The Company's fiscal year ends on the last Saturday of December and, as a result, the 2011 fiscal year contained 53 weeks as compared with 52 weeks for the other fiscal years presented.

- (b) In 2002, the Company began to sell land held for development near its Orlando, Florida headquarters. There were no land sales in the 2012, 2010 or 2009 fiscal years. During 2011 and 2008 fiscal years, pretax gains from these sales were \$0.7 million and \$2.2 million, respectively, and were included in gains on disposal of assets including insurance recoveries, net.
- (c) Included in gain on disposal of assets including insurance recoveries, net are:

Pretax gains of \$0.2 million in 2012, \$3.0 million in 2011 and \$1.1 million in 2008, as a result of respective insurance recoveries from flood damage in Venezuela in 2012, Australia in 2011 and France and Indonesia in 2008;

Pretax gains of \$7.5 million in 2012 from the sale of a facility in Belgium, and \$0.2 million and \$2.9 million in 2010 and 2009, respectively, from the sale of property in Australia;

Edgar Filing: DART INDUSTRIES INC - Form 424B5

Pretax gains of \$19.0 million and \$22.2 million in 2009 and 2008, respectively, as a result of insurance recoveries associated with a 2007 fire in South Carolina;

This resulted in non-cash charges of \$76.9 million, \$36.1 million, \$28.1 million and \$9.0 million in 2012, 2011, 2009 and 2008, respectively. In 2010, the Company recorded a \$4.3 million impairment related to certain intangibles

and goodwill, associated with a decision by the Company to cease operating its Swissgarde business as an independent entity. See Note 6 to the Consolidated Financial Statements in the Company's Annual Report on Form 10-K for the fiscal year ended December 29, 2012.

- (e) In 2011, the Company entered into new credit agreements, which resulted in a non-cash write-off of deferred debt costs to interest expense of \$0.9 million. In connection with the termination of the previous credit facilities, the Company also impaired certain floating-to-fixed interest rate swaps resulting in interest expense of \$18.9 million.

- (f) On December 28, 2008, the Company adopted authoritative guidance addressing share-based payment transactions and participating securities, which requires that unvested share-based payment awards with a nonforfeitable right to receive dividends (participating securities) be included in the two-class method of computing earnings per share. The net income available to common shareholders for 2009-2012 were computed in accordance with this guidance. The prior period has been retrospectively adjusted, resulting in a \$0.01 reduction in 2008 diluted and basic earnings per share. The Company had 0.2 million, 0.2 million and 0.4 million of unvested share-based payment awards outstanding for 2010, 2009 and 2008, respectively, which were classified as participating securities under this guidance. The Company had no unvested share-based payment awards classified as participating securities in 2012 and 2011.

- (j) Period-end book value per share is calculated as year-end shareholders' equity divided by average diluted shares.

- (k) Period-end price/earnings ratio is calculated as the year-end market price of the Company's common stock divided by full year diluted earnings per share.

- (l) Period-end market/book ratio is calculated as the period-end market price of the Company's common stock divided by period-end book value per share.

Risk factors

Investing in the notes involves risks. Before making an investment decision, you should carefully consider all of the information included or incorporated or deemed incorporated by reference in this prospectus supplement and the accompanying prospectus, including the risks described below and the risks described under "Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended December 29, 2012, which are incorporated by reference in this prospectus supplement. See "Where you can find more information." The risks and uncertainties described are not the only ones that we face. Additional risks and uncertainties not known to us or that we deem immaterial may also adversely affect our business, operating results, cash flows and financial condition.

Risks relating to the notes

The indenture governing the notes does not contain covenants with substantial restrictions on us or our subsidiaries.

Neither we nor any of our subsidiaries are restricted from incurring additional unsecured debt or other liabilities under the indenture. We may from time to time incur additional debt and other liabilities. In addition, we are not restricted from paying dividends or making distributions on our capital stock or purchasing or redeeming our capital stock under the indenture.

The notes will be structurally subordinated to the debt and other liabilities of our non-guarantor subsidiaries.

We conduct all of our operations through our subsidiaries. However, the notes will be the obligation of Tupperware Brands Corporation and will be guaranteed, on a secured basis, by our wholly-owned subsidiary Dart Industries Inc. As a result, the notes will be structurally subordinated to all debt and other liabilities of our subsidiaries (including liabilities to trade creditors) other than Dart, which means that creditors of the non-guarantor subsidiaries will be paid from their assets before holders of the notes would have any claims to those assets.

We and our subsidiaries may not be able to generate sufficient cash to service all of our and their indebtedness, including the notes.

Our ability to make scheduled payments on or to refinance our debt obligations depends on our financial condition and the financial performance of our subsidiaries, which is subject to prevailing economic and competitive conditions and to certain financial, business and other factors beyond our control. We cannot assure you that our subsidiaries will maintain a level of cash flows from operating activities sufficient to permit us and them to pay the principal of and premium, if any, and interest on our indebtedness, including the notes. If our and our subsidiaries' cash flows and capital resources are insufficient to fund our debt service obligations and those of our subsidiaries, we or they may be forced to reduce or delay investments and capital expenditures, or to sell assets, seek additional capital or restructure or refinance our indebtedness, including the notes.

If we or any of our subsidiaries default on obligations to pay indebtedness, we may not be able to make payments on the notes.

Any default under the agreements governing our indebtedness or the indebtedness of our subsidiaries, including a default under our credit facility, that is not waived by the required

Table of Contents

lenders or debt holders, as well as the remedies sought by the holders of such indebtedness, could prevent us from paying principal of and premium, if any, and interest on the notes and substantially decrease the market value of the notes. If our subsidiaries are unable to generate sufficient cash flows and we are otherwise unable to obtain funds necessary to meet required payments of principal of and premium, if any, and interest on our indebtedness, or if we or they otherwise fail to comply with the various covenants, including any financial and operating covenants, in the instruments governing our indebtedness (including covenants in our credit facility, the indenture governing the notes and the terms of our other indebtedness), we or they could be in default under the terms of the agreements governing such indebtedness. In the event of such default, the holders of such indebtedness could elect to declare all the outstanding indebtedness thereunder to be due and payable, together with accrued and unpaid interest, and/or the lenders under our credit facility could elect to terminate their commitments thereunder, cease making further loans and we or our subsidiaries could be forced into bankruptcy or liquidation.

Holders of notes may not be able to determine when a change of control giving rise to their right to have the notes repurchased by us has occurred following a sale of substantially all of our assets.

A change of control (as defined in the indenture governing the notes) may require us to make an offer to repurchase all outstanding notes and existing notes. The definition of change of control includes a phrase relating to the sale of all or substantially all of our assets. There is no precise established definition of the phrase substantially all under applicable law. Accordingly, the ability of a holder of notes to require us to repurchase its notes as a result of a sale of less than all of our assets to another individual, group or entity may be uncertain.

We may not be able to repurchase the notes upon a change of control triggering event.

Upon the occurrence of specified change of control events, we will be required to offer to repurchase all of the outstanding notes and existing notes at 101% of their principal amount, plus accrued and unpaid interest to the purchase date. The source of funds for any such purchase will be our available cash or cash generated from our subsidiaries' operations or other sources, including borrowings, sales of assets or sales of equity. We may not be able to repurchase the notes upon a change of control because we may not have sufficient funds to purchase all of the notes and existing notes that are tendered upon a change of control. Any failure to repurchase tendered notes or existing notes upon a change of control would cause a default under the indenture governing the notes. Our credit facility also provides that a change of control will be a default that permits the lenders to accelerate the maturity of borrowings thereunder. Any of our future debt instruments may contain similar provisions.

The value of the collateral securing the guarantee may not produce proceeds in an amount sufficient to pay any amounts due on the notes.

The fair market value of the collateral securing the guarantee of the notes and existing notes will be subject to fluctuations based on factors that include, among others, the condition of the markets for the collateral, the ability to sell the collateral in an orderly sale, general economic conditions, the availability of buyers and similar factors. The amount to be received upon a sale of the collateral would depend on numerous factors, including the actual fair market value of the collateral at such time and the timing and the manner of the sale. We also cannot assure holders of the notes and existing notes that the collateral will be saleable or, if saleable, that

Table of Contents

there will not be substantial delays in its liquidation. In addition, in the event of a foreclosure, liquidation, bankruptcy or similar proceeding, we cannot assure you that the proceeds from any sale or liquidation of the collateral will be sufficient to pay our obligations under the notes and existing notes.

In the event of bankruptcy, the ability of the holders of the notes to realize upon the collateral will be subject to certain bankruptcy law limitations.

The ability of holders of the notes to realize upon the collateral may be subject to bankruptcy law limitations. Under applicable federal bankruptcy laws, secured creditors are prohibited from repossessing their security from a debtor in a bankruptcy case, or from disposing of security repossessed from such a debtor, without bankruptcy court approval. In addition, federal bankruptcy laws generally permit the debtor to continue to retain collateral even though the debtor is in default under the applicable debt instruments, provided that the secured creditor is given adequate protection.

The collateral securing the guarantee could be released automatically without your consent or the consent of the trustee.

The collateral securing the guarantee of the notes could, in some circumstances, be released automatically, including:

in whole, upon payment in full of the principal of and premium, if any, and interest on the notes;

in whole, upon satisfaction and discharge of the indenture;

in whole, upon a legal defeasance or covenant defeasance as set forth under Description of the notes Satisfaction, discharge and defeasance;

in whole or in part, with the consent of holders of the requisite percentage of notes in accordance with the provisions described under Description of the notes Amendments and waivers;

to the extent required, in accordance with the applicable provisions of the security documents; or

in whole, upon the occurrence of circumstances as set forth under the Guarantee and Collateral Release Event definition under Description of the notes Certain definitions.

Rights to the collateral securing the guarantee may be subject to dilution.

The collateral that secures the guarantee also secures the guarantee of the existing notes (which, together with the notes offered hereby, will constitute one series under the indenture governing the notes) and loans and other obligations under our credit facility. In addition, the collateral may secure guarantees of any additional indebtedness that we incur in the future, subject to restrictions under our credit facility and the indenture governing the notes. Your rights to the collateral would be diluted by any increase in the indebtedness or guarantees secured by the collateral or portions thereof.

Table of Contents

The rights of holders of the notes with respect to the collateral may be adversely affected by the failure to perfect security interests in the collateral, and we are not required to perfect security interests in some instances.

If the Company were to fail to maintain the security interests that have been created with respect to the collateral, it may result in the loss of the security interest therein or the priority of the security interest in favor of the notes against third parties. We are not required to take steps to register security interests in the collateral in foreign jurisdictions other than the Material Foreign Jurisdictions (as defined under Description of the notes Certain definitions).

The rights of holders of the notes with respect to the collateral will be substantially limited by the terms of the Intercreditor and Collateral Agency Agreement.

Under the Intercreditor and Collateral Agency Agreement, any actions that may be taken in respect of the collateral, including the ability to cause the commencement of enforcement proceedings against the collateral and to control the conduct of such proceedings, will require that (1) with respect to the notes and existing notes, the trustee has delivered a notice to the Collateral Agent (as defined under Description of the notes Certain definitions) that an event of default (as defined in the indenture) that consists of a default in payment of principal of or premium, if any, at maturity of the notes and existing notes or an acceleration of payment of principal of and premium, if any, and interest on the notes and existing notes following an event of default under the indenture has occurred, (2) with respect to our credit facility, the administrative agent has delivered a notice to the Collateral Agent that an event of default (as defined in our credit facility) that consists of a default in payment of principal of or premium, if any, at maturity of the obligations under our credit facility or an acceleration of payment of principal of and premium, if any, and interest on the obligations under our credit facility following an event of default under our credit facility has occurred, and (3) with respect to each other agreement governing first lien obligations, each authorized representative has delivered notice to the Collateral Agent that an event of default (as defined in the agreement governing the first lien obligations) that consists of a default in payment of principal of or premium, if any, at maturity with respect to such first lien obligations or an acceleration of payment of principal of and premium, if any, and interest with respect to such first lien obligations following an event of default under the agreement governing the first lien obligations has occurred, even if the rights of the holders of the notes and existing notes are adversely affected, subject to certain exceptions.

U.S. federal and state fraudulent transfer laws may permit a court to void, subordinate or limit the notes, the guarantee and/or the grant of collateral, in which case you may not receive any payments on the notes.

U.S. federal and state fraudulent transfer statutes may apply to the issuance of the notes and the incurrence of the related guarantee. Under U.S. federal bankruptcy law and comparable provisions of state fraudulent transfer laws, which may vary from state to state, the notes or the related guarantee (or the grant of collateral securing any such obligations) could be voided, subordinated or limited as a fraudulent transfer or conveyance if we or the guarantor, as applicable (1) issued the notes or incurred the guarantee with the intent of hindering, delaying or defrauding creditors, or (2) received less than reasonably equivalent value or fair consideration in return for either issuing the notes or incurring the guarantee and, among other circumstances, we or the guarantor, as applicable, were insolvent or rendered insolvent by reason of the issuance of the notes or the incurrence of the guarantee.

