SEMIANNUAL REPORT

GLOBAL HIGH INCOME DOLLAR FUND INC.

June 15, 2006

DEAR SHAREHOLDER,

Edgar Filing: GLOBAL HIGH INCOME DOLLAR FUND INC - Form N-CSRS

We are pleased to present you with the semiannual report for Global High Income Dollar Fund Inc. (the "Fund") for the six-month period ended April 30, 2006.

During the reporting period, the Fund completed a successful nontransferable rights offering. This offering provided shareholders the opportunity to purchase additional shares at a discount to the prevailing market price. In addition, the new proceeds enabled the Fund to pursue investment opportunities without selling holdings to generate capital for those purchases. This mitigated the need for the Fund to record realized capital gains (through the sale of securities), and generally improved the Fund's tax and trading efficiency.

PERFORMANCE

Over the six-month period ended April 30, 2006, the Fund's net asset value return was 7.33%, compared with the 5.59% median net asset value return of its Lipper peer group, the Lipper Emerging Markets Debt Funds, and the 4.85% return of its benchmark, the J.P. Morgan Emerging Markets Bond Index--Global (the "Index"). On a market price basis, the Fund declined 1.91% over the six-month period, compared with its Lipper peer group's median market price return of 5.91% over the same timeframe. (For more on the Fund's performance, please refer to "Performance at a Glance" on page 6.)

The Fund did not use leverage during the period. Leverage magnifies returns on both the upside and on the downside, and creates a wider range of returns within the Fund's peer group.

AN INTERVIEW WITH PORTFOLIO MANAGER UWE SCHILLHORN

Q. WHY WAS THE FUND'S MARKET PRICE RETURN SO DIFFERENT FROM ITS LIPPER PEER GROUP'S?

A. Many factors can affect whether investors are willing to pay more or less for a fund than the net asset value of the shares, and hence,

GLOBAL HIGH INCOME DOLLAR FUND INC.

whether a fund trades at a premium or a discount. Throughout the reporting period, the Fund continued to trade at a premium to its underlying net asset value, although that price difference narrowed as the period progressed.

During the past six months, interest rates rose substantially, and emerging markets debt performance was rather volatile, particularly during the second half of the Fund's reporting period. After the period ended, that volatility continued as many emerging markets debt indexes declined. While it is difficult to predict how the market will react, any significant developments or price changes within emerging markets could potentially impact the Fund's market price.

Looking back, while both market volatility and rising interest rates may have had an effect on the Fund's market price during the semiannual period, the Fund's management team ultimately is unable to predict whether the Fund will trade at a discount or a premium, as there are many external factors that influence market trading.

Q. HOW DID EMERGING MARKETS DEBT PERFORM OVER THE PERIOD?

A. Emerging markets debt continued to post solid returns during what was a relatively challenging period for fixed income investors. On a global level, interest rates in the United States and in other developed nations continued to rise, reflecting both the good health of worldwide economies and the desire of central banks to temper that growth and keep inflation in check.

In general, as interest rates rose over the last six months, bond yields rose with them, which was an issue of some concern to us. As yields on developed markets bonds continued to rise, yields in emerging markets did not keep pace. This was especially true during the first quarter of 2006, when yield spreads between US Treasuries and similarly dated emerging markets debt tightened by more than 40 basis points. (Yield spread is the difference in yield between bonds. A basis point is one one-hundredth of one percent.)

Although tightening spreads are generally a positive event for current bond holders, they can potentially have a detrimental effect on the global demand for emerging markets debt. When yields on developed markets bonds are high, investors may have less incentive to take on the incremental risk associated with investing in emerging markets. In this type of environment, we believe that active management through disciplined country, sector and security selection becomes particularly important. Although security selection detracted slightly from our returns during the period, our country allocation decisions more than made up for it, and added significantly to Fund performance on a net asset value basis.

2

GLOBAL HIGH INCOME DOLLAR FUND INC.

Q. WITH THAT IN MIND, WERE THERE ANY SIGNIFICANT THEMES AT THE REGIONAL LEVEL?

A. Emerging market economies in general appeared to be on solid footing throughout the period, which was a positive for the Fund. For the most part, the economies of Latin America continued to expand in concert, with certain

Edgar Filing: GLOBAL HIGH INCOME DOLLAR FUND INC - Form N-CSRS

countries in the region exceeding growth expectations. We found this region to be relatively attractive given its recent strength. Argentina represented the Fund's largest overweight position versus the Index at period end, and our position there benefited performance.

For years, inflation in Argentina spiraled out of control, devaluing the country's currency to nearly worthless levels. Over the last several years, however, the government has taken significant steps to restructure debts and stabilize its currency. Similarly, Ecuador has also shown signs of improvement, and although our position there is not as significant, it did help Fund performance.

Q. WHAT OTHER EMERGING MARKETS HAD A SIGNIFICANT IMPACT ON PERFORMANCE?

A. Mexico, Brazil and Venezuela were all rather significant underweight positions during the period, primarily because we believed other countries in the region--such as Argentina and Ecuador--represented more attractive opportunities. Although those three countries posted positive returns during the period, our active allocation into other investment opportunities benefited performance.

Our position in Turkey had a mixed effect on relative returns. For several years, Turkey has sought membership in the European Union, and market demand for the country's debt has fluctuated based in part on how likely investors felt the nation's admittance was. Although we have at times held a larger exposure to Turkey, at the end of the period, we believed the country's debt was generally overvalued, and we were underweight as a result.

