Note 1: EBITDA represents profit for the period before finance costs, interest income, shares of net profit of associates, share of net profit of joint ventures, other income-net, income tax, depreciation and amortisation. As the telecommunications business is a capital intensive industry, capital expenditure and finance costs may have a significant impact on the net profit of the companies with similar operating results. Therefore, the Company believes that EBITDA may be helpful in analysing the operating results of a telecommunications service operator like the Company.

(a) Going Concern Assumption

As at 30 June 2018, current liabilities of the Group exceeded current assets by approximately RMB139.8 billion (31 December 2017: approximately RMB165.9 billion). Considering the current economic conditions and taking into account of the Group's expected capital expenditures in the foreseeable future, management has comprehensively considered the Group's available sources of funds as follows:

The Group's continuous net cash inflow from operating activities;

Approximately RMB260.9 billion of revolving banking facilities, of which approximately RMB242.1 billion was unutilised as at 30 June 2018; and

Other available sources of financing from domestic banks and other financial institutions given the Group's credit history.

In addition, the Group believes it has the ability to raise funds from the short, medium and long-term perspectives and maintain reasonable financing costs through appropriate financing portfolio.

Based on the above considerations, the Board of Directors is of the opinion that the Group has sufficient funds to meet its working capital commitments and debt obligations. As a result, the unaudited condensed consolidated interim financial information of the Group for the six months ended 30 June 2018 have been prepared on a going concern basis.

3. SIGNIFICANT ACCOUNTING POLICIES

(a) Overview

The IASB and HKICPA have issued a number of new standards and amendments to International Financial Reporting Standards (**IFRSs**)/Hong Kong Financial Reporting Standards (**HKFRSs**) that are first effective for the current accounting period of the Group. Of these, the following developments are relevant to the Group's financial statements:

IFRS/HKFRS 9 (2014), Financial instruments

IFRS/HKFRS 15, Revenue from contracts with customers

IFRIC/HK(IFRIC) 22, Foreign currency transactions and advance consideration

Table of Contents

The Group has not applied any new standard or interpretation that is not yet effective for the current accounting period.

The Group has early adopted IFRS/HKFRS 9 (2010) in 2011 and the Group has been impacted by IFRS/HKFRS 9 (2014) in relation to measurement of credit losses, and impacted by IFRS/HKFRS 15 in relation to capitalisation of contract costs and presentation of contract assets and contract liabilities. Details of the changes in accounting policies are discussed in Note 3(b) for IFRS/HKFRS 9 (2014) and Note 3(c) for IFRS/HKFRS 15.

Under the transition method chosen, the Group recognises cumulative effect of the initial application of IFRS/HKFRS 9 (2014) and IFRS/HKFRS 15 as an adjustment to the opening balance of equity at 1 January 2018. Comparative information is not restated. (b) IFRS/HKFRS 9 (2014), Financial instruments , including the amendments to IFRS/HKFRS 9, Prepayment features with negative compensation

IFRS/HKFRS 9 (2014) replaces the incurred loss model in IFRS/HKFRS 9 (2010) with an expected credit loss (ECL) model. The ECL model requires an ongoing measurement of credit risk associated with a financial asset and therefore recognises ECLs earlier than under the incurred loss accounting model in IFRS/HKFRS 9 (2010).

The Group applies the new ECL model to the following items:

financial assets measured at amortised cost (including cash and cash equivalents, short-term bank deposits and restricted deposits, accounts receivable, prepayments and other current assets, amounts due from ultimate holding company, amounts due from related parties, amounts due from domestic carriers and certain other assets); and

contract assets as defined in IFRS/HKFRS 15 (see Note 3(c))

Financial assets measured at fair value, including financial assets at fair value through profit and loss and financial assets at fair value through other comprehensive income, are not subject to the ECL assessment.

(c) IFRS/HKFRS 15, Revenue from Contracts with Customers

Under IFRS/HKFRS 15, an entity is required to identify the performance obligations in the contract, determine the transaction price of the contract, allocate the transaction price to the performance obligations in the contract based on each performance obligation's standalone price, and recognise revenue when the performance obligations are satisfied.

With the exception of the accounting for contract costs and presentation of contract assets and contract liabilities, which is further explained below, the adoption of IFRS/HKFRS 15 did not result in material adjustments to the opening balances at 1 January 2018 as the Group's previous revenue recognition accounting policies in other areas, including identification of the number and the nature of performance obligations for bundled sales transactions, determination of standalone price, allocation of price in bundled sales transactions and contract modifications, were generally consistent with the new requirements in material respects.

