1.

To elect five persons to the Board of Directors of the Company, each to serve until the next annual meeting of shareholders of the Company or until such person shall resign, be removed or otherwise leave office;

2.

To ratify the selection by our Audit Committee of GHP Horwath, P.C. as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2009; and

To transact such other business as may properly come before the Meeting or any adjournment thereof.

If you owned our common stock at the close of business on April 20, 2009, you may attend and vote at the meeting. A list of shareholders eligible to vote at the meeting will be available for review during our regular business hours at our headquarters in Shenzhen, China for the ten days prior to the meeting for any purpose related to the meeting.

We are pleased to take advantage of the U.S. Securities and Exchange Commission rule that allows companies to furnish proxy materials to their shareholders over the Internet. As a result, we are mailing to most of our shareholders a Notice of Internet Availability of Proxy Materials instead of a paper copy of this proxy statement and our 2008 Annual Report. The Notice contains instructions on how to access those documents over the Internet and how to request a paper copy of our proxy materials, including this proxy statement, our 2008 Annual Report and a form of proxy card or voting instruction card.

Your vote is important. Whether or not you plan to attend the meeting, I hope that you will vote as soon as possible. You may vote your shares via a toll-free telephone number provided in the Notice of Internet Availability of Proxy Materials or over the Internet. If you received a proxy card or voting instruction card by mail, you may submit your proxy card or voting instruction card by completing, signing, dating and mailing your proxy card or voting instruction card in the envelope provided. Any shareholder attending the meeting may vote in person, even if you have already returned a proxy card or voting instruction card.

Sincerely,

/s/ Samuel Lo

**IMPORTANT NOTICE REGARDING THE AVAILABILITY OF PROXY MATERIALS FOR
THE SHAREHOLDER MEETING TO BE HELD ON JUNE 18, 2009**

Under rules adopted by the U.S. Securities and Exchange Commission (SEC), we are furnishing proxy materials to our shareholders primarily via the Internet, instead of mailing printed copies of those materials to each shareholder. On or about May 1, 2009, we will mail to our shareholders (other than those who previously requested electronic or paper delivery and registered shareholders) a Notice Regarding Availability of Proxy Materials (Notice) containing instructions on how to access our proxy materials, including our proxy statement and our annual report and how to access your proxy card to vote through the Internet or by telephone. The Notice also specifies the time by which you have to cast your vote by either of these methods.

This process is designed to expedite shareholders receipt of proxy materials, lower the cost of the annual meeting, and help conserve natural resources. However, if you prefer to receive printed proxy materials, please follow the instructions included in the Notice. If you have previously elected to receive our proxy materials electronically, you will continue to receive these materials via e-mail until you elect otherwise. If you have previously elected to receive printed proxy materials, you will continue to receive these materials in paper format until you elect otherwise.

PROXY STATEMENT

The Board of Directors of China Security & Surveillance Technology, Inc., a Delaware corporation (the "Company," "CSST" or "we") is furnishing this Proxy Statement and the accompanying proxy to you to solicit your proxy for the 2009 Annual Meeting of Shareholders (the "Meeting"). The Meeting will be held on Thursday, June 18, 2009, at 10:00 a.m., local time, at 13/F, Shenzhen Special Zone Press Tower, Shennan Road, Futian District, Shenzhen, People's Republic of China, 518034.

The approximate date on which the Proxy Statement and proxy card are intended to be sent or given to shareholders is May 1, 2009.

The purposes of the Meeting are to seek shareholder approval of two proposals: (i) electing five directors to the Board and (ii) ratifying the appointment of the Company's accountants for fiscal year 2009.

Who May Vote

Only shareholders of record of our common stock, \$0.0001 par value (the "Common Stock"), as of the close of business on April 20, 2009 (the "Record Date") are entitled to notice and to vote at the Meeting and any adjournment thereof.