The Ivory Coast was another noteworthy country. Spreads there tightened substantially over the period as political improvements indicated that a more stable economy may be on the horizon. After three years of civil war, there are some signs that the country's government is gaining support, which we investors see as key in rebuilding the nation's impoverished economy. We had a relatively small position in the Ivory Coast, but our exposure contributed positively to total returns.

Q. IN TERMS OF YIELD CURVE POSITIONING, HOW DID YOU STRUCTURE THE PORTFOLIO DURING THE PERIOD?

A. We had anticipated a global increase in interest rates during the past six months and positioned the portfolio accordingly. The Fund's US

3

GLOBAL HIGH INCOME DOLLAR FUND INC.

interest rate duration was below that of the Index, making the Fund less sensitive to US rate increases, which helped performance. The US Federal Reserve Board (the "Fed") continued its tightening campaign, raising short-term rates four times during the period and once more after the period ended, bringing the federal funds rate to 5.00%. (The federal funds rate is the interest rate banks charge each other for overnight loans.) Our short-duration positioning added to returns as yields rose during the period.

Q. WHAT IS YOUR GENERAL OUTLOOK FOR EMERGING MARKETS DEBT OVER THE COMING MONTHS?

A. We believe that given the recent strong performance in emerging markets debt, country weightings and security selection should be of heightened importance. We also believe that our active allocation process should enable

Edgar Filing: GLOBAL HIGH INCOME DOLLAR FUND INC - Form N-CSRS

the Fund's management team to identify those risks our analysis indicates are most likely to be appropriately compensated, and to structure the portfolio accordingly. We believe such a strategy is likely to help the Fund prudently pursue its investment objectives over the coming months.

* Past performance does not predict future performance. The return and value of an investment will fluctuate, so that an investor's Fund shares, when sold, may be worth more or less than their original cost. Fund net asset value ("NAV") return assumes, for illustration only, that dividends/distributions were reinvested at the NAV on the payable dates. Fund market price returns assume that dividends/distributions were reinvested under the Dividend Reinvestment Plan. NAV and market price returns for periods of less than one year have not been annualized.

Returns do not reflect taxes that a shareholder would pay on Fund dividends/distributions or brokerage commissions and taxes on the sale of Fund shares.

GLOBAL HIGH INCOME DOLLAR FUND INC.

NOTES TO FINANCIAL STATEMENTS -- APRIL 30, 2006 (UNAUDITED)

ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Global High Income Dollar Fund Inc. (the "Fund") was incorporated in Maryland on February 23, 1993 and is registered with the Securities and Exchange Commission as a closed-end, non-diversified management investment company. The Fund's primary investment objective is to achieve a high level of current income. As a secondary objective the Fund seeks capital appreciation, to the extent consistent with it's primary objective.

In the normal course of business the Fund enters into contracts that contain a variety of representations that provide general indemnification for certain liabilities. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. However, the Fund has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

The preparation of financial statements in accordance with US generally accepted accounting principles requires Fund management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates. The following is a summary of significant accounting policies:

VALUATION OF INVESTMENTS--The Fund calculates its net asset value based on the current market value, where available, for its portfolio securities. The Fund normally obtains market values for its securities from independent pricing sources and broker-dealers. Independent pricing sources may use reported last sale prices, current market quotations or valuations from computerized "matrix" systems that derive values based on comparable securities. A matrix system incorporates parameters such as security quality, maturity and coupon, and/or research and evaluations by its staff, including review of broker-dealer market price quotations, if available, in determining the valuation of the portfolio securities. Securities traded in the over-the-counter ("OTC") market and listed on The Nasdaq Stock Market, Inc. ("NASDAQ") normally are valued at the NASDAQ Official Closing Price. Other OTC securities are valued at the last bid price on the valuation date available prior to valuation. Securities which are listed on US and foreign stock exchanges normally are valued at the last sale price on the day the securities are valued or, lacking any sales on such day, at the last available bid price. In cases where securities are traded on more than one exchange, the securities are valued on the exchange designated as the primary

Edgar Filing: GLOBAL HIGH INCOME DOLLAR FUND INC - Form N-CSRS

market by UBS Global Asset Management (Americas) Inc., the investment advisor of the Fund. If a market value is not available from an independent pricing source for a particular security, that security is valued at fair value as determined in good faith by or under the direction of the Fund's

18

GLOBAL HIGH INCOME DOLLAR FUND INC.

NOTES TO FINANCIAL STATEMENTS -- APRIL 30, 2006 (UNAUDITED)

Board of Directors (the "Board"). All investments quoted in foreign currencies will be valued weekly in US dollars on the basis of the foreign currency exchange rates. Foreign currency exchange rates are generally determined as of the close of the New York Stock Exchange ("NYSE"). Occasionally, events affecting the value of foreign investments occur between the time at which they are determined and the close of the NYSE, which will not be reflected in the computation of the Fund's net asset value. If events materially affecting the value of such securities occur during such time periods, the securities will be valued at their fair value as determined in good faith by or under the direction of the Board. The amortized cost method of valuation, which approximates market value, generally is used to value short-term debt instruments with sixty day or less remaining to maturity, unless the Board determines that this does not represent fair value.