Further details of the nature and effect of the changes on previous accounting policies are set out below:

i. Sales commission

The Group previously recognised sales commissions payable as other operating expenses when they were incurred. Under IFRS/HKFRS 15, the Group is required to capitalise these sales commissions as costs of obtaining contracts when they are incremental and are expected to be recovered, unless the expected amortisation period is one year or less from the date of initial recognition of the asset, in which case the sales commissions can be expensed when incurred. Capitalised commissions are charged to profit or loss when the revenue from the related contract is recognised and are included as other operating expenses at that time.

ii. Presentation of contract assets and liabilities

Under IFRS/HKFRS 15, a receivable is recognised only if the Group has an unconditional right to consideration. If the Group recognises the related revenue before being unconditionally entitled to the consideration for the promised goods and services in the contract, then the entitlement to consideration is classified as a contract asset. Similarly, a contract liability, rather than a payable, is recognised when a customer pays consideration, or is contractually required to pay consideration and the amount is already due, before the Group recognises the related revenue. For a single contract with the customer, either a net contract asset or a net contract liability is presented. For multiple contracts, contract assets and contract liabilities of unrelated contracts are not presented on a net basis.

Previously, contract balances relating to contracts in progress were presented in the consolidated statement of financial position under Prepayments and other current assets, Other assets, Advances from customers and Deferred revenue.

(d) Possible impact of amendments, new standards and interpretations issued but not yet effective for the six months ended 30 June 2018

A number of amendments and new standards are effective for annual periods beginning after 1 January 2018 and earlier application is permitted. Except for the amendments to IFRS/HKFRS 9, Prepayment features with negative compensation, which have been adopted at the same time as IFRS/HKFRS 9 (2014), the Group has not early adopted any new or amended standards in preparing this interim financial report.

The Group is assessing the impact of such new standards and amendments to standards and will adopt the relevant standards and amendments to standards in the subsequent period as required.

Table of Contents**4. SEGMENT INFORMATION**

The Executive Directors of the Company have been identified as the Chief Operating Decision Maker (the **CODM**). Operating segments are identified on the basis of internal reports that the CODM reviews regularly in allocating resources to segments and in assessing their performances.

The CODM make resources allocation decisions based on internal management functions and assess the Group's business performance as one integrated business instead of by separate business lines or geographical regions. Accordingly, the Group has only one operating segment and therefore, no segment information is presented.

The Group primarily operates in Mainland China and accordingly, no geographic information is presented. No single customer accounted for 10 percent or more of the Group's revenue in all periods presented.

**REVISION OF ANNUAL CAPS FOR
CONTINUING CONNECTED TRANSACTIONS**

Reference is made to the announcement of the Company dated 25 November 2016 in relation to the continuing connected transactions under the 2016 Comprehensive Services Agreement between CUCL and Unicom Group, pursuant to which, CUCL or its subsidiaries have agreed to provide, among others, the financial service lending and other credit services to Unicom Group and the caps of such services, being the daily lending and other credit services balance (including accrued interests), in each of the two years ending 31 December 2018 and 2019 shall not exceed RMB6,300 million. The lending interest rate will follow the interest rate standard promulgated by the People's Bank of China, and will be no less than the minimum interest rate offered by CUCL or its subsidiaries to other clients for the same type of loan, and the applicable interest rate offered to Unicom Group by the general commercial banks for the same type of loan.

With the continuous expansion of CUCL's operating scale and the continuous improvement of its centralised capital management capabilities, it is expected that CUCL's operating revenue and cash deposits will continue to increase in the next two years. As the actual amount of the above transaction is close to the existing cap, in order to further satisfy the capital management needs of CUCL, enhance the capital efficiency and increase interest income, CUCL and Unicom Group have entered into the Supplemental Agreement on 15 August 2018 to revise the caps, being the daily lending and other credit services balance (including accrued interests), for the financial service lending and other credit services included in the 2016 Comprehensive Services Agreement in each of the two years ending 31 December 2018 and 2019 to RMB11,000 million (equivalent to HK\$12,639 million). Save as disclosed above, all terms and conditions under the 2016 Comprehensive Services Agreement remain unchanged and valid.

The Board (including the independent non-executive Directors but excluding the executive Directors who have voluntarily abstained from voting) is of the view that the Supplemental Agreement and any transactions contemplated thereunder are entered into in the ordinary and usual course of business of the Group and the terms of the Supplemental Agreement are on normal commercial terms or better. The terms of the Supplemental Agreement and the applicable revised annual caps are all fair and reasonable and in the interests of the Company and the Shareholders as a whole.

LISTING RULES IMPLICATIONS

Unicom Group is the ultimate parent company of the Company and, as at the date of this announcement, indirectly controls approximately 79.9% of the issued share capital of the Company through its shareholdings in Unicom BVI and Unicom Group BVI, which directly hold 53.5% and 26.4% of the issued share capital of the Company, respectively. As CUCL is a member of the Group and Unicom Group is a connected person of the Company, the transactions contemplated under the Supplemental Agreement constitute continuing connected transactions of the Company for the purpose of Chapter 14A of the Listing Rules.

