The Company supports its brands with innovative advertising and promotional campaigns designed to increase brand awareness, and provides its licensees with coordinated trend direction to enhance product appeal and help maintain and build brand integrity.

The Company has a business strategy designed to maximize the value of its brands by entering into strategic licenses with licensees that have the responsibility for designing, manufacturing and distributing the licensed products. Licensees are selected based upon the Company's belief that they will be able to produce and sell quality products in the categories of their specific expertise and that they are capable of exceeding minimum sales targets and royalties that the Company generally requires for each brand.

The Company plans to continue to build its brand portfolio by acquiring additional brands directly or through joint ventures. In assessing potential acquisitions or investments, the Company primarily evaluates the strength of the target brand as well as the expected viability and sustainability of future royalty streams. The Company believes that this focused approach allows it to screen a wide pool of consumer brand candidates, quickly evaluate acquisition targets and efficiently complete due diligence for potential acquisitions.

In addition, the Company also seeks to monetize its brands through international licenses, partnerships and other arrangements, such as joint ventures. Since September 2008, the Company has established the following international joint ventures: Iconix China, Iconix Latin America, Iconix Europe, OP Japan and Iconix India.

Bright Star acts solely as an agent and never assumes ownership of the goods. Licensing and other relationships

The Company's business strategy is to maximize the value of its brands by entering into strategic licenses with licensees who have the responsibility for manufacturing and selling the licensed products. The Company licenses its brands with respect to a broad range of products, including apparel, footwear, fashion accessories, sportswear, home products and décor, and beauty and fragrance, and in the case of its Sharper Image brand, consumer electronics and novelty products, and further, in the case of our Peanuts brands, a wide range of consumer products and entertainment and media services. The Company seeks licensees with the ability to produce and sell quality products in their licensed categories and the demonstrated ability to meet and exceed minimum sales thresholds and royalty payments to the Company.

The Company maintains direct-to-retail and traditional wholesale licenses. Typically, in a direct-to-retail license, the Company grants exclusive rights to one of its brands to a single national retailer for a broad range of product categories. For example, the Candie's brand is licensed exclusively to Kohl's in the United States across a variety of product categories. Direct-to-retail licenses provide retailers with proprietary rights to national brands and favorable economics. Proprietary brands also typically receive greater support from retailers, including premium shelf space and strong in-store presentations. In a traditional wholesale license, the Company grants rights to a single or small group of related product categories to a wholesale supplier, who is permitted to sell licensed products to multiple stores within an approved channel of distribution. For example, the Company licenses the Umbro brand to numerous wholesale suppliers for products ranging from athleticwear to footwear and apparel, for sale and distribution primarily to department and specialty stores.

Each of the Company's licenses has a stipulated territory or territories, as well as distribution channels in which the licensed products may be sold. Currently, the majority of the Company's revenues are from domestic based licenses, but the Company also seeks to monetize its trademarks internationally through licenses, partnerships, and other arrangements, such as joint ventures. Since 2008, the Company entered into five international joint ventures. For further information, see above for discussion on Iconix China, Iconix Latin America, Iconix Europe, OP Japan and Iconix India.

The Company's licenses typically require the licensee to pay the Company royalties based upon net sales with guaranteed minimum royalties in the event that net sales do not reach certain specified targets. The Company's licenses also typically require the licensees to pay to the Company certain minimum amounts for the advertising and marketing of the respective licensed brands. As of January 1, 2013 the Company and its joint ventures had a contractual right to receive over \$600 million of aggregate minimum royalty revenue through the balance of all of their current licenses, excluding any renewals.

The Company believes that coordination of brand presentation across product categories is critical to maintaining the strength and integrity of its brands. Accordingly, the Company typically maintains the right in its licenses to preview and approve all product, packaging and other presentations of the licensed mark. Moreover, in many of its licenses, prior to each season, representatives of the Company supply licensees with trend guidance as to the look and feel of the current trends for the season, including colors, fabrics, silhouettes and an overall style sensibility, and then work with licensees to coordinate the licensed products across the categories to maintain the cohesiveness of the brand's overall presentation in the market place. Thereafter, the Company obtains and approves (or objects and requires modification to) product and packaging provided by each licensee on an on-going basis. In addition, the Company communicates with its licensees throughout the year to obtain and review reporting of sales and the calculation and payment of royalties.

Marketing

Edgar Filing: ICONIX BRAND GROUP, INC. - Form 10-K

The Company believes that marketing is a critical element in maximizing brand value to its licensees and to the Company. The Company's in-house marketing team tailors advertising for the Company's brands, and each year the Company develops new marketing and promotional campaigns that incorporate the design aesthetic of each brand.

The Company believes that its innovative national marketing and promotional campaigns result in increased sales and consumer awareness of its brands. Because of the Company's established relationships with agents, managers, magazine publishers and the media in general, the Company

Table of Contents

has been able to leverage advertising dollars into successful public relations campaigns that reach tens of millions of consumers. The Company also works with its joint venture partners with respect to marketing, advertising and trend direction.

The Company's advertising expenditures for each of its brands are dedicated largely to crafting and developing creative advertising concepts, reaching appropriate arrangements with spokespeople, advertisements in magazines and trade publications, running internet advertisements and promoting public relations events, securing product placements and developing sweepstakes and media contests often featuring personal appearances and concerts. The advertisements for the Company's various brands have appeared in fashion magazines such as *Seventeen*, *Teen Vogue*, *Cosmopolitan*, *People Style Watch*, *InStyle* and *Elle*, as well as in popular lifestyle and entertainment magazines such as *Us Weekly*, *Better Homes and Gardens*, and *Star*, as well as in newspapers, on outdoor billboards, through social media sites such as Facebook®, Twitter®, Pinterest® and Instagram®, as well as through various blogs, e-mail blasts, banner advertisements, online sweepstakes and gift with purchase programs. The Company also has used television commercials to promote certain of its brands, partnering with licensees to create and air commercials that will generate excitement for its brands with consumers.

The Company maintains a website (www.iconixbrand.com) to further market its brands. In addition, the Company has established an intranet for approved vendors and service providers who can access additional materials and download them through a secure network. The Company also maintains, in some cases through its licensees, separate, dedicated sites for its brands.

Many of the Company's license agreements require the payment of an advertising royalty by the licensee, and in certain cases, the Company's licensees are required to supplement the marketing of the Company's brands by performing additional advertising through trade, cooperative or other sources.

The Company has organized its brand management and marketing functions to foster its ability to develop innovative and creative marketing and brand support for its brands. This structure can be leveraged to support future acquisitions with limited growth in expense. Typically, each brand is staffed with a brand manager who is supported by a fashion and product development team and who works closely with the creative and graphic groups in the marketing department. Although each brand's creative direction and image is developed independently, the creative team meets together on a regular basis to share ideas that might work across multiple or all brands. Licensees are provided information both through group meetings and individual sessions, as well as through intranet sites, where creative ideas, brand marketing campaigns and graphics are accessible and easy to download and use in an authorized manner.

Trend direction

The Company's in-house trend direction teams support the brands by providing licensees with unified trend direction and guidance and by coordinating the brand image across licensees and product categories. The Company's trend direction personnel are focused on identifying and interpreting the most current trends, both domestically and internationally, and helping forecast the future design and product demands of the respective brands' customers. Typically, the Company develops a trend guide, including colors, fabrics, silhouettes and an overall style sensibility for a brand and for each product season, and then works with licensees to maintain consistency with the overall brand presentation across product categories. In addition, the Company has product approval rights in most licenses and further controls the look and mix of products its licensees produce through that process. With respect to Badgley Mischka, the Company has contracted the exclusive services of the designers who founded the brand to control creative direction. Also, with respect to IPH Unltd (owner of the Ecko brands), Hardy Way (owner of the Ed Hardy brand) and MG Icon (owner of the Material Girl and Truth or Dare brands), the Company has entered into arrangements with its partners to oversee and control the creative aspects of the brands.

The Company website

The Company maintains a website at www.iconixbrand.com, which provides a wide variety of information on each of its brands. The Company also makes available free of charge on its website its annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and any amendments to those reports filed with or furnished to the Securities and Exchange Commission, herein referred to as the SEC, under applicable law as soon as reasonably practicable after it files such material. The Company's website also contains information about its history, investor relations, governance and links to access copies of its publicly filed documents. Further, the Company has established an intranet with approved vendors and service providers who can access additional materials and download them through a secure network. In addition, there are websites for many of the Company's brands, operated by the Company or its licensees, for example, at www.candies.com, www.badgleymischka.com, www.joeboxer.com and www.rocawear.com. The information regarding the Company's website address and/or those sites established for its brands is provided for convenience, and the Company is not including the information contained on the Company's and brands' websites as part of, or incorporating it by reference into, this Annual Report on Form 10-K.

Competition

Edgar Filing: ICONIX BRAND GROUP, INC. - Form 10-K

The Company's brands are all subject to extensive competition from various domestic and foreign brands. Each of its brands has many competitors within each of the brands respective specific distribution channels that span a broad variety of product categories including the apparel and home furnishings and decor industries. For example, while Starter may compete with Russell Athletic in the athletic apparel business, Joe Boxer competes with Hanes and Jockey with respect to underwear in the mass tier, and Badgley Mischka competes with other couture apparel and bridal brands in the luxury market, such as Carolina Herrera or Oscar de la Renta. Other of our brands (such as Danskin), which are distributed both at the mass level (through the diffusion brand Danskin Now) and at the department and specialty

Table of Contents

store level, may have many competitors in different or numerous distribution channels. These competitors have the ability to compete with the Company's licensees in terms of fashion, quality, price and/or advertising.

In addition, the Company faces competition for retail licenses and brand acquisitions. Companies owning established brands may decide to enter into licensing arrangements with retailers similar to the ones the Company currently has in place, thus creating direct competition. Similarly, the retailers to which the Company currently, or may otherwise, license its brands, may decide to develop or purchase brands rather than enter into license agreements with the Company. The Company also competes with traditional apparel, consumer and entertainment brand companies and with other brand management companies for acquisitions.

Trademarks

The Company's trademarks are owned by our subsidiaries and International Joint Ventures in their respective territories, herein referred to as the International Joint Venture Territories. These trademarks and associated marks are registered or pending registration with the U.S. Patent and Trademark Office and in other countries throughout the world in block letter and/or logo formats, as well as in combination with a variety of ancillary marks for use with respect to, depending on the brand, a variety of product categories, including footwear, apparel, fragrance, handbags, watches and various other goods and services, including in some cases, home accessories and electronics, and in the case of our Peanuts brands, for a wide range of consumer products and entertainment and media services.

The Company monitors on an ongoing basis unauthorized uses and filings of its trademarks, and the Company relies primarily upon a combination of federal, state, and local laws, as well as contractual restrictions to protect its intellectual property rights both domestically and internationally.

Employees

As of December 31, 2012, the Company had a total of 148 employees. Of these 148 full-time employees, four were named executive officers of the Company. The remaining employees are senior managers, middle management, marketing and administrative personnel. None of the Company's employees are represented by a labor union. The Company considers its relationship with its employees to be satisfactory.

Item 1.A. Risk Factors

We operate in a changing environment that involves numerous known and unknown risks and uncertainties that could impact our operations. The following highlights some of the factors that have affected, and in the future, could affect our operations:

The failure of our licensees to adequately produce, market and sell products bearing our brand names in their license categories or to pay their obligations under their license agreements could result in a decline in our results of operations.

Edgar Filing: ICONIX BRAND GROUP, INC. - Form 10-K

Our revenues are almost entirely dependent on royalty payments made to us under our licensing agreements. Although the licensing agreements for our brands usually require the advance payment to us of a portion of the licensing fees and in most cases provide for guaranteed minimum royalty payments to us, the failure of our licensees to satisfy their obligations under these agreements or their inability to operate successfully or at all, could result in their breach and/or the early termination of such agreements, their non-renewal of such agreements or our decision to amend such agreements to reduce the guaranteed minimums or sales royalties due thereunder, thereby eliminating some or all of that stream of revenue. Further, there can be no assurances that the licensees under our licensing agreements will renew or extend the term of those agreements or enter into agreements, or that, if licensees do not renew existing licensing agreements or enter into new licensing agreements, we will be successful in replacing those existing licensing agreements with new licensing agreements with new licensees. Any of such failures could reduce the anticipated revenue stream to be generated by the licensing agreements. Moreover, during the terms of the license agreements, we are substantially dependent upon the abilities of our licensees to maintain the quality and marketability of the products bearing our trademarks, as their failure to do so could materially

Table of Contents

tarnish our brands, thereby harming our future growth and prospects. In addition, the failure of our licensees to meet their production, manufacturing and distribution requirements could cause a decline in their sales and potentially decrease the amount of royalty payments (over and above the guaranteed minimums) due to us. A weak economy or softness in certain sectors including apparel, consumer products, retail and entertainment, could exacerbate this risk. This, in turn, could decrease our potential revenues.

Our business is dependent on continued market acceptance of our brands and the products of our licensees bearing these brands.

Although most of our licensees guarantee minimum net sales and minimum royalties to us, a failure of our brands or of products bearing our brands to achieve or maintain market acceptance could cause a reduction of our licensing revenues and could further cause existing licensees not to renew their agreements. Such failure could also cause the devaluation of our trademarks, which are our primary intellectual property assets, making it more difficult for us to renew our current licenses upon their expiration or enter into new or additional licenses for our trademarks. In addition, if such devaluation of our trademarks were to occur, a material impairment in the carrying value of one or more of our trademarks could also occur and be charged as an expense to our operating results. The industries in which we compete, including the apparel industry, are subject to rapidly evolving trends and competition. In addition, consumer tastes change rapidly. As a consequence, continued market acceptance of our brands and our licensees' products, as well as market acceptance of any future products bearing our brands, is subject to a high degree of uncertainty, made more so by constantly changing consumer tastes and preferences. The licensees under our licensing agreements may not be able to anticipate, gauge or respond to such changes in a timely manner. Our future success will be dependent, in part, on our licensees' abilities to anticipate, identify and capitalize upon emerging fashion trends, including products, styles, fabrics and colors, and to distinguish themselves within the apparel market. Continued and substantial marketing efforts, which may, from time to time, also include our expenditure of significant additional funds to keep pace with changing consumer demands, are required to maintain market acceptance of the licensees' products and to create market acceptance of new products and categories of products bearing our trademarks; however, these expenditures may not result in either increased market acceptance of, or licenses for, our trademarks or increased market acceptance, or sales, of our licensees' products. Furthermore, while we believe that we currently maintain sufficient control over the products our licensees produce under our brand names through the provision of trend direction and our right to preview and approve a majority of such products, including their presentation and packaging, we do not actually design or manufacture products bearing our marks and therefore have more limited control over such products quality and design than a traditional product manufacturer might have.

Our existing and future debt obligations could impair our liquidity and financial condition, and in the event we are unable to meet our debt obligations we could lose title to our trademarks.

As of December 31, 2012, our consolidated balance sheet reflects debt of approximately \$911.7 million, including secured debt of \$657.0 million (\$600 million under Series 2012-1 4.229% Senior Secured Notes, Class A-2 issued by our subsidiaries, Icon Brand Holdings LLC, Icon DE Intermediate Holdings LLC, Icon DE Holdings LLC and Icon NY Holdings LLC, (collectively referred to as the ABS Co-Issuers) herein referred to as the Senior Secured Notes, and \$57.0 million under a promissory note entered into with a third party as part of the IPH Unltd transaction in October 2009, herein referred to as the Ecco Note). In accordance with Accounting Standards Codification (herein referred to as ASC) 820, our 2.50% convertible senior subordinated notes due June 2016, herein referred to as our 2.50% Convertible Notes, is included in our \$911.7 million of consolidated debt at a net debt carrying value of \$254.7 million; however, the principal amount owed to the holders of our 2.50% Convertible Notes is \$300.0 million (due June 1, 2016). Also the Ecco Note, while consolidated on our balance sheet, is an obligation solely of the IPH Unltd joint venture, with no recourse to the Company beyond the Zoo York marks pledged as security thereunder by ZY Holdings. We may also assume or incur additional debt, including secured debt, in the future in connection with, or to fund, future acquisitions. Our debt obligations:

could impair our liquidity;

could make it more difficult for us to satisfy our other obligations;

require us to dedicate a substantial portion of our cash flow to payments on our debt obligations, which reduces the availability of our cash flow to fund working capital, capital expenditures and other corporate requirements;

Edgar Filing: ICONIX BRAND GROUP, INC. - Form 10-K

could impede us from obtaining additional financing in the future for working capital, capital expenditures, acquisitions and general corporate purposes;

impose restrictions on us with respect to the use of our available cash, including in connection with future acquisitions;

make us more vulnerable in the event of a downturn in our business prospects and could limit our flexibility to plan for, or react to, changes in our licensing markets; and

could place us at a competitive disadvantage when compared to our competitors who have less debt.

While we believe that by virtue of the cash on our balance sheet as of December 31, 2012, our ability to draw down additional funds under a revolving financing facility consisting of variable funding notes, herein referred to as Variable Funding Notes, and the

guaranteed minimum and percentage royalty payments due to us under our licenses we will generate sufficient revenues from our licensing operations to satisfy our obligations for the foreseeable future, in the event that we were to fail in the future to make any required payment under agreements governing our indebtedness or fail to comply with the financial and operating covenants contained in those agreements, we would be in default regarding that indebtedness. A debt default could significantly diminish the market value and marketability of our common stock and could result in the acceleration of the payment obligations under all or a portion of our consolidated indebtedness.

The terms of our securitized debt financing have restrictive covenants and our failure to comply with any of these could put us in default, which would have an adverse effect on our business and prospects and could cause us to lose title to our key intellectual property assets.

Unless and until we repay all outstanding borrowings under our securitized debt, we will remain subject to the restrictive terms of these borrowings. The securitized debt, under which certain of our wholly-owned subsidiaries (the ABS Co-Issuers) issued and guaranteed the Senior Secured Notes and Variable Funding Notes, contain a number of covenants, with the most significant financial covenant being a debt service coverage calculation. These covenants limit the ability of certain of our subsidiaries to, among other things:

sell assets;

engage in mergers, acquisitions and other business combinations;

declare or pay distributions on their limited liability company interests;

incur, assume or permit to exist additional indebtedness or guarantees; and

incur liens.

These restrictions could reduce our liquidity and thereby affect our ability to pay dividends or repurchase shares of our common stock. The securitized debt requires us to maintain a specified financial ratio relating to available cash to service the borrowings at the end of each fiscal quarter. Our ability to meet this financial ratio can be affected by events beyond our control, and we may not satisfy such a test. A breach of this covenant could result in a rapid amortization event or default under the securitized debt.

In the event that a rapid amortization event occurs under the indenture (including, without limitation, upon an event of default under the indenture or the failure to repay the securitized debt at the end of the five year interest-only period), the funds available to us would be reduced or eliminated, which would in turn reduce our ability to operate or grow our business.

Furthermore, a reserve account has been established for the benefit of the secured parties under the indenture for the purpose of trapping cash upon the occurrence of our failure to maintain a specified financial ratio at the end of each fiscal quarter. Once it commences, such cash trapping period would extend until the quarterly payment date on which that financial ratio becomes equal to or exceeds the minimum ratio. In the event that a cash trapping period commences, the funds available for the ABS Co-Issuers to pay amounts to us will be reduced or eliminated, which would in turn reduce our ability to support our business.

