Recent Developments

On May 31, 2012, we acquired GlobeOp Financial Services S.A., a Luxembourg société anonyme, or GlobeOp, for £4.85 per share (approximately £572 million in the aggregate). On July 9, 2012, we completed a squeeze-out procedure under Luxembourg law, after the completion of which we became the owner of 100% of the issued share capital of GlobeOp.

About GlobeOp. GlobeOp is a financial administrator specializing in middle and back office services and integrated risk reporting to hedge funds, managed accounts and fund of funds. GlobeOp also provides expertise to asset management firms and other sectors, including family wealth offices, insurance companies, pension plans, corporate treasuries and private/regional banks. GlobeOp offers a wide spectrum of specialized, integrated web-based financial products to the financial services industry through three categories of services: Middle and Back Office/Fund Administration (MBA); Transaction Solutions; and Risk Analysis and Reporting.

Middle and Back Office/Fund Administration (MBA). MBA services interact with those primarily provided by prime brokers to facilitate trade processing and related trade data acquisition and processing for clients. MBA supports many post-trade activities, from trade entry through accounting, on a highly automated basis. Due to its scale, technology and expertise, GlobeOp is able to provide faster, more reliable and less expensive MBA services than hedge fund managers could achieve on their own. In 2011, approximately 92% of GlobeOp's revenues were generated from its MBA services.

Transaction Solutions. Transaction Solutions, such as GlobeOp's GoOT[™] and Independent Valuation Services products, drive business opportunities that target an emerging client base of traditional asset managers, long/short equity funds, mutual funds, regional and custodial banking institutions, pension funds, endowments and insurance companies.

Risk Analysis and Reporting. Risk Analysis and Reporting Services, designed for both fund managers and investors, are based on leading-edge analytics and delivered via a full Application Service Provider platform. For MBA clients, the service is fully integrated with the GlobeOp platform to ensure position data integrity; services are also available on a stand-alone basis. Extensive metrics, analytics and report customization are possible.

GlobeOp was incorporated on January 22, 2000. Prior to our acquisition of GlobeOp, GlobeOp was serving approximately 200 clients from its 11 offices in 5 countries with over 2,300 employees. Its assets under administration were approximately \$187 billion as of March 31, 2012. We plan to grant options to purchase an aggregate of approximately 1.0 to 1.5 million shares of our common stock to our current employees who were employed by GlobeOp prior to our acquisition of GlobeOp.

About SS&C Holdings

As a result of our GlobeOp acquisition, we are one of the market's leading fund service providers with the ability to provide complete lifecycle capabilities for hedge funds, fund of funds, private equity and managed account managers. We provide a comprehensive array of product offerings and complementary services under a single platform. As a result of our GlobeOp acquisition, we:

are one of the largest hedge fund administrators in the world based on assets under administration;

have a substantial base across a number of fund strategies, including fixed income, volatility and active trading;

provide multiple offerings, including derivatives processing, valuations agent, securitized bank loans processing, managed services and business process outsourcing, on a stand-alone basis to institutional clients;

have strong cloud-based computing, mobility and sophisticated portal capabilities, backed by a combined development organization of approximately 500 individuals and 3,000 fund services personnel.

After giving effect to the GlobeOp acquisition and our May 10, 2012 acquisition of the PORTIA business from Thomson Reuters, as of June 30, 2012, we had more than 3,800 employees operating in 43 offices including New York, Boston, Chicago, London, Amsterdam, Hong Kong, Kuala Lumpur, Singapore, Sydney, Bangalore and Mumbai. Subject to the terms and conditions stated in the underwriting agreement dated the date of this prospectus supplement, the underwriter named below has agreed to purchase and the selling stockholder has agreed to sell to that underwriter, the number of shares set forth opposite the underwriter's name.

Underwriter	Number of Shares
Citigroup Global Markets Inc.	7,000,000
Total	7,000,000

The underwriting agreement provides that the obligations of the underwriter to purchase the shares included in this offering are subject to approval of legal matters by counsel and to other conditions. The underwriter is obligated to purchase all the shares if it purchases any of the shares.

