CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

Certain statements contained in this Quarterly Report on Form 10-Q of Columbia Property Trust, Inc. ("Columbia Property Trust," "the Company," "we," "our," or "us") other than historical facts may be considered forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. We intend for all such forward-looking statements to be covered by the applicable safe harbor provisions for forward-looking statements contained in those acts. Such statements include, in particular, statements about our plans, strategies, and prospects and are subject to certain risks and uncertainties, including known and unknown risks, which could cause actual results to differ materially from those projected or anticipated. Therefore, such statements are not intended to be a guarantee of our performance in future periods. Such forward-looking statements can generally be identified by our use of forward-looking terminology such as "may," "will," "expect," "intend," "anticipate," "estimate," "believe," "continue," or other similar words. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date this report is filed with the U.S. Securities and Exchange Commission ("SEC"). We make no representations or warranties (express or implied) about the accuracy of any such forward-looking statements contained in this Form 10-Q, and we do not intend to publicly update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise. Any such forward-looking statements are subject to risks, uncertainties, and other factors and are based on a number of assumptions involving judgments with respect to, among other things, future economic, competitive, and market conditions, all of which are difficult or impossible to predict accurately. To the extent that our assumptions differ from actual conditions, our ability to accurately anticipate results expressed in such forward-looking statements, including our ability to generate positive cash flow from operations, make distributions to stockholders, and maintain the value of our real estate properties, may be significantly hindered. See Item 1A in Columbia Property Trust's Annual Report on Form 10-K for the year ended December 31, 2015 for a discussion of some of the risks and uncertainties that could cause actual results to differ materially from those presented in our forward-looking statements. The risk factors described in our Annual Report are not the only ones we face, but do represent those risks and uncertainties that we believe are material to us. Additional risks and uncertainties not currently known to us or that we currently deem immaterial may also harm our business.

PART I. FINANCIAL INFORMATION

ITEM 1. CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

The information furnished in the accompanying consolidated balance sheets, and related consolidated statements of operations, comprehensive income, equity, and cash flows, reflects all normal and recurring adjustments that are, in management's opinion, necessary for a fair and consistent presentation of the aforementioned financial statements.

The accompanying consolidated financial statements should be read in conjunction with the condensed notes to Columbia Property Trust's financial statements and Management's Discussion and Analysis of Financial Condition and Results of Operations included in this Quarterly Report on Form 10-Q, and with audited consolidated financial statements and the related notes for the year ended December 31, 2015. Columbia Property Trust's results of operations for the three and six months ended June 30, 2016 are not necessarily indicative of the operating results expected for the full year.

COLUMBIA PROPERTY TRUST, INC.
CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2016
(unaudited)

1. Organization

Columbia Property Trust, Inc. ("Columbia Property Trust") (NYSE: CXP) is a Maryland corporation that operates as a real estate investment trust ("REIT") for federal income tax purposes and owns and operates commercial real estate properties. Columbia Property Trust was incorporated in 2003, commenced operations in 2004, and conducts business primarily through Columbia Property Trust Operating Partnership, L.P. ("Columbia Property Trust OP"), a Delaware limited partnership. Columbia Property Trust is the general partner and sole owner of Columbia Property Trust OP and possesses full legal control and authority over its operations. Columbia Property Trust OP acquires, develops, owns, leases, and operates real properties directly, through wholly owned subsidiaries, or through joint ventures. References to Columbia Property Trust, "we," "us," or "our" herein shall include Columbia Property Trust and all subsidiaries of Columbia Property Trust, direct and indirect, and any unconsolidated joint ventures.

Columbia Property Trust typically invests in high-quality, income-generating office properties. As of June 30, 2016, Columbia Property Trust owned 26 office properties and one hotel, containing approximately 13.3 million square feet of commercial space, located in 12 states and the District of Columbia. All of the properties are wholly owned, except for one property, which is owned through an unconsolidated joint venture, as described in Note 4, Unconsolidated Joint Venture. As of June 30, 2016, the operational office properties, including Columbia Property Trust's share of the unconsolidated joint venture, were approximately 90.6% leased.

2. Summary of Significant Accounting Policies

Basis of Presentation

The consolidated financial statements of Columbia Property Trust have been prepared in accordance with the rules and regulations of the U.S. Securities and Exchange Commission ("SEC"), including the instructions to Form 10-Q and Article 10 of Regulation S-X, and do not include all of the information and footnotes required by U.S. generally accepted accounting principles ("GAAP") for complete financial statements. In the opinion of management, the statements for these unaudited interim periods presented include all adjustments, which are of a normal and recurring nature, necessary for a fair and consistent presentation of the results for such periods. Results for these interim periods are not necessarily indicative of a full year's results. Columbia Property Trust's consolidated financial statements include the accounts of Columbia Property Trust, Columbia Property Trust OP, and any variable interest entity in which Columbia Property Trust or Columbia Property Trust OP was deemed the primary beneficiary. With respect to entities that are not variable interest entities, Columbia Property Trust's consolidated financial statements also include the accounts of any entity in which Columbia Property Trust, Columbia Property Trust OP, or their subsidiaries own a controlling financial interest and any limited partnership in which Columbia Property Trust, Columbia Property Trust OP, or their subsidiaries own a controlling general partnership interest. All intercompany balances and transactions have been eliminated in consolidation. For further information, refer to the financial statements and footnotes included in Columbia Property Trust's Annual Report on Form 10-K for the year ended December 31, 2015 (the "2015 Form 10-K").

Fair Value Measurements

Columbia Property Trust estimates the fair value of its assets and liabilities (where currently required under GAAP) consistent with the provisions of Accounting Standard Codification ("ASC") 820, Fair Value Measurements ("ASC 820"). Under this standard, fair value is defined as the price that would be received upon sale of an asset or paid upon transfer of a liability in an orderly transaction between market participants at the measurement date, under current market conditions. While various techniques and assumptions can be used to estimate fair value depending on the nature of the asset or liability, the accounting standard for fair value measurements and disclosures provides the following fair value technique parameters and hierarchy, depending upon availability:

Level 1 – Assets or liabilities for which the identical term is traded on an active exchange, such as publicly traded instruments or futures contracts.

Level 2 – Assets or liabilities valued based on observable market data for similar instruments.

Level 3 – Assets or liabilities for which significant valuation assumptions are not readily observable in the market. Such assets or liabilities are valued based on the best available data, some of which may be internally developed. Significant assumptions may include risk premiums that a market participant would consider.

Real Estate Assets

Columbia Property Trust is required to make subjective assessments as to the useful lives of its depreciable assets. Columbia Property Trust considers the period of future benefit of the asset to determine the appropriate useful lives. These assessments have a direct impact on net income. The estimated useful lives of its assets by class are as follows:

Buildings	40 years
Building and site improvements	5-25 years
Tenant improvements	Shorter of economic life or lease term
Intangible lease assets	Lease term

Evaluating the Recoverability of Real Estate Assets

Columbia Property Trust continually monitors events and changes in circumstances that could indicate that the carrying amounts of its real estate and related intangible assets, of both operating properties and properties under construction, in which Columbia Property Trust has an ownership interest, either directly or through investments in joint ventures, may not be recoverable. When indicators of potential impairment are present that suggest that the carrying amounts of real estate assets and related intangible assets and liabilities may not be recoverable, Columbia Property Trust assesses the recoverability of these assets and liabilities by determining whether the respective carrying values will be recovered through the estimated undiscounted future cash flows expected from the use of the assets and their eventual disposition. In the event that such expected undiscounted future cash flows do not exceed the carrying values, Columbia Property Trust adjusts the carrying value of the real estate assets and related intangible assets and liabilities to the estimated fair values, pursuant to the property, plant, and equipment accounting standard for the impairment or disposal of long-lived assets, and recognizes an impairment loss. Estimated fair values are calculated based on the following information, in order of preference, depending upon availability: (i) recently quoted market prices, (ii) market prices for comparable properties, or (iii) the present value of future cash flows, including estimated residual value. Certain of Columbia Property Trust's assets may be carried at more than an amount that could be realized in a current disposition transaction. Columbia Property Trust has determined that there is no impairment in the carrying values of our real estate assets and related intangible assets as of June 30, 2016.

Projections of expected future operating cash flows require that Columbia Property Trust estimate future market rental income amounts subsequent to the expiration of current lease agreements, property operating expenses, the number of months it takes to re-lease the property, and the number of years the property is held for investment, among other factors. The subjectivity of assumptions used in the future cash flow analysis, including discount rates, could result in an incorrect assessment of the property's fair value and could result in the misstatement of the carrying value of Columbia Property Trust's real estate assets and related intangible assets and liabilities and net income.

Assets Held for Sale

Columbia Property Trust classifies assets as held for sale according to ASC 360, Accounting for the Impairment or Disposal of Long-Lived Assets ("ASC 360"). According to ASC 360, assets are considered held for sale when the following criteria are met:

- Management, having the authority to approve the action, commits to a plan to sell the property.
- The property is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such property.
- An active program to locate a buyer and other actions required to complete the plan to sell the property have been initiated.
- The sale of the property is probable, and transfer of the property is expected to qualify for recognition as a completed sale, within one year.
- The property is being actively marketed for sale at a price that is reasonable in relation to its current fair value.
- Actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

At such time that a property is determined to be held for sale, its carrying amount is adjusted to the lower of its depreciated book value or its estimated fair value, less costs to sell, and depreciation is no longer recognized; and assets and liabilities are required to be classified as held for sale on the accompanying consolidated balance sheet. As of June 30, 2016, the 800 North Frederick Property was subject to a binding sale contract and, thus, is classified as held for sale in the accompanying consolidated balance sheet as of that date. This transaction closed in the third

quarter of 2016 (see Note 3, Real Estate Transactions).