In an event of default, all unpaid amounts under the Senior Secured Notes and Variable Funding Notes could become immediately due and payable at the direction or consent of holders of a majority of the outstanding Senior Secured Notes. Such acceleration of our debt could have a material adverse effect on our liquidity if we are unable to negotiate mutually acceptable terms with our lenders or if alternate funding is not available to us. Furthermore, if amounts owed under the securitized debt were to become accelerated because of a failure to meet the specified financial ratio or to make required payments, the holders of our Senior Secured Notes would have the right to foreclose on the Candie's, Bongo, Joe Boxer, Rampage, Mudd, London Fog, Mossimo, Ocean Pacific/OP, Danskin/Danskin Now, Rocawear, Cannon, Fieldcrest, Royal Velvet, Charisma, Starter, Waverly and Sharper Image trademarks in the United States and Canada (with the exception of the London Fog brand for outerwear in the United States); on our joint venture interests in Hardy Way, MG Icon, ZY Holdings and Peanuts; on the equity interests in certain of our subsidiaries; and on other related assets securing the notes.

If a manager termination event under the management agreement were to occur we could lose control over the management of the intellectual property assets owned by the ABS Co-Issuers and there can be no assurance that a successor manager would properly manage the assets.

We serve as the manager under a management agreement with the ABS Co-Issuers. Our primary responsibility under this agreement is to perform or otherwise assist each ABS Co-Issuer in performing its duties and obligations, including certain licensing, intellectual property and operational functions.

Pursuant to the management agreement, if we perform or fail to perform certain acts (herein referred to as Manager Termination Events) all of our rights, powers, duties, obligations and responsibilities under the management agreement can be terminated. Among these Manager Termination Events are a failure on our part to make certain payments into collection accounts established under the indenture governing the notes; failure to maintain certain financial ratios; failure to provide required reports under the indenture governing the notes; a material default in observing any provision of the management agreement (subject to certain cure periods); and certain bankruptcy events.

There can be no assurance that if we are terminated pursuant to the terms of the management agreement a successor manager can be identified and retained that is capable of managing all or a portion of the intellectual property assets, or that can perform its obligations with the same level of experience and expertise as we do. A failure to continue managing our intellectual property assets as they are currently managed could have a material adverse effect on our business and could result in a decline in our results of operations.

We have experienced rapid growth in recent years. If we fail to manage this or any future growth, our business and operating results could be harmed.

Our business has grown dramatically over the past several years. For example, our revenue increased from \$30.1 million for fiscal 2005 to \$353.8 million for FY 2012. Our growth has largely resulted from our acquisition of new brands of various sizes. Since October 2004, we acquired directly and through our joint ventures numerous iconic brands (or rights to use those brands and trademarks) and increased our total number of licenses from approximately 18 to over 1,000. Furthermore, we continue to evaluate and pursue appropriate acquisition opportunities to the extent we believe that such opportunities would be in the best interests of our company and our stockholders.

This significant growth has placed considerable demands on our management and other resources and continued growth could place additional demands on such resources. Our ability to compete effectively and to manage future growth, if any, will depend on the sufficiency and adequacy of our current resources and infrastructure and our ability to continue to identify, attract and retain personnel to manage our brands. There can be no assurance that our personnel, systems, procedures and controls will be adequate to support our operations and properly oversee our brands. The failure to support our operations effectively and properly oversee our brands could cause harm to our brands and have a material adverse effect on our brands' fair values and our business, financial condition and results of operations. In addition, we may be unable to leverage our core competencies in managing apparel brands to managing brands in new product categories.

Also, there can be no assurance that we will be able to sustain our recent growth. Our growth may be limited by a number of factors including increased competition for retail license and brand acquisitions, insufficient capitalization for future acquisitions and the lack of attractive acquisition targets, each as described further below. In addition as we continue to grow larger, we will likely need to make additional and larger acquisitions to continue to grow at our historical pace.

If we are unable to identify and successfully acquire additional brands and trademarks, our growth may be limited, and, even if additional trademarks are acquired, we may not realize anticipated benefits due to integration or licensing difficulties.

A key component of our growth strategy is the acquisition of additional brands and trademarks. Historically, we have been involved in numerous acquisitions of varying sizes. We continue to explore new acquisitions. However, as our competitors continue to pursue our brand management model, acquisitions may become more expensive and suitable acquisition candidates could become more difficult to find. In addition, even if we successfully acquire additional trademarks or the rights to use additional trademarks, we may not be able to achieve or maintain profitability levels that justify our investment in, or realize planned benefits with respect to, those additional brands.

Although we seek to temper our acquisition risks by following acquisition guidelines relating to the existing strength of the brand, its diversification benefits to us, its potential licensing scale and credit worthiness of licensee base, acquisitions, whether they be of additional intellectual property assets or of the companies that own them, entail numerous risks, any of which could detrimentally affect our results of operations and/or the value of our equity. These risks include, among others:

Edgar Filing: ICONIX BRAND GROUP, INC. - Form 10-K

unanticipated costs associated with the target acquisition;

negative effects on reported results of operations from acquisition related charges and amortization of acquired intangibles;

diversion of management's attention from other business concerns;

Table of Contents

the challenges of maintaining focus on, and continuing to execute, core strategies and business plans as our brand and license portfolio grows and becomes more diversified;

adverse effects on existing licensing and joint venture relationships;

potential difficulties associated with the retention of key employees, and the assimilation of any other employees, who may be retained by us in connection with or as a result of our acquisitions; and

risks of entering new domestic and international markets (whether it be with respect to new licensed product categories or new licensed product distribution channels) or markets in which we have limited prior experience.

When we acquire intellectual property assets or the companies that own them, our due diligence reviews are subject to inherent uncertainties and may not reveal all potential risks. We may therefore fail to discover or inaccurately assess undisclosed or contingent liabilities, including liabilities for which we may have responsibility as a successor to the seller or the target company. As a successor, we may be responsible for any past or continuing violations of law by the seller or the target company. Although we generally attempt to seek contractual protections through representations, warranties and indemnities, we cannot be sure that we will obtain such provisions in our acquisitions or that such provisions will fully protect us from all unknown, contingent or other liabilities or costs. Finally, claims against us relating to any acquisition may necessitate our seeking claims against the seller for which the seller may not, or may not be able to, indemnify us or that may exceed the scope, duration or amount of the seller's indemnification obligations.

Acquiring additional trademarks could also have a significant effect on our financial position and could cause substantial fluctuations in our quarterly and yearly operating results. Acquisitions could result in the recording of significant goodwill and intangible assets on our financial statements, the amortization or impairment of which would reduce our reported earnings in subsequent years. No assurance can be given with respect to the timing, likelihood or financial or business effect of any possible transaction. Moreover, as discussed below, our ability to grow through the acquisition of additional brands and trademarks will also depend on the availability of capital to complete the necessary acquisition arrangements. In the event that we are unable to obtain debt financing on acceptable terms for a particular acquisition, we may elect to pursue the acquisition through the issuance by us of shares of our common stock (and, in certain cases, convertible securities) as equity consideration, which could dilute our common stock because it could reduce our earnings per share, and any such dilution could reduce the market price of our common stock unless and until we were able to achieve revenue growth or cost savings and other business economies sufficient to offset the effect of such an issuance. As a result, there is no guarantee that our stockholders will achieve greater returns as a result of any future acquisitions we complete.

We may require additional capital to finance the acquisition of additional brands and our inability to raise such capital on beneficial terms or at all could restrict our growth.

We may, in the future, require additional capital to help fund all or part of potential acquisitions. If, at the time required, we do not have sufficient cash to finance those additional capital needs, we will need to raise additional funds through equity and/or debt financing. We cannot guarantee that, if and when needed, additional financing will be available to us on acceptable terms or at all. Further, if additional capital is needed and is either unavailable or cost prohibitive, our growth may be limited as we may need to change our business strategy to slow the rate of, or eliminate, our expansion plans. In addition, any additional financing we undertake could impose additional covenants upon us that restrict our operating flexibility, and, if we issue equity securities to raise capital, our existing stockholders may experience dilution or the new securities may have rights senior to those of our common stock.

Because of the intense competition within our licensees' markets and the strength of some of their competitors, we and our licensees may not be able to continue to compete successfully.

Many of our trademark licenses are for products in the apparel, fashion accessories, footwear, beauty and fragrance, home products and décor, consumer electronics and entertainment industries in which our licensees face intense competition, including from our other brands and licensees. In general, competitive factors include quality, price, style, name recognition and service. In addition, various fads and the limited availability of shelf space could affect competition for our licensees' products. Many of our licensees' competitors have greater financial, distribution, marketing and other resources than our licensees and have achieved significant name recognition for their brand names. Our licensees may be unable to compete successfully in the markets for their products, and we may not be able to continue to compete successfully with respect to our licensing arrangements.

If our competition for retail licenses and brand acquisitions increases, or any of our current direct-to-retail licensees elect not to renew their licenses or renew on terms less favorable than today, our growth plans could be slowed.

We may face increasing competition in the future for direct-to-retail licenses as other companies owning established brands may decide to enter into licensing arrangements with retailers similar to the ones we currently have in place. Furthermore, our current or potential direct-to-retail licensees may decide to develop or purchase brands rather than renew or enter into license agreements with us. In addition, this increased competition could result in lower sales of products offered by our direct-to-retail licensees under our brands. We also compete with traditional apparel and consumer brand companies, other brand management companies and private equity groups for brand acquisitions. If our competition for retail licenses and brand acquisitions increases, it may take us longer to procure additional retail licenses and/or acquire additional brands, which could slow our growth rate.

Our licensees are subject to risks and uncertainties of foreign manufacturing and the price, availability and quality of raw materials that could interrupt their operations or increase their operating costs, thereby affecting their ability to deliver goods to the market, reduce or delay their sales and decrease our potential royalty revenues.

Substantially all of the products sold by our licensees are manufactured overseas and there are substantial risks associated with foreign manufacturing, including changes in laws relating to quotas, and the payment of tariffs and duties, fluctuations in foreign currency exchange rates, shipping delays and international political, regulatory and economic developments. Further, our licensees may experience fluctuations in the price, availability and quality of fabrics and raw materials used by them in their manufactured apparel or purchased finished goods. Any of these risks could increase our licensees' operating costs. Our licensees also import finished products and assume all risk of loss and damage with respect to these goods once they are shipped by their suppliers. If these goods are destroyed or damaged during shipment, the revenues of our licensees, and thus our royalty revenues over and above the guaranteed minimums, could be reduced as a result of our licensees' inability to deliver or their delay in delivering their products.

Our failure to protect our proprietary rights could compromise our competitive position and decrease the value of our brands.

We monitor on an ongoing basis unauthorized filings of our trademarks and imitations thereof, and rely primarily upon a combination of U.S., Canadian and other international federal, state and local laws, as well as contractual restrictions to protect and enforce our intellectual property rights. We believe that such measures afford only limited protection and, accordingly, there can be no assurance that the actions taken by us to establish, protect and enforce our trademarks and other proprietary rights will prevent infringement of our intellectual property rights by others, or prevent the loss of licensing revenue or other damages caused therefrom.

For instance, despite our efforts to protect and enforce our intellectual property rights, unauthorized parties may misappropriate or attempt to copy aspects of our intellectual property, which could harm the reputation of our brands, decrease their value and/or cause a decline in our licensees' sales and thus our revenues. Further, we and our licensees may not be able to detect infringement of our intellectual property rights quickly or at all, and at times we or our licensees may not be successful combating counterfeit, infringing or knockoff products, thereby damaging our competitive position. In addition, we depend upon the laws of the countries where our licensees' products are sold to protect our intellectual property. Intellectual property rights may be unavailable or limited in some countries because standards of registerability vary internationally. Consequently, in certain foreign jurisdictions, we have elected or may elect not to apply for trademark registrations. While we generally apply for trademarks in most countries where we license or intend to license our trademarks, we may not accurately predict all of the countries where trademark protection will ultimately be desirable. If we fail to timely file a trademark application in any such country, we may be precluded from obtaining a trademark registration in such country at a later date. Failure to adequately pursue and enforce our trademark rights could damage our brands, enable others to compete with our brands and impair our ability to compete effectively.

Further, the rights to our brands in the International Joint Venture Territories are controlled primarily through our joint ventures in these regions and while we believe that our partnerships in these areas will enable us to better protect our trademarks in the countries covered by the ventures, we do not control all of our joint venture companies and thus most decisions relating to the use and enforcement of the marks in these countries will be subject to the approval of our local partners.

We also own the exclusive right to use various domain names containing or relating to our brands. There can be no assurances that we will be able to prevent third parties from acquiring and maintaining domain names that infringe or otherwise decrease the value of our trademarks. Failure to protect our domain names could adversely affect our brands which could cause a decline in our licensees' sales and the related revenues and in turn decrease the amount of royalty payments (over and above the guaranteed minimums) due to us.

Third-party claims regarding our intellectual property assets could result in our licensees being unable to continue using our trademarks, which could adversely impact our revenues or result in a judgment or monetary damages being levied against us or our licensees.

We may be subject to legal proceedings and claims, including claims of alleged infringement or violation of the patents, trademarks and other intellectual property (IP) rights of third parties. In the future, we may be required to assert infringement claims against third parties or third parties may assert infringement claims against us and/or our licensees. To the extent that any of our IP assets is deemed to violate the proprietary rights of others in any litigation or proceeding or as a result of any claim, then we and our licensees may be prevented from using it, which could cause a breach or termination of certain license agreements. If our licensees are prevented from using our trademarks, this could adversely impact the revenues of our licensees with respect to those IP assets, and thus the royalty payments over and above the guaranteed minimums could be reduced as a result of the licensees' inability to continue using our trademarks. Litigation could also result in a judgment or monetary damages being levied against us and our licensees.

We may not be able to establish or maintain our trademark rights and registrations, which could impair our ability to perform our obligations under our license agreements, which could cause a decline in our licensees' sales and potentially decrease the amount of royalty payments (over and above the guaranteed minimums) due to us.

Table of Contents

While we intend to take reasonable steps to protect our trademark rights, it may not be possible to obtain or maintain legal protection and registrations for all of our trademarks for all forms of goods and services based on certain facts, such as the timing of our or our predecessors entrance into the market or the fact that a third party previously adopted a similar mark for use in connection with a similar set of goods or services. As a result, it may be difficult or not possible for our trademarks to be registered or even protected so as to prohibit third party use in a particular manner. Trademark rights typically arise with respect to goods and services in a particular class or category, so that one party does not own a trademark with respect to all goods and services in all markets. Further, trademark rights could be lost in the U.S. and Canada if we cease using a particular trademark in commerce for a given period of time. For example, the United States Patent and Trademark Office requires owners of registered trademarks to file a declaration of continued use five (5) years after initial registration and every ten (10) years thereafter, and failure to timely do so can result in cancellation of a trademark registration. Additionally, if a trademark owner has not used a registered trademark in commerce for three (3) consecutive years, such owner is presumed to have abandoned the trademark with intent not to resume use thereof, and the trademark owner must prove non-abandonment in order to retain rights in the trademark. Moreover, third parties may challenge or seek to oppose or cancel existing trademark applications or registrations, and we cannot guarantee we will succeed against such challenges. Any failure to secure and maintain rights and registrations could impair our ability to perform our obligations under the license agreements, enter new product or service categories or could affect our ability to enter into new license agreements or renew existing license agreements, both of which could cause a decline in our licensees' sales and potentially decrease the amount of royalty payments (over and above the guaranteed minimums) due to us.

Failure to protect our IP assets from harmful acts of our licensees could result in their cancellation, diminution in value or our loss of rights in those assets.

We license our trademarks to our licensees pursuant to license agreements. The license agreements contain provisions requiring our licensees to comply with certain standards to be monitored by us. Our failure to monitor our licensees' compliance with the license agreements or take appropriate corrective action when necessary may subject our IP assets to cancellation, loss of rights or diminution in value. If our IP assets were cancelled, their value diminished or our rights were lost, the revenues of our licensees, and thus the royalty payments (over and above the guaranteed minimums), could be reduced as a result of our licensees' inability to sell the products under the license agreements.

We may be a party to litigation in the normal course of business, which could affect our financial position and liquidity.

From time to time, we may be made a party to litigation in the normal course of business. For example, as the owner of a trademark, we may be named as a defendant in a lawsuit relating to a product designed and manufactured by a licensee of that trademark. In most cases, our licensees under the existing license agreements are obligated to defend and indemnify us, as licensor, and our affiliates with respect to such litigation. In addition, while third parties could assert infringement claims involving our trademarks, we believe our trademarks are not subject to significant litigation risk because they are widely known and well-established trademarks, which have been consistently used by us and the previous owners. Although historically the litigation involving us has not been material to our financial position or our liquidity, any litigation has an element of uncertainty and if any such litigation were to be adversely determined and/or a licensee were to fail to properly indemnify us, such litigation could affect our financial position and liquidity.

A substantial portion of our licensing revenue is concentrated with a limited number of licensees such that the loss of any of such licensees could decrease our revenue and impair our cash flows.

Our licensees with Wal-Mart, Target, Kmart/Sears and Kohl's, were our four largest direct-to-retail licensees during FY 2012, representing approximately 17%, 7%, 6% and 6%, respectively, of our total revenue for such period, while Li & Fung USA was our largest wholesale licensee, representing approximately 6% of our total revenue for such period. Because we are dependent on these licensees for a significant portion of our licensing revenue, if any of them were to have financial difficulties affecting their ability to make payments, or if any of these licensees decides not to renew or extend any existing agreement with us, or to significantly reduce its sales of licensed products under any of the agreement(s), our revenue and cash flows could be reduced substantially.

Terms of our existing license agreements are renewable at the discretion of our licensees and if such licensees opt not to renew these license agreements it could decrease our revenue and impair our cash flows.

As with any licensing transaction, future licensing income is dependent on the renewal of existing license agreements and exploitation of new licensing opportunities. While the existing license agreements generally contain renewal terms whereby the parties may renew such existing license agreements for one or more additional terms, the option to renew is at the discretion of the licensee and not us. If a significant number of our licensees under the material existing license agreements decide not to renew or extend those existing license agreements with us, our revenue and cash flows could be reduced substantially.

We are dependent upon our chief executive officer and other key executives. If we lose the services of these individuals we may not be able to fully implement our business plan and future growth strategy, which would harm our business and prospects.

Our success as a marketer and licensor of intellectual property is largely due to the efforts of Neil Cole, our president, chief executive officer and chairman. Our continued success is largely dependent upon his continued efforts and those of the other key executives he has assembled. Although we have entered into an employment agreement with Mr. Cole, expiring on December 31, 2015, as well as

Table of Contents

employment agreements with other of our key executives, there is no guarantee that we will not lose their services. To the extent that any of their services become unavailable to us, we will be required to hire other qualified executives, and we may not be successful in finding or hiring adequate replacements. This could impede our ability to fully implement our business plan and future growth strategy, which would harm our business and prospects.

We have a material amount of goodwill and other intangible assets, including our trademarks, recorded on our balance sheet. As a result of changes in market conditions and declines in the estimated fair value of these assets, we may, in the future, be required to write down a portion of this goodwill and other intangible assets and such write-down would, as applicable, either decrease our net income or increase our net loss.

As of December 31, 2012, goodwill represented approximately \$225.7 million, or approximately 9% of our total consolidated assets, and trademarks and other intangible assets represented approximately \$1,769.5 million, or approximately 71% of our total consolidated assets. Under current U.S. GAAP accounting standards, goodwill and indefinite life intangible assets, including some of our trademarks, are no longer amortized, but instead are subject to impairment evaluation based on related estimated fair values, with such testing to be done at least annually. While, to date, no impairment write-downs have been necessary, any write-down of goodwill or intangible assets resulting from future periodic evaluations would, as applicable, either decrease our net income or increase our net loss and those decreases or increases could be material.

We may not be able to pay the cash portion of the conversion price upon any conversion of the principal amounts of our convertible notes, which would constitute an event of default with respect to such notes and could also constitute a default under the terms of our other debt.