Prior to November 1, 2005, foreign currency exchange rates were generally determined prior to the close of the NYSE. Occasionally, events affecting the value of foreign investments and such exchange rates occurred between the time at which they were determined and the close of the NYSE, which would not have been reflected in the computation of the Fund's net asset value. If events materially affecting the value of such securities or currency exchange rates occurred during such time periods, the securities were valued at their fair value as determined in good faith by or under the direction of the Board. Effective November 1, 2005, the Fund began using the foreign currency exchange rates determined as of the close of regular trading on the NYSE.

INVESTMENT TRANSACTIONS AND INVESTMENT INCOME--Investment transactions are recorded on the trade date. Realized gains and losses from investment and foreign exchange transactions are calculated using the identified cost method. Interest income is recorded on an accrual basis. Discounts are accreted and premiums are amortized as adjustments to interest income and the identified cost of investments.

FOREIGN CURRENCY TRANSLATION--Prior to November 1, 2005, the books and records of the Fund were maintained in US dollars using the WM/Reuters closing spot rates as of 4:00 pm London time. Effective November 1, 2005, the Fund began using the foreign currency exchange rates determined as of the close of regular trading on the NYSE. For purposes of calculating the US dollar equivalent value of a non-US dollar denominated obligation, foreign currency amounts are translated into US dollars on the following basis: (1) market value of investment securities and other assets and liabilities - at the exchange rates prevailing at the end of the Fund's fiscal period; and (2) purchases and sales of investment securities and income and expenses - at the rates of exchange prevailing on the respective dates of such transactions.

19

GLOBAL HIGH INCOME DOLLAR FUND INC.

Edgar Filing: GLOBAL HIGH INCOME DOLLAR FUND INC - Form N-CSRS

NOTES TO FINANCIAL STATEMENTS -- APRIL 30, 2006 (UNAUDITED)

Although the net assets and the market value of the Fund's portfolio are presented at the foreign exchange rates at the end of the Fund's fiscal period, the Fund does not generally isolate the effect of fluctuations in foreign exchange rates from the effect of the changes in market prices of securities. However, the Fund does isolate the effect of fluctuations in foreign exchange rates when determining the gain or loss upon the sale or maturity of foreign currency-denominated securities pursuant to US federal income tax regulations. Certain foreign exchange gains and losses included in realized and unrealized gains and losses are included in or are a reduction of ordinary income in accordance with US federal income tax regulations.

FORWARD FOREIGN CURRENCY CONTRACTS--The Fund may enter into forward foreign currency exchange contracts ("forward contracts") in connection with planned purchases or sales of securities or to hedge the US dollar value of portfolio securities denominated in a particular currency. The Fund may also use forward contracts to enhance income.

The Fund has no specific limitation on the percentage of assets which may be committed to such contracts. The Fund may enter into forward contracts or maintain a net exposure to forward contracts only if (1) the consummation of the contracts would not obligate the Fund to deliver an amount of foreign currency in excess of the value of the position being hedged by such contracts or (2) the Fund identifies cash or liquid securities in an amount not less than the value of its total assets committed to the consummation of the forward contracts and not covered as provided in (1) above, as marked-to-market daily.

Risks may arise upon entering into forward contracts from the potential inability of counterparties to meet the terms of their forward contracts and from unanticipated movements in the value of foreign currencies relative to the US dollar.

Fluctuations in the value of forward contracts are recorded for book purposes as unrealized gains or losses by the Fund. Realized gains and losses include net gains and losses recognized by the Fund on contracts which have been sold or matured.

FUTURES CONTRACTS--The Fund may use financial futures contracts for hedging purposes and to adjust exposure to US and foreign fixed income markets in connection with a reallocation of the Fund's assets or to manage the average duration of the Fund. However, imperfect correlations between futures contracts and the related securities or markets, or market disruptions, do not normally permit full control of these risks at all times. Using financial futures contracts involves various market risks. The maximum amount at risk from the purchase of a futures contract is the contract value.

20

GLOBAL HIGH INCOME DOLLAR FUND INC.

NOTES TO FINANCIAL STATEMENTS -- APRIL 30, 2006 (UNAUDITED)

Upon entering into a financial futures contract, the Fund is required to deliver to a broker an amount of cash and/or liquid securities equal to a certain percentage of the contract amount. This amount is known as the "initial margin". Subsequent payments, known as "variation margin," are made or received by the Fund each day, depending on the daily fluctuations in the value of the underlying financial futures contracts. Such variation margin is recorded for

Edgar Filing: GLOBAL HIGH INCOME DOLLAR FUND INC - Form N-CSRS

financial statement purposes on a daily basis as an unrealized gain or loss on futures until the financial futures contract is closed, at which time the net gain or loss is reclassified to realized gain or loss on futures.

SWAP AGREEMENTS--Total return swap agreements involve commitments to pay interest in exchange for a market-linked return based on a notional amount. To the extent the total return of the security or index underlying the transaction exceeds or falls short of the offsetting interest rate obligation, the Fund will receive a payment from or make a payment to the counterparty, respectively. Total return swaps are marked-to-market daily, and the change, if any, is recorded as unrealized appreciation or depreciation in the Statement of Operations. Periodic payments received or made at the end of each measurement period, but prior to termination, are recorded as realized gains or losses in the Statement of Operations.

