RTI INTERNATIONAL METALS, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements

(Unaudited)

(In thousands, except share and per share amounts, unless otherwise indicated)

Note 1 BASIS OF PRESENTATION:

The accompanying unaudited Condensed Consolidated Financial Statements of RTI International Metals, Inc. and its subsidiaries (the Company or RTI) have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, certain information and note disclosures normally included in annual financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to those rules and regulations, although the Company believes that the disclosures made are adequate to make the information not misleading. In the opinion of management, these financial statements contain all of the adjustments of a normal and recurring nature considered necessary to state fairly the results for the interim periods presented. The results for the interim periods are not necessarily indicative of the results to be expected for the year.

The balance sheet at December 31, 2011 has been derived from the audited consolidated financial statements at that date, but does not include all of the information and notes required by GAAP for complete financial statements. Although the Company believes that the disclosures are adequate to make the information presented not misleading, it is suggested that these Condensed Consolidated Financial Statements be read in conjunction with accounting policies and Notes to the Consolidated Financial Statements included in the Company's 2011 Annual Report on Form 10-K filed with the Securities and Exchange Commission (the SEC) on February 28, 2012.

Note 2 ORGANIZATION:

The Company is a leading producer and global supplier of advanced titanium mill products and a manufacturer of fabricated titanium and specialty metal components for the international aerospace, defense, energy, medical device, and industrial and consumer markets. It is a successor to entities that have been operating in the titanium industry since 1951. The Company first became publicly traded on the New York Stock Exchange in 1990 under the name RMI Titanium Co. and the symbol RTI, and was reorganized into a holding company structure in 1998 under the name RTI International Metals, Inc.

On February 13, 2012, the Company completed its acquisition of all of the issued and outstanding common stock of REI Delaware Holding, Inc., which directly owns all of the issued and outstanding capital stock of Remmele Engineering, Inc. (Engineering) and indirectly owns all of the issued and outstanding capital stock of REI Medical, Inc. (REI Medical) and together with Engineering, Remmele) for total consideration of approximately \$188.4 million, including approximately \$185.6 million in cash and the assumption of \$2.8 million of capitalized equipment leases. The total purchase price included adjustments totaling \$6.4 million for capital expenditures incurred during the negotiating period and working capital which increased the total consideration paid from the contractual purchase price of \$182.0 million. Remmele provides precision machining and collaborative engineering, as well as other key technologies and services, for the aerospace and defense and medical device sectors, and is included in the Fabrication Group Segment. The acquisition broadens the Company's product offerings and provides access to new markets. Refer to Note 3 for additional information on this acquisition.

The Company conducts business in three segments: the Titanium Group, the Fabrication Group, and the Distribution Group.

The Titanium Group melts, processes, and produces a complete range of titanium mill products which are further processed by its customers for use in a variety of commercial aerospace, defense, and industrial and consumer applications. With operations in Niles, Ohio; Canton, Ohio; Hermitage, Pennsylvania; and Martinsville, Virginia, the Titanium Group has overall responsibility for the production of primary mill products

RTI INTERNATIONAL METALS, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements

(Unaudited)

(In thousands, except share and per share amounts, unless otherwise indicated)

including, but not limited to, bloom, billet, sheet, and plate. In addition, the Titanium Group produces ferro titanium alloys for its steel-making customers. The Titanium Group also focuses on the research and development of evolving technologies relating to raw materials, melting, and other production processes, and the application of titanium in new markets.

The Fabrication Group is comprised of companies with significant hard and soft-metal expertise that form, extrude, fabricate, machine, micro machine, and assemble titanium, aluminum, and other specialty metal parts and components. Its products, many of which are complex engineered parts and assemblies, serve commercial aerospace, defense, medical device, oil and gas, power generation, and chemical process industries, as well as a number of other industrial and consumer markets. With operations located in Minneapolis, Minnesota; Houston, Texas; Washington, Missouri; Laval, Canada; and Welwyn Garden City, England, the Fabrication Group provides value-added products and services such as engineered tubulars and extrusions, fabricated and machined components and sub-assemblies, and components for the production of minimally invasive and implantable medical devices, as well as engineered systems for deepwater oil and gas exploration and production infrastructure.

The Distribution Group stocks, distributes, finishes, cuts-to-size, and facilitates just-in-time delivery services of titanium, steel, and other specialty metal products, primarily nickel-based specialty alloys. With operations in Garden Grove, California; Windsor, Connecticut; Sullivan, Missouri; Tamworth, England; and Rosny-Sur-Seine, France; the Distribution Group is in close proximity to its wide variety of commercial aerospace, defense, and industrial and consumer customers.

Both the Fabrication Group and the Distribution Group utilize the Titanium Group as their primary source of titanium mill products.

Note 3 ACQUISITIONS:

Remmele. On February 13, 2012, the Company purchased all of the outstanding common stock of Remmele for total consideration of approximately \$188.4 million, including approximately \$185.6 million in cash and the assumption of \$2.8 million of capitalized equipment leases. The total purchase price included the contractual purchase price of \$182.0 million and adjustments totaling \$6.4 million for capital expenditures incurred during the negotiating period and working capital. Remmele has four facilities in the Minneapolis, Minnesota area and engages in precision machining and manufacturing engineering services, as well as supply sourcing, assembly and integration, and other key services and technologies for the commercial aerospace, defense, and medical device sectors, and is included in the Fabrication Group Segment.

Table of Contents**RTI INTERNATIONAL METALS, INC. AND SUBSIDIARIES****Notes to Condensed Consolidated Financial Statements****(Unaudited)****(In thousands, except share and per share amounts, unless otherwise indicated)**

The purchase price allocation, which has not been finalized, is as follows:

Fair value of assets acquired:	
Current assets, excluding inventories	\$ 19,736
Inventories	21,264
Property, plant, and equipment	65,639
Other assets	166
Intangible assets:	
Customer relationships	19,300
Developed technologies	9,400
Backlog	1,100
Trade name	7,600
Goodwill	84,105
Fair value of liabilities assumed:	
Current liabilities	15,489
Deferred tax liabilities	25,172
Capital leases, less current portion	2,016
Net assets acquired	\$ 185,633

Goodwill is primarily attributable to Remmele's assembled workforce and exposure to new customers for the Company's products. It is not deductible for tax purposes. Customer relationships and developed technologies are being amortized over a period of 12 to 15 years and backlog over a period of two years. Trade names are not amortized as the Company believes that these assets have an indefinite life as the Company currently intends to continue use of the Remmele name indefinitely.

The amount of Remmele's net sales and earnings included in the Company's Condensed Consolidated Statements of Operations for the three and six months ended June 30, 2012, and the net sales and earnings of the combined entity had the acquisition date been January 1, 2011, are as follows:

	Three Months Ended		Six Months Ended	
	June 30, 2012	June 30, 2011	June 30, 2012	June 30, 2011
Net sales:				
Actual Remmele	\$ 32,743	\$	\$ 49,822	\$
Supplemental pro forma consolidated	\$ 190,277	\$ 156,321	\$ 365,790	\$ 307,947
Net income:				
Actual Remmele	\$ 613	\$	\$ 663	\$
Earnings per share (diluted)	\$ 0.02	\$	\$ 0.02	\$
Supplemental pro forma consolidated	\$ 6,330	\$ 3,335	\$ 12,410	\$ 4,279
Earnings per share (diluted)	\$ 0.21	\$ 0.11	\$ 0.41	\$ 0.14

Table of Contents**RTI INTERNATIONAL METALS, INC. AND SUBSIDIARIES****Notes to Condensed Consolidated Financial Statements****(Unaudited)****(In thousands, except share and per share amounts, unless otherwise indicated)**

RTI Advanced Forming. On November 23, 2011 the Company purchased all of the outstanding common stock of Aeromet Advanced Forming, Ltd. for total cash consideration of \$36.1 million. Commensurate with the purchase, Aeromet Advanced Forming, Ltd. was renamed RTI Advanced Forming, Ltd. (Advanced Forming). Advanced Forming is located in Welwyn Garden City, Hertfordshire, England, and engages in hot forming, super plastic forming, diffusion bonding, and fabrication of titanium sheet and plate for the commercial aerospace and defense markets, and is included in the Fabrication Group Segment. The net working capital adjustment with respect to the acquisition of RTI Advanced Forming was agreed to in July 2012. The adjustment resulted in additional consideration of \$256, which is included in total cash consideration and will be paid during the three months ending September 30, 2012.