We may not have sufficient cash to pay, or may not be permitted to pay, the cash portion of the consideration that we will be required to pay when our 2.50% Convertible Notes become due in June 2016. Upon conversion of our 2.50% Convertible Notes, we will be required to pay to the holder of such notes a cash payment equal to the par value of the convertible notes. This part of the payment must be made in cash, not in shares of our common stock. As a result, we will be required to pay a minimum of \$300.0 million in cash to holders of the 2.50% Convertible Notes upon conversion.

If we do not have sufficient cash on hand at the time of conversion, we may have to raise funds through debt or equity financing. Our ability to raise such financing will depend on prevailing market conditions. Further, we may not be able to raise such financing within the period required to satisfy our obligation to make timely payment upon any conversion. In addition, the terms of any current or future debt may prohibit us from making these cash payments or otherwise restrict our ability to make such payments and/or may restrict our ability to raise any such financing. In particular, the terms of our Senior Secured Notes restrict the amount of proceeds from collateral pledged to secure our obligations thereunder that may be used by us to make payments in cash under certain circumstances, including payments to the convertible note holders upon conversion. A failure to pay the required cash consideration upon conversion would constitute an event of default under the indenture governing the convertible notes, which could constitute a default under the terms of our other debt.

Changes in effective tax rates or adverse outcomes resulting from examination of our income or other tax returns could adversely affect our results.

Our future effective tax rates could be adversely affected by changes in the valuation of our deferred tax assets and liabilities, or by changes in tax laws or interpretations thereof. In addition, we are subject to the continuous examination of our income tax returns by the Internal Revenue Service and other tax authorities both domestically and abroad. We regularly assess the likelihood of recovering the amount of deferred tax assets recorded on the balance sheet and the likelihood of adverse outcomes resulting from examinations by various taxing authorities in order to determine the adequacy of our provision for income taxes. We cannot guarantee that the outcomes of these evaluations and continuous examinations will not harm our reported operating results and financial conditions.

The market price of our common stock has been, and may continue to be, volatile, which could reduce the market price of our common stock.

The publicly traded shares of our common stock have experienced, and may continue to experience, significant price and volume fluctuations. This market volatility could reduce the market price of our common stock, regardless of our operating performance. In addition, the trading price of our common stock could change significantly over short periods of time in response to actual or anticipated variations in our quarterly operating results, announcements by us, our licensees or our respective competitors, factors affecting our licensees' markets generally and/or changes in national or regional economic conditions, making it more difficult for shares of our common stock to be sold at a favorable price or at all. The market price of our common stock could also be reduced by general market price declines or market volatility in the future or future declines or volatility in the prices of stocks for companies in the trademark licensing business or companies in the industries in which our licensees compete.

Convertible note hedge and warrant transactions that we have entered into may affect the value of our common stock.

In connection with the initial sale of our 2.50% Convertible Notes we purchased convertible note hedges, herein referred to as 2.50% Convertible Note Hedges, from affiliates of Barclays PLC and Goldman Sachs Inc., herein referred to as the 2.50% Hedge Counterparties. At such time, the hedging transactions were expected, but were not guaranteed, to eliminate the potential dilution upon

Table of Contents

conversion of the 2.50% Convertible Notes. Concurrently, we entered into warrant transactions with the 2.50% Hedge Counterparties, herein referred to as the 2.50% Sold Warrants.

Moreover, in connection with the 2.50% Sold Warrants, to the extent that the price of our common stock exceeds the strike price of the 2.50% Sold Warrants, the warrant transaction could have a dilutive effect on our earnings per share which may affect the value of our common stock.

Future sales of our common stock may cause the prevailing market price of our shares to decrease.

We have issued a substantial number of shares of common stock that are eligible for resale under Rule 144 of the Securities Act of 1933, as amended, or Securities Act, and that may become freely tradable. We have also already registered a substantial number of shares of common stock that are issuable upon the exercise of options and warrants and have registered for resale a substantial number of restricted shares of common stock issued in connection with our acquisitions. If the holders of our options and warrants choose to exercise their purchase rights and sell the underlying shares of common stock in the public market, or if holders of currently restricted shares of our common stock choose to sell such shares in the public market under Rule 144 or otherwise, the prevailing market price for our common stock may decline. The sale of shares issued upon the exercise of our derivative securities could also further dilute the holdings of our then existing stockholders, including holders of the convertible notes that receive shares of our common stock upon conversion of their notes. In addition, future public sales of shares of our common stock could impair our ability to raise capital by offering equity securities.

Provisions in our charter and Delaware law could make it more difficult for a third party to acquire us, discourage a takeover and adversely affect our stockholders.

Certain provisions of our certificate of incorporation could have the effect of making more difficult, delaying or deterring unsolicited attempts by others to obtain control of our company, even when these attempts may be in the best interests of our stockholders. Our certificate of incorporation currently authorizes 150,000,000 shares of common stock to be issued. Based on our outstanding capitalization at December 31, 2012, and assuming the exercise of all outstanding options and warrants and the issuance of the maximum number of shares of common stock issuable upon conversion of all of our outstanding convertible notes, there are still a substantial number of shares of common stock available for issuance by our board of directors without stockholder approval. Our certificate of incorporation also authorizes our board of directors, without stockholder approval, to issue up to 5,000,000 shares of preferred stock, in one or more series, which could have voting and conversion rights that adversely affect or dilute the voting power of the holders of our common stock, none of which is outstanding. We are also subject to the provisions of Section 203 of the Delaware General Corporation Law, which could prevent us from engaging in a business combination with a 15% or greater stockholder for a period of three years from the date it acquired that status unless appropriate board or stockholder approvals are obtained.

These provisions could deter unsolicited takeovers or delay or prevent changes in our control or management, including transactions in which stockholders might otherwise receive a premium for their shares over the then current market price. These provisions may also limit the ability of stockholders to approve transactions that they may deem to be in their best interests.

We do not anticipate paying cash dividends on our common stock.

You should not rely on an investment in our common stock to provide dividend income, as we have not paid any cash dividends on our common stock and do not plan to pay any in the foreseeable future. Instead, we plan to retain any earnings to maintain and expand our existing licensing operations, further develop our trademarks and finance the acquisition of additional trademarks. Accordingly, investors must rely on sales of their common stock after price appreciation, which may never occur, as the only way to realize any return on their investment.

A portion of our revenues and net income are generated outside of the United States, by certain of our licensees and our joint ventures, in countries that may have volatile currencies or other risks.

A portion of our revenue is attributable to activities in territories and countries outside of the United States by certain of our joint ventures and our licensees. The fact that some of our revenue and certain business operations of our joint ventures and certain licensees are conducted outside of the United States may expose them to several additional risks, including, but not limited to social, political, regulatory and economic conditions or in laws and policies governing foreign trade and investment in the territories and countries where our joint ventures or certain licensees currently have operations or will in the future operate. U.S. laws and regulations relating to investment and trade in foreign countries could also change to our detriment. Any of these factors could have a negative impact on the business and operations of our joint ventures and certain of our licensees operations, which could also adversely impact our results of operations. Increase of revenues generated in foreign markets may also increase our exposure to risks related to foreign currencies, such as fluctuations in currency exchange rates. In the past, we and our joint ventures have attempted to have contracts that relate to activities outside of the United States denominated in U.S. currency, however,

Edgar Filing: ICONIX BRAND GROUP, INC. - Form 10-K

we do not know to the extent that we will be able to continue this as we increase our contracts with foreign licensees. In certain instances we have entered into foreign currency hedges to mitigate our risk related to fluctuations in our contracts denominated in foreign currencies; however, we cannot predict the effect that future exchange rate fluctuations will have on our operating results.

A decline in general economic conditions resulting in a decrease in consumer-spending levels and an inability to access capital may adversely affect our business.

Many economic factors beyond our control may impact our forecasts and actual performance. These factors include consumer confidence, consumer spending levels, employment levels, availability of consumer credit, recession, deflation, inflation, a general slowdown of the global economy or an uncertain economic outlook. Furthermore, changes in the credit and capital markets, including market disruptions, limited liquidity and interest rate fluctuations, may increase the cost of financing or restrict our access to potential sources of capital for future acquisitions.

Item 2. Properties

On November 9, 2007, we entered into a lease agreement covering approximately 30,550 square feet of office and showroom space at 1450 Broadway in New York, New York. The term of the lease runs through June 30, 2024 and provides for total aggregate annual base rental payments for such space of approximately \$26.4 million (ranging from approximately \$1.1 million for the first year following the rent commencement date to approximately \$2.2 million, on an annualized basis, in the last year of the lease). We will also be required to pay our proportionate share of any increased taxes attributed to the premises.

We lease a showroom and office space at 550 7th Avenue, New York, NY, a portion of which is has been sublet through the term of the lease, which ends May 31, 2015.

We assumed obligations for approximately 4,500 square feet of office space at 261 Fifth Ave in New York, New York in connection with the Waverly acquisition with an annual rent of approximately \$0.3 million for a period ending February 2018. This space is currently being sublet to a third party.

Bright Star currently occupies approximately 2,269 square feet of office space in Mt. Arlington, New Jersey, pursuant to a lease that expires in April 2013.

Item 3. Legal Proceedings

Sweet Sportswear/Unzipped litigation

On December 10, 2010, the Court entered a final judgment (the Judgment) in connection with the lawsuit filed by us in the Superior Court of California, Los Angeles County against Unzipped Apparel LLC's (Unzipped) former manager, supplier and distributor, Sweet Sportswear, LLC, Azteca Productions International, Inc. Apparel Distribution Services, LLC, and Hubert Guez, a principal of these entities and former member of our board of directors (collectively referred to as the Guez defendants). In summary, the Judgment against the Guez defendants was for a combined liability to us of approximately \$50 million, exclusive of amounts owed as pre or post-judgment interest at the annual rate of 10% simple interest. The Judgment also dismissed all claims brought by the Guez defendants against us, its subsidiaries (Michael Caruso & Co., Inc. and Unzipped), and our Chairman of the Board and Chief Executive Officer, Neil Cole. In connection with the entry of the Judgment, we recognized a gross gain of \$26.0 million (gross of attorney's fees and other related expenses of \$10.3 million), of which \$16.7 million was secured by the Sureties (as defined below), with the remainder secured by assets owned by the Guez defendants.

In February 2011, we entered into a settlement agreement with certain persons (the Sureties) that had secured a portion of the Judgment, pursuant to which the Sureties paid us \$13 million in February 2011 and paid an additional \$3.7 million in April 2011 in full satisfaction of their obligations to the Company. The amounts paid by the Sureties reduced the obligations of certain of the Guez defendants (ADS and Hubert Guez) under the Judgments.

On April 26, 2011, we entered into an agreement settling the lawsuit described above, pursuant to which the Guez defendants and certain Sureties paid us an aggregate of \$27.7 million (including an aggregate of \$16.7 million previously paid in February and April 2011) in full satisfaction of their obligations to us.

Normal Course litigation

Edgar Filing: ICONIX BRAND GROUP, INC. - Form 10-K

From time to time, we are also made a party to litigation incurred in the normal course of business. While any litigation has an element of uncertainty, we believe that the final outcome of any of these routine matters will not have a material effect on our financial position or future liquidity.

Overview

The Company is a brand management company engaged in licensing, marketing and providing trend direction for a diversified and growing consumer and entertainment brand portfolio. Our brands are sold across every major segment of retail distribution, from luxury to mass and, in the case of our Peanuts brand, through various media outlets, including television, movies, web-based and mobile content. As of December 31, 2012, we and our joint ventures owned the following iconic consumer brands: Candie's, Bongo, Badgley Mischka, Joe Boxer, Rampage, Mudd, London Fog, Mossimo, Ocean Pacific/OP, Danskin/Danskin Now, Rocawear, Cannon, Royal Velvet, Fieldcrest, Charisma, Starter, Waverly, Zoo York, Sharper Image and Umbro. In addition, Scion LLC, a joint venture in which we have a 50% controlling investment, owns the Artful Dodger brand and a 50% interest in the Billionaire Boys Club and Ice Cream brands; Hardy Way, a joint venture in which we have an 85% controlling investment, owns the Ed Hardy brands (see Note 3 of Notes to Consolidated Financial Statements); IPH Unltd, a joint venture in which we have a 51% controlling investment, owns the Ecko brands; MG Icon, a joint venture in which we have a 50% investment, owns the Material Girl and Truth or Dare brands; Peanuts Holdings, a joint venture in which we have an 80% controlling investment, owns, through its wholly-owned subsidiary Peanuts Worldwide, the Peanuts brands and characters; and Icon Modern Amusement, a joint venture in which we have a 51% investment, owns the Modern Amusement brand. We license our brands worldwide through over 1,000 direct-to-retail and wholesale licenses for use across a wide range of product categories, including sportswear, fashion accessories, footwear, entertainment, home products and décor, and beauty and fragrance. Our business model allows us to focus on our core competencies of marketing and managing brands without many of the risks and investment requirements associated with a more traditional operating company. Our licensing agreements with leading retail and wholesale licensees throughout the world provide us with a predictable stream of guaranteed minimum royalties.

Our growth strategy is focused on increasing licensing revenue from our existing portfolio of brands through adding new product categories, expanding the retail penetration of our existing brands and optimizing the sales of our licensees. We will also seek to continue the international expansion of our brands by partnering with leading licensees and/or joint venture partners throughout the world. Finally, we believe we will continue to acquire iconic consumer brands with applicability to a wide range of merchandise categories and an ability to further diversify our brand portfolio.

FY 2012 Compared to FY 2011

Licensing and Other Revenue. Licensing and other revenue for FY 2012 totaled \$353.8 million, a 4% decrease as compared to \$369.8 million for FY 2011. After excluding revenue in FY 2012 totaling approximately \$18.3 million for which there is no comparable revenue in FY 2011 (i.e. Ed Hardy, which was consolidated beginning April 2011; Sharper Image, acquired November 2011; the Iconix India transaction in May 2012; and the acquisition of Umbro in November 2012 – see Note 3 of Notes to Consolidated Financial Statements for descriptions of these transactions), comparable revenue decreased approximately \$34.3 million. This decrease in comparable revenue was primarily related to weakness in our men's business related to Rocawear, Ed Hardy (which includes the comparable months of May through December and Ecco (mainly related to the footwear business) as well as the transition of the Royal Velvet brand to a new direct-to-retail license with J.C. Penney. This aggregate decrease was partially offset by an increase in revenues in FY 2012 as compared to FY 2011 from certain women's brands (including Mossimo, Rampage and Bongo), certain home brands (including Charisma, Fieldcrest and Cannon) and our Peanuts brand.

Operating Expenses. Selling, general and administrative expenses, herein referred to as SG&A, totaled \$138.4 million for FY 2012 compared to \$141.0 million for FY 2011. After excluding SG&A totaling \$2.8 million in FY 2012 for which there is no comparable SG&A in FY 2011 (i.e. Ed Hardy, which was consolidated beginning April 2011; and Sharper Image, acquired November 2011), comparable SG&A decreased approximately \$5.4 million. This decrease in comparable SG&A was primarily driven by (i) a decrease of \$2.7 million in advertising expense due to the timing of certain initiatives and efficiencies primarily related to our Peanuts brand; (ii) a decrease of \$2.0 million in rent expense due to a one-time charge in FY 2011 for the termination of a lease associated with the acquisition of Peanuts; (iii) a decrease in amortization expense of \$2.0 million as certain license agreements acquired with prior period acquisitions were fully amortized; (iv) a decrease of \$1.5 million in professional fees primarily due to the termination of certain consulting arrangements; (v) a decrease of \$1.0 million in compensation expense primarily due to a decrease in performance based compensation related to missing certain performance targets for FY 2012; and (vi) an aggregate decrease of \$1.6 million in other general overhead expenses as a result of certain cost-cutting initiatives. The aggregate of these decreases were partially offset by an aggregate increase of \$5.6 million due to: (i) an increase in bad debt expense due to an increase in our allowance for doubtful accounts primarily related to weakness in our men's brands and (ii) an increase in artist royalties related to the increase in revenue for our Peanuts brand.

Operating Income. Operating income for FY 2012 decreased to \$215.5 million, or approximately 61% of total revenue, compared to \$228.8 million or approximately 62% of total revenue in FY 2011.

Other Expenses - Net. Other expenses - net changed by approximately \$16.7 million from approximately \$16.2 million of other expenses - net in FY 2011 to approximately \$33.0 million of other expenses - net in FY 2012. This change is primarily due to a non-cash re-measurement gain of \$21.5 million FY 2011 related to the Ed Hardy transaction in April 2011 which is included in interest and other income, for which there is no comparable gain in FY 2012. After excluding the aforementioned gain in FY 2011 related to the Ed Hardy transaction, the remaining change in other expenses - net is primarily due to a decrease in interest expense of approximately \$4.2 million from \$50.8 million in FY 2011 to \$46.6 million in FY 2012. This decrease was mainly driven by \$11.3 million of interest expense in FY 2011 related to our 1.875% Convertible Notes for which there is no comparable expense in FY 2012 as the 1.875% Convertible Notes were paid off and retired in June 2012, as well as approximately \$4.9 million of interest expense in FY 2011 related to our term loan facility which was paid off and retired in FY 2011 and for which there is no comparable expense in FY 2012. This decrease in interest expense was partially offset by: (i) \$7.7 million of interest expense related to our 2.50% Convertible Notes (issued June 2011) for the period of January 2012 through May 2012 for which there is no comparable expense in FY 2011; (ii) \$2.4 million of interest expense related to our Senior Secured Notes, issued in FY 2012 for which there is no comparable expense in FY 2011; and (iii) \$1.7 million in interest expense in FY 2012 related to our Revolver (see Note 5 of Notes to Consolidated Financial Statements) for which there was no comparable expense in the FY 2011. Our equity earnings on joint ventures increased approximately \$0.5 million from \$10.4 million to \$10.9 million primarily due to strength in our MG Icon joint venture, partially offset by the following: (i) earnings in FY 2011 related to the Hardy Way joint venture through April 2011 prior to its consolidation with the Company following the transaction described above; (ii) a decrease in Iconix China's earnings primarily due to the FY 2011 gain related to the initial public offering of China Outfitters, a subsidiary of which Iconix China had a minority investment, for which there is no comparable gain in FY 2012; and (iii) a decrease in earnings from our Iconix Europe joint venture.

Edgar Filing: ICONIX BRAND GROUP, INC. - Form 10-K

Provision for Income Taxes. The effective income tax rate for FY 2012 is approximately 32.3% resulting in the \$59.0 million income tax expense, as compared to an effective income tax rate of 33.5% in FY 2011 which resulted in the \$71.3 million income tax expense. This decrease in the effective income tax rate from FY 2011 to FY 2012 is primarily due to a significantly lower effective tax rate for income generated and reinvested outside the United States in FY 2012, specifically related to our Umbro brand, for which there was no comparable income in FY 2011.

Net Income. Our net income was approximately \$123.5 million in FY 2012, compared to net income of approximately \$141.2 million in

Table of Contents

the FY 2011, as a result of the factors discussed above.

