in the information technology industry. Holdco's success following the combination will depend in part upon its ability to attract and retain management personnel and other key employees. Current and prospective employees of Deutsche Börse Group and NYSE Euronext may experience uncertainty about their roles within the combined company following the combination, which may adversely affect the ability of Holdco to attract or retain management personnel and other key employees. A loss of management personnel or other key employees could materially adversely affect Holdco's business and cash flows, financial condition and results of operations.

Failure to complete the combination could negatively affect the prices of the Deutsche Börse shares and the NYSE Euronext shares and the future businesses and financial results of Deutsche Börse Group and NYSE Euronext.

If the combination is not completed, the ongoing businesses of Deutsche Börse Group and/or NYSE Euronext may be adversely affected, and Deutsche Börse Group and NYSE Euronext will be subject to a number of risks, including the following:

being required to pay a termination fee of \$250 million under certain circumstances provided in the business combination agreement or having to pay certain costs relating to the combination, such as legal, accounting and other transactions fees; and

having had the focus of the management of Deutsche Börse Group and NYSE Euronext on the combination instead of on pursuing other business opportunities that could have been beneficial to the respective company.

If the combination is not completed, these risks may materialize and could have a material adverse effect on the business and cash flows, financial condition and results of operations of Deutsche Börse Group or NYSE Euronext.

Table of Contents

The rights and responsibilities of the shareholders of Holdco will be governed by Dutch law and Holdco's articles of association, which will differ in some respects from the rights and responsibilities of shareholders under German or Delaware law and the current organizational documents of Deutsche Börse and NYSE Euronext.

Following the completion of the combination, Holdco's corporate affairs will be governed by its articles of association and the laws governing companies incorporated in the Netherlands. The rights of Holdco's shareholders and the responsibilities of members of the Holdco board of directors under Dutch law will differ from the rights of shareholders and the responsibilities of a company's board of directors under German law or the laws of Delaware.

For example, Holdco's articles of association will also provide that each of the Holdco directors designated by NYSE Euronext and Deutsche Börse, respectively, prior to completion of the combination will be nominated by the Holdco board of directors for re-election pursuant to a binding nomination (within the meaning of Section 2:133 of the Dutch Civil Code) at each of the annual general meetings of shareholders in 2012, 2013 and 2014 (and, additionally, 2015 in the case of the Holdco group chairman and the Holdco group chief executive director). Under Dutch law, binding nominations may only be overridden by a shareholder resolution passed by a two-thirds majority of the votes cast, with such votes representing more than one-half of Holdco's issued capital. Alternatively, if Holdco determines that it is a foreign private issuer and is not otherwise required by applicable law, regulation or stock exchange listing standards to hold annual director elections, then the initial members of the Holdco board of directors will be appointed to serve on the board for a term that expires at the Holdco annual general shareholders meeting in 2015 (or in 2016 in the case of the Holdco group chairman and the Holdco group chief executive officer). By contrast, the current amended and restated bylaws of NYSE Euronext provide that directors of NYSE Euronext are elected by the vote of a majority of the votes cast at a meeting at which a quorum is present, except that a plurality voting standard applies in the case of a contested election. The provisions of Dutch corporate law and Holdco's articles of association have the effect of concentrating control over certain corporate decisions and transactions in the hands of the Holdco board of directors. As a result, holders of Holdco shares may have more difficulty in protecting their interests in the face of actions by members of the Holdco board of directors than if Holdco were incorporated in Germany or Delaware. Dutch law also requires that in the performance of its duties, the Holdco board of directors will need to consider the interests of Holdco, and its shareholders, employees and other stakeholders, and it is possible that some of these parties will have interests that differ from, or are in addition to, the interests of the shareholders of Holdco.

Another difference will be the ownership and voting limitations on Holdco shares. The Holdco articles of association will provide that no person, either alone or together with its related persons (as defined in the Holdco articles of association), may beneficially own Holdco shares entitling the holder(s) thereof to cast votes representing in the aggregate more than 40% (or 20% in certain cases, as specified in the Holdco articles of association) of all votes that may be cast on any matter. If a person exceeds the ownership limitation, it will be required to transfer the number of Holdco shares held in excess of this limitation, and the rights to vote, attend general meetings of Holdco and receive dividends or other distributions attached to shares held in excess of the ownership limitation will be suspended for so long as the limitation is exceeded.

In addition, the Holdco articles of association will provide that no person, either alone or together with its related persons (as defined in the Holdco articles of association), will be entitled to vote or cause the voting of Holdco shares beneficially owned by such person or its related persons in excess of twenty percent (20%) of all votes that may be cast on any matter, and no person, either alone or together with its related persons, may acquire the ability to vote in excess of 20% of all votes entitled to be cast on any matter by virtue of agreements entered into by it with other persons not to vote outstanding Holdco shares. If a person exceeds the voting limitation, Holdco will be required to disregard any votes purported to be cast in excess of this limitation. These limitations on ownership and voting will apply to each person unless, among other requirements, it has obtained a written confirmation from the Holdco board of directors that the board has resolved to expressly permit such ownership and voting and such resolution has been filed with, and approved by, the SEC and to the extent required, the

Table of Contents

relevant European regulators. These provisions of the Holdco articles of association could delay or deter a change of control of Holdco, which could adversely affect the price of Holdco shares.

These ownership and voting limitations are similar in certain respects to the limitations that currently apply to NYSE Euronext shares (although, among other differences, those limitations are set at 10% and 20%, respectively). Deutsche Börse AG shareholders are currently not subject to these ownership and voting limitations, although a concentration of ownership or voting power of Deutsche Börse AG shares could in some circumstances result in shares of its indirect subsidiary International Securities Exchange Holdings, Inc. being automatically transferred to a Delaware trust, and other restrictions on ownership and voting may apply under applicable laws.

It may be difficult for holders of Holdco shares who are not familiar with Dutch corporate law and market practice to exercise their shareholder rights due to foreign legal concepts, language and customs. In addition, shareholder meetings of Holdco will be held in the Netherlands, and it may therefore be expensive and otherwise burdensome to attend these meetings in person (for those shareholders who prefer to vote in person rather than sending a proxy), in particular for shareholders who reside outside of the Netherlands. These aspects could have a material adverse effect on the value of Holdco's shares and could materially impact the rights of Holdco shareholders.

U.S. civil liabilities may not be enforceable.

Holdco is organized under the laws of the Netherlands and substantial portions of its assets will be located outside of the United States. In addition, certain members of the Holdco board of directors, the Deutsche Börse supervisory board and the NYSE Euronext board of directors, and certain members of the Deutsche Börse management board and the respective officers of NYSE Euronext and Holdco, as well as certain experts named herein reside outside the United States. As a result, it may be difficult for investors to effect service of process within the United States upon Holdco, Deutsche Börse or such other persons residing outside the United States, or to enforce outside the United States judgments obtained against such persons in U.S. courts in any action, including actions predicated upon the civil liability provisions of the U.S. federal securities laws. In addition, it may be difficult for investors to enforce, in original actions brought in courts in jurisdictions located outside the United States, rights predicated upon the U.S. federal securities laws.

The United States and the Netherlands currently do not have a treaty providing for the reciprocal recognition and enforcement of judgments (other than arbitral awards) in civil and commercial matters, and a final judgment for the payment of money rendered by any federal or state court in the United States which is enforceable in the United States, whether or not predicated solely upon U.S. federal securities laws, would not automatically be recognized or enforceable in the Netherlands. In order to obtain a judgment which is enforceable in the Netherlands, the party in whose favor a final and conclusive judgment of the U.S. court has been rendered will be required to file its claim with a court of competent jurisdiction in the Netherlands. Such party may submit to the Dutch court the final judgment rendered by the U.S. court. If and to the extent that the Dutch court finds that the jurisdiction of the U.S. court has been based on grounds which are internationally acceptable and that proper legal procedures have been observed, the Dutch court will, in principle, give binding effect to the judgment of the court of the United States without substantive re-examination or re-litigation on the merits of the subject matter thereof, unless such judgment contravenes principles of public policy of the Netherlands.

Based on the foregoing, there can be no assurance that U.S. investors will be able to enforce against Holdco or members of its board of directors, officers or certain experts named herein who are residents of the Netherlands or countries other than the United States any judgments obtained in U.S. courts in civil and commercial matters, including judgments under the U.S. federal securities laws.

In addition, there is doubt as to whether a Dutch court would accept jurisdiction and impose civil liability on Holdco, the members of its board of directors, its officers or certain experts named herein in an original action

Table of Contents

predicated solely upon the U.S. federal securities laws brought in a court of competent jurisdiction in the Netherlands against Holdco or such members, officers or experts, respectively.

Deutsche Börse shareholders and NYSE Euronext shareholders will have a reduced ownership and voting interest after the combination and will exercise less influence over management.

After the completion of the combination, the Deutsche Börse shareholders and NYSE Euronext shareholders will own a smaller percentage of Holdco than they currently own of Deutsche Börse and NYSE Euronext, respectively. Upon completion of the combination, and assuming that all of the issued Deutsche Börse shares are exchanged in the exchange offer, former Deutsche Börse shareholders and former NYSE Euronext shareholders will own approximately 60% and 40%, respectively, of the outstanding Holdco shares immediately after the combination. Consequently, Deutsche Börse shareholders, as a group, will have reduced ownership and voting power in the combined company compared to their ownership and voting power in Deutsche Börse, and NYSE Euronext shareholders, as a group, will have reduced ownership and voting power in the combined company compared to their ownership and voting power in NYSE Euronext. Furthermore, the business combination agreement and the relevant organizational documents of Holdco will provide for the composition of the Holdco board of directors and the Global Executive Committee, management and the allocation of management positions between Deutsche Börse and NYSE Euronext only for certain time periods (*i.e.*, four years after completion of the combination for the composition of the Global Executive Committee and management, until the annual general meeting of Holdco shareholders in 2015 for the composition of the Holdco board of directors and until the annual general meeting of Holdco shareholders in 2016 for the positions of the Holdco group chairman and the Holdco group chief executive officer). After those time periods, the respective positions may change.

If Deutsche Börse shareholders do not tender their Deutsche Börse shares in the exchange offer, the consideration that Deutsche Börse shareholders may receive at a later point in time may substantially differ in form and/or value from the consideration that they would have received had they tendered their Deutsche Börse shares in the exchange offer, and they may also be subject to additional taxes.

As soon as reasonably practicable after the completion of the exchange offer and the merger, Holdco intends to effectuate a post-completion reorganization of Deutsche Börse Group that is intended to result in Deutsche Börse becoming a wholly owned or otherwise controlled subsidiary of Holdco. The post-completion reorganization is intended to either eliminate any minority shareholder interest in Deutsche Börse remaining after the completion of the exchange offer or allow Holdco to control Deutsche Börse to the greatest extent legally permissible, regardless of the existence of any remaining minority shareholder interest. Regardless of any post-completion reorganization undertaken, following the completion of the exchange offer, the free float of any non-tendered Deutsche Börse shares that remain outstanding will likely be lower than the current free float in Deutsche Börse shares, thereby reducing the liquidity of the remaining Deutsche Börse shares. Reduced liquidity could make it more difficult for the remaining Deutsche Börse shareholders to sell their shares and could materially adversely affect the market value of those remaining shares.

Due to the statutory legal framework applicable to such post-completion reorganization, holders of Deutsche Börse shares who do not exchange their shares in the exchange offer may receive, or may be offered, a different (including a lower) amount or a different form of consideration than they would have received if they had exchanged their shares in the exchange offer. To the extent legally permissible, the parties intend to structure any post-completion reorganization with the goal that such holders of Deutsche Börse shares receive, at a maximum, the same number of Holdco shares per Deutsche Börse share(s) or consideration having the same value (without taking into account the different tax treatment or withholding requirements that may apply) that they would have received in the exchange offer if they had tendered their Deutsche Börse shares. However, Deutsche Börse shareholders should note that the amount or form of consideration to be offered may be different, and, in particular, lower. Furthermore, in the event that the shares of Holdco lose value after the completion of the combination, there may be no obligation of Holdco to pay to the Deutsche Börse shareholders who did not exchange their shares the higher implied value received by the Deutsche Börse shareholders who exchanged their shares in the offer.

Table of Contents

Holdco may effectuate the post-completion reorganization by entering (directly and/or through a wholly owned subsidiary) into a domination agreement or a combination of a domination agreement and a profit and loss transfer agreement, in each case pursuant to Sections 291 *et seq.* of the German Stock Corporation Act with Deutsche Börse as the controlled company, pursuant to which the remaining Deutsche Börse shareholders will have significantly limited rights, including, in the case of a profit and loss transfer agreement, a limited ability to participate in the profits of Deutsche Börse Group. Under a domination agreement or a combination of a domination and profit and loss transfer agreement, the respective controlling company would be obliged pursuant to Section 305 of the German Stock Corporation Act to offer the minority shareholders of Deutsche Börse adequate consideration to acquire their Deutsche Börse shares. In accordance with Section 305 para. 2 no. 1 or no. 2 of the German Stock Corporation Act, the consideration to be offered to the Deutsche Börse shareholders exchanging their Deutsche Börse shares under such agreement would consist of Holdco shares, except for fractional amounts that may be settled in cash, pursuant to Section 305 para. 3 of the German Stock Corporation Act.

In the event that Holdco holds, directly or indirectly, 95% or more of the outstanding Deutsche Börse shares after completion of the exchange offer or at any time thereafter, Holdco may also effectuate the post-completion reorganization by commencing a mandatory buy-out of the Deutsche Börse shares from any remaining shareholders by way of a squeeze-out transaction pursuant to Section 327a *et seq.* of the German Stock Corporation Act or by applying for a court order in accordance with Section 39a *et seq.* of the German Securities Acquisition and Takeover Act (which is referred to in this document as the German Takeover Act), in each case for adequate consideration and in addition or alternatively to entering into a domination agreement or a combination of a domination agreement and a profit and loss transfer agreement.

In the event that in the future, under a new German legislation called Third Amendment of the Act on Corporate Reorganizations (*Drittes Gesetz zur Änderung des Umwandlungsgesetzes*) which is currently being prepared, a squeeze-out transaction pursuant to Section 327a *et seq.* of the German Stock Corporation Act may be performed, under certain circumstances, by a shareholder holding a participation of at least 90% (instead of at least 95%) of the outstanding Deutsche Börse shares, Holdco may commence such a squeeze-out transaction if it holds, directly or indirectly, 90% or more of the outstanding Deutsche Börse shares after the completion of the offer or any time thereafter.

The consideration that the remaining minority Deutsche Börse shareholders would receive under a squeeze-out transaction pursuant to Section 327a *et seq.* of the German Stock Corporation Act in exchange for their Deutsche Börse shares must be in cash and, therefore, would be different from the form of consideration offered in the exchange offer. In contrast, the consideration that the remaining Deutsche Börse shareholders would receive in connection with a squeeze-out transaction pursuant to Section 39a *et seq.* of the German Takeover Act in exchange for their Deutsche Börse shares would be, at the election of each individual Deutsche Börse shareholder, either Holdco shares or cash.

Shareholders of Deutsche Börse not participating in the exchange offer will be diluted due to the obligation of Deutsche Börse to tender its treasury shares in the exchange offer.

Deutsche Börse currently holds approximately 4.59% (8,956,997 shares) of its share capital in treasury shares. Deutsche Börse is prohibited from exercising any rights inherently connected with these treasury shares. In the business combination agreement, Deutsche Börse agreed to tender these treasury shares in the exchange offer. After the completion of the exchange offer, Holdco may in contrast to Deutsche Börse prior to completion of the exchange offer exercise those rights (*e.g.*, voting rights at shareholders meetings) inherently connected to those shares, thereby diluting the Deutsche Börse shareholders who do not tender their Deutsche Börse shares in the exchange offer.

Table of Contents

Following the completion of the exchange offer, fewer Deutsche Börse shares will remain outstanding and, as a result, the free float of Deutsche Börse shares will be significantly lower than before the completion of the combination, which could materially adversely affect the liquidity and market value of those shares.

Following the completion of the exchange offer, the free float of any non-tendered Deutsche Börse shares will be significantly lower than the current free float in Deutsche Börse shares, thereby reducing the liquidity of the remaining Deutsche Börse shares. Reduced liquidity could make it more difficult for the remaining Deutsche Börse shareholders to sell their shares and could materially adversely affect the market value of those remaining shares. A lower level of liquidity in the trading in Deutsche Börse shares could result in greater price fluctuations of Deutsche Börse shares than in the past. Moreover, memberships in certain stock exchange indices, in particular in the DAX or the EUROSTOXX50, could change as a result of a lower free float. In addition, in the event that Holdco holds, directly or indirectly, 75% or more of the outstanding Deutsche Börse shares after the completion of the exchange offer or any time thereafter, Holdco intends to enter (directly and/or through a wholly owned subsidiary) into a domination agreement or a combination of a domination agreement and a profit and loss transfer agreement with Deutsche Börse pursuant to which the remaining Deutsche Börse shareholders would have significantly limited rights, including, in the case of a profit and loss transfer agreement, a limited ability to participate in the profits of Deutsche Börse, which could also materially adversely affect the market value of the remaining Deutsche Börse shares.

Furthermore, the value of the Deutsche Börse shares implied by the exchange offer does not guarantee that the value of the Deutsche Börse shares not held by Holdco following the completion of the exchange offer will remain at that level or exceed that value in the future. The share price may vary materially in the future.

Risks Relating to the Businesses of Holdco, Deutsche Börse Group and NYSE Euronext

Insufficient systems capacity and systems failures could adversely affect Deutsche Börse Group's and NYSE Euronext's businesses.

Deutsche Börse Group's and NYSE Euronext's businesses depend on the performance and reliability of complex computer and communications systems, including upgrades. Heavy use of platforms and order routing systems during peak trading times or at times of unusual market volatility could cause Deutsche Börse Group's and NYSE Euronext's systems to operate slowly or even to fail for periods of time. Failure to maintain systems, ensure security or to ensure sufficient capacity may also result in a temporary disruption of their regulatory and reporting functions.

Deutsche Börse Group and NYSE Euronext have experienced systems failures in the past, and it is possible that they will experience systems failures in the future. Systems failures could be caused by, among other things, periods of insufficient capacity of network bandwidth, power or telecommunications failures, acts of God or war, terrorism, human error, natural disasters, fire, sabotage, hardware or software malfunctions or defects, computer viruses, intentional acts of vandalism and similar events over which they have little or no control. Deutsche Börse Group and NYSE Euronext also rely on third parties for systems support. Any interruption in these third-party services or deterioration in the performance of these services could also be disruptive to their businesses. In addition, Deutsche Börse Group's and NYSE Euronext's systems may be adversely affected by failures of other trading systems, as a result of which they may be required to suspend trading activity in particular financial instruments or, under certain circumstances, unwind trades.

In the event that any of their systems, or those of their third-party service providers, fail or operate slowly, it may cause any of the following to occur: unanticipated disruptions in service to exchange members and clients, slower response times or delays in trade executions, incomplete or inaccurate recording or processing of trades, financial losses and liabilities to clients and litigation or other claims against Deutsche Börse Group and NYSE Euronext.

If Deutsche Börse Group or NYSE Euronext cannot expand system capacity to handle increased demand, or if their systems otherwise fail to perform and they experience disruptions in service, slower response times or

Table of Contents

delays in introducing new products and services, then Deutsche Börse Group and NYSE Euronext could incur reputational damage, regulatory sanctions, litigation, loss of trading share, loss of trading volume and loss of revenues, any of which could also have a material adverse effect on Holdco's business and cash flows, financial condition and results of operations.

Deutsche Börse Group and NYSE Euronext operate in a business environment that continues to experience significant and rapid technological change.

Technology is a key component of Deutsche Börse Group's and NYSE Euronext's business strategy and is crucial to their success. Deutsche Börse Group and NYSE Euronext seek to offer market participants a comprehensive suite of best-in-class technology solutions in a centralized environment. However, Deutsche Börse Group and NYSE Euronext operate in a business environment that has undergone, and continues to experience, significant and rapid technological change. In recent years, electronic trading and customer demand for increased choice of execution methods has grown significantly. To remain competitive, Deutsche Börse Group and NYSE Euronext must continue to enhance and improve the responsiveness, functionality, capacity, accessibility and features of their trading platforms, software, systems and technologies. Their success will depend, in part, on their ability to develop and license leading technologies, enhance existing trading, clearing and settlement platforms and services and create new platforms and services. Furthermore, they need to respond to customer demands, technological advances and emerging industry standards and practices on a cost-effective and timely basis, and continue to attract and retain highly skilled technology staff to maintain and develop existing technology and to adapt to and manage emerging technologies.

The development and expansion of electronic trading, clearing, settlement, custody, collateral management and market data-related technologies entail significant technological, financial and business risks. These risks include Deutsche Börse Group and NYSE Euronext failing or being unable to provide reliable and cost-effective electronic services to their customers, timely developing the required functionality to support electronic trading in key products comparable to systems on other electronic markets, matching fees of their competitors that offer electronic-only trading facilities, attracting independent software vendors to write front-end software that will effectively access Deutsche Börse Group's and NYSE Euronext's electronic trading systems and automated order routing systems, responding to technological developments or service offerings by competitors and generating sufficient revenue to justify the substantial capital investment Deutsche Börse Group and NYSE Euronext have made and will continue to make enhancements to their electronic trading platforms, as well as their clearing and settlement systems.

The adoption of new technologies or market practices may require Deutsche Börse Group and NYSE Euronext to devote additional resources to improve and adapt their services. For example, the growth of algorithmic and so called "black box trading" requires Deutsche Börse Group and NYSE Euronext to increase systems and network capacity to ensure that increases in message traffic can be accommodated without an adverse effect on system performance. In addition, the growth of electronic trading requires Deutsche Börse Group and NYSE Euronext to develop their electronic trading systems to include additional products and markets, and enhance their functionality, performance, capacity, reliability and speed. Keeping pace with increasing requirements can be expensive, and Deutsche Börse Group and NYSE Euronext cannot be sure that they will succeed in making these improvements to their technology infrastructure in a timely manner or at all.

If Deutsche Börse Group and NYSE Euronext are unable to anticipate and respond to the demand for new services, products and technologies on a timely and cost-effective basis and to adapt to technological advancements and changing standards, they may be unable to compete effectively. Further, Deutsche Börse Group and NYSE Euronext rely on the ability of their customers to have the necessary front and back office functionality to support any new products and trading and clearing functionality of Deutsche Börse Group and NYSE Euronext. To the extent their customers are not prepared and/or lack the resources or infrastructure, the success of any new initiatives may be compromised. Moreover, Holdco may incur substantial development, sales and marketing expenses and expend significant management effort to add new products or services to Deutsche

Table of Contents

Börse Group's and NYSE Euronext's trading platforms. Even after incurring these costs, Deutsche Börse Group and NYSE Euronext ultimately may not realize any, or may realize only small amounts of, revenues for these new products or services. Consequently, if revenue does not increase in a timely fashion as a result of these expansion initiatives, the up-front costs associated with expansion may exceed revenue and reduce Holdco's income.

Any failure or delay in exploiting technology, or failure to exploit technology as effectively as competitors of Deutsche Börse Group and NYSE Euronext, could have a material adverse effect on Holdco's business and cash flows, financial condition and results of operations.

Service deficiency in Deutsche Börse Group's and NYSE Euronext's manual data processing could result in losses.

Deutsche Börse Group and NYSE Euronext rely mostly on automated data processing. However, not all of the data processing is automated and manual data processing in relation to certain services rendered to its customers is required. Therefore, operator errors or omissions may occur that relate mainly to manual input of data (e.g., incorrect processing of customer instructions in the custody business). As a result, Deutsche Börse Group and NYSE Euronext remain exposed in certain business segments to the risk of inadequate handling of customer instructions. In addition, manual intervention in market and system management is necessary in certain cases. The manual intervention and data processing may lead to mistakes, which could have a material adverse effect on Deutsche Börse Group's, NYSE Euronext's and therefore on Holdco's business and cash flows, financial condition and results of operations.

A failure to protect Deutsche Börse Group's and NYSE Euronext's intellectual property rights, or allegations that Deutsche Börse Group and/or NYSE Euronext have infringed intellectual property rights of others, could adversely affect Holdco's business.

Deutsche Börse Group and NYSE Euronext own or license rights to a number of trademarks, service marks, trade names, copyrights and patents that they use in their businesses, including exclusive rights to use certain indices as the basis for equity index derivatives products traded on their futures markets. To protect their intellectual property rights, Deutsche Börse Group and NYSE Euronext rely on a combination of trademark laws, copyright laws, patent laws, trade secret protection, confidentiality agreements and other contractual arrangements with affiliates, customers, strategic investors and others. The protective steps taken may be inadequate to deter misappropriation of their intellectual property. Deutsche Börse Group and NYSE Euronext may be unable to detect the unauthorized use of, or take appropriate steps to enforce, their intellectual property rights. For example, in its market data & analytics business, Deutsche Börse Group makes its products available to customers on a periodic subscription basis. Although license agreements limit the right of customers to copy or publicly disclose data, customers could nevertheless make unauthorized copies or publicly disclose the information. As a result, the market data & analytics business could lose potential new subscribers due to the fact that the data is freely available. Furthermore, some of the products and processes of Deutsche Börse Group and NYSE Euronext may not be subject to intellectual property protection. Competitors of Deutsche Börse Group and NYSE Euronext may also independently develop and patent or otherwise protect products or processes that are the same or similar to the products or processes of Deutsche Börse Group and NYSE Euronext. Failure to protect intellectual property adequately could harm Deutsche Börse Group's and NYSE Euronext's reputation and affect their ability to compete effectively. Further, defending intellectual property rights may require significant financial and managerial resources, the expenditure of which could also have a material adverse effect on Holdco's business and cash flows, financial condition and results of operations.

Third parties may assert intellectual property rights claims against Deutsche Börse Group and/or NYSE Euronext, which may be costly to defend, could require the payment of damages and could limit Deutsche Börse Group's and/or NYSE Euronext's ability to use certain technologies, trademarks or other intellectual property. Some of Deutsche Börse Group's and NYSE Euronext's competitors currently own patents and have actively

Table of Contents

been filing patent applications in recent years, some of which may relate to their trading platforms and business processes. As a result, Deutsche Börse Group and NYSE Euronext may face allegations that they have infringed or otherwise violated the intellectual property rights of third parties. Any intellectual property rights claims, with or without merit, could be expensive to litigate or settle and could divert management resources and attention. Successful challenges against Deutsche Börse Group and/or NYSE Euronext could require them to modify or discontinue their use of technology or business processes where such use is found to infringe or violate the rights of others, or require Deutsche Börse Group and/or NYSE Euronext to purchase licenses from third parties, any of which could also have a material adverse effect on Holdco's business and cash flows, financial condition and results of operations.

Deutsche Börse Group and NYSE Euronext face significant competition and compete globally with a broad range of market participants for listings, trading, clearing and settlement volumes. Increasing competition could result in a decrease of their trading volumes and revenues.

The securities industry, including listings, trade execution, clearing and settlement of cash equities, bonds and derivatives, is highly competitive. Deutsche Börse Group and NYSE Euronext face significant competition for listings, trading, clearing and settlement of equities, fixed income securities, repos, exchange-traded funds, closed-end funds, structured products, futures, options and other derivatives. Holdco expects competition in the securities industry to increase further and that new competitors will enter the industry. For example, the central securities depository settlement services of Clearstream may face increased competition from the emerging central European settlement infrastructure TARGET2-Securities. Competitors and new entrants may be subject to less stringent regulatory oversight than Deutsche Börse Group and NYSE Euronext currently face. Increased competition from existing and new competitors could, for example, cause Deutsche Börse Group and NYSE Euronext to experience a decline in their market share of listings, trading, clearing and settlement activity. Such a decline could cause Deutsche Börse Group and NYSE Euronext to lose the associated transaction fees and, in particular for its U.S. business, a proportionate share of market data fees or other revenue sources.

Sustained trends toward the liberalization, technological innovation and globalization of world capital markets have resulted in greater mobility of capital, greater international participation in local markets and more competition among markets in different geographical areas. The financial infrastructure industry has undergone significant consolidation through mergers, acquisitions and major alliances globally in recent years. For example, in 2007, the International Securities Exchange Holdings, Inc. was acquired by Eurex, a derivatives exchange jointly owned by Deutsche Börse and SIX Swiss Exchange, NYSE Group Inc. and Euronext N.V. combined to form NYSE Euronext, the IntercontinentalExchange acquired the New York Board of Trade, Nasdaq merged with OMX, the Chicago Mercantile Holdings, Inc. and CBOT Holdings, Inc. completed their merger to form CME Group, Inc., and the London Stock Exchange and Borsa Italiana completed their merger. In 2008, CME Group merged with the New York Mercantile Exchange, the Vienna Stock Exchange acquired a majority stake in each of the Budapest, Ljubljana and Prague exchanges, and the following year, formed the CEE Stock Exchange Group, which is expected to implement a shared transaction platform among its exchanges. In February 2010, the London Stock Exchange acquired a majority stake in Turquoise. In late 2010, the Singapore Stock Exchange announced its offer to buy ASX Limited, and, in 2011, other significant transactions have been announced, including Lima Stock Exchange's combination with Bolsa de Valores de Colombia, London Stock Exchange Group's merger with TMX Group and BATS Global Markets' acquisition of Chi-X Europe. As a result of these combinations, and as a result of new entrants entering the industry, global competition among listing venues, trading markets and other execution venues as well as among clearing service providers has become more intense. The global derivatives industry has become increasingly competitive. Exchanges, intermediaries, and even end users are consolidating and over-the-counter and unregulated entities are constantly evolving. Additionally, in response to growing competition, many marketplaces in both Europe and the United States have demutualized to provide greater flexibility for future growth.