Intangible Assets and Liabilities Arising from In-Place Leases where Columbia Property Trust Is the Lessee
Columbia Property Trust is the lessee on certain in-place ground leases. Intangible above-market and below-market in-place lease values are recorded as intangible lease liabilities and assets, respectively, and are amortized as an adjustment to property operating cost over the remaining term of the respective leases. Columbia Property Trust had gross below-market lease assets of approximately \$140.9 million as of June 30, 2016 and December 31, 2015, and recognized amortization of these assets of approximately \$0.6 million for the three months ended June 30, 2016 and 2015, and approximately \$1.3 million for the six months ended June 30, 2016 and 2015.

As of June 30, 2016, the remaining net below-market intangible lease assets will be amortized as follows (in thousands):

For the remainder of 2016	\$1,274
For the years ending December 31:

Interest Rate Swap Agreements

Columbia Property Trust enters into interest rate swap contracts to mitigate its interest rate risk on the related financial instruments. Columbia Property Trust does not enter into derivative or interest rate swap transactions for speculative purposes; however, certain of its derivatives may not qualify for hedge accounting treatment. Columbia Property Trust records the fair value of its interest rate swaps either as prepaid expenses and other assets or as accounts payable, accrued expenses, and accrued capital expenditures. Changes in the fair value of the effective portion of interest rate swaps that are designated as cash flow hedges are recorded as other comprehensive income, while changes in the fair value of the ineffective portion of a cash flow hedge, if any, are recognized currently in earnings. All changes in the fair value of interest rate swaps that do not qualify for hedge accounting treatment are recorded as gain (loss) on interest rate swaps. Amounts received or paid under interest rate swap agreements are recorded as interest expense for contracts that qualify for hedge accounting treatment and as gain (loss) on interest rate swaps for contracts that do not qualify for hedge accounting treatment. The following tables provide additional information related to Columbia Property Trust's interest rate swaps (in thousands):

Instrument Type	Balance Sheet Classification	Estimated Fair Value as of			
		June 30, 2016		December 31, 2015	
Derivatives designated as hedging instruments:					
Interest rate contracts	Accounts payable	\$ (9,315)		\$ (2,436)	
Columbia Property Trust applied the provisions of ASC 820 in recording its interest rate swaps at fair value. The fair values of the interest rate swaps, classified under Level 2, were determined using a third-party proprietary model that is based on prevailing market data for contracts with matching durations, current and anticipated London Interbank Offered Rate ("LIBOR") information, and reasonable estimates about relevant future market conditions. Columbia Property Trust has determined that the fair value, as determined by the third party, is reasonable.					
		Three Months Ended June 30, 2016	Six Months Ended June 30, 2015	Three Months Ended June 30, 2016	Six Months Ended June 30, 2015
Market value adjustment to interest rate swaps designated as hedging instruments and included in other comprehensive income		\$ (2,022)	\$ 436	\$ (6,879)	\$ 595
Loss on interest rate swap recognized through earnings		\$ —	\$ (2)	\$ —	\$ (8)
During the periods presented, there was no hedge ineffectiveness required to be recognized into earnings on the interest rate swaps that qualified for hedge accounting treatment.					

Income Taxes

Columbia Property Trust has elected to be taxed as a REIT under the Internal Revenue Code of 1986, as amended (the "Code"), and has operated as such beginning with its taxable year ended December 31, 2003. To qualify as a REIT, Columbia Property Trust must meet certain organizational and operational requirements, including a requirement to distribute at least 90% of its REIT taxable income, as defined by the Code, to its stockholders. As a REIT, Columbia Property Trust generally is not subject to income tax on income it distributes to stockholders. Columbia Property Trust's stockholder distributions typically exceed its taxable income due to the inclusion of noncash expenses, such as depreciation, in taxable income. As a result, Columbia Property Trust typically does not incur federal income taxes other than as described in the following paragraph. Columbia Property Trust is, however, subject to certain state and local taxes related to the operations of properties in certain locations, which have been provided for in the accompanying consolidated financial statements.

Columbia Property Trust TRS, LLC ("Columbia Property Trust TRS"), Columbia KCP TRS, LLC ("Columbia KCP TRS"), and Columbia Energy TRS, LLC ("Columbia Energy TRS") (collectively, the "TRS Entities") are wholly owned subsidiaries of Columbia Property Trust, are organized as Delaware limited liability companies, and operate, among other things, office properties that Columbia Property Trust does not intend to hold long term and a full-service hotel. Columbia Property Trust has elected to treat the TRS Entities as taxable REIT subsidiaries. Columbia Property Trust may perform certain additional, noncustomary services for tenants of its buildings through the TRS Entities; however, any earnings related to such services are subject to federal and state income taxes. In addition, for Columbia Property Trust to continue to qualify as a REIT, Columbia Property Trust must limit its investments in taxable REIT subsidiaries to 25% of the value of the total assets. The TRS Entities' deferred tax assets and liabilities represent temporary differences between the financial reporting basis and the tax basis of assets and liabilities based on the enacted rates expected to be in effect when the temporary differences reverse. If applicable, Columbia Property Trust records interest and penalties related to uncertain tax positions as general and administrative expense in the accompanying consolidated statements of operations.

Recent Accounting Pronouncement

In February 2016, the Financial Accounting Standards Board issued ASU 2016-02, Leases ("ASU 2016-02"), which amends the existing standards for lease accounting by requiring lessees to recognize most leases on their balance sheets, and making targeted changes to lessor accounting and reporting. The new standard will require lessees to record a right-of-use asset and a lease liability for all leases with a term of greater than 12 months, and classify such leases as either finance or operating leases based on the principle of whether or not the lease is effectively a financed

purchase of the leased asset by the lessee. This classification will determine whether the lease expense is recognized based on an effective interest method (finance leases), or on a straight-line basis over the term of the lease (operating leases). Leases with a term of 12 months or less will be accounted for similar to existing

guidance for operating leases today. The new standard requires lessors to account for leases using an approach that is substantially equivalent to existing guidance as applies to sales-type leases, direct financing leases, and operating leases. ASU 2016-02 supersedes previous leasing standards. ASU 2016-02 is effective for Columbia Property Trust for reporting periods beginning after December 15, 2018, with early adoption permitted. Columbia Property Trust is evaluating the impact ASU 2016-02 will have on its financial position and results of operations.

3. Real Estate Transactions

Note 2, Summary of Significant Accounting Policies, provides a discussion of the estimated useful life for each asset class.

315 Park Avenue South Building & 1881 Campus Commons Building

On January 7, 2015, Columbia Property Trust acquired two assets, 315 Park Avenue South, a 327,000-square-foot office building in New York, New York (the "315 Park Avenue South Building"), and 1881 Campus Commons, a 244,000-square-foot office building in Reston, Virginia (the "1881 Campus Commons Building"). This portfolio was acquired for \$436.0 million, exclusive of transaction costs and purchase price adjustments, using proceeds from the issuance of \$350.0 million bonds payable due in 2025, proceeds from the Revolving Credit Facility, as described in Note 5, Line of Credit and Notes Payable, and cash on hand.

As of the acquisition date, the 315 Park Avenue South Building was 94.9% leased to nine tenants, including Credit Suisse (74%). For the period from January 7, 2015 to June 30, 2015, Columbia Property Trust recognized revenues of \$12.9 million and a net loss of \$2.6 million from the 315 Park Avenue South Building. The net loss includes acquisition expenses of \$1.2 million.

As of the acquisition date, the 1881 Campus Commons Building was 78.0% leased to 15 tenants, including SOS International (15%) and Siemens (12%). For the period from January 7, 2015 to June 30, 2015, Columbia Property Trust recognized revenues of \$3.0 million and a net loss of \$1.1 million from the 1881 Campus Commons Building. The net loss includes acquisition expenses of \$0.5 million.

116 Huntington Avenue Building

On January 8, 2015, Columbia Property Trust acquired a 271,000-square-foot office building in Boston, Massachusetts (the "116 Huntington Avenue Building"), for \$152.0 million, inclusive of capital credits, using proceeds from the issuance of \$350.0 million bonds payable due in 2025, proceeds from the Revolving Credit Facility, and cash on hand. As of the acquisition date, the 116 Huntington Avenue Building was 78.0% leased to 17 tenants, including American Tower (21%), GE Healthcare (13%), and Brigham and Women's (12%). For the period from January 8, 2015 to June 30, 2015, Columbia Property Trust recognized revenues of \$5.6 million and a net loss of \$0.4

million from the 116 Huntington Avenue Building. The net loss includes acquisition expenses of \$0.3 million.
229 West 43rd Street Building

On August 4, 2015, Columbia Property Trust acquired the 481,000-square-foot office portion of the 229 West 43rd Street building, a 16-story, 732,000-square-foot building located in the Times Square sub-market of Manhattan in New York, New York (the "229 West 43rd Street Building"), for \$516.0 million, exclusive of transaction costs and purchase price adjustments. This acquisition was funded with the \$300 Million Bridge Loan, as described in Note 5, Line of Credit and Notes Payable, and borrowings on the

Revolving Credit Facility. As of the acquisition date, the 229 West 43rd Street Building was 98% leased to nine tenants, including Yahoo! (40%), Snapchat (13%), Collective, Inc. (12%), and MongoDB (10%).

Proforma Financial Information

The following unaudited pro forma statements of operations presented for the three and six months ended June 30, 2015, have been prepared for Columbia Property Trust to give effect to the acquisitions of the 315 Park Avenue South Building, the 1881 Campus Commons Building, the 116 Huntington Avenue Building, and the 229 West 43rd Street Building as if the acquisitions occurred on January 1, 2014. Other than 1881 Campus Commons, which was sold in December 2015, Columbia Property Trust owned these buildings for the entirety of the three and six months ended June 30, 2016. The following unaudited pro forma financial results for Columbia Property Trust have been prepared for informational purposes only and are not necessarily indicative of future results or of actual results that would have been achieved had these acquisitions been consummated as of January 1, 2014 (in thousands).

