UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-K

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended December 31, 2018
Commission file number 001-31922

TEMPUR SEALY INTERNATIONAL, INC.
(Exact name of registrant as specified in its charter)

Delaware 33-1022198
(State or other jurisdiction of (I.R.S. Employer
incorporation or organization) Identification No.)

1000 Tempur Way
Lexington, Kentucky 40511
(Address of registrant's principal executive offices) (Zip Code)
Registrant's telephone number, including area code: (800) 878-8889
Securities registered pursuant to Section 12(b) of the Act:

Title of Each Class	Name of Each Exchange on Which Registered
Common Stock, \$0.01 par value	New York Stock Exchange

Securities registered pursuant to Section 12(g) of the Act:

None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.
Yes x No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No x

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes x No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§229.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes x No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§229.405 of this chapter) is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer", "accelerated filer", "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one):

Edgar Filing: TEMPUR SEALY INTERNATIONAL, INC. - Form 10-K

Large Accelerated filer Accelerated filer Non-Accelerated filer Smaller Reporting Company Emerging Growth Company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act.):

Yes No

The aggregate market value of the common equity held by nonaffiliates of the registrant on June 30, 2018, computed by reference to the closing price for such stock on the New York Stock Exchange on such date, was approximately \$2,192,144,163.

The number of shares outstanding of the registrant's common stock as of February 18, 2019 was 54,641,297 shares.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the registrant's definitive proxy statement for the 2019 Annual Meeting of Stockholders, which is to be filed subsequent to the date hereof, are incorporated by reference into Part III of this Form 10-K.

Special Note Regarding Forward-Looking Statements

This Annual Report on Form 10-K (the “Report”), including the information incorporated by reference herein, contains “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), which includes information concerning one or more of our plans; objectives; goals; strategies and other information that is not historical information. Many of these statements appear, in particular, under the heading “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in Part II, ITEM 7 of this Report. When used in this Report, the words “assumes,” “estimates,” “expects,” “guidance,” “anticipates,” “projects,” “plans,” “proposed,” “targets,” “intends,” “believes,” “will” and variations of such words or similar expressions are intended to identify forward-looking statements. These forward-looking statements are based upon our current expectations and various assumptions. There can be no assurance that we will realize our expectations or that our beliefs will prove correct.

Numerous factors, many of which are beyond the Company’s control, could cause actual results to differ materially from those expressed as forward-looking statements in this Report, including risks associated with the impact of the macroeconomic environment in both the U.S. and internationally (including the impact of our highly inflationary economies) on our business segments and expectations regarding growth of the mattress industry; uncertainties arising from global events; the effects of strategic investments on our operations, including our efforts to expand our global market share; the ability to develop and successfully launch new products; the efficiency and effectiveness of our advertising campaigns and other marketing programs; the ability to increase sales productivity within existing retail accounts and to further penetrate the retail channel, including the timing of opening or expanding within large retail accounts and the timing and success of product launches; the ability to continuously improve and expand our product line, maintain efficient, timely and cost-effective production and delivery of products, and manage growth; the effects of consolidation of retailers on revenues and costs; competition in our industry; consumer acceptance of our products; the effects of discontinued operations on our operating results and future performance; general economic, financial and industry conditions, particularly conditions relating to the financial performance and related credit issues present in the retail sector; financial distress among our business partners, customers and competitors; financial solvency and related problems experienced by other market participants; our reliance on information technology and the associated risks involving potential security lapses and/or cyber-based attacks; the outcome of pending tax audits or other tax, regulatory or investigation proceedings and pending litigation; changes in foreign tax rates and changes in tax laws generally, including the ability to utilize tax loss carryforwards; our capital structure and increased debt level, including our ability to meet financial obligations and continue to comply with the terms and financial ratio covenants of our credit facilities; changes in interest rates; effects of changes in foreign exchange rates on our reported earnings; changing commodity costs; disruptions in the supply of raw materials, or loss of suppliers; expectations regarding our target leverage and our share repurchase program; sales fluctuations due to seasonality; the effect of future legislative or regulatory changes, including changes in international trade duties, tariffs and other aspects of international trade policy; our ability to protect our intellectual property; and disruptions to the implementation of our strategic priorities and business plan caused by abrupt changes in our executive management team.

Other potential risk factors include the risk factors discussed under the heading “Risk Factors” under Part I, ITEM 1A of this Report. In addition, there may be other factors that may cause our actual results to differ materially from the forward-looking statements.

All forward-looking statements attributable to us apply only as of the date of this Report and are expressly qualified in their entirety by the cautionary statements included in this Report. Except as may be required by law, we undertake no obligation to publicly update or revise any of the forward-looking statements, whether as a result of new information, future events, or otherwise.

When used in this Report, except as specifically noted otherwise, the term “Tempur Sealy International” refers to Tempur Sealy International, Inc. only, and the terms “Company,” “we,” “our,” “ours” and “us” refer to Tempur Sealy International, Inc. and its consolidated subsidiaries. When used in this Report, the term “Tempur” may refer to Tempur-branded products and the term “Sealy” may refer to Sealy-branded products or to Sealy Corporation and its historical subsidiaries, in all cases as the context requires. In addition, when used in this Report, “2016 Credit

Agreement” refers to the Company’s senior credit facility entered into in 2016; “2012 Credit Agreement” refers to the Company’s prior senior credit facility entered into in 2012; “2023 Senior Notes” refers to the 5.625% senior notes due 2023 issued in 2015; “2026 Senior Notes” refers to the 5.50% senior notes due 2026 issued in 2016; "2020 Senior Notes" refers to the 6.875% senior notes due 2020 retired in 2016; and "8.0% Sealy Notes" refers to Sealy’s 8.0% Senior Secured Third Lien Convertible Notes retired in 2016.

Table of Contents

PART I

ITEM 1. BUSINESS

General

We develop, manufacture and market bedding products, which we sell globally. Our brand portfolio includes many highly recognized brands in the industry, including TEMPUR®, Tempur-Pedic®, Sealy® featuring Posturepedic® Technology, and Stearns & Foster®. Our comprehensive suite of bedding products offers a variety of products to consumers across a broad range of channels.

We operate in two segments: North America and International. Corporate operating expenses are not included in either of the segments and are presented separately as a reconciling item to consolidated results. These segments are strategic business units that are managed separately based on geography. Our North America segment consists of Tempur and Sealy manufacturing and distribution subsidiaries and licensees located in the U.S. and Canada. Our International segment consists of Tempur and Sealy manufacturing and distribution subsidiaries, joint ventures and licensees located in Europe, Asia-Pacific and Latin America. We recently divested certain of our manufacturing and distribution subsidiaries in Latin America.

Our primary selling channels are Wholesale and Direct. These channels align to the margin characteristics of our business and our marketplace. Wholesale includes all third party retailers, including third party distribution, hospitality and healthcare. Direct includes company-owned stores, e-commerce, and call centers.

Our long-term strategy is to drive earnings growth. Our goal is to improve the sleep of more people, every night, all around the world. In order to achieve our long-term strategy while managing the current economic and competitive environments, we will focus on developing the most innovative bedding products in all the markets we serve, making significant investments in our global brands and optimizing our worldwide distribution through all channels. We also intend to generate earnings growth through ongoing investments in research and development and productivity initiatives, which will improve our profitability and create long-term stockholder value.

Our principal executive office is located at 1000 Tempur Way, Lexington, Kentucky 40511 and our telephone number is (800) 878-8889. Tempur Sealy International, Inc. was incorporated under the laws of the State of Delaware in September 2002. Our Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and any amendments to such reports filed with or furnished to the Securities and Exchange Commission (“SEC”) pursuant to Sections 13(a) or 15(d) of the Exchange Act, are available free of charge on our website at www.tempursealy.com as soon as reasonably practicable after such reports are electronically filed with the SEC. Our website and its contents are not deemed incorporated by reference into this Report.

The SEC also maintains an Internet site that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC. The website of the SEC is www.sec.gov.

Our Products and Brands

We have a comprehensive offering of products that appeal to a broad range of consumers, some of which are covered by one or more patents and/or patent applications. We also routinely introduce new mattress models, launch new products and update our existing mattress products in each of our segments.

In order to achieve our goal to improve the sleep of more people, every night, all around the world, one of our strategic initiatives is to leverage and strengthen our comprehensive portfolio of iconic brands and products. Our

brand portfolio includes many highly recognized brands, including TEMPUR®, Tempur-Pedic®, Sealy® featuring Posturepedic® Technology and Stearns & Foster®, which are described below:

Tempur-Pedic® - Founded in 1991, the Tempur brand is our specialty innovation category leader designed to provide life changing sleep for our wellness-seeking consumers. Our proprietary Tempur material precisely adapts to the shape, weight and temperature of the consumer and creates fewer pressure points, reduces motion transfer and provides personalized comfort and support.

Table of Contents

Stearns & Foster® - The Stearns & Foster brand offers our consumers high quality mattresses built by certified craftsmen who have been specially trained. Founded in 1846, the brand is designed and built with precise engineering and relentless attention to detail and fuses new innovative technologies with time-honored techniques, creating supremely comfortable beds.

Sealy® featuring Posturepedic® Technology - The Sealy brand originated in 1881 in Sealy, Texas, and for over a century has focused on offering trusted comfort, durability and excellent value while maintaining contemporary styles and great support. The Sealy Posturepedic brand, introduced in 1950, was engineered to provide all-over support and body alignment to allow full relaxation and deliver a comfortable night's sleep. In 2017, Sealy Posturepedic no longer represented its own separate brand as we united all of our Sealy products under one masterbrand, which features the Posturepedic Technology™ in the Sealy Performance™ and Sealy Premium™ collections.

Cocoon by Sealy™ - The Cocoon by Sealy brand, introduced in 2016, is our offering in the below \$1,000 e-commerce space, made with the high quality materials that consumers expect from Sealy, sold online at www.cocoonbysealy.com and delivered in a box directly to consumers' doorsteps.

In 2018, we launched a new line of Tempur-Pedic products and a new Sealy Hybrid line in North America. The new Tempur-Pedic line includes the Tempur-Adapt®, Tempur-ProAdapt®, and Tempur LuxeAdapt™ series which are made from a unique combination of innovative materials that adapt and respond to the body's needs. Our Adapt™ and ProAdapt™ series feature a new advanced pressure relief TEMPUR® material called TEMPUR-APR™, while our LuxeAdapt™ series features TEMPUR-APR+™, providing better pressure relief and higher conforming features than ever before. We also launched a new line of Tempur-Adapt pillows and a new portfolio of adjustable bases. The new Sealy Hybrid line completes the relaunch of Sealy products under one masterbrand. The Sealy Hybrid line leverages the best technologies from the Sealy Response and Conform lines and features the DuoChill™ Cooling Sleep System which offers twice the cool-to-the-touch technology, nested coil technology with 20% more coils and Duraflex™ Coil Edge technology offering better edge support compared to our existing Sealy Hybrid.

In 2019, we are launching the all-new Tempur-Breeze® products as well as a new Stearns & Foster lineup in North America. The new Breeze line includes PRObreeze™ and LUXEbreeze™ models offering the most innovative cooling system in the market, re-designed to deliver all night cooling comfort. The new Breeze products complete the largest Tempur rollout in our history. The new Stearns & Foster design utilizes the finest materials and legendary craftsmanship, featuring a premium, timeless look. Our all new IntelliCoil® HD innerspring incorporates 20% more coils, allowing sleepers to find their perfect level of support. This lineup also features for the first time, the proprietary memory foam engineered exclusively for Stearns & Foster by Tempur-Pedic.

Our Channels

Wholesale

Our Wholesale channel includes all third party retailers, including third party distribution, hospitality and healthcare, and represented 90.7% of net sales in 2018. Our top five customers accounted for approximately 22.7% of our sales for 2018.

Direct

Our Direct channel includes company-owned stores, e-commerce and call centers and represented 9.3% of net sales in 2018.

Marketing

Our overall marketing strategy is to drive consumer demand through the use of effective marketing. We invest across multiple media platforms to build brand awareness and drive consumer interest in our products. Our strategy varies by segment; however, the majority of our advertising programs are created on a centralized basis through our in-house advertising organization. We plan to drive net sales through continued investments in new products, marketing and other initiatives.

Table of Contents

North America

Our North America segment sells primarily through the Wholesale channel, which contributed 93.1% of North America segment sales in 2018. In North America, we advertise nationally on television, digitally and through consumer and trade print. In addition, we participate in cooperative advertising on a shared basis with some of our retail customers. Throughout the year, we invested in a series of strategic marketing initiatives, which included new product introductions, advertising and in-store marketing investments.

International

Our International segment sells primarily through the Wholesale channel, which contributed 81.7% of International segment net sales in 2018. The advertising strategy in our International segment focuses on building brand awareness, which we believe is important to increasing our overall market share. We advertise on television, digitally and through consumer and trade print, as well as cooperative advertising on a shared basis with some of our retail customers. We expect continued growth in our International segment through expanding product lines within existing channels, increasing our market share in previously under-penetrated markets and, where appropriate, entering into new markets.

Seasonality

We believe that sales of products to furniture and bedding stores are typically subject to modest seasonality inherent in the bedding industry, with sales expected to be generally lower in the second and fourth quarters. We did not experience our typical seasonality in 2018 as this was impacted by our phased rollout of new Tempur products, with new product shipping in the second and fourth quarter. Sales in a particular quarter can also be impacted by competitive industry dynamics. Additionally, the U.S. bedding industry generally experiences increases in sales around holidays and promotional periods.

Operations

Manufacturing and Distribution

Our products are currently manufactured and distributed through our global network of facilities. For a list of our principal manufacturing and distribution facilities, please refer to Item 2, "Properties".

Suppliers

We obtain the raw materials used to produce our pressure-relieving TEMPUR® material and components used in the manufacture of Tempur products from outside sources. We currently acquire chemicals and proprietary additives for Tempur products as well as other components such as textiles from a number of suppliers with manufacturing locations around the world. These supplier relationships may be modified in order to maintain quality, cost, and delivery expectations. We do not consider ourselves dependent upon any single outside vendor as a source of raw materials for Tempur products and believe that sufficient alternate sources of supply for the same or similar raw materials are available. Additionally, we source the manufacturing of our adjustable bed bases and foundations from third party manufacturers. We do not consider ourselves dependent upon any single outside manufacturer as a source of these products.

Sealy product raw materials consist of polyurethane foam, polyethylene foam, textiles, and steel innerspring components that we purchase from various suppliers. In the U.S. and Canada, we source the majority of our requirements for polyurethane foam components and spring components for our Sealy and Stearns & Foster mattress

units and adjustable bed bases from a key supplier for each component. We also purchase a significant portion of our Sealy foundation parts from third party sources. All components are purchased under supply agreements. We do not consider ourselves to be dependent in the long term upon any single outside vendor as a source of supply to our bedding business, and we believe over time that sufficient alternate sources of supply for the same, similar or alternate components are available. However if a key supplier for an applicable component failed to supply components in the amount we require, this could significantly interrupt production of our products and increase our production costs in the near term.

Research and Development

We have four research and development centers, three in the U.S. and one in Denmark, that conduct technology and product development. Additionally, we have a product testing facility that conducts hundreds of consumer tests annually. We believe our consumer-research driven approach to innovation results in best-in-class products that benefit the consumer.

Table of Contents

Industry and Competition

We compete in the global bedding industry. The bedding industry is comprised of mattresses and foundations, pillows and accessories. The mattress market category is comprised of traditional innerspring mattresses and non-innerspring mattresses, which includes visco-elastic and foam mattresses, innerspring/foam hybrid mattresses, airbeds and latex mattresses. The foundation category is comprised of traditional foundations and adjustable foundations. Additionally, the pillow market is comprised of traditional foam and feather pillows, as well as pillows made of visco-elastic, latex, foam, sponge, rubber and down. The primary distribution channels for mattresses and foundations are retail furniture and bedding stores, department stores, wholesale clubs and the internet.

We encounter competition from a number of bedding manufacturers in both the highly concentrated domestic and highly fragmented international markets. Participants in each of these markets compete primarily on price, quality, brand name recognition, product availability and product performance. Mattress and pillow manufacturers and retailers are seeking to increase their channels of distribution and are looking for new ways to reach the consumer, including the recent expansion in the number of U.S. and international companies pursuing online direct-to-consumer models for foam mattresses. In addition, retailers in both the U.S. and internationally are increasingly seeking to integrate vertically in the furniture and bedding industries, including by offering their own brands of mattresses and pillows.

The U.S. is the largest market in which we compete. Since 1997, U.S. wholesale bedding sales, which include mattresses and foundations, have grown at a compound annual growth rate, or "CAGR", of 5.6%, reaching \$8.4 billion in 2017 according to the International Sleep Products Association ("ISPA"). According to ISPA, U.S. mattress producer shipments decreased 4.4% and the total dollar value of mattress shipments decreased 2.0% in 2017 as compared to 2016. Despite the decrease in shipments and total dollar value recognized by ISPA, average unit selling price ("AUSP") for mattresses increased 3.3% in 2017 compared to 2016. The increases in AUSP are primarily due to consumer awareness of the ongoing new health benefits of better sleep discovered by the medical community, as well as increases in overall consumer brand awareness and consumer sentiment.

The recent trend change in industry shipments has largely been impacted by the increasing role played by imports. We believe imported units grew significantly during the period 2016 through 2018, and China accounted for the largest share of the imported units. Because of the influx of low-priced, imported mattresses, an anti-dumping duty petition was filed with the U.S. International Trade Commission and the U.S. Department of Commerce in September of 2018, by a number of domestic "Mattress Petitioners." In November 2018, the U.S. International Trade Commission found a reasonable indication that unfairly traded imports of mattresses from China caused material injury to the U.S. mattress industry. The petition seeks the imposition of anti-dumping duties to offset the level of dumping. The U.S. Department of Commerce is currently investigating whether and to what extent mattresses imported from China and sold in the United States have been dumped. The U.S. Department of Commerce preliminary determination on this issue is expected in May 2019. If the U.S. Department of Commerce finds that dumping has occurred, anti-dumping duties on future imports of mattresses from China will be levied in an amount equal to the dumping margin.

The U.S. mattress market has experienced consolidation among manufacturers in recent years. We, together with Serta Simmons Bedding, LLC, which sells products under the Serta and Simmons brands, collectively accounted for a significant share of the wholesale bedding industry revenues in 2017 based on figures obtained from ISPA and Furniture Today industry publications. The balance of the mattress market in the U.S. is served by a large number of other manufacturers. In addition, there has been consolidation of mattress retailers in the U.S. over the last several years.

The international market is served by a large number of manufacturers, primarily operating on a regional and local basis. These manufacturers offer a broad range of mattress and pillow products.

The highly competitive nature of the mattress and pillow industries means we are continually subject to the risk of loss of market share, loss of significant customers, reductions in margins, and the inability to acquire new customers.

Intellectual Property

Patents, Trademarks and Licensing

We hold U.S. and foreign patents and patent applications regarding certain elements of the design and function of many of our mattress and pillow products.

Table of Contents

As of December 31, 2018, we held trademark registrations worldwide, which we believe have significant value and are important to the marketing of our products to retailers. TEMPUR® and Tempur-Pedic® are trademarks registered with the U.S. Patent and Trademark Office. In addition, we have U.S. applications pending for additional trademarks. Several of our trademarks have been registered, or are the subject of pending applications, in various foreign countries. Each U.S. trademark registration is renewable indefinitely as long as the trademark remains in use. We also own numerous trademarks, trade names, service marks, logos and design marks, including Sealy®, Stearns & Foster® and Sealy Posturepedic®. In addition, we license the Bassett® trade name in various territories under a long-term agreement.

We derive income from royalties by licensing Sealy® brands, technology and trademarks to other manufacturers. Under the license arrangements, licensees have the right to use certain trademarks and current proprietary and/or patented technology that we utilize. We also provide our licensees with product specifications, research and development, statistical services and marketing programs. For the year ended December 31, 2018, our licensing activities as a whole generated unaffiliated net royalties of approximately \$20.9 million.

Governmental Regulation

Our operations are subject to international, federal, state, and local consumer protection and other regulations, primarily relating to the mattress and pillow industry. These regulations vary among the states, countries, and localities in which we do business. The regulations generally impose requirements as to the proper labeling of bedding merchandise, restrictions regarding the identification of merchandise as “new” or otherwise, controls as to hygiene and other aspects of product handling and sale and penalties for violations. The U.S. Consumer Product Safety Commission (“CPSC”) has adopted rules relating to fire retardancy standards for the mattress industry. Many foreign jurisdictions also regulate fire retardancy standards. Future changes to these standards may require modifications to our products to comply with such changes. We are also subject to environmental and health and safety requirements with regard to the manufacture of our products and the conduct of our operations and facilities. We have made and will continue to make capital and other expenditures necessary to comply with these requirements. Currently these expenditures are immaterial to our financial results. For a discussion of the risks associated with our compliance programs in connection with these regulations, please refer to “Risk Factors” under Part I, Item 1A of this Report.

Our principal waste products are foam and fabric scraps, wood, cardboard and other non-hazardous materials derived from product component supplies and packaging. We also periodically dispose of small amounts of used machine lubricating oil and air compressor waste oil, primarily by recycling. In the U.S., we are subject to federal, state and local laws and regulations relating to environmental health and safety, including the Federal Water Pollution Control Act and the Comprehensive Environmental Response, Compensation and Liability Act. We believe that we are in compliance with all applicable international, federal, state and local environmental statutes and regulations. We do not expect that compliance with international, federal, state or local provisions that have been enacted or adopted regulating the discharge of materials into the environment, or otherwise relating to the protection of the environment, will have a material effect upon our capital expenditures, earnings or competitive position. We are not aware of any pending federal environmental legislation that would have a material impact on our operations, and have not been required to make, and do not expect to make, any material capital expenditures for environmental control facilities in the foreseeable future.

In connection with sales of our products, we often collect and process personal data from our customers. As such, we are subject to certain regulations relating to information technology security and personal data protection and privacy. For example, the European Union recently adopted the General Data Protection Regulation (“GDPR”), which took effect in May 2018. GDPR imposes a new and expanded set of ongoing compliance requirements on companies, including us, that process personal data from citizens living in the European Union. In addition, there are country-specific data privacy laws forthcoming which may or may not follow the principles laid out in GDPR. We

have implemented a compliance system and have put reasonable measures in place to facilitate adherence to the continuing compliance requirements of GDPR.

Employees

As of December 31, 2018, we had approximately 6,200 Tempur Sealy employees, approximately 4,300 of which are located in North America and 1,900 in the rest of the world. Approximately 29.4% of our employees are represented by various labor unions with separate collective bargaining agreements. Due to the large number of collective bargaining agreements, we are periodically in negotiations with certain of the unions representing our employees. We consider our overall relations with our workforce to be satisfactory. Our current collective bargaining agreements, which are typically one to three years in length, expire at various times beginning in 2019 through 2021. As of December 31, 2018, our North America segment employed approximately 500 individuals covered under collective bargaining agreements expiring in 2019 and our International segment employed approximately 400 individuals covered under collective bargaining agreements expiring in 2019.

Table of Contents

ITEM 1A. RISK FACTORS

The following risk factors and other information included in this Report should be carefully considered. Please also see “Special Note Regarding Forward-Looking Statements” on page 3.

Set forth below are descriptions of certain risks relating to our business.

Unfavorable economic and market conditions could reduce our sales and profitability and as a result, our operating results may be adversely affected.

Our business is affected by general business and economic conditions, and these conditions could have an impact on future demand for our products. The global economy has stabilized somewhat since the financial crisis, but we expect economic conditions specific to our markets to remain challenging. Further, economic and market conditions are inherently complex and subject to change, and any deterioration in those conditions may give households less confidence to make discretionary purchases.

There could be a number of other effects from these economic developments on our business, some of which we have already experienced, including reduced consumer demand for products; liquidity problems among our customers and related market participants; insolvency of and bankruptcy filings by our customers and related market participants resulting in increased provisions for credit losses and/or write downs of existing assets; liquidity problems and/or insolvency of our key suppliers resulting in product delays; inability of retailers and consumers to obtain credit to finance purchases of our products; decreased consumer confidence; decreased retail demand, including order delays or cancellations; counterparty failures negatively impacting our treasury operations; inability for us, our customers and our suppliers to accurately forecast future product demand trends; and adverse movements in foreign currency exchange rates. If such conditions are experienced in future periods, our industry, business and results of operations may be severely impacted.

Our sales growth is dependent upon our ability to implement strategic initiatives and actions taken to increase sales growth may not be effective.

Our ability to generate sales growth is dependent upon a number of factors, including the following:

- our ability to continuously improve our products to offer new and enhanced consumer benefits and better quality;
- the ability of our current and future product launches to increase net sales;
- the effectiveness of our advertising campaigns and other marketing programs to build product and brand awareness, driving traffic to our distribution channels and increasing sales;
- our ability to continue to expand into new distribution channels and optimize our existing channels;
- our ability to continue to successfully execute our strategic initiatives;
- the level of consumer acceptance of our products at optimal price points;
- our ability to successfully mitigate the impact of headwinds facing our business, including increased commodity prices and the influx of low-end, imported beds that compete with certain of our products; and
- general economic factors that impact consumer confidence, disposable income or the availability of consumer financing.

Our new product launches may not be successful due to development delays, failure of new products to achieve anticipated levels of market acceptance and significant costs associated with failed product introductions, which could adversely affect our revenues and profitability.

Each year we invest significant time and resources in research and development to improve our product offerings and launch new products. We began a major product launch for our Tempur products in the U.S. in 2018 that is ongoing. The launch was challenged in the short-term by certain discrete factors, including incremental product launch costs, cannibalization of higher-priced Tempur products and a temporary delay in the launch to ensure product quality. Our financial performance for 2018 was impacted by these factors and positive performance during 2019 will be substantially dependent on the tapering of those short-term factors and continued overall success of the launch. There are a number of risks that continue to be inherent in our new product line introductions, including that the anticipated level of market acceptance may not be realized, which could negatively impact our sales. Further, introduction costs, the speed of the rollout of the product and manufacturing inefficiencies may be greater than anticipated, each of which could impact profitability.

Table of Contents

We operate in the highly competitive mattress and pillow industries, and if we are unable to compete successfully, we may lose customers and our sales may decline.

Participants in the mattress and pillow industries compete primarily on price, quality, brand name recognition, product availability and product performance across a range of distribution channels.

A number of our significant competitors offer mattress and pillow products that compete directly with our products. The effectiveness of our competition relative to our performance, including by established manufacturers or new entrants into the market, could have a material adverse effect on our business, financial condition and/or operating results. For example, market participants continue to improve their channels of distribution to optimize their reach to the consumer, including by pursuing online direct-to-consumer models for foam mattresses and offering their own lines of mattresses. In addition, retailers in the U.S. and internationally have integrated vertically in the furniture and bedding industries, and it is possible that such vertical integration may provide conditions that would negatively impact our net sales and results of operations. The pillow industry in particular is characterized by a large number of competitors, none of which is dominant. As such, conditions that substantially increase a single participant's market share would likely be detrimental to our financial performance. The highly competitive nature of the mattress and pillow industries means we are continually subject to the risk of loss of market share, loss of significant customers, reductions in margins, and the inability to acquire new customers.

Because we depend on certain significant customers, a decrease or interruption in their business with us would reduce our sales and results of operations.

No customer represented 10.0% or more of our net sales for 2018. Our top five customers accounted for approximately 22.7% of our sales for 2018.

The credit environment in which our customers operate has been relatively stable over the past few years. However, there have been signs of deterioration in the U.S. retail sector. Recently, a national department store retail customer and a regional retail customer in the U.S. each filed for bankruptcy protection and the resolution of each matter is still pending. We expect that some additional retailers that carry our products may consolidate, undergo restructurings or reorganizations, experience financial difficulty, or realign their affiliations, any of which could decrease the number of stores that carry our products or increase the ownership concentration in the retail industry. An increase in the concentration of our sales to large customers may negatively affect our profitability due to the impact of volume and other incentive programs related to these customers. Furthermore, if sales to our large customers grow, our credit exposure to these customers may also increase. Some of these retailers may decide to carry only a limited number of brands of mattress products, which could affect our ability to sell products to them on favorable terms, if at all. A substantial decrease or interruption in business from these significant customers could result in the loss of future business and could reduce revenue, liquidity and profitability. In addition, the timing of large purchases by these customers could have an increasingly significant impact on our quarterly net sales and earnings.

We rely significantly on information technology and any failure, inadequacy, interruption or security lapse of that technology, including cyber-based attacks, could harm our ability to effectively operate our business. Consistent with other manufacturing and retail operations, we are increasingly dependent on information technology, including the Internet, for the storage, processing, and transmission of our electronic, business-related information assets. We leverage our internal information technology, infrastructures, and those of our service providers, to enable, sustain and support our global business interests. As such, our ability to effectively manage our business depends significantly on our information systems. The failure of our current systems, or future upgrades, to operate effectively or to integrate with other systems, or a breach in security of these systems could cause reduced efficiency of our operations, and remediation of any such failure, problem or breach could reduce our liquidity and profitability. Any disruptions caused by the failure of these systems could adversely impact our day-to-day business and decision

making and could have a material adverse effect on our performance.

We are subject to laws and regulations relating to information technology security and personal data protection and privacy. For example, GDPR, which took effect in May 2018, has imposed a new and expanded set of ongoing compliance requirements on companies, including us, that process personal data from citizens living in the European Union. In addition, there are country-specific data privacy laws forthcoming which may or may not follow the principles laid out in GDPR. We are actively working to ensure ongoing compliance with GDPR, which involves substantial costs. Despite our ongoing efforts to bring our practices into compliance with GDPR, however, we may not be successful due to various factors within or outside of our control. Failure to comply with GDPR or the upcoming country-specific laws could result in costly investigations and litigation, expose us to potentially significant penalties, and result in negative publicity that could damage our reputation and credibility.

Table of Contents

Historically, we have successfully implemented a new enterprise resource planning, or “ERP,” system across several of our global subsidiaries. We are currently planning the ERP implementation for certain significant U.S. subsidiaries, which is expected to occur no earlier than 2020. This new system replaces a substantial portion of our legacy systems that have supported our operations in the past. If we are unable to successfully continue the implementation of the replacement system, it could lead to a disruption in our business and unanticipated additional use of capital and other resources, which may adversely impact our results of operations. In addition, if the cost of implementing this ERP system increases above our estimates, this could have a significant adverse effect on our profitability.

We rely on third party technology service providers in the ordinary course of our Direct to Consumer business. The services provided include website infrastructure and hosting services, digital advertising platforms, private label credit card financing program and credit card payment authorization and capture services in support of our business, all of which are customarily provided by third party technology service providers for similarly-situated retail business operations. Like others in the industry, we experience cyber-based attacks and incidents from time to time. In the event that we or our service providers are unable to prevent or detect and remediate cyber-based attacks or other security incidents in a timely manner, our operations could be disrupted or we may incur financial or reputational losses arising from the theft, misuse, unauthorized disclosure or destruction of our information assets.

We are subject to a pending tax proceeding in Denmark, and an adverse decision or a negotiated settlement could adversely impact our results of operations and cash flows.