We and the selling stockholder have agreed that, without the prior written consent of the underwriter, we and it will not, during the period ending 60 days after the date of this prospectus supplement:

offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, lend or otherwise transfer or dispose of, directly or indirectly, any shares of our common stock or any securities convertible into or exercisable or exchangeable for common stock; or

enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of our common stock,

whether any transaction described above is to be settled by delivery of our common stock or such other securities, in cash or otherwise. In addition, we and each such person agrees that, without the prior written consent of the underwriter, it will not, during the period ending 60 days after the date of this prospectus supplement, make any demand for, or exercise any right with respect to, the registration of any shares of common stock or any security convertible into or exercisable or exchangeable for common stock, other than with respect to this offering.

The restrictions described in the immediately preceding paragraph do not apply to:

the sale of shares to the underwriter;

transactions by any person other than us relating to shares of common stock or other securities acquired in open market transactions after the completion of the offering of the shares;

transfers of shares of common stock or any security convertible into our common stock as a bona fide gift;

The shares may be offered by the underwriter from time to time to purchasers directly or through agents, or through brokers in brokerage transaction on the Nasdaq Global Select Market, or to dealers in negotiated transactions or in a combination of such methods of sale, at a fixed price or prices, which may be changed, or at market prices prevailing at the time of sale, at prices related to such prevailing market prices or at negotiated prices. The difference between the price, at which the underwriter purchases shares from the selling stockholder and the price at which the underwriter resells such shares may be deemed underwriting compensation.

We will pay all of the expenses of the offering, excluding any underwriting discounts and commissions of the selling stockholder. We estimate that our total expenses with respect to the offering, excluding underwriting discounts and commissions, will be approximately \$531,451.

Purchases to cover short positions and stabilizing purchases, as well as other purchases by the underwriter for their own accounts, may have the effect of preventing or retarding a decline in the market price of the shares. The underwriter may conduct these transactions on the Nasdaq Global Market, in the over-the-counter market or otherwise. If the underwriter commences any of these transactions, it may discontinue them at any time.

The underwriter has advised us that, pursuant to Regulation M of the Securities Act of 1933, it may also engage in other activities that stabilize, maintain or otherwise affect the price of the common stock, including the imposition of penalty bids.

These activities may have the effect of raising or maintaining the market price of the common stock or preventing or retarding a decline in the market price of the common stock, and, as a result, the price of the common stock may be higher than the price that otherwise might exist in the open market. If the underwriter commences these activities, it may discontinue them at any time. The underwriter may carry out these transactions on The NASDAQ Global Select Market, in the over-the-counter market or otherwise under the symbol SSNC.

Other than in the United States, no action has been taken by us or the underwriter that would permit a public offering of the securities offered by this prospectus supplement in any jurisdiction where action for that purpose is required. The securities offered by this prospectus supplement may not be offered or sold, directly or indirectly, nor may this prospectus supplement or any other offering material or advertisements in connection with the offer and sale of any such securities be distributed or published in any jurisdiction, except under circumstances that will result in compliance with the applicable rules and regulations of that jurisdiction. Persons into whose possession this prospectus supplement comes are advised to inform themselves about and to observe any restrictions relating to the offering and the distribution of this prospectus supplement. This prospectus supplement does not constitute an offer to sell or a solicitation of an offer to buy any securities offered by this prospectus supplement in any jurisdiction in which such an offer or a solicitation is unlawful.

Recent Developments

On May 31, 2012, we acquired GlobeOp Financial Services S.A., a Luxembourg société anonyme, or GlobeOp, for £4.85 per share (approximately £572 million in the aggregate). On July 9, 2012, we completed a squeeze-out procedure under Luxembourg law, after the completion of which we became the owner of 100% of the issued share capital of GlobeOp.

About GlobeOp

GlobeOp is a financial administrator specializing in middle and back office services and integrated risk reporting to hedge funds, managed accounts and fund of funds. GlobeOp also provides expertise to asset management firms and other sectors, including family wealth offices, insurance companies, pension plans, corporate treasuries and private/regional banks. GlobeOp offers a wide spectrum of specialized, integrated web-based financial products to the financial services industry through three categories of services: Middle and Back Office/Fund Administration (MBA); Transaction Solutions; and Risk Analysis and Reporting.

Middle and Back Office/Fund Administration (MBA). MBA services interact with those primarily provided by prime brokers to facilitate trade processing and related trade data acquisition and processing for clients. MBA supports many post-trade activities, from trade entry through accounting, on a highly automated basis. Due to its scale, technology and expertise, GlobeOp is able to provide faster, more reliable and less expensive MBA services than hedge fund managers could achieve on their own. In 2011, approximately 92% of GlobeOp's revenues were generated from its MBA services.