A list of shareholders entitled to vote at the Meeting will be available at the Meeting, and will also be available for ten days prior to the Meeting, during office hours, at the executive offices of the Company at 13/F, Shenzhen Special Zone Press Tower, Shennan Road, Futian District, Shenzhen, People's Republic of China, 518034.

The presence at the Meeting of holders of a majority of the outstanding shares of Common Stock as of the Record Date, in person or by proxy, is required for a quorum. Should you submit a proxy, even though you abstain as to one or more proposals, or you are present in person at the Meeting, your shares shall be counted for the purpose of determining if a quorum is present.

Broker non-votes are included for the purposes of determining whether a quorum of shares is present at the Meeting. A broker non-vote occurs when a nominee holder, such as a brokerage firm, bank or trust company, holding shares of record for a beneficial owner does not vote on a particular proposal because the nominee holder does not have discretionary voting power with respect to that item and has not received voting instructions from the beneficial owner.

Each holder of Common Stock on the Record Date is entitled to one vote for each share then held on all matters to be voted at the Meeting. No other class of voting securities is outstanding on the date of mailing of this Proxy Statement.

Voting

Whether you hold shares directly as a registered shareholder of record or beneficially in street name, you may vote without attending the meeting. You may vote by granting a proxy or, for shares held beneficially in street name, by submitting voting instructions to your stockbroker, trustee or nominee. In most cases, you will be able to do this by using the Internet or telephone or by mail if you received a printed set of the proxy materials. If you attend the meeting and prefer to vote at that time, you may do so.

By Internet If you have Internet access, you may submit your proxy via the Internet by following the instructions provided in the Notice, or if you received a printed version of the proxy materials by mail, by following the instructions provided with your proxy materials and on your proxy card or voting instruction card.

By Telephone or Mail If you received printed proxy materials, you may submit your proxy by telephone by following the instructions provided on your proxy card or voting instruction card. If you received a Notice, you may submit your proxy by telephone after accessing the proxy materials via the Internet. You may also submit your proxy by mail by signing your proxy card if your shares are registered or, for shares held beneficially in street name, by following the voting instructions included by your stockbroker, trustee or nominee, and mailing it in the envelope provided. If you provide specific voting instructions, your shares will be voted as you have instructed. Voting by telephone is not available to persons outside of the United States.

The shares represented by any proxy duly given will be voted at the Meeting in accordance with the instructions of the shareholder. If no specific instructions are given, the shares will be voted FOR the election of the nominees for director set forth herein and FOR ratification of GHP Horwath, P.C. as the Company's independent registered public accounting firm. In addition, if other matters come before the Meeting, the persons named in the accompanying proxy card will vote in accordance with their best judgment with respect to such matters.

Under Proposal 1 (Election of Directors), the five candidates for election as directors at the Meeting are uncontested. In uncontested elections, directors are elected by plurality of the votes cast at the meeting. Proposal 2 (Ratification of Independent Auditors) requires the vote of a majority of the shares present in person or by proxy and voting at the Meeting.

Abstentions and broker non-votes will not be counted as votes in favor of a matter being voted on, and will also not be counted as shares voting on such matter. Accordingly, abstentions and broker non-votes will have no effect on the voting on matters (such as the election of directors, and the ratification of the selection of the independent registered public accounting firm) that require the affirmative vote of a plurality or a majority of the votes cast.

Revoking Your Proxy

Even if you execute a proxy, you retain the right to revoke it and to change your vote by notifying us at any time before your proxy is voted. Mere attendance at the meeting will not revoke a proxy. Such revocation may be effected by calling the toll-free telephone number identified in the Notice, or by accessing the Internet website specified in the Notice, or in writing by execution of a subsequently dated proxy, or by a written notice of revocation, sent to the attention of the Secretary at the address of our principal office set forth in the Notice of Annual Meeting of Shareholders accompanying this Proxy Statement, or by attending and voting in person at the Meeting. Unless revoked, the shares represented by timely received proxies will be voted in accordance with the directions given therein.