In the event of a finding that a fraudulent transfer or conveyance occurred, you may not receive any repayment on the notes or guarantee. In addition, the avoidance of the notes could result in an event of default with respect to our other debt that could result in acceleration of such debt.

Table of Contents

The guarantee contains a provision intended to limit the guarantor's liability to the maximum amount that it could incur without causing the inurrence of obligations under its guarantee to be a fraudulent transfer. This provision may not be effective to protect the guarantee from being avoided under applicable fraudulent transfer laws or may reduce the guarantor's obligation to an amount that effectively makes the guarantee less beneficial to holders of notes.

Finally, a bankruptcy court may subordinate the claims in respect of the notes to other claims against us under the principle of equitable subordination, if the court determines that: (1) the holder of notes engaged in some type of inequitable conduct; (2) the inequitable conduct resulted in injury to our other creditors or conferred an unfair advantage upon the holder of notes; and (3) equitable subordination is not inconsistent with the applicable bankruptcy law.

We may issue additional notes.

Under the indenture governing the notes offered hereby, we may from time to time without notice to, or the consent of, the holders of the notes, create and issue additional notes that rank equally to the notes and the existing notes. Any additional notes (like the notes offered hereby) will be consolidated and form a single series with the existing notes and have the same terms as to the status, redemption or otherwise as the existing notes and the notes offered hereby.

Redemption of the notes may adversely affect your return on a reinvestment of the proceeds.

The notes are redeemable at our option, and we may choose to redeem the notes at times when prevailing interest rates are relatively low. As a result, you may not be able to reinvest the proceeds you receive from the redemption in a comparable security at an effective interest rate as high as the interest rate on your notes being redeemed.

An active trading market for the notes may not develop.

We do not intend to apply for listing of the notes on any securities exchange or have the notes quoted on any automated quotation system. We cannot assure you whether trading markets for the notes will develop, the ability of holders of the notes to sell their notes or the price at which holders may be able to sell their notes. If no active trading market develops, you may be unable to resell the notes at any price or at their fair market value.

If a trading market does develop, changes in our ratings or the financial markets could adversely affect the market prices of the notes.

The market price for the notes will depend on many factors, including, among others, the following:

- ratings on our debt securities assigned by rating agencies;
- the prevailing interest rates being paid by other companies similar to us;
- our results of operations, financial condition and prospects; and
- the condition of the financial markets.

Ratings of the notes may affect the market price and marketability of the notes.

The notes have been rated by certain nationally-recognized statistical rating organizations (NRSROs). We cannot assure you that ratings will remain in effect for any given period of time or that such ratings will not be lowered, suspended or withdrawn entirely by the NRSROs. Any lowering, suspension or withdrawal of such ratings may have an adverse effect on the market price or marketability of the notes.

Use of proceeds

We estimate that the net proceeds from the sale of the notes in this offering will be approximately \$205,812,000, after deducting the underwriting discounts and estimated offering expenses payable by us.

We intend to use a portion of the net proceeds from the sale of the notes to repay our \$75 million Bridge Loan entered into on February 1, 2013, and the remaining net proceeds for general corporate purposes, including repayment of a portion of our outstanding borrowings under our credit facility and funding, in part, our 2013 common stock repurchase program.

The Bridge Loan matures on May 3, 2013 and bears interest at a fluctuating rate per annum equal to one and one-half percent (1.50%) above the London interbank offered rate (LIBOR) in effect from time to time. Proceeds from the Bridge Loan have been used to pay down borrowings under our credit facility and to fund, in part, our 2013 common stock repurchase program. As of March 5, 2013, interest on the Bridge Loan was accruing at the rate of 1.71% per annum.

Ratio of earnings to fixed charges

The following table contains our ratio of earnings to fixed charges for the periods indicated. For purposes of computing the ratio of earnings to fixed charges, earnings consist of income before income taxes plus fixed charges. Fixed charges consist of interest expense, amortization of deferred financing fees and a portion of rental expense that management believes is representative of the interest component of rental expense.

The interest expense included in the fixed charges calculation above includes discount relating to indebtedness and excludes interest expense relating to our uncertain tax positions.

Table of Contents**Capitalization**

The following table sets forth our capitalization as of December 29, 2012 on an actual basis and as adjusted to give effect to the issuance of the notes offered hereby. Because the "as adjusted" column is as of December 29, 2012, we have reflected all of the net proceeds in the "cash and cash equivalents" line.

Description of other indebtedness

Credit facility

On June 2, 2011, Tupperware Brands Corporation and our wholly-owned subsidiary, Tupperware International Holdings B.V. (the **Subsidiary Borrower**), entered into a multicurrency Credit Agreement with JPMorgan Chase Bank, N.A. as administrative agent, swingline lender and issuing bank, KeyBank National Association, as syndication agent, BNP Paribas, Crédit Agricole Corporate and Investment Bank and Mizuho Corporate Bank, Ltd., as co-documentation agents, and the lenders party thereto. We refer to this agreement as our **credit facility**. Our credit facility makes available to Tupperware Brands Corporation and the **Subsidiary Borrower** a committed five-year credit facility in an aggregate amount of \$450 million (the **Facility Amount**). Our credit facility provides (i) a revolving credit facility, available up to the full amount of the **Facility Amount**, (ii) a letter of credit facility, available up to \$50 million of the **Facility Amount**, and (iii) a swingline facility, available up to \$50 million of the **Facility Amount**. Each of these facilities is fully available to Tupperware Brands Corporation and is available to the **Subsidiary Borrower** up to an aggregate amount not to exceed \$225 million. With the agreement of our lenders, we are permitted to increase, on up to three occasions, the **Facility Amount** by a total of up to \$200 million (for a maximum aggregate **Facility Amount** of \$650 million), subject to certain conditions; we have not exercised this right to date. As of December 29, 2012, we had \$199 million of borrowings outstanding under our credit facility, with \$162 million denominated in euros.

We routinely increase our revolver borrowings under our credit facility during each quarter to fund operating, investing and financing activities, and use cash available at the end of each quarter to reduce borrowing levels. As a result, we have higher foreign exchange exposure on the value of our cash during each quarter than at the end of each quarter.

Loans taken under our credit facility bear interest under a formula that includes, at our option, one of three different base rates, plus an applicable spread. We generally select the LIBOR for the applicable currency and interest period as our base for our interest rate. The applicable margin is determined by reference to a pricing schedule based upon the ratio of our consolidated funded indebtedness to our consolidated EBITDA for the four fiscal quarters then most recently ended. For purposes of our credit facility, consolidated EBITDA represents earnings before interest, income taxes, depreciation and amortization, as adjusted to exclude certain non-recurring gains as well as non-cash charges and certain other items.

Our credit facility contains customary covenants, including financial covenants requiring a minimum level of interest coverage and allowing a maximum amount of leverage, and certain customary events of default.

The Guarantor unconditionally guarantees all obligations and liabilities of Tupperware Brands Corporation and the **Subsidiary Borrower** relating to our credit facility. This guarantee is secured by a security interest in certain Tupperware trademarks, service marks and logo formats, which collateral also secures the guarantee of the existing notes and will secure the guarantee of the notes offered hereby.

Bridge loan

On February 1, 2013, we entered into the \$75 million Bridge Loan with Wells Fargo Bank, National Association. The Bridge Loan matures on May 3, 2013 and bears interest at a fluctuating

rate per annum determined by the lender to be one and one-half percent (1.50%) above LIBOR in effect from time to time. The Bridge Loan will cross default upon any default under our credit facility that is not cured within any applicable cure period in our credit facility or waived by the requisite lenders as provided in our credit facility. We intend to use a portion of the net proceeds of this offering to repay the Bridge Loan. See Use of proceeds.

Table of Contents**Description of the notes**

The notes offered hereby will constitute an additional issuance of our 4.750% notes due 2021 (\$400 million aggregate principal amount of which have previously been issued and are outstanding, which we refer to as the Existing Notes). The notes offered hereby will be issued as part of the same series as the Existing Notes and will be issued under the indenture, dated as of June 2, 2011 (the Indenture) among the Company, Dart, as guarantor, and Wells Fargo Bank, National Association, as trustee (the Trustee). The notes offered hereby will also have the same CUSIP number as \$399,750,000 aggregate principal amount of the Existing Notes. \$250,000 aggregate principal amount of the Existing Notes were issued in reliance upon the exemption from registration provided by Regulation S of the Securities Act and have a separate CUSIP number. The terms of the notes offered hereby will be identical to the terms of the Existing Notes, except for the issue date, the issue price, the first interest payment date and the date from which interest first begins to accrue. References in this section of this prospectus supplement to the Company, we, us, and our are to Tupperware Brands Corporation (parent company only and not to its subsidiaries). References in this section to the Guarantor or Dart are to Dart Industries Inc. (and not its subsidiaries), which guarantees the Existing Notes and will guarantee the notes offered hereby on a senior secured basis (the Guarantee). References in this section to the Notes are to the notes initially issued under the Indenture (including the notes offered hereby and, except to the extent as otherwise indicated or as the context otherwise requires, the Existing Notes) and any additional notes issued under the Indenture that constitute the same series as the notes offered hereby and the Existing Notes, as described under Further issuances. Certain other terms used in this section are defined under Certain definitions.

The following is a summary of the material provisions of the Indenture. It does not include all of the provisions of the Indenture. We urge you to read the Indenture because it defines your rights. The terms of the Notes include those stated in the Indenture and those made part of the Indenture by reference to the Trust Indenture Act of 1939, as amended (the Trust Indenture Act). A copy of the Indenture has been filed as Exhibit 4.1 to our Current Report on Form 8-K filed with the SEC on June 7, 2011 (see Where you can find more information), and is available, after reasonable written request, for inspection at the office of the Trustee.

The Notes offered hereby will be issued in the form of one or more fully registered global securities, without coupons, in minimum denominations of \$2,000 in principal amount and integral multiples of \$1,000 in excess thereof.

The Notes will be redeemable prior to maturity as set forth below under **Optional redemption**. The Notes will not benefit from any sinking fund.

We do not intend to apply for listing of the Notes on any securities exchange or to have the Notes quoted on any automated quotation system.

Principal, maturity and interest

Currently, the Notes will be limited to \$600 million aggregate principal amount, which includes the \$200 million principal amount of the Notes offered hereby and the \$400 million principal amount of the Existing Notes.

The stated maturity date of the Notes will be June 1, 2021.

The Notes offered hereby will bear interest from, and including, December 1, 2012 (being the most recent interest payment date with respect to, and the most recent date from which interest has accrued on, the Existing Notes, which began bearing interest from June 2, 2011) at 4.750% per annum. We will pay interest on the Notes semi-annually on June 1 and December 1 of each year and on the maturity date (each, an interest payment date), beginning on June 1, 2013, to the persons in whose names the Notes are registered at the close of business on May 15 and November 15, as the case may be (in each case, whether or not a business day) immediately preceding the related interest payment date. Interest on the Notes will be computed on the basis of a 360-day year composed of twelve 30-day months.

We will pay the principal of and premium, if any, and interest on each Note to the registered holder in immediately available funds upon presentation of the Notes if in certificated form at the office or agency we maintain for this purpose, which is initially the corporate trust office of the Trustee located at Wells Fargo Bank, National Association, 7000 Central Parkway, Suite 500, Atlanta, Georgia 30328, Attention: Stefan Victory, in any coin or currency of the United States of America which at the time of payment is legal tender for payment of public and private debts;

Table of Contents

provided, however, that payment of interest may be made at our option through the paying agent by check mailed to the registered holder at the close of business on the regular record date at such address as shall appear in the security register or, upon written request of any Holder of at least \$1 million principal amount of Notes, by wire transfer of immediately available funds to a U.S. account specified in writing by such holder to us and the Trustee prior to the relevant record date. Notwithstanding anything to the contrary in this prospectus supplement, so long as the Notes are in book-entry form, we will make payments of principal and interest through the paying agent to DTC.

Interest payable on any interest payment date or the maturity date will be the amount of interest accrued from, and including, the next preceding interest payment date in respect of which interest has been paid or duly provided for (or from and including December 1, 2012, if no interest has been paid or duly provided for with respect to the Notes offered hereby) to, but excluding, such interest payment date or maturity date, as the case may be. If any interest payment date falls on a day that is not a business day, the interest payment will be made on the next succeeding business day, and we will not be liable for any additional interest as a result of the delay in payment. If the maturity date of the Notes falls on a day that is not a business day, the related payment of principal and interest will be made on the next succeeding business day, and no interest will accrue on the amounts so payable for the period from and after such date to the next succeeding business day.

The term **business day** means any day, other than a Saturday or a Sunday, that is not a day on which banking institutions are authorized or obligated by law or executive order to close in the place of payment.

Further issuances

We may, from time to time, without the consent of the Holders of the Notes, create and issue additional notes having the same terms as the Existing Notes and the Notes offered hereby, except for the issue date, issue price and, in some cases, the amount of interest payable on the first payment date for such additional notes. We will not, however, issue such additional notes unless they are fungible for U.S. federal income tax purposes with the Existing Notes and the Notes offered hereby. Any additional notes will constitute part of the same series as the Existing Notes and the Notes offered hereby.