Risk Analysis and Reporting Services, designed for both fund managers and investors, are based on leading-edge analytics and delivered via a full Application Service Provider platform. Its assets under administration were approximately \$187 billion as of March 31, 2012. We plan to grant options to purchase an aggregate of approximately 1.0 to 1.5 million shares of our common stock to our current employees who were employed by GlobeOp prior to our acquisition of GlobeOp.

RISK FACTORS

Investing in our common stock involves a high degree of risk. You should carefully consider the following factors, in addition to the other risk factors set forth under the caption "Risk Factors" in the applicable prospectus supplement and under the caption "Risk Factors" in any of our filings with the SEC pursuant to Sections 13(a), 13(c), 14 or 15(d) of the Securities Exchange Act of 1934, as amended (the "Exchange Act") incorporated by reference herein, before making an investment decision. For more information, see "Where You Can Find More Information."

Risks Relating to GlobeOp

As a result of our acquisition of GlobeOp, our business is more focused on the hedge fund industry, and we are subject to a greater extent to the variations and fluctuations of that industry.

With the acquisition of GlobeOp, a higher percentage of our clients are hedge funds or funds of hedge funds. These clients and our business relating to them are affected by trends, developments and risks associated with the international hedge fund industry overall. The market environment for hedge funds has suffered significant turmoil in recent years, including substantial changes in global economies, stock market declines, credit crises, failures of financial institutions, government bail-out plans and new regulatory initiatives. These changes could significantly and adversely affect some or all of our clients, which could negatively affect our results and financial condition. In addition, market forces have negatively impacted liquidity for many of the financial instruments in which hedge fund clients trade which, in turn, could negatively impact our ability to access independent pricing sources for valuing those instruments.

Our business is subject to evolving and continuing regulation.

Our business is, and following the GlobeOp acquisition continues to be, subject to evolving and increasing regulation, and our relationships with our clients may subject us to increasing scrutiny from a number of regulators, including the Commodity Futures Trading Commission (CFTC), Federal Trade Commission (FTC), Cayman Islands Monetary Authority (CIMA), Commission de Surveillance du Secteur Financier (CSSF), Financial Industry Regulatory Authority (FINRA), Financial Services Authority (FSA), National Futures Association (NFA), the SEC and other agencies that regulate the financial services, hedge fund and hedge fund services industry in the United States, the United Kingdom and other jurisdictions in which we operate. These regulations may have the effect of limiting or curtailing our activities, including activities that might be profitable. As a result of the changes in the global economy and the turmoil in global financial markets in recent years, the risk of additional government regulation has increased.

The European Union's Alternative Investment Fund Managers Directive (AIFMD) and the United States' Dodd-Frank Wall Street Reform and Consumer Protection Act, among other initiatives, pose significant changes to the regulatory environment. The ramifications of these regulatory changes remain uncertain. If we fail to comply with any applicable laws, rules or regulations, we may be subject to censure, fines or other

Table of Contents

sanctions, including revocation of our licenses and/or registrations with various regulatory agencies, criminal penalties and civil lawsuits. Such a failure to comply with these laws, rules or regulations, or allegations of such noncompliance, could have a material adverse effect on our business, financial condition and results of operations and could cause the market price of our common stock to decline.

Risks Relating to the Integration of GlobeOp

Our acquisition of GlobeOp involves a number of integration risks. The occurrence of any of the events described in these risks could cause a material adverse effect on our business, financial position and results of operations and could cause the market price of our common stock to decline.

Successful integration of GlobeOp is critical to our business and strategic plans. Integration may not be smooth or successful. If we are unable to successfully integrate GlobeOp into our business in an efficient and effective manner, or at all, we could fail to realize some or all of the anticipated benefits of the GlobeOp acquisition, such as increased revenue, cost savings, synergies and growth opportunities, within the anticipated time frame or at all. The integration process could disrupt our business, and a failure to successfully integrate the two businesses could have a material adverse effect on our business, financial condition and results of operations. In addition, the integration of two formerly unaffiliated companies could result in unanticipated problems, expenses, liabilities, competitive responses and diversion of management's attention and may cause the market price of our common stock to decline. The potential difficulties of integrating GlobeOp include, among others:

the inability to successfully integrate the operations, technologies, products, personnel and business systems of GlobeOp;

unanticipated issues in integrating information, communications and other systems;

maintaining employee morale and retaining key employees;

retaining customers of GlobeOp;

preserving important strategic and other relationships;

integrating legal and financial controls in multiple jurisdictions;

the diversion of management's attention from ongoing business concerns;

integrating geographically separate organizations;

tax issues, such as tax law changes and variations in foreign tax laws as compared to the United States; and

complying with laws, rules and regulations in multiple jurisdictions, including new and multiple employment regulations. Additional risks of this nature could have a material adverse effect on our business, financial condition and results of operations.

