LETTER FROM THE CHAIRMAN AND CEO

Dear Shareholders:

After gaining momentum late last year, U.S. economic output contracted this winter, as severe weather curtailed activity. More recently, various indicators show that the

U.S. economy could be regaining traction.

Although Europe emerged from its recession almost a year ago, its pace of growth has been slow, and high unemployment persists, along with the risk of deflation. Asia remains vulnerable. China s economic growth has slowed, and Japan s early progress toward an economic turnaround continues to face obstacles, including the recent sales tax increase. Emerging markets have been more turbulent.

With so much uncertainty, global financial markets began 2014 with much greater volatility than last year s broad-based rally.

For equity investors, paying attention to company fundamentals has become more important. Bond investors have been attuned to heightened risks from possible interest rate increases.

As always at MFS®, active risk management is integral to how we manage your investments. We use a collaborative process, sharing insights across asset classes, regions and economic sectors. Our global team of investment professionals uses a multidiscipline, long-term, diversified investment approach.

We understand that these are challenging economic times. We believe that we can serve you best by applying proven principles, such as asset allocation and diversification, over the long term. We are confident that this approach can serve you well as you work with your financial advisors to reach your goals in the years ahead.

Respectfully,

Robert J. Manning

Chairman and Chief Executive Officer

MFS Investment Management

July 16, 2014

BB	4.9%
В	4.1%
Not Rated (j)	1.4%
Cash & Other	(59.9)%
Portfolio facts (i)	
Average Duration (d)	13.4
Average Effective Maturity (m)	16.9 yrs.
Jurisdiction (i)	
California	163.4%
Puerto Rico	3.7%
New York	1.7%

(a) For all securities other than those specifically described below, ratings are assigned to underlying securities utilizing ratings from Moody s, Fitch, and Standard & Poor s rating agencies and applying the following hierarchy: If all three agencies provide a rating, the middle rating (after dropping the highest and lowest ratings) is assigned; if two of the three agencies rate a security, the lower of the two is assigned. Ratings are shown in the S&P and Fitch scale (e.g., AAA). Securities rated BBB or higher are considered investment grade. All ratings are subject to change. Not Rated includes fixed income securities, including fixed income futures contracts, which have not been rated by any rating agency. The fund may not hold all of these instruments. The fund is not rated by these agencies.

(d) Duration is a measure of how much a bond s price is likely to fluctuate with general changes in interest rates, e.g., if rates rise 1.00%, a bond with a 5-year duration is likely to lose about 5.00% of its value due to the interest rate move.

Portfolio Composition continued

- (i) For purposes of this presentation, the components include the market value of securities, and reflect the impact of the equivalent exposure of derivative positions, if any. These amounts may be negative from time to time. Equivalent exposure is a calculated amount that translates the derivative position into a reasonable approximation of the amount of the underlying asset that the portfolio would have to hold at a given point in time to have the same price sensitivity that results from the portfolio s ownership of the derivative contract. When dealing with derivatives, equivalent exposure is a more representative measure of the potential impact of a position on portfolio performance than market value. The bond component will include any accrued interest amounts.
- (j) For the purpose of managing the fund s duration, the fund holds short treasury futures with a bond equivalent exposure of (8.9)%, which reduce the fund s interest rate exposure but not its credit exposure.
- (m) In determining an instrument s effective maturity for purposes of calculating the fund s dollar-weighted average effective maturity, MFS uses the instrument s stated maturity or, if applicable, an earlier date on which MFS believes it is probable that a maturity-shortening device (such as a put, pre-refunding or prepayment) will cause the instrument to be repaid. Such an earlier date can be substantially shorter than the instrument s stated maturity.

From time to time Cash & Other may be negative due to the aggregate liquidation value of variable rate municipal term preferred shares, timing of cash receipts, and/or equivalent exposure from any derivative holdings.

Where the fund holds convertible bonds, these are treated as part of the equity portion of the portfolio.

Cash & Other can include cash, other assets less liabilities, offsets to derivative positions, and short-term securities.

Percentages are based on net assets as of 5/31/14.

The portfolio is actively managed and current holdings may be different.

PORTFOLIO MANAGERS PROFILES

Portfolio Manager Michael Dawson	Primary Role Portfolio Manager	Since 2007	Title and Five Year History Investment Officer of MFS; employed in the investment management area of MFS since 1998.
Geoffrey Schechter	Portfolio Manager	2007	Investment Officer of MFS; employed in the investment management area of MFS since 1993.

OTHER NOTES

The fund s shares may trade at a discount or premium to net asset value. When fund shares trade at a premium, buyers pay more than the net asset value underlying fund shares, and shares purchased at a premium would receive less than the amount paid for them in the event of the fund s liquidation.

The fund s monthly distributions may include a return of capital to shareholders to the extent that distributions are in excess of the fund s net investment income and net capital gains, determined in accordance with federal income tax regulations. Distributions that are treated for federal income tax purposes as a return of capital will reduce each shareholder s basis in his or her shares and, to the extent the return of capital exceeds such basis, will be treated as gain to the shareholder from a sale of shares. Returns of shareholder capital have the effect of reducing the fund s assets and increasing the fund s expense ratio.

In accordance with Section 23(c) of the Investment Company Act of 1940, the fund hereby gives notice that it may from time to time repurchase common and/or preferred shares of the fund in the open market at the option of the Board of Trustees and on such terms as the Trustees shall determine.

PORTFOLIO OF INVESTMENTS

 certification of the achievability of those forward-looking statements. No assurance can be given that any of the assumptions relating to the forward-looking statements specified in the following information are accurate, and we assume no obligation to update any such forward-looking statements. Critical Accounting Policy and Estimates. Our Management's Discussion and Analysis of Financial Condition and Results of Operations section discusses our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements and the reported ansounts of assets and liabilities at the date of the financial statements and the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported expenses, financing operations, and contingencies and litigation. Management essentiates and judgments and contingencies and litigation. 	6	forward-looking statements specified in the following information represent estimates of future events and are subject to uncertainty as to possible changes in economic, legislative, industry, and other circumstances. As a result, the identification and interpretation of data and other information and their use in developing and selecting assumptions from and among reasonable alternatives require the exercise of judgment. To the extent that the assumed events do not occur, the outcome may vary substantially from anticipated or projected results, and, accordingly, no opinion is expressed on the achievability of those forward-looking statements. No assurance can be given that any of the assumptions relating to the forward-looking statements specified in the following information are accurate, and we assume no obligation to update any such forward-looking statements. Critical Accounting Policy and Estimates. Our Management's Discussion and Analysis of Financial Condition and Results of Operations section discusses our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. On an on-going basis, management evaluates its estimates and judgments, including those related to revenue recognition, accrued expenses, financing operations, and contingencies and litigation. Management bases its estimates and on various other

the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. The most significant accounting estimates inherent in the preparation of our financial statements include estimates as to the appropriate carrying value of certain assets and liabilities which are not readily apparent from other sources. These accounting policies are described at relevant sections in this discussion and analysis and in the notes to the financial statements included in our Quarterly Report on Form 10-Q for the period ended March 31, 2010.

For the three months ended March 31, 2010, as compared to the three months ended March 31, 2009.

Results of Operations.

Revenues. We generated revenues of \$10,176 for the three months ended March 31, 2010, as compared to \$16,882 for the three months ended March 31, 2009. The decrease in revenues from the three month period ended March 31, 2009 to the three month period ended March 31, 2010 was primarily due to the fact that we provide bulk edgarizing services to Research Data Group, Inc. ("RDG") which resulted in decreased revenues.