	Three Months Ended June 30, 2015	Six Months Ended June 30, 2015

Dispositions

During 2016 and 2015, Columbia Property Trust closed on the following transactions:

800 North Frederick Property

On July 8, 2016, Columbia Property Trust sold the 800 North Frederick Property in suburban Maryland for \$48.0 million, before purchase price adjustments, and will recognize a gain of approximately \$2.1 million on the sale in the third quarter of 2016. The net sale proceeds of \$45.4 million were used to reduce the outstanding balance of the Revolving Credit Facility.

100 East Pratt Property

On March 31, 2016, Columbia Property Trust sold the 100 East Pratt Property in Baltimore, Maryland, for \$187.0 million, before purchase price adjustments, and recognized a \$0.3 million loss on the sale. The net sale proceeds of \$159.4 million were used to repay \$119.0 million remaining on the \$300 Million Bridge Loan on April 1, 2016, and to reduce the outstanding balance of the Revolving Credit Facility.

1881 Campus Commons Building

On December 10, 2015, Columbia Property Trust sold the 1881 Campus Commons Building in Reston, Virginia, for \$65.0 million, exclusive of purchase price adjustments and closing costs, yielding a gain of \$0.5 million. The proceeds from the sale of the 1881 Campus Commons Building were used to reduce the outstanding balance of the \$300 Million Bridge Loan.

Market Square Buildings - Partial Sale

On October 28, 2015, Columbia Property Trust transferred the Market Square Buildings and the related \$325.0 million mortgage note to a joint venture (the "Market Square Joint Venture") and sold a 49% interest in the Market Square Joint Venture to Blackstone Property Partners ("Blackstone") for approximately \$120.0 million of net proceeds, which were used to repay a portion of the \$300 Million Bridge Loan. As a result of this transaction, Columbia Property Trust recognized a gain on real estate of \$3.1 million and retains a 51% interest in the Market Square Joint Venture. The Market Square Joint Venture owns and operates the Market Square Buildings through a REIT ("Market Square REIT East & West, LLC"). See Note 4, Unconsolidated Joint Venture, for additional information.

11 Property Sale

On July 1, 2015, Columbia Property Trust sold 11 properties to an unaffiliated third party for \$433.3 million, exclusive of closing costs (the "11 Property Sale"), which resulted in a gain of \$20.2 million. The proceeds for 10 of the properties were available on July 1, 2015, and the remaining proceeds were available on August 3, 2015. For the period from January 1, 2015 through July 1, 2015, the aggregate net income, excluding the gain on sale, for the properties included in the 11 Property Sale was \$6.5 million. The following properties make up the 11 Property Sale:

170 Park Avenue Bannockburn Lake III Acxiom
 180 Park Avenue 544 Lakeview 215 Diehl Road
 Robbins Road Highland Landmark III 1580 West Nursery
 550 King Street The Corridors III

4. Unconsolidated Joint Venture

Columbia Property Trust owns a majority interest of 51% in the Market Square Joint Venture, and Blackstone owns the remaining 49% interest in the joint venture. The Market Square Joint Venture owns and operates the Market Square Buildings through Market Square REIT East & West, LLC, which operates as a REIT. The Market Square Buildings are two, 13-story office buildings containing 698,000 square feet of office space in Washington, D.C. Columbia Property Trust shares substantive participation rights with Blackstone, including management selection and termination, and the approval of material operating and capital decisions. As such, Columbia Property Trust uses the equity method of accounting to record its investment in the Market Square Joint Venture. Under the equity method, the investment in the joint venture is recorded at cost and adjusted for cash contributions and distributions, and allocations of income (loss). Cash distributions and earnings are allocated according to the provisions of the joint venture agreement, which are consistent with the ownership percentages for the Market Square Joint Venture. Columbia Property Trust evaluates the recoverability of its investment in unconsolidated joint venture in accordance with accounting standards for equity investments by first reviewing the investment for any indicators of impairment. If indicators are present, Columbia Property Trust estimates the fair value of the investment. If the carrying value of the investment is greater than the estimated fair value, management makes an assessment of whether the impairment is "temporary" or "other-than-temporary." In making this assessment, management considers the following: (1) the length of time and the extent to which fair value has been less than cost, and (2) Columbia Property Trust's intent and ability to retain its interest long enough for a recovery in market value.

As of June 30, 2016, the outstanding balance on the interest-only Market Square mortgage note is \$325.0 million, bearing interest at 5.07%. The Market Square mortgage note matures on July 1, 2023. On October 28, 2015, Columbia Property Trust entered into a guaranty of a \$25.0 million portion of the Market Square mortgage note, the amount of which has been reduced to \$23.3 million as of June 30, 2016, as a result of leasing at the Market Square Buildings.

The amount of the guaranty will continue to be reduced as space is leased.

Condensed balance sheet information for the Market Square Joint Venture is as follows (in thousands):

	June 30, 2016	December 31, 2015
Total assets	\$578,416	\$573,073
Total debt	\$324,629	\$324,603
Total equity	\$238,156	\$230,060
Columbia Property Trust's investment	\$123,919	\$118,695

Condensed income statement information for the Market Square Joint Venture is as follows (in thousands). The Market Square Joint Venture was formed subsequent to June 30, 2015.

	Three Months Ended June 30, 2016	Six Months Ended June 30, 2016
Total revenues	\$9,776	\$21,439
Net loss	\$(3,827)	\$(6,870)
Columbia Property Trust's share	\$(1,952)	\$(3,504)

Columbia Property Trust provides property and asset management services to the Market Square Joint Venture. Under these agreements, Columbia Property Trust oversees the day-to-day operations of the Market Square Joint Venture and the Market Square Buildings, including property management, property accounting, and other property services. Columbia Property Trust receives property management fees equal to 3.0% of the gross revenue of the Market Square Buildings and reimbursements of property operating costs, payable monthly, and receives asset management fees of \$1.0 million annually, payable in equal quarterly installments. During the three and six months ended June 30, 2016, Columbia Property Trust earned \$0.6 million and \$1.3 million, respectively, in fees related to these asset and property management services, which are included in other property income on the accompanying consolidated statement of operations. The Market Square Joint Venture was formed in October 2015, so similar fees were not earned during the six months ended June 30, 2015. As of June 30, 2016, \$0.1 million in property management fees were due from the Market Square Joint Venture, and included in prepaid expenses and other assets on the accompanying consolidated balance sheet.

5. Line of Credit and Notes Payable

As of June 30, 2016 and December 31, 2015, Columbia Property Trust had the following line of credit and notes payable indebtedness (excluding bonds payable; see Note 6, Bonds Payable) in thousands:

Facility	June 30, 2016	December 31, 2015
Revolving Credit Facility	\$333,000	\$247,000

Total indebtedness	\$1,056,690	\$1,130,571
Fair Value of Debt		

The estimated fair value of Columbia Property Trust's line of credit and notes payable as of June 30, 2016 and December 31, 2015, was approximately \$1,065.4 million and \$1,140.1 million, respectively. The related carrying value of the line of credit and notes payable as of June 30, 2016 and December 31, 2015, was \$1,060.4 million and \$1,135.1 million, respectively. Columbia Property Trust estimated the fair value of the \$300 Million Term Loan (the "\$300 Million Term Loan") and the Revolving Credit Facility (the "Revolving Credit Facility") by obtaining estimates for similar facilities from multiple market participants as of the respective reporting dates. Therefore, the fair values determined are considered to be based on observable market data for similar instruments (Level 2). The fair values of all other debt instruments were estimated based on discounted cash flow analyses using the current incremental borrowing rates for similar types of borrowing arrangements as of the respective reporting dates. The discounted cash flow method of assessing fair value results in a general approximation of value, and such value may never actually be realized.

Interest Paid and Capitalized and Debt Covenants

During the six months ended June 30, 2016 and 2015, Columbia Property Trust made interest payments totaling approximately \$15.2 million and \$30.7 million, respectively, of which approximately \$0.1 million and \$0.2 million were capitalized during the six months ended June 30, 2016 and 2015, respectively. As of June 30, 2016, Columbia Property Trust believes it was in compliance with the restrictive financial covenants on its term loans, the Revolving Credit Facility, and notes payable obligations.

Debt Repayments

On June 30, 2016, Columbia Property Trust used borrowings on the Revolving Credit Facility to repay the \$39.0 million SanTan Corporate Center mortgage notes, which were scheduled to mature on October 11, 2016. In the second

quarter of 2016, Columbia Property Trust wrote-off approximately \$10,000 of related unamortized financing costs, which are included in loss on early extinguishment in the accompanying statements of operations.

Table of Contents

On April 1, 2016, Columbia Property Trust repaid the \$119.0 million remaining on its \$300 million, six-month unsecured loan, which was used to finance a portion of the 229 West 43rd Street Building acquisition in August of 2015 (the "\$300 Million Bridge Loan"). The \$300 Million Bridge Loan was scheduled to mature on August 4, 2016. Columbia Property Trust recognized a loss on early extinguishment of debt of \$82,000 related to unamortized deferred financing costs.

6. Bonds Payable

In March 2015, Columbia Property Trust OP issued \$350.0 million of ten-year, unsecured 4.150% senior notes at 99.859% of their face value (the "2025 Bonds Payable"), which are guaranteed by Columbia Property Trust. Columbia Property Trust OP received proceeds from the 2025 Bonds Payable, net of fees, of \$347.2 million. The 2025 Bonds Payable require semi-annual interest payments in April and October based on a contractual annual interest rate of 4.150%. In the accompanying consolidated balance sheets, the 2025 Bonds Payable are shown net of the initial issuance discount of approximately \$0.5 million, which will be amortized to interest expense over the term of the 2025 Bonds Payable using the effective interest method. The principal amount of the 2025 Bonds Payable is due and payable on the maturity date, April 1, 2025.