FY 2011 Compared to FY 2010

Licensing and Other Revenue. Licensing and other revenue for FY 2011 increased approximately \$37.2 million to \$369.8 million from \$332.6 million for FY 2010. This increase in revenue was primarily related to the following: (i) our acquisition of the Peanuts assets (acquired June 2010), (ii) the effect of the Ed Hardy transaction which the Company began to consolidate as of the transaction date (April 2011), (iii) the gain on the OP Japan transaction, and (iv) the acquisition of the Sharper Image assets (November 2011), for which there was no comparable revenue in FY 2010. The aggregate of these increases, approximately \$55.6 million, was partially offset by the Peanuts ABC license revenue (July 2010) of approximately \$12.5 million, for which there was no comparable revenue in FY 2011. After accounting for the aforementioned items, which aggregated to a net increase of approximately \$43.1 million, the remaining comparable revenue decreased by a net amount of approximately \$5.9 million, which is primarily attributable to the following: (i) an aggregate decrease in royalties from our Wal-Mart brands, primarily driven by the elimination of certain categories for our OP brand; (ii) an aggregate decrease in royalties from our Rocawear and Ecco brands primarily related to the men's businesses; (iii) an increase in royalties derived from our Mudd brand related to the expansion into additional categories sold through our direct-to-retail license with Kohl's; and (iv) an increase in royalties related to our Peanuts brand related to a variety of new initiatives.

Operating Expenses. Selling, general and administrative expenses, herein referred to as SG&A, totaled \$141.0 million for FY 2011 compared to \$138.5 million for FY 2010. The increase of approximately \$2.5 million was primarily driven by aggregate incremental SG&A expenses of \$23.4 million incurred in connection with our Peanuts (acquired June 2010), Ed Hardy (consolidated as of April 2011), and Sharper Image (acquired October 2011) businesses, which are consolidated and based on the timing of these transactions do not have comparable SG&A expenses in FY 2010. After accounting for the aforementioned items, the resulting comparable SG&A decreased by approximately \$20.9 million, which is primarily attributable to the following: (i) aggregate incremental SG&A expenses of \$7.5 million incurred in FY 2010 by our Peanuts business related to our July 2010 license with ABC for which there is no comparable SG&A expenses in FY 2011; (ii) a decrease of approximately \$8.2 million in advertising and marketing related expenses (which excludes the aggregate incremental expense related to the items noted above) as compared to FY 2010; and (iii) a decrease of approximately \$1.8 million in compensation expense as we integrated our acquisitions and further leveraged our infrastructure.

For FY 2011 our expenses related to specific litigation included an expense for professional fees of \$0.1 million, as compared to a benefit related to specific litigation of approximately \$15.7 million in FY 2010, each relating to litigation involving Unzipped. See Notes 3 and 9 of Notes to Consolidated Financial Statements for further information on our litigation and settlement involving Unzipped.

Operating Income. Operating income for FY 2011 increased to \$228.8 million, or approximately 62% of total revenue, compared to \$209.7 million or approximately 63% of total revenue in FY 2010.

Other Expenses - Net. Other expenses - net changed by \$30.6 million from approximately \$46.8 million in net other expenses in FY 2010 to approximately \$16.2 million of net other expense in FY 2011. This change was primarily attributed to an increase in interest and other income due to a non-cash re-measurement gain of approximately \$21.5 million related to our Ed Hardy transaction (April 2011) (see Note 3 of Notes to Consolidated Financial Statements), for which there is no comparable gain in 2010, a net increase in equity earnings on joint ventures of approximately \$4.9 million primarily driven by a gain realized by our Iconix China joint venture related to the initial public offering of China Outfitters, a subsidiary of which Iconix China had a minority investment, for which there is no comparable gain in FY 2010, and a write-down in FY 2010 of our marketable securities resulting in a pre-tax loss of \$13.0 million, for which there was no comparable loss in FY 2011 (see Note 3 of Notes to Consolidated Financial Statements for further detail on this matter). An increase of approximately \$7.6 million in interest expense was primarily attributable to interest expense of approximately \$11.2 million related to the 2.50% Convertible Notes for which there was no comparable interest expense in FY 2010 and a write-off of approximately \$2.7 million for deferred financing fees and original issue discount related to the early payoff of our March 2007 term loan facility (as described in Note 5 of Notes to Consolidated Financial Statements), herein referred to as our Term Loan Facility. These increases in interest expense were partially offset as a result of the payoff of our Term Loan Facility in May 2011 as well as a lower average debt balance for our Asset Backed Notes and Ecco Note as compared to FY 2010.

Provision for Income Taxes. The effective income tax rate for FY 2011 is approximately 33.5% resulting in the \$71.3 million income tax expense, as compared to an effective income tax rate of 32.2% in FY 2010 which resulted in the \$52.4 million income tax expense. The effective tax rate increased in FY 2011 as compared to FY 2010 due to an increase in non-deductible compensation expense, offset by an increase in aggregate earnings attributable to our non-controlling interests, for which we do not pay taxes.

Net Income. Our net income was approximately \$141.2 million in FY 2011, compared to net income of approximately \$110.5 million in FY 2010, as a result of the factors discussed above.

Liquidity and Capital Resources

Liquidity

Our principal capital requirements have been to fund acquisitions, working capital needs, and to a lesser extent, share repurchases and capital expenditures. We have historically relied on internally generated funds to finance our operations and our primary source of

Table of Contents

capital needs for acquisition has been the issuance of debt and equity securities. At December 31, 2012 and December 31, 2011, our cash totaled \$255.0 million and \$181.8 million, respectively, including short-term restricted cash of \$16.4 million and \$14.1 million, respectively.

In November 2011 we entered into the Revolver with several banks and other financial institutions which provided us a revolving line of credit in an aggregate principal amount of \$150.0 million, with a \$10.0 million sublimit for the issuance of letters of credit and a \$10.0 million swingline facility. On June 28, 2012, we received \$150.0 million in cash proceeds from the Revolver. Further details of this Revolver can be found in Note 5 of Notes to Consolidated Financial Statements.

On June 29, 2012, we paid an aggregate amount of \$290.2 million in full satisfaction of our obligations under the 1.875% Convertible Notes. The 1.875% Convertible Notes were repaid at par (\$287.5 million) plus accrued interest from January 1, 2012 through June 30, 2012. We repaid the 1.875% Convertible Notes through a combination of cash on our balance sheet and the aforementioned \$150.0 million in cash proceeds from the Revolver.

On November 27, 2012, we paid an aggregate amount of \$11.0 million, including principal, accrued interest and an early termination fee, in full satisfaction of our obligations under the asset-backed notes issued by our wholly-owned subsidiary, IP Holdings, herein referred to as our Asset-Backed Notes. We repaid the Asset-Backed Notes through cash on our balance sheet.

On November 29, 2012, we completed the issuance of our Senior Secured Notes in the aggregate principal amount of \$600.0 million, with a \$100.0 million revolving financing facility, herein referred to as our Variable Funding Notes. We used approximately \$150.4 million of the proceeds received from the issuance of the Senior Secured Notes to repay all amounts outstanding under our Revolver (which was extinguished as a result) and approximately \$20.3 million to pay the costs associated with this securitized financing transaction. In addition, we funded \$7.4 million to an interest reserve account in the name of the trustee of the Senior Secured Notes. Further, \$218.3 million of the proceeds from the Senior Secured Notes were used for our purchase of the Umbro brand. We intend to use the remaining proceeds for general corporate purposes, including potential acquisitions and/or share repurchases.

We believe that cash from future operations and our currently available cash will be sufficient to satisfy our anticipated working capital requirements for the foreseeable future. We intend to continue financing future brand acquisitions through a combination of cash from operations, bank financing and the issuance of additional equity and/or debt securities. See Note 5 of Notes to Consolidated Financial Statements for a description of certain prior financings consummated by us.

Changes in Working Capital

At December 31, 2012 and December 31, 2011 the working capital ratio (current assets to current liabilities) was 3.64 to 1 and 0.78 to 1, respectively.

Operating Activities

Net cash provided by operating activities increased approximately \$24.6 million, from \$177.6 million in FY 2011 to \$202.2 million in FY 2012. After excluding the non-cash re-measurement gain, net of tax, associated with the Ed Hardy transaction in April 2011 (see Note 3 to Financial Statements) for which there is no comparable transaction in FY 2012, the primary drivers of the increase in net cash provided by operating activities were the following: (i) an increase of \$26.7 million in aggregate changes in operating assets and liabilities, net of business acquisitions; (ii) our deferred income taxes increased approximately \$4.3 million; and (iii) an increase of \$3.4 million in our allowance for doubtful accounts primarily due to weakness in certain men's brands. These increases were partially offset by the following: (i) a decrease of \$3.9 million in net income (after taking effect for the Ed Hardy transaction, net of tax - see above), (ii) a decrease of \$3.0 million in non-cash amortization of our convertible notes discount as we extinguished our 1.875% Convertible Notes in June 2012, (iii) non-cash amortization expense for certain definite-lived intangibles decreased by a net amount of \$1.5 million as the useful life of certain licensing agreements, non-compete agreements and domain names associated with prior period acquisitions have been fully amortized as of the end of FY 2011, partially offset by the increase of amortization expense for licensing agreements related to the Ed Hardy (April 2011), Sharper Image (October 2011) and Umbro (November 2012) transactions for which there is no comparable amortization in the FY 2011.

Investing Activities

Net cash used in investing activities in FY 2012 increased approximately \$87.6 million, from \$157.5 million in FY 2011 to \$245.2 million in the FY 2012. This increase is primarily due to our acquisition of the Umbro brand in FY 2012 for \$225.0 million, compared to \$65.6 million paid by us to acquire the Sharper Image brand in November 2011 and \$62.0 million paid by us in April 2011 to increase our ownership of the Ed Hardy brands from 50% to 85% and acquire substantially all of the licensing rights to the Ed Hardy brands and trademarks from its licensee.

Financing Activities

Net cash provided by financing activities increased by \$84.9 million, from \$29.0 million in FY 2011 to \$113.9 million in FY 2012. The main driver of this net increase of cash used in financing activities was an increase in proceeds from long-term debt of \$457.5 million,

Table of Contents

from \$292.5 million in the FY 2011 related to the issuance of our 2.50% Convertible Notes in June 2011 as compared to \$600.0 million in November 2012 related to our proceeds from the Senior Secured Notes and \$150.0 million related to our proceeds from the Revolver in June 2012. This increase was partially offset by (i) an increase in the payment of our long-term debt from \$211.8 million in FY 2011 to \$491.8 million in FY 2012 as we extinguished the 1.875% Convertible Notes in June 2012, the Revolver in November 2012 and the Asset-Backed Notes in November 2012; and (ii) \$19.1 million in repurchases of shares on the open market in FY 2011 and compared to \$125.3 million in FY 2012.

Obligations and commitments

Senior Secured Notes.

On November 29, 2012 (the *SSN Closing Date*), Icon Brand Holdings, Icon DE Intermediate Holdings LLC, Icon DE Holdings LLC and Icon NY Holdings LLC, each a limited-purpose, bankruptcy remote, wholly-owned direct or indirect subsidiary of the Company, (collectively, the *Co-Issuers*) issued \$600.0 million aggregate principal amount of Series 2012-1 4.229% Senior Secured Notes, Class A-2 (the *Senior Secured Notes*) in an offering exempt from registration under the Securities Act of 1933, as amended.

Simultaneously with the issuance of the Senior Secured Notes, the Co-Issuers also entered into a revolving financing facility of Series 2012-1 Variable Funding Senior Notes, Class A-1 (the *Variable Funding Notes*), which allows for the funding of up to \$100 million of Variable Funding Notes and certain other credit instruments, including letters of credit. The Variable Funding Notes were issued under the Indenture and allow for drawings on a revolving basis. Drawings and certain additional terms related to the Variable Funding Notes are governed by the Class A-1 Note Purchase Agreement dated November 29, 2012 (the *Variable Funding Note Purchase Agreement*), among the Co-Issuers, Iconix, as manager, certain conduit investors, financial institutions and funding agents, and Barclays Bank PLC, as provider of letters of credit, as swingline lender and as administrative agent. The Variable Funding Notes will be governed, in part, by the Variable Funding Note Purchase Agreement and by certain generally applicable terms contained in the Indenture. Interest on the Variable Funding Notes will be payable at per annum rates equal to the CP Rate, Base Rate or Eurodollar Rate, as defined in the Variable Funding Note Purchase Agreement.

As of December 31, 2012, no amounts under the Variable Funding Notes have been drawn. There is a commitment fee on the unused portion of the Variable Funding Notes facility of 0.5% per annum. It is anticipated that any outstanding principal of and interest on the Variable Funding Notes will be repaid in full on or prior to January 2018. Following the anticipated repayment date, additional interest will accrue on the Variable Funding Notes equal to 5% per annum. The Variable Funding Notes and other credit instruments issued under the Variable Funding Note Purchase Agreement are secured by the collateral described below.

The Senior Secured Notes and the Variable Funding Notes are referred to collectively as the *Notes*. The Notes were issued in a securitization transaction pursuant to which substantially all of Iconix's United States and Canadian revenue-generating assets (the *Securitized Assets*), consisting principally of its intellectual property and license agreements for the use of its intellectual property, were transferred to and are currently held by the Co-Issuers. The Securitized Assets do not include revenue generating assets of (x) the Iconix subsidiary that owns the Badgley Mischka trademark or the Iconix subsidiaries that own Iconix's other brands outside of the United States and Canada or (y) joint ventures in which Iconix and certain of its subsidiaries have investments and which own the Artful Dodger, Billionaire Boys Club and Ecko Unltd/Marc Ecko trademarks.

The Notes were issued under a base indenture and related supplemental indenture (collectively, the *Indenture*) among the Co-Issuers and Citibank, N.A., as trustee (in such capacity, the *Trustee*) and securities intermediary. The Indenture will allow the Co-Issuers to issue additional series of notes in the future subject to certain conditions.

While the Notes are outstanding, payments of interest are required to be made on the Senior Secured Notes on a quarterly basis. To the extent funds are available, principal payments in the amount of \$10.5 million are required to be made on the Senior Secured Notes on a quarterly basis.

The legal final maturity date of the Senior Secured Notes is in January of 2043, but it is anticipated that, unless earlier prepaid to the extent permitted under the Indenture, the Senior Secured Notes will be repaid in January of 2020. If the Co-Issuers have not repaid or refinanced the Senior Secured Notes prior to the anticipated repayment date, additional interest will accrue on the Senior Secured Notes equal to the greater of (A) 5% per annum and (B) a per annum interest rate equal to the excess, if any, by which the sum of (i) the yield to maturity (adjusted to a quarterly bond-equivalent basis), on the anticipated repayment date of the United States treasury security having a term closest to 10 years plus (ii) 5% plus (iii) 3.4% exceeds the original interest rate. The Senior Secured Notes rank *pari passu* with the Variable Funding Notes.

Pursuant to the Indenture, the Notes are the joint and several obligations of the Co-Issuers only. The Notes are secured under the Indenture by a security interest in substantially all of the assets of the Co-Issuers (the *Collateral*), which includes, among other things, (i) intellectual property

Edgar Filing: ICONIX BRAND GROUP, INC. - Form 10-K

assets, including the U.S. and Canadian registered and applied for trademarks for the following brands and other related IP assets: Candie s, Bongo, Joe Boxer (excluding Canadian trademarks, none of which are owned by Iconix), Rampage, Mudd, London Fog (other than the trademark for outerwear products sold in the United States), Mossimo, Ocean Pacific and OP, Danskin and Danskin Now, Rocawear, Starter, Waverly, Fieldcrest, Royal Velvet, Cannon, Charisma, and Sharper Image; (ii) the rights (including

the rights to receive payments) and obligations under all license agreements for use of those trademarks; (iii) the following equity interests in the following joint ventures: an 85% interest in Hardy Way LLC which owns the Ed Hardy brand, a 50% interest in MG Icon LLC which owns the Material Girl and Truth or Dare brands, a 100% interest in ZY Holdings LLC which owns the Zoo York brand, and an 80% interest in Peanuts Holdings LLC which owns the Peanuts brand and characters; and (iv) various accounts established under the Indenture.

If the Company contributes a newly organized, limited purpose, bankruptcy remote entity (each an Additional IP Holder and, together with the Co-Issuers, the Securitization Entities) to Icon Brand Holdings LLC or Icon DE Intermediate Holdings LLC, that Additional IP Holder will enter into a guarantee and collateral agreement in a form provided for in the Base Indenture pursuant to which such Additional IP Holder will guarantee the obligations of the Co-Issuers in respect of any Notes issued under the Base Indenture and the other related documents and pledge substantially all of its assets to secure those guarantee obligations pursuant to a guarantee and collateral agreement.

Neither the Company nor any subsidiary of the Company, other than the Securitization Entities, will guarantee or in any way be liable for the obligations of the Co-Issuers under the Indenture or the Notes.

The Notes are subject to a series of covenants and restrictions customary for transactions of this type, including (i) that the Co-Issuers maintain specified reserve accounts to be used to make required payments in respect of the Notes, (ii) provisions relating to optional and mandatory prepayments, including mandatory prepayments in the event of a change of control (as defined in the Series 2012-1 Supplement) and the related payment of specified amounts, including specified make-whole payments in the case of the Senior Secured Notes under certain circumstances, (iii) certain indemnification payments in the event, among other things, the transfers of the assets pledged as collateral for the Notes are in stated ways defective or ineffective and (iv) covenants relating to recordkeeping, access to information and similar matters.

The Notes are also subject to customary rapid amortization events provided for in the Indenture, including events tied to (i) the failure to maintain a stated debt service coverage ratio, which tests the amount of net cash flow generated by the assets of the Co-Issuers against the amount of debt service obligations of the Co-Issuers (including any commitment fees and letter of credit fees with respect to the Variable Funding Notes, due and payable accrued interest, and due and payable scheduled principal payments on the Senior Secured Notes), (ii) certain manager termination events, (iii) the occurrence of an event of default and (iv) the failure to repay or refinance the Notes on the scheduled maturity date. If a rapid amortization event were to occur, Icon DE Intermediate Holdings LLC and Icon Brand Holdings LLC would be restricted from declaring or paying distributions on any of its limited liability company interests.

The Company used approximately \$150.4 million of the proceeds received from the issuance of the Senior Secured Notes to repay amounts outstanding under its revolving credit facility (see Note 5 to Notes to Financial Statements) and approximately \$20.9 million to pay the costs associated with this securitized financing transaction. In addition approximately \$218.3 million of the proceeds from the Senior Secured Notes were used for the Company's purchase of the Umbro brand. The Company intends to use the remaining proceeds for general corporate purposes, including potential acquisitions and/or share repurchases.

2.50% Convertible Notes.

In May 2011, the Company completed the issuance of \$300.0 million principal amount of our 2.50% convertible senior subordinated notes due June 2016, herein referred to as our 2.50% Convertible Notes, in a private offering to certain institutional investors from which we received net proceeds, after transaction fees, of approximately \$291.6 million. The 2.50% Convertible Notes bear interest at an annual rate of 2.50%, payable semi-annually in arrears on June 1 and December 1 of each year, commencing as of December 1, 2011. At December 31, 2012, the net balance of the 2.50% Convertible Notes was \$254.7 million, which reflects the net debt carrying value in accordance with accounting for convertible debt instruments that may be settled in cash upon conversion. However, the principal amount owed to the 2.50% Convertible Note holders is \$300.0 million.

Concurrently with the sale of the 2.50% Convertible Notes, we purchased note hedges for approximately \$58.7 million and issued warrants to the hedge counterparties for proceeds of approximately \$28.8 million. These transactions will generally have the effect of increasing the conversion price of the 2.50% Convertible Notes (by 100% based on the price of our common stock at the time of the offering). As a result of these transactions, we recorded a reduction to additional paid-in-capital of \$9.4 million. These note hedges and warrants are separate and legally distinct instruments that bind only us and the counterparties thereto and have no binding effect on the holders of the 2.50% Convertible Notes.

We utilized the proceeds of the 2.50% Convertible Notes as follows: approximately \$112.6 million was used to extinguish the outstanding obligation under a term loan facility, and approximately \$29.9 million was the net payment for the related convertible note hedge. There are no covenants for this debt obligation.