At April 30, 2006, the Fund had outstanding total return swap contracts with the following terms:

NOTIONAL AMOUNT	TERMINATION DATE	PAYMENTS MADE BY THE FUND	PAYMENTS RECEIVED BY THE FUND	UNREALIZED APPRECIATION

DIVIDENDS AND DISTRIBUTIONS--Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends from net investment income and distributions from net realized capital gains and/or return of capital is determined in accordance with US federal income tax regulations, which may differ from accounting principles generally accepted in the United

Edgar Filing: GLOBAL HIGH INCOME DOLLAR FUND INC - Form N-CSRS

States. These "book/tax" differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their federal tax-basis treatment; temporary differences do not require reclassification.

CONCENTRATION OF RISK

Investing in securities of foreign issuers and currency transactions may involve certain considerations and risks not typically associated with investments in the United States. These risks include revaluation of currencies, adverse fluctuations in foreign currency values and possible adverse political, social and economic developments, including those particular to a specific industry, country or region, which could cause the securities and their markets to be less liquid and prices more volatile than those of comparable US companies and US government securities. These risks are greater with respect to securities of issuers located in emerging market countries in which the Fund invests. The ability of the issuers of debt securities held by the Fund to meet their obligations may be affected by economic and political developments particular to a specific industry, country or region.

INVESTMENT ADVISOR AND ADMINISTRATOR AND OTHER TRANSACTIONS WITH RELATED ENTITIES

UBS Global Asset Management (US) Inc., ("UBS Global AM--US") served as the Fund's Investment Advisor and Administrator until April 1, 2006. On April 1, 2006, the Fund's Investment Advisory and Administration Contract ("Advisory Contract") was transferred from UBS Global AM--US to UBS Global Asset Management (Americas) Inc. (UBS Global AM--Americas").

The transfer of the Advisory Contracts between sister companies occurred in connection with an internal reorganization involving UBS Global AM--US and UBS Global AM--Americas. The Fund's Board of Directors approved the transfer of the Advisory Contract effective April 1, 2006. All of the personnel of UBS Global AM--US who previously provided investment advisory services to the Fund continue to provide investment advisory services to the Fund as employees of UBS Global AM--Americas. UBS Global AM--Americas has the same contractual rights and responsibilities under the Advisory and Administration Contract as those previously held by

22

GLOBAL HIGH INCOME DOLLAR FUND INC.

NOTES TO FINANCIAL STATEMENTS -- APRIL 30, 2006 (UNAUDITED)

UBS Global AM--US. UBS Global AM--US and UBS Global AM--Americas are both indirect wholly owned subsidiaries of UBS AG.

In accordance with the Advisory Contract, the Fund pays UBS Global AM--Americas an investment advisory and administration fee, which is accrued weekly and paid monthly, at the annual rate of 1.25% of the Fund's average weekly net assets. Beginning August 1, 2005, UBS Global AM--US (and UBS Global AM--Americas as successor advisor/administrator) has agreed to waive compensation otherwise payable to it to reduce the fee it receives under the Advisory Contract so that it is paid at the following rates:

AVERAGE WEEKLY NET ASSETS

ADVISORY FEE

Edgar Filing: GLOBAL HIGH INCOME DOLLAR FUND INC - Form N-CSRS

Up to \$200 million	1.25%
Above \$200 million	1.00%

The waiver will continue indefinitely unless the Board agrees to any change. At April 30, 2006, the Fund owed UBS Global AM--Americas \$305,869, which is composed of \$330,143 of investment advisory and administration fees less fees waived of \$24,274. For the six months ended April 30, 2006, UBS Global AM--Americas waived \$144,325 of investment advisory and administration fees from the Fund.

The Fund invests in shares of the UBS Supplementary Trust -- US Cash Management Prime Fund ("Supplementary Trust"). Supplementary Trust is a business trust managed by UBS Global AM--Americas.

The Fund pays no management fees to Supplementary Trust. Distributions from Supplementary Trust are reflected as interest income on the statement of operations.

Amounts relating to those investments at April 30, 2006 and for the period ended are summarized as follows:

FUND	PURCHASES	SALES PROCEEDS	INTEREST INCOME	VALUE	% OF NET ASSETS
UBS Supplementary Trust -- US Cash Management Prime Fund	\$122,530,833	\$112,225,314	\$341,129	\$23,951,202	7.44%

ADDITIONAL INFORMATION REGARDING COMPENSATION TO AFFILIATE OF A BOARD MEMBER

Effective March 1, 2005, Professor Meyer Feldberg accepted the position of senior advisor to Morgan Stanley, resulting in his becoming an interested director of the Fund. The Fund has been informed that Professor Feldberg's role at Morgan Stanley does not involve matters directly affecting any UBS funds. UBS Global AM--Americas may execute Fund portfolio transactions through Morgan Stanley based on that firm's ability to provide best execution of the transactions. For the six months ended April 30, 2006, the Fund purchased and sold certain securities (e.g., fixed income securities) in principal trades with Morgan Stanley having an aggregate value of \$2,522,299. Morgan Stanley received compensation in connection with these trades, which may have been in the form of a "mark-up" or "mark-down" of the price of the securities, a fee from the issuer for maintaining a commercial paper program, or some other form of compensation. Although the precise amount of this compensation is not generally known by UBS Global AM--Americas, UBS Global AM--Americas believes that under normal

Edgar Filing: GLOBAL HIGH INCOME DOLLAR FUND INC - Form N-CSRS

circumstances it represents a small portion of the total value of the transactions.