The current and prospective competitors of Deutsche Börse Group and NYSE Euronext include both traditional and non-traditional execution and listing venues, securities and securities option exchanges, futures

Table of Contents

exchanges, over-the-counter markets, clearing organizations, market data and information vendors, electronic communications networks, multilateral trading facilities, crossing systems and similar entities, consortia of large customers, consortia of clearing firms and electronic brokerage and dealing facilities, market makers, banks, index providers, financial services technology and other financial market participants. Some of these competitors are also among the largest customers of Deutsche Börse Group and NYSE Euronext. Deutsche Börse Group and NYSE Euronext face significant and growing competition from financial institutions that have the ability to divert trading and/or clearing volumes from Deutsche Börse Group's and NYSE Euronext's exchanges and clearing houses. For example, banks and brokers may also enter into bilateral trading arrangements and/or create Broker Crossing Networks by matching their respective order flows, or may internalize order flow by assuming the role of principal and acting as counterparty to orders originating from retail investors, in each case depriving Deutsche Börse Group and NYSE Euronext of potential trading volumes. Deutsche Börse Group and NYSE Euronext compete with other market participants in a variety of ways, including the cost, quality and speed of trade execution, liquidity, functionality, ease of use and performance of trading systems, the ranges of products and services offered to trading participants and listed companies, technological innovation and reputation. In particular, Deutsche Börse Group's and NYSE Euronext's competitors may exploit regulatory disparities between traditional, regulated exchanges and alternative markets that benefit from a reduced regulatory burden and lower-cost business model or consolidate and form alliances, which may create greater liquidity, lower costs, and better pricing than Deutsche Börse Group or NYSE Euronext can offer; and better leverage existing relationships with customers and alliance partners or better exploit brand names to market and sell their services.

The importance of technology to the financial infrastructure industry may continue to foster a growing competitive environment due to the global nature of the numerous competitors, ability for new upstarts to emerge and existing competitors to rapidly innovate. Deutsche Börse and NYSE Euronext further believe that they may also face competition from large computer software companies and media and technology companies. The number of businesses providing Internet-related financial services is rapidly growing. Other companies have entered into or are forming joint ventures or consortia to provide services similar to those provided by Deutsche Börse Group and NYSE Euronext. Other technology companies may become even stronger competitors through acquisitions.

Failure of Holdco to compete successfully could have a material adverse effect on its business, cash flows, financial condition and results of operations.

Holdco's business may be adversely affected by intense price competition.

The securities industry, including listings, trade execution, clearing and settlement of cash equities, bonds and derivatives, is characterized by intense price competition. In particular, the pricing model for listings, trade execution, clearing and settlement has changed in response to competitive market conditions. In recent years, some of Deutsche Börse Group's and NYSE Euronext's competitors have engaged in aggressive pricing strategies, including lowering the fees that they charge for taking liquidity and increasing liquidity (or rebates) they provide as an incentive for providers of liquidity in certain markets. It is likely that Deutsche Börse Group and NYSE Euronext will continue to experience significant pricing pressure and that some of their competitors will seek to increase their share of listings, trading or clearing by reducing their fees, by offering larger liquidity payments or by offering other forms of financial or other incentives.

For example, Holdco could lose a substantial percentage of its share of trading or listings if it is unable to price transactions in a competitive manner. Profit margins could also decline if Holdco reduces pricing in response, particularly in light of the substantially fixed cost nature of Deutsche Börse Group's and NYSE Euronext's respective trading and clearing businesses. Furthermore, other business segments of Deutsche Börse Group may also face intense price competition, such as from the emerging central European settlement infrastructure, TARGET2-Securities, with respect to Clearstream's central securities depository settlement services. In addition, a decrease in the market share in the listing and trading businesses as a result of price pressure could adversely impact other business segments, such as Deutsche Börse Group's market data &

Table of Contents

analytics business. Deutsche Börse Group also might be forced to lower its subscription fees for instruments listed on Xetra or Eurex due to competitors offering similar services at lower prices or for free. In addition, one or more competitors may engage in aggressive pricing strategies in the future and significantly decrease or completely eliminate their profit margin for a period of time in order to capture a greater share of listings, trading or clearing market share. Furthermore, many internalization strategies are driven by cost-saving or profit incentive, thus further increasing the desire for Deutsche Börse Group's and NYSE Euronext's customers to avoid incurring fees on its exchanges or clearing houses. Deutsche Börse Group's, NYSE Euronext's and also Holdco's results of operations and future profitability could be adversely affected as a result of these activities.

A change in the policy of the administrative bodies of the exchanges in Germany could reduce Deutsche Börse Group's revenue.

As an exchange operator in Germany, Deutsche Börse Group also generates income from statutory fees established by independent administrative bodies of the Frankfurt Stock Exchange and Eurex Deutschland. A change in the fee policy of the independent administrative bodies of the exchanges, or the discontinuation of certain types of fees previously charged, could reduce Deutsche Börse Group's revenues and could have a material adverse effect on Holdco's business and cash flows, financial condition and results of operations.

Adverse economic conditions could negatively affect Holdco's business and cash flows, financial condition and results of operations.

General economic conditions affect the overall level of trading activity and new listings in securities markets, which directly impact Deutsche Börse Group's and NYSE Euronext's results of operations. A significant portion of Holdco's revenue will depend, either directly or indirectly, on transaction-based fees that, in turn, depend on Deutsche Börse Group's and NYSE Euronext's ability to attract and maintain order flow, both in absolute terms and relative to other market centers. Adverse economic conditions may result in a deterioration of the economic success of the companies listed on Holdco's exchanges and hence a decline in trading volume and demand for market data and a decrease of asset-based fees, which may adversely affect Holdco's revenues and future growth. Declines in volumes may impact Deutsche Börse Group's and NYSE Euronext's market share or pricing structures. Poor economic conditions may also negatively impact new listings by reducing the number or size of securities offerings. In the recent financial crisis, both Deutsche Börse Group and NYSE Euronext experienced reduced trading and clearing volumes and fewer listings, resulting in decreased revenues in those segments of their respective businesses.

Deutsche Börse Group and NYSE Euronext also generate revenues from listing fees, clearing and transaction fees. Poor economic conditions, industry-specific circumstances, capital and financial market trends and regulatory requirements may also negatively impact new listings by reducing the number or size of securities offerings. A lack of investor confidence in the financial markets could also have a negative effect on Deutsche Börse Group's and NYSE Euronext's financial performance. Recent global market and economic conditions have been difficult and volatile, in particular for financial services companies that are Deutsche Börse Group's and NYSE Euronext's most significant customers. These conditions have resulted in significantly increased volatility, outflows of customer funds and securities, losses resulting from declining asset values, defaults on securities and reduced liquidity. While volatile markets can generate increased transaction volume, prolonged recessionary conditions can adversely affect trading volumes and the demand for market data, and can lead to slower collections of accounts receivable as well as increased counterparty risk. Deutsche Börse Group has experienced a decline in subscriptions for its market data as a result of the consolidation of its customers and employee layoffs by many of its customers. In the event of a significant and sustained decline in trading and/or clearing volumes, including a reduction in the number of traders, reduced trading demand by customers of Deutsche Börse Group and NYSE Euronext or a decision by regulators or market participants to curtail speculative trading, Deutsche Börse Group and NYSE Euronext would lose revenue, and their inability to quickly reduce infrastructure and overhead expenses could have a material adverse effect on Holdco's business and cash flows, financial condition and results of operations.

Table of Contents

During 2009 and 2010, companies in many different industries found it difficult to borrow money from banks and other lending sources, and also experienced difficulty raising funds in the capital markets. While access to credit markets has improved, the upheaval in the credit markets continues to impact the economy. While neither Deutsche Börse Group nor NYSE Euronext has experienced reductions in its borrowing capacity, lenders in general have taken actions that indicate their concerns regarding liquidity in the marketplace. These actions have included reduced advance rates for certain security types, more stringent requirements for collateral eligibility and higher interest rates. Should lenders continue to take additional similar actions, the cost of conducting Holdco's businesses may increase and Holdco's ability to implement its business initiatives could be limited. In addition, Holdco's ability to raise financing could be impaired if rating agencies, lenders or investors develop a negative perception of its long-term or short-term financial prospects, or of prospects for the industries in which it operates, which could have a material adverse effect on Holdco's business and cash flows, financial condition and results of operations.

Broad market trends and other factors beyond the control of Deutsche Börse Group and NYSE Euronext could significantly reduce demand for their services.

Deutsche Börse Group's and NYSE Euronext's business, cash flows and results of operations are highly dependent upon the levels of activity on their exchanges and clearing houses, and in particular, upon the volume of financial instruments traded and/or cleared, the number and shares outstanding of listed issuers, the number of new listings, the number of traders in the market and similar factors. Deutsche Börse Group's and NYSE Euronext's business, cash flows and results of operations are also dependent upon the success of their commercial technology business, which, in turn, is directly dependent on the commercial well being of their customers. Deutsche Börse Group and NYSE Euronext have no direct control over these variables. Among other things, Deutsche Börse Group and NYSE Euronext depend more upon the relative attractiveness of the financial instruments traded on their exchanges, and the relative attractiveness of the exchanges as a venue on which to trade these financial instruments, as compared to other exchanges, and alternative trading venues as well as over-the-counter trading. These variables are in turn influenced by economic, political and market conditions in Europe, the United States, and elsewhere in the world that are beyond Deutsche Börse Group's or NYSE Euronext's direct control, including factors such as:

broad trends in business and finance, including industry-specific circumstances, capital market trends and the mergers and acquisitions environment;

terrorism, natural disasters and war;

concerns over inflation and the level of institutional or retail confidence;

changes in monetary policy and foreign currency exchange rates;

the availability of short-term and long-term funding and capital;

the availability of alternative investment opportunities;

changes in the level of trading activity;

changes and volatility in the prices of securities;

changes in tax policy;

Edgar Filing: NYSE Euronext - Form 425

changes in the level and volatility of interest rates and GDP growth;

legislative and regulatory changes;

changes in customer base;

legislative and regulatory changes, including the potential for regulatory arbitrage among regulated and unregulated markets if significant policy differences emerge among markets;

the perceived attractiveness, or lack of attractiveness, of the U.S. or European capital markets;

A-42

Table of Contents

the outbreak of contagious disease pandemics or other public health emergencies in the regions in which Deutsche Börse Group and NYSE Euronext operate which could decrease levels of economic and market activities; and

unforeseen market closures or other disruptions in trading, clearing, settlement, custody, collateral management and/or market data technology.

General economic conditions affect financial and securities markets in a number of ways, from determining availability of capital to influencing investor confidence. Adverse changes in the economy or the outlook for the financial and securities industry can have a negative impact on Deutsche Börse Group's and NYSE Euronext's revenues through declines in trading volumes, new listings, clearing and settlement volumes and demand for market data. Accordingly, generally adverse market conditions may have a disproportionate effect on Deutsche Börse Group's and NYSE Euronext's business. Furthermore, Deutsche Börse Group's and NYSE Euronext's infrastructure and overhead is based on assumptions on certain levels of market activity (e.g., trading volumes, the number of listed companies or demand for market data).

If levels of activity on Deutsche Börse Group's and NYSE Euronext's exchanges are adversely affected by any of the factors described above or other factors beyond their control, this could also have a material adverse effect on Holdco's business and cash flows, financial condition and results of operations.

Deutsche Börse Group and NYSE Euronext may be at greater risk from terrorism than other companies.

Given Deutsche Börse Group's and NYSE Euronext's prominence in the global securities industry and the concentration of many of their properties and personnel in European and U.S. financial centers, including lower Manhattan, Deutsche Börse and NYSE Euronext may be more likely than other companies to be a direct target of, or an indirect casualty of, attacks by terrorists or terrorist organizations, or other extremist organizations that employ threatening or harassing means to achieve their social or political objectives.

In the event of an attack or a threat of an attack, Deutsche Börse Group's and NYSE Euronext's security measures and contingency plans may be inadequate to prevent significant disruptions in their businesses, technology or access to the infrastructure necessary to maintain their businesses. For example, if part or all of Deutsche Börse Group's and NYSE Euronext's primary data center facilities become inoperable, the disaster recovery and business continuity planning practices may not be sufficient and Deutsche Börse Group and NYSE Euronext may experience a significant delay in resuming normal business operations. Damage to Deutsche Börse Group's or NYSE Euronext's facilities due to terrorist attacks may be significantly in excess of insurance coverage, and Deutsche Börse Group and NYSE Euronext may not be able to insure against some damage at a reasonable price or at all. The threat of terrorist attacks may also negatively affect Deutsche Börse Group's and NYSE Euronext's ability to attract and retain employees. In addition, terrorist attacks may cause instability or decreased trading in the securities markets, including trading on exchanges. Any of these events could have a material adverse effect on Holdco's business and cash flows, financial condition and results of operations.

Deutsche Börse Group and NYSE Euronext are exposed to fluctuations in foreign exchange rates and interest rates.

Since Deutsche Börse Group and NYSE Euronext conduct operations in several different countries, including several European countries and the United States, a substantial portion of their assets, liabilities, revenues and expenses are denominated in euros, U.S. dollars, Swiss francs and pounds sterling. As a result, Holdco will be exposed to foreign exchange rate fluctuations. The multiple currency conversions that will take place as a result of transactions between subsidiaries of Holdco located in different jurisdictions will also expose Holdco and its subsidiaries to further exchange rate fluctuations. In addition, Deutsche Börse Group and NYSE Euronext are each exposed to interest rate fluctuations. Deutsche Börse Group is exposed to interest rate fluctuations, in particular in connection with cash investments or borrowings as well as through corporate

Table of Contents

transactions. Except for its fixed rate bonds, most of NYSE Euronext's financial assets and liabilities are based on floating rates. Holdco, Deutsche Börse Group and NYSE Euronext may use derivative financial instruments with the aim to reduce some of the negative impacts that could result from fluctuations in these rates. Holdco's, Deutsche Börse Group's and NYSE Euronext's assumptions and assessments with regard to the future development of these rates and the chosen level of risk avoidance or risk tolerance have a substantial impact on the success or failure of their hedging policies. The failure of Holdco's, Deutsche Börse Group's or NYSE Euronext's hedging policies could have a material adverse effect on Holdco's business and cash flows, financial condition and results of operations.

Deutsche Börse Group and NYSE Euronext are exposed to liquidity risk and may lack sufficient liquidity to meet their daily payment obligations or may incur increased refinancing costs which could adversely affect Holdco's business and cash flows, financial condition and result of operations.

Deutsche Börse Group and NYSE Euronext and its subsidiaries will be exposed to liquidity risk, and may lack sufficient liquidity to meet their daily payment obligations or may incur increased refinancing costs in the event of liquidity shortages. Deutsche Börse Group and NYSE Euronext and its subsidiaries manage liquidity risk by matching the duration of investments and liabilities, restricting investments in potentially illiquid or volatile asset classes, repledging securities received with central banks and maintaining sufficient financing facilities to overcome unexpected demands for liquidity. Credit lines are also available to Deutsche Börse Group and NYSE Euronext or their subsidiaries to provide additional liquidity should it be needed. In addition Deutsche Börse Group and NYSE Euronext have commercial paper programs in place for flexible, short term financing. Nevertheless, Deutsche Börse Group and NYSE Euronext cannot guarantee that current liquidity levels and contingency credit lines are adequate in the event of liquidity shortages. The lack of sufficient liquidity to close out open positions could have a material adverse effect on Deutsche Börse Group's and NYSE Euronext's business and cash flows, financial condition and results of operations. Following the completion of the combination, the assets and results of operations of Holdco as the holding company of Deutsche Börse and NYSE Euronext will largely depend on the development of Deutsche Börse's and NYSE Euronext's businesses and cash flows, financial condition and results of operations. Thus, a possible liquidity shortage of Deutsche Börse, NYSE Euronext or their subsidiaries may affect Holdco's business and cash flows, financial condition and results of operations as well.

Deutsche Börse Group's and NYSE Euronext's businesses may be adversely affected by risks associated with clearing and settlement activities.

The customers of the Deutsche Börse subsidiaries that operate its clearing and settlement businesses, Eurex Clearing and Clearstream, may default on their contractual, borrowing or guarantee obligations and not be able to fulfill their obligations or settle outstanding liabilities. Eurex Clearing AG is the clearinghouse within Deutsche Börse Group. It offers fully automated and straight-through post-trade services for derivatives, equities, repo, energy and fixed income transactions. In its role as a central counterparty, Eurex Clearing AG is exposed to counterparty, credit and market risk because it acts as a buyer to all sellers and as a seller to all buyers, thereby seeking to minimize counterparty risk and to maximize operational efficiency. Eurex Clearing AG maintains policies and procedures to help ensure that its clearing members can satisfy their obligations and uses several lines of defense to cover counterparty risks, including guarantee funds (clearing funds) and requesting daily and, where necessary, intraday deposit of collateral by clearing members in the form of cash or securities in line with the parties' respective positions and margin requirements. In the event of a clearing member's default, the collateral deposited may be inadequate to cover all remaining obligations after closing out all open positions.

Clearstream lends only on a short-term basis, for the purposes of increasing the efficiency of the settlement for securities transactions and largely to collateralized parties with a good credit rating. These credit lines may be revoked at any time. Furthermore, Clearstream is also exposed to credit risk in its securities lending activities. Although lending transactions are collateralized, Clearstream customers may default and the collateral held may not be sufficient to avoid incurring a credit loss, which could have a material adverse effect on Holdco's business and cash flows, financial condition and results of operations.

Table of Contents

NYSE Euronext's UK regulated derivatives subsidiary, the London Market of NYSE Liffe, took full responsibility for clearing activities in NYSE Euronext's UK derivatives market on July 30, 2009. As a result, NYSE Liffe became the central counterparty for contracts entered into by its clearing members on the London Market of NYSE Liffe market and outsources certain services to LCH.Clearnet Limited, which is referred to in this document as LCH.Clearnet. NYSE Liffe has credit exposure to those clearing members. NYSE Liffe's clearing members may encounter economic difficulties as a result of the market turmoil and tightening credit markets, which could result in bankruptcy and failure. NYSE Liffe offsets its credit exposure through arrangements with LCH.Clearnet in which LCH.Clearnet provides clearing guarantee backing and related risk functions to NYSE Liffe, and under which LCH.Clearnet is responsible for any defaulting member positions and for applying its resources to the resolution of such a default. In addition, NYSE Liffe maintains policies and procedures to help ensure that its clearing members can satisfy their obligations, including by requiring members to meet minimum capital and net worth requirements and to deposit collateral for their trading activity. Nevertheless, NYSE Euronext cannot be sure that in extreme circumstances, LCH.Clearnet might not itself suffer difficulties, in which case these measures might not prove sufficient to protect NYSE Liffe from a default, or might fail to ensure that NYSE Liffe is not adversely affected in the event of a significant default.

NYSE Euronext has also entered into a joint venture with the Depository Trust & Clearing Corporation (which is referred to in this document as DTCC) to establish the New York Portfolio Clearing (which is referred to in this document as NYPC), which is expected to be operational during the first half of 2011. NYPC will initially clear fixed income futures listed on NYSE Liffe US, with the ability to add other exchanges and derivatives clearing organizations in the future. NYSE Euronext has agreed to commit a \$50 million financial guarantee to the NYPC default fund and will face clearing risks similar to those it would expect to face with respect to NYSE Liffe Clearing. NYSE Euronext may also in the future expand its clearing operations to other markets and financial products, which would increase its exposure to these types of risks.

In the event that any of the above counterparties to Deutsche Börse Group or NYSE Euronext default on their obligations, such default could have a material adverse effect on Holdco's business and cash flows, financial condition and results of operation.

Deutsche Börse Group's share of trading in Deutsche Börse Group listed securities and NYSE Euronext's share of trading in NYSE Euronext listed securities has declined and may continue to decline.

As a result of increasing competition, including from nontraditional trading venues and other competitors that are also among Deutsche Börse Group's and NYSE Euronext's largest customers, Deutsche Börse Group's share of the European Electronic Order Book Equity Trading declined from approximately 13.49% in 2009 to 12.25% in 2010. NYSE Euronext's share of trading on a matched basis in NYSE-listed securities has declined from approximately 38% in 2009 to 36% in 2010. NYSE Euronext's share of Euronext-listed securities remained relatively stable in 2010. Multilateral trading facilities (which are referred to in this document as MTFs) offer trading in the securities listed on the Frankfurt Stock Exchange, Euronext and other European regulated markets and compete directly with Deutsche Börse Group as well as with NYSE Euronext for market share. If Deutsche Börse Group's and NYSE Euronext's trading share continues to decrease relative to its competitors, they may be less attractive to market participants as a source of liquidity. This could further accelerate their loss of trading volume. Similarly, a lower trading share of Deutsche Börse Group and NYSE Euronext listed securities may cause issuers to question the value of a Deutsche Börse Group listing and a NYSE Euronext listing, which could adversely impact Deutsche Börse Group's and NYSE Euronext's listing business.

In addition, in the United States, the allocation of market data revenues among competing market centers is tied to trading share. A decline in NYSE's trading share lowers its percentage of the U.S. national market system tape pool revenues from the consolidated tape association and unlisted trading privileges. Declines in NYSE Euronext's trading share could adversely affect the growth, viability and importance of some of its market data products.

Table of Contents

If growth in Deutsche Börse Group's and NYSE Euronext's overall trading volumes of Deutsche Börse Group-listed and NYSE Euronext-listed securities does not offset any significant decline in their trading share, or if a decline in their trading share in Deutsche Börse Group-listed and NYSE-listed securities makes their venues appear less liquid, then this could have a material adverse effect on Holdco's business, financial condition and results of operations.

If Deutsche Börse Group's or NYSE Euronext's goodwill or intangible assets become impaired, Deutsche Börse Group, NYSE Euronext and, after the combination, Holdco may be required to record a significant charge to earnings.

Under IFRS and U.S. GAAP, Deutsche Börse Group and NYSE Euronext, respectively, review their amortizable intangible assets for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable. Goodwill and indefinite-lived intangible assets are tested for impairment at least annually, and are also tested when factors arise that may be considered a change in circumstances indicating that the carrying value of the goodwill or intangible assets may not be recoverable, such as a decline in stock price and market capitalization, reduced future cash flow estimates, and slower growth rates. Deutsche Börse Group or NYSE Euronext may be required to record a significant charge in their financial statements during the period in which any impairment of its goodwill or intangible assets is determined. For example, Deutsche Börse had to write off 415.6 million in 2009 and another 453.3 million in 2010 solely due to the acquisition of ISE in 2007. In addition, any goodwill arising from the combination accounted on the Holdco level may be subject to impairment, and Holdco may be required to record a significant charge in its financial statements. If additional impairment charges are incurred, this could have a material adverse effect on Holdco's business, financial condition and results of operations.

Deutsche Börse Group depends on its large customers.

A considerable portion of Deutsche Börse Group's revenues are derived from business conducted with institutional clients and large financial institutions. In 2010, the largest trading participant in Xetra accounted for 7% (2009: 8%, 2008: 7%), and the 10 largest trading participants in Xetra accounted for 48% (2009: 50%, 2008: 52%) in each case, of the total trading volumes. On the Eurex side of Deutsche Börse Group's business (excluding ISE), the largest customer accounted for 6% (2009: 5%, 2008: 4%) and the 10 largest customers accounted for 32% (2009: 32%, 2008: 32%), in each case, of the overall trading volumes for 2010. Clearstream's largest customer accounted for 6% (2009: 6%, 2008: 7%) and the 10 largest customers accounted for 39% of Clearstream's sales revenues in 2010 (2009: 36%, 2008: 46%). Loss of all or a substantial portion of trading volumes of any of Deutsche Börse Group's large customers for whatever reason could have a material adverse effect on Holdco's business and cash flows, financial condition and results of operations.

Deutsche Börse Group and NYSE Euronext are subject to significant litigation risks and other liabilities.

Many aspects of Deutsche Börse Group's and NYSE Euronext's business involve litigation risks. These risks include potential liability from disputes over terms of a securities trade or from claims that a system or operational failure or delay caused monetary losses to a customer, as well as potential liability from claims that Deutsche Börse Group or NYSE Euronext facilitated an unauthorized transaction or provided materially false or misleading statements in connection with a transaction. NYSE Euronext is involved and may continue to be involved in allegations of misuse of the intellectual property of others, as well as other commercial disputes. Dissatisfied customers frequently make claims against their service providers regarding quality of trade execution, improperly cleared or settled trades, mismanagement or even fraud. Although aspects of Deutsche Börse Group's and NYSE Euronext's business are protected by regulatory immunity, Holdco could nevertheless be exposed to substantial liability under German law, U.S. federal and state laws and court decisions, rules and regulations promulgated by BaFin, the SEC, U.S. Commodity Futures Trading Commission (which is referred to in this document as the "CFTC") or European and other regulators, and laws and court decisions in the countries where Deutsche Börse Group and NYSE Euronext operate. Holdco could incur significant expenses defending

Table of Contents

claims, even those without merit. In addition, an adverse resolution of any lawsuit or claim against Holdco or its subsidiaries may require them to pay substantial damages or impose restrictions on how they conduct business. Furthermore, Holdco, Deutsche Börse Group and NYSE Euronext may face claims in connection with the combination. Potential claims may include any kind of alleged violations of contractual obligations to which Holdco, Deutsche Börse Group or NYSE Euronext may be bound by conducting the combination, alleged breaches of fiduciary duties vis-à-vis shareholders and other reasons.

For example, following the announcement of the business combination agreement on February 15, 2011, various lawsuits were filed by purported NYSE Euronext shareholders in at least two U.S. state courts and one federal court in which the plaintiffs are claiming breach of fiduciary duty against the individual defendants, and claiming aiding and abetting that alleged breach against one or more of the entity defendants. In general, the lawsuits critique the terms of the proposed transaction and seek, among other things, an injunction against its completion. Certain members of Deutsche Börse Group are involved in various legal proceedings, including an action seeking damages and the restraint of certain securities held in an account of Clearstream Banking S.A. alleged to be beneficially owned by an Iranian government entity in connection with an enforcement action against the government of Iran by representatives of victims of a bombing in Beirut in the 1980s. In addition, Clearstream Banking S.A. is subject to an action seeking damages for alleged improper payments in violation of a judgment obtained by creditors of the Republic of Argentina and an action has been filed against Clearstream Banking S.A., seeking damages for alleged improper payments made to former investors in the Madoff Ponzi scheme. NYSE Euronext is also involved in various legal proceedings, including a dispute with the U.S. Internal Revenue Service regarding a proposed adjustment seeking to disallow certain deductions taken by the NYSE for compensation paid to its former chairman and chief executive officer in the tax years 2001, 2002 and 2003.

An adverse result with respect to any of these various proceedings could have a material adverse effect on Holdco's business and cash flows, financial condition and results of operations.

Deutsche Börse Group's and NYSE Euronext's networks and those of their third-party service providers may be vulnerable to security risks.

The secure transmission of confidential information over public and other networks is a critical element of Deutsche Börse Group's and NYSE Euronext's operations. Deutsche Börse Group's and NYSE Euronext's networks and those of their third-party service providers may be vulnerable to unauthorized access, computer viruses and other security problems. Persons who circumvent security measures could wrongfully access and use Deutsche Börse Group's and NYSE Euronext's information or their customers' information, or cause interruptions or malfunctions in their operations. Deutsche Börse and NYSE Euronext have frequently been the target of attempted information security attacks, and although none of these attempts has resulted in any material issues for either company, the security measures taken by Deutsche Börse and NYSE Euronext are costly and may ultimately prove inadequate. This could cause Deutsche Börse Group and NYSE Euronext to incur reputational damage, regulatory sanctions, litigation, loss of trading share, loss of trading volume and loss of revenues, any of which could also have a material adverse effect on Holdco's business and cash flows, financial condition and results of operations.

If the indices and other products of Deutsche Börse Group and NYSE Euronext contain undetected errors or fail to perform properly, this could have a material adverse effect on their business, financial condition or results of operation.

The market data & analytics business of Deutsche Börse Group and the Information Services business of NYSE Euronext develop, calculate, market and distribute indices in a variety of asset classes. As a result, Deutsche Börse Group's and NYSE Euronext's indices underlie derivative financial instruments of investors, financial market product developers and issuers. Indices and other products developed or licensed by Deutsche Börse Group and NYSE Euronext may contain miscalculations or undetected errors. As a consequence market participants who use real time price and orderbook information or other market moving signals to make their buy

Table of Contents

or sell decisions and recommendations or require accurate instrument reference data for risk management activities and error-free settlement may base their decisions on miscalculated or erroneous information. Therefore, Deutsche Börse Group and NYSE Euronext may be exposed to damage claims brought forward against them based on such miscalculations or undetected errors and could result in harm to their reputation, contractual disputes, negative publicity, delays in or loss of market acceptance of their products, license terminations or renegotiations, or unexpected expenses and diversion of resources to remedy errors. This may have a material adverse effect on Holdco's, Deutsche Börse Group's and NYSE Euronext's business and cash flows, financial condition and results of operations.

Deutsche Börse Group's and NYSE Euronext's reliance on third parties could adversely affect their businesses if these third parties cease to perform the functions that they currently perform.

Deutsche Börse Group and NYSE Euronext rely on third party service providers that they do not control. Deutsche Börse Group relies on third-party service providers, including information technology hardware providers and certain data suppliers. In particular, the index and analytic products developed in the market data & analytics business and the business of STOXX Ltd. of Deutsche Börse Group are dependent upon updates and continuing access to historical and current data from third-party sources, such as exchanges and other data suppliers who calculate and provide a variety of indices. If any of the provided information has errors, is delayed or is unavailable, this could materially impair the ability of Deutsche Börse Group to effectively operate these businesses. In particular, the timing of calculations of real-time indices as reference prices for certain derivatives is critical, and any delay may cause Deutsche Börse Group to face liabilities from customers who rely on these indices as a reference point for their specific products.

NYSE Euronext relies on third parties for certain clearing and regulatory services. For example, it relies on LCH.Clearnet to provide a clearing guarantee and manage related risk functions in connection with clearing on some of its European cash and derivatives markets. NYSE Euronext also relies on the services of Euroclear for settling transactions on its European cash markets. FINRA performs the market surveillance and enforcement functions for Deutsche Börse Group's U.S. derivatives exchange, ISE. Although NYSE Regulation oversees FINRA's performance of regulatory services for NYSE Euronext's markets, and NYSE Regulation has retained staff associated with such responsibility as well as for rule development and interpretations, regulatory policy, oversight of listed issuers' compliance with applicable listing standards and real-time stockwatch reviews, NYSE Euronext is significantly reliant on FINRA to perform these regulatory functions. NYSE Euronext also depends on the Consolidated Tape Association to oversee the dissemination of real-time trade and quote information in NYSE- and NYSE Amex-listed securities. To the extent that any of these third parties experiences difficulties, materially changes its business relationship with Deutsche Börse Group or NYSE Euronext or is unable for any reason to perform its obligations, Deutsche Börse Group's or NYSE Euronext's business or reputation may be materially adversely affected.