In 2011, Columbia Property Trust OP issued \$250.0 million of seven-year, unsecured 5.875% senior notes at 99.295% of their face value (the "2018 Bonds Payable"), which are guaranteed by Columbia Property Trust. Columbia Property Trust OP received proceeds from the 2018 Bonds Payable, net of fees, of \$246.7 million. The 2018 Bonds Payable require semi-annual interest payments in April and October based on a contractual annual interest rate of 5.875%, which is subject to adjustment in certain circumstances. In the accompanying consolidated balance sheets, the 2018 Bonds Payable are shown net of the initial issuance discount of approximately \$1.8 million, which is amortized to interest expense over the term of the 2018 Bonds Payable using the effective interest method. The principal amount of the 2018 Bonds Payable is due and payable on the maturity date, April 1, 2018.

Interest payments of \$14.6 million were made on the 2018 Bonds Payable and the 2025 Bonds Payable during the six months ended June 30, 2016; and interest payments of \$7.3 million were made on the 2018 Bonds Payable during the six months ended June 30, 2015. Columbia Property Trust is subject to substantially similar covenants under the 2025 Bonds Payable and the 2018 Bonds Payable. As of June 30, 2016, Columbia Property Trust believes it was in compliance with the restrictive financial covenants on the 2025 Bonds Payable and the 2018 Bonds Payable.

As of June 30, 2016 and December 31, 2015, the estimated fair value of the 2025 Bonds Payable and the 2018 Bonds Payable was approximately \$602.1 million and \$602.3 million, respectively. The related carrying value of the bonds payable, net of discounts, as of June 30, 2016 and December 31, 2015, was \$599.1 million and \$599.0 million, respectively. The fair value of the bonds payable was estimated based on discounted cash flow analyses using the current incremental borrowing rates for similar types of borrowings as the 2025 Bonds Payable and the 2018 Bonds Payable arrangements as of the respective reporting dates (Level 2). The discounted cash flow method of assessing fair value results in a general approximation of value, and such value may never actually be realized.

7. Commitments and Contingencies

Commitments Under Existing Lease Agreements

Certain lease agreements include provisions that, at the option of the tenant, may obligate Columbia Property Trust to expend capital to expand an existing property or provide other expenditures for the benefit of the tenant. As of June 30, 2016, Columbia Property Trust is committed, under a recently signed lease, to contribute approximately \$70.1 million toward leasehold improvements at our 222 East 41st Street Property, which is expected to be paid during 2016 and 2017.

Guaranty of Debt of Unconsolidated Joint Venture

Upon entering into the Market Square Joint Venture in October 2015, Columbia Property Trust entered into a guaranty of a \$25.0 million portion of the Market Square mortgage note, the amount of which is reduced as space is leased. As a result of leasing to date, the guaranty has been reduced to \$23.3 million as of June 30, 2016. Columbia Property Trust believes that the likelihood of making a payment under this guaranty is remote; therefore, no liability has been recorded related to this guaranty as of June 30, 2016.

Litigation

Columbia Property Trust is subject to various legal proceedings, claims, and administrative proceedings arising in the ordinary course of business, some of which are expected to be covered by liability insurance. Management makes assumptions and estimates concerning the likelihood and amount of any reasonably possible loss relating to these matters using the latest information available. Columbia Property Trust records a liability for litigation if an unfavorable outcome is probable and the amount of loss or range of loss can be reasonably estimated. If an unfavorable outcome is probable and a reasonable estimate of the loss is a range, Columbia

Table of Contents

Property Trust accrues the best estimate within the range. If no amount within the range is a better estimate than any other amount, Columbia Property Trust accrues the minimum amount within the range. If an unfavorable outcome is probable but the amount of the loss cannot be reasonably estimated, Columbia Property Trust discloses the nature of the litigation and indicates that an estimate of the loss or range of loss cannot be made. If an unfavorable outcome is reasonably possible and the estimated loss is material, Columbia Property Trust discloses the nature and estimate of the possible loss of the litigation. Columbia Property Trust does not disclose information with respect to litigation where the possibility of an unfavorable outcome is considered to be remote. Based on current expectations, such matters, both individually and in the aggregate, are not expected to have a material adverse effect on the liquidity, results of operations, business, or financial condition of Columbia Property Trust. Columbia Property Trust is not currently involved in any legal proceedings of which management would consider the outcome to be reasonably likely to have a material adverse effect on the results of operations, liquidity, or financial condition of Columbia Property Trust.

8. Stockholders' Equity

Common Stock Repurchase Program

Columbia Property Trust's board of directors has authorized the repurchase of up to an aggregate of \$200 million of its common stock, par value \$0.01 per share, through September 4, 2017 (the "Stock Repurchase Program"). Since this program commenced on September 4, 2015, Columbia Property Trust has spent a total of \$41.3 million to acquire 1.8 million shares at an average price of \$22.60 per share. As of June 30, 2016, \$158.7 million remains available for repurchases under the Stock Repurchase Program. Common stock repurchases are charged against equity as incurred, and the repurchased shares are retired. Columbia Property Trust will continue to evaluate the purchase of shares, primarily through open market transactions which are subject to market conditions and other factors.

Long-Term Incentive Plan

Columbia Property Trust maintains a shareholder approved, long-term incentive plan that provides for grants of up to 2.0 million shares of stock to be made to certain employees and independent directors of Columbia Property Trust (the "LTIP"). On January 21, 2016, Columbia Property Trust granted 231,015 shares of common stock to employees, net of 20,842 shares repurchased to fund income tax withholdings, under the LTIP (the "2015 LTIP Employee Grant"), of which 25% vested upon grant, and the remaining shares will vest in three equal increments on January 31, 2017, 2018, and 2019. Employees will receive quarterly dividends related to their entire grant, including the unvested shares, on each dividend payment date. A summary of the activity for the employee stock grants under the LTIP for the six months ended June 30, 2016 follows:

	For the Six Months Ended June 30, 2016	
	Shares	Weighted-Average Grant-Date Fair Value ⁽¹⁾
	(in thousands)	(in dollars)
Unvested shares - beginning of period	151	\$ 24.59
Granted	247	\$ 21.79
Vested	(138)	\$ 23.32
Forfeited	(3)	\$ 21.90
Unvested shares - end of period ⁽²⁾	257	\$ 22.62

(1) Columbia Property Trust determined the weighted-average grant-date fair value using the market closing price on the date of the respective grants.

As of June 30, 2016, we expect approximately 244,000 of the 257,000 unvested shares to ultimately vest, assuming

(2) a forfeiture rate of 5.0%, which was determined based on peer company data, adjusted for the specifics of the LTIP.

Table of Contents

During the six months ended June 30, 2016 and 2015, Columbia Property Trust paid quarterly installments of the independent directors' annual equity retainers by granting shares to the independent directors, which vested at the time of grant. A summary of these grants, made under the LTIP, follows:

Date of Grant	Shares	Grant-Date Fair Value
2016 Director Grants:		
January 4, 2016	7,439	\$ 23.00
April 1, 2016	8,120	\$ 21.89
2015 Director Grants:		
January 2, 2015	5,850	\$ 25.75
April 1, 2015	4,995	\$ 27.16

For the three and six months ended June 30, 2016 and 2015, Columbia Property Trust incurred the stock-based compensation expense related to the following events (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2016	2015	2016	2015
Amortization of unvested LTIP awards	\$689	\$364	\$1,540	\$927

Issuance of shares to independent directors	178	135	349	286
Total stock-based compensation expense	\$1,213	\$1,015	\$2,595	\$2,029

These future employee awards relate to service during the period, to be granted in January of the subsequent year, ⁽¹⁾ with 25% vesting on the date of grant, and the remaining 75% vesting ratably on January 31st of each of the following three years.

These expenses are included in general and administrative expenses in the accompanying consolidated statements of operations. As of June 30, 2016 and December 31, 2015, there was \$4.4 million and \$2.2 million, respectively, of unrecognized compensation costs related to unvested awards under the LTIP. This amount will be amortized over the respective vesting period, ranging from one to three years at the time of grant.

9. Supplemental Disclosures of Noncash Investing and Financing Activities

11. Financial Information for Parent Guarantor, Issuer Subsidiary, and Non-Guarantor Subsidiaries

The 2025 Bonds Payable and the 2018 Bonds Payable (see Note 6, Bonds Payable) were issued by Columbia Property Trust OP, and are guaranteed by Columbia Property Trust. In accordance with SEC Rule 3-10(c), Columbia Property Trust includes herein condensed consolidating financial information in lieu of separate financial statements of the subsidiary issuer (Columbia Property Trust OP), as defined in the bond indentures, because all of the following criteria are met:

- (1) The subsidiary issuer (Columbia Property Trust OP) is 100% owned by the parent company guarantor (Columbia Property Trust);
- (2) The guarantee is full and unconditional; and
- (3) No other subsidiary of the parent company guarantor (Columbia Property Trust) guarantees the 2025 Bonds Payable or the 2018 Bonds Payable.

Columbia Property Trust uses the equity method with respect to its investment in subsidiaries included in its condensed consolidating financial statements. Set forth below are Columbia Property Trust's condensed consolidating balance sheets as of June 30, 2016 and December 31, 2015 (in thousands), as well as its condensed consolidating statements of operations and its condensed consolidating statements of comprehensive income for the three and six months ended June 30, 2016 and 2015 (in thousands); and its condensed consolidating statements of cash flows for the six months ended June 30, 2016 and 2015 (in thousands).