The purchase price allocation, which has been finalized, is as follows:

Assets purchased:	
Current assets, excluding inventory	\$ 5,186
Inventories	6,671
Plant and equipment	6,262
Intangible assets:	
Customer relationships	5,913
Developed technologies	3,890
Goodwill	14,559
Liabilities assumed:	
Current liabilities	2,613
Deferred tax liabilities	3,614
Other liabilities	186
 Net assets acquired	 \$ 36,068

Goodwill is primarily attributable to expected synergies from providing titanium mill products from the Titanium Group and Advanced Forming's assembled workforce and is not deductible for tax purposes. Customer relationships and developed technologies are being amortized over a period of 20 years.

Note 4 STOCK-BASED COMPENSATION:*Stock Options*

A summary of the status of the Company's stock options as of June 30, 2012, and the activity during the six months then ended, is presented below:

Stock Options	Options
Outstanding at December 31, 2011	558,597

Edgar Filing: RTI INTERNATIONAL METALS INC - Form 10-Q

Granted	83,706
Forfeited	(2,867)
Expired	(4,218)
Exercised	(7,851)
Outstanding at June 30, 2012	627,367
Exercisable at June 30, 2012	451,004

Table of Contents**RTI INTERNATIONAL METALS, INC. AND SUBSIDIARIES****Notes to Condensed Consolidated Financial Statements****(Unaudited)****(In thousands, except share and per share amounts, unless otherwise indicated)**

The fair value of stock options granted was estimated at the date of grant using the Black-Scholes option-pricing model based upon the assumptions noted in the following table:

	2012
Risk-free interest rate	0.75%
Expected dividend yield	0.00%
Expected lives (in years)	5.0
Expected volatility	66.00%

The weighted-average grant date fair value of stock option awards granted during the six months ended June 30, 2012 was \$13.49.

Restricted Stock

A summary of the status of the Company's nonvested restricted stock as of June 30, 2012, and the activity during the six months then ended, is presented below:

Nonvested Restricted Stock Awards	Shares
Nonvested at December 31, 2011	163,070
Granted	82,326
Vested	(60,017)
Forfeited	(3,200)
Nonvested at June 30, 2012	182,179

The fair value of restricted stock grants was calculated using the market value of the Company's Common Stock on the date of issuance. The weighted-average grant date fair value of restricted stock awards granted during the six months ended June 30, 2012 was \$24.63.

Performance Share Awards

A summary of the Company's performance share award activity during the six months ended June 30, 2012 is presented below:

Performance Share Awards	Awards Activity	Maximum Shares Eligible to Receive
Outstanding at December 31, 2011	160,771	321,542
Granted	61,230	122,460
Vested	(66,047)	(132,094)
Forfeited	(4,500)	(9,000)
Outstanding at June 30, 2012	151,454	302,908

Edgar Filing: RTI INTERNATIONAL METALS INC - Form 10-Q

The fair value of the performance share awards granted was estimated by the Company at the grant date using a Monte Carlo model. The weighted-average grant-date fair value of performance shares awarded during the six months ended June 30, 2012 was \$35.59.

Table of Contents

RTI INTERNATIONAL METALS, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements

(Unaudited)

(In thousands, except share and per share amounts, unless otherwise indicated)

Note 5 INCOME TAXES:

Management estimates the annual effective income tax rate quarterly based on current annual forecasted results. Items unrelated to current year ordinary income are recognized entirely in the period identified as a discrete item of tax. The quarterly income tax provision is comprised of tax on ordinary income provided at the most recent estimated annual effective tax rate, increased or decreased for the tax effect of discrete items.

For the six months ended June 30, 2012, the estimated annual effective tax rate applied to ordinary income was 35.4%, compared to a rate of 35.0% for the six months ended June 30, 2011. The Company's effective income tax rate increased 0.4 percentage points from 2011 principally due to the effects of foreign operations, partially offset by adjustments to unrecognized tax benefits. Although these factors are present in both 2012 and 2011, the differing mix of foreign losses and domestic income between the periods and the level of expected annual operating results forecasted in each period influenced the tax rates for each respective period.

Inclusive of discrete items, the Company recognized a provision for income taxes of \$6,094, or 36.1% of pretax income, and \$2,621, or 37.0% of pretax income, for federal, state, and foreign income taxes for the six months ended June 30, 2012 and 2011, respectively. Discrete items for each of the six months ended June 30, 2012 and 2011 were \$0.1 million.

Note 6 EARNINGS PER SHARE:

Basic earnings per share was computed by dividing net income attributable to common shareholders by the weighted-average number of shares of Common Stock outstanding for each respective period. Diluted earnings per share was calculated by dividing net income attributable to common shareholders by the weighted-average of all potentially dilutive shares of Common Stock that were outstanding during the periods presented.

At June 30, 2012, the Company had \$230 million aggregate principal amount of 3.0% Convertible Senior Notes due 2015 (the "Notes") outstanding. For the three and six months ended June 30, 2012 and 2011, 6.4 million potential shares of Common Stock related to the Notes have been excluded from the calculation of diluted earnings per share because their effects were antidilutive, as calculated under the "If Converted" method.

For the three and six months ended June 30, 2012, options to purchase 429,769 and 419,384 shares of Common Stock, at an average price of \$38.15 and \$38.55, respectively, have been excluded from the calculation of diluted earnings per share because their effects were antidilutive. For the three and six months ended June 30, 2011, options to purchase 249,865 and 248,601 shares of Common Stock, at an average price of \$48.18 and \$48.31, respectively, have been excluded from the calculation of diluted earnings per share because their effects were antidilutive.

Table of Contents**RTI INTERNATIONAL METALS, INC. AND SUBSIDIARIES****Notes to Condensed Consolidated Financial Statements****(Unaudited)****(In thousands, except share and per share amounts, unless otherwise indicated)**

The Company's restricted stock awards are considered participating securities. As such, the Company uses the two-class method to compute basic and diluted earnings per share. The following illustrates the earnings allocation method utilized in the calculation of basic and diluted earnings per share. Actual weighted-average shares of Common Stock outstanding used in the calculation of basic and diluted earnings per share for the three and six months ended June 30, 2012 and 2011 were as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Numerator:				
Net income before allocation of earnings to participating securities.	\$ 5,163	\$ 2,128	\$ 10,788	\$ 4,470
Less: Earnings allocated to participating securities	(31)	(11)	(63)	(24)
Net income attributable to common shareholders, after earnings allocated to participating securities	\$ 5,132	\$ 2,117	\$ 10,725	\$ 4,446
Denominator:				
Basic weighted-average shares outstanding	30,126,774	30,019,933	30,107,998	30,008,108
Effect of dilutive securities	95,606	298,151	107,505	265,561
Diluted weighted-average shares outstanding	30,222,380	30,318,084	30,215,503	30,273,669
Earnings per share:				
Basic	\$ 0.17	\$ 0.07	\$ 0.36	\$ 0.15
Diluted.	\$ 0.17	\$ 0.07	\$ 0.36	\$ 0.15

Note 7 FAIR VALUE MEASUREMENTS:

For certain of the Company's financial instruments and account groupings, including cash, accounts receivable, accounts payable, accrued wages and other employee costs, unearned revenue, and other accrued liabilities, the carrying value approximates fair value.

