### **New discovery of good quality oil in Santos Basin pre-salt**

Rio de Janeiro, February 25<sup>th</sup>, 2013 – Petróleo Brasileiro S.A. – Petrobras announces that it has confirmed the presence of good quality oil (31 ° API) in ultra deep waters of Santos Basin pre-salt while drilling well 1-SPS-98 (1-BRSA-1063-SPS), informally known as Sagitário. This is the first well to be drilled in block BM-S-50 and is located 194 km off the coast of São Paulo state, at a water depth of 1,871 meters.

The concession where this well is being drilled is located west of the main discoveries of the Santos Basin pre-salt (cluster blocks). The importance of this discovery lies on the fact that this is an exploratory frontier.

The oil was found in carbonate reservoirs below the salt layer at a depth of 6,150 meters. The well is still in the drilling phase, which is set to continue until the planned depth of 6,950 meters, with the aim of defining the base of the oil reservoirs.

Petrobras is the operator of the consortium (60%) in partnership with BG E&P Brasil (20%) and Repsol Sinopec Brasil (20%).

## FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (Exchange Act) that are not based on historical facts and are not assurances of future results. These forward-looking statements are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.

All forward-looking statements are expressly qualified in their entirety by this cautionary statement, and you should not place reliance on any forward-looking statement contained in this press release. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information or future events or for any other reason.