Edgar Filing: CHINA SECURITY & SURVEILLANCE TECHNOLOGY, INC. - Form DEF 14A

If the Meeting is postponed or adjourned for any reason, at any subsequent reconvening of the Meeting, all proxies will be voted in the same manner as the proxies would have been voted at the previously convened Meeting (except for any proxies that have at that time effectively been revoked or withdrawn), even if the proxies had been effectively voted on the same or any other matter at a previous Meeting.

Solicitation of Proxies

The expenses of solicitation of proxies will be paid by the Company. We may solicit proxies by mail, and the officers and employees of the Company, who will receive no extra compensation therefor, may solicit proxies personally or by telephone. The Company will reimburse brokerage houses and other nominees for their expenses incurred in sending proxies and proxy materials to the beneficial owners of shares held by them.

Delivery of Proxy Materials to Households

The SEC has adopted rules that allow a company to deliver a single proxy statement or annual report to an address shared by two or more of its shareholders. This method of delivery, known as householding, permits us to realize significant cost savings, reduces the amount of duplicate information shareholders receive, and reduces the environmental impact of printing and mailing documents to you. Under this process, certain shareholders of record who do not participate in electronic delivery of proxy materials will receive only one copy of our Notice of Internet Availability of Proxy Materials or, if applicable, our proxy materials and, as applicable, any additional proxy materials that are delivered until such time as one or more of these shareholders notifies us that they want to receive separate copies. Any shareholders who object to or wish to begin householding may contact Samuel Lo, our Corporate Secretary, orally by telephoning (+86) 755-8351-0888 or in writing at China Security & Surveillance Technology, Inc., 13/F, Shenzhen Special Zone Press Tower, Shennan Road, Futian District, Shenzhen, People's Republic of China, 518034. We will send an individual copy of the proxy statement to any shareholder who revokes their consent to householding within 30 days of our receipt of such revocation.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

The following is a discussion of our executive compensation program and the compensation decisions made for fiscal year 2008 with respect to Guoshen Tu our Chief Executive Officer (referred to as our CEO), and the other executive officer named in the Summary Compensation Table on page 16. We refer to these executive officers as the named executive officers.

After the retirement of our former President, Mr. Shufang Yang, as of December 31, 2008, we had three executive officers, Guoshen Tu, our Chief Executive Officer, Terence Yap, our Chief Financial Officer, and Daiyou Qian, our Chief Operating Officer (on January 16, 2009, Mr. Qian resigned from his position as our Chief Operating Officer and was appointed as our Chief Strategy Officer). Currently, the position of President is vacant, and our CEO assumes the responsibilities of that office on an interim basis.

In 2008, the Compensation Committee accepted recommendations and ideas from senior management and combined with market data to determine the compensation to be paid to the Company's executive officers. Important determining factors included the Company's financial and operating performance and prospects, the level of compensation paid to similarly situated executives in comparably sized companies and the contributions made by each of the executive officers to the success of the Company. The compensation committee is responsible for approving and overseeing executive compensation.

Mr. Tu and Mr. Yap have been involved in the Board's deliberations regarding executive compensation in the past and have provided recommendations with respect to their and the other executive officers' compensation. Beginning in 2008 determinations of Mr. Tu's and Mr. Yap's compensation have been made solely by our compensation committee, and neither Mr. Tu or Mr. Yap take part in any discussions regarding their own respective compensation.

Objectives of our executive compensation program

An understanding of our executive compensation program begins with an understanding of the objectives the program is intended to serve. These include:

- **Offering competitive compensation.** We seek to offer a compensation package that is attractive and competitive with the compensation practices of the peer companies with which we compete for talent (these companies are discussed on page 12 below).
- **Rewarding performance.** Our compensation program is intended to closely align executive compensation with performance by tying a significant portion of compensation to the achievement of financial and other goals of CSST and the executive's contributions to the accomplishment of those goals.
- **Aligning the interests of our executives with those of our shareholders.** A significant portion of the total compensation paid to our top two executive officers is in the form of equity-based compensation. This serves to further align the interests of our executives with those of our shareholders.

