This report uses:

Group, Company, Jaguar Land Rover and JLR to refer to Jaguar Land Rover Automotive plc and its subsidiaries.

EBITDA	measured as earnings before tax and adding back depreciation, amortisation, finance income, finance expense, foreign exchange gains/(losses) on financing and unrealised derivatives, commodity gains/(losses) on unrealised derivatives, exceptional items and share of gains/(losses) from joint ventures.
EBITDA margin	measured as EBITDA as a percentage of revenue.
PBT	profit before tax.
PAT	profit after tax.
Net cash	measured as cash and cash equivalents and short term deposits less total borrowings (including secured and unsecured borrowings and factoring facilities, but excluding finance leases).
Free cash flow	measured as the net change in cash and cash equivalents, less net cash in financing activities, less movement in short term deposits.
Product and other investment	measured as cash outflows relating to tangible assets, intangible assets, expensed R&D and investment in joint ventures.
FY16	Year ending 31 March 2016.

FY15	Year ended 31 March 2015.
Q2	3 months ended 30 September.
China JV	Chery Jaguar Land Rover Joint Venture.

Table of Contents

Management's discussion and analysis of financial condition and results of operations

Retail sales in Q2 FY16 were broadly in line with the prior year's record second quarter. Strong demand in the UK (up 9% year-on-year), mainland Europe (up 34%) and North America (up 23%) particularly for the new Land Rover Discovery Sport and Jaguar XE helped offset weaker sales in China and emerging markets. However profitability was down primarily as a result of weaker China sales and mix and foreign exchange revaluation as well as an exceptional charge for the inventory impacted by the Tianjin Port explosion.

Key metrics for Q2 FY16, compared to Q2 FY15, are as follows:

Retail volumes (including China JV) were 110,200 units, down 0.5%.

Wholesale volumes (excluding China JV) were 111,160 units, up 6.9%.

Revenues of £4,831 million, up £23 million.

EBITDA of £589 million, down £344 million. EBITDA margin of 12.2%, down 7.2 ppt.

PBT of £88 million before exceptional item, down £521 million.

Exceptional charge of £245 million for the inventory impacted by the Tianjin Port explosion.

After the exceptional item of £245 million, loss after tax was £92 million.

Negative free cash flow: £225 million before financing costs and after Investment spending of £775 million.

Cash and financial deposits: £2,960 million and an undrawn long-term 5 year credit facility of £1,870 million.

Market environment

Macroeconomic conditions remained mixed during the quarter. The economies of the UK and US continue to exhibit solid growth with low inflation whilst the European economy is picking up. The economic environment in China continues to be softer as GDP slipped below the government's growth target and market conditions in developing economies, notably Russia and Brazil, remain weak.

The US Dollar strengthened against the Pound, despite the US Federal Reserve holding off on increasing interest rates, and the Chinese RMB strengthened against the Pound, to a lesser extent, following policy action which saw the RMB depreciate against the US Dollar. The Euro also strengthened against the Pound over the quarter reflecting the gradual economic recovery in the Eurozone and emerging market currencies, such as the Russian Rouble and

Brazilian Real weakened. Commodity prices also softened during Q2 FY16 primarily reflecting weaker industrial demand from China.

Total automotive industry car volumes (units)

	Q2 FY16	Q2 FY15	Change (%)
China	4,438,300	4,522,100	(1.9)%
Europe (excluding UK)	1,742,376	1,587,015	9.8%
UK	719,997	670,931	7.3%
US	4,509,500	4,245,300	6.2%
All other markets	3,422,914	3,705,572	(7.6)%

The total industry car volume data above has been compiled using relevant data available at the time of publishing this interim report, compiled from national automotive associations such as the Society of Motor Manufacturers and Traders in the UK and the ACEA in Europe, according to their segment definitions, which may differ from those used by JLR.

Table of Contents**Jaguar Land Rover retail volume performance**

Total retail volumes were 110,200 units for the quarter, a decrease of 0.5% compared to Q2 FY15. Higher retail sales in the UK, North America and Europe were offset by lower sales in China and Other Overseas markets (which includes Russia and Brazil). The lower sales in China reflect continued softening demand and the timing of new model launches, such as the Jaguar XE which only went on sale in September 2015, and the new XJ and XF models available in early 2016, as well as the transition to localised production first with the Evoque, followed by the Discovery Sport from November 2015.