During the third quarter of 2018, we reached agreements with both the Danish Tax Authority (“SKAT”) and the U.S. Internal Revenue Service (“IRS”) to settle the previously-disclosed Danish Tax Matter relating to the appropriate royalty rate to be paid to the Company’s Danish subsidiary for the right to utilize certain intangible assets owned by such subsidiary for the disputed tax years 2001 to 2011. As we have previously disclosed, we received significant income tax assessments from SKAT for prior tax years, which we disputed. We resolved this matter in a way that did not have a material impact on our financial position or liquidity as we maintain funds equal to the estimated Danish tax liability on deposit with SKAT. We have entered into an advanced pricing agreement program for the tax years 2012 through 2022 in which the IRS, on our behalf, will negotiate directly with SKAT the royalty to be paid by the U.S. subsidiary to the Danish subsidiary to reach a mutual agreement for such years. We have accrued Danish tax and interest for this matter as an uncertain income tax position in an amount that we think is appropriate. However, if this matter is not resolved successfully or there is a change in facts or circumstances, we may be required to further increase our uncertain income tax provision or to decrease our deferred tax asset related to this matter, which could have a material impact on the Company’s reported earnings. For a description of these matters and additional information please refer to Note 14, “Income Taxes,” to the accompanying Consolidated Financial Statements.

Table of Contents

Changes in tax laws and regulations or other factors could cause our income tax rate to increase, potentially reducing net income and adversely affecting cash flows, and fluctuations in our tax obligations and effective tax rate may result in volatility of our financial results and stock price.

We are subject to taxation in various jurisdictions around the world and at any one time multiple tax years are subject to audit by various taxing jurisdictions. In preparing financial statements, we calculate our annual effective income tax rate based on current tax laws and regulations and the estimated taxable income within each of these jurisdictions. Our effective income tax rate, however, may be higher due to numerous factors, including, but not limited to, changes in accounting methods or policies, tax laws or regulations, the tax litigation environment in each such jurisdiction, and the outcome of pending or future audits, whether the result of litigation or negotiations with taxing authorities. Each such item may result in a tax liability that differs from our original estimate. An effective income tax rate that is significantly higher than currently anticipated could have an adverse effect on our net income and cash flows. In addition, there could be ongoing variability in our quarterly tax rates as events occur and exposures are evaluated, which could adversely affect our quarterly results of operations and stock price.

Additionally, the global tax environment is becoming more complex, with government tax authorities becoming increasingly more aggressive in asserting claims for taxes. Any resulting changes in tax laws or regulations could increase our effective income tax rate or impose new restrictions, costs or prohibitions on our current practices and reduce our net income and adversely affect our cash flows.

In addition to the increased activity of taxing authorities with respect to income tax, taxing authorities are also becoming more aggressive in asserting claims for indirect taxes such as import duties and value added tax. These types of claims present risks and uncertainties similar to those discussed above. We believe we are in compliance with all tax laws and regulations that govern such indirect taxes in each of the jurisdictions in which we do business. However, because the claims taxing authorities assert often involve the question of internal product pricing, which is inherently subjective in nature, any such claim may require us to litigate the matter to defend our position or to negotiate a settlement on the matter with the taxing authorities that differs from the amount of potential exposure recorded in the financial statements.

Our leverage may limit our flexibility and increase our risk of default.

We operate in the ordinary course of our business with a certain amount of leverage. Our degree of leverage could have important consequences to our investors, such as:

- increasing our vulnerability to adverse economic, industry or competitive developments;
- requiring a substantial portion of our cash flow from operations to be dedicated to the payment of principal and interest on our indebtedness, thereby reducing our ability to use our cash flow to fund our operations, capital expenditures and other business opportunities;
- making it more difficult for us to satisfy the obligations related to our indebtedness;
- restricting us from making strategic acquisitions or investments or causing us to make non-strategic divestitures;
- limiting our ability to obtain additional financing for working capital, capital expenditures, product development, debt service requirements, acquisitions and general corporate or other purposes;
- limiting our flexibility in planning for, or reacting to, changes in our business or the industry in which we operate, placing us at a competitive disadvantage compared to our competitors who are less highly leveraged and who, therefore, may be able to take advantage of opportunities that our leverage prevents us from exploiting;
- exposing us to variability in interest rates, as a substantial portion of our indebtedness is and will be at variable rates;
- and
- limiting our ability to return capital to our stockholders, including through share repurchases.

In addition, the instruments governing our debt contain customary financial and other restrictive covenants, which limit our operating flexibility and could prevent us from taking advantage of business opportunities and reduce our flexibility to respond to changing business and economic conditions. These covenants could put us at a competitive disadvantage. Failure to comply with our debt covenants may result in a default or event of default under the related credit document. If such default or event of default is not cured or waived, as applicable. We may suffer adverse effects on our operations, business or financial condition, including acceleration of the maturity date of all amounts outstanding under our debt facilities. For further discussion regarding our debt covenants and compliance, refer to “Management’s Discussion and Analysis” included in Part II, ITEM 7 of this Report and Note 8, “Debt,” in our Consolidated Financial Statements included in Part II, ITEM 8 of this Report.

Table of Contents

We may be unable to sustain our profitability, which could impair our ability to service our indebtedness and make investments in our business and could adversely affect the market price for our stock and increase our leverage.

Our ability to service our indebtedness depends on our ability to maintain our profitability. We may not be able to maintain our profitability on a quarterly or annual basis in future periods. Further, our profitability will depend upon a number of factors, including without limitation:

- general economic conditions in the markets in which we sell our products and the related impacts on consumers and retailers;

- the level of competition in the mattress and pillow industry;

- our ability to successfully identify and respond to emerging trends in the mattress and pillow industry;

- our ability to successfully launch new products;

- our ability to effectively sell our products through our distribution channels, including our new distribution channels, in volumes sufficient to drive growth and leverage our cost structure and advertising spending;

- our ability to reduce costs, including our ability to align our cost structure with sales in the existing economic environment;

- our ability to successfully manage our relationships with our major customers and navigate any financial difficulties those customers may experience from time to time;

- our ability to absorb fluctuations in commodity costs;

- our ability to maintain efficient, timely and cost-effective production and utilization of our manufacturing capacity;

- our ability to maintain efficient, timely and cost-effective delivery of our products; and

- our ability to maintain public recognition of our brands.

We are vulnerable to interest rate risk with respect to our debt, which could lead to an increase in interest expense.

We are subject to interest rate risk in connection with the variable rate debt under our debt agreements. Interest rate changes could increase the amount of our interest payments and thus, negatively impact our future earnings and cash flows. Although we refinanced a significant portion of our variable rate debt with fixed rate debt in 2016 and 2015, we still have a significant amount of variable rate debt outstanding. For information regarding our sensitivity to changes in interest rates, refer to “Quantitative and Qualitative Disclosures About Market Risk” included in Part II, ITEM 7A of this Report.

We may be adversely affected by fluctuations in exchange rates, which could affect our results of operations, the costs of our products and our ability to sell our products in foreign markets.

Approximately 29% of our net sales were generated outside of the U.S. in 2018. As a multi-national company, we conduct our business in a wide variety of currencies and are therefore subject to market risk relating to changes in foreign exchange rates. If the U.S. dollar strengthens relative to the Euro or other foreign currencies where we have operations, for example, there will be a negative impact on our operating results upon translation of those foreign operating results into the U.S. dollar. In 2018, foreign currency exchange rate changes positively impacted our net income by approximately 1.4% and negatively impacted adjusted EBITDA, which is a non-U.S. GAAP financial measure, by approximately 0.4%. In 2019, we expect that foreign exchange translation may negatively impact our results of operations. Changes in foreign currency exchange rates could have an adverse impact on our financial condition, results of operations and cash flows. Except for the use of foreign exchange forwards contracts described immediately below, we do not hedge the translation of foreign currency operating results into the U.S. dollar.

We use foreign exchange forward contracts to manage a portion of the exposure to the risk of the eventual net cash inflows and outflows resulting from foreign currency denominated transactions among certain subsidiaries. These

hedging transactions may not succeed or may be only partially successful in managing our foreign currency exchange rate risk.

Refer to “Management's Discussion and Analysis” included in Part II, ITEM 7 of this Report and “Quantitative and Qualitative Disclosures About Market Risk” included in Part II, ITEM 7A of this Report for further discussion on the impact of foreign exchange rates on our operations.

Table of Contents

We are subject to fluctuations in the cost of raw materials, and increases in these costs would reduce our liquidity and profitability.

The bedding industry has been challenged by volatility in the price of petroleum-based and steel products, which affects the cost of polyurethane foam, polyester, polyethylene foam and steel innerspring component parts. The price and availability of these raw materials are subject to market conditions affecting supply and demand. Given the significance of the cost of these materials to our products, volatility in the prices of the underlying commodities can significantly affect profitability. While we currently expect the negative impact on profitability associated with commodities costs to abate somewhat in 2019 compared to prior years, the markets for these materials are fluid and always subject to change. To the extent we are unable to absorb higher costs, or pass any such higher costs to our customers, our gross margin could be negatively affected, which could result in a decrease in our liquidity and profitability.

Loss of suppliers and disruptions in the supply of our raw materials could increase our costs of sales and reduce our ability to compete effectively.

We acquire raw materials and certain components from a number of suppliers with manufacturing locations around the world. If we were unable to obtain raw materials and certain components from these suppliers for any reason, we would have to find replacement suppliers. Any substitute arrangements for raw materials and certain components might not be on terms as favorable to us. In addition, we outsource the procurement of certain goods and services from suppliers in foreign countries. If we were no longer able to outsource through these suppliers, we could source them elsewhere, which may be at a higher cost. We maintain relatively small supplies of our raw materials and outsourced goods at our manufacturing facilities, and any disruption in the on-going shipment of supplies to us could interrupt production of our products, which could result in a decrease of our sales or could cause an increase in our cost of sales, either of which could decrease our liquidity and profitability.

Sealy product raw materials consist of polyurethane foam, polyester, polyethylene foam and steel innerspring components that we purchase from various suppliers. In the U.S. and Canada, we source the majority of our requirements for polyurethane foam components and spring components for our Sealy and Stearns & Foster mattress units from a key supplier for each component. These components are purchased under supply agreements. We also purchase a significant portion of our Sealy foundation parts from third party sources under supply agreements. We do not consider ourselves to be dependent in the long term upon any single outside vendor as a source of supply to our bedding business, and we believe over time that sufficient alternative sources of supply for the same, similar or alternative components are available. However, if a key supplier for an applicable component failed to supply components in the amount we require this could significantly interrupt production of our products and increase our production costs in the near term. Such a disruption could occur for a variety of reasons, including changes in international trade duties and other aspects of international trade policy, both in the U.S. and abroad. For further information relating to this risk in particular, please refer to the discussion under the heading “We are subject to risks from our international operations, such as complying with U.S. and foreign laws, foreign exchange exposure, tariffs, increased costs, political risks and our ability to expand in certain international markets, which could impair our ability to compete and our profitability.”

Table of Contents

We cannot guarantee that we will repurchase our common stock pursuant to our share repurchase program or that our share repurchase program will enhance long-term stockholder value. Share repurchases could also increase the volatility of the price of our common stock and could diminish our cash reserves.

On February 1, 2016, our Board of Directors authorized a share repurchase program pursuant to which the Company was authorized to repurchase shares of our common stock. During 2016 and 2017, our Board of Directors increased the total authorization to \$800.0 million. We made no share repurchases during the year ended December 31, 2018. As of December 31, 2018, the Company had repurchased an aggregate of 9.3 million shares for approximately \$573.1 million under the share repurchase program and had approximately \$226.9 million remaining under the existing share repurchase program. Although our Board of Directors has authorized the share repurchase program, the share repurchase program does not obligate us to repurchase any specific dollar amount or to acquire any specific number of shares and may be suspended or terminated at any time. Shares may be repurchased from time to time, in the open market or through private transactions, subject to market conditions, in compliance with applicable state and federal securities laws. The timing and amount of repurchases, if any, will depend upon several factors, including market and business conditions, restrictions in our debt agreements, the trading price of our common stock and the nature of other investment opportunities. In addition, repurchases of our common stock pursuant to our share repurchase program could affect the market price of our common stock or increase its volatility. For example, the existence of a share repurchase program could cause our stock price to be higher than it would be in the absence of such a program and could potentially reduce the market liquidity for our stock. Additionally, our share repurchase program could diminish our cash reserves, which may impact our ability to finance future growth and to pursue possible future strategic opportunities and acquisitions. There can be no assurance that any share repurchases will enhance stockholder value because the market price of our common stock may decline below the levels at which we determine to repurchase our stock. Although our share repurchase program is intended to enhance long-term stockholder value, there is no assurance that it will do so and short-term stock price fluctuations could reduce the program's effectiveness.

Our operating results are subject to fluctuations, including as a result of seasonality, which could make sequential quarter-to-quarter comparisons an unreliable indication of our performance and adversely affect the market price of our common stock.

A significant portion of our net sales are attributable to our Wholesale channel, particularly net sales to furniture and bedding stores. We believe that our sales of products to furniture and bedding stores are typically subject to modest seasonality inherent in the bedding industry, with sales expected to be generally lower in the second and fourth quarters. Our sales in a particular quarter can be impacted by new product launches. Additionally, the U.S. bedding industry generally experiences increases in sales around holidays and promotional periods. This seasonality means that a sequential quarter-to-quarter comparison may not be a good indication of our performance or of how we will perform in the future.

We are subject to risks from our international operations, such as complying with U.S. and foreign laws, foreign exchange exposure, tariffs, increased costs, political risks and our ability to expand in certain international markets, which could impair our ability to compete and our profitability.

We are a global company, selling our products in approximately 100 countries worldwide. We generated approximately 29% of our net sales outside of the U.S. in the year ended December 31, 2018, including in geographic areas where corruption has historically been a problem, and we continue to pursue additional international opportunities. In connection with these activities, we completed an evaluation of our International operations and identified certain Latin American subsidiaries with higher operational risk and volatility. As a result, we decided to divest of the net assets of certain of these subsidiaries in the Latin American region and enter into licensee relationships in these markets. Please refer to "Factors That Could Impact Results of Operations" under "Management's Discussion and Analysis of Financial Condition and Results of Operations" in Item 7, Part II of this

Report for further discussion of this matter. We also participate in international license and joint venture arrangements with independent third parties. Our international operations are subject to the customary risks of operating in an international environment, including complying with U.S. laws affecting operations outside of the U.S. such as the Foreign Corrupt Practices Act; complying with foreign laws and regulations, including disparate anti-corruption laws and regulations; risks associated with varying local business customs; and the potential imposition of trade or foreign exchange restrictions, tariffs and other tax increases, fluctuations in exchange rates, inflation and unstable political situations and labor issues. We are also limited in our ability to independently expand in certain international markets where we have granted licenses to manufacture and sell Sealy® bedding products. Fluctuations in the rate of exchange between currencies in which we do business may affect our financial condition or results of operations. Additionally, changes in international trade duties and other aspects of international trade policy, both in the U.S. and abroad, could materially impact our business. For example, in 2018, the U.S. implemented tariffs on thousands of categories of goods. These tariffs caused us to alter our behavior, which included raising prices and purchasing products in amounts and at times that we otherwise may not have. These behaviors likely negatively impacted our operating results and could lead to the loss of customers. Given the uncertainty regarding the scope and duration of these trade actions, the continuing impact on our operations and/or results is difficult to predict.

Table of Contents

Our business operations and financial results may be impacted by the United Kingdom's ("UK") planned departure from the European Union ("EU"), commonly referred to as Brexit. The UK's deadline to reach an agreement with the EU is March 29, 2019 and it is unclear whether the parties will agree to terms before then. As such, and even if a deal is reached, Brexit may, among other things, result in adverse tax consequences for us relating to the movement of products and related matters between the UK and EU.

If we are not able to protect our trade secrets or maintain our trademarks, patents and other intellectual property, we may not be able to prevent competitors from developing similar products or from marketing in a manner that capitalizes on our trademarks, and this loss of a competitive advantage could decrease our profitability and liquidity.

We rely on patents and trade secrets to protect the design, technology and function of our products. To date, we have not sought U.S. or international patent protection for our principal product formula for TEMPUR® material and certain of our manufacturing processes. Accordingly, we may not be able to prevent others from developing certain visco-elastic material and products that are similar to or competitive with our products. Our ability to compete effectively with other companies also depends, to a significant extent, on our ability to maintain the proprietary nature of our owned and licensed intellectual property. We own a significant number of patents or have patent applications pending on some aspects of our products and certain manufacturing processes. However, the principal product formula and manufacturing processes for our TEMPUR® material are not patented and we must maintain these as trade secrets in order to protect this intellectual property. We own U.S. and foreign registered trademarks and service marks and have applications for the registration of trademarks and service marks pending domestically and abroad. We also license certain intellectual property rights from third parties.

Certain of our trademarks are currently registered in the U.S. and are registered or pending in foreign jurisdictions. Certain other trademarks are the subject of protection under common law. However, those rights could be circumvented, or violate the proprietary rights of others, or we could be prevented from using them if challenged. A challenge to our use of our trademarks could result in a negative ruling regarding our use of our trademarks, their validity or their enforceability, or could prove expensive and time consuming in terms of legal costs and time spent defending against such a challenge. Any loss of trademark protection could result in a decrease in sales or cause us to spend additional amounts on marketing, either of which could decrease our liquidity and profitability. In addition, if we incur significant costs defending our trademarks, that could also decrease our liquidity and profitability. In addition, we may not have the financial resources necessary to enforce or defend our trademarks. Furthermore, our patents may not provide meaningful protection and patents may never issue from pending applications. It is also possible that others could bring claims of infringement against us, as our principal product formula and manufacturing processes are not patented, and that any licenses protecting our intellectual property could be terminated. If we were unable to maintain the proprietary nature of our intellectual property and our significant current or proposed products, this loss of a competitive advantage could result in decreased sales or increased operating costs, either of which would decrease our liquidity and profitability.

In addition, the laws of certain foreign countries may not protect our intellectual property rights and confidential information to the same extent as the laws of the U.S. or the European Union. Third parties, including competitors, may assert intellectual property infringement or invalidity claims against us that could be upheld. Intellectual property litigation, which could result in substantial cost to and diversion of effort by us, may be necessary to protect our trade secrets or proprietary technology, or for us to defend against claimed infringement of the rights of others and to determine the scope and validity of others' proprietary rights. We may not prevail in any such litigation, and if we are unsuccessful, we may not be able to obtain any necessary licenses on reasonable terms or at all.

The loss of the services of any members of our executive management team could impair our ability to execute our business strategy and as a result, reduce our sales and profitability.

We depend on the continued services of our executive management team. The loss of key personnel could have a material adverse effect on our ability to execute our business strategy and on our financial condition and results of operations. We do not maintain key-person insurance for members of our executive management team.

Table of Contents

Deterioration in labor relations could disrupt our business operations and increase our costs, which could decrease our liquidity and profitability.

As of December 31, 2018, we had approximately 6,200 full-time employees. Approximately 29.4% of our employees are represented by various labor unions with separate collective bargaining agreements or government labor union contracts for certain international locations. Our North American collective bargaining agreements, which are typically three years in length, expire at various times during any given three year period. Due to the large number of collective bargaining agreements, we are periodically in negotiations with certain of the unions representing our employees. We may at some point be subject to work stoppages by some of our employees and, if such events were to occur, there may be a material adverse effect on our operations and profitability. Further, we may not be able to renew our various collective bargaining agreements on a timely basis or on favorable terms, or at all. Any significant increase in our labor costs could decrease our liquidity and profitability and any deterioration of employee relations, slowdowns or work stoppages at any of our locations, whether due to union activities, employee turnover or otherwise, could result in a decrease in our net sales or an increase in our costs, either of which could decrease our liquidity and profitability.

We may face exposure to product liability claims, which could reduce our liquidity and profitability and reduce consumer confidence in our products.

We face an inherent business risk of exposure to product liability claims if the use of any of our products results in personal injury or property damage. In the event that any of our products prove to be defective, we may be required to recall, redesign or even discontinue those products. We maintain insurance against product liability claims, but such coverage may not continue to be available on terms acceptable to us or be adequate for liabilities actually incurred. A successful claim brought against us in excess of available insurance coverage could impair our liquidity and profitability, and any claim or product recall that results in significant adverse publicity against us could result in consumers purchasing fewer of our products, which would also impair our liquidity and profitability.

Regulatory requirements, including, but not limited to, trade, environmental, health and safety requirements, may require costly expenditures and expose us to liability.

Our products and our marketing and advertising programs are subject to regulation in the U.S. by various federal, state and local regulatory authorities, including the Federal Trade Commission and the U.S. Food and Drug Administration. In addition, other governments and agencies in other jurisdictions regulate the sale and distribution of our products. These rules and regulations may change from time to time, or may conflict. There may be continuing costs of regulatory compliance including continuous testing, additional quality control processes and appropriate auditing of design and process compliance. For example, the CPSC and many foreign jurisdictions have adopted rules relating to fire retardancy standards for the mattress industry. Further, some states and the U.S. Congress continue to consider fire retardancy regulations that may be different or more stringent than the CPSC standard. Adoption of multi-layered regulatory regimes, particularly if they conflict with each other, could increase our costs, alter our manufacturing processes and impair the performance of our products which may have an adverse effect on our business. We are also subject to various health and environmental provisions, such as California Proposition 65 (the Safe Drinking Water and Toxic Enforcement Act of 1986) and 16 CFR Part 1633 (Standard for the Flammability (Open Flame) of Mattress Sets).

Our marketing and advertising practices could also become the subject of proceedings before regulatory authorities or the subject of claims by other parties and could require us to alter or end these practices or adopt new practices that are not as effective or are more expensive.

In addition, we are subject to federal, state and local laws and regulations relating to pollution, environmental protection and occupational health and safety. We may not be in complete compliance with all such requirements at all times. We have made and will continue to make capital and other expenditures to comply with environmental and health and safety requirements. If a release of hazardous substances occurs on or from our properties or any associated offsite disposal location, or if contamination from prior activities is discovered at any of our properties, we may be held liable and the amount of such liability could be material. As a manufacturer of bedding and related products, we use and dispose of a number of substances, such as glue, lubricating oil, solvents and other petroleum products, as well as certain foam ingredients, that may subject us to regulation under numerous foreign, federal and state laws and regulations governing the environment. Among other laws and regulations, we are subject in the U.S. to the Federal Water Pollution Control Act, the Comprehensive Environmental Response, Compensation and Liability Act, the Resource Conservation and Recovery Act, the Clean Air Act and related state and local statutes and regulations.

Table of Contents

Our operations could also be impacted by a number of pending legislative and regulatory proposals to address greenhouse gas emissions in the U.S. and other countries. Certain countries have adopted the Kyoto Protocol. New greenhouse gas reduction targets have been established under the Kyoto Protocol, as amended, and certain countries, including Denmark, have adopted the new reduction targets. This and other international initiatives under consideration could affect our International operations. These actions could increase costs associated with our operations, including costs for raw materials, pollution control equipment and transportation. Because it is uncertain what laws will be enacted, we cannot predict the potential impact of such laws on our future consolidated financial condition, results of operations, or cash flows.

We have made and will continue to make capital and other expenditures to comply with environmental and health and safety requirements. In the event contamination is discovered with respect to one or more of our current or former properties, government authorities or third parties may bring claims related to these properties, which could have a material effect on our profitability.

Our pension plans are currently underfunded and we may be required to make cash payments to the plans, reducing our available cash.

We maintain certain defined benefit pension plans. In addition, hourly employees working at certain of Sealy's domestic manufacturing facilities are covered by union sponsored retirement and health and welfare plans. These plans cover both active employees and retirees. The plans are currently underfunded, and under certain circumstances, including the decision to close or sell a facility, we could be required to pay amounts with respect to this underfunding. Such events may significantly impair our profitability and liquidity and the possibility of having to make these payments could affect our decision on whether to close or sell a particular facility. For more information, refer to Note 9, "Retirement Plans," in our Consolidated Financial Statements included in Part II, ITEM 8 of this Report.

Challenges to our pricing or promotional allowance policies or practices could adversely affect our operations.

Certain of our retail pricing and promotional allowance policies or practices are subject to antitrust regulations in the U.S. and abroad. If antitrust regulators or private parties in any jurisdiction in which we do business initiate investigations or claims that challenge our pricing or promotional allowance policies or practices, our efforts to respond could force us to divert management resources and we could incur significant unanticipated costs. If such an investigation or claim were to result in a charge that our practices or policies were in violation of applicable antitrust or other laws or regulations, we could be subject to significant additional costs of defending such charges in a variety of venues and, ultimately, if there were a finding that we were in violation of antitrust or other laws or regulations, there could be an imposition of fines, and damages for persons injured, as well as injunctive or other relief. Any requirement that we pay fines or damages (which, under the laws of certain jurisdictions, may be trebled) could decrease our liquidity and profitability, and any investigation or claim that requires significant management attention or causes us to change our business practices could disrupt our operations or increase our costs, also resulting in a decrease in our liquidity and profitability. An antitrust class action or individual suit against us could result in potential liabilities, substantial costs, treble damages, and the diversion of our management's attention and resources, regardless of the outcome.

Our stock price is likely to continue to be volatile, your investment could decline in value, and we may incur significant costs from class action litigation.

The trading price of our common stock is likely to continue to be volatile and subject to wide price fluctuations. The trading price of our common stock may fluctuate significantly in response to various factors, including but not limited to:

actual or anticipated variations in our quarterly and annual operating results, including those resulting from seasonal variations in our business;

- general economic conditions, such as unemployment, changes in short-term and long-term interest rates and fluctuations in both debt and equity capital markets;
- introductions or announcements of technological innovations or new products by us or our competitors;
- disputes or other developments relating to proprietary rights, including patents, litigation matters, and our ability to patent, or otherwise protect, our products and technologies;
- changes in estimates by securities analysts of our financial performance or the financial performance of our competitors or major customers or statements by others in the investment community relating to such performance;
- the use or non-use of our share repurchase program;
- bankruptcies of any of our nationally or regionally-significant customers;
- loss of any of our major customers;
- conditions or trends in the mattress industry generally;

Table of Contents

- additions or departures of key personnel;
- announcements by us or our competitors or significant retailer customers of significant acquisitions, strategic partnerships, joint ventures or capital commitments;
- announcements by our competitors or our major customers of their quarterly operating results or announcements by our competitors or our major customers of their views on trends in the bedding industry;
- regulatory developments in the U.S. and abroad;
- economic and political factors;
- public announcements or filings with the SEC indicating that significant stockholders, directors or officers are buying or selling shares of our common stock; and
- the declaration or suspension of a cash dividend.

In addition, the stock market in general has experienced significant price and volume fluctuations that have often been unrelated or disproportionate to operating performance. These broad market factors may seriously harm the market price of our common stock, regardless of our operating performance.

In the past, following periods of volatility in the market price of a company's securities, securities class action litigation has often been instituted. A securities class action suit against us could result in potential liabilities, substantial costs, and the diversion of our management's attention and resources, regardless of the outcome. See "Legal Proceedings" included in Part I, ITEM 3 of this Report.

Future sales of our common stock may depress our stock price.

The market price of our common stock could decline as a result of sales of substantial amounts of our common stock in the public market, or the perception that these sales could occur. In addition, these factors could make it more difficult for us to raise funds through future offerings of common stock. All shares of our common stock are freely transferable without restriction or further registration under the Securities Act, except for certain shares of our common stock which were purchased by our executive officers, directors, principal stockholders, and some related parties.

We have stockholders who presently beneficially own more than 5.0% of our outstanding capital stock. Sales or other dispositions of our shares by these major stockholders may depress our stock price.

Delaware law and our certificate of incorporation and bylaws contain anti-takeover provisions, any of which could delay or discourage a merger, tender offer, or assumption of control of the Company not approved by our Board of Directors that some stockholders may consider favorable.

Provisions of Delaware law and our certificate of incorporation and by-laws could hamper a third party's acquisition of us, or discourage a third party from attempting to acquire control of us. You may not have the opportunity to participate in these transactions. These provisions could also limit the price that investors might be willing to pay in the future for shares of our common stock. These provisions include:

- our ability to issue preferred stock with rights senior to those of the common stock without any further vote or action by the holders of our common stock;
- the requirements that our stockholders provide advance notice and certain disclosures when nominating our directors; and
- the inability of our stockholders to convene a stockholders' meeting without the chairperson of the Board of Directors, the president, or a majority of the Board of Directors first calling the meeting.

In addition, our Board of Directors adopted a short-term stockholder rights agreement in February 2017 with an expiration date of February 7, 2018 and an ownership trigger threshold of 20%. This stockholder rights agreement was approved by the stockholders in May 2017, but expired pursuant to its terms in February 2018. However, our Board of Directors could determine in the future that adoption of a similar stockholder rights agreement is in the best interest of our stockholders and any such stockholder rights agreement, if adopted, could render more difficult, or discourage, a merger, tender offer, or assumption of control of the Company that is not approved by our Board of Directors.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

(a) We have granted a mortgage or otherwise encumbered our interest in this facility as collateral for secured indebtedness.

In addition to the properties listed above, we have other facilities in the U.S. and other countries, the majority under leases with one to ten year terms. The manufacturing facility in Albuquerque, New Mexico is leased as part of the related industrial revenue bond financing. We have an option to repurchase the property for one dollar upon termination of the lease.

We believe that our existing properties are suitable for the conduct of our business, are adequate for our present needs and will be adequate to meet our future needs.

Table of Contents

ITEM 3. LEGAL PROCEEDINGS

Information regarding legal proceedings can be found in Note 13, "Commitments and Contingencies," of the Notes to the Consolidated Financial Statements, included in Part II, ITEM 8, "Financial Statements and Supplementary Data," and is incorporated herein by reference.

ITEM 4. MINE SAFETY DISCLOSURES

None.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Market for Registrant's Common Equity

Our sole class of common equity is our \$0.01 par value common stock, which trades on the New York Stock Exchange ("NYSE") under the symbol "TPX." Trading of our common stock commenced on the NYSE on December 18, 2003. Prior to that time, there was no public trading market for our common stock.

As of February 18, 2019, we had approximately 76 stockholders of record of our common stock.

Dividends

We do not pay a dividend. The decision to pay a dividend in future periods is reviewed by our Board of Directors on a periodic basis. Further, we are subject to certain customary restrictions on dividends under our 2016 Credit Agreement and Indentures. See Note 8, "Debt," in our Consolidated Financial Statements, included in Part II, ITEM 8 of this Report, for a discussion of the 2016 Credit Agreement and Indentures.

Issuer Purchases of Equity Securities

In 2016, our Board of Directors authorized a share repurchase program pursuant to which we were authorized to repurchase shares of our common stock for a total repurchase price of not more than \$600.0 million. In February 2017, the Board authorized an increase of \$200.0 million to its existing share repurchase program for repurchases of Tempur Sealy International's common stock. The Company did not repurchase any shares during the year ended December 31, 2018 under the existing share repurchase program. As of December 31, 2018, the Company had approximately \$226.9 million remaining under the existing share repurchase program for repurchases of Tempur Sealy International's common stock.

Share repurchases under this program may be made through open market transactions, negotiated purchases or otherwise, at times and in such amounts as management deems appropriate. The timing and actual number of shares repurchased will depend on a variety of factors including price, financing, regulatory requirements and other market conditions. The program does not require the repurchase of any minimum number of shares and may be suspended, modified or discontinued at any time without prior notice. Repurchases may be made under a Rule 10b5-1 plan, which would permit shares to be repurchased when we might otherwise be precluded from doing so under federal securities laws.