Deutsche Börse Group and NYSE Euronext also rely on members of the trading community to maintain markets and add liquidity. Global market and economic conditions have been difficult and volatile in recent years, in particular for financial services companies, such as the members of the exchanges.

To the extent that any external service providers provide inadequate products, experience difficulties or losses, do not provide sufficiently experienced personnel, are unable to provide services to the required levels or otherwise fail to meet their obligations under their service arrangements with either Deutsche Börse Group or NYSE Euronext, a material adverse effect on Holdco's business and cash flows, financial condition and results of operations could occur.

Holdco will face risks when entering into or increasing its presence in markets where Deutsche Börse Group and NYSE Euronext do not currently compete or when entering into new business lines.

After the combination, Holdco may enter into or increase its presence in markets that already possess established competitors. Attracting customers in certain countries may also be subject to a number of risks, including currency exchange rate risk, difficulties in enforcing agreements or collecting receivables, longer

Table of Contents

payment cycles, compliance with the laws or regulations of these countries, and political and regulatory uncertainties. Holdco may also expand its presence or enter into newly developing arenas of competition where less regulated competitors exist and demand for such services is subject to uncertainty. As a result, demand and market acceptance for Holdco's products and services within these markets will be subject to a high degree of uncertainty and risk. Holdco may be unable to enter into or increase its presence in these markets and compete successfully, which could have a material adverse effect on Holdco's business and cash flows, financial condition and results of operations.

Damage to Holdco's, Deutsche Börse Group's and/or NYSE Euronext's reputation could materially adversely affect Holdco's business.

One of Deutsche Börse Group's and NYSE Euronext's competitive strengths is their strong reputation and brand name. Their reputation could be harmed in many different ways, including by regulatory, governance or technology failures or the activities of members or listed companies whom they do not control. Damage to Deutsche Börse Group's and/or NYSE Euronext's reputation could cause some issuers not to list their securities on their exchanges, as well as reduce the trading volume on their exchanges, and/or reduce clearing and/or settlement volumes. Any of these events could have a material adverse effect on Holdco's business and cash flows, financial condition and results of operations.

Deutsche Börse Group and NYSE Euronext may complete acquisitions and dispositions prior to completion of the combination that may affect their respective businesses and/or the value of the consideration to be received by Deutsche Börse shareholders and NYSE Euronext shareholders in the combination.

Prior to completion of the combination, the business combination agreement limits the ability of Deutsche Börse, NYSE Euronext and their respective subsidiaries to complete or enter into agreements that provide for acquisitions and divestitures in excess of \$100 million in the aggregate for dispositions and \$200 million in the aggregate for acquisitions. However, each party may engage in transactions up to these agreed upon limits and may seek the consent of the other party to engage in more substantial transactions. Although neither of the parties currently has an agreement in place which provides for such a transaction, each party continually evaluates strategic alternatives, including opportunities to expand through acquisitions or to focus the business through dispositions.

Any acquisition by Deutsche Börse or NYSE Euronext may result in the use of a significant portion of the party's available cash, an issuance of shares that would be dilutive to their respective shareholders, the incurrence of debt, and/or significant acquisition-related charges. In addition, any acquisition will involve significant risks, including the possible failure to successfully integrate and realize the expected benefits of the acquisition. Acquisitions may also result in the assumption of liabilities, including liabilities that are contingent, unknown or not fully known at the time of the acquisition, which could have a material adverse effect on the business of Deutsche Börse Group or NYSE Euronext.

As the value of consideration to be received by Deutsche Börse shareholders and NYSE Euronext shareholders is dependant upon the value of the combined company, changes to either company's business, financial position or results of operations prior to completion may adversely affect the value of the consideration to be received by their shareholders in the combination. If an acquisition or disposition ultimately proves to be detrimental to Deutsche Börse Group, NYSE Euronext or Holdco, their respective shares may be worth less than they otherwise would have been had such transaction not been undertaken or successfully completed. Acquisitions and dispositions also may divert the time and focus of Deutsche Börse Group's and/or NYSE Euronext's management from operating their respective businesses to negotiating and completing transactions and, in the case of acquisitions, integrating the acquired businesses.

Detrimental acquisitions or dispositions by Deutsche Börse or NYSE Euronext or the failure to successfully implement or agree upon any such transactions may affect their respective business and/or the value of the consideration to be received by Deutsche Börse shareholders and NYSE Euronext shareholders in the combination.

Table of Contents

Future business combinations, acquisitions, partnerships and joint ventures may require significant resources and/or result in significant unanticipated costs or liabilities.

Holdco may seek to grow its business by entering into business combination transactions, making acquisitions or entering into partnerships or joint ventures, which may be material. The market for acquisition targets and strategic alliances is highly competitive, particularly in light of increasing consolidation in the industry, which could adversely affect Holdco's ability to find acquisition targets or strategic partners consistent with its objectives.

In pursuing its strategy, consistent with industry practice, Holdco may routinely engage in discussions with industry participants regarding potential strategic transactions. Such transactions may be financed by the issuance of additional equity securities, including shares of Holdco, or the incurrence of indebtedness, or a combination thereof. The issuance of additional equity may be substantial and dilutive to existing Holdco shareholders. In addition, the announcement or completion of future transactions could have a material adverse effect on the price of the shares of Holdco. Holdco could face financial risks associated with incurring indebtedness, such as reducing its liquidity, curtailing its access to financing markets and requiring the service of such indebtedness.

In addition, business combination transactions, acquisitions, partnerships and joint ventures may require significant managerial attention, which may be diverted from Holdco's other operations. These capital, equity and managerial commitments may impair the operation of Holdco's businesses. Furthermore, any future business combination transactions or acquisitions could entail a number of additional risks, including increased regulation and exposure to unanticipated liabilities, all of which could have a material adverse effect on Holdco's business and cash flows, financial condition and results of operations.

Risks Relating to Regulatory Environment and Legal Risks

Further uncertainties in connection with the resolution on and implementation of new regulations may reduce the level of activities of Deutsche Börse Group and/or NYSE Euronext.

A significant piece of regulatory legislation was enacted in the United States, the Dodd-Frank Wall Street Reform and Consumer Protection Act (which is referred to in this document as the Dodd-Frank Act) on July 15, 2010. Few provisions of the Dodd-Frank Act became effective immediately upon signing and many of its provisions require the adoption of regulations by various U.S. federal agencies and departments. Furthermore, the legislation contains substantial ambiguities, many of which will not be resolved until regulations are adopted. As a result, it is difficult to predict all of the effects that the legislation will have on Deutsche Börse Group or NYSE Euronext, although they do expect it to impact their businesses in various and significant ways. For instance, NYPC, the joint venture futures clearing organization within NYSE Euronext that began its operations in the first half of 2011, could become subject to heightened prudential standards to be adopted by the CFTC, as well as to the U.S. Federal Reserve's back-up authority to regulate financial market utilities that are primarily regulated by the CFTC, if NYPC is designated as systemically important. In addition, other Deutsche Börse or NYSE Euronext subsidiaries that are not regulated in the U.S. today but have a U.S. presence could be required to register with regulatory authorities and be subject to extensive regulation. The Dodd-Frank Act authorizes the SEC and CFTC to adopt position limits on the trading of swap and security-based swap products that may trade today or in the future on the facilities of certain of Deutsche Börse's or NYSE Euronext's subsidiaries. Such position limits could cause market participants to change their trading behavior and could result in Deutsche Börse Group or NYSE Euronext experiencing a loss of transaction-based revenue and limit opportunities for future growth. The Dodd-Frank Act also provides regulators, such as the SEC, with enhanced examination and enforcement authorities, which could result in their regulated subsidiaries incurring increased costs to respond to examinations or other regulatory inquiries.

Table of Contents

Similar uncertainties arise in the context of the European regulatory framework for financial markets and Deutsche Börse Group's and NYSE Euronext's European listings, trading, market data, clearing and settlement businesses, which are largely affected by European regulations. The European Commission has proposed or is consulting on significant reforms, notably on the following subjects:

A legislative proposal on the revision of the Markets in Financial Instruments Directive (which is referred to in this document as MiFID) that governs most of Deutsche Börse Group's and NYSE Euronext's day-to-day activities as market operators is expected to be released by the European Commission during the course of 2011. In December 2010, the European Commission issued a Public Consultation on the MiFID review. Both Deutsche Börse Group and NYSE Euronext actively participated in the regulatory discussion and have submitted written responses to the European Commission's public consultation;

In September 2010, the European Commission released a legislative proposal for a regulation on OTC derivatives, central counterparties and trade repositories (formerly, the European Market Infrastructure Regulation, which is referred to in this document as EMIR). Deutsche Börse, NYSE Euronext and over two hundred other parties responded to the European Commission's public consultation with detailed written submissions. The adoption of the regulation is subject to the co-decision process by the European Parliament and the Council, with political agreement expected to be achieved in 2011. This would enable Regulation on Derivative Transactions, Central Counterparties and Trade Repositories to be implemented in 2012, in line with the G20 timetable. The original emphasis in EMIR was on mandating central counterparty (which is referred to in this document as a CCP) clearing for eligible OTC contracts. However, detailed discussion continues about the full scope of the regulation, regulatory standards for CCPs, and others, which may carry a risk of significant impact on current business models and of potentially burdensome and costly operational requirements being imposed on CCPs. In addition, work within the Bank for International Settlements is expected to lead to the current zero risk weighting of collateral lodged with CCPs being replaced by a more burdensome regime for a CCP's counterparties;

In September 2010, the European Commission published a legislative proposal for a regulation on short selling and certain aspects of credit default swaps to regulate short selling activity in the EU. The adoption of the short selling regulation is currently subject to the co-decision process with the European Parliament and the Council;

In November 2010, the European Commission published the second public consultation on a new legal framework for intermediated securities. The European Commission intends to produce legislative proposals on this issue (Securities Law Directive) before the summer of 2011;

The European Commission has carried out a public consultation in relation to the Market Abuse Directive, and is expected to release a legislative proposal for a revised Market Abuse Directive during the course of 2011; and

In January 2011, the European Commission launched a public consultation on the regulation of Central Securities Depositories (which are referred to in this document as CSDs) and the harmonization of settlement across Europe and is expected to issue a legislative proposal in the summer of 2011.

If and when the above legislative proposals are adopted, and/or if any other European legislation relevant to Deutsche Börse Group's or NYSE Euronext's business is adopted or amended, this could adversely impact the businesses of Deutsche Börse Group and NYSE Euronext in various and significant ways and could have a material adverse effect on Holdco's business and cash flows, financial condition and results of operations.

In addition, Deutsche Börse Group's and NYSE Euronext's European businesses are also subject to national legislation in Europe. Part of the legislation governing financial markets in the European countries where it operates is undergoing reform and new legislation is being enacted or proposed. For example, on July 26, 2010, the UK Government announced its plans for reforming the UK regulatory regime, to involve the abolition of the

Table of Contents

Financial Services Authority and its replacement with two separate regulators, one covering prudential risks and the other conduct of business matters. This would mean that, from the end of 2012, NYSE Euronext's London trading market of NYSE Liffe would be principally overseen by a new regulator, the Financial Conduct Authority, whereas NYSE Euronext's London-based clearing activities would be principally regulated by the Bank of England. All of these changes could affect its business in the future. In Belgium, as from March 2011 prudential competences of the Belgian Banking, Finance and Insurance Commission (*Commission bancaire, financière et des assurances*) (which is referred to in this document as the CBFA) should be transferred to the Belgian National Bank with possible impact on NYSE Euronext's clearing activities.

Finally, three new independent European agencies (the European Securities Markets Authority (which is referred to in this document as ESMA) in the field of financial markets, the European Banking Authority for the banking field and the European Insurance and Occupational Pensions Authority for insurances and occupational pensions companies) have been created to contribute to safeguarding the stability of the European Union's financial system by ensuring the integrity, transparency, efficiency and orderly functioning of securities markets, as well as enhancing investor protection. In particular, ESMA is intended to foster supervisory convergence both amongst securities regulators and across financial sectors by working closely with the other competent European Supervisory Authorities. The need for those agencies to become fully operational and the dialogue they will have to put in place with the national competent regulators could slow the process and the implementation of any new measures.

It is expected that market participants will change their behavior in response to these new regulations. Deutsche Börse Group and NYSE Euronext are highly dependent upon the levels and nature of activity on their exchanges and clearing houses, in particular the volume of financial instruments traded and cleared, the number of participants in the market, the relative attractiveness of the financial instruments traded on their exchanges and cleared in their clearing houses and similar factors. To the extent that the above regulatory changes cause market participants to reduce the levels or restrict the nature of activity on Deutsche Börse Group's and/or NYSE Euronext's exchanges, and/or clearing houses, the business and cash flows, financial condition and results of operations of Holdco may be adversely affected. Furthermore, their U.S. and international exchanges compete for listings in other jurisdictions. If the Dodd-Frank Act or any of the pending European legislation described above or any other legislation that might be adopted in the future adversely affects the legal and regulatory environment surrounding the markets that Deutsche Börse Group and/or NYSE Euronext operate, or the market perceptions thereof, it may make it difficult for their exchanges and/or clearing houses to compete with other competitors in different jurisdictions, which could have a material adverse effect on Holdco's business and cash flows, financial condition and results of operations.

Regulatory changes or court rulings may have an adverse impact on Deutsche Börse Group's and NYSE Euronext's ability to derive revenue from market data fees.

Regulatory developments could reduce the amount of revenue that Deutsche Börse Group and NYSE Euronext obtain from market data fees. With respect to Deutsche Börse Group's and NYSE Euronext's U.S. exchanges, the ability to assess fees for market data products is contingent upon receiving approval from the SEC. There continue to be opposing industry viewpoints as to the extent that Deutsche Börse Group and NYSE Euronext should be able to charge for market data, and it is conceivable that the SEC could undertake an examination of exchange market data fees. If such an examination is conducted, and the results were to be detrimental to the ability of Deutsche Börse Group's and NYSE Euronext's U.S. exchanges to charge for market data, there could be a negative impact on their revenues. In November 2004, the SEC proposed corporate governance, transparency, oversight and ownership rules for registered national exchanges and other self-regulated organizations (which are referred to in this document as SROs) and issued a concept release examining the efficacy of self-regulation. The concept release also solicited public comment concerning the level of market data fees, following several years of claims from some competitors and data intermediaries that market data fees and revenues are excessive. Holdco cannot predict whether, or in what form, any regulatory changes will take effect or their impact on the business of its subsidiaries. A determination by the SEC, for example, to

Table of Contents

link market data fees to marginal costs, to take a more active role in the market data rate-setting process, or to reduce the current levels of market data fees could have a material adverse effect on Holdco's market data revenues.

European exchanges are currently authorized to sell trade information on a non-discriminatory basis at a reasonable cost. This regulatory position could be modified or interpreted by the European Commission or European court decisions as well as in Germany by the relevant exchange council (*Börsenrat*) in a manner that could have a material adverse effect on Holdco's European market data revenues.

The legal and regulatory environment in the United States may make it difficult for NYSE Euronext's U.S. exchanges to compete with non-U.S. exchanges for the listings of non-U.S. companies and adversely affect its competitive position.

NYSE Euronext's U.S. exchanges will continue to compete to obtain the listing of non-U.S. issuer securities (in addition to the listing of U.S. issuer securities). However, the legal and regulatory environment in the United States, as well as the perception of this environment, has made and may continue to make it more difficult for NYSE Euronext's U.S. exchanges to compete with non-U.S. securities exchanges for these listings and adversely affect its competitive position.

For example, the Sarbanes-Oxley Act of 2002 imposes a stringent set of corporate governance, reporting and other requirements on both U.S. and non-U.S. publicly listed companies which requires significant resources from issuers. NYSE Euronext believes this has had an adverse impact on the ability of NYSE Euronext's U.S. exchanges to attract and retain listings of non-U.S. issuers. In addition, the Dodd-Frank Act imposes new corporate governance requirements on U.S. listed companies, which may diminish the relative attractiveness of a listing on a U.S. exchange and adversely affect the ability of NYSE Euronext's U.S. exchanges to attract and retain listings. In recent years, both U.S. and non-U.S. companies are increasingly seeking to access the U.S. capital markets through private transactions that do not involve listing on a U.S. exchange, such as through Rule 144A transactions directed exclusively to mutual funds, hedge funds and other large institutional investors. Moreover, the rules facilitating a non-U.S. company's ability to delist its securities and exit the U.S. public company reporting system may make it more difficult for NYSE Euronext to retain listings of non-U.S. companies, and may diminish the perception of NYSE Euronext's U.S. exchanges as premier listing venues, which could have a material adverse effect on Holdco's business and cash flows, financial condition and results of operations.

Deutsche Börse Group and NYSE Euronext operate in a highly regulated industry and may be subject to censures, fines and other legal proceedings if they fail to comply with their legal and regulatory obligations.

Deutsche Börse Group and NYSE Euronext operate in a highly regulated industry and are subject to extensive regulation, including competition and antitrust laws. The securities industry, as well as the banking and financial services industry, are subject to extensive governmental regulation and could become subject to increased regulatory scrutiny. As a matter of public policy, these regulations are designed to safeguard the integrity of the securities and other financial markets and to protect the interests of investors in those markets. The SEC and the CFTC regulate Deutsche Börse Group's and NYSE Euronext's U.S. exchanges and clearing houses in their respective jurisdictions and have broad powers to audit, investigate and enforce compliance with their rules and regulations and impose sanctions for non-compliance. European regulators have similar powers with respect to Deutsche Börse Group's and NYSE Euronext's exchanges and clearing houses in their respective countries. Eurex Clearing AG and Clearstream Banking AG Frankfurt operate as credit institutions with banking licenses under German law and therefore are subject to the banking supervision of BaFin and are obliged to comply with certain legal requirements. The failure to comply with these requirements could result in significant sanctions. As the scope of Holdco's business expands, it may also become subject to oversight by other regulators. In addition, there has been and may continue to be an increased demand for more regulation and stricter oversight. This may lead to the passage of legislation and implementation of regulation which may

Table of Contents

impose excessive regulatory burdens. As a result, Holdco may sustain losses related to a failure to comply with new or existing laws or regulations. Holdco may also sustain losses if contracts must be renegotiated or if contract terms must be altered as a result of new laws, regulations, or court decisions. Additionally, Holdco may have greater responsibility for preventing illegal activities, such as fraud, money laundering, violations of competition regulations or breaches of banking secrecy and face increased financial exposure or penalties related to an increased responsibility as a result of new laws or regulations. Furthermore, non-compliance or inadequate compliance with new or existing laws, inadequate contract terms or court decisions not adequately observed in customary business practice as well as fraud could lead to losses. Holdco's ability to comply with applicable laws and rules will largely depend on its establishment and maintenance of appropriate systems and procedures, as well as its ability to attract and retain qualified personnel.

Both the European regulators and the U.S. regulators are vested with broad enforcement powers over exchanges and clearing houses in their respective jurisdictions, including powers to censure, fine, issue cease-and-desist orders, prohibit an exchange or clearing house from engaging in some of its operations or suspend or revoke an exchange's or a clearing house's recognition, license or registration. In the case of actual or alleged non-compliance with regulatory requirements, Deutsche Börse Group's and NYSE Euronext's exchanges or clearing houses could be subject to investigations and administrative or judicial proceedings that may result in substantial penalties, including revocation of an exchange's or a clearing house's recognition, license or registration. Any such investigation or proceeding, whether successful or unsuccessful, would result in substantial costs and diversions of resources, could negatively impact Holdco's reputation and could have a material adverse effect on Holdco's business and cash flows, financial condition and results of operations. Furthermore, action by any of Deutsche Börse Group's or NYSE Euronext's regulators requiring them to limit or otherwise change their operations, or prohibiting them from engaging in certain activities, could adversely affect their business and cash flows, financial condition and operating results. For instance, on September 30, 2010, the SEC and CFTC issued a joint report presenting their findings regarding the market events of May 6, 2010, commonly referred to as the "flash crash." Although NYSE Euronext does not anticipate that the joint report will lead to the adoption of significant regulatory changes that adversely affect its business, the risk of such changes is heightened as a result of the breadth of the review by the SEC and CFTC, the impact of the May 6th event on investors and the marketplace and the fact that certain aspects of its business were highlighted in the joint report. Furthermore, any regulatory changes in response to the "flash crash" and joint report may impact certain of NYSE Euronext's customers' business models and practices, in particular high frequency trading, which may in turn adversely affect Holdco's business and cash flows, financial condition and results of operations.

Holdco may face competitive disadvantages, or may lose or impede its business opportunities, if it does not receive necessary or timely regulatory approvals for new business initiatives.

Deutsche Börse Group and NYSE Euronext operate exchanges and/or clearing houses in Germany, the United States, France, Belgium, Portugal, the Netherlands, the United Kingdom and Switzerland. Regulators in each of these countries regulate exchanges and clearing houses through the adoption and enforcement of rules governing the trading activities, business conduct and financial responsibility of such exchanges and clearing houses and entities and individuals associated with them. All of Deutsche Börse Group's and NYSE Euronext's initiatives in these jurisdictions with regulatory implications must be approved by the relevant authorities in each of these countries. Changes to Holdco's articles of association and to the organizational documents or rules of Deutsche Börse Group's and NYSE Euronext's European exchanges and clearing houses, to the extent affecting the activities of these entities, may also require approvals. Holdco may from time to time seek to engage in new business activities, some of which may require changes to its exchanges' and clearing houses' organizational documents or rules.

Deutsche Börse Group, through ISE, currently operates one U.S. registered national securities exchange and NYSE Euronext currently operates three U.S. registered national securities exchanges and one designated contract market. Pursuant to U.S. laws and regulations, these exchanges are responsible for regulating their member organizations through the adoption and enforcement of rules governing the trading activities, business

Table of Contents

conduct and financial responsibility of their member organizations and the individuals associated with them. Changes to the rules of the U.S. registered securities exchanges are generally subject to the approval of the SEC, which publishes proposed rule changes for public comment. Changes to the organizational documents or rules of Deutsche Börse Group's or NYSE Euronext's U.S. exchanges, to the extent affecting the activities of these exchanges, must also be approved. Holdco may from time to time seek to engage in new business activities, some of which may require changes to its U.S. exchanges' organizational documents or rules.

Any delay or denial of a requested approval could cause Deutsche Börse Group and NYSE Euronext to lose business opportunities, slow their ability to integrate their different markets or slow or impede their ability to change their governance practices. Deutsche Börse Group's and NYSE Euronext's competitive position could be significantly weakened if their competitors are able to obtain regulatory approval for new functionalities faster, or with less cost or difficulty, or if approval is not required for Deutsche Börse Group's and NYSE Euronext's competitors but is required for Deutsche Börse Group and NYSE Euronext. For instance, NYSE Euronext may be adversely affected if it is unable to obtain SEC approval to make permanent its New Market Model pilot program, which includes the creation of designated market makers, or if Deutsche Börse is unable to obtain SEC approval for the planned Eurex-ISE trading and clearing link. Competitors that are not registered exchanges are subject to less stringent regulation. In addition, as Deutsche Börse Group and NYSE Euronext seek to expand their product base, they could become subject to the oversight of additional regulatory bodies. As a consequence, any delay or denial of requested approvals could have a material adverse effect on Holdco's business and cash flows, financial condition and results of operations.

Similar risks could arise if the banking and financial services institutions operated by Holdco do not receive necessary or timely regulatory approvals for their new business initiatives.

The U.S. exchanges of NYSE Euronext and Deutsche Börse Group rely on the Financial Industry Regulatory Authority, Inc. (which is referred to in this document as "FINRA") to perform certain regulatory functions, and Holdco's business could be adversely affected if FINRA ceases to perform these functions.

FINRA performs certain regulatory functions for each of the U.S. exchanges of NYSE Euronext and Deutsche Börse Group. FINRA performs certain regulatory functions relating to member firm registration, short sale compliance surveillance, market surveillance investigation, examination, disciplinary and arbitration proceedings. In addition, FINRA performs certain regulatory functions relating to member firm registration, examination, investigations, disciplinary and arbitration proceedings pursuant to separate agreements with each of EDGA and EDGX. Since July 30, 2007, FINRA also has conducted financial, operational and sales practice oversight over the members of NYSE Euronext's U.S. securities exchanges. On June 14, 2010, NYSE Euronext and FINRA announced the completion of the previously announced agreement under which FINRA will assume responsibility for performing the market surveillance and enforcement functions previously conducted by NYSE Regulation. As of that date, FINRA assumed these regulatory functions for NYSE Euronext's U.S. equities and options markets, NYSE, NYSE Arca and NYSE Amex, and a substantial majority of the NYSE Regulation staff was transferred to FINRA. Although NYSE Regulation ultimately remains responsible for overseeing FINRA's performance of regulatory services for NYSE Euronext's markets, and NYSE Regulation has retained staff associated with such responsibility, as well as for rule development and interpretations, oversight of listed issuers' compliance with financial and corporate governance standards and real-time stockwatch reviews, following the completion of this agreement, NYSE Euronext is substantially more reliant on FINRA to perform these regulatory functions. NYSE Euronext is required to allocate significant resources to FINRA to perform these regulatory functions. Similarly ISE, EDGA, and EDGX ultimately remain responsible for overseeing FINRA's performance of regulatory services for each such exchange and for carrying out those self-regulatory functions that are not subject to an agreement with FINRA.

The obligation to fund these regulatory functions could limit Holdco's ability to reduce its expense structure, and could limit its ability to invest in or pursue other opportunities that may be beneficial to Holdco's shareholders. If FINRA experiences difficulties or materially changes its business relationship with the U.S.

Table of Contents

exchanges of NYSE Euronext or Deutsche Börse Group, or if FINRA or such exchanges are unable for any reason to perform their obligations, this could have a material adverse effect on Holdco's business and cash flows, financial condition and results of operations.

Deutsche Börse Group's obligations in connection with its regulatory functions limit its funding resources.

Pursuant to Section 5 para. 1 of the German Stock Exchange Act (*Börsengesetz*), operators of German exchanges must provide certain funds to the exchanges operated by them. Therefore, Deutsche Börse, as operator of the Frankfurt Stock Exchange, is required to provide the Frankfurt Stock Exchange, at the request of its management, with staff and financial resources as well as the means necessary for the operation and further development of its business. This applies accordingly to Eurex Frankfurt AG as operator of Eurex Deutschland Exchange, European Energy Exchange AG and EEX Power Derivatives GmbH as operators of EEX and Tradegate Exchange GmbH as operator of Tradegate Exchange. The obligation to fund these regulatory functions could limit Deutsche Börse Group's and Holdco's funding resources, Holdco's ability to reduce its expense structure, and could limit its ability to invest in or pursue other opportunities that may be beneficial to Holdco's shareholders, which could in turn have a material adverse effect on Holdco's business and cash flows, financial condition and results of operations.

Regulatory changes requiring exchange operators to allow additional central counterparties to clear trades on their exchanges may adversely affect Deutsche Börse Group's and NYSE Euronext's clearing operations.

Deutsche Börse and NYSE Euronext both own affiliates that generate income as central counterparties to trades conducted on exchanges and over-the-counter markets. A central counterparty acts as an intermediary between trading parties, minimizing the default risk of a contracting party and clearing the transaction. As the European Commission begins to require more types of financial instruments to be cleared by central counterparties, it is possible that it will adopt regulations that require exchange operators to allow other central counterparties—including those that are not affiliates of the exchange operator—to clear trades on their exchanges. If such regulations are implemented, Deutsche Börse and NYSE Euronext could be required to allow central counterparties, in addition to their own affiliates, to clear trades conducted through Deutsche Börse's and NYSE Euronext's exchanges. Such regulations could reduce Deutsche Börse's and NYSE Euronext's revenues, which could have a material adverse effect on Holdco's business and cash flows, financial condition and results of operations.

Conflicts of interest between Deutsche Börse Group's and NYSE Euronext's for-profit status and their regulatory responsibilities may adversely affect their businesses.

Deutsche Börse Group and NYSE Euronext are for-profit businesses with regulatory responsibilities. Pursuant to the German Stock Exchange Act, Deutsche Börse is obligated to take measures to recognize and to avoid conflicts of interest between its own commercial and economic interests as a for-profit business or such interests of its shareholders and the public interest in the proper operation of the Frankfurt Stock Exchange, as far as such conflicts could have a negative impact on the operation of the Frankfurt Stock Exchange or the trading participants. For example, Deutsche Börse is required by law to ensure that the Frankfurt Stock Exchange complies with its statutory mandate. If the ability to carry out this statutory supervisory function is adversely affected by a conflict of interest in violation of the German Stock Exchange Act, then this conflict of interest could have a material adverse effect on Holdco's business and cash flows, financial condition and results of operations. The U.S. exchanges of NYSE Euronext and Deutsche Börse Group also are for-profit businesses with regulatory responsibilities. In some circumstances, there may be a conflict of interest between the regulatory responsibilities of these exchanges and some of their respective member organizations and customers. While the U.S. exchanges have implemented structural protections to minimize these potential conflicts, such measures may not be successful. Any failure by one of the U.S. exchanges with self-regulatory responsibility under the Exchange Act to diligently and fairly regulate its member organizations or to otherwise fulfill its regulatory obligations could significantly harm NYSE Euronext and Deutsche Börse Group's reputation, prompt regulatory scrutiny and adversely affect business, financial condition and operating results.

Table of Contents

The listing of Holdco's shares on the New York Stock Exchange, the Frankfurt Stock Exchange and Euronext Paris could also potentially create a conflict between the respective exchanges' regulatory responsibilities to ensure a proper listing and trading procedure, on the one hand, and the commercial and economic interests of Holdco, Deutsche Börse Group and NYSE Euronext, on the other hand. Any failure by one of the exchanges of Deutsche Börse Group or NYSE Euronext with legal or self-regulatory responsibility to diligently and fairly regulate its trading and issuers or to otherwise fulfill its regulatory obligations could significantly harm Holdco's, Deutsche Börse Group's and NYSE Euronext's reputation and prompt heightened regulatory scrutiny (which again may result in sanctions being imposed), and could have a material adverse effect on Holdco's business and cash flows, financial condition and results of operations.