SECURITIES LENDING

The Fund may lend securities up to 33 1/3% of its total assets to qualified broker-dealers or institutional investors. The loans are secured at all times by cash, cash equivalents or US government securities in an amount at least equal to the market value of the securities loaned, plus accrued interest and dividends, determined on a daily basis and adjusted accordingly. The Fund will regain ownership of loaned securities to exercise certain beneficial rights; however, the Fund may bear the risk of delay in recovery of, or even loss of rights in, the securities loaned should the borrower fail financially. The Fund receives compensation for lending its securities from interest or dividends earned on the cash, cash equivalents or US government securities held as collateral, net of fee rebates paid to the borrower plus reasonable administrative and custody fees. UBS Financial Services Inc., and other affiliated broker-dealers have been approved as borrowers under the Fund's securities lending program. UBS Securities LLC is the lending agent for each Fund. For the period ended April 30, 2006, the Fund did not have any securities on loan and the Fund did not owe UBS Securities LLC compensation as the Fund's lending agent.

RIGHTS OFFERING

During the six months ended April 30, 2006, the Fund issued 2,152,169 shares in connection with a rights offering of the Fund's common stock. Shareholders of record on November 10, 2005, were issued one

24

GLOBAL HIGH INCOME DOLLAR FUND INC.

non-transferable right for each share of common stock owned, entitling shareholders the opportunity to acquire one newly issued share of common stock for every three rights held. The rights offering commenced on November 10, 2005 and expired on December 20, 2005. The subscription price per share was the greater of (i) the net asset value ("NAV") per share on December 20, 2005 (the "expiration date") or (ii) 95% of the volume weighted average share price on the New York Stock Exchange on the expiration date and four preceding business days. The subscription price of the offer was \$14.58. Offering costs attributed to the rights offering in the amount of \$389,000 were charged against additional paid-in-capital.

CAPITAL STOCK

There are 100,000,000 shares of \$0.001 par value common stock authorized and 21,591,836 shares outstanding at April 30, 2006. For the year ended October 31, 2005 and for the six months ended April 30, 2006, the Fund did not repurchase any shares of common stock. Transactions in shares of common stock were as follows:

SHARES	AMOUNT

PURCHASES AND SALES OF SECURITIES

For the six months ended April 30, 2006, aggregate purchases and sales of portfolio securities, excluding short-term securities, were \$154,475,680 and \$160,035,132 respectively.

FEDERAL TAX STATUS

The Fund intends to distribute substantially all of its taxable income and to comply with the other requirements of the Internal Revenue Code applicable to regulated investment companies. Accordingly, no provision for federal income taxes is required. In addition, by distributing during each calendar year, substantially all of its net investment income, realized capital gains and certain other amounts, if any, the Fund intends not to be subject to a federal excise tax.

The tax character of distributions paid during the fiscal year ended October 31, 2005 were as follows:

DISTRIBUTIONS PAID FROM:

Ordinary income	\$31,225,937

Net realized long-term capital gains	24,993,580

	\$56,219,517

GLOBAL HIGH INCOME DOLLAR FUND INC.

NOTES TO FINANCIAL STATEMENTS -- APRIL 30, 2006 (UNAUDITED)

At October 31, 2005, the components of accumulated earnings on a tax basis were as follows:

Undistributed ordinary income	\$6,575,976

Undistributed long-term capital gains	17,879,944

Net unrealized appreciation	12,838,324

Total accumulated earnings	\$37,294,244
=====	

The tax character of distributions paid and components of accumulated earnings (deficit) on a tax basis for the current fiscal year will be calculated after the Fund's fiscal year ended October 31, 2006.

Edgar Filing: GLOBAL HIGH INCOME DOLLAR FUND INC - Form N-CSRS

The difference between book-basis and tax-basis net unrealized appreciation of investments is attributable to premium amortization adjustments and wash sales.

During the fiscal year ended October 31, 2005, the Fund had no capital loss carry-forwards to offset current year gains.

For federal income tax purposes, which was substantially the same as book purposes, the tax cost of investments and the components of net unrealized appreciation of investments at April 30, 2006 were as follows:

Tax cost of investments	\$303,030,609
=====	
Gross appreciation (investments having an excess of value over cost)	\$19,828,332

Gross depreciation (investments having an excess of cost over value)	(1,287,668)

Net unrealized appreciation of investments	\$18,540,664
=====	

To reflect reclassifications arising from permanent "book/tax" differences for the year ended October 31, 2005, accumulated undistributed net investment income was increased by \$11,470,084, and accumulated net realized gain from investment activities was decreased by \$11,470,084.

The difference is primarily due to tax treatment of paydown gains and losses, distributions in excess of net investment income and adjustments for certain debt obligations.

* Calculated using the average monthly shares outstanding for the period.

** Annualized.

- 1 Total investment return is calculated assuming a purchase of \$10,000 of common stock at the current market price on the first day of each period reported and a sale at the current market price on the last day of each period reported, and assuming reinvestment of dividends and other distributions at prices obtained under the Fund's Dividend Reinvestment Plan. Total investment return does not reflect brokerage commissions or the deduction of taxes that a shareholder would pay on Fund dividends/distributions or a sale of Fund shares.
- 2 The actual sources of the Fund's fiscal year 2006 dividends/distributions may be net investment income, net realized capital gains, return of capital or a combination of the foregoing and may be subject to retroactive recharacterization at the end of the Fund's fiscal year based on tax regulations. Shareholders will be informed on the tax characteristics of dividends/distributions after the close of the 2006

fiscal year.

