## PROSPECTUS

### MEREDITH CORPORATION

#### Offer to Exchange

**This is an offer by Meredith Corporation to exchange up to \$1,272,940,000 aggregate principal amount of its 6.875% Senior Notes due 2026 (the exchange notes), which have been registered under the Securities Act of 1933, as amended (the Securities Act), for any and all of its outstanding unregistered 6.875% Senior Notes due 2026 that were issued in a private offering on January 31, 2018 (the outstanding unregistered notes), and such transaction, the exchange offer).**

**We are conducting the exchange offer in order to provide you with an opportunity to exchange your outstanding unregistered notes for freely tradable notes that have been registered under the Securities Act.**

#### **The Exchange Offer:**

We will exchange all outstanding unregistered notes that are validly tendered and not validly withdrawn for an equal principal amount of exchange notes that are freely tradable.

You may withdraw tenders of outstanding unregistered notes at any time prior to the expiration date of the exchange offer.

The exchange offer will expire at 5:00 p.m., New York City time, on February 28, 2019, unless extended. We do not currently intend to extend the expiration date.

The exchange of outstanding unregistered notes for exchange notes in the exchange offer will not be a taxable event for United States federal income tax purposes.

The terms of the exchange notes to be issued in the exchange offer are substantially identical to the terms of the outstanding unregistered notes, except that the exchange notes will be freely tradable.

**Results of the Exchange Offer:**

The exchange notes may be sold in the over-the-counter-market, in negotiated transactions or through a combination of such methods. We do not plan to list the exchange notes on a national exchange.

All untendered outstanding unregistered notes will continue to be subject to the restrictions on transfer set forth in the outstanding unregistered notes and in the indenture governing the notes. In general, the outstanding unregistered notes may not be offered or sold, unless registered under the Securities Act, except pursuant to an exemption from, or in a transaction not subject to, the Securities Act and applicable state securities laws. Other than in connection with the exchange offer, we do not currently anticipate that we will register the outstanding unregistered notes under the Securities Act.

**Each broker-dealer that receives exchange notes for its own account pursuant to the exchange offer must acknowledge that it shall deliver a prospectus in connection with any resale of such exchange notes. The letter of transmittal states that by so acknowledging and by delivering a prospectus, a broker-dealer shall not be deemed to admit that it is an underwriter within the meaning of the Securities Act. This prospectus, as it may be amended or supplemented from time to time, may be used by a broker-dealer in connection with resales of exchange notes received in exchange for unregistered notes where such notes were acquired by such broker-dealer as a result of market-making activities or other trading activities. Meredith Corporation and the guarantors have agreed that, for a period ending on the earlier of (i) 180 days from the date on which this registration statement is declared effective and (ii) the date on which broker-dealers are no longer required to deliver a prospectus in connection with market-making or other trading activities, they shall make this prospectus available to any broker-dealer for use in connection with any such resale. See Plan of Distribution.**

See **Risk Factors** beginning on page 11 for a discussion of certain risks that you should consider before participating in the exchange offer.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of the exchange notes to be distributed in the exchange offer or passed upon the adequacy or accuracy of this prospectus. Any representation to the contrary is a criminal offense.

the exchange notes will contain no provisions relating to additional interest;

Resale

Based on interpretations by the staff of the SEC set forth in no-action letters issued to third parties referred to below, we believe that you may resell or otherwise transfer exchange notes issued in the exchange offer without complying with the registration and prospectus delivery requirements of the Securities Act, if:

you are acquiring the exchange notes in the ordinary course of your business;

you do not have an arrangement or understanding with any person to participate in a distribution of the exchange notes;

you are not an affiliate of the Issuer within the meaning of Rule 405 under the Securities Act; and

you are not engaged in, and do not intend to engage in, a distribution of the exchange notes.

We have not entered into any arrangement or understanding with any person who will receive exchange notes in the exchange offer to distribute such securities following completion of the exchange offer. We are not aware of any person that will participate in the exchange offer with a view to distribute the exchange notes. If you are not acquiring the exchange notes in the ordinary course of your business, or if you are engaging in, intend to engage in, or have any arrangement or understanding with any person to participate in, a distribution of the exchange notes, or if you are our affiliate, then:

you cannot rely on the position of the staff of the SEC enunciated in *Morgan Stanley & Co., Inc.* (available June 5, 1991) and *Exxon Capital Holdings Corporation* (available May 13, 1988), as

interpreted in the SEC's letter to *Shearman & Sterling* dated July 2, 1993, or similar no-action letters; and

in the absence of an exception from the position of the SEC stated in the first bullet point above, you must comply with the registration and prospectus delivery requirements of the Securities Act in connection with any resale or other transfer of the exchange notes.

Each broker-dealer that receives exchange notes for its own account in exchange for unregistered notes, where such notes were acquired by such broker-dealer as a result of market-making activities or other trading activities, must acknowledge that it shall deliver a prospectus

in connection with any resale of such exchange notes. See Plan of Distribution.

**Withdrawal**

You may withdraw the tender of your outstanding unregistered notes at any time prior to the expiration of the exchange offer. We will return to you any of your outstanding unregistered notes that for any reason are not accepted for exchange, without expense to you, promptly after the expiration or termination of the exchange offer.

**Interest on the Exchange Notes and the Outstanding Unregistered Notes**

Each exchange note will bear interest at the rate per annum of 6.875% from the most recent date to which interest has been paid on the outstanding unregistered notes. The interest on the notes will be payable on February 1 and August 1 of each year. No interest will be paid on outstanding unregistered notes that are tendered and accepted for exchange following their acceptance for exchange.

**Conditions to the Exchange Offer**

The exchange offer is subject to customary conditions, which we may assert or waive. See The Exchange Offer Conditions to the Exchange Offer.

**Procedures for Tendering Outstanding Unregistered Notes**

If you wish to participate in the exchange offer, you must complete, sign and date the accompanying letter of transmittal, or a facsimile of the letter of transmittal, according to the instructions contained in this prospectus and the letter of transmittal. You must then mail or otherwise deliver the letter of transmittal, or a facsimile of the letter of transmittal, together with the outstanding unregistered notes and any other required documents, to the exchange agent at the address set forth on the cover page of the letter of transmittal. If you hold outstanding unregistered notes through The Depository Trust Company ( DTC ) and wish to participate in the exchange offer for the outstanding unregistered notes, you must comply with the Automated Tender Offer Program ( ATOP ) procedures of DTC by which you will agree to be bound by the letter of transmittal. By signing, or agreeing to be bound by, the letter of transmittal, you will represent to us that, among other things:

any exchange notes to be received by you will be acquired in the ordinary course of your business;

at the time of the commencement of the exchange offer, you do not have an arrangement or understanding with any person to participate in a distribution of the exchange notes;

you are not an affiliate of the Issuer within the meaning of Rule 405 under the Securities Act or, if you are an affiliate, you

**Table of Contents**

will comply with the registration and prospectus delivery requirements of the Securities Act to the extent applicable;

if you are not a broker-dealer, you are not engaged in, and do not intend to engage in, a distribution of the exchange notes; and

if you are a broker-dealer that will receive exchange notes for your own account in exchange for outstanding unregistered notes that were acquired as a result of market-making or other trading activities, you will deliver a prospectus, as required by law, in connection with any resale or other transfer of such exchange notes.

If you are not acquiring the exchange notes in the ordinary course of your business, or if you are engaged in, or intend to engage in, or have an arrangement or understanding with any person to participate in, a distribution of the exchange notes, or if you are an affiliate of the Issuer, then you cannot rely on the positions and interpretations of the staff of the SEC and you must comply with the registration and prospectus delivery requirements of the Securities Act in connection with any resale or other transfer of the exchange notes.

Special Procedures for Beneficial Owners      If you are a beneficial owner of outstanding unregistered notes that are held in the name of a broker, dealer, commercial bank, trust company or other nominee, and you wish to tender those outstanding unregistered notes in the exchange offer, you should contact such person promptly and instruct such person to tender those outstanding unregistered notes on your behalf.

Guaranteed Delivery Procedures      If you wish to tender your outstanding unregistered notes and your outstanding unregistered notes are not immediately available or you cannot deliver your outstanding unregistered notes and any other documents required by the letter of transmittal or you cannot comply with the DTC procedures for book-entry transfer prior to the expiration date, then you must tender your outstanding unregistered notes according to the guaranteed delivery procedures set forth in this prospectus under The Exchange Offer Guaranteed Delivery Procedures.

Effect on Holders of Outstanding Unregistered Notes      In connection with the sale of the outstanding unregistered notes, the Issuer and the guarantors entered into a registration rights agreement with the initial purchasers of the outstanding unregistered notes that grants the holders of outstanding unregistered notes certain registration rights. By consummating the exchange offer, we will have fulfilled most

of our obligations under the registration rights agreement. Accordingly, upon consummation of the exchange offer, we will not be obligated to pay additional interest as described in the registration rights agreement. If you do not tender your outstanding unregistered notes in the exchange offer, you will continue to be

**Table of Contents**

entitled to all the rights and limitations applicable to the outstanding unregistered notes as set forth in the indenture, except that we will not have any further obligation to you to provide for the registration of the outstanding unregistered notes under the registration rights agreement and we will not be obligated to pay additional interest as described in the registration rights agreement. To the extent that outstanding unregistered notes are tendered and accepted in the exchange offer, the trading market for outstanding unregistered notes could be adversely affected.

Consequences of Failure to Exchange

All untendered outstanding unregistered notes will continue to be subject to the restrictions on transfer set forth in the outstanding unregistered notes and in the indenture. In general, the outstanding unregistered notes may not be offered or sold, unless registered under the Securities Act, except pursuant to an exemption from, or in a transaction not subject to, the Securities Act and applicable state securities laws. Other than in connection with the exchange offer, we do not currently anticipate that we will register the outstanding unregistered notes under the Securities Act.

Material United States Federal Income Tax Consequences

The exchange of outstanding unregistered notes for exchange notes in the exchange offer will not be a taxable event for United States federal income tax purposes. See Material United States Federal Income Tax Consequences.

Optional Redemption

Prior to February 1, 2021, we may redeem the notes, in whole at any time or in part from time to time, at a redemption price equal to 100% of the principal amount of the notes to be redeemed, *plus* the applicable make-whole premium *plus* accrued and unpaid interest, if any, to, but excluding, the date of redemption.

On and after February 1, 2021, we may redeem the notes, in whole at any time or in part from time to time, at the redemption prices and as described under Description of Notes Optional Redemption *plus* accrued and unpaid interest, if any, to, but excluding, the date of redemption.

Until February 1, 2021, we may, at any time and from time to time, redeem up to 40% of the aggregate principal amount of the notes at a redemption price of 106.875% of the aggregate principal amount thereof, *plus* accrued and unpaid interest, if any, to, but excluding, the date of redemption, in an amount no greater than the aggregate cash proceeds received from one or more equity offerings; *provided* that (1) at least 60% of the aggregate principal amount of the notes issued under the indenture remains outstanding immediately after each such redemption and (2) each such redemption occurs within 120 days of the closing of such equity offering. See Description of Notes Optional Redemption.

Change of Control Offer

If we experience a change of control, each holder of the notes will have the right to require us to repurchase all or any part of their notes at a purchase price of 101% of the aggregate principal amount of such notes, *plus* accrued and unpaid interest, if any, to, but excluding, the applicable repurchase date. If holders of not less than 90% of the aggregate principal amount of notes outstanding validly tender their notes in such offer, we will have the right to redeem all remaining notes following such purchase at a price equal to 101% of the aggregate principal amount

of such notes, *plus* accrued and unpaid interest, if any, to, but excluding, the date of such redemption. See Description of Notes Change of Control.

Asset Sale Offer

If we or our restricted subsidiaries sell assets under certain circumstances and do not apply the proceeds as provided in Description of Notes Certain Covenants Asset Sales, we or any

**Table of Contents**

of our restricted subsidiaries must use the excess proceeds from such asset sales to offer to repurchase the notes at a repurchase price equal to 100% of the principal amount of the notes repurchased, *plus* accrued and unpaid interest, if any, to, but excluding, the applicable repurchase date. See Description of Notes Certain Covenants Asset Sales.

Certain Covenants

The indenture that governs the notes contains covenants that, among other things, limit our ability and the ability of our restricted subsidiaries to:

pay dividends on, repurchase or make distributions on account of capital stock or make other restricted payments;

make certain investments or acquisitions;

designate restricted subsidiaries as unrestricted subsidiaries;

incur additional indebtedness, guarantee indebtedness or issue disqualified stock and, in the case of such subsidiaries, preferred stock;

create certain liens;

consolidate, merge, sell or otherwise dispose of all or substantially all of our or such subsidiary's assets;

enter into transactions with affiliates;

enter into agreements that restrict dividends or other payments from our restricted subsidiaries to us;

sell, transfer or otherwise convey certain assets;

enter into sale/leaseback transactions; and

engage in businesses not similar to ours.

These covenants are subject to a number of important exceptions and qualifications. Many of these covenants cease to apply to the notes during any period in which the notes have investment grade ratings from both Moody's Investors Service, Inc. and Standard & Poor's Financial Services LLC and no default has occurred and is continuing under the indenture that governs the notes.

For more details, see [Description of Notes - Certain Covenants](#).

#### Trading Market

The exchange notes will be freely transferrable. Although the initial purchasers in the private offering of the outstanding unregistered notes have informed us that they intend to make a market in the exchange notes, they are not obligated to do so and they may discontinue market-making activities at any time without notice. Accordingly, we cannot assure you that a liquid market for the exchange notes will be maintained. See [Risk Factors - Risks Related to the Exchange Offer](#). Your ability to transfer the notes may be limited by the absence of an active trading market, and we cannot assure you that any active trading market will develop for the notes.

**RISK FACTORS**

*You should carefully consider the following risk factors and all other information contained in this prospectus and in the documents incorporated by reference herein before tendering for exchange any outstanding unregistered notes. The risks and uncertainties described below are not the only risks facing us and your investment in the notes. Additional risks and uncertainties that we are unaware of, or those we currently deem immaterial, also may become important factors that affect us. The following risks could materially and adversely affect our business, financial condition, cash flows or results of operations. In such a case, you may lose all or part of your original investment.*

**Risks Related to the Exchange Offer**

*If you choose not to exchange your outstanding unregistered notes in the exchange offer, the transfer restrictions currently applicable to your outstanding unregistered notes will remain in force and the market price of your outstanding unregistered notes could decline.*

If you do not exchange your outstanding unregistered notes for exchange notes in the exchange offer, then you will continue to be subject to the transfer restrictions that apply to the outstanding unregistered notes as set forth in the offering memorandum distributed in connection with the private offering of the outstanding unregistered notes. In general, the outstanding unregistered notes may not be sold unless the sale is registered or exempt from registration under the Securities Act. Except as required by the registration rights agreement, we do not intend to register resales of the outstanding unregistered notes under the Securities Act. You should refer to Prospectus Summary The Exchange Offer for information about how to tender your outstanding unregistered notes.

The tender of outstanding unregistered notes pursuant to the exchange offer will reduce the outstanding principal amount of the outstanding unregistered notes, which may have an adverse effect upon, and increase the volatility of, the market price of the outstanding unregistered notes due to reduction in liquidity.

*Late deliveries of outstanding unregistered notes and other required documents could prevent you from exchanging your notes.*

Holders of the notes are responsible for complying with all exchange offer procedures. The issuance of exchange notes in exchange for outstanding unregistered notes will only occur upon completion of the procedures described under Prospectus Summary The Exchange Offer. Therefore, holders of outstanding unregistered notes who wish to exchange them for exchange notes should allow sufficient time for timely completion of the exchange offer procedures. Neither we nor the exchange agent are obligated to extend the offer or notify you of any failure to follow the proper procedures or waive any defect if you fail to follow the proper procedures.

*Certain persons who participate in the exchange offer must deliver a prospectus in connection with resales of the exchange notes.*

Based on interpretations of the staff of the SEC contained in *Exxon Capital Holdings Corp.*, SEC no-action letter (April 13, 1988), *Morgan Stanley & Co. Inc.*, SEC no-action letter (June 5, 1991) and *Shearman & Sterling*, SEC no-action letter (July 2, 1983), we believe that you may offer for resale, resell or otherwise transfer the exchange notes without compliance with the registration and prospectus delivery requirements of the Securities Act. However, in some instances described in this prospectus under Plan of Distribution, certain holders of exchange notes will remain obligated to comply with the prospectus delivery requirements of the Securities Act in order to transfer the exchange notes. If such a holder transfers any exchange notes without delivering a prospectus meeting the requirements of the Securities Act or without an applicable exemption from registration under the Securities Act, such a holder may incur

liability under the Securities Act. We do not and will not assume, or indemnify such a holder against, this liability.

**Risks Related to Our Indebtedness**

*Our substantial level of indebtedness and our ability to incur significant additional indebtedness could adversely affect our business, financial condition and results of operations.*

Our level of indebtedness could have important consequences. For example, it could:

increase our vulnerability to general adverse economic and industry conditions;

limit our ability to obtain additional financing to fund future working capital, capital expenditures and other general corporate requirements or to carry out other aspects of our business;

increase our cost of borrowing;

make it more difficult for us to satisfy our obligations with respect to the notes and our other debt;

require us to dedicate a substantial portion of our cash flow from operations to payments on indebtedness, thereby reducing the availability of such cash flow to fund working capital, capital expenditures and other general corporate requirements or to carry out other aspects of our business;

limit our ability to make material acquisitions or take advantage of business opportunities that may arise;

expose us to fluctuations in interest rates, to the extent our borrowings bear variable rates of interest;

limit our flexibility in planning for, or reacting to, changes in our business and industry;

place us at a potential disadvantage compared to our competitors that have less debt; and

affect our credit ratings.

Our ability to make scheduled payments on and to refinance our indebtedness will depend on and be subject to our future financial and operating performance, which in turn is affected by general economic, financial, competitive, business and other factors beyond our control, including the availability of financing in the banking and capital markets. Our business may fail to generate sufficient cash flow from operations or we may be unable to efficiently repatriate the portion of our cash flow that is derived from our foreign operations or borrow funds in an amount sufficient to enable us to make payments on our debt, to refinance our debt or to fund our other liquidity needs. If we were unable to make payments on or refinance our debt or obtain new financing under these circumstances, we would have to consider other options, such as asset sales, equity issuances or negotiations with our lenders to restructure the

applicable debt. The terms of our debt agreements and market or business conditions may limit our ability to take some or all of these actions. In addition, if we incur additional debt, the related risks described above could be exacerbated.

***When the Senior Credit Facilities mature, we may not be able to refinance or replace them.***

The Senior Credit Facilities have an earlier maturity date than that of the notes. When the Senior Credit Facilities mature, we may need to refinance them and may not be able to do so on favorable terms or at all. If we are able to refinance maturing indebtedness, the terms of any refinancing or alternate credit arrangements may contain terms and covenants that restrict our financial and operating flexibility.

The terms of the credit agreement that governs the Senior Credit Facilities and the indenture that governs the notes may restrict our current and future operations, particularly our ability to incur debt that we may need to fund initiatives in response to changes in our business, the industries in which we operate, the economy and governmental regulations.

The credit agreement that governs the Senior Credit Facilities and the indenture that governs the notes contain a number of restrictive covenants that impose significant operating and financial restrictions on us and our

**Table of Contents**

subsidiaries and limit our ability to engage in actions that may be in our long-term best interests, including restrictions on our and our subsidiaries' ability to:

incur or guarantee additional indebtedness or sell disqualified or preferred stock;

pay dividends on, make distributions in respect of, repurchase or redeem, capital stock;

make investments or acquisitions;

sell, transfer or otherwise dispose of assets out of the ordinary course of business, including restrictions on the use of proceeds of such sales;

create liens;

enter into sale/leaseback transactions;

enter into agreements restricting the ability to pay dividends or make other intercompany transfers;

consolidate, merge, sell or otherwise dispose of all or substantially all of our or our subsidiaries' assets;

enter into transactions with affiliates;

prepay, repurchase or redeem certain kinds of indebtedness;

issue or sell stock of our subsidiaries; and

significantly change the nature of our business.

In addition, the Revolving Credit Facility has a financial covenant that, in the event that on the last day of any fiscal quarter of the Issuer that the aggregate amount of all outstanding loans and letters of credit (other than those letters of credit that have been cash collateralized or otherwise backstopped) under the Revolving Credit Facility exceeds 30% of the revolving commitments thereunder, requires us to maintain a total net leverage ratio of no greater than 4.25 to 1.00. Our ability to meet this financial covenant may be affected by events beyond our control.

As a result of all of these restrictions, we may be:

limited in how we conduct our business and pursue our strategy;

unable to raise additional debt or equity financing to operate during general economic or business downturns; or

unable to compete effectively or to take advantage of new business opportunities.

A breach of the covenants under the indenture that governs the notes or the credit agreement that governs the Senior Credit Facilities could result in an event of default under the applicable agreement. If such an event of default occurs, the lenders under the Senior Credit Facilities and holders of the notes, as applicable, would have the right to accelerate the repayment of such debt and the event of default or acceleration may result in the acceleration of the repayment of any other debt to which a cross-default or cross-acceleration provision applies. In addition, an event of default under the credit agreement that governs the Senior Credit Facilities would also permit the lenders under the Revolving Credit Facility to terminate all other commitments to extend additional credit under the Revolving Credit Facility.

Furthermore, if we were unable to repay the amounts due and payable under the Senior Credit Facilities, the lenders under the Senior Credit Facilities could proceed against the collateral that secures the indebtedness. In the event our creditors accelerate the repayment of our borrowings, we may not have sufficient assets to repay such indebtedness and we may not be able to access the capital markets to refinance such indebtedness on terms we find acceptable or at all.

## **Table of Contents**

***Our indebtedness subjects us to interest rate risk, which could cause our debt service obligations to increase significantly or could prevent us from taking advantage of lower rates.***

A portion of our indebtedness consists of term loans and revolving credit facility borrowings with variable rates of interest that expose us to interest rate risk. If interest rates increase, our debt service obligations on the variable rate indebtedness will increase even though the amount borrowed remains the same, and our net income and cash flows will correspondingly decrease. Even if we enter into interest rate swaps in the future in order to reduce future interest rate volatility, we may not elect to maintain such interest rate swaps with respect to any of our variable rate indebtedness, and any swaps we enter into may not fully mitigate our interest rate risk. In addition, we have significant fixed rate indebtedness that includes prepayment penalties which could prevent us from taking advantage of any future decrease in interest rates that may otherwise be applicable to us.

***We and our subsidiaries may be able to incur substantially more indebtedness, including secured indebtedness. This could further exacerbate the risks to our financial condition described above.***

We and our subsidiaries may incur significant additional indebtedness in the future, including secured indebtedness. Although the indenture that governs the notes contains, and the credit agreement that governs the Senior Credit Facilities contains, restrictions on the incurrence of additional indebtedness and additional liens, these restrictions are subject to a number of qualifications and exceptions, and the additional indebtedness, including secured indebtedness, incurred in compliance with these restrictions could be substantial. The holders of our future indebtedness that ranks equally in right of payment with the notes, subject to any collateral arrangements in favor of such indebtedness, will be entitled to share ratably with holders of notes in any proceeds distributed in connection with any insolvency, liquidation, reorganization, dissolution or other winding up of our business. This could reduce the amount of proceeds paid to holders of notes. These restrictions also do not prevent us from incurring obligations that do not constitute indebtedness. If new debt is added to our current debt levels, the related risks that we now face would increase.

The calculation of Consolidated Adjusted EBITDA under the indenture that governs the notes permits certain estimates and assumptions that may differ materially from actual results, and the estimated savings, expected from the cost saving plan, may not be achieved.

The calculation of Consolidated Adjusted EBITDA, a defined term under the indenture that governs the notes, allows us to add back certain non-cash, non-operating or non-recurring or unusual charges that are deducted in calculating net income attributable to us, even though these are expenses that may recur, vary greatly and are difficult to predict and can represent the effect of long-term strategies as opposed to shorter term results. In addition, certain of these expenses can represent the reduction of cash that could be used for other corporate purposes. See Description of Notes Certain Definitions Consolidated Adjusted EBITDA.

The calculation of Consolidated Adjusted EBITDA under the indenture that governs the notes allows us to add estimated cost savings, operating expense reductions, other operating improvements initiatives and projected synergies related to various actions, including investments, acquisitions, dispositions, mergers and consolidations. As a result of these and other adjustments that are permitted by the indenture, we may be able to incur more debt or pay dividends or make other restricted payments in amounts greater than would be permitted without such adjustments.

Because the calculation of Consolidated Adjusted EBITDA under the indenture that governs the notes permits certain estimates and assumptions that may differ materially from actual results, we are permitted to incur debt and pay dividends or make other restricted payments based on such estimates even if those estimates are not achieved in the timeframe anticipated or at all. Accordingly, you should carefully consider the calculation of Consolidated Adjusted EBITDA in accordance with the indenture that governs the notes. See Description of Notes Certain Definitions.

***To service our indebtedness, we require a significant amount of cash and our ability to generate cash depends on many factors beyond our control.***

Our ability to make cash payments on and to refinance our indebtedness, including the notes, and to fund planned capital expenditures depends on our ability to generate significant operating cash flow in the future. Our ability to generate such cash flow is subject to general economic, financial, competitive, legislative, regulatory and other factors that are beyond our control.

Our business may not generate cash flow from operations in an amount sufficient to enable us to pay the principal, premium, if any, and interest on our indebtedness, including the notes, or to fund our other liquidity needs. If we cannot service our indebtedness, we may have to take actions such as refinancing or restructuring our indebtedness, selling assets, issuing equity or reducing or delaying capital expenditures, strategic acquisitions and investments. These actions, if necessary, may not be effected on commercially reasonable terms or at all. Our ability to refinance or restructure our debt will depend on the condition of the capital markets and our financial condition at the applicable time. Any refinancing of our debt, if we are able to refinance our debt at all, could be at higher interest rates and may require us to comply with more onerous covenants, which could further restrict our business operations. Further, the credit agreement that governs the Senior Credit Facilities and the indenture that governs the notes restrict our ability to undertake, or use the proceeds from, such measures.

Our ability to repay our indebtedness, including the notes, is largely dependent on the generation of cash flow by our operating subsidiaries and our operating subsidiaries' ability to make cash available to us by dividend, intercompany loans, advances and other transactions or otherwise. Our subsidiaries may not be able to, or may not be permitted to, transfer cash to us to enable us to make payments in respect of our indebtedness. Each of our subsidiaries is a distinct legal entity and, under certain circumstances, legal and contractual restrictions, as well as the financial condition and operating requirements of our subsidiaries, may limit our ability to obtain cash from our subsidiaries.

***If we default on our obligations to pay our other indebtedness, we may not be able to make payments on the notes.***

Any default under the agreements governing our indebtedness, including the Senior Credit Facilities, that is not waived by the required lenders, and the remedies sought by the holders of such indebtedness, could prevent us from paying principal, premium, if any, and interest on the notes. In addition, if we are unable to generate sufficient cash flow or are otherwise unable to obtain funds necessary to meet required payments of principal, premium, if any, and interest on our indebtedness, or if we otherwise fail to comply with the various covenants in the instruments governing our indebtedness (including covenants in the credit agreement that governs the Senior Credit Facilities and the indenture that governs the notes), we could be in default under the terms of the agreements governing such indebtedness. In this event, the holders of such indebtedness could elect to declare all the funds borrowed thereunder to be due and payable, together with accrued and unpaid interest; the lenders under the Senior Credit Facilities could elect to terminate their commitments thereunder, cease making further loans and institute foreclosure proceedings against our assets; and we could be forced into bankruptcy or liquidation. If our operating performance declines, we may need to obtain waivers from the required lenders under the Senior Credit Facilities to avoid being in default. If we breach these covenants and seek a waiver from the required lenders, we may not be able to obtain it. If this occurs, we would be in default under the Senior Credit Facilities, the lenders could exercise their rights, as described above, and we could be forced into bankruptcy or liquidation.

