**SUMMARY**

*The following summary highlights information contained in or incorporated by reference in this prospectus supplement and the accompanying prospectus. It may not contain all of the information that you should consider before investing in the Notes. You should carefully read this entire prospectus supplement, as well as the accompanying prospectus and the documents incorporated by reference herein that are described under Where You Can Find More Information.*

**Our Business**

**CNOOC Limited**

We are an upstream company specializing in the exploration, development and production of oil and natural gas. We are the dominant oil and natural gas producer in offshore China and, in terms of reserves and production, we are also one of the largest independent oil and natural gas exploration and production companies in the world.

As of the end of 2013, we had net proved reserves of approximately 4.43 billion BOE including approximately 2.29 billion barrels of crude oil and 6,323.3 bcf of natural gas. In 2013, we had an average daily production of approximately 912,603 barrels of crude oil and approximately 1,247.4 mmcf of natural gas, representing a total net oil and gas production of 1.13 million BOE per day, including approximately 45,173 BOE per day under our equity method investees (except as otherwise stated, all amounts of reserve and production in this prospectus supplement include our interests in equity method investees).

Our total revenues were Rmb240.9 billion, Rmb247.6 billion and Rmb285.9 billion in 2011, 2012 and 2013, respectively. Our profit for the year was Rmb70.3 billion, Rmb63.7 billion and Rmb56.5 billion in 2011, 2012 and 2013, respectively.

We were incorporated with limited liability on August 20, 1999 in Hong Kong under the Hong Kong Companies Ordinance. The PRC government established CNOOC, our controlling shareholder, as a state-owned offshore petroleum company in 1982 under the Regulation of the PRC on the Exploitation of Offshore Petroleum Resources in Cooperation with Foreign Enterprises. CNOOC assumed certain responsibility for the administration and development of PRC offshore petroleum operations with foreign oil and gas companies. Prior to CNOOC's reorganization in 1999, CNOOC and its various affiliates performed both commercial and administrative functions relating to oil and natural gas exploration and development in offshore China. In 1999, CNOOC transferred all of its then current operational and commercial interests in its offshore petroleum business, including the related assets and liabilities, to us. As a result, we and our subsidiaries are the only vehicles through which CNOOC engages in oil and gas exploration, development, production and sales activities both in and outside the PRC.

Our registered office is located at 65th Floor, Bank of China Tower, One Garden Road Central, Hong Kong, and our telephone number is +852 2213-2500. We maintain a website at [www.cnooltd.com](http://www.cnooltd.com) where general information about us is available. We are not incorporating the contents of the website into this prospectus supplement or the accompanying prospectus.

**The Issuer**

The Issuer is our wholly-owned subsidiary and was incorporated as an unlimited company on March 12, 2014 in Nova Scotia, Canada under the *Companies Act* (Nova Scotia). It has no material assets and will conduct no business except in connection with the issuance of the Notes and other debt securities and the advance of proceeds from such issuance to us or a company controlled by us. Its registered office is located at the offices of its recognized agent, Charles S. Reagh, at 1959 Upper Water Street, Suite 900, Halifax NS B3J 3N2, Canada. Its telephone number is +852 2213-2500.

**CERTAIN FINANCIAL DATA**

**Recent Developments**

We achieved a total net production of 108.1 million barrels of oil equivalent ( BOE ) for the first quarter of 2014, representing an increase of 15.5% year-over-year, mainly attributable to: (i) the production contribution from the acquisition of Nexen Inc. (the predecessor of Nexen Energy ULC) and (ii) increasing production from major overseas projects such as Eagle Ford in the United States and Missan oilfields in Iraq.

For the first quarter of 2014, we made five new discoveries and eight successful appraisal wells in offshore China. The new discovery of Bozhong 22-1 demonstrated the exploration potential of natural gas in Bohai buried at deeper zones. Another discovery of Lingshui 17-2 marked a breakthrough in the Company's independent deepwater exploration. After further successful appraisals, Bozhong 8-4 and Wushi 17-2 were proved to be mid-sized oil and gas structures.

Our unaudited oil and gas sales revenue reached approximately RMB59.15 billion for the first quarter of 2014, representing an increase of 6.9% year-over-year, mainly due to the increase of oil and gas production. During the period, our average realized oil price decreased 5.1% year-over-year to US\$104.63 per barrel mainly due to the weak performances of the Far East benchmark oil prices and Brent oil price. Our average realized gas price was US\$6.33 per thousand cubic feet, representing an increase of 9.3% year-over-year, mainly due to the increase in prices to certain customers in China and higher realized gas prices of Nexen Inc.

For the first quarter of 2014, our capital expenditure for exploration, development and production reached approximately RMB19.31 billion.