Table of Contents

The GlobeOp acquisition has resulted in organizational change and rapid growth to our business. If we fail to effectively manage such growth and change in a manner that preserves our reputation and the key aspects of our corporate culture, our business, financial condition and results of operations could be harmed.

As of December 31, 2011, we had 1,484 employees, and the GlobeOp acquisition added approximately 2,400 employees to our headcount. We will incur significant expenditures and the allocation of management time to assimilate new employees in a manner that preserves the key aspects of our corporate culture and enables us to maintain our reputation in the marketplace. If we do not effectively manage our growth and train, retain and manage our employee base, our corporate culture could be undermined, the quality of our products and customer service could suffer, and our reputation could be harmed, each of which could adversely impact our business, financial condition and results of operations.

In addition, our costs will increase as a result of our increased headcount. Our business will be harmed if the expansion of our organization and headcount resulting from the GlobeOp acquisition are not accompanied by a corresponding increase in revenues.

The GlobeOp Acquisition may result in risks to our existing business.

The GlobeOp acquisition may also result in risks to our existing business, including:

deterioration of our internal control over financial reporting as a result of inconsistencies between our standards, procedures and policies and those of GlobeOp;

reliance on GlobeOp's processes, data, supply chain management and reporting during the transition period following the completion of the acquisition;

incurrence of additional debt and/or a decline in available cash;

liability for litigation claims, including litigation to which GlobeOp was a party at the time of the acquisition; and

creation of goodwill or other intangible assets that could result in significant future amortization expense or impairment charges. Additional risks of this nature could have a material adverse effect on our business, financial condition and results of operations.

Table of Contents

Risks Relating to Foreign Operations

Our international operations will expand substantially as a result of the GlobeOp acquisition and may result in increased costs, delayed sales efforts and uncertainty with respect to our intellectual property rights and results of operations.

For the year ended December 31, 2011, international revenues accounted for 30% of our total revenues. We expect the percentage of our sales generated outside of the United States will increase in 2012 due to the acquisition of GlobeOp. Our international business is subject to a variety of risks, including:

changes in a specific country's or region's political or economic climate;

the need to comply with U.S. export controls;

foreign currency fluctuations;

discriminatory fiscal policies;

compliance with a variety of local regulations and laws;

changes in tax laws and the interpretation of such laws; and

difficulties in enforcement of third-party contractual obligations and intellectual property rights.

Such factors could result in increased costs or decreased revenues and have a material adverse effect on our ability to meet our growth and revenue projections and negatively affect our results of operations.

As a result of the GlobeOp acquisition we will be more exposed to currency exchange rate fluctuations because we will have an increased proportion of assets, liabilities and expenses denominated in foreign currencies.

As a result of the GlobeOp acquisition, our financial results will be more exposed to currency exchange rate fluctuations and an increased proportion of assets, liabilities and expenses will be denominated in non-U.S. dollar currencies. We will continue to present our financial statements in U.S. dollars and will have a significant proportion of net assets and expenses in non-U.S. dollar currencies, including the Pound Sterling, the Euro and the Rupee. Our financial results and capital ratios will therefore be sensitive to movements in foreign exchange rates.

We are subject to the U.S. Foreign Corrupt Practices Act and similar worldwide anti-bribery laws, which impose restrictions and may carry substantial penalties. Violations of these laws or allegations of such violations could cause a material adverse effect on our business, financial condition and results of operations.