Optional redemption

We may redeem the Notes in whole, or from time to time in part, at our option, at a redemption price equal to the greater of the following amounts, plus, in each case, accrued and unpaid interest thereon to the redemption date: (1) 100% of the principal amount of the Notes to be redeemed and (2) the sum of the present values of each remaining scheduled payment of principal and interest on the Notes to be redeemed (exclusive of interest accrued to the date of redemption) discounted to the redemption date on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the Treasury Rate plus 30 basis points; provided, that if we redeem any Notes on or after March 1, 2021 (three months prior to the stated maturity date of the Notes), the redemption price for those Notes will equal 100% of the principal amount of the Notes to be redeemed, plus accrued interest thereon to the redemption date.

Notice of any redemption will be mailed not less than 30 days and not more than 60 days prior to the redemption date to each Holder of Notes to be redeemed.

Table of Contents

On and after a redemption date, interest will cease to accrue on the Notes called for redemption or any portion of the Notes called for redemption (unless we default in the payment of the redemption price and accrued and unpaid interest). On or before the redemption date, we will deposit with the Trustee money sufficient to pay the redemption price on the Notes to be redeemed on such date; provided that if the redemption date is after a regular record date and on or prior to the interest payment date, the accrued and unpaid interest on the Note to be redeemed will be payable to the Holder of the redeemed Notes registered on the relevant record date. If less than all of the Notes of a series are to be redeemed, the Notes to be redeemed will be selected by the Trustee by such method as the Trustee will deem fair and appropriate; provided, however, that no Notes of a principal amount of \$2,000 or less will be redeemed in part.

For purposes of the optional redemption provisions of the Notes, the following definitions will be applicable:

Comparable Treasury Issue means the United States Treasury security selected by an Independent Investment Banker as having an actual or interpolated maturity comparable to the remaining term of the Notes to be redeemed that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of a comparable maturity to the remaining term of the Notes.

Comparable Treasury Price means, with respect to any redemption date (1) the arithmetic average of the Reference Treasury Dealer Quotations for such redemption date, after excluding the highest and lowest such Reference Treasury Dealer Quotations or (2) if we obtain fewer than four such Reference Treasury Dealer Quotations, the arithmetic average of all such quotations.

Independent Investment Banker means one of the Reference Treasury Dealers appointed by us.

Reference Treasury Dealer means (1) each of J.P. Morgan Securities LLC and HSBC Securities (USA) Inc. (or their respective affiliates that are primary U.S. government securities dealers in New York City (each, a **Primary Treasury Dealer**)), a Primary Treasury Dealer selected by Wells Fargo Securities, LLC, and their respective successors and (2) one other Primary Treasury Dealer selected by us after consultation with the Independent Investment Banker; provided, however, that, if any of the foregoing ceases to be a Primary Treasury Dealer, we will substitute therefor another Primary Treasury Dealer.

Reference Treasury Dealer Quotation means, with respect to each Reference Treasury Dealer and any redemption date, the arithmetic average, as determined by us, of the bid and asked prices for the applicable Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to us by such Reference Treasury Dealer at 3:30 p.m. (New York City time) on the third business day preceding such redemption date.

Treasury Rate means, with respect to any redemption date, the rate per annum equal to the semi-annual equivalent yield to actual or interpolated maturity (on a day count basis) of the applicable Comparable Treasury Issue, assuming a price for such Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for such redemption date.

Offer to purchase upon Change of Control Triggering Event

If a Change of Control Triggering Event occurs, unless we have exercised our option to redeem the Notes as described under Optional redemption, we will be required to make an offer (a Change of Control Offer) to each Holder of the Notes to purchase all or any part (equal to \$2,000 or any integral multiple of \$1,000 in excess thereof) of that Holder's Notes on the terms set forth in the Notes. In a Change of Control Offer, we will be required to offer payment in cash equal to 101% of the aggregate principal amount of Notes to be purchased, plus accrued and unpaid interest, if any, on such Notes to, but not including, the purchase date (a Change of Control Payment). Within 30 days following any Change of Control Triggering Event or, at our option, prior to any Change of Control, but after public announcement of the transaction that constitutes or may result in a Change of Control, a notice will be mailed to Holders of the Notes describing the transaction that constitutes or may constitute the Change of Control Triggering Event and offering to purchase the Notes on the date specified in the notice, which date will be no earlier than 30 days and no later than 60 days after the date such notice is mailed or, if the notice is mailed prior to the Change of Control, no earlier than 30 days and no later than 60 days after the date on which the Change of Control Triggering Event occurs (the Change of Control Payment Date). The notice shall, if mailed prior to the date of consummation of the Change of Control, state that the Change of Control Offer is conditioned on the Change of Control Triggering Event occurring on or prior to the Change of Control Payment Date.

On the Change of Control Payment Date, we will, to the extent lawful:

- (1) accept for payment all Notes or portions of Notes properly tendered pursuant to the Change of Control Offer;
- (2) deposit with the paying agent an amount equal to the Change of Control Payment in respect of all Notes or portions of Notes properly tendered pursuant to the Change of Control Offer; and
- (3) deliver or cause to be delivered to the Trustee the Notes properly accepted, together with an officer's certificate stating the aggregate principal amount of Notes or portions of Notes being purchased by us.

We will publicly announce the results of the Change of Control Offer on or as soon as possible after the purchase date.

Except as described above, the Indenture does not contain provisions that permit Holders to require us to purchase or redeem the Notes in the event of a takeover, recapitalization or similar transaction.

We will not be required to make a Change of Control Offer upon the occurrence of a Change of Control Triggering Event if a third party makes such an offer in the manner, at the times and otherwise in compliance with the requirements for an offer made by us, and the third party purchases all Notes properly tendered and not withdrawn under its offer. In addition, we will not purchase any Notes if there has occurred and is continuing on the Change of Control Payment Date an Event of Default under the Indenture, other than a Default in the payment of the Change of Control Payment upon a Change of Control Triggering Event.

We will comply with the requirements of Rule 14e-1 under the Exchange Act, and any other securities laws and regulations thereunder to the extent those laws and regulations are

Table of Contents

applicable in connection with the purchase of Notes as a result of a Change of Control Triggering Event. To the extent that the provisions of any such securities laws or regulations conflict with the Change of Control Offer provisions of the Notes, we will comply with those securities laws and regulations and will not be deemed to have breached our obligations under the Change of Control Offer provisions of the Notes by virtue of any such conflict.

Change of Control means the occurrence of any of the following:

- (1) the direct or indirect sale, lease, transfer, conveyance or other disposition (other than by way of merger or consolidation), in one or a series of related transactions, of all or substantially all of our assets and the assets of the Subsidiaries, taken as a whole, to one or more persons (other than to us or a Subsidiary);
- (2) the consummation of any transaction (including, without limitation, any merger or consolidation) the result of which is that any person (other than us or a Subsidiary) becomes the beneficial owner (as defined in Rules 13d-3 and 13d-5 under the Exchange Act), directly or indirectly, of more than 50% of our outstanding Voting Stock or other Voting Stock into which our Voting Stock is reclassified, consolidated, exchanged or changed, measured by voting power rather than number of shares;
- (3) we consolidate with, or merge with or into, any person or any such person consolidates with, or merges with or into, us, in any such case pursuant to a transaction in which any of our outstanding Voting Stock or the Voting Stock of such other person is converted into or exchanged for cash, securities or other property, other than pursuant to a transaction in which shares of our Voting Stock outstanding immediately prior to such transaction constitute, or are converted into or exchanged for, a majority of the Voting Stock of the surviving person immediately after giving effect to such transaction;
- (4) the first day on which a majority of the members of our board of directors are not Continuing Directors; or
- (5) the adoption of a plan relating to our liquidation or dissolution.

Notwithstanding the foregoing, a transaction will not be deemed to involve a Change of Control if (a) we become a direct or indirect wholly-owned Subsidiary of a holding company (*i.e.*, a parent company) and (b)(1) the direct or indirect holders of the Voting Stock of such holding company immediately following that transaction are substantially the same as the holders of our Voting Stock immediately prior to that transaction or (2) immediately following that transaction no person (other than a holding company satisfying the requirements of this sentence) is the beneficial owner, directly or indirectly, of more than 50% of the Voting Stock of such holding company; provided that any series of related transactions will be treated as a single transaction. The term person, as used in this definition, has the meaning given thereto in Section 13(d)(3) of the Exchange Act.

Change of Control Triggering Event means the occurrence of both a Change of Control and a Rating Event.

Continuing Director means, as of any date of determination, any member of our board of directors who (1) was a member of such board of directors on the date the Existing Notes were issued (June 2, 2011), or (2) was nominated for election, elected or appointed to such board of directors with the approval (either by a specific vote or by approval of our proxy statement in

Table of Contents

which such member was named as a nominee for election as a director, without objection to such nomination) of a majority of the Continuing Directors who were members of such board of directors at the time of such nomination, election or appointment.

Rating Event means the rating on the Notes is lowered independently by each of the Rating Agencies and the Notes are rated below an Investment Grade Rating by each of the Rating Agencies on any day during the period commencing on the earlier of the date of the first public notice of the occurrence of a Change of Control or our intention to effect a Change of Control and ending 60 days following consummation of such Change of Control (which period will be extended so long as the rating of the Notes is under publicly announced consideration for a possible downgrade by any of the Rating Agencies).

Voting Stock means, with respect to any specified person (as that term is used in Section 13(d)(3) of the Exchange Act) as of any date, the capital stock of such person that is at the time entitled to vote generally in the election of the board of directors or equivalent body of such person.

For definitions of **Investment Grade Rating** and **Rating Agencies**, see **Certain definitions**.

The definition of Change of Control includes a phrase relating to the direct or indirect sale, transfer, conveyance or other disposition of all or substantially all of the assets of us and our Subsidiaries taken as a whole. Although there is a limited body of case law interpreting the phrase substantially all, there is no precise definition of the phrase under applicable law. Accordingly, the ability of a Holder of Notes to require us to repurchase such Holder's Notes as a result of a sale, transfer, conveyance or other disposition of less than all of our and our Subsidiaries' assets, taken as a whole, to any person or group or persons may be uncertain.

Guarantee and Collateral

Guarantee

Dart guarantees, on a senior secured basis, our obligations under the Notes. The Guarantee is secured by a Lien on the Collateral.

The obligations of Dart under the Guarantee are limited as necessary to prevent the Guarantee from constituting a fraudulent conveyance under applicable law. If the Guarantee were to be rendered voidable, the Guarantee could be subordinated by a court to all other indebtedness (including guarantees and other contingent liabilities) of Dart, and, depending on the amount of such indebtedness, Dart's liability on the Guarantee could be reduced to zero. See **Risk factors** **Risking** relating to the notes U.S. federal and state fraudulent transfer laws may permit a court to void, subordinate or limit the notes, the guarantee and/or the grant of collateral, in which case you may not receive any payments on the notes.

Collateral

The Collateral consists of the Material Marks. The Collateral Agent's security interest in the Collateral has been perfected in the United States and recorded in the Material Foreign Jurisdictions pursuant to the terms of the Security Documents.

The fair market value of the Collateral will be subject to fluctuations based on factors that include, among others, the condition of our industry, the ability to sell the Collateral in an

Table of Contents

orderly sale, the ability to exercise secured creditor remedies in different jurisdictions, general economic conditions, the availability of buyers and other factors. Any amount to be received upon a sale of the Collateral would also be dependent on numerous factors, including, among others, the actual fair market value of the Collateral at such time and the timing and the manner of the sale. No appraisal of the value of the Collateral has been made in connection with this offering or will be given in the event of liquidation. See Risk factors Risks relating to the notes The value of the collateral securing the guarantee may not produce proceeds in an amount sufficient to pay any amounts due on the notes. The Collateral may be illiquid and may have no readily ascertainable market value. Accordingly, there can be no assurance that the Collateral can be sold in a short period of time or in an orderly manner. In addition, in the event of a bankruptcy, the ability of the Holders to realize upon any of the Collateral may be subject to certain bankruptcy law limitations as described below. See Risk factors Risks relating to the notes In the event of bankruptcy, the ability of the holders of the notes to realize upon the collateral will be subject to certain bankruptcy law limitations.

Covenants relating to the Collateral

The Collateral has been pledged pursuant to the Security Documents, which contain provisions relating to identification of the Collateral and the maintenance of perfected liens in the United States and recorded liens in Material Foreign Jurisdictions. The Security Documents also contain certain covenants, including those identified below, that will apply prior to, but not following, the occurrence of a Guarantee and Collateral Release Event.

Continued ownership of Collateral. Dart is not permitted to sell, transfer, license, lease, abandon or fail to maintain or otherwise dispose of the Material Marks owned by Dart; provided that (1) Dart is permitted to license the Material Marks to its Subsidiaries and other Subsidiaries of the Company, (2) none of such Subsidiaries is permitted to further sublicense the Material Marks to persons or entities that are not Subsidiaries of the Company, (3) this restriction does not apply to fair use licenses implied by law and/or contained in distribution agreements and (4) Dart is not obligated to maintain a Material Mark if it has determined that such use or the pursuit or maintenance of such Material Mark is no longer desirable in the conduct of Dart's business and that the loss thereof would not be reasonably likely to have a Material Adverse Effect (as defined in the security agreement, dated June 2, 2011, between Dart and the Collateral Agent).

