Notes to portfolio of investments

Aggregate cost for federal income tax purposes was substantially the same as for book purposes; and net unrealized appreciation consisted of:

\$ 10,235,557
(4,209,240)
\$ 6,026,317

- Security exempt from registration pursuant to Rule 144A under the Securities Act of 1933. These securities are considered liquid, unless noted otherwise, and may be resold in transactions exempt from registration, normally to qualified institutional buyers. At June 30, 2011, the value of these securities amounted to \$8,195,136 or 5.72% of net assets.
- ² Variable or floating rate security The interest rate shown is the current rates as of June 30, 2011 and changes periodically.
- Security is being fair valued by a valuation committee under the direction of the Board of Trustees. At June 30, 2011, the value of this security amounted to \$0 or 0.00% of net assets.
- Security is in default.
- ⁵ Security is illiquid. At June 30, 2011, the value of this security amounted to \$26,000 or 0.02% of net assets.
- This security, which represents 0.02% of net assets as of June 30, 2011, is considered restricted. (See restricted security table below for more information.)

Restricted security	Acquisition date	Acquisition cost	cost as a percentage of net assets	Value 06/30/11	Value as a percentage of net assets
Washington Mutual Preferred Funding LLC,					
9.750%, due 12/15/17	10/19/07-11/02/07	\$1,299,750	0.91%	\$26,000	0.02%

Perpetual bond security. The maturity date reflects the next call date.

The table below details the Fund s investments in a fund that is advised by the same advisor as the Fund. The advisor does not earn a management fee from the affiliated UBS Cash Management Prime Relationship Fund.

Security description	Value 09/30/10	Purchases during the nine months ended 06/30/11	Sales during the nine months ended 06/30/11	Value 06/30/11	Income earned from affiliate for the nine months ended 06/30/11
UBS Cash Management Prime Relationship Fund	\$3,298,054	\$36,887,050	\$39,808,656	\$376,448	\$4,177

On September 7, 2008, the Federal Housing Finance Agency placed the Federal Home Loan Mortgage Corporation and the Federal National Mortgage Association into conservatorship, and the US Treasury guaranteed the debt issued by those organizations.

Rate shown reflects annualized yield at June 30, 2011 on zero coupon bond.

This security is subject to perpetual call and may be called in full or partially on or anytime after December 31, 2011.

The Fund calculates its net asset value based on the current market value, where available, for its portfolio securities. The Fund normally obtains market values for its securities and other instruments from independent pricing sources and broker-dealers. Independent pricing sources may use reported last sale prices, official market closing prices, current market quotations or valuations from computerized matrix systems that derive values based on comparable securities or instruments. A matrix system incorporates parameters such as security quality, maturity and coupon, and/or research and evaluations by its staff, including review of broker-dealer market price quotations, if available, in determining the valuation of the portfolio securities or instruments. Securities and other instruments also may be valued based on appraisals derived from information concerning the security or instrument or similar securities or instruments received from recognized dealers in those holdings. Securities and instruments traded in the over-the-counter (OTC) market and listed on The NASDAQ Stock Market, Inc. (NASDAQ) normally are valued at the NASDAQ Official Closing Price. Other OTC securities are valued at the last bid price on the valuation date available prior to valuation. Securities and instruments which are listed on US and foreign stock exchanges normally are valued at the market closing price, the last sale price on the day the securities are valued or, lacking any sales on such day, at the last available bid price. Securities and instruments listed on foreign stock exchanges may be fair valued based on significant events that have occurred subsequent to the close of the foreign markets. In cases where securities or instruments are traded on more than one exchange, the securities or instruments are valued on the exchange designated as the primary market by UBS Global Asset Management (Americas) Inc. UBS Global AM or the Advisor), the investment advisor of the Fund. UBS Global AM is an indirect wholly owned asset management subsidiary of UBS AG, an internationally diversified organization with headquarters in Zurich and Basel, Switzerland and operations in many areas of the financial services industry. If a market value is not readily available from an independent pricing source for a particular security or instrument, that security or instrument is valued at a fair value determined in good faith by or under the direction of the Fund s Board of Directors (the Board). Various factors may be reviewed in order to make a good faith determination of a security s or instrument s fair value. These factors include, but are not limited to, fundamental analytical data relating to the investment; the nature and duration of restrictions on disposition of the securities or instruments; and the evaluation of forces which influence the market in which the securities or instruments are purchased and sold. Investments in open-end investment companies are valued at the daily closing net asset value of the respective investment company. Pursuant to the Fund s use of the practical expedient within ASC Topic 820 investments in non-registered investment companies are also valued at the daily net asset value. All investments quoted in foreign currencies are valued daily in US dollars on the basis of the foreign currency exchange rates prevailing at the time such valuation is determined by the Fun s custodian.

GSR Goldman Sachs Residential

Re-REMIC Combined Real Estate Mortgage Investment Conduit

US Generally accepted accounting principles (GAAP) requires disclosure surrounding the various inputs that are used in determining the value of the Fund $\,$ s investments. These inputs are summarized into the three broad levels listed below:

Level 1 Unadjusted quoted prices in active markets for identical investments.

Level 2 Other significant observable inputs, including but not limited to, quoted prices for similar investments, interest rates, prepayment speeds and credit risk.

Level 3 Unobservable inputs inclusive of the Fund s own assumptions in determining the value of investments.

In January 2010, FASB issued Accounting Standards Update (ASU) No. 2010-06, Improving Disclosures about Fair Value Measurements (ASU 2010-06). ASU 2010-06 requires reporting entities to make new disclosures about amounts and reasons for significant transfer in and out of Level 1 and Level 2 fair value measurements as well as inputs and valuation techniques used to measure fair value for both recurring and nonrecurring fair value measurements that fall in either Level 2 or Level 3, including information on purchases, sales, issuances and settlements on a gross basis in the reconciliation of activity in Level 3 fair value measurements. The new and revised disclosures have been implemented for annual and interim periods beginning after December 15, 2009. The disclosures surrounding purchases, sales, issuances and settlements on a gross basis in the reconciliation of Level 3 fair value measurements have been implemented for annual and interim periods beginning after December 15, 2010.

The following is a summary of the inputs used as of June 30, 2011 in valuing the Fund s investments:

N	Measurements at 06/30/11