By brand, Land Rover retailed 87,554 units in Q2 FY16, down 3.9% compared to the same quarter last year, whilst Jaguar retailed 22,646 units, up 15.3%. Retail sales of the Discovery Sport continue to grow with Q2 FY16 volumes up 26.6% compared to sales of the Freelander (which it replaced) in the same period last year. Discovery, Range Rover Sport and Range Rover retail sales remained robust, albeit down slightly when compared to strong sales in the same quarter of last year. Evoque retail sales were down in the quarter, reflecting the transition to localised production in China and the start of production of the refreshed 16 Model Year Evoque (starting from August 2015).

Jaguar retail volumes grew significantly, up 15.3%, due to strong XE sales, offset partially by lower sales of the XF and XJ, ahead of the all new Jaguar XF (from August 2015) and a refreshed 16 Model Year Jaguar XJ (coming soon).

Wholesale volumes totalled 111,160 units (excluding China JV) in Q2 FY16, up 6.9% compared to Q2 FY15. This comprised 89,473 units for Land Rover (down 3.8%) and 21,687 units for Jaguar (up 22.0% reflecting the ramp up of the Jaguar XE).

Jaguar Land Rover retail volume performance in key regions and by model for Q2 FY16 compared to Q2 FY15 is detailed in the following tables (figures in units, and include China JV volumes).

	Q2 FY16	Q2 FY15	Change (%)
China	20,149	29,786	(32.4)%
Europe (excluding UK)	23,113	17,227	34.2%
UK	24,180	22,151	9.2%
North America	21,743	17,616	23.4%
All Other Markets	21,015	24,001	(12.4)%
Total JLR	110,200	110,781	(0.5)%
XE	9,310		n/a
XF	7,598	11,217	(32.3)%
XJ	2,715	4,365	(37.8)%
XK	77	871	(91.2)%
F-TYPE	2,946	3,194	(7.8)%
Jaguar	22,646	19,647	15.3%
Defender	5,619	4,038	39.2%

Edgar Filing: TATA MOTORS LTD/FI - Form 6-K

Freelander	41	14,235	(99.7)%
Discovery Sport	18,021		n/a
Discovery	10,344	10,717	(3.5)%

Range Rover	12,551	13,473	(6.8)%
Land Rover	87,554	91,134	(3.9)%
Total JLR	110,200	110,781	(0.5)%

Table of Contents**Revenue and profits**

The Company generated revenue of £4,831 million in the three months to 30 September 2015, up £23 million, compared to revenue of £4,808 million earned in the same three month period last year. Revenue for the 6 months to 30 September 2015 was £9,833 million, down £328 million compared to the same period a year ago.

EBITDA decreased by £344 million to £589 million in Q2 FY16 compared to £933 million in Q2 FY15 due to lower China sales and mix, unfavourable revaluation of current assets and liabilities (primarily EUR payables) compared to a gain a year ago, and launch and other costs. EBITDA for the 6 months to 30 September 2015 was £1,410 million, down £610 million compared to the same 6 month period last year.

PBT for Q2 FY16 before exceptional items was £88 million, down £521 million from £609 million in Q2 FY15. The decrease in PBT was primarily driven by the lower EBITDA as well as higher depreciation and amortisation (£121 million higher), unfavourable revaluation of foreign currency debt and unrealised hedges as well as higher net finance expense. An exceptional charge of £245 million has been recognised for about 5,800 vehicles involved in the August Tianjin Port explosion. After this exceptional charge, losses before tax were £157 million. An insurance adjusting process is underway and insurance and any other recoveries will only be realised future periods.

PBT before exceptional items for the 6 months to 30 September 2015 was £726 million, down £807 million compared to the 6 months to 30 September 2014. PBT after the exceptional charge for the first half of the year was £481 million, down £1,052 million compared to the first half of the prior year.

Losses after tax for Q2 FY16 were £92 million, down £542 million compared to Q2 FY15. PAT for the 6 months to 30 September 2015 was £400 million, down £743 million compared to the same 6 month period a year ago.

EBITDA reconciliation

Three months ended 30 September (£ millions)	2015	2014
EBITDA margin	12.2%	19.4%

Other		(2)
Profit before tax (excluding exceptional charge)	88	609
Exceptional charge	(245)	
(Loss)/profit before tax	(157)	609

Income tax credit/(expense)	65	(159)
(Loss)/profit after tax	(92)	450

Cash flow, liquidity and capital resources

Free cash flow before financing for Q2 FY16 was negative £225 million, primarily reflecting capitalised investment spending of £700 million exceeding EBITDA of £589m and higher working capital. Total investment spending was £775 million including £75 million expensed in EBITDA.

After the negative free cash flow of £225 million and finance expense of £50 million, cash and financial deposits stood at £2,960 million as at 30 September 2015 (split £2,104 million of cash and cash equivalents and £856 million of bank deposits with maturities greater than 3 months). This includes an amount of £531 million held in subsidiaries of Jaguar Land Rover outside of the United Kingdom. The cash in some of these jurisdictions is subject to impediments to remitting cash to the UK other than through annual dividends.

As at 30 September 2015, the Company also has undrawn committed credit facilities totalling £1,870 million all maturing in July 2020. Jaguar Land Rover also had £95 million of undrawn shorter-term committed credit facilities.

Table of Contents**Material events**

On 12 August 2015 a series of explosions caused widespread damage at the Port of Tianjin in China. Tianjin Port is one of three major locations in China through which Jaguar Land Rover imports vehicles and at the time of the explosion, approximately 5,800 vehicles were stored at various locations in Tianjin. Many of these vehicles were destroyed or damaged in the explosion and as a result an exceptional charge of £245 million has been recognised in the financial statements of the Company for Q2 FY16. The process for finalising an insurance claim may take some months to conclude, so insurance and other potential recoveries will only be recognised in future periods when paid or confirmed and have not been recognised in this period.

Borrowings

The following table shows details of the Company's financing arrangements as at 30 September 2015.

(£ millions)	Facility amount	Outstanding	Undrawn	First call date

* The Notes are guaranteed on a senior unsecured basis by the guarantors Jaguar Land Rover Limited, Jaguar Land Rover Holdings Limited, Land Rover Exports Limited, JLR Nominee Company Limited and Jaguar Land Rover North America LLC.

** The Notes are guaranteed on a senior unsecured basis by the guarantors Jaguar Land Rover Limited and Jaguar Land Rover Holdings Limited.

*** The \$350 million committed facility is drawn by Jaguar Land Rover Limited and guaranteed by Jaguar Land Rover Holdings Limited.

A bilateral \$200 million uncommitted receivables factoring facility is also available which remained undrawn as at 30 September 2015.

Acquisitions and disposals

There were no material acquisitions or disposals in the period.

Off-balance sheet financial arrangements

The Company has no off-balance sheet financial arrangements other than commitments disclosed in the condensed consolidated financial statements.

Business risks and mitigating factors

As discussed on pages 76-81, and elsewhere, of the Annual Report 2014-15 of the Company, Jaguar Land Rover is exposed to various business risks including but not limited to the uncertainty of global economic conditions, fluctuations of currency exchange rates and raw material prices.

Employees

At the end of Q2 FY16, Jaguar Land Rover employed 36,960 people worldwide including agency personnel. This compared to 31,826 at the end of Q2 FY15.

Table of Contents**Board of Directors**

Cash and cash equivalents at end of period	2,104	2,263	2,104

Table of Contents**Notes (forming part of the condensed consolidated financial statements)****1 Accounting policies****Basis of preparation**

The information for the three and six months ended 30 September 2015 is unaudited and does not constitute statutory accounts as defined in Section 435 of the Companies Act 2006. The condensed consolidated interim financial statements of Jaguar Land Rover Automotive plc have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting under IFRS as adopted by the European Union (EU).

The condensed consolidated interim financial statements have been prepared on a historical cost basis except for certain financial instruments held at fair value. These financial instrument valuations are classified as level 2 fair value measurements, as defined by IFRS 13, being those derived from inputs other than quoted prices which are observable. There have been no changes in the valuation techniques used or transfers between fair value levels from those set out in the annual consolidated financial statements for the year ended 31 March 2015.