Table of Contents

The following table sets forth purchases of our common stock for the three months ended December 31, 2018:

Period	(a) Total number of shares purchased	(b) Average price paid per share	(c) Total number of shares purchased as part of publicly announced plans or programs	(d) Maximum number of shares (or approximate dollar value of shares) that may yet be purchased under the plans or programs (in millions)
October 1, 2018 - October 31, 2018	—	(1) \$—	—	\$226.9
November 1, 2018 - November 30, 2018	25,085	(1) \$49.11	—	\$226.9
December 1, 2018 - December 31, 2018	25,117	(1) \$42.45	—	\$226.9
Total	25,117	—	—	—

Includes shares withheld upon the vesting of certain equity awards to satisfy tax withholding obligations. The (1) shares withheld were valued at the closing price of the common stock on the New York Stock Exchange on the vesting date or prior business day.

Equity Compensation Plan Information

Equity compensation plan information required by this Item is incorporated by reference from Part III, ITEM 12 of this Report.

Performance Graph

The following Performance Graph and related information shall not be deemed to be “soliciting material” or to be “filed” with the Securities and Exchange Commission, nor shall such information be incorporated by reference into any future filing under the Securities Act or Exchange Act, except to the extent that the Company specifically incorporates it by reference into such filing.

The following table compares cumulative stockholder returns for us over the last five years to the Standard & Poor’s (“S&P”) 500 Stock Composite Index, and a peer group. The S&P 500 Composite Index is a capitalization weighted index of 500 stocks intended to be a representative sample of leading companies in leading industries within the U.S. economy. We selected these stocks based on market size, liquidity and industry group representation. We believe the peer group discussed below closely reflects our business and, as a result, provides a meaningful comparison of stock performance.

The peer issuers included in this graph are set forth below in the table. In 2018, HNI Corporation was added to the peer group.

2018 Peer Group

ITEM 6. SELECTED FINANCIAL DATA

The following table sets forth our selected historical consolidated financial and operating data for the periods indicated. Our Consolidated Financial Statements as of December 31, 2018 and 2017 and for each of the three years in the period ended December 31, 2018 are included in Part II, ITEM 8 of this Report. The table has been adjusted to reflect certain Latin American subsidiaries as discontinued operations for all periods presented.

(in millions, except per common share amounts)

Statement of Income Data:	2018	2017	2016	2015	2014
Net sales	\$2,702.9	\$2,700.6	\$3,079.7	\$3,089.3	\$2,936.3
Cost of sales	1,582.2	1,579.6	1,790.2	1,864.4	1,808.6
Gross profit	1,120.7	1,121.0	1,289.5	1,224.9	1,127.7

Diluted earnings per common share for continuing operations	2.15	3.33	3.39	1.22	1.75
Capital expenditures	73.6	66.6	61.9	65.1	46.5

(1) Operating expense, net for 2018 includes \$31.3 million of bad debt expense, which includes the impact of certain customer bankruptcies.

(2) Income tax provision for 2015 includes approximately \$60.7 million related to changes in estimate related to the uncertain tax position regarding the Danish Tax Matter, as defined in Note 14, "Income Taxes," in our Consolidated Financial Statements included in Part II, ITEM 8 of this Report. The income tax provision for 2017

includes the provisional impact of the U.S. Tax Reform Act.

Includes \$24.8 million, \$13.3 million, \$16.2 million, \$22.5 million, \$13.4 million in non-cash, stock-based (3) compensation expense related to restricted stock units, performance restricted stock units, deferred stock units and stock options in 2018, 2017, 2016, 2015, and 2014, respectively.

Table of Contents

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis should be read in conjunction with Part II, ITEM 6 of this Report and the audited Consolidated Financial Statements and accompanying notes thereto included elsewhere in this Report. In addition, prior period amounts have been revised to reflect certain Latin American subsidiaries as discontinued operations. Unless otherwise noted, all of the financial information in this Report is consolidated financial information for the Company. The forward-looking statements in this discussion regarding the mattress and pillow industries, our expectations regarding our future performance, liquidity and capital resources and other non-historical statements in this discussion are subject to numerous risks and uncertainties. See “Special Note Regarding Forward-Looking Statements” and Part I, ITEM 1A of this Report. Our actual results may differ materially from those contained in any forward-looking statements.

In this discussion and analysis, we discuss and explain the consolidated financial condition and results of operations for the years ended December 31, 2018, 2017 and 2016, including the following topics:

- an overview of our business and strategy;
- factors impacting results of operations;
- results of operations including our net sales and costs in the periods presented as well as changes between periods;
- expected sources of liquidity for future operations; and
- our use of certain non-GAAP financial measures.

Business Overview

General

We develop, manufacture and market bedding products, which we sell globally. Our brand portfolio includes many highly recognized brands in the industry, including TEMPUR®, Tempur-Pedic®, Sealy® featuring Posturepedic® Technology, and Stearns & Foster®. Our comprehensive suite of bedding products offers a variety of products to consumers across a broad range of channels.

We sell our products through two distribution channels in each operating business segment: Wholesale (third party retailers, including third party distribution, hospitality and healthcare); and Direct (company-owned stores, e-commerce, and call centers).

Business Segments

We operate under two reportable segments: North America and International. Corporate operating expenses are not included in either of the segments and are presented separately as a reconciling item to consolidated results. These segments are strategic business units that are managed separately based on geography. Our North America segment consists of Tempur and Sealy manufacturing and distribution subsidiaries and licensees located in the U.S. and Canada. Our International segment consists of Tempur and Sealy manufacturing and distribution subsidiaries, joint ventures and licensees located in Europe, Asia-Pacific and Latin America. We evaluate segment performance based on net sales, gross profit and operating income.

Customer Bankruptcies

We have experienced a decline in certain North America traditional bedding and department store retailers. In 2018, we recorded \$31.3 million of bad debt expense, which includes the impact of certain customer bankruptcies.

On January 11, 2019, a customer in our North America business segment, Innovative Mattress Solutions, LLC ("iMS"), filed for Chapter 11 bankruptcy protection in the U.S. Bankruptcy Court for the Eastern District of Kentucky (the "Bankruptcy Court"). In connection with the bankruptcy filing, we agreed to provide debtor-in-possession financing (the "DIP Financing") to iMS, which was subsequently approved by the Bankruptcy Court. For the year ended December 31, 2018, iMS represented less than 2% of our global net sales. In 2018, we recorded charges of \$21.2 million associated with certain iMS-related assets, primarily made up of trade and other receivables, to fully reserve this account.

Table of Contents

On February 12, 2019, in connection with our review of strategic alternatives related to iMS during the iMS bankruptcy proceedings, we submitted a stalking horse bid in the form of an asset purchase agreement (the "Asset Purchase Agreement") pursuant to which we agreed to purchase certain assets of iMS. Under the terms of the Asset Purchase Agreement, upon consummation of the transactions contemplated thereby, iMS will assign all of its rights, title and interest in and to substantially all assets and related contractual rights, other than certain specified excluded assets and contractual rights (the "Assets"), to us in exchange for consideration consisting of (i) a credit bid of amounts outstanding as of the closing date under the DIP Financing and pre-petition obligations, (ii) assumption of certain liabilities; and (iii) cash consisting of cure costs, a wind down payment and certain unpaid professional fees as of the closing date, all of which is subject to the approval of the Bankruptcy Court. The purchase price is expected to be up to \$26 million based on the aggregate value of clauses (i)-(iii), but will depend on the timing of the Section 363 auction to be supervised by the Bankruptcy Court (the "Section 363 Auction") and closing. The transaction contemplated by the Asset Purchase Agreement (the "Transaction") is expected to close during the second quarter of 2019. The Assets will not be fully determined until just before closing, which is currently anticipated to be around April 1, 2019, and will likely include inventory, receivables, leases, intellectual property, contractual rights, personal property and goodwill. The closing is subject to a number of customary conditions, including being selected as the winning bidder after the Section 363 Auction and the Bankruptcy Court's approval of the Asset Purchase Agreement. The Transaction may be terminated by either party, subject to conditions including a drop-dead date of May 1, 2019, and the Asset Purchase Agreement includes customary conditions, representations and warranties and covenants. We can provide no assurance that we will be selected as the winning bidder in the Section 363 Auction or that the Bankruptcy Court will approve the Asset Purchase Agreement.

Discontinued Operations

During 2018, we completed an evaluation of our International operations and identified certain Latin American subsidiaries with low profitability and difficult operating environments with higher operational risk and volatility. As a result, we decided to divest of the net assets of certain of these subsidiaries in the Latin American region and enter into licensee relationships in these markets. These actions were completed in 2018 with the sale of certain subsidiaries, including our largest subsidiary in the region which was sold to an unrelated third party on December 28, 2018. The decision to convert certain subsidiaries of the Latin American region to a licensee model represents a strategic shift in our business. Accordingly, we classified the results of operations and cash flows of certain of these subsidiaries in the Latin American region as discontinued operations in our Consolidated Statements of Income and Consolidated Statements of Cash Flows for all periods presented. The net assets of these Latin American subsidiaries have been retrospectively reflected as held for sale at December 31, 2017.

Termination of Mattress Firm Relationship

Mattress Firm, Inc. ("Mattress Firm") was a customer within the North America segment and was our largest customer in 2016, but only represented 3.5% of net sales in 2017. In January 2017, Tempur-Pedic North America, LLC ("Tempur-Pedic") and Sealy Mattress Company ("Sealy Mattress") entered into transition agreements with Mattress Firm in which they agreed, among other things, to continue supplying Mattress Firm until April 3, 2017, at which time the parties' business relationships ended. The parties have been subject to ongoing litigation since 2017. Effective February 11, 2019, the parties agreed to settle all such litigation, in consideration of full mutual releases of all claims.

Factors That Could Impact Results of Operations

The factors outlined below could impact our future results of operations. For more extensive discussion of these and other risk factors, please refer to "Risk Factors" under Part I, ITEM 1A in this Report.

General Business and Economic Conditions

Our business is affected by general business and economic conditions, and these conditions could have an impact on future demand for our products. The global economic environment continues to be challenging, and we expect the uncertainty to continue. Low end bedding imports from China significantly increased during 2018 and are competing against our value priced Sealy products in the U.S. market. These imports may be sold below cost. In September 2018, we and other industry participants filed petitions with the U.S. International Trade Commission and the U.S. Department of Commerce, alleging that many of these Chinese imports are being dumped into the U.S. market at prices below cost. As a result of this petition, the U.S. International Trade Commission and the U.S. Department of Commerce have commenced investigations which are expected to take fifteen months to complete. A final determination of their investigations are expected in late 2019.

Table of Contents

We are focused on developing our North America distribution network by opening more company-owned stores and expanding our online availability. We currently expect to have at least 60 company-owned retail stores in operation by the end of 2019. We expect these company-owned stores to complement our existing third-party retail partners by increasing our product's brand awareness in the local markets. We also plan to expand our offerings in our own e-commerce platform and with third-party online retailers where our market share is still very low. Bedding sales have increased significantly online, as a growing segment of consumers prefer to purchase bedding products through this channel.

We continue to make strategic investments, including: introducing new products; investing in increasing our global brand awareness; investing in research and development and productivity initiatives; and taking other actions to further strengthen our business. In 2019, we also expect to pay incentive compensation of approximately \$20 million at target, which was not earned in 2018.

Exchange Rates

As a multi-national company, we conduct our business in a wide variety of currencies and are therefore subject to market risk for changes in foreign currency exchange rates. Foreign currency exchange rate movements also create a degree of risk by affecting the U.S. dollar value of sales made and costs incurred in foreign currencies. We use foreign exchange forward contracts to manage a portion of the exposure to the risk of the eventual net cash inflows and outflows resulting from foreign currency denominated transactions among certain subsidiaries. These hedging transactions may not succeed in managing our foreign currency exchange rate risk. Consequently, our reported earnings and financial position could fluctuate materially as a result of foreign exchange gains or losses. Additionally, the operations of our foreign currency denominated subsidiaries result in foreign currency translation fluctuations in our consolidated operating results. These operations do not constitute transactions which qualify for hedge accounting treatment. Therefore, we do not hedge the translation of foreign currency operating results into the U.S. dollar. Should currency rates change sharply, our results could be negatively impacted.

In 2018, foreign currency exchange rate changes positively impacted our net income by 1.4% and positively impacted our adjusted EBITDA, which is a non-GAAP financial measure, by approximately 0.4%. In the first half of 2019, we expect foreign exchange rate fluctuations will negatively impact our results of operations as the U.S. Dollar is projected to strengthen relative to all major foreign currencies. As a result, we expect net sales will be unfavorably impacted by approximately \$30 million as compared to 2018. We also expect net income and EBITDA, which is a non-GAAP financial measure, will be unfavorably impacted by approximately \$3 million and \$5 million, respectively.

Competition

We compete in the global bedding industry. Participants in the bedding industry compete primarily on price, quality, brand name recognition, product availability, and product performance. We compete with a number of different types of mattress alternatives, including standard innerspring mattresses, visco-elastic mattresses, foam mattresses, hybrid innerspring/foam mattresses, futons, air beds and other air-supported mattresses. These alternative products are primarily sold through a variety of channels, including retail furniture and bedding stores, department stores, wholesale clubs and the internet.

Our North America segment competes in various mattress categories, and contributed 79.0% of our net sales for the year ended December 31, 2018. These mattress categories are highly competitive, with many competitor products supported by aggressive marketing campaigns and promotions. The North American bedding market is also changing rapidly, becoming more focused on the consumer, rationalizing store count, evolving media spend and investing in online direct-to-consumer models. Our International segment competes in a highly fragmented market, which is generally served by a large number of manufacturers operating primarily on a regional and local basis. These

manufacturers offer a broad range of mattress and pillow products. In addition, mattress and pillow manufacturers and retailers are seeking to increase their channels of distribution and are looking for new ways to reach the consumer, including the recent expansion in the number of companies pursuing online direct-to-consumer models for foam mattresses. Additionally, retailers in both the U.S. and international markets are seeking to integrate vertically in the furniture and bedding industries, including offering their own brands of mattresses and pillows. These factors, along with increased competition, may negatively impact our results.

Gross Margins

Our gross margin is primarily impacted by the relative amount of net sales contributed by our Tempur and Sealy products. Our Sealy products have a significantly lower gross margin than our Tempur products. Our Sealy mattress products range from value to premium priced offerings, and gross margins are typically higher on premium products compared to value priced offerings. Our Tempur products are exclusively premium priced products. As sales of our Sealy products increase relative to sales of our Tempur products, our gross margins will be negatively impacted in both our North America and International segments.

Table of Contents

Our gross margin is also impacted by fixed cost leverage based on manufacturing unit volumes; the cost of raw materials; operational efficiencies due to the utilization in our manufacturing facilities; product, channel and geographic mix; foreign exchange fluctuations; volume incentives offered to certain retail accounts; participation in our retail cooperative advertising programs; and costs associated with new product introductions. Future changes in raw material prices could have a significant impact on our gross margin. Our margins are also impacted by the growth in our Wholesale channel as sales in our Wholesale channel are at wholesale prices whereas sales in our Direct channel are at retail prices.

In 2019, we expect gross margin to be favorably impacted by several factors: sales growth of Tempur products in North America, 2018 and 2019 pricing actions of approximately \$30 million, improved merchandising mix as we complete the launch of new products and expansion of our Direct channel. We expect these factors may be offset by a slight decline in Sealy product sales in North America.

We do not expect significant commodity inflation in 2019. As a result of significant commodity cost increases in 2018, we implemented price increases on our products three times. In 2019, we also plan to implement certain price increases on our adjustable bases imported from China as a result of import tariffs in 2018, as there is generally a lag to fully offset these inflationary pressures. Our gross margins may be unfavorably impacted if import tariffs increase in 2019.

New Product Development and Introduction

Each year we invest significant time and resources in research and development to improve our product offerings. There are a number of risks inherent in our new product line introductions, including that the anticipated level of market acceptance may not be realized, which could negatively impact our sales. Also, product introduction costs, the speed and order of the product rollout and manufacturing inefficiencies may unfavorably impact our profitability.

In our North America segment in 2019, we will introduce our higher-end Tempur Breeze products to complete the largest Tempur rollout in our history, and we will introduce our new Stearns & Foster lineup. In 2018, we launched entry-level Tempur mattresses, Tempur pillows, Sealy Hybrid mattresses and adjustable bases. Our profitability in North America was unfavorably impacted, as some consumers purchased our new entry-level mattresses instead of our existing higher-end mattresses. We expect this trend to continue in the first half of 2019, when our higher-end Tempur mattresses are fully floored with our retailers. We expect to incur launch costs for the Tempur Breeze and Stearns & Foster product introductions comparable to the launch costs incurred in 2018. Sales in our Wholesale and Direct channels will also be unfavorably impacted as retailers discount and sell their existing inventory of our products in anticipation of the release of our new products.

The U.S. Tax Reform Act

On December 22, 2017, the Tax Cuts and Jobs Act of 2017 (the "U.S. Tax Reform Act") was signed into law making significant changes to U.S. tax law. Changes include, but are not limited to, a corporate tax rate decrease from 35% to 21% effective for tax years beginning after December 31, 2017, the transition of U.S. international taxation from a worldwide tax system to a territorial system, and a one-time transition tax on the mandatory deemed repatriation of cumulative foreign earnings as of December 31, 2017 (the "Transition Tax"). In accordance with the U.S. Tax Reform Act, we recorded an income tax benefit of \$23.8 million in the fourth quarter of 2017, the period in which the legislation was enacted. The total benefit included a tax benefit of \$69.7 million related to the remeasurement of certain deferred tax assets and liabilities net of \$45.9 million in additional income tax expense related to the Transition Tax. During 2018, we completed our analysis based on subsequent guidance issued with respect to the U.S. Tax Reform Act currently available which resulted in an additional tax benefit of \$6.8 million related to the finalization of the Transition Tax obligation. The overall net impact of the U.S. Tax Reform Act on future periods is expected to

result in a net decrease in our overall effective tax rates as compared to periods prior to enactment, driven by the reduction in the U.S. federal tax rate. The impact of the rate reduction will be partially offset in future periods by changing or limiting certain tax deductions and certain international provisions of the U.S. Tax Reform Act. The impact of the U.S. Tax Reform Act on future periods may differ due to changes in tax law interpretations, issuance of additional guidance, and other changes in facts and circumstances. We expect our effective tax rate to range from 26% to 28% in 2019.

For more extensive discussion of the U.S. Tax Reform Act, please refer to Note 14, "Income Taxes," of the Notes to the Consolidated Financial Statements included in Part II, ITEM 8 of this Report.

Table of Contents

Danish Tax Proceeding

Since 2001, we have been involved in a dispute with SKAT regarding the royalty paid by a U.S. subsidiary of Tempur Sealy International to a Danish subsidiary (the "Danish Tax Matter") for the right to utilize certain intangible assets. During 2018, we negotiated a settlement with SKAT for the tax years 2001 through 2011 (the "Settlement Years"). In addition, we have entered into an Advance Pricing Agreement program (the "APA Program") for the tax years 2012 through 2022 in which the IRS, on our behalf, will negotiate directly with SKAT the royalty to be paid by the U.S. subsidiary to the Danish Subsidiary. We maintain an uncertain income tax liability for both the Settlement Years and for the tax years 2012 through 2018 that are included in the APA Program. If we are required to further increase the uncertain tax liability for either or both periods based on a change in facts and circumstances, it could have a material impact on our reported earnings. Further, if the IRS and SKAT are unable to reach a mutually acceptable agreement with respect to the tax years included in the APA Program, we could be required to make a significant payment to SKAT for Danish tax related to such years, which could have a material adverse effect on our results of operations and liquidity.

For more extensive discussion of the Danish Tax Proceeding, please refer to Note 14, "Income Taxes," of the Notes to the Consolidated Financial Statements included in Part II, ITEM 8 of this Report.

Financial Leverage

As of December 31, 2018, we had \$1,653.8 million of debt outstanding, and our adjusted EBITDA, which is a non-GAAP financial measure, was \$424.7 million for 2018. Higher financial leverage makes us more vulnerable to general adverse competitive, economic and industry conditions. There can be no assurance that our business will generate sufficient cash flow from operations or that future borrowings will be available. As of December 31, 2018, our ratio of funded debt less qualified cash to Adjusted EBITDA in accordance with our 2016 Credit Agreement was 3.87 times, within the covenant in our debt agreements which limits this ratio to 5.00 times for the year ended December 31, 2018. For more information on this non-GAAP measure and compliance with our 2016 Credit Agreement, please refer to "Non-GAAP Financial Information" below.

2018 Results of Operations

A summary of our results for the year ended December 31, 2018 include:

• Total net sales increased 0.1% to \$2,702.9 million from \$2,700.6 million in 2017.

• Gross margin was 41.5% in both 2018 and 2017. Adjusted gross margin, which is a non-GAAP financial measure, was 41.9% as compared to 42.0% in 2017.

• GAAP operating income was \$256.3 million, or 9.5% of net sales, as compared to \$295.5 million, or 10.9% of net sales, in 2017. Adjusted operating income, which is a non-GAAP financial measure was \$307.6 million, or 11.4% of net sales, as compared to \$325.3 million, or 12.0% of net sales, in 2017.

• GAAP net income was \$100.5 million as compared to \$151.4 million in 2017. Adjusted net income, which is a non-GAAP financial measure, was \$163.0 million as compared to \$179.2 million in 2017.

• GAAP earnings per diluted share ("EPS") was \$1.82 as compared to \$2.77 in 2017. Adjusted EPS, which is a non-GAAP financial measure, was \$2.96 as compared to \$3.28 in 2017.

For a discussion and reconciliation of non-GAAP financial measures as discussed above to the corresponding GAAP financial results, refer to the non-GAAP financial information set forth below under the heading "Non-GAAP Financial Information."

We may refer to net sales or earnings or other historical financial information on a "constant currency basis," which is a non-GAAP financial measure. These references to constant currency basis do not include operational impacts that could result from fluctuations in foreign currency rates. To provide information on a constant currency basis, the applicable financial results are adjusted based on a simple mathematical model that translates current period results in local currency using the comparable prior year period's currency conversion rate. This approach is used for countries where the functional currency is the local country currency. This information is provided so that certain financial results can be viewed without the impact of fluctuations in foreign currency rates, thereby facilitating period-to-period comparisons of business performance. Constant currency information is not recognized under GAAP, and it is not intended as an alternative to GAAP measures. Refer to Part II, ITEM 7A of this Report for a discussion of our foreign currency exchange rate risk.

Table of Contents

The following table sets forth the various components of our Consolidated Statements of Income, and expresses each component as a percentage of net sales:

(in millions, except percentages and per common share amounts)	Year Ended December 31,					
	2018		2017		2016

NET SALES

(in millions)	Year Ended December 31,								
	Consolidated			North America			International		
	2018	2017	2016	2018	2017	2016	2018	2017	2016
Net sales by channel									
Wholesale	\$2,452.1	\$2,499.9	\$2,949.0	\$1,989.1	\$2,052.6	\$2,511.7	\$463.0	\$447.3	\$437.3
Direct	250.8	200.7	130.7	147.1	121.2	58.4	103.7	79.5	72.3
Total net sales	\$2,702.9	\$2,700.6	\$3,079.7	\$2,136.2	\$2,173.8	\$2,570.1	\$566.7	\$526.8	\$509.6

Year ended December 31, 2018 compared to year ended December 31, 2017

Net sales increased 0.1%, and on a constant currency basis decreased 0.3%. The change in net sales was driven by the following:

North America net sales decreased \$37.6 million, or 1.7%. Excluding Mattress Firm, North America net sales increased 2.8%. In 2017, net sales to Mattress Firm were \$95.7 million prior to the termination of our contract on April 3, 2017. Net sales in the Wholesale channel decreased \$63.5 million, or 3.1%, driven primarily by the termination of our contract with Mattress Firm. Additionally, we experienced a decline in certain traditional bedding and department store retailers in 2018. Net sales in our Direct channel increased \$25.9 million, or 21.4%, driven primarily by expanded retail stores. On a constant currency basis, North America net sales decreased 1.7%.

International net sales increased \$39.9 million, or 7.6%. On a constant currency basis, our International net sales increased 5.6%, driven primarily by growth across all regions and the change in classification of royalty income due to the adoption of new revenue recognition guidance. Net sales in the Wholesale channel increased 1.3% on a constant currency basis. Net sales in the Direct channel increased 29.6% on a constant currency basis, primarily driven by growth from company-owned stores.

Year ended December 31, 2017 compared to year ended December 31, 2016

Net sales decreased 12.3%, and on a constant currency basis decreased 12.5%. The change in net sales was driven by the following:

North America net sales decreased \$396.3 million or 15.4%. Net sales to Mattress Firm were \$95.7 million prior to the termination of our contract on April 3, 2017, as compared to \$668.6 million for 2016, which resulted in a net sales decrease of \$572.9 million. Excluding Mattress Firm, North America net sales increased \$176.6 million or 9.3%, driven by growth across all of our brands. Net sales in the Wholesale channel decreased \$459.1 million, or 18.3%, driven primarily by the termination of our contract with Mattress Firm. Excluding sales to Mattress Firm, Wholesale net sales increased 6.2%. Additionally, sales to a national department store retailer in the Wholesale channel significantly declined in 2017 as compared to 2016. Net sales in our Direct channel increased \$62.8 million or 107.5%, driven primarily by growth in e-commerce.

International net sales increased \$17.2 million, or 3.4%. On a constant currency basis, our International net sales increased 3.2%, driven primarily by growth in Asia-Pacific and Latin America. Net sales in the Wholesale channel increased 1.8% on a constant currency basis. Net sales in the Direct channel increased 11.3% on a constant currency basis.

GROSS PROFIT

	Year Ended December 31,		
	2018	2017	2016

Edgar Filing: TEMPUR SEALY INTERNATIONAL, INC. - Form 10-K

(in millions, except percentages)	Gross Profit	Gross Margin	Gross Profit	Gross Margin	Gross Profit	Gross Margin	Margin Change	
							2018 vs 2017	2017 vs 2016
North America	\$823.4	38.5 %	\$844.7	38.9 %	\$1,017.4	39.6 %	(0.4)%	(0.7)%
International	297.3	52.5 %	276.3	52.4 %	272.1	53.4 %	0.1 %	(1.0)%

Table of Contents

Costs associated with net sales are recorded in cost of sales and include the costs of producing, shipping, warehousing, receiving and inspecting goods during the period, as well as depreciation and amortization of long-lived assets used in the manufacturing process.

Year ended December 31, 2018 compared to year ended December 31, 2017

Gross margin was flat. The principal factors impacting gross margin for each segment are discussed below.

North America gross margin declined 40 basis points. The decline in gross margin was primarily driven by commodity cost inflation of 220 basis points and unfavorable merchandising mix of 90 basis points. We also recorded \$6.1 million of restructuring charges related to our acquisition of the remaining interest in a joint venture and \$5.6 million of supply chain transition costs to consolidate certain manufacturing and distribution facilities. The decline in gross margin was offset by operational improvements of 80 basis points, favorable brand mix of 70 basis points and favorable pricing of 70 basis points. In the first quarter of 2017, we also recorded costs associated with a \$5.4 million write-off of customer-unique inventory and \$6.1 million of increased product obligations as a result of the termination of the Mattress Firm relationship.

International gross margin improved 10 basis points. The change in gross margin was primarily driven by operational improvements of 80 basis points, the change in classification of royalty income due to the adoption of the new revenue recognition accounting standard of 70 basis points and favorable product launch costs. These were partially offset by unfavorable mix of 130 basis points and unfavorable commodity cost inflation.

Year ended December 31, 2017 compared to year ended December 31, 2016

Gross margin declined 40 basis points. The principal factors impacting gross margin for each segment are discussed below.

North America gross margin declined 70 basis points. The decline was driven primarily by the termination of the Mattress Firm relationship, which resulted in fixed cost deleverage of 120 basis points and unfavorable brand mix of 90 basis points. In 2017, we also recorded charges associated with the Mattress Firm termination for an unfavorable impact of 60 basis points. These charges included a \$5.4 million write-off of customer-unique inventory and \$6.1 million of increased product obligations. The decline in gross margin was also due to unfavorable commodity costs of 100 basis points, offset by favorable channel mix of 130 basis points, operational productivity of 100 basis points and lower floor model discounts of 60 basis points.

International gross margin declined 100 basis points. The decline was driven primarily by new product launch costs and mix.

OPERATING EXPENSES

Selling and marketing expenses include advertising and media production associated with the promotion of our brands, other marketing materials such as catalogs, brochures, videos, product samples, direct customer mailings and point of purchase materials, and sales force compensation. We also include in selling and marketing expense certain new product development costs, including market research and new product testing.

General, administrative and other expenses include salaries and related expenses, information technology, professional fees, depreciation and amortization of long-lived assets not used in the manufacturing process, expenses for administrative functions and research and development costs.

Table of Contents

Year ended December 31, 2018 compared to year ended December 31, 2017

(in millions)	Year Ended December 31,							
	2018	2017	2018	2017	2018	2017	2018	2017
	Consolidated		North America		International		Corporate	
Operating expenses:								
Advertising	\$259.3	\$283.4	\$220.5	\$248.7	\$38.8	\$34.7	\$—	\$—
Other selling and marketing	328.5	302.7	194.4	186.7	125.7	110.3	8.4	5.7
General, administrative and other	294.2	261.4	158.5	124.0	42.9	46.1	92.8	91.3
Customer termination charges, net	—	14.4	—	20.9	—	0.8	—	(7.3)
Total operating expense	\$882.0	\$861.9	\$573.4	\$580.3	\$207.4	\$191.9	\$101.2	\$89.7

Operating expenses increased \$20.1 million, and increased 70 basis points as a percentage of net sales. The primary drivers of changes in operating expenses by segment are discussed below.

North America operating expenses decreased \$6.9 million and increased 10 basis points as a percentage of net sales. The decrease was driven by decreased participation in our wholesale cooperative advertising programs and decreased investments in our advertising programs, which was partially offset by investments in our retail store expansion. In 2018, we also recorded \$20.9 million of charges associated with a Wholesale customer bankruptcy, primarily made up of the write-off of trade and other receivables. Additionally, in 2018, we recorded \$4.1 million of restructuring charges related to our acquisition of the remaining interest in a joint venture and bad debt expenses of \$3.5 million, primarily driven by the bankruptcy of a department store retailer. In 2017, we recorded \$20.9 million of charges related to the Mattress Firm termination.

International operating expenses increased \$15.5 million and increased 20 basis points as a percentage of net sales. In 2018, we recorded \$8.2 million of costs associated with our International simplification efforts, including headcount reduction, professional fees and store closures. The remaining increase in operating expenses was primarily driven by increased other selling and marketing expenses for certain retail store expansions.

Corporate operating expenses increased \$11.5 million, or 12.8%. The increase in operating expenses was primarily driven by a \$9.3 million benefit recorded in the first quarter of 2017 for the change in estimate associated with performance-based stock compensation that was no longer probable of payout following the Mattress Firm termination, offset by \$0.9 million of accelerated stock-based compensation and \$1.1 million of other employee-related expenses and professional fees. In 2018, we also recorded \$4.9 million of professional fees related to restructuring activities.