Risks Relating to Tax Matters

There can be no assurances that holders of NYSE Euronext shares will not be required to recognize gain for U.S. federal income tax purposes upon the exchange of NYSE Euronext shares for Holdco shares in the merger.

Although it is intended that, for U.S. federal income tax purposes, (1) the merger will qualify as a reorganization within the meaning of Section 368(a) of Internal Revenue Code and/or the merger and the exchange offer, taken together will qualify as a transaction described in Section 351(a) of Internal Revenue Code, and (2) each transfer of NYSE Euronext shares to Holdco by a NYSE Euronext shareholder pursuant to the merger (other than a NYSE Euronext shareholder that is a five percent transferee stockholder of Holdco, as defined in Treasury Regulations promulgated under Section 367(a) of Internal Revenue Code) will not be subject to Section 367(a) of Internal Revenue Code, there can be no assurances that the merger and the transfer of NYSE Euronext shares to Holdco will so qualify. Because of the possibility that the first NYSE tax condition (as defined below) and/or the second NYSE tax condition (as defined below) may be waived without the receipt of a tax opinion or private letter ruling, because any tax opinion or private letter ruling received may not remain valid until the closing date of the merger or may contain conditions that may not be satisfied, and because the tax consequences under Section 367(a) of the Internal Revenue Code depend, among other things, on whether Holdco acquires 80 percent or more of the shares of Deutsche Börse in the exchange offer (which will not be known until the closing of the exchange offer), counsel to NYSE Euronext is unable to express an opinion regarding the U.S. federal income tax treatment of the merger as of the date of this proxy statement/prospectus.

It is a condition to NYSE Euronext's obligation to complete the merger that Holdco have completed the exchange offer. It is a waivable condition to Holdco's obligation to complete the exchange offer that NYSE Euronext receive, on or prior to the expiration of the offer acceptance period (which may occur several months prior to the completion of the exchange offer), one or more private letter rulings from the Internal Revenue Service substantially to the effect that (1) the merger will qualify as a reorganization within the meaning of Section 368(a) of Internal Revenue Code and/or the merger and the exchange offer, taken together, will qualify as an exchange within the meaning of Section 351(a) of Internal Revenue Code, which is referred to in this document as the first NYSE tax condition, and (2) each transfer of NYSE Euronext shares to Holdco by a U.S. holder of NYSE Euronext shares (other than a five percent transferee shareholder of Holdco, as defined in Treasury regulations promulgated under Section 367(a) of Internal Revenue Code) will qualify for an exception to Section 367(a)(1) of Internal Revenue Code under Treasury Regulation Sections 1.367(a)-3(c)(1) and 1.367(a)-3(c)(9), which is referred to in this document as the second NYSE tax condition, and together with the first NYSE tax condition, the NYSE tax conditions.

There can be no assurance that a private letter ruling will be received from the Internal Revenue Service prior to the expiration of the offer acceptance period, or that a private letter ruling will be received at all. Even if a private letter ruling is received, there can be no assurance that any representations or conditions contained in such private letter ruling will be satisfied.

Under the business combination agreement, NYSE Euronext is required to waive the first NYSE tax condition if NYSE Euronext receives a written opinion of counsel, in form and substance reasonably satisfactory

Table of Contents

to NYSE Euronext, dated no later than one business day prior to the time at which the acceptance period of the exchange offer expires (or such later date as permitted by the BaFin) (the later of such dates is referred to as the Waiver Limitation Date), to the effect that the merger will qualify as a reorganization within the meaning of Section 368(a) of Internal Revenue Code and/or the merger and the exchange offer, taken together, will qualify as a transaction described in Section 351(a) of Internal Revenue Code. In the event a private letter ruling with respect to the second NYSE tax condition is received from the Internal Revenue Service prior to the Waiver Limitation Date, NYSE Euronext expects that it will receive the opinion of counsel described in this paragraph and, therefore, that it will waive the first NYSE tax condition. In the event NYSE Euronext does not receive such private letter ruling prior to the Waiver Limitation Date, NYSE Euronext expects to waive the first NYSE tax condition without receipt of the opinion of counsel described in this paragraph.

Under the business combination agreement, NYSE Euronext is required to waive the second NYSE tax condition if NYSE Euronext receives an opinion of counsel, in form and substance reasonably satisfactory to NYSE Euronext, dated as of the Waiver Limitation Date, to the effect that each transfer of NYSE Euronext shares to Holdco by a U.S. holder (other than a holder that is a five percent transferee shareholder of Holdco, as defined in Treasury regulations promulgated under Section 367(a) of the Internal Revenue Code) will not be subject to Section 367(a)(1) of Internal Revenue Code. Unless the parties receive a private letter ruling with respect to the second NYSE tax condition, from the Internal Revenue Service the tax consequences under Section 367(a) of the Internal Revenue Code will depend, among other things, on whether Holdco acquires 80 percent or more of the shares of Deutsche Börse in the exchange offer. Because the results of the exchange offer will not be known until after the closing of the exchange offer (and after the Waiver Limitation Date), NYSE Euronext does not expect to receive the opinion of counsel described in this paragraph on or prior to the Waiver Limitation Date. Accordingly, in the event a private letter ruling with respect to the second NYSE tax condition is not received from the Internal Revenue Service prior to the Waiver Limitation Date, NYSE Euronext may waive the second NYSE tax condition without receipt of the opinion of counsel described in this paragraph. In the event of a waiver of the first NYSE tax condition and/or the second NYSE tax condition, NYSE Euronext does not intend to recirculate this document to resolicit NYSE Euronext shareholder approval.

Accordingly, there can be no assurance that the merger and the transfer of NYSE Euronext shares to Holdco will qualify for the intended U.S. federal income tax treatment described above. Holders of NYSE Euronext shares will be required to recognize gain for U.S. federal income tax purposes if the merger fails to qualify as a reorganization within the meaning of Section 368(a) of Internal Revenue Code and the merger and the exchange offer, taken together, fail to qualify as a transaction described in Section 351(a) of Internal Revenue Code. Moreover, even if the merger qualifies as a reorganization within the meaning of Section 368(a) of Internal Revenue Code and/or the merger and the exchange offer, taken together, qualify as a transaction described in Section 351(a) of Internal Revenue Code, U.S. holders of NYSE Euronext shares will be required to recognize gain for U.S. federal income tax purposes pursuant to Section 367(a) of Internal Revenue Code upon the transfers of NYSE Euronext shares to Holdco pursuant to the merger if the requirements of Section 367(a) of Internal Revenue Code and the Treasury Regulations promulgated thereunder are not satisfied.

Holdco, Deutsche Börse, NYSE Euronext and their respective subsidiaries are subject to tax audits and could incur significant tax liabilities as a result of such audits.

Holdco, Deutsche Börse, and NYSE Euronext and their respective subsidiaries are regularly subject to tax audits. As a result of current or future tax audits or any other reviews by taxing authorities having jurisdiction over Holdco, Deutsche Börse, NYSE Euronext or their respective subsidiaries, additional taxes could be assessed (*e.g.*, in connection with acquisitions, restructuring transactions or intercompany arrangements), which could lead to an increase in the aggregate tax burden of the Holdco group.

Table of Contents

Holdco may be or become taxable in a jurisdiction other than the Netherlands and/or may be or become a dual resident company for tax purposes. This may increase the aggregate tax burden on Holdco and its shareholders. The combination of the businesses of Deutsche Börse Group and NYSE Euronext may result in an increase in the overall tax burden of the combined group.

Because Holdco is incorporated under Dutch law it will be treated for Dutch corporate income tax purposes as a resident of the Netherlands. Based on the currently envisaged management structure of Holdco and current tax laws of the United States, Germany and the Netherlands, as well as applicable income tax treaties, and current interpretations thereof, Holdco expects to be tax resident solely in the Netherlands. Holdco has requested, but has not yet obtained, binding rulings from the tax authorities in the Netherlands and in Germany confirming this treatment. However, even if such rulings are granted, the applicable tax laws or interpretations thereof may change, the representations on which such rulings were based may be inaccurate, or the facts may change. As a consequence, Holdco may be or become a tax resident of a jurisdiction other than the Netherlands and/or may be or become a dual resident company for tax purposes. This may increase the aggregate tax burden on Holdco and its shareholders. In particular, this may result in the imposition of additional withholding taxes on Holdco's shareholders, which withholding taxes may not be creditable, deductible or otherwise refundable in a shareholder's country of tax residence.

Dividends and other intra-group payments made by Deutsche Börse, NYSE Euronext or their respective subsidiaries may be subject to withholding taxes imposed by the jurisdiction in which the entity making the payment is organized or tax resident. Unless such withholding taxes are fully credited against the income tax liability of the entity receiving the payment or fully refunded, dividends and other cross-border payments within the Holdco group may increase the aggregate tax burden imposed on the Holdco group. Although Holdco intends to arrange the ownership of its subsidiaries and future intercompany payments with a view to minimizing the incurrence of such withholding taxes, there can be no assurance that it will succeed.

Risks Relating to Holdco Shares

There has been no prior public market for Holdco shares, and the market price of Holdco shares may be volatile.

Holdco plans to list the Holdco shares on the New York Stock Exchange, the Frankfurt Stock Exchange and Euronext Paris. However, an active public market for Holdco shares may not develop or be sustained after the completion of the combination. Holdco cannot predict the extent to which a trading market will develop or how liquid that market might become.

The market price of Holdco shares may be volatile. Broad general economic, political, market and industry factors may adversely affect the market price of Holdco shares, regardless of Holdco's actual operating performance. Factors that could cause fluctuations in the price of Holdco shares may include, among other things:

actual or anticipated variations in quarterly operating results and the results of competitors;

changes in financial estimates by Holdco or by any securities analysts that might cover Holdco shares;

conditions or trends in the industry, including regulatory changes or changes in the securities marketplace;

changes in the market valuations of exchanges and other trading facilities in general, or other companies operating in the securities industry;

announcements by Holdco or its competitors of significant acquisitions, strategic partnerships or divestitures;

announcements of investigations or regulatory scrutiny of Holdco's operations or lawsuits filed against it;

Table of Contents

additions or departures of key personnel; and

issues or sales of Holdco shares, including sales of shares by its directors and officers or its strategic investors.

Following the completion of the combination, Holdco may cease to be a foreign private issuer, which could result in significant additional costs and expenses.

Holdco is currently a foreign private issuer, as such term is defined in Rule 3b-4 under the Exchange Act. Following the combination, Holdco will lose its foreign private issuer status if more than 50% of the Holdco shares are held by U.S. persons and any of the following occurs: (1) a majority of its directors or executive officers are U.S. citizens or residents; (2) more than 50% of its assets are located in the United States; or (3) Holdco's business is administered principally in the United States. Given that the office of the Holdco chief executive officer will be based principally in the United States, it is possible that Holdco could lose its foreign private issuer status if more than 50% of the Holdco shares will be held by U.S. persons as of the relevant date of determination.

Under Rule 3b-4 under the Exchange Act, the determination of whether a company is a foreign private issuer is made annually on the last business day of an issuer's most recently completed second fiscal quarter. Accordingly, the first determination as to whether Holdco will continue to be a foreign private issuer after the completion of the combination will be made on June 30, 2012.

If Holdco were to lose its status as a foreign private issuer, then it would have to mandatorily comply with U.S. federal proxy requirements, and Holdco officers, directors and principal shareholders would become subject to the short-swing profit disclosure and recovery provisions of Section 16 of the Exchange Act. Holdco would also be required to file periodic reports and registration statements on U.S. domestic issuer forms with the SEC, which are more detailed and extensive than the forms available to a foreign private issuer. Finally, Holdco would have to comply with the NYSE listing requirements applicable to U.S. domestic issuers, including the requirement to hold annual meeting for the election of directors. As a result, the regulatory and compliance costs to Holdco under U.S. securities laws as a U.S. domestic issuer may be significantly higher. Holdco may also be required to modify certain of its policies to comply with governance practices associated with U.S. domestic issuers. Such conversion and modifications will involve additional costs.

In addition, pursuant to Sections 302 and 404 of the Sarbanes-Oxley Act of 2002, management of Holdco would also be required to certify to and report on, and Holdco's independent registered public accounting firm would be required to attest to, the effectiveness of Holdco's internal controls over financial reporting with respect to the operations of Holdco as of the end of such fiscal year. The rules governing the standards that must be met for management to assess Holdco's internal controls over financial reporting are complex, and require significant documentation, testing and possible remediation. The continuing effort to comply with regulatory requirements relating to internal controls would likely cause Holdco to incur increased expenses and diversion of management's time and other internal resources, in particular in respect of Deutsche Börse and its subsidiaries, which have not previously been subject to Rule 404 requirements. Holdco also may encounter problems or delays in completing the implementation of any changes necessary to make a favorable assessment of its internal controls over financial reporting. In addition, in connection with the attestation process by Holdco's independent registered public accounting firm, Holdco may encounter problems or delays in completing the implementation of any requested improvements or receiving a favorable attestation. If Holdco loses its foreign private issuer status and cannot favorably assess the effectiveness of its internal controls over financial reporting, or if Holdco's independent registered public accounting firm is unable to provide an unqualified attestation report on Holdco's assessment, this could have a material adverse effect on investor's confidence and the price of Holdco shares.

Table of Contents

If Holdco continues to be a foreign private issuer, its shareholders may not receive the information about Holdco that you would typically receive from a publicly traded U.S. domestic company.

Holdco is currently a foreign private issuer, as such term is defined in Rule 3b-4 under the Exchange Act. Following the completion of the combination, it is possible that Holdco will remain a foreign private issuer. As long as Holdco remains a foreign private issuer and does not elect to file with the SEC as a U.S. domestic issuer, investors may not receive the information that investors would typically receive from a publicly traded U.S. domestic company. In particular, a foreign private issuer does not have to comply with U.S. federal proxy requirements, and Holdco officers, directors and principal shareholders would not be subject to the short-swing profit disclosure and recovery provisions of Section 16 of the Exchange Act. In addition, Holdco would not be required to file quarterly periodic reports or registration statements on U.S. domestic issuer forms with the SEC, which are more detailed and extensive than the forms available to a foreign private issuer. Holdco also would not be obligated to comply with certain NYSE listing requirements applicable to U.S. domestic issuers, including the requirement to hold an annual meeting for the election of directors. As a result, the information that its shareholders have regarding Holdco may be less than its shareholders would receive from a publicly traded U.S. domestic company.

The level of any dividend paid in respect of Holdco shares is subject to a number of factors, including the financial condition and results of operations of Deutsche Börse Group and NYSE Euronext, as well as the distributions of operating earnings to Holdco by Deutsche Börse Group and NYSE Euronext and the freely distributable reserves of Holdco.

Although Holdco expects to pay dividends, the level of any dividend paid in respect of Holdco shares is within the discretion of the Holdco board of directors and is subject to a number of factors, including the business and financial conditions, earnings and cash flow of, and other factors affecting Holdco and its subsidiaries. As Holdco itself is not expected to perform any operating activities, its ability to pay a dividend and the level of any dividends in respect of the Holdco shares is subject to the extent to which Holdco receives funds, directly or indirectly, from its operating subsidiaries and divisions in a manner which creates funds from which dividends can be legally paid. Under Dutch law, Holdco may make distributions to its shareholders and other persons entitled to distributable profits only up to the amount of the part of Holdco's net assets which exceeds the nominal value of the share capital of Holdco and its reserves that must be maintained by law. In addition, each subsidiary's ability to pay dividends will depend on the law of the jurisdiction in which such subsidiary is organized.

Any delay in implementing the post-completion reorganization could adversely impact the payment of dividends from Deutsche Börse to Holdco. In the event that Holdco holds, directly or indirectly, 75% or more of the outstanding Deutsche Börse shares after the completion of exchange offer or any time thereafter, Holdco intends to enter (directly and/or through a wholly owned subsidiary) into a domination agreement or a combination of a domination agreement and a profit and loss transfer agreement in order to more fully integrate Deutsche Börse Group into the combined group. The effectiveness of these agreements may be delayed for an uncertain time, including, for example, due to shareholder litigation or may not be achievable at all. This would limit the ability of Holdco to request the payment of dividends from Deutsche Börse. Any failure to pay dividends in any financial year could have a material adverse effect on the price of Holdco shares.

Shareholders of Holdco could be diluted in the future.

Holders of Holdco shares generally will have a preemption right with respect to any issuance of Holdco shares or the granting of rights to subscribe for Holdco shares, unless such preemption right is restricted or excluded by the general meeting of shareholders or by the Holdco board of directors if so designated by the general meeting of shareholders. It is expected that prior to the completion of the combination, the Holdco board of directors will be designated by the general meeting of shareholders as the corporate body competent to restrict or exclude preemption rights, subject to the limited authority it has to issue Holdco shares and grant rights to subscribe for Holdco shares, up to the maximum unissued portion of the authorized share capital as it will exist at

Table of Contents

the time of the issue, for a period of five years from the date of such resolution. If preemption rights are restricted or excluded, the ownership interests of Holdco shareholders could be diluted upon the issuance of shares. Due to laws and regulations in jurisdictions outside the Netherlands, shareholders in those jurisdictions may not be able to exercise their preemption subscription rights unless Holdco takes action to register or otherwise qualify the rights offering under the laws of that jurisdiction. For example, in the United States, U.S. holders of Holdco shares may not be able to exercise preemption rights unless a registration statement under the Securities Act is declared effective with respect to the Holdco shares issuable upon exercise of such rights or an exemption from the U.S. registration requirements is available. If shareholders in such jurisdictions are unable to exercise their subscription rights, their ownership interest in Holdco would be diluted. Any future issuance of new Holdco shares or debt instruments convertible into Holdco shares where subscription rights of Holdco shareholders are not available or are excluded would result in the dilution of existing Holdco shareholders and reduce the earnings per Holdco share, which could have a material adverse effect on the price of Holdco shares.

GENERAL INFORMATION

Responsibility for the Contents

Alpha Beta Netherlands Holding N.V. (herein referred to as Holdco), a public company incorporated under the laws of the Netherlands (*naamloze vennootschap*) and having its official seat (*statutaire zetel*) in Amsterdam assumes responsibility for the content of this document. Notwithstanding the declaration contained in Section 25 of the exchange offer document, Holdco declares that information contained in this document is to the best of its knowledge accurate and does not omit material circumstances, and that Holdco has taken all reasonable care to ensure that the information contained in this document is, to the best of Holdco's knowledge, true and correct and contains no omission which would affect its import.

Holdco will update this Offer Document to the extent permissible and required under the German Takeover Act, and will comply with its obligation under U.S. law according to the Exchange Act to inform security holders of any material change in the information published, sent or given to security holders. Holdco will also, as applicable, publish additional accompanying information regarding the exchange offer, which will be made available on Holdco's website at <http://www.global-exchange-operator.com>, and will file such information in English on the SEC's website at <http://www.sec.gov/edgar/searchedgar/companysearch.html>.

Purpose of this Document

This document refers to the offer of 195,146,864 registered Holdco shares, with a nominal value of 1.00 each, offered to the holders of Deutsche Börse shares as offer consideration under the exchange offer made by Holdco.

Deutsche Börse shareholders who have validly tendered and not withdrawn their shares in the exchange offer and NYSE Euronext shareholders whose NYSE Euronext shares are converted in the merger into the right to receive Holdco shares will receive shares in Holdco issued out of a capital increase pursuant to a shareholders' resolution passed by Holdco's extraordinary shareholders' meeting on May 2, 2011, the capital increase becoming effective upon completion of the combination (see Description of the Shares of Holdco Issuance of Holdco Shares for the Completion of the Exchange Offer and the Merger). Each of the Holdco shares will be entitled to full dividend rights since the incorporation of Holdco on February 10, 2011.

Holdco will apply immediately prior to the time of delivery of the Holdco shares to the shareholders of Deutsche Börse pursuant to the exchange offer and to the NYSE Euronext shareholders pursuant to the merger for admission of its shares to trading on the regulated market segment (*regulierter Markt*) of the Frankfurt Stock Exchange (*Frankfurter Wertpapierbörse*) and simultaneously, in the sub-segment thereof with additional post-admission obligations (Prime Standard) as well as in the regulated market segment of Euronext Paris. In addition, Holdco intends to list its shares on the New York Stock Exchange.

Holdco expects that the Holdco shares which the accepting shareholders of Deutsche Börse will receive upon settlement of the exchange offer will have been admitted to trading (listed) at the time of delivery to the shareholders of Deutsche Börse having accepted the exchange offer.

Commencement of trading on the Frankfurt Stock Exchange, Euronext Paris and the New York Stock Exchange is expected to occur immediately after delivery of Holdco shares to the shareholders of Deutsche Börse having accepted the exchange offer.

Presentation of Financial Information

This document contains:

the audited balance sheet of Holdco as of February 10, 2011;

Table of Contents

the unaudited condensed consolidated financial statements of Deutsche Börse Group as at and for the three months period ended March 31, 2011;

the audited consolidated financial statements of Deutsche Börse Group as of December 31, 2010, 2009 and 2008 and for each of the years in the three-year period ended December 31, 2010, prepared on the basis of IFRS; and

the audited consolidated financial statements of NYSE Euronext as of December 31, 2010, 2009 and 2008 and for each of the years in the three-year period ended December 31, 2010 prepared in accordance with U.S. GAAP.

Unless indicated otherwise, financial data presented in this document has been taken from the audited consolidated financial statements of Deutsche Börse Group and NYSE Euronext included in this document.

Where information is identified as *unaudited* in this document, this means it has not been subject to an audit or inspection by an auditor (*prüferische Durchsicht*).

The financial information set forth in this document has been rounded for ease of presentation. Accordingly, in certain cases, the sum of the numbers in a column in a table may not conform to the total figure given for that column.

For additional information on the presentation of financial information in this document, see the financial statements of Holdco beginning on page FIN-2 of this document, the audited consolidated financial statements of Deutsche Börse Group beginning on page FIN-51 of this document and the audited consolidated financial statements of NYSE Euronext beginning on page FIN-9 of this document.

Forward-Looking Statements

This document contains forward-looking statements. A forward-looking statement is any statement that does not relate to historical facts and events. Forward-looking statements in this document include, in particular, statements containing information on future earnings capacity, plans and expectations of Holdco's business, its growth and profitability, and general economic and regulatory conditions and other factors to which it is or may be exposed. Statements made using terms such as *may*, *might*, *will*, *should*, *expect*, *plan*, *intends*, *anticipate*, *believe*, *assume*, *estimate*, *predict*, *potential is likely or continue*, and the negative of these terms and other comparable terminology indicate forward-looking statements. Forward-looking statements in this document are based on estimates and assessments made to the best of Holdco's present knowledge. These forward-looking statements are based on assumptions, uncertainties and other factors, the occurrence or non-occurrence of which could cause the actual results of Holdco, including its financial condition and/or profitability, to differ materially from or fail to meet the expectations expressed or implied in the forward-looking statements. Accordingly, investors are strongly advised to read the following sections of this document: *Summary*, *Risk Factors*, *Management's Discussion and Analysis of Financial Condition and Results of Operations of Deutsche Börse Group*, *Management's Discussion and Analysis of Financial Condition and Results of Operations of NYSE Euronext*, *Business of Holdco and Certain Information about Holdco*, *Business of Deutsche Börse Group and Certain Information about Deutsche Börse Group*, *Business of NYSE Euronext and Certain Information about NYSE Euronext* and *Recent Developments and Outlook*. These sections include more detailed descriptions of factors that might have an impact on the business of Holdco and the market in which it operates.

In light of the uncertainties and assumptions, it is also possible that the future events mentioned in this document might not occur. In addition, the forward-looking estimates and forecasts reproduced in this document from third-party reports could prove to be inaccurate.

Table of Contents

The forward-looking statements contained in this document speak only as of the date on which they are made. Holdco expressly disclaims any obligation or undertaking, except as required by law, to release publicly any updates or revisions to any forward-looking statement contained herein to reflect any change in Holdco's expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based or to conform any such statement to actual events or developments.

Sources of Industry and Market Data

Where information has been sourced from a third party, the source of such information has been identified.

Unless otherwise indicated, the information contained in this document on the market environment, market developments, growth rates, market trends and competition in the markets in which Deutsche Börse Group and NYSE Euronext operate is taken from publicly available sources, including, but not limited to, third-party sources, or reflects Holdco's, Deutsche Börse Group's and NYSE Euronext's estimates that are principally based on information from publicly available sources. Holdco confirms that the information included in this document that has been sourced from a third party has been accurately reproduced and that, as far as the Holdco is aware and was able to ascertain from such information, no facts have been omitted which would render the reproduced information inaccurate or misleading.

Exchange Rates

The following table shows for the period from January 1, 2005 through April 30, 2011, the low, high, average and period exchange rate U.S. dollars per euro.

Year	Exchange Rates			Period End
	Low	High (U.S. dollars per euro)	Average	
2005	1.1667	1.3476	1.2400 ⁽¹⁾	1.1842
2006	1.1860	1.3327	1.2661 ⁽¹⁾	1.3197
2007	1.2904	1.4862	1.3797 ⁽¹⁾	1.4603
2008	1.2446	1.6010	1.4695 ⁽¹⁾	1.3919
2009	1.2547	1.5100	1.3955 ⁽¹⁾	1.4332

HSR Act refers to the Hart-Scott-Rodino Antitrust Improvements Act of 1976;

merger refers to the merger of Pomme Merger Corporation, a Delaware corporation, with and into NYSE Euronext in accordance with the business combination agreement;

Table of Contents

NYSE Euronext refers to NYSE Euronext, a Delaware corporation, and includes its direct and indirect subsidiaries;

SEC refers to the U.S. Securities and Exchange Commission;

Securities Act refers to the U.S. Securities Exchange Act of 1933; and

\$ or U.S. dollar refers to the legal currency of the United States of America.

Other defined terms used throughout this document are indicated in the text.

Documents Available for Inspection

Until the completion of the combination, or the earlier termination of the business combination agreement, the following documents, or copies thereof, may be inspected during regular business hours at Holdco's offices at Beursplein 5, 1012 JW Amsterdam, the Netherlands:

the Holdco articles of association;

the audited balance sheet (IFRS) of Holdco as of February 10, 2011;

the unaudited condensed consolidated financial statements of Deutsche Börse Group as at and for the three months period ended March 31, 2011;

the audited consolidated financial statements of Deutsche Börse Group as at December 31, 2010, 2009 and 2008, and for each of the years ended in the three-year period ended December 31, 2010, 2009 and 2008; and

the audited consolidated financial statements of NYSE Euronext as of December 31, 2010, 2009 and 2008, and for each of the years ended in the three-year period ended December 31, 2010, 2009 and 2008.

legal opinions of Linklaters LLP and Stibbe N.V., counsel to Holdco regarding the validity of the Holdco shares offered by this document;

legal opinion of Linklaters LLP, counsel to Holdco, regarding certain tax matters set forth in the exchange offer prospectus which forms a part of this document; and

The listed documents will also be available in electronic form for twelve months after publication of this document at Holdco's website www.global-exchange-operator.com. Information contained on Holdco's website does not constitute part of this document. This website address is an inactive text reference and is not intended to be an actual link to the website.

Table of Contents

THE EXCHANGE OFFER

In the business combination agreement, Deutsche Börse, NYSE Euronext and Holdco have agreed that Deutsche Börse will become a subsidiary of Holdco through an exchange offer and certain terms of which are summarized below.

Offered Shares under the Exchange Offer, Capital Increase

The maximum number of Holdco shares to be issued in the exchange offer is 195,146,864 Holdco shares, each with a nominal value of 1.00 and full dividend rights.

On May 2, 2011, Holdco's general meeting of shareholders resolved to amend Holdco's articles of association and to increase its authorized share capital from 225,000 to 1,000,000,000 consisting of 500,000,000 ordinary shares with a nominal value of 1.00 per share (referred to as Holdco shares in this document) and 500,000,000 preference shares with a nominal value of 1.00 per share.

By shareholders' resolution on May 2, 2011, Holdco's general meeting has further resolved to authorize the Holdco board of directors for a period of five years from the date such resolution has been adopted to issue, or grant rights to subscribe for, Holdco shares, or to exclude or restrict preemption rights in respect of Holdco shares issued pursuant to its authority to issue such shares. The authority for the Holdco board of directors to issue, or grant rights to subscribe for, ordinary shares is limited to:

such number of Holdco shares as is required to fulfill its obligations under the exchange offer, the merger and several other measures in connection with the combination; and

additional 100,000,000 Holdco shares.

The aforementioned resolution also entails the authority to issue preference shares.

On the basis of the above resolutions of the general meeting, Holdco is able to fulfill its obligations to deliver Holdco shares under the exchange offer and the merger without further resolutions or other action being required from Holdco's general meeting of shareholders.

For details of the procedure of a capital increase of a Dutch public limited liability company in general see section Description of the shares of Holdco Capital Increase of a Dutch Public Limited Liability Company . For details of the procedure of the capital increase of Holdco in particular see section Description of the shares of Holdco Issuance of Holdco Shares for the Completion of the Exchange Offer and the Merger .

The Holdco shares will be freely transferable and capable of being encumbered with a right of pledge or usufruct. The Holdco shares will have full dividend rights since the incorporation of Holdco on February 10, 2011.

The current sole shareholder of Holdco, Stichting Alpha Beta Netherlands, has agreed in the context of the above resolutions of the general meeting not to withdraw these resolutions without the consent of Holdco.

Exchange Ratio, Offer Period, and Settlement of the Exchange Offer

Under the terms of the exchange offer, Holdco will offer to acquire each issued Deutsche Börse share in exchange for one Holdco share. This one-to-one exchange ratio for the exchange offer is fixed and will not be adjusted to reflect changes in the share price of the Deutsche Börse shares or the NYSE Euronext shares prior to the date of the completion of the combination.