The condensed consolidated interim financial statements should be read in conjunction with the annual consolidated financial statements for the year ended 31 March 2015, which were prepared in accordance with IFRS as adopted by the EU. There were no differences between those financial statements and the financial statements for the group prepared under IFRS as adopted by the International Accounting Standards Board.

The condensed consolidated interim financial statements have been prepared on the going concern basis as set out within the directors' statement of responsibilities section of the group's annual report for the year ended 31 March 2015.

The accounting policies applied are consistent with those of the annual consolidated financial statements for the year ended 31 March 2015, as described in those financial statements.

2 Exceptional item

A provision against the carrying value of inventory of £245 million has been recorded following the group's assessment of the physical condition of the vehicles involved in the Tianjin explosion in August 2015. The process for finalising an insurance claim may take some months to conclude, so insurance and other potential recoveries will only be recognised in future periods when paid or confirmed and have not been recognised in this period.

Due to the size of the provision recorded the charge together with the associated tax impact has been disclosed as an exceptional item.

3 Research and development

Three months ended		Six months ended	
30 September	30 September	30 September	30 September
2015	2014	2015	2014

Closing balance	31	31

Product warranty provision

The group offers warranty cover in respect of manufacturing defects, which become apparent within one to five years after purchase, dependent on the market in which the purchase occurred.

Legal and product liability provision

A legal and product liability provision is maintained in respect of known litigation which impacts the group. The provision primarily relates to motor accident claims, consumer complaints, dealer terminations, employment cases and personal injury claims.

Residual risk provision

In certain markets, the group is responsible for the residual risk arising on vehicles sold by dealers on leasing arrangements. The provision is based on the latest available market expectations of future residual value trends. The timing of the outflows will be at the end of the lease arrangements being typically up to three years.

Environmental risk provision

This provision relates to various environmental remediation costs such as asbestos removal and land clean up. The timing of when these costs will be incurred is not known with certainty.

13 Other current liabilities

As at (£ millions)	30 September 2015 (unaudited)	31 March 2015 (audited)

Balance at 30 September 2014 (unaudited)	(383)	83	4,878	4,578

Table of Contents**Notes (continued)****16 Dividends**

During the three months ended 30 September 2015, no ordinary share dividend was proposed and paid (three months to 30 September 2014: £nil).

During the six months ended 30 September 2015, an ordinary share dividend of £150 million was proposed and paid (six months to 30 September 2014: £150 million).

17 Employee benefits

Jaguar Land Rover Limited has pension arrangements providing employees with defined benefits related to pay and service as set out in the rules of each fund. The following table sets out the disclosure pertaining to employee benefits of Jaguar Land Rover Limited and overseas subsidiaries which operate defined benefit pension plans.

(£ millions)	Six months ended 30 September 2015 (unaudited)	Year ended 31 March 2015 (audited)
Change in defined benefit obligation		
Defined benefit obligation, beginning of the period	7,883	6,053
Service cost	112	168
Interest cost	132	274
Actuarial (gains) / losses arising from:		
- Changes in demographic assumptions	(36)	(20)
- Changes in financial assumptions	(828)	1,454
- Experience adjustments	96	101
Prior service costs		1
Foreign currency translation

Present value of defined benefit obligations	(7,281)	(7,883)
Fair value of plan assets	6,715	6,997
Restriction on asset and onerous obligation	(6)	(1)
Net liability	(572)	(887)
Non-current liabilities	(572)	(887)

Table of Contents**Notes (continued)****17 Employee benefits (continued)**

The range of assumptions used in accounting for the pension plans in both periods is set out below:

	Six months ended 30 September 2015 (unaudited)	Year ended 31 March 2015 (audited)
Discount rate	3.9%	3.4%
Expected rate of increase in compensation level of covered employees	3.6%	3.6%
Inflation increase	3.1%	3.1%

For the valuation at 30 September 2015 and 31 March 2015, the mortality assumptions used are the SAPS base table, in particular S1NxA tables and the Light table for members of the Jaguar Executive Pension Plan. A scaling factor of 115 percent has been used for the Jaguar Pension Plan, 110 percent for the Land Rover Pension Scheme, and 105 percent for males and 90 percent for females for Jaguar Executive Pension Plan. There is an allowance for future improvements in line with the CMI (2014) projections and an allowance for long-term improvements of 1.25 percent per annum.