As of June 30, 2012, the Company did not have any financial assets or liabilities that were measured at fair value on either a recurring or a non-recurring basis.

The carrying amounts and fair values of financial instruments for which the fair value option was not elected were as follows:

	June 30, 2012		December 31, 2011	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Cash and cash equivalents	\$ 99,525	\$ 99,525	\$ 156,842	\$ 156,842
Long-term debt (excluding capital leases)	\$ 191,719	\$ 233,738	\$ 186,981	\$ 229,540

The fair value of long-term debt was estimated based on the quoted market price for the debt (Level 2).

Table of Contents**RTI INTERNATIONAL METALS, INC. AND SUBSIDIARIES****Notes to Condensed Consolidated Financial Statements****(Unaudited)****(In thousands, except share and per share amounts, unless otherwise indicated)****Note 8 INVENTORIES:**

Inventories are valued at cost as determined by the last-in, first-out (LIFO) method for approximately 51% and 60% of the Company's inventories at June 30, 2012 and December 31, 2011, respectively. The remaining inventories are valued at cost determined by a combination of the first-in, first-out (FIFO) and weighted-average cost methods. Inventory costs generally include materials, labor, and manufacturing overhead (including depreciation). As of June 30, 2012 and December 31, 2011, the current cost of inventories exceeded their carrying value by \$62,801 and \$63,826, respectively. When market conditions indicate an excess of carrying cost over market value, a lower-of-cost-or-market provision is recorded. Inventories consisted of the following:

	June 30, 2012	December 31, 2011
Raw materials and supplies	\$ 118,604	\$ 83,778
Work-in-process and finished goods	293,629	255,107
LIFO reserve	(62,801)	(63,826)
Total inventories	\$ 349,432	\$ 275,059

Note 9 GOODWILL AND OTHER INTANGIBLE ASSETS:

The carrying amount of goodwill is tested at least annually for impairment. Absent any events throughout the year which would indicate a potential impairment has occurred, the Company performs its annual impairment testing during the fourth quarter.

While there have been no impairments during the first six months of 2012, uncertainties or other factors that could result in a potential impairment in future periods include continued long-term production delays or a significant decrease in expected demand related to the Boeing 787 Dreamliner® program, as well as any cancellation of one of the other major aerospace or defense programs in which the Company currently participates, including the Joint Strike Fighter program, the Airbus family of aircraft, including the A380 and A350XWB programs, or the Boeing 747-8 program. In addition, the Company's ability to ramp up its production in a cost efficient manner may also impact the results of a future impairment test.

Goodwill. The carrying amount of goodwill attributable to each segment at December 31, 2011 and June 30, 2012 was as follows:

	Titanium Group	Fabrication Group	Distribution Group	Total
December 31, 2011	\$ 2,548	\$ 43,483	\$ 9,833	\$ 55,864
Acquisitions (Note 3)		84,105		84,105
Translation adjustment		(14)		(14)
Purchase price allocation adjustment		256		256
June 30, 2012	\$ 2,548	\$ 127,830	\$ 9,833	\$ 140,211

Table of Contents**RTI INTERNATIONAL METALS, INC. AND SUBSIDIARIES****Notes to Condensed Consolidated Financial Statements****(Unaudited)****(In thousands, except share and per share amounts, unless otherwise indicated)**

Intangibles. Intangible assets consist primarily of customer relationships, trade names, and developed technology acquired through various business combinations. These intangible assets were valued at fair value at acquisition. In the event that long-term demand or market conditions change and the expected future cash flows associated with these assets is reduced, a write-down or acceleration of the amortization period may be required. Trade names are not amortized, as the Company believes that these assets have an indefinite life as the Company currently intends to continue use of the Remmele name indefinitely. Other intangible assets are being amortized over the following periods:

Intangible Asset	Amortization Period
Customer relationships	15-20 years
Developed technology	12-20 years
Backlog	2 years

There were no intangible assets attributable to our Titanium or Distribution Groups at December 31, 2011 and June 30, 2012. The carrying amounts of intangible assets attributable to the Company's Fabrication Group at December 31, 2011 and June 30, 2012 were as follows:

	Intangible Assets
December 31, 2011	\$ 22,576
Intangible assets acquired (Note 3)	37,400
Amortization	(1,346)
Translation adjustment	(379)
June 30, 2012.	\$ 58,251

Note 10 LONG-TERM DEBT:

Long-term debt consisted of:

	June 30, 2012	December 31, 2011
\$230 million aggregate principal amount 3.0% convertible notes due December 2015	\$ 191,699	\$ 186,961
Capital leases	2,884	
Other	20	20
Total debt	194,603	186,981
Less: Current portion of capital leases	(876)	
Total long-term debt	\$ 193,727	\$ 186,981

Edgar Filing: RTI INTERNATIONAL METALS INC - Form 10-Q

During the three and six months ended June 30, 2012, the Company recorded long-term debt discount amortization of \$2,386 and \$4,738, respectively, as a component of interest expense. Interest expense from the amortization of debt issuance costs was \$384 and \$752, respectively, for the three and six months ended June 30, 2012. Additionally, the Company capitalized interest totaling \$470 and \$821 for the three and six months ended June 30, 2012, respectively.

Table of Contents**RTI INTERNATIONAL METALS, INC. AND SUBSIDIARIES****Notes to Condensed Consolidated Financial Statements****(Unaudited)****(In thousands, except share and per share amounts, unless otherwise indicated)**

During the three and six months ended June 30, 2011, the Company recorded long-term debt discount amortization of \$2,195 and \$4,361, respectively, as a component of interest expense. Interest expense from the amortization of debt issuance costs was \$280 and \$560, respectively, for the three and six months ended June 30, 2011. Additionally, the Company capitalized interest totaling \$164 and \$258 for the three and six months ended June 30, 2011, respectively.

On May 23, 2012, the Company entered into the Second Amended and Restated Credit Agreement (the Credit Agreement), which replaced its First Amended and Restated Credit Agreement, as amended. The Credit Agreement provides a revolving credit facility of \$150 million and expires on May 23, 2017. Borrowings under the Credit Agreement bear interest, at the Company's option, at a rate equal to LIBOR plus an applicable margin or the base rate plus an applicable margin. Both the applicable margin and the facility fee vary based upon the Company's consolidated net debt to consolidated EBITDA ratio, as defined in the Credit Agreement. The Company had no borrowings outstanding under either the Credit Agreement at June 30, 2012 or the First Amended and Restated Credit Agreement at June 30, 2011.

Note 11 EMPLOYEE BENEFIT PLANS:

Components of net periodic pension and other post-retirement benefit costs for the three and six months ended June 30, 2012 and 2011 for those salaried and hourly covered employees were as follows:

	Pension Benefits				Other Post-Retirement Benefits			
	Three Months Ended June 30,		Six Months Ended June 30,		Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011	2012	2011	2012	2011
Service cost	\$ 612	\$ 511	\$ 1,224	\$ 1,023	\$ 168	\$ 186	\$ 336	\$ 373
Interest cost	1,773	1,794	3,546	3,588	525	591	1,050	1,181
Expected return on plan assets	(2,426)	(1,948)	(4,852)	(3,896)				
Amortization of prior service cost	245	101	490	201	304	304	608	607
Amortization of actuarial loss	1,340	1,005	2,680	2,009	39		78	
Net periodic benefit cost.	\$ 1,544	\$ 1,463	\$ 3,088	\$ 2,925	\$ 1,036	\$ 1,081	\$ 2,072	\$ 2,161

During the three and six months ended June 30, 2012, the Company made cash contributions totaling \$1.6 million and \$7.3 million, respectively, to its qualified defined benefit pension plans. The Company expects to make additional cash contributions of at least \$12.3 million during the remainder of 2012 in order to maintain its desired 95% funding status.