The U.S. Foreign Corrupt Practices Act and anti-bribery laws in other jurisdictions, including new anti-bribery legislation in the United Kingdom that took effect in 2011, generally prohibit companies and their intermediaries from making improper payments for the purpose of obtaining or retaining business or other commercial advantage. Our policies mandate compliance with these anti-bribery laws, which often carry

Table of Contents

substantial penalties. We cannot assure you that our internal control policies and procedures always will protect us from reckless or other inappropriate acts committed by our affiliates, employees or agents. Violations of these laws, or allegations of such violations, could have a material adverse effect on our business, financial condition and results of operations and could cause the market price of our common stock to decline.

GlobeOp has substantial operations, and a significant number of its employees, located in India, and as a result of the GlobeOp acquisition, we are subject to regulatory, economic and political uncertainties in India.

GlobeOp began shifting its administration and MBA processing services to India in 2003 and at present approximately three-quarters of its employees are located in India. In the early 1990s, India experienced significant inflation, low growth in gross domestic product and shortages of foreign currency reserves. The Indian government, however, has exercised and continues to exercise significant influence over many aspects of the Indian economy. India's government has provided significant tax incentives and relaxed certain regulatory restrictions in order to encourage investment in specified sectors of the economy. These programs include tax holidays, liberalized import and export duties and preferential rules on foreign investment and repatriation. We cannot assure you that these policies will continue. Various factors, such as changes in the current government, could trigger significant changes in India's economic liberalization and deregulation policies and disrupt business and economic conditions in India generally and our business in particular.

Our financial performance may be adversely affected by general economic conditions and economic and fiscal policy in India, including changes in exchange rates and controls, interest rates and taxation policies, as well as social stability and political, economic or diplomatic developments affecting India in the future. In particular, India has experienced significant economic growth over the last several years, but faces major challenges in sustaining that growth in the years ahead. These challenges include the need for substantial infrastructure development and improving access to healthcare and education. Our ability to recruit, train and retain qualified employees, develop and operate GlobeOp's operations centers, and attract and retain clients could be adversely affected if India does not successfully meet these challenges.

Risks Relating to Litigation

We face substantial litigation risk in the ordinary course of business.

Both prior to and following the GlobeOp acquisition, we face substantial litigation risk from and through our clients and otherwise in the ordinary course of our business. As a service provider, we are subject to potential claims from our clients, some of which pursue relatively high-risk investment strategies, and all of which are subject to substantial market risk. The losses of some of our clients due to insolvency or fraud on the part of the funds or others, could expose us to claims from funds, their managers or their investors seeking compensation from us and/or our clients. We may also be subject to claims for losses or other damages from our clients' investors, as well as claims such as those from regulators, revenue authorities or other governmental authorities. Even if we are not ultimately found to be liable, defending such claims or lawsuits could be expensive and time consuming, divert management resources, harm our reputation and cause us to incur significant expenses. Furthermore, there can be no assurance that the results of any of these claims will not have a material adverse effect on our business, financial condition or results of operations.

Table of Contents

GlobeOp is a defendant in pending litigation relating to several clients for which GlobeOp performed services.

GlobeOp is a defendant in a putative class action litigation relating to losses incurred by investors in Greenwich Sentry L.P. and Greenwich Sentry Partners L.P. as a result of those funds' investments in funds managed by Bernard Madoff and has also been named as a defendant in two related actions that are subject to arbitration proceedings (which we refer to collectively as the "Fairfield Greenwich Actions"). The plaintiffs in the Fairfield Greenwich Actions have also asserted claims against multiple other defendants, including the funds' investment managers, another fund administrator, and the funds' auditors. These plaintiffs allege that GlobeOp failed to perform its contractual and alleged fiduciary duties and are seeking recovery of their losses in the funds in an indeterminate amount. In addition, several actions (which we refer to as the "Millennium Actions") have been filed in various jurisdictions or threatened naming GlobeOp as a defendant in respect of claims arising out of valuation agent services performed by GlobeOp related to the Millennium Global Emerging Credit Fund L.P. and Millennium Global Emerging Fund Ltd. (which we refer to as the "Millennium Funds"), including an arbitration proceeding in the United Kingdom on behalf of the Millennium Funds investment manager with a yet-to-be-determined claimed amount, a threatened arbitration proceeding in the United Kingdom involving the liquidator on behalf of the Millennium Funds in an amount yet to be determined, and a putative class action in U.S. District Court for the Southern District of New York on behalf of investors in the Millennium Funds asserting claims of \$844 million, which is alleged to be the full amount of assets under management by the Millennium Funds at the funds' peak valuation. These actions arise out of the same set of facts and circumstances described in the criminal and civil complaints filed by the U.S. Department of Justice and the SEC, respectively, against the portfolio manager of the Millennium Funds' investment manager.