Ecko Note.

Edgar Filing: ICONIX BRAND GROUP, INC. - Form 10-K

In connection with the Ecko transaction, IPH Unltd the Ecko Note to a third party creditor (LF Centennial Limited, an affiliate of Li & Fung USA), for \$90.0 million. IPH Unltd's obligations under the Ecko Note are secured by the Ecko portfolio of trademarks and related intellectual property assets and the Zoo York trademarks and related intellectual property assets owned by ZY Holdings, and are further guaranteed personally by the minority owner of IPH Unltd, with no recourse to us other than the interest of ZY Holdings in the Zoo York

trademarks and related intellectual property assets. Amounts outstanding under the Ecko Note bear interest at 7.50% per annum, with minimum principal payable in equal quarterly installments of \$2.5 million, with any remaining unpaid principal balance and accrued interest to be due on June 30, 2014, the Ecko Note maturity date. The Ecko Note may be prepaid without penalty, and would be applied to the scheduled quarterly principal payments in the order of their maturity. On July 27, 2011, in connection with our purchase of the Zoo York trademark and related assets (see Note 3 to Notes to Consolidated Financial Statements), IPH Unltd paid \$3.0 million in principal to the holder of the Ecko Note. As of December 31, 2012, the total principal balance of the Ecko Note is \$57.0 million, of which \$10.0 million is included in the current portion of long-term debt on the consolidated balance sheet.

Other. We believe that we will be able to satisfy our ongoing cash requirements for operations and debt servicing for the foreseeable future, primarily with cash flow from operations and if necessary our ability to draw down additional funds under our Variable Funded Notes. In addition, as part of our business growth strategy, we intend, in addition to growing through the organic development of our brands and expanding internationally, to grow through acquisitions of additional brands. We anticipate that we would fund any such acquisitions through a combination of cash, and the issuance of equity and/or debt securities.

The following is a summary of contractual cash obligations, including interest for the periods indicated that existed as of December 31, 2012:

Other Factors

We continue to seek to expand and diversify the types of licensed products being produced under our various brands, as well as diversify the distribution channels within which licensed products are sold, in an effort to reduce dependence on any particular retailer, consumer or market sector. The success of our Company, however, remains largely dependent on our ability to build and maintain brand awareness and contract with and retain key licensees and on our licensees' ability to accurately predict upcoming trends within their respective customer bases and fulfill the product requirements of their particular distribution channels within the global marketplace. Unanticipated changes in consumer fashion preferences, slowdowns in the global economy, changes in the prices of supplies, consolidation of retail establishments, and other factors noted in Risk Factors, could adversely affect our licensees' ability to meet and/or exceed their contractual commitments to us and thereby adversely affect our future operating results.

Effects of Inflation

We do not believe that the relatively moderate rates of inflation experienced over the past few years in the United States, where we primarily compete, have had a significant effect on revenues or profitability. If there were an adverse change in the rate of inflation by less than 10%, the expected effect on net income would be immaterial.

New Accounting Standards

In July 2012, the FASB issued ASU 2012-02, Intangibles - Goodwill and Other (Topic 350): Testing Indefinite-Lived Intangible Assets for Impairment. ASU 2012-02 simplifies the guidance for testing the decline in the realizable value (impairment) of indefinite-lived intangible assets other than goodwill by allowing an organization the option to first assess qualitative factors to determine whether it is necessary to perform the quantitative impairment test. An organization electing to perform a qualitative assessment is no longer required to calculate the fair value of an indefinite-lived intangible asset unless the organization determines, based on a qualitative assessment, that it is more likely than not that the asset is impaired. The amendments in this Update are effective for annual and interim impairment tests performed for fiscal years beginning after September 15, 2012. Early adoption is permitted. The adoption of ASU 2012-02 will not have a material impact on our results of operations or our financial position.

Edgar Filing: ICONIX BRAND GROUP, INC. - Form 10-K

In October 2012, the FASB issued ASU 2012-04, Technical Corrections and Improvements. ASU 2012-04 contains amendments to clarify the ASC, correct unintended application of guidance, or make minor improvements to the ASC that are not expected to have a significant effect on current accounting practice or create a significant administrative cost to most entities. Additionally, the amendments are intended to make the ASC easier to understand and the fair value measurement guidance easier to apply by eliminating inconsistencies and providing needed clarifications. The amendments that do not have transition guidance were effective upon issuance. The amendments that are subject to the transition guidance will be effective for fiscal periods beginning after December 15, 2012. The adoption of ASU 2012-04 will not have a material impact on our results of operations or our financial position.

In February 2013, the FASB issued ASU 2013-02, Comprehensive Income (Topic 220): Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income. ASU 2013-02 requires an entity to report the effect of significant reclassifications out of

Table of Contents

accumulated other comprehensive income on the respective line items in net income if the amount being reclassified is required to be reclassified in its entirety to net income. For other amounts that are not required to be reclassified in their entirety to net income in the same reporting period, an entity is required to cross-reference other disclosures that provide additional detail about those amounts. The amendments do not change the current requirements for reporting net income or other comprehensive income in financial statements. For public entities, the amendments are effective prospectively for reporting periods beginning after December 15, 2012.

Critical Accounting Policies

Several of our accounting policies involve management judgments and estimates that could be significant. The policies with the greatest potential effect on our consolidated results of operations and financial position include the estimate of reserves to provide for collectability of accounts receivable. We estimate collectability considering historical, current and anticipated trends of our licensees related to deductions taken by customers and markdowns provided to retail customers to effectively flow goods through the retail channels, and the possibility of non-collection due to the financial position of our licensees and their retail customers. Due to our licensing model, we do not have any inventory risk and have reduced our operating risks, and can reasonably forecast revenues and plan expenditures based upon guaranteed royalty minimums and sales projections provided by our retail and other licensees.

The preparation of the consolidated financial statements in conformity with accounting principles generally accepted in the U.S. requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. We review all significant estimates affecting the financial statements on a recurring basis and record the effect of any adjustments when necessary.

In connection with our licensing model, we have entered into various trademark license agreements that provide revenues based on minimum royalties and additional revenues based on a percentage of defined sales. Minimum royalty revenue is recognized on a straight-line basis over each period, as defined, in each license agreement. Royalties exceeding the defined minimum amounts are recognized as income during the period corresponding to the licensee's sales.

In June 2001, the FASB issued guidance under ASC Topic 350 Intangibles Goodwill and Other, which changed the accounting for goodwill from an amortization method to an impairment-only approach. Upon our adoption of this guidance, on February 1, 2002, we ceased amortizing goodwill. As prescribed under this guidance, we had goodwill tested for impairment during the years FY 2012, FY 2011 and FY 2010, and no write-downs from impairments were necessary. Our tests for impairment utilize discounted cash flow models to estimate the fair values of the individual assets. Assumptions critical to our fair value estimates are as follow: (i) discount rates used to derive the present value factors used in determining the fair value of the reporting units and trademarks; (ii) royalty rates used in our trademark valuations; (iii) projected average revenue growth rates used in the reporting unit and trademark models; and (iv) projected long-term growth rates used in the derivation of terminal year values. These tests factor in economic conditions and expectations of management and may change in the future based on period-specific facts and circumstances.

Impairment losses are recognized for long-lived assets, including certain intangibles, used in operations when indicators of impairment are present and the undiscounted cash flows estimated to be generated by those assets are not sufficient to recover the assets carrying amount. Impairment losses are measured by comparing the fair value of the assets to their carrying amount. For the years FY 2012, FY 2011 and FY 2010 there was no impairment present for these long-lived assets.

Effective January 1, 2006, we adopted guidance under ASC Topic 718 Compensation - Stock Compensation, which requires companies to measure and recognize compensation expense for all stock-based payments at fair value. Under this guidance, using the modified prospective method, compensation expense is recognized for all share-based payments granted prior to, but not yet vested as of, January 1, 2006. Prior to the adoption of this guidance, we accounted for our stock-based compensation plans under the recognition and measurement principles of accounting principles board, or APB, Opinion No. 25, Accounting for stock issued to employees, and related interpretations. Accordingly, the compensation cost for stock options had been measured as the excess, if any, of the quoted market price of our common stock at the date of the grant over the amount the employee must pay to acquire the stock.

We account for income taxes in accordance with guidance under ASC Topic 740 Income Taxes. Under this guidance, deferred tax assets and liabilities are determined based on differences between the financial reporting and tax basis of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. A valuation allowance is established when necessary to reduce deferred tax assets to the amount expected to be realized. In determining the need for a valuation allowance, management reviews both positive and negative evidence pursuant to the requirements of this guidance, including current and historical results of operations, the annual limitation on utilization of net operating loss carry forwards pursuant to Internal Revenue Code section 382, future income projections and the overall prospects of our business. Based upon management's assessment of all available evidence, including our completed transition into a licensing business, estimates of future profitability based on projected royalty revenues from our licensees, and the overall

Edgar Filing: ICONIX BRAND GROUP, INC. - Form 10-K

prospects of our business, management concluded that it is more likely than not that the net deferred income tax asset will be realized.

We adopted guidance under ASC Topic 740, beginning January 1, 2007, as it relates to uncertain tax positions. The implementation of this guidance did not have a significant impact on our financial position or results of operations. The total unrecognized tax benefit was \$1.1 million at the date of adoption. At December 31, 2012, the total unrecognized tax benefit was \$1.2 million. However, this

Table of Contents

unrecognized tax benefit is not recognized for accounting purposes because the related deferred tax asset has been fully reserved in prior years. We are continuing our practice of recognizing interest and penalties related to income tax matters in income tax expense. There was no accrual for interest and penalties related to uncertain tax positions for the year ended December 31, 2012. We file federal and state tax returns and we are generally no longer subject to tax examinations for fiscal years prior to 2008.

Item 7A. Quantitative and Qualitative Disclosures about Market Risk

We limit exposure to foreign currency fluctuations by requiring the majority of our licenses to be denominated in U.S. dollars. Certain other licenses are denominated in Japanese Yen and the Euro. To mitigate interest rate risks, we have, from time to time, purchased derivative financial instruments such as forward contracts to convert certain portions of our revenue and cash received in foreign currencies to fixed exchange rates. If there were an adverse change in the exchange rate from Japanese Yen to U.S. dollars or the Euro to U.S. dollars of less than 10%, the expected effect on net income would be immaterial.

Moreover, in connection with the warrant transaction with the counterparties related to our 2.50% Convertible Notes, to the extent that the price of our common stock exceeds the strike price of the warrants, the warrant transaction could have a dilutive effect on our earnings per share.

The effect, if any, of these transactions and activities on the trading price of our common stock will depend in part on market conditions and cannot be ascertained at this time, but any of these activities could adversely affect the value of our common stock.

Item 8. Financial Statements and Supplementary Data

The financial statements and supplementary data required to be submitted in response to this Item 8 are set forth after Part IV, Item 15 of this report.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

Not applicable.

Item 9A. Controls and Procedures

The Company, under the supervision and with the participation of its management, including its principal executive officer and principal financial officer, evaluated the effectiveness of the design and operation of its disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended, herein referred to as the Exchange Act) as of the end of the period covered by this report. The purpose of disclosure controls is to ensure that information required to be disclosed in our reports filed with or submitted to the SEC under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls are also designed to ensure that such information is accumulated and communicated to our management, including our principal executive officer and principal financial officer, to allow timely decisions regarding required disclosure.

Based on this evaluation, the principal executive officer and principal financial officer concluded that the Company's disclosure controls and procedures are effective in timely alerting them to material information required to be included in our periodic SEC filings and ensuring that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time period specified in the SEC's rules and forms.

The principal executive officer and principal financial officer also conducted an evaluation of internal control over financial reporting,

herein referred to as internal control, to determine whether any changes in internal control occurred during the year ended December 31, 2012 that may have materially affected or which are reasonably likely to materially affect internal control. Based on that evaluation, there has been no change in the Company's internal control during the quarter ended December 31, 2012 that has materially affected, or is reasonably likely to materially affect, the Company's internal control.

MANAGEMENT'S ANNUAL REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

February 28, 2013

To the Stockholders of Iconix Brand Group, Inc.

The management of Iconix Brand Group, Inc. is responsible for establishing and maintaining adequate internal control over financial reporting for the Company and for the preparation, integrity, objectivity and fair presentation of the financial statements and other financial information presented in this report. The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America and reflect the effects of certain judgments and estimates made by management.

In order to ensure that our internal control over financial reporting is effective, management regularly assesses such controls and did so most recently for our financial reporting as of December 31, 2012. This assessment was based on criteria for effective internal control over financial reporting described in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission, referred to as COSO. Our assessment included the documentation and understanding of our internal control over financial reporting. We have evaluated the design effectiveness and tested the operating effectiveness of internal controls to form our conclusion.

Our internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Our internal control over financial reporting includes those policies and procedures that pertain to maintaining records that, in reasonable detail, accurately and fairly reflect transactions and dispositions of assets, providing reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, assuring that receipts and expenditures are being made in accordance with authorizations of our management and directors and providing reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of assets that could have a material effect on our financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Based on this assessment, the undersigned officers concluded that our internal controls and procedures are effective in timely alerting them to material information required to be included in our periodic SEC filings and that information required to be disclosed by us in these periodic filings is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that our internal controls are effective to provide reasonable assurance that our financial statements are fairly presented in conformity with generally accepted accounting principles.

The Audit Committee of our Board of Directors, which consists of independent, non-executive directors, meets regularly with management, the internal auditors and the independent accountants to review accounting, reporting, auditing and internal control matters. The committee has direct and private access to external auditors.

BDO USA, LLP, the independent registered public accounting firm who audits our financial statements, has audited our internal control over financial reporting as of December 31, 2012 and has expressed an unqualified opinion thereon.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors and Stockholders

Iconix Brand Group, Inc.

New York, New York

We have audited Iconix Brand Group, Inc. and Subsidiaries' internal control over financial reporting as of December 31, 2012, based on criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). Iconix Brand Group, Inc.'s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Annual Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Iconix Brand Group, Inc. maintained, in all material respects, effective internal control over financial reporting as of December 31, 2012, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Iconix Brand Group, Inc. as of December 31, 2012 and 2011, and the related consolidated statements of income, comprehensive income, stockholders' equity, and cash flows for each of the three years in the period ended December 31, 2012 and our report dated February 28, 2013 expressed an unqualified opinion thereon.

The Company's brands are sold across a variety of distribution channels through direct-to-retail and wholesale licenses, from the mass tier to the luxury market and, in the case of our Peanuts brand, through various media outlets, including television, movies, web-based and mobile content. The Company supports its brands with innovative advertising and promotional campaigns designed to increase brand awareness, and provides its licensees with coordinated trend direction to enhance product appeal and help maintain and build brand integrity.

The Company's business strategy, as a licensing and marketing company, is to maximize the value of its intellectual property by entering into strategic licenses with licensees who have been selected based upon the Company's belief that they will be able to produce and sell quality products in the categories of their specific expertise. This licensing strategy is designed to permit the Company to operate its licensing business with minimal working capital, no inventory, production or distribution costs or risks, and utilizing a group of core employees. Further, the Company also seeks to monetize its trademarks internationally through licenses, partnerships, and other arrangements, such as joint ventures.

1. Summary of Significant Accounting Policies***Principles of Consolidation***

The consolidated financial statements include the accounts of the Company, its wholly-owned subsidiaries, and, in accordance with U.S. GAAP and accounting for variable interest entities and majority owned subsidiaries, the Company consolidates five joint ventures (Scion, IPH Unltd, Peanuts Holdings, Hardy Way, and Icon Modern Amusement; see Note 3 for explanation). All significant intercompany transactions and balances have been eliminated in consolidation. The Company uses the equity method of accounting to account for those investments and joint ventures which are not required to be consolidated under U.S. GAAP.

Business Combinations, Joint Ventures and Investments

The purchase method of accounting requires that the total purchase price of an acquisition be allocated to the assets acquired and liabilities assumed based on their fair values on the date of the business acquisition. The results of operations from the acquired businesses are included in the accompanying consolidated statements of income from the acquisition date. Any excess of the purchase price over the estimated fair values of the net assets acquired is recorded as goodwill.

Since January 1, 2010 the Company has acquired ownership interest in various brands through its investments in joint ventures. The chart below illustrates the Company's ownership interest in these brands as of December 31, 2012:

Edgar Filing: ICONIX BRAND GROUP, INC. - Form 10-K

- (1) The Zoo York brand was owned by IPH Unltd at the time of the Company's October 2009 investment in the joint venture. In July 2011, the Company, through its wholly owned subsidiary ZY Holdings LLC (ZY Holdings), acquired 100% of the Zoo York brand from its IPH Unltd joint venture, thereby effectively increasing its ownership interest in the brand from 51% to 100%. See Note 3 for further details of this transaction.

Further, since January 1, 2010 the Company established the following joint ventures to develop and market the Company's brands in specific international markets:

Date Created	Investment / Joint Venture	Iconix's Investment
December 2011	OP Japan	55% ⁽¹⁾
May 2012	Iconix India	50%

- (1) In December 2012, the Company sold its remaining 55% interest in OP Japan to its OP Japan joint venture partner, Itochu Corporation (Itochu).

For further information on the Company's accounting for joint ventures and investments, see Note 3.

Use of Estimates

The preparation of the consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The Company reviews all significant estimates affecting the financial statements on a recurring basis and records the effect of any adjustments when necessary.

Cash

Cash consists of short-term, highly liquid financial instruments with insignificant interest rate risk that are readily convertible to cash and have maturities of three months or less from the date of purchase.

Concentration of Credit Risk

Financial instruments which potentially subject the Company to concentration of credit risk consist principally of short-term cash investments and accounts receivable. The Company places its cash in investment-grade, short-term instruments with high quality financial institutions. The Company performs ongoing credit evaluations of its customers' financial condition and, generally, requires no collateral from its customers. The allowance for non-collection of accounts receivable is based upon the expected collectability of all accounts receivable.

For the year ended December 31, 2012 (FY 2012), one licensee accounted for 17% of the Company's revenue, as compared to two licensees which accounted for 17% and 10%, respectively, of the Company's revenue for the year ended December 31, 2011 (FY 2011), and two licensees which accounted for 21% and 12%, respectively, of the Company's revenue for the year ended December 31, 2010 (FY 2010).

Accounts Receivable

Accounts receivable are reported at amounts the Company expects to be collected, net of allowance for doubtful accounts, based on the Company's ongoing discussions with its licensees, and its evaluation of each licensee's payment history and account aging. As of December 31, 2012 and 2011, the Company's allowance for doubtful accounts was \$12.0 million and \$6.6 million, respectively.

As of December 31, 2012, no licensee accounted for 10% or more of the Company's accounts receivable (which includes long-term accounts receivables included in other assets on the Company's consolidated balance sheets), compared to one licensee which accounted for 11% Company's accounts receivable as of December 31, 2011.

Derivatives

Edgar Filing: ICONIX BRAND GROUP, INC. - Form 10-K

The Company's objective for holding any derivative financial instruments is to manage interest rate risks. The Company does not use financial instruments for trading or other speculative purposes. However, from time to time the Company uses derivative financial instruments to hedge the variability of anticipated cash flows of a forecasted transaction (a cash flow hedge). The Company's strategy related to derivative financial instruments has been to use foreign currency forward contracts to hedge a portion of anticipated future short-term license revenues to offset the effects of changes in foreign currency exchange rates (primarily between the U.S. dollar and the Japanese Yen).

