Notes to Condensed Consolidated Financial Statements

As of March 31, 2016 and

For the Three Month Periods Ended March 31, 2016 and 2015

(Unaudited)

1. Nature of operations

Headquartered in Downers Grove, Illinois, Univar Inc. (the Company or Univar) is a leading global distributor of commodity and specialty chemicals. The Company s operations are structured into four operating segments that represent the geographic areas under which the Company manages its business:

Univar USA (USA)

Univar Canada (Canada)

Univar Europe, the Middle East and Africa (EMEA)

Rest of World (Rest of World)

Rest of World includes certain developing businesses in Latin America (including Brazil and Mexico) and the Asia-Pacific region.

2. Basis of presentation

The condensed consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America (US GAAP) as applicable to interim financial reporting. Unless otherwise indicated, all financial data presented in these condensed consolidated financial statements are expressed in US dollars. These condensed consolidated financial statements, in the Company s opinion, include all adjustments, consisting of normal recurring accruals necessary for a fair presentation of the condensed consolidated balance sheets, statements of operations, comprehensive loss, cash flows and changes in stockholders equity. The results of operations for the periods presented are not necessarily indicative of the operating results that may be expected for the full year. These condensed consolidated financial statements should be read in conjunction with the Company s Annual Report on Form 10-K for the year ended December 31, 2015.

The condensed consolidated financial statements include the financial statements of the Company and its subsidiaries. Subsidiaries are consolidated if the Company has a controlling financial interest, which may exist based on ownership of a majority of the voting interest, or based on the Company s determination that it is the primary beneficiary of a

variable interest entity (VIE) or if otherwise required by US GAAP. The Company did not have any material interests in variable interest entities during the periods presented in these condensed consolidated financial statements. All intercompany balances and transactions are eliminated in consolidation.

The preparation of condensed consolidated financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the amounts reported and disclosed in the financial statements and accompanying notes. Actual results could differ materially from these estimates.

3. Recent accounting pronouncements

Accounting pronouncements issued and adopted

In August 2014, the FASB issued ASU 2014-15 Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern. The core principle of the guidance is that an entity's management should evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the entity's ability to continue as a going concern within one year after the date that the financial statements are available to be issued. When management identifies conditions or events that raise substantial doubt about an entity's ability to continue as a going concern, management should consider whether its plans that are intended to mitigate those relevant conditions or events that will alleviate the substantial doubt are adequately disclosed in the footnotes to the financial statements. This guidance is effective for the annual period ending after December 15, 2016, and for annual periods and interim periods thereafter. The adoption of this standard did not have a material impact on the Company's consolidated financial statements.

In February 2015, the FASB issued ASU 2015-02 Amendments to the Consolidation Analysis (Topic 810). The core principle of the guidance is to provide amendments to the current consolidation guidance. The revised consolidation guidance, among other things, modifies the evaluation of whether limited partnerships and similar legal entities are VIEs or voting interest entities, eliminates the presumption that a general partner should consolidate a limited partnership and modifies the consolidation analysis of reporting entities that are involved with VIEs through fee arrangements and related party relationships. This guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2015. The adoption of this standard did not have a material impact on the Company's consolidated financial statements.

Table of Contents

In April 2015, the FASB issued ASU 2015-04 Compensation-Retirement Benefits (Practical Expedient for the Measurement Date of an Employer's Defined Benefit Obligation and Plan Assets) (Topic 715). The core principle of the guidance is that it provides a practical expedient for companies to measure interim remeasurements for significant events that occur on other than a month-end date. The guidance permits entities to remeasure defined benefit plan assets and obligations using the month-end date that is closest to the date of the significant event. The decision to apply the practical expedient to interim remeasurements for significant events can be made for each significant event. This guidance is effective prospectively for fiscal years, and interim periods within those years, beginning after December 15, 2015. The adoption of this standard did not have a material impact on the Company's consolidated financial statements.

In April 2015, the FASB issued ASU 2015-05 Intangibles-Goodwill and Other-Internal-use software (Customer's Accounting for Fees Paid in a Cloud Computing Arrangement) (Subtopic 350-40). The ASU provides customers with guidance on determining whether a cloud computing arrangement contains a software license that should be accounted for as internal-use software. If a cloud computing arrangement includes a software license, then the customer should account for the software license element of the arrangement consistent with the acquisition of other software licenses. If a cloud computing arrangement does not include a software license, the customer should account for the arrangement as a service contract. This guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2015. The ASU is applied prospectively to all arrangements entered that occur after the effective date. The adoption of this standard did not have a material impact on the Company's consolidated financial statements.

Accounting pronouncements issued and not yet adopted

In March 2016, the FASB issued ASU 2016-09 Compensation—Stock Compensation (Topic 718) Improvement to Employee Share-Based Payment Accounting. The core principal of the guidance is to simplify several aspects of the accounting for employee share-based payment transactions including the accounting for income taxes, forfeitures, and statutory tax withholding requirements, as well as classification of related amounts within the statement of cash flows. The standard will be effective for fiscal years beginning after December 15, 2016, including interim periods within such fiscal years. Early adoption is permitted. The guidance is to be applied using a modified retrospective method by means of a cumulative-effect adjustment to equity as of the beginning of the period in which the guidance is adopted. The Company is currently evaluating the impact of the adoption of this accounting standard update on its internal processes, operating results and financial reporting. The impact is currently not known or reasonably estimable.

4. Employee benefit plans

The following table summarizes the components of net periodic benefit credit recognized in the condensed consolidated statements of operations:

Other	0.4	1.2
Total other operating expenses, net	\$ 5.5	\$ 8.1

(1) Significant stockholders CVC Capital Partners (CVC) and Clayton, Dubilier & Rice, LLC (CD&R).

6. Redundancy and restructuring

Redundancy and restructuring charges relate to the implementation of several regional strategic initiatives aimed at streamlining the Company's cost structure and improving its operations primarily within the USA and EMEA operating segments. These actions primarily resulted in workforce reductions, lease termination costs and other facility rationalization costs.