We believe that GlobeOp has strong defenses to the Fairfield Greenwich Actions and the Millennium Actions, and we are vigorously contesting these matters. However, litigation is subject to inherent uncertainty and these matters could ultimately be decided against GlobeOp. We could be required to pay substantial damages, which could have a material adverse effect on our business, financial condition or results of operations. In addition, some of these actions are arbitration proceedings, which may result in less predictable outcomes than court litigation and are generally not subject to appeal. GlobeOp has also incurred, and we will continue to incur during the pendency of these matters, significant costs, and until resolved these matters will continue to divert the attention of our management and other resources that would otherwise be engaged in other business activities.

Risks Relating to our Indebtedness

As a result of the GlobeOp acquisition, we are more leveraged than we were prior to the acquisition.

To complete our acquisition of GlobeOp, we incurred approximately an additional \$900 million of debt. Borrowings under the senior credit facility we entered into in connection with the GlobeOp acquisition now total approximately \$1.16 billion. Our substantial indebtedness could have important consequences. For example, it could:

make it more difficult for us to satisfy our obligations with respect to our senior credit facility;

Table of Contents

require us to dedicate a substantial portion of our cash flow from operations to payments on our indebtedness, thereby reducing the availability of our cash flow to fund acquisitions, working capital, capital expenditures, research and development efforts and other general corporate purposes;

increase our vulnerability to and limit our flexibility in planning for, or reacting to, change in our business and the industry in which we operate;

expose us to the risk of increased interest rates as borrowings under our senior credit facility are subject to variable rates of interest;

place us at a competitive disadvantage compared to our competitors that have less debt; and

limit our ability to borrow additional funds.

In addition, the agreement governing our senior credit facility contains financial and other restrictive covenants that limit our ability to engage in activities that may be in our long-term best interests. Our failure to comply with those covenants could result in an event of default which, if not cured or waived, could result in the acceleration of all of our debts.

To service our indebtedness, we require a significant amount of cash. Our ability to generate cash depends on many factors beyond our control.

We are currently obligated to make periodic interest payments on our senior debt of approximately \$50 million annually. Our ability to make payments on and to refinance our indebtedness and to fund planned capital expenditures will depend on our ability to generate cash in the future. This, to a certain extent, is subject to general economic, financial, competitive, legislative, regulatory and other factors that are beyond our control.

We cannot assure you that our business will generate sufficient cash flow from operations or that future borrowings will be available to us under our senior credit facility in an amount sufficient to enable us to pay our indebtedness or to fund our other liquidity needs. We may need to refinance all or a portion of our indebtedness on or before maturity. We cannot assure you that we will be able to refinance any of our indebtedness on commercially reasonable terms or at all. If we cannot service our indebtedness, we may have to take actions such as selling assets, seeking additional equity or reducing or delaying capital expenditures, strategic acquisitions, investments and alliances. We cannot assure you that any such actions, if necessary, could be effected on commercially reasonable terms or at all.

Despite current indebtedness levels, we and our subsidiaries may still be able to incur substantially more debt. This could further exacerbate the risks associated with our substantial financial leverage.

We may be able to incur substantial additional indebtedness in the future because the terms of our senior credit facility do not fully prohibit us or our subsidiaries from doing so. Subject to covenant compliance and certain conditions, our senior credit facility permits us to borrow up to \$100 million on a revolving basis and to incur significant additional debt outside of the senior credit facility. If new debt is added to our and our subsidiaries' current debt levels, the related risks that we and they now face could intensify.

Table of Contents

Restrictive covenants in the agreement governing our senior credit facility may restrict our ability to pursue our business strategies.

The agreement governing our senior credit facility limits our ability, among other things, to:

incur additional indebtedness;

sell assets, including capital stock of certain subsidiaries;

pay dividends;

consolidate, merge, liquidate or dissolve;

make acquisitions;

enter into transactions with our affiliates; and

incur liens.

In addition, our senior credit facility includes other covenants which, subject to permitted exceptions, prohibit us from making investments, loans, dispositions and other advances, changing the nature of our business, modifying our organizational documents and prepaying our other indebtedness while indebtedness under our senior credit facility is outstanding. The agreement governing our senior credit facility also requires us to maintain compliance with a specified leverage ratio. Our ability to comply with this ratio may be affected by events beyond our control.