- + As required, effective as of November 1, 2001, the Fund has adopted the provisions of the AICPA Audit and Accounting Guide, Audits of Investment Companies, and began amortizing premium on debt securities for financial statement reporting purposes only. The effect of this change for the year ended October 31, 2002 was to decrease net investment income per share by \$0.02, increase net realized and unrealized gains from investment activities per share by \$0.02, and decrease the ratio of net investment income to average net assets from 7.35% to 7.23%. Per share ratios and supplemental data for years prior to November 1, 2001 have not been restated to reflect this change in presentation.

TAX INFORMATION (UNAUDITED)

Dividends received by tax-exempt recipients (e.g., IRAs and Keoghs) need not be reported as taxable income. Some retirement trusts (e.g., corporate, Keogh and 403(b)(7) plans) may need this information for their annual reporting. Since the Fund's fiscal year is not the calendar year, another notification will be sent in respect of calendar year 2006. The second notification, which will reflect the amount to be used by calendar year taxpayers on their federal income tax returns, will be made in conjunction with Form 1099 DIV and will be mailed in January 2007. Shareholders are advised to consult their own tax advisors with respect to the tax consequences of their investment in the Fund.

QUARTERLY FORM N-Q PORTFOLIO SCHEDULE

The Fund will file its complete schedule of portfolio holdings with the Securities and Exchange Commission ("SEC") for the first and third quarters of each fiscal year on Form N-Q. The Fund's Forms N-Q are available on the SEC's Web site at <http://www.sec.gov>. The Fund's Forms N-Q may be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. Information on the operation of the SEC's Public Reference Room may be obtained by calling 1-800-SEC 0330. Additionally, you may obtain copies of Forms N-Q from the Fund upon request by calling 1-800-647 1568.

PROXY VOTING POLICIES AND PROCEDURES AND RECORD

You may obtain a description of the Fund's (1) proxy voting policies, (2) proxy voting procedures, and (3) information regarding how the Fund voted any proxies related to portfolio securities during the 12-month period ended June 30, 2005, without charge, upon request by contacting the Fund directly at 1-800-647 1568, online on the Fund's Web site: www.ubs.com/ubsglobalam-proxy, or on the EDGAR Database on the SEC's Web site (<http://www.sec.gov>.)

DIVIDEND REINVESTMENT PLAN

The Fund's Board has established a Dividend Reinvestment Plan (the "Plan") under which all shareholders whose shares are registered in their own names, or in the name of UBS Financial Services Inc. or its nominee, will have all dividends and

Edgar Filing: GLOBAL HIGH INCOME DOLLAR FUND INC - Form N-CSRS

other distributions on their shares of common stock automatically reinvested in additional shares, unless such shareholders elect to receive cash. Shareholders who elect to hold their shares in the name of another broker or nominee should contact such broker or nominee to determine whether, or how, they may participate in the Plan. The ability of such shareholders to participate in the Plan may change if their shares are transferred into the name of another broker or nominee.

A shareholder may elect not to participate in the Plan or may terminate participation in the Plan at any time without penalty, and shareholders who have previously terminated participation in the Plan may rejoin it at any time. Changes in elections must be made in writing to the Fund's transfer agent and should include the shareholder's name and address as they appear on that share certificate or in the transfer agent's records. An election to terminate participation in the Plan, until such election is changed, will be deemed an election by a shareholder to take all subsequent distributions in cash. An election will be effective only for

31

GLOBAL HIGH INCOME DOLLAR FUND INC.

GENERAL INFORMATION (UNAUDITED)

distributions declared and having a record date at least ten days after the date on which the election is received.

Additional shares of common stock acquired under the Plan will be purchased in the open market, on the NYSE or otherwise, at prices that may be higher or lower than the net asset value per share at the time of the purchase. Investors should consider whether continued participation in the dividend reinvestment plan is appropriate for them when the Fund's market price exceeds its net asset value; a portion of a dividend may represent a return of capital, which would be reinvested in the Fund at a premium to net asset value. The number of shares of common stock purchased with each dividend will be equal to the result obtained by dividing the amount of the dividend payable to a particular shareholder by the average price per share (including applicable brokerage commissions) that the transfer agent was able to obtain in the open market. The Fund will not issue any new shares in connection with the Plan. There currently is no charge to participants for reinvesting dividends or other distributions. The transfer agent's fees for handling the reinvestment of distributions are paid by the Fund. However, each participant pays a pro rata share of brokerage commissions incurred with respect to the transfer agent's open market purchases of common stock in connection with the reinvestment of distributions. The automatic reinvestment of dividends and other distributions in shares of common stock does not relieve participants of any income tax that may be payable on such distributions.

Experience under the Plan may indicate that changes are desirable. Accordingly, the Fund reserves the right to amend or terminate the Plan with respect to any dividend or other distribution if notice of the change is sent to Plan participants at least 30 days before the record date for such distribution. The Plan also may be amended or terminated by the transfer agent by at least 30 days' written notice to all Plan participants. Additional information regarding the Plan may be obtained from, and all correspondence concerning the Plan should be directed to, the transfer agent at PFPC Inc., P.O. Box 43027, Providence, Rhode Island 02940-3027. For further information regarding the Plan, you may also contact the transfer agent directly at 1-800-331 1710.