***The notes are unsecured and effectively subordinated to our and the guarantors' indebtedness under the Senior Credit Facilities and any other of our secured indebtedness or of the guarantors' secured indebtedness, in each case, to the extent of the value of the assets securing that indebtedness.***

The notes are not secured by any of our or the guarantors' assets. As a result, the notes and the guarantees are effectively subordinated to our and the guarantors' indebtedness under the Senior Credit Facilities with respect to

**Table of Contents**

the assets that secure that indebtedness. As of September 30, 2018, we had approximately \$3 billion of senior indebtedness. Additionally, we expect that we will be able, if we obtain commitments from lenders to do so, to incur significant additional secured indebtedness. For example, the Senior Credit Facilities initially permit us to increase the Senior Credit Facilities by an aggregate principal amount not to exceed the sum of (x) \$700.0 million plus (y) additional amounts so long as, on a pro forma basis at the time of incurrence, our senior secured net leverage ratio does not exceed 2.00 to 1.00. All additional indebtedness under the Senior Credit Facilities would be secured. In addition, we may incur additional secured debt in the future. The effect of the effective subordination of the notes to our secured indebtedness, to the extent of the collateral securing our secured indebtedness, is that upon a default in payment on, or the acceleration of, any of our secured indebtedness, or in the event of bankruptcy, insolvency, liquidation, dissolution or reorganization of us or the guarantors, the proceeds from the sale of assets securing our secured indebtedness will be available to repay obligations on the notes only after all obligations under the Senior Credit Facilities and any other secured debt has been paid in full. As a result, the holders of the notes may receive less, ratably, than the holders of secured debt in the event of a bankruptcy, insolvency, liquidation, dissolution or reorganization of us or the guarantors.

***Not all of our subsidiaries guarantee the notes, and the notes are structurally subordinated to all obligations of our existing and future subsidiaries that are not and do not become guarantors of the notes.***

The notes are guaranteed by each of our existing and future subsidiaries that guarantee the Senior Credit Facilities. However, the guarantee of the notes by a subsidiary will be automatically released under certain circumstances, including if such subsidiary's guarantee of the Senior Credit Facilities is released or discharged. See Description of Notes Guarantees for more information. In the future, other subsidiaries will be required to guarantee the notes only under certain limited circumstances. The indenture that governs the notes does not limit the transfer of assets to, or the making of investments in, any of our restricted subsidiaries, including our non-guarantor subsidiaries. Our subsidiaries that do not guarantee the notes, including the non-domestic, non-wholly owned and immaterial subsidiaries, have no obligation, contingent or otherwise, to pay amounts due under the notes or to make any funds available to pay those amounts, whether by dividend, distribution, loan or other payment. In the event that any non-guarantor subsidiary becomes insolvent or is liquidated, reorganized or dissolved, the assets of such non-guarantor subsidiary will be used first to satisfy the claims of its creditors, including trade creditors, banks and other lenders followed by claims of any holders of preferred stock of such non-guarantor subsidiary. Only the residual equity value will be available to us and our guarantors, and only to the extent we or any guarantor is a parent company of such non-guarantor subsidiary. Consequently, each guarantee of the notes is structurally subordinated to claims of creditors of non-guarantor subsidiaries. The indenture that governs the notes permits our subsidiaries, including our non-guarantor subsidiaries, to incur additional indebtedness, and does not limit their ability to incur trade payables and similar liabilities.

For the twelve-month period ended September 30, 2018, the Issuer's subsidiaries that are not guarantors accounted for less than 4% of our total revenue. In addition, as of September 30, 2018, the Issuer's subsidiaries that are not guarantors accounted for less than 6% of our total assets and less than 3%, of our total liabilities (all amounts presented exclude intercompany balances).

In addition, our subsidiaries that provide guarantees of the notes will be automatically released from those guarantees upon (1) receipt by the trustee of a notification from us that such guarantee be released and (2) the occurrence of any of the following:

the release or discharge of the guarantee by such guarantor of the Senior Credit Facilities or the guarantee which resulted in the creation of such guarantee, except a discharge or release by or as a result of payment

under such guarantee;

the sale or other disposition, including the sale of substantially all the assets, of that guarantor, as permitted by the indenture that governs the notes;

designation of such guarantor as an unrestricted subsidiary in accordance with the terms of the indenture that governs the notes; or

## **Table of Contents**

the achievement of investment grade status; provided that such guarantee will be reinstated if we subsequently fail to maintain investment grade status.

If any guarantee provided by a subsidiary is released, no holder of the notes will have a claim as a creditor against that subsidiary, and the indebtedness and other liabilities, including trade payables and preferred stock, if any, whether secured or unsecured, of that subsidiary will be effectively senior to the claim of any noteholders. See Description of Notes Guarantees.

***The lenders under the Senior Credit Facilities have the discretion to release the guarantors under the Senior Credit Facilities in a variety of circumstances, which would cause those guarantors to be released from their guarantees of the notes.***

While any obligations under the Senior Credit Facilities remain outstanding, any guarantee of the notes by a guarantor may be released without action by, or consent of, any holder of the notes or the trustee under the indenture that governs the notes, if the release of the guarantee of the Senior Credit Facilities by such guarantor is approved by the lenders under the Senior Credit Facilities or otherwise permitted under the Senior Credit Facilities. See Description of Notes Guarantees. The lenders under the Senior Credit Facilities have the discretion to release the guarantees of guarantors under the Senior Credit Facilities in all cases, and are obligated to release the guarantees of guarantors in a variety of circumstances. You will not have a claim as a creditor against any of our subsidiaries that is no longer a guarantor of the notes, and the indebtedness and other liabilities, including trade payables, whether secured or unsecured, of those subsidiaries are effectively senior to claims of noteholders.

***We may not be able to repurchase the notes upon a change of control.***

Upon the occurrence of specific kinds of change of control events, we will be required to offer to repurchase all outstanding notes at 101% of their principal amount, plus accrued and unpaid interest, if any, to (but not including) the applicable repurchase date. Additionally, under the Senior Credit Facilities, a change of control (as defined therein) will constitute an event of default that permits the lenders to accelerate the maturity of borrowings under the Senior Credit Facilities and terminate their commitments to lend. The source of funds for any purchase of the notes and repayment of borrowings under the Senior Credit Facilities would be our available cash or cash generated from our subsidiaries operations or other sources, including borrowings, sales of assets or sales of equity. We may not be able to repurchase the notes upon a change of control repurchase event because we may not have sufficient financial resources to purchase all of the debt securities that are tendered upon a change of control repurchase event and repay the other indebtedness that will become due. We may require additional financing from third parties to fund any such purchases, and we may be unable to obtain such financing on satisfactory terms or at all. Further, our ability to repurchase the notes may be limited by law. In order to avoid the obligations to repurchase the notes and events of default and potential breaches of the credit agreement that governs the Senior Credit Facilities, we may have to avoid certain change of control transactions that would otherwise be beneficial to us.

***Certain corporate events may not trigger a change of control, in which case we will not be required to repurchase the notes.***

The indenture that governs the notes permits us to engage in certain corporate events that would increase indebtedness or alter our business but would not constitute a change of control as defined in the indenture that governs the notes. As a result of the definition of change of control, certain extraordinary corporate events could take place without having the change of control provision of the notes apply.

In addition, if we effected a leveraged recapitalization or other transactions excluded from the definition of change of control that resulted in an increase in indebtedness, adversely affected our credit rating or fundamentally changed our

business, our ability to make payments on the notes would be adversely affected.

---

**Table of Contents**

However, we would not be required to offer to repurchase the notes, despite our decreased ability to meet our obligations under the notes. See [Description of Notes](#) [Change of Control](#).

***Holders of the notes may not be able to determine when a change of control giving rise to their right to have the notes repurchased has occurred following a sale of substantially all of our assets.***

The definition of [change of control](#) in the indenture that governs the notes includes a phrase relating to the sale of [all or substantially all](#) of our assets. Although there is a limited body of case law interpreting the phrase [substantially all](#), there is no precise established definition of the phrase under applicable law. Accordingly, in certain circumstances there may be a degree of uncertainty as to whether a particular transaction would involve a disposition of [substantially all](#) of our assets. As a result, it may be unclear as to whether a change of control has occurred and whether we are required to make an offer to repurchase the notes.

***Federal and state fraudulent transfer laws may permit a court to void the notes and/or the guarantees and, if that occurs, you may not receive any payments on the notes.***

Federal and state fraudulent transfer and conveyance statutes may apply to the issuance of the notes and the incurrence of the guarantees of the notes. Under federal bankruptcy law and comparable provisions of state fraudulent transfer or conveyance laws, which may vary from state to state, the notes or the guarantees thereof could be voided as a fraudulent transfer or conveyance if we or any of the guarantors, as applicable, (1) issued the notes or incurred the guarantees with the intent of hindering, delaying or defrauding creditors or (2) received less than reasonably equivalent value or fair consideration in return for either issuing the notes or incurring the guarantees and, in the case of (2) only, one of the following were also true at the time thereof:

we or any of the guarantors, as applicable, were insolvent or rendered insolvent by reason of the issuance of the notes or the incurrence of the guarantees;

the issuance of the notes or the incurrence of the guarantees left us or any of the guarantors, as applicable, with an unreasonably small amount of capital or assets to carry on the business, in which we or the guarantors, as applicable, are engaged; or

we or any of the guarantors intended to, or believed that we or such guarantor would, incur debts beyond our or such guarantor's ability to pay as they mature.

As a general matter, value is given for a transfer or an obligation if, in exchange for the transfer or obligation, property is transferred or a valid antecedent debt is secured or satisfied. A court would likely find that we or a guarantor, as applicable, did not receive reasonably equivalent value or fair consideration for our issuance of the notes or its guarantee to the extent that we or such guarantor did not obtain a reasonably equivalent benefit directly or indirectly from the issuance of the notes or the applicable guarantee. A debtor will generally not be considered to have received value in connection with a debt offering if the debtor uses the proceeds to make a dividend payment or otherwise retire or redeem equity interests of the debtor.

We cannot be certain as to the standards a court would use to determine whether or not we or the guarantors were insolvent at the relevant time or, regardless of the standard that a court uses, whether the notes or the guarantees would be subordinated to any of our or the guarantors' other debt. In general, however, a court would deem an entity

insolvent if:

the sum of its debts, including contingent liabilities, was greater than the present fair saleable value of all of its assets; or

the present fair saleable value of its assets was less than the amount that would be required to pay its probable liability on its existing debts, including contingent liabilities, as they become absolute and mature.

---

**Table of Contents**

If a court were to find that the issuance of the notes or the incurrence of a guarantee was a fraudulent transfer or conveyance, the court could void the payment obligations under the notes or that guarantee, could subordinate the notes or that guarantee to presently existing and future indebtedness of ours or of the related guarantor or could require the noteholders to repay any amounts received with respect to that guarantee. If the notes or a guarantee is voided as a fraudulent conveyance or found to be unenforceable for any other reason, you will not have a claim against that obligor and will only be a creditor of the issuer or any guarantor whose obligation was not set aside or found to be unenforceable. In addition, the guarantor's assets would be applied first to satisfy its other liabilities, before any portion of its assets might be available, directly or indirectly, to pay the notes. Sufficient funds to repay the notes may not be available from other sources, including the remaining guarantors, if any. Furthermore, the loss of a guarantee will constitute a default under the indenture that governs the notes and could result in the acceleration of the notes, if not otherwise accelerated due to our or our guarantor's insolvency or bankruptcy filing. In the event of a finding that a fraudulent transfer or conveyance occurred, you may not receive any repayment on the notes.

The indenture that governs the notes contains a "savings clause" intended to limit each subsidiary guarantor's liability under its guarantee to the maximum amount that it could incur without causing the guarantee to be a fraudulent transfer under applicable law. We cannot assure you that this provision will be upheld as intended.

Under the United States Bankruptcy Code, a bankruptcy court may subordinate claims in respect of the notes to other claims against us under the principle of equitable subordination if the court determines that (1) the holder of notes engaged in some type of inequitable conduct, (2) the inequitable conduct resulted in injury to the Issuer's other creditors or conferred an unfair advantage upon the holders of notes and (3) equitable subordination is not inconsistent with the provisions of the United States Bankruptcy Code.

***Your ability to transfer the notes may be limited by the absence of an active trading market, and an active trading market may not develop for the notes.***

The notes are a new issue of securities for which there is no established trading market. The initial purchasers of the notes have advised us that they intend to make a market in the notes, as permitted by applicable laws and regulations. However, the initial purchasers are not obligated to make a market in the notes and, if commenced, may discontinue their market-making activities at any time without notice. Therefore, an active market for the notes may not develop or be maintained, which would adversely affect the market price and liquidity of the notes. In that case, the noteholders may not be able to sell their notes at a particular time or at a favorable price, if at all.

Even if an active trading market for the notes does develop, there is no guarantee that it will continue. Historically, the market for non-investment grade debt has been subject to severe disruptions that have caused substantial volatility in the prices of securities similar to the notes. The market, if any, for the notes may experience similar disruptions, and any such disruptions may adversely affect the liquidity in that market or the prices at which you may sell your notes. In addition, subsequent to their initial issuance, the notes may trade at a discount from their initial offering price, depending upon prevailing interest rates, the market for similar notes, our performance and other factors. You should not purchase any of the notes unless you understand and know you can bear all of the investment risks involving the notes.

***A lowering or withdrawal of our credit ratings may increase our future borrowing costs and reduce our access to capital and may adversely affect the price of the notes.***

Our credit rating and any rating assigned to the notes, if any, could be lowered or withdrawn entirely by a rating agency if, in that rating agency's judgment, future circumstances relating to the basis of the rating, such as adverse changes, warrant. Consequently, real or anticipated changes in our credit ratings will generally affect the market value

of the notes. Credit ratings are not recommendations to purchase, hold or sell securities. Additionally, our credit ratings may not reflect the potential effect of risks relating to our business or the structure or marketing of the notes.

## **Table of Contents**

Any future lowering of our ratings likely would make it more difficult or more expensive for us to obtain additional debt financing. If any credit rating initially assigned to the notes is subsequently lowered or withdrawn for any reason, you may not be able to resell your notes without a substantial discount.

### ***We may choose to redeem the notes prior to maturity.***

We may redeem the notes, in whole or in part, at any time at the applicable redemption price set forth under Description of Notes Optional Redemption for the notes redeemed plus, in each case, accrued and unpaid interest to but excluding the redemption date. If prevailing interest rates are lower at the time of redemption, holders of the notes may not be able to reinvest the redemption proceeds in a comparable security at an interest rate as high as the interest rate of the notes being redeemed. Our redemption right may also adversely affect holders' ability to sell their notes.

### ***Most of the covenants in the indenture that governs the notes do not apply during any period in which the notes are rated investment grade by both Moody's and S&P.***

Most of the covenants in the indenture that governs the notes does not apply to us during any period in which the notes are rated investment grade by both Moody's and S&P, as long as at such time no default has occurred and is continuing. These covenants restrict, among other things, our ability to pay distributions, incur debt and enter into certain other transactions. We cannot assure you that the notes will maintain investment grade these ratings. However, to the extent the notes are rated investment grade and these covenants are therefore suspended, we would then be allowed to engage in certain transactions that would not be permitted while these covenants were in force. To the extent the covenants are subsequently reinstated, any such actions taken while the covenants were suspended would not result in an event of default under the indenture that governs the notes. See Description of Notes Certain Covenants.

### ***The restrictive covenants in the credit agreement that governs the Senior Credit Facilities and the indenture that governs the notes are subject to a number of qualifications, exceptions and limitations, and are subject to amendment.***

The restrictive covenants in the credit agreement that governs the Senior Credit Facilities and the indenture that governs the notes only applies to our restricted subsidiaries and is subject to a number of other important qualifications, exceptions and limitations. This means that the restrictions are not absolute prohibitions. We and our restricted subsidiaries may be able to engage in some of the restricted activities, such as incurring additional debt, securing assets in priority to the claims of the holders of the notes, paying dividends, making investments, selling assets and entering into mergers or other business combinations, in limited amounts, or in certain circumstances, in unlimited amounts, notwithstanding the restrictive covenants. Our unrestricted subsidiaries are permitted to engage in such activities without limitations under these agreements. These actions could be detrimental to our ability to make payments of principal and interest when due and to comply with our other obligations under the notes or the Senior Credit Facilities, and could reduce the amount of our assets that would be available to satisfy such claims should we default on the notes or the Senior Credit Facilities.

In addition, the restrictive covenants in the indenture that governs the notes generally can be amended with the consent of holders of a majority of the notes, and the restrictive covenants in the credit agreement that governs the Senior Credit Facilities generally can be amended or waived without the consent of the holders of the notes and the lenders under the Senior Credit Facilities may have interests that are opposed to the interests of the holders of the notes.

**USE OF PROCEEDS**

The exchange offer is intended to satisfy our obligations under the registration rights agreement that we entered into in connection with the private offering of the outstanding unregistered notes. We will not receive any cash proceeds from the issuance of the exchange notes in the exchange offer. As consideration for issuing the exchange notes as contemplated by this prospectus, we will receive in exchange a like principal amount of outstanding unregistered notes, the terms of which are substantially identical to the terms of the exchange notes, except that the exchange notes will not contain terms with respect to additional interest for failure to fulfill certain of our obligations under the registration rights agreement and transfer restrictions. The outstanding unregistered notes that are surrendered in exchange for the exchange notes will be retired and cancelled and cannot be reissued. As a result, the issuance of the exchange notes will not result in any change to our capitalization.

**DESCRIPTION OF OTHER INDEBTEDNESS**

*We summarize below the principal terms of the Senior Credit Facilities. This summary is not a complete description of all of the terms of the Senior Credit Facilities.*

**Senior Credit Facilities**

On January 31, 2018, we entered into a senior secured credit facility (the **Senior Credit Facilities**), consisting of:

a term loan in an initial principal amount of \$1,800 million with a seven-year maturity (the **Term Loans**); and

a \$350 million revolving credit facility with a five-year maturity, of which \$175 million is available for the issuance of letters of credit from time to time (the **Revolving Credit Facility**) with approximately \$3.4 million in rollover or replacement letters of credit initially outstanding (including those assumed from Time).

The credit agreement that governs the Senior Credit Facilities (the **Credit Agreement**) initially permits us to incur incremental senior secured term loan borrowings, and incremental senior secured revolving credit facilities, subject to the satisfaction of certain conditions, in an aggregate principal amount not to exceed the sum of (x) \$700 million plus (y) additional amounts so long as, on a *pro forma* basis at the time of incurrence, our consolidated secured net leverage ratio does not exceed 2.00 to 1.00.

All obligations under the Senior Credit Facilities, any interest rate protection or other hedging arrangement entered into with a lender, agent, arranger or affiliate thereof and certain cash management arrangements entered into with a lender, agent, arranger or affiliate thereof is unconditionally guaranteed by our material direct and indirect wholly owned domestic subsidiaries, subject to certain exceptions. All obligations under the Senior Credit Facilities, any interest rate protection or other hedging arrangements entered into with any lender, agent, arranger or affiliate thereof, certain cash management arrangements entered into with a lender, agent, arranger or affiliate thereof and the guarantees of those obligations, is secured, subject to certain permitted liens and other agreed upon exceptions, on a senior basis by a perfected security interest in all of the Issuer's and each guarantor's existing or after-acquired personal property, including all of the capital stock directly held by the Issuer or any guarantor (limited, in the case of first-tier foreign subsidiaries of the Issuer or any subsidiary of the Issuer that is a guarantor, to 100% of the non-voting equity interests (if any) and 65% of the voting equity interests of such subsidiaries).

The Term Loans originally amortized at 1% per annum in equal quarterly installments until the final maturity date. All then outstanding principal and interest under the Term Loans will be due and payable seven years from the closing date of the Senior Credit Facilities. All then outstanding principal and interest under the Revolving Credit Facility are due and payable, and all commitments under the Revolving Credit Facility will terminate five years from the closing date of the Senior Credit Facilities. Term Loans that are repaid or prepaid may not be reborrowed, and amounts prepaid under the Revolving Credit Facility may be reborrowed.

We are permitted to prepay amounts outstanding under the Senior Credit Facilities at any time without payment of a premium, except that with respect to the Term Loans, a 1% premium will apply to a repayment of the Term Loans in connection with a repricing of such loans effected on or prior to the date that is six months following October 26, 2018. We are required to prepay certain amounts outstanding under the Term Loans with a certain percentage of

excess cash flow, the net cash proceeds of certain asset sales, certain casualty events, and certain issuances of debt, in each case subject to certain exceptions.

In October 2018, we repriced the Term Loans. The original interest rate was based on LIBOR plus a spread of 3.0 percent. The new interest rate under the term loan is based on LIBOR plus a spread of 2.75 percent as of the

**Table of Contents**

repricing date until maturity. In addition, when our leverage ratio drops below 2.25 to 1.00, the spread will decrease to 2.50 percent. We are also required to pay a quarterly commitment fee under the Revolving Credit Facility based on the average daily unused portion of the commitments during the applicable quarter, which fee decreases if our total net leverage ratio is less than certain levels, as well as a fee which accrues at a rate per annum equal to the applicable margin under the Revolving Credit Facility on the daily maximum amount available to be drawn under outstanding letters of credit under our Revolving Credit Facility, payable in arrears at the end of each quarter. In addition, we are required to pay a fronting fee in respect of letters of credit issued under our Revolving Credit Facility at a rate of 0.125% per annum of the daily maximum amount available to be drawn under issued letters of credit, payable in arrears at the end of each quarter. The Revolving Credit Facility will permit multicurrency letters of credit, that may need to be cash collateralized if they exceed their limits as a result of currency fluctuations.

The Senior Credit Facilities contain certain customary affirmative and negative covenants, including, among other things, restrictions on indebtedness, investments, sales of assets, mergers and consolidations, prepayments of junior lien, unsecured and subordinated indebtedness, liens and dividends and other distributions, and customary events of default. With respect to the Revolving Credit Facility only, we are required to maintain a total net leverage ratio of 4.25 to 1.00, as tested at the end of each fiscal quarter in which the aggregate amount of all loans outstanding under the Revolving Credit Facility (including swingline loans), and letters of credit (other than letters of credit that have been cash collateralized or otherwise backstopped) exceeds 30% of commitments under the Revolving Credit Facility.

**THE EXCHANGE OFFER**

**General**

The Issuer hereby offers to exchange a like principal amount of exchange notes for any or all outstanding unregistered notes on the terms and subject to the conditions set forth in this prospectus and accompanying letter of transmittal. We refer to the offer as the exchange offer. You may tender some or all of your outstanding unregistered notes pursuant to the exchange offer.

As of the date of this prospectus, \$1,272,940,000 aggregate principal amount of 6.875% Senior Notes due 2026 that were issued in a private offering on January 31, 2018 are outstanding. This prospectus, together with the letter of transmittal, is first being sent to all holders of outstanding unregistered notes known to us on or about January 28, 2019. The Issuer's obligation to accept outstanding unregistered notes for exchange pursuant to the exchange offer is subject to certain conditions set forth under Conditions to the Exchange Offer below. The Issuer currently expects that each of the conditions will be satisfied and that no waivers will be necessary.

**Purpose and Effect of the Exchange Offer**

We issued the outstanding unregistered notes on January 31, 2018 in transactions exempt from registration under the Securities Act. In connection with this issuance, we entered into a registration rights agreement with the initial purchasers of the outstanding unregistered notes pursuant to which we agreed to file a registration statement relating to an offer to exchange the outstanding unregistered notes for exchange notes. We also agreed to use commercially reasonable efforts to cause this registration statement to be declared effective within 360 days after the issue date of the outstanding unregistered notes (or if such 360th day is not a business day, the next succeeding business day) and upon effectiveness of this registration statement, to commence the exchange offer. We also agreed to use commercially reasonable efforts to issue the exchange notes within 30 business days after the effective date of this registration statement. The exchange notes will have terms substantially identical to the terms of the outstanding unregistered notes, except that the exchange notes will not contain terms with respect to additional interest for failure to fulfill certain of our obligations under the registration rights agreement and transfer restrictions. The outstanding unregistered notes were issued on January 31, 2018.

Under the circumstances set forth below, we will use our commercially reasonable efforts to, as promptly and as reasonably practicable, file with the SEC a shelf registration statement with respect to the resale of the outstanding unregistered notes within the time period specified in the registration rights agreement and to keep the shelf registration statement continuously effective until the earlier of (i) the date upon which all the notes covered by the shelf registration statement have been sold pursuant to the shelf registration statement or (ii) one year from the effective date of the shelf registration statement. These circumstances include if:

(1) the Issuer and the guarantors are not:

(A) required to file the exchange offer registration statement; or

(B) permitted to consummate the exchange offer because the registered exchange offer is not permitted by applicable law or SEC policy; or

(2) any holder of registrable securities notifies the Issuer prior to the 20th business day following consummation of the registered exchange offer that:

- (A) it is prohibited by law or SEC policy from participating in the registered exchange offer;
- (B) it may not resell the exchange notes acquired by it in the registered exchange offer to the public without delivering a prospectus and the prospectus contained in this registration statement is not appropriate or available for such resales;  
or
- (C) it is a broker-dealer and owns notes acquired directly from the Issuer or an affiliate of the Issuer.

**Table of Contents**

If we fail to comply with certain obligations under the registration rights agreement, we will be required to pay additional interest to holders of the outstanding unregistered notes required to be registered on a shelf registration statement.

Each holder of outstanding unregistered notes that wishes to exchange its outstanding unregistered notes for exchange notes in the exchange offer will be required to make the following written representations:

any exchange notes to be received by such holder will be acquired in the ordinary course of its business;

such holder has no arrangement or understanding with any person to participate in the distribution (within the meaning of the Securities Act) of the exchange notes in violation of the provisions of the Securities Act or SEC policy;

such holder is not an affiliate of the Issuer or any guarantor within the meaning of Rule 405 under the Securities Act or, if it is an affiliate, such holder will comply with the registration and prospectus delivery requirements of the Securities Act to the extent applicable;

if such holder is not a broker-dealer, it is not engaged in, and does not intend to engage in, a distribution of the exchange notes;

if such holder is a broker-dealer that will receive exchange notes for its own account in exchange for outstanding unregistered notes that were acquired as a result of market-making or other trading activities, it will deliver a prospectus that meets the requirements of the Securities Act in connection with any resale of such exchange notes; and

such holder has the full power and authority to transfer the unregistered notes in exchange for the exchange notes and that the Issuer will acquire good and unencumbered title thereto free and clear of any liens, restrictions, charges or encumbrances and not subject to any adverse claims.

Please see Plan of Distribution.

**Resale of Exchange Notes**

Based on interpretations by the staff of the SEC as set forth in no-action letters issued to third parties referred to below, we believe that you may resell or otherwise transfer exchange notes issued in the exchange offer without complying with the registration and prospectus delivery provisions of the Securities Act, if:

you are acquiring the exchange notes in your ordinary course of business;

you do not have an arrangement or understanding with any person to participate in a distribution of the exchange notes;

you are not an affiliate of any Issuer as defined by Rule 405 of the Securities Act; and

you are not engaged in, and do not intend to engage in, a distribution of the exchange notes.

We have not entered into any arrangement or understanding with any person who will receive exchange notes in the exchange offer to distribute such securities following completion of the exchange offer. We are not aware of any person that will participate in the exchange offer with a view to distribute the exchange notes. If you are an affiliate of any Issuer, or are engaging in, or intend to engage in, or have any arrangement or understanding with any person to participate in, a distribution of the exchange notes, or are not acquiring the exchange notes in the ordinary course of your business, then:

you cannot rely on the position of the staff of the SEC enunciated in *Morgan Stanley & Co., Inc.* (available June 5, 1991) and *Exxon Capital Holdings Corporation* (available May 13, 1988), as interpreted in the SEC's letter to *Shearman & Sterling* dated July 2, 1993, or similar no-action letters; and

## **Table of Contents**

in the absence of an exception to the position stated immediately above, you must comply with the registration and prospectus delivery requirements of the Securities Act in connection with any resale of the exchange notes.

This prospectus may be used for an offer to resell, for the resale or for other retransfer of exchange notes only as specifically set forth in this prospectus. With regard to broker dealers, only broker dealers that acquired the outstanding unregistered notes as a result of market making activities or other trading activities may participate in the exchange offer. Each broker-dealer that receives exchange notes for its own account in exchange for unregistered notes, where such notes were acquired by such broker-dealer as a result of market-making activities or other trading activities, must acknowledge that it shall deliver a prospectus in connection with any resale of such exchange notes. Please read [Plan of Distribution](#) for more details regarding the transfer of exchange notes.

## **Terms of the Exchange Offer**

On the terms and subject to the conditions set forth in this prospectus and in the accompanying letter of transmittal, we will accept for exchange in the exchange offer outstanding unregistered notes that are validly tendered and not validly withdrawn prior to the expiration date. Outstanding unregistered notes may only be tendered in denominations of \$2,000 and integral multiples of \$1,000 in excess of \$2,000. We will issue \$2,000 principal amount or an integral multiple of \$1,000 of exchange notes in exchange for a corresponding principal amount of outstanding unregistered notes surrendered in the exchange offer.

The terms of the exchange notes will be substantially identical to the terms of the outstanding unregistered notes, except that the exchange notes will not contain terms with respect to additional interest for failure to fulfill certain of our obligations under the registration rights agreement and transfer restrictions. The exchange notes will evidence the same debt as the outstanding unregistered notes. The exchange notes will be issued under and entitled to the benefits of the same indenture under which the outstanding unregistered notes were issued. The exchange notes and the outstanding unregistered notes will constitute a single class for all purposes under the indenture governing the notes. For a description of the indenture governing the notes, please see [Description of Notes](#).

On the terms and subject to the conditions set forth in this prospectus and the accompanying letter of transmittal, the guarantors of the outstanding unregistered notes offer to issue new guarantees with respect to all exchange notes issued in the exchange offer. Throughout this prospectus, unless the context otherwise requires and whether so expressed or not, references to the [exchange offer](#) include the guarantors' offer to exchange the new guarantees for the old guarantees, references to the [exchange notes](#) include the related new guarantees and references to the [outstanding unregistered notes](#) include the related old guarantees.

The exchange offer is not conditioned upon any minimum aggregate principal amount of outstanding unregistered notes being tendered for exchange.

As of the date of this prospectus, \$1,272,940,000 aggregate principal amount of notes that were issued in a private offering on January 31, 2018 are outstanding and unregistered. This prospectus and a letter of transmittal are being sent to all registered holders of outstanding unregistered notes. There will be no fixed record date for determining registered holders of outstanding unregistered notes entitled to participate in the exchange offer.

We intend to conduct the exchange offer in accordance with the provisions of the registration rights agreement, the applicable requirements of the Securities Act and the Exchange Act, and the rules and regulations of the SEC. Outstanding unregistered notes that are not tendered for exchange in the exchange offer will remain outstanding and continue to accrue interest and will be entitled to the rights and benefits that such holders have under the indenture, except for any rights under the registration rights agreement that by their terms terminate upon the consummation of

the exchange offer.

## **Table of Contents**

We will be deemed to have accepted for exchange properly tendered outstanding unregistered notes when we have given oral (promptly confirmed in writing) or written notice of the acceptance of tenders to the exchange agent. The exchange agent will act as agent for the tendering holders for the purposes of receiving the exchange notes from us and delivering exchange notes to holders. Subject to the terms of the registration rights agreement, we expressly reserve the right to amend or terminate the exchange offer and to refuse to accept notes due to the failure of any of the conditions specified below under **Conditions to the Exchange Offer**.

Holders who tender outstanding unregistered notes in the exchange offer will not be required to pay brokerage commissions or fees or, subject to the instructions in the letter of transmittal, transfer taxes with respect to the exchange of outstanding unregistered notes. We will pay all charges and expenses, other than certain applicable taxes described below, in connection with the exchange offer. It is important that you read **Fees and Expenses** below for more details regarding fees and expenses incurred in the exchange offer.

## **Expiration Date, Extensions and Amendments**

As used in this prospectus, the term **expiration date** means 5:00 p.m., New York City time, on February 28, 2019. However, if we, in our sole discretion, extend the period of time for which the exchange offer is open, the term **expiration date** will mean the latest time and date to which we shall have extended the expiration of the exchange offer.

To extend the period of time during which the exchange offer is open, we will notify the exchange agent of any extension in writing, followed by notification to the registered holders of the outstanding unregistered notes, no later than 9:00 a.m., New York City time, on the business day after the previously scheduled expiration date.

We reserve the right, in our sole discretion:

to delay accepting for exchange any outstanding unregistered notes (only if we amend or extend the exchange offer);

to extend the exchange offer or to terminate the exchange offer and to refuse to accept outstanding unregistered notes not previously accepted if any of the conditions set forth below under **Conditions to the Exchange Offer** has not been satisfied, by giving oral (promptly confirmed in writing) or written notice of such delay, extension or termination to the exchange agent; and

subject to the terms of the registration rights agreement, to amend the terms of the exchange offer in any manner.

Any delay in acceptance, extension, termination or amendment will be followed as promptly as practicable by written notice to the registered holders of the outstanding unregistered notes. If we amend the exchange offer in a manner that we determine to constitute a material change, including the waiver of a material condition, we will promptly disclose the amendment by press release or other public announcement as required by Rule 14e-1(d) of the Exchange Act and will extend the offer period if necessary so that at least five business days remain in the offer following notice of the material change.

## **Conditions to the Exchange Offer**

Despite any other term of the exchange offer, we will not be required to accept for exchange, or to issue exchange notes in exchange for, any outstanding unregistered notes, and we may terminate or amend the exchange offer as provided in this prospectus before accepting any outstanding unregistered notes for exchange, if:

the exchange offer, or the making of any exchange by a holder of outstanding unregistered notes, violates any applicable law or interpretation of the staff of the SEC;

## **Table of Contents**

any action or proceeding shall have been instituted or threatened in any court or by any governmental agency that might materially impair our ability to proceed with the exchange offer, or any material adverse development shall have occurred in any existing action or proceeding with respect to us; or

all governmental approvals shall not have been obtained, which approvals we deem necessary for the consummation of the exchange offer.

In addition, we will not be obligated to accept for exchange the outstanding unregistered notes of any holder that has not made to us:

the representations described under Purpose and Effect of the Exchange Offer and Procedures for Tendering Outstanding Unregistered Notes ; and

any other representations as may be reasonably necessary under applicable SEC rules, regulations, or interpretations to make available to us an appropriate form for registration of the exchange notes under the Securities Act.

We expressly reserve the right at any time or at various times to extend the period of time during which the exchange offer is open. Consequently, we may delay acceptance of any outstanding unregistered notes by notice, by press release or other public announcement as required by Rule 14e-1(d) of the Exchange Act of such extension to their holders. During any such extensions, all outstanding unregistered notes previously tendered will remain subject to the exchange offer, and we may accept them for exchange. We will return any outstanding unregistered notes that we do not accept for exchange for any reason without expense to their tendering holder promptly after the expiration or termination of the exchange offer.

We expressly reserve the right to amend or terminate the exchange offer and to reject for exchange any outstanding unregistered notes not previously accepted for exchange upon the occurrence of any of the conditions to the exchange offer specified above. We will give notice by press release or other public announcement as required by Rule 14e-1(d) of the Act of any extension, amendment, non-acceptance or termination to the holders of the outstanding unregistered notes. In the case of any extension, such notice will be issued no later than 9:00 a.m., New York City time, on the business day after the previously scheduled expiration date.

These conditions are for our sole benefit, and we may assert them regardless of the circumstances that may give rise to them so long as such circumstances do not arise due to our action or inaction or waive them in whole or in part at any or at various times in our sole discretion. If we fail at any time to exercise any of the foregoing rights, this failure will not constitute a waiver of such right. Each such right will be deemed an ongoing right that we may assert at any time or at various times.

## **Approvals**

Other than the registration of the notes under the Securities Act and the qualification of the Trustee and the indenture governing the notes under the Trust Indenture Act, there are no federal or state regulatory requirements that must be complied with prior to the commencement of the exchange offer.

## **Procedures for Tendering Outstanding Unregistered Notes**

Only a holder of outstanding unregistered notes may tender its outstanding unregistered notes in the exchange offer. To tender outstanding unregistered notes in the exchange offer, a holder must comply with either of the following:

complete, sign and date the letter of transmittal or a facsimile of the letter of transmittal, have the signature on the letter of transmittal guaranteed if required by the letter of transmittal and mail or deliver such letter of transmittal or facsimile to the exchange agent prior to the expiration date; or

the holder must comply with the guaranteed delivery procedures described below.

To be tendered effectively, the exchange agent must receive any physical delivery of the letter of transmittal and other required documents at the address set forth below under Exchange Agent prior to the expiration date.

A tender to us that is not withdrawn prior to the expiration date constitutes an agreement between us and the tendering holder upon the terms and subject to the conditions described in this prospectus and in the letter of transmittal.

The method of delivery of outstanding unregistered notes, letter of transmittal and all other required documents to the exchange agent is at the holder's election and risk. Rather than mail these items, we recommend that holders use an overnight or hand delivery service. In all cases, holders should allow sufficient time to assure timely delivery to the exchange agent before the expiration date. Holders should not send letters of transmittal or certificates representing outstanding unregistered notes to us. Holders may request that their respective brokers, dealers, commercial banks, trust companies or other nominees effect the above transactions for them.

If you are a beneficial owner whose outstanding unregistered notes are held in the name of a broker, dealer, commercial bank, trust company, or other nominee who wishes to participate in the exchange offer, you should promptly contact such party and instruct such person to tender outstanding unregistered notes on your behalf. If you are a beneficial owner and you wish to tender your outstanding unregistered notes on your own behalf, you must, prior to completing and executing the letter of transmittal and delivering your outstanding unregistered notes, either make appropriate arrangements to register ownership of the outstanding unregistered notes in your own name or obtain a properly completed bond power from the registered holder. The transfer of registered ownership may take considerable time.

You must make these arrangements or follow these procedures before completing and executing the letter of transmittal and delivering the outstanding unregistered notes.

Signatures on the letter of transmittal or a notice of withdrawal, as the case may be, must be guaranteed by an eligible institution (as defined below) unless the outstanding unregistered notes surrendered for exchange are being or were tendered:

by a registered holder of the outstanding unregistered notes who has not completed the box entitled Special Registration Instructions or Special Delivery Instructions on the letter of transmittal; or

for the account of an eligible institution.

In the event that signatures on a letter of transmittal or a notice of withdrawal, as the case may be, are required to be guaranteed, such guarantee must be by a financial institution (including most banks, savings and loan associations and brokerage houses) that is a participant in the Securities Transfer Agents Medallion Program, the New York Stock Exchange Medallion Signature Program or the Stock Exchanges Medallion Program (each such entity, an eligible institution ).

If the applicable letter of transmittal is signed by a person other than the registered holder of any outstanding unregistered notes listed on the outstanding unregistered notes, such outstanding unregistered notes must be endorsed or accompanied by a properly completed bond power. The bond power must be signed by the registered holder as the registered holder's name appears on the outstanding unregistered notes, and an eligible institution must guarantee the signature on the bond power.

## **Table of Contents**

If the applicable letter of transmittal or any certificates representing outstanding unregistered notes or bond powers are signed by trustees, executors, administrators, guardians, attorneys-in-fact, officers of corporations, or others acting in a fiduciary or representative capacity, those persons should also so indicate when signing and, unless waived by us, they should also submit evidence satisfactory to us of their authority to so act.

Any financial institution that is a participant in DTC's system may, instead of physically completing and signing the letter of transmittal and delivering it to the exchange agent, electronically transmit their tender of outstanding unregistered notes in the exchange offer by causing DTC to transfer their outstanding unregistered notes into the exchange agent's DTC account in accordance with DTC's electronic ATOP procedures for such transfer, as set forth below under the caption "Book-Entry Delivery Procedures".

## **Acceptance of Exchange Notes**

In all cases, we will promptly issue exchange notes for outstanding unregistered notes that we have accepted for exchange under the applicable exchange offer only after the exchange agent timely receives:

outstanding unregistered notes or a timely book-entry confirmation of such outstanding unregistered notes into the exchange agent's account at the applicable book-entry transfer facility; and

a properly completed and duly executed letter of transmittal and all other required documents or a properly transmitted agent's message.

By tendering outstanding unregistered notes pursuant to the exchange offer, you will represent to us that, among other things:

any exchange notes to be received by you will be acquired in the ordinary course of your business;

at the time of the commencement of the exchange offer, you do not have an arrangement or understanding with any person to participate in a distribution of the exchange notes;

you are not an affiliate of the Issuer within the meaning of Rule 405 under the Securities Act or, if you are an affiliate, you will comply with the registration and prospectus delivery requirements of the Securities Act to the extent applicable;

if you are not a broker-dealer, you are not engaged in, and do not intend to engage in, a distribution of the exchange notes; and

if you are a broker-dealer that will receive exchange notes for your own account in exchange for outstanding unregistered notes that were acquired as a result of market-making or other trading activities, you will deliver a prospectus that meets the requirements of the Securities Act in connection with any resale or other

transfer of such exchange notes.

The applicable letter of transmittal states that by so acknowledging and by delivering a prospectus, a broker dealer will not be deemed to admit that it is an underwriter within the meaning of the Securities Act. See Plan of Distribution.

We will interpret the terms and conditions of the exchange offer, including the letters of transmittal and the instructions to the letters of transmittal, and will resolve all questions as to the validity, form, eligibility, including time of receipt, and acceptance of outstanding unregistered notes tendered for exchange. Our determinations in this regard will be final and binding on all parties. We reserve the absolute right to reject any and all tenders of any particular outstanding unregistered notes not properly tendered or to not accept any particular outstanding unregistered notes if the acceptance might, in our or our counsel's judgment, be unlawful. We also reserve the absolute right to waive any defects or irregularities as to any tender of any particular outstanding unregistered notes prior to the expiration date.

---

## **Table of Contents**

Unless waived, any defects or irregularities in connection with tenders of outstanding unregistered notes for exchange must be cured within such reasonable period of time as we determine. Neither we, the exchange agent, nor any other person will be under any duty to give notification of any defect or irregularity with respect to any tender of outstanding unregistered notes for exchange, nor will any of them incur any liability for any failure to give notification. Any outstanding unregistered notes received by the exchange agent that are not properly tendered and as to which the irregularities have not been cured or waived will be returned by the exchange agent to the tendering holder, unless otherwise provided in the applicable letter of transmittal, promptly after the expiration date.

### **Book-Entry Delivery Procedures**

Promptly after the date of this prospectus, the exchange agent will establish an account with respect to the outstanding unregistered notes at DTC as the book-entry transfer facility, for purposes of the exchange offer. Any financial institution that is a participant in DTC's system may make book-entry delivery of the outstanding unregistered notes by causing DTC to transfer those outstanding unregistered notes into the exchange agent's account at DTC in accordance with DTC's ATOP procedures for such transfer. To be timely, book-entry delivery of outstanding unregistered notes requires receipt of a confirmation of a book-entry transfer, a book-entry confirmation, prior to the expiration date. In addition, although delivery of outstanding unregistered notes may be effected through book-entry transfer into the exchange agent's account at DTC, the applicable letter of transmittal or a manually signed facsimile thereof, together with any required signature guarantees and any other required documents, or an agent's message, as defined below, in connection with a book-entry transfer, must, in any case, be delivered or transmitted to and received by the exchange agent at its address set forth below under the caption Exchange Agent prior to the expiration date to receive exchange notes for tendered outstanding unregistered notes, or the guaranteed delivery procedure described below must be complied with. The term agent's message means a message transmitted by DTC, received by the exchange agent and forming part of the book-entry confirmation of the electronic tender, that states that DTC has received an express acknowledgment from a participant in its ATOP that is tendering outstanding unregistered notes that are the subject of the book-entry confirmation that:

the participant has received and agrees to be bound by the terms of the letter of transmittal or, in the case of an agent's message relating to guaranteed delivery, such participant has received and agrees to be bound by the applicable notice of guaranteed delivery; and

we may enforce that agreement against such participant.

Tender will not be deemed made until such documents or an agent's message are received by the exchange agent. Delivery of documents to DTC does not constitute delivery to the exchange agent.

### **Guaranteed Delivery Procedures**

If you wish to tender your outstanding unregistered notes but your outstanding unregistered notes are not immediately available or you cannot deliver your outstanding unregistered notes to the exchange agent or comply with the applicable procedures under DTC's ATOP prior to the expiration date, you may still tender if:

the tender is made through an eligible institution ;

prior to the expiration date, the exchange agent receives from such eligible institution either: (i) a properly completed and duly executed letter of transmittal, or facsimile thereof, and notice of guaranteed delivery, by facsimile transmission, mail or hand delivery or (ii) a properly transmitted agent's message and notice of guaranteed delivery that (a) sets forth your name and address, the certificate number(s) of such outstanding unregistered notes and the principal amount of outstanding unregistered notes tendered; (b) states that the tender is being made by that notice of guaranteed delivery; and (c) guarantees that, within three New York Stock Exchange trading days after the expiration date, the outstanding unregistered notes or a book-entry confirmation, and any other

## **Table of Contents**

documents required by the letter of transmittal, will be deposited by the eligible institution with the exchange agent; and

the exchange agent receives the certificate(s) representing all tendered outstanding unregistered notes in proper form for transfer or a book-entry confirmation of transfer of the outstanding unregistered notes into the exchange agent's account at DTC, and all other documents required by the letter of transmittal within three New York Stock Exchange trading days after the expiration date.

Upon request, the exchange agent will send to you a notice of guaranteed delivery if you did not receive one and you wish to tender your notes according to the guaranteed delivery procedures.

## **Withdrawal Rights**

Except as otherwise provided in this prospectus, you may withdraw your tender of outstanding unregistered notes at any time prior to 5:00 p.m., New York City time, on the expiration date. For a withdrawal to be effective:

the exchange agent must receive a written notice, which may be by telegram, telex, facsimile or letter, of withdrawal; or

you must comply with the appropriate procedures of DTC's ATOP system;

Any notice of withdrawal must:

specify the name of the person who tendered the outstanding unregistered notes to be withdrawn;

identify the outstanding unregistered notes to be withdrawn, including the certificate numbers and principal amount of the outstanding unregistered notes to be withdrawn; and

where certificates for outstanding unregistered notes have been transmitted, specify the name in which such outstanding unregistered notes were registered, if different from that of the withdrawing holder.

If certificates for outstanding unregistered notes have been delivered or otherwise identified to the exchange agent, then, prior to the release of such certificates, you must also submit:

the serial numbers of the particular certificates to be withdrawn; and

a signed notice of withdrawal with signatures guaranteed by an eligible institution unless you are an eligible institution.

If outstanding unregistered notes have been tendered pursuant to the procedures for book-entry transfer described above, any notice of withdrawal must specify the name and number of the account at the applicable book-entry

transfer facility to be credited with the withdrawn outstanding unregistered notes and otherwise comply with the procedures of the facility. We will determine all questions as to the validity, form and eligibility, including time of receipt of notices of withdrawal, and our determination will be final and binding on all parties. Any outstanding unregistered notes so withdrawn will be deemed not to have been validly tendered for exchange for purposes of the exchange offer. Any outstanding unregistered notes that have been tendered for exchange but that are not exchanged for any reason will be returned to their holder, without cost to the holder, or, in the case of book-entry transfer, the outstanding unregistered notes will be credited to an account at the applicable book-entry transfer facility, promptly after withdrawal, rejection of tender or termination of the applicable exchange offer. Properly withdrawn outstanding unregistered notes may be retendered by following the procedures described under Procedures for Tendering Outstanding Unregistered Notes above at any time on or prior to the expiration date.

**If you deliver the letter of transmittal to an address other than the one set forth above or transmit instructions via facsimile other than the one set forth above, that delivery or those instructions will not be effective.**

**Fees and Expenses**

The registration rights agreement provides that we will bear all expenses in connection with the performance of our obligations relating to the registration of the exchange notes and the conduct of the exchange offer. These expenses include registration and filing fees, accounting and legal fees and printing costs, among others. We will pay the exchange agent's fees for its services and its out-of-pocket expenses (including attorney fees). We will also reimburse brokerage houses and other custodians, nominees and fiduciaries for customary mailing and handling expenses incurred by them in forwarding this prospectus and related documents to their clients that are holders of outstanding unregistered notes and for handling or tendering for such clients.

We have not retained any dealer manager in connection with the exchange offer and will not pay any fee or commission to any broker, dealer, nominee or other person, other than the exchange agent, for soliciting tenders of outstanding unregistered notes pursuant to the exchange offer.

**Accounting Treatment**

We will record the exchange notes in our accounting records at the same carrying value as the outstanding unregistered notes, which is the aggregate principal amount as reflected in our accounting records on the date of exchange. Accordingly, we will not recognize any gain or loss for accounting purposes upon the consummation of the exchange offer. We will record the expenses of the exchange offer as incurred.

**Transfer Taxes**

We will pay all transfer taxes, if any, applicable to the exchanges of outstanding unregistered notes under the exchange offer. The tendering holder, however, will be required to pay any transfer taxes, whether imposed on the registered holder or any other person, if:

certificates representing outstanding unregistered notes for principal amounts not tendered or accepted for exchange are to be delivered to, or are to be issued in the name of, any person other than the registered holder of outstanding unregistered notes tendered;

tendered outstanding unregistered notes are registered in the name of any person other than the person signing the letter of transmittal; or

## **Table of Contents**

a transfer tax is imposed for any reason other than the exchange of outstanding unregistered notes under the exchange offer.

If satisfactory evidence of payment of such taxes is not submitted with the letter of transmittal, the amount of such transfer taxes will be billed to that tendering holder.

Holders who tender their outstanding unregistered notes for exchange will not be required to pay any transfer taxes. However, holders who instruct us to register exchange notes in the name of, or request that outstanding unregistered notes not tendered or not accepted in the exchange offer be returned to, a person other than the registered tendering holder will be required to pay any applicable transfer tax.

## **Consequences of Failure to Exchange**

If you do not exchange your outstanding unregistered notes for exchange notes pursuant to the exchange offer, your outstanding unregistered notes will remain subject to the restrictions on transfer of such outstanding unregistered notes as set forth in the legend printed on the outstanding unregistered notes as a consequence of the issuance of the outstanding unregistered notes pursuant to the exemptions from, or in transactions not subject to, the registration requirements of the Securities Act.

In general, you may not offer or sell your outstanding unregistered notes unless they are registered under the Securities Act or if the offer or sale is exempt from registration under the Securities Act. Except as required by the registration rights agreement, we do not intend to register resales of the outstanding unregistered notes under the Securities Act.

## **Other**

Participating in the exchange offer is voluntary, and you should carefully consider whether to accept. You are urged to consult your financial and tax advisors in making your own decision on what action to take.

We may in the future seek to acquire untendered outstanding unregistered notes in open market or privately negotiated transactions, through a subsequent exchange offer or otherwise. We have no present plans to acquire any outstanding unregistered notes that are not tendered in the exchange offer or to file a registration statement to permit resales of any untendered outstanding unregistered notes.

**DESCRIPTION OF NOTES**

**General**

In this Description of Notes, (1) the term *Issuer* refers only to Meredith Corporation and (2) the terms *we*, *us* and *our* each refer collectively to the Issuer and its Subsidiaries.

The Issuer issued \$1,400.0 million aggregate principal amount of 6.875% Senior Notes due 2026 (the *Notes*) and will issue the Exchange Notes under an indenture dated as of the Issue Date (the *Indenture*) among the Issuer, the Guarantors and U.S. Bank National Association, a national banking association organized and existing under the laws of the United States of America (the *Trustee*). Any outstanding unregistered notes that remain outstanding after completion of the exchange offer, together with the Exchange Notes issued in such exchange offer, will be treated as a single class of securities under the Indenture. The Notes were issued in a private transaction that was not subject to the registration requirements of the Securities Act. The terms of the Exchange Notes are substantially identical to the terms of the outstanding unregistered notes, except that the Exchange Notes will not contain terms with respect to additional interest for failure to fulfill certain of our obligations under the registration rights agreement and transfer restrictions. Unless the context requires otherwise, references to *Notes* for all purposes of the Indenture and this *Description of Notes* include any Additional Notes (defined below) that are issued and any Exchange Notes that are issued in exchange for unregistered Notes under the Registration Rights Agreement. The terms of the Notes include those stated in the Indenture and those made part of the Indenture by reference to the Trust Indenture Act of 1939, as amended.

The following is only a summary of the material provisions of the Indenture and the Registration Rights Agreement and does not purport to be complete and is qualified in its entirety by reference to the provisions of the Indenture and the Registration Rights Agreement, including the definitions therein of certain terms used below. We urge you to read these documents because they, not this Description of Notes, define your rights as Holders of the Notes. You may request a copy of these documents at our address set forth under the heading *Available Information and Incorporation by Reference*. The registered holder of a Note is treated as the owner of it for all purposes. Only registered holders have rights under the Indenture and the Registration Rights Agreement.

**Brief Description of the Notes**

The Notes are:

general senior unsecured obligations of the Issuer;

*pari passu* in right of payment with all existing and future Indebtedness (including the Senior Credit Facilities) and all other obligations (other than Subordinated Indebtedness) of the Issuer;

effectively subordinated to all existing and future secured Indebtedness of the Issuer (including the Senior Credit Facilities) to the extent of the value of the assets securing such Indebtedness;

senior in right of payment to any existing and future Subordinated Indebtedness of the Issuer;

structurally subordinated to all existing and future Indebtedness, claims of holders of Preferred Stock and other liabilities of each of the Issuer's Subsidiaries that is not a Guarantor; and

guaranteed on a general senior unsecured basis by each of the Restricted Subsidiaries that guarantee the Senior Credit Facilities.

**Guarantees**

The Guarantors jointly and severally unconditionally Guarantee, on a senior unsecured basis, the performance and full and punctual payment when due, whether at maturity, by acceleration or otherwise, of all obligations of the Issuer under the Indenture and the Notes, whether for payment of principal of or interest on the Notes, expenses, indemnification or otherwise, on the terms set forth in the Indenture.

---

**Table of Contents**

Each Guarantee of a Guarantor is:

a general senior unsecured obligation of such Guarantor;

*pari passu* in right of payment with all existing and future Indebtedness (including such Guarantor's guarantee of the Senior Credit Facilities) and all other obligations (other than Subordinated Indebtedness) of such Guarantor;

effectively subordinated to all existing and future secured Indebtedness of such Guarantor (including such Guarantor's guarantee of the Senior Credit Facilities) to the extent of the value of the assets securing such Indebtedness;

senior in right of payment to any existing and future Subordinated Indebtedness of such Guarantor; and

structurally subordinated to all existing and future Indebtedness, claims of holders of Preferred Stock and other liabilities of the Subsidiaries of such Guarantor that do not guarantee the Notes.

Not all of the Issuer's Subsidiaries guarantee the Notes. In the event of a bankruptcy, liquidation or reorganization of any of these Subsidiaries that are not Guarantors, such Subsidiaries that are not Guarantors will pay the holders of their debt, their trade creditors and holders of their Preferred Stock before they will be able to distribute or contribute, as the case may be, any of their assets to the Issuer or a Guarantor. As a result, all of the existing and future liabilities of the Subsidiaries that are not Guarantors, including any claims of trade creditors and holders of their Preferred Stock, are structurally senior to the Notes. For the twelve-month period ended September 30, 2018, the Issuer's Subsidiaries that are not Guarantors accounted for less than 4% of our total revenue. In addition, as of September 30, 2018, the Issuer's Subsidiaries that are not Guarantors accounted for less than 6% of our total assets and less than 3% of our total liabilities (all amounts presented exclude intercompany balances).

The obligations of each Guarantor under its Guarantee are limited as necessary to prevent the Guarantees from constituting a fraudulent conveyance under applicable law and, therefore, are limited to the amount that such Guarantor could guarantee without such Guarantee constituting a fraudulent conveyance; this limitation, however, may not be effective to prevent such Guarantee from constituting a fraudulent conveyance.

Any Guarantor that makes a payment under its Guarantee will be entitled, upon payment in full of all guaranteed obligations under the Indenture, to a contribution from each other Guarantor in an amount equal to such other Guarantor's pro rata portion of such payment based on the respective net assets of all the Guarantors at the time of such payment determined in accordance with GAAP.

If a Guarantee was rendered voidable, it could be subordinated by a court to all other obligations (including guarantees and other contingent liabilities) of the applicable Guarantor, and, depending on the amount of such obligations, a Guarantor's liability on its Guarantee could be reduced to zero. See Risk Factors Risks Related to Our Indebtedness Federal and state fraudulent transfer laws may permit a court to void the notes and/or the guarantees and, if that occurs, you may not receive any payments on the notes.

The Indenture provides by its terms that a Guarantee by a Guarantor will be automatically and unconditionally released and discharged upon (a) receipt by the Trustee of a notification from the Issuer that such Guarantee be released and (b) the occurrence of any of the following:

(1) any direct or indirect sale, exchange, disposition or other transfer (including by merger, consolidation or otherwise) of (A) the Capital Stock of such Guarantor, after which such Guarantor is no longer a Restricted Subsidiary or (B) all or substantially all the assets of such Guarantor, which sale, exchange, disposition or other transfer is made in a manner not in violation of the applicable provisions of the Indenture;

(2) (A) the release or discharge of the guarantee by such Guarantor of the Senior Credit Facilities or (B) the release or discharge of the guarantee which resulted in the creation of such Guarantee, in each case except a release or discharge by or as a result of payment under such guarantee;

## **Table of Contents**

(3) designation of any Restricted Subsidiary that is a Guarantor as an Unrestricted Subsidiary in accordance with the provisions set forth under *Certain Covenants Limitation on Restricted Payments* and the definition of *Unrestricted Subsidiary* ;

(4) the Issuer's exercise of its legal defeasance option or covenant defeasance option as described under *Legal Defeasance and Covenant Defeasance* or the Issuer's obligations under the Indenture being discharged in a manner not in violation of the provisions described under *Satisfaction and Discharge* ; or

(5) the occurrence of a Covenant Suspension Event as described under *Certain Covenants* ; *provided* that such Guarantee will be reinstated upon the applicable Reversion Date in accordance with the Indenture.

Upon request of the Issuer, the Trustee shall evidence such release by its execution of a supplemental indenture or other instrument that may be executed by the Trustee and the Issuer without the consent of any Holder, upon receipt of an Opinion of Counsel and Officer's Certificate as required by the Indenture.

If any Guarantor is released from its Guarantee, any of its Subsidiaries that are Guarantors will also be released from their Guarantees, if any.

All of our subsidiaries are Restricted Subsidiaries. We are permitted to designate certain of our Subsidiaries as *Unrestricted Subsidiaries* under the circumstances described in the definition of *Unrestricted Subsidiary*. Our Unrestricted Subsidiaries are not subject to any of the restrictive covenants in the Indenture and do not guarantee the Notes.

## **Ranking**

The payment of the principal of, premium, if any, and interest on the Notes and the payment of any Guarantee will rank *pari passu* in right of payment with all Indebtedness and all other obligations (other than Subordinated Indebtedness) of the Issuer or the relevant Guarantor, as the case may be, including the obligations of the Issuer and such Guarantor under the Senior Credit Facilities.

The Notes are effectively subordinated to all Secured Indebtedness of the Issuer and each Guarantor, including Secured Indebtedness under the Senior Credit Facilities, to the extent of the value of the assets securing such Indebtedness, and are structurally subordinated to all Indebtedness, claims of preferred stockholders and other liabilities of the Subsidiaries that are not Guarantors. As of September 30, 2018, we had \$2,995.5 million of senior indebtedness, of which \$1,595.5 million was secured indebtedness, and we had undrawn availability of \$350.0 million under the revolving credit facility of the Senior Credit Facilities.

Although the Indenture contains limitations on the amount of additional Indebtedness that the Issuer and the Guarantors may incur, the amount of such Indebtedness could be substantial, and such additional Indebtedness may be Secured Indebtedness. See *Certain Covenants Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock*.

## **Paying Agent and Registrar for the Notes**

The Issuer maintains a paying agent and registrar for the Notes. The initial paying agent and registrar for the Notes is the Trustee. The Issuer may change the paying agent or the registrar without prior notice to the Holders. The Issuer or any of its Subsidiaries may act as a paying agent or registrar. Upon written request from the Issuer, the registrar shall provide the Issuer with a copy of the register reflecting ownership of the Notes at its registered office.

**Transfer and Exchange**

A Holder may transfer or exchange Notes in accordance with the Indenture. The registrar and the Trustee may require a Holder to, among other things, furnish appropriate endorsements and transfer documents in connection

**Table of Contents**

with a transfer of Notes. Holders will be required to pay all taxes due on transfer. The Issuer will not be required to transfer or exchange any Note selected for redemption. Also, the Issuer will not be required to transfer or exchange any Note for a period of 15 days before the mailing of a notice of redemption of Notes to be redeemed or within 15 days of an interest payment date.

**Principal, Maturity and Interest**

The Issuer issued \$1,400.0 million aggregate principal amount of Notes. The Notes will mature on February 1, 2026. Subject to compliance with the covenant described below under **Certain Covenants Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock**, the Issuer may issue additional Notes (the *Additional Notes*) from time to time under the Indenture. Each of the Notes issued and any Additional Notes issued under the Indenture will be treated as a single class for all purposes under the Indenture, including waivers, amendments, redemptions and offers to purchase. Additional Notes will not be issued with the same CUSIP, if any, as existing Notes unless such Additional Notes are fungible with existing Notes for U.S. federal income tax purposes. Notes can only be exchanged in minimum denominations of \$2,000 and integral multiples of \$1,000 in excess of \$2,000.

Interest will accrue on the Notes at a rate per annum equal to 6.875% from (x) in the case of any outstanding unregistered notes, the most recent date to which interest has been paid or provided for and (y) in the case of the Exchange Notes, the latter of (1) the last interest payment date on which interest was paid on the outstanding unregistered notes surrendered for exchange and (2) if the outstanding unregistered notes are surrendered for exchange on a date in a period which includes the record date for an interest payment date to occur on or after the date of such exchange and as to which interest will be paid, the date of such interest payment date. Interest will be payable semi-annually in arrears using a 360-day year comprised of twelve 30-day months in cash to Holders of record at the close of business on January 15 or July 15 immediately preceding the interest payment date (whether or not a Business Day), on February 1 and August 1 of each year, as the case may be, commencing August 1, 2019. At maturity, the Issuer will pay accrued and unpaid interest from the most recent date to which interest has been paid or provided for.

**Sinking Fund; Offers to Purchase; Open Market Purchases**

The Issuer is not required to make any mandatory redemption or sinking fund payments with respect to the Notes. However, under certain circumstances, the Issuer may be required to offer to purchase Notes as described under **Change of Control** and **Certain Covenants Asset Sales**. We may at any time and from time to time purchase Notes in the open market or otherwise.

**Optional Redemption**

Except as set forth below, the Issuer will not be entitled to redeem the Notes at its option prior to February 1, 2021.

Prior to February 1, 2021, the Issuer may redeem the Notes, in whole at any time or in part from time to time, upon notice as described below under **Selection and Notice**, at a redemption price equal to 100% of the principal amount of Notes redeemed *plus* the Applicable Premium as of, and accrued and unpaid interest thereon, if any, to, but excluding, the date of redemption (the *Redemption Date*), subject to the rights of Holders of record on the relevant record date to receive interest due on the relevant interest payment date.

On and after February 1, 2021, the Issuer may redeem the Notes, in whole at any time or in part from time to time, upon notice as described below under **Selection and Notice**, at the redemption prices (expressed as percentages of principal amount of the Notes to be redeemed) set forth below *plus* accrued and unpaid interest thereon, if any, to, but

excluding, the applicable Redemption Date, subject to the right of Holders of record on the

**Table of Contents**

relevant record date to receive interest due on the relevant interest payment date, if redeemed during the twelve-month period beginning on of each of the years indicated below:

Year	Redemption Price
2021	103.438%
2022	101.719%
2023	100.859%
2024 and thereafter	100.000%

In addition, until February 1, 2021, the Issuer may, at any time and from time to time, upon notice as described below under Selection and Notice, redeem up to 40.0% of the aggregate principal amount of Notes (including any Additional Notes) at a redemption price equal to 106.875% of the aggregate principal amount thereof plus accrued and unpaid interest thereon, if any, to, but excluding, the applicable Redemption Date (subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date), in an amount no greater than the aggregate cash proceeds received from one or more Equity Offerings; *provided* that (1) at least 60.0% of the aggregate principal amount of Notes (including any Additional Notes) remains outstanding immediately after the occurrence of each such redemption and (2) each such redemption occurs within 120 days of the closing of such Equity Offering.

In addition to the foregoing, in connection with any tender offer for the Notes (including, without limitation, any Change of Control Offer), if Holders of not less than 90.0% in aggregate principal amount of the outstanding Notes validly tender and do not withdraw such Notes in such tender offer and the Issuer, or any third party making a such tender offer in lieu of the Issuer, purchases all of the Notes validly tendered and not withdrawn by such Holders, the Issuer or such third party will have the right upon not less than 15 nor more than 60 days prior notice, given not more than 30 days following such purchase date, to redeem (with respect to the Issuer) or purchase (with respect to a third party) all Notes that remain outstanding following such purchase at a price equal to the price offered to each other Holder in such tender offer (which may be less than par) plus, to the extent not included in the tender offer payment, accrued and unpaid interest, if any, thereon, to, but excluding, the Redemption Date.

We may acquire Notes by means other than a redemption, whether by tender offer, open market purchases, negotiated transactions or otherwise, in accordance with applicable securities laws, so long as such acquisition does not otherwise violate the terms of the Indenture.

Notice of any redemption of the Notes (including upon an Equity Offering or in connection with a transaction (or series of related transactions) or an event that constitutes a Change of Control) may, at the Issuer's discretion, be given prior to the completion or the occurrence thereof and any such redemption or notice may, at the Issuer's discretion, be subject to one or more conditions precedent, including, but not limited to, completion or occurrence of the related transaction or event, as the case may be. In addition, if such redemption or purchase is subject to satisfaction of one or more conditions precedent, such notice shall describe each such condition, and if applicable, shall state that, in the Issuer's discretion, the Redemption Date may be delayed until such time (including more than 60 days after the date the notice of redemption was mailed or delivered, including by electronic transmission) as any or all such conditions shall be satisfied, or such redemption or purchase may not occur and such notice may be rescinded in the event that any or all such conditions shall not have been satisfied by the Redemption Date, or by the Redemption Date as so delayed, or such notice may be rescinded at any time in the Issuer's discretion if in the good faith judgment of the Issuer any or all of such conditions will not be satisfied. In addition, the Issuer may provide in such notice that payment of the redemption price and performance of the Issuer's obligations with respect to such redemption may be performed by another Person.

**Selection and Notice**

If the Issuer is offering to purchase or redeeming less than all of the Notes at any time, the Trustee will select the Notes to be redeemed on a pro rata basis (or as nearly pro rata as practicable) or by such method as the trustee

shall deem fair and appropriate, unless otherwise required by law or the rules of the principal national securities exchange, if any, on which the Notes are listed or by lot or such other similar method in accordance with the procedures of DTC; *provided* that no Notes of \$2,000 or less shall be redeemed or repurchased in part.

Notices of purchase or redemption shall be mailed by first-class mail (or otherwise sent in accordance with the applicable procedures of DTC), at least 30 but not more than 60 days before the purchase or redemption date to each Holder at such Holder's registered address or otherwise in accordance with the procedures of DTC, except that redemption notices may be mailed (or otherwise sent in accordance with the applicable procedures of DTC) more than 60 days prior to a Redemption Date if the notice is issued in connection with a defeasance of the Notes or a satisfaction and discharge of the Indenture. If any Note is to be purchased or redeemed in part only, any notice of purchase or redemption that relates to such Note shall state the portion of the principal amount thereof that is to be purchased or redeemed. The Issuer will issue a new Note in a principal amount equal to the unredeemed portion of the original Note in the name of the Holder upon cancellation of the original Note.

Subject to the terms of the applicable redemption notice (including any conditions precedent contained therein), Notes called for redemption become due on the date fixed for redemption, subject to the satisfaction of any conditions precedent to the redemption. On and after the Redemption Date, interest ceases to accrue on Notes or portions of them called for redemption.

**Change of Control**

The Indenture provides that if a Change of Control occurs after the Issue Date, unless the Issuer has previously or concurrently mailed (or otherwise sent in accordance with the applicable procedures of DTC) a redemption notice with respect to all the outstanding Notes as described under *Optional Redemption*, the Issuer will make an offer to purchase all of the Notes pursuant to the offer described below (the *Change of Control Offer*) at a price in cash (the *Change of Control Payment*) equal to 101% of the aggregate principal amount thereof plus accrued and unpaid interest, if any, to, but excluding, the date of purchase, subject to the right of Holders of the Notes of record on the relevant record date to receive interest due on the relevant interest payment date. Within 30 days following any Change of Control, unless the Issuer has previously or concurrently mailed (or otherwise sent in accordance with the applicable procedures of DTC) a redemption notice with respect to all the outstanding Notes as described under *Optional Redemption* or the Issuer has previously made a Change of Control Offer in connection with such Change of Control, the Issuer will send notice of such Change of Control Offer by first-class mail, with a copy to the Trustee, to each Holder of Notes to the address of such Holder appearing in the security register or otherwise in accordance with the procedures of DTC, with the following information:

- (1) that a Change of Control Offer is being made pursuant to the covenant entitled *Change of Control*, and that, subject to clause (7) below, all Notes properly tendered pursuant to such Change of Control Offer will be accepted for payment by the Issuer;
- (2) the purchase price and the purchase date, which will, subject to clause (7) below, be no earlier than 30 days nor later than 60 days from the date such notice is mailed (the *Change of Control Payment Date*);
- (3) that any Note not properly tendered will remain outstanding and continue to accrue interest;
- (4) that unless the Issuer defaults in the payment of the Change of Control Payment, all Notes accepted for payment pursuant to the Change of Control Offer will cease to accrue interest on the Change of Control Payment Date;

(5) that Holders will be entitled to withdraw their tendered Notes and their election to require the Issuer to purchase such Notes; *provided* that the paying agent receives, not later than the expiration time of the Change of Control Offer, a facsimile transmission or letter setting forth the name of the Holder of the Notes, the principal amount of Notes tendered for purchase, and a statement that such Holder is withdrawing its tendered Notes and its election to have such Notes purchased;

**Table of Contents**

(6) that if the Holders tender less than all of the Notes, the Holders of the remaining Notes will be issued new Notes and such new Notes will be equal in principal amount to the unpurchased portion of the Notes surrendered. The unpurchased portion of the Notes must be equal to \$2,000 or an integral multiple of \$1,000 in excess thereof;

(7) if such notice is delivered prior to the occurrence of a Change of Control, stating that the Change of Control Offer is conditional on the occurrence of such Change of Control, and if applicable, shall state that, in the Issuer's discretion, the Change of Control Payment Date may be delayed until such time as the Change of Control shall occur, or that such redemption may not occur and such notice may be rescinded in the event that the Issuer shall determine that such condition will not be satisfied by the Change of Control Payment Date or by the Change of Control Payment Date as so delayed; and

(8) the other instructions, as determined by the Issuer, consistent with the covenant described hereunder, that a Holder must follow.

The Issuer will comply with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent such laws or regulations are applicable in connection with the repurchase of Notes pursuant to a Change of Control Offer. To the extent that the provisions of any securities laws or regulations conflict with the provisions of the Indenture, the Issuer will comply with the applicable securities laws and regulations and shall not be deemed to have breached its obligations described in the Indenture by virtue thereof.

On the Change of Control Payment Date, the Issuer will, to the extent permitted by law,

(1) accept for payment all Notes or portions thereof properly tendered pursuant to the Change of Control Offer,

(2) deposit with the paying agent an amount equal to the aggregate Change of Control Payment in respect of all Notes or portions thereof so tendered, and

(3) deliver, or cause to be delivered, to the Trustee for cancellation the Notes so accepted together with an Officer's Certificate to the Trustee stating that such Notes or portions thereof have been tendered to and purchased by the Issuer.

The Senior Credit Facilities provide, and future credit agreements, indentures or other agreements relating to Indebtedness to which the Issuer becomes a party may provide, that certain change of control events with respect to the Issuer (including a Change of Control under the Indenture) would constitute a default (or require us to repurchase all of the applicable Indebtedness) thereunder. If we experience a change of control that triggers a default or requirement to repurchase under our Senior Credit Facilities, we could seek a waiver of such default or requirement or seek to refinance our Senior Credit Facilities. In the event we do not obtain such a waiver or refinance the Senior Credit Facilities, all amounts outstanding under our Senior Credit Facilities could become immediately due and payable.

Our ability to pay cash to the Holders of Notes following the occurrence of a Change of Control may be limited by our then-existing financial resources. Therefore, sufficient funds may not be available when necessary to make any required repurchases.

The Change of Control purchase feature of the Notes may in certain circumstances make more difficult or discourage a sale or takeover of us and, thus, the removal of incumbent management. The Change of Control purchase feature is a result of negotiations between the Initial Purchasers and the Issuer. The Issuer has no present intention to engage in a transaction involving a Change of Control, although it is possible that the Issuer could decide to do so in the future.

Subject to the limitations discussed below, the Issuer could, in the future, enter into certain transactions, including acquisitions, refinancings or other recapitalizations, that would not constitute a Change of Control under the Indenture, but that could increase the amount of indebtedness

outstanding at such time or otherwise affect the Issuer's capital structure or credit ratings. Restrictions on the Issuer's ability to incur additional Indebtedness are contained in the covenants described under **Certain Covenants Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock** and **Certain Covenants Liens**. Such restrictions in the Indenture can be waived only with the consent of the Holders of a majority in principal amount of the Notes then outstanding. Except for the limitations contained in such covenants, however, the Indenture does not contain any covenants or provisions that may afford Holders of the Notes protection in the event of a highly leveraged transaction.

The Issuer will not be required to make a Change of Control Offer following a Change of Control if a third party makes the Change of Control Offer in the manner, at the times and otherwise in compliance with the requirements set forth in the Indenture applicable to a Change of Control Offer made by the Issuer and purchases all Notes validly tendered and not withdrawn under such Change of Control Offer. Notwithstanding anything to the contrary herein, a Change of Control Offer may be made in advance of a Change of Control, conditional upon such Change of Control, if a definitive agreement is in place for the Change of Control at the time of the making of the Change of Control Offer.

Notes repurchased by the Issuer pursuant to a Change of Control Offer will have the status of Notes issued but not outstanding or will be retired and canceled at the option of the Issuer. Notes purchased by a third party pursuant to the preceding paragraph will have the status of Notes issued and outstanding unless transferred to the Issuer.

The definition of **Change of Control** includes a disposition of all or substantially all of the assets of the Issuer and its Restricted Subsidiaries to any Person other than a Restricted Subsidiary. Although there is a limited body of case law interpreting the phrase **substantially all**, there is no precise established definition of the phrase under applicable law. Accordingly, in certain circumstances there may be a degree of uncertainty as to whether a particular transaction would involve a disposition of **all or substantially all** of the assets of the Issuer. As a result, it may be unclear as to whether a Change of Control has occurred and whether a Holder of Notes may require the Issuer to make an offer to repurchase the Notes as described above.

The provisions under the Indenture relative to the Issuer's obligation to make an offer to repurchase the Notes as a result of a Change of Control may be waived or modified with the written consent of the Holders of a majority in principal amount of the Notes.

**Certain Covenants**

Set forth below are summaries of certain covenants that are contained in the Indenture. Beginning on the day of a **Covenant Suspension Event** (as defined below) and ending on a **Reversion Date** (as defined below) (such period a *Suspension Period*) with respect to the Notes, the covenants specifically listed under the following captions are not applicable to the Notes (collectively, the *Suspended Covenants*):

- (1) **Limitation on Restricted Payments** ;
- (2) **Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock** ;
- (3) **clause (4) of the first paragraph of Merger, Consolidation or Sale of All or Substantially All Assets** ;
- (4) **Transactions with Affiliates** ;
- (5) **Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries** ;

- (6) Asset Sales ;
- (7) Limitation on Guarantees of Indebtedness by Restricted Subsidiaries ;

**Table of Contents**

- (8) Limitation on Sale and Lease-Back Transactions ; and
- (9) Business Activities.

During any Suspension Period, the Guarantees of the Guarantors will be suspended, and such Guarantees will be reinstated on each Reversion Date. On each Reversion Date, all Indebtedness, Disqualified Stock or Preferred Stock incurred during the Suspension Period will be classified as having been incurred pursuant to the first paragraph of the covenant described under Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock or one of the clauses set forth in the second paragraph of Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock (to the extent such Indebtedness or Disqualified Stock or Preferred Stock would be permitted to be incurred thereunder as of the Reversion Date and after giving effect to Indebtedness or Disqualified Stock or Preferred Stock incurred prior to the Suspension Period and outstanding on the Reversion Date). To the extent such Indebtedness or Disqualified Stock or Preferred Stock would not be so permitted to be incurred pursuant to the first or second paragraph of Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock , such Indebtedness or Disqualified Stock or Preferred Stock will be deemed to have been outstanding on the Issue Date, so that it is classified as permitted under clause (3) of the second paragraph under Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock.

Calculations made after the Reversion Date of the amount available to be made as Restricted Payments under Limitation on Restricted Payments will be made as though the covenant described under Limitation on Restricted Payments had been in effect since the Issue Date (but not during the Suspension Period); *provided* that, during the Suspension Period the Issuer shall not designate any of its Restricted Subsidiaries to be Unrestricted Subsidiaries unless the Issuer would have been permitted to designate such Subsidiary as an Unrestricted Subsidiary if a Suspension Period had not been in effect for any period. In addition, for purposes of the covenant described under Transactions with Affiliates , all agreements, arrangements and transactions entered into by the Issuer or any of its Restricted Subsidiaries with an Affiliate of the Issuer during the applicable Suspension Period prior to such Reversion Date will be deemed to have been entered into on or prior to the Issue Date, and for purposes of the covenant described under Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries , all contracts entered into during the applicable Suspension Period prior to such Reversion Date that contain any of the restrictions contemplated by such covenant will be deemed to have been existing on the Issue Date.

For purposes of the covenant described under Asset Sales , on the Reversion Date, the unutilized Excess Proceeds amount will be reset to zero.

If, at any date following the Issue Date, (1) the Notes have Investment Grade Ratings from both Rating Agencies and (2) no Default has occurred and is continuing under the Indenture as of such date, a *Covenant Suspension Event* will be deemed to have occurred. If on any subsequent date (the *Reversion Date* ) one or both of the Rating Agencies withdraws its Investment Grade Rating or downgrades the rating assigned to the Notes below an Investment Grade Rating, the Issuer and its Restricted Subsidiaries will thereafter again be subject to the Suspended Covenants with respect to future events. The Issuer will provide written notice to the Trustee of any Covenant Suspension Event and reinstatement of Suspended Covenants on a Reversion Date. The Trustee shall not have any duty to monitor whether or not a Covenant Suspension Event or Reversion Date has occurred or if a Suspension Period has commenced or ended, nor any duty to notify the noteholders of any of the foregoing.

Notwithstanding the reinstatement of the Suspended Covenants on a Reversion Date, no Default or Event of Default or breach of any kind under the Indenture, the Notes or the Guarantees will be deemed to have occurred on such Reversion Date as a result of any actions taken by the Issuer or its Restricted Subsidiaries during the Suspension Period (or upon the termination of the Suspension Period or thereafter based solely on events that occurred during the

Suspension Period) to the extent such actions were permitted under the Indenture during the Suspension Period, and none of the Issuer or any of its Subsidiaries shall bear any liability for any actions taken

or events occurring during the applicable Suspension Period to the extent such actions were permitted under the Indenture during the Suspension Period, regardless of whether such actions or events would have been permitted if the applicable Suspended Covenants remained in effect during such period. On and after each Reversion Date, the Issuer and its Subsidiaries will be permitted to consummate the transactions contemplated by any contract entered into during any Suspension Period so long as such contract and such consummation would have been permitted during such Suspension Period.

We cannot assure you that the Notes will maintain Investment Grade Ratings.

**Limitation on Restricted Payments**

The Issuer will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly:

(1) declare or pay any dividend or make any other payment or distribution on account of the Issuer's or any of its Restricted Subsidiaries' Equity Interests, including any dividend, payment or distribution payable in connection with any merger or consolidation, other than:

(A) dividends, payments or distributions payable in Equity Interests (other than Disqualified Stock) of the Issuer; or

(B) dividends, payments or distributions by a Restricted Subsidiary so long as, in the case of any dividend, payment or distribution payable on or in respect of any class or series of securities issued by a Restricted Subsidiary other than a Wholly Owned Subsidiary, the Issuer or a Restricted Subsidiary receives at least its pro rata share of such dividend, payment or distribution in accordance with its Equity Interests in such class or series of securities;

(A) Indebtedness permitted under clause (7) of the covenant described under **Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock**; or

(B) Subordinated Indebtedness in anticipation of satisfying a sinking fund obligation, principal installment or final maturity, in each case due within one year of the date of purchase, redemption, repurchase, defeasance, acquisition or retirement; or

(4) make any Restricted Investment

(all such payments and other actions set forth in clauses (1) through (4) above being collectively referred to as *Restricted Payments*), unless, at the time of such Restricted Payment:

(1) no Default shall have occurred and be continuing or would occur as a consequence thereof;

(2) immediately after giving effect to such transaction on a *pro forma* basis, the Issuer could incur \$1.00 of additional Indebtedness pursuant to the Consolidated Net Leverage Ratio test set forth in the first paragraph of the covenant described under Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock ; and

(3) such Restricted Payment, together with the aggregate amount of all other Restricted Payments made by the Issuer and its Restricted Subsidiaries (and not rescinded or refunded) after the Issue Date (including

The foregoing provisions will not prohibit any of the following (collectively, *Permitted Payments* ):

(1) the payment of any dividend or distribution or the consummation of any irrevocable redemption within 60 days after the date of declaration thereof or the giving of such irrevocable notice, as applicable, if at the date of declaration or the giving of such notice such payment would have complied with the provisions of the Indenture;

(13) the declaration and payment of regularly scheduled or accrued dividends to holders of any class or series of Disqualified Stock of the Issuer or any Restricted Subsidiary or Preferred Stock of any Restricted Subsidiaries issued or incurred in accordance with the covenant described under **Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock** ;

*provided, however*, that at the time of, and after giving effect to, any Restricted Payment permitted under clauses (6) or (11), no Default or Event of Default shall have occurred and be continuing or would occur as a consequence thereof.

All of our Subsidiaries are Restricted Subsidiaries. The Issuer will not permit any Unrestricted Subsidiary to become a Restricted Subsidiary except pursuant to the last sentence of the definition of *Unrestricted Subsidiary*. For purposes of designating any Restricted Subsidiary as an Unrestricted Subsidiary, all outstanding Investments by the Issuer and its Restricted Subsidiaries (except to the extent repaid) in the Subsidiary so designated are deemed to be an Investment in an amount determined as set forth in the definition of *Investment*. Such designation is permitted only if an Investment in such amount would be permitted at such time, whether as a Restricted Payment or a Permitted Investment, and if such Subsidiary otherwise meets the definition of an Unrestricted Subsidiary. Unrestricted Subsidiaries are not subject to any of the covenants set forth in the Indenture.

For purposes of clauses (2) and (3) of the second paragraph of this covenant, a Restricted Payment shall be deemed to have been made substantially concurrently with the applicable event if made or irrevocably committed to be made within 90 days of such event.

The amount of all Restricted Payments (other than cash) shall be the fair market value (as determined in good faith by the Issuer) on the date of such Restricted Payment of the asset(s) or securities proposed to be paid, transferred or issued by the Issuer or such Restricted Subsidiary, as the case may be, pursuant to such Restricted Payment.

For purposes of determining compliance with this covenant, in the event that a proposed Restricted Payment or Investment (or a portion thereof) meets the criteria of more than one of the categories of Restricted Payments described in the preceding clauses (1) through (15) above and/or one or more of the clauses contained in the definition of *Permitted Investments*, or is entitled to be made pursuant to the first paragraph of this covenant, the Issuer will be entitled to divide or classify (or later divide, classify or reclassify in whole or in part in its sole discretion) such Restricted Payment or Investment (or portion thereof) among such clauses (1) through (15) and such first paragraph and/or one or more of the clauses contained in the definition of *Permitted Investments*, in a manner that otherwise complies with this covenant.

For the avoidance of doubt, this covenant shall not restrict the making of any *AHYDO catch-up payment* with respect to, and required by the terms of, any Indebtedness of the Issuer or any of its Restricted Subsidiaries permitted to be incurred under the Indenture.

**Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock**

The Issuer will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, create, incur, issue, assume, guarantee or otherwise become directly or indirectly liable for (collectively, *incur* and collectively, an *incurrence* ) any Indebtedness (including Acquired Indebtedness) and the Issuer will not issue

**Table of Contents**

Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock, the Issuer, in its sole discretion, may divide and/or classify on the date of incurrence such item of Indebtedness, Disqualified Stock or Preferred Stock (or any portion thereof) in any manner that complies with this covenant and may later redivide and/or reclassify (based on circumstances existing at the time of such redivision or reclassification) such item of Indebtedness, Disqualified Stock or Preferred Stock (or any portion thereof) in any manner that complies with this covenant; *provided* that all Indebtedness outstanding under the Senior Credit Facilities on the Issue Date was treated as incurred on the Issue Date under clause (1) of the preceding paragraph and will not later be reclassified.

Accrual of interest or dividends, the accretion of accreted value and the payment of interest in the form of additional Indebtedness with the same terms, the payment of dividends in the form of additional shares of Disqualified Stock or Preferred Stock, as applicable, of the same class, and accretion of original issue discount or liquidation preference will not be deemed to be an incurrence of Indebtedness, Disqualified Stock or Preferred Stock for purposes of this covenant. Guarantees of, or obligations in respect of letters of credit relating to, Indebtedness which is otherwise included in the determination of a particular amount of Indebtedness shall not be included in the determination of such amount of Indebtedness; *provided* that the incurrence of the Indebtedness represented by such guarantee or letter of credit, as the case may be, was in compliance with this covenant.

For purposes of any determination under Certain Covenants expressly requiring the use of a current exchange rate, all amounts incurred, outstanding or proposed to be incurred or outstanding in currencies other than U.S. dollars shall be translated into U.S. dollars at currency exchange rates in effect on the date of such determination; *provided, however*, that for purposes of determining compliance with the Indenture with respect to the amount of any Permitted Lien, Indebtedness, Asset Sale, Restricted Payment, Affiliate Transaction, Permitted Investment or Permitted Payment in a currency other than U.S. dollars, no Default or Event of Default shall be deemed to have occurred solely as a result of changes in rates of exchange occurring after the time such Permitted Lien or Indebtedness is incurred or Asset Sale, Restricted Payment, Affiliate Transaction, Permitted Investment or Permitted Payment is made; *provided* that, for the avoidance of doubt, the foregoing provisions of this paragraph shall otherwise apply to such Sections, including with respect to determining whether any Permitted Lien or Indebtedness is incurred or Asset Sale, Restricted Payment, Affiliate Transaction, Permitted Investment or Permitted Payment is made at any time under such Sections. In addition, to the extent that the size of any basket or carve-out set forth under Certain Covenants is determined by reference to a percentage of Four-Quarter EBITDA, a percentage of Consolidated Adjusted EBITDA or the Consolidated Secured Net Leverage Ratio, no Default or Event of Default shall be deemed to occur with respect to any transaction consummated or incurred pursuant to such basket or carve-out as a result of any decrease in the amount of Four-Quarter EBITDA, Consolidated Adjusted EBITDA or the Consolidated Secured Net Leverage Ratio subsequent to such consummation or incurrence which results in such basket or carve-out no longer being sufficient to permit such transaction or incurrence.

The principal amount of any Indebtedness incurred to Refinance other Indebtedness, if incurred in a different currency from the Indebtedness being Refinanced, shall be calculated by the Issuer based on the currency exchange rate applicable to the currencies in which such respective Indebtedness is denominated as in effect on the date of such Refinancing.

The Indenture provides that the Issuer will not, and will not permit any Guarantor to, directly or indirectly, incur Indebtedness (including Acquired Indebtedness) that is contractually subordinated in right of payment to any Indebtedness of the Issuer or such Guarantor, as the case may be, unless such Indebtedness is contractually subordinated in right of payment to the Notes or such Guarantor's Guarantee, in all material respects, to the extent and in the manner as such Indebtedness is so subordinated to other Indebtedness of the Issuer or such Guarantor, as the case may be.

The Indenture does not treat (1) Indebtedness that is unsecured as subordinated or junior to Secured Indebtedness merely because it is unsecured or (2) Indebtedness as subordinated or junior to any other Indebtedness merely because it has a junior priority with respect to the same collateral.

**Liens**

The Issuer will not, and will not permit any Restricted Subsidiary to, directly or indirectly, create, incur, assume or suffer to exist any Lien (except Permitted Liens) that secures obligations under any Indebtedness or any related guarantee, on any asset or property of the Issuer or such Restricted Subsidiary whether now owned or hereafter acquired, unless:

(1) in the case of Liens securing Subordinated Indebtedness, the Notes are (or in the case of a Lien on any asset or property of such Guarantor, its Guarantee is) secured by a Lien on such property, assets or proceeds that is senior in priority to such Liens; or

(2) in the case of Liens securing any other Indebtedness, the Notes are (or in the case of a Lien on any asset or property of such Guarantor, its Guarantee is) secured by an equal and ratable (or prior ranking) Lien on such property, assets or proceeds.

Any Lien created for the benefit of the Holders of the Notes pursuant to this covenant shall be deemed automatically and unconditionally released and discharged upon the release and discharge of the applicable Lien described in clauses (1) and (2) above.

For purposes of determining compliance with this covenant, a Lien securing an item of Indebtedness need not be permitted solely by reference to the second preceding paragraph or to one category (or portion thereof) of the Permitted Liens described in clauses (1) through (38) of the definition of *Permitted Liens* but may be permitted in part under any combination thereof.

With respect to any Lien securing Indebtedness that was permitted to secure such Indebtedness at the time of the incurrence of such Indebtedness, such Lien shall also be permitted to secure any Increased Amount of such Indebtedness. The *Increased Amount* of any Indebtedness shall mean any increase in the amount of such Indebtedness in connection with any accrual of interest, the accretion of accreted value, the amortization of original issue discount, the payment of interest in the form of additional Indebtedness with the same terms or in the form of common equity of a Restricted Subsidiary or any direct or indirect parent of a Restricted Subsidiary, the payment of dividends on Preferred Stock in the form of additional shares of Preferred Stock of the same class, accretion of original issue discount or liquidation preference and increases in the amount of Indebtedness outstanding solely as a result of fluctuations in the exchange rate of currencies or increases in the value of property securing Indebtedness described in the definition of *Indebtedness*.

**Merger, Consolidation or Sale of All or Substantially All Assets**

The Issuer may not consolidate or merge with or into or wind up into, or sell, assign, transfer, lease, convey or otherwise dispose of all or substantially all of its properties or assets in one or more related transactions, to any Person unless:

- (2) the Successor Company, if other than the Issuer, expressly assumes all the obligations of the Issuer under the Indenture, the Notes and the Registration Rights Agreement pursuant to a supplemental indenture;
- (3) immediately after such transaction, no Default exists;

(4) immediately after giving *pro forma* effect to such transaction and any related financing transactions:

(A) the Successor Company would be permitted to incur at least \$1.00 of additional Indebtedness pursuant to the Consolidated Net Leverage Ratio test set forth in the first paragraph of the covenant described under Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock , or

(B) the Consolidated Net Leverage Ratio for the Successor Company and its Restricted Subsidiaries would be less than or equal to such ratio for the Issuer and its Restricted Subsidiaries immediately prior to such transaction; and

(5) the Issuer shall have delivered to the Trustee an Officer's Certificate and an Opinion of Counsel, each stating that such consolidation, merger or transfer and such supplemental indentures, if any, comply with the Indenture; *provided* that in giving an Opinion of Counsel, counsel may rely on an Officer's Certificate as to any matters of fact, including as to satisfaction of clauses (3) and (4) above.

The Successor Company will succeed to, and be substituted for, the Issuer under the Indenture and the Notes and the Issuer will automatically be released and discharged from its obligations under the Indenture and the Notes except in the case of a lease. Notwithstanding the foregoing clauses (3), (4) and (5), which do not apply to transactions referred to in this sentence:

(a) any Restricted Subsidiary may consolidate with, merge into or wind up into, or sell, assign, transfer, lease, convey or otherwise dispose of all or substantially all of its properties or assets in one or more related transactions to, the Issuer or any Restricted Subsidiary, and

(b) the Issuer may merge with an Affiliate of the Issuer solely for the purpose or effect of reorganizing the Issuer in a state or commonwealth of the United States, the District of Columbia or any territory thereof.

No Guarantor will, and the Issuer will not permit any such Guarantor to, consolidate or merge with or into or wind up into, or sell, assign, transfer, lease, convey or otherwise dispose of all or substantially all of its properties or assets, in one or more related transactions to any Person unless:

(1) (A) such Guarantor is the surviving Person or the Person formed by or surviving any such consolidation, merger or wind up (if other than such Guarantor) or to which such sale, assignment, transfer, lease, conveyance or other disposition will have been made is a Person organized or existing under the laws of the jurisdiction of organization of such Guarantor, as the case may be, or the laws of the United States, any state or commonwealth thereof, the District of Columbia or any territory thereof (such Guarantor or such Person, as the case may be, being herein called the *Successor Guarantor* );

(B) the Successor Guarantor, if other than such Guarantor or another Guarantor, expressly assumes all the obligations of such Guarantor under the Indenture and such Guarantor's related Guarantee pursuant to supplemental indentures; and

(C) immediately after such transaction, no Default exists; or

(2) the consolidation, merger, sale, assignment, transfer, lease, conveyance or other disposition complies with the covenant described under Asset Sales.

In the case of clause (1) above, the Successor Guarantor will succeed to, and be substituted for, such Guarantor under the Indenture and such Guarantor's Guarantee and, except in the case of a lease, such Guarantor will automatically be

released and discharged from its obligations under the Indenture and such Guarantor's Guarantee. Notwithstanding the foregoing, (A) any Guarantor may merge into or transfer all or substantially all of its properties or assets to another Guarantor or the Issuer and (B) any Guarantor may merge with an Affiliate of the Guarantor solely for the purpose or effect of reorganizing the Guarantor in a state or commonwealth of the United States, the District of Columbia or any territory thereof.

- (3) sell, lease or transfer any of its properties or assets to the Issuer or any of its Restricted Subsidiaries, except (in each case) for such encumbrances or restrictions existing under or by reason of:
  - (a) contractual encumbrances or restrictions in effect on the Issue Date;
  - (b) the Indenture, the Notes and the Guarantees and (ii) any agreement governing Indebtedness permitted to be incurred pursuant to the covenant described under **Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock** ; *provided* that the provisions relating to restrictions of the type described in clauses (1) through (3) above contained in such agreement, taken as a whole, are (in the good faith determination of the Issuer) not materially more restrictive than the provisions contained in the Senior Credit Facilities or in the Indenture, in each case as in effect when initially executed;
  - (c) purchase money obligations for property acquired in the ordinary course of business and Capitalized Lease Obligations that impose restrictions of the nature discussed in clause (3) above on the property so acquired or leased;
  - (d) applicable law or any applicable rule, regulation or order;
  - (e) any agreement or other instrument of a Person (including an Unrestricted Subsidiary that becomes a Restricted Subsidiary whether by redesignation or otherwise) acquired by or merged or consolidated with or into the Issuer or any of its Restricted Subsidiaries in existence at the time of such transaction (but not created in contemplation thereof), which encumbrance or restriction is not applicable to any Person, or the properties or assets of any Person, other than the Person and its Subsidiaries, or the property or assets of the Person and its Subsidiaries, so acquired;
  - (f) contracts for the sale of assets, including customary restrictions with respect to a Subsidiary of the Issuer that impose restrictions solely on the assets to be sold;
  - (g) any Hedging Obligations;
  - (h) Secured Indebtedness otherwise permitted to be incurred pursuant to the covenants described under **Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock** and **Liens** that limit the right of the debtor to dispose of the assets securing such Indebtedness;
  - (i) restrictions on cash or other deposits or net worth imposed by leases, customers under contracts or other contracts or agreements entered into in the ordinary course of business;

(j) other Indebtedness, Disqualified Stock or Preferred Stock of Non-Guarantor Subsidiaries permitted to be incurred subsequent to the Issue Date pursuant to the provisions of the covenant described under Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock ;

(k) customary provisions in joint venture agreements or arrangements and other similar agreements or arrangements relating solely to such joint venture;

## **Table of Contents**

(l) customary provisions contained in leases, sub-leases, licenses or sub-licenses, permits, contracts and other agreements, in each case, entered into in the ordinary course of business;

(m) any agreements entered into in the ordinary course of business, not relating to Indebtedness and that do not, individually or in the aggregate, materially impair (in the good faith determination of the Issuer) the ability of the Issuer or the Guarantors to pay the principal and interest on the Notes;

(n) any agreement for the sale or other disposition of all or substantially all the Capital Stock or the assets of a Restricted Subsidiary to the extent it restricts distributions by that Restricted Subsidiary pending such sale or other disposition;

(o) customary provisions imposed on the transfer of copyrighted or patented materials;

(p) encumbrances or restrictions relating to the IPC Media Ltd., pension scheme;

(q) any encumbrances or restrictions of the type referred to in clauses (1), (2) and (3) above imposed by any amendments, modifications, restatements, renewals, increases, supplements, refundings, replacements or refinancings of the contracts, instruments or obligations referred to in clauses (a) through (p) above; provided that such amendments, modifications, restatements, renewals, increases, supplements, refundings, replacements or refinancings are, in the good faith determination of the Issuer, no more restrictive in any material respect with respect to such encumbrance and other restrictions taken as a whole than those prior to such amendment, modification, restatement, renewal, increase, supplement, refunding, replacement or refinancing; and

(r) restrictions created in connection with any Receivables Facility that, in the good faith determination of the Issuer, are necessary or advisable to effect such Receivables Facility; *provided* that such restrictions apply only to the applicable Receivables Subsidiary.

For purposes of determining compliance with this covenant, (1) the priority of any Preferred Stock in receiving dividends or liquidating distributions prior to dividends or liquidating distributions being paid on common stock will not be deemed a restriction on the ability to make distributions on Capital Stock and (2) the subordination of loans or advances made to the Issuer or any Restricted Subsidiary to other Indebtedness Incurred by the Issuer or any Restricted Subsidiary will not be deemed a restriction on the ability to make loans or advances.

## **Asset Sales**

The Issuer will not, and will not permit any of its Restricted Subsidiaries to, consummate an Asset Sale, unless:

(1) the Issuer or any such Restricted Subsidiary, as the case may be, receives consideration at the time of such Asset Sale at least equal to the fair market value (as determined in good faith by the Issuer) of the assets sold or otherwise disposed of; and

(2) except in the case of a Permitted Asset Swap, in the Issuer's good faith determination, at least 75% of the consideration therefor received by the Issuer or any such Restricted Subsidiary, as the case may be, is in the form of cash or Cash Equivalents; *provided* that the amount of:

(A) any liabilities (as shown on the Issuer's most recent consolidated balance sheet or in the footnotes thereto, or if incurred or accrued subsequent to the date of such balance sheet, such liabilities that would have been reflected on the Issuer's consolidated balance sheet or in the footnotes thereto if such incurrence or accrual had taken place on or prior

to the date of such balance sheet, as determined in good faith by the Issuer) of the Issuer or such Restricted Subsidiary (other than Contingent Obligations and liabilities that are by their terms subordinated to the Notes or any Guarantee) that are assumed by the transferee of any such assets (or are otherwise extinguished by the transferee in connection with the transactions relating to such Asset Sale) and for which the Issuer and all such Restricted Subsidiaries have been released,

(B) any notes or other obligations or securities received by the Issuer or such Restricted Subsidiary from such transferee that are converted by the Issuer or such Restricted Subsidiary into cash

or Cash Equivalents, or by their terms are required to be satisfied for cash or Cash Equivalents (to the extent of the cash or Cash Equivalents received), in each case, within 180 days following the closing of such Asset Sale, and

(C) any Designated Non-cash Consideration received by the Issuer or such Restricted Subsidiary in such Asset Sale having an aggregate fair market value (as determined in good faith by the Issuer) taken together with all other Designated Non-cash Consideration received pursuant to this clause (C) that is at that time outstanding (but, to the extent that any such Designated Non-Cash Consideration is sold or otherwise liquidated for cash, minus the lesser of (i) the amount of the cash received (less the cost of disposition, if any) and (ii) the initial amount of such Designated Non-Cash Consideration) not to exceed \$150.0 million at the time of receipt, with the fair market value (as determined in good faith by the Issuer) of each item of Designated Non-cash Consideration being measured at the time received and without giving effect to subsequent changes in value,

shall be deemed to be cash for purposes of this provision and for no other purpose.

Within 450 days after the receipt of any Net Proceeds of any Asset Sale, the Issuer or such Restricted Subsidiary, at its option, may apply the Net Proceeds from such Asset Sale,

(1) to permanently reduce:

(A) Obligations under the Senior Credit Facilities and to correspondingly reduce commitments with respect thereto,

(B) Obligations under *Pari Passu* Indebtedness that are secured by a Lien, which Lien is permitted by the Indenture, and to correspondingly reduce commitments with respect thereto,

(C) Obligations under the Notes (*provided* that such purchases are at or above 100% of the principal amount thereof) or any other *Pari Passu* Indebtedness of the Issuer or a Guarantor (and to correspondingly reduce commitments with respect thereto, if applicable); *provided* that if such Net Proceeds are applied to other *Pari Passu* Indebtedness (other than the Senior Credit Facilities or other Secured Indebtedness) then the Issuer shall (i) equally and ratably reduce Obligations under the Notes (x) as provided under Optional Redemption or (y) through open market purchases (*provided* that such purchases are at or above 100% of the principal amount thereof) or (ii) make an offer (in accordance with the procedures set forth below for an Asset Sale Offer) to all Holders of Notes to purchase their Notes at 100% of the principal amount thereof, plus the amount of accrued but unpaid interest, if any, on the principal amount of Notes that would otherwise be redeemed under clause (i), or

(D) Indebtedness of a Non-Guarantor Subsidiary, other than Indebtedness owed to the Issuer or any of its Restricted Subsidiaries; or

(2) to (A) make an Investment in any one or more businesses; *provided* that such Investment in any business is in the form of the acquisition of Capital Stock and results in the Issuer or any of its Restricted Subsidiaries, as the case may be, owning an amount of the Capital Stock of such business such that it constitutes a Restricted Subsidiary, (B) make capital expenditures or (C) acquire, maintain, develop, construct, improve, upgrade or repair businesses, properties and/or assets (other than Equity Interests in a Person that is not, or does not as a result of any such acquisition become, a Restricted Subsidiary) that, in the case of each of (A), (B) and (C) are either (x) used or useful in a Similar Business or (y) replace the businesses, properties and/or assets that are the subject of such Asset Sale;

*provided* that, in the case of clause (2) above, a binding commitment shall be treated as a permitted application of the Net Proceeds from the date of such commitment so long as the Issuer or such other Restricted Subsidiary enters into such commitment with the good faith expectation that such Net Proceeds will be applied to satisfy such commitment

within 180 days of such commitment (an *Acceptable Commitment* ); and *provided further* that if any Acceptable Commitment is later cancelled or terminated for

any reason before such Net Proceeds are applied, then such Net Proceeds shall constitute Excess Proceeds if not otherwise applied as provided above within 450 days of the receipt of such Net Proceeds; or

(3) any combination of the foregoing.

Any Net Proceeds from an Asset Sale that are not invested or applied as provided and within the time period set forth in the first sentence of the preceding paragraph will be deemed to constitute *Excess Proceeds*. When the aggregate amount of Excess Proceeds exceeds \$50.0 million, the Issuer or any of its Restricted Subsidiaries shall make an offer to all Holders of the Notes and, if required by the terms of any *Pari Passu* Indebtedness, to the holders of such *Pari Passu* Indebtedness (an *Asset Sale Offer*) to purchase the maximum aggregate principal amount of the Notes in minimum denominations of \$2,000 and integral multiples of \$1,000 in excess thereof and such *Pari Passu* Indebtedness that may be purchased out of the Excess Proceeds at an offer price in cash in an amount equal to 100% of the principal amount thereof, plus accrued and unpaid interest, if any (or, in respect of such *Pari Passu* Indebtedness, such lesser price, if any, as may be provided for or permitted by the terms of such *Pari Passu* Indebtedness), to the date fixed for the closing of such offer, in accordance with the procedures set forth in the Indenture.

The Issuer will commence an Asset Sale Offer with respect to Excess Proceeds within ten Business Days after the date that Excess Proceeds exceed \$50.0 million by mailing (or otherwise delivering in accordance with the applicable procedures of DTC) the notice required pursuant to the terms of the Indenture, with a copy to the Trustee.

To the extent that the aggregate principal amount of Notes and such *Pari Passu* Indebtedness tendered pursuant to an Asset Sale Offer is less than the Excess Proceeds, the Issuer may use any remaining Excess Proceeds for general corporate purposes, subject to the other covenants contained in the Indenture. If the aggregate amount (determined as above) of Notes and the *Pari Passu* Indebtedness surrendered in an Asset Sale Offer exceeds the amount of Excess Proceeds, the Trustee shall select the Notes and the Issuer or the agent for such *Pari Passu* Indebtedness shall select such *Pari Passu* Indebtedness to be purchased on a pro rata basis (or as nearly pro rata as practicable) based on the amount (determined as set forth above) of the Notes and such *Pari Passu* Indebtedness tendered, unless otherwise required by law or the rules of the principal national securities exchange, if any, on which the Notes or such *Pari Passu* Indebtedness are listed or by lot or such other similar method in accordance with the procedures of DTC; *provided* that no Notes of \$2,000 or less shall be repurchased in part. Upon completion of any such Asset Sale Offer, the amount of Excess Proceeds shall be reset at zero. The Issuer and its Restricted Subsidiaries, at its option in its sole discretion, may make an Asset Sale Offer and satisfy the obligations described under this covenant *Asset Sales* with respect to any Excess Proceeds prior to the amount of Excess Proceeds exceeding \$50.0 million, in which case, upon completion of any such Asset Sale Offer, the amount of Excess Proceeds shall be reduced by the amounts of such Excess Proceeds. If any Excess Proceeds remain after the completion of an Asset Sale Offer, the Issuer and its Restricted Subsidiaries may use those Excess Proceeds for any purpose not otherwise prohibited by the Indenture.

Pending the final application of any Net Proceeds pursuant to this covenant, the holder of such Net Proceeds may apply such Net Proceeds temporarily to reduce Indebtedness outstanding under a revolving credit facility or otherwise invest such Net Proceeds in any manner not prohibited by the Indenture.

The Issuer will comply with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent such laws or regulations are applicable in connection with the repurchase of the Notes pursuant to an Asset Sale Offer. To the extent that the provisions of any securities laws or regulations conflict with the provisions of the Indenture, the Issuer will comply with the applicable securities laws and regulations and shall not be deemed to have breached its obligations described in the Indenture by virtue thereof.

The provisions under the Indenture relative to the Issuer's obligation to make an offer to repurchase the Notes as a result of an Asset Sale may be waived or modified with the written consent of the Holders of a majority in principal amount of the Notes.

## **Table of Contents**

The Senior Credit Facilities limit or prohibit, and we expect that future credit agreements, indentures or other agreements relating to Indebtedness to which the Issuer becomes a party may limit or prohibit, the Issuer from purchasing any Notes pursuant to this covenant. In the event the Issuer is prohibited from purchasing any Notes pursuant to this covenant, we could seek the consent of our lenders to purchase the Notes or attempt to refinance the borrowings that contain such prohibition. If we do not obtain such consent or repay such borrowings, we will remain prohibited from purchasing the Notes. In this case, our failure to purchase the tendered Notes would constitute a Default under the Indenture.

Our ability to purchase any Notes pursuant to this covenant may be limited by our then-existing financial resources. Therefore, sufficient funds may not be available when necessary to make any required repurchases.

## **Limitation on Guarantees of Indebtedness by Restricted Subsidiaries**

The Issuer will not permit any Subsidiary that is a Restricted Subsidiary other than a Guarantor to guarantee the payment of any Indebtedness of the Issuer or a Guarantor unless (x) the aggregate amount of all such Indebtedness guaranteed by Restricted Subsidiaries that are not Guarantors does not exceed \$50.0 million or (y):

- (1) the aggregate amount of all such Indebtedness guaranteed by Restricted Subsidiaries that are not Guarantors exceeds \$50.0 million;
- (2) within 45 days after the date that such Indebtedness is guaranteed, such Restricted Subsidiary executes and delivers a supplemental indenture to the Indenture providing for a Guarantee by such Restricted Subsidiary, except that with respect to a guarantee of Indebtedness of the Issuer or any Guarantor:
  - (A) if the Notes or such Guarantor's Guarantee is subordinated in right of payment to such Indebtedness, the Guarantee under the supplemental indenture shall be subordinated to such Restricted Subsidiary's guarantee with respect to such Indebtedness substantially to the same extent as the Notes or such Guarantor's Guarantee is subordinated to such Indebtedness; and
  - (B) if such Indebtedness is by its express terms subordinated in right of payment to the Notes or such Guarantor's Guarantee, any such guarantee by such Restricted Subsidiary with respect to such Indebtedness shall be subordinated in right of payment to such Restricted Subsidiary's Guarantee of the Notes substantially to the same extent as such Indebtedness is subordinated to the Notes or such Guarantor's Guarantee; and
  - (C) the Issuer shall within such 45 days deliver to the Trustee an Opinion of Counsel stating that (A) such Guarantee has been duly executed and authorized and (B) such Guarantee constitutes a valid, binding and enforceable obligation of such Restricted Subsidiary, except insofar as enforcement thereof may be limited by bankruptcy, insolvency or similar laws (including all laws relating to fraudulent transfers) and except insofar as enforcement thereof is subject to general principles of equity;

*provided* that this covenant shall not be applicable to any guarantee of any Restricted Subsidiary that existed at the time such Person became a Restricted Subsidiary and was not incurred in connection with, or in contemplation of, such Person becoming a Restricted Subsidiary. The Issuer may elect, in its sole discretion, to cause any Subsidiary that is not otherwise required to be a Guarantor to become a Guarantor, in which case such Subsidiary shall not be required to comply with the 45 day periods described above.

## **Limitation on Sale and Lease-Back Transactions**

The Issuer will not, and will not permit any Restricted Subsidiary to, directly or indirectly, enter into any Sale and Lease-Back Transaction; *provided*, that the Issuer or any Restricted Subsidiary may enter into a Sale and Lease-Back Transaction if:

(1) the Issuer or such Restricted Subsidiary, as applicable, could have (a) incurred Indebtedness in an amount equal to the Attributable Debt relating to such Sale and Lease-Back Transaction under the covenant

## **Table of Contents**

described above under Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock and (b) incurred a Lien to secure such Indebtedness without equally and ratably securing the Notes pursuant to the covenant described above under Liens ; and

(2) the transfer of assets in such Sale and Lease-Back Transaction is permitted by, and the Issuer or such Restricted Subsidiary applies the proceeds of such transaction in compliance with, the covenant described above under Asset Sales.

## **Business Activities**

The Issuer will not, and will not permit any Restricted Subsidiary to, engage in any business other than Similar Businesses, except as would not be material to the Issuer and its Restricted Subsidiaries, taken as a whole.

## **Reports and Other Information**

If, at any time, the Issuer is subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act, the Issuer will file with the SEC, subject to the following sentence, and provide the Trustee (and, upon written request, the Noteholders, to the extent not publicly available on the SEC's EDGAR system (or any successor system) or the Issuer's website) such annual and other reports as are specified in Sections 13 and 15(d) of the Exchange Act and applicable to a U.S. corporation subject to such Sections, such reports to be so filed and provided at the times specified for the filings by the Issuer of such reports under such Sections and containing, in all material respects, the information and audit reports required for such reports. If, at any time, the Issuer is not subject to the periodic reporting requirements of the Exchange Act for any reason, the Issuer will provide the Trustee and make available to Noteholders, prospective investors, market makers affiliated with any Initial Purchaser and securities analysts the reports specified in the preceding sentence by posting such reports to its website or on IntraLinks or any comparable password-protected online data system, in each case, within 15 days after the time the Issuer would be required to file such information with the SEC if it were a non-accelerated filer subject to Section 13 or 15(d) of the Exchange Act.