The following table summarizes activity related to accrued liabilities associated with redundancy and restructuring:

(in millions)	January 1, 2016	Charge to earnings	Cash paid	Non-cash and other	March 31, 2016
Employee termination costs	\$ 31.0	\$ 0.2	\$ (5.7)	\$ 0.8	\$ 26.3

Total	\$ 48.5	\$ 33.7	\$ (33.3)	\$ (2.3)	\$ 46.6
-------	---------	---------	-----------	----------	---------

Redundancy and restructuring liabilities of \$29.1 million and \$34.5 million were classified as current in other accrued expenses in the condensed consolidated balance sheets as of March 31, 2016 and December 31, 2015, respectively. The long-term portion of redundancy and restructuring liabilities of \$11.7 million and \$12.1 million were recorded in other long-term liabilities in the condensed consolidated balance sheets as of March 31, 2016 and December 31, 2015, respectively, and primarily consists of facility exit costs that are expected to be paid within the next four years.

While the Company believes the recorded redundancy and restructuring liabilities are adequate, revisions to current estimates may be recorded in future periods based on new information as it becomes available.

Table of Contents**7. Other (expense) income, net**

Other (expense) income, net consisted of the following gains (losses):

Other	1.4	(1.3)
Total other (expense) income, net	\$ (13.4)	\$ 6.8

(1) Refer to Note 14: Derivatives for more information.

8. Income taxes

The Company's tax provision for interim periods is determined using an estimate of the annual effective tax rate, adjusted for discrete items, if any, that are taken into account in the relevant period. Each quarter, an estimate of the annual effective tax rate is updated should management revise its forecast of earnings based upon the Company's operating results. If there is a change in the estimated effective annual tax rate, a cumulative adjustment is made. The quarterly tax provision and forecast estimate of the annual effective tax rate may be subject to volatility due to several factors, including the complexity in forecasting jurisdictional earnings before tax, the rate of realization of forecasting earnings or losses by quarter, acquisitions, divestitures, foreign currency gains and losses, pension gains and losses, etc.

The income tax expense for the three months ended March 31, 2016 was \$5.1 million, resulting in an effective tax rate of 26.7%. The Company's effective tax rate for the three months ended March 31, 2016 was lower than the US federal statutory rate of 35.0% primarily due to the mix in earnings in multiple jurisdictions, non-taxable interest income and the release of a valuation allowance on certain foreign tax attributes. The income tax expense for the three months ended March 31, 2015 was \$7.6 million, resulting in an effective tax rate of 27.8%. The Company's effective tax rate for three months ended March 31, 2015 was lower than the US federal statutory rate primarily due to the mix in earnings in multiple jurisdictions and non-taxable interest income.

Canadian General Anti-Avoidance Rule matters

In 2007, the outstanding shares of Univar N.V., the ultimate public company parent of the Univar group at that time, were acquired by investment funds advised by CVC. To facilitate the acquisition and leveraged financing of Univar N.V. by CVC, a restructuring of some of the companies in the Univar group, including its Canadian operating

company, was completed (the Restructuring). In February 2013, the Canada Revenue Agency (CRA) issued a Notice of Assessment, asserting the General Anti-Avoidance Rule (GAAR) against the Company s subsidiary Univar Holdco Canada ULC (Univar Holdco) for withholding tax of \$29.4 million (Canadian), relating to this Restructuring. Univar Holdco appealed the assessment, and the matter was litigated in the Tax Court of Canada in June 2015, where the decision remains pending.

In September 2014, also relating to the Restructuring, the CRA issued the 2008 and 2009 Notice of Reassessments for federal corporate income tax liabilities of \$11.9 million (Canadian) and \$11.0 million (Canadian), respectively, and a departure tax liability of \$9.0 million (Canadian). Likewise, in April 2015, the Company s subsidiaries received the 2008 and 2009 Alberta Notice of Reassessments of \$6.0 million (Canadian) and \$5.8 million (Canadian), respectively. These Reassessments reflect the additional tax liability and interest relating to those tax years should the CRA be successful in its assertion of the GAAR relating to the Restructuring described above.

At March 31, 2016, the total Canadian federal and provincial tax liability assessed related to these matters, inclusive of interest of \$34.7 million (Canadian), is \$107.8 million (Canadian). No payment has been made by the Company s subsidiaries on these assessments, although a \$44.7 million (Canadian) Letter of Credit has been issued with respect to the GAAR assessment.

The Company has not recorded any liabilities for these matters in its financial statements, as it believes it is more likely than not that the Company s position will be sustained.

Table of Contents**9. Earnings per share**

The following table presents the basic and diluted earnings per share computations:

(in millions, except per share data)	Three months ended March 31,	
	2016	2015

13. Fair value measurements**Items measured at fair value on a recurring basis**

The following table presents the Company's assets and liabilities measured on a recurring basis on a gross basis:

(in millions)	Level 2		Level 3	
	March 31, 2016	December 31, 2015	March 31, 2016	December 31, 2015
Current assets:				
Forward currency contracts	\$ 0.9	\$ 0.2	\$	\$
Current liabilities:				
Forward currency contracts	0.5	0.2		
Interest rate swap contracts	4.5	5.3		
Noncurrent liabilities:				
Interest rate swap contracts	0.7	0.5		
Contingent consideration			8.7	8.7

The net amounts included in prepaid and other current assets were \$0.9 million and \$0.2 million and included in other accrued expenses were \$0.5 million and \$0.2 million as of March 31, 2016 and December 31, 2015, respectively.

The fair value of forward currency contracts is calculated by reference to current forward exchange rates for contracts with similar maturity profiles. The fair value of interest rate swaps is determined by estimating the net present value of amounts to be paid under the agreement offset by the net present value of the expected cash inflows based on market rates and associated yield curves. Based on these valuation methodologies, these derivative contracts are classified as level 2 in the fair value hierarchy.

The fair value of the contingent consideration is based on a real options approach, which took into account management's best estimate of the acquiree's performance, as well as achievement risk. Based on the valuation methodology, contingent consideration is classified as level 3 in the fair value hierarchy.