The Company's foreign currency forward contracts are highly effective hedges because all the critical terms of the derivative instruments match those of the hedged item. On the date the qualifying derivative contract is entered into, the Company designates the derivative as a cash flow hedge. Changes in derivative fair values that are designated as cash flow hedges are deferred and recorded as a component of accumulated other comprehensive income until the associated hedged transactions impact the income statement, at which time the deferred gains and losses are reclassified to either interest expense or interest and other income. Any ineffective portion of a hedging derivative's changes in fair value will be immediately recognized in either interest expense or interest and other income. The

F-11

Table of Contents

fair values of the derivatives, which are based on quoted market prices, are reported as other assets or other liabilities, as appropriate.

Restricted Stock

Compensation cost for restricted stock is measured using the quoted market price of the Company's common stock at the date the common stock is granted. The compensation cost is recognized over the period between the issue date and the date that any restrictions lapse. Restricted stock is included in total common shares outstanding upon the lapse of any restrictions.

Stock Options

Compensation cost for stock options, in accordance with accounting for share-based payment under U.S. GAAP, is calculated using the Black-Scholes valuation model based on awards ultimately expected to vest, reduced for estimated forfeitures, and expensed on a straight-line basis over the requisite service period of the grant. Forfeitures are estimated at the time of grant based on the Company's historical forfeiture experience and will be revised in subsequent periods if actual forfeitures differ from those estimates. The Company will use alternative models if grants have characteristics that cannot be reasonably estimated using this model.

Treasury Stock

Treasury stock is recorded at acquisition cost. Gains and losses on disposition are recorded as increases or decreases to additional paid-in capital with losses in excess of previously recorded gains charged directly to retained earnings.

Deferred Financing Costs

The Company incurred costs (primarily professional fees and placement agent fees) in connection with borrowings under senior secured notes and a convertible bond offering. These costs have been deferred and are being amortized using the interest method over the life of the related debt.

Property, Equipment, Depreciation and Amortization

Property and equipment are stated at cost less accumulated depreciation and amortization. Depreciation and amortization are determined by the straight line method over the estimated useful lives of the respective assets ranging from three to seven years. Leasehold improvements are amortized by the straight-line method over the initial term of the related lease or estimated useful life, whichever is less.

Operating Leases

Total rent payments under operating leases that include scheduled payment increases and rent holidays are amortized on a straight-line basis over the term of the lease. Landlord allowances are amortized by the straight-line method over the term of the lease as a reduction of rent expense.

Long-Lived Assets

If circumstances mandate, the Company evaluates the recoverability of its long-lived assets, other than goodwill and other indefinite life intangibles (discussed below), by comparing estimated future undiscounted cash flows with the assets' carrying value to determine whether a write-down to market value, based on discounted cash flow, is necessary.

Goodwill and Other Intangibles

Goodwill represents the excess of purchase price over the fair value of net assets acquired in business combinations accounted for under the purchase method of accounting. The Company tests, at least annually, goodwill and indefinite life trademarks for impairment through the use of discounted cash flow models. Other intangibles with determinable lives, including certain trademarks, license agreements and non-compete agreements, are evaluated for the possibility of impairment, and are otherwise amortized on a straight-line basis over the estimated useful lives of the assets (currently ranging from 1 to 15 years).

The changes in the carrying amount of goodwill for FY 2012 and FY 2011 are as follows:

Edgar Filing: ICONIX BRAND GROUP, INC. - Form 10-K

<i>(in 000 s)</i>	FY 2012	FY 2011

F-12

transaction. In allocating the purchase price of this acquisition, \$2.3 million was allocated to goodwill, which is deductible for income tax purposes.

On April 26, 2011, Hardy Way acquired substantially all of the licensing rights to the Ed Hardy brands and trademarks from its licensee. Immediately prior to the closing of this transaction, the Company contributed \$62.0 million to Hardy Way, thereby increasing the Company's ownership interests in Hardy Way from 50% to 85% of the outstanding membership interests. See Note 3 for details on this transaction. In allocating the fair value of the purchase price of this investment, approximately \$18.8 million was allocated to goodwill, which is deductible for income tax purposes.

On October 26, 2011, the Company completed the acquisition of the Sharper Image brand and related assets. See Note 3 for details of this transaction. In allocating the purchase price of this acquisition, approximately \$8.2 million was allocated to goodwill, which is deductible for income tax purposes.

During FY 2011, in accordance with the terms of the Rocawear acquisition agreement, the Company recorded contingent consideration of approximately \$3.4 million, which was earned by the former owners of the Rocawear brand as a result of the brand achieving specific performance thresholds.

The Company operates as a single integrated business, and as such has one operating segment which is also used as the reporting unit for purposes of evaluating goodwill impairment. The fair value of the reporting unit is determined using discounted cash flow analysis and estimates of sales proceeds with consideration of market participant data. The annual evaluation of goodwill is performed on October 1, the beginning of the Company's fourth fiscal quarter.

Revenue Recognition

The Company has entered into various trademark license agreements that provide revenues based on minimum royalties and additional revenues based on a percentage of defined sales. Minimum royalty revenue is recognized on a straight-line basis over each period, as defined, in each license agreement. Royalties exceeding the defined minimum amounts are recognized as income during the period corresponding to the licensee's sales. Revenue is not recognized unless collectability is reasonably assured.

Taxes on Income

The Company uses the asset and liability approach of accounting for income taxes and provides deferred income taxes for temporary differences that will result in taxable or deductible amounts in future years based on the reporting of certain costs in different periods for financial statement and income tax purposes. Valuation allowances are recorded when uncertainty regarding their realizability exists.

Earnings Per Share

Basic earnings per share includes no dilution and is computed by dividing net income available to common stockholders by the weighted average number of common shares outstanding for the period. Diluted earnings per share reflect, in periods in which they have a dilutive effect, the effect of common shares issuable upon exercise of stock options, warrants and restricted stock. The difference between reported basic and diluted weighted-average common shares results from the assumption that all dilutive stock options, warrants, convertible debt and restricted stock outstanding were exercised into common stock.

Advertising Campaign Costs

All costs associated with production for the Company's national advertising campaigns are expensed during the periods when the activities take place. All other advertising costs such as print and online media are expensed when the advertisement occurs. Advertising expenses for FY 2012, FY 2011 and FY 2010 amounted to \$21.4 million, \$23.5 million, and \$30.9 million, respectively.

Comprehensive Income

Comprehensive income includes certain gains and losses that, under U.S. GAAP, are excluded from net income as such amounts are recorded directly as an adjustment to stockholders' equity. The Company's comprehensive income is primarily comprised of net income and the change in fair value of its marketable securities and cash flow hedge.

New Accounting Standards

In July 2012, the FASB issued ASU 2012-02, Intangibles - Goodwill and Other (Topic 350): Testing Indefinite-Lived Intangible Assets for Impairment. ASU 2012-02 simplifies the guidance for testing the decline in the realizable value (impairment) of indefinite-lived intangible assets other than goodwill by allowing an organization the option to first assess qualitative factors to determine whether it is necessary to perform the quantitative impairment test. An organization electing to perform a qualitative assessment is no longer required to calculate the fair value of an indefinite-lived intangible asset unless the organization determines, based on a qualitative assessment, that it is more likely than not that the asset is impaired. The amendments in this Update are effective for annual and interim impairment tests performed for fiscal years beginning after September 15, 2012. Early adoption is permitted. The

Table of Contents

adoption of ASU 2012-02 will not have a material impact on our results of operations or our financial position.

In October 2012, the FASB issued ASU 2012-04, Technical Corrections and Improvements. ASU 2012-04 contains amendments to clarify the ASC, correct unintended application of guidance, or make minor improvements to the ASC that are not expected to have a significant effect on current accounting practice or create a significant administrative cost to most entities. Additionally, the amendments are intended to make the ASC easier to understand and the fair value measurement guidance easier to apply by eliminating inconsistencies and providing needed clarifications. The amendments that do not have transition guidance were effective upon issuance. The amendments that are subject to the transition guidance will be effective for fiscal periods beginning after December 15, 2012. The adoption of ASU 2012-04 will not have a material impact on our results of operations or our financial position.

In February 2013, the FASB issued ASU 2013-02, Comprehensive Income (Topic 220): Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income. ASU 2013-02 requires an entity to report the effect of significant reclassifications out of accumulated other comprehensive income on the respective line items in net income if the amount being reclassified is required to be reclassified in its entirety to net income. For other amounts that are not required to be reclassified in their entirety to net income in the same reporting period, an entity is required to cross-reference other disclosures that provide additional detail about those amounts. The amendments do not change the current requirements for reporting net income or other comprehensive income in financial statements. For public entities, the amendments are effective prospectively for reporting periods beginning after December 15, 2012.

Presentation of Prior Year Data

Certain reclassifications have been made to conform prior year data to the current presentation.

Also, as part of this transaction, the Company increased its ownership interest in Hardy Way from a 50% non-controlling interest to an 85% controlling interest. In accordance with ASC Topic 810, as of April 2011 the assets and liabilities and results of operations of Hardy Way have been consolidated with the Company. As a result of this transaction, the Company increased its indefinite life trademarks by \$96.5 million and its licensing agreements by \$1.0 million. In October 2011, the Company completed the acquisition of the Sharper Image assets including trademark and other intellectual property rights. See Note 3 for further explanation of the Hardy Way and Sharper Image transactions.

Edgar Filing: ICONIX BRAND GROUP, INC. - Form 10-K

Amortization expense for intangible assets for FY 2012, FY 2011 and FY 2010 was \$5.5 million, \$7.0 million and \$8.3 million, respectively. Instead, each of these intangible assets are tested for impairment at least annually on an individual basis as separate single units of accounting, with any related impairment charge recorded to the statement of operations at the time of determining such impairment. Consistent with ASC Topic 350, there was no impairment of the indefinite-lived trademarks during FY 2012, FY 2011 or FY 2010. Further, as it relates to the Company's definite-lived trademarks, and consistent with ASC Topic 360, there was no impairment of the definite-lived trademarks during FY 2012, FY 2011 or FY 2010.

Table of Contents**3. Acquisitions, Investments and Joint Ventures*****Umbro***

On November 30, 2012, the Company completed its acquisition from NIKE, Inc., an Oregon corporation (Parent) through its direct and indirect wholly-owned subsidiaries, Umbro International Limited, a company incorporated in England (Seller) and Nike Global Services Pte. Ltd. a company incorporated in Singapore (the International Subsidiary), of all of Parent 's, Seller 's and International Subsidiary 's intellectual property rights and licenses and certain other related assets relating principally or exclusively to the Umbro brand name pursuant to an asset purchase agreement entered into on October 24, 2012 among the Company, Umbro IP Holdings LLC (US Buyer), Iconix Luxembourg Holdings SÀRL, a Société à responsabilité limitée registered in The Grand Duchy of Luxembourg (Global Buyer), Seller, International Subsidiary and Parent.

In accordance with the terms of the Purchase Agreement, at the closing, the Company paid the Seller \$225 million in cash, of which approximately \$6.8 million was released from an escrow account entered into at the time the asset purchase agreement was signed.

The cash paid to the Sellers and the estimated fair value of the assets acquired less liabilities assumed, is allocated as follows:

<i>(000 s omitted)</i>	
Cash paid to sellers by Iconix Brand Group, Inc.	\$ 225,000
Trademarks	\$ 220,500
License agreements	2,200
Goodwill	2,300
	\$ 225,000

Acquisition costs related to this transaction were approximately \$0.5 million and are reflected in the Company 's consolidated income statement for FY 2012. Unaudited pro forma financial information is not required as the acquisition is not material.

Iconix India

In May 2012, the Company contributed substantially all rights to its wholly-owned and controlled brands in India to Imaginative Brand Developers Private Limited, now known as Iconix Lifestyle India Private Limited (Iconix India), a then newly formed subsidiary of the Company. Shortly thereafter, Reliance Brands Limited (Reliance), an affiliate of the Reliance Group, purchased a 50% interest in Iconix India for \$6.0 million. Reliance paid \$2.0 million upon the closing of the transaction and committed to pay an additional \$4.0 million over the 48-month period following closing. As a result of this transaction, the Company recorded a gain of \$5.6 million, which is included in licensing and other revenue in FY 2012. As of December 31, 2012, of the \$4.0 million remaining due to the Company from Reliance, \$1.0 million is included in other assets current and \$3.0 million is included in other assets on the consolidated balance sheet. Additionally, pursuant to the terms of the transaction, the Company and Reliance each agreed to contribute 100 million rupees (approximately \$2.0 million) to Iconix India as working capital, of which 25 million rupees (approximately \$0.5 million) was contributed at closing with the balance to be contributed based on the capital requirements of Iconix India as agreed upon by the Company and Reliance.

At inception, the Company determined, in accordance with ASC 810, based on the corporate structure, voting rights and contributions of the Company and Reliance, that Iconix India is not a variable interest entity and not subject to consolidation. The Company has recorded its investment under the equity method of accounting.

Modern Amusement

On December 27, 2012, the Company entered into an interest purchase and management agreement with Dirty Bird Productions, Inc., a California corporation, in which the Company effectively purchased a 51% interest in the Modern Amusement trademarks and related assets for \$5.0 million, which was funded entirely from cash on the balance sheet. To acquire its 51% interest in the trademark, the Company formed a new joint venture company, Icon Modern Amusement LLC (Icon MA), a Delaware limited liability company.

Edgar Filing: ICONIX BRAND GROUP, INC. - Form 10-K

ASC Topic 810 affirms that consolidation is appropriate when one entity has a controlling financial interest in another entity. The Company owns a 51% membership interest in Icon MA compared to the minority owner's 49% membership interest. Further, the Company believes that the voting and veto rights of the minority shareholder are merely protective in nature and do not provide them with substantive participating rights in Icon MA. As such, Icon MA is subject to consolidation with the Company, which is reflected in the consolidated financial statements.

Sharper Image

On October 26, 2011, the Company entered into an asset purchase agreement with Sharper Image Acquisition LLC, a Delaware limited

F-15

liability company (Seller), pursuant to which the Company purchased from Seller substantially all of its assets, including the Sharper Image trademark and other intellectual property rights related to the Sharper Image brand. The Company paid approximately \$65.6 million to the Seller.

OP Japan

In November 2011, the Company contributed substantially all rights to the OP brand in Japan, Singapore, Malaysia, Indonesia and certain neighboring countries (the OP Japan Territory) to OP Japan Holdings Limited (OP Japan), a then newly formed subsidiary of the Company. Immediately following the formation of OP Japan, Itochu purchased a 45% interest in OP Japan with an option to obtain the remaining 55% at fair value. In December 2012, Itochu exercised the option and purchased the remaining 55% interest in OP Japan from the Company. In consideration for its interest in OP Japan, Itochu paid approximately \$7.4 million in FY 2011 and \$8.7 million in 2013 to the Company. As a result of this transaction, the Company recorded a net gain of approximately \$6.5 million in FY 2012 and \$5.6 million in FY 2011, representing the difference of the \$16.1 million received from Itochu and the cost basis of \$4.0 million for the OP trademarks in the OP Japan Territory, which is included in licensing and other revenue in the Company s consolidated income statement in FY 2012 and FY 2011. In conjunction with this transaction, Itochu entered into a master license agreement with OP Japan for the exclusive rights to certain licenses whereby Itochu agrees to pay OP Japan guaranteed royalties of \$2.0 million per year for a five year term.

Scion

Scion is a brand management and licensing company formed by the Company with Shawn Jay-Z Carter in March 2007 to buy, create and develop brands across a spectrum of consumer product categories. On November 7, 2007, Scion, through its wholly-owned subsidiary Artful Holdings LLC, purchased Artful Dodger, an urban apparel brand for a purchase price of \$15.0 million.

At inception, the Company determined that it would consolidate Scion since, under ASC Topic 810, it is the primary beneficiary of the variable interest entity.

In March 2009, the Company, through its investment in Scion, effectively acquired a 16.6% interest in one of its licensees, Roc Apparel Group LLC (RAG) for \$1. The Company has determined that this entity is a variable interest entity as defined by ASC Topic 810, however, the Company is not the primary beneficiary of this entity. The investment in this entity is accounted for under the cost method of accounting. As part of the transaction, the Company and its Scion partner each contributed approximately \$2.1 million to Scion, totaling approximately \$4.1 million, which was deposited as cash collateral under the terms of RAG s financing agreements. In June 2010, approximately \$3.3 million of the collateral was released to Scion and distributed to the Scion members equally; as of December 31, 2011 the remaining \$0.8 million was included in short-term restricted cash on the Company s consolidated balance sheet. In January 2012, the Company and its Scion partner each contributed \$1.1 million, totaling \$2.2 million, to Scion, which was deposited as additional cash collateral under the new terms of RAG s financing agreements. The aggregate \$3.0 million of cash collateral, which is owned by Scion, is included as short-term restricted cash in the Company s consolidated balance sheet as of December 31, 2012.

During FY 2010 the Company received and recognized \$0.8 million in dividends; no such dividends were received or recognized in FY 2012 or FY 2011.

In May 2012, Scion, through a newly formed subsidiary, Scion BBC LLC, purchased a 50% interest in BBC Ice Cream, LLC, owner of the Billionaire Boys Club and Ice Cream brands for approximately \$3.5 million. The purchase price for the transaction was funded by the Company through a cash contribution to Scion. In addition, pursuant to the terms of an amendment to the Scion operating agreement, signed in March 2012, the Company has agreed to commit an additional \$6.5 million to Scion to fund investments and acquisitions mutually agreed upon by the Company and its Scion partner, Jay-Z.

In accordance with ASC Topic 810, the Company recognizes the non-controlling interest of Scion as equity in the consolidated financial statements and separate from the parent s equity.

As of December 31, 2012 and December 31, 2011, the carrying value of the consolidated assets that are collateral for the variable interest entity s obligations total \$10.6 million and \$11.6 million, respectively, which is comprised of the Artful Dodger trademark.

Iconix China

Edgar Filing: ICONIX BRAND GROUP, INC. - Form 10-K

transaction, the Company contributed to Iconix China substantially all rights to its brands in the China Territory and committed to contribute \$5.0 million, and Novel committed to contribute \$20 million to Iconix China. Upon closing of the transaction, the Company contributed \$2.0 million and Novel contributed \$8.0 million. In September 2009, the parties amended the terms of the transaction to eliminate the obligation of the Company to make any additional contributions and to reduce Novel's remaining contribution commitment to \$9.0 million, \$4.0 million of which was contributed in July 2010, \$3.0 million of which was contributed in May 2011, and \$2.0 million of which was contributed in June 2012.

In December 2012, China Outfitters Holdings Limited (China Outfitters), a Hong Kong company and joint venture partner with Iconix China for the London Fog brand, purchased the Artful Dodger and Zoo York brands for the China Territory from Iconix China. As a result of this transaction, Iconix China recorded a net gain of approximately \$7.4 million, representing the difference of the \$8.0 million received from China Outfitters and the cost basis of \$0.6 million for the Artful Dodger and Zoo York trademarks in the China Territory. The Company's 50% share of the net gain of \$7.4 million recognized by Iconix China in this transaction, amounting to approximately \$3.7 million, is included in equity earnings on joint ventures in the Company's consolidated income statement for FY 2012.

In December 2011, China Outfitters, completed an initial public offering on the Hong Kong Stock Exchange. As a result of this public offering, Iconix China's investment in its joint venture with China Outfitters, which had a cost basis of approximately \$2.6 million, was replaced with common stock of the newly formed public company, China Outfitters, the fair value of which was approximately \$15.3 million, and in accordance with ASC Topic 845 a net gain of approximately \$12.7 million was recognized by Iconix China at the time of the public offering to reflect the exchange of the original investment for the fair value of the China Outfitters common stock received through the public offering. The Company's 50% share of the net gain of \$12.7 million recognized by Iconix China in this transaction, amounting to approximately \$6.4 million, is included in equity earnings on joint ventures in the Company's consolidated income statement for FY 2011.

