The Best Investor Relations Program for Retail Investors Award

Rio de Janeiro, June 23, 2009 PETRÓLEO BRASILEIRO S/A - PETROBRAS, informs that the American publication, Investor Relations Magazine, awarded the Company as the best Investor Relations for an Individual Investor during the IR Magazine Awards Brazil 2009. The award was organized in conjunction with the Brazilian publication, Revista RI, and with the support of IBRI (Investors Relations Brazilian Institution).

Petrobras has also received honorable mention in three categories: corporate branding, annual report and investor relations web site.

This award, which was based on a survey conducted by the Brazilian research institution, Fundação Getúlio Vargas FGV, with 400 analysts and investors, is recognized throughout the world as the rankings of greatest prestige with respect to performance of listed companies in the area of communication and investors relations.

The award reflects the market's recognition of the Company's efforts in the investor relations area to attend, approximately, one million shareholders in 2008, an increase of 40% to the 2007 base.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