Executive compensation consists primarily of restricted stock grants with four to five year vesting requirements. This reduces the risk of short-term decisions being made at the expense of long-term growth.

How executive compensation is determined

The role of the Compensation Committee and its consultant, and of management

The Compensation Committee of independent directors, formed in late 2007, was established to oversee the compensation program for the named executive officers and for the other members of senior management who report to the CEO. The Compensation Committee is assisted in fulfilling its responsibilities by its advisor, James F. Reda and Associates LLC. James F. Reda and Associates is engaged by, and reports directly to, the Compensation Committee. Additional information on the roles of the Compensation Committee, James F. Reda and Associates and management in the process for determining executive compensation is discussed below.

How the elements of our compensation program were selected

The Compensation Committee is responsible for determining the elements of our compensation program. In doing so, the Compensation Committee seeks to structure our program in a way that furthers our program objectives of providing a competitive compensation package, promoting our pay-for-performance philosophy and aligning the interests of our executives and shareholders. In structuring the program, the Compensation Committee considered market comparison information provided by James F. Reda and Associates regarding executive compensation practices generally and at selected comparator companies.

The key compensation elements selected by the Compensation Committee include:

- annual salary;
- annual discretionary bonus (moving to non-discretionary, performance-based in 2009); and
- long-term equity-based compensation, which for 2007 and 2008 was in the form of restricted stock and vests monthly over four to five years.

The Compensation Committee believes that this combination of salary, cash incentive and equity-based compensation is appropriate to provide a competitive compensation package to our executives based on prevailing market practices. As we continue to develop our compensation programs, it is the fundamental belief of the Compensation Committee to tie a significant portion of target compensation to performance as measured by long-term stock price growth, which the Compensation Committee believes supports our pay-for-performance philosophy and the achievement of our strategic goals. While no specific formula is used to determine the allocation between equity-based and fixed compensation, this emphasis on pay-for-performance resulted in equity-based compensation representing the largest portion of the total target compensation (meaning salary, bonus, and equity-based compensation) of the top two executive officers in fiscal year 2007 and for 2008. Specifically, for fiscal year 2008 and based on the SFAS No. 123(R), grant date fair values of their equity-based compensation awards amounted to 98% of total target compensation for the CEO and 97% of total target compensation for the CFO.

Edgar Filing: CHINA SECURITY & SURVEILLANCE TECHNOLOGY, INC. - Form DEF 14A

In addition, the inclusion of equity-based compensation in our program serves to align the interests of the named executive officers with those of our shareholders and promote executive retention.

The company does not provide any other forms of compensation such as retirement benefits, deferred compensation, termination benefits, perquisites, or change-in-control arrangements.

The use of market comparison data

The Comparison Group. The Compensation Committee compares the company's executive compensation program to that of a group of select comparator companies. This review is done with respect to both the structure of our executive compensation program and target compensation. A significant portion of the comparator group is comprised of China-based technology and communication companies listed on the New York Stock Exchange. Several of these companies are significantly larger than CSST. However, after a careful examination of pay levels and practices at these larger China-based companies, it was determined that executive compensation at these larger companies was not significantly different than smaller companies and did not bias the findings. As reporting at these companies improves, the appropriateness of these companies for assessing market pay will be carefully considered.

The comparator group used by the Compensation Committee consists of 18 companies that we believe we compete with for executive talent. This group is referred to as the Comparison Group. The companies included in the Comparison Group were selected by the Compensation Committee based on the recommendation of James F. Reda and Associates. Information on the pay practices of the Comparison Group is provided by James F. Reda and Associates to the extent such information is available.

