VERIZON SAVINGS PLAN FOR MANAGEMENT EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

(Continued)

(4) Vesting and Contributions:

A participant shall be fully vested in the employer-matching contributions allocated to their account or ESOP account, and any income thereon upon completing three years of vesting service or upon their death, disability, retirement from Verizon or a Participating Affiliate, attainment of normal retirement age, or involuntary termination.

Through December 31, 2001, the Plan was funded by employee contributions up to a maximum of 16% of compensation and by employer matching contributions in shares of Verizon common stock equivalent in value to 75% of the initial 6% of the participants' contributions of eligible compensation for each payroll period not withdrawn or distributed during the Plan year.

Effective January 1, 2002, the matching contribution in shares of Verizon common stock was changed to 83 1/3% of the initial 6% of the participants' contributions of eligible compensation for each payroll period.

Participant contributions may be before tax (Elective Contributions) or from currently taxed compensation (After-Tax Contributions). Each participant's Elective Contributions for the 2002 Plan year was limited to \$11,000. The total amount of Elective Contributions, After-Tax Contributions and matching contributions and certain forfeitures that may be allocated to a Plan participant was limited to the lesser of (1) \$40,000 or (2) 25% of the participant's total compensation; and the compensation on which such contributions were based was limited to \$200,000.

Employer matching contributions are made in Verizon common stock and in general, participants cannot redirect these shares into other investment choices. The Verizon common stock is held by the Plan in a unitized fund, which means participants do not actually own shares of Verizon common stock but rather own an interest in the unitized funds.

Effective January 1, 2002, participants age fifty and older with one year of service are allowed to move employer matching contributions into other investment options. In Note 3, the Diversification Adjustment represents the assets of those participants who became eligible to direct their employer match into other fund options.

For the 2002 Plan year, total company matching contributions of 5.4 million shares of Verizon common stock were made with a market value at date of contribution of \$207 million.

Edgar Filing: BRASKEM SA - Form 6-K/A

(5) Related Party Transactions:

Certain Plan investments are shares of mutual funds managed by the Trustee. Therefore, those transactions qualify as party-in-interest, but they are subject to an exemption to the party-in-interest rules. Fees paid by the Plan for the investment management services amounted to \$2.7 million for the 2002 Plan year.

Verizon Investment Management Corp. (VIMCO), a wholly owned subsidiary of Verizon, is the investment advisor for certain investment funds and therefore qualifies as a party-in-interest. VIMCO received no compensation from the Plan other than reimbursement of certain expenses directly attributable to its investment advisory and investment management services rendered to the Plan.

(6) Income Tax Status:

The Plan has received a determination letter from the Internal Revenue Service dated April 29, 1998, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

(7) Employee Stock Ownership Plan:

An ESOP was established within the Plan. In 1989, the ESOP borrowed \$700 million to acquire, at market value, approximately 30 million shares of Verizon common stock, which will be used to meet a substantial portion of the estimated employer matching contributions to the Plan through 2004. Verizon and the Participating Affiliates also make annual cash contributions to the ESOP which, when combined with dividends on the Verizon common stock held by the ESOP, are sufficient to repay the principal and interest on the loan. As the ESOP makes loan payments, a percentage of the Verizon common stock held by the ESOP is allocated to the participants' accounts in the form of employer matching contributions.

Debt service payments for 2002 totaled \$202 million, which was funded with \$76 million of dividends accumulated on the Verizon stock held by the ESOP and \$126 million of cash contributions.

The VBASP Plan, which merged into the Plan effective December 31, 2001, also contained an ESOP feature. As a result, additional ESOP borrowings consisting of two notes totaling approximately \$389 million and 10.6 million total shares of unallocated Verizon common stock transferred into the Plan.

At December 31, 2002, 14.1 million shares of Verizon common stock in the ESOP Shares Fund were held as collateral for the ESOP loans. The borrowings of the ESOP are as follows (in thousands):

Interest	Maturity		
Rate	Dates	2002	2001
_____	_____	_____	_____

Edgar Filing: BRASKEM SA - Form 6-K/A

Series B	9.73%	2001	2005	\$ 222,163	\$ 311,357
NYNEX ESOP	9.778%	1990	2015	289,264	310,007
BA ESOP	4.64 7.4%	1990	2005	48,860	79,364

Maturities of the outstanding loans are as follows (in thousands):

Maturity	
Date	Amount
2003	\$ 142,163
2004	156,846
2005	39,328
2006	24,107
2007	24,957
Thereafter	172,886
Total	\$560,287

Verizon has guaranteed all principal and interest payments on the ESOP borrowings in the event of default by the Plan.