Notwithstanding the foregoing, (1) none of the foregoing reports (A) will be required to comply with Section 302, Section 404 or Section 906 of the Sarbanes-Oxley Act of 2002, or related Items 307 and 308 of Regulation S-K promulgated by the SEC, (B) will be required to comply with Regulation G or Item 10(e) of Regulation S-K promulgated by the SEC (with respect to any non-GAAP financial measures contained therein), (C) will be required to contain the separate financial information for Guarantors and non-guarantor subsidiaries contemplated by Rule 3-10 of Regulation S-X promulgated by the SEC, (D) will be required to present compensation or beneficial ownership information and (E) will be required to contain information required by Item 601 of Regulation S-K and (2) if any parent of the Issuer becomes a guarantor of the Notes, the reports, information and other documents required to be filed and provided as described above may be those of the parent, rather than those of the Issuer, so long as such filings would satisfy the SEC's requirements; *provided* that such reports include a reasonable explanation of the material differences between the assets, liabilities and results of operations of such parent and its consolidated Subsidiaries on the one hand, and the Issuer and its Restricted Subsidiaries on the other hand.

Notwithstanding anything herein to the contrary, the Issuer will not be deemed to have failed to comply with any of its obligations described under this covenant for purposes of clause (3) under Events of Defaults and Remedies until 120 days after the date any report hereunder is due. To the extent any such information is not so filed or provided, as applicable, within the time periods specified above and such information is subsequently filed or provided, as applicable, the Issuer will be deemed to have satisfied its obligations with respect thereto at such time and any Default or Event of Default with respect thereto shall be deemed to have been cured at such time; *provided* that such cure shall not otherwise affect the rights of the Holders under Events of Default and Remedies if Holders of at least 25% in

principal amount of the then total outstanding Notes have declared the principal of accrued but unpaid and interest on all the then outstanding Notes to be due and payable immediately and such declaration shall not have been rescinded or cancelled prior to such cure.

In addition, at any time when the Issuer is not subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act, the Issuer will agree that, for so long as any Notes remain outstanding and are restricted securities within the meaning of Rule 144(a)(3) under the Securities Act, it will furnish to the Holders and to prospective investors, upon their written request, the information required to be delivered pursuant to Rule 144A(d)(4) under the Securities Act.

Delivery of reports, information and documents to the Trustee under the Indenture is for informational purposes only and the information and such trustee's receipt of the foregoing shall not constitute constructive notice of any information contained therein, or determinable from information contained therein including our compliance with any of its covenants thereunder (as to which such trustee is entitled to rely exclusively on an officer's certificate).

## **Events of Default and Remedies**

The Indenture provides that each of the following is an *Event of Default* with respect to the Notes:

- (1) default in payment when due and payable, upon redemption, acceleration or otherwise, of principal of the Notes;
- (2) default for 30 days or more in the payment when due of interest on or with respect to the Notes;
- (3) failure by the Issuer or any Restricted Subsidiary for 60 days after receipt of written notice given by the Trustee or the Holders of not less than 25% in principal amount of the Notes then outstanding to comply with any of its other obligations, covenants or agreements (other than a default referred to in clause (1) or (2) above) contained in the Indenture or the Notes;
- (4) default under any mortgage, indenture or instrument under which there is issued or by which there is secured or evidenced any Indebtedness for money borrowed by the Issuer or any of its Restricted Subsidiaries or the payment of which is guaranteed by the Issuer or any of its Restricted Subsidiaries, other than Indebtedness owed to the Issuer or a Restricted Subsidiary, whether such Indebtedness or guarantee now exists or is created after the issuance of the Notes, if both:
  - (A) such default either results from the failure to pay any principal of such Indebtedness at its stated final maturity (after giving effect to any applicable grace periods) or relates to an obligation other than the obligation to pay principal of any such Indebtedness at its stated final maturity and results in the holder or holders of such Indebtedness causing such Indebtedness to become due prior to its stated maturity; and
  - (B) the principal amount of such Indebtedness, together with the principal amount of any other such Indebtedness in default for failure to pay principal at stated final maturity (after giving effect to any applicable grace periods), or the maturity of which has been so accelerated, aggregate \$150.0 million or more;
- (5) failure by the Issuer or any Significant Subsidiary to pay final judgments aggregating in excess of \$150.0 million (other than any judgments covered by indemnities provided by, or insurance policies issued by, reputable and creditworthy companies), which final judgments remain unpaid, undischarged and unstayed for a period of more than 60 days after such judgment becomes final, and in the event such judgment is not covered by an indemnity or insurance, an enforcement proceeding has been commenced by any creditor upon such judgment or decree which is not promptly stayed;
- (6) certain events of bankruptcy or insolvency with respect to the Issuer or any Significant Subsidiary; or

(7) the Guarantee of any Significant Subsidiary shall for any reason cease to be in full force and effect (except as otherwise not prohibited by the Indenture) or be declared null and void or any responsible officer of such Guarantor that is a Significant Subsidiary denies that it has any further liability under its Guarantee or gives notice to such effect, in each case other than by reason of the termination of the Indenture or the release of any such Guarantee in accordance with the Indenture.

---

**Table of Contents**

If any Event of Default (other than of a type specified in clause (6) above with respect to the Issuer) occurs and is continuing under the Indenture, the Trustee (acting at the direction of the Holders of at least 25% in principal amount of the then total outstanding Notes) or the Holders of at least 25% in principal amount of the then total outstanding Notes may declare the principal of, and accrued but unpaid interest, if any, on, all the then outstanding Notes to be due and payable immediately.

Upon the effectiveness of such declaration, such principal and any accrued and unpaid interest on all the then outstanding Notes will be due and payable immediately. Notwithstanding the foregoing, in the case of an Event of Default arising under clause (6) of the first paragraph of this section with respect to the Issuer, the principal of, and accrued but unpaid interest, if any, on, all the then outstanding Notes will become due and payable without further action or notice.

The Indenture provides that the Trustee may withhold from the Holders notice of any continuing Default or Event of Default, except a Default or Event of Default relating to the payment of principal or interest, if it determines that withholding notice is in their interest. In addition, the Trustee shall have no obligation to accelerate the Notes if in the reasonable judgment of the Trustee acceleration is not in the best interest of the Holders of the Notes.

The Indenture provides that the Holders of a majority in aggregate principal amount of the then outstanding Notes by notice to the Trustee may on behalf of the Holders of all of the Notes waive any existing Default or Event of Default and its consequences under the Indenture except a continuing Default or Event of Default in the payment of interest on or the principal of any Note held by a non-consenting Holder and rescind any acceleration and its consequences with respect to the Notes (except if such recession would conflict with any judgment of a court of competent jurisdiction). In the event of any Event of Default specified in clause (4) above, such Event of Default and all consequences thereof (excluding any resulting payment default, other than as a result of acceleration of the Notes) shall be annulled, waived and rescinded, automatically and without any action by the Trustee or the Holders, if within 20 days after such Event of Default arose:

- (1) the Indebtedness or guarantee that is the basis for such Event of Default has been discharged; or
- (2) the holders thereof have rescinded or waived the acceleration, notice or action (as the case may be) giving rise to such Event of Default; or
- (3) the default that is the basis for such Event of Default has been cured.

Subject to the provisions of the Indenture relating to the duties of the Trustee thereunder, in case an Event of Default occurs and is continuing, the Trustee is under no obligation to exercise any of the rights or powers under the Indenture at the request or direction of any of the Holders of the Notes unless the Holders have offered to the Trustee indemnity or security satisfactory to the Trustee against any loss, liability or expense. Except to enforce the right to receive payment of principal or interest when due, no Holder of a Note may pursue any remedy with respect to the Indenture or the Notes unless:

- (1) such Holder has previously given the Trustee written notice that an Event of Default is continuing with respect to the Notes;
- (2) Holders of at least 25% in principal amount of the total outstanding Notes have requested the Trustee in writing to pursue the remedy;

- (3) Holders of the Notes have offered the Trustee security or indemnity satisfactory to the Trustee against any loss, liability or expense;
- (4) the Trustee has not complied with such written request within 60 days after the receipt thereof and the offer of security or indemnity against any loss, liability or expense; and
- (5) Holders of a majority in principal amount at maturity of the total outstanding Notes have not given the Trustee a direction inconsistent with such request within such 60-day period.

## **Table of Contents**

Subject to certain restrictions, under the Indenture the Holders of a majority in principal amount of the total outstanding Notes will be given the right to direct the time, method and place of conducting any proceeding for any remedy available to the Trustee or of exercising any trust or power conferred on the Trustee. The Trustee, however, may refuse to follow any direction that conflicts with law or the Indenture or that the Trustee determines is unduly prejudicial to the rights of any other Holder of a Note or that would involve the Trustee in personal liability.

The Indenture provides that the Issuer is required to deliver to the Trustee annually a statement regarding compliance with the Indenture, and the Issuer is required, within 30 days after becoming aware of any Default, to deliver to the Trustee a statement specifying such Default.

## **No Personal Liability of Directors, Officers, Employees and Stockholders**

No director, officer, employee, incorporator, member or stockholder of the Issuer or any Guarantor, in their capacity as such, shall have any liability for any obligations of the Issuer or the Guarantors under the Notes, the Guarantees or the Indenture or for any claim based on, in respect of, or by reason of such obligations or their creation. Each Holder by accepting Notes waives and releases all such liability. The waiver and release are part of the consideration for issuance of the Notes. Such waiver may not be effective to waive liabilities under the federal securities laws.

## **Legal Defeasance and Covenant Defeasance**

The obligations of the Issuer and the Guarantors under the Indenture and the Notes will terminate (other than certain obligations) and will be released upon payment in full of the Notes. The Issuer may, at its option and at any time, elect to have all of its obligations discharged with respect to the Indenture and the Notes and have the Issuer's and each Guarantor's obligation discharged with respect to its related Guarantee ( *Legal Defeasance* ) and cure all then existing Events of Default except for:

- (1) the rights of Holders of the Notes to receive payments in respect of the principal of, premium, if any, and interest on the Notes when such payments are due solely out of the trust created pursuant to the Indenture and the Notes;
- (2) the Issuer's obligations with respect to the Indenture and the Notes concerning issuing temporary Notes, registration of such Notes, mutilated, destroyed, lost or Notes and the maintenance of an office or agency for payment and money for security payments held in trust;
- (3) the rights, powers, trusts, duties and immunities of the Trustee, and the Issuer's obligations in connection therewith; and
- (4) the Legal Defeasance provisions of the Indenture and the Notes.

In addition, the Issuer may, at its option and at any time, elect to have its obligations and those of each Guarantor released with respect to substantially all of the restrictive covenants in the Indenture and the Notes ( *Covenant Defeasance* ) and thereafter any omission to comply with such obligations shall not constitute a Default with respect to the Indenture and the Notes. In the event Covenant Defeasance occurs with respect to the Indenture and the Notes, certain events (not including bankruptcy, receivership, rehabilitation and insolvency events pertaining to the Issuer) described under Events of Default and Remedies will no longer constitute an Event of Default with respect to the Indenture and the Notes.

In order to exercise either Legal Defeasance or Covenant Defeasance with respect to the Indenture and the Notes:

(1) the Issuer must irrevocably deposit with the Trustee, in trust, for the benefit of the Holders of the Notes, cash in U.S. dollars, Government Securities, or a combination thereof, in such amounts as will be sufficient, in the opinion of a nationally recognized firm of Independent Financial Advisors, to pay the

principal amount of, premium, if any, and interest due on the Notes on the stated maturity date or on the Redemption Date, as the case may be, of such principal amount, premium, if any, or interest on the Notes and the Issuer must specify whether the Notes are being defeased to maturity or to a particular Redemption Date;

(2) in the case of Legal Defeasance, the Issuer shall have delivered to the Trustee an Opinion of Counsel reasonably acceptable to the Trustee confirming that, subject to customary assumptions and exclusions,

(A) the Issuer has received from, or there has been published by, the United States Internal Revenue Service a ruling, or

**Amendment, Supplement and Waiver**

Except as provided in the next two succeeding paragraphs, the Indenture, any Guarantee and the Notes may be amended or supplemented with the consent of the Holders of at least a majority in principal amount of the Notes then outstanding, other than Notes beneficially owned by the Issuer or its Affiliates (including consents obtained in connection with a purchase of, or tender offer or exchange offer for Notes), and any existing Default or Event of Default or compliance with any provision of the Indenture or the Notes issued thereunder may be waived with the consent of the Holders of a majority in principal amount of the then outstanding Notes, other than Notes beneficially owned by the Issuer or its Affiliates (including consents obtained in connection with a purchase of or tender offer or exchange offer for the Notes).

The Indenture provides that, without the consent of each affected Holder of Notes, an amendment or waiver may not, with respect to any Notes held by a non-consenting Holder:

(1) reduce the principal amount of Notes whose Holders must consent to an amendment, supplement or waiver;

(2) reduce the principal amount of or change the fixed final maturity of any Note or reduce the premium payable upon redemption or change the time at which such Note may be redeemed (excluding any amendment or waiver of any minimum notice period for redemption which may be amended with the consent of the Holders of at least a majority of the Notes then outstanding) as described under **Optional Redemption** ;

(3) reduce the rate of or change the time for payment of interest on any Note;

(4) waive a Default or Event of Default in the payment of principal of or interest on the Notes, except a rescission of acceleration of the Notes by the Holders of at least a majority in aggregate principal amount of Notes and a waiver of the payment default that resulted from such acceleration;

**Table of Contents**

(8) impair the contractual right of any Holder to receive payment of principal of, or interest on such Holder's Notes on or after the due dates therefor or to institute suit for the enforcement of any payment on or with respect to such Holder's Notes;

(9) make any change to or modify the ranking as to contractual right of payment of the Notes that would adversely affect the Holders; or

(10) except as expressly permitted by the Indenture, modify the terms of the Guarantees of any Significant Subsidiary in any manner adverse to the Holders of the Notes.

Notwithstanding the foregoing, the Issuer, any Guarantor (with respect to a Guarantee or the Indenture) and the Trustee may amend or supplement the Indenture and any Guarantee or the Notes without the consent of any Holder:

(1) to cure any ambiguity, omission, mistake, defect or inconsistency;

(2) to provide for uncertificated Notes in addition to or in place of certificated Notes;

(3) to comply with the covenant relating to mergers, consolidations and sales of assets;

(4) to provide the assumption of the Issuer's or any Guarantor's obligations to the Holders;

(5) to make any change that would provide any additional rights or benefits to the Holders or that in the good faith judgment of the Issuer does not materially adversely affect the legal rights under the Indenture of any such Holder;

(6) to add covenants for the benefit of the Holders or to surrender any right or power conferred upon the Issuer or any Guarantor;

(7) to comply with requirements of the SEC or to comply with the rules of any applicable securities depository;

(12) to add to, change, eliminate or otherwise amend provisions of the Indenture, the Guarantees or the Notes in accordance with the Trust Indenture Act of 1939, as amended, or to comply with the provisions of the DTC, Euroclear or Clearstream or the Trustee with respect to provisions relating to the transfer, exchange or legending of Notes or beneficial interests in the Notes as permitted by the Indenture, including to facilitate the issuance and administration of the Notes; *provided, however*, that (i) compliance with the Indenture as so amended would not result in Notes being transferred in violation of the Securities Act or any applicable securities law and (ii) such amendment in the good faith judgment of the Issuer does not materially and adversely affect the rights of Holders to transfer Notes.

The consent of the Holders is not necessary under the Indenture to approve the particular form of any proposed amendment. It is sufficient if such consent approves the substance of the proposed amendment.

The Issuer will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, pay or cause to be paid any consideration to or for the benefit of any Holder of Notes for or as an inducement to any consent, waiver or amendment of any of the terms or provisions of the Indenture or the Notes unless such consideration is offered to be paid to all Holders of the Notes that consent, waive or agree to amend in the time frame set forth in the solicitation documents relating to such consent, waiver or agreement.

### **Governing Law**

The Indenture, the Notes and any Guarantee are governed by, and construed in accordance with, the laws of the State of New York.

### **Financial Calculations for Limited Condition Acquisitions and Irrevocable Notices**

With respect to any (x) acquisition or similar Investment by the Issuer or one or more of its Restricted Subsidiaries whose consummation is not conditioned upon the availability of, or on obtaining, third-party financing (whether by merger, consolidation or other business combination or the acquisition of Capital Stock or otherwise) (any such acquisition or Investment, a *Limited Condition Acquisition* ) or (y) repayment, repurchase or refinancing of Indebtedness with respect to which an irrevocable notice of repayment (or similar irrevocable notice) has been delivered (any such notice, an *Irrevocable Notice Transaction* ), in each case, for purposes of determining:

- (1) whether any Indebtedness (including Acquired Indebtedness) that is being incurred in connection with such Limited Condition Acquisition or Irrevocable Notice Transaction is permitted to be incurred in compliance with the covenant described under the caption *Certain Covenants Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock* ;
- (2) whether any Lien being incurred in connection with such Limited Condition Acquisition or Irrevocable Notice Transaction or to secure any such Indebtedness is permitted to be incurred in accordance with the covenant described under the caption *Certain Covenants Liens* or the definition of *Permitted Liens* ;
- (3) whether any other transaction undertaken or proposed to be undertaken in connection with such Limited Condition Acquisition or Irrevocable Notice Transaction complies with the covenants or agreements contained in the Indenture or the Notes; and
- (4) any calculation of the Consolidated Net Leverage Ratio, Consolidated Secured Net Leverage Ratio, Net Income, Consolidated Net Income and/or Consolidated Adjusted EBITDA and, whether a Default or Event of Default exists in

connection with the foregoing,

at the option of the Issuer, using the date that the definitive agreement for such Limited Condition Acquisition is entered into or the date that an irrevocable notice is given for such Irrevocable Notice Transaction, as the case

---

**Table of Contents**

may be (any such date, the *LCT Election Date* ) may be used as the applicable date of determination, as the case may be, in each case with such *pro forma* adjustments as are appropriate and consistent with the *pro forma* adjustment provisions set forth in the definition of *Consolidated Net Leverage Ratio* or *Consolidated Adjusted EBITDA*. For the avoidance of doubt, if the Issuer elects to use the LCT Election Date as the applicable date of determination in accordance with the foregoing, (a) any fluctuation or change in the Consolidated Net Leverage Ratio, Consolidated Secured Net Leverage Ratio, Net Income, Consolidated Net Income, and/or Consolidated Adjusted EBITDA of the Issuer, the target business or assets to be acquired subsequent to the LCT Election Date and at or prior to the consummation of such acquisition or similar Investment or repayment, repurchase or refinancing of Indebtedness, will not be taken into account for purposes of determining whether any Indebtedness or Lien that is being incurred in connection with such acquisition or similar Investment or repayment, repurchase or refinancing of Indebtedness is permitted to be incurred or in connection with compliance by the Issuer or any of the Restricted Subsidiaries with any other provision of the Indenture or the Notes or any other transaction undertaken in connection with such acquisition or similar Investment or repayment, repurchase or refinancing of Indebtedness and (b) until such acquisition or similar Investment or repayment, repurchase or refinancing of Indebtedness is consummated or such definitive agreements are terminated, such acquisition or similar Investment or repayment, repurchase or refinancing of Indebtedness and all transactions proposed to be undertaken in connection therewith (including the incurrence of Indebtedness and Liens) will be given *pro forma* effect when determining compliance of other transactions (including the incurrence of Indebtedness and Liens unrelated to such acquisition or similar Investment or repayment, repurchase or refinancing of Indebtedness) that are consummated after the LCT Election Date and on or prior to the consummation of such acquisition or similar Investment or repayment, repurchase or refinancing of Indebtedness and any such transactions (including any incurrence of Indebtedness and the use of proceeds thereof) will be deemed to have occurred on the date the definitive agreements are entered and outstanding thereafter for purposes of calculating any baskets or ratios under the Indenture after the date of such agreement and before the consummation of such acquisition or similar Investment or repayment, repurchase or refinancing of Indebtedness; *provided* that in connection with the making of Restricted Payments, the calculation of Consolidated Net Income (and any defined term a component of which is Consolidated Net Income) will not, in any case, assume such acquisition or similar Investment has been consummated. In addition, the Indenture provides that compliance with any requirement relating to absence of Default or Event of Default may be determined as of the LCT Election Date and not as of any later date as would otherwise be required under the Indenture. In the event an item of Indebtedness, Disqualified Stock or Preferred Stock (or any portion thereof) is incurred or issued, any Lien is incurred or other transaction is undertaken on the same date that any other item of Indebtedness, Disqualified Stock or Preferred Stock (or any portion thereof) is incurred or issued, any other Lien is incurred or other transaction is undertaken, then the Consolidated Net Leverage Ratio or Consolidated Secured Net Leverage Ratio will be calculated with respect to such incurrence, issuance or other transaction without regard to any other incurrence, issuance or transaction. Each item of Indebtedness, Disqualified Stock or Preferred Stock that is incurred or issued, each Lien incurred and each other transaction undertaken will be deemed to have been incurred, issued or taken first, to the extent available, pursuant to the relevant Consolidated Net Leverage Ratio or Consolidated Secured Net Leverage Ratio.

*Consolidated Net Leverage Ratio* means, as of any date of determination, the ratio of:

(1) the Consolidated Total Net Debt of the Issuer and its Restricted Subsidiaries on such date, to

(2) Consolidated Adjusted EBITDA of the Issuer and its Restricted Subsidiaries for the most recently ended four full fiscal quarters ending immediately prior to such date for which Required Financial Statements have been delivered.

In the event that the Issuer or any of its Restricted Subsidiaries (i) incurs, assumes, guarantees, redeems, retires or extinguishes any Indebtedness (other than Indebtedness repaid, redeemed, retired or extinguished under any revolving credit facility, except to the extent such revolving credit facility is permanently reduced and has not been replaced) or (ii) issues or redeems Disqualified Stock or Preferred Stock, in each case subsequent to the period for which the Consolidated Net Leverage Ratio is being calculated but prior to or substantially simultaneously with the event for which the calculation of the Consolidated Net Leverage Ratio is made (the *Consolidated Net Leverage Ratio Calculation Date*), then (x) the Consolidated Total Net Debt shall be calculated giving *pro forma* effect to such incurrence, assumption, guarantee, redemption, retirement or extinguishment of Indebtedness, or such issuance or redemption of Disqualified Stock or Preferred Stock, as if the same had occurred as of the date of determination of Consolidated Total Net Debt referred to in clause (1) above and (y) the Consolidated Adjusted EBITDA shall be calculated giving *pro forma* effect to such incurrence, assumption, guarantee, redemption, retirement or extinguishment of Indebtedness, or such issuance or redemption of Disqualified Stock or Preferred Stock, as if the same had occurred as of the beginning of the applicable four fiscal quarter period.

For purposes of making the computation referred to above, Investments, acquisitions, dispositions, mergers, amalgamations, consolidations and discontinued operations in each case with respect to a business (as such term is used in Regulation S-X Rule 11-01), a company, a segment, an operating division or unit or line of business that the Issuer or any of its Restricted Subsidiaries has determined to make and/or made during the four-quarter reference period or subsequent to such reference period and on or prior to or simultaneously with the Consolidated Net Leverage Ratio Calculation Date (each, for purposes of this definition, a *pro forma event*) shall be calculated on a *pro forma* basis assuming that all such Investments, acquisitions, dispositions, mergers, amalgamations, consolidations and discontinued operations had occurred on the first day of the four-quarter reference period. If since the beginning of such period any Person that subsequently became a Restricted Subsidiary or was merged with or into the Issuer or any of its Restricted Subsidiaries since the beginning of such period shall have made or effected any Investment, acquisition, disposition, merger, amalgamation, consolidation or discontinued operation, in each case with respect to a business (as such term is used in Regulation S-X Rule 11-01), a company, a segment, an operating division or unit or line of business that would have required adjustment pursuant to this definition, then the Consolidated Net Leverage Ratio shall be calculated giving *pro forma* effect thereto for such period as if such Investment, acquisition, disposition, merger, amalgamation, consolidation or discontinued operation had occurred at the beginning of the applicable four-quarter period.

For purposes of this definition, whenever *pro forma* effect is to be given to a transaction, the *pro forma* calculations shall be made in good faith by a responsible financial or accounting officer of the Issuer. Any such *pro forma* calculation may include adjustments appropriate, in the good faith determination of the Issuer as set forth in an Officer's Certificate, to reflect reasonably identifiable and factually supportable operating expense

reductions and other operating improvements or synergies reasonably expected to result from any action taken or expected to be taken within 18 months after the date of any *pro forma* event; *provided*, that (x) no such amounts shall be included pursuant to this paragraph to the extent duplicative of any amounts that are otherwise added back in computing Consolidated Adjusted EBITDA with respect to such period and (y) such amounts shall be subject to the limitations contained in clause (J) of the definition of Consolidated Adjusted EBITDA.

If any Indebtedness bears a floating rate of interest and is being given *pro forma* effect, the interest on such Indebtedness shall be calculated as if the rate in effect on the date of determination had been the applicable rate for the entire period (taking into account any Hedging Obligations applicable to such Indebtedness).

*Consolidated Secured Net Leverage Ratio* means, as of the date of determination, the ratio of (1) the Consolidated Total Net Debt of the Issuer and its Restricted Subsidiaries that is secured by a Lien on any property or assets of the Issuer or any of its Restricted Subsidiaries as of such date, to (2) Consolidated Adjusted EBITDA of the Issuer and its Restricted Subsidiaries for the most recently ended four full fiscal quarters ending immediately prior to such date for which Required Financial Statements have been delivered, in each case with such *pro forma* adjustments to the Consolidated Total Net Debt and Consolidated Adjusted EBITDA as are appropriate and consistent with the *pro forma* adjustment provisions set forth in the definition of Consolidated Net Leverage Ratio as determined in good faith by the Issuer; *provided, however*, that solely for purposes of the calculation of the Consolidated Secured Net Leverage Ratio, in connection with the incurrence of (x) any Indebtedness pursuant to clause (1)(B)(ii) of the second paragraph of the covenant described under Certain Covenants Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock and any Lien pursuant to clause (36) of the definition of *Permitted Liens* and (y) any Lien pursuant to clause (37) of the definition of *Permitted Liens*, the Issuer may elect, pursuant to an Officer's Certificate delivered to the Trustee, to treat all or any portion of the commitment under any Indebtedness which is to be incurred and/or secured by such Lien, as the case may be, as being incurred at such time and any subsequent incurrence of Indebtedness under such commitment shall not be deemed, for purposes of this calculation, to be an incurrence at such subsequent time.

*Consolidated Total Net Debt* means, as of any date of determination, the sum, without duplication, of (1) the total amount of (A) Indebtedness for borrowed money, (B) Indebtedness evidenced by bonds, notes (other than notes in favor of trade creditors evidencing trade payables incurred in the ordinary course of business), debentures or other similar instruments for the payment of which such Person is liable, (C) Capitalized Lease Obligations, (D) the Notes and (E) guarantees of the foregoing, in each case, of the Issuer and its Restricted Subsidiaries (excluding (x) Indebtedness in respect of letters of credit and bankers' acceptances (or, without duplication, reimbursement agreements in respect thereof) and for the avoidance of doubt, performance and surety bonds not constituting bonds evidencing indebtedness for borrowed money, except to the extent of unreimbursed amounts drawn thereunder, (y) intercompany Indebtedness and (z) Indebtedness in respect of Hedging Obligations not yet due and owing), outstanding on such date; *minus* (2) up to \$250.0 million of Eligible Cash included in the consolidated balance sheet of the Issuer and its Restricted Subsidiaries, as of the most recently ended fiscal period for which Required Financial Statements have been delivered (with such *pro forma* adjustments as are appropriate and consistent with the *pro forma* adjustment provisions set forth in the definition of *Consolidated Net Leverage Ratio* as determined in good faith by the Issuer); *plus* (3) the greater of (i) the aggregate liquidation value and (ii) maximum fixed repurchase price without regard to any change of control or redemption premiums of all Disqualified Stock of the Issuer and the Guarantors and all Preferred Stock of Restricted Subsidiaries, in each case determined on a consolidated basis in accordance with GAAP. For purposes of this definition, the maximum fixed repurchase price of any Disqualified Stock or Preferred Stock that does not have a fixed repurchase price shall be calculated in accordance with the terms of such Disqualified Stock or Preferred Stock as if such Disqualified Stock or Preferred Stock were purchased on any date on which Consolidated Total Net Debt shall be required to be determined pursuant to the Indenture, and if such price is based upon, or measured by, the fair market value of such Disqualified Stock or Preferred Stock, such fair market value shall

be the fair market value (as determined in good faith by the Issuer).

**BOOK-ENTRY, SETTLEMENT AND CLEARANCE**

**The Global Notes**

The exchange notes issued in exchange for outstanding unregistered notes will be represented by global notes in definitive, fully registered form, without interest coupons (collectively, the global notes ).

Upon issuance, the global notes will be deposited with the Trustee as custodian for the DTC and registered in the name of Cede & Co., as nominee of DTC.

Ownership of beneficial interests in each global note will be limited to persons who have accounts with DTC ( DTC participants ) or persons who hold interests through DTC participants. We expect that under procedures established by DTC:

upon deposit of each global note with DTC s custodian, DTC will credit portions of the principal amount of the global note to the accounts of the DTC participants designated by the initial purchasers; and

ownership of beneficial interests in each global note will be shown on, and transfer of ownership of those interests will be effected only through, records maintained by DTC (with respect to interests of DTC participants) and the records of DTC participants (with respect to other owners of beneficial interests in the global note).

Beneficial interests in the global notes may not be exchanged for notes in physical, certificated form except in the limited circumstances described below.

**Book-entry Procedures for the Global Notes**

All interests in the global notes will be subject to the operations and procedures of DTC, Euroclear and Clearstream. We provide the following summaries of those operations and procedures solely for the convenience of investors. The operations and procedures of each settlement system are controlled by that settlement system and may be changed at any time. We are not responsible for those operations or procedures.

DTC has advised us that it is:

a limited purpose trust company organized under the laws of the State of New York;

a banking organization within the meaning of the New York State Banking Law;

a member of the Federal Reserve System;

a clearing corporation within the meaning of the Uniform Commercial Code; and

a clearing agency registered under Section 17A of the Exchange Act.

DTC was created to hold securities for its participants and to facilitate the clearance and settlement of securities transactions between its participants through electronic book-entry changes to the accounts of its participants. DTC's participants include securities brokers and dealers; banks and trust companies; clearing corporations and other organizations. Indirect access to DTC's system is also available to others such as banks, brokers, dealers and trust companies; these indirect participants clear through or maintain a custodial relationship with a DTC participant, either directly or indirectly. Investors who are not DTC participants may beneficially own securities held by or on behalf of DTC only through DTC participants or indirect participants in DTC.

So long as DTC's nominee is the registered owner of a global note, that nominee will be considered the sole owner or holder of the notes represented by that global note for all purposes under the indenture. Except as provided below, owners of beneficial interests in a global note:

will not be entitled to have notes represented by the global note registered in their names;

## **Table of Contents**

will not receive or be entitled to receive physical, certificated notes; and

will not be considered the owners or holders of the notes under the indenture for any purpose, including with respect to the giving of any direction, instruction or approval to the Trustee under the indenture.

As a result, each investor who owns a beneficial interest in a global note must rely on the procedures of DTC to exercise any rights of a holder of notes under the indenture (and, if the investor is not a participant or an indirect participant in DTC, on the procedures of the DTC participant through which the investor owns its interest).

Payments of principal, premium (if any) and interest with respect to the notes represented by a global note will be made by the Trustee to DTC's nominee as the registered holder of the global note. Neither we nor the Trustee will have any responsibility or liability for the payment of amounts to owners of beneficial interests in a global note, for any aspect of the records relating to or payments made on account of those interests by DTC, or for maintaining, supervising or reviewing any records of DTC relating to those interests.

Payments by participants and indirect participants in DTC to the owners of beneficial interests in a global note will be governed by standing instructions and customary industry practice and will be the responsibility of those participants or indirect participants and DTC.

Transfers between participants in DTC will be effected under DTC's procedures and will be settled in same-day funds. Transfers between participants in Euroclear or Clearstream will be effected in the ordinary way under the rules and operating procedures of those systems.

Cross-market transfers between DTC participants, on the one hand, and Euroclear or Clearstream participants, on the other hand, will be effected within DTC through the DTC participants that are acting as depositaries for Euroclear and Clearstream. To deliver or receive an interest in a global note held in a Euroclear or Clearstream account, an investor must send transfer instructions to Euroclear or Clearstream, as the case may be, under the rules and procedures of that system and within the established deadlines of that system. If the transaction meets its settlement requirements, Euroclear or Clearstream, as the case may be, will send instructions to its DTC depository to take action to effect final settlement by delivering or receiving interests in the relevant global notes in DTC, and making or receiving payment under normal procedures for same-day funds settlement applicable to DTC. Euroclear and Clearstream participants may not deliver instructions directly to the DTC depositaries that are acting for Euroclear or Clearstream.

Because of time zone differences, the securities account of a Euroclear or Clearstream participant that purchases an interest in a global note from a DTC participant will be credited on the business day for Euroclear or Clearstream immediately following the DTC settlement date. Cash received in Euroclear or Clearstream from the sale of an interest in a global note to a DTC participant will be received with value on the DTC settlement date but will be available in the relevant Euroclear or Clearstream cash account as of the business day for Euroclear or Clearstream following the DTC settlement date.

DTC, Euroclear and Clearstream have agreed to the above procedures to facilitate transfers of interests in the global notes among participants in those settlement systems. However, the settlement systems are not obligated to perform these procedures and may discontinue or change these procedures at any time. Neither we, the Exchange Agent nor the Trustee will have any responsibility for the performance by DTC, Euroclear or Clearstream or their participants or indirect participants of their obligations under the rules and procedures governing their operations.

## **Certificated Notes**

Notes in physical, certificated form will be issued and delivered to each person that DTC identifies as a beneficial owner of the related notes only if:

DTC notifies us at any time that it is unwilling or unable to continue as depository for the global notes and a successor depository is not appointed within 90 days;

**Table of Contents**

DTC ceases to be registered as a clearing agency under the Exchange Act and a successor depository is not appointed within 90 days;

we, at our option, notify the Trustee that we elect to cause the issuance of certificated notes; or

certain other events provided in the indenture should occur.

**MATERIAL UNITED STATES FEDERAL INCOME TAX CONSEQUENCES**

The exchange of outstanding unregistered notes for exchange notes in the exchange offer will not constitute a taxable event to holders for United States federal income tax purposes. Consequently, no gain or loss will be recognized by a holder upon receipt of an exchange note, the holding period of the exchange note will include the holding period of the outstanding unregistered note exchanged therefor, and the basis of the exchange note will be the same as the basis of the outstanding unregistered note immediately before the exchange.

**Persons considering the exchange of outstanding unregistered notes for exchange notes should consult their own tax advisors concerning the United States federal income tax consequences of the exchange in light of their particular situations as well as any non-United States federal income tax consequences of the exchange, such as United States federal estate, state, local and foreign tax consequences.**

**PLAN OF DISTRIBUTION**

Each broker-dealer that receives exchange notes for its own account pursuant to the registered exchange offer must acknowledge that it will deliver a prospectus in connection with any resale of such exchange notes. This prospectus, as it may be amended or supplemented from time to time, may be used by a broker-dealer in connection with resales of exchange notes received in exchange for unregistered notes where such notes were acquired as a result of market-making activities or other trading activities. We have agreed that, for a period ending on the earlier of (i) 180 days from the date on which the this registration statement is declared effective and (ii) the date on which broker-dealers are no longer required to deliver a prospectus in connection with market-making or other trading activities, we will make this prospectus, as amended or supplemented, available to any broker-dealer for use in connection with any such resale. In addition, until April 30, 2019, all dealers effecting transactions in the exchange notes may be required to deliver a prospectus.

We will not receive any proceeds from any sale of exchange notes by brokers-dealers. Exchange notes received by broker-dealers for their own account pursuant to the registered exchange offer may be sold from time to time in one or more transactions in the over-the-counter market, in negotiated transactions, through the writing of options on the exchange notes or a combination of such methods of resale, at market prices prevailing at the time of resale, at prices related to such prevailing market prices or negotiated prices. Any such resale may be made directly to purchasers or to or through brokers or dealers who may receive compensation in the form of commissions or concessions from any such broker-dealer and/or the purchasers of any such exchange notes. Any broker-dealer that resells exchange notes that were received by it for its own account pursuant to the registered exchange offer and any broker or dealer that participates in a distribution of such exchange notes may be deemed to be an underwriter within the meaning of the Act and any profit of any such resale of exchange notes and any commissions or concessions received by any such persons may be deemed to be underwriting compensation under the Securities Act. The letter of transmittal states that by acknowledging that it will deliver and by delivering a Prospectus, a broker dealer will not be deemed to admit that it is an underwriter within the meaning of the Securities Act.

For a period ending on the earlier of (i) 180 days from the date on which this registration statement is declared effective and (ii) the date on which broker dealers are no longer required to deliver a prospectus in connection with market-making or other trading activities, we will promptly send additional copies of this prospectus and any amendments or supplements to this prospectus to any broker-dealer that requests such documents in the letter of transmittal.

We have agreed to pay all expenses incident to the registered exchange offer (including the reasonable and documented expenses of one counsel for the holder of the Securities) other than commissions or concessions of any brokers or dealers and will indemnify the holders of the notes (including any broker-dealers) against certain liabilities, including liabilities under the Securities Act.

The Board of Directors and Shareholders

Meredith Corporation:

*Opinions on the Consolidated Financial Statements and Internal Control Over Financial Reporting*

We have audited the accompanying consolidated balance sheets of Meredith Corporation and subsidiaries (the Company) as of June 30, 2018 and 2017, the related consolidated statements of earnings, comprehensive income, shareholders' equity, and cash flows for each of the years in the three-year period ended June 30, 2018, and the related notes and financial statement schedule II-Valuation and Qualifying Accounts (collectively, the consolidated financial statements). We also have audited the Company's internal control over financial reporting as of June 30, 2018, based on criteria established in *Internal Control - Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of June 30, 2018 and 2017, and the results of its operations and its cash flows for each of the years in the three-year period ended June 30, 2018, in conformity with U.S. generally accepted accounting principles. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of June 30, 2018, based on criteria established in *Internal Control - Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

The Company acquired Time Inc. and subsidiaries (Time) during fiscal 2018, and management excluded from its assessment of the effectiveness of the Company's internal control over financial reporting as of June 30, 2018, Time's internal control over financial reporting associated with 59 percent of the Company's total assets and 28 percent of revenue included in the consolidated financial statements as of and for the year ended June 30, 2018. Our audit of internal control over financial reporting of the Company also excluded an evaluation of the internal control over financial reporting of Time.

*Basis for Opinions*

The Company's management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in Management's Report on Internal Control Over Financial Reporting in Item 9A of Form 10-K. Our responsibility is to express an opinion on the Company's consolidated financial statements and an opinion on the Company's internal control over financial reporting based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud, and whether effective internal control over financial reporting was maintained in all material respects.

Our audits of the consolidated financial statements included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that

respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. Our audit of internal control over financial reporting included obtaining an

**Table of Contents**

understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

*Definition and Limitations of Internal Control Over Financial Reporting*

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Notes to Consolidated Financial Statements**

**1. Summary of Significant Accounting Policies**

**Nature of Operations** Meredith Corporation (Meredith or the Company) is a diversified media company. The Company has two reporting segments: national media and local media. The Company's national media segment includes print magazines, digital and mobile media, brand licensing activities, affinity marketing, database-related activities, business-to-business marketing products, and other related operations. The local media segment includes 17 television stations and related digital and mobile media operations. Meredith's operations are diversified geographically primarily within the United States (U.S.) but also abroad in a limited number of locations in Europe and Asia. The Company has a broad customer base.

**Basis of Presentation** The consolidated financial statements include the accounts of Meredith and its wholly-owned and majority-owned subsidiaries, after eliminating all significant intercompany balances and transactions. The results of operations include those of Time Inc. (Time) since the date of acquisition (the Acquisition). See Note 2 for further discussion. Meredith does not have any off-balance sheet arrangements. The Company's use of special-purpose entities was limited to Meredith Funding Corporation, whose activities were fully consolidated in Meredith's consolidated financial statements until the termination of its asset lending facility on January 31, 2018.

The financial position and operating results of the Company's foreign operations are consolidated using primarily the local currency as the functional currency. Local currency assets and liabilities are translated at the rates of exchange as of the balance sheet date, and local currency revenues and expenses are translated at average rates of exchange during the period. Translation gains or losses on assets and liabilities are included as a component of accumulated other comprehensive loss.

**Use of Estimates** The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements. The Company bases its estimates on historical experience, management expectations for future performance, and other assumptions as appropriate. Key areas affected by estimates include the allowance for doubtful accounts, which is based on historical experience and management's views on trends in the overall receivable aging, the assessment of the recoverability of long-lived assets, including goodwill and other intangible assets, which is based on such factors as estimated future cash flows; the determination of the net realizable value of broadcast rights, which is based on estimated future revenues; pension and postretirement benefit expenses, which are determined based, in large part, on actuarial assumptions regarding discount rates, expected returns on plan assets, and healthcare costs; and share-based compensation expense, which is based on numerous assumptions including future stock price volatility and employees' expected exercise and post-vesting employment termination behavior. While the Company re-evaluates its estimates on an ongoing basis, actual results may vary from those estimates.

**Reclassifications** Certain prior years' amounts have been reclassified to conform to fiscal 2018 presentation.

**Cash and Cash Equivalents** Cash and short-term investments with original maturities of 3 months or less are considered to be cash and cash equivalents. Cash and cash equivalents are stated at cost, which approximates fair value.

**Concentration of Credit Risk** Financial instruments that potentially subject the Company to concentrations of credit risk are primarily cash and cash equivalent deposits. Cash equivalent balances consist of money market mutual funds with original maturities of 3 months or less. These cash and cash equivalent deposits are maintained with several financial institutions. The deposits held at the various financial institutions may exceed federally insured limits. Exposure to this credit risk is reduced by placing such deposits with major financial institutions and monitoring their credit ratings and, therefore, these deposits bear minimal credit risk. There is also limited

---

**Table of Contents**

credit risk with respect to the money market mutual funds in which the Company invests as these funds all have issuers, guarantors, and/or other counterparties of reputable credit.

At June 30, 2018, \$411.1 million of cash and cash equivalents were held domestically, of which \$370.2 million were held in money market mutual funds. Of the total cash and cash equivalents, \$26.5 million were held internationally, primarily in Europe. Cash equivalents at June 30, 2018, were \$373.1 million, which approximates fair value due to their short-term nature, and is considered a Level 1 measurement as defined in Note 10.

**Accounts Receivable** The Company's accounts receivable are primarily due from advertisers. Credit is extended to clients based on an evaluation of each client's creditworthiness and financial condition; collateral is not required. The Company maintains allowances for uncollectible accounts, rebates, rate adjustments, returns, and discounts. The allowance for uncollectible accounts is based on the aging of such receivables and any known specific collectability exposures. Accounts are written off when deemed uncollectible. Allowances for rebates, rate adjustments, returns, and discounts are generally based on historical experience and current market conditions. Concentration of credit risk with respect to accounts receivable is generally limited due to the large number of geographically diverse clients and individually small balances.

**Inventories** Inventories are stated at the lower of cost or net realizable value. Effective January 1, 2018, the Company changed its method of accounting for paper inventory in the national media segment from the last-in, first-out (LIFO) method to the weighted average cost method. The Company believes that the weighted average cost method of accounting for paper inventory is preferable because it provides a better match of production costs with revenues considering the limited volatility in paper prices due to the short production cycle.

The effect of the change was not considered material to the previously issued consolidated financial statements and, as such, was adopted prospectively as of January 1, 2018. The cumulative effect of the change recorded in the third quarter of fiscal 2018 was \$1.3 million representing the removal of the LIFO costs reserve. This adjustment was recorded to the production, distribution, and editorial line within the Consolidated Statements of Earnings.

Cost is determined on the first-in first-out or average basis for all other inventories.

**Subscription Acquisition Costs** Subscription acquisition costs primarily represent magazine agency commissions. These costs are deferred and amortized over the related subscription term, typically one to two years. In addition, direct-response advertising costs that are intended to solicit subscriptions and are expected to result in probable future benefits are capitalized. These costs are amortized over the period during which future benefits are expected to be received. The asset balance of the capitalized direct-response advertising costs is reviewed quarterly to ensure the amount is realizable. Any write-downs resulting from this review are expensed as subscription acquisition advertising costs in the current period. Capitalized direct-response advertising costs were \$7.6 million at June 30, 2018 and \$6.0 million at June 30, 2017. There were no material write-downs of capitalized direct-response advertising costs in any of the fiscal years in the three-year period ended June 30, 2018.

**Property, Plant, and Equipment** Property, plant, and equipment are stated at cost with the exception of the property, plant, and equipment that was recorded at estimated fair value as of January 31, 2018, as a result of the Acquisition. Additions to that acquired property, plant, and equipment since January 31, 2018, are stated at cost. Costs of replacements and major improvements are capitalized, while costs of maintenance and repairs are charged to operations as incurred. Depreciation expense is determined primarily using the straight-line method over the estimated useful lives of the assets: 5-45 years for buildings and improvements, 3-6 years for capitalized software, and 3-20 years for machinery and equipment. The costs of leasehold improvements are amortized over the lesser of the useful lives of the improvements or the terms of the respective leases. Depreciation and amortization of property, plant, and

equipment was \$54.2 million in fiscal 2018, \$34.8 million in fiscal 2017, and \$39.4 million in fiscal 2016.

**Table of Contents**

In fiscal 2016, management committed to a plan to sell the Company's two corporate airplanes and classified them as held-for-sale at June 30, 2017 and 2016. The airplanes were sold in early fiscal 2018. The estimated fair value of these airplanes of \$1.9 million was included in the machinery and equipment line in the Consolidated Balance Sheets at June 30, 2017. Losses resulting from fair value adjustments to these assets of \$0.9 million and \$5.6 million were recorded in the impairment of goodwill and other long-lived assets line in the Consolidated Statements of Earnings in fiscal 2017 and 2016, respectively.

**Broadcast Rights** Broadcast rights consist principally of rights to broadcast syndicated programs, sports, and feature films. The total cost of these rights is recorded as an asset and as a liability when programs become available for broadcast. The current portion of broadcast rights represents those rights available for broadcast that are expected to be amortized in the succeeding year. These rights are valued at the lower of unamortized cost or estimated net realizable value, and are generally charged to operations on an accelerated basis over the contract period. Impairments of unamortized costs to net realizable value are included in production, distribution, and editorial expenses in the Consolidated Statements of Earnings. There were no material impairments of unamortized costs in fiscal years 2018, 2017, or 2016. Future write-offs can vary based on changes in consumer viewing trends and the availability and costs of other programming.

**Intangible Assets and Goodwill** Amortizable intangible assets consist primarily of advertiser relationships, publisher relationships, network affiliation agreements, partner relationships, customer relationships, and retransmission agreements. Intangible assets with finite lives are amortized over their estimated useful lives. The useful life of an intangible asset is the period over which the asset is expected to contribute directly or indirectly to future cash flows. Network affiliation agreements are amortized over the period of time the agreements are expected to remain in place, assuming renewals without material modifications to the original terms and conditions (generally 25 to 40 years from the original acquisition date). Other intangible assets are amortized over their estimated useful lives, ranging from 1 to 10 years.

Intangible assets with indefinite lives include trademarks and Federal Communications Commission (FCC) broadcast licenses. These licenses are granted for a term of up to eight years, but are renewable if the Company provides at least an average level of service to its customers and complies with the applicable FCC rules and policies and the Communications Act of 1934. The Company has been successful in every one of its past license renewal requests and has incurred only minimal costs in the process. The Company expects the television broadcasting business to continue indefinitely; therefore, the cash flows from the broadcast licenses are also expected to continue indefinitely.

The Company has acquired trademark brands that have been determined to have indefinite lives. Those assets are evaluated annually for impairment. The Company evaluates a number of factors to determine whether an indefinite life is appropriate, including the competitive environment, market share, brand history, and operating plans. In addition, when certain events or changes in operating conditions occur, an additional impairment assessment is performed and indefinite-lived assets may be adjusted to a determinable life.

Goodwill and intangible assets which have indefinite lives, are not amortized but are tested for impairment annually or when events occur or circumstances change that indicate the carrying value may exceed the fair value. Goodwill impairment testing is performed at the reporting unit level. The Company has three reporting units—national media, local media excluding MNI Targeted Media (MNI), and MNI. The Company also assesses, at least annually, whether assets classified as indefinite-lived intangible assets continue to have indefinite lives.

The Company performs its goodwill impairment analysis annually as of May 31. At May 31, 2018, the date the Company last performed its annual evaluation of impairment of goodwill, management elected to perform qualitative impairment tests for the local media excluding MNI and the MNI reporting units and a quantitative goodwill

impairment test for the national media reporting unit. A quantitative impairment test, performed for a goodwill reporting unit or indefinite-lived intangible assets involves determining the fair value of the reporting unit or asset which is then compared to its carrying value.

**Table of Contents**

Fair value to which carrying value is compared in the quantitative analysis is determined using a discounted cash flow model, which requires us to estimate the future cash flows expected to be generated by the reporting unit or to result from the use of the asset. These estimates include assumptions about future revenues (including projections of overall market growth and share of market), estimated costs, and appropriate discount rates where applicable. These assumptions are based on historical data, various internal estimates, and a variety of external sources and are consistent with the assumptions used in both short-term financial forecasts and long-term strategic plans. Depending on the assumptions and estimates used, future cash flow projections can vary within a range of outcomes. Changes in key assumptions used and their prospects or changes in market conditions could result in an impairment charge.

Additional information regarding intangible assets and goodwill including a discussion of impairment charges taken on goodwill and other long-lived intangible assets is provided in Note 5.

**Impairment of Long-lived Assets** Long-lived assets (primarily property, plant, and equipment and amortizable intangible assets) are reviewed for impairment whenever events and circumstances indicate the carrying value of an asset may not be recoverable. Recoverability is measured by comparison of the forecasted undiscounted cash flows of the operation to which the assets relate to the carrying amount of the assets. Tests for impairment or recoverability require significant management judgment, and future events affecting cash flows and market conditions could result in impairment losses.

**Derivative Financial Instruments** Meredith does not engage in derivative or hedging activities, except to hedge interest rate risk on debt. Prior to the Acquisition, Meredith held interest rate swaps designated and accounted for as cash flow hedges in accordance with Accounting Standards Codification (ASC) 815, *Derivatives and Hedging*. In connection with the repayment of the variable-rate private placement senior notes and bank term loans on January 31, 2018, as further described in Note 7, the Company terminated these swaps. Refer to Note 7 for further discussion on the gain recognized on this termination.

Prior to their termination, the effective portion of the change in the fair value of interest rate swaps was reported in other comprehensive income (loss). The gain or loss included in other comprehensive income (loss) was subsequently reclassified into net earnings on the same line in the Consolidated Statements of Earnings as the hedged item in the same period that the hedge transaction affected net earnings. There were no material gains or losses recognized in earnings for hedge ineffectiveness in fiscal 2018, 2017, or 2016.

**Revenue Recognition** The Company's primary source of revenue is advertising. Other sources include circulation and other revenues.

*Advertising revenues* Advertising revenues are recognized when advertisements are published (defined as an issue's on-sale date) or aired by the broadcasting station, net of provisions for estimated rebates, rate adjustments, and discounts. Barter revenues are included in advertising revenue and are also recognized when the advertisements are published or the commercials are broadcast. Barter advertising revenues and the offsetting expense are recognized at the fair value of the advertising surrendered, as determined by similar cash transactions. Barter advertising revenues were not material in any period. Digital advertising revenues are recognized ratably over the contract period or as services are delivered.

*Circulation revenues* Circulation revenues include magazine single copy and subscription revenue. Single copy revenue is recognized on the publication's on-sale date, net of provisions for estimated returns. The Company bases its estimates for returns on historical experience and current marketplace conditions. Revenues from magazine subscriptions are deferred and recognized proportionately as products are distributed to subscribers.

*Other revenues* Revenues from content creation and other custom programs are recognized when the products or services are delivered. In addition, the Company participates in certain arrangements containing multiple deliverables. The guidance for accounting for multiple-deliverable arrangements requires that overall

---

**Table of Contents**

arrangement consideration be allocated to each deliverable (unit of accounting) in the revenue arrangement based on the relative selling price as determined by vendor specific objective evidence, third-party evidence, or estimated selling price. The related revenue is recognized when each specific deliverable of the arrangement is delivered. Brand licensing-based revenues are accrued generally monthly or quarterly based on the specific mechanisms of each contract. Payments are generally made by the Company's partners on a quarterly basis. Generally, revenues are accrued based on estimated sales and adjusted as actual sales are reported by partners. These adjustments are typically recorded within three months of the initial estimates and have not been material. Any minimum guarantees are typically earned evenly over the fiscal year. Retransmission consent revenues are recognized over the contract period based on the negotiated fee and generally on a per subscriber basis. Revenues earned for placing magazines with subscribers on behalf of third-party publishers is recognized once the subscriber's name is transferred to the publisher, on a net basis, with a reserve for estimated cancellations.

In certain instances, revenues are recorded gross in accordance with U.S. GAAP although the Company receives cash for a lesser amount due to the netting of certain expenses. Amounts received from customers in advance of revenue recognition are deferred as liabilities and recognized as revenue in the period earned.

**Contingent Consideration** The Company estimates and records the acquisition date estimated fair value of contingent consideration as part of purchase price consideration for acquisitions. Additionally, each reporting period, the Company estimates changes in the fair value of contingent consideration, and any change in fair value is recognized in the Consolidated Statements of Earnings. An increase in the earn-out expected to be paid will result in a charge to operations in the quarter that the anticipated fair value of contingent consideration increases, while a decrease in the earn-out expected to be paid will result in a credit to operations in the quarter that the anticipated fair value of contingent consideration decreases. The estimate of the fair value of contingent consideration requires subjective assumptions to be made regarding future operating results, discount rates, and probabilities assigned to various potential operating result scenarios. Future revisions to these assumptions could materially change the estimate of the fair value of contingent consideration and, therefore, materially affect the Company's future financial results. Additional information regarding contingent consideration is provided in Note 2.

**Advertising Expenses** The majority of the Company's advertising expenses relate to direct-mail costs for magazine subscription acquisition efforts. Advertising costs that are not capitalized are expensed the first time the advertising takes place. Total advertising expenses included in the Consolidated Statements of Earnings were \$122.8 million in fiscal 2018, \$63.9 million in fiscal 2017, and \$72.6 million in fiscal 2016.

**Deferred Financing Costs** Costs incurred to obtain financing are deferred and amortized to interest expense, net on the Consolidated Statements of Earnings over the related financing period using the effective interest method. The Company records deferred financing costs as a direct reduction of the carrying value of the related debt. Financing costs related to revolving debt instruments or lines of credit are included in other assets on the Consolidated Balance Sheets.

**Income Taxes** The income tax provision is calculated under the liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in earnings in the period when such a change is enacted. The Company recognizes the effect of income tax positions only if those positions are more likely than not of being sustained. Recognized income tax positions are measured at the largest amount that is greater than 50 percent likely of being realized. Changes in recognition or measurement are reflected in the period in which the change in judgment occurs.

**Self-Insurance** The Company self-insures for certain medical claims, and its responsibility generally is capped through the use of a stop loss contract with an insurance company at a certain dollar level. The dollar level varies

F-15

---

**Table of Contents**

based on the insurance plan, and ranges between \$350 thousand and \$500 thousand. Third-party administrators are used to process claims. The Company uses actual claims data and estimates of claims incurred-but-not-reported to calculate estimated liabilities for unsettled claims on an undiscounted basis. Although management re-evaluates the assumptions and reviews the claims experience on an ongoing basis, actual claims paid could vary significantly from estimated claims.

**Pensions and Postretirement Benefits Other Than Pensions** Retirement benefits are provided to employees through pension plans sponsored by the Company. Pension benefits are generally based on formulas that reflect interest credits allocated to participants' accounts based on years of benefit service and annual pensionable earnings. It is the Company's policy to fund the qualified pension plans to at least the extent required to maintain their fully funded status. In addition, the Company provides health care and life insurance benefits for certain retired employees, the expected costs of which are accrued over the years that the employees render services. It is the Company's policy to fund postretirement benefits as claims are paid. Additional information is provided in Note 11.

**Share-based Compensation** The Company establishes fair value for its equity awards to determine their cost and recognizes the related expense over the appropriate vesting period. The Company recognizes expense for stock options, restricted stock, restricted stock units, and shares issued under the Company's employee stock purchase plan. See Note 12 for additional information related to share-based compensation expense.

**Redeemable Preferred Stock** The Company has outstanding 650,000 shares of perpetual convertible redeemable non-voting preferred stock, par value \$1.00 per share, each share having an initial stated value of \$1,000 per share (the Series A preferred stock). Proceeds from the issuance were allocated on a relative fair value basis between the preferred stock and other freestanding financial instruments issued with the preferred stock. The preferred stock is classified as mezzanine equity and is accreted to its redemption value. Additional information is provided in Note 13.

**Comprehensive Income** Comprehensive income consists of net earnings and other gains and losses affecting shareholders' equity that, under U. S. GAAP, are excluded from net earnings. Other comprehensive income (loss) includes changes in prior service costs and net actuarial losses from pension and postretirement benefit plans, net of taxes, unrealized gains or losses resulting from foreign currency translation, and changes in the fair value of interest rate swap agreements, net of taxes, to the extent that they are effective. As of June 30, 2018, there were no amounts in other comprehensive income (loss) related to the interest rate swaps as such were settled in fiscal 2018, and all previously unrealized changes in other comprehensive income (loss) were recognized in earnings. Refer to Note 7 for additional discussion on the swap termination.

**Earnings Per Share** Basic earnings per share is calculated by dividing net earnings attributable to common shareholders by the weighted average common and Class B shares outstanding for the period. Diluted earnings per share calculation incorporated the shares utilized in the basic calculation but also included the dilutive effect, if any, of the assumed exercise of securities, including the effect of shares issuable under the Company's share-based incentive plans. In connection with the issuance of the Series A preferred stock and detachable warrants on January 31, 2018, the Company now has a two-class capital structure and applies the two-class method in the calculation of earnings per share. The two-class method adjusts earnings to incorporate dividends declared on common stock, preferred stock, and other securities in distributed earnings. In addition, it also incorporates participating rights in other securities in undistributed earnings. Additional information is provided in Note 15.

**Adopted Accounting Pronouncements**

ASU 2016-07 In March 2016, the Financial Accounting Standards Board (FASB) issued an Accounting Standards Update (ASU) simplifying the transition to the equity method of accounting. The new guidance eliminates the

requirement to apply the equity method of accounting retrospectively when a reporting entity obtains significant influence over a previously held investment. The Company adopted this standard effective

F-16

---

**Table of Contents**

July 1, 2017. This guidance was applied to one investment during the fiscal year, which simplified the transition from the cost method to equity method. The application did not have any other impact on the Company's results of operations, cash flows, or disclosures.

**ASU 2016-09** In March 2016, as a part of its simplification initiative, the FASB issued guidance on the accounting for employee share-based payments. The new guidance is intended to simplify several aspects of the accounting for share-based payment transactions, including the income tax treatment, classification of awards as either equity or liabilities, and classification on the statement of cash flows. The Company adopted this standard effective July 1, 2017.

The adoption of this guidance resulted in the prospective recognition of realized excess tax benefits related to the exercise or vesting of share-based awards in the Consolidated Statements of Earnings instead of in additional paid-in capital within the Consolidated Balance Sheets. See Note 8 for discussion of the credits to income tax expense recorded in the Consolidated Statements of Earnings. Using a modified retrospective application, the Company has elected to recognize forfeitures as they occur and recorded a \$1.1 million increase to additional paid-in capital, a \$0.6 million reduction to retained earnings, and a \$0.5 million reduction to deferred taxes to reflect the incremental share-based compensation expense, net of the related tax impacts, that would have been recognized in prior years under the modified guidance. Presentation requirements for cash flows related to employee taxes paid using withheld shares had no impact to all periods presented as such cash flows have historically been presented as financing activities. The Company no longer classifies excess tax benefits related to share-based awards as a financing cash inflow and an operating cash outflow. This classification requirement was adopted prospectively and, as such, the Consolidated Statements of Cash Flows have not been retrospectively adjusted.

**ASU 2018-02** In February 2018, the FASB issued guidance regarding the reclassification of certain tax effects from accumulated other comprehensive loss. This amended guidance allows a reclassification from accumulated other comprehensive loss to retained earnings for stranded tax effects resulting from the Tax Cuts and Jobs Act of 2017 (the Tax Reform Act) which was signed into law on December 22, 2017. The Company early adopted this amended guidance on January 1, 2018, and as a result, elected to reclassify \$4.0 million of stranded tax effects from accumulated other comprehensive loss to retained earnings using a specific identification approach. The adoption of this guidance did not have an impact on the Company's results of operations, cash flows, or disclosures.

**ASU 2018-05** In March 2018, the FASB issued guidance which incorporates into ASC 740 *Income Taxes (ASC 740)*, various United States Securities and Exchange Commission (SEC) guidance pursuant to the issuance of SEC Staff Accounting Bulletin No. 118 (SAB 118), which was effective immediately. In December 2017, the SEC issued SAB 118 to address concerns about reporting entities' ability to timely comply with the accounting requirements to recognize all of the effects of the Tax Reform Act in the period of enactment. SAB 118 allows for calculations of the impacts of the Tax Reform Act to be considered provisional and subject to remeasurement upon further collection, preparation, and analysis of relevant data and disclosure regarding the impacts of the Tax Reform Act for which accounting under ASC 740 is incomplete. As the Company accounted for the tax effects of the Tax Reform Act on a provisional basis under the guidance of SAB 118 prior to this update, the adoption of this guidance did not have an impact on the consolidated financial statements.

**Pending Accounting Pronouncements**

**ASU 2014-09** In May 2014, the FASB issued an accounting standards update that replaces existing revenue recognition guidance. The new standard requires a company to recognize revenue for the transfer of promised goods or services equal to the amount it expects to receive in exchange for those goods or services. The standard includes a five-step framework to determine the timing and amount of revenue to recognize related to contracts with customers.

Additionally, the standard requires new and significantly enhanced disclosures about the nature, amount, timing, and uncertainty of revenue and cash flows from customer contracts as well as judgments made by a company when following the framework.

---

**Table of Contents**

The Company will adopt the standard beginning July 1, 2018 (fiscal 2019). The two permitted transition methods are the full retrospective method, in which case the standard would be applied to each prior reporting period presented and the cumulative effect of applying the standard would be recognized in the earliest period shown; or the modified retrospective method, in which case the cumulative effect of applying the standard would be recognized at the date of initial application. The Company will adopt the standard using the modified retrospective method.

The Company is in the process of assessing and documenting the effect of the adoption of this standard on our consolidated financial statements and related disclosures related to advertising, circulation, and other revenues, and completing the design and implementation of related controls. Based on our assessment to date, the Company does not believe the adoption of the standard will change the timing of revenue recognition for most of our revenue contracts, except for those with value-added items or that require combination under the standard. We do not anticipate those impacts will have a material effect on our consolidated revenues subject to completion of our evaluation. While the Company does not expect material changes to the amount or timing of our revenue recognition, the Company will significantly expand our future disclosures on both a quarterly and annual basis as required under the standard.

**ASU 2016-01** In January 2016, the FASB issued guidance to improve and simplify accounting for financial instruments. The updated guidance includes several provisions that are not applicable to the Company's consolidated financial statements, with the exception of changes to fair value disclosure. Under the new guidance, public entities are no longer required to disclose the methods and significant assumptions used to estimate fair value of financial instruments measured at amortized cost on the consolidated balance sheets. It also requires public entities to use the exit price when measuring the fair value of financial instruments for disclosure purposes. The guidance is effective for the Company in the first quarter of fiscal 2019. The adoption of this guidance requires a change in our disclosures only and it is not expected to have an impact on our results of operations or cash flows.

**ASU 2016-02** In February 2016, the FASB issued an accounting standards update that replaces existing lease accounting standards. The new standard requires lessees to recognize on the balance sheet a right-of use asset, representing its right to use the underlying asset for the lease term, and a lease liability for all leases with terms greater than 12 months. The guidance also requires qualitative and quantitative disclosures designed to assess the amount, timing, and uncertainty of cash flows arising from leases. Treatment of lease payments in the statement of earnings and statement of cash flows is relatively unchanged from previous guidance. The standard is to be applied under the modified retrospective method, with elective reliefs, which requires application of the new guidance for all periods presented. The FASB continues to issue amendments to further clarify provisions of this guidance. The standard, including the amendments made since initial issuance, is effective for the Company beginning July 1, 2019, with early adoption permitted. The Company is currently in the process of evaluating our existing lease portfolios, including accumulating all of the necessary information required to properly account for the leases under the new standard. As such, the Company is currently evaluating the effect the guidance will have on our consolidated financial statements.

**ASU 2016-13** In June 2016, the FASB issued a standard that replaces the current incurred loss methodology for recognizing credit losses with a current expected credit loss methodology. Under this standard, the establishment of an allowance for credit losses reflects all relevant information about past events, current conditions, and reasonable supportable forecasts rather than delaying the recognition of the full amount of a credit loss until the loss is probable of occurring. The new standard changes the impairment model for most financial assets and certain other instruments, including trade receivables. A modified retrospective implementation of this standard is effective in the Company's first quarter of fiscal 2021, with early adoption permitted in the first quarter of fiscal 2020. The Company is currently evaluating the impact this guidance will have on our consolidated financial statements.

**ASU 2016-15** In August 2016, the FASB issued an accounting standards update clarifying the classification of certain cash receipts and payments in the statement of cash flows. The update is intended to reduce the diversity

---

**Table of Contents**

in practice around how certain transactions are classified within the statement of cash flows. Retrospective adoption is required in our first quarter of fiscal 2019 with early adoption permitted, including adoption in an interim period. The Company is currently evaluating the impact this update will have on its consolidated financial statements; however, the adoption is not expected to have a material impact in the presentation of our Consolidated Statements of Cash Flows.

**ASU 2017-01** In January 2017, the FASB issued an accounting standards update that clarifies the definition of a business and adds guidance to assist entities in the determination of whether an acquisition (or disposal) represents assets or a business. The update provides a test to determine whether or not an acquisition is a business. If substantially all of the fair value of the assets acquired is concentrated in a single asset or a group of similar identifiable assets, the acquired assets do not represent a business. If this test is not met, the update provides further guidance to evaluate if the acquisition represents a business. Prospective adoption is required in the first quarter of fiscal 2019. Early adoption is permitted if certain transaction criteria are met. The Company does not believe the adoption of this update will have a material impact prospectively, to the Company's consolidated financial statements.

**ASU 2017-04** In January 2017, the FASB issued an accounting standards update that simplifies the subsequent measurement of goodwill by eliminating Step 2 of the goodwill impairment test. The Step 2 test requires an entity to calculate the implied fair value of goodwill to measure a goodwill impairment charge. Instead, an entity will record an impairment charge based on the excess of a reporting unit's carrying value over its fair value determined in Step 1. This update also eliminates the qualitative assessment requirements for a reporting unit with zero or negative carrying value. Prospective adoption is required in the first quarter of fiscal 2021, with early adoption permitted. The Company is currently evaluating the impact this update will have on its consolidated financial statements.

**ASU 2017-07** In March 2017, the FASB issued an accounting standards update on the presentation of net periodic pension and postretirement benefit costs. This guidance revises how employers that sponsor defined benefit pension and other postretirement plans present the net periodic benefit costs in their income statement and requires that the service cost component of net periodic benefit costs be presented in the same line items as other employee compensation costs for the related employees. Of the components of net periodic benefit costs, only the service cost component will be eligible for asset capitalization. The other components of net periodic benefit costs must be presented separately from the line items that include the service cost and outside of the income from operations subtotal. The update is effective for the first quarter of fiscal 2019, with early adoption permitted. The adoption is expected to require reclassification of expenses in the Consolidated Statements of Earnings; however, it is not expected to have an impact on the Company's operating results or cash flows.

**ASU 2017-09** In May 2017, the FASB issued guidance to clarify guidance related to changes in terms or conditions of a share-based payment award. The purpose of this update is to provide guidance about which changes to the terms or conditions of a share-based payment award require an entity to apply modification accounting in *ASC 718 Compensation - Stock Compensation*. The effective date is the first quarter of fiscal 2019 with early adoption permitted. The Company does not expect the adoption of this guidance to have a material impact on our results of operations, cash flows, or disclosures.

**ASU 2017-12** In August 2017, the FASB issued guidance amending hedge accounting requirements. The purpose of this guidance is to better align a company's risk management activities and financial reporting requirements, and to simplify the application of hedge accounting. The effective date is the first quarter of fiscal 2020, with early adoption permitted. The Company does not expect the adoption of this guidance to have a material impact on our results of operations, cash flows, or disclosures.

**Table of Contents****2. Acquisitions**  
**Fiscal 2018**

On January 31, 2018, Meredith completed its acquisition of all the outstanding shares of Time for \$18.50 per share, for a total transaction value of \$3.2 billion, including the repayment of Time's outstanding debt. As part of the Acquisition, Meredith also repaid its outstanding debt. These transactions were funded through a combination of borrowings under the Company's new \$1.8 billion secured term loan facility, the issuance of \$1.4 billion of senior unsecured notes, the issuance of preferred equity, and cash on hand (refer to Note 7 for additional information on the long-term debt and Note 13 for additional information on the preferred equity).

In accordance with the merger agreement, certain of Time's outstanding restricted stock units, performance stock units, and in-the-money stock options were immediately vested, converted into the right to receive \$18.50 per share, and paid in cash. The value of these awards was apportioned between total purchase price consideration and immediate expense. This expense is included in the acquisition, disposition, and restructuring related activities line on the Consolidated Statements of Earnings. Additionally, certain of Time's outstanding stock options and restricted stock units were converted into mirror awards exercisable or earned in Meredith common stock. The conversion was based on a ratio of \$18.50 to the volume-weighted average per share closing price for Meredith's stock on the ten consecutive trading days ended on the complete trading day immediately prior to the acquisition closing date. The value of these awards was apportioned between total purchase price consideration and unearned compensation to be recognized over the remaining original vesting periods of the awards.

The following table summarizes the aggregate purchase price consideration paid to acquire Time:

*(In millions)*

Consideration paid to Time shareholders	\$ 1,860.7
Repayment of Time's outstanding debt, including prepayment penalty	1,327.9
Cash consideration issued to settle outstanding share-based equity awards	37.6
<b>Total cash consideration</b>	<b>3,226.2</b>
Share-based equity awards issued to settle outstanding share-based equity awards	33.8
<b>Total consideration issued</b>	<b>3,260.0</b>
Portion of cash settlement of outstanding share-based equity awards recognized as expense	(9.2)
Portion of share-based equity awards issued to be recognized as an expense, primarily through fiscal 2021	(24.0)
<b>Total purchase price consideration</b>	<b>\$ 3,226.8</b>

This transaction created a premier media and marketing company serving 175 million American consumers. Meredith's brands now have a readership of more than 120 million and paid circulation of more than 40 million. The acquisition also increased Meredith's digital position with nearly 135 million monthly unique visitors in the U.S. While the majority of Time's operations are reported in Meredith's national media segment, one business unit of Time is reported in Meredith's local media segment and certain expenses are reported in unallocated corporate.

The Company accounted for this acquisition as a business combination under the acquisition method of accounting. The following table summarizes the preliminary purchase price allocation of fair values of the assets acquired and

liabilities assumed at the date of acquisition. The fair values of the assets acquired and liabilities assumed were based on management's preliminary estimates of the fair values of Time's net assets. The estimated fair values of net assets and resulting goodwill are subject to the Company finalizing its analysis of the fair value of Time's assets and liabilities as of the acquisition date, and are subject to change pending the final valuation of these assets and liabilities. In addition, information unknown at the time of the Time acquisition could result in adjustments to the respective fair values and resulting goodwill. Differences between the

**Table of Contents**

preliminary and final estimated fair values could be material. As additional information is obtained about these assets and liabilities within the measurement period (not to exceed one year from the date of acquisition), the Company will refine its estimates of fair value and reallocate the purchase price.

<i>(In millions)</i>

<b>Total liabilities assumed</b>	<b>1,161.7</b>
Total identified net assets	2,163.6
Goodwill	1,063.2
<b>Net assets acquired</b>	<b>\$ 3,226.8</b>

The gross contractual amount of trade receivables acquired was \$357.4 million and the contractual amount not expected to be collected was \$66.5 million at the acquisition date.

Subsequent to the initial purchase price allocation, the Company recorded adjustments that, in the aggregate, increased goodwill by \$17.8 million. The net change was due primarily to a decrease in the estimated fair value of assets held-for-sale partially offset by a decrease in deferred tax liabilities and an increase in intangible assets. These adjustments resulted from new information about facts and circumstances that existed at the time of the acquisition.

The following table provides details of the acquired intangible assets (based on the preliminary assessment of the fair value of assets acquired):

*(In millions)*

<b>Intangible assets subject to amortization</b>	
Advertiser relationships	\$ 223.5
Publisher relationships	125.0
Partner relationships	95.0
Customer relationships	63.3
Total	506.8
<b>Intangible assets not subject to amortization</b>	
Trademarks	640.0
Intangible assets, net	\$ 1,146.8

F-21

**Table of Contents**

The weighted average useful life of advertiser relationships is 3 years, publisher relationships is 7 years, partner relationships is 6 years, and customer relationships is 2 years. Due to the timing of the acquisition and the complexities involved with determining fair value of the intangible assets acquired, the Company has not yet completed the valuation of the identified intangibles. The preliminary purchase price allocation has been developed based on preliminary estimates of fair values. Therefore, there may be adjustments made to the purchase price allocation that could result in changes to the preliminary fair values allocated, assigned useful lives, and associated amortization recorded.

Goodwill is attributable primarily to expected synergies and the assembled workforces. Of total goodwill recorded of \$1.1 billion, \$93.6 million is expected to be deductible for income tax purposes.

Transaction and integration costs incurred by Meredith were \$59.9 million in fiscal 2018. These costs are included in the acquisition, disposition, and restructuring related activities line in the Consolidated Statements of Earnings.

The following table presents the amounts of Time's revenue and earnings included in Meredith's Consolidated Statements of Earnings since the date of the acquisition for the years ended June 30, 2018 and 2017. Also presented are the unaudited pro-forma consolidated results of operations' revenues, net earnings (loss), and diluted net earnings (loss) per share of the combined entity for the years ended June 30, 2018 and 2017, as if the acquisition had occurred on July 1, 2016, the beginning of fiscal 2017:

<b>Years ended June 30,</b> <i>(In millions except per share data)</i>	<b>2018</b>	<b>2017</b>
Actual Time total revenues	\$ 625.3	\$
Actual Time net loss	(74.4)	
Pro-forma total revenue	3,115.5	3,669.9
Pro-forma net earnings (loss)	223.2	(28.6)
Pro-forma diluted net earnings (loss) per share	3.16	(2.37)

The unaudited pro-forma consolidated results above are based on the historical financial statements of Meredith and Time and are not necessarily indicative of the results of operations that would have been achieved if the acquisition was completed on July 1, 2016 (the beginning of the 2017 fiscal year), and are not indicative of the future operating results of the combined company. This pro-forma financial information is based upon preliminary purchase price allocations and various assumptions and estimates. The pro-forma consolidated results of operations include the effects of purchase accounting adjustments, including amortization charges related to the finite-lived intangible assets acquired. The pro-forma totals above also reflect the impact of transactions made to finance the acquisition (see Note 7 and Note 13) and exclude historical interest of each entity and the prepayment penalty. The impact of the discontinued operations have been removed from pro-forma revenue for each of the periods presented. Historical intercompany transactions between Meredith and Time have also been removed. Transaction and integration costs related to the acquisition of Time have been excluded from the above pro-forma consolidated results of operations due to their non-recurring nature. The pro-forma net earnings (loss) were also adjusted for the tax effects related to the other pro-forma adjustments.

Included within the pro-forma results above, are \$26.4 million and \$202.6 million of impairment charges for long-lived assets for the years ended June 30, 2018, and 2017, respectively. The pro-forma results above also include restructuring charges related to the Time transaction of \$150.6 million for the year ended June 30, 2018. There were no restructuring charges related to the acquisition recorded in the year ended June 30, 2017.

**Fiscal 2017**

During fiscal 2017, Meredith paid \$84.4 million for the acquisitions of WPCH-TV (Peachtree TV), an independent television station in Atlanta, Georgia, and the assets of a digital lead-generation company in the home services market.

F-22

**Table of Contents**

On December 7, 2016, Meredith acquired the assets of a digital lead-generation company in the home services market, which has been rebranded Meredith Performance Marketing by the Company. The acquisition-date fair value of the consideration was \$21.1 million, which consisted of \$13.4 million of cash and \$7.7 million of contingent consideration. The contingent consideration arrangement requires the Company to pay contingent payments based on the achievement of certain operational targets in fiscal 2017 and on financial performance during fiscal 2017 through fiscal 2021 measured in terms of earnings before interest, taxes, depreciation, and amortization (EBITDA) as defined in the acquisition agreement. The contingent consideration is not dependent on the continued employment of the sellers. The Company estimated the fair value of the contingent consideration using a probability-weighted discounted cash flow model. The fair value is based on significant inputs not observable in the market and thus represents a Level 3 measurement as defined in Note 10. The Company paid no contingent consideration in fiscal 2018, and paid \$2.6 million in contingent consideration in 2017. Although operating performance for the brand has been positive, revised projections in revenues resulted in lower projected EBITDA than anticipated at acquisition. Therefore, the Company recognized non-cash credits to operations of \$3.8 million and \$0.4 million in fiscal 2018 and 2017, respectively, to reduce the estimated contingent consideration payable. These credits are recorded in the selling, general, and administrative expense line on the Consolidated Statements of Earnings. As of June 30, 2018, the Company estimates the future payments will range from \$0.9 million to \$1.5 million.

Effective April 21, 2017, Meredith acquired Peachtree TV, which was operated by Meredith prior to its acquisition. The results of Peachtree TV's operations have been included in the consolidated financial statements since that date. The cash purchase price was \$70.0 million.

For these acquisitions, goodwill is attributable primarily to expected synergies and the assembled workforces. Goodwill, with an assigned value of \$24.3 million, is expected to be fully deductible for tax purposes.

During fiscal 2017, acquisition related costs of \$0.3 million were incurred. These costs are included in the acquisition, disposition, and restructuring related activities line in the Consolidated Statements of Earnings.

**Prior**

On December 30, 2014, Meredith acquired 100 percent of the outstanding stock of Selectable Media. The contingent consideration arrangement requires the Company to pay contingent payments based on certain financial targets over three fiscal years, primarily based on revenue, as defined in the acquisition agreement. The final payment of \$4.0 million was paid in fiscal 2018.

In February 2015, Meredith completed its acquisition of Shape. The contingent consideration arrangement requires the Company to pay contingent payments based on certain financial targets over three fiscal years, primarily based on operating profit, as defined in the acquisition agreement. Revised projections in advertising revenue have resulted in lower projected operating profits and therefore lower estimates to contingent consideration payable than originally expected. The Company recognized non-cash credits to operations of \$2.0 million in fiscal 2018, \$1.3 million in fiscal 2017, and \$4.9 million in fiscal 2016, to reduce the estimated contingent consideration payable. These credits were recorded in the selling, general, and administrative expense line on the Consolidated Statements of Earnings. As of June 30, 2018, the Company estimates future payments to be \$19.2 million.

**3. Inventories**

Inventories consist mainly of paper stock, editorial content, books, and other merchandise and are stated at the lower of cost or estimated net realizable value. Cost is determined using the first-in, first-out method for books and weighted average cost method for paper and other merchandise.

Effective January 1, 2018, the Company prospectively changed its method of accounting for paper inventory from the last-in, first-out (LIFO) method to the weighted average cost method. Of total net inventory values shown 65 percent at June 30, 2017, were determined using the LIFO method. LIFO inventory income included in the Consolidated Statements of Earnings was \$1.3 million in fiscal 2018, \$1.7 million in fiscal 2017, and \$0.7 million in fiscal 2016.

**4. Assets Held-for-Sale, Discontinued Operations, and Dispositions**  
**Assets Held-for-Sale**

The Company classifies assets as being held-for-sale when the following criteria are met: management has committed to a plan to sell the asset; the asset is available for immediate sale in its present condition; an active

**Table of Contents**

program to locate a buyer and other actions required to complete the plan to sell the asset have been initiated; the sale of the asset is probable, and transfer of the asset is expected to qualify for recognition as a completed sale within one year; the asset is being actively marketed for sale at a price that is reasonable in relation to its current fair value; and actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn. Long-lived assets that are classified as held-for-sale are recorded at the lower of carrying value or fair value less costs to sell. Fair value is based on current market values or discounted future cash flows using Level 3 inputs determined based on the Company's experience and knowledge of the market, including the use of advisers. Fair value is preliminary and is expected to be finalized upon completion of the sales, which are expected to occur within calendar 2018. The key assumptions used to determine the fair value include discount rates, estimated cash flows, royalty rates, and revenue growth rates. The discount rate used is based on several factors including a weighted average cost of capital analysis, and adjustments for market risk and company specific risk. Estimated cash flows are based upon internally developed estimates of the undiscounted cash flows attributable to the assets and include only future cash flows that are directly associated with and that are expected to arise as a direct result of the use and eventual disposition of the assets. Royalty rates are based on comparable licensing agreements and revenue growth rates are based on industry knowledge and historical performance. Property and equipment are not depreciated, and intangibles assets are not amortized once classified as held-for-sale. The assets and liabilities that are deemed held-for-sale are classified as current based on the anticipated disposal date.

The following table presents the major components which are included in assets held-for-sale and liabilities associated with assets held-for-sale (including TIME, Sports Illustrated, Fortune, Money, and its investment in Viant Technology LLC (Viant)):

held-for-sale. When all of the criteria to be classified as held-for-sale are met, including management having the authority to approve the action and committing to a plan to sell the entity, the major assets and liabilities are to be reported as components of total assets and liabilities separate from those balances of the continuing operations. The Consolidated Statements of Earnings reported for current and prior periods shall report the results of operations of the discontinued operations, including any gain or loss recognized, in the period in which a discontinued operation either has been disposed of or is classified as held-for-sale. The results of all discontinued operations, less applicable income taxes (benefit), shall be reported as a component of net earnings separate from the net earnings from continuing operations.

The Company announced after the Acquisition that it is exploring the sale of the TIME, Sports Illustrated, Fortune, and Money affiliated brands and its investment in Viant. Management expects these sales to close during calendar 2018. In accordance with accounting guidance, a business that, on acquisition, or within a short period following the acquisition (usually within three months), meets the criteria to be classified as held-for-sale is also considered a discontinued operation. As all of the required criteria for held-for-sale classification were met, the assets and liabilities related to these operations have been included as assets held-for-sale and liabilities associated with assets held for-sale in the Consolidated Balance Sheets as of June 30, 2018. The revenue and expenses, along with associated taxes, for these operations were included in the loss from discontinued operations, net of income taxes line on the Consolidated Statements of Earnings. All discontinued operations relate to the national media segment.

Prior to the Acquisition, Time entered into an agreement to sell the Golf brand. This sale closed in February 2018. Revenue and expenses from the date of the acquisition until disposal along with associated taxes for the Golf brand were included in the loss from discontinued operations, net of income taxes line on the Consolidated Statements of Earnings.

In February 2018, the Company entered into an agreement to sell Time Inc. (UK) Ltd (TIUK), a United Kingdom (U.K.) multi-platform publisher with approximately 60 brands. The sale closed in March 2018. Revenue and expenses from the date of acquisition until disposal along with associated taxes for TIUK were included in the loss from discontinued operations, net of income taxes line on the Consolidated Statements of Earnings.

In connection with the sale of TIUK, a liability of \$9.2 million was recorded in other liabilities in connection with a lease guarantee by Time. The guarantee is related to a lease of office space by TIUK in the U.K. through December 31, 2025. The carrying value of the lease guarantee was \$8.7 million at June 30, 2018. The Company is only obligated to pay for the lease guarantee in the event that TIUK fails to perform under the lease agreement. If TIUK fails to perform under the lease agreement, the maximum lease guarantee obligation for which the Company would be liable is approximately \$78.8 million as of June 30, 2018. The Company has assessed that it is unlikely that TIUK will not perform its obligations under the lease.

The Company does not allocate interest to discontinued operations unless the interest is directly attributable to the discontinued operations or is interest on debt that is required to be repaid as a result of the disposal transaction. Interest expense included in discontinued operations reflects an estimate of interest expense related to the debt that will be repaid with the proceeds from the sale of the TIME, Sports Illustrated, Fortune, Money, and affiliated brands and of Viant.