Impairment of security interest. Dart shall not, and shall not permit any of its Subsidiaries to, knowingly take or knowingly or negligently omit to take, any action or omission that might or would have the result of materially impairing the security interest with respect to the Collateral for the benefit of the Trustee and the Holders of the Notes, except as otherwise permitted by the Indenture and the Security Documents.

Further assurances. The Indenture and the Security Documents provide that each of the Company and Dart will, at its expense, promptly execute and deliver such documents and instruments and take such other actions which may be required under applicable law or reasonably requested by the Collateral Agent to create and/or maintain the validity, recordation or perfection of, to protect any security interest granted or purported to be granted under the Security Documents or to enable the Collateral Agent to exercise and enforce its rights and remedies to the extent permitted by local law under the Security Documents with respect to the Collateral in the United States and the Material Foreign Jurisdictions.

Table of Contents

Foreclosure

At any time during any Remedy Period, the Security Documents provide for, among other available remedies, the foreclosure upon and sale of the Collateral by the Collateral Agent and the distribution of the net proceeds of any such sale to the Holders and the lenders under the Credit Agreement and any other First Lien Obligations on a *pro rata* basis, subject to any prior Liens on the Collateral. In the event of foreclosure on the Collateral, the proceeds from the sale of the Collateral may not be sufficient to satisfy in full the Company's obligations under the Notes.

Certain bankruptcy limitations

The right of the Collateral Agent to repossess and dispose of the Collateral during any Remedy Period may be significantly impaired by applicable bankruptcy law in the event that a bankruptcy case were to be commenced by or against the Company or Dart prior to the Collateral Agent having repossessed and disposed of the Collateral. Upon the commencement of a case for relief under the Bankruptcy Law, a secured creditor such as the Collateral Agent will be prohibited from repossessing its security from a debtor in a bankruptcy case, or from disposing of security repossessed from the debtor, without bankruptcy court approval.

In view of the broad equitable powers of a U.S. bankruptcy court, it is not possible to predict the period during which payments under the Notes could be delayed following commencement of a bankruptcy case, whether or when the Collateral Agent could repossess or dispose of the Collateral, the value of the Collateral at the time of the bankruptcy petition or whether or to what extent Holders would be compensated for any delay in payment or loss of value of the Collateral. The Bankruptcy Law permits only the payment and/or accrual of post-petition interest, costs and attorneys' fees to a secured creditor during a debtor's bankruptcy case to the extent the value of the security is determined by the bankruptcy court to exceed the aggregate outstanding principal amount of the obligations secured by the security.

If a bankruptcy court determines that the value of the Collateral is not sufficient to repay all amounts due on the Notes, the Holders would hold secured claims to the extent of the value of the Collateral to which the Holders are entitled, and unsecured claims with respect to any shortfall.

Release of Guarantee and Collateral

The Guarantee and the Liens on the Collateral, as well as the covenant set forth under Limitation on sale or disposition of Dart and the covenants set forth under Covenants relating to the Collateral will be released:

- (1) in whole, upon payment in full of the principal of, and premium, if any, and interest, on the Notes;
- (2) in whole, upon satisfaction and discharge of the Indenture;
- (3) in whole, upon a legal defeasance or covenant defeasance as set forth under Satisfaction, discharge and defeasance ;
- (4) in whole or in part, as to any property or assets constituting Collateral owned by the Guarantor that is released from its Guarantee in accordance with the Indenture;

Table of Contents

(5) in whole or in part, with the consent of Holders of the requisite percentage of Notes in accordance with the provisions described below under the caption Amendments and waivers ; or

(6) to the extent provided in the applicable provisions of the Security Documents;

(7) in whole, upon a Guarantee and Collateral Release Event;

provided, however, that, in the case of any release in whole pursuant to clauses (1), (2) or (3) above, all amounts owing to the Trustee under the Indenture have been paid or duly provided for.

Upon compliance by the Company with the conditions precedent set forth above, and delivery to the Trustee of an officer's certificate and opinion of counsel, the Trustee or the Collateral Agent will promptly execute and deliver such documents and other instruments and make or authorize the making of such filings and registrations as may be requested by the Company to evidence the release and reconveyance to Dart of the Collateral; provided that with respect to clause (6) above, no further deliveries will be required beyond those required in the Security Documents and, with respect to clause (7) above, no further deliveries will be required beyond those required by the Guarantee and Collateral Release Event definition.

Notwithstanding the foregoing, the Guarantee, but not the Liens on the Collateral, as well as the covenant set forth under Limitation on sale or disposition of Dart, will be reinstated in the circumstances set forth under the Guarantee and Collateral Release Event definition.

Control over common Collateral and enforcement of liens

The right of the Collateral Agent to repossess and dispose of the Collateral during any Remedy Period:

(1) will be subject to the provisions of the Security Documents; and

(2) with respect to the Collateral, will likely be significantly impaired by applicable bankruptcy law if a bankruptcy case were to be commenced by or against the Company or the Guarantor prior to the Collateral Agent having repossessed and disposed of the Collateral. Proceeds realized by the Administrative Agent, the Trustee, the Collateral Agent or the trustees or agents for any other First Lien Obligations from the Collateral will be:

(1) first, applied to the payment of all amounts owing to the Collateral Agent;

(2) second, applied, on a ratable basis, to amounts owing to (A) the holders of the obligations under the Credit Agreement, (B) the Holders of the Notes (for allocation in accordance with the terms of the Indenture) and (C) the holders of any other First Lien Obligations; and

(3) third, after payment in full of all First Lien Obligations, allocated to the Guarantor or to whomever may be lawfully entitled to receive such surplus.

If the net proceeds of the Collateral were not sufficient to repay all amounts due on the Notes and the Indenture, the Holders, to the extent not repaid from the proceeds of the sale of the Collateral, would have only an unsecured claim against the remaining assets of the Company and the Guarantor.

Table of Contents

Intercreditor arrangements

The Collateral Agent, the Trustee, the Administrative Agent, the Company and the Guarantor have entered into the Intercreditor and Collateral Agency Agreement. Under the Intercreditor and Collateral Agency Agreement, the Holders of the Notes are represented by the Trustee, the holders of the obligations under the Credit Agreement are represented by the Administrative Agent and any future holders of other First Lien Obligations will be represented by their authorized representative (such authorized representatives, the Trustee and the Administrative Agent, collectively, the Authorized Representatives). The Intercreditor and Collateral Agency Agreement provides for the priorities and other relative rights among the Holders of the Notes, the holders of the obligations under the Credit Agreement and the holders of any other First Lien Obligations, including, among others, that:

- (1) the Liens on the Collateral securing the Guarantee, the obligations under the Credit Agreement and any other First Lien Obligations shall be of equal priority as among the parties to the Intercreditor and Collateral Agency Agreement; and
- (2) if the Collateral Agent is taking action to enforce rights or exercise remedies in respect of any Collateral, or receives any payment with respect to the Collateral under any other intercreditor agreement, or any distribution is made with respect to any Collateral in any insolvency or liquidation proceeding of the Guarantor, then the proceeds of any sale, collection or other liquidation of any such Collateral by the Collateral Agent will be applied as described above under Control over common Collateral and enforcement of liens.

The Intercreditor and Collateral Agency Agreement also provides that only the Collateral Agent has the right to exercise, or refrain from exercising, any right or remedies and take any other actions with respect to the Collateral, and then, with certain exceptions, only on the instructions of the Authorized Representatives.

The Collateral Agent will be permitted to pursue remedies with respect to the Collateral only during any Remedy Period.

The Trustee and each other Authorized Representative will agree that it will not accept any Lien on the Collateral for the benefit of the holders of the applicable First Lien Obligations other than through the Collateral Agent.

The Collateral Agent will not be responsible for any loss suffered with respect to any investment permitted to be made under the Intercreditor and Collateral Agency Agreement and will not be responsible for the consequences of any oversight or error of judgment whatsoever, except that the Collateral Agent may be liable for losses due to its willful misconduct or gross negligence. In addition, none of the holders of First Lien Obligations may require the Collateral Agent to take or refrain from taking any action under the Security Documents or with respect to any of the Collateral except as and to the extent expressly set forth in the Intercreditor and Collateral Agency Agreement. The Collateral Agent will have no duty to, and each secured party and the Company have waived any and all right to require the Collateral Agent to, marshal any assets or otherwise to take any actions with respect to marshaling. If any holder of First Lien Obligations obtains possession of any Collateral or receives any proceeds or payment in respect thereof, at any time prior to the discharge of each of the other First Lien Obligations, then it must hold such Collateral, proceeds or payment in trust for the other holders of First Lien Obligations having a

Table of Contents

security interest in such Collateral and promptly transfer such Collateral, proceeds or payment to the Collateral Agent to be distributed in accordance with the provisions under Control over common Collateral and enforcement of liens.

Covenants

The Indenture contains, among others, the following covenants:

Limitation on liens

We will not, and we will not permit any Subsidiary to, directly or indirectly, issue, assume or guarantee any Indebtedness if that Indebtedness is secured by any Lien upon any of our Principal Property or the Principal Property of a Subsidiary, without effectively securing the Notes equally and ratably with, or prior to, that Indebtedness for so long as such Indebtedness is so secured. The foregoing restriction will not, however, apply to the following:

- (1) Liens on any property acquired, constructed or improved by us or any Subsidiary after the date of the Indenture (June 2, 2011) which are created or assumed contemporaneously with or within 180 days after the acquisition of such property, or completion of construction or improvement thereon, or within 180 days thereafter pursuant to a firm commitment for financing arrangements entered into within that 180-day period to secure or provide for the payment of the purchase price or cost thereof; provided that the aggregate principal amount of Indebtedness secured by such Liens will not exceed the cost of the property or assets so acquired, constructed or improved;
- (2) Liens existing on any property at the time of acquisition thereof from a Person merged or consolidated with or into us or a Subsidiary; provided that the Lien is not created in contemplation of or in connection with such acquisition, merger or consolidation;
- (3) Liens on property of any Person existing at the time that Person becomes a Subsidiary;
- (4) Liens existing on any property at the time of acquisition thereof (in addition to Liens contemplated by clauses (2) and (3) above);
- (5) Liens for taxes not yet due or which are being contested in good faith and by appropriate proceedings diligently conducted, if adequate reserves with respect thereto are maintained on the books of the applicable Person in accordance with GAAP;
- (6) Liens consisting solely of carriers, warehousemen, landlords, mechanics, materialmen, repairmen or other like Liens arising in the ordinary course of business which are not overdue for a period of more than 60 days or which are being contested in good faith and by appropriate proceedings diligently conducted, if adequate reserves with respect thereto are maintained on the books of the applicable Person in accordance with GAAP;
- (7) Liens consisting solely of easements, rights-of-way, restrictions and other similar encumbrances affecting real property or other minor irregularities in title which, in the aggregate, are not substantial in amount, and which do not in any case materially detract from the value of the property subject thereto or materially interfere with the ordinary conduct of the business of the applicable Person;
- (8) Liens in the form of leases or subleases granted or created by the Company or any Subsidiary that do not interfere, individually or in the aggregate, in any material respect with the business of the Company and its Subsidiaries taken as a whole;

Table of Contents

- (9) Liens arising out of conditional sale, title retention, consignment or similar arrangements for sale of goods entered into by the Company or any of its Subsidiaries in the ordinary course of business;
- (10) Liens arising from precautionary Uniform Commercial Code financing statement filings regarding operating leases entered into by the Company or any of its Subsidiaries in the ordinary course of business;
- (11) Liens securing Indebtedness in respect of capitalized leases, Synthetic Lease Obligations and obligations for acquisition, construction or the improvement of fixed or capital assets; provided that (i) such Liens do not at any time encumber any property other than the property whose acquisition, construction or improvement was financed by such Indebtedness or, if applicable, subject to such capitalized lease and (ii) the Indebtedness secured thereby does not exceed the cost or fair market value, whichever is lower, of the property being acquired, constructed or improved on the date of acquisition, construction or improvement;
- (12) Liens consisting solely of banker's liens, rights of set-off or similar rights in favor of (i) a depository institution with respect to deposit accounts maintained with such depository institution in the ordinary course of business or (ii) a depository institution or other intermediary in connection with the processing of VISA, MasterCard and other credit card payments and remittances;
- (13) Liens created over deposits and investments in the ordinary course of business in connection with the procurement and maintenance of insurance by the Company and its Subsidiaries;
- (14) Liens, including judgment Liens, arising from legal proceedings;
- (15) any Lien existing on the date of the Indenture (June 2, 2011);
- (16) Liens on the Collateral securing the Guarantee or obligations under the Credit Agreement or granted pursuant to the Security Documents;
or
- (17) Liens for the sole purpose of extending, renewing, replacing or refinancing Indebtedness secured by any Lien referred to in the foregoing clauses (1) to (16), inclusive; provided, however, that the principal amount of Indebtedness secured by that Lien does not exceed the principal amount of Indebtedness so secured at the time of such extension, renewal, replacement or refinancing, and that such extension, renewal, replacement or refinancing is limited to the property that secured the Lien so extended, renewed, replaced or refinanced (plus improvements on such property).