(8) Investments in Master Trusts:

Investments in securities traded on national and foreign securities exchanges are valued at the last reported sale prices on the last business day of the year or, if no sales were reported on that date, at the last reported bid prices. Over-the-counter securities and government obligations are valued at the bid prices or the average of the bid and ask prices on the last business day of the year from published sources where available or, if not available, from other sources considered reliable, generally broker quotes. Temporary cash investments are stated at redemption value, which approximates fair value.

Forward currency and index futures are accounted for as contractual commitments on a trade-date basis and are carried at fair value derived from their respective price prevailing on the last business day of the year. Foreign exchange rates and index futures prices are readily available from published sources.

At December 31, 2002, the Master Trust contained certain investments in futures and forwards contracts that are considered derivative investments. However, the total fair value and the net investment income (loss) is not material to the Plan.

A portion of certain funds in the Master Trust is invested in 43 contracts held with 18 insurance companies and banks. Standard & Poor's, as of December 31, 2002 and 2001, rated the issuers of these contracts and the contracts' underlying securities A+ and A or better, respectively. The contracts are included in the Master Trust assets at contract value, approximately \$2.1 and \$2.0 billion, which approximates fair value, as reported by the insurance companies and banks at December 31, 2002 and 2001, respectively.

Contract value represents contributions made under the contracts, plus accrued interest, less withdrawals and administrative expenses. Investment contracts are normally set at a fixed rate through maturity, which is also the minimum crediting rate. The repayment of principal when the contract matures is solely the general debt obligation of the contract issuer. Synthetic contracts combine investments in fixed income securities with wrap contracts to provide a crediting rate. There is no immediate recognition of investment gains and losses on the fixed income securities. Instead, the gain or loss is recognized over time by adjusting the interest rate credited under the wrap contract. The crediting rate is typically reset quarterly and has a floor rate of zero. The repayment of principal depends on the creditworthiness of the underlying fixed income securities. The fair value of the synthetic investment contracts was approximately \$1.7 and \$1.3 billion at December 31, 2002 and 2001, respectively. The contract value of the synthetic investment contracts was approximately \$1.6 and \$1.2 billion at December 31, 2002 and 2001, respectively.

The contracts had average yields of 5.77% and 6.62% at December 31, 2002 and 2001, respectively. The crediting interest rate for the contracts had a range from 5.15% to 7.50% and 5.12% to 7.50% at December 31, 2002 and 2001, respectively. The contracts have scheduled maturities from January 2, 2003 to July 5, 2006, at December 31, 2002. No valuation reserve was recorded at December 31, 2002 and 2001 to adjust

contract amounts.

NOTES TO FINANCIAL STATEMENTS

(Continued)

The following schedules reflect the Master Trust net investments by investment type as of December 31, 2002 and 2001, and investment income (loss) for the year ended December 31, 2002 (in thousands):

	Investments in		Net Investment Income (Loss)	
	Master Trust		in Master Trust	
	December 31,		Year Ended December 31, 2002	
	2002	2001	Interest & Dividends	Net appreciation (depreciation)
Verizon common stock	\$ 5,971,643	\$ 8,111,638	\$ 279,505	\$ (1,463,050)
Investment contracts	2,135,323	2,009,622		120,639
Commingled funds	1,483,099	1,241,379		(200,190)
Mutual funds	1,623,493	1,356,184	38,466	(318,465)

Total	\$ 12,424,462	\$ 14,554,623	\$ 355,560	\$ (1,861,066)

The Equity Funds are primarily comprised of common stock with a fair value at December 31, 2002 and 2001 of approximately \$1.5 billion and \$2.4 billion, respectively. The Equity Funds had dividend and interest earnings of approximately \$32 million, and a net investment loss of approximately \$551 million for the year.

The Plan's interest in the carrying value of the Master Trust and Equity Funds and the related investment income (loss) are reported in the investment in Master Trusts in the statements of net assets available for benefits and net investment income (loss) in the statement of changes in net assets available for benefits, respectively.