Note 12 COMMITMENTS AND CONTINGENCIES:

From time to time, the Company is involved in litigation relating to claims arising out of its operations in the normal course of business. In the Company's opinion, the ultimate liability, if any, resulting from these matters will have no significant effect on its Consolidated Financial Statements. Given the critical nature of many of the aerospace end uses for the Company's products, including specifically their use in critical rotating parts of gas turbine engines, the Company maintains aircraft products liability insurance of \$500 million, which includes grounding liability.

Duty Drawback Investigation

As previously disclosed, the Company has been subject to investigation by U.S. Customs and Border Protection (U.S. Customs) since 2007 relating to \$7.6 million of historic claims filed in connection with a duty recapture program. As part of this program, the Company utilized an authorized agent to recapture duty paid on imported titanium sponge as an offset against exports for Company or customer products shipped outside the United States. The Company had recorded a contingent liability of \$9.5 million as its best estimate of probable loss in connection with the investigation, and repaid \$6.7 million to U.S. Customs through the end of 2011 for invalid claims.

In April 2012, the Company received favorable rulings from U.S. Customs that effectively settled the ongoing claim protests and was issued a final penalty notice, which provided some penalty relief and reduced the Company's liability for penalties to \$0.9 million. As a result of this final penalty notice, the Company reduced its contingent liability \$2.2 million with respect to the above-mentioned claims. The liability reduction was recorded during the three months ended March 31, 2012, and the penalty paid during the three months ended June 30, 2012.

The Company has filed \$8.5 million of new duty drawback claims through a new authorized agent beginning in the fourth quarter of 2007 through the end of 2011. No additional claims have been filed during the six months ended June 30, 2012. As a result of the investigation discussed above, the Company only records these credits when payment is received from U.S. Customs, until a consistent history of receipts against claims filed has been established, at which time the Company may begin to recognize credits to cost of sales upon filing. Through June 30, 2012 the Company had received payments totaling \$3.2 million from U.S. Customs in satisfaction of claims filed since initiating its new duty drawback program.

Environmental Matters

Based on available information, the Company believes that its share of possible environmental-related costs is in a range from \$662 to \$2,134 in the aggregate. At June 30, 2012 and December 31, 2011, the amounts accrued for future environmental-related costs were \$1,277 and \$1,349, respectively. Of the total amount accrued at June 30, 2012, \$13 was expected to be paid out within the next twelve months, and was included in the other accrued liabilities line of the balance sheet. The remaining \$1,265 was recorded in other noncurrent liabilities. During the six months ended June 30, 2012, the Company made payments totaling \$72 related to its environmental liabilities. There were no payments during the three months ended June 30, 2012.

Other Matters

The Company is also the subject of, or a party to, a number of other pending or threatened legal actions involving a variety of matters incidental to its business. The Company is of the opinion that the ultimate resolution of these matters will not have a material adverse effect on the results of the operations, cash flows, or the financial position of the Company.

Note 13 SEGMENT REPORTING:

The Company has three reportable segments: the Titanium Group, the Fabrication Group, and the Distribution Group. Both the Fabrication Group and the Distribution Group utilize the Titanium Group as their primary source of titanium mill products. Intersegment sales are accounted for at prices that are generally established by reference to similar transactions with unaffiliated customers. Reportable segments are measured based on segment operating income after an allocation of certain corporate items such as general corporate overhead and expenses. General corporate assets include unallocated cash and deferred taxes.

Table of Contents**RTI INTERNATIONAL METALS, INC. AND SUBSIDIARIES****Notes to Condensed Consolidated Financial Statements****(Unaudited)****(In thousands, except share and per share amounts, unless otherwise indicated)**

A summary of financial information by reportable segment is as follows:

Note 14 NEW ACCOUNTING STANDARDS:

In May 2011, the FASB issued ASU No. 2011-04, Fair Value Measurement Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS. The new guidance amends current fair value measurement and enhances disclosure requirements to include expansion of the information required for Level 3 measurements. The amendments in this ASU are effective for fiscal years and interim periods beginning after December 15, 2011 and are to be applied prospectively. The adoption of this guidance did not have a material impact on the Company's Consolidated Financial Statements.

In December 2011, the FASB issued ASU No. 2011-11 Balance Sheet Disclosures about Offsetting Assets and Liabilities. This new guidance requires the disclosure of both net and gross information in the notes for relevant assets and liabilities that are offset. This update is effective for annual reporting periods beginning on or after January 1, 2013. The Company is still evaluating the impact of this guidance.

Note 15 GUARANTOR SUBSIDIARIES:

The Notes are jointly and severally, fully and unconditionally (subject to the customary exceptions discussed below) guaranteed by several of RTI International Metals, Inc.'s (the Parent's) 100% owned subsidiaries (the Guarantor Subsidiaries). Each Guarantor Subsidiary would be automatically released from its guarantee of the Notes if either (i) it ceases to be a guarantor of the Parent's Credit Agreement or (ii) it ceases to be a subsidiary of the Parent. Separate financial statements of the Parent and each of the Guarantor Subsidiaries are not presented because the guarantees are full and unconditional (subject to the aforementioned customary exceptions) and the Guarantor Subsidiaries are jointly and severally liable. The Company believes separate financial statements and other disclosures concerning the Guarantor Subsidiaries would not be material to investors in the Notes.

There are no current restrictions on the ability of the Guarantor Subsidiaries to make payments under the guarantees referred to above, except, however, the obligations of each Subsidiary Guarantor under its guarantee will be limited to the maximum amount as will result in obligations of such Subsidiary Guarantor under its guarantee not constituting a fraudulent conveyance or fraudulent transfer for purposes of bankruptcy law, the Uniform Conveyance Act, the Uniform Fraudulent Transfer Act, or any similar Federal or state law.

Table of Contents**RTI INTERNATIONAL METALS, INC. AND SUBSIDIARIES****Notes to Condensed Consolidated Financial Statements****(Unaudited)****(In thousands, except share and per share amounts, unless otherwise indicated)**

The following tables present Condensed Consolidating Financial Statements as of June 30, 2012 and December 31, 2011 and for the three and six months ended June 30, 2012 and 2011:

Condensed Consolidating Statement of Comprehensive Income**Three Months Ended June 30, 2012**

	RTI International Metals, Inc.	Guarantor Subsidiaries	Non-Guarantor Subsidiaries	Eliminations	Consolidated
Net sales	\$	\$ 148,017	\$ 98,455	\$ (56,195)	\$ 190,277
Costs and expenses:					
Cost of sales		127,484	82,492	(56,195)	153,781
Selling, general, and administrative expenses	(933)	14,635	9,756		23,458
Research, technical, and product development expenses		1,208	(104)		1,104
Operating income	933	4,690	6,311		11,934
Other income (expense), net	(32)	1	601		570
Interest income (expense), net	(3,903)	(15)	(258)		(4,176)
Equity in earnings of subsidiaries	5,328			(5,328)

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.
Forward-Looking Statements**

The following discussion should be read in connection with the information contained in the condensed Consolidated Financial Statements and condensed Notes to Consolidated Financial Statements. The following information contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, and is subject to the safe harbor created by that Act. Such forward-looking statements may be identified by their use of words like expects, anticipates, believes, intends, estimates, projects, or other words of similar meaning. Forward-looking statements are based on expectations and assumptions regarding future events. In addition to factors discussed throughout this quarterly report, the following factors and risks should also be considered, including, without limitation:

global economic and political uncertainties,

a significant portion of our revenue is concentrated within the commercial aerospace and defense industries and the limited number of potential customers within those industries,

the future availability and prices of raw materials,

the historic cyclicity of the titanium and commercial aerospace industries,

changes in defense spending, including the impact of sequestration on the U.S. Defense budget, and cancellation or changes in defense programs or initiatives, including the Joint Strike Fighter program,

our ability to successfully integrate newly acquired businesses,

long-term supply agreements and the impact if another party to a long-term supply agreement fails to fulfill its requirements under existing contracts or successfully manage its future development and production schedule,

the impact of the current titanium inventory overhang throughout our supply chain,

our ability to recover the carrying value of goodwill and other intangible assets,

the impact of Boeing 787 Dreamliner® production delays,

competition in the titanium industry,

our ability to attract and retain key personnel,

the ability to obtain access to financial markets and to maintain current covenant requirements,

legislative challenges to the Specialty Metals Clause, which requires that titanium for U.S. defense programs be produced in the U.S.,

labor matters,

the successful completion of our expansion projects,

risks related to international operations,

our ability to execute on new business awards,

potential costs for violations of applicable environmental, health, and safety laws,

our order backlog and the conversion of that backlog into revenue,

fluctuations in our income tax obligations and effective income tax rate,

demand for our products, and

other statements contained herein that are not historical facts.

Table of Contents

Because such forward-looking statements involve risks and uncertainties, there are important factors that could cause actual results to differ materially from those expressed or implied by such forward-looking statements. These and other risk factors are set forth in this filing, as well as in other filings filed with or furnished to the Securities and Exchange Commission (SEC) over the last 12 months, copies of which are available from the SEC or may be obtained upon request from RTI International Metals, Inc. (the Company, RTI, we, us, or our). Except as may be required by applicable law, we undertake no duty to update our forward-looking information.

On February 13, 2012, we acquired REI Delaware Holding, Inc., which directly owns all of the issued and outstanding capital stock of Remmele Engineering, Inc. (Engineering) and indirectly owns all of the issued and outstanding capital stock of REI Medical, Inc. (REI Medical and together with Engineering, Remmele). Due to these acquisitions, additional risks and uncertainties may arise that could affect our financial performance and actual results and could cause actual results for fiscal 2012 and beyond to differ materially from those expressed or implied in any forward-looking statements included in this report or otherwise made by our management. Such risks, which are difficult to predict with a level of certainty and may be greater than expected, include, among others, risks associated with combining businesses and/or with assimilating acquired companies.

Overview

Overview

We are a leading producer and global supplier of advanced titanium mill products and supplier of fabricated titanium and specialty metal components for the international aerospace, defense, medical device, energy, and industrial and consumer markets. The Company conducts business in three segments.

The Titanium Group melts, processes, and produces a complete range of titanium mill products that are further processed by its customers for use in a variety of commercial aerospace, defense, and industrial and consumer applications. With operations in Niles, Ohio; Canton, Ohio; Martinsville, Virginia; and Hermitage, Pennsylvania, the Titanium Group has overall responsibility for the production of primary mill products including, but not limited to, bloom, billet, sheet, and plate. In addition, the Titanium Group produces ferro titanium alloys for its steel-making customers. The Titanium Group also focuses on the research and development of evolving technologies relating to raw materials, melting and other production processes, and the application of titanium in new markets.

The Fabrication Group is comprised of companies with significant hard and soft-metal expertise that extrude, fabricate, machine, and assemble titanium and other specialty metal parts and components. Its products, many of which are complex engineered parts and assemblies, serve the commercial aerospace, defense, oil and gas, power generation, medical device, and chemical process industries, as well as a number of other industrial and consumer markets. With operations located in Minneapolis, Minnesota; Houston, Texas; Washington, Missouri; Laval, Canada; and Welwyn Garden City, England, the Fabrication Group provides value-added products and services such as engineered tubulars and extrusions, fabricated and machined components and sub-assemblies, components for the production of minimally invasive and implantable medical devices, as well as engineered systems for deepwater oil and gas exploration and production infrastructure.

The Distribution Group stocks, distributes, finishes, cuts-to-size, and facilitates just-in-time delivery services of titanium, steel, and other specialty metal products, primarily nickel-based specialty alloys. With operations in Garden Grove, California; Windsor, Connecticut; Sullivan, Missouri; Tamworth, England; and Rosny-Sur-Seine, France, the Distribution Group services a wide variety of commercial aerospace, defense, and industrial and consumer customers.

Both the Fabrication and Distribution Groups access the Titanium Group as their primary source of titanium mill products. For the three months ended June 30, 2012 and 2011, approximately 56% and 51%, respectively, of the Titanium Group's sales were to the Fabrication and Distribution Groups. For the six months ended June 30, 2012 and 2011, approximately 56% and 50%, respectively, of the Titanium Group's sales were to the Fabrication and Distribution Groups. The increase in sales to the Fabrication and Distribution Groups in 2012 was primarily

Table of Contents

due to strengthening demand for the Distribution Group's titanium products, increasing its demand for mill products from the Titanium Group.

Trends and Uncertainties

Notwithstanding the uncertainties in the defense sector due to overall budget pressures and the pending impact to programs in which we participate if the sequestration of Department of Defense appropriations, effective in January 2013, is not rescinded by Congress, we believe that overall end-market titanium demand is continuing to accelerate, driven largely by rising commercial aircraft production by Airbus and Boeing and strong jet engine market activity, both of which are contributing to the increasing order activity in our titanium mill product business. Furthermore, we continue to win incremental value-added packages in validation of our strategy to move further up the value chain. We believe that our recent acquisitions will further this move toward becoming an integrated supplier of advanced titanium products to our customers.

In the near-term, we will continue to be impacted by higher titanium sponge pricing as our annual sponge pricing negotiations reflect increases in the underlying raw material inputs. In the medium to long-term, we expect these costs to moderate as supply catches up with demand.

Results of Operations*Three Months Ended June 30, 2012 Compared To Three Months Ended June 30, 2011*

Net Sales. Net sales for our reportable segments, excluding intersegment sales, for the three months ended June 30, 2012 and 2011 was as follows:

<i>(In millions except percents)</i>	Three Months Ended June 30,		\$	%
	2012	2011	Increase/ (Decrease)	Increase/ (Decrease)
Titanium Group	\$ 38.5	\$ 36.4	\$ 2.1	5.8%
Fabrication Group	84.3	32.2	52.1	161.8%
Distribution Group	67.5	54.6	12.9	23.6%
Total consolidated net sales	\$ 190.3	\$ 123.2	\$ 67.1	54.5%

The increase in the Titanium Group's net sales was primarily the result of an increase in prime mill product shipments to trade customers to 1.90 million pounds for the three months ended June 30, 2012 from 1.65 million pounds for the three months ended June 30, 2011, partially offset by a decrease in average realized selling price to \$17.39 per pound from \$18.05 per pound during each respective period, resulting in a \$3.2 million increase to net sales. The strengthening shipment volume was driven by higher aircraft build rates by both Boeing and Airbus. Partially offsetting this increase was a reduction in net sales of \$1.1 million due to lower ferro-alloy demand from our specialty steel customers.

The increase in the Fabrication Group's net sales was primarily attributable to our two recent acquisitions, Remmele in February 2012 and RTI Advanced Forming in November 2011, which increased net sales \$39.2 million. Additionally, strong demand from our energy market customers resulted in a \$10.1 million increase in net sales. Net sales were further impacted by higher demand from our commercial aerospace customers, which increased net sales \$6.3 million. These increases were partially offset by a decrease in demand from our defense market customers, which reduced net sales \$3.5 million.

The increase in the Distribution Group's net sales was primarily due to higher sales volume, driven by increased demand for our titanium products in the commercial aerospace and defense markets which increased net sales \$17.0 million, partially offset by lower average realized selling prices due to a lower-priced sales mix, which reduced net sales \$4.1 million.

Table of Contents

Gross Profit. Gross profit for our reportable segments for the three months ended June 30, 2012 and 2011 was as follows:

<i>(In millions except percents)</i>	Three Months Ended June 30,					
	2012		2011		\$ Increase/ (Decrease)	% Increase/ (Decrease)
	\$	% of Sales	\$	% of Sales		
Titanium Group	\$ 10.7	27.8%	\$ 14.4	39.6%	\$ (3.7)	(25.7)%
Fabrication Group	15.4	18.3%	2.2	6.8%	13.2	600.0%
Distribution Group	10.4	15.4%	8.0	14.7%	2.4	30.0%
Total consolidated gross profit	\$ 36.5	19.2%	\$ 24.6	20.0%	\$ 11.9	48.4%

The decrease in the Titanium Group's gross profit was due to lower average realized selling prices coupled with a 2.6% increase in average cost per pound, which rose to \$14.18 for the three months ended June 30, 2012 from \$13.82 for the three months ended June 30, 2011, principally due to higher raw material costs. Additionally, the three months ended June 30, 2011 included an additional \$1.1 million due to the settlement of the Tronox supply contract dispute.

The increase in the Fabrication Group's gross profit was primarily attributable to our two recent acquisitions, which benefited gross profit \$6.6 million. Additionally, improved production efficiencies and higher net sales resulted in a \$6.6 million increase in gross profit.

The increase in the Distribution Group's gross profit was principally related to increased sales volumes, which increased gross profit \$2.4 million, primarily driven by higher customer demand in the Airbus program, JSF contract and commercial aerospace and defense markets.

Selling, General, and Administrative Expenses. Selling, general, and administrative expenses (SG&A) for our reportable segments for the three months ended June 30, 2012 and 2011 were as follows:

<i>(In millions except percents)</i>	Three Months Ended June 30,					
	2012		2011		\$ Increase/ (Decrease)	% Increase/ (Decrease)
	\$	% of Sales	\$	% of Sales		
Titanium Group	\$ 4.7	12.2%	\$ 4.5	12.4%	\$ 0.2	4.4%
Fabrication Group	13.0	15.4%	7.4	23.0%	5.6	75.7%
Distribution Group	5.8	8.6%	5.7	10.4%	0.1	1.8%
Total consolidated SG&A	\$ 23.5	12.3%	\$ 17.6	14.3%	\$ 5.9	33.5%

The \$5.9 million increase in SG&A expenses was primarily related to our recent acquisitions, which increased SG&A expenses \$5.0 million. Additionally, SG&A expenses were impacted by a \$0.5 million increase in salary, benefit, and incentive-related expenses at our legacy businesses and a \$0.4 million increase in professional and consulting fees. SG&A expenses decreased as a percentage of sales due to the leverage gained through the increase in net sales.

Research, Technical, and Product Development Expenses. Research, technical, and product development expenses were \$1.1 million and \$0.9 million for the three month periods ended June 30, 2012 and 2011, respectively. This spending reflects our continued focus on productivity and quality enhancements to our operations and new product development.

Table of Contents

Operating Income (Loss). Operating income (loss) for our reportable segments for the three months ended June 30, 2012 and 2011 was as follows:

	Three Months Ended June 30,		2011		\$ Increase/ (Decrease)	% Increase/ (Decrease)
	2012	% of Sales	\$	% of Sales		
<i>(In millions except percents)</i>	\$		\$			
Titanium Group	4.9	12.7%	9.2	25.3%	(4.3)	(46.7)%
Fabrication Group	2.3	2.7%	(5.3)	265.0%	7.6	143.4%
Distribution Group	4.7	7.0%	2.2	4.0%	2.5	113.6%
Total consolidated operating income	\$ 11.9	6.3%	\$ 6.1	5.0%	\$ 5.8	95.1%

The decrease in the Titanium Group's operating income was primarily attributable to lower gross profit, largely due to lower average realized selling prices and increased costs. Additionally, the three months ended June 30, 2011 included an additional \$1.1 million due to the settlement of the Tronox supply contract dispute.

The increase in the Fabrication Group's operating income was principally attributable to higher gross profit, partially offset by higher SG&A resulting from our two recent acquisitions.

The increase in the Distribution Group's operating income was principally attributable to higher gross profit due to increased sales, which were primarily driven by higher demand for our titanium products in the commercial aerospace and defense markets.

Other Income (Expense). Other income (expense) for the three months ended June 30, 2012 and 2011 was \$0.6 million and \$0.1 million, respectively. Other income (expense) consists of foreign exchange gains and losses from our international operations and realized gains on sales of available-for-sale securities.

Interest Income and Interest Expense. Interest income was not material for the three months ended June 30, 2012 and was \$0.4 million for the three months ended June 30, 2011. The decrease was principally related to lower overall cash and investment balances compared to the prior year period. Interest expense for the three months ended June 30, 2012 and 2011 was \$4.2 and \$4.3 million, respectively, as there have not been significant changes to our debt structure.

Provision for Income Taxes. We recognized a provision for income taxes of \$3.2 million, or 38.0% of pretax income, and \$0.2 million, or 8.2% of pretax income, for federal, state, and foreign income taxes for the three months ended June 30, 2012 and 2011, respectively. Discrete items included in each period were \$0.1 million.

Our effective income tax rate for the second quarter 2012 increased 31.0 percentage points compared to the second quarter 2011. This increase was principally due to the effect of a reduction to the annual effective tax rate between the first and second quarter of 2011. Consequently, the tax provision in the three months ended June 30, 2011 reflects a substantial reduction in year-to-date tax expense attributable to the lower annual effective tax rate. The effect of the discrete items resulted in a decrease of 1.2 percentage points.

Refer to Note 5 to accompanying Condensed Consolidated Financial Statements for additional information regarding income taxes.

Six Months Ended June 30, 2012 Compared To Six Months Ended June 30, 2011

Net Sales. Net sales for our reportable segments, excluding intersegment sales, for the six months ended June 30, 2012 and 2011 was as follows:

Six Months Ended June 30,	\$	%
	Increase/	Increase/

Edgar Filing: RTI INTERNATIONAL METALS INC - Form 10-Q

Fabrication Group	146.1	70.3	75.8	107.8%
Distribution Group	129.8	101.8	28.0	27.5%
Total consolidated net sales..	\$ 353.1	\$ 244.1	\$ 109.0	44.7%

Table of Contents

The increase in the Titanium Group's net sales was primarily the result of an increase in prime mill product shipments to trade customers to 3.75 million pounds for the six months ended June 30, 2012 from 3.31 million pounds for the six months ended June 30, 2011, partially offset by a decrease in average realized selling prices to \$17.56 per pound from \$17.72 per pound during each respective period, resulting in a \$7.1 million increase to net sales. The strengthening shipment volume was driven by higher aircraft build rates by both Boeing and Airbus. Partially offsetting these increases were reduced net sales of \$1.9 million due to lower ferro-alloy demand from our specialty steel customers.

The increase in the Fabrication Group's net sales was primarily attributable to our two recent acquisitions, Remmele in February 2012 and RTI Advanced Forming in November 2011, which increased net sales \$63.5 million. Additionally, strong demand from our energy market customers resulted in a \$12.7 million increase in net sales. Net sales were further impacted by higher demand from our commercial aerospace customers, which increased net sales \$4.5 million. These increases were partially offset \$4.9 million due to decreased demand from our defense market customers.

The increase in the Distribution Group's net sales was primarily due to higher sales volume, driven by increased demand for our titanium products in the commercial aerospace and defense markets. The increase in demand resulted in higher sales volumes, which increased net sales \$32.4 million, partially offset by lower average realized selling prices due to a lower-priced sales mix, which reduced net sales \$4.4 million.

Gross Profit. Gross profit for our reportable segments for the six months ended June 30, 2012 and 2011 was as follows:

	Six Months Ended		June 30,		\$ Increase/ (Decrease)	% Increase/ (Decrease)
	2012	% of Sales	2011	% of Sales		
<i>(In millions except percents)</i>	\$		\$			
Titanium Group	\$ 26.1	33.8%	\$ 26.6	36.9%	\$ (0.5)	(1.9)%
Fabrication Group	25.6	17.5%	8.1	11.5%	17.5	216.0%
Distribution Group	20.5	15.8%	15.9	15.6%	4.6	28.9%
Total consolidated gross profit	\$ 72.2	20.4%	\$ 50.6	20.7%	\$ 21.6	42.7%

Excluding the \$3.0 million duty drawback accrual reversal and the \$1.1 million benefit from the settlement of the Tronox supply contract dispute in 2011, the Titanium Group's gross profit decreased \$2.4 million. This decrease was primarily due to lower average realized selling prices coupled with a 2.8% increase in average cost per pound, which rose to \$14.11 for the six months ended June 30, 2012 from \$13.73 for the six months ended June 30, 2011, principally due to higher raw material costs. Furthermore, the Titanium Group was unfavorably impacted \$0.4 million due to lower margins on sales of ferro-alloys to its specialty steel customers.

The increase in the Fabrication Group's gross profit was primarily attributable to our two recent acquisitions, which benefited gross profit \$10.3 million. Additionally, improved production efficiencies and higher sales resulted in a \$7.2 million increase in gross profit.

The increase in the Distribution Group's gross profit was principally related to increased sales volumes, which increased gross profit \$4.6 million, primarily driven by higher customer demand in the Airbus and JSF programs.

Table of Contents

Selling, General, and Administrative Expenses. SG&A expenses for our reportable segments for the six months ended June 30, 2012 and 2011 were as follows:

	Six Months Ended June 30,		2011		\$ Increase/ (Decrease)	% Increase/ (Decrease)
	2012	% of Sales	\$	% of Sales		
<i>(In millions except percents)</i>	\$		\$			
Titanium Group	\$ 10.2	13.2%	\$ 8.8	12.2%	\$ 1.4	15.9%
Fabrication Group	23.0	15.7%	14.6	20.8%	8.4	57.5%
Distribution Group	11.9	9.2%	11.7	11.5%	0.2	1.7%
Total consolidated SG&A	\$ 45.1	12.8%	\$ 35.1	14.4%	\$ 10.0	28.5%

The \$10.0 million increase in SG&A expenses was primarily related to our recently acquired businesses, which increased SG&A expenses \$8.0 million. Additionally, SG&A expenses were impacted by a \$1.1 million increase in salary, benefit, and incentive-related expenses at our legacy businesses and a \$0.9 million increase in professional and consulting fees. SG&A expenses decreased as a percentage of sales due to the leverage gained through the increase in net sales.

Research, Technical, and Product Development Expenses. Research, technical, and product development expenses were \$2.2 million and \$1.5 million for the six month periods ended June 30, 2012 and 2011, respectively. This spending reflects our continued focus on productivity and quality enhancements to our operations and new product development.

Operating Income (Loss). Operating income (loss) for our reportable segments for the six months ended June 30, 2012 and 2011 was as follows:

	Six Months Ended June 30,		2011		\$ Increase/ (Decrease)	% Increase/ (Decrease)
	2012	% of Sales	\$	% of Sales		
<i>(In millions except percents)</i>	\$		\$			
Titanium Group	\$ 14.0	18.1%	\$ 17.9	24.9%	\$ (3.9)	(21.8)%
Fabrication Group	2.4	1.6%	(6.5)	9.2%	8.9	136.9%
Distribution Group	8.6	6.6%	4.1	4.0%	4.5	109.8%
Total consolidated operating income	\$ 25.0	7.1%	\$ 15.5	6.3%	\$ 9.5	61.3%

Excluding the \$3.0 million duty drawback accrual reversal and the \$1.1 million benefit from the settlement of the Tronox supply contract dispute in 2011, the Titanium Group's operating income decreased \$5.8 million. The decrease was primarily attributable to lower gross profit, largely due to lower average realized selling prices and increased costs. The six months ended June 30, 2011 was also benefited \$1.5 million due to the settlement of accrued contractual commitments at the Company's canceled titanium sponge plant.

The increase in the Fabrication Group's operating income was principally attributable to higher gross profit driven primarily by our two recent acquisitions, as well as improved operational efficiencies and higher net sales. These increases were partially offset by higher SG&A expenses related to the acquisitions.

The increase in the Distribution Group's operating income was principally attributable to higher gross profit due to increased sales, which were primarily driven by higher demand for our titanium products in the commercial aerospace and defense markets.

Other Income (Expense). Other income (expense) for the six months ended June 30, 2012 and 2011 was \$0.3 million and \$(0.4) million, respectively. Other income (expense) consists of foreign exchange gains and losses from our international operations and realized gains on sales of available-for-sale securities.

Table of Contents

Interest Income and Interest Expense. Interest income for the six months ended June 30, 2012 and 2011 was \$0.1 million and \$0.6 million, respectively. The decrease was principally related to lower overall cash and investment balances compared to the prior year period. Interest expense for the six months ended June 30, 2012 and 2011 was \$8.5 million and \$8.6 million, respectively, as there have not been significant changes to our debt structure.

Provision for Income Taxes. We recognized a provision for income taxes of \$6.1 million, or 36.1% of pretax income, and \$2.6 million, or 37.0% of pretax income, for federal, state, and foreign income taxes for the six months ended June 30, 2012 and 2011, respectively. Discrete items included in each period were \$0.1 million.

The 0.9 percentage point decrease from 2011 to 2012 was principally due to the effect of the discrete items included in each period, which decreased tax expense as a percentage of pretax income 1.3 percentage points, partially offset 0.4 percentage points due to an increase in our annual effective income tax rate, which was driven by the effect of foreign operations and adjustments to unrecognized tax benefits. Although these factors are present in both 2011 and 2012, the differing mix of foreign losses and domestic income between the periods and the level of expected annual operating results forecasted in each period influenced the tax rates for each respective period.

The effects of foreign operations, which includes the impact of lower foreign statutory income tax rates, certain statutory allowances, foreign exchange rate movements, and foreign tax credits accounted for 4.9 percentage points of the increase. Adjustments to unrecognized tax benefits decreased the rate by 3.5 percentage points. State income tax effects, changes in nondeductible officers' compensation and change in other nondeductible expenses contributed an additional 1.0 percentage point decrease.

Refer to Note 5 to accompanying Condensed Consolidated Financial Statements for additional information regarding income taxes.

Liquidity and Capital Resources

In connection with our long-term mill product supply agreements for the Joint Strike Fighter (JSF) program and the Airbus family of commercial aircraft, including the A380 and A350XWB programs, we are constructing a new titanium forging and rolling facility in Martinsville, Virginia, and new melting facilities in Canton and Niles, Ohio, with anticipated aggregate capital spending of approximately \$160 million. The Niles melting facility is substantially complete, whereas we have capital spending of approximately \$3 million remaining on the Canton facility and expect it will begin operations in the 2012 to 2013 timeframe. We have capital expenditures of approximately \$40 million remaining related to the Martinsville, Virginia facility which began forging operations in December 2011. We expect this facility will enable us to enhance our throughput and shorten lead times on certain products, primarily titanium sheet and plate. We will continually evaluate market conditions as we move forward with these capital projects to ensure our operational capabilities are matched to our anticipated demand.

On May 23, 2012, we entered into the Second Amended and Restated Credit Agreement (the Credit Agreement), which replaced our then existing First Amended and Restated Credit Agreement, as amended. The Credit Agreement provides a revolving credit facility of \$150 million and expires on May 23, 2017. Borrowings under the Credit Agreement bear interest, at our option, at a rate equal to LIBOR plus an applicable margin or the base rate plus an applicable margin. Both the applicable margin and the facility fee vary based upon our consolidated net debt to consolidated EBITDA ratio, as defined in the Credit Agreement. We had no borrowings outstanding under either the Credit Agreement at June 30, 2012 or under the First Amended and Restated Credit Agreement at June 30, 2011.