The foregoing limitation on Liens will not apply to the issuance, assumption or guarantee by us or any Subsidiary of Indebtedness secured by a Lien which would otherwise be subject to the foregoing restrictions up to an aggregate amount which, together with all other Indebtedness of us and the Subsidiaries secured by Liens (not including Liens permitted under the foregoing exceptions) that would otherwise be subject to the foregoing restriction and the Value of Sale and Leaseback Transactions existing at that time (other than Sale and Leaseback Transactions that, if such Sale and Leaseback Transaction had been a Lien, would have been permitted under clauses (1) or (4) above and other than Sale and Leaseback Transactions as to which application of amounts have been made in accordance with clause (3) under Limitation on Sale and Leaseback Transactions), does not at the time exceed the greater of (i) \$100 million and (ii) 10% of Consolidated Net Tangible Assets.

Limitation on Sale and Leaseback Transactions

We will not, and we will not permit any Subsidiary to, enter into any Sale and Leaseback Transaction unless the net proceeds of the Sale and Leaseback Transaction are at least equal to the sum of all costs incurred by us or any Subsidiary in connection with the acquisition of, and construction of any improvements on, the Principal Property to be leased and:

- (1) we or the Subsidiary would be entitled to incur Indebtedness secured by a Lien on the Principal Property to be leased without equally and ratably securing the Notes, pursuant to the first paragraph under Limitation on liens ;
- (2) we or the Subsidiary would be entitled to incur Indebtedness secured by a Lien on the Principal Property to be leased without equally and ratably securing the Notes, pursuant to the second paragraph under Limitation on liens ; or
- (3) we or the Subsidiary will, within 270 days of the effective date of any such arrangement (or, in the case of clause (b) below, within 270 days thereafter pursuant to a firm purchase commitment entered into within such 270-day period) apply an amount equal to the proceeds from such Sale and Leaseback Transaction relating to such Principal Property to:
 - (a) the payment or other retirement of Indebtedness incurred or assumed by us or any Subsidiary that ranks senior or equal to the Notes (other than Indebtedness owned or held by us or any Subsidiary); or
 - (b) the purchase of other Principal Property.

Limitation on sale or disposition of Dart

We will not, and we will not permit any Subsidiary to sell, transfer or otherwise dispose of any Capital Stock of, or other interest in, Dart. In addition, Dart will not, and we will not permit Dart to, sell, transfer, lease, license, convey or otherwise dispose of all or substantially all of its assets or properties.

Consolidation, merger and sale of assets

We may consolidate with or merge with or into any other Person, and we may sell, transfer, lease or convey all or substantially all of our properties and assets to another Person; provided that the following conditions are satisfied:

- (1) we are the continuing entity, or the resulting, surviving or transferee Person (the Successor) is a Person organized and existing under the laws of the United States of America, any state thereof or the District of Columbia and the Successor (if not us) will expressly assume, by supplemental indenture, all of our obligations under the Notes and the Indenture;
- (2) immediately after giving effect to such transaction, no Default or Event of Default under the Indenture has occurred and is continuing; and
- (3) the Trustee receives from us an officer's certificate and an opinion of counsel that the merger, consolidation, sale, transfer lease or conveyance and such supplemental indenture, as the case may be, complies with the applicable provisions of the Indenture.

Table of Contents

Notwithstanding the above, the Company will not be prohibited from engaging in a transaction the principal purpose of which will be to effectuate a redomicile of the Company into a foreign jurisdiction or a domestic jurisdiction other than the State of Delaware. If we consolidate or merge with or into any other Person or sell, transfer, lease or convey all or substantially all of our properties and assets in accordance with the Indenture, the Successor will be substituted for us in the Indenture and the Notes, with the same effect as if it had been an original party to the Indenture and named in the Notes. As a result, the Successor may exercise our rights and powers under the Indenture and the Notes, and we will be released from all of our liabilities and obligations under the Indenture and under the Notes.

Any substitution of the Successor for us might be deemed for U.S. federal income tax purposes to be an exchange of the Notes for new Notes, resulting in recognition of gain or loss for such purposes and possibly certain other adverse tax consequences to beneficial owners of the Notes. Holders should consult their own tax advisors regarding the tax consequences of any such substitution.

Events of default

Each of the following events are defined in the Indenture as an Event of Default (whatever the reason for such Event of Default and whether or not it will be voluntary or involuntary or be effected by operation of law or pursuant to any judgment, decree or order of any court or any order, rule or regulation of any administrative or governmental body) with respect to the Notes:

- (1) Default in the payment of principal or premium, if any, on the Notes when it becomes due and payable at its stated maturity, upon optional redemption, declaration or otherwise;
- (2) Default in the payment of any installment of interest, if any, on the Notes for 30 days after it becomes due and payable;
- (3) Default in the performance, or breach, of any covenant or agreement of the Company or the Guarantor in the Indenture and the Security Documents with respect to the Notes (other than as referred to in clause (1) or (2) above), which continues for a period of 90 days after written notice to us by the Trustee or to us and the Trustee by the Holders of at least 25% in aggregate principal amount of the outstanding Notes;
- (4) a Default or Defaults under any Indebtedness, or any agreement under which there may be issued or by which there may be secured or evidenced any Indebtedness of us or any Subsidiary, which Default or Defaults, individually or in the aggregate:
 - (a) constitute a failure to pay at least \$50 million of the principal of such Indebtedness when due (unless such Default or Defaults is or are waived or cured within 30 days after the expiration of any applicable grace period); or
 - (b) have resulted in the acceleration of any portion of such Indebtedness having an aggregate principal amount equal to or in excess of \$50 million,

in the case of each of clauses (a) and (b), without the overdue or accelerated portion of such Indebtedness having been discharged, or without such acceleration having been rescinded or annulled, within 90 days after written notice to us by the Trustee or to us and the Trustee by the Holders of at least 25% in aggregate principal amount of the outstanding Notes;

- (5) the Company or the Guarantor (unless the Guarantor has been and remains released pursuant to the conditions described under Guarantee and Collateral Release of Guarantee and Collateral) or any Significant Subsidiary, pursuant to or within the meaning of any Bankruptcy Law:
- (a) commences a voluntary case or proceeding;
 - (b) consents to the entry of an order for relief against the Company or the Guarantor (unless the Guarantor has been and remains released pursuant to the conditions described under Guarantee and Collateral Release of Guarantee and Collateral) or any Significant Subsidiary in an involuntary case or proceeding;
 - (c) consents to the appointment of a Custodian of the Company or the Guarantor (unless the Guarantor has been and remains released pursuant to the conditions described under Guarantee and Collateral Release of Guarantee and Collateral) or any Significant Subsidiary, or for all or substantially all of its property;

- (6) a court of competent jurisdiction enters an order or decree under any Bankruptcy Law that:
- (a) is for relief against us in an involuntary case, or adjudicates the Company or the Guarantor (unless the Guarantor has been and remains released pursuant to the conditions described under Guarantee and Collateral Release of Guarantee and Collateral) or any Significant Subsidiary insolvent or bankrupt;
 - (b) appoints a Custodian of the Company or the Guarantor (unless the Guarantor has been and remains released pursuant to the conditions described under Guarantee and Collateral Release of Guarantee and Collateral) or any Significant Subsidiary, or for all or substantially all of its property; or
 - (c) orders the winding-up or liquidation of the Company or the Guarantor (unless the Guarantor has been and remains released pursuant to the conditions described under Guarantee and Collateral Release of Guarantee and Collateral) or any Significant Subsidiary (or any similar relief is granted under any foreign laws),
and the order or decree remains unstayed and in effect for 90 days; or

- (b) any Significant Collateral Security Failure Event with respect to two Material Foreign Jurisdictions exists and is continuing; or
- (c) the Company or the Guarantor asserts, in any pleading in any court of competent jurisdiction, that any such security interest is invalid or unenforceable and, in the case of any such assertion by the Guarantor, the Company fails to cause the Guarantor to rescind such assertions within 10 days after the Company has actual knowledge of such assertions; provided that the Company's or Guarantor's assertion that a security interest is invalid or unenforceable is not based on a change of law in the jurisdiction that results in the jurisdiction not permitting the granting, recordation or perfection of security interests in the Collateral.

If an Event of Default with respect to the Notes (other than an Event of Default described under clauses (5) or (6) above) occurs and is continuing, the Trustee by notice to us, or the Holders of not less than 25% in aggregate principal amount of the outstanding Notes by notice to us and the Trustee, may, and the Trustee at the request of such Holders will, declare the principal of and premium, if any, and accrued and unpaid interest on all the Notes to be due and payable. Upon such a declaration, such principal, premium and accrued and unpaid interest will be due and payable immediately. If an Event of Default described under clauses (5) or (6) above occurs and is continuing, the principal of and premium, if any, and accrued and unpaid interest on the Notes will become and be immediately due and payable without any declaration or other act on the part of the Trustee or any Holders.

The Holders of not less than a majority in aggregate principal amount of the outstanding Notes may rescind a declaration of acceleration and its consequences, if we have deposited certain sums with the Trustee and all Events of Default with respect to the Notes, other than the non-payment of the principal or interest which have become due solely by such acceleration, have been cured or waived, as provided in the Indenture.

We are required to furnish the Trustee annually a statement by certain of our officers to the effect that, to the best of their knowledge, we are not in Default in the fulfillment of any of our obligations under the Indenture or, if there has been a Default in the fulfillment of any such obligation, specifying each such Default.

No Holder of the Notes will have any right to institute any judicial or other proceeding with respect to the Indenture, or for the appointment of a receiver or Trustee, or for any other remedy unless:

- (1) an Event of Default has occurred and is continuing and such Holder has given the Trustee prior written notice of such continuing Event of Default with respect to the Notes;
- (2) the Holders of not less than 25% of the aggregate principal amount of the outstanding Notes have requested the Trustee to institute proceedings in respect of such Event of Default;
- (3) the Trustee has been offered indemnity reasonably satisfactory to it against its costs, expenses and liabilities in complying with such request;
- (4) the Trustee has failed to institute proceedings for 60 days after the receipt of such notice, request and offer of indemnity; and
- (5) no direction inconsistent with such written request has been given for 60 days by the holders of a majority in aggregate principal amount of the outstanding Notes.

Table of Contents

The Holders of a majority in aggregate principal amount of outstanding Notes will have the right, subject to certain limitations, to direct the time, method and place of conducting any proceeding for any remedy available to the Trustee with respect to the Notes or exercising any trust or power conferred to the Trustee, and to waive certain Defaults. However, the Trustee will be under no obligation to exercise any of its rights or powers under the Indenture at the request of any of the Holders of the Notes unless they have offered to the Trustee security or indemnity satisfactory to the Trustee against the costs, expenses and liabilities which might be incurred by it in compliance with such request. The Indenture provides that if an Event of Default occurs and is continuing, the Trustee will exercise such of its rights and powers under the Indenture, and use the same degree of care and skill in their exercise, as a prudent person would exercise or use under the circumstances in the conduct of such person's own affairs.

Notwithstanding the foregoing, the Holder of Notes will have an absolute and unconditional right to receive payment of the principal of and premium, if any, and interest on the Notes on or after the due dates expressed in the Notes and to institute suit for the enforcement of payment.

Amendments and waivers

From time to time, the Company, the Guarantor, the Trustee and, as applicable, the Collateral Agent, without the consent of the Holders, may amend the Notes, the Indenture, the Guarantee and the Security Documents for certain specified purposes, including:

- (1) to cure any ambiguity, omission, defect or inconsistency;
- (2) to provide for uncertificated Notes in addition to or in place of certificated Notes;
- (3) to comply with the requirements of the SEC in order to effect or maintain the qualification of the Indenture under the Trust Indenture Act;
- (4) to evidence and provide for the acceptance of appointment by a successor Trustee;
- (5) to conform the terms of the Indenture, the Notes and/or the Guarantee to any provision or other description of the Notes or Guarantee, as the case may be, contained in this "Description of the notes" section of this prospectus supplement;
- (6) to provide for the assumption by a successor corporation, partnership, trust or limited liability company of the Company's or the Guarantor's obligations under the Indenture and the Notes, in each case in compliance with the provisions thereof;
- (7) to provide for the issuance of any additional Notes under the Indenture;
- (8) to comply with the rules of any applicable securities depository;
- (9) to make any change that would provide any additional rights or benefits to the Holders (including to add additional collateral to secure the Guarantee, add guarantees with respect to the Notes, transfer any property to or with the Trustee, add to the Company's covenants for the benefit of the Holders, add any additional events of Default for the Notes, or surrender any right or power conferred upon the Company or the Guarantor) or that does not adversely affect the legal rights hereunder of any Holder in any material respect;
- (10) change or eliminate any restrictions on the payment of principal or premium, if any, on Notes in registered form; provided that any such action does not adversely affect the interests of the Holders in any material respect;

Table of Contents

(11) release the Guarantee (or any additional guarantees) and the Collateral (or any additional collateral) in accordance with the terms of the Indenture, the Guarantee and the Security Documents, as the case may be; or

(12) supplement any provision of the Indenture as is necessary to permit or facilitate the defeasance and discharge of the Notes in accordance with the Indenture; provided that such action does not adversely affect the interests of any of the Holders in any material respect.