The following companies made up the Comparison Group. For the President and COO positions we included the head of Honeywell's Automation and Controls Systems division.

| | |
|--|-------------------------------|
| Checkpoint Systems Inc | LDK Solar Co Ltd |
| China Digital TV Holdings Co | NAPCO Security Systems Inc. |

Compensation Structure and Targets. James F. Reda and Associates conducted a comparison of our executive compensation structure and practices to those of the Comparison Group. This review covered several aspects of compensation, including base salary, target bonus, equity grants, pay targets and performance measures where applicable. The market analysis developed was used in part to determine pay targets for 2008. Additionally, since limited salaries and no bonuses were paid in 2007, the committee believed it was important to make allowances for those circumstances. Accordingly, total pay for 2008 exceeded market medians for Mr. Tu and Mr. Yap, both of whom are critical to CSST's continued success in the executive of the company strategy.

Based on its review in 2008, James F. Reda and Associates concluded that the structure of CSST's proposed compensation program is reasonably consistent with industry practices, particularly with regard to other China-based companies, where equity grants are often a major pay component. However, it was recommended that the proposed exclusive reliance on long term incentives as the sole performance element of pay be adjusted to include short term incentives as well. This will provide the balance between short term and long term incentives necessary to facilitate consistent growth and overall performance.

Market comparison data is also used in setting compensation target levels for each of the key elements of our program (salary, cash incentive and equity-based compensation) and for the combined total of these elements. For each of the key elements, the Compensation Committee seeks to determine the prevailing competitive range of target compensation based on publicly-available information and the advice of James F. Reda and Associates, with the mid-point of the range being the 75th percentile of the Comparison Group. The Committee is currently targeting total pay near the 75th percentile with the majority of pay in the form of equity. An executive's actual compensation may be more or less than the target amount set by the Compensation Committee based on CSST's relative performance, changes in our stock price and other factors.

We believe the 75th percentile is appropriate for attracting top talent from a very limited talent pool. Targeting the 75th percentile is also consistent with the growth of the company and pace of acquisitions that are unique in the industry. Also, the Compensation Committee believes it is necessary to ensure key executives continue to position CSST into a leadership position in the security and information technology industries and to reward the extra effort required to achieve very aggressive goals.

Setting compensation targets based on market comparison data is intended to ensure that our compensation practices are competitive with regard to attracting and retaining executive talent. Because each compensation element is reviewed based on available data, which is limited for certain companies, compensation decisions made with respect to one element of compensation do not affect decisions made with respect to other compensation elements. It is also for this reason that no specific formula is used to determine the allocation between cash and equity-based compensation. In addition, because a named executive officer's compensation target is set by reference to persons with similar duties at the Comparison Group companies, the Compensation Committee does not establish any fixed relationship between the compensation of the CEO and that of any other named executive officer.

The key elements of our executive compensation program

As was stated earlier, the key elements of our compensation program are salary, an annual cash incentive, and long-term equity-based compensation awards.

Base salary

Salaries are based on the executive's performance, scope of responsibilities and experience, competitive pay practices and tenure. Base salary is intended to provide a fixed, baseline level of compensation that is not contingent upon CSST's performance, although performance does influence salary adjustments. The Committee's objective is to pay salaries at the low end of the market so that we might emphasize equity-based compensation. All 2008 salaries are below the market median.

In early 2008, an extensive review of compensation practices at CSST and in the market was completed and provided a foundation for 2008 salary determinations. Through 2008, the top executives were compensated primarily with equity salaries have been below market. Salaries were increased to more closely reflect market practice, but are still below the market median.

Annual Cash Bonus

It has not been the practice of CSST to pay annual bonuses. However, following the market analysis of James F. Reda and Associates, the Compensation Committee is preparing a new, performance-based, short-term incentive component of pay in 2009. For 2009, bonuses paid to top executives will be based on the achievement of measures such as gross profit, operating margin, net working capital, cash flow, EBITDA, revenue, and earnings per share.