12. Subsequent Events

Columbia Property Trust has evaluated subsequent events in connection with the preparation of its consolidated financial statements and notes thereto included in this report and noted the following items in addition to those disclosed elsewhere in this report:

Property Disposition

On July 8, 2016, Columbia Property Trust closed on the sale of the 800 North Frederick Building, as described in Note 3, Real Estate Transactions.

ITEM MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF
2. OPERATIONS

The following discussion and analysis should be read in conjunction with our accompanying consolidated financial statements (and notes thereto) and the "Cautionary Note Regarding Forward-Looking Statements" preceding Part I of this report, as well as our consolidated financial statements (and the notes thereto) and Management's Discussion and Analysis of Financial Condition and Results of Operations included in our 2015 Form 10-K.

Executive Summary

Our primary strategic objective is to generate long-term shareholder returns through growth in net asset values, with a focus on high-barrier-to-entry markets. Capital recycling initiatives are enabling us to improve our concentration in key markets and central business districts, as well as to reduce our exposure to single-tenant assets. Since January of 2015, we have invested \$1.0 billion in New York and Boston acquisitions, and sold 14 properties situated in outlying markets for \$0.7 billion (including the recent sale of the 800 North Frederick Road Building in suburban Maryland on July 8, 2016 for \$48.0 million). We are continuing to explore the potential sale of additional non-core assets, and remain focused on pursuing investment opportunities that will allow us to increase our portfolio allocation to central business district properties, multi-tenant buildings and primary, high-barrier markets and, at the same time, seeking to optimize our portfolio allocation between traditional, stabilized core investments and growth-oriented, value-add investments. While transitioning the portfolio to more growth-oriented, value-add properties is likely to cause some dilution in earnings for a period of time, we believe that this transition will improve the opportunity for growth over the longer term.

We are continuing to proactively manage our upcoming lease expirations. In the second quarter of 2016, we leased 595,515 square feet. In April, we executed a 30-year, full building lease of 390,000-square feet at the 222 East 41st Street property in New York, which replaces a lease for the majority of the building that was scheduled to expire later this year; and in June, we executed a 35,000-square-foot lease at the 315 Park Avenue South Buildings in New York and a 130,000-square foot lease renewal at the SanTan property in Phoenix, Arizona.

We continue to support a flexible balance sheet, by maintaining low leverage, with an emphasis on unsecured borrowings, and a stock repurchase program. Since January 1, 2015, we have refinanced approximately \$1.0 billion of unsecured debt and repaid \$371.5 million of mortgage loans. As a result, over this period we have extended our weighted average debt maturity from 3.3 years to 4.8 years, decreased our weighted-average cost of borrowing from 4.24% per annum to 3.18% per annum, and increased our unencumbered pool of assets as a percentage of gross real estate assets from 61.7% to 81.2%. Our stock repurchase program authorizes us to purchase up to \$200.0 million of our common stock through September of 2017. We believe such a program enables us to benefit from market downturns, which may cause our stock to be undervalued from time to time. To date, we have purchased an aggregate of \$41.3 million of common stock, including \$25.0 million purchased in early 2016.

Key Performance Indicators

Our operating results depend primarily upon the level of income generated by the leases at our properties. Occupancy and rental rates are critical drivers of our lease income. Over the last year, our average portfolio percentage leased ranged from 87.8% to 93.3%. The following table sets forth details related to recent leasing activities, which drive changes in our rental revenues:

(1) Includes our pro-rata share (51%) of total leased at the Market Square Buildings (14,000 square feet of renewal leasing quarter to date and 16,000 square feet of renewal leasing year to date).

(2) Includes our pro-rata share (51%) of total leased at the Market Square Buildings (4,000 square feet of new leasing quarter to date and 9,000 square feet of new leasing year to date).

(3) Rent leasing spreads for renewal leases are calculated based on the change in base rental income measured on a straight-line basis.

(4) Rent leasing spreads for new leases are calculated only for properties that have been vacant less than one year, and are measured on a straight-line basis.

In 2016, rent leasing spreads are positive and tenant improvements per square foot increased due to a 390,000-square-foot, 30-year lease at our 222 East 41st Street Property and a 130,000-square foot lease renewal at our SanTan Corporate Center property in Phoenix, Arizona. In 2015, rent leasing spreads were positive due to a lease expansion and extension with the anchor tenant at our 221 Main Street Building in San Francisco, California. Over the next 12 months, approximately 968,000 square feet of our leases (approximately 10% of our office portfolio based on revenues) are scheduled to expire. Approximately 460,000 of this total relates to properties currently being marketed for sale. The remainder of the near-term expirations primarily relate to our properties in New York, San Francisco, and Washington, D.C. Overall, we expect to replace these leases with starting rates above those currently in place at the properties.

Liquidity and Capital Resources

Overview

Cash flows generated from the operation of our properties are primarily used to fund recurring expenditures and stockholder dividends. Our board of directors elected to maintain the quarterly stockholder distribution rate of \$0.30 per share for the second quarter of 2016. The amount of distributions to common stockholders is determined by our board of directors and is dependent upon a number of factors, including funds deemed available for distribution based principally on our current and future projected operating cash flows, reduced by capital requirements necessary to maintain our existing portfolio. In determining the amount of distributions to common stockholders, we also consider our future capital needs and future sources of liquidity, as well as the annual distribution requirements necessary to

maintain our status as a REIT under the Code. Investments in new property acquisitions and first-generation capital improvements are generally funded with capital proceeds from property sales, debt, or cash on hand.

Short-term Liquidity and Capital Resources

During the six months ended June 30, 2016, we generated net cash flows from operating activities of \$89.4 million, which consists primarily of receipts from tenants for rent and reimbursements, reduced by payments for operating costs, administrative expenses,

and interest expense. During the same period, we paid total distributions to stockholders of \$111.4 million, which includes dividend payments of \$37.4 million for the fourth quarter of 2015, and \$74.0 million for the first and second quarters of 2016.

During the six months ended June 30, 2016, we generated net proceeds of \$159.4 million from the sale of the 100 East Pratt Building and used those proceeds, along with \$86.0 million of net borrowings on our revolving credit facility, to repay the \$119.0 million remaining on the \$300 Million Bridge Loan and the \$39.0 million SanTan Corporate Center mortgage notes, to fund \$45.2 million of leasing and capital projects, and to redeem \$26.2 million of our common stock.

Over the short-term, we expect our primary sources of capital to be operating cash flows, select property dispositions, and future debt financings. We expect that our principal demands for funds will be operating expenses, distributions to stockholders, capital improvements to our existing assets, stock repurchases, property acquisitions, and interest and principal payments on current and maturing debt. We believe that we have adequate liquidity and capital resources to meet our current obligations as they come due. As of July 25, 2016, we had access to \$224.0 million of the borrowing capacity under the Revolving Credit Facility.

Long-term Liquidity and Capital Resources

Over the long term, we expect that our primary sources of capital will include operating cash flows, select property dispositions, and proceeds from secured or unsecured borrowings. We expect that our primary uses of capital will continue to include stockholder distributions; acquisitions; capital expenditures, such as building improvements, tenant improvements, and leasing costs; and repaying or refinancing debt.

Consistent with our financing objectives and operational strategy, we continue to maintain debt levels historically less than 40% of the cost of our assets. We believe that preserving investor capital while generating stable current income is in the best interest of our stockholders. Our debt-to-real-estate-asset ratio is calculated using the outstanding debt balance and real estate at cost. As of June 30, 2016, our debt-to-real-estate-asset ratio, including our pro-rata share (51%) of the Market Square Joint Venture, was approximately 35.8%.

Revolving Credit Facility

The Revolving Credit Facility has a capacity of \$500.0 million and matures in July 2019, with two, six-month extension options. As of June 30, 2016, we had an outstanding balance of \$333.0 million on the Revolving Credit Facility. Amounts outstanding under the Revolving Credit Facility bear interest at LIBOR, plus an applicable margin ranging from 0.875% to 1.55% for LIBOR borrowings, or an alternate base rate, plus an applicable margin ranging from 0.00% to 0.55% for base-rate borrowings, based on our applicable credit rating. The per-annum facility fee on the aggregate revolving commitment (used or unused) ranges from 0.125% to 0.30%, also based on our applicable credit rating. Additionally, we have the ability to increase the capacity of the Revolving Credit Facility, along with the \$300 Million Term Loan, which provides for four accordion options for an aggregate amount of up to \$400 million, subject to certain limitations.

Term Loans

The \$300 Million Term Loan matures in July 2020 and, along with the Revolving Credit Facility, provides for four accordion options for an aggregate amount of up to \$400 million, subject to certain conditions. The \$300 Million Term Loan bears interest, at our option, at either (i) LIBOR, plus an applicable margin ranging from 0.90% to 1.75% for LIBOR loans, or (ii) an alternate base rate, plus an applicable margin ranging from 0.00% to 0.75% for base rate loans, based on our applicable credit rating.

The \$150 Million Term Loan matures in July 2022 (the "\$150 Million Term Loan"). The \$150 Million Term Loan bears interest, at our option, at either (i) LIBOR, plus an applicable margin ranging from 1.40% to 2.35% for LIBOR loans, or (ii) an alternate base rate, plus an applicable margin ranging from 0.40% to 1.35% for base rate loans. The interest rate on the \$150 Million Term Loan is effectively fixed with an interest rate swap agreement. Based on the terms of the interest rate swap and our current credit rating, the interest rate on the \$150 Million Term Loan is effectively fixed at 3.52%.

Bonds Payable

In March 2015, we issued \$350.0 million of ten-year, unsecured 4.150% senior notes at 99.859% of their face value under our Universal Shelf Registration Statement (defined below). We received proceeds from the 2025 Bonds Payable, net of fees, of \$347.2 million. The 2025 Bonds Payable require semi-annual interest payments in April and

October based on a contractual annual interest rate of 4.150%. The principal amount of the 2025 Bonds Payable is due and payable on the maturity date, April 1, 2025.