Notwithstanding the foregoing, in formulating its opinion on such matters, the Trustee will be entitled to rely on such evidence as it deems appropriate, including, without limitation, solely on an opinion of counsel. Other modifications and amendments of the Indenture may be made with the consent of the Holders holding a majority in principal amount of all then outstanding Notes, except that, without the consent of each Holder, no amendment may:

(1) reduce the principal amount of outstanding Notes whose Holders must consent to an amendment;

(2) reduce the rate of, change or have the effect of changing the time for payment of interest, including defaulted interest, on the Notes;

(3) reduce the principal of, change or have the effect of changing the stated maturity date of the Notes, or change the date on which the Notes may be subject to redemption or repurchase or reduce the redemption price or repurchase price therefor;

(4) make the Notes payable in currency other than that stated in the Notes or change the place of payment of the Notes from that stated in the Notes or in the Indenture;

(5) make any change in provisions of the Indenture protecting the right of each Holder to receive payment of principal of and interest on the Notes on or after the due date thereof or to bring suit to enforce such payment, or permitting Holders holding a majority in principal amount of the Notes to waive Defaults or Events of Default;

(6) make any change to or modify in any manner adverse to the Holders the terms and conditions of the obligations of the Guarantor under the Guarantee;

(7) make any change to or modify the ranking of the Notes that would adversely affect the Holders; or

(8) make any change in these amendment and waiver provisions.

Without the consent of the Holders of at least 75% in aggregate principal amount of the Notes then outstanding, no amendment, supplement or waiver may: (1) modify any Security Document or the provisions in the Indenture dealing with Security Documents in any manner materially adverse to the Holders; or (2) otherwise release the Collateral other than in accordance with the Indenture and the Security Documents.

Satisfaction, discharge and defeasance

The Company and the Guarantor may terminate their obligations under the Indenture, when:

(1) either:

Edgar Filing: DART INDUSTRIES INC - Form 424B5

- (a) all the Notes that have been authenticated and delivered have been delivered to the Trustee for cancellation;

S-36

Table of Contents

- (b) all the Notes issued that have not been delivered to the Trustee for cancellation have become due and payable or will become due and payable at their stated maturity within one year (discharge) or are to be called for redemption within one year under arrangements satisfactory to the Trustee for the giving of notice of redemption by such Trustee in the Company s name and at the Company s expense, and the Company has deposited or caused to be deposited with the Trustee sufficient funds to pay and discharge the entire Indebtedness on the Notes to pay principal, premium, if any, and interest; or
 - (c) with respect to the Guarantor, under the conditions specified under Release of Guarantee and Collateral ;
- (2) the Company has paid or caused to be paid all other sums then due and payable under the Indenture; and
- (3) the Company has delivered to the Trustee an officer s certificate or an opinion of counsel stating that all conditions precedent under the Indenture relating to the satisfaction and discharge of the Indenture have been complied with.
- The Company or the Guarantor may elect to have their obligations under the Indenture discharged with respect to the outstanding Notes (legal defeasance). Legal defeasance means that the Company will be deemed to have paid and discharged the entire Indebtedness represented by the outstanding Notes and to have satisfied all of the obligations of the Company and the Guarantor under the Notes and the Indenture, except for:
- (1) the rights of Holders of the Notes to receive principal and premium, if any, interest, if any, on the Notes when due;
 - (2) the Company s obligations with respect to the Notes concerning the issuance of temporary Notes; registration and transfer of Notes; replacement of mutilated, destroyed, lost or stolen Notes; compensation of the Trustee from time to time for its services rendered under the Indenture; and maintenance of an office or agency for payment;
 - (3) the rights, powers, trusts, duties and immunities of the Trustee; and
 - (4) the legal defeasance provisions of the Indenture.
- In addition, the Company and the Guarantor may elect to have their obligations released with respect to certain covenants in the Indenture (covenant defeasance). Any failure to comply with these obligations will not constitute an Event of Default with respect to the Notes. In the event covenant defeasance occurs, certain events (not including non-payment, bankruptcy and insolvency events) described under Events of default will no longer constitute an Event of Default.

In order to exercise either legal defeasance or covenant defeasance with respect to outstanding Notes:

- (1) the Company or the Guarantor must irrevocably have deposited or caused to be deposited with the Trustee as trust funds for the purpose of making the following payments, specifically pledged as security for, and dedicated solely to the benefit of the Holders:
 - (a) money in dollars or in such foreign currency in which the Notes are payable in at stated maturity;

Table of Contents

- (b) non-callable U.S. government obligations; or

- (c) a combination of money and non-callable U.S. government obligations, in each case sufficient without reinvestment, in the written opinion of a nationally recognized firm of independent public accountants to pay and discharge, and which will be applied by the Trustee to pay and discharge, the principal of (and premium, if any) and interest on the outstanding Notes on the day on which such payments are due and payable in accordance with the terms of the Indenture and of the Notes. Before such deposit, the Company may make arrangements satisfactory to the Trustee for the redemption of any Notes at a future date in accordance with any redemption provisions contained in any supplemental indenture relating to such Notes, which shall be given effect in applying the foregoing;

- (2) in the case of legal defeasance, the Company has delivered to the Trustee an opinion of counsel to the effect that (i) the Company has received from, or there has been published by, the Internal Revenue Service (the "IRS") a ruling, or (ii) since the date of the Indenture there has been a change in the applicable federal income tax law, in either case to the effect that, and based thereon such opinion confirms that, the Holders will not recognize income, gain or loss for federal income tax purposes as a result of such legal defeasance and will be subject to federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such legal defeasance had not occurred;

- (3) in the case of covenant defeasance, the Company has delivered to the Trustee an opinion of counsel to the effect that the Holders will not recognize income, gain or loss for federal income tax purposes as a result of such covenant defeasance and will be subject to the same federal income tax as would be the case if the covenant defeasance had not occurred;

- (4) no Event of Default or event with which notice of lapse of time or both would become an Event of Default with respect to the Notes has occurred and is continuing at the time of such deposit;

- (5) such legal defeasance or covenant defeasance will not cause the Trustee to have a conflicting interest for the purposes of the Trust Indenture Act with respect to any of the Company's or the Guarantor's securities;

- (6) such legal defeasance or covenant defeasance will not result in a breach or violation of, or constitute a Default under, the Indenture or any other agreement or instrument to which the Company or the Guarantor are a party, or by which the Company or the Guarantor are bound;

- (7) such legal defeasance or covenant defeasance will not cause any securities listed on any registered national stock exchange under the Exchange Act to be delisted;

- (8) such legal defeasance or covenant defeasance will be effected in compliance with any additional terms, conditions or limitations which may be imposed on the Company or the Guarantor in connection therewith; and

- (9) the Company has delivered to the Trustee an officer's certificate and an opinion of counsel stating that all conditions precedent with respect to such legal defeasance or covenant defeasance have been complied with.

Reports to trustee

The Indenture provides that any document or report that the Company is required to file with the SEC pursuant to Section 13 or 15(d) of the Exchange Act will be filed with the Trustee within 15 days after such document or report is filed with the SEC; provided that the filing of any such document on the SEC's EDGAR system will be deemed to constitute filing with the Trustee.

The trustee

Wells Fargo Bank, National Association will act as the Trustee with respect to the Notes. We and our affiliates may maintain banking relationships or conduct other banking transactions with the Trustee and its affiliates in the ordinary course of business.

The Indenture provides that, except during the continuance of an Event of Default, the Trustee will perform only such duties as are specifically set forth in the Indenture. During the existence of an Event of Default, the Trustee will exercise such rights and powers vested in it by the Indenture, and use the same degree of care and skill in its exercise as a prudent person would exercise or use under the circumstances in the conduct of its own affairs.

The Indenture and the provisions of the Trust Indenture Act contain certain limitations on the rights of the Trustee, should it become a creditor of us, to obtain payments of claims in certain cases or to realize on certain property received in respect of any such claim as security or otherwise. Subject to the Trust Indenture Act, the Trustee will be permitted to engage in other transactions; provided that if the Trustee acquires any conflicting interest as described in the Trust Indenture Act, it must eliminate such conflict or resign.

Book-entry procedures

The Notes offered hereby will be issued in the form of one or more fully registered global securities in a minimum denomination of \$2,000 or integral multiples of \$1,000 in excess thereof that will be deposited with DTC in New York, New York or its nominee. This means that the Company will not issue certificates to each Holder. Each global security will be issued in the name of Cede & Co., DTC's nominee, which will keep a computerized record of its participants (for example, your broker) whose clients have purchased Notes. The participant will then keep a record of its clients who purchased the Notes. Unless it is exchanged in whole or in part for a certificate, a global security may not be transferred, except that DTC, its nominees, and their successors may transfer a global security as a whole to one another.

Beneficial interests in global securities will be shown on, and transfers of global securities will be made only through, records maintained by DTC and its participants. If you are not a participant in DTC, you may beneficially own Notes held by DTC only through a participant.

The laws of some states require that certain purchasers of securities take physical delivery of such securities in definitive form. Such limitations and laws may impair the ability to transfer beneficial interests in a global security.

DTC has provided the Company with the following information: DTC is a limited-purpose trust company organized under the New York Banking Law, a banking organization within the meaning of the New York Banking Law, a member of the Federal Reserve System, a clearing corporation within the meaning of the New York Uniform Commercial Code, and a clearing agency registered pursuant to the provisions of Section 17A of the Exchange Act.

Table of Contents

DTC holds securities that its direct participants deposit with DTC. DTC also facilitates the settlement among direct participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in direct participants accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants include securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations.

DTC is owned by a number of its direct participants. Access to the DTC system is also available to others such as securities brokers and dealers, banks, and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of Notes represented by one or more global securities under the DTC system must be made by or through direct participants, which will receive a credit for the Notes on DTC's records. The ownership interest of each beneficial owner of each Note is in turn to be recorded on the direct and indirect participants' records. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct or indirect participant through which the beneficial owner entered into the transaction. Transfers of ownership interests in the Notes are to be accomplished by entries made on the books of participants acting on behalf of beneficial owners. Beneficial owners will not receive certificates representing their ownership interests in Notes, except in the event that use of the book-entry system for the Notes is discontinued.

To facilitate subsequent transfers, all Notes deposited by direct participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of Notes with DTC and their registration in the name of Cede & Co. or such other nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the Notes; DTC's records reflect only the identity of the direct participants to whose accounts such Notes are credited, which may or may not be the beneficial owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

Delivery of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Redemption notices, if any, will be sent to DTC. If less than all of the Notes within an issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each direct participant in such issue to be redeemed.

Redemption proceeds and distributions on the Notes will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit direct participants' accounts, upon DTC's receipt of funds and corresponding detail information from the Company or the paying agent on payable date in accordance with their respective holdings shown on DTC's records. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in street name, and will be the responsibility of each participant and not of DTC, the paying agent, or the Company, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of

Table of Contents

redemption proceeds and distributions to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of the Company or the paying agent, disbursement of such payments to direct participants will be the responsibility of DTC, and disbursement of such payments to the beneficial owners will be the responsibility of direct and indirect participants.

A beneficial owner must give notice to elect to have its Notes purchased or tendered, through its participant, to the paying agent, and will effect delivery of the Notes by causing the direct participant to transfer the participant's interest in the Notes, on DTC's records, to the paying agent. The requirement for physical delivery of the Notes in connection with an optional tender or a mandatory purchase will be deemed satisfied when the ownership rights in the Notes are transferred by direct participants on DTC's records and followed by a book-entry credit of tendered securities to the paying agent's DTC account.

DTC may discontinue providing its services as securities depository with respect to the Notes at any time by giving reasonable notice to us or the paying agent. Under such circumstances, in the event that a successor securities depository is not obtained, Note certificates are required to be printed and delivered. The Company may decide to discontinue use of the system of book-entry transfers through DTC (or a successor securities depository). In that event, Note certificates will be printed and delivered.

The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that we believe to be reliable, but the Company and the Guarantor take no responsibility for its accuracy.

Same-day settlement and payment

The Notes will trade in the same-day funds settlement system of DTC until maturity or until the Company issues the Notes in certificated form. DTC will therefore require secondary market trading activity in the Notes to settle in immediately available funds. The Company can give no assurance as to the effect, if any, of settlement in immediately available funds on trading activity in the Notes.

Euroclear and Clearstream, Luxembourg

If the depository for a global security is DTC, you may hold interests in the global Notes through Euroclear Bank S.A./N.V., as operator of the Euroclear System (Euroclear) or Clearstream Banking, société anonyme (Clearstream, Luxembourg), in each case, as a participant in DTC.