DISTRIBUTION POLICY

Edgar Filing: GLOBAL HIGH INCOME DOLLAR FUND INC - Form N-CSRS

The Fund's Board adopted a managed distribution policy in December 1999. Pursuant to the policy as in effect from December 1999 through early May 2005, the Fund made regular monthly distributions at an annualized rate equal to 11% of the Fund's net asset value, as determined as of the last trading day during the first week of that month (usually a Friday)

32

GLOBAL HIGH INCOME DOLLAR FUND INC.

GENERAL INFORMATION (UNAUDITED)

unless the NYSE is closed that Friday). The Board approved reducing the annualized rate for distribution pursuant to the policy from 11% to 9% effective beginning with the June 2005 monthly distribution. Prior to December 20, 1999, the Fund's distributions varied based on the Fund's net investment income and realized capital gains or losses. The Fund's Board may change or terminate the managed distribution policy at any time; any such change or termination may have an adverse effect on the market price for the Fund's shares.

To the extent that the Fund's taxable income in any fiscal year exceeds the aggregate amount distributed based on a fixed percentage of its net asset value, the Fund would make an additional distribution in the amount of that excess near the end of the fiscal year. To the extent that the aggregate amount distributed by the Fund (based on a percentage of its net assets) exceeds its current and accumulated earnings and profits, the amount of that excess would constitute a return of capital or net realized capital gains for tax purposes.

Monthly distributions based on a fixed percentage of the Fund's net asset value may require the Fund to make multiple distributions of long-term capital gains during a single fiscal year. The Fund has received exemptive relief from the Securities and Exchange Commission that enables it to do so. The Fund's Board will reassess the annualized percentage of net assets at which the Fund's monthly distributions will be made no less frequently than annually.

BOARD APPROVAL OF INVESTMENT ADVISORY AND ADMINISTRATION AGREEMENT (UNAUDITED)

BACKGROUND--At a meeting of the board of Global High Income Dollar Fund Inc. (the "Fund") on February 8, 2006, the members of the board, including the board members who are not "interested persons" of the Fund ("Independent Directors"), as defined in the Investment Company Act of 1940, as amended, considered and approved the transfer of the current Investment Advisory and Administration Agreement between the Fund and UBS Global Asset Management (US) Inc. ("UBS Global AM") to UBS Global Asset Management (Americas) Inc. ("UBS Global Americas"), an affiliate of UBS Global AM. The board received information and materials about the proposed transfer both at its November 2005 meeting and at its February 2006 meeting. In considering the approval of the transfer of the Investment Advisory and Administration Agreement (such transfer referred to as the "New Investment Advisory and Administration Agreement"), the board reviewed a memorandum from UBS Global AM explaining the reasons for the proposed transfer, including that the transfer would result in management efficiencies and eliminate the duplication of functions that had resulted from having two registered investment advisors, UBS Global AM and UBS Global Americas, providing

Edgar Filing: GLOBAL HIGH INCOME DOLLAR FUND INC - Form N-CSRS

investment advisory services to the UBS funds. The board also reviewed material provided by UBS Global AM on UBS Global Americas, including that the current portfolio managers for the Fund would not change as a result of the transfer from UBS Global AM to UBS Global Americas. The board also noted management's explanation that any expenses resulting from the transfer would be borne by UBS Global AM, and not the Fund. The board also received and reviewed a draft of an opinion to be provided by Dechert LLP, counsel to the Fund, that the proposed transfer would not be considered an "assignment" of the existing investment advisory contract under the Investment Company Act of 1940, as amended, because (1) there would be no change of actual control of the investment advisor to the Fund; (2) there would be no change of management of the investment advisor to the Fund; (3) the nature, quality and extent of the investment advisory services provided by UBS Global AM under the current Investment Advisory and Administration Agreement would not change as a result of the transfer; (4) the transfer would not result in any change in the fundamental investment processes, investment strategies or investment techniques currently employed by UBS Global AM portfolio managers or other investment professionals in providing services to the Fund; and (5) there would be no change to any of the material terms of the Investment Advisory and Administration Agreements as a result of the transfer. The board took note of its knowledge of UBS Global AM and

34

GLOBAL HIGH INCOME DOLLAR FUND INC.

BOARD APPROVAL OF INVESTMENT ADVISORY AND ADMINISTRATION AGREEMENT (UNAUDITED)

its affiliates, including UBS Global Americas, and the current Investment Advisory and Administration Agreement for the Fund, including the extensive materials it had reviewed at its annual contract renewal meeting in the summer of 2005 for the Fund, and noted that it had at that time received a memorandum from its independent legal counsel discussing, among other things, the duties of board members in considering approval of advisory and administration agreements.