As of December 31, 2012, the Company has not received any income distributions from Iconix China.

At inception, the Company determined that, in accordance with ASC Topic 810, based on the corporate structure, voting rights and contributions of the Company and Novel, Iconix China is a variable interest entity and not subject to consolidation, as, under ASC Topic 810, the Company is not the primary beneficiary of Iconix China. The Company has recorded its investment under the equity method of accounting.

Iconix Latin America

In December 2008, the Company contributed substantially all rights to its brands in Mexico, Central America, South America, and the Caribbean (the Latin America Territory) to Iconix Latin America LLC (Iconix Latin America), a then newly formed subsidiary of the Company. On December 29, 2008, New Brands America LLC (New Brands), an affiliate of the Falic Group, purchased a 50% interest in Iconix Latin America. In consideration for its 50% interest in Iconix Latin America, New Brands agreed to pay \$6.0 million to the Company. New Brands paid \$1.0 million upon closing of this transaction and committed to pay an additional \$5.0 million over the 30-month period following closing. As of December 31, 2011 this obligation was paid in full.

During FY 2011, the Company contributed to Iconix Latin America its share of the rights to revenues from IPH Unltd (see below) from the exploitation of the Ecko brands in the Latin America Territory. Also in FY 2011, the Company contributed to Iconix Latin America its rights to the Ed Hardy brands for the Latin America Territory. During FY 2012, the Company contributed to Iconix Latin America the rights to the Zoo York and Sharper Image brands for the Latin America Territory. In aggregate consideration for these contributions, New Brands agreed to pay an aggregate of approximately \$5.7 million to the Company. As of December 31, 2012, the balance owed to the Company under this obligation is approximately \$2.9 million, \$1.1 million of which is included in other assets - current and \$1.8 million of which is included in other assets on the Company's consolidated balance sheet. The Company has recorded the consideration associated with these transactions as other liabilities, which will be recognized over a period of three years.

Based on the corporate structure, voting rights and contributions of the Company and New Brands, Iconix Latin America is not subject to consolidation. This conclusion was based on the Company's determination that the entity met the criteria to be considered a business, and therefore was not subject to consolidation due to the business scope exception of ASC Topic 810. As such, the Company has recorded its investment under the equity method of accounting.

Hardy Way

In May 2009, the Company acquired a 50% interest in Hardy Way, the owner of the Ed Hardy brands and trademarks, for \$17.0 million, comprised of \$9.0 million in cash and 588,688 shares of the Company's common stock valued at \$8.0 million as of the closing. In addition, the sellers of the 50% interest received an additional \$1.0 million in shares of the Company's common stock pursuant to an earn-out based on royalties received by Hardy Way for 2009.

On April 26, 2011, Hardy Way acquired substantially all of the licensing rights to the Ed Hardy brands and trademarks from its licensee, Nervous Tattoo, Inc. (NT) pursuant to an asset purchase agreement by and among Hardy Way, NT and Audigier Brand Management Group, LLC (ABMG, and together with NT, the Sellers). Immediately prior to the closing of the transactions contemplated by the asset purchase agreement, the Company contributed \$62.0 million to Hardy Way, thereby increasing the Company's ownership interests in Hardy Way from 50% to 85% of the outstanding membership interests. As a result of this transaction, the Company recorded a non-cash pre-tax re-measurement

Edgar Filing: ICONIX BRAND GROUP, INC. - Form 10-K

gain of approximately \$21.5 million, representing the increase in fair value of its original 50% investment in Hardy Way. This re-measurement gain is included in interest and other income in the Prior Year Nine Months. Hardy Way paid \$55.0 million in cash for the assets described above. In addition, the Sellers were entitled to receive up to an additional \$7.0 million in cash pursuant to an earn-out based on royalties received by Hardy Way through June 30, 2013, which Hardy Way prepaid to the Sellers in an escrow account. The Company has accounted for this contingent consideration in accordance with ASC Topic 805. Further, as part of this transaction, the Sellers, as a licensee of Hardy Way for various men's and women's apparel categories, prepaid royalties to

F-17

Table of Contents

Hardy Way in the amount of \$7.0 million, representing guaranteed minimum royalties for two years.

Prior to the April 26, 2011 transaction described above, based on the corporate structure, voting rights and contributions of the Company and Hardy Way, Hardy Way was not subject to consolidation. This conclusion was based on the Company's determination that the entity met the criteria to be considered a business, and therefore was not subject to consolidation due to the business scope exception of ASC Topic 810. As such, the Company had recorded its investment under the equity method of accounting.

In accordance with ASC Topic 810, the Company recognizes the non-controlling interest of Hardy Way as equity in the consolidated financial statements and separate from the parent's equity.

On December 23, 2011, the Company entered into an agreement with NT to terminate the above mentioned license, and as such all prepaid royalties were recognized as earned and are included in the Company's consolidated income statement for FY 2011. As part of this agreement, \$2.0 million of the original \$7.0 million contingent consideration was released back to the Company and the contingency provision relating to the remaining \$5.0 million was amended and considered earned by NT. In accordance with ASC Topic 810, the \$2.0 million of contingent consideration released back to the Company is included in the Company's consolidated income statement for FY 2011. During the first quarter of FY 2012, the Company signed a new licensee to replace the core categories covered by the terminated NT license.

The Ed Hardy trademarks have been determined by management to have an indefinite useful life and accordingly, consistent with ASC Topic 350, no amortization is being recorded in the Company's consolidated income statements. The goodwill and trademarks are subject to a test for impairment on an annual basis. The \$18.8 million of goodwill resulting from the April 2011 transaction is deductible for income tax purposes.

IPH Unltd

In October 2009, the Company consummated, through a newly formed subsidiary, IPH Unltd, a transaction with the sellers of the Ecko portfolio of brands, including Ecko and Zoo York (the Ecko Assets), pursuant to which the sellers sold and/or contributed the Ecko Assets to IPH Unltd in exchange for a 49% membership interest in IPH Unltd and \$63.5 million in cash which had been contributed to IPH Unltd by the Company. As a result of this transaction, the Company owns a 51% controlling membership interest in IPH Unltd. In addition, as part of this transaction, IPH Unltd borrowed \$90.0 million from a third party to repay certain indebtedness of the sellers.

On July 27, 2011 the Company, through its newly formed wholly owned subsidiary ZY Holdings LLC (ZY Holdings), acquired the Zoo York trademark and related assets from IPH Unltd for a net purchase price of \$18.0 million, effectively increasing its ownership in the Zoo York assets from 51% to 100%. In accordance with ASC Topic 810, no gain was recognized on this transaction as the Company retained a controlling interest in the Zoo York assets before and after the increase in its ownership interest.

ASC Topic 810 affirms that consolidation is appropriate when one entity has a controlling financial interest in another entity. The Company owns a 51% membership interest in IPH Unltd compared to the minority owner's 49% membership interest. Further, the Company believes that the voting and veto rights of the minority shareholder are merely protective in nature and do not provide them with substantive participating rights in IPH Unltd. As such, IPH Unltd is subject to consolidation with the Company, which is reflected in the consolidated financial statements.

In accordance with ASC Topic 810, the Company recognizes the non-controlling interest of IPH Unltd as equity in the consolidated financial statements and separate from the parent's equity.

The Ecko and Zoo York trademarks have been determined by management to have an indefinite useful life and accordingly, consistent with ASC Topic 350, no amortization is being recorded in the Company's consolidated income statements. The goodwill and trademarks are subject to a test for impairment on an annual basis. The \$0.7 million of goodwill is deductible for income tax purposes. The licensing contracts are being amortized on a straight-line basis over the remaining contractual periods of approximately 1 to 9 years.

As of December 31, 2012 and December 31, 2011, the carrying value of the consolidated assets that are collateral for the variable interest entity's obligations total \$183.4 million and \$184.5 million, respectively, which is comprised primarily of trademarks and license agreements. The assets of the Company are not available to the variable interest entity's creditors.

Iconix Europe

Edgar Filing: ICONIX BRAND GROUP, INC. - Form 10-K

In December 2009, the Company contributed substantially all rights to its brands in the European Territory (defined as all member states and candidate states of the European Union and certain other European countries) to Iconix Europe LLC, a then newly formed wholly-owned subsidiary of the Company (Iconix Europe). Also in December 2009 and shortly after the formation of Iconix Europe, an investment group led by The Licensing Company and Albion Equity Partners LLC purchased a 50% interest in Iconix Europe through Brand Investments Vehicles Group 3 Limited (BIV), to assist the Company in developing, exploiting, marketing and licensing the Company s brands in the European Territory. In consideration for its 50% interest in Iconix Europe, BIV agreed to pay \$4.0 million, of which \$3.0 million was paid upon closing of this transaction in December 2009 and the remaining \$1.0 million of which was paid in January 2011. As a result of this transaction, the Company recognized a gain of approximately \$7.0 million for 2009 which is included in

licensing and other revenue on the consolidated income statement in 2009. Pursuant to the terms of the Iconix Europe operating agreement and subject to certain conditions, the Company is entitled to recognize a preferred profit distribution from Iconix Europe of at least \$6.0 million, after which all profits and losses are recognized 50/50 in accordance with each principal's membership interest percentage.

At inception, the Company determined, in accordance with ASC 810, based on the corporate structure, voting rights and contributions of the Company and BIV, that Iconix Europe is not a variable interest entity and not subject to consolidation. The Company has recorded its investment under the equity method of accounting.

MG Icon

In March 2010, the Company acquired a 50% interest in MG Icon, the owner of the Material Girl and Truth or Dare brands and trademarks and other rights associated with the artist, performer and celebrity known as Madonna, from Purim LLC (Purim) for \$20.0 million, \$4.0 million of which was paid at closing and another \$8.0 million of which was paid through September 30, 2012. In connection with the launch of Truth or Dare brand and based on certain qualitative criteria, Purim is entitled to an additional \$3.0 million, \$1.0 million of which was paid in March 2012, with the remaining amount to be paid in \$1.0 million installments in March 2013 and March 2014. In addition, Purim may be entitled to receive additional consideration based on certain qualitative criteria. As of December 31, 2012, of the remaining \$10.0 million owed to Purim, \$5.0 million is included in other current liabilities and \$5.0 million is included in other liabilities on the Company's consolidated balance sheet.

At inception, the Company determined, in accordance with ASC Topic 810, based on the corporate structure, voting rights and contributions of the Company and Purim, MG Icon is a variable interest entity and not subject to consolidation, as, under ASC Topic 810, the Company is not the primary beneficiary of MG Icon. The Company has recorded its investment under the equity method of accounting.

Pursuant to the terms of the MG Icon operating agreement and subject to certain conditions, the Company is entitled to recognize a preferred profit distribution from MG Icon of at least \$23.0 million, after which all profits and losses are recognized 50/50 in accordance with each principal's membership interest percentage.

Peanuts Holdings

On June 3, 2010 (the Peanuts Closing Date), the Company consummated an interest purchase agreement with United Feature Syndicate, Inc. (UFS) and The E.W. Scripps Company (the Parent) (Parent and UFS, collectively, the Sellers), pursuant to which it purchased all of the issued and outstanding interests (Interests) of Peanuts Worldwide, a then newly formed Delaware limited liability company, to which, prior to the closing of this acquisition, copyrights and trademarks associated with the Peanuts characters and certain other assets were contributed by UFS. On the Peanuts Closing Date, the Company also assigned its right to buy all of the Interests to Peanuts Holdings, a newly formed Delaware limited liability company and joint venture owned 80% by Icon Entertainment LLC (IE), a wholly-owned subsidiary of the Company, and 20% by Beagle Scout LLC, a Delaware limited liability company (Beagle) owned by certain Schulz family trusts.

Further, on the Closing Date, IE and Beagle entered into an operating agreement with respect to Peanuts Holdings (the Peanuts Operating Agreement). Pursuant to the Peanuts Operating Agreement, the Company, through IE, and Beagle made capital contributions of \$141.0 million and \$34.0 million, respectively, in connection with the acquisition of Peanuts Worldwide. The Interests were then purchased for \$172.1 million in cash, as adjusted for acquired working capital.

In connection with the Peanuts Operating Agreement, the Company through IE, loaned \$17.5 million to Beagle (the Beagle Note), the proceeds of which were used to fund Beagle's capital contribution to Peanuts Holdings in connection with the acquisition of Peanuts Worldwide. The Beagle Note bears interest at 6% per annum, with minimum principal payable in equal annual installments of approximately \$2.2 million on June 3, with any remaining unpaid principal balance and accrued interest to be due on June 3, 2015, the Beagle Note maturity date. Principal may be prepaid at anytime. The Beagle Note is secured by the membership interest in Peanuts Holdings owned by Beagle. As of December 31, 2012, the current portion of approximately \$2.2 million is included in other assets - current in the consolidated balance sheet and the long term portion of \$7.5 million is included in other assets.

ASC Topic 810 affirms that consolidation is appropriate when one entity has a controlling financial interest in another entity. The Company owns an 80% membership interest in Peanuts Holdings, compared to the non-controlling owner's 20% membership interest. As such, Peanuts Holdings is subject to consolidation with the Company, which is reflected in the Company's consolidated financial statements as of December 31, 2012.

In accordance with ASC Topic 810, the Company recognizes the non-controlling interest of Peanuts Holdings as equity in the consolidated financial statements and separate from the parent's equity.

Edgar Filing: ICONIX BRAND GROUP, INC. - Form 10-K

The Peanuts trademarks and copyrights have been determined by management to have an indefinite useful life and accordingly, consistent with ASC Topic 350, no amortization is being recorded in the Company's consolidated income statements. The goodwill and trademarks are subject to a test for impairment on an annual basis. The \$17.7 million of goodwill is deductible for income tax purposes.

The licensing agreements are being amortized on a straight-line basis over the remaining contractual periods of approximately 1 to 5 years.

Acquisition Expenses

During FY 2012, FY 2011 and FY 2010, pretax charges aggregating approximately \$0.5 million, \$0.4 million and \$1.5 million, respectively, were recorded for legal expenses and other transactions related to the acquisitions and transactions described above. These charges, which were expensed in accordance with the accounting guidance for business combinations, are included in selling, general and administrative costs in the Company's consolidated income statements.

4. Fair Value Measurements

ASC Topic 820 Fair Value Measurements, which the Company adopted on January 1, 2008, establishes a framework for measuring fair value and requires expanded disclosures about fair value measurement. While ASC 820 does not require any new fair value measurements in its application to other accounting pronouncements, it does emphasize that a fair value measurement should be determined based on the assumptions that market participants would use in pricing the asset or liability. As a basis for considering market participant assumptions in fair value measurements, ASC 820 established the following fair value hierarchy that distinguishes between (1) market participant assumptions developed based on market data obtained from sources independent of the reporting entity (observable inputs) and (2) the reporting entity's own assumptions about market participant assumptions developed based on the best information available in the circumstances (unobservable inputs):

Level 1: Observable inputs such as quoted prices for identical assets or liabilities in active markets

Level 2: Other inputs that are observable directly or indirectly, such as quoted prices for similar assets or liabilities or market-corroborated inputs

Level 3: Unobservable inputs for which there is little or no market data and which requires the owner of the assets or liabilities to develop its own assumptions about how market participants would price these assets or liabilities

The valuation techniques that may be used to measure fair value are as follows:

(A) Market approach - Uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities

(B) Income approach - Uses valuation techniques to convert future amounts to a single present amount based on current market expectations about those future amounts, including present value techniques, option-pricing models and excess earnings method

(C) Cost approach - Based on the amount that would currently be required to replace the service capacity of an asset (replacement cost)

To determine the fair value of certain financial instruments, the Company relies on Level 2 inputs generated by market transactions of similar instruments where available, and Level 3 inputs using an income approach when Level 1 and Level 2 inputs are not available. The Company's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the valuation of financial assets and financial liabilities and their placement within the fair value hierarchy. The following table summarizes the instruments measured at fair value at December 31, 2012 and December 31, 2011:

December 31, 2012

<i>(000's omitted)</i>	Level 1	Level 2	Level 3	Valuation Technique

Hedge Instruments

On March 26, 2011, the Company purchased hedge instruments from JP Morgan Chase Bank N.A. (JPMC) to mitigate the income statement risk and cash flow risk of revenue and receivables from licenses denominated in Japanese Yen. These hedge instruments are

F-20

Table of Contents

foreign exchange forward contracts that set the foreign exchange rate from Japanese Yen to U.S. Dollars for the Company's forecasted Japanese Yen denominated revenue (Income Statement Hedge) and receivable (Balance Sheet Hedge). Based on management's assessment, the Income Statement Hedge qualifies for hedge accounting under ASC Topic 815. On a quarterly basis, the value of the Income Statement Hedge was adjusted to reflect its current fair value, with any adjustment flowing through other comprehensive income. The fair value of this instrument was obtained by comparing the characteristics of the Income Statement Hedge with similarly traded instruments, and was therefore classified as Level 2 in the fair value hierarchy. As of March 31, 2012, the Income Statement Hedge and the Balance Sheet Hedge expired by their respective terms, and, as of December 31, 2012 the Company had no other hedge instruments other than the 2.50% Convertible Note Hedges (see Note 5).

Financial Instruments

As of December 31, 2012 and December 31, 2011, the fair values of cash, receivables and accounts payable approximated their carrying values due to the short-term nature of these instruments. The fair value of the note receivable from New Brands (see Note 3) approximates its \$2.9 million carrying value; the fair value of the note receivable due from the purchasers of the Canadian trademark for Joe Boxer approximates its \$3.0 million carrying value; the fair value of the note payable to Purim LLC (see Note 3) approximates its \$10.0 million carrying value; and the fair value of the Beagle Note (see Note 3) approximates its \$9.7 million carrying value. The estimated fair values of other financial instruments subject to fair value disclosures, determined based on broker quotes or quoted market prices or rates for the same or similar instruments, and the related carrying amounts are as follows:

(000's omitted)

	December 31, 2012		December 31, 2011	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Long-term debt, including current portion	\$ 911,711	\$ 979,827	\$ 633,389	\$ 679,755

Financial instruments expose the Company to counterparty credit risk for nonperformance and to market risk for changes in interest. The Company manages exposure to counterparty credit risk through specific minimum credit standards, diversification of counterparties and procedures to monitor the amount of credit exposure. The Company's financial instrument counterparties are investment or commercial banks with significant experience with such instruments.

Non-Financial Assets and Liabilities

On January 1, 2009, the Company adopted the provisions of ASC Topic 820 with respect to its non-financial assets and liabilities requiring non-recurring adjustments to fair value using a market participant approach. The Company uses a discounted cash flow model with Level 3 inputs to measure the fair value of its non-financial assets and liabilities. The Company also adopted the provisions of ASC 820 as it relates to purchase accounting for its acquisitions. The Company has goodwill, which is tested for impairment at least annually, as required by ASC Topic 350. Further, in accordance with ASC Topic 350, the Company's indefinite-lived trademarks are tested for impairment at least annually, on an individual basis as separate single units of accounting. Similarly, consistent with ASC Topic 360 as it relates to accounting for the impairment or disposal of long-lived assets, the Company assesses whether or not there is impairment of the Company's definite-lived trademarks. There was no impairment, and therefore no write-down, of any of the Company's long-lived assets during FY 2012 or FY 2011.

5. Debt Arrangements

The Company's net carrying amount of debt is comprised of the following:

<i>(000's omitted)</i>	December 31, 2012	December 31, 2011

Senior Secured Notes

On November 29, 2012 (the SSN Closing Date), Icon Brand Holdings, Icon DE Intermediate Holdings LLC, Icon DE Holdings LLC and Icon NY Holdings LLC, each a limited-purpose, bankruptcy remote, wholly-owned direct or indirect subsidiary of the Company, (collectively, the Co-Issuers) issued \$600.0 million aggregate principal amount of Series 2012-1 4.229% Senior Secured Notes, Class A-2 (the Senior Secured Notes) in an offering exempt from registration under the Securities Act of 1933, as amended.