Also, in 2011, we issued \$250.0 million of seven-year, unsecured 5.875% senior notes at 99.295% of their face value. We received proceeds from the 2018 Bonds Payable, net of fees, of \$246.7 million. The 2018 Bonds Payable require semi-annual interest payments in April and October based on a contractual annual interest rate of 5.875%, which is subject to adjustment in certain circumstances. The principal amount of the 2018 Bonds Payable is due and payable on the maturity date, April 1, 2018.

Debt Covenants

Our portfolio debt instruments, the \$300 Million Term Loan, the \$150 Million Term Loan, the Revolving Credit Facility, the 2025 Bonds Payable, and the 2018 Bonds Payable, contain certain covenants and restrictions that require us to meet certain financial ratios. We believe we were in compliance with all of our debt covenants as of June 30, 2016. We expect to continue to be able to meet the requirements of our debt covenants over the next 12 months.

Universal Shelf Registration Statement

We have on file a universal shelf registration statement on Form S-3 (No. 333-198764) with the SEC (the "Universal Shelf Registration Statement"), which was effective upon filing in September 2014. The Universal Shelf Registration Statement provides us with future flexibility to offer, from time to time and in one or more offerings, debt securities, common stock, preferred stock, depositary shares, warrants, or any combination thereof. The terms of any such future offerings would be established at the time of an offering.

Contractual Commitments and Contingencies

As of June 30, 2016, our contractual obligations will become payable in the following periods (in thousands):

Contractual Obligations	Total	2016	2017-2018	2019-2020	Thereafter
Debt obligations ⁽¹⁾	\$1,826,115	\$2,762	\$403,587	\$754,016	\$665,750

Reflects debt and interest obligations on debt, including our pro-rata share (51%) of the Market Square Buildings

⁽¹⁾ note payable. We guarantee \$23.3 million of the Market Square Buildings note payable (see Note 7, Commitments & Contingencies, to the accompanying financial statements).

Interest obligations on variable-rate debt are measured at the rate at which they are effectively fixed with interest rate swap agreements (where applicable), a portion of which is reflected as gain (loss) on interest rate swaps in our

⁽²⁾ accompanying consolidated statements of operations. Interest obligations on all other debt are measured at the contractual rate. See Item 3, Quantitative and Qualitative Disclosure About Market Risk, for more information regarding our interest rate swaps.

Amounts include principal obligations only. We made interest payments on these obligations of \$3.6 million during the six months ended June 30, 2016, all of which was funded with interest income earned on the corresponding investments in development authority bonds. These obligations will be fully satisfied at maturity with equivalent investments in development authority bonds.

Reflects obligations related to ground leases at certain properties, as describe in Note 2, Summary of Significant Accounting Policies. In addition to the amounts shown, certain lease agreements include provisions that, at the ⁽⁴⁾ option of the tenant, may obligate us to expend capital to expand an existing property or provide other expenditures for the benefit of the tenant, including a commitment to contribute \$70.1 million toward leasehold improvements. See Note 7, Commitments and Contingencies, for more information.

Results of Operations

Overview

As of June 30, 2016, we owned controlling interests in 26 office properties and one hotel. As of June 30, 2016, our operational office properties were approximately 90.6% leased. Our operating results are impacted by recent acquisition, disposition, and joint venture activity, as set forth below. In the near-term, we expect real estate operating income to fluctuate, primarily based on acquisitions, dispositions, and leasing activities.

Comparison of the three months ended June 30, 2016 with the three months ended June 30, 2015

Rental income was \$93.6 million for the three months ended June 30, 2016, which represents a decrease as compared with \$112.9 million for the three months ended June 30, 2015. The decrease is primarily due to dispositions (\$16.5 million) and transferring the Market Square Buildings to a joint venture (\$9.8 million), partially offset by the acquisition of the 229 West 43rd Street Building in August 2015 (\$8.2 million). We expect future rental income to fluctuate based on leasing, acquisition, and disposition activity.

Tenant reimbursements and property operating costs were \$18.7 million and \$40.2 million, respectively, for the three months ended June 30, 2016, which reflects a proportional decrease as compared with \$26.5 million and \$48.1 million, respectively, for the three months ended June 30, 2015. The decrease in tenant reimbursements is due to dispositions (\$4.7 million) and the transfer of the Market Square Buildings to a joint venture (\$3.5 million), partially offset by the acquisition of the 229 West 43rd Street Building (\$0.7 million). The decrease in property operating costs is also due to dispositions (\$7.1 million) and the transfer of the Market Square Buildings to a joint venture (\$5.0 million), partially offset by the acquisition of the 229 West 43rd Street Building (\$2.5 million). Tenant reimbursements and property operating costs are expected to fluctuate with leasing activity and changes in our portfolio.

Hotel income, net of hotel operating costs, was \$1.5 million for the three months ended June 30, 2016, which represents a decrease as compared with \$1.8 million for the three months ended June 30, 2015, primarily due to a higher level of group bookings and meetings at the hotel in the second quarter of 2015. Hotel income and hotel operating costs are primarily driven by the local economic conditions and, as a result, are expected to fluctuate in the future, primarily based on changes in the supply of, and demand for, hotel and banquet space in Cleveland, Ohio, similar to that offered by the Key Center Marriott hotel.

Other property income was \$9.1 million for the three months ended June 30, 2016, which represents an increase as compared with \$1.7 million for the three months ended June 30, 2015, primarily due to an early termination at our 222 East 41st Street property. The terminated space has been relet in a full-building lease, expected to commence later in 2016. Future other property income is expected to fluctuate, primarily as a result of lease restructuring and termination activities.

Asset and property management fees were \$0.3 million for the three months ended June 30, 2016, which represents a decrease as compared with \$0.5 million for the three months ended June 30, 2015, primarily due to transferring the Market Square Buildings to a joint venture in the fourth quarter of 2015. Future asset and property management fees are expected to fluctuate primarily based on future acquisition and disposition activity.

Depreciation was \$28.5 million for the three months ended June 30, 2016, which represents a decrease as compared with \$33.8 million for the three months ended June 30, 2015, primarily due to dispositions (\$5.3 million) and transferring the Market Square Buildings to a joint venture (\$3.6 million), partially offset by the acquisition of the 229 West 43rd Street Building in August 2015 (\$2.3 million). Excluding the impact of additional acquisitions and dispositions, depreciation is expected to increase in future periods due to ongoing capital improvements at our existing properties.

Amortization was \$14.9 million for the three months ended June 30, 2016, which represents a decrease as compared with \$23.7 million for the three months ended June 30, 2015. The decrease is primarily due to the expiration of leases (\$4.8 million), dispositions (\$3.3 million), and transferring the Market Square Buildings to a joint venture (\$2.0 million), partially offset by the acquisition of the 229 West 43rd Street Building in August 2015 (\$1.4 million). We expect future amortization to fluctuate primarily as a result of future leasing activity, acquisitions, and dispositions.

General and administrative expenses were \$7.8 million for the three months ended June 30, 2016, which represents an increase as compared with \$7.1 million for the three months ended June 30, 2015, primarily due to the continued development of our regional management and investment platform, and additional vesting under our stock-based incentive compensation plan. We expect future general and administrative expenses to remain at similar levels over the near-term as a result of developing our regional platform.

Interest expense was \$17.4 million for the three months ended June 30, 2016, which represents a decrease as compared with \$22.8 million for the three months ended June 30, 2015, primarily due to transferring the Market

Square mortgage note to a joint venture (\$4.1 million) and repaying mortgage loans (\$1.6 million). We expect interest expense to continue to decrease slightly in the near-term as disposition proceeds are used to reduce borrowings on our Revolving Credit Facility.

Interest and other income was stable at \$1.8 million for the three months ended June 30, 2016 and 2015. Interest income is expected to remain at comparable levels in future periods, as the majority of this income is earned on investments in development authority bonds with a remaining term of approximately 5.5 years as of June 30, 2016. Interest income earned on development authority bonds is entirely offset by interest expense incurred on the corresponding capital leases.

Table of Contents

We recognized a loss on interest rate swaps of \$2,000 for the three months ended June 30, 2015, related to the 333 Market Street Building mortgage note, which was repaid in June 2015. We do not anticipate gains and losses on interest rate swaps in the near-term, as our only interest rate swap is accounted for as a hedge; thus, changes in the market value are recorded to other comprehensive income.

We recognized a loss on early extinguishment of debt of \$0.1 million for the three months ended June 30, 2016 primarily to write off deferred financing costs in connection with repaying the \$119.0 million remaining on the \$300 Million Bridge Loan in April 2016 (approximately three months before maturity). We expect future gains or losses on early extinguishments of debt to fluctuate with financing activities.

We recognized a loss from unconsolidated joint venture of \$2.0 million for the three months ended June 30, 2016, as our 51% pro-rata share of net operating income from the Market Square Buildings was offset by our 51% pro-rata share of interest incurred on the property's \$325 million mortgage note. Future income or loss from unconsolidated joint venture will fluctuate with leasing and other operating activities at the Market Square Buildings.

Net Income

Net income was \$13.3 million, or \$0.11 per basic and diluted share, for the three months ended June 30, 2016, which represents an increase as compared with \$8.7 million, or \$0.07 per basic and diluted share, for the three months ended June 30, 2015. The increase is due to lease termination income earned in June 2016 (\$6.2 million) and the impact of the acquisition of the 229 West 43rd Street Building in August 2015 (\$2.5 million), partially offset by the impact of property sales, including the sale of a 49% interest in the Market Square Buildings and related mortgage note through an unconsolidated joint venture (\$5.0 million). See "Supplemental Performance Measures" section below for our same store results compared with the prior year. We expect future earnings to fluctuate as a result of leasing activity at our existing properties, our planned near-term dispositions, and acquisition activity.

