REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Administrative Benefits Committee

of Dominion Resources, Inc. and the Participants

of the Dominion Energy New England Union Savings Plan

Richmond, Virginia

We have audited the accompanying statements of net assets available for benefits of Dominion Energy New England Union Savings Plan (the Plan) as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2014 and 2013, and the changes in net assets available for benefits for the year ended December 31, 2014 in conformity with accounting principles generally accepted in the United States of America.

The supplemental schedule listed in the Table of Contents has been subjected to audit procedures performed in conjunction with the audit of the Plan s financial statements. The supplemental schedules are the responsibility of the Plan s management. Our audit procedures included determining whether the supplemental schedules reconcile to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental schedules. In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in compliance with the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, such schedules are fairly stated, in all material respects, in relation to the financial statements as a whole.

DOMINION ENERGY NEW ENGLAND UNION SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2014 AND 2013, AND FOR THE YEAR ENDED DECEMBER 31, 2014

1. DESCRIPTION OF PLAN

The following description of the Dominion Energy New England Union Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

- a. **General** The Plan is a defined contribution plan covering union-eligible employees of Dominion Energy New England (the Employer) represented by either the International Brotherhood of Electrical Workers, Local Unions Nos. 326 and 486; or The Utility Workers Union of America, Local Union Nos. 464 and 310. Dominion Resources, Inc. (Dominion or the Company) is the designated Plan sponsor. The Plan administrator is Dominion Resources Services, Inc., a subsidiary of Dominion. Effective January 1, 2013, The Northern Trust Company (Northern Trust) succeeded The Bank of New York Mellon (BNY Mellon) as the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).
- b. **Contributions** Participants may contribute not less than 1% and not more than 20% of their eligible earnings, all of which may be on a tax-deferred or after-tax basis. Employee contributions are subject to certain Internal Revenue Code (IRC) limitations. The Employer contributes a matching contribution on a per-pay period basis equal to 100% of pre-tax contributions or after-tax contributions up to 5% of eligible pay, to the eligible participants who have at least one year of service. In addition, the Employer contributes a basic contribution equal to 5.33% of eligible earnings on a per-pay period basis.
- c. **Participant Accounts** Individual accounts are maintained for each Plan participant. Each participant's account includes the effect of the participant's contributions and withdrawals, as applicable, and allocations of the Employer's matching and basic contributions, Plan earnings or losses, and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the vested portion of the participant's account. Individual participant accounts invested in the Dominion Stock Fund, the Common Collective Trust Funds and the separately managed accounts are maintained on a unit value basis. Participants do not have beneficial ownership in specific underlying securities or other assets in the various funds, but have an interest therein represented by units valued as of the last business day of the period. The various funds earn dividends and interest, which are automatically reinvested within the funds except for the Dominion Stock Fund. See Note 1.i. *Flexible Dividend Options* for more information about dividends on the Dominion Stock Fund. Generally, contributions to and withdrawal payments from each fund are converted to units by dividing the amounts of such transactions by the unit values as last determined,

and the participants' accounts are charged or credited with the number of units properly attributable to each participant.

- d. **Participants** Each employee is eligible to participate in the Plan and make employee contributions on an entirely voluntary basis. Participation by an employee becomes effective immediately upon enrollment in the Plan.

- e. **Vesting** Participants become immediately vested in their own contributions and the Employer's matching and basic contributions, and the earnings on those amounts.

Table of Contentsf. *Investment Options*

Participant Contributions Upon enrollment in the Plan, a participant may direct his or her contributions in any option in 1% increments totaling to 100%. Changes in investment options may be made at any time and participant investment election changes become effective with the subsequent pay period. However, if the participant has not made investment directions at the time the contribution is made, the participant contributions will be automatically invested in the Target Date Retirement Trust corresponding with the participant's age (assuming retirement at age 65). The Plan provides for employee contributions to be invested in the following:

- Dominion Stock Fund⁽¹⁾
- Interest in Master Trust⁽²⁾:

Stable Value Fund

Large Cap Value Fund

Large Cap Growth Fund

Russell 2000 Value Index Fund⁽³⁾

Russell 2000 Growth Index Fund⁽³⁾

Real Estate Fund

Intermediate Bond Fund⁽³⁾

S&P 500 Index Fund⁽³⁾

Extended Equity Market Index Fund⁽³⁾

- Common Collective Trusts⁽³⁾:

Target Retirement Income Trust I⁽⁴⁾

Target Retirement 2015 Trust I⁽⁵⁾

Target Retirement 2020 Trust I⁽⁵⁾

Target Retirement 2025 Trust I⁽⁵⁾

Target Retirement 2030 Trust I⁽⁵⁾

Target Retirement 2035 Trust I⁽⁶⁾

Target Retirement 2040 Trust I⁽⁶⁾

Target Retirement 2045 Trust I⁽⁶⁾

Target Retirement 2050 Trust I⁽⁶⁾

Target Retirement 2055 Trust I⁽⁶⁾

◦ Mutual Fund:
International Equity Fund⁽⁷⁾

- (1) The Fund invests primarily in Dominion common stock.
- (2) See *Plan Interest in Master Trust* in Note 4 for details about the related investment strategies.
- (3) These Funds do not have any unfunded commitments, and do not have any applicable liquidation periods or defined terms/periods to be held. The Plan may generally sell assets from the Trusts to satisfy participant payment obligations (assets are redeemable daily) and may transfer assets from the Trusts to other investment options based on participant elections (overnight liquidity is generally available).
- (4) The Target Retirement Income Trust is designed for investors with an intermediate-term investment horizon (at least three to five years) who are seeking a high level of current income. Normal investment mix includes 70% bonds and 30% stocks.
- (5) These Target Date Retirement Trusts are designed for investors seeking to retire between 2013 and 2032 and to provide for a reasonable level of income and long-term growth of capital and income. Normal investment mix: 2015 Trust I 47% bonds and 53% stocks; 2020 Trust I 38% bonds and 62% stocks; 2025 Trust I 31% bonds and 69% stocks; and 2030 Trust I 23% bonds and 77% stocks.
- (6) These Target Date Retirement Trusts are designed for investors seeking to retire between 2033 and 2057, and who seek long-term growth of capital and income. Normal investment mix: 2035 Trust I 16% bonds and 84% stocks; and 2040 Trust I, 2045 Trust I, 2050 Trust I and 2055 Trust I 10% bonds and 90% stocks.
- (7) The International Equity Fund invests in a diverse group of strong, undervalued companies which the investment manager believes exhibit growing earnings based primarily in Europe and the Pacific Basin, ranging from small firms to large corporations.

Employer Contributions Employer's matching and basic contributions are deposited in participants' accounts according to the participants' investment elections, or the Target Date Retirement Trust corresponding with the participant's age (assuming retirement at age 65) if the participant has not made investment elections at the time the contribution is made.

Table of Contents

- g. ***Participant Loans*** Participants are eligible to secure loans against their plan account. Participants are limited to one outstanding primary residence loan and one outstanding general purpose loan with maximum repayment periods of 10 years and 5 years, respectively. The minimum loan amount is \$1,000 and the maximum loan amount is the lesser of:

50% of the vested account balance, or

\$50,000 (reduced by the maximum outstanding loan balance during the prior 12 months)

The loans are interest-bearing at the prime rate of interest plus 1%. The rate is determined at the beginning of each month if a change has occurred in the prime rate. However, the rate is fixed at the inception of the loan for the life of the loan.

Participants make principal and interest payments to the Plan through payroll deductions. Any defaults in loans result in a reclassification of the remaining loan balances as taxable distributions to the participants.

- h. ***Payment of Benefits*** On termination of service, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or defer the payment to a future time no later than the year in which the participant attains age 70 1/2. There were no amounts payable to participants at December 31, 2014 or 2013.
- i. ***Flexible Dividend Options*** Participants are given the choice of (1) receiving cash dividends paid on vested shares held in their Dominion Stock Fund or (2) reinvesting the dividends in the Dominion Stock Fund.
- j. ***Plan Changes*** In April 2014, the Small Cap Value Fund's underlying assets were sold and the units of the Russell 2000 Value Index Fund were purchased within the Master Trust. Northern Trust replaced Lee Munder Capital Group as the fund's investment manager. The passively managed approach for the Russell 2000 Value Index Fund resulted in lower annual management fees.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- a. ***Basis of Accounting*** The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).
- b. ***Use of Estimates*** The preparation of financial statements in conformity with GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits, and changes therein. Actual results could differ from those estimates.
- c. ***Risks and Uncertainties*** The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of

investment securities will occur in the near term and that such change could materially affect the value of the participants' account balances and the amounts reported in the financial statements.

- d. ***Valuation of Investments*** The Plan's investments are stated at fair value. See Note 5 for further information on fair value measurements. Investment contracts held by a defined contribution plan are required to be reported at fair value; however, contract value is the relevant measurement attribute for that portion of the net assets available for benefits that is attributable to fully benefit-responsive investment contracts. Contract value is the amount Plan participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan's interest in the Master Trust includes a separately managed Stable Value Fund that is considered to be fully benefit-responsive. The Plan interest in the Master Trust is included at fair value in participant-directed investments in the statements of net assets available for benefits and an additional line item is presented representing the adjustment from fair value to contract value. The statement of changes in net assets available for benefits is prepared using the contract value basis. See Note 4 for further information.

Table of Contents

e. **Notes Receivable from Participants** Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based on the terms of the Plan document.

f. **Investment Income** Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recognized on the ex-dividend date.

Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Net investment income from Common Collective trust fund and mutual fund holdings includes dividend income and realized and unrealized appreciation (depreciation).

Management fees and operating expenses charged to the Plan for investments in Common Collective trust funds and mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

g. **Administrative Expenses** As permitted by law, the reasonable administrative costs of the Plan are paid from the Plan's Trust. Dominion pays any administrative costs that are not charged to the Plan. In addition, participants who elect to participate in a financial advisory program offered by the Plan will have administrative fees deducted from their account.

h. **Payment of Benefits** Distributions from the Plan are recorded when a participant's valid withdrawal request is distributed by the recordkeeper.

i. **Transfers** In addition to the Plan, Dominion also sponsors several other savings plans for employees of Dominion and certain of its subsidiaries which do not participate in this Plan. If participants change employment among Dominion and its covered subsidiaries during the year, their account balances are transferred into the corresponding plan. For the year ended December 31, 2014, there were no transfers of participants' assets to and from other plans.

j. **Excess Contributions Payable** The Plan is required to return to Plan participants any contributions received during the Plan year in excess of the IRC limits. There were no excess contributions payable at December 31, 2014 and 2013.

3. INVESTMENTS

The Plan's investments that represented 5% or more of the Plan's net assets available for benefits as of December 31, 2014 and 2013 are as follows:

	December 31, 2014	December 31, 2013
Dominion Stock Fund, 114,703 and 129,127 units, respectively	\$ 8,820,661	\$ 8,353,226
Interest in Stable Value Fund, 116,654 and 117,765 units, respectively	2,750,876	2,739,637
Interest in S&P 500 Index Fund, 97,239 and 128,668 units, respectively	1,977,900	2,302,801
International Equity Fund, 31,428 units in 2013, did not represent 5% or more of the Plan's net assets in 2014		1,540,931
Target Retirement 2025 Trust I, 30,268 and 33,424 units, respectively	1,303,635	1,342,308

Table of Contents

During the year ended December 31, 2014, the Plan's investments, excluding those held in the Master Trust, including gains and losses on investments bought and sold, as well as held during the year, appreciated (depreciated) in value as follows:

	Year Ended December 31, 2014
Investments at Fair Value:	
Dominion Stock Fund	\$ 1,495,374
Common Collective Trust Funds:	
Target Retirement Income Trust I	26,671
Target Retirement 2015 Trust I	49,766
Target Retirement 2020 Trust I	54,654
Target Retirement 2025 Trust I	90,679
Target Retirement 2030 Trust I	54,453
Target Retirement 2035 Trust I	14,187
Target Retirement 2040 Trust I	32,813
Target Retirement 2045 Trust I	26,883
Target Retirement 2050 Trust I	18,912
Target Retirement 2055 Trust I	2,558
	371,576
Mutual Fund:	
International Equity Fund	(46,180)
Net appreciation in fair value of investments	\$ 1,820,770

4. PLAN INTEREST IN MASTER TRUST

The Plan's investments in the Stable Value Fund, the Large Cap Value Fund, the Large Cap Growth Fund, the Russell 2000 Value Index Fund, the Russell 2000 Growth Index Fund, the Real Estate Fund, the Intermediate Bond Fund, the S&P 500 Index Fund and the Extended Equity Market Index Fund are held in a Master Trust that was established for the investment of assets for the Plan and other employee benefit plans of Dominion and its subsidiaries. In April 2014, the Small Cap Value Fund's underlying assets were sold and the units of the Russell 2000 Value Index Fund were purchased within the Master Trust. Northern Trust held the assets of the Master Trust as of December 31, 2014.

Stable Value Fund As of December 31, 2014 and 2013, the Plan's interest in the net assets of the Fund was approximately 1%. Investment income and administrative expenses relating to the Fund are allocated to the individual plans based upon average monthly balances invested by each plan. The Fund invests primarily in cash equivalents and two types of synthetic guaranteed investment contracts (GICs) described below, which are stated at fair value and then

adjusted to contract value. The fair value of synthetic GICs is based on quoted market prices and a fair value estimate of the wrapper contract. Fair market value of the wrapper is estimated by Standish Mellon, the Fund's investment manager, using an internal model. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals and administrative expenses.

- (1) *Fixed Maturity Synthetic Guaranteed Investment Contracts* General fixed maturity synthetic GICs consist of an asset or collection of assets that are owned by the Master Trust and a benefit-responsive, book value wrap contract purchased for its portfolio. The wrap contract provides book value accounting for the asset, so that book value, benefit-responsive payments would be made for participant directed withdrawals. The crediting rate of the contract is set at the start of the contract and typically resets every quarter. Generally, fixed maturity

Table of Contents

synthetic GICs are held to maturity. The crediting rate aims at converging the book value of the contract and the market value of the underlying portfolio over the duration of the contract and therefore will be affected by movements in interest rates and/or changes in the market value of the underlying portfolio. The initial crediting rate is established based on the market interest rates at the time the initial asset is purchased and the contract will have an interest crediting rate not less than 0%. The remaining fixed maturity synthetic GICs matured in 2014.

Variable synthetic GICs consist of an asset or collection of assets that are managed by the bank or insurance company and are held in a bankruptcy remote vehicle for the benefit of the Fund. The contract is benefit-responsive and provides next day liquidity at book value. The crediting rate on this product resets every quarter based on the then current market index rates and an investment spread. The investment spread is established at time of issuance and is guaranteed by the issuer for the life of the investment.

- (2) *Constant Duration Synthetic Guaranteed Investment Contracts* Constant duration synthetic GICs consist of a portfolio of securities owned by the Master Trust and a benefit-responsive, book value wrap contract purchased for its portfolio. As of December 31, 2014 and 2013, the portfolio of securities includes 1-3 Year Credit Bond Index Fund, 1-3 Year Government Bond Index Fund, Asset-Backed Securities Index Fund, Commercial Mortgage-Backed Securities Index Fund, Government Bond Index Fund, Credit Bond Index Fund and Mortgage-Backed Securities Index Fund. The redemption frequency of the Funds is daily liquidity. The wrap contract amortizes gains and losses of the underlying securities over the portfolio duration, so that book value, benefit-responsive payments will be made for participant directed withdrawals. The crediting rate on a constant duration synthetic GIC resets every quarter based on the book value of the contract, the market yield of the underlying assets, the market value of the underlying assets and the average duration of the underlying assets. The crediting rate aims at converging the book value of the contract and the market value of the underlying portfolio over the duration of the contract and therefore will be affected by movements in interest rates and/or changes in the market value of the underlying portfolio. The initial crediting rate is established based on the market interest rates at the time the underlying portfolio is first put together and the contract will have an interest crediting rate of not less than 0%.

The following are the investment strategies for each portfolio of securities:

1-3 Year Credit Bond Index Fund Each 1-3 Year Credit Bond Index Fund shall be invested and reinvested primarily in a portfolio of debt securities with the objective of approximating as closely as practicable the returns of the short-term sector of the United States fixed income market as defined by the Barclays U.S. 1-3 Year Credit Index.

1-3 Year Government Bond Index Fund Each 1-3 Year Government Bond Index Fund shall be invested and reinvested primarily in a portfolio of debt securities with the objective of approximating as closely as practicable the returns of the short-term sector of the United States fixed income market as defined by the Barclays 1-3 Year Government Bond Index.

Asset-Backed Securities Index Fund Each Asset-Backed Securities Index Fund shall be invested and reinvested primarily in a portfolio of debt securities with the objective of approximating as closely as

practicable the total rate of return of the Barclays Aggregate Asset-Backed Securities Index.

Commercial Mortgage-Backed Securities Index Fund Each Commercial Mortgage-Backed Securities Index Fund shall be invested and reinvested primarily in mortgage-backed securities collateralized by loans which are secured by income-producing commercial real estate with the objective of approximating as closely as practicable the total rate of return of that portion of the Barclays Commercial Mortgage-Backed Securities Index which is included in the Barclays Aggregate Bond Index.

Government Bond Index Fund Each Government Bond Index Fund shall be invested and reinvested primarily in a portfolio of debt securities with the objective of approximating as closely as practicable the total rate of return for all outstanding United States Treasury government bonds as defined by the Barclays

Table of Contents

Government Bond Index. The investment manager, in its discretion, may divide such a Collective Fund into an intermediate-term division consisting of United States government bonds with maturities between one and ten years and a long-term division consisting of United States government bonds with maturities greater than ten years. Each of these divisions shall be accounted for as separate Collective Funds.

Credit Bond Index Fund Each Credit Bond Index Fund shall be invested and reinvested primarily in debt securities with the objective of approximating as closely as practicable the total rate of return of the United States market for all outstanding investment grade corporate bonds as defined by the Barclays Credit Bond Index. The investment manager, in its discretion, may divide such a Collective Fund into an intermediate-term division consisting of corporate bonds with maturities between one and ten years and a long-term division consisting of corporate bonds with maturities greater than ten years. Each of these divisions shall be accounted for as separate Collective Funds.

Mortgage-Backed Securities Index Fund Each Mortgage-Backed Securities Index Fund shall be invested and reinvested primarily in mortgage-backed securities with the objective of approximating as closely as practicable the total rate of return of the Barclays Mortgage-Backed Securities Index.

Certain Plan-initiated events, such as plan termination, bankruptcy and mergers, may limit the ability of the Plan to transact at contract value. In general, issuers may terminate the contracts and settle at other than contract value if the qualification status of the Plan changes, there is a breach of material obligations under the contract and misrepresentation by the contract holder, or the underlying portfolio fails to conform to the pre-established investment guidelines. The Plan Sponsor does not believe that any events that may limit the ability of the Plan to transact at contract value are probable.

Average yields:	2014	2013
Based on annualized earnings*	1.04%	0.97%
Based on interest rate credited to participants**	0.45%	0.43%

* Computed by dividing the annualized one-day actual earnings of the contract on the last day of the Plan year by the fair value of the investments on the same date.

** Computed by dividing the annualized one-day earnings credited to participants on the last day of the Plan year by the fair value of the investments on the same date.

The following tables present the value of the undivided investments and related investment income in the Stable Value Fund:

	December 31, 2014	December 31, 2013
GICs and Wrapper Contracts	\$ 238,856,879	\$ 232,668,837
Cash equivalents	359,388,357	391,071,046
Receivables	13,604	
Payables	(86,281)	(97,104)
Total at fair value	598,172,559	623,642,779
Adjustments from fair value to contract value for fully benefit-responsive investment contracts	(5,182,973)	(2,816,999)
Total at contract value	\$ 592,989,586	\$ 620,825,780

At December 31, 2014 and 2013, the Plan's interest in the net assets at fair value of the Fund was \$2,750,876 and \$2,739,637, respectively.

Table of Contents

Investment income for the Stable Value Fund was as follows:

	Year Ended December 31, 2014
Interest	\$ 5,406,544

The Plan's interest in the investment income of the Fund was \$25,419.

Large Cap Value Fund As of December 31, 2014 and 2013, the Plan's interest in the net assets of the Fund was approximately 1%. The Fund invests primarily in corporate stocks, which are stated at fair value based on the closing sales price reported on the New York Stock Exchange (NYSE) on the last business day of the Plan year. The Fund invests in large-cap companies, defined by inclusion in the broader Russell 1000 Index, which the Fund manager believes are undervalued relative to other companies in the index. Investment income and expenses relating to the Fund are allocated to the individual plans based upon average monthly balances invested by each participant.

The following tables present the value of the undivided investments and related investment income in the Large Cap Value Fund:

	December 31, 2014	December 31, 2013
Corporate stocks	\$ 58,605,479	\$ 60,700,060
Cash equivalents	2,713,498	1,232,571
Receivables	404,895	100,713
Payables	(69,794)	(68,342)
Total	\$ 61,654,078	\$ 61,965,002

At December 31, 2014 and 2013, the Plan's interest in the net assets of the Fund was \$487,492 and \$517,846, respectively.

Investment income for the Large Cap Value Fund was as follows:

**Year Ended
December 31,
2014**

Interest	\$ 2,838
Dividends	1,299,599
Net investment appreciation	304,825
Total	\$ 1,607,262

The Plan's interest in the investment income of the Fund was \$11,560.

Large Cap Growth Fund As of December 31, 2014 and 2013, the Plan's interest in the net assets of the Fund was approximately 1%. The Fund invests primarily in corporate stocks, which are stated at fair value based on the closing sales price reported on the NYSE on the last business day of the Plan year. The Fund invests in high-quality large-cap companies with proprietary products or services, productive research and development, and/or barriers to entry, and above-market earnings potential. Investment income and expenses relating to the Fund are allocated to the individual plans based upon average monthly and quarterly balances, respectively, invested by each participant.

Table of Contents

The following tables present the value of the undivided investments and related investment income in the Large Cap Growth Fund:

	December 31, 2014	December 31, 2013
Corporate stocks	\$ 101,974,730	\$ 95,030,128
Cash equivalents	3,455,073	1,689,816
Receivables	21,922	41,002
Payables	(135,218)	(120,874)
Total	\$ 105,316,507	\$ 96,640,072

At December 31, 2014 and 2013, the Plan's interest in the net assets of the Fund was \$656,376 and \$635,839, respectively.

Investment income for the Large Cap Growth Fund was as follows:

	Year Ended December 31, 2014
Interest	\$ 3,437
Dividends	701,349
Net investment appreciation	10,160,973
Total	\$ 10,865,759

The Plan's interest in the investment income of the Fund was \$68,766.

Small Cap Value Fund In April 2014, the Small Cap Value Fund's underlying assets were sold and the units of the Russell 2000 Value Index Fund were purchased within the Master Trust. As of December 31, 2013, the Plan's interest in the net assets of the Fund was approximately 1%. The Fund attempted to replicate the Russell 2000 Value Index by investing in the stocks that make up the Russell 2000 Value Index, holding each stock in approximately the same proportion as its weighting held within the Russell 2000 Value Index. The corporate stocks held within the Fund were stated at fair value based on the closing sales price reported on the NYSE on the last business day of the Plan year. Investment income and expenses relating to the Fund were allocated to the individual plans based upon average monthly and quarterly balances, respectively, invested by each participant.

The following tables present the value of the undivided investments and related investment income in the Small Cap Value Fund:

	December 31, 2014	December 31, 2013
Corporate stocks	\$	\$ 87,443,125
Cash equivalents		1,581,156
Payables		(63,531)
Total	\$	\$ 88,960,750

At December 31, 2013, the Plan's interest in the net assets of the Fund was \$511,697.

Table of Contents

Investment loss for the Small Cap Value Fund was as follows:

	Year Ended December 31, 2014
Interest	\$ 1,303
Dividends	488,244
Net investment depreciation	(1,861,755)
Total	\$ (1,372,208)

The Plan's interest in the investment loss of the Fund was \$(7,704).

Russell 2000 Value Index Fund In April 2014, the Small Cap Value Fund's underlying assets were sold and the units of the Russell 2000 Value Index Fund were purchased within the Master Trust. As of December 31, 2014, the Plan's interest in the net assets of the Fund was less than 1%. The Fund attempts to replicate the Russell 2000 Value Index by investing in the stocks that make up the Russell 2000 Value Index, holding each stock in approximately the same proportion as its weighting within the Russell 2000 Value Index. The Fund also holds Common Collective Trusts that are stated at fair value based on the closing sales price reported on the pertinent exchange on the last business day of the Plan year. Investment income and expenses relating to the Fund are allocated to the individual plans based upon average monthly and quarterly balances, respectively, invested by each participant.

The following tables present the value of the undivided investments and related investment income in the Russell 2000 Value Index Fund:

	December 31, 2014
Common Collective Trust	\$ 85,433,997

At December 31, 2014, the Plan's interest in the net assets of the Fund was \$448,942.

Investment income for the Russell 2000 Value Index Fund was as follows:

**Year Ended
December 31,
2014**

Interest	\$	3
Net investment appreciation		4,656,848
Total	\$	4,656,851

The Plan's interest in the investment income of the Fund was \$24,744.

Russell 2000 Growth Index Fund As of December 31, 2014 and 2013, the Plan's interest in the net assets of the Fund was approximately 1%. The Fund attempts to replicate the Russell 2000 Growth Index by investing in the stocks that make up the Russell 2000 Growth Index, holding each stock in approximately the same proportion as its weighting within the Russell 2000 Growth Index. The Fund also holds Common Collective Trusts that are stated at fair value based on the closing sales price reported on the pertinent exchange on the last business day of the Plan year. Investment income and expenses relating to the Fund are allocated to the individual plans based upon average monthly and quarterly balances, respectively, invested by each participant.

Table of Contents

The following tables present the value of the undivided investments and related investment income in the Russell 2000 Growth Index Fund:

	December 31, 2014	December 31, 2013
Common Collective Trust	\$ 99,299,440	\$ 101,886,939

At December 31, 2014 and 2013, the Plan's interest in the net assets of the Fund was \$643,461 and \$723,312, respectively.

Investment income for the Russell 2000 Growth Index Fund was as follows:

	Year Ended December 31, 2014
Net investment appreciation	\$ 5,006,005

The Plan's interest in the investment income of the Fund was \$29,608.

Real Estate Fund As of December 31, 2014 and 2013, the Plan's interest in the net assets of the Fund was approximately 1%. The Fund invests primarily in equity securities of real estate business companies, which are stated at fair value based on the closing sales price reported on the NYSE on the last business day of the Plan year. The Fund employs a value-driven approach to invest in equity securities of companies that are in the U.S. real estate business. The focus is on real estate investment trusts (REITs), as well as real estate operating companies. The Fund is diversified among property types and geographic regions primarily within the U.S. Investment income and expenses relating to the Fund are allocated to the individual plans based upon average monthly balances invested by each participant.

The following tables present the value of the undivided investments and related investment income in the Real Estate Fund:

December 31, 2014	December 31, 2013
----------------------	----------------------

Corporate stocks	\$	84,964,562	\$	59,237,166
Cash equivalents		449,497		1,263,608
Receivables		2,313,525		274,428
Payables		(1,808,809)		(81,522)
Total	\$	85,918,775	\$	60,693,680

At December 31, 2014 and 2013, the Plan's interest in the net assets of the Fund was \$791,214 and \$878,790, respectively.

Investment income for the Real Estate Fund was as follows:

		Year Ended December 31, 2014
Interest	\$	1,701
Dividends		2,537,393
Net investment appreciation		17,510,740
Total	\$	20,049,834

The Plan's interest in the investment income of the Fund was \$211,292.

Table of Contents

Intermediate Bond Fund As of December 31, 2014 and 2013, the Plan's interest in the net assets of the Fund was approximately 1%. The Fund invests in fixed income mutual funds that invest in U.S. government securities, corporate debt instruments, other debt instruments and money market investments which are stated at fair value based on the closing sales price reported on the pertinent exchanges on the last business day of the Plan year. The weighted average maturity of the portfolio is benchmarked to the Barclays U.S. Aggregate Bond Index, a proxy for the bond market. Investment income and expenses relating to the Fund are allocated to the individual plans based upon average monthly balances invested by each participant.

The Intermediate Bond Fund consists of the following mutual funds owned by the Master Trust, the strategies of which are stated below:

PIMCO Mortgage Portfolio The Portfolio seeks maximum total return, consistent with prudent investment management, by investing under normal circumstances at least 80% of its assets in a diversified portfolio of mortgage-related securities of varying maturities, which may be represented by options, futures contracts, swap agreements, or asset-backed securities (ABS).

PIMCO U.S. Government Sector Portfolio The Portfolio seeks maximum total return, consistent with prudent investment management, by investing under normal circumstances at least 80% of its assets in a portfolio of U.S. government securities of varying maturities, or in securities that provide exposure to the U.S. government securities sector, such as options, futures contracts, swap agreements, or mortgage-backed securities (MBS).

PIMCO Investment Grade Corporate Portfolio The Portfolio seeks maximum total return, consistent with prudent investment management, by investing under normal circumstances at least 80% of its assets in a portfolio of investment grade corporate fixed income investments of varying maturities, which may be represented by options, futures contracts, and/or swap agreements.

PIMCO Real Return Portfolio The Portfolio seeks maximum total return, consistent with prudent investment management, by investing under normal circumstances at least 80% of its net assets in inflation-indexed bonds of varying maturities issued by the U.S. and non-U.S. governments, their agencies or instrumentalities, and corporations, which may be represented by options, futures contracts, or swap agreements.

PIMCO Short-Term Floating NAV Portfolio II The Portfolio seeks maximum current income, consistent with preservation of capital and daily liquidity, by investing under normal circumstances at least 65% of its total assets in a diversified portfolio of fixed income instruments of varying maturities, which may be represented by forwards. Bonds, debt securities and other similar instruments issued by various U.S. and non-U.S. public- or private sector entities make up the fixed income instruments (Fixed Income Instruments).

PIMCO International Portfolio The Portfolio seeks maximum total return, consistent with prudent investment management, by investing under normal circumstances at least 80% of its net assets in a portfolio of Fixed Income Instruments of non-U.S. issuers, representing at least three non-U.S. countries or currencies, which may be represented by options, futures contracts, swap agreements, MBS, or ABS.

PIMCO Emerging Markets Portfolio The Portfolio seeks maximum total return, consistent with investing under normal circumstances at least 80% of its assets in a portfolio of Fixed Income Instruments that economically are tied to emerging market countries, which may be represented by options, futures contracts, swap agreements, MBS, or ABS.

PIMCO Asset-Backed Securities Portfolio The Portfolio seeks maximum total return, consistent with prudent investment management, by investing under normal circumstances at least 80% of its assets in a portfolio of ABS of varying maturities, which may be represented by options, futures contracts, or swap agreements. Assets not invested in ABS may be invested in other types of Fixed Income Instruments.

Table of Contents

PIMCO Short-Term Portfolio The Portfolio seeks maximum total return, consistent with preservation of capital and liquidity, by investing under normal circumstances at least 65% of its total assets in a diversified portfolio of Fixed Income Instruments of varying maturities, which may be represented by forwards or derivatives such as options, futures contracts, or swap agreements.

PIMCO High Yield Portfolio The Portfolio seeks maximum total return, consistent with prudent investment management, by investing under normal circumstances at least 80% of its assets in a diversified portfolio of high yield securities (junk bonds), which may be represented by forwards or derivatives such as options, futures contracts, or swap agreements, rated below investment grade by Moody's Investors Service, Inc. (Moody's), or equivalently rated by Standard & Poor's Rating Services (S&P) or Fitch, Inc. (Fitch), or, if unrated, determined by PIMCO to be of comparable quality.

PIMCO Municipal Sector Portfolio The Portfolio seeks maximum total return, consistent with prudent investment management, by investing under normal circumstances at least 80% of its assets in a portfolio of fixed income securities of varying maturities issued by or on behalf of states and local governments and their agencies, authorities and other instrumentalities (Municipal Securities), or in instruments that provide exposure to the Municipal Securities sector, such as options, futures contracts, or swap agreements.

The following tables present the value of the undivided investments and related investment income in the Intermediate Bond Fund:

	December 31, 2014	December 31, 2013
PIMCO Mortgage Portfolio	\$ 36,197,261	\$ 28,787,813
PIMCO U.S. Government Sector Portfolio	22,721,713	16,306,350
PIMCO Investment Grade Corporate Portfolio	21,143,790	15,823,674
PIMCO Real Return Portfolio	18,156,098	13,660,758
PIMCO Short-Term Floating NAV Portfolio II	19,634,260	10,914,559
PIMCO International Portfolio	12,089,827	8,690,002
PIMCO Emerging Markets Portfolio	4,351,061	3,296,656
PIMCO Asset-Backed Securities Portfolio	3,401,775	2,516,225
PIMCO Short-Term Portfolio	2,962,996	2,249,245
PIMCO High Yield Portfolio	2,951,228	2,189,254
PIMCO Municipal Sector Portfolio	1,572,455	1,081,813
Cash	499,768	212,222
Receivables	6,279	2,358
Payables	(119,679)	(83,818)
Total	\$ 145,568,832	\$ 105,647,111

At December 31, 2014 and 2013, the Plan's interest in the net assets of the Fund was \$971,294 and \$863,841, respectively.

Investment income for the Intermediate Bond Fund was as follows:

	Year Ended December 31, 2014
Interest	\$ 4,015,286
Net investment appreciation	2,241,860
Total	\$ 6,257,146

The Plan's interest in the investment income of the Fund was \$49,162.

Table of Contents

S&P 500 Index Fund As of December 31, 2014 and 2013, the Plan's interest in the net assets of the Fund was approximately 1%. The Fund attempts to replicate the S&P 500 Index by investing in the stocks that make up the S&P 500 Index, holding each stock in approximately the same proportion as its weighting within the Index. The Fund holds Common Collective Trusts that are stated at fair value based on the closing sales price reported on the pertinent exchange on the last business day of the Plan year. Investment income and expenses relating to the Fund are allocated to the individual plans based upon average monthly and quarterly balances, respectively, invested by each participant.

The following tables present the value of the undivided investments and related investment income in the S&P 500 Index Fund:

	December 31, 2014	December 31, 2013
Common Collective Trust	\$ 315,821,305	\$ 295,531,145

At December 31, 2014 and 2013, the Plan's interest in the net assets of the Fund was \$1,977,900 and \$2,302,801, respectively.

Investment income for the S&P 500 Index Fund was as follows:

	Year Ended December 31, 2014
Net investment appreciation	\$ 38,823,063

The Plan's interest in the investment income of the Fund was \$274,798.

Extended Equity Market Index Fund As of December 31, 2014 and 2013, the Plan's interest in the net assets of the Fund was approximately 1%. The Fund seeks to approximate the risk/return objectives of the Dow Jones U.S. Completion Total Stock Market Index, an Index designed to represent all U.S. Equity issues with readily available prices, excluding the components of the S&P 500 Index. The Fund holds Common Collective Trusts that are stated at fair value based on the closing sales price reported on the pertinent exchange on the last business day of the Plan year. Investment income and expenses relating to the Fund are allocated to the individual plans based upon average monthly and quarterly balances, respectively, invested by each participant.

The following tables present the value of the undivided investments and related investment income in the Extended Equity Market Index Fund:

	December 31, 2014	December 31, 2013
Common Collective Trust	\$ 127,277,427	\$ 131,959,439

At December 31, 2014 and 2013, the Plan's interest in the net assets of the Fund was \$955,943 and \$1,153,452 respectively.

Investment income for the Extended Equity Market Index Fund was as follows:

	Year Ended December 31, 2014
Net investment appreciation	\$ 9,140,010

The Plan's interest in the investment income of the Fund was \$67,627.

Table of Contents**5. FAIR VALUE MEASUREMENTS**

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (exit price) in an orderly transaction between market participants at the measurement date. Fair values are based on assumptions that market participants would use when pricing an asset or liability, including assumptions about risk and the risks inherent in valuation techniques and the inputs to valuations. Fair value measurements assume that the transaction occurs in the principal market for the asset or liability (the market with the most volume and activity for the asset or liability from the perspective of the reporting entity), or in the absence of a principal market, the most advantageous market for the asset or liability (the market in which the reporting entity would be able to maximize the amount received or minimize the amount paid). The Plan applies fair value measurements to the Plan's investments in accordance with the requirements described above.

Inputs and Assumptions

The Plan maximizes the use of observable inputs and minimizes the use of unobservable inputs when measuring the fair value of its investments. Fair value is based on actively-quoted market prices, if available. In the absence of actively-quoted market prices, the Plan seeks price information from external sources, including broker quotes. When evaluating pricing information provided by brokers, the Plan considers whether the broker is willing and able to trade at the quoted price, if the broker quotes are based on an active market or an inactive market and the extent to which brokers are utilizing a particular model if pricing is not readily available. If pricing information from external sources is not available, or if the Plan believes that observable pricing is not indicative of fair value, judgment is required to develop the estimates of fair value. In those cases, the Plan must estimate prices based on available historical and near-term future price information and certain statistical methods that reflect market assumptions.

The inputs and assumptions used in measuring fair value for investments include the following:

- Quoted securities prices and indices
- Securities trading information including volume and restrictions
- Maturity
- Interest rates
- Credit quality

The Plan regularly evaluates and validates the inputs used to estimate fair value by a number of methods, including review and verification of models, as well as various market price verification procedures such as the use of multiple broker quotes to support the market price of the various investments in which the Plan transacts.

The Plan's investments are stated at fair value. Mutual funds are valued at quoted market prices, which represent the value of shares held by the Plan at year-end. Investment in the Dominion Stock Fund is stated at fair value, which has been determined by the custodian based on the fair value of the underlying investments within the fund. The Dominion Stock Fund is a unitized fund specific to the Plan and other employee benefit plans of Dominion and its subsidiaries, and is made up of Dominion common stock and a money market fund. Common Collective Trust Funds are stated at fair value as determined by the issuer of the Common Collective Trust Funds based on the fair value of the underlying investments.

Levels

The Plan utilizes the following fair value hierarchy, which prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- a. *Level 1* Quoted prices (unadjusted) in active markets for identical assets that the Plan has the ability to access at the measurement date.

- b. *Level 2* Inputs other than quoted prices included within Level 1 that are either directly or indirectly observable for the asset, including quoted prices for similar assets in active markets, quoted prices for identical or similar assets in inactive markets, inputs other than quoted prices that are observable for the asset, and inputs that are derived from observable market data by correlation or other means.

Table of Contents

- c. *Level 3* Unobservable inputs for the asset, including situations where there is little, if any, market activity for the asset.

The fair value hierarchy gives the highest priority to quoted prices in active markets (Level 1) and the lowest priority to unobservable data (Level 3). In some cases, the inputs used to measure fair value might fall in different levels of the fair value hierarchy. In these cases, the lowest level input that is significant to a fair value measurement in its entirety determines the applicable level in the fair value hierarchy. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset.

The wrapper contracts related to GICs in the Stable Value fund, held in the Master Trust, represent a Level 3 fair value measurement due to the use of significant unobservable inputs, including the models used to measure their fair value. The Level 3 amounts are not material, therefore additional Level 3 disclosures are not included in this report.

The Plan recognizes transfers among Level 1, Level 2 and Level 3 based on fair values as of the first day of the month in which the transfer occurs. Transfers out of Level 3 represent assets that were previously classified as Level 3 for which the inputs became observable for classification in either Level 1 or Level 2.

Recurring Fair Value Measurements

Fair value measurements are separately disclosed by level within the fair value hierarchy.

Plan Investments

The following table presents the Plan's investments that are measured at fair value for each hierarchy level as of December 31, 2014 and 2013:

	2014				2013			
	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3	Total
Dominion Stock Fund	\$ 8,820,661	\$	\$	\$ 8,820,661	\$ 8,353,226	\$	\$	\$ 8,353,226
Common Collective Trusts:

Term Investment Fund ⁽¹⁾		3,769		3,769		1,694		1,694
		5,189,976		5,189,976		5,573,167		5,573,167

Target Retirement Trust I							
Mutual Fund:							
International Equity Fund	1,195,907		1,195,907	1,540,931			1,540,931
Total	\$ 10,016,568	\$ 5,193,745	\$ 15,210,313	\$ 9,894,157	\$ 5,574,861	\$	\$ 15,469,018

- (1) The NT Collective Short Term Investment Fund is comprised of money market instruments with short-term maturities used for temporary investment and is not an investment option for participants. The Fund's objective is to provide an investment vehicle for cash reserves while offering a competitive rate of return. Liquidity is emphasized to provide for redemption of units on any business day. Principal preservation is also a prime objective. Admissions and withdrawals are made daily. Interest is accrued daily and distributed monthly.

Table of Contents*Investments Held in Master Trust*

The following table presents the investments held in the Master Trust for the Plan and other employee benefit plans of Dominion and its subsidiaries that are measured at fair value for each hierarchy level as of December 31, 2014 and 2013:

	2014				2013			
	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3	Total