While bonus targets were met in 2008, the Compensation Committee decided to further align with key executives and managers with longer term incentives through higher equity grants.

Equity-based long-term incentive awards

The primary part of our compensation program is long-term equity-based compensation. Historically, the long-term incentive awards made to the named executive officers have consisted of time vested restricted stock. However, the Compensation Committee will be considering performance shares and other types of equity grants that increase the performance element of equity grants. Restricted stock grants made in 2008 were time-vested grants that the Committee has reserved the right to convert to performance vested shares. Performance vesting was not initially included due to the unprecedented volatility of stock markets and uncertain economic outlook. A modification of these grants to include performance-based vesting will be considered in 2010.

The 2008 award values and total direct compensation for Messrs. Tu and Yap were above the 75th percentile to account for below market salary, annual bonus, and other forms of compensation. All other officers were below the median in long-term incentives and total pay.

Role of Long-Term Incentive Awards. Specifically, these long-term incentive grants:

- allow us to offer a compensation package that is competitive and enhances our ability to attract and retain executive talent;
- align the interests of our executives with those of our shareholders, thereby encouraging the creation of shareholder value; and
- help establish a direct link between compensation amounts, total shareholder return and company operating performance

Award Process. In making awards, the Compensation Committee will not issue a targeted number of shares. Instead, in consultation with James F. Reda and Associates and taking into account market comparison data and the executive's performance, the Compensation Committee will first determine the total dollar value of the award to be granted to the named executive officer.

The values assigned by the Compensation Committee to the individual equity grants are then translated into a specific number of full share grants such as restricted stock or options to purchase stock, in each case based on the fair market value at the date of the grant. The value ultimately realized from these awards will depend on a number of factors, including our operating performance and movements in our stock price.

Timing of Equity Awards. The Compensation Committee has not formally adopted a timing policy for the granting of stock options but will be taking up this matter in 2009. Policies to be considered include prohibiting backdating any equity grant, or manipulating the timing of either the public release of information or the grant of an award in order to increase the value of the award. Also under consideration will be fixed dates for annual equity-based compensation awards and any off-cycle awards approved by our CEO. The exercise price of any stock option will be at least the closing price of CSST stock or higher on the grant date.

Awards in Fiscal Year 2008. Restricted stock awards were made in May and November. The long-term incentive awards to the named executive officers are reflected in the Grants of Plan-Based Awards table on page 17. The total value of the grants to Messrs. Tu, Yap, and Qian were intended to adjust for low compensation in 2006 and 2007 and to provide a strong retention incentive. These awards are also in recognition of the absence of retirement programs or severance plans.

In addition, these awards were designed to solidify the ownership positions of Mr. Tu and Mr. Yap as both are vital to the future success of the company at this pivotal time. The Compensation Committee had considered including performance conditions that would trigger vesting upon achievement of certain price hurdles, but determined not to include such conditions at this time.

Other benefits

At present we do not provide nor do we plan to provide, pension benefits, deferred compensation, life insurance or other benefits to our executive officers. Our philosophy is to have pay based almost exclusively on performance and at levels above market. In other words, by establishing higher levels of risk in pay, the Committee has targeted higher than market pay.

Change in control and employment agreements

Through 2008 there were no change-in-control agreements or employment agreements of any kind nor are there plans to institute change-in-control agreements or severance agreements.

We do not have employment agreements or termination agreements of any type with any of our executive officers, other than the consulting agreement with Terence Yap, which as discussed above expired in February 2009.

Potential Payments Upon Termination of Employment or Change of Control

The Company does not have change-in-control arrangements with any of its executive officers, and the Company is not obligated to pay severance or other enhanced benefits to executive officers upon termination of their employment.