Comparison of the six months ended June 30, 2016 with the six months ended June 30, 2015

Rental income was \$193.2 million for the six months ended June 30, 2016, which represents a decrease as compared with \$225.7 million for the three months ended June 30, 2015. The decrease is primarily due to dispositions (\$28.0 million) and transferring the Market Square Buildings to a joint venture (\$19.6 million), partially offset by the acquisition of the 229 West 43rd Street Building in August 2015 (\$16.7 million). We expect future rental income to fluctuate based on leasing, acquisition, and disposition activity.

Tenant reimbursements and property operating costs were \$38.5 million and \$81.6 million, respectively, for the six months ended June 30, 2016, which reflects a proportional decrease as compared with \$54.8 million and \$97.8 million, respectively, for the six months ended June 30, 2015. The decrease in tenant reimbursements is due to dispositions (\$8.6 million) and the transfer of the Market Square Buildings to a joint venture (\$6.5 million), partially offset by the acquisition of the 229 West 43rd Street Building (\$1.8 million). The decrease in property operating costs is also due to dispositions (\$11.0 million) and the transfer of the Market Square Buildings to a joint venture (\$9.9 million), partially offset by the acquisition of the 229 West 43rd Street Building (\$5.2 million). Tenant reimbursements and property operating costs are expected to fluctuate with leasing activity and changes in our portfolio.

Hotel income, net of hotel operating costs, was \$1.8 million for the six months ended June 30, 2016, which represents a decrease as compared with \$2.2 million for the six months ended June 30, 2015, primarily due to a higher level of group bookings and meetings at the hotel in the second quarter of 2015. Hotel income and hotel operating costs are primarily driven by the local economic conditions and, as a result, are expected to fluctuate in the future, primarily based on changes in the supply of, and demand for, hotel and banquet space in Cleveland, Ohio, similar to that offered by the Key Center Marriott hotel.

Other property income was \$11.7 million for the six months ended June 30, 2016, which represents an increase as compared with \$3.2 million for the six months ended June 30, 2015, primarily due to an early termination at our 222 East 41st Street property (\$6.2 million) and management fees earned from the Market Square Joint Venture in 2016 (\$1.3 million), as described in Note 4, Unconsolidated Joint Venture. The terminated space has been relet in a full-building lease expected to commence later in 2016. Future other property income is expected to fluctuate, primarily as a result of lease restructuring and termination activities.

Asset and property management fees were \$0.7 million for the six months ended June 30, 2016, which represents a decrease as compared with \$0.9 million for the six months ended June 30, 2015, primarily due to transferring the Market Square Buildings to a joint venture in the fourth quarter of 2015. Future asset and property management fees are expected to fluctuate with future acquisition and disposition activity.

Table of Contents

Depreciation was \$57.7 million for the six months ended June 30, 2016, which represents a decrease as compared with \$67.8 million for the six months ended June 30, 2015, primarily due to dispositions (\$10.0 million) and transferring the Market Square Buildings to a joint venture (\$7.2 million), partially offset by the acquisition of the 229 West 43rd Street Building in August 2015 (\$4.7 million). Excluding the impact of additional acquisitions and dispositions, depreciation is expected to increase in future periods due to ongoing capital improvements at our existing properties. Amortization was \$31.0 million for the six months ended June 30, 2016, which represents a decrease as compared with \$47.0 million for the six months ended June 30, 2015. The decrease is primarily due to the expiration of leases (\$8.0 million), dispositions (\$5.9 million), and transferring the Market Square Buildings to a joint venture (\$4.3 million), partially offset by the acquisition of the 229 West 43rd Street Building in August 2015 (\$2.8 million). We expect future amortization to fluctuate primarily as a result of future leasing activity, acquisitions, and dispositions. General and administrative expenses were \$18.3 million for the six months ended June 30, 2016, which represents an increase as compared with \$15.1 million for the six months ended June 30, 2015. The increase is due to costs incurred to develop our regional management and investment platform (\$1.5 million), bad-debt expenses (\$0.6 million), and additional vesting under our stock-based incentive compensation plan (\$0.5 million). We expect future general and administrative expenses to decrease over the near-term due to the transitional costs incurred to develop our regional platform.

For the six months ended June 30, 2015, we incurred total acquisition expenses of \$2.0 million in connection with acquiring three properties in January 2015. See Note 3, Real Estate Transactions, of the accompanying financial statements for details of these acquisitions. We expect future acquisition expenses to fluctuate with acquisition activity.

Interest expense was \$35.3 million for the six months ended June 30, 2016, which represents a decrease as compared with \$44.2 million for the six months ended June 30, 2015, primarily due to transferring the Market Square mortgage note to a joint venture (\$8.2 million) and repaying mortgage loans (\$4.1 million), partially offset by the issuance of bonds in March 2015 (\$2.8 million). We expect interest expense to continue to decrease slightly in the near-term as disposition proceeds are used to reduce borrowings on our Revolving Credit Facility.

Interest and other income was stable at \$3.6 million for the six months ended June 30, 2016 and 2015. Interest income is expected to remain at comparable levels in future periods, as the majority of this income is earned on investments in development authority bonds with a remaining term of approximately 5.5 years as of June 30, 2016. Interest income earned on development authority bonds is entirely offset by interest expense incurred on the corresponding capital leases.

We recognized a loss on interest rate swaps of \$8,000 for the six months ended June 30, 2015, related to the 333 Market Street Building mortgage note, which was repaid in June 2015. We do not anticipate gains and losses on interest rate swaps in the near-term, as our only interest rate swap is accounted for as a hedge; thus, changes in the market value are recorded to other comprehensive income.

We recognized a loss on early extinguishment of debt of \$0.1 million and \$0.5 million for the six months ended June 30, 2016 and 2015, respectively. In April 2016, we repaid a bridge loan used to finance a portion of the acquisition of the 229 West 43rd Street Building, approximately three months early. In March 2015, we repaid a bridge loan used to finance acquisitions in January of 2015 approximately four months early. Both early repayments resulted in the write-off of related deferred financing costs. We expect future gains or losses on early extinguishments of debt to fluctuate with financing activities.

We recognized a loss from unconsolidated joint venture of \$3.5 million for the six months ended June 30, 2016, as our 51% pro-rata share of net operating income from the Market Square Buildings was offset by our 51% pro-rata share of interest incurred on the property's \$325 million mortgage note. Future income or loss from unconsolidated joint venture will fluctuate with operating activity at the Market Square Buildings.

Net Income

Net income was \$20.0 million, or \$0.16 per basic and diluted share, for the six months ended June 30, 2016, which represents an increase as compared with \$14.3 million, or \$0.11 per basic and diluted share, for the six months ended June 30, 2015. The increase is due to lease termination activity in the current year (\$6.9 million) and the acquisition of

the 229 West 43rd Street Building in August of 2015 (\$5.1 million), partially offset by the impact of property sales, including the sale of a 49% interest in the Market Square Buildings and related mortgage note through an unconsolidated joint venture (\$6.2 million). See "Supplemental Performance Measures" section below for our same store results compared with the prior year period. We expect future earnings to fluctuate as a result of leasing activity at our existing properties, our planned near-term dispositions, and acquisition activity.

Table of Contents

Supplemental Performance Measures

In addition to net income, we measure the performance of the company using certain non-GAAP supplemental performance measures, including: (i) Funds From Operations ("FFO"), (ii) Net Operating Income ("NOI"), and (iii) Same Store Net Operating Income ("Same Store NOI"). These non-GAAP metrics are commonly used by industry analysts and investors as supplemental operation performance measures of REITs and are viewed by management to be useful indicators of operating performance. Historical cost accounting for real estate assets in accordance with GAAP implicitly assumes that the value of real estate assets diminishes predictably over time. Since real estate values instead have historically risen or fallen with market conditions, many industry analysts and investors have considered presentation of operating results for real estate companies using historical cost accounting alone to be insufficient. Management believes that the use of FFO, NOI, and Same Store NOI, combined with net income, improves the understanding of operating results of REITs among the investing public and makes comparisons of REIT operating results more meaningful.

Net income is the most comparable GAAP measure to FFO, NOI, and Same Store NOI. Each of these supplemental performance measures exclude expenses that materially impact our overall results of operations and, therefore, should not be considered as a substitute for net income, income before income taxes, or any other measures derived in accordance with GAAP. Furthermore, these metrics may not be comparable to other similarly titled measures used by other companies.

Funds From Operations

FFO is a non-GAAP measure used by many investors and analysts who follow the real estate industry to measure the performance of an equity REIT. We consider FFO a useful measure of our performance because it principally adjusts for the effects of GAAP depreciation and amortization of real estate assets, which assumes that the value of real estate diminishes predictably over time. Since real estate values have historically risen or fallen with market conditions, we believe that FFO provides a meaningful supplemental measure of our performance. We believe that the use of FFO, combined with the required GAAP presentations, is beneficial in improving our investors' understanding of our operating results and allowing for comparisons among other companies who define FFO as we do.

FFO, as defined by the National Association of Real Estate Investment Trusts ("NAREIT"), represents net income (computed in accordance with GAAP), excluding gains (losses) on sales of real estate and impairments of real estate assets, plus real estate-related depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures, for both continuing and discontinued operations. We compute FFO in accordance with NAREIT's definition, which may differ from the methodology for calculating FFO, or similarly titled measures, used by other companies, and this may not be comparable to those presentations.

FFO does not represent amounts available for management's discretionary use because of needed capital replacement or expansion, debt service obligations, or other commitments and uncertainties, nor is it indicative of funds available to fund our cash needs, including our ability to make distributions. Our presentation of FFO should not be considered as an alternative to net income (computed in accordance with GAAP) as an indicator of financial performance.