As the highest applicable percentage ratio for the revised caps of the lending and other credit services (calculated using the daily lending and other credit services balance (including accrued interest)) exceeds 0.1% but is less than 5%, the provision of the lending and other credit services is subject to the reporting, announcement and annual review requirements under Rule 14A.76(2) of the Listing Rules but exempt from the independent shareholders' approval requirements under Chapter 14A of the Listing Rules.

1. BACKGROUND

Reference is made to the announcement of the Company dated 25 November 2016 in relation to the continuing connected transactions under the 2016 Comprehensive Services Agreement between CUCL and Unicom Group.

2. SUPPLEMENTAL AGREEMENT AND REVISION OF THE CAPS

Pursuant to the 2016 Comprehensive Services Agreement, CUCL or its subsidiaries have agreed to provide, among others, the financial service lending and other credit services to Unicom Group and the caps of such services, being the daily lending and other credit services balance (including accrued interests), in each of the two years ending 31 December 2018 and 2019 shall not exceed RMB6,300 million.

The lending interest rate will follow the interest rate standard promulgated by the People's Bank of China, and will be no less than the minimum interest rate offered by CUCL or its subsidiaries to other clients for the same type of loan, and the applicable interest rate offered to Unicom Group by the general commercial banks for the same type of loan.

CUCL and Unicom Group have entered into the supplemental agreement on 15 August 2018 (the **Supplemental Agreement**) to revise the caps, being the daily lending and other credit services balance (including accrued interests), for the financial service lending and other credit services offered to Unicom Group by CUCL or its subsidiaries in each of the two years ending 31 December 2018 and 2019 to RMB11,000 million (equivalent to HK\$12,639 million). Save as disclosed above, all terms and conditions under the 2016 Comprehensive Services Agreement remain unchanged and valid.

Table of Contents

3. REASONS FOR AND BENEFITS OF THE SUPPLEMENTAL AGREEMENT

For the year ended 31 December 2017 and the six months ended 30 June 2018, the maximum daily lending and other credit services balance (including accrued interests) for the financial service lending and other credit services offered to Unicom Group by CUCL or its subsidiaries under the 2016 Comprehensive Services Agreement were RMB704 million (equivalent to HK\$809 million) and RMB4,174 million (equivalent to HK\$4,796 million), respectively. As at the date of this announcement, the daily lending and other credit services balance (including accrued interests) for the financial service lending and other credit services offered to Unicom Group by CUCL or its subsidiaries under 2016 Comprehensive Services Agreement has not exceeded the pre-determined caps.

With the continuous expansion of CUCL's operating scale and the continuous improvement of its centralised capital management capabilities, it is expected that CUCL's operating revenue and cash deposits will continue to increase in the next two years. As the actual amount of the above transaction is close to the existing cap, in order to further satisfy the capital management needs of CUCL, enhance the capital efficiency and increase interest income, the Board decided to revise the caps, being the daily lending and other credit services balance (including accrued interests), for the financial service lending and other credit services offered to Unicom Group by CUCL or its subsidiaries in each of the two years ending 31 December 2018 and 2019 to RMB11,000 million (equivalent to HK\$12,639 million).

When determining the above revised caps, the Board has considered (i) the daily lending and other credit services balance (including accrued interests) offered to Unicom Group by CUCL or its subsidiaries for the year ended 31 December 2017 and from 1 January 2018 to the date of this announcement; (ii) the Group's expected financial position and cash flow in future and (iii) the expected demand for the lending services of Unicom Group.

4. CONNECTION BETWEEN THE PARTIES AND HONG KONG LISTING RULES IMPLICATION

Unicom Group is the ultimate parent company of the Company and, as at the date of this announcement, indirectly controls approximately 79.9% of the issued share capital of the Company through its shareholdings in Unicom BVI and Unicom Group BVI, which directly hold 53.5% and 26.4% of the issued share capital of the Company, respectively. As CUCL is a member of the Group and Unicom Group is a connected person of the Company, the transactions contemplated under the Supplemental Agreement constitute continuing connected transactions of the Company for the purpose of Chapter 14A of the Listing Rules.

As the highest applicable percentage ratio for the revised caps of the lending and other credit services (calculated using the daily lending and other credit services balance (including accrued interest)) exceeds 0.1% but is less than 5%, the provision of the lending and other credit services is subject to the reporting, announcement and annual review requirements under Rule 14A.76(2) of the Listing Rules but exempt from the independent shareholders' approval requirements under Chapter 14A of the Listing Rules.

The Board (including the independent non-executive Directors but excluding the executive Directors who have voluntarily abstained from voting) is of the view that the Supplemental Agreement and any transactions contemplated thereunder are entered into in the ordinary and usual course of business of the Company and the terms of the Supplemental Agreement are on normal commercial terms or better.
