#### **Forward Looking Statements**

Except for the historical information contained herein, this Quarterly Report on Form 10-Q may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 as amended and Section 21E of the Securities Exchange Act of 1934 as amended. Investors are cautioned that forward-looking statements are inherently uncertain. Actual performance and results of operations may differ materially from those projected or suggested in the forward-looking statements due to certain risks and uncertainties, including, without limitation, (i) the fact that the Company s success is dependent to a significant extent upon general economic conditions in New England, (ii) the fact that the Company s earnings depend to a great extent upon the level of net interest income (the difference between interest income earned on loans and investments and the interest expense paid on deposits and other borrowings) generated by the Bank and thus the Bank s results of operations may be adversely affected by increases or decreases in interest rates, (iii) the fact that the banking business is highly competitive and the profitability of the Company depends upon the Bank s ability to attract loans and deposits within its market area, where the Bank competes with a variety of traditional banking and other institutions such as credit unions and finance companies, and (iv) the fact that a significant portion of the Company s loan portfolio is comprised of commercial loans, exposing the Company to the risks inherent in loans based upon analyses of credit risk, the value of underlying collateral, including real estate, and other more intangible factors, which are considered in making commercial loans. Accordingly, the Company s profitability may be negatively impacted by errors in risk analyses, and by loan defaults, and the ability of certain borrowers to repay such loans may be adversely affected by any downturn in general economic conditions. These factors, as well as general economic and market conditions, may materially and adversely affect the market price of shares of the Company s common stock. Because of these and other factors, past financial performance should not be considered an indicator of future performance. The forward-looking statements contained herein represent the Company s judgment as of the date of this Form 10-Q, and the Company cautions readers not to place undue reliance on such statements.

The consolidated financial statements also include the accounts of the Bank s wholly-owned subsidiaries: Century Subsidiary Investments, Inc. ( CSII ); Century Subsidiary Investments, Inc. II ( CSII II ); Century Subsidiary Investments, Inc. III (CSII III ); and Century Financial Services Inc. ( CFSI ). CSII, CSII II, CSII III are engaged in buying, selling and holding investment securities. CFSI has the power to engage in financial agency, securities brokerage, and investment and financial advisory services and related securities credit. The Company also owns 100% of Century Bancorp Capital Trust II ( CBCT II ). The entity is an unconsolidated subsidiary of the Company.

All significant intercompany accounts and transactions have been eliminated in consolidation. The Company provides a full range of banking services to individual, business and municipal customers in Massachusetts. As a bank holding company, the Company is subject to the regulation and supervision of the Federal Reserve Board. The Bank, a state chartered financial institution, is subject to supervision and regulation by applicable state and federal banking agencies, including the Federal Reserve Board, the Federal Deposit Insurance Corporation (the FDIC) and the Commonwealth of Massachusetts Commissioner of Banks. The Bank is also subject to various requirements and restrictions under federal and state law, including requirements to maintain reserves against deposits, restrictions on the types and amounts of loans that may be granted and the interest that may be charged thereon, and limitations on the types of investments that may be made and the types of services that may be offered. Various consumer laws and regulations also affect the operations of the Bank. In addition to the impact of regulation, commercial banks are affected significantly by the actions of the Federal Reserve Board as it attempts to control the money supply and credit availability in order to influence the economy. All aspects of the Company s business are highly competitive. The Company faces aggressive competition from other lending institutions and from numerous other providers of financial services. The Company has one reportable operating segment.

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America and general practices within the banking industry. In preparing the financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the balance sheet and revenues and expenses for the period. Actual results could differ from those estimates. The Company s quarterly report on Form 10-Q should be read in conjunction with the Company s Annual Report on Form 10-K for the fiscal year ended December 31, 2011, as filed with the Securities and Exchange Commission.

Material estimates that are susceptible to change in the near-term relate to the allowance for loan losses. Management believes that the allowance for loan losses is adequate based on independent appraisals and review of other factors, including historical charge-off rates with additional allocations based on risk factors for each category and general economic factors. While management uses available information to recognize loan losses, future additions to the allowance for loan losses may be necessary based on changes in economic conditions. In addition, regulatory agencies periodically review the Company s allowance for loan losses. Such agencies may require the Company to recognize additions to the allowance for loan losses based on their judgments about information available to them at the time of their examination. Certain reclassifications are made to prior-year amounts whenever necessary to conform with the current-year presentation.