Research and development expenses for the year ended December 31, 2018 were \$21.9 million compared to \$21.7 million for the year ended December 31, 2017, a decrease of \$0.2 million, or 0.9%.

Year ended December 31, 2017 compared to year ended December 31, 2016

(in millions)	Year Ended December 31,							
	2017	2016	2017	2016	2017	2016	2017	2016
	Consolidated		North America		International		Corporate	
Operating expenses:

Total operating expense	\$861.9	\$908.9	\$580.3	\$613.3	\$191.9	\$196.4	\$89.7	\$99.2

Operating expenses decreased \$47.0 million and increased 240 basis points as a percentage of net sales. The primary drivers of changes in operating expenses by segment are discussed below.

Table of Contents

North America operating expenses decreased \$33.0 million and increased 280 basis points as a percentage of net sales. In the first quarter of 2017, we recorded \$20.9 million of charges related to the Mattress Firm termination, which included a \$17.2 million write-off of customer incentives and marketing assets and \$3.7 million of employee-related and professional fees. Additionally, we had unfavorable operating expense leverage, including investments in marketing. These were offset by decreased participation in our wholesale cooperative advertising programs.

International operating expenses decreased \$4.5 million and decreased 210 basis points as a percentage of net sales, primarily driven by improved operating expense leverage. In 2017, we recognized \$2.7 million of charges for a European customer's bankruptcy and other employee-related expenses.

Corporate operating expenses decreased \$9.5 million, or 9.6%. The decrease in operating expenses was primarily driven by a \$9.3 million benefit recorded in the first quarter of 2017 for the change in estimate associated with performance-based stock compensation that was no longer probable of payout following the Mattress Firm termination.

Research and development expenses for the year ended December 31, 2017 were \$21.7 million compared to \$26.7 million for the year ended December 31, 2016, a decrease of \$5.0 million, or 18.7%.

OPERATING INCOME

(in millions, except percentages)	Year Ended December 31,						Margin Change	
	2018		2017		2016		2018 vs 2017	2017 vs 2016
	Operating Income	Operating Margin	Operating Income	Operating Margin	Operating Income	Operating Margin		
North America	\$250.0	11.7 %	\$273.2	12.6 %	\$411.8	16.0 %	(0.9)%	(3.4)%
International	107.5	19.0 %	112.0	21.3 %	100.6	19.7 %	(2.3)%	1.6 %
Corporate expenses	357.5		385.2		512.4			
	(101.2)		(89.7)		(99.0)			
Total operating income	\$256.3	9.5 %	\$295.5	10.9 %	\$413.4	13.4 %	(1.4)%	(2.5)%

Year ended December 31, 2018 compared to year ended December 31, 2017

Operating income decreased \$39.2 million and operating margin declined 140 basis points. The decrease was driven by the following:

North America operating income decreased \$23.2 million and operating margin declined 90 basis points, primarily driven by the decline in gross margin. In 2018, we recorded \$20.9 million of charges associated with a Wholesale customer bankruptcy, primarily made up of the write-off of trade and other receivables. Additionally, in 2018, we recorded \$4.1 million of restructuring charges related to our acquisition of the remaining interest in a joint venture and bad debt expenses of \$3.5 million, primarily driven by the bankruptcy of a department store retailer. In 2017, we recorded \$20.9 million of charges related to the Mattress Firm termination.

International operating income decreased \$4.5 million and operating margin declined 230 basis points. In 2018, we recorded \$8.5 million of costs associated with our International simplification efforts, including headcount reduction, professional fees and store closures. In 2017, we recognized \$1.9 million of customer-related charges. The decline in operating margin was driven by the change in classification of royalty income due to the adoption of the new revenue recognition accounting standard.

Corporate operating expenses increased \$11.5 million, which negatively impacted our consolidated operating margin by 40 basis points. In the first quarter of 2017, we recorded \$8.4 million of net stock-based compensation benefit. In 2018, we recorded \$4.9 million of professional fees related to restructuring activities.

Year ended December 31, 2017 compared to year ended December 31, 2016

Operating income decreased \$117.9 million and operating margin declined 250 basis points. The decrease was driven by the following:

34

Table of Contents

North America operating income decreased \$138.6 million and operating margin declined 340 basis points. The decline in operating margin was primarily driven by the termination of our contracts with Mattress Firm at the beginning of the second quarter, which resulted in gross margin decline and unfavorable operating expense leverage. The decline in operating margin was also driven by charges of \$32.4 million recorded in the first quarter of 2017 associated with the Mattress Firm termination. Cost of sales included \$11.5 million of charges related to the write-off of customer-unique inventory and increased product obligations. Operating expenses included \$20.9 million of charges related to the write-off of customer incentives and marketing assets, as well as employee-related expenses.

- International operating income increased \$11.4 million and operating margin improved 160 basis points, primarily driven by improved operating expense leverage.

Corporate operating expenses decreased \$9.3 million, as discussed above, which improved our consolidated operating margin by 40 basis points.

INTEREST EXPENSE, NET

	Year Ended			Percent	
	December 31,			change	
	2018	2017	2016	2018 vs	2017 vs
(in millions, except percentages)				2017	2016
Interest expense, net	\$92.3	\$87.3	\$82.9	5.7%	5.3%

Year ended December 31, 2018 compared to year ended December 31, 2017

Interest expense, net, increased \$5.0 million, or 5.7%. The increase in interest expense, net, was driven by higher interest rates on our variable rate debt, offset in part by reduced levels of outstanding debt.

Year ended December 31, 2017 compared to year ended December 31, 2016

Interest expense, net, increased \$4.4 million, or 5.3%. The increase in interest expense, net, was driven by higher interest rates on our variable rate debt, offset in part by reduced levels of outstanding debt.

LOSS ON EXTINGUISHMENT OF DEBT

In 2016, we issued our 2026 Senior Notes and entered into our 2016 Credit Agreement. The net proceeds of the 2026 Senior Notes offering were used in part to redeem the 2020 Senior Notes. The net proceeds from the 2016 Credit Agreement were also used to repay in full the 2012 Credit Agreement and to pay certain transaction fees and expenses incurred in connection with the 2016 Credit Agreement. In association with these transactions, we recorded a \$47.2 million loss on extinguishment of debt. The \$47.2 million loss includes a \$23.6 million premium on the prepayment of our 2020 Senior Notes, \$11.0 million and \$4.8 million of deferred financing costs write-offs for the 2012 Credit Agreement and 2020 Senior Notes, respectively, and \$1.9 million and \$5.9 million of lender expenses for the 2016 Credit Agreement and 2026 Senior Notes, respectively.

OTHER INCOME, NET

	Year Ended			Percent change	
	December 31,			2018 vs 2017 vs	
	2018	2017	2016	2017	2016
(in millions, except percentages)					
Other income, net	\$(1.0)	\$(7.2)	\$(0.3)	(86.1)%	2,300.0%

Year ended December 31, 2018 compared to year ended December 31, 2017

In 2017, we recognized other income of \$9.3 million for payments received pursuant to the transition agreements with Mattress Firm, which did not recur in 2018.

35

Table of Contents

Year ended December 31, 2017 compared to year ended December 31, 2016

In the first quarter of 2017, we recognized other income of \$9.3 million for payments received pursuant to the transition agreements with Mattress Firm. In the fourth quarter of 2016, we spent approximately \$13 million to support Mattress Firm with store transitions and product launches. The \$9.3 million of payments from Mattress Firm were intended to partially reimburse that prior investment.

INCOME TAXES

(in millions, except percentages)	Year Ended December 31,			Percent change	
	2018	2017	2016	2018 vs 2017	2017 vs 2016
Income tax	\$49.6	\$43.8	\$86.3	13.2%	(49.2)%
Effective tax rate	30.1 %	20.3 %	30.4 %	9.8 %	(10.1)%

Income tax provision includes income taxes associated with taxes currently payable and deferred taxes, and includes the impact of net operating losses for certain of our foreign operations.

Year ended December 31, 2018 compared to year ended December 31, 2017

Our income tax provision increased \$5.8 million and our effective tax rate increased 980 basis points, primarily due to discrete, one-time tax matters impacting 2018 and 2017. During 2018, we recorded income tax expense of \$12.8 million, net, related to the Danish Tax Matter and a tax benefit of \$6.8 million related to the finalization of our Transition Tax obligation. The 2017 income tax provision includes \$23.8 million, net, favorable impact of U.S. Tax Reform, which included the initial estimate of the Transition Tax. The 2018 income tax provision includes the benefit of lower U.S. federal corporate tax rates offset in part by the international provisions and other changes to various deductions resulting from U.S. Tax Reform. Refer to Note 14, "Income Taxes," in our Consolidated Financial Statements included in Part II, ITEM 8 of this Report for further information.

Year ended December 31, 2017 compared to year ended December 31, 2016

Our income tax provision decreased \$42.5 million and our effective tax rate decreased 1,010 basis points. The decrease in effective tax rate is primarily the result of the net favorable effect of the revaluation of deferred income tax assets and liabilities required as a result of the U.S. Tax Reform Act, net of the unfavorable impact of the Transition Tax. Refer to Note 14, "Income Taxes," in our Consolidated Financial Statements included in Part II, ITEM 8 of this Report for further information.

Liquidity and Capital Resources

Liquidity

Our principal sources of funds are cash flows from operations, borrowings made pursuant to our credit facilities and cash and cash equivalents on hand. Principal uses of funds consist of payments of principal and interest on our debt facilities, share repurchases, capital expenditures and working capital needs. At December 31, 2018, we had working capital of \$136.4 million, including cash and cash equivalents of \$45.8 million, as compared to working capital of \$30.5 million including \$41.1 million in cash and cash equivalents as of December 31, 2017.

The increase in working capital was primarily driven by increases in prepaid expenses and other current assets and inventories, as well as decreases in current liabilities from discontinued operations, current portion of long-term debt

and income taxes payable. These changes were offset by increases in accrued expenses and other current liabilities and accounts payable. During 2018, we reached an agreement with SKAT and the IRS regarding the previously-disclosed Danish Tax Matter. As a result, the \$130.0 million liability owed to SKAT was reclassified from other non-current liabilities to accrued expenses and other current liabilities. We also reclassified \$130.0 million from other non-current assets to prepaid expenses and other current assets for amounts on deposit with SKAT. These changes offset each other in working capital. The increase in inventories was primarily due to new product introductions in 2018 and the first quarter of 2019. The decrease in current liabilities from discontinued operations was primarily due to the payment of non-income tax obligations and related interest expense. The decrease in current portion of long-term debt was primarily driven by repayments of International segment debt obligations. The decrease in income taxes payable was primarily due to the payment of our one-time transition tax liability. Accounts payable changes are primarily driven by the timing of payments to vendors.

Table of Contents

Cash Provided by (Used in) Continuing Operations

The table below presents net cash provided by (used in) operating, investing and financing activities from continuing operations for the years ended December 31, 2018, 2017 and 2016.

(in millions)	Year Ended December 31,		
	2018	2017	2016
Net cash provided by (used in) continuing operations:			
Operating activities	\$207.5	\$256.5	\$168.1
Investing activities	(71.2)	(65.7)	(61.9)
Financing activities	(107.0)	(175.2)	(185.1)

Cash provided by operating activities from continuing operations decreased \$49.0 million in 2018 as compared to 2017. The decrease in cash provided by operating activities was primarily driven by changes in accounts receivable, inventories and income taxes payable. These were primarily offset by changes in accrued expenses and other current liabilities, accounts payable and deferred income taxes.

Cash used in investing activities from continuing operations increased \$5.5 million in 2018 as compared to 2017. The increase in cash used in investing activities was due primarily to an increase in capital expenditures, which was primarily due to the phasing of planned capital projects.

Cash used in financing activities from continuing operations decreased \$68.2 million in 2018 as compared to 2017. In 2018, we had net repayments of \$100.9 million on our credit facilities, as compared to net repayments of \$138.6 million in 2017. In 2018, share repurchases decreased \$40.3 million and proceeds from exercise of stock options decreased \$8.2 million as compared to the same period in 2017.

Cash Used in Discontinued Operations

The table below presents net cash used in operating, investing and financing activities from discontinued operations for the years ended December 31, 2018, 2017 and 2016:

(in millions)	Year Ended December 31,		
	2018	2017	2016
Net cash used in discontinued operations:			
Operating activities	\$(24.4)	\$(33.6)	\$(2.6)
Investing activities	2.1	3.6	(0.5)
Financing activities	—	—	—

Cash used in discontinued operations decreased \$7.7 million in 2018 as compared to 2017, primarily due to the payment of non-income tax obligations and related interest expense.

Capital Expenditures

Capital expenditures totaled \$73.6 million for the year ended December 31, 2018 and \$66.6 million for the year ended December 31, 2017. We currently expect our 2019 capital expenditures to be approximately \$70 to \$75 million, which includes investments in our U.S. enterprise resource planning projects, domestic manufacturing facilities, other information technology and our company-owned retail stores.

Debt Service

Our total debt decreased to \$1,653.8 million as of December 31, 2018 from \$1,762.5 million as of December 31, 2017. As of December 31, 2018, we had no borrowings outstanding under our revolving credit facility, and total availability under the revolver was \$476.8 million after giving effect to letters of credit outstanding of \$22.7 million. Refer to Note 8, "Debt," in our Consolidated Financial Statements included in Part II, ITEM 8 for further discussion of our debt.

Table of Contents

As of December 31, 2018, our ratio of consolidated funded debt less qualified cash to EBITDA, which is a non-GAAP financial measure, in accordance with our 2016 Credit Agreement was 3.87 times, within the terms of the financial covenants for the maximum consolidated total net leverage ratio as set forth in the 2016 Credit Agreement, which limits this ratio to 5.00 times. As of December 31, 2018, we were in compliance with all of the financial covenants in our debt agreements.

Our debt agreements contain certain covenants that limit restricted payments, including share repurchases and dividends. The 2016 Credit Agreement, 2026 Senior Notes and 2023 Senior Notes contain similar limitations which, subject to other conditions, allow unlimited restricted payments at times when the ratio of consolidated funded debt less qualified cash to adjusted EBITDA remains below 3.5 times. In addition, these agreements permit limited restricted payments under certain conditions when the ratio of consolidated funded debt less qualified cash to adjusted EBITDA is above 3.5 times. The limit on restricted payments under the 2016 Credit Agreement, 2023 Senior Notes and 2026 Senior Notes is in part determined by a basket that grows at 50% of adjusted net income each quarter, reduced by restricted payments that are not otherwise permitted.

Our business continues to generate significant cash flows from operations. Our target ratio of consolidated funded debt less qualified cash to Adjusted EBITDA is 3.5 times, and we expect that this ratio could typically range from 3.0 times to 4.0 times. We expect to continue to use excess cash flows from operations for debt repayment. We may also consider other allocations of our capital.

For additional information, refer to "Non-GAAP Financial Information" below for the calculation of the ratio of consolidated funded debt less qualified cash to adjusted EBITDA calculated in accordance with our 2016 Credit Agreement. Both consolidated funded debt and adjusted EBITDA as used in discussion of the 2016 Credit Agreement are terms that are not recognized under GAAP and do not purport to be alternatives to net income as a measure of operating performance or total debt.

Non-GAAP Financial Information

We provide information regarding adjusted net income, adjusted EPS, adjusted gross profit, adjusted gross margin, adjusted operating income (expense), adjusted operating margin, EBITDA, adjusted EBITDA, consolidated funded debt and consolidated funded debt less qualified cash, which are not recognized terms under GAAP and do not purport to be alternatives to net income, earnings per share, gross profit, gross margin, operating income (expense) and operating margin as a measure of operating performance or an alternative to total debt as a measure of liquidity. We believe these non-GAAP financial measures provide investors with performance measures that better reflect our underlying operations and trends, providing a perspective not immediately apparent from net income, gross profit, and operating income. The adjustments we make to derive the non-GAAP financial measures include adjustments to exclude items that may cause short-term fluctuations in the nearest GAAP measure, but which we do not consider to be the fundamental attributes or primary drivers of our business.

We believe that exclusion of these items assists in providing a more complete understanding of our underlying results from continuing operations and trends, and we use these measures along with the corresponding GAAP financial measures to manage our business, to evaluate our consolidated and business segment performance compared to prior periods and the marketplace, to establish operational goals and to provide continuity to investors for comparability purposes. Limitations associated with the use of these non-GAAP measures include that these measures do not present all of the amounts associated with our results as determined in accordance with GAAP and these non-GAAP measures should be considered supplemental in nature and should not be construed as more significant than comparable measures defined by GAAP. Because not all companies use identical calculations, these presentations may not be comparable to other similarly titled measures of other companies. For more information about these non-GAAP measures and a reconciliation to the nearest GAAP financial measure, please refer to the reconciliations on the

following pages.

Adjusted Net Income and Adjusted EPS

A reconciliation of net income to adjusted net income and a calculation of adjusted EPS is provided below. We believe that the use of these non-GAAP financial measures provides investors with additional information with respect to the impact of various adjustments as described in the footnotes below. The following table sets forth the reconciliation of our reported net income to the calculation of adjusted net income and a calculation of adjusted EPS for the years ended December 31, 2018 and 2017.

(in millions, except per common share amounts)	Year Ended	
	December 31,	
	2018	2017
GAAP net income	\$100.5	\$151.4
Loss from discontinued operations, net of tax ⁽¹⁾	17.8	30.9
Restructuring costs ⁽²⁾	24.9	—
Customer-related charges ⁽³⁾	21.2	—
Supply chain transition costs ⁽⁴⁾	7.3	—
Customer termination charges ⁽⁵⁾	—	25.9
Other costs ⁽⁶⁾	—	3.4
Latin American subsidiary charges ⁽⁷⁾	—	0.5
Tax adjustments ⁽⁸⁾	(8.7)	(32.9)
Adjusted net income	\$163.0	\$179.2
Adjusted earnings per share, diluted	\$2.96	\$3.28
Diluted shares outstanding	55.1	54.7

Certain subsidiaries in the International business segment are accounted for as discontinued operations and have (1) been designated as unrestricted subsidiaries in the 2016 Credit Agreement. Therefore, these subsidiaries are excluded from our adjusted financial measures for covenant compliance purposes.

In 2018, we recorded \$24.9 million of restructuring costs, including \$2.6 million of depreciation expense. These costs included \$11.5 million of charges related to the operational alignment of a joint venture that was wholly (2) acquired in the North America business segment, including \$2.6 million of depreciation expense and \$1.3 million of other expense, net. Restructuring costs also included \$8.5 million of expenses in the International business segment related to International simplification efforts, including headcount reduction, professional fees and store closures, and \$4.9 million of Corporate professional fees related to restructuring activities.

On January 11, 2019, iMS, a customer, filed a voluntary petition in U.S. Bankruptcy Court for the Eastern District (3) of Kentucky seeking relief under Chapter 11 of the U.S. Bankruptcy Code. In the fourth quarter of 2018, we recorded charges of \$21.2 million associated with certain iMS-related assets on the our Consolidated Balance Sheet as of December 31, 2018, primarily made up of trade and other receivables, to fully reserve this account.

In 2018, we recorded \$7.3 million of supply chain transition costs which represent charges incurred to consolidate (4) certain manufacturing and distribution facilities, including \$0.8 million of other expense.

In the first quarter of 2017, we recorded \$25.9 million of net charges related to the termination of the relationship (5) with Mattress Firm. Cost of sales included \$11.5 million of charges related to the write-off of customer-unique inventory and product obligations. Operating expenses included \$14.4 million of net charges, which included a write-off of \$17.2 million for customer incentives and marketing assets, \$5.8 million of employee-related costs and \$0.7 million of professional fees. These charges were offset by \$9.3 million of benefit related to the change in estimate associated with performance-based stock compensation that is no longer probable of payout following the Mattress Firm termination.

(6)

In 2017, we incurred \$3.4 million in other costs. We incurred \$1.9 million of customer-related charges, \$1.1 million in charges for hurricane-related costs and \$0.4 million in costs associated with an early lease termination.

(7) In the fourth quarter of 2017, we incurred \$0.5 million of legal charges associated with a Latin American subsidiary.

Adjusted income tax provision represents the tax effects associated with the aforementioned items and other (8) discrete income tax events.

Certain subsidiaries in the International business segment are accounted for as discontinued operations and have (1) been designated as unrestricted subsidiaries in the 2016 Credit Agreement. Therefore, these subsidiaries are excluded from our adjusted financial measures for covenant compliance purposes.

In 2018, we recorded \$24.9 million of restructuring costs, including \$2.6 million of depreciation expense. These costs included \$11.5 million of charges related to the operational alignment of a joint venture that was wholly (2) acquired in the North America business segment, including \$2.6 million of depreciation expense and \$1.3 million of other expense, net. Restructuring costs also included \$8.5 million of expenses in the International business segment related to International simplification efforts, including headcount reduction, professional fees and store closures, and \$4.9 million of Corporate professional fees related to restructuring activities.

On January 11, 2019, iMS, a customer, filed a voluntary petition in U.S. Bankruptcy Court for the Eastern District (3) of Kentucky seeking relief under Chapter 11 of the U.S. Bankruptcy Code. In the fourth quarter of 2018, we recorded charges of \$21.2 million associated with certain iMS-related assets on the our Consolidated Balance Sheet as of December 31, 2018, primarily made up of trade and other receivables, to fully reserve this account.

In 2018, we recorded \$7.3 million of supply chain transition costs which represent charges incurred to consolidate (4) certain manufacturing and distribution facilities, including \$0.8 million of other expense.

Adjusted EBITDA for 2017 excludes \$34.3 million of charges related to the termination of the relationship with (5) Mattress Firm. This amount represents the \$25.9 million of net charges and adds the net amortization impact of \$8.4 million of stock-based compensation benefit incurred in the first quarter of 2017.

In 2017, we incurred \$3.4 million in other costs. We incurred \$1.9 million of customer-related charges, \$1.1 (6) million in charges for hurricane-related costs and \$0.4 million in costs associated with an early lease termination.

In 2017, we incurred \$0.5 million of legal charges associated with a Latin American subsidiary. (7)

In 2018, certain subsidiaries in the Latin American region are accounted for as discontinued operations and have (8) been designated as unrestricted subsidiaries in the 2016 Credit Agreement. Therefore, these subsidiaries are excluded from the Company's adjusted financial measures for covenant compliance purposes and have not been recalculated for the year ended December 31, 2017. The reconciliations in the table above for 2017 EBITDA and adjusted EBITDA are provided for comparison purposes only.

Under the 2016 Credit Agreement, the definition of adjusted EBITDA contains certain restrictions that limit adjustments to net income when calculating adjusted EBITDA. For the years ended December 31, 2018 and 2017, respectively, adjustments to net income when calculating adjusted EBITDA did not exceed the allowable amount under the 2016 Credit Agreement.

The following table sets forth the reconciliation of our total debt in accordance with GAAP to the calculation of funded debt less qualified cash as of December 31, 2018 and 2017. "Consolidated funded debt" and "qualified cash" are terms used in our 2016 Credit Agreement for purposes of certain financial covenants.

Table of Contents

(in millions)	December 31, 2018	December 31, 2017
Total debt, net	\$ 1,646.2	\$ 1,753.1
Plus: Deferred financing costs ⁽¹⁾	7.6	9.4
Total debt	1,653.8	1,762.5
Plus: Letters of credit outstanding	23.7	23.1
Consolidated funded debt	\$ 1,677.5	\$ 1,785.6
Less:		
Domestic qualified cash ⁽²⁾	13.6	18.4
Foreign qualified cash ⁽²⁾	19.3	13.6
Consolidated funded debt less qualified cash	\$ 1,644.6	\$ 1,753.6

We present deferred financing costs as a direct reduction from the carrying amount of the related debt in the (1) Consolidated Balance Sheets. For purposes of determining total debt for financial covenant purposes, we added these costs back to total debt, net as calculated in the Consolidated Balance Sheets.

(2) Qualified cash as defined in the 2016 Credit Agreement equals 100.0% of unrestricted domestic cash plus 60.0% of unrestricted foreign cash. For purposes of calculating leverage ratios, qualified cash is capped at \$150.0 million.

Stockholders' Equity

Share Repurchase Program

Our Board of Directors authorized a share repurchase program pursuant to which we were authorized to repurchase shares of our common stock for a total repurchase price of not more than \$800.0 million. We did not repurchase any shares under the share repurchase program during 2018. For the years ended 2017 and 2016, we repurchased 0.6 million and 8.7 million shares under the share repurchase program for approximately \$40.1 million and \$533.0 million, respectively. As of December 31, 2018, we had approximately \$226.9 million remaining under the existing share repurchase program. Share repurchases under this program may be made through open market transactions, negotiated purchases or otherwise, at times and in such amounts as management deems appropriate. These repurchases may be funded by operating cash flows and/or borrowings under our debt arrangements. The timing and actual number of shares repurchased will depend on a variety of factors including price, financing and regulatory requirements and other market conditions. The program is subject to certain limitations under our debt agreements. The program does not require the purchase of any minimum number of shares and may be suspended, modified or discontinued at any time without prior notice. Repurchases may be made under a Rule 10b5-1 plan, which would permit shares to be repurchased when we might otherwise be precluded from doing so under federal securities laws.

Future Liquidity Sources and Uses

Our primary sources of liquidity are cash flows from operations and borrowings under our debt facilities. We expect that ongoing requirements for debt service and capital expenditures will be funded from these sources. As of December 31, 2018, we had \$1,653.8 million in total debt outstanding, and our adjusted EBITDA, which is a non-GAAP financial measure, was \$424.7 million for the year ended December 31, 2018. Our debt service obligations could, under certain circumstances, have material consequences to our stockholders. Total cash interest payments related to our borrowings are expected to be approximately \$80 to \$85 million in 2019.

Our 2016 Credit Agreement provides for (i) a \$500.0 million revolving credit facility, (ii) a \$500.0 million term loan facility and (iii) a \$100.0 million delayed draw term loan facility. In July 2016, we borrowed \$100.0 million using the delayed draw term loan facility to repay the 8.0% Sealy Notes. At any time, we may also elect to request the establishment of one or more incremental term loan facilities and/or increase commitments under the revolving credit facility of up to \$500.0 million. A portion of the revolving credit facility of up to \$250.0 million is available in

Canadian Dollars, Pounds Sterling, the Euro and any additional currencies determined by mutual agreement of us, the administrative agent and the lenders under the revolving credit facility. A portion of the revolving credit facility of up to \$100.0 million is available to us for the issuance of letters of credit for our account and a portion of the revolving credit facility of up to \$50.0 million is available to us for swing line loans. We expect to use the revolving credit facility from time to time to finance working capital needs and for general corporate purposes.

Table of Contents

Based upon the current level of operations, we believe that cash generated from operations and amounts available under our credit facilities will be adequate to meet our anticipated debt service requirements, capital expenditures and working capital needs for the foreseeable future. There can be no assurance, however, that our business will generate sufficient cash flow from operations or that future borrowings will be available under our debt facilities or otherwise enable us to service our indebtedness or to make anticipated capital expenditures. The midpoint of our target range for our ratio of consolidated funded debt less qualified cash to adjusted EBITDA is 3.5 times, and we expect that this ratio could typically range from 3.0 times to 4.0 times. In 2019, we expect to be within this range. We expect to continue to use excess cash flows from operations for debt repayment. We may also consider other capital allocations.

At December 31, 2018, total cash and cash equivalents were \$45.8 million, of which \$13.6 million was held in the U.S. and \$32.2 million was held by subsidiaries outside of the U.S. The amount of cash and cash equivalents held by subsidiaries outside of the U.S. and not readily convertible into the U.S. Dollar or other major foreign currencies is not material to our overall liquidity or financial position.

Off-Balance Sheet Arrangements

We occupy premises and utilize equipment under operating leases that expire at various dates through 2029. In accordance with GAAP, the obligations under those leases are not recorded on our balance sheet as of December 31, 2018. Many of these leases provide for payment of certain expenses and contain renewal and purchase options. During the year ended December 31, 2018, we recognized lease expense of \$56.9 million.

Contractual Obligations

Our contractual obligations and other commercial commitments as of December 31, 2018 are summarized below:

(in millions)	Payment Due By Period						
Contractual Obligations	2019	2020	2021	2022	2023	After 2023	Total Obligations
Debt ⁽¹⁾	\$46.6	\$52.5	\$435	\$—	\$450.0	\$600.0	\$ 1,584.1
Letters of credit	23.2	—	—	—	—	—	23.2
Interest payments ⁽²⁾	78.9	77.0	60.0	55.6	50.9	78.4	400.8
Operating leases	49.4	40.1	34.8	28.7	22.1	60.9	236.0
Capital lease obligations and other ⁽³⁾	9.7	7.0	7.2	6.0	5.1	34.7	69.7
Pension obligations	1.0	1.0	1.1	1.2	1.2	24.5	30.0
Total ⁽⁴⁾	\$208.8	\$177.6	\$538.1	\$91.5	\$529.3	\$798.5	\$ 2,343.8

(1) Debt excludes capital lease obligations and other and deferred financing costs.

Interest payments represent obligations under our debt outstanding as of December 31, 2018, applying

(2) December 31, 2018 interest rates and assuming scheduled payments are paid as contractually required through maturity.

(3) The payments due for capital lease obligation exclude \$25.0 million in future payments for interest.

(4) Uncertain tax positions are excluded from this table given the timing of payments cannot be reasonably estimated.

Critical Accounting Policies and Estimates

Our management is responsible for our financial statements and has evaluated the accounting policies to be used in their preparation. Our management believes these policies are reasonable and appropriate. The following discussion identifies those accounting policies that we believe are critical in the preparation of our financial statements, the judgments and uncertainties affecting the application of those policies and the possibility that materially different amounts will be reported under different conditions or using different assumptions.

The preparation of financial statements in conformity with GAAP requires that management make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of commitments and contingencies at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Our actual results could differ from those estimates.

Table of Contents

Revenue Recognition. Sales of product are recognized when the obligations under the terms of the contract with the customer are satisfied, which is generally when control of the product has transferred to the customer. Transferring control of each product sold is considered a separate performance obligation. We transfer control and recognize a sale when the product ships to the customer or when the customer receives the product based upon agreed shipping terms. Each unit sold is considered an independent, unbundled performance obligation. We do not have any additional performance obligations other than product sales that are material in the context of the contract. We extend volume discounts to certain customers and reflect these amounts as a reduction of net sales.

We estimate the liability for sales returns at the time of sale, based on our level of historical sales returns. We allow returns following a sale, depending on the channel and promotion. Our level of sales returns differs by channel, with our Direct channel typically experiencing the higher rate of returns.

We record an allowance for doubtful accounts receivable for amounts due from third parties that we do not expect to collect. We estimate the allowance based on historical write-off experience and current economic conditions and also consider factors such as customer credit, past transaction history with the customer and changes in customer payment terms when determining whether the collection of a receivable is reasonably assured.

The credit environment in which our customers operate has been relatively stable over the past few years. Historically, less than 1.0% of net sales ultimately prove to be uncollectible. However, there have been signs of deterioration in the U.S. retail sector. Recently, a national department store retail customer and a regional customer in the U.S. each filed for bankruptcy protection and the resolution of each matter is still pending. Total bad debt expense was \$31.3 million in 2018, which includes the impact of these customer bankruptcies. Bad debt expense in 2017 and 2016 were \$9.8 million and \$4.0 million, respectively.

We regularly review the adequacy of our allowance for doubtful accounts based on the latest information available and accrue losses from uncollectible receivables when such losses can reasonably be estimated. The allowance for doubtful accounts is our best estimate of the amount of probable credit losses in our existing accounts receivable. The allowance for doubtful accounts included in accounts receivable, net in the accompanying Consolidated Balance Sheets was \$47.6 million and \$24.7 million as of December 31, 2018 and 2017, respectively. If circumstances change, for example, due to the occurrence of higher-than-expected defaults or a significant adverse change in a major customer's ability to meet our financial obligations, estimates of the recoverability of receivable amounts due could be reduced.

Our revenue recognition accounting methodology contains uncertainties because it requires management to make assumptions and to apply judgment to estimate the amount and timing of future sales returns and uncollectible accounts. Our estimate of the amount and timing of sales returns and uncollectible accounts is based primarily on historical transaction experience.

We have not made any material changes in the accounting methodology we use to measure the estimated liability for sales returns and exchanges or doubtful accounts during the past three fiscal years. We do not believe there is a reasonable likelihood that there will be a material change in the future estimates or assumptions we use to establish the liability for sales returns and exchanges and doubtful accounts. However, if actual results are not consistent with our estimates or assumptions, we may be exposed to losses or gains that could be material.

On January 1, 2018, we adopted Accounting Standards Update ("ASU") 2014-09, Revenue From Contracts with Customers ("ASU 2014-09," as codified in "ASC 606"), which outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including industry-specific guidance. The adoption of the standard did not have a significant impact on our financial statements or our critical accounting policies related to revenue recognition as a result of adoption. See Note

2, "Recently Issued Accounting Pronouncements," in our Consolidated Financial Statements, included in Part II, ITEM 8 of this Report for additional information.

Goodwill and Indefinite-Lived Intangible Assets. Goodwill and indefinite-lived intangible assets are evaluated for impairment annually as of October 1 and whenever events or circumstances make it more likely than not that impairment may have occurred.

We test goodwill for impairment by comparing the book values to the fair value at the reporting unit level. Our reporting units are our North America and International segments. We test individual indefinite-lived intangible assets by comparing the book values of each asset to the estimated fair value. If the fair value exceeds the carrying amount, then no impairment exists. If the carrying amount exceeds the fair value, further analysis is performed to measure the impairment loss.

Table of Contents

The fair value of each reporting unit is determined by using an income approach, which uses a discounted cash flow approach and a market approach. The fair value of each indefinite-lived intangible asset is determined using an income approach. Significant management judgment is necessary to evaluate the impact of operating and macroeconomic changes on each reporting unit. The significant estimates and assumptions include projected sales growth, gross profit rates, selling, general and administrative rates, working capital requirements, capital expenditures and terminal growth rates, discount rates per reporting unit, and the selection of peer company multiples. We determine discount rates separately for each reporting unit using the weighted average cost of capital, which includes a calculation of cost of equity, which is developed using the capital asset pricing model and comparable company betas (a measure of systemic risk), and cost of debt. We also use comparable market earnings multiple data and our market capitalization to corroborate our reporting unit valuations.

We have not made any material changes in our reporting units or the accounting methodology we use to assess impairment loss on goodwill and indefinite-lived intangible assets since December 31, 2016.

The most recent annual impairment tests performed as of October 1, 2018 indicated that the fair values of each of our reporting units and indefinite-lived intangible assets were substantially in excess of their carrying values. Despite that excess, however, impairment charges could still be required if a divestiture decision were made or other significant economic event were made or occurred with respect to one of our reporting units. Subsequent to our October 1, 2018 annual impairment test, no indications of impairment were identified.

We do not believe there is a reasonable likelihood that there will be a material change in the future estimates or assumptions we use to test for impairment losses on goodwill and indefinite-lived intangible assets. However, if actual results are not consistent with our estimates or assumptions, we may be exposed to an impairment charge that could be material.

Income Taxes. Accounting for income taxes requires recognition of deferred tax liabilities and assets for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred tax assets and liabilities are determined based on the difference between the financial statement and tax bases of assets and liabilities.

We recognize deferred tax assets in our Consolidated Balance Sheets, and these deferred tax assets typically represent items deducted currently from operating income in the financial statements that will be deducted in future periods in tax returns. A valuation allowance is recorded against certain deferred tax assets to reduce the consolidated deferred tax asset to an amount that will, more likely than not, be realized in future periods. At December 31, 2018 the valuation allowance of \$43.1 million was primarily related to certain tax attributes and various foreign jurisdictions. The valuation allowance is based, in part, on our estimate of future taxable income, the expected utilization of foreign and state tax loss carryforwards, and credits and the expiration dates of such tax loss carryforwards. Significant assumptions are used in developing the analysis of future taxable income for purposes of determining the valuation allowance for deferred tax assets which, in our opinion, are reasonable under the circumstances.

Our consolidated effective tax rate and related tax reserves are subject to uncertainties in the application of complex tax regulations from numerous tax jurisdictions around the world. We recognize liabilities for anticipated taxes in the U.S. and other tax jurisdictions based on our estimate of whether, and the extent to which, taxes are and could be due. Our effective income tax rate is also affected by changes in tax law, such as the U.S. Tax Reform Act, the tax jurisdiction of new stores or business ventures, the level of earnings and the results of tax audits. On December 22, 2017, the U.S. Tax Reform Act was signed into law making significant changes to U.S. tax law. Changes include, but are not limited to, a corporate tax rate decrease from 35% to 21% effective for tax years beginning after December 31, 2017, the transition of U.S. international taxation from a worldwide tax system to a territorial system, and a one-time Transition Tax. In accordance with the U.S. Tax Reform Act, we recorded an income tax benefit of \$23.8 million in

the fourth quarter of 2017, the period in which the legislation was enacted. The total benefit included a tax benefit of \$69.7 million related to the remeasurement of certain deferred tax assets and liabilities net of \$45.9 million in additional income tax expense related to the Transition Tax. During 2018, we completed our analysis based on subsequent guidance issued with respect to the U.S. Tax Reform Act currently available which resulted in an additional tax benefit of \$6.8 million in 2018 related to the finalization of the Transition Tax obligation.

We did not recognize certain tax benefits from uncertain tax positions within the provision for income taxes. We may recognize a tax benefit only if it is more likely than not the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such positions are then measured based on the largest benefit that has a greater than 50% likelihood of being realized upon settlement. At December 31, 2018, our estimated gross unrecognized tax benefits were \$103.8 million of which \$91.4 million, if recognized, would favorably impact our future earnings. Due to uncertainties in any tax audit outcome, our estimates of the ultimate settlement of our unrecognized tax positions may change and the actual tax benefits may differ significantly from the estimates.

Table of Contents

Since 2001, we have been involved in a dispute with SKAT regarding the Danish Tax Matter. During 2018, we negotiated a settlement with SKAT for the tax years 2001 through 2011 (the "Settlement Years"). In addition, we have entered into the Advance Pricing Agreement program (the "APA Program") for the tax years 2012 through 2022 in which the IRS, on our behalf, will negotiate directly with SKAT the royalty to be paid by the U.S. subsidiary to the Danish Subsidiary. We maintain an uncertain income tax liability for both the Settlement Years and for the tax years 2012 through 2018 that are included in the APA Program. If we are required to further increase the uncertain tax liability for either or both periods based on a change in facts and circumstances, it could have a material impact on our reported earnings. Further, if the IRS and SKAT are unable to reach a mutually acceptable agreement with respect to the tax years included in the APA Program, we could be required to make a significant payment to SKAT for Danish tax related to such years, which could have a material adverse effect on our results of operations and liquidity.

Impact of Recently Issued Accounting Pronouncements

In February 2016, the FASB issued Accounting Standards Update ("ASU") No. 2016-02, Leases (Topic 842), as amended. Topic 842 requires entities to recognize a right-of-use asset and a lease liability for substantially all leases, with the exception of short term leases, and disclose key information about leasing arrangements for certain leases. The new guidance will continue to classify leases as either financing or operating, with classification affecting the pattern of expense recognition. We adopted the new standard on January 1, 2019, using a modified retrospective approach. We expect adoption of the new standard will result in the recognition of additional right-of-use assets and lease liabilities between \$195 million and \$235 million as of January 1, 2019.

Refer to Note 2, "Recently Issued Accounting Pronouncements," in our Consolidated Financial Statements included in Part II, ITEM 8 of this Report for a full description of recent accounting pronouncements, including the expected dates of adoption and estimated effects on results of operations and financial condition, which is incorporated herein by reference.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Foreign Currency Exposures

We manage a portion of our exposure in foreign currency transactions through the use of foreign exchange forward contracts. Refer to Note 1(g), "Derivative Financial Instruments," to the accompanying Consolidated Financial Statements for a summary of our foreign exchange forward contracts as of December 31, 2018.

As a result of our global operations, our earnings are exposed to changes in foreign currency exchange rates. Many of our foreign businesses operate in functional currencies other than the U.S. dollar. As the U.S. dollar strengthens relative to the Euro or other foreign currencies where we have operations, there will be a negative impact on our operating results upon translation of those foreign operating results into the U.S. dollar. Foreign currency exchange rate changes positively impacted our adjusted EBITDA, which is a non-GAAP financial measure, by approximately 0.4% in the year ended December 31, 2018. We do not hedge the translation of foreign currency operating results into the U.S. dollar.

We hedge a portion of our currency exchange exposure relating to foreign currency transactions with foreign exchange forward contracts. A sensitivity analysis indicates the potential loss in fair value on foreign exchange forward contracts outstanding at December 31, 2018, resulting from a hypothetical 10.0% adverse change in all foreign currency exchange rates against the U.S. dollar, is approximately \$11.1 million. Such losses would be largely offset by gains from the revaluation or settlement of the underlying assets and liabilities that are being protected by the foreign exchange forward contracts.

In the fourth quarter of 2018, we converted \$75 million of our 5.50% fixed-rate USD-denominated 2026 Senior Notes, including the semi-annual interest payments thereunder, to fixed-rate DKK denominated debt at an average rate of 2.1310%. During January 2019, we converted an additional \$25 million of our 5.50% fixed-rate USD-denominated 2026 Senior Notes, including the semi-annual interest payments thereunder, to fixed-rate DKK denominated debt at an average rate of 2.3160%. We have designated these cross currency swap agreements as qualifying hedging instruments and are accounting for these as net investment hedges.

Effective June 30, 2018, we determined that the economy in Argentina is highly inflationary. Beginning July 1, 2018, the U.S. Dollar is the functional currency for our subsidiaries in Argentina. Remeasurement adjustments in a highly inflationary economy and other transactional gains and losses are reflected in net earnings and were not material for the six months ended December 31, 2018. These subsidiaries are included in loss from discontinued operations, net of tax, on our Consolidated Statements of Income.

Table of Contents

Interest Rate Risk

On December 31, 2018, we had variable-rate debt of \$537.2 million. Holding other variables constant, including levels of indebtedness, a one hundred basis point increase in interest rates on our variable-rate debt would cause an estimated reduction in income before income taxes of \$5.4 million. We continue to evaluate the interest rate environment and look for opportunities to improve our debt structure and minimize our interest rate risk and expense.

Report of Independent Registered Public Accounting Firm

To the Stockholders and the Board of Directors of Tempur Sealy International, Inc. and Subsidiaries

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheets of Tempur Sealy International, Inc. and Subsidiaries (the Company) as of December 31, 2018 and 2017, and the related consolidated statements of income, comprehensive income, stockholders' equity (deficit), and cash flows for each of the three years in the period ended December 31, 2018, and the related notes and financial statement schedule listed in the Index at Item 15(a) (collectively referred to as the "consolidated financial statements"). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company at December 31, 2018 and 2017, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2018, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company's internal control over financial reporting as of December 31, 2018, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 Framework) and our report dated February 25, 2019, expressed an unqualified opinion thereon.

Adoption of Accounting Standards Update (ASU) No. 2014-09

As discussed in Note 4 to the consolidated financial statements, the Company changed its method of accounting for revenue from contracts with customers in 2018 due to the adoption of ASU No. 2014-09, Revenue from Contracts with Customers, as amended.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

/s/ Ernst & Young LLP

We have served as the Company's auditor since 2002.

TEMPUR SEALY INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(1) Summary of Significant Accounting Policies

(a) Basis of Presentation and Description of Business. Tempur Sealy International, Inc., a Delaware corporation, together with its subsidiaries, is a U.S. based, multinational company. The term “Tempur Sealy International” refers to Tempur Sealy International, Inc. only, and the term “Company” refers to Tempur Sealy International, Inc. and its consolidated subsidiaries.

The Company develops, manufactures, markets and sells bedding products, which include mattresses, foundations and adjustable bases, and other products, which include pillows and other accessories. The Company also derives income from royalties by licensing Sealy® and Stearns & Foster® brands, technology and trademarks to other manufacturers. The Company sells its products through two sales channels: Wholesale and Direct.

The Company classified the results of operations and cash flows for certain subsidiaries in the Latin American region as discontinued operations in its Consolidated Statements of Income and Consolidated Statements of Cash Flows for all periods presented. The net assets of these Latin American subsidiaries have been retrospectively reflected as held for sale as of December 31, 2017. See Note 3, “Discontinued Operations” for additional information.

(b) Basis of Consolidation. The accompanying financial statements include the accounts of Tempur Sealy International and its controlled subsidiaries. Intercompany balances and transactions have been eliminated.

The Company's Consolidated Financial Statements include the results of Comfort Revolution, LLC (“Comfort Revolution”). Prior to July 11, 2018, Comfort Revolution constituted a variable interest entity for which the Company was considered to be the primary beneficiary due to the Company's disproportionate share of the economic risk associated with its equity contribution, debt financing and other factors. On July 11, 2018, the Company acquired the remaining 55% equity interest in Comfort Revolution, which did not result in a material impact to the Company's Consolidated Financial Statements.

The Company has ownership interests in a group of Asia-Pacific joint ventures to develop markets for Sealy® branded products in those regions. The equity method of accounting is used for these joint ventures, over which the Company has significant influence but does not have effective control, and consolidation is not otherwise required. The Company's equity in the net income and losses of these investments is reported in equity income in earnings of unconsolidated affiliates in the accompanying Consolidated Statements of Income. The Company's Asia-Pacific joint ventures are more fully described in Note 7, “Unconsolidated Affiliate Companies.”

(c) Use of Estimates. The preparation of financial statements in conformity with U.S. Generally Accepted Accounting Principles (“GAAP”) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Consolidated Financial Statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. The Company's results are affected by economic, political, legislative, regulatory and legal actions. Economic conditions, such as recessionary trends, inflation, interest and monetary exchange rates, government fiscal policies and changes in the prices of raw materials, can have a significant effect on operations.

(d) Adoption of New Accounting Standards.

Employee Share-Based Payments. In March 2016, the FASB issued Accounting Standard Update (“ASU”) No. 2016-09, Improvements to Employee Share-Based Payment Accounting, which simplifies several aspects of the

accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and the classification on the statement of cash flows. The Company adopted this ASU as of January 1, 2017, which did not have a material impact on the Company's Consolidated Financial Statements. As a result of the adoption of this ASU:

The Company recognized all excess tax benefits and tax deficiencies as income tax provision or benefit in the Consolidated Statement of Income. The Company recognized excess tax deficiencies of \$1.1 million and \$0.7 million for the years ended December 31, 2018 and 2017, respectively.

The Company is prospectively presenting these excess tax benefits and tax deficiencies as an operating activity on the Consolidated Statement of Cash Flows.

Table of Contents

TEMPUR SEALY INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

The Company adopted a change in accounting policy to recognize forfeitures of awards as they occur instead of estimating potential forfeitures. Historically, the Company estimated the number of awards expected to be forfeited and adjusted the estimate when it was no longer probable that employees would fulfill their service conditions. The effect of this change in accounting policy is not material.

Revenue Recognition. On January 1, 2018, the Company adopted ASU No. 2014-09, "Revenue from Contracts with Customers (Topic 606)" using the modified retrospective method. Under the modified retrospective method, the Company recognized the cumulative effect of initially applying the new revenue standard as a decrease to the opening balance of retained earnings. Topic 606 required additional qualitative and quantitative disclosures. Other presentation and disclosure changes include the classification of royalty income to net sales and changes in the balance sheet classification and measurement for accrued sales returns. For additional information, see Note 4, "Revenue Recognition" of the Consolidated Financial Statements.

Pensions. In March 2017, the FASB issued ASU No. 2017-07, "Compensation - Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost", which is accounting guidance that changed how employers who sponsor defined benefit pension and/or postretirement benefit plans present the net periodic benefit cost in the Consolidated Statements of Income. This guidance requires employers to present the service cost component of net periodic benefit cost in the same caption within the Consolidated Statements of Income as other employee compensation costs from services rendered during the period. All other components of the net periodic benefit cost are presented separately outside of the operating income caption. The Company adopted ASU No. 2017-07 as of January 1, 2018 and applied the accounting guidance retrospectively. Adoption of this guidance resulted in a reclassification of pension and other postretirement plan non-service income and remeasurement adjustments, net, from within operating income to non-operating income. The adoption of this guidance was not material to the Consolidated Statement of Income for any periods presented.

Accumulated Other Comprehensive Income. In February 2018, the FASB issued ASU No. 2018-02, "Income Statement - Reporting Comprehensive Income (Topic 220): Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income", which allows entities to reclassify tax effects stranded in accumulated other comprehensive loss ("AOCL") as a result of the Tax Cuts and Jobs Act of 2017 ("U.S. Tax Reform Act") to retained earnings. The Company early adopted ASU No. 2018-02 on March 31, 2018. The impact of adoption was not material to the Company's Consolidated Financial Statements.

Derivatives and Hedging. In August 2017, the FASB issued ASU No. 2017-12, "Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities", which simplifies hedge accounting by better aligning a company's financial reporting for hedging relationships with its risk management activities. This guidance expands an entity's ability to hedge non-financial and financial risk components and reduces complexity in fair value hedges of interest rate risk; eliminates the requirement to separately measure and report hedge ineffectiveness and present the entire change in the fair value of a hedging instrument in the same income statement line as the hedged item; eases certain documentation and assessment requirements; and modifies the accounting for components excluded from the assessment of hedge effectiveness. The Company early adopted this ASU in the third quarter of 2018. There were no adjustments to the Company's Consolidated Financial Statements as a result of the adoption.

(e) **Fair Value Measurements.** The Company applies fair value accounting for all financial assets and liabilities and non-financial assets and liabilities that are recognized or disclosed at fair value in the Consolidated Financial Statements on a recurring basis. The Company defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities, the Company considers the principal or most

advantageous market in which the Company would transact and the market-based risk measurements or assumptions that market participants would use in pricing the asset or liability, such as inherent risk, transfer restrictions and credit risk.

The Company estimates fair value of its financial instruments utilizing an established three-level hierarchy. The hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date as follows:

- Level 1 – Valuation is based upon unadjusted quoted prices for identical assets or liabilities in active markets.
- Level 2 – Valuation is based upon quoted prices for similar assets and liabilities in active markets, or other inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instruments.
- Level 3 – Valuation is based upon other unobservable inputs that are significant to the fair value measurements.

Table of Contents

TEMPUR SEALY INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

The classification of fair value measurements within the established three-level hierarchy is based upon the lowest level of input that is significant to the measurements. There were no transfers between levels for the years ended December 31, 2018 or 2017. The carrying value of cash and cash equivalents, accounts receivable and accounts payable approximate fair value because of the short-term maturity of those instruments. The fair value of the Company's financial instruments that are recorded on a recurring basis at fair value are not material.

(f) Foreign Currency. Assets and liabilities of non-U.S. subsidiaries, whose functional currency is the local currency, are translated into U.S. dollars at period-end exchange rates. Income and expense items are translated at the average rates of exchange prevailing during the period. The adjustments resulting from translating the financial statements of foreign subsidiaries are included in accumulated other comprehensive loss ("AOCL"), a component of stockholders' equity/(deficit), and included in net earnings only upon sale or liquidation of the underlying foreign subsidiary or affiliated company. Foreign currency transaction gains and losses are recognized in net earnings based on differences between foreign exchange rates on the transaction date and on the settlement date. These amounts are not considered material to the Consolidated Financial Statements.

Effective June 30, 2018, the Company determined that the economy in Argentina is highly inflationary. Beginning July 1, 2018, the U.S. Dollar is the functional currency for the Company's subsidiaries in Argentina. Remeasurement adjustments in a highly inflationary economy and other transactional gains and losses are reflected in net earnings and were not material for the year ended December 31, 2018. These subsidiaries are included in loss from discontinued operations, net of tax, within the Company's Consolidated Statements of Income.

(g) Derivative Financial Instruments. Derivative financial instruments are used in the normal course of business to manage interest rate and foreign currency exchange risks. The financial instruments used by the Company are straight-forward, non-leveraged instruments. The counterparties to these financial instruments are financial institutions with strong credit ratings. The Company maintains control over the size of positions entered into with any one counterparty and regularly monitors the credit ratings of these institutions. For all transactions designated as hedges, the hedging relationships are formally documented at the inception and on an ongoing basis in offsetting changes in cash flows of the hedged transaction.

The Company records derivative financial instruments on the Consolidated Balance Sheets as either an asset or liability measured at its fair value. Changes in a derivative's fair value (i.e. unrealized gains or losses) are recorded each period in earnings unless the derivative qualifies as a hedge on future cash flows or a hedge of a net investment in a foreign operation. Gains and losses related to a hedge are either recognized in income immediately to offset the gain or loss on the hedged item, or deferred and recorded in the stockholders' equity section of the Consolidated Balance Sheets as a component of AOCL and subsequently recognized in the Statements of Consolidated Comprehensive Income when the hedged item affects net income. The ineffective portion of the change in fair value of a hedge is recognized in income immediately.

For derivative financial instruments that are designated as a hedge, unrealized gains and losses related to the effective portion are either recognized in income immediately to offset the realized gain or loss on the hedged item, or are deferred and reported as a component of AOCL in stockholders' equity/(deficit) and subsequently recognized in net income when the hedged item affects net income. The change in fair value of the ineffective portion of a derivative financial instrument is recognized in net income immediately. For derivative instruments that are not designated as hedges, the gain or loss related to the change in fair value is also recorded to net income immediately. The effectiveness of the cash flow hedge contracts, including time value, is assessed prospectively and retrospectively on a monthly basis using regression analysis, as well as other timing and probability criteria. For derivative instruments that are not designated as hedges, the gain or loss related to the change in fair value is also recorded in net income

immediately.

The forward exchange contract assets and liabilities as of December 31, 2018 and 2017 were based on Level 2 inputs and were not material in any period presented.

(h) Cash and Cash Equivalents. Cash and cash equivalents consist of all highly liquid investments with initial maturities of three months or less. The carrying value of cash and cash equivalents approximates fair value because of the short-term maturity of those instruments.

57

Table of ContentsTEMPUR SEALY INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

(i) Inventories. Inventories are stated at the lower of cost and net realizable value, determined by the first-in, first-out method and consist of the following:

	December 31,	
(in millions)	2018	2017
Finished goods	\$ 148.9	\$ 119.6
Work-in-process	11.8	11.3
Raw materials and supplies	61.6	48.2
	\$ 222.3	\$ 179.1

(j) Property, Plant and Equipment. Property, plant and equipment are carried at cost at acquisition date and are depreciated using the straight-line method over their estimated useful lives as follows:

	Estimated Useful Lives (in years)
Buildings	25-30
Computer equipment and software	3-7
Leasehold improvements	4-7
Machinery and equipment	3-7
Office furniture and fixtures	5-7

The Company records depreciation and amortization in cost of sales for long-lived assets used in the manufacturing process, and within each line item of operating expenses for all other long-lived assets. Leasehold improvements are amortized over the shorter of the life of the lease or seven years. Assets under capital lease are included within property, plant and equipment and represent non-cash investing activities.

Property, plant and equipment, net consisted of the following:

	December 31,	
(in millions)	2018	2017
Machinery and equipment	\$ 319.3	\$ 313.0
Land and buildings	328.5	315.5
Computer equipment and software	142.2	113.4
Furniture and fixtures	50.4	56.7
Construction in progress	52.4	63.2
Total property, plant, and equipment	892.8	861.8
Accumulated depreciation	(472.0)	(428.3)
Total property, plant and equipment, net	\$ 420.8	\$ 433.5

Depreciation expense, which includes depreciation expense for capital lease assets, for the Company was \$71.8 million, \$64.8 million and \$55.4 million for the years ended December 31, 2018, 2017 and 2016, respectively.

(k) Long-Lived Assets. Long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of long-lived assets is assessed by a comparison of the carrying amount of the asset to the estimated future undiscounted net cash flows expected to be generated by the asset or group of assets. If estimated future undiscounted net cash flows are less than the carrying amount of the asset or group of assets, the asset is considered impaired and an expense is recorded in an amount required to reduce the carrying amount of the asset to its then fair value. Fair value generally is determined from estimated discounted future net cash flows (for assets held for use) or net realizable value (for assets held for sale).

The Company did not identify any impairments for the years ended December 31, 2018, 2017 and 2016.

Table of ContentsTEMPUR SEALY INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

(l) Goodwill and Other Intangible Assets. Intangible assets with finite useful lives are amortized over their respective estimated useful lives to their estimated residual values and reviewed for impairment whenever events or changes in circumstances indicate impairment may have occurred. The Company performs an annual impairment test on goodwill and indefinite-lived intangible assets on October 1 of each year and whenever events or circumstances make it more likely than not that impairment may have occurred. In conducting the impairment test for the North America and International reporting units, the fair value of each of the Company's reporting units is compared to its respective carrying amount including goodwill. If the fair value exceeds the carrying amount, then no impairment exists. If the carrying amount exceeds the fair value, further analysis is performed to assess impairment. The Company's determination of fair value of the reporting units is based on a discounted cash flow approach, with an appropriate risk-adjusted discount rate, and a market approach. Any identified impairment would result in an adjustment to the Company's results of operations.

The Company also tests its indefinite-lived intangible assets, principally the Tempur and Sealy trade names. The Company tested both trade names for impairment using a "relief-from-royalty" method. Significant assumptions inherent in the methodologies are employed and include such estimates as royalty and discount rates.

The Company performed its annual impairment test of goodwill and indefinite-lived intangible assets in 2018, 2017 and 2016, none of which resulted in the recognition of impairment charges. The most recent annual impairment tests performed as of October 1, 2018, indicated that the fair values of each of the Company's reporting units and indefinite-lived intangible assets were substantially in excess of their carrying values. For further information on goodwill and other intangible assets, refer to Note 6, "Goodwill and Other Intangible Assets."

(m) Accrued Sales Returns. The Company allows product returns through certain sales channels and on certain products. Estimated sales returns are provided at the time of sale based on historical sales channel return rates. Estimated future obligations related to these products are provided by a reduction of sales in the period in which the revenue is recognized. The Company considers the impact of recoverable salvage value on sales returns by segment in determining its estimate of future sales returns. Effective January 1, 2018 with the Company's adoption of Topic 606, the Company recognizes a return asset for the right to recover the goods returned by the customer. The right of return asset is recognized on a gross basis outside of the accrued sales returns and is not material to the Company's Consolidated Balance Sheets.

The Company had the following activity for accrued sales returns from December 31, 2016 to December 31, 2018: (in millions)

Balance as of December 31, 2016	\$30.3
Amounts accrued	81.6
Returns charged to accrual	(81.9)
Balance as of December 31, 2017	30.0
Reclassification and remeasurement of sales return asset under Topic 606	1.7
Balance as of January 1, 2018	31.7
Amounts accrued	83.8
Returns charged to accrual	(81.2)
Balance as of December 31, 2018	\$34.3

As of December 31, 2018 and 2017, \$22.0 million and \$19.6 million of accrued sales returns is included as a component of accrued expenses and other current liabilities and \$12.3 million and \$10.4 million of accrued sales returns is included in other non-current liabilities on the Company's accompanying Consolidated Balance Sheets, respectively.

(n) Warranties. The Company provides warranties on certain products, which vary based by segment, product and brand. Estimates of warranty expenses are based primarily on historical claims experience and product testing. Estimated future obligations related to these products are charged to cost of sales in the period in which the related revenue is recognized. In estimating its warranty obligations, the Company considers the impact of recoverable salvage value on warranty costs by segment in determining its estimate of future warranty obligations.

Table of Contents

TEMPUR SEALY INTERNATIONAL, INC. AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

The Company provides warranties on mattresses with varying warranty terms. Tempur mattresses sold in the North America segment and all Sealy mattresses have warranty terms ranging from 10 to 25 years, generally non-prorated for the first 10 to 15 years and then prorated for the balance of the warranty term. Tempur mattresses sold in the International segment have warranty terms ranging from 5 to 15 years, non-prorated for the first 5 years and then prorated on a straight-line basis for the last 10 years of the warranty term. Tempur pillows have a warranty term of 3 years, non-prorated.

The Company had the following activity for warranties from December 31, 2016 to December 31, 2018:

(in millions)

Balance as of December 31, 2016	\$29.9
Amounts accrued	34.5
Warranties charged to accrual	(27.7)
Balance as of December 31, 2017	36.7
Remeasurement of obligations under Topic 606	2.8
Balance as of January 1, 2018	39.5
Amounts accrued	21.9
Warranties charged to accrual	(25.0)
Balance as of December 31, 2018	\$36.4

As of December 31, 2018 and 2017, \$14.9 million and \$16.7 million of accrued warranty expense is included as a component of accrued expenses and other current liabilities and \$21.5 million and \$20.0 million of accrued warranty expense is included in other non-current liabilities on the Company's accompanying Consolidated Balance Sheets, respectively.

(o) Allowance for Doubtful Accounts. The allowance for doubtful accounts is the Company's best estimate of the amount of probable credit losses in the Company's existing accounts receivable. The Company regularly reviews the adequacy of its allowance for doubtful accounts. The Company determines the allowance for doubtful accounts based on historical write-off experience and current economic conditions and also considers factors such as customer credit, past transaction history with the customer and changes in customer payment terms when determining whether the collection of a customer receivable is reasonably assured. Account balances are charged off against the allowance after all reasonable means of collection have been exhausted and the potential for recovery is considered remote. The allowance for doubtful accounts included in accounts receivable, net in the accompanying Consolidated Balance Sheets was \$47.6 million and \$24.7 million as of December 31, 2018 and 2017, respectively.

(p) Income Taxes. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to temporary differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Deferred tax assets are also recognized for the estimated future effects of tax loss carry forwards. The effect of changes in tax rates on deferred taxes is recognized in the period in which the enactment dates change. Valuation allowances are established when necessary on a jurisdictional basis to reduce deferred tax assets to the amounts expected to be realized. The Company accounts for uncertain foreign and domestic tax positions utilizing a proscribed recognition threshold and measurement attributes for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return.

(q) Cost of Sales. Costs associated with net sales are recorded in cost of sales. Cost of sales includes the costs of receiving, producing, inspecting, warehousing, insuring, and shipping goods during the period, as well as depreciation

and amortization of long-lived assets used in these processes. Cost of sales also includes shipping and handling costs associated with the delivery of goods to customers and costs associated with internal transfers between plant locations. Amounts included in cost of sales for shipping and handling were \$169.1 million, \$155.9 million and \$156.5 million for the years ended December 31, 2018, 2017 and 2016, respectively. Additionally, cost of sales for 2018 also includes royalties that the Company pays to other entities for the use of their names on products produced by the Company. Prior to the adoption of Topic 606 as of January 1, 2018, royalty income net of royalty expense was an operating expense line item presented separately on the Company's Consolidated Statements of Income. For additional information, please refer to Note 4, Revenue Recognition . Royalty expense is not material to the Company's Consolidated Statements of Income.

Table of Contents

TEMPUR SEALY INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

(r) Cooperative Advertising, Rebate and Other Promotional Programs. The Company enters into programs with customers to provide funds for advertising and promotions. The Company also enters into volume and other rebate programs with customers. When sales are made to these customers, the Company records liabilities pursuant to these programs. The Company periodically assesses these liabilities based on actual sales and claims to determine whether all of the cooperative advertising earned will be used by the customer or whether the customer will meet the requirements to receive rebate funds. The Company generally negotiates these programs on a customer-by-customer basis. Some of these agreements extend over several years. Significant estimates are required at any point in time with regard to the ultimate reimbursement to be claimed by the customers. Subsequent revisions to the estimates are recorded and charged to earnings in the period in which they are identified. Rebates and cooperative advertising are classified as a reduction of revenue and presented within net sales in the accompanying Consolidated Statements of Income. Certain cooperative advertising expenses are reported as components of selling and marketing expenses in the accompanying Consolidated Statements of Income because the Company receives an identifiable benefit and the fair value of the advertising benefit can be reasonably estimated.

(s) Advertising Costs. The Company expenses advertising costs as incurred except for production costs and advance payments, which are deferred and expensed when advertisements run for the first time. Direct response advance payments are deferred and amortized over the life of the program. Advertising costs are included in selling and marketing expenses in the accompanying Consolidated Statements of Income. Advertising costs charged to expense were \$259.3 million, \$283.5 million and \$352.3 million for the years ended December 31, 2018, 2017 and 2016, respectively. Advertising costs include expenditures for shared advertising costs that the Company reimburses to customers under its integrated and cooperative advertising programs. Cooperative advertising costs paid to customers are recorded as a component of selling and marketing expenses within the Consolidated Statements of Income to the extent the fair value of the distinct good or service can reasonably be estimated. The Company periodically assesses the liabilities recorded for cooperative advertising based on actual sales and claims to determine whether all of the cooperative advertising earned will be used by the customer. Advertising costs deferred and included in prepaid expenses and other current assets in the accompanying Consolidated Balance Sheets were \$8.5 million and \$3.8 million as of December 31, 2018 and 2017, respectively.

(t) Research and Development Expenses. Research and development expenses for new products are expensed as they are incurred and are included in general, administrative and other expenses in the accompanying Consolidated Statements of Income. Research and development costs charged to expense were \$21.9 million, \$21.7 million and \$26.7 million for the years ended December 31, 2018, 2017 and 2016, respectively.

(u) Stock-based Compensation. The Company accounts for stock-based payment transactions in which the Company receives employee services in exchange for equity instruments of the Company. Stock-based compensation cost for restricted stock units ("RSUs"), performance restricted stock units ("PRSUs") and deferred stock units ("DSUs") is measured based on the closing fair market value of the Company's common stock on the date of grant. Stock-based compensation cost for stock options is estimated at the grant date based on each option's fair value as calculated by the Black-Scholes option-pricing model. The Company recognizes stock-based compensation cost as expense for awards other than its PRSUs ratably on a straight-line basis over the requisite service period. The Company recognizes stock-based compensation cost associated with its PRSUs over the requisite service period if it is probable that the performance conditions will be satisfied. Further information regarding stock-based compensation can be found in Note 12, "Stock-based Compensation."

(v) Treasury Stock. Subject to Delaware law, and the limitations in the 2016 Credit Agreement (as defined in Note 8, "Debt") and the Company's other debt agreements, the Board of Directors may authorize share repurchases of the Company's common stock. Purchases made pursuant to this authorizations may be carried out through open market

transactions, negotiated purchases or otherwise, at times and in such amounts as the Company deems appropriate. Shares repurchased under such authorization are held in treasury for general corporate purposes, including issuances under various employee stock-based award plans. On February 1, 2016, the Board of Directors authorized a share repurchase program pursuant to which the Company was permitted to repurchase shares of Tempur Sealy International's common stock. The Board of Directors authorized an increase in the amount of shares available for repurchase under this program in February 2017. Treasury stock is accounted for under the cost method and reported as a reduction of stockholders' equity. The authority provided under the share repurchase program may be suspended, limited or terminated at any time without notice. Please refer to Note 10, "Stockholder's Equity", for additional information.

TEMPUR SEALY INTERNATIONAL, INC. AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

(w) Self-Insurance. The Company is self-insured up to \$0.8 million per claim per year for certain losses related to medical claims with excess loss coverage. The Company also utilizes large deductible policies to insure claims related to general liability, product liability, automobile, and workers' compensation. The Company's recorded liability for workers' compensation represents an estimate of the ultimate cost of claims incurred as of the Consolidated Balance Sheet date. The estimated workers' compensation liability is undiscounted and is established based upon analysis of historical and actuarial estimates, and is reviewed by the Company and third party actuaries on a quarterly basis to ensure that the liability is appropriate. As of December 31, 2018 and 2017, \$5.2 million and \$4.8 million, respectively, of the recorded undiscounted liability is included in accrued expenses and other current liabilities and \$16.3 million and \$15.9 million, respectively, is included in other non-current liabilities within the accompanying Consolidated Balance Sheets. During 2016, the Company entered into a retroactive insurance policy to limit exposure on historical worker's compensation claims. As of December 31, 2018 and 2017, \$1.9 million and \$2.4 million, respectively, are included in prepaid expenses and other current assets and \$6.0 million and \$7.6 million, respectively, are included in other non-current assets within the accompanying Consolidated Balance Sheets, which together represent the value of expected recoveries related to the underlying insured events.

(x) Pension Obligations. The Company has a noncontributory, defined benefit pension plan covering current and former hourly employees at two of its active Sealy plants and ten previously-closed Sealy U.S. facilities. Sealy Canada, Ltd. (a 100.0% owned subsidiary of the Company) also sponsors a noncontributory, defined benefit pension plan covering hourly employees at one of its facilities. Both plans provide retirement and survivorship benefits based on the employees' credited years of service. The Company's funding policy provides for contributions of an amount between the minimum required and maximum amount that can be deducted for federal income tax purposes. The funded status is measured as the difference between the fair value of plan assets and the benefit obligation at December 31, the measurement date. The benefit obligation is the projected benefit obligation ("PBO"). The PBO represents the actuarial present value of benefits expected to be paid upon retirement based on estimated future compensation levels. The measurement of the PBO is based on the Company's estimates and actuarial valuations. The fair value of plan assets represents the current market value of assets held by an irrevocable trust fund for the sole benefit of participants. These valuations reflect the terms of the plans and use participant-specific information such as compensation, age and years of service, as well as certain assumptions that require significant judgment, including estimates of discount rates, expected return on plan assets, rate of compensation increases, interest crediting rates and mortality rates.

(y) Customer Contract Termination. During the week of January 23, 2017, the Company was unexpectedly notified by the senior management of Mattress Firm, Inc. ("Mattress Firm") and representatives of Steinhoff International Holdings Ltd., its parent company, of Mattress Firm's intent to terminate its business relationship with the Company if the Company did not agree to considerable changes to its agreements with Mattress Firm, including significant economic concessions. The Company engaged in discussions to facilitate a mutually agreeable supply arrangement with Mattress Firm. However, the parties were unable to reach an agreement, and on January 27, 2017, Tempur-Pedic North America, LLC and Sealy Mattress Company issued formal termination notices for all of their products to Mattress Firm. On January 30, 2017, Tempur-Pedic and Sealy Mattress entered into transition agreements with Mattress Firm in which they agreed, among other things, to continue supplying Mattress Firm until April 3, 2017, at which time the parties' business relationship ended.

In the first quarter of 2017, the Company took steps to manage its cost structure as a result of the termination of the contracts with Mattress Firm. During this period, the Company recognized \$25.9 million of net charges associated with the termination of the relationship with Mattress Firm. This amount includes \$11.5 million of charges within cost of sales and \$14.4 million of charges within customer termination charges, net in the Consolidated Statements of Income. The following amounts are recognized in cost of sales: \$5.4 million of charges related to the write-off of

customer-unique inventory and \$6.1 million of increased warranty costs associated with claims historically retained by Mattress Firm. The following amounts are recognized in customer termination charges, net: \$22.8 million of charges related to the write-off of Mattress Firm incentives and marketing assets, employee-related expenses and professional fees; and \$0.9 million of accelerated stock-based compensation expense. These charges are offset by \$9.3 million of benefit related to the change in estimate associated with performance-based stock compensation that is no longer probable of payout as a result of the termination of the contracts with Mattress Firm. The Company also recognized \$9.3 million related to the payments received pursuant to the transition agreements with Mattress Firm. This amount is included within other income, net in the Consolidated Statements of Income.

TEMPUR SEALY INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

(2) Recently Issued Accounting Pronouncements

Leases

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842), as amended. Topic 842 requires entities to recognize a right-of-use asset and a lease liability for substantially all leases, with the exception of short term leases, and disclose key information about leasing arrangements for certain leases. The new guidance will continue to classify leases as either financing or operating, with classification affecting the pattern of expense recognition. The Company adopted the new standard on January 1, 2019, using a modified retrospective approach. Under the modified retrospective approach, the Company will not adjust the comparative period financial information or make the new required lease disclosures for periods before the effective date.

The new guidance provides a number of optional practical expedients in transition. The Company plans to elect the 'package of practical expedients', which allows the Company not to reassess under the new guidance its prior conclusions about lease identification, lease classification and initial direct costs. The Company does not expect to elect the use-of-hindsight practical expedient. The Company plans to elect the short-term lease recognition exemption for all leases that qualify which means it will not recognize right-of-use assets or lease liabilities for these leases.

The Company has designed new processes and controls, cataloged and entered its leases into a recently implemented software solution and evaluated its population of leased assets to assess the effect of the new guidance on the Company's consolidated financial statements. The Company expects that the adoption of the new standard will result in a material increase to the assets and liabilities on its consolidated balance sheets, but will not have a material effect on its consolidated results of operations or cash flows. The Company expects adoption of the new standard will result in the recognition of additional right-of-use assets and lease liabilities between \$195 million and \$235 million as of January 1, 2019.

(3) Discontinued Operations

During 2018, the Company completed an evaluation of its International segment operations and identified certain Latin American subsidiaries with low profitability and difficult operating environments with higher operational risk and volatility. As a result of this evaluation, the Company decided to divest of the net assets of certain of these subsidiaries in the Latin American region and enter into licensee relationships in these markets. These actions were completed by December 31, 2018 with the sale of certain subsidiaries, including the largest subsidiary in the region. The Company expects to receive royalty payments from these licensee relationships in future years.

The decision to convert these markets in the Latin American region to a licensee model represents a strategic shift in the Company's business. Accordingly, the Company has classified the results of operations and cash flows for these subsidiaries in the Latin American region as discontinued operations in its Consolidated Statements of Income and Consolidated Statements of Cash Flows for all periods presented. The net assets of the Latin American subsidiaries have been retrospectively reflected as held for sale as of December 31, 2017.

Table of ContentsTEMPUR SEALY INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

Components of amounts reflected in the Consolidated Statements of Income related to discontinued operations are presented in the following table for the years ended December 31.

	Twelve Months Ended		
	December 31,		
	2018	2017	2016
Net sales	\$31.1	\$53.8	\$49.2

Other non-current assets	1.0
Non-current assets of discontinued operations	\$ 2.6
Accounts payable	\$ 12.9
Accrued expenses and other current liabilities	11.9
Income taxes payable	0.9
Current liabilities of discontinued operations	\$ 25.7
Other non-current liabilities	\$ 1.3
Non-current liabilities of discontinued operations	\$ 1.3

(4) Revenue Recognition

Revenue from Contracts with Customers

The Company recognized the cumulative effect of the adoption of Topic 606 as an adjustment to the opening balance of retained earnings for approximately \$3.0 million, net of tax. Additionally, as a result of the new standard and

effective January 1, 2018, the Company classifies royalty income within net sales. The comparative information has not been restated and continues to be reported under the accounting standards in effect for each period presented.

The Company evaluated the impact of the adoption on the classification of cooperative advertising programs and other promotional programs with the Company's customers. The impact of adoption to these promotional programs did not result in material changes in the Company's recognition or presentation of costs within the Company's Consolidated Statements of Income.

The following tables summarize the impact of adopting Topic 606 on the Company's Consolidated Financial Statements as of and for the periods ended December 31, 2018:

(in millions)	Twelve Months Ended December 31, 2018		
	As Reported	Balances Without Adoption of Topic 606	Effect of Change Higher/(Lower)
Statement of Income			
Net sales	\$2,702.9	\$2,682.0	\$ 20.9

Canada	207.3	—	207.3
International	—	566.7	566.7
Net sales	\$2,136.2	\$ 566.7	\$ 2,702.9

The North America and International segments sell product through two channels: Wholesale and Direct. The Wholesale channel includes all product sales to third party retailers, including third party distribution, hospitality and healthcare. The Direct channel includes product sales to company-owned stores, e-commerce and call centers. The North America and International segments classify products into two major categories: Bedding and Other. Bedding products include mattresses, foundations and adjustable foundations. Other products include pillows, mattress covers, sheets, cushions and various other comfort products.

Table of Contents

TEMPUR SEALY INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

The Wholesale channel also includes income from royalties derived by licensing Sealy® and Stearns & Foster® brands, technology and trademarks to other manufacturers. The licenses include rights for the licensees to use trademarks as well as current proprietary or patented technology that the Company utilizes. The Company also provides its licensees with product specifications, research and development, statistical services and marketing programs. The Company recognizes royalty income based on the occurrence of sales of Sealy® and Stearns & Foster® branded products by various licensees. Royalty income was \$20.9 million, \$20.8 million and \$19.5 million for the years ended December 31, 2018, 2017 and 2016, respectively.

For product sales in each of the Company's channels, the Company recognizes a sale when the obligations under the terms of the contract with the customer is satisfied, which is generally when control of the product has transferred to the customer. Transferring control of each product sold is considered a separate performance obligation. The Company transfers control and recognizes a sale when it ships the product to a customer or when the customer receives the product based upon agreed shipping terms. Each unit sold is considered an independent, unbundled performance obligation. The Company does not have any additional performance obligations other than product sales that are material in the context of the contract. The Company also offers assurance type warranties on certain of its products. A warranty is considered an assurance type warranty if it provides the consumer with assurance that the product will function as intended. Assurance type warranties are not accounted for as separate performance obligations under the revenue model.

The transaction price is measured as the amount of consideration the Company expects to receive in exchange for transferring goods. The amount of consideration the Company receives, and correspondingly, the revenue that is recognized, varies due to sales incentives and returns the Company offers to its wholesale and retail channel customers. Specifically, the Company extends volume discounts, as well as promotional allowances, floor sample discounts, commissions paid to retail associates and slotting fees to its Wholesale channel customers and reflects these amounts as a reduction of sales at the time revenue is recognized based on historical experience. The Company allows returns following a sale, depending on the channel and promotion. The Company reduces revenue and cost of sales for its estimate of the expected returns, which is primarily based on the level of historical sales returns. The Company does not offer extended payment terms beyond one year to customers. As such, the Company does not adjust its consideration for financing arrangements.

In certain jurisdictions, the Company is subject to certain non-income taxes including, but not limited to, sales tax, value added tax, excise tax and other taxes. These taxes are excluded from the transaction price, and therefore, excluded from revenue. The Company has elected to account for shipping and handling activities as a fulfillment cost as permitted by Topic 606. Accordingly, the Company reflects all amounts billed to customers for shipping and handling in revenue and the costs of fulfillment in cost of sales. Amounts included in net sales for shipping and handling were \$13.6 million, \$11.3 million and \$11.7 million for the years ended December 31, 2018, 2017 and 2016, respectively.

(5) Acquisitions and Divestitures

During 2018, the Company decided to divest of the net assets of certain subsidiaries in the Latin American region. On December 28, 2018, a subsidiary of the Company in Latin America completed a transaction pursuant to which it sold substantially all of its assets to an unrelated third party, for approximately \$2.6 million in cash, subject to certain working capital adjustments. The Company retained and has agreed to indemnify the buyers for certain liabilities of the disposed subsidiary arising prior to the closing of the sale, including certain tax and environmental remediation liabilities. These liabilities, which are not material individually or in the aggregate, are included within accrued expenses and other current liabilities at December 31, 2018. Costs directly related to these retained liabilities have

been included within discontinued operations. The gain on sale was \$1.0 million and is also recognized within discontinued operations.

On July 11, 2018, the Company acquired the remaining 55% equity interest in Comfort Revolution, which was accounted for as an equity transaction and did not result in a material impact to the Company's Consolidated Financial Statements for the year ended December 31, 2018.

(7) Unconsolidated Affiliate Companies

The Company has ownership interests in a group of Asia-Pacific joint ventures to develop markets for Sealy® branded products in those regions. The Company's ownership interest in these joint ventures is 50.0% and is accounted for under the equity method. The Company's investment of \$22.5 million and \$21.5 million at December 31, 2018 and 2017, respectively, is recorded in other non-current assets in the accompanying Consolidated Balance Sheets. The Company's share of earnings for the years ended December 31, 2018 and 2017, respectively, are recorded in equity income in earnings of unconsolidated affiliates in the accompanying Consolidated Statements of Income.

The tables below present summarized financial information for joint ventures as of and for the years ended December 31:

(in millions)	2018	2017	
Current assets	\$81.8	\$73.7

TEMPUR SEALY INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

2016 Credit Agreement

On April 6, 2016, the Company entered into a senior secured credit agreement ("2016 Credit Agreement") with a syndicate of banks. The 2016 Credit Agreement replaced the Company's 2012 Senior Secured Credit Agreement ("2012 Credit Agreement"). The 2016 Credit Agreement provides for a \$500.0 million revolving credit facility, a \$500.0 million initial term loan facility and a \$100.0 million delayed draw term loan facility. At any time, the Company may also elect to request the establishment of one or more incremental term loan facilities and/or increase commitments under the revolving credit facility in an aggregate amount of up to \$500.0 million. A portion of the revolving credit facility of up to \$250.0 million is available in Canadian Dollars, Pounds Sterling, the Euro and any additional currencies determined by mutual agreement of the Company, the administrative agent and the lenders under the revolving credit facility. A portion of the revolving credit facility of up to \$100.0 million is available for the issuance of letters of credit for the account of the Company and a portion of the revolving credit facility of up to \$50.0 million is available for swing line loans to the Company.

Borrowings under the 2016 Credit Agreement will generally bear interest, at the election of Tempur Sealy International and the other subsidiary borrowers, at either (i) LIBOR plus the applicable margin or (ii) Base Rate plus the applicable margin. The applicable margins are determined by a pricing grid based on the consolidated total net leverage ratio of the Company following the delivery of the Consolidated Financial Statements of the Company for the most recent quarter. The delayed draw term loan facility has identical pricing to the revolving credit facility and initial term loan facility. As of December 31, 2018, the margin was either (i) LIBOR plus 2.00% per annum, or (ii) Base Rate plus 1.00%.

Obligations under the 2016 Credit Agreement are guaranteed by the Company's existing and future direct and indirect wholly-owned domestic subsidiaries, subject to certain exceptions. The 2016 Credit Agreement is secured by a security interest in substantially all of Tempur Sealy International's and the other subsidiary borrowers' domestic assets and the domestic assets of each subsidiary guarantor, whether owned as of the closing or thereafter acquired, including a pledge of 100.0% of the equity interests of each subsidiary guarantor that is a domestic entity (subject to certain limited exceptions) and 65.0% of the voting equity interests of any direct first tier foreign entity owned by a subsidiary guarantor. The 2016 Credit Agreement requires compliance with certain financial covenants providing for maintenance of a minimum consolidated interest coverage ratio, maintenance of a maximum consolidated total net leverage ratio, and maintenance of a maximum consolidated secured net leverage ratio. The consolidated total net leverage ratio is calculated using consolidated funded debt less qualified cash. Consolidated funded debt includes debt recorded on the Consolidated Balance Sheets as of the reporting date, plus letters of credit outstanding and other short-term debt. The Company is allowed to subtract from consolidated funded debt an amount equal to 100.0% of domestic qualified cash and 60.0% of foreign qualified cash, the aggregate of which cannot exceed \$150.0 million at the end of the reporting period. As of December 31, 2018, domestic qualified cash was \$13.6 million and foreign qualified cash was \$19.3 million. As of December 31, 2018, the Company's consolidated total net leverage ratio was 3.87 times, within the covenant in the Company's debt agreements which limits this ratio to 5.00 times for the year ended December 31, 2018.

The 2016 Credit Agreement contains certain customary negative covenants, which include limitations on liens, investments, indebtedness, dispositions, mergers and acquisitions, the making of restricted payments, changes in the nature of business, changes in fiscal year, transactions with affiliates, use of proceeds, prepayments of certain indebtedness, entry into burdensome agreements and changes to governing documents and other junior financing documents. The 2016 Credit Agreement also contains certain customary affirmative covenants and events of default, including upon a change of control.

The Company was in compliance with all applicable covenants in the 2016 Credit Agreement at December 31, 2018.

The Company is required to pay a commitment fee on the unused portion of the revolving credit facility. The commitment fee rate is determined by a pricing grid based on the consolidated total net leverage ratio of the Company. The commitment fee is payable quarterly in arrears following the delivery of Consolidated Financial Statements for the most recent quarter and on the date of termination or expiration of the commitments under the revolving credit facility. The Company and the other borrowers also pay customary letter of credit issuance and other fees under the 2016 Credit Agreement. As of December 31, 2018, the Company's commitment fee rate was 0.35%.

As a result of the Company's 2016 Credit Agreement, \$3.6 million of deferred financing costs were capitalized in 2016 and will be amortized as interest expense over the respective debt instrument period, 5 years, using the effective interest method. In addition, the Company expensed \$1.9 million of lender fees associated with this transaction in 2016, which is included in loss on extinguishment of debt in the Consolidated Statements of Income.

Table of Contents

TEMPUR SEALY INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

The Company used the proceeds from the 2016 Credit Agreement to repay in full and terminate the 2012 Credit Agreement. The 2012 Credit Agreement initially provided for (i) a revolving credit facility of \$350.0 million, (ii) a Term A facility of \$550.0 million and (iii) a Term B facility of \$870.0 million. In conjunction with the repayment of all outstanding borrowings on the 2012 Credit Agreement, the Company expensed approximately \$11.0 million of deferred financing costs in 2016, which is included in loss on extinguishment of debt in the Consolidated Statements of Income.

Senior Notes

2026 Senior Notes

On May 24, 2016, Tempur Sealy International issued \$600.0 million aggregate principal amount of 5.500% 2026 Senior Notes in a private offering to qualified institutional buyers pursuant to Rule 144A of the Securities Act of 1933, as amended (the "Securities Act"), and to certain non-U.S. persons in accordance with Regulation S under the Securities Act. The 2026 Senior Notes were issued pursuant to an indenture, dated as of May 24, 2016 (the "2026 Indenture"), among Tempur Sealy International, certain subsidiaries of Tempur Sealy International as guarantors (the "Combined Guarantor Subsidiaries"), and The Bank of New York Mellon Trust Company, N.A., as trustee. The 2026 Senior Notes are general unsecured senior obligations of Tempur Sealy International and are guaranteed on a senior unsecured basis by the Combined Guarantor Subsidiaries. The 2026 Senior Notes mature on June 15, 2026, and interest is payable semi-annually in arrears on each June 15 and December 15, which began on December 15, 2016. The gross proceeds from the 2026 Senior Notes were used to refinance the \$375.0 million aggregate principal amount of 6.875% 2020 Senior Notes and to pay related fees and expenses, and the remaining funds were used for share repurchases and general corporate purposes.

Tempur Sealy International has the option to redeem all or a portion of the 2026 Senior Notes at any time on or after June 15, 2021. The initial redemption price is 102.750% of the principal amount, plus accrued and unpaid interest, if any. The redemption price will decline each year after 2021 until it becomes 100.0% of the principal amount beginning on June 15, 2024. In addition, Tempur Sealy International has the option at any time prior to June 15, 2021 to redeem some or all of the 2026 Senior Notes at 100.0% of the original principal amount plus a "make-whole" premium and accrued and unpaid interest, if any. Tempur Sealy International may also redeem up to 35.0% of the 2026 Senior Notes prior to June 15, 2019, under certain circumstances with the net cash proceeds from certain equity offerings, at 105.500% of the principal amount plus accrued and unpaid interest, if any. Tempur Sealy International may make such redemptions as described in the preceding sentence only if, after any such redemption, at least 65.0% of the original aggregate principal amount of the 2026 Senior Notes issued remains outstanding.

The 2026 Indenture restricts the ability of Tempur Sealy International and the ability of certain of its subsidiaries to, among other things: (i) incur, directly or indirectly, debt; (ii) make, directly or indirectly, certain investments and restricted payments; (iii) incur or suffer to exist, directly or indirectly, liens on its properties or assets; (iv) sell or otherwise dispose of assets, directly or indirectly; (v) create or otherwise cause or suffer to exist any consensual restriction on the right of certain of the subsidiaries of Tempur Sealy International to pay dividends or make any other distributions on or in respect of their capital stock; (vi) enter into transactions with affiliates; (vii) engage in sale-leaseback transactions; (viii) purchase or redeem capital stock or subordinated indebtedness; (ix) issue or sell stock of restricted subsidiaries; and (x) effect a consolidation or merger. These covenants are subject to a number of exceptions and qualifications.

In conjunction with the issuance and sale of the 2026 Senior Notes, Tempur Sealy International and the Combined Guarantor Subsidiaries agreed through a Registration Rights Agreement to exchange the 2026 Senior Notes for a new

issue of substantially identical senior notes registered under the Securities Act (the "Exchange Offer"). On October 18, 2016, Tempur Sealy International completed the Exchange Offer, with 100% of the outstanding notes tendered and received for new 2026 Senior Notes registered under the Securities Act.

As a result of the issuance of the 2026 Senior Notes, \$3.1 million of deferred financing costs were capitalized in 2016 and will be amortized as interest expense over the respective debt instrument period, 10 years, using the effective interest method. In addition, the Company expensed \$5.9 million of lender fees associated with this transaction in 2016, which is included in loss on extinguishment of debt in the Consolidated Statements of Income.

Table of Contents

TEMPUR SEALY INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

The Company used the proceeds from the 2026 Senior Notes to refinance the 2020 Senior Notes and to pay related fees and expenses. The 2020 Senior Notes were redeemed at a price equal to the principal amount thereof and the applicable "make-whole" premium, \$23.6 million, which is included in loss on extinguishment of debt in the Consolidated Statements of Income. In conjunction with the refinancing of the 2020 Senior Notes, the Company wrote off approximately \$4.8 million of deferred financing costs in the second quarter of 2016, which is included in loss on extinguishment of debt in the Consolidated Statements of Income.

2023 Senior Notes

On September 24, 2015, Tempur Sealy International issued \$450.0 million aggregate principal amount of 5.625% 2023 Senior Notes in a private offering to qualified institutional buyers pursuant to Rule 144A of the Securities Act, and to certain non-U.S. persons in accordance with Regulation S under the Securities Act. The 2023 Senior Notes were issued pursuant to an indenture, dated as of September 24, 2015 (the "2023 Indenture"), among Tempur Sealy International, the Combined Guarantor Subsidiaries (the Combined Guarantor Subsidiaries are the same under the 2026 Indenture, the 2023 Indenture and the 2020 Indenture), and The Bank of New York Mellon Trust Company, N.A., as trustee. The 2023 Senior Notes are general unsecured senior obligations of Tempur Sealy International and are guaranteed on a senior unsecured basis by the Combined Guarantor Subsidiaries. The 2023 Senior Notes mature on October 15, 2023, and interest is payable semi-annually in arrears on each April 15 and October 15, which began on April 15, 2016. The gross proceeds from the 2023 Senior Notes were used to refinance a portion of the term loan debt under the 2012 Credit Agreement and to pay related fees and expenses.

Since October 15, 2018, Tempur Sealy International has had the option to redeem all or a portion of the 2023 Senior Notes at any time. The initial redemption price is 104.219% of the principal amount, plus accrued and unpaid interest, if any. The redemption price will decline each year after 2018 until it becomes 100.0% of the principal amount beginning on October 15, 2021.

The 2023 Indenture restricts the ability of Tempur Sealy International and the ability of certain of its subsidiaries to, among other things: (i) incur, directly or indirectly, debt; (ii) make, directly or indirectly, certain investments and restricted payments; (iii) incur or suffer to exist, directly or indirectly, liens on its properties or assets; (iv) sell or otherwise dispose of, directly or indirectly, assets; (v) create or otherwise cause or suffer to exist any consensual restriction on the right of certain of the subsidiaries of Tempur Sealy International to pay dividends or make any other distributions on or in respect of their capital stock; (vi) enter into transactions with affiliates; (vii) engage in sale-leaseback transactions; (viii) purchase or redeem capital stock or subordinated indebtedness; (ix) issue or sell stock of restricted subsidiaries; and (x) effect a consolidation or merger. These covenants are subject to a number of exceptions and qualifications.

In conjunction with the issuance and sale of the 2023 Senior Notes, Tempur Sealy International and the Combined Guarantor Subsidiaries agreed through a Registration Rights Agreement to exchange the 2023 Senior Notes for a new issue of substantially identical senior notes registered under the Securities Act (the "2023 Exchange Offer"). On April 4, 2016, Tempur Sealy International completed the 2023 Exchange Offer, with 100% of the outstanding notes tendered and received for new 2023 Senior Notes registered under the Securities Act.

Securitized Debt

On April 12, 2017, Tempur Sealy International and certain of its subsidiaries entered into a securitization transaction with respect to certain accounts receivable due to and certain of the Company's subsidiaries (the "Accounts Receivable Securitization"). In connection with this transaction, Tempur Sealy International and its wholly-owned special purpose

subsidiary, Tempur Sealy Receivables, LLC, entered into a credit agreement that provides for revolving loans to be made from time to time in a maximum amount that varies over the course of the year based on the seasonality of the Company's accounts receivable and is subject to an overall limit of \$120.0 million. The Accounts Receivable Securitization matures on April 12, 2019.

The obligations of the Company and its relevant subsidiaries under the Accounts Receivable Securitization are secured by the accounts receivable and certain related rights and the facility agreements contain customary events of default. The accounts receivable continue to be owned by the Company and its subsidiaries and continue to be reflected as assets on the Company's Consolidated Balance Sheets and represent collateral up to the amount of the borrowings under this facility. Borrowings under this facility are classified as long-term debt within the Consolidated Balance Sheets based on the Company's ability and intent to refinance on a long-term basis as of December 31, 2018.

