NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. GENERAL

During 2002, Plumas Bancorp (the Company) was incorporated as a bank holding company for the purpose of acquiring Plumas Bank (the Bank) in a one bank holding company reorganization. This corporate structure gives the Company and the Bank greater flexibility in terms of operation expansion and diversification. The Company formed Plumas Statutory Trust I (Trust I) for the sole purpose of issuing trust preferred securities on September 26, 2002. The Company formed Plumas Statutory Trust II (Trust II) for the sole purpose of issuing trust preferred securities on September 28, 2005.

The Bank operates eleven branches in California, including branches in Alturas, Chester, Fall River Mills, Greenville, Kings Beach, Portola, Quincy, Redding, Susanville, Tahoe City, and Truckee. The Bank's administrative headquarters is in Quincy, California. In addition, the Bank operates a loan administrative office in Reno, Nevada and a lending office specializing in government-guaranteed lending in Auburn, California. The Bank's primary source of revenue is generated from providing loans to customers who are predominately small and middle market businesses and individuals residing in the surrounding areas.

On July 21, 2010, President Barack Obama signed the Dodd-Frank Wall Street Reform and Consumer Protection Act (the Dodd-Frank Act), which, in part, permanently raised the current standard maximum deposit insurance amount to \$250,000. Amendments related to the enactment of the Dodd-Frank Act provide full deposit insurance coverage for noninterest bearing deposit transaction accounts beginning December 31, 2010 for a two year period.

2. REGULATORY MATTERS

On February 15, 2012, the Bank received notice from the Federal Deposit Insurance Corporation (FDIC) and the California Department of Financial Institutions (DFI) that the Consent Order (Order) with the FDIC and the DFI which was effective on March 16, 2011 had been terminated. While the Bank is no longer subject to an Order, the Bank has entered into an informal agreement with the FDIC and DFI which, among other things, requests that the Bank continue to maintain a Tier 1 Leverage Capital Ratio of 9% which is in excess of that required for well capitalized institutions and continue to reduce its level of classified asset balances that were outstanding as of September 30, 2011 to not more than 50% of Tier 1 Capital plus the allowance for loan losses. At June 30, 2012 this ratio was 47% down from 68% at December 31, 2011 and the Bank's tier 1 leverage capital ratio was 10.5%.

On July 28, 2011 the Company entered into an agreement with the Federal Reserve Bank of San Francisco (the FRB Agreement). Under the terms of the FRB Agreement, Plumas Bancorp has agreed to take certain actions that are designed to maintain its financial soundness so that it may continue to serve as a source of strength to the Bank. Among other things, the FRB Agreement requires prior written approval related to the payment or taking of dividends and distributions, making any distributions of interest, principal or other sums on subordinated debentures or trust preferred securities, incurrence of debt, and the purchase or redemption of stock. In addition, the FRB Agreement requires Plumas Bancorp to annually submit a written statement of Plumas Bancorp's planned sources and uses of cash for debt service, operating expense and other purposes (Cash Flow Statement). The Company has submitted the Cash Flow Statements within the required time frames.

3. CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

The condensed consolidated financial statements include the accounts of the Company and the accounts of its wholly-owned subsidiary, Plumas Bank. Plumas Statutory Trust I and Plumas Statutory Trust II are not consolidated into the Company's consolidated financial statements and, accordingly, are accounted for under the equity method. In the opinion of management, the unaudited condensed consolidated financial statements contain all adjustments (consisting of only normal recurring adjustments) necessary to present fairly the Company's financial position at June 30, 2012 and December 31, 2011 and its results of operations for the three-month and six-month periods ended June 30, 2012 and 2011 and its cash flows for the six-month periods ended June 30, 2012 and 2011. Our condensed consolidated balance sheet at December 31, 2011 is derived from audited financial statements. Certain reclassifications have been made to prior period's balances to conform to classifications used in 2012. These reclassifications had no impact on the Company's consolidated financial position, results of operations or net change in cash and cash equivalents.

The unaudited condensed consolidated financial statements of the Company have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (SEC) for interim reporting on Form 10-Q. Accordingly, certain disclosures normally presented in the notes to the annual consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) have been omitted. The Company believes that the disclosures are adequate to make the information not misleading. These interim financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's 2011 Annual Report to Shareholders on Form 10-K. The results of operations for the three-month and six-month periods ended June 30, 2012 may not necessarily be indicative of future operating results. In preparing such financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the balance sheet and revenues and expenses for the periods reported. Actual results could differ significantly from those estimates.

Management has determined that because all of the commercial banking products and services offered by the Company are available in each branch of the Bank, all branches are located within the same economic environment and management does not allocate resources based on the performance of different lending or transaction activities, it is appropriate to aggregate the Bank branches and report them as a single operating segment. No single customer accounts for more than 10% of the revenues of the Company or the Bank.

The unrealized losses primarily relate to changes in interest rates and other market conditions. All of the securities continue to pay as scheduled. When analyzing an issuer's financial condition, management considers the length of time and extent to which the market value has been less than cost; the historical and implied volatility of the security; the financial condition of the issuer of the security; and the Company's intent and ability to hold the security to recovery. The concessions may be granted in various forms, one or a combination of the following: a reduction of the stated interest rate of the loan; an extension of the maturity date at a stated rate of interest lower than the current market rate for new debt with similar risk; or a permanent reduction of the recorded investment in the loan. In order to determine whether a borrower is experiencing financial difficulty, an evaluation is performed of the probability that the borrower will be in payment default on any of its debt in the foreseeable future without the modification. This evaluation is performed under the Company's internal underwriting policy.

Edgar Filing: PLUMAS BANCORP - Form 10-Q

The Company assigns a risk rating to all loans and periodically, but not less than annually, performs detailed reviews of all such loans over \$100,000 to identify credit risks and to assess the overall collectability of the portfolio. These risk ratings are also subject to examination by independent specialists engaged by the Company and the Company's regulators. During these internal reviews, management monitors and analyzes the financial condition of borrowers and guarantors, trends in the industries in which borrowers operate and the fair values of collateral securing these loans. These credit quality indicators are used to assign a risk rating to each individual loan.

The risk ratings can be grouped into five major categories, defined as follows:

Pass A pass loan is a strong credit with no existing or known potential weaknesses deserving of management's close attention.

Watch A Watch loan has potential weaknesses that deserve management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or in the Company's credit position at some future date. Watch loans are not adversely classified and do not expose the Company to sufficient risk to warrant adverse classification.

Substandard A substandard loan is not adequately protected by the current sound worth and paying capacity of the borrower or the value of the collateral pledged, if any. Loans classified as substandard have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. Well defined weaknesses include a project's lack of marketability, inadequate cash flow or collateral support, failure to complete construction on time or the project's failure to fulfill economic expectations. They are characterized by the distinct possibility that the Company will sustain some loss if the deficiencies are not corrected.

Doubtful Loans classified doubtful have all the weaknesses inherent in those classified as substandard with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently known facts, conditions and values, highly questionable and improbable.

Loss Loans classified as loss are considered uncollectible and charged off immediately.