The following table is a reconciliation of the fair value measurements that use significant unobservable inputs (Level 3), which consists of contingent consideration related to prior acquisitions.

(in millions)	Contingent consideration
Fair value as of December 31, 2015	\$ 8.7
Fair value adjustments	(0.1)
Foreign currency	0.1
Fair value as of March 31, 2016	\$ 8.7

Financial instruments not carried at fair value

The estimated fair value of financial instruments not carried at fair value in the condensed consolidated balance sheets were as follows:

(in millions)	March 31, 2016		December 31, 2015	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Financial liabilities:				
Long-term debt including current portion (Level 2)	\$ 3,161.5	\$ 3,160.4	\$ 3,117.3	\$ 3,056.5

The fair values of the long-term debt, including the current portions, were based on current market quotes for similar borrowings and credit risk adjusted for liquidity, margins and amortization, as necessary.

Fair value of other financial instruments

The carrying value of cash and cash equivalents, trade accounts receivable, net, trade accounts payable and short-term financing included in the condensed consolidated balance sheets approximate fair value due to their short-term nature.

14. Derivatives

Interest rate swaps

At March 31, 2016 and December 31, 2015, the Company had interest rate swap contracts in place with a total notional amount of \$2.0 billion, whereby a fixed rate of interest (weighted average of 1.64%) is paid and a variable rate of interest (greater of 1.25% or three-month LIBOR) is received on the notional amount.

The objective of the interest rate swap contracts is to offset the variability of cash flows in LIBOR indexed debt interest payments, subject to a 1.00% floor, attributable to changes in the aforementioned benchmark interest rate related to the Term B Loan due 2022.

The fair value of interest rate swaps is recorded either in prepaids and other current assets, other assets, other accrued expenses or other long-term liabilities in the condensed consolidated balance sheets. As of March 31, 2016 and December 31, 2015, the current liability of \$4.5 million and \$5.3 million was included in other accrued expenses, respectively. As of March 31, 2016 and December 31, 2015, the noncurrent liability of \$0.7 million and \$0.5 million was included in other long-term liabilities, respectively.

Foreign currency derivatives

The Company uses forward currency contracts to hedge earnings from the effects of foreign exchange relating to certain of the Company's intercompany and third-party receivables and payables denominated in a foreign currency. These derivative instruments are not formally designated as hedges by the Company and the terms of these instruments range from one to eight months. Forward currency contracts are recorded at fair value in either prepaid expenses and other current assets or other accrued expenses in the consolidated balance sheet, reflecting their short-term nature. The fair value adjustments and gains and losses are included in other (expense) income, net within the condensed consolidated statements of operations. Refer to Note 7: Other (expense) income, net for more information. The total notional amount of undesignated forward currency contracts were \$99.5 million and \$107.5 million as of March 31, 2016 and December 31, 2015, respectively.

Cash flows associated with derivative financial instruments are recognized in the operating section of the consolidated statement of cash flows.

15. Business combinations

Acquisition of Bodine Services

On March 2, 2016, the Company completed an acquisition of 100% of the equity interest in Bodine Services of Decatur, Inc.; Bodine Environmental Services, Inc.; and affiliated entities, operating as Bodine Services of the Midwest (Bodine), a regional provider of environmental and facilities maintenance services. This acquisition expands the Company's footprint with additional service centers in key geographic markets since Bodine has expertise that is critical to helping customers effectively manage compliance with their operations by preventing waste and environmental concerns.

Acquisition of Nexus Ag

On March 22, 2016, the Company completed a definitive asset purchase agreement with Nexus Ag Business Inc. (Nexus Ag), a wholesale fertilizer distributor to the Western Canada agriculture market that offers a broad range of

products, including micronutrients, specialty fertilizers, potash, phosphates, and liquid and soluble nutrients from leading North American producers.

The preliminary purchase price for these acquisitions was \$53.3 million. The preliminary purchase price allocation includes goodwill of \$22.9 million and intangibles of \$19.4 million. The operating results subsequent to the acquisition dates did not have a significant impact on the consolidated financial statement of the Company. The initial accounting for these acquisitions has only been preliminarily determined subject to final working capital adjustments and valuations of intangible assets and property, plant and equipment.

16. Commitments and Contingencies

Litigation

In the ordinary course of business the Company is subject to pending or threatened claims, lawsuits, regulatory matters and administrative proceedings from time to time. Where appropriate the Company has recorded provisions in the consolidated financial statements for these matters. The liabilities for injuries to persons or property are in some instances covered by liability insurance, subject to various deductibles and self-insured retentions.

The Company is not aware of any claims, lawsuits, regulatory matters or administrative proceedings, pending or threatened, that are likely to have a material effect on its overall financial position, results of operations or cash flows. However, the Company cannot predict the outcome of any claims or litigation or the potential for future claims or litigation.

The Company is subject to liabilities from claims alleging personal injury from exposure to asbestos. The claims result primarily from an indemnification obligation related to Univar USA Inc.'s 1986 purchase of McKesson Chemical Company from McKesson Corporation (McKesson). Univar USA's obligation to indemnify McKesson for settlements and judgments arising from asbestos claims is the amount which is in excess of applicable insurance coverage, if any, which may be available under McKesson's

Table of Contents

historical insurance coverage. Univar USA is also a defendant in a small number of asbestos claims. As of March 31, 2016, there were fewer than 220 asbestos-related claims for which the Company has liability for defense and indemnity pursuant to the indemnification obligation. Historically, the vast majority of the claims against both McKesson and Univar USA have been dismissed without payment. While the Company is unable to predict the outcome of these matters, it does not believe, based upon currently available facts, that the ultimate resolution of any of these matters will have a material effect on its overall financial position, results of operations or cash flows. However, the Company cannot predict the outcome of any present or future claims or litigation and adverse developments could negatively impact earnings or cash flows in a particular future period.

Environmental

The Company is subject to various federal, state and local environmental laws and regulations that require environmental assessment or remediation efforts (collectively environmental remediation work) at approximately 131 locations, some that are now or were previously Company-owned/occupied and some that were never Company-owned/occupied (non-owned sites).