The 2007 Plan provides for the acceleration of vesting if a successor corporation does not assume or substitute outstanding stock awards. Upon a change of control, all unvested options and stock appreciation rights will become fully vested and exercisable, and all restricted stock units, performance units, performance shares and restricted stock will become fully vested and payable. Accelerated vesting occurs with respect to all equity-based compensation awards granted by the Company, and not just those granted to the named executive officers. In addition, no termination of employment is required to accelerate vesting.

The following table reflects the intrinsic value of unvested restricted stock that would be accelerated assuming a change in control occurred on December 31, 2008. Our named executive officer are not entitled to any payments upon a termination of employment.

Non-Management Directors Compensation

The Board believes that providing competitive compensation is necessary to attract and retain qualified non-management directors. The key elements of the Company's non-management director compensation are a cash retainer, committee chairman fees, and equity-based compensation and meeting fees. The Company reimburses non-management directors for travel and other business expenses incurred in the performance of their services for the Company. Directors are also reimbursed for attending director education courses.

Each director has actively assisted management in executing its ambitious growth strategy. Director compensation has been primarily in the form of equity. As the company absorbs numerous acquisitions and solidifies its position in the marketplace, director pay will recede. In 2009, restricted stock grants for directors were reduced to \$113,000 in grant value per independent director, a 55% to 58% decline from 2008 grant values.

Edgar Filing: CHINA SECURITY & SURVEILLANCE TECHNOLOGY, INC. - Form DEF 14A

Our non-management directors are entitled to an annual retainer, consisting of (i) a cash retainer and (ii) stock grant. In addition, they receive cash fees for serving on committees of our Board of Directors.

Based on an analysis of director compensation paid by the Comparison Group, the Board approved the following compensation structure for non-management directors in 2008. This compensation structure remains effective for 2009.

2008 NON-MANAGEMENT DIRECTOR COMPENSATION PROGRAM

| | Retainer | Meeting Fee |
|--|------------------------------------|--------------------|
| Board | | |
| Annual Cash | As currently provided ¹ | \$0 |
| Annual Equity | To be determined ² | \$0 |

| Nominating & Gov. Committee | | |
| Chairman | \$12,000 | \$1,500 |
| Member | \$5,000 | \$1,000 |

(1) Annual cash retainer varies by director as follows: Runsen Li-\$41,072, Peter Mak-\$120,000, Robert Shiver-\$50,000.

The Board believes that this fee structure recognizes our directors' key role in driving our international growth and for the work required on each of the three committees the directors serve.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE**Transactions with Related Persons**

Since the beginning of the last fiscal year, there have not been any transaction, nor is there any currently proposed transaction, in which we were or are to be a participant and the amount involved exceeded or exceeds \$120,000, and in which any related person had or will have a direct or indirect material interest (other than compensation described under Executive Compensation).

Policies and Procedures for Review, Approval or Ratification of Transactions with Related Persons

We are in the process of adopting a written related-person transactions policy that sets forth our policies and procedures regarding the identification, review, consideration and approval or ratification of related-persons transactions. For purposes of our policy only, a related-person transaction will be a transaction, arrangement or relationship (or any series of similar transactions, arrangements or relationships) in which we and any related person are participants involving an amount that exceeds \$50,000. Transactions involving compensation for services provided to us as an employee, director, consultant or similar capacity by a related person will not be covered by this policy. A related person will be any executive officer, director or a holder of more than five percent of our common stock, including any of their immediate family members and any entity owned or controlled by such persons.

Under the policy, where a transaction has been identified as a related-person transaction, management must present information regarding the proposed related-person transaction to our Board for consideration and approval or ratification. The presentation must include a description of, among other things, the material facts, the direct and indirect interests of the related persons, the benefits of the transaction to us and whether any alternative transactions are available. To identify related-person transactions in advance, we will rely on information supplied by our executive officers, directors and certain significant shareholders. In considering related-person transactions, our Board will take into account the relevant available facts and circumstances including, but not limited to:

- the risks, costs and benefits to us;
- the impact on a director's independence in the event the related person is a director, immediate family member of a director or an entity with which a director is affiliated;
- the terms of the transaction;
- the availability of other sources for comparable services or products; and
- the terms available to or from, as the case may be, unrelated third parties or to or from our employees generally.