In its consideration of the approval of the New Investment Advisory and Administration Agreement, the board considered the following factors:

NATURE, EXTENT AND QUALITY OF THE SERVICES UNDER THE NEW INVESTMENT ADVISORY AND ADMINISTRATION AGREEMENT--The board took note that at its last annual contract renewal meeting for the Fund, in connection with its review of the Fund's advisory and distribution agreements, it had received and considered extensive information regarding the nature, extent and quality of management services generally provided to the Fund by UBS Global AM under the Investment Advisory and Administration Agreement, and a description of the administrative and other services rendered to the Fund and its shareholders by UBS Global AM and UBS Global AM's role in coordinating providers of other services to the Fund, including custody, accounting and transfer agency services. The board considered management's explanation that UBS Global Americas would provide identical services under the New Investment Advisory and Administration Agreement as were provided by UBS Global AM under the current Investment Advisory and Administration Agreement. The board's evaluation of the services to be provided by UBS Global Americas to the Fund took into account the board's knowledge and familiarity gained as board members of funds in the UBS New York fund complex, including the scope and quality of investment management and other capabilities and the quality of administrative and other services, and considered that based on the materials presented to them these services would remain the same. The board also considered, based on its knowledge of UBS Global AM and UBS Global Americas, the financial resources available to UBS Global Americas and its parent organization, UBS AG, one of the leading financial services companies in the world.

Edgar Filing: GLOBAL HIGH INCOME DOLLAR FUND INC - Form N-CSRS

The board concluded that, overall, it was satisfied with the nature, extent and quality of services expected to be provided to the Fund under the New Investment Advisory and Administration Agreement.

35

GLOBAL HIGH INCOME DOLLAR FUND INC.

BOARD APPROVAL OF INVESTMENT ADVISORY AND ADMINISTRATION AGREEMENT (UNAUDITED)

MANAGEMENT FEES--The board noted that the current contractual management fee for the Fund under the current Investment Advisory and Administration Agreement was not proposed to be changed under the New Investment Advisory and Administration Agreement. The board also considered that at its most recent annual contract renewal meeting during the summer of 2005 it had received and reviewed information on the contractual management fee payable by the Fund to UBS Global AM, including information on management fees paid by comparable funds. The board recognized that the current fee arrangements would not change as a result of the transfer.

Taking all of the above into consideration, the board determined that the proposed contractual management fee was reasonable in light of the nature, extent and quality of the services proposed to be provided to the Fund under the New Investment Advisory and Administration Agreement.

FUND PERFORMANCE--The board took into consideration the reports on Fund performance received by the board at each meeting and the more extensive review and discussion of Fund performance at its most recent annual contract renewal meeting. The board also noted that the transfer would not result in any change in the fundamental investment processes, investment strategies or investment techniques of the Fund and that no changes in the current Fund personnel overseeing Fund management were proposed or anticipated as a result of the transfer.

Based on its prior review and the more updated performance information provided, the board concluded that the Fund's investment performance was satisfactory.

ADVISOR PROFITABILITY--As UBS Global Americas would be a new advisor to the Fund, profitability of UBS Global Americas in providing services to the Fund was not a primary factor considered by the board. The board did note that at its most recent annual contract renewal meeting it received and considered a profitability analysis of UBS Global AM and its affiliates in providing services to the Fund and had determined at that time that UBS Global AM's profitability was considered not excessive in light of the nature, extent and quality of the services provided to the Fund. The board also recognized that the management fee would not change as a result of the transfer and the services provided to the Fund by UBS Global Americas would be identical to those currently provided by UBS Global AM, making the profitability data received at its last contract renewal meeting still of

36

GLOBAL HIGH INCOME DOLLAR FUND INC.

BOARD APPROVAL OF INVESTMENT ADVISORY AND ADMINISTRATION AGREEMENT (UNAUDITED)

some relevance. UBS Global AM also noted management's explanation that a

Edgar Filing: GLOBAL HIGH INCOME DOLLAR FUND INC - Form N-CSRS

significant benefit of the transfer of the Investment Advisory and Administration Agreement to UBS Global Americas was to reduce a regulatory capital requirement imposed on UBS Global AM, which was expected to permit the eventual transfer of certain financial assets owned by UBS Global AM to satisfy regulatory requirements to other parts of UBS AG for other corporate purposes.

ECONOMIES OF SCALE--The board noted that it had previously considered whether economies of scale in the provision of services to the Fund would be passed along to the shareholders during its most recent consideration of the annual renewal of the Investment Advisory and Administration Agreement and did not see the need to reconsider this factor again in the context of the transfer of the agreement to a sister investment advisor.

OTHER BENEFITS TO UBS GLOBAL AMERICAS--The board considered other benefits received by UBS Global Americas and its affiliates as a result of its proposed relationship with the Fund, including the potential opportunity to offer additional products and services to Fund shareholders. The board also considered the benefits to be realized when certain assets of UBS Global AM were freed from certain regulatory requirements and were available to be paid as a dividend from one part of UBS AG to another part of UBS AG for such purposes as UBS AG deemed appropriate.

In light of the costs of providing investment management, administrative and other services to the Fund and UBS Global America's expected ongoing commitment to the Fund, the profits and other ancillary benefits that UBS Global Americas and its affiliates received or would receive were considered reasonable.

In light of all of the foregoing, the board approved the New Investment Advisory and Administration Agreement for the Fund.

No single factor reviewed by the board was identified by the board as the principal factor in determining whether to approve the New Investment Advisory and Administration Agreement. The Independent Directors were advised by separate independent legal counsel throughout the process. The board discussed the proposed approval of the New Investment Advisory and Administration Agreement in a private session with their independent legal counsel at which no representatives of UBS Global AM or UBS Global Americas were present.