The Company s environmental remediation work at some sites is being conducted pursuant to governmental proceedings or investigations, while the Company, with appropriate state or federal agency oversight and approval, is conducting the environmental remediation work at other sites voluntarily. The Company is currently undergoing remediation efforts or is in the process of active review of the need for potential remediation efforts at approximately 103 current or formerly Company-owned/occupied sites. In addition, the Company may be liable for a share of the clean-up of approximately 28 non-owned sites. These non-owned sites are typically (a) locations of independent waste disposal or recycling operations with alleged or confirmed contaminated soil and/or groundwater to which the Company may have shipped waste products or drums for re-conditioning, or (b) contaminated non-owned sites near historical sites owned or operated by the Company or its predecessors from which contamination is alleged to have arisen.

In determining the appropriate level of environmental reserves, the Company considers several factors such as information obtained from investigatory studies; changes in the scope of remediation; the interpretation, application and enforcement of laws and regulations; changes in the costs of remediation programs; the development of alternative cleanup technologies and methods; and the relative level of the Company s involvement at various sites for which the Company is allegedly associated. The level of annual expenditures for remedial, monitoring and investigatory activities will change in the future as major components of planned remediation activities are completed and the scope, timing and costs of existing activities are changed. Project lives, and therefore cash flows, range from 2 to 30 years, depending on the specific site and type of remediation project.

On December 9, 2014, the Company was issued a violation notice from the Pollution Control Services Department of Harris County, Texas (PCS). The notice relates to claims that the Company s facility on Luthe Road in Houston, Texas operated with inadequate air emissions controls and improperly discharged certain waste without authorization. On March 6, 2015, PCS notified the Company that the matter was forwarded to the Harris County District Attorney s Office with a request for an enforcement action. No such action has commenced. The Company continues to investigate and evaluate the claims.

As of March 31, 2016, the Company has not recorded a liability related to the PCS investigation described above as any potential loss is neither probable nor estimable at this stage of the investigation.

Although the Company believes that its reserves are adequate for environmental contingencies, it is possible, due to the uncertainties noted above, that additional reserves could be required in the future that could have a material effect

on the overall financial position, results of operations, or cash flows in a particular period. This additional loss or range of losses cannot be recorded at this time, as it is not reasonably estimable.

Changes in total environmental liabilities are as follows:

(in millions)	Three months ended March 31,	
	2016	2015
Environmental liabilities at beginning of period	\$ 113.2	\$ 120.3
Revised obligation estimates	2.1	2.0
Environmental payments	(4.6)	(4.4)
Foreign exchange	0.1	(0.6)
Environmental liabilities at end of period	\$ 110.8	\$ 117.3

Environmental liabilities of \$32.3 million and \$35.5 million were classified as current in other accrued expenses in the condensed consolidated balance sheets as of March 31, 2016 and December 31, 2015, respectively. The long-term portion of environmental liabilities is recorded in other long-term liabilities in the condensed consolidated balance sheets.

Customs and International Trade Laws

In April 2012, the US Department of Justice (DOJ) issued a civil investigative demand to the Company in connection with an investigation into the Company's compliance with applicable customs and international trade laws and regulations relating to the importation of saccharin from 2002 through 2012. The Company also became aware in 2010 of an investigation being conducted by US Customs and Border Patrol (CBP) into the Company's importation of saccharin. Finally, the Company learned that a civil plaintiff had sued the Company and two other defendants in a Qui Tam proceeding, such filing having been made under seal in 2012, and this plaintiff had requested that the DOJ intervene in its lawsuit.

Table of Contents

The US government, through the DOJ, declined to intervene in the Qui Tam proceeding in November 2013 and, as a result, the DOJ's inquiry related to the Qui Tam lawsuit and its initial investigation demand are now finished. On February 26, 2014, the Qui Tam plaintiff also voluntarily dismissed its lawsuit against the Company.

CBP, however, continued its investigation on the importation of saccharin by the Company's subsidiary, Univar USA Inc. On July 21, 2014, CBP sent the Company a Pre-Penalty Notice indicating the imposition of a penalty against Univar USA Inc. in the amount of approximately \$84.0 million. Univar USA Inc. responded to CBP that the proposed penalty was not justified. On October 1, 2014, the CBP issued a penalty notice to Univar USA Inc. for \$84.0 million and has reaffirmed this penalty notice. On August 6, 2015, the DOJ filed a complaint on CBP's behalf against Univar USA Inc. in the Court of International Trade seeking approximately \$84.0 million in allegedly unpaid duties, penalties, interest, costs and attorneys' fees. Discovery is underway in this matter. The Company continues to defend this matter vigorously. Univar USA Inc. has not recorded a liability related to this investigation as the Company believes a loss is not probable.

17. Segments

Management monitors the operating results of its operating segments separately for the purpose of making decisions about resource allocation and performance assessment. Management evaluates performance on the basis of Adjusted EBITDA. Adjusted EBITDA is defined as consolidated net income, plus the sum of: interest expense, net of interest income; income tax expense; depreciation; amortization; other operating expenses, net; and other (expense) income, net.

Transfer prices between operating segments are set on an arms-length basis in a similar manner to transactions with third parties. Corporate operating expenses that directly benefit segments have been allocated to the operating segments. Allocable operating expenses are identified through a review process by management. These costs are allocated to the operating segments on a basis that reasonably approximates the use of services. This is typically measured on a weighted distribution of margin, asset, headcount or time spent.

Other/Eliminations represents the elimination of inter-segment transactions as well as unallocated corporate costs consisting of costs specifically related to parent company operations that do not directly benefit segments, either individually or collectively.

18. Subsequent events

On May 3, 2016, the Company issued a press release announcing the appointment of Stephen D. Newlin as the Company's President and Chief Executive Officer, effective May 31, 2016. Mr. Newlin succeeds J. Erik Fyrwald who announced his resignation as President and Chief Executive Officer and a member of the Board of Directors on May 2, 2016 effective as of May 31, 2016 to accept a position with another company.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Our operations are structured into four operating segments that represent the geographic areas under which we operate and manage our business. These segments are Univar USA (USA), Univar Canada (Canada), Univar Europe and the Middle East and Africa (EMEA), and Rest of World (Rest of World), which includes developing businesses in Latin America (including Brazil and Mexico) and the Asia-Pacific region.

We monitor the results of our operating segments separately for the purposes of making decisions about resource allocation and performance assessment. We evaluate performance on the basis of Adjusted EBITDA, which we define as our consolidated net income, plus the sum of interest expense, net of interest income, income tax expense, depreciation, amortization, other operating expenses, net (which primarily consists of pension mark to market adjustments, acquisition and integration related expenses, employee stock-based compensation expense, redundancy and restructuring costs, advisory fees paid to stockholders, and other unusual or non-recurring expenses) and other (expense) income, net (which consists of gains and losses on foreign currency transactions and undesignated derivative instruments, ineffective portion of cash flow hedges, debt refinancing costs, and other nonoperating activity). We believe that Adjusted EBITDA is an important indicator of operating performance because:

Adjusted EBITDA excludes the effects of income taxes, as well as the effects of financing and investing activities by eliminating the effects of interest, depreciation and amortization expenses;

we use Adjusted EBITDA in setting performance incentive targets;

we consider gains (losses) on the acquisition, disposal and impairment of assets as resulting from investing decisions rather than ongoing operations; and

other significant items, while periodically affecting our results, may vary significantly from period to period and have a disproportionate effect in a given period, which affects comparability of our results.

We set transfer prices between operating segments on an arms-length basis in a similar manner to transactions with third parties. We allocate corporate operating expenses that directly benefit our operating segments on a basis that reasonably approximates our estimates of the use of these services.

Other/Eliminations represents the elimination of inter-segment transactions as well as unallocated corporate costs consisting of costs specifically related to parent company operations that do not directly benefit segments, either individually or collectively. In the analysis of our results of operations, we discuss operating segment results for the current reporting period following our consolidated results of operations period-to-period comparison.

The following is management's discussion and analysis of the financial condition and results of operations for the three months ended March 31, 2016 as compared to the corresponding period in the prior year. This discussion should be read in conjunction with the condensed consolidated financial statements, including the related notes, set forth in this report under Financial Statements and our Annual Report on Form 10-K for the year ended December 31, 2015.

Net sales were \$1,999.0 million in the three months ended March 31, 2016, a decrease of \$300.1 million, or 13.1%, from the three months ended March 31, 2015. The increase in net sales from acquisitions was primarily driven by the July 2015 Chemical Associates and the November 2015 Weavertown acquisitions in the US. The decrease in net sales from reported sales volumes primarily resulted from reductions in sales of upstream oil and gas products driven by reduced market demand. The decrease in net sales from changes in sales pricing and product mix was driven by the USA segment partially offset by increases in the Canada, EMEA and Rest of World segments. Foreign currency translation decreased net sales due to the US dollar strengthening against all of our major currencies. Refer to the Segment results for the three months ended March 31, 2016 discussion for additional information.

Total	(6.8)%

Gross profit decreased \$31.3 million, or 6.8%, to \$430.3 million for the three months ended March 31, 2016. The increase in gross profit from acquisitions was primarily driven by the November 2015 Weavertown, July 2015 Chemical Associates and March 2016 Bodine acquisitions in the US. The decrease in gross profit from reported sales volumes primarily resulted from reductions in upstream oil and gas products driven by reduced market demand. Changes in gross profit as a result of sales pricing, product costs and other adjustments are insignificant on a consolidated basis as negative impacts from the USA segment were offset by positive impacts from the remaining segments. Gross margin, which we define as gross profit divided by net sales, increased to 21.5% in the three months ended March 31, 2016 from 20.1% in the three months ended March 31, 2015 primarily due to average purchasing costs declining at a faster rate than average selling prices. Foreign currency translation decreased gross profit due to the strengthening of the US dollar against all our major currencies. Refer to the *Segment results* for the three months ended March 31, 2016 discussion for additional information.

Outbound freight and handling

Outbound freight and handling expenses decreased \$13.2 million, or 15.6%, to \$71.3 million for the three months ended March 31, 2016. Foreign currency translation decreased outbound freight and handling expense by 1.9% or \$1.6 million. On a constant currency basis, outbound freight and handling expenses decreased 13.7% or \$11.6 million, which was primarily attributable to lower reported sales volumes as well as lower diesel fuel costs. Refer to the *Segment results* for the three months ended March 31, 2016 discussion for additional information.

Warehousing, selling and administrative

Warehousing, selling and administrative expenses decreased \$6.5 million, or 2.8%, to \$224.9 million for the three months ended March 31, 2016. Foreign currency translation decreased warehousing, selling and administrative expenses by 2.7% or \$6.2 million. The remaining \$0.3 million decrease related to several insignificant components. Refer to the *Segment results* for the three months ended March 31, 2016 discussion for additional information.

Other operating expenses, net

Other operating expenses, net decreased \$2.6 million, or 32.1%, to \$5.5 million for the three months ended March 31, 2016. The decrease was primarily related to a reduction of \$2.7 million in redundancy and restructuring charges in the three months ended March 31, 2016 compared to the three months ended March 31, 2015, which primarily related to higher severance costs in the three months ended March 31, 2015. Refer to *Note 6: Redundancy and restructuring* in Item 1 of this Quarterly Report on Form 10-Q for additional information. Also contributing to the decrease was \$1.3 million of lower advisory fees paid to our significant stockholders, CVC Capital Partners (*CVC*) and Clayton, Dubilier & Rice, LLC (*CD&R*) resulting from the termination of the management contracts with CVC and CD&R as

part of our 2015 initial public offering in the three months ended March 31, 2016.

The decrease was partially offset by an increase of \$1.5 million in acquisition and integration related expenses in the three months ended March 31, 2016 primarily driven by increased integration activity on prior acquisitions. The remaining \$0.1 million decrease was related to several insignificant components. Foreign currency translation decreased other operating expenses, net by 3.7% or \$0.3 million. Refer to Note 5: Other operating expenses, net in Item 1 of this Quarterly Report on Form 10-Q for additional information.

Depreciation and amortization

Depreciation expense increased \$1.5 million, or 4.7%, to \$33.5 million for the three months ended March 31, 2016. Foreign currency translation decreased depreciation expense by 2.2% or \$0.7 million. On a constant currency basis, the increase was primarily related to a higher level of capital lease assets during the three months ended March 31, 2016.

Table of Contents

Amortization expense increased \$0.1 million, or 0.5%, to \$22.0 million for the three months ended March 31, 2016. Amortization expense decreased 3.2% or \$0.7 million due to foreign currency translation. On a constant currency basis, the increase of \$0.8 million was primarily driven by additional intangible assets related to our 2015 business acquisitions during the three months ended March 31, 2016.

Interest expense

Interest expense decreased \$22.9 million, or 35.6%, to \$41.5 million for the three months ended March 31, 2016 primarily due to the June 2015 and July 2015 debt refinancing activity as well as lower average outstanding borrowings under our short-term financing agreements. Foreign currency translation decreased interest expense by 0.8% or \$0.5 million.

Other (expense) income, net

Other (expense) income, net increased \$20.2 million from income of \$6.8 million for the three months ended March 31, 2015 to an expense of \$13.4 million for the three months ended March 31, 2016. The increase was primarily driven by foreign currency denominated loan revaluation losses of \$14.7 million primarily resulting from the revaluation of the Euro Tranche Term Loan in the three months ended March 31, 2016 compared to gains of \$11.7 million in the three months ended March 31, 2015. Refer to Note 7: Other (expense) income, net in Item 1 of this Quarterly Report on Form 10-Q for additional information.

Income tax expense

Income tax expense decreased \$2.5 million, or 32.9%, to \$5.1 million for the three months ended March 31, 2016 compared to the three months ended March 31, 2015 primarily due to a decrease in the earnings, offset by the favorable release of a valuation allowance on certain foreign tax attributes and the favorable interim accounting treatment of year to date losses incurred in foreign jurisdictions for which a tax benefit may not be recognized.

External sales in the USA segment were \$1,187.5 million, a decrease of \$207.3 million, or 14.9%, in the three months ended March 31, 2016. The increase in external net sales from acquisitions was primarily due to the July 2015 Chemical Associates, and November 2015 Weavertown acquisitions. The decrease in external net sales from reported sales volumes was primarily due to a reduction in sales of upstream oil and gas products driven by reduced market demand. The reduction in external net sales from changes in sales pricing and product mix was primarily driven by lower average selling prices resulting from market driven deflationary pressures. Gross profit decreased \$18.9 million, or 6.7%, to \$262.9 million in the three months ended March 31, 2016. The increase in gross profit from acquisitions was primary due to the July 2015 Chemical Associates, November 2015 Weavertown, and March 2016 Bodine acquisitions. Excluding the impact of volumes, gross profit decreased due to changes in sales pricing, product costs and other adjustments primarily due to market deflationary pressures. Gross margin increased from 20.2% in the three months ended March 31, 2015 to 22.1% during the three months ended March 31, 2016 primarily due to product mix.

Outbound freight and handling expenses decreased \$8.3 million, or 14.8%, to \$47.7 million in the three months ended March 31, 2016 primarily due to lower reported sales volumes as well as lower diesel fuel costs. Operating expenses increased \$1.2 million, or 0.9%, to \$134.4 million in the three months ended March 31, 2016 primarily driven by \$3.7 million of incremental expenses from our 2015 USA acquisitions partially offset by \$1.5 million of lower travel and entertainment expenses resulting from focused expense reduction initiatives. The remaining \$1.0 million decrease related to several insignificant components. Operating expenses as a percentage of external sales increased from 9.5% in the three months ended March 31, 2015 to 11.3% in the three months ended March 31, 2016.

Adjusted EBITDA decreased by \$11.8 million, or 12.7%, to \$80.8 million in the three months ended March 31, 2016. Acquisitions contributed \$4.2 million of additional Adjusted EBITDA in the three months ended March 31, 2016. Adjusted EBITDA margin increased from 6.6% in the three months ended March 31, 2015 to 6.8% in the three months ended March 31, 2016 primarily as a result of improved gross margin partially offset by higher operating expenses as a percentage of external net sales.

External sales in the Canada segment were \$272.7 million, a decrease of \$20.5 million, or 7.0%, in the three months ended March 31, 2016. Foreign currency translation decreased external sales dollars as the US dollar strengthened against the Canadian dollar when comparing the three months ended March 31, 2016 to the three months ended March 31, 2015. On a constant currency basis, external sales dollars increased \$8.4 million or 2.9%. The increase in external net sales from acquisitions was due to the October 2015 acquisition of Future/BlueStar. The decrease in external net sales from reported sales volumes was primarily due to lower methanol sales driven by warmer weather conditions partially offset by increases in agricultural sales resulting from optimal weather conditions. The increase in external net sales from changes in sales pricing and product mix was primarily driven by higher average selling prices. Gross profit decreased \$2.7 million, or 5.1%, to \$50.6 million in the three months ended March 31, 2016. The increase in gross profit from acquisitions was due to the acquisition of Future/BlueStar. Gross profit increased due to changes in sales pricing, product costs and other adjustments primarily due to a shift in product mix towards higher margin products and services during the three months ended March 31, 2016. Gross margin increased from 18.2% in the three months ended March 31, 2015 to 18.6% in the three months ended March 31, 2016.