The offer acceptance period of the exchange offer begins upon publication of the exchange offer document on May 4, 2011. It expires at midnight, at the end of July 13, 2011 (Central European Summer Time). Within the

Table of Contents

offer acceptance period, all shareholders of Deutsche Börse may tender their Deutsche Börse shares. After expiration of the offer acceptance period, Holdco must publish the results of the exchange offer, i.e., the number and percentage of Deutsche Börse shares that have been tendered within the offer acceptance period including the number and percentage of voting rights linked with the tendered Deutsche Börse shares as well as the total number and percentage of Deutsche Börse shares held by Holdco or attributed to Holdco at the expiration of the offer acceptance period. In certain circumstances, the offer acceptance period will be extended automatically, among others if the terms of the exchange offer are changed or if conditions to the exchange offer are waived within the last two weeks of the offer acceptance period.

Deutsche Börse shareholders will have the right to withdraw their Deutsche Börse shares from the exchange offer during the acceptance period of the exchange offer. Following the expiration of the acceptance period of the offer, withdrawal rights will cease, and any Deutsche Börse shares that have been tendered into the offer cannot be withdrawn.

A subsequent offering period will commence only if the minimum tender condition (as defined below) is satisfied by the expiration of the initial offer acceptance period. In this case, the subsequent offering period is expected to commence on July 20, 2011 and to end at midnight, at the end of August 2, 2011 (Central European Summer Time). During the subsequent offering period, Deutsche Börse shareholders who have not tendered their shares during the initial offer acceptance period, may reconsider their initial decision not to tender and may eventually participate in the exchange offer at the same terms and conditions as applicable during the initial offer acceptance period. However, no withdrawal right will exit during this subsequent offer period.

The exchange offer can no longer be accepted following expiration of the subsequent offering period. After expiration of the subsequent offering period, Holdco again has to publish the results of the exchange offer.

Settlement of the exchange offer will take place through the issue and delivery to the central settlement agent and the onward transfer of the Holdco shares by book entry transfer as consideration for the tendered Deutsche Börse shares. Upon crediting of the Holdco shares to the applicable custodian bank's securities account with the relevant central depository agent, Holdco will have fulfilled its obligation to deliver Holdco shares. It is the custodian bank's responsibility to credit the Holdco shares to the securities account of each accepting shareholder of Deutsche Börse. The crediting of the Holdco shares to the securities accounts of the custodian banks shall occur in due course but in no event later than seven banking days (i) following the publication of the final results of the exchange offer after expiration of the subsequent offering period or (ii) following the day the satisfaction and/or waiver of all conditions to the exchange offer has been published, whichever date is later. A banking day relates to a day on which the banks in Frankfurt am Main, Germany, as well as in New York, New York, United States are open for general business.

Holdco expects that the settlement of the exchange offer for the tendered Deutsche Börse shares will occur prior to March 31, 2012. In the event that all completion conditions are satisfied on March 31, 2012 only, the last possible date, the settlement of the exchange offer and the crediting of the Holdco offer shares would be delayed until April 13, 2012.

Conditions to the Exchange Offer

The completion of the exchange offer is subject to the satisfaction (or waiver by Holdco in agreement with NYSE Euronext and/or Deutsche Börse, to the extent waiver is permitted under the provisions of the business combination agreement, by the German Takeover Act and by other applicable laws) of the conditions set forth in the business combination agreement.

Those conditions are described in *The Business Combination Agreement Conditions to Completing the Combination* and include the following:

- (a) At the end of the offer acceptance period, the sum of (i) the number of Deutsche Börse shares that have been validly tendered and not withdrawn and (ii) the Deutsche Börse shares that Holdco already holds

Table of Contents

or has acquired must equal at least 75% of the sum of (x) the Deutsche Börse shares issued as of the end of the offer acceptance period and (y) the number of Deutsche Börse shares that Deutsche Börse may issue after publication of the exchange offer prospectus in accordance with the German Takeover Act pursuant to obligations in effect as of the time of such publication, such as outstanding options;

- (b) on or prior to March 31, 2012, (i) any waiting period (and any extension thereof) applicable to the exchange offer and the merger under the Hart-Scott-Rodino Antitrust Improvement Act of 1976, as amended, must have expired or been terminated, with the consequence that the exchange offer and the merger may be consummated and (ii) the EU Commission must have, or must be deemed to have, cleared the exchange offer and the merger pursuant to the Council Regulation (EC) 139/2004 of the European Community;
- (c) prior to the end of the offer acceptance period, the registration statement for the offering of the Holdco shares to be issued in the exchange offer and the merger must have become effective under the U.S. Securities Act of 1933 and, as of the end of the offer acceptance period, shall not be subject to any stop order by the SEC or any proceeding initiated by the SEC seeking such a stop order;
- (d) prior to the end of the offer acceptance period, the NYSE Euronext shareholders must have approved the merger by a vote of holders of a majority of the outstanding NYSE Euronext shares entitled to vote thereon, and certain aspects of the articles of association of Holdco that will be in effect after the merger must have been approved by a vote of the holders of a majority of the outstanding NYSE Euronext shares present at the NYSE Euronext special meeting;
- (e) there must not be any law, regulation, administrative act or injunction in effect as of the end of the offer acceptance period of a governmental entity, court or legislative body in certain specified countries prohibiting or making illegal the consummation of the exchange offer or the merger or the acquisition or ownership of Deutsche Börse shares or NYSE Euronext shares by Holdco;
- (f) on or prior to March 31, 2012, approval (or, where applicable, absence of disapproval) of numerous specified public entities in specified countries must have been received (or, where applicable, continued absence of disapproval) (for further information see The Business Combination Agreement Conditions to Completing the Combination);
- (g) during the time between the publication of the exchange offer document and the expiration of the offer acceptance period, no material adverse market change (i.e. suspension of the currency trading or debt markets for more than three consecutive trading days in Frankfurt am Main, London or New York) shall have occurred;
- (h) during the time between the publication of the exchange offer document and the expiration of the offer acceptance period, no offer material adverse effect (as defined in the business combination agreement) on NYSE Euronext shall have occurred;
- (i) during the time between the publication of the exchange offer document and the expiration of the offer acceptance period, no offer material adverse effect (as defined in the business combination agreement) on Deutsche Börse shall have occurred; and
- (j) prior to the expiration of the offer acceptance period, receipt of one or more private letter rulings from the U.S. Internal Revenue Service by each of NYSE Euronext and Deutsche Börse confirming that the exchange offer and/or the merger, taken together, qualify as specific transactions under U.S. Internal Revenue Code.

As described in The Business Combination Agreement Conditions to Completing the Combination, many of the conditions to the exchange offer must, by their terms, be satisfied or waived prior to the expiration of the offer acceptance period, including the minimum tender condition, the receipt of the NYSE Euronext stockholder vote, the effectiveness of the registration statement, the receipt of IRS rulings, the absence of a

Edgar Filing: NYSE Euronext - Form 425

material adverse market change, and the absence of an offer material adverse on Deutsche Börse and NYSE Euronext. The only conditions to the exchange offer that may remain outstanding after the expiration of the offer acceptance period are the conditions relating to competition approvals, and the receipt of the specified regulatory approvals for the combination. These are described under The Business Combination Agreement Conditions

A-70

Table of Contents

to Completing the Combination. See also Regulatory Approvals and Litigation Related to the Combination for a discussion of the status of the regulatory filings and approvals for the combination. The parties currently expect the EU merger control proceedings to be finalized before the end of the 2011, but it is possible these proceedings will continue into the first quarter of 2012. The parties expect that all other regulatory conditions remaining after the expiration of the acceptance period will be completed before the EU merger control proceedings.

Deutsche Börse's Agreement to Tender Treasury Shares

Deutsche Börse has agreed to tender all of the Deutsche Börse shares held in treasury by Deutsche Börse. As of March 31, 2011, 8,956,997 Deutsche Börse shares were held by Deutsche Börse as treasury shares.

Information on the Holdco shares offered to Deutsche Börse shareholders

The Holdco shares offered to the Deutsche Börse shareholders are ordinary registered shares of Holdco with a nominal value of 1.00 and full dividend rights since formation of Holdco on February 10, 2011.

The International Securities Identification Number, the German Securities Code, the Common Code and the Ticker Symbol of the Holdco shares will be as follows:

International Securities Identification Number (ISIN)	NL0009766997
German Securities Code (<i>Wertpapierkennnummer</i>) (WKN)	A1H8IK
Common Code	062269324
Ticker Symbol	AL4

Currency of the Exchange Offer

For purposes of the provisions of the EU Prospectus Regulation, the currency in which the exchange offer is conducted is euros. This means that all relevant calculations for the exchange offer under the German Takeover Act, including the value of Deutsche Börse shares for purposes of complying with the minimum pricing rules under the German Takeover Act, is expressed in euros. After commencement of trading, Holdco shares will be quoted on the New York Stock Exchange in U.S. dollars.

Admission to and Commencement of Trading

Holdco (1) intends to list its shares on the New York Stock Exchange subject to the notice of issuance and (2) will apply, prior to the time of delivery of the Holdco shares pursuant to the exchange offer and the merger, for admission of its shares to trading on the regulated market (*regulierter Markt*) of the Frankfurt Stock Exchange (*Frankfurter Wertpapierbörse*) and in the sub-segment thereof, with additional post-admission obligations (Prime Standard), and on the regulated market of Euronext Paris (*marché réglementé de Euronext à Paris*).

Holdco expects that the Holdco shares that the accepting shareholders of Deutsche Börse will receive upon settlement of the exchange offer will have been admitted to trading and listed at the time of delivery to the shareholders of Deutsche Börse having accepted the exchange offer.

Commencement of trading on the Frankfurt Stock Exchange, Euronext Paris and the New York Stock Exchange is expected to occur immediately after delivery of the Holdco shares to the Deutsche Börse shareholders who have accepted the exchange offer.

Settlement Agent

Holdco has appointed Deutsche Bank AG, Taunusanlage 12, 60325 Frankfurt am Main, Germany to act as central settlement agent and exchange escrow agent in connection with the exchange offer.

Table of Contents

Interests of the Parties Participating in the Exchange Offer

Holdco has entered into the business combination agreement with Deutsche Börse, NYSE Euronext and Pomme Merger Corporation. Such other parties to the business combination agreement are persons acting jointly with Holdco pursuant to Section 2 para. 5 sentence 1 of the German Takeover Act and have an interest in the completion of the exchange offer.

Pursuant to Section 2 para. 5 sentence 1 of the German Takeover Act, in conjunction with Section 2 para. 5 sentence 3 the of German Takeover Act subsidiaries of Holdco are also presumed to be persons acting jointly with Holdco, while the provision does not cover subsidiaries of persons acting jointly with Holdco. At the time of publication of this document, Pomme Merger Corporation is the only subsidiary of Holdco. Pomme Merger Corporation as well as Stichting Alpha Beta Netherlands, the sole shareholder of Holdco, are therefore persons acting jointly with Holdco pursuant to Section 2 para. 5 sentence 1 of the German Takeover Act in conjunction with Section 2 para. 5 sentence 3 of the German Takeover Act.

Interests of Directors, Board Members, and Executive Officers of Deutsche Börse and NYSE Euronext in the Combination

Shareholders of Deutsche Börse and shareholders of NYSE Euronext should be aware that some of the Deutsche Börse management board members, Deutsche Börse supervisory board members and directors and executive officers of NYSE Euronext may have interests in the combination that are different from, or in addition to, the interests of the Deutsche Börse shareholders and NYSE Euronext shareholders. These interests may include, but are not limited to, the continued employment of certain Deutsche Börse management board members and executive officers of NYSE Euronext, the continued positions of certain Deutsche Börse supervisory board members and certain directors of NYSE Euronext as directors of Holdco and the indemnification of former Deutsche Börse management and supervisory board members and directors and executive officers of NYSE Euronext by Holdco. These interests also include the treatment in the combination of restricted stock units, stock options and other rights held by these directors, board members and executive officers. As of March 14, 2011, members of the Deutsche Börse management board and the Deutsche Börse supervisory board owned 50,780 Deutsche Börse shares in the aggregate.

Shareholders of Deutsche Börse and shareholders of NYSE Euronext should be aware that, as of March 1, 2011, NYSE Euronext directors and executive officers and their affiliates owned and were entitled to vote approximately 0.3% of the outstanding NYSE Euronext shares entitled to vote at the NYSE Euronext special meeting. In connection with the completion of the combination, certain executives of NYSE Euronext may be entitled to certain compensation subject to approval at the NYSE Euronext special meeting. See Business of NYSE Euronext Group and Certain Information about NYSE Euronext 2010 Compensation.

Reasons for the Exchange Offer and Use of Proceeds

The exchange offer forms part of the transaction that has been agreed by Deutsche Börse and NYSE Euronext to implement the combination, by which the businesses of Deutsche Börse Group and NYSE Euronext will be combined under Holdco as a holding company. The combination and the agreements of Deutsche Börse and NYSE Euronext are described in detail in the section entitled The Business Combination Agreement.

The Holdco shares that will be delivered to the shareholders of Deutsche Börse who have validly tendered their Deutsche Börse shares in the exchange offer will be issued against contribution in kind comprising such tendered Deutsche Börse shares, and Holdco will not receive any proceeds from such exchange offer.

Holdco expects the total costs that it will incur in connection with the exchange offer to be paid by Holdco at approximately up to 4.0 million.

Table of Contents

THE COMBINATION

Background of the Combination

The NYSE Euronext board of directors and the Deutsche Börse supervisory and management boards continually review their respective companies' results of operations and competitive positions in the industries in which they operate, as well as their strategic alternatives. In connection with these reviews, each of NYSE Euronext and Deutsche Börse from time to time evaluates potential transactions that would further its strategic objectives.

In the fall of 2008, NYSE Euronext chief executive officer Duncan L. Niederauer and Deutsche Börse chief executive officer Dr. Reto Francioni met and discussed a possible combination of their respective companies. Following that meeting, selected members of NYSE Euronext management and of Deutsche Börse management had periodic discussions regarding possible transaction structures, as well as social and governance aspects of a potential combination of the two companies. To facilitate these discussions, on September 22, 2008, NYSE Euronext and Deutsche Börse entered into a confidentiality agreement in connection with the exchange of information between the two companies and their advisors. Also during this time, NYSE Euronext consulted with Perella Weinberg, and its legal advisors, Wachtell, Lipton, Rosen & Katz, Milbank, Tweed, Hadley & McCloy LLP and Stibbe N.V., and Deutsche Börse consulted with financial advisor, Deutsche Bank AG and its legal advisor, Linklaters LLP. Preliminary discussions continued through the fall of 2008, including with respect to the potential governance arrangements of a post-transaction entity, but no agreement was reached. In early December 2008, the parties terminated discussions regarding a possible business combination following unauthorized news stories regarding the existence of such discussions regarding a combination between the two companies.

Over the course of the next two years, Mr. Niederauer and Dr. Francioni, as well as members of senior management of each company, met from time to time in the scope of their professional activities and discussed on several occasions the possibility of a combination between the two companies. These meetings, however, did not at those times lead to any serious discussions.

During the summer of 2010, Mr. Niederauer and Dr. Francioni continued to discuss the strategic challenges faced by the companies in light of the consolidation in the exchange industry. As a result of such discussions, they jointly agreed to resume discussions on a potential business combination between the two companies.

On August 2, 2010, senior management from each of NYSE Euronext and Deutsche Börse met in New York City at the request of Dr. Francioni to discuss the possibility of reinitiating consideration of a potential transaction. At that meeting, they discussed the concept of the transaction and the potential benefits to each party that could be obtained. Management of each party also agreed on a schedule for further consideration of a transaction and key next steps in the decision-making process.

On September 15, 2010, the NYSE Euronext board of directors met for a periodic review and discussion of corporate strategy. During that meeting, the NYSE Euronext board undertook a thorough strategic and financial review of organic growth opportunities underway at the company and being considered by the company, including new products and services, new asset classes and geographic expansion. The board examined the expected financial performance, including the financial position, of NYSE Euronext on a standalone basis taking into account these initiatives. In addition, the board considered potential partners for merger-and-acquisition transactions in the exchange industry and/or the broader financial intermediary industry, and discussed which of these transactions could be consummated and their relative merits. As part of that discussion, Mr. Niederauer reviewed his discussions with Dr. Francioni, and the NYSE Euronext board of directors authorized him to continue and to expand discussions with the objective of working to determine whether a potential business combination with Deutsche Börse was achievable. NYSE Euronext did not actively pursue any of the merger-and-acquisition alternatives discussed at the meeting that would be alternatives to the combination with Deutsche Börse, which it viewed as the most attractive strategic alternative if it could be completed on agreeable terms.

Table of Contents

Over the course of the next few months, selected members of senior management of each of NYSE Euronext and Deutsche Börse discussed potential alternatives for the terms and structure for the transaction.

On October 28, 2010 and again on December 16, 2010, the NYSE Euronext board of directors met and, as a part of those meetings, was updated by senior management as to the status of discussions with Deutsche Börse. In each instance, the NYSE Euronext board of directors instructed management to continue discussions regarding a potential transaction.

In the early part of January 2011, and particularly during meetings among Mr. Niederauer and Dr. Francioni, other NYSE Euronext and Deutsche Börse representatives and their respective financial advisors held in Zürich, Switzerland on January 13 and 14, 2011 for the purpose of negotiating a transaction, NYSE Euronext and Deutsche Börse management continued to discuss the terms of a potential business combination. During this period, the parties negotiated certain governance and other terms that were proposed to apply to the combined group of NYSE Euronext and Deutsche Börse Group businesses after completion of a business combination. Specifically, the parties contemplated that the transaction would involve (1) a combination of the two companies rather than the acquisition of one by the other, (2) the creation of a new holding company in the Netherlands that would become the holding company for NYSE Euronext and Deutsche Börse, (3) dual headquarters in New York and Frankfurt for the combined company, (4) Dr. Francioni, who would be based primarily in Frankfurt, serving as the chairman of the board of directors of the combined company, and Mr. Niederauer, who would be based primarily in New York, serving as the chief executive officer of the combined company, (5) the board of directors of the combined company would consist of the chairman and the chief executive officer of the combined company, along with nine individuals designated by Deutsche Börse and six individuals designated by NYSE Euronext, and (6) the membership of the executive committee of the combined company would be equally comprised of former Deutsche Börse and former NYSE Euronext executives and would be chaired by the chief executive officer of the combined company. The parties also reached a preliminary understanding on certain responsibilities and authorities of each of the chief executive officer and the chairman of the combined company that would apply in the event that a business combination was agreed.

During that same period, NYSE Euronext's and Deutsche Börse's respective management and financial advisors discussed the financial terms of a potential business combination, with negotiations focused principally on the relative percentage of ownership that the former shareholders of each entity would receive in the new Dutch holding company. At that time, the parties came to a general understanding that Deutsche Börse shareholders would receive approximately 60% of the outstanding shares of the holding company, and NYSE Euronext shareholders would receive approximately 40%, assuming that all of Deutsche Börse's issued shares participated in the exchange offer to be conducted in order to effectuate the business combination. However, no final decision was made regarding the exchange ratios that would apply to the business combination or the exact ownership percentages of NYSE Euronext and Deutsche Börse that were implied based on any such exchange ratios.

The parties came to a general understanding at such time that a premium of approximately 10% would be targeted for NYSE Euronext shareholders. At the time, on the basis of this premium, Deutsche Börse shareholders would receive approximately 60% of the outstanding shares of Holdco, and NYSE Euronext shareholders would receive approximately 40% of the outstanding shares of Holdco. When considering the appropriate premium for the NYSE Euronext shareholders, the parties took into account, among other things, the synergies that the parties expected to be realized as a result of the combination.

On January 17, 2011, a draft heads of terms encapsulating Deutsche Börse's understanding of the joint discussions of certain terms of the potential transaction and governance structure was exchanged that, over the course of the following week, NYSE Euronext management and its legal advisors reviewed.

On January 18, 2011, the management board of Deutsche Börse held a meeting in which it discussed the current status of negotiations with NYSE Euronext.

Table of Contents

On January 21, 2011, Mr. Niederauer and Dr. Francioni along with selected members of their respective senior management teams, financial and legal advisors met in New York City. During that meeting, the parties provided financial updates about each company. The parties also reviewed the draft heads of terms and sought to achieve further consensus on specific aspects of the governance arrangements that would apply to the combined company, including the length of the initial terms of the board of directors of the holding company and supermajority board vote requirements. Additionally at this meeting, the parties agreed on a schedule for the drafting and distribution of definitive agreements to memorialize the terms of the business combination and governance arrangements. The parties discussed preliminary plans for communicating the transaction, if ultimately agreed by the parties, to their shareholders, regulators and other important constituents.

On January 24, 2011, Dr. Francioni met with Dr. Manfred Gentz, the chairman of the Deutsche Börse supervisory board, and a few other members of the Deutsche Börse supervisory board to inform them about the status of the negotiations with NYSE Euronext.

On January 27, 2011, NYSE Euronext's legal counsel, Wachtell Lipton, sent an initial draft of the business combination agreement to Linklaters, legal counsel for Deutsche Börse, and Linklaters sent initial drafts of the articles of association of the holding company, rules for the board of directors of the holding company and rules for the global executive committee (which are collectively referred to as the Holdco governance documents) to Wachtell Lipton.

On January 28, 2011, NYSE Euronext and Deutsche Börse each provided the other with access to an electronic data room containing financial and legal due diligence materials. NYSE Euronext's and Deutsche Börse's respective management, financial and legal advisors subsequently began a review of such materials.

On February 1, 2011, Mr. Jan-Michiel Hessels, chairman of NYSE Euronext Board of directors, as well as Mr. Niederauer and several other members of the NYSE Euronext board of directors met with Dr. Francioni, Dr. Manfred Gentz, chairman of the Deutsche Börse supervisory board, and several other members of the Deutsche Börse supervisory board in Zurich, Switzerland. At the meeting, they reviewed the working plan and timing to reach a definitive agreement for the combination and identified the principal issues that management noted had to be resolved in order for an agreement to be executed.

Between January 31, 2011 through February 2, 2011, the management of each of NYSE Euronext and Deutsche Börse along with each of their respective financial and legal advisors met in Amsterdam, the Netherlands, to negotiate the business combination agreement and Holdco governance documents and to discuss high-level financial and legal due diligence, including potential synergies that could be realized in a business combination. During these meetings, the internal and external legal advisors to the parties negotiated various provisions in the draft business combination agreement and the draft Holdco governance documents. As part of these negotiations, the parties discussed the minimum tender condition for the exchange offer, the timing of the official announcement of the exchange offer for German law purposes, the size of the termination fee payable by each party and the circumstances in which such termination fee would be payable and the integration of Deutsche Börse into the new Holdco group post-completion of the transaction. During these meetings, the parties and their respective financial advisors also refined their financial analyses of the business combination and reviewed potential costs and synergies in connection with the transaction in order to facilitate their valuation of the combined entity.

On February 3, 2011, the NYSE Euronext board of directors held a meeting in Amsterdam to discuss, among other issues, the potential terms of a business combination with Deutsche Börse. At the meeting, Mr. Niederauer and other members of NYSE Euronext management presented the current state of negotiations and due diligence with Deutsche Börse and reviewed the strategic rationale for the business combination. Wachtell Lipton presented summaries of the current draft business combination agreement and the current draft Holdco governance documents, noting the items in such documents that had not yet been agreed. Wachtell Lipton also reviewed with the NYSE Euronext directors their fiduciary duties under Delaware law. Stibbe

Table of Contents

provided an overview of certain Dutch law aspects that were relevant to the transaction and also reviewed the legal regime under which the board of directors of the Dutch holding company would be operating. Perella Weinberg updated the board on the current status of the financial due diligence and the general financial analysis of the potential transaction and the ongoing negotiations regarding the exchange ratio, the valuation implied by different exchange ratios and the percentage of outstanding Holdco shares that would be held by the former NYSE Euronext shareholders using different exchange ratios. At the meeting, the NYSE Euronext board of directors authorized management to continue its negotiations with Deutsche Börse.

Later that day on February 3, 2011, Linklaters provided a revised draft of the business combination agreement to NYSE Euronext's legal advisors.

Based on input from the management of NYSE Euronext, on February 7, 2011, NYSE Euronext's legal advisors sent a revised draft of the business combination agreement to Deutsche Börse's legal advisors. In addition, Deutsche Börse's legal advisors sent revised drafts of the Holdco governance documents to NYSE Euronext's legal advisors.

On February 7, 2011, the Deutsche Börse management board held a meeting during which the terms of the business combination with NYSE Euronext were discussed in detail.

On February 8 and 9, 2011, representatives from NYSE Euronext and Deutsche Börse and their respective advisors met in New York City. In-depth discussions were held on the outstanding issues in the draft business combination agreement and the draft Holdco governance documents, including (1) the minimum tender condition for the exchange offer, (2) the ability to maintain the well-balanced corporate governance structure, as proposed in their current drafts of the business combination agreement and corporate documents, following completion of the combination, (3) the limitations on each party's obligations to change or divest its businesses or to amend the governance structure of Holdco in order to receive regulatory approval for the transactions, (4) the circumstances under which a termination fee would be payable by either party, (5) the decision-making authority of the Global Executive Committee of the Holdco group, (6) the duration of the initial term of the chairman and chief executive officer of the combined businesses, (7) the rights of Holdco directors who were initially designated by NYSE Euronext and Deutsche Börse to select replacement candidates in the event of vacancies on the board or board committees, and (8) the location and leaders of certain business divisions. In addition, management of Deutsche Börse and NYSE Euronext along with their respective financial and accounting advisors held meetings to continue analyzing potential synergies in the business combination, including opportunities for integration of technologies across the companies, and to discuss the investor presentation proposed to be distributed upon announcement of the business combination.

On February 9, 2011, a news story that had not been authorized by NYSE Euronext or Deutsche Börse was released in Germany that indicated the parties were negotiating a potential business combination and described certain terms of the potential transaction. In response to the unauthorized news stories, both NYSE Euronext and Deutsche Börse suspended trading in their respective shares while preparing a response. Later that same day, Deutsche Börse and NYSE Euronext issued a joint press release confirming the existence of advanced discussions regarding a potential business combination and detailing the current status of certain of the transaction terms that were contemplated by the parties. NYSE Euronext shares resumed trading following the issuance of that press release, and Deutsche Börse shares resumed trading the next morning.

On February 10, 2011, the NYSE Euronext board of directors met by video conference to receive a report from NYSE Euronext management and its advisors on the status of the negotiations with Deutsche Börse.

Over the next several days, the parties and their financial and legal advisors continued to negotiate the remaining open points and exchange drafts of the business combination agreement and Holdco governance documents, as well as continuing their respective due diligence review of the other party.

Table of Contents

On February 11, 2011, the Deutsche Börse management board held a meeting during which it reviewed the terms and the status of the proposed transaction, including the estimated synergies and preliminary due diligence results. During this meeting, the management board authorized Dr. Francioni and Mr. Pottmeyer to finalize the negotiations of the combination agreement.

On February 12, 2011, certain press reports that had not been authorized by the parties suggested that the parties had agreed on the name under which their combined businesses would operate after consummation of the business combination. In response to those reports, NYSE Euronext and Deutsche Börse each issued a press release to clarify that negotiations regarding the name for the combined group were ongoing and no decision regarding a name had been finalized.

On February 13, 2011, the NYSE Euronext board of directors met by video conference to receive a report from management on the status of negotiations with Deutsche Börse. At the meeting, Mr. Niederauer and other members of NYSE Euronext management updated the board on the developments over the last few days and offered an assessment of the remaining open issues and potential outcomes. Wachtell Lipton presented updated summaries of the draft business combination agreement and draft Holdco governance documents, and Perella Weinberg reviewed the financial terms of the business combination. The NYSE Euronext board also received an update from management on the key findings that NYSE Euronext's management and its legal, financial and accounting advisors had identified in their due diligence of Deutsche Börse, and discussed with management the potential benefits and risks involved in the combination transaction. The board continued to support the proposed business combination based on the range of potential alternatives that management and its advisors had presented.

On February 14, 2011, the Deutsche Börse management board held a meeting to consider the revised terms of the transaction. With the advice of its legal and financial advisors, the management board considered the outcome of the negotiations that had taken place with NYSE Euronext and its advisors, including an update on the terms and key considerations of the proposed transaction with NYSE Euronext as well as an update on the proposed combination agreement between Deutsche Börse and NYSE Euronext since the last management board meeting. After deliberation, the Deutsche Börse management board determined that the proposed combination was in the best interest of Deutsche Börse and its shareholders and the management board approved, subject to the approval of the Deutsche Börse supervisory board, the business combination agreement and the transactions contemplated thereby. Later on the same day, members of the supervisory board of Deutsche Börse were updated by Dr. Francioni and other members of the management board on the status of the business combination discussions with NYSE Euronext.

NYSE Euronext's legal advisors and Deutsche Börse's legal advisors continued to exchange drafts of the business combination agreement and the Holdco governance documents, with refinements based on the continuing negotiations between the parties. Representatives of NYSE Euronext and Deutsche Börse continued to discuss the exchange ratio and, after consultation with their respective financial advisors, tentatively agreed to proceed on the basis of an exchange ratio of 0.47 of a share of Holdco for each NYSE Euronext share and an exchange ratio of one share of Holdco for each Deutsche Börse share tendered in the exchange offer. The parties acknowledged that these exchange ratios would lead to the combined company being owned 40% by former NYSE Euronext shareholders and 60% by former Deutsche Börse shareholders, assuming all Deutsche Börse shares were exchanged in the exchange offer. During the day on February 14, 2011 and into the morning of February 15, 2011, representatives of the parties resolved the remaining open issues to the satisfaction of both parties, including agreeing on the minimum tender condition for the exchange offer, the circumstances in which the termination fee would be payable and the locations and leaders of certain of the combined company's principal divisions.