Simultaneously with the issuance of the Senior Secured Notes, the Co-Issuers also entered into a revolving financing facility of Series 2012-1 Variable Funding Senior Notes, Class A-1 (the Variable Funding Notes), which allows for the funding of up to \$100 million of

Table of Contents

Variable Funding Notes and certain other credit instruments, including letters of credit. The Variable Funding Notes were issued under the Indenture and allow for drawings on a revolving basis. Drawings and certain additional terms related to the Variable Funding Notes are governed by the Class A-1 Note Purchase Agreement dated November 29, 2012 (the Variable Funding Note Purchase Agreement), among the Co-Issuers, Iconix, as manager, certain conduit investors, financial institutions and funding agents, and Barclays Bank PLC, as provider of letters of credit, as swingline lender and as administrative agent. The Variable Funding Notes will be governed, in part, by the Variable Funding Note Purchase Agreement and by certain generally applicable terms contained in the Indenture. Interest on the Variable Funding Notes will be payable at per annum rates equal to the CP Rate, Base Rate or Eurodollar Rate, as defined in the Variable Funding Note Purchase Agreement.

As of December 31, 2012, no amounts under the Variable Funding Notes have been drawn. There is a commitment fee on the unused portion of the Variable Funding Notes facility of 0.5% per annum. It is anticipated that any outstanding principal of and interest on the Variable Funding Notes will be repaid in full on or prior to January 2018. Following the anticipated repayment date, additional interest will accrue on the Variable Funding Notes equal to 5% per annum. The Variable Funding Notes and other credit instruments issued under the Variable Funding Note Purchase Agreement are secured by the collateral described below.

The Senior Secured Notes and the Variable Funding Notes are referred to collectively as the Notes. The Notes were issued in a securitization transaction pursuant to which substantially all of Iconix's United States and Canadian revenue-generating assets (the Securitized Assets), consisting principally of its intellectual property and license agreements for the use of its intellectual property, were transferred to and are currently held by the Co-Issuers. The Securitized Assets do not include revenue generating assets of (x) the Iconix subsidiary that owns the Badgley Mischka trademark or the Iconix subsidiaries that own Iconix's other brands outside of the United States and Canada or (y) joint ventures in which Iconix and certain of its subsidiaries have investments and which own the Artful Dodger, Billionaire Boys Club and Ecko Unltd trademarks.

The Notes were issued under a base indenture and related supplemental indenture (collectively, the Indenture) among the Co-Issuers and Citibank, N.A., as trustee (in such capacity, the Trustee) and securities intermediary. The Indenture will allow the Co-Issuers to issue additional series of notes in the future subject to certain conditions.

While the Notes are outstanding, payments of interest are required to be made on the Senior Secured Notes on a quarterly basis. To the extent funds are available, principal payments in the amount of \$10.5 million are required to be made on the Senior Secured Notes on a quarterly basis.

The legal final maturity date of the Senior Secured Notes is in January of 2043, but it is anticipated that, unless earlier prepaid to the extent permitted under the Indenture, the Senior Secured Notes will be repaid in January of 2020. If the Co-Issuers have not repaid or refinanced the Senior Secured Notes prior to the anticipated repayment date, additional interest will accrue on the Senior Secured Notes equal to the greater of (A) 5% per annum and (B) a per annum interest rate equal to the excess, if any, by which the sum of (i) the yield to maturity (adjusted to a quarterly bond-equivalent basis), on the anticipated repayment date of the United States treasury security having a term closest to 10 years plus (ii) 5% plus (iii) 3.4% exceeds the original interest rate. The Senior Secured Notes rank pari passu with the Variable Funding Notes.

Pursuant to the Indenture, the Notes are the joint and several obligations of the Co-Issuers only. The Notes are secured under the Indenture by a security interest in substantially all of the assets of the Co-Issuers (the Collateral), which includes, among other things, (i) intellectual property assets, including the U.S. and Canadian registered and applied for trademarks for the following brands and other related IP assets: Candie's, Bongo, Joe Boxer (excluding Canadian trademarks, none of which are owned by Iconix), Rampage, Mudd, London Fog (other than the trademark for outerwear products sold in the United States), Mossimo, Ocean Pacific and OP, Danskin and Danskin Now, Rocawear, Starter, Waverly, Fieldcrest, Royal Velvet, Cannon, Charisma, and Sharper Image; (ii) the rights (including the rights to receive payments) and obligations under all license agreements for use of those trademarks; (iii) the following equity interests in the following joint ventures: an 85% interest in Hardy Way LLC which owns the Ed Hardy brand, a 50% interest in MG Icon LLC which owns the Material Girl and Truth or Dare brands, a 100% interest in ZY Holdings LLC which owns the Zoo York brand, and an 80% interest in Peanuts Holdings LLC which owns the Peanuts brand and characters; and (iv) certain cash accounts established under the Indenture.

If the Company contributes a newly organized, limited purpose, bankruptcy remote entity (each an Additional IP Holder) and, together with the Co-Issuers, the Securitization Entities) to Icon Brand Holdings LLC or Icon DE Intermediate Holdings LLC, that Additional IP Holder will enter into a guarantee and collateral agreement in a form provided for in the Base Indenture pursuant to which such Additional IP Holder will guarantee the obligations of the Co-Issuers in respect of any Notes issued under the Base Indenture and the other related documents and pledge substantially all of its assets to secure those guarantee obligations pursuant to a guarantee and collateral agreement.

Neither the Company nor any subsidiary of the Company, other than the Securitization Entities, will guarantee or in any way be liable for the obligations of the Co-Issuers under the Indenture or the Notes.

Edgar Filing: ICONIX BRAND GROUP, INC. - Form 10-K

The Notes are subject to a series of covenants and restrictions customary for transactions of this type, including (i) that the Co-Issuers maintain specified reserve accounts to be used to make required payments in respect of the Notes, (ii) provisions relating to optional and

mandatory prepayments, including mandatory prepayments in the event of a change of control (as defined in the Series 2012-1 Supplement) and the related payment of specified amounts, including specified make-whole payments in the case of the Senior Secured Notes under certain circumstances, (iii) certain indemnification payments in the event, among other things, the transfers of the assets pledged as collateral for the Notes are in stated ways defective or ineffective and (iv) covenants relating to recordkeeping, access to information and similar matters.

The Notes are also subject to customary rapid amortization events provided for in the Indenture, including events tied to (i) the failure to maintain a stated debt service coverage ratio, which tests the amount of net cash flow generated by the assets of the Co-Issuers against the amount of debt service obligations of the Co-Issuers (including any commitment fees and letter of credit fees with respect to the Variable Funding Notes, due and payable accrued interest, and due and payable scheduled principal payments on the Senior Secured Notes), (ii) certain manager termination events, (iii) the occurrence of an event of default and (iv) the failure to repay or refinance the Notes on the scheduled maturity date. If a rapid amortization event were to occur, Icon DE Intermediate Holdings LLC and Icon Brand Holdings LLC would be restricted from declaring or paying distributions on any of its limited liability company interests.

The Company used approximately \$150.4 million of the proceeds received from the issuance of the Senior Secured Notes to repay amounts outstanding under its revolving credit facility (see below) and approximately \$20.9 million to pay the costs associated with this securitized financing transaction. In addition approximately \$218.3 million of the proceeds from the Senior Secured Notes were used for the Company's purchase of the Umbro brand.

2.50% Convertible Notes

On May 23, 2011, the Company completed the issuance of \$300.0 million principal amount of the Company's 2.50% convertible senior subordinated notes due June 2016 (2.50% Convertible Notes) in a private offering to certain institutional investors. The net proceeds received by the Company from the offering, excluding the net cost of hedges and sale of warrants (described below) and including transaction fees, were approximately \$291.6 million.

The 2.50% Convertible Notes bear interest at an annual rate of 2.50%, payable semi-annually in arrears on June 1 and December 1 of each year, beginning December 1, 2011. However, the Company recognizes an effective interest rate of 7.25% on the carrying amount of the 2.50% Convertible Notes. The effective rate is based on the rate for a similar instrument that does not have a conversion feature. The 2.50% Convertible Notes will be convertible into cash and, if applicable, shares of the Company's common stock based on a conversion rate of 32.5169 shares of the Company's common stock, subject to customary adjustments, per \$1,000 principal amount of the 2.50% Convertible Notes (which is equal to an initial conversion price of approximately \$30.75 per share) only under the following circumstances: (1) during any fiscal quarter beginning after June 30, 2011 (and only during such fiscal quarter), if the closing price of the Company's common stock for at least 20 trading days in the 30 consecutive trading days ending on the last trading day of the immediately preceding fiscal quarter is more than 130% of the conversion price per share, which is \$1,000 divided by the then applicable conversion rate; (2) during the five business day period immediately following any five consecutive trading day period in which the trading price per \$1,000 principal amount of the 2.50% Convertible Notes for each day of that period was less than 98% of the product of (a) the closing price of the Company's common stock for each day in that period and (b) the conversion rate per \$1,000 principal amount of the 2.50% Convertible Notes; (3) if specified distributions to holders of the Company's common stock are made, as set forth in the indenture governing the 2.50% Convertible Notes (2.50% Indenture); (4) if a change of control or other fundamental change, each as defined in the 2.50% Indenture, occurs; (5) if the Company chooses to redeem the 2.50% Convertible Notes upon the occurrence of a specified accounting change, as defined in the 2.50% Indenture; and (6) during the last month prior to maturity of the 2.50% Convertible Notes. If the holders of the 2.50% Convertible Notes exercise the conversion provisions under the circumstances set forth, the Company will need to remit the lower of the principal balance of the 2.50% Convertible Notes or their conversion value to the holders in cash. As such, the Company would be required to classify the entire amount outstanding of the 2.50% Convertible Notes as a current liability in the following quarter. The evaluation of the classification of amounts outstanding associated with the 2.50% Convertible Notes will occur every quarter.

Upon conversion, a holder will receive an amount in cash equal to the lesser of (a) the principal amount of the 2.50% Convertible Note or (b) the conversion value, determined in the manner set forth in the 2.50% Indenture. If the conversion value exceeds the principal amount of the 2.50% Convertible Notes on the conversion date, the Company will also deliver, at its election, cash or the Company's common stock or a combination of cash and the Company's common stock for the conversion value in excess of the principal amount. In the event of a change of control or other fundamental change, the holders of the 2.50% Convertible Notes may require the Company to purchase all or a portion of their 2.50% Convertible Notes at a purchase price equal to 100% of the principal amount of the 2.50% Convertible Notes, plus accrued and unpaid interest, if any. If a specified accounting change occurs, the Company may, at its option, redeem the 2.50% Convertible Notes in whole for cash, at a price equal to 102% of the principal amount of the 2.50% Convertible Notes, plus accrued and unpaid interest, if any. Holders of the 2.50% Convertible Notes who convert their 2.50% Convertible Notes in connection with a fundamental change or in connection with a redemption upon the occurrence of a specified accounting change may be entitled to a make-whole premium in the form of an increase in the conversion rate.

Edgar Filing: ICONIX BRAND GROUP, INC. - Form 10-K

Pursuant to guidance issued under ASC Topic 815, the 2.50% Convertible Notes are accounted for as convertible debt in the accompanying consolidated balance sheet and the embedded conversion option in the 2.50% Convertible Notes has not been accounted for as a separate derivative. For a discussion of the effects of the 2.50% Convertible Notes and the 2.50% Convertible Notes Hedges and

Sold Warrants defined and discussed below on earnings per share, see Note 7.

As of December 31, 2012 and December 31, 2011, the amount of the 2.50% Convertible Notes accounted for as a liability was approximately \$254.7 million and \$243.2 million, respectively, and is reflected on the consolidated balance sheet as follows:

<i>(000 s omitted)</i>	December 31, 2012	December 31, 2011
Equity component carrying amount	\$ 35,996	\$ 35,996
Unamortized discount	45,282	56,836
Net debt carrying amount	254,718	243,164

For FY 2012, the Company recorded additional non-cash interest expense of approximately \$10.3 million, representing the difference between the stated interest rate on the 2.50% Convertible Notes and the rate for a similar instrument that does not have a conversion feature, as compared to \$6.1 million in FY 2011.

For FY 2012, cash interest expense relating to the 2.50% Convertible Notes was approximately \$7.5 million, as compared to \$4.5 million in FY 2011.

The Convertible Notes do not provide for any financial covenants.

In connection with the sale of the 2.50% Convertible Notes, the Company entered into hedges for the 2.50% Convertible Notes (2.50% Convertible Note Hedges) with respect to its common stock with two entities (the 2.50% Counterparties). Pursuant to the agreements governing these 2.50% Convertible Note Hedges, the Company purchased call options (the 2.50% Purchased Call Options) from the 2.50% Counterparties covering up to approximately 9.8 million shares of the Company s common stock. These 2.50% Convertible Note Hedges are designed to offset the Company s exposure to potential dilution upon conversion of the 2.50% Convertible Notes in the event that the market value per share of the Company s common stock at the time of exercise is greater than the strike price of the 2.50% Purchased Call Options (which strike price corresponds to the initial conversion price of the 2.50% Convertible Notes and is simultaneously subject to certain customary adjustments). On May 23, 2011, the Company paid an aggregate amount of approximately \$58.7 million of the proceeds from the sale of the 2.50% Convertible Notes for the 2.50% Purchased Call Options, of which \$20.6 million was included in the balance of deferred income tax assets at May 23, 2011 and is being recognized over the term of the 2.50% Convertible Notes. As of December 31, 2012, the balance of deferred income tax assets related to this transaction was approximately \$14.1 million.

The Company also entered into separate warrant transactions with the 2.50% Counterparties whereby the Company, pursuant to the agreements governing these warrant transactions, sold to the 2.50% Counterparties warrants (the 2.50% Sold Warrants) to acquire up to 9.76 million shares of the Company s common stock at a strike price of \$40.6175 per share of the Company s common stock. The 2.50% Sold Warrants will become exercisable on September 1, 2016 and will expire by the end of 2016. The Company received aggregate proceeds of approximately \$28.8 million from the sale of the 2.50% Sold Warrants on May 23, 2011.

Pursuant to guidance issued under ASC Topic 815 Derivatives and Hedging as it relates to accounting for derivative financial instruments indexed to, and potentially settled in, a company s own stock, the 2.50% Convertible Note Hedge and the proceeds received from the issuance of the 2.50% Sold Warrants were recorded as a charge and an increase, respectively, in additional paid-in capital in stockholders equity as separate equity transactions. As a result of these transactions, the Company recorded a net reduction to additional paid-in-capital of \$9.4 million in May 2011.

The Company has evaluated the impact of adopting guidance issued under ASC Topic 815 regarding embedded features as it relates to the 2.50% Sold Warrants, and has determined it had no impact on the Company s results of operations and financial position through December 31, 2012, and will have no impact on the Company s results of operations and financial position in future fiscal periods.

As the 2.50% Convertible Note Hedge transactions and the warrant transactions were separate transactions entered into by the Company with the 2.50% Counterparties, they are not part of the terms of the 2.50% Convertible Notes and will not affect the holders rights under the 2.50% Convertible Notes. In addition, holders of the 2.50% Convertible Notes will not have any rights with respect to the 2.50% Purchased Call Options or the 2.50% Sold Warrants.

If the market value per share of the Company s common stock at the time of conversion of the 2.50% Convertible Notes is above the strike price of the 2.50% Purchased Call Options, the 2.50% Purchased Call Options entitle the Company to receive from the 2.50% Counterparties net

shares of the Company's common stock, cash or a combination of shares of the Company's common stock and cash, depending on the consideration paid on the underlying 2.50% Convertible Notes, based on the excess of the then current market price of the Company's common stock over the strike price of the 2.50% Purchased Call Options. Additionally, if the market price of the Company's common stock at the time of exercise of the 2.50% Sold Warrants exceeds the strike price of the 2.50% Sold Warrants, the Company will owe the 2.50% Counterparties net shares of the Company's common stock or cash, not offset by the 2.50% Purchased Call Options, in an amount based on the excess of the then current market price of the Company's common stock over the strike price of the 2.50% Sold Warrants.

These transactions will generally have the effect of increasing the conversion price of the 2.50% Convertible Notes to \$40.6175 per

share of the Company's common stock, representing a 75% percent premium based on the last reported sale price of the Company's common stock of \$23.21 per share on May 17, 2011.

Moreover, in connection with the warrant transactions with the 2.50% Counterparties, to the extent that the price of the Company's common stock exceeds the strike price of the 2.50% Sold Warrants, the warrant transactions could have a dilutive effect on the Company's earnings per share.

Ecko Note

In connection with the Ecko transaction, IPH Unltd issued a promissory note (Ecko Note) to a third party creditor (LF Centennial Limited, an affiliate of Li & Fung USA) for \$90.0 million. IPH Unltd's obligations under the Ecko Note are secured by the Ecko portfolio of trademarks and related intellectual property assets and the Zoo York trademarks and related intellectual property assets owned by ZY Holdings (see Note 3), and are further guaranteed personally by the minority owner of IPH Unltd, with no recourse to the Company other than the interest of ZY Holdings in the Zoo York trademarks and related intellectual property assets. Amounts outstanding under the Ecko Note bear interest at 7.50% per annum, with minimum principal payable in equal quarterly installments of \$2.5 million, with any remaining unpaid principal balance and accrued interest to be due on June 30, 2014, the Ecko Note maturity date. The Ecko Note may be prepaid without penalty, and would be applied to the scheduled quarterly principal payments in the order of their maturity. On July 27, 2011, in connection with the Company's purchase of the Zoo York trademark and related assets (see Note 3), IPH Unltd paid \$3.0 million in principal to the holder of the Ecko Note. As of December 31, 2012, the total principal balance of the Ecko Note is \$57.0 million, of which \$10.0 million is included in the current portion of long-term debt on the consolidated balance sheet.

Asset-Backed Notes

The financing for certain of the Company's acquisitions has been accomplished through private placements by its subsidiary, IP Holdings LLC (IP Holdings) of asset-backed notes (Asset-Backed Notes) secured by intellectual property assets (trade names, trademarks, license agreements and payments and proceeds with respect thereto relating to the Candie's, Bongo, Joe Boxer, Rampage, Mudd and London Fog brands) of IP Holdings. On November 27, 2012 (ABN Payoff Date), approximately \$11.0 million was paid to the trustee of the Asset-Backed Notes, for the benefit of the holders of the Asset-Backed Notes (ABN Holders), including outstanding principal of \$10.8 million and an early termination fee of \$0.2 million due to the ABN Holders as of the ABN Payoff Date. Through the ABN Payoff Date, the Company was in compliance with all material covenants set forth in the Asset-Backed Notes.

Cash on hand in the bank account of IP Holdings was restricted at any point in time up to the amount of the next debt principal and interest payment required under the Asset-Backed Notes. Accordingly, \$3.8 million as of December 31, 2011 is included as restricted cash within the Company's current assets on the consolidated balance sheet. Further, in connection with IP Holdings' issuance of Asset-Backed Notes, a reserve account had been established and the funds on deposit in such account were specifically designated for future principal payments with respect to the Asset-Backed Notes. Accordingly, as of December 31, 2011, approximately \$7.2 million of this reserve account was classified as non-current and disclosed as restricted cash within other assets on the Company's consolidated balance sheet. As designated, these funds were used to pay off the Asset-Backed Notes on the ABS Payoff Date.