Operating Expenses. For the three months ended March 31, 2010, our total operating expenses were \$26,050, as compared to total operating expenses of \$36,314 for the three months ended March 31, 2009. The decrease in total operating expenses is due primarily to a decrease in wages and wage related expenses between the two periods. We had a decrease in wages and wage related expenses, which totaled \$7,500 for the three months ended March 31, 2010, as compared to \$15,127 for the three months ended March 31, 2009. Therefore, we had net loss of \$16.674 for the three months ended March 31, 2010, as compared to net loss of \$20,232 for the three months ended March 31, 2009.

Liquidity and Capital Resources. We had cash of \$55,489 as of March 31, 2010. Our accounts receivable were \$1,900 as of March 31, 2010. We also had \$1,200 represented by a security deposit and \$3,039 of prepaid expenses. Therefore, our total current assets as of March 31, 2010 were \$61,628. We also had \$4,523 represented by fixed assets, net of depreciation, as of March 31, 2010. Our total assets as of March 31, 2010, were \$66,151.

As of March 31, 2010, our current liabilities were \$250,383, of which \$61,084 was represented by accounts payable and accrued expenses, \$20,000 was accrued officer compensation, \$1,600 of income taxes payable and \$167,699 was represented by a related party advance. The related party advance is payable to Mr. Neely, our officer, principal shareholder and one of our directors. Mr. Neely had advanced those funds to us for working capital. We had no other long term liabilities, commitments or contingencies.

Other than the proposed increases in marketing expenses and the increases in legal and accounting costs we experienced due to the reporting requirements of being a reporting company, we are not aware of any other known trends, events or uncertainties, which may affect our future liquidity.

To effectuate our business plan during the next twelve months, we must continue to increase the number of clients we service and actively market and promote our services. We have been actively meeting with our referral sources, such as accountants and attorneys, to understand how we can better service their clients' needs and how we can obtain EDGARization work from clients of theirs that currently use another provider. We believe that referrals will continue to comprise a majority of our business, and we hope to nurture and care for the relationships we have so that we can attract more clients.

We had cash of \$55,489 of March 31, 2010, which we estimate will not be sufficient to fund our operations for the next twelve months. Our forecast for the period for which our financial resources will be adequate to support our operations involves risks and uncertainties and actual results could fail as a result of a number of factors. Ryan Neely, our president, secretary, chief financial officer and one of our directors, has made advances to us which are unsecured and due on demand. As of March 31, 2010, the total amount due was \$167,699. We expect that the increased legal and accounting costs due to the reporting requirements of being a reporting company will continue to impact our liquidity as we will need to obtain funds to pay those expenses. Other than proposed increases in marketing expenses and the anticipated increases in legal and accounting costs of being a public company, we are not aware of any other known trends,

events or uncertainties, which may affect our future liquidity.

In the event that we experience a shortfall in our capital, we intend to pursue capital through public or private financing as well as borrowings and other sources, such as our officer and directors. We cannot guaranty that additional funding will be available on favorable terms, if at all. If adequate funds are not available, then our ability to expand our operations may be significantly hindered. If adequate funds are not available, we believe that our officer and directors will contribute funds to pay for our expenses to achieve our objectives over the next twelve months.

We are not currently conducting any research and development activities. We do not anticipate conducting such activities in the near future. We do not anticipate that we will purchase or sell any significant equipment. In the event that we expand our customer base, then we may need to hire additional employees or independent contractors as well as purchase or lease additional equipment.

Off-Balance Sheet Arrangements. We have no off-balance sheet arrangements.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Not applicable.

Item 4. Controls and Procedures

Evaluation of disclosure controls and procedures. We maintain controls and procedures designed to ensure that information required to be disclosed in the reports that we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission. Based upon their evaluation of those controls and procedures performed as of March 31, 2010, the date of this report, our chief executive officer and the principal financial officer concluded that our disclosure controls and procedures were effective.

Item 4(T). Controls and Procedures.

Changes in internal controls. There were no changes in our internal control over financial reporting that occurred during the fiscal quarter covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings.