On February 15, 2011, the Deutsche Börse supervisory board met to consider the revised terms of the transaction. With the advice of its financial and legal advisors, the supervisory board considered the outcome of the negotiations that had taken place with NYSE Euronext and its advisors. Based on presentations given by the

Table of Contents

Deutsche Börse management board, its financial advisors, DBSI and J.P. Morgan, and legal counsel, Linklaters, the supervisory board received, among other things, a summary of the terms and key considerations of the proposed transaction with NYSE Euronext as well as a summary of the proposed combination. Representatives from DBSI and J.P. Morgan each provided financial analyses of the transaction and rendered their oral opinions, subsequently confirmed in writing, that, as of February 15, 2011, and based upon and subject to the various factors, assumptions and limitations set forth in their respective written opinions, the exchange ratio in the proposed exchange offer was fair, from a financial point of view, to the holders of Deutsche Börse shares (other than Deutsche Börse). After deliberation, the Deutsche Börse supervisory board determined that the business combination was in the best interest of Deutsche Börse and its shareholders, and the supervisory board approved the business combination of Deutsche Börse and NYSE Euronext.

Also on February 15, 2011, the NYSE Euronext board of directors held a meeting by video conference to review the terms of the proposed business combination transaction. At the meeting, NYSE Euronext management updated the board on discussions and negotiations between the parties since the prior meeting of the NYSE Euronext board of directors. Representatives from Wachtell Lipton described the updated terms of the draft business combination agreement and governance arrangements proposed to be entered into in connection with the combination. Representatives from Perella Weinberg provided final financial analyses of the transaction and the final proposed exchange ratio. Thereafter, Perella Weinberg provided its oral opinion, subsequently confirmed in writing, to the NYSE Euronext board of directors to the effect that, as of February 15, 2011, and based upon and subject to the various assumptions made, procedures followed, matters considered and qualifications and limitations set forth therein, the exchange ratio in the merger of 0.47 was fair, from a financial point of view, to the NYSE Euronext shareholders. After discussion and deliberation, the NYSE Euronext board of directors determined that the business combination agreement and the transactions contemplated by the combination agreement were fair and in the best interests of NYSE Euronext and its shareholders and authorized management to execute the business combination agreement on behalf of the company. In accordance with NYSE Euronext's certificate of incorporation, the NYSE Euronext board of directors also approved the acquisition of NYSE Euronext shares pursuant to the merger and the voting of such NYSE Euronext shares by Holdco after the merger without limitations on ownership or voting rights by Holdco following the merger.

Following the approval of the NYSE Euronext board of directors and the Deutsche Börse boards, the parties entered into the business combination agreement on February 15, 2011 on the terms approved by those boards and issued a press release and market notice announcing the transaction.

On April 1, 2011, NYSE Euronext received a letter from NASDAQ OMX Group, Inc. and IntercontinentalExchange, Inc. setting forth a non-binding proposal to acquire all of the outstanding shares of NYSE Euronext common stock, where NYSE Euronext stockholders would receive \$14.24 in cash, 0.4069 of a share of NASDAQ OMX common stock and 0.1436 of a share of IntercontinentalExchange common stock, for each share of NYSE Euronext common stock. The letter indicated that NASDAQ OMX Group and IntercontinentalExchange agreed between themselves that, in connection with the closing of such transaction, IntercontinentalExchange would acquire NYSE Euronext's European derivatives businesses, including Liffe, as well as Liffe US and NYPC, and NASDAQ OMX would retain NYSE Euronext's other businesses, including the NYSE Euronext stock exchanges in New York, London, Paris, Amsterdam, Brussels and Lisbon, the U.S. equity options business and the information services and technology solutions businesses. The letter further indicated that the proposal was based on publicly available information and was not an offer capable of acceptance, but rather a non-binding indication of interest to serve as a basis for moving toward a mutually agreed transaction. On April 1, 2011, NYSE Euronext issued a press release requesting its shareholders not to take any action with respect to the proposal and indicating that the NYSE Euronext board of directors would carefully review the proposal in consultation with its independent financial and legal advisors. The NYSE Euronext board of directors held a meeting by telephone call that same day to receive an initial briefing on receipt of the proposal, but no determination was made with respect to the proposal.

On April 8, 2011, Deutsche Börse sent a letter to Mr. Niederauer and Mr. Hessels stating that Deutsche Börse remains fully committed to the agreed business combination with NYSE Euronext and describing certain

Table of Contents

aspects of the proposal by NASDAQ OMX and IntercontinentalExchange that Deutsche Börse viewed as being less favorable to NYSE Euronext than the proposed combination with the Deutsche Börse.

On April 10, 2011, the NYSE Euronext board of directors met with NYSE Euronext management and the company's financial and legal advisors to discuss the proposal by NASDAQ OMX and IntercontinentalExchange. At that meeting, the NYSE Euronext board of directors discussed with management and advisors the terms of the proposal and analyzed various aspects of the proposal, including the transaction structure, consideration to be paid, the anticipated value of such consideration following the transaction, the financing required for the transaction, the required financial and legal due diligence that would need to be performed, and the competition approval process and the exchange regulatory approval process. The board also discussed the proposal in light of the company's corporate strategy. After discussing the proposal, the NYSE Euronext board of directors unanimously concluded that the proposal did not align with NYSE Euronext's strategic vision, involved unacceptable execution risk and was not in the best interests of NYSE Euronext and its shareholders.

On April 19, 2011, NYSE Euronext received a letter from NASDAQ OMX and IntercontinentalExchange that provided additional details of their proposal, including a draft merger agreement. That same day, NYSE Euronext issued a press release acknowledging its receipt of the proposed merger agreement and indicating that the NYSE Euronext board of directors would review it in due course, consistent with its fiduciary duties and its obligations under the business combination agreement.

On April 21, 2011, the NYSE Euronext board of directors met to review the additional information with NYSE Euronext's outside legal and financial advisors. At the meeting, NYSE Euronext board of directors unanimously rejected the proposal and reaffirmed the business combination agreement with Deutsche Börse. NYSE Euronext issued a press release that same day announcing the board's decision.

On May 2, 2011, NASDAQ OMX and IntercontinentalExchange issued a press release announcing that each of their respective boards of directors approved their intent to commence an exchange offer to acquire all of the outstanding NYSE Euronext shares in a cash and stock transaction. Under the terms of the offer, each share of NYSE Euronext would be exchanged for \$14.24 in cash, 0.4069 shares of NASDAQ OMX common stock and 0.1436 shares of ICE common stock. The press release provided that, if NASDAQ OMX and ICE are successful in acquiring NYSE Euronext shares pursuant to the offer, they would consummate a second step merger as soon as possible thereafter to acquire the remaining NYSE Euronext shares for the same consideration per share. The press release also indicated that the offer would be expected to have the following conditions: the tender of a majority of the outstanding NYSE Euronext shares on a fully diluted basis; the termination of the business combination agreement between Deutsche Börse AG and NYSE Euronext; receipt of required regulatory approvals; the NYSE Euronext board waiving the voting and ownership limitations contained in the NYSE Euronext certificate of incorporation; approval by the NYSE Euronext board of the exchange offer under Section 203 of the Delaware General Corporation Law (or satisfaction that Section 203 will not apply to the offer and the second step merger); NASDAQ OMX and ICE completing to their satisfaction confirmatory due diligence; and approval by the stockholders of NASDAQ OMX and ICE of the issuance of their stock pursuant to the exchange offer and the second step merger.

Deutsche Börse's Reasons for the Combination

On February 14, 2011, the Deutsche Börse management board approved the business combination agreement and the transactions contemplated thereby. On February 15, 2011, the Deutsche Börse supervisory board approved the combination of Deutsche Börse and NYSE Euronext under a newly founded Dutch holding company as contemplated by the business combination agreement and presented in the meeting.

In reaching its decision on February 14, 2011, the Deutsche Börse management board consulted with its financial and legal advisors and considered a variety of factors, including the material factors described below. In light of the number and wide variety of factors considered in connection with its evaluation of the transaction, the Deutsche Börse management board did not consider it practicable to, and did not attempt to, quantify or otherwise

Table of Contents

assign relative weights to the specific factors that it considered in reaching its determination. The Deutsche Börse management board viewed its position as being based on all of the information available and the factors presented to and considered by it. In addition, individual members of the Deutsche Börse management board may have given different weight to different factors. This explanation of the Deutsche Börse management board's reasons for the proposed combination and all other information presented in this section is forward-looking in nature and, therefore, should be read in light of the factors discussed under "Forward-Looking Statements."

The Deutsche Börse management board considered a number of factors pertaining to the strategic rationale for the combination as generally supporting its decision to enter into the combination agreement, including the following material factors:

Strategic Considerations. The Deutsche Börse management board believes that the combination will provide a number of significant strategic opportunities, including the following:

its expectation that the combined company would be a leader in a diverse set of large and growing businesses, including derivatives, listings, cash equities, post-trade settlement and asset servicing, market data and technology services;

its view that the combined company would have a portfolio of leading brands, including Deutsche Börse, Eurex, NYSE Liffe, Clearstream, Stoxx, NYSE Euronext, New York Stock Exchange and Euronext;

its expectation that the combined company's complementary products would allow the combined company to provide customers with a global derivatives platform;

its expectation that the combined company would be an industry-leading provider of technology services and information content;

its expectation that the combined company would be the world's largest venue for capital raising;

its expectation that the combined company would be a global pioneer in international post-trade infrastructure and settlement with revenues drawn from outside of Europe in those business areas;

its expectation that the combination would over time create substantial incremental efficiency and growth opportunities; and

its expectation that in light of a potential consolidation in the exchange industry, the combination would be to the benefit of Frankfurt as a financial center;

Synergies. Based on the management board's discussions with NYSE Euronext management, the Deutsche Börse management board determined that the combination would create significant cost savings and revenue synergies, including approximately 300 million (\$400 million based on an exchange rate of \$1.33 to 1.00) of annual cost savings expected to be achievable on an annualized basis within three years after the completion of the transaction, as well as at least 100 million (\$133 million) of annual revenue synergies. See "The Business Combination - Certain Synergy Forecasts" for a revised estimate of expected cost savings of 400 million (\$532 million);

Edgar Filing: NYSE Euronext - Form 425

Implied Ownership. The Deutsche Börse management board considered that the exchange ratios implied that former Deutsche Börse shareholders and former NYSE Euronext shareholders would hold approximately 60% and 40%, respectively, of the outstanding Holdco shares, assuming that all Deutsche Börse shareholders tendered in the exchange offer, and considered this relative ownership percentage after reviewing the earnings, cash flow and balance sheet impact of the proposed combination, the historical financial performance of Deutsche Börse and NYSE Euronext, the historical trading price of Deutsche Börse shares and NYSE Euronext shares and the historical exchange rate between Euros and U.S. dollars. This implied ownership split of 60% and 40% is based on the exchange ratio of one Deutsche Börse share for one Holdco share in the exchange offer and the exchange ratio of one NYSE Euronext share for 0.47 of a Holdco share in the merger.

The exchange ratios were considered by Deutsche Börse in light of the relative valuations of Deutsche Börse and NYSE Euronext. Such valuations were based on certain publicly available financial and

Table of Contents

other information concerning NYSE Euronext and Deutsche Börse, projections based on certain publicly available research analysts' financial forecasts that were reviewed by the respective managements of Deutsche Börse and NYSE Euronext, extrapolations from such forecasts as directed by the respective managements of Deutsche Börse and NYSE Euronext and certain internal analyses and other information relating to NYSE Euronext and Deutsche Börse prepared by management of NYSE Euronext and Deutsche Börse, respectively. In addition, among other things, reported prices and trading activity for the Deutsche Börse shares and the NYSE Euronext shares have been reviewed, and, to the extent publicly available, certain financial and stock market information for NYSE Euronext and Deutsche Börse with similar information for certain other companies considered to be relevant whose securities are publicly traded have been compared. Such agreed exchange ratios would result in a premium of approximately 10% for the NYSE Euronext shareholders as of February 8, 2011, the date prior to public reports that discussions were being held between NYSE Euronext and Deutsche Börse regarding a possible business combination, on the basis of the closing price of the NYSE Euronext and Deutsche Börse shares.

The Deutsche Börse management board came to the conclusion that the advantages for the Deutsche Börse shareholders resulting from the combination justify such premium for the following reasons:

Deutsche Börse believed that, without a premium of approximately 10% for the NYSE Euronext shareholders and the related 40% ownership of Holdco shares by the former NYSE Euronext shareholders, NYSE Euronext would not have entered into the business combination agreement. Deutsche Börse therefore concluded that such premium was a precondition in order for Deutsche Börse shareholders to receive the significant strategic opportunities that would be created by the combination, including the following:

The expectation that the combined company would be a leader in a diverse set of large and growing businesses, including derivatives, listings, cash equities, post-trade settlement and asset servicing, market data and technology servicing;

The view that the combined company would have a portfolio of leading brands, including Deutsche Börse, Eurex, NYSE Liffe, Clearstream, Stoxx, NYSE Euronext, New York Stock Exchange and Euronext;

The expectation that the combined company's complementary products would allow the combined company to provide customers with a global derivatives platform;

The expectation that the combined company would be an industry-leading provider of technology services and information content;

The expectation that the combined company would be the world's largest venue for capital raising;

The expectation that the combined company would be a global pioneer in international post-trade infrastructure and settlement with revenues drawn from outside of Europe in those business areas; and

The expectation that the combination will over time create substantial incremental efficiency and growth opportunities.

In addition thereto, it is the expectation of the Deutsche Börse management board that the future market value of Holdco is not limited to the sum of the current market capitalizations of Deutsche Börse and NYSE Euronext. Based on the discussions between Deutsche Börse and NYSE Euronext management, the Deutsche Börse management board determined that the combination will create significant cost savings and revenue synergies, including approximately 300 million (\$400 million) of

Edgar Filing: NYSE Euronext - Form 425

annual cost savings expected to be achievable on an annualized basis within three years after the completion of the combination, as well as at least 100 million (\$133 million) of annual revenue synergies. See The Business Combination Certain Synergy Forecasts for a revised estimate of expected cost savings of 400 million (\$532 million). The Deutsche Börse

A-81

Table of Contents

management board expects that these synergies will lead to a higher enterprise value for Holdco and, as a result, lead to a higher market value for Holdco, which, in turn, will benefit the Deutsche Börse shareholders who tender their shares in the exchange offer. In the view of the Deutsche Börse management board, this benefit justifies the premium of approximately 10% to be afforded to the NYSE Euronext shareholders. This expectation is supported by the fairness opinions of Deutsche Bank and J.P. Morgan that the exchange ratios are fair from a financial point of view to the holders of Deutsche Börse shares (other than Deutsche Börse) (see below *Opinions of Financial Advisors to Deutsche Börse*).

Taking into consideration the aforementioned expectations and the advantages for the Deutsche Börse shareholders resulting therefrom, the Deutsche Börse management board came to the conclusion that the exchange ratio of one Holdco share for each Deutsche Börse share and the exchange ratio of 0.47 of a Holdco share for each NYSE Euronext share (which represented a premium of approximately 10% for the benefit of the NYSE Euronext shareholders as of February 8, 2011, the date prior to public reports that discussions were being held between NYSE Euronext and Deutsche Börse regarding a possible business combination, on the basis of the closing price of the NYSE Euronext and Deutsche Börse shares) is in the best interests of the Deutsche Börse shareholders and in the best interests of Deutsche Börse.

Opinions of Financial Advisors. The Deutsche Börse management and supervisory board considered the financial analyses presented to it by DBSI and J.P. Morgan and the opinions of DBSI and J.P. Morgan that, as of February 15, 2011 and based upon and subject to the various factors, assumptions and limitations set forth in their respective opinions, the exchange ratio in the proposed exchange offer was fair, from a financial point of view, to holders of Deutsche Börse shares (other than Deutsche Börse);

Participation in Future Appreciation. The Deutsche Börse management board considered the fact that the consideration payable to Deutsche Börse shareholders in the exchange offer would be Holdco shares and, therefore, would allow Deutsche Börse shareholders to participate in potential further appreciation of the combined company after the combination;

Governance. The Deutsche Börse management board considered that the following governance arrangements provided by the business combination agreement would enable continuity of management and an effective and timely integration of the two companies' operations and reflect the fact that the transaction was structured as a balanced business combination rather than an acquisition of NYSE Euronext by Deutsche Börse or vice versa:

the agreement of the parties that the Holdco board of directors would consist of the following members after completion of the combination:

Deutsche Börse's chief executive officer, who would be appointed as the chairman of the Holdco group;

NYSE Euronext's chief executive officer, who would also be appointed as the chief executive officer of the Holdco group;

fifteen other individuals, with nine individuals (or 60%) to be designated by Deutsche Börse and six individuals (or 40%) to be designated by NYSE Euronext; and

the Global Executive Committee of the Holdco group would consist of an equal number of persons designated by Deutsche Börse and NYSE Euronext from their respective senior management teams;

Familiarity with Businesses. The Deutsche Börse management board considered its knowledge of Deutsche Börse Group's and NYSE Euronext's businesses, historical financial performance and condition, operations, properties, assets, regulatory issues, competitive positions, prospects and management, as well as its knowledge of the current and prospective environment in which Deutsche Börse

Edgar Filing: NYSE Euronext - Form 425

Group and NYSE Euronext operate (including the anticipated consolidation in the industry and the competitive effects of this consolidation on Deutsche Börse Group); and

A-82

Table of Contents

Alternatives. The directors of the Deutsche Börse management board considered the combination relative to the risks and uncertainties associated with other potential strategic alternatives that might be available to Deutsche Börse, in the context of rapid technological and regulatory changes being confronted by the financial services industry and the risks and challenges associated with these changes. The Deutsche Börse management board also took note of the fact that between the date that the parties issued the press release on February 9, 2011 confirming discussions and the date the parties entered into the business combination agreement, Deutsche Börse did not receive any incoming inquiries from any other potential strategic partners with respect to an alternative strategic transaction.

The Deutsche Börse management board also considered a variety of risks and other potentially negative factors concerning the business combination agreement and the combination as a whole, including the following:

the risk that the potential benefits of the combination (including the amount of cost savings and revenue synergies) may not be fully or partially achieved, or may not be achieved within the expected timeframe;

the risk that regulatory, governmental or competition authorities might seek to impose conditions on or otherwise prevent or delay the combination, or impose restrictions or requirements on the operation of the businesses of the Holdco group after completion of the combination;

the risks and costs to Deutsche Börse Group if the combination is not completed, including the potential diversion of management and employee attention from the daily business, potential employee attrition and the potential effect on business and customer relationships;

the risk of diverting management focus and resources from other strategic opportunities and from operational matters, and potential disruption associated with combining and integrating the companies;

the risk that certain members of Deutsche Börse senior management who have been selected to hold senior management positions in the combined company might not choose to remain with the combined company;

the potential challenges and difficulties relating to integrating the operations of Deutsche Börse Group and NYSE Euronext, including the cost to achieve synergies;

the restrictions on the conduct of Deutsche Börse Group's business prior to the completion of the combination, which restrictions require Deutsche Börse Group to conduct its business in the ordinary course and subject to specific limitations, which may delay or prevent Deutsche Börse Group from undertaking business opportunities that may arise pending completion of the combination;

the risk that an insufficient number of Deutsche Börse shareholders will tender their Deutsche Börse shares into the exchange offer or that the NYSE Euronext shareholders may fail to approve the merger;

the risk that the combination would be completed and up to 25% of the Deutsche Börse shares may not have been tendered in the exchange offer, and that Holdco may not be able to acquire such remaining Deutsche Börse shares on a timely basis or at all (and any such acquisition of such shares may require the payment of different or additional consideration than the consideration offered in the exchange offer);

Edgar Filing: NYSE Euronext - Form 425

the requirement that Deutsche Börse pay NYSE Euronext a termination fee if an alternative proposal to acquire Deutsche Börse is publicly announced or made known and the business combination agreement is thereafter terminated in certain circumstances (see The Business Combination Agreement Termination);

the risk that because the exchange ratio to be paid to the Deutsche Börse shareholders is fixed, the value of the consideration to Deutsche Börse shareholders in the combination could fluctuate;

the likelihood of litigation challenging the combination, and the possibility that an adverse judgment for monetary damages could have a material adverse effect on the operations of the combined company after the combination or that an adverse judgment granting permanent injunctive relief could indefinitely enjoin completion of the combination;

A-83

Table of Contents

the expenses associated with completing the combination;

the risk that, upon completion of the combination, the counterparties under certain material agreements of certain members of the Deutsche Börse Group (e.g., under the cooperation agreement with SIX Group AG regarding Scoach Holding S.A. and the shareholders' agreement with SIX Swiss Exchange AG regarding Eurex) may be able to exercise certain change of control rights; and

various other risks associated with the combination and the businesses of Deutsche Börse Group, NYSE Euronext and the combined company described under Risk Factors.

In addition to considering the factors described above, Deutsche Börse management board considered that:

some members of the management and supervisory boards of Deutsche Börse have interests in the combination as individuals that are in addition to, and that may be different from, the interests of Deutsche Börse shareholders; and

additional regulatory requirements and regulatory authorities would be applicable to the combined company as a result of the transaction.

The Deutsche Börse management board concluded that the potentially negative factors associated with the combination were outweighed by the potential benefits that it expected Deutsche Börse and its shareholders to achieve as a result of the combination. Accordingly, the Deutsche Börse management and supervisory board approved the combination.

NYSE Euronext's Reasons for the Combination

On February 15, 2011, the NYSE Euronext board of directors determined that the business combination agreement and the transactions contemplated thereby were advisable, fair to and in the best interests of NYSE Euronext shareholders and approved and adopted the business combination agreement and the transactions contemplated thereby.

In reaching its decision on February 15, 2011, the NYSE Euronext board of directors consulted with NYSE Euronext management and its financial and legal advisors and considered a variety of factors, including the material factors described below. In light of the number and wide variety of factors considered in connection with its evaluation of the transaction, the NYSE Euronext board of directors did not consider it practicable to, and did not attempt to, quantify or otherwise assign relative weights to the specific factors that it considered in reaching its determination. The NYSE Euronext board of directors viewed its position as being based on all of the information available and the factors presented to and considered by it. In addition, individual directors may have given different weight to different factors. This explanation of NYSE Euronext's reasons for the proposed combination and all other information presented in this section is forward-looking in nature and, therefore, should be read in light of the factors discussed under Forward-Looking Statements.

The NYSE Euronext board of directors considered a number of factors pertaining to the strategic rationale for the combination as generally supporting its decision to enter into the combination agreement, including the following material factors:

Consistency with Existing Strategy. The NYSE Euronext board of directors considered that the combination with Deutsche Börse would enable NYSE Euronext to accelerate the benefits of its existing strategy to operate a global multi-asset class exchange providing a diversified range of services to the capital markets community at various stages of the trading value chain;

Strategic Considerations. The NYSE Euronext board of directors believes that the combination will provide a number of significant strategic opportunities, including the following:

Edgar Filing: NYSE Euronext - Form 425

its expectation that the combined company would be a leader with a diversified portfolio of large and growing businesses, including derivatives, listings, cash equities, post-trade settlement and asset servicing, market data and technology services;

A-84

Table of Contents

its view that the combined company would have a portfolio of leading brands, including NYSE Euronext, New York Stock Exchange, Euronext, Deutsche Börse, Eurex, NYSE Liffe, Clearstream and Stoxx;

its expectation that the combined company's complementary interest rate and equity index products would allow the combined company to provide customers with the product innovation and capital efficiency capabilities of a global derivatives platform;

its expectation that the combined company would be an industry-leading provider of technology services throughout the trading value chain and information content;

its expectation that the combined company would be the world's largest venue for capital raising;

its expectation that the combined company would be a global pioneer in international post-trade infrastructure and settlement with significant revenues drawn from outside of North America and Europe in those business areas; and

its expectation that the combination would over time create substantial incremental efficiency and growth opportunities;

Participation in Future Appreciation. The NYSE Euronext board of directors considered the fact that the merger consideration would be Holdco shares and, therefore, would allow NYSE Euronext shareholders to participate in potential further appreciation of the combined company after the merger;

Synergies. Based on the advice of NYSE Euronext management following such management's discussions with Deutsche Börse management and NYSE Euronext's accounting advisors, the NYSE Euronext board of directors determined that the combination would create significant cost savings and revenue synergies, including approximately 300 million (\$400 million, based on an exchange rate of \$1.33 to 1.00) of annual cost savings expected to be achievable on an annualized basis within three years after the completion of the transaction, as well as at least 100 million (\$133 million) of annual revenue synergies. See *The Business Combination Certain Synergy Forecasts* for a revised estimate of expected cost savings of 400 million (\$532 million);

Exchange Ratio. The NYSE Euronext board of directors considered that the exchange ratio of 0.47 of a Holdco share for each NYSE Euronext share in the merger and one Holdco share for each Deutsche Börse share in the exchange offer implied the following premiums as of February 8, 2011, the date prior to public reports that discussions were being held between NYSE Euronext and Deutsche Börse regarding a possible business combination, assuming that each Holdco share had a value equal to \$78.55, which was the closing price of one Deutsche Börse share on February 8, 2011 converted into U.S. dollars based on an exchange ratio of \$1.3551 to 1:

a 10.5% premium to the closing price of NYSE Euronext shares on February 8, 2011;

a 12.8% premium to the average of the closing prices of NYSE Euronext shares for the 10-day period ended on February 8, 2011;

a 14.0% premium to the average of the closing prices of NYSE Euronext shares for the one-month period ended on February 8, 2011; and

Edgar Filing: NYSE Euronext - Form 425

a 21.5% premium to the average of the closing prices of NYSE Euronext shares for the three-month period ended on February 8, 2011;

Implied Ownership. The NYSE Euronext board of directors considered that the exchange ratios implied that former NYSE Euronext shareholders and former Deutsche Börse shareholders would hold approximately 40% and 60%, respectively, of the outstanding Holdco shares, assuming that all Deutsche Börse shares are tendered in the exchange offer, and considered this relative ownership percentage after reviewing the earnings, cash flow and balance sheet impact of the proposed combination, the historical financial performance of NYSE Euronext and Deutsche Börse Group, the historical trading price of NYSE Euronext shares and Deutsche Börse shares and the historical exchange rate between euros and U.S. dollars;

A-85

Table of Contents

Financial Advisor's Opinion. The NYSE Euronext board of directors considered the financial analyses presented to the NYSE Euronext board of directors by Perella Weinberg and the opinion of Perella Weinberg that, as of February 15, 2011 and based upon and subject to the various assumptions made, procedures followed, matters considered and qualifications and limitations set forth therein, the exchange ratio in the merger of 0.47 is fair, from a financial point of view, to NYSE Euronext shareholders;

Governance. The NYSE Euronext board of directors considered that the following governance arrangements provided by the business combination agreement would enable continuity of management and an effective and timely integration of the two companies' operations and reflect the fact that the transaction was structured as a balanced business combination rather than an acquisition of NYSE Euronext by Deutsche Börse or vice versa:

the agreement of the parties that the Holdco board of directors would consist of the following members after completion of the combination:

the chief executive officer of NYSE Euronext, who would also be appointed as the chief executive officer of the Holdco group;

the chief executive officer of Deutsche Börse, who would also be appointed as the chairman of the Holdco group;

fifteen other individuals, with six individuals (or 40%) to be designated by NYSE Euronext and nine (or 60%) to be designated by Deutsche Börse; and

the Global Executive Committee of the Holdco group would consist of an equal number of persons designated by NYSE Euronext (including the chief executive officer of NYSE Euronext) and Deutsche Börse from their respective senior management teams;

Familiarity with Businesses. The NYSE Euronext board of directors considered its knowledge of NYSE Euronext's and Deutsche Börse Group's businesses, historical financial performance and condition, operations, properties, assets, regulatory issues, competitive positions, prospects and management, as well as its knowledge of the current and prospective environment in which NYSE Euronext and Deutsche Börse Group operate (including the anticipated consolidation in the industry and the competitive effects of this consolidation on NYSE Euronext); and

Alternatives. The NYSE Euronext board of directors considered the combination relative to the risks and uncertainties associated with other potential strategic alternatives that might be available to NYSE Euronext, in the context of rapid technological and regulatory changes being confronted by the financial services industry and the risks and challenges associated with these changes. The NYSE Euronext board of directors also took note of the fact that between the date that the parties issued the press release on February 9, 2011 confirming discussions and the date the parties entered into the business combination agreement, NYSE Euronext did not receive any incoming inquiries from any other potential strategic partners with respect to an alternative strategic transaction. The NYSE Euronext board of directors also considered a variety of risks and other potentially negative factors concerning the combination, including the following:

the risk that the potential benefits of the combination (including the amount of cost savings and revenue synergies) may not be fully or partially achieved, or may not be achieved within the expected timeframe;

Edgar Filing: NYSE Euronext - Form 425

the risk that regulatory, governmental or competition authorities might seek to impose conditions on or otherwise prevent or delay the combination, or impose restrictions or requirements on the operation of the businesses of the Holdco group after completion of the combination;

the risks and costs to NYSE Euronext if the combination is not completed, including the potential diversion of management and employee attention, potential employee attrition and the potential effect on business and customer relationships;

A-86

Table of Contents

the risk of diverting management focus and resources from other strategic opportunities and from operational matters, and potential disruption associated with combining and integrating the companies;

the risk that certain members of NYSE Euronext senior management who have been selected to hold senior management positions in the combined company might not choose to remain with the combined company;

the potential challenges and difficulties relating to integrating the operations of NYSE Euronext and Deutsche Börse Group, including the cost to achieve synergies;

the restrictions on the conduct of NYSE Euronext's business prior to the completion of the combination, which restrictions require NYSE Euronext to conduct its business in the ordinary course and subject to specific limitations, which may delay or prevent NYSE Euronext from undertaking business opportunities that may arise pending completion of the combination;

the risk that the NYSE Euronext shareholders may fail to adopt the business combination agreement and approve the transactions contemplated thereby, or that an insufficient number of Deutsche Börse shareholders will tender their Deutsche Börse shares into the exchange offer;

the risk that the combination would be completed and up to 25% of the Deutsche Börse shares may not have tendered their shares in the exchange offer, and that Holdco may not be able to acquire such remaining Deutsche Börse shares on a timely basis or at all (and any such acquisition of such shares may require the payment of different or additional consideration than the considered offered in the exchange offer);

the requirement that NYSE Euronext submit the business combination agreement to its shareholders for approval, even if the NYSE Euronext board of directors withdraws or changes its recommendation in a manner adverse to Deutsche Börse or Holdco (including by changing to recommend that NYSE Euronext shareholders reject the combination and the business combination agreement), which could delay or prevent NYSE Euronext's ability to pursue alternative proposals if one were to become available in the interim;

the requirement that NYSE Euronext pay Deutsche Börse a termination fee if an alternative proposal to acquire NYSE Euronext is publicly announced or made known and the combination agreement is thereafter terminated in certain circumstances (see The Business Combination Agreement - Termination);

the risk that because the exchange ratio to be paid to the NYSE Euronext shareholders is fixed, the value of the consideration to NYSE Euronext shareholders in the combination could fluctuate;

the risk that the U.S. holders of NYSE Euronext shares will be required to recognize gain for U.S. federal income tax purposes as a result of the merger if NYSE Euronext waives its tax conditions;

the likelihood of litigation challenging the merger, and the possibility that an adverse judgment for monetary damages could have a material adverse effect on the operations of the combined company after the combination or that an adverse judgment granting permanent injunctive relief could indefinitely enjoin completion of the combination;

the fees and expenses associated with completing the combination; and

various other risks associated with the combination and the businesses of NYSE Euronext, Deutsche Börse Group and the combined company described under Risk Factors.