Euroclear and Clearstream, Luxembourg will hold interests, in each case, on behalf of their participants through customers' securities accounts in the names of Euroclear and Clearstream, Luxembourg on the books of their respective depositories, which in turn will hold such interests in customers' securities in the depositories' names on DTC's books.

Payments, deliveries, transfers, exchanges, notices and other matters relating to the Notes made through Euroclear or Clearstream, Luxembourg must comply with the rules and procedures of those systems. Those systems could change their rules and procedures at any time. The Company has no control over those systems or their participants, and the Company takes no responsibility for their activities. Transactions between participants in Euroclear or Clearstream, Luxembourg, on the one hand, and other participants in DTC, on the other hand, would also be subject to DTC's rules and procedures.

Table of Contents

Investors will be able to make and receive through Euroclear and Clearstream, Luxembourg payments, deliveries, transfers, exchanges, notices and other transactions involving any securities held through those systems only on days when those systems are open for business. Those systems may not be open for business on days when banks, brokers and other institutions are open for business in the United States.

In addition, because of time-zone differences, U.S. investors who hold their interests in the Notes through these systems and wish, on a particular day, to transfer their interests, or to receive or make a payment or delivery or exercise any other right with respect to their interests, may find that the transaction will not be effected until the next business day in Luxembourg or Brussels, as applicable. Thus, investors who wish to exercise rights that expire on a particular day may need to act before the expiration date. In addition, investors who hold their interests through both DTC and Euroclear or Clearstream, Luxembourg may need to make special arrangements to finance any purchase or sales of their interests between the U.S. and European clearing systems, and those transactions may settle later than transactions within one clearing system.

No personal liability of directors, officers, employees, incorporator and stockholders

No director, officer, employee, incorporator, agent, stockholder of the Company or Dart will have any liability for any obligations of the Company or Dart under the Notes, the Guarantee, any Security Document or the Indenture or for any claim based on, in respect of, or by reason of, such obligations or their creation. Each Holder of the Notes by accepting a Note waives and releases all such liability. This waiver and release are part of the consideration for issuance of the Notes. Such waiver and release may not be effective to waive liabilities under the U.S. federal securities laws, and it is the view of the SEC that such a waiver is against public policy.

Unclaimed funds

All funds deposited with the Trustee or any paying agent for the payment of principal, interest or premium in respect of the Notes that remain unclaimed for two years after the maturity date of such Notes will be repaid to the Company upon its request. Thereafter, any right of any Holder to such funds shall be enforceable only against the Company, and the Trustee and paying agents will have no liability therefor.

Governing law

The Notes offered hereby will be, and the Guarantee, the Indenture and the Security Documents are governed by, and construed in accordance with, the laws of the State of New York.

Certain U.S. federal income tax considerations

The following is a general discussion of the material U.S. federal income tax consequences of the acquisition, ownership, and disposition of the notes to beneficial owners of the notes. This discussion is based upon the Internal Revenue Code (the Code), the U.S. Treasury regulations promulgated thereunder, administrative pronouncements and judicial decisions, all as of the date hereof and all of which are subject to change, possibly on a retroactive basis.

This discussion applies only to beneficial owners that acquire the notes in connection with their initial issuance at their initial offering price and hold the notes as capital assets within the meaning of Section 1221 of the Code. This discussion does not address all aspects of U.S. federal income taxation that might be important to particular investors in light of their individual circumstances or the U.S. federal income tax consequences applicable to special classes of taxpayers, such as banks and other financial institutions, insurance companies, real estate investment trusts, regulated investment companies, tax-exempt organizations, partnerships (or entities properly classified as partnerships for U.S. federal income tax purposes) or other pass-through entities, dealers in securities or currencies, traders in securities that elect to use a mark-to-market method of accounting, persons liable for U.S. federal alternative minimum tax, U.S. Holders (as defined below) whose functional currency is not the U.S. dollar, former citizens or residents of the United States and persons holding the notes as part of a hedging or conversion transaction or a straddle. The discussion does not address any foreign, state, local or non-income tax consequences of the acquisition, ownership or disposition of the notes to beneficial owners of the notes.

As used in this discussion, the term U.S. Holder means a beneficial owner of a note who or that is for U.S. federal income tax purposes:

- (1) a citizen or individual resident of the United States;
- (2) a corporation (or other entity properly classified as a corporation for U.S. federal income tax purposes) created or organized in or under the laws of the United States, any state within the United States, or the District of Columbia;
- (3) an estate, the income of which is subject to U.S. federal income taxation regardless of its source; or
- (4) a trust, if (i) a U.S. court is able to exercise primary supervision over the trust's administration and one or more United States persons (as defined in the Code) have the authority to control all substantial decisions of the trust, or (ii) in the case of a trust that was treated as a domestic trust under the laws in effect before 1997, a valid election is in place under applicable U.S. Treasury regulations to treat such trust as a domestic trust.

The term Non-U.S. Holder means any beneficial owner of a note who or that is not a U.S. Holder and is not a partnership or other entity properly classified as a partnership for U.S. federal income tax purposes. For the purposes of this discussion, U.S. Holders and Non-U.S. Holders are referred to collectively as Holders.

If a partnership or other entity properly classified as a partnership for U.S. federal income tax purposes is a beneficial owner of a note, the tax treatment of a partner will generally depend upon the status of the partner and the activities of the entity. Such entities and partners in such entities should consult their own tax advisors about the U.S. federal income and other tax consequences of the acquisition, ownership and disposition of a note.

Table of Contents

This discussion is for general purposes only. Holders should consult their own tax advisors regarding the application of the U.S. federal income tax laws to their particular situations and the consequences under federal estate or gift tax laws, as well as foreign, state or local laws and tax treaties, and the possible effects of changes in tax laws.

U.S. federal income taxation of U.S. Holders

Payments of interest

Stated interest on notes beneficially owned by a U.S. Holder generally will be taxable as ordinary interest income at the time payments are accrued or are received in accordance with the U.S. Holders' regular method of accounting for U.S. federal income tax purposes.

Pre-issuance accrued interest

A portion of the purchase price paid for a note will be allocable to interest that accrued from the most recent interest payment date (i.e., pre-issuance accrued interest). We will treat the notes, for U.S. federal income tax purposes, as having been purchased for an amount that excludes the pre-issuance accrued interest. In that event, a portion of the first stated interest payment equal to the excluded pre-issuance accrued interest will be treated as a return of such pre-issuance accrued interest and will not be taxable to a U.S. Holder or otherwise treated as an amount payable on the note.

Bond premium

A U.S. Holder's initial tax basis in a note generally will equal the cost of the note to the U.S. Holder (excluding any portion of the purchase price that is attributable to pre-issuance accrued interest). If a U.S. Holder's initial tax basis in the notes is greater than the notes' stated principal amount, such U.S. Holder will be treated as having acquired the notes with amortizable bond premium equal in amount to such excess. A U.S. Holder may elect (with respect to the notes and all of the U.S. Holder's other taxable obligations with amortizable bond premium held on or acquired by such Holder after the first day of the first taxable year to which such election applies) to amortize such premium using a constant yield method over the remaining term of the notes and may offset interest income otherwise required to be included in respect of the notes during any taxable year by the amortized amount of such excess for the taxable year. However, because the notes may be redeemed by us prior to maturity at a premium, special rules apply that may reduce or eliminate the amount of premium that a U.S. Holder may amortize with respect to the notes. A U.S. Holder may be able to avoid such rules by making a separate election to treat all interest that accrues on the notes as original issue discount. U.S. Holders should consult with their own tax advisors regarding the timing and implications of making this election.

A U.S. Holder who elects to amortize bond premium must reduce its tax basis in the notes by the amount of the premium so amortized. This election, once made, may only be revoked with the consent of the IRS. If a U.S. Holder does not elect to amortize any bond premium and holds the notes to maturity, then, in general, the Holder will recognize a capital loss equal to the amount of such premium when the notes mature. The deduction of capital losses may be subject to limitations.

Payment contingencies

As described above under "Description of the notes - Optional redemption," we may, under certain circumstances, redeem or repurchase the notes before maturity. Also, in the event a

Table of Contents

change of control triggering event occurs, we may be required to repurchase notes at a price equal to 101% of their principal amount, plus any accrued interest to the date of repurchase, as described above under **Description of the notes Offer to purchase upon Change of Control Triggering Event**. Under applicable U.S. Treasury regulations, if based on all the facts and circumstances as of the date on which the notes are issued there is a remote likelihood that a contingency will occur, or if the contingency is incidental, it is either assumed that such contingency will not occur, or the contingency is ignored until the payment is made. We intend to take the position that the likelihood of a repurchase premium becoming payable on the notes is remote and/or incidental (within the meaning of applicable Treasury regulations) as of the issue date, and that, as a result, such additional amounts need not be taken into account unless and until such additional amounts become payable, at which time such additional amounts should be taxable to a U.S. Holder in accordance with such U.S. Holder's method of accounting. Our position will be binding on all U.S. Holders except a U.S. Holder that discloses its differing position in a statement attached to its timely filed U.S. federal income tax return for the taxable year during which a note was acquired. There can be no assurance, however, that the Internal Revenue Service (the **IRS**) will agree with our position. If our position were successfully challenged by the IRS, the notes could be treated as contingent payment debt instruments under the applicable Treasury regulations and a U.S. Holder could be required to accrue income on a note in excess of stated interest payments (regardless of the U.S. Holder's regular method of accounting for U.S. federal income tax purposes) at a rate equal to our comparable yield, and to treat as ordinary income, rather than capital gain, any gain recognized on the sale, exchange, redemption, retirement or other disposition of a note. In the event we pay a repurchase premium, U.S. Holders should consult their own tax advisors regarding the treatment of such amounts.

This discussion assumes the notes will not be treated as contingent payment debt instruments.

Sale, exchange or redemption of the notes

Upon the sale, exchange, redemption or other taxable disposition of the notes, a U.S. Holder generally will recognize gain or loss equal to the difference, if any, between (i) the amount realized upon the sale, exchange, redemption or other taxable disposition of the notes, other than amounts attributable to accrued and unpaid interest (which will be taxed as ordinary interest income to the extent such interest has not been previously included in income), and (ii) the U.S. Holder's adjusted tax basis in the notes. The amount realized by a U.S. Holder is the sum of cash plus the fair market value of all other property received on such sale, exchange, redemption or other taxable disposition. A U.S. Holder's adjusted tax basis in the notes generally will be its cost for the notes (excluding any portion of the purchase price attributable to pre-issuance accrued interest) reduced by any bond premium used to reduce interest income as described under **Bond premium**.

Subject to the discussion above under **Payment contingencies**, the gain or loss a U.S. Holder recognizes on the sale, exchange, redemption or other taxable disposition of the notes generally will be capital gain or loss. Such gain or loss generally will be long-term capital gain or loss if a U.S. Holder has held the notes for more than 12 consecutive months. For non-corporate U.S. Holders, long-term capital gains are currently taxed at a lower rate than ordinary income. The deductibility of capital losses is subject to limitations. A U.S. Holder should consult its own tax advisor regarding the deductibility of capital losses in its particular circumstances.

Table of Contents

Medicare tax

A 3.8% Medicare tax is imposed on a portion or all of the net investment income of certain individuals with a modified adjusted gross income of over \$200,000 (or \$250,000 in the case of joint filers or \$125,000 in the case of married individuals filing separate returns) and on the undistributed net investment income of certain estates and trusts. For these purposes, net investment income generally will include interest (including interest paid with respect to a note) and net gain attributable to the disposition of property not held in a trade or business (including net gain from the sale, exchange, redemption or other taxable disposition of a note) and certain other income, but will be reduced by any deductions properly allocable to such income or net gain.

Backup withholding and information reporting

In general, a U.S. Holder that is not an exempt recipient will be subject to U.S. federal backup withholding at the applicable rate (currently 28%) with respect to payments on the notes and the proceeds of a sale, exchange, redemption or other taxable disposition of the notes, unless the U.S. Holder provides its taxpayer identification number to the paying agent and certifies, under penalties of perjury, that it is not subject to backup withholding on IRS Form W-9 (Request for Taxpayer Identification Number and Certification) or a suitable substitute form and otherwise complies with the applicable requirements of the backup withholding rules. Backup withholding is not an additional tax. The amount of any backup withholding from a payment to a U.S. Holder may be allowed as a credit against such U.S. Holder's U.S. federal income tax liability and may entitle such U.S. Holder to a refund, provided the required information is furnished to the IRS in a timely manner. In addition, payments on the notes made to, and the proceeds of a sale or other taxable disposition by, a U.S. Holder that is not an exempt recipient generally will be subject to information reporting requirements.

U.S. federal income taxation of Non-U.S. Holders

For purposes of the following discussion of Non-U.S. Holders, interest does not include any pre-issuance accrued interest, as discussed above under U.S. federal income taxation of U.S. Holders Pre-issuance accrued interest.

