The strong sales growth and profit improvement we experienced in each of the last two quarters points to the success of our growth initiatives, said Water Pik Technologies Chief Executive Officer Michael P. Hoopis. We continue our focus on leveraging our sales momentum into higher profitability. Last week we raised our 2004 sales and earnings growth targets. Today we are extending our outlook to include an operating margin of 8 percent for fiscal 2006 and compounded growth rates for sales of 9 percent and for operating income of 25 percent for the 2003 through 2006 period.

### Business Segment Performance

Operating loss as a percent of sales	(6.3)%	(13.8)%		

For three-months ended March 31, Pool Products and Heating Systems:

Sales increased 41.1 percent, due primarily to general increases across most product lines driven by the success of the Company's pool builder conversion program. Pool product sales increased 55.3 percent, due to increased sales of electronic controls, pool heaters and \$4.7 million in heat pump and chlorinator sales from recent acquisitions. Water-heating system sales increased 7.1 percent, due primarily to sales of commercial heating systems driven by the Laars® Rheos® and Pennant® boilers.

Gross profit increased \$1.8 million, due primarily to increased sales.

Operating loss improved \$1.3 million, due primarily to higher gross profit and lower research and development expenses offset by higher selling expenses.

#### Additional Financial Highlights

Capital expenditures from continuing operations for the three-months ended March 31, 2004 were \$0.8 million compared to \$0.9 million for the same period last year. Depreciation and amortization from continuing operations for the March 2004 quarter was \$2.5 million compared to \$2.4 million for the same period of 2003.

For three-months ended March 31, 2004 cash provided by operating activities of \$1.0 million and financing activities of \$10.0 million were used to fund acquisitions and capital expenditures totaling \$10.9 million.

**September 2004 Fiscal Year End**

The Company previously announced the new fiscal year will be the 52- or 53-week period ending on the Sunday nearest September 30, effective in 2004. In November 2004 a Form 10-K reporting financial results for the 9-month transition period ending in September 2004 will be filed with the Securities and Exchange Commission.

**Outlook**

The Company outlook for sales growth for the twelve-months ending September 2004 is in the range of 12 to 14 percent. Sales growth for the Personal Health Care segment is targeted in the range of 5 to 7 percent. Sales growth for the Pool Products and Heating Systems segment including the acquisitions of Air Energy Heat Pumps, Inc. and Huron Tech Systems is targeted in the range of 16 to 18 percent. Earnings per share for the twelve-months ending September 2004 are targeted in the range of \$1.00 to \$1.05 per diluted share.

Based on the Company's current business plan that includes recent acquisitions, its compounded growth rate targets for the period beginning with the twelve-months ended September 2003 through fiscal year September 2006 are: sales growth of 9 percent and operating income growth of 25 percent. The 2006 target for operating income as a percent of sales (operating margin) is 8 percent.

**Supplemental Information for Six-months Ended March 31**

The presentation of consolidated and segment results for the six-months ended March 31, 2004, which includes the previously announced December 2003 quarter and the comparable period from the prior years, is provided to assist the investment community in the understanding and analysis of the Company's outlook for the twelve-months ending September 2004.

### **Forward-looking Statements**

In this press release, the statements from Mr. Hoopis are forward-looking statements. Any other statements contained in this press release, which are not historical fact, may be considered forward-looking statements as that term is defined in the Private Securities Litigation Reform Act of 1995. Actual results could differ materially from these forward-looking statements as a result of the risk factors described in the Company's filings with the Securities and Exchange Commission, including, among others, its ability to develop new products and execute its growth strategy, the uncertainty of new product testing and regulatory approvals, the uncertainty that its marketing efforts will achieve the desired results with respect to existing or new products, its dependence on key customers, the seasonal nature of its businesses, the impact on consumer confidence and consumer spending, the effect of product liability claims, the impact of rising commodity costs such as steel, copper and oil, risks associated with using foreign suppliers including increased transportation costs, failure to protect its intellectual properties and its ability to integrate acquisitions and realize expected synergies. In light of these risks and uncertainties, there can be no assurance that the forward-looking information contained in this press release will in fact transpire. These forward-looking statements represent the Company's judgment only as of the date of this press release. As a result, the reader is cautioned not to rely on these forward-looking statements. The Company does not have any intention or obligation to update these forward-looking statements.

**Reconciliation of Non-GAAP Financial Measures and Regulation G Disclosure**

In accordance with the requirements of Regulation G issued by the Securities and Exchange Commission, the following schedules reconcile EBITDA (earnings before interest, taxes, depreciation and amortization) to income from continuing operations before taxes, the most directly comparable financial measure calculated and presented in accordance with U.S. generally accepted accounting principles (GAAP), for the periods presented.

In order to fully assess our financial results, we believe that EBITDA is an appropriate measure for evaluating our operating performance. We are providing this information because it is a key metric to the investment community and assists in their understanding and analysis of our operating performance. Accordingly, EBITDA should be considered in addition to, and not as a substitute for, or superior to, any measures of financial performance prepared in compliance with GAAP.

The following tables represent consolidated statements of operations, consolidated and segment reconciliation of EBITDA to income (loss) from continuing operations before income taxes, condensed consolidated balance sheets and consolidated statements of cash flows.