In addition to considering the factors described above, the NYSE Euronext board of directors considered that:

some officers and directors of NYSE Euronext have interests in the combination as individuals that are in addition to, and that may be different from, the interests of NYSE Euronext shareholders; and

additional regulatory requirements and regulatory authorities would be applicable to the combined company as a result of the transaction.

A-87

Table of Contents

Furthermore, in accordance with its obligations under the NYSE Euronext certificate of incorporation, the NYSE Euronext board of directors determined that the combination, and Holdco's exercise of voting rights over NYSE Euronext and ownership of equity interests in NYSE Euronext:

will not impair the ability of any U.S. regulated exchanges, NYSE Euronext or NYSE Group to discharge their respective responsibilities under the Exchange Act and the rules and regulations thereunder;

will not impair the ability of any European market subsidiaries of NYSE Euronext, NYSE Euronext or Euronext N.V. to discharge their respective responsibilities under the European exchange regulations;

is otherwise in the best interests of NYSE Euronext, its shareholders, its U.S. regulated exchanges and European market subsidiaries; and

will not impair the SEC's ability to enforce the Exchange Act or the European regulators' ability to enforce the European exchange regulations.

The NYSE Euronext board of directors concluded that the potentially negative factors associated with the combination were outweighed by the potential benefits that it expected NYSE Euronext and its shareholders to achieve as a result of the combination. Accordingly, the NYSE Euronext board of directors determined that the business combination agreement and the transactions contemplated thereby, including the merger, are advisable, fair to, and in the best interests of, NYSE Euronext and its shareholders.

Certain Synergy Forecasts

None of NYSE Euronext, Deutsche Börse or Holdco as a matter of course publicly discloses detailed forecasts or internal projections as to future revenues, earnings or financial condition. However, in the course of their discussions regarding the proposed combination, as discussed under *The Combination - Background of the Combination*, NYSE Euronext and Deutsche Börse provided each other and their respective financial advisors with certain business and synergy forecasts that were made publicly available after the announcement of the signing of the business combination agreement. Set forth below is an overview of such business and synergy data and forecasts, as well as the revised estimates of cost savings that were subsequently publicly disclosed by the parties.

In preparing the synergy forecasts set forth below, management of NYSE Euronext and Deutsche Börse made the following material assumptions:

implementation and restructuring costs are estimated to be approximately 1.5 to 2.0 times the expected full run-rate cost synergies;

the exchange rate would be 1 = \$1.33; and

the combination would be completed by December 31, 2011.

Projected Cost Savings of NYSE Euronext and Deutsche Börse Group

In connection with their financial due diligence review, the parties estimated in February 2011 that the combination will generate cost savings of approximately \$300 million/\$400 million, principally from information technology, clearing, and market operations, as well as from corporate administration and support functions. For example, both NYSE Euronext and Deutsche Börse Group operate EU cash markets, EU derivatives markets and U.S. equity options markets. By combining their respective operations, the parties expect that savings could be realized across all three businesses by combining duplicative functions such as management, sales and marketing, and product development and by bringing locations together. The parties also expect more limited savings in listing and market operations. The following table sets forth the areas in

which the parties expected that these cost savings

A-88

Table of Contents

can be achieved and their anticipated sources for these cost savings. All synergy values are based on an exchange rate of \$1.33 per euro.

	Annual Cost Savings (millions)	% of Total Cost Savings	Comments
Technology	79/\$105	26	Single platform Integrated complementary derivatives franchises Combined U.S. options platforms
Clearing	67/\$90	22.5	Duplicative operations and planned operating expenses
Market Operations	98/\$130	32.5	EU cash markets EU derivatives market U.S. equity options
Corporate	56/\$75	19	Duplicative corporate and administrative overhead

The parties expected these cost savings to be realized at an annual run rate that will reach 100% by the end of the third year following completion of the combination, as set forth in the following table:

	Run-Rate (%)	Cost Savings (millions)
Year 1	25	75/\$100
Year 2	50	150/\$200
Year 3	100	300/\$400

Revised Projected Cost Savings of NYSE Euronext and Deutsche Börse Group

Following the date of the business combination agreement, the parties continued to analyze the cost savings that they expected to achieve as a result of the combination, based on additional information developed in connection with commencement of their integration planning. Following such analysis, the parties revised their estimate of the projected cost savings. As revised, the parties estimate that the combination will generate cost savings of approximately 400 million/\$532 million, principally from information technology, clearing, and market operations, as well as from corporate administration and support functions. The following table sets forth the areas in which these cost savings are expected to be achieved and the anticipated sources for the cost savings including the levers for additional cost savings. All values are based on an exchange rate of \$1.33 per euro.

	Annual Cost Savings (millions)	% of Total Cost Savings	Levers for Cost Savings
Technology	130.0/\$172.9	32.5%	Single platform Integrated complementary derivatives franchises Combined U.S. option platforms Levers for additional cost savings: Common trading & clearing infrastructure Further consolidation of networks and U.S. data centers

Globalized IT operating model around common trading & clearing infrastructure

Clearing	71.0/\$94.4	17.7%	Duplicative operations and planned operating expenses
----------	-------------	-------	---

Lever for additional cost savings:

Further refinement of planned operating expenses

A-89

Table of Contents

	Annual Cost Savings (millions)	% of Total Cost Savings	Levers for Cost Savings
Market Operations	113.0/\$150.3	28.3%	<p>EU cash markets</p> <p>EU derivatives markets</p> <p>U.S. equity options</p> <p>Levers for additional cost savings:</p> <p>Implementation of centralized market operations hubs for derivatives & equities in Europe and in the U.S. and realization of operations-efficiencies in all locations through common trading & clearing infrastructure</p> <p>Further consolidation of sales and product development in Europe and in the U.S.</p>
Corporate	86.0/\$114.4	21.5%	<p>Duplicative corporate and administrative overhead</p> <p>Levers for additional cost savings:</p> <p>Further refinement of corporate & administrative functions</p> <p>Streamlining of management structure across entire group</p> <p>Stronger leverage of increased buying power and global sourcing opportunities</p> <p>Consolidation of global real estate portfolio</p>

The parties also revised their expectations as to when they expect these cost savings to be realized, although they continue to believe that full run rate will reach 100% by the end of the third year following completion of the combination, as set forth in the following table:

	Run-Rate	Cost Savings (millions)
End of Year 1	30%	120.0/\$159.6
End of Year 2	65%	260.0/\$345.8
End of Year 3	100%	400.0/\$532.0

Projected Revenue Synergies of NYSE Euronext and Deutsche Börse Group

In addition, the parties expect that the combination will lead to at least 100 million (\$133 million) of annual revenue synergies, with the full run-rate being achieved at the end of the third year after completion of the combination, through cross-selling and distribution opportunities, increased turnover from liquidity pool consolidation and new products, a progressive introduction of Deutsche Börse Group's clearing capabilities and expanded scope for technology services and market data offerings. The following table sets forth the areas in which these revenue synergies are expected to be realized and the anticipated sources for these revenue synergies. The parties expect that approximately 50% of the projected revenue synergies will be realized in the clearing business and approximately 50% in the other business areas indicated below:

Comments

Derivatives and Cash Markets	Increase turnover from combining equity and derivatives liquidity pools

The internal synergy forecasts were not prepared with a view toward public disclosure, nor were they prepared with a view toward compliance with published guidelines of the SEC, the guidelines established by the American Institute of Certified Public Accountants for preparation and presentation of financial forecasts, or U.S. GAAP. In addition, the synergy forecasts were not prepared with the assistance of, or reviewed, compiled or examined by, independent accountants. This summary of the internal synergy forecasts is not being included in this document to influence your decision whether to exchange your Deutsche Börse shares in the exchange offer or vote your NYSE Euronext shares to adopt the business combination agreement and approve the transactions contemplated by such agreement. Rather, they are included because these internal synergy forecasts were considered by Deutsche Börse's and NYSE Euronext's board(s) and their respective financial advisors for purposes of evaluating the combination.

These internal synergy forecasts were based on numerous variables and assumptions that are inherently uncertain, many of which are beyond the control of NYSE Euronext's and Deutsche Börse Group's management and will be beyond the control of Holdco's management. Important factors that may affect actual results and cause the internal synergy forecasts to not be achieved include, but are not limited to, risks and uncertainties relating to the business of NYSE Euronext and Deutsche Börse (including their ability to achieve strategic goals, objectives and targets over applicable periods), industry performance, the regulatory environment, developments in commercial disputes or legal proceedings, general business and economic conditions and other factors described under **General Information Forward-Looking Statements**. The internal synergy forecasts also reflect assumptions as to certain business decisions that are subject to change. As a result, actual results may differ materially from those contained in these synergy financial forecasts. Accordingly, there can be no assurance that the projections will be realized.

The inclusion of the internal synergy forecasts in this document should not be regarded as an indication that any of Holdco, NYSE Euronext, Deutsche Börse or their respective affiliates, advisors or representatives considered the internal synergy forecasts to be predictive of actual future events, and the internal synergy forecasts should not be relied upon as such. None of Holdco, NYSE Euronext, Deutsche Börse or their respective affiliates, advisors, officers, directors, partners or representatives can give you any assurance that actual results will not differ from these internal synergy forecasts, and, except as otherwise required by law, none of them have any obligation to update or otherwise revise or reconcile these internal synergy forecasts to reflect circumstances existing after the date the internal synergy forecasts were generated or to reflect the occurrence of future events even in the event that any or all of the assumptions underlying the synergy forecasts are shown to be in error. NYSE Euronext and Deutsche Börse do not intend, except as otherwise required by law, to make publicly available any update or other revision to these internal synergy forecasts. NYSE Euronext, Deutsche Börse and their respective affiliates, advisors, officers, directors, partners or representatives have not made, and are not authorized to make in the future, any representation to any shareholder or other person regarding NYSE Euronext's and Deutsche Börse Group's ultimate performance compared to the information contained in these internal synergy forecasts or that estimated results will be achieved. NYSE Euronext and Deutsche Börse have made no representations, in the business combination agreement or otherwise, concerning these internal synergy forecasts.

See cautionary statements regarding forward-looking information under **General Information Forward-Looking Statements.**

Opinion of the Financial Advisor to the NYSE Euronext Board of Directors

The NYSE Euronext board of directors retained Perella Weinberg to act as its financial advisor in connection with the combination, pursuant to which (1) Holdco will conduct the exchange offer to acquire each issued Deutsche Börse share for one Holdco share, and (2) immediately following the purchase by Holdco of the Deutsche Börse shares tendered in the exchange offer, Pomme Merger Corporation, a wholly owned subsidiary of Holdco, will merge with and into NYSE Euronext, with NYSE Euronext surviving the merger as a wholly owned subsidiary of Holdco, and all of the issued and outstanding NYSE Euronext shares, other than any NYSE Euronext shares owned directly by NYSE Euronext or Pomme Merger Corporation and not held on behalf of third parties, will be converted into the right to receive 0.47 of a Holdco share. This exchange ratio is referred to in this document as the

Table of Contents

merger exchange ratio. On February 15, 2011, Perella Weinberg rendered its oral opinion, subsequently confirmed in writing, to the NYSE Euronext board of directors that, as of such date, and based upon and subject to the various assumptions made, procedures followed, matters considered and qualifications and limitations set forth in the opinion, the merger exchange ratio in the combination was fair, from a financial point of view, to holders of NYSE Euronext shares (other than Deutsche Börse or any affiliate of Deutsche Börse).

The full text of Perella Weinberg's written opinion, dated February 15, 2011, which sets forth, among other things, the assumptions made, procedures followed, matters considered and qualifications and limitations on the review undertaken by Perella Weinberg, is attached as Annex E to this document. Holders of NYSE Euronext shares are urged to read Perella Weinberg's opinion carefully and in its entirety. The opinion does not address NYSE Euronext's underlying business decision to enter into the combination or the relative merits of the combination as compared with any other strategic alternative that may have been available to NYSE Euronext. The opinion does not constitute a recommendation to any holder of NYSE Euronext shares or Deutsche Börse shares as to how such holders should vote or otherwise act with respect to the combination or any other matter and does not in any manner address the prices at which NYSE Euronext shares, Holdco shares or Deutsche Börse shares will trade at any time. In addition, Perella Weinberg expressed no opinion as to the fairness of the combination to, or any consideration to, the holders of any other class of securities, creditors or other constituencies of NYSE Euronext. Perella Weinberg provided its opinion for the information and assistance of the NYSE Euronext board of directors in connection with, and for the purposes of its evaluation of, the combination. This summary is qualified in its entirety by reference to the full text of the opinion. Perella Weinberg's business address is 767 Fifth Avenue, New York, NY 10153, United States of America. Perella Weinberg has given its consent to the use of its opinion letter dated February 15, 2011 to the Board of Directors of NYSE Euronext, in the form and content as included in this document, as this document stands, at the time of publication.

In giving such consent, Perella Weinberg does not admit that it comes within the category of persons whose consent is required under Section 7 of the US Securities Act of 1933, as amended, or the rules and regulations of the US Securities and Exchange Commission thereunder, nor does Perella Weinberg thereby admit that it is an expert with respect to any part of the Registration Statement on Form F-4 of Alpha Beta Netherlands Holding N.V. filed with the Securities and Exchange Commission, which includes the proxy statement/prospectus, within the meaning of the term "expert" as used in the Securities Act of 1933, as amended, or the rules and regulations of the Securities and Exchange Commission thereunder.

In arriving at its opinion, Perella Weinberg, among other things:

reviewed certain publicly available financial statements and other business and financial information with respect to NYSE Euronext and Deutsche Börse Group, including research analyst reports;

reviewed certain internal financial information, analyses, and other financial and operating data relating to the business of NYSE Euronext, in each case, prepared by management of NYSE Euronext;

reviewed certain internal financial information, analyses, and other financial and operating data relating to the business of Deutsche Börse Group, in each case, prepared by management of Deutsche Börse Group;

reviewed certain publicly available financial forecasts relating to NYSE Euronext;

reviewed certain publicly available financial forecasts relating to Deutsche Börse Group;

reviewed estimates of synergies anticipated from the combination, which are referred to collectively in this document as the anticipated synergies, prepared by management of NYSE Euronext;

Edgar Filing: NYSE Euronext - Form 425

discussed the past and current business, operations, financial condition and prospects of NYSE Euronext, including the anticipated synergies, with senior executives of NYSE Euronext and Deutsche Börse Group, and discussed the past and current business, operations, financial condition and prospects of Deutsche Börse Group with senior executives of NYSE Euronext and Deutsche Börse Group;

reviewed the relative financial contributions of NYSE Euronext and Deutsche Börse Group to the future financial performance of Holdco on a pro forma basis;

A-92

Table of Contents

compared the financial performance of NYSE Euronext and Deutsche Börse Group with that of certain publicly-traded companies which it believed to be generally relevant;

compared the financial terms of the combination with the publicly available financial terms of certain transactions which it believed to be generally relevant;

reviewed the historical trading prices and trading activity for NYSE Euronext shares and Deutsche Börse shares, and compared such price and trading activity of NYSE Euronext shares and Deutsche Börse shares with each other and with that of securities of certain publicly-traded companies which it believed to be generally relevant;

reviewed the business combination agreement; and

conducted such other financial studies, analyses and investigations, and considered such other factors, as it deemed appropriate.

In arriving at its opinion, Perella Weinberg assumed and relied upon, without independent verification, the accuracy and completeness of the financial and other information supplied or otherwise made available to it (including information that was available from generally recognized public sources) for purposes of its opinion and further relied upon the assurances of the managements of NYSE Euronext and Deutsche Börse that, to their knowledge, information furnished by them for purposes of Perella Weinberg's analysis did not contain any material omissions or misstatements of material fact. Perella Weinberg assumed, with the consent of the NYSE Euronext board of directors, that there were no material undisclosed liabilities of NYSE Euronext and Deutsche Börse Group for which adequate reserves or other provisions had not been made and that the anticipated synergies and potential strategic implications and operational benefits (including the amount, timing and achievability thereof) anticipated by the management of NYSE Euronext to result from the combination would be realized in the amounts and at the times projected by the management of NYSE Euronext, and Perella Weinberg expressed no view as to the assumptions on which they are based.

Perella Weinberg relied upon, without independent verification, the assessment by the managements of NYSE Euronext and of Deutsche Börse of the timing and risks associated with the integration of NYSE Euronext and Deutsche Börse Group. At the direction of NYSE Euronext, Perella Weinberg relied upon the published estimates of third-party research analysts and, with NYSE Euronext management's direction and endorsement, extrapolations based thereon with respect to NYSE Euronext and extrapolations based thereon with respect to Deutsche Börse prepared by or on behalf of Deutsche Börse and provided to Perella Weinberg on behalf of Deutsche Börse. The published estimates were estimates of NYSE Euronext's and Deutsche Börse's financial results for 2011 and 2012, and the extrapolations, which were calculated by NYSE Euronext's and Deutsche Börse's financial advisors, were estimates of NYSE Euronext's and Deutsche Börse's financial results for 2013, 2014 and 2015. At the direction of NYSE Euronext, Perella Weinberg assumed that such estimates and extrapolations were a reasonable basis upon which to evaluate the future financial performance of NYSE Euronext and Deutsche Börse Group, and Perella Weinberg expressed no view as to the assumptions on which they were based.

In arriving at its opinion, Perella Weinberg did not make any independent valuation or appraisal of the assets or liabilities (including any contingent, derivative or off-balance-sheet assets and liabilities) of NYSE Euronext or Deutsche Börse Group, nor was it furnished with any such valuations or appraisals, nor did it assume any obligation to conduct, nor did it conduct, any physical inspection of the properties or facilities of NYSE Euronext or Deutsche Börse Group. In addition, Perella Weinberg did not evaluate the solvency of any party to the business combination agreement under any state, federal or foreign laws relating to bankruptcy, insolvency or similar matters.

Perella Weinberg assumed that the combination would be consummated in accordance with the terms set forth in the business combination agreement, without material modification, waiver or delay, including that each Deutsche Börse share would be exchanged for one Holdco share in the exchange offer. In addition, Perella Weinberg assumed that in connection with the receipt of all the necessary approvals of the proposed combination, no delays, limitations, conditions or restrictions would be imposed that could have an adverse effect on Holdco, NYSE Euronext, Deutsche Börse Group or the contemplated benefits expected to be derived in the proposed combination. Perella Weinberg's analysis further assumed that 100% of the issued Deutsche Börse

Table of Contents

shares would be acquired by Holdco in the exchange offer. Perella Weinberg relied as to all legal matters relevant to rendering its opinion upon the advice of its counsel.

Perella Weinberg's opinion addressed only the fairness from a financial point of view, as of the date thereof, of the merger exchange ratio to the holders of NYSE Euronext shares (other than Deutsche Börse or any affiliate of Deutsche Börse) pursuant to the business combination agreement. Perella Weinberg was not asked to, nor did it, offer any opinion as to any other term of the business combination agreement (or any related document or agreement) or the form of the combination or the likely timeframe in which the combination would be completed. In addition, Perella Weinberg expressed no opinion as to the fairness of the amount or nature of any compensation to be received by any officers, directors or employees of any parties to the business combination agreement, or any class of such persons, relative to the merger exchange ratio or otherwise. Perella Weinberg made no assumption as to whether the transaction would be taxable to NYSE Euronext shareholders, and did not express any opinion as to any tax or other consequences that may result from the transactions contemplated by the business combination agreement, nor did its opinion address any legal, tax, regulatory or accounting matters, as to which it understood NYSE Euronext had received such advice as it deemed necessary from qualified professionals. Perella Weinberg's opinion did not address the underlying business decision of NYSE Euronext to enter into the combination or the relative merits of the combination as compared with any other strategic alternative which may have been available to NYSE Euronext. Perella Weinberg was not authorized to solicit, and did not solicit, indications of interest in a transaction with NYSE Euronext from any party. Perella Weinberg's opinion noted that on February 9, 2011, NYSE Euronext and Deutsche Börse publicly confirmed that they were engaged in advanced discussions regarding a potential combination. Except as described above, the NYSE Euronext board of directors imposed no other limitations on the investigations made or procedures followed by Perella Weinberg in rendering its opinion.

Perella Weinberg's opinion was necessarily based on financial, economic, market and other conditions as in effect on, and the information made available to Perella Weinberg as of, the date of its opinion. It should be understood that subsequent developments may affect Perella Weinberg's opinion and the assumptions used in preparing it, and Perella Weinberg does not have any obligation to update, revise, or reaffirm its opinion. The issuance of Perella Weinberg's opinion was approved by a fairness committee of Perella Weinberg.

Summary of Material Financial Analyses

The following is a summary of the material financial analyses performed by Perella Weinberg and reviewed by the NYSE Euronext board of directors in connection with Perella Weinberg's opinion relating to the combination and does not purport to be a complete description of the financial analyses performed by Perella Weinberg. The order of analyses described below does not represent the relative importance or weight given to those analyses by Perella Weinberg. Some of the summaries of the financial analyses include information presented in tabular format.

In order to fully understand Perella Weinberg's financial analyses, the tables must be read together with the text of each summary. The tables alone do not constitute a complete description of the financial analyses. Considering the data below without considering the full narrative description of the financial analyses, including the methodologies and assumptions underlying the analyses, could create a misleading or incomplete view of Perella Weinberg's financial analyses.

Analysis of Implied Premia

Perella Weinberg took the product of (1) the merger exchange ratio and (2) the per share closing price of Deutsche Börse shares on February 8, 2011 (the last trading day prior to the day on which NYSE Euronext and Deutsche Börse publicly confirmed that they were engaged in advanced discussions regarding a potential combination (which date is referred to in this summary of Perella Weinberg's material financial analyses as the reference date)), which per share closing price was \$57.45 or \$78.55, assuming a U.S. dollar-to-euro exchange rate of 1.367, and compared the \$36.92 implied value per share of NYSE Euronext shares to the following:

the closing market price per share of NYSE Euronext shares on the reference date;

Table of Contents

the average closing market price per share of NYSE Euronext shares for each of the ten-day, one-month and three-month periods ended on the reference date; and

the closing market price per share of NYSE Euronext shares one month prior to the reference date.

The results of these calculations are summarized in the following table:

	Price of NYSE Euronext Share (for period ended on reference date) (in U.S. dollars)	Implied Premium (%)
Closing price on reference date	33.41	10.5
Ten-day average	32.71	12.8
One-month average	32.39	14.0
One-month prior	30.98	19.2
Three-month average	30.40	21.5

Relative Ownership Over Time

Perella Weinberg compared the approximate 40% ownership interest in Holdco that shareholders of NYSE Euronext will receive under the terms of the business combination agreement (which percentage assumes that all Deutsche Börse shares are tendered in the exchange offer) to the NYSE Euronext shareholders' implied ownership in Holdco over several periods. Perella Weinberg considered the market price per share of NYSE Euronext shares and Deutsche Börse shares on the reference date as well as the average closing market price per share of NYSE Euronext shares and Deutsche Börse shares for each of the last twelve-month, or LTM, two-year and three-year periods ended on the reference date. In preparing this comparison, Perella Weinberg calculated the implied ownership by dividing the individual market capitalizations of NYSE Euronext and Deutsche Börse by the combined market capitalization of the companies to determine the relative contribution of each to Holdco's market capitalization. Deutsche Börse's shares were converted to U.S. dollars on a daily basis using daily U.S.-dollar-to-euro exchange rates. The results of these calculations are summarized in the following table:

	Implied Ownership in Holdco (based on price of NYSE Euronext shares and Deutsche Börse shares) (%)	
	NYSE Euronext	Deutsche Börse
Closing price on reference date	38	62
LTM average	38	62
Two-year average	35	65
Three-year average	36	64

Exchange Ratio Over Time

Perella Weinberg also analyzed the exchange ratio of NYSE Euronext shares to Deutsche Börse shares on the reference date and for each of the ten-day, one-month, LTM and three-year periods ended on the reference date. In undertaking this analysis Perella Weinberg divided NYSE Euronext's daily share price by Deutsche Börse's share price in U.S. dollars for the corresponding day to calculate the implied exchange ratio for that day. Perella Weinberg compared the merger exchange ratio with the implied exchange ratio on the reference date and the average daily implied exchange ratios for each period ending on the reference date. To convert Deutsche Börse's share price into U.S. dollars, Perella Weinberg multiplied Deutsche Börse's share price on each day by the same day's U.S.-dollar-to-euro exchange rate. The results of these calculations are summarized in the following table:

Edgar Filing: NYSE Euronext - Form 425

	Exchange Ratio
Closing price on reference date	0.425
Ten-day average	0.422
One-month average	0.428
LTM average	0.430
Three-year average	0.391
Actual merger exchange ratio	0.470

A-95

Table of Contents*Historical Stock Trading*

Perella Weinberg reviewed the historical trading prices for NYSE Euronext shares for the ten-day, one-month, LTM and three-year periods ending on the reference date. Perella Weinberg also reviewed the historical trading prices for Deutsche Börse shares during the same periods, and examined the performance of NYSE Euronext and Deutsche Börse relative to the CBOE Exchange Index, the S&P 500 Index and the DAX Exchange.

Perella Weinberg noted that, over the ten days prior to the reference date, the closing market price for NYSE Euronext shares rose by 3% and the closing market price for Deutsche Börse shares rose by 1%, whereas the CBOE Exchange Index was up by 3%, the S&P 500 Index was up by 2% and the DAX Exchange was up by 3% for the same period. Perella Weinberg also noted that, for this period, the average price per share of NYSE Euronext shares was \$32.71 and the average price per share of Deutsche Börse was 56.65. Looking at the one-month period ended on the reference date, Perella Weinberg noted that the closing market price for NYSE Euronext shares rose by 8% and the closing market price for Deutsche Börse shares rose by 10%, whereas the CBOE Exchange Index was up by 4%, the S&P 500 Index was up by 4% and the DAX Exchange was up by 7% for the same period. Perella Weinberg also noted that, for this period, the average closing price per share of NYSE Euronext shares was \$32.39 and the average closing price per Deutsche Börse share was 56.10.

Perella Weinberg also noted that, over the LTM period prior to the reference date, the closing market price per share for NYSE Euronext shares rose by 41% and the closing market price per share for Deutsche Börse shares rose by 23%, whereas the CBOE Exchange Index was up by 26%, the S&P 500 Index was up by 24% and the DAX Exchange was up by 33% for the same period. Perella Weinberg also noted that, for this period, the average closing price per share of NYSE Euronext shares was \$29.42 and the average closing price per share of Deutsche Börse was 52.00. Perella Weinberg further noted that in the three-year period ending on the reference date, the closing market price per share for NYSE Euronext shares was down by 52% and the closing market price per share for Deutsche Börse shares was down by 51%, whereas the CBOE Exchange Index fell by 28%, the S&P 500 fell by 1% and the DAX Exchange fell by 9%. Perella Weinberg also noted that, for this period, the average closing price per share of NYSE Euronext shares was \$33.11 and the average closing price per Deutsche Börse share was 59.48.

Equity Research Analyst Price Target Statistics

Perella Weinberg reviewed and analyzed the most recent publicly available research analyst price targets for NYSE Euronext shares prepared and published by 16 selected equity research analysts prior to the reference date. Perella Weinberg noted that the range of recent equity analyst price targets for NYSE Euronext shares prior to the reference date was \$30.00 to \$46.00 per share, with a median price target of \$37.00 per share.

Perella Weinberg also reviewed and analyzed the most recent publicly available research analyst price targets for Deutsche Börse shares prepared and published by eight selected equity research analysts prior to the reference date. Perella Weinberg noted that the range of recent equity analyst price targets for Deutsche Börse shares prior to the reference date was 47.00 to 73.00 per share, with a median price target of 64.50 per share.

The public market trading price targets published by equity research analysts do not necessarily reflect current market trading prices for NYSE Euronext shares and Deutsche Börse shares. Further, these estimates are subject to uncertainties, including the future financial performance of NYSE Euronext and Deutsche Börse Group and future financial market conditions, and the public market trading price targets published by equity research analysts typically represent price targets to be achieved over a six-to twelve month period.

Selected Publicly Traded Companies Analysis

Perella Weinberg reviewed and compared certain financial information for NYSE Euronext and Deutsche Börse Group to corresponding financial information, ratios and public market multiples for certain publicly held companies in the exchange operator industry. Although none of the following companies is identical to NYSE

Table of Contents

Euronext or to Deutsche Börse, Perella Weinberg selected these companies because they had publicly traded equity securities and were deemed to be similar to NYSE Euronext and Deutsche Börse in one or more respects including being operators of exchanges.

The Nasdaq OMX Group

London Stock Exchange plc

IntercontinentalExchange Inc.

Chicago Board Options Exchange

Chicago Mercantile Exchange

TMX Group Inc.

Bolsas y Mercados Españoles

For each of the selected companies, Perella Weinberg calculated and compared financial information and various financial market multiples and ratios based on company filings for historical information and consensus forecasts prepared by the Institutional Brokers Estimate System for forecasted information. For NYSE Euronext and Deutsche Börse, Perella Weinberg made calculations based on company filings and information provided by the respective managements of each company for historical information and third-party research estimates from Institutional Brokers Estimate System for forecasted information.