In the event a director has an interest in the proposed transaction, the director must excuse himself or herself from the deliberations and approval. Our policy will require that, in determining whether to approve, ratify or reject a related-person transaction, our Audit Committee must consider, in light of known circumstances, whether the transaction is in, or is not inconsistent with, the best interests of our Company and our shareholders, as our board or Audit Committee determines in the good faith exercise of its discretion. We did not previously have a formal policy concerning transactions with related persons.

PROPOSAL 1

ELECTION OF DIRECTORS

The Board of Directors is responsible for establishing broad corporate policies and monitoring the overall performance of the Company. It selects the Company's executive officers, delegates authority for the conduct of the Company's day-to-day operations to those officers, and monitors their performance. Members of the Board keep themselves informed of the Company's business by participating in Board and Committee meetings, by reviewing analyses and reports, and through discussions with the Chairman and other officers.

There are currently five directors serving on the Board. At the Meeting, five directors will be elected. The individuals who have been nominated for election to the Board at the Meeting are listed in the table below. Each of the nominees is a current director of the Company.

If, as a result of circumstances not now known or foreseen, any of the nominees is unavailable to serve as a nominee for director at the time of the Meeting, the holders of the proxies solicited by this Proxy Statement may vote those proxies either (i) for the election of a substitute nominee who will be designated by the proxy holders or by the present Board or (ii) for the balance of the nominees, leaving a vacancy. Alternatively, the size of the Board may be reduced accordingly. The Board has no reason to believe that any of the nominees will be unwilling or unable to serve, if elected as a Director. The five nominees for election as directors are uncontested. In uncontested elections, directors are elected by plurality of the votes cast at the meeting. **Proxies submitted on the accompanying proxy card will be voted for the election of the nominees listed below, unless the proxy card is marked otherwise.**

Director Selection

As provided in its charter, the Nominating and Governance Committee of the Company's Board of Directors is responsible for identifying individuals qualified to become Board members and recommending to the Board nominees for election as directors. The Nominating and Governance Committee considers recommendations for director nominees, including those submitted by the Company's shareholders, on the bases described below. Shareholders may recommend nominees by writing to the Nominating and Governance Committee c/o the Secretary at 13/F, Shenzhen Special Zone Press Tower, Shennan Road, Futian District, Shenzhen, People's Republic of China, 518034. Shareholder recommendations will be promptly provided to the chairman of the Nominating and Governance Committee. To be considered by the Nominating and Governance Committee for inclusion in the proxy for the 2010 annual meeting, recommendations must be received by the Secretary of the Company not later than the close of business on December 31, 2009.

In identifying and evaluating nominees, the Nominating and Governance Committee may consult with the other Board members, management, consultants, and other individuals likely to possess an understanding of the Company's business and knowledge of suitable candidates. In making its recommendations, the Nominating and Governance Committee assesses the requisite skills and qualifications of nominees and the composition of the Board as a whole in the context of the Board's criteria and needs. In evaluating the suitability of individual Board members, the Nominating and Governance Committee may take into account many factors, including general understanding of marketing, finance and other disciplines relevant to the success of a publicly traded company in today's business environment; understanding of the company's business and technology; the international nature of the company's operations, educational and professional background; and personal accomplishment. The Nominating and Governance Committee evaluates each individual in the context of the Board as a whole, with the objective of recommending a group that can best perpetuate the success of the company's business and represent shareholder interests through the exercise of sound judgment, using its diversity of experience. The Nominating and Governance Committee, therefore, also ensures that not less than a majority of directors shall satisfy the NYSE independence requirements.

The Board of Directors recommends a vote FOR the election of the nominees listed below.