#### **Revision of EPS Presentation**

The Company determined in the quarter ended June 30, 2012 that although the Class A and Class B common stock have different dividend rates, the Company had not applied the two-class method when calculating earnings per share ( EPS ) separately for the Class A and Class B common stock. This resulted in immaterial revisions to previously reported basic EPS for Class A and Class B common stock and diluted EPS for the Class B common stock as summarized below:

For the quarter ended June 30, 2011:

	As	
	previously	As
	reported	revised
Basic EPS Class A common	\$ 0.76	\$ 0.92
Basic EPS Class B common	\$ 0.76	\$ 0.46
Diluted EPS Class A common	\$ 0.76	\$ 0.76
Diluted EPS Class B common	\$ 0.76	\$ 0.46

For the six months ended June 30, 2011:

	As	
	previously	As
	reported	revised
Basic EPS Class A common	\$ 1.43	\$ 1.74
Basic EPS Class B common	\$ 1.43	\$ 0.87
Diluted EPS Class A common	\$ 1.43	\$ 1.43
Diluted EPS Class B common	\$ 1.43	\$ 0.87

#### **Note 2. Recent Market Developments**

The financial services industry continues to face unprecedented challenges in the aftermath of the recent national and global economic crisis. Since June 2009, the US economy has been recovering from the most severe recession and financial crisis since the Great Depression. There have been some improvements in private sector employment, industrial production and US exports; nevertheless, the pace of economic recovery has been extremely slow. The housing markets continue to be depressed. Financial markets have improved since the depths of the crisis, but are still unsettled and volatile. Investors have pulled back from risky assets. Lower equity prices and wider spreads on corporate bonds and other debt instruments and greater pressures on financial institutions have resulted. At the same time, heightened demand for safe assets has put downward pressure on yields. There is continued concern about the US economic outlook and the potential effects of the continued crisis in the European financial markets.

On July 21, 2010, the Dodd-Frank Wall Street Reform and Consumer Protection Act became law. The Act was intended to address many issues arising in the recent financial crisis and is exceedingly broad in scope affecting many aspects of bank and financial market regulation. The Act requires, or permits by implementing regulation, enhanced prudential standards for banks and bank holding companies inclusive of capital, leverage, liquidity, concentration and exposure measures. In addition, traditional bank regulatory principles such as restrictions on transactions with affiliates and insiders were enhanced. The Act also contains reforms of consumer mortgage lending practices and creates a Bureau of Consumer Financial Protection which is granted broad authority over consumer financial practices of banks and others. It is expected as the specific new or incremental requirements applicable to the Company become effective that the costs and difficulties of remaining compliant with all such

requirements will increase. The Act broadens the base for FDIC assessments to average consolidated assets less tangible equity of financial institutions and also permanently raises the current standard maximum FDIC deposit insurance amount to \$250,000. The Act extends unlimited deposit insurance on non-interest bearing transaction accounts through December 31, 2012.

On September 29, 2009, the FDIC adopted a Notice of Proposed Rulemaking (NPR) that would require insured institutions to prepay their estimated quarterly risk-based assessments for the fourth quarter of 2009 and for all of 2010, 2011 and 2012. The FDIC Board voted to adopt a uniform three-basis point increase in assessment rates effective on January 1, 2011, and extend the restoration period from seven to eight years. This rule was finalized on November 2, 2009. As a result, the Company is carrying a prepaid asset of \$3.6 million as of June 30, 2012. The Company s quarterly risk-based deposit insurance assessments will be paid from this amount until the amount is exhausted or until December 30, 2014, when any amount remaining would be returned to the Company.

On September 30, 2011, the Massachusetts Department of Revenue issued a Draft Directive prohibiting a corporation from pledging more than 50 percent of security corporation stock it owns to secure a borrowing, effective for tax years beginning on or after October, 2012. Century Bank currently utilizes the stock of two of its security corporations to secure Federal Home Loan Bank of Boston (FHLBB) advances. Should this draft directive have become effective, Century Bank would have had fewer assets available to secure FHLBB advances, or would have had a higher tax rate if it chose to utilize security corporations to a lesser extent. On April 6, 2012, the Massachusetts Department of Revenue issued an updated Draft Directive allowing a corporation to pledge up to 100% of security corporation stock it owns to secure a borrowing. This revised Draft Directive would allow Century Bank to continue to utilize existing assets to secure FHLBB advances without pledging limitations. On May 24, 2012, the Massachusetts Department of Revenue issued Directive 12-2. The directive states that the pledge by a shareholder of shares of stock of a corporation as security or collateral for a loan to the shareholder, in and of itself, will not preclude classification of the corporation as a security corporation or result in revocation of a corporation s existing security corporation classification.