With respect to NYSE Euronext, Deutsche Börse and each of the selected companies, Perella Weinberg reviewed enterprise value as of the reference date as a multiple of estimated earnings before interest, taxes, depreciation and amortization, or EBITDA, share price to estimated earnings per share, or EPS, for fiscal year 2010 and fiscal year 2011, long term EPS growth rates and estimated EBITDA margins for fiscal year 2011. The results of these analyses are summarized in the following table:

	2010E EV /EBITDA Multiple		2011E EV /EBITDA Multiple	
Range of selected exchange operators	6.9x	11.5x	7.2x	10.1x
NYSE Euronext		9.5x		8.0x
Deutsche Börse		10.4x		8.7x

	2010E Share Price / Earnings Multiple		2011E Share Price / Earnings Multiple	
Range of selected exchange operators	12.3x	24.7x	12.2x	18.9x
NYSE Euronext		16.4x		13.6x
Deutsche Börse		16.8x		12.7x

	Long-Term EPS Growth Rate (%)	2011E EBITDA Margin (%)
--	-------------------------------------	-------------------------------

Edgar Filing: NYSE Euronext - Form 425

Range of selected exchange operators	5	16*	49	71
NYSE Euronext		11		49
Deutsche Börse		11		59

* Excluding Bolsas y Mercados Españoles due to negative long-term EPS growth rate.

Although the selected companies were used for comparison purposes, no business of any selected company was either identical or directly comparable to either NYSE Euronext's or Deutsche Börse Group's business. Accordingly, Perella Weinberg's comparison of selected companies to NYSE Euronext and Deutsche Börse and analysis of the results of such comparisons was not purely mathematical, but instead necessarily involved complex considerations and judgments concerning differences in financial and operating characteristics and other factors that could affect the relative values of the selected companies, NYSE Euronext and Deutsche Börse.

A-97

Table of Contents*Discounted Cash Flow Analysis*

Perella Weinberg conducted discounted cash flow analyses for NYSE Euronext and Deutsche Börse to determine the implied pro forma ownership percentages of the equity of the combined company for the shareholders of NYSE Euronext and Deutsche Börse. With respect to NYSE Euronext, estimates of unlevered free cash flows used for this analysis utilized the financial forecasts of selected equity analysts' models as well as NYSE Euronext guidance. Perella Weinberg calculated the net present value as of March 31, 2011 of the estimated unlevered free cash flows that each entity could generate between fiscal years 2011 and 2015. Perella Weinberg also calculated a range of terminal values assuming terminal year multiples of LTM EBITDA ranging from 8.0x to 9.0x and discount rates ranging from 8.0% to 12.0% based on estimates of the weighted average cost of capital of NYSE Euronext. The discounted cash flow analysis did not consider estimated cost savings resulting from the combination. With respect to Deutsche Börse, estimates of unlevered free cash flows used for this analysis utilized financial forecasts prepared by Deutsche Börse based upon equity analyst models. Perella Weinberg also calculated a range of terminal values assuming terminal year multiples of LTM EBITDA ranging from 8.0x to 9.0x and discount rates ranging from 8.0% to 12.0% based on estimates of the weighted average cost of capital of Deutsche Börse.

Perella Weinberg analyzed the implied contribution at each of the low, mid and top of the range equity valuations implied by the discounted cash flow analyses for NYSE Euronext and Deutsche Börse. Under this analysis, NYSE Euronext's implied shareholder ownership in the combined company ranged from 39.5% to 39.8%. Deutsche Börse's implied shareholder ownership in the combined company ranged from 60.2% to 60.5%.

Selected Transactions Analysis

Perella Weinberg analyzed implied stock price premia from 17 selected precedent merger-of-equal transactions since 2000 with deal values greater than \$5 billion, 100% stock consideration and target pro forma ownership between 40% and 45%. The selected transactions analyzed were the following:

Transaction Announcement	Merger Party whose Shareholders Were to Receive a Minority of the Pro Forma Ownership	Merger Party whose Shareholders Were to Receive a Majority of the Pro Forma Ownership	Minority Merger Party	
			Median 1-day prior premium (%)	Median 1-month prior premium (%)
2/8/11	TMX Group Inc.	London Stock Exchange Group plc	6.0	14.8
5/3/10	Continental Airlines, Inc.	UAL Corporation	1.5	1.8
3/22/09	Petro-Canada Ltd.	Suncor Energy Inc.	33.4	32.7
8/26/06	Sanpaolo IMI SpA	Banca Intesa SpA	(2.0)	17.4
4/2/06	Lucent Technologies Inc.	Alcatel SA	(1.1)	7.4
2/27/06	Gaz de France	Suez	(2.9)	11.4
1/23/04	Union Planters Corporation	Regions Financial Corporation	(2.5)	(10.1)
1/14/04	Bank One Corporation	JP Morgan Chase & Co.	15.1	14.1
9/28/03	John Hancock Financial Services, Inc.	Manulife Financial Corporation	4.2	14.7
4/22/02	Lattice Group plc	National Grid Group plc	6.5	7.8
11/18/01	Conoco, Inc.	Phillips Petroleum Company	(0.3)	(8.4)
3/19/01	Billiton Plc	BHP Ltd.	21.7	16.8
10/15/00	Texaco Inc.	Chevron Corporation	17.7	24.3
3/7/00	Network Solutions, Inc.	VeriSign, Inc.	47.5	118.9
2/21/00	Norwich Union plc	CGU plc	(12.5)	(10.9)
1/17/00	SmithKline Beecham plc	Glaxo Wellcome plc	(2.3)	0.7
1/10/00	Time Warner, Inc.	America Online, Inc.	70.8	77.4

For these selected precedent transactions, the median premium based on stock price one-day prior was 4.2%. For the same selected transactions, the median premium based on stock price one-month prior was 14.1%.

Table of Contents

Although the selected transactions were used for comparison purposes, none of the selected transactions nor the companies involved in them was either identical or directly comparable to the combination of NYSE Euronext or Deutsche Börse.

Relative Contribution Analysis

Perella Weinberg reviewed the relative contribution of NYSE Euronext and Deutsche Börse to the historical and forecasted net revenue, EBITDA and net income of the combined company for the calendar years ending December 31, 2010 and December 31, 2011. Perella Weinberg also reviewed the relative contribution of NYSE Euronext and Deutsche Börse to the combined market capitalization. The calendar year 2011 forecasted net revenue, EBITDA and net income for NYSE Euronext and Deutsche Börse and the forecasted 2010 net revenue, EBITDA and net income of Deutsche Börse were based on third party equity analyst estimates based on U.S. GAAP in the case of NYSE Euronext and IFRS in the case of Deutsche Börse. Perella Weinberg used the February 8, 2011 U.S.-dollar-to-euro conversion rate of 1.367 in calculating the relative contribution analysis and adjusted Deutsche Börse's estimated earnings to exclude certain one-time items. The relative contribution analysis did not give effect to the impact of any synergies as a result of the proposed combination.

The adjusted relative contribution percentages resulting from net revenue, EBITDA, net income and market capitalization were used to determine the implied pro forma ownership percentages of the equity of the combined company for the shareholders of NYSE Euronext and Deutsche Börse. The relative contribution levels for net revenue and EBITDA were adjusted to reflect the market capitalization based contribution of NYSE Euronext and Deutsche Börse, respectively. The results of these analyses are summarized in the following table:

	Implied Shareholder Ownership (%)	
	NYSE Euronext	Deutsche Börse
Net Revenue		
2010*	44	56
2011E	44	56
EBITDA		
2010*	39	61
2011E	41	59
Net Income		
2010*	36	64
2011E	39	61
Market Capitalization	38	62

* NYSE Euronext net revenue, EBITDA and net income for 2010 is actual, and Deutsche Börse net revenue, EBITDA and net income for 2010 is estimated.

Table of Contents*Value Creation Analysis*

Perella Weinberg analyzed the pro forma impact of the combination on the individual market capitalization of NYSE Euronext based on an illustrative range of price to estimated earnings per share multiples for fiscal year 2011 of 12.0x – 14.0x and assuming run rate synergies of approximately \$400 million per annum (taxed at a 26% tax rate) and excluding implementation costs. The illustrative range of price to estimated earnings per share multiples for fiscal year 2011 was based, in part, on the weighted average of the Institutional Brokers Estimate System median estimates, which was 13.0x. In this analysis, Perella Weinberg calculated the implied market capitalization of the combined companies, taking into account the anticipated synergies. The following table illustrates the pro forma increase in the market capitalization of NYSE Euronext, based on its ownership percentage of Holdco and compared to their current individual market capitalization at three illustrative P/E multiples:

	% Increase vs. Current Market Capitalization		
Illustrative 2011E P/E	12.0x	13.0x	14.0x
NYSE Euronext	12%	22%	31%

Miscellaneous

The preparation of a fairness opinion is a complex process and is not necessarily susceptible to partial analysis or summary description. Selecting portions of the analyses or of the summary set forth herein, without considering the analyses or the summary as a whole, could create an incomplete view of the processes underlying Perella Weinberg's opinion. In arriving at its fairness determination, Perella Weinberg considered the results of all of its analyses and did not attribute any particular weight to any factor or analysis. Rather, Perella Weinberg made its determination as to fairness on the basis of its experience and professional judgment after considering the results of all of its analyses. No company or transaction used in the analyses described herein as a comparison is directly comparable to NYSE Euronext, Deutsche Börse or the combination.

Perella Weinberg prepared the analyses described herein for purposes of providing its opinion to the NYSE Euronext board of directors as to the fairness, from a financial point of view, as of the date of such opinion, of merger exchange ratio to the holders of NYSE Euronext shares (other than Deutsche Börse or any affiliate of Deutsche Börse) pursuant to the business combination agreement. These analyses do not purport to be appraisals or necessarily reflect the prices at which businesses or securities actually may be sold. Perella Weinberg's analyses were based in part upon third party research analyst estimates, which are not necessarily indicative of actual future results, which may be significantly more or less favorable than suggested by Perella Weinberg's analyses. Because these analyses are inherently subject to uncertainty, being based upon numerous factors or events beyond the control of the parties to the business combination agreement or their respective advisors, none of NYSE Euronext, Deutsche Börse, Perella Weinberg or any other person assumes responsibility if future results are materially different from those forecasted by third parties.

As described above, the opinion of Perella Weinberg to the NYSE Euronext board of directors was one of many factors taken into consideration by the NYSE Euronext board of directors in making its determination to approve the combination. Perella Weinberg was not asked to, and did not, recommend the specific exchange ratios provided for in the combination (including the merger exchange ratio), which consideration was determined through negotiations between NYSE Euronext and Deutsche Börse.

The NYSE Euronext board of directors selected Perella Weinberg based on Perella Weinberg's qualifications, expertise and reputation and its knowledge of the industries in which NYSE Euronext conducts its business. Perella Weinberg, as part of its investment banking business, is continually engaged in performing financial analyses with respect to businesses and their securities in connection with mergers and acquisitions, leveraged buyouts and other transactions as well as for corporate and other purposes.

Table of Contents

Pursuant to the terms of the engagement letter between Perella Weinberg and NYSE Euronext, NYSE Euronext agreed to pay to Perella Weinberg \$5 million upon the public announcement of the execution of a binding agreement for the combination plus an additional \$22.5 million upon the completion of the combination. In addition, NYSE Euronext agreed to reimburse Perella Weinberg for its reasonable expenses, including attorneys' fees and disbursements and to indemnify Perella Weinberg and related persons against various liabilities, including certain liabilities under the federal securities laws.

In the ordinary course of its business activities, Perella Weinberg or its affiliates may at any time hold long or short positions, and may trade or otherwise effect transactions, for their own account or the accounts of customers or clients, in debt or equity or other securities (or related derivative securities) or financial instruments (including bank loans or other obligations) of NYSE Euronext or Deutsche Börse or any of their respective affiliates. During the two year period prior to the date of Perella Weinberg's opinion, no material relationship existed between Perella Weinberg and its affiliates and NYSE Euronext or Deutsche Börse or any of their respective affiliates pursuant to which compensation was received by Perella Weinberg or its affiliates; however, Perella Weinberg and its affiliates may in the future provide investment banking and other financial services to NYSE Euronext, Deutsche Börse or Holdco and their respective affiliates for which Perella Weinberg and its affiliates would expect to receive compensation.

Opinions of the Financial Advisors to Deutsche Börse

Opinion of Deutsche Bank, Financial Advisor to Deutsche Börse

Deutsche Börse has retained Deutsche Bank AG, DBSI and their affiliates (which are collectively referred to in this document as "Deutsche Bank") as its financial advisor to advise the Deutsche Börse management and supervisory boards in connection with the business combination agreement.

On February 15, 2011, at a meeting of the Deutsche Börse supervisory board held to evaluate the proposed business combination agreement, at which all members of the management board were present, DBSI delivered to the Deutsche Börse management board and supervisory board its oral opinion, which opinion was confirmed by delivery of a written opinion dated February 15, 2011, to the effect that, as of that date and based on and subject to various assumptions made, procedures followed, matters considered and limitations described in the opinion, the exchange ratio of one Holdco share for each Deutsche Börse share tendered by Deutsche Börse shareholders pursuant to the exchange offer contemplated by the business combination agreement was fair, from a financial point of view, to the holders of Deutsche Börse shares.

The DBSI opinion, the full text of which describes the assumptions made, procedures followed, matters considered and limitations on the review undertaken, is included in this document as Annex F. The summary of the DBSI opinion described below is qualified in its entirety by reference to the full text of the opinion.

Opinion of DBSI

Pursuant to an engagement letter dated November 3, 2005, as amended February 10, 2011 and as amended and restated February 11, 2011, Deutsche Bank acted as Deutsche Börse's financial advisor in connection with the business combination agreement. At the meeting on February 15, 2011 of the Deutsche Börse supervisory board, at which all members of the management board were present, DBSI rendered its oral opinion, and subsequently confirmed in writing, that, as of that date and based on and subject to various assumptions made, procedures followed, matters considered and limitations described in the opinion, the Deutsche Börse exchange ratio pursuant to the business combination agreement was fair, from a financial point of view, to the holders of Deutsche Börse shares.

The full text of the written opinion of DBSI, dated February 15, 2011, which sets forth the assumptions made, procedures followed, matters considered and limitations on the review undertaken by DBSI in rendering its opinion, is included as Annex F to this document. Holders of Deutsche Börse shares are encouraged to read the opinion carefully in its entirety. The DBSI opinion does not express an opinion

Table of Contents

or recommendation as to whether any holder of Deutsche Börse shares should tender any Deutsche Börse shares in connection with the exchange offer. The DBSI opinion also does not address the fairness of the combination, or any consideration received in connection therewith, to the holders of any class of securities, creditors or other constituencies of Deutsche Börse or NYSE Euronext (other than the fairness, from a financial point of view, of the Deutsche Börse exchange ratio to the holders of Deutsche Börse shares), nor does it address the fairness of the contemplated benefits of the combination. DBSI's opinion and its financial analyses set forth in this document were prepared for use by the Deutsche Börse management board and the Deutsche Börse supervisory board. They were not prepared for the use of any holders of NYSE Euronext shares and do not constitute a recommendation as to how any holder of NYSE Euronext shares should vote with respect to the merger, the other aspects of the combination or any other matter. The summary of the DBSI opinion set forth in this exchange offer is qualified in its entirety by reference to the full text of the opinion included as Annex F. DBSI's business address is 60 Wall Street, New York, NY 10005, United States of America. DBSI has given its consent to the use of its opinion letter dated February 15, 2011 to the supervisory board and management board of Deutsche Börse, in the form and content as included in this document.

In connection with its role as Deutsche Börse's financial advisor, and in arriving at its opinion, DBSI, among other things:

reviewed certain publicly available financial and other information concerning Deutsche Börse Group and NYSE Euronext;

reviewed projections based on certain publicly available research analysts' financial forecasts endorsed by the respective managements of Deutsche Börse and NYSE Euronext and extrapolations calculated by Deutsche Börse's and NYSE Euronext's financial advisors from such forecasts as directed and endorsed by the respective managements of Deutsche Börse and NYSE Euronext (which are referred to in this summary of DBSI's opinion as "broker projections");

reviewed certain internal analyses and other information relating to Deutsche Börse Group and NYSE Euronext prepared by management of Deutsche Börse and NYSE Euronext, respectively;

held discussions with certain senior officers and other representatives and advisors of Deutsche Börse and NYSE Euronext regarding the businesses and prospects of Deutsche Börse Group and NYSE Euronext, respectively, and of Holdco, Deutsche Börse Group and NYSE Euronext after giving effect to the combination, including certain cost savings, revenue effects, operating synergies, financial synergies and other strategic benefits jointly projected by the managements of Deutsche Börse and NYSE Euronext to result from the combination;

reviewed the reported prices and trading activity for the Deutsche Börse shares and the NYSE Euronext shares;

to the extent publicly available, compared certain financial and stock market information for Deutsche Börse and NYSE Euronext with similar information for certain other companies DBSI considered relevant whose securities are publicly traded;

to the extent publicly available, reviewed the terms and governance arrangements of certain recent business combinations which DBSI deemed relevant;

reviewed a draft dated February 13, 2011 of the business combination agreement; and

performed such other studies and analyses and considered such other factors as DBSI deemed appropriate.

In preparing its opinion, DBSI did not review any financial forecasts or projections prepared by management of Deutsche Börse or NYSE Euronext and, with Deutsche Börse's permission, relied on the broker projections.

Table of Contents

DBSI did not assume responsibility for independent verification of, and did not independently verify, any information, whether publicly available or furnished to it, concerning Holdco, Deutsche Börse Group or NYSE Euronext, including, without limitation, any financial information considered in connection with the rendering of its opinion. Accordingly, for purposes of its opinion, DBSI, with Deutsche Börse's permission, assumed and relied upon the accuracy and completeness of all such information. DBSI did not conduct a physical inspection of any of the properties or assets, and did not prepare or obtain any independent evaluation or appraisal of any of the assets or liabilities (including any contingent, derivative or off-balance-sheet assets and liabilities), of Holdco, Deutsche Börse Group, NYSE Euronext or any of their respective subsidiaries, nor did DBSI evaluate the solvency or fair value of Holdco, Deutsche Börse or NYSE Euronext under any applicable law relating to bankruptcy, insolvency or similar matters. With respect to the broker projections, and the analyses and forecasts of the amount and timing of the synergies as well as potential incremental expenses arising out of the combination, and the pro forma combined Holdco financial and operating information, in each case made available to DBSI or used in its analyses, DBSI assumed with Deutsche Börse's permission that they had been reasonably prepared and reflect the best currently available estimates and judgments of the management of Deutsche Börse and NYSE Euronext as to the matters covered thereby and with respect to the broker projections and other information relating to NYSE Euronext, DBSI relied on such broker projections and other information at the direction of Deutsche Börse. In rendering its opinion, DBSI expressed no view as to the reasonableness of such forecasts and projections, including, without limitation, the synergies, or the assumptions on which they were based.

For purposes of rendering its opinion, DBSI assumed with Deutsche Börse's permission that, in all respects material to its analysis, the representations and warranties of Holdco, Deutsche Börse and NYSE Euronext contained in the business combination agreement were true and correct. Additionally, DBSI assumed, with Deutsche Börse's permission that, in all respects material to its analysis, the combination will be consummated in accordance with the terms of the business combination agreement, without any material waiver, modification or amendment of any term, condition or agreement and that Holdco, Deutsche Börse, NYSE Euronext and Pomme Merger Corporation will each perform all of the covenants and agreements to be performed by it under the business combination agreement and that the announcement and consummation of the combination will not result in the loss by either Deutsche Börse or NYSE Euronext of any of their material relationships with their respective clients, customers or suppliers. In addition, DBSI assumed that all of the Deutsche Börse shares will be acquired by Holdco pursuant to the exchange offer or otherwise on a timely basis at the Deutsche Börse exchange ratio without any adverse costs or other adverse impact on Holdco or the Holdco shares, including any adverse impact on the timing or amount of the synergies to be realized by Holdco, Deutsche Börse or NYSE Euronext as a result of the combination. DBSI also assumed that all material governmental, regulatory or other approvals and consents required in connection with the completion of the combination will be obtained and that in connection with obtaining any necessary governmental, regulatory, contractual or other approvals and consents, no material restrictions will be imposed. In addition, Deutsche Börse informed DBSI, and accordingly for purposes of rendering its opinion, DBSI assumed, that the combination will be tax free to Holdco, Deutsche Börse, NYSE Euronext, the holders of Deutsche Börse shares and the holders of NYSE Euronext shares. DBSI is not a legal, regulatory, tax or accounting expert and relied on the assessments made by Deutsche Börse and its advisors with respect to such issues. Representatives of Deutsche Börse informed DBSI, and DBSI further assumed, that the final terms of the business combination agreement would not differ materially from the terms set forth in the draft business combination agreement dated February 13, 2011 which was reviewed by DBSI.

The DBSI opinion was approved and authorized for issuance by a fairness opinion review committee, was addressed to, and for the use and benefit of, the Deutsche Börse management and supervisory boards and is not a recommendation to the holders of the Deutsche Börse shares to tender any Deutsche Börse shares in connection with the exchange offer. The opinion was limited to the fairness, from a financial point of view, of the Deutsche Börse exchange ratio to the holders of the Deutsche Börse shares, was subject to the assumptions, limitations, qualifications and other conditions contained therein and was necessarily based on the economic, market and other conditions, and information made available to DBSI, as of the date of DBSI's written opinion. Deutsche Börse did not ask DBSI to, and its opinion did not, address the fairness of the combination, or any consideration

Table of Contents

received in connection therewith, to the holders of any class of securities, creditors or other constituencies of Deutsche Börse or NYSE Euronext (other than the fairness, from a financial point of view, of the Deutsche Börse exchange ratio to the holders of Deutsche Börse shares), nor did it address the fairness of the contemplated benefits of the combination. DBSI disclaimed any undertaking or obligation to advise any person of any change in any fact or matter affecting its opinion of which DBSI became aware after the date of DBSI's written opinion. DBSI expressed no opinion as to the merits of the underlying decision by Deutsche Börse to engage in the combination. DBSI did not express any view or opinion as to the fairness, financial or otherwise, of the amount or nature of any compensation payable to or to be received by any of the officers, directors, or employees of any parties to the combination, or any class of such persons, relative to the Deutsche Börse exchange ratio. DBSI's opinion did not in any manner address the prices at which Holdco shares or other Holdco securities or the Deutsche Börse shares or other Deutsche Börse securities will trade following the announcement or completion of the combination.

During the two years preceding the date of DBSI's written opinion, Deutsche Bank, from time to time, provided investment banking, commercial banking (including extension of credit) and other financial services to Deutsche Börse and NYSE Euronext and their respective affiliates for which it received compensation, including (1) Deutsche Bank served as the financial advisor to Deutsche Börse in connection with its agreement with SIX Group to increase its holding in STOXX Ltd to a controlling stake, (2) Deutsche Bank served as a lead arranger and bookrunner in connection with the extension of the \$1.0 billion credit facility of Deutsche Börse and Clearstream Banking S.A., an affiliate of Deutsche Börse, and (3) Deutsche Bank served as a participant in connection with the \$3.0 billion credit facility of Clearstream Banking S.A. Deutsche Bank may also provide investment and commercial banking services to Holdco, Deutsche Börse and NYSE Euronext in the future, for which Deutsche Bank would expect to receive compensation. In the ordinary course of business, members of Deutsche Bank may actively trade in the securities and other instruments and obligations of Holdco, Deutsche Börse and NYSE Euronext for their own accounts and for the accounts of their customers. Accordingly, Deutsche Bank may at any time hold a long or short position in such securities, instruments and obligations.

The Deutsche Börse management and supervisory boards engaged Deutsche Bank as a financial advisor because it is an internationally recognized investment banking firm that has substantial experience in transactions similar to the combination. Pursuant to its engagement letter with Deutsche Börse, Deutsche Bank will be paid a fee for its services as financial advisor to Deutsche Börse in connection with the combination in the amount of approximately 14 million contingent upon completion of the combination. In the event that the combination is not completed, Deutsche Bank will be paid a retainer of 200,000 per month for services rendered since January 2011 for a maximum of 12 months. Deutsche Börse also agreed to reimburse Deutsche Bank for its expenses, and to indemnify Deutsche Bank and its affiliates against certain liabilities, in connection with its engagement.

Summary of Material Financial Analyses

The following is a summary of the material financial analyses contained in the presentation that was made by DBSI at the meeting of the Deutsche Börse supervisory board on February 15, 2011, at which all members of the management board were present, and that were used by DBSI in connection with rendering its opinion described above. The following summary, however, does not purport to be a complete description of the financial analyses performed by DBSI, nor does the order of analyses described represent relative importance or weight given to those analyses by DBSI. Some of the summaries of the financial analyses include information presented in tabular format. The tables must be read together with the full text of each summary and are alone not a complete description of DBSI's financial analyses. Except as otherwise noted, the following quantitative information, to the extent that it is based on market data, is based on market data as it existed on or before February 8, 2011 (the last trading day prior to the day on which Deutsche Börse and NYSE Euronext publicly confirmed that they were engaged in advanced discussions regarding a potential business combination (which date is referred to in this summary of DBSI's material financial analyses as the reference date)), and is not necessarily indicative of current market conditions.

Table of Contents*Analysis of Premia.*

Based on an exchange ratio of 0.4700 Holdco shares to be issued in exchange for one NYSE Euronext share (which is referred to in this document as the NYSE Euronext exchange ratio), Deutsche Bank calculated the premium to be paid in the combination compared to (1) the ratios implied by dividing the closing price per share of NYSE Euronext by the closing price per share of Deutsche Börse (converted from euros to U.S. dollars at the prevailing exchange rate on each respective date) on each of February 11, 2011 (the last trading day before the analysis was finalized in the form presented to the Deutsche Börse management and supervisory boards) and the reference date, (2) the ratios obtained by averaging the ratios implied by dividing the closing price per share of NYSE Euronext by the closing price per share of Deutsche Börse (converted from euros to U.S. dollars at the prevailing exchange rate on each respective date) for each trading day during the one-month period and three-month periods ending as of the reference date and (3) the highest of the ratios obtained by dividing the closing price per share of NYSE Euronext by the closing price per share of Deutsche Börse (converted from euros to U.S. dollars at the prevailing exchange rate on each respective date) for each trading day during the 52 weeks prior to the reference date.

This analysis indicated the following:

Date / Period	Premium (Discount) Implied by NYSE Euronext Exchange Ratio (%)
February 11, 2011	2
Reference date	11
1-month average prior to the reference date	10
3-month average prior to the reference date	8
52-week high prior to the reference date	(1)

Historical Share Price Analysis. DBSI reviewed and analyzed the recent share price performance of NYSE Euronext s shares (denominated in both U.S. dollars and euros converted at the daily euro-to-U.S. dollar exchange rates over the periods analyzed (which is referred to in this summary of the DBSI opinion as rolling FX)), as well as the recent share price performance of Deutsche Börse s shares. The following table sets forth the historical share price performance of Deutsche Börse and NYSE Euronext:

	Deutsche Börse	NYSE Euronext	NYSE Euronext
Reference date:	57.45	\$ 33.41	24.42
1-month	8%	8%	2%
3-month	14%	10%	12%
6-month	6%	8%	5%
1-year	25%	48%	49%
2-year	40%	54%	47%
3-year	(50%)	(52%)	(49%)
February 11, 2011:	61.62	\$ 38.31	28.27
Performance from the reference date to February 11, 2011:	7%	15%	16%

Table of Contents

DBSI then reviewed and analyzed the average multiples of the price per share to next twelve months estimated earnings per share (which is referred to in this summary of the DBSI opinion as NTM P/E) over historical time periods. DBSI's analysis revealed the following:

Period ending on the Reference Date	Average NTM P/E	
	Deutsche Börse	NYSE Euronext
1-month	13.3x	14.4x
3-month	12.4x	13.4x
6-month	12.3x	13.2x
1-year	12.8x	12.8x
2-year	12.7x	12.5x
3-year	12.8x	13.0x

DBSI also calculated and reviewed the historical exchange ratios implied by dividing the daily closing prices of NYSE Euronext shares by the corresponding prices of Deutsche Börse shares over certain periods prior to the reference date, using both a fixed euro to U.S. dollar exchange rate of 0.73, as of the reference date, and rolling FX. The results of this analysis are as follows:

Date / Period Ending on the Reference Date	Fixed Euro/U.S. Dollar of	Rolling FX
	0.73	
Reference date	0.4251	0.4251
1-month	0.4223	0.4280
3-month	0.4265	0.4363
6-month	0.4271	0.4373
1-year	0.4139	0.4297
2-year	0.3828	0.3851
3-year	0.4004	0.3920

Trading Range Analysis. DBSI reviewed the 52-week range of Deutsche Börse's shares and NYSE Euronext's shares measured as of the reference date. DBSI found that the price per share of Deutsche Börse's shares over that period ranged from 46 to 59. DBSI found that the price per share of NYSE Euronext's shares over that period ranged from \$24 and \$34 (or 17 and 25, based on a euro to U.S. dollar exchange rate of 0.73 as of the reference date). Based on the foregoing and the Deutsche Börse exchange ratio, DBSI calculated an implied exchange ratio range of 0.2953 to 0.5431 shares of Holdco to be issued in exchange for one NYSE Euronext share. DBSI noted that the NYSE Euronext exchange ratio of 0.4700 fell within that range.

Selected Publicly Traded Companies Analysis. DBSI reviewed and compared the price per share divided by estimated EPS for calendar year 2011 (which is referred to in this summary of the DBSI opinion as 2011E P/E) and the total enterprise value divided by estimated earnings before interest, taxes, depreciation and amortization expenses (which is referred to in this summary of the DBSI opinion as EBITDA) for calendar year 2011 (which is referred to in this summary of the DBSI opinion as 2011E TEV/EBITDA) multiples for Deutsche Börse and NYSE Euronext as of the reference date to the corresponding multiples for the following publicly traded companies that operate cash, derivatives or emerging markets exchanges:
