

MEXICAN ECONOMIC DEVELOPMENT INC
Form 20-F
April 24, 2018

As filed with the Securities and Exchange Commission on April 24, 2018

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 20-F

ANNUAL REPORT PURSUANT TO SECTION 13
OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended December 31, 2017

Commission file number 001-35934

Fomento Económico Mexicano, S.A.B. de C.V.

(Exact name of registrant as specified in its charter)

Mexican Economic Development, Inc.

(Translation of registrant's name into English)

United Mexican States

(Jurisdiction of incorporation or organization)

General Anaya No. 601 Pte.

Colonia Bella Vista

Monterrey, NL 64410 Mexico

(Address of principal executive offices)

Juan F. Fonseca

Edgar Filing: MEXICAN ECONOMIC DEVELOPMENT INC - Form 20-F

General Anaya No. 601 Pte.

Colonia Bella Vista

Monterrey, NL 64410 Mexico

(52-818) 328-6167

investor@femsa.com.mx

(Name, telephone, e-mail and/or facsimile number and

address of company contact person)

Securities registered or to be registered pursuant to Section 12(b) of the Act:

Title of each class:	Name of each exchange on which registered:
American Depositary Shares, each representing 10 BD Units, and each BD Unit consisting of one Series B Share,	New York Stock Exchange
two Series D-B Shares and two Series D-L Shares,	
without par value	
2.875% Senior Notes due 2023	New York Stock Exchange
4.375% Senior Notes due 2043	New York Stock Exchange

Securities registered or to be registered pursuant to Section 12(g) of the Act:

None

Securities for which there is a reporting obligation pursuant to Section 15(d) of the Act:

None

Indicate the number of outstanding shares of each of the issuer's classes of capital or common stock as of the close of the period covered by the annual report:

2,161,177,770	BD Units, each consisting of one Series B Share, two Series D-B Shares and two Series D-L Shares, without par value. The BD Units represent a total of 2,161,177,770 Series B Shares, 4,322,355,540 Series D-B Shares and 4,322,355,540 Series D-L Shares.
1,417,048,500	B Units, each consisting of five Series B Shares without par value. The B Units represent a total of 7,085,242,500 Series B Shares.

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Yes

No

If this report is an annual or transition report, indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934.

Yes

No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). N/A

Yes

No

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days.

Yes

No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or an emerging growth company. See the definitions of large accelerated filer, accelerated filer and emerging growth company in Rule 12b-2 of the Exchange Act.

Large Accelerated filer
Non-accelerated filer

Accelerated filer
Emerging growth company

If an emerging growth company that prepares its financial statements in accordance with U.S. GAAP, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Edgar Filing: MEXICAN ECONOMIC DEVELOPMENT INC - Form 20-F

The term "new or revised financial accounting standard" refers to any update issued by the Financial Accounting Standards Board to its Accounting Standards Codification after April 5, 2012.

Indicate by check mark which basis of accounting the registrant has used to prepare the financial statements included in this filing:

U.S. GAAP

IFRS

Other

If "Other" has been checked in response to the previous question, indicate by check mark which financial statement item the registrant has elected to follow.

Item 17

Item 18

If this is an annual report, indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes

No

INTRODUCTION

This annual report contains information materially consistent with the information presented in the audited consolidated financial statements and is free of material misstatements of fact that would result in material inconsistencies with the information in the audited consolidated financial statements.

References

The terms FEMSA, our company, we, us and our, are used in this annual report to refer to Fomento Económico Mexicano, S.A.B. de C.V. a except where the context otherwise requires, its subsidiaries on a consolidated basis. We refer to our former subsidiary Cuauhtémoc Moctezuma Holding, S.A. de C.V. (formerly FEMSA Cerveza, S.A. de C.V.) as Cuauhtémoc Moctezuma or FEMSA Cerveza, to our subsidiary Coca-Cola FEMSA, S.A.B. de C.V., as Coca-Cola FEMSA, to our subsidiary FEMSA Comercio, S.A. de C.V., as FEMSA Comercio. Our equity investment in Heineken, through subsidiaries of FEMSA, including CB Equity LLP, CB Equity, is referred to as the Heineken Investment. FEMSA Comercio comprises a Retail Division, Fuel Division and Health Division, which we refer to as the Retail Division, Fuel Division and Health Division, respectively.

The term S.A.B. stands for *sociedad anónima bursátil*, which is the term used in the United Mexican States, or Mexico, to denominate a publicly traded company under the Mexican Securities Market Law (*Ley del Mercado de Valores*), which we refer to as the Mexican Securities Law.

References to U.S. dollars, US\$, dollars or \$ are to the lawful currency of the United States of America (which we refer to as the United States). References to Mexican pesos, pesos or Ps. are to the lawful currency of Mexico. References to euros or € are to the lawful currency of the European Economic and Monetary Union (which we refer to as the Euro Zone).

As used in this annual report, sparkling beverages refers to non-alcoholic carbonated beverages. Still beverages refers to non-alcoholic non-carbonated beverages. Non-flavored waters, whether or not carbonated, are referred to as waters.

Currency Translations and Estimates

This annual report contains translations of certain Mexican peso amounts into U.S. dollars at specified rates solely for the convenience of the reader. These translations should not be construed as representations that the Mexican peso amounts actually represent such U.S. dollar amounts or could be converted into U.S. dollars at the rate indicated. Unless otherwise indicated, such U.S. dollar amounts have been translated from Mexican pesos at an exchange rate of Ps. 19.6395 to US\$ 1.00, the noon buying rate for Mexican pesos on December 29, 2017, as published by the U.S. Federal Reserve Board in its H.10 Weekly Release of Foreign Exchange Rates. On April 20, 2018, this exchange rate was Ps. 18.6145 to US\$ 1.00. See **Item 3. Key Information Exchange Rate Information** for information regarding exchange rates since 2013.

To the extent estimates are contained in this annual report, we believe that such estimates, which are based on internal data, are reliable. Amounts in this annual report are rounded, and the totals may therefore not precisely equal the sum of the numbers presented.

Per capita growth rates, consumer price indices and population data have been computed based upon statistics prepared by the *Instituto Nacional de Estadística, Geografía e Informática* of Mexico (National Institute of Statistics, Geography and Information, which we refer to as INEGI), the U.S. Federal Reserve Board and *Banco de México* (Bank of Mexico), local entities in each country and upon our estimates.

Forward-Looking Information

This annual report contains words such as believe, expect, anticipate and similar expressions that identify forward-looking statements. Use of these words reflects our views about future events and financial performance. Actual results could differ materially from those projected in these forward-looking statements as a result of various factors that may be beyond our control, including, but not limited to, effects on our company from changes in our relationship with or among our affiliated companies, movements in the prices of raw materials, competition, significant developments in Mexico and the other countries where we operate, our ability to successfully integrate mergers and acquisitions we have completed in recent years, international economic or political conditions or changes in our regulatory environment. Accordingly, we caution readers not to place undue reliance on these forward-looking statements. In any event, these statements speak only as of their respective dates, and we undertake no obligation to update or revise any of them, whether as a result of new information, future events or otherwise.

ITEMS 1-2. NOT APPLICABLE

ITEM 3. KEY INFORMATION

Selected Consolidated Financial Data

This annual report includes (under Item 18) our audited consolidated statements of financial position as of December 31, 2017 and 2016, and the related consolidated income statements, consolidated statements of comprehensive income, changes in equity and cash flows for the years ended December 31, 2017, 2016, and 2015. Our audited consolidated financial statements are prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

Pursuant to IFRS, the information presented in this annual report presents financial information for 2017, 2016, 2015, 2014 and 2013 in nominal terms in Mexican pesos, taking into account local inflation of any hyperinflationary economic environment and converting the inflation adjusted local currency to Mexican pesos using the exchange rate at the end of the period of each country categorized as a hyperinflationary economic environment (for this annual report, only Venezuela).

Furthermore, pursuant to IFRS, determined as a result of Venezuela s hyperinflationary economic environment and currency exchange regime, Coca-Cola FEMSA reported the results of its Venezuelan subsidiary, Coca-Cola FEMSA de Venezuela, S.A., or KOF Venezuela, as a separate consolidated reporting segment. Since its Venezuelan subsidiary will continue doing operations in Venezuela, Coca-Cola FEMSA changed the method of accounting for its investment in Venezuela from consolidation to fair value measured using a Level 3 concept as of December 31, 2017. Prior to December 31, 2017, Coca-Cola FEMSA s recognition of the operations of KOF Venezuela involved a three-step accounting process to (1) translate all transactions based in foreign currencies into bolivars, (2) restate all nonmonetary accounts to current bolivar by applying the general price index and (3) then translate the bolivar amounts to Mexican Pesos. We translated the Venezuela subsidiary figures at an exchange rate of 22,793 bolivars per U.S. dollar at December 31, 2017, which better represents the economic conditions in Venezuela that are not otherwise reflected in the market exchange rate (the exchange rate was not published by the local central bank). For further information, see Notes 3.3, and 3.4 to our audited consolidated financial statements. For each non-hyperinflationary economic environment, local currency is converted to Mexican pesos using the year-end exchange rate for assets and liabilities, the historical exchange rate for equity and the average exchange rate for the income statement. See Note 3.3 to our audited consolidated financial statements.

Our non-Mexican subsidiaries maintain their accounting records in the currency and in accordance with accounting principles generally accepted in the country where they are located. For presentation in our consolidated financial statements, we adjust these accounting records into IFRS and report in Mexican pesos under these standards.

Commencing on February 1, 2017 Coca-Cola FEMSA started consolidating the financial results of Coca-Cola FEMSA Philippines, Inc., or KOF Philippines, in Coca-Cola FEMSA s financial statements.

Except when specifically indicated, information in this annual report on Form 20-F is presented as of December 31, 2017 and does not give effect to any transaction, financial or otherwise, subsequent to that date.

The following table presents selected financial information of our company. This information should be read in conjunction with, and is qualified in its entirety by reference to, our audited consolidated financial statements, including the notes thereto. The selected financial information contained herein is presented on a consolidated basis, and is not necessarily indicative of our financial position or results at or for any future date or period. See Note 3 to our audited consolidated financial statements for our significant accounting policies.

(1) Translation to U.S. dollar amounts at an exchange rate of Ps. 19.6395 to US\$ 1.00 solely for the convenience of the reader.

(2) The exchange rate used to translate our operations in Venezuela as of and for the year ended on December 31, 2017 was an exchange rate of 22,793 bolivars to US\$ 1.00, compared to the year ended on December 31, 2016 which was the DICOM rate of 673.76 bolivars to US\$ 1.00 and compared to the year ended on December 31, 2015 which was the SIMADI rate of 198.70 bolivars to US\$ 1.00. See **Item 3. Key Information Selected Consolidated Financial Data** Note 3.3 of our audited consolidated financial statements.

(3) Includes results of Coca-Cola FEMSA Philippines (CCFPI or KOF Philippines) (formerly Coca-Cola Bottlers Philippines, Inc.), from February 2017 starting of consolidation accounting method. See **Item 4. Information on the Company The Company Corporate Background** and Note 4 to our audited consolidated financial statements.

(4) Includes results of Vonpar, S.A. (Vonpar or Group Vonpar), from December 2016, and other business acquisitions. See **Item 4. Information on the Company The Company Corporate Background** and Note 4 to our audited consolidated financial statements.

(5) Includes results of Socofar, S.A. (Socofar or Group Socofar), from October 2015, the Fuel Division from March 2015 and other business acquisitions. See **Item 4. Information on the Company The Company Corporate Background** and Note 4 of our audited consolidated financial statements.

(6) Includes results of KOF Philippines, from February 2013 using the equity method, Grupo Yoli, S.A. de C.V. (Group Yoli) from June 2013, Companhia Fluminense de Refrigerantes (Companhia Fluminense) from September 2013, Spaipa S.A. Indústria Brasileira de Bebidas (Spaipa) from November 2013 and other business acquisitions. See **Item 4. Information on the Company Coca-Cola FEMSA Corporate History**.

(7) Includes long-term debt minus the current portion of long-term debt.

Edgar Filing: MEXICAN ECONOMIC DEVELOPMENT INC - Form 20-F

- (8) Includes investments in property, plant and equipment, intangible and other assets, net of cost of long lived assets sold, and write-off.
- (9) Gross margin is calculated by dividing gross profit by total revenues.

Dividends

We have historically paid dividends per BD Unit (including in the form of American Depositary Shares, or ADSs) approximately equal to or greater than 1% of the market price on the date of declaration, subject to changes in our results and financial position, including due to extraordinary economic events and to the factors described in **Item 3. Key Information Risk Factors** that affect our financial condition and liquidity. These factors may affect whether or not dividends are declared and the amount of such dividends. We do not expect to be subject to any contractual restrictions on our ability to pay dividends, although our subsidiaries may be subject to such restrictions. Because we are a holding company with no significant operations of our own, we will have distributable profits and cash to pay dividends only to the extent that we receive dividends from our subsidiaries. Accordingly, we cannot assure you that we will pay dividends or as to the amount of any dividends.

The following table sets forth for each year the nominal amount of dividends per share that we declared in Mexican peso and U.S. dollar amounts and their respective payment dates for the 2013 to 2017 fiscal years:

Date Dividend Paid	Fiscal Year with Respect to which Dividend was Declared	Aggregate Amount of Dividend Declared	Per Series B Share Dividend	Per Series B Share Dividend ⁽⁷⁾	Per Series D Share Dividend	Per Series D Share Dividend ⁽⁷⁾

(1) The dividend payment for 2012 was divided into two equal payments in Mexican pesos. The first payment was payable on May 7, 2013 with a record date of May 6, 2013, and the second payment was payable on November 7, 2013 with a record date of November 6, 2013.

(2) The dividend payment declared in December 2013 was payable on December 18, 2013 with a record date of December 17, 2013.

(3) The dividend payment for 2014 was divided into two equal payments in Mexican pesos. The first payment was payable on May 7, 2015 with a record date of May 6, 2015, and the second payment was payable on November 5, 2015 with a record date of November 4, 2015. The dividend payment for 2014 was derived from the balance of the net tax profit account for the fiscal year ended December 31, 2013. See Note 22 to our audited consolidated financial statements.

(4) The dividend payment for 2015 was divided into two equal payments. The first payment was payable on May 5, 2016 with a record date of May 4, 2016, and the second payment was payable on November 3, 2016 with a record date of November 1, 2016. The dividend payment for 2015 was derived from the balance of the net tax profit account for the fiscal year ended December 31, 2013. See Note 22 to our audited consolidated financial statements.

(5) The dividend payment for 2016 was divided into two equal payments. The first payment was payable on May 5, 2017 with a record date of May 4, 2017, and the second payment was payable on November 3, 2017 with a record date of November 1, 2017. The dividend payment for 2016 was derived from the balance of the net tax profit account for the fiscal year ended December 31, 2013. See Note 22 to our audited consolidated financial statements.

(6) The dividend payment for 2017 will be divided into two equal payments. The first payment will become payable on May 4, 2018 with a record date of May 3, 2018 and the second payment will become payable on November 6, 2018 with a record date of November 5, 2018. The dividend payment for 2017 was derived from the balance of the net tax profit account for the fiscal year ended December 31, 2013. See Note 22 to our audited consolidated financial statements.

(7) Translations to U.S. dollars are based on the exchange rates on the dates the payments were made.

At the annual ordinary general shareholders meeting, or AGM, the board of directors submits the audited consolidated financial statements of our company for the previous fiscal year, together with a report thereon by the board of directors. Once the holders of Series B Shares have approved the audited consolidated financial statements, they determine the allocation of our net profits for the preceding year. Mexican law requires the allocation of at least 5% of net profits to a legal reserve, which is not subsequently available for distribution, until the amount of the legal reserve equals 20% of our paid in capital stock. As of the date of this report, the legal reserve of our company is fully constituted. Thereafter, the holders of Series B Shares may determine and allocate a certain percentage of net profits to any general or special reserve, including a reserve for open-market purchases of our shares. The remainder of net profits is available for distribution in the form of dividends to our shareholders. Dividends may only be paid if net profits are sufficient to offset losses from prior fiscal years.

Our bylaws provide that dividends will be allocated among the outstanding and fully paid shares at the time a dividend is declared in such manner that each Series D-B Share and Series D-L Share receives 125% of the dividend distributed in respect of each Series B Share. Holders of Series D-B Shares and Series D-L Shares are entitled to this dividend premium in connection with all dividends paid by us other than payments in connection with the liquidation of our company.

Subject to certain exceptions contained in the deposit agreement dated May 11, 2007, among FEMSA, The Bank of New York Mellon (formerly The Bank of New York), as ADS depository and holders and beneficial owners from time to time of our ADSs, evidenced by American Depositary Receipts, or ADRs, any dividends distributed to holders of our ADSs will be paid to the ADS depository in Mexican pesos and will be converted by the ADS depository into U.S. dollars. As a result, restrictions on conversion of Mexican pesos into foreign currencies may affect the ability of holders of our ADSs to receive U.S. dollars, and exchange rate fluctuations may affect the U.S. dollar amount actually received by holders of our ADSs.

Exchange Rate Information

The following table sets forth, for the periods indicated, the high, low, average and year-end noon exchange rate, expressed in Mexican pesos per US\$ 1.00, as published by the Federal Reserve Bank of New York. The rates have not been restated in constant currency units and therefore represent nominal historical figures.

Year ended December 31,	Exchange Rate			Year End
	High	Low	Average ⁽¹⁾	
2013	13.43	11.98	12.86	13.10
2014	14.79	12.85	13.35	14.75
2015	17.36	14.56	15.97	17.20
2016	20.84	17.19	18.70	20.62
2017	21.89	17.48	18.89	19.64

Risk Factors

Risks Related to Our Company

Coca-Cola FEMSA

Coca-Cola FEMSA's business depends on its relationship with The Coca-Cola Company, and changes in this relationship may adversely affect its business, financial condition, results of operations and prospects.

Substantially all of Coca-Cola FEMSA's sales are derived from sales of *Coca-Cola* trademark beverages. Coca-Cola FEMSA produces, markets, sells and distributes *Coca-Cola* trademark beverages through standard bottler agreements in the territories where Coca-Cola FEMSA operates. Coca-Cola FEMSA is required to purchase concentrate for all *Coca-Cola* trademark beverages from companies designated by The Coca-Cola Company, which price may be unilaterally determined from time to time by The Coca-Cola Company in all such territories. Coca-Cola FEMSA is also required to purchase sweeteners and other raw materials only from companies authorized by The Coca-Cola Company. **See Item 4. Information on the Company Coca-Cola FEMSA Coca-Cola FEMSA's Territories.** Pursuant to Coca-Cola FEMSA's bottler agreements, The Coca-Cola Company has the right to participate in the process for making certain decisions related to Coca-Cola FEMSA's business.

In addition, under Coca-Cola FEMSA's bottler agreements, Coca-Cola FEMSA is prohibited from bottling or distributing any other beverages without The Coca-Cola Company's authorization or consent, and Coca-Cola FEMSA may not transfer control of the bottler rights of any of its territories without prior consent from The Coca-Cola Company.

The Coca-Cola Company makes significant contributions to Coca-Cola FEMSA's marketing expenses, although it is not required to contribute a particular amount. Accordingly, The Coca-Cola Company may discontinue or reduce such contributions at any time.

Coca-Cola FEMSA depends on The Coca-Cola Company to continue with Coca-Cola FEMSA's bottler agreements. Coca-Cola FEMSA's bottler agreements are automatically renewable for ten-year terms, subject to the right of either party to give prior notice that it does not wish to renew the applicable agreement. In addition, these agreements generally may be terminated in the case of material breach. **See Item 10. Additional Information Material Contracts Material Contracts Relating to Coca-Cola FEMSA Bottler Agreements.** Termination of any such bottler agreement would prevent Coca-Cola FEMSA from selling *Coca-Cola* trademark beverages in the affected territory. The foregoing and any other adverse changes in Coca-Cola FEMSA's relationship with The Coca-Cola Company would have an adverse effect on Coca-Cola FEMSA's business, financial condition, results of operations and prospects.

The Coca-Cola Company has substantial influence on the conduct of Coca-Cola FEMSA's business, which may result in Coca-Cola FEMSA taking actions contrary to the interests of its shareholders other than The Coca-Cola Company.

The Coca-Cola Company has substantial influence on the conduct of Coca-Cola FEMSA's business. As of April 13, 2018, The Coca-Cola Company indirectly owned 27.8% of Coca-Cola FEMSA's outstanding capital stock, representing 37.0% of Coca-Cola FEMSA's capital stock with full voting rights. The Coca-Cola Company is entitled to appoint five of Coca-Cola FEMSA's maximum of 21 directors and the vote of at least two of them is required to approve certain actions by Coca-Cola FEMSA's board of directors. As of April 13, 2018, we indirectly owned 47.2% of Coca-Cola FEMSA's outstanding capital stock, representing 63.0% of Coca-Cola FEMSA's capital stock with full voting rights. We are entitled to appoint 13 of Coca-Cola FEMSA's maximum of 21 directors and all of Coca-Cola FEMSA's executive officers. We and The Coca-Cola Company together, or only us in certain circumstances, have the power to determine the outcome of all actions requiring approval by Coca-Cola FEMSA's board of directors, and we and The Coca-Cola Company together, or only us in certain circumstances, have the power to determine the outcome of all actions requiring approval of Coca-Cola FEMSA's shareholders. **See Item 10. Additional Information Material Contracts Material Contracts Relating to Coca-Cola FEMSA The Shareholders Agreement.** The interests of The Coca-Cola Company may be different from the interests of Coca-Cola FEMSA's other shareholders, which may result in Coca-Cola FEMSA taking actions contrary to the interests of such other shareholders.

Changes in consumer preferences and public concern about health related issues could reduce demand for some of Coca-Cola FEMSA's products.

The non-alcoholic beverage industry is evolving mainly as a result of changes in consumer preferences and regulatory actions. There have been different plans and actions adopted in recent years by governmental authorities in some of the countries where Coca-Cola FEMSA operates. These include increases in tax rates or the imposition of new taxes on the sale of beverages containing certain sweeteners, and other regulatory measures, such as restrictions on advertising for some of Coca-Cola FEMSA's products. Moreover, researchers, health advocates and dietary guidelines are encouraging consumers to reduce their consumption of certain types of beverages sweetened with sugar and High Fructose Corn Syrup (or HFCS). In addition, concerns over the environmental impact of plastic may reduce the consumption of Coca-Cola FEMSA's products sold in plastic bottles or result in additional taxes that could adversely affect consumer demand. Increasing public concern about these issues, new or increased taxes, other regulatory measures or our failure to meet consumers' preferences, could reduce demand for some of Coca-Cola FEMSA's products, which would adversely affect Coca-Cola FEMSA's business, financial condition, results of operations and prospects. See **Item 4. Information on the Company Coca-Cola FEMSA Business Strategy.**

The reputation of Coca-Cola trademarks and trademark infringement could adversely affect Coca-Cola FEMSA's business.

Substantially all of Coca-Cola FEMSA's sales are derived from sales of *Coca-Cola* trademark beverages owned by The Coca-Cola Company. Maintenance of the reputation and intellectual property rights of these trademarks is essential to Coca-Cola FEMSA's ability to attract and retain retailers and consumers and is a key driver for Coca-Cola FEMSA's success. Failure to maintain the reputation of *Coca-Cola* trademarks and/or to effectively protect these trademarks could have a material adverse effect on Coca-Cola FEMSA's business, financial condition, results of operations and prospects.

If Coca-Cola FEMSA is unable to protect its information systems against service interruption, misappropriation of data or breaches of security, Coca-Cola FEMSA's operations could be disrupted, which could have a material adverse effect on its business, financial condition, results of operations and prospects.

Coca-Cola FEMSA relies on networks and information systems and other technology, or information system, including the Internet and third-party hosted platforms and services to support a variety of business processes and activities, including procurement and supply chain, manufacturing, distribution, invoicing and collection of payments, and to store client and employee personal data. Coca-Cola FEMSA uses information systems to process financial information and results of operations for internal reporting purposes and to comply with regulatory financial reporting and legal and tax requirements. Because information systems are critical to many of Coca-Cola FEMSA's operating activities, Coca-Cola FEMSA's business may be impacted by system shutdowns, service disruptions or security breaches. In addition, such incidents could result in unauthorized disclosure of material confidential information. Coca-Cola FEMSA could be required to spend significant financial and other resources to remedy the damage caused by a security breach or to repair or replace networks and information systems. Any severe damage, disruption or shutdown in Coca-Cola FEMSA's information systems could have a material adverse effect on its business, financial condition, results of operations and prospects.

Negative or inaccurate information on social media could adversely affect Coca-Cola FEMSA's reputation.

In recent years, there has been a marked increase in the use of social media and similar platforms, including weblogs (blogs), social media websites, and other forms of Internet-based communications which allow individual access to a broad audience of consumers and other interested persons. Negative or inaccurate information concerning or affecting Coca-Cola FEMSA or the *Coca-Cola* trademarks may be posted on such platforms at any time. This information may harm Coca-Cola FEMSA's reputation without affording us an opportunity for redress or correction, which could in turn have a material adverse effect on Coca-Cola FEMSA's business, financial condition, results of operations and prospects.

Competition could adversely affect Coca-Cola FEMSA's business, financial condition, results of operations and prospects.

The beverage industry in the territories where Coca-Cola FEMSA operates is highly competitive. Coca-Cola FEMSA faces competition from other bottlers of sparkling beverages, such as *Pepsi* trademark products and other bottlers and distributors of local beverage brands, and from producers of low-cost beverages or B brands. Coca-Cola FEMSA also competes in beverage categories other than sparkling beverages, such as water, juice-based beverages, coffee, teas, milk, value-added dairy products, sports drinks, energy drinks and plant-based beverages. Coca-Cola FEMSA expects that it will continue to face strong competition in Coca-Cola FEMSA's beverage categories in all of Coca-Cola FEMSA's territories and anticipate that existing or new competitors may broaden their product lines and extend their geographic scope.

Although competitive conditions are different in each of Coca-Cola FEMSA's territories, we compete mainly in terms of price, packaging, effective promotional activities, access to retail outlets and sufficient shelf space, customer service, product innovation and product alternatives and the ability to identify and satisfy consumer preferences. See **Item 4. Information on the Company Coca-Cola FEMSA Competition**. Lower pricing and activities by Coca-Cola FEMSA's competitors and changes in consumer preferences may have an adverse effect on Coca-Cola FEMSA's business, financial condition, results of operations and prospects.

Water shortages or any failure to maintain existing concessions could adversely affect Coca-Cola FEMSA's business, financial condition, results of operations and prospects.

Water is an essential component of all of Coca-Cola FEMSA's products. Coca-Cola FEMSA obtains water from various sources in its territories, including springs, wells, rivers and municipal and state water companies pursuant to either concessions granted by governments in Coca-Cola FEMSA's various territories (including governments at the federal, state or municipal level) or pursuant to contracts.

Coca-Cola FEMSA obtains the vast majority of the water used in its production from municipal utility companies and pursuant to concessions to use wells, which are generally granted based on studies of the existing and projected groundwater supply. Coca-Cola FEMSA's existing water concessions or contracts to obtain water may be terminated by governmental authorities under certain circumstances and their renewal depends on several factors, including having paid all fees in full, having complied with applicable laws and obligations and receiving approval for renewal from local and/or federal water authorities. See **Item 4. Information on the Company Regulatory Matters Water Supply**. In some of Coca-Cola FEMSA's other territories, Coca-Cola FEMSA's existing water supply may not be sufficient to meet its future production needs, and the available water supply may be adversely affected by shortages or changes in governmental regulations and environmental changes.

We cannot assure you that water will be available in sufficient quantities to meet Coca-Cola FEMSA's future production needs or will prove sufficient to meet Coca-Cola FEMSA's water supply needs. Continued water scarcity in the regions where Coca-Cola FEMSA operates may adversely affect its business, financial condition, results of operations and prospects.

Increases in the prices of raw materials would increase Coca-Cola FEMSA's cost of goods sold and may adversely affect its business, financial condition, results of operations and prospects.

In addition to water, Coca-Cola FEMSA's most significant raw materials are (i) concentrate, which Coca-Cola FEMSA acquires from affiliates of The Coca-Cola Company, (ii) sweeteners and (iii) packaging materials.

Prices for *Coca-Cola* trademark beverages concentrate are determined by The Coca-Cola Company as a percentage of the weighted average retail price in local currency, net of applicable taxes. The Coca-Cola Company has the right to unilaterally change concentrate prices or change the manner in which such prices are calculated. In the past, The Coca-Cola Company has increased concentrate prices for *Coca-Cola* trademark beverages in some of the countries where Coca-Cola FEMSA operates. Coca-Cola FEMSA may not be successful in negotiating or implementing measures to mitigate the negative effect this may have in the pricing of Coca-Cola FEMSA's products or its results.

The prices for Coca-Cola FEMSA's other raw materials are driven by market prices and local availability, the imposition of import duties and restrictions and fluctuations in exchange rates. Coca-Cola FEMSA is also required to meet all of Coca-Cola FEMSA's supply needs (including sweeteners and packaging materials) from suppliers approved by The Coca-Cola Company, which may limit the number of suppliers available to Coca-Cola FEMSA. Coca-Cola FEMSA's sales prices are denominated in the local currency in each country where it operates, while the prices of certain materials, including those used in the bottling of Coca-Cola FEMSA's products, mainly polyethylene terephthalate (or PET), resin, preforms to make plastic bottles, finished plastic bottles, aluminum cans, HFCS and certain sweeteners, are paid in, or determined with reference to, the U.S. dollar, and therefore may increase if the U.S. dollar appreciates against the applicable local currency. Coca-Cola FEMSA cannot anticipate whether the U.S. dollar will appreciate or depreciate with respect to such local currencies in the future, and we cannot assure you that Coca-Cola FEMSA will be successful in mitigating any such fluctuations through derivative instruments or otherwise. **See Item 4. Information on the Company Coca-Cola FEMSA Raw Materials.**

Coca-Cola FEMSA's most significant packaging raw material costs arise from the purchase of PET resin, the price of which is related to crude oil prices and global PET resin supply. Crude oil prices have a cyclical behavior and are determined with reference to the U.S. dollar; therefore, high currency volatility may affect Coca-Cola FEMSA's average price for PET resin in local currencies. In addition, since 2010, international sugar prices have been volatile due to various factors, including shifting demand, availability and climate issues affecting production and distribution. In all of the countries where Coca-Cola FEMSA operates, other than Brazil, sugar prices are subject to local regulations and other barriers to market entry that cause Coca-Cola FEMSA to purchase sugar above international market prices. **See Item 4. Information on the Company Coca-Cola FEMSA Raw Materials.** We cannot assure you that its raw material prices will not further increase in the future or that Coca-Cola FEMSA will be successful in mitigating any such increase through derivative instruments or otherwise. Increases in the prices of raw materials would increase its cost of goods sold and adversely affect its business, financial condition, results of operations and prospects.

Taxes could adversely affect Coca-Cola FEMSA's business, financial condition, results of operations and prospects.

The countries where Coca-Cola FEMSA operates may adopt new tax laws or modify existing tax laws to increase taxes applicable to its business or products. Coca-Cola FEMSA's products are subject to certain taxes in many of the countries where it operates. **See Item 4. Information on the Company Regulatory Matters Taxation of Beverages.** The imposition of new taxes, increases in existing taxes, or changes in the interpretation of tax laws and regulation by tax authorities may have a material adverse effect on Coca-Cola FEMSA's business, financial condition, results of operations and prospects.

Tax legislation in some of the countries where Coca-Cola FEMSA operates has recently been subject to major changes. **See Item 4. Information on the Company Regulatory Matters Tax Reforms.** We cannot assure you that these reforms or other reforms adopted by governments in the countries where Coca-Cola FEMSA operates will not have a material adverse effect on its business, financial condition, results of operations and prospects.

Regulatory developments may adversely affect Coca-Cola FEMSA's business, financial condition, results of operations and prospects.

Coca-Cola FEMSA is subject to several laws and regulations in each of the territories where it operates. The principal areas in which Coca-Cola FEMSA is subject to laws and regulations are water, environment, labor, taxation, health and antitrust. Laws and regulations can also affect Coca-Cola FEMSA's ability to set prices for its products. **See Item 4. Information on the Company Regulatory Matters.** Changes in existing laws and regulations, the adoption of new laws or regulations, or a stricter interpretation or enforcement thereof in the countries where Coca-Cola FEMSA operates may increase its operating and compliance costs or impose restrictions on Coca-Cola FEMSA's operations which, in turn, may adversely affect its financial condition, business, results of operations and prospects. In particular, environmental standards are becoming more stringent in several of the countries where Coca-Cola FEMSA operates. There is no assurance that Coca-Cola FEMSA will be able to comply with changes in environmental laws and regulations within the timelines established by the relevant regulatory authorities. **See Item 4. Information on the Company Regulatory Matters Environmental Matters.**

Voluntary price restraints or statutory price controls have been imposed historically in several of the countries where Coca-Cola FEMSA operates. Currently, there are no price controls on Coca-Cola FEMSA's products in any of the territories where Coca-Cola FEMSA has operations, except for those voluntary price restraints in Argentina, where authorities directly supervise certain of Coca-Cola FEMSA's products sold through supermarkets as a measure to control inflation, and statutory price controls in the Philippines, where the government has imposed price controls on certain products considered as basic necessities, such as Coca-Cola FEMSA's bottled water. We cannot assure you that existing or future laws and regulations in the countries where Coca-Cola FEMSA operates relating to goods and services (in particular, laws and regulations imposing statutory price controls) will not affect Coca-Cola FEMSA's products, or that Coca-Cola FEMSA will not need to implement voluntary price restraints, which could have a negative effect on its business, financial condition, results of operations and prospects. **See Item 4. Information on the Company Regulatory Matters Price Controls.**

Unfavorable outcome of legal proceedings could have an adverse effect on Coca-Cola FEMSA's business, financial condition, results of operations and prospects.

Coca-Cola FEMSA's operations have from time to time been and may continue to be subject to investigations and proceedings by antitrust authorities relating to alleged anticompetitive practices. Coca-Cola FEMSA also has been subject to investigations and proceedings on tax, consumer protection, environmental, labor and commercial matters. We cannot assure you that these investigations and proceedings will not have an adverse effect on Coca-Cola FEMSA's business, financial condition, results of operations and prospects. **See Item 8. Financial Information Legal Proceedings.**

Weather conditions and natural disasters may adversely affect Coca-Cola FEMSA's business, financial condition, results of operations and prospects.

Lower temperatures, higher rainfall and other adverse weather conditions such as typhoons and hurricanes, as well as natural disasters such as earthquakes and floods, may negatively impact consumer patterns, which may result in reduced sales of Coca-Cola FEMSA's beverage offerings. Additionally, such adverse weather conditions and natural disasters may affect plant installed capacity, road infrastructure and points of sale in the territories where Coca-Cola FEMSA operates and limit its ability to produce, sell and distribute its products, thus affecting Coca-Cola FEMSA's business, financial condition, results of operations and prospects.

Coca-Cola FEMSA may not be able to successfully integrate its acquisitions and achieve the expected operational efficiencies or synergies.

Coca-Cola FEMSA has and it may continue to acquire bottling operations and other businesses. Key elements to achieving the benefits and expected synergies of Coca-Cola FEMSA's acquisitions and mergers are the integration of acquired or merged businesses' operations into Coca-Cola FEMSA's own in a timely and effective manner and the retention of qualified and experienced key personnel. Coca-Cola FEMSA may incur unforeseen liabilities in connection with acquiring, taking control of, or managing bottling operations and other businesses and may encounter difficulties and unforeseen or additional costs in restructuring and integrating them into Coca-Cola FEMSA's operating structure. We cannot assure you that these efforts will be successful or completed as expected by Coca-Cola FEMSA, and Coca-Cola FEMSA's business, financial condition, results of operations and prospects could be adversely affected if it is unable to do so.

FEMSA Comercio

Competition from other retailers in the markets where FEMSA Comercio operates could adversely affect its business, financial condition, results of operations and prospects.

The retail sector is highly competitive in the markets where FEMSA Comercio operates. The Retail Division participates in the retail sector primarily through its OXXO stores, which face competition from small-format stores such as 7-Eleven, Circle K, other numerous chains of grocery retailers across Mexico and other regional small-format retailers and small informal neighborhood stores. In particular, small informal neighborhood stores can sometimes avoid regulatory oversight and taxation, enabling them to sell certain products at prices below average market prices. In addition, these small informal neighborhood stores could improve their technological capabilities so as to enable credit card transactions and electronic payment of utility bills, which would diminish one of the Retail Division's competitive advantages.

In the pharmacy sector, FEMSA Comercio participates through the Health Division in Mexico, Chile and Colombia. In Mexico, it faces competition from other drugstore chains such as Farmacias Guadalajara, Farmacias del Ahorro and Farmacias Benavides, as well as regional and independent pharmacies, supermarkets and other informal neighborhood drugstores. In Chile, relevant competitors are chain drugstores such as Farmacias Ahumada and Salcobrand, while in Colombia, the most relevant competitors are Farmatodo, Olimpica, Farmacenter, La Rebaja and Colsubsidio.

For the Fuel Division, the opening of the Mexican fuel distribution market is expected to alter the competitive dynamics of the industry. The consolidation process, expected to take place as large companies and international competitors enter the market, may occur rapidly and materially alter the market dynamics in Mexico. Currently, the Fuel Division faces competition from small independently owned and operated service stations, regional chains such as Corpogas, Hidrosina, Petro-7, Orsan and international players such as British Petroleum and Shell.

Additionally, we expect the competitive landscape to continue to evolve as new technologies are developed based on changing consumer behavior. The continuing migration and evolution of retailing to on-line and mobile-based platforms for consumers may present competition in the retail space in the future that could adversely affect the Retail Division.

FEMSA Comercio may face additional competition from new market participants. The increase in competition may limit the number of new locations available and could require FEMSA Comercio to modify its product offering or pricing scheme. As a consequence, future competition may affect the financial situation, operation results and prospects of FEMSA Comercio.

FEMSA Comercio's points of sale performance may be adversely affected by changes in economic conditions in the markets where it operates.

The markets in which FEMSA Comercio operates are highly sensitive to economic conditions, because a decline in consumer purchasing power is often a consequence of an economic slowdown which, in turn, results in a decline in the overall consumption of main product categories. During periods of economic slowdown, FEMSA Comercio's points of sale may experience a decline in same-store traffic and average ticket per customer, which may result in a decline in overall performance. See **Item 5. Operating and Financial Review and Prospects Overview of Events, Trends and Uncertainties.**

FEMSA Comercio's business expansion strategy and entry into new markets and retail formats may lead to decreased profit margins.

FEMSA Comercio has recently entered into new markets through the acquisition of other small-format retail businesses such as quick-service restaurants. In recent years, the Retail Division and the Health Division have continued with this strategy. These new businesses are currently less profitable than OXXO and might therefore marginally dilute FEMSA Comercio's margins in the short to medium term.

Regulatory changes in the countries where we operate may adversely affect FEMSA Comercio's business.

In the markets where it operates, FEMSA Comercio is subject to regulation in areas such as labor, zoning, operations and related local permits and health and safety regulations. Changes in existing laws and regulations, the adoption of new laws or regulations, or a stricter interpretation or enforcement thereof in the countries where FEMSA Comercio operates may increase its operating and compliance costs or impose restrictions on its operations which, in turn, may adversely affect the financial situation, operation results and prospects of FEMSA Comercio's business. In addition, changes in current laws and regulations may negatively impact customer traffic, revenues, operational costs and commercial practices, which may have an adverse effect on the financial situation, operation results and prospects of FEMSA Comercio.

FEMSA Comercio s business depends heavily on information technology and a failure, interruption or breach of its IT systems could adversely affect it.

FEMSA Comercio s businesses rely heavily on advanced information technology (IT) systems to effectively manage its data, communications, connectivity and other business processes. FEMSA Comercio invests aggressively in IT to maximize its value generation potential. The development of IT systems, hardware and software needs to keep pace with the businesses growth due to the high speed at which the division adds new services and products to its commercial offerings. If these systems become obsolete or if the planning for future IT investments is inadequate, FEMSA Comercio businesses could be adversely affected.

Although FEMSA Comercio constantly improves and protects its IT systems with advanced security measures, they still may be subject to defects, interruptions or security breaches such as viruses or data theft. Such a defect, interruption or breach could adversely affect the financial situation, operation results and prospects of FEMSA Comercio.

FEMSA Comercio s business may be adversely affected by an increase in the price of electricity in the markets where it operates.

The performance of FEMSA Comercio s points of sale would be adversely affected by increases in the price of utilities on which the stores and stations depend, such as electricity. As an example, given the relevance of the Mexican market, the price of electricity in Mexico generally remained stable or decreased in recent years, with an exception for the second half of 2016 and 2017, when the price increased significantly. Electricity prices could potentially increase further as a result of inflation, shortages, interruptions in supply or other reasons, and such an increase could adversely affect the financial situation, operation results and prospects of FEMSA Comercio s business.

Tax changes in the countries where we operate could adversely affect FEMSA Comercio s business.

The imposition of new taxes, increases in existing taxes or changes in the interpretation of tax laws and regulations by tax authorities, may have a material adverse effect on the financial situation, operation results and prospects of FEMSA Comercio s business.

The Retail Division may not be able to maintain its historic growth rate.

The Retail Division increased the number of OXXO stores at a compound annual growth rate of 9.0% from 2013 to 2017. The growth in the number of OXXO stores has driven growth in total revenue and results at the Retail Division over the same period. As the overall number of stores increases, percentage growth in the number of OXXO stores is likely to slow. In addition, as small-format store penetration in Mexico grows, the number of viable new store locations may decrease, and new store locations may be less favorable in terms of same-store sales, average ticket and store traffic. Thus, our future results and financial situation may not be consistent with prior periods and may be characterized by lower growth rates in terms of total revenue and results of operations. In Chile and Colombia, OXXO stores may not be able to achieve or maintain historic growth rates like those in Mexico. We cannot assure that the revenues and cash flows of the Retail Division that come from future retail stores will be comparable with those generated by existing retail stores. See **Item 4. Information on the Company FEMSA Comercio Retail Division Store Locations.**

The Health Division s sales may be affected by a material change in institutional sale trends in some of the markets where it operates.

In some of the markets where we operate, our sales are highly dependent on institutional sales, as well as traditional, open-market sales. The institutional market involves public and private health care providers, and the performance of the Health Division could be affected by its ability to maintain and grow its client base.

The Health Division's performance may be affected by contractual conditions with its suppliers.

The Health Division, especially in Mexico, acquires the majority of its inventories and healthcare products from a limited number of suppliers. Its ability to maintain favorable conditions in its current price and service agreements could potentially affect the Health Division's operating and financial performance.

Energy regulatory changes may impact fuel prices and therefore adversely affect the Fuel Division's business.

The Fuel Division mainly sells gasoline and diesel through owned or leased retail service stations. Previously, the prices of these products were regulated in Mexico by the government agency named *Comisión Reguladora de Energía* (CRE or Energy Regulatory Commission). During 2017, fuel prices gradually began to follow the dynamics of the international fuel market, and in 2018 we expect them to continue to do so in accordance with the regulatory framework, which may also adversely affect the financial situation, operation results and prospects of the Fuel Division's business.

The Fuel Division's performance may be affected by changes in commercial terms with suppliers, or disruptions to the industry supply chain

The Fuel Division mainly purchases gasoline and diesel for its operations in Mexico. The fuel market in Mexico is currently undergoing structural changes that should gradually increase the number of suppliers. As the industry evolves, commercial terms for the Fuel Division could deteriorate in the future, and potential disruptions to the order of the supply chain to our gas stations could adversely impact the financial performance and prospects of the Fuel Division.

The Fuel Division's business could be affected by new safety and environmental regulations enforced by the government, global environmental regulations and new energy technologies.

Federal, state and municipal laws and regulations for the installation and operation of service stations are becoming more stringent. Compliance with these laws and regulations is often difficult and costly. Global trends to reduce the consumption of fossil fuels through incentives and taxes could push sales of these fuels at service stations to slow or decrease in the future and automotive technologies, including efficiency gains in traditional fuel vehicles and increased popularity of alternative fuel vehicles, such as electric and liquefied petroleum gas (LPG) vehicles, have caused a significant reduction in fuel consumption globally. Other new technologies could further reduce the sale of traditional fuels, all of which could adversely affect operation results and financial situation of the Fuel Division. **See Item 4. Information on the Company Regulatory Matters Environmental Matters.**

Risks Related to Mexico and the Other Countries Where We Operate

Adverse economic conditions in Mexico may adversely affect our financial position and results.

We are a Mexican corporation and our Mexican operations are our single most important geographic territory. For the year ended December 31, 2017, 63% of our consolidated total revenues were attributable to Mexico. During 2015 and 2016 the Mexican gross domestic product, or GDP, increased by approximately 2.6% and 2.3% respectively, and in 2017 it increased by approximately 2.3% on an annualized basis compared to 2016, due to stronger performance in the services and primary sectors, which were partially offset by lower volumes and higher prices in the oil and gas industries. We cannot assure that such conditions will not slow down in the future or will not have a material adverse effect on our business, financial condition, results of operations and prospects going forward. The Mexican economy continues to be heavily influenced by the U.S. economy, and therefore, deterioration in economic conditions in, or delays in the recovery of, the U.S. economy may hinder any recovery. In the past, Mexico has experienced both prolonged periods of weak economic conditions and deteriorations in economic conditions that have had a negative impact on our results.

Our business may be significantly affected by the general condition of the Mexican economy, or by the rate of inflation in Mexico, interest rates in Mexico and exchange rates for, or exchange controls affecting, the Mexican peso. Decreases in the growth rate of the Mexican economy, periods of negative growth and/or increases in inflation or interest rates may result in lower demand for our products, lower real pricing of our products or a shift to lower margin products. Because a large percentage of our costs and expenses are fixed, we may not be able to reduce costs and expenses upon the occurrence of any of these events and our profit margins may suffer as a result.

In addition, an increase in interest rates in Mexico would increase the cost of our debt and would cause an adverse effect on our financial position and results. Mexican peso-denominated debt (including currency hedges) constituted 39.6% of our total debt as of December 31, 2017.

Depreciation of the Mexican peso and of our other local currencies relative to the U.S. dollar could adversely affect our financial position and results.

Depreciation of the Mexican peso and of our other local currencies relative to the U.S. dollar increases the cost of a portion of the raw materials we acquire, the price of which is paid in or determined with reference to U.S. dollars, and of our debt obligations denominated in U.S. dollars, and thereby negatively affects our financial position and results. A severe devaluation or depreciation of the Mexican peso, which is our main operating currency, may result in disruption of the international foreign exchange markets and may limit our ability to transfer or to convert Mexican pesos into U.S. dollars and other currencies for the purpose of making timely payments of interest and principal on our U.S. dollar-denominated debt or obligations in other currencies. The Mexican peso is a free-floating currency and, as such, it experiences exchange rate fluctuations relative to the U.S. dollar over time. During 2017, the Mexican peso appreciated relative to the U.S. dollar by approximately 4.8% compared to 2016. During 2016 and 2015, the Mexican peso experienced fluctuations relative to the U.S. dollar consisting of 19.9% of depreciation and 16.6% of depreciation respectively, compared to the years of 2015, 2014. Through April 20, 2018, the Mexican peso has appreciated 5.2% since December 29, 2017.

While the Mexican government does not currently restrict, and since 1982 has not restricted, the right or ability of Mexican or foreign persons or entities to convert Mexican pesos into U.S. dollars or to transfer other currencies out of Mexico, the Mexican government could impose restrictive exchange rate policies in the future, as it has done in the past. Currency fluctuations may have an adverse effect on our financial position, results and cash flows in future periods.

When the financial markets are volatile, as they have been in recent periods, our results may be substantially affected by variations in exchange rates and commodity prices and, to a lesser degree, interest rates. These effects include foreign exchange gain and loss on assets and liabilities denominated in U.S. dollars, fair value gain and loss on derivative financial instruments, commodities prices and changes in interest income and interest expense. These effects can be much more volatile than our operating performance and our operating cash flows. **See Item 11. Quantitative and Qualitative Disclosures about Market Risk Foreign Currency Exchange Rate Risk.**

Political events in Mexico could adversely affect our operations.

Mexican political events may significantly affect our operations. The most recent presidential and congressional elections took place in July 2012 and 2015, respectively. Enrique Peña Nieto, a member of the Institutional Revolutionary Party (*Partido Revolucionario Institucional* or PRI), was elected President of Mexico and took office on December 1, 2012. Mexico's next presidential election will be in July 2018. We cannot predict whether potential changes in Mexican governmental and economic policy could adversely affect economic conditions in Mexico or the sector in which we operate. The Mexican president strongly influences new policies and governmental actions regarding the Mexican economy, and the new administration could implement substantial changes in law, policy and regulations in Mexico, which could negatively affect our business, financial condition, results of operations and prospects. In response to these actions, opponents of the administration could react with, among other things, riots, protests and looting that could negatively affect our operations.

Furthermore, no single party has a majority in the Senate or the *Cámara de Diputados* (House of Representatives). Mexican congressional elections held in June 2015 in the lower house resulted in a relative majority (29.18%) for the PRI, but the PRI still lacks an absolute majority. The absence of a clear majority by a single party could result in government gridlock and political uncertainty on further reforms and secondary legislation to modernize key sectors of the Mexican economy. Mexico's next federal legislative election will be in July 2018 for both the Senate and House of Representatives. We cannot provide any assurances that political developments in Mexico, over which we have no control, will not have an adverse effect on our business, financial condition, results of operations and prospects.

Economic, political and social conditions in Mexico and other countries may adversely affect our results.

Many countries worldwide, including Mexico, have suffered significant economic, political and social volatility in recent years, and this may occur again in the future. Global instability has been caused by many different factors, including substantial fluctuations in economic growth, high levels of inflation, changes in currency values, changes in governmental economic or tax policies and regulations and overall political, social and economic instability. We cannot assure you that such conditions will not return or that such conditions will not have a material adverse effect on our financial situation and results.

The Mexican economy and the market value of securities issued by Mexican issuers may be, to varying degrees, affected by economic and market conditions in other emerging market countries and in the United States. Furthermore, economic conditions in Mexico are highly correlated with economic conditions in the United States as a result of the North American Free Trade Agreement (NAFTA), and increased economic activity between the two countries. In November 2016, presidential elections took place in the United States that resulted in a change of the nation's leadership. President Donald Trump has made public his intention to terminate or re-negotiate the terms of NAFTA, but the content of any potential revisions has not been specified. Furthermore, President Donald Trump has stated that if Canada and Mexico do not agree to the United States' terms to re-negotiate the pact, the United States may withdraw from NAFTA. However, there can be no assurance as to what the U.S. administration will do, and the impact of these measures or any others adopted by the new U.S. administration cannot be predicted.

Adverse economic conditions in the United States, the termination or re-negotiation of NAFTA in North America or other related events could have an adverse effect on the Mexican economy. Although economic conditions in other emerging market countries and in the United States may differ significantly from economic conditions in Mexico, investors' reactions to developments in other countries may have an adverse effect on the market value of securities of Mexican issuers or of Mexican assets. There can be no assurance that future developments in other emerging market countries and in the United States, over which we have no control, will not have a material adverse effect on our financial situation and results.

Natural disasters could adversely affect our business.

From time to time, different regions of Mexico and certain areas of the other countries in which we operate experience torrential rains and hurricanes, as well as earthquakes. FEMSA Comercio's points of sales and some operating facilities have been affected by hurricanes and other weather events in the past, which have resulted in temporary closures and losses. Natural disasters may impede operations, damage facilities necessary to our operations and adversely affect the purchasing power of our clients. Also, any of these events could force us to increase our capital expenditures to put our stores back in operation. Accordingly, the occurrence of natural disasters in the locations where we have operations could adversely affect our business, results of operations and financial condition. **See Item 4. Information on the Company Insurance.**

Technology and cyber-security risks.

We use information systems to operate our business, to process financial information and results of operations for internal reporting purposes and to comply with regulatory financial reporting and legal and tax requirements. Because information systems are critical to many of our operating activities, our business may be impacted by system shutdowns, service disruptions or security breaches, such as failures during routine operations, network or hardware failures, malicious or disruptive software, unintentional or malicious actions of employees or contractors, cyber-attacks by common hackers, criminal groups or nation-state organizations or social-activist (hacktivist) organizations, natural disasters, failures or impairments of telecommunication networks or other catastrophic events. Such incidents could result in unauthorized disclosure of material confidential information, and we could experience delays in reporting our financial results. In addition, misuse, leakage or falsification of information could result in violations of data privacy laws and regulations, damage our reputation and credibility and, therefore, could have a material adverse effect on our financial situation and results, or may require us to spend significant financial and other resources to remedy the damage caused by a security breach or to repair or replace networks and information systems.

Security risks in Mexico could increase, and this could adversely affect our results.

In recent years, Mexico has experienced a period of increasing criminal activity, primarily due to organized crime. The presence of violence among drug cartels, and between these and the Mexican law enforcement and armed forces, pose a risk to our business. Historically, these incidents have been relatively concentrated along the northern Mexican border, and during 2017 in certain other Mexican states such as Tabasco, Baja California, Estado de Mexico, Morelos and Colima. The north of Mexico is an important region for some of our FEMSA Comercio operations, and an increase in crime rates could negatively affect our sales and customer traffic, increase our security expenses, and result in higher turnover of personnel or damage to the perception of our brands. This situation could worsen and adversely impact our business and financial results because consumer habits and patterns adjust to the increased perceived and real security risks, as people refrain from going out as much and gradually shift some on-premise consumption to off-premise consumption of food and beverages on certain social occasions.

Depreciation of local currencies in other Latin American countries where we operate may adversely affect our financial position.

The devaluation of the local currencies against the U.S. dollar in our non-Mexican territories can increase our operating costs in these countries, and depreciation of the local currencies against the Mexican peso can negatively affect the translation of our results for these countries. In recent years, the Venezuelan currency has been volatile against the Mexican peso. During 2017, in addition to the Venezuelan currency, the currency of Argentina also depreciated against the Mexican peso. Future currency devaluation or the imposition of exchange controls in any of these countries, or in Mexico, would have an adverse effect on our financial position and results.

We have operated under exchange controls in Venezuela since 2003, which limit our ability to remit dividends abroad or make payments other than in local currency and that may increase the real price paid for raw materials and services purchased in local currency. Prior to 2014, we had historically used the official exchange rate in our Venezuelan operations. Commencing in 2014, the Venezuelan government announced a series of changes to the Venezuelan exchange control regime allowing the use of alternative exchange rates in addition to the official exchange rate.

In February 2016, the Venezuelan government announced a 37% devaluation of the official exchange rate and changed the existing three-tier exchange rate system into a dual system by combining the official exchange rate and the SICAD exchange rate into a single official exchange rate and maintaining the SIMADI exchange rate.

Coca-Cola FEMSA translated its results of operations in Venezuela for the year ended December 31, 2017 into Mexican pesos using an exchange rate of 22,793 bolivars per U.S. dollar. As explained in Note 3.3 to our audited consolidated financial statements, as of December 31, 2017, the exchange rate used to translate the financial statements of our Venezuelan subsidiary for reporting purposes into the consolidated financial statements was 22,793 bolivars per U.S. dollar which reflects management's judgment about the effects of the economic environment in Venezuela on the variability in the exchange rate.

More generally, future currency devaluations or the imposition of exchange controls in any of the countries where we operate may potentially increase our operating costs, which could have an adverse effect on our financial position and results of operations. **See Item 11. Quantitative and Qualitative Disclosures about Market Risk Foreign Currency Exchange Rate Risk.**

Risks Related to the Heineken Investment

FEMSA does not control Heineken N.V.'s and Heineken Holding N.V.'s decisions.

On April 30, 2010, FEMSA announced the closing of the transaction pursuant to which FEMSA agreed to exchange 100% of its beer operations for a 20% economic interest in Heineken N.V. and Heineken Holding N.V. (which, together with their respective subsidiaries, we refer to as Heineken or the Heineken Group). As a consequence of this transaction, which we refer to as the Heineken transaction, FEMSA participates in the Heineken Holding N.V. Board of Directors, which we refer to as the Heineken Holding Board, and in the Heineken N.V. Supervisory Board, which we refer to as the Heineken Supervisory Board. However, FEMSA is not a majority or controlling shareholder of Heineken N.V. or Heineken Holding N.V., nor does it control the decisions of the Heineken Holding Board or the Heineken Supervisory Board. Therefore, the decisions made by the majority or controlling shareholders of Heineken N.V. or Heineken Holding N.V. or the Heineken Holding Board or the Heineken Supervisory Board may not be consistent with or may not consider the interests of FEMSA's shareholders or may be adverse to the interests of FEMSA's shareholders. Additionally, FEMSA has agreed not to disclose non-public information and decisions taken by Heineken. On September 21, 2017, FEMSA completed the sale of a 5.24% of combined shareholding in the Heineken Group, reducing our economic interest from 20% to 14.76%. FEMSA's aforementioned governance rights did not change as a result of the sale.

Heineken operates in a large number of countries.

Heineken is a global brewer and distributor of beer in a large number of countries. Because of the Heineken Investment, FEMSA shareholders are indirectly exposed to the political, economic and social circumstances affecting the markets in which Heineken is present, which may have an adverse effect on the value of FEMSA's interest in Heineken, and, consequently, the value of FEMSA shares.

The Mexican peso may strengthen compared to the Euro.

In the event of a depreciation of the euro against the Mexican peso, the fair value of the Heineken Investment will be adversely affected. Furthermore, the cash flow that is expected to be received in the form of dividends from Heineken will be in euros, and therefore, in the event of a depreciation of the euro against the Mexican peso, the amount of expected cash flow will be adversely affected. **Item 11. Quantitative and Qualitative Disclosures about Market Risk Foreign Currency Exchange Rate Risk.**

Heineken N.V. and Heineken Holding N.V. are publicly listed companies.

Heineken N.V. and Heineken Holding N.V. are listed companies whose stocks trade publicly and are subject to market fluctuation. A reduction in the price of Heineken N.V. or Heineken Holding N.V. shares would result in a reduction in the economic value of the Heineken Investment.

Risks Related to Our Principal Shareholders and Capital Structure

A majority of our voting shares are held by a voting trust, which effectively controls the management of our company, and the interests of which may differ from those of other shareholders.

As of March 16, 2018, the voting trust owned 38.69% of our capital stock and 74.86% of our capital stock with full voting rights, consisting of Series B Shares. Consequently, the voting trust has the power to elect a majority of the members of our board of directors and to play a significant or controlling role in the outcome of substantially all matters to be decided by our board of directors or our shareholders. The interests of the voting trust may differ from those of our other shareholders. See **Item 7. Major Shareholders and Related-Party Transactions** and **Item 10. Additional Information Bylaws Voting Rights and Certain Minority Rights.**

Holders of Series D-B and D-L Shares have limited voting rights.

Holders of Series D-B and D-L Shares have limited voting rights and are only entitled to vote on specific matters, such as certain changes in the form of our corporate organization, dissolution or liquidation, a merger with a company with a distinct corporate purpose, a merger in which we are not the surviving entity, a change of our jurisdiction of incorporation, the cancellation of the registration of the Series D-B and D-L Shares and any other matters that expressly require approval from such holders under the Mexican Securities Law. As a result of these limited voting rights, Series D-B and D-L holders will not be able to influence our business or operations. See **Item 7. Major Shareholders and Related-Party Transactions Major Shareholders** and **Item 10. Additional Information Bylaws Voting Rights and Certain Minority Rights.**

Holders of ADSs may not be able to vote at our shareholder meetings.

Our shares are traded on the New York Stock Exchange, or NYSE, in the form of ADSs. We cannot assure that holders of our shares in the form of ADSs will receive notice of shareholders' meetings from our ADS depository in sufficient time to enable such holders to return voting instructions to the ADS depository in a timely manner. In the event that instructions are not received with respect to any shares underlying ADSs, the ADS depository will, subject to certain limitations, grant a proxy to a person designated by us in respect of these shares. In the event that this proxy is not granted, the ADS depository will vote these shares in the same manner as the majority of the shares of each class for which voting instructions are received.

Holders of BD Units in the United States and holders of ADSs may not be able to participate in any future preemptive rights offering and as a result may be subject to dilution of their equity interests.

Under applicable Mexican law, if we issue new shares for cash as a part of a capital increase, other than in connection with a public offering of newly issued shares or treasury stock, we are generally required to grant our shareholders the right to purchase a sufficient number of shares to maintain their existing ownership percentage. Rights to purchase shares in these circumstances are known as preemptive rights. By law, we may not allow holders of our shares or ADSs who are located in the United States to exercise any preemptive rights in any future capital increases unless (1) we file a registration statement with the U.S. Securities and Exchange Commission, which we refer to as the SEC, with respect to that future issuance of shares or (2) the offering qualifies for an exemption from the registration requirements of the U.S. Securities Act of 1933. At the time of any future capital increase, we will evaluate the costs and potential liabilities associated with filing a registration statement with the SEC, as well as the benefits of preemptive rights to holders of our shares in the form of ADSs in the United States and any other factors that we consider important in determining whether to file a registration statement.

We may decide not to file a registration statement with the SEC to allow holders of our shares or ADSs who are located in the United States to participate in a preemptive rights offering. In addition, under current Mexican law, the sale by the ADS depository of preemptive rights and the distribution of the proceeds from such sales to the holders of our shares in the form of ADSs is not possible. As a result, the equity interest of holders of our shares in the form of ADSs would be diluted proportionately. See **Item 10. Additional Information Bylaws Preemptive Rights.**

The protections afforded to minority shareholders in Mexico are different from those afforded to minority shareholders in the United States.

Under Mexican law, the protections afforded to minority shareholders are different from, and may be less than, those afforded to minority shareholders in the United States. Mexican laws do not provide a remedy to shareholders relating to violations of fiduciary duties. There is no procedure for class actions as such actions are conducted in the United States and there are different procedural requirements for bringing shareholder lawsuits against directors for the benefit of companies. Therefore, it may be more difficult for minority shareholders to enforce their rights against us, our directors or our controlling shareholders than it would be for minority shareholders of a United States company.

Investors may experience difficulties in enforcing civil liabilities against us or our directors, officers and controlling persons.

FEMSA is organized under the laws of Mexico, and most of our directors, officers and controlling persons reside outside the United States. In addition, nearly all or a substantial portion of our assets and the assets of our subsidiaries are located outside the United States. As a result, it may be difficult for investors to effect service of process within the United States on such persons or to enforce judgments against them, including any action based on civil liabilities under the U.S. federal securities laws. There is doubt as to the enforceability against such persons in Mexico, whether in original actions or in actions to enforce judgments of U.S. courts, of liabilities based solely on the U.S. federal securities laws.

Developments in other countries may adversely affect the market for our securities.

The market value of securities of Mexican companies is, to varying degrees, influenced by economic and securities market conditions in other emerging market countries. Although economic conditions are different in each country, investors' reactions to developments in one country can have effects on the securities of issuers in other countries, including Mexico. We cannot assure you that events elsewhere, especially in emerging markets, will not adversely affect the market value of our securities.

The failure or inability of our subsidiaries to pay dividends or other distributions to us may adversely affect us and our ability to pay dividends to holders of ADSs.

We are a holding company. Accordingly, our cash flows are principally derived from dividends, interest and other distributions made to us by our subsidiaries. Currently, our subsidiaries do not have contractual obligations that require them to pay dividends to us. In addition, debt and other contractual obligations of our subsidiaries may in the future impose restrictions on our subsidiaries' ability to make dividend or other payments to us, which in turn may adversely affect our ability to pay dividends to shareholders and meet our debt and other obligations. As of March 31, 2018, we had no restrictions on our ability to pay dividends. Further, our non-controlling shareholder position in Heineken means that we will be unable to require payment of dividends with respect to the Heineken Investment.

ITEM 4. INFORMATION ON THE COMPANY

The Company

Overview

We are a Mexican company, and our origin dates back to 1890. Our company was incorporated on May 30, 1936 and has a duration of 99 years. The duration can be extended indefinitely by resolution of our shareholders. Our legal name is Fomento Económico Mexicano, S.A.B. de C.V., and in commercial and business contexts we frequently refer to ourselves as FEMSA. Our principal headquarters are located at General Anaya No. 601 Pte., Colonia Bella Vista, Monterrey, Nuevo León 64410, Mexico. Our telephone number at this location is (+52-81) 8328-6000. Our website is www.femsa.com. We are organized as a *sociedad anónima bursátil de capital variable* under the laws of Mexico.

We are a leading company that participates in the following businesses:

In the beverage industry through Coca-Cola FEMSA, the largest franchise bottler of Coca-Cola products in the world by volume;

In the retail industry through FEMSA Comercio, comprising the Retail Division operating various small-format store chains including OXXO, the Fuel Division, operating the OXXO GAS chain of retail service stations, and the Health Division, which includes drugstores and related operations;

In the beer industry, through the Heineken Investment, which is the second largest equity holding in Heineken, one of the world's leading brewers with operations in over 70 countries; and

In other ancillary businesses, through FEMSA Strategic Businesses, including logistics services, point-of-sale refrigeration and plastics solutions.

Corporate Background

FEMSA traces its origins to the establishment of Mexico's first brewery, Cervecería Cuauhtémoc, S.A., which was established in 1890. It was founded by five Monterrey businessmen: Francisco Sada Gómez, José A. Muguerza Crespo, Isaac Garza Garza, José Calderón Penilla and Joseph M. Schneider. Descendants of certain of the founders of Cervecería Cuauhtémoc, S.A. are participants of the voting trust that controls the management of our company.

The strategic integration of the company dates back to 1936 when its packaging operations were established to supply crown caps to the brewery. During this period, these operations were part of what was known as the Monterrey Group, which also included interests in banking and steel businesses and other packaging operations.

In 1974, the Monterrey Group was split between two branches of the descendants of the founding families of Cervecería Cuauhtémoc, S.A. The steel and other packaging operations formed the basis for the creation of Corporación Siderúrgica, S.A. (now Alfa, S.A.B. de C.V.), controlled by the Garza Sada family, and the beverage and banking operations were consolidated under the Valores Industriales, S.A. de C.V. (the corporate predecessor of FEMSA) corporate umbrella controlled by the Garza Lagüera family. FEMSA's shares were first listed on what is now the Bolsa Mexicana de Valores, S.A.B. de C.V. (which we refer to as the Mexican Stock Exchange) on September 19, 1978. Between the decades of 1970 and 1980, FEMSA diversified its operations through acquisitions in the soft drinks and mineral water industries, the establishment of the first stores under the trade name OXXO and other investments in non-core businesses that were subsequently divested.

In the 1990s, we began a series of strategic transactions to strengthen the competitive positions of our operating subsidiaries. These transactions included the sale of a 30% strategic interest in Coca-Cola FEMSA to a wholly-owned subsidiary of The Coca-Cola Company and a subsequent public offering of Coca-Cola FEMSA shares, both of which occurred in 1993. Coca-Cola FEMSA listed its L shares on the Mexican Stock Exchange and, in the form of American Depositary Shares, or ADSs, on the New York Stock Exchange, or NYSE.

In 1998, we completed a reorganization that united the shareholders of FEMSA and the former shareholders of Grupo Industrial Emprex, S.A. de C.V. (which we refer to as Emprex) at the same corporate level through an exchange offer that was consummated on May 11, 1998. As part of the reorganization, FEMSA listed ADSs on the NYSE representing BD Units and listed the BD Units and B Units on the Mexican Stock Exchange.

In May 2003, our subsidiary Coca-Cola FEMSA expanded its operations throughout Latin America by acquiring 100% of Panamerican Beverages, Inc. (which we refer to as Panamco), then the largest soft drink bottler in Latin America in terms of sales volume in 2002. Through its acquisition of Panamco, Coca-Cola FEMSA began producing and distributing *Coca-Cola* trademark beverages in additional territories in Mexico, Central America, Colombia, Venezuela and Brazil, along with bottled water, beer and other beverages in some of these territories.

In April 2008, FEMSA's shareholders approved a proposal to amend our bylaws in order to preserve the unit structure for our shares that has been in place since May 1998 and to maintain our existing share structure beyond May 11, 2008. Following the shareholder approvals of April 2008, absent shareholder action, our share structure will continue to be composed of Series B Shares, which must represent not less than 51% of our outstanding capital stock, and Series D-B and Series D-L Shares, which together may represent up to 49% of our outstanding capital stock. Our Unit structure, absent shareholder action, will continue to consist of B Units, which bundle five Series B Shares, and BD Units, which bundle one Series B Share, two Series D-B Shares and two Series D-L Shares. See **Item 9. The Offer and Listing Description of Securities.**

In January 2010, FEMSA entered into an agreement under which FEMSA exchanged its brewery business of Cuauhtémoc Moctezuma for a 20% economic interest in the Heineken Group, one of the world's leading brewers. Under the terms of this transaction, which closed in April 2010, FEMSA received 43,018,320 shares of Heineken Holding N.V. and 43,009,699 shares of Heineken N.V., with an additional 29,172,504 shares of Heineken N.V. (which shares we refer to as the Allotted Shares) delivered pursuant to an allotted share delivery instrument, or the ASDI, with the final installment delivered in October 2011. On September 18, 2017, FEMSA completed the sale of Heineken N.V. shares representing 3.90% of issued share capital of Heineken N.V. and the sale of Heineken Holding N.V. shares representing 2.67% of the issued share capital of Heineken Holding N.V., reducing our aggregate economic interest in the Heineken Group from 20% to 14.76%.

In January 2013, Coca-Cola FEMSA acquired a 51.0% non-controlling majority stake in KOF Philippines from The Coca-Cola Company. Since January 2017, Coca-Cola FEMSA controls KOF Philippines, as all decisions relating to the day-to-day operation and management of KOF Philippines's business, including its annual normal operations plan, are approved by a majority of its board of directors without requiring the affirmative vote of any director appointed by The Coca-Cola Company.

In May 2013, FEMSA Comercio through one of its subsidiaries, Cadena Comercial de Farmacias, S.A.P.I. de C.V. (which we refer to as CCF), closed the acquisition of Farmacias YZA, a leading drugstore operator in Southeast Mexico. The founding shareholders of Farmacias YZA hold a 22.7% stake in CCF. In a separate transaction, also in May 2013, CCF acquired Farmacias FM Moderna, a leading drugstore operator in the western state of Sinaloa. In June 2015, CCF acquired 100% of Farmacias Farmacon, a regional pharmacy chain in the northwestern Mexican states of Sinaloa, Sonora, Baja California and Baja California Sur.

In March 2015, following changes to the legal framework resulting from the adoption of Mexico's energy reform, FEMSA Comercio began to acquire service station franchises of Petroleos Mexicanos (PEMEX) and obtain permits from PEMEX to operate such service stations as a franchisee. These acquisitions started taking place after two decades (1995-2015) of FEMSA Comercio providing operation services to retail service stations for fuels, motor oils and other car care products through agreements with third parties that owned PEMEX franchises.

In September 2015, FEMSA Comercio acquired 60% of Group Socofar, a leading South American drugstore operator based in Santiago, Chile. Socofar operated at that time, directly and through franchises, more than 600 drugstores and 150 beauty stores throughout Chile and over 150 drugstores throughout Colombia. FEMSA Comercio has the right to appoint the majority of the members of Socofar's board of directors and exercises day-to-day operating control over Socofar. As part of the shareholders agreement entered into with the former controlling shareholder, such minority shareholder has the right to appoint two members of the board of directors of Socofar.

In 2016, FEMSA Comercio, through its subsidiary Cadena Comercial USA Corporation, LLC. (Cadena Comercial USA), completed the acquisition of an 80% economic stake in Specialty s Café & Bakery, Inc. (Specialty s), which operates café restaurants in the states of California, Washington and Illinois. In January 2017, Cadena Comercial USA completed the acquisition of the remaining 20% economic stake in Specialty s becoming its sole owner.

In June 2016, FEMSA Comercio acquired Comercial Big John Limitada (Big John), a leading convenience store operator based in Santiago, Chile.

In December 2016, Coca-Cola FEMSA acquired Vonpar, a Brazilian bottler of *Coca-Cola* trademark products, with operations in the states of Rio Grande do Sul and Santa Catarina in Brazil. As part of their acquisition, Coca-Cola FEMSA also acquired an additional minority equity interest in Leão Alimentos e Bebidas, Ltda., or Leão Alimentos.

For more information on: (i) the Heineken transaction, see **Item 10. Additional Information Material Contracts**, (ii) FEMSA Comercio s recent transactions, see **Item 4. Information on the Company FEMSA Comercio Corporate History**, and (iii) Coca-Cola FEMSA s recent transactions, see **Item 4. Information on the Company Coca-Cola FEMSA Corporate History**.

Ownership Structure

We conduct our business through our principal subsidiary companies as shown in the following diagram and table:

Ownership Structure as of March 31, 2018

- (1) Compañía Internacional de Bebidas, S.A. de C.V., which we refer to as CIBSA.
- (2) Percentage of issued and outstanding capital stock owned by CIBSA (63% of Coca-Cola FEMSA's capital stock with full voting rights). See **Item 4. Information on the Company - Coca-Cola FEMSA - Capital Stock.**
- (3) Our Heineken Investment is held indirectly by subsidiaries of FEMSA, including CB Equity. Our economic interest in the Heineken Group decreased from 20.0% as of December 31, 2016 to 14.76% as of December 31, 2017 as a result of a partial disposition. See Note 4.2 to our audited consolidated financial statements. See **Item 4. Information on the Company - Corporate Background.**
- (4) Includes the Retail Division, the Health Division and the Fuel Division.

Significant Subsidiaries

The following table sets forth our significant subsidiaries as of December 31, 2017:

Name of Company	Jurisdiction of Establishment	Percentage Owned
CIBSA:	Mexico	100.0%
Coca-Cola FEMSA	Mexico	47.2% ⁽¹⁾
Emprex:	Mexico	100.0%
FEMSA Comercio	Mexico	100.0%
CB Equity	United Kingdom	100.0%

- (1) Percentage of capital stock. FEMSA, through CIBSA, owns 63% of the ordinary voting shares of Coca-Cola FEMSA.

The following table presents an overview of our operations by reportable segment and by geographic area:

Operations by Segment Overview

Year Ended December 31, 2017 and % of growth (decrease) vs. previous year

	Coca-Cola FEMSA ⁽⁴⁾		Retail Division		Health Division ⁽³⁾		Fuel Division	Heineken Investment		
	(in millions of Mexican pesos, except for employees and percentages)									
Total revenues	Ps. 203,780	15%	Ps. 154,204	12%	Ps. 47,421	9%	Ps. 38,388	34%	Ps.	
Gross Profit	91,685	15%	58,245	14%	14,213	12%	2,767	23%		
Share of the profit of associates and joint ventures accounted for using the equity method, net of taxes	60	(59%) ⁽¹⁾	5	(67%) ⁽²⁾					7,848	24%
Total assets	285,677	2%	68,820	15%	38,496	7%	4,678	28%	76,555	(30%) ⁽⁵⁾
Employees	101,686	19%	134,171	7%	21,493	1%	5,839	9%		

(1) Reflects the percentage decrease between the gain of Ps. 60 million recorded in 2017 and the gain of Ps. 147 million recorded in 2016.

(2) Reflects the percentage decrease between the gain of Ps. 5 million recorded in 2017 and the gain of Ps. 15 million recorded in 2016.

(3) The operations that compose the Health Division have been treated as a separate reportable segment since 2016.

(4) Includes results of CCFPI, with consolidation accounting method beginning February 2017 and the full year of Vonpar, which was consolidated in December 2016.

(5) Reflects sale of 5.24% combined economic interest in the Heineken Group.

Total Revenues Summary by Segment⁽¹⁾

	Year Ended December 31, 2017		
	2017	2016	2015
	(in millions of Mexican pesos)		
Coca-Cola FEMSA	Ps.203,780	Ps.177,718	Ps.152,360

Edgar Filing: MEXICAN ECONOMIC DEVELOPMENT INC - Form 20-F

- (1) The sum of the financial data for each geographic area differs from our consolidated financial information due to intercompany transactions, which are eliminated in consolidation.
- (2) Central America includes Guatemala, Nicaragua, Costa Rica and Panama. Domestic (Mexico-only) revenues were Ps. 288,783 million, Ps. 254,643 million and Ps. 218,809 million for the years ended December 31, 2017, 2016 and 2015, respectively.
- (3) South America includes Brazil, Colombia, Argentina and Chile. South America revenues include revenues from our operations in Brazil of Ps. 64,345 million, Ps. 48,924 million and Ps. 39,749 million; revenues from our operations in Colombia of Ps. 17,545 million, Ps. 17,027 million and Ps. 14,283 million; revenues from our operations in Argentina of Ps. 13,938 million, Ps. 12,340 million and Ps. 14,004 million; revenues from our operations in Chile of Ps. 40,660 million Ps. 36,631 million, and Ps. 7,586 million for the years ended December 31, 2017, 2016 and 2015, respectively.

Business Strategy

We understand the importance of connecting with our end consumers by interpreting their needs, and ultimately delivering the right products to them for the right occasions and the optimal value proposition. We strive to achieve this by developing brand value, expanding our significant distribution capabilities and improving the efficiency of our operations while aiming to reach our full potential. We continue to improve our information gathering and processing systems in order to better know and understand what our consumers want and need, and we are improving our production and distribution by more efficiently leveraging our asset base.

Our objective is to create economic, social and environmental value for our stakeholders including our employees, our consumers, our shareholders and the enterprises and institutions within our society now and into the future.

We believe that the competencies that our businesses have developed can be replicated in other geographic regions. This underlying principle guides our consolidation and growth efforts, which have led to our current continental footprint. We operate in Mexico, Central and South America and the Philippines including some of the most populous metropolitan areas in Latin America which provides us with opportunities to create value through both an improved ability to execute our strategies in complex markets and the use of superior commercial tools. We have also increased our capabilities to operate and succeed in other geographic regions by improving management skills in order to obtain a precise understanding of local consumer needs. Going forward, we intend to use those capabilities to continue our international expansion of both Coca-Cola FEMSA and FEMSA Comercio, expanding both our geographic footprint and our presence in the non-alcoholic beverage industry and in small box retail formats, as well as taking advantage of potential opportunities across markets to leverage our capability set.

Recent examples include our entry into the drugstore business in Mexico and South America, and into the fuel service station business in Mexico, where we are applying our retail and operational capabilities to develop attractive value propositions for consumers in these formats.

Coca-Cola FEMSA

Overview

Coca-Cola FEMSA is the largest franchise bottler of *Coca-Cola* trademark beverages in the world in terms of volume. Coca-Cola FEMSA operates in territories in the following countries:

Mexico a substantial portion of central Mexico, the southeast and northeast of Mexico.

Central America Guatemala (Guatemala City and surrounding areas), Nicaragua (nationwide), Costa Rica (nationwide) and Panama (nationwide).

Colombia most of the country.

Venezuela nationwide (through an investment in KOF Venezuela).

Brazil a major part of the states of Sao Paulo and Minas Gerais, the states of Parana, Santa Catarina and Mato Grosso do Sul and part of the states of Rio de Janeiro, Rio Grande do Sul and Goias.

Argentina Buenos Aires and surrounding areas.

The Philippines nationwide.

Coca-Cola FEMSA was organized on October 30, 1991 as a stock corporation with variable capital (*sociedad anónima de capital variable*) under the laws of Mexico for a term of 99 years. On December 5, 2006, as required by amendments to the Mexican Securities Market Law, Coca-Cola FEMSA became a publicly traded stock corporation with variable capital (*sociedad anónima bursátil de capital variable*). Coca-Cola

Edgar Filing: MEXICAN ECONOMIC DEVELOPMENT INC - Form 20-F

FEMSA's legal name is Coca-Cola FEMSA, S.A.B. de C.V. Coca-Cola FEMSA's principal executive offices are located at Calle Mario Pani No. 100, Colonia Santa Fe Cuajimalpa, Delegación Cuajimalpa de Morelos, 05348, Ciudad de México, México. Coca-Cola FEMSA's telephone number at this location is (52-55) 1519-5000. Coca-Cola FEMSA's website is www.coca-colafemsa.com.

The following is an overview of Coca-Cola FEMSA's operations by consolidated reporting segment in 2017.

Operations by Consolidated Reporting Segment Overview

Year Ended December 31, 2017

	Total Revenues (in millions of Mexican pesos, except percentages)		Gross Profit	
Mexico and Central America ⁽¹⁾	Ps. 92,643	45.5%	Ps. 45,106	49.2%
South America (excluding Venezuela) ⁽²⁾	86,608	42.5%	37,756	41.2%
Venezuela	4,005	2.0%	646	0.7%

Consolidated	Ps. 203,780	100.0%	Ps. 91,686	100.0%

(1) Includes Mexico, Guatemala, Nicaragua, Costa Rica and Panama.

(2) Includes Colombia, Brazil and Argentina.

(3) Includes results of KOF Philippines from February 1, 2017.

Corporate History

Coca-Cola FEMSA commenced operations in 1979, when a subsidiary of FEMSA acquired certain sparkling beverage bottlers in Mexico City and surrounding areas. In 1991, FEMSA transferred its ownership in the bottlers to FEMSA Refrescos, S.A. de C.V., Coca-Cola FEMSA's corporate predecessor. In June 1993, a subsidiary of The Coca-Cola Company subscribed for 30.0% of Coca-Cola FEMSA's capital stock in the form of Series D shares. In September 1993, FEMSA sold Series L shares that represented 19.0% of Coca-Cola FEMSA's capital stock to the public, and Coca-Cola FEMSA listed these shares on the Mexican Stock Exchange and, in the form of ADSs, on the NYSE.

In a series of transactions since 1994, Coca-Cola FEMSA has acquired new territories, brands and other businesses which today comprise its business. In May 2003, Coca-Cola FEMSA acquired Panamerican Beverages Inc., or Panamco, and began producing and distributing *Coca-Cola* trademark beverages in additional territories in the central, southeastern and northeastern regions of Mexico and in Central America (Guatemala, Nicaragua, Costa Rica and Panama), Colombia, Venezuela and Brazil, along with bottled water, beer and other beverages in some of these territories.

In November 2006, we acquired 148,000,000 of Coca-Cola FEMSA's Series D shares from certain subsidiaries of The Coca-Cola Company, which increased our ownership to 53.7%.

In November 2007, Coca-Cola FEMSA acquired together with The Coca-Cola Company 100.0% of the shares of capital stock of Jugos del Valle, S.A.P.I. de C.V., or Jugos del Valle. In 2008, Coca-Cola FEMSA, The Coca-Cola Company and all Mexican and Brazilian *Coca-Cola* bottlers entered into a joint business for the Mexican and Brazilian operations, respectively, of Jugos del Valle.

In December 2007 and May 2008, Coca-Cola FEMSA sold most of its proprietary brands to The Coca-Cola Company. The proprietary brands are now being licensed back to Coca-Cola FEMSA by The Coca-Cola Company pursuant to its bottler agreements. In May 2008, Coca-Cola FEMSA entered into a transaction with The Coca-Cola Company to acquire its wholly owned bottling franchise Refrigerantes Minas Gerais, Ltda., or REMIL, located in the State of Minas Gerais in Brazil.

In July 2008, Coca-Cola FEMSA acquired the Agua de los Angeles bulk water business in Mexico City and surrounding areas from Grupo Embotellador CIMSA, S.A. de C.V., at the time one of the Coca-Cola bottling franchises in Mexico. The trademarks remain with The Coca-Cola Company. Coca-Cola FEMSA subsequently merged Agua de los Angeles into Coca-Cola FEMSA's bulk water business under the *Ciel* brand.

In February 2009, Coca-Cola FEMSA acquired together with The Coca-Cola Company the *Brisa* bottled water business in Colombia from Bavaria, S.A., a subsidiary of SABMiller plc. Coca-Cola FEMSA acquired the production assets and the distribution territory, and The Coca-Cola Company acquired the *Brisa* brand.

In May 2009, Coca-Cola FEMSA entered into an agreement to manufacture, distribute and sell the *Crystal* trademark water products in Brazil jointly with The Coca-Cola Company.

In August 2010, Coca-Cola FEMSA acquired from The Coca-Cola Company, along with other Brazilian Coca-Cola bottlers, Leão Alimentos, manufacturer and distributor of the *Matte Leão* tea brand, which would later be integrated with the Brazilian operations of Jugos del Valle.

In March 2011, Coca-Cola FEMSA acquired together with The Coca-Cola Company, Grupo Industrias Lácteas, S.A. (known as Estrella Azul), a Panamanian conglomerate that participates in the dairy and juice-based beverage categories in Panama.

In October 2011, Administradora de Acciones del Norte, S.A.P.I. de C.V., or Grupo Tampico, a Mexican bottler with operations in the states of Tamaulipas, San Luis Potosi, and Veracruz, as well as in parts of the states of Hidalgo, Puebla and Queretaro, merged with Coca-Cola FEMSA.

In December 2011, Corporación de los Angeles, S.A. de C.V., or Grupo CIMSAs, a Mexican *Coca-Cola* bottler with operations mainly in the states of Morelos and Mexico, as well as in parts of the states of Guerrero and Michoacan, merged with Coca-Cola FEMSA. As part of Coca-Cola FEMSA's merger with Grupo CIMSAs, Coca-Cola FEMSA also acquired a minority equity interest in Promotora Industrial Azucarera, S.A. de C.V., or PIASA.

In May 2012, Grupo Fomento Queretano, S.A.P.I. de C.V., or Grupo Fomento Queretano, a Mexican bottler with operations mainly in the state of Queretaro, as well as in parts of the states of Mexico, Hidalgo and Guanajuato, merged with Coca-Cola FEMSA. As part of Coca-Cola FEMSA's merger with Grupo Fomento Queretano, it also acquired an additional minority equity interest in PIASA.

In August 2012, Coca-Cola FEMSA acquired, through Jugos del Valle, an indirect minority participation in Santa Clara Mercantil de Pachuca, S.A. de C.V., or Santa Clara, a producer of milk and dairy products in Mexico.

In January 2013, Coca-Cola FEMSA acquired a 51.0% non-controlling majority stake in KOF Philippines from The Coca-Cola Company. Since January 25, 2017, Coca-Cola FEMSA controls KOF Philippines as all decisions relating to the day-to-day operation and management of KOF Philippines's business, including its annual normal operations plan, are approved by a majority of its board of directors without requiring the affirmative vote of any director appointed by The Coca-Cola Company.

In May 2013, Grupo Yoli, a Mexican bottler with operations mainly in the state of Guerrero, as well as in parts of the state of Oaxaca, merged with Coca-Cola FEMSA. As part of Coca-Cola FEMSA's merger with Grupo Yoli, Coca-Cola FEMSA also acquired an additional minority equity interest in PIASA.

In August 2013, Coca-Cola FEMSA acquired Companhia Fluminense, a franchise that operates in parts of the states of Sao Paulo, Minas Gerais and Rio de Janeiro in Brazil. As part of Coca-Cola FEMSA's acquisition of Companhia Fluminense, Coca-Cola FEMSA also acquired an additional minority equity interest in Leão Alimentos.

In October 2013, Coca-Cola FEMSA acquired Spaipa, a Brazilian bottler with operations in the state of Parana and in parts of the state of Sao Paulo. As part of Coca-Cola FEMSA's acquisition of Spaipa, it also acquired an additional minority equity interest in Leão Alimentos and a 50.0% stake in Fountain Água Mineral Ltda., a joint venture to develop the water category together with The Coca-Cola Company.

In 2016, Coca-Cola FEMSA entered into certain distribution agreements with Monster Energy Company to sell and distribute *Monster* trademark energy drinks in most of Coca-Cola FEMSA's territories. These agreements have a ten-year term and are automatically renewed for up to two five-year terms.

In August 2016, Coca-Cola FEMSA acquired, through Leão Alimentos, an indirect participation in Laticínios Verde Campo Ltda., a producer of milk and dairy products in Brazil.

In December 2016, Coca-Cola FEMSA acquired Vonpar, a Brazilian bottler of *Coca-Cola* trademark products with operations in the states of Rio Grande do Sul and Santa Catarina in Brazil. As part of Coca-Cola FEMSA's acquisition of Vonpar, it also acquired an additional minority equity interest in Leão Alimentos.

In March 2017, Coca-Cola FEMSA's acquired, through its Mexican, Brazilian, Argentine, Colombian subsidiaries and also through its interest in Jugos del Valle in Mexico, a participation in the AdeS soy-based beverage businesses. As a result of this acquisition, Coca-Cola FEMSA has exclusive distribution rights of AdeS soy-based beverages in Coca-Cola FEMSA's territories in these countries.

Capital Stock

As of April 13, 2018, we indirectly owned Series A shares equal to 47.2% of Coca-Cola FEMSA's capital stock (63.0% of our capital stock with full voting rights). As of April 13, 2018, The Coca-Cola Company indirectly owned Series D shares equal to 27.8% of the capital stock of Coca-Cola FEMSA's company (37.0% of our capital stock with full voting rights). Series L shares with limited voting rights, which trade on the Mexican Stock Exchange and in the form of ADSs on the NYSE, constitute the remaining 25.0% of Coca-Cola FEMSA's capital stock.

Business Strategy

Coca-Cola FEMSA operates with a large geographic footprint in Latin America and the Philippines. To consolidate Coca-Cola FEMSA's position as a global leader in the multi-category beverage business, Coca-Cola FEMSA continues to expand its robust portfolio of beverages, transforming and enhancing its operational capabilities, inspiring a cultural evolution, and embedding sustainability throughout its business to create economic, social, and environmental value for all of Coca-Cola FEMSA's stakeholders.

Coca-Cola FEMSA's view on sustainable development is a comprehensive part of its business strategy. Coca-Cola FEMSA bases its efforts in Coca-Cola FEMSA's ethics and values, focusing on (i) our people, (ii) our communities and (iii) our planet, and Coca-Cola FEMSA takes a responsible and disciplined approach to the use of resources and capital allocation.

To maximize growth and profitability and driven by our centers of excellence's initiatives Coca-Cola FEMSA plans on continuing to execute the following key strategies: (i) accelerate revenue growth, (ii) increase its business scale and profitability across categories, (iii) continue its expansion through organic growth and strategic joint ventures, mergers and acquisitions, (iv) accelerate the digitization of its core processes and (v) empower people to lead this transformation, building on its high performance organization.

Coca-Cola FEMSA seeks to accelerate its revenue growth through the introduction of new categories, products and presentations that better meet market demand, while maintaining Coca-Cola FEMSA's core products and improving its profitability. To address Coca-Cola FEMSA consumers' diverse lifestyles, Coca-Cola FEMSA has developed new products through innovation and has expanded the availability of low- and non-caloric beverages by reformulating existing products to reduce added sugar and offering smaller presentations of its products. As of December 31, 2017, approximately 41.0% of Coca-Cola FEMSA's brands were low- or non-caloric beverages, and Coca-Cola FEMSA continues to expand its product portfolio to offer more options to its consumers so they can satisfy their hydration and nutrition needs. **See Item 4. Information on the Company Coca-Cola FEMSA Products and Item 4. Information on the Company Coca-Cola FEMSA Packaging.** In addition, Coca-Cola FEMSA informs its consumers through front labeling on the nutrient composition and caloric content of Coca-Cola FEMSA's beverages. Coca-Cola FEMSA has been pioneers in the introduction of the Guideline Daily Amounts (GDA), and Coca-Cola FEMSA performs responsible advertising practices and marketing. Coca-Cola FEMSA voluntarily adheres to national and international codes of conduct in advertising and marketing, including communications targeted to minors who are developed based on the Responsible Marketing policies and Global School Beverage Guidelines of The Coca-Cola Company, achieving full compliance with all such codes in all of the countries where we operate.

Coca-Cola FEMSA views its relationship with The Coca-Cola Company as integral to Coca-Cola FEMSA's business, and together Coca-Cola FEMSA and The Coca-Cola Company has developed marketing strategies to better understand and address our consumer needs. **See Item 4. Information on the Company Coca-Cola FEMSA Marketing.**

Coca-Cola FEMSA's Territories

The following map shows Coca-Cola FEMSA's territories giving estimates in each case of the population to which Coca-Cola FEMSA offers products and the number of retailers of its beverages as of December 31, 2017:

Products

Coca-Cola FEMSA produces, markets, sells and distributes *Coca-Cola* trademark beverages. The *Coca-Cola* trademark beverages include: sparkling beverages (colas and flavored sparkling beverages), waters and still beverages (including juice drinks, coffee, teas, milk, value-added dairy, sports drinks, energy drinks and plant-based drinks).

Coca-Cola FEMSA's most important brand, *Coca-Cola*, together with its main line extensions, accounted for 58.3% of total sales volume in 2017. Coca-Cola FEMSA's next largest brands, *Ciel* (a water brand from Mexico and its line extensions), *Fanta* (and its line extensions), *Del Valle* (and its line extensions) and *Sprite* (and its line extensions) accounted for 9.9%, 5.7%, 4.0% and 3.7%, respectively, of total sales volume in 2017. Coca-Cola FEMSA uses the term line extensions to refer to the different flavors and low-calorie versions in which Coca-Cola FEMSA offers its brands.

The following table sets forth Coca-Cola FEMSA's main products as of December 31, 2017:

Colas:			
<i>Coca-Cola</i>	Coca-Cola Zero		
<i>Coca-Cola Sin Azúcar</i>	Coca-Cola Light		
Flavored Sparkling Beverages:			
<i>Crush</i>	Kuat	Quatro	
<i>Fanta</i>	Lift	Schweppes	
<i>Fresca</i>	Mundet	Sprite	
Still Beverages:			
<i>Cepita</i>	Hi-C	Leão	Monster
<i>Estrella Azul</i>	Santa Clara	Powerade	AdeS
<i>FUZE Tea</i>	Jugos del Valle	ValleFrut	
Water:			
<i>Alpina</i>	Brisa	Dasani	Wilkins
<i>Aquarius</i>	Ciel	Manantial	Viva
<i>Bonaqua</i>	Crystal	Nevada	

Packaging

Coca-Cola FEMSA produces, markets, sells and distributes *Coca-Cola* trademark beverages in each of its territories in containers authorized by The Coca-Cola Company, which consist primarily of a variety of returnable and non-returnable presentations in the form of glass bottles, cans and plastic bottles mainly made of PET. Coca-Cola FEMSA uses the term presentation to refer to the packaging unit in which Coca-Cola FEMSA sells its products. Presentation sizes for Coca-Cola FEMSA's *Coca-Cola* trademark beverages range from a 6.5-ounce personal size to a 3-liter multiple serving size. For all of Coca-Cola FEMSA's products excluding water, Coca-Cola FEMSA considers a multiple serving size as equal to, or larger than, 1.0 liter. In general, personal sizes have a higher price per unit case as compared to multiple serving sizes. Coca-Cola FEMSA offers both returnable and non-returnable presentations, which allows Coca-Cola FEMSA to offer portfolio alternatives based on convenience and affordability to implement revenue management strategies and to target specific distribution channels and population segments in its territories. In addition, Coca-Cola FEMSA sells some *Coca-Cola* trademark beverage syrups in containers designed for soda fountain use, which Coca-Cola FEMSA refers to as fountain. Coca-Cola FEMSA also sells bottled water products in bulk sizes, which refers to presentations equal to or larger than 5.0 liters, which have a much lower average price per unit case than Coca-Cola FEMSA's other beverage products.

Sales Volume and Transactions Overview

Coca-Cola FEMSA measures total sales volume in terms of unit cases and number of transactions. Unit case refers to 192 ounces of finished beverage product (24 eight-ounce servings) and, when applied to soda fountains, refers to the volume of syrup, powders and concentrate that is required to produce 192 ounces of finished beverage product. Transactions refers to the number of single units (e.g. a can or a bottle) sold, regardless of their size or volume or whether they are sold individually or in multipacks, except for fountain which represents multiple transactions based on a standard 12 oz. serving. Except when specifically indicated, sales volume in this annual report refers to sales volume in terms of unit cases.

The characteristics of Coca-Cola FEMSA's territories are very diverse. Central Mexico and Coca-Cola FEMSA's territories in Argentina are densely populated and have a large number of competing beverage brands as compared to the rest of its territories. Coca-Cola FEMSA's territories in Brazil are densely populated but have lower consumption of beverage products as compared to Mexico. Portions of southern Mexico, Central America and Colombia are large and mountainous areas with low population density, low per capita income and low consumption of beverages. In the Philippines, although there are more than 7,600 islands, the population is concentrated on three main islands with low per capita income and low consumption of beverages.

The following table illustrates our historical sales volume and number of transactions for each of Coca-Cola FEMSA's consolidated reporting segments, as well as its unit case and transaction mix by category.

	Year Ended December 31,		
	2017	2016	2015
	(millions of unit cases or millions of single units, except percentages)		
Sales Volume			
Mexico and Central America	2,017.9	2,025.6	1,952.4
South America (excluding Venezuela) ⁽¹⁾⁽²⁾	1,236.0	1,165.3	1,247.6
Venezuela	64.2	143.1	235.6
Asia ⁽³⁾	552.4		
Total Sales Volume	3,870.6	3,334.0	3,435.6
Growth	16.1%	(3.0)%	0.5%
Unit Case Mix by Category			
Sparkling beverages	78.2%	77.7%	78.1%
Water ⁽⁴⁾	15.0%	15.9%	15.7%
Still beverages	6.8%	6.4%	6.2%
Total	100.0%	100.0%	100.0%
Number of Transactions			
Mexico and Central America	11,231.7	11,382.1	10,877.1
South America (excluding Venezuela) ⁽¹⁾⁽²⁾	7,924.1	7,619.7	8,084.4
Venezuela	441.0	772.6	1,318.1
Asia ⁽³⁾	6,278.5

Water ⁽⁴⁾	7.4%	8.7%	8.6%
Still beverages	9.2%	10.2%	10.1%
Total	100.0%	100.0%	100.0%

(1) Includes sales volume and transactions from the operations of Vonpar from December 2016.

(2) Excludes beer sales volume and transactions.

(3) Includes sales volume and transactions from Coca-Cola FEMSA's operations in the Philippines from February 1, 2017.

(4) Includes bulk water volume and transactions.

Total sales volume increased by 16.1% to 3,870.6 million unit cases in 2017 as compared to 2016, mainly as a result of the acquisition of Vonpar and the consolidation of KOF Philippines, which was partially offset by volume contraction in Argentina, Colombia and Venezuela as discussed below. On a comparable basis, excluding the effects of (i) Coca-Cola FEMSA's recent acquisition of Vonpar, and (ii) Coca-Cola FEMSA's operations in Venezuela, and including the results of KOF Philippines as if its consolidation had occurred on January 1, 2016, total sales volume would have decreased by 1.5% in 2017 as compared to 2016. Sales volume of Coca-Cola FEMSA's sparkling beverage portfolio increased 16.9% as compared to 2016. On a comparable basis, sales volume of its sparkling beverage portfolio would have decreased by 1.7%, driven by volume contractions across most of its operations, which were partially offset by volume growth in the Philippines. On the same basis, Coca-Cola FEMSA's colas portfolio's sales volume would have declined 1.4%, while its flavored sparkling beverage portfolio would have declined 2.6%. Sales volume of Coca-Cola FEMSA's still beverage portfolio increased 23.7% as compared to 2016. On a comparable basis, sales volume of its still beverage portfolio would have declined 2.6%, mainly due to volume contractions in Brazil, Colombia and the Philippines, which were partially offset by growth in Mexico and Argentina. Sales volume of bottled water, excluding bulk water, increased 9.2% as compared to 2016. On a comparable basis, bottled water, excluding bulk water, would have increased by 0.9%, driven mainly by growth in Mexico, Central America and the Philippines, which was partially offset by volume contractions in South America. Sales volume of bulk water

increased 9.0% as compared to 2016. On a comparable basis, sales volume of bulk water would have decreased by 0.7%, driven mainly by a volume contraction in Colombia, which was partially offset by volume growth in Argentina, Brazil and the Philippines.

The total number of transactions in 2017 increased by 30.9% to 25,875.3 million transactions as compared to 2016, mainly as a result of the acquisition of Vonpar and the consolidation of KOF Philippines. On a comparable basis, the total number of transactions in 2017 would have decreased by 1.4% as compared to 2016. Total number of transactions for Coca-Cola FEMSA's sparkling beverage portfolio increased by 34.6% as compared to 2016. On a comparable basis, total transactions for Coca-Cola FEMSA's sparkling beverage portfolio in 2017 would have decreased by 1.5% as compared to 2016, mainly driven by transaction contractions across most of Coca-Cola FEMSA's operations, which were partially offset by an increase in transactions in Argentina and the Philippines. Total transactions for Coca-Cola FEMSA's still beverage category increased 17.8% as compared to 2016. On a comparable basis, total transactions for its still beverage category would have decreased 2.1% as compared to 2016, mainly driven by a transaction decline in Colombia, which was partially offset by an increase in transactions in Mexico, Argentina and the Philippines. Total transactions for bottled water, including bulk water, increased 11.6% as compared to 2016. On a comparable basis, total transactions for Coca-Cola FEMSA's water category would have remained flat as compared to 2016, driven mainly by an increase in transactions in Mexico and the Philippines, which was offset by transaction declines in the rest of its operations.

In 2017, multiple serving presentations represented 64.8% of total sparkling beverages sales volume, a 430 basis points decrease as compared to 2016. Returnable packaging, as a percentage of total sparkling beverage sales volume accounted for 32.3%, a 320 basis points increase as compared to 2016.

Total sales volume decreased by 3.0% to 3,334.0 million unit cases in 2016 as compared to 2015, as a result of the sales volume contraction in Brazil, Colombia, Argentina and Venezuela discussed below. On a comparable basis, excluding the effects of Coca-Cola FEMSA's recent acquisition of Vonpar and the results of its operations in Venezuela, total sales volume would have decreased by 0.9% in 2016 as compared to 2015. Sales volume of Coca-Cola FEMSA's sparkling beverage portfolio decreased by 3.4% as compared to 2015. Excluding the effects of Coca-Cola FEMSA's recent acquisition of Vonpar and the results of its operations in Venezuela, sales volume of its sparkling beverage portfolio would have decreased by 1.0%, mainly as a result of a contraction in Brazil and Colombia, which was partially offset by the positive performance of the *Coca-Cola* brand in Mexico, Central America and Colombia, and Coca-Cola FEMSA's flavored sparkling beverage portfolio in Mexico and Central America. Sales volume of Coca-Cola FEMSA's still beverage portfolio decreased by 0.6% as compared to 2015. Excluding the effects of Coca-Cola FEMSA's recent acquisition of Vonpar and the results of its operations in Venezuela, sales volume of its still beverage portfolio would have grown 2.9% mainly driven by the positive performance of *ValleFrut* orangeade, *Del Valle* juice and the Santa Clara dairy business in Mexico and *Fuze tea* in Central America. Sales volume of bottled water, excluding bulk water, decreased by 1.2% as compared to 2015. Excluding the effects of Coca-Cola FEMSA's recent acquisition of Vonpar and the results of its operations in Venezuela, bottled water, excluding bulk water, would have decreased by 1.1%, driven by a contraction in Brazil and Colombia, which was partially offset by increased volume in Mexico and Argentina. Sales volume of bulk water decreased by 2.0% as compared to 2015. Excluding the effects of Coca-Cola FEMSA's recent acquisition of Vonpar and the results of its operations in Venezuela, sales volume of bulk water would have decreased by 1.9%, mainly driven by a sales volume contraction of the *Brisa* and *Crystal* brand products in Colombia and Brazil, respectively.

The total number of transactions in 2016 decreased by 2.5% to 19,774.4 million transactions as compared to 2015. On a comparable basis, the total number of transactions in 2016 would have decreased by 0.3% to 18,902.4 million as compared to 2015. On the same basis, total transactions for Coca-Cola FEMSA's sparkling beverage portfolio in 2016 would have decreased by 0.6% as compared to 2015, mainly driven by a contraction in Brazil, Colombia and Argentina, which was partially offset by the positive performance in Mexico and Central America. On a comparable basis, total transactions for Coca-Cola FEMSA's still beverage category would have grown 2.6% as compared to 2015, mainly driven by the positive performance in Mexico and Central America. On the same basis, total transactions for bottled water, including bulk water, would have decreased by 1.1% as compared to 2015, driven by a contraction in Brazil, which was partially offset by the positive performance in Mexico, Central America and Colombia.

In 2016, multiple serving presentations represented 69.1% of total sparkling beverages sales volume, a 70 basis points increase as compared to 2015. Returnable packaging, as a percentage of total sparkling beverage sales volume accounted for 29.1%, a 90 basis points decrease as compared to 2015.

The following discussion analyzes Coca-Cola FEMSA's historical sales volume, number of transactions and unit case and transaction mix by category for each of its consolidated reporting segments.

Mexico and Central America. Coca-Cola FEMSA's product portfolio consists of *Coca-Cola* trademark beverages, including the *Jugos del Valle* line of juice-based beverages.

The following table highlights historical sales volume, number of transactions and unit case and transaction mix by category in Mexico and Central America:

	Year Ended December 31,		
	2017	2016	2015
	(millions of unit cases or millions of single units, except percentages)		
Sales Volume			
Mexico	1,845.0	1,850.7	1,784.6
Central America ⁽¹⁾	173.0	174.9	167.8

Total	100.0%	100.0%	100.0%

(1) Includes Guatemala, Nicaragua, Costa Rica and Panama.

(2) Includes bulk water volumes and transactions.

Total sales volume in Coca-Cola FEMSA's Mexico and Central America consolidated reporting segment decreased by 0.4% to 2,017.9 million unit cases in 2017 as compared to 2016, as a result of volume contraction in both Mexico and Central America as discussed below. Sales volume of Coca-Cola FEMSA's sparkling beverage portfolio decreased by 0.9%, mainly driven by a 1.4% decrease in sales volume of its colas portfolio, which was partially offset by a 1.1% increase in sales volume of its flavored sparkling beverage portfolio. Sales volume of Coca-Cola FEMSA's still beverage portfolio increased by 3.8%, mainly due to growth in both Mexico and Central America. Sales volume of bottled water, excluding bulk water, increased by 2.6%, as Mexico and Central America had a positive performance. Coca-Cola FEMSA's bulk water portfolio's sales volume declined 0.7%.

Sales volume in Mexico decreased by 0.3% to 1,845.0 million unit cases in 2017, as compared to 1,850.7 million unit cases in 2016. Sales volume of Coca-Cola FEMSA's sparkling beverage portfolio decreased by 0.8%, driven by a 1.3% decrease in sales volume of Coca-Cola FEMSA's colas portfolio, which was partially offset by a 1.6% increase in sales volume of its flavored sparkling beverage portfolio. Sales volume of Coca-Cola FEMSA's still beverage portfolio increased by 4.4%. Sales volume of bottled water, excluding bulk water, increased by

2.3%, while Coca-Cola FEMSA's bulk water portfolio's sales volume declined by 0.6%.

Sales volume in Central America decreased by 1.1% to 173.0 million unit cases in 2017, as compared to 174.9 million unit cases in 2016. Sales volume of Coca-Cola FEMSA's sparkling beverage portfolio decreased by 1.8%, driven by a 1.7% decrease in its colas portfolio and a 2.0% decrease in sales volume of its flavored sparkling beverage portfolio. Sales volume of Coca-Cola FEMSA's still beverage portfolio increased slightly by 0.5%. Sales volume of bottled water, excluding bulk water, increased by 5.7%, while Coca-Cola FEMSA's bulk water portfolio's sales volume declined by 3.9%.

The total number of transactions in 2017 in Coca-Cola FEMSA's Mexico and Central America division decreased by 1.3% to 11,231.7 million transactions as compared to 2016. The number of transactions for Coca-Cola FEMSA's sparkling beverage portfolio in 2017 decreased by 1.6% as compared to 2016, driven by a 1.9% decrease in Coca-Cola FEMSA's colas portfolio and a 0.3% decrease in its flavored sparkling beverage portfolio. Transactions for Coca-Cola FEMSA's still beverage category in 2017 remained flat as compared to 2016. Transactions for bottled water, including bulk water, in 2017 increased by 0.3% as compared to 2016.

In 2017, the total number of transactions in Mexico and Central America decreased by 1.2% to 9,764.5 million, and by 2.1% to 1,467.2 million, respectively, as compared to 2016. The number of transactions for Coca-Cola FEMSA's sparkling beverage portfolio decreased by 1.6% and 1.9%, respectively as compared to 2016. Transactions for Coca-Cola FEMSA's still beverage category increased by 0.9% in Mexico and decreased by 3.0% in Central America as compared to 2016. Transactions for bottled water, including bulk water, increased by 0.4% in Mexico and decreased 0.8% in Central America, as compared to 2016.

In 2017, multiple serving presentations represented 65.2% of total sparkling beverages sales volume in Mexico, a 50 basis points increase as compared to 2016; and 56.0% of total sparkling beverages sales volume in Central America, a 260 basis points increase as compared to 2016. Coca-Cola FEMSA's strategy continues to be to encourage consumption of single serve presentations while maintaining multiple serving volumes, however Mexico and Central America faced higher inflation and other challenging conditions during 2017 that encouraged consumption of multiple serving presentations. In 2017, returnable packaging, as a percentage of total sparkling beverage sales volume accounted for 34.8% in Mexico, a 30 basis points decrease as compared to 2016; and 41.7% in Central America, a 200 basis points increase as compared to 2016, driven by the rollout of Coca-Cola FEMSA's initiatives in the region aimed at making Coca-Cola FEMSA's products more affordable to the consumer.

Total sales volume in Coca-Cola FEMSA's Mexico and Central America consolidated reporting segment increased by 3.7% to 2,025.6 million unit cases in 2016 as compared to 2015, as a result of volume increase in both Mexico and Central America as discussed below. Sales volume of Coca-Cola FEMSA's sparkling beverage portfolio increased by 3.9%, mainly driven by a 2.8% increase in sales volume of *Coca-Cola* brand products and an 8.3% increase in sales volume of Coca-Cola FEMSA's sparkling beverage portfolio. Sales volume of Coca-Cola FEMSA's still beverage portfolio increased by 11.8%, mainly due to the performance of the Jugos del Valle portfolio and Coca-Cola FEMSA's Santa Clara dairy business in Mexico. Sales volume of bottled water, including bulk water, increased by 0.7%, mainly driven by an increase in sales volume of *Ciel* flavored water products in Mexico.

Sales volume in Mexico increased by 3.7% to 1,850.7 million unit cases in 2016, as compared to 1,784.6 million unit cases in 2015. Sales volume of Coca-Cola FEMSA's sparkling beverage portfolio increased by 3.8%, driven by a 2.7% increase in sales volume of *Coca-Cola* brand products and a 9.1% increase in sales volume of Coca-Cola FEMSA's flavored sparkling beverage portfolio, mainly supported by the performance of *Naranja&Nada* and *Limon&Nada*, Coca-Cola FEMSA's sparkling orangeade and lemonade, and the *Mundet* brand. Sales volume of Coca-Cola FEMSA's still beverage portfolio increased by 14.2%, mainly as a result of the performance of *ValleFrut* brand products, the *Del Valle* juice portfolio and Coca-Cola FEMSA's Santa Clara dairy business. Sales volume of bottled water, including bulk water, increased by 0.7%, mainly driven by the performance of *Ciel Exprim* flavored water products.

Sales volume in Central America increased by 4.2% to 174.9 million unit cases in 2016, as compared to 167.8 million unit cases in 2015. Sales volume of Coca-Cola FEMSA's sparkling beverage portfolio increased by 5.0%, supported by the strong performance of *Coca-Cola* brand products and Coca-Cola FEMSA's flavored sparkling beverages portfolio in Guatemala, Nicaragua and Costa Rica. Sales volume of Coca-Cola FEMSA's still beverage portfolio decreased slightly by 0.3%. Sales volume of bottled water, including bulk water, increased by 1.7%.

The total number of transactions in 2016 in Coca-Cola FEMSA's Mexico and Central America division increased by 4.6% to 11,382.1 million transactions as compared to 2015. The number of transactions for Coca-Cola FEMSA's sparkling beverage portfolio in 2016 increased by 4.3% as compared to 2015, driven by the positive performance of the *Coca-Cola* brand and Coca-Cola FEMSA's flavored sparkling beverage portfolio. Transactions for its still beverage category in 2016 increased by 8.3% as compared to 2015. Transactions for bottled water, including bulk water, in 2016 increased by 3.2% as compared to 2015.

In 2016, the total number of transactions in Mexico and Central America increased by 4.8% to 9,884.1 million, and by 3.4% to 1,498.0 million, respectively, as compared to 2015. The number of transactions for Coca-Cola FEMSA's sparkling beverage portfolio increased by 4.5% and 3.1%, respectively, as compared to 2015. Transactions for Coca-Cola FEMSA's still beverage category increased by 9.2% and 4.9%, respectively, as compared to 2015. Transactions for bottled water, including bulk water, increased by 3.1% and 3.8%, respectively, as compared to 2015.

In 2016, multiple serving presentations represented 64.7% of total sparkling beverages sales volume in Mexico, a 10 basis points increase as compared to 2015; and 53.4% of total sparkling beverages sales volume in Central America, a 160 basis points decrease as compared to 2015. Coca-Cola FEMSA's strategy continues to be to encourage consumption of single serve presentations while maintaining multiple serving volumes. In 2016, returnable packaging, as a percentage of total sparkling beverage sales volume accounted for 35.1% in Mexico, a 140 basis points decrease as compared to 2015; and 39.7% in Central America, a 210 basis points increase as compared to 2015.

South America (Excluding Venezuela). Coca-Cola FEMSA's product portfolio in South America (excluding Venezuela) consists mainly of *Coca-Cola* trademark beverages, including the *Jugos del Valle* line of juice-based beverages in Colombia and Brazil, and *Heineken* beer products in Brazil, which Coca-Cola FEMSA sells and distributes pursuant to its agreement with Cervejarias Kaiser Brasil S.A., or Heineken Brazil, a subsidiary of the Heineken Group. Since 2005, Coca-Cola FEMSA stopped considering beer sold and distributed in Brazil as part of its sales volume.

The following table highlights historical sales volume, number of transactions and unit case and transaction mix by category in South America (excluding Venezuela), not including beer:

	Year Ended December 31,

(1) Includes sales volume and transactions from the operations of Vonpar from December 2016.

(2) Includes bulk water volumes and transactions.

Total sales volume in Coca-Cola FEMSA's South America (excluding Venezuela) consolidated reporting segment increased by 6.1% to 1,236.0 million unit cases in 2017 as compared to 2016. On a comparable basis, excluding the effects of Coca-Cola FEMSA's recent acquisition of Vonpar, total sales volume would have decreased by 6.0% in 2017 as compared to 2016, as a result of a volume contraction in all of Coca-Cola FEMSA's South America operations. Sales volume of Coca-Cola FEMSA's sparkling beverage portfolio increased by 5.1% as compared to 2016. On a comparable basis, sales volume of Coca-Cola FEMSA's sparkling beverage portfolio would have decreased by 5.3%, mainly due to a volume contraction of its colas portfolio in all our territories in this consolidated reporting segment and a volume contraction in our flavored sparkling beverages in Brazil and Colombia. Sales volume of Coca-Cola FEMSA's still beverage portfolio decreased by 3.3% as compared to 2016. On a comparable basis, sales volume of Coca-Cola FEMSA's still beverage portfolio would have decreased by 10.4%, mainly driven by a sales volume contraction in Colombia, which was partially offset by volume growth in Argentina. Sales volume of Coca-Cola FEMSA's bottled water category, excluding bulk water, decreased by 2.4% as compared to 2016. On a comparable basis, sales volume of Coca-Cola FEMSA's bottled water category, excluding bulk water, would have decreased by 7.7% as compared to 2016, with volume contractions in Argentina, Brazil and Colombia. Sales volume of Coca-Cola FEMSA's bulk water portfolio decreased by 8.0% as compared to 2016. On a comparable basis, sales volume of Coca-Cola FEMSA's bulk water portfolio would have declined by 11.1%, mainly driven by a volume decline in Colombia, which was partially offset by volume growth in Argentina and Brazil.

Sales volume in Brazil increased by 17.9% to 765.1 million unit cases in 2017, as compared to 648.9 million unit cases in 2016. On a comparable basis, sales volume would have decreased by 3.8%. Sales volume of Coca-Cola FEMSA's sparkling beverage portfolio increased by 18.8% as compared to 2016. On a comparable basis, sales volume of Coca-Cola FEMSA's sparkling beverage portfolio would have decreased by 3.9%, as a result of a 3.2% sales volume decrease in its colas portfolio and a 5.8% sales volume decrease in its flavored sparkling beverage portfolio. Sales volume of Coca-Cola FEMSA's still beverage portfolio increased by 14.9% as compared to 2016. On a comparable basis, sales volume of its still beverage portfolio would have decreased by 2.1%. Sales volume of Coca-Cola FEMSA's bottled water, excluding bulk water, increased by 7.4% as compared to 2016, while sales volume of its bulk water portfolio increased by 18.0%. On a comparable basis, sales volume of bottled water, excluding bulk water, would have decreased by 4.8%, while sales volume of Coca-Cola FEMSA's bulk water portfolio would have increased by 2.5%.

Sales volume in Colombia decreased by 13.7% to 265.0 million unit cases in 2017, as compared to 307.0 million unit cases in 2016. Sales volume of Coca-Cola FEMSA's sparkling beverage portfolio decreased by 11.8% as compared to 2016, mainly driven by a 6.0% decrease in sales volume of Coca-Cola FEMSA's colas portfolio and a 31.2% decrease of its flavored sparkling beverages portfolio. Sales volume of Coca-Cola FEMSA's still beverage portfolio decreased by 29.1%, as compared to 2016. Sales volume of bottled water, excluding bulk water, decreased by 8.1% as compared to 2016, while sales volume of Coca-Cola FEMSA's bulk water portfolio decreased by 18.1%.

Sales volume in Argentina decreased by 1.5% to 205.9 million unit cases in 2017, as compared to 209.1 million unit cases in 2016. Sales volume of Coca-Cola FEMSA's sparkling beverage portfolio decreased by 1.5% as compared to 2016, mainly driven by a decrease in sales volume of its colas portfolio. Sales volume of Coca-Cola FEMSA's still beverage portfolio increased by 12.3% as compared to 2016. Sales volume of bottled water, excluding bulk water, decreased by 7.7%, while sales volume of Coca-Cola FEMSA's bulk water portfolio decreased by 11.1%.

The total number of transactions in 2017 in Coca-Cola FEMSA's South America (excluding Venezuela) consolidated reporting segment increased by 4.0% to 7,924.1 million transactions as compared to 2016. On a comparable basis, the total number of transactions in 2017 in this consolidated reporting segment would have decreased by 6.2% as compared to 2016. Transactions for Coca-Cola FEMSA's sparkling beverage portfolio in 2017 increased by 6.4% as compared to 2016. On a comparable basis, the number of transactions for Coca-Cola FEMSA's sparkling beverage portfolio in 2017 would have decreased by 4.6% as compared to 2016, driven by a contraction in the number of transactions in Brazil and Colombia, which were partially offset by transaction growth in Argentina. Transactions for Coca-Cola FEMSA's still beverage category in 2017 decreased by 5.5% as compared to 2016. On a comparable basis, transactions for our still beverage category in 2017 would have decreased by 13.7% as compared to 2016. Transactions for bottled water, including bulk water, decreased by 4.9% in 2017 as compared to 2016. On a comparable basis, transactions for bottled water, including bulk water, in 2017 would have decreased by 10.8% as compared to 2016.

In 2017, the total number of transactions in Argentina and Brazil increased by 0.7% and 15.5% to 1,019.9 and 4,857.6, respectively, while the number of transactions in Colombia decreased by 14.8% to 2,046.5 million as compared to 2016. On a comparable basis, the total number of transactions in Brazil would have decreased by 3.0%. The number of transactions for Coca-Cola FEMSA's sparkling beverage portfolio in Argentina and Brazil in 2017 increased by 16.0% and 1.6% respectively, while the number of transactions in Colombia decreased by 11.0%, as compared to 2016. On a comparable basis, total transactions of Coca-Cola FEMSA's sparkling portfolio in Brazil would have decreased by 2.9%. The number of transactions for Coca-Cola FEMSA's still beverage portfolio in Argentina and Brazil in 2017 increased by 16.8% and 1.7%, respectively, while the number of transactions in Colombia decreased by 32.2%, in each case as compared to 2016. On a comparable basis, transactions for Coca-Cola FEMSA's still beverage category in Brazil would have decreased by 1.1% in 2017. The number of transactions for bottled water, including bulk water, in 2017 increased by 8.5% in Brazil, while the number of transactions in Argentina and Colombia decreased by 6.5% and 16.4%, respectively, as compared to 2016. On a comparable basis, transactions for Coca-Cola FEMSA's bottled water, including bulk water, in Brazil would have decreased by 5.9% in 2017.

In 2017, multiple serving presentations represented 77.7% of total sparkling beverages sales volume in Brazil, a 140 basis points increase as compared to 2016; 69.4% of total sparkling beverages sales volume in Colombia, a 10 basis points increase as compared to 2016; and 82.1% of total sparkling beverages sales volume in Argentina, a 60 basis points decrease as compared to 2016. In 2017, returnable packaging, as a percentage of total sparkling beverage sales volume, accounted for 16.6% in Brazil a 150 basis points decrease as compared to 2016 driven by the integration of Coca-Cola FEMSA's recent acquisition of Vonpar; 33.7% in Colombia, an increase of 380 basis points as compared to 2016; and 24.7% in Argentina, an increase of 80 basis points as compared to 2016.

Total sales volume in Coca-Cola FEMSA's South America (excluding Venezuela) consolidated reporting segment decreased by 6.6% to 1,165.3 million unit cases in 2016 as compared to 2015. On a comparable basis, total sales volume would have decreased by 8.2% to 1,145.7 million unit cases in 2016 as compared to 2015, as a result of volume contraction in all of our South America operations. On the same basis, sales volume of Coca-Cola FEMSA's sparkling beverage portfolio decreased by 8.0%, mainly due to a volume contraction of *Coca-Cola* brand products in Brazil and Argentina and flavored sparkling beverages in all of Coca-Cola FEMSA's territories in this division. On a comparable basis, sales volume of Coca-Cola FEMSA's still beverage portfolio decreased by 8.9%, mainly driven by a sales volume contraction of the *Jugos del Valle* line of business in Colombia and *Kapo* and *Del Valle Mais* brand products in Brazil. On the same basis, sales volume of bottled water, including bulk water, decreased by 8.7%, mainly due to a sales volume contraction of *Brisa* brand products in Colombia and *Crystal* brand products in Brazil.

Sales volume in Brazil decreased by 6.4% to 649.2 million unit cases in 2016, as compared to 693.6 million unit cases in 2015. On a comparable basis, sales volume would have decreased by 9.2% to 629.7 million unit cases. On the same basis, sales volume of Coca-Cola FEMSA's sparkling beverage portfolio decreased by 9.0%, mainly as a result of a sales volume decrease in *Coca-Cola* brand products. On a comparable basis, sales volume of Coca-Cola FEMSA's still beverage portfolio decreased by 7.2%, mainly as a result of a sales volume contraction of *Kapo* and *Del Valle Mais* brand products. On the same basis, sales volume of bottled water, including bulk water, decreased by 13.1%, mainly due to a sales volume contraction of *Crystal* brand products.

Sales volume in Colombia decreased by 4.1% to 307.0 million unit cases in 2016, as compared to 320.0 million unit cases in 2015. Sales volume of Coca-Cola FEMSA's sparkling beverage portfolio decreased by 0.7%, mainly driven by a 9.4% decrease in sales volume of our flavored sparkling beverages portfolio, which was partially offset by a 1.9% sales volume increase of *Coca-Cola* brand products. Sales volume of Coca-Cola FEMSA's still beverage portfolio decreased by 13.6%, mainly as a result of a sales volume contraction of *Del Valle* and *ValleFruit* brand products. Sales volume of bottled water, including bulk water, decreased by 11.8%, driven by a sales volume contraction of *Brisa* brand products in multiple serving presentations.

Sales volume in Argentina decreased by 10.6% to 209.1 million unit cases in 2016, as compared to 233.9 million unit cases in 2015. Sales volume of Coca-Cola FEMSA's sparkling beverage portfolio decreased by 13.6%, mainly driven by a decrease in sales volume of *Coca-Cola* brand products and Coca-Cola FEMSA's flavored sparkling beverage portfolio. Sales volume of Coca-Cola FEMSA's still beverage portfolio decreased by 0.6%, mainly driven by a decrease in sales volume of *Cepita* and *Powerade* brand products. Sales volume of bottled water, including bulk water, increased by 6.9%, mainly driven by an increase in sales volume of *Kin* and *Bonaqua* brand products.

The total number of transactions in 2016 in Coca-Cola FEMSA's South America (excluding Venezuela) consolidated reporting segment decreased by 5.7% to 7,619.7 million transactions as compared to 2015. On a comparable basis, the total number of transactions in 2016 in this consolidated reporting segment would have decreased by 7.0% to 7,520.3 million. On the same basis, the number of transactions for Coca-Cola FEMSA's sparkling beverage portfolio in 2016 decreased by 7.5% as compared to 2015, driven by a contraction in the number of transactions across all our territories in the division. On a comparable basis, transactions for Coca-Cola FEMSA's still beverage category in 2016 decreased by 4.8% as compared to 2015. On the same basis, transactions for bottled water, including bulk water, in 2016 decreased by 5.0% as compared to 2015.

In 2016, the total number of transactions in Brazil, Colombia and Argentina decreased by 8.1% to 4,206.1 million, 0.4% to 2,400.9 million and 7.5% to 1,012.6 million, respectively, as compared to 2015. On a comparable basis, the total number of transactions in Brazil in 2016 would have decreased by 10.3% to 4,106.7 million. On the same basis, the number of transactions for Coca-Cola FEMSA's sparkling beverage portfolio in Brazil, Colombia and Argentina in 2016 decreased by 10.0%, 1.2% and 9.2%, respectively, as compared to 2015. On a comparable basis, transactions for Coca-Cola FEMSA's still beverage category in 2016 decreased by 10.3% and 0.5% in Brazil and Argentina, respectively, and increased by 0.5% in Colombia, in each case as compared to 2015. On the same basis, the number of transactions for bottled water, including bulk water, in 2016 decreased by 13.6% and 1.1% in Brazil and Argentina, respectively, and increased by 2.7% in Colombia, in each case as compared to 2015.

In 2016, multiple serving presentations represented 76.3% of total sparkling beverages sales volume in Brazil, a 66 basis points increase as compared to 2015; 69.3% of total sparkling beverages sales volume in Colombia, a 121 basis points decrease as compared to 2015; and 82.7% of total sparkling beverages sales volume in Argentina, a 178 basis points decrease as compared to 2015. In 2016, returnable packaging, as a percentage of total sparkling beverage sales volume, accounted for 18.1% in Brazil a 120 basis points increase as compared to 2015; 29.9% in Colombia, an increase of 80 basis points as compared to 2015; and 23.9% in Argentina, an increase of 150 basis points as compared to 2015.

Venezuela. KOF Venezuela's product portfolio consists of *Coca-Cola* trademark beverages. Over the last several years, Coca-Cola FEMSA implemented a product portfolio rationalization strategy that allowed Coca-Cola FEMSA to minimize the impact of certain operating disruptions that were recurrent in Venezuela. These operating disruptions were mainly related to difficulties in accessing raw materials due to the delay in obtaining the corresponding import authorizations and the Venezuelan exchange control regime.

The following table highlights historical sales volume, number of transactions and unit case and transaction mix by category in Venezuela:

	Year Ended December 31,		
	2017	2016	2015
	(millions of unit cases or millions of single units, except percentages)

(1) Includes bulk water volumes and transactions.

Total sales volume in Venezuela decreased by 55.1% to 64.2 million unit cases in 2017 as compared to 2016, mainly due to an overall sales volume contraction in all Coca-Cola FEMSA's categories as a result of the conditions in the country, facing high inflation and scarcity of raw materials. Sales volume of Coca-Cola FEMSA's sparkling beverage portfolio decreased by 54.5%. Sales volume of Coca-Cola FEMSA's still beverage portfolio decreased by 29.1%. Sales volume of bottled water, including bulk water, decreased by 48.8%.

The number of transactions in 2017 in Venezuela decreased by 42.9% to 441.0 million transactions as compared to 2016. The number of transactions for Coca-Cola FEMSA's sparkling beverage portfolio in 2017 decreased by 38.1% as compared to 2016, driven by a contraction in Coca-Cola FEMSA's colas and flavored sparkling beverage portfolios. Transactions for Coca-Cola FEMSA's still beverage category in 2017 decreased by 71.7% as compared to 2016. Transactions for bottled water, including bulk water, in 2017 decreased by 48.1% as compared to 2016.

In 2017, multiple serving presentations represented 73.3% of total sparkling beverages sales volume in Venezuela, an 11.7% decrease as compared to 2016. In 2017, returnable presentations represented 18.4% of total sparkling beverages sales volume in Venezuela, an increase of 11.4% as compared to 2016.

Total sales volume in Venezuela decreased by 39.3% to 143.1 million unit cases in 2016 as compared to 2015, mainly due to an overall sales volume contraction in all of Coca-Cola FEMSA's categories as a result of the scarcity of raw materials and demand for Coca-Cola FEMSA's products. Sales volume of Coca-Cola FEMSA's sparkling beverage portfolio decreased by 41.0%. Sales volume of Coca-Cola FEMSA's still beverage portfolio decreased by 46.4%. Sales volume of bottled water, including bulk water, decreased by 10.0%.

The number of transactions in 2016 in Venezuela decreased by 41.4% to 772.6 million transactions as compared to 2015. The number of transactions for Coca-Cola FEMSA's sparkling beverage portfolio in 2016 decreased by 44.4% as compared to 2015, mainly driven by a contraction in the number of transactions of *Coca-Cola* brand products and Coca-Cola FEMSA's flavored sparkling beverage portfolio. Transactions for Coca-Cola FEMSA's still beverage category in 2016 decreased by 49.6% as compared to 2015. Transactions for bottled water, including bulk water, in 2016 decreased by 7.2% as compared to 2015.

In 2016, multiple serving presentations represented 85.0% of total sparkling beverages sales volume in Venezuela, a 260 basis points increase as compared to 2015. In 2016, returnable presentations represented 6.5% of total sparkling beverages sales volume in Venezuela, a decrease of 40 basis points as compared to 2015.

Asia. Coca-Cola FEMSA's product portfolio in the Philippines consists of *Coca-Cola* trademark beverages, including the *Minute Maid* line of juice-based beverages.

The following table highlights sales volume, number of transactions and unit case and transaction mix by category in the Philippines in 2017:

	Year Ended December 31, 2017 (millions of unit cases or millions of single units, except percentages)
Sales Volume⁽¹⁾	
Total	552.4
Unit Case Mix by Category	
Sparkling beverages	79.4%
Water	10.7%
Still beverages	9.9%
Total	100.0%
Number of Transactions⁽¹⁾	
Total	6,278.5

Sparkling beverages	88.0%
Water	4.7%
Still beverages	7.3%
Total	100.0%

(1) Includes sales volume and transactions of Coca-Cola FEMSA's operations in the Philippines from February 1, 2017.

The consolidation of Coca-Cola FEMSA's operations in the Philippines began in February 1, 2017. As a result, Coca-Cola FEMSA only reported results for 11 months in 2017 for this consolidated reporting segment.

Total sales volume in the Philippines was 552.4 million unit cases in 2017. Coca-Cola FEMSA's sparkling beverage category represented 79.4% of its total sales volume. Coca-Cola FEMSA's still beverage category represented 9.9% of its sales volume. Coca-Cola FEMSA's water portfolio's sales volume represented 10.7%, with 4.5% in bottled water and 6.2% in bulk water.

Total transactions in the Philippines were 6,278.5 million in 2017. Coca-Cola FEMSA's sparkling beverage category represented 88.0% of Coca-Cola FEMSA's transactions. Coca-Cola FEMSA's still beverage and water categories represented 7.3% and 4.7% of Coca-Cola FEMSA's transactions, respectively.

In 2017, multiple serving presentations represented 38.4% of total sparkling beverages sales volume in the Philippines. In 2017, returnable packaging, as a percentage of total sparkling beverage sales volume accounted for 48.5% in the Philippines.

Seasonality

Sales of Coca-Cola FEMSA's products are seasonal in all of the countries where it operates, as Coca-Cola FEMSA's sales volumes generally increase during the summer of each country and during the year-end holiday season. In Mexico, Central America, Colombia and the Philippines, Coca-Cola FEMSA typically achieves its highest sales during the summer months of April through August as well as during the year-end holidays in December. In Brazil and Argentina, Coca-Cola FEMSA's highest sales levels occur during the summer months of October through March, including the year-end holidays in December.

Marketing

Coca-Cola FEMSA, in conjunction with The Coca-Cola Company, has developed a marketing strategy to promote the sale and consumption of Coca-Cola FEMSA's products. Coca-Cola FEMSA relies extensively on advertising, sales promotions and retailer support programs to target the particular preferences of Coca-Cola FEMSA's consumers. Coca-Cola FEMSA's consolidated marketing expenses in 2017, net of contributions by The Coca-Cola Company, were Ps.4,504 million. The Coca-Cola Company contributed an additional Ps.4,023 million in 2017, which includes contributions for coolers, bottles and cases.

Retailer Support Programs. Support programs include providing retailers with point-of-sale display materials and consumer sales promotions, such as contests, sweepstakes and the giveaway of product samples.

Coolers. Coolers play an integral role in Coca-Cola FEMSA's clients' plans for success. Increasing both cooler coverage and the number of cooler doors among Coca-Cola FEMSA's retailers is important to ensure that Coca-Cola FEMSA's wide variety of products are properly displayed, while strengthening our merchandising capacity in the traditional sales channel to significantly improve its point-of-sale execution.

Advertising. Coca-Cola FEMSA advertises in all major communications media. Coca-Cola FEMSA focuses its advertising efforts on increasing brand recognition by consumers and improving Coca-Cola FEMSA's customer relations. National advertising campaigns are designed and proposed by The Coca-Cola Company's local affiliates in the countries where Coca-Cola FEMSA operates, with Coca-Cola FEMSA's input at the local or regional level. Point-of-sale merchandising and advertising efforts are proposed and implemented by us, with a focus on increasing Coca-Cola FEMSA's connection with customers and consumers.

Channel Marketing. In order to provide more dynamic and specialized marketing of Coca-Cola FEMSA's products, Coca-Cola FEMSA's strategy is to classify its markets and develop targeted efforts for each consumer segment or distribution channel. Coca-Cola FEMSA's principal channels are small retailers, on-premise accounts, such as restaurants and bars, supermarkets and third party distributors. Presence in these channels entails a comprehensive and detailed analysis of the purchasing patterns and preferences of various groups of beverage consumers in each of the different types of locations or distribution channels. In response to this analysis, Coca-Cola FEMSA tailors its product, price, packaging and distribution strategies to meet the particular needs of and exploit the potential of each channel.

Multi-Segmentation. Coca-Cola FEMSA has implemented a multi-segmentation strategy in all of its markets. These strategies consist of the implementation of different product/price/package portfolios by market cluster or group. These clusters are defined based on consumption occasion, competitive environment and income level, rather than solely on the types of distribution channels.

Coca-Cola FEMSA believes that the implementation of these strategies described above also enables Coca-Cola FEMSA to respond to competitive initiatives with channel-specific responses as opposed to market-wide responses. In addition, it allows Coca-Cola FEMSA to be more efficient in the way it goes to market and invests its marketing resources in those segments that could provide a higher return. Coca-Cola FEMSA's marketing, segmentation and distribution activities are facilitated by its management information systems, and are all incorporated within its centers of excellence.

Product Sales and Distribution

The following table provides an overview of Coca-Cola FEMSA's distribution centers and the retailers to which Coca-Cola FEMSA sold its products:

	As of December 31, 2017			
		South		
	Mexico and Central America ⁽¹⁾	America ⁽²⁾	Venezuela ⁽³⁾	Asia ⁽⁴⁾
Distribution centers	181	67	24	52
Retailers ⁽⁵⁾	971,844	817,401	158,563	818,502

(1) Includes Mexico, Guatemala, Nicaragua, Costa Rica and Panama.

(2) Includes Colombia, Brazil and Argentina.

(3) Includes KOF Venezuela.

(4) Includes the Philippines.

(5) Estimated.

Coca-Cola FEMSA continuously evaluates its distribution model in order to fit with the local dynamics of the marketplace and analyze the way it goes to market, recognizing different service needs from its customers, while looking for a more efficient distribution model. As part of this strategy, Coca-Cola FEMSA is rolling out a variety of new distribution models throughout its territories looking for improvements in its distribution network.

Coca-Cola FEMSA uses several sales and distribution models depending on market, geographic conditions and the customer's profile: (i) the pre-sale system, which separates the sales and delivery functions, permitting trucks to be loaded with the mix of products that retailers have previously ordered, thereby increasing both sales and distribution efficiency; (ii) the conventional truck route system, in which the person in charge of the delivery makes immediate sales from inventory available on the truck; (iii) a hybrid distribution system, where the same truck carries product available for immediate sale and product previously ordered through the pre-sale system; (iv) the telemarketing system, which could be combined with pre-sales visits; and (v) sales through third-party wholesalers and other distributors of Coca-Cola FEMSA's products.

As part of the pre-sale system, sales personnel also provide merchandising services during retailer visits, which Coca-Cola FEMSA believes enhance the shopper experience at the point of sale. Coca-Cola FEMSA believes that an adequate number of service visits to retailers and frequency of deliveries are essential elements in an effective selling and distribution system of its products.

Coca-Cola FEMSA's distribution centers range from large warehousing facilities and re-loading centers to small deposit centers. In addition to Coca-Cola FEMSA's fleet of trucks, Coca-Cola FEMSA distributes its products in certain locations through electric carts and hand-trucks in order to comply with local environmental and traffic regulations. In some of Coca-Cola FEMSA's territories, Coca-Cola FEMSA retains third parties to transport its finished products from the bottling plants to the distribution centers.

Mexico. Coca-Cola FEMSA contracts a subsidiary of FEMSA for the transportation of finished products to Coca-Cola FEMSA's distribution centers from its production facilities. From the distribution centers, Coca-Cola FEMSA then distributes its finished products to retailers through its fleet of trucks.

In Mexico, Coca-Cola FEMSA sells a majority of its beverages at small retail stores to consumers who may take the beverages for consumption at home or elsewhere. Coca-Cola FEMSA also sells products through modern distribution channels, the on-premise consumption segment, home delivery, supermarkets and other locations. Modern distribution channels include large and organized chain retail outlets such as wholesale supermarkets, discount stores and convenience stores that sell fast-moving consumer goods, where retailers can buy large volumes of products from various producers. The on-premise consumption segment consists of sales through sidewalk stands, restaurants, bars and various types of dispensing machines as well as sales through point-of-sale programs in stadiums, concert halls, auditoriums and theaters.

Brazil. In Brazil, Coca-Cola FEMSA distributes its finished products to retailers through a combination of its own fleet of trucks and third party distributors, including related parties such as us, while Coca-Cola FEMSA maintains control over the selling activities. In designated zones in Brazil, third-party distributors purchase Coca-Cola FEMSA's products at a discount from the wholesale price and resell the products to retailers. Coca-Cola FEMSA also sells its products through the same modern distribution channels used in Mexico.

Territories other than Mexico and Brazil. Coca-Cola FEMSA distributes its finished products to retailers through a combination of its own fleet of trucks and third party distributors, including related parties such as us. In most of Coca-Cola FEMSA's territories, an important part of its total sales volume is sold through small retailers.

Competition

While Coca-Cola FEMSA believes that most of its products enjoy wider recognition and greater consumer loyalty than those of its principal competitors, the markets in the territories where Coca-Cola FEMSA operates are highly competitive. Coca-Cola FEMSA's principal competitors are local *Pepsi* bottlers and other bottlers and distributors of local beverage brands. Coca-Cola FEMSA faces increased competition in many of its territories from producers of low price beverages, commonly referred to as B brands. A number of Coca-Cola FEMSA's competitors in Central America, Brazil, Argentina and Colombia offer beer in addition to sparkling beverages, still beverages, and water, which may enable them to achieve distribution efficiencies.

While competitive conditions are different in each of Coca-Cola FEMSA's territories, it competes mainly in terms of price, packaging, effective promotional activities, access to retail outlets and sufficient shelf space, customer service, product innovation and product alternatives and the ability to identify and satisfy consumer preferences. Coca-Cola FEMSA competes by seeking to offer products at an attractive price in the different segments in Coca-Cola FEMSA's markets and by building on the value of its brands. Coca-Cola FEMSA believes that the introduction of new products and new presentations has been a significant competitive technique that allows Coca-Cola FEMSA to increase demand for its products, provide different options to consumers and increase new consumption opportunities. See **Item 4. Information on the Company Coca-Cola FEMSA Products** and **Item 4. Information on the Company Coca-Cola FEMSA Packaging**.

Mexico and Central America. Coca-Cola FEMSA's principal competitors in Mexico are bottlers of *Pepsi* products. Coca-Cola FEMSA competes with Organización Cultiba, S.A.B. de C.V., a joint venture formed by Grupo Embotelladoras Unidas, S.A.B. de C.V., the former *Pepsi* bottler in central and southeast Mexico, a subsidiary of PepsiCo, and Empresas Polar, S.A., the leading beer distributor and *Pepsi* bottler in Venezuela. Coca-Cola FEMSA's main competition in the juice category in Mexico is Grupo Jumex. In the water category, *Bonafont*, a water brand owned by Danone, is its main competition. In addition, Coca-Cola FEMSA competes with *Cadbury Schweppes* in sparkling beverages and with other local brands in our Mexican territories, as well as B brand producers, such as Ajemex, S.A. de C.V. (*Big Cola* bottler) and Consorcio AGA, S.A. de C.V. (*Red Cola* bottler), that offer various presentations of sparkling and still beverages.

In the countries that comprise Coca-Cola FEMSA's Central America region, its main competitors are *Pepsi* and *Big Cola* bottlers. In Guatemala and Nicaragua, Coca-Cola FEMSA competes with a joint venture between AmBev and The Central American Bottler Corporation. In Costa Rica, Coca-Cola FEMSA's principal competitor is Florida Bebidas S.A., subsidiary of Florida Ice and Farm Co. In Panama, Coca-Cola FEMSA's main competitor is Cervecería Nacional, S.A. Coca-Cola FEMSA also faces competition from B brands offering multiple serving size presentations in some Central American countries.

South America (excluding Venezuela). Coca-Cola FEMSA's principal competitor in Colombia is Postobón, a well-established local bottler (*Postobón* and *Colombiana* bottler). Postobón sells *manzana Postobón* (apple Postobón), which is the second most popular flavor in the Colombian sparkling beverage industry in terms of total sales volume. Postobón also sells *Pepsi* products. Postobón is a vertically integrated producer, the owners of which hold other significant commercial interests in Colombia. Coca-Cola FEMSA also competes with low-price producers, such as the producers of *Big Cola*, which principally offer multiple serving size presentations in the sparkling and still beverage industry.

In Brazil, Coca-Cola FEMSA competes against AmBev, a Brazilian company with a portfolio of brands that includes *Pepsi*, local brands with flavors such as guarana, and proprietary beer brands. Coca-Cola FEMSA also competes against B brands or Tubainas, which are small, local producers of low-cost flavored sparkling beverages that represent a significant portion of the sparkling beverage market.

In Argentina, Coca-Cola FEMSA's main competitor is Buenos Aires Embotellador S.A. (BAESA), a *Pepsi* bottler, which is owned by Argentina's principal brewery, Quilmes Industrial S.A., and indirectly controlled by AmBev. In the water category, *Levité*, a water brand owned by Danone, is Coca-Cola FEMSA's main competition. In addition, Coca-Cola FEMSA competes with a number of competitors offering generic, low-priced sparkling beverages as well as many other generic products and private label proprietary supermarket brands.

Venezuela. KOF Venezuela's main competitor in Venezuela was Pepsi-Cola Venezuela, C.A., a joint venture formed between PepsiCo and Empresas Polar, S.A., the leading beer distributor in the country. KOF Venezuela competes with the producers of *Big Cola* in part of this country.

Asia. In the Philippines Coca-Cola FEMSA's main competitors are Pepsi-Cola Products Philippines, Inc. (PCPPI), the exclusive bottler of *Pepsi* products in the Philippines and Asiawide Refreshments Corporation (ARC), a licensed Philippine bottler of *RC Cola* beverages. PCPPI manufactures and sells soft drinks, ready-to-drink juices, ready-to-drink energy drinks and water. ARC manufactures and sells soft drinks and root beer.

Raw Materials

Pursuant to Coca-Cola FEMSA's bottler agreements, Coca-Cola FEMSA is authorized to manufacture, sell and distribute *Coca-Cola* trademark beverages within specific geographic areas, and Coca-Cola FEMSA is required to purchase concentrate for all *Coca-Cola* trademark beverages in all of Coca-Cola FEMSA's territories from companies designated by The Coca-Cola Company and sweeteners and other raw materials from companies authorized by The Coca-Cola Company. Concentrate prices for *Coca-Cola* trademark beverages are determined as a percentage of the weighted average retail price in local currency net of applicable taxes. Although The Coca-Cola Company has the right to unilaterally set the price of concentrates, in practice this percentage has historically been set pursuant to periodic negotiations with The Coca-Cola Company. See **Item 10. Additional Information Material Contracts Material Contracts Relating to Coca-Cola FEMSA Bottler Agreements.**

In the past, The Coca-Cola Company has increased concentrate prices for Coca-Cola trademark beverages in some of the countries where Coca-Cola FEMSA operates. For example, The Coca-Cola Company (i) began to gradually increase concentrate prices for certain *Coca-Cola* trademark beverages in Mexico beginning in 2017 and Costa Rica and Panama beginning in 2014, and informed Coca-Cola FEMSA that it would continue to do so through 2019 in Mexico and 2018 in Costa Rica and Panama; (ii) increased concentrate prices for certain *Coca-Cola* trademark beverages in Colombia in 2016 and 2017; and (iii) began to gradually increase concentrate prices for flavored water in Mexico beginning in 2015, and informed Coca-Cola FEMSA it would continue to do so through 2018. Based on Coca-Cola FEMSA's estimates, it currently does not expect these increases will have a material adverse effect on Coca-Cola FEMSA's results of operations. The Coca-Cola Company may continue to unilaterally increase concentrate prices in the future, and Coca-Cola FEMSA may not be successful in negotiating or implementing measures to mitigate the negative effect this may have in the prices of Coca-Cola FEMSA's products or Coca-Cola FEMSA's results. See **Item 10. Additional Information Material Contracts Material Contracts Relating to Coca-Cola FEMSA Cooperation Framework with The Coca-Cola Company.**

In addition to concentrate, Coca-Cola FEMSA purchases sweeteners, carbon dioxide, PET resin and preforms to make plastic bottles, finished plastic and glass bottles, cans, caps and fountain containers, as well as other packaging materials and raw materials. Coca-Cola FEMSA's bottler agreements provide that these materials may be purchased only from suppliers approved by The Coca-Cola Company. Prices for certain raw materials, including those used in the bottling of Coca-Cola FEMSA's products, mainly PET resin, finished plastic bottles, aluminum cans, HFCS and certain sweeteners, are paid in or determined with reference to the U.S. dollar, and therefore local prices in a particular country may increase based on changes in the applicable exchange rates. Coca-Cola FEMSA's most significant packaging raw material costs arise from the purchase of PET resin, the price of which is related to crude oil prices and global PET resin supply. The average price that Coca-Cola FEMSA paid for PET resin in U.S. dollars in 2017 increased only 2.7% as compared to 2016 in all of Coca-Cola FEMSA's territories, excluding Venezuela. In addition, given that high currency volatility has affected and continues to affect most of its territories, the average price for PET resin in local currencies was higher in 2017 in Argentina and Mexico. In 2017, Coca-Cola FEMSA purchased certain raw materials in advance, implemented a price fixing strategy and entered into certain derivative transactions, which helped Coca-Cola FEMSA to capture opportunities with respect to raw material costs and currency exchange rates.

Under Coca-Cola FEMSA's agreements with The Coca-Cola Company, it may use raw or refined sugar and HFCS in its products. Sugar prices in all of the countries where Coca-Cola FEMSA operates, other than Brazil, are subject to local regulations and other barriers to market entry that, in certain countries, that cause Coca-Cola FEMSA to pay for sugar in excess of international market prices. In recent years, international sugar prices experienced significant volatility. Across Coca-Cola FEMSA's territories (excluding Venezuela), Coca-Cola FEMSA's average price for sugar in U.S. dollars, taking into account its financial hedging activities, increased by approximately 7.3% in 2017 as compared to 2016; however, the average price for sugar in local currency was lower in Panama, Colombia and the Philippines.

Coca-Cola FEMSA categorizes water as a raw material in its business. Coca-Cola FEMSA obtains water for the production of some of Coca-Cola FEMSA's natural spring water products, such as *Manantial* in Colombia and *Crystal* in Brazil, from spring water pursuant to concessions granted.

None of the materials or supplies that Coca-Cola FEMSA uses is presently in short supply, although the supply of specific materials could be adversely affected by strikes, weather conditions, governmental controls, national emergency situations, water shortages or the failure to maintain Coca-Cola FEMSA's existing water concessions.

Mexico and Central America. In Mexico, Coca-Cola FEMSA mainly purchases PET resin from Indorama Ventures Polymers México, S. de R.L. de C.V. (formerly Arteva Specialties, S. de R.L. de C.V.), M&G Polímeros México, S.A. de C.V. and DAK Resinas Americas Mexico, S.A. de C.V., which Alpla México, S.A. de C.V., known as Alpla, and Envases Universales de México, S.A.P.I. de C.V. manufacture into non-returnable plastic bottles for us. Also, Coca-Cola FEMSA has introduced into its business Asian global suppliers, such as Far Eastern New Century Corp. and SFX Jiangyin Xingyu New Material Co. Ltd., which support Coca-Cola FEMSA's PET strategy and are known as the top PET global suppliers.

Coca-Cola FEMSA purchases all of its cans from Fábricas de Monterrey, S.A. de C.V., or FAMOSA, and Envases Universales de México, S.A.P.I. de C.V., through Promotora Mexicana de Embotelladoras, S.A. de C.V., known as PROMESA, a cooperative of *Coca-Cola* bottlers, in which, as of April 13, 2018, Coca-Cola FEMSA held a 35.0% equity interest. Coca-Cola FEMSA mainly purchases its glass bottles from Vitro America, S. de R.L. de C.V. (formerly Compañía Vidriera, S.A. de C.V., or Vitro), FEVISA Industrial, S.A. de C.V., known as FEVISA, and Glass & Silice, S.A. de C.V., or SIVESA.

Coca-Cola FEMSA purchases sugar from, among other suppliers, PIASA and Beta San Miguel, S.A. de C.V., both sugar cane producers in which, as of April 13, 2018, Coca-Cola FEMSA held a 36.4% and 2.7% equity interest, respectively. Coca-Cola FEMSA purchases HFCS from Ingredion México, S.A. de C.V. and Almidones Mexicanos, S.A. de C.V., known as Almix.

Sugar prices in Mexico are subject to local regulations and other barriers to market entry that cause Coca-Cola FEMSA to pay higher prices than those paid in the international market. As a result, prices in Mexico have no correlation to international market prices. In 2017, sugar prices in local currency in Mexico increased approximately 24.4% as compared to 2016.

In Central America, the majority of Coca-Cola FEMSA's raw materials such as glass and non-returnable plastic bottles are purchased from several local suppliers. Coca-Cola FEMSA purchases all of its cans through PROMESA. Sugar is available from suppliers that represent several local producers. In Costa Rica, Coca-Cola FEMSA acquires plastic non-returnable bottles from Alpla C.R. S.A., and in Nicaragua Coca-Cola FEMSA acquires such plastic bottles from Alpla Nicaragua, S.A.

South America (excluding Venezuela). In Colombia, Coca-Cola FEMSA uses sugar as a sweetener in all of its caloric beverages, which Coca-Cola FEMSA buys from several domestic sources. Sugar prices in Colombia decreased approximately 11.2% in U.S. dollars and 14.3% in local currency, as compared to 2016. Coca-Cola FEMSA purchases non-returnable plastic bottles from Amcor Rigid Plastics de Colombia, S.A. and Tapón Corona de Colombia S.A. (affiliate of Envases Universales de México, S.A.P.I. de C.V.). Coca-Cola FEMSA has historically purchased all of its non-returnable glass bottles from O-I Peldar and other global suppliers in the Middle East. Coca-Cola FEMSA purchases all of its cans from Crown Colombiana, S.A. Grupo Ardila Lulle (owners of Coca-Cola FEMSA's competitor Postobón) which owns a minority equity interest in certain of Coca-Cola FEMSA's suppliers, including O-I Peldar, Crown Colombiana, S.A and Incauca S.A.S.

In Brazil, Coca-Cola FEMSA also uses sugar as a sweetener in all of its caloric beverages, which is available at local market prices, which historically have been similar to international prices. Sugar prices in Brazil decreased approximately 3.1% in U.S. dollars and decreased 10.5% in local currency as compared to 2016. Taking into account Coca-Cola FEMSA's financial hedging activities, its sugar prices in Brazil increased approximately 14.3% in U.S. dollars and increased 4.5% in local currency as compared to 2016. **See Item 11. Quantitative and Qualitative Disclosures about Market Risk Commodity Price Risk.** Coca-Cola FEMSA purchases non-returnable glass bottles, plastic bottles and cans from several domestic and international suppliers. Coca-Cola FEMSA mainly purchases PET resin from local suppliers such as M&G Polímeros México, S.A. de C.V. and Companhia Integrada Textil de Pernambuco.

In Argentina, Coca-Cola FEMSA mainly uses HFCS that it purchases from several different local suppliers as a sweetener in its products. Coca-Cola FEMSA purchases glass bottles and other raw materials from several domestic sources. Coca-Cola FEMSA purchases plastic preforms at competitive prices from Andina Empaques S.A., a local subsidiary of Embotelladora Andina, S.A., a *Coca-Cola* bottler with operations in Chile, Argentina, Brazil and Paraguay, Alpla Avellaneda, S.A., AMCOR Argentina, and other local suppliers.

Venezuela. KOF Venezuela uses sugar as a sweetener in all of its caloric beverages, which it purchases mainly from suppliers in the local market. Since 2003, KOF Venezuela has experienced a sugar shortage due to lower domestic production and the inability of the predominant sugar importers to obtain permission to import sugar on a timely basis. Because sugar distribution to the food and beverages industry and to retailers was controlled by the government, KOF Venezuela regularly experienced material disruptions with respect to access to sufficient sugar supply. For this reason, in 2016 Coca-Cola FEMSA decided to adjust KOF Venezuela's product portfolio from caloric beverages to non-caloric beverages. KOF Venezuela purchases glass bottles from one local supplier, Productos de Vidrio, C.A., the only supplier authorized by The Coca-Cola Company. KOF Venezuela acquires most of its non-returnable plastic bottles from Alpla de Venezuela, S.A., and most of its aluminum cans from a local producer, Dominguez Continental, C.A.

Asia. In the Philippines, Coca-Cola FEMSA uses both local sugar and HFCS that it purchases in China mainly from Archer Daniels Midland and Scents (Shandong Xiangchi Jianyuan Bio-Tech Co., Ltd), and in Korea from Daesang Corp.

In 2017, sugar prices in the Philippines decreased by approximately 17.9% in local currency and 22.5% in U.S. dollars, as compared to 2016. Due to a tax reform imposing new taxes on sugar and HFCS beginning on January 1, 2018, Coca-Cola FEMSA expects to use sugar as the sweetener in all of its caloric beverages in the Philippines. See **Item 4. Information on the Company Regulatory Matters Taxation of Beverages.**

Coca-Cola FEMSA purchases non-returnable plastic bottles from global PET converters such as Alpla Philippines Inc. and Indorama Ventures Packaging Philippines Corporation. In the case of PET resin, Coca-Cola FEMSA purchases its supply from top Asian suppliers from China, Taiwan and South East Asia, such as Indorama Ventures Polymers, Far Eastern New Century Corporation and SFX Jiangyin Xingyu New Material Co. Ltd. Coca-Cola FEMSA purchases non-returnable glass bottles from Frigoglass Jebel Ali Free Zone, Saudi Arabian Glass Company Limited, Asia Brewery Inc., San Miguel Yamamura Packaging Corporation and Yantai NBC Glass Packaging Co., Ltd.

FEMSA Comercio

Overview

FEMSA Comercio operates through the following divisions:

Retail Division: operates the largest chain of small-format stores in the Americas, measured in terms of number of stores as of December 31, 2017, mainly under the trade name OXXO. As of December 31, 2017, the Retail Division operated 16,526 OXXO stores in Mexico and Colombia, and 51 stores in Chile.

Health Division: operates drugstores and related operations with 1,123 points of sale in Mexico, 882 in Chile and 220 in Colombia as of December 31, 2017.

Fuel Division: operates retail service stations for fuels, motor oils and other car care products. As of December 31, 2017, the Fuel Division operated 452 service stations, concentrated mainly in the northern part of Mexico with a presence in 16 states throughout the country.

Operations by Division Overview**Year Ended December 31, 2017**

	(in millions of Mexican pesos, except percentages)			
	Total Revenues		Gross Profit	
	2017	2017 vs. 2016 ⁽¹⁾	2017	2017 vs. 2016 ⁽¹⁾
	2017	2016 ⁽¹⁾	2017	2016 ⁽¹⁾
Retail Division	Ps.154,204	12.4%	Ps.58,245	14.2%
Health Division	47,421	9.2%	14,213	11.6%
Fuel Division	38,388	34.1%	2,767	23.1%

(1) The operations that compose the Health Division have been treated as a separate reportable segment since 2016.

Corporate History**Retail Division**

FEMSA's retail business started in 1978 with the opening of two OXXO stores in Monterrey, Nuevo Leon, one store in Mexico City and another store in Guadalajara, Jalisco. The motivating factor behind FEMSA's entrance into the retail industry was to enhance beer sales through company-owned retail outlets as well as to gather information on customer preferences.

In 1994, FEMSA Comercio consolidated its retail business into an independent business unit, and by 1998, it reached 1,000 OXXO stores in Mexico. By 2007, the store count surpassed 5,000 across Mexico, and in 2009, OXXO entered Colombia, where it has continued expanding its presence. Currently, there are 59 OXXO stores in Colombia.

In December 2013, FEMSA Comercio, through one of its subsidiaries, purchased the operating assets and trademarks of Doña Tota, a leading quick-service restaurant operator in Mexico. The founding shareholders of Doña Tota currently hold a 16.4% stake in the FEMSA Comercio subsidiary that now operates the Doña Tota business.

In January 2016, in order to explore the fast casual dining industry in the United States, FEMSA Comercio, through its subsidiary Cadena Comercial USA, completed the acquisition of an 80% economic stake in Specialty's, which then operated 56 café restaurants in the states of California, Washington and Illinois. In January 2017, Cadena Comercial USA completed the acquisition of the remaining 20% economic stake in Specialty's, becoming its sole owner.

In June 2016, the Retail Division, through its subsidiary Cadena Comercial Andina, SpA, acquired Big John, a leading convenience store operator based in Santiago, Chile. At the time of the acquisition, Big John operated 49 stores, mainly in the Santiago metropolitan area. In March 2017, the Retail Division opened its first OXXO store in Chile.

Health Division

Leveraging FEMSA Comercio's capabilities and skills in successfully operating small-box retail formats, in May 2013, FEMSA Comercio, through its subsidiary CCF, closed the acquisition of Farmacias YZA, a leading drugstore operator in Southeast Mexico, to create another avenue for growth for FEMSA Comercio. The founding shareholders of Farmacias YZA currently hold a 22.7% stake in CCF.

In a separate transaction, on May 13, 2013, CCF acquired Farmacias FM Moderna, a leading drugstore operator in the western state of Sinaloa.

In June 2015, CCF acquired Farmacias Farmacon, a regional pharmacy chain in the northwestern Mexican states of Sinaloa, Sonora, Baja California and Baja California Sur.

In September 2015, the Retail Division acquired 60% of Socofar, a leading South American drugstore operator based in Santiago, Chile. Socofar operated, directly and through franchises, at that time, more than 600 drugstores and 150 beauty stores throughout Chile and 150 drugstores

throughout Colombia.

In June 2016, CCF acquired Farmacias Generix, a regional pharmacy chain consisting at the time of the transaction of 70 drugstores in the Mexican states of Jalisco, Guanajuato, Mexico City, Queretaro and Nuevo Leon.

In July 2016, Sofocar through one of its subsidiaries, Drogueria y Farmacias Cruz Verde S.A.S., acquired Farmacias Acuña, a regional pharmacy chain consisting at the time of 51 drugstores in Colombia.

Fuel Division

Since 1995, FEMSA Comercio has provided operational and administrative services for gasoline service stations through agreements with third parties, using the commercial brand OXXO GAS. Over time, this brand has become synonymous of quality service among our customers, and revenues per service station have consistently grown. Historically, Mexican legislation precluded FEMSA Comercio from participating in the retail of gasoline, and therefore from owning PEMEX franchises, due to FEMSA's foreign institutional investor base. In March 2015, following changes to the legal framework and considering the potential expansion and synergies arising from this business as part of Mexico's energy reform, FEMSA Comercio began to acquire and lease PEMEX's service station franchises and to obtain permits to operate each of the franchises. The implementation of the reform evolved in 2017 and fuel prices gradually began to follow the dynamics of the international fuel market, in accordance with the regulatory framework. In 2018, we expect to have more flexibility to operate within a free retail market environment.

Retail Division

Business Strategy

The Retail Division intends to continue increasing its store base while capitalizing on the retail business and market knowledge gained at existing stores. We intend to open new stores in locations where we believe there is high growth potential or unsatisfied demand, while also increasing customer traffic and average ticket per customer in existing stores. Our expansion focuses on both entering new markets and strengthening our presence nationwide and across different income levels of population. A fundamental element of the Retail Division's business strategy is to leverage its retail store formats, know-how, technology and operational practices to continue growing in a cost-effective and profitable manner. This scalable business platform is expected to provide a strong foundation for continued organic growth, improving traffic and average ticket sales at our existing stores and facilitating entry into new small-format retail industries.

The Retail Division has developed proprietary models to assist in identifying appropriate store locations, store formats and product categories. These models utilize location-specific demographic data and the Retail Division's experience in similar locations to fine-tune the store formats, product price ranges and product offerings to the target market. Market segmentation is becoming an important strategic tool that is expected to allow the Retail Division to improve the operating efficiency of each location, cover a wider array of consumption occasions and increase its overall profitability.

The Retail Division continues to improve its information gathering and processing systems to allow it to connect with its customers at all levels and anticipate and respond efficiently to their changing demands and preferences. Most of the products carried through OXXO stores are bar-coded, and all OXXO stores are equipped with point-of-sale systems integrated into a company-wide computer network. To implement more effective business strategies, the Retail Division created a department in charge of product category management, for products such as beverages, fast food and perishables, responsible for analyzing data gathered to better understand our customers, develop integrated marketing plans and allocate resources more efficiently. This department utilizes a technology platform supported by an enterprise resource planning (ERP) system, as well as other technological solutions such as merchandising and point-of-sale systems, which allow the Retail Division to redesign and adjust its key operating processes and certain related business decisions. Our IT system also allows us to manage each store's working capital, inventories and investments in a cost-effective way while maintaining high sales volume and store quality. Supported by continued investments in IT, our supply chain network allows us to optimize working capital requirements through inventory rotation and reduction, reducing out-of-stock days and other inventory costs.

The Retail Division has adopted innovative promotional strategies in order to increase store traffic and sales. In particular, the OXXO stores sell high-frequency items such as beverages, snacks and cigarettes at competitive prices. The Retail Division's ability to implement this strategy profitably is partly attributable to the size of the OXXO stores chain, as such division is able to work together with its suppliers to implement their revenue-management strategies through differentiated promotions. OXXO stores' national and local marketing and promotional strategies are an effective revenue driver and a means of reaching new segments of the population while strengthening the OXXO brand. For example, the organization has refined its expertise in executing cross promotions (discounts on multi-packs or sales of complementary products at a special price) and targeted promotions to attract new customer segments by expanding the offerings in the grocery product category in certain stores.

Another fundamental element of our strategy consists of leveraging our reputation for quality and the position of our brand in the minds of our customers to expand our offering of private-label products. Our private-label products represent an alternative for value-conscious consumers, which, combined with our market position, allows the Retail Division to increase sales and margins, strengthen customer loyalty and bolster its bargaining position with suppliers.

Historically, the Retail Division has represented an effective distribution channel for our beverage products, as well as a rapidly growing point of contact with our consumers. Based on the belief that location plays a major role in the long-term success of a retail operation such as a small-format store, as well as a role in our ability to accelerate and streamline the new-store development process, the Retail Division has focused on a strategy of rapid, profitable growth.

Finally, to further increase customer traffic into our stores, the Retail Division has incorporated additional services, such as utility bill payment, deposits into bank accounts held at our correspondent bank partners, remittances, prepayment of mobile phone fees and charges and other financial services, and it constantly increases the services offered in its stores.

Store Locations

With 16,526 OXXO stores in Mexico and Colombia, and 51 stores in Chile as of December 31, 2017, the Retail Division operates the largest small-format store chain in the Americas, measured by number of stores. The Retail Division has expanded its operations by opening 1,301 net new OXXO stores in Mexico and Colombia during 2017.

OXXO Stores

Regional Allocation in Mexico^(*)

as of December 31, 2017

The Retail Division has aggressively expanded its number of OXXO stores over the past several years. The average investment required to open a new OXXO store varies, depending on location and format and whether the store is opened in an existing retail location or requires construction of a new store. The Retail Division is generally able to use supplier credit to fund the initial inventory of new OXXO stores.

OXXO Stores

Total Growth

	Year Ended December 31,				
	2017	2016	2015	2014	2013
Total OXXO stores	16,526	15,225	14,061	12,853	11,721
Store growth (% change over previous year)	8.5%	8.3%	9.4%	9.7%	10.6%

The Retail Division currently expects to continue implementing its expansion strategy by emphasizing growth in areas of high economic potential in existing markets and by expanding in underserved and unexploited markets.

Most of the OXXO stores are operated under lease agreements, which are denominated in Mexican peso and adjusted annually to an inflation index. This approach provides the Retail Division the flexibility to adjust locations as cities grow and effectively adjust its footprint based on stores' performance.

Both the identification of locations and the pre-opening planning to optimize the results of new OXXO stores are important elements in the Retail Division's growth plan. The Retail Division continuously reviews store performance against certain operating and financial benchmarks to optimize the overall performance of the chain. Stores of the Retail Division that are unable to maintain benchmark standards are generally closed. Between December 31, 2013 and 2017, the total number of OXXO stores increased by 4,805, which resulted from the opening of 5,050 new stores and the closing of 245 stores.

Competition

The Retail Division, mainly through OXXO stores, competes in the overall retail market, which we believe is highly competitive. OXXO stores face competition from small-format stores like 7-Eleven, Circle K and other numerous chains of retailers across Mexico, from other regional small-format retailers to small informal neighborhood stores. OXXO competes not only for consumers and new store locations but also for human resources to operate those stores. The Retail Division operates in every state in Mexico and has a much broader geographic coverage than any of its competitors in Mexico.

Market and Store Characteristics

Market Characteristics

The Retail Division is placing increased emphasis on market segmentation and store format differentiation to more appropriately serve the needs of customers on a location-by-location basis. The principal segments include residential neighborhoods, commercial office locations and stores near schools, universities and other types of specialized locations.

Approximately 60% of OXXO stores' customers are between the ages of 15 and 35. The Retail Division also segments the market according to demographic criteria, including income level.

OXXO Store Characteristics

The average size of an OXXO store is approximately 104 square meters of selling space, excluding space dedicated to refrigeration, storage or parking. The average constructed area of a store is approximately 188 square meters and, when parking areas are included, the average store size is approximately 411 square meters. In 2017, a typical OXXO store carried an average of 3,157 different stock keeping units (SKUs) in 31 main product categories.

Retail Division Operating Indicators

	2017	Year Ended December 31,			2013
		2016	2015	2014	
	(percentage increase compared to previous year)				
Total Retail Division revenues	12.4%	14.4% ⁽¹⁾	21.2% ⁽³⁾	12.4%	12.9%
OXXO same-store sales ⁽²⁾	6.4%	7.0%	6.9%	2.7%	2.4%

(1) Includes revenues of Big John. See **Item 4. Information on the Company Corporate Background** and Note 4 to our audited consolidated financial statements.

(2) Same-store sales growth is calculated by comparing the sales of stores for each year that have been in operation for more than 12 months with the sales of those same stores during the previous year.

(3) Includes revenues of Farmacias Farmacon from June 2015 and Socofar from October 2015. See **Item 4. Information on the Company Corporate Background** and Note 4 to our audited consolidated financial statements. The percentage is compared as reported the previous year.

Beer, cigarettes, soft drinks and other beverages and snacks represent the main product categories for OXXO stores. The Retail Division has a distribution agreement with Cuauhtémoc Moctezuma, pursuant to which OXXO stores only carry beer brands produced and distributed by Cuauhtémoc Moctezuma. OXXO stores will continue to benefit from the existing relationship under which Cuauhtémoc Moctezuma will continue to be the exclusive supplier of beer to OXXO until June 2020.

Approximately 53% of OXXO stores are operated by independent managers responsible for all aspects of store operations. The store managers are commission agents and are not employees of the Retail Division. Each store manager is the legal employer of the store's staff, which typically numbers six people per store. The Retail Division continually invests in on-site operating personnel, with the objective of promoting loyalty, customer service and low personnel turnover in the stores.

Advertising and Promotion

The Retail Division's marketing efforts for OXXO stores include both specific product promotions and image advertising campaigns. These strategies are designed to increase store traffic, increase sales and continue to promote the OXXO brand and market position.

The Retail Division manages its advertising for OXXO stores on three levels depending on the nature and scope of the specific campaign:

(1) local or store-specific, (2) regional and (3) national. Store-specific and regional campaigns are closely monitored to ensure consistency with the overall corporate image of OXXO stores and to avoid conflicts with national campaigns. The Retail Division primarily uses point-of-purchase materials, flyers, handbills and print and radio media for promotional campaigns, although television is used occasionally for the introduction of new products and services. OXXO stores' image and brand name are presented consistently across all stores, irrespective of location.

Inventory and Purchasing

The Retail Division has placed considerable emphasis on improving operating performance. As part of these efforts, the Retail Division continues to invest in extensive information management systems to improve inventory management. Electronic data collection has enabled this division to reduce average inventory levels. Inventory replenishment decisions are carried out on a store-by-store basis.

Management believes that the OXXO store chain's scale of operations provides the Retail Division with a competitive advantage in its ability to realize strategic alliances with suppliers. General category offerings are determined on a national level, although purchasing decisions are implemented on a local, regional or national level, depending on the nature of the product category. Given the fragmented nature of the retail industry in Mexico in general, Mexican producers of beer, soft drinks, bread, dairy products, snacks and other high-frequency products have established proprietary distribution systems with extensive direct distribution routes. As a result, approximately 60% of the OXXO store chain's total sales consist of products that are delivered directly to the stores by suppliers. Other products with longer shelf lives are distributed to stores by the Retail Division's distribution system, which includes 18 regional warehouses in Mexico, located in Monterrey, Guadalajara, Mexicali, Merida, Leon, Obregon, Puebla, Queretaro, Chihuahua, Reynosa, Saltillo, Tampico, Tijuana, Toluca, Veracruz, Villahermosa, two in Mexico City, and two regional warehouses in Colombia. Our logistics services subsidiary operates a fleet of approximately 1,034 trucks that make deliveries from the distribution centers to each store approximately twice per week.

Seasonality

OXXO stores experience periods of high demand in December, as a result of the holidays, and in July and August, as a result of increased consumption of beer and soft drinks during these hot summer months. The months of November and February are generally the weakest sales months for OXXO stores. In general, the colder weather during these months reduces store traffic and cold beverage consumption overall.

Quick-Service Restaurant Market

Following the rationale that the Retail Division has developed certain capabilities and skills that should be well suited to different types of small-format retail, in 2013 the Retail Division entered the quick-service restaurant market in Mexico through the acquisition of Doña Tota, with the founding shareholders retaining a minority position. This is a leading regional chain specializing in Mexican food with a particularly strong presence in the northeast of the country. This acquisition presented the Retail Division with the opportunity to grow Doña Tota's stand-alone store base across the country, as well as the possibility to acquire prepared food capabilities and expertise.

In January 2016, in order to explore the fast casual dining industry in the United States, FEMSA Comercio, through its subsidiary Cadena Comercial USA Corporation, LLC., completed the acquisition of an 80% economic stake in Specialty's, which operates café restaurants in California, Washington and Illinois. In January 2017, Cadena Comercial USA completed the acquisition of the remaining 20% economic stake in Specialty's, becoming its sole owner.

Other Stores

The Retail Division also operates other small-format stores, which include soft discount stores with a focus on perishables and liquor stores.

Health Division

Business Strategy

The Health Division's vision is focused on two main strategies: first, to gain relevant scale by building a Latin American pharmacy retail platform that operates across several countries and markets, and second, to constantly improve our value proposition and service by being closer to our customers and by giving them access to a broader assortment, better options and availability of required medications, as well as relevant health and wellness products and services. In order to achieve this, the Health Division is working on leveraging two strong capability sets: (i) the Health-industry marketing and operational skills acquired through the incorporation of Chile-based Socofar and (ii) the skills that FEMSA Comercio has developed in the operation and growth of other small retail formats, particularly in Mexico. These capabilities include commercial, marketing and production skills as well as site selection, logistics, business processes, human resources, inventory and supplier management.

The drugstore market in Mexico is still fragmented, and FEMSA Comercio believes it is well equipped to create value by continuing to grow in this market and by assuming a value-creating role in its long-term consolidation. Furthermore, the acquisition of Socofar gives FEMSA Comercio the opportunity to pursue a regional strategy across South America from a solid platform anchored in the Chilean market and with compelling growth opportunities in Colombia and beyond.

Store Locations

As of December 31, 2017, the Health Division operates 2,225 points of sale, including 1,123 in Mexico, 882 in Chile and 220 in Colombia.

During 2017, the Health Division expanded its operations by opening 105 additional stores on top of the 2,120 stores operating in 2016. The average investment required to open a new store varies, depending on location and whether the store is opened in an existing store location or requires construction of a new store. The Health Division currently expects to continue implementing its expansion strategy by emphasizing growth in markets where it currently operates and by expanding in underserved and unexploited markets. Most of the drugstore-related real estate is operated under lease agreements.

Competition

The Health Division competes in the overall pharmacy services market, which we believe is highly competitive. Our stores face competition from other drugstore chains, independent pharmacies and supermarkets, online retailers and convenience stores. The biggest chains in Mexico competing with the Health Division based on number of drugstores are Farmacias Guadalajara, Farmacias del Ahorro and Farmacias Benavides, while in Chile, the biggest chains are Farmacias Ahumada and Salcobrand. In Colombia, Farmatodo, Olimpica, Farmacenter, La Rebaja and Colsubsidio are relevant players.

Market and Store Characteristics

Market Characteristics

The drugstore market in Mexico is highly fragmented among national and regional chains as well as independent drugstores, supermarkets and other informal neighborhood drugstores. There are more than 30,000 drugstores; however, the Health Division only has 4% of the total number of pharmacies in Mexico with a presence in 15 of 32 states in the country.

The market in Colombia is similar but slightly less fragmented and in general includes national and regional chains. The national healthcare system in Colombia covers a large amount of the country's population and works through *Entidades Promotoras de Salud* (Health Promoting Entities) in the private and public sectors to provide healthcare services to the Colombian population.

In Chile, the market is more concentrated among a limited number of participants and our operation is the leading drugstore operator in the country in terms of number of stores. Our operation is also the largest distributor of pharmaceuticals in the country. The Chilean market, where our operation's healthcare services are sold to both institutional and personal consumers, represents an attractive growth opportunity.

The Health Division is placing increased emphasis on market segmentation and differentiation of store formats to more appropriately serve the needs of customers on a location-by-location basis, selecting sites with the greatest proximity to the customers.

The Health Division's customers are aged 18 and above. In Mexico, 60% of the Health Division's customers are between the ages of 18 and 35, 52% of which are female. In Chile, 64% of the customers are between the ages of 25 and 54, 58% of which are female. The Health Division also segments the market according to demographic criteria, including income level and purchase frequency.

Store Characteristics

The Health Division's stores are operated under the following trade names: Farmacias YZA, Farmacias Moderna, Farmacias Farmacon and Farmacias Generix in Mexico; Farmacias Cruz Verde in Chile and Colombia and beauty stores under the trade name Maicao in Chile. The average size of the Health Division's stores is 93 square meters in Mexico, 182 square meters in Chile and 87 square meters in Colombia, including selling space and storage area. On average, each store has between 6 and 11 employees depending on the size of and traffic into the store. Patented and generic pharmaceutical drugs, beauty products, medical supplies, household goods and personal care products are the main products sold at the Health Division's stores.

The Health Division's stores also offer different value-added services, such as correspondent banking, product delivery services, medical examinations and some financial services in Chile.

Advertising and Promotion

The Health Division's marketing efforts for its stores include both specific product promotions and image advertising campaigns. These strategies are designed to increase store traffic and sales and to reinforce the brands and market positions. In Chile, sanitary law forbids advertising of pharmaceutical products through mass media. Nevertheless, it is possible to advertise over-the-counter products using point-of-purchase materials, flyers and print catalogs. Television, radio, newspapers and digital media are used in seasonal and promotional campaigns.

Inventory and Purchasing

The South American operations of our Health Division seek to align the purchasing and logistics process with consumer needs. A key competitive advantage is our strong logistics chain, which relies on an integrated view of the supply chain. In Chile, we operate two distribution centers, the largest of which is a modern distribution center with advanced technology that services stores and healthcare institution customers throughout the country. In Colombia, we operate one distribution center that distributes products to all our locations throughout the country.

In Mexico, we continue to integrate our acquired companies into a single model of operation and we have built two distribution centers to streamline our operations. One distribution center serves a significant portion of the needs of our stores located in the north of Mexico, while the second distribution center provides service to stores located in the south. We still rely on third-party distributors for some products in Mexico.

Seasonality

The Health Division's sales can be seasonal in nature with pharmaceutical drug sales affected by the timing and severity of the cough, cold and flu season. Revenues tend to be higher during the winter season but can be offset by extreme weather due to the rainy season in certain regions of Mexico in December and January. Revenues in our Chilean operation tend to be higher during December, mainly due to an increase in the purchase of beauty and personal care products for gift-giving during the holidays; otherwise, early in the year during January and February, revenues tend to fall slightly, mainly driven by the holiday period.

Fuel Division

Business Strategy

A fundamental element of the Fuel Division's business strategy is to accelerate the rate at which it opens service stations, in previously identified regions in Mexico, by way of leases, procurement or construction of stations.

The Fuel Division's business strategy aims to strengthen its services in its retail gas stations in Mexico to fulfill consumers' needs and increase traffic in those service stations while developing and maintaining an attractive value proposition to draw potential customers and face the entry of new competitors in the industry. Furthermore, the Fuel Division's service stations often have an OXXO store on the premises, strengthening the OXXO brand and complementing the value proposition.

The Fuel Division's business strategy includes the analysis and potential development of new businesses in the fuel value chain, such as the final distribution and wholesale of fuel to its own service stations and to third parties.

Service Station Locations

As of December 31, 2017, the Fuel Division operated 452 service stations, concentrated mainly in the northern part of the country but with a presence in 16 states throughout Mexico.

In 2017, the Fuel Division leased 54 additional service stations and built 16 new service stations.

Competition

Despite the existence of other groups competing in this sector, the Fuel Division's main competitors are small retail service station chains owned by regional family businesses, which compete in the aggregate with the Fuel Division in total sales, new station locations and labor. The biggest chains competing with the Fuel Division in terms of number of service stations are Petro-7, operated by 7-Eleven Mexico; Corpo Gas; Hidrosina, Orsan and international players operating in Mexico such as British Petroleum and Shell.

Market and Store Characteristics

Market Characteristics

The retail service station market in Mexico is highly fragmented. There are currently approximately 12,000 service stations; however, the Fuel Division, with approximately 3.8% of the total number of stations, is the largest participant in this market. The majority of the retail service stations in the country are owned by small regional family businesses.

Service Station Characteristics

Each service station under the OXXO GAS trade name comprises offices, parking lots, a fuel service area and an area for storage of gasoline in underground tanks. We are in an ongoing effort to re-brand some of our service stations with a new image featuring the trademark of OXXO GAS. This change will undoubtedly allow customers to more easily identify our service stations in the market.

The average size of the fuel service dispatch area is 216 square meters. On average, each service station has 13 employees.

Gasoline, diesel, oil and additives are the main products sold at OXXO GAS service stations.

Up until April of 2016, legal restrictions prevented the Fuel Division, as a franchisee of PEMEX, from having a different supplier of gasoline. However, the current law allows other suppliers to operate in Mexico.

Advertising and Promotion

Through promotional activities, the Fuel Division seeks to provide additional value to customers by offering, along with gasoline, oils and additives, quality products and services at affordable prices. The best tool for communicating these promotions has been coupon promotions in partnership with third parties.

Seasonality

The Fuel Division experiences especially high demand during the months of May and August. The lowest demand is in January and December due to the year-end holiday period, because most service stations are not located on highways to holiday destinations.

Heineken Investment

FEMSA owns a non-controlling interest in the Heineken Group, one of the world's leading brewers. As of December 31, 2017, our 14.76% economic interest in the Heineken Group comprised 35,318,320 shares of Heineken Holding N.V. and 49,697,203 shares of Heineken N.V. For 2017, FEMSA recognized equity income of Ps. 7,847 million regarding its economic interest in the Heineken Group, which was 20.00% for the first eight months of the year and 14.76% for remaining four months of the year; see Note 10 to our audited consolidated financial statements.

As described above, the Retail Division has a distribution agreement with subsidiaries of Cuauhtémoc Moctezuma, now a part of the Heineken Group, pursuant to which OXXO stores in Mexico only carry beer brands produced and distributed by Cuauhtémoc Moctezuma. OXXO stores will continue to benefit from the existing relationship under which Cuauhtémoc Moctezuma will continue to be the exclusive supplier of beer to OXXO until June 2020. In addition, our logistic services subsidiary provides certain services to Cuauhtémoc Moctezuma and its subsidiaries. Coca-Cola FEMSA also continues to distribute and sell Heineken beer products in Coca-Cola FEMSA's Brazilian territories pursuant to Coca-Cola FEMSA's agreement with Heineken Brazil. See **Item 4. Information on the Company Coca-Cola FEMSA Sales Volume and Transactions Overview South America (Excluding Venezuela)** and **Item 8. Financial Information Legal Proceedings**.

Other Businesses

Our other businesses consist of the following smaller operations that support our core operations, which we refer to as FEMSA Strategic Businesses:

Our logistics services subsidiary provides a broad range of logistics and vehicle maintenance services to Coca-Cola FEMSA, FEMSA Comercio and third-party clients in the beverages, consumer products and retail industries. Our logistic services subsidiary operates in Mexico, Brazil, Colombia, Panama, Costa Rica, Peru and Nicaragua.

Our refrigeration business produces vertical and horizontal commercial refrigerators for the soft drink, beer and food industries, with an annual capacity of 54,203 units at December 31, 2017. In 2017, this business sold 529,339 refrigeration units, 26% of which were sold to Coca-Cola FEMSA, and the remainder of which were sold to other clients. Also, this business includes manufacturing operations for food processing, storage and weighing equipment.

Description of Property, Plant and Equipment

As of December 31, 2017, Coca-Cola FEMSA owned all of its manufacturing facilities and distribution centers, consisting primarily of production and distribution facilities for its soft drink operations and office space. In addition, the Retail Division owns approximately 13% of OXXO stores, while the remaining stores are located on leased properties and substantially almost all of its warehouses are under long-term lease arrangements with third parties. The Health Division owns five distribution centers, two of which are in Chile, two in Mexico and one in Colombia, and includes a manufacturing facility for generic pharmaceuticals in Chile. Most of the Health Division's stores are under lease arrangements with third parties.

The table below summarizes by country, installed capacity and average annual percentage utilization and utilization during peak month of Coca-Cola FEMSA's production facilities:

Bottling Facility Summary

As of December 31, 2017

Country	Installed Capacity (thousands of unit cases)	Average Annual Utilization⁽¹⁾ (⁽²⁾) (%)	Utilization in Peak Month⁽¹⁾ (%)
Mexico	2,818,533	63	78
Guatemala	49,379	67	67
Nicaragua	86,555	39	58
Costa Rica	88,207	51	56
Panama	70,605	43	47
Colombia	663,452	38	47
Venezuela ⁽³⁾	242,121	27	30
Brazil	1,419,984	52	59
Argentina	367,620	41	48
Philippines	1,139,038	51	60

(1) Calculated based on each bottling facility's theoretical capacity assuming total available time in operation and without taking into account ordinary interruptions, such as planned downtime for preventive maintenance, repairs, sanitation, set-ups and changeovers for different flavors and presentations. Additional factors that affect utilization levels include seasonality of demand for our products, supply chain planning due to different geographies and different packaging capacities.

(2) Annualized rate.

(3) Includes bottling facilities owned by KOF Venezuela.

The table below summarizes by country plant location and facility area of Coca-Cola FEMSA's production facilities:

Bottling Facility by Location

As of December 31, 2017

Country	Plant	Facility Area (thousands of sq. meters)
Mexico	Toluca, Estado de Mexico	317
	Leon, Guanajuato	124
	Morelia, Michoacan	50
	Ixtacomitan, Tabasco	117
	Apizaco, Tlaxcala	80
	Coatepec, Veracruz	142
	La Pureza Altamira, Tamaulipas	300
	San Juan del Rio, Queretaro	84
Guatemala	Guatemala City	46
Nicaragua	Managua	54
Costa Rica	Calle Blancos, San Jose	52
Panama	Panama City	29
Colombia	Barranquilla, Atlántico	37
	Bogota, DC	105
	Tocancipa, Cundinamarca	298
Venezuela ⁽¹⁾	Valencia, Carabobo	100
Brazil	Jundiai, Sao Paulo	191
	Marilia, Sao Paulo	159
	Curitiba, Paraná	119
	Itabirito, Minas Gerais	320
	Porto Alegre, Río Grande do Sul	196
Argentina	Alcorta, Buenos Aires	73
Philippines	Santa Rosa, La Laguna	294
	Misamis, Mindanao	112
	Canlubang, La Laguna	137
	Imus, Cavite	19
	San Fernando, Pampanga	60

(1) Includes bottling facilities owned by KOF Venezuela.

Insurance

We maintain an all risk insurance policy covering our properties (owned and leased), machinery and equipment and inventories as well as losses due to business interruptions. The policy covers damages caused by natural disasters, including hurricanes, hail, earthquakes and damages caused by human acts, including explosions, fire, vandalism and riots. We also maintain a freight transport insurance policy that covers damages to goods in transit. In addition, we maintain a liability insurance policy that covers product liability. We purchase our insurance coverage through an insurance broker. In 2018, the policies for all risk property insurance were issued by AXA Seguros, S.A. de C.V., policies for liability insurance were issued by Mapfre Tepeyac Seguros, S.A. and the policy for freight transport insurance was issued by AXA Seguros, S.A. de C.V. Our all risk coverage was partially reinsured in the international reinsurance market. We believe that our coverage is consistent with the coverage maintained by similar companies.

Capital Expenditures and Divestitures

Our consolidated capital expenditures, net of disposals, for the years ended December 31, 2017, 2016 and 2015 were Ps. 25,180 million, Ps. 22,155 million and Ps. 18,885 million respectively and were for the most part financed from cash from operations generated by our subsidiaries. These amounts were invested in the following manner:

	Year Ended December 31,		
	2017	2016	2015
	(in millions of Mexican pesos)		
Coca-Cola FEMSA	14,612	Ps. 12,391	Ps. 11,484
FEMSA Comercio			
Retail Division	8,563	7,632	5,625
Health Division	774	474	423
Fuel Division	291	299	228
Other	940	1,359	1,125
Total	Ps. 25,180	Ps. 22,155	Ps. 18,885
Coca-Cola FEMSA			

In 2017, 2016 and 2015, Coca-Cola FEMSA focused its capital expenditures on investments in (i) increasing production capacity; (ii) placing coolers with retailers; (iii) returnable bottles and cases; (iv) improving the efficiency of its distribution infrastructure and (v) information technology. Through these measures, Coca-Cola FEMSA continuously seeks to improve its profit margins and overall profitability.

FEMSA Comercio

Retail Division

The Retail Division's principal investment activity is the construction and opening of new stores, which are mostly OXXO Stores. During 2017, FEMSA Comercio opened 1,301 net new OXXO stores. The Retail Division invested Ps. 8,563 million in 2017 in the addition of new stores, warehouses and improvements to leased properties, renewal of equipment and information technology related investments.

Health Division

The Health Division's principal investment activity is the construction and opening of new drugstores in the countries where we operate. During 2017, the Health Division opened 46 net new drugstores in Mexico and 59 net new drugstores in Chile and Colombia. The Health Division invested Ps. 774 million in 2017 in the addition of new stores, warehouses and improvements to leased properties and information technology investments.

Fuel Division

In 2017, the Fuel Division's business addressed its investments on capital expenditure mainly to the addition of 70 new retail service stations. During 2017, the Fuel Division invested Ps. 291 million.

Regulatory Matters

We are subject to different regulations in each of the territories where we operate. The adoption of new laws or regulations in the countries where we operate may increase our operating costs, our liabilities or impose restrictions on our operations which, in turn, may adversely affect our financial condition, business and results. Further changes in current regulations may result in an increase in compliance costs, which may have an adverse effect on our future results or financial condition.

Tax Reforms

On April 1, 2015, the Brazilian government issued Decree No. 8.426/15 to impose, as of July 2015, PIS/COFINS (Social Contributions on Gross Revenues) of 4.65% on financial income (except for foreign exchange variations). In addition, starting in 2016, the Brazilian federal production tax rates were reduced and the federal sales tax rates were increased. These rates continued to increase in 2017. However, the Supreme Court

Edgar Filing: MEXICAN ECONOMIC DEVELOPMENT INC - Form 20-F

decided in early 2017 that the value-added tax will not be used as the basis for calculating the federal sales tax, which resulted in a reduction of the federal sales tax. Notwithstanding the above, the tax authorities appealed the Supreme Court's decision and are still waiting for a final resolution. In 2017 the federal production and sales taxes together resulted in an average of 15.6% tax over net sales. For 2018, these taxes will continue to increase, and we expect the average of these taxes will range between 16.0% and 17.5% over net sales.

On December 30, 2015, the Venezuelan government enacted a new package of tax reforms that became effective in January 2016. This reform mainly (i) eliminated the inflationary adjustments for the calculation of income tax as well as the new investment tax deduction, and (ii) imposed a new tax on financial transactions effective as of February 1, 2016, for entities identified as special taxpayers, at a rate of 0.75% over certain financial transactions, such as bank withdrawals, transfer of bonds and securities, payment of indebtedness without intervention of the financial system and debits on bank accounts for cross-border payments.

In Guatemala the income tax rate for 2014 was 28.0% and it decreased to 25.0% for 2015.

On January 27, 2016, the Chilean National Congress approved a bill with the main object of simplifying the new income tax system enacted under the Tax Reform Law published in September 2014 (Law No. 20.780). In addition, in July 2016 Chilean tax authorities issued a public ruling containing extensive guidance on the new dual income tax regimes that will apply as from January 1, 2017. The new ruling revokes previous rulings issued in 2015 and reflects changes introduced in a February 2016 law designed to simplify and clarify the 2014 tax reform law, including the provisions relating to the dual income tax regimes. Some types of taxpayers are restricted to one of the two tax regimes, but taxpayers eligible for either regime must opt into their preferred regime before December 31, 2016. Starting in 2017, Chilean taxpayers subject to the first category income tax (FCIT) are subject to one of the following two tax regimes: (i) the fully integrated regime, under which shareholders are taxed on their share of the profits that are accrued annually by the Chilean entity; the combined income tax rate under the regime is 35% and (ii) the partially integrated regime, under which shareholders are taxed when profits are distributed. The combined income tax rate under the regime generally is 44.45% (27% plus a 35%WHT); however, foreign shareholders (Non-Chilean shareholders) that are residents in a country that has concluded a tax treaty with Chile (i.e. Mexico) are entitled to a full tax credit, and thus may benefit from a combined rate of 35%. All entities directly or indirectly held by FEMSA are deemed under the partially integrated regime.

On January 1, 2017, a new general tax reform became effective in Colombia. This reform reduced the income tax rate from 35.0% to 34.0% for 2017 and then to 33.0% for the following years. In addition, for entities located outside the free trade zone, this reform imposed an extra income tax rate of 6.0% for 2017 and 4.0% for 2018. For taxpayers located in the free trade zone, the special income tax rate increased from 15.0% to 20.0% for 2017. Additionally, the reform eliminated the temporary tax on net equity, the supplementary income tax at a rate of 9.0% as contributions to social programs and the temporary contribution to social programs at a rate of 5.0%, 6.0%, 8.0% and 9.0% for the years 2015, 2016, 2017 and 2018, respectively. For 2017, the dividends paid to individuals that are Colombian residents will be subject to a withholding of 35.0%, and the dividends paid to foreign individuals or entities non-residents in Colombia will be subject to a withholding of 5.0%. This reform increased the rate of the minimum assumed income tax (renta presuntiva sobre el patrimonio), from 3.0% to 3.5% for 2017. Finally, starting in 2017, the Colombian general value-added tax rate increased from 16.0% to 19.0%.

On January 1, 2018, a tax reform became effective in Argentina. This reform reduced the income tax rate from 35.0% to 30.0% for 2018 and 2019, and then to 25.0% for the following years. In addition, such reform imposed a new tax on dividends paid to non-resident stockholders and resident individuals at a rate of 7.0% for 2018 and 2019, and then to 13.0% for the following years. For sales taxes in the province of Buenos Aires, the tax rate decreased from 1.75% to 1.5% in 2018; however, in the City of Buenos Aires, the tax rate increased from 1.0% to 2.0% in 2018, and will be reduced to 1.5% in 2019, 1.0% in 2020, 0.5% in 2021 and 0.0% in 2022.

On January 1, 2018, a new tax reform became effective in the Philippines. This reform mainly (i) reduced the income tax rate imposed on a majority of individuals, (ii) increased the income tax rate on net capital gains from 5.0% or 10.0%, depending on the amount of shares sold, to a general tax rate of 15.0% on net capital gains from the sale of shares traded outside of the stock exchange by companies and individuals that are resident and non-resident, (iii) imposed an excise tax of 6.00 Philippine pesos per liter for sweetened beverages using caloric and non-caloric sweeteners, except for HFCS, and 12.00 Philippine pesos per liter for sweetened beverages using HFCS, (iv) imposed the obligation to issue electronic invoices and electronic sales reports, and (v) reduced the time period for keeping books and accounting records from 10 years to three years.

Taxation of Beverages

All the countries where Coca-Cola FEMSA operates, except for Panama, impose a value-added tax on the sale of sparkling beverages, with a rate of 16.0% in Mexico, 12.0% in Guatemala, 15.0% in Nicaragua, an average percentage of 15.8% in Costa Rica, 19.0% in Colombia (applied only to the first sale in the supply chain), 21.0% in Argentina, 12.0% in the Philippines and in Brazil as follows: 16.0% in the state of Parana, 17.0% in the state of Goias and Santa Catarina, 18.0% in the states of Sao Paulo, Minas Gerais and Rio de Janeiro and 20.0% in the states of Mato Grosso do Sul and Rio Grande do Sul. The states of Rio de Janeiro, Minas Gerais and Parana also charge an additional 2.0% on sales as a contribution to a poverty eradication fund. In Brazil the value-added tax is grossed-up and added, along with federal sales tax, at the taxable basis. In addition, Coca-Cola FEMSA is responsible for charging and collecting the value-added tax from each of its retailers in Brazil, based on average retail prices for each state where it operates, defined primarily through a survey conducted by the government of each state, which in 2017 represented an average taxation of approximately 17.8% over net sales. In addition, several of the countries where Coca-Cola FEMSA operates impose the following excise or other taxes:

Mexico imposes an excise tax of Ps. 1.00 per liter on the production, sale and import of beverages with added sugar and HFCS as of January 1, 2014. This excise tax is applied only to the first sale and Coca-Cola FEMSA is responsible for charging and collecting it. The excise tax is subject to an increase when accumulated inflation in Mexico reaches 10.0% since the most recent date of adjustment. The increased tax is imposed starting on the fiscal year following such increase. In November 2017, the accumulated inflation since the prior date of adjustment reached 17.0%. As a result, the excise tax increased to Ps.1.17 per liter as of January 1, 2018.

Guatemala imposes an excise tax of 0.18 cents in local currency (Ps. 0.48 as of December 31, 2017) per liter of sparkling beverage.

Costa Rica imposes a specific tax on non-alcoholic carbonated bottled beverages based on the combination of packaging and flavor, currently assessed at 18.49 colones (Ps. 0.64 as of December 31, 2017) per 250 ml, and an excise tax currently assessed at 6.457 colones (approximately Ps. 0.22 as of December 31, 2017) per 250 ml.

Nicaragua imposes a 9.0% tax on consumption, and municipalities impose a 1.0% tax on Coca-Cola FEMSA's Nicaraguan gross income.

Panama imposes a 5.0% tax based on the cost of goods produced and a 10.0% selective consumption tax on syrups, powders and concentrate.

Argentina imposes an excise tax of 8.7% on sparkling beverages containing less than 5.0% lemon juice or less than 10.0% fruit juice, and an excise tax of 4.2% on sparkling water and flavored sparkling beverages with 10.0% or more fruit juice, although this excise tax is not applicable to some of Coca-Cola FEMSA's products.

Brazil assesses an average production tax of approximately 4.1% and an average sales tax of approximately 11.5% over net sales. Beginning on May 1, 2015, these federal taxes were applied based on the price sold, as detailed in Coca-Cola FEMSA's invoices, instead of an average retail price combined with a fixed tax rate and multiplier per presentation. Except for sales to wholesalers, these production and sales taxes apply only to the first sale and Coca-Cola FEMSA is responsible for charging and collecting these taxes from each of its retailers. For sales to wholesalers, they are entitled to recover the sales tax and charge this tax again upon the resale of Coca-Cola FEMSA's products to retailers.

Colombia's municipalities impose a sales tax that varies between 0.35% and 1.2% of net sales.

Edgar Filing: MEXICAN ECONOMIC DEVELOPMENT INC - Form 20-F

Beginning in January 2018, the Philippines impose an excise tax of 6.00 Philippine pesos (approximately Ps.2.37 as of December 31, 2017) per liter for sweetened beverages using caloric and non-caloric sweeteners, except for HFCS, and 12.00 Philippine pesos (approximately Ps.4.74 as of December 31, 2017) per liter for sweetened beverages using HFCS.

In Venezuela, KOF Venezuela is subject to value-added tax on the sale of sparkling beverages at a rate of 12.0%. In addition, Venezuela's municipalities imposed a variable excise tax applied only to the first sale of KOF Venezuela's products that varied between 0.6% and 2.5% of net sales.

Antitrust Legislation

The *Ley Federal de Competencia Económica* (Federal Antitrust Law) regulates monopolistic practices in Mexico and requires approval of certain mergers and acquisitions. The Federal Antitrust Law subjects the activities of certain Mexican companies, including us, to regulatory scrutiny. The *Comisión Federal de Competencia Económica* (Federal Antitrust Commission, or the COFECE) is the Mexican antitrust authority, which has constitutional autonomy. COFECE has the ability to regulate essential facilities, order the divestment of assets and eliminate barriers to competition, set higher fines for violations of the Federal Antitrust Law, implement important changes to rules governing mergers and anti-competitive behavior and limit the availability of legal defenses against the application of the law.

We are subject to antitrust legislation in the countries where we operate, primarily in relation to mergers and acquisitions that we are involved in. The transactions in which we participate may be subject to the requirement to obtain certain authorizations from the relevant authorities.

Price Controls

Voluntary price restraints or statutory price controls have been imposed historically in several of the countries where Coca-Cola FEMSA operates. Currently, there are no price controls on Coca-Cola FEMSA's products in any of the territories where it has operations, except for voluntary price restraints in Argentina, where authorities directly supervise certain of Coca-Cola FEMSA's products sold through supermarkets as a measure to control inflation, and statutory price controls in the Philippines, where the government has imposed price controls on certain products considered as basic necessities, such as bottled water. In Venezuela, KOF Venezuela is subject to government-imposed price controls on certain of its products, including bottled water. In addition, KOF Venezuela is subject to the Fair Prices Law (*Ley Orgánica de Precios Justos*), which imposed a limit on profits earned on the sale of goods, including KOF Venezuela's products, seeking to maintain price stability and equal access to, goods and services.

Environmental Matters

In all of the countries where we operate, we are subject to federal and state laws and regulations relating to the protection of the environment. In Mexico, the principal legislation is the Federal General Law for Ecological Equilibrium and Environmental Protection (*Ley General de Equilibrio Ecológico y Protección al Ambiente*, or the Mexican Environmental Law), and the General Law for the Prevention and Integral Management of Waste (*Ley General para la Prevención y Gestión Integral de los Residuos*) which are enforced by the Ministry of the Environment and Natural Resources (*Secretaría del Medio Ambiente y Recursos Naturales*, or SEMARNAT). SEMARNAT can bring administrative and criminal proceedings against companies that violate environmental laws, and it also has the power to close non-complying facilities. Under the Mexican Environmental Law, rules have been promulgated concerning water, air and noise pollution and hazardous substances. In particular, Mexican environmental laws and regulations require that we file periodic reports with respect to hazardous wastes and set forth standards for waste water discharge that apply to Coca-Cola FEMSA's operations.

In March 2015, the General Law of Climate Change (*Ley General de Cambio Climático*), its regulation and certain decrees related to such law became effective, imposing upon different industries (including the food and beverage industry) the obligation to report direct or indirect gas emissions exceeding 25,000 tons of carbon dioxide. Currently, we are not required to report these emissions, since they do not exceed this threshold.

In Coca-Cola FEMSA's Mexican operations, Coca-Cola FEMSA established a partnership with The Coca-Cola Company and Alpla, its supplier of plastic bottles in Mexico, to create Industria Mexicana de Reciclaje (IMER), a PET recycling facility located in Toluca, Mexico. This facility began operations in 2005 and has a recycling capacity of approximately 25,000 metric tons per year, from which 15,000 metric tons can be reused for food packaging purposes. Coca-Cola FEMSA has also continued contributing funds to Asociación Ambiental Sin Fines de Lucro (ECOCE, A.C.), a nationwide collector of containers and packaging materials.

In addition, all of Coca-Cola FEMSA's plants located in Mexico have received a Certificate of Clean Industry (*Certificado de Industria Limpia*).

As part of FEMSA's environmental protection and sustainability strategies, in December 2009, Coca-Cola FEMSA entered into a wind energy supply agreement with a Mexican subsidiary of the Spanish wind farm developer, GAMESA Energía, S.A., or GAMESA, to supply green energy to Coca-Cola FEMSA's bottling facility in Toluca, Mexico. The wind farm, which is located in La Ventosa, Oaxaca, has an installed capacity of 26.35 megawatts. In 2017, this wind farm supplied Coca-Cola FEMSA with approximately 72,450 megawatt hours of renewable energy.

Coca-Cola FEMSA has also entered into wind power supply agreements with two suppliers to receive clean and renewable energy for use at its production and distribution facilities throughout Mexico: (a) Energía Eólica del Sur, S.A.P.I. de C.V. (formerly Mareña Renovables Wind Power Farm, now known as Energía Eólica del Sur Wind Farm), with a 396,000 megawatt installed capacity wind farm in Oaxaca, Mexico, which is expected to begin operations in the fourth quarter of 2018; and (b) Enel Green Power's Dominica Wind Farm located in San Luis Potosí, Mexico, which supplied 77,262 megawatt hours to Coca-Cola FEMSA's production and distribution facilities.

FEMSA Comercio has also entered into wind power supply agreements with five suppliers to receive clean and renewable energy for use at its convenience stores, gas stations and drugstores throughout Mexico: (a) Energía Eólica del Sur Wind Farm; (b) Enel Green Power's Amistad Wind Farm located in Coahuila, Mexico, with a 198,000-megawatt installed capacity, which is expected to begin operations in 2018; (c) Enel Green Power's Dominica Wind Farm which supplied 59,990 megawatt hours to 492 OXXO stores and 370 drugstores in 2017; (d) Ventika Wind Farm located in Nuevo Leon, Mexico, which provided 341,498 megawatt hours to 3,282 OXXO stores in 2017; and (e) Fuerza Eólica de San Matías, S. de R.L. de C.V., or San Matías Wind Farm located in Baja California, Mexico, which is expected to begin operations in 2018. In 2017, 22% of FEMSA Comercio's energy consumption in Mexico came from renewable energy sources.

In 2017, five of Coca-Cola FEMSA's manufacturing facilities received 38,707 megawatt hours from renewable energy sources such as bagasse cogeneration from the PIASA Tres Valles and Beta San Miguel sugar mills.

Coca-Cola FEMSA's Central American operations are subject to several federal and state laws and regulations related to the protection of the environment and the disposal of hazardous and toxic materials, as well as water usage. Coca-Cola FEMSA's Costa Rican operations have participated in a joint effort along with the local division of The Coca-Cola Company, Misión Planeta, for the collection and recycling of non-returnable plastic bottles. In Guatemala, Coca-Cola FEMSA joined the Foundation for Water (*Fundación para el Agua*), through which it will have direct participation in several projects related to the sustainable use of water.

Coca-Cola FEMSA's Colombian operations are subject to several Colombian federal and state laws and regulations related to the protection of the environment and the disposal of treated water and toxic and hazardous materials. These laws include the control of atmospheric emissions, noise emissions, disposal of treated water and strict limitations on the use of chlorofluorocarbons. In addition, on February 6, 2012, Colombia promulgated Decree No. 303, which requires Coca-Cola FEMSA to apply for an authorization to discharge its water into public waterways. Coca-Cola FEMSA is engaged in nationwide reforestation programs and campaigns for the collection and recycling of glass and plastic bottles, among other programs with positive environmental impacts. Coca-Cola FEMSA has also obtained and maintained the ISO 9001, ISO 14001, OHSAS 18001, FSSC 22000 and PAS 220 certifications for its plants located in Medellín, Cali, Bogotá, Barranquilla, Bucaramanga and La Calera, as recognition for the highest quality and food harmlessness in its production processes, which is evidence of Coca-Cola FEMSA's strict level of compliance with relevant Colombian regulations. Coca-Cola FEMSA's six plants joined a small group of companies that have obtained these certifications. Coca-Cola FEMSA plant located in Tocancipá, which commenced operations in February 2015, obtained the Leadership in Energy and Environmental Design (LEED 2009) certification in April 2017.

KOF Venezuela is subject to several Venezuelan federal, state and municipal laws and regulations related to the protection of the environment. The most relevant of these laws are the Organic Environmental Law (*Ley Orgánica del Ambiente*), the Substance, Material and Dangerous Waste Law (*Ley Sobre Sustancias, Materiales y Desechos Peligrosos*), the Criminal Environmental Law (*Ley Penal del Ambiente*), Waste Management Law (*Ley de Gestión Integral de Basura*) and the Water Law (*Ley de Aguas*).

Coca-Cola FEMSA's Brazilian operations are subject to several federal, state and municipal laws and regulations related to the protection of the environment. Among the most relevant laws and regulations are those dealing with the emission of toxic and hazardous gases and disposal of wastewater and solid waste, soil contamination by hazardous chemicals, which impose penalties, such as fines, facility closures or criminal charges depending upon the level of non-compliance.

In November 2015, Coca-Cola FEMSA entered into two five-year wind power supply agreements with the following suppliers to receive renewable energy from wind power, small hydroelectric plants and sugarcane biomass plants, for use at its production and distribution facilities in Brazil: (a) Brookfield Energia Comercializadora, Ltda., which provided a total of 21,725 megawatt hours in 2017 and (b) CPFL Comercializaco Brasil, S.A., which provided a total of 72,132 megawatt hours in 2017. In 2017, 13 of Coca-Cola FEMSA's Brazilian facilities received energy from renewable energy sources, which represented 83.0% of Coca-Cola FEMSA's energy consumption in Brazil.

In May 2008, a municipal regulation of the City of Sao Paulo, implemented pursuant to Law 13.316/2002, came into effect requiring Coca-Cola FEMSA to collect for recycling a specified annual percentage of plastic bottles made from PET sold in the City of Sao Paulo. Beginning in May 2011, Coca-Cola FEMSA was required to collect 90.0% of PET bottles sold. Currently, Coca-Cola FEMSA is not able to collect the entire required volume of PET bottles it sells in the City of Sao Paulo and could be fined or subject to other sanctions such as the suspension of operations of its plants and/or distribution centers in the City of Sao Paulo. In May 2008, when this requirement came into effect, Coca-Cola FEMSA and other bottlers in the City of Sao Paulo, through the Brazilian Soft Drink and Non-Alcoholic Beverage Association, or ABIR (*Associao Brasileira das Indstrias de Refrigerantes e de Bebidas No-alcolicas*), filed a motion requesting a court to overturn this regulation due to the impossibility of compliance. In November 2009, in response to a request by a municipal authority to provide evidence of the destination of the PET bottles sold in Sao Paulo, Coca-Cola FEMSA filed a motion presenting all of its recycling programs and requesting a more practical timeline to comply with the requirements imposed. In October 2010, the municipal authority of Sao Paulo levied a fine on Coca-Cola FEMSA's Brazilian operating subsidiary of 250,000 Brazilian reais (approximately Ps. 1.5 million as of December 31, 2017) on the grounds that the report submitted by Coca-Cola FEMSA's Brazilian operating subsidiary did not comply with the 75.0% proper disposal requirement for the period from May 2008 to May 2010. Coca-Cola FEMSA filed an appeal against this fine, which was denied by the municipal authority in May 2013. This resolution by the municipal authority is final and not subject to appeal. However, in July 2012, the State Appellate Court of Sao Paulo rendered a decision on an interlocutory appeal filed on behalf of ABIR staying the requirement to pay the fines and other sanctions imposed on ABIR's associated companies, including Coca-Cola FEMSA's Brazilian subsidiary, pending the final resolution of the appeal. Coca-Cola FEMSA is still awaiting the final resolution of the appeal filed on behalf of ABIR. In November 2016, the municipal authority filed a tax enforcement claim against Coca-Cola FEMSA's Brazilian subsidiary in order to try to collect the fine imposed in October 2010. In February 2017, Coca-Cola FEMSA filed a motion for a stay of execution against the collection of the fine based on the decision rendered by the State Appellate Court of Sao Paulo in July 2012.

In August 2010, Law No. 12.305/2010 established the Brazilian National Solid Waste Policy. This policy is based on the principle of shared responsibility between the government, companies and the public, and provides for the post-consumption return of products to companies and requires public authorities to implement waste management programs. This law is regulated by Federal Decree No. 7.404/2010, and was published in December 2010. In response to the Brazilian National Solid Waste Policy, in December 2012, a proposal of agreement was provided to the Ministry of the Environment by almost 30 associations involved in the packaging sector, including ABIR in its capacity as representative for The Coca-Cola Company, Coca-Cola FEMSA's Brazilian subsidiary and other bottlers. This agreement proposed the creation of a coalition to implement systems for reverse logistics packaging non-dangerous waste that make up the dry fraction of municipal solid waste or equivalent. The goal of the proposal is to create methodologies for sustainable development, and improve the management of solid waste by increasing recycling rates and decreasing incorrect disposal in order to protect the environment, society and the economy. The Ministry of Environment approved and signed this agreement in November 2015. In August 2016, the public prosecutor's office of the state of Sao Paulo filed a class action against the parties that signed this agreement, challenging the validity of certain terms of the agreement and the effectiveness of the mandatory measures to be taken by the companies of the packaging sector, as provided in the agreement. ABIR is leading the lawsuit's defense.

Coca-Cola FEMSA's Argentine operations are subject to federal and municipal laws and regulations relating to the protection of the environment. The most significant of these are regulations concerning waste water discharge, which are enforced by the Ministry of Natural Resources and Sustainable Development (*Secretaría de Ambiente y Desarrollo Sustentable*) and the Provincial Organization for Sustainable Development (*Organismo Provincial para el Desarrollo Sostenible*) for the province of Buenos Aires. Coca-Cola FEMSA's Alcorta plant is in compliance with environmental standards, and Coca-Cola FEMSA has been, and continues to be, certified for ISO 14001:2004 for the plants and operative units in Buenos Aires.

Coca-Cola FEMSA's Philippine operations are subject to federal laws and regulations relating to the protection of the environment. Among the most relevant laws and regulations are those concerning air emissions (Clean Air Act), water pollution (Clean Water Act) and the protection and management of the environment (Philippine Environmental Code).

In addition, all of Coca-Cola FEMSA's Philippine subsidiary's plants have an Environmental Compliance Certificate, certifying that such plant does not have any significant negative environmental impact, and a discharge permit, certifying that the water discharge by such plant meets all legal requirements.

For all of Coca-Cola FEMSA's plant operations, Coca-Cola FEMSA employs the environmental management system Environmental Administration System, or EKOSYSTEM (*Sistema de Administración Ambiental*) that is contained within the Integral Quality System, or SICKOF (*Sistema Integral de Calidad*).

Water Supply

In Mexico, Coca-Cola FEMSA obtains water directly from wells pursuant to concessions obtained from the Mexican government on a plant-by-plant basis. Water use in Mexico is regulated primarily by the 1992 Water Law (*Ley de Aguas Nacionales de 1992*), as amended, and regulations issued thereunder, which created the National Water Commission (*Comisión Nacional del Agua*). The National Water Commission is in charge of overseeing the national system of water use. Under the 1992 Water Law, concessions for the use of a specific volume of ground or surface water generally run from five- to fifty-year terms, depending on the supply of groundwater in each region as projected by the National Water Commission. Concessionaires may request that concession terms be extended before the expiration of the same. The Mexican government may reduce the volume of ground or surface water granted for use by a concession by whatever volume of water that is not used by the concessionaire for two consecutive years, unless the concessionaire proves that the volume of water not used is because the concessionaire is saving water by an efficient use of it. Coca-Cola FEMSA's concessions may be terminated if, among other things, Coca-Cola FEMSA uses more water than permitted or it fails to pay required concession-related fees and does not cure such situations in a timely manner.

In addition, the 1992 Water Law provides that plants located in Mexico must pay a fee either to the local governments for the discharge of residual waste water to drainage or to the federal government for the discharge of residual waste water into rivers, oceans or lakes. Pursuant to this law, certain local and federal authorities test the quality of the waste water discharge and charge plants an additional fee for measurements that exceed certain standards published by the National Water Commission. In the case of non-compliance with the law, penalties, including closures, may be imposed. All of Coca-Cola FEMSA's bottling plants located in Mexico meet these standards.

In Brazil, Coca-Cola FEMSA obtains water and mineral water from wells pursuant to concessions granted by the Brazilian government for each plant. According to the Brazilian Constitution and the National Water Resources Policy, water is considered an asset of common use and can only be exploited for the national interest by Brazilians or companies formed under Brazilian law. Concessionaires and users have the responsibility for any damage to the environment. The exploitation and use of water is regulated by the Code of Mining, Decree Law No. 227/67 (*Código de Mineração*), the Mineral Water Code, Decree Law No. 7841/45 (*Código de Águas Minerais*), the National Water Resources Policy (Decree No. 24.643/1934 and Law No. 9433/97) and by regulations issued thereunder. The companies that exploit water are supervised by the National Mining Agency (*Agência Nacional de Mineração*, or ANM) and the National Water Agency (*Agência Nacional de Águas*) in connection with federal health agencies, as well as state and municipal authorities. In the Jundiai, Marília, Curitiba, Maringa, Porto Alegre, Antonio Carlos and Itabirito plants, Coca-Cola FEMSA does not exploit spring water. Coca-Cola FEMSA only exploits spring water where it has all the necessary permits.

In Colombia, in addition to natural spring water for *Manantial*, Coca-Cola FEMSA obtains water directly from wells and from utility companies. Coca-Cola FEMSA is required to have a specific concession to exploit water from natural sources. Water use in Colombia is regulated by Law No. 9 of 1979 and Decrees No. 2811 of 1974 and No. 3930 of 2010. In addition, Decree No. 303 requires Coca-Cola FEMSA to apply for water concessions and for authorization to discharge its water into public waterways. The Ministry of Environment and Sustainable Development and Regional Autonomous Corporations supervises companies that use water as a raw material for their businesses. Furthermore, in Colombia, Law No. 142 of 1994 provides that public sewer services are charged based on volume (usage). The Water and Sewerage Company of the City of Bogota has interpreted this rule to be the volume of water captured, and not the volume of water discharged by users. Based on Coca-Cola FEMSA's production process, Coca-Cola FEMSA's Colombian subsidiary discharges into the public sewer system significantly less water than the water it captures. As a result, since October 2010, Coca-Cola FEMSA's Colombian subsidiary has filed monthly claims with the Water and Sewerage Company of the City of Bogota challenging these charges. In 2015, the highest court in Colombia issued a final ruling stating that the Water and Sewerage Company of the City of Bogota is not required to measure the volume of water discharged by users in calculating public sewer services charges. Based on this ruling, the Water and Sewerage Company of the City of Bogota commenced an administrative proceeding against our Colombian subsidiary requesting payment of approximately Ps. 309 million for the sewer services it claims Coca-Cola FEMSA's subsidiary has not properly paid since 2005. In connection with such proceeding, in March 2016, this authority issued an order freezing certain of our bank accounts (see Note 8.2 to Coca-Cola FEMSA's consolidated financial statements). In June 2017, Coca-Cola FEMSA's Colombian subsidiary held conciliatory hearings with the Water and Sewerage Company of the City of Bogota and reached an agreement to settle this matter by payment of approximately Ps. 216 million for the sewer services charged from June 2005 to May 2017. As of December 31, 2017, a reserve was created in Coca-Cola FEMSA's financial statements in the amount of this settlement. In June 2017, the settlement agreement was submitted before the administrative court seeking its judicial endorsement, and Coca-Cola FEMSA is currently awaiting the final settlement approval.

In Argentina, a state water company provides water to Coca-Cola FEMSA's Alcorta plant on a limited basis; however, Coca-Cola FEMSA believes the authorized amount meets its requirements for this plant. In Coca-Cola FEMSA's Monte Grande plant in Argentina, it pumps water from wells, in accordance with Law No. 25.688.

In Nicaragua, the use of water is regulated by the National Water Law (*Ley General de Aguas Nacionales*), and Coca-Cola FEMSA obtain water directly from wells. In November 2017, Coca-Cola FEMSA obtained a permit to increase its monthly amount of water used for production in Nicaragua and renewed its concession for the exploitation of wells for five more years, extending the expiration date to 2022. In Costa Rica, the use of water is regulated by the Water Law (*Ley de Aguas*). In both of these countries, Coca-Cola FEMSA exploits water from wells granted to it through governmental concessions. In Guatemala, no license or permits are required to exploit water from the private wells in Coca-Cola FEMSA's own plants. In Panama, Coca-Cola FEMSA acquires water from a state water company, and the use of water is regulated by the Panama Use of Water Regulation (*Reglamento de Uso de Aguas de Panamá*).

KOF Venezuela uses private wells in addition to water provided by the municipalities, and it takes the appropriate actions, including actions to comply with water regulations, to have water supply available from these sources, regulated by the Water Law (*Ley de Aguas*).

In the Philippines, Coca-Cola FEMSA primarily obtains water directly from local utility companies and from wells pursuant to water permits obtained from the Philippine government, which have an indefinite term. Notwithstanding the water permits, Coca-Cola FEMSA's Philippine subsidiary pays an annual fee to the Philippine government for pumping water from the wells. The extraction of water from wells is regulated by the National Water Resources Board.

In addition, Coca-Cola FEMSA obtains water for the production of some of its natural spring water products, such as *Manantial* in Colombia and *Crystal* in Brazil, from spring water pursuant to concessions granted.

Other Regulations

In December 2013, the Mexican government approved a decree containing amendments and additions to the Mexican Constitution in matters of energy (the Mexican Energy Reform). The Mexican Energy Reform opened the Mexican energy market to the participation of private parties including companies with foreign investment, allowing for FEMSA Comercio to participate directly in the retail of fuel products. Secondary legislation and regulation of the approved Mexican Energy Reform was implemented during 2016 and 2017. Prior 2017, fuel retail prices were established by the Mexican executive power by decree but during 2017 deregulation of fuel retail prices was conducted gradually and in December 2017 retail prices were fully deregulated and freely determined by market conditions. As part of the secondary legislation in connection with the Mexican Energy Reform, the *Agencia de Seguridad, Energia y Ambiente* (the Security, Energy and Environment Agency, or ASEA) was created as a decentralized administrative body of SEMARNAT. ASEA is responsible for regulating and supervising industrial and operational safety and environmental protection in the installations and activities of the hydrocarbons sector, which includes all our Fuel Division operations. Additionally, the CRE is the regulatory body responsible for the authorization of sale of fuel to the public at gas stations. The Fuel Division is in compliance with ASEA and CRE regulations and administrative provisions.

In June 2014, the Brazilian government enacted Law No. 12,997 (Law of Motorcycle Drivers), which requires employers to pay a risk premium of 30.0% of the base salary to all employees that are required to drive a motorcycle to perform their job duties. This premium became enforceable in October 2014, when the related rules and regulations were issued by the Ministry of Labor and Employment. Coca-Cola FEMSA believes that these rules and regulations (Decree No. 1.565/2014) were unduly issued because such Ministry did not comply with all the requirements of applicable law (Decree No. 1.127/2003). In November 2014, Coca-Cola FEMSA's Brazilian subsidiary, in conjunction with other bottlers of the Coca-Cola system in Brazil and through the ABIR, filed a claim before the Federal Court to stay the effects of such decree. ABIR's associated companies, including Coca-Cola FEMSA's Brazilian subsidiary, were issued a preliminary injunction staying the effects of the decree and exempting Coca-Cola FEMSA from paying the premium. The Ministry of Labor and Employment filed an interlocutory appeal against the preliminary injunction in order to restore the effects of Decree No. 1.565/2014. This interlocutory appeal was denied. In October 2016, a decision was rendered by the Federal Court declaring Decree No. 1.565/2014 to be null and void and requesting the Ministry of Labor and Employment to revise and reissue its regulations under Law No. 12,997. The Ministry of Labor and Employment, with the participation of all interested parties, is in the process of revising Decree No. 1.565/2014.

In August 2015, the Philippine Competition Act (Republic Act No. 10667) came into effect, which prohibited anti-competitive practices, abuse of dominant position, and mergers which prevent, lessen or restrict competition between or among competitors. This law provided a two-year transition period until August 2017 to allow companies to comply with its requirements.

In July 2017, the Brazilian government issued Law No. 13,467 (Labor Reform Law), which resulted in significant changes to labor regulations. This law extends the workday from 8 hours to 12 hours, provided that there is a 36-hour break afterwards. With regard to negotiations with any labor union, Law No. 13,467 provides that certain rights, such as constitutional rights and women's rights, cannot be part of the negotiations, as the Constitution and existing law prevails over any collective bargaining agreement. In addition, Law No. 13,467 allows companies to outsource any activity, including the company's principal activity and activities that a company's own employees are carrying out. Furthermore, the law provides that a claimant seeking to enforce his or her rights under this law will have to pay all costs and expenses related to the lawsuit and limits any compensation for moral damages to certain thresholds.

In November 2017, the Panamanian government enacted Law No. 75 which regulates the sale of food and beverages in public and private schools (from elementary school through high school). According to Law No. 75, a list of authorized food and beverages will be published. As of the date of this annual report, no list has been published. However, the Ministry of Education issued a decree with certain products that they recommend should be sold in schools; the products mentioned do not include sparkling beverages, teas and still beverages that contain high amounts of sugar.

In December 2017, the Argentine government enacted Law No. 27,401 (Corporate Criminal Liability Law), which introduced the criminal liability regime for corporate entities who engage in corruption and bribery with governmental agencies. The main purpose of this law is to make corporate entities liable for corruption and bribery carried out directly or indirectly by such corporate entity, either with its participation, on its behalf or to its benefit.

In all of the countries where the Health Division operates, we are subject to local laws, regulations and administrative practices concerning retail and wholesale pharmacy operations, regulations prohibiting kickbacks, beneficiary inducement and the submission of false claims, licensure and registration requirements concerning the operation of pharmacies and the practice of pharmacy health regulation, as well as other health care laws and regulations.

ITEM 4A. UNRESOLVED STAFF COMMENTS

None.

ITEM 5. OPERATING AND FINANCIAL REVIEW AND PROSPECTS

The following discussion should be read in conjunction with, and is entirely qualified by reference to, our audited consolidated financial statements and the notes to those financial statements. Our consolidated financial statements were prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

Overview of Events, Trends and Uncertainties

Management currently considers the following events, trends and uncertainties to be important to understanding its results and financial position during the periods discussed in this section:

Coca-Cola FEMSA has continued to grow at a steady but moderate pace, highlighting Mexico where operative results were strong. However, in the short-term Coca-Cola FEMSA faces some pressures from macroeconomic uncertainty in Mexico and certain South American markets, including currency volatility and the implementation of new excise taxes in some of the countries where we operate.

The Retail Division has maintained high rates of store openings across formats and continues to grow at solid rates in terms of total revenues. The Retail Division has lower operating margins than our beverage business. Given that the Retail Division has lower operating margins and given its fixed cost structure, it is more sensitive to changes in sales which could negatively affect operating margins.

The Health Division has continued its moderate rate of revenue growth, highlighting the strong growth trends delivered by Socofar s operations in Chile and Colombia, both of which partially benefited from a positive foreign exchange translation effect. However, in Mexico, the continued expansion across new territories and the integration process of its four legacy brands into a single business platform are pressuring the Health Division s results in the short term. Additionally, currency volatility between the Chilean and Colombian peso, compared with the Mexican peso, could further affect the Health Division s results.

The Fuel Division has continued its steady expansion across certain regions in Mexico. The implementation of the Mexican Energy Reform enacted by the current administration, which could result in certain business opportunities for the Fuel Division, moved forward and has begun to represent a retail market where the Fuel Division can have more flexibility to operate. Macroeconomic uncertainties that affect gasoline prices and the growth of competitors gas stations can also put pressure on the Fuel Division s operating margins, which are structurally lower than those of FEMSA Comercio s other divisions.

Edgar Filing: MEXICAN ECONOMIC DEVELOPMENT INC - Form 20-F

Our consolidated results are also significantly affected by the performance of the Heineken Group, as a result of our 14.76% economic interest. Our consolidated net income for 2017 included Ps. 7,847 million related to our non-controlling interest in the Heineken Group, as compared to Ps. 6,342 million for 2016.

Our results and financial position are affected by the economic and market conditions in the countries where our subsidiaries conduct their operations, particularly in Mexico. Changes in these conditions are influenced by a number of factors, including those discussed in **Item 3. Key Information Risk Factors.**

Recent Developments

On January 1, 2018, after a long and productive career at the company spanning almost 45 years, Carlos Salazar Lomelín, former Chief Executive Officer of FEMSA, retired from his position. Miguel Eduardo Padilla Silva, who was FEMSA's Chief Financial and Corporate Officer became the new Chief Executive Officer of FEMSA on the same date.

Effects of Changes in Economic Conditions

Our results are affected by changes in economic conditions in Mexico, Brazil and the other countries where we operate. For the years ended December 31, 2017, 2016, and 2015, 63%, 64%, and 70% respectively, of our total sales were attributable to Mexico. Other than Venezuela and Chile, the participation of these other countries as a percentage of our total sales has not changed significantly during the last five years.

The Mexican economy is gradually recovering from the impact of the global financial crisis on many emerging economies in 2009. According to the INEGI, Mexican GDP expanded by 2.3% in 2017 and by approximately 2.3% and 2.6% in 2016 and 2015, respectively. According to the *Banco Nacional de México* survey regarding the economic expectations of specialists, Mexican GDP is expected to increase by 2.21% in 2018, as of the latest estimate, published on April 2, 2018. The Mexican economy continues to be heavily influenced by the U.S. economy, and therefore, deterioration in economic conditions in, or delays in the recovery of, the U.S. economy may hinder any recovery in Mexico.

Our results are affected by the economic conditions in the countries where we conduct operations. Some of these economies continue to be heavily influenced by the U.S. economy, and therefore, deterioration in the U.S. economy may affect the economies in which we operate. Deterioration or prolonged periods of weak economic conditions in the countries where we conduct operations may have, and in the past have had, a negative effect on our company and a material adverse effect on our results and financial condition. Our business may also be significantly affected by the interest rates, inflation rates and exchange rates of the currencies of the countries where we operate. Decreases in growth rates, periods of negative growth and/or increases in inflation or interest rates may result in lower demand for our products, lower real pricing of our products or a shift to lower margin products. In addition, an increase in interest rates would increase the cost to us of variable rate funding, which would have an adverse effect on our financial position.

Beginning in the fourth quarter of 2016 and through 2017, the exchange rate between the Mexican peso and the U.S. dollar fluctuated from a low of Ps. 17.48 per US\$ 1.00, to a high of Ps. 21.89 per US\$ 1.00. At December 29, 2017, the exchange rate (noon buying rate) was Ps. 19.64 per US\$ 1.00. On April 20, 2018, this exchange rate was Ps. 18.61 per US\$ 1.00. **See Item 3. Key Information Exchange Rate Information.** A depreciation of the Mexican peso or local currencies in the countries where we operate relative to the U.S. dollar increases our cost of raw materials priced in U.S. dollars, including raw materials whose prices are set with reference to the U.S. dollar. In addition, a depreciation of the Mexican peso or local currencies in the countries where we operate relative to the U.S. dollar will increase our U.S. dollar-denominated debt obligations, which could negatively affect our financial position and results. However, this effect could be offset by a corresponding appreciation of our U.S. dollar-denominated cash position.

Operating Leverage

Companies with structural characteristics that result in margin expansion in excess of sales growth are referred to as having high operating leverage.

The operating subsidiaries of Coca-Cola FEMSA are engaged, to varying degrees, in capital-intensive activities. The high utilization of the installed capacity of the production facilities results in better fixed cost absorption, as increased output results in higher revenues without additional fixed costs. Absent significant increases in variable costs, gross profit margins will expand when production facilities are operated at higher utilization rates. Alternatively, higher fixed costs will result in lower gross profit margins in periods of lower output.

In addition, the commercial operations of Coca-Cola FEMSA are carried out through extensive distribution networks, the principal fixed assets of which are warehouses and trucks and are designed to handle large volumes of beverages. Fixed costs represent an important proportion of the total distribution expense of Coca-Cola FEMSA. Generally, the higher the volume that passes through the distribution system, the lower the fixed distribution cost as a percentage of the corresponding revenues. As a result, operating margins improve when the distribution capacity is operated at higher utilization rates. Alternatively, periods of decreased utilization because of lower volumes will negatively affect our operating margins.

FEMSA Comercio's operations are characterized by low margins and relatively high fixed costs. These two characteristics make FEMSA Comercio a business with an operating margin that might be affected more easily by a change in sales levels.

Critical Accounting Judgments and Estimates

In the application of our accounting policies, which are described in Note 2.3 to our audited consolidated financial statements, management is required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

The following are the key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond our control. Such changes are reflected in the assumptions when they occur.

Impairment of indefinite lived intangible assets, goodwill and depreciable long-lived assets

Intangible assets with indefinite lives including goodwill are subject to impairment tests annually or whenever indicators of impairment are present. An impairment exists when the carrying value of an asset or cash generating unit (CGU) exceeds its recoverable amount, which is the higher of its fair value less costs to sell and its value in use. The fair value less costs to sell calculation is based on available data from binding sales transactions in arm's length transactions of similar assets or observable market prices less incremental costs for disposing of the asset. In order to determine whether such assets are impaired, we initially calculate an estimation of the value in use of the CGUs to which such assets have been allocated. Impairment losses are recognized in current earnings in the period the related impairment is determined.

We assess at each reporting date whether there is an indication that a long-lived asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, we estimate the asset's recoverable amount. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded subsidiaries or other available fair value indicators.

The key assumptions used to determine the recoverable amount for our CGUs, including a sensitivity analysis, are further explained in Notes 3.16 and 12 to our audited consolidated financial statements.

Useful lives of property, plant and equipment and intangible assets with defined useful lives

Property, plant and equipment, including returnable bottles which are expected to provide benefits over a period of more than one year, as well as intangible assets with defined useful lives, are depreciated/amortized over their estimated useful lives. We base our estimates on the experience of our technical personnel as well as based on our experience in the industry for similar assets; see Notes 3.12, 3.14, 11 and 12 to our audited consolidated financial statements.

Employee benefits

We regularly evaluate the reasonableness of the assumptions used in our post-employment and other long-term employee benefit computations. Information about such assumptions is described in Note 16 to our audited consolidated financial statements.

Income taxes

Deferred income tax assets and liabilities are determined based on the differences between the financial statement carrying amounts and the tax basis of assets and liabilities. We recognize deferred tax assets for unused tax losses and other credits and regularly review them for recoverability based on our judgment regarding the probability of the timing and level of future taxable income, the expected timing of the reversals of existing taxable temporary differences and future tax planning strategies; see Note 24 to our audited consolidated financial statements.

Tax, labor and legal contingencies and provisions

We are subject to various claims and contingencies, related to tax, labor and legal proceedings as described in Note 25 to our audited consolidated financial statements. Due to their nature, such legal proceedings involve inherent uncertainties including, but not limited to, court rulings, negotiations between affected parties and governmental actions. We periodically assess the probability of loss for such contingencies and accrue a provision and/or disclose the relevant circumstances, as appropriate. If the potential loss of any claim or legal proceeding is considered probable and the amount can be reasonably estimated, we accrue a provision for the estimated loss. Our judgment must be exercised to determine the likelihood of such a loss and an estimate of the amount, due to the subjective nature of the loss.

Valuation of financial instruments

We are required to measure all derivative financial instruments at fair value. The fair values of derivative financial instruments are determined considering quoted prices in recognized markets. If such instruments are not traded, fair value is determined by applying techniques based upon technical models supported by sufficient reliable and verifiable data, recognized in the financial sector. We base our forward price curves upon market price quotations. We believe that the chosen valuation techniques and assumptions used are appropriate in determining the fair value of financial instruments; see Note 20 to our audited consolidated financial statements.

Business combinations

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by us, liabilities assumed by us from the former owners of the acquiree, the amount of any non-controlling interest in the acquiree and the equity interests issued by us in exchange for control of the acquiree.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognized at their fair value, except that:

Deferred tax assets or liabilities, and assets or liabilities related to employee benefit arrangements are recognized and measured in accordance with IAS 12, *Income Taxes* and IAS 19, *Employee Benefits*, respectively;

Liabilities or equity instruments related to share-based payment arrangements of the acquiree or to our share-based payment arrangements entered into to replace share-based payment arrangements of the acquiree are measured in accordance with IFRS 2, *Share-based Payment* at the acquisition date, see Note 3.24 to our audited consolidated financial statements;

Assets (or disposal groups) that are classified as held for sale in accordance with IFRS 5, *Non-current Assets Held for Sale and Discontinued Operations* are measured in accordance with that standard; and

Indemnifiable assets are recognized at the acquisition date on the same basis as indemnifiable liabilities, subject to any contractual limitations.

For each acquisition, our judgment must be exercised to determine the fair value of the assets acquired, the liabilities assumed and any non-controlling interest in the acquiree. In particular, we must apply estimates or judgments in techniques used, especially in forecasting CGU's cash flows, in the computation of weighted average cost of capital (WACC) and estimation of inflation during the identification of intangible assets with indefinite lives, mainly, goodwill and distribution and trademark rights.

Judgments

In the process of applying our accounting policies, we have made the following judgments which have the most significant effects on the amounts recognized in the consolidated financial statements.

Investments in associates

If we hold, directly or indirectly, 20 percent or more of the voting power of the investee, it is presumed that we have significant influence, unless it can be clearly demonstrated that this is not the case. If we hold, directly or indirectly, less than 20 percent of the voting power of the investee, it is presumed that we do not have significant influence, unless such influence can be clearly demonstrated. Decisions regarding the propriety of utilizing the equity method of accounting for a less than 20 percent-owned corporate investee require a careful evaluation of voting rights and their impact on our ability to exercise significant influence. We consider the existence of the following circumstances, which may indicate that we are in a position to exercise significant influence over a less than 20 percent-owned corporate investee:

Representation on the board of directors or equivalent governing body of the investee;

Participation in policy-making processes, including participation in decisions about dividends or other distributions;

Material transactions between us and the investee;

Interchange of managerial personnel; or

Provision of essential technical information.

We also consider the existence and effect of potential voting rights that are currently exercisable or currently convertible when assessing whether we have significant influence.

In addition, we evaluate certain indicators that provide evidence of significant influence, such as:

Whether the extent of our ownership is significant relative to other shareholders (i.e. a lack of concentration of other shareholders);

Edgar Filing: MEXICAN ECONOMIC DEVELOPMENT INC - Form 20-F

Whether our significant shareholders, fellow subsidiaries or officers hold additional investment in the investee; and

Whether we are part of significant investee committees, such as the executive committee or the finance committee.

Joint arrangements

An arrangement can be a joint arrangement even though not all of its parties have joint control of the arrangement. When we are a party to an arrangement, we shall assess whether the contractual arrangement gives all the parties, or a group of the parties, control of the arrangement collectively; joint control exists only when decisions about the relevant activities require the unanimous consent of the parties that control the arrangement collectively. We need to apply judgment when assessing whether all the parties, or a group of the parties, have joint control of an arrangement. When assessing joint control, we consider the following facts and circumstances, such as:

Whether all the parties, or a group of the parties, control the arrangement, considering the definition of joint control, as described in Note 3.11.2 to our audited consolidated financial statements; and

Whether decisions about the relevant activities require the unanimous consent of all the parties, or of a group of the parties.

As mentioned in Note 4 to our audited consolidated financial statements, until January 2017, Coca-Cola FEMSA accounted for its 51% investment in CCFPI as a joint venture. This was based on the following: (i) Coca-Cola FEMSA and The Coca-Cola Company (TCCC) make all operating decisions jointly during the initial four-year period and (ii) potential voting rights to acquire the remaining 49% of CCFPI were not likely to be exercised in the foreseeable future due to the fact the call option remains out of the money as of December 31, 2017.

Venezuela exchange rates and deconsolidation

As is further explained in Note 3.3 to our audited consolidated financial statements, as of December 31, 2017, the exchange rate used to translate the financial statements of our Venezuelan subsidiary for reporting purposes into the consolidated financial statements was 22,793 bolivars per U.S. dollar. This rate reflects management's judgment about the effects of the economic environment in Venezuela on the variability in the exchange rate.

As is also explained in Note 3.3 to our audited consolidated financial statements, effective as of December 31, 2017 Coca-Cola FEMSA determined that deteriorating conditions in Venezuela had led Coca-Cola FEMSA to no longer meet the accounting criteria to consolidate the results of operations of KOF Venezuela. Such deteriorating conditions had significantly impacted Coca-Cola FEMSA's ability to manage its capital structure and its capacity to import and purchase raw materials and had imposed limitations on its portfolio dynamics. In addition, government controls over the pricing of certain products, labor law restrictions and an inability to obtain U.S. dollars and imports have affected the normal course of Coca-Cola FEMSA's business. Therefore, as of December 31, 2017, Coca-Cola FEMSA changed the method of accounting for its investment in KOF Venezuela from consolidation to fair value method.

As a result of the deconsolidation, Coca-Cola FEMSA recorded an extraordinary loss in other expenses of Ps. 28,177 million as of December 31, 2017. This amount includes the reclassification of Ps. 26,123 million, which were previously recorded in accumulated foreign currency translation losses in equity, to the income statement and impairment charges of Ps. 2,053 million. The impairment charges include the following: Ps. 745 million of distribution rights, Ps. 1,098 million of property, plants and equipment and Ps. 210 million of remeasurement at fair value of the operations in Venezuela. Prior to deconsolidation, during 2017, Coca-Cola FEMSA's operations in Venezuela contributed Ps. 4,005 million to net sales and losses of Ps. 2,223 million to net income.

Beginning on January 1, 2018, Coca-Cola FEMSA will recognize the operations of KOF Venezuela as an investment under the fair value method pursuant to IFRS 9, *Financial Instruments*. While Coca-Cola FEMSA will continue to report the results of operations of KOF Venezuela as a consolidated reporting segment for the periods ended December 31, 2017, 2016 and 2015, as a result of this change, Coca-Cola FEMSA will no longer include the results of operations of KOF Venezuela in its consolidated financial statements beginning on January 1, 2018.

Future Impact of Recently Issued Accounting Standards not yet in Effect

We have not applied the following standards and interpretations that were issued but were not yet effective as of the date of issuance of our consolidated financial statements. We intend to adopt these standards, if applicable, when they become effective:

IFRS 15 Revenue from Contracts with Customers

In May 2014, the IASB issued IFRS 15 Revenue from Contracts with Customers, which establishes a 5-step model to determine the timing of recognizing revenues and the amount to be applied when recognizing revenues from contracts with customers. The new standard replaces existing revenue recognition guidelines, including the IAS 18 Revenue, IAS 11 Construction Contracts and IFRIC 13 Customer Loyalty Programmes.

The standard is effective for annual periods beginning on January 1, 2018 and its earlier adoption was permitted. The standard permits choosing between the retrospective method and modified retrospective approach (prospective method). We adopted IFRS 15 in our consolidated financial statements on January 1, 2018 using prospective method.

We account for transition considerations by applying the prospective method in the adoption of IFRS 15 involving the recognition of the cumulative effect of the adoption of IFRS 15 as of January 1, 2018; consequently, there is no obligation under this method to restate the comparative financial information for the years ended December 31, 2017 and 2016, nor to adjust the amounts that arise as a result of the accounting differences between the current accounting standard IAS 18 and the new standard, IFRS 15.

We have conducted a qualitative and quantitative evaluation of the impacts that the adoption of IFRS 15 will have in our consolidated financial statements. The evaluation includes, among others, the following activities:

Analysis of contracts with customers and their main characteristics;

Identification of the performance obligations included in such contracts;

Determination of the transaction price and the effects derived from variable consideration;

Allocation of the transaction price to each performance obligation;

Analysis of the timing when the revenue should be recognized, either at a point in time or over time, as appropriate;

Analysis of the disclosures required by IFRS 15 and their impacts on internal processes and controls; and

Analysis of the potential costs of obtaining and fulfilling contracts with customers that should be capitalized in accordance with the requirements of the new IFRS 15.

As of today, we have completed the analysis of the new standard and have concluded that there will be no significant impacts on our consolidated financial statements resulting from the adoption of IFRS 15. However, IFRS 15 provides presentation and disclosure requirements that are more detailed than those under the current IFRS. The presentation requirements represent a significant change from current practice and significantly increases the volume of disclosures required in our consolidated financial statements. In 2017 we developed and started testing appropriate systems, internal controls, policies and procedures necessary to collect and disclose the required information.

As of December 31, 2017, the consolidated accounting policies in regard to revenue recognition have been modified and approved by our Board of Directors, with the objective that these are fully implemented effective as of January 1, 2018, which will establish the new basis of accounting for revenues from contracts with customers under IFRS 15. Similarly, we have analyzed and evaluated aspects of internal control derived from IFRS 15 adoption, with the objective of ensuring that our internal control environment is appropriate for financial reporting purposes once the

standard is adopted.

IFRS 9 *Financial Instruments*

IFRS 9 *Financial Instruments*, sets out requirements for recognizing and measuring financial assets, financial liabilities and certain contracts to buy or sell non-financial items. This standard replaces IAS 39 *Financial Instruments: Recognition and Measurement*. IFRS 9 contains a new classification and measurement approach for financial assets that reflects the business model in which assets and cash flow are managed. IFRS 9 contains three principal classification categories for financial assets: (1) measured at amortized cost, (2) fair value through other comprehensive income (FVOCI) and (3) fair value through profit and losses (FVTPL). The standard eliminates the existing IAS 39 categories of held to maturity, loans and receivables and available for sale.

IFRS 9 replaces the incurred loss model in IAS 39 with a forward-looking expected credit loss (ECL) model. This will require considerable judgement about how changes in economic factors affect ECLs, which will be determined on a probability-weighted basis. The new impairment model will apply to financial assets, measured at amortized cost and FVOCI (except for equity instruments), and contract assets.

Furthermore, IFRS 9 requires us to ensure that hedge accounting relationships are aligned with our risk management objectives and strategy and to apply a more qualitative and forward-looking approach to assessing hedge effectiveness. IFRS 9 also introduces new requirements on rebalancing hedge relationships and prohibits voluntary discontinuation of hedge accounting. IFRS 9 largely retains the existing requirements in IAS 39 for the classification of financial liabilities.

This standard is effective for annual periods beginning on or after January 1, 2018 and we adopted IFRS 9 in our consolidated financial statements on January 1, 2018. For hedge accounting, IFRS 9 was adopted prospectively. Regarding classification and measurement, we will not reestablish financial information for the comparative year given that the business models of financial assets will not originate any accounting difference between the adoption and comparative year. Therefore, the comparative figures under IFRS 9 and IAS 39 will be consistent. In relation to impairment, the adoption approach is prospective; therefore, financial information will not be reestablished for comparative periods (year ended December 31, 2017 and 2016).

We performed a qualitative and quantitative assessment of the impacts of IFRS 9. The activities that have been carried out are:

Review and documentation of the business models for managing financial assets, accounting policies, processes and internal controls related to financial instruments.

Analysis of financial assets and the impact of the expected loss model required under IFRS 9.

Update of documentation of the hedging relationships, as well as the policies for hedge accounting, and internal controls.

Determination of the model to compute the loss allowances based on the expected loss model.

Analysis of the new disclosures required by IFRS 9 and its impacts on our internal processes and controls.

We have carried out an analysis for the business models that best suit the current management of our financial assets.

For classification and measurement and hedge accounting there were no significant changes identified, except those related to the documentation of the business model and their cash flow characteristics. There was also a need to update the hedge relationships documentation. Therefore, no significant impacts are expected in the financial information that require adjustments for the adoption of IFRS 9 in our consolidated financial statements in relation to the classification, measurement and hedge accounting.

An analysis was carried out to determine the impact of the new expected credit loss model of financial assets to calculate the provisions that would need to be recorded. An increase is not expected for the provisions of financial assets under the new standard because the accounts receivables are characterized by recovering in the short term, which results in estimates of expected loss that converge to the provisions under IAS 39.

As of December 31, 2017, we have defined policies and procedures for the adoption of the new standard, strengthening the control of information, and have prepared Manuals and Processes for Operation, Management and Risk Management. The consolidated accounting policies regarding IFRS 9 have been modified and approved by our Board of Directors, with the objective that these are fully implemented effective as of January 1, 2018.

IFRS 16 Leases

In January 2016, the IASB issued IFRS 16 Leases, with which it introduces a unique accounting lease model for lessees. The lessee recognizes an asset for the right of use that represents the right to use the underlying asset and a lease liability that represents the obligation to make lease payments.

The standard is effective for the annual periods beginning on January 1, 2019. Early adoption is permitted for entities applying IFRS 15 on the initial application date. We plan to adopt the new IFRS 16 in our consolidated financial statements on January 1, 2019, using the modified retrospective approach (prospective method).

The transition considerations required to be taken into account by us by the modified retrospective approach that we will use to adopt the new IFRS 16 involve recognizing the cumulative effect of the adoption of the new standard as from January 1, 2019. For this reason, the financial information will not be restated for the period by the exercises to be presented (fiscal years completed as of December 31, 2017 and 2018). Likewise, as of the transition date of IFRS 16 (January 1, 2019), we may elect to apply the new definition of leasing to all contracts or to apply the practical file of Grandfather and continue to consider as contracts for leasing those that qualified as such under the previous accounting rules IAS 17 Leases and IFRIC 4 Determination of whether a contract contains a lease .

Currently, we are conducting a qualitative and quantitative assessment of the impacts that the adoption of IFRS 16 will have on our consolidated financial statements. The evaluation includes, among others, the following activities:

Detailed analysis of the leasing contracts and their characteristics that would cause an impact in the determination of the right of use and the financial liabilities;

Identification of the exceptions provided by IFRS 16 that may apply to us;

Identification and determination of costs associated with leasing contracts;

Identification of currencies in which lease contracts are denominated;

Analysis of renewal options and improvements to leased assets, as well as amortization periods;

Analysis of the re-evaluations required by IFRS 16 and the impacts of the same in our internal processes and controls; and

Analysis of the interest rate used in determining the present value of the lease payments of the different assets for which a right of use must be recognized.

The main impacts at a consolidated level, as well as the business unit level are derived from the recognition of leased assets as rights of use and liabilities for the obligation to make such payments. In addition, the linear operating lease expense is replaced by a depreciation expense for the right to use the assets and the interest expense of the lease liabilities that will be recognized at present value.

Based on our analysis, FEMSA Comercio's business units in particular will be impacted the most and is likely to generate a significant effect on our consolidated financial statements due to the number of leases in effect as of the date of analysis, as well as an increase in them on a regular basis.

Edgar Filing: MEXICAN ECONOMIC DEVELOPMENT INC - Form 20-F

At the date of issuance of our consolidated financial statements, we have not yet concluded whether or not to use the optional exemptions or practical expedients that the new standard allows. We continue to evaluate the impact of the adoption of IFRS 16 on our consolidated financial statements.

Annual Improvements 2014-2016 Cycle (issued in December 2016)

These improvements include:

IFRS 2 Classification and Measurement of Share-based Payment Transactions

The IASB issued amendments to IFRS 2 Share-based Payment that address three main areas: the effects of vesting conditions on the measurement of a cash-settled share-based payment transaction; the classification of a share-based payment transaction with net settlement features for withholding tax obligations; and accounting where a modification to the terms and conditions of a share-based payment transaction changes its classification from cash settled to equity settled.

On adoption, entities are required to apply the amendments without restating prior periods, but retrospective application is permitted if elected for all three amendments and other criteria are met. The amendments are effective for annual periods beginning on or after 1 January 2018, with early application permitted. We do not expect the effect of the amendments to be significant to our consolidated financial statements.

IFRIC 22 Foreign Currency Transactions and Advance Consideration

The Interpretation clarifies that, in determining the spot exchange rate to use on initial recognition of the related asset, expense or income (or part of it) on the de-recognition of a non-monetary asset or non-monetary liability relating to advance consideration, the date of the transaction is the date on which an entity initially recognizes the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, then the entity must determine the transaction date for each payment or receipt of advance consideration. Entities may apply the amendments on a fully retrospective basis.

Alternatively, an entity may apply the Interpretation prospectively to all assets, expenses and income in its scope that are initially recognized on or after:

The beginning of the reporting period in which the entity first applies the interpretation; or

The beginning of a prior reporting period presented as comparative information in the financial statements of the reporting period in which the entity first applies the interpretation.

The Interpretation is effective for annual periods beginning on or after 1 January 2018. Early application of the interpretation is permitted and must be disclosed. However, since our current practice is in line with the Interpretation, we do not expect any effect on our consolidated financial statements.

IFRIC 23 Uncertainty over Income Tax Treatment

The Interpretation addresses the accounting for income taxes when tax treatments involve uncertainty that affects the application of IAS 12 and does not apply to taxes or levies outside the scope of IAS 12, nor does it specifically include requirements relating to interest and penalties associated with uncertain tax treatments. The Interpretation specifically addresses the following:

Whether an entity considers uncertain tax treatments separately

The assumptions an entity makes about the examination of tax treatments by taxation authorities

How an entity determines taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates

How an entity considers changes in facts and circumstances

Edgar Filing: MEXICAN ECONOMIC DEVELOPMENT INC - Form 20-F

An entity must determine whether to consider each uncertain tax treatment separately or together with one or more other uncertain tax treatments. The approach that better predicts the resolution of the uncertainty should be followed. The interpretation is effective for annual reporting periods beginning on or after 1 January 2019, but certain transition reliefs are available. We are still in the process of quantifying the impact of the adoption of the IFRIC 23 in our consolidated financial statements.

Operating Results

The following table sets forth our consolidated income statement under IFRS for the years ended December 31, 2017, 2016 and 2015:

	2017 ⁽¹⁾	Year Ended December 31,		2015
		2017	2016	
(in millions of U.S. dollars and Mexican pesos)

(1) Gross margin is calculated with reference to total revenues.

(2) As used herein, p.p. refers to a percentage point increase (or decrease) contrasted with a straight percentage increase (or decrease).

(3) CB Equity holds a majority of Heineken N.V. and Heineken Holding N.V. shares.

(4) The operations that comprise the Health Division segment were separated in 2016. For 2015, FEMSA Comercio's results were restated to reflect the aforementioned separation. As such, no results of operations are available for this segment for periods prior to 2015.

Results from our Operations for the Year Ended December 31, 2017 Compared to the Year Ended December 31, 2016

FEMSA Consolidated

FEMSA's consolidated total revenues increased 15.3% to Ps. 460,456 million in 2017 compared to Ps. 399,507 million in 2016. Coca-Cola FEMSA's total revenues increased 14.7% to Ps. 203,780 million, as a result of the acquisition of Vonpar in Brazil and the consolidation of our operations in the Philippines beginning on February 1, 2017. Total revenues were also driven by average price per unit case increases in local currency aligned with or above the inflation in key territories, supported by the positive translation effect resulting from the appreciation of the Brazilian real and the Colombian peso, partially offset by the depreciation of the Argentine peso, the Philippine peso and the Venezuelan bolivar; in each case relative to the Mexican peso. The Retail Division's revenues increased 12.4% to Ps. 154,204 million, driven by the opening of 1,301 net new OXXO stores combined with an average increase of 6.4% in same-store sales. The Health Division's revenues increased 9.2% to PS. 47,421 million, driven by the opening of 105 net new stores combined with an average increase of 6.7% in same-store sales. The Fuel

Edgar Filing: MEXICAN ECONOMIC DEVELOPMENT INC - Form 20-F

Division's revenues increased 34.1% to Ps. 38,388 million in 2017, driven by the addition of 70 total net new stations in the last twelve months, and a 19.8% increase in same-station sales.

Consolidated gross profit increased 14.9% to Ps. 170,268 million in 2017 compared to Ps. 148,204 million in 2016. Gross margin decreased 10 basis points to 37.0% of total revenues compared to 2016, reflecting the growth of lower margin businesses in FEMSA Comercio.

Consolidated administrative expenses increased 12.1% to Ps. 16,512 million in 2017 compared to Ps. 14,730 million in 2016. As a percentage of total revenues, consolidated administrative expenses decreased 10 basis points, from 3.7% in 2016, compared to 3.6% in 2017.

Consolidated selling expenses increased 16.7% to Ps. 111,456 million in 2017 as compared to Ps. 95,547 million in 2016. As a percentage of total revenues, selling expenses increased 30 basis points, from 23.9% in 2016 to 24.2% in 2017.

Some of our subsidiaries pay management fees to FEMSA in consideration for corporate services we provide to them. These fees are recorded as administrative expenses in the respective business segments. Our subsidiaries' payments of management fees are eliminated in consolidation and, therefore, have no effect on our consolidated operating expenses.

Other income mainly reflects the gains on the partial sale of our investment in the Heineken Group. During 2017, other income increased to Ps. 34,741 million from Ps. 1,157 million in 2016, reflecting the aforementioned gain.

During 2017, other expenses increased to Ps. 33,958 million from Ps. 5,909 million in 2016, mainly reflecting the deconsolidation of results from operations of KOF Venezuela. Additionally, other expenses include contingencies associated with prior acquisitions or disposals, as well as foreign exchange losses related to operating activities.

Comprehensive financing result, which includes interest income and expense, foreign exchange gain (loss), monetary position gain (loss) and market value gain (loss) on financial instruments, decreased to Ps. 3,216 million from Ps. 4,619 million in 2016, mostly driven by a positive result caused by a foreign exchange gain related to the effect of FEMSA's U.S. dollar-denominated cash position, as impacted by the depreciation of the Mexican Peso during the period. This cash position increased during 2017, mainly from the sale of 5.24% of the combined economic interest in the Heineken Group; this movement was enough to offset an interest expense increase of 15.3% to Ps. 11,124 million in 2017, compared to Ps. 9,646 million in 2016 resulting from new debt incurred at Coca-Cola FEMSA in connection with the Vonpar acquisition.

Our accounting provision for income taxes in 2017 was Ps. 10,583 million, as compared to Ps. 7,888 million in 2016, resulting in an effective tax rate of 26.5% in 2017, as compared to 27.6% in 2016, slightly under our expected medium-term range of 30%. The lower effective tax rate registered during 2017 is mainly related to certain tax efficiencies related with the one-time non-operating income recorded in connection with the partial sale of shares of the Heineken Group and the one-time gain from consolidation of Coca-Cola FEMSA Philippines, Inc., both of which occurred during 2017; offset by the deconsolidation of operations of KOF Venezuela.

Share of the profit of associates and joint ventures, accounted for using the equity method, net of taxes, increased 21.84% to Ps. 7,923 million in 2017, compared to Ps. 6,507 million in 2016, mainly driven by an increase in FEMSA's participation in Heineken's results, which was partially offset by the decrease in FEMSA's participation in Heineken Group's equity stake from 20% to 14.76% following the completion of the partial sale in September 2017.

Consolidated net income was Ps. 37,206 million in 2017 compared to Ps. 27,175 million in 2016, resulting from growth in FEMSA's income from operations, higher non-operating income resulting from the sale of 5.24% of the combined economic interest in the Heineken Group on September 18, 2017, and a higher foreign exchange gain related to a higher U.S. dollar-denominated cash position at FEMSA coming from the aforementioned sale of Heineken shares of the Heineken Group partially offset by the deconsolidation of operations of KOF Venezuela, which resulted in the reclassification to profit and loss of foreign currency translation losses previously recorded in equity. This was a non-cash, one-time impact to the other non-operating expenses line of the income statement, in accordance with IFRS standards. Controlling interest amounted to Ps. 42,408 million in 2017 compared to Ps. 21,140 million in 2016. Controlling interest in 2017 per FEMSA Unit was Ps. 11.85 (US\$ 6.03 per ADS).

Coca-Cola FEMSA

The comparability of Coca-Cola FEMSA's financial and operating performance in 2017 as compared to 2016 was affected by the following factors: (1) the ongoing integration of mergers, acquisitions, and divestitures completed in recent years; (2) translation effects from fluctuations in exchange rates; (3) Coca-Cola FEMSA's results in Venezuela, which is considered a hyperinflationary economy, and the extraordinary charges as a result of the deconsolidation of operations of KOF Venezuela; and (4) the consolidation of KOF Philippines commencing on February 1, 2017. In certain information presented below, Coca-Cola FEMSA has excluded the effects of (i) translation effects resulting from exchange rate fluctuations, (ii) its recent acquisition of Vonpar in Brazil, and (iii) its results of operations of KOF Venezuela, and included the results of KOF Philippines as if its consolidation had occurred on January 1, 2016, in order to better describe the performance of Coca-Cola FEMSA's business on a comparable basis between 2017 and 2016. To translate the 2017 reported results of Venezuela, Coca-Cola FEMSA used the exchange rate of 22,793 bolivars per U.S. dollar, as compared to 673.76 bolivars per U.S. dollar used to translate KOF Venezuela's 2016 reported results. In addition, the average depreciation of currencies used in Coca-Cola FEMSA's main operations relative to the U.S. dollar in 2017, as compared to 2016, were: 12.1% for the Argentine peso, 1.5% for the Mexican peso and 6.1% for the Philippine peso. Moreover, the average appreciation of currencies used in Coca-Cola FEMSA's main operations relative to the U.S. dollar in 2017, as compared to 2016, were: 3.4% for the Colombian peso and 8.5% for the Brazilian real.

Total Revenues. Coca-Cola FEMSA's consolidated total revenues increased by 14.7% to Ps. 203,780 million in 2017, as a result of the acquisition of Vonpar in Brazil and the consolidation of its operations in the Philippines beginning on February 1, 2017. Total revenues were also driven by average price per unit case increases in local currency aligned with or above inflation in key territories, supported by the positive translation effect resulting from the appreciation of the Brazilian real and the Colombian peso, despite the depreciation of the Argentine peso, the Philippine peso and the Venezuelan bolivar; in each case relative to the Mexican peso. On a comparable basis, total revenues would have increased by 3.6%, driven by growth in Coca-Cola FEMSA's average price per unit case across most of its operations and volume growth in the Philippines, which were partially offset by volume declines in Coca-Cola FEMSA's South American (excluding Venezuela) consolidated reporting segment.

Total sales volume increased by 16.1% to 3,870.6 million unit cases in 2017 as compared to 2016, mainly as a result of the acquisition of Vonpar and the consolidation of KOF Philippines, which was partially offset by volume contraction in Argentina, Colombia and Venezuela as discussed below. On a comparable basis, total sales volume would have decreased by 1.5% in 2017 as compared to 2016. Sales volume of Coca-Cola FEMSA's sparkling beverage portfolio increased 16.9% as compared to 2016. On a comparable basis, sales volume of Coca-Cola FEMSA's sparkling beverage portfolio would have decreased by 1.7%, driven by volume contractions across most of Coca-Cola FEMSA's operations, which were partially offset by volume growth in the Philippines. On the same basis, Coca-Cola FEMSA's colas portfolio's sales volume would have declined 1.4%, while its flavored sparkling beverage portfolio would have declined 2.6%. Sales volume of Coca-Cola FEMSA's still beverage portfolio increased 23.7% as compared to 2016. On a comparable basis, sales volume of its still beverage portfolio would have declined 2.6%, mainly due to volume contractions in Brazil, Colombia and the Philippines, which were partially offset by growth in Mexico and Argentina. Sales volume of bottled water, excluding bulk water, increased 9.2% as compared to 2016. On a comparable basis, bottled water, excluding bulk water, would have increased by 0.9%, driven mainly by growth in Mexico, Central America and the Philippines, which was partially offset by volume contractions in South America. Sales volume of bulk water increased 9.0% as compared to 2016. On a comparable basis, sales volume of bulk water would have decreased by 0.7%, driven mainly by a volume contraction in Colombia, which was partially offset by volume growth in Argentina, Brazil and the Philippines.

Consolidated average price per unit case decreased by 2.9% to Ps. 49.29 in 2017, as compared to Ps. 50.75 in 2016, mainly as a result of the negative translation effect resulting from depreciation of the Argentine peso, the Philippine peso and the Venezuelan bolivar relative to the Mexican peso, which was partially offset by the positive translation effect resulting from the appreciation of the Brazilian real and the Colombian peso, in each case relative to the Mexican peso. On a comparable basis, average price per unit case would have increased by 5.1% in 2017, driven by average price per unit case increases in local currency in Mexico, Argentina, Brazil and Colombia.

Gross Profit. Coca-Cola FEMSA's gross profit increased by 15.1% to Ps. 91,686 million in 2017; however, its gross profit margin decreased by 20 basis points to reach 45.0% in 2017 as compared to 2016. On a comparable basis, Coca-Cola FEMSA's gross profit would have increased by 6.1% in 2017, as compared to 2016. Coca-Cola FEMSA's pricing initiatives, together with Coca-Cola FEMSA's currency and raw material hedging strategies, offset higher costs resulting from higher sweetener and concentrate prices in Mexico and the depreciation in the average exchange rate of the Mexican peso, the Argentine peso, and the Philippine peso as applied to U.S. dollar-denominated raw material costs.

The components of cost of goods sold include raw materials (principally concentrate, sweeteners and packaging materials), depreciation costs attributable to Coca-Cola FEMSA's production facilities, wages and other labor costs associated with labor force employed at Coca-Cola FEMSA's production facilities and certain overhead costs. Concentrate prices are determined as a percentage of the retail price of Coca-Cola FEMSA's products in local currency, net of applicable taxes. Packaging materials, mainly PET resin and aluminum, and HFCS, used as a sweetener in some countries, are denominated in U.S. dollars.

Administrative and Selling Expenses. Coca-Cola FEMSA's administrative and selling expenses as a percentage of total revenues increased by 70 basis points to 31.9% in 2017 as compared to 2016. Coca-Cola FEMSA's administrative and selling expenses in absolute terms increased by 17.0% to Ps. 64,910 million as compared to Ps. 55,462 million in 2016, mainly as a result of the consolidation of KOF Philippines and the recent acquisition of Vonpar; however, this increase was partially offset by an operating foreign exchange gain. In 2017, Coca-Cola FEMSA continued investing across its territories to support marketplace execution, increase its cooler coverage, and bolster its returnable presentation base.

Other Expenses Net. Coca-Cola FEMSA recorded other expenses net of Ps. 28,661 million in 2017 as compared to Ps. 3,812 million in 2016, mainly due to the deconsolidation of Venezuela, which was partially offset by the consolidation of KOF Philippines. For more information, see Note 3.3 to Coca-Cola FEMSA's consolidated financial statements.

Comprehensive Financing Result. The term comprehensive financing result refers to the combined financial effects of net interest expenses, net financial foreign exchange gains or losses, and net gains or losses on the monetary position of hyperinflationary countries where Coca-Cola FEMSA operates. Net financial foreign exchange gains or losses represent the impact of changes in foreign exchange rates on financial assets or liabilities denominated in currencies other than local currencies, and gains or losses resulting from derivative financial instruments. A financial foreign exchange loss arises if a liability is denominated in a foreign currency that appreciates relative to the local currency between the date the liability is incurred or the beginning of the period, whichever occurs first, and the date it is repaid or the end of the period, whichever occurs first, as the appreciation of the foreign currency results in an increase in the amount of local currency, which must be exchanged to repay the specified amount of the foreign currency liability.

Comprehensive financing result in 2017 recorded an expense of Ps. 5,275 million as compared to an expense of Ps. 6,080 million in 2016. This decrease was mainly driven by an increase in interest expenses of Ps. 8,809 million in 2017 as compared to interest expenses of Ps. 7,741 million in 2016, which was more than offset by a foreign exchange gain of Ps. 810 million in 2017 as compared to a foreign exchange loss of Ps. 1,792 million in 2016, such gain resulting from the appreciation of the end-of-period exchange rate of the Mexican peso relative to the U.S. dollar as applied to Coca-Cola FEMSA's U.S. dollar-denominated debt.

Income Taxes. In 2017, reported income tax was Ps. 4,554 million as compared to Ps. 3,928 million in 2016.

Share of the Profit of Associates and Joint Ventures Accounted for Using the Equity Method, Net of Taxes. In 2017, Coca-Cola FEMSA's recorded a loss of Ps. 60 million in the share of the profits of associates and joint ventures accounted for using the equity method, net of taxes, mainly due to the consolidation of KOF Philippines, which is no longer accounted for under the equity method from February 1, 2017; this loss was partially offset by gains in Coca-Cola FEMSA's joint ventures in Brazil.

Net Income (Equity holders of the parent). Consolidated net controlling interest loss was Ps. 12,802 million during 2017, mainly as a result of the deconsolidation of operations of KOF Venezuela, which resulted in the reclassification of an accumulated non-cash item as a one-time charge to the other expenses line of the income statement in accordance with IFRS standards. On a comparable basis, controlling net income would have grown 34.7% in 2017.

FEMSA Comercio

Retail Division

The Retail Division's total revenues increased 12.4% to Ps. 154,204 million in 2017 as compared to Ps. 137,139 million in 2016, primarily as a result of the opening of 1,301 net new OXXO stores during 2017, together with an average increase in same-store sales of 6.4%. As of December 31, 2017, there were a total of 16,526 OXXO stores. As referenced above, OXXO same-store sales increased an average of 6.4% compared to 2016, driven by a 3.8% increase in average customer ticket while store traffic increased 2.5%.

Cost of goods sold increased 11.4% to Ps. 95,959 million in 2017, compared to Ps. 86,149 million in 2016. Gross margin increased 60 basis points to reach 37.8% of total revenues. This increase reflects healthy trends in our commercial income activity and the sustained growth of the services category, including income from financial services. As a result, gross profit increased 14.2% to Ps. 58,245 million in 2017 compared with Ps. 50,990 in 2016.

Administrative expenses increased 8.4% to Ps. 3,170 million in 2017, compared to Ps. 2,924 million in 2016; as a percentage of sales, they remained flat at 2.1% in 2017. Selling expenses increased 16.7% to Ps. 42,406 million in 2017 compared with Ps. 36,341 million in 2016; as a percentage of sales they reached 27.5% in 2017. The increase in operating expenses was driven by: (i) our continuing initiatives to improve compensation and reduce turnover of key in-store personnel, (ii) a sustained increase in electricity tariffs and (iii) higher secure cash transportation costs driven by increased volume and higher fuel prices.

Health Division

The Health Division's total revenues increased 9.2% to Ps. 47,421 million compared to Ps. 43,411 million in 2016, primarily as a result of the opening of 105 net new stores during 2017, together with an average increase in same-store sales of 6.7%, which was mostly driven by strong performance and positive foreign translation effects from our South American operations. As of December 31, 2017, there were a total of 2,225 drugstores in Mexico, Chile and Colombia.

Cost of goods sold increased 8.3% to Ps. 33,208 million in 2017, compared with Ps. 30,673 million in 2016, reflecting positive sales mix as well as a more effective collaboration and execution with our key supplier partners. Gross margin increased 70 basis points to reach 30.0% of total revenues compared with 29.3% in 2016. As a result, gross profit increased 11.6% to Ps. 14,213 million in 2017 compared with Ps. 12,738 in 2016.

Administrative expenses decreased 7.1% to Ps. 1,643 million in 2017, compared with Ps. 1,769 million in 2016; as a percentage of sales, they reached 3.5% in 2017. Selling expenses increased 15.9% to Ps. 10,850 million in 2017 compared with Ps. 9,365 million in 2016; as a percentage of sales, they reached 22.9% in 2017. The increase in operating expenses was primarily driven by the integration of a single platform in Mexico, building our distribution capabilities and increased services at our drugstores such as on-site doctors and home delivery in the key Mexican markets.

Fuel Division

The Fuel Division's total revenues increased 34.1% to Ps. 38,388 million in 2017 compared to Ps. 28,616 in 2016, primarily reflecting a national price increase established at the beginning of the year, as well as the opening of 70 net new OXXO GAS service stations during 2017. As of December 31, 2017, there were a total of 452 OXXO GAS service stations. Same-station sales increased an average of 19.8% compared to 2016, as the average price per liter increased by 21.1% reflecting the national price increase mentioned above, while the average volume decreased by 1.1% mainly from consumer reaction to the higher prices.

Cost of goods sold increased 35.1% to Ps. 35,621 million in 2017, compared with Ps. 26,368 million in 2016. Gross margin decreased 70 basis points to reach 7.2% of total revenues. This decrease reflects the effect of gross profit per liter remaining flat in peso terms for the first half of the year, while the consumer price per liter increased significantly, as described in the preceding paragraph. As a result, gross profit increased 23.1% to Ps. 2,767 million in 2017 compared with 2016.

Administrative expenses increased 21.3% to Ps. 154 million in 2017, compared with Ps. 127 million in 2016; as a percentage of sales, they remained flat at 0.4% in 2017. Selling expenses increased 24.9% to Ps. 2,330 million in 2017 compared with Ps. 1,865 million in 2016; as a percentage of sales, they reached 6.1% in 2017.

Results from our Operations for the Year Ended December 31, 2016 Compared to the Year Ended December 31, 2015

FEMSA Consolidated

FEMSA's consolidated total revenues increased 28.2% to Ps. 399,507 million in 2016, compared to Ps. 311,589 million in 2015. Coca-Cola FEMSA's total revenues increased 16.6% to Ps. 177,718 million, supported by the positive translation effect originated by the appreciation of the Brazilian real and the Colombian peso, despite the depreciation of the Venezuelan bolivar and the Argentine peso; all as compared to the Mexican peso. The Retail Division's revenues increased 14.4% to Ps. 137,139 million, driven by the opening of 1,164 net new OXXO stores combined with an average increase of 7.0% in same-store sales. The Health Division's revenues amounted to Ps. 43,411 million, an increase of 232.6% compared to 2015, driven by the integration of Socofar. The Fuel Division's revenues increased 54.6% to Ps. 28,616 million in 2016, compared to the ten-month period from March to December of 2015, driven by the addition of 75 total net new stations in the last 12 months, a 7.6% increase in same-store sales.

Consolidated gross profit increased 20.3% to Ps. 148,204 million in 2016, compared to Ps. 123,179 million in 2015. Gross margin decreased 240 basis points to 37.1% of total revenues compared to 2015, reflecting a contraction in Coca-Cola FEMSA's gross margin and the incorporation and growth of lower margin businesses in FEMSA Comercio.

Consolidated administrative expenses increased 25.8% to Ps. 14,730 million in 2016, compared to Ps. 11,705 million in 2015. As a percentage of total revenues, consolidated administrative expenses decreased 10 basis points, from 3.8% in 2015, compared to 3.7% in 2016.

Consolidated selling expenses increased 25.1% to Ps. 95,547 million in 2016, as compared to Ps. 76,375 million in 2015. As a percentage of total revenues, selling expenses decreased 60 basis points, from 24.5% in 2015 to 23.9% in 2016.

Some of our subsidiaries pay management fees to us in consideration for corporate services we provide to them. These fees are recorded as administrative expenses in the respective business segments. Our subsidiaries' payments of management fees are eliminated in consolidation and, therefore, have no effect on our consolidated operating expenses.

Other income mainly includes gains on sales of property, plant and equipment. During 2016, other income increased to Ps. 1,157 million from Ps. 423 million in 2015, reflecting recoveries from previous years and the write-off of certain contingencies.

Other expenses mainly include contingencies associated with prior acquisitions or disposals, as well foreign exchange losses related to operating activities. During 2016, other expenses increased to Ps. 5,909 million from Ps. 2,741 million in 2015.

The term comprehensive financing result refers to the combined financial effects of net interest expenses, net financial foreign exchange gains or losses and net gains or losses on the monetary position of hyperinflationary countries where FEMSA operates. Net financial foreign exchange gains or losses represent the impact of changes in foreign exchange rates on financial assets or liabilities denominated in currencies other than local currencies, and gains or losses resulting from derivative financial instruments. A financial foreign exchange loss arises if a liability is denominated in a foreign currency that appreciates relative to the local currency between the date the liability is incurred or the beginning of the period, whichever occurs first, and the date it is repaid or the end of the period, whichever occurs first, as the appreciation of the foreign currency results in an increase in the amount of local currency, which must be exchanged to repay the specified amount of the foreign currency liability.

Comprehensive financing results decreased to Ps. 4,619 million from Ps. 7,618 million in 2015, mostly driven by a positive result caused by inflationary effects in Coca-Cola FEMSA's net monetary positions in Venezuela combined with a foreign exchange gain related to the effect of FEMSA's U.S. Dollar-denominated cash position, these movements were enough to offset an interest expense increase of 24.0% to Ps. 9,646 million in 2016, compared to Ps. 7,777 million in 2015 resulting from a new debt issuance at Coca-Cola FEMSA in connection to the Vonpar acquisition, and the EUR 1,000 million bond issued by FEMSA during the first half of 2016.

Our accounting provision for income taxes in 2016 was Ps. 7,888 million, as compared to Ps. 7,932 million in 2015, resulting in an effective tax rate of 27.6% in 2016, as compared to 31.5% in 2015, slightly under our expected medium-term range of 30%. The lower effective tax rate registered during 2016 is mainly related to Coca-Cola FEMSA and driven by certain tax efficiencies, lower effective tax rate in Colombia and ongoing efforts to reduce non-deductible items across our operations.

Share of the profit of associates and joint ventures accounted for using the equity method, net of taxes, increased 7.6% to Ps. 6,507 million in 2016, compared with Ps. 6,045 million in 2015, mainly driven by an increase in FEMSA's 20% participation in Heineken's results.

Consolidated net income was Ps. 27,175 million in 2016 compared to Ps. 23,276 million in 2015, resulting from growth in FEMSA's income before income taxes and share of the profit of associates and joint ventures and an increase in FEMSA's 20% participation in Heineken's results. Controlling interest amounted to Ps. 21,140 million in 2016, compared to Ps. 17,683 million in 2015. Controlling interest in 2016 per FEMSA Unit was Ps. 5.91 (US\$ 2.87 per ADS).

Coca-Cola FEMSA

The comparability of Coca-Cola FEMSA's financial and operating performance in 2016, as compared to 2015 was affected by the following factors: (1) its acquisition and integration of Vonpar, (2) translation effects from fluctuations in exchange rates and (3) results of operations in territories that are considered hyperinflationary economies (currently, its only operation that is considered a hyperinflationary economy is Venezuela). To translate the full-year 2016 results in Venezuela, Coca-Cola FEMSA used the DICOM exchange rate of 673.76 bolivars per U.S. dollar, as compared to 198.70 bolivars per U.S. dollar exchange rate used to translate Coca-Cola FEMSA's 2015 results. The average depreciations to the U.S. dollar of currencies used in Coca-Cola FEMSA's main operations during 2016, as compared to 2015, were: 17.7% for the Mexican peso, 4.8% for the Brazilian real, 11.4% for the Colombian peso and 59.5% for the Argentine peso. Consolidated results include full-year figures of Coca-Cola FEMSA's territories and one-month figures of Vonpar.

Total Revenues. Coca-Cola FEMSA's consolidated total revenues increased by 16.6% to Ps. 177,718 million in 2016, mainly as a result of the appreciation of the Brazilian real and the Colombian peso relative to the Mexican peso, which was partially offset by the negative translation effect resulting from the use of the DICOM exchange rate to translate the results of our Venezuelan operations and the depreciation of the Argentine peso relative to the Mexican peso. Excluding the effects of currency fluctuations, total revenues would have increased by a smaller amount, driven by the growth of the average price per unit case in most of Coca-Cola FEMSA's operations and volume growth in Mexico and Central America.

Total sales volume decreased by 3.0% to 3,334.0 million unit cases in 2016, as compared to 2015, as a result of the sales volume contraction in Brazil, Colombia, Argentina and Venezuela discussed below. Excluding the effects of Coca-Cola FEMSA's recent acquisition of Vonpar and the results of Coca-Cola FEMSA's operations in Venezuela, total sales volume would have decreased by 0.9% in 2016, as compared to 2015. Sales volume of Coca-Cola FEMSA's sparkling beverage portfolio decreased by 3.4% as compared to 2015. Excluding the effects of Coca-Cola FEMSA's recent acquisition of Vonpar and the results of its operations in Venezuela, sales volume of Coca-Cola FEMSA's sparkling beverage portfolio would have decreased by 1.0%, mainly as a result of a contraction in Brazil and Colombia, which was partially offset by the positive performance of the *Coca-Cola* brand in Mexico, Central America and Colombia, and Coca-Cola FEMSA's flavored sparkling beverage portfolio in Mexico and Central America. Sales volume of Coca-Cola FEMSA's still beverage portfolio decreased by 0.6% as compared to 2015. Excluding the effects of Coca-Cola FEMSA's recent acquisition of Vonpar and the results of Coca-Cola FEMSA's operations in Venezuela, sales volume of Coca-Cola FEMSA's still beverage portfolio would have grown 2.9%, mainly driven by the positive performance of *ValleFruit* orangeade, *Del Valle* juice and the Santa Clara dairy business in Mexico and *FUZE Tea* in Central America. Sales volume of bottled water, excluding bulk water, decreased by 1.2% as compared to 2015. Excluding the effects of Coca-Cola FEMSA's recent acquisition of Vonpar and the results of its operations in Venezuela, bottled water, excluding bulk water, would have decreased by 1.1%, driven by a contraction in Brazil and Colombia, which was partially offset by increased volume in Mexico and Argentina. Sales volume of bulk water decreased by 2.0% as compared to 2015. Excluding the effects of Coca-Cola FEMSA's recent acquisition of Vonpar and the results of Coca-Cola FEMSA's operations in Venezuela, sales volume of bulk water would have decreased by 1.9%, mainly driven by a sales volume contraction of the *Brisa* and *Crystal* brand products in Colombia and Brazil, respectively.

Consolidated average price per unit case increased by 19.8%, reaching Ps. 50.75 in 2016, as compared to Ps. 42.34 in 2015, mainly as a result of the appreciation of the Brazilian real and the Colombian peso relative to the Mexican peso, which was partially offset by the negative translation effect resulting from the use of the DICOM exchange rate to translate the results of operations of KOF Venezuela and the depreciation of the Argentine peso relative to the Mexican peso. Excluding the effects of currency fluctuations, Coca-Cola FEMSA's recent acquisition of Vonpar, and the results of Coca-Cola FEMSA's operations in Venezuela, average price per unit case would have grown 6.8% in 2016, driven by average price per unit case increases above inflation in local currency in most of Coca-Cola FEMSA's territories.

Gross Profit. Coca-Cola FEMSA's gross profit increased by 10.6% to Ps. 79,662 million in 2016; however, its gross profit margin decreased by 250 basis points to reach 44.8% in 2016, mainly as a result of higher sugar prices, the depreciation of the average exchange rate of the Mexican peso, the Brazilian real, the Colombian peso and the Argentine peso relative to the U.S. dollar as applied to U.S. dollar-denominated raw material costs and an unfavorable currency hedging position in Brazil, which was partially offset by lower PET prices and Coca-Cola FEMSA's overall currency hedging strategy.

The components of cost of goods sold include raw materials (principally concentrate, sweeteners and packaging materials), depreciation costs attributable to Coca-Cola FEMSA's production facilities, wages and other labor costs associated with the labor force employed at Coca-Cola FEMSA's production facilities and certain overhead costs. Concentrate prices are determined as a percentage of the retail price of our products in local currency, net of applicable taxes. Packaging materials, mainly PET and aluminum, and HFCS, used as a sweetener in some countries, are denominated in U.S. dollars.

Administrative and Selling Expenses. Coca-Cola FEMSA's administrative and selling expenses as a percentage of total revenues decreased by 50 basis points to 31.2% in 2016, as compared to 2015. Coca-Cola FEMSA's administrative and selling expenses in absolute terms increased by 14.9% as compared to 2015, mainly as a result of the appreciation of the Brazilian real and the Colombian peso relative to the Mexican peso, and the inflationary effect of Coca-Cola FEMSA's operations in Venezuela, as well as the depreciation of the Mexican peso relative to the U.S. dollar. In local currency, administrative and selling expenses as a percentage of revenues decreased in Brazil and Colombia. In 2016, Coca-Cola FEMSA continued investing in marketing across its territories to support marketplace execution, increase cooler coverage and bolster returnable presentation base.

Other Expenses Net. Coca-Cola FEMSA recorded other expenses net of Ps. 3,812 million in 2016, as compared to Ps. 1,748 million in 2015, mainly due to negative currency fluctuation effects in its operations in Venezuela.

Comprehensive financing results, defined above, in 2016 recorded an expense of Ps. 6,080 million, as compared to an expense of Ps. 7,273 million in 2015. This decrease was mainly driven by a gain on the monetary position in Coca-Cola FEMSA's hyperinflationary operation in Venezuela due to an increase in the balance of accounts payable. This gain was partially offset by a foreign exchange loss resulting from the depreciation of the end-of-period exchange rate of the Mexican peso relative to the U.S. dollar as applied to Coca-Cola FEMSA's U.S. dollar-denominated debt.

Income Taxes. In 2016, income tax as a percentage of income before taxes was 27.2%, as compared to 30.6% in 2015. This lower effective tax rate in 2016 was mainly due to certain tax efficiencies across Coca-Cola FEMSA's operations, a lower effective tax rate in Colombia and ongoing efforts to reduce non-deductible items across Coca-Cola FEMSA's operations.

Share of the Profit of Associates and Joint Ventures Accounted for Using the Equity Method, Net of Taxes. In 2016, Coca-Cola FEMSA recorded a gain of Ps. 147 million in the share of the profits of associates and joint ventures accounted for using the equity method, net of taxes, representing a decrease of 5.2% as compared to 2015, mainly due to a reduced equity method gain from Coca-Cola FEMSA's participation in associated companies.

Net Income (Equity holders of the parent). Coca-Cola FEMSA's net controlling interest income reached Ps. 10,070 million in 2016, as compared to Ps. 10,235 million in 2015. Basic earnings per share in 2016 were Ps. 4.86 (Ps. 48.58 per ADS) computed on the basis of the weighted average number of shares outstanding during the period of 2,072.9 million shares outstanding (each ADS represents 10 Series L shares).

FEMSA Comercio

Retail Division

The Retail Division's total revenues increased 14.4% to Ps. 137,139 million in 2016, compared to Ps. 119,884 million in 2015, primarily as a result of the opening of 1,164 net new OXXO stores during 2016, together with an average increase in same-store sales of 7.0%. As of December 31, 2016, there were a total of 15,225 OXXO stores. As referenced above, OXXO same-store sales increased an average of 7.0% compared to 2015, driven by a 6.8% increase in average customer ticket, while store traffic increased 0.2%.

Cost of goods sold increased 13.0% to Ps. 86,149 million in 2016, compared with Ps. 76,235 million in 2015. Gross margin increased 80 basis points to reach 37.2% of total revenues. This increase reflects healthy trends in our commercial income activity and the sustained growth of the services category, including income from financial services.

Administrative expenses increased 17.6% to Ps. 2,924 million in 2016, compared with Ps. 2,487 million in 2015; as a percentage of sales, such expenses reached 2.1%. Selling expenses increased 18.6% to Ps. 36,341 million in 2016 compared with Ps. 30,631 million in 2015; as a percentage of sales, such expenses reached 26.5%. The increase in expenses was driven by (i) the electricity tariff pick-up seen during 2016 and (ii) our initiative to improve the compensation structure of key store personnel.

Health Division

The Health Division's total revenues amounted to Ps. 43,411 million, compared to Ps. 13,053 million in 2015, driven by the integration of Socofar and 220 net new store openings across territories. As of December 31, 2016, there were a total of 2,120 points of sale in Mexico, Chile and Colombia. The Health Division's same-store sales increased an average of 22.4%, reflecting strong performance and positive foreign exchange translation effects from our South American operations.

Cost of goods sold amounted to Ps. 30,673 million in 2016, compared with Ps. 9,365 million in 2015. Gross margin increased 100 basis points to reach 29.3% of total revenues, reflecting higher structural gross margins at the Socofar operation.

Administrative expenses amounted to Ps. 1,769 million in 2016, compared with Ps. 414 million in 2015; as a percentage of sales, such expenses reached 4.1%. Selling expenses amounted to Ps. 9,365 million in 2016, compared with Ps. 2,682 million in 2015; as a percentage of sales, such expenses reached 21.5%. The increase in operating expenses was driven by the integration of Socofar and the organic expansion across Mexico.

Fuel Division

The Fuel Division's total revenues increased 54.6% to Ps. 28,616 million in 2016 compared to Ps. 18,510 million in the ten-month period from March to December 2015. Same-station sales increased an average of 7.6% compared to the comparable period in 2015, driven by a 6.9% increase in average volume and a slight increase of 0.7% in average price per liter.

Cost of goods sold increased 54.3% to Ps. 26,368 million in 2016, compared with Ps. 17,090 million in 2015. Gross margin increased 20 basis points to reach 7.9% of total revenues. This increase reflects the benefit of price increases as well as higher operating leverage.

Administrative expenses increased 44.3% to Ps. 127 million in 2016, compared with Ps. 88 million in the comparable period of 2015; as a percentage of sales, they reached 0.4%. Selling expenses increased 65.9% to Ps. 1,865 million in 2016, compared with Ps. 1,124 million in the comparable period of 2015; as a percentage of sales, they reached 6.6%.

Liquidity and Capital Resources

Liquidity

Each of our sub-holding companies generally finances its operational and capital requirements on an independent basis. As of December 31, 2017, 64% of our outstanding consolidated total indebtedness was at the level of our sub-holding companies. This structure is attributable, in part, to the inclusion of third parties in the capital structure of Coca-Cola FEMSA.

In March 2016, we issued EUR 1,000 million aggregate principal amount of 1.750% fixed rate Senior Notes due 2023 with a total yield of 1.824% that were listed on the Irish Stock Exchange (ISE).

In May 2013, anticipating liquidity needs for general corporate purposes, we issued US\$ 300 million aggregate principal amount of 2.875% Senior Notes due 2023 and US\$ 700 million aggregate principal amount of 4.375% Senior Notes due 2043.

In June 2017, Coca-Cola FEMSA issued Ps. 8,500 million aggregate principal amount of 10-year fixed rate Mexican peso-denominated bonds (*certificados bursatiles*) bearing an annual interest rate of 7.87% due June 2027 and Ps. 1,500 million aggregate principal amount of 5-year floating rate *certificados bursatiles*, prices at 28-day Equilibrium Interbank Interest Rate (Tasa de Interés Interbancaria de Equilibrio or TIIE) plus 0.25% due June 2022. These series of *certificados bursatiles* are guaranteed by Coca-Cola FEMSA subsidiaries: Propimex S. de R.L. de C.V., Comercializadora La Pureza de Bebidas, S. de R.L. de C.V., Controladora Interamericana de Bebidas, S. de R.L. de C.V., Grupo Embotellador Cimsa, S. de R.L. de C.V., Refrescos Victoria del Centro, S. de R.L. de C.V., Distribuidora y Manufacturera del Valle de Mexico, S. de R.L. de C.V. (as successor guarantor of Servicios Integrados Inmuebles del Golfo, S. de R.L. de C.V.) and Yoli de Acapulco, S. de R.L. de C.V. (the Guarantors).

In December 2016, as part of the purchase price paid for our acquisition of Vonpar, Coca-Cola FEMSA issued and delivered a three-year promissory note to the sellers for a total amount of 1,090 million Brazilian reais (approximately Ps. 6,707 million as of December 31, 2016). The promissory note bears interest at an annual rate of 0.375% and is denominated and payable in Brazilian reais. The promissory note is linked to the performance of the exchange rate between the Brazilian real and the U.S. dollar. As a result, the principal amount under the promissory note may be increased or reduced based on the depreciation or appreciation of the Brazilian real relative to the U.S. dollar.

In January 2014, Coca-Cola FEMSA issued an additional US\$ 150 million aggregate principal amount of 3.875% Senior Notes due 2023 and US\$ 200 million in aggregate principal amount of 5.250% Senior Notes due 2043 under previously series issued in November 2013. These notes are guaranteed by the Guarantors. The indenture governing these notes imposes, among others, certain conditions upon a consolidation or merger by Coca-Cola FEMSA and restricts the incurrence of liens and the entering into sale and leaseback transactions by Coca-Cola FEMSA and its significant subsidiaries.

In November 2013, Coca-Cola FEMSA issued US\$ 1.0 billion aggregate principal amount of 2.375% Senior Notes due 2018. In August 2017, Coca-Cola FEMSA redeemed 55.5% of the aggregate principal amount the 2.375% Senior Notes, equal to US\$ 555 million. The outstanding balance of the 2.375% Senior Notes following the redemption is US\$445 million. These notes are guaranteed by the Guarantors. The indenture governing these notes imposes, among others, certain conditions upon a consolidation or merger by Coca-Cola FEMSA and restricts the incurrence of liens and the entering into sale and leaseback transactions by us and our significant subsidiaries.

In addition, in November 2013, Coca-Cola FEMSA issued US\$ 750 million aggregate principal amount of 3.875% Senior Notes due 2023 and US\$ 400 million aggregate principal amount of 5.250% Senior Notes due 2043. These notes are guaranteed by the Guarantors. The indenture governing these notes imposes, among others, certain conditions upon a consolidation or merger by Coca-Cola FEMSA and restricts the incurrence of liens and the entering into sale and leaseback transactions by Coca-Cola FEMSA and its significant subsidiaries.

In May 2013, Coca-Cola FEMSA issued Ps. 7,500 million aggregate principal amount of 10-year fixed rate *certificados bursatiles* bearing an annual interest rate of 5.46% due May 2023, and these series of *certificados bursatiles* are guaranteed by the Guarantors.

In April 2011, Coca-Cola FEMSA issued Ps. 2,500 million of 10-year fixed rate *certificados bursatiles* bearing an annual interest of 8.27% coupon due April 2021. These series of *certificados bursatiles* are guaranteed by the Guarantors.

In February 2010, Coca-Cola FEMSA issued US\$ 500 million aggregate amount of 4.625% Senior Notes due 2020. These notes are guaranteed by the Guarantors. The indenture governing these notes imposes, among others, certain conditions upon a consolidation or merger by Coca-Cola FEMSA and restricts the incurrence of liens and the entering into sale and leaseback transactions by Coca-Cola FEMSA and its significant subsidiaries.

We may decide to incur additional indebtedness at our holding company in the future to finance the operations and capital requirements of our subsidiaries or significant acquisitions, investments or capital expenditures. As a holding company, we depend on dividends and other distributions from our subsidiaries to service our indebtedness and to finance our operations and capital requirements.

We continuously evaluate opportunities to pursue acquisitions or engage in joint ventures or other transactions. We would expect to finance any significant future transactions with a combination of cash from operations, long-term indebtedness and capital stock.

Our principal source of liquidity has generally been cash generated from our operations. We have traditionally been able to rely on cash generated from operations because a significant majority of the sales of Coca-Cola FEMSA and FEMSA Comercio are on a cash or short-term credit basis. OXXO stores are able to finance a significant portion of their initial and ongoing inventories with supplier credit. Our principal use of cash has generally been for capital expenditure programs, debt repayment and dividend payments. In our opinion, our working capital is sufficient for our present requirements.

Our sub-holding companies generally incur short-term indebtedness in the event that they are temporarily unable to finance operations or meet capital requirements with cash from operations. A significant decline in the business of any of our sub-holding companies may affect the sub-holding company's ability to fund its capital requirements. A significant and prolonged deterioration in the economies where we operate or in our businesses may affect our ability to obtain short-term and long-term credit or to refinance existing indebtedness on terms satisfactory to us.

The following is a summary of the principal sources and uses of cash for the years ended December 31, 2017, 2016 and 2015, from our consolidated statement of cash flows:

Principal Sources and Uses of Cash

Years ended December 31, 2017, 2016 and 2015

(in millions of Mexican pesos)

	2017	2016	2015
Net cash flows provided by operating activities	Ps. 40,135	Ps. 50,131	Ps. 36,742
Net cash flows provided by (used in) investing activities	31,417	(38,645)	(28,359)
Net cash flows (used in) provided by financing activities	(21,539)	1,297	(13,741)
Dividends paid	(12,450)	(12,045)	(10,701)

Principal Sources and Uses of Cash for the Year ended December 31, 2017 Compared to the Year Ended December 31, 2016

Our net cash generated by operating activities was Ps. 40,135 million for the year ended December 31, 2017, compared to Ps. 50,131 million generated by operating activities for the year ended December 31, 2016, a decrease of Ps. 9,996 million. This decrease was the result of:

A decrease of Ps. 9,460 million due to lower collection of trade receivables compared to last year, due to lower inventory purchases of Ps. 2,334 million and Ps. 3,334 million due to a greater cash flow hedging effect of our forward agreements compared to last year;

A decrease of Ps. 7,943 million due to higher supplier payments compared to last year; and

A change in cash flow of Ps. 7,471 mainly due to a decrease in cash flow resulting from higher income taxes paid mainly related to the sale of a portion of our investment in Heineken Group, which was offset by an increase of Ps. 10,800 million in our cash flow from operating activities before changes in operating working capital accounts.

Our net cash generated by investing activities was Ps. 31,417 million for the year ended December 31, 2017, compared to Ps. 38,645 million used for investing activities for the year ended December 31, 2016, an increase of Ps. 70,063 million. This was primarily the result of:

The absence in 2017 of acquisition-related costs in the amount of Ps. 18,230 million, due to higher payments for acquisitions in last year by Coca-Cola FEMSA and our other business acquisitions; and

An increase of Ps. 52,090 million mainly due to the sale of a portion of our investment in the Heineken Group and payments for acquisitions in other associates and joint venture investments in last year.

Our net cash used in financing activities was Ps. 21,539 million for the year ended December 31, 2017, compared to Ps. 1,297 million generated by financing activities for the year ended December 31, 2016, a decrease of Ps. 22,836 million. This decrease was primarily due to:

A change of Ps. 12,672, which decreased our cash flow due to higher payments of bank loans in 2017 of Ps. 18,130 million, as compared to Ps. 5,458 million in 2016;

A change of Ps. 13,030 million, which decreased our cash flow mainly due to lower proceeds from borrowings in 2017 of Ps. 13,599 million as compared to Ps. 26,629 million in 2016; and

These changes were partially offset by an increase by capitalization of issued shares to former owner of Vonpar in Coca-Cola FEMSA of Ps. 4,082 million due to the merger with a Mexican company owned by the sellers, see Note 4.1.2 to our audited consolidated financial statements, and a change of Ps. 1,207 million, which decreased our cash flow mainly due to less contributions from non-controlling interest.

Principal Sources and Uses of Cash for the Year ended December 31, 2016 Compared to the Year Ended December 31, 2015

Our net cash generated by operating activities was Ps. 50,131 million for the year ended December 31, 2016 compared to Ps. 36,742 million generated by operating activities for the year ended December 31, 2015, an increase of Ps. 13,389 million. This increase was the result of:

An improvement of Ps. 2,490 million due to collection of trade receivables compared to last year, which was partially offset by greater stock inventory of Ps. 606 million and Ps. 311 due to a lower cash flow hedging effect of our commodities compared to last year;

An increase in the amount of Ps. 8,538 million due to lower suppliers payments compared to last year; and

An increase in cash provided by other current financial liabilities in the amount of Ps. 3,212 million.

Our net cash used in investing activities was Ps. 38,645 million for the year ended December 31, 2016, compared to Ps. 28,359 million for the year ended December 31, 2015, an increase of Ps. 10,286 million. This was primarily the result of:

An increase in acquisition-related costs in the amount of Ps. 6,308 million, given by Coca-Cola FEMSA and our other business acquisitions; and

An increase in acquisition cost of property, plant and equipment and intangible assets of Ps. 1,598 and 1,338, respectively, due to the expansion plan of our businesses compared to last year.

Our net cash generated by financing activities was Ps. 1,297 million for the year ended December 31, 2016, compared to Ps. 13,741 million used in financing activities for the year ended December 31, 2015, an increase of Ps. 15,038 million. This increase was primarily due to:

A change of Ps. 10,062, which increased our cash flow due to lower payments of bank loans in 2016 of Ps. 5,458 million, as compared to Ps. 15,520 million in 2015;

A change of Ps. 18,207 million which increased our cash flow mainly due to the senior unsecured notes in the amount of EUR 1,000 issued in March 2016; and

All these changes were partially offset by a net increase by derivative financial instruments of Ps. 11,816 million due to the acquisition of new cross-currency swaps and an increase in dividend payments of Ps. 1,344 compared to last year.

Consolidated Total Indebtedness

Our consolidated total indebtedness as of December 31, 2017 was Ps. 131,348 million compared to Ps. 139,248 million in 2016 and Ps. 91,864 million as of December 31, 2015. Short-term debt (including maturities of long-term debt) and long-term debt were Ps. 13,590 and Ps. 117,758 as of December 31, 2017, Ps. 7,281 million and Ps. 131,967 million, respectively, as of December 31, 2016, as compared to Ps. 5,895 million and Ps. 85,969 million, respectively, as of December 31, 2015. Cash and cash equivalents were Ps. 96,944 million as of December 31, 2017 and Ps. 43,637 million as of December 31, 2016, as compared to Ps. 29,396 million as of December 31, 2015.

Off-Balance Sheet Arrangements

We do not have any material off-balance sheet arrangements.

Contractual Obligations

The table below sets forth our contractual obligations as of December 31, 2017.

	Maturity				Total
	Less than 1 year	1 - 3 years	3 - 5 years	In excess of 5 years	
Long-Term Debt					
Mexican pesos			3,994	15,981	19,975

Other long-term liabilities ⁽⁴⁾	683	728	677	2,527	4,615
				17,343	17,343

- (1) Interest was calculated using long-term debt as of and interest rate amounts in effect on December 31, 2017 without considering interest rate swap agreements. The debt and applicable interest rates in effect are shown in Note 18 to our audited consolidated financial statements. Liabilities denominated in U.S. dollars were translated to Mexican pesos at an exchange rate of Ps. 19.6395 per US\$ 1.00, the exchange rate quoted to us by *Banco de México* for the settlement of obligations in foreign currencies on December 31, 2017.
- (2) Reflects the amount of future payments that we would be required to make. The amounts were calculated by applying the rates giving effect to interest rate swaps and cross-currency swaps applied to long-term debt as of December 31, 2017, and the market value of the unhedged cross-currency swaps.
- (3) Reflects the notional amount of the futures and forward contracts used to hedge sugar and aluminum cost with a fair value liability of Ps. 4 million; see Note 20.6 to our audited consolidated financial statements.
- (4) Other long-term liabilities include provisions and others, but not deferred taxes. Other long-term liabilities additionally reflect those liabilities whose maturity date is undefined and depends on a series of circumstances out of our control; therefore, these liabilities have been considered to have a maturity of more than five years.
- (5) A portion of our debt denominated in Brazilian reais consists of a promissory note for 1,090 million Brazilian reais (approximately Ps. 6,707 million as of December 31, 2017). This promissory note is denominated and payable in Brazilian reais; however, it is linked to the performance of the exchange rate between the Brazilian real and the U.S. dollar. As a result, the principal amount under the promissory note may be increased or reduced based on the depreciation or appreciation of the Brazilian real relative to the U.S. dollar.

As of December 31, 2017, Ps. 13,590 million of our total consolidated indebtedness was short-term debt (including maturities of long-term debt).

As of December 31, 2017, our consolidated average cost of borrowing, after giving effect to the cross-currency and interest rate swaps, was approximately 6.5%. As of December 31, 2016, our consolidated average cost of borrowing, after giving effect to the cross-currency swaps, was 8.6% (the total amount of debt used in the calculation of this percentage was obtained by converting only the units of investment debt for the related cross-currency swap, and it also includes the effect of related interest rate swaps). As of December 31, 2017, after giving effect to cross-currency swaps, approximately 39.6% of our total consolidated indebtedness was denominated and payable in Mexican pesos, 1.0% in U.S. dollars, 2.1% in Colombian pesos, 0.1% in Argentine pesos, 35.1% in Brazilian reais, 3.9% in Chilean pesos and the remaining 18.2% in Euros.

Overview of Debt Instruments

The following table shows the allocations of total debt of our company as of December 31, 2017:

	Total Debt Profile of the Company			
	FEMSA and Others	Coca-Cola FEMSA	FEMSA Comercio	Total Debt
	(in millions of Mexican pesos)			
Short-term Debt				
<i>Argentine pesos:</i>

<i>Colombian pesos:</i>				
Bank loans		728		728
Capital leases			17	17
<i>Chilean pesos:</i>				
Bank loans	4,136		40	4,176
Capital leases			98	98
Total Debt	Ps. 47,045	Ps. 83,362	Ps. 941	Ps. 131,348
Average Cost⁽²⁾				
Mexican pesos	7.0%	8.3%		8.0%
U.S. dollars	3.8%	3.0%		3.0%
Euro	1.8%			1.8%
Brazilian reais	5.4%	7.4%		7.4%
Argentine pesos		22.4%		22.4%
Colombian pesos		7.9%	4.3%	7.9%
Chilean pesos	6.4%		3.3%	5.8%
Total	3.9%	7.8%	3.3%	6.5%

(1) Includes the Ps. 10,760 million current portion of long-term debt.

(2) Includes the effect of cross-currency and interest rate swaps. Average cost is determined based on interest rates as of December 31, 2017.

Restrictions Imposed by Debt Instruments

Generally, the covenants contained in the credit agreements and other instruments governing indebtedness entered into by us or our sub-holding companies include limitations on the incurrence of any additional debt based on debt service coverage ratios or leverage tests. These credit agreements also generally include restrictive covenants applicable to the Company, our sub-holding companies and their subsidiaries.

We and Coca-Cola FEMSA are in compliance with all of our covenants. A significant and prolonged deterioration in our consolidated results could cause us to cease to be in compliance under certain indebtedness in the future. We can provide no assurances that we will be able to incur indebtedness or to refinance existing indebtedness on similar terms in the future.

Summary of Debt

The following is a summary of our indebtedness as of December 31, 2017:

Coca-Cola FEMSA

Coca-Cola FEMSA's total indebtedness was Ps. 83,360 million as of December 31, 2017, as compared to Ps. 88,909 million as of December 31, 2016. Short-term debt and long-term debt were Ps. 12,171 million and Ps. 71,189 million, respectively, as of December 31, 2017, as compared to Ps. 3,052 million and Ps. 85,857 million, respectively, as of December 31, 2016. Total debt decreased Ps. 5,549 million in 2017, compared to year end 2016. As of December 31, 2017, Coca-Cola FEMSA's cash and cash equivalents were Ps. 18,767 million, as compared to Ps. 10,476 million as of December 31, 2016. Coca-Cola FEMSA had cash outflows in 2017, mainly resulting from dividend payments and the partial redemption of its 2.375% Notes due 2018. As of December 31, 2017, Coca-Cola FEMSA's cash and cash equivalents were comprised of 36.3% U.S. dollars, 24.0% Philippine pesos, 23.3% Mexican pesos, 11.3% Brazilian reais, 2.4% Argentine pesos, 1.9% Colombian pesos, and 0.8% other legal currencies. As of March 31, 2018, Coca-Cola FEMSA's cash and cash equivalents balance was Ps. 19,549 million, including US \$352 million denominated in U.S. dollars. Coca-Cola FEMSA believes that these funds, in addition to the cash generated by its operations, are sufficient to meet their own operating requirements.

Future currency devaluations or the imposition of exchange controls in any of the countries where Coca-Cola FEMSA has operations, could have an adverse effect on Coca-Cola FEMSA's financial position and liquidity.

As part of Coca-Cola FEMSA's financing policy, Coca-Cola FEMSA expects to continue to finance its liquidity needs mainly with cash flows from its operating activities. Nonetheless, as a result of regulations in certain countries where Coca-Cola FEMSA operates, it may not be beneficial or practicable for Coca-Cola FEMSA to remit cash generated in local operations to fund cash requirements in other countries. Exchange controls may also increase the real price of remitting cash to fund debt requirements in other countries. In the event that cash in these countries is not sufficient to fund future working capital requirements and capital expenditures, Coca-Cola FEMSA may decide, or be required, to fund cash requirements in these countries through local borrowings rather than remitting funds from another country. In the future, Coca-Cola FEMSA may finance its working capital and capital expenditure needs with short-term or other borrowings.

Coca-Cola FEMSA continuously evaluates opportunities to pursue acquisitions or engage in strategic transactions. Coca-Cola FEMSA would expect to finance any significant future transactions with a combination of any of cash, long-term indebtedness and the issuance of shares of its company.

FEMSA Comercio

As of December 31, 2017, the Retail Division had total outstanding debt of Ps. 941 million. Short-term debt (including the current portion of long-term debt) and long-term debt were Ps. 773 million and Ps. 168 million, respectively. As of December 31, 2017, cash and cash equivalents were Ps. 9,370 million.

FEMSA and other businesses

As of December 31, 2017, FEMSA and other businesses had total outstanding debt of Ps. 47,045 million, which is composed of Ps. 4,234 million of bank debt in other legal currencies, Ps. 5,852 million of Senior Notes due 2023, Ps. 13,510 million of Senior Notes due 2043 and Ps. 23,449 million of Senior Unsecured Notes due 2023 that we issued in March 2016. **See Item 5. Operating and Financial Review and Prospects Liquidity and Capital Resources Liquidity.** FEMSA and other businesses' average cost of debt, after giving effect to interest rate swaps and cross-currency swaps, as of December 31, 2017, was 7.0% in Mexican pesos.

Contingencies

We have various loss contingencies, for which reserves have been recorded in those cases where we believe an unfavorable resolution is probable and can be reasonably quantified. See **Item 8. Financial Information Legal Proceedings**. Any amounts required to be paid in connection with these loss contingencies would be required to be paid from available cash.

The following table presents the nature and amount of loss contingencies recorded as of December 31, 2017:

	Loss Contingencies As of December 31, 2017 (in millions of Mexican pesos)	
Taxes, primarily indirect taxes	Ps.	6,836
Legal		3,296
Labor		2,723
Total	Ps.	12,855

As is customary in Brazil, we have been asked by the tax authorities to collateralize tax contingencies currently in litigation amounting to Ps. 9,433 million, Ps. 8,093 million and Ps. 3,569 million as of December 31, 2017, 2016 and 2015, respectively, by pledging fixed assets or providing bank guarantees.

We have other contingencies that, based on a legal assessment of their risk of loss, have been classified by our legal counsel as more than remote but less than probable. These contingencies have a financial impact that is disclosed as loss contingencies in the notes of the audited consolidated financial statements. These contingencies, or our assessment of them, may change in the future, and we may record reserves or be required to pay amounts in respect of these contingencies. As of December 31, 2017, the aggregate amount of such contingencies for which we had not recorded a reserve was Ps. 70,830 million.

Capital Expenditures

For the past five years, we have had significant capital expenditure programs, which for the most part were financed with cash from operations. Capital expenditures reached Ps. 25,180 million in 2017, compared Ps. 22,155 million in 2016, an increase of 13.7 %. This was driven by additional investments at FEMSA Comercio, mainly related to the opening of new stores, drugstores and retail service stations. The principal components of our capital expenditures have been investments in placing coolers with retailers, returnable bottles and cases, investments in production capacity and distribution network expansion at Coca-Cola FEMSA and expansion of the Retail Division, the Health Division and the Fuel Division, as mentioned above. See **Item 4. Information on the Company Capital Expenditures and Divestitures**.

Expected Capital Expenditures for 2018

Our capital expenditure budget for 2018 is expected to be US\$ 1,349 (Ps. 26,432) million. The following discussion is based on each of our sub-holding companies' internal budgets. The capital expenditure plan for 2018 is subject to change based on market and other conditions and the subsidiaries' results and financial resources.

Coca-Cola FEMSA has budgeted approximately US\$ 650 million for its capital expenditures in 2018, including its operations in the Philippines. Coca-Cola FEMSA's capital expenditures in 2018 are primarily intended for:

investments in production capacity;

market investments;

returnable bottles and cases;

improvements throughout our distribution network; and

investments in information technology.

Coca-Cola FEMSA estimates that of its projected capital expenditures for 2018, approximately 40.0% will be for its Mexican territories and the remaining will be for its non-Mexican territories. Coca-Cola FEMSA believes that internally generated funds will be sufficient to meet its budgeted capital expenditure for 2018. Coca-Cola FEMSA's capital expenditure plan for 2018 may change based on market and other conditions, our results and financial resources.

The Retail Division's capital expenditures budget in 2018 is expected to total US\$ 526 million, and will be allocated to the opening of new OXXO stores and, to a lesser extent, the refurbishing of existing OXXO stores. In addition, investments are planned in FEMSA Comercio's IT, ERP software updates and transportation equipment.

The Health Division's capital expenditures budget in 2018 is expected to total US\$ 55 million, and will be allocated to the opening of new drugstores and, to a lesser extent, the refurbishing of existing stores. In addition, investments are planned in warehouses, IT hardware and ERP software updates.

The Fuel Division's capital expenditures budget in 2018 is expected to total US\$ 35 million, and will be allocated to the opening of new service stations, the change of our existing brand to a fresh image and, to a lesser extent, to the refurbishing of existing OXXO GAS service stations.

Hedging Activities

Our business activities require the holding or issuing of derivative instruments to hedge our exposure to market risks related to changes in interest rates, foreign currency exchange rates and commodity price risk. See **Item 11. Quantitative and Qualitative Disclosures about Market Risk.**

The following table provides a summary of the fair value of derivative financial instruments as of December 31, 2017. If such instruments are not traded in a formal market, fair value is determined by applying techniques based upon technical models we believe are supported by sufficient, reliable and verifiable market data, recognized in the financial sector.

	Fair Value at December 31, 2017				Fair Value Asset
	Maturity less than 1 year	Maturity 1 - 3 years	Maturity 3 - 5 years	Maturity in excess of 5 years	
	(in millions of Mexican pesos)				
Derivative financial instruments position	Ps. (3,870)	Ps. (448)	Ps. (108)	Ps. 9,068	Ps.4,642

ITEM 6. DIRECTORS, SENIOR MANAGEMENT AND EMPLOYEES

Directors

Management of our business is vested in the board of directors and in our chief executive officer. Our bylaws provide that the board of directors will consist of no more than 21 directors and their corresponding alternate directors elected by our shareholders at the AGM. Directors are elected for a term of one year. Alternate directors are authorized to serve on the board of directors in place of their specific directors who are unable to attend meetings and may participate in the activities of the board of directors. Our bylaws provide that the holders of the Series B Shares elect at least 11 directors and that the holders of the Series D Shares elect five directors. See **Item 10. Additional Information** Bylaws.

In accordance with our bylaws and article 24 of the Mexican Securities Law, at least 25% of the members of our board of directors must be independent (as defined by the Mexican Securities Law).

The board of directors may appoint interim directors in the event that a director is absent or an elected director and corresponding alternate are unable to serve. Such interim directors shall serve until the next AGM, at which the shareholders shall ratify or elect a replacement.

Our bylaws provide that the board of directors shall meet at least once every three months. Actions by the board of directors must be approved by at least a majority of the directors present and voting. The chairman of the board of directors, the chairman of our audit or corporate practices committee or at least 25% of our directors may call a board of directors' meeting and include matters in the meeting agenda.

Our board of directors was elected at the AGM held on March 16, 2018, and currently comprises 21 directors and 15 alternate directors. The following table sets forth the current members of our board of directors:

Series B Directors

	Directorships:	Alternate member of the board of directors of Coca-Cola FEMSA and FEMSA
	Education:	Holds a forest engineering degree from Austral University of Chile and an MBA from Adolfo Ibañez University

Compensation of Directors and Senior Management

The compensation of Directors is approved at the AGM. For the year ended December 31, 2017, the aggregate compensation paid to our directors by the Company was approximately Ps. 52 million. In addition, in the year ended December 31, 2017, Coca-Cola FEMSA paid approximately Ps. 14 million in aggregate compensation to the Directors and executive officers of FEMSA who also serve as directors on the board of Coca-Cola FEMSA.

For the year ended December 31, 2017, the aggregate compensation paid to executive officers and senior management of FEMSA and its subsidiaries was approximately Ps. 2,049 million. Aggregate compensation includes bonuses we paid to certain members of senior management and payments in connection with the EVA stock incentive plan described in Note 17 to our audited consolidated financial statements. Our senior management and executive officers participate in our benefit plan and post-retirement medical services plan on the same basis as our other employees. Members of our board of directors do not participate in our benefit plan and post-retirement medical services plan, unless they are retired employees of our company. As of December 31, 2017, amounts set aside or accrued for all employees under these retirement plans were Ps. 8,677 million, of which Ps. 3,304 million is already funded.

EVA Stock Incentive Plan

In 2004, we, along with our subsidiaries, commenced a new stock incentive plan for the benefit of our senior executives, which we refer to as the EVA stock incentive plan. This plan uses as its main evaluation metric the Economic Value Added (EVA) framework developed by Stern Stewart & Co., a compensation consulting firm. Under the EVA stock incentive plan, eligible employees are entitled to receive a special cash bonus, which will be used to purchase shares of FEMSA (in the case of employees of FEMSA) or of both FEMSA and Coca-Cola FEMSA (in the case of employees of Coca-Cola FEMSA). Under the plan, it is also possible to provide stock options of FEMSA or Coca-Cola FEMSA to employees; however, since the plan's inception, only shares have been granted.

Under this plan, each year, our Chief Executive Officer together with the Corporate Governance Committee of our board of directors, together with the chief executive officer of the respective sub-holding company, determines the employees eligible to participate in the plan. A bonus formula is then created for each eligible employee, using the EVA framework, which determines the number of shares to be received by such employee. The terms and conditions of the share-based payment arrangement are then agreed upon with the eligible employee, such that the employee can begin to accrue shares under the plan. Until 2015, the shares vested ratably over a six-year period; from January 1, 2016, they will ratably vest over a four-year period, with retrospective effects. We account for the EVA stock incentive plan as an equity-settled share-based payment transaction, as we will ultimately settle our obligations with our employees by issuing our own shares or those of our subsidiary, Coca-Cola FEMSA.

The bonus amount is determined based on each eligible participant's level of responsibility and based on the EVA generated by the applicable business unit the employee works for. The formula considers the employee's level of responsibility within the organization, the employee's evaluation and competitive compensation in the market. The bonus is granted to the eligible employee on an annual basis after withholding applicable taxes.

The shares are administered by a trust for the benefit of the eligible executives (the Administrative Trust). We created the Administrative Trust with the objective of administering the purchase of FEMSA and Coca-Cola FEMSA shares, so that the shares can then be assigned to the eligible executives participating in the EVA stock incentive plan. The Administrative Trust's objectives are to acquire shares of FEMSA or of Coca-Cola FEMSA and to manage the shares granted to the individual employees based on instructions set forth by the Technical Committee of the Administrative Trust. Once the shares are acquired following the Technical Committee's instructions, the Administrative Trust assigns to each participant their respective rights. As the trust is controlled and therefore consolidated by FEMSA, shares purchased in the market and held within the Administrative Trust are presented as treasury stock (as it relates to FEMSA's shares) or as a reduction of the non-controlling interest (as it relates to Coca-Cola FEMSA's shares). Should an employee leave prior to their shares vesting, they would lose the rights to such shares, which would then remain within the Administrative Trust and be able to be reallocated to other eligible employees as determined by us. The incentive plan target is expressed in months of salary, and the final amount payable is computed based on a percentage of compliance with the goals established every year.

All shares held in the Administrative Trust are considered outstanding for diluted earnings per share purposes, and dividends on shares held by the trusts are charged to retained earnings.

As of April 16, 2018, the trust that manages the EVA stock incentive plan held a total of 2,436,570 BD Units of FEMSA and 809,707 Series L Shares of Coca-Cola FEMSA, each representing 0.07% and 0.04% of the total number of shares outstanding of FEMSA and of Coca-Cola FEMSA, respectively.

Insurance Policies

We maintain life insurance policies for all of our employees. These policies mitigate the risk of having to pay benefits in the event of an industrial accident, natural or accidental death within or outside working hours and total and permanent disability. We maintain a directors' and officers' insurance policy covering all directors and certain key executive officers for liabilities incurred in their capacities as directors and officers.

Ownership by Management

Several of our directors are participants of a voting trust. Each of the trust participants of the voting trust is deemed to have beneficial ownership with shared voting power over the shares deposited in the voting trust. As of March 30, 2018, 6,922,159,485 Series B Shares representing 74.86% of the outstanding Series B Shares were deposited in the voting trust. See **Item 7. Major Shareholders and Related Party Transactions.**

The following table shows the Series B Shares, Series D-B Shares and Series D-L Shares as of March 16, 2018 beneficially owned by our directors and alternate directors who are participants in the voting trust, other than shares deposited in the voting trust:

Beneficial Owner	Series B		Series D-B		Series D-L	
	Shares	Percent of Class	Shares	Percent of Class	Shares	Percent of Class
Eva María Garza Lagüera Gonda	2,769,980	0.03%	5,470,960	0.13%	5,470,960	0.13%
Mariana Garza Lagüera Gonda	2,875,895	0.03%	5,751,790	0.13%	5,751,790	0.13%
Bárbara Garza Lagüera Gonda	2,665,480	0.03%	5,330,960	0.12%	5,330,960	0.12%
Paulina Garza Lagüera Gonda	2,665,480	0.03%	5,330,960	0.12%	5,330,960	0.12%
Alberto Bailleres González	9,610,577	0.10%	11,934,874	0.28%	11,934,874	0.28%
Alfonso Garza Garza	899,725	0.01%	1,751,050	0.04%	1,751,050	0.04%
Juan Carlos Garza Garza	18,200	0.0%		0.0%		0.0%
Max Michel González	5,675	0.0%	11,350	0.0%	11,350	0.0%
Francisco José Calderón Rojas and José Fernando Calderón Rojas ⁽¹⁾	8,317,629	0.09%	16,558,258	0.38%	16,558,258	0.38%
Juan Guichard Michel	9,117,131	0.10%	402	0.0%	402	0.0%

(1) Shares beneficially owned through various family-controlled entities.

To our knowledge, no other director or officer is the beneficial owner of more than 1% of any class of our capital stock.

Board Practices

Our bylaws state that the board of directors will meet at least once every three months following the end of each quarter to discuss our operating results and the advancement of strategic objectives. Our board of directors can also hold extraordinary meetings. See **Item 10. Additional Information Bylaws.**

Under our bylaws, directors serve one-year terms, although they continue in office even after the term for which they were appointed ends for up to 30 calendar days, as set forth in article 24 of Mexican Securities Law. None of our directors or senior managers of our subsidiaries has service contracts providing for benefits upon termination of employment, other than post-retirement medical services plans and post-retirement pension plans for our senior managers on the same basis as our other employees.

Our board of directors is supported by committees, which are working groups that analyze issues and provide recommendations to the board of directors regarding their respective areas of focus. The executive officers interact periodically with these committees to address management issues. Each committee has a secretary who attends meetings but is not a member of the committee. The following are the three committees of the board of directors, the members of which were elected at our AGM on March 16, 2018:

Audit Committee. The Audit Committee is responsible for (1) reviewing the accuracy and integrity of quarterly and annual financial statements in accordance with accounting, internal control and auditing requirements, (2) the appointment, compensation, retention and oversight of the independent auditor, who reports directly to the Audit Committee and (3) identifying and following-up on contingencies and legal proceedings. The Audit Committee has implemented procedures for receiving, retaining and addressing complaints regarding accounting, internal control and auditing matters, including the submission of confidential, anonymous complaints from employees regarding questionable accounting or auditing matters. Pursuant to the Mexican Securities Law, the chairman of the audit committee is elected by the shareholders at the AGM. The chairman of the Audit Committee submits a quarterly and an annual report to the board of directors of the Audit Committee's activities performed during the corresponding fiscal year, and the annual report is submitted at the AGM for approval. To carry out its duties, the Audit Committee may hire independent counsel and other advisors. As necessary, the company compensates the independent auditor and any outside advisor hired by the Audit Committee and provides funding for ordinary administrative expenses incurred by the Audit Committee in the course of its duties. The current Audit Committee members are: José Manuel Canal Hernando (chairman), Alfonso González Migoya, Francisco Zambrano Rodríguez, Ernesto Cruz Velázquez de León, and Víctor Alberto Tiburcio Celorio (financial expert). Each member of the Audit Committee is an independent director, as required by the Mexican Securities Law and applicable U.S. Securities Laws and applicable NYSE listing standards. The secretary (non-member) of the Audit Committee is José González Ornelas, FEMSA's Vice President of Administration and Corporate Control.

Strategy and Finance Committee. The Strategy and Finance Committee's responsibilities include (1) evaluating the investment and financing policies of our company; (2) evaluating the risk factors to which the company is exposed, as well as evaluating its management policies; (3) making recommendations on our dividend policy; (4) strategic analysis and assessment of our business units and strategic alternatives for their growth and (5) making recommendations to our board of directors on annual operation plans and strategic projects for our business units. The current Strategy and Finance Committee members are: Ricardo Guajardo Touché (chairman), Federico Reyes García, Robert E. Denham, Francisco Javier Fernández Carbajal, Enrique F. Senior Hernández, José Antonio Fernández Carbajal, Ricardo Saldívar Escajadillo and Javier Gerardo Astaburuaga Sanjines. The secretary (non-member) of the Strategy and Finance Committee is Martín Felipe Arias Yaniz.

Corporate Practices Committee. The Corporate Practices Committee is responsible for preventing or reducing the risk of performing operations that could damage the value of our company or that benefit a particular group of shareholders. The committee may call a shareholders' meeting and include matters on the agenda for that meeting that it may deem appropriate, approve policies on the use of our company's assets or related-party transactions, approve the compensation of the Chief Executive Officer and relevant officers and support our board of directors in the elaboration of reports on accounting practices. Pursuant to the Mexican Securities Law, the chairman of the Corporate Practices Committee is elected by the shareholders at the AGM. The chairman of the Corporate Practices Committee submits a quarterly and an annual report to the board of directors of the Corporate Practices Committee's activities performed during the corresponding fiscal year, and the annual report is submitted at the AGM for approval. The members of the Corporate Practices Committee are: Ricardo Saldívar Escajadillo (chairman), Robert E. Denham, Moisés Naim and Ricardo Guajardo Touché. Each member of the Corporate Practices Committee is an independent director. The secretary (non-member) of the Corporate Practices Committee is Raymundo Yutani Vela.

Employees

As of December 31, 2017, our headcount by geographic region was as follows: 210,071 in Mexico, 6,924 in Central America, 12,559 in Colombia, 5,519 in Venezuela, 27,205 in Brazil, 2,728 in Argentina, 1,413 in the United States, 21 in Ecuador, 25 in Peru, 11,996 in Chile and 16,566 in Philippines. We include in the headcount employees of third-party distributors and non-management store employees. The table below sets forth headcount for the years ended December 31, 2017, 2016 and 2015:

Headcount for the Year Ended December 31,

	2017			2016			2015		
	Non-Union	Union	Total	Non-Union	Union	Total	Non-Union	Union	Total
Sub-holding company:									
Coca-Cola FEMSA ⁽¹⁾	45,111	56,575	101,686	34,010	51,135	85,145	33,857	49,855	83,712
FEMSA Comercio									
Retail Division ⁽¹⁾⁽²⁾	70,462	63,709	134,171	69,698	55,468	125,166	72,453	41,251	113,704
Fuel Division ⁽¹⁾	798	5,041	5,839	737	4,622	5,359	625	3,926	4,551
Health Division ⁽¹⁾	3,211	18,282	21,493	3,464	17,782	21,246	4,619	15,425	20,044
Other ⁽¹⁾	13,459	18,379	31,838	11,790	17,438	29,228	11,070	13,077	24,147
Total	133,041	161,986	295,097	119,699	146,445	266,144	122,624	123,534	246,158

(1) Includes employees of third-party distributors, whom we do not consider to be our employees, amounting to 15,917, 8,745 and 9,859 in 2017, 2016 and 2015.

(2) Includes non-management store employees, whom we do not consider to be our employees, amounting to 57,321, 58,116 and 55,464 in 2017, 2016 and 2015.

As of December 31, 2017, our subsidiaries had entered 724 collective bargaining or similar agreements with personnel employed at our operations. Each of the labor unions in Mexico is associated with one of eight different national Mexican labor organizations. In general, we have a good relationship with the labor unions throughout our operations, but we also operate in complex labor environments, such as Venezuela and Argentina. The agreements applicable to our Mexican operations generally have an indefinite term and provide for an annual salary review and for review of other terms and conditions, such as fringe benefits, every two years.

The table below sets forth the number of collective bargaining agreements and unions for our employees:

Collective Bargaining Labor Agreements between

Sub-holding Companies and Unions

As of December 31, 2017

Sub-holding Company	2017	
	Collective Bargaining Agreements	Labor Unions
Coca-Cola FEMSA	298	164
FEMSA Comercio ⁽¹⁾	178	13
Others	248	102
Total	724	279

(1) Does not include non-management store employees, who are employed directly by each individual store.

ITEM 7. MAJOR SHAREHOLDERS AND RELATED PARTY TRANSACTIONS**Major Shareholders**

The following table identifies each owner of more than 5% of any class of our shares known to the company as of March 16, 2018. Except as described below, we are not aware of any holder of more than 5% of any class of our shares. Only the Series B Shares have full voting rights under our bylaws.

Ownership of Capital Stock as of March 16, 2018

Shareholder	Series B Shares ⁽¹⁾		Series D-B Shares ⁽²⁾		Series D-L Shares ⁽³⁾		Total Shares of FEMSA Capital Stock
	Shares Owned	Percent of Class	Shares Owned	Percent of Class	Shares Owned	Percent of Class	
Technical Committee and Trust Participants under the Voting Trust ⁽⁴⁾	6,922,159,485	74.86%					38.69%
William H. Gates III ⁽⁵⁾	278,873,490	3.02%	557,746,980	12.9%	557,746,980	12.9%	7.79%

(1) As of March 16, 2018, there were 2,161,177,770 Series B Shares outstanding.

(2) As of March 16, 2018, there were 4,322,355,540 Series D-B Shares outstanding.

(3) As of March 16, 2018, there were 4,322,355,540 Series D-L Shares outstanding.

(4) As a consequence of the voting trust's internal procedures, the following trust participants are deemed to have beneficial ownership with shared voting power over those same deposited shares: BBVA Bancomer, S.A., as Trustee under Trust No. F/25078-7 (controlled by the estate of Max Michel Suberville), J.P. Morgan Trust Company (New Zealand) Limited as Trustee under a trust controlled by Paulina Garza Lagüera Gonda, Max Brittingham, Maia Brittingham, Bárbara Garza Lagüera Gonda, Bárbara Braniff Garza Lagüera, Eugenia Braniff Garza Lagüera, Lorenza Braniff Garza Lagüera, Mariana Garza Lagüera Gonda, Paula Treviño Garza Lagüera, Inés Treviño Garza Lagüera, Eva María Garza Lagüera Gonda, Eugenio Fernández Garza Lagüera, Daniela Fernández Garza Lagüera, Eva María Fernández Garza Lagüera, José Antonio Fernández Garza Lagüera, Eva Gonda Rivera, Inversiones Bursátiles Industriales, S.A. de C.V. (controlled by the Garza Lagüera family), Consuelo Garza Lagüera de Garza, Alfonso Garza Garza, Juan Pablo Garza García, Alfonso Garza García, María José Garza García, Eugenia María Garza García, Patricio Garza Garza, Viviana Garza Zambrano, Patricio Garza Zambrano, Marigel Garza Zambrano, Ana Isabel Garza Zambrano, Juan Carlos Garza Garza, José Miguel Garza Celada, Gabriel Eugenio Garza Celada, Ana Cristina Garza Celada, Juan Carlos Garza Celada, Eduardo Garza Garza, Eduardo Garza Páez, Balbina Consuelo Garza Páez, Eugenio Andrés Garza Páez, Eugenio Garza Garza, Camila Garza Garza, Ana Sofía Garza Garza, Celina Garza Garza, Marcela Garza Garza, Carolina Garza Villarreal, Alepage, S.A. (controlled by Consuelo Garza Lagüera de Garza), Alberto Bailleres González, María Teresa Gual de Bailleres, Corbal, S.A. de C.V. (controlled by Alberto Bailleres González), BBVA Bancomer, S.A., as Trustee under Trust No. F/29490-0 (controlled by Alberto, Susana and Cecilia Bailleres), Magdalena Michel de David, the estate of Max Michel Suberville, Max David Michel, Juan David Michel, Monique David de VanLathem, Renee Michel de Guichard, Magdalena Guichard Michel, Rene Guichard Michel, Miguel Guichard Michel, Graciano Guichard Michel, Juan Guichard Michel, BBVA Bancomer, S.A., as Trustee under Trust No. F/710004 (controlled by Magdalena Michel de David), BBVA Bancomer, S.A., as Trustee under Trust No. F/700005 (controlled by Renee Michel de Guichard), Franca Servicios, S.A. de C.V. (controlled by the Calderón Rojas family), and BBVA Bancomer, S.A. as Trustee under Trust No. F/29013-0 (controlled by the Calderón Rojas family).

(5) Includes aggregate shares beneficially owned by Cascade Investments, LLC, over which William H. Gates III has sole voting and dispositive power.

(6) As reported on Schedule 13G filed on February 6, 2018 by Standard Life Aberdeen PLC.

As of March 31, 2018, there were 39 holders of record of ADSs in the United States, which represented approximately 48.76% of our outstanding BD Units. Since a substantial number of ADSs are held in the name of nominees of the beneficial owners, including the nominee of The Depository Trust Company, the number of beneficial owners of ADSs is substantially greater than the number of record holders of these securities.

Related-Party Transactions**Voting Trust**

The trust participants, who are our major shareholders, agreed on May 6, 1998 to deposit a majority of their shares, which we refer to as the trust assets, of FEMSA into the voting trust, and later entered into an amended agreement on August 8, 2005, following the substitution by Banco Invex, S.A. as trustee to the voting trust, which agreement was subsequently renewed on March 15, 2013. The primary purpose of the voting trust is to permit the trust assets to be voted as a block, in accordance with the instructions of the technical committee of the voting trust. The trust participants are separated into seven trust groups, and the technical committee comprises one representative appointed by each trust group. The number of B Units corresponding with each trust group (the proportional share of the shares deposited in the trust of such group) determines the number of votes that each trust representative has on the technical committee. Most matters are decided by a simple majority of the trust assets.

The trust participants agreed to certain transfer restrictions with respect to the trust assets. The trust is irrevocable, for a term that will conclude on January 17, 2020 (subject to additional five-year renewal terms), during which time trust assets may be transferred by trust participants to spouses and immediate family members and, subject to certain conditions, to companies that are 100% owned by trust participants, which we refer to as the permitted transferees, provided in all cases that the transferee agrees to be bound by the terms of the voting trust. In the event that a trust participant wishes to sell part of its trust assets to someone other than a permitted transferee, the other trust participants have a right of first refusal to purchase the trust assets that the trust participant wishes to sell. If none of the trust participants elects to acquire the trust assets from the selling trust participant, the technical committee will have a right to nominate (subject to the approval of technical committee members representing 75% of the trust assets, excluding trust assets that are the subject of the sale) a purchaser for such trust assets. In the event that none of the trust participants or a nominated purchaser elects to acquire trust assets, the selling trust participant will have the right to sell the trust assets to a third-party on the same terms and conditions that were offered to the trust participants. Acquirors of trust assets will only be permitted to become parties to the voting trust upon the affirmative vote by the technical committee of at least 75% of the trust shares, which must include trust shares represented by at least three trust group representatives. In the event that a trust participant holding a majority of the trust assets elects to sell its trust assets, the other trust participants have tag along rights that will enable them to sell their trust assets to the acquiror of the selling trust participant's trust assets.

Because of their ownership of a majority of the Series B Shares, the trust participants may be deemed to control our company. Other than as a result of their ownership of the Series B Shares, the trust participants do not have any voting rights that are different from those of other shareholders.

Interest of Management in Certain Transactions

The following is a summary of: (i) the main transactions we have entered into with entities for which members of our board of directors or management serve as a member of the board of directors or management, (ii) the main transactions our subsidiaries have entered into with entities for which members of their board of directors or management serve as members of the board of directors or management, and (iii) the main transactions our subsidiaries have entered into with related entities. Each of these transactions was entered into in the ordinary course of business, and we believe each is on terms comparable to those that could be obtained in arm's length negotiations with unaffiliated third parties. Under our bylaws, transactions entered with related parties not in the ordinary course of business are subject to the approval of our board of directors, subject to the prior opinion of the corporate practices committee.

José Antonio Fernández Carbajal, our Executive Chairman of the Board, serves as a member of the Heineken Holding Board and the Heineken Supervisory Board. Javier Astaburuaga Sanjines, our Vice President of Corporate Development, also serves on the Heineken Supervisory Board. We made purchases of beer and raw materials in the ordinary course of business from the Heineken Group in the amount of Ps. 24,942 million in 2017, Ps. 16,436 million in 2016 and Ps. 14,467 million in 2015. We also supplied logistics and administrative services to subsidiaries of Heineken for a total of Ps. 3,570 million in 2017, Ps. 3,153 in 2016 and Ps. 3,396 million in 2015. As of the end of December 31, 2017, 2016 and 2015, our net balance due to Heineken amounted to Ps. 1,730, Ps. 1,836 and Ps. 849 million, respectively.

We, along with certain of our subsidiaries, regularly engage in financing and insurance coverage transactions, including entering into loans and bond offerings in the local capital markets, with subsidiaries of Grupo Financiero BBVA Bancomer, a financial services holding company of which Alberto Bailleres González, Ricardo Guajardo Touché, Carlos Salazar Lomelín and Arturo Fernández Pérez who are also directors or alternate directors of FEMSA or Coca-Cola FEMSA, are directors, and for which José Manuel Canal Hernando, also a director of FEMSA and Coca-Cola FEMSA, serves as Statutory Auditor. We made interest expense payments and fees paid to Grupo Financiero BBVA Bancomer in respect of these transactions of Ps. 40 million, Ps. 26 million and Ps. 68 million as of December 31, 2017, 2016 and 2015, respectively. The total amount due to Grupo Financiero BBVA Bancomer as of the end of December 31, 2017, 2016 and 2015 was Ps. 352 million, Ps. 395 million and Ps. 292 million, respectively, and we also had a receivable balance with Grupo Financiero BBVA Bancomer of Ps. 1,496 million, Ps. 2,535 million and Ps. 2,683 million, respectively, as of December 31, 2017, 2016 and 2015.

Until 2015, we maintained an insurance policy covering utility cars issued by GNP, an insurance company of which Alberto Bailleres González, director of FEMSA, Maximino Michel González, director of FEMSA and alternate director of Coca-Cola FEMSA, Arturo Fernández Pérez, alternate director of FEMSA, Víctor Alberto Tiburcio Celorio, alternate director of FEMSA and Coca-Cola FEMSA and Alejandro Bailleres Gual, alternate director of Coca-Cola FEMSA, are directors. The aggregate amount of premiums paid under the policy was Ps. 32 million, Ps. 63 million and Ps. 58 million in 2017, 2016 and 2015, respectively.

We, along with certain of our subsidiaries, spent Ps. 107 million, Ps. 193 million and Ps. 175 million in the ordinary course of business in 2017, 2016 and 2015, respectively, in publicity and advertisement purchased from Televisa, a media corporation in which our directors José Antonio Fernández Carbajal, Alberto Bailleres González and Alfonso de Angoitia Noriega, our alternate director and director of Coca-Cola FEMSA, Enrique F. Senior Hernández and alternate director of Coca-Cola FEMSA, Herbert A. Allen III, serve as directors.

FEMSA Comercio, in its ordinary course of business, purchased Ps. 4,802 million, Ps. 4,184 million and Ps. 3,740 million in 2017, 2016 and 2015, respectively, in baked goods and snacks for its stores from subsidiaries of Bimbo, of which Ricardo Guajardo Touché, one of FEMSA's directors, Arturo Fernández Pérez, one of FEMSA's alternate directors, Daniel Servitje Montull, one of Coca-Cola FEMSA's directors, and Jaime A. El Koury, one of Coca-Cola FEMSA's alternate directors, are directors. FEMSA Comercio also purchased Ps. 1,290 million, Ps. 871 million and 947 million in 2017, 2016 and 2015, respectively, in juices from subsidiaries of Jugos del Valle.

José Antonio Fernández Carbajal, Eva Maria Garza Lagüera Gonda, Mariana Garza Lagüera Gonda, Ricardo Guajardo Touché, Alfonso Garza Garza, Alfonso González Migoya, Ricardo Saldívar Escajadillo and Armando Garza Sada, who are directors or alternate directors of FEMSA or Coca-Cola FEMSA, are also members of the board of directors of ITESM, also, Carlos Aldrete Ancira, Secretary of the Board of Directors of FEMSA and Coca-Cola FEMSA, is alternate secretary of the board of directors of ITESM, which is a prestigious university system with headquarters in Monterrey, Mexico that routinely receives donations from FEMSA and its subsidiaries. For the years ended December 31, 2017, 2016 and 2015 donations to ITESM amounted to Ps. 108 million, Ps. 1 million and Ps. 42 million, respectively.

José Antonio Fernández Carbajal, Carlos Salazar Lomelín, Alfonso Garza Garza, Federico Reyes Garcia, Javier Astaburuaga Sanjines, Miguel Eduardo Padilla Silva, Genaro Borrego Estrada, José González Ornelas, John Anthony Santa Maria Otazua, Charles H. McTier, Carlos Aldrete Ancira and Daniel Alberto Rodríguez Cofré, who are directors, alternate directors or senior officers of FEMSA or Coca-Cola FEMSA, are also members of the board of directors of Fundación FEMSA, A.C., which is a social investment instrument for communities in Latin America. For the years ended December 31, 2017, 2016 and 2015, donations to Fundación FEMSA, A.C. amounted to Ps. 23 million, Ps. 62 million and Ps. 30 million, respectively.

Business Transactions between Coca-Cola FEMSA, FEMSA and The Coca-Cola Company

Coca-Cola FEMSA regularly engages in transactions with The Coca-Cola Company and its affiliates. Coca-Cola FEMSA purchases all of its concentrate requirements for *Coca-Cola* trademark beverages from The Coca-Cola Company. Total expenses charged to Coca-Cola FEMSA by The Coca-Cola Company for concentrates were approximately Ps. 33,898 million, Ps. 38,146 million and Ps. 27,330 million in 2017, 2016 and 2015, respectively. Coca-Cola FEMSA and The Coca-Cola Company pay and reimburse each other for marketing expenditures. The Coca-Cola Company also contributes to Coca-Cola FEMSA's coolers, bottles and case investment program. Coca-Cola FEMSA received contributions to its marketing expenses of Ps. 4,023 million, Ps. 4,518 million and Ps. 3,749 million in 2017, 2016 and 2015, respectively.

In December 2007 and May 2008, Coca-Cola FEMSA sold most of its proprietary brands to The Coca-Cola Company. The proprietary brands are licensed back to Coca-Cola FEMSA by The Coca-Cola Company pursuant to its bottler agreements.

In Argentina, Coca-Cola FEMSA purchases plastic preforms, as well as returnable plastic bottles, at competitive prices from Andina Empaques S.A., a local subsidiary of Embotelladora Andina S.A., a bottler of The Coca-Cola Company with operations in Argentina, Chile, Brazil and Paraguay in which The Coca-Cola Company has a substantial interest.

In November 2007, Coca-Cola FEMSA acquired together with The Coca-Cola Company 100.0% of the shares of capital stock of Jugos del Valle. Jugos del Valle sells fruit juice-based beverages and fruit derivatives. The business of Jugos del Valle in the United States was acquired and sold by The Coca-Cola Company. In 2008, Coca-Cola FEMSA, The Coca-Cola Company and all Mexican and Brazilian *Coca-Cola* bottlers entered into a joint business for the Mexican and Brazilian operations, respectively, of Jugos del Valle. As of April 13, 2018, Coca-Cola FEMSA held an interest of 26.3% in the Mexican joint business. The aggregate amount of these purchases was Ps. 2,604 million, Ps. 2,428 million and Ps. 2,135 million in 2017, 2016 and 2015, respectively, which principally related to certain juice-based beverages that are part of our product portfolio.

In August 2010, Coca-Cola FEMSA acquired from The Coca-Cola Company, along with other Brazilian *Coca-Cola* bottlers, Leão Alimentos, manufacturer and distributor of the *Matte Leão* tea brand. In January 2013, our Brazilian joint business of Jugos del Valle merged with Leão Alimentos. As of April 13, 2018, Coca-Cola FEMSA held a 24.4% indirect interest in the *Matte Leão* business in Brazil. Coca-Cola FEMSA purchases products from Leão Alimentos. The aggregate amount of these purchases was Ps. 4,010 million, Ps. 3,448 million and Ps. 3,359 million in 2017, 2016 and 2015, respectively, which principally related to certain juice-based beverages and tea that are part of our product portfolio.

In February 2009, Coca-Cola FEMSA acquired together with The Coca-Cola Company the *Brisa* bottled water business in Colombia from Bavaria, S.A. a subsidiary of SABMiller plc. Coca-Cola FEMSA acquired the production assets and the distribution territory, and The Coca-Cola Company acquired the *Brisa* brand. Following a transition period, in June 2009, Coca-Cola FEMSA started to sell and distribute the *Brisa* portfolio of products in Colombia.

In May 2009, Coca-Cola FEMSA entered into an agreement to begin selling the *Crystal* trademark water products in Brazil jointly with The Coca-Cola Company.

In March 2011, Coca-Cola FEMSA acquired, together with The Coca-Cola Company, through Compañía Panameña de Bebidas, S.A.P.I. de C.V., Estrella Azul, a Panamanian conglomerate that participates in the dairy and juice-based beverage categories in Panama. Coca-Cola FEMSA continues to develop this business with The Coca-Cola Company.

In August 2012, Coca-Cola FEMSA acquired, through Jugos del Valle, an indirect minority participation in Santa Clara, a producer of milk and dairy products in Mexico. As of April 13, 2018, Coca-Cola FEMSA owned an indirect participation of 26.3% in Santa Clara.

In January 2013, as part of Coca-Cola FEMSA's efforts to expand its geographic reach, Coca-Cola FEMSA acquired a 51.0% non-controlling majority stake in KOF Philippines from The Coca-Cola Company. Coca-Cola FEMSA has an option to acquire the remaining 49.0% stake in KOF Philippines at any time through January 2020. Coca-Cola FEMSA also has a put option to sell its ownership in KOF Philippines to The Coca-Cola Company during the period from January 2018 through January 2019. Since January 25, 2017, Coca-Cola FEMSA controls KOF Philippines as all decisions relating to the day-to-day operation and management of KOF Philippines's business, including its annual normal operations plan, are approved by a majority of its board of directors without requiring the affirmative vote of any director appointed by The Coca-Cola Company. The Coca-Cola Company has the right to appoint (and may remove) KOF Philippines's chief financial officer. Coca-Cola FEMSA has the right to appoint (and may remove) the chief executive officer and all other officers of KOF Philippines.

In August 2016, Coca-Cola FEMSA acquired through Leão Alimentos an indirect participation in Laticínios Verde Campo Ltda., a producer of milk and dairy products in Brazil.

In March 2017, Coca-Cola FEMSA acquired, through its Mexican, Brazilian, Argentine, and Colombian subsidiaries and also through its interest in Jugos del Valle in Mexico, a participation in the AdeS soy-based beverage businesses. As a result of this acquisition, Coca-Cola FEMSA has exclusive distribution rights of AdeS soy-based beverages in Coca-Cola FEMSA's territories in these countries.

ITEM 8. FINANCIAL INFORMATION

Consolidated Financial Statements

See pages F-1 through F-117, incorporated herein by reference.

Dividend Policy

For a discussion of our dividend policy, See **Item 3. Key Information Dividends** and **Item 10. Additional Information**.

Legal Proceedings

We are party to various legal proceedings in the ordinary course of business. Other than as disclosed in this annual report, we are not currently involved in any litigation or arbitration proceeding, including any proceeding that is pending or threatened of which we are aware, which we believe will have, or has had, a material adverse effect on our company. Other legal proceedings that are pending against or involve us and our subsidiaries are incidental to the conduct of our and their business. We believe that the ultimate resolution of such other proceedings individually or on an aggregate basis will not have a material adverse effect on our consolidated financial condition or results.

Coca-Cola FEMSA

Mexico

Antitrust Matters. During 2000, the COFECE, motivated by complaints filed by PepsiCo and certain of its bottlers in Mexico, began an investigation of The Coca-Cola Company Export Corporation and the Mexican *Coca-Cola* bottlers for alleged monopolistic practices through exclusivity arrangements with certain retailers. Nine of Coca-Cola FEMSA's Mexican subsidiaries, including those acquired through its merger with Grupo Tampico, Grupo CIMSA and Grupo Fomento Queretano, were involved in this matter. After the corresponding legal proceedings in 2008, a Mexican Federal Court rendered an adverse judgment against three of Coca-Cola FEMSA's nine Mexican subsidiaries involved in the proceedings, upholding a fine of approximately Ps. 10.5 million imposed by COFECE on each of the three subsidiaries and ordering the immediate suspension of such practices of alleged exclusivity arrangements and conditional dealings. On August 7, 2012, a Federal Court dismissed and denied an appeal that Coca-Cola FEMSA filed on behalf of one of its subsidiaries after the merger with Grupo Fomento Queretano, which had received an adverse judgment. Coca-Cola FEMSA filed a motion for reconsideration on September 12, 2012, which was resolved on March 22, 2013 confirming the Ps. 10.5 million fine imposed by the COFECE. With respect to the complaints against the remaining six subsidiaries, a favorable resolution was issued in the Mexican Federal Courts and, consequently, the COFECE withdrew the fines and ruled in favor of six of our subsidiaries on the grounds of insufficient evidence to prove individual and specific liability in the alleged antitrust violations.

In addition, among the companies involved in the 2000 complaint filed by PepsiCo and other bottlers in Mexico, were some of Coca-Cola FEMSA's less significant subsidiaries acquired with the Grupo Yoli merger. On June 30, 2005, the COFECE imposed a fine on one of our subsidiaries for approximately Ps. 10.5 million. A motion for reconsideration on this matter was filed on September 21, 2005, which was resolved by the COFECE confirming the original resolution on December 1, 2005. A constitutional challenge (*amparo*) was filed against said resolution and a Federal Court issued a favorable resolution in our benefit. Both the COFECE and PepsiCo filed appeals against said resolution and a Circuit Court in Acapulco, Guerrero resolved to request the COFECE to issue a new resolution regarding the Ps. 10.5 million fine. COFECE then fined our subsidiary again, for the same amount. A new *amparo* claim was filed against said resolution. On May 17, 2012, such new *amparo* claim was resolved, again in favor of one of Coca-Cola FEMSA's subsidiaries, requesting the COFECE to recalculate the amount of the fine. The COFECE maintained the amount of the fine in a new resolution which Coca-Cola FEMSA challenged through a new *amparo* claim filed on July 31, 2013 before a District Judge in Acapulco, Guerrero and is still awaiting final resolution.

In June and July 2010, Ajemex, S.A. de C.V., or Ajemex, filed two complaints with the COFECE against The Coca-Cola Export Corporation and certain *Coca-Cola* bottlers, including Coca-Cola FEMSA, alleging the continued performance of monopolistic practices in breach of COFECE's resolution dated June 30, 2005. On January 23, 2015, The Coca-Cola Export Corporation and the *Coca-Cola* bottlers provided evidence to COFECE against these allegations. The COFECE ruled upon these proceedings in favor of The Coca-Cola Export Corporation and the *Coca-Cola* bottlers. On April 6, 2015, Ajemex filed an *amparo* claim against said resolution, which was dismissed and denied by a Federal District Judge. No further action was pursued by Ajemex, and the resolution became final.

Brazil

In July 2017, Heineken Brazil issued a notice of termination with respect to the agreement under which Coca-Cola FEMSA distributes and sells *Heineken* beer products in Coca-Cola FEMSA's Brazilian territories. Because the agreement is scheduled to expire in 2022, this dispute was submitted to an arbitration proceeding. Coca-Cola FEMSA continues to operate and Heineken Brazil continues to be obligated to perform under this agreement while the proceedings are ongoing. An unfavorable outcome in this proceeding would result in the termination of the agreement, causing a significant impact on Coca-Cola FEMSA's operations in Brazil.

Significant Changes

Except as disclosed under "Recent Developments" in Item 5, no significant changes have occurred since the date of the annual financial statements included in this annual report.

ITEM 9. THE OFFER AND LISTING

Description of Securities

We have three series of capital stock, each with no par value:

Series B Shares (Series B Shares);

Series D-B Shares (Series D-B Shares); and

Series D-L Shares (Series D-L Shares).

Series B Shares have full voting rights, and Series D-B and D-L Shares have limited voting rights. The shares of our company are not separable and may be transferred only in the following forms:

B Units, consisting of five Series B Shares; and

BD Units, consisting of one Series B Share, two Series D-B Shares and two Series D-L Shares.

At our AGM held on March 29, 2007, our shareholders approved a three-for-one stock split in respect all of our outstanding capital stock, which became effective in May 2007. Following the stock split, our total capital stock consists of 2,161,177,770 BD Units and 1,417,048,500 B Units. Our stock split also resulted in a three-for-one stock split of our ADSs. The stock-split was conducted on a pro-rata basis in respect of all holders of our shares and all ADS holders of record as of May 25, 2007, and the ratio of voting and non-voting shares was maintained, thereby preserving our ownership structure as it was prior to the stock-split.

On April 22, 2008, FEMSA shareholders approved a proposal to amend our bylaws in order to preserve the unit structure for our shares that has been in place since May 1998, and to maintain our existing share structure beyond May 11, 2008, absent further shareholder action.

Previously, our bylaws provided that on May 11, 2008, each Series D-B Share would automatically convert into one Series B Share with full voting rights, and each Series D-L Share would automatically convert into one Series L Share with limited voting rights. At that time:

the BD Units and the B Units would cease to exist and the underlying Series B Shares and Series L Shares would be separate; and

the Series B Shares and Series L Shares would be entitled to share equally in any dividend, and the dividend preferences of the Series D-B Shares and Series D-L Shares of 125% of any amount distributed in respect of each Series B Share existing prior to May 11, 2008, would be terminated.

However, following the April 22, 2008 shareholder approvals, these changes will no longer occur and instead our share and unit structure will remain unchanged, absent shareholder action, as follows:

the BD Units and the B Units will continue to exist; and

the dividend preferences of the Series D-B Shares and Series D-L Shares of 125% of any amount distributed in respect of each Series B Share will continue to exist.

The following table sets forth information regarding our capital stock as of March 16, 2018:

Class	Number	Percentage of Capital	Percentage of Full Voting Rights
Series B Shares (no par value)	9,246,420,270	51.68%	100.00%
Series D-B Shares (no par value)	4,322,355,540	24.16%	0.00%
Series D-L Shares (no par value)	4,322,355,540	24.16%	0.00%
Total Shares	17,891,131,350	100.00%	100.00%
Units			
BD Units	2,161,177,770	60.40%	23.47%
B Units	1,417,048,500	39.60%	76.63%
Total Units	3,578,226,270	100.00%	100.00%

Trading Markets

Since May 11, 1998, ADSs representing BD Units have been listed on the NYSE, and the BD Units and the B Units have been listed on the Mexican Stock Exchange. Each ADS represents 10 BD Units deposited under the deposit agreement with the ADS depository. As of March 30, 2018, approximately 48.76% of BD Units traded in the form of ADSs.

The NYSE trading symbol for the ADSs is **FMX** and the Mexican Stock Exchange trading symbols are **FEMSA UBD** for the BD Units and **FEMSA UB** for the B Units.

Fluctuations in the exchange rate between the Mexican peso and the U.S. dollar have affected the U.S. dollar equivalent of the Mexican peso price of our shares on the Mexican Stock Exchange and, consequently, have also affected the market price of our ADSs. See **Item 3. Key Information Exchange Rate Information.**

Trading on the Mexican Stock Exchange

The Mexican Stock Exchange, located in Mexico City, is currently the only stock exchange in Mexico. Founded in 1907, it is organized as a *sociedad anónima bursátil de capital variable*. Trading on the Mexican Stock Exchange takes place principally through automated systems and is open between the hours of 9:30 a.m. and 4:00 p.m. Eastern Time, each business day. Trades in securities listed on the Mexican Stock Exchange can also be effected off the exchange. The Mexican Stock Exchange operates a system of automatic suspension of trading in shares of a particular issuer as a means of controlling excessive price volatility, but under current regulations this system does not apply to securities such

Edgar Filing: MEXICAN ECONOMIC DEVELOPMENT INC - Form 20-F

as the BD Units that are directly or indirectly (for example, in the form of ADSs) quoted on a stock exchange (including for these purposes the NYSE) outside Mexico.

Settlement is effected three business days after a share transaction on the Mexican Stock Exchange. Deferred settlement, even by mutual agreement, is not permitted without the approval of the *Comisión Nacional Bancaria y de Valores*, or CNBV. Most securities traded on the Mexican Stock Exchange, including ours, are on deposit with *S.D. Indeval Institución para el Depósito de Valores S.A. de C.V.*, which we refer to as Indeval, a privately owned securities depository that acts as a clearinghouse for Mexican Stock Exchange transactions.

Price History

The following tables set forth, for the periods indicated, the reported high, low and closing sale prices and the average daily trading volumes for the B Units and BD Units on the Mexican Stock Exchange and the reported high, low and closing sale prices and the average daily trading volumes for the ADSs on the NYSE.

	B Units ⁽¹⁾				Average Daily Trading Volume (Units)
	Nominal pesos			Close US\$ ⁽⁴⁾	
	High ⁽²⁾	Low ⁽²⁾	Close ⁽³⁾		
2013	126.00	99.00	106.00	8.09	47,136

ITEM 10. ADDITIONAL INFORMATION

Bylaws

The following is a summary of the material provisions of our bylaws and applicable Mexican law. Our bylaws were last amended on April 22, 2008. For a description of the provisions of our bylaws relating to our board of directors and executive officers, see **Item 6. Directors, Senior Management and Employees.**

Organization and Registry

We are a *sociedad anónima bursátil de capital variable* organized in Mexico under the *Ley General de Sociedades Mercantiles* (Mexican General Corporations Law) and the Mexican Securities Law. We were incorporated in 1936 under the name Valores Industriales, S.A., as a *sociedad anónima*, and are currently named Fomento Económico Mexicano, S.A.B. de C.V. We are registered in the *Registro Público de la Propiedad y del Comercio* (Public Registry of Property and Commerce) of Monterrey, Nuevo León.

Voting Rights and Certain Minority Rights

Each Series B Share entitles its holder to one vote at any of our ordinary or extraordinary general shareholders meetings. Our bylaws state that the board of directors must be composed of no more than 21 members, at least 25% of whom must be independent. Holders of Series B Shares are entitled to elect at least 11 members of our board of directors. Holders of Series D Shares are entitled to elect five members of our board of directors. Our bylaws also contemplate that, should a conversion of the Series D-L Shares to Series L Shares occur pursuant to the vote of our Series D-B and Series D-L shareholders at special and extraordinary shareholders meetings, the holders of Series D-L shares (who would become holders of newly-issued Series L Shares) will be entitled to elect two members of the board of directors. None of our shares has cumulative voting rights, which is a right not regulated under Mexican law.

Under our bylaws, the holders of Series D Shares are entitled to vote at extraordinary shareholders meetings called to consider any of the following limited matters: (1) the transformation from one form of corporate organization to another, other than from a company with variable capital stock to a company without variable capital stock or vice versa, (2) any merger in which we are not the surviving entity or with other entities whose principal corporate purposes are different from those of our company or our subsidiaries, (3) change of our jurisdiction of incorporation, (4) dissolution and liquidation and (5) the cancellation of the registration of the Series D Shares or Series L Shares in the Mexican Stock Exchange or in any other foreign stock market where listed, except in the case of the conversion of these shares as provided for in our bylaws.

Holders of Series D Shares are also entitled to vote on the matters that they are expressly authorized to vote on by the Mexican Securities Law and at any extraordinary shareholders meeting called to consider any of the following matters:

To approve a conversion of all of the outstanding Series D-B Shares and Series D-L Shares into Series B shares with full voting rights and Series L Shares with limited voting rights, respectively.

To agree to the unbundling of their share Units.

This conversion and/or unbundling of shares would become effective two years after the date on which the shareholders agreed to such conversion and/or unbundling.

Under Mexican law, holders of shares of any series are entitled to vote as a class in a special meeting governed by the same rules that apply to extraordinary shareholders meetings on any action that would have an effect on the rights of holders of shares of such series. There are no procedures for determining whether a particular proposed shareholder action requires a class vote, and Mexican law does not provide extensive guidance on the criteria to be applied in making such a determination.

The Mexican Securities Law, the Mexican General Corporations Law and our bylaws provide for certain minority shareholder protections. These minority protections include provisions that permit:

holders of at least 10% of our outstanding capital stock entitled to vote, including in a limited or restricted manner, to require the chairman of the board of directors or of the Audit or Corporate Practices Committees to call a shareholders meeting;

holders of at least 5% of our outstanding capital stock, including limited or restricted vote, may bring an action for liabilities against our directors, the secretary of the board of directors or certain key officers;

holders of at least 10% of our outstanding capital stock who are entitled to vote, including limited or restricted vote, at any shareholders meeting to request that resolutions with respect to any matter on which they considered they were not sufficiently informed be postponed;

holders of 20% of our outstanding capital stock to oppose any resolution adopted at a shareholders meeting in which they are entitled to vote, including limited or restricted vote, and file a petition for a court order to suspend the resolution temporarily within 15 days following the adjournment of the meeting at which the action was taken, provided that (1) the challenged resolution violates Mexican law or our bylaws, (2) the opposing shareholders neither attended the meeting nor voted in favor of the challenged resolution and (3) the opposing shareholders deliver a bond to the court to secure payment of any damages that we may suffer as a result of suspending the resolution in the event that the court ultimately rules against the opposing shareholder; and

holders of at least 10% of our outstanding capital stock who are entitled to vote, including limited or restricted vote, to appoint one member of our board of directors and one alternate member of our board of directors.

Shareholders Meetings

General shareholders meetings may be ordinary meetings or extraordinary meetings. Extraordinary meetings are those called to consider certain matters specified in Article 182 and 228 BIS of the Mexican General Corporations Law, Articles 53 and 108(ii) of the Mexican Securities Law and in our bylaws. These matters include: amendments to our bylaws, liquidation, dissolution, merger, spin-off and transformation from one form of corporate organization to another, issuance of preferred stock and increases and reductions of the fixed portion of our capital stock. In addition, our bylaws require a general shareholders extraordinary meeting to consider the cancellation of the registration of shares with the Mexican Registry of Securities, or RNV or with other foreign stock exchanges on which our shares may be listed, the amortization of distributable earnings into capital stock, and an increase in our capital stock in terms of the Mexican Securities Law. General meetings called to consider all other matters, including increases or decreases affecting the variable portion of our capital stock, are ordinary meetings. An ordinary meeting must be held at least once each year within the first four months following the end of the preceding fiscal year. Holders of BD Units or B Units are entitled to attend all shareholders meetings of the Series B Shares and Series D Shares and to vote on matters that are subject to the vote of holders of the underlying shares.

The quorum for an ordinary shareholders meeting on first call is more than 50% of the Series B Shares, and action may be taken by a majority of the Series B Shares represented at the meeting. If a quorum is not available, a second or subsequent meeting may be called and held by whatever number of Series B Shares is represented at the meeting, at which meeting action may be taken by a majority of the Series B Shares that are represented at the meeting.

The quorum for an extraordinary shareholders meeting is at least 75% of the shares entitled to vote at the meeting, and action may be taken by a vote of the majority of all the outstanding shares that are entitled to vote. If a quorum is not available, a second meeting may be called, at which the quorum will be the majority of the outstanding capital stock entitled to vote, and actions will be taken by holders of the majority of all the outstanding capital stock entitled to vote.

Shareholders meetings may be called by the board of directors, the audit committee or the corporate practices committee and, under certain circumstances, a Mexican court. Additionally, holders of 10% or more of our capital stock may require the chairman of the board of directors, or the chairman of the audit or corporate practices committees to call a shareholders meeting. A notice of meeting and an agenda must be published in the electronic system of the *Secretaría de Economía* (Secretary of Economy) and in the *Periódico Oficial del Estado de Nuevo León* (Official State Gazette of Nuevo León, or the Official State Gazette) or a newspaper of general distribution in Monterrey, Nuevo León, Mexico at least 15 days prior to the date set for the meeting. Notices must set forth the place, date and time of the meeting and the matters to be addressed and must be signed by whoever convened the meeting. Shareholders meetings will be deemed validly held and convened without a prior notice or publication only to the extent that all the shares representing our capital stock are fully represented. All relevant information relating to the shareholders meeting must be made available to shareholders starting on the date of publication of the notice involving such shareholders meeting. To attend a meeting, shareholders must deposit their shares with the company or with Indeval or an institution for the deposit of securities prior to the meeting as indicated in the notice. If entitled to attend a meeting, a shareholder may be represented by an attorney-in-fact.

In addition to the provisions of the Mexican General Corporations Law, the ordinary shareholders meeting shall be convened to approve any transaction that, in a fiscal year, represents 20% or more of the consolidated assets of the company as of the immediately prior quarter, whether such transaction is executed in one or several operations, to the extent that, according to the nature of such transactions, they may be deemed the same. All shareholders shall be entitled to vote on in such ordinary shareholders meeting, including those with limited or restricted voting rights.

Dividend Rights

At the AGM, the board of directors submits the financial statements of the company for the previous fiscal year, together with a report thereon by the board of directors. Once the holders of Series B Shares have approved the financial statements, they determine the allocation of our net profits for the preceding year. Mexican law requires the allocation of at least 5% of net profits to a legal reserve, which is not subsequently available for distribution, until the amount of the legal reserve equals 20% of our paid in capital stock. Thereafter, the holders of Series B Shares may determine and allocate a certain percentage of net profits to any general or special reserve, including a reserve for open-market purchases of our shares. The remainder of net profits is available for distribution in the form of dividends to the shareholders. Dividends may only be paid if net profits are sufficient to offset losses from prior fiscal years.

Our bylaws provide that dividends will be allocated among the shares outstanding and fully paid at the time a dividend is declared in such manner that each Series D-B Share and Series D-L Share receives 125% of the dividend distributed in respect of each Series B Share. Holders of Series D-B Shares and Series D-L Shares are entitled to this dividend premium in connection with all dividends paid by us.

Change in Capital

Our outstanding capital stock consists of both a fixed and a variable portion. The fixed portion of our capital stock may be increased or decreased only by an amendment of the bylaws adopted by an extraordinary shareholders meeting. The variable portion of our capital stock may be increased or decreased by resolution of an ordinary shareholders meeting. Capital increases and decreases must be recorded in our share registry and book of capital variations, if applicable.

A capital stock increase may be effected through the issuance of new shares for payment in cash or in kind, or by capitalization of indebtedness or of certain items of stockholders' equity. Treasury stock may only be sold pursuant to a public offering.

Any increase or decrease in our capital stock or any redemption or repurchase will be subject to the following limitations: (1) Series B Shares will always represent at least 51% of our outstanding capital stock and the Series D-L Shares and Series L Shares will never represent more than 25% of our outstanding capital stock; and (2) the Series D-B, Series D-L and Series L Shares will not exceed, in the aggregate, 49% of our outstanding capital stock.

Preemptive Rights

Under Mexican law, except in limited circumstances which are described below, in the event of an increase in our capital stock, a holder of record generally has the right to subscribe to shares of a series held by such holder sufficient to maintain such holder's existing proportionate holding of shares of that series. Preemptive rights must be exercised during a term fixed by the shareholders at the meeting declaring the capital increase, which term must last at least 15 days following the publication of notice of the capital increase in the Official State Gazette. As a result of applicable United States securities laws, holders of ADSs may be restricted in their ability to participate in the exercise of preemptive rights under the terms of the deposit agreement. Shares subject to a preemptive rights offering, with respect to which preemptive rights have not been exercised, may be sold by us to third parties on the same terms and conditions previously approved by the shareholders or the board of directors. Under Mexican law, preemptive rights cannot be waived in advance or be assigned, or be represented by an instrument that is negotiable separately from the corresponding shares.

Our bylaws provide that shareholders will not have preemptive rights to subscribe shares in the event of a capital stock increase or listing of treasury stock in any of the following events: (i) merger of the Company; (ii) conversion of obligations (*conversion de obligaciones*) in terms of the Mexican General Credit Instruments and Credit Operations Law (*Ley General de Títulos y Operaciones de Crédito*); (iii) public offering made according to the terms of articles 53, 56 and related provisions of the Mexican Securities Law; and (iv) capital increase made through the payment in kind of the issued shares or through the cancellation of debt of the Company.

Limitations on Share Ownership

Ownership of shares of Mexican companies by non-Mexican residents is regulated by the Foreign Investment Law and its regulations. The Foreign Investment Commission is responsible for the enforcement of the Foreign Investment Law and its regulations.

As a general rule, the Foreign Investment Law allows foreign holdings of up to 100% of the capital stock of Mexican companies, except for those companies engaged in certain specified restricted industries. The Foreign Investment Law and its regulations require that Mexican shareholders retain the power to determine the administrative control and the management of corporations in industries in which special restrictions on foreign holdings are applicable. Foreign investment in our shares is not limited under either the Foreign Investment Law or its regulations.

Management of the Company

Management of the company is entrusted to the board of directors and also to the chief executive officer, who is required to follow the strategies, policies and guidelines approved by the board of directors and the authority, obligations and duties expressly authorized in the Mexican Securities Law.

At least 25% of the members of the board of directors shall be independent. Independence of the members of the board of directors is determined by the shareholders meeting, subject to the CNBV's challenge of such determination. In the performance of its responsibilities, the board of directors will be supported by a corporate practices committee and an audit committee. The corporate practices committee and the audit committee consist solely of independent directors. Each committee is formed by at least three board members appointed by the shareholders or by the board of directors. The chairmen of said committees are appointed (taking into consideration their experience, capacity and professional prestige) and removed exclusively by a vote in a shareholders meeting.

Surveillance

Surveillance of the company is entrusted to the board of directors, which shall be supported in the performance of these functions by the corporate practices committee, the audit committee and our external auditor. The external auditor may be invited to attend board of directors meetings as an observer, with a right to participate but without voting rights.

Authority of the Board of Directors

The board of directors is our legal representative and is authorized to take any action in connection with our operations not expressly reserved to our shareholders. Pursuant to the Mexican Securities Law, the board of directors must approve, *observing at all moments their duty of care and duty of loyalty*, among other matters:

any related-party transactions which are deemed to be outside the ordinary course of our business;

significant asset transfers or acquisitions;

material guarantees or collateral;

internal policies; and

other material transactions.

Meetings of the board of directors are validly convened and held if a majority of the members are present. Resolutions passed at these meetings will be valid if approved by a majority of members of the board of directors present at the meeting. If required, the chairman of the board of directors may cast a tie-breaking vote.

Redemption

We may redeem part of our shares for cancellation with distributable earnings pursuant to a decision of an extraordinary shareholders meeting. Only shares subscribed and fully paid for may be redeemed. Any shares intended to be redeemed shall be purchased on the Mexican Stock Exchange in accordance with the Mexican General Corporations Law and the Mexican Securities Law. No shares will be redeemed, if as a consequence of such redemption, the Series D and Series L Shares in the aggregate exceed the percentages permitted by our bylaws or if any such redemption will reduce our fixed capital below its minimum.

Repurchase of Shares

According to our bylaws, subject to the provisions of the Mexican Securities Law and under rules promulgated by the CNBV, we may repurchase our shares at any time at the then prevailing market price. The maximum amount available for repurchase of our shares must be approved at the AGM. The economic and voting rights corresponding to such repurchased shares may not be exercised while our company owns the shares.

In accordance with the Mexican Securities Law, our subsidiaries may not purchase, directly or indirectly, shares of our capital stock or any security that represents such shares.

Forfeiture of Shares

As required by Mexican law, our bylaws provide that non-Mexican holders of BD Units, B Units or shares (1) are considered to be Mexican with respect to such shares that they acquire or hold and (2) may not invoke the protection of their own governments in respect of the investment represented by those shares. Failure to comply with our bylaws may result in a penalty of forfeiture of a shareholder's capital stock in favor of the Mexican state. In the opinion of Carlos Eduardo Aldrete Ancira, our general counsel, under this provision, a non-Mexican shareholder (including a non-Mexican holder of ADSs) is deemed to have agreed not to invoke the protection of its own government by asking such government to interpose a diplomatic claim against the Mexican state with respect to its rights as a shareholder, but is not deemed to have waived any other rights it may have, including any rights under the United States securities laws, with respect to its investment in our company. If a shareholder should invoke governmental protection in violation of this agreement, its shares could be forfeited to the Mexican state.

Duration

The bylaws provide that the duration of our company is 99 years, commencing on May 30, 1936, unless extended by a resolution of an extraordinary shareholders meeting.

Appraisal Rights

Whenever the shareholders approve a change of corporate purpose, change of jurisdiction of incorporation or the transformation from one form of corporate organization to another, any shareholder entitled to vote on such change that has voted against it, may withdraw as a shareholder of our company and have its shares redeemed by FEMSA at a price per share calculated as specified under applicable Mexican law, provided that it exercises its right within 15 days following the adjournment of the meeting at which the change was approved. Under Mexican law, the amount which a withdrawing shareholder is entitled to receive is equal to its proportionate interest in our capital stock or according to our most recent balance sheet approved by an ordinary general shareholders meeting.

Delisting of Shares

In the event of a cancellation of the registration of any of our shares with the RNV, whether by order of the CNBV or at our request with the prior consent of 95% of the holders of our outstanding capital stock, our bylaws and the new Mexican Securities Law require us to make a public offer to acquire these shares prior to their cancellation.

Liquidation

Upon the dissolution of our company, one or more liquidators must be appointed by an extraordinary general meeting of the shareholders to wind up its affairs. All fully paid and outstanding shares of capital stock will be entitled to participate equally in any distribution upon liquidation.

Actions Against Directors

Shareholders (including holders of Series D-B and Series D-L Shares) representing, in the aggregate, not less than 5% of our capital stock may directly bring an action against directors.

In the event of actions derived from any breach of the duty of care and the duty of loyalty, liability is exclusively in favor of the company. The Mexican Securities Law establishes that liability may be imposed on the members and the secretary of the board of directors, as well as to the relevant officers.

Notwithstanding, the Mexican Securities Law provides that the members of the board of directors will not incur, individually or jointly, liability for damages and losses caused to the company, when their acts were made in good faith, in any of the following events: (1) the directors complied with the requirements of the Mexican Securities Law and with the company's bylaws; (2) the decision making or voting was based on information provided by the relevant officers, the external auditor or the independent experts, whose capacity and credibility do not offer reasonable doubt; (3) the negative economic effects could not have been foreseen, based on the information available; and (4) they comply with the resolutions of the shareholders' meeting when such resolutions comply with applicable law.

Fiduciary Duties Duty of Care

The Mexican Securities Law provides that the directors shall act in good faith and in our best interest and in the best interest of our subsidiaries. In order to fulfill its duty, the board of directors may:

request information about us or our subsidiaries that is reasonably necessary to fulfill its duties;

require our officers and certain other persons, including the external auditors, to appear at board of directors' meetings to report to the board of directors;

postpone board of directors' meetings for up to three days when a director has not been given sufficient notice of the meeting or in the event that a director has not been provided with the information provided to the other directors; and

require a matter be discussed and voted upon by the full board of directors in the presence of the secretary of the board of directors. Our directors may be liable for damages for failing to comply their duty of care if such failure causes economic damage to us or our subsidiaries and the director (1) failed to attend board of directors' or committee meetings and as a result of such failure, the board of directors was unable to take action, unless such absence is approved by the shareholders meeting, (2) failed to disclose to the board of directors or the committees material information necessary for the board of directors to reach a decision, unless legally or contractually prohibited from doing so in order to maintain confidentiality and (3) failed to comply with the duties imposed by the Mexican Securities Law or our bylaws.

Fiduciary Duties Duty of Loyalty

The Mexican Securities Law provides that the directors and secretary of the board of directors shall keep confidential any non-public information and matters about which they have knowledge as a result of their position. Also, directors should abstain from participating, attending or voting at meetings related to matters where they have a conflict of interest.

The directors and secretary of the board of directors will be deemed to have violated the duty of loyalty, and will be liable for damages, when they obtain an economic benefit by virtue of their position. Further, the directors will fail to comply with their duty of loyalty if they:

vote at a board of directors meeting or take any action on a matter involving our assets where there is a conflict of interest;

fail to disclose a conflict of interest during a board of directors meeting;

enter into a voting arrangement to support a particular shareholder or group of shareholders against the other shareholders;

approve of transactions without complying with the requirements of the Mexican Securities Law;

use company property in violation of the policies approved by the board of directors;

unlawfully use material non-public information; and

usurp a corporate opportunity for their own benefit or the benefit of third parties, without the prior approval of the board of directors.

Limited Liability of Shareholders

The liability of shareholders for our company's losses is limited to their shareholdings in our company.

Taxation

The following summary contains a description of certain U.S. federal income and Mexican federal tax consequences of the purchase, ownership and disposition of our ADSs, but it does not purport to be a description of all of the possible tax considerations that may be relevant to a decision to purchase, hold or dispose of ADSs. For purposes of this summary, the term "U.S. holder" means a holder that is a citizen or resident of the United States, a U.S. domestic corporation or a person or entity that otherwise will be subject to U.S. federal income tax on a net income basis in respect of our ADSs. In particular, this discussion does not address all Mexican or U.S. federal income tax considerations that may be relevant to a particular investor, nor does it address the special tax rules applicable to certain categories of investors, such as banks, dealers, traders who elect to mark to market, tax-exempt entities, insurance companies, certain short-term holders of ADSs or investors who hold our ADSs as part of a hedge, straddle, conversion or integrated transaction, partnerships that hold ADSs, or partners therein, nonresident aliens present in the United States for more than 182 days in a taxable year, or investors who have a functional currency other than the U.S. dollar. This summary deals only with U.S. holders that will hold our ADSs as capital assets and does not address the tax treatment of a U.S. holder that owns or is treated as owning 10% or more of the shares by vote or value (including ADSs) of the company.

This summary is based upon the federal tax laws of the United States and Mexico as in effect on the date of this annual report, including the provisions of the income tax treaty between the United States and Mexico which we refer to as the Tax Treaty, which are subject to change. The summary does not address any tax consequences under the laws of any state or locality of Mexico or the United States or the laws of any taxing jurisdiction other than the federal laws of Mexico and the United States. Holders of our ADSs should consult their tax advisors as to the U.S., Mexican or other tax consequences of the purchase, ownership and disposition of ADSs, including, in particular, the effect of any foreign, state or local tax laws.

Mexican Taxation

For purposes of this summary, the term "non-resident holder" means a holder that is not a resident of Mexico for tax purposes and that does not hold our ADSs in connection with the conduct of a trade or business through a permanent establishment for tax purposes in Mexico. For purposes of Mexican taxation, an individual is a resident of Mexico if he or she has established his or her home in Mexico, or if he or she has another home outside Mexico, but his or her *Centro de Intereses Vitales* (Center of Vital Interests) (as defined in the Mexican Tax Code) is located in Mexico and, among other circumstances, more than 50% of that person's total income during a calendar year comes from within

Edgar Filing: MEXICAN ECONOMIC DEVELOPMENT INC - Form 20-F

Mexico. A legal entity is a resident of Mexico if it has either its principal place of business or its place of effective management in Mexico. A Mexican citizen is presumed to be a resident of Mexico unless he or she can demonstrate that the contrary is true. If a legal entity or an individual is deemed to have a permanent establishment in Mexico for tax purposes, all income attributable to the permanent establishment will be subject to Mexican taxes, in accordance with applicable tax laws.

Taxation of Dividends. Under Mexican income tax law, dividends, either in cash or in kind, paid with respect to our shares represented by our ADSs are not subject to Mexican withholding tax if such dividends were distributed from the net taxable profits generated before 2014. Dividends distributed from the net taxable profits generated after or during 2014 will be subject to Mexican withholding tax at a rate of 10%.

Taxation of Dispositions of ADSs. Gains from the sale or disposition of ADSs by non-resident holders will not be subject to Mexican tax, if the disposition is carried out through a stock exchange recognized under applicable Mexican tax law and the transferor is resident of a country with which Mexico has entered into a tax treaty for the avoidance of double taxation; if the transferor is not a resident of such a country, the gain will be taxable at the rate of 10%, in which case the tax will be withheld by the financial intermediary.

In compliance with certain requirements, gains on the sale or other disposition of ADSs made in circumstances different from those set forth in the prior paragraph generally would be subject to Mexican tax, at the general rate of 25% of the gross income, regardless of the nationality or residence of the transferor. However, under the Tax Treaty, a holder that is eligible to claim the benefits of the Tax Treaty will be exempt from Mexican tax on gains realized on a sale or other disposition of our ADSs in a transaction that is not carried out through the Mexican Stock Exchange or other approved securities markets, so long as the holder did not own, directly or indirectly, 25% or more of our outstanding capital stock (including shares represented by our ADSs) within the 12-month period preceding such sale or other disposition. Deposits of shares in exchange for ADSs and withdrawals of shares in exchange for our ADSs will not give rise to Mexican tax.

Other Mexican Taxes. There are no Mexican inheritance, gift, succession or value added taxes applicable to the ownership, transfer, exchange or disposition of our ADSs. There are no Mexican stamp, issue, registration or similar taxes or duties payable by holders of our ADSs.

United States Taxation

Tax Considerations Relating to the ADSs

In general, for U.S. federal income tax purposes, holders of ADSs will be treated as owners of the shares represented by those ADSs.

Taxation of Dividends. The gross amount of any distributions paid with respect to our shares represented by our ADSs, to the extent paid out of our current or accumulated earnings and profits, as determined for U.S. federal income tax purposes, generally will be included in the gross income of a U.S. holder as foreign source dividend income on the day on which the dividends are received by the ADS depository and will not be eligible for the dividends received deduction allowed to corporations under the Internal Revenue Code of 1986, as amended. Because we do not expect to maintain calculations of our earnings and profits in accordance with U.S. federal income tax principles, it is expected that distributions paid to U.S. holders generally will be reported as dividends.

Dividends, which will be paid in Mexican pesos, will be includible in the income of a U.S. holder in a U.S. dollar amount calculated, in general, by reference to the exchange rate in effect on the date that they are received by the ADS depository (regardless of whether such Mexican pesos are in fact converted into U.S. dollars on such date). If such dividends are converted into U.S. dollars on the date of receipt, a U.S. holder generally should not be required to recognize foreign currency gain or loss in respect of the dividends. U.S. holders should consult their tax advisors regarding the treatment of the foreign currency gain or loss, if any, on any Mexican pesos received that are converted into U.S. dollars on a date subsequent to the date of receipt.

The amount of Mexican tax withheld generally will give rise to a foreign tax credit or deduction for U.S. federal income tax purposes. Dividends generally will constitute passive category income for purposes of the foreign tax credit (or in the case of certain U.S. holders, general category income). The foreign tax credit rules are complex. U.S. holders should consult their own tax advisors with respect to the implications of those rules for their investments in our ADSs.

Subject to certain exceptions for short-term and hedged positions, the U.S. dollar amount of dividends received by an individual U.S. holder in respect of the ADSs generally is subject to taxation at the reduced rate applicable to long-term capital gains if the dividends are qualified dividends. Dividends paid on the ADSs will be treated as qualified dividends if (1) we are eligible for the benefits of a comprehensive income tax treaty with the United States that the Internal Revenue Service has approved for the purposes of the qualified dividend rules, or the dividends are paid with respect to ADSs that are readily tradable on an established U.S. securities market and (2) we were not, in the year prior to the year in which the dividend was paid, and are not, in the year in which the dividend is paid, a passive foreign investment company. The income tax treaty between Mexico and the United States has been approved for the purposes of the qualified dividend rules. The ADSs are listed on the NYSE, and will qualify as readily tradable on an established securities market in the United States so long as they are so listed. Based on our audited consolidated financial statements and relevant market and shareholder data, we believe that we were not treated as a passive foreign investment company for U.S. federal income tax purposes with respect to our 2017 taxable year. In addition, based on our audited consolidated financial statements and our current expectations regarding the value and nature of our assets, the sources and nature of our income and relevant market and shareholder data, we do not anticipate becoming a passive foreign investment company for our 2018 taxable year.

Distributions to holders of additional shares with respect to our ADSs that are made as part of a pro rata distribution to all of our shareholders generally will not be subject to U.S. federal income tax.

Taxation of Capital Gains. A gain or loss realized by a U.S. holder on the sale or other taxable disposition of ADSs will be subject to U.S. federal income taxation as capital gain or loss in an amount equal to the difference between the amount realized on the disposition and such U.S. holder's tax basis in the ADSs (each calculated in dollars). Any such gain or loss will be a long-term capital gain or loss if the ADSs were held for more than one year on the date of such sale. Any long-term capital gain recognized by a U.S. holder that is an individual is subject to a reduced rate of federal income taxation. The deduction of capital losses is subject to limitations for U.S. federal income tax purposes. Deposits and withdrawals of shares by U.S. holders in exchange for ADSs will not result in the realization of gains or losses for U.S. federal income tax purposes.

Any gain realized by a U.S. holder on the sale or other disposition of ADSs generally will be treated as U.S. source income for U.S. foreign tax credit purposes.

United States Backup Withholding and Information Reporting. A U.S. holder of ADSs may, under certain circumstances, be subject to information reporting and backup withholding with respect to certain payments to such U.S. holder, such as dividends, interest or the proceeds of a sale or disposition of ADSs, unless such holder (1) comes within certain exempt categories, and demonstrates this fact when so required, or (2) in the case of backup withholding, provides a correct taxpayer identification number, certifies that it is not subject to backup withholding and otherwise complies with applicable requirements of the backup withholding rules. Any amount withheld under these rules does not constitute a separate tax and will be creditable against the holder's U.S. federal income tax liability.

Specified Foreign Financial Assets. Certain U.S. holders that own specified foreign financial assets with an aggregate value in excess of USD 50,000 are generally required to file an information statement along with their tax returns, currently on Form 8938, with respect to such assets.

Specified foreign financial assets include any financial accounts held at a non-U.S. financial institution, as well as securities issued by a non-U.S. issuer (which would include the ADSs) that are not held in accounts maintained by financial institutions. Higher reporting thresholds apply to certain individuals living abroad and to certain married individuals. Regulations extend this reporting requirement to certain entities that are treated as formed or availed of to hold direct or indirect interests in specified foreign financial assets based on certain objective criteria. U.S. holders who fail to report the required information could be subject to substantial penalties. Prospective investors should consult their own tax advisors concerning the application of these rules to their investment in the ADSs, including the application of the rules to their particular circumstances.

U.S. Tax Consequences for Non-U.S. Holders

Taxation of Dividends and Capital Gains. Subject to the discussion below under *United States Backup Withholding and Information Reporting*, a holder of ADSs that is not a U.S. holder (a non-U.S. holder) generally will not be subject to U.S. federal income or withholding tax on dividends received on ADSs or on any gain realized on the sale of ADSs.

United States Backup Withholding and Information Reporting. While non-U.S. holders generally are exempt from information reporting and backup withholding, a non-U.S. holder may, in certain circumstances, be required to comply with certain information and identification procedures in order to prove this exemption.

Material Contracts

We and our subsidiaries are parties to a variety of material agreements with third parties, including shareholders' agreements, supply agreements and purchase and service agreements. Set forth below are summaries of the material terms of such agreements. The actual agreements have either been filed as exhibits to, or incorporated by reference in, this annual report. See **Item 19. Exhibits.**

Material Contracts Relating to Coca-Cola FEMSA

Shareholders Agreement

Coca-Cola FEMSA operates pursuant to a shareholders agreement among our company and The Coca-Cola Company and certain of its subsidiaries. This agreement, together with Coca-Cola FEMSA's bylaws, sets forth the basic rules pursuant to which Coca-Cola FEMSA operates.

In February 2010, Coca-Cola FEMSA's main shareholders, FEMSA and The Coca-Cola Company, amended the shareholders agreement, and Coca-Cola FEMSA's bylaws were amended accordingly. The amendment mainly related to changes in the voting requirements for decisions on: (1) ordinary operations within an annual business plan and (2) appointment of the chief executive officer and all officers reporting to him, all of which now may be taken by the board of directors by simple majority voting. Also, the amendment provided that payment of dividends, up to an amount equivalent to 20% of the preceding years' retained earnings, may be approved by a simple majority of the shareholders. Any decision on extraordinary matters, as they are defined in Coca-Cola FEMSA's bylaws and which include, among other things, any new business acquisition, business combinations or any change in the existing line of business shall require the approval of the majority of the members of the board of directors, with the vote of two of the members appointed by The Coca-Cola Company. Also, any decision related to such extraordinary matters or any payment of dividends above 20% of the preceding years' retained earnings shall require the approval of a majority of the shareholders of Coca-Cola FEMSA's Series A and Series D Shares voting together as a single class.

Under Coca-Cola FEMSA's bylaws and shareholders agreement, its Series A Shares and Series D Shares are the only shares with full voting rights and, therefore, control actions by its shareholders. The shareholders agreement also sets forth the principal shareholders' understanding as to the effect of adverse actions of The Coca-Cola Company under the bottler agreements. Coca-Cola FEMSA's bylaws and shareholders agreement provide that a majority of the directors appointed by the holders of its Series A Shares, upon making a reasonable, good faith determination that any action of The Coca-Cola Company under any bottler agreement between The Coca-Cola Company and Coca-Cola FEMSA or any of its subsidiaries is materially adverse to Coca-Cola FEMSA's business interests and that The Coca-Cola Company has failed to cure such action within 60 days of notice, may declare a simple majority period, as defined in Coca-Cola FEMSA's bylaws, at any time within 90 days after giving notice. During the simple majority period certain decisions, namely the approval of material changes in Coca-Cola FEMSA's business plans, the introduction of a new, or termination of an existing, line of business, and related-party transactions outside the ordinary course of business, to the extent the presence and approval of at least two Coca-Cola FEMSA Series D directors would otherwise be required, can be made by a simple majority vote of its entire board of directors, without requiring the presence or approval of any Coca-Cola FEMSA Series D director. A majority of the Coca-Cola FEMSA Series A directors may terminate a simple majority period but, once having done so, cannot declare another simple majority period for one year after the termination. If a simple majority period persists for one year or more, the provisions of the shareholders agreement for resolution of irreconcilable differences may be triggered, with the consequences outlined in the following paragraph.

In addition to the rights of first refusal provided for in Coca-Cola FEMSA's bylaws regarding proposed transfers of its Series A Shares or Series D Shares, the shareholders agreement contemplates three circumstances under which one principal shareholder may purchase the interest of the other in Coca-Cola FEMSA: (1) a change in control in a principal shareholder; (2) the existence of irreconcilable differences between the principal shareholders; or (3) the occurrence of certain specified events of default.

In the event that (1) one of the principal shareholders buys the other's interest in Coca-Cola FEMSA in any of the circumstances described above or (2) the ownership of Coca-Cola FEMSA's shares of capital stock other than the Series L Shares of the subsidiaries of The Coca-Cola Company or FEMSA is reduced below 20% and upon the request of the shareholder whose interest is not so reduced, the shareholders agreement requires that Coca-Cola FEMSA's bylaws be amended to eliminate all share transfer restrictions and all special-majority voting and quorum requirements, after which the shareholders agreement would terminate.

The shareholders agreement also contains provisions relating to the principal shareholders' understanding as to Coca-Cola FEMSA's growth. It states that it is The Coca-Cola Company's intention that Coca-Cola FEMSA will be viewed as one of a small number of its anchor bottlers in Latin America. In particular, the parties agree that it is desirable that Coca-Cola FEMSA expands by acquiring additional bottler territories in Mexico and other Latin American countries in the event any become available through horizontal growth. In addition, The Coca-Cola Company has agreed, subject to a number of conditions, that if it obtains ownership of a bottler territory that fits with Coca-Cola FEMSA's operations, it will give Coca-Cola FEMSA the option to acquire such territory. The Coca-Cola Company has also agreed to support reasonable and sound modifications to Coca-Cola FEMSA's capital structure to support horizontal growth. The Coca-Cola Company's agreement as to horizontal growth expires upon either the elimination of the super-majority voting requirements described above or The Coca-Cola Company's election to terminate the agreement as a result of a default.

The Coca-Cola Memorandum

In connection with the acquisition of Panamco, in 2003, Coca-Cola FEMSA established certain understandings primarily relating to operational and business issues with both The Coca-Cola Company and our company that were memorialized in writing prior to completion of the acquisition. Although the memorandum has not been amended, Coca-Cola FEMSA continues to develop its relationship with The Coca-Cola Company (through, *inter alia*, acquisitions and taking on new product categories), and Coca-Cola FEMSA therefore believes that the memorandum should be interpreted in the context of subsequent events, some of which have been noted in the description below. The principal terms are as follows:

The shareholder arrangements between our company and The Coca-Cola Company and certain of its subsidiaries will continue in place. On February 1, 2010, FEMSA amended its shareholders agreement with The Coca-Cola Company. **See Item 10. Additional Information Material Contracts Material Contracts Relating to Coca-Cola FEMSA The Shareholders Agreement.**

We will continue to consolidate Coca-Cola FEMSA's financial results under IFRS.

The Coca-Cola Company and our company will continue to discuss in good faith the possibility of implementing changes to Coca-Cola FEMSA's capital structure in the future.

There will be no changes in concentrate pricing or marketing support by The Coca-Cola Company up to May 2004. After such time, The Coca-Cola Company has complete discretion to implement any changes with respect to these matters, but any decision in this regard will be discussed with Coca-Cola FEMSA and will take Coca-Cola FEMSA's operating condition into consideration.

The Coca-Cola Company may require the establishment of a different long-term strategy for Brazil. If, after taking into account our performance in Brazil, The Coca-Cola Company does not consider us to be part of this long-term strategic solution for Brazil, then we will sell our Brazilian franchise to The Coca-Cola Company or its designee at fair market value. Fair market value would be determined by independent investment bankers retained by each party at their own expense pursuant to specified procedures. Coca-Cola FEMSA currently believes the likelihood of this term applying is remote.

Edgar Filing: MEXICAN ECONOMIC DEVELOPMENT INC - Form 20-F

We, The Coca-Cola Company and Coca-Cola FEMSA, will meet to discuss the optimal Latin American territorial configuration for the *Coca-Cola* bottler system. During these meetings, Coca-Cola FEMSA will consider all possible combinations and any asset swap transactions that may arise from these discussions. In addition, Coca-Cola FEMSA will entertain any potential combination as long as it is strategically sound and done at fair market value.

Coca-Cola FEMSA would like to keep open strategic alternatives that relate to the integration of sparkling beverages and beer. The Coca-Cola Company, our company and Coca-Cola FEMSA would explore these alternatives on a market-by-market basis at the appropriate time.

The Coca-Cola Company agreed to sell to us sufficient shares to permit us to beneficially own 51% of Coca-Cola FEMSA outstanding capital stock (assuming that we do not sell any shares and that there are no issuances of Coca-Cola FEMSA stock other than as contemplated by the acquisition). As a result of this understanding, in November 2006, we acquired, through a subsidiary, 148,000,000 of Coca-Cola FEMSA Series D shares from certain subsidiaries of The Coca-Cola Company, representing 9.4% of the total outstanding voting shares and 8% of the total outstanding equity of Coca-Cola FEMSA, at a price of US\$ 2.888 per share for an aggregate amount of US\$ 427.4 million. Pursuant to our bylaws, the acquired shares were converted from Series D shares to Series A shares.

Coca-Cola FEMSA may be entering some markets where significant infrastructure investment may be required. The Coca-Cola Company and our company will conduct a joint study that will outline strategies for these markets, as well as the investment levels required to execute these strategies. Subsequently, it is intended that our company and The Coca-Cola Company will reach an agreement on the level of funding to be provided by each of the partners. The parties intend that this allocation of funding responsibilities would not be overly burdensome for either partner.

Coca-Cola FEMSA entered into a stand-by credit facility in December 2003 with The Coca-Cola Export Corporation, which expired in December 2006 and was never used.

Cooperation Framework with The Coca-Cola Company

In July 2016, Coca-Cola FEMSA announced a new, comprehensive framework with The Coca-Cola Company. This cooperation framework seeks to maintain a mutually beneficial business relationship over the long-term, which will allow both companies to focus on continuing to drive the business forward and generating profitable growth. The cooperation framework contemplates the following main objectives:

Long term guidelines to the relationship economics. Concentrate prices for sparkling beverages in Mexico have been gradually increasing since July 2017. Based on our internal estimates for revenues and sales volume mix, we currently expect the incremental cost in Mexico to be the Mexican peso equivalent of approximately US\$ 35 million per year for each year during such period.

Other Concentrate Price Adjustments. Potential future concentrate price adjustments for sparkling beverages and flavored water in Mexico will take into account investment and profitability levels that are beneficial both to us and The Coca-Cola Company.

Marketing and commercial strategies. We and The Coca-Cola Company are committed to implementing marketing and commercial strategies as well as productivity programs to maximize profitability. We believe that these initiatives will partially mitigate the effects of concentrate price adjustments.

The Coca-Cola Company also recognized our strong operating model and execution capabilities. With respect to territories of The Coca-Cola Company's Bottling Investments Group that it may divest in the future, we have reached an understanding with The Coca-Cola Company to assess, on a preferred basis, the acquisition of available territories.

Bottler Agreements

Bottler agreements are the standard agreements for each territory that The Coca-Cola Company enters into with bottlers. Pursuant to Coca-Cola FEMSA's bottler agreements, Coca-Cola FEMSA is authorized to manufacture, sell and distribute *Coca-Cola* trademark beverages within specific geographic areas, and Coca-Cola FEMSA is required to purchase concentrate for all *Coca-Cola* trademark beverages in all of its territories from companies designated by The Coca-Cola Company and sweeteners and other raw materials from companies authorized by The Coca-Cola Company.

These bottler agreements also provide that Coca-Cola FEMSA will purchase its entire requirement of concentrate for *Coca-Cola* trademark beverages at prices, terms of payment and on other terms and conditions of supply as determined from time to time by The Coca-Cola Company at its sole discretion. Concentrate prices for *Coca-Cola* trademark beverages are determined as a percentage of the weighted average retail price in local currency, net of applicable taxes. Although the price multipliers used to calculate the cost of concentrate and the currency of payment, among other terms, are set by The Coca-Cola Company at its sole discretion, Coca-Cola FEMSA sets the price of products sold to customers at its discretion, subject to the applicability of price restraints imposed by authorities in certain territories. Coca-Cola FEMSA has the exclusive right to distribute *Coca-Cola* trademark beverages for sale in its territories in authorized containers of the nature approved by the bottler agreements and currently used by Coca-Cola FEMSA. These containers include various configurations of cans and returnable and non-returnable bottles made of glass, aluminum and plastic and fountain containers.

The bottler agreements include an acknowledgment by Coca-Cola FEMSA that The Coca-Cola Company is the sole owner of the trademarks that identify the *Coca-Cola* trademark beverages and of the formulas with which The Coca-Cola Company's concentrates are made. Subject to Coca-Cola FEMSA's exclusive right to distribute *Coca-Cola* trademark beverages in its territories, The Coca-Cola Company reserves the right to import and export *Coca-Cola* trademark beverages to and from each of Coca-Cola FEMSA's territories. Coca-Cola FEMSA's bottler agreements do not contain restrictions on The Coca-Cola Company's ability to set the price of concentrates and do not impose minimum marketing obligations on The Coca-Cola Company. The prices at which Coca-Cola FEMSA purchases concentrate under the bottler agreements may vary materially from the prices Coca-Cola FEMSA has historically paid. However, under Coca-Cola FEMSA's bylaws and the shareholders agreement among The Coca-Cola Company and certain of its subsidiaries and us, an adverse action by The Coca-Cola Company under any of the bottler agreements may result in a suspension of certain voting rights of the directors appointed by The Coca-Cola Company. This provides Coca-Cola FEMSA with limited protection against The Coca-Cola Company's ability to raise concentrate prices to the extent that such increase is deemed detrimental to us pursuant to such shareholder agreement and our bylaws. See **Item 10. Additional Information Material Contracts Material Contracts Relating to Coca-Cola FEMSA The Shareholders Agreement.**

The Coca-Cola Company has the ability, at its sole discretion, to reformulate any of the *Coca-Cola* trademark beverages and to discontinue any of the *Coca-Cola* trademark beverages, subject to certain limitations, so long as all *Coca-Cola* trademark beverages are not discontinued. The Coca-Cola Company may also introduce new beverages in Coca-Cola FEMSA's territories in which case Coca-Cola FEMSA has a right of first refusal with respect to the manufacturing, packaging, distribution and sale of such new beverages subject to the same obligations as then exist with respect to the *Coca-Cola* trademark beverages under the bottler agreements. The bottler agreements prohibit Coca-Cola FEMSA from producing, bottling or handling beverages other than *Coca-Cola* trademark beverages, or other products or packages that would imitate, infringe upon or cause confusion with the products, trade dress, containers or trademarks of The Coca-Cola Company, except under the authority of, or with the consent of, The Coca-Cola Company. The bottler agreements also prohibit Coca-Cola FEMSA from acquiring or holding an interest in a party that engages in such restricted activities. The bottler agreements impose restrictions concerning the use of certain trademarks, authorized containers, packaging and labeling of The Coca-Cola Company so as to conform to policies approved by The Coca-Cola Company. In particular, Coca-Cola FEMSA is obligated to:

maintain plant and equipment, staff and distribution facilities capable of manufacturing, packaging and distributing the *Coca-Cola* trademark beverages in authorized containers in accordance with its bottler agreements and in sufficient quantities to satisfy fully the demand in its territories;

undertake adequate quality control measures established by The Coca-Cola Company;

develop, stimulate and satisfy fully the demand for *Coca-Cola* trademark beverages using all approved means, which includes the investment in advertising and marketing plans;

maintain a sound financial capacity as may be reasonably necessary to assure performance by it and its subsidiaries of its obligations to The Coca-Cola Company; and

submit annually to The Coca-Cola Company its marketing, management, promotional and advertising plans for the ensuing year.

The Coca-Cola Company contributed a significant portion of Coca-Cola FEMSA's total marketing expenses in Coca-Cola FEMSA's territories during 2016 and has reiterated its intention to continue providing such support as part of Coca-Cola FEMSA's cooperation framework. Although Coca-Cola FEMSA believes that The Coca-Cola Company will continue to provide funds for advertising and marketing, it is not obligated to do so. Consequently, future levels of advertising and marketing support provided by The Coca-Cola Company may vary materially from the levels historically provided. **See Item 10. Additional Information Material Contracts Material Contracts Relating to Coca-Cola FEMSA The Shareholders Agreement.**

Coca-Cola FEMSA has separate bottler agreements with The Coca-Cola Company for each of the territories where it operates, on substantially the same terms and conditions. These bottler agreements are automatically renewable for ten-year terms, subject to the right of either party to give prior notice that it does not wish to renew a specific agreement.

As of December 31, 2017, Coca-Cola FEMSA had:

nine bottler agreements in Mexico: (i) two agreements for the Valley of Mexico territory, which are up for renewal in August 2017 and June 2023, (ii) the agreement for the southeast territory, which is up for renewal in June 2023, (iii) three agreements for the central territory, which are up for renewal in August 2017 (two agreements) and May 2025, (iv) the agreement for the northeast territory, which is up for renewal in August 2017 and (v) two agreements for the Bajío territory, which are up for renewal in August 2017 and May 2025;

nine bottler agreements in Brazil, which are up for renewal in May 2018 (seven agreements) and April 2024 (two agreements); and

one bottler agreement in each of Argentina, which is up for renewal in September 2024; Colombia, which is up for renewal in June 2024; Guatemala, which is up for renewal in March 2025; Costa Rica, which is up for renewal in September 2027; Nicaragua, which is up for renewal in May 2026; Panama, which is up for renewal in November 2024; and the Philippines, which is up for renewal in December 2022.

As of December 31, 2017, KOF Venezuela had one bottler agreement in Venezuela, which is up for renewal in August 2026.

The bottler agreements are subject to termination by The Coca-Cola Company in the event of default by Coca-Cola FEMSA. The default provisions include limitations on the change in ownership or control of Coca-Cola FEMSA and the assignment or transfer of the bottler agreements and are designed to preclude any person not acceptable to The Coca-Cola Company from obtaining an assignment of a bottler agreement or from acquiring Coca-Cola FEMSA independently of other rights set forth in the shareholders' agreement. These provisions may prevent changes in Coca-Cola FEMSA's principal shareholders, including mergers or acquisitions involving sales or dispositions of Coca-Cola FEMSA's capital stock, which will involve an effective change of control, without the consent of The Coca-Cola Company. **See Item 10. Additional Information Material Contracts Material Contracts Relating to Coca-Cola FEMSA The Shareholders Agreement.**

Coca-Cola FEMSA has also entered into tradename license agreements with The Coca-Cola Company pursuant to which it is authorized to use certain trademark names of The Coca-Cola Company with Coca-Cola FEMSA's corporate name. These agreements have a ten-year term and are automatically renewed for ten-year terms, but are terminated if Coca-Cola FEMSA ceases to manufacture, market, sell and distribute *Coca-Cola* trademark products pursuant to the bottler agreements or if the shareholders agreement is terminated. The Coca-Cola Company also has the right to terminate a license agreement if Coca-Cola FEMSA uses its trademark names in a manner not authorized by the bottler agreements.

Material Contracts Relating to our Heineken Investment

Share Exchange Agreement

On January 11, 2010, FEMSA and certain of our subsidiaries entered into a share exchange agreement, which we refer to as the Share Exchange Agreement, with Heineken Holding N.V. and Heineken N.V. The Share Exchange Agreement required Heineken N.V., in consideration for 100% of the shares of EMPREX Cerveza, S.A. de C.V. (now Heineken Mexico Holding, S.A. de C.V.), which we refer to as EMPREX Cerveza, to deliver at the closing of the Heineken transaction 86,028,019 newly-issued Heineken N.V. shares to FEMSA with a commitment to deliver, pursuant to the ASDI, 29,172,504 Allotted Shares over a period of not more than five years from the date of the closing of the Heineken transaction. As of October 5, 2011, we had received the totality of the Allotted Shares.

The Share Exchange Agreement provided that, simultaneously with the closing of the transaction, Heineken Holding N.V. would swap 43,018,320 Heineken N.V. shares with FEMSA for an equal number of newly issued Heineken Holding N.V. shares. After the closing of the Heineken transaction, we owned 7.5% of Heineken N.V.'s shares. This percentage increased to 12.53% upon full delivery of the Allotted Shares and, together with our ownership of 14.94% of Heineken Holding N.V.'s shares, represented an aggregate 20% economic interest in the Heineken Group.

Under the terms of the Share Exchange Agreement, in exchange for such economic interest in the Heineken Group, FEMSA delivered 100% of the shares representing the capital stock of EMPREX Cerveza, which owned 100% of the shares of FEMSA Cerveza. As a result of the transaction, EMPREX Cerveza and FEMSA Cerveza became wholly-owned subsidiaries of Heineken.

The principal provisions of the Share Exchange Agreement are as follows:

delivery to Heineken N.V., by FEMSA, of 100% of the outstanding share capital of EMPREX Cerveza, which together with its subsidiaries, constitutes the entire beer business and operations of FEMSA in Mexico and Brazil (including the United States and other export business);

delivery to FEMSA by Heineken N.V. of 86,028,019 new Heineken N.V. shares;

simultaneously with the closing of the Heineken transaction, a swap between Heineken Holding N.V. and FEMSA of 43,018,320 Heineken N.V. shares for an equal number of newly issued shares in Heineken Holding N.V.;

the commitment by Heineken N.V. to assume indebtedness of EMPREX Cerveza and subsidiaries amounting to approximately US\$ 2.1 billion;

the provision by FEMSA to the Heineken Group of indemnities customary in transactions of this nature concerning FEMSA and FEMSA Cerveza and its subsidiaries and their businesses;

FEMSA's covenants to operate the EMPREX Cerveza business in the ordinary course consistent with past practice until the closing of the transaction, subject to customary exceptions, with the economic risks and benefits of the EMPREX Cerveza business transferring to Heineken as of January 1, 2010;

the provision by Heineken N.V. and Heineken Holding N.V. to FEMSA of indemnities customary in transactions of this nature concerning the Heineken Group; and

FEMSA's covenants, subject to certain limitations, to not engage in the production, manufacture, packaging, distribution, marketing or sale of beer and similar beverages in Latin America, the United States, Canada and the Caribbean.

In September 2017, FEMSA sold 3.9% of its ownership in Heineken N.V. and 2.67% of its ownership in Heineken Holding N.V. This sale decreased FEMSA's economic interest in Heineken from 20.0% to 14.76%.

Corporate Governance Agreement

On April 30, 2010, FEMSA, CB Equity (as transferee of the Heineken N.V. and Heineken Holding N.V. Exchange Shares and Allotted Shares), Heineken N.V., Heineken Holding N.V. and L'Arche Green N.V. (as majority shareholder of Heineken Holding N.V.) entered into a corporate governance agreement, which we refer to as the Corporate Governance Agreement, which establishes the terms of the relationship between Heineken and FEMSA after the closing of the Heineken transaction.

The Corporate Governance Agreement covers, among other things, the following topics:

FEMSA's representation on the Heineken Holding Board and the Heineken Supervisory Board and the creation of an Americas committee, also with FEMSA's representation;

FEMSA's representation on the selection and appointment committee and the audit committee of the Heineken Supervisory Board;

FEMSA's commitment to not increase its holding in Heineken Holding N.V. above 20% and to not increase its holding in the Heineken Group above a maximum 20% economic interest (subject to certain exceptions); and

FEMSA's agreement not to transfer any shares in Heineken N.V. or Heineken Holding N.V. for a five-year period, subject to certain exceptions, including among others, (i) beginning in the third anniversary, the right to sell up to 1% of all outstanding shares of each of Heineken N.V. and Heineken Holding N.V. in each calendar quarter, and (ii) beginning in the third anniversary, the right to dividend or distribute to its shareholders each of Heineken N.V. and Heineken Holding N.V. shares.

Under the Corporate Governance Agreement, FEMSA is entitled to nominate two representatives to the Heineken Supervisory Board, one of whom will be appointed as its vice-chairman and will also serve as a representative of FEMSA on the Heineken Supervisory Board. José Antonio Fernández Carbajal, our Executive Chairman of the Board and Javier Astaburuaga Sanjines, our Vice President of Corporate Development were appointed to the Heineken Supervisory Board by Heineken N.V.'s general meeting of shareholders. Mr. Fernández Carbajal was also approved to the Heineken Holding Board by the general meeting of shareholders of Heineken Holding N.V.

In addition, the Heineken Supervisory Board has created an Americas committee to oversee the strategic direction of the business in the American continent and assess new business opportunities in that region. The Americas committee consists of two existing members of the Heineken Supervisory Board and one FEMSA representative, who acts as the chairman. The chairman of the Americas committee is José Antonio Fernández Carbajal, our Executive Chairman of the Board.

The Corporate Governance Agreement has no fixed term, but certain provisions cease to apply if FEMSA ceases to have the right to nominate a representative to the Heineken Holding Board and the Heineken Supervisory Board. For example, in certain circumstances, FEMSA would be entitled to only one representative on the Heineken Supervisory Board, including in the event that FEMSA's economic interest in the Heineken Group were to fall below 14%, the current FEMSA control structure were to change or FEMSA were to be subject to a change of control. In the event that FEMSA's economic interest in Heineken falls below 7% or a beer producer acquires control of FEMSA, all of FEMSA's corporate governance rights would end pursuant to the Corporate Governance Agreement.

Documents on Display

We file reports, including annual reports on Form 20-F, and other information with the SEC pursuant to the rules and regulations of the SEC that apply to foreign private issuers. You may read and copy any materials filed with the SEC at its public reference rooms in Washington, D.C., at 100 F Street, N.E., Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for further information on the public reference room. Filings we make electronically with the SEC are also available to the public over the Internet at the SEC's website at www.sec.gov.

ITEM 11. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our business activities require the holding or issuing of derivative financial instruments that expose us to market risks related to changes in interest rates, foreign currency exchange rates, equity risk and commodity price risk.

Interest Rate Risk

Interest rate risk exists principally with respect to our indebtedness that bears interest at floating rates. At December 31, 2017, we had outstanding total debt of Ps. 131,348 million, of which 9.5% bore interest at variable interest rates and 90.5% bore interest at fixed interest rates. After giving effect to these contracts, as of December 31, 2017, 83.6% of our total debt was fixed rate and 16.4% of our total debt was variable rate (the total amount of debt and of variable rate debt and fixed rate debt used in the calculation of this percentage includes the effect of cross-currency and interest rate swaps). The interest rate on our variable rate debt is determined by reference to the London Interbank Offered Rate, or LIBOR, (a benchmark rate used for Eurodollar loans), the *Tasa de Interés Interbancaria de Equilibrio* (Equilibrium Interbank Interest Rate, or TIIE), and the *Certificados de la Tesorería* (Treasury Certificates, or CETES) rate. If these reference rates increase, our interest payments would consequently increase.

The table below provides information about our derivative financial instruments that are sensitive to changes in interest rates and exchange rates. The table presents notional amounts and weighted average interest rates by expected contractual maturity dates. Notional amounts are used to calculate the contractual payments to be exchanged under the contract. Weighted average variable rates are based on the reference rates on December 31, 2017, plus spreads contracted by us. Our derivative financial instruments' current payments are denominated in U.S. dollars and Mexican pesos. All of the payments in the table are presented in Mexican pesos, our reporting currency, utilizing the December 31, 2017 exchange rate of Ps. 19.7354 per U.S. dollar.

The table below also includes the estimated fair value as of December 31, 2017 of:

short and long-term debt, based on the discounted value of contractual cash flows, in which the discount rate is estimated using rates currently offered for debt with similar terms and remaining maturities;

long-term notes payable and capital leases, based on quoted market prices; and

cross-currency swaps and interest rate swaps, based on quoted market prices to terminate the contracts as of December 31, 2017.

Edgar Filing: MEXICAN ECONOMIC DEVELOPMENT INC - Form 20-F

As of December 31, 2017, the fair value represents an increase in total debt of Ps. 4,799 million more than book value.

Principal by Year of Maturity

(1) All interest rates shown in this table are weighted average contractual annual rates.

(2) Interest rate swaps with a notional amount of Ps. 11,403 that receive a variable rate of 8.9% and pay a fixed rate of 7.2%; joined with a cross currency swap, which covers U.S. dollars to Mexican pesos, that receives a fixed rate of 4.0% and pay a variable rate of 8.9%.

A hypothetical, instantaneous and unfavorable change of 100 basis points in the average interest rate applicable to variable-rate liabilities held at FEMSA as of December 31, 2017 would increase our interest expense by approximately Ps. 251 million, or 2.3%, over the 12-month period of 2018, assuming no additional debt is incurred during such period, in each case after giving effect to all of our interest and cross-currency swap agreements.

Foreign Currency Exchange Rate Risk

Our principal exchange rate risk involves changes in the value of the local currencies, of each country where we operate, relative to the U.S. dollar. In 2017, the percentage of our consolidated total revenues was denominated as follows:

Total Revenues by Currency at December 31, 2017

Region	Currency	% of Consolidated Total Revenues
Mexico and Central America ⁽¹⁾	Mexican peso and others	66%
Venezuela ⁽²⁾	Bolivar fuerte	1%
South America	Brazilian reais, Argentine peso, Colombian peso, Chilean peso	29%
Asia	Philippine peso	4%

(1) Mexican peso, Quetzal, Balboa, Colon, Cordoba and U.S. dollar.

(2) We translate the revenues for the entire year using an exchange rate of 22,793 bolivars per US\$ 1.00 See **Item 3. Key Information** .

We estimate that a majority of our consolidated costs and expenses are denominated in Mexican pesos for Mexican subsidiaries and in the aforementioned currencies for the foreign subsidiaries, which are principally subsidiaries of Coca-Cola FEMSA. Substantially all of our costs and expenses denominated in a foreign currency, other than the functional currency of each country where we operate, are denominated in U.S. dollars. As of December 31, 2017, after giving effect to all cross-currency swaps and interest rate swaps, 38.3% of our long-term indebtedness was denominated in Mexican pesos, 2.5% was denominated in U.S. dollars, 17.6% was denominated in Euros, 38.4% was denominated in Brazilian reais and 3.2% was denominated in Chilean pesos. We also have short-term indebtedness, which mostly consists of bank loans in Colombian pesos, Argentine pesos, Chilean pesos and U.S. dollars. Decreases in the value of the different currencies relative to the U.S. dollar will increase the cost of our foreign currency denominated operating costs and expenses, and the debt service obligations with respect to our foreign currency-denominated indebtedness. A depreciation of the Mexican peso relative to the U.S. dollar will also result in foreign exchange losses, as the Mexican peso value of our foreign currency-denominated long-term indebtedness is increased.

Our exposure to market risk associated with changes in foreign currency exchange rates relates primarily to U.S. dollar and Euro-denominated debt obligations as shown in the interest rate risk table above. We occasionally utilize financial derivative instruments to hedge our exposure to the U.S. dollar relative to the Mexican peso and other currencies. Also, we occasionally use non-derivative financial instruments to hedge our exposure to the Euro relative to the Mexican peso, regarding our net investment in Heineken.

As of December 31, 2017, we had forward agreements that met the hedging criteria for accounting purposes, to hedge our transactions denominated in U.S. dollars and Euros. The notional amount of these forward agreements was Ps. 7,739 million, for which we have recorded a fair value asset of Ps. 152 million. The maturity date of these forward agreements is in 2018. The fair value of foreign currency forward contracts is estimated based on the quoted market price of each agreement at year-end assuming the same maturity dates originally contracted for. For the year ended December 31, 2017, a gain of Ps. 40 million on expired forward agreements was recorded in our consolidated results.

As of December 31, 2016, we had forward agreements that met the hedging criteria for accounting purposes, to hedge our transactions denominated in U.S. dollars and Euros. The notional amount of these forward agreements was Ps. 8,265 million, for which we have recorded a fair value asset of Ps. 117 million. The maturity date of these forward agreements was in 2017. The fair value of foreign currency forward contracts is estimated based on the quoted market price of each agreement at year-end assuming the same maturity dates originally contracted for. For the year ended December 31, 2016, a loss of Ps. 160 million on expired forward agreements was recorded in our consolidated results.

As of December 31, 2015, we had forward agreements that met the hedging criteria for accounting purposes, to hedge our transactions denominated in U.S. dollars and Euros. The notional amount of these forward agreements was Ps. 6,735 million, for which we have recorded a fair value asset of Ps. 299 million. The maturity date of these forward agreements was in 2016. The fair value of foreign currency forward contracts is estimated based on the quoted market price of each agreement at year-end assuming the same maturity dates originally contracted for. For the year ended December 31, 2015, a gain of Ps. 180 million was recorded in our consolidated results.

As of December 31, 2017, we had options to purchase U.S. dollars to reduce our exposure to the risk of exchange rate fluctuations. The notional amount of these options was Ps. 266 million, for which we have recorded a net fair value asset of Ps. 12 million as part of cumulative other comprehensive income. The maturity date of these options was in 2018.

As of December 31, 2016, we have not had options to purchase U.S. dollars to reduce our exposure to the risk of exchange rate fluctuations.

As of December 31, 2015, we had options to purchase U.S. dollars to reduce our exposure to the risk of exchange rate fluctuations. The notional amount of these options was Ps. 1,612 million, for which we have recorded a net fair value asset of Ps. 65 million as part of cumulative other comprehensive income. The maturity date of these options was in 2016.

As of December 31, 2017, we have long-term debt in the amount of 1,000. We have designated a non-derivative financial liability as a hedge on the net investment in our stake hold in Heineken. We recognized a foreign exchange loss, net of tax, of Ps. 1,259 million, which is as part of the exchange differences on translation of foreign operation within the cumulative other comprehensive income.

The following table illustrates the effects that hypothetical fluctuations in the exchange rates of the U.S. dollar and the Euro relative to the Mexican peso, and the U.S. dollar relative to the Brazilian reais and Colombian peso, would have on our equity and profit or loss:

Foreign Currency Risk	Change in Exchange Rate	Effect on Equity
<u>2017</u>

(1) Does not include Coca-Cola FEMSA.

As of December 31, 2017, we had (i) cross-currency swaps designated as fair value hedges under contracts with an aggregate notional amount of Ps. 24,760 million that expire in 2018, for which we have recorded a net fair value liability of Ps. 3,878 million; (ii) cross-currency swaps designated as fair value hedges under contracts with an aggregate notional amount of Ps. 6,263 million that expire in 2019, for which we have recorded a net fair value liability of Ps. 205 million; (iii) cross-currency swaps designated as fair value hedges under contracts with an aggregate notional amount of Ps. 18,428 million that expire in 2020, for which we have recorded a net fair value liability of Ps. 360 million; (iv) cross-currency swaps designated as fair value hedges under contracts with an aggregate notional amount of Ps. 4,853 million that expire in 2021, for which we have recorded a net fair value asset of Ps. 12 million; (v) cross-currency swaps designated as fair value hedges under contracts with an aggregate notional amount of Ps. 14,446 million that expire in 2023, for which we have recorded a net fair value asset of Ps. 8,336 million; (vi) cross-currency swaps designated as fair value hedges under contracts with an aggregate notional amount of Ps. 888 million that expire in 2026, for which we have recorded a net fair value liability of Ps. 192 million; and (vii) cross-currency swaps designated as fair value hedges under contracts with an aggregate notional amount of Ps. 6,907 million that expire in 2027, for which we have recorded a net fair value asset of Ps. 51 million.

As of December 31, 2016, we had (i) cross-currency swaps designated as fair value hedges under contracts with an aggregate notional amount of Ps. 2,707 million that expire in 2017, for which we have recorded a net fair value asset of Ps. 1,155 million; (ii) cross-currency swaps designated as fair value hedges under contracts with an aggregate notional amount of Ps. 39,262 million that expire in 2018, for which we have recorded a net fair value liability of Ps. 1,149 million; (iii) cross-currency swaps designated as fair value hedges under contracts with an aggregate notional amount of Ps. 7,022 million that expire in 2019, for which we have recorded a net fair value liability of Ps. 265 million; (iv) cross-currency swaps designated as fair value hedges under contracts with an aggregate notional amount of Ps. 19,474 million that expire in 2020, for which we have recorded a net fair value liability of Ps. 44 million; (v) cross-currency swaps designated as fair value hedges under contracts with an aggregate notional amount of Ps. 5,076 million that expire in 2021, for which we have recorded a net fair value liability of Ps. 100 million; (vi) cross-currency swaps designated as fair value hedges under contracts with an aggregate notional amount of Ps. 12,670 million that expire in 2023, for which we have recorded a net fair value asset of Ps. 9,057 million; (vii) cross-currency swaps designated as fair value hedges under contracts with an aggregate notional amount of Ps. 925 million that expire in 2026, for which we have recorded a net fair value liability of Ps. 131 million; and (viii) cross-currency swaps designated as fair value hedges under contracts with an aggregate notional amount of Ps. 5,476 million that expire in 2027 for which we have recorded a net fair value asset of Ps. 125 million.

As of December 31, 2015, we had (i) cross-currency swaps designated as fair value hedges under contracts with an aggregate notional amount of Ps. 2,711 million that expire in 2017, for which we have recorded a net fair value asset of Ps. 1,159 million; (ii) cross-currency swaps designated as fair value hedges under contracts with an aggregate notional amount of Ps. 30,714 million that expire in 2018, for which we have recorded a net fair value asset of Ps. 2,216 million; (iii) cross-currency swaps designated as fair value hedges under contracts with an aggregate notional amount of Ps. 4,034 million that expire in 2020, for which we have recorded a net fair value liability of Ps. 116 million; and (iv) cross-currency swaps designated as fair value hedges under contracts with an aggregate notional amount of Ps. 12,670 million that expire in 2023, for which we have recorded a net fair value asset of Ps. 4,859 million.

Certain cross-currency swap instruments did not meet the hedging criteria for accounting purposes. For the years ended December 31, 2017 and 2016, no changes in the estimated fair value were recorded in the income statement. Nonetheless, for the year ended December 31, 2015, consequently, change in the estimated fair value was recorded in the income statement. The change in fair value of these contracts represented a loss of Ps. 20 million in 2015.

A hypothetical, instantaneous and unfavorable 10% devaluation of the Mexican peso relative to the U.S. dollar occurring on December 31, 2017 would result in a foreign exchange gain increasing our consolidated net income by approximately Ps. 5,995 million over the 12-month period of 2018, reflecting greater foreign exchange loss related to our U.S. dollar denominated indebtedness, net of a gain in the cash balances held by us in U.S. dollars and Euros.

As of April 20, 2018, the exchange rates relative to the U.S. dollar of all the countries where we operate, as well as their devaluation/revaluation effect compared to December 31, 2017, were as follows:

Country	Currency	Exchange Rate as of April 20, 2018	(Devaluation) / Revaluation
Mexico	Mexican peso	18.03	8.6
Brazil	Brazilian reais	3.41	(3.1)
Colombia	Colombian peso	2,724.47	8.7
Argentina	Argentine peso	20.19	(8.3)
Costa Rica	Colon	566.82	1.0
Guatemala	Quetzal	7.40	(0.8)
Nicaragua	Cordoba	31.25	(1.5)
Panama	U.S. dollar	1.00	
Euro Zone	Euro	0.79	6.0
Peru	Nuevo sol	3.23	0.6
Chile	Chilean peso	594.42	3.4
Philippines	Philippine peso	52.07	(4.3)

(1) Exchange rate of 22,793 bolivars per U.S. dollar. See **Item 3. Key Information** .

A hypothetical, instantaneous and unfavorable 10% devaluation in the value of the currencies in each of the countries where we operate, relative to the U.S. dollar, occurring on December 31, 2017, would produce a reduction (or gain) in stockholders' equity as follows:

Country	Currency	Reduction in Stockholders' Equity (in millions of Mexican pesos)
Mexico	Mexican peso	6,656
Brazil	Brazilian reais	3,366
Colombia	Colombian peso	1,236
Costa Rica	Colon	471
Argentina	Argentine peso	153
Guatemala	Quetzal	80
Nicaragua	Cordoba	108

Country	Currency	Reduction in Stockholders Equity (in millions of Mexican pesos)
Panama	U.S. dollar	118
Peru	Nuevo sol	4
Chile	Chilean peso	909
Euro Zone	Euro	6,513
U.S.A	U.S. dollar	1,873

Equity Risk

As of December 31, 2017, 2016 and 2015, we did not have any equity derivative agreements, other than as described in Notes 2.3.2.2 and 20.7 of our audited consolidated financial statements.

Commodity Price Risk

We entered into various derivative contracts to hedge the cost of certain raw materials that are exposed to variations of commodity price exchange rates. As of December 31, 2017, we had various derivative instruments contracts with maturity dates through 2018, notional amounts of Ps. 1,142 million and a fair value liability of Ps. 4 million. The results of our commodity price contracts for the years ended December 31, 2017, 2016, and 2015, were a gain of Ps. 6 million, gain of Ps. 241 million and loss of Ps. 619 million, respectively, which were recorded in the results of each year.

ITEM 12. DESCRIPTION OF SECURITIES OTHER THAN EQUITY SECURITIES**ITEM 12A. DEBT SECURITIES**

ITEM 12C. OTHER SECURITIES

Not applicable.

ITEM 12D. AMERICAN DEPOSITARY SHARES

The Bank of New York Mellon, headquartered at 225 Liberty Street, New York, New York 10286, serves as the depositary for our ADSs. Holders of our ADSs, evidenced by ADRs, are required to pay various fees to the depositary, and the depositary may refuse to provide any service for which a fee is assessed until the applicable fee has been paid.

ADS holders are required to pay the depositary amounts in respect of expenses incurred by the depositary or its agents on behalf of ADS holders, including expenses arising from compliance with applicable law, taxes or other governmental charges, cable, telex and facsimile transmission, or the conversion of foreign currency into U.S. dollars. The depositary may decide in its sole discretion to seek payment by either billing holders or by deducting the fee from one or more cash dividends or other cash distributions.

ADS holders are also required to pay additional fees for certain services provided by the depositary, as set forth in the table below.

Depositary service

Fee payable by ADS holders

Edgar Filing: MEXICAN ECONOMIC DEVELOPMENT INC - Form 20-F

Issuance and delivery of ADSs, including in connection with share distributions, stock splits	Up to US\$ 5.00 per 100 ADSs (or portion thereof)
Distribution of dividends ⁽¹⁾	Up to US\$ 0.02 per ADS
Withdrawal of shares underlying ADSs	Up to US\$ 5.00 per 100 ADSs (or portion thereof)

(1) As of the date of this annual report, holders of our ADSs were not required to pay additional fees with respect to this service.

Direct and indirect payments by the depositary

The depositary pays us an agreed amount, which includes reimbursements for certain expenses we incur in connection with the ADS program. These reimbursable expenses include legal and accounting fees, listing fees, investor relations expenses and fees payable to service providers for the distribution of material to ADS holders. For the year ended December 31, 2017, this amount was US\$ 492,089.

ITEMS 13-14. NOT APPLICABLE

ITEM 15. CONTROLS AND PROCEDURES

(a) Disclosure Controls and Procedures

We have evaluated, with the participation of our principal executive officer and principal financial officer, the effectiveness of our disclosure controls and procedures as of December 31, 2017. There are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives. Based upon our evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were effective to provide reasonable assurance that information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934, as amended (or the Exchange Act) is recorded, processed, summarized and reported, within the time periods specified in the applicable rules and forms, and that it is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

(b) Management's annual report on internal control over financial reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act. Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in Internal Control Integrated Framework, as issued by the Committee of Sponsoring Organizations of the Treadway Commission.

Our internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with International Financial Reporting Standards. Our internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets, (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with International Financial Reporting Standards, and that our receipts and expenditures are being made only in accordance with authorizations of our management and directors, and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of our assets that could have a material effect on our financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. Based on our evaluation under the 2013 framework in Internal Controls Integrated Framework, as issued by the Committee of Sponsoring Organizations of the Treadway Commission, our management concluded that our internal control over financial reporting was effective as of December 31, 2017.

Our management assessment and conclusion on the effectiveness of internal control over financial reporting as of December 31, 2017 excludes, in accordance with applicable guidance provided by the SEC, an assessment of the internal control over financial reporting of KOF Philippines consolidated since January 27, 2017. KOF Philippines represented 4.8% and 4.7% of our total and net assets, respectively, as of December 31, 2017, and 4.5% of our revenues, for the year ended December 31, 2017.

The effectiveness of our internal control over financial reporting as of December 31, 2017 has been audited by Mancera, S.C., a member practice of Ernst & Young Global Limited, an independent registered public accounting firm, as stated in its report included herein.

(c) Attestation Report of the Registered Public Accounting Firm

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM ON INTERNAL CONTROL OVER FINANCIAL REPORTING

To the Shareholders and the Board of Directors of

Fomento Económico Mexicano, S.A.B. de C.V.

We have audited Fomento Económico Mexicano, S.A.B. de C.V. and subsidiaries' internal control over financial reporting as of December 31, 2017, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the 2013 Framework) (the COSO criteria). In our opinion, Fomento Económico Mexicano, S.A.B. de C.V. and subsidiaries (the Company) maintained, in all material respects, effective internal control over financial reporting as of December 31, 2017, based on the COSO criteria.

As indicated in the accompanying Management's Annual Report on Internal Control over Financial Reporting, management's assessment of and conclusion on the effectiveness of internal control over financial reporting did not include the internal controls of Coca Cola FEMSA Philippines, Inc. and subsidiaries (collectively - CCFPI, a Philippine subsidiary), consolidated since January 27, 2017, which is included in the 2017 consolidated financial statements of Fomento Económico Mexicano, S.A.B. de C.V. and subsidiaries and constituted 4.8% and 4.7% of total and net assets, as of December 31, 2017 and 4.5% of revenues for the year then ended. Our audit of internal control over financial reporting of the Company, also did not include an evaluation of the internal control over financial reporting of CCFPI.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated statement of financial position of the Company as of December 31, 2017 and 2016, the related consolidated statements of income, comprehensive income, changes in equity, and cash flows for each of the three years in the period ended December 31, 2017, and the related notes, and our report dated April 24, 2018, expressed an unqualified opinion thereon.

Basis for opinion

The Company's management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Annual Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Mexico according to the Código de Ética Profesional del Instituto Mexicano de Contadores Públicos (IMCP Code), and the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects.

Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also includes performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

Definitions and limitations of internal control over financial reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with International Financial Reporting Standards, as issued by the International Accounting Standard Board (IFRS). A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with IFRS, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

(d) Changes in Internal Control over Financial Reporting

There has been no change in our internal control over financial reporting during 2017 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

ITEM 16A. AUDIT COMMITTEE FINANCIAL EXPERT

Our shareholders and our board of directors have designated Víctor Alberto Tiburcio Celorio, an independent director under the Mexican Securities Law and applicable U.S. Securities Laws and NYSE listing standards, as an audit committee financial expert within the meaning of this Item 16A. See **Item 6. Directors, Senior Management and Employees Directors.**

ITEM 16B. CODE OF ETHICS

We have adopted a code of ethics, within the meaning of this Item 16B of Form 20-F. Our code of ethics applies to our principal executive officer, principal financial officer, principal accounting officer and persons performing similar functions as well as to our directors and other officers and employees. Our code of ethics is available on our website at http://ir.femsa.com/code_ethics.cfm. If we amend the provisions of our code of ethics that apply to our principal executive officer, principal financial officer, principal accounting officer and persons performing similar functions, or if we grant any waiver of such provisions, we will disclose such amendment or waiver on our website at the same address.

ITEM 16C. PRINCIPAL ACCOUNTANT FEES AND SERVICES

Audit and Non-Audit Fees

For the fiscal years ended December 31, 2017, 2016 and 2015, Mancera, S.C., a member practice of Ernst & Young Global Limited, was our auditor.

The following table summarizes the aggregate fees billed to us in 2017, 2016 and 2015 by Mancera, S.C., which is an independent registered public accounting firm, during the fiscal years ended December 31, 2017, 2016 and 2015:

	Year ended December 31,		
	2017	2016	2015
	(in millions of Mexican pesos)		
Audit fees	Ps.129	Ps.111	Ps.101
Audit-related fees	18	15	2
Tax fees	13	14	7
Other fees	1	4	36
Total	Ps.161	Ps.144	Ps.146

Audit fees. Audit fees in the above table represent the aggregate fees billed in connection with the audit of our annual financial statements, as well as to other limited procedures in connection with our quarterly financial information and other statutory and regulatory audit activities.

Audit-related fees. Audit-related fees in the above table are the aggregate fees billed for assurance and other services related to the performance of the audit, mainly in connection with bond issuance processes and other special audits and reviews.

Tax fees. Tax fees in the above table are fees billed for services based upon existing facts and prior transactions in order to document, compute and obtain government approval for amounts included in tax filings such as value-added tax return assistance and transfer pricing documentation.

Other fees. Other fees in the above table include mainly fees billed for due diligence services.

Audit Committee Pre-Approval Policies and Procedures

We have adopted pre-approval policies and procedures under which all audit and non-audit services provided by our external auditors must be pre-approved by the audit committee as set forth in the Audit Committee's charter. Any service proposals submitted by external auditors need to be discussed and approved by the Audit Committee during its meetings, which take place at least four times a year. Once the proposed service is approved, we or our subsidiaries formalize the engagement of services. The approval of any audit and non-audit services to be provided by our external auditors is specified in the minutes of our Audit Committee. In addition, the members of our board of directors are briefed on matters discussed by the different committees of our board of directors.

ITEM 16D. NOT APPLICABLE

ITEM 16E. PURCHASES OF EQUITY SECURITIES BY THE ISSUER AND AFFILIATED PURCHASERS

We did not purchase any of our equity securities in 2017. The following table presents purchases by trusts that we administer in connection with our stock incentive plans, which purchases may be deemed to be purchases by an affiliated purchaser of us. See **Item 6. Directors, Senior Management and Employees EVA Stock Incentive Plan.**

Purchases of Equity Securities

Period	Total Number of BD Units Purchased	Average Price Paid per BD Units	Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	Maximum Number (or Appropriate U.S. dollar Value) of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs
March 2017	2,456,785	Ps. 165.82		

ITEM 16F. NOT APPLICABLE

ITEM 16G. CORPORATE GOVERNANCE

Pursuant to Rule 303A.11 of the Listed Company Manual of the NYSE, we are required to provide a summary of the significant ways in which our corporate governance practices differ from those required for U.S. companies under the NYSE listing standards. We are a Mexican corporation with shares listed on the Mexican Stock Exchange. Our corporate governance practices are governed by our bylaws, the Mexican Securities Law and the regulations issued by the CNBV. We also disclose the extent of compliance with the *Código de Mejores Prácticas Corporativas* (Mexican Code of Best Corporate Practices), which was created by a group of Mexican business leaders and was endorsed by the Mexican Stock Exchange.

The table below discloses the significant differences between our corporate governance practices and the NYSE standards.

NYSE Standards

Directors independence: A majority of the board of directors must be independent.

Our Corporate Governance Practices

Directors independence: Pursuant to the Mexican Securities Law, we are required to have a board of directors with a maximum of 21 members, 25% of whom must be independent.

The Mexican Securities Law sets forth, in article 26, the definition of independence, which differs from the one set forth in Section 303A.02 of the Listed Company Manual of the NYSE. Generally, under the Mexican Securities Law, a director is not independent if such director: (i) is an employee or a relevant officer of the company or its subsidiaries; (ii) is an individual with significant influence over the company or its subsidiaries; (iii) is a shareholder or participant of the controlling group of the company; (iv) is a client, supplier, debtor, creditor, partner or employee of an important client, supplier, debtor or creditor of the company; or (v) is a family member of any of the aforementioned persons.

In accordance with the Mexican Securities Law, our shareholders are required to make a determination as to the independence of our directors at an ordinary meeting of our shareholders, though the CNBV may challenge that determination. Our board of directors is not required to make a determination as to the independence of our directors.

NYSE Standards

Executive sessions: Non-management directors must meet at regularly scheduled executive sessions without management.

Nominating/Corporate Governance Committee: A nominating/corporate governance committee composed entirely of independent directors is required.

Compensation Committee: A compensation committee composed entirely independent directors is required.

Audit Committee: Listed companies must have an audit committee satisfying the independence and other requirements of Rule 10A-3 under the Exchange Act and the NYSE independence standards.

Equity compensation plan: Equity compensation plans require shareholder approval, subject to limited exemptions.

Code of business conduct and ethics: Corporate governance guidelines and a code of conduct and ethics are required, with disclosure of any waiver for directors or executive officers.

Our Corporate Governance Practices

Executive sessions: Under our bylaws and applicable Mexican law, our non-management and independent directors are not required to meet in executive sessions.

Our bylaws state that the board of directors will meet at least four times a year, following the end of each quarter, to discuss our operating results and progress in achieving strategic objectives. Our board of directors can also hold extraordinary meetings.

Nominating/Corporate Governance Committee: We are not required to have a nominating committee, and the Mexican Code of Best Corporate Practices does not provide for a nominating committee.

However, Mexican law requires us to have a Corporate Practices Committee. Our Corporate Practices Committee is composed of three members, and as required by the Mexican Securities Law and our bylaws, the three members are independent, and its chairman is elected at the shareholders' meeting.

Compensation Committee: We do not have a committee that exclusively oversees compensation issues. Our Corporate Practices Committee, composed entirely of independent directors, reviews and recommends management compensation programs in order to ensure that they are aligned with shareholders' interests and corporate performance.

Audit Committee: We have an Audit Committee of five members, as required by the Mexican Securities Law. Each member of the Audit Committee is an independent director, and its chairman is elected at the shareholders' meeting.

Equity compensation plan: Shareholder approval is not required under Mexican law or our bylaws for the adoption and amendment of an equity compensation plan. Such plans should provide for general application to all executives. Our current equity compensation plans have been approved by our board of directors.

Code of business conduct and ethics: We have adopted a code of ethics, within the meaning of Item 16B of SEC Form 20-F. Our code of ethics applies to our Chief Executive Officer, Chief Financial Officer and persons performing similar functions as well as to our directors and other officers and employees. Our code of ethics is available on our website at http://ir.femsa.com/code_ethics.cfm. If we amend the provisions of our code of ethics that apply to our Chief Executive Officer, Chief Financial Officer and persons performing similar functions, or if we grant any waiver of such provisions, we will disclose such amendment or waiver on our website at the same address.

Report of Independent Registered Public Accounting Firm

To the shareholders and the board of directors of

Fomento Económico Mexicano, S.A.B. de C.V.

Opinion on the Financial Statements

We have audited the accompanying consolidated statements of financial position of Fomento Económico Mexicano, S.A.B. de C.V. and subsidiaries (the Company) as of December 31, 2017 and 2016, the related consolidated income statements and statements of comprehensive income, changes in equity and cash flows for each of the three years in the period ended December 31, 2017, and the related notes (collectively referred to as the financial statements). In our opinion, based on our audits and the report of the other auditors, the financial statements present fairly, in all material respects, the consolidated financial position of the Company at December 31, 2017 and 2016, and the consolidated results of its operations and its cash flows for each of the three years in the period ended December 31, 2017, in conformity with International Financial Reporting Standards as issued by the International Accounting Standards Board.

We did not audit the consolidated financial statements of Heineken N.V. (a corporation in which the Company has an 8.63% and 12.53% interest December 31, 2017 and 2016 respectively) which is majority owned by Heineken Holding N.V. (a corporation in which the Company has a 12.26% and 14.94% interest at December 31, 2017 and 2016 respectively) (collectively Heineken). In the consolidated financial statements, the Company's investment in Heineken includes Ps. 46,349 (\$.1,966) and Ps.57,618 (\$.2,648) million at December 31, 2017 and 2016, respectively, and equity in the net income of Heineken of Ps. 7,656, (\$.357) Ps. 6,430 (\$.308) and Ps. 6,567 (\$.378) million for each of the three years in the period ended December 31, 2017, which are exclusive of the impact of goodwill and other adjustments recorded by the Company. The financial statements of Heineken were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for Heineken, is based solely on the report of the other auditors.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company's internal control over financial reporting as of December 31, 2017, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 Framework) and our report dated April 24, 2018 expressed an unqualified opinion thereon.

Basis for opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Mexico according to the Código de Ética Profesional del Instituto Mexicano de Contadores Públicos (IMCP Code), and the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates

made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits and the report of the other auditors provide a reasonable basis for our opinion.

FOMENTO ECONÓMICO MEXICANO, S.A.B. DE C.V. AND SUBSIDIARIES**MONTERREY, N.L., MEXICO***Notes to the Consolidated Financial Statements*

For the years ended December 31, 2017, 2016 and 2015.

Amounts expressed in millions of U.S. dollars (\$) and in millions of Mexican pesos (Ps.)

Note 1. Activities of the Company

Fomento Económico Mexicano, S.A.B. de C.V. (FEMSA) is a Mexican holding company. The principal activities of FEMSA and its subsidiaries (the Company) are carried out by operating subsidiaries and companies that are direct and indirect holding company subsidiaries of FEMSA.

The following is a description of the Company's activities as of the date of the issuance of these consolidated financial statements, together with the ownership interest in each subholding company or business unit:

Subholding Company	% Ownership		Activities
	December 31, 2017	December 31, 2016	
Coca-Cola FEMSA, S.A.B. de C.V. and subsidiaries (Coca-Cola FEMSA)	47.2% ^{(1) (2)} (63.0% of the voting shares)	47.9% ⁽¹⁾ (63.0% of the voting shares)	Production, distribution and marketing of certain Coca-Cola trademark beverages in Mexico, Guatemala, Nicaragua, Costa Rica, Panama, Colombia, Venezuela, Brazil, Argentina and Philippines (see Note 4). At December 31, 2017, The Coca-Cola Company (TCCC) indirectly owns 27.8% of Coca-Cola FEMSA's capital stock. In addition, shares representing 25% of Coca-Cola FEMSA's capital stock are traded on the Bolsa Mexicana de Valores (Mexican Stock Exchange - BMV) and on the New York Stock Exchange, Inc (NYSE) in the form of American Depositary Shares (ADS).
Retail Division	100%	100%	Small-box retail chain format operations in Mexico, Colombia and the United States, mainly under the trade name OXXO and Big John in Chile.
FEMSA Comercio, S.A. de C.V. and subsidiaries (FEMSA Comercio)	100%	100%	Fuel Division

			Retail service stations for fuels, motor oils, lubricants and car care products under the trade name OXXO GAS with operations in Mexico.
			Drugstores operations in Chile and Colombia, mainly under the trademark Cruz Verde and Mexico under various brands such as YZA, La Moderna and Farmacon.
Health Division ⁽⁴⁾	Various⁽³⁾	Various ⁽³⁾	
Heineken Investment	14.8%	20.0%	Heineken N.V. and Heineken Holding N.V. shares, which represents the aggregate of 14.8% ⁽⁵⁾ economic interest in both entities (Heineken Group).
Other companies	100%	100%	Companies engaged in the production and distribution of coolers, commercial refrigeration equipment, plastic cases, food processing, preservation and weighing equipment; as well as logistic transportation and maintenance services to FEMSA s subsidiaries and to third parties.

- (1) The Company controls Coca-Cola FEMSA s relevant activities.
- (2) The ownership decreased from 47.9% as of December 31, 2016 to 47.2% as of December 31, 2017 as a result of the issuance to former owners of Vonpar of shares in Coca-Cola FEMSA (see Note 4).
- (3) The former shareholders of Farmacias YZA hold a 23% stake in Cadena Comercial de Farmacias, S.A.P.I. de C.V., a subsidiary of FEMSA Comercio that holds all pharmacy business in Mexico (which we refer to as CCF). In addition, FEMSA Comercio through one of its subsidiaries, Cadena Comercial de Farmacias Sudamerica, S.P.A., holds a 60% stake in Grupo Socofar, see Note 4.1.2.
- (4) From 2016, FEMSA Comercio Health Division has been considered as a separate reportable segment, see Note 26.
- (5) The economic interest decreased from 20.0% as of December 31, 2016 to 14.8% as of December 31, 2017 as a result of partial disposal transaction (see Note 4.2).

Note 2. Basis of Preparation

2.1 Statement of compliance

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

The Company s consolidated financial statements and notes were authorized for issuance by the Company s Chief Executive Officer Eduardo Padilla Silva and Chief Corporate Financial Officer Gerardo Estrada Attolini on February 21, 2018. These consolidated financial statements and notes were then approved by the Company s Board of Directors on February 27, 2018 and by the Shareholders meeting on March 16, 2018. The accompanying consolidated financial statements were approved for issuance in the Company s annual report on Form 20-F by the Company s Chief Executive Officer and Chief Corporate Financial Officer on April 24, 2018, and subsequent events have been considered through that date (see Note 28).

2.2 Basis of measurement and presentation

The consolidated financial statements have been prepared on the historical cost basis, except for the following:

Available-for-sale investments.

Derivative financial instruments.

Long-term notes payable on which fair value hedge accounting is applied.

Trust assets of post-employment and other long-term employee benefit plans.

The carrying values of recognized assets and liabilities that are designated as hedged items in fair value hedges that would otherwise be carried at amortized cost are adjusted to record changes in the fair values attributable to the risks that are being hedged in effective hedge relationship.

The financial statements of subsidiaries whose functional currency is the currency of a hyperinflationary economy are stated in terms of the measuring unit current at the end of the reporting period.

2.2.1 Presentation of consolidated income statement

The Company classifies its costs and expenses by function in the consolidated income statement, in order to conform to the industry practices where the Company operates.

2.2.2 Presentation of consolidated statements of cash flows

The Company s consolidated statement of cash flows is presented using the indirect method.

2.2.3 Convenience translation to U.S. dollars (\$)

The consolidated financial statements are stated in millions of Mexican pesos (Ps.) and rounded to the nearest million unless stated otherwise. However, solely for the convenience of the readers, the consolidated statement of financial position as of December 31, 2017, the consolidated income statement, the consolidated statement of comprehensive income and consolidated statement of cash flows for the year ended December 31, 2017 were converted into U.S. dollars at the exchange rate of 19.6395 Mexican pesos per U.S. dollar as published by the Federal Reserve Bank of New York as of December 29, 2017 the last date in 2017 for available information. This arithmetic conversion should not be construed as representation that the amounts expressed in Mexican pesos may be converted into U.S. dollars at that or any other exchange rate. As explained in Note 2.1 above, as of April 20, 2018 (the issuance date of these financial statements) such exchange rate was Ps. 18.6145 per U.S. dollar, a revaluation of 6% since December 31, 2017.

2.3 Critical accounting judgments and estimates

In the application of the Company's accounting policies, which are described in Note 3, management is required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Real results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

2.3.1 Key sources of estimation uncertainty

The following are the key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

2.3.1.1 Impairment of indefinite lived intangible assets, goodwill and depreciable long-lived assets

Intangible assets with indefinite lives including goodwill are subject to impairment tests annually or whenever indicators of impairment are present. An impairment exists when the carrying value of an asset or cash generating unit (CGU) exceeds its recoverable amount, which is the higher of its fair value less costs to sell and its value in use. The fair value less costs to sell calculation is based on available data from binding sales transactions in arm's length transactions of similar assets or observable market prices less incremental costs for disposing of the asset. In order to determine whether such assets are impaired, the Company initially calculates an estimation of the value in use of the cash-generating units to which such assets have been allocated. Impairment losses are recognized in current earnings in the period the related impairment is determined.

The Company assesses at each reporting date whether there is an indication that a long-lived asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded subsidiaries or other available fair value indicators.

The key assumptions used to determine the recoverable amount for the Company's CGUs, including a sensitivity analysis, are further explained in Notes 3.16 and 12.

2.3.1.2 Useful lives of property, plant and equipment and intangible assets with definite useful lives

Property, plant and equipment, including returnable bottles which are expected to provide benefits over a period of more than one year, as well as intangible assets with definite useful lives are depreciated/amortized over their estimated useful lives. The Company bases its estimates on the experience of its technical personnel as well as its experience in the industry for similar assets, see Notes 3.12, 3.14, 11 and 12.

F-11

2.3.1.3 Employee benefits

The Company regularly evaluates the reasonableness of the assumptions used in its post-employment and other long-term employee benefit computations. Information about such assumptions is described in Note 16.

2.3.1.4 Income taxes

Deferred income tax assets and liabilities are determined based on the differences between the financial statement carrying amounts and the tax bases of assets and liabilities. The Company recognizes deferred tax assets for unused tax losses and other credits and regularly reviews them for recoverability, based on its judgment regarding the probability of the timing and level of future taxable income, the expected timing of the reversals of existing taxable temporary differences and future tax planning strategies, see Note 24.

2.3.1.5 Tax, labor and legal contingencies and provisions

The Company is subject to various claims and contingencies related to tax, labor and legal proceedings as described in Note 25. Due to their nature, such legal proceedings involve inherent uncertainties including, but not limited to, court rulings, negotiations between affected parties and governmental actions. Management periodically assesses the probability of loss for such contingencies and accrues a provision and/or discloses the relevant circumstances, as appropriate. If the potential loss of any claim or legal proceeding is considered probable and the amount can be reasonably estimated, the Company accrues a provision for the estimated loss. Management's judgment must be exercised to determine the likelihood of such a loss and an estimate of the amount, due to the subjective nature of the loss.

2.3.1.6 Valuation of financial instruments

The Company is required to measure all derivative financial instruments at fair value.

The fair values of derivative financial instruments are determined considering quoted prices in recognized markets. If such instruments are not traded, fair value is determined by applying techniques based upon technical models supported by sufficient reliable and verifiable data, recognized in the financial sector. The Company bases its forward price curves upon market price quotations. Management believes that the chosen valuation techniques and assumptions used are appropriate in determining the fair value of financial instruments, see Note 20.

2.3.1.7 Business combinations

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Company to, and liabilities assumed by the Company from the former owners of the acquiree, the amount of any non-controlling interest in the acquiree, and the equity interests issued by the Company in exchange for control of the acquiree.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognized and measured at their fair value, except that:

Deferred tax assets or liabilities, and assets or liabilities related to employee benefit arrangements are recognized and measured in accordance with IAS 12, *Income Taxes* and IAS 19, *Employee Benefits*, respectively;

Liabilities or equity instruments related to share-based payment arrangements of the acquiree or share-based payment arrangements of the Company entered into to replace share-based payment arrangements of the acquiree are measured in accordance with IFRS 2, *Share-based Payment* at the acquisition date, see Note 3.24; and

Assets (or disposal groups) that are classified as held for sale in accordance with IFRS 5, *Non-current Assets Held for Sale and Discontinued Operations* are measured in accordance with that standard.

Indemnifiable assets are recognized at the acquisition date on the same basis as the indemnifiable liability subject to any contractual limitations.

For each acquisition, management's judgment must be exercised to determine the fair value of the assets acquired, the liabilities assumed and any non-controlling interest in the acquiree, applying estimates or judgments in techniques used, especially in forecasting CGU's cash flows, in the computation of weighted average cost of capital (WACC) and estimation of inflation during the identification of intangible assets with indefinite lives, mainly, goodwill, distribution and trademark rights.

2.3.2 Judgements

In the process of applying the Company's accounting policies, management has made the following judgements which have the most significant effects on the amounts recognized in the consolidated financial statements.

2.3.2.1 Investments in associates

If the Company holds, directly or indirectly, 20 per cent or more of the voting power of the investee, it is presumed that it has significant influence, unless it can be clearly demonstrated that this is not the case. If the Company holds, directly or indirectly, less than 20 per cent of the voting power of the investee, it is presumed that the Company does not have significant influence, unless such influence can be clearly demonstrated. Decisions regarding the propriety of utilizing the equity method of accounting for a less than 20 per cent-owned corporate investee requires a careful evaluation of voting rights and their impact on the Company's ability to exercise significant influence. Management considers the existence of the following circumstances which may indicate that the Company is in a position to exercise significant influence over a less than 20 per cent-owned corporate investee:

Representation on the board of directors or equivalent governing body of the investee;

Participation in policy-making processes, including participation in decisions about dividends or other distributions;

Material transactions between the Company and the investee;

Interchange of managerial personnel; or

Provision of essential technical information.

Management also considers the existence and effect of potential voting rights that are currently exercisable or currently convertible when assessing whether the Company has significant influence.

In addition, the Company evaluates certain indicators that provide evidence of significant influence, such as:

Whether the extent of the Company's ownership is significant relative to other shareholders (i.e., a lack of concentration of other shareholders);

Whether the Company's significant shareholders, fellow subsidiaries, or officers hold additional investment in the investee; and

Whether the Company is a part of significant investee committees, such as the executive committee or the finance committee.

F-13

2.3.2.2 Joint arrangements

An arrangement can be a joint arrangement even though not all of its parties have joint control of the arrangement. When the Company is a party to an arrangement it shall assess whether the contractual arrangement gives all the parties, or a group of the parties, control of the arrangement collectively; joint control exists only when decisions about the relevant activities require the unanimous consent of the parties that control the arrangement collectively. Management needs to apply judgment when assessing whether all the parties, or a group of the parties, have joint control of an arrangement. When assessing joint control, management considers the following facts and circumstances such as:

- a) Whether all the parties or a group of the parties, control the arrangement, considering definition of joint control, as described in Note 3.11.2; and
- b) Whether decisions about the relevant activities require the unanimous consent of all the parties, or of a group of the parties.

As mentioned in Note 4, until January 2017, Coca-Cola FEMSA accounted for its 51% investment in Coca-Cola FEMSA Philippines, Inc. (CCFPI) as a joint venture, this was based on the facts that Coca-Cola FEMSA and TCCC: (i) make all operating decisions jointly during the initial four-year period and (ii) potential voting rights to acquire the remaining 49% of CCFPI were not probable to be exercised in the foreseeable future and the fact that the call option remains out of the money as of December 31, 2017.

2.3.2.3 Venezuela exchange rates and deconsolidation

As is further explained in Note 3.3 below, as of December 31, 2017, the exchange rate used to translate the financial statements of the Company's Venezuelan subsidiary for reporting purposes into the consolidated financial statements was 22,793 bolivars per U.S. dollar.

As is also explained in Note 3.3 below, effective December 31, 2017, the Company deconsolidated its Coca-Cola FEMSA subsidiary's operations in Venezuela due to the challenging economic environment in that country and began accounting for the operations under the fair value method.

2.4 Application of recently issued accounting standards

The Company has applied the following amendments to IFRS during 2017:

Amendments to IAS 7, Disclosure Initiative

The amendments to IAS 7 Statement of Cash Flows, require that the following changes in liabilities arising from financing activities be disclosed separately from changes in other assets and liabilities: (i) changes from financing cash flows; (ii) changes arising from obtaining or losing control of subsidiaries or other businesses; (iii) the effect of changes in foreign exchange rates; (iv) changes in fair values; and (v) other changes.

Liabilities arising from financing activities are those for which cash flows were, or future cash flows will be, classified in the statement of cash flows as cash flows from financing activities. (see Note 18.1).

Amendments to IAS 12, Recognition of Deferred Tax Assets for Unrealized Losses

The amendments clarify that the Company needs to consider whether tax law restricts the sources of taxable profits against which it may make deductions on the reversal of that deductible temporary difference. Furthermore, the amendments provide guidance on how an entity should determine future taxable profits and explain the circumstances in which taxable profit may include the recovery of some assets for more than their carrying amount. The Company did not have any impact in the adoption of these amendments.

Note 3. Significant Accounting Policies

3.1 Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company. Control is achieved when the Company is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

Specifically, the Company controls an investee if and only if the Company has:

Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee);

Exposure, or rights, to variable returns from its involvement with the investee; and

The ability to use its power over the investee to affect its returns.

When the Company has less than a majority of the voting or similar rights of an investee, the Company considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

The contractual arrangements with the other vote holders of the investee;

Rights arising from other contractual arrangements; and

The Company's voting rights and potential voting rights.

The Company re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary are included in the consolidated financial statements of income and comprehensive income from the date the Company gains control until the date the Company ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Company and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Company's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Company are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Company loses control over a subsidiary, it:

Derecognizes the assets (including goodwill) and liabilities of the subsidiary.

Derecognizes the carrying amount of any non-controlling interests.

Derecognizes the cumulative translation differences recorded in equity.

Recognizes the fair value of the consideration received.

Recognizes the fair value of any investment retained.

Recognizes any surplus or deficit in profit or loss.

Reclassifies the parent's share of components previously recognized in OCI to profit or loss or retained earnings, as appropriate, as would be required if the Company had directly disposed of the related assets or liabilities.

3.1.1 Acquisitions of non-controlling interests

Acquisitions of non-controlling interests are accounted for as transactions with owners in their capacity as owners and therefore no goodwill is recognized as a result. Adjustments to non-controlling interests arising from transactions that do not involve the loss of control are measured at carrying amount and reflected in shareholders' equity as part of additional paid-in capital.

3.2 Business combinations

Business combinations are accounted for using the acquisition method at the acquisition date, which is the date on which control is transferred to the Company. The cost of an acquisition is measured as the aggregate of the consideration transferred, which is measured at acquisition date fair value, and the amount of any non-controlling interests in the acquiree. For each business combination, the Company elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the Company previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after reassessment, the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the Company previously held interest in the acquiree (if any), the excess is recognized immediately in profit or loss as a bargain purchase gain.

Costs, other than those associated with the issuance of debt or equity securities, that the Company incurs in connection with a business combination are expensed as incurred.

Any contingent consideration payable is recognized at fair value at the acquisition date. If the contingent consideration is classified as equity, it is not remeasured and settlement is accounted for within equity. Otherwise, subsequent changes to the fair value of the contingent considerations are recognized in consolidated net income.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Company reports provisional amounts for the items in which the accounting is incomplete, and discloses that its allocation is preliminary in nature. Those provisional amounts are adjusted retrospectively during the measurement period (not greater than 12 months from the acquisition date), or additional assets or liabilities are recognized, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognized at that date.

Sometimes obtaining control of an acquiree in which equity interest is held immediately before the acquisition date is considered as a business combination achieved in stages also referred to as a step acquisition. The Company remeasures its previously held equity interest in the acquiree at its acquisition-date fair value and recognizes the resulting gain or loss, if any, in profit or loss. Also, the changes in the value of equity interest in the acquiree recognized in other comprehensive income shall be recognized on the same basis as required if the Company had disposed directly of the previously held equity interest, see Note 3.11.2.

The Company sometimes obtains control of an acquiree without transferring consideration. The acquisition method of accounting for a business combination, applies to those combinations as follows:

- (a) The acquiree repurchases a sufficient number of its own shares for the Company to obtain control.
- (b) Minority veto rights lapse that previously kept the Company from controlling an acquiree in which it held the majority voting rights.
- (c)

The Company and the acquiree agree to combine their businesses by contract alone in which it transfers no consideration in exchange for control and no equity interest is held in the acquiree, either on the acquisition date or previously.

3.3 Foreign currencies, consolidation of foreign subsidiaries and accounting for investments in associates and joint ventures

In preparing the financial statements of each individual subsidiary and accounting for investments in associates and joint ventures, transactions in currencies other than the individual entity's functional currency (foreign currencies) are recognized at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognized in consolidated net income in the period in which they arise except for:

The variations in the net investment in foreign subsidiaries generated by exchange rate fluctuation which are included in other comprehensive income, which is recorded in equity as part of accumulated translation adjustment within the cumulative other comprehensive income.

Intercompany financing balances with foreign subsidiaries are considered as long-term investments when there is no plan to pay such financing in the foreseeable future. Monetary position and exchange rate fluctuation regarding this financing is recorded in the exchange differences on translation of foreign operations within the accumulated other comprehensive income (loss) item, which is recorded in equity.

Exchange differences on transactions entered into in order to hedge certain foreign currency risks. Foreign exchange differences on monetary items are recognized in profit or loss. Their classification in the income statement depends on their nature. Differences arising from fluctuations related to operating activities are presented in the other expenses line (see Note 19) while fluctuations related to non-operating activities such as financing activities are presented as part of foreign exchange gain (loss) line in the income statement.

For incorporation into the Company's consolidated financial statements, each foreign subsidiary, associates or joint venture's individual financial statements are translated into Mexican pesos, as follows:

For hyperinflationary economic environments, the inflation effects of the origin country are recognized pursuant IAS 29 Financial Reporting in Hyperinflationary Economies, and subsequently translated into Mexican pesos using the year-end exchange rate for the consolidated statements of financial position and consolidated income statement and comprehensive income; and

For non-hyperinflationary economic environments, assets and liabilities are translated into Mexican pesos using the year-end exchange rate, equity is translated into Mexican pesos using the historical exchange rate, and the income statement and comprehensive income is translated using the exchange rate at the date of each transaction.

The Company uses the average exchange rate of each month if the exchange rate does not fluctuate significantly. In addition, in relation to a partial disposal of a subsidiary that does not result in the Company losing control over the subsidiary, the proportionate share of accumulated exchange differences are re-attributed to non-controlling interests and are not recognized in profit or loss. For all other partial disposals (i.e., partial disposals of associates or joint ventures that do not result in the Company losing significant influence or joint control), the proportionate share of the accumulated exchange differences is reclassified to profit or loss. In September 2017, the Company sold shares equal to 5.2% of economic interest in Heineken Group, consequently it reclassified the proportionate share of the accumulated exchange differences, recognized previously in other comprehensive income, for a total profit of Ps. 6,632 to the consolidated statement of income.

Goodwill and fair value adjustments on identifiable assets and liabilities acquired arising on the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and translated at the rate of exchange prevailing at the end of each reporting period. Foreign exchange differences arising are recognized in equity as part of the cumulative translation adjustment.

The translation of assets and liabilities denominated in foreign currencies into Mexican pesos is for consolidation purposes and does not indicate that the Company could realize or settle the reported value of those assets and liabilities in Mexican pesos. Additionally, this does not indicate that the Company could return or distribute the reported Mexican peso value in equity to its shareholders.

Exchange Rates of Local Currencies Translated to Mexican Pesos⁽¹⁾

Country or Zone	Functional / Recording Currency	Average Exchange Rate for			Exchange Rate as of	
		2017	2016	2015	December 31, 2017	December 31, 2016

(1) Exchange rates published by the Central Bank of each country where the Company operates.

a) Venezuela

Effective December 31, 2017, the Company determined that the deteriorating conditions in Venezuela had led Coca-Cola FEMSA to no longer meet the accounting criteria to consolidate its Venezuelan subsidiary. Such deteriorating conditions had significantly impacted Coca-Cola FEMSA's ability to manage its capital structure, its capacity to purchase raw materials and limitations of portfolio dynamics. In addition, certain government controls over pricing, restriction over labor practices, acquisition of U.S. dollars and imports, has affected the normal course of business. Therefore, and due to the fact that its Venezuelan subsidiary will continue doing operations in Venezuela, as of December 31, 2017, Coca-Cola FEMSA changed the method of accounting for its investment in Venezuela from consolidation to fair value measured using a Level 3 concept.

As a result of the deconsolidation, Coca-Cola FEMSA also recorded an extraordinary loss within other expenses for an amount of Ps. 28,177 on December 31, 2017. Such effect includes the reclassification of Ps. 26,123 to the income statement previously recorded within accumulated foreign currency translation losses in equity, impairment equal to Ps. 745 and Ps. 1,098 mainly from distribution rights and property, plant and equipment, respectively, and Ps. 210 for the remeasurement at fair-value of Venezuelan investment.

Prior to deconsolidation, during 2017, Coca-Cola FEMSA's Venezuelan operations contributed Ps. 4,005 to net sales, and losses of Ps. 2,223 to net income. Its total assets were Ps. 4,138 and the total liabilities were Ps. 2,889.

Beginning January 1, 2018, Coca-Cola FEMSA will recognize its investment in Venezuela under the fair value method following the new IFRS 9 Financial Instruments standard.

Until December 31, 2017, Coca-Cola FEMSA's recognition of its Venezuelan operations involved a two-step accounting process in order to translate into bolivars all transactions in a different currency than bolivars and then to translate the bolivar amounts to Mexican Pesos.

F-18

Step-one.- Transactions are first recorded in the stand-alone accounts of the Venezuelan subsidiary in its functional currency, which is bolivar. Any non-bolivar denominated monetary assets or liabilities are translated into bolivars at each balance sheet date using the exchange rate at which Coca-Cola FEMSA expects them to be settled, with the corresponding effect of such translation being recorded in the income statement. See 3.4 below.

As of December 31, 2016, Coca-Cola FEMSA had U.S. \$629 million in monetary liabilities recorded using DIPRO (Divisa Protegida) exchange rate at 10 bolivars per U.S. dollar, mainly because as of that date Coca-Cola FEMSA believed it continued to qualify for that rate to pay for the import of various products into Venezuela, and its ability to renegotiate with their main suppliers, if necessary, the settlement of such liabilities in bolivars. In addition, Coca-Cola FEMSA has U.S. \$104 million recorded at DICOM (Divisas Complementarias) exchange rate at 673.76 bolivars per U.S. dollar.

Step-two.- In order to integrate the results of the Venezuelan operations into the consolidated figures of Coca-Cola FEMSA, such Venezuelan results are translated from Venezuelan bolivars into Mexican pesos.

In December 2017, Coca-Cola FEMSA translated the Venezuela entity figures at an exchange rate of 22,793 bolivars per U.S. dollar, as such exchange rate better represents the economic conditions in Venezuela. Coca-Cola FEMSA considers that this exchange rate provides more useful and relevant information with respect to Venezuela's financial position, financial performance and cash flows. On January 30, 2018, a new auction of the DICOM celebrated by Venezuela's government resulted on an estimated exchange rate of 25,000 bolivar per U.S. dollar.

3.4 Recognition of the effects of inflation in countries with hyperinflationary economic environments

The Company recognizes the effects of inflation on the financial information of its Venezuelan subsidiary that operates in hyperinflationary economic environments (when cumulative inflation of the three preceding years is approaching, or exceeds, 100% or more in addition to other qualitative factors), which consists of:

Using inflation factors to restate non-monetary assets, such as inventories, property, plant and equipment, intangible assets, including related costs and expenses when such assets are consumed or depreciated;

Applying the appropriate inflation factors to restate capital stock, additional paid-in capital, net income, retained earnings and items of other comprehensive income by the necessary amount to maintain the purchasing power equivalent in the currency of Venezuela on the dates such capital was contributed or income was generated up to the date those consolidated financial statements are presented; and

Including the monetary position gain or loss in consolidated net income.

The Company restates the financial information of subsidiaries that operate in hyperinflationary economic environment using the consumer price index of each country (CPI).

As disclosed in Note 3.3, Coca-Cola FEMSA deconsolidated its operations in Venezuela. Consequently, there will not be financial impacts associated to inflation adjustments in future financial statements, however, Coca-Cola FEMSA's Venezuelan subsidiary will continue operating.

As of December 31, 2017, 2016, and 2015, the operations of the Company are classified as follows:

Country	Cumulative Inflation 2015- 2017	Type of Economy	Cumulative Inflation 2014- 2016	Type of Economy	Cumulative Inflation 2013- 2015	Type of Economy
Mexico	12.7%	Non-hyperinflationary	9.9%	Non-hyperinflationary	10.5%	Non-hyperinflationary
Guatemala	13.5%	Non-hyperinflationary	10.6%	Non-hyperinflationary	10.8%	Non-hyperinflationary
Costa Rica	2.5%	Non-hyperinflationary	5.1%	Non-hyperinflationary	8.1%	Non-hyperinflationary
Panama	2.3%	Non-hyperinflationary	2.8%	Non-hyperinflationary	5.1%	Non-hyperinflationary
Colombia	17.5%	Non-hyperinflationary	17.0%	Non-hyperinflationary	12.8%	Non-hyperinflationary
Nicaragua	12.3%	Non-hyperinflationary	13.1%	Non-hyperinflationary	15.8%	Non-hyperinflationary

F-19

Country	Cumulative Inflation	Type of Economy	Cumulative Inflation	Type of Economy	Cumulative Inflation	Type of Economy
	2015- 2017		2014- 2016		2013- 2015	
Argentina (a)	101.5%	Non-hyperinflationary	99.7%	Non-hyperinflationary	59.2%	Non-hyperinflationary
Venezuela	30,690.0%	Hyperinflationary	2,263.0%	Hyperinflationary	562.9%	Hyperinflationary
Brazil	21.1%	Non-hyperinflationary	25.2%	Non-hyperinflationary	24.7%	Non-hyperinflationary
Philippines	7.5%	Non-hyperinflationary	5.7%	Non-hyperinflationary	8.3%	Non-hyperinflationary
Euro Zone	2.72%	Non-hyperinflationary	1.2%	Non-hyperinflationary	0.9%	Non-hyperinflationary
Chile	9.67%	Non-hyperinflationary	12.2%	Non-hyperinflationary	12.5%	Non-hyperinflationary
Peru	9.28%	Non-hyperinflationary	11.2%	Non-hyperinflationary	10.8%	Non-hyperinflationary
Ecuador	30.34%	Non-hyperinflationary	8.4%	Non-hyperinflationary	10.0%	Non-hyperinflationary

a) Argentina

As of December 2017 and 2016 there are multiple inflation indices (including combination of indices in the case of CPI) or certain months without official available information in the case of National Wholesale Price Index (WPI), as follows:

- i) CPI for the City and Greater Buenos Aires Area (New CPI-CGBA), for which the IMF noted improvements in quality, this new consumer price index will only be provided for periods after April 2016 and does not provide national coverage.
- ii) Coeficiente de Estabilización de Referencia (CER or Reference Stabilization Ratio) to calculate the three-year cumulative inflation rate in Argentina, the CER is used by the government of Argentina to adjust the rate they pay on certain adjustable rate bonds they issue. At April 30, 2017, the three-year cumulative inflation rate based on CER data is estimated to be approximately 95.5%.
- iii) WPI with a cumulative inflation for three years of 92.2% at November 2016 but not including information for November and December 2015 since it was not published by the National Bureau of Statistics of Argentina (INDEC). The WPI has historically been viewed as the most relevant inflation measure for companies by practitioners in Argentina.

As a result of the existence of multiple inflation indices, the Company believes it necessitates an increased level of judgment in determining whether the economy of Argentina should be considered highly inflationary.

The Company believes that general market sentiment is that on the basis of the quantitative and qualitative indicators in IAS 29, the economy of Argentina should not be considered as hyperinflationary as of December 31, 2017. However, it is possible that certain market participants and regulators could have varying views on this topic both during 2017 and as Argentina's economy continues to evolve in 2018. The Company will continue to carefully monitor the situation and make appropriate changes if and when necessary.

3.5 Cash and cash equivalents and restricted cash

Cash is measured at nominal value and consists of non-interest bearing bank deposits. Cash equivalents consist principally of short-term bank deposits and fixed rate investments, both with maturities of three months or less at the acquisition date and are recorded at acquisition cost plus interest income not yet received, which is similar to market prices.

The Company also maintains restricted cash held as collateral to meet certain contractual obligations (see Note 9.2). Restricted cash is presented within other current financial assets given that the restrictions are short-term in nature.

3.6 Financial assets

Financial assets are classified into the following specified categories: fair value through profit or loss (FVTPL), held-to-maturity investments, available-for-sale and loans and receivables or as derivatives designated as hedging instruments in an effective hedge, as appropriate. The classification depends on the nature and purpose of holding the financial assets and is determined at the time of initial recognition.

When a financial asset is recognized initially, the Company measures it at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The Company's financial assets include cash, cash equivalents and restricted cash, investments with maturities of greater than three months, loans and receivables, derivative financial instruments and other financial assets.

3.6.1 Effective interest rate method (EIR)

The effective interest rate method is a method of calculating the amortized cost of loans and receivables and other financial assets (designated as held to-maturity) and of allocating interest income/expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees on points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

3.6.2 Financial assets at fair value through profit or loss (FVTPL)

Financial assets at fair value through profit or loss (FVTPL) include financial assets held for trading and financial assets designated upon initial recognition at fair value through profit or loss. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term. Derivatives, including separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments as defined by IAS 39 Financial Instruments: Recognition and Measurement. Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with net changes in fair value presented as finance costs (negative net changes in fair value) or finance income (positive net changes in fair value) in the statement of profit or loss.

3.6.3 Investments

Investments consist of debt securities and bank deposits with maturities of more than three months at the acquisition date. Management determines the appropriate classification of investments at the time of purchase and assesses such designation as of each reporting date (see Note 6).

3.6.3.1 Held-to maturity investments are those that the Company has the positive intent and ability to hold to maturity, and after initial measurement, such financial assets are subsequently measured at amortized cost, which includes any cost of purchase and premium or discount related to the investment. Subsequently, the premium/discount is amortized over the life of the investment based on its outstanding balance utilizing the effective interest method less any impairment. Interest and dividends on investments classified as held-to maturity are included in interest income.

3.6.4 Loans and receivables

Loans and receivables are non-derivative financial instruments with fixed or determinable payments that are not quoted in an active market. Loans and receivables with a stated term (including trade and other receivables) are measured at amortized cost using the effective interest method, less any impairment.

Interest income is recognized by applying the effective interest rate, except for short-term receivables when the recognition of interest would be immaterial. For the years ended December 31, 2016 and 2015 the interest income on loans and receivables recognized in the interest income line item within the consolidated income statements is Ps. 41 and Ps. 53, respectively.

3.6.5 Other financial assets

Other financial assets include long term accounts receivable, derivative financial instruments and recoverable contingencies acquired from business combinations. Long term accounts receivable with a stated term are measured at amortized cost using the effective interest method, less any impairment.

3.6.6 Impairment of financial assets

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of each reporting period. Financial assets are considered to be impaired when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, (an incurred loss event) and that loss event has an impact on the estimated future cash flows of the financial assets that can be reliably estimated.

Evidence of impairment may include indicators as follows:

Significant financial difficulty of the issuer or counterparty; or

Default or delinquent in interest or principal payments; or

It becoming probable that the borrower will enter bankruptcy or financial re-organization; or

The disappearance of an active market for that financial asset because of financial difficulties.

For financial assets carried at amortized cost, the amount of the impairment loss recognized is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade receivables, where the carrying amount is reduced through the use of an allowance for doubtful accounts. When a trade receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited to the allowance account. Changes in the carrying amount of the allowance account are recognized in consolidated net income.

3.6.7 Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized when:

The rights to receive cash flows from the financial asset have expired, or

The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a pass-through arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has

neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

F-22

3.6.8 Offsetting of financial instruments

Financial assets are required to be offset against financial liabilities and the net amount reported in the consolidated statement of financial position if, and only when the Company:

Currently has an enforceable legal right to offset the recognized amounts; and

Intends to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

3.7 Derivative financial instruments

The Company is exposed to different risks related to cash flows, liquidity, market and third party credit. As a result, the Company contracts different derivative financial instruments in order to reduce its exposure to the risk of exchange rate fluctuations between the Mexican peso and other currencies, and interest rate fluctuations associated with its borrowings denominated in foreign currencies and the exposure to the risk of fluctuation in the costs of certain raw materials.

The Company values and records all derivative financial instruments and hedging activities, in the consolidated statement of financial position as either an asset or liability measured at fair value, considering quoted prices in recognized markets. If such instruments are not traded in a formal market, fair value is determined by applying techniques based upon technical models supported by sufficient, reliable and verifiable market data. Changes in the fair value of derivative financial instruments are recorded each year in current earnings otherwise as a component of cumulative other comprehensive income based on the item being hedged and the effectiveness of the hedge.

3.7.1 Hedge accounting

The Company designates certain hedging instruments, which include derivatives to cover foreign currency risk, as either fair value hedges or cash flow hedges. Hedges of foreign exchange risk on firm commitments are accounted for as cash flow hedges.

At the inception of the hedge relationship, the Company documents the relationship between the hedging instrument and the hedged item, along with its risk management objectives and its strategy for undertaking various hedge transactions. Furthermore, at the inception of the hedge and on an ongoing basis, the Company documents whether the hedging instrument is highly effective in offsetting changes in fair values or cash flows of the hedged item attributable to the hedged risk.

3.7.1.1 Cash flow hedges

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognized in other comprehensive income and accumulated under the heading valuation of the effective portion of derivative financial instruments. The gain or loss relating to the ineffective portion is recognized immediately in consolidated net income, and is included in the market value (gain) loss on financial instruments line item within the consolidated income statements.

Amounts previously recognized in other comprehensive income and accumulated in equity are reclassified to consolidated net income in the periods when the hedged item is recognized in consolidated net income, in the same line of the consolidated income statement as the recognized hedged item. However, when the hedged forecast transaction results in the recognition of a non-financial asset or a non-financial liability, the gains and losses

previously recognized in other comprehensive income and accumulated in equity are transferred from equity and included in the initial measurement of the cost of the non-financial asset or non-financial liability.

Hedge accounting is discontinued when the Company revokes the hedging relationship, when the hedging instrument expires or is sold, terminated, or exercised, or when it no longer qualifies for hedge accounting. Any gain or loss recognized in cumulative other comprehensive income in equity at that time remains in equity and is recognized when the forecast transaction is ultimately recognized in consolidated net income. When a forecast transaction is no longer expected to occur, the gain or loss accumulated in equity is recognized immediately in consolidated net income.

3.7.1.2 Fair value hedges

For hedged items carried at fair value, the change in the fair value of a hedging derivative is recognized in the consolidated income statement as foreign exchange gain or loss. The change in the fair value of the hedged item attributable to the risk hedged is recorded as part of the carrying value of the hedged item and is also recognized in the consolidated income statement as foreign exchange gain or loss.

For fair value hedges relating to items carried at amortized cost, change in the fair value of the effective portion of the hedge is recognized first as an adjustment to the carrying value of the hedged item and then is amortized through profit or loss over the remaining term of the hedge using the EIR method. EIR amortization may begin as soon as an adjustment exists and no later than when the hedged item ceases to be adjusted for changes in its fair value attributable to the risk being hedged. If the hedged item is derecognized, the unamortized fair value is recognized immediately in profit or loss.

When an unrecognized firm commitment is designated as a hedged item, the subsequent cumulative change in the fair value of the firm commitment attributable to the hedged risk is recognized as an asset or liability with a corresponding gain or loss recognized in the consolidated net income.

3.7.2 Hedge of net investment in a foreign business

The Company applies hedge accounting to foreign currency differences arising between the functional currency of its investments abroad and the functional currency of the holding (Mexican peso), regardless of whether the net investment is held directly or through a sub-holding.

Differences in foreign currency that arise in the conversion of a financial liability designated as a hedge of a net investment in a foreign operation are recognized in other comprehensive income in the exchange differences on the translation of foreign operations and associates caption, to the extent that the hedge is effective. To the extent that the hedge is ineffective, such differences are recognized as market value gain or loss on financial instruments within the consolidated income statements. When part of the hedge of a net investment is disposed, the corresponding accumulated foreign currency translation effect is recognized as part of the gain or loss on disposal within the consolidated income statement.

3.8 Fair value measurement

The Company measures financial instruments, such as derivatives, and certain non-financial assets, at fair value at each balance sheet date. Also, fair values of financial instruments measured at amortized cost are disclosed in Notes 13 and 18.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

In the principal market for the asset or liability; or

In the absence of a principal market, in the most advantageous market for the asset or liability.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would

use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

F-24

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 Quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 Are unobservable inputs for the asset or liability. Unobservable inputs shall be used to measure fair value to the extent that observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at the measurement date.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Company determines the policies and procedures for both recurring fair value measurements, such as those described in Note 20 and unquoted liabilities such as debt described in Note 18.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

3.9 Inventories and cost of goods sold

Inventories are measured at the lower of cost and net realizable value. Net realizable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

Inventories represent the acquisition or production cost which is incurred when purchasing or producing a product. The operating segments of the Company use inventory costing methodologies to value their inventories, such as the weighted average cost method in Coca-Cola FEMSA, retail method (a method to estimate the average cost) in FEMSA Comercio Retail Division and FEMSA Comercio Health Division; and acquisition method in FEMSA Comercio Fuel Division, except for the distribution centers which are valued with average cost method.

Cost of goods sold includes expenses related to the purchase of raw materials used in the production process, as well as labor costs (wages and other benefits), depreciation of production facilities, equipment and other costs, including fuel, electricity, equipment maintenance and inspection; expenses related to the purchase of goods and services used in the sale process of the Company's products and expenses related to the purchase of gasoline, diesel and all engine lubricants used in the sale process of the Company.

3.10 Other current assets

Other current assets, which will be realized within a period of less than one year from the reporting date, are comprised of prepaid assets and product promotion agreements with customers.

Prepaid assets principally consist of advances to suppliers of raw materials, advertising, promotional, leasing and insurance costs, and are recognized as other current assets at the time of the cash disbursement. Prepaid assets are carried to the appropriate caption in the income statement when inherent benefits and risks have already been transferred to the Company or services have been received, respectively.

F-25

The Company has prepaid advertising costs which consist of television and radio advertising airtime in advance. These expenses are generally amortized over the period based on the transmission of the television and radio spots. The related production costs are recognized in consolidated income statement as incurred.

Coca-Cola FEMSA has agreements with customers for the right to sell and promote Coca-Cola FEMSA's products over a certain period. The majority of these agreements have terms of more than one year, and the related costs are amortized using the straight-line method over the term of the contract, with amortization presented as a reduction of net sales. During the years ended December 31, 2017, 2016 and 2015, such amortization aggregated to Ps. 759, Ps. 582 and Ps. 317, respectively.

3.11 Investments in associates and joint arrangements

3.11.1 Investments in associates

Associates are those entities over which the Company has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control over those policies.

Investments in associates are accounted for using the equity method and initially recognized at cost, which comprises the investment's purchase price and any directly attributable expenditure necessary to acquire it. The carrying amount of the investment is adjusted to recognize changes in the Company's shareholding of the associate since the acquisition date. The financial statements of the associates are prepared for the same reporting period as the Company.

The consolidated financial statements include the Company's share of the consolidated net income and other comprehensive income, after adjustments to align the accounting policies with those of the Company, from the date that significant influence commences until the date that significant influence ceases.

Profits and losses resulting from upstream and downstream transactions between the Company (including its consolidated subsidiaries) and an associate are recognized in the consolidated financial statements only to the extent of unrelated investors' interests in the associate. Upstream transactions are, for example, sales of assets from an associate to the Company. Downstream transactions are, for example, sales of assets from the Company to an associate. The Company's share in the associate's profits and losses resulting from these transactions is eliminated.

When the Company's share of losses exceeds the carrying amount of the associate, including any advances, the carrying amount is reduced to nil and recognition of further losses is discontinued except to the extent that the Company has a legal or constructive obligation to pay the associate or has to make payments on behalf of the associate.

Goodwill identified at the acquisition date is presented as part of the investment in shares of the associate in the consolidated statement of financial position. Any goodwill arising on the acquisition of the Company's interest in an associate is measured in accordance with the Company's accounting policy for goodwill arising in a business combination, see Note 3.2.

After application of the equity method, the Company determines whether it is necessary to recognize an additional impairment loss on its investment in its associate. The Company determines at each reporting date whether there is any objective evidence that the investment in the associates is impaired. If this is the case, the Company calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value, and recognizes the amount in the share of the profit or loss of associates and joint ventures accounted for using the equity method in the consolidated income statements.

If an investment interest is reduced, but continues to be classified as an associate, the Company reclassifies to profits or losses the proportion of the gain or loss that had previously been recognized in other comprehensive income relating to the reduction in ownership interest if the gain or loss would be required to be reclassified to consolidated net income on the disposal of the related investment.

The Company reclassifies in each case proportionate to the interest disposed of recognized in other comprehensive income: i) foreign exchange differences, ii) accumulated hedging gains and losses, iii) any other amount previously recognized that would have been recognized in net income if the associate had directly disposed of the asset to which it relates.

Upon loss of significant influence over the associate, the Company measures and recognizes any retained investment at its fair value.

3.11.2 Joint arrangements

A joint arrangement is an arrangement of which two or more parties have joint control. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control. The Company classifies its interests in joint arrangements as either joint operations or joint ventures depending on the Company's rights to the assets and obligations for the liabilities of the arrangements.

Joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the arrangement. The Company recognizes its interest in the joint ventures as an investment and accounts for that investment using the equity method, as described in Note 3.11.1. As of December 31, 2017 and 2016 the Company does not have an interest in joint operations.

If an investment interest is reduced, but continues to be classified as joint arrangement, the Company reclassifies to profits or losses the proportion of the gain or loss that had previously been recognized in other comprehensive income relating to the reduction in ownership interest if the gain or loss would be required to be reclassified to consolidated net income on the partial disposal of the related investment.

The Company reclassifies the proportion to the interest disposed of in joint ventures investment interest reduction as described in Note 3.11.1. During the years ended December 31, 2017 and 2016 the Company does not have a significant disposal or partial disposal in joint arrangements.

Upon loss of joint control over the joint venture, the Company measures and recognizes any retained investment at its fair value.

3.12 Property, plant and equipment

Property, plant and equipment are initially recorded at their cost of acquisition and/or construction, and are presented net of accumulated depreciation and accumulated impairment losses, if any. The borrowing costs related to the acquisition or construction of qualifying asset is capitalized as part of the cost of that asset, if material.

Major maintenance costs are capitalized as part of total acquisition cost. Routine maintenance and repair costs are expensed as incurred.

Investments in progress consist of long-lived assets not yet in service, in other words, that are not yet ready for the purpose that they were bought, built or developed. The Company expects to complete those investments during the following 12 months.

Depreciation is computed using the straight-line method over the asset's estimated useful life. Where an item of property, plant and equipment comprises major components having different useful lives, they are accounted and depreciated for as separate items (major components) of property, plant and equipment. The Company estimates depreciation rates, considering the estimated useful lives of the assets.

F-27

The estimated useful lives of the Company's principal assets are as follows:

	Years
Buildings	25-50
Machinery and equipment	10-20
Distribution equipment	7-15
Refrigeration equipment	5-7
Returnable bottles	1.5-4
Leasehold improvements	The shorter of lease term or 15 years
Information technology equipment	3-5
Other equipment	3-10

The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds (if any) and the carrying amount of the asset and is recognized in consolidated income statement.

Returnable and non-returnable bottles:

Coca-Cola FEMSA has two types of bottles: returnable and non-returnable.

Non returnable: Are recorded in consolidated income statement at the time of the sale of the product.

Returnable: Are classified as long-lived assets as a component of property, plant and equipment. Returnable bottles are recorded at acquisition cost and for countries with hyperinflationary economies, restated according to IAS 29, Depreciation of returnable bottles is computed using the straight-line method considering their estimated useful lives.

There are two types of returnable bottles:

Those that are in Coca-Cola FEMSA's control within its facilities, plants and distribution centers; and

Those that have been placed in the hands of customers, and still belong to Coca-Cola FEMSA.

Returnable bottles that have been placed in the hands of customers are subject to an agreement with a retailer pursuant to which Coca-Cola FEMSA retains ownership. These bottles are monitored by sales personnel during periodic visits to retailers and Coca-Cola FEMSA has the right to charge any breakage identified to the retailer. Bottles that are not subject to such agreements are expensed when placed in the hands of retailers.

Coca-Cola FEMSA's returnable bottles are depreciated according to their estimated useful lives (3 years for glass bottles and 1.5 years for PET bottles). Deposits received from customers are amortized over the same useful estimated lives of the bottles.

3.13 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Borrowing costs may include:

Interest expense; and

Exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

All other borrowing costs are recognized in consolidated income statement in the period in which they are incurred.

3.14 Intangible assets

Intangible assets are identifiable non monetary assets without physical substance and represent payments whose benefits will be received in future years. Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value as at the date of acquisition (see Note 3.2). Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses. The useful lives of intangible assets are assessed as either finite or indefinite, in accordance with the period over which the Company expects to receive the benefits.

Intangible assets with finite useful lives are amortized and mainly consist of:

Information technology and management system costs incurred during the development stage which are currently in use. Such amounts are capitalized and then amortized using the straight-line method over their expected useful lives, with a range in useful lives from 3 to 10 years. Expenditures that do not fulfill the requirements for capitalization are expensed as incurred.

Long-term alcohol licenses are amortized using the straight-line method over their estimated useful lives, which range between 12 and 15 years, and are presented as part of intangible assets with finite useful lives. Amortized intangible assets, such as finite lived intangible assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset or group of assets may not be recoverable through its expected future cash flows.

Intangible assets with an indefinite life are not amortized and are subject to impairment tests on an annual basis as well as whenever certain circumstances indicate that the carrying amount of those intangible assets may exceed their recoverable value.

The Company's intangible assets with an indefinite life mainly consist of rights to produce and distribute Coca-Cola trademark products in the Company's territories. These rights are contained in agreements that are standard contracts that The Coca-Cola Company has with its bottlers. Additionally, the Company's intangible assets with an indefinite life also consist of FEMSA Comercio Health Division's trademark rights which consist of standalone beauty store retail banners, pharmaceutical distribution to third-party clients and the production of generic and bioequivalent pharmaceuticals.

As of December 31, 2017, Coca-Cola FEMSA had ten bottler agreements in Mexico: (i) the agreements for the Valley of Mexico territory, which are up for renewal in May 2018 and June 2023, (ii) the agreement for the Southeast territory, which is up for renewal in June 2023, (iii) three agreements for the Central territory, which are up for renewal in May 2018 (two agreements), and May 2025, (iv) the agreement for the Northeast territory, which is up for

renewal in May 2018, and (v) two agreements for the Bajio territory, which are up for renewal in May 2018 and May 2025.

As of December 31, 2017, Coca-Cola FEMSA had nine bottler agreements in Brazil which are up for renewal in May 2018 (seven agreements) and April 2024 (two agreements); and one bottler agreement in each of Argentina which is up for renewal in September 2024; Colombia which is up for renewal in June 2024; Venezuela which is up for renewal in August 2026; Guatemala which is up for renewal in March 2025; Costa Rica which is up for renewal in September 2027; Nicaragua which is up for renewal in May 2026; Panama which is up for renewal in November 2024; and Philippines which is up for renewal in December 2022.

The bottler agreements are automatically renewable for ten-year terms, subject to the right of either party to give prior notice that it does not wish to renew a specific agreement. In addition, these agreements generally may be terminated in the case of material breach. Termination would prevent Coca-Cola FEMSA from selling Coca-Cola trademark beverages in the affected territory and would have an adverse effect on the Company's business, financial conditions, results from operations and prospects.

3.15 Non-current assets held for sale

Non-current assets and disposal groups are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the non-current asset (or disposal group) is available for immediate sale in its present condition. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

When the Company is committed to a sale plan involving loss of control of a subsidiary, all of the assets and liabilities of that subsidiary are classified as held for sale when the criteria described above are met, regardless of whether the Company will retain a non-controlling interest in its former subsidiary after the sale.

Non-current assets (and disposal groups) classified as held for sale are measured at the lower of their previous carrying amount and fair value less costs to sell.

3.16 Impairment of long-lived assets

At the end of each reporting period, the Company reviews the carrying amounts of its long-lived tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual CGUs, or otherwise they are allocated to the smallest CGUs for which a reasonable and consistent allocation basis can be identified.

For the purpose of impairment testing goodwill acquired in a business combination, from the acquisition date, is allocated to each of the group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

For goodwill and other indefinite lived intangible assets, the Company tests for impairment on an annual basis and whenever certain circumstances indicate that the carrying amount of related CGU might exceed its recoverable amount.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted, as discussed in Note 2.3.1.1.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognized immediately in consolidated net income.

Where the conditions leading to an impairment loss no longer exist, it is subsequently reversed, that is, the carrying amount of the asset (or CGU) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or CGU) in prior years. A reversal of an impairment loss is recognized immediately in consolidated net income. Impairment losses related to goodwill are not reversible.

For the year ended December 31, 2017 and December 31, 2015, the Company recognized impairment loss of Ps. 2,063 and Ps. 134, respectively (see Note 19).

3.17 Leases

The determination of whether an arrangement is, or contains, a lease is based on the substance of the arrangement at inception date, whether fulfillment of the arrangement is dependent on the use of a specific asset or assets or the arrangement conveys a right to use the asset, even if that right is not explicitly specified in an arrangement.

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Assets held under finance leases are initially recognized as assets of the Company at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the consolidated statement of financial position as a finance lease obligation. Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Interest expenses are recognized immediately in consolidated net income, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with the Company's general policy on borrowing costs. Contingent rentals are recognized as expenses in the periods in which they are incurred. Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets or, where shorter, the term of the relevant lease.

Operating lease payments are recognized as an expense on a straight-line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Contingent rentals arising under operating leases are recognized as an expense in the period in which they are incurred. In the event that lease incentives are received to enter into operating leases, such incentives are recognized as a liability. The aggregate benefit of incentives is recognized as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Leasehold improvements on operating leases are amortized using the straight-line method over the shorter of either the useful life of the assets or the related lease term.

3.18 Financial liabilities and equity instruments

3.18.1 Classification as debt or equity

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

3.18.2 Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognized at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognized and deducted directly in equity. No gain or loss is recognized in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

3.18.3 Financial liabilities

Initial recognition and measurement

Financial liabilities within the scope of IAS 39 are classified as financial liabilities at FVTPL, loans and borrowings, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. The Company determines the classification of its financial liabilities at initial recognition.

All financial liabilities are recognized initially at fair value less, in the case of loans and borrowings, directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings, and derivative financial instruments, see Note 3.7.

Subsequent measurement

The measurement of financial liabilities depends on their classification as described below.

3.18.4 Loans and borrowings

After initial recognition, interest bearing loans and borrowings are subsequently measured at amortized cost using the effective interest method. Gains and losses are recognized in the consolidated income statements when the liabilities are derecognized as well as through the effective interest method amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest method. The effective interest method amortization is included in interest expense in the consolidated income statements, see Note 18.

3.18.5 Derecognition

A financial liability is derecognized when the obligation under the liability is discharged, cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the consolidated income statements.

3.19 Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (where the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

The Company recognizes a provision for a loss contingency when it is probable (i.e., the probability that the event will occur is greater than the probability that it will not) that certain effects related to past events, would materialize and can be reasonably quantified. These events and their financial impact are also disclosed as loss contingencies in the consolidated financial statements when the risk of loss is deemed to be other than remote. The Company does not recognize an asset for a gain contingency until the gain is realized, see Note 25.

Restructuring provisions are recognized only when the recognition criteria for provisions are fulfilled. The Company has a constructive obligation when a detailed formal plan identifies the business or part of the business concerned, the location and number of employees affected, a detailed estimate of the associated costs, and an appropriate timeline. Furthermore, the employees affected must have been notified of the plan's main features.

3.20 Post-employment and other long-term employee benefits

Post-employment and other long-term employee benefits, which are considered to be monetary items, include obligations for pension and retirement plans, seniority premiums and postretirement medical services, are all based on actuarial calculations, using the projected unit credit method.

In Mexico, the economic benefits from employee benefits and retirement pensions are granted to employees with 10 years of service and minimum age of 60. In accordance with Mexican Labor Law, the Company provides seniority premium benefits to its employees under certain circumstances. These benefits consist of a one-time payment equivalent to 12 days wages for each year of service (at the employee's most recent salary, but not to exceed twice the legal minimum wage), payable to all employees with 15 or more years of service, as well as to certain employees terminated involuntarily prior to the vesting of their seniority premium benefit. For qualifying employees, the Company also provides certain post-employment healthcare benefits such as the medical-surgical services, pharmaceuticals and hospital.

For defined benefit retirement plans and other long-term employee benefits, such as the Company's sponsored pension and retirement plans, seniority premiums and postretirement medical service plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each reporting period. All remeasurements effects of the Company's defined benefit obligation such as actuarial gains and losses are recognized directly in other comprehensive income (OCI). The Company presents service costs within cost of goods sold, administrative and selling expenses in the consolidated income statements. The Company presents net interest cost within interest expense in the consolidated income statements. The projected benefit obligation recognized in the consolidated statement of financial position represents the present value of the defined benefit obligation as of the end of each reporting period. Certain subsidiaries of the Company have established plan assets for the payment of pension benefits, seniority premiums and postretirement medical services through irrevocable trusts of which the employees are named as beneficiaries, which serve to decrease the funded status of such plans' related obligations.

Costs related to compensated absences, such as vacations and vacation premiums, are recognized on an accrual basis.

The Company recognizes a liability and expense for termination benefits at the earlier of the following dates:

- a) When it can no longer withdraw the offer of those benefits; or
- b) When it recognizes costs for a restructuring that is within the scope of IAS 37 Provisions, Contingent Liabilities and Contingent Assets, and involves the payment of termination benefits.

The Company is demonstrably committed to a termination when, and only when, the entity has a detailed formal plan for the termination and is without realistic possibility of withdrawal.

A settlement occurs when an employer enters into a transaction that eliminates all further legal for constructive obligations for part or all of the benefits provided under a defined benefit plan. A curtailment arises from an isolated event such as closing of a plant, discontinuance of an operation or termination or suspension of a plan. Gains or losses

on the settlement or curtailment of a defined benefit plan are recognized when the settlement or curtailment occurs.

3.21 Revenue recognition

Sales of all of the Company products (including retail consumer goods, fuel and others) are recognized as revenue upon delivery to the customer, and once all the following conditions are satisfied:

The Company has transferred to the buyer the significant risks and rewards of ownership of the goods;

F-33

The Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;

The amount of revenue can be measured reliably;

It is probable that the economic benefits associated with the transaction will flow to the Company; and

The costs incurred or to be incurred in respect of the transaction can be measured reliably.

All of the above conditions are typically met at the point in time that goods are delivered to the customer at the customer's facilities. Net sales reflect units delivered at list prices reduced by promotional allowances, discounts and the amortization of the agreements with customers to obtain the rights to sell and promote the Company's products.

Rendering of services and other

Revenue arising from logistic transportation, maintenance services and packing of raw materials are recognized in the revenues caption in the consolidated income statement.

The Company recognized these transactions as revenues based upon the stage of completion of the transaction at the end of the reporting period in accordance with the requirements established in the IAS 18 Revenue for delivery of goods and rendering of services, which are:

- a) The amount of revenue can be measured reliably;
- b) It is probable that the economic benefits associated with the transaction will flow to the entity;
- c) The stage of completion of the transaction at the end of the period can be measured reliably; and
- d) The cost incurred for the transaction and the costs to complete the transaction can be measured reliably.

Interest income

Revenue arising from the use by others of entity assets yielding interest is recognized once all the following conditions are satisfied:

The amount of the revenue can be measured reliably; and

It is probable that the economic benefits associated with the transaction will flow to the entity.

For all financial instruments measured at amortized cost and interest bearing financial assets classified as held to maturity, interest income is recorded using the effective interest rate (EIR), which is the rate that exactly discounts the estimated future cash or receipts through the expected life of the financial instrument or a shorter period, where

appropriate, to the net carrying amount of the financial asset. The related interest income is included in the consolidated income statements.

3.22 Administrative and selling expenses

Administrative expenses include labor costs (salaries and other benefits, including employee profit sharing (PTU) of employees not directly involved in the sale or production of the Company's products, as well as professional service fees, the depreciation of office facilities, amortization of capitalized information technology system implementation costs and any other similar costs.

Selling expenses include:

Distribution: labor costs (salaries and other related benefits), outbound freight costs, warehousing costs of finished products, write off of returnable bottles in the distribution process, depreciation and maintenance of trucks and other distribution facilities and equipment. For the years ended December 31, 2017, 2016 and 2015, these distribution costs amounted to Ps. 25,041, Ps. 20,250 and Ps. 20,205, respectively;

Sales: labor costs (salaries and other benefits, including PTU) and sales commissions paid to sales personnel; and

Marketing: promotional expenses and advertising costs.

PTU is paid by the Company's Mexican subsidiaries to its eligible employees. In Mexico, employee profit sharing is computed at the rate of 10% of the individual company taxable income. PTU in Mexico is calculated from the same taxable income for income tax, except for the following: a) neither tax losses from prior years nor the PTU paid during the year are deductible; and b) payments exempt from taxes for the employees are fully deductible in the PTU computation.

3.23 Income taxes

Income tax expense represents the sum of the tax currently payable and deferred tax. Income taxes are charged to consolidated income statements as they are incurred, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity, respectively.

3.23.1 Current income taxes

Income taxes are recorded in the results of the year they are incurred.

3.23.2 Deferred income taxes

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences, including tax loss carryforwards and certain tax credits, to the extent that it is probable that future taxable profits, reversal of existing taxable temporary differences and future tax planning strategies will be available against which those deductible temporary differences can be utilized. Such deferred tax assets and liabilities are not recognized if the temporary difference arises from initial recognition of goodwill (no recognition of deferred tax liabilities) or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In the case of Brazil, where certain goodwill amounts are at times deductible for tax purposes, the Company recognizes in connection with the acquisition accounting a deferred tax asset for the tax effect of the excess of the tax basis over the related carrying value.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax liabilities are recognized for taxable temporary differences associated with investments in subsidiaries, associates, and interests in joint ventures, except where the Company is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognized to the extent that it is probable that there will be sufficient taxable profits against which to utilize the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

Deferred income taxes are classified as a long-term asset or liability, regardless of when the temporary differences are expected to reverse.

Deferred tax relating to items recognized in the other comprehensive income are recognized in correlation to the underlying transaction in OCI.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

In Mexico, the income tax rate is 30% for 2017, 2016 and 2015, and it will remain at 30% for the following years.

3.24 Share-based payments arrangements

Senior executives of the Company receive remuneration in the form of share-based payment transactions, whereby employees render services as consideration for equity instruments. The equity instruments are granted and then held by a trust controlled by the Company until vesting. They are accounted for as equity settled transactions. The award of equity instruments is a fixed monetary value on the grant date.

Equity-settled share-based payments to employees are measured at the fair value of the equity instruments at the grant date. The fair value determined at the grant date of the equity-settled share-based payments is expensed and recognized based on the graded vesting method over the vesting period, based on the Company's estimate of equity instruments that will eventually vest. At the end of each reporting period, the Company revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognized in consolidated income statements such that the cumulative expense reflects the revised estimate.

3.25 Earnings per share

The Company presents basic and diluted earnings per share (EPS) data for its shares. Basic EPS is calculated by dividing the net income attributable to controlling interest by the weighted average number of shares outstanding during the period adjusted for the weighted average of own shares purchased in the year. Diluted EPS is determined by adjusting the weighted average number of shares outstanding including the weighted average of own shares purchased in the year for the effects of all potentially dilutive securities, which comprise share rights granted to employees described above.

3.26 Issuance of subsidiary stock

The Company recognizes the issuance of a subsidiary's stock as an equity transaction. The difference between the book value of the shares issued and the amount contributed by the non-controlling interest holder or third party is recorded in additional paid-in capital.

Note 4. Mergers, Acquisitions and Disposals

4.1 Mergers and acquisitions

The Company has consummated certain mergers and acquisitions during 2017 and 2016; which were recorded using the acquisition method of accounting. The results of the acquired operations have been included in the consolidated financial statements since the date on which the Company obtained control of the business, as disclosed below.

Therefore, the consolidated income statements and the consolidated statements of financial position in the years of such acquisitions are not comparable with previous periods. The consolidated statements of cash flows for the years ended December 31, 2017, 2016 and 2015 show the cash outflow and inflow for the merged and acquired operations net of the cash acquired related to those mergers and acquisitions.

4.1.1 Acquisition of Philippines

In January 25, 2013, Coca-Cola FEMSA acquired a 51.0% non-controlling majority stake in CCFPI from The Coca-Cola Company. As mentioned in note 20.7, Coca-Cola FEMSA has a call option to acquire the remaining 49.0% stake in CCFPI at any time during the seven years following the closing date. Coca-Cola FEMSA also has a put option to sell its ownership in CCFPI to The Coca-Cola Company commencing on the fifth anniversary of the closing date and ending on the sixth anniversary of the closing date. Pursuant to the Company's shareholders' agreement with The Coca-Cola Company, during a four-year period that ended on January 25, 2017, all decisions relating to CCFPI were approved jointly with The Coca-Cola Company.

Since January 25, 2017, Coca-Cola FEMSA controls CCFPI's as all decisions relating to the day-to-day operation and management of CCFPI's business, including its annual normal operations plan, are approved by a majority of its board of directors without requiring the affirmative vote of any director appointed by The Coca-Cola Company. The Coca-Cola Company has the right to appoint (and may remove) CCFPI's Chief Financial Officer. Coca-Cola FEMSA has the right to appoint (and may remove) the Chief Executive Officer and all other officers of CCFPI. Commencing on February 1, 2017, Coca-Cola FEMSA started consolidating CCFPI's financial results.

Coca-Cola FEMSA's fair value of CCFPI net assets acquired to the date of acquisition (February 2017) is as follows:

	2017 Final Purchase Price Allocation
Total current assets	Ps. 9,645
Total non-current assets	18,909
Distribution rights	4,144
 Total assets	 32,698
Total liabilities	(10,101)
Net assets acquired	22,597
Net assets acquired attributable to the parent company (51%)	11,524
Non-controlling interest	(11,072)
Fair value of the equity interest at the acquisition date	22,109
Carrying value of CCFPI investment derecognized	11,690
Loss as a result of remeasuring to fair value the equity interest	166
Gain on derecognition of other comprehensive income	2,996
	Ps. 2,830

Total profit from remeasurement of previously equity
interest

F-37

During 2017, the accumulated effect corresponding to translation adjustments recorded in the other comprehensive income for an amount of Ps. 2,996 was recognized in the income statement as a result of taking control over CCFPI. Coca-Cola FEMSA's selected income statement information of Philippines for the period from the acquisition date through December 31, 2017 is as follows:

Income Statement	2017
Total revenues	Ps. 20,524
Income before income taxes	1,265
Net income	Ps. 896

4.1.2 Acquisition of Vonpar

On December 6, 2016, Coca-Cola FEMSA through its Brazilian subsidiary Spal Industria Brasileira de Bebidas, S.A. completed the acquisition of 100% of Vonpar S.A. (herein Vonpar) for a consideration transferred of Ps. 20,992. Vonpar was a bottler of Coca-Cola trademark products which operated mainly in Rio Grande do Sul and Santa Catarina, Brazil. This acquisition was made to reinforce the Company's leadership position in Brazil. Of the purchase price of approximately Ps. 20,992 (R\$ 3,508), Spal paid an amount of approximately Ps. 10,370 (R\$ 1,730) in cash on December 6, 2016.

On the same date Spal additionally paid Ps. 4,124 (R\$ 688) in cash, of which in a subsequent and separate transaction the sellers committed to capitalize for an amount of Ps. 4,082 into Coca-Cola FEMSA in exchange for approximately 27.9 million KOF series L shares at an implicit value of Ps. 146.27. In May 4, 2017 Coca-Cola FEMSA merged with POA Eagle, S.A. de C.V., a Mexican company 100% owned by the sellers of Vonpar in Brazil, as per the announcement made on September 23, 2016. As a result of this merger, POA Eagle, S.A. de C.V. shareholders received approximately 27.9 million newly issued KOF series L shares. POA Eagle, S.A. de C.V. merged its net assets, principally cash for an amount of \$4,082 million Mexican Pesos with Coca-Cola FEMSA.

At closing, Spal issued and delivered a three-year promissory note to the sellers, for the remaining balance of R\$ 1,090 million Brazilian reais (approximately Ps. 6,534 million as of December 6, 2016). The promissory note bears interest at an annual rate of 0.375%, and is denominated and payable in Brazilian reais. The promissory note is linked to the performance of the exchange rate between the Brazilian real and the U.S. dollar. The holders of the promissory note have an option, that may be exercised prior to the scheduled maturity of the promissory note, to capitalize the Mexican peso amount equivalent to the amount payable under the promissory note into a recently incorporated Mexican company which would then be merged into Coca-Cola FEMSA in exchange for Series L shares at a strike price of Ps. 178.5 per share. Such capitalization and issuance of new Series L shares is subject to Coca-Cola FEMSA having a sufficient number of Series L shares available for issuance.

As of December 6, 2016, the fair value of KOF series L (KL) shares was Ps. 128.88 per share, in addition the KL shares have not been issued, consequently as a result of this subsequent transaction an embedded financial instrument was originated and recorded into equity for an amount of Ps. 485. In accordance with IAS 32, in the consolidated financial statements the purchase price was also adjusted to recognize the fair value of the embedded derivative arising from the difference between the implicit value of KL shares and the fair value at acquisition date.

Transaction related costs of Ps. 35 were expensed by Spal as incurred, and recorded as a component of administrative expenses in the accompanying consolidated income statements. Results of operation of Vonpar have been included in the Company's consolidated income statements from the acquisition date.

Coca-Cola FEMSA's allocation of the purchase price to fair values of Vonpar's net assets acquired and the reconciliation of cash flows is as follows:

	2017 Final Purchase Price Allocation	
Total current assets (including cash acquired of Ps. 1,287)	Ps.	2,492
Total non-current assets		1,910
Distribution rights		14,793
Net assets acquired		19,325
Goodwill		2,152⁽¹⁾
Total consideration transferred		21,478
Amount to be paid through Promissory Notes		(6,992)
Cash acquired of Vonpar		(1,287)
Amount recognized as embedded financial instrument		485
Net cash paid	Ps.	13,198

(1) As a result of the purchase price allocation which was finalized in 2017, additional fair value adjustments from those recognized in 2016 have been recognized as follows: total current assets amounted to Ps. (1,898), total non-current assets amounted to Ps. (8,945), distribution rights of Ps. 5,191 and goodwill of Ps. (5,559).

Coca-Cola FEMSA expects to recover the amount recorded as goodwill through synergies related to the available production capacity. Goodwill has been preliminary allocated to Coca-Cola FEMSA's cash generating unit in Brazil. The goodwill recognized and expected to be deductible for income tax purposes according to Brazil tax law, is Ps. 1,667.

Selected income statement information of Vonpar for the period from the acquisition date through to December 31, 2016 is as follows:

Income Statement	2016
Total revenues	Ps. 1,628
Income before income taxes	380
Net income	Ps. 252

4.1.3 Acquisition of Grupo Socofar

On September 30, 2015, FEMSA Comercio Health Division completed the acquisition of 60% of Grupo Socofar. Grupo Socofar is an operator of pharmacies in South America which operated, directly and through franchises, 643 pharmacies and 154 beauty supply stores in Chile, and over 150 pharmacies in Colombia. Grupo Socofar was acquired for Ps. 7,685 in an all cash transaction. Transaction related costs of Ps. 116 were expensed by FEMSA Comercio Health Division as incurred, and recorded as a component of administrative expenses in the accompanying consolidated income statements. Socofar was included in operating results from the closing in September 2015.

The fair value of Grupo Socofar's net assets acquired is as follows:

	2016 Final Purchase Price Allocation
Total current assets (including cash acquired of Ps. 795)	Ps. 10,499
Total non-current assets	4,240
Trademark rights	3,033
Total assets	17,772
Total liabilities	(12,564)
Net assets acquired	5,208
Goodwill	4,559 ⁽¹⁾
Non-controlling interest ⁽²⁾	(2,082)
Total consideration transferred	Ps. 7,685

(1) As a result of the purchase price allocation which was finalized in 2016, additional fair value adjustments from those recognized in 2015 have been recognized as follow: property, plant and equipment amounted of Ps. 197, trademark rights amounted of Ps. 3,033, other intangible assets with finite live amounted of Ps. 163 and deferred tax liabilities amounted of Ps. 1,009.

(2) Measured at the proportionate share of the acquiree's identifiable net assets.

FEMSA Comercio Health Division expects to recover the amount recorded as goodwill through synergies related to the implementation of successful practices from its existing Mexican operations such as speed and quality in execution of the customer's value proposition and growth. Goodwill has been allocated to FEMSA Comercio Health Division cash generating units in South America (see Note 12).

Selected income statement information of Socofar for the period from the acquisition date through December 31, 2015 is as follows:

Income Statement	2015
Total revenues	Ps. 7,583
Income before income taxes	394
Net income	Ps. 354

FEMSA Comercio Health Division entered into option transactions regarding the remaining 40% non-controlling interest not held by FEMSA Comercio Health Division. The former controlling shareholders of Socofar may be able to put some or all of that interest to FEMSA Comercio Health Division beginning (i) 42-months after the initial acquisition, upon the occurrence of certain events and (ii) 60 months after the initial acquisition, in any event, FEMSA

Comercio Health Division can call the remaining 40% non-controlling interest beginning on the seventh anniversary of the initial acquisition date. Both of these options would be exercisable at the then fair value of the interest and shall remain indefinitely.

4.1.3 Other acquisitions

During 2016, the Company completed a number of smaller acquisitions which in the aggregate amounted to Ps. 5,612. These acquisitions were primarily related to the following: (1) acquisition of 100% of Farmacias Acuña, a drugstore operator in Bogota, Colombia; at the acquisition date, Farmacias Acuña operated 51 drugstores.; (2) acquisition of an additional 50% of Specialty s Café and Bakery Inc. shares, a small coffee and bakery restaurant (Specialty s), reaching an 80% of ownership, with 56 stores in California, Washington and Illinois in the United States; (3) acquisition of 100% of Comercial Big John Limitada Big John , an operator of small-box retail format stores located in Santiago, Chile; at the acquisition date, Big John operated 49 stores; (4) acquisition of 100% of Operadora de Farmacias Generix, S.A.P.I. de C.V., a regional drugstore

operator in Guadalajara, Guanajuato, Mexico City and Queretaro in Mexico; at the acquisition date, Farmacias Generix operated 70 drugstores and one distribution center; (5) acquisition of 100% of Grupo Torrey (which consist in many companies constituted as S.A. de C.V.), a Mexican company with 47 years of know-how in operation in the manufacture of equipment for the processing, conservation and weighing of foods, with corporate offices in Monterrey, Mexico and (6) acquisition of 80% of Open Market, a specialized company in providing end-to-end integral logistics solutions to the local and international companies which operate in Colombia. Transactions related costs in the aggregate amounted of Ps. 46 were expensed as incurred, and recorded as a component of administrative expenses in the accompanying consolidated income statements.

The fair value of other acquisitions' net assets acquired in the aggregate is as follows:

	Final Purchase Price Allocation	
Total current assets (including cash acquired of Ps. 211)	Ps.	1,125
Total non-current assets		3,316
Total assets		4,441
Total liabilities		(2,062)
Net assets acquired		2,379
Goodwill		3,204 ⁽²⁾
Non-controlling interest ⁽¹⁾		35
Equity interest held previously		369
Total consideration transferred	Ps.	5,618

- (1) In the case of the acquisition of Specialty's the non-controlling interest was measured at fair value at the acquisition date, and for Open Market the non-controlling interest was recognized at the proportionate share of the net assets acquired.
- (2) As a result of the purchase price allocation which was finalized in 2017, additional fair value adjustments from those recognized in 2016 have been recognized as follow: property, plant and equipment of Ps. 32, trademark rights of Ps. 836, other intangible assets of Ps. 983, and other liabilities of Ps. 593.

During 2016, FEMSA Comercio has been allocated goodwill in the acquisitions in FEMSA Comercio Retail Division in Chile and FEMSA Comercio Health Division in Mexico and Colombia, to each one respectively. FEMSA Comercio expects to recover the amount recorded through synergies related to the adoption of the Company's economic current value proposition, the ability to apply the successful operational processes and expansion planning designed for each unit.

Other companies dedicated to the production, distribution of coolers and logistic transportation services have been allocated goodwill of Grupo Torrey and Open Market, respectively in Mexico and Colombia. The companies dedicated to the production and distribution expect to recover the goodwill through synergies related to operative

improvements; in the case of logistic transportation services, through the know how of specialized skills to attend pharmaceutical market and increasing new customers in the countries where the company operates.

Selected income statement information of other acquisitions in the aggregate amount for the period from the acquisition date through December 31, 2016 is as follows:

Income Statement	2016
Total revenues	Ps. 2,400
Income before income taxes	(66)
Net income	Ps. (80)

F-41

The former controlling shareholders of Open Market retain a put for their remaining 20% non-controlling interest that can be exercised (i) at any time after the acquisition date upon the occurrence of certain events and (ii) annually from January through April, after the third anniversary of the acquisition date. In any event, the Company through one of its subsidiaries can call the remaining 20% non-controlling interest annually from January through April, after the fifth anniversary of the acquisition date. Both options would be exercisable at the then fair value of the interest and shall remain indefinitely. Given that these options are exercisable at the then fair value on exercise date, their value is not significant at the acquisition date and at December 31, 2017.

During 2015, the Company completed smaller acquisitions and mergers which in the aggregate amounted to Ps. 5,892. These acquisitions and mergers were primarily related to the following: acquisition of 100% Farmacias Farmacon, a regional drugstore operator in the western Mexican states of Sinaloa, Sonora, Baja California and Baja California Sur with headquarters in the city of Culiacan, Sinaloa, at the acquisition date Farmacias Farmacon operated 215 stores; merger of 100% of PEMEX franchises in which FEMSA Comercio Fuel Division has been providing operational and administrative services for gasoline service stations through agreements with third parties, using the commercial brand name OXXO GAS, at the acquisition date there were 227 OXXO GAS stations; acquisition of 100% of Zimag, supplier of logistics services in Mexico, with experience in warehousing, distribution and value added services over twelve cities in Mexico mainly in Mexico City, Monterrey, Guanajuato, Chihuahua, Merida and Tijuana; acquisition of 100% of Atlas Transportes e Logistica, supplier of logistics services in Brazil, with experience in the service industry breakbulk logistics with a network of 49 operative centers and over 1,200 freight units through all regions in Brazil. Transactions related costs in the aggregate amounted of Ps. 39 were expensed as incurred, and recorded as a component of administrative expenses in the accompanying consolidated income statements.

The fair value of other acquisitions net assets acquired in the aggregate is as follows:

	Final Purchase Price Allocation
Total current assets (including cash acquired of Ps. 71)	Ps. 1,683
Total non-current assets	2,319
Total assets	4,002
Total liabilities	(2,955)
Net assets acquired	1,047
Goodwill	5,027 ⁽¹⁾
Total consideration transferred	Ps. 6,074

(1) As a result of the purchase price allocation which was finalized in 2016, additional fair value adjustments from those recognized in 2015 have been recognized as follow: property, plant and equipment amounted of Ps. 130, trademark rights amounted of Ps. 453 and other liabilities amounted of Ps. 1,202.

FEMSA Comercio Health Division and the logistic services business expect to recover the amount recorded as goodwill through synergies related to the ability to apply the operational processes of these business units. Farmacias Farmacon goodwill have been allocated to FEMSA Comercio Health Division cash generating unit in Mexico and

merger of PEMEX franchises goodwill have been allocated to FEMSA Comercio Fuel Division cash generating unit in Mexico. Zimag and Atlas Transportes e Logistica goodwill have been allocated into logistic services business s cash generating unit in Mexico and Brazil, respectively.

Selected income statement information of these acquisitions for the period from the acquisition date through December 31, 2015 is as follows:

Income Statement	2015
Total revenues	Ps. 20,262
Income before income taxes	176
Net income	Ps. 120

Unaudited Pro Forma Financial Data

The following unaudited consolidated pro forma financial data represent the Company's historical financial statements, adjusted to give effect to (i) the acquisition of Coca-Cola FEMSA Philippines as if this acquisition has occurred on January 1, 2017; and (ii) certain accounting adjustments mainly related to the pro forma depreciation of fixed assets of the acquired company. Unaudited pro forma financial data for the acquisition included, is as follow.

	Unaudited pro forma financial information for the year ended December 31, 2017	
Total revenues	Ps.	462,112
Income before income taxes and share of the profit of associates and joint ventures accounting for using the equity method		39,917
Net income		37,311
Basic net controlling interest income per share Series B	Ps.	2.12
Basic net controlling interest income per share Series D		2.65

The following unaudited consolidated pro forma financial data represent the Company's historical financial statements, adjusted to give effect to (i) the acquisition of Vonpar, Farmacias Acuña, Specialty's, Big John, Farmacias Generix, Grupo Torrey and Open Market as if these acquisitions have occurred on January 1, 2016; and (ii) certain accounting adjustments mainly related to the pro forma depreciation of fixed assets of the acquired companies. Unaudited pro forma financial data for all acquisitions and merger included, are as follow.

	Unaudited pro forma financial information for the year ended December 31, 2016	
Total revenues	Ps.	410,831
Income before income taxes and share of the profit of associates and joint ventures accounting for using the equity method		29,950
Net income		28,110

Basic net controlling interest income per share Series B	Ps.	1.08
Basic net controlling interest income per share Series D		1.35

F-43

Below are unaudited consolidated pro forma data of the acquisitions made on 2015 as if Grupo Socofar, Farmacias Farmacon, Zimag, Atlas Transportes e Logística and merger of PEMEX franchises were acquired on January 1, 2015:

	Unaudited pro forma financial information for the year ended December 31, 2015	
Total revenues	Ps.	340,600
Income before income taxes and share of the profit of associates and joint ventures accounting for using the equity method		27,485
Net income		25,004
Basic net controlling interest income per share Series B	Ps.	0.97
Basic net controlling interest income per share Series D		1.21

4.2. Disposal

During 2017, the Company sold a portion of its investment in Heineken Group, representing 5.2% of economic interest for Ps. 53,051 in an all cash transaction. With this transaction the Company took advantage of a Repatriation of Capital Decree issued by the Mexican government which was valid from January 19 until October 19, 2017; through this decree, a fiscal benefit was attributed to the Company due to repatriated resources obtained from the sale of shares. The Company recognized a gain of Ps. 29,989, as a result of the sales of shares within other income, which is the difference between the fair value of the consideration received and the book value of the net assets disposed. The gain is net of transaction related costs of Ps. 160 and includes reclassification from other comprehensive income of exchange differences on translation which amount to Ps. 6,632. Also, the Company reclassified from other comprehensive income to consolidated net income a total loss of Ps. 2,431, relating to the Company's share of hedging reserve and translation reserve of Heineken Investment attributable to the portion of shares sold. None of the Company's other disposals was individually significant (see Note 19).

Note 5. Cash and Cash Equivalents

For the purposes of the statement of cash flows, the cash item includes cash on hand and in bank deposits and cash equivalents, which are short-term, highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value, with a maturity date of three months or less at their acquisition date. Cash and cash equivalents at the end of the reporting period as shown in the consolidated statements of financial position and cash flows is comprised of the following:

	December 31, 2017	December 31, 2016
Cash and bank balances	Ps. 73,774	Ps. 18,140
Cash equivalents (see Note 3.5)	23,170	25,497
	Ps. 96,944	Ps. 43,637

As explained in Note 3.3, Venezuela subsidiary was deconsolidated. At December 31, 2017, cash and cash equivalent balances of the Company's Venezuela subsidiary were Ps. 170.

Note 6. Investments

As of December 31, 2017 and 2016 investments are classified as held-to maturity, the carrying value of the investments is similar to their fair value. The following is a detail of held-to maturity investments:

Held-to Maturity ⁽¹⁾

	2017	2016
Government debt securities		
Acquisition cost	Ps. 1,934	Ps.
Accrued interest		
Amortized cost	1,934	
Corporate debt securities		
Acquisition cost	222	118
Accrued interest	4	2
Amortized cost	226	120
Total investments	Ps. 2,160	Ps. 120

(1) Denominated in dollars at a fixed interest rate.

Note 7. Accounts Receivable, Net

	December 31, 2017	December 31, 2016
Trade receivables	Ps. 26,856	Ps. 22,177
Allowance for doubtful accounts	(1,375)	(1,193)
The Coca-Cola Company (see Note 14)	2,054	1,857
Loans to employees	128	229
Other related parties		254
Heineken Group (see Note 14)	999	1,041
Former shareholders of Vonpar (see Note 14)	1,219	
Others	2,435	1,857
	Ps. 32,316	Ps. 26,222

7.1 Trade receivables

Trade receivables representing rights arising from sales and loans to employees or any other similar concept, are presented net of discounts and the allowance for doubtful accounts.

Coca-Cola FEMSA has accounts receivable from The Coca-Cola Company arising from the latter's participation in advertising and promotional programs and investment in refrigeration equipment and returnable bottles made by

Coca-Cola FEMSA.

The carrying value of accounts receivable approximates its fair value as of December 31, 2017 and 2016.

Aging of past due but not impaired (days outstanding)

	December 31, 2017	December 31, 2016
60-90 days	Ps. 599	Ps. 610
90-120 days	269	216
120+ days	1,206	1,539
Total	Ps. 2,074	Ps. 2,365

F-45

7.2 Changes in the allowance for doubtful accounts

	2017	2016	2015
Opening balance	Ps. 1,193	Ps. 849	Ps. 456
Allowance for the year	530	467	167
Charges and write-offs of uncollectible accounts	(400)	(418)	(99)
Addition from business combinations	86	94	401
Effects of changes in foreign exchange rates	(32)	201	(76)
Venezuela deconsolidation effect	(2)		
Ending balance	Ps. 1,375	Ps. 1,193	Ps. 849

In determining the recoverability of trade receivables, the Company considers any change in the credit quality of the trade receivable from the date credit was initially granted up to the end of the reporting period. The concentration of credit risk is limited due to the customer base being large and disperse.

7.3 Receivable from The Coca-Cola Company

The Coca-Cola Company participates in certain advertising and promotional programs as well as in the Coca-Cola FEMSA's refrigeration equipment and returnable bottles investment program. Contributions received by Coca-Cola FEMSA for advertising and promotional incentives are recognized as a reduction in selling expenses and contributions received for the refrigeration equipment and returnable bottles investment program are recorded as a reduction in the carrying amount of refrigeration equipment and returnable bottles items. For the years ended December 31, 2017, 2016 and 2015 contributions due were Ps. 4,023, Ps. 4,518 and Ps. 3,749, respectively.

Note 8. Inventories

	December 31, 2017	December 31, 2016
Finished products	Ps. 25,374	Ps. 22,709
Raw materials	5,194	5,156
Spare parts	2,102	2,401
Work in process	198	144
Inventories in transit	1,437	1,188
Other	535	334
	Ps. 34,840	Ps. 31,932

For the years ended at 2017, 2016 and 2015, the Company recognized write-downs of its inventories for Ps. 308, Ps. 1,832 and Ps. 1,290 to net realizable value, respectively.

For the years ended at 2017, 2016 and 2015, changes in inventories are comprised as follows and included in the consolidated income statement under the cost of goods sold caption:

	2017	2016	2015
Changes in inventories of finished goods and work in progress	Ps. 196,547	Ps. 172,554	Ps. 132,835
Raw materials and consumables used	85,568	63,285	53,514
Total	Ps. 282,115	Ps. 235,839	Ps. 186,349

Note 9. Other Current Assets and Other Current Financial Assets

9.1 Other current assets

	December 31, 2017	December 31, 2016
Prepaid expenses	Ps. 2,425	Ps. 3,784
Agreements with customers	192	179
Short-term licenses	224	112
Other	47	34
	Ps. 2,888	Ps. 4,109

Prepaid expenses as of December 31, 2017 and 2016 are as follows:

	December 31, 2017	December 31, 2016
Advances for inventories	Ps. 1,260	Ps. 2,734
Advertising and promotional expenses paid in advance	370	171
Advances to service suppliers	268	466
Prepaid leases	218	164
Prepaid insurance	103	104
Others	206	145
	Ps. 2,425	Ps. 3,784

Advertising and promotional expenses recorded in the consolidated income statement for the years ended December 31, 2017, 2016 and 2015 amounted to Ps. 6,236, Ps. 6,578 and Ps. 4,613, respectively.

9.2 Other current financial assets

	December 31,		December 31,
	2017		2016
Restricted cash	Ps. 504	Ps.	774
Derivative financial instruments (see Note 20)	233		1,917
Short term note receivable ⁽¹⁾	19		14
	Ps. 756	Ps.	2,705

(1) The carrying value approximates its fair value as of December 31, 2017 and 2016.

F-47

The Company has pledged part of its cash in order to fulfill the collateral requirements for the accounts payable in different currencies. As of December 31, 2017 and 2016, the carrying of restricted cash pledged were:

	December 31,	December 31,
	2017	2016
Venezuelan bolivars	Ps. 183	Ps. 183
Brazilian reais	65	73
Colombian pesos	439	518
	Ps. 504	Ps. 774

During 2016 due to a jurisdictional order with the municipal sewage system services, the Colombian authorities withheld all the cash that Coca-Cola FEMSA has in the bank account, the total amount of which was reclassified as a restricted cash according with the Company's accounting policy.

Note 10. Investments in Associates and Joint Ventures

Details of the Company's associates and joint ventures accounted for under the equity method at the end of the reporting period are as follows:

Investee	Principal Activity	Place of Incorporation	Ownership Percentage		Carrying Amount	
			December 31, 2017	December 31, 2016	December 31, 2017	December 31, 2016
Heineken ^{(1) (2)}	Beverages	The Netherlands	14.8%	20.0%	Ps. 83,720	Ps. 105,268

(1) Associate.

(2) As of December 31, 2017 comprised of 8.63% of Heineken, N.V. and 12.26% of Heineken Holding, N.V., which represents an economic interest of 14.76% in Heineken Group and as of December 31, 2016, comprised of 12.53% of Heineken, N.V. and 14.94% of Heineken Holding, N.V., which represented an economic interest of 20% in Heineken Group. The Company has significant influence, mainly, due to the fact that it participates in the Board of Directors of Heineken Holding, N.V. and the Supervisory Board of Heineken N.V.; and for the material transactions between the Company and Heineken Group.

(3) Joint ventures.

(4) See Note 4.1.2

As mentioned in Note 4, in December 2016, Coca-Cola FEMSA through its subsidiary Spal, completed the acquisition of 100% of Vonpar. As part of this acquisition Spal increased its equity interest by 3.36% in Leao Alimentos e Bebidas, LTDA.

During 2017 the Coca-Cola FEMSA received dividends from Industria Envasadora de Queretaro, S.A. de C.V., and Promotora Mexicana de Embotelladores, S.A. de C.V. in the amount of Ps. 16 and Ps. 17, respectively.

During 2017 Coca-Cola FEMSA made capital contributions to Compañía Panameña de Bebidas, S.A.P.I. de C.V. and Promotora Industrial Azucarera, S.A. de C.V. in the amounts of Ps. 349 and Ps. 182, respectively, and there were no changes in the ownership percentage as a result of capital contributions made by the other shareholders. On June 25, 2017, the Coca-Cola FEMSA through its Brazilian subsidiary Spal Industria Brasileira de Bebidas, S.A. sold 3.05% of their participation in Leao Alimentos e Bebidas, LTDA for an amount of Ps. 198.

On March 28, 2017 as part of AdeS acquisition the Coca-Cola FEMSA acquired indirect participations in equity method investees in Brazil and Argentina for an aggregate amount of Ps. 587. During 2017, Itabirito merged with Spal this transaction did not generated any cash flow.

As mentioned in Note 4, on December 6, 2016 the Coca-Cola FEMSA through its subsidiary Spal completed the acquisition of 100% of Vonpar. As part of acquisition Spal increase its equity interest by 3.36% in Leao Alimentos e Bebidas, LTDA.

During 2016 Coca-Cola FEMSA made capital contributions to Leao Alimentos e Bebidas, LTDA, Compañía Panameña de Bebidas, S.A.P.I. de C.V. and Promotora Industrial Azucarera, S.A. de C.V. in the amounts of Ps. 1,273, Ps. 419 and Ps. 376, respectively, there were no changes in the ownership percentage as a result of capital contributions made by the other shareholders.

During 2016 Coca-Cola FEMSA received dividends from Industria Envasadora de Queretaro, S.A. de C.V., and Estancia Hidromineral Itabirito, LTDA in the amount of Ps. 5 and Ps. 190, respectively.

As disclosed in Note 4.1.1, commencing on February 1, 2017, the Coca-Cola FEMSA started consolidating CCFPI s financial results in its financial statements.

On April 30, 2010, the Company acquired an economic interest of 20% of Heineken Group. Heineken s main activities are the production, distribution and marketing of beer worldwide. On September 18, 2017 the Company concluded the sale of a portion of its investment, representing 5.2% combined economic interest, consisting of 22,485,000 Heineken N.V. shares and 7,700,000 Heineken Holding N.V. shares at the price of . 84.50 and . 78.00 per share, respectively, (see Note 4.2). The Company recognized an equity income of Ps. 7,847, Ps. 6,342, and Ps. 5,879 net of taxes based on its economic interest in Heineken Group for the years ended December 31, 2017, 2016 and 2015, respectively. The economic interest for the year 2017 was 20% for the first eight months and 14.8% for the last four months and 20% for the years 2016 and 2015. The Company s share of the net income attributable to equity holders of Heineken Group exclusive of amortization of adjustments amounted to Ps. 7,656 (. 357 million), Ps. 6,430 (. 308 million) and Ps. 6,567 (. 378 million), for the years ended December 31, 2017, 2016 and 2015, respectively. Summarized financial information in respect of the associate Heineken Group accounted for under the equity method is set out below.

F-58

During the years ended December 31, 2016 and 2015 the Company capitalized Ps. 8 and Ps. 28, respectively of borrowing costs in relation to Ps. 28 and Ps. 410 in qualifying assets, respectively. The effective interest rates used to determine the amount of borrowing costs eligible for capitalization were 4.1% and 4.1%, respectively. For the year ended December 31, 2017, the Company did not recognize any capitalization of borrowing costs.

On March 28, 2017 Coca-Cola FEMSA acquired distribution rights and other intangibles of AdeS soy-based beverages in its territories in Mexico and Colombia for an aggregate amount of Ps. 1,287. This acquisition was made to reinforce Coca-Cola FEMSA leadership position.

For the years ended 2017, 2016 and 2015, allocation for amortization expense is as follows:

	2017	2016	2015
Cost of goods sold	Ps. 132	Ps. 82	Ps. 61
Administrative expenses	627	727	407
Selling expenses	500	207	136
	Ps. 1,259	Ps. 1,016	Ps. 604

The average remaining period for the Company's intangible assets that are subject to amortization is as follows:

	Years
Technology Costs and Management Systems	3 - 10
Alcohol Licenses	12 - 15

Coca-Cola FEMSA Impairment Tests for Cash-Generating Units Containing Goodwill and Distribution Rights

For the purpose of impairment testing, goodwill and distribution rights are allocated and monitored on an individual country basis, which is considered to be CGU.

The aggregate carrying amounts of goodwill and distribution rights allocated to each CGU are as follows:

	December 31, 2017	December 31, 2016
Mexico	Ps. 56,352	Ps. 55,137
Guatemala	488	499
Nicaragua	484	532
Costa Rica	1,520	1,622
Panama	1,185	1,241
Colombia	5,824	5,988
Venezuela		1,225
Brazil	48,345	52,609
Argentina	50	67
Philippines	3,882	
Total	Ps. 118,130	Ps. 118,920

Goodwill and distribution rights are tested for impairments annually.

F-59

The recoverable amounts are based on value in use. The value in use of CGUs is determined based on the method of discounted cash flows. The key assumptions used in projecting cash flows are: volume, expected annual long-term inflation, and the weighted average cost of capital (WACC) used to discount the projected cash flows. The cash flow forecasts could differ from the results obtained over time; however, Coca-Cola FEMSA prepares its estimates based on the current situation of each of the CGUs.

To determine the discount rate, Coca-Cola FEMSA uses the WACC as determined for each of the cash generating units in real terms and as described in following paragraphs.

The estimated discount rates to perform impairment test for each CGU consider market participants' assumptions. Market participants were selected taking into consideration the size, operations and characteristics of the businesses that are similar to those of Coca-Cola FEMSA.

The discount rates represent the current market assessment of the risks specific to each CGU, taking into consideration the time value of money and individual risks of the underlying assets that have not been incorporated in the cash flow estimates. The discount rate calculation is based on the opportunity cost to a market participant, considering the specific circumstances of Coca-Cola FEMSA and its operating segments and is derived from its WACC. The WACC takes into account both debt and equity. The cost of equity is derived from the expected return on investment by Company's investors. The cost of debt is estimated based on the interest bearing borrowings Coca-Cola FEMSA is obliged to service, which is equivalent to the cost of debt based on the conditions that a creditor would assess in the market for credit to the CGUs. Segment-specific risk is incorporated by applying beta factors which are evaluated annually based on publicly available market data.

Market participant assumptions are important because, not only do they include industry data for growth rates, management also assesses how the CGU's position, relative to its competitors, might change over the forecasted period.

The key assumptions used for the value-in-use calculations are as follows:

Cash flows were projected based on actual operating results and the five-year business plan. Cash flows for a further five-year were forecasted maintaining the same stable growth and margins per country of the last year base. Coca-Cola FEMSA believes that this forecasted period is justified due to the non-current nature of the business and past experiences.

Cash flows after the first ten-year period were extrapolated using a perpetual growth rate equal to the expected annual population growth, in order to calculate the terminal recoverable amount.

A per CGU-specific Weighted Average Cost of Capital (WACC) was applied as a hurdle rate to discount cash flows to get the recoverable amount of the units; the calculation assumes, size premium adjustments.

The key assumptions by CGU for impairment test as of December 31, 2017 were as follows:

CGU	Pre-tax WACC	Post-tax WACC	Expected Annual Long-Term Inflation 2018-2027	Expected Volume Growth Rates
-----	-----------------	------------------	---	------------------------------------

	2018-2027			
Mexico	7.3%	5.3%	3.7%	2.2%
Colombia	9.1%	6.6%	3.1%	3.2%
Costa Rica	11.5%	7.8%	3.3%	2.7%
Guatemala	13.9%	10.7%	4.7%	7.1%
Nicaragua	16.6%	10.6%	5.0%	4.9%
Panama	8.3%	6.5%	2.3%	3.4%
Argentina	11.0%	7.3%	10.7%	3.1%
Brazil	9.7%	6.2%	4.1%	1.3%
Philippines	9.7%	5.9%	3.6%	3.4%

F-60

The key assumptions by CGU for impairment test as of December 31, 2016 were as follows:

CGU	Pre-tax WACC	Post-tax WACC	Expected Annual Long-Term Inflation 2017-2026	Expected Volume Growth Rates 2017-2026
Mexico	6.8%	6.3%	3.7%	1.2%
Colombia	7.9%	7.5%	3.2%	4.0%
Venezuela	17.5%	17.0%	117.3%	1.0%
Costa Rica	8.4%	8.3%	4.4%	4.7%
Guatemala	9.9%	9.5%	5.0%	13.2%
Nicaragua	10.6%	10.1%	4.2%	5.7%
Panama	7.8%	7.4%	3.0%	4.9%
Argentina	9.1%	8.5%	12.2%	4.1%
Brazil	8.7%	8.1%	4.4%	2.9%

The values assigned to the key assumptions represent management's assessment of future trends in the industry and are based on both external sources and internal sources (historical data). Coca-Cola FEMSA consistently applied its methodology to determine CGU specific WACC's to perform its annual impairment testing.

During the year ended December 31, 2017 and due to the worsened economic and operational conditions in Venezuela, Coca-Cola FEMSA has recognized an impairment for distribution rights in such country for an amount of Ps. 745, such effect has been recorded in other expenses in the consolidated financial statements.

Sensitivity to Changes in Assumptions

At December 31, 2017, Coca-Cola FEMSA performed an additional impairment sensitivity calculation, taking into account an adverse change in post-tax WACC, according to the country risk premium, using for each country the relative standard deviation between equity and sovereign bonds and an additional sensitivity to the volume of 100 basis points and concluded that no impairment would be recorded.

CGU	Change in WACC	Change in Volume Growth CAGR ⁽¹⁾	Effect on Valuation
Mexico	+0.16%	-1.0%	Passes by 5.2x
Colombia	+0.19%	-1.0%	Passes by 2.5x
Costa Rica	+0.64%	-1.0%	Passes by 2.3x
Guatemala	+1.52%	-1.0%	Passes by 7.4x
Nicaragua	+4.27%	-1.0%	Passes by 3.1x
Panama	+0.12%	-1.0%	Passes by 12.1x
Argentina	+4.39%	-1.0%	Passes by 299x
Brazil	+0.26%	-1.0%	Passes by 3.6x
Philippines	+0.46%	-1.0%	Passes by 2.1x

(1) Compound Annual Growth Rate (CAGR).

FEMSA Comercio Impairment Test for Cash-Generating Units Containing Goodwill

For the purpose of impairment testing, goodwill is allocated and monitored on an individual country basis by operating segment. FEMSA Comercio has integrated its cash generating units as follow: Retail Division and Health Division are integrated as Mexico, for each of them and Fuel Division includes only Mexico.

As of December 31, 2017 in Health Division there is a significant carrying amount of goodwill allocated in Chile and Colombia as a group of cash generating (South America) with a total carrying amount of Ps. 6,048.

Goodwill is tested for impairments annually.

The recoverable amounts are based on value in use. The value in use of CGUs is determined based on the method of discounted cash flows. The key assumptions used in projecting cash flows are: sales, expected annual long-term inflation, and the weighted average cost of capital (WACC) used to discount the projected cash flows. The cash flow forecasts could differ from the results obtained over time; however, FEMSA Comercio prepares its estimates based on the current situation of each of the CGUs or group of CGUs.

To determine the discount rate, FEMSA Comercio uses the WACC as determined for each of the cash generating units or group of the cash generating units in real terms and as described in following paragraphs.

The estimated discount rates to perform the IAS 36 Impairment of assets , impairment test for each CGU or group of CGUs consider market participants assumptions. Market participants were selected taking into consideration the size, operations and characteristics of the businesses that are similar to those of FEMSA Comercio.

The discount rates represent the current market assessment of the risks specific to each CGU or group of CGUs, taking into consideration the time value of money and individual risks of the underlying assets that have not been incorporated in the cash flow estimates. The discount rate calculation is based on the opportunity cost to a market participant, considering the specific circumstances of FEMSA Comercio and its operating segments and is derived from its WACC. The WACC takes into account both debt and cost of equity. The cost of equity is derived from the expected return on investment by Company s investors. The cost of debt is based on the interest bearing borrowings the Coca-Cola FEMSA is obliged to service, which is equivalent to the cost of debt based on the conditions that a creditor would asses in the market. Segment-specific risk is incorporated by applying beta factors which are evaluated annually based on publicly available market data.

Market participant assumptions are important because, not only do they include industry data for growth rates, management also assesses how the CGU s position, relative to its competitors, might change over the forecasted period.

The key assumptions used for the value-in-use calculations are as follows:

Cash flows were projected based on actual operating results and the five-year business plan. FEMSA Comercio believes that this forecasted period is justified due to the non-current nature of the business and past experiences.

Cash flows projected based on actual operating results and five-year business plan were calculated using a perpetual growth rate equal to the expected annual population growth, in order to calculate the terminal recoverable amount.

Edgar Filing: MEXICAN ECONOMIC DEVELOPMENT INC - Form 20-F

A per CGU-specific Weighted Average Cost of Capital (WACC) was applied as a hurdle rate to discount cash flows to get the recoverable amount of the units; the calculation assumes size premium adjustments. The key assumptions by CGU for impairment test as of December 31, 2017 were as follows:

CGU	Pre-tax WACC	Post-tax WACC	Expected Annual Long-Term Inflation 2018-2027	Expected Volume Growth Rates 2018-2027
South America (Health Division)	6.9%	6.2%	3%	2%

F-62

The key assumptions by CGU for impairment test as of December 31, 2016 were as follows:

CGU	Pre-tax WACC	Post-tax WACC	Expected Annual Long-Term Inflation 2017-2026	Expected Volume Growth Rates 2016-2026
South America (Health Division)	7.5%	7.3%	3%	13%

The values assigned to the key assumptions represent management's assessment of future trends in the industry and are based on both external sources and internal sources (historical data). FEMSA Comercio consistently applied its methodology to determine CGU specific WACC's to perform its annual impairment testing.

Sensitivity to Changes in Assumptions

At December 31, 2017, FEMSA Comercio performed an additional impairment sensitivity calculation, taking into account an adverse change in post-tax WACC, according to the country risk premium, using for each country the relative standard deviation between equity and sovereign bonds and a sensitivity analysis of sales that would be affected considering a contraction in economic conditions as a result of lower purchasing power of customers, which based on management estimation considered to be reasonably possible an effect of 100 basis points in the sales compound annual growth rate (CAGR), concluding that no impairment would be recognized.

CGU Group	Change in WACC	Change in Sales Growth CAGR ⁽¹⁾	Effect on Valuation
Health Division (South America)	+0.3%	-1.0%	Passes by 7.03x

(1) Compound Annual Growth Rate.

Note 13. Other Assets and Other Financial Assets

13.1 Other assets

	December 31, 2017	December 31, 2016
Agreement with customers	Ps. 849	Ps. 793
Long term prepaid advertising expenses	298	392
Guarantee deposits ⁽¹⁾	3,491	3,757
Prepaid bonuses	151	103
Advances to acquire property, plant and equipment	266	173

Recoverable taxes from business combinations	458	
Others	828	1,230

Ps. 12,525 Ps. 16,182

- (1) As it is customary in Brazil, the Company is required to collateralize tax, legal and labor contingencies by guarantee deposits including those related to business acquisitions (see Note 25.7).
- (2) Corresponds to indemnifiable assets that are warranted by former Vonpar owners as per the share purchase agreement.

F-63

13.2 Other financial assets

	December 31, 2017	December 31, 2016
Non-current accounts receivable	Ps. 733	Ps. 511
Derivative financial instruments (see Note 20)	10,137	14,729
Investments in other entities ⁽¹⁾	1,039	
Others	164	105
	Ps. 12,073	Ps. 15,345

(1) Investment in Venezuela subsidiary, Coca-Cola FEMSA determined that the deteriorating conditions in Venezuela had led the Company to no longer meet the accounting criteria to consolidate its Venezuelan subsidiary, the impacts of such deconsolidation are discussed in Note 3.3 above.

As of December 31, 2017 and 2016, the fair value of long term accounts receivable amounted to Ps. 707 and Ps. 541, respectively. The fair value is calculated based on the discounted value of contractual cash flows whereby the discount rate is estimated using rates currently offered for receivable of similar amounts and maturities, which is considered to be level 2 in the fair value hierarchy.

Note 14. Balances and transactions with related parties and affiliated companies

Balances and transactions between the Company and its subsidiaries have been eliminated on consolidation and are not disclosed in this note.

The consolidated statements of financial positions and consolidated income statements include the following balances and transactions with related parties and affiliated companies:

	December 31, 2017	December 31, 2016

Mexican peso exchange rates effective at the dates of the consolidated statements of financial position and at the issuance date of the Company's consolidated financial statements were as follows:

	December 31, 2017	December 31, 2016	April 20, 2018
U.S. dollar	19.7354	20.6640	18.0333
Euro	23.5729	21.7741	22.9066

Note 16. Employee Benefits

The Company has various labor liabilities for employee benefits in connection with pension, seniority and post-retirement medical benefits. Benefits vary depending upon the country where the individual employees are located. Presented below is a discussion of the Company's labor liabilities in Mexico, which comprise the substantial majority of those recorded in the consolidated financial statements.

During 2016, Coca-Cola FEMSA settled its pension plan in Colombia and consequently Coca-Cola FEMSA recognized the corresponding effects of the settlement as disclosed below. The settlement of the complementary pension plan was only for certain executive employees.

16.1 Assumptions

The Company annually evaluates the reasonableness of the assumptions used in its labor liability for post-employment and other non-current employee benefits computations.

F-67

Actuarial calculations for pension and retirement plans, seniority premiums and post-retirement medical benefits, as well as the associated cost for the period, were determined using the following long-term assumptions for Mexico:

Mexico	December 31, 2017	December 31, 2016	December 31, 2015
Financial:			
Discount rate used to calculate the defined benefit obligation	7.60%	7.60%	7.00%
Salary increase	4.50%	4.50%	4.50%
Future pension increases	3.50%	3.50%	3.50%
Healthcare cost increase rate	5.10%	5.10%	5.10%
Biometric:			
Mortality ⁽¹⁾	EMSSA 2009	EMSSA 2009	EMSSA 2009
Disability ⁽²⁾	IMSS-97	IMSS-97	IMSS-97
Normal retirement age	60 years	60 years	60 years
Employee turnover table ⁽³⁾	BMAR 2007	BMAR 2007	BMAR 2007

Measurement date December:

- (1) EMSSA. Mexican Experience of social security.
- (2) IMSS. Mexican Experience of Instituto Mexicano del Seguro Social.
- (3) BMAR. Actuary experience.

In Mexico the methodology used to determine the discount rate was the Yield or Internal Rate of Return (IRR) which involves a yield curve. In this case, the expected rates of each period were taken from a yield curve of Mexican Federal Government Treasury Bonds (known as CETES in Mexico) because there is no deep market in high quality corporate obligations in Mexican pesos.

In Mexico upon retirement, the Company purchases an annuity for the employee, which will be paid according to the option chosen by the employee.

Based on these assumptions, the amounts of benefits expected to be paid out in the following years are as follows:

	Pension and Retirement Plans		Seniority Premiums		Post Retirement Medical Services		Total
2018	Ps.	611	Ps.	53	Ps.	19	Ps. 683
2019		233		52		20	305
2020		351		50		22	423
2021		263		48		24	335
2022		270		47		25	342
2023 to 2027		2,115		254		158	2,527

16.2 Balances of the liabilities for employee benefits

	December 31, 2017	December 31, 2016
Pension and Retirement Plans:		
Defined benefit obligation	Ps. 7,370	Ps. 5,702
Pension plan funds at fair value	(3,131)	(2,216)
Net defined benefit liability	Ps. 4,239	Ps. 3,486
Seniority Premiums:		
Defined benefit obligation	Ps. 783	Ps. 663
Seniority premium plan funds at fair value	(109)	(102)
Net defined benefit liability	Ps. 674	Ps. 561
Postretirement Medical Services:		
Defined benefit obligation	Ps. 524	Ps. 460
Medical services funds at fair value	(64)	(60)
Net defined benefit liability	Ps. 460	Ps. 400
Total employee benefits	Ps. 5,373	Ps. 4,447

16.3 Trust assets

Trust assets consist of fixed and variable return financial instruments recorded at market value, which are invested as follows:

Type of Instrument	December 31, December 31,	
	2017	2016
Fixed return:		
Traded securities	18%	15%
Bank instruments	5%	4%
Federal government instruments of the respective countries	62%	63%
Variable return:		
Publicly traded shares	15%	18%
	100%	100%

In Mexico, the regulatory framework for pension plans is established in the Income Tax Law and its Regulations, the Federal Labor Law and the Mexican Social Security Institute Law. None of these laws establish minimum funding levels or a minimum required level of contributions.

In Mexico, the Income Tax Law requires that, in the case of private plans, certain notifications must be submitted to the authorities and a certain level of instruments must be invested in Federal Government securities among others.

The Company's various pension plans have a technical committee that is responsible for verifying the correct operation of the plan with regard to the payment of benefits, actuarial valuations of the plan, and supervise the trustee. The committee is responsible for determining the investment portfolio and the types of instruments the fund will be invested in. This technical committee is also responsible for reviewing the correct operation of the plans in all of the countries in which the Company has these benefits.

The risks related to the Company's employee benefit plans are primarily attributable to the plan assets. The Company's plan assets are invested in a diversified portfolio, which considers the term of the plan so as to invest in assets whose expected return coincides with the estimated future payments.

Since the Mexican Tax Law limits the plan asset investment to 10% for related parties, this risk is not considered to be significant for purposes of the Company's Mexican subsidiaries.

In Mexico, the Company's policy is to invest at least 30% of the fund assets in Mexican Federal Government instruments. Guidelines for the target portfolio have been established for the remaining percentage and investment decisions are made to comply with these guidelines insofar as the market conditions and available funds allow.

In Mexico, the amounts and types of securities of the Company in related parties included in portfolio fund are as follows:

	December 31, 2017	December 31, 2016
Debt:		
Cementos Mexicanos, S.A.B. de C.V.	Ps.	Ps. 7
Grupo Televisa, S.A.B. de C.V.	28	45
Grupo Financiero Banorte, S.A.B. de C.V.		7
BBVA Bancomer S.A. de C.V.	10	
El Puerto de Liverpool, S.A.B. de C.V.	30	5
Grupo Industrial Bimbo, S.A.B. de C. V.	5	19
Genera, S.A.B. de C.V.		8
Capital:		
Grupo Industrial Bimbo, S.A.B. de C.V.		6

During the years ended December 31, 2017, 2016 and 2015, the Company did not make significant contributions to the plan assets and does not expect to make material contributions to the plan assets during the following fiscal year. The plan assets include securities of the Company in portfolio fund in amount of Ps. 114, as of December 31, 2016. There are no restrictions placed on the trustee's ability to sell those securities. As of December 31, 2017, the plan assets did not include securities of the Company in portfolio funds.

16.4 Amounts recognized in the consolidated income statements and the consolidated statement of comprehensive income

16.6 Changes in the balance of plan assets

	December 31, 2017	December 31, 2016	December 31, 2015
Total Plan Assets:			
Initial balance	Ps. 2,378	Ps. 2,228	Ps. 2,158
Actual return on trust assets	213	40	65
Foreign exchange loss (gain)	86	4	7
Life annuities	65	107	61
Benefits paid	(136)	(1)	(63)
Acquisitions	698		
Ending balance	Ps. 3,304	Ps. 2,378	Ps. 2,228

As a result of the Company's investments in life annuities plan, management does not expect it will need to make material contributions to plan assets in order to meet its future obligations.

16.7 Variation in assumptions

The Company decided that the relevant actuarial assumptions that are subject to sensitivity and valued through the projected unit credit method, are the discount rate, the salary increase rate and healthcare cost increase rate. The reasons for choosing these assumptions are as follows:

F-72

Discount rate: The rate that determines the value of the obligations over time.

Salary increase rate: The rate that considers the salary increase which implies an increase in the benefit payable.

Healthcare cost increase rate: The rate that considers the trends of health care costs which implies an impact on the postretirement medical service obligations and the cost for the year.

The following table presents the amount of defined benefit plan expense and OCI impact in absolute terms of a variation of 0.5% in the assumptions on the net defined benefit liability associated with the Company's defined benefit plans. The sensitivity of this 0.5% on the significant actuarial assumptions is based on a projected long-term discount rates for Mexico and a yield curve projections of long-term sovereign bonds:

+0.5%: Discount rate used to calculate the defined benefit obligation and the net interest on the net defined benefit liability	Income Statement			OCI (1)	
	Current Service Cost	Past Service Cost	Settlement or Curtailment	Gain or Loss on Settlement or Curtailment	Defined Benefit Liability (Asset)

	Ps. 65,746	Ps. 48,675	Ps. 48,275

Note 17. Bonus Programs*17.1 Quantitative and qualitative objectives*

The bonus program for executives is based on complying with certain goals established annually by management, which include quantitative and qualitative objectives, and special projects.

The quantitative objectives represent approximately 50% of the bonus, and are based on the Economic Value Added (EVA) methodology. The objective established for the executives at each entity is based on a combination of the EVA generated per entity and the EVA generated by the Company, calculated at approximately 70% and 30%, respectively. The qualitative objectives and special projects represent the remaining 50% of the annual bonus and are based on the critical success factors established at the beginning of the year for each executive.

The bonus amount is determined based on each eligible participant's level of responsibility and based on the EVA generated by the applicable business unit the employee works for. This formula is established by considering the level of responsibility within the organization, the employee's evaluation and competitive compensation in the market. The bonus is paid to the eligible employee on an annual basis and after withholding applicable taxes.

17.2 Share-based payment bonus plan

The Company has implemented a stock incentive plan for the benefit of its senior executives. As discussed above, this plan uses as its main evaluation metric the EVA. Under the EVA stock incentive plan, eligible employees are entitled to receive a special annual bonus (fixed amount), to be paid in shares of FEMSA or Coca-Cola FEMSA, as applicable or stock options (the plan considers providing stock options to employees; however, since inception only shares of FEMSA or Coca-Cola FEMSA have been granted).

The plan is managed by FEMSA's chief executive officer (CEO), with the support of the board of directors, together with the CEO of the respective sub-holding company. FEMSA's Board of Directors is responsible for approving the plan's structure, and the annual amount of the bonus. Each year, FEMSA's CEO in conjunction with the Evaluation and Compensation Committee of the board of directors and the CEO of the respective sub-holding company determine the employees eligible to participate in the plan and the bonus formula to determine the number of shares to be received. Until 2015 the shares were vested ratably over a six year period, beginning with January 1, 2016 onwards they were ratably vest over a four year period, with retrospective effects, on existing grants recognized in 2016. FEMSA accounts for its share-based payment bonus plan as an equity-settled share based payment transaction as it will ultimately settle its obligations with its employees by issuing its own shares or those of its subsidiary Coca-Cola FEMSA.

The Company contributes the individual employee's special bonus (after taxes) in cash to the Administrative Trust (which is controlled and consolidated by FEMSA), who then uses the funds to purchase FEMSA or Coca-Cola FEMSA shares (as instructed by the Administrative Trust's Technical Committee), which are then allocated to such employee. The Administrative Trust tracks the individual employees' account balance. FEMSA created the Administrative Trust with the objective of conducting the purchase of FEMSA and Coca-Cola FEMSA shares by each of its subsidiaries with eligible executives participating in the stock incentive plan. The Administrative Trust's objectives are to acquire FEMSA shares, or shares of Coca-Cola FEMSA and to manage the shares granted to the individual employees based on instructions set forth by the Technical Committee. Once the shares are acquired following the Technical Committee's instructions, the Administrative Trust assigns to each participant their respective rights. As the trust is controlled and therefore consolidated by FEMSA, shares purchased in the market and held within the Administrative Trust are presented as treasury stock (as it relates to FEMSA's shares) or as a reduction of the noncontrolling interest (as it relates to Coca-Cola FEMSA's shares) in the consolidated statement of changes in equity, on the line issuance (purchase) of shares associated with share-based payment plans. Should an employee leave prior to their shares vesting, they would lose the rights to such shares, which would then remain within the Administrative Trust and be able to be reallocated to other eligible employees as determined by the Company. The incentive plan target is expressed in months of salary, and the final amount payable is computed based on a percentage of compliance with the goals established every year. For the years ended December 31, 2017, 2016 and 2015, the compensation expense recorded in the consolidated income statement amounted to Ps. 351, Ps. 468 and Ps. 463, respectively.

All shares held in the Administrative Trust are considered outstanding for diluted earnings per share purposes and dividends on shares held by the trust are charged to retained earnings.

As of December 31, 2017 and 2016, the number of shares held by the trust associated with the Company's share based payment plans is as follows:

	Number of Shares			
	FEMSA UBD		KOFL	
	2017	2016	2017	2016
Beginning balance	3,625,171	4,246,792	1,068,327	1,160,311
Shares acquired by the administrative trust to employees	1,311,599	2,375,196	344,770	695,487
Shares released from administrative trust to employees upon vesting	(1,991,561)	(2,996,817)	(477,198)	(787,471)

Forfeitures

Ending balance	2,945,209	3,625,171	935,899	1,068,327
----------------	------------------	-----------	----------------	-----------

F-75

The fair value of the shares held by the trust as of the end of December 31, 2017 and 2016 was Ps. 673 and Ps. 712, respectively, based on quoted market prices of those dates.

In March 14, 2016, the Company issued long-term debt on the Irish Stock Exchange (ISE) in the amount of . 1,000, which was made up of senior notes with a maturity of 7 years, a fixed interest rate of 1.75% and a spread of 155 basis points over the relevant benchmark mid-swap, for a total yield of 1.824%. The Company has designated this non-derivative financial liability as a hedge on the net investment in Heineken. For the year ended December 31, 2017, a foreign exchange loss, net of tax, has been recognized as part of the exchange differences on translation of foreign operations within the cumulative other comprehensive income of Ps. 1,259.

In August 18, 2017, Coca-Cola FEMSA partially prepaid U.S. \$555 of a dollar denominated bond due in 2018, reducing the outstanding senior note to U.S. \$445 with interest at a fixed rate of 2.38%.

Coca-Cola FEMSA has the following bonds: a) registered with the Mexican stock exchange: i) Ps. 2,500 (nominal amount) with a maturity date in 2021 and fixed interest rate of 8.27%, ii) Ps. 7,500 (nominal amount) with a maturity date in 2023 and fixed interest rate of 5.46%, iii) Ps. 1,500 (nominal amount) with a maturity date 2022 and floating interest rate of THIE + 0.25% and iv) Ps. 8,500 (nominal amount) with a maturity date 2027 and fixed interest rate of 7.87%; and b) registered with the SEC: i) Senior notes of U.S. \$500 with interest at a fixed rate of 4.63% and maturity date on February 15, 2020, ii) Senior notes of U.S. \$445 with interest at a fixed rate of 2.38% and maturity date on November 26, 2018, iii) Senior notes of U.S. \$900 with interest at a fixed rate of 3.88% and maturity date on November 26, 2023 and iv) Senior notes of U.S. \$600 with interest at a fixed rate of 5.25% and maturity date on November 26, 2043 all of which are guaranteed by Coca-Cola FEMSA subsidiaries: Propimex, S. de R.L. de C.V., Comercializadora La Pureza de Bebidas, S. de R.L. de C.V., Controladora Interamericana de Bebidas, S. de R.L. de C.V., Grupo Embotellador Cimsa, S. de R.L. de C.V., Refrescos Victoria del Centro, S. de R.L. de C.V., Distribuidora y Manufacturera del Valle de Mexico, S. de R.L. de C.V (as successor guarantor of Servicios Integrados Inmuebles del Golfo, S. de R.L. de C.V.) and Yoli de Acapulco, S. de R.L. de C.V. (Guarantors).

The Company has financing from different institutions under agreements that stipulate different restrictions and covenants, which mainly consist of maximum levels of leverage and capitalization as well as minimum consolidated net worth and debt and interest coverage ratios. As of the date of these consolidated financial statements, the Company was in compliance with all restrictions and covenants contained in its financing agreements.

Note 20. Financial Instruments**Fair Value of Financial Instruments**

The Company's financial assets and liabilities that are measured at fair value are based on level 2 applying the income approach method, which estimates the fair value based on expected cash flows discounted to net present value. The following table summarizes the Company's financial assets and liabilities measured at fair value, as of December 31, 2017 and 2016:

	December 31, 2017		December 31, 2016	
	Level 1	Level 2	Level 1	Level 2
Derivative financial instrument (current asset)	22	211	374	1,543
Derivative financial instrument (non-current asset)		10,137		14,729
Derivative financial instrument (current liability)	26	3,921		264
Derivative financial instrument (non-current liability)		1,769		6,403

20.1 Total debt

The fair value of bank loans is calculated based on the discounted value of contractual cash flows whereby the discount rate is estimated using rates currently offered for debt of similar amounts and maturities, which is considered to be level 2 in the fair value hierarchy. The fair value of the Company's publicly traded debt is based on quoted market prices as of December 31, 2017 and 2016, which is considered to be level 1 in the fair value hierarchy.

	2017	2016
Carrying value	Ps. 131,348	Ps. 139,248
Fair value	136,147	140,284

20.2 Interest rate swaps

The Company uses interest rate swaps to offset the interest rate risk associated with its borrowings, pursuant to which it pays amounts based on a fixed rate and receives amounts based on a floating rate. These instruments have been designated as cash flow hedges and are recognized in the consolidated statement of financial position at their estimated fair value. The fair value is estimated using formal technical models. The valuation method involves discounting to present value the expected cash flows of interest, calculated from the rate curve of the cash flow currency, and expresses the net result in the reporting currency. Changes in fair value are recorded in cumulative other comprehensive income, net of taxes until such time as the hedged amount is recorded in the consolidated income statements.

At December 31, 2017, the Company has the following outstanding interest rate swap agreements:

Maturity Date	Notional Amount	Fair Value Liability	Fair Value Asset
		December 31, 2017	December 31, 2017
2019	4,089	(35)	
2020	3,669	(17)	
2021	3,709	(103)	

2022	875	(34)	
2023	13,328	(77)	984

F-82

At December 31, 2016, the Company has the following outstanding interest rate swap agreements:

Maturity Date	Notional Amount	Fair Value Liability December 31, 2016	Fair Value Asset December 31, 2016
2017	Ps. 1,250	Ps.	Ps. 10
2019	77	(4)	
2021	727	(87)	
2022	929	(35)	
2023	13,261	(73)	1,028

The net effect of expired contracts treated as hedges are recognized as interest expense within the consolidated income statements.

20.3 Forward agreements to purchase foreign currency

The Company has entered into forward agreements to reduce its exposure to the risk of exchange rate fluctuations between the Mexican peso and other currencies. Foreign exchange forward contracts measured at fair value are designated hedging instruments in cash flow hedges of forecast inflows in Euros and forecast purchases of raw materials in U.S. dollars. These forecast transactions are highly probable.

These instruments have been designated as cash flow hedges and are recognized in the consolidated statement of financial position at their estimated fair value which is determined based on prevailing market exchange rates to terminate the contracts at the end of the period. The price agreed in the instrument is compared to the current price of the market forward currency and is discounted to present value of the rate curve of the relevant currency. Changes in the fair value of these forwards are recorded as part of cumulative other comprehensive income, net of taxes. Net gain/loss on expired contracts is recognized as part of cost of goods sold when the raw material is included in sale transaction, and as a part of foreign exchange when the inflow in Euros are received.

At December 31, 2017, the Company had the following outstanding forward agreements to purchase foreign currency:

Maturity Date	Notional Amount	Fair Value Liability December 31, 2017	Fair Value Asset December 31, 2017
2018	Ps. 7,739	Ps. (20)	Ps. 172

At December 31, 2016, the Company had the following outstanding forward agreements to purchase foreign currency:

Maturity Date	Notional Amount	Fair Value Liability December 31, 2016	Fair Value Asset December 31, 2016
2017	Ps. 8,265	Ps. (247)	Ps. 364

20.4 Options to purchase foreign currency

The Company has executed call option and collar strategies to reduce its exposure to the risk of exchange rate fluctuations. A call option is an instrument that limits the loss in case of foreign currency depreciation. A collar is a strategy that combines call and put options, limiting the exposure to the risk of exchange rate fluctuations in a similar way as a forward agreement.

These instruments have been designated as cash flow hedges and are recognized in the consolidated statement of financial position at their estimated fair value which is determined based on prevailing market exchange rates to terminate the contracts at the end of the period. Changes in the fair value of these options, corresponding to the intrinsic value, are initially recorded as part of cumulative other comprehensive income. Changes in the fair value, corresponding to the extrinsic value, are recorded in the consolidated income statements under the caption market value gain/ (loss) on financial instruments, as part of the consolidated net income. Net gain/(loss) on expired contracts including the net premium paid, is recognized as part of cost of goods sold when the hedged item is recorded in the consolidated income statements.

At December 31, 2017, the Company paid a net premium of Ps. 7 millions for the following outstanding collar options to purchase foreign currency:

Maturity Date	Notional Amount	Fair Value Liability December 31, 2017	Fair Value Asset December 31, 2017
2018	Ps. 266	Ps. (5)	Ps. 17

20.5 Cross-currency swaps

The Company has contracted for a number of cross-currency swaps to reduce its exposure to risks of exchange rate and interest rate fluctuations associated with its borrowings denominated in U.S. dollars and other foreign currencies. Cross-Currency swaps contracts are designated as hedging instruments through which the Company changes the debt profile to its functional currency to reduce exchange exposure.

These instruments are recognized in the consolidated statement of financial position at their estimated fair value which is estimated using formal technical models. The valuation method involves discounting to present value the expected cash flows of interest, calculated from the rate curve of the cash foreign currency, and expresses the net result in the reporting currency. These contracts are designated as financial instruments at fair value through profit or loss. The fair values changes related to those cross currency swaps are recorded under the caption market value gain (loss) on financial instruments, net of changes related to the long-term liability, within the consolidated income statements.

The Company has cross-currency contracts designated as cash flow hedges and are recognized in the consolidated statement of financial position at their estimated fair value. Changes in fair value are recorded in cumulative other comprehensive income, net of taxes until such time as the hedge amount is recorded in the consolidated income statement.

At December 31, 2017, the Company had the following outstanding cross currency swap agreements:

Maturity Date	Notional Amount	Fair Value Liability 2017	Fair Value Asset December 31, 2017
2018	24,760	(3,878)	
2019	6,263	(205)	
2020	18,428	(927)	567
2021	4,853	(12)	24
2023	14,446		8,336
2026	888	(192)	
2027	6,907		51

At December 31, 2016, the Company had the following outstanding cross currency swap agreements:

Maturity Date	Notional Amount	Fair Value Liability 2016	Fair Value Asset December 31, 2016
2017	Ps. 2,707	Ps. (10)	Ps. 1,165
2018	39,262	(4,837)	3,688
2019	7,022	(265)	
2020	19,474	(842)	798
2021	5,076	(128)	28
2023	12,670		9,057
2026	925	(131)	
2027	5,476		125

20.6 Commodity price contracts

The Company has entered into various commodity price contracts to reduce its exposure to the risk of fluctuation in the costs of certain raw material. The fair value is estimated based on the market valuations to terminate the contracts at the end of the period. These instruments are designated as Cash Flow Hedges and the changes in the fair value are recorded as part of cumulative other comprehensive income.

The fair value of expired commodity price contract was recorded in cost of goods sold where the hedged item was recorded also in cost of goods sold.

At December 31, 2017, Coca-Cola FEMSA had the following sugar price contracts:

Maturity Date	Notional Amount	Fair Value Asset December 31, 2017
2018	Ps. 992	Ps. (7)
2019	150	3

At December 31, 2016, Coca-Cola FEMSA had the following sugar price contracts:

Maturity Date	Notional Amount	Fair Value Asset December 31, 2016
2017	Ps. 572	Ps. 370

At December 31, 2016, Coca-Cola FEMSA had the following aluminum price contracts:

Maturity Date	Notional Amount	Fair Value Liability December 31, 2016
2017	Ps. 74	Ps. 5

20.7 Option embedded in the Promissory Note to fund the Vonpar's acquisition

As disclosed in Note 4.1.2, on December 6, 2016, as part of the purchase price paid for the Coca-Cola FEMSA's acquisition of Vonpar, Spal issued and delivered a three-year promissory note to the sellers, for a total amount of 1,090 million Brazilian reais (approximately Ps. 6,503 and Ps. 7,022 million as of December 31, 2017 and 2016, respectively). The promissory note bears interest at an annual rate of 0.375%, and is denominated and payable in Brazilian reais. The promissory note is linked to the performance of the exchange rate between the Brazilian real and the U.S. dollar. As a result, the principal amount under the promissory note may be increased or reduced based on the depreciation or appreciation of the Brazilian real relative to the U.S. dollar. The holders of the promissory note have an option, that may be exercised prior to the scheduled maturity of the promissory note, to capitalize the Mexican peso amount equivalent to the amount payable under the promissory note into a recently incorporated Mexican company which would then be merged into the Coca-Cola FEMSA in exchange for Series L shares at a strike price of Ps. 178.5 per share. Such capitalization and issuance of new Series L shares is subject to Coca-Cola FEMSA having a sufficient number of Series L shares available for issuance.

F-86

Coca-Cola FEMSA uses Black & Scholes valuation technique to measure the call option at fair value. The call option had an estimated fair value of Ps. 343 million at inception of the option and Ps. 242 million and 368 million as of December 31, 2017 and 2016, respectively. The option is recorded as part of the Promissory Note disclosed in Note 18.

Coca-Cola FEMSA estimates that the call option is out of the money as of December 31, 2017 and 2016 by approximately 30.4% and 35.9% or U.S. \$82 million and U.S. \$93 million with respect to the strike price.

20.8 Net effects of expired contracts that met hedging criteria

Type of Derivatives	Impact in Consolidated			
	Income Statement	2017	2016	2015
Cross currency swap ⁽¹⁾	Interest expense	2,102		2,595
Cross currency swap ⁽¹⁾	Foreign exchange			(10,911)
Forward agreements to purchase foreign currency	Foreign exchange	1(40)	160	(180)
Commodity price contracts	Cost of goods sold	(6)	(241)	619
Options to purchase foreign currency	Cost of goods sold			(21)
Forward agreements to purchase foreign currency	Cost of goods sold	689	(45)	(523)

(1) This amount corresponds to the settlement of cross currency swaps portfolio in Brazil presented as part of the other financial activities.

20.9 Net effect of changes in fair value of derivative financial instruments that did not meet the hedging criteria for accounting purposes

Type of Derivatives	Impact in Consolidated			
	Income Statement	2017	2016	2015
Interest rate swaps	Market value	Ps.	Ps.	Ps.
Cross currency swaps	gain (loss) on			(20)
Others	financial instruments			56

20.10 Net effect of expired contracts that did not meet the hedging criteria for accounting purposes

Type of Derivatives	Impact in Consolidated			
	Income Statement	2017	2016	2015
Cross-currency swaps	Market value gain on financial instruments	Ps. (438)	Ps.	Ps. 204

20.11 Market risk

Market risk is the risk that the fair value of future cash flow of a financial instrument will fluctuate because of changes in market prices. Market prices include currency risk and commodity price risk.

The Company's activities expose it primarily to the financial risks of changes in foreign currency exchange rates and commodity prices. The Company enters into a variety of derivative financial instruments to manage its exposure to foreign currency risk, and commodity prices risk including:

Forward Agreements to Purchase Foreign Currency in order to reduce its exposure to the risk of exchange rate fluctuations.

Cross-Currency Swaps in order to reduce its exposure to the risk of exchange rate fluctuations.

Commodity price contracts in order to reduce its exposure to the risk of fluctuation in the costs of certain raw materials.

The Company tracks the fair value (mark to market) of its derivative financial instruments and its possible changes using scenario analyses.

The following disclosures provide a sensitivity analysis of the market risks management considered to be reasonably possible at the end of the reporting period based on a stress test of the exchange rates according to an annualized volatility estimated with historic prices obtained for the underlying asset over a period of time, in the cases of derivative financial instruments related to foreign currency risk, which the Company is exposed to as it relates to its existing hedging strategy:

20.12 Interest rate risk

Interest rate risk is the risk that the fair value or future cash flow of a financial instrument will fluctuate because of changes in market interest rates.

The Company is exposed to interest rate risk because it and its subsidiaries borrow funds at both fixed and variable interest rates. The risk is managed by the Company by maintaining an appropriate mix between fixed and variable rate borrowings, and by the use of the different derivative financial instruments. Hedging activities are evaluated regularly to align with interest rate views and defined risk appetite, ensuring the most cost-effective hedging strategies are applied.

The following disclosures provide a sensitivity analysis of the interest rate risks management considered to be reasonably possible at the end of the reporting period, which the Company is exposed to as it relates to its fixed and floating rate borrowings, which it considers in its existing hedging strategy:

Interest Rate Swap ⁽¹⁾	Change in Bps.	Effect on Equity
2017		
FEMSA ⁽²⁾	(100 Bps.)	Ps. (452)
Coca-Cola FEMSA	(100 Bps.)	(234)

Effect on profit loss	Ps. (251)	Ps. (354)	Ps. (192)

20.13 Liquidity risk

Each of the Company's sub-holding companies generally finances its operational and capital requirements on an independent basis. As of December 31, 2017 and 2016, 64.3% and 64.5%, respectively of the Company's outstanding consolidated total indebtedness was at the level of its sub-holding companies. This structure is attributable, in part, to the inclusion of third parties in the capital structure of Coca-Cola FEMSA. Currently, the Company's management expects to continue financing its operations and capital requirements when it is considering domestic funding at the level of its sub-holding companies, otherwise; it is generally more convenient that its foreign operations would be financed directly through the Company because of better market conditions obtained by itself. Nonetheless, sub-holdings companies may decide to incur indebtedness in the future to finance their own operations and capital requirements of the Company's subsidiaries or significant acquisitions, investments or capital expenditures. As a holding company, the Company depends on dividends and other distributions from its subsidiaries to service the Company's indebtedness.

The Company's principal source of liquidity has generally been cash generated from its operations. The Company has traditionally been able to rely on cash generated from operations because a significant majority of the sales of Coca-Cola FEMSA and FEMSA Comercio are on a cash or short-term credit basis, and FEMSA Comercio's OXXO stores are able to finance a significant portion of their initial and ongoing inventories with supplier credit. The Company's principal use of cash has generally been for capital expenditure programs, acquisitions, debt repayment and dividend payments.

Ultimate responsibility for liquidity risk management rests with the Company's board of directors, which has established an appropriate liquidity risk management framework for the management of the Company's short-, medium- and long-term funding and liquidity requirements. The Company manages liquidity risk by maintaining adequate cash reserves and continuously monitoring forecast and actual cash flows, and with a low concentration of maturities per year.

The Company has access to credit from national and international banking institutions in order to meet treasury needs; besides, the Company has the highest rating for Mexican companies (AAA) given by independent rating agencies, allowing the Company to evaluate capital markets in case it needs resources.

As part of the Company's financing policy, management expects to continue financing its liquidity needs with cash from operations. Nonetheless, as a result of regulations in certain countries in which the Company operates, it may not be beneficial or, as in the case of exchange controls in Venezuela, practicable to remit cash generated in local operations to fund cash requirements in other countries. Exchange controls like those in Venezuela may also increase the real price of remitting cash from operations to fund debt requirements in other countries. In the event that cash from operations in these countries is not sufficient to fund future working capital requirements and capital expenditures, management may decide, or be required, to fund cash requirements in these countries through local borrowings rather than remitting funds from another country. In addition, the Company's liquidity in Venezuela could be affected by changes in the rules applicable to exchange rates as well as other regulations, such as exchange controls. In the future the Company management may finance its working capital and capital expenditure needs with short-term or other borrowings.

The Company's management continuously evaluates opportunities to pursue acquisitions or engage in joint ventures or other transactions. We would expect to finance any significant future transactions with a combination of cash from operations, long-term indebtedness and capital stock.

The Company's sub-holding companies generally incur short-term indebtedness in the event that they are temporarily unable to finance operations or meet any capital requirements with cash from operations. A significant decline in the business of any of the Company's sub-holding companies may affect the sub-holding company's ability to fund its capital requirements. A significant and prolonged deterioration in the economies in which we operate or in the Company's businesses may affect the Company's ability to obtain short-term and long-term credit or to refinance existing indebtedness on terms satisfactory to the Company's management.

The Company presents the maturity dates associated with its long-term financial liabilities as of December 31, 2017, see Note 18. The Company generally makes payments associated with its long-term financial liabilities with cash generated from its operations.

The following table reflects all contractually fixed pay-offs for settlement, repayments and interest resulting from recognized financial liabilities. It includes expected net cash outflows from derivative financial liabilities that are in place as of December 31, 2017. Such expected net cash outflows are determined based on each particular settlement date of an instrument. The amounts disclosed are undiscounted net cash outflows for the respective upcoming fiscal years, based on the earliest date on which the Company could be required to pay. Cash outflows for financial liabilities (including interest) without fixed amount or timing are based on economic conditions (like interest rates and foreign exchange rates) existing at December 31, 2017.

	2018	2019	2020	2021	2022	2023 and thereafter
Non-derivative financial liabilities:						
Notes and bonds	Ps. 9,961	Ps. 7,828	Ps. 10,939	Ps. 3,574	Ps. 2,532	Ps. 97,602
Loans from banks	4,915	1,239	1,480	4,917	766	414
Obligations under finance leases	49	39	33	16		
Derivative financial liabilities	(3,452)	26	654	190	236	(4,831)

The Company generally makes payments associated with its non-current financial liabilities with cash generated from its operations.

20.14 Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company has adopted a policy of only dealing with creditworthy counterparties, where appropriate, as a means of mitigating the risk of financial loss from defaults. The Company only transacts with entities that are rated the equivalent of investment grade and above. This information is supplied by independent rating agencies where available and, if not available, the Company uses other publicly available financial information and its own trading records to rate its major customers. The Company's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties. Credit exposure is controlled by counterparty limits that are reviewed and approved by the risk management committee.

The Company has a high receivable turnover; hence management believes credit risk is minimal due to the nature of its businesses, which have a large portion of their sales settled in cash. The Company's maximum exposure to credit risk for the components of the statement of financial position at December 31, 2017 and 2016 is the carrying amounts (see Note 7).

The Company manages the credit risk related to its derivative portfolio by only entering into transactions with reputable and credit-worthy counterparties as well as by maintaining in some cases a Credit Support Annex (CSA) that establishes margin requirements, which could change upon changes to the credit ratings given to the Company by independent rating agencies. As of December 31, 2017, the Company concluded that the maximum exposure to credit risk related with derivative financial instruments is not significant given the high credit rating of its counterparties.

Note 21. Non-Controlling Interest in Consolidated Subsidiaries

An analysis of FEMSA's non-controlling interest in its consolidated subsidiaries for the years ended December 31, 2017 and 2016 is as follows:

	December 31, 2017	December 31, 2016
Coca-Cola FEMSA	Ps. 82,366	Ps. 70,293
Other	4,255	3,973
	Ps. 86,621	Ps. 74,266

The changes in the FEMSA's non-controlling interest were as follows:

	2017	2016	2015
Balance at beginning of the year	Ps. 74,266	Ps. 60,332	Ps. 59,649
Net income of non controlling interest	(5,202)	6,035	5,593
Other comprehensive income (loss):	7,240	9,463	(2,999)
Exchange differences on translation of foreign operation	7,349	9,238	(3,110)
Remeasurements of the net defined benefits liability	30	(63)	75
Valuation of the effective portion of derivative financial instruments	(139)	288	36
Capitalization of issued shares to former owners of Vonpar in Coca-Cola FEMSA	2,867		
Other acquisitions and remeasurments	(50)	1,710	1,133
Contribution from non-controlling interest	11,072	892	250
Equity instruments		(485)	
Dividends	(3,622)	(3,690)	(3,351)
Share based payment	50	9	57
Balance at end of the year	Ps. 86,621	Ps. 74,266	Ps. 60,332

F-94

Non controlling accumulated other comprehensive loss is comprised as follows:

	December 31, 2017	December 31, 2016
Exchange differences on translation foreign operation	Ps. 7,150	Ps. (199)
Remeasurements of the net defined benefits liability	(274)	(304)
Valuation of the effective portion of derivative financial instruments	56	195
Accumulated other comprehensive loss	Ps. 6,932	Ps. (308)

Coca-Cola FEMSA shareholders, especially the Coca-Cola Company which hold Series D shares, have some protective rights about investing in or disposing of significant businesses. However, these rights do not limit the continued normal operations of Coca-Cola FEMSA.

Summarized financial information in respect of Coca-Cola FEMSA is set out below:

	December 31, 2017	December 31, 2016
Total current assets	Ps. 55,657	Ps. 45,453
Total non-current assets	230,020	233,803
Total current liabilities	55,594	39,868
Total non-current liabilities	89,373	110,155
Total revenue	Ps. 203,780	Ps. 177,718
Total consolidated net (loss) income	(11,654)	10,527
Total consolidated comprehensive income	Ps. 3,315	Ps. 27,171
Net cash flow from operating activities	33,323	32,446
Net cash flow from used in investing activities	(10,890)	(26,915)
Net cash flow from financing activities	(10,775)	(9,734)

Note 22. Equity

22.1 Equity accounts

The capital stock of FEMSA is comprised of 2,161,177,770 BD units and 1,417,048,500 B units.

As of December 31, 2017 and 2016, the capital stock of FEMSA was comprised of 17,891,131,350 common shares, without par value and with no foreign ownership restrictions. Fixed capital stock amounts to Ps. 300 (nominal value) and the variable capital may not exceed 10 times the minimum fixed capital stock amount.

The characteristics of the common shares are as follows:

Series B shares, with unlimited voting rights, which at all times must represent a minimum of 51% of total capital stock;

Series L shares, with limited voting rights, which may represent up to 25% of total capital stock; and

Series D shares, with limited voting rights, which individually or jointly with series L shares may represent up to 49% of total capital stock.

The Series D shares are comprised as follows:

Subseries D-L shares may represent up to 25% of the series D shares;

Subseries D-B shares may comprise the remainder of outstanding series D shares; and

The non-cumulative premium dividend to be paid to series D shareholders will be 125% of any dividend paid to series B shareholders.

The Series B and D shares are linked together in related units as follows:

B units each of which represents five series B shares and which are traded on the BMV; and

BD units each of which represents one series B share, two subseries D-B shares and two subseries D-L shares, and which are traded both on the BMV and the NYSE.

As of December 31, 2017 and 2016, FEMSA's capital stock is comprised as follows:

	B Units	BD Units	Total
Units	1,417,048,500	2,161,177,770	3,578,226,270
Shares:			
Series B	7,085,242,500	2,161,177,770	9,246,420,270
Series D		8,644,711,080	8,644,711,080
Subseries D-B		4,322,355,540	4,322,355,540
Subseries D-L		4,322,355,540	4,322,355,540
Total shares	7,085,242,500	10,805,888,850	17,891,131,350

The net income of the Company is subject to the legal requirement that 5% thereof be transferred to a legal reserve until such reserve equals 20% of capital stock at nominal value. This reserve may not be distributed to shareholders during the existence of the Company, except as a stock dividend. As of December 31, 2017 and 2016, this reserve amounted to Ps. 596.

Retained earnings and other reserves distributed as dividends, as well as the effects derived from capital reductions, are subject to income tax at the rate in effect at the date of distribution, except when capital reductions come from restated shareholder contributions and when the distributions of dividends come from net taxable income, denominated Cuenta de Utilidad Fiscal Neta (CUFIN).

Dividends paid in excess of CUFIN are subject to income tax at a grossed-up rate based on the current statutory rate. Since 2003, this tax may be credited against the income tax of the year in which the dividends are paid, and in the following two years against the income tax and estimated tax payments. A new Income Tax Law (LISR) went into effect on January 1, 2014; such law no longer includes the tax consolidation regime which allowed calculating the CUFIN on a consolidated basis; therefore, beginning in 2014, distributed dividends must be taken from the individual CUFIN balance of FEMSA, which can be increased with the subsidiary companies' individual CUFINES through the transfers of dividends. The sum of the individual CUFIN balances of FEMSA and its subsidiaries as of December 31, 2017 amounted to Ps. 193,348. Dividends distributed to its stockholders who are individuals and foreign residents must withhold 10% for LISR purposes, which will be paid in Mexico. The foregoing will not be applicable when distributed dividends arise from the accumulated CUFIN balances as December 31, 2013.

At an ordinary shareholders' meeting of FEMSA held on March 19, 2015, the shareholders approved a dividend of Ps. 7,350 that was paid 50% on May 7, 2015 and other 50% on November 5, 2015; and a reserve for share repurchase of a maximum of Ps. 3,000. As of December 31, 2015, the Company has not repurchased shares. Treasury shares resulted from share-based payment bonus plan are disclosed in Note 17.

At an ordinary shareholders meeting of Coca-Cola FEMSA held on March 12, 2015, the shareholders approved a dividend of Ps. 6,405 that was paid 50% on May 5, 2015 and other 50% on November 3, 2015. The corresponding payment to the non-controlling interest was Ps. 3,340.

At an ordinary shareholders meeting of FEMSA held on March 8, 2016, the shareholders approved a dividend of Ps. 8,355 that was paid 50% on May 5, 2016 and other 50% on November 3, 2016; and a reserve for share repurchase of a maximum of Ps. 7,000. As of December 31, 2016, the Company has not repurchased shares. Treasury shares resulted from share-based payment bonus plan are disclosed in Note 17.

At an ordinary shareholders meeting of Coca-Cola FEMSA held on March 7, 2016, the shareholders approved a dividend of Ps. 6,945 that was paid 50% on May 3, 2016 and other 50% on November 1, 2016. The corresponding payment to the non-controlling interest was Ps. 3,621.

At an ordinary shareholders meeting of FEMSA held on March 16, 2017, the shareholders approved a dividend of Ps. 8,636 that was paid 50% on May 5, 2017 and other 50% on November 3, 2017; and a reserve for share repurchase of a maximum of Ps. 7,000. As of December 31, 2017, the Company has not repurchased shares. Treasury shares resulted from share-based payment bonus plan are disclosed in Note 17.

At an ordinary shareholders meeting of Coca-Cola FEMSA held on March 16, 2017, the shareholders approved a dividend of Ps. 6,991 that was paid 50% on May 3, 2017 and other 50% on November 1, 2017. The corresponding payment to the non-controlling interest was Ps. 3,622.

For the years ended December 31, 2017, 2016 and 2015 the dividends declared and paid by the Company and Coca-Cola FEMSA were as follows:

	2017	2016	2015
FEMSA	Ps. 8,636	Ps. 8,355	Ps. 7,350
Coca-Cola FEMSA (100% of dividend)	6,991	6,945	6,405

For the years ended December 31, 2017 and 2016 the dividends declared and paid per share by the Company are as follows:

Series of Shares	2017	2016
B	Ps. 0.43067	Ps. 0.41666
D	0.53833	0.52083

22.2 Capital management

The Company manages its capital to ensure that its subsidiaries will be able to continue as going concerns while maximizing the return to shareholders through the optimization of its debt and equity balance in order to obtain the lowest cost of capital available. The Company manages its capital structure and makes adjustments to it in light of changes in economic conditions. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. No changes were made in the objectives, policies or processes for managing capital during the years ended December 31, 2017 and 2016.

The Company is not subject to any externally imposed capital requirements, other than the legal reserve (see Note 22.1) and debt covenants (see Note 18).

The Company's finance committee reviews the capital structure of the Company on a quarterly basis. As part of this review, the committee considers the cost of capital and the risks associated with each class of capital. In conjunction with this objective, the Company seeks to maintain the highest credit rating both national and international, currently rated AAA and A- respectively, which requires it to have a debt to earnings before interest, taxes, depreciation and amortization (EBITDA) ratio lower than 1.5. As a result, prior to entering into new business ventures, acquisitions or divestures, management evaluates the optimal ratio of debt to EBITDA in order to maintain its credit rating.

Note 23. Earnings per Share

Basic earnings per share amounts are calculated by dividing consolidated net income for the year attributable to controlling interest by the weighted average number of shares outstanding during the period adjusted for the weighted average of own shares purchased in the period.

Diluted earnings per share amounts are calculated by dividing consolidated net income for the year attributable to controlling interest by the weighted average number of shares outstanding during the period adjusted for the effects of dilutive potential shares (originated by the Company's share based payment program).

	2017		2016		2015

Note 24. Income Taxes

On January 1, 2018, a tax reform became effective in Argentina. This reform reduced the income tax rate from 35.0% to 30.0% for 2018 and 2019, and then to 25.0% for the following years. In addition, such reform imposed a new tax on dividends paid to non-resident stockholders and resident individuals at a rate of 7.0% for 2018 and 2019, and then to 13.0% for the following years. For sales taxes in the province of Buenos Aires, the tax rate decreased from 1.75% to 1.5% in 2018; however, in the City of Buenos Aires, the tax rate increased from 1.0% to 2.0% in 2018, and will be reduced to 1.5% in 2019, 1.0% in 2020, 0.5% in 2021 and 0.0% in 2022.

On January 1, 2018, a new tax reform became effective in the Philippines. This reform mainly (i) reduced the income tax rate imposed on individuals in approximately 65.0%, (ii) increased the income tax rate from 5.0% on net capital gains from the sale of shares traded on or outside the stock exchange that do not exceed \$100,000 Philippine pesos and 10.0% when the sale of shares exceeded \$100,000 Philippine pesos, to a general tax rate of 15.0% on net capital gains from the sale of shares traded outside of the stock exchange by companies and individuals that are resident and non-resident, (iii) imposed an excise tax of 6.00 Philippine pesos per liter for sweetened beverages using caloric and non-caloric sweeteners, except for high fructose corn syrup (HFCS), and 12.00 Philippine pesos per liter for sweetened beverages using HFCS, (iv) imposed the obligation to issue electronic invoices and electronic sales reports, and (v) reduced the time period for keeping books and accounting records from 10 years to three years.

On January 1, 2017, a new general tax reform became effective in Colombia. This reform modifies the income tax rate to 33.0%, starting with a 34.0% for 2017 and then 33.0% for the next years. In addition, this reform includes an extra income tax rate of 6.0% for 2017 and 4.0% for 2018, for entities located outside free trade zone. Regarding taxpayers located in free trade zone, the special income tax rate increase to 20% for 2017. In 2016 the rate is 15.0%.

Additionally, the supplementary income tax (9.0 %) the temporary contribution to social programs (5.0 % to 9.0 % for 2015 to 2018), and the tax on net equity which were included in tax reform 2015 were eliminated. For 2017, the dividends received by individuals that are Colombian residents will be subject to a withholding of 35.0%; the dividends received by foreign individuals or entities non-residents in Colombia will be subject to a withholding of 5.0%. Finally, regarding the presumptive income on patrimony, the rate increased to a 3.5% for 2017 instead of 3.0% in 2016. Starting in 2017, the Colombian general rate of value-added tax (VAT) increased to 19.0%, replacing the 16.0% rate in effect till 2016.

During 2017, the Mexican government issued the Repatriation of Capital Decree which was valid from January 19 until October 19, 2017. Through this decree, a fiscal benefit was attributed to residents in Mexico by applying an income tax of 8% (instead of the statutory rate of 30% normally applicable) to the total amount of income returned to the country resulting from foreign investments held until December 2016.

Additionally, the Repatriation of Capital Decree sustains that the benefit will solely apply to income and investments returned to the country throughout the period of the decree. The resources repatriated must be invested during the fiscal year of 2017 and remain in national territory for a period of at least two years from the return date.

Also in Brazil, starting 2016 the rates of value-added tax in certain states will be changed as follows: Mato Grosso do Sul from 17.0% to 20.0%; Rio Grande do Sul from 18.0% to 20.0%; Minas Gerais the tax rate will remain at 18.0% but there will be an additional 2.0% as a contribution to poverty eradication just for the sales to non-taxpayer (final consumers); Rio de Janeiro the contribution related to poverty eradication fund will be increased from 1.0% to 2.0% effectively in April; Paraná the rate will be reduced to 16.0% but a rate of 2.0% as a contribution to poverty eradication will be charged on sales to non-taxpayers.

Additionally in Brazil, starting on January 1st, 2016, the rates of federal production tax will be reduced and the rates of the federal sales tax will be increased. Coca-Cola FEMSA estimates of these taxes is 16.2% over the net sales. For 2017, we expected the average of these taxes will range between 15.0% and 17.0% over the net sales.

On April 1, 2015, the Brazilian government issued Decree No. 8.426/15 to impose, as of July 2015, PIS/COFINS (Social Contributions on Gross Revenues) of 4.65% on financial income (except for foreign exchange variations).

On January 1, 2015, a general tax reform became effective in Colombia. This reform included the imposition of a new temporary tax on net equity through 2017 to Colombian residents and non-residents who own property in Colombia directly or indirectly through branches or permanent establishments. The relevant taxable base will be determined annually based on a formula. For net equity that exceeds 5.0 billion Colombian pesos (approximately U.S. \$2.1 million) the rate will be 1.15% in 2015, 1.00% in 2016 and 0.40% in 2017. In addition, the tax reform in Colombia imposed that the supplementary income tax at a rate of 9.0% as contributions to social programs, which was previously scheduled to decrease to 8.0% by 2015, will remain indefinitely. Additionally, this tax reform included the imposition of a temporary contribution to social programs at a rate of 5.0%, 6.0%, 8.0% and 9.0% for the years 2015, 2016, 2017 and 2018, respectively. Finally, this reform establishes an income tax deduction of 2.0% of value-added tax paid in the acquisition or import of hard assets, such as tangible and amortizable assets that are not sold or transferred in the ordinary course of business and that are used for the production of goods or services. Some of these rules were changed again through a new tax reform introduced at the end of 2016 and be effective in 2017, as described below.

On December 30, 2015, the Venezuelan government enacted a package of tax reforms that became effective in 2016. This reform mainly (i) eliminated the inflationary adjustments for the calculation of income tax as well as the new investment tax deduction, and (ii) imposed a new tax on financial transactions effective as of February 1, 2016, for those identified as special taxpayers, at a rate of 0.75% over certain financial transactions, such as bank withdrawals, transfer of bonds and securities, payment of debts without intervention of the financial system and debits on bank accounts for cross-border payments, which will be immediately withheld by the banks. Given the inherent uncertainty as to how the Venezuelan Tax Administration will require that the aforementioned inflation adjustments be applied, starting 2016 the Company decided to recognize the effects of elimination of the inflationary adjustments.

24.1 Income Tax

The major components of income tax expense for the years ended December 31, 2017, 2016 and 2015 are:

	2017	2016	2015
Current tax expense	Ps. 18,801	Ps. 13,548	Ps. 9,879
Deferred tax expense:			
Origination and reversal of temporary differences	(7,385)	(3,947)	826
(Recognition) application of tax losses, net	(823)	(1,693)	(2,789)
Change in the statutory rate	(10)	(20)	16
Total deferred tax income	(8,218)	(5,660)	(1,947)
	Ps. 10,583	Ps. 7,888	Ps. 7,932

Recognized in Consolidated Statement of Other Comprehensive Income (OCI)

	2017	2016	2015
Income tax related to items charged or recognized directly in OCI during the year:			
Unrealized loss on cash flow hedges	Ps. (191)	Ps. 745	Ps. 93
Exchange differences on translation of foreign operations	387	4,478	1,699
Remeasurements of the net defined benefit liability	(154)	(49)	49
Share of the other comprehensive income of associates and joint ventures	(1,465)	(1,385)	193
Total income tax cost recognized in OCI	Ps. (1,423)	Ps. 3,789	Ps. 2,034

A reconciliation between tax expense and income before income taxes and share of the profit or loss of associates and joint ventures accounted for using the equity method multiplied by the Mexican domestic tax rate for the years ended December 31, 2017, 2016 and 2015 is as follows:

	2017	2016	2015
Mexican statutory income tax rate	30.0%	30.0%	30.0%
Difference between book and tax inflationary values and translation effects	(6.2%)	(2.4%)	(1.3%)
Annual inflation tax adjustment	0.4%	0.6%	(1.5%)

Edgar Filing: MEXICAN ECONOMIC DEVELOPMENT INC - Form 20-F

Difference between statutory income tax rates	1.8%	1.2%	0.4%
Repatriation of capital benefit decree	(20.2%)		
Non-deductible expenses	2.4%	2.8%	3.3%
(Non-taxable) income		(0.4%)	(0.3%)
Hedge of a net investment in foreign operations	(1.4%)	(2.2%)	
Effect of changes in Venezuela tax law		3.6%	
Income tax credits	(1.8%)	(3.9%)	
Philippines consolidation profit	(2.2%)		
Venezuela desconsolidation effect	23.4%		
Others	0.3%	(1.6%)	0.8%
	26.5%	27.6%	31.5%

F-100

Deferred Income Tax Related to:

	Consolidated Statement of Financial Position as of		Consolidated Statement of Income

Deferred tax asset	(15,853)	(12,053)			
Deferred tax liability	Ps. 6,133	Ps. 11,037			

(1) Deferred tax related to derivative financial instruments and remeasurements of the net defined benefit liability.

(2) Correspond to income tax credits arising from dividends received from foreign subsidiaries to be recovered within the next ten years accordingly to the Mexican Income Tax law as well as effects of the exchange of foreign currencies with a related and non-related parties.

(3)

As a result of the change in the application of the law, the Company recognized a deferred tax liability in Venezuela for an amount of Ps. 1,107 with their corresponding impact on the income tax of the year as disclosed in the effective tax rate reconciliation.

F-101

As a result of the change in the application of the law, the Company recognized a deferred tax liability in Venezuela for an amount of Ps. 1,107 with their corresponding impact on the income tax of the year as disclosed in the effective tax rate reconciliation. The liability was derecognized in 2017 upon deconsolidation of Coca-Cola FEMSA's Venezuelan operations.

Deferred tax related to Accumulated Other Comprehensive Income (AOCI)

Income tax related to items charged or recognized directly in AOCI as of the year:	2017	2016
Unrealized loss on derivative financial instruments	Ps. 641	Ps. 847
Remeasurements of the net defined benefit liability	(402)	(306)
Total deferred tax loss (income) related to AOCI	Ps. 239	Ps. 541

The changes in the balance of the net deferred income tax asset are as follows:

	2017	2016	2015
Initial balance	Ps. (1,016)	Ps. (2,063)	Ps. (2,635)
Deferred tax provision for the year	(8,218)	(5,660)	(1,979)
Deferred tax income net recorded in share of the profit of associates and joint ventures accounted for using the equity method	(67)	71	683
Acquisition of subsidiaries (see Note 4)	(367)	1,375	(161)
Effects in equity:			
Unrealized loss on cash flow hedges	(83)	1,008	184
Exchange differences on translation of foreign operations	(1,472)	3,260	1,729
Remeasurements of the net defined benefit liability	131	(479)	121
Retained earnings of associates	(38)	(224)	(396)
Cash flow hedges in foreign investments	(540)	(618)	
Restatement effect of the year and beginning balances associated with			
hyperinflationary economies	1,689	2,314	359
Deconsolidation of subsidiaries	261		
Ending balance	Ps. (9,720)	Ps. (1,016)	Ps. (2,063)

The Company offsets tax assets and liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities related to income taxes are levied by the same tax authority.

Tax Loss Carryforwards

The subsidiaries in Mexico, Colombia and Brazil have tax loss carryforwards. The tax losses carryforwards and their years of expiration are as follows:

Year	Tax Loss Carryforwards	
	Ps.	
2018	665	
2019	98	
2020	111	
2021	116	
2022	122	
2023	479	
2024	86	
2025	410	
2026 and thereafter	10,681	
No expiration (Brazil and Colombia)	16,719	
	Ps.	29,487

The Company recorded certain goodwill balances due to acquisitions that are deductible for Brazilian income tax reporting purposes. The deduction of such goodwill amortization has resulted in the creation of NOLs in Brazil. NOLs in Brazil have no expiration, but their usage is limited to 30% of Brazilian taxable income in any given year. As of December 31, 2017, The Company believes that it is more likely than not that it will ultimately recover such NOLs through the reversal of temporary differences and future taxable income. Accordingly the related deferred tax assets have been fully recognized.

The changes in the balance of tax loss carryforwards are as follows:

	2017	2016
Balance at beginning of the year	Ps. 27,452	Ps. 16,463
Reserved		(2)
Additions	5,673	6,349
Usage of tax losses	(3,157)	(168)
Translation effect of beginning balances	(481)	4,810
Balance at end of the year	Ps. 29,487	Ps. 27,452

There were no withholding taxes associated with the payment of dividends in either 2017, 2016 or 2015 by the Company to its shareholders.

The Company has determined that undistributed profits of its subsidiaries will not be distributed in the foreseeable future. The temporary differences associated with investments in subsidiaries, associates and joint ventures, for which a deferred tax liability has not been recognized, aggregate to Ps. 41,915 (December 31, 2016: Ps. 41,204 and December 31, 2015: Ps. 44,082).

24.2 Recoverable taxes

Recoverable taxes are mainly integrated by higher provisional payments of income tax during 2017 in comparison to prior year, which will be compensated during 2018.

The operations in Guatemala, Panama, Philippines and Colombia are subject to a minimum tax, which is based primary on a percentage of assets and gross margin, except in the case of Panama. Any payments are recoverable in future years, under certain conditions.

Note 25. Other Liabilities, Provisions, Contingencies and Commitments

25.1 Other current financial liabilities

	December 31, 2017	December 31, 2016
Sundry creditors	Ps. 9,116	Ps. 7,244
Derivative financial instruments (see Note 20)	3,947	264
Others	16	75
Total	Ps. 13,079	Ps. 7,583

The carrying value of short-term payables approximates its fair value as of December 31, 2017 and 2016.

