**New well confirms potential Tupi oil reserves**

Rio de Janeiro, April 07 2010   Petróleo Brasileiro S.A. - Petrobras announces that it finalized the drilling of another well in the Tupi area which confirms the potential of the pre-salt reservoirs in that area.

The new well, 3-BRSA-795-RJS (3-RJS-666), and informally known as Tupi OW, is located in the area of the Tupi Evaluation Plan, at a depth of 2,131 meters below the water line, nearly 270 km of the coast of Rio de Janeiro, and 12.5 km northeast of discovery well 1-RJS-628 (1-BRSA-369), known as Tupi.

The discovery was proved by means of light oil samplings (approximately 25° API) collected via a cable test from reservoirs located at depths greater than those of previously drilled wells and was notified to the National Petroleum Agency (ANP) today. The result reinforces the estimations of the potential of 5 to 8 billion barrels of recoverable light oil and natural gas in the Tupi pre-salt area.

The Consortium, formed by Petrobras (65% - Operator), BG Group (25%), and Galp (10%), to explore block BM-S-11, where Tupi is located, will carry on with the activities and investments called for in the Evaluation Plan which was approved by the ANP and foresees the drilling of other wells until the declaration of commerciality, which is expected to be made in December 2010.

## FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (Exchange Act) that are not based on historical facts and are not assurances of future results. These forward-looking statements are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.

All forward-looking statements are expressly qualified in their entirety by this cautionary statement, and you should not place reliance on any forward-looking statement contained in this press release. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information or future events or for any other reason.