Table of ContentsTEMPUR SEALY INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

On April 2, 2018, the Company and its subsidiaries entered into an amendment to its Accounts Receivable Securitization that modified certain covenants and calculations. This amendment was designed to create more flexibility and to increase average availability on the line, while not changing the overall limit of maturity.

Fair Value

Financial instruments, although not recorded at fair value on a recurring basis, include cash and cash equivalents, accounts receivable, accounts payable, and the Company's debt obligations. The carrying value of cash and cash equivalents, accounts receivable and accounts payable approximate fair value using Level 1 inputs because of the short-term maturity of those instruments. Borrowings under the 2016 Credit Agreement and the securitized debt are at variable interest rates and accordingly their carrying amounts approximate fair value. The fair value of the following material financial instruments were based on Level 2 inputs estimated using discounted cash flows and market-based expectations for interest rates, credit risk, and the contractual terms of debt instruments. The fair values of these material financial instruments are as follows:

(in millions)	Fair Value	
	December 31, 2018	December 31, 2017
2023 Senior Notes	\$435.6	\$ 470.9
2026 Senior Notes	549.3	618.1

Capital Leases

The Company is party to capital leases as of December 31, 2018 and 2017. The approximate remaining life of the leases ranges from 1 to 14 years as of December 31, 2018, with several including an option to extend the lease term.

Deferred Financing Costs

The Company capitalizes costs associated with the issuance of debt and amortizes these costs as additional interest expense over the lives of the debt instruments using the effective interest method. These costs are recorded as deferred financing costs as a direct reduction from the carrying amount of the corresponding debt liability in the accompanying Consolidated Balance Sheets and the related amortization is included in interest expense, net in the accompanying Consolidated Statements of Income. Upon the prepayment of the related debt, the Company accelerates the recognition of an appropriate amount of the costs.

Future Obligations

As of December 31, 2018, the scheduled maturities of long-term debt outstanding, including capital lease obligations, for each of the next five years and thereafter are as follows:

(in millions)	
2019	\$56.1
2020	59.4
2021	442.2
2022	5.9
2023	455.3
Thereafter	634.9
Total	\$1,653.8

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

(9) Retirement Plans

401(k) Plan

The Company has a defined contribution plan ("the 401(k) Plan") whereby eligible employees may contribute up to 85.0% of their pay subject to certain limitations as defined by the 401(k) Plan. Employees are eligible to participate in the 401(k) Plan upon hire and are eligible to receive matching contributions upon six months of continuous employment with the Company. The 401(k) Plan provides a 100.0% match of the first 3.0% and 50.0% of the next 2.0% of eligible employee contributions. The match for union employees is based on the applicable collective bargaining arrangement. All matching contributions vest immediately. The Company incurred \$5.8 million, \$4.0 million and \$6.7 million of expenses associated with the 401(k) Plan for the years ended December 31, 2018, 2017 and 2016, respectively, which are included in the Consolidated Statements of Income.

Defined Benefit Pension Plans

The Company has a noncontributory, defined benefit pension plan covering current and former hourly employees at two of its active Sealy plants and ten previously closed Sealy U.S. facilities. Sealy Canada, Ltd. (a wholly-owned subsidiary of the Company) also sponsors a noncontributory, defined benefit pension plan covering hourly employees at one of its facilities (collectively, referred to as the "Plans"). The Plans provide retirement and survivorship benefits based on the employees' credited years of service. The Company's funding policy provides for contributions of an amount between the minimum required and maximum amount that can be deducted for federal income tax purposes.

The Plans' assets consist of investments in various common/collective trusts with equity investment strategies diversified across multiple industry sectors and company market capitalization within specific geographical investment strategies, fixed income common/collective trusts, which invest primarily in investment-grade and high-yield corporate bonds and U.S. treasury securities, as well as money market mutual funds. The fixed income investments are diversified as to ratings, maturities, industries and other factors. The Plans' assets contain no significant concentrations of risk related to individual securities or industry sectors. The Plans have no direct investment in the Company's common stock.

The long-term rate of return for the Plans is based on the weighted average of the Plans' investment allocation and the historical returns for those asset categories. Because future compensation levels are not a factor in these Plans' benefit formulas, the accumulated benefit obligation is equal to the projected benefit obligation as reported below. The discount rate is based on the returns on long-term bonds in the private sector and incorporates a long-term inflation rate. Summarized information for the Plans follows:

Expenses and Status

The Company recognizes the service cost component of net periodic pension cost within general, administrative and other expenses and all other components of net periodic pension cost are recognized within other income, net, in the accompanying Consolidated Statements of Income. Components of total net periodic pension cost for the years ended December 31 were as follows:

(in millions)	2018	2017	2016
Service cost	\$1.0	\$0.9	\$0.8
Interest cost	1.1	1.2	1.2
Expected return on assets	(1.5)	(1.5)	(1.3)
Amortization of prior service cost	0.1	0.1	—

Settlement loss	—	—	0.2
Net periodic pension cost	\$0.7	\$0.7	\$0.9

The other changes in plan assets and benefit obligations recognized in other comprehensive (loss) income for the years ended December 31 were:

73

Table of ContentsTEMPUR SEALY INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

(in millions)	2018	2017	2016
Net loss	\$0.6	\$0.4	\$1.5
Amortization of prior service cost	(0.1)	(0.1)	—
Amortization or settlement recognition of net loss	—	—	(0.2)
New prior service cost	0.1	0.5	—
Total recognized in other comprehensive (loss) income	\$0.6	\$0.8	\$1.3

The following assumptions, calculated on a weighted-average basis, were used to determine net periodic pension cost for the Company's Plans for the years ended December 31:

	2018	2017	2016
Discount rate ^(a)	3.58%	4.07%	4.27%
Expected long-term return on plan assets	6.25%	6.64%	6.71%

The discount rates used in 2018 to determine the expenses for the U.S. retirement plan and Canadian retirement (a) plan were 3.54% and 3.70%, respectively. The discount rates used in 2017 to determine the expenses for the U.S. retirement plan and Canadian retirement plan were 4.06% and 4.10%, respectively.

Obligations and Funded Status

The measurement date for the Company's Plans is December 31. The funded status of the Plans as of December 31 was as follows:

(in millions)	2018	2017
Change in Benefit Obligation:		
Projected benefit obligation at beginning of year	\$32.1	\$28.0
Service cost	1.0	0.9
Interest cost	1.1	1.2
Plan amendments	0.1	0.5
Actuarial (gain) loss	(3.0)	2.3
Benefits paid	(0.9)	(0.9)
Expenses paid	(0.1)	(0.1)
Foreign currency exchange rate changes	(0.3)	0.2
Projected benefit obligation at end of year	\$30.0	\$32.1
Change in Plan Assets:		
Fair value of plan assets at beginning of year	\$25.3	\$21.7
Actual return on plan assets	(2.1)	3.5
Employer contribution	0.3	0.9
Benefits paid	(0.9)	(0.9)
Expenses paid	(0.1)	(0.1)
Foreign currency exchange rate changes	(0.3)	0.2
Fair value of plan assets at end of year	\$22.2	\$25.3
Funded status	\$(7.8)	\$(6.8)

The Company's defined benefit pension plan for U.S. Sealy employees is underfunded. As of December 31, 2018, the projected benefit obligation and fair value of plan assets were \$26.5 million and \$18.4 million, respectively. As of December 31, 2017, the projected benefit obligation and fair value of plan assets were \$28.3 million and \$21.0 million, respectively. As of December 31, 2018, the projected benefit obligation and fair value of plan assets for the Sealy Canada Ltd. pension plan were \$3.5 million and \$3.8 million, respectively. As of December 31, 2017, the projected benefit obligation and fair value of plan assets for the Sealy Canada Ltd. pension plan were \$3.8 million and

\$4.3 million, respectively.

The accumulated benefit obligation for all pension plans was \$30.0 million at December 31, 2018 and \$32.1 million at December 31, 2017.

74

Table of ContentsTEMPUR SEALY INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

The following table represents amounts recorded in the Consolidated Balance Sheets:

(in millions)	December	
	2018	2017
Amounts recognized in the Consolidated Balance Sheets:		
Non-current benefit liability	\$8.1	\$7.3
Non-current benefit asset	0.3	0.5

The following assumption, calculated on a weighted-average basis, was used to determine benefit obligations for the Company's defined benefit pension plans as of December 31:

	2018	2017
Discount rate ^(a)	4.13 %	3.56 %

The discount rates used in 2018 to determine the expenses for the U.S. retirement plan and Canadian retirement (a) plan were 4.16% and 3.90%, respectively. The discount rates used in 2017 to determine the benefit obligations for the U.S. and Canadian defined benefit pension plans were 3.54% and 3.70%, respectively.

No material amounts are expected to be reclassified from AOCL to be recognized as components of net income during 2019.

Plan Contributions and Expected Benefit Payments

During 2019, the Company expects to contribute \$1.4 million to the Company's Plans from available cash and cash equivalents.

The following table presents estimated future benefit payments:

(in millions)	
Fiscal 2019	\$1.0
Fiscal 2020	1.0

Pension Plan Asset Information

Investment Objective and Strategies

The Company's investment objectives are to minimize the volatility of the value of the Company's pension assets relative to pension liabilities and to ensure assets are sufficient to pay plan benefits. Target and actual asset allocations are as follows:

	2018	2018
	Target	Actual
Common/collective trust consisting primarily of:		
Equity securities	60.0 %	79.5 %
Debt securities	40.0 %	20.0 %
Other	— %	0.5 %
Total plan assets	100.0 %	100.0 %

Investment strategies and policies reflect a balance of risk-reducing and return-seeking considerations. The objective of minimizing the volatility of assets relative to liabilities is addressed primarily through asset diversification. Assets are broadly diversified across many asset classes to achieve risk-adjusted returns that, in total, lower asset volatility relative to liabilities. The Company's policy to rebalance the Company's investment regularly ensures that actual allocations are in line with target allocations as appropriate.

75

Table of Contents

TEMPUR SEALY INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

Strategies to address the goal of ensuring sufficient assets to pay benefits include target allocations to a broad array of asset classes that provide return, diversification and liquidity.

The plan investment fiduciaries are responsible for setting asset allocation targets, and monitoring asset allocation and investment performance. The Company's pension investment manager has discretion to manage assets to ensure compliance with the asset allocations approved by the plan fiduciaries.

Significant Concentrations of Risk

Significant concentrations of risk in the Company's plan assets relate to equity, interest rate, and operating risk. In order to ensure assets are sufficient to pay benefits, a portion of plan assets is allocated to equity investments that are expected, over time, to earn higher returns with more volatility than fixed income investments which more closely match pension liabilities. Within the common/collective trusts, the plan assets contain no significant concentrations of risk related to individual securities or industry sectors.

In order to minimize asset volatility relative to the liabilities, a portion of the plan assets are allocated to fixed income investments that are exposed to interest rate risk. Rate increases will generally result in a decline in fixed income assets while reducing the present value of the liabilities. Conversely, rate decreases will increase fixed income assets, partially offsetting the related increase in the liabilities.

Operating risks primarily include the risks of inadequate diversification and insufficient oversight. To mitigate this risk, investments are diversified across and within asset classes in support of investment objectives. Policies and practices to address operating risks include ongoing oversight, plan and asset class investment guidelines, and periodic reviews against these guidelines to ensure adherence.

Expected Long-Term Return on Plan Assets

The expected long-term return assumption at December 31, 2018 was 6.50% for the defined benefit pension plan for U.S. Sealy employees and 5.50% for the defined benefit pension plan for Sealy Canada, Ltd. The expected long-term return assumption is based on historical and projected rates of return for current and planned asset classes in the plan's investment portfolio. The assumption considers various sources, primarily inputs from advisors for long-term capital market returns, inflation, bond yields, and other variables, adjusted for specific aspects of the Company's investment strategy by plan.

The investments in plan assets primarily consist of common collective trusts and money market funds. Investments in common collective trusts and money market funds are valued at the net asset value ("NAV") per share or unit multiplied by the number of shares or units held as of the measurement date. The determination of NAV for the common/collective trusts includes market pricing of the underlying assets as well as broker quotes and other valuation techniques that represent fair value as determined by the respective administrator of the common/collective trust. Management has determined that the NAV is an appropriate estimate of the fair value of the common collective trusts at December 31, 2018 and 2017, based on the fact that the common/collective trusts are audited and accounted for at fair value by the administrators of the respective common/collective trusts. The methods described above may produce a fair value that may not be indicative of net realizable value or reflective of future fair value. Furthermore, while the Company believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the Consolidated Balance Sheet dates.

Table of ContentsTEMPUR SEALY INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

The fair value of the Company's plan assets, all valued at NAV, at December 31 by asset category was as follows:

(in millions)	2018	2017
Asset Category		
Common/collective trust		
U.S. equity	\$ 14.1	\$ 15.1
International equity	3.6	4.2
Total equity based funds	17.7	19.3
Common/collective trust - fixed income	4.4	5.9
Money market funds	0.1	0.1
Total	\$22.2	\$25.3

Multi Employer Benefit Plans

Approximately 25.5% of the Company's domestic employees are represented by various labor unions with separate collective bargaining agreements. Hourly employees working at nine of the Company's domestic manufacturing facilities are covered by union sponsored retirement plans. Further, employees working at three of the Company's domestic manufacturing facilities are covered by union sponsored health and welfare plans. These plans cover both active employees and retirees. Through the health and welfare plans, employees receive medical, dental, vision, prescription and disability coverage. The Company's cost associated with these plans consists of periodic contributions to these plans based upon employee participation. The expense recognized by the Company for such contributions for the years ended December 31 was follows:

(in millions)	2018	2017	2016
Multi employer retirement plan expense	\$3.9	\$4.3	\$4.9
Multi employer health and welfare plan expense	3.6	3.5	2.8

The risks of participating in multi employer pension plans are different from the risks of sponsoring single employer pension plans in the following respects: 1) contributions to the multi employer plan by one employer may be used to provide benefits to employees of other participating employers; 2) if a participating employer ceases its contributions to the plan, the unfunded obligations of the plan allocable to the withdrawing employer may be borne by the remaining participating employers; and 3) if the Company withdraws from the multi employer pension plans in which it participates, the Company may be required to pay those plans an amount based on its allocable share of the underfunded status of the plan.

The following table presents information regarding the multi employer pension plans that are significant to the Company for the years ended December 31, 2018 and 2017, respectively:

Pension Fund	EIN/Pension Plan Number	Date of Plan Year-End	Pension Protection Act/ERISA Status	Contributions of the Company in 2018	Surcharge Imposed ⁽³⁾	Expiration Date of Collective Bargaining Agreement	Year Contributions to Plan Exceeded More than 5 Percent of Total Contributions
(in millions)							
United Furniture	13-5511877-001	2/28/18	Reimplemented	\$ 0.7	No	2020	2016, 2017, 2018

Workers Pension Fund A ⁽⁴⁾ Pension Plan of the National Retirement Fund Central States, Southeast & Southwest Areas Pension Plan	13-6130178-001	12/31/17	Reimplemented	\$ 0.7	Yes, 10.0%	2019	N/A
	36-6044243-001	12/31/17	Reimplemented	\$ 0.8	Yes, 10.0%	2021	N/A

Pension Fund	EIN/Pension Plan Number	Date of Plan Year-End	Pension Protection Act FIP/RP Status Pending/Implemented ⁽²⁾ Zone Status ⁽¹⁾ 2017	Contributions of the Company in 2017	Surcharge Imposed ⁽³⁾	Expiration Date of Collective Bargaining Agreement	Year Contributions to Plan Exceeded More than 5 Percent of Total Contributions
(in millions) United Furniture Workers Pension Fund A ⁽⁴⁾	13-5511877-001	2/28/17	Redeimplemented	\$ 1.1	No	2020	2015, 2016, 2017
Pension Plan of the National Retirement Fund Central States, Southeast & Southwest Areas Pension Plan	13-6130178-001	12/31/16	Redeimplemented	\$ 0.8	Yes, 10.0%	2019	N/A
	36-6044243-001	12/31/16	Redeimplemented	\$ 0.7	Yes, 10.0%	2018	N/A

The Pension Protection Act of 2006 ranks the funded status of multi-employer pension plans depending upon a plan's current and projected funding. A plan is in the Red Zone (Critical) if it has a current funded percentage of less than 65.0%. A plan is in the Yellow Zone (Endangered) if it has a current funded percentage of less than 80.0%, or projects a credit balance deficit within seven years. A plan is in the Green Zone (Healthy) if it has a current funded percentage greater than 80.0% and does not have a projected credit balance deficit within seven years. The zone status is based on the plan's year end rather than the Company's. The zone status listed for each plan is based on information that the Company received from that plan and is certified by that plan's actuary for the most recent year available.

(1) Funding Improvement Plan or Rehabilitation Plan as defined in the Employee Retirement Income Security Act of 1974 has been implemented or is pending.

(2) Indicates whether the Company paid a surcharge to the plan in the most current year due to funding shortfalls and the amount of the surcharge.

(3) The Company represented more than 5.0% of the total contributions for the most recent plan year available. For year ended December 31, 2016, the Company contributed \$1.2 million to the plan.

(10) Stockholders' Equity

(a) Common Stock. Tempur Sealy International has 300.0 million authorized shares of common stock with \$0.01 per share par value and 0.01 million authorized shares of preferred stock with \$0.01 per share par value. The holders of the common stock are entitled to one vote for each share held of record on all matters submitted to a vote of stockholders. Subject to preferences that may be applicable to any outstanding preferred stock, holders of common stock are entitled to receive ratably such dividends as may be declared from time to time by the Board of Directors out of funds legally available for that purpose. In the event of liquidation, dissolution or winding up, the holders of common stock are entitled to share ratably in all assets remaining after payment of liabilities, subject to prior distribution rights of preferred stock, if any, then outstanding.

The Board of Directors is authorized, subject to any limitations prescribed by law, without further vote or action by the stockholders, to issue from time to time shares of preferred stock in one or more series. Each such series of preferred stock will have such number of shares, designations, preferences, voting powers, qualifications, and special or relative rights or privileges as determined by the Board of Directors, which may include, among others, dividend rights, voting rights, redemption and sinking fund provisions, liquidation preferences, conversion rights and preemptive rights.

(b) Treasury Stock. As of December 31, 2018, the Company had approximately \$226.9 million remaining under an existing share repurchase program initially authorized by the Board of Directors in 2016. The Company did not repurchase any shares under the program during the year ended December 31, 2018. For the years ended December 31, 2017 and 2016, the Company repurchased 0.6 million and 8.7 million shares for approximately \$40.1 million and \$533.0 million, respectively, under the program.

In addition, the Company acquired 0.1 million, 0.1 million, and 0.0 million shares upon the vesting of certain performance restricted stock units ("PRSUs"), which were withheld to satisfy tax withholding obligations during the years ended December 31, 2018, 2017, and 2016, respectively. The shares withheld were valued at the closing price of the stock on the New York Stock Exchange on the vesting date or first business day thereafter, resulting in approximately \$4.6 million, \$4.8 million, and 2.0 million in treasury stock acquired during the years ended December 31, 2018, 2017, and 2016, respectively.

Rebates	11.6	11.4
Other	84.1	72.5
	\$ 359.2	\$ 222.3

(12) Stock-based Compensation

Tempur Sealy International has two stock-based compensation plans which provide for grants of non-qualified and incentive stock options, stock appreciation rights, restricted stock and stock unit awards, performance shares, stock grants and performance based awards to employees, non-employee directors, consultants and Company advisors. The plan under which equity awards may be granted in the future is the Amended and Restated 2013 Equity Incentive Plan (the "2013 Plan"). It is the policy of the Company to issue stock out of treasury shares upon issuance or exercise of share-based awards. The Company believes that awards and purchases made under these plans better align the interests of the plan participants with those of its stockholders.

On May 11, 2017, the Company's stockholders approved the amendment and restatement of the original 2013 Plan. The 2013 Plan provides for grants of stock options to purchase shares of common stock to employees and directors of the Company. The 2013 Plan may be administered by the Compensation Committee of the Board of Directors, by the Board of Directors directly, or, in certain cases, by an executive officer or officers of the Company designated by the Compensation Committee. The shares issued or to be issued under the 2013 Plan may be either authorized but unissued shares of the Company's common stock or shares held by the Company in its treasury. Tempur Sealy International may issue a maximum of 8.7 million shares of common stock under the 2013 Plan, subject to certain adjustment provisions.

The Amended and Restated 2003 Equity Incentive Plan, as amended (the "2003 Plan"), was administered by the Compensation Committee of the Board of Directors, which, together with the Board of Directors, had the exclusive authority to administer the 2003 Plan, including the power to determine eligibility to receive awards, the types and number of shares of stock subject to the awards, the price and timing of awards and the acceleration or waiver of any vesting and performance of forfeiture restrictions, in each case subject to the terms of the 2003 Plan. Any of the Company's employees, non-employee directors, consultants and Company advisors, as determined by the Compensation Committee, were eligible to be selected to participate in the 2003 Plan. Tempur Sealy International allowed a maximum of 11.5 million shares of its common stock under the 2003 Plan to be issued. In May 2013, the Company's Board of Directors adopted a resolution that prohibited further grants under the 2003 Plan.

In 2010, the Board of Directors approved the terms of a Long-Term Incentive Plan established under the 2003 Plan. In 2013, the Board of Directors approved the terms of another Long-Term Incentive Plan established under the 2013

Plan. Awards under both Long-Term Incentive Plans have typically consisted primarily of a mix of stock options, RSUs and PRSUs. Shares with respect to the PRSUs will be granted and vest following the end of the applicable performance period and achievement of applicable performance metrics as determined by the Compensation Committee of the Board of Directors.

The Company's stock-based compensation expense for the year ended December 31, 2018 included PRSUs, stock options, RSUs and DSUs. A summary of the Company's stock-based compensation expense is presented below:

80

TEMPUR SEALY INTERNATIONAL, INC. AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

(in millions)	Year Ended		
	December 31,		
	2018	2017	2016
PRSU expense (benefit)	\$2.5	\$(6.5)	\$3.9
Stock option expense	6.7	7.1	5.3
RSU/DSU expense	15.6	12.7	7.0
Total stock-based compensation expense	\$24.8	\$13.3	\$16.2

The Company granted PRSUs during the years ended December 31, 2018, 2017 and 2016. Actual payout under the PRSUs is dependent upon the achievement of certain financial goals. The Company recorded a benefit in the accompanying Consolidated Statements of Income of \$9.3 million and \$3.8 million for the years ended December 31, 2017 and 2016, respectively, after the change in estimate to reduce accumulated performance based stock compensation amortization to actual cost based on updated projected or final financial results.

Performance Restricted Stock Units

A summary of the Company's PRSU activity and related information for the years ended December 31, 2018 and 2017 is presented below:

(shares in millions)	Shares	Weighted
		Average
		Date Fair
		Value
Awards unvested at December 31, 2016	1.7	\$ 68.02
Granted	1.6	59.64
Vested	(0.2)	59.39
Forfeited	(0.4)	65.48
Awards unvested at December 31, 2017	2.7	64.13
Granted	0.2	51.72
Vested	(0.1)	68.57
Forfeited	(0.8)	68.07
Awards unvested at December 31, 2018	2.0	\$ 61.07

During 2017, the Company granted executive officers and certain members of management PRSUs if the Company achieves a certain level of adjusted earnings before interest, tax, depreciation and amortization ("Adjusted EBITDA") during four consecutive fiscal quarters as described below (the "2019 Aspirational Plan PRSUs"). Adjusted EBITDA is defined as the Company's "Consolidated EBITDA" as such term is defined in the Company's 2016 Credit Agreement. The 2019 Aspirational Plan PRSUs will vest based on the highest Adjusted EBITDA in any four consecutive fiscal quarter period ending between (and including) March 31, 2018 and December 31, 2019 (the "First Designated Period"). If the highest Adjusted EBITDA in the First Designated Period is \$600.0 million, 66% will vest; if the highest Adjusted EBITDA equals or exceeds \$650.0 million, then 100% will vest; if the highest Adjusted EBITDA is between \$600.0 million and \$650.0 million then a pro rata portion will vest; and if the highest Adjusted EBITDA is less than \$600.0 million then one-half of the 2019 Aspirational Plan PRSUs will no longer be available for vesting based on performance and the remaining one-half will remain available for vesting based on the highest Adjusted EBITDA in any four consecutive fiscal quarter period ending between (and including) March 31, 2020 and December 31, 2020 (the "Second Designated Period"). If the highest Adjusted EBITDA in the Second Designated Period is \$600.0 million then 66% of the remaining 2019 Aspirational Plan PRSUs will vest; if the Adjusted EBITDA

is \$650.0 million or more 100% will vest; if Adjusted EBITDA is between \$600.0 million and \$650.0 million then a pro rata portion will vest; and if Adjusted EBITDA is below \$600.0 million then all of the remaining 2019 Aspirational Plan PRSUs will be forfeited.

The Company did not record any stock-based compensation expense related to the 2019 Aspirational Plan PRSUs during the year ended December 31, 2018, as it is not considered probable that the Company will achieve the specified performance target for either the First Designated Period or Second Designated Period. The Company will continue to evaluate the probability of achieving the performance condition in future periods and record the appropriate expense if necessary. At December 31, 2018, the Company has 1.6 million of these 2019 Aspirational PRSUs outstanding that will fully vest if the Company achieves more than \$650.0 million of Adjusted EBITDA for 2019. Based on the price of the Company's common stock on the grant date, the total unrecognized compensation expense related to this award if the performance target is met for the First Designated Period is \$93.6 million, which would be expensed over the remaining service period if achievement of the performance condition becomes probable.

Table of Contents

TEMPUR SEALY INTERNATIONAL, INC. AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

In March 2018, the Compensation Committee of the Board of Directors formally determined that the Company did not have more than \$650.0 million of Adjusted EBITDA for 2017 ("the 2017 Aspirational Plan PRSUs"). As a result, approximately two-thirds of the PRSUs previously granted with a performance period for 2017 ("2017 Aspirational PRSUs") were forfeited as of this date. At December 31, 2018, the Company has 0.3 million of these 2017 Aspirational PRSUs still outstanding that will vest if the Company achieves more than \$650.0 million of Adjusted EBITDA for 2018. The Company expects that in early March 2019 the Compensation Committee of the Board of Directors will formally determine that the Company did not have more than \$650.0 million in Adjusted EBITDA for 2018. As a result, the remaining one-third of the total 2017 Aspirational Plan PRSUs will be forfeit as of this date. The Company did not record any stock-based compensation expense related to the 2017 Aspirational Plan PRSUs during the years ended December 31, 2018 and 2017, as it was not considered probable that the Company will achieve the specified performance target as of December 31, 2018. Based on the price of the Company's common stock on the grant date, the total unrecognized compensation expense related to this award if the performance target was met for 2018 is \$24.6 million, which would have been expensed over the remaining service period if achievement of the performance condition became probable.

Stock Options

The Company uses the Black-Scholes option-pricing model to calculate the fair value of stock options granted. During the year ended December 31, 2016, no stock options were granted. The assumptions used in the Black-Scholes option-pricing model for the years ended December 31, 2018, 2017 and 2016 are set forth in the following table. Expected volatility is based on the unbiased standard deviation of Tempur Sealy International's common stock over the option term. The expected life of the options represents the period of time that the Company expects the options granted to be outstanding. The risk-free rate is based on the U.S. Treasury yield curve in effect at the time of the grant of the option for the expected term of the instrument. The dividend yield reflects an estimate of dividend payouts over the term of the award. During 2017, the Company adopted a change in accounting policy to recognize forfeitures of awards as they occur instead of estimating potential forfeitures. Historically, the Company estimated the number of awards expected to be forfeited and adjusted the estimate when it was no longer probable that employees would fulfill their service conditions. The Company uses historical data to determine these assumptions.

	Year Ended December 31,		
	2018	2017	2016
Expected volatility range of stock	39.8% - 40.1%	37.4% - 40.8%	N/A
Expected life of option, range in years	5	5	N/A
Risk-free interest range rate	2.2% - 2.8%	1.8% - 1.9%	N/A
Expected dividend yield on stock	—%	—%	N/A

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

Excluding any potential compensation expense related to the 2017 Aspirational Plan PRSUs and 2019 Aspirational Plan PRSUs discussed above, a summary of total unrecognized stock-based compensation expense based on current performance estimates related to stock options, DSUs, RSUs and PRSUs for the year ended December 31, 2018 is presented below:

(in millions, except years)	December 31, Weighted Average Remaining Vesting Period	
	2018	(Years)
Unrecognized stock option expense	\$ 11.5	2.42
Unrecognized DSU/RSU expense	29.6	2.46
Unrecognized PRSU expense	3.4	2.65
Total unrecognized stock-based compensation expense	\$ 44.5	2.46

(13) Commitments and Contingencies

(a) Lease Commitments. The Company has various operating leases that call for annual rental payments due in equal monthly installments and a lease with a rent free occupancy period. The Company's policy is to recognize expense for lease payment, including those with escalating provisions and rent free periods, on a straight-line basis over the lease term. Operating lease expenses were \$56.9 million, \$41.6 million, and \$33.5 million for the years ended December 31, 2018, 2017 and 2016, respectively.

Future minimum lease payments at December 31, 2018 under these non-cancelable leases are as follows:
(in millions)

Year Ended December 31,	
2019	\$49.4
2020	40.1
2021	34.8
2022	28.7
2023	22.1
Thereafter	60.9
	\$236.0

The Company has the option to renew certain plant operating leases, with the longest renewal period extending through 2043. Certain of the operating leases provide for increased rent through increases in general price levels. The Company recognizes rent expense in these situations on a straight-line basis over the lease term.

(b) David Buehring, Individually and on Behalf of All Others Similarly Situated v. Tempur Sealy International, Inc., Scott L. Thompson, and Barry A. Hytinen, filed March 24, 2017.

On March 24, 2017, a suit was filed against Tempur Sealy International, Inc. and two of its officers in the U.S. District Court for the Southern District of New York, purportedly on behalf of a proposed class of stockholders who purchased Tempur Sealy common stock between July 28, 2016 and January 27, 2017. The complaint alleges that the Company made materially false and misleading statements regarding its then existing and future financial prospects, including those with one of its retailers, Mattress Firm, allegedly in violation of Sections 10(b) and 20(a) of the Securities Exchange Act of 1934. The Company does not believe the claims have merit and intends to vigorously defend against these claims. A Motion to Dismiss the case was filed by the Company on October 5, 2017. The plaintiffs filed their opposition to the Motion to Dismiss on November 20, 2017, and the Company filed its reply on December 21, 2017. The case is in the early stages of litigation. As a result, the outcome of the case is unclear and the Company is unable

to reasonably estimate the possible loss or range of loss, if any. Accordingly, the Company can give no assurance that this matter will not have a material adverse effect on the Company's financial position or results of operations.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

(c) Myla Gardner v. Scott L. Thompson, Barry A. Hytinen, Evelyn S. Dilsaver, John A. Heil, Jon L. Luther, Usman Nabi, Richard W. Neu, Robert B. Trussell, Jr. and Tempur Sealy International, Inc., filed July 10, 2017; Joseph L. Doherty v. Scott L. Thompson, Barry A. Hytinen, Evelyn S. Dilsaver, John A. Heil, Jon L. Luther, Usman Nabi, Richard W. Neu, Robert B. Trussell, Jr. and Tempur Sealy International, Inc., filed July 20, 2017; and Paul Onesti v. Scott L. Thompson, Barry A. Hytinen, Evelyn S. Dilsaver, John A. Heil, Jon L. Luther, Usman Nabi, Richard W. Neu, Robert B. Trussell, Jr. and Tempur Sealy International, Inc., filed July 21, 2017.