The restrictions contained in the agreement governing our senior credit facility could limit our ability to plan for or react to market conditions, meet capital needs or acquire companies, products or technologies or otherwise restrict our activities or business plans.

A breach of any of these restrictive covenants or our inability to comply with the leverage ratio could result in a default under the agreement governing our senior credit facility. If such a default occurs, the lenders under our senior credit facility may elect to declare all borrowings outstanding, together with accrued interest and other fees, to be immediately due and payable. The lenders also have the right in these circumstances to terminate any commitments they have to provide further borrowings. If we are unable to repay outstanding borrowings when due, the lenders under our senior credit facility also have the right to proceed against the collateral, including our available cash, granted to them to secure the indebtedness. If the indebtedness under our senior credit facility were to be accelerated, we cannot assure you that our assets would be sufficient to repay in full that indebtedness and our other indebtedness.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

On November 23, 2005, SS&C Holdings acquired SS&C through the merger of Sunshine Merger Corporation, our wholly owned subsidiary, with and into SS&C, with SS&C surviving the merger and becoming a wholly owned subsidiary of SS&C Holdings. We refer to the acquisition, the equity contributions to SS&C Holdings by our chief executive officer, William C. Stone, and Carlyle in connection with the acquisition, SS&C Holdings' entry into senior secured credit facilities and its issuance and sale of senior subordinated notes, and the other transactions in connection with the acquisition as the Transaction.

Stockholders Agreement

On November 23, 2005, Mr. Stone became a party to a stockholders agreement with SS&C Holdings and Carlyle, which includes restrictions on transfer as well as other provisions described below. The parties amended certain provisions of the stockholders agreement in April 2008, March 2010 and March 2011.

Board of Directors. Pursuant to the stockholders agreement our board of directors consists of eight members, with Mr. Stone occupying one seat and having the right to designate one of the remaining board members, Carlyle having the right to designate three board members, and Mr. Stone and Carlyle collectively having the right to designate two board members. Accordingly, Mr. Stone designated Normand A. Boulanger, and Carlyle designated Campbell R. Dyer, Allan M. Holt and Claudius E. Watts, IV as members of our board of directors. Mr. Stone and Carlyle collectively designated Jonathan E. Michael and David A. Varsano as members of our board of directors. Carlyle previously had the right to designate four board members under the stockholders agreement and initially designated William A. Etherington as a member of our board of directors. In May 2012, Mr. Etherington was re-elected to our board of directors by our stockholders for a three-year term. The number of board members which Carlyle is entitled to designate is reduced (1) to two directors if Carlyle holds less than 30% of our common stock and (2) to one director if Carlyle holds less than 15% of our common stock. Based on our shares outstanding as of July 16, 2012, assuming the sale by Carlyle of all 7,000,000 shares of our common stock covered by this prospectus and assuming no other sales or purchases of our common stock by Carlyle, following completion of the offering, investment funds affiliated with Carlyle will beneficially own approximately 27.37% of our common stock and will be entitled to designate two of our directors. The number of board members which Mr. Stone is entitled to designate (including himself) will be reduced to one director if Mr. Stone holds less than 15% of our common stock.

Carlyle's rights under the board of directors designation provisions of the stockholders agreement will terminate at such time as Carlyle holds less than 10% of our common stock. Mr. Stone's rights under the board of directors designation provisions of the stockholders agreement will terminate at such time as he holds less than 10% of our common stock.

Bring-along rights. If any party to the stockholders agreement proposes to transfer 50% or more of all common stock held by the parties to the stockholders agreement to a third-party purchaser, then such transferring stockholder can require the other stockholders who are parties to the agreement to transfer their common stock on the same terms and conditions as the transferring holder.

Other rights. The stockholders agreement also contained certain tag-along and preemptive rights which terminated upon completion of our initial public offering in March 2010, or our IPO.

Service Provider Stockholders Agreement

On November 23, 2005, all of our members of management (other than Mr. Stone) and all employee option holders whose SS&C options were converted into options to acquire common stock of SS&C Holdings became parties to a service provider stockholders agreement with Carlyle and SS&C Holdings. In addition, certain holders of options to purchase our common stock have subsequently become parties to the service provider stockholders agreement. SS&C Holdings and Carlyle amended certain provisions of the service provider stockholders agreement in April 2008. Under the agreement, if Carlyle proposes to transfer 50% or more of our outstanding common stock to a third-party purchaser, then Carlyle can require the members of our management and employee option holders who are parties to the agreement to transfer their common stock and options on the same terms and conditions as Carlyle (bring-along rights).