Provided we continue to meet our financial covenants under the Credit Agreement, we expect that our cash and cash equivalents of \$99.5 million and our undrawn credit facility, combined with internally generated funds, will provide us sufficient liquidity to meet our current projected operating needs and capital expansion plans.

Table of Contents

These financial covenants are described below:

Our leverage ratio (the ratio of Net Debt to Consolidated EBITDA, as defined in the Credit Agreement) was (1.7) at June 30, 2012. If this ratio were to exceed 3.50 to 1, we would be in default under our Credit Agreement and our ability to borrow under our Credit Agreement would be impaired.

Our interest coverage ratio (the ratio of Consolidated EBITDA to Net Interest, as defined in the Credit Agreement) was 12.6 at June 30, 2012. If this ratio were to fall below 2.0 to 1, we would be in default under our Credit Agreement and our ability to borrow under the Credit Agreement would be impaired.

Consolidated EBITDA, as defined in the Credit Agreement, allows for adjustments related to unusual gains and losses, certain noncash items, and certain non-recurring charges. At June 30, 2012, we were in compliance with our financial covenants under the Credit Agreement.

Off-balance sheet arrangements. There are no off-balance sheet arrangements that have, or are reasonably likely to have, a current or future material effect on our financial condition, results of operations, liquidity, capital expenditures, or capital resources.

Cash provided by (used in) operating activities. Cash provided by (used in) operating activities for the six months ended June 30, 2012 and 2011 was \$(14.2) million and \$5.2 million, respectively. This decrease is primarily due to increased working capital, resulting from higher accounts receivable and inventories, partially offset by increases in accounts payable and unearned revenue.

Cash provided by (used in) investing activities. Cash provided by (used in) investing activities for the six months ended June 30, 2012 and 2011 was \$(43.8) million and \$(154.3) million, respectively. For the six months ended June 30, 2012, investing activities consisted primarily of the purchase of Remmele, which included cash consideration of \$185.6 million, available-for-sale investments activity which provided \$176.8 million as we sold available-for-sale investments to fund the purchase of Remmele, and capital expenditures of \$34.9 million. For the six months ended June 30, 2011, we had net investment purchases of \$135.7 million and capital expenditures of \$18.6 million.

Cash provided by (used in) financing activities. During both periods presented, there was limited financing activity.

Duty Drawback Investigation

As previously disclosed, we have been subject to investigation by U.S. Customs and Border Protection (U.S. Customs) since 2007 relating to \$7.6 million of historic claims filed in connection with a duty recapture program. As part of this program, we utilized an authorized agent to recapture duty paid on imported titanium sponge as an offset against exports for Company or customer products shipped outside the United States. We had recorded a contingent liability of \$9.5 million as our best estimate of probable loss in connection with the investigation, and repaid \$6.7 million to U.S. Customs through the end of 2011 for invalid claims.

In April 2012, we received favorable rulings from U.S. Customs that effectively settled our ongoing claim protests and were issued a final penalty notice, which provided some penalty relief and reduced our liability for penalties to \$0.9 million. As a result of this final penalty notice, we reduced our contingent liability \$2.2 million with respect to the above-mentioned claims. The liability reduction was recorded during the three months ended March 31, 2012, and the penalty paid during the three months ended June 30, 2012.

We have filed \$8.5 million of new duty drawback claims through a new authorized agent beginning in the fourth quarter of 2007 through the end of 2011. No additional claims have been filed during the six months ended June 30, 2012. As a result of the investigation discussed above, we only record these credits when payment is received from U.S. Customs, until a consistent history of receipts against claims filed has been established, at which time we may begin to recognize credits to cost of sales upon filing. Through June 30, 2012 we have received payments totaling \$3.2 million from U.S. Customs in satisfaction of claims filed since initiating our new duty drawback program.

Table of Contents

Backlog

The Company's order backlog for all markets was approximately \$586 million as of June 30, 2012, compared to \$476 million at December 31, 2011. Of the backlog at June 30, 2012, approximately \$341 million is expected to be realized over the remainder of 2012. We define backlog as firm business scheduled for release into our production process for a specific delivery date. We have numerous contracts that extend multiple years, including the Airbus, JSF, and Boeing 787 Dreamliner® long-term supply agreements, which are not included in backlog until a specific release into production or a firm delivery date has been established.

Environmental Matters

Based on available information, we believe our share of possible environmental-related costs is in a range from \$0.7 million to \$2.1 million in the aggregate. For both June 30, 2012 and December 31, 2011, the amount accrued for future environmental-related costs was \$1.3 million. Of the amount accrued at June 30, 2012, \$1.3 million is recorded in other noncurrent liabilities. During the six months ended June 30, 2012, payments related to our environmental liabilities were \$0.1 million. There were no payments during the three months ended June 30, 2012.

New Accounting Standards

In May 2011, the FASB issued ASU No. 2011-04, *Fair Value Measurement—Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS*. The new guidance amends current fair value measurement and enhances disclosure requirements to include expansion of the information required for Level 3 measurements. The amendments in this ASU are effective for fiscal years and interim periods beginning after December 15, 2011 and are to be applied prospectively. The adoption of this guidance did not have a material impact on our Consolidated Financial Statements.

In December 2011, the FASB issued ASU No. 2011-11 *Balance Sheet—Disclosures about Offsetting Assets and Liabilities*. This new guidance requires the disclosure of both net and gross information in the notes for relevant assets and liabilities that are offset. This update is effective for annual reporting periods beginning on or after January 1, 2013. We are still evaluating the impact that this guidance will have on our Consolidated Financial Statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

There have been no significant changes in our exposure to market risk from the information provided in Item 7A. Quantitative Disclosures about Market Risk in our Annual Report on Form 10-K for the year ended December 31, 2011 as filed with the SEC on February 28, 2012.

Item 4. Controls and Procedures.

As of June 30, 2012, an evaluation was performed under the supervision and with the participation of the Company's management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)). Based on that evaluation, the Company's management concluded that the Company's disclosure controls and procedures were effective as of June 30, 2012. No changes in the Company's internal control over financial reporting were implemented during the Company's most recently completed fiscal quarter that have materially affected or are reasonably likely to materially affect the Company's internal control over financial reporting.

On February 13, 2012, we completed our acquisition of Remmele. See Note 3, *Acquisitions* in the Notes to the accompanying Condensed Consolidated Financial Statements in this Quarterly Report on Form 10-Q for a discussion of the acquisition. Remmele and its subsidiaries represent approximately 19% of the Company's total assets as of June 30, 2012. Management's evaluation and conclusion on the effectiveness of the Company's disclosure controls and procedures as of June 30, 2012 excludes an evaluation of the internal control over financial reporting of Remmele and its subsidiaries, consistent with the SEC's guidance for newly acquired businesses.

Table of Contents

PART II OTHER INFORMATION

Item 1A. Risk Factors.

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2011 as filed with the SEC on February 28, 2012, which could materially affect our business, financial condition, financial results, or future performance. Reference is made to Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations Forward-Looking Statements of this Report which is incorporated herein by reference.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Employees may surrender shares to the Company to pay tax liabilities associated with the vesting of restricted stock awards under the 2004 Stock Plan. There were no shares of Common Stock surrendered to satisfy tax liabilities for the three months ended June 30, 2012. In addition, the Company may repurchase shares of Common Stock under the RTI International Metals, Inc. share repurchase program approved by the Company's Board of Directors on April 30, 1999. The repurchase program authorizes the repurchase of up to \$15 million of RTI Common Stock. No shares were purchased under the program during the three months ended June 30, 2012. At June 30, 2012, approximately \$3 million of the \$15 million remained available for repurchase. There is no expiration date specified for the share repurchase program.

Item 4. Mine Safety Disclosures.

Not applicable.

Item 6. Exhibits.

The exhibits listed on the Index to Exhibits are filed herewith and incorporated herein by reference.