Three putative shareholder derivative suits were filed against the Company, each member of its Board of Directors and two of its officers in July 2017. Two suits were filed in the Fayette County Circuit Court on July 10, 2017 and July 14, 2017, respectively, and the third was filed in the U.S. District Court for the Eastern District of Kentucky on July 21, 2017. Each complaint alleges that the Board of Directors and officers caused the Company to make materially false and misleading statements regarding its business and financial prospects, including those with one of its retailers, Mattress Firm, which was a violation of the fiduciary duties they owed to the Company. The Company does not believe any of the suits have merit and intends to vigorously defend against the claims in each case. The Plaintiffs in each of the cases have agreed to stay their respective actions until after a decision is rendered on the Motion to Dismiss in the Buehring action noted above. These cases are in the early stages of litigation, and as a result the outcome of each case is unclear, so the Company is unable to reasonably estimate the possible loss, or range of loss, if any.

(d) Mattress Firm, Inc. v. Tempur-Pedic North America, LLC and Sealy Mattress Company, filed March 30, 2017 and a related matter.

On March 30, 2017, a suit was filed against Tempur-Pedic North America, LLC and Sealy Mattress Company (two wholly-owned subsidiaries of the Company) in the District Court of Harris County, Texas (the "Texas State Court Case") by Mattress Firm. The complaint alleged breach of contract and tortious interference and sought a declaratory judgment with respect to the interpretation of its agreements with the Company.

On April 7, 2017, the Company's subsidiaries named above, among others, filed suit against Mattress Firm in the U.S. District Court for the Southern District of Texas, Houston Division (the "Federal Court Case"), seeking injunctive relief and damages for trademark infringement, unfair competition and trademark dilution in violation of the Lanham Act, and breach of contract and other state law violations. The complaint alleged that Mattress Firm violated the parties' transition agreements dated January 30, 2017, and consequently, federal and state law, by its use of the Company's trademarks after April 3, 2017. On April 28, 2017, the complaint was amended to add a claim by Sealy Mattress Company for nonpayment by Mattress Firm for products sold and delivered. On May 23, 2017, the complaint was further amended to add allegations that Mattress Firm continued to use the Company's trade names and trademarks on its website and in advertising in an inappropriate manner. On July 11, 2017, the Court in the Federal Court Case issued a preliminary injunction prohibiting Mattress Firm from using the Company's names and marks in such manner. The complaint was further amended by the Company on July 31, 2017 and December 7, 2017 to add additional claims against Mattress Firm.

The discovery period in the Texas State Court case was extended, and the trial date initially set for September 2018 was reset for early 2019. Discovery was proceeding in the case until Mattress Firm's bankruptcy filing under Chapter 11 of the Bankruptcy Code on October 5, 2018, which stayed all Mattress Firm litigation.

In the Federal Court Case, discovery was completed and motions for summary judgment on certain claims filed by both parties in early 2018 were ruled on by the Court during June and July 2018. A trial date was set for October 10, 2018, but all Mattress Firm litigation was stayed on October 5, 2018 when Mattress Firm filed for bankruptcy. The Federal Court Case recommenced in November 2018 following Mattress Firm's exit from bankruptcy proceedings. On January 11, 2019, the parties agreed to a joint motion for a 30-day stay of the Federal Court Case to allow the parties the opportunity to discuss a global settlement of all litigation between them. Effective February 11, 2019, the parties agreed to settle all such litigation, including, but not limited to, the Texas State Court Case and the Federal Court Case, in consideration of full mutual releases of all claims. The parties remain subject to certain remaining obligations that were negotiated under their prior commercial agreements.

(e) Other. The Company is involved in various other legal proceedings incidental to the operations of its business. The Company believes that the outcome of all such other pending legal proceedings in the aggregate will not have a material adverse effect on its business, financial condition, liquidity, or operating results.

Table of ContentsTEMPUR SEALY INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

(14) Income Taxes

On December 22, 2017, the Tax Cuts and Jobs Act of 2017 (the "Act") was signed into law, making significant changes to U.S. tax law. Changes include, but are not limited to, a corporate income tax rate decrease from 35% to 21% effective for tax years beginning after December 31, 2017, the transition of U.S. international taxation from a worldwide tax system to a territorial system, and a one-time transition tax on the mandatory deemed repatriation of cumulative foreign earnings as of December 31, 2017. In accordance with the Act, the Company recorded an income tax benefit of \$23.8 million in the fourth quarter of 2017, the period in which the legislation was enacted. The total benefit included a tax benefit of \$69.7 million related to the remeasurement of certain deferred tax assets and liabilities net of \$45.9 million in additional income tax expense related to the transition tax on foreign earnings. Additionally, Staff Accounting Bulletin No. 118 ("SAB 118") was issued to address the application of U.S. GAAP in situations when a registrant does not have the necessary information available, prepared, or analyzed (including computations) in reasonable detail to complete the accounting for certain income tax effects of the Act. December 22, 2018 marked the end of the measurement period for purposes of SAB 118. As such, the Company has completed its analysis based on subsequent guidance issued with respect to the Act currently available which resulted in an additional SAB 118 tax benefit of \$6.8 million in 2018 related to the finalization of the Company's transition tax obligation.

The following sets forth the amount of income before income taxes attributable to each of the Company's geographies for the years ended December 31, 2018, 2017 and 2016:

(in millions)	Year Ended December 31,		
	2018	2017	2016
Income before income taxes:			
United States	\$59.2	\$97.2	\$179.0
Rest of the world	105.8	118.2	104.6
	\$165.0	\$215.4	\$283.6

The Company's effective income tax provision differs from the amount calculated using the statutory U.S. federal income tax rate, principally due to the following:

(dollars in millions)	Year Ended December 31,								
	2018			2017			2016		
	Amount	Percentage of Income	%	Amount	Percentage of Income	%	Amount	Percentage of Income	%

86

Table of ContentsTEMPUR SEALY INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For 2018, Subpart F income includes Global Intangible Low-Taxed Income, or "GILTI" as well as certain sales made by foreign subsidiaries outside their respective countries of incorporation and taxable to Tempur Sealy International as if earned directly by Tempur Sealy International. The Company recognizes GILTI in the period in which such tax arises. For years prior to 2018, subpart F income represents interest and royalties earned by a foreign subsidiary as well as sales made by certain foreign subsidiaries outside of their country of incorporation and is taxable to Tempur Sealy International as if earned directly by Tempur Sealy International. The Transition Tax represents taxes on certain foreign sourced earnings and profits that were previously tax deferred.

The income tax provision consisted of the following:

(in millions)	Year Ended December		
	2018	2017	2016
Current provision			
Federal	\$(14.6)	\$73.5	\$73.5
State	1.1	3.1	4.6
Foreign	57.1	28.3	39.3
Total current	\$43.6	\$104.9	\$117.4
Deferred provision			
Federal	\$11.4	\$(67.7)	\$(21.4)
State	(4.5)	7.6	1.6
Foreign	(0.9)	(1.0)	(11.3)
Total deferred	6.0	(61.1)	(31.1)
Total income tax provision	\$49.6	\$43.8	\$86.3

The income tax provision includes federal, state, and foreign income taxes currently payable and those deferred or prepaid because of temporary differences between financial statement and tax bases of assets and liabilities. The Company records income taxes under the liability method. Under this method, deferred income taxes are recognized for the estimated future tax effects of differences between the tax bases of assets and liabilities and their financial reporting amounts based on enacted tax laws. The amount provided for deferred income taxes reflects that impact of the revaluation of the Company's deferred income tax assets and liabilities required as the result of the change in the U.S. federal and state income tax rates, as discussed above.

The net deferred tax assets and liabilities recognized in the accompanying Consolidated Balance Sheets, determined using the income tax rate applicable to each period, consist of the following:

(in millions)	December 31,	
	2018	2017
Deferred tax assets:		
Stock-based compensation	\$12.8	\$10.6
Accrued expenses and other	49.1	36.3
Net operating losses, foreign tax credits and other tax attribute carryforwards	56.1	92.9
Inventories	6.0	6.2
Transaction costs	13.5	13.4
Property, plant and equipment	3.6	2.8
Total deferred tax assets	141.1	162.2
Valuation allowances	(43.1)	(55.1)
Total net deferred tax assets	\$98.0	\$107.1
Deferred tax liabilities:		

Edgar Filing: TEMPUR SEALY INTERNATIONAL, INC. - Form 10-K

Intangible assets	\$(156.8)	\$(162.1)
Property, plant and equipment	(30.3)	(29.5)
Accrued expenses and other	(5.8)	(6.4)
Total deferred tax liabilities	(192.9)	(198.0)
Net deferred tax liabilities	\$(94.9)	\$(90.9)

87

Table of ContentsTEMPUR SEALY INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

No additional income taxes have been provided for any remaining undistributed foreign earnings not subject to the Transition Tax, or any additional outside basis differences inherent in these entities, as these amounts continue to be indefinitely reinvested in foreign operations. At December 31, 2018, the Company's tax basis in its top tier foreign subsidiary exceeded the Company's book basis in this subsidiary in the hands of the top tier foreign subsidiary's U.S. shareholder. The Company has not recorded a deferred tax asset on such excess tax basis as it is not apparent that the excess tax basis will reverse in the foreseeable future. As it relates to the book to tax basis difference with respect to the stock of each of the Company's lower tier foreign subsidiaries, as a general matter, the book basis exceeds the tax basis in the hands of such foreign subsidiaries' shareholders. By operation of the tax laws of the various countries in which these subsidiaries are domiciled, earnings of lower tier foreign subsidiaries are not subject to tax, in all material respects, when distributed to a foreign shareholder. It is the Company's intent that the earnings of each lower tier foreign subsidiary, with the exception of its Danish subsidiary and one of its Canadian subsidiaries, will be permanently reinvested in each such foreign subsidiaries' own operations. As it relates to the Danish subsidiary, its earnings may be distributed without any income tax impact. Thus, no tax is provided for with respect to the book to tax basis difference of its stock. With respect to the Canadian subsidiary, Canadian income tax withholding applies to any distribution it makes to its foreign parent company. At December 31, 2018, the Company has concluded that the Canadian subsidiary does not have material accumulated earnings in excess of its operating needs and as such no material Canadian withholding tax has been accrued.

The Company has the following gross income tax attributes available at December 31, 2018 and 2017, respectively:

(in millions)	2018	2017
State net operating losses ("SNOLs")	\$355.7	\$133.9
U.S. federal foreign tax credits ("FTCs")	12.2	12.2
U.S. state income tax credits ("SITCs")	8.0	8.1
Foreign net operating losses ("FNOLs")	57.0	33.1
Charitable contribution carryover ("CCCs")	39.6	18.0
Interest limitation carryover ("ILC")	10.6	—

The SNOLs, FTCs, SITCs, FNOLs and CCCs generally expire in 2021, 2023, 2023, 2023 and 2020, respectively. The ILC has an indefinite life.

Management believes that, based on a number of factors, the available objective evidence creates sufficient uncertainty regarding the realizability of certain of the SNOLs, FTCs, SITCs, FNOLs, CCCs, the ILC and certain other deferred tax assets related to certain foreign operations (together, the "Tax Attributes"). In assessing the realizability of deferred tax assets (including the Tax Attributes), management considers whether it is more likely than not that some portion of all of such deferred tax assets will not be realized. Accordingly, the Company has established a valuation allowance for certain Tax Attributes. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible or creditable. Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income and tax planning strategies in making this assessment. The Company has recorded valuation allowances against approximately \$124.2 million of the SNOLs, \$12.2 million of the FTCs, and \$8.1 million of SITCs. With respect to all other Tax Attributes above, based upon the level of historical taxable income and projections for future taxable income, management believes it is more likely than not the Company will realize the benefits of the underlying deferred tax assets. However, there can be no assurance that such assets will be realized if circumstances change.

GAAP prescribes a recognition threshold and measurement attribute for the accounting and financial statement disclosure of tax positions taken or expected to be taken in a tax return. The evaluation of a tax position is a two-step process. The first step requires the Company to determine whether it is more likely than not that a tax position will be

sustained upon examination based on the technical merits of the position. The second step requires the Company to recognize in the financial statements each tax position that meets the more likely than not criteria, measured at the largest amount of benefit that has a greater than 50.0% likelihood of being realized. Interest and penalties related to unrecognized tax benefits are recorded in income tax expense.

A reconciliation of the beginning and ending amount of unrecognized tax benefits is as follows:

88

Table of ContentsTEMPUR SEALY INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

(in millions)

Balance as of December 31, 2016	\$71.7
Additions based on tax positions related to 2017	3.9
Additions for tax positions of prior years	11.4
Expiration of statutes of limitations	—
Settlements of uncertain tax positions with tax authorities	(2.5)
Balance as of December 31, 2017	\$84.5
Additions based on tax positions related to 2018	2.5
Additions for tax positions of prior years	21.2
Expiration of statutes of limitations	—
Settlements of uncertain tax positions with tax authorities	(4.4)
Balance as of December 31, 2018	\$103.8

The amount of unrecognized tax benefits that would impact the effective tax rate if recognized at December 31, 2018, 2017 and 2016 would be \$91.4 million, \$31.7 million and \$21.4 million, respectively. During the years ended December 31, 2018, 2017 and 2016, the Company recognized approximately \$6.4 million, \$0.4 million, and \$1.6 million in interest and penalties, respectively, in income tax expense. The Company had approximately \$66.3 million, \$59.9 million, and \$52.3 million of accrued interest and penalties at December 31, 2018, 2017, and 2016, respectively.

Since 2001, the Company has been involved in a dispute with the Danish Tax Authority ("SKAT") regarding the royalty paid by a U.S. subsidiary of Tempur Sealy International to a Danish subsidiary (the "Danish Tax Matter"). The royalty is paid by the U.S. subsidiary for the right to utilize certain intangible assets owned by the Danish subsidiary in the U.S. production process. SKAT has issued assessments to the Company asserting the royalties paid by the U.S. to the Danish subsidiary were too low, which the Company disputed. The tax assessments received from SKAT were based, in part, on a 20% royalty rate, which is substantially higher than that historically used or deemed appropriate by the Company.

During 2018, the Company reached agreements with both SKAT and the U.S. Internal Revenue Service ("IRS") with respect to the adjusted amount of royalties for tax years 2001 through 2011 (the "Settlement Years"). The Company has also entered into the Advance Pricing Agreement program (the "APA Program") for the tax years 2012 through 2022 in which the IRS, on the Company's behalf, will negotiate directly with SKAT the royalty to be paid by the U.S. subsidiary to the Danish Subsidiary. The Company maintains an uncertain income tax liability for both the Settlement Years and for the tax years 2012 through 2018 that are included in the APA Program. The APA Program request was filed with the IRS on October 26, 2018. The APA Program negotiation process is not expected to conclude in the near term.

The income tax assessed by SKAT for the Settlement Years is DKK 470.5 million (\$72.2 million using the December 31, 2018 exchange rate) and has been accrued for by the Company at December 31, 2018 as an uncertain income tax position. The assessed value reflects materially the amount of the Danish tax liability that was historically accrued by the Company as an uncertain income tax position. The Company has determined the interest on such tax to be approximately DKK 376.8 million (approximately \$57.8 million using the December 31, 2018 exchange rate), which has also been accrued for by the Company at December 31, 2018. The total tax and interest accrued at December 31, 2018 related to the Settlement Years is DKK 847.3 million (approximately \$130.0 million using the December 31, 2018 exchange rate). The liability for the uncertain tax position and related interest is included in accrued expenses and other current liabilities within the Company's Consolidated Balance Sheet. During 2018 the Company recorded approximately DKK 210.6 million (approximately \$32.1 million) for Danish tax and interest related to the Danish Tax Matter for the years 2012 through 2018, applying the concepts of the settlement negotiated with SKAT to the APA

Program years. At December 31, 2018, the Company maintained an uncertain Danish tax position and related interest for such years of approximately DKK 230.2 million (\$35.3 million using the December 31, 2018 exchange rates). The amount accrued is included in other non-current liabilities on the Company's Consolidated Balance Sheet at December 31, 2018. The deferred tax asset for the U.S. correlative benefit associated with this accrual is approximately \$4.2 million.

Table of ContentsTEMPUR SEALY INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

At December 31, 2017, the Company had accrued Danish tax and interest for the Danish Tax Matter of approximately DKK 854.7 million (approximately \$137.8 million using the December 31, 2017 exchange rate) as an uncertain income tax position. Approximately DKK 835.0 million (approximately \$134.8 million using December 31, 2017 exchange rate) represents the amount accrued with respect to the Settlement Years. The balance of approximately DKK 19.7 million (approximately \$3.2 million using the December 31, 2017 exchange rates) was accrued for the tax years 2012 through 2017. The amount accrued at December 31, 2017 is included in other non-current liabilities on the Company's Consolidated Balance Sheet. In addition, the Company had recorded a deferred tax asset for the U.S. correlative benefit related to the Danish Tax Matter of approximately \$48.3 million at December 31, 2017. The Company maintained a valuation allowance with respect to this benefit (specifically related to the Settlement Years) of approximately \$19.3 million at December 31, 2017, as it was more likely than not that this portion of the deferred tax asset would not be realized as certain periods were closed tax years in the U.S. The gross deferred tax asset was netted with the Company's U.S. deferred tax liabilities in non-current liabilities in the Company's Consolidated Balance Sheet at December 31, 2017. As a result of the settlement with SKAT and the IRS, the Company was able to realize the entire U.S. correlative benefit in its 2017 U.S. federal and state income tax returns (which the Company filed in September 2018). Accordingly, the associated valuation allowance was released and reflected as a benefit within the Company's 2018 income tax provision.

The Company's uncertain tax liability associated with the Danish Tax Matter is derived using the cumulative probability analysis with possible outcomes based on the Company's updated evaluation of the facts and circumstances regarding this matter and applying the technical requirements applicable to U.S., Danish, and international transfer pricing standards as required by GAAP, taking into account both the U.S. and Danish income tax implications of such outcomes. Both the uncertain tax liability and the deferred tax asset discussed herein reflects the Company's best judgment of the facts, circumstances and information available through December 31, 2018.

It is reasonably possible that there could be material changes to the amount of uncertain tax positions due to activities of the taxing authorities, settlement of audit issues, reassessment of existing uncertain tax positions, including the Danish Tax Matter, or the expiration of applicable statute of limitations; however, the Company is not able to estimate the impact of these items at this time. The Company continues to discuss certain matters with SKAT relating to the Danish Tax Matter. For instance, the Company's calculation of interest for the Settlement Years differs from the amount asserted by SKAT by approximately DKK 125.0 million (approximately \$19.2 million using the December 31, 2018 exchange rate). The Company believes its calculations properly reflect the mechanics of the calculation of interest as provided in Danish tax law and as such has not recorded a liability for the incremental interest proposed by SKAT. Further, if the IRS and SKAT are unable to reach a mutually acceptable agreement with respect to the years included in the APA Program, the Company could be required to make a significant payment to SKAT for Danish tax related to such years, which could have a material adverse effect on the Company's results of operations and liquidity.

From June 2012 through December 31, 2018, SKAT withheld Value Added Tax refunds otherwise owed to the Company, pending resolution of the Danish Tax Matter. Total withheld refunds at December 31, 2018 and 2017 are approximately DKK 347.1 million (approximately \$53.3 million at the December 31, 2018 exchange rate) and DKK 336.5 million (approximately \$54.1 million at the December 31, 2017 exchange rate), respectively. In July 2016, the Company paid a deposit to SKAT in the amount of approximately DKK 615.2 million (approximately \$94.4 million and \$98.9 million using the applicable exchange rates at December 31, 2018 and 2017, respectively) (the "Tax Deposit") and applied approximately DKK 232.1 million (approximately \$35.6 million and \$37.4 million using the exchange rates at December 31, 2018 and 2017, respectively) of its Value Added Tax refund (the "VAT Refund Applied") to the aforementioned potential Danish income tax liability, consistent with the Company's reserve position for this royalty matter. The deposit was made to mitigate additional interest and foreign exchange exposure. The Tax Deposit and the VAT Refund Applied are included within prepaid and other current assets and other non-current assets on the

Consolidated Balance Sheets as of December 31, 2018 and 2017, respectively.

With few exceptions, the Company is no longer subject to tax examinations by the U.S. state and local municipalities for periods prior to 2011, and in non-U.S. jurisdictions for periods prior to 2001. The Company is currently under examination by various tax authorities around the world. The Company anticipates it is reasonably possible an increase or decrease in the amount of unrecognized tax benefits could be made in the next twelve months as a result of the statute of limitations expiring and/or the examinations being concluded on these returns. However, the Company does not presently anticipate that any increase or decrease in unrecognized tax benefits will be material to the Consolidated Financial Statements. Other than the changes relating to the Danish Tax Matter discussed in the preceding paragraphs, there were no significant changes to the liability for unrecognized tax benefits during the year ended December 31, 2018.

(15) Earnings Per Common Share

The following table sets forth the components of the numerator and denominator for the computation of basic and diluted earnings per share for net income attributable to Tempur Sealy International.

(in millions, except per common share amounts)	Year Ended December 31,		
	2018	2017	2016
Numerator:			
Net income from continuing operations, net of loss attributable to non-controlling interests	\$118.3	\$182.3	\$202.9
Denominator:			
Denominator for basic earnings per common share—weighted average shares	54.4	54.0	59.0
Effect of dilutive securities:			
Employee stock-based compensation	0.7	0.7	0.8
Denominator for diluted earnings per common share—adjusted weighted average shares	55.1	54.7	59.8
Basic earnings per common share for continuing operations	\$2.17	\$3.37	\$3.44
Diluted earnings per common share for continuing operations	\$2.15	\$3.33	\$3.39

The Company excluded 1.5 million, 1.3 million and 0.4 million shares issuable upon exercise of outstanding stock options for the years ended December 31, 2018, 2017, and 2016, respectively, from the diluted earnings per common share computation because their exercise price was greater than the average market price of Tempur Sealy International's common stock or they were otherwise anti-dilutive. Holders of non-vested stock-based compensation awards do not have voting rights or rights to receive any dividends thereon.

(16) Business Segment Information

The Company operates in two segments: North America and International. Corporate operating expenses are not included in either of the segments and are presented separately as a reconciling item to consolidated results. These segments are strategic business units that are managed separately based on geography. The North America segment consists of Tempur and Sealy manufacturing and distribution subsidiaries, joint ventures and licensees located in the U.S. and Canada. The International segment consists of Tempur and Sealy manufacturing and distribution subsidiaries, joint ventures and licensees located in Europe, Asia-Pacific and Latin America. The Company evaluates segment performance based on net sales, gross profit and operating income. There were no customers that contributed more than 10% of the Company's sales in 2018 or 2017. Mattress Firm, previously a customer in the North America segment, represented 21.7% of the Company's sales for the year ended December 31, 2016.

The Company's North America and International segment assets include investments in subsidiaries that are appropriately eliminated in the Company's accompanying Consolidated Financial Statements. The remaining inter-segment eliminations are comprised of intercompany accounts receivable and payable.

The following table summarizes total assets by segment:

(in millions)	December	
	December 31, 2018	December 31, 2017
North America	\$2,788.1	\$2,771.9

(17) Quarterly Financial Data (unaudited)

Quarterly results of operations for the years ended December 31, 2018 and 2017 are summarized below:

(in millions, except per share amounts)	First Quarter	Second Quarter	Third Quarter	Fourth Quarter
2018				
Net sales	\$ 637.4	\$ 659.9	\$ 729.5	\$ 676.1
Gross profit	264.7	272.8	300.0	283.2
Operating income	55.7	58.0	84.7	57.9
Income from continuing operations	25.6	26.6	44.1	19.1
Net income attributable to Tempur Sealy International, Inc.	23.1	22.8	42.3	12.3
Basic earnings per common share for continuing operations	\$ 0.48	\$ 0.52	\$ 0.83	\$ 0.35
Diluted earnings per common share for continuing operations	\$ 0.47	\$ 0.52	\$ 0.82	\$ 0.35
2017				
Net sales	\$ 710.4	\$ 647.3	\$ 711.5	\$ 631.4
Gross profit	282.0	264.1	307.0	267.9
Operating income	59.3	56.5	97.3	82.4
Income from continuing operations	32.6	22.1	53.2	63.7
Net income attributable to Tempur Sealy International, Inc.	33.9	24.5	44.6	48.4
Basic earnings per common share for continuing operations	\$ 0.64	\$ 0.46	\$ 1.05	\$ 1.22
Diluted earnings per common share for continuing operations	\$ 0.63	\$ 0.46	\$ 1.03	\$ 1.21

The sum of the quarterly earnings per common share amounts may not equal the annual amount reported because per share amounts are computed independently for each quarter and for the full year based on respective weighted-average common shares outstanding and other dilutive potential common shares. The Company's quarterly operating results fluctuate as a result of seasonal variations in the Company's business.

TEMPUR SEALY INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

(18) Guarantor/Non-Guarantor Financial Information

The \$450.0 million and \$600.0 million aggregate principal amount of 2023 Senior Notes and 2026 Senior Notes (collectively the "Senior Notes"), respectively, are general unsecured senior obligations of Tempur Sealy International and are fully and unconditionally guaranteed on a senior unsecured basis, jointly and severally, by the Combined Guarantor Subsidiaries. The \$375.0 million aggregate principal amount of 2020 Senior Notes were general unsecured senior obligations at December 31, 2015 but were redeemed in full in 2016. The foreign subsidiaries (the "Combined Non-Guarantor Subsidiaries") represent the foreign operations of the Company and do not guarantee the Senior Notes. A subsidiary guarantor will be released from its obligations under the applicable indenture governing the Senior Notes when: (a) the subsidiary guarantor is sold or sells all or substantially all of its assets; (b) the subsidiary is declared "unrestricted" under the applicable indenture governing the Senior Notes; (c) the subsidiary's guarantee of indebtedness under the 2016 Credit Agreement (as it may be amended, refinanced or replaced) is released (other than a discharge through repayment); or (d) the requirements for legal or covenant defeasance or discharge of the applicable indenture have been satisfied. The principal elimination entries relate to investments in subsidiaries and intercompany balances and transactions, including transactions with the Company's wholly-owned subsidiary guarantors and non-guarantor subsidiaries. The Company has accounted for its investments in its subsidiaries under the equity method.

The following financial information presents Consolidated Balance Sheets as of December 31, 2018 and December 31, 2017, and the related Consolidated Statements of Income and Comprehensive Income and Cash Flows for the years ended December 31, 2018, 2017 and 2016 for Tempur Sealy International, Combined Guarantor Subsidiaries and Combined Non-Guarantor Subsidiaries.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

An evaluation was performed under the supervision and with the participation of our management, including our Chief Executive Officer (principal executive officer) and Chief Financial Officer (principal financial officer), of the effectiveness of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, as of the end of the period covered by this Report. Based on that evaluation, our management, including our Chief Executive Officer and Chief Financial Officer, concluded that our disclosure controls and procedures were effective as of December 31, 2018, and designed to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act, is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Management's Annual Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act. Our internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with GAAP.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Therefore, even those systems determined to be effective can provide only reasonable assurance of achieving their control objectives.

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we evaluated the effectiveness of our internal control over financial reporting as of December 31, 2018 based on the framework in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO"). Based on our assessment and those criteria, management believes that we maintained effective internal control over financial reporting as of December 31, 2018.

Our independent registered public accounting firm, Ernst & Young LLP, has issued a report on the Company's internal control over financial reporting as of December 31, 2018. That report appears on page 105 of this Report.

Changes in Internal Control over Financial Reporting

There have not been any changes in our internal control over financial reporting during the quarter ended December 31, 2018 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

Report of Independent Registered Public Accounting Firm

The Stockholders and the Board of Directors of Tempur Sealy International, Inc. and Subsidiaries

Opinion on Internal Control over Financial Reporting

We have audited Tempur Sealy International, Inc. and Subsidiaries' internal control over financial reporting as of December 31, 2018, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 Framework) (the COSO criteria). In our opinion, Tempur Sealy International, Inc. and Subsidiaries (the Company) maintained, in all material respects, effective internal control over financial reporting as of December 31, 2018, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the 2018 consolidated financial statements of the Company, and our report dated February 25, 2019 expressed an unqualified opinion thereon.

Basis for Opinion

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying "Management's Annual Report on Internal Control Over Financial Reporting." Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects.

Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

Definition and Limitations of Internal Control Over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

The information required by this Item is incorporated herein by reference from our definitive proxy statement for the 2019 Annual Meeting of Stockholders (the "Proxy Statement") under the sections entitled "Proposal One—Election of Directors," and "Board of Directors' Meetings, Committees of the Board and Related Matters—Corporate Governance," — "Committees of the Board," — "Policies Governing Director Nominations," and "Executive Compensation and Related Information—Section 16(a) Beneficial Ownership Reporting Compliance."

Information relating to executive officers is incorporated herein by reference from our Proxy Statement under the section entitled "Proposal One—Election of Directors—Executive Officers."

ITEM 11. EXECUTIVE COMPENSATION

The information required by this Item is incorporated by reference from the Proxy Statement under the sections entitled "Executive Compensation and Related Information" and "Board of Directors' Meetings, Committees of the Board and Related Matters—Compensation Committee Interlocks and Insider Participation."

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

Equity Compensation Plan Information

The following table sets forth equity compensation plan information as of December 31, 2018:

Plan category	Number of securities to be issued upon exercise of outstanding options, warrants and rights	Weighted-average exercise price of outstanding options, warrants and rights	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a))
	(a)	(b)	(c)
Equity compensation plans approved by security holders:			
Amended and Restated 2003 Equity Incentive Plan ⁽¹⁾	201,334	\$ 41.59	—
Amended and Restated 2013 Equity Incentive Plan ⁽²⁾	4,263,926	65.45	3,752,785
Equity compensation plans not approved by security holders	—	—	—
Total	4,465,260	\$ 62.51	3,752,785

(1) In May 2013, our Board of Directors adopted a resolution that prohibited further grants under the Amended and Restated 2003 Equity Incentive Plan. The number of securities to be issued upon exercise of outstanding stock options, warrants and rights issued under the Amended and Restated 2003 Equity Incentive Plan includes 404 shares issuable under restricted stock units and deferred stock units. These restricted and deferred stock units are

excluded from the weighted average exercise price calculation above.

The number of securities to be issued upon exercise of outstanding stock options, warrants and rights issued under the Amended and Restated 2013 Equity Incentive Plan includes 836,122 shares issuable under restricted stock units (2) and deferred stock units. Additionally, this number includes 2,007,319 performance restricted stock units which reflects a maximum payout of the awards granted. These restricted, deferred and performance restricted stock units are excluded from the weighted average exercise price calculation above.

For information regarding the material features of each of the above plans see Note 12, "Stock-based Compensation," in our Consolidated Financial Statements included in Part II, ITEM 8 of this Report.

All other information required by this Item is incorporated by reference from the Proxy Statement under the section entitled "Principal Security Ownership and Certain Beneficial Owners."