Registration Rights Agreement

On November 23, 2005, Mr. Stone became a party to a registration rights agreement with SS&C Holdings and Carlyle, which provides for certain registration rights. Under the registration rights agreement, either Carlyle or Mr. Stone can demand that we file a registration statement for all or a portion of their common stock. Carlyle and Mr. Stone are also entitled to request that their shares be covered by a registration statement that we are otherwise filing with respect to our common stock. These registration rights are subject to conditions and limitations, including the right of the underwriters of an offering to limit the number of shares included in certain registrations. Under the registration rights agreement, we have also agreed to indemnify the selling stockholders against certain liabilities relating to the selling of the common stock, including liabilities arising under the Securities Act, and to pay the costs and fees of registering the shares of common stock; however, the selling stockholders will pay any brokerage commissions, discounts or other expenses relating to the sale of shares of common stock. The registration statement of which this prospectus is a part was filed pursuant to the request of Carlyle pursuant to the registration rights agreement.

PLAN OF DISTRIBUTION

The shares covered by this prospectus may be offered and sold from time to time by the selling stockholder. The term selling stockholder includes donees, pledgees, transferees or other successors-in-interest selling shares received after the date of this prospectus from the selling stockholder as a gift, pledge, partnership distribution or other non-sale related transfer. The selling stockholder will act independently of us in making decisions with respect to the timing, manner and size of each sale. Such sales may be made on one or more exchanges or in the over-the-counter market or otherwise, at prices and under terms then prevailing or at prices related to the then-current market price or in negotiated transactions. The selling stockholder may sell its shares by one or more of, or a combination of, the following methods:

ordinary brokerage transactions and transactions in which the broker solicits purchasers;

in options transactions.

In addition, any shares that qualify for sale pursuant to Rule 144 may be sold under Rule 144 rather than pursuant to this prospectus.

To the extent required, this prospectus may be amended or supplemented from time to time to describe a specific plan of distribution. In connection with distributions of the shares or otherwise, the selling stockholder may enter into hedging transactions with broker-dealers or other financial institutions. In connection with such transactions, broker-dealers or other financial institutions may engage in short sales of the common stock in the course of hedging the positions they assume with the selling stockholder. The selling stockholder may also sell the common stock short and redeliver the shares to close out such short positions. The selling stockholder may also enter into option or other transactions with broker-dealers or other financial institutions which require the delivery to such broker-dealer or other financial institution of shares offered by this prospectus, which shares such broker-dealer or other financial institution may resell pursuant to this prospectus (as supplemented or amended to reflect such transaction). The selling stockholder may also pledge shares to a broker-dealer or other financial institution, and, upon a default, such broker-dealer or other financial institution, may effect sales of the pledged shares pursuant to this prospectus (as supplemented or amended to reflect such transaction).

In effecting sales, broker-dealers or agents engaged by the selling stockholder may arrange for other broker-dealers to participate. Broker-dealers or agents may receive commissions, discounts or concessions from the selling stockholder in amounts to be negotiated immediately prior to the sale.

In offering the shares covered by this prospectus, any broker-dealers who execute sales for the selling stockholder may be deemed to be underwriters within the meaning of the Securities Act in connection with such sales. The compensation of any broker-dealer may be deemed to be underwriting discounts and commissions.

In order to comply with the securities laws of certain states, if applicable, the shares must be sold in such jurisdictions only through registered or licensed brokers or dealers. In addition, in certain states the shares may not be sold unless they have been registered or qualified for sale in the applicable state or an exemption from the registration or qualification requirement is available and is complied with.

We have advised the selling stockholder that the anti-manipulation rules of Regulation M under the Exchange Act may apply to sales of shares in the market and to the activities of the selling stockholder and its affiliates. In addition, we will make copies of this prospectus available to the selling stockholder for the purpose of satisfying the prospectus delivery requirements of the Securities Act. The selling stockholder may indemnify any broker-dealer that participates in transactions involving the sale of the shares against certain liabilities, including liabilities arising under the Securities Act.