18 Commitments and contingencies

In the normal course of business, the group faces claims and assertions by various parties. The group assesses such claims and assertions and monitors the legal environment on an on-going basis, with the assistance of external legal counsel wherever necessary. The group records a liability for any claims where a potential loss is probable and capable of being estimated and discloses such matters in its financial statements, if material. For potential losses that are considered possible, but not probable, the group provides a disclosure in the financial statements but does not record a liability in its accounts unless the loss becomes probable.

The following is a description of claims and assertions where a potential loss is possible, but not probable.

Management believe that none of the contingencies described below, either individually or in aggregate, would have a material adverse effect on the group's financial condition, results of operations, or cash flows.

Litigation

The group is involved in legal proceedings, both as plaintiff and as defendant and there are claims of £15 million (31 March 2015: £11 million) against the Company which management have not recognised as they are not considered probable. The majority of these claims pertain to motor accident claims and consumer complaints. Some of the cases also relate to replacement of parts of vehicles and/or compensation for deficiency in the services by the group or its dealers.

Other taxes and dues

The group had no significant tax matters in dispute at 30 September 2015 or 31 March 2015 where a potential loss was considered possible.

During the year ended 31 March 2015, the group's Brazilian subsidiary received a demand for £27 million in relation to additional indirect taxes (PIS and COFINS) claimed as being due on local vehicle and parts sales made in 2010. The matter is currently being contested before the Brazilian appellate authorities. Professional legal opinions obtained in Brazil fully support that the basis of the tax authority's assertion is incorrect and, as a result, the likelihood of any settlement ultimately having to be made is considered remote.

Commitments

The group has entered into various contracts with vendors and contractors for the acquisition of plant and machinery, equipment and various civil contracts of capital nature aggregating £805 million (31 March 2015: £814 million) and £32 million (31 March 2015: £nil) relating to the acquisition of intangible assets.

The group has entered into various contracts with vendors and contractors which include obligations aggregating £630 million (31 March 2015: £642 million) to purchase minimum or fixed quantities of material.

Inventory of £nil (31 March 2015: £nil) and trade receivables with a carrying amount of £136 million (31 March 2015: £156 million) and property, plant and equipment with a carrying amount of £nil (31 March 2015: £nil) and restricted cash with a carrying amount of £nil (31 March 2015: £nil) are pledged as collateral/security against the borrowings and commitments.

There are guarantees provided in the ordinary course of business of £nil (31 March 2015: £nil).

Table of Contents**Notes (continued)****19 Capital Management**

The group's objectives when managing capital are to ensure the going concern operation of its entities and to maintain an efficient capital structure to reduce the cost of capital, support the corporate strategy and to meet shareholder expectations.

The group's policy is to borrow primarily through capital market debt issues to meet anticipated funding requirements and maintain sufficient liquidity. The group also maintains certain undrawn committed credit facilities to provide additional liquidity. These borrowings, together with cash generated from operations, are loaned internally or contributed as equity to certain subsidiaries as required. Surplus cash in subsidiaries is pooled (where practicable) and invested to satisfy security, liquidity and yield requirements.

The capital structure is governed according to group policies approved by the Board and is monitored by various metrics such as debt to Adjusted EBITDA and Adjusted EBITDA to interest ratios, as per the debt covenants and rating agency guidance. Funding requirements are reviewed periodically with any debt issuances and capital distributions approved by the Board.

The following table summarises the capital of the group:

As at (£ millions)	30 September 2015 (unaudited)	31 March 2015 (audited)
Short term debt	142	160
Long term debt	2,349	2,390
Total debt*	2,491	2,550
Equity	7,254	6,040
Total capital (debt and equity)	9,745	8,590

* Total debt includes finance lease obligations of £10 million (31 March 2015: £13 million).

20 Related party transactions

The group's related parties principally consist of Tata Sons Limited., subsidiaries, associates and joint ventures of Tata Sons Limited which includes Tata Motors Limited (the ultimate parent company), subsidiaries, associates and joint ventures of Tata Motors Limited. The group routinely enters into transactions with these related parties in the ordinary course of business including transactions for sale and purchase of products with its associates and joint ventures. Transactions and balances with the group's own subsidiaries are eliminated on consolidation.

The following table summarises related party transactions and balances not eliminated in the consolidated condensed interim financial statements.