Outbound freight and handling expenses decreased \$2.1 million, or 21.2%, to \$7.8 million primarily due to foreign currency translation, lower reported sales volumes as well as realization of cost efficiencies. Operating expenses decreased by \$1.8 million, or 7.9%, to \$21.1 million in the three months ended March 31, 2016 and decreased 0.1% as a percentage of external sales from 7.8% for the three months ended March 31, 2015. Acquisition contributed to additional operating expenses of \$0.7 million in the three months ended March 31, 2016. Foreign currency translation decreased operating expenses by 9.6% or \$2.2 million. On a constant currency basis, operating expenses increased \$0.4 million, or 1.7%, primarily due to increased personnel expenses of \$2.0 million driven by annual compensation increases partially offset by lower pension expense of \$1.6 million resulting from the soft freeze of the Canadian pension plan.

Table of Contents

Adjusted EBITDA increased by \$1.2 million, or 5.9%, to \$21.7 million in the three months ended March 31, 2016. Foreign currency translation decreased Adjusted EBITDA by 11.2% or \$2.3 million. On a constant currency basis, Adjusted EBITDA increased \$3.5 million, or 17.1%, primarily due to increased external sales generating increased gross profit. Acquisitions contributed \$0.6 million of additional Adjusted EBITDA in the three months ended March 31, 2016. Adjusted EBITDA margin increased from 7.0% in the three months ended March 31, 2015 to 8.0% in the three months ended March 31, 2016 primarily as a result of improved gross margin and lower outbound freight and handling expenses.

External sales in the EMEA segment were \$437.4 million, a decrease of \$39.0 million, or 8.2%, in the three months ended March 31, 2016. Foreign currency translation decreased external sales dollars primarily resulting from the US dollar strengthening against the euro and British pound when comparing the three months ended March 31, 2016 to the three months ended March 31, 2015. The increase in external net sales from acquisitions was due to the December 2015 acquisition of Polymer Technology Limited. The decrease in external net sales from reported sales volumes was primarily due to the continuing impacts of restructuring initiatives focused on our product mix enrichment strategy. The increase in external net sales from changes in sales pricing and product mix was primarily driven by higher average selling prices. Gross profit decreased \$5.6 million, or 5.5%, to \$96.2 million in the three months ended March 31, 2016. Gross profit increased due to changes in sales pricing, product costs and other adjustments primarily due to higher gross margins in certain end markets including personal care and pharmaceutical product and ingredients. Gross margin increased from 21.4% in the three months ended March 31, 2015 to 22.0% in the three months ended March 31, 2016 primarily due to the factors impacting gross profit discussed above.

Outbound freight and handling expenses decreased \$2.2 million, or 13.6%, to \$14.0 million primarily due to foreign currency translation and lower reported sales volumes. Operating expenses decreased \$4.5 million, or 7.7%, to \$53.9 million in the three months ended March 31, 2016, and remained flat at 12.3% as a percentage of external sales for the three months ended March 31, 2016. Foreign currency translation decreased operating expenses by 2.4% or \$1.4 million. On a constant currency basis, operating expenses decreased \$3.1 million, or 5.3%, which was primarily related to lower personnel expenses of \$1.7 million driven by lower variable compensation expense as well as resulting site restructure impacts in addition to lower lease expense of \$0.6 million due to certain operating leases being replaced by capital leases. The remaining \$0.8 million decrease related to several insignificant components.

Adjusted EBITDA increased by \$1.1 million, or 4.0%, to \$28.3 million in the three months ended March 31, 2016. Foreign currency translation decreased Adjusted EBITDA by 3.7% or \$1.0 million. On a constant currency basis, Adjusted EBITDA increased \$2.1 million, or 7.7%, due to reductions in operating expenses. Adjusted EBITDA margin increased from 5.7% in the three months ended March 31, 2015 to 6.5% in the three months ended March 31, 2016 primarily as a result of the increase in gross margin.

External sales in the Rest of World segment were \$101.4 million, a decrease of \$33.3 million, or 24.7%, in the three months ended March 31, 2016. Foreign currency translation decreased external sales dollars when comparing the three months ended March 31, 2016 to the three months ended March 31, 2015 primarily due to the US dollar strengthening against the Mexican peso and Brazilian real. The decrease in external net sales from reported sales volumes was primarily due to decreases in the Asia Pacific region partially offset by increases in Mexico and Brazil resulting from market penetration. The increase in external net sales from changes in sales pricing and product mix was primarily due to improvements in product mix within Brazil and the Asia Pacific region. Gross

profit decreased \$4.1 million, or 16.6%, to \$20.6 million in the three months ended March 31, 2016. Gross profit increased due to a shift in product mix towards higher margin products within Brazil, Mexico and the Asia Pacific region. Gross margin increased from 18.3% in the three months ended March 31, 2015 to 20.3% in the three months ended March 31, 2016 primarily due to the factors impacting gross profit discussed above.

Outbound freight and handling expenses decreased \$0.6 million, or 25.0%, to \$1.8 million in the three months ended March 31, 2016. Foreign currency translation decreased outbound freight and handling expenses by 16.7% or \$0.4 million. On a constant currency basis, outbound freight and handling expenses decreased \$0.2 million or 8.3%, which was primarily due to lower volumes as well as synergies resulting from the consolidation of warehouses from the D Altomare acquisition. Operating expenses decreased \$3.3 million, or 23.2%, to \$10.9 million in the three months ended March 31, 2016 and increased as a percentage of external sales from 10.5% in the three months ended March 31, 2015 to 10.7% in the three months ended March 31, 2016. Foreign currency translation decreased operating expenses by 17.6% or \$2.5 million. On constant currency basis, operating expenses decreased \$0.8 million which related to several insignificant components.

Adjusted EBITDA decreased by \$0.2 million, or 2.5%, to \$7.9 million in the three months ended March 31, 2016. Foreign currency translation decreased Adjusted EBITDA by 27.2% or \$2.2 million. On a constant currency basis, Adjusted EBITDA increased \$2.0 million, or 24.7%, primarily due to increased gross profit and reduced operating expenses. Adjusted EBITDA margin increased from 6.0% in the three months ended March 31, 2015 to 7.8% in the three months ended March 31, 2016 primarily as a result of the increase in gross margin.

Liquidity and Capital Resources

Our primary source of liquidity is cash generated from our operations as well as borrowings under our credit facilities. As of March 31, 2016, we had \$539.1 million available under our credit facilities.