Net Operating Income

As set forth below, NOI is calculated by deducting property operating costs from rental and other property revenues for continuing operations. As a performance metric consisting of only revenues and expenses directly related to ongoing real estate rental operations, which have been or will be settled in cash, NOI is narrower in scope than FFO. NOI, as we calculate it, may not be directly comparable to similarly titled, but differently calculated, measures for other REITs. We believe that NOI is another useful supplemental performance measure, as it is an input in many REIT valuation models and it provides a means by which to evaluate the performance of the properties.

The major factors influencing our NOI are property acquisitions and dispositions, occupancy levels, rental rate increases or decreases, and the recoverability of operating expenses.

Same Store Net Operating Income

We also evaluate the performance of our properties, on a "same store" basis, using a metric referred to as Same Store NOI. We view Same Store NOI as a useful supplemental performance measure because it improves comparability between periods by eliminating the effects of changes in the composition of our portfolio.

On an individual property basis, Same Store NOI is computed in a consistent manner as NOI. For the periods presented, we have defined our same store portfolio as those properties that have been owned and in operation since April 1, 2015, including the operating revenues and expenses related to our current share of the Market Square Buildings (51%). NOI and Same Store NOI are calculated as follows for the three months ended June 30, 2016 and 2015 (in thousands):

Election as a REIT

We have elected to be taxed as a REIT under the Code, and have operated as such beginning with our taxable year ended December 31, 2003. To qualify as a REIT, we must meet certain organizational and operational requirements, including a requirement to distribute at least 90% of our adjusted taxable income, as defined in the Code, to our stockholders, computed without regard to the dividends-paid deduction and by excluding our net capital gain. As a REIT, we generally will not be subject to federal income tax on income that we distribute to our stockholders. If we fail to qualify as a REIT in any taxable year, we will then be subject to federal income taxes on our taxable income for that year and for the four years following the year during which qualification is lost, unless the Internal Revenue Service grants us relief under certain statutory provisions. Such an event could materially affect our net income and net cash available for distribution to our stockholders. However, we believe that we are organized and operate in such a manner as to qualify for treatment as a REIT for federal income tax purposes.

The TRS Entities are wholly owned subsidiaries of Columbia Property Trust, are organized as Delaware limited liability companies, and operate, among other things, office properties that we do not intend to hold long term and a full-service hotel. We have elected to treat the TRS Entities as taxable REIT subsidiaries. We may perform certain additional, noncustomary services for tenants of our buildings through the TRS Entities; however, any earnings related to such services are subject to federal and state income taxes. In addition, for us to continue to qualify as a REIT, we must limit our investments in taxable REIT subsidiaries to 25% of the value of our total assets. Deferred tax assets and liabilities are established for temporary differences between the financial reporting basis and the tax basis of assets and liabilities at the enacted rates expected to be in effect when the temporary differences reverse.

No provisions for federal income taxes have been made in our accompanying consolidated financial statements, other than the provisions relating to the TRS Entities, as we made distributions in excess of taxable income for the periods

presented. We are subject to certain state and local taxes related to property operations in certain locations, which have been provided for in our accompanying consolidated financial statements.

Inflation

We are exposed to inflation risk, as income from long-term leases is the primary source of our cash flows from operations. There are provisions in the majority of our tenant leases that are intended to protect us from, and mitigate the risk of, the impact of inflation. These provisions include rent steps, reimbursement billings for operating expense pass-through charges, real estate tax and insurance reimbursements on a per-square-foot basis, or in some cases, annual reimbursement of operating expenses above a

certain per-square-foot allowance. However, due to the long-term nature of the leases, the leases may not reset frequently enough to fully cover inflation.

Application of Critical Accounting Policies

There have been no material changes in our critical accounting policies from those disclosed in our Annual Report on Form 10-K for the year ended December 31, 2015.

Related-Party Transactions

During the six months ended June 30, 2016 and 2015, we did not have any related party transactions, except as described in Note 4, Unconsolidated Joint Venture, of the accompanying financial statements.

Commitments and Contingencies

We are subject to certain commitments and contingencies with regard to certain transactions. Refer to Note 7, Commitments and Contingencies, of our accompanying consolidated financial statements for further explanation.

Examples of such commitments and contingencies include:

- structural repairs at one of our properties, ranging from \$30.0 million to \$35.0 million;
- guaranty of debt of an unconsolidated joint venture of \$23.3 million;
- obligations under operating leases;
- obligations under capital leases;
- commitments under existing lease agreements, including a commitment for \$70.1 million in leasehold improvements related to a recently executed lease, which is expected to be paid during 2016 and 2017; and
- litigation.

Subsequent Events

We have evaluated subsequent events in connection with the preparation of its consolidated financial statements and notes thereto included in this report and noted the following items in addition to those disclosed elsewhere in this report:

Property Disposition

On July 8, 2016, we closed on the sale of the 800 North Frederick Building, as described in Note 3, Real Estate Transactions, of the accompanying consolidated financial statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As a result of certain of our debt facilities, we are exposed to interest rate changes. Our interest rate risk management objectives are to limit the impact of interest rate changes on earnings and cash flow, primarily through a low to moderate level of overall borrowings. However, we currently have a substantial amount of debt outstanding. We manage our ratio of fixed- to floating-rate debt with the objective of achieving a mix that we believe is appropriate in light of anticipated changes. We closely monitor interest rates and will continue to consider the sources and terms of our borrowing facilities to determine whether we have appropriately guarded ourselves against the risk of increasing interest rates in future periods.

Additionally, we have entered into interest rate swaps, and may enter into other interest rate swaps, caps, or other arrangements to mitigate our interest rate risk on a related financial instrument. We do not currently enter into derivative or interest rate transactions for speculative purposes; however, certain of our derivatives may not qualify for hedge accounting treatment. All of our debt was entered into for other-than-trading purposes.

Our financial instruments consist of both fixed-rate and variable-rate debt. Our variable-rate borrowings consist of the Revolving Credit Facility, the \$300 Million Term Loan, and the \$150 Million Term Loan. However, only the Revolving Credit Facility and the \$300 Million Term Loan bear interest at effectively variable rates, as the variable rate on the \$150 Million Term Loan has been effectively fixed through the interest rate swap agreement described in the "Liquidity and Capital Resources" section of Item 2, Management's Discussion and Analysis of Financial Condition and Results of Operations.

As of June 30, 2016, we had \$333.0 million of outstanding borrowings under the Revolving Credit Facility; \$150.0 million outstanding on the \$150 Million Term Loan; \$300.0 million outstanding on the \$300 Million Term Loan; \$249.6 million in 2018 Bonds Payable outstanding; \$349.6 million in 2025 Bonds Payable outstanding; and \$277.3 million outstanding on fixed-rate, term mortgage loans. The weighted-average interest rate of all of our debt instruments was 3.39% as of June 30, 2016.

Table of Contents

Approximately \$1,026.5 million of our total debt outstanding as of June 30, 2016, is subject to fixed rates, either directly or when coupled with an interest rate swap agreement. As of June 30, 2016, these balances incurred interest expense at an average interest rate of 4.51% and have expirations ranging from 2017 through 2025. The amounts outstanding on our Revolving Credit Facility in the future will largely depend upon future acquisition and disposition activity.

Our unconsolidated Market Square Joint Venture holds a \$325 million mortgage note, which bears interest at 5.07%. Adjusting for our pro-rata share (51%) of the Market Square Buildings mortgage note, our weighted-average interest rate is 3.54%.

We do not believe there is any exposure to increases in interest rates related to the capital lease obligations of \$120.0 million at June 30, 2016, as the obligations are at fixed interest rates.

ITEM 4. CONTROLS AND PROCEDURES

Management's Conclusions Regarding the Effectiveness of Disclosure Controls and Procedures

We carried out an evaluation, under the supervision and with the participation of management, including the Principal Executive Officer and Principal Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rule 13a-15(e) under the Securities Exchange Act of 1934 as of the end of the period covered by this report. Based upon that evaluation, the Principal Executive Officer and Principal Financial Officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report in providing a reasonable level of assurance that information we are required to disclose in reports that we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized, and reported within the time periods in SEC rules and forms, including providing a reasonable level of assurance that information required to be disclosed by us in such reports is accumulated and communicated to our management, including our Principal Executive Officer and our Principal Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal control over financial reporting during the quarter ended June 30, 2016, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

From time to time, we are party to legal proceedings, which arise in the ordinary course of our business. We are not currently involved in any legal proceedings of which the outcome is reasonably likely to have a material adverse effect on our results of operations, liquidity, or financial condition, nor are we aware of any such legal proceedings contemplated by governmental authorities.

ITEM 1A. RISK FACTORS

There have been no material changes from the risk factors disclosed in the "Risk Factors" section of our Annual Report on Form 10-K for the year ended December 31, 2015.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

(a) During the quarter ended June 30, 2016, we did not sell any equity securities that were not registered under the Securities Act of 1933.

(b) Not applicable.

On September 4, 2015, our board of directors approved the Stock Repurchase Program, which provides for (c) Columbia Property Trust to buy up to \$200 million of our common stock over a two-year period, ending on September 4, 2017.

During the quarter ended June 30, 2016, we did not purchase or retire any shares in accordance with the Stock Repurchase Program. The following shares were remitted for income taxes associated with stock grants under the Long-Term Incentive Plan:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plan	Maximum Approximate Dollar Value Available for Future Purchase ⁽¹⁾
April 2016	1,076	\$ 22.30	—	\$ 158,683,331
May 2016	—	\$ —	—	\$ 158,683,331
June 2016	—	\$ —	—	\$ 158,683,331

(1) Amounts available for future purchase relate only to our Stock Repurchase Program, and represent the remainder of the \$200 million authorized by our board of directors for share repurchases.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES
