Forward Looking Statements

This presentation may contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, as amended, regarding Eaton, Eaton Global plc, the acquisition and other transactions contemplated by the Transaction Agreement, our acquisition financing, our credit rating and our revenues and operating earnings. These statements or disclosures may discuss goals, intentions and expectations.

trends, plans, events, results of operations or financial condition, or state other information relating to Eaton or Eaton Global p  
beliefs of management as well as assumptions made by, and information currently available to, management. Forward-looking  
will be accompanied by words such as anticipate,

believe,  
plan,  
could,  
estimate,  
expect,  
forecast,  
guidance,  
intend,  
may,  
possible,  
potential,  
predict,  
project

or other similar words, phrases or expressions. These forward-looking statements are subject to various risks and  
uncertainties, many of which are outside of our control. Therefore, you should not place undue reliance on such statements. Fa

actual  
results  
to  
differ  
materially  
from  
those  
in  
the  
forward-looking  
statements  
include  
adverse  
regulatory  
decisions;  
failure  
to  
satisfy  
other  
closing  
conditions with respect to the Acquisition; the risks that the new businesses will not be integrated successfully or that we will r  
cost savings and synergies; our ability to refinance the bridge loan on favorable terms and maintain our current long-term credi  
changes in the markets for our business segments; unanticipated downturns in business relationships with customers or their pu  
competitive  
pressures  
on  
our  
sales  
and  
pricing;  
increases  
in

the  
cost  
of  
material,  
energy  
and  
other  
production  
costs,  
or  
unexpected  
costs  
that  
cannot  
be recouped in product pricing; the introduction of competing technologies; unexpected technical or marketing difficulties; unexpected  
charges,  
litigation  
or  
dispute  
resolutions;  
new  
laws  
and  
governmental  
regulations.  
The  
foregoing  
list  
of  
factors  
is  
not  
exhaustive.  
You  
should  
carefully  
consider the foregoing factors and the other risks and uncertainties that affect our business described in our Annual Report on Form  
Reports  
on  
Form  
10-Q,  
Current  
Reports  
on  
Form  
8-K  
and  
other  
documents  
filed

from  
time  
to  
time  
with  
the  
SEC.

We  
do  
not  
assume  
any  
obligation  
to  
update these forward-looking statements.

No statement in this presentation is intended to constitute a profit forecast for any period, nor should any statements be interpreted as representing

earnings  
or  
earnings  
per  
share  
will  
necessarily  
be  
greater  
or  
lesser  
than  
those  
for  
the  
relevant  
preceding  
financial  
periods  
for  
Eaton.

Broad portfolio of complementary products

Market segment expansion:

Upstream into power solutions encompassing primary and secondary distribution, grid automation, and smart grid

Downstream into lighting, lighting controls, and wiring devices

Expands our solutions with all channels

Well positioned to address long-term global requirements

Aging grid

Increased spending on energy & infrastructure

Protecting people, equipment and data

The strategic rationale for this acquisition is compelling -

I

Methodology for calculations used in the presentations

Return on equity = trailing 4 quarters net income / average trailing 5 quarters shareholder's equity

Return on invested capital = (EBIT - taxes) / average (total debt + equity)

Return on sales = net income / sales

Total return = stock price appreciation + dividend yield

Net debt to total capital = (total debt - cash & equivalents) / (total debt - cash & equivalents + equity)

Cash flow coverage ratio = (pre-tax income + depreciation + amortization + interest expense) / interest expense

Edgar Filing: EATON CORP - Form 425

Segment net working capital (including acquisitions) = accounts receivable + inventory - accounts payable. All amounts averaged

DSO = average of quarterly DSO; quarterly DSO = quarter end accounts receivable / quarter sales \* 90 days

DOH = average of quarterly DOH; quarterly DOH = quarter end inventory / quarter COGS \* 90 days

DPO = average of quarterly DPO; quarterly DPO = quarter end accounts payable / quarter COGS \* 90days

Cash conversion cycle = DSO + DOH - DPO

Free cash flow = cash flow from operations - capital expenditures