We are in compliance with all of our covenant ratios and believe there is adequate margin between the covenant ratios and the actual ratios given the current trends of the business.

Our primary liquidity and capital resource needs are to service our debt and to finance working capital, capital expenditures, other liabilities and cost of acquisitions. We believe that funds provided by these sources will be adequate to meet the liquidity and capital resource needs for at least the next 12 months under current operating conditions. We will continue to balance our focus on sales and earnings growth with continuing efforts in cost control and working capital management.

Cash Flows

The following table presents a summary of our cash flow activity for the periods set forth below:

	Three Months Ended	
	March 31, 2016	March 31, 2015
Net cash provided by operating activities	\$ 64.7	\$ 88.1
Net cash used by investing activities	(77.2)	(30.2)
Net cash provided by (used by) financing activities	17.8	(48.4)

Cash Provided by Operating Activities

Cash provided by operating activities decreased \$23.4 million from \$88.1 million for the three months ended March 31, 2015 to \$64.7 million for the three months ended March 31, 2016.

The decrease in cash provided by operating activities was primarily due to a decrease of \$31.1 million due to changes in trade working capital, which includes trade accounts receivables, net, inventories and trade accounts payable. The reduction in cash flows from changes in trade working capital is largely attributable to increasing sales as compared to the prior quarter during the three months ended March 31, 2016 as opposed to decreasing sales during the three months ended March 31, 2015.

The decrease in cash provided by operating activities was also attributable to the decrease of \$15.8 million in net income exclusive of non-cash items in the three months ended March 31, 2016, compared to the three months ended March 31, 2015. Refer to *Results of Operations* above for additional information.

Another factor contributing to the decrease in cash provided by operating activities was the \$18.1 million reduction in other, net which primarily consisted of a reduction of \$5.2 million in payments of sales taxes driven by the timing of tax payments, a reduction of \$5.1 million from changes in accrued interest driven by the reduction in interest expense and a reduction of \$13.6 million in other payable primarily driven by payments for capitalized information technology projects.

Table of Contents

The above decreases were partially offset by a \$35.2 million increase from changes in prepaid expenses and other current assets which primarily consisted of a \$16.0 million increase from rebate collections as well as a \$15.7 million increase from the change in income tax receivable. Another factor offsetting the decrease in cash flow from operations was the \$6.4 million reduction in pensions and other postretirement benefit liabilities which was primarily driven by lower pension contributions in the three months ended March 31, 2016.

Cash Used by Investing Activities

Cash used by investing activities increased \$47.0 million from \$30.2 million for the three months ended March 31, 2015 to \$77.2 million for the three months ended March 31, 2016. The increase is primarily related to increased cash outflows for purchases of businesses, net of cash acquired of \$53.3 million primarily driven by the March 2016 acquisitions of Bodine and Nexus AG.

This increase in cash used by investing activities was partially offset by lower spending on capital expenditures of \$8.4 million. The reduction was driven by higher capital expenditures during the three months ended March 31, 2015 resulting from purchasing assets that replaced operating leases. The remaining increase in cash used by investing activities of \$2.1 million did not contain any significant activity.

Cash Provided (Used) by Financing Activities

Cash provided (used) by financing activities increased \$66.2 million from cash used by financing activities of \$48.4 million for the three months ended March 31, 2015 to cash provided by financing activities of \$17.8 million for the three months ended March 31, 2016. The increase in cash provided (used) by financing activities was primarily due to the \$44.3 million reduction in payments on long-term debt and capital lease obligations primarily driven by our June 2015 and July 2015 debt refinancing activity as well as the increase of \$37.5 million in proceeds from issuance of long term debt which resulted from additional borrowings on our ABL facilities primarily driven by increased working capital funding requirements.

The increases in cash provided (used) by financing activities was partially offset by a \$13.8 million reduction in cash flow from changes in short-term financing, net that was primarily driven by paying down bank overdrafts. The remaining \$1.8 million decrease did not contain any significant activity.

Forward looking statements and information

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of the Private Securities litigation Reform Act of 1995. Some of the forward-looking statements can be identified by the use of forward-looking terms such as believes, expects, may, will, should, could, seeks, intends, plans, or other comparable terms. These forward-looking statements include all matters that are not historical facts. They appear in a number of places throughout this Quarterly Report on Form 10-Q and include statements regarding our intentions, beliefs or current expectations concerning, among other things, our results of operations, financial condition, liquidity, prospects, growth strategies and the industries in which we operate and including, without limitation, statements relating to our estimated or anticipated financial performance or results. Forward-looking statements are subject to known and unknown risks and uncertainties, many of which may be beyond our control. We caution you that forward-looking statements are not guarantees of future performance and that our actual results of operations, financial condition and liquidity, and the development of the industries in which we operate may differ materially from those made in or suggested by the forward-looking statements contained in this Quarterly Report on Form 10-Q. In addition, even if our results of operations, financial condition and liquidity, and the development of the industries in which we operate are consistent with the forward-looking statements contained in this Quarterly Report on Form 10-Q, those results or developments may not be indicative of results or developments in subsequent periods. A number of important factors could cause actual results to differ materially from those contained in or implied by the forward-looking statements, including those reflected in forward-looking statements relating to our operations and business and the risks and uncertainties discussed in Risk Factors. Factors that could cause actual results to differ from those reflected in forward-looking statements relating to our operations and business include:

You should read this Quarterly Report on Form 10-Q, including the uncertainties and factors discussed under "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2015 completely and with the understanding that actual future results may be materially different from expectations. All forward-looking statements made in this Quarterly Report on Form 10-Q are qualified by these cautionary statements. These forward-looking statements are made only as of the date of this Quarterly Report on Form 10-Q and we do not undertake any obligation, other than as may be required by law, to update or revise any forward-looking or cautionary statements to reflect changes in assumptions, the occurrence of events, unanticipated or otherwise and changes in future operating results over time or otherwise.

Comparisons of results between current and prior periods are not intended to express any future trends, or indications of future performance, unless expressed as such, and should only be viewed as historical data.