#### **Note 3. Stock Option Accounting**

Stock option activity under the Company s stock option plan for the six months ended June 30, 2012 is as follows:

	Amount	Weighted Average Exercise Price
Shares under option:		
Outstanding at beginning of year	36,062	\$ 28.90
Exercised	(5,712)	22.68
Forfeited	(450)	22.50
Outstanding at end of period	29,900	\$ 30.19
Exercisable at end of period	29,900	\$ 30.19
Available to be granted at end of period	223,534	

On June 30, 2012, the outstanding options to purchase 29,900 shares of Class A common stock have exercise prices between \$26.68 and \$31.83, with a weighted average exercise price of \$30.19 and a weighted average remaining contractual life of 1.7 years. The intrinsic value of options exercisable at June 30, 2012 had an aggregate value of \$13,300. The intrinsic value of options exercised at June 30, 2012 had an aggregate value of \$30.828.

The Company uses the fair value method to account for stock options. All of the Company s stock options are vested and there were no options granted during the first six months of 2012.

Included in U.S. Government Sponsored Enterprise Securities and U.S. Government Agency and Sponsored Enterprise Mortgage-Backed Securities are securities at fair value pledged to secure public deposits and repurchase agreements amounting to \$518,480,000 and \$488,690,000 at June 30, 2012 and December 31, 2011, respectively. Also included in securities available-for-sale are securities pledged for borrowing at the Federal Home Loan Bank of Boston amounting to \$261,401,000 and \$246,036,000 at June 30, 2012 and December 31, 2011, respectively. The Company realized gross gains of \$590,000 from the proceeds of \$233,002,000 from the sales of available-for-sale securities for the six months ended June 30, 2012. The Company realized gross gains of \$362,000 from the proceeds of \$20,516,000 from the sales of available-for-sale securities for the six months ended June 30, 2011.

Debt securities of Government Sponsored Enterprises primarily refer to debt securities of Fannie Mae and Freddie Mac.

The following table shows the maturity distribution of the Company s securities available-for-sale at June 30, 2012.

	Amortized	Fair		
	Cost	Value		
	(In thou	usands)		
Within one year	\$ 107,680	\$ 108,256		
After one but within five years	930,190	945,124		
After five but within ten years	169,462	171,792		
More than 10 years	10,557	9,789		
Non-maturing	1,999	2,063		
Total	\$ 1,219,888	\$ 1,237,024		

The weighted average remaining life of investment securities available-for-sale at June 30, 2012 was 3.5 years. Included in the weighted average remaining life calculation at June 30, 2012 was \$34,269,000 of U.S. Government Sponsored Enterprises obligations that are callable at the discretion of the issuer. These call dates were not utilized in computing the weighted average remaining life. The contractual maturities, which were used in the table above, of mortgage-backed securities will differ from the actual maturities, due to the ability of the issuers to prepay underlying obligations.

Page 12 of 40

As of June 30, 2012 and December 31, 2011, management concluded that the unrealized losses of its investment securities are temporary in nature since they are not related to the underlying credit quality of the issuers, and the Company does not intend to sell these debt securities and it is not likely that it will be required to sell these debt securities before the anticipated recovery of its remaining amortized cost. In making its other-than-temporary impairment evaluation, the Company considered the fact that the principal and interest on these securities are from issuers that are investment grade. The change in the unrealized losses on the state and municipal securities and the nonagency mortgage-backed securities was primarily caused by changes in credit spreads and liquidity issues in the marketplace.

The unrealized loss on U.S. Government Sponsored Enterprises and U.S. Government Sponsored Enterprises Mortgage Backed Securities related primarily to interest rates and not credit quality and because the Company has the ability and intent to hold these investments until recovery of fair value, which may be maturity, the Company does not consider these investments to be other-than-temporarily impaired.

In evaluating the underlying credit quality of a security, management considers several factors such as the credit rating of the obligor and the issuer, if applicable. Internal reviews of issuer financial statements are performed as deemed necessary. In the case of privately issued mortgage-backed securities, the performance of the underlying loans is analyzed as deemed necessary to determine the estimated future cash flows of the securities. Factors considered include the level of subordination, current and estimated future default rates, current and estimated prepayment rates, estimated loss severity rates, geographic concentrations and origination dates of underlying loans. In the case of marketable equity securities, the severity of the unrealized loss, the length of time the unrealized loss has existed, and the issuer s financial performance are considered.

The following table shows the temporarily impaired securities of the Company s available-for-sale portfolio at June 30, 2012. This table shows the unrealized market loss of securities that have been in a continuous unrealized loss position for 12 months or less and a continuous loss position for 12 months and longer. There are 23 and 5 securities that are temporarily impaired for less than 12 months and for 12 months or longer, respectively, out of a total of 461 holdings at June 30, 2012.