25.2 Provisions and other long term liabilities

	December 31, 2017	December 31, 2016
Provisions	Ps. 12,855	Ps. 16,428
Taxes payable	458	508
Others	1,233	1,457
Total	Ps. 14,546	Ps. 18,393

25.3 Other financial liabilities

	December 31, 2017	December 31, 2016
Derivative financial instruments (see Note 20)	Ps. 1,769	Ps. 6,403
Security deposits	1,028	917
Total	Ps. 2,797	Ps. 7,320

25.4 Provisions recorded in the consolidated statement of financial position

The Company has various loss contingencies, and has recorded reserves as other liabilities for those legal proceedings for which it believes an unfavorable resolution is probable. Most of these loss contingencies are the result of the Company's business acquisitions. The following table presents the nature and amount of the loss contingencies recorded as of December 31, 2017 and 2016:

	December 31, 2017	December 31, 2016
Indirect taxes	Ps. 6,836	Ps. 11,065
Labor	2,723	2,578
Legal	3,296	2,785
Total	Ps. 12,855	Ps. 16,428

25.5 Changes in the balance of provisions recorded

25.5.1 Indirect taxes

	December 31, 2017	December 31, 2016	December 31, 2015
Balance at beginning of the year	Ps. 11,065	Ps. 1,725	Ps. 2,271
Penalties and other charges	362	173	21
New contingencies (see Note 19)	91	768	84
Contingencies added in business combination ⁽¹⁾	861	7,840	
Cancellation and expiration	(796)	(106)	(205)
Payments	(947)	(6)	(214)
Brazil amnesty adoption	(3,321)		
Effects of changes in foreign exchange rates	(479)	671	(232)
Balance at end of the year	Ps. 6,836	Ps. 11,065	Ps. 1,725

25.5.2 Labor

	December 31, 2017	December 31, 2016	December 31, 2015
Balance at beginning of the year	Ps. 2,578	Ps. 1,372	Ps. 1,587
Penalties and other charges	56	203	210
New contingencies	283	397	44
Contingencies added in business combination ⁽¹⁾		500	
Cancellation and expiration	(32)	(186)	(102)
Payments	(92)	(336)	(114)
Effects of changes in foreign exchange rates	(69)	628	(253)
Venezuela deconsolidation effect	(1)		
Balance at end of the year	Ps. 2,723	Ps. 2,578	Ps. 1,372

25.5.3 Legal

	December 31, 2017	December 31, 2016	December 31, 2015
Balance at beginning of the year	Ps. 2,785	Ps. 318	Ps. 427
Penalties and other charges	121	34	
New contingencies	186	196	
Contingencies added in business combination ⁽¹⁾	783	2,231	
Cancellation and expiration	(16)	(46)	(33)
Payments	(417)	(81)	
Brazil amnesty adoption	7		
Effects of changes in foreign exchange rates	(151)	133	(76)
Venezuela deconsolidation effect	(2)		
Balance at end of the year	Ps. 3,296	Ps. 2,785	Ps. 318

(1) Coca-Cola FEMSA recognized an amount of Ps. 7,840 corresponding to tax claims with local Brazil IRS (including a contingency of Ps. 5,321 related to the deductibility of a tax goodwill balance). The remaining contingencies relate to multiple claims with loss expectations assessed by management and supported by the analysis of legal counsels as possible, the total amount of contingencies guaranteed agreements amounts to Ps. 8,081. During 2017, Coca-Cola FEMSA took advantage of a Brazilian tax amnesty program. The settlement of certain outstanding matters under that amnesty program generated a benefit of Ps. 1,874 which has been offset against the corresponding indemnifiable assets.

While provision for all claims has already been made, the actual outcome of the disputes and the timing of the resolution cannot be estimated by the Company at this time.

F-106

25.6 Unsettled lawsuits

The Company has entered into several proceedings with its labor unions, tax authorities and other parties that primarily involve Coca-Cola FEMSA and its subsidiaries. These proceedings have resulted in the ordinary course of business and are common to the industry in which the Company operates. The aggregate amount being claimed against the Company resulting from such proceedings as of December 31, 2017 is Ps. 70,830. Such contingencies were classified by legal counsel as less than probable but more than remote of being settled against the Company. However, the Company believes that the ultimate resolution of such several proceedings will not have a material effect on its consolidated financial position or result of operations.

Included in this amount Coca-Cola FEMSA has tax contingencies, most of which are related to its Brazilian operations, amounting to approximately Ps. 51,014, with loss expectations assessed by management and supported by the analysis of legal counsel consider as possible. Among these possible contingencies, are Ps. 12,346 in various tax disputes related primarily to credits for ICMS (VAT) and Ps. 33,217 related to tax credits of IPI over raw materials acquired from Free Trade Zone Manaus. Possible claims also include Ps. 4,787 related to compensation of federal taxes not approved by the IRS (Tax authorities) and Ps. 664 related to the requirement by the Tax Authorities of State of São Paulo for ICMS (VAT), interest and penalty due to the alleged underpayment of tax arrears for the period 1994-1996. Coca-Cola FEMSA is defending its position in these matters and final decision is pending in court. In addition, the Company has Ps. 6,272 in unsettled indirect tax contingencies regarding indemnification accorded with Heineken Group over FEMSA Cerveza. These matters are related to different Brazilian federal taxes which are pending final decision.

In recent years in its Mexican and Brazilian territories, Coca-Cola FEMSA has been requested to present certain information regarding possible monopolistic practices. These requests are commonly generated in the ordinary course of business in the soft drink industry where this subsidiary operates. The Company does not expect any material liability to arise from these contingencies.

25.7 Collateralized contingencies

As is customary in Brazil, Coca-Cola FEMSA has been required by the tax authorities there to collateralize tax contingencies currently in litigation amounting to Ps. 9,433, Ps. 8,093 and 3,569 as of December 31, 2017, 2016 and 2015, respectively, by pledging fixed assets and entering into available lines of credit covering the contingencies (see Note 13).

25.8 Commitments

As of December 31, 2017, the Company has contractual commitments for finance leases for computer equipment and operating leases for the rental of production machinery and equipment, distribution and computer equipment, and land for FEMSA Comercio s operations.

The contractual maturities of the operating lease commitments by currency, expressed in Mexican pesos as of December 31, 2017, are as follows:

	Mexican Pesos	U.S. Dollars	Others
Not later than 1 year	Ps. 6,553	Ps. 426	Ps. 5,700
Later than 1 year and not later than 5 years	21,922	3,145	22,104
Later than 5 years	29,307	280	10,226

Total

Ps. 57,782

Ps. 3,851

Ps. 38,030

F-107

Rental expense charged to consolidated net income was Ps. 9,468, Ps. 8,202 and Ps. 6,088 for the years ended December 31, 2017, 2016 and 2015, respectively.

Future minimum lease payments under finance leases with the present value of the net minimum lease payments are as follows:

	2017 Minimum Payments	Present Value of Payments	2016 Minimum Payments	Present Value of Payments
Not later than 1 year	Ps. 41	Ps. 34	Ps. 32	Ps. (68)
Later than 1 year and not later than 5 years	91	82	103	83
Later than 5 years				97
Total minimum lease payments	132	116	135	112
Less amount representing finance charges	16		23	
Present value of minimum lease payments	116	116	112	112

Note 26. Information by Segment

The analytical information by segment is presented considering the Company's business units (as defined in Note 1) based on its products and services, which is consistent with the internal reporting presented to the Chief Operating Decision Maker. A segment is a component of the Company that engages in business activities from which it earns revenues, and incurs the related costs and expenses, including revenues, costs and expenses that relate to transactions with any of Company's other components. All segments' operating results are reviewed regularly by the Chief Operating Decision Maker, which makes decisions about the resources that would be allocated to the segment and to assess its performance, and for which financial information is available.

Inter-segment transfers or transactions are entered into and presented under accounting policies of each segment, which are the same to those applied by the Company. Intercompany operations are eliminated and presented within the consolidation adjustment column included in the tables below.

a) By Business Unit:

	FEMSA					Consolidation		
	Coca-Cola FEMSA	FEMSA Comercio-Retail Division	FEMSA Comercio-Health Division	FEMSA Comercio-Fuel Division	Heineken Investment	Other⁽¹⁾	Adjustments	Consolidated

b) By Geographic Area:

The Company aggregates geographic areas into the following for the purposes of its consolidated financial statements: (i) Mexico and Central America division (comprising the following countries: Mexico, Guatemala, Nicaragua, Costa Rica and Panama) and (ii) the South America division (comprising the following countries: Brazil, Argentina, Colombia, Chile and Venezuela). Venezuela operates in an economy with exchange controls and hyper-inflation; and as a result, it is not aggregated into the South America area, (iii) Europe (comprised of the Company's equity method investment in Heineken Group) and (iv) the Asian division comprised of Philippines commencing on February 1, 2017, started to consolidated in the Company financial statements. The Company's results for 2017 reflect a reduction in the share of the profit of associates and joint ventures accounted for using the equity method, net of taxes, as a result of this consolidation (see Note 4.1.2).

Geographic disclosure for the Company is as follow:

- (1) Central America includes Guatemala, Nicaragua, Costa Rica and Panama. Domestic (Mexico only) revenues were Ps. 288,783, Ps. 254,643 and Ps. 218,809 during the years ended December 31, 2017, 2016 and 2015, respectively. Domestic (Mexico only) non-current assets were Ps. 170,547 and Ps. 168,976, as of December 31, 2017, and December 31, 2016, respectively.
- (2) South America includes Brazil, Argentina, Colombia, Chile and Venezuela, although Venezuela is shown separately above. South America revenues include Brazilian revenues of Ps. 64,345, Ps. 48,924 and Ps. 39,749 during the years ended December 31, 2017, 2016 and 2015, respectively. Brazilian non-current assets were Ps. 89,137 and Ps. 97,127, as of December 31, 2017 and December 31, 2016, respectively. South America revenues include Colombia revenues of Ps. 17,545, Ps. 17,027 and Ps. 14,283 during the years ended December 31, 2017, 2016 and 2015, respectively. Colombia non-current assets were Ps. 18,396 and Ps. 18,835, as of December 31, 2017 and December 31, 2016, respectively. South America revenues include Argentina revenues of Ps. 13,938, Ps. 12,340 and Ps. 14,004 during the years ended December 31, 2017, 2016 and 2015, respectively. Argentina non-current assets were Ps. 3,052 and Ps. 3,159, as of December 31, 2017 and December 31, 2016, respectively. South America revenues include Chile revenues of Ps. 40,660 and Ps. 36,631 during the year ended December 31, 2017 and 2016, respectively. Chile non-current assets were Ps. 19,590 and Ps. 19,367, as of December 31, 2017 and 2016, respectively.

Note 27. Future Impact of Recently Issued Accounting Standards not yet in Effect

The Company has not applied the following standards and interpretations that are issued, but not yet effective, up to the date of issuance of the Company's financial statements are disclosed below. The Company intends to adopt these standards, if applicable, when they become effective.

IFRS 15, Revenue from Contracts with Customers

In May 2014, the IASB issued the IFRS 15 Revenue from Contracts with Customers, which establishes a 5-step model to determine the timing and amount to be applied when recognizing revenues from contracts with customers. The new standard replaces existing revenue recognition guidelines, including the IAS 18 Revenue, IAS 11 Construction Contracts and IFRIC 13 Customer Loyalty Programmes.

F-112

The standard is effective for annual periods beginning on January 1, 2018 and its earlier adoption is permitted. The standard permits to elect between the retrospective method and modified retrospective approach. The Company plans to adopt the IFRS 15 in its consolidated financial statements on January 1, 2018 using modified retrospective approach (prospective method).

The transition considerations that the Company takes into account by applying the modified retrospective approach (prospective method) in the adoption of the IFRS 15 involve the recognition of the cumulative effect of the adoption of the IFRS 15 as of January 1, 2018; consequently, there is no obligation under this method to restate the comparative financial information for the years ended December 31, 2016 and 2017, nor to adjust the amounts that arise as a result of the accounting differences between the current accounting standard IAS 18 and the new standard, IFRS 15.

The Company has conducted a qualitative and quantitative evaluation of the impacts that the adoption of the IFRS 15 will have in its consolidated financial statements. The evaluation includes, among others, the following activities:

Analysis of contracts with customers and their main characteristics;

Identification of the performance obligations included in such contracts;

Determination of the transaction price and the effects derived from variable consideration;

Allocation of the transaction price to each performance obligation;

Analysis of the timing when the revenue should be recognized, either at a point in time or over time, as appropriate;

Analysis of the disclosures required by the IFRS 15 and their impacts on internal processes and controls; and

Analysis of the potential costs of obtaining and fulfilling contracts with customers that should be capitalized in accordance with the requirements of the new IFRS 15.

As of today, the Company has completed the analysis of the new standard and has concluded that there will be no significant impacts on the consolidated financial statements derived from the adoption of the IFRS 15. However, IFRS 15 provides presentation and disclosure requirements, which are more detailed than under current IFRS. The presentation requirements represent a significant change from current practice and significantly increases the volume of disclosures required in the consolidated financial statements. In 2017 the Company developed and started testing of appropriate systems, internal controls, policies and procedures necessary to collect and disclose the required information.

As of December 31, 2017, the consolidated and business unit level accounting policies in regards to revenue recognition have been modified and approved by the Company's Board of Directors, with the objective that these are fully implemented effective as of January 1, 2018, which will establish the new basis of accounting for revenues from contracts with customers under IFRS 15. Similarly, the Company has analyzed and evaluated the aspects related to internal control derived from IFRS 15 adoption, with the objective of ensuring that the Company's internal control

environment is appropriate for financial reporting purposes once the standard is adopted.

IFRS 9, *Financial Instruments*

IFRS 9 *Financial Instruments*, sets out requirements for recognizing and measuring financial assets, financial liabilities and some contracts to buy or sell non-financial items. This standard replaces IAS 39 *Financial Instruments: Recognition and Measurement*. IFRS 9 contains a new classification and measurement approach for financial assets that reflects the business model in which assets and cash flow are managed. IFRS 9 contains three principal classification categories for financial assets: measured at amortized cost, FVOCI and FVTPL. The standard eliminates the existing IAS 39 categories of held to maturity, loans and receivables and available for sale.

IFRS 9 replaces the incurred loss model in IAS 39 with a forward-looking expected credit loss (ECL) model. This will require considerable judgement about how changes in economic factors affect ECLs, which will be determined on a probability-weighted basis. The new impairment model will apply to financial assets measured at amortized cost and FVOCI, except for investments in equity instruments, and to contract assets.

Furthermore, IFRS 9 requires the Company to ensure that hedge accounting relationships are aligned with the Group's risk management objectives and strategy and to apply a more qualitative and forward-looking approach to assessing hedge effectiveness. IFRS 9 also introduces new requirements on rebalancing hedge relationships and prohibits voluntary discontinuation of hedge accounting. IFRS 9 largely retains the existing requirements in IAS 39 for the classification of financial liabilities.

This standard is effective for annual periods beginning on or after January 1, 2018 and the Company plans to adopt IFRS 9 in its consolidated financial statements on January 1, 2018. For Hedge Accounting, IFRS 9 will be adopted prospectively. Regarding Classification and Measurement, the Company will not reestablish financial information for the comparative year given that the business models of financial assets will not originate any accounting difference between the adoption and comparative year. Therefore the comparative figures under IFRS 9 and IAS 39 will be consistent. In relation to Impairment, the adoption approach will be prospective; however, financial information will not be reestablished for comparative periods (year ended December 31, 2017 and 2016).

The Company performed a qualitative and quantitative assessment of the impacts of IFRS 9. The activities that have been carried out are:

Review and documentation of the business models for managing financial assets, accounting policies, processes and internal controls related to financial instruments.

Analysis of financial assets and the impact of the expected loss model required under IFRS 9.

Update of documentation of the hedging relationships, as well as the policies for hedge accounting, and internal controls.

Determination of the model to compute the loss allowances based on the Expected Loss model.

Analysis of the new disclosures required by IFRS 9 and its impacts on internal processes and controls for the Company.

The Company has carried out an analysis for the business models that best suit the current management of its financial assets.

For classification and measurement and hedge accounting there were no significant changes identified, except those related to the documentation of the business model and their cash flow characteristics. There was also a need to update the hedge relationships documentation. Therefore, no significant impacts are expected in the financial information that require adjustments for the adoption of IFRS 9 in the consolidated financial statements in relation to the Classification, Measurement and Hedge Accounting.

An analysis was carried out to determine the impact of the new Expected Credit Loss model of financial assets to calculate the provisions that should be recorded. An increase is not expected for the provisions of financial assets under the new standard because the accounts receivable are characterized by recovering in the short term, which results in estimates of expected loss that converge to the provisions under IAS 39.

As of December 31, 2017, the Company has defined policies and procedures for the adoption of the new standard, strengthening the control of information, and has prepared Manuals and Processes for Operation, Management and Risk Management. The consolidated and business unit level accounting policies regarding IFRS 9 have been modified and approved by the Company's Board of Directors, with the objective that these are fully implemented effective as of January 1, 2018.

IFRS 16, Leases

In January 2016, the IASB issued IFRS 16 Leases, with which it introduces a unique accounting lease model for lessees. The lessee recognizes an asset by right of use that represents the right to use the underlying asset and a lease liability that represents the obligation to make lease payments.

The standard is effective for the annual periods started on January 1, 2019. Early adoption is permitted for entities applying IFRS 15 on the initial application date. The Company plans to adopt the new IFRS 16 in its consolidated financial statements on January 1, 2019, using the modified retrospective approach (prospective method).

The transition considerations required to be taken into account by the Company by the modified retrospective approach that it will use to adopt the new IFRS 16 involve recognizing the cumulative effect of the adoption of the new standard as from January 1, 2019. For this reason, the financial information will not be reestablished by the exercises to be presented (exercises completed as of December 31, 2017 and 2018). Likewise, as of the transition date of IFRS 16 (January 1, 2019), the Company may elect to apply the new definition of leasing to all contracts, or to apply the practical file of Grandfather and continue to consider as contracts for leasing those who qualified as such under the previous accounting rules IAS 17 Leases and IFRIC 4 Determination of whether a contract contains a lease .

Currently, the Company is conducting a qualitative and quantitative assessment of the impacts that the adoption of IFRS 16 will originate in its consolidated financial statements. The evaluation includes, among others, the following activities:

Detailed analysis of the leasing contracts and the characteristics of the same that would cause an impact in the determination of the right of use and the financial liabilities;

Identification of the exceptions provided by IFRS 16 that may apply to the Company;

Identification and determination of costs associated with leasing contracts;

Identification of currencies in which lease contracts are denominated;

Analysis of renewal options and improvements to leased assets, as well as amortization periods;

Analysis of the revelations required by the IFRS 16 and the impacts of the same in internal processes and controls of the Company; and

Analysis of the interest rate used in determining the present value of the lease payments of the different assets for which a right of use must be recognized.

The main impacts at a consolidated level, as well as the business unit level are derived from the recognition of leased assets as rights of use and liabilities for the obligation to make such payments. In addition, the linear operating lease expense is replaced by a depreciation expense for the right to use the assets and the interest expense of the lease

liabilities that will be recognized at present value.

Based on the analysis carried out by the Company, FEMSA Comercio's business units will particularly generate a significant effect on the Company's consolidated financial statements as a result of the number of leases in effect as of the date of analysis, as well as an increase of them on daily basis.

At the date of issuance of these consolidated financial statements, the Company still has not decided whether or not to use the optional exemptions or practical files that the new standard allows, so it is still in the process of quantifying the impact of the adoption of IFRS 16 on the consolidated financial statements of the Company.

F-115

Annual Improvements 2014-2016 Cycle (issued in December 2016)

These improvements include:

IFRS 2, Classification and Measurement of Share-based Payment Transactions

The IASB issued amendments to IFRS 2 Share-based Payment that address three main areas: the effects of vesting conditions on the measurement of a cash-settled share-based payment transaction; the classification of a share-based payment transaction with net settlement features for withholding tax obligations; and accounting where a modification to the terms and conditions of a share-based payment transaction changes its classification from cash settled to equity settled.

On adoption, entities are required to apply the amendments without restating prior periods, but retrospective application is permitted if elected for all three amendments and other criteria are met. The amendments are effective for annual periods beginning on or after 1 January 2018, with early application permitted. The Company does not expect the effect of the amendments to be significant to its consolidated financial statements.

IFRIC 22 Foreign Currency Transactions and Advance Consideration

The Interpretation clarifies that, in determining the spot exchange rate to use on initial recognition of the related asset, expense or income (or part of it) on the derecognition of a non-monetary asset or non-monetary liability relating to advance consideration, the date of the transaction is the date on which an entity initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, then the entity must determine the transaction date for each payment or receipt of advance consideration. Entities may apply the amendments on a fully retrospective basis.

Alternatively, an entity may apply the Interpretation prospectively to all assets, expenses and income in its scope that are initially recognised on or after:

- i) The beginning of the reporting period in which the entity first applies the interpretation; or
- ii) The beginning of a prior reporting period presented as comparative information in the financial statements of the reporting period in which the entity first applies the interpretation.

The Interpretation is effective for annual periods beginning on or after 1 January 2018. Early application of the interpretation is permitted and must be disclosed. However, since the Company's current practice is in line with the Interpretation, the Company does not expect any effect on its consolidated financial statements.

IFRIC 23 Uncertainty over Income Tax Treatment

The Interpretation addresses the accounting for income taxes when tax treatments involve uncertainty that affects the application of IAS 12 and does not apply to taxes or levies outside the scope of IAS 12, nor does it specifically include requirements relating to interest and penalties associated with uncertain tax treatments. The Interpretation specifically addresses the following:

- i) Whether an entity considers uncertain tax treatments separately;

- ii) The assumptions an entity makes about the examination of tax treatments by taxation authorities;
- iii) How an entity determines taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates;
and
- iv) How an entity considers changes in facts and circumstances.

F-116

An entity must determine whether to consider each uncertain tax treatment separately or together with one or more other uncertain tax treatments. The approach that better predicts the resolution of the uncertainty should be followed. The interpretation is effective for annual reporting periods beginning on or after 1 January 2019, but certain transition reliefs are available. The Company is still in the process of quantifying the impact of the adoption of the IFRIC 23 in the consolidated financial statements.

Note 28. Subsequent Events

In January, 2018, Eduardo Padilla Silva replaced Carlos Salazar Lomelin as the Company's Chief Executive Officer.

On March 7, 2018, the Company's Board of Directors agreed to propose the payment of a cash ordinary dividend in the amount of Ps. 9,221 to be paid in two equal installments as of May 4, 2018 and November 6, 2018. This ordinary dividend was approved by the Annual Shareholders meeting on March 16, 2018.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the shareholders and the Executive Board of Heineken N.V.

Opinion on the Financial Statements

We have audited the accompanying consolidated statements of financial position of Heineken N.V. and subsidiaries (the Company) as of December 31, 2017 and 2016, the related consolidated income statements, consolidated statements of comprehensive income, cash flows and changes in equity, for each of the three years in the period ended December 31, 2017, and the related notes (collectively referred to as the financial statements). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2017 and 2016, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2017, in conformity with International Financial Reporting Standards as issued by the International Accounting Standards Board.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

/s/ Deloitte Accountants B.V.

Amsterdam, the Netherlands

February 9, 2018

We have served as the Company's auditor since 2015.

Financial statements

Notes to the Consolidated Financial Statements

1. Reporting entity

Heineken N.V. (the Company) is a company domiciled in the Netherlands. The address of the Company's registered office is Tweede Weteringplantsoen 21, Amsterdam. The consolidated financial statements of the Company as at and for the year ended 31 December 2017 comprise the Company, its subsidiaries (together referred to as HEINEKEN) and HEINEKEN's interest in joint ventures and associates. The Company is registered in the Trade Register of Amsterdam No. 33011433. HEINEKEN is primarily involved in the brewing and selling of beer and cider. Led by the Heineken® brand, HEINEKEN has a portfolio of more than 300 international, regional, local and speciality beers and ciders.

2. Basis of preparation

(a) Statement of compliance

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) as endorsed by the European Union (EU) and also comply with the financial reporting requirements included in Part 9 of Book 2 of the Dutch Civil Code. All standards and interpretations issued by the International Accounting Standards Board (IASB) and the International Financial Reporting Interpretations Committee (IFRIC) effective year-end 2017 have been adopted by the EU. Consequently, the accounting policies applied by the Company also comply fully with IFRS as issued by the IASB.

The consolidated financial statements have been prepared by the Executive Board of the Company and authorised for issue on 9 February 2018 and will be submitted for adoption to the Annual General Meeting of Shareholders on 19 April 2018.

(b) Basis of measurement

The consolidated financial statements have been prepared on the historical cost basis unless otherwise indicated. The methods used to measure fair values are discussed further in notes 3 and 4.

(c) Functional and presentation currency

These consolidated financial statements are presented in Euro, which is the Company's functional currency. All financial information presented in Euro has been rounded to the nearest million unless stated otherwise.

(d) Use of estimates and judgements

The preparation of consolidated financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Information about assumptions and estimation uncertainties and critical judgements in applying accounting policies that have the most significant effect on the amounts recognised in the consolidated financial statements are described

in the following notes and related accounting policies:

Note 5 Operating segments, particularly the estimation of discount accruals in revenue at the end of the year based on the individual customer agreements.

Note 6 Acquisitions and disposals of subsidiaries, particularly with regard to the identification and valuation of acquired assets and liabilities.

Note 15 Intangible assets, particularly the assumptions used in goodwill impairment testing.

Note 18 Deferred tax assets and liabilities, particularly with regard to the assessment of the recoverability of past tax losses.

Note 26 Employee benefits, particularly with regard to assumptions for discount rates, future pension increases and life expectancy to calculate the defined benefit obligation.

Note 28 Provisions and note 32 Contingencies, particularly with regard to estimating the likelihood and timing of potential cash outflows relating to claims and litigations.

Note 29 Trade and other payables, particularly with regard to the estimation of sales discounts and the estimation of circulation times and market losses in determining the returnable packaging deposit liability.

Note 30 Financial risk management and financial instruments, particularly with regard to the estimation of the recoverability of loans and advances to customers and trade receivables.

2. Basis of preparation continued

(e) Changes in accounting policies

HEINEKEN has adopted the following new standards and amendments to standards, including any consequential amendments to other standards, with a date of initial application of 1 January 2017:

Disclosure Initiative (amendments to IAS 7)

Recognition of deferred tax assets for unrealised losses (amendments to IAS 12)

Annual Improvements to IFRS s 2014-2016 Cycle - amendments to IFRS 12

These changes had no significant impact on the disclosures or amounts recognised in HEINEKEN s consolidated financial statements.

3. Significant accounting policies

General

The accounting policies set out below have been applied consistently to all periods presented in these consolidated financial statements and have been applied consistently by HEINEKEN entities.

(a) Basis of consolidation

(i) Business combinations

Business combinations are accounted for using the acquisition method as at the acquisition date, which is the date on which control is transferred to HEINEKEN. HEINEKEN controls an entity when it has power over the investee, is exposed or has the right to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

HEINEKEN measures goodwill at the acquisition date as the fair value of the consideration transferred plus the fair value of any previously held equity interest in the acquiree and the recognised amount of any non-controlling interests in the acquiree, less the net recognised amount (generally fair value) of the identifiable assets acquired and liabilities assumed. When the excess is negative, a bargain purchase gain is recognised immediately in profit or loss.

The consideration transferred does not include amounts related to the settlement of pre-existing relationships. Such amounts are generally recognised in profit or loss.

Costs related to the acquisition, other than those associated with the issue of debt or equity securities, that HEINEKEN incurs in connection with a business combination are expensed as incurred.

Any contingent consideration payable is recognised at fair value at the acquisition date. If the contingent consideration is classified as equity, it is not remeasured and settlement is accounted for within equity. Otherwise, subsequent

changes to the fair value of the contingent considerations are recognised in profit or loss.

Contingent liabilities assumed in a business combination are recognised at fair value even if it is not probable that an outflow will be required to settle the obligation. After initial recognition and until the liability is settled, cancelled or expired, the contingent liability is measured at the higher of the amount that would be recognised in accordance with IAS 37 Provisions, Contingent Liabilities and Contingent Assets and the initial liability amount.

(ii) Acquisitions of non-controlling interests

Acquisitions of non-controlling interests are accounted for as transactions with owners in their capacity as owners and therefore no goodwill is recognised as a result. Adjustments to non-controlling interests arising from transactions that do not involve the loss of control are based on a proportionate amount of the net assets of the subsidiary.

(iii) Subsidiaries

Subsidiaries are entities controlled by HEINEKEN. HEINEKEN controls an entity when it has power over the investee, is exposed or has the right to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by HEINEKEN.

Losses applicable to the non-controlling interests in a subsidiary are allocated to the non-controlling interests, even if doing so causes the non-controlling interests to have a deficit balance.

(iv) Loss of control

Upon the loss of control, HEINEKEN derecognises the assets and liabilities of the subsidiary, any non-controlling interests and the other components of equity related to the subsidiary. Any resulting gain or loss is recognised in profit or loss. If HEINEKEN retains any interest in the previous subsidiary, such interest is measured at fair value at the date that control is lost. Subsequently, it is accounted for as an equity-accounted investee or as an available-for-sale financial asset, depending on the level of influence retained.

(v) Interests in equity-accounted investees

HEINEKEN's investments in associates and joint ventures are accounted for using the equity method of accounting. Investments in associates are those entities in which HEINEKEN has significant influence, but no control or joint control, over the financial and operating policies. Joint ventures are the arrangements in which HEINEKEN has joint control, whereby HEINEKEN has rights to the net assets of the arrangement, rather than rights to its assets and obligations for its liabilities.

Investments in associates and joint ventures are recognised initially at cost. The cost of the investment includes transaction costs.

The consolidated financial statements include HEINEKEN's share of the profit or loss and other comprehensive income, after adjustments to align the accounting policies with those of HEINEKEN, from the date that significant influence or joint control commences until the date that significant influence or joint control ceases.

When HEINEKEN's share of losses exceeds the carrying amount of the associate or joint venture, including any long-term investments, the carrying amount is reduced to nil and recognition of further losses is discontinued except to the extent that HEINEKEN has an obligation or has made a payment on behalf of the associate or joint venture.

(vi) Transactions eliminated on consolidation

Intra-HEINEKEN balances and transactions, and any unrealised gains and losses or income and expenses arising from intra-HEINEKEN transactions, are eliminated in preparing the consolidated financial statements. Unrealised gains arising from transactions with equity-accounted associates and JVs are eliminated against the investment to the extent of HEINEKEN's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

(b) Foreign currency

(i) Foreign currency transactions

Transactions in foreign currencies are translated to the respective functional currencies of HEINEKEN entities at the exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to the functional currency at the exchange rate at that date. The foreign currency gain or loss arising on monetary items is the difference between amortised cost in the functional currency at the beginning of the period, adjusted for effective interest and payments during the period, and the amortised cost in foreign currency translated at the exchange rate at the end of the reporting period.

Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated to the functional currency at the exchange rate at the date that the fair value was determined. Non-monetary items in a foreign currency that are measured at cost are translated into the functional currency using the exchange rate at the date of the transaction.

Foreign currency differences arising on retranslation are recognised in profit or loss, except for differences arising on the retranslation of available-for-sale (equity) investments and foreign currency differences arising on the retranslation of a financial liability designated as a hedge of a net investment, which are recognised in other comprehensive income.

(ii) Foreign operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated to Euro at exchange rates at the reporting date. The income and expenses of foreign operations, excluding foreign operations in hyperinflationary economies, are translated to Euro at exchange rates approximating to the exchange rates ruling at the dates of the transactions. Group entities, with a functional currency being the currency of a hyperinflationary economy, first restate their financial statements in accordance with IAS 29, Financial Reporting in Hyperinflationary Economies. The related income, costs and balance sheet amounts are translated at the foreign exchange rate ruling at the balance sheet date. In 2017 HEINEKEN did not have any foreign operations in hyperinflationary economies.

Foreign currency differences are recognised in other comprehensive income and are presented within equity in the translation reserve. However, if the operation is not a wholly owned subsidiary, the relevant proportionate share of the translation difference is allocated to the non-controlling interests. When a foreign operation is disposed of such that control, significant influence or joint control is lost, the cumulative amount in the translation reserve related to that foreign operation is reclassified to profit or loss as part of the gain or loss on disposal. When HEINEKEN disposes of only part of its interest in a subsidiary that includes a foreign operation while retaining control, the relevant proportion of the cumulative amount is reattributed to non-controlling interests. When HEINEKEN disposes of only part of its investment in an associate or joint venture that includes a foreign operation while retaining significant influence or joint control, the relevant proportion of the cumulative amount is reclassified to profit or loss.

Foreign exchange gains and losses arising from a monetary item receivable from or payable to a foreign operation, the settlement of which is neither planned nor likely in the foreseeable future, are considered to form part of a net investment in a foreign operation and are recognised in other comprehensive income, and are presented within equity in the translation reserve.

3. Significant accounting policies continued

The following exchange rates, for the most important countries in which HEINEKEN has operations, were used while preparing these consolidated financial statements:

In	Year-end 2017	Year-end 2016	Year-end 2015	Average 2017	Average 2016	Average 2015
Brazilian Real (BRL)	0.2517	0.2915	0.2319	0.2774	0.2592	0.2705
Great Britain Pound (GBP)	1.1271	1.1680	1.3625	1.1410	1.2209	1.3772
Mexican Peso (MXN)	0.0425	0.0463	0.0530	0.0469	0.0484	0.0568
Nigerian Naira (NGN)	0.0025	0.0030	0.0046	0.0027	0.0036	0.0047
Polish Zloty (PLN)	0.2398	0.2260	0.2357	0.2349	0.2292	0.2390
Russian Ruble (RUB)	0.0144	0.0156	0.0124	0.0152	0.0135	0.0147
Singapore Dollar (SGD)	0.6241	0.6564	0.6486	0.6417	0.6547	0.6556
United States Dollar (USD)	0.8338	0.9487	0.9185	0.8854	0.9036	0.9011
Vietnamese Dollar in 1,000 (VND)	0.0367	0.0417	0.0409	0.0389	0.0404	0.0411

(iii) Hedge of net investments in foreign operations

Foreign currency differences arising on the translation of a financial liability designated as a hedge of a net investment in a foreign operation are recognised in other comprehensive income to the extent that the hedge is effective and regardless of whether the net investment is held directly or through an intermediate parent. These differences are presented within equity in the translation reserve. To the extent that the hedge is ineffective, such differences are recognised in profit or loss. When the hedged part of a net investment is disposed of, the relevant amount in the translation reserve is transferred to profit or loss as part of the profit or loss on disposal.

(c) Non-derivative financial instruments*(i)* General

Non-derivative financial instruments comprise investments in equity and debt securities, trade and other receivables, cash and cash equivalents, loans and borrowings, and trade and other payables.

Non-derivative financial instruments are recognised initially at fair value plus, for instruments not at fair value through profit or loss, any directly attributable transaction costs. Subsequent to initial recognition, non-derivative financial instruments are measured as described below.

If HEINEKEN has a legal right to offset financial assets with financial liabilities and if HEINEKEN intends either to settle on a net basis or to realise the asset and settle the liability simultaneously, financial assets and liabilities are presented in the statement of financial position as a net amount. The right of set-off is available today and not contingent on a future event and it is also legally enforceable for all counterparties in a normal course of business, as well as in the event of default, insolvency or bankruptcy.

Cash and cash equivalents comprise cash balances and call deposits. Bank overdrafts and commercial papers form an integral part of HEINEKEN's cash management and are included as a component of cash and cash equivalents for the purpose of the statement of cash flows.

Accounting policies for interest income, interest expenses and other net finance income and expenses are discussed in note 3(r).

(ii) Held-to-maturity investments

If HEINEKEN has the positive intent and ability to hold debt securities to maturity, they are classified as held-to-maturity. Debt securities are loans and long-term receivables and are measured at amortised cost using the effective interest method, less any impairment losses. Investments held-to-maturity are recognised or derecognised on the day they are transferred to or by HEINEKEN.

(iii) Available-for-sale investments

HEINEKEN's investments in equity securities and certain debt securities are classified as available-for-sale. Subsequent to initial recognition, they are measured at fair value and changes therein – other than impairment losses (see note 3i(i)) and foreign currency differences on available-for-sale monetary items (see note 3b(i)) – are recognised in other comprehensive income and presented within equity in the fair value reserve. When these investments are derecognised, the relevant cumulative gain or loss in the fair value reserve is transferred to profit or loss.

Where these investments are interest-bearing, interest calculated using the effective interest method is recognised in profit or loss. Available-for-sale investments are recognised or derecognised by HEINEKEN on the date it commits to purchase or sell the investments.

(iv) Other

Other non-derivative financial instruments are measured at amortised cost using the effective interest method, less any impairment losses.

(d) Derivative financial instruments (including hedge accounting)

(i) General

HEINEKEN uses derivatives in the ordinary course of business in order to manage market risks. Generally, HEINEKEN applies hedge accounting in order to minimise the effects of foreign currency, interest rate or commodity price fluctuations in profit or loss.

3. Significant accounting policies continued

Derivatives that can be used are interest rate swaps, forward rate agreements, caps and floors, commodity swaps, spot and forward exchange contracts and options. Transactions are entered into with a limited number of counterparties with strong credit ratings. Foreign currency, interest rate and commodity hedging operations are governed by internal policies and rules approved and monitored by the Executive Board.

Derivative financial instruments are recognised initially at fair value, with attributable transaction costs recognised in profit or loss as incurred. Derivatives for which hedge accounting is not applied are accounted for as instruments at fair value through profit or loss. When derivatives qualify for hedge accounting, subsequent measurement is at fair value, and changes therein accounted for as described in 3b(iii), 3d(ii) or 3d(iii).

(ii) Cash flow hedges

Changes in the fair value of the derivative hedging instrument designated as a cash flow hedge are recognised in other comprehensive income and presented in the hedging reserve within equity to the extent that the hedge is effective. To the extent that the hedge is ineffective, changes in fair value are recognised in profit or loss.

If the hedging instrument no longer meets the criteria for hedge accounting, expires or is sold, terminated or exercised, hedge accounting is discontinued. The cumulative unrealised gain or loss previously recognised in other comprehensive income and presented in the hedging reserve in equity is recognised in profit or loss immediately. When a hedging instrument is terminated, but the hedged transaction still is expected to occur, the cumulative gain or loss at that point remains in other comprehensive income and is recognised in accordance with the above-mentioned policy when the transaction occurs. When the hedged item is a non-financial asset, the amount recognised in other comprehensive income is transferred to the carrying amount of the asset when it is recognised. In other cases, the amount recognised in other comprehensive income is transferred to the same line of profit or loss in the same period that the hedged item affects profit or loss.

(iii) Fair value hedges

Changes in the fair value of a derivative hedging instrument designated as a fair value hedge are recognised in profit or loss. The hedged item is also stated at fair value in respect of the risk being hedged; the gain or loss attributable to the hedged risk is recognised in profit or loss and adjusts the carrying amount of the hedged item.

If the hedge no longer meets the criteria for hedge accounting, the adjustment to the carrying amount of a hedged item for which the effective interest method is used is amortised to profit or loss over the period to maturity.

(iv) Separable embedded derivatives

Embedded derivatives are separated from the host contract and accounted for separately if the economic characteristics and risks of the host contract and the embedded derivative are not closely related, a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative, and the combined instrument is not measured at fair value through profit or loss. Changes in the fair value of separable embedded derivatives are recognised immediately in profit or loss.

(e) Share capital

(i) Ordinary shares

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares are recognised as a deduction from equity, net of any tax effects.

(ii) Repurchase of share capital (treasury shares)

When share capital recognised as equity is repurchased, the amount of the consideration paid, which includes directly attributable costs, is net of any tax effects recognised as a deduction from equity. Repurchased shares are classified as treasury shares and are presented in the reserve for own shares.

When treasury shares are sold or reissued subsequently, the amount received is recognised as an increase in equity, and the resulting surplus or deficit on the transaction is transferred to or from retained earnings.

(iii) Dividends

Dividends are recognised as a liability in the period in which they are declared.

3. Significant accounting policies continued

(f) Property, plant and equipment

(i) Owned assets

Items of property, plant and equipment (P, P & E) are measured at cost less government grants received (refer to (q)), accumulated depreciation (refer to (iv)) and accumulated impairment losses (3i(ii)).

Cost comprises the initial purchase price increased with expenditures that are directly attributable to the acquisition of the asset (such as transports and non-recoverable taxes). The cost of self-constructed assets includes the cost of materials and direct labour and any other costs directly attributable to bringing the asset to a working condition for its intended use (refer to an appropriate proportion of production overheads), and the costs of dismantling and removing the items and restoring the site on which they are located. Borrowing costs related to the acquisition or construction of qualifying assets are capitalised as part of the cost of that asset. Cost also may include transfers from equity of any gain or loss on qualifying cash flow hedges of foreign currency purchases of P, P & E.

Spare parts that are acquired as part of an equipment purchase and only to be used in connection with this specific equipment or purchased software that is integral to the functionality of the related equipment are capitalised and amortised as part of that equipment. In all other cases, spare parts are carried as inventory and recognised in the income statement as consumed. Where an item of P, P & E comprises major components having different useful lives, they are accounted for as separate items (major components) of P, P & E.

Returnable bottles and kegs in circulation are recorded within P, P & E and a corresponding liability is recorded in respect of the obligation to repay the customers' deposits. Deposits paid by customers for returnable items are reflected in the consolidated statement of financial position within current liabilities.

(ii) Leased assets

Leases in terms of which HEINEKEN assumes substantially all the risks and rewards of ownership are classified as finance leases. Upon initial recognition, P, P & E acquired by way of finance lease is measured at an amount equal to the lower of its fair value and the present value of the minimum lease payments at inception of the lease. Lease payments are apportioned between the outstanding liability and finance charges so as to achieve a constant periodic rate of interest on the remaining balance of the liability.

Other leases are operating leases and are not recognised in HEINEKEN's statement of financial position. Payments made under operating leases are charged to profit or loss on a straight-line basis over the term of the lease. When an operating lease is terminated before the lease period has expired, any payment required to be made to the lessor by way of penalty is recognised as an expense in the period in which termination takes place.

(iii) Subsequent expenditure

The cost of replacing a part of an item of P, P & E is recognised in the carrying amount of the item or recognised as a separate asset, as appropriate, if it is probable that the future economic benefits embodied within the part will flow to HEINEKEN and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of P, P & E are recognised in profit or loss when incurred.

(iv) Depreciation

Depreciation is calculated over the depreciable amount, which is the cost of an asset, or other amount substituted for cost, less its residual value.

Land, except for financial leases on land over the contractual period, is not depreciated as it is deemed to have an infinite life. Depreciation on other P, P & E is charged to profit or loss on a straight-line basis over the estimated useful lives of items of P, P & E, and major components that are accounted for separately, since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset. Assets under construction are not depreciated. Leased assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that HEINEKEN will obtain ownership by the end of the lease term. The estimated useful lives for the current and comparative years are as follows:

Buildings	30 - 40 years
Plant and equipment	10 - 30 years
Other fixed assets	3 - 10 years

Where parts of an item of P, P & E have different useful lives, they are accounted for as separate items of P, P & E.

The depreciation methods and residual value as well as the useful lives are reassessed, and adjusted if appropriate, at each financial year-end.

(v) Gains and losses on sale

Net gains on sale of items of P, P & E are presented in profit or loss as other income. Net losses on sale are included in depreciation. Net gains and losses are recognised in profit or loss when the significant risks and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated costs can be estimated reliably, and there is no continuing management involvement with the P, P & E.

3. Significant accounting policies continued

(g) Intangible assets

(i) Goodwill

Goodwill arises on the acquisition of subsidiaries, associates and joint ventures and represents the excess of the cost of the acquisition over HEINEKEN's interest in net fair value of the net identifiable assets, liabilities and contingent liabilities of the acquiree.

Goodwill on acquisitions of subsidiaries is included in intangible assets. Goodwill arising on the acquisition of associates and joint ventures is included in the carrying amount of the associates and joint ventures.

Goodwill is measured at cost less accumulated impairment losses (refer to accounting policy 3i(ii)). Goodwill is allocated to individual or groups of cash-generating units (CGUs) for the purpose of impairment testing and is tested annually for impairment. Negative goodwill is recognised directly in profit or loss as other income.

(ii) Brands

Brands acquired, separately or as part of a business combination, are capitalised if they meet the definition of an intangible asset and the recognition criteria are satisfied.

Strategic brands are well-known international/local brands with a strong market position and an established brand name. Brands are amortised on an individual basis over the estimated useful life of the brand.

(iii) Customer-related, contract-based intangibles and reacquired rights

Customer-related and contract-based intangibles are capitalised if they meet the definition of an intangible asset and the recognition criteria are satisfied. If the amounts are not material, these are included in the brand valuation. The relationship between brands and customer-related intangibles is carefully considered so that brands and customer-related intangibles are not both recognised on the basis of the same cash flows.

Reacquired rights are identifiable intangible assets recognised in an acquisition that represent the right an acquirer previously has granted to the acquiree to use one or more of the acquirer's recognised or unrecognised assets.

Customer-related and contract-based intangibles acquired as part of a business combination are valued at fair value. Customer-related and contract-based intangibles acquired separately are measured at cost.

Customer-related, contract-based intangibles and reacquired rights are amortised over the remaining useful life of the customer relationships or the period of the contractual arrangements.

(iv) Software, research and development and other intangible assets

Purchased software is measured at cost less accumulated amortisation (refer to (vi)) and impairment losses (refer to accounting policy 3i(ii)). Expenditure on internally developed software is capitalised when the expenditure qualifies as development activities, otherwise it is recognised in profit or loss when incurred.

Expenditure on research activities, undertaken with the prospect of gaining new technical knowledge and understanding, is recognised in profit or loss when incurred.

Development activities involve a plan or design for the production of new or substantially improved products, software and processes. Development expenditure is capitalised only if development costs can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and HEINEKEN intends to and has sufficient resources to complete development and to use or sell the asset. The expenditure capitalised includes the cost of materials, direct labour and overhead costs that are directly attributable to preparing the asset for its intended use, and capitalised borrowing costs. Other development expenditure is recognised in profit or loss when incurred.

Capitalised development expenditure is measured at cost less accumulated amortisation (refer to (vi)) and accumulated impairment losses (refer to accounting policy 3i(ii)).

Other intangible assets that are acquired by HEINEKEN and have finite useful lives are measured at cost less accumulated amortisation (refer to (vi)) and impairment losses (refer to accounting policy 3i(ii)). Expenditure on internally generated goodwill and brands is recognised in profit or loss when incurred.

(v) Subsequent expenditure

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is expensed when incurred.

3. Significant accounting policies continued*(vi)* Amortisation

Amortisation is calculated over the cost of the asset, or other amount substituted for cost, less its residual value. Intangible assets with a finite life are amortised on a straight-line basis over their estimated useful lives from the date they are available for use, since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset. The estimated useful lives are as follows:

Strategic brands	40 - 50 years
Other brands	15 - 25 years
Customer-related and contract-based intangibles	5 - 20 years
Reacquired rights	3 - 12 years
Software	3 - 7 years
Capitalised development costs	3 years

Amortisation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

(vii) Gains and losses on sale

Net gains on sale of intangible assets are presented in profit or loss as other income. Net losses on sale are included in amortisation. Net gains and losses are recognised in profit or loss when the significant risks and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated costs can be estimated reliably, and there is no continuing management involvement with the intangible assets.

(h) Inventories*(i)* General

Inventories are measured at the lower of cost and net realisable value. The cost of inventories is based on the weighted average cost formula, and includes expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their existing location and condition. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

(ii) Finished products and work in progress

Finished products and work in progress are measured at manufacturing cost based on weighted averages and taking into account the production stage reached. Costs include an appropriate share of direct production overheads based on normal operating capacity.

(iii) Other inventories and spare parts

The cost of other inventories is based on weighted averages. Spare parts are valued at the lower of cost and net realisable value. Value reductions and usage of parts are charged to profit or loss. Spare parts that are acquired as part

of an equipment purchase and only to be used in connection with this specific equipment are initially capitalised and depreciated as part of the equipment.

(i) Impairment

(i) Financial assets

A financial asset is assessed at each reporting date to determine whether there is any objective evidence that it is impaired. A financial asset is considered to be impaired if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of that asset that can be estimated reliably.

Evidence of impairment may include indications that the debtors or a group of debtors are experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation, and where observable data indicates that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the original effective interest rate. An impairment loss in respect of an available-for-sale financial asset is calculated by reference to its current fair value.

Individually significant financial assets are tested for impairment on an individual basis. The remaining financial assets are assessed collectively in groups that share similar credit risk characteristics.

All impairment losses are recognised in profit or loss. Any cumulative loss in respect of an available-for-sale financial asset recognised previously in other comprehensive income and presented in the fair value reserve in equity is transferred to profit or loss.

3. Significant accounting policies continued

An impairment loss is reversed if the reversal can be related objectively to an event occurring after the impairment loss was recognised. For financial assets measured at amortised cost and available-for-sale financial assets that are debt securities, the reversal is recognised in profit or loss. For available-for-sale financial assets that are equity securities, the reversal is recognised in other comprehensive income.

(ii) Non-financial assets

The carrying amounts of HEINEKEN's non-financial assets, other than inventories (refer to accounting policy (h)) and deferred tax assets (refer to accounting policy (s)), are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. For goodwill and intangible assets that are not yet available for use, the recoverable amount is estimated each year at the same time.

For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the cash-generating unit, "CGU").

The recoverable amount of an asset or CGU is the higher of an asset's fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the acquirer's CGUs, or groups of CGUs expected to benefit from the synergies of the combination. Each unit or group of units to which the goodwill is allocated represents the lowest level within the entity at which the goodwill is monitored for internal management purposes. Goodwill is monitored on regional, sub-regional or country level depending on the characteristics of the acquisition, the synergies to be achieved and the level of integration.

An impairment loss is recognised in profit or loss if the carrying amount of an asset or its CGU exceeds its recoverable amount. Impairment losses recognised in respect of a CGU are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amounts of the other assets in the unit (group of units) on a pro rata basis. An impairment loss in respect of goodwill is not reversed. In respect of other assets, impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

Goodwill that forms part of the carrying amount of an investment in an associate and joint venture is not recognised separately, and therefore is not tested for impairment separately. Instead, the entire amount of the investment in an associate and joint venture is tested for impairment as a single asset when there is objective evidence that the investment in an associate may be impaired.

(j) Assets or disposal groups classified as held for sale

Assets or disposal groups comprising assets and liabilities, that are expected to be recovered primarily through sale rather than through continuing use are classified as held for sale. Immediately before classification as held for sale, the assets, or components of a disposal group, are measured at the lower of their carrying amount and fair value less costs

of disposal. Any impairment loss on a disposal group is first allocated to goodwill, and then to remaining assets and liabilities on a pro rata basis, except that no loss is allocated to inventories, financial assets, deferred tax assets and employee defined benefit plan assets, which continue to be measured in accordance with HEINEKEN's accounting policies. Impairment losses on initial classification as held for sale and subsequent gains or losses on remeasurement are recognised in profit or loss. Gains are not recognised in excess of any cumulative impairment loss.

Intangible assets and P, P & E once classified as held for sale are not amortised or depreciated. In addition, equity accounting of equity-accounted investees ceases once classified as held for sale.

(k) Employee benefits

(i) Defined contribution plans

A defined contribution plan is a post-employment benefit plan (pension plan) under which HEINEKEN pays fixed contributions into a separate entity. HEINEKEN has no legal or constructive obligations to pay further contributions if the fund does not hold sufficient assets to pay all employees the benefits relating to employee service in the current and prior periods.

Obligations for contributions to defined contribution pension plans are recognised as an employee benefit expense in profit or loss in the periods during which services are rendered by employees. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available. Contributions to a defined contribution plan that are due more than 12 months after the end of the period in which the employee renders the service are discounted to their present value.

(ii) Defined benefit plans

A defined benefit plan is a post-employment benefit plan (pension plan) that is not a defined contribution plan. Typically, defined benefit plans define an amount of pension benefit that an employee will receive on retirement, usually dependent on one or more factors such as age, years of service and compensation.

3. Significant accounting policies continued

HEINEKEN's net obligation in respect of defined benefit pension plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. The fair value of any defined benefit plan assets is deducted. The discount rate is the yield at balance sheet date on high-quality credit-rated bonds that have maturity dates approximating to the terms of HEINEKEN's obligations and that are denominated in the same currency in which the benefits are expected to be paid.

The calculations are performed annually by qualified actuaries using the projected unit credit method. When the calculation results in a benefit to HEINEKEN, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. In order to calculate the present value of economic benefits, consideration is given to any minimum funding requirements that apply to any plan in HEINEKEN. An economic benefit is available to HEINEKEN if it is realisable during the life of the plan, or on settlement of the plan liabilities.

When the benefits of a plan are changed, the expense or benefit is recognised immediately in profit or loss.

HEINEKEN recognises all actuarial gains and losses arising from defined benefit plans immediately in other comprehensive income and all expenses related to defined benefit plans in personnel expenses and other net finance income and expenses in profit or loss.

(iii) Other long-term employee benefits

HEINEKEN's net obligation in respect of long-term employee benefits, other than pension plans, is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The discount rate is the yield at balance sheet date on high-quality credit-rated bonds that have maturity dates approximating to the terms of HEINEKEN's obligations. The obligation is calculated using the projected unit credit method. Any actuarial gains and losses are recognised in profit or loss in the period in which they arise.

(iv) Termination benefits

Termination benefits are payable when employment is terminated by HEINEKEN before the normal retirement date, or whenever an employee accepts voluntary redundancy in exchange for these benefits.

Termination benefits are recognised as an expense when HEINEKEN is demonstrably committed to either terminating the employment of current employees according to a detailed formal plan without possibility of withdrawal, or providing termination benefits as a result of an offer made to encourage voluntary redundancy. Termination benefits for voluntary redundancies are recognised if HEINEKEN has made an offer encouraging voluntary redundancy, it is probable that the offer will be accepted, and the number of acceptances can be estimated reliably.

Benefits falling due more than 12 months after the balance sheet date are discounted to their present value.

(v) Share-based payment plan (LTV)

HEINEKEN has a performance-based share plan (Long-Term Variable award (LTV)) for both the Executive Board and senior management (refer to note 27).

The grant date fair value, adjusted for expected dividends, of the share rights granted is recognised as personnel expenses with a corresponding increase in equity (equity-settled) over the period that the employees become unconditionally entitled to the share rights. The costs of the share plan for both the Executive Board and senior management members are spread evenly over the performance period, during which vesting conditions are applicable subject to continued services. The total amount to be expensed is determined taking into consideration the expected forfeitures.

At each balance sheet date, HEINEKEN revises its estimates of the number of share rights that are expected to vest, for the 100 % internal performance conditions of the running share plans for the senior management members and the Executive Board. It recognises the impact of the revision of original estimates (only applicable for non-market performance conditions, if any) in profit or loss, with a corresponding adjustment to equity.

(vi) Matching share entitlement

The Executive Board is entitled to matching shares (refer to note 33). The grant date fair value of the matching shares is recognised as personnel expenses in the income statement as it is deemed an equity-settled share-based payment.

(vii) Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid under short-term benefits if HEINEKEN has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

3. Significant accounting policies continued

(l) Provisions

(i) General

A provision is recognised if, as a result of a past event, HEINEKEN has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as part of net finance expenses.

(ii) Restructuring

A provision for restructuring is recognised when HEINEKEN has approved a detailed and formal restructuring plan, and the restructuring has either commenced or has been announced publicly. Future operating losses are not provided for. The provision includes the benefit commitments in connection with early retirement and redundancy schemes.

(iii) Onerous contracts

A provision for onerous contracts is recognised when the expected benefits to be derived by HEINEKEN from a contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract and taking into consideration any reasonably obtainable sub-leases for onerous lease contracts. Before a provision is established, HEINEKEN recognises any impairment loss on the assets associated with that contract.

(iv) Other

The other provisions, not being provisions for restructuring or onerous contracts, consist mainly of surety and guarantees, litigation and claims and environmental provisions.

(m) Loans and borrowings

Loans and borrowings are recognised initially at fair value, net of transaction costs incurred. Loans and borrowings are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in profit or loss over the period of the borrowings using the effective interest method. Loans and borrowings included in a fair value hedge are stated at fair value in respect of the risk being hedged.

Loans and borrowings for which HEINEKEN has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date are classified as non-current liabilities.

(n) Revenue

(i) Products sold

Revenue relates to the sale and delivery of products (own-produced finished goods and goods for resale) in the ordinary course of business. The product portfolio of HEINEKEN mainly consists of beer, soft drinks and cider. Revenue is recognised in the income statement when all significant risks and rewards have been transferred to the customer and when the income can be reliably measured and no significant uncertainties remain regarding recovery of the consideration due, associated costs or the possible return of goods, and there is no continuing management involvement with the goods. For the majority of the sales transactions, the risks and rewards are transferred to the buyer on delivery of the products. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts, volume rebates, discounts for cash payments and excise taxes.

If it is probable that discounts will be granted and the amount can be measured reliably, the discount is recognised as a reduction of revenue as the sales are recognised.

(ii) Other revenue

Other revenues are proceeds from royalties, rental income, pub management services and technical services to third parties, net of sales tax. Royalties are recognised in profit or loss on an accrual basis in accordance with the relevant agreement. Rental income, pub management services and technical services are recognised in profit or loss when the services have been delivered.

(o) Other income

Other income includes gains from sale of P, P & E, intangible assets and (interests in) subsidiaries, joint ventures and associates, net of sales tax. They are recognised in profit or loss when risks and rewards have been transferred to the buyer.

(p) Expenses

(i) Operating lease payments

Payments made under operating leases are recognised in profit or loss on a straight-line basis over the term of the lease. Lease incentives received are recognised in profit or loss as an integral part of the total lease expense, over the term of the lease.

(ii) Finance lease payments

Minimum lease payments under finance leases are apportioned between the finance expense and the reduction of the outstanding liability. The finance expense is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability. Contingent lease payments are accounted for by revising the minimum lease payments over the remaining term of the lease when the lease adjustment is confirmed.

3. Significant accounting policies continued

(q) Government grants

Government grants are recognised at their fair value when it is reasonably assured that HEINEKEN will comply with the conditions attaching to them and the grants will be received.

Government grants relating to P, P & E are deducted from the carrying amount of the asset.

Government grants relating to costs are deferred and recognised in profit or loss over the period necessary to match them with the costs that they are intended to compensate.

(r) Interest income, interest expenses and other net finance income and expenses

Interest income and expenses are recognised as they accrue in profit or loss, using the effective interest method unless collectability is in doubt.

Borrowing costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are recognised in profit or loss using the effective interest method.

Other net finance income and expenses comprises dividend income, gains and losses on the disposal of available-for-sale investments, changes in the fair value of investments designated at fair value through profit or loss and held for trading investments, changes in fair value of hedging instruments that are recognised in profit or loss, unwinding of the discount on provisions, impairment losses recognised on investments and interest on the net defined benefit obligation. Dividend income is recognised in the income statement on the date that HEINEKEN's right to receive payment is established, which in the case of quoted securities is the ex-dividend date.

Foreign currency gains and losses are reported on a net basis in the other net finance income and expenses.

(s) Income tax

Income tax comprises current and deferred tax. Current tax and deferred tax are recognised in the income statement except to the extent that it relates to a business combination, or items recognised directly in equity, or in other comprehensive income.

(i) Current tax

Current tax is the expected income tax payable or receivable in respect of taxable income or loss for the year, using tax rates enacted or substantively enacted at the balance sheet date, and any adjustment to income tax payable in respect of previous years.

(ii) Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and their tax bases.

Deferred tax is not recognised for:

temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss

temporary differences related to investments in subsidiaries, associates and joint ventures to the extent that HEINEKEN is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future

taxable temporary differences arising on the initial recognition of goodwill

The measurement of deferred tax assets and liabilities reflects the tax consequences that would follow the manner in which HEINEKEN expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax is determined using tax rates (and laws) that have been enacted or substantively enacted at the balance sheet date and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different taxable entities which intend either to settle current tax liabilities and assets on a net basis or to realise the assets and settle the liabilities simultaneously.

Deferred tax is provided for on temporary differences arising on investments in subsidiaries and associates, except where the timing of the reversal of the temporary difference is controlled by HEINEKEN and it is probable that the temporary difference will not reverse in the foreseeable future.

A deferred tax asset is recognised for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilised. Deferred tax assets are reviewed at each balance sheet date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(iii) Uncertain tax positions

In determining the amount of current and deferred income tax, HEINEKEN takes into account the impact of uncertain income tax positions and whether additional taxes and interest may be due. This assessment relies on estimates and assumptions and may involve a series of judgements about future events. New information may become available that causes HEINEKEN to change its judgement regarding the adequacy of existing tax liabilities; such changes to tax liabilities will impact the income tax expense in the period that such a determination is made.

(t) Discontinued operations

A discontinued operation is a component of HEINEKEN's business that represents a separate major line of business or geographical area of operations that has been disposed of or is held for sale or distribution, or is a subsidiary acquired exclusively with a view to resale. Classification as a discontinued operation occurs upon disposal or when the operation meets the criteria to be classified as held for sale, if earlier. When an operation is classified as a discontinued operation, the comparative statement of comprehensive income is re-presented as if the operation had been discontinued from the start of the comparative year.

(u) Earnings per share

HEINEKEN presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the year, adjusted for the weighted average number of own shares purchased in the year. Diluted EPS is determined by dividing the profit or loss attributable to ordinary shareholders by the weighted average number of ordinary shares outstanding, adjusted for the weighted average number of own shares purchased in the year and for the effects of all dilutive potential ordinary shares which comprise share rights granted to employees.

(v) Cash flow statement

The cash flow statement is prepared using the indirect method. Changes in balance sheet items that have not resulted in cash flows such as translation differences, fair value changes, equity-settled share-based payments and other non-cash items have been eliminated for the purpose of preparing this statement. Assets and liabilities acquired as part of a business combination are included in investing activities (net of cash acquired). Dividends paid to ordinary shareholders are included in financing activities. Dividends received are classified as operating activities. Interest paid is also included in operating activities.

(w) Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the Executive Board, which is considered to be HEINEKEN's chief operating decision-maker. An operating segment is a component of HEINEKEN that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of HEINEKEN's other components. All operating segments operating results are reviewed regularly by the Executive Board to make decisions about resources to be allocated to the segment and to assess its performance, and for which discrete financial information is available.

Inter-segment transfers or transactions are entered into under the normal commercial terms and conditions that would also be available to unrelated third parties.

Segment results, assets and liabilities that are reported to the Executive Board include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated result items comprise net finance expenses and income tax expenses. Unallocated assets comprise current other investments and cash call deposits.

Segment capital expenditure is the total cost incurred during the period to acquire P, P & E, and intangible assets other than goodwill.

(x) Recently issued IFRS

New relevant standards and interpretations not yet adopted

A number of new standards and amendments to standards are effective for annual periods beginning after 1 January 2017, which HEINEKEN has not applied in preparing these consolidated financial statements.

IFRS 9 Financial instruments

IFRS 9, was published in July 2014 and subsequently endorsed by the European Union on 9 November 2017. IFRS 9 includes revised guidance on classification and measurement of financial instruments, including a new expected credit loss model for calculating impairment on financial assets, and new general hedge accounting requirements. The standard replaces existing guidance in IAS 39 Financial Instruments: Recognition and Measurement. HEINEKEN will implement IFRS 9 per 1 January 2018 using the modified retrospective approach, meaning that the 2016 and 2017 comparative numbers in the 2018 financial statements will not be restated. Any impact of IFRS 9 as of 1 January 2018 will be recognised directly in equity.

HEINEKEN has reviewed the impact of this new standard and has concluded that the impact is limited:

With regard to the revised classification and measurement principles, IFRS 9 contains three classification categories: measured at amortised cost , fair value through other comprehensive income (FVTOCI) and fair value through profit and loss (FVTPL). The standard eliminates the existing IAS 39 categories: loans and receivables , held to maturity and available-for-sale . For HEINEKEN this new classification only means that the assets currently classified as available-for-sale will be measured at FVTOCI which constitutes no significant change, except for the accounting for accumulative gains or losses when equity securities measured at

FVTOCI are disposed of. These cumulative gains or losses will not be recognised in the income statement upon disposal but kept in the fair value reserve. HEINEKEN has no investments classified as held to maturity and the other categories involve no change in measurement for HEINEKEN.

With regard to the impact of the expected loss model on trade receivables and both advances and loans to customers HEINEKEN concluded that the impact is immaterial. The impact on HEINEKEN's future consolidated income statement is also expected to be immaterial as the standard requires provisions to be recorded earlier and the initial impact of this timing difference is recorded in equity upon implementation.

For the new hedging requirements of IFRS 9 HEINEKEN concluded that all current hedging relationships will continue to qualify as hedging relationships upon application of IFRS 9. For existing hedges HEINEKEN will exclude the foreign currency basis spread from the hedge relation only when this improves hedge effectiveness by applying the cost of hedging approach. HEINEKEN will retrospectively apply the cost of hedging approach for these hedges and recognise any initial impact, which is expected to be immaterial, directly in equity upon implementation.

IFRS 15 Revenue from Contracts with Customers

In May 2014, the International Accounting Standards Board issued IFRS 15 Revenue from Contracts with Customers, which was subsequently endorsed by the European Union on 22 September 2016. IFRS 15 establishes a framework for determining whether, how much and when revenue is recognised from contracts with customers. IFRS 15 supersedes existing standards and interpretations related to revenue. HEINEKEN will apply the new standard as per 1 January 2018. For implementation the full retrospective method will be applied, meaning prior period financial information will be restated. HEINEKEN concluded that IFRS 15 will not impact the timing of revenue recognition. However the amount of recognised revenue will be impacted by payments to customers and excise taxes. HEINEKEN has evaluated the available practical expedients for application of the standard and concluded that these options have no significant impact on HEINEKEN's revenue recognition. The practical expedients will therefore not be applied.

IFRS 15 will impact the accounting for certain payments to customers, such as listing fees and marketing support expenses. Most of these payments are currently recorded as operating expenses, but will be considered a reduction of revenue under IFRS 15. Only when these payments relate to a distinct service the amounts will continue to be recorded as operating expenses.

IFRS 15 will also impact the accounting for excise tax. Based on the current revenue standards different policies are applied by peers in our industry. Some companies include all excises in revenue, some record excise only for specific countries and some, like HEINEKEN, exclude all excise from revenue. The clarifications to IFRS 15 describes that an all or nothing approach is no longer possible; an assessment of the excise tax needs to be done on a country by country basis. In most countries where HEINEKEN operates, excise duties are effectively a production tax. Increases in excise duty are not always (fully) passed on to customers and where customers fail to pay for products received, HEINEKEN cannot, or can only partly, reclaim the excise duty. In these countries the excise tax is borne by HEINEKEN and included in revenue applying IFRS 15. Only for those countries where excise tax is fully based on the sales value, HEINEKEN concluded that the excise tax is collected on behalf of a third party. For these countries the excise is excluded from revenue. The conclusion whether excise is collected on behalf of a third party or borne by HEINEKEN requires significant judgement due to the variety in excise tax legislation in the countries HEINEKEN operates in.

To provide full transparency on the impact of the accounting for excise, HEINEKEN will present the excise tax expense on a separate line below revenue in the consolidated income statement. A new subtotal called Net revenue will be added. This Net revenue subtotal is revenue as defined in IFRS 15 (after discounts) minus the excise taxes for those countries where the excise is borne by HEINEKEN. HEINEKEN will furthermore disclose the excise collected

on behalf of third parties, which is excluded from revenue, in the notes to the consolidated financial statements.

The IFRS 15 changes described above will have no impact on operating profit, net profit and EPS.

The following table presents 2017 figures, including the impact of applying IFRS 15. The final impact is still under review and as a result the actual restated financial information may differ materially from those included in this overview. However this table gives HEINEKEN's best estimate of the impact of IFRS 15:

	2017	Estimated impact IFRS 15	2017 including impact IFRS 15
For the year ended 31 December			
In millions of			
Revenue	21,888	3,865	25,753
Excise taxes		(4,162)	(4,162)
Net revenue		(297)	21,591
Other income	141		141
Raw materials, consumables and services	(13,540)	297	(13,243)
Personnel expenses	(3,550)		(3,550)
Amortisation, depreciation and impairments	(1,587)		(1,587)
Total expenses	(18,677)	297	(18,380)
Operating profit	3,352		3,352
Profit before income tax	2,908		2,908
Income tax expense	(755)		(755)
Profit	2,153		2,153
Attributable to:			
Equity holders of the Company (net profit)	1,935		1,935
Non-controlling interests	218		218

IFRS 16 Leases

IFRS 16 Leases was published in January 2016 and subsequently endorsed by the European Union on 9 November 2017. IFRS 16 establishes a revised framework for determining whether a lease is recognised in the (Consolidated) Statement of Financial Position. The standard replaces existing guidance on leases, including IAS 17. HEINEKEN will implement IFRS 16 per 1 January 2019 by applying the modified retrospective method, meaning that the 2017 and 2018 comparative numbers in the 2019 financial statements will not be restated to show the impact of IFRS 16. Under the new standard lease contracts will be recognised on HEINEKEN's balance sheet and subsequently depreciated on a straight line basis. The liability recognised upon transition is measured based on discounted future cash flows and the future interest will be recorded in interest expenses. Lease expenses currently recorded in the income statement will therefore be replaced by depreciation and interest expenses for all lease contracts within the scope of the standard. The financial impact of the new standard on HEINEKEN is not yet known.

HEINEKEN completed the selection of a lease contract management and accounting tool in 2017, which will support the implementation of the new standard. HEINEKEN has around 30,000 operating leases that will be recorded on HEINEKEN's balance sheet as a result of IFRS 16. These operating leases mainly relate to offices, warehouses, pubs, stores, cars and (forklift) trucks.

In selecting which practical expedients to apply HEINEKEN has focused on reducing the complexity of implementation. Based on analysis of the options available, HEINEKEN will:

use the option to grandfather classification as a lease for the existing contracts

measure the Right of Use Asset based on the lease liability recognised

apply the short-term and low value exemptions

not use the transition option for leases with a short remaining contract period

apply the option to exclude non-lease components from the lease liability for real estate leases

most likely not use the option to exclude non-lease components from the lease liability for equipment leases because the lessors of HEINEKEN are currently not able to provide a sufficiently reliable and consistent split for both the calculation and invoicing

Other standards and interpretations

The following new or amended standards are not expected to have a significant impact of HEINEKEN's consolidated financial statements:

Classification and measurement of Share-based Payments (amendments to IFRS 2)

Foreign Currency Transactions and Advance Consideration (IFRIC 22)

Uncertainty over tax treatments (IFRIC 23)

Transfers of Investment Property (amendments to IAS 40)

Annual Improvements to IFRS Standards 2014-2016 Cycle (amendments IFRS 1 and IAS 28)

4. Determination of fair values

General

A number of HEINEKEN's accounting policies and disclosures require the determination of fair value, for both financial and non-financial assets and liabilities. Fair values have been determined for measurement and/or disclosure purposes based on the following methods. When applicable, further information about the assumptions made in determining fair values or for the purpose of impairment testing is disclosed in the notes specific to that asset or liability.

Fair value as a result of business combinations

(i) Property, plant and equipment

The fair value of P, P & E recognised as a result of a business combination is based on depreciated replacement cost, taking into account economical and functional obsolescence, or market prices for similar items when available. For acquired pub estates, the fair values are based on the stabilised earnings valuation method.

(ii) Intangible assets

The fair value of brands acquired in a business combination is based on the relief from royalty method or determined using the multi period excess earnings method (MEEM). The fair value of customer relationships acquired in a business combination is determined using the multi period excess earnings method taking into account the historical churn rate of the acquired customer base. The valuation of customer relationships and brands (when using MEEM valuation) takes into account a fair return on all other assets that support the generation of the related cash flows. The fair value of reacquired rights and other intangible assets is based on the discounted cash flows expected to be derived from the use and eventual sale of the assets.

(iii) Inventories

The fair value of inventories acquired in a business combination is determined based on its estimated selling price in the ordinary course of business less the estimated costs of completion and sale, and a reasonable profit margin based on the effort required to complete and sell the inventories.

(iv) Trade and other receivables

The fair value of trade and other receivables is estimated at the present value of future cash flows, discounted at the market rate of interest at the reporting date. This fair value is determined for disclosure purposes or when acquired in a business combination.

(v) Provisions

Determining the fair value of acquired claims is subject to significant estimation. The fair value of these claims are recorded based on an estimate of the likelihood, the expected timing and the amount of a potential cash outflow. Contrary to accounting for provisions under IAS 37, provisions for civil and labour claims are also recognised for claims with a likelihood of less than probable, but more than remote. For income tax claims HEINEKEN applies IAS 12, which requires recognition of provisions only when the likelihood of cash outflow is considered probable.

Fair value from normal business

(i) Investments in equity and debt securities

The fair value of financial assets at fair value through profit or loss, held-to-maturity investments and available-for-sale financial assets is determined by reference to their quoted closing bid price at the reporting date or, if unquoted, determined using an appropriate valuation technique. The fair value of held-to-maturity investments is determined for disclosure purposes only. In case the quoted price does not exist at the date of exchange or in case the quoted price exists at the date of exchange but was not used as the cost, the investments are valued indirectly based on discounted cash flow models.

(ii) Derivative financial instruments

The fair value of derivative financial instruments is based on their listed market price, if available. If a listed market price is not available, fair value is in general estimated by discounting the difference between the cash flows based on contractual price and the cash flows based on current price for the residual maturity of the contract using observable interest yield curves, basis spread and foreign exchange rates.

Fair values include the instrument's credit risk and adjustments to take account of the credit risk of the HEINEKEN entity and counterparty when appropriate.

(iii) Non-derivative financial instruments

Fair value, which is determined for disclosure purposes or when fair value hedge accounting is applied, is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the reporting date. For finance leases, the market rate of interest is determined by reference to similar lease agreements.

Fair values include the instrument's credit risk and adjustments to take account of the credit risk of the HEINEKEN entity and counterparty when appropriate.

5. Operating segments

HEINEKEN distinguishes the following five reportable segments:

Africa, Middle East & Eastern Europe*

Americas

Asia Pacific

Europe

Head Office and Other/eliminations

* Within the Africa, Middle East & Eastern Europe segment, Eastern Europe consists of Belarus and Russia. The first four reportable segments as stated above are HEINEKEN's business regions. These business regions are each managed separately by a Regional President. The Regional President is directly accountable for the functioning of the segment's assets, liabilities and results of the region and reports regularly to the Executive Board (the chief operating decision-maker) to discuss operating activities, regional forecasts and regional results. The Head Office operating segment falls directly under the responsibility of the Executive Board. The Executive Board reviews the performance of the segments based on internal management reports on a monthly basis.

Information regarding the results of each reportable segment is included in the table on the next page. Performance is measured based on operating profit (beia), as included in the internal management reports that are reviewed by the Executive Board. Operating profit beia has replaced EBIT beia as key measure of profitability as of 1 January 2017. Operating profit better reflects the profitability that is under the direct control of HEINEKEN. Exceptional items are defined as items of income and expense of such size, nature or incidence, that in the view of management their disclosure is relevant to explain the performance of HEINEKEN for the period. Operating profit and operating profit (beia) are not financial measures calculated in accordance with IFRS. Operating profit (beia) is used to measure performance as management believes that this measurement is the most relevant in evaluating the results of the segments.

HEINEKEN has multiple distribution models to deliver goods to end customers. There is no reliance on major clients. Deliveries to end consumers are done in some countries via own wholesalers or own pubs, in other markets directly and in some others via third parties. As such, distribution models are country-specific and diverse across HEINEKEN. In addition, these various distribution models are not centrally managed or monitored. Consequently, the Executive Board is not allocating resources and assessing the performance based on business type information and therefore no segment information is provided on business type.

Inter-segment pricing is determined on an arm's length basis. As net finance expenses and income tax expenses are monitored on a consolidated level (and not on an individual regional basis) and regional presidents are not accountable for that, net finance expenses and income tax expenses are not provided for the reportable segments.

F-142

5. Operating segments continued

Reconciliation of segment profit or loss

In the internal management reports, HEINEKEN measures its segmental performance primarily based on operating profit and operating profit beia (before exceptional items and amortisation of acquisition-related intangible assets). Operating profit beia is a non-GAAP measure not calculated in accordance with IFRS. Beia adjustments are also applied on other metrics. The presentation of these financial measures may not be comparable to similarly titled measures reported by other companies due to differences in the ways the measures are calculated.

The table below presents the reconciliation of operating profit (beia) to profit before income tax.

In millions of	2017	2016	2015
Operating profit (beia)	3,759	3,540	3,381
Amortisation of acquisition-related intangible assets included in operating profit	(302)	(315)	(321)
Exceptional items included in operating profit	(105)	(470)	15
Share of profit of associates and joint ventures and impairments thereof (net of income tax)	75	150	172
Net finance expenses	(519)	(493)	(409)
Profit before income tax	2,908	2,412	2,838

The 2017 exceptional items and amortisation of acquisition-related intangibles in operating profit amounts to 407 million (2016: 785 million, 2015: 306 million). This amount consists of:

302 million (2016: 315 million, 2015: 321 million) of amortisation of acquisition-related intangibles recorded in operating profit.

105 million (2016: 470 million, 2015: 15 million benefit) of exceptional items recorded in operating profit, of which 20 million (2016: nil, 2015: nil) in revenue, restructuring expenses of 93 million (2016: 80 million, 2015: 106 million), reversal of impairments of 19 million (2016: 316 million impairment loss of which 286 million related to The Democratic Republic of Congo, 2015: 78 million impairment loss), acquisition and integration costs 72 million (2016: 8 million, 2015: 15 million) and other exceptional benefits of 61 million (2016: 66 million expense, 2015: 214 million benefit which included 379 million disposal gain for EMPAQUE). Other exceptional net benefits include the gain on sale of non-beer and cider wholesale operations in the Netherlands.

6. Acquisitions and disposals of subsidiaries

Acquisition of Brasil Kirin

On 13 February 2017, HEINEKEN announced that it had entered into an agreement with Kirin Holdings Company, Limited to acquire Brasil Kirin Holding S.A. (Brasil Kirin), one of the largest beer and soft drinks producers in Brazil, through its wholly owned subsidiary Bavaria S.A. The acquisition transforms HEINEKEN's existing business across the country by extending its footprint, increasing scale and further strengthening its brand portfolio. The transaction completed on 31 May 2017 as from which date Brasil Kirin is consolidated within HEINEKEN. The total consideration paid by HEINEKEN to Kirin for all the shares was 594 million, mainly paid in cash.

In the condensed consolidated interim financial statements for the six-month period ended 30 June 2017, the major classes of consideration transferred and the recognised provisional amounts of assets acquired and liabilities assumed at the acquisition date of 31 May 2017, have been disclosed. IFRS 3 requires the acquirer to retrospectively adjust the provisional amounts recognised at the acquisition date to reflect new information obtained about facts and circumstances that existed as of the acquisition date. The following table summarises the revised purchase price allocation as per 31 December 2017 for the acquisition of Brasil Kirin:

In millions of	Provisional fair values Brasil Kirin disclosed		Adjusted fair values Brasil Kirin
	in HY report 2017	Adjustments	
Property, plant and equipment	561	38	599
Intangible assets	374		374
Inventories	137	(5)	132
Trade and other receivables	173	(6)	167
Cash and cash equivalents	148		148
Other assets	166	113	279
Assets acquired	1,559	140	1,699
Short-term liabilities	734	15	749
Long-term liabilities	775	237	1,012
Liabilities assumed	1,509	252	1,761
Total net identifiable assets	50	(112)	(62)
In millions of			
Consideration transferred	594		594
Net identifiable assets acquired	50	(112)	(62)
Goodwill on acquisition (provisional)	544	112	656

The main cause for the adjustments is that HEINEKEN had a short period to determine the opening balance, the complexity of the business and the high number of existing labour, civil and tax claims acquired. Per 31 December 2017 the provisional accounting period has been closed for all assets and liabilities, except for completion of the assessment on labour, tax and civil claims acquired given the aforementioned reason.

The goodwill is attributable to earnings beyond the period over which intangible assets are amortised, workforce, expected synergies and future customers. The goodwill for Brasil Kirin could potentially be tax deductible in the

future.

Acquisition of Punch

On 15 December 2016, HEINEKEN announced that following Vine Acquisitions Limited's announcement of a recommended cash offer for Punch Taverns plc (Punch), HEINEKEN through HEINEKEN UK had agreed a back-to-back deal with Vine Acquisitions to acquire Punch Securitisation A (Punch A), comprising approximately 1,900 pubs across the UK. The transaction completed on 29 August 2017 as from which date Punch is consolidated within HEINEKEN. HEINEKEN believes that there is compelling strategic rationale for enlarging its existing pub business through the acquisition of Punch A. HEINEKEN considers pubs to be an integral part of British culture and believes that high-quality, well invested pubs run by skilled and motivated operators will continue to prosper.

HEINEKEN has paid an aggregate consideration of GBP308 million (331 million) for all shares in Punch A. This consideration is mainly paid in cash.

The following table summarises the consideration transferred and the recognised amounts of assets acquired and liabilities assumed at the acquisition date:

In millions of	Punch
Property, plant and equipment	1,349
Intangible assets	25
Inventories	1
Cash and cash equivalents	47
Other assets	74
Assets acquired	1,496
Short-term liabilities	1,154
Long-term liabilities	11
Liabilities assumed	1,165
Total net identifiable assets	331
In millions of	
Consideration transferred	331
Net identifiable assets acquired	331
Goodwill on acquisition	

HEINEKEN considers the measurement period for the acquisition of Punch to be closed as per 31 December 2017. Any adjustments afterwards will be recognised in the consolidated income statement.

In total 37 million of acquisition-related costs have been recognised for Kirin and Punch in the income statement for the period ended 31 December 2017.

The amount of revenue for the acquisition of Brasil Kirin and Punch after obtaining control amounts to 684 million and 97 million respectively; the amount of profit recognised after obtaining control amounts to 17 million and 28 million respectively. Would the acquisitions have taken place on 1 January 2017, revenue and profit for HEINEKEN would have been 22.4 billion and 2.1 billion respectively.

7. Assets or disposal groups classified as held for sale

The assets and liabilities below are classified as held for sale following the commitment of HEINEKEN to a plan to sell these assets and liabilities. Efforts to sell these assets and liabilities have commenced and are expected to be completed during 2018.

Assets held for sale and liabilities associated with assets classified as held for sale

In millions of	2017	2016
Current assets		13
Property, plant and equipment	29	38
Intangible assets	3	6

Other non-current assets	1	
Assets classified as held for sale	33	57
Current liabilities	(2)	(11)
Non-current liabilities		(6)
Liabilities associated with assets classified as held for sale	(2)	(17)

8. Other income

In millions of	2017	2016	2015
Gain on sale of property, plant and equipment	20	38	37
Gain on sale of intangible assets	87		
Gain on sale of subsidiaries, joint ventures and associates	34	8	374
	141	46	411

The gain on sale of intangible assets mainly relates to the sale of the non-beer and cider related activities of the Dutch HEINEKEN beverages wholesale business to Sligro Food Group. In 2015 HEINEKEN recorded a post-tax disposal gain on the divestment of EMPAQUE.

9. Raw materials, consumables and services

In millions of	2017	2016	2015
Raw materials	1,817	1,646	1,616
Non-returnable packaging	3,353	3,187	3,049
Goods for resale	1,591	1,523	1,775
Inventory movements	(130)	(54)	(141)
Marketing and selling expenses	2,913	2,836	2,755
Transport expenses	1,203	1,100	1,139
Energy and water	513	476	517
Repair and maintenance	509	475	485
Other expenses	1,771	1,814	1,736
	13,540	13,003	12,931

Other expenses mainly include rentals of 308 million (2016: 302 million, 2015: 301 million), consultant expenses of 169 million (2016: 140 million, 2015: 142 million), telecom and office automation of 227 million (2016: 220 million, 2015: 206 million), warehousing expenses of 172 million (2016: 141 million, 2015: 135 million), travel expenses of 162 million (2016: 148 million, 2015: 151 million) and other taxes of 33 million (2016: 96 million, 2015: 144 million).

10. Personnel expenses

In millions of	Note	2017	2016	2015
Wages and salaries		2,339	2,158	2,178
Compulsory social security contributions		364	333	346
Contributions to defined contribution plans		47	48	47
Expenses/(income) related to defined benefit plans	26	59	88	78
Expenses related to other long-term employee benefits		3	1	3
Equity-settled share-based payment plan	27	55	42	33
Other personnel expenses		683	593	637
		3,550	3,263	3,322

Other personnel expenses includes expenses for contractors for an amount of 153 million (2016: 142 million, 2015: 147 million) and restructuring costs for an amount of 82 million (2016: 38 million, 2015: 90 million). Restructuring provisions are disclosed in note 28.

The average number of full-time equivalent (FTE) employees, excluding contractors, during the year was:

	2017	2016	2015
The Netherlands	3,998	3,907	3,936
Other Europe	23,873	24,012	25,161
Americas	27,818	20,917	20,985
Africa, Middle East and Eastern Europe	14,475	15,193	15,102
Asia Pacific	10,261	9,496	8,728

80,425 73,525 73,912

The increase in FTE in the region Americas from 2016 to 2017 mainly relates to the acquisition of Brasil Kirin.

11. Amortisation, depreciation and impairments

In millions of	Note	2017	2016	2015
Property, plant and equipment	14	1,153	1,437	1,222
Intangible assets	15	369	380	372
Recycling of currency translation differences		65		
		1,587	1,817	1,594

In 2017 HEINEKEN recycled the negative currency translation reserves relating to disposed subsidiaries to the consolidated income statement.

12. Net finance income and expense**Recognised in profit or loss**

In millions of	2017	2016	2015
Interest income	72	60	60
Interest expenses	(468)	(419)	(412)
Dividend income from available-for-sale investments	10	12	10
Gain/(loss) on disposal of available-for-sale investments			18
Net change in fair value of derivatives	(149)	19	143
Net foreign exchange gain/(loss) ¹	56	(114)	(179)
Unwinding discount on provisions	(14)	(1)	(3)
Interest on the net defined benefit obligation	(33)	(40)	(44)

	26.7	755	29.7	673	26.2	697

F-149

The effective tax rate 2017 is impacted by one-off benefits in several jurisdictions, including the remeasurement of deferred tax positions following a nominal tax rate change in the United States. The effective tax rate 2016 included the impact of impairments for which no tax benefit could be recognised. The effective tax rate 2015 included the gain on sale of EMPAQUE, which was tax exempt.

For the income tax impact on items recognised in other comprehensive income, please refer to note 24.