Payments of interest

Subject to the discussion below under Backup withholding and information reporting, a Non-U.S. Holder generally will not be subject to U.S. federal withholding tax on interest paid on the notes so long as:

- (1) the Non-U.S. Holder does not actually or constructively own 10% or more of the total combined voting power of all of our stock entitled to vote;
- (2) the Non-U.S. Holder is not a controlled foreign corporation that is related to us, actually or by attribution, through stock ownership; and
- (3) either (i) the Non-U.S. Holder certifies under penalties of perjury on IRS Form W-8BEN (Certificate of Foreign Status of Beneficial Owner for United States Tax Withholding) or a suitable substitute form that it is not a United States person (as defined in the Code), and provides its name and address, and U.S. taxpayer identification number, if any, or (ii) a securities clearing organization, bank or other financial institution that holds customers

Table of Contents

securities in the ordinary course of its trade or business and holds the notes on behalf of the Non-U.S. Holder certifies under penalties of perjury that the certification referred to in clause (i) has been received from the Non-U.S. Holder or another intermediate financial institution, and furnishes to us a copy thereof.

A Non-U.S. Holder that does not qualify for exemption from withholding as described above generally will be subject to withholding of U.S. federal income tax at a rate of 30% on payments of interest on the notes. A Non-U.S. Holder may be entitled to the benefits of an income tax treaty under which interest on the notes is subject to a reduced rate of U.S. withholding tax or is exempt from U.S. withholding tax, provided the Non-U.S. Holder furnishes us a properly completed and executed IRS Form W-8BEN claiming the reduction or exemption and the Non-U.S. Holder complies with any other applicable procedures.

Special rules regarding exemption from, or reduced rates of, U.S. withholding tax may apply in the case of notes held by partnerships or certain types of trusts. Partnerships and trusts that are prospective purchasers should consult their tax advisors regarding special rules that may be applicable in their particular circumstances.

Sale, exchange, or redemption of the notes

Generally, any gain recognized by a Non-U.S. Holder on the sale, exchange, redemption or other taxable disposition of a note (other than amounts attributable to accrued and unpaid interest, which will be treated as described under **Payments of interest** above) will be exempt from U.S. federal income and withholding tax, unless:

- (1) the gain is effectively connected with the Non-U.S. Holder's conduct of a trade or business within the United States (and, if a treaty applies, is attributable to a permanent establishment maintained by the Non-U.S. Holder in the United States); or
- (2) the Non-U.S. Holder is an individual who is present in the United States for 183 days or more during the taxable year, and certain other conditions are met.

Effectively connected income

If interest, gain or other income recognized by a Non-U.S. Holder on a note is effectively connected with the Non-U.S. Holder's conduct of a trade or business within the United States (and, if a treaty applies, is attributable to a permanent establishment maintained by the Non-U.S. Holder in the United States), the Non-U.S. Holder will not be subject to the withholding tax discussed above under **Payments of interest** if the Non-U.S. Holder provides us with a properly completed and executed IRS Form W-8ECI (Certificate of Foreign Person's Claim That Income Is Effectively Connected With the Conduct of a Trade or Business in the United States), but the Non-U.S. Holder generally will be subject to U.S. federal income tax on such interest, gain or other income as if it were a United States person (as defined in the Code). In addition to such U.S. federal income tax, if the Non-U.S. Holder is a corporation, it may be subject to an additional 30% (or such lower rate as may be provided for under an applicable treaty) branch profits tax.

Backup withholding and information reporting

We must report annually to the IRS and to a Non-U.S. Holder the amount of interest paid to such Non-U.S. Holder and the tax withheld from those payments. These reporting requirements apply regardless of whether U.S. withholding tax on such payments was reduced or eliminated by any

Table of Contents

applicable tax treaty or otherwise. Copies of the information returns reporting those payments and the amounts withheld may also be made available to the tax authorities in the country where a Non-U.S. Holder is a resident under the provisions of an applicable income tax treaty or agreement.

Under some circumstances, U.S. Treasury regulations require backup withholding and additional information reporting on payments of interest and other reportable payments. Such backup withholding and additional information reporting will not apply to payments on the notes made by us or our paying agent to a Non-U.S. Holder if the certification described above under Payments of interest is received from the Non-U.S. Holder.

Backup withholding and information reporting generally will not apply to payments of proceeds from the sale or other disposition of a note made to a Non-U.S. Holder by or through the foreign office of a broker. However, information reporting requirements, and possibly backup withholding, will apply if such broker is, for U.S. federal income tax purposes, a United States person (as defined in the Code) or has certain other enumerated connections with the United States, unless such broker has documentary evidence in its records that the Non-U.S. Holder is not a United States person (as defined in the Code) and certain other conditions are met, or the Non-U.S. Holder otherwise establishes an exemption. Payments of proceeds from the sale or other disposition of a note made to a Non-U.S. Holder by or through the U.S. office of a broker are subject to information reporting and backup withholding at the applicable rate unless the Non-U.S. Holder certifies, under penalties of perjury, that it is not a United States person (as defined in the Code) and satisfies certain other conditions or it otherwise establishes an exemption. Backup withholding is not an additional tax. A Non-U.S. Holder may obtain a refund or credit against its U.S. federal income tax liability of any amounts withheld under the backup withholding rules, provided the required information is furnished to the IRS in a timely matter.

Non-U.S. Holders should consult their tax advisors regarding the application of information reporting and backup withholding in their particular situations, the availability of an exemption therefrom, and the procedures for obtaining such an exemption, if available.

The U.S. federal income tax discussion set forth above is included for general information only and may not be applicable depending upon a Holder's particular situation. Prospective purchasers of the notes should consult their own tax advisors with respect to the tax consequences to them of the purchase, ownership and disposition of notes, including the tax consequences under state, local, estate, foreign and other tax laws and the possible effects of changes in U.S. or other tax laws.

The underwriting agreement provides that the obligations of the several underwriters to purchase the notes offered hereby are subject to certain conditions and that the underwriters will purchase all of the notes offered by this prospectus supplement if any of these notes are purchased.

We have been advised by the underwriters that the underwriters propose to offer the notes directly to the public at the public offering price set forth on the cover page of this prospectus supplement and to certain dealers at such price less a concession not in excess of 0.40% of the principal amount of the notes. The underwriters may allow, and such dealers may reallow a concession not in excess of 0.20% of the principal amount of the notes to certain other dealers. After the initial public offering, the underwriters may change the offering price and other selling terms.

We estimate that our expenses of this offering, excluding the underwriting discount, will be approximately \$0.5 million.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, and to contribute to payments the underwriters may be required to make in respect of any of these liabilities.

There is currently no established trading market for the notes. The notes will not be listed on any securities exchange or quoted on any automated dealer quotation system. The underwriters may make a market in the notes after completion of the offering but will not be obligated to do so and may discontinue any market-making activities at any time without notice. No assurance can be given as to the liquidity of the trading market for the notes or that an active trading market

Table of Contents

for the notes will develop. If an active trading market for the notes does not develop, the market price and liquidity of the notes may be adversely affected.

In connection with the offering, the underwriters may engage in transactions that stabilize the market price of the notes. Such transactions consist of bids or purchases to peg, fix or maintain the price of the notes. If the underwriters create a short position in the notes in connection with the offering, i.e., if they sell more notes than are listed on the cover page of this prospectus supplement, the underwriters may reduce that short position by purchasing notes in the open market. Purchases of a security to stabilize the price or to reduce a short position may cause the price of the note to be higher than it might be in the absence of these purchases.

The underwriters also may impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased notes sold by or for the account of such underwriters in stabilizing or short covering transactions.

Neither we nor the underwriters make any representation or prediction as to the director or magnitude of any effect that the transactions described above may have on the price of the notes. In addition, neither we nor the underwriters make any representation that the underwriters will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

In the ordinary course of their various business activities, the underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers and may at any time hold long and short positions in such securities and instruments. Such investment and securities activities may involve securities and instruments of the issuer. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Some of the underwriters and their affiliates have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with us. They have received customary fees and commissions for these transactions. J.P. Morgan Securities LLC, BNP Paribas Securities Corp. and Mizuho Corporate Bank, Ltd., an affiliate of Mizuho Securities USA Inc., are joint lead arrangers, KeyBank National Association, an affiliate of KeyBanc Capital Markets Inc. is the syndication agent, J.P. Morgan Chase Bank, N.A., an affiliate of J.P. Morgan Securities LLC, is the administrative agent, swing line lender and a lender, and Crédit Agricole Corporate and Investment Bank, an affiliate of Credit Agricole Securities (USA) Inc., BNP Paribas, an affiliate of BNP Paribas Securities Corp., and Mizuho Corporate Bank, Ltd., an affiliate of Mizuho Securities USA Inc., are co-documentation agents and lenders, and certain of the other underwriters, or their affiliates, are lenders, under our credit facility. An affiliate of Wells Fargo Securities, LLC, one of the underwriters, is the lender under our Bridge Loan and the trustee for the notes and the Existing Notes.

Conflicts of interest

We intend to use more than 5% of the net proceeds of this offering to repay indebtedness owed by us to an affiliate of Wells Fargo Securities, LLC, an underwriter in this offering, who is the lender under our bridge loan. See Use of proceeds. Accordingly, this offering is being made in

compliance with the requirements of Rule 5121 of the Financial Industry Regulatory Authority, Inc. Because the notes to be offered will be rated investment grade, pursuant to Rule 5121, the appointment of a qualified independent underwriter is not necessary. Wells Fargo Securities, LLC will not confirm sales of the debt securities to any account over which it exercises discretionary authority without the prior written approval of the customer.

Plan of distribution

We may sell debt securities offered by this prospectus in and/or outside the United States:

through underwriters or dealers;

through agents; or

directly to purchasers.

We will describe in a prospectus supplement the particular terms of any offering of debt securities, including the following:

the names of any underwriters or agents;

the proceeds we will receive from the sale;

any discounts or commissions and other items constituting underwriters or agents compensation;

any discounts or concessions allowed or reallocated or paid to dealers; and

any securities exchanges on which the applicable debt securities may be listed.

If we use underwriters in the sale, such underwriters will acquire the debt securities for their own account. The underwriters may resell the debt securities in one or more transactions, at a fixed price or prices, which may be changed, at market prices prevailing at the time of sale, at prices relating to prevailing market prices or at negotiated prices.

The debt securities may be offered to the public through underwriting syndicates represented by managing underwriters or by underwriters without a syndicate. The obligations of the underwriters to purchase the debt securities will be subject to certain conditions. The underwriters will be obligated to purchase all the debt securities of the series offered if any of the debt securities are purchased.

We may sell debt securities through agents or dealers designated by us. Any agent or dealer involved in the offer or sale of the debt securities for which this prospectus is delivered will be named, and any commissions payable by us to that agent or dealer will be set forth, in the prospectus supplement. Unless indicated in the prospectus supplement, the agents will agree to use their reasonable efforts to solicit purchases for the period of their appointment and any dealer will purchase debt securities from us as principal and may resell those debt securities at varying prices to be determined by the dealer.

We also may sell debt securities directly. In this case, no underwriters or agents would be involved.

Underwriters, dealers and agents that participate in the distribution of the debt securities may be deemed to be underwriters within the meaning of the Securities Act, and any discounts, concessions, commissions or fees received by them from us and any profit on the resale of the debt securities sold by them may be deemed to be underwriting discounts or commissions under the Securities Act.

We may have agreements with the underwriters, dealers and agents to indemnify them against certain civil liabilities, including liabilities under the Securities Act, or to contribute with respect to payments which the underwriters, dealers or agents may be required to make, and to reimburse them for certain expenses.

Underwriters, dealers and agents may engage in transactions with, or perform services for, us or our subsidiaries in the ordinary course of their businesses.

In order to facilitate the offering of the debt securities, any underwriters or agents, as the case may be, involved in the offering of such securities may engage in transactions that stabilize, maintain or otherwise affect the price

of such securities or other securities the prices of which may be used to determine payments on the securities. Specifically, the underwriters or agents, as the case may be, may overallocate in connection with the offering, creating a short position in such securities for their own account. In addition, to cover overallocations or to stabilize the price of the securities or of such other securities, the underwriters or agents, as the case may be, may bid for, and purchase, such securities in the open market. Finally, in any offering of such securities through a syndicate of underwriters, the underwriting syndicate may reclaim selling concessions allotted to an underwriter or a dealer for distributing such securities in the offering if the syndicate repurchases previously distributed securities in transactions to cover syndicate short positions, in stabilization transactions or otherwise. Any of these activities may stabilize or maintain the market price of the debt securities above independent market levels. The underwriters or agents, as the case may be, are not required to engage in these activities, and may end any of these activities at any time.

We may solicit offers to purchase debt securities directly from, and we may sell debt securities directly to, institutional investors or others. The terms of any of those sales, including the terms of any bidding or auction process, if utilized, will be described in the applicable prospectus supplement.

Some or all of the debt securities may be new issues of securities with no established trading market. We cannot and will not give any assurances as to the liquidity of the trading market for any of our debt securities.

Legal matters

Unless otherwise specified in a prospectus supplement, legal matters in connection with this offering of securities will be passed upon for us by Sidley Austin LLP, Chicago, Illinois.
